SENATE COMMITTEE ON WAYS AND MEANS HOUSE COMMITTEE ON FINANCE INFORMATIONAL BRIEFING FOR BIENNIUM BUDGET 2016-2017 January 20, 2014 RACHAEL WONG, DIRECTOR DEPARTMENT OF HUMAN SERVICES

A. Mission Statement

The Department of Human Services (DHS) provides timely, efficient and effective programs, services, and benefits to empower those who are the most vulnerable in our State to expand their capacity for self-sufficiency, self-determination, independence, healthy choices, quality of life and personal dignity.

The Department of Human Services is committed to investing in people, improving access to services, achieving effectiveness in the delivery of services, and ensuring that no one is left behind in our interconnected communities. There is a renewed emphasis on collaborating with other government agencies and community stakeholders to leverage resources and energies for our shared goals, increasing efficiencies, and providing appropriate services at appropriate times to the appropriate people. These commitments are aligned with the Administration's values and practices and also reflected in our current operating and CIP budgets and next fiscal biennium request:

- Investing in our keiki by expanding Child Care Connection Hawaii (child care subsidies) and Preschool Open Door (POD) payment tiers for low-income families, increasing foster board payments for children, youth, and young adults in foster care, and providing specialized services for child welfare services' clients who have been victimized by human trafficking or sex assault;
- Investing in our islands' safety net through Med-QUEST and financial assistance benefits for single adults, children and families;
- Protecting vulnerable adults and kupuna through the redesign of services, policies, procedures and practices offered through the Adult Protective Services Branch;
- Improving quality of life for the deaf, deaf-blind, and the hard of hearing community through the ongoing funding for the Comprehensive Service Center (CSC) for the Deaf;
- Creating measurable cost savings to the community via long term solutions to homelessness through the Housing First initiatives and a more robust system of data collection and analysis;

- Improving access to needed services by reducing application processing times for benefits and transforming and integrating secure IT solutions across the DHS;
- Transforming health care through the planning for patient-centered health homes, and supporting utilization of IT and the exchange of health care information by physicians and other providers.
- Providing high-value medical assistance to >300,000 Hawaii residents, including the continued transformation of behavioral healthcare for individuals with a serious mental illness.
- Supporting Medicaid providers and access to care for Medicaid beneficiaries by continuing increased reimbursement to physicians.

B. Current Landscape, Goals, and Outcomes

2014 In Review

Although the nation and Hawai'i continue to experience steady economic growth, the benefits of a growing economy have yet to impact many of DHS' programs, and we continue to experience increased enrollment across our divisions. Growth within the DHS' Benefit, Employment, Support Services Division (BESSD) programs saw a minimal increase of .08% in the average monthly caseload for Temporary Assistance for Needy Families and Temporary Assistance for Other Needy Families (TANF/TANOF from 2013; and a 4.45% increase in the General Assistance (GA) average monthly beneficiaries from 2013. The Supplemental Nutrition Assistance Program (SNAP) case load also grew in 2014 by 4% and in 2014 served 193,565 individuals on an average monthly basis. In October 2013, the Med-QUEST Division (MQD) implemented Medicaid expansion, early adoption of conversion to the modified adjusted gross income (MAGI) methodology, and supported the implementation of a state-based marketplace. Hawaii was one of the very few states to achieve all three of these major initiatives. During FY14, eligibility increased by 12.9%. In December 2014, MQD provided medical assistance to more than 328,000 Hawaii residents; compared to December 2008, this represents an enrollment increase of 47.3%.

Despite continued program growth in these areas, the DHS continues to improve on timely access to services. SNAP timeliness rates have transitioned from a 66% timeliness rate in 2011, to 90% in 2012 and have reached a 97% rate since 2013. Utilizing enhanced federal funding, the Department implemented KOLEA in October 2013 to replace its 20+ year-old eligibility system and comply with the requirements of the Affordable Care Act. As of November 2014, KOLEA has been used to make eligibility determinations for 134,000 applicants and redetermine eligibility for 341,000 beneficiaries. Overall, 39% of applications have

been submitted online, and more than 25,000 applications have received a determination in <24 hours. The average processing time for applicants subject to the modified adjusted gross income (MAGI) methodology decreased 40% to 16.7 days average processing time.

Over the last biennium, the DHS also made significant efforts to reform its operations, improve fiscal accountability, rebuild staff where essential, improve Departmental morale, and address the continuing needs of Hawai'i's most vulnerable residents. As we move forward in the new biennium, the Department will continue to focus on improving its operations for the benefit of our beneficiaries, expand its IT capabilities to address the mandate of the Patient Protection Affordable Care Act (ACA) and leverage the new Med-Quest ACA integrated eligibility system across the Department, ensure the safety and well-being of abused and neglected adults and children, and protect the most vulnerable among us.

