

Senator Michelle Kidani

(D) Senate District 17—Serving Mililani Mauka, Mililani Town, Waipio Acres and Waipio Gentry

Aloha
Friends and
Neighbors,

The fourth
session of
my first

term has now concluded. I am deeply honored to have served as your Hawaii State Senator.

We have seen some signs of economic vitality in the visitor industry. But yet to fully recover is the construction industry, where high unemployment remains. As Vice Chair of the Committee on Ways and Means, I led the Senate's focused approach to programs that would accelerate and diversify our recovery by funding work on the tremendous backlog of repair and maintenance projects at public facilities that have been put aside for too long.

By session's end, with great collaboration from our colleagues in the House, we were able to include more than \$400 million in construction work. Here is how our community benefitted:

Me ke Aloha Pumehana,

Over \$21 Million in Capital Improvement Projects For District 17

EDUCATION:

<i>Highlands Intermediate</i>	Chorus Classroom asbestos removal and renovation	\$ 480,000
<i>Kanoelani</i>	Covered walkways	\$ 750,000
<i>Kipapa</i>	Air conditioning replacement	\$ 200,000
<i>Mililani High</i>	Reconstruction and resurfacing of tennis courts	\$ 900,000
	Resurfacing of lower parking lot and driveway	\$ 350,000
	Construction and equipment for additional restrooms and upgrade of athletic field concession stand	\$1,100,000
<i>Mililani Ike</i>	Renovation of covered play court	\$ 150,000
<i>Mililani Mauka</i>	Covered walkways	\$ 500,000
<i>Mililani Middle</i>	Repair and Replace Roofs	\$ 750,000
<i>Mililani Uka</i>	New Playground Equipment	\$ 75,000
<i>Pearl City High</i>	Plans and Design for synthetic track/field at Bino Neves Stadium	\$ 550,000
 <i>Community</i>		
<i>FilCom Center</i>	Installation of photovoltaic panels	\$ 450,000
<i>Hawaii Okinawa Center</i>	Renovation and upgrades	\$ 400,000
<i>Waipio Neigh Park</i>	Construction of batting cage	\$ 25,000
 <i>Roads/Highways</i>		
<i>Kamehameha Highway</i>	Replacement or renovation of Kipapa Gulch Bridge from two to four lanes	\$7,200,000
	Sidewalks along both sides from Meheula Pkwy to Lanikuhana Ave	\$3,000,000
	Graffiti resistant wall material from Waipahu St to Waipio Uka Blvd	\$5,000,000

Hawaii State Senate Stays the Course in 2012 Legislative Session

Job Creation, Education, Shoring up the Safety Net & Improving IT Infrastructure

Job Creation & Creating a Sustainable Economy

Although Hawaii is experiencing a steady economic recovery, many people are still unemployed or under-employed, especially in the construction and trade industries. Realizing this grim reality, the Senate made job creation and creating a sustainable economy top priorities through its flagship initiative, The Invest in Hawaii Act of 2012. To accomplish this priority, the Senate was able to include in excess of \$414M for repair and deferred maintenance projects in the Capital Improvement Program portion of the budget for fiscal year 2013, pursuant to **House Bill 2012**. The funding will allow for the creation of more than 4-thousand shovel-ready jobs for all trades in the construction industry – from carpenters to consultants, and help put money in workers' pockets and give companies confidence to begin hiring again.

The projects will focus on smaller repairs and maintenance to address aging infrastructures and to extend the useful life of existing state-owned assets and facilities, energy conservation and sustainable improvements, and

health, safety and code requirements. Not only the state departments, but everyone in the State will benefit from this funding. This funding will have a positive impact on every trade in the construction industry, as well as the businesses that provide goods and services to the industry.

Highlights of the funding are provided as follows:

The Department of Education will receive \$296M in FY13, including \$116M that has been appropriated for classroom renovations and school building improvements to address the department's repair and maintenance backlog, \$10M for electrical upgrades to support the rapidly evolving technology that is imperative to keep students competitive in the global economy, and \$30M in various lump sum appropriations for schools throughout the State to address Americans with Disabilities Act compliance, health and safety and special education needs.

