DAVID Y. IGE GOVERNOR

STATE OF HAWAII DEPARTMENT OF ACCOUNTING AND GENERAL SERVICES

P.O. BOX 119, HONOLULU, HAWAII 96810-0119

January 7, 2015

The Honorable Jill N. Tokuda Chair, Senate Committee on Ways and Means State Capitol, Room 208 Honolulu, HI 96813

Dear Senator Tokuda:

We are transmitting one copy of the written testimony for our budget briefing in response to your memorandum of December 5, 2014. An electronic copy of the testimony will also be the emailed to the address noted in the instructions. Members of my staff and I look forward to the opportunity to discuss our budget briefing testimony with your committee.

If you have any questions, please call me at 586-0400 or have your staff call Kerry Yoneshige of the Administrative Services Office at 586-0690.

Sincerely,

Douglas Murdock

Comptroller

SENATE COMMITTEE ON WAYS AND MEANS HOUSE COMMITTEE ON FINANCE

TESTIMONY OF THE DEPARTMENT OF ACCOUNTING AND GENERAL SERVICES BIENNIUM BUDGET FY 2015-2017 January 14, 2015

A. Overview: Mission Statement:

To help agencies better serve the public by providing, at best value and with integrity: superior public facilities, expert technology solutions and services, operational support, fiscal guidance, oversight of administrative services and preservation and promotion of cultural heritage.

B. Overview: Discussion on how current economic and fiscal conditions have affected agency operations and ability to meet goals.

The downward revision of the revenue estimate by the Council of Revenues and other economic uncertainties led to the decision by former Governor Abercrombie's Administration to impose a 10% restriction (the restriction) on general fund appropriations.

To demonstrate the severity of the restriction, in some of our programs, such as the Accounting Division (AGS 103), Audit Division (AGS 104), Archives Division (AGS 111), Land Survey Division (AGS 211), Public Works Division (AGS 221), State Procurement Office (AGS 240), and Administration (AGS 901) the personal services budget represents 93% of their general fund budget and the 10% restriction will require the program to leave vacancies unfilled as the current expense allocation is insufficient to absorb the restriction. On a macro level, although \$59.4 million of the total general fund appropriation of \$90.2 million is in "Other Current Expense," if the non discretionary funds, Other Current Expense for three programs, the Information Management and Technology Services (AGS 130), the Information Processing and Communication Services (AGS 131), and the Central Services – Custodial Services (AGS 231) programs are deducted from Other Current Expenses, the net amount is only \$11.3 million. The Other Current Expense budgets for AGS 131 and AGS 231 fund maintenance contracts and utilities while the amounts in AGS 130 are primarily for consultants for the ERP project which is why they are so large. Utilizing the net Other Current Expense budget amount of \$11.3 million results in a macro ratio 73% of personal services budget (\$30.8 million) which is why our general funded programs are struggling with the 10% restriction.

To function, our programs have taken the restriction against other current expense or transferred third and fourth quarter allotment to the first and second quarters. Additionally, our programs are meeting the reduced allotted amounts through the suspension of hiring and purchase of equipment. These factors have not yet had a significant impact on our programs meeting their mission critical objectives, however if the restrictions are not removed or significantly reduced, our programs' ability to attain mission critical objectives in the third and fourth quarters will be significantly reduced and State employees and the public will be negatively impacted.

Although the positive attitude of our program administrators has been an essential part of sustaining our performance levels over the years since the reduction in force and budget reductions in 2008 and 2009, the current 10% restriction leaves them with few options to be successful at attaining their goals without another reduction in force.

C. Federal Funds: Identify programs that have lost or are at risk of losing federal funds. Identify the source of these federal funds by award title and CFDA number. Discuss the impact to the public and your planned response, including efforts to supplant any federal fund reductions for the current year (FY 15) and the upcoming years (FY 16 and FY 17) with other funds.

The State Foundation on Culture and the Arts (SFCA), AGS 881, receives federal funds from the "National Endowment for the Arts State Programs" under CFDA program title "Promotion of the Arts Partnership Agreements" and CFDA number 45-025. The SFCA is not at risk of losing federal funds in FY 15 and does not anticipate any loss in federal funds in FY 16 and FY 17.

The Office of Information and Technology (OIMT), AGS 130, will be receiving approximately \$4 million under CFDA program title "Affordable Care Act (ACA) Grants to States Health Insurance Premium Review" and CFDA number 93.511. The OIMT does not anticipate any loss of federal funds in FY 16 and FY 17.

D. Budget Requests: Process used to develop the budget and prioritize requests for additional funds.

Our programs originated operating budget requests in two categories, one for a "status quo" budget and the other classified as "Additional Resources" for consideration by the new administration. The budget requests were prepared based on guidelines from the Department of Budget and Finance. Those requests classified as "status quo" are included in the executive budget submitted to the legislature. The status quo approach also applied to the CIP budget.

Budget Requests: Identify and discuss significant adjustments contained in the budget request submitted to the legislature. Explain and quantify how significant requests are expected to affect outcomes.

We have no significant operating budget requests.

DAGS has new CIP biennium budget requests totaling \$41.2 million (FY 16, \$20.5 million and FY 17, \$20.7 million). The two items in our CIP budget are \$8.5 million and \$8.7 million for CIP staff costs for FY 16 and FY 17, respectively and \$12 million in each year for lump sum maintenance of existing facilities.

Chair Tokuda, Chair Luke and members of the Committees, my staff, staff from OIMT and I are available to answer any questions you and your committee members may have concerning our programs and the materials submitted for this hearing.

