"It sounds like a wonderful idea, but we want to make sure that there's a lot of thought put into this State Capitol's architecture and of course a *lo'i* more than likely match, but there's so many people that have been involved for many decades. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.R. No. 172, HD 1, entitled: "HOUSE RESOLUTION REQUESTING THAT A LOʻI BE ESTABLISHED ON THE GROUNDS OF THE STATE CAPITOL," was referred to the Committee on Water, Land, & Ocean Resources, with Representatives Aquino, Hanohano, Har, M. Oshiro, Sagum and Souki being excused.

Representative Carroll, for the Committee on Hawaiian Affairs presented a report (Stand. Com. Rep. No. 1244-10), recommending that H.R. No. 251, as amended in HD 1, be referred to the Committee on Judiciary.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.R. No. 251, HD 1, be referred to the Committee on Judiciary, seconded by Representative Evans.

Representative Awana rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. May I have a ruling on a possible conflict? Thank you. I'm both Native Hawaiian and a Hawaiian homestead lessee. Thank you," and the Chair ruled, "no conflict."

The motion was put to vote by the Chair an carried, and the report of the Committee was adopted and H.R. No. 251, HD 1, entitled: "HOUSE RESOLUTION REQUESTING THE DEPARTMENT OF HAWAIIAN HOME LANDS TO EXPLORE OPPORTUNITIES TO REVISE ITS PRESENT POLICIES ON MATTERS OF SUCCESSORSHIP," was referred to the Committee on Judiciary, with Representatives Aquino, Hanohano, Har, M. Oshiro, Sagum and Souki being excused.

Representative Karamatsu, for the Committee on Judiciary presented a report (Stand. Com. Rep. No. 1245-10) recommending that S.C.R. No. 38, SD 1, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.C.R. No. 38, SD 1, be adopted, seconded by Representative Evans.

Representative Marumoto rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Marumoto's written remarks are as follows:

"Chief Justice Ronald T. K. Moon has served Hawaii's people his entire legal career. From his days in private practice, through being a law clerk, deputy prosecutor, Circuit Court Judge and a member of the Hawaii Supreme Court, Chief Justice Moon has been an exemplary public servant and has worked tirelessly for greater access to the judicial system for all of Hawaii's citizens. He has also been a leader and role model for members of the Korean-American community in Hawaii. Renaming the Kapolei Judicial Complex for Chief Justice Moon would honor his lifetime achievements."

Representative Ching rose to speak in support of the measure, stating:

"Thank you. I am also in strong support. Chief Justice has always been, I think, a pillar of our community. I know he pushed for this, and I'd like to add additional remarks in the Journal."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in support of S.C.R. 38, which recommends that the Kapolei Court Complex be renamed the "Ronald T.Y. Moon Judicial Complex".

"Ronald T.Y. Moon devoted more than four decades to serving Hawaii's judiciary, first as a law clerk to the United States District Court, then as a deputy prosecutor, a Circuit Court Judge, and as a distinguished member of Hawaii's Supreme Court. Amongst Chief Justice Moon's many accomplishments, he has created programs such as the Hawaii Appellate Mediation Program and the Access to Justice Commissions. He has openly supported the pro bono service or lawyers and has been honored by the National Center for State Courts with that organization's Distinguished Service Award for longstanding contributions to the improvement of the justice system.

"His readiness and availability to our community is seen in his association with the efforts to increase access to the judicial system, especially for traditionally underserved communities around the island.

"Recently some allegations have been made regarding Chief Justice Moon and as I have not had the chance to research the latest attacks that have been made, I stand behind what I have experienced of him and pride he engenders in the community. Thank you."

Representative Saiki rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Saiki's written remarks are as follows:

"Mr. Speaker, I rise in opposition to this measure notwithstanding my high regard for the Chief Justice and the Senate President, who introduced this measure.

"I spoke with the Senate President a few days ago to inform her of my opposition to this resolution. I explained to her that this resolution is premature, particularly since it requests that the Kapolei Judiciary complex be named after a sitting judge. I believe that a structure should be named after a person whose legacy is enduring and has withstood the test of time. With respect to a Judiciary structure, the test should consist of at least three criteria:

1. Whether the individual has advanced the rule of law in Hawaii, both in judicial and non-judicial capacities;

2. Whether the individual has increased public confidence in our judicial system; and

3. Whether the individual has furthered justice and public access within our judicial system.

"I do not believe that the Legislature is in the best position to evaluate these criteria. Accordingly, I respectfully oppose this resolution. Thank you, very much."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.C.R. No. 38, SD 1, entitled: "SENATE CONCURRENT RESOLUTION RECOMMENDING THAT THE KAPOLEI COURT COMPLEX BE RENAMED THE "RONALD T.Y. MOON JUDICIAL COMPLEX"," was adopted, with Representative Saiki voting no, and with Representatives Aquino, Hanohano, Har, M. Oshiro, Sagum and Souki being excused.

SUSPENSION OF RULES

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the rules were suspended for the purpose of reconsidering action previously taken in disagreeing to amendments made by the Senate to certain House Bills. (Representatives Aquino, Hanohano, Har, M. Oshiro, Sagum and Souki were excused.)

RECONSIDERATION OF ACTION TAKEN

Representative B. Oshiro moved that the House reconsider its action previously taken in disagreeing to the amendments made by the Senate, and give notice of intent to agree to such amendments for the following House Bills, seconded by Representative Evans:

H.B. No. 2027, HD 1, (SD 1)
H.B. No. 2028, (SD 1)
H.B. No. 2136, (SD 1)

The motion was put to vote by the Chair and carried, and the House reconsidered its action previously taken in disagreeing to the amendments made by the Senate, and gave notice of intent to agree to such amendments for the noted House Bills. (Representatives Aquino, Hanohano, Har, M. Oshiro, Sagum and Souki were excused.)

INTRODUCTIONS

The following introductions were made to the Members of the House:

Representative Mizuno introduced 8 year old Master Mitchell Ganeku, who was diagnosed with a rare form of anemia; his parents Mrs. Norma and Mr. Nelson Ganeku; and Mr. Roy Yonashiro of the Hawaii Bone Marrow Donor Registry.

Representative Marumoto, on behalf of Representatives Berg, Nishimoto, Say, Ward and herself, introduced the 6th grade students of Kaimuki Christian School. They were accompanied by their teacher, Mrs. Chau Sachs, and parent chaperone, Mrs. Carolyn Ramesar.

Representative Magaoay introduced his constituent, Ms. Tammy Escorzon of Waialua.

At 12:15 o'clock p.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:01 o'clock p.m.

ORDER OF THE DAY

COMMITTEE ASSIGNMENTS

The following measures were referred to committee by the Speaker:

S.C.R. Nos.	**Referred to:**
99	Committee on Energy & Environmental Protection
209, SD1	Committee on Health, then to the Committee on Economic Revitalization, Business, & Military Affairs

COMMITTEE REASSIGNMENTS

The following measures were re-referred to committee by the Speaker:

H.B. No.	Re-referred to:
2984, HD2, SD2	Committee on Finance

H.R. No.	Re-referred to:
233, HD1	Committee on Human Services

H.C.R. No.	Re-referred to:
318, HD1	Committee on Human Services

S.B. No.	Re-referred to:
1230, SD2, HD1	Committee on Finance

SUSPENSION OF RULES

At this time, the Chair stated:

"Members, please note that SB No. 2346, SD 1, HD 1, has been re-referred solely to the Committees on Education, and Labor & Public Employment, per committee Referral Sheet No. 61. The Committee on Judiciary, Chair Karamatsu, waived its referral to these measures, and therefore it is appropriate for this House to consider action for passage on Third Reading."

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the rules were suspended to reconsider action previously taken on S.B. No. 2346, SD 1, HD 1. (Representatives Aquino, Hanohano, Har and M. Oshiro were excused.)

RECONSIDERATION OF ACTION TAKEN

Representative B. Oshiro moved that the House reconsider its action previously taken pursuant to the recommendation contained in Standing Committee Report No. 778-10, recommending referral to the Committee on Judiciary, seconded by Representative Evans and carried. (Representatives Aquino, Hanohano, Har and M. Oshiro were excused.)

SUSPENSION OF RULES

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the rules were suspended for the purpose of considering a certain Senate Bill for Third Reading by consent calendar. (Representatives Aquino, Hanohano, Har and M. Oshiro were excused.)

UNFINISHED BUSINESS

S.B. No. 2346, SD 1, HD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, S. B. No. 2346, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII TEACHER STANDARDS BOARD," passed Third Reading by a vote of 47 ayes, with Representatives Aquino, Hanohano, Har and M. Oshiro being excused.

At 1:03 o'clock p.m., the Chair noted that the following bill passed Third Reading:

S.B. No. 2346, SD 1, HD 1

SUSPENSION OF RULES

On motion by Representative Evans, seconded by Representative Pine and carried, the rules were suspended for the purpose of considering certain House Bills for Final Reading by consent calendar. (Representatives Aquino, Hanohano, Har and M. Oshiro were excused.)

UNFINISHED BUSINESS

Conf. Com. Rep. No. 1-10 and H.B. No. 1642, HD 1, SD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1642, HD 1, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative McKelvey rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition. Mr. Speaker, this is a carryover from last year. The Conference Committee was the first of the year and I didn't have a full grasp of what was going on.

"One of the reasons why this is not a good bill is that it does an end run around two things. One, the private sector and it puts an uneven playing field on the bidding process. I know it's been sold as something that's transparent, but the way I see it now, if you're a private sector company, you weigh in with all your clothes on and the others weigh in naked. It's not the same amount of emphasis if you will for private sector.

"I know there's a trend in the nation to get more centralized, more government centric, but this thing takes it away to say, 'Well we don't want it in the Department of Human Services.' Anybody can do anything in the private sector, because basically we're going to shut down a company, and we're going to tell others, do not apply. Or do not come forward because we look askance on you.

"Mr. Speaker, you know our reputation as business or place to do business. The cost of doing business, we're second to Tokyo, etc. This will not help us. It will only hurt us and unfortunately this deserves and will likely get a veto. So it's our chance to vote it down now rather than later. Thank you, Mr. Speaker."

Representative Shimabukuro rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Just to respond to what was said earlier. I know that that has been a concern. That people feel this bill is basically going to shut out all for-profit insurance companies forever and ever, and that's not true.

"The fact of the matter is, is that this bill is looking at the RFP process. Proposals, unlike bids, can be considered in their entirety. DHS has the right to choose. They don't have to choose the lowest proposal. They can choose what they think is the best proposal.

"So nothing is stopping for-profit companies, who by the way choose to be for-profit companies. Obviously because they looked at both sides and decided that there's an advantage to being a for-profit company. There's nothing stopping them from submitting these proposals, making all the arguments that they have been making against this bill to say that, 'Us being a for-profit, there's various rebates involved. There's various advantages to you as a state.' All we're saying is that you need to be transparent.

"The fact of the matter is, there's a premium tax that has to be paid. Under our procurement laws, you can't skirt around that. You need to be transparent and forthcoming in what exactly the costs are to the taxpayers of this State.

"Another thing I'd like to say is that when we're talking about these proposals, there's no set amount that everyone's required to use in terms of reimbursement rates. A company can choose whatever reimbursement rate they want. It's not to say that if you're a for-profit company, your proposal still might be lower than a non-profit company because you may have decided to use different reimbursement rates. You may have decided to tailor your services in a different way.

"All we're saying is that we want this process to be fair. Right now the tables are actually turned. The process is actually unfair to the non-profits because there're these hidden rebates and hidden charges to us taxpayers that are not being shown in the RFP. I have additional written comments to submit."

Representative Shimabukuro's written remarks are as follows:

"Mr. Speaker, I rise in strong support of House Bill 1642. The purpose of this bill is to ensure fair and equitable practices in the procurement bid process as it affects proposals for purchases of health and human services.

"The bill corrects a current DHS procurement practice, whereby for-profit organizations are allowed to submit a "pre-tax" bid that gives them an unfair advantage over non-profits which are not subject to the insurance premium tax mandated by Hawaii law.

"The need for this corrective legislation was clearly demonstrated when, in 2008, two for-profit companies bid for, and were awarded, QUEST Expanded Access Program contracts. As part of the award package, the Department provided rebates on the 4.265 % tax, resulting in a higher award amount than the companies had bid. As noted in the Conference Committee Report, this waiver of taxes by the Executive Branch may be seen as assuming a power that belongs solely to the Legislative Branch of government.

"HB 1642, as amended by your Conference Committee, makes it clear that bid proposals should contain all costs, fees, and any taxes that the party submitting the proposal may be obligated to pay. Furthermore, the bill prohibits any award or contract to include any payment or rebates that were not included in the proposal. The bill does not end existing contracts awarded on a less-than-level playing field, but it does ensure fairness in future bids and awards.

"This bill began its long journey early in the last Session. At every step of the way, it has enjoyed unanimous support in both the House and Senate. I urge my colleagues to continue their support and vote favorably for this bill, and I offer for your consideration the following answers to issues that have been raised in opposition to this bill.

"Issues Raised in Opposition to HB1642 HD1 SD2 CD1

1. The State will lose funding if this bill passes.
Answer: This is not true at all. If the amount of the tax is included in the bid, the State will receive the same amount of federal funding that it receives now. For example, if the $25 million in taxes is included in the bid proposal, the State will get the same amount of funding that it receives now. And the procurement process would be transparent.

2. People will lose their jobs if this bill passes.
Answer: The current contract does not terminate until June 30, 2011 so no one will lose their jobs. DHS must issue a new RFP and companies are allowed to bid again.

3. DHS and one company who has the contract states that it cannot win the bid if the bill passes.
Answer: This is not true that a profit making company cannot win the bid, and that a not-for-profit will always win the bid. The companies bidding do not submit a proposal based on identical reimbursement rates. There are many variables that go into a bid proposal, especially how much a company will pay physicians and hospitals for their services. A profit-making company may pay less than a not-for-profit company and thereby have a lower bid.

4. This bill could disrupt services to seniors and the disabled.
Answer: This is not true. Nothing in this bill will affect the current contract and services they provide to seniors and the disabled.

5. The lawsuits against DHS were dismissed as meritless.
Answer: This is not true. The federal court dismissed the lawsuit for lack of standing (a legal doctrine where a person suing must show a legally protected interest) and the court never decided the issues regarding the merits of the case."

Representative Takai rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I rise in support with reservations. I appreciate the words of the previous speaker. In fact, I do agree with her. This bill is about transparency, but there's a larger policy issue that we as a Body need to address and that is, are we going to continue charging a premium tax to for-profit insurers?

"As you know just a few days ago we lost our only for-profit health insurer in the State because, truthfully, health insurance is such a slim margin industry that at 4.2% behind, they just really can't compete. I believe that the larger issue is, we should treat all of them fairly if we want the market place to thrive.

"We should charge a premium tax across the board, or we should eliminate the premium tax across the board. Having said that though, I do agree that this bill attempts to make the process transparent. But in the process of making the process transparent, I do believe that in effect what we're going to do is chase out all the for-profit organizations as they attempt to bid, or put in the request for a proposal for future contracts.

"That is a concern because I think when we narrow the marketplace, we in fact hurt business and hurt government. What I'd like to see is a thriving marketplace and we've just got to level the playing field. Thank you, Mr. Speaker."

Representative C. Lee rose in support of the measure with reservations and asked that the remarks of Representative Shimabukuro be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative McKelvey rose in support of the measure with reservations and asked that the remarks of Representative Takai be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Ito rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Souki rose in support of the measure with reservations and asked that the remarks of Representative Takai be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Luke rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Tsuji rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Cabanilla rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Saiki rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ching rose to speak in opposition to the measure, stating:

"I'm in opposition, with the words the Representative from Aiea as my own. I can't say it any better than he did."

Representative Berg rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Morita rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Finnegan rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I'm in opposition. When I first took a look at this, it looked like a pretty confusing bill. What was it getting down to and everything. So I went and read the testimony that was submitted to the Conference Committee and I just kind of want to read a little bit of it that was submitted.

"DHS was in opposition to this bill and they say:

"The contracts for the Department's QUEST expanded access program were awarded to two for-profit companies, Evercare and Ohana. Because these two companies are for-profit, they must pay Hawaii premium insurance tax.

From the start of these contracts on February 1st 2009 through June 30th, 2010, the State Treasury received a total of $21.4 million in federal funds for the premium insurance tax paid by Evercare and Ohana Care, under their QUEST expanded contracts. By the end of the contract period on June 30th, 2014, the cumulative amount of the federal funds that the State Treasury will receive is $67.8 million.

The State would not have received these federal funds if the QUEST expanded contracts had been awarded to non-profit or mutual benefit society companies that pay no premium insurance taxes because they're exempt by State law. If not for the premium insurance tax paid by Evercare and Ohana, the State deficit would now be $34.1 million worse. Equally significant is that Evercare and Ohana currently employ about 260 local full time employees."

"It also goes on to say that, because what this bill said, and the testimony, and some of the things that have been said. It talks about DHS doing things that were illegal or against federal law or federal rules. And it says here, 'in fact the federal government has reviewed the matter in court and concluded that the claims against the State are meritless.'

"As I'm taking a look at this I go, if it is an unfair playing level, and the feds are going to pay for this insurance premium tax through the contract and then therefore we get this additional money from the feds and that actually puts those companies to compare the prices of what a non-profit would bid, and what these for-profit companies would bid, and now it would be on a level playing field.

"If DHS, and you can question this, but if DHS says you're going to get a better product out of it when they're on the same playing field, my natural instinct or thought process would be, a non-profit would be cheaper or have a better product. For-profit, when you just look at the words, for-profit and non-profit. That the non-profit would end up being better or cheaper or both because they're not making any profits.

"So that's one of the things that just really confuses me. Are we then with this bill not allowing for a better product, whether it's not non-profit or for-profit to come forth? I'm not sure.

"Mr. Speaker, I'd like to also refer to the Department of Human Services letter to Neil Abercrombie that was received May 21st, 2008, and also DHS in a response to Senator Colleen Hanabusa back in December 26, 2007. Thank you.

"Again, Mr. Speaker, when we're looking at medical costs, and I think one of the speakers earlier talked about well reimbursement rates and sometimes the reimbursement rates aren't the same across the board. Mr. Speaker, even in the Filipino Community, because I think also has to do with the difference between a case worker and their job, and what a direct caregiver would get in doing their job.

"There's been disagreement within the Department of Human Services, as well as out there in just the general public and the private sector doing case management. There's been disagreement as to how much that service is worth. And what had happened I believe is, I can't remember which one, Ohana Care and Evercare, or one of them or both, was going to cut the reimbursement for case management services. What happened was it ended up being a pretty substantial cut.

"But across the board, when you look and you compare ..."

Representative Pine rose to yield her time, and the Chair "so ordered."

Representative Finnegan continued, stating:

"Thank you, I'm almost done. But regarding this reimbursement, I wanted to make sure that we were doing something fair, the State of Hawaii, DHS was doing something fair, or Evercare or Ohana were doing something fair. So I started calling people in the industry. Caregivers and just asking them, 'What you think about this issue?' There's a huge cut. I think it's from $500 per patient, down to $300 or $250, so it's like half the amount. One of the things that I've learned is that some of these case managers, if they get paid through Medicaid they're getting paid the $500 before. But if you go in the private sector, they're accepting payments that are around $250 and $300 from other than Medicaid patients.

"So Mr. Speaker, what does that say? Does that say that the private industry case workers that accept private-pay clients accept this smaller amount for private-pay, but yet when it comes to Medicaid they're receiving $500 or whatever the amount is.

"So these things, and it's hard for me to actually talk about this because this industry is a huge industry within the Filipino Community. And within the Filipino Community there's differences. There's disagreement between the caregivers, as well as the case workers or the case mangers on these payments. The caregivers feel, and it's been a point of contention, that the caregivers feel that much of what they get paid for, they don't get paid very well by Medicaid to provide services to these clients. And that's 24 hours, 7 days a week all throughout the whole year.

"So when we take a look at this I understand that it threatens our existing system, but let's ask a little bit deeper question on how we can address some of the things that maybe need to be changed. And that's why I'm voting no. Thank you."

Representative Yamane rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I told the Minority Leader that I would speak after her. Beauty first that's why. Mr. Speaker, I'm standing up in support. Mr. Speaker, I know there's some discussion and I appreciate my colleagues both with their support and with reservations, but I wanted to make some clarifying points.

"First of all, what this bill does, Mr. Speaker, this bill clarifies and makes certain that the bid for health and human services contracts shall include the total amount that the bidder expects to expend. Mr. Speaker, if you have the bill before you on page 3, all it asks is that no contract proposal shall be accepted, one, if the business is licensed, as well as in section (b) shall include all costs, fees, and taxes, and any awarded contract shall be for the amount of the proposal.

"So Mr. Speaker, I heard the use of the terminology on this Floor, that we want transparency. We want to know. We want to know what's going on both now and for the future. We want to be accountable. Well Mr. Speaker, this bill is the essence of that.

"Mr. Speaker, one of the things that I guess has been alluded to or hinted at is that this is going to negatively impact the current contract. The current contract is in place until June 30, 2011.

"Also Mr. Speaker, as expressed earlier, this is for a request for proposal. Part of the proposal process and DHS's awarding of the process is to look at what are these services that they're going to be given to the QUEST individuals by the requested proposal.

"So Mr. Speaker, when we're talking about efficiency and inefficiency, we're talking about fairness. It's not to say that a non-profit is automatically better than a for-profit. If two companies regarding either profit or for-profit go for a proposal, their whole bid should be looked at equally and fairly. What this process does is, again, makes the process, the proposals, the numbers that are submitted to the Department for their evaluation, full and complete, Mr. Speaker.

"Another question in the discussions was about if this will preclude all for-profits, and run them out of the State. Mr. Speaker, we've talked on this Floor about the issues of the importance for-profit companies play in both healthcare, as well as in the State. Mr. Speaker, if they are getting a rebate or a federal tax waiver of any type, it should be precluded, and should be open government in which they put that in the bid process. That should be evaluated fairly and openly and transparently, so that those that provide the contract, the procurement officers have a fair and equal opportunity to compare both non-profits and for-profits side by side. Apples comparing apples, Mr. Speaker. And the essence behind this bill was an issue of transparency. Thank you."

Representative Finnegan rose to respond, stating:

"Thank you, Mr. Speaker. I just wanted to read what this bill says because I would agree with the proposal that the Health Chair just said. But in this particular bill under proposals and awards, it says, 'proposals submitted under this chapter shall include all costs, fees, and taxes, and any award or contract shall be for the amount of the proposal. No award or contract shall include any other payment, rebate, or direct or indirect consideration that is not included in the proposal, such as the insurance premium or general excise tax rebates to or waivers for the applicant or bidder.'

"Mr. Speaker, I think that can be interpreted that you cannot have this in the bid. So if that is so, then they can't bid with this waiver, or rebate, or whatever that's coming from the federal government that brings in this, however many millions of dollars into our State. Thank you."

Representative Awana rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1642, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE PURCHASES OF HEALTH AND HUMAN SERVICES," passed Final Reading by a vote of 37 ayes to 10 noes, with Representatives Chang, Ching, Finnegan, Karamatsu, Marumoto, Nakashima, Pine, Sagum, Thielen and Ward voting no, and with Representatives Aquino, Hanohano, Har, and M. Oshiro being excused.

At 1:24 o'clock p.m., the Chair noted that the following bill passed Final Reading:

H.B. No. 1642, HD 1, SD 2, CD 1

STANDING COMMITTEE REPORTS

At this time, the Chair stated:

"Members, at this time the Chair will be taking two resolutions out of order. So if you would turn to page 13, Stand. Com. Rep. Nos. 1293-10 and 1294-10. This will be part of the Reports of Standing Committees."

Representative M. Oshiro, for the Committee on Finance presented two reports:

(Stand. Com. Rep. No. 1293-10) recommending that H.R. No. 53, be adopted; and

(Stand. Com. Rep. No. 1294-10) recommending that H.C.R. No. 101, be adopted.

Representative B. Oshiro moved that the reports of the Committee be adopted, and that H.R. No. 53; and H.C.R. No. 101, be adopted, seconded by Representative Evans.

Representative Bertram rose to speak in support of both measures, stating:

"I'm standing in strong support of both these resolutions. It's a wonderful thing that we start to recognize the island that was the first island to have a train, and we re-establish our rail service again. I really appreciate this opportunity to have that happen."

Representative McKelvey rose to speak in support of both measures, stating:

"Thank you very much, Mr. Speaker. In strong support. I'd like to adopt the words of the previous speaker as if they were my own. I'd just like to say that if there's one resolution we adopt this year, this is it."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted, and H.R. No. 53, entitled: "HOUSE RESOLUTION REQUESTING THE COUNTY OF MAUI, IN CONJUNCTION WITH THE DEPARTMENT OF TRANSPORTATION, TO CONDUCT A FEASIBILITY STUDY TO DETERMINE THE COST AND OTHER FACTORS RELATING TO THE CONSTRUCTION OF A FIXED-RAIL TRANSPORTATION SYSTEM CONNECTING THE KAHULUI-WAILUKU AREA, KIHEI, AND LAHAINA ON THE ISLAND OF MAUI," was adopted, with Representatives Belatti, Hanohano and Sagum being excused.

H.C.R. No. 101, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE COUNTY OF MAUI, IN CONJUNCTION WITH THE DEPARTMENT OF TRANSPORTATION, TO CONDUCT A FEASIBILITY STUDY TO DETERMINE THE COST AND OTHER FACTORS RELATING TO THE CONSTRUCTION OF A FIXED-RAIL TRANSPORTATION SYSTEM CONNECTING THE KAHULUI-WAILUKU AREA, KIHEI, AND LAHAINA ON THE ISLAND OF MAUI," was adopted, with Representatives Belatti, Hanohano and Sagum being excused.

SUSPENSION OF RULES

At this time, the Chair stated:

"Members, on page 1, Unfinished Business. Members, please note that House Resolution No. 233, HD 1, and its companion House Concurrent Resolution No. 318, HD 1, have been re-referred solely to the Committee on Human Services per Committee Referral Sheet No. 62. The Committee on Judiciary waived its referral to these measures, and therefore it is appropriate for the House to consider action for adoption."

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the rules were suspended to reconsider action previously taken on H.R. No. 233, HD 1; and H.C.R. No. 318, HD 1. (Representatives Belatti, Hanohano and Sagum were excused)

RECONSIDERATION OF ACTION TAKEN

Representative B. Oshiro moved that the House reconsider its action previously taken pursuant to the recommendation contained in Standing Committee Report Nos. 1004-10 and 1005-10, recommending referral to the Committee on Judiciary, seconded by Representative Evans.

At this time, the Chair addressed Representative Wooley, stating:

"Representative Wooley, what is the motion before this Body at this point in time? Please, educate the Members of the House."

Representative Wooley rose and stated:

"Thank you, Mr. Speaker. We are looking at HR No. 233 and HCR No. 318, for adoption."

Speaker Say: "For reconsideration, first. The motion to reconsider action taken."

Representative Wooley: "Re-referred solely to the Committee on Human Services. Thank you."

The motion was put to vote by the Chair and carried, and the House reconsidered its action previously taken pursuant to the recommendation contained in Standing Committee Report Nos. 1004-10 and 1005-10, recommending referral to the Committee on Judiciary. (Representatives Belatti, Hanohano and Sagum were excused.)

UNFINISHED BUSINESS

Representative B. Oshiro moved that H.R. No. 233, HD 1; and H.C.R. No. 318, HD 1, be adopted, seconded by Representative Evans.

At this time, the Chair addressed Representative Choy, stating:

"Representative Choy, what is the motion before this Body?"

Representative Choy rose and stated:

"To adopt these resolutions."

Speaker Say: "Correct."

The motion was put to vote by the Chair and carried, and H.R. No. 233, HD 1, entitled: "HOUSE RESOLUTION URGING THE DEPARTMENT OF HUMAN SERVICES AND ALL AGENCIES WITH DEPARTMENT OF HUMAN SERVICES' CONTRACTS TO UPHOLD THEIR NONDISCRIMINATORY POLICY FOR GAY, LESBIAN, BISEXUAL,

AND TRANSGENDERED PERSONS," was adopted, with Representatives Belatti, Hanohano and Sagum being excused; and

H.C.R. No. 318, HD 1, entitled "HOUSE CONCURRENT RESOLUTION URGING THE DEPARTMENT OF HUMAN SERVICES AND ALL AGENCIES WITH DEPARTMENT OF HUMAN SERVICES' CONTRACTS TO UPHOLD THEIR NONDISCRIMINATION POLICY FOR GAY, LESBIAN, BISEXUAL, AND TRANSGENDERED PERSONS," was adopted, with Representatives Belatti, Hanohano and Sagum being excused.

At this time, the Chair stated:

"At this time, Members, the Chair will be taking Standing Committee Report No. 1270-10 on page 7, out of order."

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1270-10) recommending that H.C.R. No. 316, HD 1, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.C.R. No. 316, HD 1, be adopted, seconded by Representative Evans.

At this time, Representative B. Oshiro offered Floor Amendment No. 13, amending H.C.R. No. 316, HD 1, as follows:

"SECTION 1. House Concurrent Resolution No. 316, H.D. 1, APPROVING THE FEE SIMPLE SALE OF NON-CEDED LANDS HELD BY THE UNIVERSITY OF HAWAII IN KAPOLEI, HAWAII, is amended by amending the BE IT RESOLVED clause on page 2 to read as follows:

"BE IT RESOLVED by the House of Representatives of the Twenty-fifth Legislature of the State of Hawaii, Regular Session of 2010, the Senate concurring, that UH is hereby authorized to sell the fee simple interest in non-ceded lands situated around the Kapolei campus, identified as Tax Map Key No. (1) 9-1-16-181, pursuant to the requirements of Act 176, SLH 2009; provided that this authorization shall not be effective until this House Concurrent Resolution is amended to reflect the information required by Act 176, SLH 2009, including:

(1) The appraisal value of the land to be sold;

(2) The names of all appraisers performing the appraisals of the land to be sold;

(3) The date of the appraisal valuation; and

(4) A detailed summary of any development plans for the land to be sold;

and""

Representative B. Oshiro moved that Floor Amendment No. 13 be adopted, seconded by Representative Evans.

Representative B. Oshiro rose to speak in support of the proposed floor amendment, stating:

"Mr. Speaker, I rise in support of the floor amendment. Very briefly, the purpose of this floor amendment is to ensure that there is a purposeful defect placed in the resolution, and to ensure that there is not an inadvertent adoption by the Senate of this resolution because we need to make sure that there is conformity with Act 176.

"At that time, hopefully before we adjourn Sine Die, the UH West Oahu will be able to provide the information that will be in compliance with Act 176. Thank you."

The motion that Floor Amendment No. 13, amending H.C.R. No. 316, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION APPROVING THE FEE SIMPLE SALE OF NON-CEDED LANDS HELD BY THE UNIVERSITY OF HAWAII IN KAPOLEI, HAWAII," be adopted, was put to vote by the Chair and carried. (Representatives Belatti, Hanohano and Sagum were excused.)

At 12:23 o'clock p.m. the Chair noted that Floor Amendment No. 13, was adopted.

At 12:23 o'clock p.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:23 o'clock p.m.

Representative B. Oshiro moved that H.C.R. No. 316, HD 2, be adopted, seconded by Representative Evans.

Representative Awana rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Wooley rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative C. Lee rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Berg rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and H.C.R. No. 316, HD 2, entitled: "HOUSE CONCURRENT RESOLUTION APPROVING THE FEE SIMPLE SALE OF NON-CEDED LANDS HELD BY THE UNIVERSITY OF HAWAII IN KAPOLEI, HAWAII," was adopted, with Representatives Belatti, Hanohano and Sagum being excused.

Representative Tokioka, for the Committee on Legislative Management presented two reports:

(Stand. Com. Rep. No. 1246-10) recommending that H.R. No. 226, HD 1, be adopted; and

(Stand. Com. Rep. No. 1247-10) recommending that H.C.R. No. 311, HD 1, be adopted.

Representative B. Oshiro moved that the reports of the Committee be adopted, and that H.R. No. 226, HD 1; and H.C.R. No. 311, HD 1, be adopted, seconded by Representative Evans.

Representative Takai rose to speak in support of both measures, stating:

"Thank you, Mr. Speaker. I rise in support of both these resolutions. Thank you. I just wanted to note, in the hearing that we had prior to the last hearing, the Higher Ed Committee jointly with the Hawaiian Affairs Committee I believe, we had a discussion regarding a transaction that was made by Yale University. Supposedly one of the original founders fell out of the contract, and they had to find somebody else or some other organization to take up that slack. That slack actually represented about a $12 million transaction.

"What's interesting during the discussion is we learned that that transaction for some reason is outside of the requirements of our GET, so we as the State of Hawaii got nothing, no general excise tax taxes from this particular transaction.

"Now that was just one issue that came up. And the reason why it came up is because in lieu of paying for the rent on the summit, these telescopes provide viewing time for the University of Hawaii, and with the $12 million calculation it is estimated that each night of viewing time is worth about $80,000.

"I guess the purpose of these resos is to give the University an opportunity to get back to us so that we can better understand all of these different transactions going on in regards to these observatories and

whether or not we as a State of Hawaii are benefitting as much as possible with these deals. I hope that the University, when it takes a look at these two resos, really gets back to us in regards to these sub-transactions or additional transactions worth millions of dollars and helps us better understand why these transactions are outside of the scope of our general excise tax. Thank you, Mr. Speaker."

Representative B. Oshiro rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, I'd like to ask for a ruling on a potential conflict. At my law firm I represent some plaintiffs that have sued the University of Hawaii and the Board of Land and Natural Resources over the use of Mauna Kea. Thank you," and the Chair ruled, "no conflict."

Representative Keith-Agaran rose to speak in support of the measure with reservations, stating:

"I have slight reservations on both of these measures, and I'd like to submit some written remarks."

Representative Keith-Agaran's written remarks are as follows:

"Thank you, Mr. Speaker. I support these resolutions which request the University of Hawaii to provide information regarding the value of viewing time from the telescopes on Mauna Kea to UH. My comments express some concerns about certain over-simplified statements in the body of the resolution regarding the nature of UH's ceded lands obligations.

"I do not agree, as apparently assumed on page 1, lines 10-13, that all uses of ceded lands must generate the equivalent of fair market lease rent. Very little of the ceded lands trust under management by the Board of Land and Natural Resources, for example, is suitable for commercial uses and for revenue purposes. Large tracts of Hawaii's heritage lands under management by the State are forest reserves and watershed lands. The highest and best use of those lands by the State for watershed protection – while incalculable in value – surely doesn't require fair market lease rent.

"These resolutions also seem to suggest that there is something insidious about UH receiving a lease from the State at nominal rent for the Mauna Kea lands. Rather, nominal leases from DLNR has been the traditional vehicle for designating public lands for UH use rather than Executive Orders (EO) setting aside lands for University use. The practice arose due to constitutional provisions that effectively make public lands set aside to the university the fee simple property of UH (see 1978 Constitution, Article 10, Section 5 provides: "[the University] shall have title to all the real and personal property now or hereafter set aside or conveyed to it, which shall be held in public trust for its purposes, to be administered and disposed of as provided by law.").

"The notion that all public lands should always generate fair market revenue is a narrow and ultimately counterproductive view of the most effective use of the scare resource which is the Public Lands Trust. Proponents of putting a commercial value on all public lands should be careful lest we end up with corporate control of some of Hawaii's significant resources. Support of the University's mission is necessary for our residents to have future opportunities and that includes the use of public lands for campuses and for related educational purposes.

"Nevertheless, given the public interest in whether continued or even expanded scientific use of Mauna Kea's summit provides enough tangible benefits in light of the cultural and religious concerns of Native Hawaiians, the information requested in these measures will help future legislatures in any policy making adjustments. I urge my colleagues to vote in favor of this measure."

Representative Shimabukuro rose in support of the measure and asked that the remarks of Representative Takai be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 226, HD 1, entitled: "HOUSE RESOLUTION REQUESTING THE UNIVERSITY OF HAWAII BOARD OF REGENTS TO SUBMIT TO THE LEGISLATURE A REPORT OF OBSERVATION VIEWING TIME ON THE TELESCOPES ON MAUNA KEA," was adopted, with Representatives Belatti, Bertram, Hanohano, McKelvey and Sagum being excused; and

H.C.R. No. 311, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE UNIVERSITY OF HAWAII BOARD OF REGENTS TO SUBMIT TO THE LEGISLATURE A REPORT OF OBSERVATION VIEWING TIME ON THE TELESCOPES ON MAUNA KEA," was adopted, with Representatives Belatti, Bertram, Hanohano, McKelvey and Sagum being excused.

Representative Tokioka, for the Committee on Legislative Management presented a report (Stand. Com. Rep. No. 1248-10) recommending that H.C.R. No. 165, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.C.R. No. 165, be adopted, seconded by Representative Evans.

Representative Pine rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 165, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING AN AUDIT OF THE EFFICIENCY AND EFFECTIVENESS OF THE CHILD WELFARE SERVICES PROGRAM IN PROCESSING AND INVESTIGATING COMPLAINTS OF CHILD ABUSE AND NEGLECT AND MISUSE OF CHILD SUPPORT," was adopted, with Representatives Belatti, Bertram, Hanohano, McKelvey and Sagum being excused.

Representative Tokioka, for the Committee on Legislative Management presented a report (Stand. Com. Rep. No. 1249-10) recommending that H.C.R. No. 319, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.C.R. No. 319, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING A MANAGEMENT AND FINANCIAL AUDIT OF ALL COMMUNITY-BASED PROGRAMS AND SERVICES RECEIVING MEDICAID FUNDING OR SUBSIDIZING INDIVIDUALS ELIGIBLE FOR MEDICAID," was adopted, with Representatives Belatti, Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1250-10) recommending that H.C.R. No. 21, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.C.R. No. 21, be adopted, seconded by Representative Evans.

Representative Shimabukuro rose to speak in opposition to the measure, stating:

"Mr. Speaker, I'm in opposition and have just brief comments. My concern about all these houses, and I know that each one has a story and there's a sympathetic person that has a real compelling reason why they should have this affordable housing. But my concern is that there's only a 10-year buyback provision. From what I understand from realtors I've talked to, there are no shared appreciation equity requirements after the 10 years. So what that means is after 10 years this house will be lost to the open market forever.

"If you can just take a moment to imagine if we did the same thing in the DHHL. Native Hawaiians would see their entire land trust evaporate in 10 years. I think we all can say that that would be unfair to all of the thousands on the waiting list.

"Taking the example of DHHL, I'd want the people in this Body to think of your children and your grandchildren as being on the wait list for

affordable housing, and they'll be out of luck if we continue selling these parcels as we are contemplating in these resolutions.

"I've heard examples of these types of homes selling for $100,000 under HHFDC's affordable housing, and then after the 10 years, the price is $500,000. This is what can happen realistically. These homes can become mansions, they can become speculated on, and who knows what else. I just feel that it's very short sighted of us to sell this type of housing, so that's why I'm going to be going 'no' on many of these resolutions."

Representative Berg rose to speak in opposition to the measure, stating:

"Thank you Mr. Speaker, I request the words of the Representative from Waianae to be entered as my own. I'm in opposition. Thank you. I'm not sure how to do this exactly. but I'm standing in opposition for all the HCRs from 21 through number 46."

The Chair addressed Representative Berg, stating:

"Representative Berg, we'll have to take it up individually because this is a two-thirds vote for the Members of this Body."

Representative Berg continued in opposition, stating:

"The message is the same. I will speak on this one on behalf of all the other resolutions. For the reasons that have been discussed previously during our session about the sale of land from other Representatives' comments. The inconsistencies in the resolutions as they appear before us, even the correction we just had to make in the previous resolution.

"I think we need to be extremely deliberate, and diligent and judicious at this time. Perhaps the sale of this land, of these particular parcels, will expedite, adding more money into the budget, or will allow more freedom for certain departments, but in light of all of the departments suffering the way they are, I think we just need to be very cautious and I would urge my colleagues to also vote no on these measures. Thank you."

Representative Chong rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I appreciate the prior two speakers concerns and can understand the issue of selling fee-simple after the 10 year affordable. However, with all due respect, I'm not sure this is the mechanism or the place. That is a policy call that belongs in statute in terms of what is going to be our policy in setting up affordable housing.

"These are resolutions based on a law we passed last year to allow a transaction to occur. You will see in the subsequent resolutions, this has been going on for awhile. This is not new. This is not selling large pieces of land, or something that they decided like yesterday. This has been ongoing and I ask the Members to support it."

Representative Har rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Brief rebuttal to the speaker from Waianae-Makaha, as well as the speaker from Aina Haina. Just to be clear, the entire Villages of Kapolei fall under the jurisdiction of the HHFDC and to say that there is a 10 year buyback ..."

The Chair addressed Representative Har, stating:

"Representative Har, we're not addressing the resolution for Kapolei."

Representative Har continued in support, stating:

"I know. Please excuse me, Mr. Speaker. I'd like to just clarify, going back to the whole point about HHFDC. All these resos, including HCR 21, which is the current reso that we are on. The whole mission of HHFDC is to provide affordable housing. So to say that there is a 10 year buyback provision, that is absolutely correct. But what runs concurrently with that 10 year buyback provision is something called the 'shared appreciation equity lien program.'

"So in the case that was brought up by the Representative from Waianae-Makaha, she talked about a house being bought for $100,000 and it appreciates in value. So let's say that the 10 year buyback period is over and done with. The fact of the matter is that house has now appreciated in value, and as a result because of the SAE program, that particular buyer is not able to just go and sell that land haphazardly and take all of the equity that essentially the State subsidized. They actually have to now buy out the equity from the HHFDC before they can just go sell it.

"So to state that there's only this 10 year buyback provision, it needs to be made clear that what runs concurrently with the 10 year buyback is the SAE program. For most of these, actually in fact I double checked with HHFDC, all of these resolutions notwithstanding the 10 year buy back, if there was an appreciation in these properties, that is why HHFDC has now come in and foreclosed and now they're attempting to resell these lands to other families, local families who qualify for affordable housing. Accordingly, I stand in support. Thank you Mr. Speaker."

Representative Wooley rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. I just want to make a couple comments. It sounds like we're going to talk about a lot of the resolutions as a policy issue. So I just want to rise right now to let the Members know that I do support the statements by the Representatives from Waianae-Makaha and Aina Haina, and I think that they raised very important policy issues. That was one of the things that came out during the Finance Committee Hearing. So I think it was very important that we went through this process.

"However, at the same time I have heard from the Representative from Kapolei, and it sounds like a lot of these parcels have already been in the works for some time. I think because Act 176 is just starting this year, it would be very difficult for us to actually halt some of these sales that have been in the works for quite some time for the families. But I do think that we'll be looking at the policy for HHFDC, and I think we have started a very good discussion on this policy issue. Thank you."

Representative Ito rose in support of the measure and asked that the remarks of Representative Har be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 21, entitled: "HOUSE CONCURRENT RESOLUTION APPROVING THE FEE SIMPLE SALE OF 1593 PAPAU STREET, KAPA'A, HAWAII," was adopted, with Representatives Berg and Shimabukuro voting no, and with Representatives Belatti, Bertram, Hanohano, McKelvey and Sagum being excused.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.C.R. No. 27, be adopted, seconded by Representative Evans.

Representative Choy rose to speak in opposition to the measure, stating:

"Mr. Speaker, a no vote on Stand. Com. Rep. No. 1256 and if I could just say a few words. All my objections today on these land sales have nothing to do with the land sales. It has to do with, in my opinion, that these resolutions do not comply with the disclosure requirements of Act 176 of 2009. So all my no votes will reflect that reason and I will not say that again. Thank you."

Speaker Say: "So the previous measures were okay?"

Representative Choy: "Yes."

Speaker Say: "This is just for, is it for 1256, 1257 and 1258?"

Representative Choy: "No. Just for Stand. Com. Rep. Nos. 1256 and 1258."

Representative C. Lee rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In support with reservations. I do not believe this particular measure meets the requirements set forth in Act 176. I do not believe it will survive a legal challenge, so with reservations please. This is just for Stand. Com. Rep. Nos. 1256 and 1258."

Representative Berg rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Wooley rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations for Stand. Com. Rep. Nos. 1256 and 1258. I would just like to say that I'm hopeful that the Senate side will correct the inadequacies of these resolutions. Thank you."

Representative Shimabukuro rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Awana rose in opposition to the measure and asked that the remarks of Representative Choy be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 27, entitled: "HOUSE CONCURRENT RESOLUTION APPROVING THE SALE OF THE FEE INTEREST IN 95-033 KUAHELANI AVENUE, MILILANI, HAWAII," was adopted, with Representatives Awana, Berg, Choy and Shimabukuro voting no, and with Representatives Belatti, Bertram, Hanohano, McKelvey and Sagum being excused.

Representative Morita rose to speak in opposition to the measure, stating:

"Thank you Mr. Speaker, please register a no vote for me on Stand. Com. Rep. Nos. 1261, 1262 and 1263. My comments for all three are the same. These are larger parcels that are going to be developed for affordable homes. I think we really need to look at the policy regarding the buyback provisions and ensure that these homes remain in the affordable home inventory for the long term and not just 10 years. Thank you."

Representative Awana rose in opposition to the measure and asked that the remarks of Representative Morita be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Har rose and asked that the Clerk record an aye vote for her, and the Chair "so ordered."

Representative Berg rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Wooley rose to speak in opposition to the measure, stating:

"Mr. Speaker, please record a no vote for me. I think there has been some confusion in the community over whether or not this is land designated for a park so I'd just like to pause and let us analyze that issue. Thank you."

Representative Chong rose to speak in support of the measure, stating:

"Mr. Speaker, in support. And just in rebuttal to the speaker from Kahaluu for Stand. Com. Report 1262-10, HCR Number 33. I do understand the concerns that some people may have thought this was a park. However, if you read the second paragraph, this is already zoned residential 3.5. This is part of the master plan for residential.

"It is my understanding that DHHL may have told its homesteaders that this parcel was going to be a park. It's not DHHL land. It's HHFDC land. Whether or not DHHL told that to the homesteaders, that's DHHL's problem. If you look at the master plan, again, it was supposed to be residential, and if you look at the zoning on line eight, it's already zoned residential. So there should be no confusion that this was supposed to be parkland. Thank you."

Representative C. Lee rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Morita rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Awana rose in opposition to the measure and asked that the remarks of Representative Morita on Stand. Com. Rep. No. 1261-10 and H.C.R. No. 32 be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Har rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In support of all these resolutions. With respect to Stand. Com. Rep. No. 1262-10, I want this to be made very clear. First of all I'd like to adopt the comments, the words of the Majority Whip as if they were my own with respect to this particular Stand. Com. Report.

"As the Representative of this district, I actually became aware of this several months ago when some of my homesteaders contacted me about this particular lot and so I contacted HHFDC, as well as the Villages of Kapolei Association. It is my understanding that there was an incorrect misrepresentation that was made to the homesteaders.

"Mr. Speaker, I'd like to go actually with reservations on this particular Stand. Com. and I want to explain why. There seems to be a disconnect between some of our State agencies. I did in fact talk to the President of Kaupea this morning. From what I understand. HHFDC, pursuant to Act 176, did inform DHHL of what was happening with respect to this particular property.

"Unfortunately, DHHL failed to inform the homesteaders. So when we had the hearing in the Water, Land Committee with respect to this resolution, we didn't receive any testimony from DHHL. And when I didn't receive any testimony I just thought that they were okay with it because they understood that pursuant to the master plan, this would go into the lot for affordable housing.

"So it was very surprising to me then when I got these phone calls. I double checked again with HHFDC. And again, the reason I'm going with reservations is because there needs to be better communication.

"Even though this information was communicated to the Chair and Deputy Chair of DHHL, they failed to tell the residents; and they don't live in Kaupea, the Homestead Association Project that would be affected by this particular lot. So my reservations really just deal with communication. We really have to figure out a way to be better coordinated between our State agencies, particularly between HHFDC and DHHL in Kapolei. Thank you, Mr. Speaker."

Representative Pine rose to speak in support of the measure with reservations, stating:

"Just want to note my reservations on the same measure for the same reasons."

Representative Ching rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Takai rose to speak in opposition to the measure, stating:

"Thank you, I'm in opposition. I think because of the confusion noted earlier and because I don't think this needs to be done this year and maybe we can vet it just a little bit more, I'm going to urge my colleagues to join me in voting this down and just giving another year or maybe just a few more months to figure this out.

"I think that if someone was told that a parcel was going to be a park, and it was told by a State agency, I think we as legislators have almost an obligation to just vet this out and just check it out to make sure that we're doing the right thing. At this point because of the confusion, I don't know. So I 'm going to vote no."

Representative Pine rose to speak in opposition to the measure, stating:

"On HCR No. 33, I'd just like to change my vote to a no vote please."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 33, entitled: "HOUSE CONCURRENT RESOLUTION APPROVING THE FEE SIMPLE SALE OF A 9.105 ACRE VACANT PARCEL IN VILLAGE 8, THE VILLAGES OF KAPOLEI, KAPOLEI, HAWAII," was adopted, with Representatives Awana, Berg, Choy, C. Lee, Morita, Pine, Shimabukuro, Takai and Wooley voting no, and with Representatives Belatti, Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1263-10) recommending that H.C.R. No. 34, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.C.R. No. 34, be adopted, seconded by Representative Evans.

Representative Shimabukuro rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Berg rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Chong rose and asked that the Clerk record an aye vote for him, and the Chair "so ordered."

Representative C. Lee rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Morita rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Awana rose in opposition to the measure and asked that the remarks of Representative Morita on Stand. Com. Rep. No. 1261-10 and H.C.R. No. 32 be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Har rose and asked that the Clerk record an aye vote for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 34, entitled: "HOUSE CONCURRENT RESOLUTION APPROVING THE FEE SIMPLE SALE OF KEKUILANI VILLAGE 4, THE VILLAGES OF KAPOLEI, KAPOLEI, HAWAII," was adopted, with Representatives Awana, Berg, Morita and Shimabukuro voting no, and with Representatives Belatti, Bertram, Hanohano, McKelvey and Sagum being excused.

Representative Awana rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative C. Lee rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 36, entitled: "HOUSE CONCURRENT RESOLUTION APPROVING THE FEE SIMPLE SALE OF TWO VACANT PARCELS IN HOKULELE, KANEOHE, HAWAII," was adopted, with Representatives Berg, C. Lee and Shimabukuro voting no, and with Representatives Belatti, Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1265-10) recommending that H.C.R. No. 44, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.C.R. No. 44, be adopted, seconded by Representative Evans.

Representative Shimabukuro rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Berg rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 44, entitled: "HOUSE CONCURRENT RESOLUTION AUTHORIZING THE SALE OF STATE RECLAIMED LAND AT KAALAEA, KOOLAUPOKO, OAHU, FOR PRIVATE PROPERTY PURPOSES," was adopted, with Representatives Berg and Shimabukuro voting no, and with Representatives Belatti, Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1266-10) recommending that H.C.R. No. 45, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.C.R. No. 45, be adopted, seconded by Representative Evans.

Representative Choy rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative C. Lee rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Wooley rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Awana rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Berg rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Shimabukuro rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 45, entitled: "HOUSE CONCURRENT RESOLUTION AUTHORIZING THE SALE OF STATE RECLAIMED LANDS AT KANEOHE, KOOLAUPOKO, OAHU, FOR BEACH ACCESS RIGHT-OF-WAY PURPOSES," was adopted, with Representatives Awana, Berg and Choy voting no, and with Representatives Belatti, Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1267-10) recommending that H.C.R. No. 46, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.C.R. No. 46, be adopted, seconded by Representative Evans.

Representative Choy rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Wooley rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative C. Lee rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Tokioka rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I just wanted to share some thoughts that were not mentioned earlier. As a Native Hawaiian, I know the Representative from Waianae has spoken about the mission of the Hawaiian Homes and what it does for our community. But when you think about the mission of Hawaiian Homes, I believe you have to have a 50% blood quantum to qualify.

"Some of these homes are owned by Hawaiian people, and if not for this they could own the home. So Mr. Speaker, I just wanted to share those few comments with all due respect to the previous speakers in opposition, and register my strong support for this resolution."

Representative Berg rose to speak in opposition to the measure, stating:

"Thank you Mr. Speaker, for different reasons then from the Representative from Manoa, a no vote."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 46, entitled: "HOUSE CONCURRENT RESOLUTION AUTHORIZING THE SALE OF STATE LANDS AT HANAPEPE, WAIMEA, KAUAI, FOR RESIDENTIAL PURPOSES," was adopted, with Representatives Berg and Choy voting no, and with Representatives Belatti, Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1268-10) recommending that H.C.R. No. 47, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.C.R. No. 47, be adopted, seconded by Representative Evans.

Representative Shimabukuro rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Berg rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Manahan rose to speak in support of the measure, stating:

"Strong support, Mr. Speaker. Thank you."

Representative Berg rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.C.R. No. 292, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE DEPARTMENT OF LAND AND NATURAL RESOURCES TO ENTER INTO AN AGREEMENT TO TRANSFER THE MAUNA KEA STATE RECREATION AREA AND THE HAPUNA BEACH STATE RECREATION AREA TO THE COUNTY OF HAWAII," was adopted, with Representatives Belatti, Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1271-10) recommending that H.C.R. No. 320, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.C.R. No. 320, be adopted, seconded by Representative Evans.

Representative Shimabukuro rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Berg rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Wooley rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. And if I could submit written comments, and thank all the Members for the interesting policy discussion."

Representative Wooley's written remarks are as follows:

"I support this resolution wholeheartedly, though I have concerns about many of the other resolutions that will move forward today.

"Act 176, from last Session, has proven to be a very useful policy tool and important legislative process. Now, before the State Executive Branch can sell public land, it must successfully introduce and pass a legislative resolution. This process will help to ensure there is broad support for land sales before final deals are made, and it will prevent potential "sweetheart deals" that would benefit the few at the public's expense.

"The implementation of Act 176 and the passage of this year's resolutions has given me pause to reflect upon – and the opportunity to discuss – State land use policy. It may be that the selling of public land, especially during a recession, is tempting, but it is not necessarily prudent. During Finance hearings on these resolutions, it became clear that State agencies responsible for proposing the resolutions and selling State land do not have policies in place to ensure the sale of State land serves a public purpose, particularly in the long run.

"However, I do believe there are some situations where the sale of public land is in the best interest of the public. This resolution is one of those times. This resolution will allow for the sale of State land to the Boy Scouts of America. This proposed sale is unlike all the other resolutions we've seen today simply because it was a contract that was actually entered into many years ago, and the land was exchanged. However, there was an inadvertent omission of the tax map key from the 2004 recorded conveyance. This resolution will allow the omission to be corrected, once and for all."

Representative Har rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition to HCR No. 320, Standing Committee Report 1271-10. Mr. Speaker, this resolution attempts to basically approve a former land exchange between the Board of Land and Natural Resources and the Boy Scouts of America.

"The problem is, this is ceded lands. As this Body well knows, we've had many discussions throughout the past couple of weeks regarding Act 176 which we passed last year, which prohibited the State from selling ceded or non-ceded lands without legislative approval.

"In all my conversations with the colleagues of this Body, I think the message was made very clear. That when it came to ceded lands, we had a policy. So I have very serious reservations. If people were going no on these other resolutions for whatever reason, the fact of the matter is this. This is ceded lands. For these reasons I stand in opposition, Mr. Speaker. Thank you."

Representative Carroll rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

At 12:55 o'clock p.m. Representative Keith-Agaran requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:58 o'clock p.m.

Representative Keith-Agaran rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, I'd like a ruling on a possible conflict. From December 2000 to December of 2002 I was a member of a Board that was involved in approving the land exchange that's in the underlying resolution," and the Chair ruled, "no conflict."

Representative Awana rose in opposition to the measure and asked that the remarks of Representative Har be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Pine rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative C. Lee rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Morita rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Takai rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support of this measure. Thank you. I just wanted to state for the record the reason why I'm in support this. I do believe that Act 176 is the law of the land right now, and as such, this particular resolution as I read it, follows the requirements of Act 176, number one.

"Number two, which is very different from everything else, this land was actually sold years ago, and they're just trying to fix up some problems that occurred over the past. So it's very different from all the other parcels because I think the other parcels right now, we're trying to sell them. In this particular example, it was already sold. I guess mistakes were made. The Boy Scouts, I'm assuming it's the Boy's Scouts, currently sit on this particular parcel. And for those reasons Mr. Speaker, and for consistencies sake, I am supporting this. Thank you."

Representative Awana rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Ching rose in support of the measure and asked that the remarks of Representative Takai be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 320, entitled: "HOUSE CONCURRENT RESOLUTION SUBMITTING TO THE LEGISLATURE OF THE STATE OF HAWAII FOR REVIEW OF ACTION TAKEN BY THE BOARD OF LAND AND NATURAL RESOURCES ON A LAND EXCHANGE," was adopted, with Representatives Awana, Berg, Carroll, Har, C. Lee, Morita, Pine and Shimabukuro voting no, and with Representatives Belatti, Bertram, Hanohano, McKelvey and Sagum being excused.

At 1:01 o'clock p.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:02 o'clock p.m., with Vice Speaker Magaoay presiding.

STANDING COMMITTEE REPORTS

Representative Tokioka, for the Committee on Legislative Management presented a report (Stand. Com. Rep. No. 1272-10) recommending that H.C.R. No. 155, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.C.R. No. 155, be adopted, seconded by Representative Evans.

Representative M. Lee rose to speak in support of the measure, stating:

"Mr. Speaker, I stand in support. Thank you. In 2006, this Body passed a bill establishing the Joint Legislative Committee on Family Care Giving. In subsequent years the Committee decided to change the name to the Joint Legislative Committee on Aging in Place.

"They have met monthly since 2006, bringing together people from the *kupuna* caucus, the grandparents who care for grandchildren, and many community members. They have also prepared annual reports that have been submitted to the Legislature, in addition to documented research. They've also prepared an annual legislative package. And they've been a forum for aging issues in the State of Hawaii. So I'd like to ask for the Members' support and hopefully this Committee can continue its work over the next several years. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 155, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE PRESIDENT OF THE SENATE AND THE SPEAKER OF THE HOUSE OF REPRESENTATIVES TO AUTHORIZE THE JOINT LEGISLATIVE COMMITTEE ON AGING IN PLACE TO CONTINUE TO MEET AND CARRY OUT THE WORK OF THE COMMITTEE," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

At this time, Representative Souki called for the question for all resolutions from page 7 to page 28, and subsequently withdrew his motion.

The Chair responded, stating:

"No, we can't do that."

Representative Tokioka, for the Committee on Legislative Management presented a report (Stand. Com. Rep. No. 1273-10) recommending that H.C.R. No. 50, HD 1, as amended in HD 2, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.C.R. No. 50, HD 2, be adopted, seconded by Representative Evans.

Representative Rhoads rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, I just need to ask for a ruling on a potential conflict. The Division Chief at the State Historic Preservation Division's daughter works for me as Session staff," and the Chair ruled, "no conflict."

Representative Berg rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 50, HD 2, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING A SUMMIT FOR THE HEALING AND CREATION OF POSITIVE CHANGE FOR THE STATE HISTORIC PRESERVATION DIVISION OF THE DEPARTMENT OF LAND AND NATURAL RESOURCES," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative McKelvey, for the Committee on Economic Revitalization, Business, & Military Affairs presented two reports:

(Stand. Com. Rep. No. 1274-10) recommending that H.R. No. 140, be adopted; and

(Stand. Com. Rep. No. 1275-10) recommending that H.C.R. No. 209, be adopted.

Representative B. Oshiro moved that the reports of the Committee be adopted, and that H.R. No. 140, and H.C.R. No. 209, be adopted, seconded by Representative Evans.

Representative Ward rose to speak in support of both measures, stating:

"Mr. Speaker, I rise in support. I thank the gentlemen from Maui for his lack of presence. It appears he has left the place. But I appreciate everybody not doing a second on that motion, because even though this is a resolution, this is about the fourth estate, Mr. Speaker. This is about the press. This is a resolution to say, '*Star-Bulletin*, keep the window open a little bit further just so there's the possibility that somebody can buy the newspaper.' There's a possibility that somebody might step up to the plate, even though it's been a losing proposition.

"Mr. Speaker, we should recall that Thomas Jefferson said, 'If I had to choose between government and the press, I'd choose the press.' That's how important it has been for the free society that we are in, and that we have to remain. Even though, Mr. Speaker, for those of us here in the '90s, you'll recall that never was there a Floor session where there wasn't probably two or three cameras, two or three newspapers. We usually get the AP, but now we're lucky if we get the AP, plus the *Star-Bulletin* or the *Advertiser*.

"It's a dying profession. If this is a way to keep it alive by having somebody purchase it, modify it, reconstruct it. It is an encouragement that passing this resolution will do. I think 120 days would be ideal the way that they've closed it. With just a couple of weeks it's not appropriate. So the signal that this would send, I think, is not only for continuing the freedom of the press, but for being at least a two-newspaper town for as long as they can stand. Thank you."

Representative Ching rose in support of both measures and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in support of H.R. 140 and H.C.R. 209, which urges the owner of the *Honolulu Star-Bulletin* to provide sufficient time to find a new owner for the newspaper to preserve two independent daily newspapers in the community. Most importantly, if we are to allow today's challenging economy to silence the Star-Bulletin, our local community will come to observe only a single perspective on salient newsbreaks at a time when we can least afford such blind partiality. It is now more crucial than ever that we continue to press Hawaii's most influential voices to compete with one another, in order to ensure maximal accuracy, comprehensibility, and insight. Were a single voice to monopolize local news media, reporters and editors may feel that they can afford to lull, and citizens may complacently accept increasingly biased reporting.

"For 126 years, the *Star-Bulletin* has enlivened and enlightened Hawaii's local community with "incisive reporting, thought-provoking commentary, and delightful satire." One of the *Star-Bulletin*'s most valuable attributes lies in the fact that it has retained an independent legacy, and has thus minimized situations in which reporters may have otherwise felt the need to placate and extol certain parties over others. The award-winning quality of the *Star-Bulletin* has, moreover, become so deeply absorbed into the fabric of island living that thousands of our constituents would lament its loss, not to mention the approximate 200 jobs which the *Star-Bulletin*'s closure would sacrifice.

"Therefore, in light of the assertion which Oahu Publications, Inc made on February 25, 2010, that it would close or merge the *Star-Bulletin* if a qualified buyer is not found by April 2010, we must encourage this owner to persevere, allowing a generous yet reasonable time frame for its search to find a promising buyer. Along with the rest of our community, the publisher will also reap benefits in the future to more than compensate the costs of such a search, as the presence of two print voices will greatly enrich daily life in Hawaii. Thank you."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 140, entitled: "HOUSE RESOLUTION URGING THE OWNER OF THE HONOLULU STAR-BULLETIN TO PROVIDE SUFFICIENT TIME TO FIND A NEW OWNER FOR THE NEWSPAPER TO PRESERVE TWO INDEPENDENT DAILY NEWSPAPERS IN THE COMMUNITY," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused; and

H.C.R. No. 209, entitled: "HOUSE CONCURRENT RESOLUTION URGING THE OWNER OF THE HONOLULU STAR-BULLETIN TO PROVIDE SUFFICIENT TIME TO FIND A NEW OWNER FOR THE NEWSPAPER TO PRESERVE TWO INDEPENDENT DAILY NEWSPAPERS IN THE COMMUNITY," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative McKelvey, for the Committee on Economic Revitalization, Business, & Military Affairs presented a report (Stand. Com. Rep. No. 1276-10) recommending that H.R. No. 165, HD 1, as amended in HD 2, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.R. No. 165, HD 2, entitled: "HOUSE RESOLUTION SUPPORTING THE PHASE OUT OF PRODUCTION AND IMPORTATION OF DECABROMODIPHENYL ETHER IN THE UNITED STATES," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative McKelvey, for the Committee on Economic Revitalization, Business, & Military Affairs presented a report (Stand. Com. Rep. No. 1277-10) recommending that H.C.R. No. 235, HD 1, as amended in HD 2, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.C.R. No. 235, HD 2, entitled: "HOUSE CONCURRENT RESOLUTION SUPPORTING THE PHASE OUT OF PRODUCTION AND IMPORTATION OF DECABROMODIPHENYL ETHER IN THE

UNITED STATES," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented two reports:

(Stand. Com. Rep. No. 1278-10) recommending that H.R. No. 142, be adopted; and

(Stand. Com. Rep. No. 1279-10) recommending that H.C.R. No. 212, be adopted.

Representative B. Oshiro moved that the reports of the Committee be adopted, and that H.R. No. 142; and H.C.R. No. 212, be adopted, seconded by Representative Evans.

Representative Ching rose to speak in support of both measures, stating:

"Thank you, Mr. Speaker. I stand in support of these two resolutions. Thank you, very much. I stand in support. This is acknowledging our Korean community of which many of you may not know, but Liliha has quite a strong Korean heritage in that the first Korean church and the Korean Consulate is near and around Liliha.

"I do want to recognize, and I did talk to some of the authors of this, but that there are coalitions as I said on a previous bill. There is a Hawaii Capitol Coalition which for decades has been taking care of what is the Capitol and the surrounding Capitol area. There's so much work and organization, and I'm just looking forward to the group here also working with them and Washington Place. But I think it's really like the *lo'i* bill, a wonderful idea. Thank you."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 142, entitled: "HOUSE RESOLUTION REQUESTING GOVERNOR LINDA LINGLE TO RECOGNIZE LOCAL KOREANS BY ALLOWING A COMMEMORATIVE PLAQUE TO BE PLACED ON MILLER STREET ADJACENT TO WASHINGTON PLACE, FORMER SITE OF THE KOREAN NATIONAL ASSOCIATION," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused; and

H.C.R. No. 212, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING GOVERNOR LINDA LINGLE TO RECOGNIZE LOCAL KOREANS BY ALLOWING A COMMEMORATIVE PLAQUE TO BE PLACED ON MILLER STREET ADJACENT TO WASHINGTON PLACE, FORMER SITE OF THE KOREAN NATIONAL ASSOCIATION," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1280-10) recommending that H.C.R. No. 86, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.C.R. No. 86, entitled: "HOUSE CONCURRENT RESOLUTION URGING THE COUNTY OF KAUA'I TO RESTORE PRINCE KUHIO PARK TO ITS FORMER CONFIGURATION," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1281-10) recommending that H.C.R. No. 182, be adopted.

No. 237, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE ECONOMIC STIMULUS OVERSIGHT COMMISSION TO EXPAND ITS MONITORING OF FEDERAL STIMULUS FUNDS AVAILABLE TO HAWAII," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1284-10) recommending that H.C.R. No. 15, HD 1, as amended in HD 2, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.C.R. No. 15, HD 2, be adopted, seconded by Representative Evans.

Representative M. Lee rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I stand in support of this resolution because falls are a continuing problem amongst older adults and often lead to fractures, subdural hematomas, and inability to walk. After a serious fall, many develop pneumonia and bedsores because of confinement to bed. All of this leads to increased costs and pain and suffering.

"Reducing falls is a major preventive goal for our aging population. I urge the Members' support."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 15, HD 2, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE UNIVERSITY OF HAWAII CENTER ON AGING TO CONVENE A HAWAII STATE FALL PREVENTION TASK FORCE TO DEVELOP A STATEWIDE APPROACH TO REDUCING FALLS AMONG OLDER ADULTS," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative Ching rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in strong support of H.C.R. 56. A financial and management audit of the DOE is long overdue. The large bureaucracy of the Department of Education needs to be held accountable for how its funds are spent, especially when in comparison to other states we spend more, but have yet to reap the true benefits of our investments.

"Even the Department of Education has stated in their own testimony that they have "always welcomed independent audits by the State Auditor." If we do not hold this bureaucracy accountable for its actions, we, as a State, are failing our *keiki*. Thank you."

Representative Takai rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Takai's written remarks are as follows:

"Mr. Speaker, I speak in support of this bill. The purpose of this concurrent resolution is to request a financial and management audit of the Department of Education.

"It is unlikely that improvements can be made within the Department without objective analysis of operations. The public requires assurance that operations are efficient and that public funds are well spent. Regular evaluations, both from peers and from outside agencies, can lead to demonstrative improvements when accepted at face value and acted upon appropriately.

"Further, we are under great pressure to increase funding for our public schools. It is presumed, that increased funding will have a positive impact on and better results in instruction. Before funding is restored a complete objective review of the Department of Education's funding, structure and an operation is in order.

"I want to thank Representative Chris Lee for spearheading this fiscal and managerial audit of the Department of Education. It would not have come this far without all his hard work to make this happen.

"For these reasons, I support this concurrent resolution and urge my colleagues to do the same. Thank you."

Representative Belatti rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Belatti's written remarks are as follows:

"I rise in strong support of House Concurrent Resolution 56 which requests the Auditor to perform a financial and management audit of the Department of Education (DOE). Even before the current Furlough Friday crisis, the State's public education system has been plagued with significant problems that have been brought vividly to forefront of the public's attention. As the State agency receiving substantial amounts of general funds, a comprehensive financial and management audit of the DOE is a smart first step in imposing greater transparency and accountability on this agency.

"In its testimony before the House Education Committee, the DOE noted that various financial, single, local school fund audits, and single program reviews by federal and State agencies are conducted annually. However, this resolution provides for a much-needed, more comprehensive review of the DOE from the departmental level and calls for a holistic examination of the effectiveness and efficiency of departmental operations including organization and management of the DOE, especially with regard to personnel, and efficacy of fiscal operations, especially with respect to spending and accountability.

"The tax-paying public is entitled to better transparency and accountability from the system that, not only consumes much of the State's resources, but is ultimately responsible for the future well-being and education of our children. For these reasons, I am in strong support of HCR 56."

Representative C. Lee rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative C. Lee's written remarks are as follows:

"I want to thank Representative Mark Takai, Representative Denny Coffman, Representative Glenn Wakai, Representative Keith-Agaran, Representative Scott Nishimoto, Representative Tom Brower, Representative Mark Nakashima, Representative Joe Bertram, Representative Karl Rhoads, Representative Roy Takumi, and Representative Scott Saiki, for all their hard work in pushing this audit forward.

"Mr. Speaker, in particular I would like to thank one individual. I want to thank him for spearheading this long-overdue fiscal and managerial audit of the Department of Education. It would not have been possible without all his hard work to make this happen.

"I want to thank Representative Della Au Belatti, Representative Lyla Berg, Representative Mele Carroll, Representative Faye Hanohano, Representative Sylvia Luke, Representative Mina Morita, Representative Maile Shimabukuro, and Representative Jessica Wooley for all their hard work pushing this audit forward.

"Mr. Speaker, in particular I would like to thank one individual. I want to thank her for spearheading this long-overdue fiscal and managerial audit of the Department of Education. It would not have been possible without all her hard work to make this happen."

Representative Wooley rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Wooley's written remarks are as follows:

"I support this resolution and hope that it provides information to the public that is long overdue. It may not be simple, it may not be easy, but it is an important step in the right direction to ensure the Department of Education spends public money wisely and transparently."

Representative Finnegan rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Finnegan's written remarks are as follows:

"I rise in strong support of HCR 56 which requests a financial and management audit of the Department of Education. I am very pleased to see that the Majority in the House of Representatives is finally recognizing what the Minority has advocated for years now. DOE, one of the largest and most expensive segments of the Hawaii State government has not been audited since the 1970s.

"It is inconceivable that a $2 billion plus entity was allowed to operate for almost forty years without a comprehensive audit. It is unfortunate that it took embarrassing catalysts such as Furlough Fridays, the shortest school year in the country, and years of poor standardized test results to finally engender this action. A full financial and management audit is the beginning of achieving some meaningful education reform."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 56, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING A FINANCIAL AND MANAGEMENT AUDIT OF THE DEPARTMENT OF EDUCATION," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented two reports:

(Stand. Com. Rep. No. 1297-10) recommending that H.R. No. 62, HD 1, be adopted; and

(Stand. Com. Rep. No. 1298-10) recommending that H.C.R. No. 114, HD 1, be adopted.

Representative B. Oshiro moved that the reports of the Committee be adopted, and that H.R. No. 62, HD 1; and H.C.R. No. 114, HD 1, be adopted, seconded by Representative Evans.

Representative Pine rose to disclose a potential conflict of interest, stating:

"Yes, I just want a ruling on a potential conflict. For all of these measures on this page, I occasionally work for a homeless shelter," and the Chair ruled, "no conflict."

Representative Rhoads rose to speak in opposition to both measures, stating:

"Mr. Speaker, with apologizes to my neighbor from Kakaako, I'd like to vote no on both of these resolutions. Mahalo."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 62, HD 1, entitled: "HOUSE RESOLUTION URGING THE HAWAII PUBLIC HOUSING AUTHORITY TO ESTABLISH HOMELESS SAFE ZONES," was adopted, with Representative Rhoads voting no, and with Representatives Bertram, Hanohano, McKelvey and Sagum being excused; and

H.C.R. No. 114, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION URGING THE HAWAII PUBLIC HOUSING AUTHORITY TO ESTABLISH HOMELESS SAFE ZONES," was adopted, with Representative Rhoads voting no, and with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented two reports:

(Stand. Com. Rep. No. 1299-10) recommending that H.R. No. 63, HD 1, be adopted; and

(Stand. Com. Rep. No. 1300-10) recommending that H.C.R. No. 115, HD 1, be adopted.

Representative B. Oshiro moved that the reports of the Committee be adopted, and that H.R. No. 63, HD 1; and H.C.R. No. 115, HD 1, be adopted, seconded by Representative Evans.

Representative Pine rose to disclose a potential conflict of interest, stating:

"Yes, I just want a ruling on a potential conflict. For all of these measures on this page, I occasionally work for a homeless shelter," and the Chair ruled, "no conflict."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 63, HD 1, entitled: "HOUSE RESOLUTION REQUESTING THE DEPARTMENT OF HUMAN SERVICES, IN COLLABORATION WITH THE DEPARTMENT OF TRANSPORTATION, DEPARTMENT OF TRANSPORTATION SERVICES OF THE CITY AND COUNTY OF HONOLULU, AND ANY OTHER AGENCIES OR ENTITIES NECESSARY, TO DEVELOP A PLAN TO RESOLVE ISSUES RELATED TO HOMELESS INDIVIDUALS LIVING IN ABANDONED VEHICLES," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused; and

H.C.R. No. 115, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE DEPARTMENT OF HUMAN SERVICES, IN COLLABORATION WITH THE DEPARTMENT OF TRANSPORTATION, DEPARTMENT OF TRANSPORTATION SERVICES OF THE CITY AND COUNTY OF HONOLULU, AND ANY OTHER AGENCIES OR ENTITIES NECESSARY, TO DEVELOP A PLAN TO RESOLVE ISSUES RELATED TO HOMELESS INDIVIDUALS LIVING IN ABANDONED VEHICLES," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

No. 117, entitled: "HOUSE CONCURRENT RESOLUTION SUPPORTING CONGRESSIONAL AND STATE FUNDING FOR BROADBAND INFRASTRUCTURE," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented two reports:

(Stand. Com. Rep. No. 1303-10) recommending that H.R. No. 100, be adopted; and

(Stand. Com. Rep. No. 1304-10) recommending that H.C.R. No. 162, be adopted.

Representative B. Oshiro moved that the reports of the Committee be adopted, and that H.R. No. 100; and H.C.R. No. 162, be adopted, seconded by Representative Evans.

Representative M. Lee rose to speak in support of both measures, stating:

"Mr. Speaker, on both of those resolutions, in strong support and written comments."

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I rise in support. These resolutions are important because incarcerated persons must be educated about their responsibilities to family before they leave prison. This just makes sense and will help both the prisoner and his family in the long run. The responsibilities are just part of good parenting, which some have never been exposed to in the past.

"The Public Safety Director indicated in hearing that volunteers might be used to implement such a program. I urge the Members' support of these resolutions which support families."

Representative Pine rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 100, entitled: "HOUSE RESOLUTION URGING THE PROVISION OF EDUCATION TO INCARCERATED PARENTS TO ENSURE CHILD SUPPORT ISSUES ARE ADDRESSED WITHOUT DELAY AND UPON RELEASE, TO PREPARE THEM FOR REINTEGRATION WITH THEIR CHILDREN AND FAMILIES, INCLUDING GRANDPARENTS WHO HAVE RAISED THEIR CHILDREN," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused; and

H.C.R. No. 162, entitled: "HOUSE CONCURRENT RESOLUTION URGING THE PROVISION OF EDUCATION TO INCARCERATED PARENTS TO ENSURE CHILD SUPPORT ISSUES ARE ADDRESSED WITHOUT DELAY AND UPON RELEASE, TO PREPARE THEM FOR REINTEGRATION WITH THEIR CHILDREN AND FAMILIES, INCLUDING GRANDPARENTS WHO HAVE RAISED THEIR CHILDREN," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1305-10) recommending that H.C.R. No. 123, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.C.R. No. 123, entitled: "HOUSE CONCURRENT RESOLUTION RECOGNIZING AEROSPACE AS A STRATEGIC AND TIMELY GROWTH INDUSTRY FOR HAWAII AND REQUESTING THE STATE ADMINISTRATION TO TAKE PROACTIVE, COORDINATED, AND SUSTAINED ACTION TO FULLY REALIZE THE SIGNIFICANT SCIENTIFIC, EDUCATIONAL, AND COMMERCIAL BENEFITS THE AEROSPACE INDUSTRY CAN BRING TO THE STATE," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1306-10) recommending that H.C.R. No. 166, HD 1, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.C.R. No. 166, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE HAWAII TOURISM AUTHORITY, IN COLLABORATION WITH THE HAWAII BOXING COMMISSION AND OTHER RELATED PARTIES, TO CONTINUE TO PURSUE BRINGING WORLD-CLASS BOXING EVENTS TO HAWAII," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

No. 160, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE CENTER FOR NURSING TO EVALUATE THE NEED AND RESOURCES REQUIRED TO ESTABLISH A CONTINUING EDUCATION PROGRAM FOR NURSES," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented two reports:

(Stand. Com. Rep. No. 1314-10) recommending that H.R. No. 103, HD 1, be adopted; and

(Stand. Com. Rep. No. 1315-10) recommending that H.C.R. No. 167, HD 1, be adopted.

Representative B. Oshiro moved that the reports of the Committee be adopted, and that H.R. No. 103, HD 1; and H.C.R. No. 167, HD 1, be adopted, seconded by Representative Evans.

Representative Manahan rose to speak in support of both measures with reservations, stating:

"Mr. Speaker, just please note my reservations on Stand. Com. Rep. Nos. 1314-10 and 1315-10. I'm just not sure, if the Board of Education cannot even deal with the issue of being able to sell ice cream in schools, that they would be able to carry something like this out. Thank you."

Representative Berg rose to speak in support of both measures, stating:

"Thank you, Mr. Speaker. I rise in support and I fully can appreciate the concerns of the Representative from Kalihi. I would like to reassure colleagues that in looking at the underpinnings of this, not only our Constitution, but also Board policy that requires an integration of culture and language in all our public schools, not just emerging schools or language Charter Schools that the University of Hawaii, both in Hilo as well as at Manoa, are willing to provide free of charge, consultation, guidance, and training for teachers and guidance to integrate what this actually means.

"The Charter School, Kanu o ka 'Aina in Waimea is the initiator of these resolutions; and is accredited now by WASC, as well as the HAIS. I think they will be willing to give some guidance to the Board of Education as well. Thank you, very much."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 103, HD 1, entitled: "HOUSE RESOLUTION REQUESTING THE BOARD OF EDUCATION TO ADOPT A POLICY FOR THE INTEGRATION OF A PEDAGOGY OF ALOHA IN PUBLIC SCHOOLS FOR IMPROVED LEARNING IN THE 21ST CENTURY," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused; and

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.C.R. No. 139, be adopted, seconded by Representative Evans.

Representative B. Oshiro rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative B. Oshiro's written remarks are as follows:

"I want to commend and thank the members of the Hawaii Law Enforcement Memorial Foundation (HLEMF) who spearheaded this effort to memorialize State and local law enforcement officers who gave their lives in the line of duty. In addition, I want to thank the Department of Accounting and General Services for offering initial support for the intent of this measure; I hope they will continue to be actively involved in this project.

"During the March 18 Public Safety Committee hearing on this measure, some of the most compelling testimony came from family members and friends of fallen law enforcement officers. These individuals recounted acts of bravery and selfless acts undertaken by the law enforcement officers that this memorial seeks to honor. These are the stories and acts that take place every day that keep our families and neighborhoods safe, but which are too rarely acknowledged.

"Perhaps this memorial's placement on the Capitol grounds will cause all of us to pause and reflect upon the reliable and laudable work undertaken daily by law enforcement personnel.

"This memorial will be a welcomed addition and compliment to the historic Capitol District, and I urge the Legislature to adopt this measure."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 139, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE DEPARTMENT OF ACCOUNTING AND GENERAL SERVICES TO WORK WITH THE HAWAII LAW ENFORCEMENT MEMORIAL FOUNDATION, THE COUNTY POLICE DEPARTMENTS, THE DEPARTMENT OF PUBLIC SAFETY, THE UNITED STATES MARSHAL FOR THE DISTRICT OF HAWAII, THE STATE OF HAWAII ORGANIZATION OF POLICE OFFICERS, AND THE CONCERNS OF POLICE SURVIVORS INCORPORATED, TO PLAN AND CONSTRUCT A HAWAII STATE LAW ENFORCEMENT MEMORIAL," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1317-10) recommending that H.C.R. No. 161, as amended in HD 1, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.C.R. No. 161, HD 1, be adopted, seconded by Representative Evans.

At 1:16 o'clock p.m. Representative Har requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:17 o'clock p.m.

Representative Ching rose to speak in support of the measure with reservations, stating:

"Thank you, so much. I'm rising with some strong reservations on this particular resolution because while I'm in very much support of the arts, I just have some questions on requesting a business to do something. It's a fine line that we tread on when we do things like this. Additional written comments, please."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in opposition [*sic*] to H.C.R. 161, which requests Castle & Cooke Hawaii, Inc. to work with the Oahu Arts Center (OAC) and the community to secure an appropriate site for an arts center.

"This resolution intends to promote the successful development of young children as the celebration of arts helps brings families and communities together. The benefits of such a Center would include economic development of local communities and businesses by generating community participation in the Center, job creation, among other benefits.

"According to the testimony submitted by Castle & Cooke, Inc., "Castle & Cooke conditionally offered to donate land to OAC in Mililani Mauka for development of an arts center facility, if OAC could meet planning and development milestones which ensured that a facility was feasible and would actually be constructed…. Castle & Cooke's conditional offer to donate land to … OAC expired over a year ago … this is a contractual matter between private parties."

"I think arts education is important, however, we tread on thin ice when we begin to legislate to businesses what they must do with their land. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 161, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING CASTLE & COOKE HAWAII, INC. TO WORK WITH THE OAHU ARTS CENTER AND THE COMMUNITY TO SECURE AN APPROPRIATE SITE FOR AN ARTS CENTER," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1318-10) recommending that H.C.R. No. 181, HD 1, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.C.R. No. 181, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE DEPARTMENT OF LAND AND NATURAL RESOURCES, LAND DIVISION, TO DEVELOP A PLAN TO REDIRECT STORM WATER RUNOFF FROM STATE LANDS ADJACENT TO THE HANAPEPE SALT PONDS AWAY FROM THE SALT PANS," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1319-10) recommending that H.C.R. No. 173, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.C.R. No. 173, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE NATIONAL DISASTER PREPAREDNESS TRAINING CENTER AT THE UNIVERSITY OF HAWAII AT MANOA TO PREPARE A REPORT ON THE CIVIL DEFENSE PREPAREDNESS RESPONSE TO THE FEBRUARY, 2010 TSUNAMI THREAT," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1320-10) recommending that H.C.R. No. 187, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.C.R. No. 187, be adopted, seconded by Representative Evans.

Representative Pine rose to speak in support of the measure with reservations, stating:

"Just in support with reservations. My reservation is the Hawaii Paroling Authority said that they would like to establish a HOPE Parole Pilot Program, but due to budget cuts they would not be able to fulfill the request of this resolution."

Representative Tokioka rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 187, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE HAWAII PAROLING AUTHORITY TO ESTABLISH A HOPE PAROLE PILOT PROGRAM," was adopted, with Representative Tokioka voting no, and with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented two reports:

(Stand. Com. Rep. No. 1321-10) recommending that H.R. No. 105, HD 1, be adopted; and

(Stand. Com. Rep. No. 1322-10) recommending that H.C.R. No. 169, HD 1, be adopted.

Representative B. Oshiro moved that the reports of the Committee be adopted, and that H.R. No. 105, HD 1; and H.C.R. No. 169, HD 1, be adopted, seconded by Representative Evans.

Representative Ching rose in support of both measures and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in support of H.R. 105 and H.C.R. 169, which requests the Office of Veterans' Services, assisted by the Department of Accounting and General Services and the Department of Defense, to develop a plan to create memorials to the veterans of the Persian Gulf War and Women Veterans of World War II on the grounds of the State Capitol near the Korean and Vietnam War Memorial.

"Our State Capitol stands to recognize and represent all citizens of Hawaii, especially those heroes who paid the ultimate sacrifice. Furthermore, by boldly acknowledging the place which every member of the armed services holds in our community, we will encourage veterans – who may have otherwise come to feel disillusioned and isolated from the purpose for which they fought – to assume more active roles in our community, and to take more interest in our government.

"Meanwhile, of course, we must also remain mindful to preserve the Capitol's harmonious design, into which our forebears invested such great care. In particular, it is essential that we consult the Hawaii Capitol Cultural Coalition, who have been involved for years in planning the design of the Honolulu Capitol District, and who can offer valuable insight into how we might best incorporate the new memorial while preserving the current layout's meaning. We must also ensure, as the State Department of Defense has voiced concern, that the construction project does not compromise priorities already in place, by competing for "scarce funds needed for essential time sensitive construction projects." Let us realize this valuable note of homage, and do so with wisdom, care, and efficiency in mind. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.R. No. 105, HD 1, entitled: "HOUSE RESOLUTION REQUESTING THE OFFICE OF VETERANS' SERVICES, ASSISTED BY THE DEPARTMENT OF ACCOUNTING AND GENERAL SERVICES AND THE DEPARTMENT OF DEFENSE, TO DEVELOP A PLAN TO CREATE MEMORIALS TO THE VETERANS OF THE PERSIAN GULF WAR AND WOMEN VETERANS OF WORLD WAR II ON THE GROUNDS OF THE STATE CAPITOL NEAR THE KOREAN AND VIETNAM WAR MEMORIAL," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused; and

H.C.R. No. 169, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE OFFICE OF VETERANS' SERVICES, ASSISTED BY THE DEPARTMENT OF ACCOUNTING AND GENERAL SERVICES AND THE DEPARTMENT OF DEFENSE, TO DEVELOP A PLAN TO CREATE MEMORIALS TO THE VETERANS OF THE PERSIAN GULF WAR AND WOMEN VETERANS OF WORLD WAR II ON THE GROUNDS OF THE STATE CAPITOL NEAR THE KOREAN AND VIETNAM WAR MEMORIAL," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented two reports:

(Stand. Com. Rep. No. 1323-10) recommending that H.R. No. 109, be adopted; and

(Stand. Com. Rep. No. 1324-10) recommending that H.C.R. No. 174, be adopted.

Representative B. Oshiro moved that the reports of the Committee be adopted, and that H.R. No. 109, and H.C.R. No. 174, be adopted, seconded by Representative Evans.

Representative Takai rose in support of both measures and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Takai's written remarks are as follows:

"Mr. Speaker, I speak in support of these resolutions. The purpose of these resolutions is to help provide access for the people of Hawaii to documents, records, and artifacts of the first United States President from Hawaii by urging President Barack Obama to select a location in Hawaii as the site for his presidential library.

"President Obama's election in 2008 sent a powerful message to the World: A *hapa* kid who was born and raised in Hawaii can become the leader of the Free World.

"This Hawaii-based library will provide the people of Hawaii and the people throughout the World with access to documents and artifacts of the Obama administration. Hawaii would be the most appropriate site for President Obama's library because he was born here and because Hawaii shares a unique perspective through the lens of the world. We are the "Melting Pot of the World," where the East meets the West.

"There are numerous possibilities for the site of the presidential library, including Punahou Schools, where he completed high school. You also may want to consider building the library at or near the campus of the University of Hawaii at West Oahu, which is in Kapolei.

"We in Hawaii would deeply appreciate the opportunity to advance the study and understanding of President Barack Obama's life and career.

"For these reasons, I support these measures and urge my colleagues to do the same. Thank you."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 109, entitled: "HOUSE RESOLUTION URGING PRESIDENT BARACK OBAMA TO SELECT A LOCATION IN HAWAII AS THE SITE FOR HIS PRESIDENTIAL LIBRARY," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused; and

H.C.R. No. 174, entitled: "HOUSE CONCURRENT RESOLUTION URGING PRESIDENT BARACK OBAMA TO SELECT A LOCATION IN HAWAII AS THE SITE FOR HIS PRESIDENTIAL LIBRARY," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1325-10) recommending that H.R. No. 119, HD 1, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.R. No. 119, HD 1, entitled: "HOUSE RESOLUTION REQUESTING THAT THE LEGISLATURE CONVENE AN INVESTIGATORY PUBLIC HEARING TO EVALUATE THE BIOSECURITY PROGRAM BY EXAMINING STATE AND COUNTY POLICIES AND PRACTICES THAT AFFECT THE AVAILABILITY OF WATER FOR AGRICULTURE AND MAINTENANCE OF AGRICULTURAL IRRIGATION SYSTEMS," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1326-10) recommending that H.C.R. No. 184, HD 1, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.C.R. No. 184, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THAT THE LEGISLATURE CONVENE AN INVESTIGATORY PUBLIC HEARING TO EVALUATE THE BIOSECURITY PROGRAM BY EXAMINING STATE AND COUNTY POLICIES AND PRACTICES THAT AFFECT THE AVAILABILITY OF WATER FOR AGRICULTURE AND MAINTENANCE OF AGRICULTURAL IRRIGATION SYSTEMS," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1327-10) recommending that H.R. No. 120, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.R. No. 120, be adopted, seconded by Representative Evans.

Representative Pine rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Awana rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I stand in strong support."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.R. No. 120, entitled: "HOUSE RESOLUTION REQUESTING THE HAWAII PAROLING AUTHORITY TO ESTABLISH A HOPE PAROLE PILOT PROGRAM," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented two reports:

(Stand. Com. Rep. No. 1328-10) recommending that H.R. No. 123, be adopted; and

(Stand. Com. Rep. No. 1329-10) recommending that H.C.R. No. 190, be adopted.

Representative B. Oshiro moved that the reports of the Committee be adopted, and that H.R. No. 123, and H.C.R. No. 190, be adopted, seconded by Representative Evans.

Representative Pine rose to speak in support of both measures with reservations, stating:

"I just want to note my reservations on urging the National Guard Hawaii Youth Challenge to consider another alternative site for their program activities."

Representative Ward rose and asked that the Clerk record a no vote for him on both measures, and the Chair "so ordered."

Representative Finnegan rose and asked that the Clerk record a no vote for her on both measures, and the Chair "so ordered."

Representative Ching rose and asked that the Clerk record an aye vote with reservations for her on both measures, and the Chair "so ordered."

Representative Herkes rose to speak in support of both measures, stating:

"In strong support. This is a Hawaii Island issue."

Representative Ward rose to respond, stating:

"Mr. Speaker, a brief retort. We are State Representatives, not island Representatives. And the issues is a preemption of somebody. 'The early bird gets the worm.' The Youth Challenge people had put their application in to use this premises. That was then with these resolutions, attempted to be cut off at the pass by somebody who came late. The other program is worthy, but chronology does make a difference. And I think those that were there, this is a preventive measure. Those that would come in through these resolutions would be a curative, which is sometimes more difficult.

"This is preventive. If we get the Youth Challenge people, they're keeping a lot of kids off the streets, a lot of kids out of prison. It's very worthwhile. And I don't speak as the Representative from Hawaii Kai when I say this. Thank you."

Representative Har rose to speak in support of both measures with reservations, stating:

"Yes Mr. Speaker. On Stand. Com. Rep. Nos. 1328 and 1329, with all due respect to my colleague from Kau, please note my reservations."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 123, entitled: "HOUSE RESOLUTION URGING THE NATIONAL GUARD HAWAII YOUTH CHALLENGE PROGRAM TO CONSIDER ALTERNATIVE SITES FOR ITS PROGRAM ACTIVITIES ON THE ISLAND OF HAWAII," was adopted, with Representatives Finnegan and Ward voting no, and with Representatives Bertram, Hanohano, McKelvey and Sagum being excused; and

H.C.R. No. 190, entitled: "HOUSE CONCURRENT RESOLUTION URGING THE NATIONAL GUARD HAWAII YOUTH CHALLENGE PROGRAM TO CONSIDER ALTERNATIVE SITES FOR ITS PROGRAM ACTIVITIES ON THE ISLAND OF HAWAII," was adopted, with Representatives Finnegan and Ward voting no, and with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1330-10) recommending that H.R. No. 153, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.R. No. 153, entitled: "HOUSE RESOLUTION REAFFIRMING THE SUPPORT OF THE HAWAII STATE LEGISLATURE FOR THE NATURAL ENERGY LABORATORY OF HAWAII AUTHORITY AS AN INCUBATOR FOR RESEARCH AND COMMERCIALIZATION OF ENERGY, HIGH TECHNOLOGY, AND ECONOMIC DEVELOPMENT IN THE STATE OF HAWAII," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1331-10) recommending that H.C.R. No. 224, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.C.R. No. 224, entitled: "HOUSE CONCURRENT RESOLUTION

REAFFIRMING THE SUPPORT OF THE HAWAII STATE LEGISLATURE FOR THE NATURAL ENERGY LABORATORY OF HAWAII AUTHORITY AS AN INCUBATOR FOR RESEARCH AND COMMERCIALIZATION OF ENERGY, HIGH TECHNOLOGY, AND ECONOMIC DEVELOPMENT IN THE STATE OF HAWAII," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1332-10) recommending that H.R. No. 209, HD 1, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.R. No. 209, HD 1, entitled: "HOUSE RESOLUTION REQUESTING THE UNIVERSITY OF HAWAII PROCUREMENT INSTITUTE TO REVIEW THE POLICIES AND REQUIREMENTS IN THE AWARDING OF STATE ENERGY SERVICE CONTRACTS," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1333-10) recommending that H.C.R. No. 288, HD 1, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.C.R. No. 288, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE UNIVERSITY OF HAWAII PROCUREMENT INSTITUTE TO REVIEW THE POLICIES AND REQUIREMENTS IN THE AWARDING OF STATE ENERGY SERVICE CONTRACTS," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1334-10) recommending that H.R. No. 184, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.R. No. 184, entitled: "HOUSE RESOLUTION REQUESTING THE DEPARTMENT OF HUMAN SERVICES TO EXAMINE AND EVALUATE THE VERACITY, EXTENT, AND EFFECT OF CERTAIN ALLEGATIONS OF SHORTCOMINGS OF PROGRAMS FOR ADULTS WITH SPECIAL NEEDS," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1335-10) recommending that H.C.R. No. 256, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.C.R. No. 256, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE DEPARTMENT OF HUMAN SERVICES TO EXAMINE AND EVALUATE THE VERACITY, EXTENT, AND EFFECT OF CERTAIN ALLEGATIONS OF SHORTCOMINGS OF PROGRAMS FOR ADULTS WITH SPECIAL NEEDS," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1336-10) recommending that H.C.R. No. 200, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.C.R. No. 200, be adopted, seconded by Representative Evans.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in strong opposition. Mr. Speaker, this is a resolution that proposes that we, the State of Hawaii, get into the banking business. We the government, start to have a hand in the till, if you will. And we know from the last housing crisis collapse, that we have these GSEs; these Government Sponsored Entities, Fannie Mae, Freddie Mac, and many others including them that are insolvent.

"Government doesn't know how to run the economy, Mr. Speaker that's what the whole lesson of communism and socialism was about. And why we're flirting with this is because there's one state called North Dakota that did this. And instead of putting their money into the private banks and let the normal system of banking progress, they decided to create their own bank where they cut their own money, and they don't have to pay the fees. They said they've made a few million dollars by doing this.

"But I had my office research this. How did they actually oversee this "North Dakota State Bank." It's by the appointment of the Governor. Mr. Speaker, would you want your loan to be approved by Governor Lingle? What if there's a Governor Abercrombie? Would we be able to get loans? Or if there's a Governor Aiona? Or what about a Governor Hannemann?

"Do you want to put politics in the heart and center of our economy? I don't think we want to do that. You say, 'Well look, this is just a study. It's no big deal. You're taking it too seriously.' I submit we're taking it as seriously as when we recommitted the 'Get Pearl Iboshi' resolution. When we recommitted the cockfighting resolution. Mr. Speaker, I feel so strongly about this, I move to table this measure and get rid of it."

At this time, Representative Ward moved to table the measure, seconded by Representative Marumoto.

Representative Thielen rose and stated:

"Thank you, Mr. Speaker, I strongly support that motion. I think that this is a ridiculous message to send out again about Hawaii. Don't come here. Don't try to do business here. Because the state will take it over."

Representative Say rose to a point of order, stating:

"Mr. Speaker, I believe she's out of order. There is no debate on the motion to table."

At 1:26 o'clock p.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:28 o'clock p.m.

At this time, the Chair stated:

"Members, prior to recess there was a motion on the Floor regarding Stand. Com. Rep. No. 1336 to be tabled. It was seconded by Representative Marumoto, and now the motion is on the Floor before us."

The motion to table the measure was put to vote by the Chair and upon a voice vote, failed to carry. (Representatives Bertram, Hanohano, McKelvey, Mizuno, Nishimoto, Sagum and Takumi were excused.)

(Main Motion)

Representative Rhoads rose to speak in support of the measure, stating:

"I'm in support. Some of the arguments that have been made in the last few minutes are incredible to me considering the role that the private banking sector has played in what we're in now, the Great Recession. The activities of private banks have been unethical at best, and criminal at worst.

"This seems like a perfectly rational response, particularly when you look at this economic situation. North Dakota, which I think was alluded to as the only place that has a bank like this, has the lowest unemployment rate in the country, and the only, from my understanding, it is the only state that does not have a budget deficit at the moment. So I think it's perfectly legitimate to at least study the issue. Mahalo."

Representative Souki rose to speak in opposition to the measure, stating:

"Yes, Mr. Speaker. I'm voting no on this measure here. And I hope that the intent of this measure was not that the President gets a big golden parachute like the other banks have had throughout the nation. And I hope that I have not set the trend with the tabling of the motion for my friend. Thank you."

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I am strongly against this measure, Mr. Speaker. Here we go again with the headlines in the *Wall Street Journal* and the other media across the nation that Hawaii now is going to nationalize, or make a State bank, the Bank of Hawaii. I mean who would want to put the investment money into it, because then the Legislature would probably take it and use it to fund different programs.

"The thing I find appalling from the speaker from the Chinatown area, is that he totally ignores the fact that our Bank of Hawaii has received the highest awards in the nation. And it received those for being fiscally responsible for taking care of its depositors, and for not being one of the banks that went under or had to be rescued by the federal government.

"So right here in Hawaii, we have an example of one of the best banks, or I think it may even be the best bank in the nation. And now someone, I don't even know who it is, has put in this ridiculous resolution to say we're going to create a state bank. Would you put money in it? I wouldn't."

Representative B. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support. Again, if people would read the resolution, it talks about a study. That's all it is. It's not about establishment. If and when we get to that, that's the time to argue about the policy. At this point it's just a study. So if people would calm down, I think they'd realize they are a bit premature. Thank you."

Representative Thielen rose, stating:

"Just a point of personal privilege. When this Body does a study, then people run for the hills because what follows after that is a law and more taxes, or something as stupid as this."

At this time the Chair stated:

"Thank you, Representative Thielen. You're out of order."

Representative Ching rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In strong opposition. Number one, studies do take time out from our employees' time, and therefore time is money. There are a lot important things that we're trying to solve, so to me, it's to look at legitimate solutions, and studies are not free.

"Number two, my feeling is that, myopia is defined as shortsightedness, the inability to see far. The fact is that you never want to clump all things in one category, because it shows that you don't have the finest to look that things are different.

"A couple differences, the Dakota model. If you look at Dakota, Dakota has one of the strongest educational achievement rates of almost any state, including the north, like in Minnesota, those colder places. They have a very high educational performance rate. And the situation with the North Dakota model is you're looking at small banks.

"I personally, with all due respect to my neighbor and colleague in Chinatown, I think banks here have had a very illustrious position and role in helping the community. Do I have a conflict of interest? I know some bankers, and I like bankers. I do like a lot of the bankers that have helped Hawaii.

"To say that all banks are bad is no different than when some people said that all elected officials are bad. Right? So to me, the fact is, is that this is another encroachment into the private sector. I have gone out to my community and when I have told people what do you think of this? Oh my god, I cannot tell you the amount of rolled eyes that I have seen.

"It may be a study, but we're taking time away. Time away discussing it. Time away for the Clerk and everyone else to process this. Time away from the hearings. I think that we should be looking at real world solutions, and this is just one more taking away from the private sector to do its job and to employ our local people."

Representative Marumoto rose to speak in opposition to the measure, stating:

"In opposition, Mr. Speaker. This might just be a study, but like most of our studies I think they are put up on the shelf and gather dust. I would hope that this would be the case with this particular subject of a state bank. But then if it does just gather dust, it's an exercise in futility, and as the previous speaker said a waste of time and energy and money.

"I'm glad that the Representative from Kailua brought up the fact that the Bank of Hawaii was recognized as being a very well-operated bank, especially since the President of it is the son of one of my close friends. But it is true. It is very well run, and I don't think all the banks here in town are rolling in money, excuse the expression. They're not that financially healthy. They're not that well capitalized. They're holding their own, but we have some good banks here. American Savings Bank, Central Pacific Bank and Hawaii National Bank, and we want them to prosper and do well. But a state bank would simply undercut them and take a lot of the State deposits away from them. They use that money to invest. I would hate to see us undercut them.

"Banks are the basis of our free enterprise system. I think we should make sure that they are well run and regulated, but we should stay out of their way and not impede their prosperity. So I would caution against implementing a state run bank. I only see this as a socialist idea. Thank you."

Representative Manahan rose, stating:

"Mr. Speaker, just a point of personal privilege. I think the former speaker from Kahala-Diamond Head should ask for a ruling on a potential conflict since her friend's son is the President of the Bank of Hawaii. Thank you."

Representative Marumoto rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, I ask for a ruling on a possible conflict of interest because my girlfriend's son is the President of the Bank of Hawaii. Thank you," and the Chair ruled, "no conflict."

Representative Souki rose to speak in support of the measure with reservations, stating:

"Yes, Mr. Speaker. I want to say that I will change my vote from no, to with reservations. Inasmuch as the State of Hawaii could be the first bank to start two consecutive years with $1.2 billion deficit, and end up in the plus. I think that's a great beginning for the State of Hawaii."

The Chair then stated:

"Thank you. Members, let's be sensible. This is a study for LRB and all of you who come back next year will be able to talk about this proposal when it becomes alive."

Representative Brower rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Mr. Speaker, I'm not going to stand here and talk about the successes of major world banks in financing world wars, but I will agree with the Department of Commerce and Consumer Affairs' testimony on this measure where they said, 'The

concept appears to have merit. A feasibility study by the Legislative Reference Bureau is clearly in order to determine if this model will be compatible with Hawaii.' Thank you."

Representative Berg rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Pine rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Finnegan rose to speak in opposition to the measure, stating:

"Mr. Speaker, a no vote to state-owned bank study. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 200, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE LEGISLATIVE REFERENCE BUREAU TO STUDY THE FEASIBILITY OF ESTABLISHING A STATE-OWNED BANK," was adopted, with Representatives Berg, Ching, Finnegan, Marumoto, Pine, Thielen and Ward voting no, and with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented two reports:

(Stand. Com. Rep. No. 1337-10) recommending that H.R. No. 134, be adopted; and

(Stand. Com. Rep. No. 1338-10) recommending that H.C.R. No. 206, be adopted.

Representative B. Oshiro moved that the reports of the Committee be adopted, and that H.R. No. 134, and H.C.R. No. 206, be adopted, seconded by Representative Evans.

Representative Awana rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. No. 134, entitled: "HOUSE RESOLUTION REQUESTING THE DEPARTMENT OF TRANSPORTATION TO DETERMINE THE FEASIBILITY OF ESTABLISHING AND USING A SOLAR POWERED HIGHWAY LIGHTING SYSTEM ALONG HAWAII'S HIGHWAYS," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused; and

H.C.R. No. 206, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE DEPARTMENT OF TRANSPORTATION TO DETERMINE THE FEASIBILITY OF ESTABLISHING AND USING A SOLAR POWERED HIGHWAY LIGHTING SYSTEM ALONG HAWAII'S HIGHWAYS," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1339-10) recommending that H.R. No. 214, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.R. No. 214, entitled: "HOUSE RESOLUTION URGING GOOGLE INC. TO SELECT HAWAII AS A TEST SITE TO CONDUCT THE GOOGLE GIGABIT BROADBAND INITIATIVE," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1340-10) recommending that H.C.R. No. 297, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.C.R. No. 297, entitled: "HOUSE CONCURRENT RESOLUTION URGING GOOGLE INC. TO SELECT HAWAII AS A TEST SITE TO CONDUCT THE GOOGLE GIGABIT BROADBAND INITIATIVE," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1341-10) recommending that H.C.R. No. 223, HD 1, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.C.R. No. 223, HD 1, be adopted, seconded by Representative Evans.

Representative Awana rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 223, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE LEGISLATIVE REFERENCE BUREAU, WITH ASSISTANCE FROM THE DEPARTMENT OF DEFENSE, TO CONDUCT A STUDY ON THE FEASIBILITY OF USING LUALUALEI NAVAL ROAD AS AN EVACUATION ROUTE IN THE EVENT OF AN EMERGENCY OR NATURAL DISASTER ON THE LEEWARD COAST," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1342-10) recommending that H.C.R. No. 262, HD 1, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.C.R. No. 262, HD 1, be adopted, seconded by Representative Evans.

Representative Pine rose to disclose a potential conflict of interest, stating:

"I just want a ruling on a potential conflict. For the same reasons earlier, I occasionally work for a homeless shelter," and the Chair ruled, "no conflict."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 262, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE ESTABLISHMENT OF THE WAIANAE COAST HOMELESSNESS TASK FORCE TO DEVELOP A COMPREHENSIVE PLAN TO ADDRESS THE IMMEDIATE, SHORT-, AND LONG-TERM NEEDS OF THE HOMELESS AND THOSE AT-RISK OF BECOMING HOMELESS," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1343-10) recommending that H.C.R. No. 284, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.C.R. No. 284, be adopted, seconded by Representative Evans.

Representative Pine rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 284, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE DEPARTMENT OF ACCOUNTING AND GENERAL SERVICES TO UNDERTAKE PLANNING ACTIVITIES WITH RESPECT TO A NEW STADIUM ON

OAHU AND RELATED MATTERS," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1344-10) recommending that H.C.R. No. 289, HD 1, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.C.R. No. 289, HD 1, be adopted, seconded by Representative Evans.

Representative Ching rose to speak in support of the measure, stating:

"Thank you. Just in strong support with written comments."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in strong support of H.C.R. 289, which requests State public entities to commit to healthier and more nutritious meals in their programs by spending more of their food dollars for locally-produced produce or other Hawaii agricultural products. This legislation offers enormous gains for all local parties, as we currently import approximately 85% of food consumed in the Island, and thus allow over $3 billion to annually leave our State, when those funds could easily be funneled to support local agribusinesses. After the multiplier effect takes place, moreover, the economy-wide impact of sales, earnings, tax revenues, and created jobs could enormously fuel our lagging economy, and prevent many independent businesses and farms from closing their doors.

"The Hawaii Farm Bureau Federation cites recent incidents to affirm its assertion that there is indeed student demand for healthier meal choices in Hawaii's public schools. "Healthy and nutritious meal choices that are affordable and accessible," they claim, "will go a long ways to improving the health of our citizens." Because only 1 of 650 farmers now sell via the State procurement program, it is not surprising that the price and delivery negotiation processes between local farms and State-run initiatives must still become significantly more efficient. HFBF is now developing a training program to ease farmers' access to the program. However, time allotments proved insufficient, and many individual farmers did not know how to fill out necessary documents, or lacked needed resources. Nonetheless, HFBF announces itself "intent on making this process work."

"The Department of Education states some concern that it must comply with the "best buy" requirement upon which their receipt of federal monies relies, and thus cannot unconditionally commit to using ten percent of federally funded food dollars to purchase local produce exclusively. However, the issue here is that local farms are not yet given the opportunity to produce their crops at magnitudes necessary to serve such large enterprises. If we change that, and allow local agriculture to grow according to the demand already evident, price competition will cease to impose H.C.R. 289's one obstacle. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 289, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING STATE PUBLIC ENTITIES TO COMMIT TO HEALTHIER AND MORE NUTRITIOUS MEALS IN THEIR PROGRAMS BY SPENDING MORE OF THEIR FOOD DOLLARS FOR LOCALLY-PRODUCED PRODUCE OR OTHER HAWAII AGRICULTURAL PRODUCTS," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1345-10) recommending that H.C.R. No. 296, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.C.R. No. 296, entitled: "HOUSE CONCURRENT RESOLUTION URGING THE GOVERNOR TO PROPERLY FUND THE SMALL BUSINESS REGULATORY REVIEW BOARD UNDER THE DEPARTMENT OF BUSINESS, ECONOMIC DEVELOPMENT, AND TOURISM TO SUPPORT HAWAII'S SMALL BUSINESSES," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1346-10) recommending that H.C.R. No. 298, HD 1, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.C.R. No. 298, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE HIGH TECHNOLOGY DEVELOPMENT CORPORATION TO COORDINATE INITIATIVES WITHIN THE COMMUNITY WHICH ADDRESS ENERGY INNOVATION WITH THE ORGANIZERS OF ENERGY AWARDS AND PROGRAMS, AND ASSIST IN THEIR OUTREACH TO THE HAWAII COMMUNITY," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1347-10) recommending that H.R. No. 215, HD 1, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.R. No. 215, HD 1, entitled: "HOUSE RESOLUTION REQUESTING THE HIGH TECHNOLOGY DEVELOPMENT CORPORATION TO COORDINATE INITIATIVES WITHIN THE COMMUNITY WHICH ADDRESS ENERGY INNOVATION WITH THE ORGANIZERS OF ENERGY AWARDS AND PROGRAMS, AND ASSIST IN THEIR OUTREACH TO THE HAWAII COMMUNITY," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1348-10) recommending that S.C.R. No. 178, SD 1, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and S.C.R. No. 178, SD 1, entitled: "SENATE CONCURRENT RESOLUTION URGING HAWAII HEALTH SYSTEMS CORPORATION HOSPITALS AND CLINICS TO ACCEPT MEDICAL STUDENT ROTATIONS FROM A.T. STILL UNIVERSITY SCHOOL OF OSTEOPATHIC MEDICINE BASED OUT OF THE WAIANAE COAST COMPREHENSIVE HEALTH CENTER, THE UNIVERSITY OF HAWAII JOHN A. BURNS SCHOOL OF MEDICINE, AND OTHER HAWAII-BASED MEDICAL SCHOOLS," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative Karamatsu, for the Committee on Judiciary presented two reports:

(Stand. Com. Rep. No. 1349-10) recommending that H.R. No. 200, as amended in HD 1, be adopted; and

(Stand. Com. Rep. No. 1350-10) recommending that H.C.R. No. 278, as amended in HD 1, be adopted.

Representative B. Oshiro moved that the reports of the Committee be adopted, and that H.R. No. 200, HD 1; and H.C.R. No. 278, HD 1, be adopted, seconded by Representative Evans.

Representative Takai rose to speak in support of both measures, stating:

"Thank you, Mr. Speaker. I rise in support of both these measures. Thank you. I just wanted to thank both the Chairman of the Economic Development, Business, & Military Affairs Committee, and the Chairman of the Judiciary Committee for moving these two measures along.

"What originally started with a bill and because bills sometimes cost money, this 'morphed' into resos. But the truth of the matter is, there are a number of veterans returning from war who are having some difficulty, and unfortunately for those some of them end up in our Judiciary system.

"We have found out that there is a way to leverage our support for these veterans and to draw down federal funding by as much as 100%. So we're working with the Chief Justice and the Judiciary system along with all of the veteran's organizations and a few others, especially the Mental Health Association of Hawaii. We're working together to see if we can better address the needs of these veterans. I urge my colleagues to support this, and I wanted once again thank the two Chairmen. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.R. No. 200, HD 1, entitled: "HOUSE RESOLUTION REQUESTING THE CHIEF JUSTICE OF THE HAWAII SUPREME COURT TO CONVENE A COMMITTEE TO IDENTIFY AT WHICH POINT VETERANS AND ACTIVE DUTY MILITARY PERSONNEL AND RETURNING RESERVISTS AND NATIONAL GUARD MEMBERS ENTER THE JUSTICE SYSTEM, AND HOW BEST TO ADDRESS THEIR NEEDS, INCLUDING DEVELOPING A VETERANS COURT," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused; and

H.C.R. No. 278, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE CHIEF JUSTICE OF THE HAWAII SUPREME COURT TO CONVENE A COMMITTEE TO IDENTIFY AT WHICH POINT VETERANS AND ACTIVE DUTY MILITARY PERSONNEL AND RETURNING RESERVISTS AND NATIONAL GUARD MEMBERS ENTER THE JUSTICE SYSTEM, AND HOW BEST TO ADDRESS THEIR NEEDS, INCLUDING DEVELOPING A VETERANS COURT," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

Representative Karamatsu, for the Committee on Judiciary presented a report (Stand. Com. Rep. No. 1351-10) recommending that H.C.R. No. 282, as amended in HD 1, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.C.R. No. 282, HD 1, be adopted, seconded by Representative Evans.

Representative Belatti rose to speak in support of the measure, stating:

"Thank you. In strong support and may I submit written comments."

Representative Belatti's written remarks are as follows:

"I rise in strong support of House Concurrent Resolution 282 which requests Congress to pass and send to the States for ratification a constitutional amendment to clarify the distinctions between the rights of natural persons and the rights of corporations. This constitutional amendment would preserve the power of Congress and the States to place limits on the ability of corporations to disproportionately influence the outcome of elections through limitless political expenditures.

"In January 2010, the United States Supreme Court in *Citizens United v. Federal Elections Commission* controversially ruled in a 5 to 4 decision that the government cannot ban corporations from supporting candidates through independent political expenditures. Based on the legal fiction that classifies corporations as “citizens” for certain purposes and treating corporations like natural persons, the Court held that corporations are entitled to First Amendment free speech protections. As a result of this decision, corporations and unions will now be allowed to spend unlimited amounts on independent expenditures from their treasuries.

"Treating corporations as natural persons is problematic and unhealthy for our system of democracy. As Justice John Paul Stevens noted in his dissenting opinion in *Citizens United*, the Constitution permits "restrictions on the speech of some in order to prevent a few from drowning out the many." *Citizens United* will unquestionably unleash an overwhelming flood of corporate spending on federal elections that will threaten the ability of ordinary voices to be heard in the marketplace of ideas.

"By urging and supporting Congress to pass a constitutional amendment to clarify the distinction between the rights of natural persons and the rights of corporations for the purpose of political contributions, our voice, as the Hawaii State Legislature, will join those voices of citizens across the nation who are working to ensure the integrity of our democratic system of government."

Representative Ward rose to speak in support of the measure with reservations, stating:

"I rise in support with very, very slight reservations and basically a footnote. Thank you, Mr. Speaker. To be fair, this reso should read, 'To regulate the expenditure of funds by corporations and unions engaging in political speech.'

"The point being that in 1907, corporations were prohibited by Congress, and until I think recently when they were allowed to do PACs, corporations kind of stayed in the background. Then in 1948 unions were prohibited by Congress from contributing with their treasury funds in campaigns. But then when PACs came in, it was donations and the two have been actively added if you will; the two big money powers are the corporations and the unions. So this one says, let's exclude the unions and only put the corporations.

"So this is half of the pie. Because if this goes through and they only prohibit corporations, it's not going to work either. If we want to get balance, we should make this reso balanced. That's just a historical footnote to say that this will not work if this is the only thing that they do. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 282, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING CONGRESS TO PROPOSE AN AMENDMENT TO THE CONSTITUTION OF THE UNITED STATES TO PERMIT CONGRESS AND THE STATES TO REGULATE THE EXPENDITURE OF FUNDS BY CORPORATIONS ENGAGING IN POLITICAL SPEECH," was adopted, with Representatives Bertram, Hanohano, McKelvey and Sagum being excused.

SUSPENSION OF RULES

On motion by Representative Evans, seconded by Representative Pine and carried, the rules were suspended for the purpose of considering a certain House Bill for Final Reading by consent calendar. (Representatives Bertram, Hanohano, McKelvey, Nishimoto and Sagum were excused.)

FINAL READING

Representative B. Oshiro moved to agree to the amendments made by the Senate to the following House Bill, seconded by Representative Evans:

H.B. No. 1853, (SD 1)

Representative Thielen rose, stating:

"Mr. Speaker, before I can cast a vote on this I wanted to find out whether or not this would prohibit school groups and functions from raising money like at athletic events and etc. And my question is directed to the Chair of Education, to ask if he would respond to the scope of this bill."

Representative B. Oshiro rose to a point of order, stating:

"Point of order, Mr. Speaker. We're not actually on the adoption or the Final Reading yet. We're just on the 'move to agree' motion."

The motion was put to vote by the Chair and carried, and the House agreed to the amendments made by the Senate to the noted House Bill. (Representatives Bertram, Hanohano, McKelvey, Nishimoto, M. Oshiro and Sagum were excused.)

H.B. No. 1853, SD 1:

Representative B. Oshiro moved that H.B. No. 1853, SD 1, pass Final Reading, seconded by Representative Evans.

Representative Thielen rose, stating:

"Thank you, Mr. Speaker. I believe that there are exceptions within the bill. And since it won't go to Conference Committee, I am concerned about whether or not they're broad enough. I was wondering if the Chair of Education could just indicate that?"

Vice Speaker Magaoay: "Will the Chair of Education yield to a question?"

Representative Thielen: "That was my question. I just wanted the exceptions, if he could just indicate that. Thank you."

Representative Takumi rose to respond, stating:

"If you read the bill it says that they can apply for written permission to get an exemption as to whether or not they can sell ice cream or candy."

Representative Thielen rose to speak in opposition to the measure, stating:

"Mr. Speaker, then that means the school would have to go ask, 'Mother May I' from the Board of Education or the Department, which makes it a lot more difficult for the groups to be able to support their activities.

"I believe in the nutritional goal of this, but I do not believe in the 'Mother May I' approach that it takes for the exemptions, so I'm going to vote no."

Representative Marumoto rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I have reservations on this particular bill to prohibit the sale of candy and ice cream and other merchandise on school campuses without the written permission of the DOE, although it allows exemptions. Perhaps I would go along with prohibiting candy, but on the other hand, ice cream I kind of see as a treat that contains calcium. It is also a product that is manufactured or processed locally so I would not like to see a prohibition on ice cream. So because of this concern I have, I just want to express some reservations. Thank you."

Representative Manahan rose to speak in opposition to the measure, stating:

"Mr. Speaker, I'm rising in opposition to this measure simply because I don't think we should be creating policy on this. I think it's a personal choice. If the kids don't want ice cream they can say, no. I ask for additional written comments. Thank you."

Representative Manahan requested that the remarks of Representatives Yamane and Takai be entered in the Journal as his own, in lieu of submitting written remarks.

Representative Souki rose to disclose a potential conflict of interest, stating:

"Yes, thank you very much, Mr. Speaker. Before I cast my vote I have a potential conflict of interest. I'm a member of the Board of Directors of Maui Soda, who produces Roselani Ice Cream and other ice cream items," and the Chair ruled, "no conflict."

Representative Souki continued to speak in opposition to the measure, stating:

"Thank you, very much. I wish to vote no on this measure. The schools don't usually sell Roselani because it's relatively expensive, but to deprive the students from selling ice cream and candy I think is kind of 'Scrooge-like.' Right now when I go to department stores and other super markets, I usually see young people, students, selling candy and other items to the public so they make a little money for the classroom or to help them in the classroom activities.

"So if they need to, they can go and get the Board of Education approval prior to doing that. But they will not know whether they are going to get approved or not. I think it's just going to impede the students from doing this fundraising activity. So with this, I wish to vote against this measure."

Representative M. Lee rose to speak in support of the measure with reservations, stating:

"I have reservations on the measure, just because I'm concerned that this is a money-making venture. But I'm also concerned about what the First Lady is concerned about, and that is childhood obesity. Perhaps we could think about selling fruit at school. Thank you."

Representative Yamane rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I'm standing in opposition with very brief comments. I just wanted to highlight the fact that the Hawaii Farm Bureau, as well as private business, Maui Soda and Ice Works Limited, both submitted testimony in opposition.

"I did want to note that in brief discussions with some of the schools in the past, and those that participate in Parent Teacher Organizations, that when they have football games or certain games in which they sell ice cream, candy, soda and these types of items, some of them are not the most healthy. However, part of their participation is to raise money for these nonprofit organizations or parent groups to help the students.

"For example, moneys that can be raised can be used to help purchase safety equipment for football players. They also can be used to help fund events for the students outside the regular educational format.

"So if you look at the language of the bill it, again as stated by the Chair of Education, that they would actually have to write for an exemption, which then makes it difficult for different groups, parent groups, or nonprofit groups to seek the approval prior to such events. So I think the discretion should be left up to the principal and the school districts, so I'm in opposition. Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise with reservations. I'm for half of this bill and against the other half, Mr. Speaker. Candy, okay we can get rid of candy. There's too much of that. The white sugar, and what it does to your body is bad.

"But the other one. My family is two-thirds Asian, and like many Asian families, have lactose intolerance. My family is lactose intolerant. So my wife makes my daughter eat ice cream so she can get the lactose, the nutrition, from otherwise not being able to drink milk. Now are we making a statement that all the Asian families out there, we don't want your kids to get any nutrition out of any of that while they're in school?

"I don't think that's logical, Mr. Speaker, and I don't think that it's a statement by which, okay candy is there, but I think we crossed the border when we get into ice cream. We're going to look like we're, as my colleague said, the 'nanny state.' Pretty soon we're going to say what kind of string beans, or what kind of *manapua* you can eat. This is never ending, this intrusion of government. Particularly when it gets to this lactose intolerance issue. We're going above and beyond what is an expectation for a state legislature, down at the school level.

"Of course they need better nutrition. Of course they should be mindful of their diets, but I think cutting out ice cream is wrong. Thank you, Mr. Speaker."

Representative Takai rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition to this. Thank you. I voted against this on Third Reading as well. And before the Representative from the 34th District talks about my love for candies and ice cream and things like that, and disparages me about my weight, I want to just say that I don't eat ice cream and I don't like candy. So I don't have a conflict, Mr. Speaker.

"There were two things that the Senate did on this particular draft. The first one, on page two, line ten, was they added the words, 'or permit the sale of merchandise.' I think the concern that I had the last time this came up was whether this bill reaches in and affects the sales for organizations like PTOs, PTAs, sports, affiliated organizations, and I think this change makes it even more clear that yes, it does, because schools permit the sales.

"In the past the wording was, 'operates stores or sell.' Schools didn't operate stores, nor did they sell merchandise. However, on many occasions and in this particular case, they do permit other organizations to sell these types of food-like products on their campuses. So I think this raises significant concerns.

"Number two, on lines 14 to 16, there was a deletion on the Department's requirement to adopt rules. I'm not too sure why that was, but I do have some concerns regarding that because I do think that there needs to be some clearly defined procedures of how organizations or schools, students, or others, need to seek written permission from the Department.

"So those are the two changes that the Senate made and I think that those of us who had concerns the last time, I think have even more concerns this time because of those changes.

"But the other thing I wanted to mention, Mr. Speaker, is that this bill is as a result of Federal Public Law 108-26.5 as it stated in the finding sections. But on line six, that law pertains to food available on school campuses during the school day. That is what the Public Law is focused on. Our change to our State law basically says, on school campuses, before, during, and after school. As you know, there are a lot of sports activities and sports venues, especially on high school campus. It's those types of activities that I believe this particular change affects the most.

"We didn't go to Conference, I'm not too sure why. Maybe we did open and decided that the Senate Draft is okay. I would strongly urge our colleagues to reconsider that decision. Take this to Conference and make sure that we're not doing anything detrimental to our schools. Thank you, Mr. Speaker."

Representative Aquino rose in opposition to the measure and asked that the remarks of Representative Takai be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Takumi rose, stating:

"Thank you very much, Mr. Speaker. I can see this is going to be the highlight of the Education Package this year, engendering more debate than the Board of Education bill.

"Let me clarify, because there seems to be some misunderstanding about what this bill does. Just as an aside, keep in mind children are in schools for 15% of the school year. So as parents and as guardians of our children, if you have concerns, you can feed them whatever you want the other 85% of the year. We're talking about 15% of the time when kids are actually on campus.

"To address the concerns expressed by the Representative from Aiea regarding school events. If you recall in 2008, the Board of Education banned soft drinks. It was a money maker and all the rest of it. But in their wisdom, they said that schools could no longer sell soft drinks in vending machines in order to make money. But if you go to any sporting event, guess what? They sell soft drinks. How does that happen? It's because they were granted permission. If you go to any sporting event at a campus, they sell soda, they sell candy, gum, and all the rest.

"All this bill does, and the reason why we're here today, and I wish I wasn't in a sense, it's because it's in statute. To address the concern expressed by the Representative from Kalihi as to why we're talking about candy and ice cream, it's because in Chapter 302A, Section 11-46, it says schools can only sell lunch, milk, candy, ice cream, and things grown on the campus like produce and what not.

"So all the Department wanted, Mr. Speaker, was to just take out candy and ice cream, and say schools can sell milk, lunch, and products grown at that school. Because if we don't do this, frankly it's a housekeeping measure in my book, then we ought to introduce bills next year that say schools can sell spam *musubi* and sodas and gum, chips, donuts, popcorn, cappuccinos, run a sushi bar on the side. We ought to put all the items that a school can then sell. Because it seems odd to me that we have this little anachronism in the law that says candy and ice cream can be sold on school campuses, but they cannot sell potato chips or gum and all the rest.

"Again I will repeat myself for the last time. If you go to any sporting event, all those items that I just mentioned, with the sushi bars, are actually sold at these events. Thank you."

Representative Souki rose to respond, stating:

"Yes, thank you very much. In rebuttal. Mr. Speaker and Members, first of all, some years ago we gave the Board of Education policy-making power. So there is no reason for us to have legislation and to put it in State law, when the Board of Education themselves can make that particular policy. Again, it's the intrusion of the Legislature over and over again, making laws that the Board of Education themselves can do. So for this matter, I strongly urge the Members to vote this measure down."

Representative Finnegan rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I do agree with the previous speaker, I think from Kahului, and I'd just like to say that if we want to do this right, and we keep the policy in the right area, then what we would do is actually remove or eliminate 302A when it comes to what you can and cannot sell, and leave it to the Board of Education to do. Unfortunately, I don't think the Board of Education wants to take up these kinds of measures to govern the Department of Education and its schools, and that's unfortunate. But it's a sad thing when you have to bring those measures to the State Legislature to get passed. Thank you."

Representative Marumoto rose to speak in opposition to the measure, stating:

"Mr. Speaker, after all the debate I decided to change my vote to no. After listening to the esteemed Speaker Emeritus, I think he has merit. I just want to leave with an Ogden Nash quote. 'Candy is dandy; but liquor is quicker.'"

Representative Ching rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I've been supporting this measure up until now because I did want to see how it came out. I've been a strong person telling people that I don't think we need to have ice cream and candy and all that on campus *per se*. But after school. I'm in agreement with the Representative and I ask that his words again be entered as my own, the one from Pearl City, as well as the Chair of Health.

"That after school, what people do to fundraise, etc., should be what they want to do and it's not that bad. We all know, as in chocolate, as in a lot of things, it's in the proportion. It's in the proportion. It's just, don't overdo it. There's spam *musubi*, there's all these other things that are probably pretty unhealthy. It's all in proportion. So the thing is to take away an opportunity for the children and the activities and all the other things. I agree with the former speakers and I have to regretfully change my yes vote, to a no vote."

Representative Luke rose, stating:

"I'm starving because all this talk of candy and ice cream is making me even more hungry, so I call for the question."

At this time, Representative Luke called for the previous question, seconded by Representative B. Oshiro.

Representative Takai rose, stating:

"Mr. Speaker, point of parliamentary inquiry. I believe the correct process is if there's a motion to end debate and a second, there needs to be a vote to end debate before we go to the roll call or any vote. We need to do that. Thank you."

At 2:04 o'clock p.m. Representative Ward requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 2:06 o'clock p.m.

At this time, the Chair stated:

"Prior to recess, there was a statement made on the Floor regarding the process. After conferring, we'll proceed right now. The motion before this Body now is to take the vote."

The motion was put to vote by the Chair and failed to carry, and H.B. No. 1853, SD 1, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC SCHOOLS," did not pass Final Reading by a vote of 20 ayes to 21 noes, with Representatives Aquino, Awana, Belatti, Berg, Cabanilla, Chang, Ching, Choy, Finnegan, Karamatsu, Keith-Agaran, Manahan, Marumoto, Nakashima, Pine, Souki, Takai, Thielen, Ward, Yamane and Yamashita voting no, and with Representatives Bertram, Carroll, Hanohano, Herkes, McKelvey, Mizuno, Nishimoto, M. ORDINARY CALENDAR

ANNOUNCEMENTS

Representative Ward: "Thank you, Mr. Speaker. Mr. Speaker, I just wanted to acknowledge the great loss of the Polish people during the plane crash of last week when they lost their President, Deputy Prime Minster, their Head of the Federal Reserve, and many, many members of Parliament. Even the 'Rosa Parks' where at the Gdańsk Shipyard, they gave birth to democracy in Eastern Europe.

"So Mr. Speaker, I know it's not a moment of silence, but it's an international acknowledgement of what is a real loss for a country that's been a beacon of freedom, and a beacon of leading democracy in Eastern Europe. Thank you, Mr. Speaker."

Representative Cabanilla, for the Committee on Housing, requested a waiver of the 48-hour advanced notice requirement for the purpose of hearing the following measures on April 14 in Room 325 at 9:10 a.m., and the Chair "so ordered."

SCR No. 93, which is regarding the review of the feasibility of developing single room occupancy dwellings on TOD project.

Representative Shimabukuro: "Thank you, Mr. Speaker. I just wanted to remind everyone that today is the last day to order your Naked Cow butter and cream cheese. We also have rolls and bagels. Please get your orders in by 2:00, and also pay by 2:00 today. Thank you."

The following measures were re-referred to committee by the Speaker:

S.C.R. Nos.	Re-referred to:
103, SD1	Committee on Finance
107, SD1	Committee on Education
108, SD2	Committee on Education
110, SD2	Committee on Finance
140, SD1	Committee on Education
167, SD2	Committee on Finance
179, SD2	Committee on Finance
194	Committee on Legislative Management
195, SD1	Committee on Education
202, SD1	Committee on Economic Revitalization, Business, & Military Affairs

UNFINISHED BUSINESS

At this time, the Chair stated:

"Members, at this time we are on page 2 of the Order of the Day. Before going on to the Order of the Day, the Chair would like to recommend that for Conference Committee Report No. 2-10, HB No. 1907, HD 1, SD 1, CD 1, we will deliberate this measure at the end of the calendar.

"On page 3, Conference Committee Report No. 52-10, SB No. 2405, SD 2, HD 1, CD 1, deferred to April 19.

"And finally, Conference Committee Report No. 53-10, SB No. 2402, SD 1, HD 1, CD 1, this measure will be recommitted. So at this time, the Chair will be taking Conference Committee Report No. 53-10 out of order."

Conf. Com. Rep. No. 2-10 and H.B. No. 1907, HD 1, SD 1, CD 1:

By unanimous consent, action was deferred to the end of the calendar.

Conf. Com. Rep. No. 52-10 and S.B. No. 2405, SD 2, HD 1, CD 1:

By unanimous consent, action was deferred to Monday, April 19, 2010.

Conf. Com. Rep. No. 53-10 and S.B. No. 2402, SD 1, HD 1, CD 1:

Representative B. Oshiro moved to recommit Conf. Com. No. 53-10 and the attached proposed CD 1, on the disagreeing vote of the Senate to the amendments proposed by the House in S.B. No. 2402, SD 1, HD 1, to the Committee on Conference, seconded by Representative Evans.

Representative Ward rose to speak in support of the motion to recommit, stating:

"Mr. Speaker, I stand in favor of the motion. It's an excellent motion and I think some jobs may not be killed because of this. I hope it gets recommitted for a long, long time. Thank you."

The motion was put to vote by the Chair and carried, and Conf. Com. Rep. No. 53-10 and the attached proposed CD 1, on the disagreeing vote of the Senate to the amendments proposed by the House in S.B. No. 2402, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," were recommitted to the Committee on Conference, with Representatives Carroll, Har, Herkes, Marumoto, Souki and Takumi being excused.

SUSPENSION OF RULES

On motion by Representative Evans, seconded by Representative Pine and carried, the rules were suspended for the purpose of considering certain House Bills and Senate Bills for Final Reading by consent calendar. (Representatives Har, Herkes, Marumoto, Souki and Takumi were excused.)

UNFINISHED BUSINESS

Conf. Com. Rep. No. 3-10 and H.B. No. 2866, HD 1, SD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 2866, HD 1, SD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Pine rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2866, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Final Reading by a vote of 46 ayes to 2 noes, with Representatives Finnegan and Pine voting no, and with Representatives Har, Herkes and Souki being excused.

Conf. Com. Rep. No. 4-10 and H.B. No. 2421, HD 2, SD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 2421, HD 2, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker. Conf. Com. Rep. No. 4. That's the barrel tax, right? Mr. Speaker, I rise in opposition. Mr. Speaker, this has changed slightly. It's still job killer number one as it was when it first came in, even though now 60% of the funds go into the general fund, so it's a bit of a misnomer to call it a food and security bill.

"But Mr. Speaker, I would draw your and the Members' attention to the Republican balanced budget that was sent to everyone. If they looked in their email box it would show that the budget can be balanced without this and all the other 15 job killers, or the 1% GET tax. And if you challenge the logic of that, we've actually given an Excel spreadsheet by which you can click on and keep changing the ending balance.

"I hope an ongoing dialogue, particularly the Finance Committee members and the Chair will allow us to pick and choose very wisely, not just surgically, but laser-guided cuts to our budget, additions to our budget, knowing that this one will be superfluous, Mr. Speaker. So I ask everybody to have a real look at that Republican Balanced Budget and give us feedback. Thank you."

Representative Thielen rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Thielen's written remarks are as follows:

"I am voting against HB 2421, the "barrel tax," because it gives 60% of the increase to the general fund, with only 10% going to the Energy Systems Development Special Fund and 15% to the Energy Security Special Fund. Real leadership requires us to adequately fund Hawaii's renewable energy future and actually provide the financial means to implement the goals of the Hawaii Clean Energy Initiative. The HCEI calls for Hawaii to use 70% clean energy by 2030, weaning us off our addictive 90% dependence on imported fossil fuel to power our Islands. Bold steps are needed to accomplish this goal. The 'baby steps' funded by HB 2421 are unacceptable.

"Mr. Speaker, I devoted over 20 years in my legal practice to environmental law. I have been one of the Legislature's strongest advocates for renewable energy, and particularly for the emerging technology which taps Hawaii's powerful, constant and clean ocean waves. We need vision and leadership to create the environment which welcomes new renewable energy companies and their attendant good-paying jobs. 'Baby steps' don't accomplish this. 'Baby steps' simply keep the program on 'life support.' In contrast, countries which really show commitment to renewable energy are putting funding behind their efforts.

"Hawaii's lack of energy security mandated that we do more. As the most oil dependent state in the nation, the one which imports from foreign nations, many of which are unstable, and the one that exports $7 billion a year from our economy for this polluting product, we should have stood firm and voted for all of the new barrel tax to be allocated to implement Hawaii's renewable energy future. As noted by Robert Harris, Director of the Sierra Club, Hawaii Chapter as reported by Associated Press, in Forbes.com: "The proposal creates a new stream of money for renewable energy, but in relatively small amounts that won't do much to make Hawaii self-sustaining and less dependent on foreign oil. The bill isn't primarily accomplishing those goals."

"Mr. Speaker, I am sorely disappointed in this Body. The public expected and deserved more from us."

Representative Ching rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in opposition to H.B. 2421 HD2 SD1 which removes language suspending tax when the balance of Environmental Response Revolving Fund balance hits $20 million, expends the scope of the Energy Security Special Fund, and increases the Barrel Tax from 5 cents to $1.05 with certain specified allocations.

"As my record shows, I have always been a stalwart of agricultural and alternative energy initiatives. While I support the establishment of a task force with DBEDT to facilitate the accelerated adoption and completion of renewable-energy projects and programs, I cannot support a barrel tax increase, as such a tax will affect businesses, food, and ultimately every aspect of society. This is not the right time to implement taxes that so direly affect our citizens, as many are already suffering from our State's economic crisis. Thank you."

Representative Pine rose to speak in opposition to the measure, stating:

"Just in opposition, Mr. Speaker. When I first started this Legislative Session, I had a town hall meeting. It was just regular folks from my community who came and we talked about different ways to balance the budget. And they said, 'Whatever you do, since many of us are really struggling, don't pass any bills that would affect the cost of milk, affect the cost of food, or would affect gas.' Because the people of the Leeward Coast already pay the most for gas, because they drive the most.

"This is one particular bill that started off with a lot of hope. A lot of hope by environmentalists that wanted to do great things for the State of Hawaii, and unfortunately it's been 'hijacked' by people who want to take money from the people of Hawaii. So I just simply cannot support something like this, a tax like this."

Representative Tsuji rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. Mr. Speaker, yes, I agree this bill starts with a whole lot of support and a whole lot of hope. The hope is from today and for the future. This provides for a long-term energy and food security program. Energy is a major component of this bill, but there's also an agricultural element and I would like to focus on that.

"I believe the State is becoming more aware of food security issues and would support such initiatives towards this goal for hope for the future, Mr. Speaker. Crop fields or cattle stock will not simply appear when our needs become sudden. These endeavors must be nurtured and cultivated, but our agricultural industry is struggling under the dire conditions of today, such as our bleak economy, prolonged drought conditions, and yes, increased fuel and also production costs.

"This specific percentage of assessment will be earmarked for agriculture development and food security programs, this Food and Security Special Fund, and go towards agricultural products including those intended to increase local production or processing in order to reduce imported food, fodder and feed for our isolated State.

"This is a very comprehensive bill. It combines energy and food security, and the plan has very important merits for our conservation, Mr. Speaker, to meet Hawaii's long term food and energy security needs. It is important that there is a balance between agriculture and energy production.

"We all recall a similar bill that we passed last year, Mr. Speaker. This was vetoed. I hope, and yes I agree, that this bill has hope not only for today, but for the future. I thank you for your support."

Representative Coffman rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in strong support of House Bill 2421. Thank you.

"Mr. Speaker, the Conference Draft of this bill before this legislative body does not meet the expectations of most supporters. It is a compromise born out of the deep recession that has gripped every facet of our government.

"Mr. Speaker, while we have not been able to direct all of the funding to our energy and agricultural special funds, we now have the ability to start funding our journey to energy and food sustainability. We can go from zero support, to $8.8 million to support economic development for Hawaii.

"Mr. Speaker, the Energy Systems Development Special Fund will be able to use $2.2 million as shared cost funds to bring in an additional $8.8 million; a 4 to 1 federal match for project dollars that will test and evaluate the commercial viability of renewable energy technology and bio-fuel systems.

"Mr. Speaker, this legislative body must also realize that the $13.2 million remaining in the general fund and not allocated to our special funds are not being misdirected.

"Mr. Speaker, the billions of dollars in revenue loss that our State has experienced since 2008 has impacted our energy and agricultural programs; programs that are supported by the general funds of our State. The Agricultural Department has had staffing and operating fund cuts to the point that many programs are in name only. Day-to-day operational support does not exist. The Energy Division only exists because of federal funding from the Petroleum Violation Special Fund and American Recovery and Reinvestment Act funding. Funding that runs out after next year.

"Mr. Speaker, the $13.2 million that will remain in the general fund from this revenue source will allow us to fund agricultural and energy programs for Fiscal Year 2011. Yes, we wanted to use all of the funding to move forward with our energy and food security programs. However, with our current fiscal problems, we must be able to hold on to our current programs and not lose what we have gained.

"Mr. Speaker, everyone should be aware that general funds currently support tax credits and refundable tax credits for energy efficiency and renewable energy products. Current figures are not available. However, the State's general funds supported over $6 million worth of credits in 2006. With the added refundable tax credits starting this year, we could be approaching a general fund liability of over $10 million.

"Mr. Speaker, it is very clear that all of the revenue generated by this bill will directly or indirectly support the purpose of this bill. Food and energy security and sustainability will be supported. Economic development based upon retaining billions of dollars now being shipped off-shore will be supported.

"Mr. Speaker, I want everyone here to understand that the future economic viability of our State is absolutely dependent upon our ability to reduce our use of oil. Crude oil prices in the last 12 months have gone from $44 per barrel, to $85 per barrel. Crude oil prices are forecast to be around $100 per barrel by the end of this year. As the world recovers from this global recession, demand for crude oil will rise and crude oil prices will increase. This pattern will continue long into the future.

"Mr. Speaker, I ask you and everyone in this Chamber to support this bill; a bill that is not about today or even tomorrow. This bill is about the future long-term economic viability of our State. Thank you."

Representative Morita rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support of this measure. Mr. Speaker, in the parlance of the Representative from Hawaii Kai, non-support, may I repeat, non-support of this measure is economic development and job killer number one. This bill should not be viewed as a tax, but a retention fee. A retention fee to reduce the over $8 billion each year that we ship offshore to pay for our imported fuel and food.