For the University of Hawaii, over \$80M was appropriated for capital renewal and deferred maintenance as well as health, safety, and building code requirements, System wide.

The Hawaii State Senate adjourned on May 3, 2012, the final day of the 2012 Legislative Session, passing many bills in support of its priorities set forth at the beginning of the session. Throughout the second year of the legislative biennium, the overarching themes and priorities of the Senate were

The Senate Majority Democrats remain committed to improving the quality of life for our people of Hawaii. Here are some highlights of the Senate accomplishments:

Additionally, to address significant growth in student enrollment at the community college level, further funding of \$27.5M was provided to the community colleges, including \$10M for Kapiolani Community College to begin construction of the Culinary Institute of the Pacific.

Further, more than \$60M has been provided for Hawaii Public Housing Authority to continue to upgrade its units and help to shelter low-income families; \$35M has been appropriated for the Hawaii Health Systems Corporation to help tackle the repair and maintenance needs at community hospitals statewide; \$26M has been provided to the Department of Agriculture and Department of Land and Natural Resources to allow them to continue their efforts to maintain the State's irrigation systems, as well as rivers, reservoirs and dams statewide, including \$1.1M to upgrade, repair and reinforce the Hanalei River breach which was made worse by the recent heavy rains.

Finally, to shore up our safety net, many community programs run by non-profit organizations were provided a total of \$20M to assist them in

2012 SUPPLEMENTAL STATE OPERATING BUDGET:

This year the Legislature passed an \$11.2 billion supplemental budget for the State of Hawaii, House Bill 2012. Following three years of budget cuts totaling more than a billion dollars each year, this year's budget provided the Senate with a refreshing opportunity to reinforce the safety net where needed, reinstitute core services that have been decimated over the past three years, and make strategic investments in key areas that can help us grow the economy and sustain a more prosperous future for Hawaii. The

the continuation of services and programs throughout the State.

To further continue supporting our top industry, strategic investment was made in our tourism industry through **Senate Bill 490**. The measure develops and implements new initiatives to significantly increase travel and tourism in the State, taking advantage of an executive order signed by President Obama to ease access for international travelers. The expanded visa programs would help provide up to an estimated 154,000 jobs in Hawaii. China in particular is a rising market for Hawaii's tourism industry, with unprecedented growth potential.

Looking ahead at the future of tourism, the Senate supports an emerging

market, such as Space Tourism, which has the potential of being a billion dollar global industry that could significantly increase state revenues, provide new aerospace jobs, and rejuvenate economic development in the Kalaeloa area. The ground work for the industry is established through **Senate Bill 112**, which appropriates funds for the application for a spaceport license from the Federal Aviation Administration.

People and Children

As a result of our State's steady economic recovery, the safety net continues to need strengthening. There are many who still suffer job loss and significant wage and benefit reductions. The Senate Majority is mindful of the struggles of Hawaii's most vulnerable

citizens and supports efforts to assist them. Child welfare, MedQuest, domestic violence shelters and various shortfalls across the Department of Human Services were addressed in the State Budget, **House Bill 2012**.

Since the closure of Hawaii Medical Center-West, hospitals on Oahu have been faced with an increased volume in patient admittance. The Senate provides support for the hospitals system through **House Bill 304**.

With the growing demand of health care, **Senate Bill 2939** appropriates funds for the St. Francis Healthcare System of Hawaii, formerly known as Hawaii Medical Center-East to improve its facilities and services in the interest of the health, safety, and wellbeing of residents.

Photo taken from the gallery of the Hawaii State Senate Chambers on May 3, 2012, Sine Die.

The Senate also continues its strong support for education. Notably, the Senate has underscored education as a top priority. Through the State Budget, key areas of investment were made in the student weighted formula, student meals, Community Schools for Adults and student transportation.

To strengthen Hawaii's Charter School system, **Senate Bills 2115** and **2116** increase accountability in the governance of Hawaii's Charter schools that will foster improved student outcomes. Senate Bill 2115 establishes clear lines of authority and clarifies the relationships, responsibilities, and lines of accountability among stakeholders of Hawaii's Charter School System. Senate Bill 2116 appropriates funds to help with the transition.