| Prog ID | Sub-Org | | Budgeted by Dept | Restriction | Difference Between Budgeted & Restricted | Percent Difference | <u>Impact</u> |
|---------|---------|---|---------------------|-------------|--|--------------------|--|
| AGS-101 | CA | Α | \$ 513,981 | \$ 65,000 | \$ 448,981 | | The reduction will impact our funding for consultant services needed to support the Financial Datamart System (Datamart). The Datamart is a custom financial portal developed by consultants, and contains data from the Financial Accounting and Management Information System (FAMIS) and Payroll System. On a weekly basis our consultants are called upon to provide critical maintenance and support, trouble shooting and resolving problems with the servers, network, system, software, database, security and data. Occasionally they are asked to make enhancements to improve performance, provide more functionality, and increase availability of data. Due to the technical nature of the Datamart, the state does not have the staff with the proper skill set, knowledge or expertise that are only available through our consultants. Without sufficient funding for consultant services, we will not be able to keep the Datamart up-to-date, accurate and operational. If FAMIS encounters problems, it can impact the daily updates to the Datamart. Our consultants are called to bring down the Datamart and perform the necessary update procedures. If this is not done in a timely manner, we may not be able to obtain that data again. This would forever compromise the data that is in the Datamart and will no longer be in sync with FAMIS making the data unreliable. When errors occur with the data, the consultants are called to analyze the software and data to identify and correct the errors. If we are unable to correct these errors, the data in the Datamart would be inaccurate. There are multiple factors that can affect the Datamart's ability to be operational, secure and online daily. The consultants perform routine maintenance and updates, as well as trouble shoot and resolve problems with the servers, network, system, software, database and security. |
| | | | | | | | The Datamart is the most widely used financial system in the State of Hawaii, with more than 1,200 users. The Datamart is used daily by all departments and agencies to obtain the most up-to-date financial and payroll information related to their departments and operations. Reducing the funds for consultant services needed to support the Datamart will impact all departments and agencies statewide. FAMIS is over thirty years old and provides limited online access to current and historical data. In addition to the Datamart being updated daily with the most current financial data from FAMIS, it also contains fourteen years of historical financial data and provides users with the ability to search, view online and download that data. Also, most of the reports from FAMIS that departments rely on have been converted to PDF documents that are only available from the Datamart. If the Datamart is not up-to-date, accurate and operational, departments will be impacted by their ability to monitor and manage their appropriations, allotments, cash balances, revenues, expenditures, encumbrances, projects, grants, etc. This will also impact their ability to provide accurate and timely financial information needed to respond to requests from management, auditors, legislature, and others, as well as the completion of the departmental financial statements and the Comprehensive Annual Financial Report (CAFR). |
| | | | | | | | The Payroll system is over forty years old and does not provide online access to current and historical data. The Datamart is updated each pay period with the most current payroll data from the Payroll system. The Datamart also contains the last ten years of historical payroll data and provides users with the ability to search, view online and download that data. Datamart provides departments with the ability to search and download detail payroll information on an individual or group of employees. Without the ability to download, sort and summarize payroll data, departments would need to resort to paper reports they receive every pay period, requiring more time, manpower, and cost. Recently the same consultant developed the Federal Award Management System (FAMS) which is integrated with and dependent on the Datamart. If the Datamart is down, FAMS will also not be accessible, and no one will have access to their Federal Awards information. |
| AGS-102 | СВ | A | \$ 1,098,527 | \$ 159,968 | \$ 938,559 | | The program's turnaround time to certify contracts will increase from two to seven working days since this position prepares and distributes contract certifications. Delay in contract certifications will also affect departments' and agencies' ability to have contractors begin building/repairing/providing services for the State's infrastructure and the State's citizens. Further delays beyond the two to seven working days may occur if other expenditures and encumbrances are recorded prior to the recording of the contract encumbrances. |

| Prog ID | Sub-Org | MOF | Budgeted by Dept | Restriction | Difference Between Budgeted & Restricted | <u>Percent Difference</u> | Impact The maintenance of the employee designation of beneficiary forms which includes reviewing, filing and/or replacing of the forms |
|---------|---------|-----|---------------------|-------------|--|---------------------------|--|
| | | | | | 0 | | will also be delayed. The lack of timely filing may result in deceased employees' families not receiving last pay and/or vacation pay needed to cover critical living expenses and could result in more time being spent (estimated average of 30 minutes per call to look at forms filed, forms not filed, and forms not reviewed to insure that the latest designation's information is given to the employing department. |
| | | | | | | | The loss of overtime could delay fiscal year closing and also could delay issuing the State's Form W-2 for the Executive, Legislative and its attached agencies, the Judiciary, Department of Education, University of Hawaii, Hawaii Health System Corporation, and the Office of Hawaiian Affairs. Delay in fiscal year closing could affect CAFR issuance and could negatively impact the State's ability to float bonds. Late issuance of the State's Form W-2 could result in IRS and/or State penalties for late filing since calendar year closing of the payroll records require substantial overtime by the Central Payroll staff. |
| | | | | | | | Reduction of current expenses such as maintenance of mailing equipment will affect the timely mailing of contractors', vendors', and third party payees' checks since the vendor will not be on call to repair the inserter and other mailing equipment. |
| AGS-103 | СС | Α | \$ 823,172 | \$ 18,600 | \$ 804,572 | 97.74% | The restriction was achieved through a reduction in personal services (\$11.8K) and other current expenses (\$6.8K). |
| | | | | | • | | Overtime was reduced by approximately 13%. The program requires overtime due to spikes in work volume related to fiscal year- end, establishment of new fiscal year appropriations and allotments, and system purges (performed on weekends to minimize disruption to departments statewide). |
| | | | u v | | | | The program significantly reduced its overtime from \$129.6K in fiscal year 2011 to \$39.8K in fiscal year 2015. This reduction was achieved through adding dedicated resources for the Comprehensive Annual Financial Report (CAFR), filling vacant positions, and streamlining processes. To meet the fiscal year 2015 restriction financial reconciliations and error resolutions were delayed. |
| | | | | | | | Restoration of the \$11.8K in personal services is essential. Failure to restore funds will result in delay in vendor payments (due to delay in error resolution), fiscal year-end close, and CAFR issuance. Late vendor payments result in late fees and create a financial burden for the State's business partners. Inability to close fiscal year-end results in delay in opening the new fiscal year, delaying capital and operating spending by departments state-wide. In addition, fiscal year-end reports and reconciliations are the starting point for CAFR preparation; therefore, delays in fiscal year-end close and reconciliations delay CAFR issuance. Timely issuance of the CAFR is essential to maintaining a positive bond rating and minimizing the State's interest expense. |
| | | | | | | | The reduction in other current expenses was achieved by eliminating training. Due to the highly technical nature of CAFR preparation, training is required to ensure that authoritative statements are reasonably interpreted and transactions are correctly recorded. Auditors consider their clients' competence to be a key internal control. Errors on the preparers'/reviewers' part cause inefficient re-work, delaying CAFR issuance and bringing into question the State's credibility. In addition, because auditors' testing is limited in scope, failure to properly train employees increases the risk of material mis-statement in the CAFR. Late issuance of and/or material mis-statement in the CAFR would impact the State's credit rating and significantly increase the State's interest expense. |
| AGS-104 | ВА | A | \$ 441,975 | \$ 44,198 | \$ 397,777 | 90.00% | The program's personal services category for FY 15 will be short \$22,177 due to the restriction. The program does not generate revenue to make up the deficit. If the deficit is not resolved, one Auditor (Internal) V position will need to be terminated by the end of the 3rd Qtr. The Program is responsible for 259 annual statutory audits. Due to resource constraints, one audit is conducted annually and the remaining 258 are completed on a cyclical basis. The impact of the restriction on the program's core responsibilities due to the termination of the Auditor (Internal) V position will be a reduction per fiscal year of 14 statutorily required audits completed on a cyclical basis that require 840 direct audit hours to complete. In addition, the elimination of one of four State departments not audited annually but on a cyclical basis that requires 500 direct audit hours to complete. The number of years between these State department audits will increase. Scheduling annually required audits on a delayed basis has its adverse effects. Because of inherent limitations in any system of internal controls, errors or irregularities may nevertheless occur and not be detected. Specific examples of limitations include, but are not limited to, resource constraints, unintentional errors, management override, circumvention by collusion, and poor judgment. Also, projection of any evaluation of the system to future periods or delays in audits is subject to the risk that procedures may become inadequate because of changes in conditions or the degree of compliance with the procedures may deteriorate. |