"One year ago when we voted on a similar measure which was vetoed by the Governor, and that was House Bill 1271, where all the funding was dedicated to energy and food security, we were recovering from an oil price spike which peaked at $145.29 per barrel on July 4, 2008. When we took that vote on House Bill 1271, crude oil was hovering at about $51 per barrel. Today the price of crude oil is at $86 per barrel. The past 52-week pricing ranged from $44.45 to $86.42 per barrel, and the one year forecast is projected at $99 per barrel.

"As the global economy improves and demand increases, the oil pricing trajectory is upwards. Mr. Speaker, as politicians, we can all agree that there is never a good time to raise taxes. It is very easy, especially in an election year, to chant, "No new taxes." During a time of recession, we question ourselves about the wisdom of raising taxes. However, Mr. Speaker, in dealing with energy issues, the window of opportunity for Hawaii is limited and getting smaller each day, and it's going to cost money. If we want to put our energy and food security strategies into action and implementation, we have to pay for it somehow. Doing nothing is not an option, not if we call ourselves leaders.

"As an isolated archipelago, we are vulnerable to fuel and food supply disruptions and global forces beyond our control. A transition to a clean energy economy and a strategy to reduce both our fuel and food imports, which is funded through this tax increase, puts Hawaii's destiny more

under our control. It will take long-term planning, a smart strategy, public-private partnerships, an infusion of new technology, smart investments and political will to achieve this strategy. However, we can only achieve this strategy with political will and putting our money where our mouth is.

"Mr. Speaker, the economic development opportunities are in the energy, agriculture, health and education sectors. However, the energy sector is the bedrock of our economy. Stable, predictable energy pricing is a major factor that affects each sector of our economy and offers an opportunity for economic growth. Moreover, Mr. Speaker, the energy sector moves hand-in-hand with information technology and communications, as technological integration require software and communications support.

"Hawaii should be the center of research and development, technology validation integration for a clean energy economy transformation. But we can only be taken seriously and achieve these goals if we, as the residents and businesses of this State, make the needed long-term commitment and investment by again putting our money where our mouth is.

"Colleagues, don't be 'pennywise and pound foolish' on this measure. Mr. Speaker, the reality is that if this bill does not pass, when the ARRA funds run out, DBEDT's Energy Division will not have the funds for staff to drive the Hawaii Clean Energy Initiative next year. The State will not have any funds available to cost share any Department of Energy awards which will limit our ability to compete for federal funding, and the agricultural sector will continue to limp along with further declining resources."

Representative Takumi rose to yield his time, and the Chair "so ordered."

Representative Morita continued, stating:

"Thank you. Mr. Speaker, if this bill does not pass, what I fear the most is that clean, renewable energy and energy efficiency will only be available to those who can afford to make the transition. As the cost of fossil fuels rise, it will be those who can least afford those rising costs that will ultimately bear the burden of maintaining an antiquated electricity and transportation infrastructure.

"One of the key objectives of the Hawaii Clean Energy Initiative is grounded in social and economic justice; that is, we provide for a strategy that moves our entire community forward to secure the benefits of a clean energy economy and food security transformation for each person and business throughout Hawaii. Mr. Speaker, the tax is broad-based, a burden shared by all and a tax that can be easily offset by efficiency and conservation measures.

"Mr. Speaker, I will put this bluntly because I don't know of any other way I can describe this. When the Lingle Administration leaves office, the ARRA funds allocated for energy and the Petroleum Violation Trust Fund, which has supported the Energy Division for several decades, will be depleted and sucked dry. In dealing with critical issues like energy and food security, these are long-term strategies that cannot be planned for or implemented by election cycles or a single person's action for a large scale transformation to occur. We all have an on-going and important role to play in this endeavor.

"Mr. Speaker and colleagues, today we have the opportunity to look at our children and grandchildren in the eye and say, 'I voted in favor of this bill that will change the course of Hawaii's destiny by working to reduce Hawaii's dependency on imported fuel and food. I put my money where my mouth is when I voted for a tax increase to ensure energy and food security for Hawaii despite my fear of how voters will react in the fall elections, because it is the right thing to do for the future of Hawaii.' We can say that, 'I am a leader in this State, helping to achieve energy and food security, to secure a healthy, safe and prosperous future for our families and our businesses.'

"So Members please, I ask for your vote on this measure. Thank you."

Representative Pine rose to respond, stating:

"Just in rebuttal, Mr. Speaker. I have a lot of respect for the previous speaker. I think she's amazing and really knows what she's talking about in this area, but unfortunately all those wonderful things that she said that this bill does, it doesn't do that anymore. It's just all about simply a tax increase on the people of Hawaii. The majority of the money that's raised from this tax increase is going to go to the general fund, and not for any of the wonderful things that she talked about. Only a smaller portion will be.

"When I talk about this bill being 'hijacked,' that's the reason. We're hijacking the hopes and dreams of people who've worked so hard on this issue and we're sticking it to the people of Hawaii and increasing taxes on a barrel of oil.

"I too will stand by my vote because many people will use this against me. That I'm against the environment. But in the end, I too am committed to the people of my district who I promised that I would never give a phony bill and say it did something and vote for it when it didn't do what I told them it would do. So I cannot in good conscience vote for a bill that is just simply a tax increase on the people of Hawaii and that's it."

Representative Evans rose to speak in support of the measure, stating:

"Thank you. I rise in support. One thing that was very clear by the constituency in West Hawaii is that we have to move to renewable energy. It is so high on their list, and they're saying, 'You have got to do this. What is wrong with you people? Haven't you gotten the message? We have got to get off oil. We have to go to renewable energy.'

"I do not agree with the previous speaker that this is a phony bill. This is a bill that really hits the mark about, we have got to move forward. We have got to do this and the time is now. I totally agree with the Chair of Energy and Environmental Protection, and Mr. Speaker, may I have the words of the Chair in the Journal as my own.

"Thank you. I just want to also point out that some of the funding for the Department of Agriculture, and DBEDT and some of the people that would support the implementation of this will be funded out of the general fund. So to say that putting money in the general fund isn't going to be used for this, I think is really inaccurate. Mr. Speaker, I just want to set the record straight that this bill is about moving us forward, and that's what the public wants.

"I do believe it's a job stimulus, job creation bill also, because we have people coming to Hawaii that are investing their money now, believing in what we have to offer in Hawaii. We have the water. We have geothermal. We have solar. We have wind. We've got all the technologies, and they're coming here. They're investing because they believe in it too. This is telling everybody that we also believe in it. Thank you, Mr. Speaker."

Representative Ward rose to respond, stating:

"Just a brief rebuttal. Or let's say, a brief reminder to begin with. First of all, rather than denigrate, I think we should commend the Governor for her Hawaii Clean Energy Initiative which Mr. Speaker, the reality is this Floor voted that and its series of bills down. Now we're pounding our chests, taking credit for all the good things we're doing when in fact she took this and said there's $7 billion leaving every year. Let's put that every year lower, and lower, and lower to where in 30 years, we're going to have it down to 70% renewable energy. The bills that she put in place, we pushed aside. So I think we have to be honest with what we did and what she's done and what monies have been coming in because we signed an agreement with the Department of Energy, which that agreement is now going on."

The Chair addressed Representative Ward, stating:

"Representative Ward, would you confine your remarks to the barrel tax that is before us which is $1.05 per barrel, and how it is split between programs."

Representative Ward continued, stating:

"Which is the second part of the rebuttal, and that is, we have to be aware of what we're doing, Mr. Speaker. I mentioned on the Floor last week that we are now second in the world for the cost of doing business. If you're someone without the means to even make your business work, the attractiveness of coming to Hawaii for business is going to be very low, and 80% of our jobs come from the private sector.

"But even if it has nothing to do with the business community, Mr. Speaker. It just has to do, as my colleague from Ewa Beach said, about survival. You know, we have 300,000 people who are dependent upon some kind of a government help for them to survive. To keep their nose above water."

Speaker Say: "Representative Ward, please confine your remarks ..."

Representative Ward: "Mr. Speaker, we have to be considerate. Mr. Speaker, this is a tax increase, and it's going to make the cost of living increase and it's going to hurt the poor people. That's the bottom line of it. We have to be aware when we vote on these things. We can talk about all the nice things about it, but we've got to remember the guys who don't have the money; this increases their food, their gas, and everything else. That we were just not doing anything to hurt them. We've got to keep our eyes open, Mr. Speaker. That's the bottom line. We have to be aware of what we're doing. We're already the second in the world. It's expensive to live in Hawaii. Thank you, Mr. Speaker."

Representative Tokioka rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. May I ask that the comments from the Representative from Hanalei be inserted into the Journal as if they were my own? Thank you," and the Chair "so ordered." (By reference only.)

Representative Berg rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise with troubled opposition. We're being told often that half a loaf is better than no loaf at all. I wanted to share just a moment, the trouble I've had thinking about this bill. Because last year when we did pass HB 1271 and it was vetoed, it was the kind of bill that we're discussing in terms of content here. Unfortunately the Executive Branch's perspective about what leadership means and the content of that precluded us from having that pass.

"So my concern with this particular bill is not in the content, but rather in the allocation. I've polled my district. I've polled other districts. Citizens are not adverse to raising taxes if they know more clearly how those taxes will be used and how it will be measured. I completely and thoroughly appreciate the Chair, Vice Chair, and the other Members of this Body who have worked so diligently to uphold even the little bit that's left. There are few of us here who would disagree with the merits of the bill, and the trouble I have is that I would have liked us to be more bold, more courageous. I look forward to the following bills coming up that will demonstrate the leadership that this Body can provide. Thank you."

Representative Ching rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. Thank you, Mr. Speaker. First of all, I think it's well known my support for the environment and alternative energy, for agriculture. But call it a retention fee. Call it whatever you want to call it. It's still a tax on our people and a tax on our businesses when they can least afford it at this time. I just think that it's a bad time to be doing something like this. I know that our Legislature can think of better ways to accomplish the ends that we want to achieve in both agriculture and in the environment.

"I want to ask that the words of the speakers from Ewa Beach and Hawaii Kai be entered as my own."

Representative Takai rose to speak in support of the measure, stating:

"Thank you Mr. Speaker, I'd like the words of the Chair and the Vice Chair of the Committee entered into the Journal as if they were my own. In support, Mr. Speaker.

"Just briefly Mr. Speaker, you may have known that I was fortunate, my family was fortunate to be able to put in a photovoltaic system late last year. I just received my electric bill for last month and it was $18. Months ago I was paying a bill as high as $160 and $170. When you take a look at spending $7 to $9 billion each year and having all of that money just escape us and leave Hawaii, I think we all have to be concerned.

"But the reason why I bring my situation up as an example is I think in order to get to the point where everybody in this State can benefit from the harnessing of this free energy that we see each and every day from Hawaii, through the sun, or through the wind, or through the waves. We need to help, and the best way we can help is to create incentives.

"So I look at it as an opportunity to give back to the general fund the support that the general fund has given in the area of food and energy security. If you take a look at that, I think we would all agree that much more than what is going into the general fund is being taken out for this effort, and I think if you look in total we all agree that we have to, soon, rid ourselves of the handcuffs that $7 to $9 billion that is placing on our economy.

"We are the only state that has this challenge. This serious challenge of losing billions to others and we've got to change this and I think this particular measure does that. Thank you, Mr. Speaker."

Representative Tsuji rose to respond, stating:

"Thank you, very much. In rebuttal Mr. Speaker. To those who may comment that, who do we select when crises occur. And our being so isolated here in the State of Hawaii. History has proven it already. Go to the energy side, when we have a crisis. Who lines up at the gas pump relying on imported fuel? It is a crisis situation, a panic situation. We as the public, when there's a food shortage or when there's a crisis, who goes and prays that they can have a half of a loaf of bread? It is we, Mr. Speaker, whether it's energy consumption or fuel consumption, or even food consumption.

"Mr. Speaker, this bill, yes, it may have been, to use the term, 'morphed,' but we took a little different direction in trying to see and being futuristic. A percentage of this, yes I agree, will go to the general fund. In the next two fiscal years, anywhere from the lower $20-something million, to mid $20-something million. That will go to the general fund and I say its part of the compromise. But this in turn will help and revert to supplement and support energy and environment and food supply and food resources that we so desperately and direly need. Please, Mr. Speaker, lead us into the support of this legislation. Thank you."

Representative Belatti rose in support of the measure and asked that the remarks of Representatives Morita and Coffman be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Finnegan rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Finnegan's written remarks are as follows:

"Mr. Speaker, I rise in opposition to HB 2421. This increase in the barrel tax, while masquerading under pretenses of energy and food security, is nothing more than a tax increase to fund the general fund. We need to be honest about what this measure is and what this measure will mean for Hawaii's residents. Although the Legislature may see this measure simply from the "revenue generating" perspective and maintain that consumers will only see a few cents difference, the truth is that consumers will be impacted at all levels.

"Energy is a factor built into the costs of everything: gas, electricity, transportation, and commerce. Realistically, Hawaii's residents are going to face an increasingly crushing tax burden with the enactment of HB 2421. Rather than increase the cost of living in Hawaii, the Legislature should be focusing on reinventing government and cutting the costs and expenditures of government."

Representative C. Lee rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative C. Lee's written remarks are as follows:

"It is unfortunate that so much of the funding produced by this bill will not be going directly toward energy independence, but given the economic downturn the State is in, I understand that those funds will be going to fund other important issues like health services and schools.

"It is important that we establish a source of funding for the renewable energy programs and services now while we still have the opportunity to receive federal matching funds of at least $4 for every $1 Hawaii contributes toward renewable goals. We cannot allow the opportunity to move away from imported oil to pass us by. As the cost of oil continues to inexorably climb, the future of our economy, and the success of our next generation depends upon it."

Representative Morita rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Morita's written remarks are as follows:

"Mr. Speaker, thank you for the opportunity to make additional comments on House Bill 2421. With all due respect to the speakers from Hawaii Kai and Ewa, I find their remarks disingenuous as they both voted against House Bill 1271 last year when all of one dollar increase went to energy and food security programs. I can understand when a legislator is straightforward in their opposition to tax increases, but one should not 'sugar coat' their opposition by saying if only 100% went to energy and food security when the record is quite clear there was no support there either.

"Mr. Speaker, I want to reiterate that next year, should the Governor veto this measure and the Legislature fail to override this veto, all of our efforts in the Hawaii Clean Energy Initiative may come to a halt. For the past three years we have been riding on the U.S. Department of Energy's coattails, where millions of dollars have been invested in Hawaii to launch the HCEI through cash and technical support. Unfortunately, the State's financial support was a drop in the bucket and did not commensurate with that of the federal government. As the Department of Energy regroups to fund Secretary Chu and President Obama's key renewable energy priorities, we may see a drop in the feds commitment to Hawaii, primarily because we have not paid our fair share. I am sure that Governor Lingle and I are equally passionate about moving Hawaii to a clean energy future, but I am realistic and pragmatic that such a future goes way beyond a single Administration or Legislative Session. And, such a commitment takes not only political will, but money too.

"Therefore, Mr. Speaker, leaders from the Governor on down need to put their money where their mouth is if we are to achieve a clean energy future and food security and sustainability for Hawaii.

"Mr. Speaker, I would also like to resubmit my Floor remarks for House Bill 1271 which is the bill the Governor vetoed last year on this very subject. Everything I said that day is still relevant to the decision we are making today on House Bill 2421.

Floor Remarks – Representative Hermina Morita
House Bill 1271, HD3, SD2, CD1

Mr. Speaker, I rise in support of this bill. When we passed the bottle bill in 2002, I remember Speaker Calvin Say looking at me and saying, "this one is for the children." I truly appreciate the support I have I have received from this body's leadership and my co-chairs and conference committee members because this bill is a really big one. We act on this measure not only for Hawaii's children but for all children throughout the world. This dedicated tax is an investment to make Hawaii the model for energy and food sustainability which the world can look to. Achieving energy and food security for Hawaii is a long-term strategy which takes resources for implementation. We can talk all we want about our desire to achieve energy and food security, but as my trusty vice-chair, the Representative from Kona, pointed out, without dedicated funding it will be just talk with no action.

New York Times columnist, Thomas Friedman sums our situation up pretty succinctly in his latest book, *Hot, Flat, and Crowded: Why We Need A Green Revolution And How It Can Renew America.*

Let me paraphrase what he says:

"Unfortunately, up to now we have been trying to solve the problems caused by the Dirty Fuels System piecemeal, one at a time, instead of trying to create a new system to replace it. The result has been that as we try to fix one problem, we end up creating or exacerbating another. We need a whole new system for powering our economy. The only way America will remain a big power and big player in the global system is if it is big in big things. And there will be no bigger undertaking in the world we are heading into than the production of clean power, energy efficiency, and protection of our forest, plant, and animal heritage. . . Green is the new red, white and blue.

Mr. Speaker, whether this body realizes it or not our journey to this point began almost forty years ago. In 1970 at the Governor's Conference on the Year 2000, a Hawaiian woman named Pilahi Paki spoke spontaneously to a room filled with community, educational and legislative leaders. Eloquently and simply, she told them that aloha, her ancestral legacy, is meant to be shared.

She said, "*Aloha is the coordination of mind and heart . . . it's within the individual. It brings you down to yourself. You must think and emote good feelings to others."* Prophetically, Kupuna Paki told the attendees "…in the next millennium, the world will turn to Hawai`i in its search for world peace because Hawai`i has the key…and that key is ALOHA."

Kupuna Paki passed away in 1985, however, her legacy still exists. Acting upon her message, the "Aloha Spirit" law was passed in 1986. As a model law for the world, it can serve the greatest number for its greatest good. The world is in dire need to experience *Aloha* and to learn how to apply *Aloha* in our daily lives. And now we even have a great ambassador of Aloha, with all due respect, not Kaniala - Danny Kaleikini, but the President of the United States. Respect for nature, universal human rights, economic justice and a culture of peace. These are the kind of values we share and these values can be embodied in a single word, Aloha. Aloha is the foundation of any community.

Mr. Speaker, one of ways to achieve Aloha worldwide is through renewable energy. Let me try to explain.

In my view of the world, specifically from the perspective as Chair of the House Energy & Environmental Protection Committee, I see energy issues as a root problem contributing to disasters like September 11 and the wars in both Iraq and Afghanistan. Former CIA Director, Jim Woolsey, describes our national energy dilemma as malignant and malevolent. Malignant because of the cancerous effects of climate change and a weakening economy and malevolent as our over-dependency on middle east oil feeds into middle east regimes that condone terrorist ideologies.

However, I also see energy, that is renewable energy, as an avenue to peace . . . thus placing us in Hawaii at a very critical juncture to become the premier demonstration site for clean energy systems and the model for the rest of the world.

The energy industry is facing something that has already happened to the telecommunications industry and within information technology – decentralization and miniaturization. These same trends are happening in the energy sector and the most significant change is how energy is generated and distributed which can ultimately result in the decentralization of political power affecting individuals, communities and countries.

For example, today, with available energy technology and emerging technology, this decentralization is as small as a person or business to

function completely independent from the electrical transmission grid and the monopoly public utility. On a larger scale, in a fossil fuel based economy the current political power is as influential as countries that have fossil fuel resources, such as the members of OPEC, over those countries that are dependent on imported fossil fuels for electricity and transportation needs like the United States, Japan and many European countries. However, with renewable energy, the balance of power has the potential to shift or become neutralized because unlike fossil fuels, some form of renewable energy can be found in most parts of the world. So there is no doubt that renewable energy and emerging technology is a major threat to the way current oil rich countries and multi-national corporations function economically and politically.

But, unfortunately, the quest for power – both in the energy sense and political sense – leave many people behind. And, those left behind are the incubators of discontent that jeopardize not only our efforts for peace and quality of life but also assurances for a clean and healthy planet.

Through renewable resources and the advancement of sustainable technologies there are very few reasons why all areas of the world cannot improve their standard of living. I see renewable energy as providing clean fuel for cooking or heating needs to improve indoor air quality – rather than scouring for pieces of manure, coal or wood to burn. Rather than cutting down stands of vegetation for fuel, which could lead to soil erosion and threaten watershed/recharge areas, time could be spent more productively towards sustainable cultivation. Rather than hauling water in containers – providing water pumping and delivery systems and hopefully, indoor plumbing systems as well as water purification and sewage treatment and solid waste disposal to provide for sanitary conditions. Therefore, renewable energy is a pathway to peace.

Mr. Speaker and colleagues, this bill symbolizes a monumental opportunity for Hawaii. For those concerned about the impacts to our Hawaii families, I urge that the focus be put on how this tax can be offset through energy efficiency measures and perhaps next year targeted tax credits to help alleviate any burden to our Hawaii families. For those wondering about the nexus between a barrel of oil and food, I urge them to read the *Omnivore's Dilemma* by Michael Pollan.

This bill symbolizes and works toward an investment in the future of children and grandchildren for a peaceful, healthy and prosperous world I urge my colleagues' full support and hope you are all prepared to override the Governor's threaten veto of this measure."

Representative Carroll rose in support of the measure and asked that the remarks of Representative Morita be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Ward rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ward's written remarks are as follows:

"Mr. Speaker, I am presenting written comments in opposition to HB2421, which increases Hawaii's barrel tax from $.05 per barrel to $1.05 per barrel in order to promote the State's food and energy security. This bill was referred to as "Job Killer #1" in previous speeches.

"Although I strongly support self-sufficiency and clean energy initiatives, I strongly oppose raising taxes, particularly in this economy. The last thing we should be doing this Session is increasing taxes, especially on something as pervasive and important as oil. A barrel tax increase will cause the price of almost everything in the State to increase. This will cause additional financial hardships to families that are already struggling to get by.

"I also oppose HB2421 because only 40% of the tax revenues will be used for the special fund, while 60% will go toward Hawaii's special fund. If legislators were serious about the environment, 100% of the funds would be used for the many worthy causes mentioned in the bill, not less than half. This bill is simply hiding a drastic and unnecessary tax increase behind a good cause.

"While protecting the environment is certainly important, it does not justify increasing the barrel tax by 2000%. For these reasons, Mr. Speaker, I oppose HB2421."

Representative Wooley rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Awana rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support and I'd like to enter written comments and ask that the comments made by the Chair from EEP, as well as the Representative from Pearl City except for the portion relating to having a photovoltaic system on his household, be entered into the Journal as if they were my own. Thank you."

The Chair addressed Representative Awana, stating:

"Representative Awana, with your indulgence, why don't you incorporate the comments of Representative Coffman and Representative Tsuji as part of our overall remarks so that you cover both Ag and Energy."

Representative Awana: "Yes, Mr. Speaker. Thank you. I shall do that instead of submitting written comments. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2421, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO GOVERNMENT," passed Final Reading by a vote of 37 ayes to 11 noes, with Representatives Berg, Brower, Ching, Finnegan, Marumoto, Nishimoto, Pine, Thielen, Wakai, Ward and Yamane voting no, and with Representatives Har, Herkes and Souki being excused.

Conf. Com. Rep. No. 5-10 and H.B. No. 1985, SD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1985, SD 1, CD 1, pass Final Reading, seconded by Representative Evans.

At 1:58 o'clock p.m. Representative Takai requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:59 o'clock p.m.

Representative Belatti rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ching rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in reservation to H.B. 1985 CD1, which repeals the deduction from taxable income for amounts given as political contributions; increases the tax on cigarettes and little cigars by one cent for sales on or after July 1, 2010; and temporarily increases certain insurance fees.

"While I support this measure for its repeal of tax deductions for amounts given as political campaign contributions, my reservations on this measure rely on the section which temporarily doubles fees under certain HRS sections. As stated by the Department of Taxation, "increasing the insurance premiums tax as proposed in this measure will result in an indeterminate revenue impact, as drafted, due to blank amounts." Thank you."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Finnegan rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Finnegan's written remarks are as follows:

"I rise in opposition to HB 1985. This measure repeals the deduction from taxable income for amounts given as political contributions, increases the tax on cigarettes and little cigars, and temporarily increases certain insurance fees and specifies that the increased fees be deposited equally into the Compliance Resolution Fund and the general fund as an insurance license and service tax.

"Residents of Hawaii already pay some of the highest insurance premiums in the nation and taxing them additionally will only drive the costs higher. This is a cost that is going to be paid for by consumers at a time when they can least afford it. Mr. Speaker, as leaders in government, we need to find creative solutions to these financial challenges, not merely resort to increasing the taxes on everything to pay for a government that we can no longer afford."

Representative Pine rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Takai rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. I apologize, but the Chair of Economic Development and Military Affairs and I had to go up to open a Conference at 2:00 so I wasn't here for the discussion, but I do need to request a ruling of a potential conflict. Mr. Speaker, this bill raises insurance fees by double and I am a broker. Thank you," and the Chair ruled, "no conflict."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1985, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Final Reading by a vote of 44 ayes to 4 noes, with Representatives Berg, Finnegan, Marumoto and Pine voting no, and with Representatives Har, Herkes and Souki being excused.

Conf. Com. Rep. No. 51-10 and S.B. No. 2650, SD 2, HD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2650, SD 2, HD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Mizuno rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Your Committees on Human Services and Health had briefings on the proposed EPOD measure. We had a tremendous amount of briefings, legislative briefings on this subject, related to the reorganization of the Department of Human Services, Mr. Speaker. These briefings provided a bounty of information. This bill is a result of those briefings. We went to Maui and we went to Kauai. We went to the Big Island and we heard what not only the Department of Human Services employees had mentioned, but we heard from the recipients, the advocates for the needy, and they explained what would work and what wouldn't work.

"They're not against being more efficient or saving money, Mr. Speaker. That was never in doubt. So I want to thank our colleagues both on the House and Senate side, the recipients, the Department of Human Services workers. We know what they do, Mr. Speaker. I want to thank you Mr. Speaker, for working on this measure, and for giving us your expertise and knowledge in crafting the correct bill. I want to thank the Senate leadership, the Finance and Ways and Means Chairs, the Majority Leader, the Senate Human Services Chairs and the Senate Consumer Protection Chair, as well as our House and Senate staff members, HMSO and SMA. I want to thank the Department of Human Services employees for really stepping up and not backing down. Respectfully coming to the Legislature and telling us their plight and telling us it's not about the money, it's not about my job. It's about saving another life, and about helping another person.

"Mr. Speaker, I want to tell you what our Department of Human Services employees do. They provide priceless services to the disabled, the elderly, the blind, the deaf, domestic violence victims, homeless victims, people that suffer from mental illness. They provide child protective services and adult protective services. Mr. Speaker, I know this because I've worked with them for ten years. I know how hard they work.

"Mr. Speaker, this bill is a good bill. It actually represents not only what the Department of Human Services wants and the Legislature wants, but it also represents part of what the Governor wants. And as ironic as this may seem, it also represents what the Director of Human Service wants. We are all for being more efficient.

"We believe we have provided the proper safeguards to work together. To work together with the Administration on being more efficient. We look forward to the dialogue with the Supplemental Nutrition Assistance Program Administrator. That's a key person. That is our administrator for the SNAP program. The Director has to work with her if we're going to get something that's good policy, solid policy. We look forward to that, Mr. Speaker.

"We look forward to the Director working with the Chief Investigator for the Department of Human Services as we make sure we don't have welfare fraud sky rocket or become rampant without proper safe guards. This is the prudent thing to do. We'd like to save money, we'd like to be more efficient, but we'd like to work with the workers at DHS.

"We also want to make sure we don't violate federal law. Again, we have to make sure that we are on board with the United States Department of Agriculture so we are not subject to fines or reprimand. We certainly do not want to violate federal law here, Mr. Speaker. We also want to make sure that the Department of Human Services abides by Title VI of the Civil Rights Act of 1964. Of course, Mr. Speaker, this requires that State agencies provide language services to limited English proficient applicants and recipients. We want to make sure that we don't violate federal law.

"Mr. Speaker, I just wanted to summarize this by ending this on this note. In going to the briefings and meeting our Department of Human Services employees, we learned that they value what they do. They shared with us on the Big Island, Maui and Kauai, that if there is a subject of great value, you have to fight for it. You have to fight for it. This is what they have done. Mr. Speaker, your stellar Kauai delegation, we had a hearing at Kauai Community College. They stood up, they're a close-knit community. Maui the same, Big Island the same. They fought for what they thought was right, Mr. Speaker."

Representative Tsuji rose to yield his time, and the Chair "so ordered."

Representative Mizuno continued, stating:

"Thank you. I'll be just another minute. We understood from the Department of Human Services employees that to use your life to ensure the lives and future of others represents the greatest gift a person can perform. So we want to thank the Department of Human Services employees, HGEA and their union representative, the recipients, and the advocates for the needy, for all they have done. Certainly the genesis of the bill came from them, not from one person. Again finally for the Neighbor Island Representatives, they have done a great job. This is possible because your Neighbor Island delegation brought this home. Thank you, Mr. Speaker."

Representative Manahan rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support, please."

Representative Finnegan rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition. Mr. Speaker, it's tremendously difficult to actually argue on this bill because there's many misconceptions, as well as the fact that people may think that this is really going to be detrimental to the vulnerable population. It's kind of counter-

intuitive when you look at the history of this bill and what's been going on in government, that you would think that, why wouldn't this hurt the vulnerable population.

"Mr. Speaker, let me just start off by saying, I think that after hearing the passion that's not only in the Chair's voice of Human Services, but on the previous bill you heard the passion of the Chair of the Environment Committee. What I would like to share is just that we too share that passion for doing things better, for making the right decisions. It's just that we see it differently.

"So I'm going to start off, hopefully if you have some patience with me Mr. Speaker and colleagues, with why I feel so strongly about this bill and being against this bill. I've taken in a lot of emails and read them. I've taken a look at all the testimony and tried to study the programs. And of course I'm not sitting in the eligibility offices, but I think that I understand it pretty well.

"Mr. Speaker, the premise for the EPOD modernization program first and foremost was to provide better services to the vulnerable, and I'm going to explain why. Mr. Speaker, I wanted to get to some of the points that the previous speaker talked about, about Title VI federal law of 1964 and providing language services.

"Currently, and I have this from email from other folks that they do say, eligibility workers, that they do say this service is a call-in service where they get interpretive services through contract because they can't higher all the different languages right then and there and have them sit around in order when people need them. So they call in and they get this contracted service by telephone. Mr. Speaker, that will not change. You will still be able to call and get the interpretive services by telephone.

"Some may think that this version of the bill is a compromise, as the previous speaker has said. It actually isn't. I believe this version of the bill will kill the existing EPOD modernization plan. This is no compromise. By limiting the pilot project to Honolulu County, the ability to help with the backlog of applicants that exist on Maui and Kauai will not happen. Right now, that's a federal law that we are not abiding by. We are supposed to have the applications be processed within the first 30 days, and instead it's going on longer.

"The people who are against the EPOD or Eligibility Processing Operations Division modernization plan I believe, and you know whoever's fault, really do not understand how the new program could and would work. Some people who are against it are looking at all the people who apply for public assistance as incapable of using a phone or using a computer. This is simply not true, Mr. Speaker.

"I'm going to share with you some of the emails that I've received. In fact I'm going to start with this one. This is from a supervisor and she was saying how, and I apologize to this supervisor if she's watching. But she was stating how these case workers or eligibility workers, and I kind of downgraded their job responsibilities because I said they just change addresses. That's not what I meant when I was saying that at the last Floor debate. But let me read you some of the things that were emailed to me.

"She said, 'My workers are not only eligibility workers, but because of the shortage of office assistance staff due to the RIF they are also required to assist on the phone lines, as well as greeting directly our walk in clients. We have clients that walk in with medical emergencies and need medical assistance to treat life threatening conditions because doctors that took an oath to help people will not see them unless they can produce an approval letter.' And she basically talks about throughout this whole thing, pregnant women and how ..."

Representative Pine rose to yield her time, and the Chair "so ordered."

Representative Finnegan continued, stating:

"Thank you, Mr. Speaker. She talks about how they're not able to get these services. Mr. Speaker, the eligibility program modernization program actually helps people get their services quicker because there will be less of a backlog. I'm going to go through the letter of March 25th from the Director to Sanford Chun of HGEA that explains how the program will work.

"For instance, it talks about online applications and call centers. Let me start with this. 'On page 20 of the SNAP toolkit the federal government notes the need for state agencies to overcome certain common myths and staff concerns including for example,' and it's quoted, 'some state agencies find that workers are reluctant to conduct eligibility interviews over the phone because they believe clients are more likely to lie about information over the phone. State agencies can reassure workers that states with this option have not reported an impact in error rates after the implementation of telephone interviews.'

"It also says in that same SNAP or food stamp toolkit book, 'Call centers increase program access because applicants have one number to call for interviews and application questions. For call centers to increase its access effectively, SNAP households must know that they should call the call center and not their worker.'

"It also states here, 'The SNAP toolkit notes on page 25, as of July 2009, 21 states had statewide online applications. Online applications can increase program access to households who cannot easily get to a local office for an application such as working households, households with difficulty obtaining transportation, households with disabled, etc. Additionally, online applications allow households to submit their application at any time.' The SNAP toolkit continues, 'Online applications reduce the amount of time workers must complete data entry.'

"Mr. Speaker, in Utah just recently they implemented something similar to the EPOD program and let me just kind of explain to you what it says in one of their descriptions. It says, 'In these difficult economic times many government agencies are striving to improve the quality and efficiency of citizen service delivery. The State of Utah has taken an innovative approach to transforming the way services are accessed and delivered with the electronic resource and eligibility product, the EREP,' which is like our EPOD. 'EREP is an automated enterprise solution that integrates eligibility and benefit calculations for more than 60 social service programs. With EREP, state case workers are more productive, citizens can access more services themselves online and clients are experiencing more positive outcomes in addition to saving money. EREP provides better services for citizens by connecting multiple social service agencies and programs with online access to knowledge and available services and reduce time to benefits.' They get the benefits faster.

"Mr. Speaker, I just have so much, so much here. Not only did I receive emails from some, but I also talked to people who work there. Of course I'm not going to share any names because they don't want their name shared. They don't want their workmates to be upset with them. Mr. Speaker, when they learn about the program, they see that it can be doable. They see that it is a more efficient way, and I've spoken to more than just one.

"Mr. Speaker, the threat that someone will not have access, and it said in one of my emails from someone if I can find it. She goes on to say, 'as an adult protective services investigator,' and she talks about a situation where there was a couple and this couple had really huge needs for Medicaid, medical insurance, and it was so difficult for this woman to be able to …"

Representative Thielen rose to yield her time, and the Chair "so ordered."

Representative Finnegan continued, stating:

"Thank you. In fact let me go ahead and read some of this. It says, 'They have been given a welfare application to fill out but the wife had procrastinated because she found the form intimidating and not user friendly.' She talks about how she was flustered and discouraged and wanted to give up. 'We begin by calling her insurance office so that she could make arrangements over the phone. Although the representative recognized her distinct voice, she explained that it was not possible for the social worker to pick up the client's paperwork even if the client provided written authorization.

"Then she goes on to say that she took seven hours to accomplish helping her. She's an adult protective services investigator. It says, 'How much more difficult do you suppose it would be for the elderly, disabled applicants who have no support system to call the EPOD office, likely multiple times, in order to get guidance and help in comprehending precise instructions for paperwork that is confusing and intimidating for them. I fear for dependent, elderly and foreign clients who live "off the grid" in the isolated areas of rural Ka'u with no phone, no transportation, limited or no social services, etc. Who will assist and advocate for them?'

"When I first read it I said, 'Yeah, who will do that?' Mr. Speaker, that is no different a situation than what we have now and before the RIF. If you don't have a phone, if you don't have transportation, under the existing system you aren't going to get it. So comparing the existing system to the new system, under the new system if the person had a phone, they could get services, whether it's a cell phone or whatever. But at least they would have the option of possibly getting services, versus right now a person with no transportation and no phone, they don't have it. If they're doing it by mail, you can do it by mail and continue to do that now or when a modernized EPOD application system works.

"What happens, Mr. Speaker, is this is giving more options, right now in places like SNAP. This is your food stamps area of eligibility. They just implemented last year the ability to do telephone applications. Mr. Speaker, in the different units, with some not doing telephone applications and others doing telephone applications, the backlog in the telephone applications area has improved sharply; and in the other areas, not so much.

"Unfortunately this particular plan does call for a lot of Reduction In Force, Mr. Speaker. But I believe that through the use of some of these other types of methods for people to do their applications, you're going to be able to streamline a heck of a lot better, lessen the backlog, lessen the time for people.

"So how does that work you might ask? It works because if one person does an online application, that hour or whatever it took to do that online application, the data entry that was just done does not have to be done again. It is in the system. Mr. Speaker, how many people do you think can get on a computer? Not even those disabled people, or somebody who's unfortunately lost their job. Maybe they were working as a clerk already, or maybe they were working as a flight attendant, or whatever they might be, and they needed some public assistance. Are you telling me that they can't go online to alleviate some of the work that the case workers have to go through?

"Mr. Speaker, my niece two years ago ended up being in a very difficult position with two kids and she had to apply for Medicaid. She had Med-QUEST, she would go to the offices and everything like that while she was working with two kids."

Representative Ching rose to yield her time, and the Chair "so ordered."

The Chair addressed Representative Finnegan, stating:

"Representative Finnegan, please proceed. I hope you could summarize your statements."

Representative Finnegan continued, stating:

"I would try Mr. Speaker, but there've been so many misconceptions of how this will work. For someone like my niece who does Facebook, came over to my house because I watched her kids, could jump on to the computer and go and do Facebook to catch up with people or whatever she was doing, and had a cell phone. I worked with people who are homeless at Blaisdell Park and in order to contact them, they had a cell phone too.

"I'm not saying that everybody has to do an online application. I'm not saying that everybody has to do a phone application. But imagine if you had a hundred applications and of those hundred applications twenty people could do online applications, or maybe an additional 15, or 20, or 30 people could do phone applications because it was more convenient for them. Wouldn't you want to do that to alleviate the case load of the different workers?

"Mr. Speaker, after finding this program in Utah where they are doing the 60 different eligibility social service programs and did this EREP program, I found out that their applications are 80% online. Mr. Speaker, if we are seeing Maui having these huge backlogs, I believe that we should not kill the modernization plan moving forward, but really look for a real compromise between the two situations.

"If you think that's it all about money and all about saving money, I would highly disagree with that. We stated the Republicans had a six-year financial plan and we tried to be very transparent with what those choices would be. As well as the Governor who has a six-year financial plan. Neither of those financial plans put the savings of EPOD in it. This is not about just money, Mr. Speaker. This is about quality of services and if there is something that makes us not quite operate, and I'm not saying anything against the case workers. If the case workers are given and trained to do a certain process, that's what they're going to do. This EPOD program is asking others to adopt the program that can be more efficient for them and their workload.

"Mr. Speaker, there is a bunch of other information in here that, and I hope that those who work in these eligibility areas will read that 25 page letter. And let me just say, if this Body or my colleagues think that it's easy to make a decision like this, of course it's not. In fact I've had people that you wouldn't expect tell me, 'Lynn, why don't you back off on this? It is an election year. HGEA is not going to be happy with you.' Absolutely not, because I believe this is the right thing to do.

"Mr. Speaker, whether it's a money issue or not, take a look at this bill and think of those people that you will be helping. There are those people who cannot wait in offices. There are those people who need to work. There are those people who need our help to create a system that is more friendly to them. When you look across the nation, even here in Hawaii, there's this misnomer that you're going to be picked up, you're going to make a call, and you're going to get lost in this automated system. Absolutely not."

Speaker Say: "Representative Finnegan, would you just summarize your statement since the Chair has been very generous in allowing you to speak for over 20 minutes."

Representative Finnegan: "Absolutely Mr. Speaker, but you know what? The reason why, Mr. Speaker, this is so important because the main reason for this bill is to stop the RIFs, I believe, that will be coming up."

Speaker Say: "Representative Ward, will you yield your time? This will be going on to 25 minutes."

Representative Ward rose to yield his time, and the Chair "so ordered."

Representative Finnegan continued, stating:

"Thank you Mr. Speaker. I guess I'll stop. But could I please do some written comments. I ask if there's anyone in this Chamber that can tell me that these things, and specifically point out why this won't work, and you have to compare the differences between the existing system and the failures of this existing system, and say that those failures within the existing system are going to be helped by the status quo and not changing things. Thank you."

Representative Finnegan's written remarks are as follows:

"I rise in opposition to SB 2650. This measure authorizes the Governor to develop and implement an eligibility-processing operations division pilot project for counties with a population of 500,000 or more and prohibits any department of human services reorganization plan proposed prior to the effective date of the bill or other than the pilot project proposed by the bill.

"Director Koller has tried to implement changes but has experienced resistance, despite successful demonstrations of telephone processing of

Supplemental Nutrition Assistance Program (SNAP) applications. Many of those opposed to the original version of streamlining that Director Koller proposed cite fraud as a primary reason for opposition. However, there was no opposition to telephone interviews back in 2009 when it was hailed a measure to alleviate the case workload. Additionally, MedQuest has only 15% face-to-face applications and the rest are either processed by mail or fax.

"If the State can more efficiently and effectively deliver services to the needy, then it has an obligation to do so. Preserving antiquated and ineffective strategies of the past serve no one but an inefficient and ineffective government."

Representative Sagum rose in support of the measure and asked that the remarks of Representative Mizuno be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support and I'd just like to make a few comments. First of all, I think this bill is a compromise measure. This bill is going to allow the EPOD process to go forward on the largest island with the largest population. So we are in fact moving forward in a prudent manner.

"Secondly, there's a very strong concern about fraud. And I think the people in support of this measure standing in this Chamber for that are very aware of that. Nothing that I have heard on the Floor today has addressed the fraud. When we talk to investigators they will say that part of making the case for fraud is the eligibility workers who look the person in the eye and can then be made part of the case to determine fraud occurring.

"I think we are moving in a prudent manner. I think this is a good bill, I think we should take it step by step because it is impacting so many people in our community, and yes, people who are working for government. That's all, Mr. Speaker. Thank you."

Representative Carroll rose to speak in support of the measure, stating:

"Thank you Mr. Speaker, in strong support. Mr. Speaker, could I have the words from the Representative from Kalihi and from Makiki be inserted in the Journal as my own. I'd also like the opportunity to insert comments and also add on some additional comments here.

"Mr. Speaker, in rebuttal to the Minority Leader who is very passionate about this particular measure. I would just like to say that I don't think anybody here disagrees about improving efficiency. I think what we're looking at here as was mentioned by my colleague from Makiki, is that we want to take a little bit of time to look at how you impose a total system overhaul.

"It was also mentioned from the Minority Leader that there has been deficiencies that have been identified. My question is why has the Administration waited so long to come up with a plan and now all of a sudden, want to force this plan on the system where it could have grave concerns, especially on the Neighbor Islands.

"As you well know Mr. Speaker, we went to the Island of Lanai, which is my district, with the Representative from Lahaina. We did not organize a meeting. What happened was many of the people there found out we were having a meeting with the nonprofits and the DHS employees to find out how they actually operate there. And to our surprise, all of the community showed up. But it gave us an opportunity to hear firsthand from the people that provide services, from the people who receive services, and also to talk about how the Island of Lanai takes care of its own by doing more than one job and by looking at cooperating in the best way they can on an island. That gave us the idea that we need to look at all the islands and see how this impacts them.

"All I'm saying here is when we talk about transparency, where was the transparency when the Director did not even consult with the employees as we've heard from them in our hearings? Where was the transparency in the discussion on the deficiencies and what is the best kind of system that will address those kinds of concerns? Now all of a sudden, because we are in this spiral of a downfall of our economy, now we want to impose a system that we don't really know whether or not it will work for all of us because we live in an island system. Each island has a unique way of how they address those concerns.

"I think this bill offers an opportunity as a pilot project to look at, first of all, the biggest population which is the Island of Oahu which has more resources than the Neighbor Islands, but I think also it provides for some transparency when we look at Chapter 91. I think what is important is that we get the input not only from the people who work for DHS, but also from the general community. Why? These are their tax dollars. We want to ensure that if we're talking about transparency and efficiency, that we get the input that is necessary so that we as government can provide the best model, the best framework. Not just based on what other states are doing, but what's good for Hawaii.

"So Mr. Speaker, I speak with a lot of passion because I've heard from my constituents. I sat down with them. And I've talked to them on the phone trying to get somebody to help them. Yes, we are shorthanded. Yes, we have this deficit. But what's more important is, when we make these kinds of decisions on so many bills that we talk about, we talk about transparency. Well, where's the transparency in this? I think what this bill allows is for us to take that pause to look at the system that is being proposed before us to give the employees an opportunity.

"I believe what the Minority said. Yes, if they're trained, if they're told, if they're educated on what the system is supposed to do, I believe they'll cooperate. But to make this kind of decision where the Director wants to impose a system without any kind of consultation, for me that's not right. We hear so many issues, and we talk about this transparency. I think this bill offers that transparency and gives us the time to do what is necessary so that we can have the best system that provides for the people of Hawaii. Thank you, Mr. Speaker."

Representative Carroll's written remarks are as follows:

"In strong support of SB 2650, SD2, HD2, CD1. The recent decision of the Director of the Department of Human Services to reorganize its service structure without consulting its employees or clients has spurred nearly universal criticism and apprehension. Centralizing DHS operations would seriously disadvantage persons on smaller islands in that they would be forced to purchase plane tickets just to acquire the face-to-face contact that federal law requires DHS to make available to clients. Compounding this, a constituent from Lana'i contacted me to point out that there is only one public facsimile on the entire island. The lack of available technological resources on smaller islands worries me, as does the thought of forcing this system upon elderly and disabled clients who may prove physically or mentally unable to utilize new technology.

"Recently, Speaker Calvin Say, Rep. Angus McKelvey, and I visited Lana'i, where DHS clients confirmed that a reorganization would prove severely detrimental to their community. The CD1 of this bill is largely a result of that visit, as the House Speaker recognized the need to exempt Neighbor Islands from the EPOD reorganization. I support his draft of this bill, as it will protect the most vulnerable residents of my District, but I also hope that we will be able to halt EPOD reorganization on O'ahu in the future."

Representative Cabanilla rose to speak in support of the measure, stating:

"In support, Mr. Speaker, and I would like to call for the question."

At this time, Representative Cabanilla called for the previous question.

Representative Finnegan rose and stated:

"Mr. Speaker, may I do a short rebuttal?"

Speaker Say: "At this point the question has been called. If you want to do a rebuttal the Chair will allow you submit it as a written comment to the point of rebuttal."

Representative Finnegan: "Does that mean that I have the ability to do written comments without me requesting it?"

Speaker Say: "You may request to submit written comments in rebuttal as part of it. For those Members who would like to have their written comments for or against submitted into the Journal, you're allowed to do so now."

Representative McKelvey rose in support of the measure and asked that the remarks of Representative Carroll be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Pine rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ching rose in opposition to the measure and asked that the remarks of Representative Finnegan be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Tokioka rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support and I'd like to adopt the words from the Representative from Kalihi as if they were my own, especially the part about the good Representative from Kauai. I'd like to also adopt the words from the Representative from Hana as if they were my own, and thank goodness for the person who invented 'cut and paste' because a lot of words and a lot of typing is going to be saved because of that. Thank you, Mr. Speaker."

Representative Manahan rose to speak in support of the measure, stating:

"Mr. Speaker, I have the same request. Rather than submitting written comments, may I just please enter the words of the Chair of Human Services, as well as the Chair of Hawaiian Affairs as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Takai rose in support of the measure and asked that the remarks of Representative Mizuno be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Awana rose in support of the measure and asked that the remarks of Representatives Mizuno and Carroll be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Mizuno rose to respond, stating:

"Thank you Mr. Speaker, I'd like the words of the Chair of Hawaiian Affairs placed into the Journal as if they were my own. And a last request, Mr. Speaker. May I insert this petition of over 7,100 employees and recipients of DHS services?"

The Chair addressed Representative Mizuno, stating:

"Representative Mizuno, the Chair will not allow you to submit that into the Journal, but you could leave it open in your office for the Members of this House to take a look at the petition. This will allow for public access to the general public at large, and the Members also."

Representative Mizuno: "Thank you, Mr. Speaker. I will do that."

Representative Aquino rose in support of the measure and asked that the remarks of Representatives Mizuno and Carroll be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Thielen rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2650, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE DEPARTMENT OF HUMAN SERVICES," passed Final Reading by a vote of 46 ayes to 2 noes, with Representatives Ching and Finnegan voting no, and with Representatives Har, Herkes and Souki being excused.

At 2:40 o'clock p.m., the Chair noted that the following bills passed Final Reading:

H.B. No. 2866, HD 1, SD 1, CD 1
H.B. No. 2421, HD 2, SD 2, CD 1
H.B. No. 1985, SD 1, CD 1
S.B. No. 2650, SD 2, HD 2, CD 1

SUSPENSION OF RULES

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the rules were suspended for the purpose of reconsidering action previously taken in disagreeing to amendments made by the Senate to certain House Bills. (Representatives Har, Herkes and Souki were excused.)

RECONSIDERATION OF ACTION TAKEN

Representative B. Oshiro moved that the House reconsider its action previously taken in disagreeing to the amendments made by the Senate, and to agree to such amendments for the following House Bills, seconded by Representative Evans:

H.B. No. 2085, HD 1, (SD 2)
H.B. No. 2086, HD 2, (SD 2)
H.B. No. 2383, HD 1, (SD 2)

The motion was put to vote by the Chair and carried, and the House reconsidered its action previously taken in disagreeing to the amendments made by the Senate, and agreed to such amendments for the noted House Bills. (Representatives Har, Herkes and Souki were excused.)

FINAL READING

H.B. No. 2085, HD 1, SD 2:

Representative B. Oshiro moved that H.B. No. 2085, HD 1, SD 2, pass Final Reading, seconded by Representative Evans.

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative B. Oshiro rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, on House Bill No. 2085, my understanding is that my law firm issued a legal opinion on this, but I am not involved in that. Thank you," and the Chair ruled, "no conflict."

The motion was put to vote by the Chair and carried, and H.B. No. 2085, HD 1, SD 2, entitled: "A BILL FOR AN ACT RELATING TO HEALTH," passed Final Reading by a vote of 44 ayes to 4 noes, with Representatives Ching, Finnegan, Marumoto and Pine voting no, and with Representatives Har, Herkes and Souki being excused.

H.B. No. 2086, HD 2, SD 2:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, H.B. No. 2086, HD 2, SD 2, entitled: "A BILL FOR AN ACT RELATING TO HEALTH CARE DATA," passed Final

Reading by a vote of 48 ayes, with Representatives Har, Herkes and Souki being excused.

H.B. No. 2383, HD 1, SD 2:

Representative B. Oshiro moved that H.B. No. 2383, HD 1, SD 2, pass Final Reading, seconded by Representative Evans.

Representative Pine rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, in support with reservations. My reservations are more about the process and how we came about with this final version. I really believe in life that your word is your word, especially in this building. It's so important that in the end what you say to people is what you're going to do.

"The first part of the process that I was upset about is I was told before these Conference Committees started by a leader in the Majority that we would give us and the public 24 hours notice anytime we decide to agree to a Senate version. This would allow transparency, and for the public to give it that one last try to express their feelings whether they agree or disagree with it. Because you never know, and we've seen it this Session. Sometimes bills can get killed on the Floor unexpectedly. Or it can go through unexpectedly and after we have to change some things because the public outcry was so strong.

"Now you may wonder why I am standing up in support with reservations on a Prisoner Of War, Missing In Action flag bill. I'm actually standing up to voice a lot of the feelings of many veterans that I have been working with this Session. Who would have thought that this session would be about all kinds of flags. Certainly I was not prepared for it.

"The reason why I especially have expressions of disappointment, and gosh if I was one of them I'd feel a mistrust in this system, because many veterans have been actively working together as groups and in a cohesive nature that I've never seen before. I found out that there're around 200 different veteran groups in the State of Hawaii that didn't really talk to each other until this Session.

"A few weeks ago the largest veteran's group that combines all the different organizations and have representatives from different veteran's groups asked me to come speak to them about this bill, the Prisoner Of War bill and Missing In Action flag, and of course the American flag and the Hawaiian flag bill. And they were troubled by how these bills have been treated.

"For this particular measure I guess we're agreeing to the Senate to only fly the Prisoner Of War and Missing In Action flags a certain number of days. One of the Chairs of one of the largest organizations for veterans said, 'Well, are we missing in action only five days a year? Why would they make that decision?' These are very interesting comments.

"A small group of veteran leaders came today to represent many, to put the American flag around the Liberty Bell. A Silver Star recipient came today. A Silver Star, for those Members who don't know, they're just a few short shy of the Medal of Honor. He came with his wheelchair. He can walk, but it's very hard when he walks very far away. He got out of his wheelchair to put an American flag around the Liberty Bell. And I asked him, 'You're so hopeful.' And he says, 'You know Kym, we've been talking to different Representatives and Senators, and all the veterans that are in support of the Prisoner Of War bill, and we realized that we can combine it with the ability to fly the American flag bill together without hurting each other.'

"The reason I'm so disappointed about this sudden … I was given notice 11:00 a.m. after I just said goodbye to the veterans who came here today. I'm disappointed because they came here today. Actually they gave notice yesterday to all the different leaders that they were coming today and especially tomorrow, to talk about this wonderful compromise. And as that veteran Silver Star who almost died in Vietnam and is crippled for life said to me, 'I'm putting this flag here by the Liberty Bell because I believe in the people in this building. They're going to make things right.'"

Representative Thielen rose to yield her time, and the Chair "so ordered."

Representative Pine continued, stating:

"I was amazed by his optimism because when he came here with a group of veterans, he lives in a community association and he was for this bill as well. He was told, 'Why don't you move out of that association?'"

The Chair addressed Representative Pine, stating:

"Representative Pine, we are not addressing that particular issue in regards to flag poles. We are addressing the POW and MIA flags. So please confine your remarks to those provisions."

Representative Pine continued, stating:

"I'm aware of that Mr. Speaker, but the reason why I'm disappointed is they specifically have been working with leaders about compromise and those leaders, you know what they told them? 'We support veterans. We're going to fight for you. We're going to do everything we can to combine these bills.' I spoke to a Senator this morning who is a leader of this bill. I spoke to a House Member yesterday who is a leader of this bill. 'We're going to make it happen for these veterans. We're going to fight for you.'

"At 11:00, we're waiving all the promises that we told the public that we are going to give you notice and give you a chance for democracy. A cynic would say that this bill, a flag bill for a Prisoner Of War, was hijacked, promises made, so that these veterans could not come here and ask for decent democracy."

Speaker Say: "Representative Pine, I believe your statements are out of order. There is democracy where we had this lovely debate on another measure. So please confine your remarks to the POW and MIA legislation that is before this Body."

Representative Pine: "But I am, Mr. Speaker."

Speaker Say: "Well, don't bring up the other issue that is not part of this Conference Draft."

Representative Pine: "I stopped talking about that a while ago."

Speaker Say: "You are alluding to it. So please."

Representative Pine: "This bill was 'hijacked' in their opinion, Mr. Speaker."

Speaker Say: "Representative Pine, I don't know what the adjective is in regards to why it was 'hijacked.' I don't believe it was 'hijacked,' so please confine your remarks to the bill that is before you."

Representative Pine: "The bill that is before us, the veterans believe could have been better."

The motion was put to vote by the Chair and carried, and H.B. No. 2383, HD 1, SD 2, entitled: "A BILL FOR AN ACT RELATING TO FLAGS," passed Final Reading by a vote of 48 ayes, with Representatives Har, Herkes and Souki being excused.

At 2:51 o'clock p.m., the Chair noted that the following bills passed Final Reading:

H.B. No. 2085, HD 1, SD 2
H.B. No. 2086, HD 2, SD 2
H.B. No. 2383, HD 1, SD 2

At 2:51 o'clock p.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 2:51 o'clock p.m.

END OF CALENDAR

Conf. Com. Rep. No. 2-10 and H.B. No. 1907, HD 1, SD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1907, HD 1, SD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Choy rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Choy's written remarks are as follows:

"Mr. Speaker, Part I of this bill limits the itemized deductions for high income taxpayers with adjusted gross incomes over $300,000 for married individuals; $225,000 for heads of household; and $150,000 for single individuals.

"The limits on itemized deductions are $50,000, $37,500 and $25,000 respectively. These limits expire beginning in taxable year 2016.

"Part II of this bill is intended to reduce current State expenses by temporarily removing the refunding feature of the capital goods excise tax credit for eligible depreciable tangible personal property placed in service after December 31, 2009.

"If the capital goods excise tax credit on eligible depreciable tangible personal property placed in service after December 31, 2009 exceeds a taxpayer's net income tax liability for the tax year it is placed in service, the excess of credit over liability may be used between January 1, 2011, and December 31, 2015, as a deduction from the taxpayer's net income tax liability in succeeding years, and any remaining excess may also be refunded on or after January 1, 2015."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I rise in support with reservations. Thank you. Because basically the teeth have been pulled out of this job killer number 7, but it's a NGO discourager, Mr. Speaker. Let me explain why. This is all about Schedule A. Tomorrow is tax day. Those of you who have mortgages will fill out Schedule A. Those of you who have medical expenses have Schedule A to fill out. And those of you who have charitable contributions will fill out Schedule A.

"That means if you paid a lot for medical, your mortgage, and contributions, what I want to focus on is the contributions. Because if you give too much, to too many NGOs, for too many good causes, this is a penalty. We know NGOs have grown in large size over the last decade or so.

"Mr. Speaker, a lot of people depend upon these people for those donations and my fear is this is going to discourage them. It's going to cut down the contributions and the eleemosynary spirit that we have in our tax code. As Sparky Matsunaga once said, 'If you want to have social engineering, look at the tax code.' Mr. Speaker this is going to discourage them from being all that they can be. That's my regret, Mr. Speaker.

"I should also mention that I would hope that because the Republican balanced budget doesn't use these job killers as ways of balancing the budget, I would hope that it would be part of what the reasoning is why the teeth were pulled out of this, and I commend the Vice Chair of the Committee as well as the Chair for doing that. That people again will look at the assumption that we've made on how we can make a balanced budget. Mr. Speaker, I was reminded by my colleague that when I refer to NGOs, I really mean the nonprofit community. They're the ones that are going to get hurt by this bill. Thank you, Mr. Speaker."

Representative Choy rose to respond, stating:

"Mr. Speaker, in brief rebuttal to my friend from Hawaii Kai. This bill, as far as contributions and itemized deductions, it's for married individuals with adjusted gross incomes over $300,000, and $150,000 for single individuals, and just one short comment.

"Most of us who give charitable deductions to not-for-profit organizations, we give from the heart, Mr. Speaker. We don't look for a deduction. We want to give to the organization. We want to support it. We're not looking for a tax deduction. Thank you, Mr. Speaker."

Representative Rhoads rose to speak in support of the measure, stating:

"Mr. Speaker, I'm in support. With regard to one of the previous speaker's concerns about job killers. It does seem to me that the debate needs to be a little more nuanced because if the State government doesn't raise enough money to keep its employees employed, that's a job killer too. We can have the debate about whether a private sector job is more important than a government sector job, but if the State doesn't have revenue to pay its employees, that kills jobs every bit as much as anything else does. Those State employees are consumers just like any other consumer. Their going on unemployment does have an effect on the economy just like losing any other job.

"So we can debate whether a government job is more or less important than a private sector job and I think that would be an interesting debate, but I do think it's a little unfair to characterize all these bills as job killers. It depends on which jobs you're talking about. Mahalo."

Representative Ward rose to respond, stating:

"Just a very brief rebuttal that I would remind the previous two speakers that the whole reason why we have a bill like this is because we want to balance the budget. And as I said earlier, if you look at the budget that we've proposed, it's not necessary to do these things.

"Secondly, for the previous speaker from Chinatown, of course we don't want to lose government jobs. Of course we don't want to diminish and decimate anybody's job. But the reality is that the economy that we have in this country, as in most free marketplace economies, 80% of the people who have jobs don't work for the government, federal, state or city. So it's important that we think and we have balance between maintaining those jobs in the private sector which have right now lost probably 43,000 because that's how many people in the private sector are on unemployment, and those who are in the public sector.

"Secondly, regarding the gentleman from Manoa who talked about, well, we only give from the heart, we don't give by the tax code. I think that sounds very good, but I think the reality is, capital goes where it's asked to and it stays where it's welcome.

"People are very mobile now-a-days, Mr. Speaker. I know we've got beautiful beaches and people with a lot of money they go to Maui and they buy houses. But they also pay attention to things when we get, as I said earlier, we're the second most expensive in the world. Those are decisions that people with money make, and they have money because they made decisions based upon facts and figures. So yes, we give from the heart but we also have our head and we have tax codes which people pay attention to. Thank you, Mr. Speaker."

Representative Ching rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. Just a short rebuttal, especially to the concept that people give from the heart and that's why they give to nonprofits, etc. I just don't think that makes sense. It's not common sense. Yes, people give from the heart, but then why, I ask the question, why would people go through the trouble to retain an attorney to become a 501(c)(3)? Why do they want to become a 501(c)(3)? Why go through the trouble to become a 501(c)(3)?

"The main reason to become a 501(c)(3) is so that you can raise money for the tax. Right? Tax deduction. So people give. When people give they can take it off on their tax return. So I don't mean to call my colleague disingenuous, but of course people give from the heart, but whenever somebody gives with the few amount of dollars they have, they're always

saying, like it was said previously, 'What is the use of my tax dollars,' as was said by the Representative from Hawaii Kai.

"That if I know where it's going, how it's being used, all of these things by a rational person, is why somebody wants to give. They want to know, what are you going to create with my dollars that I give you that I spent so much time for my children to create. Time is money. People spend their money and their time on important things. For those people who are in sales who work by the hour. You don't think that they want to be with their children at home? Time is money. So I think that we should be honest about these things."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1907, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Final Reading by a vote of 42 ayes to 6 noes, with Representatives Berg, Brower, Ching, Finnegan, Pine and Takai voting no, and with Representatives Har, Herkes and Souki being excused.

The following message from the Governor (Gov. Msg. Nos. 234) was announced by the Clerk and received for possible future consideration:

Gov. Msg. No. 234, transmitting her statement of objections to H.B. No. 1868, HD 1, as follows:

"EXECUTIVE CHAMBERS
HONOLULU
April 14, 2010

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 1868

Honorable Members
Twenty-Fifth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 1868, entitled "A Bill for an Act Relating to Civil Service."

The purpose of this bill is to prohibit all civil service employees not covered by collective bargaining agreements from taking leaves of absence to serve for more than one year in certain appointed positions in the executive and judicial branches. The one-year leave of absence would also apply to civil service employees whose collective bargaining agreements do not provide for the granting of longer leaves for the purpose of serving in appointed positions.

This bill is objectionable for the following reasons. First, this measure provides unfair and disparate treatment between career civil servants depending on whether they are covered by collective bargaining agreements. Because there are a number of collective bargaining agreements covering Hawaii Government Employees Association and United Public Worker employees that provide for four-year leaves of absence to serve in appointed positions, this bill conflicts with section 89C-3, Hawaii Revised Statutes, which requires employers to provide employees not covered by collective bargaining agreements with compensation and benefit packages that are at least equal to compensation and benefit packages provided under collective bargaining agreements for counterparts or subordinates within the employer's jurisdiction. Section 89C-3 was recently interpreted by the State Circuit Court to mean that a vacation leave or temporary assignment program offered by a public employer only to civil service employees through a collective bargaining agreement constituted a distinct "benefit" that must be offered equally to all of that employer's civil service employees. As such, we believe, this bill is in conflict with current law. Given that section 89C-6 allows chapter 89C to take precedence over all other statutes, including chapter 76 as amended by this bill, we also note House Bill No. 1868 is for all practical purposes unenforceable.

Second, the net effect of this measure will be to impose severe practical constraints on the ability of various appointing authorities, including the Governor, to fill certain appointed positions such as department directors, deputies, and board and commission members. The number of career civil servants willing to take these types of appointments would be severely reduced without assurances that they will be able to keep their hard earned benefits by returning to their previous positions after the end of an appointment. Although this bill will not affect my administration, it will have a significant impact on the next administration.

Third, this measure needlessly limits valuable opportunities for career civil servants to serve in higher level appointed leadership positions in our government. By specifically targeting civil servants not covered by collective bargaining agreements-who often tend to be managerial and supervisory employees-the State will lose out on the valuable knowledge and expertise that these civil servants will bring to their appointed positions.

For the foregoing reasons, I am returning House Bill No. 1868 without my approval.

Respectfully,
/s/ Linda Lingle
LINDA LINGLE
Governor of Hawaii"

Representative B. Oshiro moved that the report of the Committees be adopted, and that S.C.R. No. 93, SD 1, HD 1, be adopted, seconded by Representative Evans.

Representative Ching rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I rise with just some reservations. I'd like to read if you don't mind, from the Hawaii Housing Finance and Development Corporation testimony from Karen Seddon. It says here that: '… the HHFDC opposes SCR 93 because it is not able to undertake the review due to budgetary constraints, the hiring freeze, and the considerable amount of compliance and reporting obligations of the HHFDC now incurred since its receipt of the federal stimulus funds.' It believes that the single room occupancy dwellings can be an important part of the solution in lack of affordable housing.

"However, noted in 2009, the City and County Department of Planning and Permitting testified it was already actively preparing for the transit-oriented development with neighborhood plans, subsequent zoning, financial mechanisms to guide the private sector towards meeting those adopted community values and opportunities, and that affordable housing will be one of the topics studied. So with that Mr. Speaker, I have reservations."

The motion was put to vote by the Chair and carried, and the report of the Committees was adopted and S.C.R. No. 93, SD 1, HD 1, entitled: "SENATE CONCURRENT RESOLUTION REQUESTING THE HAWAII HOUSING FINANCE AND DEVELOPMENT CORPORATION TO REVIEW THE FEASIBILITY OF DEVELOPING SINGLE ROOM OCCUPANCY DWELLINGS IN TRANSIT ORIENTED DEVELOPMENT PROJECTS TO ALLEVIATE THE AFFORDABLE HOUSING SHORTAGE," was adopted, with Representatives Har, Luke, Mizuno, Shimabukuro and Souki being excused.

Representative McKelvey, for the Committee on Economic Revitalization, Business, & Military Affairs presented a report (Stand. Com. Rep. No. 1357-10) recommending that S.C.R. No. 202, SD 1, as amended in HD 1, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and S.C.R. No. 202, SD 1, HD 1, entitled: "SENATE CONCURRENT RESOLUTION AUTHORIZING THE MUTUAL CANCELLATION OF LEASE OF NON-EXCLUSIVE EASEMENT S-5252 AND ISSUANCE OF A TERM, NON-EXCLUSIVE EASEMENT COVERING A PORTION OF STATE SUBMERGED LANDS SITUATED AT LAPAAKEA, LAHAINA, MAUI, IDENTIFIED BY TAX MAP KEY: (2) 4-5-001:055: SEAWARD OF TAX MAP KEY: (2) 4-5-001:006," was adopted, with Representatives Har, Luke, Mizuno, Shimabukuro and Souki being excused.

Representative Rhoads, for the Committee on Labor & Public Employment presented a report (Stand. Com. Rep. No. 1358-10), recommending that S.C.R. No. 40, SD 1, be referred to the Committee on Economic Revitalization, Business, & Military Affairs.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and S.C.R. No. 40, SD 1, entitled: "SENATE CONCURRENT RESOLUTION EXPRESSING SUPPORT FOR ENFORCEMENT OF EXISTING OSHA REGULATIONS ON THE USE OF HEXAVALENT CHROMIUM AND URGING OSHA TO DEVELOP SAFER ALTERNATIVES AND BAN HEXAVALENT CHROMIUM," was referred to the Committee on Economic Revitalization, Business, & Military Affairs, with Representatives Har, Luke, Mizuno, Shimabukuro and Souki being excused.

Representative Rhoads, for the Committee on Labor & Public Employment presented a report (Stand. Com. Rep. No. 1359-10), recommending that S.C.R. No. 128, be referred to the Committee on Judiciary.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and S.C.R. No. 128, entitled: "SENATE CONCURRENT RESOLUTION ENCOURAGING ALL PUBLIC AND PRIVATE EMPLOYERS IN THIS STATE TO USE E-VERIFY TO CONFIRM EMPLOYEE WORKPLACE ELIGIBILITY," was referred to the Committee on Judiciary, with Representatives Har, Luke, Mizuno, Shimabukuro and Souki being excused.

Representative Rhoads, for the Committee on Labor & Public Employment presented a report (Stand. Com. Rep. No. 1360-10), recommending that S.C.R. No. 201, be referred to the Committee on Judiciary.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and S.C.R. No. 201, entitled: "SENATE CONCURRENT RESOLUTION URGING THE DEPARTMENT OF LABOR AND INDUSTRIAL RELATIONS TO ADOPT RULES TO PROHIBIT ABUSIVE WORK ENVIRONMENTS," was referred to the Committee on Judiciary, with Representatives Har, Luke, Mizuno, Shimabukuro and Souki being excused.

No. 144, SD 1, entitled: "SENATE CONCURRENT RESOLUTION URGING THE DEPARTMENT OF LABOR AND INDUSTRIAL RELATIONS TO MEET OR EXCEED OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION POSITION BENCHMARKS FOR WORKPLACE SAFETY AND HEALTH AND CONDUCT A STUDY

TO DETERMINE THE FEASIBILITY OF IMPLEMENTING A CONSTRUCTION SAFETY AND HEALTH PROGRAM IN THE STATE," was referred to the Committee on Finance, with Representatives Har, Luke, Mizuno, Shimabukuro and Souki being excused.

CONFERENCE COMMITTEE REPORTS

At this time, the Chair stated:

"Members, please note the 48-hour notice for Conference Committee Report No. 6-10. Also please note the 10 day notice for Conference Committee Report Nos. 7-10 and 54-10."

Representative McKelvey, for the Committee on Conference on the disagreeing vote of the House to the amendments proposed by the Senate in H.B. No. 1900, SD 1, presented a report (Conf. Com. Rep. No. 6-10) recommending that H.B. No. 1900, SD 1, as amended in CD 1, pass Final Reading.

In accordance with Article III, Section 15, of the Constitution of the State of Hawaii, action on Conf. Com. Rep. No. 6-10 and H.B. No. 1900, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO MILITARY PERSONNEL," was deferred for a period of 48 hours.

Representatives Takumi, Karamatsu and M. Oshiro, for the Committee on Conference on the disagreeing vote of the House to the amendments proposed by the Senate in H.B. No. 2376, HD 3, SD 2, presented a report (Conf. Com. Rep. No. 7-10) recommending that H.B. No. 2376, HD 3, SD 2, as amended in CD 1, pass Final Reading.

In accordance with Article XVII, Section 3, of the Constitution of the State of Hawaii, action on Conf. Com. Rep. No. 7-10 and H.B. No. 2376, HD 3, SD 2, CD 1, entitled: "A BILL FOR AN ACT PROPOSING AMENDMENTS TO THE HAWAII CONSTITUTION RELATING TO THE BOARD OF EDUCATION," was deferred for a period of 10 days.

Representatives M. Oshiro and Karamatsu, for the Committee on Conference on the disagreeing vote of the Senate to the amendments proposed by the House in S.B. No. 2807, SD 2, HD 2, presented a report (Conf. Com. Rep. No. 54-10) recommending that S.B. No. 2807, SD 2, HD 2, as amended in CD 1, pass Final Reading.

In accordance with Article XVII, Section 3, of the Constitution of the State of Hawaii, action on Conf. Com. Rep. No. 54-10 and S.B. No. 2807, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT PROPOSING AN AMENDMENT TO ARTICLE VII, SECTION 6, OF THE HAWAII CONSTITUTION, RELATING TO THE TAX REBATE REQUIREMENT," was deferred for a period of 10 days.

At this time, the Chair addressed Representative Coffman, stating:

"Representative Coffman, could you explain to the Members of this Body why we have this 10-day notice before us on Conference Committee Report number 7-10 and Conference Committee Report number 54-10."

Representative Coffman stated:

"Yes Mr. Speaker, these are all constitutional amendments and require 10 day notice."

Speaker Say: "Correct. Thank you, very much."

SUSPENSION OF RULES

On motion by Representative Evans, seconded by Representative Pine and carried, the rules were suspended for the purpose of considering a certain House Bill for Final Reading by consent calendar. (Representatives Har, Luke, Shimabukuro and Souki were excused.)

FINAL READING

Representative B. Oshiro moved to agree to the amendments made by the Senate to the following House Bill, seconded by Representative Evans and carried: (Representatives Har, Luke, Shimabukuro and Souki were excused.)

H.B. No. 2351, (SD 1)

H.B. No. 2351, SD 1:

Representative B. Oshiro moved that H.B. No. 2351, SD 1, pass Final Reading, seconded by Representative Evans.

Representative Yamane rose to speak in support of the measure, stating:

"Mr. Speaker, I'm standing in strong support. Mr. Speaker, House Bill 2351 corrects the oversight that individuals who receive a less than honorable discharge or a general discharge under honorable conditions are not able to receive veteran's license plates.

"Mr. Speaker, this bill will honor veterans. I am not a veteran, but being a veteran is an honor earned by honorably supporting and protecting your country, Mr. Speaker. This will allow veteran's license plates to be a public declaration of service in an honorable way. So I would highly recommend the passage of this measure. Thank you."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support and may I have the words of the previous speaker entered in the record as if they were my own. Thank you."

Representative Takai rose in support of the measure and asked that the remarks of Representative Yamane be entered into the Journal as his own and asked that his written remarks be inserted in the Journal, and the Chair "so ordered." (By reference only.)

Representative Takai's written remarks are as follows:

"Mr. Speaker, I speak in support of this bill. The purpose of this measure is to require veterans who submit application for veteran's license plates to provide the most recent discharge document that indicates an honorable discharge from the military.

"Veteran license plates identify individuals who have served this country. The veteran community and the general public believe that individuals who fail to meet certain standards of behavior and who received a less than honorable discharge should not be recognized as a veteran.

"The law, as currently written, allows those with less than an honorable discharge to receive a veteran's license plate. This measure corrects that oversight. For these reasons, I support this measure and urge my colleagues to do the same. Thank you."

Representative Ward rose in support of the measure and asked that the remarks of Representative Yamane be entered into the Journal as his own and asked that his written remarks be inserted in the Journal, and the Chair "so ordered." (By reference only.)

Representative Ward's written remarks are as follows:

"Mr. Speaker, I am presenting written comments in support of HB2351, which requires an applicant for a veteran's license plate to include a copy of the applicant's most recent discharge paper or separation document that indicates an honorable discharge or general (under honorable conditions) discharge from active duty.

"As a veteran of the Vietnam War and a member of the Veterans' Caucus, I find it imperative that we protect the integrity of veterans' license

plates. To be publicly identified as a veteran is an incredible honor, and it should be reserved for those who truly deserve it. Requiring proof of honorable discharge is a simple step we can take to show our appreciation for our country's veterans.

"For these reasons, Mr. Speaker, I strongly support HB2351."

Representative Cabanilla rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, may I have a ruling on a possible conflict. I'm a veteran," and the Chair ruled, "no conflict."

The motion was put to vote by the Chair and carried, and H.B. No. 2351, SD 1, entitled: "A BILL FOR AN ACT RELATING TO VETERANS," passed Final Reading by a vote of 47 ayes, with Representatives Har, Luke, Shimabukuro and Souki being excused.

At 11:55 o'clock a.m., the Chair noted that the following bill passed Final Reading:

H.B. No. 2351, SD 1

STANDING COMMITTEE REPORTS

Representative Manahan, for the Committee on Tourism, Culture, & International Affairs presented a report (Stand. Com. Rep. No. 1362-10) recommending that S.C.R. No. 126, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.C.R. No. 126, be adopted, seconded by Representative Evans.

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in strong support with written comments and a brief note. This is asking the United Nations to acknowledge Taiwan as a participant in Civil Aviation Organization. Mr. Speaker, I can't think of a more deserving nation, a more scientifically, entrepreneurially based nation and the future model for the $1.3 billion Chinese who look very, very closely at Taiwan so this would be a great step in the right direction. Thank you."

Representative Ward's written remarks are as follows:

"Mr. Speaker, I am presenting written comments in strong support of SCR No.126, which urges the United Nations to grant Taiwan meaningful participation in the International Civil Aviation Organization (ICAO). Taiwan is a major transport hub in Asia, and the Taipei Flight Information Region accounts for over forty million passengers and 1,580,000 metric tons of cargo each year.

"Taiwan's exclusion from the ICAO since 1971 has made it extremely difficult for Taiwan to remain informed and updated on international aviation standards and norms. Taiwan's participation in the ICAO is therefore imperative to ensure the integrity of international air safety and security and to promote cultural exchange, business, trade, and tourism.

"Taiwan's meaningful participation in the International Civil Aviation Organization will benefit not only Taiwan, but also the entire international community. For these reasons, Mr. Speaker, I strongly support SCR No. 126."

Representative Chang rose to speak in support of the measure, stating:

"I support the motion."

Representative Chong rose to speak in support of the measure, stating:

"In support."

Representative Ching rose to speak in support of the measure, stating:

"In strong support."

Representative Cabanilla rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. I would like the words of the Representative from Hawaii Kai, as well as the Representative from Hilo to be entered into the Journal as if they were my own."

Representative Yamane rose to speak in support of the measure, stating:

"Mr. Speaker, I stand in strong support."

Representative B. Oshiro rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative B. Oshiro written remarks are as follows:

"I am in strong support of this measure, which urges the United Nations to grant Taiwan meaningful participation in the activities, meetings, and mechanisms of the International Civil Aviation Organization (ICAO).

"As reflected in this measure, and elsewhere, Taiwan has a burgeoning economy - a reflection of its investment in technology, infrastructure, and an overall strong entrepreneurial business climate. In addition, the country's geographic location makes it an economic and cultural crossroads between many East Asian countries, which is why its inclusion in the ICAO is so important.

"Having visited Taipei, I know firsthand the importance this organization plays in Taiwan's future economic development, which is why I urge my colleagues to support this measure."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.C.R. No. 126, entitled: "SENATE CONCURRENT RESOLUTION URGING THE UNITED NATIONS TO GRANT TAIWAN MEANINGFUL PARTICIPATION IN THE INTERNATIONAL CIVIL AVIATION ORGANIZATION," was adopted, with Representatives Carroll, M. Oshiro and Takai being excused.

Representative Morita, for the Committee on Energy & Environmental Protection presented a report (Stand. Com. Rep. No. 1363-10) recommending that S.C.R. No. 99, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.C.R. No. 99, be adopted, seconded by Representative Evans.

Representative Cabanilla rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. I would like the records to show that I do believe that geothermal energy is a priceless gift of Madam Pele to the people of Hawaii. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.C.R. No. 99, entitled: "SENATE CONCURRENT RESOLUTION REQUESTING THE ESTABLISHMENT OF A WORKING GROUP TO ANALYZE THE POTENTIAL DEVELOPMENT OF GEOTHERMAL ENERGY AS THE PRIMARY ENERGY SOURCE TO MEET THE BASELOAD DEMAND FOR ELECTRICITY ON THE BIG ISLAND," was adopted, with Representatives Carroll, M. Oshiro and Takai being excused.

Representative Morita, for the Committee on Energy & Environmental Protection presented a report (Stand. Com. Rep. No. 1364-10) recommending that S.C.R. No. 183, SD 1, as amended in HD 1, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and S.C.R. No. 183, SD 1, HD 1, entitled: "SENATE CONCURRENT RESOLUTION CONVENING A LEGISLATIVE NOISE POLLUTION TASK FORCE TO REVIEW BEST PRACTICES FROM OTHER STATES IN REDUCING URBAN NOISE POLLUTION," was adopted, with Representatives Carroll, M. Oshiro and Takai being excused.

Representative Tokioka, for the Committee on Legislative Management presented a report (Stand. Com. Rep. No. 1365-10) recommending that S.C.R. No. 194, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and S.C.R. No. 194, entitled: "SENATE CONCURRENT RESOLUTION REQUESTING THE PRESIDENT OF THE SENATE AND THE SPEAKER OF THE HOUSE OF REPRESENTATIVES TO AUTHORIZE THE JOINT LEGISLATIVE COMMITTEE ON AGING IN PLACE TO CONTINUE TO MEET AND CARRY OUT THE WORK OF THE COMMITTEE," was adopted, with Representatives Carroll, M. Oshiro and Takai being excused.

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1366-10) recommending that S.C.R. No. 78, SD 1, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.C.R. No. 78, SD 1, be adopted, seconded by Representative Evans.

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise with reservations and a brief note. Mr. Speaker, this was a resolution heard in Finance. Some of us missed some of the essence of it, and some have only heard the other side of the story. But I think the Body should be cognizant that this is a disgruntled employee on top of all these other accusations, and millions, literally millions of dollars, have come in to the State coffers because of this particular contract that was started in 1999 under a different Administration. I hope to finish my research, but it's more than what the name on the face of the resolution suggests. Thank you."

Representative Finnegan rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Pine rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative M. Lee rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Lee's written remarks are as follows:

"I stand in support of this resolution which would request the Auditor to conduct a management and financial audit of certain contracts between DOTAX and two management groups.

"The testifiers in favor cited irregularities and problems with management of software, and poor relationships between the DOTAX staffs and those of the contractor. Because of the lucrative nature of the contact, it would seem prudent to review the operations to see if improvements can be made or cost savings found in the process. I urge the Members' support."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.C.R. No. 78, SD 1, entitled: "SENATE CONCURRENT RESOLUTION REQUESTING A MANAGEMENT AND FINANCIAL AUDIT OF DEPARTMENT OF TAXATION CONTRACTS," was adopted, with Representatives Carroll, M. INTRODUCTIONS

The following introduction was made to the Members of the House:

Representative Awana introduced Mr. Alfred Herrera, President of the Children's Alliance of Hawaii.

ORDER OF THE DAY

SUSPENSION OF RULES

At this time, the Chair stated:

"Members, please note that per Committee Referral Sheet No. 75, HR No. 25 has been re-referred solely to the Committees on Human Services and Health; HR No. 227 has been re-referred solely to the Committee on Hawaiian Affairs; and SCR No. 201 has been re-referred solely to the Committee on Labor and Public Employment.

"The Committees on Tourism, Culture, & International Affairs, Finance, and Judiciary waived their referral to these respective measures, and therefore it is appropriate for the House to consider action for adoption."

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the rules were suspended to reconsider action previously taken on H.R. No. 25, H.R. No. 227, and S.C.R. No. 201. (Representatives McKelvey, M. Oshiro and Takai were excused)

RECONSIDERATION OF ACTION TAKEN

Representative B. Oshiro moved that the House reconsider its action previously taken pursuant to the recommendation contained in Standing Committee Report Nos. 952-10 and 1240-10, recommending referral to the Committee on Tourism, Culture, & International Affairs; and Standing Committee Report No. 1360-10, recommending referral to the Committee on Judiciary, seconded by Representative Evans and carried. (Representatives McKelvey, M. Oshiro and Takai were excused.)

UNFINISHED BUSINESS

H.R. No. 25:

Representative B. Oshiro moved that H.R. No. 25, be adopted, seconded by Representative Evans.

Representative B. Oshiro rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, I'd like to ask for a ruling on a potential conflict for HR No. 25. At my law firm we do represent some migrants from the Compact, but I'm not involved in that case. Thank you," and the Chair ruled, "no conflict."

Representative Finnegan rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I have reservations and will submit some written comments."

Representative Ching rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise with reservations to H.R. 25 which strongly urges the United States Department of the Interior and the Congress to provide additional federal aid to the State of Hawaii for the provision of various state services to migrants from the Compact of Free Association Nations.

"The cost to the State to provide various State services to the Compact of Free Association migrants continues to increase each year. I believe the federal government must address the issue of additional federal support for the State so that we can continue providing State services to these migrants; however, I question this resolution for its request to provide a dialysis and chemotherapy center in Micronesia and all areas within the Compact of Free Association. We must look at these centers as a whole process and question how much the construction and operation of these centers would cost our State and country.

"In this current economic crisis, we can barely pay for our own citizens, which makes it seem as if we are jumping the gun to extend our services overseas. This request needs to be scrutinized in a finance committee before it is adopted so we can study the costs associated with such a request. Thank you."

Representative Ward rose to speak in support of the measure, stating:

"In support, Mr. Speaker. And I will submit written comments."

Representative Mizuno rose to speak in support of the measure, stating:

"I'm in support of House Resolution No. 25, Mr. Speaker. The State of Hawaii expends over $100 million a year for our COFA migrants. This resolution is simply to ask Congress to provide adequate funding to Hawaii.

"We only get about $10 to $11 million a year reimbursed by the federal government. We think it's fair that they come up with their fair share, and so that's all the resolution is asking for. And also to see if we can have dialysis treatment centers in Micronesia, as well as chemotherapy centers in Micronesia. That's it, it's quite simple. Thank you, Mr. Speaker."

Representative Finnegan rose to respond, stating:

"Mr. Speaker, I guess I'll just withdraw my written comments and I'll just say a little bit now. Thank you. Mr. Speaker, I actually agree with half of the resolution. The difficulty that I have and my reservation is this request to the United States Congress to provide dialysis and chemotherapy centers in Micronesia and all areas within the Compact of Free Association Nations, Mr. Speaker.

"We're already not getting reimbursed from the feds to us as a state, and then on top of this we're going to go ahead and ask them to provide these services for all of the Compact areas. Mr. Speaker, I can understand why we would request for reimbursement. I think by asking for even more when at a time when we federally or locally don't have very much money to give that we should focus on being reimbursed for the obligations that we have locally. Thank you."

Representative Marumoto rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Marumoto's written remarks are as follows:

"Congress and the federal government owe us. Hawaii should be reimbursed for what COFA immigrants cost Hawaii. Our State government should be paid, not only for medical/welfare costs that they incur and that are borne by the people of Hawaii, but for public education – lower and higher education, not to mention adult education that COFA immigrants utilize. They are also provided related services, such as job training, English classes, and many other amenities provided to our own State residents.

"Hawaii has welcomed COFA emigrants despite the burden on our people. But it is really the federal government that is obligated to underwrite the care for those Pacific Islanders in particular who suffered as a result of past nuclear testing. Hawaii is adversely affected by longstanding federal treaties because of Department of Defense and Department of Interior policies that allow COFA residents unfettered entrance into Hawaii, Guam and the mainland. Because of the relatively small size, Hawaii and Guam bear the brunt of their emigration.

"Many Pacific Islanders enter Hawaii without knowledge of English. They lack higher education and have few job skills. Their cultures have different values in private ownership and work habits compared to Hawaii's fast-paced business practices.

"I cannot stress more strongly that the federal government should help pay for the provision of necessary government services. Others have stated as much. During his term of office, former Governor Ben Cayetano pressed this argument. Our congressional delegation has, in my opinion, not worked as diligently as they might have, to recompense Hawaii agencies that have underwritten the education and care of these new residents. I ask that they renew their efforts to help COFA immigrants by helping local taxpayers."

Representative Manahan rose to speak in support of the measure, stating:

"Mr. Speaker, I'm standing in support. I'd also like to give just a brief rebuttal to the issue of the federal funding that we're not getting. I did find out in a hearing that apparently our Department of Human Services is not trying to lobby hard enough for this federal funding. I think their response to new people who are enrolling in these types of programs, insurance programs, especially for COFA migrants are at a disadvantage because they're just not taking new enrollments. That is in their testimony. Thank you."

Representative Wakai rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Wakai's written remarks are as follows:

"The federal government has shirked its responsibilities for decades. When will it end? The feds have allowed the free migration of those from the Federated States of Micronesia and the Republic of the Marshall Islands into the United States, but have never fully compensated Hawaii for the impact of their presence. Hawaii spends more than $120 million on medical insurance, education and other benefits for people from the Freely Associated States. In return we are given just $11 million in reimbursement.

"These Pacific Islanders arrive on our shores due mainly to a lack of adequate healthcare and economic opportunities. Those with chronic illnesses will die in their homes unless they migrate to Hawaii hospitals. There is no private sector to speak of in these Pacific Islands, so their options are to work for the government or leave. Hawaii is already burdened with providing adequate services to his people. We can no longer accept more Micronesians without compensation. Our budget is crumbling under the weight of this added burden.

"It is irresponsible for the feds to roll out the welcome mat for those who were subjected to American aggression, then force the people of Hawaii to pay for those amends. I support this resolution to compel those in Washington DC to properly fund the impact of Micronesian migration to Hawaii."

Representative Herkes rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Mr. Speaker, in support. I have done some work in these areas; I don't anymore, with rural utility service funding from USDA. There's a lot of money that goes back to Washington and we should be spending it. We should be spending it on these nations that we did a lot to destroy during the war. Thank you."

Representative M. Lee rose to speak in support of the measure, stating:

"Mr. Speaker, in support with some written comments. I just think we ought to remember the history of these islands and our responsibility to them. Thank you."

Representative M. Lee's written remarks are as follows:

"I rise in support of the measure. The Compact of Free Association came about when three sovereign nations, the Federated States of Micronesia, Marshall Islands and Palau voluntarily gave up their autonomy to the United States and have their national defense and other parts of government regulated by United States laws.

"These islands were used for target practice for years and the poor health status of many of the residents is thought to be associated with depleted uranium deposits left by the practices of these years. The countries have essentially no economic activity except for government and their history is a sad commentary on the governance provided by our country.

"Some would allege the Compact has undertones of racism as they are under the rule of a government far away with European roots and the residents of the Compact are heavily Pacific Islanders.

"Nevertheless, we have an obligation to these states to support and protect them, as well as to help them reach a more independent status in the future and to provide adequate medical care."

Representative Ward rose to respond, stating:

"Mr. Speaker, I wish to withdraw my written comments and say a few things in favor of this resolution. Mr. Speaker, this reso needs to be brought up every year. Year after year we need to remind Congress of the obligations. We need to know that in that agreement we promised the Micronesians they could freely move throughout the United States, and as any other citizen would be treated, so could they. As my good friend from Mililani indicated, they went through 12 years of the equivalent of the Hiroshima blast, year by year, hundreds of times, hundreds of atomic explosions. So there is an obligation to watch over them.

"But in terms of the overall condition of Micronesia, having been a United Nations consultant there, the economy is basically government. 70% of the economy is either a transfer payment or welfare payment or some kind of an aid if you will to keep the government afloat. It has no private sector is the bottom line. So what we are trying to do by getting payments from the federal government, the federal government can't even fund Micronesia enough to have its own economy. To have a country without an economy is not really much of a country, but we're trying to help as much as possible and this is the reso that every year we have to keep reminding them, get back to the Micronesians and help them to do what they need to do to survive. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and H.R. No. 25, entitled: "HOUSE RESOLUTION STRONGLY URGING THE UNITED STATES DEPARTMENT OF THE INTERIOR AND THE UNITED STATES CONGRESS TO PROVIDE ADDITIONAL FEDERAL AID TO THE STATE OF HAWAII FOR THE PROVISION OF VARIOUS STATE SERVICES TO MIGRANTS FROM THE COMPACT OF FREE ASSOCIATION NATIONS; DEEM MIGRANTS ELIGIBLE TO RECEIVE FEDERALLY FUNDED FINANCIAL AND MEDICAL ASSISTANCE; AND PROVIDE DIALYSIS AND CHEMOTHERAPY CENTERS IN MICRONESIA AND ALL AREAS WITHIN THE COMPACT OF FREE ASSOCIATION NATIONS," was adopted, with Representatives M. Oshiro and Takai being excused.

H.R. No. 227:

Representative B. Oshiro moved that H.R. No. 227, be adopted, seconded by Representative Evans.

Representative Awana rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Awana's written remarks are as follows:

"Mr. Speaker, I stand in strong support. The tradition of native Hawaiian tattooing has been present here in the Hawaiian Islands for hundreds of years, long before the introduction of western influence.

"Nationally recognized Keone Nunes, the *kahuna kakau* best states this about traditional Hawaiian tattooing: "If people want to get a tattoo just because they want it, I will say no. If they want it for their journey and growth of their own understanding of their family and who they are, I'll consider it. I don't want to tattoo the world. I want to tattoo the people that are more aware of the significance of their tattoo."

"Not only is traditional Hawaiian tattooing an art form, within the Hawaiian community it is a practice that expresses who we are, where we come from and what we stand for as a native people. I truly appreciate the support from Members on this resolution."

Representative Sagum rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Sagum's written remarks are as follows:

"Mr. Speaker, I rise in support of the resolution in recognition of *kakau* (or tattoo) as a *Kanaka* or Hawaiian practice. Polynesians rely on *kakau* and other adornments to communicate rank and status, for cultural resistance, revival and identity."

The motion was put to vote by the Chair and carried, and H.R. No. 227, entitled: "HOUSE RESOLUTION RECOGNIZING TRADITIONAL HAWAIIAN TATTOOING AS AN ART FORM," was adopted, with Representatives M. Oshiro and Takai being excused.

S.C.R. No. 201:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, S.C.R. No. 201, entitled: "SENATE CONCURRENT RESOLUTION URGING THE DEPARTMENT OF LABOR AND INDUSTRIAL RELATIONS TO ADOPT RULES TO PROHIBIT ABUSIVE WORK ENVIRONMENTS," was adopted, with Representatives M. Oshiro and Takai being excused.

ANNOUNCEMENTS

Representative Evans: "Thank you, Mr. Speaker. Today represents how far into 2010 women must work to earn what men earned in 2009. Today is Equal Pay Day.

"Women continue to earn on average, 77 cents on the dollar to their male counterparts according to the Bureau of Labor Statistics. And with women now making up half the workforce and more families are dependent on a woman's paycheck, pay equity is more important than ever. May I have permission to submit additional comments. Thank you, Mr. Speaker."

Representative Evans' written remarks are as follows:

"The American Federation of Labor and Congress of Industrial Organizations highlights some facts about working women in Hawaii:

- According to the Census Bureau's survey of men's and women's earnings in 2008, the ratio of women's earnings to men in Hawaii was among the highest in the nation at about 80.5 percent.
- However, the rate of progress in closing our State's wage gap is slower than average. Hawaii ranks 34th among states in closing the hourly wage gap.
- At the current rate of change, Hawaii's working women won't have equal pay until after 2050.

"Gender wage discrimination has been illegal since President Kennedy signed the Equal Pay Act in 1963, yet the wage gap persists. Millions of women continue struggling today to make ends meet while doing same jobs as men under similar working conditions with equal skill, effort and responsibilities. According to the National Women's Law Center, the average Hawaii woman must receive a bachelor's degree before she can earn as much as the average Hawaii male high school graduate.

"Pay equity is not just a woman's issues; it is a family issue. Lower income for women makes it more difficult for them to make ends meet. When women get equal pay, their family income rises and the entire family benefits.

"We can achieve equal pay. With education and advocacy, we can progress towards women getting paid equally for similar jobs."

Representative Berg: "Thank you Mr. Speaker. Just an informal announcement to our colleagues. I have a legislative intern who is about to graduate with a sociology degree from the University of Hawaii. She'll be going around to the offices asking you to consider the possibility of filling out an informal, unofficial survey so that she can get some data for her last final paper. Her name is Any Popovich and she's from my office. We'll be also sending a memo out via email to your office managers. Thank you."

The House of Representatives reconvened at 11:42 o'clock a.m.

ORDER OF THE DAY

SUSPENSION OF RULES

On motion by Representative Evans, seconded by Representative Pine and carried, the rules were suspended for the purpose of considering certain House Bills and Senate Bills for Final Reading by consent calendar. (Representatives Har, M. Oshiro, Takai and Wooley were excused.)

UNFINISHED BUSINESS

Conf. Com. Rep. No. 8-10 and H.B. No. 1862, HD 1, SD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1862, HD 1, SD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. Mr. Speaker, I'm rising to speak against House Bill 1862. Mr. Speaker, this bill is continuing the work of this Legislature to criminalize an activity which I don't condone, but to criminalize it without paying any attention to the fact that the City and County has not provided adequate public restrooms.

"For those people who can walk into Macy's or can walk into a restaurant, this isn't an issue. But for those people who wouldn't be welcomed in those locations, it is an issue. We lack the public facilities for the public. The unfortunate thing about this bill is, and I could have supported it if it had provisions in it for this task force to look at what is the obstacle for creating the public restrooms. You can't say to some of these people, 'You can go to the police department down there,' because many of those people don't look at the police or that office as a comfortable place to go. Other facilities aren't open for them. We've even heard stories about tourists coming off the ships and coming into the Chinatown area and bemoaning the lack of any public facilities.

"So I think that we really went the wrong way with this measure. The task force I hope would voluntarily take a look at why we don't have public restrooms down in this area that is so heavily used by so many people with this large population. You go to many other cities and you don't find the lack of public restrooms that we have here. You don't find a public park that the City put together without any restroom in it.

"So I just can't support this legislation. I've opposed it before, I oppose it again. Somehow the message isn't getting through to the City to say, 'Let's

get moving. Let's get some public facilities in place, and don't build parks without restrooms that are kept open.' Thank you."

Representative Marumoto rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I am in favor of this measure however I do have reservations. Similar to the previous speaker, I do not condone using the streets as a bathroom and I do believe we need more facilities. Having traveled to some foreign nations, I've noticed that there are very small public urinals for men available on the streets and they take up less space than a phone booth. I certainly would encourage the City or the State government to look into these conveniences. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1862, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC ORDER," passed Final Reading by a vote of 46 ayes to 1 no, with Representative Thielen voting no, and with Representatives Har, M. Oshiro, Takai and Wooley being excused.

Conf. Com. Rep. No. 55-10 and S.B. No. 2187, SD 1, HD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2187, SD 1, HD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Berg rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition. Thank you. And if colleagues would just beg my indulgence for a few moments. Many of you have asked me why I have consistently voted in opposition to this measure. Initially, I opposed this bill because it gives the HTA the authority to withhold from public disclosure competitively-sensitive information including surveys, questionnaire forms, coding sheets, database records of information.

"On the surface Mr. Speaker, the list seems like a small adjustment, particularly in light of the huge task that HTA has to present Hawaii in new creative ways that will invite visitors to travel at this time in the world's economic market. My initial concerns had to do with transparency and communication, information to the public, and also to ourselves. But with each Crossover and every time the bill was before us, more has been revealed to me about the Hawaii Tourism Authority, it's operation, and the need for even more attention by us, the monetary conduit for HTA.

"My concerns were particularly exacerbated when I read the January '09 Auditor's Report of the HTA in which the observation was made that in the last five years since the previous audit, HTA has spent nearly $270 million in State funds or 90% of its marketing funds to attract visitors from North America and Japan. Without a strategic plan that maps out the long term goals and processes to assess the accomplishments of its major contractors, the Authority's Board of Directors is unable to demonstrate that the promotional dollars have been spent purposefully and effectively. By failing to define its own strategies and account for its efforts, the Authority has not fulfilled its leadership role to manage Hawaii tourism in a sustainable manner during these times of economic decline or prosperity. The Authority's failure to establish clear objectives and account for its own activities, expands to major contractors.

"I find this observation particularly troubling. It's true that the HTA has presented a PowerPoint presentation of its goals, but at this time of uncertainty Mr. Speaker, economically I would like to encourage our colleagues to be much more discerning in this particular bill. It is not specifically a money bill and that's why I know we're moving it forward. However, changing the requirements of HTA from developing measures of effectiveness to assess the benefits according to the employment rate, the state taxes, the lesser known and undeveloped destinations, to only requiring them to progress on whether or not their marketing plans have reached their goals, I think is contradicting actually to what the mission of HTA is. If the measures of effectiveness are focused only on plans, I think that we're missing the mark.

"So I went online Mr. Speaker, to take a look at the HTA website. I put my name in for information on their email address a couple weeks ago and still haven't received a response from them. I looked at the Director's Board of Agenda, the meetings and agendas - there's nothing posted. So with a $88 million budget Mr. Speaker, for this fiscal year '09-'10, and only having spent $67 million so far, and only having $269,000 reduction in their budget because of furloughs, I have misgivings about this bill at this time. Maybe I would feel better if they could give $250,000 to the Early Learning Council, or maybe $1 million for a SHPD audit, or maybe help with the agricultural inspectors. I'm troubled by the budget and I know that there is much we have to learn about HTA, but I urge my colleagues to be discerning in this particular bill. Thank you, very much."

Representative Manahan rose to speak in support of the measure, stating:

"Mr. Speaker, I'm standing support of this measure. Mr. Speaker, as mentioned, this bill just simply tries to keep proprietary sensitive marketing information for a limited time and not in perpetuity. After a while the information can be released. However, because the HTA is a quasi-public, semi-autonomous entity that also conducts business, there is sensitive marketing information that can be potentially damaging if our competition is privy to it at a certain point in time. So it's a timing thing. It's a timing issue.

"As far as the previous speaker's concerns regarding the audit, I think those have been adequately addressed by the Board. They are working on their strategic plan and actually what this bill does is continue their efforts, as far as maintaining their measures of marketing effectiveness, as well as making it cohesive with their current strategic plan, which they are working on. Please, if you could allow me to insert additional written comments in support. Thank you."

Representative Manahan's written remarks are as follows:

"Your Committee on Tourism, Culture, & International Affairs, to which was referred S.B. No. 2187, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII TOURISM AUTHORITY," begs leave to report as follows:

"The purpose of this bill is to improve Hawaii's tourism industry and the administration of the Hawaii Tourism Authority (HTA) by:

(1) Authorizing HTA to maintain confidentiality of certain sensitive information;

(2) Directing HTA to develop program performance goals and targets that can be monitored as market gauges and used as attributes to evaluate their promotions;

(3) Conforming reporting requirements for contracts or agreements entered into by HTA to current practices; and

(4) Making permanent statutory provisions that exempted HTA accounts from the supervision of the Comptroller and authorized the use of up to five percent of moneys in the Tourism Special Fund (TSF) for administrative expenses.

"HTA and Hawaii Hotel and Lodging Association supported this bill. The Tourism Liaison and Office of Information practices provided comments.

"Your Committee has amended this bill by:

(1) Adding provisions that allow marketing information to be disclosed after the marketing plans and strategies are executed;

(2) Specifying that HTA executive meetings must adhere to the Sunshine Law under Chapter 92, Hawaii Revised Statutes;

(3) Extending, instead of making permanent, statutory provisions that exempted HTA accounts from the supervision of the Comptroller and authorized the use of up to five percent of moneys in the TSF for administrative expenses; and

(4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

"As affirmed by the record of votes of the members of your Committee on Tourism, Culture, & International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2187, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2187, S.D. 1, H.D. 1, and be referred to the Committee on Finance.

"Additionally, the Representative from the 18th District had every opportunity to voice her concerns about the bill on March 8th, 2010 at the hearing held by the Tourism, Culture & International Affairs Committee, of which she is a member. As the voting record shows, she was absent from the hearing, and rather than voicing her concerns during the hearing, she chose to voice her concerns during Final Reading which leads me to believe she is campaigning on the Floor."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2187, SD 1, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII TOURISM AUTHORITY," passed Final Reading by a vote of 46 ayes to 1 no, with Representative Berg voting no, and with Representatives Har, M. Oshiro, Takai and Wooley being excused.

Conf. Com. Rep. No. 56-10 and S.B. No. 2441, SD 2, HD 2, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and S.B. No. 2441, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO ENDANGERED SPECIES," passed Final Reading by a vote of 47 ayes, with Representatives Har, M. Oshiro, Takai and Wooley being excused.

Conf. Com. Rep. No. 57-10 and S.B. No. 2607, SD 2, HD 1, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and S.B. No. 2607, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO ACTIVITY DESKS," passed Final Reading by a vote of 47 ayes, with Representatives Har, M. Oshiro, Takai and Wooley being excused.

At 11:53 o'clock a.m., the Chair noted that the following bills passed Final Reading:

H.B. No. 1862, HD 1, SD 1, CD 1
S.B. No. 2187, SD 1, HD 2, CD 1
S.B. No. 2441, SD 2, HD 2, CD 1
S.B. No. 2607, SD 2, HD 1, CD 1

STANDING COMMITTEE REPORTS

Representative M. Oshiro, for the Committee on Finance presented a report (Stand. Com. Rep. No. 1375-10) recommending that H.R. No. 205, as amended in HD 1, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.R. No. 205, HD 1, be adopted, seconded by Representative Evans.

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise with reservations on Stand. Com. No. 1375. This is a resolution about what the public can see, and about what we do in the confines of this building. Mr. Speaker, transparency and openness are the hallmarks of a strong democracy. Stated differently, we can't be too open, we can't be too transparent, we can't show them too much of what we do because the more that they know, the more open and vibrant a democracy is.

"What we've got with Capitol TV I think is good, but I have a vision that someday we're going to be like C-SPAN. We're going to have all hearings, all the time, for all the people, whenever they want it. They can fall asleep because a lot of it's boring obviously. But C-SPAN at least gives them the opportunity. We should be pushing the envelope to bring C-SPAN to the State of Hawaii.

"The second thing I envision, and I know I've said this many, many times, is a bipartisan approach to what media, channels or whatever the public view of what we're doing in the State of Hawaii in the Legislature. So it's not just a one man show. And I say that with all due respect in that the Speaker has all control of what is seen and what is not seen in the State Legislature. So Mr. Speaker, with the limited coverage and the limited lack of bipartisanship I have to have reservations about this, but still have the vision that it'll happen someday.

"I find it a great honor to be speaking in front of a man from Russia. I find the lessons that they are teaching us by practicing democracy and openness even more so than sometimes in our own country or even in this State. It's a great honor to be speaking before him because they know by experience when there is no transparency and there's only a few people making decisions for everybody, we get in danger and we get in trouble with democracy. Thank you, Mr. Speaker."

Representative Ching rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in opposition [*sic*] to H.R. 205 – which establishes policies for the legislative broadcast program's cablecasts of House of Representative's proceedings.

"While I understand the intention of this measure, in view of what has happened this year, whereby votes were miscounted on a Minority member's bill and the mistake only caught on Minority Caucus' cameras, it appears this subject needs revisiting. I enter into record the Opinion article from the *Honolulu Advertiser* dated March 5, 2010 entitled "Legislators: Stand up and be Counted" by Common Cause, League of Women Voters of Hawaii, and others.

"Although changes have been made to the original measure, I still worry about the transparency of our sessions because of the wording which states that "all public committee hearings, legislative sessions, and other legislative proceedings shall be authorized for programming and selected by the Speaker of the House of Representatives or the Speaker's designee." I kindly ask that these individuals that authorize programming be cognizant of the fact that it is the public's right to be able to listen and watch all proceedings.

"I feel we should protect the public's right to access and not curb in anyway the minority's broadcast. The language of this measure does not adequately protect the rights of the minority and seems questionable. People should be allowed to tape hearings or Floor sessions. The public should never be denied access in a place that belongs to them. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.R. No. 205, HD 1, entitled: "HOUSE RESOLUTION ESTABLISHING POLICIES FOR THE LEGISLATIVE BROADCAST PROGRAM'S CABLECASTS OF HOUSE OF REPRESENTATIVES' PROCEEDINGS," was adopted, with Representatives Har, M. Oshiro, Takai and Wooley being excused.

Representative Hanohano, for the Committee on Public Safety presented a report (Stand. Com. Rep. No. 1376-10) recommending that S.C.R. No. 172, SD 1, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.C.R. No. 172, SD 1, be adopted, seconded by Representative Evans.

Representative Pine rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Finnegan rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ching rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Marumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.C.R. No. 172, SD 1, entitled: "SENATE CONCURRENT RESOLUTION REQUESTING THE DEPARTMENT OF PUBLIC SAFETY AND THE HAWAII PAROLING AUTHORITY TO IDENTIFY UP TO FIVE HUNDRED NON-VIOLENT INMATES WHO COULD BE INVOLVED IN A DAY REPORTING CENTER, BE MONITORED VIA TWENTY-FOUR HOUR/SEVEN DAYS A WEEK GPS ELECTRONIC MONITORING, BE INCLUDED IN AN EXTENDED WORK FURLOUGH PROGRAM, AND/OR BE ELIGIBLE FOR AN EARLY RELEASE PROGRAM," was adopted, with Representatives Har, M. Oshiro, Takai and Wooley being excused.

Representative Hanohano, for the Committee on Public Safety presented a report (Stand. Com. Rep. No. 1377-10) recommending that S.C.R. No. 180, SD 1, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and S.C.R. No. 180, SD 1, entitled: "SENATE CONCURRENT RESOLUTION REQUESTING A REPORT OF THE WIRELESS ENHANCED 911 FUND," was adopted, with Representatives Har, M. Oshiro, Takai and Wooley being excused.

Representative Hanohano, for the Committee on Public Safety presented a report (Stand. Com. Rep. No. 1378-10) recommending that S.C.R. No. 190, SD 1, be adopted.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and S.C.R. No. 190, SD 1, entitled: "SENATE CONCURRENT RESOLUTION REQUESTING THE CORRECTIONS POPULATION MANAGEMENT COMMISSION TO RESUME ITS MEETINGS AND TO MEET AT LEAST QUARTERLY," was adopted, with Representatives Har, M. Oshiro, Takai and Wooley being excused.

Representative Hanohano, for the Committee on Public Safety presented two reports:

(Stand. Com. Rep. No. 1379-10) recommending that S.C.R. No. 191, SD 1, be adopted; and

(Stand. Com. Rep. No. 1380-10) recommending that S.C.R. No. 192, SD 1, be adopted.

Representative B. Oshiro moved that the reports of the Committee be adopted, and that S.C.R. No. 191, SD 1; and S.C.R. No. 192, SD 1, be adopted, seconded by Representative Evans.

Representative Pine rose to speak in support of both measures with reservations, stating:

"I just want to note my reservations on these measures. The reason I have reservations is the Department of Public Safety said they that would love to do both of these, but really in reality, they just don't have the additional funds to do so."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.C.R. No. 191, SD 1, entitled: "SENATE CONCURRENT RESOLUTION REQUESTING THE HAWAII PAROLING AUTHORITY TO ESTABLISH A HOPE PAROLE PILOT PROGRAM," was adopted, with Representatives Har, M. Oshiro, Takai and Wooley being excused; and

S.C.R. No. 192, SD 1, entitled: "SENATE CONCURRENT RESOLUTION REQUESTING THE DEPARTMENT OF PUBLIC SAFETY TO FACILITATE THE DELIVERY OF THE HUIKAHI RESTORATIVE CIRCLES PROGRAM IN HAWAII CORRECTIONAL FACILITIES," was adopted, with Representatives Har, M. Oshiro, Takai and Wooley being excused.

STANDING COMMITTEE REPORTS

Representative Herkes, for the Committee on Consumer Protection & Commerce presented a report (Stand. Com. Rep. No. 1381-10) recommending that H.R. No. 136, as amended in HD 1, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.R. No. 136, HD 1, be adopted, seconded by Representative Evans.

Representative Herkes rose to speak in support of the measure, stating:

"Mr. Speaker, in very strong support. This deals with Hawaiian Ocean View Estates which is in the Kahuku district of Hawaii Island and in my district. About 6,000 people live in Ocean View. They are in the middle of a 30 mile stretch with no potable water, no pipe water, and it's about a 27 mile round trip to the nearest water spigot.

"About 12 to 14 years ago there was money in the budget to develop a water well and system for Ocean View, but then-Governor Cayetano would not release the money. During the 2005 Session, $6 million was put in the budget for a water well and system for Ocean View. Governor Lingle released the money in April of 2006. So Mr. Speaker, that was four years ago.

"First, they had to do a test well. USGS was charged with that and they drilled about two or three times a week. They finally completed it, but you can't use a test well for a production well. So we had to start all over and the decision was made to drill *mauka* of the highway. The well was completed about two years ago and it just sits there.

"Since then the Hawaii County Department of Water Supply has hired a company to design, build and complete the system. This company, Bolton Inc., has made significant changes to the design, much of which is contrary to the original design and the EA that the community supported. The changes are significant and the community was not advised or given an opportunity to comment on the changes. The community is very angry and very frustrated. So am I.

"Our job as elected officials is to support and protect the community and the taxpayers; not the Department of Water Supply. I thank all of the 11 of you that voted for this resolution in Committee the other day and I hope that this will be adopted on the Floor. And then a demand letter will be sent to the Mayor of Hawaii County because that's where the money went. The decision was made to hire the Department of Water Supply and there will be some very pertinent questions and we will ask for a response in writing. Then we'll investigate after that if we have to. I support this resolution."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I would just like to support the words of the colleague from Ka'u and I'd like to adopt them as if they were my own."

ANNOUNCEMENTS

Representative Thielen: "Thank you Mr. Speaker. Happy Earth Day to everyone and I would also like to remind Members that tomorrow is probably about the 10th or 11th Hemp Aloha Shirt Friday and I hope everyone will wear natural fibers tomorrow in honor of Earth Day. Thank you."

Representative Souki, for the Committee on Conference on behalf of Senate Chairs English, Baker and Kim, and House Chairs Souki and M. Oshiro, requested a waiver of the 24-hour Conference Committee advanced notice requirement pursuant to Rule 13 of the Joint Senate/House 2010 Committee on Conference procedures, for the purpose of having a Conference on the following measure on Friday, April 23, 2010, at 5:55 p.m. in Conference Room 225, and the Chair "so ordered."

S.B. No. 1611, SD 2, HD 2, Relating to Highways.

Representative Evans: "Mr. Speaker, may I submit some comments regarding Earth Day in the Journal? Thank you. I really want to also just thank everyone out there across the State that are doing wonderful projects this week and this weekend honoring Earth Day and caring for our *aina*. Thank you, Mr. Speaker."

Representative Evans' remarks are as follows:

"Today we celebrate the 40th anniversary of Earth Day!

"Sen. Gaylord Nelson is the creator of Earth Day, which helped jumpstart the modern environmental movement. The first Earth Day spurred Congress into creating some of the most vital environmental legislation, including: the Clean Water Acts, the Federal Pesticides Act,

the Clean Air Act, and the Environmental Education Act. Later in 1970, President Richard Nixon and Congress established the U.S. Environmental Protection Agency, which would help repair existing damage to the environment and establish guidelines to make the environment cleaner and safer.

"Today we are challenged to create a healthier and more prosperous clean-energy economy for now and the future.

"President Obama said, "As we continue to tackle our environmental challenges, it's clear that change won't come from Washington alone." That change will come from us – from people all across the country taking action within their homes and communities to create a global green economy. Today can be a turning point to advance energy efficiency, renewable energy, and green jobs.

"During the month of April, Recycle Hawai`i and Earth-Friendly Schools Hawai`i co-sponsored "Caring for the Earth Month – A Billion Acts of Green" on the Big Island to celebrate this anniversary, which involved artists teaching students about the environment, hula demonstrations, and partnerships with museums and art institutions to raise environmental awareness through art.

"Today the Honoka‘a People’s Theater and Hawai'i Farmers Union on the island of Hawai'i invite the public to celebrate the earth, and this weekend on April 24, Earth Day fairs will be held at Pana'ewa Zoo and Kahalu'u Bay Beach Park .

"We should remember that every day is Earth Day and we can live a greener lifestyle each day. There are many ways we can do this:

- Plant trees, which helps to reduce greenhouse gas emission and to clear the pollution.
- Learn more about the environment and teach others about it. Make a commitment to see what more you can do to protect our Earth.
- Recycle. Support our local growers and producers. Take a cloth bag when you go shopping instead of using plastic bags.
- Help get rid of litter on our roadways, your neighborhood streets, and especially around the Capitol.
- Commute without polluting. Ride your bike or take the bus.

"We should remember – What we do today shapes what our earth will be like tomorrow."

Representative Mizuno, for the Committee on Human Services requested a waiver of the 48-hour advanced notice requirement for the purpose of hearing the following measure on Friday, April 23, 2010, at 11:00 a.m. in Conference Room 229, and the Chair "so ordered."

GOVERNOR'S MESSAGES

The following messages from the Governor (Gov. Msg. Nos. 259 through 262) were announced by the Clerk and received for possible future consideration:

Gov. Msg. No. 259, transmitting her statement of objections to H.B. No. 1642, HD 1, SD 2, CD 1, as follows:

"EXECUTIVE CHAMBERS
HONOLULU
April 22, 2010

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 1642

Honorable Members
Twenty-Fifth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 1642, entitled "A Bill for an Act Relating to the Purchases of Health and Human Services."

The purpose of this bill is to require proposals for purchases of health and human services under chapter 103F, Hawaii Revised Statutes, to be submitted only by licensed providers. This bill also requires that these proposals include all costs, fees, and taxes, and that any award or contract shall be for the amount of the proposal. Finally, this bill prohibits any award or contract under chapter 103F from including any other payment, rebate, or direct or indirect consideration that is not included in the proposal.

This bill is objectionable because it adversely impacts health and human services contracts by limiting the pool of qualified providers, decreasing competition, and increasing costs.

Both the Department of Health and the Department of Human Services issue requests for proposals that do not require licensure at the time the proposal is submitted. The licensure process for providers of health and human services contracts can be expensive and time consuming, particularly for non-profit organizations. Applicants currently submit proposals with the expectation that licensure must be obtained to perform the contracted services if they win the bid. The inability of these providers to bid before they have the requisite license will reduce the number of qualified providers that will submit proposals, thereby limiting the number of bidders available to provide valuable services to the disabled, sick, and low income families. Reducing the number of applicants that may bid on a request for proposals also reduces competition which can lead to higher bids and thus higher costs to the State. It is in the best interest of the public to allow the purchasing agent to decide at what point, upon proposal deadline or prior to award or contract commencement date, that licenses should be in place.

This bill is also objectionable because it requires any award or contract to be for the amount of the proposal. Under the current procurement process, the bidder proposes a dollar amount to provide the proposed services and the purchasing agency determines the amount of the award based on the availability of funds, the scope of services, and the quality of the proposal. Under this bill, the bidder dictates the award amount and the purchasing agency would no longer have the authority to adjust the award during contract negotiations, even in instances when there are legitimate budget constraints.

Furthermore, for some health and human services contracts, the total amount of the final contract cannot be determined in advance and, therefore, cannot be included in a bidder's proposal. As an example, payment under a contract for residential services may be based on the number of bed-days used times a set per-day rate. The number of days actually utilized is not known in advance. Therefore, the requests for proposals are structured to require bids that reflect the cost of units of service with the caveat that the exact number of units to be used may vary from estimates provided in the solicitation.

Consequently, the requirement in this bill that proposals include all costs, fees, and taxes, and that the resulting contract be for the amount of the proposal, would remove the ability of state agencies to implement rate schedules that are used for many health and human services.

If purchasing agencies must estimate the total quantity of services needed under a particular solicitation in order to comply with this measure, it is likely costs to the State would increase. In order to solicit a bid that includes all costs of the resulting contract, the State will have to generously estimate the total amount of services required, rather than structuring the solicitation and contract to allow the State to pay only for the services that are actually rendered. Alternatively, the State may specify in the solicitation a possible range of services that will be required under the contract and the bidders will be required to bid at the upper range of possible bid prices for the total quantity to ensure that they have not underbid.

Finally, it appears that the provisions of this bill relating to insurance premium or general tax rebates or waivers are unnecessary. The Legislature included them based on a misperception that the State should not be paying its contractors for these taxes or, in the case of Medicaid contracts, that the State would be unable to secure federal matching funds to pay those costs. In fact, these taxes are an accepted cost of doing business in the State, which purchasers, including State agencies, typically include in their contracts for goods and services. Moreover, the State may obtain federal reimbursement for such taxes to the same extent that it receives federal funds for other federally-reimbursed expenses.

For the foregoing reasons, I am returning House Bill No. 1642 without my approval.

Respectfully,
/s/ Linda Lingle

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 2546

Honorable Members
Twenty-Fifth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No.

2546, entitled "A Bill for an Act Relating to Restoration of Certain Forfeited Professional and Vocational Licenses."

The purpose of this bill is to establish time limits to restore forfeited licenses of chiropractors and of real estate salespersons and brokers.

A companion measure, Senate Bill No. 2699, was also passed during the Regular Session of 2010. Because I approved Senate Bill No. 2699 as Act 11 of the Session Laws of Hawaii 2010, which accomplished the purpose of this bill, there is no need to also approve this bill.

For the foregoing reason, I am returning House Bill No. 2546 without my approval.

Respectfully,
/s/ Linda Lingle

"EXECUTIVE CHAMBERS
HONOLULU
April 22, 2010

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 2394

Honorable Members
Twenty-Fifth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2394, entitled "A Bill for an Act Relating to the Board of Trustees of the Deferred Compensation Plan."

The purpose of this bill is to delete the requirement that the Director of Human Resources Development be the Chairperson of the Deferred Compensation Plan Board of Trustees ("Board"), and to provide that the Director is an ex officio member. This bill also eliminates two appointed at-large members of the Board of Trustees, and replaces them with two state employee appointees. This bill is objectionable because it negatively impacts the State's supplemental retirement plan for over 28,000 government employees by changing the composition of the Plan's Board of Trustees.

First, this measure adversely impacts the Board of Trustee's ability to make sound investment decisions by removing two at-large member positions. The two at-large member positions are currently filled by non-government employees, including one with private sector finance and investment experience. First-hand experience and working knowledge of banking and investment is helpful for a plan with $1,400,000,000 in assets. Moreover, non-state members have the ability to provide a perspective on the management and performance of the plan that may not be available to state members. Given that five of the seven members currently on the Board are state employees, employee concerns are already adequately represented on the Board.

Secondly, this measure unnecessarily disrupts the administration of the Plan by removing the Director as the Chair of the Board. Currently, the Plan is administratively attached to the Department of Human Resources Development ("Department"), which provides staff support and ensures the Plan is consistently administered along with all other employee benefits in the State's total compensation package. As part of those duties, the Department responds to inquiries by Plan participants, prepares information and fliers regarding the Plan for beneficiaries and oversees the Plan contractors. Removing the Department Director as the Chair of the Board will remove the administrative support and coordination provided by her office.

The Board has had the same statutory structure since 1981, and has carried out its fiduciary responsibilities in an appropriate manner.

I would note that since 2007, the Plan has received several nationally recognized awards. The Plan's most recent awards include the National Association of Government Defined Contribution Administrators' 2008 and 2009 "Leadership Recognition Awards". Given the positive steps that the Board of Trustees has taken to improve the Plan, this bill is unnecessary.

For the foregoing reasons, I am returning Senate Bill No. 2394 without my approval.

Respectfully,
/s/ Linda Lingle

Twenty-Fifth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2501, entitled "A Bill for an Act Relating to Public Accountancy."

The purpose of this bill is to require accounting firms that engage in attestation work to undergo peer review as a condition of obtaining a permit to practice in Hawaii. Specifically, the bill mandates that every accounting firm, including the Hawaii offices and Hawaii engagements of foreign or multi-state firms, undergo a peer review every three years on the firm's Hawaii audit, compilation of financial statements, government, and public company work and submit evidence of such a peer review at the time of the renewal of the firm's permit to practice.

Appropriately conducted peer reviews ensure the quality of work prepared by certified public accounts and help protect the interests of the public who rely of the financial statements, audits and similar work prepared by these firms.

However, this bill is objectionable because it would mandate office-specific peer reviews that may not be consistent with current peer review standards set forth by the American Institute of Certified Public Accountants. Many multi-state and multinational firms practicing in Hawaii already participate in nationally recognized systems of peer review that include the engagements and work these firms do in our State.

No other state mandates office-specific reviews. Further, the proposed requirements in this bill would place a significant burden on the Hawaii Board of Public Accountancy that would be required to establish and administer a stand-alone peer review program not required elsewhere.

The additional requirement of office-specific peer reviews may discourage some firms from engaging in assignments in Hawaii, thereby limiting the choice of public accounting firms Hawaii companies can select when seeking accounting services. Additionally, small, local firms that have elected to not undergo voluntary peer review would now be mandated to assume the costs of going through this process in order to conduct attestation-type accounting activities.

For the foregoing reason, I am returning Senate Bill No. 2501 without my approval.

Respectfully,
/s/ Linda Lingle
LINDA LINGLE
Governor of Hawaii"

OTHER COMMUNICATIONS

The following statement was read by Senate President Colleen Hanabusa at 12:08 a.m., Saturday, April 24, 2010, in Conference Room 309:

"Prior to the convening of the 2010 session, the House Speaker and I prepared an internal legislative timetable, setting April 23, 2010 as the last day to file fiscal bills to deck for Final Reading. A few weeks ago the Speaker and I signed the Conference Committee Guidelines that provides, in paragraph 1l(c) that all Conference Committee reports shall be filed by 11:30 p.m. on Friday, April 23rd.

As you know, several measures were being negotiated throughout the evening. Several Conference Committees, even though they had reached agreement on the substance of these measures, did not have the time to prepare and adequately review the reports and the final form of the Conference Drafts prior to the filing deadline.

Therefore, the Speaker and I are exercising our powers under Rule 13 of the Conference Committee Guidelines, to make an exception to this deadline for the bills that were agreed to and voted upon this evening.

The Speaker and I are granting this exception to provide the Conference members with an opportunity to ensure that the Conference Committee reports and the Conference drafts reflect the agreements reached on the evening of May 1st.

The Speaker and I felt that since the Conferees had reached timely agreement on these bills, allowing these bills to die based on an internal procedural deadline for filing paperwork with the Clerks' Offices, is not in the best interest of the people of Hawaii.

For the bills agreed to and voted on this evening, the Clerks of the respective Chambers shall accept Conference drafts between 12:00 noon and 1:00 p.m. tomorrow Saturday, April 24th.

We wish to emphasize that previous Legislatures, when facing similar problems in past years, have followed the same procedure we will follow with these measures."

FIFTY-SEVENTH DAY

Monday, April 26, 2010

The House of Representatives of the Twenty-Fifth Legislature of the State of Hawaii, Regular Session of 2010, convened at 9:33 o'clock a.m., with the Speaker presiding.

CONFERENCE COMMITTEE REPORTS

At this time, the Chair stated:

"Reports of Conference Committees. Members as you know, the Senate President and I waived the Friday midnight deadline for the filing of Committee reports and Conference drafts for certain measures which were agreed upon in public on Friday evening. I wanted to take this opportunity to explain the procedural reasons why these reports and proposed drafts were not filed on Friday night and the reasons why the President and I waived the deadlines.

"Back in January of this year the Senate President and I prepared an internal Legislative timetable, setting April 23rd, 2010 as the last day to file fiscal bills for Constitutional decking purposes prior to Final Reading. On March 30th of this year the President and I signed Conference Committee guidelines that provided in paragraph 11(c) that all Conference Committee reports for fiscal bills should be filed by 11:30 p.m. on Friday, April 23rd.

"However, some measures were being negotiated up to the last few minutes before midnight on Friday night. These Conference Committees, even though they had reached agreement on the substance of their measures, did not have the time to prepare and adequately review the Conference reports and final form of the Conference drafts prior to the filing deadline.

"Therefore, the President and I exercised our powers under Rule 13 of the Conference Committee Guidelines for an exception to this deadline for these measures which were agreed upon in public. If need be, we allowed these measures to be filed with the respective Clerk's offices between 12:00 noon and 1:00 p.m. on Saturday, April 24th.

"The President and I felt that since the Conferees had reached a timely agreement on these bills, allowing these measures to die based on an internal procedure deadline for filing the requisite paperwork with the Clerk's office in each Chamber was not in the best interest of the people of Hawaii. Rather we felt it important to exercise the discretion that the guidelines gave us to waive that deadline and ensure that important initiatives would reach the Floor of both Chambers for Final Reading as the Conference Committees intended.

"I wish to emphasize that previous Legislatures, when facing similar situations in the past, have followed the same procedure we will be following with these measures. So please note that the Conference Committee Reports Nos. 154-10 to 159-10 as listed on pages 30 and 31 will receive the required 48-hour notice of final form as required by our Constitution and will therefore be before this Chamber for Final Reading on Wednesday, April 28th. This is for the record for the House Journal. So those measures on pages 30 and 31, 48-hour notice."

FIFTY-EIGHTH DAY

Tuesday, April 27, 2010

The House of Representatives of the Twenty-Fifth Legislature of the State of Hawaii, Regular Session of 2010, convened at 9:06 o'clock a.m., with the Speaker presiding.

The invocation was delivered by Representative Faye P. Hanohano, after which the Roll was called showing all Members present.

By unanimous consent, reading and approval of the Journal of the House of Representatives of the Fifty-Seventh Day was deferred.

GOVERNOR'S MESSAGES

The following messages from the Governor (Gov. Msg. Nos. 271 through 274) were received and announced by the Clerk and were placed on file:

Gov. Msg. No. 271, informing the House that on April 24, 2010, the following bill was signed into law:

S.B. No. 2611, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO VITAL STATISTICS." (ACT 055)

Gov. Msg. No. 272, informing the House that on April 24, 2010, the following bill was signed into law:

H.B. No. 2561, SD 1, entitled: "A BILL FOR AN ACT RELATING TO LANDS CONTROLLED BY THE STATE." (ACT 056)

Gov. Msg. No. 273, informing the House that on April 24, 2010, the following bill was signed into law:

S.B. No. 2163, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE PRACTICE OF NURSING." (ACT 057)

Gov. Msg. No. 274, dated April 25, 2010, informing the House that on April 26, 2010, pursuant to Section 16 of Article III of the State Constitution, the following bill will become law without her signature, stating:

"Dear Mr. Speaker and Members of the House:

Re: Senate Bill No. 2803 SD1 HD1

On April 26, 2010, I intend to allow Senate Bill No. 2803, entitled "A Bill for an Act Relating to The Regents Candidate Advisory Council" to become law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to establish a seven-member student advisory group to recruit, evaluate, and recommend to the Regents Candidate Advisory Council who are the "most qualified" candidates to fill the Board of Regents student position. The bill further precludes certain persons from serving on the Regents Candidate Advisory Council including persons on the All Campus Faculty Senate and the Executive Council of the University Student Caucus.

I continue to believe that the creation of the Regents Candidate Advisory Council established a narrowly prescribed process, not answerable to the public, with the intent to limit the choices a Governor has in appointing Regents. This bill is an attempt by a group of dissatisfied students to address the narrow interests of the Regent Advisory Council by setting up another mechanism to involve more students in the determination of who should be a student regent.

However, in trying to address the shortcomings of the Advisory Council law, this bill further blurs the lines of responsibility and transparency for holding a Governor accountable for the performance of the Regent Board. Rather than disbanding the Advisory Council or broadening the number of candidate names it must submit to a sitting Governor, the bill sets up yet another group that both shadows and second-guesses the work of the current Council. There is nothing in this bill that will lead to a wider choice of candidates for a Governor's consideration. Nor is there anything in this bill that allows the public to better understand and participate in the selection of those individuals who are responsible for setting the policies that guide our State university.

As I stated in my 2007 veto message, the current process exempts the selection of regents from public scrutiny, narrowly defines the number of candidate names that a Governor can consider, and fails to ensure that the Board is composed of members who reflect the best interests of the entire university and the State. This bill makes a small but ineffective effort to address some of these fundamental flaws.

For the foregoing reasons, I intend to allow Senate Bill No. 2803 to become law as Act 58, effective April 26, 2010, without my signature.

Sincerely,
/s/ Linda Lingle

The following message from the Governor (Gov. Msg. No. 275) was announced by the Clerk and received for possible future consideration:

Gov. Msg. No. 275, transmitting her statement of objections to S.B. No. 2840, SD 2, HD 1, as follows:

"EXECUTIVE CHAMBERS
HONOLULU
April 25, 2010

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 2840

Honorable Members
Twenty-Fifth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2840, entitled "A Bill for an Act Relating to Public Procurement."

The purpose of this bill is to require contractors awarded public works construction contracts to employ a workforce consisting of at least eighty percent Hawaii residents, and provides sanctions for noncompliance including temporary suspension of contract work, payment withholding, disqualification from the project, recovery of contract payments, and disbarment or suspension.

I support the creation of local jobs for local residents. However, this measure does not create jobs, because it does not incentivize any new economic activity. Unfortunately, the bill will likely discourage some job creation activities by increasing the costs of public works construction in the State of Hawaii.

It establishes an ill-defined, ambiguous, and complex compliance structure for contractors and state and county agencies. For example, the bill fails to indicate whether a contractor must maintain the ratio of Hawaii and non-Hawaii resident workers every day the project is underway, every month, or over the entire duration of the project. Furthermore, the bill fails to specify if the quota applies only to jobsite staff or all contractor staff including administrative and managerial personnel.

It will be difficult for a contractor to determine at the outset, prior to the commencement of the contract, the total number of workers and the total number of worker hours required for the duration of the contract. The contractor's flexibility to maintain a workforce that is responsive to changing needs of the project likely would be impaired if the contractor were required to maintain a quota within its workforce at all times during the contract. The eighty percent residency requirement would exacerbate

the contractor's need to continually juggle its workforce, adding and deleting individuals, so as not to violate the quota requirement at any time during the contract. Further, it would also be difficult for contractors to determine which of their workers are state residents based on the criteria of the bill, as the contractor would have to glean the workers' intent to establish residency in Hawaii.

Additionally, the eighty percent requirement applies to the contractor's subcontracts that are priced at $50,000 or more. Under this measure, the contractor would be responsible not only to maintain the composition its own workforce, but also the workforces of its subcontractors, over whom the contractor has limited authority.

State and county agencies would be similarly burdened to enforce the requirements of this measure, and will have to find the resources and staff to do so. In sum, the monitoring, enforcement and compliance that this bill requires are difficult, burdensome, and expensive for both contractors and public government agencies.

This measure's requirements are also likely to provide additional grounds for contractor protests, delaying projects at the expense of taxpayers and impeding the ability of the State and counties to carry out public works initiatives.

Finally, the courts are divided as to the validity of state statutes that require the employment of state residents in the construction of public works. The legislature may not have created a record with the necessary requirements to overcome a constitutional challenge, thereby subjecting the State to protracted and costly litigation.

For the foregoing reason, I am returning Senate Bill No. 2840 without my approval.

Respectfully,
/s/ Linda Lingle
LINDA LINGLE
Governor of Hawaii"

Representative Finnegan also introduced her friends, Ms. Noella Nance, and her daughter, Ms. Rachel Nance.

Representative Har introduced former Representative Alex Santiago, and Ms. Debbie Shimizu, from the National Association of Social Workers.

ORDER OF THE DAY

SUSPENSION OF RULES

On motion by Representative Evans, seconded by Representative Pine and carried, the rules were suspended for the purpose of considering certain House Bills and Senate Bills for Final Reading by consent calendar.

UNFINISHED BUSINESS

Conf. Com. Rep. No. 151-10 and H.B. No. 2200, HD 1, SD 2, CD 1:

Representative M. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 2200, HD 1, SD 2, CD 1, pass Final Reading, seconded by Representative M. Lee.

Representative M. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker, thank you. I rise in favor of this bill. First of all let me begin by thanking my colleague Chair Kim, my counterpart, and her Ways and Means staff. I extend to the Ways and Means staff and Chair Kim my gratitude for all the hard work and dedication. Her insistence and interest in having a more efficient and effective government, getting the most 'bang for the buck' and for targeting waste and mismanagement is truly appreciated. I have indeed enjoyed working with her over these past two years.

"I also want to thank the members of the Finance Committee Mr. Speaker, with a special acknowledgement for Minority Leader Lynn Finnegan, who joined us on the Committee just this year. It was a hard road to climb, a high learning curve, but she's done quite well in the short time with us. Mr. Speaker, I truly appreciate her support, her input and guidance as we developed this budget. Indeed Mr. Speaker, our informal decisions and discussions revealed so much that we share in common, although we may disagree with each other's remedy and each other's approach.

"I also want to thank Vice Chair Lee. Representative Lee has been with me for four years now and truly she has been the best co-pilot any pilot could have. Without her support my job would certainly be much more difficult. Her officer's-like command of the hearings pace and little tolerance for indulgent questions truly belied her quiet and gentle nurse-like persona. Mr. Speaker, one moment, Mother Theresa - the next, Sister Mary Elephant.

"I thank the Finance Committee staff for all the long hours, the research, and the support not only on the budget, but on all the Committee hearings, Mr. Speaker. The work was daunting, but without their legwork and the logistical support, we wouldn't be here today. Thank you one and all. But special public thanks to Nandana, Mikey, Puna, Stacey, Eric, Randy, Tracy and Jo; and the Finance Committee Analysis, Research Staff for being my sounding board, devil's advocates, whip crackers, angry phone call interceptors, and policy wonks. I was the front man, but you folks made the band.

"Mr. Speaker, a special acknowledgement this morning to Research Chief, Randall Hiyoto who is not with us today in this building, but I suspect he's watching us right now. Yep. Policy, right? Thank you. Randall, everyone here misses you, is thinking about you, and is right behind you supporting you on your journey back. Come back soon.

"Finally Mr. Speaker, I want to thank the public, those in the Gallery here in the House Chamber, and those watching us on television. You are the ones who elect us to make these difficult decisions, and you are the ones we are ultimately accountable to. Our system of government relies upon your input and your participation. Democracy is a contact sport, and it demands and requires your participation. We've been hearing from all segments of our communities. Keep it up folks. You are making a difference.

"Mr. Speaker, a year ago I stood before this Body and said, 'I do not believe our work on this budget ends here. To the contrary, it begins here.' In fact a year ago we were provided with a small reprieve when the American Recovery and Reinvestment Act gave Hawaii more than $900 million. The money has been well spent and has helped stave off greater unemployment, larger cuts in healthcare, human services and education. Unfortunately, no new bailout money is here to help us again this year."

Representative Rhoads rose to yield his time, and the Chair "so ordered."

Representative M. Oshiro continued, stating:

"Thank you, Representative Rhoads. We are on our way, but we have to do it on our own with what we have.

"For the past year Mr. Speaker, I have used the analogy of the five stages of grief as an analogy to describe what we've been going through as a State as we live our lives in the worst global economic crisis in over 80 years, 'The Great Recession.' We're still reeling from the unexpected death of our national economic wellbeing. The economic rules of the game have shifted tremendously, sectors of commerce and business forever changed, and our Nation's global positioning more pronounced and acute. We are living in a time that futurist Dave Korten described as, 'The Great Turning.' I never imagined how apropo that description may be, so let me put this into context.

"The first stage is denial. If you really look at the budget we adopted last year, it was a denial budget. Federal stimulus funds allowed us to avoid the more painful decisions. It allowed us to buy some time and shield ourselves from the harsh realities and deny having to make the extremely difficult decisions.

"The second stage: anger. Losing one's job, investment, or opportunity because of what had occurred on Wall Street makes many angry. Hawaii's dependence on tourism jobs and construction jobs were hit hard and today it vibrates throughout the community. Highest unemployment in over 30 years. Highest foreclosure rates in decades. Record bankruptcies are all signs listed in the headlines of our daily papers. Government worker furloughs and drastic cuts to service. Parents and teachers are angry. Workers and customers are angry. For-profits and non-profit corporations are angry.

"The third stage is bargaining, Mr. Speaker. This is the stage where we seek to better our lot by making tradeoffs. Mr. Speaker, I believe if you look around, many in our community are still working through this one. We have not found common solutions or common ground to solve our fiscal problems. Rather nearly the extreme opposite has occurred. Our communities are divided. Everyone seeks to, 'protect their own' and far too many have been tossed out of the canoe that we so desperately seek to stabilize and steer through the uncharted and ever shifting peaks and valleys, pursuing the clear path and safe harbor for all our people. Indeed Mr. Speaker, not all are paddling. We're not all in sync yet, and too few are pulling for far too many.

"Over the past few months all too often I've heard hundreds of people say that they understand the hard choices that have to be made, and they sympathize and empathize with what we are doing. Thirty seconds later Mr. Speaker, they're in the middle of telling us why they should be excluded from the budget cuts, or tax deferrals, or should be allowed a tax credit, or incentive, or even given more money. In many ways this has been the Session of bargaining.

"As you move forward there will be consequences to the budget cuts that have been made. Everyone claims to know the effects of furloughs on the Department of Education and our kids in school. Less known and publicized are the effects of furlough on the Departments of Agriculture, Health, Human Services. What about Labor, Defense, Accounting and General Services, the Department of Land and Natural Resources, and Taxation and others? I have concerns about the possibilities, and I hope that I am wrong. A burden lies on all of us for some of the choices that have to be made in this budget.

"Stages four and five of the five steps in stages of grief, are depression and acceptance. And as awful as it may sound Mr. Speaker, I sincerely hope that this will be a quick interim of facing depression that will lead to a Session of acceptance next year. That we will finally come to the realization that the old ways have passed, some things will never be the same, and that we are living in indeed a new age. But we are the ones living it now."

Representative Brower rose to yield his time, and the Chair "so ordered."

Representative M. Oshiro continued, stating:

"Thank you. And we are responsible for what we do for our people now. Mr. Speaker, I truly believe that we can move through the stages of denial, anger, bargaining, depression, and find acceptance for where we are in this moment of history and time, and understand that we'll have to face the inescapable hard choices and decisions, we will be better posed to make the necessary hard choices confronting us next year.

"Mr. Speaker, let me make this point: acceptance doesn't necessarily mean giving in or giving up. Rather, acceptance should entail understanding of the situation and what needs to be done to fix it. During this interim of depression and acceptance we need to seek an understanding for what we're facing because only then can they accept it. Blind acceptance, or acceptance without understanding will lead to resentment. The goal for all of us is to avoid resentment upon each of us in our communities.

"Mr. Speaker, prior to the start of this Session I spent two days at the Fiscal Chairs' Seminar, and one message rang loud and clear. This is it. Despite a growing concession that the national recession, the principal cause of state fiscal problems ended, state finances will not recover in the near term. History shows that state budgets continue to struggle long after a recession ends.

"Mr. Speaker, your Finance Committee took these words to heart and throughout the Session strove to answer four basic questions. Number one, how far can we cut government programs and services? Number two, what programs and services are we willing to live without? Number three, are we willing to pay more for the programs and services we want? And number four, what do you want Hawaii to look like when the recession ends?

"Mr. Speaker, I support this budget not because I like the cuts that we made, but because of what cuts we did not make, and the programs and services we were able to save for now. Working with all the Chairs, but especially the Chairs of Health, Agriculture, Human Services, Education, and Higher Education who have been the voice of the voiceless, the guardians of the common good, this budget fights for restoration of several programs and personnel cuts by the Governor. This budget reflects our core values, core beliefs, and puts rare and precious dollars where they are most needed and necessary. Because of their insistence and leadership, wise counsel, and yes, even friendly criticism, this budget is what it is.

"Mr. Speaker, the decisions made this year were tough ones. The kind of decisions that keep you awake at night. Indeed my colleagues, please know that my dour demeanor is not a reflection of my deep joy and pleasure and great satisfaction in this great and noble endeavor as your Finance Chair, but only the effects of maybe too little sleep, too little surf, and much serious passion for our people and our home.

"Mr. Speaker, these are decisions we made in 2008 and 2009, and the 'low-hanging fruit' have been picked clean. So I leave this question to all of you: Members, what do you want Hawaii to look like as we emerge from this recession? And this will be my opinion, my personal one, but I find solace in our decisions because our critical needs are addressed and vulnerable populations will be saved, children at risk will be safe, and our *kupuna* and disabled will be protected and respected.