The Senate believes early life experiences lay the groundwork for a child's lifelong learning and providing high quality early learning programs that are affordable and accessible for all children are critically important for ensuring the success of Hawaii's keiki. Working in concert with the Governor's Early Childhood Education Initiative, the Legislature passed **Senate Bill 2545**, which establishes the Early Learning Council and the Early

Learning Advisory Board.

Renewable Energy and Sustainability

The Senate Majority strives to make Hawaii a model for the rest of the country by continuing the Hawaii Clean Energy Initiative. Reducing electricity costs depends in part on diversifying the energy sources within the State. Geothermal energy is a solid source of indigenous, renewable energy that could be made available at low costs. **Senate Bill 2001** requires consultation and input from the Native Hawaiian community and general public when developing geothermal projects on public trust lands. Meanwhile, **Senate Bill 3003** allows geothermal resources exploration and development in all state land use districts and all zones of the conservation districts. Governor Abercrombie signed Senate Bill 3003 into law in April.

With our State's dependence on imported foods and threat to our food security, **Senate Bill 2695** establishes a livestock feed feasibility pilot project to help address the rising cost of feed and explore ways to increase the sustainability of our local protein sources. Self-sufficiency is critical to

Hawaii's food security and ability to respond effectively in the event of natural disasters or disruptions in transportation.

Retrofitting Government

In the area of technology, the Senate calls for investing in the State's information technology (IT) infrastructure in order to improve government and to better serve the public. The investment in IT upgrades aims to increase productivity, making government more efficient. The State Supplemental Budget, **House Bill 2012**, makes significant investments in software upgrades, integration in information technology, and modernization of databases and records, to name a few. Hawaiian Homelands, Commerce and Consumer Affairs, Accounting and General Services and Human Services are some of the departments that will be receiving IT upgrades.

The Senate also supported the Governor's broadband initiative to improve services and to ensure that each and every citizen has access. The initiative is supported by **Senate Bill 2236**, which assists Clearcom or a partnership headed by Clearcom, Inc., with the planning, designing, constructing, and operating of broadband infrastructure throughout the State.

Other Notable Bills:

House Bill 608, Relating to Health, Act 1 (2012)

Governor Abercrombie signed **House Bill 608** (Act 1) into law in February. The measure appropriates state funds to The Queen's Medical Center to perform kidney and liver transplants and to the National Kidney Foundation of Hawai'i to maintain its chronic kidney disease management program. Act 1 helps ensure that organ transplant patients are able to remain in the islands and receive efficient and timely care.

Senate Bill 2783, Relating to the Public Trust Lands, Act 15 (2012)

Senate Bill 2783 conveys Kaka'ako Makai lands to the Office of Hawaiian Affairs (OHA). The State and OHA agreed that an approximately \$200 million settlement represents a reasonable compromise of the disputed claims. To satisfy that \$200 million amount, the State is conveying contiguous and adjacent parcels in Kaka'ako Makai. Under this law, all disputes and controversies relating to OHA's portion of income and proceeds from the public trust lands will be extinguished and discharged as well as bar all claims, suits, and actions for the period November 7, 1978 through June 30, 2012. Governor Abercrombie signed Senate Bill 2783 into law in April.

Senate Bill 2776, Relating to Public Safety

After an unprecedented collaboration between the Governor, Chief Justice, Senate President, House Speaker and Director of Public Safety, a data-driven justice reinvestment strategy was created to bring out-of-state prisoners back to Hawaii, reduce spending on corrections, and reinvest savings generated in strategies that would reduce recidivism and crime and increase public safety.

One of the outcomes of the Justice

Reinvestment Initiatives was the passage of **Senate Bill 2776**. The measure establishes a statutory structure to improve the criminal justice system, relying on the Department of Public Safety, Hawaii Paroling Authority, and Adult Probation Services to effectively implement changes to policies and practices.

