Intended Purpose: National Guard Youth Challenge Program provides quality education and life skills, in a quasi-military based environment, to all qualified "at-promise" Hawaii youth, ages 16 to 18, who are not attending school or who are in jeopardy of not completing high school. Primary objective is for the youth who complete the program, to receive a high school diploma, be placed upon graduation in steady employment/career, continue with post graduate schooling, or be accepted in the military, to become contributing members of society.

Source of Revenues: The National Guard Special Military Project Youth Challenge Program Cooperative Agreement establishes the terms and conditions as it relates to the contribution of Department of Defense (federal) funds. Title 32, United States Code, Section 509, authorizes the National Guard Bureau (NGB) to contribute funds to the States for Youth Programs.

Current Program Activities/Allowable Expenses: To account for those activities and duties, supported by the National Guard Youth Challenge Program Cooperative Agreement (NGYCP-CA), in which to nurture and provide educational services to "at-risk" 16 to 18 year old youth in a quasi-military, residential based environment.

Variances: Variances exist mainly due to cash transfers from previous fiscal years to current years, as required by the National Guard Bureau (NGB) grant, to return excess federal grant monies (cash) not obligated or expensed once all obligations have been fully executed. Further variances may occur due to prior estimated reclassifications of State shares and the need of cash balances in current FYs to execute new contracts and agreements.

Targeted Violence Terrorism Preparedness

The Targeted Violence and Terrorism Prevention (TVTP) Grant Program seeks to provide funding in three application tracks. The Local Prevention Framework, Replication, and Innovation Tracks will directly support the implementation of the September 2019 DHS Strategic Framework. The Strategic Framework, in turn, is derivative of the December 2017 National Security Strategy that included a Priority Action on enhancing local terrorism prevention capabilities and the October 2018 National Strategy for Counterterrorism that included countering terrorist recruitment and radicalization as one of six lines of efforts and called for the development of a nationwide prevention architecture.

Intended Purpose:

Source of Revenues:

Department of Homeland Security, Federal Emergency Management Agency

2023 Project Safe Neighborhoods Grant

Intended Purpose: The PSN Program is a nationwide initiative that brings together federal, state, local, tribal, and territorial law enforcement officials, prosecutors, communitybased partners, and other stakeholders to identify the most pressing violent crime problems in a community and develop comprehensive solutions to address them. PSN is coordinated by the U.S. Attorneys' Offices (USAOs) in the 94 federal judicial districts throughout the 50 states and U.S. territories.

Source of Revenues: U.S. Department of Justice, Office of Justice Programs, Bureau of Justice Assistance

Current Program Activities/Allowable Expenses: PSN requires each USAO to establish a team of federal, state, local, tribal, and territorial (where applicable) law enforcement and community-based organizations and representatives (hereafter PSN Team) to implement a strategic plan for addressing the most pressing violent crime problems within the USAO's district.

Variations: Revenues and expenditures vary year to year

PRE-DISASTER MITIGATION

Intended Purpose: The Pre-Disaster Mitigation (PDM) grant program makes federal funds available to state, local, tribal and territorial governments to plan for and implement sustainable cost-effective measures designed to reduce the risk to individuals and property from future natural hazards, while also reducing reliance on federal funding from future disasters.

Source of Revenues: The Consolidated Appropriations Act of 2023 authorizes funding for 100 projects for states, tribes, territories and local communities for FEMA's Hazard Mitigation Assistance Pre-Disaster Mitigation grant program.

Current Program Activities/Allowable Expenses: The program promotes implementation of activities designed to reduce injuries, loss of life, and damage and destruction to property from natural hazards.

Variations: Revenues and expenditures vary year by year depending on grant. All project are now congressionally directed spending projects.

Intended Purpose: National Guard Youth Challenge Program provides quality education and life skills, in a quasi-military based environment, to all qualified "at-promise" Hawaii youth, ages 16 to 18, who are not attending school or who are in jeopardy of not completing high school. Primary objective is for the youth who complete the program, to receive a high school diploma, be placed upon graduation in steady employment/career, continue with post graduate schooling, or be accepted in the military, to become contributing members of society.

Source of Revenues: The National Guard Special Military Project Youth Challenge Program Cooperative Agreement establishes the terms and conditions as it relates to the contribution of Department of Defense (federal) funds. Title 32, United States Code, Section 509, authorizes the National Guard Bureau (NGB) to contribute funds to the States for Youth Programs.

Current Program Activities/Allowable Expenses: To account for those activities and duties, supported by the National Guard Youth Challenge Program Cooperative Agreement (NGYCP-CA), in which to nurture and provide educational services to "at-risk" 16 to 18 year old youth in a quasi-military, residential based environment.

Variations: Variations exist mainly due to cash transfers from previous fiscal years to current years, as required by the National Guard Bureau (NGB) grant, to return excess federal grant monies (cash) not obligated or expensed once all obligations have been fully executed. Further variations may occur due to prior estimated reclassifications of State shares and the need of cash balances in current FYs to execute new contracts and agreements.

**Statement of Objectives**

Environmental compliance has become a highly visible issue and detailed financial information is being collected and scrutinized by DoD, OMB, and Congress. All aspects of the program are being briefed in Congress and several special budget exhibits have been formulated by OMB in order to program and budget for the program. Program encompasses conservation, pollution prevention, and environmental compliance projects

**Statement of Objectives**

ARNG-IES is authorized to contribute 100 percent of federal funds to the State for specific expenses incurred in rendering management, installation, operation and maintenance (MIO&M) services of approved and authorized ARNG-IES ESS equipment used exclusively for the support of federal system requirements approved by the ARNG-IES ESS Program Manager. QPSM ESS funds are to be used for the support of AR190-11 AA&E IDS maintenance and monitoring requirements. Non-AA&E federal system requirements may be considered for support with QPSM O&M funds only after obtaining the ARNG-IES ESS Program Manager's advanced written approval. All State-requested and other electronic security system requirements will require other funding to plan, scope, design, procure, install, and sustain. ARNG-IES ESS shall provide 100 percent federal support within funding limitations for authorized ESS MIO&M. The support of ESS MIO&M is authorized for facilities described as joint use with the federal government, coded for federal support with an Installation Number, Facility Number, and Facility Type, and approved for standardized ESS equipment by the ARNG-IES ESS Program Manager (PM). ESS MIO&M provides federal support for Intrusion Detection Systems (IDS), Closed Circuit Television (CCTV), Electronic Entry and Access Control Equipment to include Intercom Systems, and other ESS systems as defined and approved by the ARNG-IES ESS Program Manager on authorized facilities.

Name of Fund: **Targeted Violence and Terrorism Prevention (TVTP) Grant Program**  
 Apprn. Acct. **216**  
 Fund Type (MOF): **P**

Legal Authority: **Homeland Security Act of 2002, as amended (Pub. L. No 107-296) and Department of Homeland Security Appropriations Act, 2020 (Pub. L. 116-93, Division D)**

**Statement of Objectives**

TVTP Grant Program seeks to provide funding in three application tracks. The Local Prevention Framework, Replication, and Innovation Tracks will directly support the implementation of the September 2019 DHS Strategic Framework. The Strategic Framework, in turn, is derivative of the December 2017 National Security Strategy that included a Priority Action on enhancing local terrorism prevention capabilities and the October 2018 National Strategy for Counterterrorism that included countering terrorist recruitment and radicalization as one of six lines of efforts and called for the development of a nationwide prevention architecture. The objectives of the TVTP Grant Program align to objectives in Goal 3 of the Strategic Framework (see Appendix A for additional details). The primary objectives of Goal 3 addressed by the TVTP Grant Program are:

- Strengthen societal resistance against the drivers of violent extremism and ensure broad awareness of the threat of terrorism and targeted violence.
- Counter terrorists and violent extremists' influence online.
- Develop prevention frameworks with SLTT partners to enhance their ability to identify and respond to individuals at risk of mobilizing to violence.
- Develop and implement recidivism reduction programming to address individuals convicted of crimes related to terrorism and targeted violence.

The TVTP Grant Program seeks to provide funding to applications that align with the Strategic Framework and that protect privacy, civil rights, and civil liberties. Please See Appendix D for research, logic model, performance measurement, and other resources that can be referenced to design project proposals.

Name of Fund: Building Resilient Infrastructure and Communities

Apprn. Acct. Number: S-23-226-G

Fund Type (MOF): \_\_\_\_\_ P \_\_\_\_\_

Legal Authority: Act 248/SL22

**Statement of Objectives**

The purpose of the Building Resilient Infrastructure and Communities (BRIC) grant program FFY21 is to provide grants to States and Indian Tribal government or territory that, in turn, provide Subawards to local governments for cost-effective mitigation activities. Funds will be used to implement a sustained pre-disaster natural hazard mitigation program to reduce overall risk to the population and structures, while also reducing reliance on funding from actual disaster declarations.