| | | | | | Difference | | |

| | | | | | <u>Between</u> | | |
| | | | Budgeted by | | Budgeted & | | |
| Prog ID | Sub-Org | MOF | Dept | Restriction | Restricted | Percent Difference | <u>Impact</u> |
| | | | | | | | Such conditions would adversely affect the State department or agency's (Department) ability to initiate, authorize, record, process, or report financial data reliably in accordance with State accounting and reporting procedures such that there is more than a remote likelihood that a misstatement of the Department's financial statements that is consequential will not be prevented or detected by the Department's internal control. |
| AGS-111 | DA | A | \$ 867,572 | \$ 86,758 | \$ 780,814 | 90.00% | Inability to fill two staff positions will directly limit services to the public including doubling wait times for retrieval of records and increasing retrieval times for processing of requests including the certification of documents required for identity verification and legal proceedings from 3 days to 7 days. Restrictions will also impact the processing and uploading of records to the digital archives reducing the number of new records added by 30%. In FY 14, 400,000 users searched and viewed our online records. Limits services to state agencies for records management consultation, including reducing the development of new or revised records schedules by 75%. For the past 5 years staff reductions at the State Records Center has severely limited services, prompting two agencies, the Department of Transportation and OHA to hire their own records analysts. No funding for computer hardware or software and an unsustainable 60% reduction to other current expenses limiting all office supply purchases. |
| AGS-130 | EG | Α | \$ 15,090,969 | \$ 1,509,096 | \$ 13,581,873 | 90.00% | Maintain vacancy savings; restrict travel, training, supplies, subscriptions & dues, deferred non-essential projects such as phase 2 of payroll modernization project, merged disaster recovery and closure of compliance gaps components for the GPC into one project to reduce costs, used existing equipment and software to avoid purchasing new products for the TRAC project, leveraged combination of existing tools such as Sharepoint, websphere, java, in order to reduce costs while expanding the scope of the records management project. |

| AGS-131 | EE | Α | \$ 1,804,175 | \$ 154,171 | \$ 1,650,004 | | access control servers. 2. Reduce or eliminate software licenses for: various mainframe licenses to run central applications such |
| AGS-131 | EF | Α | \$ 3,562,733 | | | | as payroll, FAMIS, unemployment, child support, FMS for DOE, child protective services, vocational rehabilitation, warrant reconciliation, central warrant writer, and DOH applications; various licenses for security systems, tape systems, and databases; statewide Domino messaging service licenses; Lotus Notes user licenses. 3. Reduce or eliminate projects for: mainframe computer memory and data encryption; secure transport service; virtual private network security systems. 4. Reduce or eliminate technical training for staff to support critical operational equipment and computer and networking systems. 5. Vacancy savings and delay in hirings. |
| AGS-211 | НА | A | \$ 646,586 | \$ 64,658 | \$ 581,928 | 90.00% | Vacant Land Boundary Surveyor V position kept vacant to meet the 10% restriction. Keeping the position vacant will reduce the program's capacity to provide land surveys for state agencies. Approximately 40 survey requests for furnishing of maps and descriptions of all government and select private lands utilized by state agencies for executive orders, general leases, grant of easements, acquisitions, exchanges, transfer and sale of government lands will not be completed this year and we estimate that requests that are completed may be delayed up to 6 months. |
| AGS-221 | IA | A | \$ 1,199,707 | \$ 119,970 | \$ 1,079,737 | 90.00% | General Funded positions are responsible for the execution and implementation of Capital Improvement Program projects for DAGS and other state agencies that do not have the licensed engineers, licensed architects and support staff to perform the work to plan, design, construct, renovate, and repair their buildings and facilities in order to meet health and safety requirements of those buildings for their occupants and the public. DAGS and those client state agencies to the program could be faced with significant project delays in their planning, implementation, design, construction, renovation, and repair phases of their projects. These delays could potentially inflate the current budgeted costs of those projects if management oversight and support provided by the General Funded positions is absent due to a "reduction in force" of existing staff in order to meet the 10% restriction. Positions impacted by 10% restriction could include Neighbor Island positions of which provide primary professional (licensed) technical oversight over construction management work and service level agreement (SLA) work for the Department of Education (DOE), Neighbor Island districts. Support provided to the DOE could be compromised and experience delayed response times and delayed project implementation. Construction costs in the form of change order costs could be escalated due to technical errors as a result from lack of consistent project oversight. Change orders could go from 6% or \$33 million to 30% or \$165 million based on the program's typical workload of \$550 million in design and construction projects. Staff would possibly need to be deployed |