Senate Bill 2247, Known as Kelsey's Law, Act 94 (2012)

Senate Bill 2247, which was signed into law by Governor Abercrombie in April, will require cell phone or communication service providers to assist law enforcement agencies in determining the location of a cell phone in emergency situations. The bill was named in honor of Kelsey Smith, an 18-year-old Kansas woman who was kidnapped, raped and murdered in 2007. It is believed that if Verizon Wireless had turned over cell phone records on the day Smith was kidnapped, she may be alive today.

House Bill 2030, Relating to Emergency Vehicle; Move Over

House Bill 2030 requires motorists to move over and slow down their vehicles when passing a stationary emergency vehicle on a highway. If this measure becomes law, a violation against it will result in a fine, which will not impact the driver's car insurance rates.

House Bill 2502, Relating to Mortgage Servicers

The Legislature continues its previous commitment to assist Hawaii's homeowners through the passage of **House Bill 2502**. Among other things, this measure helps the State to meet national standards for Mortgage Servicers and helps the Department of Commerce and Consumer Affairs monitor them. HB 2502 requires mortgage servicers that provide loan-modification services to be properly licensed. The measure also authorizes the Commissioner of Financial Institutions to require all mortgage servicers to register with the Nationwide Mortgage Licensing System.

House Bill 2848, Relating to Public Safety

Many studies conducted both nationally and statewide show native Hawaiians to be at particularly high risk for substance abuse. **House Bill 2848** aims to reduce regression for criminal offenders by employing native Hawaiian cultural practices and other innovations into their rehabilitation. The measure also creates a work release pilot program on the Big Island which allows certain incarcerated individuals to work on projects that benefit the local community and the State. A report is due to the Legislature prior to the 2013 legislative session.

Senate Bill 2228, Relating to Pseudoephedrine

Senate Bill 2228 establishes an electronic tracking system for the sale of products containing pseudoephedrine as a base and requires the Department of Public Safety Narcotics Enforcement Division to implement the electronic tracking system.

The establishment of the system will assist the State in tracking retail pseudoephedrine sales, with the intent of decreasing the production of methamphetamine. By permitting a retailer to check a computerized database prior to sale, it will improve the retailer's ability to safely sell products containing pseudoephedrine to consumers.

Se Bill 2804, Relating to Homelessness

Senate Bill 2804 allows Hawaii Inter-agency Council on Homelessness, temporarily established by the Governor in 2011, to continue to identify critical strategic goals and initiatives that would mitigate homelessness as well as ensure that the homeless persons obtain permanent housing to become reintegrated into the community. If signed into law, this measure would require that the Department of Human Services conduct a study on the feasibility of establishing safe havens in Hawaii and to submit a report to the Legislature prior to the 2013 Regular Session.

REAPPORTIONMENT

The current Senate District 17 which I currently represent will be changed by taking out Waipio Acres and Mililani Mauka.

Lower Mililani and Waipio Gentry will be included with most of Waikele, Village Park and Royal Kunia to make up the new Senate District 18.

Congratulations to my cousin, **Braden "Mongo" Sakai** (center), of Mililani who on May 8th was pinned by his wife, **Momi** (with lei) and Governor Neil Abercrombie (far right) as Hawaii's newest **Brigadier General**. Parents are **Gerald** and **Lois Sakai**, also of Mililani (pictured to Brad's right). To his left are his children **Dawn**, **Michelle** and **Brandon**. His sister **Shawn** and **Gen. Joseph Kim** are pictured at far left.

General Sakai was in the first Mililani High School graduating class of 1977 and is also a University of Hawaii alumnae. He commands the 154th Wing, Hawaii Air National Guard at Hickam Air Force Base.

Aloha and Mahalo Nui Principal Sandy Ahu

Retired Principal Sandy Ahu returned to Kanoelani Elementary School on May 23rd to be honored by her students and faculty. After 37 years with the DOE, Principal Ahu retired at the end of December 2011.

New Principal, Stacie Kunihisa (shown below at far left in front row) and Vice Principal Walleen Hirayama (second from left front row) are off to a good start at the helm of Kanoelani. They are shown below receiving a check for \$4,427 from Miles Ichinose and his team from McDonald's. The Waipio McDonald's recently held its re-grand opening and used this opportunity to fundraise for Kanoelani Elementary School. Thank you Mr. Ichinose and McDonald's!
