REPORT TO THE THIRTY-THIRD STATE LEGISLATURE 2025 REGULAR SESSION

IN RESPONSE TO ACT 181, SESSION LAWS OF HAWAI'I 2024 REQUIRING THE BOARD OF AGRICULTURE TO SUBMIT A REPORT ON AGRICULTURAL PARCELS, PURSUANT TO 166-11, HAWAII REVISED STATUTES

Prepared by:

THE HAWAI'I DEPARTMENT OF AGRICULTURE

DECEMBER 2024

ACT 181-Background

Act 181, SLH 2024, requires the board of agriculture to submit a report to the legislature, twenty days prior to the convening of the regular session of 2025, for the purpose of providing the following:

- For each parcel, by tax map key, of agricultural land that is leased by the State pursuant to section 166-11, Hawaii Revised Statutes, the percentages that are: (A) Suitable for farming; and (B) Actively being farmed.
- For every lease entered into pursuant to section 166-11, Hawaii Revised Statutes, that was transferred by a lessee to another lessee, the dollar amount of the following: (A) Lease rent; (B) Sum paid by the purchasing lessee for the remainder of the lease; and (C) Amount from the sum paid by the purchasing lessee, pursuant to subparagraph (B), that goes to the State.

Report Findings

In response Act 181 pursuant to section 166-11, Hawaii Revised Statutes, Agricultural Parks:

- 1. For each parcel that is leased pursuant to section 166-11, the Department points out that what the public may consider "active farming" could conflict with how a farmer defines "active". Due to the rotation of certain crops, farmlands must be left fallow as part of an effective farming regime. Department lessees are actively managed during the term of their lease. If a lessee is not engaging in active farming, notices of breach are issued and the lease will be terminated if the violation is not rectified. The program does not allow "gentleman farms" on its leased lands. Unfortunately given current budgeting constraints, and the absence of a definition for "suitable for farming", the Department is not able to render precise percentages. Program personnel have roughly estimated that 95% of Agricultural Park lands are "suitable" for farming. A more defensible figure would require an adequately budgeted, resourced, and focused study of each TMK, for which the program lacks the necessary funding. Attached as directed is a spreadsheet which provides additional information on agricultural parks managed by the program.
- 2. Attached is a spreadsheet which provides requested information on lease transfers from one lessee to another, dollar amounts, lease rent, sum paid by purchasing lessee, and amount from the sum paid that goes to the State (if applicable). When a lease is assigned from one lessee to a new lessee, the new lessee's purchase price is based on their perceived value of the farm business, not the value of the land. Many of these successful agricultural businesses consider the cost of their improvements (example: fencing) and existing crops when determining the purchase price for the business, and not the land.
