

Representative Ikaika Olds

District 23: Kapahulu, Mō'ili'ili, McCully,
Ala Moana & Pawa'a
June 2026

Aloha Friends and Neighbors,

Although the Legislature is out of session, my work serving our community continues. Throughout the 2026 interim, I am meeting with residents across District 23 to hear directly about the issues that matter most to them. These conversations will help shape my priorities and guide the legislation I introduce and support during the 2027 Legislative Session.

Your voice matters, and I want to hear from you. If there is an issue affecting you, your family or our community, please don't hesitate to reach out. You can contact my office by phone or email, or you can reach me directly on my personal cell at (808) 354-2311. Your input helps ensure I continue fighting for the priorities that matter most to the people I represent.

Mahalo nui loa for your continued support,

What can we do about the roosters and chickens?

We would like to remind everyone that according to our statute, only 2 hens are allowed to be kept, and that no roosters are allowed. Accordingly, Article 2 of Statute 12 of Animal Nuisances, it is unlawful to be the owner of an animal, farm animal or poultry engaged in animal nuisance as defined in § 12-2.2; provided that it shall not be an animal nuisance for purposes of this article if, when the animal, farm animal, or poultry is making any noise, biting, or stinging, a person is trespassing or threatening trespass upon private property in or upon which the animal, farm animal, or poultry is situated, or for any other legitimate cause which teased or provoked the animal, farm animal, or poultry.

There are complaint forms for private citizens, and a feral chicken brochure will be on the next page.

From the City and County Website:

- Private property owners on Oahu stand to benefit from the latest efforts to help control a growing feral chicken population in the City and County of Honolulu.
- Sandwich Isle Pest Solutions has been contracted to provide a cage and disposal service to help humanely rid private properties of feral chickens.

FERAL CHICKENS FACT SHEET

- The Department of Customer Services is addressing nuisance issues created by feral chickens in our community by helping to bring new attention, needed resources and a strong policy voice to the persistent concern.
- Feral chickens create nuisances by foraging in residential areas, crowing at inconvenient hours, posing health concerns with their waste and agitating household pets. More roaming chickens mean more nuisances. O'ahu residents can help manage the nuisance by not feeding feral chickens and reducing the feral chicken population in their community.

Who do I contact for feral chicken and poultry issues?

- The responsibility for responding to feral chicken problems varies with the location of the animals and the property ownership. Options for dealing with feral chicken and poultry nuisances are listed below by property ownership.

CITY & COUNTY OF HONOLULU

Contact Department of Customer Services to report issues on city property such as parks, building areas and other local government property:

- Email: **complaints@honolulu.gov** or call (808) 768-4381.
- Go to the HNL311 webpage or app at **<https://hnl311.com>** or download the app to file a report.

STATE OF HAWAII

Each state department is responsible for the cleanliness of its own properties and to abate any nuisances.

Contact the state agency responsible for the property, such as the Department of Education for public schools and Department of Land and Natural Resources for state parks. For a list of departments and agencies, go to **<https://portal.hawaii.gov/government/departments-and-agencies/>**.

Go to the Department of Planning and Permitting GIS webpage to locate the property and determine ownership.

PRIVATE PROPERTY

- Private property owners on O'ahu stand to benefit from the latest efforts to help control a growing feral chicken population in the City and County of Honolulu.
- Sandwich Isle Pest Solutions has been contracted to provide a cage and disposal service to help humanely rid private properties of feral chickens.

HURRICANE LALA

If your home, vehicle, or personal property has been damaged, contact your insurance company or agent right away to report the loss. Ask for your claim number and confirm any deadlines for filing or submitting documentation. Starting your claim promptly helps ensure your coverage is applied correctly and delays are avoided.

Document all damage by taking clear photos or videos. If it is safe to do so, keep damaged items until the insurance adjuster has seen them. You should also take reasonable steps to prevent further damage, such as placing tarps over roof leaks or boarding broken windows, but avoid making permanent repairs until your insurer has approved them.

Keep records of all expenses related to the damage, including temporary repairs, hotel stays, meals and other costs caused by the storm. Save receipts and write down what was damaged, when it occurred and what actions you took to protect your property.

When an insurance adjuster contacts you, be available for inspections and provide any requested documents. Review settlement offers carefully and ask questions if anything is unclear.

INSURANCE COVERAGE AFTER Hurricane or Tropical Storm Lala

A Quick Guide for Hawai'i Residents

If Hurricane or Tropical Storm Lala has caused damage to your property, the type of insurance coverage that may apply depends on what caused the damage and the specific terms of your policy. Contact your insurance company or agent as soon as possible to file a claim or if you have questions regarding your specific coverage.

KNOW THE DIFFERENCE

HOMEOWNERS

≠

HURRICANE

≠

FLOOD

HOMEOWNERS INSURANCE

Homeowners insurance may cover damage from certain events associated with a storm, depending on your policy.