"*Hawaii nei* will be protected from destructive invasive species, our lands preserved, and our food safety ensured, our farmers allowed to grow and sell and ship their produce to foreign shores. At the same time we planted the seeds for energy and food independence and security. Even in these tough times we're able to find creative long-term methods and solutions to put us on a path to a more sustainable future. This in turn will drive our new economy, clean our air and water, and promote good green jobs and know-how for our youngsters and the future world they'll inspire and lead."

Representative Keith-Agaran rose to yield his time, and the Chair "so ordered."

Representative M. Oshiro continued, stating:

"Thank you, Mr. Speaker. And thank you, Representative Agaran. Mr. Speaker, I'm proud of the work done by this Legislature in considering, debating and wrestling with options to battle and balance the budget. We have done so honestly, openly, transparently and respectfully. Mr. Speaker, you of all have continued to show a great foresight and courage in exposing a reluctant Body to the inevitable choices we soon must face in addressing government services in the era of declining revenues. Thank you Mr. Speaker, for bringing us to those bridges we soon have to cross, for your patience in delaying the crossing, and for leading the way for a better and safer cross for all of us.

"Despite our challenges I still believe that we can come together as a community. We have to. There is no one else but us. We are the ones we have been waiting for. So as we go out through our communities in the coming months we must resist the urge to promise everything to everyone. Certainly there will be offers of a *quid pro quo*, but be upfront and honest in fact. Honesty is a tool we need to help our neighbors move through the five stages of grief and help them on the path to acceptance. Ben Franklin's advice from over 200 years ago rings true today. Honesty is the best policy.

"Just like last year Mr. Speaker, our work does not end here, but it begins here anew. There are solutions that have yet to be discovered and there are better days ahead. We are Hawaii. We are all part of a great *'ohana*, and an even greater legacy. We are all interconnected by a few degrees of separation. We will put everybody back into the canoe, hold until they are firm, give leeway to the discouraged, restart our cadence, 'Hut, Ho,' and move Hawaii forward to the future we deserve. We had a temporary setback, but we can be stronger as a community, more caring as a people, more unified in purpose than we were just a few months ago. Symptoms of the recovery are there, locally and nationally, and I remain, as ever, 'cautiomistic.' I have no doubt that we will emerge from all of this, stronger and wiser. This too shall pass. Thank you, Mr. Speaker. Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise in support of this measure with gratitude, but with some reservations. Mr. Speaker, the conundrum that we have as a state is that we have 2007 revenues, with 2009 expenses, therefore the shortfall. How we've gone about that is in an interesting way and some of the things that I want to comment on.

"I really appreciate what the Chair of Finance has said; that we've gone from varying stages of acceptance to denial. Procedurally, I would start with denial that this bill should be first, Mr. Speaker. We're passing this bill, and later on in this session are the bills that are going to fund it. There's probably $100 to $200 million that have not actually passed, but yet we're arguing the budget first. Now assuming that they go through, it's fine, but it seems a bit odd having the budget as the first point of argumentation.

"Having said that, I want to thank the Chair for his discourse with the people of Hawaii, but I would disagree with the strategy that the Chair of Finance has taken. There was in his stages of grievance, grieving also strategies of fear, strategies of keeping the community twisting in the wind by threats that not only would departments be decimated, but small businesses and job killers would be upon them, and the dreaded one percent GET tax. Mr. Speaker, that was held over the people of Hawaii for the last three to six months. All along knowing, and I want to thank the Chair of Finance for making the Minority do its own business by looking at the numbers early on, knowing that those taxes did not need to be raised.

"Mr. Speaker, we are grateful that you forced us to do a budget because when we did the numbers, we knew early on that those threats, those fear mongering things that the Budget Committee Chair was promoting were not justified. So Mr. Speaker, a lot of people can now say, 'Well, gee. You didn't do this,' but some of the things that you did looks like you're very generous. I think it was a very clever strategy, but it wasn't open, and it wasn't honest, Mr. Speaker.

"I think that's why we have to be more transparent when we do budgeting. We have to show people where the funds are and what they're doing. Again, I'm grateful to the Chair of Finance because we have a budget that's not only online, it's interactive, and it shows what assumptions can be made or not made according to what ones' preferences are for which areas need to be increased or decreased. Mr. Speaker, that's the kind of transparency that I think we need and not just a budget that balances for one year, but one that goes entirely for six years.

"Having said that Mr. Speaker, I'm grateful that all of the jobs killers I spoke of so extensively on this Floor did not come to pass. I'm grateful that the GET did not come to pass, but I am very regretful that at the eve of having an agreement, a Space Act signed by the State of Hawaii and NASA, that for two years in a row we have sunk the spaceship of the Office of Aerospace. We've shot them out of the air again. For two years they have not been funded. Mr. Speaker, that's going to be an embarrassment and I would encourage the Chair of Finance, I would encourage WAM and all the people that have anything to do in the departments with money, to make sure that funds are made available for the Office of Aerospace.

"Another regret is some of the unnecessary increases and taxes that the people of Hawaii will have to pay. And with that are some of the things that I think later on when we look at the numbers, we'll know that we really didn't have to do that. We didn't have to increase the tax burden as the cost of living in Hawaii continues to soar. The cost of doing business continues to soar. And it's not me speaking. It's the latest data that we are the second highest in the world for conducting business. Those are the people who hire our people to do the job of employment.

"So in conclusion Mr. Speaker, we can make war through stages of denial and anger and acceptance by being more transparent. I think the Finance Chair has the psychology right, except the methodology is slightly askew. We need to be more open, more transparent, and I would encourage, regardless of what our numbers are, to work with the Minority on these things. The same that is going on at the national level."

Representative Marumoto rose to yield her time, and the Chair "so ordered."

Representative Ward continued, stating:

"That there is an economic contribution, there is an economic insight that even though our numbers are small, some of the insights of which fortunately were able to be put through some of the major newspapers and some of the blogs pointed to the website. That we can be more transparent. We can be more open. We can share with the people of Hawaii what otherwise they were for the last six months, fearful of what this Body would do. Now everybody's grateful because it's not going to come to pass, and I would use the same quote as the Chair of Finance that Ben Franklin said, 'Honesty is the best policy.' But when it comes to budgeting, Mr. Speaker, transparency is the best policy. Openness is the best policy. And collaboration is the best policy. Thank you."

Representative Tsuji rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. I am Representative Tsuji with a 'T.' Thank you. I stand and rise in strong support, Mr. Speaker. I support this final budget in its amended form. First of all I'd like to say that I'd like to thank you, and I also would like to convey an apology.

"I thank the House Finance Committee Chair, the members, and the staff for toiling countless hours in arriving with this final bill. Thank you very much. I would like to apologize also personally because I've gone down to the Finance Chair, his Committee members, his staff, his aides, volunteers, and I know for a fact Mr. Chair, that sometimes I went beyond acceptable protocol. I consistently badgered, I consistently pleaded to help refine the Department of Agriculture's budget. Not only for budget's sake, not only for the Department of Agriculture, but also for all of us here in Hawaii and our quality of life that we all so deserve. Taking a phrase from the Committee Report, "reprioritize State spending to maintain the most essential services." I thank the Committee for recognizing agriculture as one of those essential services.

"With that in mind, the Committee on Agriculture recognizes the restoration in part of the agricultural portion of the budget, after our Governor sliced 44% of the general fund budget. Needless to say, this was a staggering amount. Not only staggering, but to me personally, highly incomprehensible. At a time when Hawaii is placing its effort on less dependence on imported foods, striving to export more to the mainland and foreign countries, Mr. Speaker, foreign destinations, we are consistently and constantly battling the ever increasing threat of invasive species. They jeopardize our economy, our industry, and our way of life.

"Yes, last September the Governor restored 22 of 50 inspectors that were laid off statewide. These inspectors were and are necessary for protecting our ports of entry. The Conference Committee has also restored a number of other important personnel. This restoration meets a very heavy obligation to assure that we have the best front line of defense against invasive species. Believe you me, Mr. Speaker, these are invasive species of the worst kind. They are mass destructors. Thank you, very much."

Representative Souki rose to speak in support of the measure with reservations, stating:

"Yes thank you very much, Mr. Speaker and Members. I'm Souki with an 'S.' The alphabet one. I know some people think otherwise. Mr. Speaker, I want to speak for the budget with some reservations.

"First of all, I want to speak on the good parts of the budget. The Chairman, and you, and the members have done an excellent job. Not only this year, but the past year in balancing the budget. Faced with huge deficits last year and this year, you were able to overcome that and balance the budget in a very humane way. For this I heartily, and we all, thank you very much for the great job that you have done.

"My concern is and the reservation I have is in some of the projects that we're responsible for, and maybe we didn't care enough for it or didn't have enough of an oversight. One of that is ATDC, which I had the honor to be the Chair of the Conference Committee. We had a difficult time. The Senate had other ideas how to handle the Aloha Tower and we wanted to preserve it. The ATDC, Aloha Tower, is very important with the harbor programs and the harbor improvements that we now have.

"In fact Members, Act 200 passed in 2008 provided for a partnership between ATDC and DOT for the major harbor improvements that we are to have. It mandates, and I use the word, mandates, that ATDC partner with the DOT harbors and shall have the jurisdiction to implement the projects for the harbor improvements for Honolulu, Maui, Kauai, Big Island, Hana.

"However, there are some in the other Chamber who obviously did not read this and attempted to scuttle ATDC. Not being able to scuttle ATDC because the House, through your efforts also Mr. Speaker, supported me in not buying the proposal of the Senate to dismantle ATDC, and of the Chairman of course.

"However, in the closing hours of the Session, a proviso was included on page 341, section 163-1, it says, 'Provided that notwithstanding any laws to the contrary, no funds authorized by this or other appropriation acts shall be expended or encumbered by or for Aloha Tower Development Corporation; and provided further that the Governor is authorized to transfer funds held or encumbered by the Aloha Tower Development Corporation to appropriate state agencies for the disbursement of its obligations.'

"Now of course Aloha Tower is not to spend it at this moment, however they have no budget. They have no money. And this year, we just killed it. The question is, how are we going ahead with the harbor improvements? Yes we can. There's staff who will probably pick it up, but it will be delayed a year, two years. And then there's the question of law. It says in Act 200 that ATDC shall have the jurisdiction. But this action here in the late hours eliminated that.

"So Mr. Speaker, I'm very disturbed that this happened. And it happened in the late hours. Maybe it passed through your hands and through the Chairman's hands, but certainly something like this should be rectified at some point in time, otherwise the harbor program will be jeopardized."

Representative Magaoay rose to yield his time, and the Chair "so ordered."

Representative Souki continued, stating:

"Thank you very much, Representative Magaoay. Thank you. Of course the other concern I have is that some very key positions in the airports have been eliminated when we're going through the airport modernization program also. And that's another story and hopefully sometime in the future we can put those positions back in, knowing the stress you were in.

"So Members and Mr. Speaker, and to the Chairman, I do not fault you. I know that you were under complete pressure, and the Speaker and those members of the Committee, but I think for these things here, we should look at some way of how we can prevent this from happening. That can scuttle a program because somebody doesn't want the program to continue. Thank you, very much."

Representative Finnegan rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I rise in support with reservations. Mr. Speaker, before I go into the actual budget, I would like to give my thanks to a bunch of people that I think we worked collaboratively with. I would like to thank the Chair of Finance and just clarify that the work that we did in the Finance Committee I think was very valuable. I have not worked with any other Finance Chair, but from my understanding and my personal experiences with working with the Chair, I really do appreciate all his hard work and all of his dedication to balancing this budget. I do want to thank the Finance Committee. It's very tough work being on the Finance Committee. Being up until sometimes 4:30 in the morning, and I'm sure for the staff as well as the Finance Committee being up later than that once the business is over for the day.

"But I just wanted to say that one day at 2:00 in the morning my head started to bob and my eyes were closed. A majority of the Finance Committee that was there in the meeting tried to wake me up and jot me notes, and tug at me and basically saying, 'Lynn, you've got to stay up. It doesn't look good if you have your eyes shut.' And it's so very true and that was way past my bedtime anyway. No matter what, if we are disagreeing on points, I think we still can agree that we're all trying to do the right thing and we all have good intentions moving into working with this budget.

"Mr. Speaker, I do want to thank the Finance staff and HMIR staff and highlight two people, Boyd Akase, as well as Beth Fukumoto from Representative Ward's office. I also wanted to thank my Caucus because with the information that we would learn in Finance Committee in bringing these numbers to the table, we worked collaboratively with each other to come up with our six-year plan and a balanced budget. Something that we thought was very important that all six of us would come together and come up with a plan that would represent how the Republicans would handle the difficulties of balancing a two-year budget, as well as a six-year plan.

"Mr. Speaker, I did say that our intentions are good and I think the goals are good. A sustainable future. Defining core government services. Recovering from this economic downfall. Mr. Speaker, I think one of the biggest differences between the ideas of the Majority and the ideas of the Minority is that the Minority really felt the need to live within our means. To not increase taxes because we felt that when the economy slows down and our tax revenues are less, that that represents what's happening out there in our economy in general, and what happens in family budgets, as well as business budgets. And as much as we would have wanted to express that by keeping programs and spending at higher levels, we felt that the best way that we could recover from this economic downfall is to live within our means.

"Mr. Speaker, some of the things in general, like the special fund development and special fund raids, we were able in our six-year financial

plan, as well as our balanced budget, to not have to raid those funds. We felt it was important because when you're setting up these funds it's meant for a specific reason. And we were there 'til 4:30 in the morning hearing all of the reasons on why these particular special funds were needed. There were projects that were being done and projects in the future that were going to happen. So when we passed out these special funds raid bill, it went from $90 million, down to I think $5 million. And the actual budget, the bill that actually passed which helps this budget balance is back up to I think $45 million.

"Mr. Speaker, a lot of the decisions that we make in this budget we will not be able to truly know how this will affect the State, no matter how much we have testimony and no matter how much work ..."

Representative Pine rose to yield her time, and the Chair "so ordered."

Representative Finnegan continued, stating:

"Thank you, Mr. Speaker. I'm not going to talk too much more Mr. Speaker, but what I will say is the private sector needs to recover and I think it is our responsibility to live within our means. As a clarifying point, from what I know of the Finance Committee and the Finance Chair, I believe that this process was pretty transparent. The things that I would like to say where I think we could improve on transparency would be the public, as well as the Minority being able to see the Majority's financial plan for six years. I think that would be really helpful in understanding what the differences are, and what was included and what was not included. This is a document that I think is really important for decision making and in the future if we could consider making that public, the six-year financial plan of the Legislature and/or the House, that would be very important for us.

"You know Mr. Speaker, because of the more overarching general beliefs that I have on how we need to balance the budget, I was actually going to vote no on the budget. But after really hunkering down and saying that we made suggestions along the way, and many of them were taken through this process. Many of them were tough. And as a gesture of the ability to come to the table and make some of those tough decisions, even though I disagree with the overarching values and beliefs in working and living within our means, that I will be voting yes with reservations.

"To wrap up, Mr. Speaker, when we were talking about the House Draft of this bill, there were many accusations on what the Governor wanted to do. Cut this. Cut that. Blame the Governor on this. Blame the Governor on that. When in actuality much of her budget is now in this budget. So I think at the very least we should acknowledge that some of the tough decisions that the Governor had made, we are also agreeing with her on many of those decisions that she is being blamed for.

"So Mr. Speaker, I want to once again thank you and thank this Body for all the work. This wasn't an easy year. It was a very challenging year. When times are good, we're able to maybe do more with programs, but when times are tough and times are bad I think we should definitely look to more living within our means. Thank you."

Representative M. Lee rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support. Mr. Speaker, this budget is the result of many months of research, testimony, discussion and negotiation by members of the Finance and WAM Committees, their staffs, and the Chairs. The Committee Report, which I read twice, reflects a very sober assessment of the economic realities we face not only this year, but in the years to come, and makes suggestions for changes in policy and direction. No one could have foreseen the extent of the present economic crisis, but the report minces no words when describing the red flags that had appeared in the past like the burgeoning cost of Medicaid, an undisciplined system which seems to shout, 'cost is no object,' or the exorbitant cost of overtime in the prison system.

"This is a realistic, down to earth budget, which offers no excuses and the report rightly criticizes the Executive's approach of quick fix, one-time solutions, and putting off until tomorrow what should be done today. I'm very happy to have been a part of the process which avoided raising both the GET and taking the TAT from the counties, which seemed inevitable to some.

"I'm also happy to see that tax or fee increases comprise only 5% of the budget. That's 5%, a very small amount. 57% of the budget comprises general fund budget cuts and lapses, and in many ways, sad to see.

"I'm proud that the budget sets definite priorities and makes it clear that although the recession is easing, our State will be dealing with fiscal shortfalls well into the next few years. But it also offers ideas, possible solutions, and preserves positions for better times in the future. I'd like to thank the brilliant and cheerful Finance staff, always cheerful, very brilliant, and all the members of the Finance Committee who stayed late, mostly came on time, asked probing questions, and gave up weekends to increase their own knowledge while going line by line through the budget draft.

"We were fortunate to be led by a Chair who has been described by none other than Lowell Kalapa as someone who really understands the budget and does his homework, working 24/7. We were constantly amazed by his innumerable flip charts, graphs and drawings, which helped us to understand the vagaries of the budget, and by the ability of the Chair to find just the right page in his large collection of notebooks punctuated by post-it notes in order to make a point with a testifier when we sat transfixed. Above all, transparency and openness were at the top of the Chair's agenda at all times, and the Committee was always able to share information, ask questions, whenever they wanted to. I think that's probably one of the most important things about being part of the Finance Committee now.

"So here we are for the final vote. It hasn't been without some blood, sweat and tears. A lot of tears, sometimes. But it is a responsible, truthful document of which we can all be proud, and I urge the Member's support. Mr. Speaker, I'd like to add some additional written remarks in the Journal. Thank you."

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I rise in support of HB 2200, HD1, SD1, CD1. This budget is the result of many months of research, testimony, discussion and negotiation by members of the Finance and WAM Committees, their staffs and the Chairs.

Representative Yamashita rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. I rise in support. I'd like to speak on the portion pertaining to capital improvements. At the outset of the 2010 Regular Session, the Governor proposed a modest capital improvement program in her supplemental budget request. Her budget called for a reduction of $30.4 million in FY10, and an increase of $164.935 million in FY11.

"Your Committee on Conference recommended an ambitious capital improvement program for this biennium to stimulate job creation and revitalize our economy. Your Committee on Conference increased the total number of appropriations for capital improvement projects above the Governor's request by nearly $453 million or roughly 270%. The total outlay was funded by increasing the general obligation issuance by $150 million, and lapsing over $170 million in previously approved appropriations, and obtaining over $32 million in savings in bond refinancing.

"Your Committee on Conference scoured all previously approved appropriations to identify projects that have not proceeded for whatever reason. It is important to note that the Committee believes that these funds previously appropriated were for worthwhile purposes. The fact that these appropriations were lapsed should not be construed as a statement by the Legislature that they were not worthwhile; rather, because of the dire economic situation that we now face and the desperate need to proceed with construction and stimulate our lagging economy, your Committee took the extraordinary measure in shifting $170 million in previously appropriated appropriations in new projects in the hope that construction will begin immediately. All the $452 million proposed in new projects in FY11 were with the Governor's supplemental request.

"Your Committee on Conference added more than $147 million to the University of Hawaii. Major projects included $48 million for design, construction, equipment and the development of the University of Hawaii, West Oahu. $28 million for construction, equipment and a new Hawaiian language building at the University of Hawaii at Hilo. $20 million for plan, design, construction and equipment for project Renovate to Innovate, a new initiative by the University to consolidate renovation of existing laboratory facilities. $35 million for capital renewal and deferred maintenance. And $18.625 million for repair and maintenance for health, safety and code requirements.

"The Governor's supplemental request contained zero dollars for the Department of Education facilities. Your Committee on Conference asserts that the upkeep and maintenance of lower education facilities are vital to the educational needs of our *keiki*. Accordingly, your Committee approved $92.8 million for new projects for the Department of Education. Major projects included $30 million in lump sum for repair and maintenance of existing projects. $15 million in lump sum for electrical upgrades, and $4.35 million for lump sum gender equity projects including improvements required by the court for a softball field for Baldwin High School.

"Lastly, so there is no misunderstanding Mr. Speaker and colleagues, there were some technical amendments made to the budget on certain capital improvement projects previously approved that were not lapsed on June 30, 2010, while various stakeholders and government agencies work to expend these funds. These projects include the acquisition of land previously held by the Galbraith Estate; construction of a gymnasium civil defense shelter at Ka'u Pahala Elementary School on the Big Island; and the construction of a new science building at the University of Hawaii, Maui College, on Maui.

"Let me stress that these projects do not include any provisions of new funds. Since they are from a technical standpoint, the original appropriation is lapsed, then reverted back to the bond fund. The re-appropriation of the same amount has no, I repeat, no impact on the financial plan. Mr. Speaker, with that I would like to insert the rest of my comments into the Journal. Thank you."

Representative Yamashita's written remarks are as follows:

"Mr. Speaker, I rise in support of House Bill No. 2200, House Draft 1, Senate Draft 2, Conference Draft 1, Relating to the State Budget. I would like to speak on the portion of this bill pertaining to capital improvements.

"At the outset of the 2010 Regular Session, the Governor proposed a modest Capital Improvement Program in her supplemental budget request.

	FY10	FY11
Act 162, SLH 2009	$2,567,588,000	$972,303,000
Governor's Supplemental Budget (HB2200)	$2,537,188,000	$1,137,238,000
Adjustments	-$30,400,000	$164,935,000

"The Governor's budget request called for a reduction of $30,400,000 for FY10, and an increase of $164,935,000 for FY11.

"Your Committee on Conference recommends an ambitious Capital Improvement Program for this fiscal biennium to stimulate job creation and revitalize our economy.

	FY10	FY11
Governor's Supplemental Budget (HB2200)	$2,537,188,000	$1,137,238,000
HB2200, CD1	$2,531,645,000	$1,690,134,000
Adjustments	-$5,543,000	$452,896,000

"Your Committee on Conference increased the total appropriation for Capital Improvement Projects above the amount appropriated for fiscal year '11 in Act 162 by nearly $453 million, or roughly 270% above the Governor's suggested increase.

"Our total outlay was funded by:

(1) Increasing the General Obligation Bond issuance by $150,000,000;

(2) Lapsing over $170 million in previously approved appropriations; and

(3) Obtaining over $32 million in savings from bond refinancing.

"Your Committee on Conference scoured all previously approved appropriations to identify projects that have not proceeded for whatever reason. It is important to note that your Committee believes that all of the funds previously appropriated were for worthwhile purposes. The fact that these appropriations were lapsed should not be construed as a statement by the Legislature that they were not worthwhile. Rather, because of the dire economic situation we now face, and the desperate need to proceed with construction to stimulate our lagging economy, your Committee took the extraordinary measure of shifting over $170 million in previous appropriations to new projects in the hope that construction will begin immediately.

"Of the $452 million proposed in new projects for FY11, over the Governor's supplemental request, your Committee on Conference added more than $147 million for new projects at the University of Hawaii. Major projects include:

(1) $48 million for design, construction, and equipment for the development of University of Hawaii, West Oahu;

(2) $28 million for construction, and equipment for a new Hawaiian Language Building at the University of Hawaii at Hilo;

(3) $20 million for plans, design, construction, and equipment for Project Renovate to Innovate, a new initiative by UH to consolidate the renovation of existing laboratory facilities;

(4) $35 million for capital renewal and deferred maintenance; and

(5) $18.625 million for repair and maintenance for health, safety and code requirements.

"The Governor's supplemental request contained ZERO new dollars for DOE facilities. Your Committee on Conference asserts that the upkeep and maintenance of our lower educational facilities are vital to the educational needs of our *keiki*. Accordingly, your Committee on Conference approved $92.8 million for new projects in the Department of Education. Major projects include:

(1) $30 million in lump sum for the repair and maintenance of existing facilities;

(2) $15 million in lump sum for major electrical upgrades; and

(3) $4.35 million in lump sum for gender equity projects, including the improvements required by court order for the softball field for Baldwin High School, Maui.

"Lastly, so that there are no misunderstandings by my colleagues, there were also technical amendments made to the budget that ensures that certain capital improvement projects previously approved would not lapse on June 30, 2010, while the various stakeholders and government agencies work to expend these funds. These projects include:

(1) The acquisition of lands previously held by the Galbraith Estate, Oahu;

(2) The construction of a gymnasium/civil defense shelter at Ka'u High and Pahala Elementary School, Hawaii; and

(3) The construction of a new science building at the University of Hawaii, Maui College on Maui.

"Let me stress that these projects do not include the provision of any new funds. Since, from a technical standpoint, the original appropriation is lapsed and reverted back to the bond fund, the reappropriation of the same amount has no, I repeat, NO, direct impact to the financial plan."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you very much Mr. Speaker, in support. First may I have the words of the previous speaker entered in the Journal as if they were my own, minus the Baldwin High School part.

"Just a few words from an outsider's perspective of the budget, if you will Mr. Speaker. I'm in support. There are things in this budget that I and many of us could look at to say, 'Well I'm not happy about this,' or, 'We wish it could have gone another way.' But I believe that with any bill you could say that and when you step back and look at the totality of how the budget has arrived and the decisions that were made, that I'm proud to stand up and give my support to this piece of legislation today.

"First, on behalf of my community and many others, I'd like to thank the Finance Chair, yourself and the members of the Finance Committee for supporting a 150 year tradition of the Lahainaluna boarding program. Your support in continuing the funding for this year will allow the community to work together during the off-session to evolve, grow and make this program better than before, while reducing the capital cost to the State. Thank you very much, again.

"I'd also like to note that this budget does many things, but one thing it does not do is it does not take away the counties' share of the TAT to balance it thereby pounding our citizens even harder who rely on these services every day. The counties are carrying a lot of the water right now, both in the needs of our citizens, as well as many state programs. I thank you and the Finance Committee for moving forward without having to rely on that.

"Mr. Speaker, this is a good budget because it basically is based 57% on cuts, living within our means. Only 5% is based upon new taxes. Given the fact that the Finance Chair had very little to work with, with an overwhelming oppressive economic situation, I applaud him for doing the fiscal homework and for basically cutting and reprioritizing and reutilizing things that have lapsed in order to arrive us at a balanced budget.

"Mr. Speaker this budget, I believe, solves the dilemma of today, but I also stand up with a warning for tomorrow. Members, we're facing next year, an ARRA cliff of $900 million. This year we're picking up $275 million by delaying tax returns until we pass July. We're not going to have those luxuries next year, Mr. Speaker. In fact in the outlying years it's clear to see that our expenditures will definitely outstrip our revenue. So Mr. Speaker, while the future is going to be challenging, I applaud the Finance Chair and the Finance Committee for their hard work and due diligence in helping us to right the ship for this year and to use the tools both federally and locally that are available. I'm confident that this will help set the stage, that we can look to these outlying years and be able to tackle them in a pragmatic situation that will not require us to destroy jobs, or to basically ruin our economy in the sake of trying to get a balanced budget for the State Constitution. Again, in strong support. Thank you, Mr. Speaker."

Representative Ching rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I rise on this budget in favor, with some reservations. I know that I myself do not serve on Finance and there's a reason for that. I do have a small one. So therefore, I have all due respect and homage to the people who do spend very late hours with the Finance Committee, and the complexity of what the budget does entail. With that, my respect goes out and I know that we are, as it has been said numerous times, people are trying to do what they can. And it's not easy.

"But I guess I just couldn't stay and sit in my seat without giving an alternative perspective that some may have of the process. Granted, not from the inner workings of the Finance Committee but from the outside of how some people feel because there were some things like audits. There were some things that are cuts that we can't explain because priorities, people's value systems are different and you start to wonder about, is this because I'm on this side? Or I'm on that side?

"I'm just going to read a little bit, just food for thought. Because this is one of my favorite books and I think that's it apropos for food for thought.

"Man is the only real enemy," right? Maybe you could switch out business for that.

"Remove Man from the scene, and the root cause of hunger and overwork will be abolished forever. Man is the only creature that consumes without producing. He doesn't give milk, he doesn't lay eggs, he's too weak to pull the plow, and he can't run fast enough to catch rabbits. Yet he is the lord of all the animals. He sets them to work, he gives back to them the bare minimum that will prevent them from starving, and the rest he keeps for himself.

"Why then do we continue in this miserable condition? Because nearly the whole of the produce of our labor is stolen from us by human beings. Remember comrades, your resolution must never falter. No argument must lead you astray. Never listen when they tell you that Man and the animal's have a common interest, that the prosperity of the one is the prosperity of the others. It is all lies. Man serves the interest of no creature except himself. And among us animals let there be perfect unity, perfect comradeship in the struggle. All men are enemies. All animals are comrades.

"The vote was taken at once, and it was agreed by an overwhelming majority that rats were comrades. But there were only four dissentients, the three dogs and the cat, who was afterwards discovered to have voted on both sides."

The Chair addressed Representative Ching, stating:

"Representative Ching, can you confine your remarks to the budget that is before us in making the correlation?"

Representative Ching continued, stating:

"The correlation is that this is from *Animal Farm* and it's a treatise on how government is run and how a group of animals who asked the humans from the farm on which they lived, end up running the farm only to have it degenerate into tyranny.

"My fear is that business should not ever be felt to not have a place at the table and from an outsider's perspective, albeit. I just really felt this Session that there was not the understanding that prosperity, when business thrives, it provides jobs, and that all prosper together. So when we say honesty is best policy, I couldn't help but be honest. And my feeling was that some animals are created more equal than others."

Representative Finnegan rose to respond, stating:

"Thank you, Mr. Speaker. I just have a few short things that I did want to also add. I wanted to basically also point out and thank my partner from the Minority side, the Representative from Hawaii Kai. Through both of us working together we were able to really help each other in this process and I just really wanted to make sure that I thanked him in public. As well as I wanted to give just a short rebuttal on two things.

"One is the CIP issue and talking about the difference of what the Governor did and what this budget does. I just want to remember that even from the words that came out of the people from DOE themselves, talking about how they were unable to handle the amount of CIP projects that they were given in the past, and that we be mindful about that in just saying that Governor didn't give, and we gave. That we should be thinking about that as well.

"Also the delicate issue of the Lahainaluna boarding system and school; when it comes down to it the reason why I believe that the Board of Education had made that suggestion and others are actually thinking about that suggestion of potentially not considering that a priority in Department of Education is because that works to about approximately $5,000 more per pupil that they receive for the boarding school when most of these children, if not all of these students, do have home schools that they can go to. I understand the tradition, but I really do believe if the Representative is saying that they are going to be looking at other solutions on how to have this school exist, but not give them special treatment over and above other students across the State. I believe that we owe that to our education system to be able to transition out of public support that will be over and above other students who are equal to them.

"Mr. Speaker, can I also adopt the words of the Chair of Transportation on the ATDC? Thank you."

Representative Mizuno rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support of the budget bill. Thank you, Mr. Speaker. Dealing with a $1.2 billion shortfall, your Finance Committee working with the Ways and Means Committee came up with a $1.4 billion solution. I think that's quite historic. They did this without raising the GET by 1%. They did this without taking the hotel accommodations taxes from our counties. This is very historic. In addition, they were able to protect essential health, human services and education programs and positions.

"Mr. Speaker, I'm very concerned that throughout the Session the Department of Human Services administration wanted to close every single office. I've repeated myself a number of times on this issue, and I'm glad to see that the Finance Chair, Ways and Means Chair, and both Senate and House leadership agreed, that's not the prudent thing to do. Let's not hit the panic button. We can prudently navigate through this most difficult time. They did this by defending those most essential programs and positions. Child Protective Services, Adult Protective Services, care homes, programs for the aged, blind and disabled, care for our domestic violence victims, employment programs for those that are in need, immigrant services. They provided essential services to over 300,000 of Hawaii's most needy residents. They did this prudently.

"So I support this budget bill and I appreciate all the work that both the Senate and House leadership did, as well our money Committee Chairs. Thank you, Mr. Speaker."

Representative Yamane rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm standing in support. First of all I would like to thank the Finance Chair and Senate WAM Chair for their dedication, as well as their staff. Also I would like to publicly acknowledge my Vice-Chair and the members of the Health Committee including the Minority Leader.

"Mr. Speaker, standing up in support regarding the portion specifically addressing health and human services. Mr. Speaker, it's been a tough year. The Department of Health, as well as the Department of Human Services did take their share, and sometimes even more than their share of some of the budget cuts. Mr. Speaker, the two Departments did lose valuable personnel, as well as positions.

"However Mr. Speaker, during the situation of fiscal crisis, it never left our minds, as well as with the commitment of the Finance Chair, to protect and ensure that programs like the Hawaii Health Systems Corporation and programs dealing with Healthy Start, Kupuna Care, as well as the protection of our firefighters for all they do, Mr. Speaker. This budget, during this fiscal time, shows a true commitment to not only hearing the people of Hawaii, but also preparing for the future.

"One final note Mr. Speaker, which I think needs to be acknowledged, is the fact that with this budget, the way it is, we not only got valuable capital improvement projects throughout the State of Hawaii as noted by the CIP Chair, which I think he noted only projects on Maui, there are other parts of the State other than Maui. But Mr. Speaker, this budget also allowed important fiscal opportunities to continue in bill form which included the Disproportionate Share for hospitals, as well as the use of the Rainy Day Fund for valuable health and human service programs. So thank you, again."

Representative Ward rose to respond, stating:

"Mr. Speaker, just a couple of additional comments, please. First to thank the Representative from Maui who reminded us that there's a big hole in the budget coming when ARRA funds, the federal funds are not going to be coming in the next few years. That's a very sobering remark and a reminder that a balanced budget of one year does not make a six-year budget balanced. Mr. Speaker, what we've got here is a one-year balanced budget. By the Constitution, the Governor has to have a six-year balanced budget, and I encourage the Finance Chair to push the balanced budget, keeping in mind what the Representative from Maui said, that when that *puka* comes in, we've got to be able to fill it. That is a very insightful thing.

"The second thing I'd like to do is thank the other member from Maui who reminds us, until we look at the budget, we're not sure that this budget is what it is. It's got as many pages as the Health Care Act and until you read it, you don't know what pet projects and what, as the Representative from Maui mentioned, got cut, displaced, disseminated, or decimated, and are there. So I encourage everyone to read the budget.

"And lastly Mr. Speaker, the budget debate is not over, because we're going to put it on the website, juxtaposed to the Minority balanced budget so the people of Hawaii can see what the budget is. What decisions were made. You know some of these estimates, well it's all cuts and it's not tax increases. I think the data may bear that out differently, but it's going to be different color-coded. Here's the House Minority Budget. Here's the State Budget. Here's where we overlap. Here's where we disagree. So the people of Hawaii can see openly and transparently what it is that we've done here today. Thank you."

At this time, the Chair stated:

"Members, we've had a lot of discussion on the budget this morning. If any of you would like to submit written comments for or against the Budget that is before you, you may do so at this point in time."

Representative Pine rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Pine's written remarks are as follows:

"Mr. Speaker, I rise in support with reservations for House Bill 2200, Relating to the State Budget. The operating budget has been balanced with spending cuts, vacancy eliminations, and tax increases. I strongly believe that the budget could have been balanced with bolder spending cuts instead of tax burdens on taxpayers. But because this budget bill included all the good things we worked on this session, I will reserve my no vote for the individual bills that carry the tax increases.

"On a positive note, the CIP budget will bring much needed funding for various projects including our airports, highways, harbors, and most importantly, our schools.

"The $48 million appropriation for campus development of the University of Hawaii – West Oahu will lead to further educational opportunities for the people of Hawaii, and reduce traffic for my community. The construction of the campus will also bring much needed jobs for those that are unemployed.

"For the reasons above, I rise in support with reservations for House Bill 2200."

Representative Ching rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in support of H.B. 2200, Relating to the Budget. As we are at the half-way point of the 2010 Legislative Session the budget comes to the forefront of this Body. This legislature must find the delicate balance of balancing our budget yet keeping jobs and sustaining funding for vital community services and programs. I believe it is important to grow our small businesses, for it is these small business that are the back bone of our economy. We must find ways to help our small businesses because their success expands outwards to the rest of our economy.

"Fiscal inefficiency has been the chief reason for our State's budgetary woes. It is simple economics that you can't spend more than you bring in. As I pour over statistics and research looking at past budgets and this proposed budget, I find areas where we can be more fiscally sound. The Director of the Department of Human Services, Lillian Koller, has found several ways to make government more efficient. One proposal Mrs. Koller has come up with is to reform the processing of applications and renewals for public assistance programs, including welfare, Medicaid and nutrition benefits. Mrs. Koller doesn't want to cut services to the needy. Rather, she wants to provide a more efficient service. This model of efficiency has been used quite successfully by many states, most notably being Florida.

"We must be more fiscally efficient as a Body. The great people of Hawaii have put their faith in us and we owe them prudence, diligence, and bipartisanship, especially during these economic times. It is of the utmost importance that we embrace fiscal integrity for the security and prosperity of our great citizens. Thank you."

Representative M. Oshiro rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Oshiro's written remarks are as follows:

"Mr. Speaker, to clarify some comments made by our esteemed colleague from Maui, there is a budget proviso in HB 2200 CD1 that reads as follows:

"SECTION 163.1. Provided that notwithstanding any laws to the contrary, no funds authorized by this or any prior appropriations act shall be expended or encumbered by or for the aloha tower development corporation; and provided further that the governor is authorized to transfer funds held or encumbered by the aloha tower development corporation to appropriate state agencies for the disbursement of its obligations."

"As the budget Conference Committee wrapped up its negotiations, less certain was the final disposition of SB 2942 – the bill that would restructure the responsibilities of the Aloha Tower Development Corporation (Corporation).

Knowing that there probably wouldn't be any budget for the Corporation in fiscal year 2011, it was important to ensure that any:

1. Contractual obligations of the Corporation be honored in any subsequent reorganization; and

2. Existing statutes and/or policies and procedures would allow the Harbors Modernization Group projects to move ahead without any delay or obstacle.

"In fact, it was my belief that all relevant parties, both public and private interests had and did have ample time to ensure that important programs such as the Harbors Modernization Program continue its work undisturbed.

"Prior to making final decisions on the budget, I met with Harbors Division Deputy Director, Mr. Michael Formby, on Friday, April 16, 2010. Joining us via cell phone conference-call was Mr. Brennon Morioka, Director, Department of Transportation. Mr. Formby assured me that he has met with staff and informed them of the status of SB 2942 and emphasized the following:

1. The importance of working with Aloha Tower Development Corporation on the transition of Harbors Modernization Group contracts via assignments to the Department of Transportation by June 30th;

2. The need to maintain work schedules with the existing contracts and consultants;

3. The need to evaluate existing Harbors Modernization Group staff for possible incorporation into the Department of Transportation – Capital Improvement Program – project funded positions, for continuity of service;

4. The ability to hire these project funded positions without the need for an additional appropriation;

5. The need to fill, as soon as possible, the lead Harbors Modernization Program project leader position with an engineer, as well as other key project management positions;

6. The need to revisit the Harbors Modernization Program expenditure plan given 2010 legislative appropriations and existing project schedules;

7. The need to assign the Aloha Tower Marketplace contract to the Department of Transportation, the landowner, and work with the marketplace, maritime museum and surrounding tenants on a viable economic plan until a legislative decision is made on waterfront development, preferably through the Hawaii Community Development Authority; and

8. The desire to convene a voluntary advisory Harbors Modernization Group board as a subset of Hawaii Harbors User Groups to work with Department of Transportation on project implementation

"It was my impression from that meeting that the DOT did not want to restart any of the projects and that it would use the available CIP project funded positions for engineers, and not necessarily all of the current Corporation staff. It was also understood that should the Corporation positions be transferred to the Hawaii Community Development Association (HCDA) that it may be proper to also transfer the jurisdiction and oversight of the Aloha Tower Market Place and its special fund to HCDA. I later came to an understanding that placement of the Aloha Tower Development Corporation staff may be an option given the present vacancies and available source of funding at HCDA.

"With significant construction projects scheduled to begin between FY 2012 and FY 2015, after an initial bond issuance in FY 2011, any transition of and between the Corporation and the Department of Transportation Harbors Division and HCDA is critical to the ultimate success of the projects. It was my belief that the proviso, brought forward by Senator Kim and drafted by the Senate Ways and Means Staff, was included in the budget to ensure that this can occur without any delay or obstacle. My understanding of the expenditure restrictions was the concern of any remaining funds, whether general or special would be improperly transferred and/or used for purposes unrelated to the Corporation.

"Finally, while I cannot comment upon the concerns raised by the Speaker Emeritus regarding the recent opinions of the Attorney General and the Director of the Department of Budget and Finance, it is useful to know and appreciate the fact that within the Supplemental Budget bill another provision reads as follows:

"SECTION 9. MISCELLANEOUS. If any portion of this Act of its application to any person, entity, or circumstance is held to be invalid for any reason, then the legislature declares that the remainder of the Act and each and every other provision thereof shall not be affected thereby. If any portion of a specific appropriation is held to be invalid for any reason, the remaining portion shall be expended to fulfill the objective of such appropriation to the extent possible."

"As such, it is my opinion that should proviso 163.1 be read to prohibit any expenditures of prior appropriations by and for the Corporation, and such prohibition may result in the delay of the Harbors Modernization Program, the assignment of the Aloha Tower Marketplace contracts, and possible transfer of certain Corporation staff to the Hawaii Community Development Corporation, the above referenced Section 9, should take precedence and deem such restriction null and void, and the remaining portion be expended to fulfill the objective as expressed herein of such appropriation to the extent possible.

"For this and for other reasons expressed herein, I support passage of this measure."

Representative Har rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support with written comments."

Representative Har's written remarks are as follows:

"Mr. Speaker, I rise in strong support of H.B. 2200, H.D. 1, S.D. 2, C.D. 1, Capital Improvement Project item number 101.01.

"I want to thank my colleagues, especially the Finance and Capital Improvement Projects Chairs, for including this appropriation of $48,000,000 for the University of Hawaii-West Oahu in the budget. This appropriation will be used for the design, construction, and equipment for the development of the campus in Kapolei. The project will include ground and site improvements and construction of infrastructure and new facilities.

"This state-of-the-art campus will enhance the development of Kapolei as Oahu's "Second City." In order to meet the needs of the fastest growing area on Oahu and afford the students the same opportunities found at the Manoa campus, continued operations from the temporary facilities located on the Leeward Community College campus for the past 30-plus years is no longer practical.

"Mr. Speaker, this funding reflects the commitment of the Legislature to make possible the long-standing promise of providing the young adults of West Oahu equal access to four-year college degree programs, removing barriers of long commutes or renting housing near the Manoa campus. Moreover, the new campus will encourage business development in the surrounding area, creating a "University Village" that will stimulate the economy by bringing job opportunities to our community.

"It is for these reasons that I stand in support of H.B. 2200, H.D 1, S.D. 2, C.D.1 and will continue to be a strong advocate for future funding of the University of Hawaii-West Oahu. Thank you, Mr. Speaker."

Representative Belatti rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Belatti's written remarks are as follows:

"I rise with reservations on HB 2200, CD 1. There is perhaps no other bill more important as a statement of our priorities and values than this year's supplemental budget bill. I applaud the efforts of the legislators and staff members from both the House and the Senate who have labored hours over this bill to preserve much needed services and programs that are at the very heart of government's mission to provide for the public safety, education, health and human services, and economic and environmental prosperity of our island community.

"My reservations with this bill, however, as with the House Draft that crossed over, are premised on revenue generating bills that I am either in opposition to, have failed to pass, or for which I now have grave reservations. For example, I am concerned that we are not certain of the unintended consequences of revenue generation bills, like Senate Bill 2401 that may be the subject of litigation that locks up any revenues that can be used to meet the State's fiscal obligations. I am also concerned that further decreases in revenues may provide the rationale for further cuts to government that would hurt core governmental services without the input of the Legislative Branch. For these reasons, I vote with reservations for HB 2200."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2200, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE BUDGET," passed Final Reading by a vote of 49 ayes, with Representatives Cabanilla and Tokioka being excused.

At 10:23 o'clock a.m., the Chair noted that the following bill passed Final Reading:

H.B. No. 2200, HD 1, SD 2, CD 1

At this time, the Chair stated:

"Before calling a recess, have the Members of this House submitted their respective proposed floor amendments for discussion purposes with the respective Caucuses? Have all of the floor amendments been submitted to the Clerk? If they have, this is your last chance."

At 10:23 o'clock a.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 11:40 o'clock a.m.

At this time, the Chair recognized the Clerk who announced:

"I have been informed by a representative of the President of the Senate that the Conference Committee Report for House Bill No. 2200, HD 1, SD 2, CD 1, was adopted, and said House Bill No. 2200, HD 1, SD 2, CD 1, Relating to the State Budget, passed Final Reading in the Senate at 10:35 a.m. on this day.

"In addition, I have been informed by the Assistant Clerk of the House that at 10:38 a.m. on this day, House Bill No. 2200, HD 1, SD 2, CD 1, has been duly transmitted by the Legislature to the Governor, pursuant to Article VII, Section 9 of the Hawaii State Constitution."

ORDINARY CALENDAR

UNFINISHED BUSINESS

At this time, the Chair stated:

"At this time, Members of the House, may we turn to page 21 of our Order of the Day, and we will be taking Conference Committee Report No. 147-10, House Bill No. 2486, HD 2, SD 2, CD 1, out of order."

Conf. Com. Rep. No. 147-10 and H.B. No. 2486, HD 2, SD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 2486, HD 2, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

At this time, Representative Souki offered Floor Amendment No. 15, amending H.B. No. 2486, HD 2, SD 2, CD 1, as follows:

"SECTION 1. H.B. No. 2486, H.D. 2, S.D. 2, C.D. 1, RELATING TO EDUCATION, is amended by amending section 1 to read as follows:

"SECTION 1. Act 51, Session Laws of Hawaii 2004, stated, "Ultimately all education reform must be driven by the needs of students. Students are the primary clients served by the public education system and they must be served well by providing them with access to the tools they need to succeed, a nurturing environment conducive to learning, and supplementary opportunities for growth that facilitate their development.

Accordingly, especially in light of the instructional hours lost due to furloughs, the purpose of this Act is to require the phase-in of implementation of a certain number of student instructional hours at all public schools, except charter schools, as follows:

(1) Part II requires the department of education to maximize the amount of student instructional hours provided to students under relevant collective bargaining agreements in effect during the 2010-2011 school year;

(2) Part III requires the establishment of a certain number of student instructional hours per school year for elementary and secondary school grades, for the 2011-2013 school years, and for the 2013-2015 school years;

(3) Part IV requires the department of education to, with the board of education and Office of the Governor, and in consultation with representatives of the affected collective bargaining units, submit to the legislature, no later than twenty days prior to the convening of the 2012 regular session, a plan to provide students with a higher number of student instructional hours per school year for elementary and secondary school grades, for future school years; and

(4) Part V requires the department of education to provide suitable transportation to and from school and for educational field trips for all children in grades kindergarten to twelve and in special education classes, and also requires the department to consider pick-up and drop-off times that optimize its transportation services while minimizing costs to the State, if implementation of such student instructional hours results in varying schedules for the transportation of students."

SECTION 2. H.B. No. 2486, H.D. 2, S.D. 2, C.D. 1, RELATING TO EDUCATION, is amended by amending section 5 to read as follows:

"SECTION 5. Section 302A-406, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

"(a) The department [~~may~~] shall provide suitable transportation to and from school and for educational field trips for all children in grades kindergarten to twelve and in special education classes. The department shall adopt such policy, procedure, and program as it deems necessary to provide suitable transportation. In formulating the policy, procedure, and program, the department shall consider the school district; the school attendance area in which a school child normally resides; the distance the school child lives from the school; the availability of public carriers or other means of transportation; the frequency, regularity, and availability of public transportation; and the grade level, physical handicap, or special learning disability of a school child, and it may also consider such conditions and circumstances unique or peculiar to a county or area. If the implementation of student instructional hours pursuant to section 302A- results in varying schedules for the transportation of students, the department shall consider pick-up and drop-off times that optimize the department's transportation services while minimizing costs to the State.""

SECTION 3. H.B. No. 2486, H.D. 2, S.D. 2, C.D. 1, RELATING TO EDUCATION, is amended by amending section 7 to read as follows:

"SECTION 7. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.""

Representative Souki moved that Floor Amendment No. 15 be adopted, seconded by Representative McKelvey.

Representative Souki rose to speak in support of the proposed floor amendment, stating:

"Mr. Speaker and Members, I rise to speak in favor of the floor amendment on House Bill 2486, CD 1. What can we as legislators guarantee our children, our public school children? Truly, try as we might, despite our best efforts we cannot guarantee them a great, or even an adequate education. We have no control over what goes on in the schools, which have depressingly suffered in the last eight years.

"Some will say that our public schools are in worse academic shape now than ever. And although we try through the repair and maintenance and capital improvements budget process, to provide money to build and maintain schools, we are not in charge of building or maintenance either. Try as we might, we can't even guarantee the *keiki* that the buildings are straight and properly maintained.

"In this bill, HB 2486 as amended, we are demonstrating for the first time the role of the Legislature that children have a right to go to school for a minimum number of days per year, and that they all have the right to a certain specific number of hours and minutes of classroom instruction each day. Perhaps Mr. Speaker, we can guarantee one more thing that our children can at least get to school in the morning and home at night again.

"That is why I proposed this floor amendment today to also give our children the right to get to school on the school bus. The school bus is the most expeditious, most environmentally friendly, and the safest way to transport school children yet devised. It's better than walking or riding a bicycle, and safer. It's far cheaper than private vehicle transportation, and safer. If we're going to secure for our *keiki* the right to attend school for a legislated number of days and have the right to a minimum of hours and minutes of instruction each day, then we ought to also secure for them the right to get to school in the first place.

"What happens in a classroom when they get to school is not up to us. How schools are maintained is not up to us. But can we not agree to guarantee our children in this difficult time when all others seem incapable of agreement that at least this Legislature would say to our *keiki* and especially our neighbor island children, you can go to school, we guarantee it.

"I urge my colleagues from every island and every school jurisdiction to join with me today in telling everyone in our State that if the other authorities, the unions, and any other entity that has responsibility for education cannot see the way for a better day for our children, that by this legislation we can. As the duly elected Representatives of the people, we

will take the responsibility to whatever degree the Constitution allows. Thank you, Mr. Speaker and Members."

Representative Herkes rose to speak in support of the proposed floor amendment, stating:

"Thank you Mr. Speaker, in very strong support of the proposed floor amendment. Mr. Speaker, I have schools that are 30 miles apart. Kindergarten schools. Naalehu to Hookena is 30 miles apart. There's no guarantee that there's going to be any school bussing at all, and we're very concerned about that.

"The other thing is, to just get on a bus is a mile and a half. I don't want my kids walking a mile and a half in the vog. That's just not acceptable. In strong support."

Representative McKelvey rose to speak in support of the proposed floor amendment, stating:

"Thank you very much, Mr. Speaker. In strong support. May I have the words of the Speaker from Wailuku entered into the record as if they were my own, and just a few comments if I may.

"Mr. Speaker, I'm very passionate about this floor amendment because of what the two previous speakers have said. We can do a lot of things for instructional hours, instructional days, but if the kids can't get to school to begin with, then what are all these efforts for, Mr. Speaker?

"Mr. Speaker, this is a knife that cuts hardest on the lowest of the socio-economic ladder, Mr. Speaker. It is truly the disadvantaged of the rural and Neighbor Island communities that will suffer the most by not having transportation made available.

"I know there have been concerns saying that this is a mandate and that every child will take the bus. But the reality is, most parents who are taking their kids to school or carpooling will continue to do so. It is for those kids that cannot get there that rely on this bus service. That is what we're trying to say.

"What we're trying to say to them is that when you leave in the morning, when you go to work, when your child waits for the bus, they will get safely to school. And in many areas like my good friend and colleague from East Maui, getting to school by walking is a dangerous endeavor in and of itself. There are no safe routes to schools in these areas, Mr. Speaker.

"So Mr. Speaker, I stand in strong support because I believe that if we're going to give education, access to education for all, then we at least need to provide the way for them to get there in a safe manner. Thank you, very much."

Representative Nakashima rose to speak in support of the proposed floor amendment, stating:

"Thank you, Mr. Speaker. In support. Mr. Speaker, as I often remind my good friend, the Representative from Manoa, my House District is the size of his island.

"Mr. Speaker, in my district I have three high schools. As a teacher at Honoka'a High School, the students were on the bus for about an hour and a half before they got to my classroom every morning, and then an hour half on the way home. That's three hours round trip for many of my students. While this is not an ideal situation, at least they got to school. Mr. Speaker, I'd like to request permission to enter remarks."

Representative Nakashima's written remarks are as follows:

"In strong support of Floor Amendment No. 15. Mr. Speaker, as I often remind my good friend, the Representative from Manoa, my House District is the size of his Island.

"Mr. Speaker, in my District, I have only three high schools. As a teacher at Honoka'a High School, my students were on the bus for one and a half hours before they got to my classroom. While this is not an ideal situation, at least they got to school.

"It is important to ensure that these students in rural areas have the opportunity for a safe route to school. There is no other viable public transportation available to students in these areas, and the large distances make it difficult to coordinate rides in any meaningful way. I believe that the Legislature has a fiduciary responsibility to set forth a policy that ensures all of our students have fair and equal access to a quality public education. An important part of this policy is providing bus transportation to our students who need it."

Representative Carroll rose to speak in support of the proposed floor amendment, stating:

"Thank you, Mr. Speaker. In strong support. Mr. Speaker, in my district I have islands. I'm a 'canoe district.' So let me start by saying, on the Island of Lanai there's one school and not everybody has the means of transportation. There is no public transportation there, and to walk to that school may take hours.

"On the Island of Molokai there's lot of distance between the schools. By not having a bus system it would only encourage the students to be truants, to stay home, and possibly hang out with their friends and do drugs. We don't want to promote that.

"And on East Maui where I live, it's very dangerous because there are no sidewalks. There are no safe zones for these kids to walk. So if you don't provide them with the kind of transportation that they need to get to school, what will happen is that they will hitchhike because in the County of Maui you can hitchhike, but we don't want to promote that because we never know what may happen to our kids. They may end up in the bush. They may end up in a ditch.

"We need to look at safety, we need to look at providing the means so that they can learn, and giving the parents the option. Many of the parents in my district work more than one job. It's very hard for them to coordinate or even have a car. They have to carpool and find other means to get to their jobs. Mr. Speaker, I'd like to ask that the comments from the Representatives from Wailuku and Lahaina be inserted in the Journal as my own. Thank you."

Representative Tokioka rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. I'd like to ask for a ruling on a potential conflict. My son rides the public school bus to school every day, and his mom lives a mile and a quarter from the school," and the Chair ruled, "no conflict."

Representative Tokioka continued to speak in support of the proposed floor amendment with reservations, stating:

"Thank you. I'm in support with some reservations. I'd also like to ask that the comments of the speaker from the Volcano area be entered in the Journal as if they were my own, those brief words. Mr. Speaker, I think some of the things that we learned during this whole issue of transportation and getting our kids to schools is that there are districts on the Neighbor Islands, and here as well on Oahu, where kids have no other option. So for that reason, I'm in strong support of it.

"But as a member of the Finance Committee, I also see the pain and suffering that many other agencies have gone through as well. So for those reasons I have some reservations because we don't want to over-promise and under-deliver. And we don't know how we are going to manage this fiscal crisis. I think as the Finance Chair has spoken about earlier, we did our best to manage the crisis as we saw it.

"So for those reasons Mr. Speaker, I stand in strong support with some reservations. But I want to thank everyone for being involved, for the bus drivers and the companies that came, for the Board of Education that came to discuss their concerns and all of the parents who emailed us and shared their concerns with us. Thank you, Mr. Speaker."

Representative Thielen rose and stated:

"Thank you, Mr. Speaker. Mr. Speaker, I have a procedural question and I would like to address it if I may to the Majority Leader."

At 11:54 o'clock a.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 11:58 o'clock a.m.

Representative Thielen rose to speak in opposition to the proposed floor amendment, stating:

"Thank you, Mr. Speaker. I am in opposition to this floor amendment. I sympathize with the need to get children to school safely, but my concern is the underlying bill is so important. It will extend the school day, the school hours for students. It is so important. And if we pass an amendment and the Senate does not do it in the exact same form, then the underlying bill will be dead, and that's too big a risk. Too many people have worked too long and too hard to get our children back into school."

The Chair addressed Representative Thielen, stating:

"Representative Thielen, thank you very much. You may address this issue when we get back to the main motion. Thank you."

Representative Thielen continued, stating:

"Fine. And then these are my reasons though Mr. Speaker, why I cannot support this floor amendment and I would really strongly urge everyone else in this Chamber to oppose the floor amendment. Not on the merits, the merits were good. But oppose it because we need to get the children back into school for longer hours and to educate them. Thank you."

Representative Sagum rose in support of the proposed floor amendment and asked that the remarks of Representatives Souki and Tokioka be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Tsuji rose to speak in support of the proposed floor amendment, stating:

"Mr. Speaker, in support. Thank you."

Representative Finnegan rose to speak in opposition to the proposed floor amendment, stating:

"Thank you, Mr. Speaker. In opposition and short comments. This amendment changes the language from, 'the Department may,' to, 'the Department shall provide suitable transportation to and from school and for educational field trips for all children grades Kindergarten to 12th grade.'

"Mr. Speaker, I think the arguments that have happened on the Floor are good ones, but this bill is not pragmatic and the reason why I say that is because I look at the words and it says, 'and for educational field trips.' My daughter or my son may go to the Big Island. In the morning they meet at the airport at 5:00 in the morning. Does that mean that you have to get the children from their home to the airport? And that now the Department of Education has to provide that transportation?

"Mr. Speaker, in the budget I believe there's $64 million for transportation. Right now, as I understand it, these contracts for transportation, sometimes there's only one bid that goes in for a particular area when there could be more companies that actually bid for that contract. The competition in that area, sometimes the contract comes back and might be more than it needs to be.

"Mr. Speaker, you need to allow the Department of Education, as well as the Board of Education to go through a process on where there absolutely needs to be transportation and let them decide on how to provide that. If $64 million is not enough money for transportation for the kids of Hawaii, then what we should do is go to the Department of Education, and the Board of Education meetings, and talk about prioritizing maybe some of the issues where transportation is a little bit less attainable and prioritize those districts as having transportation and bus services.

"Mr. Speaker, when that happens, I don't think that you'll end up seeing the transportation money come away from those areas, whether 3 miles, 6 miles, or halfway across the Big Island, or Maui, or between oceans. That won't happen with $64 million, Mr. Speaker.

"So it's just the pragmatism of this particular amendment that I think that we need to take a look at, be mindful that we cannot box in the Department of Education to provide suitable transportation to and from school and for educational field trips for all children. I don't think that that is something that we should bind the Department of Education, especially when parents, teachers, principals and school communities are willing to work with the schools. Thank you."

Representative Ward rose and stated:

"Mr. Speaker, I have a procedural question. If in effect, the concern is that our amendment will not mesh, gel, or be equivalent to the Senate amendment, why do we not just amend the amendment to make it fit so this transportation issue can be expedited and we get on with it, rather than having the whole thing die and then these kids that have got no way to school don't get to school."

The Chair then stated:

"Representative Ward, you are in support of the floor amendment? With an amendment? I do not have your amendment."

Representative Berg rose to speak in opposition to the proposed floor amendment, stating:

"Thank you, Mr. Speaker. I rise in opposition to the amendment proposal and just a few brief comments. I'd like to call on our colleagues to just take a breath. This is not a transportation bill that we're talking about. The intent of the paragraph in this bill that relates to transportation was added so that the Department of Education's attention could be called to the fact that if instructional hours become changed and schedules are then affected, we would like the Department to be cognizant of wanting to have transportation to be congruent.

"So in other words, if the elementary schools will start at the same time as the high schools, then transportation should be adjusted accordingly. I think what's really important is we hear our colleagues' comments about transportation, especially on the Neighbor Islands, that in the following Session they'll become priority in the budget to assign moneys, if that be the case.

"As the Minority Leader had shared, it is to then talk to the Board of Education. So I would ask our colleagues, with all due respect to the initiator of the floor amendment, to pause for this moment and really consider the underlying bill. Thank you, very much."

Representative Hanohano rose to speak in support of the proposed floor amendment, stating:

"Mahalo ho'omalu 'ōlelo. Ke kū nei au e kako'o loa kēia kumu mamua kākou. Makemake au e 'āpono nā hua'ōlelo 'o nā luna maka'ainana mai ka lua pele, Hamakua, Waiakea, Hana, Lahaina a me Wailuku, e like me ko'u mana'o. Mahalo."

Representative Hanohano provided the following translation:

Mr. Speaker, I rise in strong support of this matter before us. I would like to adopt the words of the Representatives from Volcano, Hamakua, Waiakea, Hana, Lahaina and Wailuku as if they were my own. Thank you.

Representative Wooley rose in support of the proposed floor amendment and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Wooley's written remarks are as follows:

"This floor amendment to HB 2486 would require that bus service continue to be provided so that our kids can get to and from school safely. The amendment would change the bill so that it is mandatory rather than permissive to provide this bus service. I support the amendment for the sake of our kids, their safety, and their future. Particularly for kids in rural areas, such as kids in my district, public school bus service must continue. There are few sidewalks and the roads are dangerous and not designed for the safety of our children. I ask that you all support this amendment so we can be sure our kids are transported to and from school safely."

Representative Takai rose to speak in support of the proposed floor amendment with reservations, stating:

"Mr. Speaker, in support with reservations. Thank you. I'd like the Representative from Wailuku's comments entered into the Journal as if they were my own. Thank you, Mr. Speaker. I do understand and appreciate the concerns about the underlying bill and the importance of the underlying bill.

"However, I think that if I put myself in the position of our Neighbor Island colleagues and try to understand the situation from their position, I think we'll all agree that the student transportation issue is a big one. I'm voting in support with reservations because I do believe that the Department of Education has to send a message, a letter, some kind of information to our Neighbor Island colleagues and our colleagues on the rural part of the Island of Oahu with clear plans in explaining their position on student transportation as we move forward.

"Because as I've said many times in the past, a student learns best in school. In fact we have numerous studies that show that the number one factor of student success is student attendance. And if a student isn't in school, he or she does not learn. Thank you, Mr. Speaker."

Representative Chang rose in support of the proposed floor amendment and asked that the remarks of Representative Souki be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Yamashita rose to speak in support of the proposed floor amendment, stating:

"Thank you very much, Mr. Speaker. In support. Basically I am supporting all the comments made by my Neighbor Island colleagues, but also I'd like to just make note that if this floor amendment doesn't make it, that I publicly would like to request that the Board of Education and the Department look at possibly funding transportation through a mechanism similar to free and reduced lunch based on the means of being able to pay. I think there are those that can afford to pay more, and maybe that could be an option as far as funding transportation. Thank you."

Representative Keith-Agaran rose to speak in support of the proposed floor amendment, stating:

"Thank you Mr. Speaker, also in strong support and again, I would echo the remarks of all the previous speakers from the Neighbor Islands, that this is an important issue for us. Thank you."

Representative Awana rose in support of the measure and asked that the remarks of Representatives Takai and Souki be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Coffman rose to speak in support of the proposed floor amendment with reservations, stating:

"Thank you, Mr. Speaker. In support with some reservations. On the Big Island, basically our schools are literally miles and miles apart, and we have no sidewalks. We need busing, Mr. Speaker. Thank you."

Representative Bertram rose to speak in support of the proposed floor amendment, stating:

"In strong support."

Representative Souki rose to respond, stating:

"Yes thank you very much, Mr. Speaker and Members of the House. Thank you for your patience, and hopefully your understanding of the problem which is not only of the Neighbor Islands, but with the rural areas of Oahu. We understand that this bill, while I believe is very important, the message is even more important. And I believe that we have sent a message, that there is a problem somehow in communicating the transportation needs between the Board and maybe even ourselves.

"I believe we need to look at this a little more comprehensively, Mr. Speaker. And I wish to thank you for giving us the opportunity to speak our minds relative to the need. With this Mr. Speaker, I wish to withdraw my motion."

Representative McKelvey rose, stating:

"Yes Mr. Speaker, I too will withdraw my motion. But I hope the message has been received loud and clear by the Department of Education. Thank you, very much."

At this time, Representative Souki withdrew his motion, and Representative McKelvey withdrew his second.

(Main Motion)

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you. Just in strong support."

Representative Thielen rose to speak in support of the measure, stating:

"Thank you. In strong support of the underlying motion. I want to thank the Representative from Maui for withdrawing his amendment because otherwise we would have lost the bill to provide for a decent number of instructional hours in our schools. We have a lot of catching up to do Mr. Speaker, and this bill is a first step. I thank him very much for that."

Representative Pine rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. I think we can all agree that Furlough Fridays are probably the worst thing that would happen to the families of our community. This bill, I think, is one of the most important bills that we're going to pass this Session because it sends a very clear message to our leaders within the Department of Education that you can never touch our school days again. That can never be an option when budgets are reduced. So I think many parents, students, as well as teachers, will breathe a very large sigh of relief today with this passing."

Representative Ching rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. I'm very proud to support this measure that addresses one of the most pressing issues that everyone would like to see solved. As a former educator at Ma'ema'e School, I can't tell you how saddened I felt when I know that our public school students are not going to school on Friday. And that the parents are struggling to find care for them. So this is a measure that we can stand behind, and I'd just like to ask for additional written comments."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in strong support to H.B. 2486 - which establishes a minimum number of instructional hours per school year for each grade. Although we find ourselves in a state of economic crisis, the education of Hawaii's students should always be one of our top priorities. We must recognize that the length of the instructional day in Hawaii's

public schools is among the shortest in the nation. Hawaii has come up short with our schools having fewer than 750 instructional hours per year, when the standard for private and public schools is 900 hours per year. In addition, 80% of American schools spend less than Hawaii at $10,200 per student yet we have less instructional time than any other state in the nation. These numbers cannot be ignored. Thank you."

Representative Marumoto rose to speak in support of the measure, stating:

"Thank you Mr. Speaker, I rise in favor of this bill. I am delighted to see that we have some mandated days for education. I think parents will be very happy to see that. But on the other hand I would like to caution that this is mandated only for the years 2011 to 2013, and after that we must remember to continue this policy of setting it down by legislation. I would not like to see it revert back to collective bargaining to be determined in that arena as to how many schools days we need. I just rise to bring up that point. Thank you."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you in strong support, and may I insert written comments."

Representative Belatti's written remarks are as follows:

"I rise in strong support of HB 2486, CD 1 which increases the number of instructional hours for Hawaii's public schools over a five year period and requires the Department of Education, the Board of Education, and the Governor to come up with a plan, in consultation with representatives of affected collective bargaining units, that will achieve this higher number of instructional hours to benefit our public school children.

"The 2009-2010 school year, with its 17 Furlough Fridays, has been a tragedy for the public school children of this State. It is shameful that we, as a State, have been unable to come to an agreement to put Hawaii's children first and to recognize the importance of prioritizing our children's future and their opportunities to succeed, especially if we want this State to prosper in the future. HB 2486, CD 1 sets us on the right path of setting some minimum standards for public education that cannot be collectively bargained away by the adults sitting around the negotiation table. We cannot, of course, stop with this type of reform, but hopefully this bill will foreclose future furloughs to our children's potential for success.

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, in support. Mr. Speaker, this bill will fulfill a large *puka* if you will, in what otherwise all of us assume that we would have a 180 days in our educational system. We would never slip down below to where we were as the national joke, 163 days. Third world countries have much more education than we.

"This gets us back up, but Mr. Speaker I would encourage us to think even beyond this to 190 to 200. I know it's not just quantity. It's quality. We've got to push the envelope continually. And speaking of which, we've got to push this transportation envelope. This 'loosey goosey,' 'may' or 'you can consider,' that's not going to cut it. The kids have to get to school. This is still pretty soft, mushy language. I think we can do better. But this fulfills a commitment to the people. Furloughs will not continue. Thank you, Mr. Speaker."

Representative McKelvey rose in support of the measure and asked that the remarks of Representative Ward be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Keith-Agaran rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Keith-Agaran's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in support of this bill. HB 2486, H.D. 2, S.D. 2, C.D. 1 requires a certain number of student instructional hours at all public schools. This bill also requires the Department of Education (DOE) to consider pick-up and drop-off times that optimize its transportation services while minimizing costs to the State, if implementation of such student instructional hours results in varying schedules for the transportation of students.

"This bill focuses the number of DOE school days where it belongs – on actual classroom instructional time. This bill increases the amount of quality time students spend in the classroom by requiring intermediate and high school students to receive more instructional time than most other states – six and a half hours a day over 180 instructional days.

"Currently, Hawaii is one of only a handful of states that does not set a minimum of instructional time statutorily, but rather relies on collective bargaining with the Hawaii State Teachers Association. It has been well publicized that the imposition of 17 furlough days for School Year 09-10 and School Year 10-11 gives Hawaii the shortest instructional year in the nation. According to the Education Commission of the States, Hawaii currently also has one of the shortest school days in the country. This reality is counter to the direction taken by the U.S. Department of Education of encouraging states to increase learning time for students by offering financial incentives.

"I urge my colleagues to vote in favor of this bill."

Representative Nakashima rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Nakashima's written remarks are as follows:

"I believe that this bill sets forth the legislative intent and policy of the State that any future budgetary constraints should not negatively impact the number of instructional days available for the quality delivery of education in our public schools. The furloughs have resulted in our schools having the lowest number of instructional days in the country. That, coupled with the low level that our students consistently test at, prove that educational reform is not just something we should want to do, it is a necessity. While this measure may not be the 'golden egg,' it is an important first step in ensuring a quality public education for our children."

Representative Bertram rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Bertram's written remarks are as follows:

"While the DOE has received significant cuts in its operating budget and must look at all options when minimizing costs, it cannot be at the expense of our children's safety. Extending out the perimeter of school buses that would require children to walk farther to school presents more opportunities of danger such as increased traffic exposure."

Representative Berg rose to speak in support of the measure, stating:

"I stand in strong support, and wish to thank the colleagues for their vision. Thank you, very much."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2486, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO EDUCATION," passed Final Reading by a vote of 51 ayes.

At 12:15 o'clock p.m., the Chair noted that the following bill passed Final Reading:

H.B. No. 2486, HD 2, SD 2, CD 1

Conf. Com. Rep. No. 69-10 and S.B. No. 2646, SD 1, HD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2646, SD 1, HD 2, CD 1, pass Final Reading, seconded by Representative Evans.

At this time, Representative Shimabukuro offered Floor Amendment No. 16, amending S.B. No. 2646, SD 1, HD 2, CD 1, as follows:

"SECTION 1. S.B. No. 2646, S.D. 1, H.D. 2, C.D. 1, is amended by amending sections 1 and 2 as follows:

1. By amending paragraph (1) of section 1 (page 1, lines 12-15), be deleting the terms "recreational" and "competitive" and to read:

"(1) Formal worldwide recognition of the designated surfing site as an area that has quality surf and significant cultural, historical, and sports value;"

2. By amending the first paragraph (3) of section 1 (page 2, lines 1-3) to read:

"(3) Promotion of the long-term preservation of Hawaii surfing reserves."

3. By amending the last paragraph of section 1 to delete the reference to Makaha Bay and to read:

"The purpose of this Act is to designate the surf breaks:

(1) From the Ala Wai to the Waikiki War Memorial Natatorium on the island of Oahu; and

(2) From Haleiwa to Sunset beach on the island of Oahu, as Hawaii surfing reserves."

4. By amending section 6E- (a), Hawaii Revised Statutes, in section 2 to delete the reference to Makaha Bay and to read:

"(a) There is established:

(1) The Waikiki Hawaii surfing reserve, which shall include all surf breaks off the area of Oahu bounded by the Ala Wai and the Waikiki War Memorial Natatorium; and

(2) The north shore Hawaii surfing reserve, which shall include all surf breaks off the area of Oahu from Alii beach in Haleiwa to Sunset beach.

Each Hawaii surfing reserve shall extend from the high water mark and include all surf breaks within the defined reserve.""

Representative Shimabukuro moved that Floor Amendment No. 16 be adopted, seconded by Representative Nishimoto.

Representative Thielen rose and stated:

"Thank you, Mr. Speaker. I have the same concern. It's a procedural question as to whether or not the Senate is considering the exact same language in a floor amendment?"

The Chair addressed Representative Thielen, stating:

"I believe the sponsor of the floor amendment will speak on that after you are finished speaking. Representative Thielen, would you give up your time for the sponsor of the floor amendment?"

Representative Thielen: "I would like to hear that, and then I would like to speak. Thank you."

Representative Shimabukuro rose to speak in support of the proposed floor amendment, stating:

"Thank you very much for the question and yes, the Senate has adopted this identical floor amendment on their side earlier today. Really, this amendment is simply to clear up a miscommunication that resulted in adding Makaha to this bill unintentionally, or at least not in the intention of the community. It is also to remove references to recreational and competitive surfing which was intended by the Conference Committee, but was still in the purpose clause. So it's sort of a technicality at this point. Thank you."

Representative McKelvey rose to speak in support of the proposed floor amendment, stating:

"Thank you, Mr. Speaker. In support of the floor amendment. Just some brief comments. I believe that this floor amendment restores what the House position has been on this issue all along, and that is to give the community the tools it needs and the support to stave off the developmental pressures, as well as to protect the environmental quality of these invaluable areas to the people of Hawaii, Mr. Speaker.

"Bottom line is, if the reefs die Mr. Speaker, and the environment degrades to a point, the waves will stop coming in. They won't break the same way and future generations will not be able to enjoy the very same things that their forbearers once did as well.

"This floor amendment Mr. Speaker, by taking out references to 'competitive,' restores what I believe was the intent all along on this bill, which is to give the community and the various groups who are out there working to try and make sure that these surfing places are there, in perpetuity, the tools it needs to make sure that when they paddle out, they'll enjoy the same clean water, same pristine conditions, and same aloha that we enjoy today, as well as those who've come before us. Thank you."

Representative Marumoto rose to speak in opposition to the proposed floor amendment, stating:

"Thank you Mr. Speaker, I will oppose this particular amendment. I don't quite understand why Makaha was taken out of this measure, because I consider it a great surfing venue. It's famous. Everybody knows this. It's got great surf. My understanding is the area was included at the request of Senate President Colleen Hanabusa and other leaders. So I just feel that it should be included in this bill too, that designates great surfing spots in Hawaii. Thank you."

Representative Thielen rose to speak in support of the proposed floor amendment, stating:

"Thank you, Mr. Speaker. With the explanation from the amendment's proponents, I do support the floor amendment. And as the Senate has also passed this exact one, I believe that the Members here should vote for this so we can establish these surfing reserves. It's very appropriate for Hawaii. Thank you."

Representative Brower rose to speak in support of the proposed floor amendment with reservations, stating:

"Mr. Speaker, with reservations. It's just ironic that if this item is so wonderful, why do so many surf spots want to be taken out of it? Once we start to talk about the body of the Act, we see that it's more of a resolution than putting that in statute. I think it would be problematic. Thank you."

Representative Berg rose to speak in support of the proposed floor amendment, stating:

"Thank you, Mr. Speaker. I rise in support of the floor amendment. Thank you, very much. And I wish to thank the Representatives from Lahaina as well as Makaha for being very deliberate and ensuring that the House's intent to preserve surfing spots is really what the language says. If we are in such a hurry to reserve these spaces, then at least we have another two days, 48 hours, if this floor amendment passes to discuss it. Thank you, very much."

Representative Shimabukuro rose to respond, stating:

"I'm sorry. I just wanted to respond that the reason that Makaha is being taken out is that it was added in on the 23rd of April on Friday by the Conference Committee, and the community in Makaha was unaware of it until after the fact. They just simply aren't really for or against the bill. They just want more time to understand fully, what the implications are before they take the leap and be added in. Thank you."

The motion that Floor Amendment No. 16, amending S.B. No. 2646, SD 1, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO HAWAII SURFING RESERVES," be adopted, was put to vote by the Chair and carried. (Representative Marumoto voted no.)

At 12:21 o'clock p.m. the Chair noted that Floor Amendment No. 16, was adopted.

At this time, the Chair stated:

"Members of the House, for this particular measure, Conference Committee Report No 69-10, we will be taking this up on Thursday to make the 48-hour requirement."

Conf. Com. Rep. No. 123-10 and S.B. No. 2395, SD 2, HD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2395, SD 2, HD 1, CD 1, pass Final Reading, seconded by Representative Evans.

At this time, Representative Thielen offered Floor Amendment No. 18, amending S.B. No. 2395, SD 2, HD 1, CD 1, as follows:

"SECTION 1. Senate Bill 2395, SD 2, HD 1, CD1, is amended to provide for a smoother transition of public school teachers and their dependents from the voluntary employee's beneficiary association trust to the Hawaii employer-union health benefits trust fund by extending the sunset date of the voluntary employee's beneficiary association trust from six months to twelve months (June 30,2011) as follows:

1. By amending the second sentence of the second paragraph of Section 1 (at page 1, lines 12-13) to read:

"The legislature declares that it does not intend to make

the enabling law permanent, but will extend the sunset date for another pilot testing period."

2. By amending paragraph (1) of Section 1 (at page 2, lines 7-10) to read:

"(1) Extend the enabling law for the voluntary employees' beneficiary association trust for twelve months to provide for a smoother transition to the Hawaii employer-union health benefits trust fund;"

3. By amending Section 2 (at page 3, lines 1-15) to read:

"SECTION 2. Act 245, Session Laws of Hawaii 2005, section 8, as amended by Act 294, Session Laws of Hawaii 2007, section 2, as amended by Act 16, Session Laws of Hawaii 2008, section 18, as amended by Act 5, First Special Session Laws of Hawaii 2008, section 1, is amended to read as follows:

"SECTION 8. This Act shall take effect upon its approval, for the purpose of establishing a voluntary employees' beneficiary association trust pilot program in March, 2006 and shall be repealed on [~~July 1, 2010~~] June 30, 2011; provided that sections 89-2, 89-3, 89-6, and 89-9, Hawaii Revised Statutes, are reenacted in the form in which they read on the day before the effective date of this Act; and provided further that the amendments made to section 89-6, Hawaii Revised Statutes, by Act 202, Session Laws of Hawaii 2005, shall not be repealed when that section is reenacted on [~~July 1, 2009.~~] July 1, 2010.""

Representative Thielen moved that Floor Amendment No. 18 be adopted, seconded by Representative Marumoto.

Representative Thielen rose to speak in support of the proposed floor amendment, stating:

"Thank you. Mr. Speaker, this floor amendment is identical to the one that has already been passed by the Senate which means that it would not kill action on extending VEBA, which is the health insurance for the teachers.

"Mr. Speaker, I know that there's a move to put everyone within the same plan, and that's the Employer Union Health Benefits Trust Fund, but that Trust is experiencing a great deal of trouble as everyone here in this Body knows. The underlying bill itself would allow VEBA to continue until the end of December. I believe that it should be extended as provided in the amendment so the new administration could take a look at that and see whether or not it would support a continuation of the VEBA plan.

"VEBA has been very good for the teachers. They have had good coverage at a decent cost. I don't like to penalize them by taking it away from them. That's the purpose for the amendment. Thank you."

Representative Ward rose to speak in support of the proposed floor amendment, stating:

"Mr. Speaker, I rise in support of the amendment. Mr. Speaker, it would seem to be the only right thing to do. You can't suddenly crash, stop and then continue with benefits that otherwise would expire within a matter of weeks or months. I know there's a six month extension. This gives some breathing room. It gives a chance to figure out what we're doing and where we are going.

"The previous speaker mentioned the EUTF. The EUTF is bleeding $1 million per month. I've heard jokingly and then seriously, VEBA should take over EUTF. They're doing a better job at it. The point is, we've got to get health benefits straight, just the same way we're getting Furlough Fridays straight. We've got to get this, and this is the first beginning for that. So this amendment is a first step forward."

Representative B. Oshiro rose to speak in opposition to the proposed floor amendment, stating:

"Mr. Speaker, I rise in opposition to the amendment. Very briefly I will just cite a letter by our State Office of the Auditor dated December 2, 2009, and therein she basically summarizes why she does not believe continuation of the VEBA plan is appropriate.

'We found that the VEBA Trust pilot program, one, promotes adverse selection and increases premium cost for the EUTF enrollees. Two, it duplicates administrative costs borne by the State employer. And three, it cannot ensure transparency and accountability in providing health benefits for teachers and teacher retirees. Overall the HSTA VEBA Trust breaks up the EUTF health plans and they negatively effect the EUTF.'

"I believe that this conclusion by our State Auditor as fully documented in her report is something we need to pay attention to. The underlying bill provides a six month window with which to provide for transition. I believe that six months is appropriate for that transition and that one year is much too long, if we are going to continue to save costs. People have been talking about bleeding all over this place. We just passed our State budget. We talked about our huge deficit and the need to actually live within our means. And surprisingly, despite what our own Auditor is recommending, people here are going forth with recommendations that go counter and contrary to our need to contain costs. For those reasons I rise in opposition."

Representative Marumoto rose to speak in support of the proposed floor amendment, stating:

"Mr. Speaker, yes I favor the amendment and hope that others would see the rationale of it. But as the Hawaii Kai Representative pointed out, the Hawaii Employer Union Health Benefits Trust Fund is encountering numerous difficulties performing its duties and has been for several months, since the end of last year. It's due to increased and more complex workload, a shortage of personnel, which I don't think we could help soon enough, and absence of Board leadership. Hopefully a bill will help change that, but that will take some time to put into place. And a lack of administrative leadership. They need strong leadership immediately, and hopefully they have someone in mind, but how fast can that person get up to speed.

"The staff of the Hawaii Employer Union Health Benefits Trust Fund will experience difficulty assisting in the transition of thousands of public school teachers and all their dependents from VEBA to the Hawaii EUTF. So we must give them more time. They have many current duties which they also must handle and this would be additional duties. So I urge you to consider the transition time needed. Thank you, very much."

Representative Rhoads rose to speak in opposition to the proposed floor amendment, stating:

"Mr. Speaker, in opposition to the amendment. From the debate so far, you would think that this was a partisan issue, but I don't believe that's the case. When the Labor Committee heard HB 7 back in February, HB 7 was an extension of the VEBA sunset date, both the Department of Human Resources Development and the Department of Budget and Finance testified against the extension. Thank you."

Representative Manahan rose and stated:

"Mr. Speaker, just a point of clarification. Is this particular floor amendment the same version that was passed out by the Senate?"

The Chair responded, stating:

"I believe so, but I may stand corrected. It may, or may not be the same at this point."

At 12:29 o'clock p.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:32 o'clock p.m.

Representative Thielen rose to respond, stating:

"Thank you, Mr. Speaker. I am still in favor of the amendment. I would just like to remind Members that the Senate has passed this exact amendment. If we do not pass it, what that means is that VEBA ends in June, this June. And EUTF no way can handle that. It would be disastrous for the teachers, the retired teachers, and their families. So I would encourage everyone to vote for this amendment, Mr. Speaker. Thank you."

Representative Ito rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, may I have a ruling on a conflict? I have a VEBA plan. Thank you," and the Chair ruled, "no conflict."

Representative Finnegan rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

At this time, Representative Marumoto requested a roll call vote.

The request of roll call was put to vote by the Chair and upon a show of hands, the request was not granted.

The motion that Floor Amendment No. 18, amending S.B. No. 2395, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE BUDGET," be adopted, was put to vote by the Chair and upon a voice vote, failed to carry. (Representatives Finnegan, B. Oshiro and Rhoads voted no.)

At 12:34 o'clock p.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:44 o'clock p.m.

Representative Thielen called for a division of the House to challenge the failure of Floor Amendment No. 18, and upon a standing vote, the decision of the Chair was upheld.

Representative Marumoto rose and stated:

"Mr. Speaker, point of parliamentary procedure. I was not aware that we needed a certain number to carry on a division."

Speaker Say: "It is in the House Rules that is before you on your particular desk. Yes it is."

Representative Marumoto: "Thank you."

(Main Motion)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2395, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE BUDGET," passed Final Reading by a vote of 51 ayes.

At 12:46 o'clock p.m., the Chair noted that the following bill passed Final Reading:

S.B. No. 2395, SD 2, HD 1, CD 1

ANNOUNCEMENTS

Representative Yamane: "Thank you, Mr. Speaker. Members and guests in the Gallery, today we have a new father, a colleague of ours, Representative Aquino from Waipahu. He and his wife have a baby boy, Ethan James Aquino. He was 5 pounds, 11 ounces and born at Kapiolani Women's and Children's Hospital at 12:47 a.m. this morning. So he's a new father, as well as he is here today. Thank you."

Speaker Say: "Representative Aquino, would you like to say a few words about your new son?"

Representative Aquino: "Thank you, Mr. Speaker. I don't have much to say at this time. My wife and I are very, very happy and blessed. Some of the Members here have given me a lot of good advice. I'll be looking forward to calling you for more advice. Thank you so much."

CONSENT CALENDAR

UNFINISHED BUSINESS

At this time, the Chair stated:

"Members, at this point everyone realizes that there will be no discussion as these items were agreed upon by this Body for placement on the Consent Calendar."

Representative Yamane rose and stated:

"Mr. Speaker, sorry, I do need to ask for a ruling on a potential conflict."

At this time, the Chair stated:

"At this point for all of you here this afternoon, for those measures that are in the Consent Calendar and for those who have voiced their conflict of interest ruling before this Body, it will be a blanket 'no conflict' for all of you."

Representative Yamane: "Thank you, Mr. Speaker."

Speaker Say: "For the Consent Calendar portion. Representative Takai, you're inquisitive. What I'm saying is that it's an across the board, 'no conflict.'"

Representative Takai: "Mr. Speaker. I think that's a new precedent that you're setting and I understand it. I do have some concerns. May I suggest that Members, if they want to they can insert written comments regarding that issue."

Speaker Say: "I'm going to make a statement on that."

Conf. Com. Rep. No. 9-10 and H.B. No. 2077, HD 1, SD 1, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, and the report of the Committee was adopted and H.B. No. 2077, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO EDUCATION," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 11-10 and H.B. No. 2533, HD 1, SD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 2533, HD 1, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Keith-Agaran's written remarks are as follows:

"Thank you, Mr. Speaker. I support H.B. No. 2533, HD1, SD2, CD1 which amends Chapter 88, Hawaii Revised Statutes by establishing conditions of reemployment of a retirant in certain State or county positions without reenrollment in the Employee Retirement System ("ERS") or loss or interruption of retirant benefits.

"This measure also requires reimbursement of retirement allowances or other benefits received during the reemployment, and payment of contribution that should be paid during reemployment for retirants reemployed in violation of the conditions for reemployment. By establishing penalties for those in violation, Chapter 88 of the Hawaii Revised Statutes conforms to Chapter 88 of the Internal Revenue Code.

"This amendment clarifies the circumstances under which a retirant may be reemployed without suspension of benefits while providing remedies for the system if the conditions set forth in this measure are violated. This balancing of interests also protects the tax exempt status of the ERS.

"I urge my colleagues to vote in favor of this measure."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2533, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE EMPLOYMENT OF EMPLOYEES' RETIREMENT SYSTEM RETIRANTS," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 12-10 and H.B. No. 1190, HD 1, SD 2, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.B. No. 1190, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO TRAFFIC ACCIDENT INVESTIGATION," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 13-10 and H.B. No. 2020, HD 2, SD 2, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.B. No. 2020, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO COUNTIES," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 14-10 and H.B. No. 1854, SD 2, CD 1:

Conf. Com. Rep. No. 15-10 and H.B. No. 2676, HD 1, SD 1, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, and the report of the Committee was adopted and H.B. No. 2676, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE KAHOʻOLAWE ISLAND RESERVE COMMISSION," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 19-10 and H.B. No. 1684, HD 2, SD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1684, HD 2, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Keith-Agaran's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in support of this bill. The purpose of HB 1684, H.D. 2, S.D. 2, C.D. 1 is to prevent and reduce the intentional introduction and spread of invasive species by establishing and revising penalties appropriate to the harm caused by the intentional introduction and spread of invasive species to the economy, natural environment, and the health and lifestyle of Hawaii's people.

"Invasive species represent the single biggest threat to Hawaii's natural environment. Pests have already caused millions of dollars in crop losses, the extinction of native species, the destruction of native forests, and the spread of disease. Many more harmful pests, however, currently threaten to invade Hawaii and wreak further damage. Due to its isolation, Hawaii originally had thousands of unique species found nowhere else on Earth. Today, with less than 0.2% of the land area of the United States, the Hawaiian Islands support more than 30% of the nation's species listed under the Endangered Species Act. In fact, Hawai'i is well known as the extinction capital of the United States. Further, it is estimated that now as much as 30% of all established species in Hawai'i are nonnative.

"I support the increase in fines and penalties so that people are deterred from breaking the law. I also feel it's important to provide funding to increase the number of State agricultural inspectors at ports of entry to help enforce this law and maximize its effectiveness.

"I urge my colleagues to vote in favor of this bill."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1684, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO INVASIVE SPECIES," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 23-10 and H.B. No. 1992, HD 1, SD 1, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.B. No. 1992, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE INTERMEDIATE APPELLATE COURT," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 26-10 and H.B. No. 2288, HD 1, SD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 2288, HD 1, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Keith-Agaran's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in support of this bill. The purpose of HB 2288, H.D. 1, S.D. 2, C.D. 1 is to prohibit deed restrictions or

covenants that require a transferee of real property to pay transfer fees to the person imposing the deed restriction or covenant in connection with a transfer of real property.

"A Private Transfer Fee (PTF) is a fee imposed by a private party which requires the payment of a certain amount (usually a percentage of sales price), potentially in perpetuity. PTFs may be imposed via deed restrictions or covenants. Sometimes, PTFs may be imposed as part of a new housing development upon the initial and subsequent purchasers of the property. These restrictions run with the land, and may not necessarily be disclosed formally to subsequent buyers until the closing of a property sale.

"Presently, there is no regulation over the imposition of PTFs. There isn't a limitation on the application of the fees and no accountability or oversight of the recipients of the fees. I understand the concerns with PTFs because they potentially decrease housing affordability and in certain circumstances may provide no benefit to the purchasers. I do support PTFs that fund maintenance of conservation easements. Conservation easements are important tools to protect and promote open space and Hawaii's natural vistas and resources. All residents, and certainly the owners of lands burdened by conservation easements, benefit from well-maintained and preserved natural areas within or adjacent to those lands.

"I urge my colleagues to vote in favor of this bill."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2288, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO PRIVATE TRANSFER FEES," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 27-10 and H.B. No. 2497, SD 1, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.B. No. 869, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO RENTAL MOTOR VEHICLES," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 33-10 and H.B. No. 2349, HD 1, SD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 2349, HD 1, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Yamane's written remarks are as follows:

"Thank you, Mr. Speaker. House Bill 2349 extends protections from assault and terroristic threatening to a specific list of Emergency Room Personnel. On this measure, I stand in strong support.

"As a social worker who has provided services in the Queen's Medical Center Emergency Room, I am well aware of the frequency in which acts of assault are committed against Emergency Room staff members. In a recent national survey by the Emergency Nurses Association, more than half of emergency department nurses reported that they had been physically assaulted on the job. The U.S. Department of Labor reported similar statistics, concluding that the greatest number of physical assaults occur in Emergency Rooms across the nation.

"Emergency room services provided by a range of workers in the E.R. are vital to our health care system in Hawaii. By protecting our emergency room personnel from violent acts, we ensure a safer environment in Hawaii's hospitals and allow our health care workers to provide better care to our citizens in their greatest time of need. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2349, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO VIOLENCE AGAINST HEALTH CARE PERSONNEL," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 37-10 and H.B. No. 2725, HD 1, SD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 2725, HD 1, SD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Karamatsu's written remarks are as follows:

"I rise in support. The purpose of this bill is to revise laws prohibiting the cruel treatment of pet animals by specifying the standards of care that an owner must provide a pet animal, including the type of pet enclosure and under what conditions and when veterinary care must be provided.

"The new amendment requires that the area of confinement in a primary pet enclosure must: provide access to shelter; be constructed of safe materials to protect the pet animal from injury; enable the pet animal to be clean, dry, and free from excess waste or other contaminants that could affect the pet animal's health; provide the pet animal with a solid surface or resting platform that is large enough for the pet animal to lie upon in a normal manner, or, in the case of a caged bird a perch that is large enough for the bird to perch upon in a normal manner; provide sufficient space to allow the pet animal to, at minimum, easily stand, sit, lie, turn around, and make all other normal body movements in a comfortable manner for the pet animal, without making physical contact with any other animal in the enclosure; and interact safely with other animals within the enclosure. Finally, one must provide veterinary care when needed to prevent suffering for the pet animal.

"A pet animal is defined under section 711-1100, Hawaii Revised Statutes, as "a dog, cat, domesticated rabbit, guinea pig, domesticated pig, or caged birds (passeriformes, piciformes, and psittaciformes only) so long as not bred for consumption.

"Nothing in this bill is intended to apply to animals that are raised for food, such as any livestock or chickens that are raised for consumption or for eggs, nor to any pigs or rabbits that are raised specifically for consumption. Thank you."

Representative Nakashima's written remarks are as follows:

"As a member of the Conference Committee, I would like to express my appreciation to the Judiciary Chairs for working with me to ensure that the concerns of farmers and ranchers throughout the State were adequately addressed in the final version of this bill. This bill ensures that standards

of care for pets do not infringe on the growers of animals for the purposes of food or consumption. The bill, as originally drafted, would have hurt the ranching industry immensely. I am proud of the collaboration between the parties in reaching a compromise that demands humane treatment of animals, while ensuring the ranching industry can continue to thrive."

Representative M. Oshiro's written remarks are as follows:

"Mr. Speaker, I rise in support of House Bill 2725, Conference Draft 1. This measure revises current law that prohibits cruelty to pet animals by specifying the standards of care that a pet owner must provide to their pet.

"It is hoped that this measure will help to improve the health and wellbeing of our pets. There are many pets in Hawaii that spend a considerable amount of their day in a kennel or cage. While some may think keeping their pets in a kennel or cage is a convenient way to keep the pet safe and sheltered, there needs to be standards for these enclosures. Growing up in a family that loved our dogs and treated each as a member of the family, I cannot imagine the horrors of the severe enclosures used to impound dogs today. This is why I strongly support this measure.

"Specifically, Mr. Speaker, this measure requires pet owners, who choose to house their pets in a cage or kennel, to use a primary pet enclosure that provides the following:

1. Access to shelter;

2. Be constructed of safe materials that will not cause harm or injury to the pet;

3. Enable the pet to be clean, dry and free from excess waste or contaminants;

4. Have a solid surface or resting platform large enough for the pet to rest on in a normal manner; or in the case of a caged bird, a perch large enough for the bird to perch on in a normal manner; and

5. Have sufficient space for the pet to easily sit, stand and make all other normal body movements in a comfortable manner without making contact with any other animal that may be in the same enclosure.

"It also requires a pet owner to provide veterinary care, when needed, to prevent the pet from suffering. Hawaii is one of the remaining states that do not require veterinary care for pet animals. This provision alone corrects a long time deficiency of present laws and makes this measure worthy of its passage alone. It is also consistent with Hawaii's progressive and compassionate public policies regarding both man and beast.

"The Humane Society of the United States, Hawaiian Humane Society, Kauai Humane Society, Maui Humane Society and many concerned individuals testified on this measure. Those who have testified have cited examples of dogs that were kept in cages. The reason for housing them in cages was that the waste and urine would fall through the bottom of the cage, making it easier for the owner to clean without having to open the cage. While it is convenient for the owner, the pet suffers as it must stand or sit on the wire/metal bottom of the cage. Prolonged standing or sitting in these cages have the potential to cause hock sores and/or lacerated feet which can lead to bacterial infection and other health problems. Convenience should never be the deciding factor in how we treat and house our pets.

"Mr. Speaker, it is one thing to want to have a pet, it's another to properly take care of that pet. If one does not have the time or inclination to take care of a pet, then one should not have a pet. For many people, pets are like family. No one would think of allowing a family member to live in subpar or hazardous accommodations.

"Also, by mandating certain standards for kennels and cages this measure may be the first step toward preventing "puppy mills" and mass breeding operations where dogs are kept in dirty cages that are cramped, preventing them from engaging in simple bodily movements.

"For the above reasons, Mr. Speaker, I support this measure."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2725, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO ANIMALS," passed Final Reading by a vote of 51 ayes.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 865, HD 1, SD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Keith-Agaran's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in support of this bill. The purpose of this measure is to create a State and county transportation working group to study the feasibility of transferring all applicable State highway maintenance functions to counties with populations that, according to the United States Census Bureau, had a population between one hundred thousand and one-hundred thirty-five thousand in the 2000 Census. This measure requires a report to be submitted to the Legislature.

"While I support the bill, I have some concerns. It's always attractive to talk about streamlining duplicative functions between State and local government. However, there are real differences between the State Highway system built and maintained by the Department of Transportation and the local roads and collector roads maintained by the Highways Division of the Maui County Department of Public Works. Many of those roads are roads that date back to territorial days when an old plantation road may have been paved repeatedly over the decades and become public by donation or use.

"I am concerned whether Maui County will receive the adequate resources and training to maintain its State highways if the functions are moved over in the future from the State. State roads are newer, built under different standards, and have been maintained under different standards. I am also concerned with the lack of clarity for the long-term funding mechanisms that will be available to allow the County to properly maintain the minimum standard of efficiency and management required of this potential jurisdictional and fiscal transfer of responsibility. Additionally, there are no assurances of continued funding at the federal or State level.

"I hope that the study will provide some of these answers before we actually implement a pilot program of some kind.

"I urge my colleagues to vote in favor of this bill."

Representative Keith-Agaran's written remarks are as follows:

"Thank you, Mr. Speaker. I support S.B. 2472 S.D.2, H.D.1, C.D.1 which establishes a task force to analyze factors affecting mortgage foreclosures in Hawaii, including relevant laws. The number of residential property mortgage foreclosures in Hawaii cannot be ignored. We have a crisis and the issues involved are very complex.

"During the 2010 Legislative Session, numerous pieces of legislation have been proposed in an attempt to address these issues. It is clear that we need to strengthen protections for consumers in Hawaii and I would have preferred acting this year to alleviate the pain felt by Hawaii consumers who are losing their homes. However, my colleagues working on these issues have concluded that it is unclear whether any of the proposed legislation will actually improve conditions. The current mortgage foreclosure crisis in Hawaii and across the nation is largely due to lenders that engage in predatory lending tactics and a lack of consumer awareness. Hawaii used to bar non-judicial foreclosures which provided greater protection of homeowners, but which required following long processes in our court system.

"The establishment of a task force made up of knowledgeable people is necessary to enact legislation that addresses the concerns of both borrowers and lenders without placing an undue burden on the courts. The task force will consist of members of organizations to represent all interested parties and stakeholders. This measure is a crucial foundation this Legislature must lay in order to effectively deal with the foreclosure crisis.

"I urge my colleagues to vote in favor of this measure."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2472, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO MORTGAGE FORECLOSURES," passed Final Reading by a vote of 51 ayes.

Representative Keith-Agaran's written remarks are as follows:

"Thank you, Mr. Speaker. I support S.B. 2643 S.D.1 HD.1 which extends General Excise Tax exemptions for condominium expenses paid by managers, sub-managers, and sub-operators, and for hotel employee expenses paid by hotel operators and timeshare projects through December 12, 2013, and clarifies that the maximum allowable tax exemption per calendar year is $400,000. This measure also eliminates the sunset provision on Act 196.

"This exemption applies to certain sums that are transferred from the owner of the properties to the operator of the properties. Included in these sums are employee salaries and benefits. Exempting these sums results in the owner paying the employees directly rather than the operator. Managing employee benefits and salaries locally protects the employees when a hotel is sold. This way, an employee can either be transferred to another hotel operated by the local owner or receive the proper severance package owed to them.

"Thus, this measure helps our local economy by leveling the playing field for local hotel, timeshare and condo-tel operators and sub-operators by allowing them to compete with larger out-of-state management companies.

"I urge my colleagues to vote in favor of this measure."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2643, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO GENERAL EXCISE TAX," passed Final Reading by a vote of 51 ayes.

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2610, HD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Thielen's written remarks are as follows:

"Mr. Speaker, I rise to speak in opposition to SB 2610, HD 1, CD 1.

"It redirects already limited resources to provide county services rather than allowing the Department to focus its efforts on processing and depositing tax revenues.

"The Department's primary focus, especially during current economic times when the general fund is operating at a deficit, is to process returns and tax checks as soon as possible with the highest priority. Quite simply, this measure could have an immediate impact on the general fund if the Department is forced to reprioritize its processing efforts.

"The counties are already providing conveyance tax documents in a timely and reasonable manner, given the Department's general fund priority.

"If they want the material, they should pay for it just like everyone else."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2610, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO CONVEYANCE TAX," passed Final Reading by a vote of 49 ayes to 2 noes, with Representatives Finnegan and Thielen voting no.

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2842, SD 2, HD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Aquino's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in favor of this bill. Mr. Speaker, this measure allows the State to establish the Permitted Transfers in Trust Act. This bill will allow high worth individuals, both in-state and out-of-state, to transfer up to twenty-five percent of their liquid net worth into trusts within the State of Hawaii. This would significantly strengthen our private-financial sector and generate funds for the State through a one-time, one percent tax on the permitted transfer. This is an untapped revenue source that will spur future economic growth and allow Hawaii to be a first-class jurisdiction for the financial planning industry.

"Mr. Speaker, at a time where our economy is in desperate need of a boost, this bill will definitely help."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2842, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE PERMITTED TRANSFERS IN TRUST ACT," passed Final Reading by a vote of 50 ayes to 1 no, with Representative Rhoads voting no.

Conf. Com. Rep. No. 104-10 and S.B. No. 2116, SD 2, HD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2116, SD 2, HD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Keith-Agaran's written remarks are as follows:

"Thank you, Mr. Speaker. I support S.B. 2116 S.D.2 HD.2 which authorizes the Governor to delegate to the Superintendent of Education the authority to agree to indemnify, defend, and hold harmless a county agency, its officers, agents, and employees, under certain circumstances, when the use of county property will be for a school purpose or function.

"Public schools on Maui – as is common throughout our State – utilize county property for essential school functions such as sporting events, graduation ceremonies, playgrounds, and physical education facilities. Baldwin High School, for example, uses many facilities at the County's War Memorial complex for their sports teams, and the Maui Interscholastic League uses the County's stadium for many of its events. Our residents, in many cases, don't distinguish between State and county facilities or the bureaucratic idiosyncrasies associated with different agencies – they are mainly interested in seeing their children play in a safe and well-maintained facility, or walk down the aisle in their cap and gowns, or attend a community meeting in a clean building.

"The current process for the Department of Education to obtain approval from the Governor to indemnify the county when a public school uses a county facility for a school function is unnecessarily burdensome, especially when changes discovered too late to follow the usual bureaucratic process of approvals require decisions at a more local level. Many times, the burden falls on the classroom teachers and the individual schools to work through the issues with county officials with details that shouldn't require an entirely new review at the level of the Board of Education, the Superintendent or the Governor. This measure would streamline the indemnification process, easing the burden for teachers and allowing continued use of county property for important public school functions.

"I urge my colleagues to vote in favor of this measure."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2116, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO INDEMNIFICATION OF COUNTY AGENCIES," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 116-10 and S.B. No. 2691, SD 1, HD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2691, SD 1, HD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Keith-Agaran's written remarks are as follows:

"Thank you, Mr. Speaker. I support S.B. 2691 S.D.1 HD.1, C.D. 1 which provides for the payment of State retirement system benefits on a monthly basis by direct deposit to a financial institution account. This bill allows the Employee Retirement System (ERS) to deposit benefit payments monthly to all ERS retirees and beneficiaries once a month. I appreciate the efforts of the Chairs of Labor and Finance, and the Conferees, to address concerns by retirees and beneficiaries for a transition period that helps them cope with and plan for any hardships from the revised payment schedule.

"Under this measure, by July 1, 2011, approximately 25,700 pensioners and beneficiaries out of 38,000 will be paid by the ERS on a monthly rather than on a semimonthly basis. In addition, approximately 1,400 of these recipients will have their benefit payments deposited directly into a financial institution instead of receiving paper checks.

"As a result, ERS will save costs for postage, check printing, check imaging, and bank fees, and will also increase the ERS' investment earnings. The ERS estimates that this proposal will add approximately $955,000 annually to ERS' bottom line which ultimately benefits all ERS retirees and beneficiaries.

"Out of the 50 state retirement systems in the country, Hawaii is the only retirement system that continues to process pension benefits on a semimonthly rather than on monthly basis.

"I urge my colleagues to vote in favor of this measure."

Representative M. Oshiro's written remarks are as follows:

"Mr. Speaker, I rise in support of Senate Bill No. 2691, House Draft 1, Relating to the Payment of Employees' Retirement System Benefits. This bill:

(1) Requires all retirees and beneficiaries of the ERS to be paid on a monthly, rather than semi-monthly basis;

(2) Requires all beneficiaries to designate a financial institution account into which the ERS will deposit their pension benefits; and

(3) Exempts the following retirees from the monthly payment requirement:

(A) Retirees or beneficiaries who retired before January 1, 2003;

(B) Retirees or beneficiaries who are 80 years of age or older on January 1, 2011; and

(C) Retirees or beneficiaries who receive $800 or less in pension benefits each month.

"I would like to explain the reasons why I support this bill:

"Approximately 25,700 pensioners and beneficiaries out of 38,000 will be paid on a monthly rather than semi-monthly basis. In addition, approximately 1,400 of these recipients will have their benefit payments deposited directly into a financial institution instead of receiving paper checks.

"This measure will result in cost savings in postage, check printing, check imaging, and bank fees. It will also increase the ERS' investment earnings.

"Hawaii is the only retirement system that continues to process pension benefits on a semi-monthly rather than on a monthly basis.

"Social Security recipients also receive their benefits on a monthly basis.

"And finally, the ERS estimates that this proposal will add approximately $955,000 annually to the ERS' bottom line.

"For these reasons, I urge my colleagues to support this measure.

"Lastly, your Committee on Conference urges the ERS to clearly inform those affected by these changes well in advance of the change to mitigate the burden the transition from a semi-monthly to monthly system may have on retirees."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2691, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE PAYMENT OF EMPLOYEES' RETIREMENT SYSTEM BENEFITS," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 122-10 and S.B. No. 2809, SD 2, HD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2809, SD 2, HD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Keith-Agaran's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in support of this bill. This measure proposes to authorize sufficient funding for the operation and staffing of the Public Utilities Commission ("PUC") and the Division of Consumer Advocacy ("DCA") in order to facilitate the agencies' abilities to meet their expected objectives and to fulfill the intent of the reorganizations that were begun with Act 177 and Act 183 from the 2007 Legislative Session. In addition, the measure proposes to require that applicable State and/or county agencies should assist in carrying out the proposed measure.

"This measure would implement the reorganizations of the PUC and the DCA that were approved by the Legislature in 2007 in Acts 177 and 183. The 2007 Legislature's findings say that the reorganizations of these agencies "are essential for providing sufficient regulation of Hawaii's public utilities; controlling utility costs for Hawaii's people, businesses, and governmental agencies; and successfully implementing meaningful energy policy reform in Hawaii."

"SB 2809, S.D. 2, H.D. 1, C.D. 1 is a cost saving measure. It would reduce the annual utility expenditures of State by several times as much as the annual cost of fully funding the reorganization of the PUC and DCA. These agencies regulate over $3 billion of annual telecommunications and electricity utility bills paid by Hawaii's people, businesses and government agencies. Fully funding the reorganizations would ultimately result in savings of at least $100 million annually due to increased regulatory efficiency and consumer protection, bolstered utility industry financial health and prudent allocation of utility investments and expenditures.

"Sufficient utility regulation and consumer protection are especially essential in the next several years as Hawaii prepares to invest billions of dollars in new utility and private sector infrastructure associated with a transition from over-dependence on fossil fuels to increased reliance on efficiency and renewable energy resources.

"I urge my colleagues to vote in favor of this bill."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2809, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO UTILITIES REGULATION," passed Final Reading by a vote of 51 ayes.

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2068, SD 2, HD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Nakashima's written remarks are as follows:

"Research suggests that early education is an important part of children's development. As a result of this, the Legislature implemented a Junior Kindergarten Program. However, few schools have implemented a program and there has not been a cost-effective solution of meeting the needs of the young learners in our State. This measure seeks to change that by requiring the Department of Education and the Early Learning

Council to assess the current Junior Kindergarten Programs and develop a plan to provide cost-effective early education.

"While our resources may currently be slim, as a Legislature, we must decide where our priorities are and what will benefit the State in the long term. I believe this measure does that. We owe it to the young people of Hawaii to ensure that their needs are met and we give them the tools necessary to succeed later in life. Such actions, Mr. Speaker, will only benefit our State in the long run."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2068, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO EARLY EDUCATION," passed Final Reading by a vote of 51 ayes.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 2594, HD 2, SD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative M. Oshiro's written remarks are as follows:

"Mr. Speaker, I rise in support of this bill. This bill provides conforming amendments to the Hawaii income tax law based upon amendments to the Internal Revenue Code for calendar year 2009. It also makes several amendments conforming Hawaii tax law to certain reporting requirements under federal health care reform providing for greater transparency and compliance.

"Pursuant to the Department of Taxation, this bill may have the following positive impacts to revenue in the following fiscal years:

FY 11 = $7.1 million
FY 12 = $5.1 million
FY 13 = $10.5 million
FY 14 = $11.3 million; and

Representative Aquino's written remarks are as follows:

"Mr. Speaker, I stand in support of this measure. At a time where many workers within our State's construction industry are out of a job, this measure helps to streamline the procurement process so that jobs can get to the unemployed quicker. This is welcomed news for many who are on the bench. The struggles of these hard-working residents have been heard loud and clear and this bill helps to address some of these concerns. Thank you."

Representative Thielen rose and stated:

"Yes Mr. Speaker, may we have permission to put remarks into the Journal?"

At this time, the Chair stated:

"I was just going to remind the Members. Members, please remember to let the Clerk know which House and Senate Bills on the Consent Calendar you'll be inserting written comments for the Journal. This must be done before the adjournment of today's Floor session."

ORDINARY CALENDAR

UNFINISHED BUSINESS

Conf. Com. Rep. No. 7-10 and H.B. No. 2376, HD 3, SD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 2376, HD 3, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Pine rose to speak in support of the measure, stating:

"I want to speak in strong support of this, Mr. Speaker. Again, this Session seems to be about Furlough Fridays, but it helped us to talk more seriously about a more important issue and that is the leadership structure of the Department of Education. It has been very frustrating as a legislator who came in to reform education to see and discover and to find out that I'm not really in charge of education.

"I am sort of, but there's also a Board of Education, as well as the Governor. So I'm hopeful that this amendment that would help to appoint the Board of Education underneath the Governor with the Senate's consent, that we'll have a stronger hold on decision making and we'll no longer have our children and the future of education being pulled in so many different directions.

"Of course there's so much more that we should do and we can do to reform education and I'm hopeful that we will do more in following Sessions."

Representative Ito rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, may I have a ruling on a conflict. My daughter works for the Board of Education. Thank you," and the Chair ruled, "no conflict."

Representative Souki rose to speak in opposition to the measure, stating:

"Mr. Speaker, I speak against the measure. I'm opposed to this. I'm not opposed to the public being able to vote. I think they have every right to vote on the measure. However, I'm opposed to the measure."

At 12:55 o'clock p.m. Representative M. Oshiro requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:56 o'clock p.m.

Representative Souki continued, stating:

"Mr. Speaker, I forgot what I was going to say with this interruption. But anyway Mr. Speaker, going back to my opposition to the measure. It's simply that I don't believe that the Board of Education should be turned over to one person, the new Governor, whoever the Governor is, I don't think it is going improve the lot of the education system. In fact I think it's probably going to make it even worse than it is right now.

"To give the power to one person to make the major decision for education is taking a terrible risk. We know that past Governors, we've had good Governors, bad Governors, with different styles of governing. And I don't believe that given the method of appointment, that you'll have a Board that is going to be theoretically independent. The final power is still with the Governor. The Governor that we have now is the most powerful Governor in the whole nation. She has more responsibilities, more powers than any other governor in the nation right now. We're adding another piece of power to the Governor and I think it's too much for one person.

"I believe that what we need is to look at the structure of the Board, increase the size of the Board, and make it more accountable to smaller districts. Each Neighbor Island will have their own member. Here in Honolulu if you have five school districts, you would have five Board members. I think the accountability will be much better that way. They are elected. They're accountable to the public rather than you have one person ending up making the calls. And that's how it's going to happen, that one

person will be making the call. Just look in your heart at the power that the Governor already has. You're just going to add to it. Thank you very much."

Representative McKelvey rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. And may I have the words of the previous speaker entered in the record as if they were my own, and just a brief comment. I know one of the reasons behind this is people say, 'Well, just look at the Board of Education. All the blank votes. Nobody knows who their Board of Education member is.' But Mr. Speaker, I would propose to everyone, that there's probably a lot of our electorate that don't know who their State Senator or State Representative is. We have one of the lowest voter turnouts in the country and so therefore we should probably just abolish everything and make the Governor king and/or queen of the entire State. Thank you, very much."

Representative Bertram rose to speak in opposition to the measure, stating:

"I support the last two speakers in opposition. It's just as he's saying. We already have a very powerful Governor and giving them more doesn't really make sense. You're taking it away from the people. Even if they're not voting right now, it is still their choice. They still get to vote for their school board. So I speak very strongly against this."

Representative Finnegan rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm completely changing my vote from being no, to being yes on this measure from the previous versions or previous votes on the Floor. Mr. Speaker, the reason why I changed my vote is because as I was going along the process and seeing that we do need some kind of change, and if this is the compromise bill that we're going to move forward with, then I will jump on board and support this bill.

"The reason why I was strongly against this bill prior was for the opposite reason from what the Representative from Wailuku was mentioning. Right now, I believe that the Department of Education and the Board of Education is almost in and of itself, a separate branch of government. Being under the Governor, and what I would have preferred is having the Board selected by the Governor with no Selection Advisory Council, or having the Governor appoint the Superintendent so that there is direct accountability.

"Mr. Speaker, accountability is key here. I will be voting on the other measure that gives the Selection Advisory Council, I will be voting no on that bill because I think it gets very murky and there is no accountability. For instance Mr. Speaker, the bill that has the Selection Advisory Council speaks of how other people are going to forward those names. A group of people are going to forward those names over to the Governor. That currently happens with the Board of Regents. And it's interesting enough that some of the comments that were received by the Governor was that she's not appointing enough women onto that Board. But that's mainly because not enough women are being passed through this Advisory Council of the Board of Regents."

Representative Takumi rose to a point of order, stating:

"Point of order, Mr. Speaker. The speaker is not talking about the underlying measure. This is only about the question that will be on the ballot."

Representative Finnegan continued, stating:

"Mr. Speaker, I understand why I was interrupted, because I was speaking on another bill. But these bills are so closely related that I would hope that you would allow me the opportunity to speak on both because they do go hand in hand."

Speaker Say: "The Chair will allow you to continue if you don't speak on the other measure."

Representative Finnegan continued, stating:

"Thank you. I'm almost done, then. Mr. Speaker, so what happens is again, you cannot fault the Governor for making those choices. Just like in this bill and the other bill, it doesn't have that direct accountability. And like I said, I will compromise because it is change. I don't know if it's change for the sake of change, but I will support it. And hopefully what we can do in the future and if the other bill is not supported and does die, then we can correct it so that there is true, direct accountability for our education status in this State. Thank you."

Representative Takumi rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. In support. Ultimately I guess, it will be up to the voters to decide whether or not they want the Board to go in this direction. So whatever we might say in this Chamber today, while important, ultimately the real test is going to be when the voters get to decide which way they want to go.

"I'd like to respond to the speaker from Maui regarding the power of the Governor. As we all know, 39 states already elect judges. In our State the Governor gets to appoint judges. We might want to think about introducing a bill to have judges up for election as they do in most states in the country. And again, this appointed Board is really taking it out of the model that the Board of Regents has. They're appointed as well under the same process. That is a huge budget driver in our system, the University of Hawaii. Yet, no one is proposing that we elect the Board of Regents as well. Thank you, Mr. Speaker."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support of the measure. Mr. Speaker, nobody likes change. Status quo is always better, you're more comfortable. Having worked in community development for so many years overseas, I know that change is disconcerting. It makes people nervous. It makes people uncertain. But after four Governors, Mr. Speaker, have said this is the way to go, you know we're not making this up.

"We need to change. It's long overdue. And even the speaker from Maui who said he's against this change stood up last week and argued that the sale of ice cream and candy belongs at the Board level. Why are they putting it up at this level? They're not doing their job. Well, I think that may be symptomatic of what's happened to education and why we are one of the last in the nation to achieve what we know we can achieve.

"A nation, a country, a state, a district, thrives on the basis of its human resource. Japan has no resources other than its people. And the education of its people is paramount. Until we get it fixed Mr. Speaker, we've got to keep pushing the envelope. We've got to keep changing. I think we all believe in democracy. Well the great thing about democracy is it's self-correcting. When we don't get it right, we change it. And Mr. Speaker, this is going to ask the people, 'Do you want to change? Or do you want the status quo?' And I think regardless of what some of us fear, change is going to be the best we can do for our *keiki*. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2376, HD 3, SD 2, CD 1, entitled: "A BILL FOR AN ACT PROPOSING AMENDMENTS TO THE HAWAII CONSTITUTION RELATING TO THE BOARD OF EDUCATION," passed Final Reading by a vote of 44 ayes to 7 noes, with Representatives Bertram, Carroll, Chang, McKelvey, Rhoads, Souki and Tokioka voting no.

H.B. No. 2376, HD 3, SD 2, CD 1 passed Final Reading in the following form:

H.B. No. 2376, HD 3, SD 2, CD 1

SECTION 4. Constitutional material to be repealed is bracketed and stricken. New constitutional material is underscored.

SECTION 5. These amendments shall take effect upon compliance with article XVII, section 3, of the Hawaii Constitution.

Conf. Com. Rep. No. 54-10 and S.B. No. 2807, SD 2, HD 2, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and S.B. No. 2807, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT PROPOSING AN AMENDMENT TO ARTICLE VII, SECTION 6, OF THE HAWAII CONSTITUTION, RELATING TO THE TAX REBATE REQUIREMENT," passed Final Reading by a vote of 50 ayes to 1 no, with Representative Marumoto voting no.

S.B. No. 2807, SD 2, HD 2, CD 1 passed Final Reading in the following form:

S.B. No. 2807, SD 2, HD 2, CD 1

A BILL FOR AN ACT PROPOSING AN AMENDMENT TO ARTICLE VII, SECTION 6, OF THE HAWAII CONSTITUTION, RELATING TO THE TAX REBATE REQUIREMENT.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. The purpose of this Act is to propose an amendment to article VII, section 6, of the Hawaii Constitution to amend the requirement that excess general fund revenues be returned to taxpayers of the State as a tax refund or tax credit and allow the legislature to deposit these excess revenues into one or more funds, as provided by law, to serve as temporary sources of funding for the State in times of an emergency, economic downturn, or unforeseen reduction in revenue.

SECTION 2. Article VII, section 6, of the Hawaii Constitution is amended to read as follows:

"**DISPOSITION OF EXCESS REVENUES**

Section 6. Whenever the state general fund balance at the close of each of two successive fiscal years exceeds five percent of general fund revenues for each of the two fiscal years, the legislature in the next regular session shall provide for a tax refund or tax credit to the taxpayers of the State, or make a deposit into one or more funds, as provided by law, which shall serve as temporary supplemental sources of funding for the State in times of an emergency, economic downturn, or unforeseen reduction in revenue, as provided by law."

SECTION 3. The question printed on the ballot shall be as follows:

"Shall the legislature be provided with the choice, when the state general fund balance at the close of each of two successive fiscal years exceeds five per cent of the general fund revenues for each of the two fiscal years, to provide a tax refund or tax credit to the taxpayers of the State, or to make a deposit into one or more funds, as provided by law, which shall serve as temporary supplemental sources of funding for the State in times of an emergency, economic downturn, or unforeseen reduction in revenue?"

SECTION 4. New constitutional material is underscored.

SECTION 5. This amendment shall take effect upon compliance with article XVII, section 3, of the Hawaii Constitution.

At 1:07 o'clock p.m., the Chair noted that the following bills passed Final Reading:

H.B. No. 2376, HD 3, SD 2, CD 1
S.B. No. 2807, SD 2, HD 2, CD 1

At 1:08 o'clock p.m. Representative B. Oshiro requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:09 o'clock p.m.

At this time, the Chair stated:

"Members, at this time we are on page 13, and for Conference Committee Report No. 52-10, Senate Bill 2405, Senate Draft 2, House Draft 1, Conference Draft 1, this will be deferred until the end of calendar of today."

Conf. Com. Rep. No. 52-10 and S.B. No. 2405, SD 2, HD 1, CD 1:

By unanimous consent, action was deferred to the end of the calendar.

Conf. Com. Rep. No. 10-10 and H.B. No. 2631, HD 2, SD 2, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.B. No. 2631, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO ENERGY INDUSTRY REPORTING," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 16-10 and H.B. No. 2239, SD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 2239, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Finnegan rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. Thank you, Mr. Speaker. The purpose of this measure is to remove the exemption of dietary supplement beverage containers from the Deposit Beverage Fund. Mr. Speaker, when

this original Fund was set up, I did vote against it. In actuality when I was looking at what this does, it puts on par both the energy drinks, equivalent, so you can collect the one cent tax, and the five cent deposit fee for these energy drinks. That doesn't sound so bad actually.

"But let me just tell you a quick little story. My dad and my son are currently saving cans, and what they do is they go and redeem them. And just for good measure, my dad did the hundred cans per bag. He rinsed them out and he did all of this work prior to going down there. And my son is learning a really good lesson on the environment and recycling and earning money by doing this recycling.

"The problem that I face is when we did the hundred cans, basically what you ended up with when doing the calculations of weighing or even using the machine, more so weighing if you want to get it done a little bit easier and faster, is that you really only get like two-thirds of your money back of the five cents per bottle or can. So in actuality sometimes you may end up, if you're paying six cents per bottle or can, you're really only getting back of that maybe half, or a little more than half.

"Mr. Speaker, that ends up being what I call a tax to run this program and it's not necessarily the five cent deposit. Mr. Speaker, what also happens later on in our agenda is that we're raiding a million dollars from this Fund. So it's the worry that we've always had from the beginning of establishing this Fund, that when this Fund does have money we will take it and we will consider it now not a deposit, but a tax.

"Mr. Speaker, even though I don't believe that we should discriminate between the different kinds of bottles and cans, I must stand firm in just this kind of mechanism that allows us to tax, call it a deposit, and then suck out more money from the people of Hawaii. Thank you."

Representative Ching rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I will be voting for this measure. In support, because of the fairness aspect of it. I have seen it through its different Committees. But I couldn't agree more with the House Minority Leader that this has turned into the tax that we always said it shouldn't have been. So to me, the truth is that it is a tax, but for fairness purposes I will support it. And I ask that the words of the Minority Leader be entered as my own."

Representative Har rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Mr. Speaker, I just want to clarify a point made by the Minority Leader. If you bring in your bottles, you may request a count as long as it is under 200 or less. At that point it will not be weighed. You will get five cents back for each bottle. So as long as it's 200 or less, you will get five cents. That's the incentive many people in my district use, knowing that it could be weighed. But I personally do that too, to ensure that I get the five cents. So just a point of clarification. Thank you, Mr. Speaker."

Representative Finnegan rose to respond, stating:

"Thank you, Mr. Speaker. Just a short rebuttal. Not all of us have the time to go, and for us how granddad does it with my son, we don't go every week and we could. We do wait until we can do it all at once. So it's not that you can do it by 200 cans or less, but that's the way that we chose to do it. And we choose to do it all at once. Yes, it's probably more than most people will do at one time, but nonetheless it's not as easy as you think it is. It's a lot of work to get back that five cents if you do decide to do that. A lot of standing at a machine for hours at a time. We had four of us going through bags. It took us two hours for the four of us with the machines and how they work. This is no easy feat trying to go in and collect your five cents per bottle or can. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2239, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE DEPOSIT BEVERAGE CONTAINER PROGRAM," passed Final Reading by a vote of 49 ayes to 2 noes, with Representatives Brower and Finnegan voting no.

Conf. Com. Rep. No. 17-10 and H.B. No. 2266, HD 1, SD 1, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.B. No. 2266, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO CORRECTIONS," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 18-10 and H.B. No. 1987, HD 2, SD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1987, HD 2, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Marumoto rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I am in favor of this particular measure. I suppose it is a step forward to establish a nuisance action under the Penal Code to retard the use of illegal fireworks. Any property used or intended for use in the commission of, attempt to commit, or conspiracy to commit an offense of illegal fireworks activity, and even facilitating or assisting such activity should be subject to forfeiture.

"There are those who fire off illegal items such as ice bombs or aerials every year. Frequently neighboring home owners suffer from noise, fumes, injuries and danger of fire. Previously, members of the Minority Caucus have complained that it is unlikely and very expensive to pursue a lawsuit against a neighbor who you have to live with. Therefore this law will probably not produce the desired effect of mitigating the noxious, noisy and dangerous New Year's Eve and Fourth of July fireworks in every neighborhood in Hawaii.

"But on the other hand there are others who are importers, wholesalers, retailers who store volatile fireworks in unsafe places or conditions. Those who deal in illegal items, and those who endanger others should be the main target of this legislation. I'm very happy about the use of this forfeiture penalty, and the loss of property may be a much stronger disincentive to buy, sell, store or use illegal fireworks. I had hoped for a statewide ban, but I urge an 'aye' vote on this measure and I hope it works. Thank you."

Representative Pine rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, in support with just a little reservation that we can consider for our next Session. Although this bill allows for the courts to issue orders to protect witnesses who are entitled to the same rights and protections of victims and witnesses in criminal proceedings, their identities are not withheld from the defendants, or there's no guarantee. In other words Mr. Speaker, there is no anonymity clause in this bill, which leaves the witness open to retribution or harassment. There are many good citizens out there that are reporting crimes. But here's how we can make the bill better next time as we readdress this issue.

"Crime Stoppers, for example, has a great system that has stopped a lot of crime. They allow private citizens to turn in individuals who are allegedly doing various types of crime without their names being exposed. Crime Stoppers allows for the investigation and arrest of offenders through the use of many, many, many anonymous tips, which allows a caller to give information in a positive atmosphere without the prospect of retribution.

"Again, I strongly support this bill. I just think that we can make it better in the future. One of the problems that I had in my community is we had a very high illegal fireworks rate, but many were afraid of retribution. While many did start stepping up and reporting the crime, there were still those in a particular ethnic population that were very fearful that they would have retribution against them.

"One great aspect about Crime Stoppers here in Honolulu is that the programs make a difference in creating safer communities. Their success is mostly due to the fact that the tipster can work very closely with the police during the period of time of the investigation. I want to thank the

introducers of this bill. Of course many wanted a complete ban, but I think this at least is a great step in the right direction."

Representative Finnegan rose in support of the measure with reservations and asked that the remarks of Representative Pine be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, in support. With brief comments to say that a good bill with a flaw in it means we're going to have to come back and deal with it again next year. The issue of retribution is a real one. Mr. Speaker, the subculture here is that we don't even honk the horn when somebody is sitting in front of us and the light turns green. We just wait for them to leave. How many times have you heard the horn honk for somebody doing something? So to be able to turn in somebody who's doing fireworks down the street or next door is not very probable. We've got to be practical. We've got to be real. We've got to do something about this, but this bill is going to be more of a gesture than a substantive solution."

Representative M. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker, I stand in strong support. Just to clarify, on page 5 of the Conference Draft there is a reference to make sure that citizens who participate in the prosecution of this measure will be protected under the current Chapter 801D, which is entitled 'Rights of victims and witnesses in criminal proceedings.' This is a law that was enacted to make sure that those who come forward, subpoenaed or voluntary, to help in the prosecution of criminal cases are protected. I want to make sure that everyone knows that Chapter 801D, subsection 3, they will receive protection from threats or harm under the current statute. I'd like to also ask for permission to insert written comments. Thank you."

Representative M. Oshiro's written remarks are as follows:

"Mr. Speaker, I rise in support of House Bill 1987 Conference Draft 1. The purpose of this measure is to strengthen illegal fireworks law in Hawaii by allowing the same strategical and civil legal sanctions cited to fight illegal drugs to be used for illegal fireworks. As such, it allows for the forfeiture of any property used or intended for use and any proceeds or other property acquired or maintained with the proceeds from the commission of, attempt to commit, or conspiracy to commit an illegal fireworks offense. It also makes the importation of fireworks labeled or designated as samples, even if not intended for retail sale, illegal.

"Mr. Speaker, the excessive and concussive noise caused by illegal fireworks disrupts the entire State, and illegal fireworks, like military munitions, can be as lethal and dangerous. The war zone like conditions fireworks create with their smoke, debris, and noise prevent people from peaceful enjoyment of their property. Animal owners are also affected by the illegal fireworks; the sounds often scare pets and force owners to keep them indoors and/or use prescription strength tranquilizers. Also, illegal fireworks pose a danger to the safety of the people of Hawaii, especially children. Between December 31 through January 2, 2010, 112 people were injured by fireworks and 7 were admitted to the hospital. These numbers only account for reported injuries. Furthermore, fireworks cause numerous fires destroying property, homes, and lives.

"A lack of enforcement of the current fireworks laws have allowed for the rise of a lucrative black market for illegal fireworks in the past few years. The difficulty of enforcing current laws has further bred a very profitable industry of importing and selling illegal fireworks. The harsher fines created by this measure will deter illegal fireworks importers, sellers, and possessors from carrying out future illegal activities and hopefully reduce the number of illegal fireworks set off during the holidays.

"By making sanctions to combat illegal fireworks identical to those that fight illegal drugs, this measure may make it easier to bring violators of our State fireworks law to court; with this measure it will now be considered a nuisance to import, transfer or sell aerial devices, display fireworks, or articles pyrotechnics without a valid license. With these changes, offenders can now be brought to court in criminal cases by the State or in civil cases by private citizens. As an additional deterrent, this measure will allow assets that were used or that assisted in the commission of, attempt to commit, or conspiracy to commit these offenses are subject to forfeiture.

"The amendments made through this measure now make it easier for regular citizens to report illegal fireworks activity and for law enforcement to act upon this information. For example, if a private citizen suspects that a neighbor is importing, transporting or selling illegal fireworks they can report this information to the police. The police will then investigate the nuisance, and if evidence of the allegation is found the State may, in the citizen's own name, maintain a suit to abate and prevent the illegal fireworks activity. Additionally, the private citizen can bring a civil nuisance suit against their neighbor to further prevent the illegal fireworks from being imported, transported or sold. People can now take a firmer stand and show their neighbors who are conducting this illegal activity that they are serious and will no longer tolerate such harmful activities.

"Additionally Mr. Speaker, this measure may create a secondary benefit to the people of the State. The recent increase in volcanic activity and vog has compounded the airborne danger of fireworks. Hawaii has the second highest rate in the nation for childhood asthma and many adults, especially the elderly, suffer from chronic lung disease including emphysema and COPD (Chronic Obstructive Pulmonary Disease). Even those who do not have medically diagnosed lung problems often report eye, throat and lung irritation on New Year's Eve and other holidays where fireworks are allowed. It is hoped that this measure will also help to assure the cleanest air for everyone in Hawaii.

"For these reasons, Mr. Speaker, I support this measure."

Representative Pine rose to respond, stating:

"Just a slight rebuttal, but still in strong support. I don't want to ruin things. But basically a judge would have to make a specific ruling for all that protection. All I'm saying is that if we can in the future just model it after the Crime Stoppers program, I think it would be better for all of us."

Representative M. Lee rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support and I'll insert written comments. Thank you."

Representative M. Lee's written remarks are as follows:

"I rise in support of HB1987, HD2, SD2, CD1. This bill addresses the illegal importation, sale and transfer of fireworks through the State's nuisance abatement laws; establishing nuisance abatement and forfeiture actions to discourage these illegal activities.

"I believe this bill provides an incentive for those who might consider storing or exploding illegal fireworks to think twice before doing so. The property on which this occurs could be at risk of forfeiture.

"I commend the Chair of Finance for his introduction of this tough bill and ask the Members' support. This is another step in our efforts to achieve a state-wide ban."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1987, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO FIREWORKS," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 20-10 and H.B. No. 2289, HD 2, SD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 2289, HD 2, SD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Takai rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition to this measure. Thank you, Mr. Speaker. This is the gift certificate bill. Members, if you didn't take a look at this, I would like to point out that we are now in fact allowing for activation or issuance fees up to 10% of the face value, or $5, whichever is less.

"I've said it many times in the past, I don't think we need to be supporting issuance fees or any fees for that matter for these gift certificates. I do understand that Congress passed the Credit Card Act of 2009 and one of the things that it requires is that these cards now be effective for no less than five years. I agree with that. I don't think we have to pass a measure to meet with federal law. Federal law trumps state law in this case, so all these cards will be expiring in five years.

"The other thing that troubles me is that although we have made changes to the credit card types of gift certificates, we have not made it for the paper types. So we have changed the credit card types to five years, and we have not changed the paper types to five years. We in fact keep it at two. This will create confusion in the marketplace. And I just caution us as we move along in this way. I don't think we need to do this, and therefore I'm voting against it. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2289, HD 2, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO GIFT CERTIFICATES," passed Final Reading by a vote of 45 ayes to 6 noes, with Representatives Belatti, Berg, Hanohano, C. Lee, Morita and Takai voting no.

Conf. Com. Rep. No. 24-10 and H.B. No. 2595, HD 1, SD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 2595, HD 1, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition to job killer number 16. Recall that we only had 15 prior to this and this is about the GET tax, and I have two particular concerns about this bill.

"First is that a nonprofit must prove that it's a nonprofit, otherwise it gets taxed. I think that's an unnecessary hoop and hurdle that we're going to put our nonprofits through.

"Secondly, this has the elevation of the GET tax to the sacrosanct trust fund status as an employee's withholding tax would be. Which means if you're a struggling business or family and you go bankrupt, that means you have to pay forever and ever the GET tax now. So it really changes the whole notion of a small business going under and having a fresh start and going over again.

"The point is that we have empowered the Department of Taxation the same way that the nation has empowered the Homeland Security. DoTAX is becoming more draconian year by year, Mr. Speaker, and when it comes and says, 'You nonprofit show me, and prove to me that you're a nonprofit,' and remember your GET tax is forever and ever. I think we're getting a little bit too strongly, and why are we doing it now? Well, it's because 'big brother' is grabbing the wallets of the people of this State thoroughly and more aggressively than ever before. Is this a good precedent? I don't think so, Mr. Speaker. Thank you."

Representative Chong rose to speak in support of the measure, stating:

"Mr. Speaker, in support. This is part of our financial plan, and also an Administration bill."

Representative Finnegan rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With some reservations. Thank you, Mr. Speaker. The purpose of this bill is to strengthen and bring fairness to the general excise tax system, and then it lists all the different ways. Part of my reservation is just that at one point in time, this bill, the Conference Draft, actually removed the periodic reviews of housing projects for which a claimant received a GET exemption. That's basically making sure that those who receive the GET exemption check to make sure that the low income are actually low income, because they're receiving a tax break. Mr. Speaker, that's no longer in the bill, and I was hoping that we could be a little bit more fair with those credits or these exemptions.

"The second thing is, although I do have some concerns that the previous speaker from Hawaii Kai has, my reason for supporting the bill is because this is money, especially in some of the sections of these bills, this is money that was collected from taxpayers that was meant for taxes, for paying those taxes. I think it's unfair, that they use that as a means of income. Thank you."

Representative M. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support. Very briefly, just as a summary, this measure modifies the general excise tax law by simply disallowing a general excise tax benefit, i.e. a reduced rate deduction splitting etc. unless and until the taxpayer first registers their business in Hawaii.

"Number two, files a timely return. And number three, claims the benefit expressly on the proper return forms. This is mainly intended to capture the cash economy loss that basically forces all of the taxpaying public, especially to the small business public, from subsidizing those businesses and individuals who do not pay their proper share of the tax. This measure also shows the general excise collections by creating trust fund liability for those that collect tax payer receipts.

"The fiscal impact to the general fund is as follows Mr. Speaker. For fiscal year '11, $15 million, for fiscal year '12, '13, '14 and '15, $30 million a year. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2595, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO GENERAL EXCISE TAX," passed Final Reading by a vote of 48 ayes to 3 noes, with Representatives Marumoto, McKelvey and Ward voting no.

At 1:31 o'clock p.m., the Chair noted that the following bills passed Final Reading:

H.B. No. 2631, HD 2, SD 2, CD 1
H.B. No. 2239, SD 2, CD 1
H.B. No. 2266, HD 1, SD 1, CD 1
H.B. No. 1987, HD 2, SD 2, CD 1
H.B. No. 2289, HD 2, SD 1, CD 1
H.B. No. 2595, HD 1, SD 2, CD 1

At this time, the Chair stated:

"Members of the House, at this time we will take a 50 minute recess and we will reconvene at 2:20 p.m. to finish up the next nine pages on our Order of the Day. Recess until 2:20."

At 1:31 o'clock p.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 2:32 o'clock p.m., with Vice Speaker Magaoay presiding.

Conf. Com. Rep. No. 25-10 and H.B. No. 1818, HD 2, SD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1818, HD 2, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Pine rose to speak in support of the measure with reservations, stating:

"Just with some reservations. Basically what this bill does for the Department of Public Safety, it asks them to use cognitive behavioral theory with cultural and other interventions.

"My only concern is, I come from a very diverse family of all different races and cultures that come from all over the world. I'm just concerned about that one moment when you have that situation with a prison population where the cultures start to clash, and you question which is the right cultural practice to use. I'm concerned about future conflict that may occur because of this piece of legislation.

"But I do understand the intent, and the intent is to perhaps deal with the prison population in ways that perhaps the normal practices that we use to deal with the prison population do not work, but the cultural one does. So I think we should just tread very carefully as we move forward with these types of new practices."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1818, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO COGNITIVE RESTRUCTURING," passed Final Reading by a vote of 50 ayes, with Representative Carroll being excused.

Conf. Com. Rep. No. 29-10 and H.B. No. 2831, HD 2, SD 2, CD 1:

No. 2831, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE NATURAL ENERGY LABORATORY OF HAWAII AUTHORITY," passed Final Reading by a vote of 50 ayes, with Representative Carroll being excused.

Conf. Com. Rep. No. 30-10 and H.B. No. 1978, HD 2, SD 2, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.B. No. 1978, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO TOWING," passed Final Reading by a vote of 49 ayes to 1 no, with Representative Rhoads voting no, and with Representative Carroll being excused.

Conf. Com. Rep. No. 35-10 and H.B. No. 2688, HD 1, SD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 2688, HD 1, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Finnegan rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition and short comments, please. Mr. Speaker, going through and balancing the budget and realizing that almost half, I believe, I can't remember what the percentage is, but much of our expenses are in special funds. I know that the first paragraph in section one of this bill says that this is not to provide just the program or users with an automatic stream of support that is removed from the normal budget and appropriations process. But we have so many funds and expenditures that actually go through that, that are outside of the budget process. So my concerns are with that, and the reason why I even voted on an earlier Administration bill that started a new special fund, I did vote in opposition of that one as well. Thank you."

Representative M. Oshiro rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Oshiro's written remarks are as follows:

"Mr. Speaker, I rise in support of HB 2688 Conference Draft 1. The purpose of this bill is to make the Department of Health's Sanitation Branch more efficient and to improve the quality of life of the people of Hawaii. This bill changes the name of the Environmental Health Education Fund to the Sanitation and Environmental Health Special Fund. Through this bill, the monies in this fund are authorized to be expended on the operating costs of program activities and functions to enhance the capacity of sanitation and environmental health programs. In order to better fund the Department, the threshold for excess funds to be deposited from the fund into the general fund is increased from $300,000 to $1,500,000. Additionally, this bill increases the yearly amount allotted for administrative expenses from $90,000 to $140,000.

"Underfunding the Sanitation Branch puts the health and safety of Hawaii at risk. As of January 2010 there were approximately 5,860 permitted food establishments on Oahu. Currently Oahu has 9 field sanitarian positions that are filled and 2 vacancies that remain unapproved for filling. That means the ratio of sanitation inspectors to food establishments on Oahu is 1:651. This ratio is much higher than the U.S. Food and Drug Administration's benchmark staffing levels, which is a ratio of 1:150. Oahu inspectors are responsible for inspecting 501 more food establishments than what is currently recommended by the federal government. The lack of adequate numbers of inspectors is alarming as it results in food establishments being inspected about once every 2.5 years. A lot of things could change in two and a half years, Mr. Speaker.

"This measure looks to address the staffing levels. DOH estimates that the Environmental Health Education Fund would retain about $300,000 to $450,000 per year that has previously gone to the general fund. This increase in funding available to the Sanitation Branch would provide for better staffing and provide meaningful and lasting compliance with food safety and sanitation rules. The funds will be used to establish an electronic web-based inspection and permitting process and new food safety systems that include a placard system to notify diners of recent food inspection status, and food safety education.

"It was estimated that the programs and staff positions created by the additional funding would raise approximately $1,500,000 to $1,800,000 through increases in existing user fees charged for DOH Food Establishment Permits. The cost to the general public per meal due to the increase will be less than 1 cent per meal. With a cap at $1,500,000 the State will raise the fees to an average of $200/year x ~9000 = $1,800,000. Food establishments on the West and East Coast of the U.S. pay restaurant permit fees that average $1,000 or more annually to support their food safety programs.

"Mr. Speaker, the Sanitation Branch is a critical component in any rapid response to environmental emergencies and all hazard disaster relief and assistance mainly to ensure a safe food and water supply and to ensure sanitary temporary shelter environments. The division also promotes a sanitary and healthful environment for the people and visitors of Hawaii. The monies allocated and generated through this measure will be used to fund more inspector positions and increase proper sanitation procedures throughout our communities. Continued inadequate funding of core services provided by the Sanitation Branch has recently resulted in adverse media exposure due to rats in Chinatown that devastated commerce in that district, as well as the recent closing of a popular Korean BBQ restaurant due to an E. coli outbreak that sent an 8 year old and a 72 year old to the hospital whom has still not been released since early March and may not be doing well due to Hemolytic Uremic Syndrome – organ failure due to the E. coli infection. The restaurant is also suffering economically due to a 90% drop in business. Both of these situations were totally preventable if the Sanitation Branch had proper staffing levels and were inspecting these food establishments at a frequency necessary (3 to 4 times per year) to produce lasting compliance with food safety regulations.