| Prog ID | Sub-Org | MOF | Budgeted by | Restriction | Difference Between Budgeted & Restricted | Percent Difference | Impact |
|---------|----------|-----|--------------------------------|-------------|--|--------------------|---|
| | | | | | | | from Oahu to provide construction management support for Neighbor Island projects resulting in reduced productivity due to increase in staff travel and transit time to and from Oahu office to Neighbor Island project sites to and from the Neighbor Island District Offices. Oahu projects would not be monitored at an acceptable level with the additional burden the Oahu staff would take on in providing oversight for the Neighbor Island District projects. |
| AGS-223 | IB FA | A | \$ 10,313,034 \$ 14,814,180 | | \$ 9,755,690 \$ 13,382,250 | | The impact of this restriction is fatal and catastrophic to user departments whom we service, as they will ultimately be affected operationally and financially. To achieve this restriction, we will require that each user department contribute 10% of the general funds that we use to pay for their office leases. If the department is unable to, they will need to either consolidate offices or terminate leases. There is no simple, fair way to determine which leases get cancelled. The departments' option for housing their displaced program, is to relocate them into existing state or lease space. However, they will need to have funds to move physically, which could amount to approximately \$36,000 for an average sized office of 4,000 square feet. Consolidation of offices could result in employees filing union grievances for claims of overcrowding and hardships created by changes in location of the workplace. Also, there may be monetary penalties for terminating a lease prior to its expiration, as some leases require the payment of unamortized tenant improvement costs. Additionally, our negotiating ability will be diminished, as lessors who are impacted by premature cancellations may be hesitant in the future to agree to lease termination provisions which benefit the State. Overall, we must terminate four (4) office leases from our office inventory, or approximately 16,700 square feet which are 100% general funded by our leasing budget; or the equivalent of eight (8) leases amounting to approximately 33,400 square feet which are 50% funded, in order to meet this restriction. The termination or consolidation of leases will negatively impact user departments programmatically and financially, and cause disruption in the workplace. Some of the office leases are partially funded with federal matching funds based upon the State's lease expenditures. These departments could possibly lose their funding should these leases be terminated. Also, since various public services are provided from lease locations, closing these offices |
| | | | | | | | state buildings both for building occupants and the public. This is accomplished by providing custodial related functions like housekeeping services and air conditioning in these buildings. The FY15 restriction represents nearly 2 months of electricity bills, which currently average \$870,000 monthly. The impact of not providing air conditioning will result in health and safety concerns, in addition to grievances by the employee unions which could shut down the buildings. Electricity funds are expected to run out by May 2015 and could result in the air conditioning to be turned off in the buildings. |
| AGS-231 | FB | Α | \$ 1,144,963 | \$ 114,496 | \$ 1,030,467 | 90.00% | No vacancy savings in this program. May be required to reduce personnel by two positions. Total restriction has been applied to Operating 'U' account. A/C maintenance and repair requirements far exceed funding levels and have been deferred. Utility costs consume majority of budget. Janitorial services will decrease, A/C equipment will fail. Bathroom supplies will run out. Severe impact to health and safety of staff and public. |
| AGS-231 | FC | A | \$ 1,029,768 | \$ 132,978 | \$ 896,790 | 87.09% | Reduction will limit the ability of the MDO to provide janitorial services to the various assigned public buildings. The budget for utilities will be reduced by approximately \$92,000 and budget for other expenses reduced by approximately \$41,000. Outsourced cleaning services for the Lahaina Comprehensive Health Center will be terminated. Recycling services will be eliminated. Air conditioning times are being reduced and thermostat temperatures are being increased to save on electricity costs. Janitorial services to all facilities DAGS maintains will be reduced to cleaning restrooms and common areas. All employees will need to maintain their areas (cleaning and trash). State employees will suffer as working conditions may become uncomfortable at times due to warmer temperatures and uncleaned surfaces. Employees will be subject to potential risks such as poor indoor air quality, dust and bacteria associated buildings that are not clean. The State will be at risk of being issued health and safety violations from OSHA due to unsanitary conditions of the building. Flooring, especially carpets will become stained and be unsightly for both employees and public patrons. Restroom supplies will be limited to hand towels and toilet tissue. Bathroom facilities will need to be temporarily closed since all clogs/backups may not be responded to in a timely manner. Air conditioning may be shut down for extended periods of time if funding is not available for parts and labor. |

| | | _ | | | | | The state of the s |
|---------|---------|-----|---------------------|-------------|--|--------------------|--|
| Prog ID | Sub-Org | MOF | Budgeted by Dept | Restriction | Difference Between Budgeted & Restricted | Percent Difference | Impact |
| AGS-231 | FD | Α | \$ 910,194 | \$ 151,020 | \$ 759,174 | 83.41% | The restriction will lead to a reduction of frequency of custodial services due to the lack of funds for necessary supplies. Custodial work that needs to be performed during non-business hours (i.e., stripping and waxing of floors, weedwacking and spraying in public areas, etc.) will need to be deferred due to unavailable funds. With the inaction on work that needs to be performed, the issues will worsen with time and will become much costlier to address. Conditions of floors will deteriorate due to the reduced maintenance. There will be less funds to cover unforeseen expenses such as emergencies or work that would require hiring of a contractor (e.g., trash pickups outside of the normal service contract, washing of windows unreachable by in-house janitors, emergency air conditioning and elevator repairs, etc.). To reduce energy consumption at the various State facilities due to less available funds for payment of utilities, air conditioning hours and temperatures will need to be adjusted to levels that have generated occupant complaints in the past. |
| AGS-231 | FW | A | \$ 217,587 | \$ 21,758 | \$ 195,829 | 90.00% | The Washington Place program includes the historic museum and the governors residence. The Washington Place budget includes a modest operating budget to run the museum and residence. The restriction of \$21,758 reduces funds which are used to initiate official functions at Washington Place. Generally each year Washington Place averages 80 functions which cost approximately \$350 per function. The reduction will result in more than half of the functions not being held and the loss of any revenue that would accompany the events. |
| AGS-232 | FE | A | \$ 1,366,317 | \$ 136,632 | \$ 1,229,685 | | The grounds maintenance program is tasked to maintain grounds surrounding state office buildings by providing a variety of grounds maintenance services. The restriction of \$136,632 reduces funds to address emergency tree trimming and the removal of refuse from assigned state buildings when the programs refuse vehicle is down. Both concerns have health and safety impact and limits the program to respond timely. Injuries to the public and/or damage to private property could occur if diseased tree limbs/branches are not pro-actively removed via emergency tree trimming. Sanitation problems could occur if refuse is not removed from state buildings on a timely basis. |
| AGS-232 | FF | A | \$ 105,449 | \$ 10,546 | \$ 94,903 | | No vacancy savings in this program. Service contracts fill in and consume over 50% of operating funds. Total restriction is being applied to Operating account 'B'. Only \$6,000 for the entire island over the remaining 11 months. |
| AGS-232 | FG | | \$ 177,619 | | | | Reduction will limit the ability of the MDO to provide groundskeeping services to the various assigned public buildings which include the DAGS baseyard, Department of Health, Department of Agriculture, Kahului Library, Makawao Library, Wailuku Library, Lahaina Library, Wailuku Health Center, Lahaina Comprehensive Health Center, Wailuku State Office Building #1 & #2, Kaunakakai State Office Building and Kahului Civic Center. Out-sourced groundskeeping services for the Lahaina Comprehensive Health Care facility will be eliminated. Tree trimming will be limited to coconut trees only at all facilities. Other tree trimming, including emergencies will need to be done by each user agency including the HSPLS, DoH and DoA. Groundskeeping at the DAGS baseyard, Department of Health, Department of Agriculture, Kahului Library, Makawao Library, Wailuku Library, Wailuku Health Center, Lahaina Comprehensive Health Center, Wailuku State Office Building #1 & #2, Kaunakakai State Office Building and Kahului Civic Center will be limited to cleaning up leaves, nuts, branches and rubbish. Mowing of lawns, trimming of hedges and shrubs, weed eating will only be done if there is a safety issue. Unmaintained grounds will be unsightly for the employees and public users of the buildings. Untrimmed trees (low hanging branches, branches growing into powerlines, dead hanging branches) will become a safety hazard to the employees and public users. All facilities under the care of DAGS will suffer the impacts as 3 Maui Groundskeepers will be responsible for 10 facilities that are located from Makawao to Central Maui to Lahaina. |
| AGS-232 | FH | A | \$ 3,549 | \$ 354 | \$ 3,195 | | With the restriction, there are less available funds to adequately trim and maintain the major trees (i.e., Monkeypods, Albezias, etc.) which is required for the safety of the public. There will be less available funding to adequately purchase supplies to maintain the grounds at the public facilities as well. Mowing and weeding will be done less frequently which will eventually become a safety concern as the grass and weeds will be overgrown and may cause a tripping hazard. |