Coverage may include:

- Damage to your home and other covered structures
- Damage to or loss of personal belongings
- Certain wind- or rain-related damage, depending on the cause and policy
- Additional living expenses if you cannot live in your home because of the damage

Important: Standard homeowners insurance generally does not cover flooding, and hurricane damage may require separate hurricane coverage.

FLOOD INSURANCE

Flood damage is generally not covered by a standard homeowners policy. Separate flood insurance may provide coverage for damage caused by rising or overflowing water.

Examples may include:

- Storm surge
- Overflow of inland or coastal waters
- Flooding from heavy rainfall or runoff

Flood coverage may be provided through the National Flood Insurance Program (NFIP) or a private insurance company.

Remember: You do not have to live in a designated high-risk flood zone for your property to experience flooding.

HURRICANE INSURANCE

Hurricane insurance is designed to provide property coverage for damage caused by a hurricane and may be provided through a separate policy or endorsement.

Consumers should check:

- Whether you have hurricane coverage
- Your hurricane deductible
- What property and types of damage are covered
- Whether coverage applies to personal property and additional living expenses

Important: Hurricane coverage may have its own deductible.

AUTO INSURANCE

Damage to a vehicle from flooding, falling trees, wind-blown objects or other storm-related causes may be covered if you have comprehensive (also called "other than collision") coverage.

Keep in mind:

- Liability-only auto insurance generally does not cover storm damage to your own vehicle.

WHEN IN DOUBT, FILE THE CLAIM.

Don't assume your loss is not covered. Your insurer can review the damage and your policy to determine what coverage may apply.

14-DAY DISASTER SUPPLY KIT

REV7/2024 | OahuDEM

What is a 14-DAY DISASTER SUPPLY KIT?

Living on an island means that it is extremely important to have a 14-day disaster supply kit. Unlike areas in the continental US, Hawai'i residents don't have the option to drive somewhere that hasn't been impacted when a hurricane happens. We must be ready with food, water, and emergency supplies in case goods cannot be offloaded from ships, transportation on island is not available, or utilities are out.

Your 14-day disaster supply kit should include everything your household would need to survive for two weeks without utilities or access to outside supplies.

14-Day Kit Tips

- Building a 14-day supply can be costly for some families. Start small and grow your kit as you are able.
- Check the expiration dates on your supplies.
- Test your devices periodically.
- Keep a small amount of water on hand. Pack water containers that you can fill just-in-time for the rest of your household's water needs.
- Talk with your household to make sure everyone's needs are met with your 14-day kit.

Where should I keep my 14-Day Kit?

You may need to evacuate with your kit depending on where you live. Most of this kit should be packed ahead of time. You can add more items as needed just-in-time.

Your 14-day kit may be very large/bulky. Some ideas of where to store it:

- In a closet
- Under the bed
- In the garage

Evacuation Go Bag

Some emergencies can occur without notice and there may not be enough time to take your entire 14-day kit with you. It is important to pack a Go Bag of essential supplies from your 14-day kit that you can grab and go quickly if you need to.

☒ What do I need in my 14-DAY KIT?

Make sure your 14-day kit includes enough supplies for each member of your household.

☐ Your family may have unique needs, make sure to consider those in your planning. This will be different for every household. Some examples are extra batteries for medical devices, pet food, or items for keiki or kupuna.

EVACUATION GO BAG

REV7/2024 | OahuDEM

What is an EVACUATION GO BAG?

Some disasters or emergencies require quick evacuation. This can occur with little warning, and there may not be enough time to take your entire family disaster supply kit with you.

A Go Bag should provide enough quick-access supplies to get you through the initial phases of an emergency and evacuation. You should have one bag for each member of your household.

Where should I keep my Evacuation Go Bag?

You should keep a Go Bag anywhere you spend a lot of time.

Some ideas:

- By your front door or under your bed
- In your car
- At your office

Why might I need a GO BAG?

If you live in a tsunami evacuation zone, you may be familiar with evacuating for an emergency. Other disasters like wildfires or flashfloods can also require evacuation with very little warning.

An Evacuation Go Bag IS:

- A sub-set of your 14-day disaster supply kit
- Essential items needed for an emergency evacuation
- Light and easy to carry (ex: a sturdy backpack)
- Quickly accessible in an emergency

An Evacuation Go Bag IS NOT:

- Your entire 14-day emergency kit
- Too heavy to easily carry (ex: a large suitcase)
- Packed away/hard to access quickly

What do I need in my EVACUATION GO BAG?

Pack only essentials in your Go Bag. Don't overpack. A Go Bag is only effective if you can easily evacuate while carrying it.

Your family may have unique needs, make sure to consider those in your planning. This will be different for every household. Some examples are extra batteries for medical devices, pet food, or items for keiki or kupuna.
