House Committee on Finance  
Informational Budget Briefing  
Tuesday, January 14, 2020, 9:00 am  
State Capitol Room 308

**Mission Statement:** The Hawaii State Public Library System (HSPLS) nurtures a lifelong love of reading and learning through its staff, collections, programs, services and physical and virtual spaces.

**State-Wide Conditions Affecting Operations:** The issue that has the greatest impact on the operations of HSPLS is budget restrictions. Each year we are restricted from using 5-10% of our budget. The HSPLS budget is simple. Eighty percent of the budget is for staffing and the remaining twenty percent is for current expenses (i.e. utilities) to operate 51 branch libraries and two administrative office spaces.

In FY19, the budget restriction meant that there was \$1.7M less in the total budget for staffing and operations. While we can request the release of funding, the uncertainty impacts our hiring and our ability to ensure that we have adequate staffing capacity to support our services and communities. In most years, we don't receive all of the budgeted funding until the last couple of months, making it very difficult to utilize the funding for staff vacancies.

**Federal Funds:** HSPLS receives approximately \$1.2 million through its only source of federal funds, the Library Services and Technology Act (LSTA), provided by the Institute of Museum and Library Services (IMLS). The Grants to States program is a portion of LSTA funding and is distributed to all states based on a population formula; it requires a Maintenance of Effort agreement and matching general funds on the part of the State.

HSPLS relies on general funds to meet these requirements, and any reduction in our budget would directly reduce the amount of federal funds Hawaii receives. LSTA funds completely support our technology, integrated library system, and online database subscriptions for the public. All of these services are integral to maintaining library operations and supporting Hawaii's communities.

In the last reauthorization of the Museum and Library Services Act (MLSA), the language for the formula for the Grants to States program was changed. The base amount was increased from \$680,000 to \$1M if/when the funding is allocated. Efforts are being made to increase the funding for this program so that the new base can be implemented. A small increase was made in the most recent federal budget that was passed in December, which means Hawaii should receive more funding in future grants. It also means there could be a required increase in our Maintenance of Effort and matching fund requirements. We are waiting for more information from IMLS regarding the amount of funding and the impact on our requirements to receive the funding.

**Non-General Funds Reports:** HSPLS reports to the Legislature may be viewed at:

<https://www.librarieshawaii.org/about-us/reports/annual-reports/>

**Budget Request:**

The process used to develop and prioritize requests for budget changes is done through a review of the budget and expenditures for previous years. We also then take that data and review against the priorities we have for people, place, collections and services/programs. We identify the areas that have the greatest need and impact on our ability to provide public library services to our communities. Lastly, we then consider how the budget request corresponds with our long-term priorities of evolving our services to meet the ever changing needs of our communities.

HSPLS' FY2021 supplemental budget requests include the following:

1. \$1,000,000 additional funding for security services. Additional funds are needed to provide a higher level of security, and increased hours of work for security attendant services at public libraries to ensure the safety of the general public and staff.

2. \$500,000 additional funding for Repair and Maintenance (R&M). In order to adequately care for the needs of 51 library branches and 2 administrative offices, HSPLS must have funding to support the day-to-day repairs. With an addition of \$500,000 added to the current base budget of \$1,000,000, HSPLS would be able to complete more R&M projects and remediate issues before they become more expensive problems for us to fix.
  
3. \$250,000 for library collections to bring our base budget for collections to \$1,000,000. For a library system of 51 branches across six islands, we currently have only \$750,000 in general funds. In the past we relied exclusively on special funds, but over the years our revenue has declined disproportionately to our cost which have increased with the need to purchase physical and digital resources for all of our communities. As a core service, the base funding for the library collection must be increased to ensure equity of access to resources across the State.

We look forward to working with the House Committee on Finance in developing HSPLS' FY2021 supplemental budget during this Legislative session.

Thank you for this opportunity to present our budget information to your committee.

## Supplemental Budget Request for FY 2020-2021

The Hawaii State Public Library System’s Supplemental Budget request for FY 2020-2021 is based on our Strategic Framework and Areas of Focus.

Our request for supplemental funding is focused on critical needs for our places and collections.

### PLACE

Two of the three requests relate to place. We need to care for and provide safe spaces for our communities, and provide access to library resources and services outside of stand-alone facilities to reach more people.