Page 5 of 8 2015 Budget Briefing

| Prog ID | Sub-Org | MOF | | eted by | Restriction | Difference Between Budgeted & Restricted | Percent Difference | Impact |
|---------|---------|-----|--------|---------|-------------|--|--------------------|---|
| AGS-233 | FK | Α | \$ 2, | 538,903 | \$ 253,890 | \$ 2,285,013 | | The Building Repairs and Alterations program is tasked to maintain buildings, public libraries, health centers by providing minor and selected major repairs, in addition to emergency repairs by removing unsafe barriers or conditions. The total restriction of \$253,890 reduces funds for building materials and supplies by \$131,418 and Building and Structures - Special Maintenance by \$122,472. Every effort will be made to reduce the impact on minor repairs, while the reduction in funds for Building and Structures (major repairs) will lose anywhere from 5 to 10 projects not being able to be bid out. These are projects that do not qualify for CIP funding such as repainting, recarpetting etc. and will have to be deferred which could result in higher costs in the future due to increase in repair scope. |
| AGS-233 | FL | Α | \$: | 158,247 | \$ 15,824 | \$ 142,423 | 90.00% | No vacancy savings-only two employees in this program. Total restriction applied to Operating account 'B'. Program is |
| AGS-233 | FM | A | \$: | 102,549 | \$ 10,256 | \$ 92,293 | | underfunded for the amount of responsibility required. Repairs already being deferred for years. With a reduced operating budget, sufficient materials will not be available to complete work orders. This will also limit the amount of work contracted out to help supplement our in-house staff to address work orders. Contracted out services will be reduced or eliminated. The MDO's production will be reduced by 75 work orders per year which is a reduction of 100% of the average production per year. Last fiscal year (13-14) the MDO completed 70 work orders. The backlog will increase from 261 work orders to 336 work orders. The State facilities, including the staff and public patrons, will ultimately suffer the impacts due to the lack of maintenance as noted above. |
| AGS-233 | FN | A | \$ | 99,835 | \$ 9,984 | \$ 89,851 | NA. | With a reduced operating budget, sufficient materials and supplies will not be available for R&A crews to complete work orders. This also limits the amount of work that can be contracted out to help supplement district trade staff in addressing work orders. Last fiscal year (13-14) the KDO completed 300 work orders. By the end of the fiscal year, the KDO's production will be reduced by 100 work orders which is a reduction of 33% of the average production per year. There will be significantly less funds available to cover unforeseen expenses such as emergencies or work that would require the hiring of a contractor. If an urgent need arises, tenants may be required to contract the work out themselves as DAGS may not have the resources required to respond to their requests. Some minor repairs will be deferred and go unaddressed entirely due to lack of funding. With the inaction on work that needs to be performed, problems will worsen with time and will become much costlier to address. The user agencies of DAGS facilities will ultimately suffer the impacts due to the lack of maintenance as noted above. |
| AGS-240 | JA | Α | \$ 1,1 | 126,903 | \$ 112,690 | \$ 1,014,213 | 90.00% | See attached. |
| AGS-807 | FP | A | \$ 1,9 | 920,756 | \$ 192,076 | \$ 1,728,680 | | Unable to fill any vacancies (4 total), baseyards will be understaffed. DOE U-fund reimbursements require DAGS expenditures up front. Utility costs are mostly fixed, as are basic office operations. Replacement of failing equipment is necessary to support decreased manpower. Will be a challenge to meet the performance standards of SLA. Applied total restriction to Operating account 'B', but will have some vacancy savings as retirement positions come open throughout the year. |
| AGS-807 | FQ | A | \$ 1,4 | 196,362 | \$ 119,636 | \$ 1,376,726 | 92.00% | The MDO will not fill two vacant positions and the operating budget will be reduced by 32%. With a reduced operating budget, sufficient materials and equipment will not be available for R & M crews to complete work orders. This will also limit the amount of work contracted out to help supplement our R&M crews to address work orders. The MDO's production will be reduced by 1,200 work orders per year which is a reduction of 22% of the average production per year. Last fiscal year (13-14) the MDO completed 5,400 work orders. The backlog of work orders will increase by 10 weeks, from 1 month to 3.5 months. The school facilities, including the staff and students, will ultimately suffer the impacts due to the lack of maintenance as noted above. |
| AGS-807 | FR | A | \$ 1,0 | 95,815 | \$ 49,582 | \$ 1,046,233 | | With the restriction, the Kauai District Office (KDO) operating budget has been reduced by 25% and equipment budget reduced by 42%. All funding for overtime will be eliminated, which will severely impact the ability of the division to respond in the event of emergencies and disasters such as hurricanes and fires. With the significantly reduced operating and equipment budget, insufficient materials and equipment will be available for R&M crews to complete work orders. This will also limit the amount of work contracted out to help supplement district trade staff in addressing work orders. Last fiscal year (13-14) the KDO completed 2,400 work orders. By the end of the fiscal year, the KDO's production will be reduced by 400 work orders which is a reduction of 17% of the average production per year. The backlog of work orders will increase by two (2) months, from one (1) month to three (3) months. Some minor repairs will need to either be left for the school to perform using their own staff and operating funds, or may go unaddressed entirely. With inaction on work that needs to be performed, the problems will worsen with time and become much costlier to address. The school facilities, including the staff and students, will ultimately suffer the impacts due to the lack of maintenance as noted above. |