C. Federal Funding

The Department did not lose, and is not currently aware of any risks of losing, federal funds in FY15 or the upcoming biennium.

BUDGET REQUEST

- D. A status quo budget was submitted by the outgoing Administration, with budget additions limited to entitlement programs, collective bargaining increases, and reflecting an increase in federal fringe ceiling.
- E. The DHS submitted a status quo budget, and requests for additional resources are under consideration by the Governor's Office and the Department of Budget and Finance.

The Biennium Budget for the Department of Human Services

I. BENEFIT, EMPLOYMENT AND SUPPORT SERVICES DIVISION (BESSD)

Reducing Poverty – HMS 204: General Assistance Payments

The General Assistance program serves childless adults who are determined to be disabled for 2 months or longer. Determinations of disability are made by physicians contracted by the Department of Human Services. The purpose of General Assistance is to assist unemployable, vulnerable adults suffering from a physical or mental disability with basic needs including personal essentials, household expenses and shelter. The average length time an adult remains on General Assistance is 12 months.

At the end of 2014 GA had an enrollment of 5,528 clients. The current caseload is 5752. This reflects an overall increase of .04% for the current fiscal year. Payments under this program have fluctuated from a high of \$469 in July 2007 to a low of \$234 in April 2009. In February 2013, benefits were reduced to \$298 and readjusted in October 2013 to \$319. In April 2014 payments were adjusted to \$348 where it currently remains. The increase in the General Assistance population is rapidly depleting the existing General Assistance funds. The Department cannot cover the impending shortfall with savings, if any, from other programs because Hawaii statute mandates the Department utilize only general funds appropriated by the Legislature for the General Assistance program. The Department is requesting an emergency appropriation under HMS 204 for \$2,641,996 to assure that the program meets its purpose and to align General Assistance with benefits under the Aged, Blind and Disabled program at \$348 per month. Without an emergency appropriation this group of Hawaii's most vulnerable disabled individuals will experience a decrease in monthly assistance from \$298 to \$138 as early as April 2015.

Promoting Efficiencies and Increased Base Costs – HMS 224: Homeless Services

The DHS' Housing First program is an evidenced-based strategy/approach to providing the chronic homeless with housing quickly and then providing supportive services while the person is housed. An immediate and primary focus on housing is a key to this approach, which involves helping individuals and families quickly access and sustain permanent housing. In the past, access to housing was dependent on client's participation in treatment, or time spent in a systematic progression through different levels of temporary housing. Under Housing First, neither is a requirement for entry into permanent housing.

Housing First is a best practice recognized by the United States Interagency Council on Homelessness in its groundbreaking 2010 report: *Opening Doors: Federal Strategic Plan to Prevent and End Homelessness.* The Housing First model moves individuals and families directly from the streets and beaches into their own apartments, unlike other programs that transition homeless persons through different levels of housing and shelter. Housing is coupled with an array of supportive services that help people who were homeless to remain stably housed.

Research in Denver, Seattle, and Utah has found that providing housing and support services under the Housing First model for chronic and vulnerable homeless persons costs taxpayers less money than leaving these individuals unhoused and on the streets. In a study funded by the Robert Wood Johnson Foundation, Seattle taxpayers saved over \$4 million during the first year of a Housing First Program for homeless people living with alcohol addiction in downtown Seattle. Average cost savings in health and social services were nearly 53% or \$2,500 per person per month for the 95 program participants.

The Department of Human Services' Homeless Programs Office (HPO) implemented a Housing First pilot project (hereafter "HF Pilot") in June 2012, with total funding of \$1 million. A total of 71 people (57 single adults and three families with 14 individuals) were served over the course of the 13-month contract. Of those 71 people served, 67% were exited laterally to other sources of permanent housing and 10.9% exited to institutions/foster/care homes, temporary housing or were deceased. Only seven (7) individuals reverted to homelessness (University of Hawai'i Center on the Family, 2014). Of the 71 people served in the HF Pilot, 14 individuals remained in housing paid by the sponsor agency for a year after the State's contract ended. The housing costs for these individuals were reassumed with State funds upon the award of the State's Housing First contract in June 2014.

Since the June 2014 new DHS Housing First contract issuance, 42 people have been referred and 10 successfully housed through the Hale O Malama process [more below]. An additional 14 individuals were "carried over" from the HF Pilot, bringing the total housed to 24. There have also been 22 referrals made to the DOH's Hawai'i Pathways Project so that clients with substance abuse and co-occurring mental illness can be served with the most robust, evidence based practice in the form of an Assertive Community Treatment (ACT) team.