"We are at the point where the food industry in Hawaii is at great risk of another large media event due to illnesses or infestations. Think of the field day the media would have if this happened in Waikiki or Lahaina and how it may ruin the reputation of Hawaii's travel industry where we constantly sell our island cuisine to the rest of the world. This is not the time to be 'penny wise and pound foolish' when we have a solution at hand to lay the foundation for a world class food safety program that does not tap general funds and requires a miniscule increase in restaurant permit fees. Safe, adequate, and efficient sanitation regulation is important to our State, and for these reasons I support this measure."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2688, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO HEALTH," passed Final Reading by a vote of 49 ayes to 1 no, with Representative Finnegan voting no, and with Representative Carroll being excused.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1212, HD 1, SD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative C. Lee rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Belatti rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Belatti's written remarks are as follows:

"I rise in opposition to HB 1212, CD1. Throughout the history of this bill, lawmakers have tried to balance privacy interests of affected licensees against the public's interest in disclosure so that individuals can make informed decisions about whether to hire licensees for regulated services, including many critical health-related services. Despite the problems and concerns of licensees, the testimony of the Department of Commerce and Consumer Affairs (DCCA) highlights the demand with which the public desires this information with over 450,855 viewings of the complaints history database in fiscal year 2008.

"The DCCA also explains that their reporting endeavors to be a neutral repository of information that provides only specific, limited information and that the public is urged to focus on the outcome of investigations rather than on the simple fact that a complaint was filed or the number of complaints that were filed. Although a balance can probably be struck between the competing interests of individual licensees and the public-at-large, this bill does not strike that proper balance and weighs too heavily against the public's interest in disclosure."

Representative Finnegan rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Takai rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ching rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise with reservations on H.B. 1212, which would remove records of complaints from the exceptions to the types of information that are not subject to disclosure as public documents.

"While I support this measure, my reservations are consistent with those cited in the written testimony provided by the State Office of Information Practices: "The bill signifies a major policy shift in the accessibility of licensee complaint information that the public has come to rely on. While it is, of course, the Legislature's call as to whether to make the policy shift called for in this bill, it is highly questionable as to how this bill would serve anyone other than the few licensees who want to hide their complaint records from the public's view." Thank you."

Representative Pine rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1212, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO INFORMATION PRACTICES," passed Final Reading by a vote of 43 ayes to 7 noes, with Representatives Belatti, Berg, Hanohano, Luke, Marumoto, Morita and Takumi voting no, and with Representative Carroll being excused.

At 2:40 o'clock p.m., the Chair noted that the following bills passed Final Reading:

H.B. No. 1818, HD 2, SD 2, CD 1
H.B. No. 2831, HD 2, SD 2, CD 1
H.B. No. 1978, HD 2, SD 2, CD 1

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.B. No. 2644, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO SOLID WASTE," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 42-10 and H.B. No. 1665, HD 1, SD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1665, HD 1, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative M. Oshiro rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Oshiro's written remarks are as follows:

"Mr. Speaker, I rise in support of HB 1665, Conference Draft 1, Relating to Hawaiian Fishponds. This bill prohibits the sale of public lands on which government-owned Hawaiian fishponds are located.

"Before I begin to explain the reasons why I support this bill, I'd like to thank Mr. Chris Kramer and Mr. Tony Costa for bringing this issue to my attention these past two years. It is their profound dedication and grassroots efforts that helped in the passage of this legislation and the preservation of the few remaining Hawaiian fishponds. As the famous American anthropologist, Margaret Mead, once said, "Never doubt that a small group of thoughtful committed citizens can change the world; indeed, it's the only thing that ever has."

"Mr. Speaker, one of the Hawaiians' greatest engineering innovations was their use of aquaculture, namely stone and coral fishponds. Ancient Hawaiian fishponds are amazing aquaculture structures found throughout the islands that played a prominent role in the prehistory of our State. Fishponds were part of the Hawaiian *ahupua'a* (land division) system of sustainable management of land and water resources for the benefit of society. This locally-developed technology was tremendously productive for the ancient Hawaiians and it can be productive for the State once again.

"The historical importance of Hawaiian fishponds can be found throughout ancient Hawaiian folklore. This bill would aid to preserve some of the few remaining fishponds located in O'ahu, especially the Paiko fishpond, which is the last remaining fishpond in Kuli'ou'ou of the East Honolulu area. It is at Kuli'ou'ou where the goddess Hi'iaka and her party reached after passing through Waialae, Wailupe, and Niu, they came upon some women who were catching small fish and crabs in the pools and shallow water along the shore (http://apdl.kcc.hawaii.edu/~oahu/stories/koolaupoko/makapuu.htm).

"Paiko Lagoon, formerly a coastal fishpond, is fed by a freshwater springs and Kuli'ou'ou Stream. The lagoon's water level varies with the tides and occasionally exposes the saline mudflats. Today *aholehole* and mullet flourish living in Kanewai Pond located behind Paiko Lagoon in Kuli'ou'ou, where ancient *konohiki* rights were still in effect until the time of Statehood. While this pond is currently closed to the public, if properly restored it could play a significant role in renewing the fish and *limu* of the surrounding bay.

"Protecting our State's last remaining fishponds is an integral part of Hawaii's history. The passing of this measure would ensure better protection of valuable architecture and serve as a model for future sustainability. Mr. Speaker, for the reasons cited above, and with great aloha for the community activism of Mr. Kramer and Mr. Costa, I cast my vote in strong support."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1665, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO HAWAIIAN FISHPONDS," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 45-10 and H.B. No. 415, HD 2, SD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 415, HD 2, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Pine rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. I do want to comment that I just adore the Chair of Public Safety, but I just differ on some of what we believe that we should be focusing on this session with the budget the way it is.

"What this bill does is it asks the Auditor to conduct a financial and management audit of the Department of Public Safety's contracts for prison beds and services outside of Hawaii and the Federal Detention Center in Honolulu. I notice in the budget that we allocate $60,000 for this particular audit.

"First of all, my first concern is of course the fact that Public Safety does not have a contract with the Federal Detention Center. We have mentioned this over many times throughout the Session, but this is still in this bill unfortunately. The Department has rather, an intergovernmental agreement with the US Department of Justice Federal Bureau of Prisons, so that is very different then what we're asking the Auditor to do.

"Public Safety already conducts audits and its records are available online for all to review. In addition, this measure is redundant because the Department contracts with the Corrections Corporation of America, which includes the scopes and services, is and has been available also online for everyone to review.

"Out of all the Departments, this is the one Department that almost is required to have consistent audits by the federal government because of the type of work that they do. In fact just this morning, Public Safety had one of its exit conferences with the State Auditor's Office relating to the Sheriff's Division.

"Each year Public Safety does a financial audit within its own Department by an independent auditor. I don't know any other department that does this. So here we are in this economy spending $60,000 for an area in a department that is already auditing itself with an independent auditor and reporting these facts online for all to see.

"Just in the last ten years alone, and I'll try to be brief, there was a financial audit of the Department of Public Safety by the Auditor and a certified public accounting firm, Coopers and Lybrand. There's another audit reporting the revolving funds, trust funds, trust accounts and so forth, of all different departments which included the Department of Public Safety. Not long after that there was another financial audit of the Department of Public Safety within the same year. And just a few years later there was another financial audit of the Department of Public Safety. So I also have a whole page of audits within the Department that continues until this year.

"So I'm just really concerned that this Department is overly audited, Mr. Speaker. I'm always for audits, but when we are not spending $60,000 for an audit of the Department of Education instead, which needs serious auditing, I just feel that our priorities are a little mixed up at this point."

Representative Evans rose to speak in support of the measure, stating:

"Mr. Speaker, I stand in support. The previous speaker spoke about previous audits, but I'd like to talk about what the purpose of the audit is because I think it's very timely and knowing the current Chair of Public Safety really wants to use this to launch off into some great, I believe, policy direction. Specifically in 2007, the Legislature passed the Community Safety Act which is requiring the Department of Public Safety to develop a comprehensive and effective offender reentry system plan.

"The reason I bring it up is if you look at what we want to accomplish in the audit, we're asking the Auditor to make a recommendation on whether continuing the housing of Hawaii inmates in mainland facilities and in the Federal Detention Center in Honolulu is advisable in view of the explicit requirements of that Community Safety Act of 2007 and its subsequent amendments.

"This is really, really critical Mr. Speaker, because we as policy makers changed the direction a couple of years ago on how we wanted reentry. We want to give people training and counseling in terms of being successful when they go home. So if they're on the mainland or in the Detention Center, are we achieving what us as policy makers want to achieve. So I think that's a good outcome for this audit.

"The second part of it is, on the Big Island, the Kulani Correctional Facility was closed and we had our sex offender program there. The sex offenders have come back into the system. What programs are being offered to sex offenders? I think it's really critical, again, the outcome of the audit is to address the closure of Kulani Correctional Facility as part of its analysis in conducting a comparison.

"The bottom line is, the Auditor is supposed to compare the quality of programming, cost and the economic benefit to our State with housing inmates in these facilities on the mainland or in a Detention Center, versus our facilities. So this is an evaluation of how good the Department of Public Safety is doing and where we need to put our prisoners to get the best results. Thank you, Mr. Speaker."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Pine rose to respond, stating:

"Just in rebuttal. I just want to make it clear, I do support finding things out, getting answers to these questions as the Majority Floor Leader mentioned. I guess what I didn't make clear in the first part of my speech is all this can be found online.

"The contract that the Department of Public Safety has with the Corrections Corporation of America includes all of the scopes of these questions that we're asking. And the multiple audits that the Auditor has already done can help us to get these questions answered. The information is already there. So it goes back to my main point of why I'm against it. We're spending $60,000 for audits to get information that we already have, and I just strongly believe that we should be using that $60,000 in another area."

Representative Ching rose to speak in opposition to the measure, stating:

"In opposition. I wanted to ask that the words of the Representative from Ewa Beach be entered as my own, but I just wanted to ask the question: What are our priorities? We do have many priorities, but $60,000, although some people may think that that's not a very large amount, is still $60,000. And so, why should the priority come before the pressing needs of resources in such important areas as education, human services, and health? The fact is that the cost to house inmates on the mainland is almost half the cost to do so in Hawaii, and we cannot afford to bring them back. This audit will not change that. So that's the question that I wanted to ask. Thank you."

Representative Finnegan rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition and just short comments. Mr. Speaker, my main concern with this is the practicality of the measure and the practicality of when we bring prisoners home from the mainland, how do we deal with them?

"I've been receiving more and more communications having to do with, 'It was better when I was in the mainland. We had cleaner facilities. We had more room. We had more programs.' So you have to compare both. Some people have not had good experiences in the mainland, and I think the goal is eventually to make sure that we have adequate facilities and programs so that we have reintegration here in Hawaii. That's where I think the goal is and that's what we'd like to work toward.

"Meanwhile, with the kind of financial constraints that we have and space constraints that we have, how do we operate effectively, as effective as we could be. I'm finding more and more communications coming in from inmates that said that they prefer to be on the mainland. And some people in the mainland that say that they're doing okay and well over there on the mainland. So we have to compare both in this time when we're struggling with making ends meet, Mr. Speaker. As we move forward, let's take a look at a long term vision for public safety and how do we get there. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 415, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC SAFETY," passed Final Reading by a vote of 47 ayes to 4 noes, with Representatives Ching, Finnegan, Marumoto and Pine voting no.

Conf. Com. Rep. No. 46-10 and H.B. No. 2692, HD 1, SD 1, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.B. No. 2692, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO DISASTER PREPAREDNESS PLANNING," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 48-10 and H.B. No. 2157, HD 1, SD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 2157, HD 1, SD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Mizuno rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support of this measure. This measure will increase the capacity from two nursing level residents, to three in Type I expanded adult residential care homes. The question is, is there a concern? Is there a need for a measure like this? And the short answer is, yes.

"According to the Health Care Association of Hawaii who provided testimony in February of this year, on any given day there are an average of 200 patients in Hawaii hospitals who have been treated so that they are well enough to be transferred to long-term care, but are waitlisted because long-term care is not available. These are waitlisted patients. What it means is that they're medically ready to leave. They were in acute-care bed space. They have been rehabilitated and they are ready to leave, but we don't have space for them, Mr. Speaker. This is part of the solution to that problem. In fact, Kaiser Permanente even stated that we can go as high as 275 waitlisted patients. These are for all hospitals in the State on any given day.

"What's the cost? In 2008 it was $72.5 million in uncompensated care. Uncompensated healthcare, and not reimbursed to the hospitals. That's what the hospitals lost: $72.5 million. It'll fluctuate from year to year, but that's the approximate cost per year because of our waitlisted patients. It is estimated that by year 2020, one in four of our residents in Hawaii will be aged 60 or older. This is what they're talking about when they use the term, 'silver tsunami.' Our population is growing faster than rest of the nation, Mr. Speaker. That's why it's important that we're very progressive in addressing senior care.

"Another example of cost for our elderly, and just a quick example. I want to give a simple snapshot which confirms elderly cost. In Hawaii on average, emergency room, hospitalization, rehabilitation and long-term care costs directly related to senior falls, just one example, senior falls, totals $92 million annually. That's $92 million which equals $252,000 per day.

"Just two quick examples which total $164 million annually for the State of Hawaii. This is part of the solution, by allowing expanded care, allowing another nursing level client to live in an adult residential care home.

"This measure will protect the health, safety, civil rights and the right of choice for our elderly who choose to live in a care home. This is more cost effective, especially during this time of fiscal crisis, residents in these Type I homes are provided with quality healthcare at affordable prices, which will run about $2,500 to $3,500 per month. This is compared to $8,000 to $10,000 per month at a private nursing home or institution.

"Are these Type I care homes regulated? Yes, they are regulated, Mr. Speaker. The Department of Health, the Office of Health Care Assurance, has authority and purview over these nursing homes. Also, each of the nursing level patients are followed by a personal case manager to provide oversight in their delivery of care.

"A question was brought up by one of our Members about the staffing ratio of nurses or certified nursing assistants to patients. At that point I didn't exactly have the answer. I had a question to HMSA and they gave me a memorandum that basically stated that pursuant to federal and State law, as long as you have sufficient numbers... What is 'sufficient numbers?' Your guess is as good as mine. Sufficient numbers that provide care for the residents.

"Hawaii Administrative Rules, under the Department of Health, is a lot more specific. Under Hawaii Administrative Rules 11-100.1-23, for each nursing level resident, there must be one caregiver. So it's a one to one ratio. It's a one to one ratio. What I'm trying to say Mr. Speaker is, if I have a Type I care home, I have up to five residents. If they're not wheelchair bound, they're not nursing level, I can have one caregiver to those five. The current law allows us to have two nursing level clients out of those five. You would have to have two."

Representative Brower rose to yield his time, and the Chair "so ordered."

Representative Mizuno continued, stating:

"I get the hint. It's real simple. I get it. Adult resident care homes, one to one care, if you're at an institution it could be one to ten, one to fifteen, even one to twenty if you're at the late shift from 11:00 p.m. to 7:00 a.m. For the following reasons, I support this measure and I think it'll benefit the elderly in the State of Hawaii. Thank you, Mr. Speaker."

Representative Aquino rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I would like to submit written comments in strong support."

Representative Aquino's written remarks are as follows:

"Thank you, Mr. Speaker. I stand in strong support of this measure. The purpose of this bill is to ensure adequate capacity and bed space for the provision of long-term care to persons with nursing facility level care needs by increasing capacity limitations from two, to three nursing facility level residents in Type I Expanded Adult Residential Care Homes. This bill will significantly increase the number of available beds and care for this area of service to our most frail and vulnerable in our communities, greatly assisting families and their loved ones who need nursing facility care. The fiscal savings to hospitals and assisted living facilities may be substantial. Thank you, very much."

Representative M. Lee rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support. Mr. Speaker, the only concern I would have in moving an additional skilled nursing level patient to a care home is that the staff was properly trained. It is true that persons at nursing home level may require less care, but they require skilled care nevertheless. There were some concerns from the community, but I think after what the Representative from Kalihi said, I feel fairly comfortable.

"But nurses and nurses aides who work in care homes need to have a fairly high skill level because these patients often require skin care, they require care to help feed them, they may have a feeding tube, etc., etc. So you want to make sure that they're going to get the adequate care.

"I understand the need for the hospitals to move on their waitlisted patients, but we want to move them on to a safe place where they get good care. Thank you."

Representative Finnegan rose to speak in support of the measure, stating:

"Thank you Mr. Speaker, in support. I just haven't had too many opportunities to support the Chair of Human Services so I wanted to let him know that I do support him on this bill. Thank you."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you very much Mr. Speaker, in support. May I adopt the voluminous comments of the Chair of Human Services as if they were my own."

Representative Pine rose to speak in support of the measure, stating:

"I have the same request as the prior two speakers."

Representative Cabanilla rose to speak in support of the measure, stating:

"Mr. Speaker, I have the same request. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2157, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO EXPANDED ADULT RESIDENTIAL CARE HOMES," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 49-10 and H.B. No. 979, HD 1, SD 1, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.B. No. 979, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE ENVIRONMENT," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 50-10 and H.B. No. 2084, HD 1, SD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 2084, HD 1, SD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Yamane rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm standing in strong support and would like to submit written comments."

Representative Yamane's written remarks are as follows:

"Thank you, Mr. Speaker. The purpose of House Bill 2084 is to meet rising healthcare costs and ensure that Hawaii's residents have continued access to quality healthcare by appropriating State funds to maximize the availability of the federal disproportionate share hospital allowance.

"As we are all well aware, the current economic crisis has greatly affected Hawaii's healthcare and human services providers. Budget shortfalls have led to cuts for Medicaid/QUEST, which has been recognized as the cornerstone of healthcare for Hawaii's most needy population. However, the reimbursements and payments of Medicaid/QUEST to Hawaii's hospitals are inadequate and force hospitals to absorb multi-million dollar losses.

"In 2009, the Legislature overrode the Governor's veto of a bill that appropriated the State matching funds. To date, the Governor has not released the State funds, although federal funds remain available. The State matching fund appropriation under this measure is necessary to receive the federal allowance to continue providing State Medicaid coverage in the next fiscal year.

"For these reasons, I stand in strong support of this bill."

At 3:00 o'clock p.m. Representative Finnegan requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 3:01 o'clock p.m.

Representative Finnegan rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I do support this bill, but I do have some reservations and I just wanted to voice them. This particular bill, money has been appropriated, and so what this does is it extends the lapse date.

"Mr. Speaker, I can agree with that in bringing down more federal funds, but this kind of goal runs counter to some of the other movement that we tried to do early this Session when we stopped Lillian Koller the Director of Human Services through contracts of trying to pull down funds.

"But more so, what I think is important in this bill is when they lapse, I'm unsure of how our Finance Committee does our six-year financial plan. I'm just wanting to make sure that in the Majority's six-year financial plan, if the Governor has already committed to not releasing the funds, that this is re-established in that six-year financial plan and we still have a balanced budget and a six-year financial plan. So that's my reservations. Thank you."

Representative M. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in strong support. Just for the edification of the Members, this particular appropriation is being re-appropriated or

extended, and we're not considering it to be lapsed in our financial plan. Thank you."

Representative Finnegan rose to respond, stating:

"Thank you, Mr. Speaker. And thank you Chair for the clarification. So I think what this means is, for all intents and purposes because we don't have the financial plans to compare. I don't understand if we start off using the Governor's financial plan and her numbers if we actually end up with a financial plan with a balanced budget. So I know this gets into the weeds of things, and I realize that according to the numbers that the Majority has, that it is a balanced two-year budget and a six-year financial plan, but it just makes it hard for us to determine whether or not we're going off of the Governor's financial plan as well. Thank you."

Representative Yamane rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm standing in support with brief comments. Again Mr. Speaker, this $12.7 million appropriation will be drawing down $15 million from the federal government.

"The question regarding how this is going to impact the State of Hawaii's fiscal situation for the next six years; Mr. Speaker, the Chair feels that this will have exponential effects in a positive way to address the future healthcare situation. This money will be going to our hospitals who are struggling to care for those who can't afford their care. These services will be extended to Neighbor Islands, the HHSCs, as well as other needed hospital programs within the State. So Mr. Speaker, this is good for the people of Hawaii. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2084, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE FEDERAL DISPROPORTIONATE SHARE HOSPITAL FUNDS," passed Final Reading by a vote of 51 ayes.

At 3:05 o'clock p.m., the Chair noted that the following bills passed Final Reading:

H.B. No. 2644, HD 2, SD 2, CD 1
H.B. No. 1665, HD 1, SD 2, CD 1
H.B. No. 415, HD 2, SD 2, CD 1
H.B. No. 2692, HD 1, SD 1, CD 1
H.B. No. 2157, HD 1, SD 1, CD 1

H.B. No. 2084, HD 1, SD 1, CD 1

Conf. Com. Rep. No. 58-10 and S.B. No. 2566, HD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2566, HD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Marumoto rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I don't think it's any surprise that I will rise to speak against this measure again. It hasn't improved so therefore I'm still in opposition. Let me reiterate the obvious: employers are happy to provide good medical care to their employees. They pay plenty in premiums for this benefit. It's just that in Hawaii, we compensate almost every worker's comp claim that arises; even for a jogging injury after work. And that makes Hawaii's work comp costs so expensive.

"Let me enumerate my objections. One, this bill will increase medical costs and increase work comp premiums. Actuaries are unable to say how much more it will cost.

"Two, more medical providers will avail themselves of the availability to use a specialist since this bill will make it available, whether the injury calls for a specialist or not. Under current law, a specialist can be called in anytime if warranted, but only when warranted.

"Three, there was much testimony stating that this provision could lead to abuse and excessive use. A provider could refer a patient to a fellow practitioner down the hall who works for the same entity. With a tough economy and delayed payments, it's a tempting opportunity.

"Folks, this is not the time to load more mandates and costs on businesses. Things are getting very expensive: gas, electricity, rents, taxes and fees. Instead we should give businesses a break. How about it?"

Representative Ching rose to disclose a potential conflict of interest, stating:

"I just wanted to ask for a ruling of conflict. My husband is a doctor who takes worker's compensation cases," and the Chair ruled, "no conflict."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2566, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO MEDICAL AND REHABILITATION BENEFITS," passed Final Reading by a vote of 49 ayes to 2 noes, with Representatives Finnegan and Marumoto voting no.

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2169, SD 2, HD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Karamatsu rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. Mr. Speaker, when the first anti-shark finning bill was passed in Hawaii ten years ago, it was considered landmark legislation that would lead the country, if not the world to take the necessary steps toward eradicating the practice of removing the fins of a shark and dumping the body back into the ocean. Hawaii's laws require that the entire shark be landed. This Body's efforts were successful with Congress later enacting anti-shark finning laws of its own.

"Although conservationists then hailed Hawaii's shark finning ban as groundbreaking legislation that would save the sharks from dying unnecessarily cruel deaths, 10 years have apparently proven that what this Body did was not enough for them.

"Now with this bill, conservationists want to go further by banning the possession of shark fins, thus eliminating any consumption of shark fins in the State of Hawaii. I fully support the intent of this bill, however I believe that this bill is going too far to the extreme.

"As Chair of the Judiciary Committee, my duty to this Body is to inform it of any bill's unintended consequences, and the second duty is to ensure laws are fairly applied. When I passed this bill out of the Judiciary Committee, I told everyone that I will not accept any draft that does not address the concerns of all parties, including those presented by the fisherman, business community, researchers, aquariums and Chinese community.

"First, the current law prohibiting shark finning is not only the strongest in the world, but it is working. The fishermen I talked to felt that the current law of landing the entire shark is a good balance because a shark takes up so much space on a boat, thus very little sharks are harvested. Plus when a shark is harvested the entire shark should be used just like the fish they catch.

"Conservationists argue that Hawaii will impact the entire world in regards to shark finning if we ban the possession of shark fins in Hawaii. But such a ban will have a tiny impact on the practice of shark finning in other parts of the world because our consumer market is a speck in this global economy. Rather, to truly make a global impact on the problem of shark finning in other parts of the world, Hawaii's ban on shark finning should be replicated in other governments all around the world. Our federal government could try to create international law that bans shark finning through international treaties.

"Second, this bill does not protect our fishermen from unintended catches. Unlike the ivory poacher who deliberately aims at going at a rhinoceros or elephant, the recreational or commercial fisherman casts his or her line into the ocean and hopes for the best. Fishing is just that, fishing. You don't know what you're going to catch until you pull those lines or nets in. Sometimes when you pull it in, you find a shark that is wounded or has died as it struggled on the line or the net. Instead of landing the wounded or dead shark and making use of the entire catch, fishermen will throw an already dying or dead shark back into the ocean with this new proposed bill. Wounded sharks thrown back into the ocean will have a slow and painful death. In this respect, the birth of this legislation has caused the attempt to save sharks from cruel and unnecessary deaths to backfire.

"Third, according to testimony from the Department of Land and Natural Resources, sharks in Hawaii are currently considered sustainable by the National Oceanic and Atmospheric Administration or the NOAA. The conservationists emphasize the importance of the ecosystem which is a community of organisms and its environment functioning as a ecological unit in nature. Too little predators in the ocean is bad because it could cause an increase in the population of the large fish that could eat up a lot more of the medium fish. On the contrary, too many predators in the ocean can cause a problem because they will cause a decrease in the population of the large fish which could result in an increase of the population of the medium fish that will over consume the small fish. Clearly, our current law is working and maintaining a healthy population of sharks in Hawaii.

"If sharks in Hawaii were in fact listed as an endangered species, then by all means there should be a ban on possession of any part of the shark. For us, let's impose all the laws protecting endangered species including our takings law that include mere harassment when an individual gets too close to the shark.

"Fourth, repeatedly in our House Judiciary Committee hearing, researchers and the current administrators opposed the measure unless there was an exemption for them. However, they emphasize that they do not want a permitting process. This bill does exactly what they oppose, as it requires individuals to apply for a license or permit from the Department of Land and Natural Resources to be exempt of this law for research and educational purposes.

"Further, commercial aquariums will not meet the criteria to be exempted from the law if they do not conduct research or have any educational purpose."

Representative Ito rose to yield his time, and the Chair "so ordered."

Representative Karamatsu continued, stating:

"Thank you. Fifth, this bill will have a negative economic impact on the fishermen, especially to our business community. In its current form the bill no longer distinguishes between fins naturally attached to or separated from the body of a shark. Therefore it is not possible for any person other than a researcher to possess a whole shark or remove it from the ocean. This prohibition will effectively kill any shark fishing operation that sells whole sharks for steaks or any other kind of consumption within the State.

"Sixth, I've encountered so many advocates in my eight years in this institution and time and time again a good number of them think that negativity can force lawmakers to agree with them through their use of threats and personal attacks rather than honest debate on policy. Believe me, I've had my share of attacks by a lot of people especially with my tenure as Chair of the Judiciary Committee and I consider the conservationist's attacks as uncalled for, except for the United States Humane Society which I really enjoyed working with.

"Seventh, this bill unfairly targets our local Chinese community who have traditions of serving shark fin soup for special occasions such as weddings, important business dinners, New Years Day, as well as medicinal practices. Outsiders and transplants into Hawaii continue to impose their beliefs upon the multicultural community in Hawaii. So what is next? Will we introduce a bill to ban *kamaboko* in Hawaii if it contained shark meat?

"For Americans of Japanese ancestry and many locals, the importance of eating *ozoni* soup on New Years Day as our first meal for good luck cannot be comprehended by those who do not understand our culture. The same goes for the importance of serving shark fin soup for special occasions and the use of shark fins for medicinal purposes.

"Many in the Chinese community have brought me in and shared their culture with me because of my openness to learn and practice their culture. In fact I'm wearing *feng shui* beads made out of rubies on my wrist to help bring balance within me. Likewise as Judiciary Chair, I seek to find balance within the laws.

"Ten years ago we passed a law banning shark finning in Hawaii to prevent cruelty to sharks. Now conservationists want us to stop shark finning around the world by us going further and banning the possession of shark fins in Hawaii. Rather, the conservationists need to lobby the rest of the world to replicate our law which they touted 10 years ago as a landmark legislation that will lead the world. So I recommend that they do that in replicating our current law banning shark finning. Thank you, Mr. Speaker."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support with just some brief comments. I empathize with the passions of the Judiciary Chair, but I have to disagree on several points. First of all, on the issue of the fishing of the sharks. The fact of the matter is, as the good Chair said, they take up too much space on the boat. So if they take up too much space on the boat and they're not catching them anyway, why would allowing them to catch a shark that is accidentally caught, why would they change their practice and bring it aboard? You know what they're going to do? They're going to cut the line and let the 'buggah' go anyway, because they don't want it on the boat because it takes up too much space.

"Second of all, the local fishermen like this. During the Conference Committee we tried to reach out to all the groups to share the proposed

Conference Draft 1, and basically what the local long line fisherman said is, 'Good.' Because right now, there's unfair competition in their eyes. They have to adhere to the current law of bringing the fin in with the whole animal and land it. But foreign fisheries don't abide by that. So what happens? They come into Honolulu Harbor with 'choke' fins on their boat, Mr. Speaker, and they sell to the Chinese restaurants, but the local fishermen cannot because they have to land it whole. So therefore they supported this because they see this as a fairness issue. If they can't bring shark fins in and sell them, then why should those who are flying under a foreign flag vessel be able to do the same thing?

"Finally to the permit issue, Mr. Speaker. The reality is that this DLNR permit isn't an additional requirement. It's a requirement that's already in law for any research or educational activities. There was language in the proposed bill that would have it conform to the US Fish and Wildlife permitting system, which was shut, because that would be the addition of an additional permit. All this says is, you have to just have the permit that you needed anyway in order to be able to take the animal.

"And finally Mr. Speaker, the Native Hawaiian community is especially supportive of this legislation because they look at the sharks not just as another animal in the sea, but they look at this as their *'aumakua*. They have a very special relationship with them, and that is the reason why they see this as an important thing, because they are concerned about fishing.

"And finally, while local sharks stock are strong, they're very strong we understand that, but the fact of the matter is, it's the stocks that are outside of our State waters within the EEZ that are in peril due to foreign fishery activities. We tried to strike a balance, Mr. Speaker. That's why we have a phase in period, so that restaurants can use up their existing stock. We slid the penalties back to make it purely monetary, and we tried our best to make a balanced law. And the reason why we took the existing law and have repealed it, is because the new law is stronger.

"Mr. Speaker, your Conference Committee tried to reach that balance. They tried to bring fairness, and tried to work with the restaurant industry. And here's another thing, Mr. Speaker. Artificial shark fin soup has been introduced and is becoming quite popular, and many restaurants I know are going to start carrying that instead because they don't want to deal with the humbug.

"So Members, I understand the passions of both sides. This is a controversial issue. But I just want to note that we in your Conference Committee tried to take an approach, and we tried to work with all the parties to come up with something that we could all support. Because at the end of the day, this is about not only promoting and protecting our local fishermen, but it's also about trying to ensure that the pelagic stock of sharks outside of Hawaii which have an intricate relationship to the stock of fish within Hawaii can be preserved and maintained for future generations. Thank you, very much."

Representative Sagum rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. I'd like a ruling on a conflict. The shark is my family *aumakua*," and the Chair ruled, "no conflict."

Representative Sagum rose in support of the measure with reservations and asked that the remarks of Representative Karamatsu be entered into the Journal as his own and asked that his written remarks be inserted in the Journal, and the Chair "so ordered." (By reference only.)

Representative Sagum's written remarks are as follows:

"Mr. Speaker, I rise with reservations on Conf. Com. Rep. No. 66-10. The Shark, as I was told growing up, is our family *Aumakua*. I was told that eating shark meat or any shark based products was forbidden. My reservation is based in large part on the fact that the proposed measure, although it intends to ban the selling of shark fins, allows the selling of shark fins for another year, to allow restaurants and other retailers to deplete their stocks. I am firmly against the harvesting of sharks for meat, fins, and other food products, outside Hawaiian protocol."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support and just a few comments. I'd like to have the words of the speaker from Maui adopted as my own and I think in response, in rebuttal, to the comment about shark finning being a cultural practice. Two things I would like to point out. I think internationally within China there is actually a movement to ban shark fin soup, so Chinese culture is in flux and so that argument I think does not hold well for me. Secondly, a very persuasive testimony before the Judiciary Committee I'd like to repeat was from former First Lady Vicky Cayetano who said that eating shark fin soup is about as cultural as foot binding of women. I'm pleased to say that foot binding is not acceptable in this State as a Chinese woman, and I'm glad to see that this legislation is moving forward to also ban shark finning here. Thank you."

Representative Karamatsu rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Karamatsu's written remarks are as follows:

"Mr. Speaker, I rise in opposition. When the first anti-shark finning bill was passed in Hawaii, ten years ago, it was considered landmark legislation that would lead the country, if not the world, to take the necessary steps towards eradicating the practice of removing the fins of a shark and dumping the body back into the ocean. Hawaii's law requires the entire shark to be landed. This Body's efforts were successful, with Congress later enacting anti-shark finning laws of its own.

"Although conservationists then hailed Hawaii's shark finning ban as ground-breaking legislation that would save sharks from dying unnecessarily cruel deaths, the intervening ten years have apparently proven that what this Body did was not enough to save them.

"Now with this bill, conservationists want to go further by banning the possession of shark fins, thus eliminating any consumption of shark fins in the State of Hawaii. I fully support the intent of this bill; however, I believe that this bill is going too far to the extreme. As Chair of the Judiciary Committee, my duty to this Body is to inform it of any bill's unintended consequences. My second duty is to ensure laws are fairly applied.

"When I passed this bill out of the Judiciary Committee, I told everyone that I would not accept any draft that does not address the concerns of all parties including those presented by the fisherman, business community, researchers, aquariums, and Chinese Community.

"First, the current law prohibiting shark finning is not only the strongest in the world, but it is working. The fishermen I talked to felt that the current law of landing the entire shark is a good balance because the shark takes up so much space on a boat, thus, very little sharks are harvested. Plus, when a shark is harvested, the entire shark should be used just like the fish they catch. Conservationists argue that Hawaii will impact the entire world in regards to shark finning if we ban the possession of shark fins in Hawaii, but such a ban will have a tiny impact on the practice of shark finning in other parts of the world because our consumer market is a speck in this global economy. Rather, to truly make a global impact on the problem of shark finning in other parts of the world, Hawaii's ban on shark finning should be replicated in other governments around the world. Our federal government could try to create international law that bans shark finning through international treaties.

"Second, this bill does not protect our fisherman from unintended catches. Unlike the ivory poacher who deliberately aims a gun at a rhinoceros or elephant, the recreational or commercial fisherman casts his or her line into the ocean and hopes for the best. Fishing is just that, "fishing." You don't know what you are going to catch until you pull those lines or nets in. Sometimes one may pull in a shark that is wounded or has died as it struggled on the line or in the net. Instead of landing the wounded or dead shark and making use of the entire catch, fishermen will throw back an already dying or dead shark back into the ocean. Wounded sharks thrown back into the ocean will have a slow and painful death. In

this respect, the breadth of this legislation has caused the attempt to save sharks from cruel and unnecessary deaths to backfire.

"Third, according to testimony from the Department of Land and Natural Resources, sharks in Hawaii are currently considered sustainable by National Oceanic and Atmospheric Administration (NOAA). The conservationists emphasize the importance of the ecosystem, which is the community of organisms and its environment functioning as an ecological unit in nature. Too little predators in the ocean is bad because it could cause an increase in the population of the large fish that could eat up a lot more of the medium fish. On the contrary, too many predators in the ocean can cause a problem because they will cause a decrease in the population of the large fish, which could result in an increase in the population of the medium fish that would over-consume the small fish. Clearly, our current law is working and maintaining a healthy population of sharks in Hawaii. If sharks in Hawaii were in fact listed as an endangered species, then by all means, there should be a ban of possession of any part of the shark, plus let's impose all the laws protecting endangered species including our "takings" law that includes mere harassment when an individual gets too close to the shark.

"Fourth, repeatedly in our House Judiciary Committee hearing, researchers and aquarium administrators opposed the measure unless there was an exemption for them, however, they emphasized that they did not want a permitting process. This bill does exactly what they opposed, as it requires individuals to apply for a license or permit from the Department of Land and Natural Resources to be exempt from this law for research or educational purposes. Further, commercial aquariums will not meet the criteria to be exempted from the law if they do not conduct research or have any educational purpose.

"Fifth, this bill will have a negative economic impact on the fishermen, especially to our business community. In its current form, the bill no longer distinguishes between fins naturally attached to or separated from the body of a shark. Therefore, it is not possible for any person other than a researcher to possess a whole shark or remove it from the ocean. This prohibition will effectively kill any shark-fishing operation that sells whole sharks for steaks or any other kind of consumption within the State.

"Sixth, I have encountered so many advocates in my eight years in this institution, and time and time again, a good number of them think that negativity can force lawmakers to agree with them through their use of threats and personal attacks rather than an honest debate on policy. Believe me, I had my share of attacks by people, especially with my tenure as Chair of the Judiciary Committee, and I consider the conservationists' attacks as uncalled for, except for the Humane Society of the United States, which I enjoy working with.

"Seventh, this bill unfairly targets our local Chinese community who has traditions of serving shark fin soup for special occasions such as weddings, important business dinners, New Year's Day, as well as the medicinal practices. Outsiders and transplants into Hawaii continue to impose their beliefs upon the multicultural community in Hawaii. So what is next? Will they introduce a bill to ban *kamaboko* in Hawaii if it contains shark meat in it? For Americans of Japanese ancestry and many locals, the importance of eating *ozoni* soup on New Year's Day as our first meal for good luck cannot be comprehended by those who do not understand our culture. The same goes for the importance of serving shark fin soup for special occasions and the use of shark fin for medicinal purposes. Many in the Chinese community have brought me in and shared their culture with me because of my openness to learn and practice their culture. In fact, I am wearing *feng shui* beads made of rubies to help bring balance within me. Likewise, as Judiciary Chair, I seek to find balance in the laws.

"Ten years ago, we passed a law banning shark finning in Hawaii to prevent cruelty to sharks. Now conservationists want us to stop shark finning around the world by having us go further and ban the possession of shark fins in Hawaii. Rather, the conservationists need to lobby the rest of the world to replicate our law banning shark finning, which they touted ten years ago as the landmark legislation that would lead the world. Thank you, Mr. Speaker."

Representative Ching rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Pine rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Manahan rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative M. Oshiro rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Oshiro's written remarks are as follows:

"Mr. Speaker, I rise in support with reservations on SB 2169, Conference Draft 1.

"Hawaii's current shark fining laws address concerns regarding cruelty to animals. It prevents people from harvesting shark fins in State waters and returning the finless fish back into the water to die. SB 2169, Conference Draft 1 will repeal the current fining law, and make it illegal to possess, sell, offer for sale, trade or distribute shark fins and impose strict administrative fines on violations.

"Although seemingly laudable, as written, this new law poses concerns for commercial and recreational fishermen who inadvertently catch, and to avoid waste, keep a shark for its flesh. Commercial fishermen sell the flesh at market and most recreational fishermen, trade or sell the flesh for consumption. I recently purchased some shark at Foodland in Wahiawa, and pan-fried it with some *shoyu* and sugar. It was firm white meat and inexpensive compared to local *aku* or *ahi* or *mahi-mahi*.

"Under the provisions of SB 2169, Conference Draft 1, fishermen will need to either catch a finless and tail-less shark, not very likely, or immediately, upon landing a shark, remove and discard the fins and tails of the shark without being caught in the act of removing the fins and tail. If caught in possession of the fins and tails prior to disposal, they would technically be in violation of the law. This could be very dangerous, especially at sea, and may prompt fishermen to instead cut their lines and not attempt to even land the shark. But, this too could have terrible environmental consequences as hundreds of yards of indestructible trolling fishing line are released into our ocean. An exception for inadvertent catch should have been drafted into the bill or done so by a future Legislature. In the alternative, Hawaii courts should accept as a "good faith" defense, inadvertent catch by commercial or recreational fishermen.

"Finally, it needs to be clarified that Hawaii does not have a shark fining problem under the existing law, nor do we have a problem with the overharvesting of shark for its fins. Further, expert researchers agree that coastal shark populations in Hawaii are currently healthy and are not targeted for fishing. Commercially, sharks have only been caught as by-catch and recreationally, fishermen consider a shark to be a nuisance. Regardless, this bill would require all sharks caught commercially as by-catch, or recreationally for consumption or bait, to be finned (dead or alive) at the ocean so only the carcass is taken.

"SB 2169, Conference Draft 1 merely replaces a currently functional and adequate fining law, creating problematic enforcement of a possession law and resulting in no apparent benefit, but instead may contribute to waste of good fish protein and lead to environmental degradation.

"Thank you, Mr. Speaker."

Representative Finnegan rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I'll be with reservations. Mr. Speaker, I came in with basically a yes vote completely on this bill. But there was good debate and I appreciate the Chair of Judiciary's long speech. Anyway I appreciate it, and I'll be voting with reservations. Thank you."

Representative Tokioka rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Morita rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I stand in strong support and I'd like to adopt the words from the Representative from Lahaina and the Representative from Makiki as my own. Thank you."

Representative Har rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2169, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO SHARK FINS," passed Final Reading by a vote of 50 ayes to 1 no, with Representative Karamatsu voting no.

Conf. Com. Rep. No. 67-10 and S.B. No. 2020, HD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2020, HD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Say rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, may I have a ruling on a possible conflict. I'm an officer of a small business in that area. Thank you," and the Chair ruled, "no conflict."

Representative Har rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. May I also have a ruling on potential conflict? My law firm represents the sole land owner that would be affected by this legislation," and the Chair ruled, "no conflict."

Representative Har rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Finnegan rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Takai rose to speak in opposition to the measure, stating:

"Thank you. On this measure, I would like a no vote and I'd like to insert comments. Actually, it's two testimonies from the AG from last year stating that he believes that this is unconstitutional. And the three court dockets that I've requested in the past. Thank you."

Re: S.B. No. 764, S.D. 2, H.D. 2, Relating to Real Property Meeting on April 23, 2009 at 10:15 a.m.

Dear Conferees:

The purpose of this bill is to change the process for renegotiating the amount of rent during the term of an existing commercial or industrial lease, unless expressly stated otherwise in the lease. In addition, with respect to lessees of certain private agricultural lands where the lessee has made or is seeking to make improvements on the land, this bill requires

the renegotiated term of the lease to include an extension of the lease for a period at least seventy-five percent of the original term of the lease. The bill also prohibits the amendment of a land use district boundary Class A and B agricultural lands that meet four criteria.

Legal concerns regarding state impairment of contracts are raised by the proposed language affecting existing commercial and agricultural leases.[1]

It is well established that a retroactive law in a constitutional sense is one that takes away or impairs vested rights acquired under existing laws or attaches a new obligation, imposes a new duty, or attaches a new disability with respect to transactions or considerations already concluded. Employees Retirement Sys. v. Chang, 42 Haw. 532, 535 (1958). Generally, retrospective laws are not favored and all laws will be construed as prospective unless retrospective application is clearly intended and expressly declared, or is necessarily implied from the language used. Clark v. Cassidy, 64 Haw. 74 (1981). This principle is particularly applicable where the statute or amendment involves substantive, as opposed to procedural, rights. Clark, 64 Haw. at 77; Dash v. Wayne, 700 F. Supp. 1056 (D. Haw. 1988).

With respect to the constitutional proscription against impairment of contracts, it is a fundamental principle that obligations of a contract cannot be impaired by subsequent passage of any law. Taylor v. Taylor, 537 P.2d 483, 486 (Mont. 1975); Pulos v. James, 302 N.E.2d 768, 775 (Ind. 1973). The obligation of a contract is impaired by a law that alters the contract's terms by creating new rights or imposing new conditions or different liabilities. Northern Pacific Railway v. Duluth, 208 U.S. 583, 590 (1908). "Any law which changes the . . . legal effect of the original parties, giving to one greater or the other a less interest or benefit in the contract, impairs its obligation." Kentucky Utilities Co. v. Carlisle Ice Co., 131 S.W.2d 499, 504 (1939). See also Anthony v. Kualoa

[1] The United States Constitution states, in part, that "[n]o state shall . . . pass any . . . law impairing the Obligation of Contracts . . . ." U.S. Const., Art I, § 10, cl. 1. ("Contracts Clause")

Ranch, Inc., 69 Haw. 112, 119-24 (1987) (law, enacted after lease executed, that required lessors to pay, at the sole option of the lessees, for improvements built upon the leased premises in order to get the leased premises back, substantially impaired the contractual rights of the parties and was unconstitutional).

> The importance of protecting the obligation of contracts from all legislative action tending to its impairment has been emphasized by the Supreme Court of the United States. That high tribunal has stated that the inviolability for contracts and the duty to perform them, as made, are at the foundation of all well-ordered society that, to prevent the removal or disturbance of these foundations was one of the great objects for which the Constitution was framed, and that it is one of the highest duties of that court to take care that the prohibition should neither be evaded nor frittered away.

16A Am. Jur. 2d Constitutional Law § 694 (1979) (emphases added).

However, because states are vested with authority to safeguard the vital interests of their residents, the impairment clause is liberally construed and prohibits only unreasonable impairment. Id.; Energy Reserves v. Kansas Power & Light, 459 U.S. 400, 409 (1983). Reasonableness is determined by whether the law addresses a legitimate end and whether the measures taken to reach that end are reasonable and appropriate. It is important to recognize that the power of a state to modify or affect the obligation of a contract under the state's protective powers is not without limit. "Yet the contract clause limits otherwise legitimate exercises of state legislative authority, and the existence of an important public interest is not always sufficient to overcome that limitation." United States Trust Co. v. New Jersey, 431 U.S. 1, 21 (1977). See also El Paso v. Simmons, 379 U.S. 497, 506-9 (1965).

As noted above, this bill appears to intrude upon renegotiations of lease rent by interjecting, unless otherwise stated in the lease, its construction of "fair and reasonable annual rent" in commercial or industrial leases to mean that

could meet those four factors, thus owning property that falls within the definition "commercial or industrial leasehold property", and be subject to the requirements of this bill.

On the other hand, a lessor in Mapunapuna with fewer than fifty thousand square feet would not meet the fourth factor and not own property that falls within the definition of "commercial or industrial leasehold property", and thus not be subject to the requirements of this bill.

In addition, the third factor, regarding a lease with a term of ten years or more and an unexpired term of five years or more, could apply to various recent leases in the Ewa region or central Oahu, whereas section 1 of the bill appears to focus on urban communities which historically have housed small commercial or industrial businesses. S.B. No. 764, S.D. 2, H.D. 2, page 2, lines 19-21 ("Thus, maintaining close geographic ties between small businesses and the communities they serve is a public purpose that requires legislative support.")

In summary, it is unclear how focusing the definition of "commercial or industrial leasehold property" on the nature of the lessor is sufficiently tailored to the bill's stated purpose of easing burdensome lease provisions on lessees. S.B. No. 764, S.D. 2, H.D. 1, page 3, lines 3-5.

At this time, it is unclear from the record how pervasive the alleged problem is, or the actual number of commercial and industrial leases affected by this bill, or how the bill's proposals actually benefit urban businesses. The government must use the least intrusive means to achieve its goals. It is not free to impose a drastic impairment when an evident and more moderate course would serve its purposes equally well. United States Trust Co. v. New Jersey, 431 U.S. at 31.

Legislation impairing commercial or industrial leases would be more defensible if based on articulated findings of need, demonstrated evidence that the proposed legislation will achieve the stated purpose, and explanation that no lesser remedy (such as arbitration, mediation, or litigation) is available. The bill's proposed definition of "commercial or industrial leasehold property" seems focused upon lessors and does not appear to be "a reasonable and narrowly-drawn means of promoting

"rent shall be fair and reasonable to both the lessor and the lessee to the lease." S.B. No. 764, S.D. 2, H.D. 2, page 4, lines 3-5. Unless otherwise stated in the lease, this bill also imposes a new requirement in such lease rent renegotiations that they include consideration of the "past renegotiation practices and policies throughout the previously renegotiated lease rents, the uses and intensity of use of the lease property during the term of the lease approved by the lessor, the surface and subsurface characteristics of the leased property and the surrounding neighborhood on the renegotiated date, and the gross income generated by the lessees on the renegotiated date." S.B. No. 764, S.D. 2, H.D. 2, page 4, lines 8-18. In addition, this bill provides four factors in defining "commercial or industrial leasehold property" and also defines "lease".

With respect to leases for agricultural lands, this bill intrudes upon leases of certain private agricultural lands by requiring the renegotiated term of the lease to include an extension of the lease for a period at least seventy-five per cent of the original term of the lease. S.B. No. 764, S.D. 2, H.D. 2, page 7, lines 9-20. The bill's provisions as to agricultural leases only concern revisions to the term of the lease and our views on these provisions are discussed at the end of this letter.

Despite the customary deference accorded to social and economic legislation, laws altering the rights and obligations of contracting parties must be reasonable and necessary for the public purpose for which they were enacted. Allied Structural Steel Co. Spannaus, 438 U.S. 234, 244 (1977), Applications of Herrick & Irish, 82 Haw. 329, 922 P.2d 942 (1996). While section 1 of this bill describes the need to strengthen and diversify Hawaii's economy, there is no evidence that this bill will achieve the stated purpose to stabilize the economy by addressing some of the alleged vague or onerous provisions of existing commercial and industrial leases. S.B. No. 764, S.D. 2, H.D. 2, page 2, lines 11-19. For example, the four factors of "commercial or industrial leasehold property" do not necessarily identify how they are linked to a benefit for the business tenants in Oahu's urban center, as opposed to those in the Ewa region or central Oahu, as stated in section 1 of the bill. S.B. No. 764, S.D. 2, H.D. 2, page 2, lines 1-10. A lessor in Kapolei

the significant and legitimate public purpose." Applications of Herrick & Irish, 82 Haw. 329, 340, 922 P.2d 942, 953. Consequently, it appears this bill may violate the Contracts Clause and be found unconstitutional.

With respect to section 5 of part II of this bill, we raise the same concerns regarding state impairment of contracts. To the extent the bill intrudes upon renegotiations of lease rents for certain private agricultural lands, such intrusion is subject to the same analysis used for part I of the bill regarding commercial and industrial leases. Section 4 of the bill justifies the intrusion and Section 5 appears to be a reasonable and narrowly-drawn means of promoting a significant and legitimate public purpose. However, as with part I of the bill, the state impairment of private agricultural leases may be subject to challenge.

Very truly yours,

Re: S.B. No. 764, S.D. 2, H.D. 2, Relating to Real Property Meeting on April 28, 2009 at 10:15 a.m.

Dear Conferees:

We supplement our letter to you dated April 23, 2009, and note our additional concern that the proposals of S.B. No. 764, S.D. 2, H.D. 2, may impair private contracts and constitute

331055v1

"takings" which gives rise to a right to receive compensation from the sovereign. A compensable regulatory taking occurs when governmental agencies impose restrictions that either 1) deny landowners of all economically viable use of their property, or 2) unreasonably interfere with landowners' rights to use and enjoy their property. Mayhew v. Town of Sunnyvale, 964 S.W.2d 922, 933-35 (Tex. 1998).

A regulation may go so far in imposing public burdens on private interests as to require compensation. In deciding whether regulatory action goes "too far", three principles known as the Penn Central factors have emerged: 1) the "economic impact of the regulation on the claimant"; 2) "the extent to which the regulation has interfered with distinct investment-backed expectations"; and 3) "the character of the governmental action". Penn Cent. Transp. Co. v. City of New York, 438 U.S. 104, 124 (1978). Penn Central does not supply mathematically precise variables but instead provides important guideposts that lead to the ultimate determination whether just compensation is required. Whether a regulatory taking has occurred, "depends on a complex of factors including" the three set out in Penn Central. Sheffield Dev. Co. v. City of Glenn Heights, 140 S.W. 3d 660 (Tex. 2004). The analysis "necessarily requires a weighing of private and public interests" and a "careful examination and weighing of all the relevant circumstances in this context." In considering a regulatory takings issue, a court will "consider all of the surrounding circumstances" in applying "a fact-sensitive test of reasonableness." Sheffield at 670-72.

A court must satisfy itself that the legislature's "adjustment of 'the rights and responsibilities of contracting parties [is based] upon reasonable conditions and [is] of a character appropriate to the public purpose justifying [the legislation's] adoption.'" Keystone Bituminous Coal Ass'n v. DeBenedictis, 480 U.S. 470, 505 (U.S. 1987). As we have stated previously, the proposals of S.B. No. 764, S.D. 2, H.D. 2 do not appear to be a reasonable and narrowly-drawn means of promoting a significant and legitimate public purpose in protecting certain commercial or industrial leasehold property, or certain private agricultural lands. As such, in addition to the bill's proposals possibly violating the Contracts Clause and being

found unconstitutional, the proposals may also constitute "takings" that give rise to a right to receive compensation from the sovereign.

PLAINTIFFS' EX PARTE MOTION TO ADVANCE THE HEARING DATE OF PLAINTIFFS' MOTION FOR SUMMARY JUDGMENT [FILED 2/17/10]

Plaintiffs HRPT Properties Trust and its affiliate companies, by and through counsel, move this Court *ex parte* for an order advancing the hearing date of Plaintiffs' Motion for Summary Judgment, filed February 17, 2010. (*See* Doc. 67.) Plaintiffs' Motion for Summary Judgment is currently scheduled to be heard on May 10, 2010, at 10:30 a.m. before the Honorable Susan Oki Mollway. (*See* Doc. 69.)

In this case, Plaintiffs seek a declaratory judgment that Act 189 of the 2009 session of the Hawai`i Legislature violates the Contracts Clause and six other constitutional provisions, and is therefore unconstitutional. By its terms, Act 189 expires on June 30, 2010. (*See* Ex. 1.) At the urging of Intervenor-Defendant Citizens for Fair Valuation, the Legislature is currently considering two bills, Senate Bill No. 2020 and House Bill No. 2284, to extend the Act. (*See* Exs. 2-3.) The 2010 legislative session, however, is scheduled to end April 29, 2010, more than a week before the current May 10, 2010 hearing date. (*See* Ex. 4.)

Disputes regarding the constitutionality of Act 189 have affected and will continue to affect legislative consideration of Senate Bill No. 2020 and House Bill No. 2284. For example, the Senate Committee on Commerce and Consumer Protection recently issued a report supporting a five year extension of the Act and listing HRPT's "filing of a lawsuit in federal district court challenging the constitutionality of Act 189" as a reason for the Act's extension. (Ex. 5 at 2.) Advancing the date of the hearing would assist and provide guidance to the Legislature and the parties by allowing the Court to consider the constitutionality of Act 189 before the legislative session ends.

Plaintiffs have been informed by this Court's courtroom manager that hearing slots are potentially available to hold a hearing on a motion for summary judgment on April 5, 2010 and April 12, 2010, should the Court in its discretion

elect to advance the hearing date. If the Court were to advance the hearing to the earliest possible date of April 5, 2010, Defendants would have until March 15, 2010, nearly a month from now, to prepare their responses to HRPT's Motion for Summary Judgment.

Plaintiffs therefore respectfully request that this Court advance the hearing to a date before the end of the legislative session.

This motion is made pursuant to Federal Rule of Civil Procedure 7 and Local Rule 7.2, and is based upon the Declaration of Bruce D. Voss attached hereto.

Dated: Honolulu, Hawai`i, February 19, 2010.

INTERVENOR CITIZENS FOR FAIR VALUATION'S MEMORANDUM IN SUPPORT OF EX PARTE MOTION TO CONTINUE THE HEARING DATE OF PLAINTIFFS' MOTION FOR SUMMARY JUDGMENT [#67] AND FORTHCOMING COUNTERMOTIONS FOR SUMMARY JUDGMENT TO BE FILED BY DEFENDANT AND INTERVENOR-DEFENDANT BY ONE WEEK (TO MAY 17, 2010) AND OPPOSITION TO PLAINTIFFS' MOTION TO ADVANCE TIME [#70]

This Honorable Court has scheduled the hearing on Plaintiffs' Motion for Summary Judgment for Monday, May 10, 2010 at 10:30 a.m. [#69]. On Friday, February 19, 2010, Plaintiffs filed an *ex parte* Motion to Advance the Hearing Date [#70], arguing that an earlier hearing and ruling by this Court "would assist and provide guidance to the Legislature." Intervenor-Defendant CFV opposes this

Motion and requests that the Hearing be set for Monday, May 17, or as soon thereafter as is convenient for the Court, for the reasons that follow.

After this Honorable Court's Order of December 22, 2009, the parties engaged in discussions regarding discovery, but they were not able to reach any agreement. In paragraph 11 of Mr. Voss's Declaration he refers to his "understanding" of those discussions, but he is incorrect in indicating that any consensus or agreement had been reached. Because no agreement was possible, the parties held a Status Conference in front of Magistrate Judge Chang on Monday, January 25, 2010, where he explained the scope of discovery for the parties. Pursuant to that clarification, Plaintiffs noticed and took the deposition of Michael Steiner on Tuesday, February 9, 2010, and Intervenor-Defendant CFV have noticed the deposition (by video conference) of David Lepore to be taken on Thursday, February 25, 2010. On Wednesday, February 17, 2010, Plaintiffs filed their Motion for Summary Judgment, and attached a series of Declarations and documents purporting to provide information relevant to this Court's Order of December 22, 2009. This new information is now being evaluated by the other parties, and further depositions or other discovery may be necessary in light of this new information. The deposition of Mr. Lepore may also produce new information that may require further discovery requirements. The discovery process is thus still evolving, and any advancement in the hearing date will

interfere with the efforts of all the parties to complete the discovery required by this Court's Order of December 22, 2009.

The lead attorney for Defendant Governor Linda Lingle, Mr. Girard Lau, has been on travel leave in recent days, and is due to return to the islands on Thursday, February 25. He has not been available, therefore, to evaluate the Plaintiffs' Motion for Summary Judgment or the new information accompanying that filing, and will need time after his return to engage in this evaluation and to decide whether the interests of his client require further discovery.

In January 2010, the lead attorney for Intervenor-Defendant CFV, Mr. Jon M. Van Dyke, accepted an invitation from the Maritime Institute of Malaysia to give a presentation in Kuala Lumpur, Malaysia, on issues related to the delimitation of the continental shelf in the South China Sea at a conference scheduled for May 10-11, 2010. Because of this conflict, Intervenor-Defendant CFV respectfully requests this Court to schedule the Hearing on Monday, May 17, 2010, or as soon thereafter during that week as would be convenient for the Court.

Representative Ching rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise with reservations in support of S.B. 2020- Relating to Real Property. Although I emphasize with the lease situation businesses are facing in Mapunapuna, Kalihi Kai and Sand Island, I am deeply concerned with the unintended consequences this legislation may have on commercial and industrial leases in Hawaii.

"This measure will extend Act 89, which interferes with the terms of existing contracts, and such alteration of commercial and industrial contracts is unconstitutional special legislation targeted at one landowner.

"I believe that the process of appraisals, mediation, and arbitration and as a last option the court system should be the appropriate venue for lease interpretation and contractual disputes. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2020, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO REAL PROPERTY," passed Final Reading by a vote of 41 ayes to 10 noes, with Representatives Berg, Coffman, Hanohano, Har, Keith-Agaran, C. Lee, Luke, Saiki, Takai and Wakai voting no.

At 3:27 o'clock p.m., the Chair noted that the following bills passed Final Reading:

S.B. No. 2566, HD 2, CD 1
S.B. No. 2019, SD 1, HD 2, CD 1
S.B. No. 2817, SD 1, HD 1, CD 1
S.B. No. 2256, SD 1, HD 1, CD 1
S.B. No. 2169, SD 2, HD 2, CD 1
S.B. No. 2020, HD 2, CD 1

Conf. Com. Rep. No. 71-10 and S.B. No. 1059, SD 2, HD 3, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 1059, SD 2, HD 3, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Ching rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support of this legislation. Thank you. I rise in support of this legislation that establishes an illegal fireworks task force to stop the importation of illegal fireworks and explosives. While I recognize that this piece of legislation may not go as far as many would like, I believe that this is a positive step in the right direction to explore ways to stop the alarming trend of disruption and disrespect. For we must find a way to address the illegal fireworks issues. This problem has gotten out of hand for many districts.

"While numerous fireworks and explosives have created what some have described as war zone like sound. It's threatening to the health, the safety, and in particular the children. In fact, just this past New Year's Day two Wailuku children were badly burned when they were playing with fireworks and they had to be airlifted to Kapiolani Medical Center.

"But most importantly, I'm so deeply saddened that this has evolved into such a grave problem. As a person of Chinese descent, I know the great respect that we have for the origins of fireworks. A centuries old cultural tradition, it brings in good luck and it could not be more connected to filial piety and respect. Unfortunately, those that I believe are not doing it for cultural practices who most probably are not even of Chinese descent, have created a perversion of that custom and I find it reprehensible that this practice which originated as homage and connected to respect and piety has begun to be degraded to disrespect and dishonor.

"So I hope that one day fireworks will again be used responsibly as I remembered that they were in my childhood, and with respect of its origins

to culture and tradition that it once was. But until that day comes, this task force hopefully will help to protect the health and safety of our people. Thank you."

Representative Souki rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I wish to vote for this measure, but with some strong reservations. The reservation that I have is that it's becoming kind of a habit for the Legislature, whenever we find a difficult problem we punt it to the counties and say, 'Okay, I've done my job. I've washed my hands.' It reminds me of Pontius Pilate washing his hands and passing it on. It's your *kuleana* now. Not mine. I wish that the Legislature would take it upon themselves and either do the ban or make the laws even tougher, but I don't believe this is right, right now. Thank you."

Representative M. Lee rose to speak in support of the measure, stating:

"Just rising in strong support and I'd like to insert written comments. Mr. Speaker, I think it's sort of a minor miracle that we're almost passing two fireworks bills this Session. As far as a statewide ban is concerned, many of us would have been really happy to have a statewide ban passed, but that just wasn't possible. I think this is going to make a big difference if the City and the counties do act when we have the budget briefings. Mayor Hannemann indicated that he was very positive on fireworks control.

"So we hope this will make a difference and I think the task force also will look into the issues of illegal fireworks and actually the health and safety of the people of our islands. So thank you very much."

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I stand in support of SB 1059 SD2 HD3 CD1. However, I would like to express my many concerns about the misuse of fireworks and why we must proceed with fireworks control.

"Mr. Speaker, the coming of the New Year should be a joyous occasion; however, for many in Hawaii, it is a time of trepidation and fear. Although this bill is not perfect, I am happy to see it go forward, because I would be embarrassed if we went through the session without any action on fireworks. However, a STATEWIDE BAN IS REALLY THE ANSWER TO OUR PROBLEM.

"Many of Hawaii's people have made it clear that they desire stricter enforcement of fireworks laws because the proliferation of fireworks in recent years has resulted in a degeneration of the New Year celebration, and public safety issues so severe that people are afraid to leave their homes. Fireworks have also put police and EMS personnel at risk for injury and it takes them away from crime fighting and assisting the ill and injured during the holiday.

"I have received multiple complaints from constituents for more than a month before and after the Holiday. Fireworks are being used in a manner that is disrespectful to communities and neighborhoods, with no regard to the severe health effects being experienced by children and seniors in particular.

"Some have said, 'No worry. It is only one night.' But the negative effects of fireworks hardly end when the festivities are over. Fireworks are composed of toxic chemicals that pollute our air, contaminate our drinking water, and leave residue in our watershed, harming plants and animals. Fireworks produce smoke and dust that contain residues of heavy metals and sulfur coal compounds. Particulate matter lingering for more than a week after the explosions may cause asthmatics and COPD sufferers to have to take medications such as bronchodilators, steroids, and antibiotics and in some cases IV fluids. These are expensive remedies.

"Fireworks also cause serious burns and injuries, which can be life threatening, fatal or cause permanent scars on the body and in the lungs. A report filed this year by the Health Department showed a significant increase in emergency room visits and injuries to people. A never-before-seen-influx of children injured by fireworks was seen this year in our ERs. Think of the injuries that were treated outside the ER or never reported.

"Another serious concern is the ear damage that may be happening to young children. Aerials produce levels around 150 decibels and the boom bombs are much louder. Studies show that small children's ears can be damaged by even short exposure to such noise. The noise can also trigger stress reactions in persons who suffer from combat related Post Traumatic Stress Disorder (PTSD).

"So you may say, 'It is tradition.' I don't believe tradition is something that hurts people; takes away their right to a peaceful holiday or causes fear and stress in pet animals. Many remember the past when fireworks were fun. That is no longer the case.

"Or would you say it's good for business? Yes, the big profits of offshore vendors and the illegal sales of aerials. At the same time, exploitation of children and the poor takes place.

"I was particularly touched by a letter, which appeared in the *Honolulu Advertiser*, written by Dr. Torrey Goodman, an emergency room physician, which I would like to submit to the Journal.

"*To all legislators who did not have the courage to vote on a fireworks ban: I invite you to join me in a local emergency department on New Year's Eve. In 20 years as an emergency physician, I have never seen more severe injuries than I did this year. Tears of frustration and anger were how I greeted the New Year.*

Please, dear legislators, explain to me why we are allowing items to be sold that result in young children literally being blown up and lit on fire, eyes damaged beyond repair and little hands curled into burnt claws.

How can you justify a child's screaming agony, lifelong scarring and a parent's worst nightmare as "cultural freedom"? Please spend one New Year's Eve in any local emergency room, and I promise you will have the courage to do what is right, and ban fireworks statewide."

"Mr. Speaker, we will ban the statewide use of fireworks one day. For now Hawaii's children and I must find at least some satisfaction in this small step in that direction. I support this bill and urge my colleagues to do the same. Thank you."

Representative Manahan rose to speak in opposition to the measure, stating:

"Mr. Speaker, I'm just rising in opposition. I just believe that this is job killer number 17."

Representative Pine rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Pine's written remarks are as follows:

"Mr. Speaker, I rise in support with reservations for Senate Bill 1059, Relating to Fireworks. This bill would establish an illegal fireworks task force to stop the importation of illegal fireworks and explosives. The bill would also allow counties to enact ordinances regulating fireworks that are more stringent than State law.

"Unfortunately, this bill does not address the major issue that could suppress the promulgation, dissemination, and use of fireworks illegally. A total fireworks ban, some experts would say, would certainly be an immediate solution to mitigate the illegal use of fireworks. However, how are our first responders supposed to enforce a total ban when they are unable to enforce the Fireworks Control Law as currently written? Providing our first responders with the necessary enforcement tools statutorily, and enacting uniform revisions to the Fireworks Control Law should be this Body's first step in tackling this divisive issue.

"For these reasons, I rise in support with reservations on Senate Bill 1059."

Representative Karamatsu rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. Mr. Speaker, in regards to setting off fireworks in Hawaii, it is unfortunate that there are individuals who break the law, because their wrongdoings have given a lot of momentum for those in our community who want to ban fireworks completely. We already have stiff criminal penalties for those who disobey our fireworks laws. Now we are going further as there's another bill that we would take away real property of those who violate our illegal fireworks law, comparable to the law that takes away real property of those who manufacture illegal drugs.

"I support the section of the bill that would create an illegal fireworks task force to stop the importation of illegal fireworks and explosives. This was the original intent of this measure until it was hijacked by a House Floor amendment that added another section to the bill that would allow counties to enact ordinances regulating fireworks that are more stringent than State law, which could result in different laws in the various counties, making it more difficult to enforce. It is for this reason that I oppose the measure.

"We already had such a law in the past, allowing home rule ordinances differing with each other on what fireworks were legal. Once the fireworks were imported into the State there was a proliferation of smuggling the fireworks between the counties. This was the unintended consequence when that law was enacted. Rather, I believe our fireworks laws should be applied fairly throughout the State. Besides, criminal law is best enforced uniformly statewide as reflected in our criminal statutes and case law.

"As Chair of the Judiciary Committee, my duty is to inform this Body of any unintended consequences, and I also have the duty to ensure that the laws are fairly applied. I want to note that many of the complaints by Hawaii residents on fireworks are already illegal, such as individuals setting off fireworks outside of the times permitted by law. Currently fireworks can be only set off from 9:00 p.m. on New Year's Eve to 1:00 a.m. on New Year's Day; 7:00 a.m. to 7:00 p.m. on Chinese New Year's Day; and from 1:00 p.m. to 9:00 p.m. on Fourth of July; and also 9:00 a.m. to 9:00 p.m. as allowed by permits under Section HRS 132D-10.

"Other than these legal time slots, there is a ban on setting off fireworks. To resolve this problem with popping fireworks outside the times permitted by law we need to work together by abiding by the law, supervising our children and teenagers to do what's safe, and reporting to law enforcement agencies.

"A second concern for Hawaii residents regarding fireworks is the amount of illegal fireworks being exploded, especially the really loud ones that shake our homes and cars. The illegal fireworks task force will be mandated to look into ways we can prevent illegal fireworks from entering our State. And again, we must follow the law, make sure our children do the same, and report to law enforcement agencies on any use of illegal fireworks.

"Personally, I enjoy the beauty of fireworks and sharing the experience with my family and friends. It has been a tradition in Hawaii for many years for families to pop fireworks on New Year's Eve and New Year's Day for good luck for themselves, their loved ones, to bless their property, and to ward off evil spirits for the new year. I believe our current law regarding fireworks is already strong, but needs to be followed and better enforced by all of us, also with the assistance of our law enforcement agencies.

"I wish the original bill was left intact with the task force aimed at stopping illegal fireworks, but with the amendment allowing counties to enact more strict standards on fireworks than State law, I cannot support it. Thank you. I also want to insert written comments in opposition."

Representative Karamatsu's written remarks are as follows:

Representative McKelvey rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In support with reservations. I nickname this bill the 'Miller Lite' bill Mr. Speaker, because it 'tastes great, but is less filling.' And by that I mean that, while I applaud the intent of giving the counties home rule and the ability to decide whether or not on their own that they should go stricter than State law, I believe what's going to happen is most of the counties are probably just not going to really not take any action at all.

"So because of that I do see maybe this bill is more of a feel good measure than one that will be really be effective. But at the same time, maybe if one good thing can come out of this, because these laws are

enforced by the county police departments, that perhaps in looking at giving it back to the counties that there might be more of an effort by the counties to ensure that enforcement of existing State law actually happens. Thank you."

Representative Cabanilla rose to speak in opposition to the measure, stating:

"In opposition, Mr. Speaker. I still believe that the way to deal with this is not piling up laws. For the last six years that I've been in this Chamber we've written so many laws, we've tackled it every year and put in heavier penalties, but yet we haven't done anything to improve the situation.

"I think this is an enforcement issue, Mr. Speaker. Until we have a commitment that we will police ourselves and commit to the enforcement of any laws that we pass in this Chamber, we're not doing anything. I would like the words of the Representative from Waipahu to be inserted as my own. Thank you."

Representative Aquino rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Aquino's written remarks are as follows:

"Mr. Speaker, I rise in support with reservation. First, I fully support the illegal fireworks task force component of this bill. The task force will look at the issues surrounding importation of illegal fireworks and make recommendations for planning and implementation. This is definitely needed as many residents have seen the proliferation of illegal fireworks on display in our neighborhoods throughout the calendar year.

"The area of concern for me is the county component, which would allow the counties to adopt and enact ordinances that would be stricter than State law. I am not sure if passing this onto the counties would be the most appropriate action at this time. Prior to current State law, counties throughout the State had various ordinances ranging from a total ban to allowing fireworks use that is currently classified as illegal. This lack of uniformity is what we may experience once again. Although I do agree that the last several years have spawned countless incidents of injuries, I believe that there should be a tougher commitment of enforcing current law before we move into this direction.

"For these reasons, I will be voting in support with reservations. Thank you."

Representative Tokioka rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In support with reservations. Thank you and I'll just make some real brief comments. I think a lot of times in this Chamber we talk about home rule, but I don't think it's appropriate that we continue to pick and choose which ones we want to make home rule. I think it's something that is a statewide situation, that when we're going to establish a ban it shouldn't be different on Kauai than it is on the Big Island or Maui or anywhere else. Sometimes we've just got to stand up to the plate and take the jabs and make the decisions, and not pass it off to the counties. Thank you very much, Mr. Speaker."

Representative Takai rose to speak in support of the measure, stating:

"Thank you Mr. Speaker, I rise in support. Thank you. I'd like the written and the spoken words of the Vice Chair from Finance entered into the Journal as if they were my own. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1059, SD 2, HD 3, CD 1, entitled: "A BILL FOR AN ACT RELATING TO FIREWORKS," passed Final Reading by a vote of 44 ayes to 7 noes, with Representatives Cabanilla, Chang, Karamatsu, Manahan, Nakashima, Sagum and Tsuji voting no.

Conf. Com. Rep. No. 72-10 and S.B. No. 1105, SD 2, HD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 1105, SD 2, HD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Finnegan rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition. Thank you, Mr. Speaker. This measure basically requires reports of studies and audits requested by the Legislature that are conducted by an Executive department or agency and requires the Chairs basically to schedule and hold a hearing or an informational briefing on these reports. Mr. Speaker, I find it a little odd that we're requiring our Chairs to have these informational briefings on the reports that we ask the Executive Departments to do.

"For one, the Administration, especially during this time, there are so many reports that come out, and they're tasked with running their departments and their deputy directors are tasked with helping them run their departments. We call them into informational briefings, I thought, when we need them to explain something or if we wanted to go further into a report or an audit or whatever it is. And we have the flexibility and we make these decisions on a weekly basis, off session and on session. So I just don't understand why we need to do every single report that comes in. And in a time when we're strapped for time and people are on furloughs and time is of the essence to get things done and people are scraping by just to be able to get their work done, that we want to call them into these informational briefings and not give the flexibility for the Chairs to call an informational briefing when they choose to do so.

"So I just think that we should kill this bill, Mr. Speaker. I know it's already at Final Reading and both sides agree with moving this bill forward. It's a lot of wasted effort and energy and we could use our time for our State much better than that. Thank you."

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. Mr. Speaker, I just would like to note comments by Dr. Fukino, Department of Health, that the fiscal implications of this measure are potentially significant, but un-quantified additional workload for both the Executive and Legislative branches. The Legislative Reference Bureau made a comment that the primary change caused by this measure is that every agency will need to assume that it should prepare informational briefings or public hearings for all of its studies or reports.

"This will add another hurdle prior to the completion of any study being submitted to the Legislature at the time that those agencies are presumably preparing for budget hearings. So I think that this is an unwise measure, and it does have fiscal and time implications that are going to be detrimental. Thank you."

Representative Tokioka rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I read the bill. It went through the Legislative Management Committee. I don't interpret it the same way that the Representatives from Kailua and Red Hill have interpreted it. I think it just defines more the procedures for the Committee hearings. Thank you very much, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1105, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO LEGISLATIVE HEARINGS AND PROCEDURES," passed Final Reading by a vote of 48 ayes to 3 noes, with Representatives Finnegan, Marumoto and Thielen voting no.

Conf. Com. Rep. No. 76-10 and S.B. No. 2231, SD 1, HD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2231, SD 1, HD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Rhodes rose to disclose a potential conflict of interest, stating:

"I just needed to request a ruling on a potential conflict of interest. My wife's law firm represents Better Place Hawaii which is in the process of setting up the infrastructure to support electric vehicles. Thank you," and the Chair ruled, "no conflict."

Representative Pine rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Pine's written remarks are as follows:

"Mr. Speaker, I rise in support with reservations for Senate Bill 2231, Relating to Electric Vehicles. This measure troubles me since not one individual came forward that resided within a condominium, townhome, or planned community association to testify that a prohibition to install an electric car charger on their property existed within any particular residential community.

"No evidence was presented that the installation of electric car chargers was a troublesome or cumbersome task to achieve for those that own electric vehicles.

"Yet, with dozens of citizens coming forward that they are being denied the ability to display the American and state flags on their property within these same associations, this bill is a slap in the face to those that choose to honor the flag. The Legislature has its priorities mixed up when no one comes forward to state a problem exists, such as with the placement of electric car chargers, and the bill gets heard and passed, while treatment of the flag is dismissed and deemed not even worthy of a hearing in the State Senate. This is just wrong on all fronts.

"Furthermore, the bill places the association's membership with the burden of having to pay for the request made to install an electric car charger by the one member making the request. This forces members within an association who cannot afford an electric car to shoulder the expense of any costs incurred by a fellow member where a design request application fee is assessed to review the plans for installing an electric car charger device.

"With the absence of testimony and input from the community association industry to answer how costs to install electric car chargers are to be borne by non-electric car users and the lack of a problem or prohibition against electric car chargers being evident, I am voting with reservations on this measure."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2231, SD 1, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO ELECTRIC VEHICLES," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 83-10 and S.B. No. 2919, SD 1, HD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2919, SD 1, HD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Finnegan rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. The purpose of this measure is to require the Department of Public Safety to provide support for security at the Hawaii State Hospital, and require the Department of Health in collaboration with the Department of Public Safety to report to the Legislature with a plan for the provision of short and long term security for the Hawaii State Hospital. It also states that this is to protect not only the community, but also to protect the people in the hospital.

"Mr. Speaker, through the testimony that has happened not only from the Department of Health, but also from the Department of Public Safety, what we did was appropriate money, as well as in this bill it states that they have State security officers. These positions are State security officers and do not have arrest powers. This means that these positions, these security officers, would still need to call HPD or sheriffs when assisting or addressing the situation of say, an escaped patient. Going at it alone could result in litigation without the protection afforded from law enforcement officers with arrest powers.

"Mr. Speaker, also what has happened in the past, the public safety, these positions are actually outside of the facility. So what they were saying is, even when there are disruptions within the hospital, that they're unable to help them within the hospital and that what you really need is the ability to have orderlies or trained orderlies to handle disruptions from the patients.

"So Mr. Speaker, as much as this bill I'm sure is needed for safety reasons, I'm not sure that we're getting to the actual problems that this bill tries to address. Thank you."

Representative Ito rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ito's written remarks are as follows:

"Mr. Speaker, I rise in support of Conference Committee Report No. 83-10, S.B. 2919, S.D. 1, H.D. 1, C.D. 1.

"Mr. Speaker, the patients at the Hawaii State Hospital are considered to be in need of confinement, including forensic patients committed to institutionalization by the courts. Over the years there have been an average of six escapes annually and numerous assaults on the staff. The most recent escape being on December 3, 2009, of a forensic patient who was committed to the hospital in 2002, after allegedly committing kidnapping and sexual assault on a child. Additionally, the high occupancy rate at the hospital, coupled with the budget cuts and security reductions, have compromised and jeopardized the safety of both workers and patients at the facility, as well as the community and surrounding neighborhood.

"Mr. Speaker, this measure will require the Department of Public Safety to provide support for security at the Hawaii State Hospital. Additionally, the Department of Health may advise the Department of Public Safety on the appropriate level of security required. This measure further requires the Department of Health, in collaboration with the Department of Public Safety, to report to the Legislature on:

1. The plan, strategies, and timetable for ensuring the provision of appropriate levels of security at the Hawaii State Hospital over the long term; and

2. Short- and long-term strategies and plans to address the State's increasing and aging forensic population of the Hawaii State Hospital, including but not limited to facility needs, capacity issues, and other off-site options.

"For these reasons, I urge all my colleagues to vote yes on Conference Committee Report No. 83-10, S.B.2919, S.D. 1, H.D. 1, C.D. 1."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2919, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII STATE HOSPITAL," passed Final Reading by a vote of 48 ayes to 3 noes, with Representatives Finnegan, Marumoto and Rhoads voting no.

Conf. Com. Rep. No. 84-10 and S.B. No. 2937, SD 1, HD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2937, SD 1, HD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition to this measure. This bill chisels away at democracy and I believe it lessens the confidence that people have in their government. The purpose of the bill is to deal with vexatious requests, if you can figure that one out. Vexatious requests. Which are actually requests of the public to the government for records for the purpose of casting dispersions on public figures, governments or our policies.

"In the last three years, particularly since our new President took office, there've been two conspiracy theories that have come to light. The '9/11 Truthers,' and more recently the 'Birthers,' who believe that the government has something to hide, and if they're just persistent they will break through and expose this. While I believe there are reasons why not to waste government time, bothering with these particular individuals, I think what we have to give up in terms of democracy is not worth that effort.

"The language of this bill says that an agency shall not be required to make government records available or respond to a person's subsequent duplicative request if the following three conditions are met. One, after conducting a good faith review in comparison of earlier request and the pending request, the agency finds that the pending request is duplicative or substantially similar in nature. Secondly, the pending request has already been responded to within the past year. And thirdly, the agency's response to the pending request would remain unchanged.

"In effect Mr. Speaker, what this bill does is give the agency the power to say no, and just because we said so, we're not going to answer to you. That doesn't make government look very astute, smart or responsive.

"Mr. Speaker, I refer to the *Star-Bulletin* editorial a few days ago, which basically said, 'The anti-Birther exemption would imperil public access.' Essentially it says that the legislation pending now before the Capitol, allowing the Department to ignore follow up requests would only feed the fringe and dangerously chip away at the Hawaii Sunshine Law.

"So basically if we pass this law and we send the signal out that Hawaii is shutting down any requests on anything, whether it's Birther or otherwise, and other people would take advantage of that because the Birthers have burrowed into this, and we say no because we said so. We're sending a very strange message.

"The editorial also goes on to say, 'Does it really concern so much time to answer several Birther emails a day especially since the Department should have devised a standard email request by now and can deal with the nuisance.' Mr. Speaker, you know how it is to push a button and respond to an email with the same boilerplate. That's simple, that's a management issue. That's not something that we should be dealing with here on the Floor and shutting our government down and sending signals to the rest of the nation.

"I cite Executive Order 13256 last year signed by President Obama. It summarily states that nothing can be so top secret as to remain indefinitely sealed forever from the public's eyes. Mr. Speaker, the public in the federal context is going to have everything revealed. What are we trying to do in this State? We're following a bad example. The late President Kennedy said that the very word secrecy is repugnant in a free and open society, and that we as a people inherently and historically have opposed secret societies, opposed secret oaths, and opposed secret proceedings. We decided long ago that the dangers of excessive, unwarranted concealment of pertinent facts far outweighed the dangers which they are cited to justify.

"So Mr. Speaker, let's not sacrifice the ultimate that is our freedom, our democracy, and the open flow of information for the sake of something that's probably a temporary 'burr in the saddle,' a 'bee in the bonnet.' Mr. Speaker, some of my colleagues stand up and remind me, hey the Administration is strongly backing this bill, which they are, as it was strongly backing the other bill which I voted against, job killer number 16. Mr. Speaker, it's not whether the Administration likes it or doesn't like it, it's what's right for the people of Hawaii and that's why this bill is bad policy for the people of Hawaii. Thank you."

Representative Evans rose to speak in support of the measure, stating:

"Mr. Speaker, I stand in support. There are times when these vexatious requests come in and they actually stop open flow of information to the public that is requesting information from agencies. To say they're temporary, I would differ with that. I do think, and I don't know why, but there are people I'm sure every year, that get upset with something that might have happened to them and they become a vexatious requestor. Personally as a State Representative for the last eight years, twice in the eight years that I've been here, I've seen them be vexatious against certain agencies. When they got mad at an agency they would start sending in these requests for information and they would continue, and continue, and continue. It was actually an obstruction to the agency trying to help the public.

"I applaud the attempt to try to solve this problem. It sounds easy on the surface, but it's not. I think it's very complicated. I think the previous speaker did point out the three criteria on what qualifies as a vexatious requestor. I applaud the Committee for putting this bill together and moving it forward. Thank you."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. In support. I will stand and support our Governor on this. The editorial kind of misses the point. I mean, they make it sound like, 'Oh, just a couple of emails come in every day from the Birthers asking for information.' I talked to the Director of the Department of Health. It's a far cry from that, Mr. Speaker. They're inundated with hundreds of them, all from the same people over, and over, and over again. Even those who get the information, they come back because they don't believe it, Mr. Speaker.

"We've RIFed positions in the government and as a result with all of the people taking up time repeatedly answering these requests, they're not able to answer other legitimate requests that people are making for information. So what's happening is a very select few who meet this three point criteria that the Majority Floor Leader spoke of are basically paralyzing the government and giving the regular citizens the inability to get timely access to records that they need, Mr. Speaker.

"So I stand in support of this bill because it's not just a few emails here and there. It's just an uninterrupted flow of old requests over, and over, and over again. Even when they get the information, if they don't like it, they come back over, and over, and over again. I think it's time we put the public and their needs ahead of those of a few individuals who continue to just weigh the system down. Thank you, very much."

Representative M. Lee rose to speak in opposition to the measure, stating:

"In opposition. I'd like to put some written comments in the Journal. I request to include in the Journal an article written by Cynthia Oi in the *Star-Bulletin*, Sunday 4/25. Thank you."

Representative M. Lee's written remarks are as follows:

"I rise in opposition to SB2937, SD1, HD1, CD1. The *New York Times* reported today that a high percentage of people share the anti-birthers views. Hawaii should not forestall any requests, even frivolous and harassing, through anti-information tactics.

"Requests to the government should be handled seriously, as almost 99 percent are from the mainland. Many of these people may have been or will be tourists visiting our islands.

"Handling the anti-birther requests is a public relations problem—not a legal problem. We should treat each request seriously and not with disdain, as is sometimes the way of local bureaucrats. With the computer, it is easy to generate replies—including a reply that says we have already answered your request, but in case you did not see it, here's a copy. We should not pick a fight by using words like, "we already told you."

"Public relations experts could craft a campaign to help the people in the Health Department answer the inquiries. We should always be courteous and positive in replying to the public. I would like permission to insert the article written by Cynthia Oi in the Sunday, April 23, 2010 *Star Bulletin*."

"UNDER THE SUN
Arizona politicians join the 'birther' movement
By Cynthia Oi

POSTED: 01:30 a.m. HST, Apr 25, 2010

Like Hawaii, Arizona's natural wonders attract lots of tourist types. There's Monument Valley, the Painted Desert, the Petrified Forest and the lesser-known Canyon de Chelly.

The last is overshadowed by its cousin, the Grand Canyon, which has been made unappealing by swarming hordes, kind of like what's happened at Ka Iwi after the state bought a piece of the coastline to "preserve" it from development and instead built out the once-quiet, semi-hidden treasure into yet another stop on the ever-growing, invasive list of sightseeing stations.

But I'm getting off point. As I said, Arizona's generally a nice place. Nonetheless, it, too, has a legislature made up of politicians prone to getting wacky like our homegrown bunch.

What happens in Phoenix usually stays in Phoenix or within the confines of the state's borders. However, it seems Arizona's gone birther and as a result could bleed its wacky thousands of miles over land and sea to our fair shores.

You see, 31 of Arizona's House members aren't sure that Barack Obama is an American. They passed a bill over the objections of 29 of their rational colleagues to require the president to show his birth certificate if he chooses to run for a second term in 2012. If not, his name won't be on Arizona's ballot.

Those legislators aren't the only doubting Thomases and Thelmas. Although 58 percent of Americans in a recent New York Times/CBS poll said correctly that Obama was born in the United States, 20 percent believe he wasn't and 23 percent weren't sure.

And there's no convincing these people otherwise. Some are sure he was born in Kenya because they've seen photographs of a sign somewhere in that country, welcoming visitors to his birthplace.

Tell them that anyone can slap up a sign in Kenya, Kyrgyzstan, Korea (North and South) or even the Arizona town of Kingman, but that won't change their minds.

You can tell the birther-Arizonans that even if their Senate approves the bill and gets their governor to sign it, their measure won't amount to a hill of beans in either canyons Grand or de Chelly because federal laws rule in presidential elections.

The display of wacky has a number of Arizona legislators mortified. Said Rep. Chad Campbell, "We're becoming a national joke."

If the words sound familiar, it's because many island lawmakers and other elected officials have uttered them. With Hawaii's image tainted by their deeds and misdeeds, they need no extra help from the birther crusade.

However, a counteroffensive bill being considered here isn't the answer. The measure that would allow state agencies to stop responding to repeated information requests—like the demands for the president's birth certificate that flood the Health Department daily—could result in denying legitimate petitions.

Here's a suggestion. Print the website posting of Obama's birth certificate. Dress it up with photo of a rainbow over Diamond Head with tiki torches and Waikiki beach in the foreground. Slide it into a kitschy frame and send it with great ceremony and a plastic lei to the wacky wing of the Arizona legislature. Then direct birthers to get copies from them. The contrived nature of the document should be convincing to all screwballs. Or we could put up a sign.

Honolulu Star-Bulletin

Representative Ching rose to speak in support of the measure with reservations, stating:

"Thank you, just with reservations with the words of the Representative from Hawaii Kai entered as my own. I think that this is one of those measures that you can see that we need to pass some bills to make sure that we're doing our job, that the agencies are doing their job. But we are in a very dangerous, dangerous slope if it gets out of control. You don't want to have people who cannot get information they're entitled to. Thank you."

Representative Pine rose in support of the measure with reservations and asked that the remarks of Representative Ching be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Takai rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition. I've been listening to the debate and in fact, I was going to vote up, but I changed my vote to no. I don't think this bill is going to stop vexatious requests. In fact, if we don't do anything in replying to these requests I think you're going to 'stir the sleeping beast' and they'll get more and more. Because what this bill does is basically says we shall not respond to the same request. So if they start getting upset as the Majority Floor Leader has already mentioned, they can turn around and start making any types of requests.

"I think it might just be easier to identify that this is a Birther requesting the same information and to send that email the same response. We do it in our offices. On many occasions we get emails on the same topic and what do we do? We don't investigate every single email. We just send them the same response. We just change the name. I would suggest that we take a look at this one more time. Thank you, Mr. Speaker."

Representative B. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support. Very briefly, I think people are really misreading this entire bill and this entire issue. Vexatious request was actually something that was in the original bill. Nowhere is that ever found in the current bill, so I really wish people would stop characterizing it that way.

"What they don't understand is the current process under the Uniform Information and Practices Act, Chapter HRS 92F. Under that Chapter, there is an affirmative duty on behalf of the agencies to respond to every single request. They must do so within 10 days, otherwise they must also get an extension. At that point any person can also request an opinion from the Office of Information Practices to compel the production of the documents. And then finally they even get a right of remedy under 92F-15.

"So anybody that makes a request has many, many opportunities to get valid requests fulfilled. However, there are many, many times when an agency responds and then the next day they get the same response and the same response and the same response. And guess what the agency has to do? Every single response they are affirmatively required to respond. That is a complete waste of time. All we've done in this bill is say, if you gotten a response in one year, that's it. If something changes we will give you the documentation. But if nothing changes there's no need to respond.

"I really wish people would read the bill and understand the entire Chapter and its structure before they talk about the eroding of democracy and the slippery slope because really that's what the UIPA is about. And if you have not done a request, I would suggest that you do one first before you start criticizing the bill and its process. Thank you."

Representative Souki rose and stated:

"Yes, Mr. Speaker, I'm vexed by this bill. I call for the question."

At this time, Representative Souki called for the previous question.

At this time, the Chair stated:

"The question has been called. If you would like to submit written comments to the Journal, please do so, on CCR No. 84-10, whether you are up or down."

Representative Ward rose and stated:

"Mr. Speaker, just a brief rebuttal."

The Chair addressed Representative Ward, stating:

"The question has already been called."

Representative Ward: "Oh, I thought he was making a joke. He was serious. I wanted to comment on those comments that think that we haven't read the bill and that we're not serious about it. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2937, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO INFORMATION PRACTICES," passed Final Reading by a vote of 41 ayes to 10 noes, with Representatives Berg, Brower, Finnegan, Hanohano, M. Lee, Marumoto, Morita, Rhoads, Takai and Ward voting no.

Conf. Com. Rep. No. 85-10 and S.B. No. 2565, SD 1, HD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2565, SD 1, HD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Finnegan rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I would just like to refer to my Third Reading comments on this bill. Thank you." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2565, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII CIVIL RIGHTS COMMISSION," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 88-10 and S.B. No. 2897, SD 2, HD 3, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2897, SD 2, HD 3, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Karamatsu rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, in support with reservations. I just want to thank the introducer of this bill, as well as the individuals that backed it. My 'advocacy hat,' if I had it on all the time, would probably have me vote up on every bill. But for this bill, I'm putting on my 'lawmaker hat' and 'attorney hat,' and I take it the law as a whole. So I rise in support with reservations.

"The purpose of this bill is to make further amendments to an ignition interlock statute that will come into effect next year. I will agree it needed corrections to the statute. However, the insertion of a criminal sanction against the exercise of a privacy right is beyond fine tuning of the statutory provisions for the ignition interlock law.

"Criminalizing the refusal to submit to a test infringes upon important personal rights that in the past, this Legislature has been mindful of protecting. Under Hawaii case law, unless injury or death is involved, the person being requested to give a breath, blood, or urine sample for a DUI investigation has a right to refuse as set out in statute. This is clearly set out in the case of State of Hawaii vs. Entrekin. And in prior consent statute, HRS 291E-11 states that a person is deemed to have given consent subject to this part to a test or test approved by the Director of Health of the person's breath, blood or urine for the purpose of determining alcohol concentration or drug content of the person's breath, blood or urine.

"Why do we have an implied consent for accidents not involving injury or death? It is because actual consent is lacking. In light of the fact that actual consent is lacking and no injury or death has occurred, the policy has been set out in statute that a person may withdraw actual consent. The State requires that the arrested person be informed by a law enforcement officer that the person may refuse to submit to a testing.

"However, there are clear sanctions for refusal. Under HRS 291E-65 subjects the person refusing to license suspension. This will be in addition to requirements of the application of the ignition interlock device. These civil penalties are not sanctions for crimes. This measure makes criminals of people who exercise their right to refuse. First the statute gives the people the right to refuse, then the statute strikes people down for the exercise of their right. This measure results in situations where the arrestee is convicted of refusal when the test result would have indicated that the arrestee was not guilty of intoxicated driving. There is no other criminal law in Hawaii like this. For these reasons I have reservations on this measure.

"And Mr. Speaker, I may be the last of the line of Judiciary Chairs to oversee the implied consent law. As mentioned earlier, as your Chair of Judiciary Committee my duty to this Body is to inform it of any bills unintended consequences and my second duty is to ensure laws are applied fairly. Thank you, very much."

Representative Har rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I can appreciate the comments from the previous speaker, but I think it's very clear that we need to really outline for this Body exactly what we're talking about here when we talk about implied consent.

"First of all, I'd like this Body to understand that pursuant to a US Supreme Court case in 1966 called Schmerber vs. California. This was a seminal case in which blood was forcibly drawn from a DUI crash suspect. While the case is better unknown for the search and seizures issues, it discussed the privilege against self-incrimination. The US Supreme Court said, it could not be denied that it required petitioners to submit to the withdrawal and chemical analysis of his blood, the State compelled him to submit to an attempt to discover evidence that might be used to prosecute him for a criminal offense.

"He submitted only after the police officer rejected his objection and directed the physician to proceed. The officer's direction to the physician to administer the test over petitioner's objection constituted compulsion for the purposes of the privilege. The critical question then is whether petitioner was thus compelled to be a witness against himself.

"It is clear that the protection of the privilege reaches an accused communication, whatever form they are and whatever form they might take, and the compulsion of responses which are also communications, for example, compliance with a subpoena to produce ones papers.

"The court goes on to further note, on the other hand both federal and state courts have usually held that it offers no protection against compulsion to submit to fingerprinting, photographing, or measurements, to write or speak for identification, to appear in court to stand, to assume a stance to walk, or to make a particular gesture. This distinction which has emerged often expressed in different ways is that the privilege is a bar

against compelling communications or testimony, but that compulsion which makes a suspect or accused a source of real or physical evidence does not violate it.

"Furthermore, the Hawaii Supreme Court has also opinioned on this issue regarding the distinction between testimonial and physical evidence in assault incrimination challenge. The Hawaii Supreme Court noted that appellant argues that the probation condition of his drug testing and his admission of drug use during the meeting with his probation officer violated his right against self-incrimination. This argument is without merit. As appellant fails to recognize the key distinction courts have made between testimonial and physical evidence obtained from the defendant. The privilege against self-incrimination is not necessarily implicated whenever a person suspected of criminal activity is compelled in some way to cooperate in developing evidence which may be used against him.

"So we need to make something clear, Mr. Speaker. Essentially, because of this seminal case, this US Supreme Court case, the power of police, they can forcibly extract a blood sample or any type of chemical sample from the defendant if they're suspected of DUI, and that's why many states created something called these implied consent laws. These laws deem that a person has consented to testing assuming probable cause and an arrest for DUI. So Hawaii's laws include an implied consent which basically means if you drive on our roads, you agree to submit to the test. The implied consent is currently on the bottom of the driver's license application.

"So in order to avoid the police physically confronting people to make them take the test, we in Hawaii had included this statutory right to refuse a test which results in the driver being able to drive at all during the revocation period, unlike people who do take the test and get a conditional license. So it was always intended to be a disincentive for those who refuse.

"I feel that this bill really comports of what's happening even at the federal level. Before me here is the National Highway Traffic Safety Administration's report that was produced in September 2008 to Congress, and specifically this report talks about refusal of intoxication testing. The report draws from several studies examining various aspects of refusals or non-testing in cases of DUI arrest or crashes.

"The National Highway Traffic Safety Administration recommended to Congress that states should have either some strong laws against test refusals, strong penalties for test refusal, or simply eliminate legal provisions that allow arrested suspects to refuse to take a blood alcohol content test.

"So in summary Mr. Speaker, this bill really is the final piece of our ignition interlock law. As this Body will recall in 2008 we signed the first ignition interlock law into place which created the ignition interlock task force promulgated as Act 171."

Representative McKelvey rose to yield his time, and the Chair "so ordered."

Representative Har continued, stating:

"Thank you. This legislation really implements the final pieces of the recommendation from the task force. Notably, it makes it illegal to tamper or circumvent with the ignition interlock device. It makes it a petty misdemeanor to refuse to submit to a breath, blood or urine test. It does repeal the indigency fund and it requires now that the offender be required to incorporate that into his pricing for the indigency fund.

"So again this has been three years coming, and assuming that the Governor signs this into law, on January 1st 2011 the ignition interlock will finally become a reality in this State and will help us to begin saving lives.

"Finally Mr. Speaker, I do want to thank the Transportation Chairs of both the House and the Senate, the Judiciary Chairs in the House and the Senate, including our former Representative Tommy Waters, and finally the Finance Chair, as well as you Mr. Speaker, for being very supportive of these measures throughout the past three years. Thank you."

Representative Karamatsu rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Karamatsu's written remarks are as follows:

"I rise in support of this measure, but with reservations. The purpose of this bill is to make further amendments to an ignition interlock statute that will come into effect next year. I agree with making needed corrections to the statute.

"However, the insertion of a criminal sanction against the exercise of a privacy right is beyond "fine tuning" of the statutory provisions for the ignition interlock law. Criminalizing the refusal to submit to a test infringes upon important personal rights that in the past this Legislature has been mindful of protecting. Under Hawaii case law, unless injury or death is involved, the person being requested to give a breath, blood, or urine sample for a DUI investigation has a right to refuse as set out in statute. This is clearly set out in the case of State of Hawaii v. Entrekin, 98 Haw. 221 (2002).

"Under our implied consent statute, HRS §291E-11 states that a person is deemed to have given consent, subject to this part, to a test or tests approved by the director of health of the person's breath, blood, or urine for the purpose of determining alcohol concentration or drug content of the person's breath, blood, or urine. Why do we have an implied consent for accidents not involving injury or death? It is because actual consent is lacking. In light of the fact that actual consent is lacking and no injury or death has occurred, the policy has been set out in statute that a person may withdraw actual consent. The statute requires that the arrested person be "informed by a law enforcement officer that the person may refuse to submit to the testing." However, there are clear sanctions for refusal. HRS §291E-65 subjects the person refusing to license suspension. This will be in addition to requirements of the application of the ignition interlock device. These civil penalties are not sanctions for crimes.

"This measure makes criminals of people who exercise their right to refuse. First, the statute gives the people the right to refuse. Then, the statute strikes people down for the exercise of their right.

"This measure will result in situations where the arrestee is convicted of refusal when the test result would have indicated that the arrestee was not guilty of intoxicated driving. There is no other criminal law in Hawaii like this. For these reasons, I have grave reservations for this measure.

"Mr. Speaker, I may be the last of a line of Judiciary Chairs to oversee the implied consent law. As mentioned earlier, as Chair of the Judiciary Committee, my duty to this Body is to inform it of any bill's unintended consequences. My second duty to is to ensure laws are fairly applied. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2897, SD 2, HD 3, CD 1, entitled: "A BILL FOR AN ACT RELATING TO HIGHWAY SAFETY," passed Final Reading by a vote of 51 ayes.

At 4:11 o'clock p.m., the Chair noted that the following bills passed Final Reading:

S.B. No. 1059, SD 2, HD 3, CD 1
S.B. No. 1105, SD 2, HD 1, CD 1
S.B. No. 2231, SD 1, HD 2, CD 1
S.B. No. 2919, SD 1, HD 1, CD 1
S.B. No. 2937, SD 1, HD 1, CD 1
S.B. No. 2565, SD 1, HD 1, CD 1
S.B. No. 2897, SD 2, HD 3, CD 1

LATE INTRODUCTIONS

The following late introduction was made to the Members of the House:

Representative Marumoto introduced Ms. Carol McNamee, founder of MADD Hawaii.

ORDINARY CALENDAR

UNFINISHED BUSINESS

Conf. Com. Rep. No. 89-10 and S.B. No. 2346, SD 1, HD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2346, SD 1, HD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Finnegan rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, on Conf. Com. Rep. No. 89-10, I do have some comments with reservations. Thank you Mr. Speaker, I rise with reservations on this measure that makes various reforms to improve the operations of the Hawaii Teacher Standards Board, HTSB.

"As stated in the Committee Report, this measure is in response to a 2009 audit that found several problems with the HTSB but it stopped short of the Auditor's recommendations to, 'transfer responsibility for administering a teacher license program from the Hawaii Teacher Standards Board to the Board of Education.'

"I support many of the provisions of this bill, including the delegation of more power and authority to the Executive Director of the Board. That should improve its operations. However, my objection is that this measure does not do anything to address the way teachers are licensed or our ability to recruit new teachers. This is an area that is in desperate need of reform.

"In our Race to the Top application, Hawaii scored just eight points out of the possible 21 points in the area of providing high quality pathways for aspiring teachers and principals. Our poor performance in this area is one of the reasons why we were unable to obtain the $75 million that we applied for in the first round of the Race to the Top funds. We did address part of this problem with another piece of legislation providing alternative certification for principals, but we did not provide an alternative route for teachers. That needs to change if we hope to do better in later rounds of Race to the Top and improve the way we deal with teacher certification. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2346, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII TEACHER STANDARDS BOARD," passed Final Reading by a vote of 48 ayes, with Representatives Awana, Sagum and Souki being excused.

Conf. Com. Rep. No. 90-10 and S.B. No. 466, SD 2, HD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 466, SD 2, HD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Finnegan rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I'm voting in opposition with just short comments, Mr. Speaker. I was going to let this pass with a reservations vote, but instead I changed it to a no vote after I read the part that says 'government contractors or government employees are exempt.' Mr. Speaker, what's 'good for the goose is good for the gander.' Just because we're government we can go ahead and make noise and contractors that are small businesses cannot because they're employed by someone else? Mr. Speaker, that to me is ridiculous, and we should kill this bill just because of that. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 466, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO POLLUTION," passed Final Reading by a vote of 45 ayes to 3 noes, with Representatives Finnegan, Herkes and Manahan voting no, and with Representatives Awana, Sagum and Souki being excused.

Conf. Com. Rep. No. 91-10 and S.B. No. 532, SD 1, HD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 532, SD 1, HD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Saiki rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Saiki's written remarks are as follows:

"Mr. Speaker, I rise in opposition to this measure. The Chair of the House Judiciary Committee has apprised us repeatedly today that his role, in large part is to guard against legislation that poses "unintended consequences." (See e.g., comments to Conference Committee Report No. 66-10, S.B. 2169; CCR No. 88-10, S.B. 2897). I would hope that this standard is applied to this measure because the unintended consequences of S.B. 532 are extraordinary. This measure is overbroad and is not tailored to address the concerns raised by its proponents, i.e., to allow homeowners to protect their residences and family members.

"This measure is the product of the National Rifle Association (NRA). In its supportive testimony at the Judiciary Committee hearing, the NRA stated that this measure is necessary because "The time has come to take back our island." The tone of the NRA testimony is telling of the unintended consequences of this measure.

"All members of this Body support effective and proven crime prevention measures. However, S.B. 532 does just the opposite. It will heighten violence and the unnecessary use of force in our community. A few of the problems with this measure are as follows.

"First, it sends the message that the use of deadly force will be condoned, even if it's used only to protect property.

"Second, this measure will allow the use of deadly force on all forms of property, not simply residences. S.B. 532 applies to private and public property. Any owner or any person who is "authorized" to be on the property is covered by this measure. By way of example, this includes hotel guests, shoppers at shopping centers, sidewalk pedestrians, Aloha Stadium spectators, and roadway drivers.

"Third, this measure does not require that the purported crime actually be committed. S.B. 532 actually creates an incentive for persons to inflict fatal wounds. This is because S.B. 532 provides that if a suspect survives, then the shooter must prove that an enumerated crime was being committed. If the suspect is fatally wounded, then there is no such requirement (all that is required is a "reasonable belief" that an enumerated crime was being committed).

"Hawaii should not follow the lead of states such as Alabama, Mississippi, Montana, North Dakota, Texas and Utah, which have adopted similar legislation. Nor should the Legislature give such deference to the NRA. This measure could and should have been drafted in narrower terms; the starting point for analysis should be the Hawaii Penal Code, which includes self-defense provisions.

"This measure has significant unintended consequences. We should heed the admonition of the Judiciary Committee Chair and not enact this measure into law. Thank you, very much."

Representative C. Lee rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Pine rose to speak in support of the measure, stating:

"In strong support, written comments."

Representative Pine's written remarks are as follows:

"Mr. Speaker, I rise in strong support for Senate Bill 532, Relating to Limiting Civil Liability. This bill will limit the civil liability of property owners for damages to persons injured or killed on premises while committing certain felony offenses.

"Mr. Speaker, this is a tough on crime bill. A person choosing to defend themselves, their family and their property by force should not be prone to civil liability. The victim should not be treated as a criminal. The victim may sometimes choose to make a split second decision if they perceive a criminal act taking place as life or death situation. Oftentimes, this decision must be made prior to the police arriving at the scene of a crime.

"Those opposed to this measure should put themselves in the shoes of the victim. Imagine sitting at home one night, watching television, and suddenly an intruder breaks into your home pointing a weapon, threatening to kill you and your family. You choose to stay seated and allow the intruder to burglarize your home, and commit other unspeakable acts, and then the intruder murders you and your family. The intruder leaves your home, and the police arrive 5 minutes later.

"What if the victim chose to act instead and fires a weapon possibly injuring or killing the intruder? As the law is currently written, the intruder or their family can sue the victim for damages, just because the victim was protecting their home, their family, and their possessions.

"Mr. Speaker, this bill will protect the victim, and I stand in strong support."

Representative Karamatsu rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Karamatsu's written remarks are as follows:

"Mr. Speaker, I rise in support. Mr. Speaker, under current law, when faced by a threat on one's life, one does not have a duty to retreat in one's home or office. Senate Bill 532, Senate Draft 1, House Draft 1, Conference Draft 1 goes further where an owner of real property or an agent of the owner lawfully on the premises by consent of the owner, shall not be liable to any perpetrator engaged in any of the felonies involving violence as set forth in this bill for any injury or death to the perpetrator that occurs upon that property during the course of or after the commission of such felony, or when a reasonable person would believe that commission of a felony as set forth in this bill is imminent. However, if a perpetrator is injured, the perpetrator must be charged with the criminal offense and convicted of the criminal offense or of a lesser included felony or misdemeanor. Further, the limitation of civil liability applies only when the perpetrator's conduct in furtherance of the commission of a felony specified in the bill proximately or legally causes the injury or death.

"I have to admit that I struggled over this bill for the past two Legislative Sessions. I will go over the internal struggle I dealt with and why I came to agree with this Conference Draft before us. Last year, this bill stalled in Conference since there was a stalemate between my counterpart in the Senate and myself. I drafted the House Draft 1 as narrow as I could with the intent to prevent any unintended consequences as best as I could. In the House Draft 1, the limitation of civil liability only applied to the owners. In contrast, the Senate defined an "owner" to mean owner, the occupant, tenant, or anyone authorized to be on the property by the owner or the occupant, including a guest or a family or household member, employee, or agent of the owner lawfully on the premises.

"Second, the House version limited civil liability to only apply when the perpetrator who is injured is convicted of a felony. It did not apply to when a perpetrator is killed. In contrast, the Senate version had limited liability for any injury or death to the perpetrator and had no requirement of a criminal conviction of the perpetrator.

"Third, the Senate version stated that the owner did not have a duty to warn the perpetrator of the felony and that he or she is armed and ready to cause bodily harm or death. The House version had no similar language. Finally, the last substantive difference is the Senate version had an additional subsection that did not limit the liability of an owner for injury or death caused to individuals other than the perpetrator of the felony.

"In this Conference Draft, I agreed to the Senate to not limit civil liability exclusively to owners, or private owners, for a couple of reasons:

1. The owner is not always the person residing on the property or needing to defend it. For example, a renter or a significant other is not the legal owner of the property, but may rise to his or her own defense while residing there; and

2. Private persons are not the only ones holding title to property. Government housing projects, for example, are owned by the State and we would not want to prevent lessees of government property to be forbidden from protecting themselves in their own homes.

"When I was younger, I trained in Aikido, the Japanese martial art that teaches one the emphasis on self-defense. When attacked, one uses the force of one's attacker to his or her advantage to subdue him, thus avoiding killing him. However, even with great discipline, under a very difficult situation, one's self defense force may be too great, which may result in the unintended death of one's attacker. Killing another should be avoided at all costs, but even with that train of thought in mind, the death of the perpetrator could still occur.

"After much thought and analysis, I agreed to the Senate amendment to limit civil liability for an owner or agent of an owner who injured or killed a perpetrator upon the owner's property during the course of or after the commission of a felony listed in this bill. On the other hand, the Senate agreed to the House version requiring a criminal conviction of an injured perpetrator in order to trigger the limitation of civil liability for the owner or agent of the owner.

"I agreed to the Senate Draft 1 language, which the House did not have that says that the limitation of liability shall not be affected by the failure of the owner to warn the perpetrator of the felony and that the owner is armed and ready to cause bodily harm or death. In my rationale, when one is faced by an imminent threat of harm, one has to make a split decision to save his or her life or the lives of others. The time it takes one to warn the perpetrator of the felony and that he or she is armed and ready to cause bodily harm or death could result in the owner's death and the death of those around him or her.

"For the last difference between the House and Senate on this bill, the Senate Draft 1 had an additional subsection that did not limit the liability of an owner for injury or death caused to individuals other than the perpetrator of the felony. I agreed with this safeguard because an owner should still be liable for negligently injuring or killing an innocent third party or a third party of a lesser crime.

"Finally, I agreed to this Conference Draft of Senate Bill 532 because there is a list of criteria an owner or agent of an owner in real property must meet in order to qualify in limiting his or her civil liability. These safeguards bring balance in protecting the perpetrator. The following are the criteria needed to limit civil liability for an owner or agent of an owner:

1. The perpetrator must be engaged in one of the following felonies, which are higher level felonies that mostly involves violence:

   a. Murder in the first or second degree;
   b. Attempted murder in the first or second degree;
   c. Any class A felony as provided in the Hawaii Penal Code, including any attempt or conspiracy to commit a crime classified as a class A felony;
   d. Any class B felony involving violence or physical harm as provided in the Hawaii Penal Code;
   e. Any felony punishable by imprisonment for life;
   f. Any other felony in which the person inflicts serious bodily injury on another person; and

g. Any felony in which the person personally used a firearm or a dangerous or deadly weapon.

2. The limitation on liability applies only when the perpetrator's conduct in furtherance of the commission of a felony specified in this section proximately or legally causes the injury or death.

3. This section does not limit the liability of an owner that otherwise exists for:

a. Willful, wanton, or criminal conduct; or
b. Willful or malicious failure to guard or warn against a dangerous condition, use, or structure; or
c. Injury or death caused to individuals other than the perpetrator of the felony.

"It is for all these reasons that I support this final version of Senate Bill 532. Thank you."

Representative Ito rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ito's written remarks are as follows:

"Mr. Speaker, I rise in support of SB 532, SD 1, HD 1, CD 1. The purpose of this bill is to allow the people of Hawaii to defend themselves against criminals in their homes or places of business. The general public policy is not to allow people to use deadly force when they are protecting property. However, unlike the case of a mugger stealing a briefcase, or a thief stealing a car, when a person commits a crime in your home or place of business and you are there, chances are that you may become a victim of a violent crime. This bill makes it so that you don't have to wait for that criminal to violate you or your family before you can take action. In situations like this, we shouldn't ask that a person put himself or herself at unnecessary risk and require that he or she try to escape from the property without injuring the criminal. This bill allows homeowners to defend not just their homes, but themselves and their families without fear of later legal retribution by the State or the intruder.

"The Conference Draft before you provides adequate safeguards for the lives of the people of Hawaii. Although we are allowing real property owners to defend their homes with deadly force, it is important to note that there are restrictions on this ability. Chiefly, it is only when an injured intruder is later found guilty of having been in the process of committing a crime, that there will be an absolute shield against civil liability for the defender. I believe that this qualification will prevent abuses of this important law while still providing protection for those who choose to forcibly defend not only their home, but also their families."

Representative M. Oshiro rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 532, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO LIMITING CIVIL LIABILITY," passed Final Reading by a vote of 37 ayes to 11 noes, with Representatives Belatti, Berg, Hanohano, Keith-Agaran, Luke, Morita, Nakashima, Nishimoto, Saiki, Takai and Wakai voting no, and with Representatives Awana, Sagum and Souki being excused.

Conf. Com. Rep. No. 93-10 and S.B. No. 2371, SD 2, HD 1, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and S.B. No. 2371, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO LIMITED BENEFIT HEALTH INSURANCE," passed Final Reading by a vote of 48 ayes, with Representatives Awana, Sagum and Souki being excused.

Conf. Com. Rep. No. 97-10 and S.B. No. 930, HD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 930, HD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Yamane rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, I need a ruling on a potential conflict. I am a Department of Health volunteer for the Medical Reserve Corp and this will be covering the liability. Thank you," and the Chair ruled, "no conflict."

Representative Ching rose to disclose a potential conflict of interest, stating:

"A similar request for a ruling for a potential conflict. My husband sometimes volunteers in this capacity," and the Chair ruled, "no conflict."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 930, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO VOLUNTEER MEDICAL ASSISTANCE SERVICES," passed Final Reading by a vote of 48 ayes, with Representatives Awana, Sagum and Souki being excused.

Conf. Com. Rep. No. 100-10 and S.B. No. 2220, SD 1, HD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2220, SD 1, HD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Thielen rose to disclose a potential conflict of interest, stating:

"I would like a ruling on a potential conflict. I have contractors in the family," and the Chair ruled, "no conflict."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2220, SD 1, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO CONSTRUCTION SITES," passed Final Reading by a vote of 48 ayes, with Representatives Awana, Sagum and Souki being excused.

Conf. Com. Rep. No. 101-10 and S.B. No. 2399, SD 1, HD 1, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and S.B. No. 2399, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO MIXED MARTIAL ARTS," passed Final Reading by a vote of 48 ayes, with Representatives Awana, Sagum and Souki being excused.

At 4:19 o'clock p.m., the Chair noted that the following bills passed Final Reading:

S.B. No. 2346, SD 1, HD 1, CD 1
S.B. No. 466, SD 2, HD 1, CD 1
S.B. No. 532, SD 1, HD 1, CD 1
S.B. No. 2371, SD 2, HD 1, CD 1
S.B. No. 930, HD 2, CD 1
S.B. No. 2220, SD 1, HD 2, CD 1
S.B. No. 2399, SD 1, HD 1, CD 1

Conf. Com. Rep. No. 105-10 and S.B. No. 1062, SD 1, HD 1, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and S.B. No. 1062, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO PROFESSIONAL EMPLOYER ORGANIZATIONS," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 106-10 and S.B. No. 2883, SD 1, HD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2883, SD 1, HD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Finnegan rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition to this measure. This bill makes it an unlawful practice for any employer or labor organization to bar or discharge from employment, withhold pay from, or demote an employee because the employee legitimately uses accrued and available sick leave.

"Proponents of this measure would claim that by limiting the scope of this measure to employers with 100 or more employees and a collective bargaining agreement, that it does not significantly burden or adversely impact business. Additionally, this measure's proponents maintain that this bill is all about protecting employees who legitimately use sick leave.

"However, this bill addresses a matter that is subject to collective bargaining and should not be legislated. If you don't win at the bargaining table, you shouldn't come to the Legislature to renegotiate your deal through legislation. This bill takes away the right and prerogative of management to run their organization in a manner they see fit. And as the State Department of Human Resources Development and the Judiciary testified, the passage of this bill will, in effect, destroy the balance of negotiations and inhibit future negotiations, as well as force employers to indefinitely continue the employment of such employee who is determined to be medically unable to perform the duties of the position for which the employee was hired. The employer would be forced to either hire replacement employees, or burden other staff with the employee's share of the work, which then in turn adversely affects all public service.

"Lastly Members, the term 'legitimately' in the proposed section (b) conflicts directly with criteria set forth in the Bargaining Unit 1 and 10 collective bargaining agreements, which authorize the public employers to determine patterns of absences and institute disciplinary actions for the abuse of sick leave. By undermining these criteria, we are taking away an important and necessary tool for employers to determine when their operations and services are being compromised by employees regularly taking their sick leave in a manner that, while may not technically be, 'abuse of sick leave,' it is still wrong and compromises the organization. Thank you."

Representative Marumoto rose in opposition to the measure and asked that the remarks of Representative Finnegan be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Ching rose in support of the measure with reservations and asked that the remarks of Representative Finnegan be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Rhoads rose to speak in support of the measure, stating:

"Mr. Speaker, in support. The underlying principle here seems like a sound one. I do support the bill. I wish it were actually applied more broadly because I don't believe it's only the large employers who are unionized who sometimes penalize their employees for taking sick leave legitimately.

"But the whole idea of arguing against the principle that, if you are sick, you get to take sick leave that you're entitled to, that just seems ridiculous to me. You should be able to take sick leave when you're sick. And there are companies, I hope it's the tiny minority, but there are companies that occasionally don't allow that, and they penalize their employees for taking sick leave when they're sick. That just doesn't make any sense. Whether it's a big company or a small company, if you're legitimately sick, you should be able to take the sick leave that you've earned as part of your agreement with your employer. Mahalo."

Representative Finnegan rose to respond, stating:

"Mr. Speaker, I just wanted to emphasize, not all unions will come forward and speak loudly on this bill, and that's because sometimes what takes place is the employees themselves get upset when people have those kinds of patterns. Like three or four day weekends. Or not coming in on a Friday because they're sick, or on a Monday because they're sick. Abusing, but not abusing the sick leave policy. It has them in their working situations, put more pressure upon the work that they need to get done during that day. And management needs to be able to use those types of situations to clear up that particular problem. It's not only management being bad business owners or bad government, but it's a way to manage some of these problems.

"It's really interesting. My daughter, she will take on the weekend, she does a lot of dance, she does a lot of schoolwork, and all this other kind of stuff. Her schedule is quite busy and sometimes she'll do stuff all day Saturday, all day Sunday, and then Monday she'll get up and she'll tell me, 'Mom, I can't go into school today 'cause I'm sick.' Well, know what? She is sick. She's sniffling or whatever. I told her, 'You've got to. Come on and take a look at what's going on. This is the second time that you are sick on a Monday. You didn't decide to rest over the weekend. You decided to go on with your dance schedule over the weekend. You have an obligation to go to school on Monday. You need to manage your schedule.'"

Representative Wooley rose to a point of order, stating:

"Mr. Speaker. I'd just like to object. This is the second time she stood up and it's not in rebuttal. Point of order."

Representative Finnegan: "Mr. Speaker, I don't understand that."

The Chair addressed Representative Finnegan, stating:

"Representative Finnegan, please continue and summarize it."

Representative Finnegan continued, stating:

"Mr. Speaker, so the point is that there is a responsibility. Just because you have sick leave and you're entitled to sick leave, there are responsibilities when you go to work that other people a lot of the time have to cover for you. Allowing the ability for management to manage their workforce is a very important balance in the employer/employee relationship. Thank you."

Representative Rhoads rose to respond, stating:

"Mr. Speaker, still in support and in rebuttal. Mr. Speaker, there are two separate questions being sort of rolled into one here. One is, whether you have sick leave, and then whether or not you are using it properly. The argument from the other side seems to be that if you take sick leave on certain days, it must be abusive. There's nothing to indicate that that's the case."

Representative Thielen rose and stated:

"Mr. Speaker, I object to that. There was no statement made to that effect. And I think that kind of personal attack is not ..."

Representative Rhoads: "It's not a personal attack."

Vice Speaker Magaoay: "Representative Thielen, hold on. Representative Thielen, please sit down. Representative Rhoads has the Floor. I had let Representative Finnegan continue on with her discussion regarding her opposition. Representative Rhoads, please continue."

Representative Rhoads: "It's not a personal attack. I'm just saying the argument seems to be that if you take sick leave on certain days, then you must be abusing it, and it's just not true. It's a case by case basis. Sometimes you're being abusive by taking sick leave, and sometimes you're not."

Representative Thielen: "Mr. Speaker. Mr. Speaker, I think that's inappropriate."

Vice Speaker Magaoay: "Representative Thielen …"

Representative Rhoads: "This bill simply looks to say if you're legitimately taking sick leave, you cannot be punished for it. And that seems like an irrefutable principle. Mahalo."

Representative Thielen: "Thank you. I don't accept his 'mahalo.' I don't think that's a 'thank you.' I think that was a personal attack. And our Minority Leader did not state that."

Vice Speaker Magaoay: "Are you for the bill? Are you for the bill or against the bill?"

Representative Herkes rose to a point of order, stating:

"Point of order. Please have the speaker address the Chair and not the individual."

Vice Speaker Magaoay: "Representative Thielen, are you for the bill or against the bill?"

Representative Thielen rose and stated:

"Mr. Speaker, I support the bill, and I support our Minority Leader. And she did not make that statement. There are people that have testified that there is a pattern within some instances where employees may have a history of taking a sick leave on a Friday or on a Monday. But it's something that was brought to the Committee and brought to us in testimony. And I think those personal attacks by the Labor Chair that go on during the session are highly inappropriate."

Vice Speaker Magaoay: "Representative Thielen it's not a personal attack. I appreciate your comments. Thank you, very much."

Representative Thielen: "Thank you. Mahalo."

Representative Marumoto rose to respond, stating:

"Mr. Speaker, still in opposition and a short rebuttal. But I do believe the Representative from Kailua stated it correctly, that you might have legitimately bargained sick leave available to a worker, but sometimes a worker may not really be sick and there might be some abuse of that allowable, legitimately bargained sick leave. And when that occurs, the brunt falls on the fellow employees. So I believe that this is the argument that was being put forward by the Minority Leader. Thank you. Mahalo."

Representative Ching rose to respond, stating:

"Thank you. I'm still with strong reservations. Thank you, Mr. Speaker. I think the bigger question here is, we all have staff ourselves so in effect we are all management. That's true, right? So I mean, business owners have management issues and we're all human beings. And yes, we all, if we get sick, certainly the wise employer is compassionate to those who are truly sick because if that person is a really productive person and yet they happen to be sick and they're using this time to get well, you want to keep really wonderful employees.

"But as managers we all know, why is it if somebody keeps on being sick, it's just the message. What is the message that we send consistently to the private sector? To people who are just trying to manage their businesses? That they don't have control over their own business as much, and we seem to be infringing more and more.

"I think that the concept that we have here is that we do feel that at times, the Representative from Chinatown sometimes seems to be not always saying things in such an upfront and sincere manner. Thank you."

Vice Speaker Magaoay: "Representative Ching, those comments are not accepted."

Representative M. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support. Mr. Speaker, I really wanted to extend my appreciation to the Labor Chair for working this bill through. This bill has been around for at least 10 years now. In fact when I was the Labor Chair back in 2003 we wrestled with the same issue.

"I think at that time with the great assistance of the then Minority Leader from Kailua we were able to persuade the Governor to pass into law the Hawaii Family Leave Act, which provided a great assistance to our families who were thereby able to use some of their accrued, acquired, earned sick leave to take care of their ailing parent or spouse or son or daughter or family member. This is just a continuation of that basic principle. And the idea I think is to make sure that legitimately used sick leave that's earned by the employee, that's part and parcel of their compensation package, that they'll not be punished for using it.

"I think in this age of diseases like the H1N1 'swine flu' where we're encouraged to stay home from work when we have the sniffles or sore throat. When you have the symptoms that might be attributable to H1N1, we're encouraged to stay home and to avoid contaminating our work place and infecting our colleagues. I think these policies strengthen that safety aspect of one staying away and using their sick leave when they're sick. So for that reason Mr. Speaker, I support this measure. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2883, SD 1, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO EMPLOYMENT PRACTICES," passed Final Reading by a vote of 49 ayes to 2 noes, with Representatives Finnegan and Marumoto voting no.

Conf. Com. Rep. No. 107-10 and S.B. No. 910, SD 1, HD 2, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and S.B. No. 910, SD 1, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE TRANSFER OF HOMELESS PROGRAMS WITHIN THE DEPARTMENT OF HUMAN SERVICES," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 108-10 and S.B. No. 2165, SD 1, HD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2165, SD 1, HD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Finnegan rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. Just short comments with reservations. Even though Mr. Speaker, I have reservations on this bill and this is relating to private guards. This is security guards and the minimum qualifications, and education, and all of that other stuff.

"Mr. Speaker, I will support the bill, but I do have reservations because in a time where our retail merchants aren't having the easiest time keeping their businesses open, providing for security guards and paying for security guards and the high possibility of increased costs for them is still an important measure to consider. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2165, SD 1, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO PRIVATE GUARDS," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 113-10 and S.B. No. 2825, SD 1, HD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2825, SD 1, HD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Thielen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm rising in support of the measure. I just would like to give a little bit of insight into this issue. This bill relates to the Student Loan Auction Rate Securities. Maui made some investments in 2007, up to 2008, and they purchased about $44.2 million in the Student Loan Auction Rate Securities through Merrill Lynch, and then Merrill Lynch continually during that period of time represented to the County of Maui that the Student Loan Auction Rate Securities were money market alternatives: safe, short term investments.

"During that time that Merrill Lynch said to the County of Maui that the auction rate securities had never had a failed auction, implying that the market was fully developed and liquid. In other words almost the same as a certificate of deposit in a bank. And on February 26 of 2007, Merrill Lynch told Maui County they'd never heard of an investor stuck into an extended auction against the investor's wishes.

"And then all the way up until practically the day before the collapse of the auction rate securities market, Merrill Lynch provided an auction market securities report to the County of Maui which again was basically saying, 'everything is fine.'

"Now there's been a finger pointed at our Budget Director for doing the same kind of investments, relying upon the same kind of investment advice during this period of time. And I think that that is misleading and unfair to the Budget Director. The securities are still liquid, Mr. Speaker.

"On February 24, 2010, the Budget Department sold $10 million of the auction rate securities at par value. There are other periods of time where the Director has stated in the absence of a market that will allow the State to sell more at par, the State will hold on to those securities until maturity. So the investments remain sound and good.

"The point is that the budget, the State of Hawaii, Maui County, and probably some other county departments and maybe the City and County of Honolulu; all of them were caught up relying upon sound investment advice, that the auction rate securities market worked. That you could redeem these weekly, monthly, as you wanted. And they relied upon what was supposed to be sound advice from the investment advisors, the brokerage houses, etc.

"So it is unfair to single out the Budget Director and say that she erred. She did nothing more than anyone else was doing across the nation. She also is now able to redeem some, not all but some of these, at par value, and she will not redeem the others until she can redeem them at par value. Thank you."

Representative M. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support. Just a couple of points of clarification. Maui did sue, I think it was Merrill Lynch, for the sale of the Student Loan Auction Rate Security. I think they purchased about $45 million worth compared to the State of Hawaii that purchased over $1 billion worth of Student Loan Auction Rate Securities. I think the Maui lawsuit was sometime in mid-February and that is proceeding.

"The basic allegations of the lawsuit of course is almost like a fraud and inducement that the representations of the broker at that time from Merrill Lynch. But for making representations that the Student Loan Auction Rate Securities were the equivalent of cash or certificate of deposit-like investments, Maui County would not have made the investment.

"I don't believe Kauai made a similar investment in Student Loan Auction Rate Securities, nor Hawaii County. I think the City and County of Honolulu did make some small investments in Student Loan Auction Rate Securities. Maybe less than I think $15 million, maybe $5 million. But the big one that purchased the most was the State of Hawaii through the Department of Budget and Finance. In fact Mr. Speaker, that's why we receive so much national attention. I think of the $300 billion in Student Loan Auction Rate Securities, Hawaii as a percentage was in the third highest in the nation as one entity purchasing so much of these Student Loan Auction Rate Securities.

"And I believe it is correct. I think the Budget and Finance Office were able to liquidate some of their securities after the February freeze on the Dutch Auctions. But since that time Mr. Speaker, there have been no Dutch Auctions. In fact, if you talk to any of the local stockbrokers, investors, broker houses, they will tell you straight up that they do not anticipate seeing any return of the auctions to sell Student Loan Auction Rate Securities.

"In fact, there may be an investigation coming forward through the Securities Exchange Commission or Congressional Banking Committees that could have this whole practice of investments and shoring up an artificial market for these securities, as put upon the investment community.

"I guess the point Mr. Speaker, is that this bill here, from here on out, will prevent the State of Hawaii from looking at just the representations of the broker houses, but the actual maturity dates of the instruments. At the Student Loan Auction Rate Securities before us, some of the maturities are well beyond the five years I think anticipated by our previous lawmakers who allowed the investment in the current statutes. So this will clarify the law going forward. I think it's a good thing. Thank you."

Representative Thielen rose to respond, stating:

"Yes, thank you. I just wanted to make clear to the Chair of the Finance Committee, I do support the bill. But I also wanted to make clear that this was something that impacted a huge number of states, counties, etc. across the nation. I'm glad that there's an investigation ongoing. I would anticipate that the State would be able to sell at par by the time these lawsuits wind their way through, and I believe the rulings will be favorable to the municipalities and the states. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2825, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO STATE FUNDS," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 114-10 and S.B. No. 2828, SD 1, HD 3, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2828, SD 1, HD 3, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Finnegan rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I rise with reservations and short comments. Thank you, Mr. Speaker. This is a bill having to do with impact fees and we did hear about how difficult it is for the Big Island, but that is not necessarily why I have reservations on this bill. Recommendations were made to this House and suggestions were made to add Charter Schools to this bill and having them be an option for receiving impact fees for either land or building of a school.

"Mr. Speaker, that makes sense. Public Charter Schools have been able to operate and some of the parts that they lack are in facilities and facilities costs. So it just makes sense that you would open it up to Charter Schools to be able to be recipients of these impact fees through the Department of Education.

"Mr. Speaker, when we don't do something as common sense as that, which is where they use money. The most direct avenue to getting a better price for these schools to open up, and directly in response to the community. This is what Public Charter Schools are. That we should have put them, as possible to receive these impact fees.

"Mr. Speaker, this is happening in West Hawaii. Half of the Charter Schools are on the Big Island. We should have fought harder for Charter Schools to be included in receiving impact fees. Thank you."

Representative Har rose to speak in support of the measure, stating:

"In strong support, and may I request permission to enter written comments into the Journal."

Representative Har's written remarks are as follows:

"Mr. Speaker, I rise in strong support of SB 2828, SD1, HD3, CD1. This bill provides clarification on the determination of school impact fees for financing new Department of Education educational facilities or expanding existing ones.

"Act 245, Session Laws of Hawaii 2007, established the school impact fee program by creating school impact fee districts, and setting a system to provide lands and collect fees for new or expanded school facilities in areas with significant residential growth.

"Mr. Speaker, as the Representative for one of the fastest-growing districts in our State, I have seen first-hand the importance of ensuring that our public infrastructure, including schools, keep up with the pace of new development. I believe that the amendments made to the school impact fee program in this bill will help ensure that developers make a fair contribution to the construction of new public schools which are necessitated by their developments. In all communities across our State, these impact fees will benefit both new and long-time residents alike.

"For these reasons, I stand in support of this bill. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2828, SD 1, HD 3, CD 1, entitled: "A BILL FOR AN ACT RELATING TO EDUCATION," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 115-10 and S.B. No. 2324, SD 2, HD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2324, SD 2, HD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Finnegan rose to speak in opposition to the measure, stating:

"Mr. Speaker, I'll be in opposition, but to save time, could you just include my arguments from the previous times I spoke on this bill. Thank you." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2324, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO UNEMPLOYMENT INSURANCE BENEFITS," passed Final Reading by a vote of 45 ayes to 6 noes, with Representatives Ching, Finnegan, Marumoto, Pine, Thielen and Ward voting no.

At 4:47 o'clock p.m., the Chair noted that the following bills passed Final Reading:

S.B. No. 1062, SD 1, HD 1, CD 1
S.B. No. 2883, SD 1, HD 2, CD 1
S.B. No. 910, SD 1, HD 2, CD 1
S.B. No. 2165, SD 1, HD 2, CD 1
S.B. No. 2825, SD 1, HD 1, CD 1
S.B. No. 2828, SD 1, HD 3, CD 1
S.B. No. 2324, SD 2, HD 2, CD 1

Conf. Com. Rep. No. 121-10 and S.B. No. 2661, SD 2, HD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2661, SD 2, HD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Luke rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, I would like to disclose a potential conflict. The law firm that I work for has a claim listed in this bill. Thank you," and the Chair ruled, "no conflict."

Representative B. Oshiro rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, I have the same request on this bill. My law firm has a claim for a payment of attorney's fees under this bill. Thank you," and the Chair ruled, "no conflict."

Representative Belatti rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. Same request. My law firm has a claim in this bill as well," and the Chair ruled, "no conflict."

Representative Thielen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support and I just would like to note that this is why when you take a look at the dollar figure attached to this, this is why we need to clarify in State Law that the Legislature, and not the courts, will decide when the State waves its sovereign immunity. Thank you."

Representative Saiki rose to disclose a potential conflict of interest, stating:

"Mr. Speaker. I have the same request to disclose a potential conflict. My client's settlement is included in this measure," and the Chair ruled, "no conflict."

Representative M. Oshiro rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Oshiro's written remarks are as follows:

Consolidated Cases - Pflueger (settlement) $1,500,00.00

"These consolidated cases are a result of the Ka Loko Dam breach on March 14, 2006, resulting in a flood that caused the death of seven persons and damage to numerous parcels of property. The State was made a party based on the allegations of negligence by the Public Utilities Commission in regulating the irrigation system operator, by the Department of Land and Natural Resources in not inspecting the dam, and by the State of Hawaii generally as the landowner of the watershed above the dam allegedly having the responsibility of controlling the flow of water.

"The cases proceeded to mediation resulting in the global settlement among all parties. The State of Hawaii succeeded on having all allegations of liability dismissed except for the property above the private property on which the dam was located.

"The settlement agreement includes an assignment of claims of any rights, privileges, claims, or any other recourse the State may have pursuant to insurance policies that provide insurance coverage to the State arising out of the released claims.

McMillon, et al. v. State (Settlement) $610,000.00

"Two class action lawsuits were filed simultaneously relating to the Kuhio Park Terrace (KPT) and Kuhio Homes housing projects. The McMillon lawsuit was filed in federal court and involved federally protected civil rights, i.e., Americans with Disability Act, Rehabilitation Act section 504, and Fair Housing Act disability rights. The Faletogo lawsuit was filed in state court and primarily involved general living conditions at KPT and the alleged breach of lease and warranty of habitability. A class has been certified in the federal case. KPT is the oldest housing project in the State's federal inventory. Built in 1965, it consists of two 16-story towers and several two-story buildings. Built only a little later and contiguous to KPT is Kuhio Homes, which consists of several two story "town-house" style units. Both are considered part of the same project and are managed together.

"Large high-rise public housing projects have proven themselves to be a failed approach to low-income public housing and have been torn down throughout the United States. Because this is a United States Department of Housing and Urban Development (HUD) financed project, nothing can be done without HUD approval and HUD funds. The Hawaii Public Housing Authority has twice applied for a HUD "Hope VI" grant to raze KPT and both times the application was denied not for lack of merit, but rather for lack of available federal funds. Given their age, the buildings have become difficult and expensive to maintain. For example, the garbage chutes were designed as incinerator chutes and do not function well as collection receptacles. The elevators are obsolete and repair parts are no longer available; moreover, the original design of two passenger and one service elevator per building may have been adequate for a middle class apartment building, but are not adequate for public housing, resulting in frustrating waits and ensuing vandalism. The high concentration of residents has led not only to vandalism, but other crimes among the residents, which has increased the difficulty of maintaining the premises.

"This settlement was reached after extensive mediation with a federal magistrate and a private mediator. Of the settlement amount, $245,000 will go to residents of KPT as damages and/or "rent abatement"; the balance represents attorneys' fees for the plaintiffs' attorneys recoverable under federal statutes.

Cabanting, et al v. Po'ouahi (Settlement) $3,485,815.38

"The parental grandfather and the father of a now 15-year-old child alleged that employees of the Department of Education wrongfully failed to make mandatory reports of suspected child abuse after the minor's natural mother voluntarily had placed her with a caregiver. As a result, the minor was alleged to have suffered extensive and permanent injuries including brain damage from infections, loss of hearing in one ear, blindness in one eye, and the loss of her nose and upper lip and other injuries, the effect of which has left her unable to care for herself and unlikely to obtain employment. She was alleged to have needed some $481,000 in future cosmetic surgery and lifetime care.

"The State and its excess insurance carrier, Chartis Insurance (fka AIG), recently agreed to settle the Plaintiffs' claims for a total of $5,750,000. The

State's portion is its self-insured retention and deductible of $3,500,000 applicable for the year of this incident. (The State's self-insured retention was $3,000,000. Also, for the period when this incident occurred, there was a further deductible of 50 percent of the first $1,000,000 or any portion thereof in excess of the retained limit.) $835,470.96 is to be paid to the State as reimbursement for an outstanding Department of Human Services lien. (As part of the settlement, the State agreed to waive $50,000 of the outstanding DHS lien of $885,470.96). Thus, the State will, in effect, pay out a net amount of $2,664,529.04, and Chartis will pay approximately $2,250,000.

T.N. v. Department of Education, et al, (Settlement) $75,000.00

"The Baldwin High School girls' softball team on Maui alleged that the Department of Education (D0E) was discriminating on the basis of gender and denying the girls' team equal and adequate access to public recreational facilities in violation of their Constitutional and statutory rights, including Title XI of the Education Amendments of 1972, 20 U.S.C. § 1681 et seg. By providing equipment and facilities inferior to those provided to the Baldwin High School boys' baseball team. The Court found that the DOH had violated Title XI and granted Plaintiffs' request for a preliminary injunction. After intense negotiations, the parties reached an agreement that addressed virtually all of the Plaintiffs' concerns, including providing an adequate practice field and additional equipment. As part of that settlement, the parties agreed to pay Plaintiffs' attorneys fees of $75,000.

Brandt v. Department of Business, Economic Development & Tourism (Settlement) $80,000.00

"Claimant secured a judgment for temporary total disability, the amount for which continued to grow as Claimant's alleged disability endured and 1% interest also continued to accrue on that amount.

Clark v. State. (Settlement) $30,000.00

"Plaintiff suffered a recurrent dislocation of his left knee which he had injured earlier, and for which he had had surgery. As a result of this fall, he damaged an area of the knee that had not been damaged earlier and resulted in another new surgery.

Conley v. Mahuna, et al. (Settlement) $15,000.00

"Plaintiff Thomas Conley, Jr., a tenth grader at Hilo High School, was injured when a school security attendant (SSA) used force to confiscate a video camera from the Plaintiff. The Plaintiff alleged that the SSA used unreasonable force, slamming the Plaintiff onto a desk and the floor, injuring the Plaintiff's back.

Manalo v. Wells, et al (Judgment) $32,478.37

"The Claimant's vehicle was struck by a Department of Human Services' employee acting in the course and scope of his duties on December 4, 2006. The Claimant suffered damages as a result of the accident.

Henson v. State (Settlement) $30,000

"The biological parents of two minor children ages 9 and 6 years old allege that the Department of Human Services wrongfully removed the children from their family home and placed them in a temporary foster home. Department of Human Services allegedly conducted an untimely and incomplete investigation of child neglect complaints against the parents, and misrepresented, among other things, that three mental health professionals supported the removal of the children were removed from their home for a month, but subsequently returned when the three professionals disclaimed the support for the removal.

Ayala, et al v. Wilson, et al (Settlement) $50,000

"This case arises out of an alleged sexual abuse of a foster child by the adult son of foster parents. The Department of Human Services is alleged to have negligently placed the child in the foster home.

Kong-Guillermo v. Hefferman, et al (Settlement) $ 10,000.00

"A female inmate was sexually assaulted by staff at the Hawaii Youth Correctional Facility in1995 when she was housed there as a minor. This case was mediated by Keith Hunter of Dispute Prevention & Resolution, which resulted in settlement.

Perez v. Karr, et al (Settlement) $213,333.00

"A female inmate was sexually assaulted by staff at the Hawaii Youth Correctional Facility in 2002 when she was housed there as a minor. This case was mediated by Keith Hunter of Dispute Prevention & Resolution, which resulted in settlement.

Wolters v. Carroll, et al (Settlement) $213,333.00

"A female inmate was sexually assaulted by staff at the Hawaii Youth Correctional Facility in 2002 when she was housed there as a minor. This case was mediated by Keith Hunter of Dispute Prevention & Resolution, which resulted in settlement.