| Prog ID | Sub-Org | MOF | Budgeted by Dept | Restriction | Difference Between Budgeted & Restricted | Percent Difference | <u>Impact</u> |
|---------|---------|-----|---------------------|-------------|--|--------------------|--|
| AGS-879 | OA | A | \$ 2,602,271 | \$ 260,226 | \$ 2,342,045 | 90.00% | The restrictions were partially achieved in Personal Services from a savings in a smaller number of election day officials that worked in the 2014 Elections. In addition, the restriction was applied to a reduction in spending in Other Current Expenses for election supplies and printing of materials at polling places. |
| AGS-881 | LA | Α | \$ 1,691,332 | \$ 169,134 | \$ 1,522,198 | | Five Legislative grants in aid would be cut 10%; projects as proposed may need substantial revision to implement. Loss of SFCA Operating for admin (including funds for HCR167 planning for SFCA 50th anniversary), grants operating, arts education grant, Biennium Grants Program loses approximately \$50,000 from budget in FY 2014 -lowest budget in its 50-year history |
| AG5-901 | AA | A | \$ 1,142,357 | \$ 90,470 | \$ 1,051,887 | | The Deputy Comptroller is already under funded since half of the funds were eliminated by the Legislature since Fiscal Year 2011. The funds were never restored. The filling of the Deputy Comptroller's Secretary who provides private secretarial duties to the Deputy Comptroller will have to be delayed. Without this position, the Comptroller and Deputy Comptroller will have to share the remaining Secretary position between them. |
| AGS-901 | AB | A | \$ 681,078 | \$ 68,108 | \$ 612,970 | | Eliminating almost all of the overtime and one position will result in late vendor payments, errors in payroll submission, and reduced review of procurement compliance for pCard and vendor payments. The pre audit staff needs the overtime to process both payroll and vendor payments as 3 of the 5 staff (60%) have been hired in October and November, 2014. With the loss of one position the pre audit staff will be reduced by 20% to four. As a result, both payroll and vendor processing is at least 50% slower. Without the overtime and one less position, errors in payroll processing resulting in underpayments (late processing of overtime) or payroll overpayments will increase significantly as the priority will be to submit the payroll so that approximately 800 departmental employees can get paid on time. As overall department staff will be reduced at this level, payroll submission errors will occur and it is estimated that up to 10% or 1400 vendor payments annually will be late and result in interest payments. Currently less than 1% of vendor payments are late. Overtime is required periodically when there are large amounts of vendor payments to be paid and during the four monthly payroll deadlines. |
| AGS-901 | AC | A | \$ 454,267 | \$ 45,426 | \$ 408,841 | 90.00% | A 10% reduction will result in a Reduction in Force of one filled position. Because Personal Services make up 98% of our budget, we would have no choice but to eliminate one position representing an 11% reduction in staffing. Additionally, Compensation for overtime will be limited to compensatory time only. Employees will have no option of cash payment for overtime work. This reduction would result in the elimination of our lowest priority program, specifically activities in the employment relations area. These activities were established to recognize employee achievement, service and contributions, develop a sense of fellowship and team spirit; provide an avenue for community involvement and contribution; provide feedback to employees, contribute to the efficiency and overall improvement of government services, and most importantly, to contribute positively to employee morale. These eliminated activities would include all Incentive and Services Award Committee (ISAC) activities such as Service and Awards Ceremony, Commitment to Excellence Program; DAGS Public Service Recognition Day, and DAGS Employee Fundraising event; DAGS Employee Christmas Party & Gift of Sharing; All Departmental sponsored Work Required, Safety and Special Interest Training; Leave Sharing Program; Employee Assistance coordination; management of employee training records; and other similar activities. As a result of previous budget cuts and staff reduction, we have already had to eliminate the DAGS semi-annual blood drive, First Aid Training, and Employee Wellness program. The elimination of our employee relations programs will require reassignment of some of these activities to other already understaffed Divisions to individually administer on their own and/or the discontinuation of these programs in DAGS. Obviously, the inability to devote quality time to the coordination of these activities, or the lack of these program activities' will have a demoralizing affect on our workforce. The Department will also be placed in a very precarious |

| Prog ID AGS-901 | Sub-Org AE | MOF A | Budgeted by Dept. \$ 416,562 | <u>Restriction</u> \$ 41,656 | Difference Between Budgeted & Restricted \$ 374,906 | Impact The restriction will result in eliminating one live body position. The level of service that our staff provide last fiscal year will be severely negatively impacted. Our main function is to maintain the computer application systems for our department. The major systems are the departmental financial system; statewide bond fund system; statewide inventory system; and Public Works Division's project tracking system. The first three systems are legacy mainframe systems that are approximately 40 years old. If there are application problems, the impact on the DAGS programs that use the systems will be as follows: late reconciliation of fiscal accounts; bond fund accounts not being current and up-to-date; unable to record or update Statewide inventory in a timely manner; unable to track current progress on CIP projects. Our other impacted functions include: Servicing trouble calls which average 30 a month; setting-up new IT equipment and maintaining the departmental website. On the public facing website, information such as Comptroller's Memorandums; Financial Reports; Legislative Reports; Building Code Council Agendas may on be posted in a timely manner. On the DAGS internal facing website, information on Procurement policies; Personnel policies: Internally used financial reports may not be posted in a timely manner. |

*Pursuant to HRS Section 103-10, payment shall be made no later than 30 calendar days following the date of receipt of the invoice or satisfactory delivery of the goods or performance of services, whichever is later. The vendor/contractor is owed interest if they cannot be paid within this time period.

Pursuant to HRS Section 40-56, the person directly responsible for purchase order/contract signs a certification validating that goods and services have been received in good order and condition on the invoice.

Explanation of How Contract is Monitored - Pursuant to HRS Section 103-10, payment shall be made no later than 30 calendar days following the date of receipt of the invoice or satisfactory delivery of the goods or performance of services, whichever is later. The vendor/contractor is owed interest if they cannot be paid within this time period.

Pursuant to HRS Section 40-56, the person directly responsible for purchase order/contract signs a certification validating that goods and services have been received in good order and condition on the invoice.

NOTES: * A portion of the rent is paid by the user department with their funds. DAG's portion is paid with General Funds.

^{**} Pursuant to HRS Section 103-10, payment shall be made no later than 30 calendar days following the date of receipt of the invoice or after the satisfactory delivery of the goods or performance of services, whichever is later. The vendor/contractor is owed interest if they cannot be paid within this time period.

^{*}Pursuant to HRS sections 103-10, payment shall be made no later than 30 calendar days following the date of receipt of the invoice or after the satisfactory delivery of the goods or performance of the services, whichever is later. The vendor/contractor is owned interest if they cannot be paid within this time period.

Pursuant to HRS section 40-56, the person directly responsible for purchase order/contract signs a certification validating that goods and services have been received in good order and condition on the invoice.

^{*}Pursuant to HRS Section 103-10, payment shall be made no later than 30 calendar days following the date of receipt of the invoice or satisfactory delivery of the goods or performance of services, whichever is later. The vendor/contractor is owed interest if they cannot be paid within this time period.

Pursuant to HRS Section 40-56, the person directly responsible for purchase order/contract signs a certification validating that goods and services have been received in good order and condition on the invoice.

| | Sub-Org | | |
|------------|-------------|---|--|
| Program ID | <u>Code</u> | <u>Name</u> | <u>Objective</u> |
| AGS131 | EA | INFORMATION PROCESSING AND COMMUNICATION SERVICES - ADMINISTRATION | Information Processing and Communication Services (IPCS also known as ICSD) strives to improve the management and operation of all State agencies by providing effective, efficient, coordinated, and cost-beneficial computer and telecommunication services such that State program objectives may be more efficiently achieved. |
| AGS131 | ЕВ | INFORMATION PROCESSING AND COMMUNICATION SERVICES - SYSTEMS SERVICES | Provides systems software support and control programming; database management and operational support; development, implementation, and maintenance of specialized systems software used in support of applications and control systems; analyses to improve the efficiency and capacity of computer systems; security of information; and guidance in the effective and efficient use of systems software. |
| | | INFORMATION PROCESSING AND COMMUNICATION SERVICES - | Operates a centralized computing facility and a distributed data communications network that provides comprehensive and efficient computing services to all State agencies. Manages and implements production activities associated with electronic information processing. Plans, designs, implements, installs, and manages a physical security program to protect |
| AGS131 | EC | PRODUCTION SERVICES | equipment, hardware, and software media. |