Over the past year, a coordinated assessment and entry system for homeless individuals has been created on Oahu and is now being expanded to include the neighbor islands. This effort, named Hale O Malama, has provided data about individual and aggregate needs of the homeless population. Hale O Malama has allowed the homeless system to use a common assessment tool to help identify those with the highest acuity (needs) and prioritize services to them. The Department will continue to leverage intensive Assertive Community Treatment (ACT) services from a Substance Abuse and Mental Health Services Administration (SAMHSA) grant to the Department of Health and funding from the City and County of Honolulu, to maintain a Housing First program in fidelity with nationally-recognized best practices. Inasmuch as the SAMHSA grant seeks to develop sustainability of services for our community, other potential resources for service provision, including Medicaid dollars, will be utilized to provide services to the homeless population with the highest needs and those who disproportionately use high cost services (incarceration, 911 calls, law enforcement, emergency room).

Promoting Efficiencies – HMS 236: Case Management for Self Sufficiency

Assuring the quality and accuracy of benefit determinations and timely client services are paramount concerns for the DHS and our federal partners at the Department of Health and Human Services and the Department of Agriculture. Over the past three years, the DHS has significantly improved statewide benefit timeliness rates from 66% in 2011 to a current timeliness rate of 97% in 2014.

As a result of our timeliness improvement, in 2014 DHS received a SNAP State Performance Bonus Award in the amount of \$915,580 for exemplary performance in FY 2013 in the area of SNAP Most Improved Performance Access Index (PAI). This significant bonus monies awarded to Hawaii represents the USDA Food and Nutrition Service's (FNS) strong commitment to assisting States with ensuring that low-income households have access to food through program benefits and providing a safety net for households that are transitioning to self-sufficiency. While these funds help to implement program's improvement strategies that increase administrative and operational efficiency, long-term investment to continue and sustain improvements is needed.

Funding from this bonus award will be used towards focusing our attention on the quality of the work being produced under our new business model and assuring that our error rates do not stray into zones unpermitted by our federal partners.

Reducing Poverty – HMS 302 and HMS 305: General Support and Cash Support for Child Care

The social sciences are replete with studies demonstrating that high-quality early learning programs for children in poverty have the highest rate of return of any social investment. In other words, the data are clear on early learning opportunities: it works for low-income children. Similarly, child care plays a critical role in lives of our families. Access to stable and high quality child care promotes self-sufficiency for low-income families, helps to ensure that families do not need to return to Temporary Assistance to Needy Families (TANF) once they are firmly established in the job market, and provides children with safe and nurturing environments.

In 2014, the average preschool tuition is \$724 per month in Hawaii. The high cost of preschool prevents many low- and moderate-income families from being able to afford preschool for their children. Act 169, Session Laws of Hawaii (SLH) 2013, established a school readiness program known as the Preschool Open Doors (POD) program within the Department of Human Services' (DHS) child care assistance program. Act 169, SLH 2013, also appropriated \$6 million to the DHS to expand the POD child care subsidy services and \$440,000 to support the DHS administratively to implement the expansion of the POD program for the fiscal year 2014-2015.

Through the POD program, families' out-of-pocket fees were established to support low- and moderate-income families' abilities to maintain their children in the preschool setting up to the twelve months of the POD program in order for

¹ A Path to Reduce Generation Poverty and Increase the Development of Human Capital, Jim McClelland (President Goodwill Industries), citing Dr. James Heckman, Nobel Laureate Economist, University of Chicago, 2011.

their children to fully benefit from the school readiness services. The out-of-pocket fees for eligible families range from 0% for families whose gross income is at or below 100% Federal Poverty Level (FPL) to 30% of their eligible POD benefit for families whose gross income is at or below 250% FPL.

The DHS conducted two application periods during this current (2014-2015) POD program year that resulted in a total of 2,198 applications received and enrollment of 1,326 children in the POD program who attend 257 preschools throughout the state.

 Promoting Efficiencies and Reducing Poverty - HMS 903: General Support for Self Sufficiency Services and Case Management for Self-Sufficiency

The TANF work program, First To Work (FTW), is a federal mandate that transforms lives by helping Temporary Assistance for Needy Families (TAONF) recipient (TANF)/Temporary Assistance for Other Needy Families (TAONF) recipient parents to break multi-generational cycles of poverty through rewarding jobs in the private and public sectors and remain engaged in gainful employment. Approximately 54% of FTW participants are placed in unsubsidized, subsidized, and on-the-job training employment. Of those employed participants, approximately 69% received wages between the (previous) State Minimum Wage and \$9.15 per hour. More than half of the TANF/TAONF families successfully met the Federal mandatory work participation requirements for TANF. If the State had failed to meet the federal work participation requirements—50% of all-families and 90% of the two-parent families—it would have faced fiscal penalties of approximately \$15 million.

A key component of the FTW program is its subsidized wage programs, Supporting Employment Empowerment (SEE) Hawaii Work and the Bridge-To-Hope (BTH). The SEE and BTH programs are supportive services of the mandatory TANF work program, First-To-Work (FTW).

Hawaii's SEE program, a subsidized wage program for TANF recipients, is recognized as the national best practice by the Promising Pathways Initiative sponsored by the Administration for Children and Families, Office of Family Assistance, U.S. Department of Health and Human Services. SEE employers are reimbursed at the State or Federal minimum wage, whichever is highest, plus 50 cents for each dollar per hour paid to the SEE employee above the minimum wage. The SEE employer is reimbursed an additional 14% of the subsidized wages to cover employer related costs.

As of September 2014, there are 55 employers and 209 TANF recipients participating in the SEE program. In addition, 13 SEE Participants who completed their SEE Agreement and were hired unsubsidized by the same SEE Employer.

The BTH Program is a nationally-recognized model partnership between the University of Hawai'i (UH) System and the DHS that supports post-secondary education as a means for FTW participants to achieve life-long economic self-sufficiency. BTH helps FTW participants, enrolled as full-time UH students, to earn college degrees while they work on campus. The BTH serviced 23% more participants between SFY 2013 and 2014. The BTH Program placed 71% of the participants in on-campus employment, and they received wages between \$9.25 and \$9.87 per hour, which the DHS subsidizes.

With the anticipated increase in costs to subsidize wages of TANF/TAONF recipients employed due to the increase to the State's minimum wage, the DHS is hopeful that we will continue to be able to maintain the number of recipients we are able to service so that they continue to have an opportunity to transition from subsidized to unsubsidized employment.

II. MED-QUEST DIVISION (MQD)

A substantial portion of the Med-QUEST Division's operating budget is directed towards items that are considered non-discretionary costs: \$63 million in FY2014 and \$127.7 million in FY2015 are directed towards Medicaid health care payments that include both projected enrollment increases and capitation rate increases.

In FY2014, the DHS and the Department of Health (DOH) agreed that all case management services for Med-QUEST patients diagnosed with serious mental illness would be coordinated and overseen by the DHS. The community wholeheartedly supported this DHS-led initiative that will reduce fragmented services, result in better outcomes for beneficiaries, and leverage additional federal matching funds for services. In addition to case management services previously provided by the DOH for persons diagnosed with serious mental illness, the DOH also transferred to the DHS the oversight for the following services: short-term residential care, mental health partial hospitalization, crisis intervention, psychosocial rehabilitation, long term residential care, supportive employment, representative payee, and supportive housing. In FY14, DHS completed the transition of the receipt of specialized behavioral health services for individuals with SMI from QUEST to Community Care Services (CCS). All Medicaid beneficiaries, except those who are legally encumbered, are now receiving behavioral health care in a single program with expanded eligibility and services. This budget reflects a transfer of costs from the previous QUEST program to the CCS program.

Under Section 1202 of the Affordable Care Act, Medicaid programs were required to increase reimbursement to Medicare rates for certain primary care services provided by eligible PCPs. This two-year provision, which ended December 31, 2014, resulted in 1,039 physicians who serve Medicaid beneficiaries receiving in aggregate increased payment of approximately \$44 million.

The MQD had requested funding to maintain the higher reimbursement levels for the remaining six months of FY15, which the Hawaii State Legislature appropriated. The federal matching rate for the increased reimbursement will be at the usual FMAP (federal medical assistance percentage, approximately 52%) compared to 100% under Section 1202; the new State appropriation will make up the difference. During this six-month extension, the methodology will be the same as has been in place for the past two years under Section 1202 of the Affordable Care Act.

The ACA provision and initial 6-month State extension excludes important Medicaid providers and services. These include psychiatrists, neurologists, obstetrician-gynecologists, and advanced practice registered nurses, and services provided to children covered under the Children's Health Insurance Program (CHIP).

Included in the Department's budget is \$37M—of which approximately \$17.5M are general funds—to continue the increased reimbursement for the same services, expand to all providers who provide those services, and include services provided to children covered under CHIP. Expanding to include additional services, in particular behavioral health and prenatal care services, without additional funding would reduce the percent of Medicare at which the Medicaid payments can be made to 85%. Reimbursing at 100% of Medicare for all would require an additional \$13 M in general funds. The current PCP enhanced reimbursement program includes increased payment for adult inpatient and emergency room services.

Another consideration is implementing a provider access/care management payment to the assigned primary care provider. At an average of \$2.50 per patient per month for 300,000 beneficiaries, this would cost about \$9M total (\$4.3M general funds) per year. This could be additionally funded, or funding for this could be an offset and lower the percent of Medicare at which Medicaid providers are reimbursed.

Lastly, the federal medical assistance percentage (FMAP) for Hawaii increased for FFY 15 from 51.85% to 52.23%. The budget is adjusted for the increased federal matching rate and receipt of additional federal funds.

• Improving Services and Promoting Efficiencies: HMS 902 – General Support for Health Care Payments

At this time, the Governor's budget includes only recurring base funding for administration of the MQD programs.

III. SOCIAL SERVICES DIVISION (SSD)

The mission of the Social Services Division (SSD) is to protect vulnerable adults and children from abuse, neglect, and exploitation so they may live safely in their homes and communities. This is accomplished through two services: Child Welfare Services and Adult Protective and Community Services.

Child Welfare Services

- Improvement of Services HMS 301: Child Protective Services
- Improvement of Services HMS 303: Foster Board Payments

Child Welfare Services (CWS) protects children who are at-risk or have been abused and neglected. CWS investigates allegations of child abuse and neglect and provides safety and supportive services to children and their families. Statewide services include child protection, family strengthening and support, foster care, adoption, transitional services for young people in foster care, and licensing for resource family homes, child care institutions, and child placement organizations. If a child cannot be safely returned to his/her family, CWS staff works with the family and other stakeholders to develop and implement a permanency plan that best serves the child. This plan may include providing permanent placement through adoption or legal guardianship.

Foster Care

A total of 1,019 children entered the Hawaii foster care system in FY 2014, a 42% decrease from FY 2004. This decrease is attributed to the Department's investment in voluntary diversion and family strengthening services that help families provide a safe home for their children, promote positive parenting skills, and prevent child abuse and neglect and out-of-home placements. Through 'Ohana Conferencing and direct interactions with trained staff, CWS quickly engages families in the healing process: healing from that which may have led to the abuse. CWS and the family work together to determine what will help the family resolve safety concerns in the home and move quickly toward the reunification of parents and children. CWS' increased engagement and collaboration with key stakeholders, birth families, extended families, resource caregivers, and other service providers have also favorably influenced the downward trend of children entering foster care.

National Comparisons of Hawaii Performance

Hawaii ranked first in the nation during the past three years (2012-2014) for having the highest percentage of children/youth in foster care placed with relatives. Hawaii CWS also ranked well for the following:

- Timeliness of reunification: #5.
- Timeliness of adoptions: #12.
- Achieving permanency for children in foster care for long periods of time: #17.
- Placement stability (not moving around to different homes) while in foster care: #7.

Title IVE Waiver Demonstration Project

In 2013, Hawaii was one of eight states approved by the US Department of Health and Human Services Administration for Children & Families to implement a Title IV-E Waiver Demonstration Project. This project allows Hawaii to develop and implement interventions to decrease the number of children and youth entering foster care—without increasing risk to children's safety—and to safely reduce the amount of time children are in foster care. The planned outcomes are diminishing the trauma associated with children being removed from their homes, lessening the psychological impact of children remaining in foster care for long periods, and, overall, improving child well-being. Implementation of the newly-designed interventions will begin this month.

Adult Protective and Community Services

Improvement of Services – HMS 601 – Re-engineering Adult Protective Services

Adult Protective Services (APS) provides crisis intervention, investigation, and emergency services to vulnerable adults who are reported to be abused, neglected, or financially exploited by others or seriously endangered due to self-neglect. It administers programs to ensure that vulnerable adults maintain their independence in a safe and healthy manner, as long a possible. In addition, the foster grandparent, senior companion, and respite companion programs provide opportunities for low-income senior citizens to assist children with special needs and assist frail older persons in their own homes.

Re-engineering of Adult Protective and Community Services

Hawaii is facing a "Gray Tsunami." According to the University of Hawaii's Center on Aging (COA) Fact Sheet on Population and Life Expectancy of Older Adults in Hawaii, the 65 and older population will increase from 14% in 2010 to 24% in 2035. It is estimated that one-quarter of Hawaii's population will be 65 and older by 2035, and that the proportion of those 85 and over will have doubled compared to 2010 figures. The aging of the State's population brings with it numerous implications for health care, housing, and social services. The 2009 State Legislature expanded APS' statutory mandate to all "vulnerable adults," resulting in a 51% increase in investigations. Coupled with a reduction in force that same year, Hawaii's APS system is overdue for advancement.

Adult Protective Services is positioning itself to address this growing population and the expected increase in service interventions. The 2013 State Legislature HCR 118 tasked the DHS Adult Protective and Community Services Branch (APCSB) with evaluating, assessing, and re-engineering its system accordingly.

The APCSB contracted with the University of Hawaii Center on Aging (COA) in FY14 to conduct a statewide needs assessment and an evaluation of Hawaii's APS system, complemented by a separate but concurrent examination of best practices in adult protection nationwide.

Based on findings from the needs assessment and best practices research, a set of recommendations was developed for the restructuring of APS from policy, operational, structural/programmatic, and systems perspectives. Recommended improvements focused on three central areas: Core APS Functions, APS Operations and Management, and Community Capacity-Building. The next steps are underway and advancement will depend on the acquisition of additional resources and/or the leveraging of current resources. The COA in its second and last phase of its contract in FY15 and will assist the APCSB by providing facilitation, coordination, and evaluation services.

APCSB pending initiatives that are in the planning, development, test, pilot, and/or implementation phase:

- Standardized Quality Assurance model.
- CORE Training Curriculum for APS.
- Statewide centralization of the APS Intake function to improve efficiency and effectiveness in protective services eligibility determinations to ensure prompt intervention services.
- The increase of professional staff resources to meet the growing number of caseloads and the establishment of professional staff that are nonexistent on neighbor islands.
- Development and implementation of intake and assessment risk and safety tools, documentation and investigation systems to make them as comprehensive and automated as possible.
- Development and initiation of strategies for a collaborative multidisciplinary and /or interdisciplinary team to consult on problematic or complex cases.
- Strengthening of coordination between State, County and local agencies, improvement of visibility of APS throughout the community, and building the capacity of services needed by APS clients

Challenges Facing SSD

The primary Child Welfare Service mandate and places responsibility on SSD to ensure the safety, permanency, and well-being of children who have been

reported as abused or neglected. One of the Division's major challenges over the past four years has been rebuilding staffing capacity and infrastructure following the 2010 Reduction in Force (RIF) that resulted in a loss of 40% of the work force. Between SFY 2011 and 2014, the CWS filled many of the previously frozen positions; however, CWS work is intense and difficult, and this makes recruitment and retention of qualified staff challenging. The SSD is in the process of finalizing the need for resources to stabilize the CWS operations.

In response to media, research, and policy inquiries, the CWS staff is currently reviewing data collection and analysis methodology to improve systematic responses. In addition, SSD is developing a new Information Technology System that will:

- Improve services to reduce risks to children and adults, and improve outcomes;
- Improve processes and efficiencies and streamline case worker data collection;
- Integrate with other DHS divisions (Med-QUEST, BESSD, etc.);
- Provide decision business intelligence and dashboards to improve decision support at all levels; and
- Ensure compliance with federal safety, permanency and wellbeing requirements.

IV. DIVISION OF VOCATIONAL REHABILITATION (DVR)

• Older Blind Program: HMS 802 – Vocational Rehabilitation

The Division of Vocational Rehabilitation's Services (DVR) for the Blind Branch administers the Older Individuals who are Blind (OIB) federal grant, which is funded through a formula grant from the U.S. Department of Education.

The aging of 76 million "Baby Boomers" and their parents nationwide is causing a number of societal challenges. Loss of functional eyesight, which accompanies advancing age, is one of them. Age-related vision loss is the second leading cause of disability among our country's senior population. With blindness increasing among seniors, the demand for independent living services is overwhelming. Without these critical services, vision loss can destroy an older individual's quality of life and ability to live independently. In contrast, older blind individuals who receive rehabilitation services can continue to have a quality life and remain independent, active members of society. The provision of rehabilitation services to the older blind decreases accidents, such as falls, cuts and burns, which result in costly hospitalizations and unnecessary institutionalization in long-term care and assisted living facilities that are often at a high cost to taxpayers. Additionally, when older blind individuals are able to manage themselves safely, their family caregivers are freed to seek employment.

Due to insufficient funding amount the OIB Program has been compelled to decrease services and benefits drastically from 418 clients in FFY 2004 to 228 clients in FFY 2014. The program is currently not able to do outreach to underserved, unserved populations such as those on the neighbor islands. DVR is actively involved in determining the resources needed to provide comprehensive services to all eligible individuals residing on Oahu.

HMS 238 – Disability Determination and Claims Processing

The DVR is actively engaged in the planning process to increase DDB's operational efficiency by meeting increased SSA workload demands and provide greater management oversight of the claims processing specialist positions. The ability to more effectively manage pending caseloads, provide additional support to new staff through mentoring, and assign additional cases to level 4 staff, will position DDB to begin to reduce dependence on outside assistance. Reduced dependence on outside assistance will reduce pressures on clerical units and allow support staff to focus on consultative exam scheduling and case development of DDB examiner workloads.

DDB processed approximately 13,000 disability claims in FFY 2014. The projected target for FFY 2015 is 15,000 claims due to an increase in Continuing Disability Review (CDR) workloads. Clearing the CDR backlog remains one of the top priorities for the SSA.

V. HAWAI'I PUBLIC HOUSING AUTHORITY

HPHA will submit their testimony separately.

VI. OFFICE OF YOUTH SERVICES

 Providing for At-Risk Keiki, Reducing Crime, and Increasing Strong Nurturing Families – HMS 501 and HMS 503 - In-Community Youth Programs and Hawaii Youth Correctional Facility

The Legislature established the Office of Youth Services (OYS) in 1989 to provide leadership in developing and coordinating a comprehensive continuum of services to prevent and reduce juvenile delinquency and enhance public safety. Furthermore, OYS is responsible for administering the federal Juvenile Justice and Delinquency Prevention Act (2002), and OYS operates and provides oversight of the state's only juvenile correctional facility.

In FY15, OYS continued funding for more than 90 contracts to community-based agencies to enhance the continuum of services to address the needs of at-risk youth and their families statewide. Additionally, OYS has been involved in

numerous statewide initiatives to improve the service delivery to youth and families by strengthening collaborations with the public and private sector youth serving agencies, including:

- Spearheading the State's effort in juvenile justice reform during the 2014 Legislative Session through Act 20I, SLH 2014, HB 2490, Relating to Juvenile Justice:
 - The law is designed to reduce secure confinement, strengthen community supervision, and focus resources on practices proven to reduce recidivism, and it provides an upfront investment of \$1.26 million for mental health and substance abuse treatment, delinquency interventions, and implementation of the reforms.
 - With the funds appropriated in Act 201, OYS is contracting with an array of community stakeholders for the provision of a range of services consistent with the provisions of the Act for youth involved with law enforcement and/or the court system. Additionally, the OYS will partner with other state agencies and the Judiciary for the provision of other related services.
- Adopting the "Aloha Spirit" statute, HRS 5-7.5, as a working philosophy in
 its approach and relationships with community and various systems of
 care, OYS issued Request For Proposals in 2013 and 2014 for
 community-based services for youth at-risk that incorporated the Aloha
 Spirit statute as a foundation for our service delivery, recognizing that how
 we relate with each other is a critical factor in supporting and
 operationalizing the web of relationships and services that are provided in
 the community.
- Implementing the Resources for Enrichment, Athletics, Culture and Health Program – HMS 501 allocated an additional \$500,000 in FY15 to continue the Lieutenant Governor's R.E.A.C.H program, which provides afterschool programming for students in middle/intermediate schools. OYS awarded contracts to and is working with 11 schools statewide to follow through on this program.
- Continuing to work closely with the courts in all four judicial circuits to expand community-based treatment and monitoring as alternatives to confinement at the Hawaii Youth Correctional Facility (HYCF). This effort resulted in a 42% decrease in admissions.
- Continuing to strengthen communication between the Judiciary and State Agencies Department of Health (DOH), Department of Education (DOE), Department of Human Services (DHS) and OYS/HYCF to ensure the delivery of appropriate services for youth in a seamless and collaborative manner.

Federal Funds

The Office of Juvenile Justice and Delinquency Prevention (OJJDP) administer three (3) grant opportunities to support states/territories address their juvenile justice needs and issues. Over 3,000 of our youth and families benefit from these grants as described in the following:

- Title II Formula Grant Program, catalog number 16.540, supports State agencies and community-based organizations in preventing youth at-risk of becoming delinquent and/or reducing the path to detention and correctional facilities. Hawaii's federal allocation has been reduced beginning federal fiscal year 2012 from \$600,000 to \$400,000. The funding supports front-end programs that allow nonprofit organizations to serve youth on probation or those arrested. This also includes research in order to strategize and enhance existing or creating new programs.
- The Juvenile Accountability Block Grant (JABG) Program, catalog number 16.523, supports all four counties with programs that serve youth who are in the juvenile justice system. Its primary focus area is providing the least restrictive environment for court-involved youth. The JABG Program received no federal appropriation to continue beyond FY13 monies.
- Title V Community Prevention Program, catalog number 16.548, received no federal appropriation to continue beyond federal FY11 (FY11 grant award expired 9/30/14). This is the only prevention grant OJJDP administers that supports communities in providing programs to prevent youth from any contact with the juvenile justice system.