Toomey v. Karr, et al (Settlement) $ 13,333.00

"A female inmate was sexually assaulted by staff at the Hawaii Youth Correctional Facility in 2002 when she was housed there as a minor. This case was mediated by Keith Hunter of Dispute Prevention & Resolution, which resulted in settlement.

Hadley v. Torney, et al. (Settlement) 100,000.00

"This case involves. three claims made by Linda K. Hadley, the former nurse supervisor at the Hawaii Youth Correctional Facility (HYCF) alleging that she was subjected to emotional distress, retaliated against, and. forced to quit her job because she complained about issues related to the medical unit at HYCF & Hadley's workers' compensation stress claim was deemed compensable and her treating psychologist opined that Hadley could not return to work at HYCF.

Robinson v. Tripler Army Medical Center, et al. (Settlement) $12,000.00

"A DHS social worker had the runaway mother arrested at Tripler on the outstanding bench warrant and took legal custody of the baby. Among other claims, Plaintiffs alleged that taking custody of the baby violated their rights to make medical decisions on behalf of the baby. The United States District Court of Hawaii ruled in Plaintiffs' favor and held that DHS' seizure of the baby unconstitutionally terminated Plaintiffs' right to make medical decisions on the baby's behalf.

Roque v. Dickman, et al (settlement) $93,850.00

"Claimants were defrauded of their interest in property pursuant to forged deed. The parties who defrauded Claimants of their interest subsequently mortgaged the property. The mortgagee claims to have a superior secured interest in the property based upon the Land Court having issued a transfer certificate of title naming the defrauding parties as owners of the property.

Botelho, et al v. State (Judgment) $30,454.33

"Inmates at the Hawaii Community Correctional Center in Hilo were injured while the prison was being evacuated during a fire on July 24, 2004. The court awarded $30,454.33 to the inmates' attorney fees.

DeJesus, et al v. State (Settlement) $80,000

"This case involves the discharge of eight employees of the Department of Public Safety who were on workers' compensation leave for one year or more and had no foreseeable return to work date. Former Director of Public Safety John Peyton made the decision to discharge the employees to address staffing issues at the correctional facilities and to fill the positions with people who could work.

Flores, et al v. Department of Transportation (Judgment) $23,225.34

"A roll-up door at the Pier 3 warehouse at Nawiliwili Harbor on Kauai suddenly and unexpectedly came down and struck Claimant on the head while he was picking up freight from Young Brothers on August 4, 2005. The Claimant's alleged injuries include a closed head injury, cervical strain, right shoulder strain and impingement, and chronic and constant headaches. This case proceeded to the Court Annexed Arbitration Program. The arbitrator found the State 100% liable.

Ra v. State of Hawaii (Settlement) $39,500.00

"Plaintiff alleges that the State van rear-ended their vehicle and he sustained serious injuries as a result of the collision and the State filed a counterclaim against the mother. The State of Hawaii driver claims the Claimant's vehicle came to an abrupt stop in the middle of flowing traffic while the light was green.

"The case settled for $40,000.00 with the State paying $39,500.00 and the Claimant's mother paying $500.00.

Bartoleme v. Tagalicod, et al. (Settlement) $500,000

"Gilbert Bartolome lost control of his vehicle as he was completing the curve. The vehicle crossed the center line and into the path of Mark Tam's vehicle. The Tam vehicle struck the front passenger side of the Bartoleme vehicle. The collision prevented the Bartolome vehicle from going off the steep drop off. Christopher died as a result of injuries he sustained in the accident. His parents are the Plaintiffs. There were three prior accidents at this location involving single vehicles traveling in the same direction as the Bartolome vehicle during rainy weather. All three vehicles went off the steep drop off.

Farris v. State of Hawaii (Settlement) $475,000.00

"Plaintiff alleges that the State Department of Transportation was negligent in the design, construction, and maintenance of this portion of the freeway, and that the negligence resulted in Thomas Farris' vehicle hydroplaning. As a result of the accident, Plaintiff sustained severe injuries. The medical care costs to date exceed $210,000. Plaintiff's economist and the State's economist agree that the life care plan is between $1,340,000 and $2,170,000.

Pinion v. State of Hawaii, at al. (Settlement) $475,000.00

"This case arose out of a motorcycle versus motor vehicle accident that occurred on Maui on the highway between mile post marker no. 1 and Firebreak Road. The State's accident reconstruction expert estimated that the motorcycle was traveling at 100 mph at the time of the, collision. Edmund Akiona died from the injuries he sustained in the collision and Peggy Pinion sustained serious injuries to her left leg and left eye and other minor injuries. Although it is clear that Akiona was primarily at fault, there have been other accidents at this location making it likely that the State would be held to be jointly and severally liable with Akiona.

D&J Ocean Farms, Inc. v. Pedro (Settlement) $25,000

"D&J Ocean Farms operated an aquaculture farm on Molokai. D&J alleged that the State of Hawaii negligently designed and maintained a culvert running under Kamehameha V Highway located north of its property. As a result, runoff from the upslope property, including mud and debris, was diverted onto its property during rainy weather causing flooding and damage to D&J's aquaculture ponds.

Miscellaneous Claims:

Kathy M. Gillett - $1,379.31

"Claimant requests tax refunds for amended tax returns for 2003 through 2005. The legislative claim was filed with the Attorney General within six years from the date on which the claim for payment matured, within the period specified by HRS §37-77.

June S. Hashizaki - $150.00

"Claimant requests reissuance of an outdated check that was misplaced. The check when found was outdated and could no longer be cashed. The legislative claim was filed with the Attorney General within six years from the date on which the claim for the payment matured, within the period specified by HRS §37-77.

DB Structured Products, Inc. - $499,999.91

"Claimant requests reissuance of an outdated check that was never received. The legislature claim was filed with the Attorney General within six years from the date on which the claim for payment matured, within the period specified by HRS §37-77."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2661, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT MAKING APPROPRIATIONS FOR CLAIMS AGAINST THE STATE, ITS OFFICERS, OR ITS EMPLOYEES," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 124-10 and S.B. No. 2461, SD 2, HD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2461, SD 2, HD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition to this measure. I rise again, in opposition because as you know I've voted a number of times against this particular bill. This is the bill that is the rental motor vehicle customer facility charge increase from $1 per day, to $4.50 a day effective September 1, 2010. That's about a 350% increase, Mr. Speaker. It also appropriates $72 million from the Rental Motor Vehicle Customer Facility Charge Special Fund to essentially build a tower in front of the United Airlines arrival area, across the street, and build it after the November 2011 APEC conference this year.

"The point is Mr. Speaker, this is a considerable increase and a hit to our tourism industry. Other destinations are being very competitive. This will not make us competitive, even though in the Finance Committee the proponents of the bill said that when these fees increase, business increases. And with the permission of the Chair of Finance we said, 'Could we have that data?' They said they had studies and Mr. Speaker, I'm still waiting for that, and unless the Chair of Finance has it, I don't think we ever got it. It was entirely counterintuitive to what generally is the case.

"Mr. Speaker, this $4.50 a day is only an opener because already through Hawaii Revised Statutes 251, there is a rental motor vehicle surcharge tax of $3 per day. So $3 plus $4.50, is $7.50 and then you add the GET tax on top of that. That gets pretty expensive. You haven't even gotten in your car yet. You're just starting out and you've got that high of a price already on your ticket. And if this doesn't make us less competitive, I don't know what will.

"Until I see the data, I remain unconvinced that the statistics can show that business will actually increase. I think we're 'cutting our nose to spite our face.' And Mr. Speaker, I oppose this piling on of taxes rather than delivering the goods at a fair price that it has been. And for these reasons this is job killer number 3, and it's not good for our economy. Thank you."

Representative Evans rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. I think the argument of the fee increase has some merit in the sense that normally when you travel to airports around the country and you have your rental car facility right next to the airport, normally the fees are more expensive than those that are way off property. And what they have found is that those that are way off property tend not to get as many renters as those that are actually on property. So I think the argument that with increased fees you'll probably get more business is a true argument.

"Because when people travel a long distance and they come out of the airport and they walk straight out and they see that the rental car facility is right there, available to them, it's a matter of convenience. They will go for the car. If they have to go a long way and wait for shuttles potentially coming, they may take a taxi. It's just a convenience thing.

"So I think this is really a good idea. I know personally when you walk out of our Honolulu Airport and you're looking for the rental car facilities with the signage, with the convenience, a lot of times it's so confusing. You can't really figure out where you're supposed to go, if there're rental cars. And I think this will be a huge improvement to our airport and be a job creation bill. Thank you."

Representative Souki rose in support of the measure, stating:

"Yes thank you very much, Mr. Speaker. This Facility Fund, it should be noted that it is a user fund. They're not attaching the Highway Fund to it, even though the car rentals contribute over $30 million a year to the Airport Fund. The $4.50 is needed to pay for the bond amortization for the total cost for putting up the centralized facility at the airport, and also provide some assistance to the Maui Airport for the overflow parking. It

will also purchase a piece of property on Kauai for their parking facility and to build a parking facility there. The total cost is going to come to about $500 million, and that includes both bonding and money that you get from the increase of the user fees.

"Now the Legislature will have an opportunity as the years go by, around 2014, 2015, if there is then surplus from this facility charge, then the Legislature can then, in its wisdom, lower the fee. But we need that fee now to pay for the bonding requirement and to satisfy the mortgage loan.

"Now it should be known that throughout other airport jurisdictions throughout the mainland, they all do the same thing, and they all need to have these user fees to pay for the facility rather than going through the general obligation bonds and having the state pay for it or the taxpayers pay for it. The users will pay for it and that seems to be reasonable. Thank you."

Representative Takai rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I've risen on this particular measure or issue in opposition on numerous occasions. Today I rise with reservations. Thank you. I've been looking at this particular measure and I got some additional information from CATRALA, the rental car companies, and I do believe that the previous speaker is correct. This is the right thing to do.

"Other jurisdictions are doing it. In fact if we don't do it like this, I've learned that the price to the renters might be as high as $5, maybe $6. So if we don't start it now at $4.50, it's going to be much more expensive. In addition, the other jurisdictions I've been told in some places charge as much as $8.

"Finally Mr. Speaker, our '9th island,' also known as Las Vegas, just created a consolidated rental car area. And for those of you who have visited McCarran Airport recently, it's pretty awesome and I think that we need to in Hawaii do the same thing. Thank you, Mr. Speaker."

Representative Finnegan rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I am voting no, but I won't say anything. Mr. Speaker, could you just note that in the Committee Report it shows me in the Committee and the vote is actually wrong. I missed that particular vote. I know you can't change the Committee Report, but I do want to note today that I was not present, and did not vote for it. Thank you."

Representative Ching rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise with reservations in support of S.B. 2461--Relating to Transportation. This bill amends the Hawaii Revised Statutes to raise the rental motor vehicle Customer Facility Charge (CFC) from $1/day to $4.50/day. The bill further seeks to appropriate funds out of the Rental Motor Vehicle Customer Facility Charge Special Fund for multiple purposes.

"While I, too, acknowledge the necessity of modernizing Hawaii's rental car facilities as essential to improving tourist numbers and overall satisfaction; as a result, any and all funds generated by the CFC increase must go directly to this purpose, and this purpose alone. However, I support this measure due to the fact the affected industry is one of the bill's main proponents.

"My other lingering reservation and concerns are the effect that this measure will have on tourism, our leading industry. Thank you."

Representative Awana rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I stand in strong support. If I can adopt the words from the speaker from Wailuku, as well as just make a few comments about the $4.50 a day as the other Representative from Pearl City had made mention. There are a lot larger fees in other areas which are also travel destinations like Hawaii. So I think the State of Hawaii being as competitive with creating the additional infrastructure that we need.

"In addition, at a time where we need a lot of jobs, this project will also provide many jobs, as well as an influx of funds into our economy. So with that I'd just like to stand in strong support. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2461, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO TRANSPORTATION," passed Final Reading by a vote of 43 ayes to 8 noes, with Representatives Berg, Brower, Finnegan, Hanohano, Marumoto, Pine, Thielen and Ward voting no.

Conf. Com. Rep. No. 126-10 and S.B. No. 2534, SD 2, HD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2534, SD 2, HD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Finnegan rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. This has to do with relating to bail. Mr. Speaker, this is the one that we wanted the ability to accept bail 24/7 and require law enforcement agencies that have custody to accept these bails. The problem that took place at the Public Safety Department, they basically said that it was going to be very costly for them. How are they going to make it work?

"So what happened in CD 1 is it changed it from, 'people who have custody of a person,' to 'people who have arrest powers,' need to be able to accept bail 24 hours, 7 days a week. Well that may have helped PSD but what it does now is it creates a whole other problem in another area. And this is where DHS, Department of Tax, DCCA, DOCARE and the AG's Office would have to have the ability to accept the bail 24/7 just by changing the language of, 'having custody' in this particular bill.

"Like I said, this causes a whole different problem. It will still cost money and be not a very pretty picture for all of those different agencies who have to be able to accept bond bail 24 hours, 7 days a week. So I'll be voting in opposition. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2534, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO BAIL," passed Final Reading by a vote of 49 ayes to 2 noes, with Representatives Finnegan and Marumoto voting no.

Conf. Com. Rep. No. 129-10 and S.B. No. 2115, SD 1, HD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2115, SD 1, HD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Finnegan rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. This one has to do with relating to pre-audits for proposed payments for the University of Hawaii and the Department of Education. And it actually saddens me that I'll be voting no on this measure because I feel that I can support the University's ability to have this pre-audit ability.

"The problem that I have is with the Department of Education, Mr. Speaker. I think before we start making these changes and including the Department of Education, we have to really fundamentally look at doing a comprehensive financial audit that the Minority has been asking for, for a very long time.

"Now that that, not even a bill, that resolution is being passed, I still think that we know that the resolution doesn't have the force of law. So the possibility of it not being done and not really taking a look at how we need to hold accountable the Department of Education and their spending, that we're going to go ahead and pass this ability to them.

"Like I said, I'm saddened that I won't be able to support this bill that includes the University of Hawaii, but I guess that's the consequences of having both of them in this bill. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2115, SD 1, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO PREAUDITS FOR PROPOSED PAYMENTS," passed Final Reading by a vote of 50 ayes to 1 no, with Representative Finnegan voting no.

Conf. Com. Rep. No. 130-10 and S.B. No. 2434, SD 1, HD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2434, SD 1, HD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Finnegan rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. This has to do with relating to salaries. Mr. Speaker, just really quickly. I wanted to make note that I think that this bill did turn to the direction to make it better. What this does is, it's more performance based regarding any increase in pay for not only the Superintendent, but other leadership within the Department of Education. So I just wanted to note that I do have reservations on it, but no longer am I a no vote. I think this is heading in a better direction. Thank you."

Representative Pine rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ching rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2434, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO SALARIES," passed Final Reading by a vote of 43 ayes to 8 noes, with Representatives Awana, Carroll, Manahan, Marumoto, McKelvey, Thielen, Wooley and Yamane voting no.

Conf. Com. Rep. No. 131-10 and S.B. No. 2885, SD 2, HD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2885, SD 2, HD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Marumoto rose to speak in support of the measure, stating:

"Mr. Speaker, I'm in favor of this measure that establishes Health Savings Accounts Assessment Task Force within the Department of Labor to evaluate the current state of health savings account options in Hawaii's health insurance market and explore ways to expand access to these accounts.

"Health savings accounts are a good idea because a high deductable policy can reduce premium costs and encourage a policy holder to use health care services more efficiently. There are numerous benefits, but I will simply request that this article from *Managing Your Money* be inserted in the Journal as my contribution. It's entitled: The Benefits of Health Savings Accounts, with your permission, Mr. Speaker. Thank you."

Representative Marumoto's written remarks are as follows:

"Mr. Speaker, I rise to speak with reservations to SB 2885 SD2 HD1 CD1. This bill establishes the Health Savings Accounts Assessment Task Force within the DLIR to evaluate the current state of health savings accounts options in Hawaii's health insurance market and explore ways to expand access to these accounts in Hawaii.

"Health savings accounts are a good idea because a high deductible policy can reduce premium costs and encourage the policyholder to use healthcare services more efficiently."

The benefits of Health Savings Accounts

E-mail|Link Posted by Cheryl Costa April 15, 2010 05:46 PM

In recent years, Health Savings Accounts, or HSAs, have become more and more popular. But what exactly are they and what are the benefits of having one?

HSAs are IRA-like accounts that are used in conjunction with high deductible health care plans. (A high deductible health care plan has a deductible of at least $1,150 for singles and $2,300 for families.) If you have a high deductible health plan, you are eligible to contribute to an HSA. The contribution limits are $3,050 for individuals, $6,150 for families and $7,150 for people who are 55 or older and signing up for a family plan. Money contributed to the account is tax deductible, earnings on the invested funds are tax deferred and withdrawals are tax-free if they are used to pay for qualified medical expenses.

Typically, someone would sign up for a high deductible health care plan and simultaneously make either a lump sum contribution to the HSA or sign up for monthly deposits. Money deposited into the HSA can be used to meet any medical deductibles and expenses you might have throughout the year.

With any luck, your medical expenses will be low and you won't need to spend all the money that accumulates in your HSA. Funds left in the HSA can stay there for years. In fact, many people establish HSAs with the intent to never use the funds in the account. In this situation, contributors plan to pay any and all medical expenses out of pocket. This allows them to accumulate substantial assets within the HSA. If money is left in the account for years or even decades, you could have a nice retirement nest-egg in place. And once you turn age 65, you can take withdrawals from the account without any penalty. (Ordinary income taxes would still be due but there would be no penalties.) If you use HSAs in this manner, it is like being able to make a double contribution to an IRA. One other point to note: money invested in HSAs is generally invested in low yielding money market accounts but there is nothing preventing you from investing your HSA funds in equities and really building up the account over time.

At 5:03 o'clock p.m. Representative Finnegan requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 5:04 o'clock p.m.

Representative Yamane rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm rising in support. I would like the words from the Representative of Kahala – Kaimuki. It's one of the few times I can insert her comment as my own. And brief comments in support.

"We did put in members from the Bank Association, as well as the Credit Union Association to look at this issue, as well as Health Information. Thank you."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. In strong support. And may I have the comments of the two previous speakers, the Chair of Health and the Representative from Kahala entered into the records as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Ching rose to speak in support of the measure, stating:

"Thank you, just in strong support of Conf. Com. No. 131 as well. This is something that I know has been in discussion for years, and we've been proponents of it here I know on this side of the aisle for many years. So I'd like to ask for the remarks of the Representative of Kahala to be entered as my own, and addition written comments."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in strong support of S.B. 2885. I believe that Health Savings Accounts (HSA) are a health plan option that may be attractive and beneficial to many individuals in Hawaii and thus would support the formation of a task force to explore the ways in which HSAs could be expanded as a health insurance option for the citizens of Hawaii.

"The rapidly rising cost of health care is crippling businesses, forcing layoffs and reductions in pay. It is important that businesses and healthcare consumers have access to all health plan options in order to bring down cost and increase quality of care. Allowing consumers the option to enroll in a Health Savings Account is one step that can be taken to bring down the cost of healthcare, encourage healthier lifestyles, allow for more patient and physician control of health care decisions and save money for employers and employees alike. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2885, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO HEALTH SAVINGS ACCOUNTS," passed Final Reading by a vote of 51 ayes.

At 5:09 o'clock p.m., the Chair noted that the following bills passed Final Reading:

S.B. No. 2661, SD 2, HD 2, CD 1
S.B. No. 2461, SD 2, HD 2, CD 1
S.B. No. 2534, SD 2, HD 1, CD 1
S.B. No. 2115, SD 1, HD 2, CD 1
S.B. No. 2434, SD 1, HD 1, CD 1
S.B. No. 2885, SD 2, HD 1, CD 1

At this time, the Chair stated:

"Members, please note on page 21, Conference Committee Report No. 139-10, HB No. 1948, HD 1, SD 1, CD 1, will be deferred one legislative day, which is tomorrow."

Conf. Com. Rep. No. 139-10 and H.B. No. 1948, HD 1, SD 1, CD 1:

By unanimous consent, action was deferred one legislative day.

Conf. Com. Rep. No. 133-10 and S.B. No. 2951, SD 2, HD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2951, SD 2, HD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Thielen rose to speak in opposition to the measure, stating:

"Thank you. I just wanted to be first out of this starting gate, Mr. Speaker. I'm rising to speak against Senate Bill 2951 and that's Conf. Com. Rep. No. 133. Mr. Speaker, I'm speaking against it because it places cattle over renewable energy projects. The two can coexist without providing more favorable treatment to the cattle ranchers than is provided to any other entities on leased State land. It lets cattle trump green energy.

"I just wanted to say a few things from the Department of Transportation. 'Under federal law,' the Department of Transportation stated, 'the owner of rural property rights, such as a lease, shall be reimbursed for all reasonable expenses the owner incurs including recording fees, transfer taxes, prorated share of any prepaid property taxes, and moving and reestablishment costs.'

"This bill creates a conflict with federal law. What it does is, it says the State says those cattle ranchers can recover more than they are allowed to under federal law. If the ranchers are not going out of business, that's the in lieu payments referred to, going out of business costs. And if the ranchers are not going out of business, this expense could not be paid. The Department of Transportation just said plainly, 'Under federal regulations we need to reimburse based upon receipts and justification.'

"In the Governor's Message on the same bill of last year which she vetoed, she said that it was objectionable, and it disproportionately and inappropriately compensates the lessees of public lands above other lessees of State lands.

"There's another problem with this bill that's going to impact renewable energy projects. The automatic extension circumvents the authority of the Board of Land and Natural Resources and hinders its ability to ensure that public lands are used for the highest and best public use. Now, your best public use today is a lot different than it was when those ranching leases were granted. Your best public use today, in many instances, is for renewable energy projects. To create jobs, green jobs in our economy, and get us off our unbelievable dependence on fossil fuel.

"So I go on with the Department of Land and Natural Resources where this would require the State to provide unprecedented additional levels of compensation in the form of hypothetical future income losses relating to breeding livestock under some circumstances. And the Department of Land and Natural Resources goes on, 'State law already provides clear safeguards for tenants and terms for leasing public lands. Chapter 171 HRS, ensures transparency and fairness in the disposition of State assets, and most importantly to guarantee that State land resources will be available when needed to meet the greater public safety and other public needs of all of Hawaii's residents.'

"'The Department points out that the existing tenants were aware of these provisions, willingly entered into leases with the State under these conditions, and received rent well below the market rate; in many cases for decades due to these provisions.'

"And I would note the many times that our Big Island Representative has stood up and said, did they read the lease? Did they agree to the terms? And he has stood up and said that numerous times. This is another instance where now, these lessees are coming in and saying they want more favorable terms, more favorable payment, than any other State lessee. And that their use takes precedent over the renewable energy projects that we need to implement to move our State forward to energy independence.

"The DLNR goes on, 'It would be in direct conflict with basic contract law and the general State welfare to now pass a measure that requires the State to provide extraordinary and unprecedented compensation to such tenants.'"

Representative Ching rose to yield her time, and the Chair "so ordered."

Representative Thielen continued, stating:

"Thank you, Representative Ching. Thank you. 'These lessees have reaped the years of benefit from below market rates. Indeed to take such action at a time of great economic downturn and when the Legislature is looking to departments to maximize State revenue, is downright puzzling.'

"I will read one more section from the DLNR testimony, 'While providing limited preferential terms for the disposition of public lands for certain types of activities such as agriculture, renewable energy, government projects, industrial parks and utilities, is well established in statute based on policy considerations. The State's right and responsibility to withdraw portions or all of the leased lands for a greater public purpose has never, and should not ever be compromised.'

"That's what this bill does. It compromises that Mr. Speaker, and I think the bill is unwise, unprecedented, and I vote no."

Representative Har rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support of Conference Committee Report 133-10, Senate Bill 2951, Senate Draft 2, House Draft 2, Conference Draft 1. Mr. Speaker, the purpose of this measure is to provide for fair compensation when leased public land for agricultural or pastoral uses is withdrawn, condemned, or taken for public purpose.

"Mr. Speaker, this bill was introduced specifically to address an issue on the Big Island where cattle ranchers suffered serious financial losses as a result of the Saddle Road Widening Project. The Department of Land and Natural Resources established a conservation easement on leased lands, effectively preventing the ranchers from being able to use the leased land for their cattle herds, which required our local ranchers to reduce their herds at a significant loss. This jeopardized the lessees' entire business model because the ranchers were unable to mitigate long term fixed costs associated with operating a ranch in the way they had anticipated when the lease was negotiated.

"Current law provides for rent reductions if the land withdrawn causes the land to become unusable for the specific use or uses for which it was originally leased. However, the law provides no other method of compensation. In addition, ranchers are required to maintain insurance and pay taxes for land they cannot use for the specific purpose for which it was originally leased.

"The current system leads to uncertainty and risk for our agricultural and ranching businesses. When the State withdraws land from these leases, the lessees can face serious financial consequences, and these uncompensated losses can drive our agricultural and ranching operations out of business.

"No business that invests significant amounts of capital and plans its business to operate at a certain size should be subject to a major change in the size or term of their lease part way through the lease agreement. By providing fair compensation for improvements or loss revenue when lands are withdrawn from a lease, this bill will help our agricultural and ranching businesses recoup their out-of-pocket or expectation losses incurred when lands from leases are withdrawn.

"As the Hawaii Cattleman's Council testified before the Committee on Water, Land, and Ocean Resources, 'A rancher that loses grazing land can't just load up his cattle and head to the nearest livestock auction and get a high breeding value for his cattle. At best, the rancher can only get a much lower slaughter value and that is only if a local slaughter house can fit them into their schedule on a timely basis.'

"Mr. Speaker, another reason I support this measure is because many lenders are reluctant to provide financing to our ranchers and farmers since land from the pastoral leases can be so easily withdrawn with no compensation. This clearly creates risk for these lenders. Therefore, if we provide compensation for out of pocket and expectation losses, lenders will hopefully have further insurances that their loans are secure, incentivizing lenders to provide loans to our local ranching and farming businesses.

"While some might argue that this bill pits the interest of agricultural against those of renewable energy facilities, these are not opposing priorities. This bill only provides lessees with fair and reasonable compensation for improvements and lost revenue in the case of lands being withdrawn for a long term lease, and does not prevent the usage of lands for renewable energy facilities even if those lands are currently being used for agricultural or ranching purposes. For these reasons Mr. Speaker, I stand in support. Thank you."

Representative Thielen rose to respond, stating:

"Thank you. I'm still opposed and let me just go on and respond to a few of the issues raised by the prior speaker. Mr. Speaker, she's talking about the instance where I believe it was the Palila Critical Habitat Mitigation Lands Easement that was placed on certain pasture leases on Maunakea. DLNR staff researched the real property taxes lessees pay on the easement areas and determined that the amounts were negligible.

"The County Rural Property Tax Division classifies the easement areas as waste with the result that the total annual real property tax on 2,226 acres easement area under one lease was, guess what: 84 cents a year. That's all the rancher had to pay. If an easement allows a lessee to continue beneficial use of easement area, then it is not unreasonable to require the lessee to bear nominal costs of insurance for that property that the lessee is continuing to use.

"About the breeding stock, that the animals can't be relocated or marketed. The lessee would normally have one or two years more notice of an impending taking of leased land. Accordingly, the Department believes that a pasture lessee would have ample time in that one or two years to plan for the relocation or sale of livestock, and that the proposed amendments in this bill would only encourage damage claims against the State. We earlier passed a bill that we had to pay damage claims against the State. This bill passes, and you're going to see those claims galloping to the Legislature for the next Legislature to have to act upon. Thank you."

Representative Ito rose to speak in support of the measure, stating:

"Mr. Speaker, in support. Mr. Speaker, in Conference we used Senate Bill 2951, SD 2, HD 2. But in Conference Committee, we went back to Senate 2951, SD 2. So I think the previous speaker is talking about the HD 2 and not the SD 2. Thank you."

Representative C. Lee rose to speak in support of the measure with reservations, stating:

"Thank you Mr. Speaker, I still have concerns with a different portion of this bill, but I'd just like vote with reservations. Thank you."

Representative Thielen rose and stated:

"Just a point of clarification. I'm talking about the Conference Draft."

Representative Berg rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2951, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO AGRICULTURE," passed Final Reading by a vote of 49 ayes to 1 no, with Representative Thielen voting no, and with Representative Ching being excused.

Conf. Com. Rep. No. 136-10 and H.B. No. 2775, HD 2, SD 2, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.B. No. 2775, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO AGRICULTURE," passed Final Reading by a vote of 50 ayes, with Representative Ching being excused.

Conf. Com. Rep. No. 141-10 and H.B. No. 2583, SD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 2583, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Finnegan rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, just with reservations. I believe that this bill could have some constitutional problems. Thank you."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in strong support of the measure. The purpose of this bill is to ensure the safety of ocean recreation by banning shark feeding in State marine waters. Last year the issue of shark feeding came up, very up-close and personal in my district. Over 300 angry, frustrated, they didn't have pitchforks or torches, but they were really upset about what was going on in Maunalua Bay.

"A very zealous young man started chumming the waters because he was planning to do a shark tour business right in Maunalua Bay where some of you may swim, kayak, fish, ski, etc. Because shark feeding requires chumming or throwing blood, or bait into the water to attract sharks, the practice of doing this in our State waters where ocean activities perhaps is the number one form of recreation. It represents a severe hazard to all in the water. Surfers, swimmers, paddlers, skiers and the like.

"The risk that shark feeding presents is not a temporary one either, Mr. Speaker. Repetitive shark feeding is believed to result in changes in shark behavior and oceanographic deployment. In short, shark feeding causes them to take over areas that ordinarily they would not be in. I know Mr. Speaker, there's a lot of claims and counterclaims about the Pavlovian response is true. The other side says it is not true. Here's the data. The data is very sketchy. The research has been far and in between, but basically it's the way fishermen determine where they fish. You fish where the fish are. And I think that's the conclusion that many people who think that we should be very careful about public safety have rested their case.

"The precedent that this type of legislation is legal or constitutional is that there have been bans already on the feeding of wild animals. Federal law for example Mr. Speaker, governs the areas of oceans from three miles out and beyond, to 200 miles. It forbids the feeding of sharks already. Florida for example also bans the feeding of sharks in their state waters as in Alaska, Arizona and California, where laws are in place to prohibit the feeding of animals because of the danger of changing their feeding patterns.

"Mr. Speaker, this is an outstanding opportunity to ensure the safety of our people and the confidence of our visitors. I encourage my colleagues to support this measure because we already have feeding laws, and the major problem is that these laws are not being enforced. Essentially because the present fines prior to this bill were so small, they were not worth complying with or enforcing. In the discussions with my community through surveys and town hall meetings, it seemed that the major concern was a lack of compliance and enforcement.

"Banning shark tours altogether however, would have been very rash and I'm very pleased that this bill is very reasonable, and it tells our tour operators that you are welcome to operate your business if you are following the rules. Bottom line Mr. Speaker, no chumming or feeding of the sharks.

"And I know because of your district this is very upfront and personal to you. Because if they do chum or feed the sharks, now there are fines that begin at $5,000, up to $15,000, and even more seriously the impoundment of their vessel.

"Bottom line Mr. Speaker, now it's all about enforcement. No law, no penalty, no threat will ever be worthwhile no matter what we pass in this Body unless there are enforcements. Lastly Mr. Speaker, may I add comments into the Journal. Thank you."

Representative Ward's written remarks are as follows:

"Mr. Speaker, I am presenting written comments in strong support of HB 2583. The purpose of this bill is to ensure the safety of ocean recreation by banning shark feeding in state marine waters.

"Last year, the issue of shark feeding as it pertains to public safety was one of the biggest issues to face my district. In April of 2009, over three hundred angry East Honolulu residents met in Hawaii Kai at a town hall meeting I hosted to discuss the proposed feeding of sharks in Maunalua Bay. Although we managed to stop the tour from opening in Hawaii Kai, the situation opened our eyes to the dangers presented by shark tour operators who break the law by feeding sharks.

"During the interim between the 2009 and 2010 Sessions, I went door-to-door, passed out surveys and held an additional town hall meeting to determine where my community stood with regards to legislation that would ban shark tours. The responses were very mixed, some members wanted to ban shark tours because of their feeding practices and others balked at the idea of shutting down a business. As a compromise, I presented the community with legislation that would tighten existing feeding laws by imposing increased penalties including a $140,000 fine and the forfeiture of equipment including the tour operator's vessel. At the August town hall meeting where I proposed this legislation, most of the community confirmed that the real problem was conformity with the shark feeding laws rather than the tours themselves. So, while others pursued shutting down the tours entirely, I pushed to stop their feeding practices because I felt it was more in keeping with the will of my community.

"Mr. Speaker, it gives me great pleasure to have seen this bill come before us because it fits so closely with what many members of my community called for. That is, increased penalties for illegal shark feeding practices, a greater incentive for DLNR to enforce the rules and allowing tour operators to continue entertaining tourists and bringing valuable dollars into our State if they are willing to follow the law.

"Mr. Speaker, I also want to commend all the members of my district who worked to get this legislation passed. I recognize that it is not everything that everyone wanted, but as I said, I think it represents a compromise that gets us closer to a safer Hawaii."

Representative Berg rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support of this. In addition to that I wish to thank both Chambers for putting this legislation through because as the Representative from Hawaii Kai just shared, we share the same district, and many of us even though we represent inland districts, all of us are subject to the dangers of the water. So thank you, very much."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2583, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO IMPOUNDED VESSELS," passed Final Reading by a vote of 50 ayes, with Representative Ching being excused.

Conf. Com. Rep. No. 144-10 and H.B. No. 2133, HD 1, SD 1, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.B. No. 2133, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO PROCUREMENT," passed Final Reading by a vote of 50 ayes, with Representative Ching being excused.

Conf. Com. Rep. No. 148-10 and H.B. No. 2542, HD 1, SD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 2542, HD 1, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Finnegan rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2542, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO NON-GENERAL FUNDS," passed Final Reading by a vote of 46 ayes to 4 noes, with Representatives Finnegan, Marumoto, Pine and Thielen voting no, and with Representative Ching being excused.

At 5:31 o'clock p.m., the Chair noted that the following bills passed Final Reading:

S.B. No. 2951, SD 2, HD 2, CD 1
H.B. No. 2775, HD 2, SD 2, CD 1
H.B. No. 2583, SD 2, CD 1
H.B. No. 2133, HD 1, SD 1, CD 1
H.B. No. 2542, HD 1, SD 2, CD 1

Conf. Com. Rep. No. 149-10 and H.B. No. 2318, HD 2, SD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 2318, HD 2, SD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Cabanilla rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Cabanilla's written remarks are as follows:

"Mr. Speaker, I rise in support of HB 2318, HD2, SD1, CD1. On any given day, you can move around our communities and a common sight you will see is homeless or houseless individuals or families. If you open the newspaper, the favorite topic of the day is the misery of the homeless or how these homeless individuals skirt State law or county ordinances.

"Mr. Speaker, homelessness is a huge problem, not just on Oahu, but in our entire State.

"HB 2318 is the adoption of the Housing First model. This is a model with proven results in eight different cities across the mainland. This measure will address those 20% of the homeless population who are least likely to attain sustainability, or even admitted into homeless shelters or public housing. This program specifically targets those who are mentally ill or drug addicted; the subset of the homeless population who are chronically homeless because of their mental illness or drug addiction. It is this segment that can be dangerous to society. By stabilizing the lives of these chronically homeless individuals, we are therefore promoting safety for all of us.

"This homeless program helps us as members of the general population by keeping our communities clean, safe, and most importantly, removes the blight that may be brought upon our communities by these types of individuals.

"We need to help this population Mr. Speaker, because by helping them, we are helping ourselves."

Representative Pine rose to disclose a potential conflict of interest, stating:

"I'm sorry, Mr. Speaker. I just wanted to declare a potential conflict. I occasionally work for a homeless shelter," and the Chair ruled, "no conflict."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2318, HD 2, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE HOMELESS," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 150-10 and H.B. No. 2000, HD 2, SD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 2000, HD 2, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Karamatsu rose to speak in support of the measure, stating:

"In support. I would like to insert written comments and I just wanted to thank the Finance Chair for working with me on this budget, as well as addressing appropriations for the specialty courts which will save the State money in the long run and also turn these individuals' lives around and can make a comeback in their life. Thank you."

Representative Karamatsu's written remarks are as follows:

"Mr. Speaker, I am in favor of House Bill 2000 House Draft 2, Senate Draft 2, Conference Draft 1, which provides the Judiciary with supplemental appropriations and authorizations for its operations and capital improvements for fiscal biennium 2009-2011 by amending the Judiciary Appropriations Act of 2009.

"Dramatic reductions of projected State revenue have resulted in a $1,200,000,000 budget gap through the end of the current fiscal biennium. In response, the Governor restricted fiscal year 2009-2010 Executive Branch expenditures by an amount equal to 13.85 per cent of payroll and proceeded to reduce the supplemental budget request of Executive Branch agencies for fiscal year 2010-2011 by a similar percentage. This amount is based on the projected savings that three furlough days per month would accrue. Though the Judiciary officially requested that its general fund budget for fiscal year 2010-2011 be maintained at its current appropriation level, a similar reduction to the Judiciary's budget would be approximately $12,000,000.

"To reflect the Judiciary's two-day per month furlough savings in a manner comparable to that of other State agencies, the Judiciary budget was reduced by a total of $8,000,000 in general funds as calculated by the Department of Budget and Finance. An additional lump sum reduction of $1,500,000 was imposed to allow the Judiciary to allocate this reduction in accordance with its priorities. The total reduction, which is significantly smaller than that imposed on most other State agencies, affirms that, on a statewide level, the Legislature has prioritized the core responsibilities of the Judiciary.

"Additionally, the Legislature was persuaded by the case made by Judiciary officials and others for specialty courts; that the cost of incarcerating individuals far exceeds that of enrolling them in these programs and that recidivism is markedly decreased for those participating in these programs. Information provided indicates that the annual cost for 387 adult inmates to participate in the Adult Drug Court is $3,100,000, while the annual cost to incarcerate these same inmates is in excess of $19,600,000 ($139 per day, per inmate or $50,735 per year, per inmate).

"Similarly, the annual cost for 68 youth offenders to participate in Juvenile Drug Courts is approximately $1,000,000, while the annual cost to detain these same juveniles is approximately $6,590,000 ($278 per day, per offender, or $101,470 per year, per offender).

"Significant savings are also realized under the Hawaii's Opportunity Probation with Enforcement ("HOPE") program, which costs approximately $1.82 per day, per probationer, versus $139 per day per inmate.

"In acknowledgement of the arguments made and the information provided by the Judiciary, $1,300,000 has been provided for the Judiciary's specialty courts. The Legislature will review future data affirming the cost effectiveness of these programs.

"In total, this measure appropriates $130,730,624 in general funds and $141,747,129 in all means of financing for the fiscal year 2010-2011 operating budget of the Judiciary.

"In 2006, the Legislature appropriated funds for master planning for capital improvements and other physical facilities-related projects for the Judiciary. This plan is anticipated to be completed during the summer of 2010. The completion of the master plan will assist the Judiciary, as well as the Legislature, in better understanding the future needs for new facilities and for repair and maintenance projects within the Judiciary's purview. Additionally, this information will prove valuable in assessing short- and long-range funding needs, as well as the ability of the Judiciary to execute and complete the work determined necessary under this plan.

"Consequently, given the strained economic climate and the fact that it would be prudent to review the master plan before proceeding with further funding as requested, the Legislature has provided no additional capital improvements program funding to the Judiciary for fiscal year 2011.

"Given the fiscal constraints the State of Hawaii is facing, I am pleased with the supplemental appropriations for the Judiciary, which supports necessary services for the people of Hawaii. Thank you."

Representative M. Oshiro rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Oshiro's written remarks are as follows:

"Mr. Speaker, I rise to speak in support of this measure. This bill is the Judiciary's supplemental budget, and the most important feature of this budget is the appropriation of $1,300,000 for the specialty courts and essential ancillary services. These courts have a proven track record to reduce recidivism which in turn reduces crime and ultimately saves taxpayers money. In particular, the Hawaii's Opportunity Probation with Enforcement (HOPE) program is the first of its kind in the nation and is being used as the model for other similar programs across the country.

HOPE has received national attention in such publications as *The New York Times* and *Governing* magazine. These results have been verified by Dr. Angela Hawken, a professor of economics and policy analysis from Pepperdine University. She should be publishing her final results soon, but the preliminary information is still very compelling.

"Some of the statistics for the HOPE program are quite startling:

- Less than fifteen percent of participants in treatment had a negative perception of the HOPE program;
- The percentage of probationers rearrested in the HOPE program is 21% versus 47% in the control group;
- Positive urine test results are 13% in the HOPE program versus 46% in the control group; and perhaps most dramatically,
- It costs the State $139 per day to incarcerate an individual. The HOPE program costs $1.82 per day, a tremendous cost avoidance.

"Mr. Speaker, I want to take a few moments to express my sincere gratitude and appreciation for the Chair of the House Judiciary Committee, Representative Jon Riki Karamatsu. From his days as a legislative assistant for Representative K. Mark Takai and Senator Carol Fukunaga in the late '90s and early 2000s, Representative Karamatsu became a Member of the House of Representatives in 2002. Over the years, I have watched him grow both personally and professionally and develop into a thoughtful, determined, and compassionate leader.

"As the Chair of the Judiciary Committee, he has conducted public hearings and passed various pieces of noteworthy legislation. A brief overview of some of the important legislation approved during his tenure as the Chairman of the House Judiciary Committee is listed as follows:

- Strengthened the existing Penal Code laws to make the use of a simulated firearm during a robbery in the first degree and while committing an act of terroristic threatening in the first degree.
- Extended the same rights, benefits, protections, and responsibilities of spouses in a marriage to partners in a civil union.
- Extended the "sunset" date of Act 192, Session Laws of Hawaii 2008, which makes habitual solicitation of prostitution a criminal offense, to June 30, 2012.
- Updated, organized, and clarified current campaign financing laws.
- Prohibited the use of leaf blowers on or near residential zones, except within allowed time periods.
- Established class A and B felony sexual human trafficking offenses. This includes sexual human trafficking offenses in the official proceedings or investigations that are to be given greatest priority for purposes of witness protection programs.
- Established the crime of intentionally or knowingly taking of a Hawaiian monk seal as a class C felony.
- In medical tort litigation, authorized the court to impose sanctions on a non-prevailing party whose rejection of the Medical Claim Conciliation Panel's decision resulted in the subsequent litigation.
- Addressed the illegal importation, sale, and transfer of fireworks by including samples in the definition of "fireworks" and establishing nuisance abatement and forfeiture actions to discourage those illegal activities.
- Established an illegal fireworks task force to stop the importation of illegal fireworks and explosives. This measure would also allow counties to enact ordinances regulating fireworks that are more stringent than State law regulating fireworks.
- Mandates were created to require a person convicted of criminal property damage involving graffiti to remove the graffiti within 30 days of sentencing and to perform community service removing graffiti from within 100 yards of the site of the offense.
- Established rules to determine which state has jurisdiction in adult guardianship and conservatorship cases where person has contacts with more than one state.
- Established a comprehensive child abduction prevention law.
- Strengthened Hawaii's animal cruelty laws by passing legislation that created an offense of confinement of a dog by tethering under prescribed circumstances with certain exceptions; and legislation that would require veterinary care for pets and require certain standards for pets kept in kennels or cages.

"And finally, Representative Karamatsu was also instrumental in the establishment of Peace Day ceremonies here in Hawaii, held every year on September 21st. Peace Day was implemented to promote peace programs, improve international relations, and increase educational awareness of peace.

"Through it all, Representative Karamatsu has displayed genuine concern for all points of view and the fortitude required to be a Chair of a very contentious Subject Matter Committee. He leaves this Body with a substantial list of accomplishments and his time in service will benefit the State of Hawaii for years to come. I wish Representative Karamatsu the best in his future endeavors and a fond aloha."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2000, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE JUDICIARY," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 152-10 and H.B. No. 2698, HD 2, SD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 2698, HD 2, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Finnegan rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations and short comments. Thank you, Mr. Speaker. This is the broadband bill. I understand that the issue of broadband and a bill moving forward has been kind of controversial. But I did want to say although I do support this bill, it doesn't take care of the major obstacles in which I would hope that a broadband bill would take care of. But in the meanwhile this bill is okay. Thank you."

Representative Yamashita rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. In support. Very quickly, this bill is a good example of how sometimes bills evolve. Four years ago, the Chair of Finance came up with a bill to address internet service throughout the whole State. It evolved into the broadband bill, and then it evolved into the Broadband Task Force, and then evolved into a bill that was 60-something pages thick. Through discussions with the community and what this bill would actually do, it kind of narrowed into something that we have before us today. I think it is a good compromise going forward, and I would like to put additional comments into the Journal. Thank you."

Representative Yamashita's written remarks are as follows:

"Mr. Speaker, I rise in strong support of House Bill 2698. In 2007, the Legislature established a Hawaii Broadband Task Force. The task force developed a long-term, statewide strategy to offer affordable internet access. They also identified opportunities for increased broadband deployment and very high speed broadband services. HB 2698 implements these recommendations.

"The purpose of HB 2698 is to ensure access to broadband communications for all, and to increase availability of advanced broadband services at an affordable cost. It also increases access to public rights-of-ways for broadband service providers and brings the counties together to develop a streamlined permit approval process to reduce the cost of infrastructure.

"This measure allows the Legislature to establish a Broadband Advisory Council. This Advisory Council will be responsible to monitor broadband development efforts, activities at the federal level and offer regulatory and policy advice to the Department. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2698, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO TECHNOLOGY," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 153-10 and S.B. No. 2849, SD 2, HD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2849, SD 2, HD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Finnegan rose, stating:

"Thank you, Mr. Speaker. This is a bill having to do with the Hawaii Employer Union Health Benefits Trust Fund, a very important bill. And as you know Mr. Speaker, the Governor had sent down a letter requesting that we look into this one million dollars lost per month on the EUTF.

"Mr. Speaker, what this bill does, half of it is really good. It talks about the voting and maybe a way that we can get out of this stalemate that we're at. But the other half of the bill actually bypasses the allotment process where you would actually have the Governor be in that process. It goes around that.

"And number one, I feel that this does set a precedent that we should not set. And number two, I believe that by doing that it is unconstitutional and that we will have some problems with this bill. Thank you."

Representative Thielen rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I'm with reservations for the same reason. I believe that the portion that mandates that the Governor and Director of Finance release the money not being subjected to the allotment process would be unconstitutional. So we would be passing a bill that would not be upheld. Thank you."

Representative M. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker. I rise in support of this bill. Just a couple of points that need to be made. Regarding the section of the bill that deals with Chapter 37, this requires all the appropriations made by the Legislature to the EUTF which is transferred to the Budget and Finance Department shall be transferred directly to the Employee Union Trust Fund, and not be subject to the allotment procedures under Chapter 37 HRS, or subject to the powers granted to the Governor and the Director of Finance under Section 37-32, to 37-41, Hawaii Revised Statute.

"A second point needs to be made that it changes the voting requirements to allow the public employer, and employee beneficiary trustees to vote individually rather than a block as under the current law.

"And number three, it provides that all contributions and premiums to the EUTF be for the exclusive use and benefit of the EUTF employee beneficiaries and dependent beneficiaries, and not be subject to appropriations or transfers for any other purpose.

"The reason why this provision is so important is that several years ago when the Legislature made its appropriation to the EUTF through Budget and Finance, those moneys were taken out of Budget and Finance and used to address some of the homeless concerns on the Leeward Coast without the legislative approval or agreement with that expenditure. It was about $40 million. Going back to that point in time, there may have been concerns about what that money was not used to address the current reserves requirements in the account. So that's what that provision is there for, to ensure that the moneys that we appropriate go towards its intended purpose, strictly for the EUTF Fund, both for the employer and for the employees. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2849, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII EMPLOYER-UNION HEALTH BENEFITS TRUST FUND," passed Final Reading by a vote of 51 ayes.

At 5:39 o'clock p.m., the Chair noted that the following bills passed Final Reading:

H.B. No. 2318, HD 2, SD 1, CD 1
H.B. No. 2000, HD 2, SD 2, CD 1
H.B. No. 2698, HD 2, SD 2, CD 1
S.B. No. 2849, SD 2, HD 1, CD 1

Representative B. Oshiro moved to agree to the amendments made by the Senate to the following House Bills, seconded by Representative Evans and carried:

H.B. No. 840, HD 1, (SD 1)
H.B. No. 2003, HD 3, (SD 2)
H.B. No. 2083, HD 1, (SD 2)
H.B. No. 2721, HD 1, (SD 1)
H.B. No. 2129, HD 1, (SD 1)
H.B. No. 2708, HD 1, (SD 1)

The Chair addressed the Clerk who announced that the record of votes for said measures had been received which indicated that a quorum was present at decision making, and that the requisite number of House Conferees appointed had cast affirmative votes to report said measures to the Floor.

H.B. No. 840, HD 1, SD 1:

In accordance with the Conference Committee Procedures agreed upon by the House of Representatives and the Senate, the managers on the part of the House recommended that the House agree to the amendments proposed by the Senate to H.B. No. 840, HD 1, on the following showing of Ayes and Noes:

Ayes, 3 (Karamatsu, B. Oshiro and Thielen). Noes, none. Excused, none.

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, H.B. No. 840, HD 1, SD 1, entitled: "A BILL FOR AN ACT RELATING TO CHARGING BY WRITTEN INFORMATION," passed Final Reading by a vote of 50 ayes to 1 no, with Representative Rhoads voting no.

H.B. No. 2003, HD 3, SD 2:

In accordance with the Conference Committee Procedures agreed upon by the House of Representatives and the Senate, the managers on the part of the House recommended that the House agree to the amendments proposed by the Senate to H.B. No. 2003, HD 3, on the following showing of Ayes and Noes:

Ayes, 4 (Karamatsu, M. Oshiro, Luke, B and Oshiro). Noes, none. Excused, 1 (Marumoto).

Representative B. Oshiro moved that H.B. No. 2003, HD 3, SD 2, pass Final Reading, seconded by Representative Evans.

Representative Belatti rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I rise in support with some slight reservations on House Bill 2003, Senate Draft 2. Thank you Mr. Speaker, I stand in support of this measure, particularly because it is the culmination of the work of the Campaign Spending Commission's Blue Ribbon Committee that looked at recodifying, updating, clarifying and improving the overall campaign spending law. But as we well know, there is a shift going on right now in the way that money is being spent in elections both at the federal and state levels. So as we all know also very well, campaign finance laws are going to be continued works in progress.

"There are a few areas that this bill does not address that did not fall into the arena of the recodifciation process, but I would hope that future legislatures will take these up. Things like looking at how corporate treasuries are able to have the same participation rights in donating as natural persons under the new Citizens United Case Law that's coming down from the US Supreme Court.

"This bill also has areas of not providing enough transparency for independent expenditures of corporations that should also be revisited at some point in the future.

"And finally, this bill does weaken some existing laws by increasing the cap on contributions from the mainland, as well as allowing additional funds to be used for the seating of the community by candidates.

"So Mr. Speaker, because of these areas that are fruitful for future improvement, I will be voting with reservations on this bill. Thank you."

Representative Karamatsu rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I would like to insert written comments. I also would like to insert three letters into the Journal. The first letter stating that we accept the Senate Draft 1, from the Campaign Spending Commission.

"Upon that letter our office found mistakes in references, and then a second letter saying that they would not enforce those mistakes.

"And a third letter, a letter from myself accepting their offer to not enforce the misstated references, and in my consideration reliance, I passed SD 1. Thank you."

Representative Karamatsu's written remarks are as follows:

"I rise in support. The campaign finance laws, codified in Chapter 11, subpart B of part XII, Hawaii Revised Statutes (campaign finance laws), are unorganized, difficult to read, and inconsistent in some areas, due to the numerous amendments that have been made to these laws over the past thirty-seven years. To address these concerns, the Campaign Spending Commission's Blue Ribbon Recodification Committee (Committee) reorganized the existing campaign finance provisions in the campaign finance laws, by dividing long sections into shorter sections with clear titles for quick reference and group laws on one subject together, among other things. The product of the Committee's work was introduced during the 2009 Regular Legislative Session. That measure, House Bill 128, Conference Draft 2 (2009), was passed by the 2009 Legislature, but was subsequently vetoed by the Governor.

"The Commission then met with the Governor's staff to discuss the reasons for the veto. The Commission submitted testimony earlier to your House and Senate Judiciary Committees, stating that two concerns remained unaddressed after these discussions: the number of nominees from which to select commissioners, and the exception of competitively bid contracts from the campaign contribution prohibition.

"This measure, and its companion, Senate Bill 2251, were introduced at the Commission's request during the 2010 Regular Legislative Session. Both of these companion measures addressed the Governor's concerns, but also made additional changes and amendments, some of which were substantive rather than simply recodifying and reorganizing the existing campaign finance laws. During hearings before the House of Representatives, other changes and amendments were made to House Bill 2003; some of these amendments were also substantive, although favorable for the campaign finance laws.

"The Senate Judiciary and Government Operations Committee amended Senate Bill 2251 by replacing its contents with the contents of House Bill 128, Conference Draft 2 (2009), making changes to address the Governor's remaining concerns with House Bill 128, Conference Draft 2 (2009), and making technical, nonsubstantive changes. Your House Judiciary Committee did not move Senate Bill 2251, Senate Draft 1 but instead agreed that the Senate Judiciary and Government Operations Committee would move House Bill 2003, House Draft 3.

"Accordingly, the Senate Judiciary and Government Operations Committee amended House Bill 2003 by replacing its contents, except as set forth below, with the contents of Senate Bill 2251, S.D. 1. The exceptions are as follows:

1) Inclusion of a new section to provide for transparency and to indicate that the campaign finance laws should be construed to support transparency;

(2) Amendments to the definitions of "contribution" and "other receipts" to exclude loans, so that reporting of loans to candidate committees will be reported as loans rather than as contributions or receipts, lessening confusion between these categories;

(3) An amendment to the definition of "election period" to clarify the election period for a special election;

(4) Reinsertion of language from existing campaign finance laws regarding the obligation of the Judicial Council to meet and expeditiously select additional persons for the list of nominees whenever the number of the eligible nominees falls below five, as requested by the Chief Justice;

(5) Clarification regarding the authority of the Commission to dismiss persons employed by or contracted with the Commission, to emphasize that such authority is discretionary; and

(6) Insertion of a provision from H.B. No. 2003, H.D. 3, regarding ballot issue committees.

"Upon receipt of House Bill 2003, House Draft 3, Senate Draft 1 from the Senate, your House Judiciary Committee found technical errors in several sections of the bill that wrongly referenced other sections of the bill. Our House Majority Staff Office attorneys differed with our House Judiciary Committee attorneys when they explained that the errors were substantive rather than technical.

"Your House Judiciary Committee received a letter from the Campaign Spending Commission asking it to pass House Bill 2003, House Draft 3, Senate Draft 1. We informed the Commission of the errors in the measure. The Commission followed up with a letter stating that they would not enforce the wrong references, thus, current law for those sections would not change and would be enforced as it were prior to these changes. Your House Judiciary Committee replied with a letter accepting the Commission's offer to not enforce the several wrong references, and in reliance and consideration of that agreement, your House Judiciary Committee agreed to House Bill 2003, House Draft 3, Senate Draft 1.

"I want to thank the Campaign Spending Commission, Senate Judiciary and Government Operations Committee, as well as my staff on the House Judiciary Committee for all their hard work. Thank you."

RE: HB 2003, HD3, SD2 (2010)

Dear Chair Karamatsu and Chair Oshiro:

Our office appreciates your assistance and leadership on campaign spending matters in prior years and during the 2010 legislative session.

We have reviewed the current version of the bill and respectfully request that the House Conferees agree to changes made by the Senate to HB 2003, HD3, SD2.

As you know, it is difficult working with a lengthy bill. If any future changes are needed, it will be much easier to deal with on a section by section basis, rather than within the context of a 107 page bill. The Blue Ribbon Recodification Committee, the Legislature and especially the Committee Chairs, and us have worked long and hard on this bill that will simplify and clarify the law for all.

Please call us at 586-0285 if you or your staff need additional information or have questions.

Sincerely,

and contributions received from the candidate's immediate family does not exceed $50,000 during an election period.

While the appropriate reference in subsection (b) should be to §11-JJ, rather than §11-HH, we believe that there is no immediate impact from passing this section as is and fixing it in the 2011 Legislature.

If an immediate family member is an officer, employee, or shareholder of a government contractor, they are permitted under current law to make contributions. If the immediate family member is a sole proprietor government contractor, the immediate family member is permitted under current law to make contributions.

Moreover, the specific contribution limits in §11-LL (i.e., $50,000 cap in the aggregate) would be applicable to loans and contributions from a member or all members of the immediate family, rather than the general contribution limits of $2,000, $4,000, and $6,000 in §11-JJ.

Please call us at 586-0285 if you or your staff need additional information or have questions.

(c) For purposes of this section, "completion of the contract" means that the parties to the government contract have either terminated the contract prior to completion of performance or fully performed the duties and obligations under the contract, no disputes relating to the performance and payment remain under the contract, and all disputed claims have been adjudicated and are final.

RE: HB 2003, HD3, SD2 (2010)

Dear Chair Karamatsu and Chair Oshiro:

Our office appreciates your assistance and leadership regarding the recodification of the campaign spending law in this bill

We have reviewed §11-LL, entitled Family contributions, in HB 2003, HD3, SD2, which provides as follows:

> (a) A contribution by a dependent minor shall be reported in the name of the minor but included in the aggregate contributions of the minor's parent or guardian.
> (b) A contribution by the candidate's immediate family[1] shall be exempt from section 11-HH;[2] provided that the aggregate amount of loans

[1] 11-B "Immediate family" means a candidate's spouse or reciprocal beneficiary, as defined in section 572C-3, and any child, parent, grandparent, brother, or sister of the candidate, and the spouses or reciprocal beneficiaries of such persons.

[2] §11-HH Contributions by state and county contractors prohibited. (a) It shall be unlawful for any person who enters into any contract with the State, any of the counties, or any department or agency thereof either for the rendition of personal services, the buying of property, or furnishing of any material, supplies, or equipment to the State, any of the counties, any department or agency thereof, or for selling any land or building to the State, any of the counties, or any department or agency thereof, if payment for the performance of the contract or payment for material, supplies, equipment, land, property, or building is to be made in whole or in part from funds appropriated by the legislative body, at any time between the execution of the contract through the completion of the contract, to:
(1) Directly or indirectly make any contribution, or promise expressly or impliedly to make any contribution to any candidate committee or noncandidate committee, or to any candidate or to any person for any political purpose or use; or

Representative C. Lee rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Thielen rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I have reservations and they've really been stated by the Representative from Makiki."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Takai rose in support of the measure with reservations and asked that the remarks of Representative Belatti be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Marumoto rose in support of the measure with reservations and asked that the remarks of Representative Belatti be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Pine rose in support of the measure with reservations and asked that the remarks of Representative Belatti be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Ching rose in support of the measure with reservations and asked that the remarks of Representative Belatti be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Berg rose in support of the measure with reservations and asked that the remarks of Representative Belatti be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and H.B. No. 2003, HD 3, SD 2, entitled: "A BILL FOR AN ACT RELATING TO CAMPAIGN FINANCING," passed Final Reading by a vote of 51 ayes.

H.B. No. 2083, HD 1, SD 2:

In accordance with the Conference Committee Procedures agreed upon by the House of Representatives and the Senate, the managers on the part of the House recommended that the House agree to the amendments proposed by the Senate to H.B. No. 2083, HD 1, on the following showing of Ayes and Noes:

Ayes, 5 (Tsuji, Herkes, Karamatsu, Yamane and Marumoto). Noes, none. Excused, none.

Representative B. Oshiro moved that H.B. No. 2083, HD 1, SD 2, pass Final Reading, seconded by Representative Evans.

Representative Yamane rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm standing in support. Brief comments on HB 2083, Relating to Milk Labeling. Mr. Speaker, this was an idea spawned through many discussions. Basically this bill requires milk beverages to be labeled with the date of pasteurization and the date of packaging.

"Just for edification, it does not apply to soy milk. It will be effective January 1st, 2011 to give local, as well as mainland dairies the opportunity to work on the stamping process. It applies to milk beverages containing 100% weight of milk that is sold in the State. And it addresses putting the pasteurization date and the date of packaging on the milk products.

"Mr. Speaker, this is a good consumer awareness issue. This also highlights and supports our local dairies. Mr. Speaker, this bill has had a couple of reviving periods as it progressed through the process. However, using good marketing principles, and supporting and pursing our local dairies, as well as employees that are employed in the State that do pasteurization, I'm very happy that this bill is before us today. Thank you."

Representative Finnegan rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and H.B. No. 2083, HD 1, SD 2, entitled: "A BILL FOR AN ACT RELATING TO MILK LABELING," passed Final Reading by a vote of 50 ayes to 1 no, with Representative Finnegan voting no.

H.B. No. 2721, HD 1, SD 1:

In accordance with the Conference Committee Procedures agreed upon by the House of Representatives and the Senate, the managers on the part of the House recommended that the House agree to the amendments proposed by the Senate to H.B. No. 2721, HD 1, on the following showing of Ayes and Noes:

Ayes, 3 (Karamatsu, Tsuji and Thielen). Noes, none. Excused, 1 (Souki).

Representative B. Oshiro moved that H.B. No. 2721, HD 1, SD 1, pass Final Reading, seconded by Representative Evans.

Representative Karamatsu rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Karamatsu's written remarks are as follows:

"I rise in support of House Bill No. 2721, House Draft 1, Senate Draft 1. The purpose of this measure is to authorize certified shorthand reporters to administer oaths and affirmations in the performance of their duties as deposition officers without the necessity of being notaries public. This will help make the process faster for this important service in our legal system. Thank you."

The motion was put to vote by the Chair and carried, and H.B. No. 2721, HD 1, SD 1, entitled: "A BILL FOR AN ACT RELATING TO COURT REPORTERS," passed Final Reading by a vote of 51 ayes.

H.B. No. 2129, HD 1, SD 1:

In accordance with the Conference Committee Procedures agreed upon by the House of Representatives and the Senate, the managers on the part of the House recommended that the House agree to the amendments proposed by the Senate to H.B. No. 2129, HD 1, on the following showing of Ayes and Noes:

Ayes, 3 (Karamatsu, Aquino and Thielen). Noes, none. Excused, 1 (Nakashima).

Representative B. Oshiro moved that H.B. No. 2129, HD 1, SD 1, pass Final Reading, seconded by Representative Evans.

Representative Aquino rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support with written comments."

Representative Aquino's written remarks are as follows:

"Thank you, Mr. Speaker. I am standing in strong support. This bill, Mr. Speaker, has good intentions as we continue to struggle in the battle to protect our communities from vandalism and graffiti.

"House Bill 2129 requires anyone who is convicted of graffiti to clean the site of the offense and clean up any other subsequent graffiti within a 100 yard distance for up to two years. This is a dramatic strengthening of current penalties. This bill has great promise and sends a clear message of deterrence and accountability.

"In my district of Waipahu, graffiti seems to magically appear throughout the neighborhoods at anytime of the day, anytime of the week, and anytime of the year. In the past, walls surrounding residences were taggers' primary targets. Now, it is anything that is visible. You name it. Graffiti can be found on anything public or privately owned. Aside from

your typical walls on the corner of a residential area, graffiti can be found on street signs, light poles, electrical boxes, bus stops, business places and even on trees.

"It is my hope that this measure will be an effective tool in curbing this problem we face throughout the State. Thank you."

Representative Ching rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise to support House Bill 2129. I also support that these criminal offenders will be required to remove graffiti from within 100 yards of their site of the offense, and to reimburse property owners for two years for costs incurred in all those graffiti removals within those 100 yards.

"Whether the property effaced is public or private, these offenders violate an implicit agreement that citizens respect the work and attainments of one another, as well as the informed aesthetic choices of design planners. Residents and visitors labor to earn their property or the taxes they pay on public property, so it is utterly contemptuous and disrespectful for casual by-passers to freely override such hard-earned decision making opportunities. If we fail to properly discourage graffiti abuse, we will diminish incentives for Hawaii residents to attain those lucrative jobs which will equip them to acquire property. A continuous spread of graffiti would also mar the State's aesthetic publicity, repelling potential visitors from Hawaii while the State's tourism economy is at its most fragile. Thank you."

Representative Choy rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Choy's written remarks are as follows:

"Mr. Speaker. After consultation with my staff member, Heather Lee, I submit written comments to the Journal in strong support of the bill Relating to Graffiti. The intention of this bill is to clean up and beautify our streets and neighborhoods by devising a sentencing plan that requires offenders to remove any and all graffiti to damaged properties within a one-hundred yard radius of the site of the offense.

"At the present, graffiti is a growing problem in the State of Hawaii, and we must be proactive to decrease these acts of vandalism in our backyard. I believe that the type of legislation that is being proposed in this bill is a step towards enforcing social rules and establishing a sense of responsibility amongst the members of our community. By requiring offenders to clean up any unwanted graffiti near to the site of their offense we, the legislature, are setting the tone that:

1) Desecration of our island is unwanted and punishable, and

2) We are not individuals in this State and we must cooperate to keep our community clean.

It is through vigilant anti-graffiti action and the promotion of social responsibility that we will be able to keep Hawaii pristine.

"Therefore, I believe that vandalizing public and private property is a crime, and while I do acknowledge that in certain venues graffiti can be seen as artwork, the tagging and intentional defacing that exists on the sides of buildings and bus stops must stop. Passing this bill will not only benefit our districts, but will also preserve the appearance of the State of Hawaii now and to come. Thank you."

Representative C. Lee rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I stand in strong support."

Representative Pine rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Pine's written remarks are as follows:

"Mr. Speaker, I rise in strong support of House Bill 2129, Relating to Graffiti. This bill will require a person convicted of criminal property damage involving graffiti to remove the graffiti within 30 days of sentencing and to perform community service removing graffiti from within 100 yards of the site of the offense.

"Mr. Speaker, this is another tough on crime bill. Graffiti is an eyesore in our communities. The financial burden on government, community associations, and individuals who address this issue is costly. This burden should be placed on the person committing the crime, and not on the victims. The community service provision will benefit Ewa Beach and teach the offender that their criminal act comes with a cost."

Representative Nakashima rose to speak in support of the measure, stating:

"In strong support, with written comments please."

Representative Nakashima's written remarks are as follows:

"As elected officials, we hear the word, 'accountability' very often. We are accountable to our constituency for our actions. This is an important concept, not just for the Members of this Body, but for everyone to embrace and remember. It is accountability to each other that makes a group of people a community.

"This bill seeks to utilize this important value to ensure that people who deface others' property with graffiti be accountable and clean it up. It goes further by requiring the offender to be responsible for the area 100 yards around the location that the offense occurred. I believe this requirement, while extending beyond the offender being accountable for him or herself, is important in teaching the offender that we are all members of the community and responsible to each other. I commend the Representative from Waipahu for championing this bill."

Representative Har rose to speak in support of the measure, stating:

"In strong support, and may I have the words of the speaker from Waipio Gentry entered into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Keith-Agaran rose to speak in support of the measure, stating:

"In strong support with written comments."

Representative Keith-Agaran's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in support of this bill. HB 2129, H.D. 1, S.D. 1 requires a person convicted of criminal property damage involving graffiti to remove the graffiti within 30 days of sentencing and to perform community service removing graffiti from within 100 yards of the site of the offense.

"Graffiti is a serious and costly problem for every Hawai'i community each year. Tags mar public buildings in parks, schools, shopping centers, private warehouses, and on roadway signs and highways. I commend my six freshmen House colleagues who joined together in introducing this bill which doesn't just create tougher penalties for offenders. This bill proposes to deter convicted taggers by making them responsible for graffiti in the neighborhoods they damaged and marred for up to two years, in addition to any other penalty available under current law. Making them the caretakers for the areas they tagged is appropriate punishment. Hawaii is a beautiful place and maintaining that beauty for our residents and visitors is very important. These additional obligations on taggers will make would-be offenders think twice before they act.

"I urge my colleagues to vote in favor of this bill."

Representative Wooley rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Wooley's written remarks are as follows:

"Working on this bill was such a pleasure this Session. The freshmen decided to set aside differences in opinion and background in order to put our communities first. After extended discussions, we identified shared values and priorities. HB 2129: Relating to Graffiti, was a bill that symbolized our belief that in these tough times, we must find new and better ways to prevent crime and make our communities even better, without costing taxpayers a dime.

"This bill requires a person convicted of criminal property damage involving graffiti to not only remove the graffiti, but also take responsibility for removing graffiti near the site of the offense, or reimburse property owners for costs incurred for removing graffiti in the same area.

"The concept behind this new approach will be to make those convicted for vandalism responsible for preventing it, and give them reason to start caring about keeping our community clean. I'm hopeful that this bill is the beginning of the end of all unauthorized graffiti and vandalism in Hawaii."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support, and may I have the written comments of the Representative from Kahului entered into the records as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Souki rose to speak in support of the measure, stating:

"Mr. Speaker, I want to have the written comments from the Representative from Kahului also. I'm sure he has very fine written comments ready," and the Chair "so ordered. (By reference only.)

The motion was put to vote by the Chair and carried, and H.B. No. 2129, HD 1, SD 1, entitled: "A BILL FOR AN ACT RELATING TO GRAFFITI," passed Final Reading by a vote of 51 ayes.

H.B. No. 2708, HD 1, SD 1:

Representative B. Oshiro moved that H.B. No. 2708, HD 1, SD 1, pass Final Reading, seconded by Representative Evans.

Representative Aquino rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in strong support and would like to submit written comments as well."

Representative Aquino's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in support. Mr. Speaker, this bill would require the Department of Transportation to develop and implement a public involvement process when carrying out any transportation project in the State. The purpose of this measure is to allow people an opportunity to provide comments on projects that may affect their communities. This ensures people that public participation and collaboration is welcomed. It empowers our island communities and reminds residents that they have a say in deciding what goes on in government, and how their hard-earned tax dollars are spent. The transparency and partnership opportunities for both constituencies and government would be tremendous. For these reasons, I support House Bill 2708."

The motion was put to vote by the Chair and carried, and H.B. No. 2708, HD 1, SD 1, entitled: "A BILL FOR AN ACT RELATING TO TRANSPORTATION," passed Final Reading by a vote of 51 ayes.

At 5:48 o'clock p.m., the Chair noted that the following bills passed Final Reading:

H.B. No. 840, HD 1, SD 1

FIFTY-NINTH DAY

Wednesday, April 28, 2010

The House of Representatives of the Twenty-Fifth Legislature of the State of Hawaii, Regular Session of 2010, convened at 11:41 o'clock a.m., with the Speaker presiding.

The invocation was delivered by Representative Sharon E. Har, after which the Roll was called showing all Members present.

By unanimous consent, reading and approval of the Journal of the House of Representatives of the Fifty-Eighth Day was deferred.

GOVERNOR'S MESSAGES

The following messages from the Governor (Gov. Msg. Nos. 276 through 280) were received and announced by the Clerk and were placed on file:

Gov. Msg. No. 276, informing the House that on April 25, 2010, the following bill was signed into law:

H.B. No. 1985, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION." (ACT 059)

Gov. Msg. No. 277, informing the House that on April 25, 2010, the following bill was signed into law:

S.B. No. 898, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CIVIL DEFENSE." (ACT 060)

Gov. Msg. No. 278, informing the House that on April 25, 2010, the following bill was signed into law:

H.B. No. 2058, HD 1, SD 1, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC PROPERTY." (ACT 061)

Gov. Msg. No. 279, informing the House that on April 25, 2010, the following bill was signed into law:

S.B. No. 2775, SD 1, HD 2, entitle: "A BILL FOR AN ACT RELATING TO PUBLICITY RIGHTS NAMES AS DISTINGUISHED FROM TRADE NAMES AND SPECIFYING REGISTRATION PROCEDURES FOR PUBLICITY RIGHTS NAMES BY AMENDING CHAPTER 482P." (ACT 062)

Gov. Msg. No. 280, dated April 25, 2010, informing the House that on April 28, 2010, pursuant to Section 16 of Article III of the State Constitution, the following bill will become law without her signature, stating:

"Dear Mr. Speaker and Members of the House:

Re: Senate Bill No. 2121

On April 28, 2010, I intend to allow Senate Bill No. 2121, entitled "A Bill for an Act Relating to The Early Learning Council" to become law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to allow the Early Learning Council to conduct meetings by teleconference and sets quorum requirements, public notice requirements, and public participation requirements for teleconference meetings.

This legislative session I introduced Senate Bill No. 2710 and House Bill No. 2557 which would have allowed all boards and commissions to use various forms of audio or audio and visual conference technology, such as teleconference, videoconference, and voice over internet protocol, to facilitate meetings between board members and the public. I believe that expanding the use of available technology by all boards and commissions will increase efficiency in their deliberations and decision making, enhance public access to these deliberations, and reduce administrative costs for travel and meeting expenses.

However, I am concerned that this measure's scope and applicability is too narrow because it only allows one specific entity to use teleconferencing to conduct meetings. The measure fails to explain why this Council's needs are different from other Boards, Commissions and Councils in the State. The legislation fails to provide a rationale as to why it should be held under a different standard than what is applicable to all other boards and commissions that must adhere to the Sunshine Law.

I urge the Legislature to amend this Act in the next Legislative session to allow all boards and commissions to meet by teleconference, video conference, and voice over internet protocol, or equivalent electronic method.

For the foregoing reasons, I intend to allow Senate Bill No. 2121 to become law as Act 63, effective April 28, 2010, without my signature.

Sincerely,
/s/ Linda Lingle
LINDA LINGLE"

The following messages from the Governor (Gov. Msg. Nos. 281 through 286) were announced by the Clerk and received for possible future consideration:

Gov. Msg. No. 281, transmitting her statement of objections to H.B. No. 2085, HD 1, SD 2, as follows:

"EXECUTIVE CHAMBERS
HONOLULU
April 25, 2010

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 2085

Honorable Members
Twenty-Fifth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 2085, entitled "A Bill for an Act Relating to Health."

The purpose of this bill is to prohibit a purchasing agency from soliciting proposals for any QUEST contract under chapter 103F, Hawaii Revised Statutes, if the anticipated contract sum exceeds $100,000,000 and the commencement date of the contract is after the expiration of the term of office of the head of the purchasing agency. The stated purpose of the statutory amendment is to "ensure continuity of care for Hawaii's neediest population and to make certain that Medicaid contracts reflect expectations outlined in national health care reform by establishing restrictions on the issuance of requests for proposals for QUEST contracts."

This bill is objectionable because it does not achieve the stated goal of ensuring continuity of care for Hawaii's Medicaid population and instead will disrupt care for Medicaid clients.

Requests for proposals (RFPs) for the Medicaid managed care programs are extensive, detailed, and complex. QUEST health plans need sufficient time to prepare to deliver a full array of health care services to nearly 200,000 individuals who are currently served in the QUEST program. The Department of Human Services must ensure that there are uninterrupted services to these vulnerable clients.

This bill ties the solicitation of bids to the expiration of the term of the head of the purchasing agency. This language would seem to require that all QUEST contracts be scheduled so that they never expire within the last one and one-half to two years of any appointed director's term. This is the

length of time needed to allow for the complete procurement of a complex contract, including any delays caused by appeals and challenges to the contract award.

Thus, if a contract cannot be solicited before the end of a director's term, there is a high probability that any existing contract would end before a new one is in place during the next director's term. Such a scenario will require extension of the existing contract beyond its original terms, which circumvents the protections in state procurement laws. Extensions would delay the State's ability to structure a new contract in a way that strengthens its oversight of the health plans, drawing on the experience of the previous contract. Extensions would also delay efforts to improve the contract provisions to ensure better quality health care for Medicaid clients, and maximum efficiency, transparency, and value to Hawaii taxpayers.

For the foregoing reasons, I am returning House Bill No. 2085 without my approval.

Respectfully,
/s/ Linda Lingle

Gov. Msg. No. 282, transmitting her statement of objections to H.B. No. 2086, HD 2, SD 2, as follows:

"EXECUTIVE CHAMBERS
HONOLULU
April 25, 2010

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 2086

Honorable Members
Twenty-Fifth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 2086, entitled "A Bill for an Act Relating to Health Care Data."

The purpose of this bill is to allow clinical laboratory test results to be provided to authorized persons or a covered entity for a purpose permitted under the Health Insurance Portability and Accountability Act of 1996 (HIPAA). This bill appears to be intended to expedite patient care by broadening the definition of who may have direct access to laboratory data. However, the legislation lacks safeguards that will ensure the protection of patients' privacy rights.

Section 11-110.0-16, Hawaii Administrative Rules, states, "The result of a test shall be reported only to the authorized person who ordered the test and the designee(s) of the person who ordered the test." The administrative rules list the specific individuals and entities that may access laboratory data in such a way that ensures licensed health care providers use information for direct diagnosis, treatment, and health care evaluation purposes.

This measure is a significant departure from what is currently permissible, because it provides for a much broader array of people and entities, that do not have a direct role in a patient's health care, to access laboratory data. I am also concerned that once an entity or its associated businesses obtain laboratory data, they can forward that information to any other HIPAA entity or associate without limit. This could lead to the wider dissemination of sensitive patient information.

I believe that this issue requires and deserves further review. Additional safeguards should be developed before this bill is enacted. I strongly urge the Legislature and Department of Health to discuss with stakeholders the potential impacts of expanding access to clinical laboratory data. They should also evaluate national discussions currently underway and allow pending federal rules changes to be promulgated before proposing State legislation that may not meet new federal guidelines.

For the foregoing reasons, I am returning House Bill No. 2086 without my approval.

Respectfully,
/s/ Linda Lingle

Gov. Msg. No. 283, transmitting her statement of objections to H.B. No. 2421, HD 2, SD 2, CD 1, as follows:

"EXECUTIVE CHAMBERS
HONOLULU
April 25, 2010

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 2421

Honorable Members
Twenty-Fifth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2421, entitled "A Bill for an Act Relating to Government."

The purported purpose of Senate Bill No. 2421 is to provide a source of funding to support government programs, personnel, task forces, and grants-in-aid intended to promote energy and food security in the State. The funding will be generated by instituting a $1.00 increase in the tax imposed on each barrel or fractional part of a barrel of oil sold by a distributor to any retail dealer or end user in the State. However, over half of the money raised by the tax would not be used for the stated purpose.

This bill is objectionable because it raises taxes on Hawaii residents and businesses by an estimated $22 million per year at a time when the community cannot afford these taxes, and deceptively implies these funds will be used to address the state's dependence on imported fuel and food.

This tax will impact virtually everything we do or use in Hawaii including electricity, gasoline, trucking, shipping, retail goods, food, and even the propane for our backyard barbeques. The impacts will ripple through our entire economic system. I am particularly concerned that the tax increase occurs at a precarious moment when the State economy is beginning to stabilize and progress out of the slump created by the global recession.

It is worth noting that the Legislature was willing to exempt from this barrel tax aviation fuel used by commercial airlines, thereby shifting the burden of the tax to consumers. It should be recognized that higher energy prices discriminate against poor families more than any other group in our society. Energy costs comprise a higher percentage of family expenses for those at the lower income levels. This taxing policy runs counter to a progressive tax structure.

As I noted last year when I vetoed this measure's predecessor, energy and food security have been top priorities of my Administration. In 2006, I signed groundbreaking legislation known as Energy for Tomorrow that laid the foundation to wean Hawaii off imported oil. In 2008, my Administration signed a historic, one-of-a-kind agreement with the U. S. Department of Energy intended to decrease energy demand and accelerate the use of renewable energy resources in Hawaii. In 2009, we enacted legislation drafted by members of the Hawaii Clean Energy Initiative that will help Hawaii meet our goal of 70 percent clean energy by 2030. I am proud to share these accomplishments with members of the Legislature, federal officials, and the community who are committed to making Hawaii a cleaner, greener, and more secure place to live.

I believe we can continue to make significant progress in this arena without this tax and the bureaucracies it will fund. Further, I am concerned that some of the money in this bill would be used to fund entities that have no direct relationship to the stated purposes of the legislation.

In sum, we must be willing to make tough choices and work together to prioritize the public programs that have the potential to genuinely address the State's dependence on imported oil and imported fuel without burdening our families, our businesses, and our economic recovery.

For the foregoing reasons, I am returning House Bill No. 2421 without my approval.

Respectfully,
/s/ Linda Lingle

Gov. Msg. No. 284, transmitting her statement of objections to H.B. No. 2866, HD 1, SD 1, CD 1, as follows:

"EXECUTIVE CHAMBERS
HONOLULU
April 25, 2010

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 2866

Honorable Members
Twenty-Fifth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 2866, entitled "A Bill for an Act Relating to Taxation."

The purpose of this bill is to reestablish the Hawaii estate tax on property, holdings, and assets of persons who pass away after April 30, 2010. This measure also taxes non-citizen and non-resident assets in Hawaii.

The bill is objectionable because it would effectively increase taxes on those most likely to invest in businesses and properties in Hawaii. It would also impose a tax on families with valuable land holdings who may not be wealthy, but whose estate meets the statutory thresholds.

Hawaii has not had an estate tax since 2005, when the federal credit for state death taxes was eliminated by the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA). Moreover, there is also no federal estate tax for tax year 2010 as a result of the EGTRRA. This measure targets individuals who are most capable of stimulating Hawaii's economy, and provides a disincentive for residents and non-residents looking to accumulate capital in the State or invest in the State.

Moreover, it is unfair to apply this estate tax to persons who die after April 30, 2010 with little notice or time to inform the public. This measure does not provide enough time for individuals to adequately plan their estate or modify their current estate plan. It would be unfortunate if a person who passes away on May 1, 2010, who may or may not know of the estate tax's existence, cannot distribute his estate as planned to his heirs and charities.

For the foregoing reasons, I am returning House Bill No. 2866 without my approval.

Gov. Msg. No. 285, transmitting her statement of objections to S.B. No. 2159, HD 1, as follows:

"EXECUTIVE CHAMBERS
HONOLULU
April 25, 2010

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 2159

Honorable Members
Twenty-Fifth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2159, entitled "A Bill for an Act Relating to Traffic Abstract Fee."

The purpose of Senate Bill No. 2159 is to increase general fund revenues by raising the traffic abstract fee from $7 to $20. Of the $20.00 to be charged, $18.00 is to be deposited into the general fund and $2.00 is to be deposited into the judiciary computer system special fund.

This bill is objectionable because it is effectively a tax increase on Hawaii drivers and businesses. This bill imposes a nearly two hundred percent increase in the amount of the fee currently charged. Based on the number of abstracts requested each year, this bill would cost Hawaii drivers an estimated $6.5 million more annually.

This increased fee of $20.00 would be significantly more than the traffic abstract fee of most other states. This substantial increase will undoubtedly impact businesses operating in Hawaii that regularly need to review traffic abstracts, particularly businesses that operate fleets of vehicles. Further the fee will impact any individual who operates a vehicle and must obtain an abstract for insurance purposes.

This measure, places an additional burden on Hawaii's residents and businesses at a time when existing taxes are difficult enough to bear. Families are prioritizing expenditures and making difficult decisions in order to live within their means. We in the State, have an obligation to do the same.

For the foregoing reasons, I am returning Senate Bill No. 2159 without my approval.

Respectfully,
/s/ Linda Lingle

Gov. Msg. No. 286, transmitting her statement of objections to S.B. No. 2650, SD 2, HD 2, CD 1, as follows:

"EXECUTIVE CHAMBERS
HONOLULU
April 25, 2010

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 2650

Honorable Members
Twenty-Fifth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2650, entitled "A Bill for an Act Relating to the Department of Human Services."

The purpose of this bill is to allow the Governor, through the Department of Human Services (DHS), to establish an eligibility processing operations division (EPOD) pilot project on Oahu. This bill also prohibits the DHS from implementing any transfer of eligibility functions via a reorganization proposed before and during the effective date of the measure, other than the pilot project.

This bill is objectionable because it denies equal access for Hawaii residents living on the neighbor islands to utilize and receive public benefits, such as welfare assistance, Medicaid, and the Supplemental Nutrition Assistance Program services. The reorganization, proposed and

approved before the Legislature passed this measure, is designed to increase the convenience with which clients across the State can apply for services and renew their eligibility to retain services through the establishment of a call center and online applications. Residents could also receive in-person assistance at remaining DHS offices, community-based social service agencies, hospitals, and health clinics statewide.

This measure would provide easier access to the application and renewal process for residents on Oahu only, which is not fair to those living on the neighbor islands, and discriminates against them based solely on the location of their residence.

This bill is also objectionable because it would limit DHS's ability to reduce the backlog of applications and renewals for public assistance, which has increased statewide since 2008 because of the global economic recession. If EPOD cannot be fully implemented statewide, only those applications originating on Oahu will benefit from faster, more responsive, processing. Neighbor island applications are currently delayed for as long as four months, and the processing periods are not within the required federal timelines. The backlog will continue to grow. This does not serve our most needy residents well.

Furthermore, the original state-wide proposal would have improved the quality of service to public assistance recipients statewide while saving the taxpayers of the State an estimated $8 million annually. There is nothing wrong with improving service and also saving money. The original program should proceed.

For the foregoing reasons, I am returning Senate Bill No. 2650 without my approval.

Respectfully,
/s/ Linda Lingle

ORDER OF THE DAY

SUSPENSION OF RULES

On motion by Representative Evans, seconded by Representative Pine and carried, the rules were suspended for the purpose of considering certain House Bills and Senate Bills for Final Reading by consent calendar.

UNFINISHED BUSINESS

Conf. Com. Rep. No. 154-10 and H.B. No. 1015, HD 1, SD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1015, HD 1, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Carroll rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Mr. Speaker, this bill has been a long time coming. I would like to first of all thank the Chair of the Water, Land, and Ocean Resources Committee, and the Vice-Chair for working hard on part of this measure, and also the members of the Conference Committee who saw the value in this measure.

"Mr. Speaker, this measure has two parts that are very valuable to the Department of Hawaiian Homelands because we all know that the $30 million that the Legislature allocates each year will go away after 2014.

"The first part of this bill is a two-year pilot project which allows the Department of Hawaiian Homelands to start projects without their full capital. We also inserted language there from the Attorney General's

Opinion regarding the liability on the State that there will be no liability and the credit will be used against the Trust

"In part two of this bill, because we are trying to increase the revenues and to increase the Trust with the revenues going into that Trust, this bill offers a 20 year extension, one time only, which we all know that a commercial lease provides for a 65 year commercial lease and with 20 more years gives it a maximum of 85 years.

"What's beautiful about this bill is that we've heard the cry over the years about beneficiary consultation. This bill will allow for that and through rulemaking, Chapter 91, the Commission will adopt rules and evaluate and make final determinations on a request for a lease extension. This was really huge for our Committee because of the outcry from the community, from the beneficiaries, and those who work with the beneficiaries. We also inserted that in the bill.

"This bill also calls for 15% of proceeds off of the extension lease to go to the Native Hawaiian Rehabilitation Fund, which is a fund that was created in law pursuant to Article XII, Section 1 of the State Constitution. This particular Fund will assist with scholarships and other Native Hawaiian programs and we see this as a real value.

"I'd like to say for the record that when we were in Conference, this language was also mentioned, so if anybody tells you it wasn't, they're wrong. It was part of what we agreed upon. Not the full commercial leases, but the extension of the leases.

"Also I would like to say that we put in, because of transparency, reporting requirements. So the Department of Hawaiian Homelands has to submit an annual report to the Legislature and the United States Department of Interior no later than 20 days prior to the convening of each Regular Session beginning with 2011 of all leases of available lands for commercial and multipurpose projects.

"We also required another reporting mechanism for the Native Hawaiian Rehabilitation Fund. We wanted to ensure that the Department of Hawaiian Homelands submit this annual report to the Legislature, again to the United States Department of Interior no later than 20 days prior to the convening of each Regular Session of 2011 on all revenues generated by the commercial leases and expenditures from this Fund including amount expended, the recipient of the moneys expended, and the purpose of the expenditures also on the extended leases.

"Mr. Speaker, as your Chair of the Hawaiian Affairs Committee, you all know that I introduced a gaming bill earlier, which was not the political will of this Legislature. I also said at that time, if not gaming to raise funds for the Department of Homelands, what then?

"We also have been reminded in the news that in 2009 of November there was a lawsuit, Kalima vs. DHHL. They won that lawsuit because, why? The Department of Hawaiian Homelands in Article XII, Section 1 in the Constitution says that the State has a fiduciary responsibility to provide adequate funding, and we have been in breach of that contract. So now the Attorney General is looking at 'what next?'

"If we look at the settlement, the settlement could possibly bankrupt this State. So as your Chair of the Hawaiian Affairs Committee working with other Chairs of this Body, this bill has been crafted to enable and to allow for the Department of Hawaiian Homelands to meet their responsibility to their beneficiaries. Why? Because right now even though they receive the $30 million in their Trust, they still have and continue, which is a good thing for Native Hawaiians have increased their wait-listed. But they've been only able to put about 500 to 1,000 homes on the lands.

"I have grave concerns about this, why? Because there could be more lawsuits. Because of that waitlist. And it's not about the land because the land is there. We need the infrastructure. We need that Trust Fund to build those revenues so that we don't have to take away ..."

Representative McKelvey rose to yield his time, and the Chair "so ordered."

Representative Carroll continued, stating:

"Thank you. We don't want to take away from the State Budget, however we do have that fiduciary responsibility.

"I believe that this bill through that pilot project which we can study, will allow the Department to put more homes on the lands, reduce that wait list, but work collaboratively with the beneficiaries in looking at how commercial leases are extended. But more importantly the hope is that they will also work with other organizations that help beneficiaries to help Native Hawaiians to also attain commercial leases so that we can all prosper.

"In closing Mr. Speaker, I'm very happy to say that this bill allows for the Department to work hand in hand with the beneficiaries and that all commercial lease revenues will go into the Department of Hawaiian Homelands Trust and any extended commercial leases, 15% of those proceeds will go to the Native Hawaiian Rehabilitation Fund. I think that's a win-win situation.

"But also the Legislature still has the ability to reevaluate the situation through a resolution in four years, which we put in the Committee Report because we certainly want to continue that transparency. We want to evaluate how this project is working, and look at public policy that will enable the Department of Hawaiian Homelands to meet their mission, but more importantly as a Member of this Body that the State meets their fiduciary responsibility. Thank you, very much."

Representative Shimabukuro rose to speak in support of the measure, stating:

"In strong support, and I just would like to adopt the words of the Chair of the Hawaiian Affairs Committee," and the Chair "so ordered." (By reference only.)

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you. Also in strong support and would just like to adopt the impassioned words of the Chair of Hawaiian Affairs as if they were my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, I have the same request, except for the gaming remarks. I would not follow her there. And may I give a few additional remarks?

"Mr. Speaker, it's a great day for the 1920 Organic Act when the Hawaiian community was promised they'd have either a home, or a lot, or a home on a lot, and for years and years we've kept postponing that promise. This bill gives leverage to be able to do that faster and more efficiently.

"And you know there are 10 to 20,000 people on that waiting list. I commend the Chair of the Hawaiian Affairs Committee who really stuck to her guns in the Conference Committee of which I was a part of. As well as commending Micah Kane and Kaulana Park for the leadership they're showing, and how they can leverage funds and not just wait and wait and wait which is now 90 years of waiting. We still haven't done it, so this is really the right step, the right policy, at the right time. Thank you, Mr. Speaker."

Representative Har rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support and just brief comments. First of all Mr. Speaker, I would like to thank the Chair of Hawaiian Affairs. She came in, in the 11th hour helping us when we had a title issue. I want to thank you Mr. Speaker, as well as the Senate President for providing a waiver so that we had this vehicle to insert this portion of the bill regarding extended leases. I also want to really thank and congratulate one of our staffers, Melissa Miranda-Johnson who is the Committee Clerk and Office Manager for Chair Ito. She's now worked on this bill for four

years and this was truly a passion of hers and I really want to thank her, as well as the Office Manager for the Chair of Hawaiian Affairs, Jan Salcedo.

"As the Representative from Hawaii Kai noted, this is long overdue. This bill will now allow the DHHL to have a revenue stream coming in particularly after 2015 so that DHHL can continue on with their mission and that is to get people, their beneficiaries, off the waiting list and get them into their homes. It gives them the ability to be self-reliant and self-sustainable. And we want to thank also former Chair Micah Kane, as well as current Chair Kaulana Park, as well as Mr. Bobby Hall who always remained tenacious, as well as Dreana Kalili who also remained tenacious. They spent many hours with us here working tirelessly on this bill. And Mr. Speaker, may I request permission to enter additional written comments into the Journal. Thank you."

Representative Har's written remarks are as follows:

"Mr. Speaker, I rise in strong support of H.B. 1015, H.D. 1, S.D. 2, C.D. 1. This bill allows the Department of Hawaiian Homelands to extend its commercial leases, to up to 85 years total, which will expand its options in generating revenue to fulfill its mission by attracting top commercial leases. The law sets a process for DHHL to consult with the Hawaiian community prior to leasing land for commercial or multipurpose projects, to ensure that the long-term lease extensions go to developments that are of sufficient value and meet the priorities of the community. The bill also specifies that 15% of the revenues from the extended leases will go to the Native Hawaiian Rehabilitation Fund, which delivers directly to the beneficiaries through grants, scholarships and other community programs. Finally, this bill creates a temporary pilot program that allows DHHL to begin construction on housing and other projects without having the full, and final amounts of capital at the outset of the project, which will help DHHL to more expediently fulfill its mission to provide residential lands and housing to native Hawaiians.

"This bill is essential to DHHL's future success in meeting its mission. Currently, DHHL receives $30 million per year from the State as a settlement, but this money will stop in 2015. This bill gives DHHL the ability to expand a critical revenue stream that will allow the Department to compensate for the impending drop in revenue. DHHL currently earns some revenue from 65-year commercial leases, but those terms have limited DHHL's ability to attract substantial investment in the proposed commercial lease properties, because commercial lessees need the security of a longer lease to obtain financing for construction and to spread out the repayment of its costs. By allowing the lease terms to be extended, the Department will be able to further its mission of effectively managing the Hawaiian Home Lands trust and providing lands for native Hawaiians for residential, agricultural and commercial purposes.

"Ultimately, this bill enables the Department of Hawaiian Home Lands to work more effectively and efficiently, which, in turn, benefits all the lessees and applicants of the Hawaiian Home Lands trust. The increased revenue will help the Department build more homes, giving more DHHL applicants the opportunity for homeownership. The revenues will also benefit current homeowners and other members of the Hawaiian community by funding community centers and other facilities. Finally, by attracting large commercial projects close to homestead communities, the extended leases can help create jobs close to home, resulting in less traffic and a higher quality of life.

"The bottom line is that H.B. 1015, H.D. 1, S.D. 2, C.D. 1 is essential to DHHL's future self-sufficiency as it faces the impending loss of a significant portion of its revenue and looks for ways to continue to meet its core mission. For the foregoing reasons, I strongly support this measure. Thank you, Mr. Speaker."

Representative Tokioka rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. And may I ask that the words of the Chair of the Hawaiian Affairs Committee be inserted as if they were my own, as well as the Vice-Chair of Water, Land to be inserted as if they were my own. And in the spirit of collaboration, the Representative from Hawaii Kai as if they were my own? Thank you," and the Chair "so ordered." (By reference only.)

Representative Awana rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. I would like a ruling on a potential conflict. I am a homestead lessee," and the Chair ruled, "no conflict."

Representative Awana continued in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in strong support and ask that the comments made by the Representative from Hana be entered into the Journal as if they were my own. Thank you Mr. Speaker," and the Chair "so ordered." (By reference only.)

Representative Sagum rose in support of the measure and asked that the remarks of Representative Tokioka be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Souki rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. And I would also want to have the remarks of the Chair of Hawaiian Affairs as my own. Thank you for your hard work."

Representative Carroll rose to respond, stating:

"Thank you, Mr. Speaker. *E kala mai.* There's also another person I must also thank and that is the Chair of Finance because of his due diligence, and his patience with us. But also, because of his wisdom we were able to move this forward. So I would like to thank him very much, and the staff that has assisted us on this measure. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1015, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO OBLIGATIONS OF THE DEPARTMENT OF HAWAIIAN HOME LANDS TRUST FUND," passed Final Reading by a vote of 51 ayes.

At 12:02 o'clock p.m., the Chair noted that the following bill passed Final Reading:

H.B. No. 1015, HD 1, SD 2, CD 1

Conf. Com. Rep. No. 155-10 and H.B. No. 2377, HD 3, SD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 2377, HD 3, SD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Souki rose to speak in opposition to the measure, stating:

"Yes, Mr. Speaker and Members. I wish to speak in opposition to this measure. Mr. Speaker and Members, I believe that this measure is premature. We don't know whether the public will vote for the elimination of the Board of Education and come up with a new plan. So this bill should at least wait until the vote is taken by the public, and not be so presumptive as to assume that it's going to pass. I've always been told that it's more difficult to 'bet on a come,' than it is to 'bet on a don't come.'

"And also Mr. Speaker, if you look at this bill, this bill will not provide the checks and balances that we are seeking. Rather it will provide more power to the centralize office of the Governor who will be having the final say as the bill goes along. This Board will merely be making recommendations. The final call will be with the Governor. So I don't really see any major improvements for the Board of Education with this measure, or with the other measure that we passed. Thank you, very much."

Representative McKelvey rose in opposition to the measure and asked that the remarks of Representative Souki be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Bertram rose in opposition to the measure and asked that the remarks of Representative Souki be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Finnegan rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. This bill is regarding the Board of Education appointment and selection advisory council. I am in opposition. Thank you. The purpose of this bill is to improve the accountability of Hawaii's public education system by requiring the members of the Board of Education to be nominated and, with the advice and consent of the Senate, appointed by the Governor from pools of qualified candidates presented to the Governor by the Board of Education Candidate Nomination Commission.

"And that purpose statement Mr. Speaker, is the exact reason why I am in opposition to this bill. Mr. Speaker, I've spoken time after time on the Floor about this bill and my opposition to this bill, because what it does is in its efforts to say 'improving accountability,' to me it does just the opposite. It doesn't give us the kind of accountability that we need in order to improve our situation for the teachers and the principles at the school level. It doesn't give us the kind of direct responsibility, clear direction, or accountability when we're in situations where we want to say, 'What happened?' What happened to, whether it be test scores. What happened to money? What happened to whatever's going on in the education system, the decision making.

"Currently in the existing system, there is no way to say who is ultimately responsible. Mr. Speaker, the Governor has gotten a lot of bad press having to do with why isn't she solving this Furlough Friday problem. Mr. Speaker, the bottom line, as I've spoken about before, there is a root problem to all of this and that the government structure is part of that.

"As I've mentioned yesterday, the Department of Education almost operates like a separate part of government. A separate branch of government currently, and we need to correct this. I decided that I was going to change my vote on the constitutional amendment that changed it from an elected Board of Education, to an appointed Board of Education because I felt that maybe we can go in this direction and maybe I'll support it and see what our constituencies will say.

"But this description that says already there is a line of groups that come into the decision making process on who will be the Board, instead of directly letting the Governor choose from a big pool of qualified candidates. Not one that has been put through a strainer by all these different other people. We always say that its politics that's going to play in this system. Mr. Speaker, I think that's such a false statement because there's politics in the system that we're in now. That's why we're stuck in Furlough Fridays.

"Mr. Speaker, I think we can do much better than this. And if it means killing this bill this time around and waiting for a constitutional amendment to pass, then that's what we should do. And Mr. Speaker, could you please enter my previous comments from my prior times speaking on this bill, the constitutional amendment, into the Journal, as well as my remarks on Third Reading. Thank you," and the Chair "so ordered." (By reference only.)

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition. Thank you. Yesterday I spoke contrary to Speaker Emeritus' position on the constitutional amendment. Today I join him in opposition to this component of changing our educational system, our planned structure of how we run education in this State.

"I said yesterday that the people are afraid of change. The status quo is the best; to go along, get along. But to change things, it disrupts things. The difficulty with this bill Mr. Speaker, is that it shows that we're denying that we want to change in the constitutional amendment. We say that we want to change, but this one denies that. It puts a 'half a loaf' as my colleague just said, of politicization into the process. I think the statement was very apt. The reason why furloughs have not ended is because of the politics in the structure of the situation.

"As I've said many times, and I don't usually quote Congressman Abercrombie, but he said it's like a rectangular firing squad. Everybody blames the next, and the other person. Or if you live in a round house, you can never be corned.

"And Mr. Speaker, this bill is starting to corner again the opposition between the Legislative and the Executive. These appointments by you Mr. Speaker, and this has nothing to do with you personally, or to the President of the Senate who has the filtering to get those people on board. But it puts back the polemic of the Legislature against the Executive. We need to hold the Executive accountable if we're going to give her or him the position to keep education on track.

"Mr. Speaker, the difficulty is in this, this is where the politics is rather shocking because a former member of the Board of Education told me that after the election, there was excitement, and there the enthusiasm, and the honeymoon of being an elected official for the first time. In their orientation with the Board of Education was, 'Yeah, yeah. You're the Board. You're elected. But we run the show.'

"Mr. Speaker, we have got to have accountability in who runs the show and who's responsible. Accountably, again the 'A' word, the accountability is what we need. We can't be 43rd in the nation and be proud of it. We can't have furloughs with only 163 days of the year to be proud of it. We need change, and this bill denies the change because it puts the politics back which we were intended to take out. Thank you, Mr. Speaker."

Representative Takumi rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. I guess I'm in support of this measure. It's very ironic to me that my colleagues from Maui on one hand, opposes this measure because it somehow gives too much power to Governor. And then my colleagues from across the aisle oppose it because it doesn't give enough authority to the Governor. It's a very interesting paradox here.

"Let me take a couple points. First of all the Department of Education is not a separate branch of government. Anyone knows that, so I don't need to clarify that in any way, shape or form. But secondly, initially the Lingle-Aiona Administration and the Minority supported abolishing the Board of Education and having just the Governor appoint the Superintendent of Education, and that has morphed into I suppose, tepid support for now, for an appointed Board.

"But you know Mr. Speaker, if you're going to go with an appointed or elected Board, let's see what the real test is. The real test if whether or not any type of governance structure leads to better student achievement, because despite the politics that might be imbedded or not within any particular governance system, we are doing this because we believe that it holds the best potential to improving student achievement.

"So let's look at the issue of an appointed Board versus no Board at all. Let's look at NAEP scores and I think all of us know the National Assessment of Education Progress which is known as the nation's report card, if you will. It gives an 'apples to apples' comparison of test scores across the board. The Minority Leader asserts that an appointed Board, in previous speeches on the Floor, is fake reform. Perhaps in her, I suspect rebuttal, she can explain what her research has shown as far as how many states have no state board of education and what they have done in terms of student achievement.

"My research shows that Hawaii has made greater gains in NAEP over the past six years than those states that have no state board of education. To prove a nexus between student achievement and boards I think is a very tricky matter, but nevertheless, 8 of the top 10 states in terms of NAEP have appointed boards.

"Now let me get to the crux of the issue regarding the Selection Council. It's interesting that people believe that this prevents the Governor from

appointing highly qualified candidates. Mr. Speaker, the way we approve our judges is precisely in this method and no one has said we should abolish the Judicial Selection Commission and let the Governor appoint whoever he or she wants to sit on the bench. And in fact, we have heard complaints over the years of judges being soft on crimes, too pro-criminal, anti-victim, whatever the case may be. Heck, why don't we introduce a bill to get rid of the Judicial Selection Commission and have the Governor appoint judges unilaterally.

"But the second and the most important point Mr. Speaker, is that despite my good friend, the Speaker Emeritus, talking about the Governor having too much power. I will trust my colleagues on the other side, on the Senate side because any person who is nominated for a judgeship, for a Board of Regents seat, or this anticipated appointed Board of Education has to be confirmed by the Senate. That will allow public hearings and you know how those things work. To simply assert that the Senate 'rubber stamps' every nominee that comes before them, you know is simply not true.

"So this is not the perfect bill. If I had my druthers it would have been slightly different by the way, but I do believe it represents a compromise with the various parties that came forward and said what they believed would work in the best interest and hold the highest potential for increasing student achievement. No bill is ever perfect Mr. Speaker, but I think this represents a good faith effort. Thank you."

Representative Souki rose to respond, stating:

"Yes, thank you very much. In rebuttal. Again Mr. Speaker and Members, I need to reemphasize that this bill is premature. We don't know what the outcome is going to be of the ballot.

"And number two, again, the current Board that we have, the elected Board of Education has policy-making powers that we have given them through legislation to make policy for the Board of Education. With this appointed Board, they don't have the policy-making power. The policy-making power will belong to the Governor. One man, or one woman will be able to make the call, and that is a dangerous precedent.

"I don't think there is anywhere on the mainland that we have one person making the call. And this is a large system that we have. We have over 167,000 students. 12,000 or 13,000 teachers. Yes it's not a separate branch of government, but maybe it should be because of its size, and its complexity. But this bill, at this point in time, is not necessary Members. Thank you, very much."

Representative Finnegan rose to respond, stating:

"Thank you, Mr. Speaker. Yes, I would like to still be in opposition, but I would like to respond and rebut. Mr. Speaker, first of all I'd like to clarify that I said it's like a separate branch of government. I did my government studies when I was in the fourth grade. I realize the Department of Education is not a separate branch of government. However it does operate like one sometimes, and I did say, 'like.'

"Mr. Speaker, what's happening in this bill is, it basically sandwiches the Governor, whoever that Governor will be. Democrat, Republican, whatever. Black, white, red. It will sandwich the Governor between two bodies. The Senate with advice and consent, and before that appointment by a whole bunch of different people. This group that will strain, like I said, and choose the people who would choose the candidates that will be moved forward to the Governor. Mr. Speaker, that really lessens the pool.

"Mr. Speaker, I will also say that yes, there is a situation where there's the Washington D.C. Mayor who appointed Chancellor Rhee, and Chancellor Rhee went in, proved herself through higher test scores, did some radical changes, but because the Mayor had her back, and they had an agreement that if she was going to do it her way, that she needed the Mayor's complete confidence to move forward. And now they're starting to see the fruits when the rest of the country is actually not doing as well, she's showing student achievement. Mr. Speaker, and she got a lot of bite back from the community and everybody. But what you need is that clear commitment that you're going to do this despite what the union says, despite what the community says, that you need to have that clear commitment and focus on the student. That is something that we did not have when we were talking about whether or not we're going to have Furlough Fridays, or pay cuts, or whatever it was. Whatever they were talking about.

"Mr. Speaker, this is really important because we went through the appointed Board. And from my understanding, I wasn't here. I think I may have been a year old when we had an appointed Board. But we had an appointed Board. My understanding is that it changed to an elected Board to help students and student achievement. And then we went through this whole thing called SCBMs for community control. That failed because communities felt they didn't have the ability to speak into their schools and make decisions. Then we did Act 51 six years ago. That is failing. All the quote-unquote, 'promises,' that we promised to give communities control and have 70% expended by the schools, principal contracts, all of those things - not working, Mr. Speaker."

Representative Ching rose to yield her time, and the Chair "so ordered."

Representative Finnegan continued, stating:

"Thank you, Mr. Speaker. I will just finish up in saying that year after year. And I had said in an earlier speech that my son was five years old when we started this. He's half way through of his young education. By the time we get something really concrete where we can move forward for student achievement, he will graduate from school. So yes, I am going to fight for this, Mr. Speaker, because I'm not even thinking that it's going to work for this year, next year, or the year after that. But hopefully by the next generation, we will have a system that has accountability. Thank you."

Representative Takai rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support of this measure. Thank you. I'd like to first adopt the words of the Chairman of Education as if they were my own. Thank you. I'd also like to congratulate him, and thank him for his work on not only this bill, but the other bill relating to the constitutional amendment. As you know, I had some concerns when the first bill came to the House Floor on first Crossover. I said then, and I'll say it again, that as long as those issues are addressed, I think we can be proud of the product. And I can tell you today that those issues were addressed.

"In fact the most significant one really relates to our Neighbor Island colleagues. As you recall, the Board was really an at-large Board of Education. It didn't have a requirement for representation as it relates to residency on each island. Today I can say that looking forward, this new Board will have representation throughout the State and I think that's very important, number one.

"Number two, I think we should support this bill because this bill actually provides the Governor with the mechanism, utilizing the Council to vet prospective Board members. You know, it takes a lot of hard work to come up with lists of appointees to recommend to the State Senate, and I think in this particular process you're going to have able-bodied people appointed by the Governor, the Senate President, the Speaker, and actually four members appointed by the Hawaii P20 Council of which two of those members shall be parents, and one member from the business or nonprofit community, and one of those final four members to be an educator. I think that's quite significant, I think that provides for a very thorough process, a very thorough selection process. One that will provide the Governor, whoever he or she is at the time, enough of a listing of well-qualified candidates to become Board members.

"A few years ago we instituted this change at the Board of Regents at the University of Hawaii as you know. We did have some concerns. We did have some issues. And in fact the issues and concerns were not just with this Governor. It was with the last Governor too. And I think we can all agree that the process of selecting the Board of Regents at the University of Hawaii is a better process now. Now that we have agreed to create the Candidate Advisory Council from which the Governor can choose and

select and recommend to the Senate, members of the Board of Education. So I think this process is a good one, and we should embrace it.

"The final thing I'd like to say is this. The last time the constitutional amendment hit the ballot box and allowed the voters of this State to take a position on this particular issue was 1994. It's been 16 years, Mr. Speaker. That's a long time, and I think it's about time that we provide the voters with this opportunity to decide this issue once again. And as you know, things are much different now. We've got tremendous support from a wide variety of constituencies including the business community and I would say even the education community. So let the voters decide on this particular issue.

"Finally Mr. Speaker, and the reason why I think this bill is very important, if you look at the constitutional amendment it says that we shall have an appointed Board of Education as provided by law. I do believe that it's incumbent upon us and it is fair to provide the voters of this State with our intentions prior to them going into the voting booth. By passing this bill it makes it very clear to the voters of this State our intentions once and for all, hopefully if this Constitutional amendment passes. Thank you, Mr. Speaker."

Representative Berg rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I wish to request that the words of the Chair of Education, as well as the Representative from Pearl City be entered as my own. And if I might just add to what they have shared with us. This is an opportunity for fresh thinking and to approach education from a different perspective.

"When I first came back from college and started teaching in the Department of Education, and then continue my career as a middle school principal and student activities coordinator, what became really clear to me is that what happens in the classroom really is impacted by the adults that are making decisions regarding what's supposed to happen in the classroom.

"And when there's reference to politics being played out, politics to me as I've been here in the last few years, really refers to maintaining the status quo. And if what we want to do is move beyond the gridlock of the status quo right now because we've, everyone, says that the schools are not working and pieces of the school need to be transformed and reformed, then we must go beyond what we already know. Putting children in front of all of our decision making and making them the focus is really what we need to begin doing, and as long as we have been discussing this issue of Furlough Fridays and funding, it is the platform, it is the politics of adults discussing this that seemed to keep us in this gridlock.

"One of the thoughts I wish our colleagues to remember is that the origins of public schools in Hawaii is not the same as it is on the continent. On the continent, the civic mission of public schools was to prepare young people to participate in representative democracy as informed citizens, as gainfully employed, as community activists if you will. The word activism has a really bad connotation here, but if we look at the root word of active, that's really what this bill is calling for. It is calling for the Board of Education to be active in policy making and the underlying bill, this particular bill for a process to enable adults to be part of the process without the concern of platforms, being elected, having constituencies pressing on them.

"The public schools in Hawaii were created for the 'have-nots' and that is a paradigm that needs to change. As long as we maintain the same framework of governance, the same framework of doing things the way we've always done them, no matter how much we change the student weighted formula, no matter how much we change what buildings are painted, and what the classroom size is, we will not change the paradigm and the framework with which our children go to our public schools.

"One of the things that I would hope is that our colleagues take a look at this new process of determining who would be vetted, or who would be nominated for the Board of Education and look at qualifications that are necessary for a policy making body that will be governing the operations of public entity that also has a lot of private and economic influences. So I would encourage our colleagues to really not be so afraid of change. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, there was a specious argument given that I think needs to be rebutted, and that was by the Chair of Education who said that the Judicial Selection Commission is doing a great job and this is simply the same as that. Mr. Speaker, as far as I know, the Governor is not concerned about the results of what happens in the courtroom, nor does she have any area of concern with the processes other than what is designated by law.

"In this context, these people will be held accountable by the government, by the Governor. The Governor has no accountability for what the judges do, so to say that this is the same as having a Judicial Selection Committee is specious. It's not relevant, and should be discarded. Thank you."

Representative Takumi rose to respond, stating:

"Thank you very much, Mr. Speaker. In rebuttal. Speciousness is in the eye of the beholder, Mr. Speaker. I believe the selection of Board of Ed members is just as, if not more important than the selection of judges. So by using the same process, I think we are on the right path.

"To respond to the Speaker Emeritus, obviously there are examples. The Minority Leader mentioned one about Washington D.C. The New York City public schools have 1.2 million students, and 1,000 schools. The Chancellor of the public school system is a member of the Mayor's cabinet, so there are examples.

"Secondly to respond to point about the timeliness, and whether or not, why do this if the voters vote it down. I think it would be the height of irresponsibility to not have an underlying measure, and that if the voters decide to go for an appointed board, then we'll have to come back in January and go through the process of passing the underlying implementing legislation. So potentially, we could have a 'lame duck' board. The already elected board could serve for five or six months while we talk about how we're going to deal with the appointed board. This underlying bill will allow this appointed board to get moving relatively quickly if again, the voters decide to have this.

"To respond to the Minority Leader, she's mentioned over a number of times about Act 51 and how it's fake and all the rest of it. Mr. Speaker, I know that's not germane to this bill, but let me just say this.

"Let's look at a couple aspects of Act 51 that passed in 2004. Take de-linking. Prior to Act 51, only 20% of emergency calls, a school will call and say their toilets are broken or their windows are broken or whatever, only 20% of emergency calls were done within two hours. Now it's 98%. That's 98% of the time when a school calls and says we need an emergency repair, it is responded to within two hours. The Minority Leader might think that's fake, but I don't.

"Let's look at student achievement. Since 2003, Hawaii increased its scores in fourth grade math by nine points. The rest of the nation Mr. Speaker, five points. Keep in mind, a gain of ten points on the NAEP score is equivalent of a year's progress in that subject matter. Now I know the Minority Leader may not be able to rebut this again for a second, or third time and all the rest. I would welcome her sending to my office her research that compares that gain with any other state during that same equivalent period of time, and show me, show me what other states have had a greater gain in that NAEP score over that same period of time. I would welcome that. Thank you very much, Mr. Speaker."

Representative Brower rose to speak in support of the measure, stating:

"Mr. Speaker, in support with just a brief comment. One of the reasons that I'm supporting this measure is because in my mind, it forces the Board of Education to run a little more like the University's Board of Regents. That's a fair system, with a lot of checks and balances, and we see a lot of input. And when there's a problem at the University we know exactly who to hold accountable and the Legislature always does take action.

"In addition, the Board of Regents is a reflection of the Governor's Administration and that's always given the Governor a lot of incentive to take action when there's a problem. I believe that our democracy is about changing a system that needs improving, and I think that this is a fair measure. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2377, HD 3, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO EDUCATION," passed Final Reading by a vote of 40 ayes to 11 noes, with Representatives Bertram, Carroll, Ching, Finnegan, Hanohano, Marumoto, McKelvey, Rhoads, Souki, Thielen and Ward voting no.

At 12:34 o'clock p.m., the Chair noted that the following bill passed Final Reading:

H.B. No. 2377, HD 3, SD 2, CD 1

Conf. Com. Rep. No. 156-10 and S.B. No. 2589, SD 2, HD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2589, SD 2, HD 1, CD 1, pass Final Reading, seconded by Representative Evans.

At 12:34 o'clock p.m. Representative Finnegan requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:43 o'clock p.m., with Vice Speaker Magaoay presiding.

Representative Finnegan rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, on Conf. Com. Rep. No. 156-10, in opposition, and a ruling on a conflict. My son goes to Voyager Public Charter School," and the Chair ruled, "no conflict."

Representative Finnegan continued in opposition to the measure, stating:

"Thank you, Mr. Speaker. Mr. Speaker, I was really hoping for the best with this bill. This is a bill that relates to Charter Schools and the purpose of this measure is to require the Department of Education to give reasonable consideration to making available all or portions of the school facilities to Charter Schools when it considers whether to close a public Charter School. What it also does in this bill is it adds in some language regarding funding and funding formulas.

"Mr. Speaker, this has been a contentious part of Charter Schools because as you know, the Charter Schools feel like they have a really difficult time with the amount of money that they're given and appropriated by the Legislature and the Governor. And throughout the years, we've given them a pretty good funding formula, but when it comes down and when it goes through the system, it ends up not being what was originally, I guess, defined in the statute.

"What this particular bill does, and I appreciate some of the really good parts of it trying to have the Charter Schools have access to facilities, State facilities, as well as it does some other things in here that I do support. But overall it changes, it inserts some wording that to me is not good for the Charter School movement.

"The funding formula, by putting in just the simple words, 'general fund.' It basically changes some things in here that says, beginning with fiscal year 2010-2011 and each fiscal year thereafter, the non-facility general fund, that's the part that's inserted, per pupil funding request for Charter School students shall be the same as the general fund per pupil amount to the Department in the most recently approved Executive budget recommendation, and it goes on from there and inserts general fund throughout the bill.

"Mr. Speaker, the reason why I'm against just having the general fund area is because time and time again, when we talk about Charter Schools and equal funding, the portion is not whether or not the general fund is the only portion that should be given to the Charter Schools, but all of the other funds whether it be federal funds, whether it be all the different kinds of modes of funding that we have for the Department of Education should also be included in there. And what this does is it takes Charter Schools from at one point in time, receiving some, still not equal funding because facilities funding and all of this other stuff, and it starts to deteriorate, and deteriorate, and now it would be equivalent to what I believe is around $5,500 per student.

"Mr. Speaker, that's a real small amount for these Charter Schools to operate on. And I understand that many of the Members don't really understand the way that Charter Schools operate, or the funding formula, and how that works, but that really is kind of like the 'poison pill' in this bill.

"There is another part of this that I think is difficult. And when people are looking for loans, whether it be for building their schools, there's a part in here that is a good part, but we don't know what the repercussions of that part will be and that is the review of the Charter School detailed implementation plan. I just said for the Charter Panel to have that responsibility to do it every six years.

"I'm not sure. I have to look and see what else the language says, but if you lose your charter because the Charter Panel does not respond within that six-year period or does not review the school, how does that affect the school, as well as when you have that kind of language in the statute, will the banks make a commitment to help fund facilities for these Charter Schools if they see that it's possible the school may close down in six years?

"So because of those things, I am going to be voting no, but I would also like to just say I realize that there were many efforts to try and help the Charter Schools this year and I'm not sure. I don't think it was intentional, but I do know that that's the effect that will take place in the formula, as well as I feel it would happen with the facilities. Thank you."

Representative B. Oshiro rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, I'd like to ask for a ruling on a potential conflict. At my law firm, I represent some Charter Schools. Thank you," and the Chair ruled, "no conflict."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2589, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO CHARTER SCHOOLS," passed Final Reading by a vote of 50 ayes to 1 no, with Representative Finnegan voting no.

At 12:49 o'clock a.m., the Chair noted that the following bill passed Final Reading:

S.B. No. 2589, SD 2, HD 1, CD 1

Conf. Com. Rep. No. 157-10 and S.B. No. 2124, SD 2, HD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2124, SD 2, HD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Thielen rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. Mr. Speaker, I'm rising in support of the measure, but with reservations. Thank you. I strongly support getting the students back into school. I think everyone in this Body does want that, but I also felt that we could have done it a different way. And in fact we did on our budget that is up online that I believe our Hawaii Kai Representative

will probably mention. We could have done it without making this anything other than a loan.

"In talking with some of the experts in this State, they were mentioning that we generally are subject to hurricanes about every 10 years. We're 17 years out now, which means that in the event we're hit with a hurricane, we're going to have a much lower amount in the Hawaii Hurricane Relief Fund and that's going to impact everyone in the State. So I think that had we done this taking it out as a loan, it would have been a much wiser move, and I'm sorry to see that that isn't in the final version. Thank you."

Representative C. Lee rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I think the Governor spoke quite eloquently on the purpose of the Hurricane Relief Fund and it's relation to the purpose of this particular bill. Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise in support with reservations and a request for written comments, but a brief comment at present. Mr. Speaker, at the beginning of this Session, the priority of not only this Caucus, but I'm sure everyone here was to end Furlough Fridays. This bill pushes it down to where we can fund it, but it puts a hole in the budget. Blows a hole in the budget down the line of which this Caucus, with this floor amendment tried to say, 'You don't need to do that.' And my colleague from Kailua referred to the online budget that lists all the revenues, all the expenses, all the choices. And by just putting an 'X' to it, you can increase or decrease the ending balances.

"Mr. Speaker, we don't need to raid this Fund. We don't need to put in jeopardy the people of Hawaii in the event there is a hurricane, in the event that these funds are needed. We can simply pay it back, and I can't see any reason even politically, or intellectually, or whatever, why do we have to raid the Fund? It's not needed economically, and why we're doing it politically, I'm just confused. So Mr. Speaker, this is a good bill, but it has consequences which are not good. Thank you."

Representative Ward's written remarks are as follows:

"Mr. Speaker, I am presenting written comments in support of SB 2124, relating to the Hurricane Relief Fund. The bill raids the Fund to restore instructional days for the 2010-2011 school year. The goal of the Minority Caucus for the 2010 Session was to end the school furloughs, but we should borrow the funds – just as I proposed in a floor amendment last week. When the government takes money from the people for a specific purpose, the government should keep its word. This bill doesn't do that, and it doesn't provide assurances that the money taken out of the fund will ever be returned. On top of that, the bill ignores Charter Schools and doesn't recognize those who took pay cuts in order to keep their schools open when others simply stopped working.

"Unfortunately, though, this is the only bill we have to end school furloughs. There's a lot that's wrong with it, but I'm confident that we can introduce solutions to the many problems it has next year. For these reasons, Mr. Speaker, I support SB 2124."

Representative Chong rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. First of all, I don't know. You can go to the spreadsheet any day. I'm not sure, but I saw part of the plan that was to take the county TAT, which would have raised property taxes, but that aside.

"First let me go to the Hurricane Relief Fund. For many people I think there's a little misnomer of what it is. It was set up many years ago, not to provide an emergency fund to provide emergency relief. It was setup as an insurance fund, and why is because after Iniki, it did so much damage that many insurance companies left the State. They stopped offering insurance coverage. So if you went to a bank to get a loan, the bank required hurricane insurance. So if you couldn't get the insurance, you couldn't get a loan.

"And that's why this fund was set up. It was to help the real estate market and the bank market. It had nothing to do with setting aside emergency funds to help the people of Hawaii in a state of emergency. It was for purposes of commerce.

"I'm not sure why people are referring to this as if we take the money the people will be exposed. There are many things that will happen should a hurricane hit including FEMA, as well as other State resources to come in to ensure the public safety and health. But the Hurricane Relief Fund was not meant to be one of them. Thank you."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. May I have the words of the previous speaker entered in the record as if they were my own? And just for the edification of everyone, the Hawaii Hurricane Relief Fund Program has sunsetted. There is no Hurricane Relief Program right now. This is just a fund. And second of all, many of reinsurers left the market because they were also big players in the Florida market, and Andrew and Iniki hit almost simultaneously that same year, Mr. Speaker.

"So I just want to reemphasize the words of the previous speaker and there is no Hurricane Relief Fund Program because the program has sunsetted. What you have is this money, and if this is what it takes to put our kids back to school, then I believe it's for good use. But it's not available to the public for hurricane disasters. It's not meant for that and the program is no longer in existence. Thank you, very much."

Representative Thielen rose to respond, stating:

"Thank you, Mr. Speaker. Still with reservations. I was here during the period when we put together legislation that established the Hurricane Relief Fund and it was for the purpose of being able to buy reinsurance so we would be able to provide the coverage for the homeowners in Hawaii. The difficulty is, that it's not if we're hit with a hurricane, it's when. It will happen and we're going to be in the same situation where we're going to not have the adequate funds to be able to buy reinsurance to be able to provide then, and to get the insurance companies back into Hawaii.

"We've been through that once before. It was a very scary time for people. A very scary time and this legislation was crafted with a lot of thought to take care of that kind of a situation and that's why the loan would have been more prudent and the loan would have made everyone safer in Hawaii. Thank you."

Representative Herkes rose to speak in support of the measure, stating:

"In support, Mr. Speaker. I was on the CPC Committee when we established this Fund and it was right after Iniki. We had to rush in and do something like one of the previous speakers said. We had to provide insurance so that we could get loans to buy homes.

"Now for those who think they have a continuing financial interest in it, you already got what you paid for. You bought an insurance policy. Your home is covered. And when that policy lapsed, you no longer had interest in this Fund. The Fund just sits there. It is not a hurricane insurance fund. It should be a reinsurance fund, but it's not.

"It should be transferred and made into a natural disaster fund, but it is appropriate to use this fund because when you paid into an insurance fund, you got a policy. And when that policy lapsed, you no longer have an interest anymore than you have an interest in State Farm who covered your home last year and there was no hurricane. You have no financial interest in State Farm."

Representative Ching rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I rise reluctantly in support, but with some deep reservations. Thank you, Mr. Speaker. I'm voting in favor of this measure because it's the only way it seems we're going to be able to restore

those instructional days, and that has been a great disappointment. It would be putting it lightly to say it's a disappointment for the people of Hawaii.

"But an additional disappointment is that we are really raiding this Fund, and aside from whether or not it's going to be used for hurricanes later or what have you, it's the message we send. Again the message we send to the taxpayer is that if we say we're going to have you pay into a fund for this purpose, just know that years may go by and we're going to take it.

"I know that was part of the conversation earlier. And what we're doing is we're not using the Fund for what we said. So we're basically telling the taxpayer, 'Yeah we're going to take this money, but now we're going to use it when we have to,' which is to me in part why I think some people just don't trust us that much. Thank you."

At 12:59 o'clock p.m. Representative Finnegan requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:01 o'clock p.m.

Representative Finnegan rose, stating:

"Thank you, Mr. Speaker, I'm going to start off being with reservations and depending upon how I end with this bill, I may turn my vote into a no. But, with reservations for now.

"Mr. Speaker, I know that this is a very serious subject and after reading this bill and having a good conversation with the Finance Chair, I do want to explain my deep reservations on this bill. Prior to this CD 1, which I didn't have the opportunity to see in Conference Committee when we voted, it was a bill in the House Draft form that had language for Charter Schools and giving money back to Charter Schools with the same language of intention and all of this stuff for furlough days, or instructional days. It's no longer in this bill, so basically now, not only does it take out the specific language for Charter Schools, but it also takes out the expending agency of the CSA or the Charter School Administration office.

"My understanding is that doesn't necessarily mean that the money cannot go to the Charter Schools, but if it was intentionally left out and it has to go through the DOE, now the Charter Schools are at the will of the Department of Education on whether or not their instruction days will be fulfilled through this money.

"Second point Mr. Speaker, is after taking a look at the specific language on page 3 it says, 'It is the intent of this Legislature that the moneys appropriated by this Act be expended solely for the purpose of restoring public school instructional days and that no moneys appropriated by this Act be transferred or used for any purpose other than restoring these instructional days.'

"If I take what I think is instructional days, then if there are schools out there that decide they're going to go through the HSTA and change their professional days or PD days to instructional days, or if they trade any of those days out, because now those days become instructional days, you cannot get money from this bill.

"That penalizes those who make the decision to bring back their kids to school even though they might have suffered, whether it be teachers, or principals, or whatever. I think because they made that decision to change those days that this bill will not give them back money. It's only for instructional days. So if they have three instructional days left, they will be able to get those three days paid for, but if they traded those days and they had three days that they traded, you wouldn't be able to bring them back from the money in this bill, from what I read.

"The second thing is for instance, the school that my son attends, my understanding is that they did take a pay cut. So if they take a pay cut and now they have their professional days, they took a pay cut, they're coming in, they have the instructional days. Because the teachers took a pay cut, this doesn't allow them to put the money back to reinstate the money that they should be earning whether it be four percent or whatever it might be. But it doesn't allow that because again, it states over here, 'the money appropriated will be expended solely for the purpose of restoring public school instructional days.'

"Now, making a decision. What do I do? Missing also in here is it doesn't have the chance. I think we should have expanded it. If we wanted to, we could have put in the missing language in here. It doesn't have 2009 to 2010, so even if there was agreement ..."

Representative Manahan rose, stating:

"I think somebody should yield their time. Thank you."

Vice Speaker Magaoay responded, stating:

"Her time is not up yet. Representative Finnegan, please proceed."

Representative Finnegan continued, stating:

"Thank you for being so attentive, Representative. The missing '2009 and 2010' language in here doesn't give the flexibility that if they did come back to the table, that we could use this money for 2009-2010.

"And then the last thing, regarding reinsurance. Absolutely, I believe whether or not the Fund says that it could be used for reinsurance or whatever the Fund is called, this pot of money, I realize 100%, understand this to be exactly what the Representative from Ka'u explained it to be. That this is a pot of money that I think we can use for reinsurance purposes. When the Representative from Kaneohe was talking about how this helps the banks and this helps the real estate market. I don't see it as the banks and the real estate market. I see it as the people who ..."

Representative Ching rose to yield her time, and the Chair "so ordered."

Representative Finnegan continued, stating:

"It's okay. I won't be long. Just a short part to this is when you're talking about helping banks and helping real estate. It really is about helping people. There were families that needed to refinance. I was in the business at the time. There were families that needed to refinance. There were families that needed to take cash out to do repairs or whatever to their homes. These are families and people, not banks and the real estate market.

"The reason why they needed that, and the possibility of foreclosure on their home because they didn't have insurance on their home, and possibly a foreclosure of their home. We were helping people. Getting them insurance or getting them this reinsurance so that they could enter the market again so that we could have mortgages on the properties.

"So that's why it's important, Mr. Speaker. It's not, it's a Fund. It also in that time, served us well in our bond rating because they saw this as reserves for the State. So Mr. Speaker, I think in my conclusion, I will be voting no. Thank you."

Representative Takai rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support of this measure. Thank you, Mr. Speaker. The reason why I rise in support is, if we support ending furloughs in our schools we have got to support this bill. If you vote no, you're saying you want furloughs to continue. There's no other option, Mr. Speaker. The Governor even has come down and told us that she urges us to pass this particular bill. We need this bill. If you want furloughs to end, you must support this bill.

"I know we have concerns regarding the Hurricane Fund. Everybody struggled with using the Hurricane Fund, but we need to end furloughs and this is how we're going to do it. Thank you, Mr. Speaker."

Representative Pine rose to speak in opposition to the measure, stating:

"I'll be voting in opposition, Mr. Speaker. But I do want to publicly say that I do support ending furloughs. What I'm against is bad government, and this is bad government. People want to believe in us. That when they

give us their hard-earned dollar, that we're going to use it for what we promised them what we're going to use it for.

"So we promised them that we'll use their dollar for a natural disaster, but instead we're stealing it from them and using it for a manmade disaster. That's what this has been about; a manmade disaster. It has never been about the kids. It always been about a power struggle. And instead of us really being able to take the time to really discuss how we got to this place because of a failure in leaders to really make a strong educational system that really produces the results that our kids need.

"I have struggled with this vote all Session. But in the end, it's the message that we're going to send to these very kids that we're trying to get back into school. And that is, if I promise you that I'm going to give you a dollar if you do this, and then later on, 'Oh you know, I made a mistake. I made a mistake so you can't have that dollar for what I promised you for.'

"To me, this is just really about a vision for the future. Instead right now we're scrambling to pick up the pieces of our mistakes. I'm very proud of all the parents and the students that came here to protest what has happened in the school furloughs because we all are to blame. And we easily just brush them off our shoulders, saying that we're not to blame anymore. We're going to take this money and we're going to use it to end this problem. We're the hero.

"I just can't sleep at night knowing that in 2012, we're going to be exactly where we are today because this funds only the school year for 2010 to 2011. Which fund are we going to raid next? Because the economy is going to be just as bad.

"I want to deeply apologize to all those people who feel that I am against ending furloughs. That couldn't be farther from the truth, and that is why I supported a borrowing of these funds which means that, we tell that kid that we promise to give them a dollar for an action that they would do. And then we'll say, 'You know what? Some bad things happened. I can't give it back to you this time. But I might keep my word that I'm going to give it back to you when I have money again. When I fix the mistake that I made.'

"It's just so important for us to build a trust because by fixing this problem here, we're going to make people happy that they're going to go back to school. But tomorrow we're going to hear from the people that paid into this Fund and we can debate all we want about, well technically this Fund was for something else, so technically we don't need it anymore. Technically FEMA will be here. But we gave our word to the people that we would use this money in relation to natural disasters. What are we going to say when that hurricane hits? God forbid it happens very soon and we don't have the money to deal with the situation. Then we're going to be scrambling once again, Mr. Speaker.

"Again I apologize to my colleagues for disagreeing with you on this issue, and to all the kids, and the teachers, and the parents. I do support you."

Representative Marumoto rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I will be brief. I'm in favor of this bill and I think it's very necessary that we get our kids back into school. I think that's what the citizens out there expect us to do. If there's one thing we should do this year, it is to get our kids back to school. And I would say that the Legislature has done its share. We are putting up $67 million to restore teaching days and I think that our actions speak very loud.

"Now this money will be released pending agreement by all stakeholders in this. All parties must get together at the negotiating table and make this happen via collective bargaining, and that includes the Governor, the Board of Education, the Department of Education, and the HSTA. So we're doing our share. Now it's up to them. The money's there and we've got to get our kids back to school.

"There's a Japanese saying, *'Kodomo no tame ni,*' which means: For the sake of the children. So for that reason, I'm very glad we are passing this measure. Mahalo."

Representative Belatti rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. May I have a ruling on two potential conflicts. My law firm is representing a class of students, public school students, who are challenging the furloughs for this year and next year," and the Chair ruled, "no conflict."

Representative Belatti continued, stating:

"My second conflict Mr. Speaker, is that my daughter will be entering kindergarten at public school next year, and I detest these furloughs," and the Chair ruled, "no conflict."

Representative Belatti continued in support of the measure, stating:

"For that reason, for my daughter, and for the 178,999 other students who are in the public schools, I support this bill. Thank you."

Representative Herkes rose to respond, stating:

"Thank you, Mr. Speaker. Still in support. We established HHRF as a direct insurer so that you could get a hurricane insurance policy on your home so that you go get a loan or whatever you needed to do. And so it was a direct insurance company. You paid the premium into HHRF. When your policy lapsed, you no longer had a financial interest in HHRF.

"To say that we put money in this so that this Fund will help us for the next hurricane, if a hurricane comes, this Fund is not going to go fix your house because this Fund has no interest in your house. And so let's not be misleading the public about this issue."

Representative Thielen rose, stating:

"Mr. Speaker, just a point of clarification. Thank you. I understand what the speaker from the Big Island is saying. What we're saying is, the Fund was put together and sold to the insurance policy holder to buy reinsurance."

Representative B. Oshiro rose to a point of order, stating:

"Point of order, Mr. Speaker. There's no such thing as a point of clarification. She either gets to rebut, or that's it. Thank you."

Representative Thielen: "My point of clarification is that it was to ..."

Representative B. Oshiro: "Point of order, Mr. Speaker. Again, there is no such thing as a point of clarification. Unless she can point it out in this *Mason's,* I would suggest she either rise on a point of order, or a point of inquiry, or you rise on rebuttal. That's it."

Representative Thielen: "I'll do a point of whatever you ask me to say it."

Vice Speaker Magaoay: "Representative Thielen, you have a choice. You have a choice or you sit down."

Representative B. Oshiro: "It's not my choice. I would suggest she read *Mason's* and follow the manual's procedure."

Vice Speaker Magaoay: "Representative Thielen, you have a choice. Or you can sit down."

Representative Thielen: "A point of inquiry, or a point of personal privilege. It was to buy reinsurance. That is ultimately what helped the homeowners because it would bring the insurance market back into the State."

Representative B. Oshiro: "Point of order, Mr. Speaker. A point of personal privilege as defined under *Mason's* section number 223 is not what she's talking about. Thank you."

Vice Speaker Magaoay: "Thank you, Representative Blake Oshiro. Representative Thielen, please sit down. Thank you, very much."

Representative Chong rose to respond, stating:

"Thank you, Mr. Speaker. I just would like to give some comments in rebuttal. First of all, I find myself in agreement with the Representative from Pearlridge. He said it best. A vote of no on this bill is a vote to continue furloughs. Plain and simple. This is it. This is what's in front of us. This is the solution for now.

"Secondly, is to clarify my characterization. Yes, it was for homeowners. I totally understand that. But I was just trying to make the distinction that this isn't to save people's houses or to provide emergency relief. This is an insurance fund just like the Representative from Ka'u and Kailua had said.

"Third. Yes, let us go back to the original intent. Act 339, Session Laws of 1993 when this was originally enacted. And part G, upon dissolution of the fund the net moneys of the Hurricane Reserve Trust Fund shall revert back to the State general fund. Everybody knew this was the deal. This is not what we were talking about necessarily because the Fund is still in existence, but I think everybody knew at the time when the program dissolves, there is no question where the money goes. Is this the perfect way? I'm not sure. But again, this is to ensure we get our kids back into school.

"And lastly, for those who have questions on the balance and meeting our obligation. Like the Representatives from Kailua and Ka'u said, your premium dollars went to purchase reinsurance. Reinsurance being, if we paid $100 million in premiums, you can take that money and provide coverage for say, a $1 billion in asset because the Fund would never have enough money to pay off a catastrophic loss. So where did the reserve come from? The reserve that we see in the Fund now, the $180-plus million is not premium money. This was the homeowner's premium that you see today. This is the surcharge assessment that was paid in part on the conveyance tax. But by in large, property and casualty insurance assessment, motor vehicle, homeowner, commercial reinsurance. Everybody else who had nothing to do with homeowner's insurance paid into this Fund to help capitalize it because premiums were not going to provide enough capital. So the reserves that you see in the Fund are not people's premium left over from the 1990's, but from people who were charged a surcharge on the property and casualty lines. Thank you."

Representative Souki rose, stating:

"Mr. Speaker, as a 'dinosaur' from the 1990's, I call for the question."

At this time, Representative Souki called for the previous question.

At 1:21 o'clock p.m. Representative Takai requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:28 o'clock p.m.

At this time, the Chair announced:

"Members, the question has been called. If you would like to submit your remarks for or against, the Chair will allow you to."

Representative Pine rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Pine written remarks are as follows:

"Mr. Speaker, I rise in opposition against Senate Bill 2124, Relating to the Hawaii Hurricane Relief Fund. This bill will appropriate funds from the Hawaii Hurricane Relief Fund to restore instructional days for the 2010-2011 school year.

"The Hawaii Hurricane Relief Fund was set up in 1993 by Act 339 to provide hurricane insurance for consumers purchasing new homes. After Hurricane Iniki devastated Kauai and Oahu in 1992, private insurance companies refused to offer hurricane coverage in their policies. Hurricane coverage was a requirement in order to obtain a mortgage when purchasing a new home. Therefore, any consumer who chose to purchase a new home had no choice but to purchase hurricane insurance from the Hawaii Hurricane Relief Fund.

"Many of my constituents support ending furloughs, and restoring instructional days, but strongly oppose raiding the HHRF as the solution. Some would like the money they paid into the Fund refunded to them. Others believe that the HHRF should be set up as a rainy day fund in order to address future disaster mitigation.

"Some believe that the Fund should stay as is. In the event of a future hurricane, there is a possibility that private insurance companies could once again refuse to issue hurricane coverage. The HHRF would address this issue once again, and begin issuing hurricane policies immediately.

"On a fiscal note, the vast sum of money sitting in the HHRF is a benefit to the State of Hawaii. Having a large cash reserve is a positive impact on the State's bond rating. Raiding the HHRF could have a negative impact on the State's credit.

"Mr. Speaker, I support ending furloughs and restoring instructional days, but strongly believe that there were other solutions. Stealing money from the homeowner and raiding the HHRF was the easy solution. This Body should have found a more creative and bolder solution that would put children back in the classroom."

Representative Finnegan rose, stating:

"Mr. Speaker, I'm going to change my vote to a strong reservations Mr. Speaker, because this penalizes Mr. Speaker, those who made good decisions for our kids."

Representative McKelvey rose in support of the measure and asked that the remarks of Representatives Marumoto, Chong and Herkes be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Ward rose, stating:

"Mr. Speaker, I have a point of personal privilege with the Majority Whip. He infused the TAT tax increase with a Minority's balance budget being that we took 20% of it. He implied ..."

The Chair addressed Representative Ward, stating:

"Representative Ward, that doesn't pertain to the bill before us."

Representative Ward: "So a point of personal privilege has no place before a call for the vote? Is that what you're saying?"

Vice Speaker Magaoay: "The debate is over."

Representative Ward: "The point is he misspoke."

Representative B. Oshiro: "Point of order, Mr. Speaker. Under *Mason's*, a point of personal privilege is only when a Representative has been aggrieved in their professional capacity as a Representative."

Representative Ward: "I spent hundreds of hours on that on-line budget."

Vice Speaker Magaoay: "Representative Ward, would you please sit down? A call for the question has been made. Either you're for the bill or ... Yes, Representative Ward."

Representative Ward: "I would like to rebut what otherwise in a democratic process you can usually say freely and openly as they do in the Senate. I have not changed my position of being for this measure with reservations."

Representative Keith-Agaran rose in support of the measure and asked that his written remarks, and the remarks of Representative Takai be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Keith-Agaran's written remarks are as follows:

"Thank you, Mr. Speaker. I support S.B. 2643 S.D.2 H.D.1 C.D.1 which appropriates funds from the Hawaii Hurricane Relief Fund to restore instructional days for the 2010-2011 school year. If there was one task the Legislature needed to address this year, it was to provide funding to restore instructional days to our public schools.

"It is pointless for the Legislature to place blame for the existence of Furlough Fridays. It is what it is. I do not doubt that Furlough Fridays resulted from difficult decisions made by the Governor in restricting educational funds and by the board of education, Department of Education, and Hawaii State Teachers Association in addressing those restrictions in part with school furlough days. Hawaii's children have lost almost three weeks of instructional days during the current school year and stand to lose between seventeen to twenty-one days during the next school year.

"Prior to school furloughs the Hawaii Public School system was already struggling. If we believe the rhetoric that our children are our future, the Legislature must fulfill its role as appropriator of public funds to set aside the moneys that will be required to eliminate Furlough Fridays.

