THE SENATE
TWENTY-FOURTH LEGISLATURE, 2007
STATE OF HAWAII

ACT 082

S.B. NO. 795
S.D. 2
H.D. 1
C.D. 1

A BILL FOR AN ACT

RELATING TO BUILDING CODES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the State has
2 traditionally allowed the individual counties to establish their
3 own building codes. The counties have adopted various portions
4 of the Uniform Building Code, but the code differs from county
5 to county. The status of fragmented building requirements in
6 Hawaii is of serious concern to those involved in building
7 ownership, design, construction, and insurance. Over forty
8 states have adopted some form of a statewide building code.

9 The adoption of a uniform set of statewide building codes
10 applicable to one and two family dwellings, all other
11 residential uses, and commercial and industrial buildings, and
12 state buildings would make it possible for building owners,
13 designers, contractors, and code enforcers within the State to
14 apply consistent standards. The International Building Code is
15 currently being considered for adoption by all counties. The
16 health and safety considerations related to the codes are of

1 statewide interest, especially relating to emergency disaster
2 preparedness.

3 The purpose of this Act is to require the department of
4 accounting and general services to establish and implement a
5 state building code.

6 SECTION 2. Chapter 107, Hawaii Revised Statutes, is
7 amended by adding a new part to be appropriately designated and
8 to read as follows:

9 "PART II. STATE BUILDING CODE AND DESIGN STANDARDS

10 §107-A Definitions. As used in this part:

11 "Council" means the state building code council.

12 "Department" means the department of accounting and general
13 services.

14 "Hurricane resistive criteria" means the design criteria
15 for enhanced hurricane protection areas that are capable of