| | Sub-Org | | |
|------------|-------------|---|---|
| Program ID | <u>Code</u> | <u>Name</u> | <u>Objective</u> |
| AGS131 | ED | INFORMATION PROCESSING AND COMMUNICATION SERVICES - TECHNICAL SUPPORT SERVICES | Provides planning, design, management, maintenance, coordination, and technical consulting and support for the State's emerging technologies programs. Provides technical consulting and expertise in computer hardware and software for the establishment and proper operation of local area networks, office automation, Internet, and Intranets. Provides support services to clients in the selection and utilization of public and government access systems and services to obtain information. |
| AGS131 | EE | INFORMATION PROCESSING AND COMMUNICATION SERVICES - CLIENT SERVICES | Provides application systems development and maintenance services at two levels: statewide applications and department or agency specific applications. Provides systems analysis, systems design, and computer programming, application systems installation and client training, as well as post-installation support; provides assistance to clients in developing analytic and technical capabilities to enable them to plan and maintain their own systems and applications. |
| AGS131 | EF | INFORMATION PROCESSING AND COMMUNICATION SERVICES - TELECOMMUNICATIONS | Plans, designs, engineers, upgrades, and manages the State's voice, data, video, and radio communications networks. Operates and manages the communication systems for public and private access to public and private information systems |
| AGS203 | AD | STATE RISK MANAGEMENT AND INSURANCE ADMINISTRATION | The objective of this program is to operate a comprehensive risk management and insurance program to protect the State against catastrophic losses and to minimize total cost of risk. |
| AGS211 | НА | LAND SURVEY | To assist in protecting the rights of public and private land ownership by providing field survey services and descriptions of surveyed lands. |

Department of Accounting and General Services Organization Changes

| Year of Change FY15/FY16 | Page Number | Description of Change |
|-----------------------------|----------------|--|
| 1113/1110 | rage Number | Description of Charge |
| FY15 | 51, 52, 53, 54 | Delegated reorganization of the Hawaii District Office to create a new Central Services Branch 2 to include the Honokaa-Kohala Section and Kona Section. Currently the three Central Services' repairs and maintenance sections (Hilo-Kau Section, Honokaa-Kohala Section, and Kona Section) are included in one branch. We are currently consulting with the HGEA and UPW unions. |
| FY15 | 26-36 & 37-44 | Major Reorganization, Non-Delegated - Consolidation of the Public Works Division (AGS-221, Public Works-Planning, Design, and Construction, AGS-223, Office Leasing) and Central Services Division (AGS-231, Central Services-Custodial, AGS-232, Central Services-Grounds Maintenance, AGS-233, Central Services-Building Repairs & Alterations). Preliminary reorganization proposal transmitted to the Department of Budget and Finance on November 24, 2014. |
| FY15 | 15-25 & 87-89 | Major Reorganization, Non-Delegated - Consolidation of the Office of Information Management and Technology (AGS-130, Information Management and Technology Services) and the Information and Communication Services Division (AGS-131, Information Processing and Communication Services). |

Part III. Impact of Restriction

Within the last ten years, the State Procurement Office (SPO) working environment has evolved and changed dramatically with new initiatives, added responsibilities and resource reductions.

New initiatives capitalized on the capabilities of the Internet, email, software advancements and improved business processes. Development and implementation of the Purchasing Card (pCard) program, the Procurement Notice System (PNS), the Hawaii Compliance Express (HCE), Awards Reporting System, the State of Hawaii Electronic Procurement System (HIePRO), On-Demand training and other Internet and process innovations significantly changed the procurement landscape and drives home the need to rebuild and reinforce the SPO workforce. Remaining within the paradigms of archaic paper-based processes for small purchases, competitive sealed bidding, competitive sealed proposals, professional services procurement, price and vendor lists, vendor payment, information distribution, data sharing, etc. is not a viable option.

Beginning with the 2003 legislative session, new mandates have expanded the scope and responsibilities of the SPO without providing additional resources.

- Act 52, SLH 2003, mandated verification of vendor compliance for taxes, labor laws, and business registration upon award of a contract. This resulted in the implementation of processes for submittal of tax clearances, Department of Labor and Industrial Relations' application for certificate of compliance, and Department of Commerce and Consumer Affairs' certificate of Good Standing by vendors to verify their compliance with the requirements of §103D-310(c), HRS.
- Act 216, SLH 2004, amended professional services procurement to add clarifying language; added 10 factors for CPO consideration on debarments; amended Act 52, SLH 2003 to require verification of vendor compliance for all listed procurement methods upon contract award.
- Act 50, SLH 2005, underscored the need to promote the growth and development of small businesses. It focused on the adoption of rules to include set-asides for small businesses and criteria designed to encourage the use of small businesses as subcontractors on large contracts.
- Act 283, SLH 2006, increased the small purchase threshold from less than \$25,000 to less than \$50,000 and mandated that all purchases between \$25,000 to less than \$50,000 be issued via e-procurement.
- Act 142, SLH 2007, authorized the procurement policy board to set administrative fines and authorized the chief procurement officer to assess the administrative fines.
- Act 203, SLH 2008, provided that if a procurement officer under the jurisdiction of the Administrator of the SPO or a chief procurement officer of any of the other state entities under §103D-203, fails to comply with any determination rendered by the administrator within thirty days from the date of the issuance of the determination, or longer if permitted by the administrator upon request by the procurement officer or a chief procurement officer, the procurement officer or chief procurement officer shall be subject to an administrative fine under §103D-106, for every day of noncompliance.