## HAWAII STATE PUBLIC LIBRARY SYSTEM FRAMEWORK – AREAS OF FOCUS

### Library Facilities

- \$1,000,000 additional funding for security services.** Additional funds are needed to provide a higher level of security and to increase the hours of work for security attendant services at public libraries to ensure the safety of the general public and staff. In the last few months, the number of incidents both within and surrounding our library facilities has escalated. For example, within a four-week period, we had three fights happen at the Hawaii State Library, which resulted in injury to the fighting patrons and damage to the building.

We have also encountered vandalism and theft on some of the library properties, which is costly to make repairs. The funding would be used to increase patrols of locations when needed.

We continue to review how to make our buildings safer and secure through technology and design, but the physical presence of well-trained and prepared security is needed to ensure our community facilities continue to be safe places of learning.

2. **\$500,000 in additional Repair and Maintenance (R&M) funding.** In order to adequately care for the needs of 51 library branches and two administrative offices, HSPLS must have funding to support the day-to-day repairs. With an addition of \$500,000 to the current base budget of \$1,000,000, HSPLS would be able to complete more R&M projects and remediate issues before they become more expensive problems for us to fix.

The R&M funding also provides HSPLS with an opportunity to “reboot” a library that has been closed for more substantial health and safety repair work. The CIP health and safety funding addresses repairs and renovations to our buildings; our R&M funding helps to upgrade and improve the interior portions of a library after the structural improvements are completed. For example, health and safety repairs are currently being made to the Liliha Public Library – repairs include reroofing, upgrading sewer pipes and providing ADA compliant bathrooms, structural improvements including retaining wall and meeting room space repairs. Upon completion, we will then use our R&M funding to upgrade the interior to replace the old flooring, furniture and fixtures. We know that when we show we care for our buildings, the public also helps us to take care of them too.

## COLLECTIONS

3. **\$250,000 for library collections.** The Hawaii State Public Library System continues to face the challenges of a growing library system (now 51 branches), increasing costs of titles to provide in multiple formats, and the need to provide more access to digital collections that are accessible from all of our islands. Collections are a core service and are vital for creating opportunities for our communities to have access to the resources they need to be successful. This funding request for the Supplemental Budget is to increase the current base of \$750,000 to \$1,000,000, with the addition of \$250,000. Our long term goal is to increase the base to at least \$3,000,000.

The current collection has been supported by Special Funds, which are the fines and fees charged to patrons for overdue, damaged and lost materials, fees charged for DVDs and meeting room rentals. Revenue in general has continued to decline in relation to expenses, in large part due to changes in library patron behavior and improving services for patrons. For example, the rental of DVDs, has declined due to more streaming of digital content by patrons. In FY 2014, DVD revenue was \$626,895. By FY 2019, DVD revenue dropped to \$352,329. Fines and fees have also begun to decline due to patrons’ ability to use our Libraries Hawaii App to track when materials are due, thereby reducing the number of late-returned materials.

As revenue has decreased, library patrons continue to request more copies of library materials in digital format, which increases the cost of purchasing and maintaining our library collection, as we are now maintaining paper, digital and audio copies to meet all of our library patrons’ needs. Providing access to electronic collections is expensive, but

it also enhances our ability to provide access to the same resources for patrons through all 51 branches across six islands, instead of requiring the purchase of multiple physical copies for every branch.

The following is an example of the cost to purchase one title in multiple formats. It demonstrates the change in the purchasing structure from 20 years ago when HSPLS only needed to purchase physical copies.

TITLE	COST		
	Format	List Price	Discounted Price*
Genesis Robin Cook	Paper	\$27.00	\$14.58
	Digital (ebook)	\$55.00	
	Audio (eaudio)	\$95.00	
	<b>TOTAL</b>	<b>\$177.00</b>	

\*HSPLS receives discounts for purchasing multiple copies.

It is important to note that when we pay for digital content, in most cases we are only leasing copies of the title. To make it even more complicated, each publisher has a different threshold of when we must pay again to continue access to the title; in other words, the cost of keeping the most popular publications that are needed and wanted by our patrons have a continuous cost.

We must continue to balance the physical and virtual collections, and it is vital that we have a stable source of funding to provide the collections that our communities need.