"As our colleague from Waiau has summarized, this is the only vehicle before us to address the furloughs and a vote against the bill is a vote to do nothing.

"I urge my colleagues to vote in favor of this measure."

Representative M. Oshiro rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Oshiro's written remarks are as follows:

"Mr. Speaker, I rise in support of Senate Bill No. 2124, Conference Draft 1, Relating to the Hawaii Hurricane Relief Fund. This bill appropriates $67 million from the Hawaii Hurricane Relief Fund to restore public school instructional days that were lost because of furloughs resulting from the collective bargaining agreement between the Governor, the Board of Education, the Department of Education, and the Hawaii State Teachers Association.

"I would like to explain the reasons why I support this bill:

"As stated in the purpose clause of the bill, Hawaii is in the midst of the most challenging economic times it has ever faced. To address this situation, the Administration, the Board of Education, the Department of Education, and the Hawaii State Teachers Association took the unprecedented step of instituting furlough days for Hawaii's educational system, resulting in the loss of nearly three weeks of instructional days during the current 2009-2010 school year and anywhere from seventeen to twenty-one days during the next 2010-2011 school year.

"This Legislature found that the loss of these instructional days may have profound impact on our youth. Not only will this be devastating to the quality of their education, but it may undoubtedly affect their ability to thrive in the workforce. It is essential that we provide our young citizens with the basic skills needed to enter a post-high school educational endeavor, obtain and retain good-paying jobs, and that can only happen if our educational system is providing essential skills to our youth.

"From a public policy standpoint, this bill stands as a major shift from the way things were done in the past. Never before has the Legislature approved additional resources to supplement a previously approved collective bargaining agreement for a single bargaining unit over those of all the others. And already, the ramifications of this policy shift are reverberating among the halls of the public sector unions, likely causing many to reevaluate the way they will need to negotiate their contracts in the future to survive. They will also need to find better ways of obtaining public acceptance and support for their cause. Still, this is an unprecedented act of the Legislature to open its purse strings and allocate a sum of money, no more or less, and leave on the table for the bargaining parties to expend.

"Be that as it may, by supporting this bill, we are stating that education is of utmost importance to the prosperity, health, and growth of the entire State – that despite the realities of severe budget cuts, the elimination of programs and services, and the need to look for additional sources of revenue, this Legislature saw fit to appropriate $67 million in extremely limited resources to send our kids back to school. Never before had we had to do this. And hopefully, with the recovery of our economy, we will never have to do this again.

"For the record, Mr. Speaker, I want to make three very important points. First, to all of the public sector unions, I urge the bargaining representatives to work together for the benefit of all. Desperate times have called for desperate actions, and it is in that context that this bill should be viewed. It should in no way be construed as the Legislature putting one bargaining unit ahead of the rest. During these times of reduction-in-force, furloughs, and pay cuts, solidarity among the collective bargaining units is even more essential.

"It needs to be emphasized over and over that the current Administration that created this debacle will only be with us for less than six more months. I ask that our public union leaders and all good men and women in our public sector not allow the "seeds of resentment" to find fertile ground among your members. Seek *lokahi* and *laulima* and ensure that the "seeds of dissention" scattered among you by Governor Lingle will not be given any room to grow. Her Administration is coming to its unimpressive ending. We must heal these wounds and stand committed to preserving what is best for the common good and those who remain.

"Second, there is a misconception that the use of funds from the Hurricane Relief Fund is somehow a misappropriation of public moneys for unintended purposes. I want to make very clear that there is nothing inappropriate in using these funds to end furloughs.

"When the Legislature established the Hawaii Hurricane Relief Fund pursuant to the enactment of Act 339, Session Laws of Hawaii 1993, it was to ensure the continued provision of mortgage lending and commercial loans in the State. After the devastation caused by Hurricane Iniki and a worldwide insurance crisis precipitated by numerous natural disasters, property and casualty insurers in Hawaii were not able to obtain sufficient reinsurance – or insurance for the insurance companies to resolve simultaneous catastrophic claims for an entire region – to cover risks in this market. Many private insurers left Hawaii's market, or specifically excluded windstorm risks from homeowners' policies. Without that type of coverage, mortgage lenders refused to lend capital for the purchase of property, and unless something was done, this situation could have had a devastating impact to our economy.

"Accordingly, the Legislature created the Hurricane Relief Fund to "assess the availability of insurance from all sources and be empowered to take steps to provide coverage should the private market prove unreliable." Conceptually, the Hurricane Relief Fund was similar to the Joint Underwriting Plan utilized under Hawaii's No-fault Motor Vehicle Insurance Law which allows persons who are unable to obtain coverage through private insurers to obtain coverage in a manner that the risk to be spread among the entire market.

"In 2002, the Legislature enacted Act 179. SECTION 1 of the law is informative:

". . . The legislature finds that it is necessary to make the best possible use of all available resources, including using funds from the inactive hurricane reserve trust fund. This fund was originally created to provide hurricane insurance coverage to Hawaii homeowners during a

period when private insurance was unavailable or prohibitively expensive. Now that private insurance is readily available at reasonable prices, the fund is no longer issuing policies and the balance of the fund is unused. . ."

It should also be noted that Section 431P-16, Hawaii Revised Statutes, states:

". . . Money in the hurricane reserve trust fund may be. . . disbursed upon dissolution of the Hawaii hurricane relief fund; provided that. . . the net moneys in the hurricane reserve trust fund ***shall revert to the state general fund*** *after payments by the fund . . ." [Emphasis added.]*

"It is clear from the legislative history that the proceeds in the Hurricane Relief Fund were intended to address the lack of adequate property and casualty insurance coverage during the 1990, when private insurers left the Hawaii market. The Hurricane Relief Fund was a stop-gap measure modeled after the Joint Underwriting Plan to address this temporary situation. And when the market stabilized, the moneys in the fund were intended to revert to the General Fund.

"Mr. Speaker, the moneys in the Fund should be viewed as premiums for any insurance policy. During the term of coverage, the State indemnified the policy-holders for a premium. Once the term ended, the premium is kept by the indemnifier. That is its earnings for the risk covered. Would you expect Island Insurance to give back the premium to a motor vehicle insurance policy holder once the term ends if the policy holder didn't get into an accident? Would anyone expect HMSA to send us a rebate check if we were to go through a year without seeing the doctor for a cold? Or, does anyone really expect to receive a refund check from State Farm if we did not suffer any house fire or any wind and rain damage during the year? The same holds true here.

"Finally, my third point is this – Senate Bill No. 2124, Conference Draft 1, and its deviation from the past and traditional collective bargaining funding decisions of the Legislature is warranted to address an emergency occurring in our public schools that keeps our students out of their classrooms for far too many days. It is the exigent circumstances of the instant circumstance and it is not intended to establish a new approach to collective bargaining practice and procedure under the provisions of Chapter 89, Hawaii Revised Statutes, but is solely limited to addressing the present existing contract between the DOE, BOE, HSTA, and Governor regarding the School Years 2009-2011 and the teacher furloughs set forth therein.

"The parties, especially the DOE and BOE and HSTA should also take notice that in its Supplemental Agreement entered into between the parties, dated March 24, 2010, and ratified by the members of the HSTA on or about March 31, 2010, and paragraph 7, pertaining to funding levels contained with the Supplemental Budget Act of 2010, therein should not be viewed as having any bearing on or relevance to the decision of this Legislature to appropriate $67 million dollars in the instant bill. In fact, but for the fact that I had received a letter addressed to me, dated April 23, 2010, from Acting Superintendent Kathleen Matayoshi, expressing that the parties to the contract do not intend to effectuate the terms of the furlough provisions notwithstanding its placement in their Supplemental Agreement, I would not have supported this measure until such provision was stricken and made my public displeasure of such artifice even more acute and sensational.

"Mr. Speaker in this Member's humble opinion, such provision is null and void as against public policy and a clear violation of established constitutional powers reserved exclusively for the Legislative branch and future Board of Education members and Department of Education administration should reconsider such offensive and unconstitutional provisions in future agreements.

"For these aforementioned reasons, I urge my fellow colleagues to support this bill."

Representative Awana rose in support of the measure and asked that her written remarks, and the remarks of Representative Takai be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Awana's written remarks are as follows:

"Thank you, Mr. Speaker. I stand in strong support. The purpose for this measure is to restore instructional days to our public schools. As a legislative body, because it is within our power to assist in this national embarrassment, I would encourage strong support for this bill. We cannot continue to have our students, young adults, our future leaders to go without. Someday, they will be influential in families, our neighborhoods, and our State and even in some cases, in our nation.

"Now is the time to empower our students with the skills needed to succeed in life. These skills are acquired in the classroom with teachers. This bill will provide the means for teachers to return to school and back in our classrooms with students. We can choose to do something, or do nothing, and I choose to do something and support this measure. This is the only measure – the only measure Mr. Speaker, that will get students and teachers back in the classroom. For these reasons, I stand in strong support. Thank you, Mr. Speaker."

Representative Sagum rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Sagum's written remarks are as follows:

"Mr. Speaker, I rise in support of SB No 2124, SD2, HD1, CD1, that authorizes the use of the Hawaii Hurricane Relief Fund for restoring instructional days in our schools. Though I understand the concern about hurricanes on Kauai and the resulting issues affecting real estate transactions, I am equally concerned about our children's education, and support using this Fund (a program that has expired) to get our children back to school. This action sends a message urging the Governor and applicable labor unions to come to an agreement to end furlough days and restore our children's instructional days."

Representative M. Lee rose in support of the measure and asked that her written remarks, and the remarks of Representative Chong be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative M. Lee's written remarks are as follows:

"I rise in support of SB2124, SD2, HD1, CD1, which provides $67 million from the Hawaii Hurricane Relief Fund to end teacher furlough days at our public schools.

"Education is our most important priority and hopefully the Governor and all the concerned parties will soon agree to end the furloughs. I believe it was a misguided attempt to save money, and has had a damaging effect on our school system. I am grateful that we have passed HB2486, which requires minimum instructional hours to be phased in over the future years. We must not let furloughs happen again in our public schools.

"I urge the Members' support for SB2124."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2124, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII HURRICANE RELIEF FUND," passed Final Reading by a vote of 50 ayes to 1 no, with Representative Pine voting no.

At 1:31 o'clock p.m., the Chair noted that the following bill passed Final Reading:

S.B. No. 2124, SD 2, HD 1, CD 1

Conf. Com. Rep. No. 158-10 and S.B. No. 2469, SD 2, HD 2, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that S.B. No. 2469, SD 2, HD 2, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Mizuno rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Mizuno's written remarks are as follows:

"Mr. Speaker I rise in support of SB2469. In 1999, the Legislature established the Emergency and Budget Reserve Fund as a temporary supplemental source of funding for the State of Hawaii in times of emergency, economic downturn, or unforeseen reduction in revenues. As set forth in section 328L-3, Hawaii Revised Statutes, specific purposes for the Fund include the maintaining of levels of programs determined to be essential to public health, safety, welfare, and education.

"The House and Senate Human Services Conference Committees determined that difficult economic times and declining tax revenues have resulted in budget cuts for all State services, and that some of the most vulnerable and needy members of the community will be the hardest hit by the reduction in services. Therefore, the Conference Committee finds that funding of certain programs and entities such as community centers, domestic violence shelters, the Shelter Plus program and housing placement services allows members of the community to continue working as opposed to being forced to quit their jobs due to economic downturn or personal difficulties. Funding programs such as respite services, the Kupuna Care Program, Volunteer Legal Services Hawaii, the Legal Aid Society of Hawaii, the Hawaii Family Law Clinic and the employment core services of the Office of Community Services promotes the hiring or retention of current staff positions, all of which in turn keeps our citizens working and fosters a stronger economy.

"Mr. Speaker and Members, during the most difficult recession in our State's history, we needed this bill to ensure essential services to Hawaii's most needy. We provided funding for services such as *kupuna* care, Meals on Wheels, domestic violence services and shelters, services for the disabled, immigrant services, caregivers, care homes, medical centers for sex abuse victims, gang reduction funding for Adult Friends for Youth, child care subsidy services, substance abuse treatment, housing for the homeless, HIV/AIDS services, mental health, uninsured healthcare for children, legal services, senior centers, and respite care. Today defined us as a State that cares for its most needy residents.

"I humbly ask all Members to support the passage of this most important bill for Hawaii's future."

Representative Pine rose to speak in support of the measure with reservations, stating:

"Yes, Mr. Speaker. In support with just some reservations. Now this is a Fund that is good government because this is the Emergency and Budget Reserve Fund that was meant specifically for social services. That's what we promised the people of Hawaii that this would be for and so I'm very proud that we have kept our word to the people of Hawaii and we didn't use it for something else that it was supposedly going to be used for earlier this Session.

"My only reservation is that this is almost like a grant-in-aid list all over again, and I would have liked to see maybe a little bit more discussion. I know there was some in the Committees and stuff, but it wasn't something that was discussed a little bit more openly in this forum. So I really didn't see what was going to go into this until just a little while ago, but I'm very happy that we are going to help all those social services that are really truly the ones that are in need of these funds being used."

Representative Cabanilla rose to speak in support of the measure, stating:

"In support, Mr. Speaker. And I'll be very brief. I just would like to thank the Chair of Human Services, as well as the Chair of the Finance Committee and the members, and also the Way and Means Committee in the Senate, and the Human Services Committee in the Senate for thinking about the homeless population. I think if there's one blatant environmental issue that we need to take up in this Chamber, it is the blight that we see all the time. The things that we read in the paper, and the things that we're being criticized about of not taking care which is the homeless population. And I'm glad that even though it might like a grant-in-aid list, I'm happy it came about because we do need this funding for the homeless. Thank you, Mr. Speaker."

Representative Yamane rose to speak in support of the measure, stating:

"I'm standing in strong support, would like the written comments of the Chair of Human Services inserted as my own, as well as additional comments. Thank you."

Representative Yamane's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in strong support of S.B.2469, Relating to the Emergency and Budget Reserve Fund. This bill seeks to preserve programs that service the State of Hawaii's most vulnerable populations. By allocating moneys from the emergency and budget reserve fund to education, human services, and health programs, we will be ensuring that the shortfall in our budget does not translate into a shortfall in services that affect the wellbeing of our people.

"The passage of S.B.2469 will allow the State to maintain valuable programs including Healthy Start with an appropriation of $1,500,000, Senior Centers with an appropriation of $950,000, Kupuna Care with an appropriation of $3,000,000, programs that provide meals for the elderly with an appropriation of $500,000, Mental Health programs with an appropriation of $1,500,000, Keiki Care with an appropriation of $600,000 and Kokua Kalihi Valley with an appropriation of $500,000.

"With programs helping everyone from the *keiki* to the *kupuna*, I ask that you support the people of the State of Hawaii by standing in support of this bill."

Representative Shimabukuro rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, I just need a ruling on a potential conflict. I work at the Legal Aid Society of Hawaii," and the Chair ruled, "no conflict."

Representative Shimabukuro continued in support of the measure, stating:

"I just want to send a quick *mahalo* to the many advocates who made this possible. We see all the green shirts of FOCUS up there. KKV, AARP, Lanakila Pacific, and many, many others that worked hard on this measure. That's so important for the safety net. Thank you."

Representative Ching rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in strong support of S.B.2469 - Making an Emergency Appropriation for the Department Of Human Services to Address the Budget Shortfall for Hawaii QUEST.

"I support the services that these programs provide to those in need. I applaud the work of Kupuna Care Services, Catholic Charities Hawaii and Lanakila Senior Center, the Weed and Seed Program, and Moiliili Community Center, to name a few.

"As a longtime supporter of the business sector, I feel that using our tax base to fund these essential services will reduce the cost impact of Hawaii's future by providing aid to those who are most in need in this economic downturn. Thank you."

Representative B. Oshiro rose to disclose a potential conflict of interest, stating:

"May I have a ruling on a potential conflict. I am on the Board of Directors for Legal Aid. Thank you," and the Chair ruled, "no conflict."

Representative Brower rose to speak in support of the measure, stating:

"Mr. Speaker, in support. And may I yield my space in the Journal to Chair Mizuno?"

Representative Aquino rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. May I submit written comments in strong support."

Representative Aquino's written remarks are as follows:

"Mr. Speaker, I rise in strong support of this measure. This bill is very timely, in fact overdue because it is a 'rainy day.' As you know Mr. Speaker, it has been raining for some time now due to the fiscal realities our State is facing.

"The purpose of this bill is to appropriate money from the Emergency and Budget Reserve Fund or the 'Rainy Day' fund to maintain key important programs and services needed by our communities. These educational, health, and human services programs are essential to many residents throughout the State because of the tough economic times we face. The budget cuts have negatively affected State services, affecting many within our needy and vulnerable populations. The appropriations in this bill, Mr. Speaker, will ensure that needed programs and services may continue to service those who need it most. For this reason, I support Senate Bill 2469."

Representative Nishimoto rose in support of the measure and asked that the remarks of Representative Mizuno be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2469, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE EMERGENCY AND BUDGET RESERVE FUND," passed Final Reading by a vote of 51 ayes.

At 1:35 o'clock p.m., the Chair noted that the following bill passed Final Reading:

S.B. No. 2469, SD 2, HD 2, CD 1

Conf. Com. Rep. No. 159-10 and H.B. No. 2774, HD 2, SD 2, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.B. No. 2774, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO HUMAN SERVICES," passed Final Reading by a vote of 51 ayes.

At 1:36 o'clock p.m., the Chair noted that the following bill passed Final Reading:

H.B. No. 2774, HD 2, SD 2, CD 1

Conf. Com. Rep. No. 52-10 and S.B. No. 2405, SD 2, HD 1, CD 1:

By unanimous consent, action was deferred one legislative day.

Conf. Com. Rep. No. 139-10 and H.B. No. 1948, HD 1, SD 1, CD 1:

By unanimous consent, action was deferred one legislative day.

Representative Morita, for the Committee on Energy & Environmental Protection presented a report (Stand. Com. Rep. No. 1382-10) recommending that H.R. No. 47, as amended in HD 1, be adopted.

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.R. No. 47, HD 1, be adopted, seconded by Representative Evans.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition and in mourning. What does that mean? It means that this resolution is a very poor substitute for which otherwise was probably the best bill other than getting rid of the furloughs in this Session.

"Mr. Speaker, this is a bill that would have put solar photovoltaic on every roof. It went through all of the House. It went through all of the Senate. And then suddenly, it died. Mr. Speaker, we have given so much attention to Hawaii Clean Energy, to self sufficiency, to getting rid of this $7 billion that we export every year, and we turn an otherwise golden piece of legislation into a resolution.

"We are damning with faint praise, as Shakespeare said, that which we should be holding up and saying, 'Yes, I'm proud to be a Member of this Legislature because of the good things that we did.' And I was proud to speak about this in so many places until suddenly, at the very end, at the 11th hour, this bill morphs from being a substantive, progressive, economically, viable, saving the footprint, saving the environment, saving the world to what now is a weak reso saying, 'Well, we're going to study the problem.'

"That's why we have Committee hearings Mr. Speaker. So we can work out differences. So special interests, whether it be the bankers, or the counties that don't get this yet because they don't see the lessons or follow them, that have already been on the mainland for a number of years.

"I see no excuse for this particular resolution. I see no excuse for us not putting photovoltaic on the roofs of the people, for solar energy on the roofs of the people, and because they have not been able to front the money for the last 30 years we haven't even gone beyond 25% with solar water heating and this would have pushed us way, way, way into the head, not only of the nation, but in the world.

"So Mr. Speaker, for those who stand up and say, 'Well that's not really true. We're going to do it next year.' I hope they really mean that because everybody meant it when they saw this bill before, that we meant business with getting rid of this dependency on oil. And for those who cried for the barrel tax, and those who cried for all of the other taxes to make this happen, I hope they can cry out for those people who are not going to have the solar on the roof, or the photovoltaic because we promised and then we took it away. For those reasons, Mr. Speaker, this is a great disappointment to see the best bill this Session other than furlough removal to be turned into a resolution. Thank you."

Representative Morita rose to speak in support of the measure, stating:

"Thank you Mr. Speaker, I rise in support of this resolution. Without a doubt, some would like to give the impression that political posturing and bickering was the sole reason for the demise of House Bill 2643, the Property Assessed Clean Energy Program. The Speaker and I have taken the brunt of criticism for not moving House Bill 2643 into Conference, but it would probably be the Speaker and myself that would be saddled with the responsibility of mitigating inadvertent consequences of a half-baked idea.

"If one were to take a pragmatic and reasoned approached in analyzing House Bill 2643, simply put, it was not ready for 'prime time.' PACE is a property tax lien oriented financing that can be used as a tool to improve the economics of energy retrofits where the biggest barrier to their installation is coming up with the upfront cash to make such improvements.

"Unfortunately, PACE is a relatively new program fraught with lots of buzz and attractive sound bites. After all, who doesn't want to promote easy financing for clean energy? Let me make this very clear. There is nothing in statute that prevents each county within Hawaii from instituting a PACE program on their own. House Bill 2643 proposed floating State bonds and establishing a State revolving loan fund to filter funding to the counties for loans for property owners to install clean energy improvements where the loan repayments will be made through special assessments in the collection of property taxes. This is very different from what is happening in mainland cities where municipalities who are directly

responsible for assessing and collecting property tax are adopting the program by floating municipal bonds, not state bonds.

"Friday evening, while the mayors waited for word on the TAT bill, three out of four mayors, and I just didn't run into the fourth mayor, they pulled me aside to thank me for passing this resolution and not moving forward too quickly with the PACE bill. The mayors of each of our four counties were not totally sold on PACE and without buy-in from the counties, PACE simply will not work.

"So I guess the first question to be asked is, why should we move forward on a program that the counties are ambivalent about? As each county faces reduced revenues and budget shortfalls, the creation and administrative cost of a new program is of serious concerns and these issues were not resolved by the time the bill reached Conference stage.

"And Mr. Speaker, you probably have heard that the mortgage lenders are concerned about the priority of liens and rightfully so. This concern is not only being raised by Hawaii lenders alone, but lenders across the country. In a *Wall Street Journal* article, and just let me read this one part to you.

"It said, this debt would be senior to existing debt so if the homeowner defaults or goes into foreclosure it will be repaid before the mortgage lender gets any money. While property tax assessments are usually senior to existing property debt, cities have traditionally used their assessment authority for community-wide improvements like sewers and roads. Not for upgrades that homeowners elect to make on their own homes.

"You know, one of the challenges of PACE is ensuring that the bond rate, the interest rate for assessment and the administrative fees associated with the program are affordable and attractive enough to make the program a success. Currently, mortgage and home equity interest rates are very low and in many cases on the mainland people who initially signed up for PACE dropped out because it was far cheaper for them either to restructure their mortgage, or draw on their home equity.

"In an analysis for the Berkeley PACE program, it was found that property owners who were credit worthy and did not have a problem securing financing, just had to be motivated to make these improvements. Therefore, if PACE cannot compete with traditional financing, there may be a propensity for PACE programs to attract less worthy property owners."

Representative Wakai rose to yield his time, and the Chair "so ordered."

Representative Morita continued, stating:

"Thank you, Representative. Well just let me finish up. Mr. Speaker, overzealous proponents of PACE, like the Administration, may feel that this is a serious setback in our advancement for renewable energy and energy efficiency. However, it's not the lack of a PACE program that will put a brake on Hawaii's Clean Energy Initiative, but lack of funding overall to carry out the long-term strategy for energy and food security in Hawaii. It's the Governor's veto of the barrel tax last year, and again yesterday, that gives Hawaii's energy security strategy an uncertain future.

"All of the Energy Division's special funds and stimulus money will be sucked dry by the end of the next fiscal year, and their general funding will be jeopardized like any other program if we fail to fund this Division with a dedicated tax. The reality could be that there won't be anybody to run a PACE program in the next Administration. So for these reasons, I strongly support a cautious approach in adopting this program. Thank you."

Representative Ching rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. Again, it's with heavy heart that I have to rise in opposition to this resolution. Because when I experienced the testimony in the Committee, I just couldn't with good heart, with the people and the faces you could see, vote even with reservations on it. And I'd like to at this time just read the testimony of the Sierra Club.

Testimony in opposition to HR47. Chair Morita and Members of the Committee:

The Hawaii Chapter of the Sierra Club opposes HR 47, which requests DBEDT work with "interested parties" and the counties to resolve purported problems with the Property Assessed Clean Energy program.

This resolution conflates questions - that have ready answers - to the level of "problems" seemingly to justify the House's current failure to act on HB 2643. This is a flimsy reed to stand on. By this summer, over 300 counties and one other state will have a fully functional PACE program. The details of these successful programs have been worked out. Hawaii, for a lack of political will, has yet to join them.

This is a little bit of a tale of two cities. The federal government, under Vice President Biden, just announced that 25 communities would be eligible to receive up to $452 million in Recovery Act funding to establish PACE programs. On the other hand, HR 47 seems to imply our proposed PACE program has problems without giving it a chance to set up.

On the 40th anniversary of Earth Day, wouldn't it be better to advance HB 2643 and attempt to capture some of the federal funds that are available? This act of political courage would not only create new green jobs in Hawaii, but it would also help your constituents save money and move the state towards meeting our renewable energy goals. Thank you for the opportunity to testify. Robert D. Harris, Director.

"Thank you."

Representative Takai rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support of this. Thank you. I'd like the words of the Chair of the Environmental and Energy Protection Committee entered into the Journal as if they were my own. Thank you.

"I don't think it's doomsday. In fact, I just wanted to educate our colleagues. As you know I'm a proponent of photovoltaic, and I just want you to know that currently, right now in the industry, things are going quite well. In fact, if you can't afford the $15,000 it costs to buy the system upfront, and then get the $10,000 in tax credits later, unfortunately a little later than we had expected, there are companies out there that are allowing homeowners to get interest-free loans that'll cover the amount of money that you will then get in tax refunds.

"So although this bill didn't pass, I think out there in the industry and out there in our communities, photovoltaic is being embraced and we should start looking at that area. In addition, Mr. Speaker, I think working with our Chair of Energy and Environmental Protection, we can be assured that the lenders of this State, the banks of this State will look favorably on installation of these types of systems. So although it's going to take us maybe a little bit longer to get this particular initiative passed, I think we should start taking a look at the opportunities that we have now in encouraging our constituents to take a look at this type of energy capture. Thank you."

Representative Thielen rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. Mr. Speaker, I'm rising with reservations on this measure. Thank you. Just so Members know, this isn't a House Concurrent Resolution. It's simply a House Resolution. And according to the Department of Business, Economic Development, and Tourism Director, Ted Liu, it's not necessary. So I'm going with reservations, but it's not necessary and it did use a lot of paper. Sorry about that.

"Director Liu was very articulate before our Committee, and in fact I believe he deserves a tremendous amount of credit from the Legislature and the people of Hawaii for all of his wonderful work in moving this State forward more than any other person with renewable energy. He's been outstanding. I would like Mr. Speaker, to have his testimony inserted in the Journal. I think it is three or four pages.

"The PACE program is going to go ahead, and as Director Liu indicated, this resolution isn't necessary. He's already pulling these groups together. They're working on it to implement the PACE program.

"The big loss is that Hawaii may not be able to tap into the federal money for the program that's being lead by Vice President Biden. I guess it's ARRA funding, and as my colleague from Liliha mentioned, it is $452 million. Had Hawaii been moving ahead with the bill becoming a law, which of course the Governor would have signed because this was her program, her objective to get this through. If we had moved ahead we would have been able to tap into some of that money, and that would have benefitted all the homeowners in this State that want to get into a PACE program.

"So I think that this is, once again where the Legislature doesn't show vision, doesn't show leadership, but it's happening instead or in spite of us, because it's being lead by Director Liu and by the Governor. Thank you."

Representative Thielen submitted the following testimony:

HR 47 Proposed HD 1

REQUESTING THE DEPARTMENT OF BUSINESS, ECONOMIC DEVELOPMENT, AND TOURISM TO WORK WITH THE COUNTIES AND OTHER AFFECTED PARTIES TO RESOLVE THE PROBLEMS WITH THE CLEAN ENERGY BOND/PROPERTY ASSESSED CLEAN ENERGY (PACE) PROGRAM BILL

Chair Morita, Vice Chair Coffman, and Members of the Committee.

The Department of Business, Economic Development, and Tourism (DBEDT) has concerns with the language of the proposed resolution. We are working with the counties and others to develop the best possible program, so this resolution is not needed. We are also concerned that the actual program and its intent are not accurately described in the resolution.

Had the clean energy bond bills been scheduled through to conference committee it would have been demonstrated that:

1. A collaborative and cooperative effort with the respective counties will be established through the formulation of an Advisory Council on the PACE program. This council will actively address the needs and issues relating to PACE program implementation.

2. The counties have already been informed that they will receive monetary and structural support to assist in the collection of the PACE assessment lien.

3. The administrative rules will be based on successful programs established in nineteen other states; this will address lenders' concerns.

We would like to take this opportunity to answer the questions presented in HR 47, Proposed HD1:

(1) What is the true burden on the counties with respect to administering the program -- for example, without limitation, the upgrading of software, separating the collection of regular real property taxes from loan repayments, and the handling of liens;

Answer: It has been communicated and established with the counties the existence of an operating budget with the PACE program and in conjunction with the PACE program Administrator to assist in the additional software and accounting requirements necessary for successful program implementation. In addition, passing this legislation this year would enable the ability to access stimulus money that will not be available next year.

(2) What jurisdiction should be responsible for underwriting loans and foreclosing on those loans when property owners default -- county or State

Answer: It has been established that the State will hire an independent PACE program Administrator that will possess the underwriting background to conduct the underwriting process and be actively involved in assisting the counties in the foreclosure process.

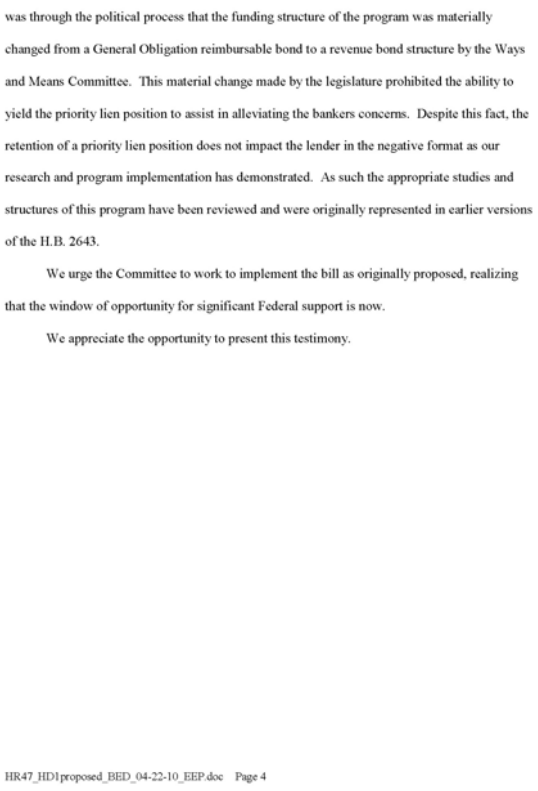
(3) Whether property owners with clean energy loans fully understand that their loan repayments will be in addition to their regular real property taxes and that they should not expect to be shielded from probable real property tax increases in the future

Answer: The establishment of the administrative rules would require disclosures to borrowers by the local government of the risks involved in borrowing, including the risk of foreclosure if a tax delinquency results from a default.

(4) Whether the interest rates on the loans will be affordable to most homeowners, given that the loan repayments must cover the entire debt service on the bonds plus state and county administrative expenses;

Answer: The original funding Structure of the GO reimbursable bond along with all encompassing administrative fees would have provided a very competitive fixed interest rate for the homeowner. Per White House guidelines at: Pacenow.org; principle that cost of paying off measure to be less than the cost of energy avoided.

(5) What type of government bonds should be issued for the program, given that the bonds changed from general obligation bonds to reimbursable general obligation bonds to revenue bonds through the different committee drafts of H.B. No. 2643



Answer: The original structure of H.B. 2643 had general obligation reimbursable bonds to provide for a less risky, more competitive interest rate to the homeowner. When the funding structure was changed by the Ways and Means Committee to revenue bonds, the retention of the priority lien status became critical for the program viability. General obligation reimbursable bonds would be the preferred structure to provide the best rates.

(6, 7) Questions:
Whether the interest rate, terms, and conditions of clean energy loans will in actuality be more advantageous than home equity loans to fund renewable energy systems; and

What the effect will be of prioritizing the clean energy loan lien above mortgage liens -- for example, will the subordination of mortgage loans result in higher mortgage interest rates in participating counties;

Answers: A home equity loan is a variable rate, meaning it can rise over time and the spending of the proceeds is solely at the discretion of the owner, meaning that there is no assurance that the consumer will utilize the proceeds for energy saving measures. A home equity loan is not for the public good. In addition, liquidity remains tight at the banks and the banks are not currently providing adequately enough to the energy loan space. The clean energy loan is a fixed competitive rate whereby the proceeds are directly disbursed to qualified contractors for the permanent instillation of energy saving equipment. PACE is for the public good. Further, as this loan program is classified as a special tax assessed lien, the effect on a lender is minimized by the fact that PACE loans are not accelerated by the triggering event of default. Anytime an increase in property tax or new assessment is levied on a property with an existing first mortgage, the lenders response is to increase the reserve amount required to be held in escrow to ensure the timely payment of taxes and assessments without the need to adjust the borrowers LTV and qualifying ratios. PACE is classified as an assessment and treated in the same manner.

We believe that the original structure of this legislative measure was conducive to its success in that it was modeled after many successful programs that are currently implemented. It

was through the political process that the funding structure of the program was materially changed from a General Obligation reimbursable bond to a revenue bond structure by the Ways and Means Committee. This material change made by the legislature prohibited the ability to yield the priority lien position to assist in alleviating the bankers concerns. Despite this fact, the retention of a priority lien position does not impact the lender in the negative format as our research and program implementation has demonstrated. As such the appropriate studies and structures of this program have been reviewed and were originally represented in earlier versions of the H.B. 2643.

We urge the Committee to work to implement the bill as originally proposed, realizing that the window of opportunity for significant Federal support is now.

We appreciate the opportunity to present this testimony.

Representative Pine rose in support of the measure with reservations and asked that the remarks of Representatives Ching and Thielen be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Luke rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. In strong support. I disagree with the arguments by the prior speaker from Kailua. I think if there was anyone with vision and the foresight to push Hawaii toward a renewable future it was our Chairperson of EEP from Kauai. She was personally recognized by the Governor as having the vision.

"And in fact, I think because of her vision we are here today. Unfortunately, it was the current Administration and the Director that put obstacles in the way of her fulfilling some of the things that she wanted to do. Thank you."

Representative Ward rose, stating:

"Mr. Speaker. May I request permission to ask the Chair of EEP to submit to a question?"

At 1:55 o'clock p.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:56 o'clock p.m.

Representative Ward rose to respond, stating:

"Mr. Speaker, I rise for the second time in rebuttal of the last statement. I was just clarifying that the Chair of EEP did say, and in reality there may be no one in the next Administration to administer this program. That was confirmed as the statement that was made.

"I find that shocking. I find that a huge disappointment regardless of whether it's Republican, or Democrat, or Independent. There should be no reason why this program does not go forward. She mentioned a lack of staffing, a lack of funding. Mr. Speaker, this is more important than this little Body, or who's Chair, and who's Speaker. This is an international energy issue which this State has to get the political will. And because of that statement, I think this doesn't pass the 'smell test.' If we don't have the political will to do this, we will never get our kids back in school. We'll never get our economy to turn around.

"This measure, in and of itself is a litmus test to how serious we are to making us a world class, energy self-sufficient place. And if we can stand up as the Chair of EEP and say, 'Well we may not have the will, or the money to have anybody to champion this program in the next year.' I find that disconcerting. So disappointing and discouraging to what must be the case.

"And I know the Representative from Pearl City said, 'Well, the private sector is going to be able to take the place of this upfront money from State bonds. Let's look at the history of 30 years of trying to get people to put solar water heaters on their roof. Tax incentives at the federal level. Tax incentives at the State level. We still only have 25% of the people of Hawaii with solar on their roof.

"Mr. Speaker, this is serious business. I hope we can rise above partisan politics, or blaming Administrations, or blaming people, or blaming parities, or blaming whatever we do, and do the right thing. Mr. Speaker, there's no reason why this Floor, in the next Session, in the next year, whoever is back should not have this as the first priority. Just like ending the furloughs was the first priority in 2010. Thank you, Mr. Speaker."

Representative Morita rose to respond, stating:

"Thank you, Mr. Speaker. Just a brief rebuttal. The real litmus test in supporting the Hawaii Clean Energy Initiative is the barrel tax or carbon tax. Otherwise, we do not have any funding to move forward."

Representative Thielen rose, stating:

"Mr. Speaker, that's not the measure before us. That is not the measure under discussion."

The Chair responded, stating:

"It's related to the discussion on the House Resolution before us now. Representative Morita, please proceed."

Representative Morita continued, stating:

"Thank you, Mr. Speaker. You know right now, as I mentioned earlier, there's nothing that precludes the counties from moving forward with a PACE-like program on the county level. What the bill had proposed is floating State bonds and a State revolving loan fund. Again, DBEDT can work directly with the counties in floating bonds and accessing federal stimulus money to run this program. As I said before, currently, right now, the interest rate on a PACE program may not be competitive with the conventional markets. All of these things have to be looked at.

"But I think what's more important is, again quoting from this *Wall Street Journal* article, that the regulator of Fannie Mae and Freddie Mac, which guarantee half of the nations $11 trillion in mortgages, has raised concerns in meetings about the program with federal and state officials. And Alfred Pollard, General Counsel for the mortgage companies' regulator, the Federal Housing Finance Agency, said he was worried about the problems that first-in-line loans would create. 'The goal of enhancing energy efficiency which we share, should not overcome the need for prudent underwriting,' he said. Fannie and Freddie are not allowed to speak out on public policy and the company declined to comment for this article.

"PACE advocates have lobbied for a measure barring Fannie and Freddie from taking any adverse action over the next two years on communities participating in PACE. Critics of the program say Fannie and Freddie or mortgage lenders themselves could raise rates in such

communities to cover the risks that a PACE loan will displace payments to mortgage holders. Cities could face legal challenges they say. The State of Maine is considering making energy loans junior to existing debt in legislation that would establish its PACE program. 'The fundamental problem is that there isn't a free lunch, but there often appears to be,' said William K. Black, a professor of Economics and Law at the University of Missouri Kansas City.

"I think what we're saying in this resolution is that there are many unanswered questions. If it's a good idea, then the good idea will survive the smell test right here, and will be a good idea for the next Session. But right now because of these potential problems that are pointed out, especially in this article, we should take a cautious and prudent approach in adopting a statewide program for PACE. Thank you."

Representative Ching rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in strong opposition to H.R. 47 - My concerns are with the language proposed in the resolution. The State is already working with the counties and others to develop the best possible program, so this resolution is not needed. I am also concerned that the actual program and its intent are not accurately described in the resolution.

"I believe that the original structure of this legislative measure, as H.B. 2643, was conducive to its success in that it was modeled after many successful programs that are currently implemented.

"Would it not be better to advance HB2643 and attempt to capture some of the federal funds that are available? The failure to move H.B. 2643 forward through Conference Committee is what many perceive as another good idea fallen victim to party politics. As lawmakers, we should all strive to propel all good ideas. Instead of moving forward with H.R. 47, let us advance H.B. 2643; in doing so we will create new green jobs in Hawaii, help residents save money, and move the state toward meeting our renewable energy goals. Thank you."

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.R. No. 47, HD 1, entitled: "HOUSE RESOLUTION REQUESTING THE DEPARTMENT OF BUSINESS, ECONOMIC DEVELOPMENT, AND TOURISM TO WORK WITH THE COUNTIES AND OTHER AFFECTED PARTIES TO RESOLVE THE PROBLEMS WITH IMPLEMENTING A CLEAN ENERGY BOND/PROPERTY ASSESSED CLEAN ENERGY (PACE) PROGRAM ESTABLISHED IN THE DRAFTS OF HOUSE BILL NO. 2643," was adopted, with Representatives Ching and Ward voting no.

At 2:03 o'clock p.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 2:03 o'clock p.m., with the Speaker presiding.

FINAL ADOPTION

Representative B. Oshiro moved that the following House Concurrent Resolutions be adopted, seconded by Representative Evans:

H.C.R. No. 21, SD 1
H.C.R. No. 22, SD 1
H.C.R. No. 23, SD 1
H.C.R. No. 24, SD 1
H.C.R. No. 25, SD 1
H.C.R. No. 26, SD 1
H.C.R. No. 27, SD 1
H.C.R. No. 28, SD 1
H.C.R. No. 29, SD 1
H.C.R. No. 30, SD 1
H.C.R. No. 31, SD 1
H.C.R. No. 32, SD 1
H.C.R. No. 33, SD 1
H.C.R. No. 34, SD 1
H.C.R. No. 36, SD 1
H.C.R. No. 45, SD 1

Representative Shimabukuro rose to speak in opposition to the measures, stating:

"Yes, Mr. Speaker. I am in opposition and my comments will apply to all the resolutions, except for the last one on page 6, HCR No. 45. And basically, the first point I wanted to make is that I sent an email out to many of you and it was talking about the issue of the affordability of these homes and how long it lasts. I got some clarification from HHFDC and for the affordable homes listed on these resolutions, there's a 10-year buyback provision.

"The last time we debated these resolutions there was talk of the share appreciation equity. It is a very confusing requirement. The way it works, according to HHFDC is that it's not a barrier to selling your property after 10 years. It just requires that you share part of the profit with the State. So the bottom line is that after 10 years, these homes will be lost in the open market forever.

"The other point I wanted to make is that OHA testified against many of these resolutions, and the gist of their testimony is that the ceded lands inventory is not complete. They haven't completed figuring out what land is ceded and what is not, and that OHA does not have complete confidence in the DLNR's existing system to determine what is ceded and what is not ceded.

"When I talked about these resolutions to several people, I've heard comments like, 'It's only an apartment. It's only a house.' And I think that in this argument, I can see people talk about giving people the chance, and to have the 'American dream' of home ownership and that kind of thing. That is completely why I understand why HHFDC feels that way.

"But I want to tell the Members, try living on the Waianae Coast. In Waianae you cannot drive at all on the highway without seeing thousands of homeless people. Where I work at Legal Aid, I on a daily basis hear stories of people being evicted because they're hard on their luck. They became disabled, or they got laid off, etc. And then there's thousands of hidden homeless. You hear of people, 20 people living in a two-bedroom house. It's very common. And then the thousands of people on the waiting list for Hawaiian homelands, as we all know.

"So when people say it's only an apartment, my response is that that apartment, if it was kept in the land trust, could make a world of difference for a homeless family. The solution I see is I would like to see legislation proposed maybe next Session, somewhere down the line, that we would run HHFDC and some of the other agencies that are in charge of public land like DHHL, and really treat our public lands like a land trust for the benefit of all down the road.

"I really urge everyone to take a serious look at this because if we don't think of it this way, someday the whole State is going to look like the Waianae Coast with our homeless epidemic. So again, please consider carefully these resolutions. Mahalo."

The Chair then announced:

"Members of the House, for your edification, all these measures on pages 4 through 6, require a two-thirds vote. So for those who are opposed, because we need to have this two-thirds vote, please stand on each of these measures so the Clerk can count and determine if we have the two-thirds vote or not.

"This is a voice vote which will be taken at the conclusion of the House Concurrent Resolutions. Is there anyone else who is opposed to these? Please stand on the measures. This is in reference to the legislation that we had adopted last year where we need the two-thirds vote on public land sales.

"These are the 16 House Concurrent Resolutions dealing with the sale of these apartments, lands, etc. in every part of the State."

Representative Chong rose to speak in support of the measures, stating:

"Thank you Mr. Speaker, in support for all these measures. Again, as I said on the last time we voted on these measures before we sent this over to the Senate, these are apartments, many of which people are purchasing their fee, whether it be that they finally came up with the money, or it's being resold because of foreclosure. These are people's domiciles. There is the person living there. On one parcel, it is going to be where they are going to build affordable housing.

"I understand the concerns of the Representative from Makaha, that there is a homeless problem for us in this State, especially in her district. At the same time, these are resolutions to approve transactions which up until this point, were being administratively done. It is just waiting for our approval.

"The issue of homelessness and housing, is a very difficult both policy and human emotional issue, I don't think it is something that we're going to solve with these resos. That is something for perhaps next Session in developing a policy, whether it be keeping it in the inventory, versus appreciation sharing with the State, or more resources, the lessening of zoning and land use. Whichever it's going to be, I think it better resides there. I am appreciative that we have made, if I may Mr. Speaker, done certain things to address homelessness this Session and hopefully that will help address the speaker from Makaha's concerns.

"Lastly, in regards to OHA's concerns regarding HHFDC's claim that this is not ceded land. My only comment would be, I find that a little interesting being as how that was the system probably that the Administration used in coming up with the settlement that they reached between OHA and the Governor. They agreed that the list was okay, and now they're saying maybe not. So I find that a little odd. Thank you."

Representative Hanohano rose to speak in opposition to the measures, stating:

"Mahalo Ho'omalu 'ōlelo. Ke kū nei au e kūpono 'ole kēia mau kumu e pili ana ke ku'ai 'āina ma ka aoao 'ehā a hiki ka aoao 'eono. A'ohe pono ka mana'o. He ali'i ka 'āina, he kauwa ke kanaka. 'A'ohe 'āina, 'a'ohe po'e. 'O ka 'āina he mea nui no ka po'e kahiko. He aha ka ho'oilina e lawe ana no nā hanauna ma hope mākou? E hele akahele kākou ma kēia kumu mai uhauha kēia kumu waiwai. Mahalo."

Representative Hanohano provided the following translation:

Thank you, Mr. Speaker. I rise in opposition to this selling of land issue on page four to page six. This issue is not right. Land is the chief and man in the servant. No land, no people. Land is precious to our ancestors. What is the legacy we are leaving for our future generations to come? We need to move carefully with this issue. Don't waste our resources. Thank you.

The Chair addressed Representative Hanohano, stating:

"Representative Hanohano, you are in opposition to all 16 resolutions? Correct? Thank you."

Representative Berg rose to speak in opposition to the measures, stating:

"Thank you, Mr. Speaker. I also rise in opposition to all 16 of these measures. Thank you, and I ask that the words of the Representative from Waianae-Makaha be entered as my own.

"It's probably pointless to say anything about the need to preserve land at this particular moment, but I feel that we do need to pause at least, and recognize that what if these properties were acquired during the time of the monarchy? What if they are ceded lands? What if? We have so many land issues that are unresolved right now, and I just urge our colleagues to be more prudent and be more patient. Thank you."

Representative Awana rose to speak in opposition to the measures, stating:

"Thank you Mr. Speaker, I rise in opposition to all 16 measures as well. And I'd like to adopt the words from the Representative from Makaha as if they were my own. I'd also like to add written comments and share this.

"Ho'omalu 'ōlelo. Make make au ea pono na ho'olelo o kaluna. Maka 'āina na mai Puna, elike mea kou mana'o. Mahalo.

"I'd like to adopt the words from the Representative from Puna as if they were my own. Thank you."

Representative Awana's written remarks are as follows:

"Mr. Speaker, I rise in opposition. Mr. Speaker, my *kupuna* reminded me that it is the fiduciary responsibility of government to take care of the land. A thorough inventory of ceded and non-ceded lands has not been completed. In essence, the State can continue to lay claim to a parcel as being non-ceded on the clear fact that the inventory is not complete. The State has failed to complete this inventory and one needs to be done because like my *kupuna*, I too believe that government needs to take care of the land.

"As mentioned earlier by the Chair of Hawaiian Affairs on another measure, many native Hawaiians continue to patiently wait to receive their homestead lease. Unfortunately, some individuals die before their application is approved and to discuss selling land while the vast majority of our host culture goes without is unacceptable. For these reasons, I stand in opposition. Thank you, Mr. Speaker."

Representative C. Lee rose to speak in support of the measures with reservations, stating:

"Thank you, Mr. Speaker. Please note my reservations on House Concurrent Resolution No. 21 through 45, as found on pages 4 through 6."

Representative Souki rose to speak in support of the measures, stating:

"Yes, Mr. Speaker. I wish to speak in favor, however I need to explain that I have in the past said that I'm in opposition to the sale of State land. Basically I wanted for this to come to the Legislature for approval. And it's coming to this Body for its approval, so I'm in concert with that. Thank you."

Representative Berg rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Har rose to speak in support of the measures, stating:

"Thank you, Mr. Speaker. Just very brief comments in support of all of these resos. Mr. Speaker, I do apologize to the Members of this Body. I have been working with the Office of Hawaiian Affairs, as well as HHFDC and I'm proud to announce that I actually have had wonderful resolution. I spoke with Clyde Namu'o the other day, as well as Chair Haunani Apoliona regarding the resolutions and they made very clear that they felt comfortable based on a chart we had provided to them with respect to HCR No. 21, all the way through HCR No. 36 showing the origin of the lands, the date of acquisition, particularly with respect to the HHFDC parcels. And they did acknowledge that none of these were ceded lands.

"One other thing I'd like to note in response to a comment made from the Representative from Makaha. Act 176 does not require ceded land status, and so in the future, if this Body chooses to include that, we can certainly do so. But the fact that these resolutions do not contain that information is not a requirement. However, to ensure and placate the Office of Hawaiian Affairs, I did in fact provide to them this chart. I'm happy to announce that I do have a message and I can play it for the Members of this Body, from Mr. Namu'o basically stating that they were fine with all the resolutions in their amended form. They were happy with the fact that the Senate did in

fact amend them to include more information, particularly with respect to the requirements in Act 176. Thank you, Mr. Speaker."

Representative Saiki rose to speak in opposition to the measures, stating:

"Mr. Speaker, a no vote on all resolutions. I'd also like to note that Act 176 requires the Legislature to consider two factors in particular in these resolutions. The first is the purpose for which the land is being sold or given. The second is a detailed summary of any development plans for the land to be sold or given.

"The Makaha Representative should be commended for discussing these factors in her Floor speech today. Her analysis is germane to whether or not these transactions further housing policy in our State. Thank you, very much."

Representative C. Lee rose to speak in opposition to the measures, stating:

"Mr. Speaker, please note on page 6, just for House Concurrent Resolutions Nos. 33 and 36, I'd like no votes."

Representative Pine rose to speak in support of the measure with reservations, stating:

"I just wanted to note my reservations for HCR No. 33 only."

Representative Har rose to speak in support of the measure with reservations, stating:

"I'm sorry, Mr. Speaker. On HCR No. 33, SD 1, please note my reservations for the sole fact that there was a miscommunication between the DHHL, as well as HHFDC. I want it clearly noted in the record that the master development plan for Kapolei noted that this particular parcel was zoned residential and therefore could not be a park.

"Unfortunately, there was miscommunication between DHHL to the homesteaders in my district. As a result, some of the homesteaders are a bit upset about that. I've tried to explain to them that the issue really is not with us, but it's with DHHL. But in this case unfortunately, when HHFDC did present this resolution, they did tell two members of DHHL who failed to tell the homesteaders, and the homesteaders are a bit upset about this. So in any event, because of the lack of communication, I'll be voting with reservations. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and H.C.R. No. 21, SD 1, entitled: "HOUSE CONCURRENT RESOLUTION APPROVING THE FEE SIMPLE SALE OF 1593 PAPAU STREET, KAPAA, HAWAII," was Adopted, with Representatives Awana, Berg, Hanohano, Saiki and Shimabukuro voting no, and with Representative Wooley being excused; and

Representative Ching rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in support of H.C.R. 212. As founder of the Heritage Caucus, I support and encourage the preservation of State and local landmarks by providing opportunities for students and residents to learn the history of the State. By placing a plaque commemorating and remembering the 100th anniversary of the Korean National Association, we are teaching our future generations about the unique cultural history of Hawaii.

"In the placement of this plaque on the premises of Washington Place, where the previous headquarters of the Korean National Association once stood, I recommend and encourage that those involved in the creation and implementation work with the Hawaii Capitol Cultural District. Thank you."

The motion was put to vote by the Chair and carried, and H.C.R. No. 212, SD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING GOVERNOR LINDA LINGLE TO RECOGNIZE LOCAL KOREANS BY ALLOWING A COMMEMORATIVE PLAQUE DESIGNATING THE FORMER SITE OF THE KOREAN NATIONAL ASSOCIATION," was Adopted, with Representative Wooley being excused.

The motion was put to vote by the Chair and carried, and the House reconsidered its action previously taken in disagreeing to the amendments made by the Senate, and gave notice of intent to agree to such amendments for the noted House Bill. (Representative Wooley was excused.)

ANNOUNCEMENTS

Representative Ching: "Thank you. Very quickly. Because we're nearing 50 years of the State Capitol, I did want to announce that the gentleman who actually designed the State Capitol recently passed away.

"John Warnecke, the architect who helped build the Hawaii State Capitol, who was very good friends with President John and Jackie Kennedy, and who also designed the Eternal Flame that burns in Washington DC there at the tomb of the unknown soldier where John F. Kennedy is buried, passed away. His firm, along with Belt, Lemmon, & Lowe designed this State Capitol with its symbolism to reflect the uniqueness of the islands, extensive open space, and always to convey a sense of open government.

"'The Capitol is a beautiful building, an icon in Hawaii,' said Mr. Price, a prominent architect. And in Hawaii he specifically also designed this State Capitol to blend in with our brother next door, the 19th century Iolani Palace. And his motto was that to keep things simple. Thank you."

ORDER OF THE DAY

UNFINISHED BUSINESS

At this time, the Chair announced:

"Members, at this time, there are two measures that will be deferred until the end of the calendar of our Supplemental Calendar No. 1. They are SB 2646, SD 1, HD 2, CD 2; and Conference Committee Report No. 52-10 and SB 2405, SD 2, HD 1, CD 1. Those are the two measures that will be moved to the end of the calendar of our Supplemental Calendar No. 1."

S.B. No. 2646, SD 1, HD 2, CD 2:

By unanimous consent, action was deferred to the end of the calendar.

Conf. Com. Rep. No. 52-10 and S.B. No. 2405, SD 2, HD 1, CD 1:

By unanimous consent, action was deferred to the end of the calendar.

SUSPENSION OF RULES

On motion by Representative Evans, seconded by Representative Pine and carried, the rules were suspended for the purpose of considering certain House Bills and Senate Bills for Final Reading by consent calendar.

UNFINISHED BUSINESS

Conf. Com. Rep. No. 139-10 and H.B. No. 1948, HD 1, SD 1, CD 1:

Representative B. Oshiro moved that the report of the Committee be adopted, and that H.B. No. 1948, HD 1, SD 1, CD 1, pass Final Reading, seconded by Representative Evans.

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise with reservations. Mr. Speaker, this is the bill that says we're borrowing money from the State of Hawaii by not giving them their income tax back exactly when they should have. It says we have to give them their income tax refund in 90 days.

"Mr. Speaker, I know some of you have bemoaned the fact that this $275 million, which this pushes into the next fiscal year, is not on the budget to be repaid. I would remind this Body however, the people of Hawaii are not stupid. They will change their withholding and that money slowly will be repaid back, so I'm not sure of the necessity of this bill even though it's there as a good bumper, but it also gives 90 days from April 20 when taxes are due, which actually puts it right where now the Governor is going to be refunding it. So maybe it's in place for something but again, the people of Hawaii are not stupid. They're going to change it and this thing is going to wither away. Thank you, Mr. Speaker."

Representative M. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in strong support of this measure. Mr. Speaker, for the edification of the Members and the audience, this measure will require the Department of Taxation to provide refunds on a timely basis to taxpayers, within 90 days of the latter of the due date of the tax returns, or the date the tax return is filed. It requires that all general revenues collected from an increase of any general excise or use tax rate to be used first to pay refunds delayed from fiscal year 2009-2010, to fiscal year 2010-2011.

"This is to address the current practice by this Governor to delay the refunds due and owed to the taxpayers, and to clarify that it was never the intention for it to be used as a float in this situation.

"Mr. Speaker, we do understand that this was used to balance the budget and balance the financial plan by delaying to the next fiscal year an amount of about $275 million. Again, I think the previous speaker needs to be corrected. Under the current law in place, allowing the Governor and the Department of Taxation to delay the refunds, that is the current law. This measure will correct that law to allow for a timely return of our tax payer's refunds. So from this point on, if this measure will pass, there will be a timely return of that amount of money.

"Just a few things to keep in mind since this policy was implemented. Preliminary tax data from the Department of Taxation indicates that through March of 2010, about $123 million in refunds to families and individuals and businesses are being held back by the Governor. Interesting enough Mr. Speaker, at the same time about $50 million in corporate refunds have been returned to these corporations.

"Mr. Speaker, a couple of other points. The Council on Revenues has not adjusted its projections, but the $275 million equates to about 6 percentage points. This could cause significant problems for us next year, after the current Governor has left office.

"And finally Mr. Speaker, I'd like to thank my good friend from Hawaii Kai for the amendment that was proposed in the Conference Committee whereby we limited the affect of this measure to any increase in the general excise tax or use tax in the future. That being that this obligation must be paid first, before any of the increase of the general excise or use tax goes to the general fund. Thank you, Mr. Speaker."

Representative Ward rose to respond, stating:

"Mr. Speaker. A brief rebuttal and thanking him for the compliment, but attaching my name to the GET tax is a little bit farfetched. Having said that, I want to quote the Majority Leader who always reminds us, 'if you read the bill properly,' it says, 'at the time you file your tax returns or upon the date due,' and here's the catch Chair, 'whichever is later,' then and only then do we have to pay it 90 days. Whichever is later, meaning April 20. April 20 plus 90 days is what? July 20, which is exactly when the Governor is doing it. So this bill kind of says, 'Yeah we're making it nice and warm and fuzzy,' but in effect we're just doing what we're already doing. But again I say, the people of Hawaii are not stupid. They're going to take their withholding. They're not going to wait for this bill to do anything, because it doesn't do anything. But it's there and we feel better because of it. Thank you, Mr. Speaker."

Representative Chong rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Just in quick rebuttal. Again, if the Representative from Hawaii Kai would actually read the bill, it also takes out the 45 days allowed to the Comptroller. So now, if you file by March 30, you need to get your refund by the current June 30th of that year. Because that's how we addressed the issue, we took out the Comptroller's 45 day window.

"Also to just clarify what the Chair of Finance said. This is just a way to ensure that if any administration is going to delay the tax refunds to its citizens, it just has to pay interest on it. That's all. It does not prohibit this Governor from doing it. All it says is if we are going to do it, you need to be fair and pay interest. Thank you."

Representative Finnegan rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm in support of this bill Mr. Speaker, but I just had some clarification that I'd like to get. Mr. Speaker, dealing with the budget from year to year, it's a tango. It takes two. It's the Legislature and the Governor, and we try to work together. My question with this particular bill is, if this is moving forward, have we anticipated what that would cost us next year, and did the Majority's six year financial plan, or balanced budget and six year financial plan incur those possibilities of increases through this bill. It won't show up in the Governor's balanced budget or six year financial plan because she doesn't have this bill reflected in it. We don't know that because we don't have a list of what's in the two year balanced budget or the six year financial plan.

"So Mr. Speaker, if we're passing this bill anticipating that increase, and we pay for it within the existing income or revenue projections that we think we're going to get, then that's okay. But being that we don't know that from the Minority's point of view, I think that before we can go and make that statement, that we should have those who claim that this is in the two year balanced budget as well as the six year financial plan to state that now.

"I am voting yes because I believe that we need to correct what we need to do. We need to do what we have to do in order to do our best for the State of Hawaii, but I still don't know if this is included in that six year financial plan."

At this time, the Chair stated:

"At this time the Chair will refer this particular clarification or inquiry to the Chair of the Finance Committee or the Whip of the Majority Caucus. Representative Pono Chong would you like to clarify for the Minority Leader."

Representative Chong rose to respond, stating:

"Thank you, Mr. Speaker. Again, in support. This does not affect the financial plan as the Representative from Hawaii Kai had said. This does not change the existing law in the sense of changing the financial plan. It does not put back the $275 in expenditure. All this does is say, 'If you are going to delay refunds, you just have to pay the people of the State of Hawaii, whose refunds you're going to delay, interest.' And if Members remember from last year, the interest was adjusted to present day interest. Thank you."

Speaker Say: "Representative Finnegan, does that answer your question?"

Representative Finnegan rose to respond, stating:

"Okay Mr. Speaker, it answers the question, sort of. But Mr. Speaker, if I'm not mistaken, didn't the previous speaker just say that this does make changes? And says that if people file before March 31st, there should be some kind of number that will show you who filed before March 31st and like we do with the six year financial plan, anticipate some of these things and include it in the six year financial plan. So Mr. Speaker, I think that… Well, I won't say what I think. Thank you."

Representative Ching rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise with reservations on H.B. 1948 – Relating to Taxation. I believe that this bill interferes with the budgeting discretion provided by law to ensure a balanced budget. I also hold reservations as this measure interferes with the budgetary discretion provided to the Department of Taxation and other agencies in paying out tax refunds to ensure the general fund is not unnecessarily drained.

"For example, this fiscal year, the Department is utilizing its authority to delay payments to ensure the budget remains balanced. Without the authority for the Department of Taxation to payout refunds within a reasonable time, the budget and the general fund are put at risk if all refunds went out at the same time (i.e., April 20). The current refund payout law is logical and provides important latitude when fiscal times are tough. Thank you."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I would just like the words of the speaker from Kaneohe entered in the record as if they were my own. And my only regret is I can't now claim the State of Hawaii as a dependent anymore on my taxes. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1948, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Final Reading by a vote of 51 ayes.

At 10:38 o'clock a.m., the Chair noted that the following bill passed Final Reading:

H.B. No. 1948, HD 1, SD 1, CD 1

LATE INTRODUCTIONS

The following late introduction was made to the Members of the House:

Representative Shimabukuro introduced 5th grade students of Leihoku Elementary School. They were accompanied by chaperones, Ms. Brittany Bednaryzk, Mr. Tim Boyer, Ms. Chanele Wong and Ms. Martha Sarmiento.

CONFERENCE COMMITTEE REPORTS

Conf. Com. Rep. No. 160-10 and H.C.R. No. 297, SD 1, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, the report of the Committee was adopted and H.C.R. No. 297, SD 1, CD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING REPORTS ON THE ECONOMIC VALUE OF EXPANDED WORKFORCE DEVELOPMENT CAPACITY AND STEM INITIATIVES," was Adopted.

FINAL READING

Representative B. Oshiro moved to agree to the amendments made by the Senate to the following House Bill, seconded by Representative Evans and carried:

H.B. No. 921, HD 1, (SD 2)

H.B. No. 921, HD 1, SD 2:

Representative B. Oshiro moved that H.B. No. 921, HD 1, SD 2, pass Final Reading, seconded by Representative Evans.

Representative Wooley rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support with written comments, and I just want to say a big *mahalo* to you and your staff, as well as the Chair of Water Land, and the Chair of Finance, and the Chair of Hawaiian Affairs. This is a very important bill for my community and I think also very representative of our commitment to helping families in Hawaii, promoting agriculture, and supporting our Hawaiian families in particular. Mahalo."

Representative Wooley's written remarks are as follows:

"The passage of this bill is both symbolic and meaningful for families in Hawai'i who have ties to the land under State leases. This bill was proposed because families in Hau'ula asked for a change in the law and, after I looked into the issues and discussed them with my colleagues, it became clear that a change was long overdue.

"In the future, I anticipate that there will be additional proposed amendments to the law to address some of the challenges for these leases. I hope this bill will set the stage for any such changes that may come – the goal must be to make it easier for families to successfully manage the land where they live and farm.

"The bill, if law, will provide an option for families, primarily Native Hawaiian families, to preserve and cultivate farm land consistent with goals set by leaders in Hawai'i prior to 1900. Similar to the concepts that led to the establishment of these leases in the first place, my hope is that this bill will not only help prevent the commercialization of land and preserve agricultural land, it will also promote family harmony and cooperation and lead to many family and State land-management success stories.

"This bill provides lessees with access to a commonly used legal tool – the option to create a trust to manage a property on behalf of a family. Fee simple land owners have this option. However, unless this bill becomes law, families with 999-year leases with the State will continue to be unable to use this legal tool. And, absent this tool, some of the remaining families may lose their leases.

"The origin of the 999-year leases that are the subject of this bill was the Land Act of 1895. The goal of the leases was to put people on the land, promote family farms – especially for the less affluent, and protect against the loss of land and land speculation. Today, out of approximately 750 leaseholds issued between 1895 and 1921, probably less than 50 of the leaseholds remain. Since 1950, lessees have had the right to purchase the fee simple ownership of their leasehold. Some 65 to 70 families have done so.

"Many of the lessees are Hawaiian, but there has never been a blood quantum requirement associated with the leases. Under the original Act, potential lessees had to be citizens of the Republic of Hawai'i, not own other land, and successfully meet conditions for a period of 6 years including the requirements that a home be built and the land be cultivated.

"Now, after more than 100 years into the almost 1000, less than 50 of these unique leases still exist. Some people have argued this is evidence the leases should end. Some people have argued once the leases end, the State should sell the land. And some have argued that the sooner these lands are developed and commercialized, the better.

"In contrast, I believe we are obligated to give the remaining lessees the tools they need to keep these lands for the benefit of the families that have historical ties to the land and a commitment to manage and cultivate the land in perpetuity.

"A 1994 report entitled "Analysis of the 999 Year Homestead Lease Program: Current Problems and Possible Solutions" which was prepared for the Seventeenth Legislature of the State of Hawaii by the Office of Hawaiian Affairs, by John H. Bay and Jane van Schaick, found that there are many challenges for these leases and there are a variety of reasons many leaseholds have been lost over the years. Families have struggled to figure out how to make the leases work given modern challenges with property management and lending laws. For example, the leases may not be used as collateral (because they are not owned fee simple) and banks are not willing to provide loans on these types of leases. As a result, it is difficult for the families to move forward with improvements, effectively farm, or make good management decisions.

"Again, the goal of this bill is to make it easier for families to manage these lands by giving the lessees a simple legal tool that fee simple owners currently enjoy – the right to create a trust to manage their property for the benefit of a family. I am very hopeful this bill will become law and will lead to promising and exemplary family land management for these unique leases.

"I would like to once more thank the Speaker, his staff – particularly Calvin Azama, as well as the Chair of Finance, Chair of Water Land and Ocean Resources, and the Chair of Hawaiian Affairs, for their patience and support. Also, mahalo to Ken Takayama and Mr. Funaki for their able legal assistance.

"In addition, I would like to personally say *mahalo nui loa* to Laulani Teale, who worked tirelessly on behalf of Hawaiian families, to move this bill forward."

Representative Awana rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support and I'd like to ask that the words from the Representative from Kahana be entered into the Journal as if they were my own. Thank you."

The motion was put to vote by the Chair and carried, and H.B. No. 921, HD 1, SD 2, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC LANDS," passed Final Reading by a vote of 51 ayes.

At 10:42 o'clock a.m., the Chair noted that the following bill passed Final Reading:

H.B. No. 921, HD 1, SD 2

SUPPLEMENTAL CALENDAR #1

GOVERNOR'S MESSAGES

At this time, the Chair announced:

"For the Member's edification, for House Bill 1642, House Draft 1, Senate Draft 2, Conference Draft 1, which was vetoed, will be moved to the end of the calendar. We'll take that up as Gov. Msg. No. 259. That's at the end of the calendar.

"Also, on page 2 of the Supplemental Calendar No. 1, Gov. Msg. No. 197, Senate Bill 1311, Senate Draft 1, House Draft 1, will also be moved to the end of the calendar."

Gov. Msg. No. 259 and H.B. No. 1642, HD 1, SD 2, CD 1:

By unanimous consent, action was deferred to the end of the calendar.

Gov. Msg. No. 197 and S.B. No. 1311, SD 1, HD 1:

By unanimous consent, action was deferred to the end of the calendar.

At this time, the Chair addressed the Clerk who announced Gov. Msg. No. 283, informing the House that on April 25, 2010, H.B. No. 2421, HD 2, SD 2, CD 1, was vetoed.

Gov. Msg. No. 283 and H.B. No. 2421, HD 2, SD 2, CD 1:

Representative B. Oshiro moved to override the veto of H.B. No. 2421, HD 2, SD 2, CD 1, as contained in Gov. Msg. No. 283, seconded by Representative Evans.

Representative Thielen rose to speak in support of the override with reservations, stating:

"Thank you, Mr. Speaker. I'm rising to speak in support of the veto override and with some reservations and some cautions. Mr. Speaker, this is the so-called 'barrel tax' which increases the tax on each barrel of oil brought into this State by one dollar. Originally all of that increase was going to go to fund Hawaii's renewable energy programs and I firmly supported that because the faster we get off of polluting, high-cost oil, the more jobs we create in our economy, the better our green energy programs will work, and the lower our cost of energy will become with using renewable energy as its base.

"I took a hard look at this because what happens is only 25% goes to green energy. There's a small amount that also goes to the agriculture and food security program. But 60% goes to the general fund. I believe that that must be a temporary allocation until we improve our general fund balance and therefore I can go along with this, temporarily.

"Mr. Speaker, this money, the 25% going to the green energy fund, is the bridge, the game changer that will help us obtain additional federal funding and be able to have money to spend on real programs.

"You know my passion for wave energy programs and I would like to refer the Members to the recent *US News and World Report*, The Future of Energy. They are very positive about wave energy, particularly for coastal states. And we can't get there without having some funding base to be able to begin to move forward.

"The other thing they talk about, and we haven't talked about it much in this Body, is the need to upgrade our power grid. They're talking about the national power grid and they said that ranking the 20th century's greatest technological achievements, at the top was the electrical grid. And they say that, while it was a technical wonder at the time of construction, the nation's power grid has become dangerously antiquated over the past decades and it's not in any way reaching the broadband speed that high tech and the broadband power system is. In fact, they note that the dog food industry spends more on research and development than the electrical sector does. Well our power grid is very antiquated, and the problem is exacerbated by the fact that we are an island state.

"So we have to begin somewhere. I don't like the idea that the Finance Committee scooped 60% of the money for the general fund. However, I recognize the financial realities and the challenges they met with. I want that to be temporary, Mr. Speaker. I want us to move ahead to be able to bring in the wave energy systems, to be able to be a leader in this technology, and to be able to provide the wave energy test hubs which bring in money to the State, bring in the expertise, and let our local people have good-paying, green jobs.

"The other thing I would like to refer the Members to, and this was given to, I believe, all your offices, this was prepared by the University of Hawaii's Sea Grant College Program. It's called 'Hawaii's Changing Climate' and it's a briefing sheet dated 2010. We have serious problems. And if you take a look at this and go through it, you realize that unless we take some dramatic steps, we're going to be an island underwater. This doesn't help our State. It certainly doesn't help our nation. It doesn't help our world.

"So to the Finance Committee I say: Okay, you got away with 60% this year. Let's look at that next year. Let's see if we can't whittle that down to maybe being 30% and then the year after having 100% of that additional dollar being available for green energy, renewable energy in our State, and become the true leader providing the jobs and the expertise that we can export to other nations to help them. Thank you."

Representative McKelvey rose to speak in support of the override with reservations, stating:

"Thank you very much, Mr. Speaker. In support, however I have serious reservations at this point that I have to express to the Members. My reservations are about the impact that this will have on our consumers, especially those on the Neighbor Islands. I know it's 3 to 5 cents additional per gallon, but when your constituents are paying over $4 a gallon for gasoline with expectations to reach $5 a gallon, it's very painful.

"However, as the good Chair of Finance has said, we had to make tough choices this Session. That's why at the end of the day, I do support this. Not for the reasons of the previous speaker. The irony is, it's to the contrary. I support this because of that general fund allocation. And why you may ask, do I support this because of general fund allocation. Because of what it will do.

"The first thing it's going to do is, it prevents a takeaway of the counties' share of the TAT, which our citizens desperately need to continue the services and programs, especially the State partnerships like the nursing program at MCC.

"The second thing that it does is, it funds agricultural inspection positions in Maui County. If we lose those positions Mr. Speaker, our farmers, our small farmers will have no way to get their crops to market and it will be economically devastating.

"The fact is, this is probably the hardest choice I've had to make, but however, given that this is an integral part of the financial plan and given that our counties need this, our farmers need this, I am going to support this. But again, I really, really do this with a heavy heart because of the impact that this could have on the Neighbor Islands vis-à-vis fuel fees this summer."

Representative Tsuji rose to speak in support of the override, stating:

"Thank you, Mr. Speaker. I rise in support of the override. Thank you, very much. Mr. Speaker, in her veto message of April 25 of this year, the Governor stated that this bill, to provide a source of funding, to provide government services, has a purported purpose. I disagree.

"The Governor further argues that this bill is objectionable because it raises taxes on Hawaii residents and businesses at a time when the community cannot afford it. And therefore she says, 'This bill is deceptive.' Mr. Speaker, to the contrary. The purpose is concise. It's forthright. It is to promote energy programs and food security.

"Mr. Speaker, for those who argue that it is deceiving that 60% of the moneys go to the State general funds and clouds the purpose, consider this for awhile. Mr. Speaker, $9.2 million is earmarked for agriculture. The College of Tropical Agriculture and Human Resources is linked as a recipient of some $21 million. On the special funds side, they are linked with special funds of some $3.3 million to fund agricultural security programs to fight invasive species and to promote sustainability of agriculture, both imports and exports alike.

"I posed this question to an invasive species expert: 'What is the negative impact if we have an invasive species attack or outbreak on our food sources that is uncontrollable?' The response: incomprehensibly into the millions of dollars. Think about this, Mr. Speaker.

"Further, responding to the Governor's comment that this bill raises taxes and virtually impacts everything. Without belaboring the issue, let me be forthright with you about recent invasive species developments requiring immediate attention, but still stymied because of our neglect sometimes, of legislative action.

"Let me just go back a bit, and when I say back a bit let's go back into the month of April only. April 2010. April 20, 2010, USDA, United States Department of Agriculture in Hawaii, placed a two-day restriction on

Hawaii shippers whose shipments have been destined to California that have been rejected for inspections. A further two-day delay. Can you imagine what this does to our exports and of our fresh fruit products? Initially the two-day ban would have been in effect for all shipments going to the continental United States, but was only for California. Don't forget, last time I spoke to this Body, Mr. Speaker. I was very concerned about the State of California already placing an embargo on exports from Hawaii to the State of California.

"Going further a couple of days later, April 23, 2010, this year again. An outbreak, an unknown outbreak on ti leaf in Kahului. On ti leaf in Kahului, an invasive species is still unknown and it's been tested for. So what's the economic impact? Cultural impact for hula skirts, for our *laulau*, for our display items. Think about it. This has yet to be identified.

"Now going to April 27. This is only one month in the year of 2010, Mr. Speaker. Well let's go backwards if you will allow me, Mr. Speaker. In the year 2007, this legislative body in a crisis situation allocated about a half million dollars because the varroa mites unbeknownst to us, invaded this Island of Oahu which attacked the queen bee, the honey bee industry, and all those in the pollination industries like macadamia nuts."

Representative M. Lee rose to yield her time, and the Chair "so ordered."

Representative Tsuji continued, stating:

"Thank you, very much. But now fast forward to April 27, 2010. An outbreak in Pana'ewa on the Big Island, once again. It's called the small hive beetle. The small hive beetle also attacks the honey bee industry, the queen bee industry. And USDA inspectors, along with our Department of Agriculture inspectors are feverishly working on trying to identify and trying to counter these invasive species. Key personnel are waiting for approval so that they can travel to the Big Island. And you say, why wait for approval? Think how this funding will really help us, Mr. Speaker.

"Although the Legislature, and thanks to you Mr. Speaker, has approved the restoration of 45 positions for plant quarantine and pest inspection control funding, the Governor now has the authority to fill or not to fill the restored positions. The Legislature must override the Governor's veto regarding this barrel tax so the Department can implement and rapidly respond, and put into effect eradication efforts as these new outbreaks are occurring. Until the Governor restores these positions and inspectors so they can once again prevent new outbreaks, I implore upon you Mr. Speaker, please override this veto. Mahalo."

Representative Ward rose to speak in opposition to the override, stating:

"Mr. Speaker, I rise in opposition to the override for the second time, as this bill was introduced last year and vetoed. This time it's a little bit different because it gives 60% of the money to government, it's basically a revenue raising mechanism. As a member of the Finance Committee Mr. Speaker, I did not, as one speaker said, go along with that, even though the Finance Committee did bump it up from the nominal to a very large percentage.

"So Mr. Speaker, what we've got here is basically a bill that sucks $22 million out of the economy. And invasive species are very, very important. But the people of Hawaii are more important. We have people living on the edge. We've got over 300,000 people who are dependent upon government for their food, shelter, medical benefits. We've got a bad business model for a society when you've got almost one-third of your people who can't make it on their own, Mr. Speaker. That's not good. And the more we suck out of the economy, the harder it's going to be for them to live.

"I know the Chair of Human Services has very pointedly shown how domestic violence is increasing in our State. Mr. Speaker, what's the first thing that people fight over in families? It's money. This $22 million is going to hit all aspects of their electricity bills, their gasoline bills, everything that we ship, that we truck, every retail good, all the food that we eat.

"I would remind this Body that this is a 2,000% increase, from 5 cents a barrel, to $1.05. But Mr. Speaker, this is 2010. What do you think this Body is going to do in 2011? Because some people already wanted this to go from 5 cents to $5. So I would submit that this is kind of a' time bomb' argument, that next year we'll say, 'It's only 3 cents on the gasoline. It's only 3 cents here, 2 cents there.' But Mr. Speaker, those things add up. The same way when you boil the water, the frog, when you throw it in will jump out. But if you get the frog in there and get him comfortable, you just turn it up slowly, the bugger will die. And that's what we're doing to the people of Hawaii, slowly turning them and turning up the heat on taxes.

"Lastly Mr. Speaker, I want to cite something that was very profoundly said yesterday by the Chair of EEP, the Representative from Kauai. She said that the bill that's going to put photovoltaic and solar on every roof, or that's going to allow that bill that got stuck and became a reso, she said that the passage of this bill will allow that program to proceed and that bill to pass next Session. I want to go on record Mr. Speaker, and just quoting her for saying that, because I felt so strongly yesterday and I feel so strongly today. If you guys override this one, let's make sure that that photovoltaic bill to allow the State to put those energy bonds out on the market so people can have the upfront money, pay it back with their property taxes, and really make us an energy independent state. Thank you, Mr. Speaker."

Representative Morita rose to speak in support of the override, stating:

"Thank you, Mr. Speaker. I rise in strong support of this override. The Representative from Hawaii Kai may see $22 million being sucked out of the hands of Hawaii residents, but in actuality, over $8 billion per year is being sucked out of this State to pay for imported food and energy costs.

"Mr. Speaker, when the Governor vetoed this bill, she tried to grab headlines by pointing out that this bill will increase the tax on oil 2,000%. Yes, it will increase the tax on oil from 5 cents per barrel, to $1.05 per barrel and that very well may be 2,000%. However, if you look at the overall impact of the price on various petroleum products, the impact of this tax was anticipated to be 0.9% in 2009, and approximately 0.8% in 2010.

"Let's look at the real cost driver for energy within the past 12 months. As of March 2010, crude oil prices rose from $48.10, to $81.29; a 69% increase. The average gasoline price per gallon rose from $2.43, to $3.46 per gallon; a 42% increase. And projected forecasts for crude oil in the next year is $100 per barrel.

"This is the impact that will ripple through the economy. Doing nothing is not an option if we want to recover and shore up our economy. The energy sector is the bedrock of our economy. Stable, predictable energy pricing is a major factor that affects each sector of our economy and offers an opportunity for economic diversity and economic growth.

"While the initial objective of this measure was to accelerate programs to reduce our fuel and food imports, given the economic reality, the tax will be used to help balance the general fund budget. However, important and core energy and agricultural programs are still general funded. While 60% of the tax will go to the general fund, consider this: general funds are to be used for, as our Agricultural Chair pointed out, agricultural inspectors which are critical positions to facilitate the import and export of agricultural products and mitigate invasive species, and pay out the renewable energy income tax credit which is about $18.5 million from the general fund.

"Again, the cost of doing nothing will have a far greater impact and leave Hawaii vulnerable to energy pricing volatility and supply disruptions beyond our control. Rising energy cost is a major factor that increases the cost of living within Hawaii. As an isolated island archipelago, we are vulnerable to fuel and food supply disruptions and global forces beyond our control as I just mentioned.

"A transition to a clean energy economy and a strategy to reduce our fuel and food imports, which is funded through this tax increase, puts Hawaii's destiny more under our control. It will take long-term planning, a smart strategy, public-private partnerships, the infusion of new technology, smart investments, and political will to achieve this strategy.

"I disagree with the Representative from Hawaii Kai. Just because we put a couple of PV panels on our roofs, that isn't going to solve this problem. This is a complex transition that has to happen, and as the Representative from Kailua said, moving from an antiquated system to a modern, robust system that benefits everybody throughout our State, rich, poor, young, old. This is the future for our State.

"So as leaders, as residents, as businesses of the State, we need to make the long term commitment and investment by putting our money where our mouth is, and this is a smart investment. Thank you, Mr. Speaker."

Representative Cabanilla rose to speak in support of the override with reservations, stating:

"In support with reservations, Mr. Speaker. I would just like this Chamber to acknowledge that this tax increase is going to be carried by the constituency that lives in outlaying areas. People from Ewa Beach, Ewa and Waipahu bought houses there because that's where you can find affordable housing. But with this increase in tax where they have to fill their tanks more often than those people that live in urban Oahu, that savings in affordable housing is going to now be negated.

"Although my constituents will probably be happy to help out with the budget, I just would like the Chamber to know that those constituencies are giving more on this tax increase than everybody else. Thank you, Mr. Speaker."

Representative Pine rose to speak in opposition to the override, stating:

"Thank you, Mr. Speaker. In opposition. We talked about how this bill is going to help so many people in the State of Hawaii. It kind of reminded me of when I went to the Tea Party last year and the sign that I remembered most, it said, 'Note to government: stop helping me, I can't afford it anymore.'

"I talk to my constituents and they hear all of these arguments and they say, 'Rep. Pine, they just don't get it, do they. We can't afford anything else taxed on us. We're barely breaking even.' And as the previous Representative from Ewa stated, this is going to be very damaging to the Ewa Plains because we have some of the farthest commutes. And the one thing my constituents asked me is, the best way that I could help them is to not increase the taxes on things that will affect their daily lives.

"This bill is deceptive, Mr. Speaker. I think it started with fantastic motives. When a version of this was introduced earlier in the previous Session, I voted for it because it was tax neutral on my constituents. It accomplished both goals. Allowing them to continue to make it in the State of Hawaii without having to move to the mainland. It also allowed food, energy and security programs to be funded. But somewhere in the chaos and the madness of what has happened this Session, a great bill has turned into a deceptive one. You can argue every other way that it does benefit the people in some way, but the majority of it doesn't.

"So Mr. Speaker, I just cannot in good conscience vote for anything that will increase the cost of bread, cereal, milk, electricity, and most importantly, gas that is the lifeline to my constituent's jobs and survival."

Representative C. Lee rose to speak in support of the override, stating:

"Thank you, Mr. Speaker. I rise in support. I mean no disrespect to anyone in the Chamber when I say this, but I think I'm the only member of 'Generation Y' here. I see a lot of 'Gen Xers' and members of the 'Greatest Generation.' Many more up in the gallery, a lot of white hair.

"But the truth is the day is going to come when our economy, our State, and our way of life is going to have to be passed on to the next generation. And quite frankly, the prospect, as I see it right now, is very grim because we're an economy built on an unsustainable energy source whose cost is destined only to skyrocket the longer we wait.

"While this bill is a compromise and isn't perfect, it will lay the foundation for the first time, for our transition away from imported oil that I hope in the years to come, will be a distant memory.

"So I ask all of you today, think not of yourselves really, but think of your kids, my generation, my kids, and all of us who will be saddled with hundreds, thousands, tens of thousands, millions of dollars in additional debt collectively, billions of dollars in additional debt, as we will be forced to continue to pay for the higher prices that we can no longer afford. And so this, if it passes, I hope will move us away from that otherwise bleak future. So please consider that, and please think ahead. Thank you."

Representative Ching rose to speak in opposition to the override, stating:

"Thank you, Mr. Speaker. I rise in opposition. Well actually, I'm a mother, and so as a mother of a child who is six years old, I think it's been clear that the Administration and people here in this Chamber understand that we need, yes we do need, and actually as the former President of Life of the Land back in the 1980s, when it was quite rare and the word, 'green' had not even yet been created, I was a supporter of alternative energy. Back when very few people supported that.

"I think that this Chamber, we all want to understand that we need to get to alternative energy and we want to take care of the next generation. But the question is, how do we get there? That is always it. As we say, the 'devil in the details.'

"I'm also a strong supporter, as this Chamber well knows, my support for ag. I have big support for diversified ag. So the thing that is going through my mind is how do you get to support diversified ag? How do you get to alternative energy?

"What I don't know that this Chamber really understands or understands my way of thinking of it, is that business, I will say that for the last time on *sine die*, business creates jobs, business creates tax revenue, by its service. So actually when you tax business which is what this barrel tax is going to do. So when you make it harder for the consumer, the reality is, when I think I might go down to that restaurant, I think, 'Oh, gas is expensive. I'm keeping my budget down.' So you know what? I'm not going to go out to Haleiwa next time because it's a little bit too much gas.

"It contracts the economy. And when we contract the economy, people don't want to get out of their houses, do things, and therefore purchase things, etc. that sustain businesses. And that, in the long run, creates the recovery. And that in the long run, creates the tax base that will pay for the agricultural programs. I'm just going to read from here. This is the Governor's objections.

"The purported purpose of Senate Bill 2421 is to provide a source of funding to support government programs."

At this time, the Chair addressed Representative Ching, stating:

"Representative Ching. I believe the Members of this House have read the Governor's veto message. So if you want to incorporate into the Journal you may, but there is no reason for reading it at this point in time."

Representative Ching: "Well, as my own statements."

Speaker Say: "Yes, please proceed with your own statements and your own feelings, as far as being in opposition."

Representative Ching continued, stating:

"My position and argument is this tax, as I said earlier, will virtually tax everything we do or use in Hawaii, including electricity, gasoline, trucking, shipping, retail goods, food and even the propane for our back yard barbeques. It will ripple through the entire economic system, and I too am concerned that this tax increase comes at the worst possible moment when you're actually trying to get the economy back on its feet.

"Let's be honest about it. It's no longer the bill that it once was to say, 'Let's try to get into alternative energy and support clean energy, etc.' And I

think it's been clear that this House and this Administration, it has to be said on *sine die*, that this Administration has been supportive. And yesterday, we debated that PACE program.

"So truly, we have to look at the proper ways to solve the problem and not create 'straw man' arguments that there's a generation that doesn't care, or else I don't think I'd be taking so much time away from my daughter to be here. Thank you."

Representative Finnegan rose to speak in opposition to the override, stating:

"Thank you, Mr. Speaker. I rise in opposition. Thank you, Mr. Speaker. What this Session is about, at least from my point of view, especially in balancing the budget, is living within our means. Mr. Speaker, just like every other family, just like my family, and just like businesses, when you look from the outside-in, we're busy running from Committee to Committee, hearing testimony to testimony, coming in early, leaving late.

"We get into the 'weeds,' the 'trees,' Mr. Speaker. We have to step back and look at the forest. So what happens when I look at the forest? I look at the fact that we have a budget and we need to make priorities. If food security and clean energy are priorities, then we fund it in the budget and we make other cuts. That is what the Republicans did in their six-year financial plan.

"Mr. Speaker, you can still do something within our means. But you just have to make these tough decisions to not fund other things. Because in the big picture Mr. Speaker, in the private sector a business doesn't have that choice. People will only come to their store if they can afford it. You can go ahead and raise prices on them, but sooner or later the customers won't come. However, in government we put it in a bill, we pass out the bill and next thing you know because we need gas, we go get gas, we pay for it. There's not much in choices for the people.

"Mr. Speaker, we talk about this $8 billion price tag of not going to clean energy and I believe that as well. I believe every single person on this Floor is dedicated to a clean energy future. In fact, the Governor talks about how in 2006 she signed groundbreaking legislation known as the Energy for Tomorrow that lays the foundation to wean Hawaii off of imported oil. In 2008 her Administration signed a historic one-of-a-kind agreement with the US Department of Energy intended to decrease energy demand and accelerate the use of renewable energy resources in Hawaii. That was with a Republican President. In 2009, we enacted legislation drafted by members of the Hawaii Clean Energy Initiative that will help Hawaii meet their goal of 70% clean energy by 2030.

"Mr. Speaker, our Governor, in all the times that I've paid attention, she has been the person that could grab the people of Hawaii's attention on clean energy. No matter how hard the Legislature worked the push to have a, I think it was 20 by 2020 was the goal when the Governor first came in, and now it is 70% by 2030. That's the goal. Mr. Speaker, priorities don't do nothing. That's not what we say when we say we're against this bill. Priorities Mr. Speaker. Live within our means. Private business sector. We need to look at what's going on in the forest, Mr. Speaker. Thinking of our kids? Absolutely.

"I did a quick calculation. It's going to be about $60 per car for my car, and $60 per car, per year, for my husband's car. That's $120 per year. It doesn't sound like much but that doesn't include electricity, higher electricity prices that we will pay, or milk prices and all of those other things when we go to the store and we say, 'Oh my goodness. How come it went up?' That will be one of the reasons why. $120 doesn't seem like much, and I'm not the kind of person that would exaggerate on these kinds of things to make a point. But $120 was the choice that my son had to make when I helped him bring 25 bags of bottles and cans to go and recycle so he could pay an entry fee to do one of the projects that he wanted to do. And he got $120 by working and doing that. Because our budget is like most of the people's budgets in Hawaii and it's not one of those things where you can just go and write a check for $120.

"Mr. Speaker, I realize that this House feels that this is the right way to go. Mr. Speaker, I just think that we can do a better job. Thank you."

Representative Coffman rose, stating:

"Thank you, Mr. Speaker. Just curious, I just heard $60 a year on this tax from one of the colleagues here. This tax is going to cost 2.4 cents per gallon. If you drive 20,000 miles a year that's $24. At $60 a year that's getting close to what, 60,000 miles of driving? I would certainly be driving a very small car if I had that kind of expense.

"I want to address a point here about where this money is going this year and use one example, and let's take this tax. $2.2 million is going to go towards the Hawaii Natural Energy Institute. This money will draw a 4 to 1 match. A lot of this money is going towards projects to develop the smart grid on Maui. We've got a one megawatt battery going in on the Big Island. These are both projects to help us better utilize the wind farms we have on these islands. We have to get these projects completed so we can prove out the technology and we can get off of fossil fuels.

"Mr. Speaker, this bill is extremely important for this State, for the long-term economic development of our State. Gasoline has gone up over a dollar in the last year. If I owned a business, I don't think the 2.4 cents per gallon of gasoline is going to bother me. What's going to bother me is that it's gone up a dollar in the last year. Oil's forecasted to go up another 20% before the end of this year. This little mini tax is going to get lost in that. Thank you, Mr. Speaker."

Representative Chong rose to speak in support of the override, stating:

"Thank you, Mr. Speaker. In support. There's been a lot of talk regarding this issue being about food and environment, and while those things are true, this is an issue about the economy. I remember in a town meeting, I would say it was last year or the year before last, where a gentleman stood up, pointed at me and said, 'Oil is $150 a barrel. What have you guys done to help renewable energy?'

"This is going to be, we've had two times now, that energy has skyrocketed out of the country's control, out of the State's control, by outside forces. One was in the '70s, and the $150 per barrel was within, I would say the last year and a half. We cannot forget about the $150 barrel of oil.

"Yes, let's talk about the economy. Does anybody remember what it did to tourism, to the airlines when it was $150 per barrel? Right now NELHA is taking a look at using algae for biofuels, along with the airlines. The Department of Defense is looking into it, as well as other places.

"Do you remember what happened to construction at $150 per barrel of oil? Well, what about food? I remember going to the market and seeing a piece of meat, not prime, not any expensive cut, at regular price for $9.50 a pound. Did we forget about that already? Why is that? Because Hawaii ships in 90% of its food because we don't produce any of it here. So we have to pay for oil costs to ship it here.

"Secondly, ethanol has become a problem for us. In the sense that everything that we eat, and we want to make sure that the Members and the people in the Gallery understand this. Everything we eat is fed, in part, with some sort of feed and by and large most of it is corn. The pork you eat is fed with soy beans and corn feed. The meat you eat is fed by corn. We don't eat grass fed beef in this country. People need to be aware of that. The soda you drink, the products that have any sweetener in them by and large is corn syrup. So what happens when oil is $150 a barrel and people start wanting to use ethanol to replace oil? Does anybody forget about meat that is $9 a pound?

"So let's talk about economics because if we don't want to pass this, fine. But when oil hits $150 barrel again, don't come running to the Legislature and point at us and say, 'You guys didn't do anything. You didn't learn twice.' The tough decision must be made. Wake up.

"Next I would like to go on further about economics, and for those of you who don't know, I think his name is John Rutledge, and he is the president of Rutledge Capital. He invests money in, among other areas, oil. And he was at a conference at NCSL, and by the way for my colleagues on

the other side he was an advisor to Presidents Regan and Bush so he's not a liberal. But what he did say is this. 'When oil companies come to me and they want me to invest hundreds of millions of dollars to either build a pipeline, drilling, or an oil field in a foreign country, the first thing I tell them is, is it secured? And are there US forces on the ground? Because I'm not going to invest hundreds of millions of dollars in a foreign country if I'm not sure if my investment is going to be protected by the US Government.'

"Solar and renewable energy in this bill Mr. Speaker, is not just about the environment. It's not just about the economy, but it's about national security. Because in the end of his speech, he told the audience, and it was a packed crowd. He said, 'For those of you who drive Humvees, based on what I told you, you'd better pick up a gun and be ready to go and enlist in the armed forces because no one is going to invest money in oil unless the US forces are there and it's going to be secure.' So this isn't only about being green. It's about being red, white and blue.

"And lastly, if I may talk about the issue in rebuttal, of living within our means. This is going to be a small take to the general fund. Secondly, right now we currently fund many renewable projects, especially tax credits with the State general fund. So it's not like we're not putting general fund money into renewable energy."

At 11:27 o'clock a.m. Representative Takumi requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 11:30 o'clock a.m.

At this time, the Chair stated:

"At this time, the Chair would like to recommend to the Members of this House and the audience that we proceed with our proper decorum. There should not be any clapping when speeches are being made either for or against a measure.

"Representative Ward, you cannot stand up you've had your second time on rebuttal. So at this point the Chair will call for the question."

At 11:31 o'clock a.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 11:32 o'clock a.m.

At this time, the Chair stated:

"Representative Ward. Yes, for your second time. I stand corrected. The Chair will allow you to speak for the next three minutes along with other Members of the House who would like to speak on this measure with reservations, or in opposition. That way it is there for the record and the audience will know what your concerns are, for or against the measure. But we've had a lot of debate on this particular measure. I believe the Chair has been very fair with both sides of the Chamber, both the Minority and the Majority. Representative Ward."

Representative Ward rose, stating:

"And Mr. Speaker, you'll allow us to not have to come back tomorrow because we'll finish it all today."

Speaker Say: "I'm not going to make that decision. That's for all of you."

Representative Ward rose to respond, stating:

"Okay, today's the last day. These are my final remarks on this as a rebuttal, Mr. Speaker. And I thank the Majority Whip for reminding us that gas usually just goes up. But what I heard him saying was that it's kind of like 'the barrel tax or bust.' Like this is the only way we can do it. And I go back to yesterday's speech about the State Energy Bonds Mr. Speaker, because the Chair of EEP stated again this time, a couple of PV panels are not going to solve our problems.

"Mr. Speaker, my rebuttal is I think that exactly a couple of PV panels on every house in this State will resolve the problem. Case in point, the Representative from Pearl City."

The Chair addressed Representative Ward, stating:

"Representative Ward, will you address the Speaker."

Representative Ward: "Sorry. The Representative from Pearl City stood up and said 'I have gone photovoltaic and my bill ....'"

Representative B. Oshiro rose to a point of order, stating:

"Point of order. The current speaker is not talking about the bill. He's talking about other measures. Can he please confine his remarks to the bill that's in front of us."

Representative Ward: "Mr. Speaker, I was just going to finish. Now I want to speak longer."

Speaker Say: "Well you got a minute to go. You had three minutes."

Representative Ward continued, stating:

"One minute to go. My point is it's not barrel tax or bust. It's let's be creative and innovative as the bill was yesterday that turned into a reso that would allow the people of Hawaii to put photovoltaic on their roof so they could, like the gentleman from Pearl City, have an $8 or $18 monthly electricity bill. That's how we solve it, with incentives, not just tax, tax, tax. Limit the government. Thank you."

Representative Ching rose to respond, stating:

"Additional written comments please."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in opposition to the override, and stand in support of Governor's veto of H.B. 2421, which removes language suspending tax when the balance of Environmental Response Revolving Fund balance hits $20 million, expends the scope of the Energy Security Special Fund, and increases the Barrel Tax from 5 cents to $1.05 with certain specified allocations.

"As my record shows, I have always been a stalwart supporter of agricultural and alternative energy initiatives. While I support the establishment of a task force with DBEDT to facilitate the accelerated adoption and completion of renewable-energy projects and programs, I cannot support a barrel tax increase as such a tax will affect businesses, food, and ultimately every aspect of society. This is not the right time to implement taxes that so direly affect our citizens, as many are already suffering from our State's economic crisis. Thank you."

Representative Yamane rose to speak in support of the override with reservations, stating:

"Mr. Speaker, I'm standing in support with reservations. Thank you, Mr. Speaker for your patience, and Members. I did want to explain since I did vote no on this measure as it passed on a previous vote. I want to explain why I have changed my vote from a no, to with reservations.

"Mr. Speaker, the Minority has brought up some valid points regarding the impact of this tax on the people. I feel the people of my district will be impacted by some of these increases. However Mr. Speaker, as I have been enlightened by my colleagues regarding this budget and the impact of this bill on the balanced budget, as well as when I reviewed how this budget affects the people of Hawaii, Mr. Speaker, especially in the area of health and human services. This money that's being diverted to the general fund that has been discussed, which I previously opposed because of that reason. Those moneys that are going to be now used for *kupuna* care, to be used for feeding the elderly, to be used to support our hospitals throughout

the State of Hawaii. Mr. Speaker, I was compelled to change my vote. I just thank you for that time."

Representative Berg rose to speak in support of the override with reservations, stating:

"Thank you, Mr. Speaker. I rise in support with reservations. I request that the words of the Representatives from Hanalei, from Kona, and from Kailua be entered as my own. In addition just a few more comments, Mr. Speaker. I've been always in favor of the content of this particular bill, and my concerns when it crossed over to the Senate and when it crossed back at the end of the Third Reading, was because of the amount that was going to be allotted to the general fund.

"What I've learned about the process of what we've been going through with the budget is that there are tradeoffs and there are balances. And what I also understand and feel reassured by the Finance Chair, is that some of the funding that we wished that would go to programs and services from this particular measure are accounted for in the general fund budget. So with that in mind, I do appreciate the effort of the Finance Committee to enlighten us and have us understand the percentages. And as the Representative from Kailua, I hope that next year when you all are back here again, that you will consider being very deliberate with the will and the intent of the underlying bill. Thank you."

Representative Rhoads rose to speak in support of the override, stating:

"Thank you, Mr. Speaker. In support. My apologies to my suburban colleagues. I do think that the one point that we haven't really talked about much is the slight increase in gas prices this bill will engender. It's actually a positive thing. It will discourage people from driving as much.

"And while it is a burden to those who live a long way out, I think in the long run people moving back into town and not driving so far is a desirable situation from a number of perspectives, not least of which is global warming. Having a single family home in the suburbs and then driving to work a long way is a very energy intensive way to live

"I think you already see the trend to a certain extent when my good friend from Kapolei/Makakilo always says that her district is the fastest growing in the State, and it probably is. But the 28th District is also growing very fast and part of the reason for that is people are tired of paying high gas prices which have nothing to do with the tiny amount we're raising the tax here. This is all before this would go into effect. People are moving back into town and one reason they're moving back into town is because it costs too much to commute. They lose all the money you save by having a cheap house in the suburbs. It is made up for in gas, and of course you have to sit in traffic for an hour each way.

"So I do think the good thing about this bill is that it allows us to develop other forms of energy that will also allow people who live in the suburbs to stay there and not pay an arm and a leg like developing electrical vehicles, like building the train. I think this bill is the wave of the future and you do have to finance things to move forward.

"My objection to the idea that we shouldn't raise the tax is that well, there is no free lunch, and businesses know that too. They know there's nothing for free. But 15 or 20 years from now, businesses are going to be grateful that we went in this direction because they will have alternative sources of energy that we wouldn't have but for this bill and other bills like it. Mahalo."

Representative M. Lee rose to speak in support of the override, stating:

"Mr. Speaker, I rise in support and I'd like written comments in the Journal. Could I have the remarks of the other Representative from Mililani with the exception of changing the vote recorded in the Journal as my own. Thank you."

Representative M. Lee's written remarks are as follows:

Mr. Speaker, I rise in support of HB2421, HD2, SD2, CD1, the so-called "Barrel Tax." This is landmark legislation, which will have much influence on Hawaii's ability to be energy independent and to grow enough food to be sustainable in the future. We spend $8.6 billion per year for imported food and fuel. The result of this bill in years to come will be to keep more dollars within our State and make our economy stronger.

"The tax is a mere $1.00 on a barrel of imported oil to fund energy and food security programs, renewable energy tax credits and agricultural inspection. Some monies will go into the general fund to help balance our budget as well. I urge the Members' support."

Representative M. Oshiro rose to speak in support of the override, stating:

"Mr. Speaker, in support. Just a couple of points that have not been made. The $13 million to the general fund will be for only a temporary period of time to address the current recession and the shortfall in the general fund budget. It is set to be repealed in 2015, Mr. Speaker. So it's just a temporary measure to assist us in balancing our budget and paying for the services that we desire and we all champion when we get back to our communities.

"Second point Mr. Speaker, is for the Department of Ag we spend about $9.2 million a year. $9.2 million general funds to the Department of Ag. Just keep that in mind. We also spend about $23 million Mr. Speaker, a year. $23 million a year for the Department of Land and Natural Resources to ensure that our environment is protected and secured from all pests, species and waste. Also Mr. Speaker, we spend about $21 million at the University of Hawaii College of Tropical Agriculture and Human Resources. So a total of about $50 million Mr. Speaker, goes from the general fund to these three Departments for environmental related programs. Thank you."

Representative Morita rose to respond, stating:

"Thank you, Mr. Speaker. I'm really sorry, but just a brief rebuttal and I'd like to submit additional comments in the Journal. In the Governor's veto message she mentions significant progress being made by this Administration. Significant progress means relying heavily on the Department of Energy Funding and ARRA grants. Those sources of funding will be dramatically reduced in the next 18 months. When the Lingle Administration leaves office, the ARRA moneys allocated for energy and the Petroleum Violation Trust Fund which has supported the Energy Division for several decades will be depleted and sucked dry. In dealing with critical issues like energy and food security, these are long term and complex strategies that cannot be planned or implemented by election cycles, nor by a single person's actions. So it will take decades for this large scale transformation to occur.

"The Governor's Office has been unrealistic about the Hawaii resources that will be needed to commit and engage the US Department of Energy and uphold our side of the HCEI agreement, and that effort will take staffing resources for the Energy Division. Again, we need this money for the Department of Agriculture to make this complex transition for food security, too.

"The other thing I wanted to point out is that this tax increase can be offset by efficiency and conservation. I think it amounts to about $20 per person per year throughout the State and that can be offset through efficiency measures. Additional comments to the Journal please."

Representative Morita's written remarks are as follows:

"Mr. Speaker, thank you for allowing me to submit a point by point rebuttal to Governor Lingle's veto message and her accompanying press release.

REBUTTAL TO STATEMENT OF OBJECTIONS (VETO MESSAGE) TO HOUSE BILL NO. 2421

"Governor: The purported purpose of Senate Bill No. 2421 is to provide a source of funding to support government programs, personnel, task forces, and grants-in-aid intended to promote energy and food security in the State. The funding will be generated by instituting a $1.00 increase in

the tax imposed on each barrel or fractional part of a barrel of oil sold by a distributor to any retail dealer or end user in the State. However, over half of the money raised by the tax would not be used for the stated purpose.

"Rebuttal: While the initial objective of this measure was to accelerate programs to reduce our fuel and food imports, given the economic reality, the tax will be used to help balance the general fund budget. However, important and core energy and agriculture programs are still general funded. While 60% of the tax will go to the general fund consider this, general funds are used to:

- Fund Agricultural Inspectors, critical positions to facilitate the import and export of agricultural products and mitigate invasive species; and
- Payout the renewable energy technology income tax credits ($18.5 million).

"Governor: This bill is objectionable because it raises taxes on Hawaii residents and businesses by an estimated $22 million per year at a time when the community cannot afford these taxes, and deceptively implies these funds will be used to address the State's dependence on imported fuel and food.

"Rebuttal: In 2008 Hawaii paid $8.4 billion for its energy costs. This bill should not be viewed as a tax, but a retention fee. A retention fee to reduce the over $8 billion dollars each year we ship offshore to pay for our imported fuel and food. The cost of doing nothing will have a far greater impact and leave Hawaii vulnerable to energy pricing volatility and supply disruptions beyond our control. Rising energy cost is the major factor that increases the cost of living, the proposed tax increase is fixed and becomes less significant as the cost of crude oil rises.

March 2010 DBEDT Energy Report: 12 month changes

- Crude oil: $48.10 to $81.29 – 69% price increase
- Average Gasoline prices: $2.43 to $3.46 per gallon – 42% price increase
- Forecast: Crude oil $100.00 per barrel by year end – 22% price increase

"Governor: This tax will impact virtually everything we do or use in Hawaii including electricity, gasoline, trucking, shipping, retail goods, food, and even the propane for our backyard barbeques. The impacts will ripple through our entire economic system. I am particularly concerned that the tax increase occurs at a precarious moment when the State economy is beginning to stabilize and progress out of the slump created by the global recession.

"Rebuttal: The economic development opportunities are in the energy, agriculture, health and education sectors. However, the energy sector is the bedrock of our economy. Stable, predictable energy pricing is a major factor that affects each sector of our economy and offers an opportunity for economic growth. The energy sector moves hand-in-hand with the information technology and communications as technological integration require software and communications support. It is important to remember:

- As the global economy recovers, the demand for crude oil will increase.
- Increased demand means higher crude oil prices

"Governor: It is worth noting that the Legislature was willing to exempt from this barrel tax aviation fuel used by commercial airlines, thereby shifting the burden of the tax to consumers.

"Rebuttal: The inclusion of aviation fuel was never a valid reason to veto the bill last year since federal law would have pre-empted the State law. It is a non-issue in this measure.

"Governor: It should be recognized that higher energy prices discriminate against poor families more than any other group in our society. Energy costs comprise a higher percentage of family expenses for those at the lower income levels. This taxing policy runs counter to a progressive tax structure.

"Rebuttal: As the cost of fossil fuels rise it will be those who can least afford rising energy costs that will ultimately bear the burden of maintaining an antiquated electricity and transportation infrastructure. One of the key objectives of the Hawaii Clean Energy Initiative is grounded in social and economic justice; that is we provide for a strategy that moves our entire community forward to secure the benefits of a clean energy economy and food security transformation for each person and business throughout Hawaii. The tax is broad based, a burden shared by all and a tax that can be offset by efficiency and conservation measures. The anticipated impact on the cost for a gallon of gasoline (2.4 cents per gallon) if you drive a vehicle that averages 20 miles per gallon are as follows, however, these additional costs can be offset through efficiency and conservation.

$0.24 for every 200 miles driven
$2.40 for every 2000 miles driven
$24.00 for every 20,000 miles driven

"Governor: As I noted last year when I vetoed this measure's predecessor, energy and food security have been top priorities of my Administration. In 2006, I signed groundbreaking legislation known as Energy for Tomorrow that laid the foundation to wean Hawaii off imported oil. In 2008, my Administration signed a historic, one-of-a-kind agreement with the U.S. Department of Energy intended to decrease energy demand and accelerate the use of renewable energy resources in Hawaii. In 2009, we enacted legislation drafted by members of the Hawaii Clean Energy Initiative that will help Hawaii meet our goal of 70 percent clean energy by 2030. I am proud to share these accomplishments with members of the Legislature, federal officials, and the community who are committed to making Hawaii a cleaner, greener, and more secure place to live. I believe we can continue to make significant progress in this arena without this tax and the bureaucracies it will fund. Further, I am concerned that some of the money in this bill would be used to fund entities that have no direct relationship to the stated purposes of the legislation.

"Rebuttal: "Significant progress" by the Lingle Administration means relying heavily on U.S. Department of Energy funding and ARRA grants, both sources of funding will be dramatically reduced in the next 18 months. When the Lingle Administration leaves office, the ARRA monies allocated for energy and the petroleum violation trust fund, which has supported the Energy Division for several decades, will be depleted and sucked dry. In dealing with critical issues like energy and food security, these are long-term strategies that cannot be planned or implemented by election cycles or by a single person's action for a large scale transformation to occur. The Governor's office has not been realistic about the Hawaii resources that will need to be committed to engage the U.S. Department of Energy in Hawaii's efforts nor the staffing resources for the Energy Division and Department of Agriculture to make this complex transition for fuel and food security.

"Governor: In sum, we must be willing to make tough choices and work together to prioritize the public programs that have the potential to genuinely address the State's dependence on imported oil and imported fuel without burdening our families, our businesses, and our economic recovery.

"Rebuttal: As an isolated archipelago, we are vulnerable to fuel and food supply disruptions and global forces beyond our control. A transition to a clean energy economy and a strategy to reduce both our fuel and food imports, which is funded through this tax increase, puts Hawaii's destiny more under our control. It will take long-term planning, a smart strategy, public-private partnerships, the infusion of new technology, smart investments and political will to achieve this strategy. Hawaii should be the center of research and development, technology validation and integration for a clean energy economy transformation. But we can only be taken seriously and achieve these goals if we, as the leaders, residents and businesses of this State, make the needed long-term commitment and investment by putting our money where our mouth is."

REBUTTAL TO GOVERNOR LINGLE'S PRESS RELEASE REGARDING HOUSE BILL 2421 VETO

"Governor: Governor Linda Lingle today vetoed a bill that would cost Hawai'i residents and businesses $22 million in new taxes every year on petroleum sold in the State.

"Rebuttal: In 2008, Hawaii paid $8.4 billion for its energy costs.

"Governor: The bill, HB 2421, HD2, SD2, CD1, would impose a $1.00 increase in the tax on each barrel of oil sold in the State.

"Rebuttal: This bill should not be viewed as a tax, but a retention fee. A retention fee to reduce the over $8 billion each year we ship offshore to pay for our imported fuel and food.

"Governor: The bill deceptively purports to use funds generated from the tax increase to promote energy and food security in the State, but in reality, over half of the money raised by the tax would be diverted for general government operations rather than reducing our dependence on imported oil and food.

"Rebuttal: While the initial objective of this measure was to accelerate programs to reduce our fuel and food imports, given the economic reality, the tax will be used to help balance the general fund budget. However, important and core energy and agriculture programs are still general funded. While 60% of the tax will go to the general fund consider this, general funds are used to:

- Fund Agricultural Inspectors, critical positions to facilitate the import and export of agricultural products and mitigate invasive species; and
- Payout the renewable energy technology income tax credits ($18.5 million).

"Governor: The tax increase would raise the cost of living and increase the cost of doing business in the State by making virtually everything more expensive, including electricity, gasoline, trucking, shipping, retail goods, food, public and school buses, and even the propane for backyard barbeques.

"Rebuttal: The cost of doing nothing will have a far greater impact and leave Hawaii vulnerable to energy pricing volatility and supply disruptions beyond our control. Rising energy cost is the major factor that increases the cost of living, the proposed tax increase is fixed and becomes less significant as the cost of crude oil rises.

March 2010 DBEDT Energy Report; 12 month changes

- Crude oil: $48.10 to $81.29 – 69% price increase
- Average Gasoline prices: $2.43 to $3.46 per gallon – 42% price increase
- Forecast: Crude oil $100.00 per barrel by year end – 22% price increase

"Governor: "The impacts will ripple through our entire economy," Governor Lingle said in a message to legislators detailing the reasons she vetoed the bill. "I am particularly concerned that the tax increase occurs at a precarious moment when the State economy is beginning to stabilize and progress out of the slump created by the global recession."

"Rebuttal: The economic development opportunities are in the energy, agriculture, health and education sectors. However, the energy sector is the bedrock of our economy. Stable, predictable energy pricing is a major factor that affects each sector of our economy and offers an opportunity for economic growth. The energy sector moves hand-in-hand with the information technology and communications as technological integration require software and communications support. It is important to remember:

- As the global economy recovers, the demand for crude oil will increase.
- Increased demand means higher crude oil prices

"Governor: The Governor is particularly concerned that poor families throughout the State would be hurt the most by the higher energy prices that would result from this tax increase since energy costs account for a higher percentage of the expenses for those at lower income levels.

"Rebuttal: As the cost of fossil fuels rise, it will be those who can least afford rising energy costs that will ultimately bear the burden of maintaining an antiquated electricity and transportation infrastructure. One of the key objectives of the Hawaii Clean Energy Initiative is grounded in social and economic justice; that is we provide for a strategy that moves our entire community forward to secure the benefits of a clean energy economy and food security transformation for each person and business throughout Hawaii. The tax is broad based, a burden shared by all and a tax that can be offset by efficiency and conservation measures.

"Governor: In addition, there would a disproportionate impact on gasoline expenses for Neighbor Island residents, as well as those on O'ahu's leeward coast, the 'Ewa and Kapolei areas, the North Shore and rural windward communities because they must commute over greater distances.

"Rebuttal: The anticipated impact on the cost for a gallon of gasoline (2.4 cents per gallon) if you drive a vehicle that averages 20 miles per gallon are as follows, however, these additional costs can be offset through efficiency and conservation.

$0.24 for every 200 miles driven
$2.40 for every 2000 miles driven
$24.00 for every 20,000 miles driven

"Governor: While one of the stated intents of the bill is to "establish a clean energy initiative to manage the State's transition to a clean energy economy," Governor Lingle noted that her Administration, in collaboration with the Legislature, federal government and community partners, has already made significant progress in this arena without the need for a regressive tax increase that would negatively impact every Hawai'i resident and business and jeopardize our economic recovery.

"Rebuttal: "Significant progress" under the Lingle Administration means relying heavily on U.S. Department of Energy funding and ARRA grants, both sources of funding will be dramatically reduced in the next 18 months. When the Lingle Administration leaves office, the ARRA monies allocated for energy and the petroleum violation trust fund, which has supported the Energy Division for several decades, will be depleted and sucked dried. In dealing with critical issues like energy and food security, these are long-term strategies that cannot be planned or implemented by election cycles or by a single person's action for a large scale transformation to occur. The Governor's office has not been realistic about the Hawaii resources that will need to be committed to engage the U.S. Department of Energy in Hawaii's efforts nor the staffing resources for the Energy Division and Department of Agriculture to make this complex transition for fuel and food security.

"Governor: The Governor vetoed a similar measure last year. One of her main concerns in that bill was the impact the barrel tax hike would have on aviation fuel for commercial airlines. Under this current bill, legislators were sympathetic to the plight of the airlines that are reeling due to the downturn in tourism and exempted aviation fuel from the barrel tax increase.

"Rebuttal: The inclusion of aviation fuel was never a valid reason to veto the bill last year since federal law would have pre-empted the State law. It is a non-issue in this measure.

"Governor: However, the entire $22 million annual tax burden would now shift to every other business in the State and ultimately all Hawai'i consumers who are struggling to cope with today's economic challenges.

"Rebuttal: You can spin this as a $22 million annual tax burden, or talk about it as a $22 million retention fee to reduce the over $8 billion we ship offshore each year to pay for our imported fuel and food needs. The $22 million retention fee provides for economic opportunities, economic diversification and job creation, a reinvestment in Hawaii's future. Business as usual is not a sustainable option. As an isolated archipelago, we are vulnerable to fuel and food supply disruptions and global forces beyond our control. A transition to a clean energy economy and a strategy to reduce both our fuel and food imports, which is funded through this tax increase, puts Hawaii's destiny more under our control. It will take long-term planning, a smart strategy, public-private partnerships, the infusion of new technology, smart investments and political will to achieve this strategy. Hawaii should be the center of research and development, technology validation and integration for a clean energy economy

transformation. But we can only be taken seriously and achieve these goals if we, as the leaders, residents and businesses of this State, make the needed long-term commitment and investment by putting our money where our mouth is."

Representative Souki rose to speak in support of the override, stating:

"Yes, Mr. Speaker, strong support. And I wish to call for the question."

At this time, Representative Souki called for the previous question.

The Chair then stated:

"Thank you. The question has been called and the Chair agrees with that."

Representative Takai rose to speak in support of the override, stating:

"Thank you, in support. Also I would like to take the comments of the Chairman of the EEP Committee, as well as the Chairman of the Finance Committee as if they were my own. And just mention one quick thing, Mr. Speaker. Thank you.

"This is a very tough issue. I realize that, I think we all realize that. But I do want to commend and congratulate both the Chairman and the Vice Chairman of the Energy and Environmental Protection Committee for doing such a great job moving this through. We spend $9 billion each year, we as the State of Hawaii. $9 billion gets sucked away from our economy because we pay for this oil. If there's any state in the union, we should be doing this because we are an island state. Thank you, Mr. Speaker."

Representative Pine rose and stated:

"Are we doing written comments and then talking?"

Speaker Say: "No. Would you like to submit your written comments in opposition on your second time of rebuttal? The Chair will allow you."

Representative Pine: "Yes."

Representative Pine's written remarks are as follows:

"Mr. Speaker, I rise in opposition to override the Governor's veto of House Bill 2421, Relating to Government. This bill will modify the environmental response tax (i.e. the "barrel tax") into the environmental response, energy, and food security tax. This bill raises the "barrel tax" from 5 cents to $1.05. Out of this $1.05 tax, only 45 cents will be applied to the positive initiatives proposed in this bill. The balance of 60 cents goes directly into the general fund.

"Mr. Speaker, this bill is a tax increase on the consumer under the guise of helping the environment. The proponents of the bill want people to know that this bill will help the environment, but fail to mention that most of the money will go into the general fund. There are other methods of generating revenue for the general fund, and this is not the most economically feasible one.

"Everyone who drives a motor vehicle will be affected by this tax increase. The hardest hit will be those (like my constituents) who live in rural areas, and have to commute to work on a daily basis. Their fuel costs will add up over time while they continue to find ways to pay for basic items like food, water, and electricity.

"For these reasons, I oppose overriding the Governor's veto of House Bill 2421."

Representative Finnegan rose to respond, stating:

"Mr. Speaker, just a short comment please. Thank you, Mr. Speaker. Really quick. When it comes to taxes Mr. Speaker, it's arguable that we work six months out of the year, six out of twelve months paying taxes. So when we look at this and other people say, and I'm talking about all taxes. Taxes that are embedded in food. Taxes that are embedded in services. Taxes that are embedded in everything. So when you take a look at this and you say, 'It was just a tiny, itty bitty tax,' Mr. Speaker. I disagree with that."

Representative Pine rose to respond, stating:

"Sorry. I misunderstood you. I thought we couldn't talk. I just want to say a couple of sentences. We talked about how this money was going to be going to *kupuna* care and all these wonderful social services. I just want to remind the Members that just yesterday we raided the rainy day fund to fund all these services. So saying that this tax is for those services is very misleading Mr. Speaker."

Representative M. Oshiro rose in support of the override and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Oshiro's written remarks are as follows:

"I rise in support of the override of the Governor's veto of House Bill 2421, Conference Draft 1.

"Mr. Speaker, the barrel tax is a minimum cost increase that will provide a long-term benefit.

"The Governor argues that this tax policy runs counter to a progressive tax structure because it will shift the tax burden unfairly to consumers and poor families more than any other group in our society. I would like to ask the Governor who she thinks should pay for the inevitable climate changes and pollution if not the consumers who use petroleum products? This tax-shifting policy is a substitute for a blanket 1% GET increase on all sales and consumption of goods. This barrel tax displays a clear use of petroleum products and the corresponding impacts to the environment and therefore is an avoidable tax when our use of petroleum products is reduced.

"With the passage of this bill, a portion of the monies goes to some of the critical programs and positions like agricultural inspectors, of which the recently passed House and Senate re-instituted 22 of the 28 quarantine inspector positions eliminated from the Governor's budget. The portion of the tax being deposited into the Agricultural Development and Food Security Special Fund will provide continuous funding for these critical positions, so as not to be cut from the budget in future sessions and times of economic decline.

"Monies from the Agricultural Development and Food Security Special Fund may also be used for awarding grants to farmers and ranchers enduring extreme hardships, including economic challenges and the severe weather conditions.

"As a state, we need to keep in mind that currently, the general fund subsidizes several energy related tax credits. Unfortunately, the data available comes from 2005, but the energy conservation tax credit and renewable energy technologies tax credit cost the general fund:

- Over $3.0 million in 2005;
- Over $13 million in 2004; and
- Over $5 million annually in 2003 and prior years.

"This measure will help to support not just the special funds in the bill, but all the tax credits that go to support businesses engaged in alternative energy industries. In more current years the credits have been modified, but still have significant impact on the general fund. The Department of Agriculture's budget was $9.2 million this fiscal year, $23.3 million for the Department of Land and Natural Resources, and $21.4 million for the University of Hawaii's College of Tropical Agriculture and Human Resources. General funds currently allocated to the aforementioned Departments will continue to see more funding for existing energy, agriculture, and environmental special programs that benefit the public.

SUMMARY OF ESTIMATED IMPACT OF INCREASING THE ENVIRONMENTAL RESPONSE TAX (bbl tax) FROM THE CURRENT $0.05/bbl to $1.05/bbl

	CY10
Proposed Environmental Response Tax (bbl tax), $/bbl	$1.05/bbl
Proposed Environmental Response Tax (bbl tax), $/gal	2.5¢/gal
Estimated Annual Input on Hawaii Drivers	$15.00/driver/year
Estimated Monthly Impact on Hawaii Drivers	$1.25/driver/month
Estimated Impact on Hawaii Drivers Per Day	4.0¢/driver/day
Estimated Annual Impact on Residential Electricity Bill	$9.36/household/year
Estimated Monthly Impact on Residential Electricity Bill	78¢/household/moth
Estimated Impact on Residential Electricity Bill Per Day	2.6¢/household/day
Estimated Annual Increase in Fiscal Revenues	$30,369,573 per year

"In the Governor's Message, she mentions being committed to making Hawaii a cleaner, greener, and more secure place to live, yet cannot support the stable funding source for sustainable food and energy security created by this legislation.

"This legislation expands the purpose of the tax so that Hawaii can focus on sustaining our economy through alternative energy systems, and energy and food security. For an island state, economic sustainability, including energy and food security, is critical for our survival. We import 85% of our food and 95% of our energy. Mr. Speaker, Hawaii has a fresh supply of produce for no more than 10 days.

"This measure will promote economic development for our State through overall job growth in environmental and technology sectors and opportunities for new business ventures focused on renewable energy resources. We have to ask ourselves as citizens of this State, whether or not we are going to be satisfied living with the major cost impacts imposed by the inevitable climate changes. For these reasons, I support the override."

Representative Ward rose in opposition to the override and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ward's written remarks are as follows:

"Mr. Speaker, I am presenting written comments in opposition to HB 2421, which increases Hawaii's barrel tax from $0.05 per barrel to $1.05 per barrel in order to tax our people for general fund revenues, as well as promote the State's food and energy security.

"Although I strongly support self-sufficiency and clean energy initiatives, I strongly oppose raising taxes, which is the last thing we should be doing in this economy. A barrel tax increase will make the price of almost everything in the State increase, causing additional financial hardship to families that are already struggling to get by and already have to pay $0.60 per gallon in state and federal taxes.

"I also oppose HB 2421 because only 40 percent of the tax revenues will be used for energy and food security projects, while the other 60 percent will go toward Hawaii's general funds. If legislators were serious about the environment, all of the tax's revenues would be used for the special fund, not less than half. This bill is simply hiding a drastic tax increase behind a good cause.

"Finally, the portion of the tax increase that would go into the general fund is unnecessary for balancing the budget. The House Minority financial plan not only balances the State budget without raising taxes, it allocates $10 million into the environmental special fund. That barrel tax would only generate $8 million for the special fund. (See gene-ward.com/budget.)

"While protecting the environment is certainly important, it doesn't justify increasing the barrel tax by 2000 percent. This bill is Job Killer number one. For these reasons, Mr. Speaker, I oppose HB 2421."

At this time the Chair called for a roll call vote and the motion to override the veto of H.B. No. 2421, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO GOVERNMENT," as contained in Gov. Msg. No. 283 was put to vote by the Chair and carried, and was approved by the required two-thirds vote of the House pursuant to Section 17 of Article III of the Constitution of the State of Hawaii on the following show of Ayes and Noes:

Ayes, 42: Aquino, Awana, Belatti, Berg, Bertram, Cabanilla, Carroll, Chang, Chong, Choy, Coffman, Evans, Hanohano, Herkes, Ito, Karamatsu, Keith-Agaran, C. Lee, M. Lee, Luke, Magaoay, Manahan, McKelvey, Mizuno, Morita, Nakashima, B. Oshiro, M. Oshiro, Rhoads, Sagum, Saiki, Say, Shimabukuro, Souki, Takai, Takumi, Thielen, Tokioka, Tsuji, Wooley, Yamane and Yamashita.

Noes, 9: Brower, Ching, Finnegan, Har, Marumoto, Nishimoto, Pine, Wakai and Ward.

At 11:50 o'clock a.m., the Chair noted that the motion to override the veto had carried, and H.B. No. 2421, HD 2, SD 2, CD 1, as contained in Gov. Msg. No. 283, was approved.

LATE INTRODUCTIONS

The following late introductions were made to the Members of the House:

Representative Chang introduced the daughter of the late Eric Maehara: Ms. Natasha Maehara of Australia.

Representative Karamatsu introduced his sister, Ms. Lara Karamatsu; his former staff, Ms. Tracy Okubo; and his friends, Mr. Mike Noguchi and Ms. Zoe Tanaka.

Representative Ward introduced former Supreme Court Justice Steven Levinson; Ms. Janice Pechauer; and Ms. Sandy Ballard.

Representative Cabanilla introduced an active member of the Filipino community and the League of Women Voters, Ms. Amy Agbayani.

Representative Wooley introduced her constituent, Ms. Debi Hartmann of Laie; and the Representative's husband, Mr. David Henkin.

GOVERNOR'S MESSAGES

At this time, the Chair addressed the Clerk who announced Gov. Msg. No. 234, informing the House that on April 14, 2010, H.B. No. 1868, HD 1, was vetoed.

Gov. Msg. No. 234 and H.B. No. 1868, HD 1:

Representative B. Oshiro moved to override the veto of H.B. No. 1868, HD 1, as contained in Gov. Msg. No. 234, seconded by Representative Evans.

Representative Ward rose to speak in opposition to the override, stating:

"Mr. Speaker, I rise in opposition to this. For sake of a better term this is the 'Pearl Iboshi' bill, Mr. Speaker."

Representative M. Oshiro rose to a point of order, stating:

"Mr. Speaker, point of order. I believe the current speaker is violating the rules by referring to a particular individual when this is a law of general application."

Representative Ward: "Mr. Speaker, I stand corrected. It's in parentheses."

The Chair addressed Representative Ward, stating:

"Representative Ward, please do not make mention of any particular name or person that this particular bill is addressing. This is basically in general law."

Representative Ward continued, stating:

"Mr. Speaker, I rise in support of the best and the brightest we have to run State government. Without names, we can commend them for their intellectual abilities, for their dedication, their loyalty. And Mr. Speaker, this bill says, if you get an appointment and you're smart and you're wise like a person I can't mention the name of, you will have to go to the penalty box for one year. You cannot go into civil service.

"Now how anti-intellectual can we become as a State government? It's the brains of the people that make government smart and run properly. As I said yesterday on the Floor, Japan has no resources, but they've got its people. It imports everything. You think we've got trouble importing 85% of our food and resources. It's the people that make our society great. What makes government work are good people.

"Mr. Speaker, this is not only for this Governor, it's for previous Governors' people, and future Governors, who when they get good people, they pull out of civil service. They should be able to go back into civil service. Why do we want to punish them? This is anti-intellectual. This is the way that they did it in China when they took the intellectuals and said, 'You guys are now demoted.' It was the Cultural Revolution. Is this some kind of appointment revolution that we're trying to create here? It's bad policy Mr. Speaker. It's anti-intellectual. It's punitive. It's bad policy. Thank you."

Representative Rhoads rose to speak in support of the override, stating:

"Mr. Speaker, in support. I would say that the genesis of this bill is that it is true that you can come out of civil service and even if this bill goes into effect, you can still be appointed to a non-civil service position. But the problem that I was trying to address by introducing it is that, after eight years in an appointed position, you can come back and kick out the person who took your job after you left, and they're out of a job.

"So I think at some point, you just have to make a career choice. There's nothing to stop you from leaving civil service and going to an appointed position. But at some point it becomes so disruptive to come back and take the job away from the person who took your spot, that it just doesn't seem fair to me that you should be able to do that after a really extended period of time. So that's the genesis and there is no prohibition whatsoever on moving from civil service into the appointed positions.

"And if I remember correctly, this is the same rule they have at the federal level. You can get appointed, but I don't believe, and I'm not 100% sure, but I don't believe you have the right to go back after you've served on a Presidential Administration for eight years and you go back to the same civil service job. Thank you, very much."

Representative Souki rose to speak in opposition to the override, stating:

"Yes Mr. Speaker, I want to speak in opposition to this veto. I believe that whoever the Governor is, he or she should have the right to select who they think can best serve the people of the State of Hawaii, and sometimes they need to pick some civil service person to come in and serve. I don't think we should end that process as has been the tradition for the past years, that after the term with the Governor is over, they can go back in the position. And I don't believe we should stymie the Chief Executive's Office from getting the best possible person they can get to serve the people of the State of Hawaii. For this reason, I'm in opposition of this measure."

Representative McKelvey rose in opposition to the override and asked that the remarks of Representative Souki be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Ching rose to speak in opposition to the override, stating:

"Thank you, Mr. Speaker. I rise in opposition. I also ask that the words of Speaker Emeritus be entered as my own. I would deem this the anti-excellence bill. We want to do everything we can to encourage people who have proven themselves to do a good job to be able to be tapped to serve on behalf of the State, and not to feel like they're being punished or they can't. And I think that the Governor, as Speaker Emeritus I think alluded to, should have the chance to pick from the best and the brightest so we can deliver the best and the brightest service to the people of Hawaii. Thank you."

At this time the Chair called for a roll call vote and the motion to override the veto of H.B. No. 1868, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CIVIL SERVICE," as contained in Gov. Msg. No. 234 was put to vote by the Chair and carried, and was approved by the required two-thirds vote of the House pursuant to Section 17 of Article III of the Constitution of the State of Hawaii on the following show of Ayes and Noes:

Ayes, 41: Aquino, Awana, Belatti, Berg, Bertram, Brower, Cabanilla, Carroll, Chong, Choy, Coffman, Evans, Hanohano, Har, Herkes, Ito, Karamatsu, Keith-Agaran, C. Lee, M. Lee, Luke, Magaoay, Manahan, Mizuno, Morita, Nakashima, Nishimoto, B. Oshiro, M. Oshiro, Rhoads, Sagum, Saiki, Say, Shimabukuro, Takai, Tokioka, Tsuji, Wakai, Wooley, Yamane and Yamashita.

Noes, 10: Chang, Ching, Finnegan, Marumoto, McKelvey, Pine, Souki, Takumi, Thielen and Ward.

At 12:00 o'clock p.m., the Chair noted that the motion to override the veto had carried, and H.B. No. 1868, HD 1, as contained in Gov. Msg. No. 234, was approved.

At this time, the Chair addressed the Clerk who announced Gov. Msg. No. 281, informing the House that on April 25, 2010, H.B. No. 2085, HD 1, SD 2, was vetoed.

Gov. Msg. No. 281 and H.B. No. 2085, HD 1, SD 2:

Representative B. Oshiro moved to override the veto of H.B. No. 2085, HD 1, SD 2, as contained in Gov. Msg. No. 281, seconded by Representative Evans.

Representative Finnegan rose to speak in opposition to the override, stating:

"Thank you, Mr. Speaker. Just short comments. Thank you. I will be voting in opposition. This bill I think has a really great goal that we're trying to coordinate records for health to make sure that we have the best healthcare system possible. The difficulty that I've been struggling with, especially hearing the bill in the Health Committee, is that the protection of privacy and HIPAA laws and everything related to that. I did vote yes on this bill going up to the Governor, but just in trusting the fact that the AG's Office, as well as others who are looking at the protection of privacy vetoed the bill, I will be support the veto. Thank you."

Representative B. Oshiro rose and stated:

"Mr. Speaker, I believe the speaker's comments were in regard to a different bill. This bill is about the QUEST contracts and whether they can continue. I believe she was speaking on HB No. 2086."

Representative Finnegan: "Mr. Speaker, that is correct. I will take my comments back. Thank you."

At this time the Chair called for a roll call vote and the motion to override the veto of H.B. No. 2085, HD 1, SD 2, entitled: "A BILL FOR AN ACT RELATING TO HEALTH," as contained in Gov. Msg. No. 281 was put to vote by the Chair and carried, and was approved by the required two-thirds vote of the House pursuant to Section 17 of Article III of the Constitution of the State of Hawaii on the following show of Ayes and Noes:

Ayes, 45: Aquino, Awana, Belatti, Berg, Bertram, Brower, Cabanilla, Carroll, Chang, Chong, Choy, Coffman, Evans, Hanohano, Har, Herkes, Ito, Karamatsu, Keith-Agaran, C. Lee, M. Lee, Luke, Magaoay, Manahan, McKelvey, Mizuno, Morita, Nakashima, Nishimoto, B. Oshiro, M. Oshiro, Rhoads, Sagum, Saiki, Say, Shimabukuro, Souki, Takai, Takumi, Tokioka, Tsuji, Wakai, Wooley, Yamane and Yamashita.

Noes, 6: Ching, Finnegan, Marumoto, Pine, Thielen and Ward.

At 12:05 o'clock p.m., the Chair noted that the motion to override the veto had carried, and H.B. No. 2085, HD 1, SD 2, as contained in Gov. Msg. No. 281, was approved.

At this time, the Chair addressed the Clerk who announced Gov. Msg. No. 282, informing the House that on April 25, 2010, H.B. No. 2086, HD 2, SD 2, was vetoed.

Gov. Msg. No. 282 and H.B. No. 2086, HD 2, SD 2:

Representative B. Oshiro moved to override the veto of H.B. No. 2086, HD 2, SD 2, as contained in Gov. Msg. No. 282, seconded by Representative Evans.

Representative Finnegan rose to speak in opposition to the override, stating:

"Thank you, Mr. Speaker. In opposition, and I'd like to thank the Majority Leader for correcting me on the previous bill. Mr. Speaker, I just have the same comments, if that's okay. Do I have to repeat it? Okay. The same comments for this bill. Thank you."

At this time the Chair called for a roll call vote and the motion to override the veto of H.B. No. 2086, HD 2, SD 2, entitled: "A BILL FOR AN ACT RELATING TO HEALTH CARE DATA," as contained in Gov. Msg. No. 282 was put to vote by the Chair and carried, and was approved by the required two-thirds vote of the House pursuant to Section 17 of Article III of the Constitution of the State of Hawaii on the following show of Ayes and Noes:

Ayes, 48: Aquino, Awana, Belatti, Berg, Bertram, Brower, Cabanilla, Carroll, Chang, Ching, Chong, Choy, Coffman, Evans, Hanohano, Har, Herkes, Ito, Karamatsu, Keith-Agaran, C. Lee, M. Lee, Luke, Magaoay, Manahan, Marumoto, McKelvey, Mizuno, Morita, Nakashima, Nishimoto, B. Oshiro, M. Oshiro, Rhoads, Sagum, Saiki, Say, Shimabukuro, Souki, Takai, Takumi, Thielen, Tokioka, Tsuji, Wakai, Wooley, Yamane and Yamashita.

Noes, 3: Finnegan, Pine and Ward.

At 12:08 o'clock p.m., the Chair noted that the motion to override the veto had carried, and H.B. No. 2086, HD 2, SD 2, as contained in Gov. Msg. No. 282, was approved.

At this time, the Chair addressed the Clerk who announced Gov. Msg. No. 284, informing the House that on April 25, 2010, H.B. No. 2866, HD 1, SD 1, CD 1, was vetoed.

Gov. Msg. No. 284 and H.B. No. 2866, HD 1, SD 1, CD 1:

Representative B. Oshiro moved to override the veto of H.B. No. 2866, HD 1, SD 1, CD 1, as contained in Gov. Msg. No. 284, seconded by Representative Evans.

Representative Finnegan rose to speak in opposition to the override, stating:

"Thank you, Mr. Speaker. In opposition. Mr. Speaker, this bill is a little bit difficult to explain, but I'll try to do my best. This is otherwise called the 'death tax.' This bill proposes to impose a tax on the transferrable estate of a nonresident person who has a taxable estate in Hawaii. It also reestablishes the Hawaii Estate Tax on persons, noncitizen or otherwise, that's anybody, residents in Hawaii, who passed away after April 30th 2010.

"Mr. Speaker, the Economic Growth and Tax Relief Reconciliation Act of 2001 or EGTRRA did two things pertinent to this bill. First, it abolished the federal credit for state death taxes. Prior to this abolishment, paying Hawaii's State death taxes allowed you to take an equivalent credit on your federal estate tax return. In other words, you had a wash as far as your overall death tax bill was concerned. However, EGTRRA also eliminated the federal estate tax for 2010. There's no federal credit for state death taxes. But House Bill 2866 will reinstate the Hawaii State death tax anyway. This is not a wash. For those that have the unfortunate fate of dying after April 30, 2010 with a taxable estate, beneficiaries will have to deal with paying a new Hawaii State death tax without the benefit of taking a credit against a federal tax.

"Mr. Speaker, I realize that this is part of the financial plan. This is $19 million a year I believe, and as we stated earlier Mr. Speaker, in our six-year financial plan and two year budget, we don't have this to balance the budget. Thank you."

Representative Choy rose to speak in support of the override, stating:

"Mr. Speaker, in strong support. Mr. Speaker, this estate tax is a tax on the privilege of transferring property when a person dies. But let's make it absolutely clear: this particular tax will only affect the top 1% or less of residents of the State of Hawaii. It also puts an exemption on the first $3.5 million net value of a person's estate. So we're really talking about just the very, very wealthy of us that can pay this particular tax.

"Mr. Speaker, this tax also helps not-for-profit organizations and charities. One of the things that we can do to lower our estate tax obligation is to give our money away. And I know that's hard for some, but our charities and not-for-profit organizations do benefit from a tax such as this. So this estate tax is progressive, it is for those who can pay it, and I know a lot of my clients, they're willing to pay this particular tax to help the rest of the residents who can't afford to. Thank you."

Representative Rhoads rose to speak in support of the override, stating:

"Mr. Speaker, in support. I think it's also important to note that because it only affects the very highest income earners, in general, the highest income earners do not make their money from earned income. Because with earned income, you don't even have the right to see the tax money in your paycheck. Every time you get paid, the tax money that you pay is gone already. And if you suggested it to the IRS, to the State Department of Taxation, that, 'Hey, I'll tell you what. I'll just keep my tax money until the end of the year, and then I'll pay you in a lump sum.' It doesn't work that way.

"With wealthy individuals, the vast majority of the time their wealth is derived from capital gains. If you hang on to your property, one of your capital gain properties is either stocks or bonds or real estate, and keep it until the time of your death. Your basis is stepped up at death and you never pay tax on that at all.

"That of course is why the estate tax was originally instituted years and years ago when one of the big proponents of the estate tax was the Republican President Teddy Roosevelt. The reason for it was that it just wasn't fair that the wealthiest individuals never paid taxes on the biggest chunks of their incomes. So I think this is truly a fairness and an All-American bill, and I support it. Thank you."

Representative Finnegan rose and stated:

"Point of personal privilege. Mr. Speaker, I believe the previous speaker is saying that I'm not American. That this is an All-American bill."

Speaker Say: "No he did not mean it in that way Representative Finnegan."

Representative Finnegan: "Mr. Speaker, I don't think that taxing the rich because they have money according to what he says is necessarily fair. Mr. Speaker, I guess maybe this is the difference between the Representative from Downtown and me. When you buy a piece of property, you're not buying a piece of property with tax-free money. This is money that you've earned and you've paid taxes on. And what is expecting is afterwards when you, not even sell it, but you die, and you give it to your kids. No matter what the cost is of that property or the appraised value is of that property, because when you die, you have to pay taxes to give it to your kids. I don't understand what's fair in that. Thank you."

Representative Rhoads rose to respond, stating:

"Mr. Speaker. Thank you, in rebuttal. The reason it's fair is because if, say you buy a house, well houses are a bad example because we have specials rules for personal residences. But if you had a second house and you bought a second house and you paid $100,000 for it and it increased in value before your death to a million dollars, when it's given to your heirs whoever they may be, the basis is stepped up to a million dollars. It's not the money that you paid to buy the property, the $100,000. It's the gain that you got from having that piece of property appreciate from $100,000, to a million dollars. And then you sell it again. This is essentially an investment property because it's a second residence. You never pay taxes on the $900,000 if you keep it until you die, and that's the part that's not fair. Thank you."

Representative Pine rose to speak in opposition to the override, stating:

"I just want to make a correction. In opposition, and in rebuttal. I think it's very misleading to say that we're just taxing the rich. I want to give you an example of a lot of people that I know that worked on the plantation and they were very wise. They happened to buy land. That was just their tradition. They're from the Philippines and I know many of them. They always invested by buying land.

"My grandmother for example, this doesn't affect her, but she's about a million dollars shy from this, from being taxed. My grandmother makes $600 a month in social security. She never spent her money on frivolous things. She always saved, and saved, and saved, and saved. Technically her land is worth $2 million, and we're saying that she's wealthy. She's just a couple houses shy of a couple of her friends, that if she does ever sell her land it's going to be worth this much.

"But what we're saying is that while you may be taxing the rich, or according to the Representative from Manoa are willing to give which they should while they're alive I guess, if that's what they're willing to do, you could be taxing a very economically poor family who happens to be land rich. Many of the families that this would relate to, they are land rich, but they don't want to sell their holdings. But according to this tax they're going to have to get rid of many of their holdings just to pay for the tax.

"So while we have this conversation of penalizing the rich to help the poor, I do want to remind the Body of a wonderful quote from Abraham Lincoln where he said, 'You do not make a weak man strong by making a strong man weak.'"

Representative McKelvey rose to speak in support of the override, stating:

"Thank you very much, Mr. Speaker. In support, and may I have the words of my Vice-Chair entered into the record as if they were my own. And I can assure the good Representative from Ewa Beach, the word is 'net.' $3.5 million net, which means you basically deduct the losses. So if they have a mortgage on the house and other types of things, you take that out. So even at $2 million gross they wouldn't be affected. But I guarantee that after the net you won't be anywhere near it. Thank you, very much."

Representative Ching rose to speak in opposition to the override, stating:

"Thank you very much, Mr. Speaker. In opposition as well. Thank you very much. I ask that the words of the Representative of Ewa Beach be entered as my own. Thank you, Mr. Speaker.

"My three concerns with this is, number one, I wanted to reiterate the concern that this would impose a tax on families with valuable land holdings that may not necessarily be what most people would define as wealthy, but it's just that their estate meets those thresholds.

"But number two, this measure targets individuals who are most capable of stimulating Hawaii's economy, providing a disincentive for residents and nonresidents looking to accumulate capital in the State of Hawaii to invest in the State. I think my colleague from Hawaii Kai has said numerous times and I paraphrase because I can't remember his exact words. But he basically had said numerous times that money will go where it feels welcome. It will go where it's attracted. We want it, right now, to increase our revenues, we want to attract revenues.

"The last, and this is an objection, and I think it's important to consider, is that this estate tax applies, it's unfair because it applies to persons who die after April 30, 2010 with little notice or time to inform the public, and does not provide enough time for individuals to adequately plan their estate or their current estate plan. I think that is something that we really have to take into consideration. But mostly I think it's time to try to attract people to business. I'll borrow if I may, one last quote from the Representative of Hawaii Kai who serves on the Finance Committee and is in the Small Business Caucus. He states that Hawaii is the second in the world as most expensive to do business after Japan, after Tokyo. That's something to consider. Thank you."

Representative Souki rose to speak in opposition to the override, stating:

"Yes Mr. Speaker, unfortunately I'm in opposition to this measure. I believe that if someone can rise up from his roots and be able to garner an estate that has grown and is now able to leave it for his family to enjoy, I don't believe that they should be taxed. Not on this basis that we have here. And there's many a person like us who come from a plantation village who has managed to work very hard and get an estate and want to leave it to his family so that they can enjoy it. They can enjoy the fruits of his labor. And so on this measure, I would be voting against this override."

Representative B. Oshiro rose to speak in support of the override, stating:

"Mr. Speaker, I rise in support. Very briefly I just would like to explain, I don't think people are really understanding what's going on. Under our federal tax system and our current Hawaii law, we are tied to the federal tax system. And so right now that's the peg that we have. Back before this Act that the Minority Leader talked about, the exemption was down at $675,000. Throughout the years it's continued to climb to $3.5 million. That's the highest it's ever going to go. At 2010, this year, there was a glitch and they forgot to actually enact it. However, Congress is going to come back and they are going to put in an exemption that they promised to be lower than $3.5 million.

"And so this is really about planning purposes. Right now we are tagging it at the highest level, the highest exemption that Congress has allowed. And so now we know how much money we are going to be making so we can put it in our financial plan. That is all we're doing. We've actually been giving the benefit to many of the residents by exactly

knowing where that exemption is. So we no longer have this floating exemption being tied to the federal level.

"That is the danger, that's where you don't get planning. What we've done is allow people to properly plan because now you know up to $3.5 you're fine. Anything after that, you need to plan. That's going to be it for the rest of time immemorial until we change and that is the purpose of this bill. Thank you."

Representative Finnegan rose to respond, stating:

"Thank you, Mr. Speaker. In rebuttal and still in opposition. That is about a Congress that is supposed to move on a bill. For one, they may not move on that bill. For two, Mr. Speaker, this bill is being interpreted that according to the previous speaker from Downtown, as a nonresident bill. That this is for second homes and investments. Mr. Speaker, this is on owner-occupants and it's noted so in the veto message as understanding it to be that way as well.

"Mr. Speaker, my husband used to work for mortgages and reverse mortgages and with that, he would help clients with as they get older and age, that they want to use their equity to pay for their care. And sometimes that's the only thing they have is property. Cash poor, property rich. Mr. Speaker, the way that some of the speakers are talking about this bill is like, 'Oh, it's just for the rich. We don't have to worry about it.' Mr. Speaker, I see it differently because I've been exposed to some of these people who are considered to be rich, and this price tag on this bill is $19 million to those people. So Mr. Speaker, I still am in opposition."

Representative Luke rose to speak in support of the override, stating:

"Thank you, Mr. Speaker. In strong support. And the reason why I support this is because I support the concept of the estate tax. The reason for the estate tax is to encourage people to use their money so that it will continue to fuel back into the economy, and you don't want to encourage people to hold on to a chunk of money until they die. The concept of an estate tax is to encourage people to spend the money. It's basic economic and capitalist principles, and I agree with that. Thank you."

Representative Pine rose to respond, stating:

"Still in opposition, Mr. Speaker, and I would like to use the words of the speaker from Wailuku as my own. As well as integrate my comments, my written comments from Second Reading when this bill came in front of us. I do want to rebut the Representative from Lahaina. I just want to explain that it's not just my family's culture, but I know it's, my friends to the right here always says, well it's also the Chinese culture. You never sell land. I want to give an example of some property that I know of within my family, just so people can understand how when you talk about net and gross and what's really going to be taxed.

"My grandmother bought a very simple piece of land on the North Shore for $30,000. Her property tax bill said it was worth a million. So there are many families, the only way that they can give while they're alive as the previous speaker said, is to sell the land. Well, you know what my grandmother uses this land for? She uses it for the family members who are barely surviving in this economy. For my family members who have lost their jobs. This house is meant for whoever struggles. You can live in this home, and so it's been circulating through the families.

"I know many families who are like that. My grandmother was not as lucky to be able to invest in another home. If she invested in three homes or four homes at the time, she would be penalized underneath this bill. And they don't own any mortgages, so they would be forced to sell these homes according to this tax to reinvest into the economy instead of leaving it to their families. So that is why I'm still in opposition, Mr. Speaker."

Representative Cabanilla rose to speak in support of the override, stating:

"Yes Mr. Speaker, in support and I just would like to have brief comments about this bill. I really don't understand why my colleague from Ewa Beach is in big opposition to this bill when she had repeatedly said in this Chamber that she represents the poorest district in this State and she had said so, so many times."

Representative Pine rose and stated:

"Mr. Speaker. I object to that comment and I have point of personal privilege."

Speaker Say: "State your point of personal privilege because all she is doing is reiterating what you stated on the Floor of the House which is recorded in the House Journal."

Representative Pine: "I never said that I represented the poorest district. I represent people who are amongst the poorest in the State."

Speaker Say: "Okay thank you very much for your clarification. Please proceed, Representative Cabanilla."

Representative Cabanilla: "So I don't understand whether she's standing up in opposition on the bill."

Speaker Say: "Representative Cabanilla."

Representative Thielen rose and stated:

"Mr. Speaker, could she address the measure before us?"

Speaker Say: "I'm asking ... Representative Thielen, you're out of order, I haven't recognized you. Representative Cabanilla."

Representative Cabanilla: "Is this opposition to represent the people she represents, or it's to represent the family?"

Speaker Say: "Representative Cabanilla. Representative Cabanilla, please speak and reference the bill that is before us. Please do not make any allusions to your colleague who lives right next door to you at this point in time."

Representative Cabanilla: "The opposition is about a tax for properties with a net value of $3.5 million. Thank you, Mr. Speaker. And the parable that she has given is about a family member. And so now I question whether the opposition is to represent the district, or a family member which stands to give a conflict of interest."

Representative Pine rose and stated:

"Point of privilege, Mr. Speaker. I personally said this does not affect my family, but many people who we know. I was giving examples of property that my family owned."

Speaker Say: "Okay please proceed, Representative Cabanilla. Has that clarified your question about the previous speaker's comment on the Floor in opposition?"

Representative Cabanilla: "It's as clear as mud Mr. Speaker, but I will sit down."

At this time, the Chair stated:

"May we have some proper decorum here in this Chamber? I know the particular issues today are very heated, but to make references or statements from the Gallery is very uncalled for. This is your democratic House and Senate and this is how democracy works, and the debate that the Chair has allowed to occur.

"Personal innuendos and personal allegations are uncalled for here on this Floor. References to Members by name is uncalled for. References made about State employees are uncalled for also. So please confine your remarks to the measures that are before us and the context that each of these measures have.

"I know you all are tired. It's been a long two weeks of grueling Conferences, but let us have some proper decorum on behalf of the people

who are here in this Gallery. On behalf of your voters, and the constituents that you represent. So let's proceed on."

Representative Ward rose and stated:

"Thank you, Mr. Speaker. Blessed are the peacemakers."

Speaker Say: "Representative Ward, please don't make that kind of comment at the beginning of your statement."

Representative Ward rose to speak in opposition to the override, stating:

"Thank you for saying that. I think you put a calm on this, and I just wanted to say one additional piece of objective information in opposition, Mr. Speaker. And that's in regards to the equity argument. I think we're missing one point, Mr. Speaker. We are in Hawaii. We have limited land. And the data that's very clear is that 90% of the land is owned either by 13 landowners and the government. Mr. Speaker, those are primarily trusts. They don't pay this. So if we're saying we're talking about the rich, we've got all of the other people with 10 or 12% of the land which they exchange. And as I think many people have said, we are basically asset rich, but cash poor.

"So when we say we're really going to hit the rich on this, those 90% landowners are the ones we're not touching on this. And if this is all about exchange of the land and the privilege of taxing that exchange, I think we're missing a big, big part of the picture. Thank you."

Representative Souki rose to a point of order, stating:

"Mr. Speaker, point of order. My point is that you didn't gavel us to come back in business so everything that the Representative said is not on the record."

Speaker Say: "It is on the record at this point. I was requesting for proper decorum. I did not ask for a recess."

Representative Marumoto rose to speak in opposition to the override, stating:

"Thank you, Mr. Speaker. In opposition. Everyone who is talking about this bill is referring to the rich. I believe that we will actually impact a lot of middle class people who just go over the mark. People are going to have to sell their homes, their businesses, their farms, to be able to pay the tax, and then they'll come crying to you. That's why I'm in opposition. I would like to have the words of the Speaker Emeritus entered as my own. Thank you."

At this time, the Chair stated:

"Representative Ching, this is your third time if I'm not mistaken. You will not be recognized as this point. At this point in your career, don't you know parliamentary procedures and rules? Please understand what I am trying to say to all of you. If you are questioning the Chair's ruling, please be aware that I am aware of what is happening."

At 12:33 o'clock p.m. Representative Finnegan requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:34 o'clock p.m.

At this time, the Chair stated:

"At this point we've had a lot of discussion on this particular measure. For those Members who have not submitted their written comments or spoken on this Floor on this particular measure dealing with estate tax, the Chair will allow you to submit written comments, for those who have not spoken or submitted their written comments. If not, we will take the roll call vote."

At 12:35 o'clock p.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:35 o'clock p.m.

At this time the Chair called for a roll call vote and the motion to override the veto of H.B. No. 2866, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," as contained in Gov. Msg. No. 284 was put to vote by the Chair and carried, and was approved by the required two-thirds vote of the House pursuant to Section 17 of Article III of the Constitution of the State of Hawaii on the following show of Ayes and Noes:

Ayes, 43: Aquino, Awana, Belatti, Bertram, Brower, Cabanilla, Carroll, Chang, Chong, Choy, Coffman, Evans, Hanohano, Har, Herkes, Ito, Karamatsu, Keith-Agaran, C. Lee, M. Lee, Luke, Magaoay, Manahan, McKelvey, Mizuno, Morita, Nakashima, Nishimoto, B. Oshiro, M. Oshiro, Rhoads, Sagum, Saiki, Say, Shimabukuro, Takai, Takumi, Tokioka, Tsuji, Wakai, Wooley, Yamane and Yamashita.

Noes, 8: Berg, Ching, Finnegan, Marumoto, Pine, Souki, Thielen and Ward.

At 12:38 o'clock p.m., the Chair noted that the motion to override the veto had carried, and H.B. No. 2866, HD 1, SD 1, CD 1, as contained in Gov. Msg. No. 284, was approved.

At this time, the Chair addressed the Clerk who announced Gov. Msg. No. 285, informing the House that on April 25, 2010, S.B. No. 2159, HD 1, was vetoed.

Gov. Msg. No. 285 and S.B. No. 2159, HD 1:

Representative B. Oshiro moved to override the veto of S.B. No. 2159, HD 1, as contained in Gov. Msg. No. 285, seconded by Representative Evans.

At this time the Chair called for a roll call vote and the motion to override the veto of S.B. No. 2159, HD 1, entitled: "A BILL FOR AN ACT RELATING TO TRAFFIC ABSTRACT FEE," as contained in Gov. Msg. No. 285 was put to vote by the Chair and carried, and was approved by the required two-thirds vote of the House pursuant to Section 17 of Article III of the Constitution of the State of Hawaii on the following show of Ayes and Noes:

Ayes, 39: Aquino, Awana, Belatti, Berg, Bertram, Cabanilla, Carroll, Chang, Chong, Choy, Coffman, Evans, Hanohano, Har, Herkes, Ito, Karamatsu, Keith-Agaran, M. Lee, Luke, Magaoay, Manahan, McKelvey, Mizuno, Morita, Nakashima, Nishimoto, B. Oshiro, M. Oshiro, Rhoads, Sagum, Say, Shimabukuro, Takumi, Tokioka, Tsuji, Wakai, Yamane and Yamashita.

Noes, 12: Brower, Ching, Finnegan, C. Lee, Marumoto, Pine, Saiki, Souki, Takai, Thielen, Ward and Wooley.

At 12:41 o'clock p.m., the Chair noted that the motion to override the veto had carried, and S.B. No. 2159, HD 1, as contained in Gov. Msg. No. 285, was approved.

At this time, the Chair addressed the Clerk who announced Gov. Msg. No. 261, informing the House that on April 22, 2010, S.B. No. 2394, HD 1, was vetoed.

Gov. Msg. No. 261 and S.B. No. 2394, HD 1:

Representative B. Oshiro moved to override the veto of S.B. No. 2394, HD 1, as contained in Gov. Msg. No. 261, seconded by Representative Evans.

Representative Finnegan rose to speak in opposition to the override, stating:

"Thank you, Mr. Speaker, in opposition. I just wanted to mention for the edification of the audience what this bill is about. The purpose of this bill is to delete the requirement that the Department of Human Resources Development be the Chairperson of the Deferred Compensation Plan Board of Trustees. There are some other things in here, but the bill is objectionable because it negatively impacts the State's supplemental retirement plan for over 28,000 government employees by changing the composition of the plan's Board of Trustees."

At this time the Chair called for a roll call vote and the motion to override the veto of S.B. No. 2394, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE BOARD OF TRUSTEES OF THE DEFERRED COMPENSATION PLAN," as contained in Gov. Msg. No. 261 was put to vote by the Chair and carried, and was approved by the required two-thirds vote of the House pursuant to Section 17 of Article III of the Constitution of the State of Hawaii on the following show of Ayes and Noes:

Ayes, 45: Aquino, Awana, Belatti, Berg, Bertram, Brower, Cabanilla, Carroll, Chang, Chong, Choy, Coffman, Evans, Hanohano, Har, Herkes, Ito, Karamatsu, Keith-Agaran, C. Lee, M. Lee, Luke, Magaoay, Manahan, McKelvey, Mizuno, Morita, Nakashima, Nishimoto, B. Oshiro, M. Oshiro, Rhoads, Sagum, Saiki, Say, Shimabukuro, Souki, Takai, Takumi, Tokioka, Tsuji, Wakai, Wooley, Yamane and Yamashita.

Noes, 6: Ching, Finnegan, Marumoto, Pine, Thielen and Ward.

At 12:45 o'clock p.m., the Chair noted that the motion to override the veto had carried, and S.B. No. 2394, HD 1, as contained in Gov. Msg. No. 261, was approved.

At this time, the Chair addressed the Clerk who announced Gov. Msg. No. 262, informing the House that on April 22, 2010, S.B. No. 2501, SD 1, HD 1, was vetoed.

Gov. Msg. No. 262 and S.B. No. 2501, SD 1, HD 1:

Representative B. Oshiro moved to override the veto of S.B. No. 2501, SD 1, HD 1, as contained in Gov. Msg. No. 262, seconded by Representative Evans.

Representative Marumoto rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, I am in opposition to this particular measure. I would like to request a ruling on a conflict of interest. My husband is a retired CPA," and the Chair ruled, "no conflict."

Representative Marumoto continued in opposition to the override, stating:

"Thank you. I am in opposition to this motion to override Senate Bill 2501, and if I could just explain the current law. It does require peer review of all CPA firms and almost all firms undergo this type of review every two or three years. The larger firms undergo this on a three year basis and they have their own procedures. Anyone who is a member of the Hawaii Society of CPAs undergoes this peer review. So if you're not a member of that firm, then there is no requirement.

"If you do this type of work called attest work, this bill would require accounting firms that do attest work to undergo peer review in order to obtain a permit to practice in Hawaii. Every accounting firm that performs attest work must undergo a peer review every three years according to this bill. Adequate peer review is good for the consumer because it ensures the quality of the firm and supposedly the work that it puts out.

"However, the measure mandates office-specific peer reviews that may not be consistent with current peer review standards of the American Institute of CPAs. Many multistate and multinational firms in Hawaii already participate in the nationally recognized system of peer review that includes the work they perform in Hawaii.

"The Accountants Council points this out as a flaw in the bill. In a communication, they say, 'including the Hawaii offices and Hawaii engagements of foreign or multistate firms,' should be stricken from section 5(a) because they are inconsistent with nationally accepted standards of performing and reporting in peer review the American Institute of CPAs. Instead, section 5(a) should simply read, 'Every firm required to obtain a firm permit to practice pursuant to section 466-7 shall undergo a peer review every three years on the firms attest work and submit evidence of such peer review at the time of the renewal of the firm's permit to practice under section 466-7.'

"This change in requirement, if this bill passes, may discourage some multistate firms from taking jobs in Hawaii. And I might point out that frequently, the State and county governments have utilized big firms, these multistate firms, to do reports and audits for us. We might have fewer accountants from which to choose if this bill passes.

"Finally, while many firms, big and small, who do attest work do undergo peer review, some small local firms do not undergo peer review. They may not even know about this bill, and in fact may avoid membership in the Hawaii Society of CPAs that requires peer review from its members. Some small firms will now be mandated to spend several hundred dollars or maybe a few thousand dollars to comply with this requirement. So I encourage you to consider a no vote. Mahalo."

Representative Choy rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, I'd like a ruling on a potential conflict. Mr. Speaker, I'm a CPA," and the Chair ruled, "no conflict."

Representative Choy continued in support of the override, stating:

"In strong support, Mr. Speaker. Only three firms lobbied the Governor to veto this bill. Just three firms. There's over 250 firms in the State of Hawaii. The three firms that lobbied the Governor to veto this particular bill were the large multi-international firms.

"But we must ask ourselves, why? If they are peer reviewed as the previous speaker said, if they do such great work, why are they so afraid of peer review? The truth be known that the large international firms in the State of Hawaii are so small that they may be a part of their national program, but their offices are rarely, if ever, selected.

"Mr. Speaker, my firm is now undertaking its seventh peer review, and that's over a 25 year period. This particular bill, the way it was crafted, levels the playing field for all local firms, or I should say all CPA firms for the State of Hawaii. Because it is recognized that peer review is good for the consumer.

"Mr. Speaker, in the ten years of the accounting wars, this is the first time the Hawaii Society of CPAs and the Hawaii Association of Public Accountants actually supported one measure and it was this one. So colleagues if you could support me in this measure, I would really appreciate it. Thank you, Mr. Speaker."

Representative Finnegan rose to speak in opposition to the override, stating:

"Thank you, Mr. Speaker. In opposition. Mr. Speaker, this is a confusing bill. I really had to dig into this bill and listen to the people on both sides. I just wanted to clarify some of the things that the previous speaker had said. It's possible that just three large firms lobbied the Governor to veto this bill, but I remember what took place prior to the passing of this bill up to the Governor.

"It wasn't just the three firms being against this bill all the way through this bill passing from Committee to Committee. No, it was not. It was many, many people wanting a change of language. Many accountants and the bigger group, and I can't remember the acronym for it, but the bigger accountancy firms wanting to see some change in language. Livid that that

language was in there, in that bill, that forced a different kind of local peer review on these big companies.

"What happened was they said, 'even though this 'poison pill' was in there, we're now going to back off. It's obvious that the bill is going to pass.' So make no mistake, there was contention on this bill between accountants both big and small. Between small accountants with each other. Medium size accountants and accounting firms. So it's not just three large firms.

"Now let's go to that particular issue. The reason why I eventually voted no on the Final Reading, and now I'm voting no against the veto override was because one of the things that was mentioned in the Finance Committee was that there was a state that was doing the same exact thing as Hawaii wanted to do. And as I mentioned in the Final Reading, from the Board of Accountancy in Washington State, they reversed their movement to have the local office peer reviews for these national firms. These national firms are the ones that do the audits on big companies and banks like HECO, Bank of Hawaii. And so what took place Mr. Speaker was Washington State, after a few years of having this, corrected their actions and said, 'bad policy.' Now there is no state in the nation that is doing this.

"Mr. Speaker, I can understand if we're cutting edge and we want to do something better. But when the only state that decided to be cutting edge turned around and said, 'no we're not going to do this because its more harm than good.' That's what made up my mind in saying no to this measure. Thank you, Mr. Speaker."

Representative Ching rose in opposition to the override and asked that the remarks of Representative Finnegan be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Marumoto rose to respond, stating:

"Thank you, Mr. Speaker. I don't think that the larger firms are afraid of a local peer review. They have their own stringent peer review and the firm will pay up to $100,000 or so to undergo this. It really will affect the very small firms who are not members of the Hawaii Society of CPAs and who do attest work. I agree with the words of the Minority Leader. We will be the only state in the Union to have this type of review and I don't think it's really good policy.

"I rebut the remarks of the Manoa Representative who said there were only three firms that are involved in the Accountant's Coalition who are in opposition to this measure. There are actually five firms and they are Ernst & Young LLP, Deloitte and Touche LLP, KPMG LLP, Grant Thornton LLP, and these firms have offices in Hawaii, and then there's Price Waterhouse who is no longer located here, but comes back to do certain jobs in Hawaii. Thank you, very much."

At 12:56 o'clock p.m. Representative Takai requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:57 o'clock p.m.

At this time, the Chair stated:

"Once more the Chair will restate the motion that is before this Body. This is a roll call vote. For those who support the roll call will vote 'aye', for those who oppose the override will vote 'no.' After this we'll have a short recess since the Senate has already adjourned for today and they want to present to us a *sine die* resolution. So just think about it, we're way behind the Senate at this point in time because of the lively debate this morning and this afternoon."

At this time the Chair called for a roll call vote and the motion to override the veto of S.B. No. 2501, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC ACCOUNTANCY," as contained in Gov. Msg. No. 262 was put to vote by the Chair and carried, and was approved by the required two-thirds vote of the House pursuant to Section 17 of Article III of the Constitution of the State of Hawaii on the following show of Ayes and Noes:

Ayes, 45: Aquino, Awana, Belatti, Berg, Bertram, Brower, Cabanilla, Carroll, Chang, Chong, Choy, Coffman, Evans, Hanohano, Har, Herkes, Ito, Karamatsu, Keith-Agaran, C. Lee, M. Lee, Luke, Magaoay, Manahan, McKelvey, Mizuno, Morita, Nakashima, Nishimoto, B. Oshiro, M. Oshiro, Rhoads, Sagum, Saiki, Say, Shimabukuro, Souki, Takai, Takumi, Tokioka, Tsuji, Wakai, Wooley, Yamane and Yamashita.

Noes, 6: Ching, Finnegan, Marumoto, Pine, Thielen and Ward.

At 12:59 o'clock p.m., the Chair noted that the motion to override the veto had carried, and S.B. No. 2501, SD 1, HD 1, as contained in Gov. Msg. No. 262, was approved.

At this time, the Chair stated:

"Members of the House, we will take a 15 minute recess to allow our Senate counterparts to say *aloha* and *sine die* to all of us."

At 12:59 o'clock p.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:32 o'clock p.m., with Vice Speaker Magaoay presiding.

At this time, the Chair addressed the Clerk who announced Gov. Msg. No. 286, informing the House that on April 25, 2010, S.B. No. 2650, SD 2, HD 2, CD 1, was vetoed.

Gov. Msg. No. 286 and S.B. No. 2650, SD 2, HD 2, CD 1:

Representative B. Oshiro moved to override the veto of S.B. No. 2650, SD 2, HD 2, CD 1, as contained in Gov. Msg. No. 286, seconded by Representative Evans.

Representative Mizuno rose to speak in support of the override, stating:

"Thank you Mr. Speaker, I rise in support of a veto override for Senate Bill 2650, CD 1. Mr. Speaker."

At 1:33 o'clock p.m. Representative B. Oshiro requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:34 o'clock p.m.

Representative Mizuno continued, stating:

"Thank you, Mr. Speaker. Seeing that nobody is opposing the veto override, I'd like to submit written comments in support of the veto override of this measure."

Representative Mizuno's written remarks are as follows:

"I rise in support of SB No. 2650, CD 1. I would like to commend the Minority Leader for her passion and her position in seeking to improve State services and reduce costs. Interestingly, I am in complete agreement with the Minority Leader in moving toward becoming more efficient by improving the delivery of State services and reducing costs. I believe our differences stem from the method of seeking improvement of service, cost savings & making sure we are not in violation of federal or State law.

"Background: As this Body is aware of, in March of this year the Department of Human Services (DHS) Director issued notices to 228 DHS employees statewide that (mostly eligibility workers) their positions would be abolished and eligibility offices would be closed in all 31 locations statewide.

"Who will feel the impact? Statewide Beneficiaries: over 300,000 – low income needy individuals and families – aged, blind and disabled,

homeless, domestic abuse victims, our QUEST and Expanded QUEST beneficiaries, and all lower income children and adults. This move to close every single public assistance office will weaken Hawaii's health and human services safety net and increase welfare fraud. If EPOD is allowed to move forward it would gut the Department of Human Services.

"I would like to share with you the genesis of SB 2650, CD 1. This was our statement made before every I.B. on Oahu, Maui, Kauai and Hilo.

"It is not by a dictatorship, but rather through respect and relationships that we will find a solution to our dilemma. We are looking for consensus builders and solutions seekers – by the end of this briefing we will have identified a summary of viable solutions.

"On Maui, your Chair of the Hawaiian Affairs Committee, the Representative from Kihei, and your Speaker Emeritus held a briefing in a packed HGEA office in Wailuku. On Kauai your stellar Kauai delegation was met with 3 Council Members in a packed Kauai Community College room with their community members. On the Big Island, over 150 community members attended your legislative briefing on EPOD.

"Mr. Speaker SB2650, CD1 was created by the people of Hawaii, this was done with collaboration and consensus from our briefings.

"EPOD is not acceptable for the following reasons:

1. The Supplemental Nutrition Assistance Program (SNAP) Administrator for DHS, Linda Tsark, testified against the Eligibility Processing Operations Division (EPOD) plan and was shocked that the Director failed to consult with her before sending out the termination notices to 228 DHS employees. In fact, the SNAP Administrator stated at a subsequent legislative briefing that we could lose up to $15 million dollars in federal public assistance if we are not in compliance with federal rules and regulations.

2. The Chief Investigator for the DHS Welfare Fraud Division spoke against the EPOD plan and was concerned that the DHS Director failed to consult with him or his office before moving forward with the EPOD proposal.

3. A letter dated April 2, 2010 from U.S. Congresswoman Mazie Hirono to DHS Director Koller states in relevant part, "I have received a copy of a March 9, 2010, letter to you from [the] USDA Food and Nutrition Service, regarding the state's plan for reorganization.… I am concerned that my constituents, especially those on the Neighbor Islands, continue to receive the critical support provided by this office, especially access to SNAP, which is federally funded…[The USDA] has several questions regarding timely processing of applications, providing clients access to face-to-face interviews, and improving access to services for persons with limited English proficiency. I would appreciate receiving a copy of your response.…" We contacted Congresswoman Hirono's office yesterday and they informed us that they have not received a response from Koller.

4. The Letter:
   a) The United States Department of Agriculture and its Food and Nutrition Service (FNS) provided in a letter to Koller dated March 9, 2010, which states in relevant part, "…the State agency must grant a face-to-face interview to any household which requests one. Please explain how this requirement will be met if there are no offices on many of the Neighbor Islands."

   b) Federal Regulations and Title VI of the Civil Rights Act of 1964 requires that State agencies provide language services to limited English proficient applicants or recipients of public assistance benefits. Moreover, Executive Order 13166 requires agencies to develop and English proficiency. The U.S. Dept. of Agriculture posed the question to Koller in their March 9th letter "Please explain how these requirements will be met under the proposed reorganization."

5. Just yesterday my Legislative Aide, Raytan Vares, called the U.S. Dept. of Agriculture Regional SNAP Director Dennis Stewart regarding their letter sent to DHS Director Koller (March 9, 2010). This is what was stated to my Legislative Aide, "No, no, no, we have not received a response letter from Director Koller regarding our concerns on EPOD. We understand the worry this has caused to the people of Hawaii, which is why we have our eye on this EPOD plan. We are very concerned and will follow up with a second letter soon." (Concern: 115,000 participants in SNAP former food stamp program & $15 million dollars in federal public assistance).

6. A DHS employee forwarded an email, dated March 15, 2010, with the time 3:08 p.m. This email went to only certain DHS employees and provides, "Hi everybody, Director Koller is requesting recommendations and comments for EPOD operations. Please email to me suggestions from yourself and staff by noon tomorrow, Tuesday, 3/16/10." This is not meaningful consultation with staff and DHS employees. Shortly thereafter, Director Koller sent out termination notices to 228 DHS employees.

7. The Director does not have a plan when she launched her campaign to close every single welfare office in the state. How do I know that? At one of our briefings we received this copy of this Solicitation Title: Eligibility Processing Operations Division (EPOD) with a Solicitation date of issue: Feb. 25, 2010.

"What does this solicitation request: Expert testimony at the Director's request to the Legislature on EPOD.

Assistance in communicating with the media and public;
Assistance in preliminary planning of office configuration;
Assistance in more fully defining work flow processes and procedures; and
Assistance in determining help with the application process and other assistance required regarding EPOD.

"Mr. Speaker, it is not by dictatorship, but rather through respect and relationships that we find solutions to our concerns with EPOD. Today we found solutions and consensus. Today the House of Representatives can override the Governor's veto of SB2650, CD1 and stop the DHS Director's plan to close every single public assistance office in our State.

"For all of the foregoing reasons, I support a veto override for SB2650, CD1 to ensure the 228 hardworking DHS employees continue to provide essential services to over 300,000 of our most needy residents in our State."

Representative Finnegan rose to speak in opposition to the override, stating:

"I think I'm being called out, Mr. Speaker. I am going to vote in opposition to this measure. Mr. Speaker, this is the infamous EPOD bill. The Eligibility Processing Operations Division, and let me just talk about what this bill is. This has to do with a modernization project within the eligibility area within the Department of Human Services for programs like Medicaid, for programs like Food Stamps or now what's called SNAP, cash assistance and other programs.

"And what this program was meant to be, and across the nation what they found is that through a different application process, through modernization of using technology, whether it be phones or online and mainly phones, and organizing workflow in a different way, consolidating all of these different things in a big modernization program, that you will find across the nation that services to the vulnerable are quicker and easier for the client, number one. And the federal government has been pursuing and encouraging states to move in this direction.

"Mr. Speaker, when I look at that and when people hear that they say, 'Of course. Don't we want to do that? Government should try and do what it can to have quicker and easier services for the clients.' So in this case the controversy in this bill is in this program of modernizing this program. The Department of Human Services Director had mentioned that she will close down 31 smaller offices and consolidate into two processing offices in Hilo and Honolulu. But what has taken place since then is that there was a

bill and a variety of Committee hearings talking about how the Legislature did not want this to move forward.

"And then a bill that arose on Final Reading, the changes that were made was about doing a pilot project only for the Island of Oahu. I objected during the Final Reading of that bill because I felt that in doing just the pilot program that you really change the whole essence of the program and the modernization.

"Mr. Speaker, I don't mean to offend anyone that works in government, but often times if we don't speak up for what we feel is best for the people of Hawaii, for the taxpayers of Hawaii, for these vulnerable that I believe through all the things that I've read, whether it be in SNAP manuals, or whether it be in correspondence going back and forth with the testimony from the Department of Human Services, or letters between the Regional Administrator and the Department of Human Services. I believe that this program is better for the people of Hawaii because it does number one, give quicker service and is easier for these clients.

"So what does that mean? Usually when you take applications you can either do it face to face, and/or through the mail, or through fax. In the MedQUEST Division right now 85% of their applications come through the mail. Mr. Speaker, what this program does aside from all the modernization of streamlining and doing things differently, it also introduces using the phone to take applications, as well as online applications. Through using the phone and using online, they're finding that these services, these application services end up being much quicker and much more efficient to the workflow. The design of the old model doesn't work as quickly, as efficiently, and you get services to your client much faster.

"Mr. Speaker, it's so important that we look at these ways of improving services for the people of Hawaii and let me just kind of tell you, it's been pretty controversial. There was a petition from, and I'll read it. A petition to Governor Lingle to keep two Department of Human Services Waianae Mall offices open. It says, 'This will allow the eligibility workers to provide the necessary services to over 6,000 people on the Leeward Coast. These two offices are essential for assisting the elderly.'"

Representative Pine rose to yield her time, and the Chair "so ordered."

Representative Finnegan continued, stating:

"Thank you, Mr. Speaker. 'These two offices are essential for assisting the elderly, disabled, and families with critical services of medical care, food EBT cards, and financial needs.' Number one. well, let me read on. 'Many of these populations don't have Internet or fax access so face to face interaction is vital.' And then I think there were about a thousand signatures on this petition.

"Mr. Speaker, I was not born, but I was raised in Waianae so I probably know many of the people who are on this petition. But let me just correct a couple things that were used to have people sign this petition. It says, 'with critical services to medical care.' There is no Medicaid Office application process in Waianae currently. They've already consolidated that in Honolulu so there is no access to Medicaid in Waianae currently.

"Like I said, 85% of the applications come through the mail. By providing online and, another thing it says here, 'Internet or fax access, but face to face interaction is important and is vital.' They don't mention anything about a telephone in here. I bet if you were to ask them, 'Did they have a telephone,' the list wouldn't be a thousand people long because I still go to Waianae and there are many telephones in Waianae, Mr. Speaker.

"Mr. Speaker, the other thing that's troublesome is we heard about the need to collaborate and consult with those who work in the program. I want to read a part of the testimony that was submitted, or a letter that was submitted March 25 on page 19 to Sanford Chun of HGEA, field services officer. It says:

HGEA continues to find disapproval for DHS not engaging enough staff in developing EPOD. This is a strange contention since public unions have complained in the past when State Directors and exempt managers have sought to communicate with subordinate staff who are union included members about proposals to make changes affecting their working conditions.

As previously explained, DHS refrained from contacting staff who are included HGEA members to discuss our EPOD reorganization concept due to it being inextricably linked with our proposed RIF of eligibility positions, which on advice of counsel required that we first engage in consultation with HGEA before contacting its members. However, once you qualified at the February 23rd Legislative Hearing that HGEA had no objection to DHS conferring with staff about our proposed EPOD reorganization, DHS began to gather input directly from staff and will continue to do so on an ongoing basis both before and after the EPOD and RIF are implemented.

"Mr. Speaker, I had a discussion with my husband on this because he's a part of the firefighter's union and he said, 'Absolutely.' You can't, especially when you're talking about reorganization or RIFing, you can't talk to the people who you possibly will be RIFing. You have to go through the union. You have to consult with the union. So Mr. Speaker, all the talk that was why didn't you consult with people down line and all of that kind of stuff, it's because they can't talk.

"Mr. Speaker, probably the most bothersome thing aside from processing applications and looking at the different states, whether it be Florida, Mexico or Utah. Utah now has 80% of their applications come online and that actually helped a lot, the staff's ability to keep up with applications and do things better. Mr. Speaker, if you were to compare, and this has nothing to do with the way people work here. This is the model that they were taught ..."

Representative Thielen rose to yield her time, and the Chair "so ordered."

Representative Finnegan continued, stating:

"Thank you, Mr. Speaker. This is the model that they were taught. This is the model that the system has given them, and now DHS is looking at a way to modernize it. Mr. Speaker, when modernizing eligibility in New Mexico, processing and eliminating assignments of cases to individual workers has made it possible to reduce the average time to determine eligibility from 20 days, to 6.2 days. This is why it's conceivable to say that you can take some offices and consolidate them, modernize the program, and possibly, possibly RIF employees.

"It's not fun to talk about this Mr. Speaker, but I think we owe it to the public to talk about this. Mr. Speaker, now this is probably the most troublesome thing in doing my research more recently, and that is a report of overdue Medicaid eligibility applications. It goes from the time of this report, and I'd like to include this in the Journal Mr. Speaker.

"It goes from the time of September 2009, up until March 21, 2010. From September to January 25th, 2009, the overdue applications fluctuate 300, 200, 100, but for the most part they're just a little within each other. You know 331, 262 and so on. On January 25th, 2010, the applications in this division was at 307. Mr. Speaker, January 29th is when they opened consultation with HGEA regarding EPOD reorganization and the RIFs. By February 1st, 2010, the number of overdue applications was 471. By March 21st, 2010, the number of overdue applications was 813.

"I don't know if people are connecting the dots like I am in looking at this Mr. Speaker, but it goes from 200 and 300, to 400 within a matter of days. And then a month and a half later, doubles to 800 of overdue applications. Mr. Speaker, what the argument has been, has been we need to do this for the vulnerable people of Hawaii, and this data shows that there was a work stoppage because of this EPOD reorganization, modernization plan. 813 people, 265% increase from January 25, 2010 to March 21st, 2010 in overdue applications.

"That is troubling because the whole reason for having the stoppage on EPOD was because of the vulnerable population not being able to get their medical, not being able to get food stamps, not being able to get cash

assistance. And in a matter of one and a half months, the overdue applications went up 265%. That's even after the RIFs took place last year and everything.

"Mr. Speaker, this program is about giving better services, quicker services, so that people can get medical insurance. It's been proven across the country that it does do this. The federal government is behind it. What do you say to that? This is not about the vulnerable population not getting their services. I don't know how much more clearer I can be."

Representative Ching rose to yield her time, and the Chair "so ordered."

Representative Finnegan continued, stating:

"This is the defining bill Mr. Speaker, if we're going to stand up for the people of Hawaii and do what we say we want to do. Which is provide services to those who cannot provide for themselves. To do it easier. To do it with more quality. To do it faster. If there is a possibility that we can save money Mr. Speaker, then we should.

"We argued on this House Floor how we needed to raise taxes because of energy. We all believe in energy and clean energy. We all believe in many of these things that we're funding in the budget that we passed. But yet when there is an opportunity to say that maybe government should have some change. Maybe there should be change for the better. Let's reorganize. Let's get better services. Let's get quality in there so that these people don't have to take off of work, march down into an office. Instead they can go ahead and pick up a phone.

"You know there's the whole complaint about fraud. That this is going to increase fraud. After looking at this across the nation Mr. Speaker, they did not see an increase in fraud.

"I hope that we have the guts to sustain the veto and to allow this program to move forward, to work with and encourage the Department of Human Services, to say, 'Whoa. Wait a minute.' Before you start RIFing anyone, let's try and see what we can do without strapping them, and then doing this kind of stuff that the workers themselves … How can you … I'm at a loss for words. I know that's hard to believe.

"Mr. Speaker, this is a very serious subject, I know. And this is about jobs, I agree. I understand. But we have an obligation and a responsibility here. We need to let government be more efficient where it can be so that we can afford and prioritize our spending in places that are most important right now. And if there are ways to do that, we definitely should do it. Thank you."

Representative B. Oshiro rose and stated:

"Mr. Speaker, pursuant to Rule 50, I'd like to yield my time to the Chair of Human Services to rebut her comments. Thank you."

Representative Mizuno rose to respond, stating:

"Thank you, Majority Leader. Mr. Speaker, I still rise in support of the veto override of Senate Bill 2650. I want to commend the Minority Leader for her passion on her position in seeking to improve State services and reduce costs. Interestingly, I'm in complete agreement with the Minority Leader in moving toward becoming more efficient by improving the delivery of State services and reducing costs. I believe our differences stem from the method of seeking improvement of service, cost savings, and making sure we're not in violation of State or federal law.

"Mr. Speaker, as this Body is aware of, in March of this year the Director of Human Services issued termination notices to 228 DHS employees. They were informed that their positions were being abolished and that eligibility offices throughout the State, all 31 of them, would be closed, and two call centers will be opened in their place.

"Who will this effect? Who will be impacted by this EPOD plan of the Director's? Mr. Speaker, over 300,000 legal residents in the State of Hawaii. This will be our blind, our aged, our disabled. This will be those that are on QUEST and Expanded QUEST. This will be our *kupuna.* Our children and adults in low income households. They will close every single office, every single public assistance office in the State of Hawaii Mr. Speaker, if this plan was to go forward. If we allow EPOD to go forward, this will gut the Department of Human Services.

"Mr. Speaker, I want to explain the genesis of this bill and how we came up with this bill. We went to every single county, Mr. Speaker. And in every single briefing we had, I made sure this statement was made to every single county that we were at, when we met with community members throughout the State. It's not by dictatorship, but rather through respect and relationships that we will find a solution to our dilemma. We are looking for consensus builders and solution seekers. By the end of this briefing we will have identified a summary of viable solutions.

"Mr. Speaker, we went to Maui County. The Representative from Kihei, Speaker Emeritus, the Chair of Hawaiian Affairs, did a great job working with a packed room at the HGEA office in Wailuku. We went to Kauai Community College, Mr. Speaker. Also a packed room where your three stellar Kauai Representatives met with three Kauai Council Members and the entire community, the Kauai community, they came out and they talked. We worked on solutions. We met them, Mr. Speaker. Mr. Speaker, we went to the Big Island. 150 community members were there and we talked, and we listened to the community. Not by dictatorship, but by relationship and respect, Mr. Speaker.

"Mr. Speaker, Senate Bill 2650, CD 1 was created by the people of Hawaii. This was done with collaboration and consensus from your people.

"EPOD is not acceptable for the following reasons. With complete respect to the Minority Leader, she mentioned that a lot of the employees that were talking were on the RIF list. I disagree, that's not correct. The reason I know that is because the Supplemental Nutrition Assistance Program Administrator for the Department of Human Services, Linda Tsark was never consulted with EPOD. She was so courageous in coming to the briefings, even the briefing that Director Koller was at. On February 23rd she sat next to the Director of Human Services and openly said, 'This is not right. You have not consulted with me. We have not consulted or worked with the federal government. This is wrong.' This is your top person at the Department of Human Services which deals with the SNAP program. That's 115,000 people in the State of Hawaii that receive food stamp benefits. Your top person disagreed with the Director."

Representative Tsuji rose to yield his time, and the Chair "so ordered."

Representative Mizuno continued, stating:

"Thank you, Mr. Speaker. Another person that was not on the RIF list was your Chief Investigator of the Department of Human Services Welfare Fraud Division, Eric Weyenberg. He also courageously came to the briefings and spoke out against EPOD despite the Director of Human Services being there. This is your expert in welfare fraud. He spoke up against it. In fact a number of investigators spoke up saying that this system would not work. You will not have witnesses. If you use a phone call we cannot connect that. We cannot make a case. They explained, in fact, Rick Damerville, prosecutor from the Big Island said, this will not work. Florida had six prosecutions in one year because they could not get material information against those that committed fraud through the phone or fax. You can't prove that this person did through a phone call or through a fax.

"Also Mr. Speaker, on April 2nd of this year, Congresswoman Mazie Hirino sent a letter to the Director of Human Services. In the letter, and I'll just provide in relevant part what it stated. She said, 'I'm concerned that my constituents, especially those on the Neighbor Islands, continue to receive the critical support provided by this office, especially access to SNAP which is federally funded. The United States Department of Agriculture has several questions regarding timely processing of applications, providing clients with access to face-to-face interviews and improving access to services for persons with limited English proficiency. I would appreciate a copy of your response.'

"We contacted Congresswoman Hirono's office yesterday. She has not gotten a response from the Department of Human Services Director.

"Now I want to also address what the Minority Leader said about this statement. I wrote it down. The Minority Leader said that the federal government is behind it. The federal government is behind it, this EPOD program. That's not exactly true, Mr. Speaker. The reason I can say that is because I have a letter before us from the United State Department of Agriculture. It was sent to the Director of Human Services and it's dated March 9th, 2010. It provides in relevant part Mr. Speaker, 'The State agency must grant a face-to-face interview with any household which requests one. Please explain how this requirement will be met if there are no offices on many of the Neighbor Islands.'

"It goes on to another request, 'Federal regulations in Title VI of the Civil Rights Act of 1964 requires state agencies to provide language services to limited English proficient applicants or recipients of public benefits. The United States Department of Agriculture posed this question to the Director in their March 9th letter. Please explain how these requirements will be met under the proposed reorganization.'

"Mr. Speaker, the last paragraph says, 'Please address these concerns within 30 days.' Obviously it's been more than 30 days and these have not been addressed.

"In fact, we called the United States Department of Agriculture yesterday and spoke to the Regional Director Dennis Stewart regarding the letter that was sent to the DHS Director in Hawaii. Dennis Stewart had this to say and I quote, these are his exact words, I quote, 'No, no, no. We have not received a response letter from Director Koller regarding our concerns on EPOD. We understand the worry. This has caused the people of Hawaii which is why we have our eye on this EPOD plan. We are very concerned and will follow up with a second letter soon.'

"It's the federal government, Mr. Speaker. 115,000 of our people currently get these benefits. If we don't play by the federal rules we can be blocked out. 115,000 of our people. How much money is that, Mr. Speaker? Well if you're the SNAP Administrator you would know. Linda Tsark said $15 million in federal public assistance to Hawaii that we could lose. Mr. Speaker, again, that's not me saying it."

Representative Brower rose to yield his time, and the Chair "so ordered."

Representative Mizuno continued, stating:

"Yes, again $15 million that we may not get if we are not in compliance with federal law.

"Further Mr. Speaker, we talk about working with DHS workers, meaningful consultation. What I find quite offensive is that an email was sent and dated March 15, 2010 with the time 3:08 pm. First of all this email went out to only certain DHS employees and this is what it stated. 'Hi everybody. Director Koller is requesting recommendations and comments for EPOD operations. Please email me suggestions from yourself and staff by noon tomorrow, Tuesday 3/16/10.'

"This is not meaningful consultation with staff and employees. Less than 24 hours is actually kind of offensive, Mr. Speaker.

"Furthermore Mr. Speaker, the reason I know that the Director doesn't really fully understand EPOD is because right after our briefing on February 23rd with the Senate, the Senate Majority Leader had asked the Director a question about EPOD. He had said something to the effect of, what is your plan? There must be a plan. What is your plan for EPOD? And the Director was unable to explain or answer that question. The concern I have is that she didn't know how to answer that because she didn't really have a plan.

"The reason why I make such a statement is because a courageous employee was able to get this to us. This is a solicitation for service. They're asking for assistance, the Director is, on EPOD. This is dated February 25th. Two days, February 25th, 2010, two days after that briefing. It simply says that expert testimony at the Director's request to the Legislature on EPOD, expert testimony. She's trying to get some help here. Assistance in communicating with the media and public. I can go on. The point I'm making is that if you knew what you were doing you wouldn't have to do a solicitation for assistance two days after an informational briefing.

"Mr. Speaker, I'm going to end here, but it's not by dictatorship but rather through respect and relationships that we find solutions to our concerns. Today I believe we found solutions and consensus. Today the House of Representatives can override the Governor's veto of Senate Bill 2650, Conference Draft 1, and we can stop the DHS Director's plan to close every single public assistance office in our State. For all the foregoing reasons I support a veto override of Senate Bill 2650 to ensure that 228 hard working DHS employees continue to provide essential services to over 300,000 of our most needy residents in our State. Thank you, Mr. Speaker."

Representative Manahan rose to speak in support of the override, stating:

"Mr. Speaker, standing in support of the override and I'd like the words of the Chair of Human Services to be entered into the Journal as my own. I would also like to add that I find it ironic that a certain member of the Minority Caucus, I guess the Representative from Hawaii Kai, doesn't consider this bill to be job killer number 18. Thank you."

Representative Carroll rose to speak in support of the override, stating:

"Thank you Mr. Speaker, in support of the override. Mr. Speaker, I would like the words from the Chair of the Human Services Committee to be inserted in the Journal as my own. I'd also like to add that with all due respect, and I do respect the Minority Leader, I disagree with several things that she mentioned today. I want to talk about it, and I've said it before in this Chamber, it's about transparency.

"If you look at this bill, what the bill does is it takes a pause and yes, the Neighbor Islands they do need an office there. They do need people there. This bill will allow for instance on Maui, the Maui section in Wailuku. Also Central Maui Unit will be preserved. East Maui Unit 1 and 2. I represent East Maui. If you know about East Maui, it's very difficult to connect to the Internet back there, or to provide for those kinds of EPOD services that they're talking about. And then there's West Maui Unit 1 and 2.

"On the island of Molokai there's one office there. I have a petition here of 200 signatures that was just taken yesterday and there's more that are coming, because the people there have agreed that they need their face-to-face office.

"On Lanai, the Speaker, myself and the Representative from Lahaina went there, and we went there to meet with the employees there. What happened because the island is so small, the people of that island showed up and shared with us. These were people who could not utilize a fax machine because why? There was no public fax machine because at that time, the one that they have was not working.

"The other thing that we learned on Lanai was that there are people who have challenges. It's very hard for them to understand when doing the application that they'll be able to fax or email. Even when they're talking on the phone or trying to get somebody on the phone, they have to wait for hours.

"My point here is that this bill will allow for a pilot project to look at this system. We don't want to just shove this system down our throats, especially with the State because one of the things that are not being talked about is the cost of that system.

"Yes, there are things that are wrong with this Department. Yes, there are things that we need to improve. But this Administration has been in office for eight years. Why is it in the last year that they're proposing such a system when they could have started a process with consultation, with looking at and working with those employees, working with the unions to look at what system best fits Hawaii. Because we are an island system.

"Furthermore, the transparency part. This bill allows for Chapter 91 so there are public hearings. There is consultation. And thanks to the Chairs of Human Services Committee, they provided that with the people. So I agree with my Chair, because it is a collaboration, it is a consensus, it is the word of the people. Yes, we are in a budget crisis, but nobody's talking about the cost of a new system. Nobody's talking about when you email or when you actually send that application here on Oahu, who's going to handle those hundreds and hundreds of applications? It goes into an email box and then what? We need to evaluate the situation, and the pilot project allows for that. But why do we only have to look at EPOD? There could be other programs out there, other systems that we can look at. But there was no transparency in the consultation.

"So I beg to differ with my colleague, the Minority Leader, and some of her comments, but I share the same concern. I'm just asking my colleagues to support this measure and override the veto because we need to start somewhere. By allowing the Administration to dictate this kind of system overhaul at the last hour, of the last year, to me is not acceptable. They should have done this sooner and there would be more consultation and we as a Body would be able to evaluate the cost. Yes, they have outdated programs. They have outdated computers, even fax machines.

"If you talk to the employees, like my Chair, I've spent hours talking to employees because why? Nobody has really paid attention to what their needs are. They just made these executive decisions and have not had that transparency nor have they even talked to us.

"My point here Mr. Speaker, is that this bill will allow for a process so that whoever comes in to the Administration that pilot project will address the concerns, but look more closely and evaluate the cost to put in a new system. And yes, nothing is perfect, but the whole point is that we need this transparency process and we need to listen to the people of Hawaii, and what they want because yes, it is their tax dollars. What I haven't heard in the debate is the cost for a new system.

"And hopefully in the end we can come up with a system that improves the way we process applications, the way we serve the most needed communities, but more importantly that the relationships that we have with the people continues so that their quality of life is improved and that we're doing our jobs as public servants. I thank you very much."

Representative Ward rose and stated:

"Mr. Speaker, I rise in rebuttal to the Representative from Kalihi, who's generally very accurate and honorable, but this time he's got his facts incorrect. There is no job killer number 17. There are only 15, and if he had a chance to look at the interactive online budget, we did not, did not fund EPOD. In fact he will see there are $8 million that the Minority balanced budget, which is online, interactive, for everybody to see, funds the Department and does not put any money out of the budget for the sake of EPOD. So just to straighten the record, even though I appreciate his attempt to bring attention to the online budget which I encourage everybody to look at. It's the first transparent budget for the people of Hawaii to see where we spend our money and there's been no money taken to do the EPOD. Thank you."

Representative Bertram rose to speak in support of the override, stating:

"I rise in support of the override. Yes, everything that our Chair said is true. I've even heard from Maui's office that they're already starting to implement this program. They've already put the slips out to people letting them know they're going to have to switch their office. I mean it's already starting, so we couldn't do this at a better time. We need to do this right away because they are so committed to making this happen, they're moving ahead with the plan already.

"She wanted me to say this today because she felt she needed to get that kind of support or help because she does not want it to happen. She does have this relationship with these folks, and she knows she does a good job, so she wants to keep it and I think it's a good idea. I think we need to just move ahead on this override right away."

Representative Sagum rose to speak in support of the override, stating:

"In support, Mr. Speaker. And I would like the words from the Representative from Kalihi entered into the Journal as my own. I'd like to also mention that the override would really assist Kauai. There are five facilities on Kauai that would be impacted had the bill gone through. And I'd like to list two of them in my district. One is the West Kauai Unit in Eleele, and another one which is in Representative Morita's district is the East Kauai Unit in Kapaa. Thank you."

Representative McKelvey rose to speak in support of the override, stating:

"Thank you, Mr. Speaker. In strong support. Mr. Speaker, I first want to tell you my background. I'm an 'IT geek,' Mr. Speaker. I ran several networks from my house including Novell 4.1 in a Windows 2000 Server. And what troubles me about this proposal or about the issue here is that from an IT perspective, it doesn't make sense. When you roll out code Mr. Speaker, when you roll out product, you do a small scale testing called a beta to work out the bugs. You don't just throw it out there and let the end user suffer. And that's what this bill does.

"It says, 'Beta test in Oahu. Work out the kinks in Oahu, so if there is a failure, a breakdown in the system, you can get to offices and have that face-to-face interaction.' The Neighbor Islands, especially in Lanai, don't have that option Mr. Speaker. I'm glad my friend from Hawaii Kai mentioned that this will cost $8 or $9 million, but I have many questions. What software are you using? Is it Google Apps? Is it Windows? What's the proprietary cost? Where are the IT positions? Where are they?

"The Minority Leader is correct in saying the federal government wants us to move in that direction and pursue this. But they don't say just jam it out without any kind of testing or consultation.

"It's great to talk about Utah and other states. That's the end product Mr. Speaker, that's not the process. We have such a terrible IT situation in this State that it's the subject of an Auditor's report. We even passed a bill to create a Chief Information Officer at the cabinet level.

"Mr. Speaker, to say that we want to roll this out with proper consultation, where are the line items for IT positions. On the website, how are you going to get to Tagalog or any other language? Do you have to navigate through English to get to a PDF link that is in Tagalog or will there actually be a Tagalog interface, Mr. Speaker. Question unresolved, Mr. Speaker.

"Mr. Speaker, I approach this from an IT background because it bothers me. You just don't throw something out there and let the customer, the consumer, suffer the unintended consequences. Let's do it on Oahu, let's do it right, and then we can roll out the product, Mr. Speaker. I agree exactly with the Minority Leader. I agree with the federal government. We need to pursue electronic delivery systems. But we need to do it in a rational, logical way because Mr. Speaker, at this point the approach of the Administration borders on science fiction. But by making sure the IT positions are there, by making sure the hardware is there Mr. Speaker, by making sure that the system works, then we can have fact. And then if that's the case Mr. Speaker, beam me up. Beam me up Mr. Speaker, okay.

"On the telephone issue if I may just finish. Yes, there are plenty of telephones in Waianae. But who is on the other end, Mr. Speaker. Hello? Thank you, very much."

Representative Herkes rose to speak in support of the override, stating:

"Mr. Speaker, in strong support. When the original plan was unveiled, I was stunned. Take a place like Na'alehu or Pahala where you've got elderly plantation immigrants that have language difficulties, physical difficulties. They're 80 miles from Hilo. They're not going to get to Hilo. And if the plan as proposed by the Director goes through, you're going to find domestic violence. You're going to find theft. You're going to find suicides. All of this on top of the problems that we're already having with vog, and for the life of me I cannot understand how we could possibly compare Utah and New Mexico with Pahala and Na'alehu.

"I will agree with one thing. There won't be any backup of applications because of many areas that I represent, there will be no applications submitted. Thank you."

Representative Tokioka rose to speak in support of the override, stating:

"Thank you, Mr. Speaker. I'm standing in very strong support. I want to add the words from the Chair of Human Services and the Representative from Hana in the Journal as if they were my own and then I'll just touch on a couple of other things that they haven't already mentioned.

"To follow up on the Representative from West Kauai's comments, the three other sections on Kauai are in Lihue, in South Kauai, and in Central Kauai in Kapaa. Five units Mr. Speaker, on Kauai. I think the most profound statement that I heard about this issue came from the Chair of the Finance Committee when he said, 'It looks like we're going to go through this Department with a hatchet, and we need to be looking at this situation with a scalpel.' It really hit home to me Mr. Speaker, how bad the situation is.

"I also want to applaud my colleagues from the County of 500,000 or more, because a lot of times people from the Neighbor Islands talk about this Legislature and Honolulu being Oahu-centric. But our colleagues looked at the Neighbor Islands and said, 'We have people in these rural areas that need the support.' So I want to thank our colleagues from the Oahu District for not being Oahu-centric on this issue.

"I also think about the many people and many issues Mr. Speaker, that people email us and call us about, whether it's Act 221 tax credits, whether it's House Bill 444, and I think why aren't there more people faxing us, calling us, and emailing about this issue. Because this issue is going to affect hundreds and hundreds of people, Mr. Speaker. But guess what? They don't have faxes. They don't have emails. They don't have cell phones. And it's clear to me that that's why they're not contacting us about this issue. But when I go back on Kauai it's loud and clear Mr. Speaker, when I see them on the island.

"And so in closing Mr. Speaker, I'd like to say that this Session there were not very many things that we could feel good about. But if we can override this veto Mr. Speaker, and for the many people that this bill will service, I think we can feel good about that. Thank you, very much."

Representative Morita rose to speak in support of the override, stating:

"Thank you, Mr. Speaker. In strong support. Thank you. The Kauai position was strongly stated by my two Kauai Legislative brothers so I'd like to adopt their words as my own. Thank you."

Representative Coffman rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. This point has already been made, but I want to make it a little stronger. I have about 30 years of background in business dealing with multiple offices in multiple states. There isn't any business entity that I've ever worked for that would ever in their right mind take a project and go statewide without going through a pilot project. You would just get laughed out of the boardroom. So I think this bill, let's override this veto because this bill does the right thing. We need a pilot project.

"And I can't imagine, I'm from the Big Island, we have 16 offices, in one fell swoop we're going to close these offices, consolidate in one location, move over 200 people to Hilo. And we're going to have people from East Hawaii in the Hilo area unit. We've got people in North Hilo Units 1, 2 and 3. We've got Central Hilo Unit 2. We've got South Hilo Unit 1, 2 and 3. I've got the Ka'u Unit. The South Kona Unit. The West Hawaii and Kailua-Kona, North Kona Unit 1, North Kona Unit 2, Kamuela, Hamakua, Unit in Honokaa. I mean, are they kidding me? They're going to close these all at one time without a pilot? Thank you, Mr. Speaker."

Representative Souki rose to speak in support of the override, stating:

"Mr. Speaker, in strong support. Just for background, I was a director for an anti-poverty agency for almost 20 years. I'm well aware of the problems of the poor, and how important it is that we get to the poor and not away from the poor. We developed community councils all in the respective districts so we could have the one-to-one relationship. Now what we have that is being proposed is to do away with those things. And the only consideration for the original bill that came from the Administration was to save money. Not to save people, but to save money. And this Legislature here has spoken. It's people before money.

"Mr. Speaker, I just hope that we continue with this spirit. Furthermore, I would want to incorporate the speech from the Chair of Human Services who's done a wonderful job on this bill with the Chair of Economic Development from Lahaina. Thank you, very much. It was a very nice speech. And for the Chair of Hawaiian Affairs from Maui. All of them had beautiful speeches. In fact, you all have. Thank you, very much."

Representative Finnegan rose to respond, stating:

"Thank you, Mr. Speaker. In rebuttal. And Mr. Speaker, I just don't have the time this time around to explain all the things that I would like to rebut on every single point that was made. Instead I understand that many people don't understand how this will work, so what I'd like to do is just tell you a little story.

"The other day I came home and my husband told me this story of my dad. There was one of those fog mirrors in the bathroom with a radio on it, and we put it back in the box because the fog part didn't work. We put it back in the box, we went outside, and we put it in the garage. My husband comes home from work, he sees my dad with the part that's supposed to go over the shower, over his neck, turned on the radio, and was working in the carport cleaning up, and working in the yard cleaning up.

"So what's the story about? It's about utilizing the tools that you have, seeing things differently than what it is used for currently. It's about being able to accomplish something that you don't think you can accomplish. But when you see that there are elements of accomplishment when you have a 20-day application process of approval brought down to 6.2 days. When you have situations like a work stoppage.

"One of the comments that a previous speaker made, 'save people before money.' So this means save jobs before people? Because that's what the work stoppage was all about. There was no continuing of taking applications. It was, we need to make a point. A point that 800 more applications in the MedQUEST Division are not going to be done because of this plan. Because we want to stop this plan. That's what I heard in those numbers.

"Mr. Speaker, we may not see how this is going to be done, but if it's happening in other areas, and the biggest part of this plan aside redirecting workflow are the phones. The phones have been around a very long time. People have been talking on phones and communicating on phones for a very long time. Online applications isn't email. It's like when you do an application online, but that's only part of it."

The Chair addressed Representative Finnegan, stating:

"Representative Finnegan, your three minutes is coming up shortly. Please summarize."

Representative Finnegan: "Thank you Mr. Speaker. I do have a lot of comments in rebuttal, but I did want to say. Let's think differently. Let's believe in a system that can be better than we have today. Thank you."

At this time, the Chair stated:

"Members, the Chair will call for the question. We've had a lot of lively discussion for one hour."

At 2:28 o'clock p.m. Representative B. Oshiro requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 2:28 o'clock p.m.

At this time, the Chair stated:

"The Chair will allow the Members to insert comments into the Journal."

Representative M. Oshiro rose to speak in support of the override, stating:

"Mr. Speaker. In strong support with written remarks. Thank you."

Representative M. Oshiro's written remarks are as follows:

"I rise in support of overriding the Governor's veto of Senate Bill 2650 CD1.

"Mr. Speaker, please let the Journal reflect the following facts:

1. The Governor sought to cut 45 vacant positions counts and another 76 laid-off positions from HMS 236, Case Management for Self-Sufficiency;

2. The Governor sought to cut 53 positions and another 60 laid-off positions from HMS 902, General Support for Health Care Payments;

3. The Legislature provided $2,450,502 in funds for 76 positions in HMS 236;

4. The Legislature provided $2,250,607 in funds for 60 positions in HMS 902; and

5. The Legislature restored all the vacant position counts in these areas.

"If EPOD were implemented, these two program ID's are the areas in the budget where the line staff would be most affected.

"The point here is that the resources exist to NOT implement EPOD. The Legislature has provided them. While efficiency in government should be strived for, there is the time and money to take a measured approach to ensure success for all stakeholders."

Representative Nakashima rose to speak in support of the override, stating:

"Thank you, Mr. Speaker. In strong support with written comments please."

Representative Nakashima's written remarks are as follows:

"Mr. Speaker, I rise in support of this bill which authorizes the Governor to develop and implement an eligibility-processing operations division pilot project for counties with a population of 500,000 or more. What it also does is it prohibits the Governor from moving forward on a plan which may look good to them on paper, but will in actuality result in the denial of services to those who are most needy.

"As the policy-making body of State government, we must look for innovative ways to cut costs and enhance the delivery of services to the public. However, we must also be cautious that in such zeal for progress, we do not end up 'throwing out the baby with the bath water,' Mr. Speaker.

"In the past, the DHS Director moved quickly to limit early childhood reimbursements to families and coupled these cuts with promises of assistance in rent subsidies and other programs that would help to ease the loss of the childcare money. These were empty promises and the Director seems to wonder why we grow weary of her promises.

"This bill will allow for a demonstration project to work out the glitches and to see if the program being proposed is viable. It is also a measured and deliberate approach as we are also facing an impending change in administration and it would be unfair to burden the next Administration with a half-implemented plan full of glitches."

Representative Awana rose to speak in support of the override, stating:

"Thank you, Mr. Speaker. In strong support and if I may adopt the words from the Representative from Kalihi Valley I would appreciate it."

Representative Ching rose in opposition to the override and asked that the remarks of Representative Finnegan be entered into the Journal as her own and asked that her written remarks be inserted in the Journal, and the Chair "so ordered." (By reference only.)

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in opposition to this override, and stand in support of Governor's veto of S.B. 2650 – Relating to the Department of Human Services. I enter the following objections as stated by Governor Lingle:

The purpose of this bill is to allow the Governor, through the Department of Human Services (DHS), to establish an eligibility processing operations division (EPOD) pilot project on Oahu. This bill also prohibits the DHS from implementing any transfer of eligibility functions via a reorganization proposed before and during the effective date of the measure, other than the pilot project.

This bill is objectionable because it denies equal access for Hawaii residents living on the neighbor islands to utilize and receive public benefits, such as welfare assistance, Medicaid, and the Supplemental Nutrition Assistance Program services. The reorganization, proposed and approved before the legislature passed this measure, is designed to increase the convenience with which clients across the State can apply for services and renew their eligibility to retain services through the establishment of a call center and online applications. Residents could also receive in-person assistance at remaining DHS offices, community-based social service agencies, hospitals, and health clinics statewide.
This measure would provide easier access to the application and the renewal process for residents on Oahu only, which is not fair to those living on the neighbor islands, and discriminates against them based solely on the location of their residence.

This bill is also objectionable because it would limit DHS's ability to reduce the backlog of applications and renewals for public assistance, which has increased statewide since 2008 because of the global economic recession. If EPOD cannot be fully implemented statewide, only those applications originating on Oahu will benefit from faster, more responsive, processing. Neighbor island applications are currently delayed for as long as four months, and the processing periods are not within the required federal timelines. The backlog will continue to grow. This does not serve our most needy residents well.

Furthermore, the original state-wide proposal would have improved the quality of service to public assistance recipients statewide while saving the taxpayers of the State an estimated $8 million annually. There is nothing wrong with improving service and also saving money. The original program should proceed.

"Thank you."

Representative Shimabukuro rose in support of the override and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Shimabukuro's written remarks are as follows:

"Email from Mr. Adam Lee:

"**Subject:** DHS Director Lillian Kohler's reorganization plan; floodgate for welfare fraud

Dear Senators Chun Oakland, Ihara, Green, Hemmings and Representatives Mizuno, Brower, Au Bellati, Bertram, Carroll, Nishimoto, Shimabukuro, Yamane and Ward:

I am the senior Special Investigator with the welfare fraud investigations office of the State of Hawaii's Department of Human Services (hereafter 'DHS'), and I must inform you of a major problem of Director Lillian

Kohler's proposed reorganization plan that would lead to a flood of welfare fraud.

Ms. Kohler's reorganization would, among other things, remove a pivotal part of the traditional application process where the client/applicant undergoes an extensive interview and meets face to face with the DHS Eligibility Worker. This 'face to face' moment is where the DHS Eligibility Worker verifies the information on the application and warns the client/applicant of criminal prosecution if the client/applicant lies to DHS concerning the information provided on the application and subsequent DHS forms.

My office successfully investigates and prosecutes many cases of welfare fraud, and every one of them heavily relies on the 'face to face' interview between the client/applicant and the DHS Eligibility Worker. In brief, a key element to proving fraud is the defendant's state of mind to intend to do something wrongfully. During the 'face to face' meeting between a client and his/her DHS Eligibility Worker, the client is informed that it is wrong to lie to DHS, and thus any subsequent lies by the client inherently displays his wrongful intention. Thus, if it were not for the 'face to face' meeting between the client and DHS Eligibility Worker, my office would not be able to prove a client's intent to steal welfare benefits should such malfeasance occur.

Director Kohler's proposed reorganization seeks to remove the 'face to face' meeting between client/applicant and DHS Eligibility Worker, and consequently also removes a pivotal element in prosecuting welfare fraud. Director Kohler's plan would essentially open a floodgate allowing a deluge of welfare fraud to occur, and my office and the Attorney General's office would be helpless to prosecute such crimes.

Hardworking taxpayers demand their taxes be used rationally and our programs assisting the poor be effective. Unfortunately, Director Kohler's proposed reorganization plan that deletes the above 'face to face' meetings fails this demand because it increases the amount of public assistance funds going to those who are ineligible and decreases the pool of funds available for those who are truly needy.

I humbly suggest that if Director Kohler's reorganization plan were to occur, then please **at a minimum** require 'face to face' interviews, described above and currently used now, in order to assist our enforcement efforts against welfare fraud.

I thank you for your time and respectfully request your attention to this issue and to take action to prevent Director Kohler's short sighted reorganization.

Sincerely,

Adam Lee
Special Investigator
Investigations Office
Department of Human Services, State of Hawaii"

At this time the Chair called for a roll call vote and the motion to override the veto of S.B. No. 2650, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE DEPARTMENT OF HUMAN SERVICES," as contained in Gov. Msg. No. 286 was put to vote by the Chair and carried, and was approved by the required two-thirds vote of the House pursuant to Section 17 of Article III of the Constitution of the State of Hawaii on the following show of Ayes and Noes:

Ayes, 47: Aquino, Awana, Belatti, Berg, Bertram, Brower, Cabanilla, Carroll, Chang, Chong, Choy, Coffman, Evans, Hanohano, Har, Herkes, Ito, Karamatsu, Keith-Agaran, C. Lee, M. Lee, Luke, Magaoay, Manahan, Marumoto, McKelvey, Mizuno, Morita, Nakashima, Nishimoto, B. Oshiro, M. Oshiro, Rhoads, Sagum, Saiki, Say, Shimabukuro, Souki, Takai, Takumi, Tokioka, Tsuji, Wakai, Ward, Wooley, Yamane and Yamashita.

Noes, 4: Ching, Finnegan, Pine and Thielen.

At 2:31 o'clock p.m., the Chair noted that the motion to override the veto had carried, and S.B. No. 2650, SD 2, HD 2, CD 1, as contained in Gov. Msg. No. 286, was approved.

At this time, the Chair addressed the Clerk who announced Gov. Msg. No. 275, informing the House that on April 25, 2010, S.B. No. 2840, SD 2, HD 1, was vetoed.

Gov. Msg. No. 275 and S.B. No. 2840, SD 2, HD 1:

Representative B. Oshiro moved to override the veto of S.B. No. 2840, SD 2, HD 1, as contained in Gov. Msg. No. 275, seconded by Representative Evans.

Representative Marumoto rose to speak in opposition to the override, stating:

"Mr. Speaker. Just very briefly in opposition. We have some testimony from three contractors and they claim that the bill is problematic and could have unintended consequences, an effect of higher costs and project delays that will cause further detriment to the State's economic condition and local workforce. They also say that this bill would be difficult, if not impossible for contractor's to certify on a monthly basis when the total number will not be known until the end of the contract, that's the total number of workers. So because that is a real problem I urge everyone to vote no. Thank you."

Representative Ching rose to speak in opposition to the override, stating:

"Thank you, Mr. Speaker. I rise in opposition. Thank you. My great-grandfather came here really long ago. He worked as a commercial agent to keep peace within the Chinese community and the Kingdom at the time. And I think it's important, and I think it's been pretty, probably for those who have served in this Legislature, an obvious thing, that I believe that if we keep local culture, which by extrapolation means support local people, support our locals, it's been pretty clear what my dedication has been. Really clear. That's why I formed the Heritage Caucus, to protect our local people, to protect our local businesses, to keep what is local here.

"But I'm going to read from the *Honolulu Advertiser* and I'm proud to say that my district has the first L&L, my district had Masu's Massive Plate Lunch until he went under. He's no longer there. Maybe that's a good metaphor because it's kind of like two parents. They really want the best for their child. Sometimes they fight over what's best for their child, they love what's best for their child, they want to see the child do well. And I think that might be a good metaphor for what we have here. It's all again back to how do we help that child bloom or that student bloom.

"I want to read from the *Honolulu Advertiser:* 'The mission when government seeks to get construction work done is to find a qualified company for their job at the best possible price,' this is from the *Honolulu Advertiser*, April 29. 'All kinds of complications can creep into the process and the state does not have the best reputation for getting contracts issued promptly. But now imagine the bidders will have to meet one more requirement, ensuring that at least 80% of the workers are Hawaii residents. That's what Senate Bill 2840 would require and Governor Linda Lingle is right to veto it. It's an illogical, impractical, anti-business measure designed only to give Legislators an easy to remember jingle during election season. Local jobs for local people. Except for a commercial aired last summer by the Painter's Union griping about mainland workers hired to repair the Aloha Stadium, no hard evidence has been presented to show that this is actually a problem. Actually, most construction jobs are already filled by Hawaii residents. The cost and hassle of moving workers here from the mainland is generally seen as something to avoid. The problem faced by the construction industry is not the lack of workers, but the lack of work."

At this time the Chair addressed Representative Ching, stating:

"Representative Ching. I'm pretty sure everybody has read that editorial. Would you like to insert it in the Journal as your comments? Or just summarize it? I'm pretty sure everybody has read that."

Representative Ching continued, stating:

"I would like to reference the *Honolulu Advertiser*'s editorial, as well as the *Star-Bulletin*'s editorial, Locals Jobs Will Backfire, both with the same position. Again, it's how do we help our local people. So if we increase costs, and also the comment is made about some of the objection of how do you define 'local.' I'm going to go, come move here. Have my driver's license. Now I'm local. Well, you know, what not. I'm going to have a place here. Well there're a lot of problems with this bill.

"We have to remember that if we continue to have a bad economy, we're going to continue to not be able to have our worker's come off the bench and work and restore and revitalize our economy. So voting on this, thinking well, you know, yeah, that's right. Let's see how it comes out. But I think these are compelling arguments and it's very rare when both dailies, one of the last times maybe I'll be able to say that, which is an example in itself, right? The economy is down because business supports the newspapers, but now it's paid for by their ads. But now no newspaper right? So now we're down to a one newspaper town. So just to say, and this is probably last time I'll be able to say it for a while. Both dailies came out in support of the Governor's veto. Thank you."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in opposition to the override, and in support of Governor Lingle's veto of S.B. 2840, SD 2, HD 1, a.k.a. the "local jobs for local people" bill which would require at least eighty percent of workers on construction procurements to be Hawaii residents.

"With the goal to direct jobs to the State's unemployed, the bill may seem to have good intentions; however, a bill such as this could backfire, triggering expensive and time-consuming challenges to contract bids and awards. While the bill has been touted as a job creation measure, the end result would likely discourage job creation by increasing project costs to taxpayers, as well as increasing the likelihood of project delays due to additional grounds for protests by contractors who are not selected. It is ironic that the General Contractors Association of Hawaii opposes this bill, warning that it would increase State and county project costs.

"In her veto message, Governor Lingle draws our attention to the fact that compliance requirements under this bill are tenuous and ill-defined for contractors, as well as State and county agencies that must monitor and enforce compliance. Additionally, the Governor points out that the bill is vague on whether the eighty percent requirement must be maintained every day the project is underway or over the duration of the contract. Further, the language does not specify if the eighty percent quota applies only to jobsite staff or all contractor staff, including administrative and managerial personnel.

"In an editorial piece titled "'Local jobs' bill might backfire" published by the *Star-Bulletin* on April 24, 2010, the article raises an excellent point in reporting, "It [S.B. 2840] … could be challenged on the basis of the 14th Amendment requirement that a state may not abridge a person's rights as a U.S. citizen." The article also reminds us of the demise of similar measure passed into law in 1978 and then overturned in 2006 by District Judge David Ezra who in his ruling cited many flaws with such legislation.

"In all honesty, the problem faced by the construction industry is not the lack of workers but the lack of work. Until the lending markets loosen up, projects—and jobs—will be hard to come by. This bill will do nothing to resolve that basic problem. Thank you."

Representative Cabanilla rose to speak in support of the override with reservations, stating:

"Mr. Speaker, in support with reservations. And it's not that I don't support local jobs for local people. I do that. But I do know that in the construction industry there're a lot of specialties. Just like in nursing Mr. Speaker, there're a lot of specialties. And at times our construction industry does not have the adequate members or certain types of specialties to be able to do their jobs, and that would necessitate them to bring in people or specialized workers from other states.

"And in that respect, I do agree with them that on certain occasions, in certain specialties, they need that provision. And by passing this kind of law that's going to tie up their hands in being able to complete their job in a timely manner.

"And also right now we have a lot of people unemployed. What is going to happen Mr. Speaker, when the job market, when we are now in a better economic situation, and we are in a flourishing situation when there're a lot of jobs and we don't have the people to meet them. Thank you, Mr. Speaker."

Representative B. Oshiro rose to speak in support of the override, stating:

"Mr. Speaker, I rise in support. Very briefly, I'd just like to ask permission to submit a letter by Professor John Van Dyke dated March 24, 2010 where he answers some of the legal and constitutional and international trade questions that have been raised through this bill.

"In addition, I'd just like to make one comment. It's really related to our Procurement Code. Back in 2005, what we passed was the Small Business Preferences and Set Asides. The purpose of that that's codified in 103D-906 was that was where we wanted to give the Administration the opportunity to really give small businesses, local businesses, government contracts. That was the purpose of the bill. And unfortunately to date, 5 years later, not a single contract has been issued under this Small Business Set Asides. That is why we are faced with this bill before us. We passed legislation, we create a policy in the Procurement Code and unfortunately that gets ignored.

"So at this point when we have 90% of our union brothers and sisters that are currently not working on various islands across the State, when residents are suffering because of a lack of jobs, because often times those projects are being given away to mainland corporations, I think it is entirely appropriate for us to step forward and say at this time, we don't find that to be acceptable as a government, as a policy. In our Procurement Code what we're going to do is set a priority and give those jobs and those residents what they need to do to survive. For those reasons, I stand in support. Thank you."

Representative B. Oshiro submitted the following letter:

Hawaii State Legislature

Conference Room 309

Re S.B. No. 2840 S.D. 2 Relating to Public Procurement

Testimony of Jon M. Van Dyke
On Behalf of
District Council 50

Introduction Regarding the Changes to the Original Bill.

S.B. No. 2840 (which was identical to H.B. No. 2736) has been strengthened by several technical changes, changes to its purpose section, and a change to facilitate enforcement. These changes will assist in enabling the State to defend the constitutionality of the statute, should it be challenged after enactment.

S.B. No. 2840 S.D. 2 contains a long purpose section explaining the economic conditions that underlie the enactment of this statute. This material will be useful in helping a reviewing court understand the need for this legislation. It also contains a specific reference to the test utilized by the U.S. Supreme Court in *United Building & Construction Trades Council of Camden County & Vicinity v. Mayor and Council of the City of Camden,* 465 U.S. 208 (1984), with regard to the Privileges and Immunities Clause, and explains why "the purpose of this Act is substantially related to the important governmental goal of reducing unemployment." Again, this addition will be useful in defending the statute should it be challenged.

S.B. No. 2840 S.D. 2 also contains a new section requiring contractors to "provide the procurement officer with documentation sufficient to demonstrate compliance with this chapter." This addition will facilitate enforcement, and raises no constitutional issues.

S.B. No. 2840 S.D. 2 does not contain the definition of "shortage trade," which is contained in H.B. No. 2736 H.D. 1. It would probably be best to add this definition to the statute as ultimately passed, to avoid any ambiguity on this matter.

S.B. No. 2840 S.D. 2 says that the Act "shall take effect on July 1, 2050." This date needs to be changed to July 1, 2010, so that this statute can address the immediate economic challenges facing our community.

1

The Constitutional Regime Governing This Bill.

Laws giving preference to local residents for work funded by state taxpayers have been found to be constitutional under the Market Participant Exception to the Dormant Commerce Clause, *White v. Massachusetts Council of Construction Employers, Inc.* 460 U.S. 204 (1983), and they can also be constitutional under the Privileges and Immunities Clause if they are substantially related to the important governmental goal of reducing unemployment. *United Building & Construction Trades Council of Camden County & Vicinity v. Mayor and Council of the City of Camden,* 465 U.S. 208 (1984). The determination whether a specific local preference law is constitutional is, therefore, fact-specific and depends on whether the law is properly related to a specific unemployment problem needing attention. Because of the serious unemployment in Hawai'i's construction industry, and because of Hawai'i's unique geography, the approach taken in S.B. No. 2840 and H.B. No. 2736 logically addresses Hawai'i's unemployment challenges and should be found to be constitutional under existing caselaw if a proper legislative record confirms the relationship between this law and the current rates of unemployment in the construction industry.

Hawai'i's Unemployment Challenges in the Construction Industry.

The unemployment rate in Hawai'i as of December 2009 was 6.9%. As Governor Lingle acknowledged in her State of the State Address, the construction industry has been hit especially hard during the current economic downturn. Between December 2008 and December 2009, 4,900 construction jobs were lost.[1] This problem appears to be exacerbated by the practice of some contractors who receive state public works contracts to hire nonresident construction workers.

S.B. No. 2840/H.B. No. 2736 Relating to Public Procurement.

This Bill is designed to address the problem of unemployment in Hawaii's construction industry. It requires any contractor awarded a public works contract to "ensure that Hawaii residents comprise not less than eighty per cent of the workforce employed to perform the contract." This requirement also applies to subcontracts of $50,000 or more, but it does not apply to "procurements for professional services under section 103D-304 and procurements for small purchases under chapter 103D-305." In addition, "hours worked by employees within shortage trades, as determined by the department of labor and industrial relations, shall not be included in the calculations for purposes of this section."

The Privileges and Immunities Clause.

United Building & Construction Trades Council of Camden County & Vicinity v. Mayor and Council of the City of Camden, 465 U.S. 208 (1984), involved a municipal ordinance enacted by the City Camden, New Jersey, requiring that at least 40% of the employees of

[1] Hawai'i Dept. of Labor and Industrial Relations, Hawai'i's Seasonally Adjusted Unemployment Rate at 6.9 Percent in December, Jan. 22, 2010.

contractors and subcontractors working on City construction projects be City residents. The Supreme Court ruled that the Privileges and Immunities Clause in Article IV of the U.S. Constitution protected the right of all U.S. citizens to seek employment from private employers, even those receiving governmental contracts, and that discrimination against citizens of other states can be justified only "where there is a 'substantial reason' for the difference in treatment" and if it can be shown that the nonresidents "constitute a peculiar source of the evil at which the statute is aimed." 465 U.S. at 222. In explaining this test, the Court noted that it would be proper in the usual case to defer to the judgment of local legislative bodies, especially when they are utilizing taxpayer funds to stimulate their local economy and to create jobs:

> * "*The fact that Camden is expending its own funds or funds that it administers* in accordance with the terms of a grant is certainly a factor – *perhaps the crucial factor* – to be considered in evaluating whether the statute's discrimination violates the Privileges and Immunities Clause." *Id.* at 221 (emphasis added).
>
> * "Every inquiry under the Privileges and Immunities Clause 'must…be conducted with due regard for the principle that the states should have considerable leeway in analyzing local evils and in prescribing appropriate cures.' *Toomer v. Witsell,* 334 U.S. 385 (1948). *This caution is particularly appropriate when a government body is merely setting conditions on the expenditure of funds it controls*." *Id.* at 222-23 (emphasis added).

The U.S. Supreme Court remanded the *Camden* case back to the New Jersey Supreme Court to apply this test, because no factual record had been prepared when the case came to the U.S. Supreme Court. No further recorded proceedings took place in this particular case, however, so we do not know how the test was in fact applied. And in the following 26 years, no other cases have come before the U.S. Supreme Court to reevaluate the appropriate test or to apply it to any other fact situations.

Some lower courts have struck down statutes mandating employment preferences,[2] and

[2] *See, e.g., People ex rel Bernardi v. Leary Construction Co, Inc.,* 10 Ill.2d 295, 464 N.E. 2d 1019 (1984) (striking down a law requiring an absolute preference for Illinois residents in public works projects because nothing in the record, including the complaint itself, showed that nonresident laborers were a cause of unemployment in Illinois); *W.C.M. Window Co. v. Bernardi,* 730 F.2d 486 (7th Cir. 1984) (ruling that this same Illinois law violated the Privileges and Immunities Clause, in light of the complete failure of the state to make any attempt to justify the law); *Robison v. Francis,* 713 P.2d 259 (Alaska 1986) (striking down a law requiring that 95% of the workers on public works contracts be Alaska residents, as violating the Privileges and Immunities Clause); *Opinion of the Justices to the Senate,* 393 Mass. 1201, 469 N.E.2d 821 (1984) (rendering a nonbinding advisory opinion, without the benefit of any record of legislative findings, that a proposed bill requiring that 80% of workers on public works contracts by Massachusetts residents would violate the Privileges and Immunities Clause); *State v. Enserch Alaska Construction, Inc.,* 787 P.2d 624 (Alaska 1990) (striking down a law requiring that 50% of the construction workers in economically distressed areas to be hired for public works projects in that area, as violating the Equal Protection Clause of the Alaska Constitution); *A.L. Blades v. Yerusalim,* 121 F.3d 865 (3rd Cir. 1997) (striking down a Pennsylvania law requiring that all laborers on public works contracts have lived in Pennsylvania for at least three months prior to their employment, as violative of the Privileges and Immunities Clause).

others have upheld them.[3] A number of states do now have such statutes, as listed below.

The clearest case upholding a resident-preference hiring law is *State v. Antonich,* 694 P.2d 60, 61-64 (Wyo. 1985), upholding a requirement that available and qualified Wyoming residents be hired in preference to nonresident laborers. The Wyoming Supreme Court explained that "[w]ithout question, reduction in unemployment among Wyoming citizens constitutes a valid state goal," *id.* at 62, and ruled "that Wyoming's Preference Act…precisely fits the particular evil identified by the State." *Id.* at 63. The court went on to say:

> "We hold that the Wyoming Preference Act does not violate the privileges-and-immunities clause of the federal constitution, notwithstanding the Act's infringement upon a recognized fundamental right. The Act narrowly addresses the goal of reduced unemployment among the state's taxpayers by preferring available, qualified residents for government-funded positions. Since the degree of discrimination bears a close relation to the state's valid reasons for discriminatory treatment, we affirm the Act's validity under the test established in *Toomer v. Witsell, supra,* and refined in subsequent cases."

Id. at 64. This decision has been cited with approval by the U.S. Court of Appeals for the Eighth Circuit, in *A-G-E Corporation v. United States,* 968 F.2d 650, 654 (8th Cir. 1992), where the court stated that "[a] direct attack on Wyoming's resident preference statutes [alleging that it violates the Privileges and Immunities Clause] would clearly face an uphill battle after *White v. Massachusetts Council of Constr. Employeers, Inc.,* 460 U.S. 204 (1983), and *United Bldg. & Constr. Trades Council v. Camden,* 465 U.S. 208 (1984)."

Other post-*Camden* decisions that have upheld local preference statutes include:

* *Gary Concrete Products, Inc. v. Riley,* 285 S.C. 498, 331 S.E.2d 335 (1985), upholding a law requiring procurements to be made from South Carolina residents, so long as the South Carolina bidder is not more than 2% higher than that of the nonresident bidder for procurements under $2,500,000 and not more than 1% higher for procurements over $2,500,000.

* *APAC-Mississippi, Inc. v. Deep South Construction Co., Inc.,* 288 Ark. 277, 704 S.W.2d 620 (1986), upholding the requirement that contracts be awarded to bidders who paid local taxes, unless they are more than 3% higher than the lowest nontaxpaying bidder.

* *Bristol Steel & Iron Works, Inc. v. State Dept. of Transportation & Development,* 507 So.2d 1233, 1236 (La. 1987), upholding a law requiring that public works contracts must be awarded to Louisiana resident contractors unless it is more than 5% higher than the lowest

[3] The decision in *Walsh v. City and County of Honolulu,* 423 F.Supp.2d 1094 (D.Hawaii 2006), which struck down a residency requirement for public employees, is not directly applicable to HB No. 2376, because that decision was based on the court's conclusion that the residency requirement had the impermissible purpose of deterring in-migration. HB No. 2376, by contrast, is designed to address Hawai'i's significant unemployment problem in the construction industry, and it utilizes a flexible approach, which will still permit one-fifth of all construction workers to be nonresidents.

responsible nonresident bid, explaining that the statute "serves a legitimate state interest, i.e., encouraging Louisiana's industries, and is rationally related to advancing that purpose."

* *Big Country Foods, Inc. v. Bd. of Educ. of Anchorage Sch. Dist.,* 952 F.2d 1173 (9th Cir. 1992), upholding a requirement that Alaska school districts receiving state funds purchase dairy products harvested in Alaska unless the price is more than 7% higher than products of like quality harvested outside the state.

Other States with Resident Preference Statutes

Other states statutes that mandate resident-hiring preferences include:

* Idaho Code, Title 44, Chapter 10 § 44-1002, requiring that 95% of the employees in public works contracts be Idaho residents.

* Montana Code Annotated, § 18-2-409, requiring that 50% of the employees on public works contracts be "bona fide Montana residents."

* Oklahoma Statutes, Title 61, § 9, stating that all public works contracts "shall require employment of Oklahoma labor and the use of Oklahoma materials if available….and can be procured at a cost no higher than the same quality of labor or material available from outside this state."

* West Virginia Code Annotated, § 5A-3-37, giving a preference to bidders utilizing at least 75% West Virginia residents who have lived in West Virginia continuously for at least two years, as long as their bid does not exceed the lowest qualified bid by 2 1/2%.

* Wyoming Rules & Regulations, Chapter 14, § 6, giving a preference to Wyoming contractors, if their bid is not more than 5% higher than that of the lowest responsible nonresident bidder, and requiring that resident laborers be used whenever possible.

Applying the Governing Test to S.B. No. 2840/H.B. No. 2736

The decisions since the 1984 *Camden* case confirm that each resident-preference statute must be examined in light of the specific situation in the affected community and the record made to support the statute. Hawai'i's geography complicates its employment situation, because many construction workers cannot easily move or relocate their families to distant sites where jobs might be available, and thus are limited to job opportunities in our islands. Because of this constraint, because the construction industry has been particularly hard hit in the current downturn, and because some contractors receiving public works contracts have brought in workers from elsewhere rather than hiring available local workers, a strong case can be made that S.B. No. 2840/H.B. No. 2736 is substantially related to the important government goal of reducing unemployment. The 80% figure in the Bill provides a contractor with sufficient flexibility to bring in workers from elsewhere who may have unique skills unavailable here, but at the same time ensures that taxpayer moneys spent for public works projects will help alleviate

unemployment in Hawai'i's construction industry. The cases cited in footnote 2 can be distinguished, because they either involved situations where no legislative record was made, or they involved an absolute (or near-absolute) preference rather than the 80% utilized in HB No. 2736, or they involved local state constitutional provisions inapplicable here.

If the proper legislative record is made, therefore, S.B. No. 2840/H.B. No 2736 should be found to be constitutional. As explained in the introductory section to this testimony, the changes made to Section 1 in S.B. No. 2840 S.D. 2 will assist a reviewing court in understanding the purpose for this legislation and should ensure that it will be found to be constitutional.

Representative Yamane rose to speak in support of the override, stating:

"Mr. Speaker, I'm standing in support. Mr. Speaker, the essence of this bill is to support local people. Mr. Speaker, this is a way that we can set policy to get local people jobs. It doesn't mean they have to hire local people, but that's the first preference, Mr. Speaker. These local people represent our brothers, our sisters, our sons, daughters, mothers, our neighbors. They need jobs, Mr. Speaker.

"With ever-increasing issues of homelessness, unemployment, Mr. Speaker, it's time to get our people working so that they can feel good about their families, feel like they're participating in a community, and Mr. Speaker, this is an issue that resonates throughout the State. We need our people working now. Thank you."

Representative Finnegan rose to speak in opposition to the override, stating:

"Thank you, Mr. Speaker. In opposition. Thank you, Mr. Speaker. You know I had voted for this bill before it went up to the Governor's Office and I had some concerns regarding the unconstitutional part of the bill, but I did pass it through. I didn't really look at or study all of the different testimony, and now that I take a look at the veto message, as well as really looked and studied the different testimony that had come in, I do support the Governor on her veto.

"This was a great way to pass this bill. How can you be against local jobs for local people? The bottom line is I think we all want local jobs for local people. I do agree with the Majority Leader when he says that this small business preference in the Procurement Code is something that we need to exercise and we need to find a way to make sure that that is exercised, because from my understanding it's not. If I'm not mistaken, that was a joint effort in 2005 between the Administration and with the cooperation of the Legislature and the Administration that that particular part of the law, of the Procurement Code, was passed together.

"Mr. Speaker, we just have to enforce that. Be able to get the change of culture, to get the small business preference exercised. What happens in this bill is it's not workable with the way that you have to keep track and all of this kind of stuff. It hurts more than it helps.

"Mr. Speaker, when I look back at, and ask questions about the Stadium, that's in my district, and ask the Stadium about the work that was done, it was because of the interpretation, as well as process of the procurement system why it ended up with the mainland company being awarded the project. The first time that procurement went out it was awarded to a mainland company, then it was challenged and it was also sent out again. I don't know the terminology. I apologize for that. But then it was sent out to bid again. Through that, a local company won, but because there's certain disclosures that you need to make and I believe it was one of the subcontractors you had to name. Because of the process, and that that particular local contractor did not name the subcontractor, that mainland company was able to come and challenge it again, and through that it went to the mainland company.

"Mr. Speaker, it's very unfortunate that that happened, but what we have here is we have a situation where we can do better with the laws that exist without passing this bill that will make it worse, in my opinion, for the construction industry. Thank you, Mr. Speaker."

Representative Rhoads rose to speak in support of the override, stating:

"Mr. Speaker, thank you. In support. Just to hopefully assuage the concerns of the Representative from the 42nd District. There is a provision in the bill that allows if you have a classification that's in shortage, that the 80% does not apply to that. So if there are jobs that the requisite number of people are not available locally, this law does not apply.

"Also with regard to, I think it was the Governor's concern about this being detrimental to the economy. It's hard to see how that's possible because it is government contracts, and the government is going to put out the same number of contracts whether or not this is in effect. So it's hard to understand why that would make any difference. So I think that's the only points I had. Thank you, very much."

At 2:46 o'clock p.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 2:46 o'clock p.m.

At this time the Chair called for a roll call vote and the motion to override the veto of S.B. No. 2840, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC PROCUREMENT," as contained in Gov. Msg. No. 275 was put to vote by the Chair and carried, and was approved by the required two-thirds vote of the House pursuant to Section 17 of Article III of the Constitution of the State of Hawaii on the following show of Ayes and Noes:

Ayes, 46: Aquino, Awana, Belatti, Berg, Bertram, Brower, Cabanilla, Carroll, Chang, Chong, Choy, Coffman, Evans, Hanohano, Har, Herkes, Ito, Karamatsu, Keith-Agaran, C. Lee, M. Lee, Luke, Magaoay, Manahan, McKelvey, Mizuno, Morita, Nakashima, Nishimoto, B. Oshiro, M. Oshiro, Rhoads, Saiki, Say, Shimabukuro, Souki, Takai, Takumi, Thielen, Tokioka, Tsuji, Wakai, Ward, Wooley, Yamane and Yamashita.

Noes, 5: Ching, Finnegan, Marumoto, Pine and Sagum.

At 2:48 o'clock p.m., the Chair noted that the motion to override the veto had carried, and S.B. No. 2840, SD 2, HD 1, as contained in Gov. Msg. No. 275, was approved.

At 2:48 o'clock p.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 2:52 o'clock p.m., with the Speaker presiding.

END OF CALENDAR

At this time, the Chair stated:

"Members, at this time we had deferred two measures to the end of calendar, which were House Bill 1642 and Senate Bill 1311 on page 2. At this time, we will be taking up House Bill 1642."

At this time, the Chair addressed the Clerk who announced Gov. Msg. No. 259, informing the House that on April 22, 2010, H.B. No. 1642, HD 1, SD 2, CD 1, was vetoed.

Gov. Msg. No. 259 and H.B. No. 1642, HD 1, SD 2, CD 1:

Representative B. Oshiro moved to override the veto of H.B. No. 1642, HD 1, SD 2, CD 1, as contained in Gov. Msg. No. 259, seconded by Representative Evans.

Representative Shimabukuro rose to speak in support of the override, stating:

"Written comments in strong support."

Representative Shimabukuro's written remarks are as follows:

"Mr. Speaker, I rise in strong support of an override to the Governor's veto of House Bill 1642. The purpose of this bill is to ensure fair and equitable practices in the procurement bid process for purchases of health and human services. The bill corrects a current DHS procurement practice, whereby for-profit organizations are allowed to submit a "pre-tax" bid that gives them an unfair advantage over non-profits which are not subject to the insurance premium tax mandated by Hawaii law.

"I would like to quote a 4/29/10 email from Emmanuel Kintu, Executive Director, Kalihi-Pālama Health Center, and Board Chair, Hawai'i Primary Care Association.

"Aloha!
For the good of Community Health Centers throughout Hawai'i and the vulnerable populations they serve, I urge you to override the Governor's veto of HB1642.

Passage of this bill provides vital consumer protection and quality health care for community health center patients by ensuring transparency in the bidding process for QUEST and QUEST Expanded health care programs.

The implementation process for the most recently awarded QUEST Expanded RFP resulted in barriers to care, such as inadequate provider networks, patient medications, and transportation.

Specific challenges that community health centers experienced, and in some cases continue to face, include:

 CHCs or other community service organizations that provide transportation to clients are not an option that Med-Quest Division (MQD) or the plans would pay for unless the organization provided transportation to all QUEST Expanded clients and followed all MQD/plan transportation regulations.

 Patients are asked to get transportation from family members or friends. If that isn't possible, the bus is the next option if the patient is physically and cognitively able to catch the bus, if a bus runs regularly, and if the patient lives within a quarter mile of a bus stop. The Handi-Van is the next option for those who can't take a bus, with Handi-Tran as the last viable alternative for areas Handi-Van is unable to service. For health centers in rural areas, this transportation issue poses a particularly difficult access problem.

 Payment and reimbursement issues, including denial of claims, for prescription medications and PPS rates.

 Multiple services provided at the same time are not being entirely paid for.

 Serious shortage of specialist providers and inadequate communication between the plans and community health centers on the provider network.

Please support the veto override of House Bill 1642, so that community health center patients are provided the best possible access to the quality health care they deserve."

"In addition, I would like to rebut the Governor's Objections.

"**The Governor claims the bill will require organizations to obtain licensure prior to bidding**: This is not true. HB 1642 allows the purchasing agency to determine whether licensure is necessary. According to the bill, applicants are required to have licensure as stated in the Request For Proposals. Therefore, the purchasing agency has full control over licensure requirements.

"**The Governor claims the bill will limit the number of qualified providers, decreasing competition and increasing costs:** This is not true. The requirement that appropriate licensure is obtained prior to bid submission adds assurances that bidders are qualified. In 2007, DHS's QUEST Expanded Access RFP stated that bidders must be a Hawaii licensed Health Maintenance Organization or Mutual Benefit Society. Despite this requirement, Ohana Health Plan was awarded a contract after failing to obtain either license. Since then, Ohana operates without a HMO or MBS license and instead operates under the Hawaii indemnity insurance licensure of WellCare, its mainland for-profit parent company. HB1642 will close this loophole. Further, there is no evidence that the current procurement process decreases costs. To the contrary, in Fall 2009, DHS increased QUEST Expanded Access health plan contracts with Ohana and EverCare, from approximately $600 million a year to $650-$660 million a year despite a large State deficit.

"**The Governor claims HB 1642 allows the bidder to dictate the award amount**: This is not true. Bids for health and human services are requested on a "per person per month" basis. For QUEST health insurance coverage services, bidders propose a per person, per month rate. DHS then pays contracted health plans the rate multiplied by the number of enrollees served for the month. HB 1642 will not force the State to pay more than necessary for services.

"**The Governor claims the bill is flawed because contract amounts cannot be determined in advance**: This is misleading. HB 1642 does not require the State determine in advance total contract amounts. Bids for health and human services are contracted on a per person, per month basis. The State awards contracts for a "per person, per month" rate and are paid based on that rate multiplied by the number of beneficiaries they served during the month. Additionally, this bill will have no impact on the ability of an agency to set rate schedules because contracts are for a per person, per month rate.

"**The Governor claims the bill is based on the misperception that the State should not be paying contractors for taxes**: This is false. HB 1642 requires that proposals include all costs, fees, and taxes. In no way does the bill prevent an agency from paying contractors for taxes. The bill does require that any costs, including taxes, are included in the bid amount. This is to prevent the current practice of agencies accepting a bid, excluding taxes, then paying the contractor for taxes after contracted. The inclusion of taxes and other costs in the bid, up front, provides added transparency in the procurement process.

"Rebuttal to Ohana Healthcare's latest claims:

"Ohana Claims: That they have paid taxes; No one disputes that they have paid taxes which are required by law. However:

FACT:
- Ohana NEVER INCLUDED the cost of the tax in their Bid Proposal.
- The STATE is PAYING Ohana the amount of the tax they owe OVER and ABOVE what it bid.
- The FEDERAL GOVERNMENT would have PAID the additional $13 million if the TAXES were INCLUDED in the Bid Proposal.

"Ohana Claims: That they saved the State millions of dollars

FACT:
- The State expected SAVINGS when it created the QExA program NO MATTER who was AWARDED the Contract.

"Ohana Claims: The RFP was consistent with HRS 103D

FACT:
- NOT TRUE. the Contracts for Health and Human Services are Governed by Hawaii Revised Statues (HRS) Chapter 103F and NOT HRS 103D.

"Ohana Claims: This bill will jeopardize many jobs and disrupt care for 41,000 beneficiaries of the QExA program

FACT:
- NOT TRUE. BOTH Ohana and Evercare HAVE contracts that DO NOT end until June 2011 and this bill DOES NOT affect their CURRENT CONTRACTS.

"Ohana Claims: This bill may put Medicaid waivers and matching funds at risk

FACT:
- There is NO Evidence of this and is a MISLEADING STATEMENT.

"Ohana Claims: This bill will cost the State millions of dollars.

FACT:
- There is ABSOLUTELY NO BASIS for this statement.

"Mr. Speaker, these concerns raised are very serious. I wish to draw Members' attention to SCR 179, which we adopted this Session. SCR 179 was introduced by the Senate Health Committee Vice Chair, and states:

WHEREAS, there are reports that the two health plans that the Department of Human Services has awarded contracts to under the QUEST Expanded Access programs do not have adequate networks of primary care providers; and

WHEREAS, concerns have arisen that the State lacked adequate assurances from the two health plans regarding the ability of the plans to deliver services; and

WHEREAS, these concerns have led to lawsuits in the federal courts to block the contract awards under the QUEST Expanded Access programs…

"As reported in SCR179, patients impacted by QExA have filed a lawsuit in federal court, which is scheduled for trial in the coming months. We need this bill to improve this situation and avoid future liability for our state.

"The need for this corrective legislation was clearly demonstrated when, in 2008, two for-profit companies bid for, and were awarded, QUEST Expanded Access Program contracts. As part of the award package, the department provided rebates on the 4.265 % tax, resulting in a higher award amount than the companies had bid.

"HB 1642, as amended by your Conference Committee, makes it clear that bid proposals should contain all costs, fees, and any taxes that the bidder may be obligated to pay. Furthermore, the bill prohibits any award from including payment or rebates not included in the proposal. The bill does not end existing contracts … but it does provide transparency to the process and it will ensure fairness in future bids and awards. Why should we continue to subsidize for-profit companies with unproven local track records? Why should we provide up-front advantages, enabling them to compete with non-profit insurers who have responsibly served Hawaii's most needy and under-served populations in cooperation with 16 community health centers on all islands?

"This bill began its long journey early in the 2009 Session. I urge my colleagues to reaffirm the stand that both House and Senate made when it sent this legislation to the Governor."

Representative Takai rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

At this time the Chair called for a roll call vote and the motion to override the veto of H.B. No. 1642, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE PURCHASES OF HEALTH AND HUMAN SERVICES," as contained in Gov. Msg. No. 259 was put to vote by the Chair and carried, and was approved by the required two-thirds vote of the House pursuant to Section 17 of Article III of the Constitution of the State of Hawaii on the following show of Ayes and Noes:

Ayes, 42: Aquino, Awana, Belatti, Berg, Bertram, Brower, Cabanilla, Carroll, Chang, Chong, Choy, Coffman, Evans, Hanohano, Har, Herkes, Keith-Agaran, C. Lee, M. Lee, Luke, Magaoay, Manahan, McKelvey, Mizuno, Morita, Nakashima, Nishimoto, B. Oshiro, M. Oshiro, Rhoads, Sagum, Saiki, Say, Shimabukuro, Takai, Takumi, Tokioka, Tsuji, Wakai, Wooley, Yamane and Yamashita.

Noes, 9: Ching, Finnegan, Ito, Karamatsu, Marumoto, Pine, Souki, Thielen and Ward.

At 2:56 o'clock p.m., the Chair noted that the motion to override the veto had carried, and H.B. No. 1642, HD 1, SD 2, CD 1, as contained in Gov. Msg. No. 259, was approved.

At this time, the Chair stated:

"In reference to Senate Bill 1311, SD 1, HD 1, Members of the House, we will not be taking this measure up at this time. Madame Clerk, please file this measure with the House."

Gov. Msg. No. 197 and S.B. No. 1311, SD 1, HD 1:

At this time, Gov. Msg. No. 197 was placed on file.

ORDER OF THE DAY

UNFINISHED BUSINESS

At this time, the Chair stated:

"Members of the House, may we proceed back to the Order of the Day, Unfinished Business, where we deferred two measures to the end of the calendar. Senate Bill 2646, Senate Draft 1, House Draft 2, Conference Draft 2; and also Senate Bill 2405, Senate Draft 2, House Draft 1, Conference Draft 1."

S.B. No. 2646, SD 1, HD 2, CD 2:

Representative B. Oshiro moved to recommit S.B. No. 2646, SD 1, HD 2, CD 2, to the Committee on Conference, seconded by Representative Evans.

Representative Ching rose to speak in opposition to the motion to recommit, stating:

"Thank you, Mr. Speaker. I rise in opposition to the recommittal of this measure. This measure, which was supported by so many people and passed out of the Senate, recognizes that surfing specifically, water-based recreation in general, are significant elements of Hawaii's culture, history, recreation and economy, and therefore should be identified, promoted and

protected as reserves by the DLNR working in partnership with federal, State and departments. We're on *sine die*.

"The introducer of this bill, born to Fred Sr. and Lillian Freitas Hemmings, a true *keiki o ka 'aina*, part Portuguese and Caucasian, of Portuguese heritage, graduated from Punahou, was a quarterback of the football team, won the Makaha International and numerous surfing championships, and was inducted to the Punahou Hall of Fame here in Hawaii. He's listed as one of Hawaii's top surfing athletes."

Representative B. Oshiro rose to a point of order, stating:

"Point of order, Mr. Speaker."

At this time, the Chair addressed Representative Ching, stating:

"Representative Ching, will you conclude your remarks in regards to the bill that is before us which is surfing reserves. It is nothing to do with the colleague in the other Chamber. So please confine your remarks to those sites that are being included and part of the discussion in regards to surfing reserves, please."

Representative Ching: "Mr. Speaker, this is and I was in the hearing for this bill, and I learned very much about the merits of this bill."

Speaker Say: "Representative Ching."

Representative Ching: "I believe this is a good bill and that it should not be recommitted."

Speaker Say: "Okay. That's your position. 'It's a good bill and it should not be recommitted.'"

Representative Ching: "And the only conclusion I can have of why this bill is being recommitted is what I have said on the Floor before."

Speaker Say: "And that is incorrect at this point in time. So please, if you want to speak on the recommittal, the motion to recommit, please do so."

Representative Ching: "I do feel that this bill should not be recommitted. That it's important to the economy of Hawaii to recognize those heritage sites. As a founder of the Heritage Caucus I think this is the kind of thing we want to help promote not only our culture, which I've always said our culture is unique to the world and of all of it, surfing is up there with the top of what is unique to Hawaii.

"I just believe that in promoting surfing, we are promoting the economy, and it's a win-win because we are also promoting our unique Hawaiian culture. It is just one of the saddest things that I can think of that, on this particular day, that this will be recommitted. Additional written comments please."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in opposition to the recommittal and in strong support of S.B. 2646, SD 1, which designates Waikiki and certain areas of the north shore of Oahu as Hawaii surfing reserves.

"As expressed in the written testimony submitted by the Historic Hawaii Foundation: "The bill recognizes that surfing specifically, and water-based recreation generally, are significant elements of Hawaii's culture, history, recreation and economy, and, as such, certain areas should be identified, promoted and protected as surfing reserves by the Department of Land and Natural Resources, working in partnership with federal, state and county departments and other organizations…. The bill refers to examples from Australia as precedent, along with consideration given to the concept in New Zealand…. In Hawaii, surfing has occurred in Waikiki every day for centuries and is…integral to the recreational, economic and cultural values of Hawaii."

"I applaud the efforts of my colleagues for taking steps to ensure that these areas are recognized and protected. Thank you."

Representative Finnegan rose to speak in opposition to the motion to recommit, stating:

"Thank you, Mr. Speaker. Just in opposition of the recommittal. Mr. Speaker, I believe that this bill is being recommitted for rumors that have been going around instead of the actual merits of the bill, so that's my opposition. Thank you."

Representative Manahan rose to speak in support of the motion to recommit, stating:

"Mr. Speaker, I'm rising in support of the recommittal. As the Chair of one of the lead Committees in the Conference Committee, as well as where the bill was referred, I support the recommittal because I think in the end, especially when we had to offer the floor amendment, there was a lot of miscommunication and I think a lack of communication. I don't believe we have enough information to go on right now. This issue can be taken up at a future date, but certainly at this point I believe it should be recommitted. Thank you."

Representative Ward rose to speak in opposition to the motion to recommit, stating:

"Mr. Speaker, I rise in opposition to the motion for two reasons. Mr. Speaker, first reason is it's untimely. It has gone through hearing, after hearing, after hearing, and passed through. We even amended it on the Floor the other day, so it's had the reiterations of the democratic process. So why at the 11th hour are we doing this? It's unorthodox.

"Second reason is, it's unfair. Mr. Speaker, I know you don't want to see how this will affect somebody who's given 20 years of his life. He's a hall of famer."

The Chair addressed Representative Ward, stating:

"Representative Ward, you're out of order in regards to making any reference or allusions."

Representative Ward: "Mr. Speaker, let's be real. This is the 'swan song' for one of Hawaii's best."

Speaker Say: "Representative Ward, you are out of order. Please confine your remarks to the motion to recommit."

Representative Ward: "Mr. Speaker, I challenge you to say I'm out of order to speak for Fred Hemmings for receiving this."

Speaker Say: "Representative Ward, you are out of order. You are out of order."

Representative Ward: "I disagree with you."

Representative Marumoto rose and stated:

"Mr. Speaker, I agree with the previous speaker who said that this bill went through several hearings and passed the House, and passed the Senate, and was amended in both houses. And now at the 11th hour, the plug is being pulled on it. I can only surmise that it could be for political reasons. If anyone could possibly explain and edify me."

The Chair addressed Representative Marumoto, stating:

"Representative Marumoto, you are out of order in reference to any political reason. There is no allusion to political reasons."

Representative Marumoto: "If there're any reasons, any testimony which came to light in the past 48 hours, I would certainly like to know it. But it's a shame that we cannot pass something in tribute to someone who's leaving the Senate after many years of public service. I would hope that this is, as you say, not political. Thank you."

Speaker Say: "Representative Marumoto, I believe you are out of order in making that statement because you are incorrect."

Representative Finnegan rose and stated:

"Mr. Speaker, point of information. Mr. Speaker, I just would like to know why don't we just vote on the bill instead of recommitting it. If you want to kill it on the House Floor, it would be better to let the House vote than to have it recommitted without having the people know the vote on the particular measure. Thank you."

Speaker Say: "The Chair would like to recommit it at this point in time."

Representative Belatti rose to speak in support of the motion to recommit, stating:

"Thank you, Mr. Speaker. In support of the recommittal. Some very brief comments. I'm supporting this recommittal because over the past few days, after the testimony had been heard in hearing, we've been getting lots of emails about the lack of consultation of the local community on this issue.

"So recommittal does not mean that this bill is dead, it just means that it needs to go back and be worked on more. There are many bills, many great ideas, many important things that do not get dealt with by this Body. So I think that this is no different and it should be taken up by a future Legislature. Thank you very much."

Representative Morita rose to speak in support of the motion to recommit, stating:

"Thank you, Mr. Speaker. In support of the recommittal. I think the Representative from Waikiki said it best in the last debate on the floor amendment of this bill. As various sites were removed from the bill, it read more like a resolution. So the democratic process did work, and the bill wasn't substantive enough to warrant this being in statute. Maybe the proper venue is a resolution and a congratulatory certificate. Thank you."

Representative Brower rose to speak in support of the motion to recommit with reservations, stating:

"Thank you, Mr. Speaker. In support with reservations and a few brief comments. Thank you. There is a lot of concern that this may hint at development of professional sports at the beach. It may misplace local residents, displace them and sometimes ..."

The Chair addressed Representative Brower, stating:

"Representative Brower, in being fair with the Members of this Body, please confine your remarks to the motion to recommit. 'I support the recommittal because …,' and not go into anything else."

Representative Brower: "Thank you, Mr. Speaker. I support the recommittal with reservations, and I would look forward to working on this more in the future. Thank you."

Representative M. Oshiro rose to speak in support of the motion to recommit, stating:

"Mr. Speaker, I stand in support of the recommittal. Number one, it's better late than never to put to rest the measure that is not ready for acceptance by our surfing community and those who recreate in the surf. Number two Mr. Speaker, for all the thousands of surfers out there who are not world champions, or who engage in commercial aspects of surfing, but do it for the love of the sport, I speak for them. Thank you."

Representative Pine rose and stated:

"Point of information, Mr. Speaker. I still have not heard why we are recommitting the bill. What were all those emails? What were the reasons? Who objected? We had all Session. We've heard from so many people about so many bills. Can someone on this Floor be honest and just share with me who these people are and what was said?"

The Chair addressed Representative Pine, stating:

"Representative Pine, you are out of order at this point. If you want to speak on the motion to recommit, you may do that at this point in time. I was very fair by having the first speaker share what this bill was all about. I was very forthright with her that that is not part of the motion to recommit. This is to discuss the motion to recommit."

Representative Pine continued, stating:

"Okay. I'll be more clear in my discussion of being against recommitting the bill. It's because no one has given me any answers to these questions, Mr. Speaker. I was elected to represent the 43rd District. I do surf. My family surfs. And this is the one bill that did not get a lot of objection.

"I find it sad for democracy that I'm experiencing the recommittal of a bill that had no opposition. Experiencing people recommitting a bill, killing a bill. By recommitting this bill today you are killing this bill. And you remove the person's name who introduced it. So Mr. Speaker, for the sake of democracy I vote no, because we are recommitting this bill with a lack of information as to why we are recommitting the bill, and I believe that's just wrong."

Representative Belatti rose to respond, stating:

"Thank you, Mr. Speaker. In rebuttal. The previous speaker asked what kind of testimony and emails that we've been receiving. We did receive an email from Mahina Chillingworth of Hui O He'e Nalu from the North Shore community, and I would request that I be able to insert it."

Representative Belatti submitted the following:

"North Shore Questions SB 2646
Sent: Wednesday, April 28, 2010 6:46 PM
To: All Reps; All Senators
Dear Legislators:

The North Shore Surfing Community was not presented any information on this bill and the affects a surf "reserve" will have on our ocean areas in the North Shore. The creation of a surf reserve is not clearly defined in the bill. The Hui O He'e Nalu is the largest surfing organization on the North Shore and the State of Hawai'i with over 200 active members with strong ties to the surfing community and we question this bill.

We believe the bill should be stopped and should come back to the community so proper study, input and review can be done by community members before the North Shore agrees to be a part of a Surf Reserve.

Community members from Honolua Bay and Makaha are also objecting to being included SB 2646. Honolua Bay was removed from the bill, Makaha is in the process of working to be removed from the bill, why is the North Shore still in the bill when we don't want to be in it either?

Thank you for time and consideration.

Aloha,
Mahina Chillingworth
and the 250 members of the Hui O He'e Nalu"

Representative Finnegan rose and stated:

"Mr. Speaker, I understand that the speaker is talking on answering a question but ..."

Speaker Say: "It was a point of rebuttal, and she was making references to those people who had testified in opposition to the bill."

Representative Finnegan: "Correct Mr. Speaker."

Speaker Say: "That is the motion to recommit that there is that motion to recommit in explaining why."

Representative Finnegan: "So does that extend our right to talk about the bill?"

Speaker Say: "No. It was the process."

Representative Finnegan: "Okay, thank you."

The motion was put to vote by the Chair and carried, S.B. No. 2646, SD 1, HD 2, CD 2, entitled: "A BILL FOR AN ACT RELATING TO HAWAII SURFING RESERVES," was recommitted to the Committee on Conference, with Representatives Ching, Finnegan, Marumoto, Pine and Ward voting no, and with Representative Chang being excused.

At this time, the Chair stated:

"Members, at this time the Chair will be taking Senate Bill 2405, Senate Draft 2, House Draft 1, Conference Draft 1, which is Conference Committee Report No. 52-10, out of order."

Conf. Com. Rep. No. 52-10 and S.B. No. 2405, SD 2, HD 1, CD 1:

On motion by Representative B. Oshiro, seconded by Representative Evans and carried, Conf. Com. Rep. No. 52-10 and the attached proposed CD 1, on the disagreeing vote of the Senate to the amendments proposed by the House in S.B. No. 2405, SD 2, HD 1, entitled "A BILL FOR AN ACT RELATING TO TAXATION," were recommitted to the Committee on Conference.

SUSPENSION OF RULES

Contrary to the Order of the Day, Representative B. Oshiro moved to suspend the rules of the House to reconsider action taken in postponing indefinitely H.B. No. 444, HD 1, SD 1, seconded by Representative Karamatsu.

At 3:11 o'clock p.m. the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 4:29 o'clock p.m.

At this time, the Chair stated:

"Members of the House, and residents and family and friends in the Gallery, the Chair would like to state to all of you that we do believe in proper decorum. The Members don't want to hear verbal abuses or physical threats. You are all well-educated individuals out there, and I hope that will you listen and not cheer or go after Members, whatever happens today.

"For the Members of the House and for the people in the Gallery, let me say this. Our colleague Representative Blake Oshiro, the Majority Leader, made a motion to suspend the rules to reconsider action previously taken in indefinitely postponing action on House Bill 444, House Draft 1, Senate Draft 1. The second was done by Representative Jon Riki Karamatsu. For a motion of this nature, the suspension of the rules, there will be no debate. The Chair has decided that it will not be a voice vote because for the people who are in the Gallery, your advocates and supporters, it will be a roll call vote. So at this time the motion has been made. Is there any discussion on the motion to suspend the rules?"

Representative Pine rose and stated:

"Yes, Mr. Speaker. This is just to reconsider, and not any final vote on the issue?"

Speaker Say: "No, not yet. Just a suspension of the rules."

At this time the Chair called for a roll call vote and the motion to suspend the rules of the House to reconsider action previously taken in postponing indefinitely H.B. No. 444, HD 1, SD 1, entitled: "A BILL FOR AN ACT RELATING TO CIVIL UNIONS," was put to vote by the Chair and carried on the following show of Ayes and Noes:

Ayes, 34: Belatti, Berg, Bertram, Brower, Cabanilla, Carroll, Ching, Chong, Coffman, Finnegan, Hanohano, Herkes, Karamatsu, Keith-Agaran, C. Lee, M. Lee, Luke, Marumoto, McKelvey, Morita, Nakashima, Nishimoto, B. Oshiro, M. Oshiro, Pine, Rhoads, Saiki, Say, Shimabukuro, Takumi, Thielen, Wakai, Wooley and Yamashita.

Noes, 17: Aquino, Awana, Chang, Choy, Evans, Har, Ito, Magaoay, Manahan, Mizuno, Sagum, Souki, Takai, Tokioka, Tsuji, Ward and Yamane.

RECONSIDERATION OF ACTION TAKEN

Representative B. Oshiro moved that the House reconsider its action taken in indefinitely postponing action on H.B. No. 444, HD 1, SD 1, seconded by Representative Karamatsu.

At this time, the Chair stated:

"Any discussion Members of the House? Let me explain to the Gallery. This motion now is to reconsider action taken in indefinitely postponing action on House Bill 444, House Draft 1, Senate Draft 1.

"The previous motion, for the audience in the Gallery, was to suspend the rules. Does everyone get that? It was to suspend the rules of the House in order to take up the second motion which is to reconsider action taken in indefinitely postponing action on House Bill number 444, House Draft 1, Senate Draft 1. We had a second from Jon Riki Karamatsu. In this particular motion, Members of the House, there is a full debate."

Representative Ward rose to speak in opposition to the motion, stating:

"Mr. Speaker, I rise in opposition to the motion. Mr. Speaker, earlier I gave two reasons why the Fred Hemmings surfing bill should not be recommitted."

The Chair addressed Representative Ward, stating:

"Representative Ward, we are not addressing that issue at this point."

Representative Ward continued, stating:

"We're addressing a recommittal and the reverse of that, Mr. Speaker. But the two reasons why I spoke against that were the same as this one. First it's untimely, secondly it's unfair. Untimely, why? Mr. Speaker, it's time to go home. We're minutes away from adjourning. Why now? In January we had on this Floor this issue and it was voted down. Albeit it was silent and mysterious and democracy should be open, it should be transparent. And I commend the Chair that everything is going to be on the record, fully, completely and with a roll call. But Mr. Speaker, it's a very, very untimely, very, very untimely issue.

"Secondly, it's unfair. Mr. Speaker, unfair because this maneuver without public hearings, without recognition, even though I know there's been a lot of lobbying going on, is the equivalent of, I don't know if you ever played hockey, but as soon as the puck hits the ice everyone starts flailing away with their sticks. And what we're going to do to the community after this vote, no matter which way it goes, we're going to have a beehive of negativity for the next 6 or 8 months. And everybody's going to get hit with a stick. If you vote for same sex marriage, you're out of here. If you vote against it, you're out of here. Nobody's going to be safe. This is going to cause chaos in the community. It's not what we as 'legislators' are to do on the last day, before sine die. In fact, within the last hour, Mr. Speaker. So it's untimely, it's unfair, and I think this is not a wise move to take. Thank you."

Representative Finnegan rose to speak in support of the motion, stating:

"Thank you, Mr. Speaker. For the edification of the audience I will be voting yes on this second motion."

The Chair addressed Representative Finnegan, stating:

"We're going to have a roll call vote so there is no problem about making it known right now. Please proceed. But you're in support of the motion."

Representative Finnegan continued, stating:

"Thank you, Mr. Speaker. Mr. Speaker, when I had spoken about this issue before, I talked about walking away from our votes with peace. One way or the other, whatever you decide is your decision as legislators, and I think that that's what the previous speaker was talking about when he was doing the opposite of what I'm doing in a vote. He was talking about peace as well.

"Mr. Speaker, I feel at peace if we are to let the people who have come here on a daily basis, who have sat up there in the gallery, taken the time to talk to our offices, taken the time to write in newspapers or whatever. I feel at peace if we give them a straight answer. And Mr. Speaker, we have four motions here. And I believe that the loud and clear motion on where you stand will be made in motion number three. We are on motion number two, and that's why I'm voting in favor of this reconsideration. Thank you."

Representative Ching rose to speak in support of the motion, stating:

"Thank you, Mr. Speaker. I rise in favor of the motion. I think that when we are elected we know that our job is not easy. We're elected by the people to make sure that people do hold us accountable for what we believe and it's up to us to be able to just explain it. But it's important first of all, that our people trust us. And that our people know who we are, what we are. That is why it is hard. It is not the easiest job and I hope that people know that. And you hope that people sometimes, just agree to disagree. But you hope that you can agree on another matter that is important to the State of Hawaii. But I think that utmost, I agree with my colleague that people deserve, the voters deserve, the right to know where we stand, to know what we voted. And this is an important part of good government. Thank you."

At this time the Chair called for a roll call vote and the motion that the House reconsider its action taken in indefinitely postponing action on H.B. No. 444, HD 1, SD 1, entitled: "A BILL FOR AN ACT RELATING TO CIVIL UNIONS," was put to vote by the Chair and carried on the following show of Ayes and Noes:

Ayes, 34: Belatti, Berg, Bertram, Brower, Cabanilla, Carroll, Ching, Chong, Coffman, Finnegan, Hanohano, Herkes, Karamatsu, Keith-Agaran, C. Lee, M. Lee, Luke, Marumoto, McKelvey, Morita, Nakashima, Nishimoto, B. Oshiro, M. Oshiro, Pine, Rhoads, Saiki, Say, Shimabukuro, Takumi, Thielen, Wakai, Wooley and Yamashita.

Noes, 17: Aquino, Awana, Chang, Choy, Evans, Har, Ito, Magaoay, Manahan, Mizuno, Sagum, Souki, Takai, Tokioka, Tsuji, Ward and Yamane.

DISPOSITION OF MATTERS PLACED ON THE CLERK'S DESK

At this time, the Chair stated:

"Members of the House, ladies and gentlemen in the Gallery, the next motion that this Body will consider is the motion to agree to the Senate amendments to House Bill 444, House Draft 1, Senate Draft 1. So it's a four-motion process to get to Final Reading. Does everyone understand this, Members of this House?"

Representative B. Oshiro moved to agree to the amendments made by the Senate to H.B. No. 444, HD 1, (SD 1), seconded by Representative Karamatsu.

Representative Ward rose to speak in opposition to the motion, stating:

"Mr. Speaker. Somebody's got to go first right? Mr. Speaker, I rise in opposition. I didn't think that I would have to give this speech, but it is, and it's time to do so. Mr. Speaker, what I think we have to realize is that there's a precedent being set here that I'm not sure everybody realizes is totally understood or realizes what's going on. What I'm talking about is the issue of domestic partnership, civil unions, same sex marriage is a bundle of rights which everybody should have except for one thing that's going on, Mr. Speaker.

"As we look at this on a national level, even though it started here in 1993 when Judge Levinson made his declaration, it's an issue that the American people when given the choice have said, 'Hey you legislators, hey you courts, we don't want same sex marriage'. And I know people are going to stand up and say that this is not about same sex marriage. Mr. Speaker, I would refer you to essentially what has been going on in the mainland.

"Case in point is the courts in Connecticut have already said that their civil unions bill that they passed into law is separate and unequal to marriage. Does that sound familiar for those and many lawyers who are here?

"All of you remember Plessy vs. Ferguson, as long as you have separate schools for blacks and separate for white, as long as they're equal it's okay. And then after years and years of experience came Brown vs. The Board of Education. They said, even though it's separate, it is inherently unequal, and basically that's what the courts have ruled in Connecticut.

"Mr. Speaker, we are just about to enter on that slippery slope if we go to this part. And I know there's a lot of nice language where it says a partnership and it calls marriage something else, but it basically uses the same statute as the marriage statute. So, a rose by any other name is a rose, is a rose.

"So Mr. Speaker, I just want to know for those who are voting for this, let their eyes be open. Let them remember that in 1998 the people of Hawaii spoke. And as recent as December of 2009, SMS Research in a poll said, when asked the question between November 30 and December 1, do you strongly favor, favor, oppose, or strongly oppose a law that allows marriage between two persons of the same sex? 66% of respondents with an opinion answered opposed, or strongly opposed. Mr. Speaker, the numbers have maybe changed 2 or 3 percentage points over a decade.

"The people of Hawaii don't want it, and what we're doing is setting up the legal apparatus if you will, so we get basically Plessy vs. Ferguson, then we get Brown vs. The Board of Education and it gets struck down. And every place that it gets struck down Mr. Speaker, the people are the ones who say, 'Hey, nobody asked me.'

"So Mr. Speaker, if we in effect want to do this, let's go back to the people of Hawaii and let's say, 'Hey look. Do you want to have this? You don't want to have it?' But don't leave it to this Body because each time any Legislature in the country has done it, they have done it without the knowledge of the people, and then the people turn around and in 31 states have a constitutional amendment against it.

"Having said that Mr. Speaker, this is really, really untimely. It's like when you're at a wedding ceremony, you're about ready to get champagne and celebrate the marriage, and then for formality they say, 'Does anyone disagree with this or forever hold your peace.' And suddenly what otherwise was a wedding, and I'm not saying today was a wedding because we had a little bit of argument. But Mr. Speaker, this is where somebody's running up, and I forget the name of the movie, and plucking the bride out and running away with it and dividing two families big time. And that's what we're going to do to this community with this bill, with this vote. If we go further we're going to Plessy vs. Ferguson and then ultimately, Brown vs. The Board of Education. Thank you, Mr. Speaker."

Representative McKelvey rose and stated:

"Thank you very much. Mr. Speaker. Now is the time I think that it's most poignant for me to say my piece."

The Chair addressed Representative McKelvey, stating:

"You don't want to save it for Final Reading?"

Representative McKelvey continued in support of the motion, stating:

"No, because I agree with the Senate Amendments, and I think that's the crux of my thing. Members and the public, you know I voted against this measure when it left the House. The reason why I voted against this measure when it left the House was because in the name of ending discrimination, it discriminated in that only same sex couples could be afforded a civil union. What the Senate did was make it applicable to heterosexuals too. I disagree with my good friend from Hawaii Kai because I believe by doing that it takes it out of the realm of Plessy vs. Ferguson, for it is equal now. If my girlfriend and I want to have a civil union, then we can have a civil union.

"I think there was a letter to the editor of the *Star-Bulletin*. I tried to search for it, but I couldn't find it. It summed it up the best. The homosexual lifestyle is one that an individual chooses, but it's not for me. The bottom line is that people are entering marriage as if it was just a revolving door, Mr. Speaker. People get married, they get divorced. They get married, they get divorced. It's a mockery of the institution.

"To me, civil unions, especially that between a man and a woman, gives people the chance to really search within themselves to have that relationship. Then if they want to get married to make that promise before the greater being, forever and ever. Yes this will afford members of the same sex community the rights, contractual rights that they have so long afforded, but it also gives heterosexual members of the community a chance to enter into a relationship and to really explore whether or not they will hold the words, 'forever,' Mr. Speaker. I know I will suffer the slings and arrows of both sides for what I said today, but I believe that by having this Act equal to everybody, man and woman, that perhaps the institute of marriage will be restored to the sanctity that it once was.

"Anyway Mr. Speaker, I just say that I do support what the Senate did. I believe now it is truly fair, and I do think it takes it out of the realm of the Connecticut court ruling. Thank you, very much."

Representative Ching rose to speak in opposition to the motion, stating:

"Thank you, Mr. Speaker. I stand in opposition. I just wanted to say that I believe in the dignity of every person, every person under the heavens. And I believe that everyone, and I know that everyone is someone's son or daughter. I am a mother to a precious one. That everyone deserves dignity and love. I just do believe, I mean I am old fashioned and I'm the founder of the Heritage Caucus. I'm an old-fashioned person, and I believe in traditional marriage. Thank you."

Representative M. Oshiro rose to speak in support of the motion with reservations, stating:

"Mr. Speaker, I stand in strong support, but I do have some reservations however on section 3 and section 6 of the measure. I'll save the rest of my comments for Final Reading. Thank you."

At this time the Chair called for a roll call vote and the motion to agree to the amendments made by the Senate to H.B. No. 444, HD 1, (SD 1), entitled: "A BILL FOR AN ACT RELATING TO CIVIL UNIONS," was put to vote by the Chair and carried on the following show of Ayes and Noes:

Ayes, 31: Belatti, Berg, Bertram, Brower, Cabanilla, Carroll, Chong, Coffman, Hanohano, Herkes, Karamatsu, Keith-Agaran, C. Lee, M. Lee, Luke, Marumoto, McKelvey, Morita, Nakashima, Nishimoto, B. Oshiro, M. Oshiro, Rhoads, Saiki, Say, Shimabukuro, Takumi, Thielen, Wakai, Wooley and Yamashita.

Noes, 20: Aquino, Awana, Chang, Ching, Choy, Evans, Finnegan, Har, Ito, Magaoay, Manahan, Mizuno, Pine, Sagum, Souki, Takai, Tokioka, Tsuji, Ward and Yamane.

FINAL READING

H.B. No. 444, HD 1, SD 1:

At this time, the Chair stated:

"Members of this House, family, friends and residents in the Gallery, this is the fourth motion in the legislative procedural process and that is the motion to pass Final Reading."

Representative B. Oshiro moved that H.B. No. 444, HD 1, SD 1, pass Final Reading, seconded by Representative Karamatsu.

The Chair addressed Representative Ward, stating:

"Representative Ward, would you like to incorporate your comments on the motion to agree to the Senate Draft at this point in time?"

Representative Ward rose to speak in opposition to the measure, stating:

"Actually Mr. Speaker, there's something I left out of my other one. Mr. Speaker, in addition to being as I mentioned, with the equality in our schools, there's another argument that I think is missing. If this is really about equality and it's really about just getting a more comprehensive bundle of rights Mr. Speaker, we have reciprocal beneficiaries. That was the genius of 1998. That's the bill that exists now. If we really just wanted to do that as my colleague from Maui says, let's fill up the reciprocal beneficiaries all the way to the top.

"If the issue is just rights, if the issue is just benefits, we've got that already as a repository for every member in our community. It's for those who are of a particular sexual persuasion and of different persuasions. So Mr. Speaker, that to me is an alternative that's not being considered, but it's an option that should be mentioned because if it was all about rights and equality, that would have been filled up much before we do what we're in the process of doing.

"Again Mr. Speaker, this is going to be the 'tinder box' of the months to come. And for those of you who know that tomorrow's the beginning of when we take our legislative hats off and our governing abilities and we go out to the people of Hawaii, the vote in the next 5 minutes is going to have ripples, repercussions and serious implications for all of us. May God help us. Thank you."

Representative Tokioka rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. With all due respect, I'd like to vote no Mr. Speaker. Thank you, very much."

Representative Bertram rose to speak in support of the measure, stating:

"I support this motion and it's just very simple. When people would come into my office and ask if I was for civil unions I would say, 'No. I'm for civil rights.' And that's what all this is about. Thank you."

Representative B. Oshiro rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support. I will not take up any time. I just want to take this opportunity to sincerely thank this Body from the bottom of my heart. It means a lot to me that we're taking this vote today. I'm not sure what the outcome will be, but it does reaffirm my belief for why I'm here and what we are about. And so for that I thank you, I thank this Body, and I'd also like to submit written comments."

Representative B. Oshiro's written remarks are as follows:

"I am in strong support of HB444, an important bill about equality. Hawaii has a long history of diversity, acceptance and protection of civil and individual rights. This is another step in that continuum of doing the right thing, regardless of the timing because it is always the right time to do the right thing. While it has been mischaracterized as being about marriage and/or religion, that is inaccurate; the bill, its language, contents, purpose and intent is simply about how the government treats its citizenry and that as a state, the government should not discriminate, regardless of gender or sexual orientation.

"In 2009, thirty-three members of the House joined in co-signing HB444, Relating to Civil Unions. This bipartisan measure was a clarion call in support of equality. Now, nearly a year later, after two lengthy public hearings, multiple Floor debates, and discussion with community members – this measure is before us one final time.

"Earlier this year the House moved to indefinitely postpone this bill. The pulse of the majority of this Body indicated that the time was not right to take action. The immediate focus had to be on balancing our State's budget – sentiments echoed by constituents, as well as the Governor at the time. That difficult work has now been done, thanks to the remarkable work by the Finance Chair and the Finance Committee, and as Session draws to a close and after much time and consideration – we pause for a moment to reconsider HB444.

"For many in our State, there has been an expectation that the State would extend equal rights to same-sex couples following the Hawaii Supreme Court's 1993 decision (*Baehr v. Lewin*), and the subsequent action by our State to recognize reciprocal beneficiaries (RB). However, as we have seen over the years, the rights and privileges extended to RBs have not been on par with those extended to opposite-sex couples. In fact, of the 1781 laws governing marriage, only 172 govern RBs. Our vote today in support of HB444, which creates civil unions, seeks to correct this inequity.

"Article I, Section 5 of the Hawaii State Constitution states: 'No person shall be deprived of life, liberty or property without due process of law, nor be denied the equal protection of the laws, nor be denied the enjoyment of the person's civil rights or be discriminated against in the exercise thereof because of race, religion, sex or ancestry.' Members, this measure will address the constitutional injustice facing many couples in our State.

"Concerns have been raised regarding the bill's January 1, 2010 effective date. However, I would direct Members' attention to the Attorney General's memo dated November 25, 2009 (which I will submit to the Journal). In the memo, addressed to Senator Les Ihara, Jr., Deputy Attorney General Russell A. Suzuki states the following, "We advise that H.B. 444, H.D.1, S.D.1 would not be invalid because its effective date precedes the date that the bill becomes law. Such legislation is often referred to as retroactive or retrospective legislation. See Roe v. Doe, 59 Haw. 259, 581 P.2d 310 (1978)."

"As I have said in the past regarding this issue, there comes a time when we need to do our job and not simply worry about keeping our job.

"Members, today we are presented with the chance to right injustice. It is the right time for us to do the right thing and to do our job in passing this bill. As stated by Martin Luther King, Jr. "The arc of the moral universe is long, but it bends towards justice." Today, let us bend that arc a little further."

Representative B. Oshiro also submitted the following memo:

The Honorable Les Ihara, Jr.
State Senator, 9th District
The Twenty-Fifth Legislature
415 South Beretania Street
State Capitol, Room 220
Honolulu, Hawai'i 96813

Dear Senator Ihara:

Re: Effective Date of H.B. No. 444,
H.D. 1, S.D. 1, Relating to Civil Unions

By email dated November 11, 2009, you requested our advice as to whether it is necessary to further amend H.B. No. 444, H.D. 1, S.D. 1, by changing the bill's effective date from January 1, 2010, to a later date, such as January 1, 2011. We understand from the memorandum that you received from the Legislative Reference Bureau dated August 18, 2009, that your concern is that a bill might be deemed defective or invalid if an effective date precedes the date the measure passes and becomes law or that the bill might otherwise be subject to veto by the Governor.

We advise that H.B. No. 444, H.D. 1, S.D. 1 would not be invalid because its effective date precedes the date that the bill becomes law. Such legislation is often referred to as retroactive or retrospective legislation. See Roe v. Doe, 59 Haw. 259, 581 P.2d 310 (1978) ("While, therefore, it cannot be questioned that the legislature has the power to enact a retrospective law unless it contravenes some constitutional inhibition, it is also a recognized rule that retrospective laws are not favored and all laws will be construed as prospective unless the language employed imperatively requires a contrary construction.") Thus, the bill would not be invalid because its effective date precedes the date of its enactment. However, while the bill's validity would not be an issue, whether the bill is to be interpreted as being retroactive to the bill's stated effective date of January 1, 2010 or effective on the date

The Honorable Les Ihara, Jr.

the bill becomes an act would be brought into question. While section 1-3 of the Hawaii Revised Statutes provides that "[n]o law has any retrospective operation, unless otherwise expressed or obviously intended," it would appear that when a legislature enacts a law with an obvious effective date that precedes the date the bill is passed, that such a bill would be interpreted to be retroactive legislation.

For all intents and purposes, if this bill is passed with an effective date of January 1, 2010, there will be administrative problems that the Department of Health would face and civil union ceremonies would probably not be available until the Department of Health has developed the forms and procedures for obtaining the civil union license and persons who would be authorized to solemnize a civil union are licensed.

There are likely other practical problems that would result from an effective date preceding enactment, as well as from an "on approval" effective date that does not provide sufficient time for planning and implementation. That is presumably why this bill's drafters provided a six-month lag between the presumed adoption (mid - 2009) and the effective date (January 1, 2010). Such a lag makes sense from a policy perspective and to avoid litigation and uncertainty.

Should you have questions, please feel free to contact us further.

Very truly yours,

Russell A. Suzuki
Deputy Attorney General

Representative Takumi rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. In support. I think on this issue, as I mentioned to other colleagues, that when I got into office 18 years ago this was an issue that came up and it's been around with all of us for the last 18 years. I'm glad we're taking a vote on it. And whether or not it succeeds, the fact of the matter is we are voting, we are being held accountable, and I applaud the leadership for allowing this to happen. Written comments into the Journal with your permission. Thank you."

Representative Takumi's written remarks are as follows:

"Mr. Speaker, when I was first elected to office in 1992, little did I know that as a result of the Hawaii Supreme Court ruling on the Baehr v. Lewin case, I would soon be embroiled in a contentious social issue.

"Here we are 18 years later, and whether it's called same-sex marriage, domestic partnerships, civil unions or reciprocal beneficiaries, it still continues to divide our community, our families and, indeed, our Legislature.

"We've all gotten the e-mails, letters and phone calls. For or against, eloquent or crude, tolerant or bigoted, compassionate or indifferent, they reflect the best and worst in all of us.

"There are no easy answers. But I believe that there is a just answer. And that is the bill before us.

