Aloha Neighbors,

The recent Mid-Autumn Mooncake Festival and official start of Fall this past weekend is a wonderful reminder of the traditions that connect us. This also means that school is back in session, and I've already had the privilege of attending several school events, engaging with students and educators as we support our keiki's learning and growth.

In addition to these local efforts, I am attending a policy conference where I'm learning from key voices in the wireless and broadband space. These discussions are essential as we work toward improving connectivity and ensuring access to reliable services for everyone in Hawai'i.

Along with the valuable insights that I hope to gain regarding wireless and broadband infrastructure, this conference is well timed as I begin to shift my attention towards preparing for the 2025 legislative session, including bill drafting.

If you have any ideas for potential bills, please feel free to call my office, (808) 586-6170, or send an email to: repchun@capitol.hawaii.gov.

Representative Chun pictured with Waipahū High School Natural Resources Academy teachers at Waikele Elementary School’s 7th Annual Career and College Fair. These teachers, along with some of their students, shared interesting information and fun experiments for the elementary children. Waikele Elementary is currently the first and only elementary school to have a fully implemented Academy Pathway program. This provides their students early exposure to various career fields and aligns with Waipahū High School’s six Academies.

The Director from each Department gave brief presentations then answering questions from the community members in attendance. If you missed this townhall, you can find a rebroadcast on ‘Ōlelo Community Media:
