

Hawaii State Representative Adrian K. Tam

House District 24

NEWSLETTER

SEPTEMBER 2025

Aloha neighbors,

Summer has flown by! I kicked off August attending the 50th Annual National Conference for State Legislatures in Boston, Massachusetts. Over that week I also attended the National Caucus of Environmental Legislators and Asian Pacific American Legislators annual meetings. I am always grateful for the opportunities to learn, share and be inspired. Since returning home to Hawai'i I am working to draft new legislation for the upcoming 2026 session, with particular focus on tourism, noise, and public safety. I invite you to call, write or meet with me to share your concerns and ideas for how to improve our community, neighborhood and Hawai'i. I hope to hear from you!

September is *National* **PREPAREDNESS** Month

Preparedness Starts at Home, the 2025 theme, focuses on getting back to the essentials of preparedness. In addition to sharing the tips, messages and graphics you can find on [Ready.gov](https://www.ready.gov), there are four key actions you can take to prepare for any disaster you may face:

- Know your risk
 - Know what could happen where you and your family live. This helps you figure out what you need to do to stay safe. You can explore various disasters and emergencies on Ready.gov.
- Make a family emergency plan
 - Making a plan early helps you reduce stress and save time and money. Follow [four easy steps](#) and create a free [Family Emergency Plan](#).
 - Disasters are costly but preparing for them doesn't have to be. Taking time to prepare now can help save you thousands of dollars and give you peace of mind when the next disaster or emergency occurs. Visit Ready.gov's [low and no-cost tip page](#) to see how you can be better prepared without spending a lot of money. www.ready.gov/low-and-no-cost
- Build an emergency supply kit
 - Having enough food, water and medicine can help you stay safe and comfortable until help arrives. Having what you need can also prevent injury and damage to your home.
 - Build a go-bag with all the essentials you might need, so you don't need to scramble in an evacuation situation. Find a list of supplies at [Build A Kit: www.ready.gov/kit](#)
- Get involved in your community by taking action to prepare for emergencies
 - Emergencies can happen fast, and emergency responders aren't always nearby. You may be able to save a life by taking simple actions immediately. You can learn these steps when you take a first aid class through many organizations in your community..
 - Join a Community Emergency Response Team program and get trained on basic disaster response skills, such as fire safety, light search and rescue, team organization and disaster medical operations.
 - Take a free online independent study course through [FEMA's Emergency Management Institute](#) or a [CPR course through the American Red Cross](#) to learn more about how to help your community become more prepared.
