PRESENTATION OF
THE DEPARTMENT OF COMMERCE AND CONSUMER AFFAIRS
BEFORE THE
HOUSE COMMITTEE ON FINANCE
SUPPLEMENTAL BUDGET REQUEST FOR FISCAL YEAR 2021
THE THIRTIETH LEGISLATURE
JANUARY 10, 2020

Honorable Chair Luke, Vice Chair Cullen, and Members of the House Committee on Finance.

I am Catherine Awakuni Colón, and I am the Director of the Department of Commerce and Consumer Affairs (“DCCA” or “Department”). I appreciate this opportunity to discuss the Department’s fiscal year (“FY”) 2021 budget with the members of the Committee.

Overview

The Department's mission is to promote a strong and healthy business environment by upholding fairness and public confidence in the marketplace, and by increasing knowledge and opportunity for our businesses and citizens.

DCCA’s funding structure was established by the Legislature in 1996 through the creation of the compliance resolution fund (“CRF”). The CRF is the primary funding source for DCCA’s programs. The Department’s financial strategy is based on ensuring that divisions have revenues to pay their expenses and that they contribute equitably to departmental overhead costs, while maintaining sufficient reserves to address unexpected contingencies. The Legislature’s foresight to develop this self-sufficiency model has benefitted our customers and the public we serve and the State over many years. Self-sufficiency notwithstanding, strong fiscal oversight continues to be important to the Department. Consistent with applicable law, the fees and revenue collected by the Department are provisioned for the purpose of delivering important commerce and consumer protection related services.

Toward that end, I appreciate the Committee’s thorough review and consideration of

the Department's budget.

Impact of Current Economic and Fiscal Conditions

Discuss how current state-wide conditions have affected agency operations and the ability to meet goals. Identify and discuss notable performance measures, expected outcomes, and recent results.

The Department and its divisions and attached agencies continued throughout fiscal year ("FY") 2019 to address the challenges of operating in a quickly evolving consumer and business environment affected by technological advances and increased consumer needs. Notably, DCCA's Cable Television division, as part of its franchise authority, designated 57 WiFi hotspots in FY19 primarily in rural, underserved communities, and 54 were installed and activated for public use.¹ CATV's ongoing work in this effort is consistent with its responsibility to support the provision of affordable, accessible broadband to unserved and underserved areas. DCCA's Division of Consumer Advocacy (DCA) was instrumental in delivering net savings to consumers resulting from DCA's recommendations in rate case proceedings, resulting in approximately \$28.9 million of first-year savings in rate cases during FY19. The Public Utilities Commission (PUC) among other things, approved seven (7) utility-scale solar projects paired with battery storage, approved the largest renewable procurement in state history, and approved a "grid services" contract that will enable thousands of customers to participate in a new clean energy program. DCCA's Insurance Division (INS), through its regulatory authority, saved consumers at least \$24 million in the property and casualty lines of business, and its Captive Insurance branch reports financial record highs as of December 31, 2018 including: (a) premiums written on a direct and assumed basis was over \$10 billion; total assets were over \$30 billion; economic impact to the State of Hawaii was over \$30 million², and total investments held in Hawaii was over \$1.6 billion.

The past year also brought about significant developments at the national level that may have a far-reaching impact on those many state, city and private entities that receive direct or indirect services or support resulting from state cable franchises. The FCC's 2019 Franchise Fees Order ("Order"), which became effective on September 26, 2019, prescribes a new formula to calculate cable franchise payments. Specifically, the Order states that costs associated with the construction, maintenance, and service of an INET must be assessed at their fair market value, which may include potential internet service, maintenance, or other operational costs. This new cost valuation method represents a stark change from the previously negotiated free and discounted (i.e., at-cost) INET services provided by the cable operators through their cable franchise agreements with the State. As such, the Department's

¹ 14 bus stops across Kauai; 8 locations in and around Hana; 5 locations in Wailuku, widely sued for its First Friday event; 10 locations in Kalaupapa, Molokai; 2 locations in Princess Ruth Keelikolani Building for use by residents doing business with the Department of Taxation and the Department of Labor and Industrial Relations; 6 locations in Kaunakakai, Molokai; 12 community centers and gathering spots in Hawaii island, including the Hamakua coast, Volcano, Pahoa, Kapaau, Hilo, Kamuela, Captain Cook, Kailua-Kona, Naalehu, and Pahala.

² Calculated as the total paid to local service providers, premium taxes, and other expenditures related to having a captive insurance company in Hawaii.

budget request includes a request for authorization to apply certain funds, if needed, to ameliorate the harsh consequences of the Order on affected agencies.

Finally, as a department charged with protecting consumers, DCCA's budget requests reflects increased focused on consumer outreach and education. Scammers have become increasingly sophisticated in their efforts to defraud consumers in person, by telephone by mail or online. See, <https://bigislandnow.com/2019/01/12/study-hawaii-65-more-likely-to-fall-victim-to-cybercrime/>; <https://www.kitv.com/story/39291717/scammers-spoofers-target-hawaii-residents>; <https://www.hawaiinewsnow.com/2019/08/22/dozens-nigerian-scammers-indicted-email-romance-schemes-targeting-elderly-people/>. DCCA has been aggressive in issuing press releases and warnings, but there has been a continual increase in the number and sophistication of schemes that affect Hawaii citizens, such that more targeted and strategic outreach is needed.

