Name of Fund: Emergency Shelter Grant  
 Apprn. Acct. Number: S-XX-216-K  
 Fund Type (MOF): N  
 Legal Authority: McKinney-Vento Homeless Act as amended by Hearth Act of 2009

**Statement of Objectives**

Emergency Solutions Grant (ESG) funds will be used in Hawaii, Kauai and Maui counties to meet the objectives of promoting decent affordable housing and strengthening communities. Emergency shelters provide a secure environment where homeless households and/or victims of domestic violence can stabilize their lives, and address their needs, and strengthen their economic situation towards the goal of permanent housing. ESG Shelter funds are utilized specifically for operational costs. ESG Homeless Prevention and Rapid RE-housing Program (HPRP) funding helps prevent homelessness by providing eligible housing-related financial assistance to persons and families at risk of homelessness, as well as providing rapid re-housing (RRH) assistance to homeless households. Financial assistance includes short/medium term rents, rent/utility arrears, and utility payments. RRH funds are also utilized to provide housing relocation and stabilization services (case management, housing search and placement, legal services, landlord mediation, etc.) as integral components to achieving housing stability in permanent housing.

 Apprn. Acct. Number: S-XX-222-K  
 Fund Type (MOF): N  
 Legal Authority: AIDS Housing Opportunity Act

**Statement of Objectives**

The Neighbor Island Housing Program (NIHP) is a cooperative effort of the three community-based AIDS Service Organizations (ASOs) serving the islands of Kauai, Molokai, Lanai, Maui and Hawaii. Established in 1988, the cooperating agencies of NIHP are Malama Polo Health Services (MP), Maui Aids Foundation (MAF) and the Hawaii Island HIV/AIDS Foundation (HIHAF). MAF acts as the lead administrative agency for the Housing Opportunity for Persons with AIDS (HOPWA) grant. The primary focus of the HOPWA program is to increase the housing stability of people living with HIV/AIDS. More stable housing leads to better compliance with medication, better engagement with the health providers, lower community viral load and better health outcome. Housing helps lower transmission rates. The coalition provides TBRA (Tenant Based Rental Assistance), STRMU (Short-term Rent, Mortgage, Utilities), Permanent Housing Placement Assistance services, as well as supportive services/case management at the respective island ASOs. It serves three counties in the State of Hawaii located on 5 separate island.

The \$4.65M was used for technological improvements to DHS online applications, cloud services, conversational & AI technologies to meet the increased demand in citizen applications resulting from the economic fallout caused by the COVID-19 pandemic. DHS increased the capacity, reliability, and reach of DHS services to citizens by investing in scalable information and communication technology infrastructure systems that support all benefits applications across all DHS safety net programs. In addition, these funds were used to implement various systems aimed at protecting the safety of our employees and the public, in support of social distancing and addressing the 10X increase resources to support department-wide telework.

The combined funds of this \$1.95M and the previously approved \$4.65M CRF request were used by the department to work with its internal business units and technology partners to identify and address additional critical needs that were not covered in the previously approved CRF request. DHS invested in technological improvements to its online applications, and public facing services to meet the increased demand in applications for benefits and services resulting from the economic crisis caused by the COVID-19 pandemic. The purpose of the CRF funds is to continue to protect the safety of our employees and the public by increasing the capacity, reliability, and reach of DHS services to Hawaii's residents by investing in scalable information and communication technology infrastructure systems that support all benefits applications across all DHS safety net programs.

**Statement of Objectives**

The goal of this federal, multi-year grant is to enable longitudinal research on participation in and the operation of SNAP over time and across State lines. Hawaii was awarded as one of the 11 states to participate in this project and contribute to the development of the national SNAP longitudinal database and research. The grant requires meeting four objectives of this grant: 1) On an annual basis, securely share and/or enable the secure sharing of the monthly required data elements for the SNAP LDP with FNS/Census Bureau; 2) On an annual basis, securely share and/or enable the secure sharing of the monthly optional data elements for the SNAP LDP with FNS/Census Bureau; 3) Improve the evaluation of SNAP data across state lines by progressing toward a standardized data format to enable data comparison; and 4) Enable SNAP longitudinal research. To meet the grant objectives and requirements, two key components in Hawaii's project are: 1) Improve data management processes and standardization to align to the gold standard; and 2) Build a Hawaii SNAP longitudinal research capacity.

**Non-General Fund Program Measures Report

Department of: HMS**

Name of Fund: Disaster Case Management Program  
 Appropriation Account Number: S-XX-538-K  
 Fund Type (MOF): N  
 Legal Authority: FEMA-4724-HI Maui Wildfires

**Statement of Objectives**

The purpose of the project is to develop and implement effective disaster case management infrastructure and systems that provide a time-limited collaboration between trained case managers and disaster survivors which involves the development of a disaster recovery plan and a mutual effort to fulfill those disaster-caused unmet needs described in the plan. The project will enable case management services through effective delivery of post-disaster case management services, increase partner integration, build provider capacity, and promote state-level program development to assist all disaster survivors in addressing unmet needs and to effect complete recovery in Maui County. The department intends to create a hybrid DCMP model to better serve the survivors in Maui. This includes planning (with separate state funding) to extend disaster case management services to certain survivors who would be ineligible to receive disaster case management (DCM) services through the federal grant. In an attempt to keep programmatic equity, the department will hire these staff directly, but provide them with the same training, case management software system, and tracking as the rest of the program. The final outcome is to assist the entire impacted population-regardless of their FEMA eligibility-the ability to achieve recovery in the wake of this disaster, and return to a permanent housing solution, while also creating a framework within OHS that will enable the agency to be better prepared from Day One of a future disaster to respond and meet the needs of those impacted.