Intended Purpose: National Guard Youth Challenge Program provides quality education and life skills, in a quasi-military based environment, to all qualified "at-promise" Hawaii youth, ages 16 to 18, who are not attending school or who are in jeopardy of not completing high school. Primary objective is for the youth who complete the program, to receive a high school diploma, be placed upon graduation in steady employment/career, continue with post graduate schooling, or be accepted in the military, to become contributing members of society.

Source of Revenues: The National Guard Special Military Project Youth Challenge Program Cooperative Agreement establishes the terms and conditions as it relates to the contribution of Department of Defense (federal) funds. Title 32, United States Code, Section 509, authorizes the National Guard Bureau (NGB) to contribute funds to the States for Youth Programs.

Current Program Activities/Allowable Expenses: To account for those activities and duties, supported by the National Guard Youth Challenge Program Cooperative Agreement (NGYCP-CA), in which to nurture and provide educational services to "at-risk" 16 to 18 year old youth in a quasi-military, residential based environment.

Variations: Variations exist mainly due to cash transfers from previous fiscal years to current years, as required by the National Guard Bureau (NGB) grant, to return excess federal grant monies (cash) not obligated or expensed once all obligations have been fully executed. Further variations may occur due to prior estimated reclassifications of State shares and the need of cash balances in current FYs to execute new contracts and agreements.

Source of Revenues: The National Guard Special Military Project Youth Challenge Program Cooperative Agreement establishes the terms and conditions as it relates to the contribution of Department of Defense (federal) funds. Title 32, United States Code, Section 509, authorizes the National Guard Bureau (NGB) to contribute funds to the States for Youth Programs.

Current Program Activities/Allowable Expenses: To account for those activities and duties, supported by the National Guard Youth Challenge Program Cooperative Agreement (NGYCP-CA), in which to nurture and provide educational services to "at-risk" 16 to 18 year old youth in a quasi-military, residential based environment.

Variations: Variations exist mainly due to cash transfers from previous fiscal years to current years, as required by the National Guard Bureau (NGB) grant, to return excess federal grant monies (cash) not obligated or expensed once all obligations have been fully executed. Further variations may occur due to prior estimated reclassifications of State shares and the need of cash balances in current FYs to execute new contracts and agreements.

Targeted Violence Terrorism Preparedness

Intended Purpose: The Targeted Violence and Terrorism Prevention (TVTP) Grant Program seeks to provide funding in three application tracks. The Local Prevention Framework, Replication, and Innovation Tracks will directly support the implementation of the September 2019 DHS Strategic Framework. The Strategic Framework, in turn, is derivative of the December 2017 National Security Strategy that included a Priority Action on enhancing local terrorism prevention capabilities and the October 2018 National Strategy for Counterterrorism that included countering terrorist recruitment and radicalization as one of six lines of efforts and called for the development of a nationwide prevention architecture.

Source of Revenues: Department of Homeland Security, Federal Emergency Management Agency

Current Program Activities/Allowable Expenses: Management and Administration (M&A) Costs M&A costs are allowable by the recipient up to 5% of the award. Planning, training, organization, exercises, and domestic travel are allowed under this program.

PRE-DISASTER MITIGATION

Intended Purpose: The Pre-Disaster Mitigation (PDM) grant program makes federal funds available to state, local, tribal and territorial governments to plan for and implement sustainable cost-effective measures designed to reduce the risk to individuals and property from future natural hazards, while also reducing reliance on federal funding from future disasters.

Source of Revenues: The Consolidated Appropriations Act of 2023 authorizes funding for 100 projects for states, tribes, territories and local communities for FEMA's Hazard Mitigation Assistance Pre-Disaster Mitigation grant program.

Current Program Activities/Allowable Expenses: The program promotes implementation of activities designed to reduce injuries, loss of life, and damage and destruction to property from natural hazards.

Variances: Revenues and expenditures vary year by year depending on grant. All project are now congressionally directed spending projects.

Intended Purpose: National Guard Youth Challenge Program provides quality education and life skills, in a quasi-military based environment, to all qualified "at-promise" Hawaii youth, ages 16 to 18, who are not attending school or who are in jeopardy of not completing high school. Primary objective is for the youth who complete the program, to receive a high school diploma, be placed upon graduation in steady employment/career, continue with post graduate schooling, or be accepted in the military, to become contributing members of society.

