"We look forward to listening to you as we work to address community concerns and issues, while working to become consensus builders and solution seekers. The best way to accomplish this goal is to partner with you and our State & City elected officials. We look forward to a robust Townhall Meeting where we can listen to you and collaborate to secure potential solutions."

Goals of this Townhall Meeting:

1. **INFORM** We will provide information from the State Legislature & Honolulu City Council on Bills and policies of both the State & City
2. **CONSULT** Listen and hear your community concerns and issues
3. **INVOLVE** We will work directly with you on your community concerns & issues
4. **COLLABORATION** We will partner with you to formulate potential solutions to address community concerns & issues
5. **EMPOWER** WE will ensure your voices are heard and work to implement your ideas into solutions, similar to the RPZ Parking Policy we passed 5 years ago