- Act 194, SLH 2008, coordinated responsibility for procurement training from the DHRD to the SPO and provided that initial training is to be mandatory for all state procurement officers and thereafter follow-up sessions for those officers as determined by the SPO to be in need of training based upon the history of compliance with the governmental body to which the procurement officer is attached, or as otherwise selected for attendance for any reason by the SPO. Attendance for other state procurement officers at follow-up sessions and for county procurement officers at all sessions was encouraged.
- Act 150, SLH 2009, provided for an expedited procurement process for federal funds authorized by the American Recovery and Reinvestment Act of 2009.
- Act 175, SLH 2009, provided for changes impacting procurement exemptions, preferences, protests and disputes; increased the small purchase threshold from less than \$50,000 to less than \$100,000 for goods or services and required that all purchases between \$25,000 to less than \$100,000 be issued via e-procurement; and mandated the keeping of statistics on solicitations and awards protested under §103D-701.
- Act 207, SLH 2010, amended §103D-101 on ethical public procurement, addressing public employees and bidders, offerors, contractors, or businesses taking part in public procurement, be conducted in an ethical manner.
- Act 131, SLH 2011, provided procurement authority to semi-autonomous county public transit agencies, thus allowing them to function as a semi-autonomous agency in their respective counties and adds the director of the agency as directed by the county charter as an authorized chief procurement officer.
- Act 190, SLH 2011, mandated all vendors, upon award of contract, shall comply with all laws governing entities doing business in the states, requiring purchasing agencies to additionally verify compliance for small purchase awards \$2500 or more.
- Act 211, SLH 2011, amended §103D-303 on competitive sealed proposals to clarify that
 construction projects may use the competitive sealed proposal (aka RFP) process for
 design-build projects; adds definition for "Design-build". Allows for the procurement
 officer to prequalify a short list of no more than three responsible offerors, and to pay a
 conceptual design fee to non-selected offerors.
- Act 173, SLH 2012, mandated the SPO keep statistics on solicitations and awards protested under §103D-701 for the purpose of improving procurement procedures.
- Act 222, SLH 2012, mandated the SPO submit monthly reports to the legislature on the status of information technology procurements for authorized projects undertaken by the office of information management and technology (OIMT). The SPO is working with OIMT to conduct various procurements for OIMT to meet its goals and mission, including the issuance of the State Unified Resource Framework (SURF) solicitation, formerly known as the Enterprise Resource Planning (ERP) solicitation.
- SCR 40, SLH 2012, directed the renaming of and the extension of the prompt payment
 task force to develop recommendations to address issues that affect procurement for
 goods and services purchased through nonprofit organizations, including human service
 nonprofit organizations that deliver pivotal goods and services to individuals, families,
 communities, and other small businesses.
- Act 87, SLH 2013, required all University of Hawaii procurements for construction, including consultant services necessary for construction, to be subject to the control of, and performed by, the Department of Accounting and General Services. It also requires the Administrator of the SPO to submit a report to the legislature on its findings and

recommendations, including any proposed legislation, relating to the transparency, efficiency, and compliance of the University of Hawaii's procurement of construction contracts and construction-related consultant services pursuant to HRS chapter 103D.

 HR 134 and HCR 176, SLH 2014, directed the SPO conduct a study on the feasibility, necessary processes, and costs relative to requiring the consideration of past performance as a factor in awarding public contracts, including low bid contracts.

In addition, the SPO is responsible for researching current statute and rules and representing the procurement community to look at improving the procurement process across the State. This includes large programs such as the Health and Human Services Action Group for the Center of Excellence, the Past Performance Study, the IT Transformation and the Small Business Set-aside Initiatives for 2014/2015 and beyond.

Compounding support issues was the elimination of six employment authorizations during the 2009 and 2010 legislative sessions. To best support its customer requirements, SPO prioritized and redistributed workloads, leveraged new technological systems and applications, and greatly expanded the number and scope of its training courses. The 2011 legislative session added five new employment authorizations. However, it also included a legislative adjustment to reduce funding by \$80,000 due to fiscal constraints. This reduction in funding has yet to be restored to the SPO.

In addition, the SPO personnel have to supplement for the work of the Procurement Policy Board support staff (per HRS §103D-201(c)), where no position has been authorized and SPO personnel spend an approximate 1,000 hours a year on work entailing, policy research, benchmarking, collecting and collating business analytics, event planning, board logistics, board nominations, public notices and communications, and legislative and rule write-ups.

Loss of personnel resources due to budgetary reductions coupled with increasing responsibilities due to passage of new procurement resolutions and acts unfunded by the State Legislature have adversely impacted the SPO and procurements overall. The most apparent result is the reduction of SPO issued master contracts referred to as price and vendor list contracts for a variety of goods and services has further exacerbated the problem with agency personnel having to expend additional time to perform more small purchases on an individual basis, and non-procurement specialists in the departments having to prepare and execute complex solicitations.

Since 2008, the SPO has done more with less. Personnel have responded to the challenges of meeting increasing responsibilities with diminishing resources. They have accepted more work and also different kinds of assignments, intensifying stress, requiring continuous learning and demanding flexibility. Without relief, it would not be unexpected if burnouts start occurring, impacting high achievement employees and SPO's customers.

The risk of adding restrictions to the SPO's budget will have statewide implications with opportunities missed for cost reductions, contractual compliance, leverage solicitations and knowledge sharing, precision specifications, avoidance of litigation, and more. Similarly, program operations and results will suffer as complex solicitations are prepared by program personnel not properly trained, without efficient electronic procurement systems and with limited technical consultation support from knowledgeable and experienced procurement specialists.

This would significantly increase both short- and long-term risks statewide, the costs of which would greatly outweigh any savings achieved by reducing the SPO's budget.

The impact of this reduction falls directly upon SPO's customers statewide to include departments, agencies, counties, and the business/vendor community. Loss of experienced personnel and increased responsibilities will necessarily lead to reduced solicitations for agency requirements, no audits, impaired procurement training and appreciably slower responses to requests for reviews/approvals, consultation and advisory services. For the SPO staff assigned more duties and responsibilities, prolonged stressful working conditions.

Procurements limited to department or agency requirements will not be supported. Adverse impacts in this area clearly fall upon the agencies as they will assume more procurement responsibilities while absorbing resource reductions.

Electronic procurement will be significantly impaired as the SPO will no longer be able to afford licensing fees for the National Institute of Governmental Purchasing (NIGP) commodity codes used by the new eProcurement system, HlePRO, to notify vendors of solicitations specific to the goods or services they provide. The NIGP code was used by the previous electronic procurement system, HePS, from 2008 to 2013 and it is the code the vendors are most familiar with. HlePRO, has already implemented the NIGP code and to change now would have a major impact and confusion on both government employees and vendors. Changing commodity codes may result in vendors not receiving e-mail notifications or registering for the appropriate codes, resulting in less competition and ultimately higher prices for Hawaii's government agencies.

This reduction will severely obstruct the SPO from providing effective and efficient procurement services to the taxpayers of Hawaii and stakeholders in the State and County agencies. With even fewer personnel to support customer requirements, the SPO will be forced to reprioritize the workload on already overburdened staff. In particular purchasing services, policy and compliance services, and electronic procurement and specialized services would be severely diminished.

End results would include a considerable liability to the State with the SPO not legally fulfilling its duties and responsibilities in respect to statute, associated financial costs if the State is sued in court by contractors doing business with the State, increased procurement violations from procurement officials procuring on less than adequate training and advisory services, and departments unable to procure timely due to appreciably slower responses to requests for reviews/approvals, consultation and advisory services. Furthermore, inability to properly manage contracts will lead to increased modifications and change orders, which often double the dollar threshold of the original base contract. Lack of education and assistance with planning an acquisition creates an increase in scope after contract award, resulting in increased funding of the contract. Lack of education and guidance in cost and price analysis and independent government cost estimates creates a gaping hole in cost control and contract management, thus resulting in an extended delivery/implementation time at a much greater cost than originally planned.