Source of Revenues: The National Guard Special Military Project Youth Challenge Program Cooperative Agreement establishes the terms and conditions as it relates to the contribution of Department of Defense (federal) funds. Title 32, United States Code, Section 509, authorizes the National Guard Bureau (NGB) to contribute funds to the States for Youth Programs.

Current Program Activities/Allowable Expenses: To account for those activities and duties, supported by the National Guard Youth Challenge Program Cooperative Agreement (NGYCP-CA), in which to nurture and provide educational services to "at-risk" 16 to 18 year old youth in a quasi-military, residential based environment.

Variations: Variations exist mainly due to cash transfers from previous fiscal years to current years, as required by the National Guard Bureau (NGB) grant, to return excess federal grant monies (cash) not obligated or expensed once all obligations have been fully executed. Further variations may occur due to prior estimated reclassifications of State shares and the need of cash balances in current FYs to execute new contracts and agreements.

**Statement of Objectives**

Environmental compliance has become a highly visible issue and detailed financial information is being collected and scrutinized by DoD, OMB, and Congress. All aspects of the program are being briefed in Congress and several special budget exhibits have been formulated by OMB in order to program and budget for the program. Program encompasses conservation, pollution prevention, and environmental compliance projects

**Statement of Objectives**

ARNG-IES is authorized to contribute 100 percent of federal funds to the State for specific expenses incurred in rendering management, installation, operation and maintenance (MIO&M) services of approved and authorized ARNG-IES ESS equipment used exclusively for the support of federal system requirements approved by the ARNG-IES ESS Program Manager. QPSM ESS funds are to be used for the support of AR190-11 AA&E IDS maintenance and monitoring requirements. Non-AA&E federal system requirements may be considered for support with QPSM O&M funds only after obtaining the ARNG-IES ESS Program Manager's advanced written approval. All State-requested and other electronic security system requirements will require other funding to plan, scope, design, procure, install, and sustain. ARNG-IES ESS shall provide 100 percent federal support within funding limitations for authorized ESS MIO&M. The support of ESS MIO&M is authorized for facilities described as joint use with the federal government, coded for federal support with an Installation Number, Facility Number, and Facility Type, and approved for standardized ESS equipment by the ARNG-IES ESS Program Manager (PM). ESS MIO&M provides federal support for Intrusion Detection Systems (IDS), Closed Circuit Television (CCTV), Electronic Entry and Access Control Equipment to include Intercom Systems, and other ESS systems as defined and approved by the ARNG-IES ESS Program Manager on authorized facilities.

Name of Fund: **Targeted Violence and Terrorism Prevention (TVTP) Grant Program**

Apprn. Acct. **216**

Fund Type (MOF): **P**

Legal Authority: **Homeland Security Act of 2002, as amended (Pub. L. No 107-296) and Department of Homeland Security Appropriations Act, 2020 (Pub. L. 116-93, Division D)**

**Statement of Objectives**

TVTP Grant Program seeks to provide funding in three application tracks. The Local Prevention Framework, Replication, and Innovation Tracks will directly support the implementation of the September 2019 DHS Strategic Framework. The Strategic Framework, in turn, is derivative of the December 2017 National Security Strategy that included a Priority Action on enhancing local terrorism prevention capabilities and the October 2018 National Strategy for Counterterrorism that included countering terrorist recruitment and radicalization as one of six lines of efforts and called for the development of a nationwide prevention architecture. The objectives of the TVTP Grant Program align to objectives in Goal 3 of the Strategic Framework (see Appendix A for additional details). The primary objectives of Goal 3 addressed by the TVTP Grant Program are:

- Strengthen societal resistance against the drivers of violent extremism and ensure broad awareness of the threat of terrorism and targeted violence.
- Counter terrorists and violent extremists' influence online.
- Develop prevention frameworks with SLTT partners to enhance their ability to identify and respond to individuals at risk of mobilizing to violence.
- Develop and implement recidivism reduction programming to address individuals convicted of crimes related to terrorism and targeted violence.

The TVTP Grant Program seeks to provide funding to applications that align with the Strategic Framework and that protect privacy, civil rights, and civil liberties. Please See Appendix D for research, logic model, performance measurement, and other resources that can be referenced to design project proposals.

**Statement of Objectives**

The purpose of the Building Resilient Infrastructure and Communities (BRIC) grant program FFY21 is to provide grants to States and Indian Tribal government or territory that, in turn, provide Subawards to local governments for cost-effective mitigation activities. Funds will be used to implement a sustained pre-disaster natural hazard mitigation program to reduce overall risk to the population and structures, while also reducing reliance on funding from actual disaster declarations.