The Department, thus, continues to take a selective approach when developing its budget that aims at addressing the essential needs of the Department, including general cost adjustments felt by all agencies, and makes requests to utilize resources in a manner that most efficiently allows DCCA to carry out its mission.

Federal Funds

None of the Department's programs have lost or are at risk of losing federal funds.

The Insurance Division's health branch currently has two federal grants:

1. State of Hawaii – Planning/Implementing the Insurance Market Reforms, Part A, Title XXVII, Public Health Service Act, Cycle I, CFDA 93.881. Awarded 10/31/2016 for \$1.2 million, with an expiration date of 10/30/2020.
2. The State Flexibility to Stabilize the Market Grant Program, CFDA 93.413. Awarded 8/20/2018 for \$278,527.95, with an expiration date of 8/19/2020.

There are no direct communications that either of these grants are at risk for early termination.

Budget Request

The Department formulated a budget that provides the resources necessary for our programs to perform their functions and meet their goals and objectives. Pursuant to instructions in Finance Memorandum 19-11 issued by the Department of Budget and Finance ("B&F"), notable requests in the current budget include:

- **IT enhancements.** DCCA's IT budget requests reflect its continued commitment to enhancing the DCCA customer experience by (1) replacing the Business Registration Information Management System (BRIMS) and Registration Documents Processing Management System (RDPMS) with a unified system, and scanning old active files so that they are incorporated into the replacement system (ceiling increase to BREG of \$3,500,000 for FY21; \$500,000 recurring); (2) integrating document management into DFI's licensing and regulatory systems (ceiling increase of \$50,000 for DFI, recurring); (3) providing an IT integration platform to facilitate the transition to new systems (ISCO \$50,000 recurring); (4) replacing outdated firewall hardware and software (ISCO, \$60,000 non-recurring); (5) providing for IT lifecycle replacement of network servers and printers (ISCO \$50,000 recurring).
- **Consumer Education/Outreach.** DCCA requests a ceiling increase of \$50,000 for OCP community outreach and ceiling increase of \$49,000 in Commissioner's Education Trust Account for INS expanded staff training and increased community outreach. The increased focus on consumer education and outreach is in response to the department's growing concerns about an increase in scams and schemes that target consumers. Hawaii's resiliency and success as a state depends in part on the financial well-being of its citizens, and it is important that the state's most vulnerable population has the means to prevent falling prey to unscrupulous con artists.
- **King Kalakaua Building.** DCCA requests a ceiling increase of \$2,000,000 for replacement of the cooling tower in the King Kalakaua Building, roof repairs to the King Kalakaua Building related to damage caused by Hurricane Lane, and matching funding required if DCCA is awarded a FEMA emergency preparedness grant to harden the roof and disaster operations center (DOC) in the King Kalakaua Building.
- **PUC Consultant Services.** Ceiling increase of \$250,000 for PUC to contract for consultant services. The PUC continues to see a rise in workload related to renewable energy, rate cases, and other electric utility-related dockets. Clean energy-related regulatory activities have increased in both the number and complexity of dockets. This ceiling increase will help to support PUC efforts to issue proper and timely decisions and orders by providing the needed subject matter expertise in these areas. The PUC's current year expenditure forecast shows an increasing trend in line with this request. This budget request will support the PUC's forecasted increase to current level of effort and allow for the additional expenditures that will meet and likely exceed current FY 20 levels.
- **Mobile WiFi Hotspot Lending Pilot Program.** DCCA requests approval to expend \$400,000 to assist HSPLS with costs associated with the establishment of a Mobile WiFi Hotspot Lending Pilot Program aimed at enhancing internet access across the State, particularly in unserved and underserved communities. According to American Community Survey estimates ending 2017, nearly one-in-five Hawaii households do not have an internet subscription, with these numbers increasing among households making less than \$20,000 a year (approx. 46% of households with no internet subscription) and those in rural areas (approx. 26% of households with no internet subscription). To help address this "digital divide," many libraries, including the New York Public Library,

Seattle Public Library, Chicago Public Library, and Boston Public Library, have established WiFi hotspot lending programs where portable hotspot devices are made available to library patrons to allow them to access the internet through laptops, smartphones, or tablets via a provider's cellular network. This pilot program seeks to emulate the successes of these and similar programs for Hawaii residents.

- **INET-related cost adjustments.** DCCA requests approval to expend \$497,000 to address INET-related costs associated with the implementation of the FCC's 2019 Franchise Fees Order ("Order"), which became effective on September 26, 2019. This request would be used to offset some of the anticipated INET costs associated with complying with the new federal rules set forth in the FCC's 2019 Franchise Fees Order.