SUBJECT: Project Funding Request for FY 2021 Budget for HSPLS-Owned Buildings

Attached is the prioritized backlog list of repair/maintenance projects for the upcoming budget request for FY 2021. Soft copies were emailed earlier. Upon request, staff from our Central Services Division can attend scope and consultant selection meetings and provide more detailed scope and photos of the high priority projects.

The individual projects were scored and prioritized by funding type. Also, projects that are ongoing or funded by your Department were removed from the high priority list.

The CIP and General funding needed were based on high priority projects (generally Condition rating '8' and above). Projects rated '8' and higher are energy related or the conditions may cause further damage to the building. The recommended funding for the projects, by source, are:

	<u>CIP Bond Fund</u>	<u>General Fund</u>
FY2021	\$41,071,360	\$7,732,170

If you have any questions, please contact Mr. Corey Shibata at 831-6736 or [corey.b.shibata@hawaii.gov](mailto:corey.b.shibata@hawaii.gov).

Hawaii State Public Library System

# **FACILITIES NEEDS REPORT**

**October 2019**

Stacey A. Aldrich  
State Librarian

The Hawaii State Public Library System (HSPLS) is now made up of 51 branches across six islands. For more than 50 years, the State of Hawaii has invested millions of dollars of public funds in buildings, equipment, resources and materials to serve the residents of Hawaii.

In his book *Palaces for the People: How Social Infrastructure Can Help Fight Inequality, Polarization, and the Decline of Civic Life*, Eric Klinenberg writes, “There’s a term you don’t hear these days, one you used to hear all the time when the Carnegie branches opened: Palaces for the People. The library really is a palace. It bestows nobility on people who otherwise couldn’t afford a shred of it. People need to have nobility and dignity in their lives. And you know, they need other people to recognize it in them too.”

Our public libraries are an integral part of our social infrastructure that provides everyone in Hawaii an equal opportunity to gather, read, learn and grow as a community. With sixty percent of HSPLS branches built before 1970 and over forty-six percent of these at 50+ years old, we continue to need your support.

This past year we tested a new method for approaching the care of our buildings. We call it “rebooting” a branch. When we have a planned building project that will require the closure of the library, we review all of the work that is needed to improve the space. In looking at the whole space, we can focus on improving as much as we can to make the branch as safe and inviting to the public as possible. For example, in April 2018, a flood destroyed the flooring in the Aina Haina Public Library. We had to close the library to replace the flooring and repair the flood damage; we chose to use the opportunity to also paint the interior, identify new layouts, update signage and furniture, and complete a long-planned project to install ADA accessible bathrooms in the public area of the library. We were able to reopen to the public in less than one year with a new and fresh space for the community.

Combining Repair and Maintenance (R&M) funding with Capitol Improvement Project (CIP) funding enables us to approach our building repairs and renovations more holistically, instead of just patching the worst problems. Our spaces are turning into places that people appreciate and want to help care for.

This year’s report provides information about major building projects in progress and also the highest priority R&M and CIP projects. The Department of Accounting and General Services has provided all estimates to HSPLS.

HSPLS continues to review, prioritize, and build strategic priorities for improving our public library spaces to best serve our communities and appreciates all of the support from the Board of Education, Governor David Ige and the State Legislature.

If you would like any further information about our facilities, please do not hesitate to contact Mallory Fujitani, Special Assistant to the State Librarian at 808-586-3714.

EDN407	QB	OR	1	1	Additional Funds for Security Services	Additional funds are needed to provide a higher level of security and increased hours of work for security attendant services at public libraries to ensure the safety of the public and staff.	A							1,000,000
EDN407	QB	OR	2	2	Unfunded Operational Expenses - Repairs and Maintenance	In order to adequately care for the needs of 51 library branches and 2 Administrative Offices, HSPLS must have funding to support the day-to-day repairs. With an addition of \$500K added to the current base budget of \$1M, HSPLS would be able to complete more R&M projects and remediate issues before they become more expensive problems for us to fix.	A							500,000
EDN407	QM	SY	3	3	Unfunded Operational Expenses - Library Books and Materials	Request is to bring base budget to \$1K. For a library system of 51 branches across six islands, HSPLS currently has only \$750K in general funds and decreasing special funds revenue to purchase physical and digital resources for all of our communities. As a core service, the base funding for the library collection must be increased to ensure equity of access to resources across the State.	A							250,000