Budget Request

The Governor's budget includes a request to transfer out an estimated cost savings of \$600,000 at the Hawaii Youth Correctional Facility (HMS 503) due to the impact of Act 201, SLH 2014, and to transfer in that savings to the Office of Youth Services (HMS 501) to further support juvenile justice reform.

VII. COMMISSION ON THE STATUS OF WOMEN

 Improving the Status of Women: HMS 888 – Commission on the Status of Women

The Hawaii State Commission on the Status of Women (HSCSW) was established on May 15, 1964 by executive order of the Governor and made permanent by Act 190, Session Laws of Hawaii 1970. The HSCSW was established to: 1) aid in the implementation of policy recommendations; 2) advise governmental and non-governmental organizations of the specific issues and problems faced by Hawaii's women; 3) act as a central clearinghouse and coordinating body for governmental and nongovernmental activities and information relating to the status of women; and 4) create public awareness and

understanding of the responsibilities, needs, potentials and contributions of women in Hawaii. The HSCSW works with a coalition of State, non-profit, military and non-governmental agencies on various violence against women issues, including sexual harassment and stalking, sexual assault, domestic violence, dating violence, and violence in the workplace. In FY14, the HSCSW held panels and presentations on Title IX and VAWA compliance, specifically aimed at college campuses, including the University of Hawaii-Manoa. The HSCSW co-sponsored radio PSAs on dating violence and healthy relationships, to be broadcast statewide during 2015. Additionally, the HSCSW Executive Director sat on the Attorney General's Violence Against Women Act Implementation working group, the Justice Reinvestment Initiative Victim Services Working Group and the Family Court Working Group.

The HSCSW receives daily inquiries from the community regarding resources for women, assistance with legislative advocacy, and questions for advice on navigating State, city and county systems (e.g., child support enforcement, assistance with family court, and questions about state benefits for single parents). This last year, the HSCSW received over 30 complaints from survivors of domestic violence regarding their treatment by the Honolulu Police Department. As a result, the HSCSW assisted in the Hawaii Women's Caucus informational briefing and has been meeting with HPD administration to revise domestic violence policies, procedures, and training.

VIII. DEPARTMENT OF HUMAN SERVICES GENERAL ADMINISTRATION

HMS 904 General Administration

The DHS Staff Offices provide support services to assist the Department's divisions and attached agencies in performing vital and critical work for Hawai'i's residents. Managing the resources of this large and complex department continues to be a challenge. The DHS manages a \$2.8 billion annual budget, employees over 2,000 staff, manages and oversees four distinct divisions, and oversees 4 administratively attached agencies. 69% of the State's federal operating funds are allocated to the DHS.

The effective management of any business requires oversight and collaboration across its business lines as well as with its business partners. Given the complexity of DHS' operations it remains a considerable challenge to oversee personnel, fiscal, budget, program, IT, and operational matters related to quality control, program oversight and support as over the years administrative support resources were reduced and never recovered. Changes in the Department of Budget and Finance processes regarding federal fund appropriation accounts, which now number 118, up from 51 accounts, just for federal funds, means a doubling of workload without an adjustment in staffing. This is one of many

changes that have been absorbed over the years as the focus of appropriation has shifted away from administrative support.

IX. CAPITAL IMPROVEMENT PROJECTS

The DHS has no CIP requests for the Biennium.

The DHS thanks Chair Tokuda and Chair Luke and the members of their respective committees for this opportunity to present our budget for FY2016 and FY2017. We look forward to working with you this legislative session and to advancing economic and social policies that benefit Hawaii's people.

The ACA requires that the new Medicaid eligibility system be language accessible. In addition, the DHS remains under a Settlement Agreement with the federal Department of Health and Human Services that compels the DHS to provide language accessible services to the Department's clients. In response to those requirements, the DHS requested and was appropriated \$197,000 in general funds and \$135,000 in federal funds for a Limited English Proficiency program.

The ACA requires that the new Medicaid eligibility system be language accessible. In addition, the DHS remains under a Settlement Agreement with the federal Department of Health and Human Services that compels the DHS to provide language accessible services to the Department's clients. In response to those requirements, the DHS requested and was appropriated \$197,000 in general funds and \$135,000 in federal funds for a Limited English Proficiency program.

The Department is initially translating several Medicaid system documents, including application forms, client rights notices and benefit status notices, into nine foreign languages (the ACA requires that Medicaid eligibility forms be translated into at least six languages). The estimated cost is \$270,000 (\$135,000 general funds, \$135,000 federal funds).