"All of us who are privileged to serve in this Chamber are here for one reason and one reason only: to make a difference. Now, we may disagree on how we go about resolving problems confronting our communities, but we all share the common value of wanting to make a difference in the lives of the people of Hawaii.

"Today, we can make a difference.

"There are those who say that voting in support of this measure will mean some of us losing in the upcoming election. This may very well prove true.

"But, Mr. Speaker, this is a small price to pay compared to the thousands of people out there who are denied the very same rights, benefits and obligations that most of us enjoy and are entitled to simply because of our sexual orientation. This is not right.

"Today, we can make it right.

"Finally, there are those who say that we shouldn't do anything given all the pressing issues that must be dealt with, and that this doesn't quite rise to the level of taking action.

"But rise it does, Mr. Speaker. Rise it does. And today, at long last, so must we."

Representative Karamatsu rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I'd like to insert written comments and I also would like to remind everyone on both sides of the argument to stay positive because so many times on so many issues, people have gone negative. I just want to keep reminding everyone that we're here to do the best we can and don't attack anyone, because my friends are also the ones who are saying no, too. So I just want to remind everyone of that. Thank you, very much."

Representative Karamatsu's written remarks are as follows:

"I rise in support. Since our existence, we as a human race have been very judgmental of others, especially a minority sector of people because of their sex, color of skin, ethnicity, religious beliefs, culture, behavior, and lifestyle. It is the majority of the people that decides what is acceptable for society, and often times the minority of the people get the short end of the stick.

"Our great State and country have come so far in regards to equality and compassion. In the past, we had laws that discriminated against every type of minority. We have done so much to correct our wrongful acts by changing our laws to be inclusive rather than exclusive.

"However, we still have much work to do in creating equality for all in our great State and country. In regards to the same-sex community, not all of our laws extend the same rights to them as we do for the heterosexual community. We as a society want people to take care of each other, rather than harm one another. This "civil unions" legislation would allow heterosexual couples and same-sex couples to enter into a contract. A civil union contract is like our marriage agreement under the law in which everything is shared such as tax liabilities, tax incentives, privacy, personal property, real property and children, and when there is dissolution of the partnership, everything shared is divided as equally as possible. The law protects each partner to be fairly treated.

"Keep in mind that we are not only allowing rights, but requiring responsibility on all partnerships. There are legal liabilities if partners do not care for each other. Too often, we hear of cheating, domestic violence, sexual abuse, fighting over money and property, and partnering because of financial greed. Our actions are the real threat to marriage or civil unions.

"This "civil unions" bill is a step towards unifying our State and country even further. We as a society must have love and compassion, rather than anger, hate, and discrimination. Let us try to eliminate or at least minimize our judgments on what we see physically before us. We are judging our fellow family, friends, and neighbors because they have a minority lifestyle. Let us look at this issue not only legally, but esoterically. Body is nothing more than emptiness and emptiness is nothing more than body. Rather than just looking at what is before us, let us look deeper and see the souls of others. One's soul can radiate love and compassion, or it can radiate hate and discrimination. Instead of judging others, we need to look within our own soul and better ourselves. Let us spread love and compassion and provide equality for all. Thank you."

Representative Marumoto rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in favor of this motion. I think all of us, all Americans believe in the right to life, liberty and the pursuit of happiness. And to me happiness is defined by a loving family and a faithful life partner, and I'm blessed with both. Sad is the person who has none of these. We would have a more contented populace and a better world if everyone had a large family, or at least someone. I don't believe our society will come crashing down if we pass this bill. It hasn't in Canada, and Mexico, and Spain, and other jurisdictions. Nothing is dearer to me, and to many of you here, than our family values. And because I believe we are all God's little children, for this reason I vote to enact civil unions. Thank you."

Representative Choy rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition. Mr. Speaker, I believe in traditional family values, and I think I'll save the rest of my remarks for written comments. Thank you."

Representative Choy's written remarks are as follows:

"Mr. Speaker, I stand in opposition of HB 444. The issue of civil unions will be debated for decades and there is really no right answer. I would have preferred to put this issue on the ballot to let the people decide, but even that suggestion is arguable.

"This issue is one of equal rights and not civil rights. Being an equal rights issue, it is our job to determine the parameters of equality for our society. We do this all of the time. For example, we put in place laws that limit the amount of speed we can drive on our highways. It's ironic that we place a speed limit of 55 MPH on our freeways, but allow cars to be built

that can exceed the limit by as much as three times. But I guess that's just the character of our society to give people the choice.

"The purpose of our laws is to set standards so people can determine whether they are in compliance with rules that are beneficial for all of our society. Marriage between one man and one woman is just such a rule. What we did today in passing HB444 was to abolish that limit. So let's ask ourselves what other limits should we augment or should we have any limits at all. History has shown that societies without limits no longer exist. History will judge us on this issue. I hope we guessed right."

Representative Souki rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition. However, I wish that at the end of this vote here that the healing process will begin for all. Thank you, very much."

Representative Morita rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in strong support and would like to submit written comments into the Journal. Thank you."

Representative Morita's written remarks are as follows:

"This bill is nothing less than a matter of civil rights and I support it for this reason. The Hawaii State Constitution is clear on our obligation to treat everyone equally under the law and it is sad that we have for so long denied a portion of Hawaii's population civil rights. I am glad this Body, in the final hours of the Legislative Session, has found the strength and courage to do the right thing, to pass this bill, to grant equality to same-sex couples.

"Opponents of the bill frame their opposition in terms that are either inaccurate, incorrect, or misplaced. I would be remiss if I did not take this opportunity to respond to, and correct, statements made today in this Chamber by some of those opponents. Aside from the religious context from which many civil unions opponents draw their objections, there are other, more insidious oppositional talking points that are simply not accurate.

"The most common point made, in my opinion, refers the vote taken in 1998 to amend the Hawaii State Constitution. There appears to be a common misunderstanding about what exactly the question was that was put to voters. In that year, the question was put to the voters to add a section to Article I (Section 23) of the Hawaii State Constitution to read as follows:

> The Legislature shall have the power to reserve marriage to opposite-sex couples.

"While the belief may have been that the amendment defined marriage as exclusive to opposite-sex couples, as it clearly states, the amendment does nothing more than give the Legislature the exclusive domain over the definition of marriage. So while the Legislature has the authority to define marriage in this way, it has not to this day done so, thus leaving the question open. What's more, despite how this section may read, it does not excuse the State from granting equal rights and protections as defined in Article I, Section 2, Section 3, and Section 5.

"So, despite the cries from civil unions opponents that, "the people have already spoken on this issue," is in fact not correct. All the people did in 1998 was remove the authority on this issue of the Judicial Branch of the State and place is solely under the purview of the Legislature.

"As stated above, there is a common theme from opponents claiming the people of Hawaii voiced their opposition and that the Legislature should not be taking it up again. To this point there are two additional points of clarification that need to be addressed here. First, as my colleague Representative Chris Lee stated so clearly, there is a whole new generation of young people, who have come of voting age since 1998, who feel very differently about this issue than do the bill's opponents. Recent polls have consistently shown that large numbers, if not the vast majority, of young people support not only civil unions, but full marriage equality. For the opponents to insist the Legislature should be forever silent on this issue because of a vote taken more than a decade ago strongly suggests they intend to ignore the clear fact that the demographics in Hawaii have changed since 1998 and an entire generation of voters have come of age.

"I do not mean to suggest here that this issue should be posed to voters. The Hawaii State Constitution clearly gives the Legislature the duty and authority to protect the equal rights of Hawaii's people. What's more, as this is quite simply an issue of equal rights, the will of the majority should not be given a voice here. Never should the will of the majority be allowed to subjugate or deny equal rights to a minority group. As Thomas Jefferson said, in his first inaugural address, "Bear in mind this sacred principle, that though the will of the majority is in all cases to prevail, that will, to be rightful, must be reasonable; that the minority possess their equal rights, which equal laws must protect, and to violate would be oppression."

"Secondly, it is important to point out the difference between HB 444, which is a bill allowing for civil unions for same and opposite-sex couples, and marriage. The bill makes clear that marriage will remain the exclusive domain for opposite-sex couples, while only granting, through civil unions, all the rights, responsibilities, and privileges granted under the State's marriage statutes. The very first sentence in the bill makes this point abundantly clear:

> The intent of this measure is to recognize civil unions in Hawaii. By establishing the status of civil unions in our State, it is not the Legislature's intent to revise the definition or eligibility requirements of marriage under Chapter 572, Hawaii Revised Statutes.

"Additionally, HB 444 allows for opposite-sex couples to enter into a civil union, instead of marriage, should they choose to do so. The bill's supporters understand the notion of equality under the law, which is why they supported an amendment to include opposite-sex couples, in addition to same-sex couples, as being eligible to enter into a civil union.

"Finally, I want to address the religious aspects of the opposition's talking points. Article I, Section 4 of the Hawaii State Constitution is explicit regarding the "separation of church and state:"

> No law shall be enacted respecting an establishment of religion, or prohibiting the free exercise thereof….

"Despite what some may believe, or wish to be true, Hawaii is not a Christian State, nor a religious state of any kind and the Legislature should not and cannot make laws or deny rights protected by the Hawaii State Constitution simply because doing so might be contrary to the beliefs of some. It is also important here to point out that this bill would not, under any circumstances, abridge the free expression of religion by churches who chose not to perform ceremonies for same-sex couples. Churches and priests at such churches will not be forced by this, or any other law, to perform a religious ceremony that is contrary to their faith.

"In closing, I want to thank Majority Leader Blake Oshiro and Representative Jon Riki Karamatsu for refusing to give up on this issue and lifting HB 444 from the darkness of an indefinite deferral, where it was certain to have otherwise remained.

"I also urge Governor Linda Lingle to live up to her campaign promise and support equal rights by allowing this bill to become law, with or without her signature. Mahalo."

Representative Brower rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Mr. Speaker, I just would like to read a quick sentence and this is from the Waikiki Neighborhood Board when it adopted it's family equality resolution stating that civil unions have been recognized nationally and internationally as a compromise measure that protects a definition of marriage as being solely between a man and a woman while allowing family equality protection before the law for all couples whether they are same or opposite sex.

"On this issue, I have my personal beliefs. But I also have my beliefs that I think I need to take as a Representative for my district, and going

over a lot of information provided to me by constituents. That is truly why I support this measure. Thank you."

Representative M. Oshiro rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise in support with some reservations. Just so that everyone knows, my reservation is with the current Senate Draft, section 3, civil unions void. I think that particular section that was put in as a floor amendment by the Senate is inartfully drafted and it may create problems of interpretation and application in the pursuit of this particular civil unions bill. I just would like to register that in a public forum.

"My other concern Mr. Speaker, is that this particular draft before us still contains the effective date of January 1st, 2010. I believe the Attorney General has already opined that in and of itself, it might not be a fatal defect, but it might give pause to the Governor to have a technical reason for vetoing this particular measure. Those are my two reservations.

"But the third point I think most important this evening Mr. Speaker, is to thank you and your leadership team for giving us the ability to take care of business this Session. And as your Finance Committee Chair, I told the community at large and I told this Caucus that first order of business was dealing with the $1.2 billion shortfall, and indeed we have completed that assignment and duty as of yesterday. So the timing of this matter is appropriate for us to take up this Session, and I thank you for giving me the indulgence to take care of business first with the budget, the budget bills, and to make sure we had a balanced financial plan. I thank you.

"I'd also like to thank the Majority Leader. Mr. Speaker, twice I had the privilege of serving as the Majority Leader of the Democratic Caucus and I know how hard he has worked in that position. How so many times he had to put aside his own interest, and his own passions, and his own vision of what Hawaii should look like. I really appreciate that because it takes a special person to be able to do it Mr. Speaker. It takes a very special individual. So I'm really proud to be associated with the Representative from Aiea who shares my same name, and just thank you Mr. Speaker and thank him for being here today."

Representative C. Lee rose and stated:

"Thank you, Mr. Speaker. In the last public vote back in the 1990's I was not yet old enough to vote. Yet today here I am and people who are 11 years younger than I are now able to. So for our generation, and it's on everyone's behalf who was not able to vote the last time around that I cast my vote today. Thank you."

Representative Awana rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Mizuno rose to speak in opposition to the measure, stating:

"Mr. Speaker, I stand in opposition to this motion. But I'd like to share a message to church members and to members in the gay community. Don't change your heart. Show a lot of respect and love to others, and no matter what happens it's going to be okay. Thank you, Mr. Speaker."

Representative Har rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. Respectfully in opposition, and may I request permission to enter comments into the Journal."

Representative Har's written remarks are as follows:

"Mr. Speaker, I rise in opposition to HB444, H.D.1, S.D. 1. By bringing this bill up with no warning to the public on the last day of the Legislative Session, I believe we are demonstrating that we are not listening to the voice of the people here in our State and are ignoring their overwhelming desire for us to focus on other issues this Legislative Session.

"I have heard from the constituents I represent in the 40th District, and it has been made very clear to me that the vast majority are opposed to this measure. Accordingly, I will cast a 'no' vote on this bill, as I believe I was sent here to represent the will of my constituents and not to pursue my own personal agenda. Thank you, Mr. Speaker."

Representative Ching rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in opposition to H.B. 444 – Relating to Civil Unions. In this last minute action, the voices of a 70% majority were ignored.

"Second, throughout the 1990's, our community engaged in an emotional, decade-long debate over the legalization of same-sex marriage. The Legislature, for its part, had amended HRS§572-1 to clarify that marriage *"shall be only between a man and a woman[.]"* The Legislature also passed a Reciprocal Beneficiary law where it expressly found that *"the people of Hawaii choose to preserve the tradition of marriage as a unique social institution based upon the committed union of one man and one woman."*

"Ultimately, the decision was put to the public in the form of a constitutional amendment. On November 3, 1998, the people of Hawai'i overwhelmingly made their voice clear on this matter and decided that "the Legislature shall have the power to reserve marriage to opposite-sex couples." Hi. Const. 1-23.

"In July of 1997, the Legislature enacted the Reciprocal Beneficiaries law (Act 383) providing reciprocal beneficiaries with hospital visitation, insurance benefits and property and inheritance rights. This bill is unnecessary.

"When a controversial law such as H.B. 444 comes to this Body we must look to the people of Hawaii for guidance and take into account what they have to say. To find out what the people of Hawaii have to say on H.B. 444 we need not look any further than their vote in 1998 on this very same issue, where an overwhelming 70 percent of Hawaii's voters voted in favor of traditional marriage. As elected members of the State of Hawaii Legislature, it is our responsibility to uphold past electorate decisions. Our State and country are facing an economic crisis of epic proportions. We should focus on solving our pressing economic problems rather than using our limited resources to redefine marriage contrary to the express will of the people. Thank you."

Representative Yamane rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Yamane's written remarks are as follows:

"Mr. Speaker, I rise in opposition. I would like to state that I do support the civil rights for all people and express that I have personally worked with many people who do support this measure. As a social worker, I have fought discrimination and worked with clients dealing with the hate and persecution of others.

"My opposition is that this bill will affect many families and all of the population within our State. Mr. Speaker, to recognize civil unions in our State is a significant social issue, one that should be brought to the people of our State to decide and vote on. In 1998, the State Legislature set precedence on the issues pertaining to civil unions and marriage by allowing the people to vote. Since the people voted on an issue similar to this in 1998, I believe that the people should be provided the same opportunity to vote on this measure. I fully support allowing all people equal protection under our Constitution. However, in respect to the 1998 vote made by our electorate, I believe that the term "marriage" should remain as is and separate from the description of a civil union.

"Additionally Mr. Speaker, I would like to state for the record that this bill has a flawed effective date establishing that this policy begin and become effective on January 1, 2010. Members, we are all aware that a policy like this, House Bill 444, will bring significant changes to our society. Today we are well passed the January 1, 2010 date this bill refers

to. Passing significant legislation with this retroactive effective date will pose a myriad of problems for our State and further pressure our already limited State resources.

"Mr. Speaker, as the Chair of the Committee on Health, I along with my Committee members oversee the administration of the State Department of Health. A policy like this will need an effective date several months from now to enable the Department of Health to administratively prepare the legal documentation and procedures to legally recognize and implement civil unions in this State. To establish a law with such a significant social impact using this current effective date as written would overload the Department, especially during a time when the Department of Health has suffered from layoffs and furloughs.

"There is much anger and confusion on what this bill does and how it passed both of the houses of this Legislature; and today because of this overt anger, confusion, and haste action, I vote in opposition to this measure. I look forward to the opportunity to hear from our communities and discuss what needs to be done in order to equally protect all of our populations under our Constitution."

Representative Keith-Agaran rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Keith-Agaran's written remarks are as follows:

"Thank you, Mr. Speaker. I support HB 444. As I wrote in remarks to the House Journal last Session, whether or not we personally believe that same sex relationships are consistent with our moral or religious beliefs, we cannot ignore the fact that we have gay and lesbian neighbors in same-sex relationships in the communities we live in. I appreciate that two-thirds of my colleagues on both sides of the aisle are giving all of us an opportunity to bring this matter to a final, open vote by suspending the rules and bringing HB 444 back for a vote.

"As my Big Island colleague and fellow freshman legislator points out, we swore an oath to uphold the Hawaii State Constitution which enshrines and echoes the words of our country's Founding Fathers: that all Hawaii residents are created equal and entitled to certain "inalienable rights": "the enjoyment of life, liberty and the pursuit of happiness." Haw. Const. Art. I, Sec. 2. Further, our Constitution also requires: "Equality of rights under the law shall not be denied or abridged by the State on account of sex. The legislature shall have the power to enforce, by appropriate legislation, the provisions of this section." Haw. Const. Art. I, Sec. 3.

"I still support this bill, as amended by the Senate to extend Civil Unions to all couples, for human compassion and social justice reasons. I remain convinced that encouraging all our citizens to form marital relationships – even if we must call them something else, and even as we continue to limit the legal term "marriage" and the federal and state rights and obligations associated with marriage to opposite sex couples in Hawaii law – is sound public policy and consistent with our shared history as Americans and our basic American value of equal justice under the law and fair application of our laws.

"As my West Maui colleague has pointed out, for all the hand-wringing and rhetoric about preserving "traditional marriage," too many enter marriage lightly in our country today. As I've observed before, preventing same gender legal relationships has little to do with determining or influencing whether a person's heterosexual marriage is succeeding or not. I believe in marriage and the values of devotion, fidelity and commitment inherent in the relationship. But I know that the strength of my relationship with my spouse depends more on how well I relate to her and the time I spend with her than how my neighbor relates to his or her own significant others. If we want to talk about protecting marriage, we need to work on issues that strain our relationships – an economy that requires both partners and parents to work and often to work two or more jobs, a culture that values narcissism and acquisition and living beyond our means and the means of our islands to support that lifestyle, and an assumption that we need to and can blame others for the problems we face in our own lives.

"As I suggested last Session, marriage benefits our society precisely because any civil benefits conferred on couples are conditioned upon the solemn promises of spouses to mutually meet very specific responsibilities to each other. Marriage is a sacrifice of our individualism and our personal selfishness – in my religious tradition, we believe that marriage unites two people as one. I certainly believe that remains good for people to be in relationships to love, honor and respect each other, and where there are socially enforced and legally supported rights and obligations.

"The late William Sloane Coffin once observed:

> It is not Scripture that creates hostility to homosexuality, but rather hostility to homosexuals that prompts some Christians to recite a few sentences from Paul and retain passages from an otherwise discarded Old Testament law code. In abolishing slavery and in ordaining women we've gone beyond biblical literalism. It's time we did the same with gays and lesbians. The problem is not how to reconcile homosexuality with scriptural passages that condemn it, but rather how to reconcile the rejection and punishment of homosexuals with the love of Christ. It can't be done. So instead of harping on what's "natural," let's talk of what's "normal," what operates according to the norm. For Christians the norm is Christ's love. If people can show the tenderness and constancy in caring that honors Christ's love, what matters their sexual orientation? Shouldn't a relationship be judged by its inner worth rather than by its outer appearance?

William Sloane Coffin, Credo: 39 (2004). Further, "[t]he assertion that gays threaten to destroy heterosexual marriage is an assertion only, not an argument. If anyone destroys marriage, it's married people, not gays." W.S. Coffin, Credo, p. 41.

"So I am compelled to vote in favor of letting people make a legal commitment to the person they love. I know that the success of my own marriage will continue to depend on the love I pour into it more than whether we as a community, and today as a Legislature, exclude other citizens from entering into a similar kind of union.

"I urge my colleagues to vote in favor of equality and fairness, and in favor of the bill."

Representative Wooley rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Wooley's written remarks are as follows:

"Mr. Speaker, I am in support of this bill. I believe it is time for us to move forward. If we fail to act, if we fail to pass this bill, we will allow the State government to continue to discriminate against one minority group in violation of our State Constitution, a Hawaii Supreme Court case, and our commitment to treat people equally under the law. And as I have heard from many constituents, if this bill does not become law, the State will cause some families and some children to be treated differently, to be discriminated against and given fewer rights, simply because of who they are and what people in their family may believe.

"There have been and continue to be many inaccurate statements about this bill. For that reason, I want to emphasize the following: this bill does not sanction marriage or define marriage to allow for same sex couples. Currently, in the State, marriage is between a man and a woman. This bill does not change that.

"This bill simply makes clear that the State government will not sanction unequal treatment of people. The government will not grant special privileges to only some people, based on their sex, sexual orientation, race, ethnicity, or religion.

"This bill, like so many, is not perfect. It is a compromise bill. This issue has divided families, churches, communities, and the House itself. My job, however, is not to just vote on the easy, uncontroversial bills. My job is to represent my constituents and vote my conscience.

"Mr. Speaker, we are about to make a very important vote and policy decision. I am proud and very privileged to be here for this vote, and to

show my willingness to stand up against discrimination. Though some will claim the bill does not go far enough, and others will rally because it goes too far, I believe time will show us that this is the right bill to pass, and it is past due.

"Mahalo Mr. Speaker, and Majority Leader, for allowing us to take this vote."

Representative M. Lee rose in support of the measure and asked that the remarks of Representative Marumoto be entered into the Journal as her own and asked that her written remarks be inserted in the Journal, and the Chair "so ordered." (By reference only.)

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I rise in support. We did not plan to be voting on this today, however that we are doing so is the right thing to do.

"I voted in favor of HB444 in the past because I see no reason why same gender couples should not have the same access to equal rights and quality of life as others.

"I see this as a good thing for our society, which seems to have changing attitudes on issues such as civil unions. My own four children support civil unions and would be proud of my positive vote.

"Stable relationships lead to a healthy society and this is one step in that direction. I believe we live in a state where we can be tolerant and respectful of each other's rights, even though there may be differences in our race, religion, culture, age or sexual identity."

Representative Sagum rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Sagum's written remarks are as follows:

"Mr. Speaker, I rise in opposition to HB444, Relating to Civil Unions. We live in a State where we can, and should be tolerant and respectful of each others' rights, even though there may be differences in our race, religion, culture, age or sexual identity. The issue of Civil Unions, to a great number in my community, is not viewed solely as a civil rights issue, but rather perceived negatively as one that erodes the sanctity of marriage, and therefore the erosion of the family.

"During the Regular Session of 1997, the Hawaii Revised Statues was amended with the addition of a new Chapter entitled "Reciprocal Benefits". The purpose of this Chapter is to extend certain rights and benefits which are available only to married couples composed of two individuals who are legally prohibited from marrying under State law.

"I would prefer that the Legislature address any additional "Civil Union" rights and benefits by strengthening the reciprocal benefits law cited in Act 383, Session Laws 1997."

Representative Coffman rose and stated:

"Thank you Mr. Speaker, I just want to remind this Body that our Constitution states that our government must treat all individuals equally and fairly. I just want to quote one part of the Constitution, Article I of the Bill of Rights in Section 3 of the Hawaii State Constitution states and I'm going to quote, 'Equality of rights under the law shall not be denied or abridged by the state on account of sex. The Legislature shall have the power to enforce by appropriate legislation the provisions of this section,' and I believe that's what we're doing today, Mr. Speaker. Thank you."

Representative Luke rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support and may I request that my remarks from the first go around last year be inserted as my remarks. Thank you," and the Chair "so ordered." (By reference only.)

Representative Manahan rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Aquino rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Nakashima rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Nakashima's written remarks are as follows:

"Mr. Speaker, I rise to speak in favor of this important, landmark legislation.

"One of the guiding principles of our nation and State is that all people are created equal. In order for this sentiment to truly be demonstrated, all people should be treated the same in the eyes of the law. This important legislation ensures that all people, regardless of sexual orientation, have access to the same rights and privileges. This bill is not a statement of support or opposition of same sex marriage; it simply creates a new chapter within the law that recognizes the commitment between two people, regardless of gender.

"I would like to thank our Majority Leader, the good representative from the 33rd District, who has worked tirelessly towards achieving equal rights for all couples.

"Thank you, Mr. Speaker. I urge you and the rest of our colleagues to support this measure."

Representative Finnegan rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker, in opposition with my comments from Third Reading in the House last year," and the Chair "so ordered." (By reference only.)

Representative Berg rose in support of the measure and asked that the remarks of Representatives Marumoto and Coffman be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support and may I have my words from the last motion entered into the Journal again, and also the words of the Representative from Waikiki."

Representative Ward rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ward's written remarks are as follows:

"Mr. Speaker, I am presenting these additional written comments in opposition to HB 444, Relating to Civil Unions. My opposition is multi-faceted, and I will explain each of my reasons in detail. However, ultimately, I believe this legislation is not in the best interest of the State of Hawaii and its citizens, and I encourage the Governor to veto this measure when it comes to her desk.

"The first reason for my opposition is a legal concern that this bill allows civil unions, but does not allow for their dissolution. The bill as written purports to grant partners to a civil union all of the "rights, benefits, protections, and responsibilities under law [...] pursuant to chapter 572," which is the chapter in the Hawaii Revised Statute that deals with marriage. However, nothing under Chapter 572, nor this bill, accounts for how to leave a civil union. For a marriage solemnized under Chapter 572, Chapter 580 would be the chapter that deals with annulment or divorce. There is no such reference or provision in House Bill 444, House Draft 1, Senate Draft 1 (HB 444).

"The bill, therefore, presumes a faulty premise, that partners in a civil union choose to, and will, stay in that civil union forever. Reality is that marriages and civil unions or reciprocal beneficiaries change and dissolve over time. A granting of rights, such as envisioned under HB 444, would

have the unintended consequence of making permanent certain choices under this law.

"For instance, the granting of rights under Chapter 572 would allow partners in a civil union to have survivorship rights in a State pension. Because there is no grounds for the termination of the civil union, a surviving civil union partner would be entitled to the decedent's State pension benefit, even if the surviving partner had a falling out, or did not want their partner to vest in that benefit. A similar situation would occur under our State's workers' compensation laws as well.

"Another legal conflict comes about because of the lack of federal recognition of civil unions as equivalent to marriage, especially in the tax law area. Partners in a civil union could, in theory, take advantage of our State's probate and intestate laws to bequeath assets to their surviving partner as if they were a surviving spouse. If those assets comprise a taxable estate, while the property may pass, the federal government would still impose a federal estate tax (post-2010) and not grant a marital deduction as would be available to married couples.

"A different type of federal conflict may arise in the health benefits arena. The federal government is a large employer within the State, and it is probable that a federal employee that is a resident of Hawaii would likely wish to extend federal health benefits to a partner in a civil union, especially if the other partner is unemployed. Because the federal government does not recognize civil unions, the federal employee may not be able to accomplish securing health benefits for their partner.

"Another major concern is the January 1, 2010 effective date of the legislation which means HB 444 will have retroactive effect. While the constitutional defectiveness of such an effective date can be debated, what is clear is that the retroactive date of the bill will pose an administrative nightmare for the Department of Health.

"First, the Department of Health is not ready to implement HB 444 nor has funding been set aside for this function. Forms will have to be reprinted to accommodate this new law, both for the persons seeking to join in a civil union and those having to receive licenses to solemnize civil unions.

"Second, the Department of Health will have to administer a retroactive law, something any Department would be ill equipped to do. Record keeping and cataloging would become nearly impossible, and would likely require extra manpower to accommodate. If anything, the Department of Health has less manpower than in the last fiscal biennium due to furloughs imposed by the Governor, and agreed to by the Legislature.

"Third, there would likely be a rush to enter into civil unions because, quite frankly, it is a better deal than the reciprocal beneficiary law as it is currently written. That rush would exacerbate the first two points under this section due to those dissolving a reciprocal beneficiary arrangement, which requires paperwork processed by the Department of Health, and entering into a civil union, which also requires yet-to-be created paperwork by the Department of Health. Because the costs of HB 444 were not taken into account when appropriations were made for the Department of Health, the cost of implementing HB 444 through the Department of Health would have to be done with existing resources, meaning other Department of Health functions would have to suffer.

"Another financial concern is that those that enter into a civil union will now be able to avail themselves of the State income tax advantages that are currently available to married persons. This represents a heretofore unknown negative revenue impact to personal income tax levels.

"Because this was not incorporated into the Executive's 6 year Financial Plan, the House Minority Caucus' Financial Plan, nor the nonexistent Majority Caucus' Financial Plan, there is no way to know how much HB 444 would throw the balances of the out years out of whack. In other words, HB 444 may necessitate a general excise tax increase, continuation of Furlough Fridays, further program cuts, or a combination of all three.

"This is clearly an unacceptable outcome that was exacerbated by the fact that HB 444 was not referred to the House Finance Committee or the Senate Ways and Means committee to determine the fiscal impact of such legislation. In a year where critical attention needed to be paid to the State Budget, where every decision by both Chambers and the Executive Branch was scrutinized and criticized, to not comment or hold public hearing or even to ask what the fiscal impact of HB 444 would be on the State Budget is the height of irresponsibility, and borders on a dereliction of the legislative duty.

"Yet another financial concern is that those that enter into a civil union where at least one partner is an employee of the State or a county could now avail themselves of health benefits under the Employer-Union Health Benefits Trust Fund (EUTF), representing an additional cost to the EUTF. On April 12, 2010, a letter was transmitted to the Chairs of the House Committee on Labor & Public Employment and the Senate Committee on Labor, with courtesy copies to the Speaker of the House and the Senate President, detailing the insolvency of the EUTF. In that letter, it is clearly stated that because of the current governance situation, the State will be unable to provide medical benefits to its employees in the near future.

"Implementation of HB 444 will only exacerbate and accelerate the demise of the EUTF, and health benefits for State employees whether they belong to a civil union or not. This is also an unacceptable outcome.

"Furthermore, the same situation faced by EUTF will be faced by our private employers. Due to our Prepaid Health Care Act, a partner in a civil union will now be able to secure family insurance from their private employer. This will represent an unknown and unbudgeted cost impact for private employers, the backbone of our economy. The policy call of this Legislature and the Executive branch was to help private employers as a means of addressing unemployment and helping resuscitate our economy. That was the reason for such measures as the bill to relieve the pending unemployment insurance increases faced by private employers. Implementation of HB 444 would simply eradicate any savings created through that bill, and would once again exacerbate unemployment in the private sector due to increased health care costs.

"Again, these financial concerns should have been brought to the Finance Committee for review. In the last two years on Finance Committee, we have reviewed everything from tax increases, to land zoning, to jet ski permits because it was the practice of this Legislature in a time of economic crisis to be extra careful about any bill with a fiscal impact. Yet, this bill which changes so much more than the renewal of a jet ski license never got a finance hearing. I can only assume that the single referral of this bill to the Judiciary committee was done to avoid public hearings and speed up the passage of the bill which is shameful for a Body that is supposed to represent the people of Hawaii.

"Of course, the single referral of HB 444 is just one among the many manipulative and deceptive actions taken by Members of the House of Representatives to pass this bill. In January, when we tabled HB 444 we were told that it would take a 2/3 majority to bring the bill back to the Floor. According to the rules, it should have taken a 2/3 majority, but as I have since realized, it only takes a simple majority to change the rules. Mr. Speaker, aside from the neglect of public notice and other rules that were suspended to pass HB 444, I strongly object to the change in the number of votes required to bring this measure to the floor. Regardless of the subject matter of the bill, I believe it sets a bad precedent for other governing bodies who can now say if you don't have the votes all you have to do is change (i.e. "suspend") the rules. Mr. Speaker, this action goes against the very principles of democracy and undermines the faith that the citizens of Hawaii have in their Legislature. It is unthinkable that a rule-making body would show such little respect for their own rules.

"Mr. Speaker, HB 444 is a monumental bill regardless of which side you view it from. This Legislature should not have broken its House Rules and rushed a bill with obvious flaws through the legislative process. We should have given it much more time in the public eye. Increased hearings and more public notice would have taken up our time as legislators, but it is what we are elected to do. But, unfortunately, HB 444 has revealed that the majority of this Body is content to neglect their duties when it is most beneficial for their political careers. At the beginning of this Session, HB 444 was killed silently by a vote that did not tell the public where their Representatives stood on this issue. At the time, it was said that no one

wanted to take a vote in an election year, and thus, the public was left not knowing where their elected officials stood on the issue. Now, the public knows where each of us stands, and they can act accordingly.

"In light of my arguments outlined above, particularly in regard to the neglect this Body has shown toward democracy and the citizens to whom we swore we would uphold the principles of democracy, I am reminded of the words in the Declaration of Independence which state that "it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to affect their Safety and Happiness."

"Mr. Speaker, we have let down the people of Hawaii and the democratic process. If the people of Hawaii want the contents of HB444 to become law, we should ask them again in a plebiscite on the issue instead of doing what we did in the 2010 Legislative Session. Let the people be the final arbitrator of this decision, not us. We are all up for reelection this year so the plebiscite will be on us instead - and if what we did this session no longer represents the will of the people, it is the right and duty of the people to change those who represent them.

"Thank you, Mr. Speaker for this opportunity to add written comments."

Representative M. Oshiro rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Oshiro's written remarks are as follows:

"Mr. Speaker, I rise in support of House Bill No. 444, Senate Draft 1, Relating to Civil Unions, although with some reservations.

"This bill would recognize, and establish the status of civil unions in Hawaii, and entitle persons who enter into a civil union the same rights, benefits, protections, and responsibilities under law as are granted to those who contract, obtain a license, and are solemnized under Hawaii's marriage law.

"Although I support the intent and purpose of this bill, I have some reservations on the particular language found in the Senate Draft 1.

"First, regarding §-3, found on page 2, this section would void civil unions between persons who are related to one another. It should be noted that under Hawaii's Reciprocal Beneficiaries Law, Chapter 572C, Hawaii Revised Statutes, related persons are not prohibited from entering into a reciprocal beneficiary relationship. Pursuant to Act 383, Session Laws of Hawaii 1997, the Legislature asserted that related persons such as a mother and son, or father and daughter, or brother and sister, who are prohibited from marriage would still receive some of the benefits of marriage, but not all, to support their caring relationships. It was recognized that in Hawaii many generations of families typically provide lifelong care and companionship to their aging parents and siblings and this practice was valued by our society and deserved the protection and support of State laws. Conceivably, under House Bill No. 444, Senate Draft 1, persons who are related and are in a reciprocal beneficiary relationship would be prohibited from entering into a civil union relationship under this bill.

"My concern is that should a related couple in a reciprocal beneficiary relationship be barred from entering into a civil union, one could argue that this prohibition denies the related couple equal protection under the law because of the couple's familial relationship. To deny the equal protection of law on the basis of one's "creed" would invoke strict scrutiny upon challenge and require a compelling state interest to allow the restriction to stand. I cannot imagine a compelling state interest that could overcome that burden and therefore, the enactment of this bill could potentially set the entire Civil Union law up for constitutional challenge. After all, if we remove the irrelevant issues of sexual conduct and practice from the discussion of equal rights for all of Hawaii citizens one would be challenged to find a compelling reason for this distinction based upon one's familial relationship and standing.

"I find it ironic that in this measure to address the civil rights of same sex couples we may be passing legislation supporting discrimination against and seemingly condoning the unequal status of reciprocal beneficiaries whose relationships prohibit them from marriage. And, truth be told, this may not be a mere academic exercise or hypothetical question for a constitutional law exam. According to the Department of Health, there are currently about 1,300 persons registered in reciprocal beneficiary relationships in Hawaii. Presumably many are between persons of the same-sex, but there are probably others between child and parent, or sibling. The Department of Health does not keep records of the gender composition of the reciprocal beneficiaries, but it would not be unreasonable to have a substantial number of non-same-sex partners affected by this new law. As such, I find this provision inconsistent with the fundamental principle of equal protection and equal treatment under our laws. Future Legislatures should review and reconcile the provisions of Section 572C, Hawaii Revised Statutes, with the provisions of House Bill No. 444, Senate Draft 1, so that it comports with the equal protection provisions of both the State and Federal Constitutions.

"Second, regarding the effective date of January 1, 2010, the Attorney General has already opined that making this law retroactive to the beginning of this year may give sufficient cause for the Governor to veto this bill on technical grounds. In particular, I adopt as my own remarks and for placement herein the Floor remarks of Senator Les Ihara dated January 22, 2010, wherein he eloquently articulated the legal concerns regarding the Attorney General's opinion and the Attorney General's unsolicited commentary on whether Governor Lingle would veto the measure. It is truly unfortunate that the amendment failed by a 15 to 10 vote, and we in the House did not take up a similar amendment as it would have foreclosed a technical excuse for a Governor's veto and taken away an excuse of taking a position on the important underlying public policy issue.

"Despite these concerns, I support this bill.

"I am reminded of the words of U.S. Supreme Court Justice Sandra O'Conner, who wrote in *Lawrence v. Texas*, 539 U.S. 558 (2003):

"Moral disapproval of a group cannot be a legitimate governmental interest under the Equal Protection Clause because legal classifications must not be 'drawn for the purpose of disadvantaging the group burdened by the law.' Id., at 633. Texas' invocation of moral disapproval as a legitimate state interest proves nothing more than Texas' desire to criminalize homosexual sodomy. But the Equal Protection Clause prevents a State from creating 'a classification of persons undertaken for its own sake.' Id., at 635. And because Texas so rarely enforces its sodomy law as applied to private, consensual acts, the law serves more as a statement of dislike and disapproval against homosexuals than as a tool to stop criminal behavior. The Texas sodomy law 'raise[s] the inevitable inference that the disadvantage imposed is born of animosity toward the class of person affected." Id., at 634."

"I believe this House is applying this same principle through the passage of House Bill No. 444, Senate Draft 1. We are standing on the principle that moral disapproval alone cannot, should not, and will not be reason enough to deny any group of citizens the equal protection of our laws. In other words, whether one accepts or detest same-sex relationships in all its variations or opposite-sex relationships in all its variations as well, the laws of the land must be applied equally regardless of race, age, religion, or creed. To do otherwise condones the removal of basic rights from any minority whenever the views or actions are not in line with that of the majority.

"Our laws are intended to treat everyone equally -- especially for those who are unpopular or even detested. Can we imagine that at one time in our Nation, it was illegal to marry across racial lines? Less than fifty years ago, an African-American and Caucasian could not marry in some states. Indeed, if Hawaii had a law like this, President Obama would not have been born.

"As absurd and unthinkable as these laws were by today's standards, they were the laws of the land and these laws were deemed constitutional

by the Nation's highest court. These were the laws that denied thousands of people their fundamental right to enter into personal relationships. Today, laws which restrict the benefits of "marriage" to only opposite-sex couples do nothing more than allow the majority to impose their animosity toward a smaller class of persons with whom they disapprove. With the passage of House Bill No. 444, Senate Draft 1, we are correcting this discrepancy for the protection of all.

"In closing, it is with great respect and admiration for the Speaker of the House and the Majority Leader that I so reluctantly cast my vote with reservations. But, my concerns with this measure are well known within the Body and are but my honest legal analysis and opinion. I have not one iota of displeasure at the means employed to bring this bill to vote nor of the timing of this bill's passage and disapproval for it being approved today should not in any way be inferred by my friendly criticism and candid remarks. To the contrary, I applaud and congratulate the Speaker and Majority Leader for allowing a public vote on this contentious and divisive issue, but only after the Supplemental Budget bill was unanimously passed and relevant revenue bills were resoundingly approved over the Governor's vetoes. Despite the odds and detractors, we held true to our mission and principals. This is a great day for all of us.

"Finally, I wish to reaffirm my commitment to my Wahiawa community and especially my Christian brothers and sisters, that they not be anxious or alarmed by the vote that I cast this day. I have cast my vote after much prayer and meditation. I have found that peace that surpasses all understanding and accept what God has planned for me. Truth be told, any threat to any notions of traditional marriage comes from within the body and not without. This vote today and the consternation it causes among some believers says more about the well being of the church than granting equal rights to Gay couples. Consider that about one-half of marriages end in divorce and many of us "Baby-Boomers" know of many households where single parents are raising families. These are the facts of life and I don't foresee granting Civil Union status to change this one bit. Gays want to enter into lifelong commitments and be bound to each other "to death do us part." And, we all know devout members of our own churches, both Catholics and Born-Again Christians, who have been divorced and remarried. And, for the most part, we get over it, accept their new marriage, and try to love them unconditionally, although some Christians do not accept persons who remarry. In their eyes, those who remarry commit adultery. Since I have remarried, in the eyes of some, my wife and I are living in sin and should be stoned to death. And lastly, my study of the Bible has not yielded any passage where Jesus condemns homosexual conduct, but he did strongly condemn the scribes and Pharisees as hypocrites in Matthew 23.

"Moreover, how can we reconcile the fact that in Hawaii we sanction a marriage between a convicted rapist, spouse-abuser, murderer, child-support scofflaw, or child molester, while we may deny legal Civil Union status to same-sex couples? Does this make any sense? Is this fair and just? All of these members of our community can get married and enjoy all the privileges, rights, and benefits, but for a class of citizens with certain sexual orientations we treat them as second class. Indeed, let us be careful that we not "point out the splinter in our brother's eye while failing to see the blinding plank in our own." (Matthew 7:1-5). And, let us not forget for one moment that we are each to "work out our salvation with fear and trembling; for it is God who is a work in you, both to will and to work for His good pleasure." (Philippians 2:12-13). Certainly, "Hatred stirs up strife, but love covers all transgressions."(Proverbs 10:12).

"Think about it. What same-sex couples seek are lifetime commitments, stable partnerships between two people, and exclusive physical companionship and monogamy. They simply seek what we all espouse for our own marriages and our sincere hope for all newlyweds. They simply want what we want and what they value is what we value -- a monogamous relationship between two persons based upon mutual respect, devotion, filial piety, and unconditional love.

"Mr. Speaker, I must also ask my brothers and sisters in Christ Jesus that they not be further led astray by what you may read or hear from the pulpit and among the pews over the next several weeks and months. Remember, that we are to "render onto Caesar that which is Caesar" and the legal rights and benefits of Civil Unions does not concern itself with marriage. Anyone who says that it does is not telling the truth. For Civil Unions does not impose upon any religious faith or religious practice or religious tradition, but is a secular contractual arrangement that provides the same burdens and benefits of marriage.

"Nor does Civil Unions demand or require that the holy sacrament of the marriage ceremony be used in solemnizing the Civil Union. Whether any religious order or faith or branch or denomination chooses to conduct such ceremony is left to the discretion of that particular church, denomination, temple, or synagogue, but none is mandated in the law.

"For these aforementioned reasons, I stand in support of this measure with reservations on legal aspects of the bill, but with wholehearted and unrestrained endorsement of the equal protection constitutional provisions therein."

Representative Bertram rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Bertram's written remarks are as follows:

"I rise to speak in favor of HB 444. This bill extends the same rights, benefits, protections, and responsibilities of spouses in a marriage to partners in a civil union. Thank you."

At this time the Chair called for a roll call vote and the motion that H.B. No. 444, HD 1, SD 1, entitled: "A BILL FOR AN ACT RELATING TO CIVIL UNIONS," pass Final Reading, was put to vote by the Chair and carried on the following show of Ayes and Noes:

Ayes, 31: Belatti, Berg, Bertram, Brower, Cabanilla, Carroll, Chong, Coffman, Hanohano, Herkes, Karamatsu, Keith-Agaran, C. Lee, M. Lee, Luke, Marumoto, McKelvey, Morita, Nakashima, Nishimoto, B. Oshiro, M. Oshiro, Rhoads, Saiki, Say, Shimabukuro, Takumi, Thielen, Wakai, Wooley and Yamashita.

Noes, 20: Aquino, Awana, Chang, Ching, Choy, Evans, Finnegan, Har, Ito, Magaoay, Manahan, Mizuno, Pine, Sagum, Souki, Takai, Tokioka, Tsuji, Ward and Yamane.

At 5:09 o'clock p.m., the Chair noted that the following bill passed Final Reading:

H.B. No. 444, HD 1, SD 1

INTRODUCTION OF RESOLUTIONS

The following resolutions (H.R. Nos. 276 and 277) were announced by the Clerk and the following action taken:

H.R. No. 276, entitled: "HOUSE RESOLUTION AUTHORIZING AND EMPOWERING THE SPEAKER TO PERFORM AND CARRY OUT ANY OFFICIAL LEGISLATIVE BUSINESS DURING THE INTERIM BETWEEN THE 2010 AND 2011 REGULAR SESSIONS," was jointly offered by Representatives B. Oshiro and Finnegan.

On motion by Representative B. Oshiro, seconded by Representative Finnegan and carried, H.R. No. 276 was adopted.

H.R. No. 277, entitled: "HOUSE RESOLUTION INFORMING THE SENATE AND THE GOVERNOR THAT THE HOUSE OF REPRESENTATIVES IS READY TO ADJOURN SINE DIE," was jointly offered by Representatives Say and Magaoay.

On motion by Representative B. Oshiro, seconded by Representative Finnegan and carried, H.R. No. 277 was adopted.

ANNOUNCEMENTS

Representative Ward: "Mr. Speaker, yesterday we saluted our colleagues who are going on to bigger and better things. Representatives Karamatsu, Berg, Wakai and Magaoay and those who haven't announced who may be doing announcements. We send our best to them. And I wanted to thank the women in this House, the women in this Caucus, and the women in this building. I want you to know that I may be in the process of being the only male to lose his private bathroom because I have the pleasure of having these five ladies as my counsel.

"But lastly Mr. Speaker, and seriously, I'd like to pay tribute to the one lady who's going to end her eight year term. The one lady who's given her life and given her all as our Governor. I'd like to go on record as saying, thank you Governor Lingle for what you've done. Thank you for being at the helm of the 'ship of state,' and may the wind be at your back in the future. Thank you, Mr. Speaker."

Representative Har: "Thank you, Mr. Speaker. Members, today was a grueling day and it is *sine die*, but I want to ask you to please join me in wishing a very happy birthday to my esteemed Water, Land Chair. It has truly been an honor and pleasure working with him for the past two years. Please join me in wishing a happy birthday to Representative Ken Ito."

Speaker Say: "Representative Chris Lee, would you like to offer another happy birthday to your colleague to your right? Representative Joe Bertram."

Representative C. Lee: "Mr. Speaker, it gives me phenomenal pleasure to be able to stand up here and talk about my colleague who's been to my right these last few months. Mr. Bertram, Happy Birthday. He's 28 years old. Congratulations."

Speaker Say: "There was also another Member who had his birthday a few days ago, and I think we should all recognize our senior statesman, Speaker Emeritus Speaker Joe Souki on your birthday a few days ago."

At this time, the Chair delivered his remarks as follows:

"Members, thank you for your efforts during this past difficult Session. In January of 2009 in my Opening Day speech, and again in my January of 2010 Opening Day speech, I laid upon us certain challenges. Members for the most part, you answered those challenges. This great recession made our jobs very, very difficult. We made many hard decisions that disappointed, frustrated and even angered certain people. We however, were forced to make those tough decisions because of the dismal economic and budgetary situation.

"If you recall during the 2009 Session, we along with the Senate and Governor closed a $2.1 billion budget deficit. During this 2010 Session we again with the Senate and the Governor closed another $1.2 billion budget gap. I am proud of this House because we accomplished this without increasing the general excise tax, without increasing income taxes on the middle class and the lower income families, and for our Neighbor Island colleagues, without scooping the counties' share of the hotel tax, which surely would have led to real property tax increases. History for me I believe, will show that we together with the Senate and the Governor bore the burdens of this great recession we are in.

"Although we had our disagreements, I enjoyed the disagreements on the Floor of this House and the lively debate on issues. We all participated in the legislative process with good faith, with the public good foremost in our mind, and a sense of responsibility for our actions.

"There is one thing I would like to note. In addition to acting responsibly, we mounted a tremendous challenge against the special interest groups. This is the first time in history, for me that is, that we crossed over to the Senate various revenue enhancement bills targeted at the special interests in order to avoid a broad-based regressive tax increase. For the first time in my 34 years we forced into Conference Committee a bill to take away certain general excise tax exemptions for those special interests. For me that was a significant unprecedented step even though, shucks, the bill did not pass. Let us take pride for having acted responsibly and having acted against the special interests to support once more, the ordinary taxpayers.

"We could not have done this without help and I'd like to thank our staff: the House Chief Clerk's Office, Pat, CJ, Denise. Our Sergeant-at-Arms, Mr. Kevin Kuroda, Mr. Lon Paresa and their staff. The House Majority Staff, Ms. Linda Oamilda, and our two chief legal counsels, Mr. Jim Funaki and Mr. Richard Dvonch. The House Minority Research, Boyd. Where are you Boyd? He's hiding, Malia? Okay. The Legislative Reference Bureau, Ken Takayama and Charlotte Carter-Yamauchi. The Auditor's Office, Marion Higa and her staff. And finally to all of you, the Capitol TV. And also thank you very much to the House Majority and Minority leadership teams.

"Thank you to Finance Committee Chair Marcus Oshiro, Vice-Chair Marilyn Lee and all the other Committee members. You did the most important and hardest work of the Session and I commend you, the Chair and Vice-Chair and the Committee members in getting your pictures in the paper on a full page ad this morning.

"Finally I would like to especially thank the Majority Leader, Blake Oshiro. Yes, I disappointed him tremendously in the beginning of Session and I regret that tremendously. Yet he continued to perform his duties with his usual diligence, competence and effectiveness. He was someone I could rely on. Someone with whom I could speak freely with. Someone I could trust without a doubt. In sum, he is someone more than merely a co-worker for all of us. We all consider Blake a true friend. Blake, please stand.

"I also forgot to mention our House Leadership, Vice Speaker Mike Magaoay, Majority Floor Leader Cindy Evans, and our Majority Whip Representative Pono Chong. And Lynn, Kym, Cynthia, Corinne, Barbara, and Gene, thank you very much for all you have contributed to the people of the State of Hawaii.

"And so as part of our ritual here in the State House of Representatives, I'd like to recognize four individuals who will be leaving this illustrious Body, The State House which represents our *'aina*.

"The first individual I'd like to recognize is Representative Glenn Wakai. Glenn, would you please stand? Representative Glenn Wakai, your work to improve Hawaii's economy and to foster better ties with our friends in the Pacific Island Nations has raised awareness of the importance of both endeavors. We know that the two issues are intrinsically linked, and we look forward to further developing those relationships as a result of your efforts.

"Representative Magaoay, please present this gavel to Representative Wakai and Representative Wakai, please say a few words."

Representative Wakai gave his farewell remarks as follows:

"Thank you, Mr. Speaker. I will drill down my farewell speech into a three-minute news live shot. The winds of change brought me to the State House of Representatives and those same winds are swirling around me again.

"In 2002, I needed a change. I had spent 11 years in the television news business. Journalism was fun. It certainly was an exciting profession. Reporters are given a front row seat to events that are big at the time, and today was certainly a case in point of the excitement and the awareness that they build in our community, but Journalists do not have a hand in directly changing anything. In fact, they're paid to keep their opinions out of stories.

"I knew I wanted to advocate for a better Hawaii and there was no more important place to do that and achieve that than right here in this building. I found great gratification here. It's been a pleasure to work with all of you to effect change in Hawaii that has made the Hawaii we have now and we'll have in the future so much brighter. We all share a desire to create a

better Hawaii, and although we have a different view on how to get there, at the end of the day we work collaboratively.

"I've enjoyed learning and the lively debate that takes place here every day. There are moments of frustration when good ideas seem to die away, and some questionable legislation moves on. But at the end of the Session a vast majority of the bills we have passed improve life for our neighbors. What I enjoyed most about being a part of the House is coming up with solutions to societal problems. Not just through legislation, but through bold and sometimes very creative solutions.

"In my first term, residents of Moanalua were squawking about feral chickens waking them up before the sun came up. Government really couldn't help them, so I got a trap from the Humane Society, dragged it up and down the hillside of Moanalua Valley, and over a five week period got rid of 21 chickens that were irritating neighbors.

"Tomorrow will be another tragic Furlough Friday. My staff Sharon, Dan, Beth and Tracy and I have turned that day of dread into Fantastic Fridays. Since January we've been giving middle school and high school kids opportunities to paint over graffiti, learn about alternative energy, learn about aquaculture and its role in our sustainable future. We're cultivating learning and civic responsibility in an otherwise unstructured day for our children.

"And as you mentioned at the top Mr. Speaker, one of my proudest accomplishments here has been the creation of a nonprofit that has taken surplus medical and educational supplies throughout the Pacific. We have done so for a number of years and Mr. Speaker, you've allowed me as well are Representative Berg to travel down to Micronesia to witness firsthand some of the struggles that those entities have to face. And I understand why Micronesians come here and tap $120 million out of our State budget. We often cry about the federal government not taking responsibility for this policy.

"But in 2005, we began by sending 20 boxes of medical supplies to American Samoa. Three weeks ago we sent two Matson containers to Pohnpei and another one to Kosrae. In five years, through a nonprofit that really was spawned by my role here in the State House, we sent more than $600,000 to our neighbors from the Marshall Islands all the way to Palau. It all began by identifying a problem and coming up with a sensible solution.

"Each of us has been given extraordinary powers by our constituents. Sometimes that power is squandered by those who believe the responsibilities begin and end simply in this Chamber. When I talk to children and I talk to them about what makes being a politician special? I tell them elected officials are like mutants. We're like characters in the X-Men. We are political mutants, we can choose to be with the good guys, Wolverine, Cyclops, Phoenix, those who fight for important causes. Or we can be politicians who side with those the likes of Magneto and Mystique and use their mutant abilities to empower themselves or their friends. These mutant powers are temporary. Each of us leases space here. None of us owns our office space. The public expects more from us and we should give them what they deserve.

"We work as a group of 51 in this Chamber. We also can change the world through the power of one. One visionary person with one desire to put the needs of others first. I would like to hearken back to last August when CJ Leong gave Pat Mau-Shimizu the greatest gift of all. CJ's kidney continues to clean Pat's blood. That is the greatest gift one human being can give to another. What a fantastic act of kindness. When we all pass, God is not going to care if we were Republicans or Democrats, or whether we're black of white. We will all be judged on what we did for others so let us be kind, generous and humble.

"I thank my constituents for giving me the opportunity to serve them. It is with profound sincerity that I thank all of you, all 51 of my colleagues for allowing me to be part of a wonderful process. I proudly leave this Chamber as the winds of change take me to a different place. Speaking live from the Floor of the House. Back to you, Mr. Speaker."

Speaker Say: "Thank you very much, and congratulations. The next individual, I think all of you have really seen him in the news lately, is Representative Jon Riki Karamatsu as the Chair of Judiciary. Jon, you have dealt with a high number of high profile, highly controversial issues. I realize that it hasn't been easy, but we're all glad you were up to the challenge and maintained your convictions in the midst of difficult times. To you, you have my sincere admiration and best wishes. Presenting his gavel is Majority Leader Blake Oshiro."

Representative Karamatsu gave his farewell remarks as follows:

"Mr. Speaker, it has been an honor for me to serve in the Hawaii House of Representatives. My eight years here has been a great experience. I have learned so much and met so many wonderful people. To become a politician is a dream come true for me. In 1996, I set my goals to make Hawaii and the United States a better place, most of which is the foundation of my political platform today. That year, I also created my logistical plan to run for the Hawaii State Legislature in 2002. Leading up to 2002, I served as Vice President of the Associated Students of the University of Hawaii at Manoa, participated in community organizations, served on the Pearl City Neighborhood Board, volunteered for political campaigns, and worked for legislators. After I graduated from the University of Hawaii at Manoa with a B.A. in political science in 1997, I went to Washington State where I graduated from Gonzaga University School of Law in 2001. I returned back to Hawaii that year and passed the Hawaii State Bar Association examination and received my law license.

"In 2002, I launched my campaign for the Hawaii House of Representatives, District 41, which encompasses Waipahu and its subdivisions of Waipahu Town, Waikele, Village Park, and Royal Kunia. I received no endorsements. One of my opponents was a well-know community leader, and she received most of the union endorsements. Another opponent was an insurance man, got endorsements from the business trades. All I had was the support of my family and my friends, most of which were a bunch of twenty-year-old kids. These family and friends are still the core of my campaign today. Some of them are here. With only about $13,500, we had a low budget campaign. I walked my district three times. Despite what many thought, we won that race.

"I was excited to begin my political career in the Hawaii House of Representatives. Before I met you Mr. Speaker, I had heard about you because of my grandpa, Maurice Karamatsu, who was really good friends with your father-in-law, Stephen Kotake. I had heard how my grandpa really liked you because you were so humble. Even with your college degree in Education, you worked as a busboy for a restaurant because you were loyal to the company. As you were my grandpa's friend, I pledged my loyalty to you. As soon as I met you, I knew everything felt right.

"When you asked me what Committee I wanted to be in, I responded that I wanted to be in the Economic Development & Business Concerns Committee. You told me, 'No. You should be in Tourism & Culture Committee. Your grandpa was in tourism. While at Duty Free, it is your grandpa who helped open the Japan market to Hawaii.' You often told me that. At that time, the Chair of the Tourism & Culture Committee was headed by the Representative from Hilo. In my freshman year I stumbled here and there, but I soon learned from the Representative from Hilo. It was during this time that we did a pretty big thing. We divided the tourism marketing contracts by regions of the world instead of one big contract. I found out that the Chair had so many friends, not only from Hawaii, but all over the world, especially Taiwan and China. He was more than a State Representative, but almost like that of a United States Senator. Everybody loved him. I learned not only how to be a Chairman of a Committee, but the importance of building friendships.

"In one of my early meetings as a freshman, I met the head of the Commission of the Status of Women, which was at risk of being eliminated by the newly elected Administration. At the end of the meeting, I committed to help protect the Commission, and I organized a letter with the support of the Women's Caucus and later the Administration backed off on trying to eliminate that Commission. Because of my stance on issues important to women, I was later invited to speak at the Women's Caucus press conference. In later years, I introduced bills that the caucus has supported. In 2006, I coordinated a donation drive for the Sex Abuse

Treatment Center and even got actor Daniel Dae Kim to volunteer and the television show *Lost* to donate their pilot show script so we could auction if off to get some funds for the cause.

"In 2003, I introduced a bill to give local filmmakers a discount at State film facilities. The State film office decided to give these discounts administratively, so we pulled back the legislation. So sometimes you can get them to do things without forcing it. In the second year of my freshman term, I passed a law that required the Department of Agriculture to authenticate Ni'ihau shell leis to empower the Ni'ihau shell lei makers and protect consumers from fraudulent sales using the Ni'ihau shell branding. I introduced a resolution asking the Department of Accounting and General Services to conduct a study on the cost of maintaining Aloha Stadium, versus building a new stadium. Their conclusion: renovating the stadium was more cost effective, something they are still in the process of doing. Also that year, I took an active role to help pass a bill that helped the airport concessionaires in re-negotiating their leases with the state because they were still suffering from the aftermath of the 9/11 attacks.

"However, I have to admit that I made a freshman mistake when I passed the bill mandating ethics training for State government officials. Everyone, including the Governor and her cabinet had to take this course. Some people were a little salty at me at that time. It was 'my bad.' I think actually it should be in the House Rules. I kind of joked around with the Ethics Commission that maybe we should repeal it. So if you guys are okay with it, you can repeal it.

"The 2004 elections were intense. I was targeted by the Republican Party with the Governor and Lieutenant Governor walking door-to-door in my community with their respective groups. I won re-election.

"In 2005, my biggest legislative idea was on creating a Kindergarten to 12th grade science and technology magnet school to prepare our children for Hawaii's knowledge-based economy. Although my bill did not pass, the following year I was pleased when the Governor made innovation in education a priority and we passed a bill that expanded learning in science, technology, engineering, and math for public schools.

"That year, as a Finance Committee member, I was assigned to many Committees. I was approached by the Representative from Upcountry Maui and also the former Representative from West Kauai, Bertha Kawakami, to help them on bills that would be harmful in what they thought was a little too lopsided against business. I helped both of them to address their concerns, but I took a lot of heat from certain Chairs. There was also miscommunication with a Senator on another Conference. I got yelled at by all three Chairs and even the Finance Chair at that time was upset. Back then, Bob Nakasone's office, for those of you who used to go there a lot, was like a haven. So I went there. And I went outside on the balcony and Mr. Speaker, you and Senate President were sitting on lawn chairs in the dark further down. You saw my frustration and told me to come to where you were. I sat by you on the concrete. Not too long later, Representative Bob Nakasone came out of his office and sat by me to the right. With all the pressure I was going through, I broke down and cried and explained that I was just trying to find balance on bills for this issue, as well as for dear friends Representative Bertha Kawakami and the Representative from Upcountry Maui. Your words of advice and Representative Nakasone's presence brought me comfort.

"Mr. Speaker time and time again, you have helped me in some of my toughest challenges. I remember in 2004, with the support of some of my closest colleagues, we voted against the Majority on a bill that would have negatively impacted research on State land. You told me, 'The State probably didn't know what happened tonight, but tonight when you go home, you will see how peaceful it is.'

"After the 2005 Legislative Session, Representative Ken Hiraki decided to leave the House of Representatives to take a position with Hawaiian Telcom, thus leaving that chairmanship open, and with your appointment with the Representative from Puna to that post, the Economic Development post was vacant, and you appointed me to that position, which I took extreme honor in you considering me. It was a dream Committee because I love that subject matter and it is one of my biggest goals to someday make Hawaii an economic power per capita.

"Mr. Speaker, at the 2006 Democratic Party of Hawaii Convention, I presented you my typed-out strategy to run for statewide office in 2010. The only other elected official I shared this plan with was Representative Bob Nakasone at that time. On the Saturday of that Convention, you hosted a number of our colleagues to a dinner at a Chinese restaurant. My friend Wayne Yagi was my driver that night. As we were leaving, I realized I didn't have my strategy with me. I told Wayne that I forgot something very important, and he told me 'Nah, you can look for it tomorrow.' I panicked, 'Wait, you don't understand. If someone finds my papers they'll know exactly what I'm going to do in 2010.' My strategy was so detailed, I had it done month by month. The next morning when I went to the Convention really tired, Mr. Speaker you and Senate President Bunda at that time, were chairing the Convention and you called a recess, walked down the stage and down the long aisle. You walked right up to me and pulled some papers from your back pocket and told me, 'You forgot something.' It was my strategy for my statewide 2010 campaign.

"In 2006, as Chair of the Economic Development & Business Concerns Committee, I went full blast. I introduced a bill to give tax credits for film production in Hawaii, 15% on Oahu, 20% on Neighbor Islands to make Hawaii competitive in the world to attract film projects, especially the huge Hollywood blockbuster movies. Together with the Representative from Hilo who was still Chair of the Tourism & Culture Committee, and the Senator from Makiki, my friend and former boss, we passed the companion bill which was a Senate Bill into law. That Legislative Session, I also passed a bill that expanded the Small Business Innovation Research Grants and the Small Business Technology Transfer Research Grants to maximize federal matching dollars to help Hawaii's start-up technology businesses."

Representative Ito rose to yield his time, and the Chair "so ordered."

Representative Karamatsu: "I also was fortunate in passing a bill floating $10 million in special purpose revenue bonds for Hoku Scientific, Inc., a local technology and renewable energy company to help build their facility in Kapolei. Further, I had a bill that included in the sexual assault law, 'the use of a substance in subjecting one to a sexual assault' to address the problems of date rape drugs. My bill was incorporated into an omnibus criminal bill that was passed into law.

"That year, as a result of a request by a number of Neighbor Island Representatives, Mr. Speaker, you asked me to help save the Island of Hawaii from a looming lawsuit regarding the Hokulia development on agricultural land. I had a land use bill carried over from the previous year. I placed an amendment inserting language that would grandfather the Hokulia development, thus protecting that project from the suit. That lawsuit was settled soon after.

"Mr. Speaker, you came up with the $100 million Innovation Fund bill, one of the biggest bills of 2006. This Fund was to be used for investments and grants for Hawaii science and technology companies. You told me to go with it. Returns on investment would go back into the Fund, and I tweaked the bill so that it would always have a corpus to collect interest to help replenish the Fund. During Conference, a little before midnight, the deadline for all Conference bills, you called me to go to Conference Room 309. I was in my office enjoying the evening with my friends. I told everyone, I had to go. It was show time. My staff and a number of my friends followed me out of the office with a good friend of mine filming with a video camera. We joined my Co-Chair from the Finance Committee, the Representative from Upcountry Maui. Our whole group entered Room 309, which was extremely packed with so many people overflowing, and for those of you who are new, it was a lot more packed than it was these past couple years.

"Our counterpart was then Ways & Means Chair, the Senator from Manoa and his co-chair was the Senator from Makiki. I threw over the House proposal. Later, the Senator threw over a different proposal. I looked at the Senate's version, and then looked at my friend, the Representative from Upcountry Maui. We had that look like, 'What the heck is this?' I called a recess. My Co-Chair and I exited the back door. We talked a little in the hallway with little time before the midnight deadline. I

said, 'Let's talk to Pono,' whose office was only a few feet away. After all, he was a former Ways and Means staffer and just plain brilliant.

"When we entered his office, the Representative from Enchanted Lake/Maunawili was sitting on the carpet of his office fixing or doing something. We looked at him on the ground. He looked up at us with that surprised look like, 'What in the world are you guys doing here?' I told him that we're in Conference. I think he replied sarcastically like, 'Uh yeah.' I told him that he needed to look at this CD1 and calculate the numbers as quick as you can. In what seemed like seconds, he explained that the numbers were smaller than what was agreed by Speaker and Senate President. I grabbed the CD1 and together with the Representative from Upcountry Maui, we went back into the Conference Room.

"The Ways and Means Chair asked us to agree to his proposal. In front of the crowd trying to listen what we were saying, I told him, 'No. We are sticking to the House position.' Time was ticking. Apparently this bill was tied to the Streamline Use and Sales Tax bill. With only minutes left on the clock, the Ways and Means Chair, a little disturbed, agreed to go with the House's position. We passed the Innovation Fund, as well as the Streamline Sales and Use Tax bill. On Final Reading, the House killed the Streamline Sales and Use Tax bill. In revenge, the Senate killed our Innovation Fund bill. Usually when the Senate finished earlier, which is always the case, they would come to the House, and the Speaker would recess so we could shake their hands. However, this time, when the Senate came over they couldn't get in because Mr. Speaker, you locked all the doors. I heard that some of the Senators were knocking on the door. I am still not sure if you were upset over the Innovation Fund or some other bill. Anyways, looking back, it was kind of funny.

"For 2007 Mr. Speaker, you asked me to be your Vice Speaker. After much thought, I joined your leadership team. That year, I was very fortunate with the help of all of you to pass the bill floating $10 million for Sopogy, Inc. to develop a solar farm at the Natural Energy Laboratory of Hawaii in Kona, which is already under construction. My memorable bill of that year was working with the Hongwanji's Young Buddhist Association in passing a law recognizing September 21 of each year as Peace Day to promote peace programs, improve international relations, and increase educational awareness of peace. I have chaired that event for the past three years.

"On October 16, 2007, I crashed my car, and called the police ..."

Speaker Say: "Representative Karamatsu, would you like to insert the rest of your speech in the Journal please? After that last statement."

Representative Karamatsu: "All right. I'll insert the rest into the Journal, but I'll just say the rest of the speech kind of summarize the last three years. The last four years. But I also included in my speech a lot of thanks for all of you because all these bills wouldn't have been passed without all of you. So my speech was to basically thank everyone and each of you for everything you've done.

"I also do want to mention some of my mentors that helped me: Senator Najo Yoshinaga was one who paved the way for me. The late Eric Maehara, a great attorney and friend. Senator Carol Fukunaga also helped me too. And really Mark Takai when I was younger, when I was a kid, he took me in his office and I learned how to run an office, detail by detail because of Mark Takai. Also campaigning. And I want to thank the Minority Caucus as well. Without you, there really isn't that much balance here so I'm glad there is some debate here with you. And I do have some written comments for kind words for all of you.

"And I want to thank the people of Waipahu for giving me the opportunity to represent them. To my dad Richard Karamatsu, my mom Laraine Karamatsu, my younger sister Mia Karamatsu, and my sister Lara Karamatsu for all their love and support.

"Also I want to thank my extended family, friends, and also my loved ones who passed away, all my ancestors. I'm grateful for all my staff, past and present, and I want to insert all their names into the Journal. Also to all the staff in government for all your work.

"Finally I appreciate every person who has touched my life and I would like to conclude with you, Mr. Speaker. After we die, some of our names will fade and some of our stories will be forgotten. However as politicians who truly love to serve, we will never die. We live on in the laws we pass, the programs we fund, and the infrastructure we appropriate. Most importantly, we live on in the souls we've touched. Thank you, very much."

Representative Karamatsu continued in his written remarks as follows:

"On October 16, 2007, I crashed my car, called the police, and was charged with DUI. As a result, I stepped down as Vice Speaker of the House. However, Mr. Speaker, you gave me the opportunity to be Vice Chairman under the Representative of Haiku Valley and Kaneohe, the Chairman of the Water, Land, and Ocean Resources, & Hawaiian Affairs Committee (Representative Ken Ito) who I would eventually declare as the founder of Itoism because of his deep philosophical thought. As his disciple, I was ready to take on a new realm of laws.

"In 2008, the Representative from Kaneohe (Representative Ken Ito) and I drew our swords and charged. Together with the other Representative from Hilo (Representative Clift Tsuji), the fighter of Coqui frogs, we passed a monumental bill that created incentives for the important agricultural lands classification, a 1978 constitutional mandate that had been unresolved for thirty years.

"We charged into another battle to resolve another 30-year issue in regards to the 1978 constitutional mandate of funding 20% of ceded lands revenues to the Office of Hawaiian Affairs. The Office of Hawaiian Affairs had been suing the State of Hawaii for years saying they are not receiving their share of funds. We moved a bill requiring the State to convey certain lands and make additional payments to the Office of Hawaiian Affairs; however, the Senate did not move on it when it reached them. Nonetheless, it was a good attempt to resolve the dispute.

"Further, in 2008, I passed a bill that required the government to better maintain records to prevent identity theft as was requested by the Identity Theft Task Force that I sat on for two years with the Senator from Makiki (Senator Carol Fukunaga). In addition, I passed a law prohibiting a towing company from charging the owner of a vehicle hooked up for towing if the owner of the vehicle appears on the scene. Further, I helped Sopogy, Inc. again by passing a bill floating $35 million in special purpose revenue bonds to help it with the development of a solar farm on Oahu. Lastly, I was able to get a $1 million appropriation inserted into the budget bill for beach restoration in resort areas that matches private funds.

"In the 2008 elections, I was at a low. I had a talk with Representative Bob Nakasone in his office. As usual, he asked, "So how's everything?" I told him everything was okay. He told me, "Don't forget your dream." I looked at him and said, "Rep. Nakasone, I don't know. I can't see past tomorrow." He stated again, "Jon, don't forget your dream." I looked up to him, smiled, and nodded. Those were the last words he told me. He was hardly in his office and I was campaigning like crazy, so we didn't get a chance to talk to each other again. Representative Nakasone passed away on December 7, 2008.

"My opponents attacked me on everything including my DUI. With the help of Calvin Azama, policy adviser of Speaker (Calvin K.Y. Say), who walked my district with me three times, I won the primary election and in the general election, I had the most votes in my career.

"Mr. Speaker, I entered 2009, honored to be your new Judiciary Committee Chairman. After going through some tough challenges, I was back a thousand times stronger. I introduced a package of bills to help retain doctors and lower medical liability insurance. I drafted the health information technology bill in hopes to bring all parties together to prepare Hawaii for $10 to $1 federal matching funds available in 2011 that will interconnect the computer networks of all of Hawaii's health providers. I created a bill that would protect our prime agricultural lands.

"In my goal to protect our public from harm, I passed legislation that created the criminal impersonation law and updated our harassment and stalking laws to include electronic communication. I also passed

legislation protecting our pet animals by allowing a temporary restraining order be extended to pet animals and ensuring our pet animals are humanely treated when placed in confinement. Further, I changed the joint and several liability tort laws to help our small professional design companies.

"Moreover, I enjoyed working with the Representative from Wahiawa, Chairman of the Finance Committee (Representative Marcus Oshiro) to ensure there was enough funding for the Judiciary Branch despite the bad economy.

"This year, 2010, I continued serving as your Judiciary Committee Chairman. With the economy continuing to be in bad shape, I searched for any cost savings for the State in the Judiciary budget besides cutting costs to programs and positions. I focused on ensuring there is enough funding for our specialty courts, which has been proven successful in turning individuals' lives around to be productive citizens rather than abusing illegal drugs or committing crimes, which not only betters our society but saves the state a lot of money.

"I also worked to pass the campaign finance bill that reorganizes the existing campaign finance provisions in the campaign finance laws, by dividing long sections into shorter sections with clear titles for quick reference and group laws on one subject together, among other things, and with a few substantive changes such as an inclusion of a new section to provide for transparency and to indicate that the campaign finance laws should be construed to support transparency.

"I passed a bill authorizing certified shorthand reporters to administer oaths and affirmations in the performance of their duties as deposition officers without the necessity of being notaries public, which will help make the process faster for this important service in our legal system.

"Another measure I passed revised laws prohibiting the cruel treatment of pet animals by specifying the standards of care that an owner must provide a pet animal, including the type of pet enclosure and under what conditions and when veterinary care must be provided but without affecting animals that are raised for food.

"In my term as Judiciary Committee Chairman, there were a number of issues that I worked on that did not pass but went very far in the Legislature, some on the brink of passage. Although such legislation may not have passed, it stirred discussion throughout the State of Hawaii. After all, the Legislature is where important issues get an opportunity to at least be discussed.

"My career in the Hawaii House of Representatives has been a good one. I thank the people of Waipahu for giving me the honor to represent them.

"Mr. Speaker, I want to thank you for all your love and support. You have been a great mentor for me. I want to thank my other mentors, the Representative from Hilo and our Higher Education Chair (Representative Jerry L. Chang) and the late Representative Bob Nakasone. I have sincere appreciation for my dear friends who provided support for me, the Representative from Kaneohe (Representative Ken Ito) who I shared many humorous conversations, the other Representative from Hilo (Representative Clift Tsuji) who I had many wonderful conversations, and the Representative from West Kauai (Representative Roland Sagum) who I enjoyed hanging out with, which helped me to relieve some of the stress I was going through. I sincerely appreciate all of your unconditional friendship.

"Thank you to the Vice Speaker (Representative Michael Magaoay), Majority Leader (Representative Blake Oshiro), Majority Floor Leader (Representative Cindy Evans), and Finance Chairman (Representative Marcus Oshiro) for supporting the Speaker and for your open leadership in this institution.

"I also want to say, "mahalo" to the other Representative from Kaneohe, our Majority Whip (Representative Pono Chong) and his partner in crime, the Representative from upcountry Maui (Representative Kyle Yamashita) for all our healthy policy discussions; Representative from Kalihi Valley who made me laugh as we talked about our experiences in politics, especially our experiences with the media; the Representative from Ewa Beach and lower Waipahu (Representative Rida Cabanilla) who has been very loyal to me; Representative from Pearl City-Aiea (Representative K. Mark Takai) who I learned the logistics of campaigning and managing an office; and the rest of the majority caucus, past and present, for and all the great memories.

"I also want to thank the Minority Caucus. I passed some of your bills too. I appreciate you bringing some balance in the Legislature.

"I want to send my thanks to several more mentors, Senator Carol Fukunanga for sharing her experience and network with me, the late State Senator Nadao "Najo" Yoshinaga who paved the way for me, and the late Eric Maehara, a great attorney and friend.

"I am grateful for all my staff throughout my legislative career. I also want to thank every person I have worked with in my political career.

"I want to especially thank my dad, Richard Karamatsu, mom, Laraine Karamatsu, younger sister Mia Karamatsu, and baby sister Lara Karamatsu for all their love and support. Thank you to my extended family and friends as well for all their love and support. I also send my appreciation to all my loved ones who passed away and all my ancestors. Finally, I appreciate every person who has touched my life.

"Mr. Speaker, after we die, some of our names will fade and some of our stories will be forgotten. However, as politicians who truly love to serve, we will never die. We live on in the laws we pass, the programs we fund, and the infrastructure we appropriate. Most importantly, we live on in the souls we've touched.

"Thank you."

Speaker Say: "Next we have the Vice Speaker, Representative Michael Magaoay. I feel the need to extend my personal thanks to you for helping me and the rest of leadership through the last two years. Your assistance in running our daily Floor sessions and attending to everything from legislation to policy, to working one-on-one with our Members has been a tremendous service. Thank you very much for being a part of our leadership team."

Representative Magaoay gave his farewell remarks as follows:

"Thank you Mr. Speaker, and colleagues. I will not copy what we just heard, but I have been really blessed to be here. I've been here for ten years. For me, coming to politics came about in the later part of my life. I came in at 47 because as a successful electrical engineer, I always told myself to give back to the community. I had been living in Mililani and decided to go back to Waialua where I was born and raised just after my son Michael was born. It was my father's first grandson so basically being a parent, I know Henry you're a new parent, but if this was your first grandchild, as soon as we moved to Waialua, my son did not sleep with my wife and I. He was with the grandparents all the time, sleeping with them.

"But the reason I mentioned that is because as you continue your life, your conviction has to be there for whoever you serve. The district that I have, District 46, it is a huge district. If you want to walk it, you talk about walking. You've got to walk from Del Monte, Kunia, all the way to Laie. It's a big district and you've got plenty of areas to go look at.

"But I've been blessed to be here because I'm part of the Class of 2001. And if you want to talk about debate, in the Class of 2001 we had 7 Republicans and we had 4 Democrats. Out of the Class of 2001 there are only two people here remaining and that's Representative Blake Oshiro and myself. And after this Session, I guess you'll have one. But during that time we had 12 existing Republican Representatives. We had Representative Marumoto and Representative Thielen and along the way you had new people come on board. But we had 19 Republicans. Talk about your Mason's Rules and all the procedures we had. You guys had it easy, because for every rule, there was a snag and we had to go run to our book, talk to Mr. Funaki and Mr. Dvonch as far as how do we counter.

What do we do? So you've got it easy, Representative Ward. That was hard. We had to take each procedure one at a time.

"I look at all of you as leaders and pillars of your various communities because times have changed. If you look around you, the shift is there. Come 2010, you have the census and the 2012 redistricting. There are going to be a lot of opportunities for you as you look at different doors in life. My door is kind of bittersweet because I've been with you for ten years, and I got to know the Speaker and everybody else. Your camaraderie and fellowship is really… There are no words to describe it because each of you is unique in your own way. You are all unique. This Capitol is so interesting because if you want to know what's going on in this Capitol, just go to the balcony on the Third or Fourth floor. Especially if there's a certain bill you're chasing. You see people running like mice or rats going to one office or the other.

"This institution. I know a lot of you are lax sometimes, and like to joke around. But we need to somehow maintain our decorum because I notice there's a lot of the younger generation coming in, and the question is, who wants to come here because of the pay. But I think it's the loyalty that you have within yourself, and your conviction that we look at. For me, like I said, it's bittersweet because I wasn't looking at leaving. It just happens that another door opened and he officially announced his retirement on the Senate side, so I'm looking at his seat. We have very good leaders in this district with Representative Marcus Oshiro and Representative Marilyn Lee. As for District 46, it's a wide district, but if you want exercise, there's a lot of time for you to walk.

"All I can say to all of you is we're all going to smell the roses, but today as we conclude, Blake Oshiro he was with me for 10 years and we grew. Everyone else in this Body grew too. We came through some rough times and I really appreciate your camaraderie Blake, because for you to pass something that I was always against, and with you pushing it, and we look at ourselves as leaders and what we can do, and what is best for the community. A lot of times it didn't happen, But this time, it happened. Back in 2001, I was the Vice Chair of Economic Development and we started Act 221. This year, now we suspend Act 221. So we have the life that we have.

"I just want to close by thanking everybody. Mr. Speaker, I can't thank everybody here because I don't want you all to be late for a certain function at 6:00 so that's the reason why. But I'd like to close with something that is always true to my heart because like I tell everybody here, life is so short. You have to pick your direction where you're going because you never know what tomorrow brings, and hopefully tomorrow comes and God willing, that you're still alive.

"But I want to read a quote from a famous gentleman named Winston Churchill, and it's an address he gave to the Harrow School of England 69 years ago. And it's something very short and sweet, but if you take it to heart, it'll probably help you. He says, 'Never give in, never give in, never, never, never, never - in nothing, great or small, large or petty - never give in except to convictions of honor and good sense.'

"So that's my challenge to all of you as you move forward, with your discernment, as you look at what transpired through the Session. It's going to be hard out there because there will be so many running for office. Like anything on a mango tree, we are at the bottom of the tree because people like to pick the plump prize which is always at the top.

"So I would like to say as you go out there, work hard, because you're out there to make a difference. Remember, always keep your head high. It really was a pleasure for me to work with all of you. Like the Speaker said, I want to thank all of the staff, and I want to say thank you, very much. *Mahalo nui loa* to all of you. Thank you."

Speaker Say: "Finally, our last colleague that will be leaving is Representative Lyla Berg. Lyla, your contributions to public education and your diligent work with the Education Chair, Roy Takumi, have shown a true caring for Hawaii's *keiki*. We often say that our children should be our number one priority, but you have lived to that motto and we thank you for doing so. Aloha and best wishes."

Representative Berg gave her farewell remarks as follows:

"Thank you Mr. Speaker, and thank you colleagues. I was cautioned by our colleague from Pearl City not to cry, and knowing me, you know that's impossible. When I called my son today to let him know this was the last day of Session and the last day of this role that I'm playing, he told me, 'Keep it short, Mom.' Probably neither of these two comments I can adhere to, but I will certainly be as concise as I can.

"I'm deeply grateful for what happened today and for the opportunity to be here with all of you. This morning when I got up I was so excited, it was like the first day of school, the first day of our Session as some of you remembered when you were freshmen. I was excited and nervous and a little anxious and frustrated and all of the emotions. And what I had to stop and think about on my way in is, what I was doing here and why I was so excited.

"Some of you know that my career in education led me to start Kids Voting Hawaii, to be a part of Project Citizen, to do everything I could to help our young people be part of the process. And when I decided to run for office in 2004, it was because my son said to me, 'Either shut up complaining Mom and run for office, or stop doing what you're doing.' And when a child says that, you know you have to follow.

"One of the things I've learned being here is how a bill becomes a law. And I also learned how the process works for a bill to become a law. I've learned to cope with frustration and disappointment. I've learned to appreciate the virtue of patience. I've learned how to sleep less, eat more, and laugh at things that I never thought were funny before. I've learned to understand things that I really had no way of understanding before. And right now as I move to the next place, I can assure you that what I have learned from each and every one of you will stay deeply in my heart.

"From the Education Chair I learned that you don't argue publicly with the Chair. You discuss things with him and in the final analysis when the vote comes in, you can vote against ice cream. He will call you at 10:00 however in the evening and say, 'Now what happened with that bill?' And that's what I hope that we will continue to have no matter what role we find ourselves in. We will all be involved in public service in some way. We are all connected and inextricably bound now after these few years together.

"One of my constituents called me the other day and she said, 'You know, you're such an enigma. I can't decide who you are.' She says 'You're a cross between Mother Teresa and Xena the Warrior Princess.' I would rather actually be likened with Madeleine Albright and being a statesman or stateswoman. But alas, I'm Miss Lyla, so when you're clicking your television channels or when you see me in public, the Representative from Hawaii Kai still calls me 'Miss Lyla.'

"Some of you know that I also do volunteer teaching in the summer time. I won't be teaching this summer, but I go to South Africa to work with principals and help them help their teachers in their schools as one of the largest emerging democracies on this planet. And one of the things I've learned from our colleagues in South Africa is the word *Ubuntu*, which in Zulu means, 'I am who I am because of who I am with you.'

"And so what I wanted to give you as a gift is the *'ōlelo no'eau* from our indigenous people and our ancestors here in Hawaii. Each of you has a purple card. These come from my card series. These are phrases from Mary Kawena Pukui, they're *'ōlelo no'eau* and perhaps it will guide you in the interim. Perhaps it will help to ease your heart as we leave this building today. Mine is translated as, 'peace and tranquility in the face of disturbance.' *La'i hauola i ke kai ma'oki'oki*.

"So as I leave you and the colleagues and all our colleagues for the next part of our journey and the next vignettes of our lives, I want to share with you one quote. There's a young woman, well I guess she's not so young anymore. Pia Zadora, maybe you've heard of her before. And in interviews she was asked, 'Pia, what's your life about?' And what she said is, 'I came to this place to live out loud,' and I invite all of you to live out loud.

"In the words of our esteemed colleague from Puna, *Maika'i ke akua, Mahalo ke akua, no ka pōmaika'i, i au ka kou ma kēia hana pono. Me ke aloha pumehana pauole.* My love is with you forever. Thank you, very much."

Representative Marumoto: "Mr. Speaker, I rise on a point of information. Would you or any of the Members give us a status report on the UH Men's Volleyball game against Stanford? It's very important. Go Bows."

Representative Chang: "Stanford won the first game 25-20."

Representative Cabanilla: "Thank you, Mr. Speaker. May I please be permitted to make a few comments. I would like to go on record to thank the first female Governor of the State of Hawaii. And I think that she did a very good job. She had a very tumultuous time in the latter half of her career as Governor, but I think by being a member of the Women's Caucus I want to acknowledge her services. Although I did not agree with her politics all the time, I admire her for her stamina in standing up for what she believed in. And I hope that with that service that she provided the State, that there will be more women to go to the Fifth Floor Mr. Speaker. We have proven that we could do the job. So I hope that we will promote more women to be in that role. Thank you, Mr. Speaker."

Speaker Say: "Before closing, there were some names I omitted that I should also recognize. Jacce, will you please stand, with the Majority Leader's office. Georgette Deemer with the House Majority Staff Office also. And for all of you, my two 'bodyguards' that always try to protect me, Mr. Azama and Mr. Takeshita. And for those State employees that work for the State House if I made any omission, I apologize if I did not recognize you or mention your names, but I hope I did in thanking them for a job well done in seeing us all through."

Representative Ching: "I just also wanted to thank one of the State employees that I meant to introduce earlier, if I may. It's Deputy Director Ken Kawahara of DLNR who has been very helpful not only in DLNR broad issues, but on historic preservations as well."

Representative Tokioka: "Thank you, Mr. Speaker. On that note as well, I think it's important for us to acknowledge all of the Department Heads from the Lingle Administration because many of them we may never see again in their capacity. Although we didn't always agree with them, I think many of them have shown true heart in all of the work that they did in helping us through this tough time. So on behalf of yourself Mr. Speaker and this House, I think we'd like to tell them how much we appreciate what they have done. Thank you."

LATE INTRODUCTIONS

The following late introductions were made to the Members of the House:

Representative Thielen introduced her granddaughters: Ms. Emma Helper; and Ms. Natalie Helper, Co-Chair of the Gay Straight Alliance at Punahou School.

Representative Har introduced Councilman Nestor Garcia, City Budget Council Chair and former colleague.

Representative Berg introduced her staff, office manager Ms. Jen Wilbur, committee clerk Mr. Matt Prellberg, and legislative aide Ms. Marata Tamaira.

Representative Ward: "Mr. Speaker, there's one person who has a really thankless job in this Chamber and it's the most important job, and it's you. Could we have a round of applause for Speaker Say? Thank you Speaker, you deserve it."

Speaker Say: "No, no, no. Representative Blake Oshiro, let's go home. Thank you, to all of you."

ADJOURNMENT

Representative B. Oshiro moved that the House of Representatives of the Twenty-Fifth Legislature of the State of Hawaii, Regular Session of 2010, adjourn Sine Die, seconded by Representative Finnegan.

The motion was put to vote by the Chair and carried, and at 6:07 o'clock p.m., the Speaker rapped his gavel and declared the House of Representatives of the Twenty-Fifth Legislature of the State of Hawaii, Regular Session of 2010, adjourned Sine Die. (Representatives Bertram and Manahan were excused.)

"EXECUTIVE CHAMBERS
HONOLULU
June 9, 2010

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 2401

Honorable Members
Twenty-Fifth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2401, entitled "A Bill for an Act Relating to State Finances."

The purpose of this bill is to suspend claims for the High Technology Business Investment Tax Credit and the Technology Infrastructure Tax Credit for tax years 2010, 2011 and 2012.

This measure is objectionable because it negatively impacts Hawaii's economy and makes it more difficult to sustain our current efforts to recover. It may not achieve its purpose of generating revenues to cover the state budget shortfall, and the bill may impact the state's future credit worthiness ratings.

First, this bill negatively impacts Hawaii's economy and business climate by increasing the uncertainty of doing business in the State. In 2009, Hawaii was ranked forty-second in the nation in an assessment of its state business climate by the Small Business and Entrepreneurship Council. This measure would continue to perpetuate that perception by making Hawaii's tax law unfriendly to businesses and investors.

Investors and businesses make decisions to hire, expand or start up a company based on assessments of the risks and rewards involved. One of the factors examined is the government's tax and regulatory structure. When government policies change with little notice or rationale, businesses become wary because they are no longer able to assess the future risks of putting money into Hawaii. The fact that this bill would change the tax credit rules retroactively, implies people who put capital in Hawaii can no longer trust the State Government to keep its word. This is bad economic policy and bad public policy.

Second, this bill may not actually generate revenue as stated in the committee report for the H.D. 1 version of this measure. Rather the measure would delay a total of $168,400,000 in state financial obligations to fiscal years 2013-2014 and 2014-2015. Because a number of investors and businesses have already stated their intent to challenge this measure in court if it becomes law, their additional tax payments under this measure will likely be transferred to the Litigated Claims Fund until all matters are resolved. As such, it is highly uncertain whether the revenues from this measure can be counted toward the financial plan, since there is a possibility that revenues will not be deposited into the general fund as expected in fiscal years 2010-2011, 2011-2012, and 2012-2013, when the budget shortfall is most severe.

Finally, while Moody's maintained Hawaii's Aa2 rating on approximately $4,700,000,000 in outstanding general obligation bonds this past February, the agency also revised the outlook on those bonds from stable to negative. One of the reasons for that revision is "Hawaii's narrowed financial operations as underscored by significantly lower reserve levels and payment deferrals," as well as "out-year structural gaps due to one-time solutions already incorporated in the enacted budget." This bill adds $168 million to that future structural gap by delaying our tax credit obligations. As such it could negatively impact the assessment of Hawaii's credit worthiness by adding to the payment deferrals of the State.

For the foregoing reasons, I am returning Senate Bill No. 2401 without my approval.

Respectfully,
/s/ James R. Aiona, Jr.
JAMES R. AIONA, JR.
Acting Governor of Hawaii"

June 24, 2010

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 415

Honorable Members
Twenty-Sixth [*sic*] Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 415, entitled "A Bill for an Act Relating to Public Safety."

The purpose of this bill is to require the Auditor to conduct an audit of the Department of Public Safety's contracts for prison beds and services outside Hawaii, and the department's contract with the federal detention center. As part of her comparison, the Auditor is directed to "address the closure of Kulani correctional facility" and make a recommendation on "whether the continued housing of Hawaii inmates in mainland facilities and in the federal detention center in Honolulu is advisable, in view of the explicit requirements of Chapter 353H."

This bill is objectionable because, it forces the Auditor to go beyond her duties as specified in HRS 23-4, requiring her to give a legal opinion and make a policy judgment outside the scope of a normal audit. The bill is ineffective because it proposes no solutions to the problems previously identified over many years regarding the lack of funds and facilities to house prisoners in Hawaii.

Further, the audit would duplicate an independent audit that is regularly conducted by a third party covering the fiscal conditions and finances of the Department. The redundant work would consume an estimated $60,000 in State funds that would result in the loss of resources in the State Department of Defense, a State agency charged with protecting the safety of State residents.

For the foregoing reasons, I am returning House Bill No. 415 without my approval.

Respectfully,

"EXECUTIVE CHAMBERS
HONOLULU
July 1, 2010

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 1907

Honorable Members
Twenty-Fifth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 1907, entitled "A Bill for an Act Relating to Taxation."

The purposes of this bill are to: (1) place a cap on itemized deductions claimed on State income tax returns and (2) remove the refunding feature of the capital goods excise tax credit and delay its effectiveness for five years.

The bill is objectionable because it is a defacto tax increase that will adversely hurt certain individuals and businesses at a time when we should be encouraging investment and spending to recharge the economy. The tax increase not only impacts taxpayers, but also disincentivizes activities such as charitable giving and homeownership. Since itemized deductions are allowed for qualifying medical and dental expenses, contributions to qualifying charitable organizations, payment of certain taxes, home mortgage interest, and qualifying job-related expenses, capping the deduction will act to discourage these expenses. Non-profits and charitable organizations that depend on contributions to serve needy populations are particularly concerned that their ability to raise funds through donations and charitable giving would be adversely affected.

This tax increase targets a specific group of income taxpayers and businesses who file their taxes as individuals. Through the Legislature's veto overrides last session and this session, these entities are already being squeezed by an income tax increase, an income tax personal exemption phase out, and an estate tax reinstatement that amount to tax increases of almost $97 million per year.

Second, Part II of this bill changes the terms of the capital goods excise tax credit and delays the effectiveness of this credit for five years. This is not sound economic policy since the credit serves as an incentive for companies to invest in machinery and equipment that expands and upgrades their operations at a time when we want firms to make these types of investments and encourage job growth.

For the foregoing reasons, I am returning House Bill No. 1907 without my approval.

Respectfully,
/s/ Linda Lingle

Gov. Msg. No. 410, transmitting her statement of objections to S.B. No. 2001, SD 1, HD 1, as follows:

"EXECUTIVE CHAMBERS
HONOLULU
July 1, 2010

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 2001

Honorable Members
Twenty-Fifth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2001, entitled "A Bill for an Act Relating to Taxation."

The purpose of this bill is to repeal the High Technology Business Investment Tax Credit and the Technology Infrastructure Renovation Tax Credit retroactively on May 1, 2010, rather than December 31, 2010. This bill also extends the Tax Credit for Research Activities by one year, from December 31, 2010 to December 31, 2011.

This measure is objectionable because it raises fundamental doubts about the reliability and veracity of the State and adversely impacts the technology industry by extending support to specific parts of the technology sector at the expense of others.

Investors, entrepreneurs, and businesses make decisions to hire staff, expand operations, or start a new enterprise based on assessments of the risks and rewards they face. When government policies and commitments change with little notice or rationale, investors and firms understandably decide to pull back and invest their capital elsewhere.

This bill's retroactive elimination of a fundamental tax credit that numerous firms and individuals have depended upon since 1999, implies that people who invest in Hawaii can no longer trust State Government to keep its word. This is poor public policy and will have long-term adverse implications for the State's ability to attract and retain new jobs and new investment.

Hawaii's technology industry is diverse in its makeup, including computer software, renewable energy, digital media, bioengineering, and defense-related companies. Depending on the field, function and maturity of these firms, research and development may or may not be a part of their ongoing functions. According to the Department of Taxation, there were a total of 203 qualified high technology companies using the business investment tax credit to attract investors in 2008, of which 76 companies also claimed the research tax credit. Many of these 76 research-oriented companies are in the fields of biotechnology and defense.

While these two sectors have contributed significantly to Hawaii's technology industry, it is vital for Hawaii to develop a diverse and vibrant industry that includes all sectors of innovation and technological development. This bill unfairly divides the industry and sacrifices companies with less research-oriented functions for the sake of companies oriented toward research and development. The State should not be in the business of picking winners and losers in the technology industry when the goal is to ensure the whole industry thrives in all its diversity.

For the foregoing reason, I am returning Senate Bill No. 2001 without my approval.

Respectfully,

"EXECUTIVE CHAMBERS
HONOLULU
July 6, 2010

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 444

Honorable Members
Twenty-Fifth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 444, entitled "A Bill for an Act Relating to Civil Unions."

There are many aspects to House Bill No. 444, but in its language, this legislation seeks to change Hawaii's current laws to grant partners in a civil union "all the same rights, benefits, protections, and responsibilities under law, whether derived from statutes, administrative rules, court decisions, the common law, or any other source of civil law, as are granted to those

who contract, obtain a license, and are solemnized pursuant to chapter 572," our marriage statute. It is essentially marriage by another name.

I have been open and consistent in my opposition to same gender marriage, but my personal opinion is not the basis for my decision against passage of this legislation.

This decision is of such societal significance that the people of Hawaii deserve the right to directly decide whether the changes contemplated by House Bill No. 444 should become law. It would be a mistake to allow a decision of this magnitude to be made solely on the views of a single individual or by 76 elected officials out of a population of 1,300,000. Ours is a system of representative government, but also one that recognizes that, from time to time, there are issues that require the reflection, collective wisdom, and consent of the people and reserves to them the right to directly decide those matters. This is one such issue.

The subject of this legislation has touched the hearts and minds of our citizens as no other social issue of the day, and it has touched me deeply as well.

I have been deliberative in undertaking an extensive review of this matter, inviting public testimony that has provided me with thousands of responses in the form of poignant letters, calls, emails, petitions, and personal meetings.

I have read commentaries and legal opinions, and held sessions with numerous individuals and groups, both for and against House Bill No. 444. I am extremely grateful to all who have taken the time to share with me their thoughts and feelings on this important matter.

Through this process I have gained a greater respect, understanding, and appreciation of the deeply felt emotions and beliefs that people hold on this issue and of the passion of both sides in advocating for something in which they believe so strongly.

This process has convinced me that my personal beliefs alone should not be the basis for my decision.

I have weighed the legal arguments and opinions offered on the bill and heard concerns over ambiguities that some have cited as reason enough for disallowing its passage. But this is also not a matter that should ultimately be determined on the basis of technical issues. It is a decision that should only be made based on what we as a society are willing to support.

It is not only a question of whether expanded legal recognition of same gender couples should be allowed, but a question of who should make that determination and how it should be made.

Unfortunately, the manner in which this bill has been handled has brought into question the fairness of the legislative process. A member of the majority party in the House said, "This is one of the most important votes any legislator will ever make. It is a shame that the vote couldn't have been done in a more dignified and open way." That member went on to assert, "When the legislative process is manipulated - whether unintentionally or deliberately - the public feels deceived."

I have chosen not to allow House Bill No. 444 to become law because of the respect that I have for the importance of this issue. It is one that should be decided not behind closed doors but behind the curtain of a voting booth. I have full faith and confidence that the good people of Hawaii, if given the opportunity, will choose what is best for our society.

Therefore, I call upon the members of the Legislature to allow Hawaii's citizens the right to determine whether we reserve marriage and its rights, benefits, protections, and responsibilities to heterosexual couples or expand the definition of marriage to include same gender unions by placing on the ballot at the next opportunity a straightforward question that settles this important issue.

For the foregoing reasons, I am returning House Bill No. 444 without my approval.

Respectfully,

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 865

Honorable Members
Twenty-Fifth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 865, entitled "A Bill for an Act Relating to Transportation."

The purpose of this bill is to establish a working group to determine the feasibility of transferring state highway maintenance functions to the county of Maui. The bill tasks the Director of Transportation and the Director of the Public Works Department of the County of Maui with responsibility for assembling and overseeing the work and specifies the type of findings and recommendations that shall be contained in the report.

This bill is objectionable because it requires the Department and the County of Maui to undertake this work within an unrealistic time frame without resources or staffing to handle the task.

The transfer of State highways to the counties has been an issue which has been examined and discussed for many years. The issues are serious enough that they cannot be adequately addressed within a period of less than six-months, which is all the time that is allowed under this bill.

Further, the bill fails to provide funding or staff positions to conduct the workload, meaning both the county and the State will need to divert resources from other high priority transportation and public works projects. Clearly to do an adequate job will require travel, analysis, and extensive consultation with federal officials and the legal community. There are concerns that any contemplated transfer could impact the allocation of federal highway funds, which must be spent within the constraints imposed at the Federal level. Issues of liability and the transfer of responsibility for these highways would need to be thoroughly and effectively addressed.

This measure fails to understand the complexity of the task or the impacts that may be involved and will detract from higher priority duties both the county and the State must undertake.

For the foregoing reasons, I am returning House Bill No. 865 without my approval.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 921, entitled "A Bill for an Act Relating to Public Lands."

The purpose of this bill is to expand the potential assignees of a homestead lease to include trustees of land trusts created for the purposes of managing and holding a homestead for the benefit of the lessee and lessee's family members.

This bill is objectionable because it does not address the underlying issue of how best to resolve family disputes. The bill states that homestead leases are becoming increasingly difficult to manage as conflicts often arise between family members who may have an interest in a homestead lease. Setting up land trusts to hold and manage these leases will not resolve the conflict among surviving family members with respect to their share of the lessee's lease. The establishment of a trust can complicate the process because descendants must now also agree on the process of setting up the trust, appointing the trustee, and naming the beneficiaries. Current law, section 171-100, Hawaii Revised Statutes, allows the Office of Hawaiian Affairs to establish a successor determination program to help families with these issues.

Further, this bill would require the Board of Land and Natural Resources to take actions involving trust laws outside of their sphere of expertise.

For the foregoing reasons, I am returning House Bill No. 921 without my approval.

State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 1212, entitled "A Bill for an Act Relating to Information Practices."

The purpose of this bill is to expand the information in which a licensee has a significant privacy interest by only allowing the record of complaints that have been resolved against a licensee to be subject to public disclosure. As a consequence, the information about licensees available to consumers will be limited, and no longer include pending complaints.

Currently, individuals who are granted licenses in the State do not have a significant privacy interest in the record of complaints, including all dispositions, received about them. Consumers have been, and should be, encouraged to obtain licensing and complaint information prior to consulting and retaining licensed professionals. The disclosure of a licensee's complete complaint record results in increased consumer awareness and informed decision-making. This bill will decrease information available to consumers and thereby hinder this process.

Although proponents of this bill are concerned that current practices allow frivolous complaints to become public, the procedures used by the Department of Commerce and Consumer Affairs Regulated Industries Complaints Office screen out over half of all complaints because they are frivolous, cannot be substantiated, do not involve a licensing violation, or can be resolved between the parties. Only when sufficient grounds have been found to start an investigation, does a complaint get disclosed in the Complaint History Report available to the public. As a courtesy, the State notifies the parties involved prior to the posting.

Unfortunately, this bill would restrict the Department's ability to disclose a significant number of the complaints that are currently available to over 500,000 individual reviewers who access this site each year. If complaints cannot be disclosed without an outcome, even if an investigation is underway, the complaint history becomes less useful to consumers. The report will no longer provide up to date information about licensees, and leaves consumers to question whether businesses and professionals not on the complaints list are those who truly have not received any complaints or those who have complaints pending. While improvements can be made to the complaint history record in a reasonable manner to accommodate licensee concerns, this bill is overly-broad and inappropriate.

For the foregoing reasons, I am returning House Bill No. 1212 without my approval.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 2083, entitled "A Bill for an Act Relating to Milk Labeling."

The purpose of this bill is to require milk pasteurized, distributed, or offered for sale in Hawaii to be labeled with the date the contents were pasteurized or packaged for distribution or sale.

This bill is objectionable for three reasons.

First, while it would require this type of labeling for pasteurized milk, it would exempt ultra-high temperature pasteurized milk from the labeling mandate. "Pasteurized milk" in this bill refers only to fresh milk processed by heating to at least 145 degrees Fahrenheit for a minimum of thirty minutes, or to at least 161 degrees Fahrenheit for a minimum of fifteen seconds, but does not include ultra-high temperature pasteurized milk, which is processed under different heat and time conditions. There is no good reason for this exclusion.

Second, the bill does not specify which pasteurization date should be used. Some milk shipped into the State is pasteurized twice, and using the second pasteurization date would make it seem fresher, than it actually is, including appearing fresher than locally produced milk.

Third, this bill is inconsistent with the National Conference of Interstate Milk Shippers' Pasteurized Milk Ordinance, which has been adopted in Hawaii by administrative rules. The Ordinance prohibits the sale of unpasteurized milk, and its labeling provisions require only that milk be labeled "pasteurized" or "ultra-pasteurized" and show the place of pasteurization. This bill would take Hawaii out of compliance with the Ordinance, which all fifty states currently follow pursuant to guidance from the Food and Drug Administration.

For the foregoing reasons, I am returning House Bill No. 2083 without my approval.

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 2133

Honorable Members

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 2133, entitled "A Bill for an Act Relating to Procurement."

The purpose of this bill is to require the State Procurement Office to authorize local reseller agreements as part of any multi-state contracting agreement and to place orders with local resellers having a principal place of business or ancillary headquarters located within the state, and not less than thirty-five per cent of the reseller's employees residing within the state.

Although I support increased competition among resellers of vendors contracted under multi-state contracts entered into by the Western States Contracting Alliance (WSCA), this measure does not help the State realize greater discounts in its purchases or improved servicing support. On the contrary, this bill has the potential to increase the cost of goods and services for state agencies.

This bill's definition of "local reseller" is problematic, because if a reseller is authorized and designated by a WSCA multi-state contract but does not meet the thirty-five percent residency requirement, it could nullify the reseller being able to participate, and in effect interfere with the operations and business decisions of the vendor. This could hurt vendors, and by extension, the State, because the purpose of multi-state contracting is to benefit the State with reduced pricing. Interfering with vendor business decisions and decreasing the availability of resellers is antithetical to this goal. As such, the bill has the potential to increase the cost of goods and services for state agencies.

Local resellers conducting business in Hawaii may already be included on the procurement list of the State Procurement Office. WSCA solicitation allows vendors to designate resellers, including those based in Hawaii. Based on the original vendor's list of authorized resellers, the State Procurement Office adds the resellers to its procurement list to allow State agencies to solicit and procure competitive, cost-effective goods and services. Thus, requiring the use of local resellers when authorized by the vendor is unnecessary, as they may already be utilized if they are authorized by the vendor.

For the foregoing reasons, I am returning House Bill No. 2133 without my approval.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 2152, entitled "A Bill for an Act Relating to Building Design For Persons With Disabilities."

The purpose of House Bill No. 2152 is to allow the Disabilities and Communication Access Board ("DCAB") to charge fees for the review of construction plans and designs starting January 1, 2011, and to establish such fees in statute until DCAB revises the fees in rulemaking. Currently, DCAB does not charge a fee for its review services.

This bill is objectionable because it increases the cost of public projects, private and non-profit housing and commercial and industrial developments that impact public right of ways. This fee not only increases costs for taxpayers who ultimately finance public projects, but Hawaii residents who are seeking to build or remodel a structure or firms interested in undertaking projects that will create construction jobs. This bill is particularly ill-timed since the economy has not yet returned to full speed and my Administration is taking steps to control costs and fees that would hamper our economic recovery.

While it is understandable that the Disabilities and Communication Access Board would seek ways to address budget issues, the fiscal year 2010-2011 supplemental budget for the Executive Branch, which was signed into law as Act 180, appropriates $323,820 in general funds for the 5.5 DCAB positions that review construction plans and designs for ADA compliance. Further, even if this bill became law the fees imposed would be deposited into the general fund and would not accrue to the Board to handle the Americans with Disabilities Act review function.

For the foregoing reasons, I am returning House Bill No. 2152 without my approval.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 2239, entitled "A Bill for an Act Relating to the Deposit Beverage Container Program."

The purpose of this bill is to expand the Hawaii Beverage Container Deposit Program by removing the current recycling program exemption for liquid dietary supplement containers starting July 1, 2010.

This bill is objectionable because the inclusion of liquid dietary supplement containers will make it difficult to recycle these containers, it will not be possible to implement by the bill's effective date, and will have a negative impact on consumers during these difficult economic times.

First, this bill would include liquid dietary supplement containers in the Deposit Beverage Container Program on July 1, 2010. There is no phase-in period, as there was when the original program began. As a result, the industry will not be able to comply with the bill's requirements since it would become law on July 1, 2010, and that date has already passed.

Second, this additional fee on liquid dietary supplement containers will impact Hawaii consumers by increasing the cost of drinking dietary supplements and health-related beverages. The fee increase would occur at a time when Hawaii families are still feeling the impacts of the recession and when it is important for Government to take steps to limit the cost of living increases imposed on our families.

Finally, redeeming the refund value of these containers will be inconvenient because reverse vending machines do not accommodate energy drink and dietary supplement containers, many of which are neither standard in size nor shape. Currently, reverse vending machines already have trouble identifying non-standard containers with HI5 labels, thus forcing consumers to either make another trip to a redemption center or throw away the containers, thus losing their refund.

For the foregoing reasons, I am returning House Bill No. 2239 without my approval.

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 2377

Honorable Members
Twenty-Fifth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 2377, entitled "A Bill for an Act Relating to Education."

This bill would implement the amendment to Article X, Section 2 of the Hawaii State Constitution, upon its ratification, as proposed in House Bill No. 2376. This measure creates a ten-member Board of Education, establishes a seven-member Board of Education Selection Advisory Council, and exempts this Council from the open meeting and public transparency provisions of Chapter 92, Hawaii Revised Statutes.

This bill is objectionable because it is a narrowly prescribed process for selecting Board of Education members that is intended to limit the number of candidates that a Governor can consider. Rather than permit the Governor to select candidates from the State's entire community, this bill transfers that duty to a seven member council that can recommend as few as only two names to the Governor to fill a position on the Board of Education.

I am also concerned that the process established in this bill fails to ensure that the Board of Education will be composed of members who reflect the best interests of the Department of Education and the State. Four of the seven members of the Selection Advisory Council will be selected by the Hawaii P-20 Council. The Hawaii P-20 Council is not a statutorily-based organization and is made up of approximately thirty-two members representing a variety of public and private interests. This process will not provide the public with a better understanding of who is accountable for setting the policies that guide our public education system.

This approach contradicts what public citizen trusteeship should be-that is, citizens who are independent in their individual and collective judgment and who serve the people of Hawaii, not special interest groups, as Board of Education members. Instead, House Bill No. 2377 establishes a narrowly focused constituency-based selection council with members appointed by separate interests. These individuals can recommend as few as only two names to fill a vacancy on the Board of Education, further contributing to the partisan and narrow focus of potential Board of Education candidates.

I am also troubled by the exemption of the selection council from Part I, Chapter 92, of the Hawaii Revised Statutes covering open meetings, also know as the Sunshine Law. This blanket exemption would allow this council to conduct its proceedings behind closed doors away from public scrutiny. This makes it difficult for the selection council members to be held accountable for the recommendations they make since the public will be unable to observe how candidates were selected, how qualifications were applied, what screening process was utilized, and whether political or partisan considerations were used.

A selection process that operates in secrecy benefits no one. It injures the people it seeks to serve, damages the integrity of the operation, breeds distrust, and dampens the enthusiasm of citizens to consider serving as Board of Education members.

I affirmatively state that I support the proposed Constitutional amendment to establish an appointed Board of Education and urge its ratification. I propose that the next Governor offer implementing legislation that ensures the Board of Education members are selected directly by the Governor allowing for a fair, open and accountable process with the integrity this critical task deserves.

For the foregoing reasons, I am returning House Bill No. 2377 without my approval.

"EXECUTIVE CHAMBERS

July 6, 2010

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 2441

Honorable Members
Twenty-Fifth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 2441, entitled "A Bill for an Act Relating to Procurement."

The purposes of this bill are to (1) require the Department of Hawaiian Home Lands and the Department of Transportation, to award project contracts within thirty days of the bid opening date; and (2) provide that a gift to the State shall not be deemed to constitute a procurement contract but the agency accepting the gift must report the gift to the State Procurement Office.

Although the intentions of this measure are understandable, I must object to this bill because the rigid award deadlines are counterproductive,

unrealistic, and violate procurement rules. The gifts exemption is not conducive to transparency in government.

Part I of this measure would require the Department of Hawaiian Home Lands and Department of Transportation to award contracts within thirty days of the bid opening date. This provision may work against efforts to speed up awards and is unrealistic for certain kinds of procurements. Complex project bids can require hundreds of hours of staff time to review and verify the documentation. If a department was not able to meet the new statutory timeline, the solicitation would be invalid, requiring a repeat solicitation that would further delay the procurement process. The review process could also be delayed by the offeror not furnishing the necessary documentation in a timely manner, or by protests of an award. If an award was made after the imposed statutory deadlines, it would likely result in a procurement violation.

In addition, this bill would require an award within forty-five days of the bid opening for contracts for design professional services. However, procurement of professional services is qualification-based and does not involve a bid opening. Statements of qualifications are requested by an agency and a review committee places the qualified applicants on a listing. When a need or project arises, a selection committee reviews the statements of qualifications, ranks the submittals, and begins negotiations with the first-ranked provider. A time limitation is therefore not conducive to the professional services procurement method and also would likely constitute a procurement violation.

Part II of this bill specifies that gifts made to the State shall not be deemed to constitute or require a procurement contract. I have concerns that gifts to the State of certain types of material, labor or equipment could influence the procurement of future projects that involve these same or similar materials, labor, or equipment. Exempting gifts from procurement contracting might encourage a 'donate to play' arrangement where the donor subsequently receives residual compensation for equipment, parts, service, repair, maintenance or other realizations, "locking-in" the donor to future contracts. For example, a donor might give free materials to the State, but those materials could require maintenance or further equipment or upgrades at a cost. Rather than eliminate procurement contracting for all gifts to the State, it is better for certain gifts to go through the transparent process under the Procurement Code that clearly delineates the benefits to the donor, and gives other parties an opportunity to gift the same materials or equipment to the State.

For the foregoing reason, I am returning House Bill No. 2441 without my approval.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 2583, entitled "A Bill for an Act Relating to Impounded Vessels."

The original purpose of this bill was to clarify that all costs and expenses associated with the impoundment and disposal of an impounded vessel are to be borne by the vessel owner. The original bill also clarified that mooring fees incurred prior to impoundment are also the responsibility of the vessel owner, regardless of whether the vessel owner repossesses the vessel. Amendments made to the bill added a new section 1 to establish civil and administrative penalties for shark feeding, including seizure and impoundment or forfeiture of any commercial marine license, vessel, and fishing equipment, and administrative fines, fees, and costs.

This bill is objectionable because it violates Section 14 of Article III of the Hawaii Constitution, which states that "[e]ach law shall embrace but one subject, which shall be expressed in its title." The subject of this bill that is expressed in its title is "impounded vessels." The establishment of civil and administrative penalties for shark feeding appears to go beyond the scope of the subject expressed in the title of this bill.

The purpose of this bill is to amend section 342G-62, Hawaii Revised Statutes, to require the solid waste disposal surcharge of 35 cents per ton to apply, in addition to all solid waste disposal facilities, to solid waste that is disposed of out-of-state.

This bill is objectionable because Hawaii should continue to encourage responsible, environmentally appropriate options for disposing of solid waste including the shipment of this waste to out-of-state facilities. The shipment of solid waste out-of-state is one approach to addressing cost and space issues related to Hawaii's landfills. Imposing a fee on the movement of refuse that leaves Hawaii sends a signal that the State may want to discourage this option. It is inappropriate to do so at a time when these programs are still in their inception.

Additionally, expanding the existing surcharge is contrary to my Administration's general policy against creating or expanding fees during difficult economic periods.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 1105, entitled "A Bill for an Act Relating to Legislative Hearings and Procedures."

The purpose of this bill is to require reports of studies and audits requested by the Legislature or mandated by law to be submitted to the Clerk of each house of the Legislature, the President of the Senate, the Speaker of the House of Representatives, the Chair of the applicable subject matter committee of each chamber of the Legislature, and the Legislative Reference Bureau library. Furthermore, the Chairs of the subject matter committees must conduct a public hearing or an informational briefing within one year of receipt of the report, unless explicitly waived by the President of the Senate or the Speaker of the House of Representatives.

I support greater transparency in government, but this measure does not help realize this goal. Rather, this measure unnecessarily burdens state agencies with the task of appearing at mandated hearings and briefings.

Legislative briefings entail a great deal of groundwork and preparation by agencies that impacts time and staff resources. It is also well understood that not all reports are worthy of receiving a hearing or briefing. However, under this measure, even if the hearing or briefing is eventually waived, agency resources will have been expended preparing for the anticipated briefing or hearing.

Moreover, the Legislature already has the authority to hold a briefing or hearing on any area of interest, including legislative reports and audits. Mandating such hearings and briefings removes the discretion of legislative committee chairs, creating a procedural rigidity that is counterproductive. The current system, in which committees use their best judgment to determine whether or not a hearing or briefing is warranted, is more practical and efficient than the mandate proposed in this bill.

For the foregoing reasons, I am returning Senate Bill No. 1105 without my approval.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2020, entitled "A Bill for an Act Relating to Real Property."

The purpose of this bill is to extend the sunset date of Act 189, Session Laws of Hawaii 2009 (Act 189), from June 30, 2010, to June 30, 2013. Act 189 contained several provisions pertaining to renegotiations of commercial and industrial leases, and in particular specified that the term "fair and reasonable" annual rent of certain leases of commercial or industrial leasehold property be construed in a specific manner.

The constitutionality of Act 189 has been litigated in the United States District Court for Hawaii in a lawsuit brought by HRPT Properties Trust which owns significant amounts of land in the Mapunapuna area. The District Court recently provided its written inclination (a summary of the court's thinking) to find that Act 189 violates the Contracts Clause of the United States Constitution. Although a written order to that effect has not yet been issued, it appears probable that the Court will soon issue a ruling that Act 189 is unconstitutional.

Extending the life of Act 189 for three additional years serves no useful purpose, and may expose the State to an increasing amount of attorneys' fees. Allowing Act 189 to sunset may reduce or eliminate the State's liability in this case.

For the foregoing reasons, I am returning Senate Bill No. 2020 without my approval.

Respectfully,

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 2045

Honorable Members
Twenty-Fifth Legislature
State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2045, entitled "A Bill for an Act Relating to Crime."

The purposes of this bill are to create two new criminal offenses of Sexual Human Trafficking in the First Degree and Sexual Human Trafficking in the Second Degree, and to add Sexual Human Trafficking to the list of offenses covered under the government witness protection program.

This bill is objectionable because the proposed new offenses seek to prohibit conduct that is already prohibited under Hawaii law, and because the proposed new offenses do not clearly define prohibited conduct in such a way that they can be enforced and prosecuted in court.

The language in this measure is poorly drafted, overly broad, redundant, and inaccurate so as to make it virtually impossible to bring to trial and convict those who engage in human trafficking. The bill also fails to establish clear standards for a person knowingly or intentionally engaging in this behavior, thus jeopardizing the case that a prosecutor would have to present in a court of law.

In addition to the inadequately defined terms, the proposed offenses of sexual human trafficking do not clearly establish prohibited conduct that can be reasonably understood.

This bill is also objectionable because most of the conduct that the proposed offenses attempt to prohibit is already covered by existing statutes.

Advancing or profiting from the prostitution of a minor is prohibited by section 712-1202, Hawaii Revised Statutes, Promoting Prostitution in the First Degree. Under section 712-1202, the State need only prove that: (1) the actor knowingly advances or profits from prostitution, and (2) the prostituted person is less than eighteen years old. In contrast, proposed section 707-B of this bill would impose additional elements (enticement, fraud, or coercion; maintenance, management, supervision, or control; and transportation) that the State must prove. The additional elements would make it more difficult to obtain convictions in cases involving prostitution of minors. There is no logical reason to add them.

The proposed offenses refer to prostitution or sexually-explicit activity obtained or maintained through coercion. The use of coercion is prohibited by existing statutes. Section 712-1202, Promoting Prostitution in the First Degree, prohibits knowingly "[a]dvanc[ing] prostitution by compelling a person by force, threat, or intimidation to engage in prostitution, or profit[ing] from such coercive conduct by another." Section 707-764, Hawaii Revised Statutes, Extortion, prohibits obtaining, or exerting control over, the property, labor, or services of another with intent to deprive another of property, labor, or services by threats of word or conduct; and prohibits intentionally compelling or inducing another person to engage in conduct from which another has a legal right to abstain, or to abstain from conduct in which another has a legal right to engage, by threats of word or conduct.

I support the goals of preventing human trafficking and bringing its perpetrators to justice. Unfortunately, those goals will not be achieved by the enactment of this bill and this bill will make it more difficult to achieve the objectives of penalizing those who engage in sexual human trafficking.

For the foregoing reasons, I am returning Senate Bill No. 2045 without my approval.

Respectfully,

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2324, entitled "A Bill for an Act Relating to Unemployment Insurance Benefits."

The purpose of this bill is to allow a partially unemployed individual who quits his or her part-time job without valid reason, or is terminated for cause, to still receive unemployment insurance benefits.

This bill is objectionable because it violates the foundation upon which the unemployment insurance benefits system was based, namely a person should receive financial assistance only when they lose their job through no fault of their own. If this bill became law, a partially unemployed individual would continue to be paid unemployment benefits even if the individual voluntarily quit a part-time job without good cause or was discharged for misconduct connected with work. All other unemployed individuals are subject to disqualification for voluntarily quitting full-time employment or when they are discharged for misconduct.

Additionally, payment of benefits resulting from this bill would increase the fiscal demands on the Unemployment Insurance Trust Fund, which could eventually increase employers' contributions. This impact would occur at a time when the fund is experiencing significant draw downs due to higher than anticipated unemployment rates. It would not be responsible public policy to add beneficiaries who don't meet the appropriate threshold to enjoy these dwindling benefits.

For the foregoing reasons, I am returning Senate Bill No. 2324 without my approval.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2434, entitled "A Bill for an Act Relating to Salaries."

The purposes of this bill are to adjust the salaries and to provide annual performance bonuses for the Superintendent of Education, the Deputy Superintendent, the Assistant Superintendents, and the Complex Area Superintendents and to provide an annual performance bonus for the State Librarian, beginning with the 2011-2012 school year.

This bill is objectionable because it could impact the funding of other education programs and comes at a time when other state workers are losing their jobs, taking furloughs, or are subject to decreased pay.

The Department of Education and the Hawaii Public Library System will be obligated to fund the salary increases and bonuses within their current resources. It is unclear how the department will find the funding to meet new fiscal obligations without a reduction or elimination of other programs and priorities. Schools have already experienced reductions or elimination of certain educational programs and parents are now being asked to pay more for school transportation and school meals.

While I fully realize that the intent of this measure is to attract a wider range of potential candidates for senior positions in the Department of Education, it should be noted that the Superintendent already receives a considerably higher salary than many other critical positions in State Government, such as the Director of Human Services and the Director of Health who are both responsible for the well-being for many individuals.

For the foregoing reasons, I am returning Senate Bill No. 2434 without my approval.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2473, entitled "A Bill for an Act Relating to Housing."

The purpose of this bill is to allow grandparents residing in State-operated elderly housing projects to temporarily house their minor grandchildren for not more than three months in certain family crisis situations.

While I personally understand the importance of allowing grandparents to step in when family needs require their assistance, this bill is objectionable because it places additional liabilities on the State, could impact the State's coverage under the Federal Fair Housing Act, and addresses an issue that has been handled by the Hawaii Public Housing Authority through its procedures.

The Federal Fair Housing Act exempts public elderly housing if the State meets specified admission rules, population requirements, and demonstrates clear intent to limit these facilities to elderly only. Enactment of this bill could result in the Hawaii Public Housing Authority being placed in a situation where this exemption could be challenged.

The bill does not limit the number of grandchildren who are entitled to stay with a grandparent, which could conflict with occupancy limits established by building codes and other health and safety laws. Elderly housing projects are not designed to accommodate young children and do not have the safety features family housing must abide by such as higher window heights and enclosed walkways and stairways.

Moreover, while the accommodation of grandchildren is intended as a temporary accommodation of not more than three months, without a clear provision in this bill to the contrary, entitlement to a larger unit may be an unintended consequence of this bill. This would create burdens on the HPHA to coordinate larger units within a limited inventory, and may expose the HPHA to further liability if a larger unit is not available.

I am pleased that the Hawaii Public Housing Authority has recognized the need to address this matter in a manner that allows a child in need to stay with a grandparent for a limited time until more appropriate accommodations can be found, while ensuring that public elderly housing remains available for those who meet the criteria of age 62 or older.

For the foregoing reasons, I am returning Senate Bill No. 2473 without my approval.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2491, entitled "A Bill for an Act Relating to Telemedicine."

The purposes of this bill are to: (1) Require the Insurance Commissioner to conduct a study regarding the impact of telehealth services on medical malpractice policies and rates and report the findings to the Legislature at least twenty days prior to the next legislative session; and (2) Add a new section to Hawaii Revised Statutes chapter 346 prohibiting the Department of Human Services from requiring its approval for health plans under its Medicaid or Quest services to deliver telehealth services or in-person visits to qualify any telehealth service for the foregoing Medicaid or Quest program. The foregoing mandate applies to mobile medical van programs offering telehealth services in counties with a population less than 250,000.

Although I support the expansion of telemedicine and telehealth initiatives due to their potential to increase the availability of health care services to the public, the approach taken in Part II of this bill is inappropriate.

The expansion of telehealth services provided for in this bill would have to be funded entirely by state dollars, since this expansion of services has not received federal approval, and is therefore ineligible for federal reimbursement. Indeed, the mobile medical van envisioned in this bill may offer services in conflict with federal requirements and be ineligible for funding. General funds to cover the costs of these services are not included in the bill, and therefore this bill presents the Department of Human Services with an unfunded mandate.

Enacting this bill would also set an undesirable precedent of statutorily requiring the Department of Human Services to cover the cost of a service over which it has no authority for prior review and approval. Because of the significant growth in the Medicaid budget, the Department of Human Services is continually looking at approaches to reduce costs without compromising patient safety. The provisions of this bill are an impediment to the efforts by the Department of Human Services to responsibly manage the program.

For the foregoing reason, I am returning Senate Bill No. 2491 without my approval.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2534, entitled "A Bill for an Act Relating to Bail."

This bill requires any law enforcement agency in the county in which the person is detained to accept cash bonds, surety bonds, and recognizance bonds on weekends and holidays, to allow for the prompt discharge of a person from custody or imprisonment. It requires that the payment of a bond to a law enforcement agency be accompanied by a bond filing fee of $60, payable in cash, and allocates the fee between the processing agency and the State general fund.

This bill is objectionable because it would adversely impact the workload of law enforcement agencies that are not staffed or trained to handle this function.

The definition of "law enforcement agency" in this bill is very broad. It could apply to the Sheriff and Narcotic Enforcement Divisions of the Department of Public Safety, the Department of Taxation, the Insurance Division of the Department of Commerce and Consumer Affairs, the Harbors Division of the Department of Transportation, the Conservation and Resources Enforcement Division of the Department of Land and Natural Resources, the Benefit, Employment and Support Services Division of the Department of Human Services, the Department of the Attorney General, the county liquor commissions, and the county prosecutors.

All of these law enforcement agencies may be required to establish weekend and holiday units that would be available to receive bail bonds and bond filing fees and have the capability to process these receipts, verify the custody status of the defendant, communicate with the custodial agencies, effectuate the release of the defendant, and follow up with the courts. Most of these agencies do not have the resources or capabilities to address the new responsibilities created by this bill.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2547, entitled "A Bill for an Act Relating to Small Boat Harbors."

The purpose of this bill is to impose a condition on small boat harbor commercial permittees to require a crew member to accompany all fare paying passengers that the permittee expects will visit and participate in recreational activity on state property adjacent to quasi-public property in a county of less than 150,000 population.

Although I understand the frustration of the residents of Lanai, this bill is objectionable because this is not the correct way to address the problem. This bill requires the Department of Land and Natural Resources to impose and enforce a permit condition on permittees using a state boating facility as a means of resolving land-based conflicts on non-state land. This is not the best use of the resources of the Department of Land and Natural Resources.

Further, the bill would be difficult to enforce. Enforcement of the condition set forth in this bill would require the Department of Land and Natural Resources to prove that the permittee has the expectation that its fare paying passengers will visit and participate in recreational activity on state property adjacent to quasi-public property before the conclusion of the excursion. It is counterproductive to require a permit condition that the Department of Land and Natural Resources either cannot, or does not have the resources to, enforce.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2566, entitled "A Bill for an Act Relating to Medical and Rehabilitation Benefits."

The purpose of this bill is to provide under the State's workers' compensation law, that a physician or surgeon may conduct diagnostic testing or engage in a one-time consultation with a specialist, and the request for or provision of such diagnostic services shall not be subject to contest by an insurer or employer. Furthermore, this bill provides that the one-time consultation may be made regardless of whether the specialist works in a medical facility in which the physician or surgeon has a financial interest.

This bill is objectionable because it unnecessarily increases workers' compensation costs in Hawaii by creating an unintended bias against employers and insurance carriers, who pay for the workers' compensation treatments. This measure denies them the opportunity to challenge services that may not be medically necessary. In addition, because it allows a consultation at a medical facility in which the referring physician or surgeon has a financial interest, this bill may allow situations to occur that involve a conflict of interest.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2610, entitled "A Bill for an Act Relating to Conveyance Tax."

The purpose of this bill is to require the Department of Taxation to provide free digital images of property conveyance certificates to county real property assessment divisions within ten days after the end of each week, or as soon thereafter as possible.

This measure is objectionable because it forces the Department of Taxation to reprioritize its workload to serve the counties' interests, to the detriment of the State. It is also objectionable to prevent the Department of Taxation from charging the counties for work that serves their real property assessment divisions.

This bill negatively impacts state tax collections by requiring the Department of Taxation to scan and provide conveyance certificates to the counties on a weekly basis. Currently, the Department of Taxation provides approximately 1,000 to 1,500 hardcopies of conveyance certificates to county real property assessment divisions on a weekly basis, and the Department also scans conveyance certificates after each year's tax season for its own archival purposes.

Unless the requirement to provide these images "ten days after the end of each week, or as soon thereafter as possible" can be interpreted to allow the Department to provide the digital images after tax season, this measure effectively gives the same priority to scanning conveyance certificates as scanning tax documents, tax returns, and payment vouchers. Given that the collection of state taxes is of the utmost importance, it is objectionable to prioritize the counties' needs on the same level as that of the State's.

While I support and promote the use of technologies to expedite the work flow of public agencies, it is inappropriate for the Legislature to require the Department of Taxation to undertake this task to the detriment of other State business.

State of Hawaii

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2849, entitled "A Bill for an Act Relating to the Hawaii Employer-Union Health Benefits Trust Fund."

The purposes of this bill are to: (1) require all moneys appropriated to the Hawaii Employer-Union Health Benefits Trust Fund ("EUTF") to be transferred directly to the EUTF and not be subject to budget allotment procedures or the powers of the Governor and Director of Finance; (2) change the voting structure of the EUTF board of trustees so that each trustee has one vote and the votes of six trustees are required for any action; and (3) add "surplus" to the description of what is to be held in trust for the exclusive use and benefit of EUTF beneficiaries, and not be subject to appropriation or transfer for any other purpose.

This bill is objectionable because it categorically exempts moneys appropriated for contributions to the EUTF from the allotment system. This system is necessary to control state expenditures, effectuate savings, promote efficient management of state agencies, and ensure general fund expenditures do not exceed general fund revenues, as required by the State Constitution. Under this bill, contributions would have to be made to the

EUTF even if the EUTF does not need the contributions to cover the State's share of health benefit plan costs or the general fund expenditures exceed general fund revenues.

In addition, the bill is objectionable because it creates ambiguity and confusion over when appropriations are to be transferred to the EUTF and how much is to be transferred. Appropriations for the State's contributions to the EUTF are based on the Department of Budget and Finance's estimate of the State's share of EUTF benefit plan costs each year. This is because the number of beneficiaries enrolled in EUTF benefits plans changes constantly and premium costs or rates also change during the fiscal period. Under current law, the Department is required to pay the EUTF a monthly contribution for each of the State's EUTF beneficiaries, and the amount is used toward the payment of their EUTF benefit plan costs. Specifically, sections 87A-32(2) and 87A-33, Hawaii Revised Statutes, require that the monthly contribution shall not exceed the actual cost of the health benefit plans. Under this bill, the Department would essentially pay the estimated EUTF contributions on the first day of each fiscal year, which for fiscal year 2010-2011 amount to $478,025,239 as appropriated in the State supplemental budget. This conflict with current law would make it impossible to properly administer payments to the EUTF if this bill became law.

For the foregoing reasons, I am returning Senate Bill No. 2849 without my approval.

Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2883, entitled "A Bill for an Act Relating to Employment Practices."

The purpose of this bill is to make it an unlawful practice for an employer to bar or discharge from employment, withhold pay from, or demote an employee because the employee uses accrued and available sick leave. The prohibition applies to employers who have a collective bargaining agreement and employ one hundred or more employees.

This bill is objectionable because the bill gives to the State Department of Labor and Industrial Relations the authority to find an employer in violation of state law if the employer bars, discharges from employment, or withholds pay from an employee. This determination will likely require the interpretation of the employer's negotiated sick leave and negotiated sick leave policies under a collective bargaining agreement. In Lingle v. Norge, 486 U.S. 399, 406, 108 S. Ct. 1877, 1881 (1988), the United States Supreme Court held that under section 301(a) of the Labor Management Relations Act of 1947, 29 U.S.C. section 185(a), state law is preempted if the state law depends upon the interpretation of the meaning of the collective bargaining agreement. This bill will likely require such an interpretation and therefore is preempted by federal statute.

This bill is also objectionable because the terms "legitimate use" of sick leave and "abuse of sick leave" used in the bill are vague and not defined, making enforcement and administration of its provisions difficult.

For the foregoing reasons, I am returning Senate Bill No. 2883 without my approval.

The purpose of this bill is to require the Department of Public Safety ("PSD") to provide security for the Hawaii State Hospital.

While the security of this facility is paramount, this bill is objectionable because this added responsibility will require resources that PSD does not have and that the Legislature has not adequately provided. Securing the entire Hawaii State Hospital ("HSH") requires an extraordinary amount of additional personnel, training and expertise. The population at HSH and its special needs also require security personnel to have a different kind of training specifically geared toward addressing situations that can be anticipated with this resident population that suffer the full spectrum of mental health disorders. Pursuant to Section 16 of Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2951, entitled "A Bill for an Act Relating to Agriculture."

The purpose of this bill is to provide additional remedies to lessees of public land leases for intensive agricultural and pasture uses upon the withdrawal or taking of leased lands and to extend all remedies to such lessees when an easement is placed on the leased land that prevents the lessee from using the land as originally intended.

This bill is objectionable because it disproportionately and inappropriately compensates these lessees of public lands above other lessees of State lands. Current law, as embodied in Chapter 171 of Hawaii Revised Statutes, already provides procedures for the withdrawal of leased lands. Lessees must be given reasonable notice of the planned withdrawal. Their lease rents must be adjusted to reflect the portion of lands withdrawn and they must be compensated for the value of any improvements on the withdrawn portion. Further, if there are crops on the land, the lands cannot be withdrawn until the crops are harvested or the State pays for the value of the crops.

It should be noted these lessees have been paying rent well below market rates and enter into the leases knowing that leased land may be withdrawn for public purposes. Extraordinary compensation for costs attributable to the diminished use of the leased land, for the value of breeding stock that are not a part of the real property, and for the placement of easements, will discourage and impede the use of public land for valid and necessary public purposes.

This bill authorizes the Judiciary to assess fees on the public for the copying of court documents, but allows the court to exempt state agencies from these fees.

While I understand that it takes resources to copy court records, I remain concerned with the practice of continuing to operate government programs and services by burdening the public with higher fees. I am particularly concerned that this proposed fee structure would come at a time when our residents are dealing with economic challenges and many are having difficulty making ends meet.

Further, the fiscal impact on the public is not known since the bill gives the courts the ability to set the fees. I would urge the members of the Judiciary to be mindful that many of the people who must use our court system are of modest socio-economic means. They should not be denied legitimate access to legal records because they cannot afford to pay the fees imposed.

This bill authorizes the Department of Education to assess fees for parking on roadways and parking areas under its jurisdiction, and to adopt administrative rules relating to the assessment and collection of parking fees.

The intent of the bill is to create another source of revenue for the Department of Education. I remain concerned with the practice of continuing to operate government programs and services by burdening the public with higher fees during difficult economic times. Further, the exact fiscal impact on the public is unknown since the bill does not specify who will be assessed parking fees and the parameters and scope of fee assessment and collection.

I am also concerned that the deposit of parking fees into the Department of Education's Use of School Facilities special funds does not meet the criteria of Section 37-52.3, Hawaii Revised Statutes, which states that special and revolving funds should: 1) reflect a clear nexus between the benefits sought and charges made upon the users and beneficiaries of the program; 2) provide an appropriate means of financing for the program or activity; and 3) demonstrate the capacity to be financially self-sustaining.

"Dear Mr. Speaker and Members of the House:

Re: Senate Bill No. 2469 SD2 HD2 CD1

On July 6, 2010, Senate Bill No. 2469, entitled "A Bill for an Act Relating to the Emergency and Budget Reserve Fund" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to appropriate a total of $23,717,136 from the Emergency and Budget Reserve Fund (EBRF) to 42 state programs or non-profit organizations to maintain various programs in fiscal year 2010-2011.

Although I understand the intent of this measure, the State continues to face a precarious fiscal future. It is unlikely State revenues will reach pre-recession levels until 2012 and prudent fiscal management requires the State to retain its reserves in the event serious financial or non-financial emergencies occur during the interim.

While I am allowing this bill to become law without my signature, it is important to note that each appropriation must still be scrutinized by the designated expending agency as well as the Department of Budget and Finance prior to the release of funds. I have instructed the Departments to not take actions to consider any of the proposed appropriations in this bill until after the first quarter of FY 2011 is completed and updated Council on Revenues estimates are available.

For the foregoing reasons, I allowed Senate Bill No. 2469 to become law as Act 191, effective July 6, 2010, without my signature.

"Dear Mr. Speaker and Members of the House:

Re: House Bill No. 2542 HD1 SD2 CD1

On July 6, 2010, House Bill No. 2542, entitled "A Bill for an Act Relating to Non-General Funds" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to reallocate an estimated $100,000,000 from various non-general funds and programs to the general fund. This measure transfers $46,000,000 from specific non-general funds to the general fund on July 1, 2010; and retains in the general fund approximately $54,000,000 in cigarette tax distributions that are intended for health-related programs from July 1, 2010 to June 30, 2013.

This measure originally would have transferred a total of $10,000,000 from five non-general funds to the general fund. However, this measure was significantly amended to transfer $46,000,000 from 25 different non-general funds, and withhold another $54,000,000 in cigarette tax distributions from three health special funds. While I understand the need to fill the state budget deficit, I am concerned that the magnitude of these reallocations will negatively impact the operation of many important public programs and services.

Although this measure authorizes the Director of Finance to transfer a total of $46,000,000 from various non-general funds to the general fund on July 1, 2010, I do not believe all these transfers are appropriate. To ensure programs and services will not be dramatically impacted, transfers will only be made by the Director of Finance in cases where they have been determined to be appropriate and necessary.

Also I am concerned that any reduction of moneys in the State Highway Fund will further impact our ability to repair and maintain the roadways in our State. I have worked hard to ensure these funds remain intact for much needed repairs.

For the foregoing reason, I allowed House Bill No. 2542 to become law as Act 192, effective July 6, 2010, without my signature.

Re: House Bill No. 1818 HD2 SD2 CD1

On July 6, 2010, House Bill No. 1818, entitled "A Bill for an Act Relating to Cognitive Restructuring" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to authorize the Department of Public Safety to offer reentry/reintegration programs within Hawaii's correctional facilities that include cognitive behavioral therapy with cultural and other interventions. This measure also requires the Department of Public Safety to submit an annual report to the Legislature on these programs in Hawaii's correctional facilities no later than twenty days prior to the convening of each regular session, beginning with the regular session of 2011.

Although I support the implementation of reentry programs that are effective and help offenders transition back into the community, the Department of Public Safety already has the authority to implement the types of programs specified in this measure. Thus, this bill is unnecessary. Moreover, this legislation does not address the level of funding for such programs, which is the primary impediment to conducting these and other kinds of programs and treatments.

Additionally, the provision of this bill that requires the Department of Public Safety to report certain statistical and demographic data fails to define key terms, such as "native Hawaiian" and "recidivism", which are important for the collection of accurate and useful data.

For the foregoing reasons, I allowed House Bill No. 1818 to become law as Act 193, effective July 6, 2010, without my signature.

On July 6, 2010, House Bill No. 2266, entitled "A Bill for an Act Relating to Corrections" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to require the Department of Public Safety to place priority upon establishing appropriate counseling services for sexual assault within twenty-four hours of the report of an assault, and to issue policies and standards to achieve a zero-tolerance policy regarding sexual assault. In addition, this bill requires the Department of Public Safety to provide an annual report to the Legislature about its efforts to implement the federal Prison Rape Elimination Act of 2003 (PREA).

The Department of Public Safety already has implemented policies and procedures that accomplish the measure's stated purpose. The Department provides counseling services for sexual assault victims and currently has a zero tolerance policy on sexual assault. Consequently, this legislation is duplicative and unnecessary.

Additionally, implementing regulations have not yet been adopted by the Federal Government for PREA, making this bill's reporting requirements on PREA implementation premature.

For the foregoing reasons, I allowed House Bill No. 2266 to become law as Act 194, effective July 6, 2010, without my signature.

On July 6, 2010, House Bill No. 2289, entitled "A Bill for an Act Relating to Gift Certificates" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to amend Hawaii's gift certificate law by (1) extending the minimum expiration date on certain gift certificates from two to five years; (2) conforming Hawaii's definition of "gift certificate" to the definition under federal law; and (3) permitting issuers of gift certificates to charge a limited activation fee.

I support extending the minimum expiration date on gift certificates and conforming Hawaii's definition of "gift certificate" to the federal definition as these amendments have the potential to benefit consumers. However, I question permitting gift card issuers to charge an activation or issuance fee for the purchase of a gift card. Currently, such fees are prohibited under Hawaii law. This bill does limit the fee to the lesser of ten percent of the face value of the certificate or $5, and requires the fee to be disclosed in advance.

I understand the fees will cover some of the cost of producing, shipping and marketing gift cards. Nevertheless, I would have preferred that the current total prohibition on fees be kept intact, as Hawaii consumers deserve to have their money go towards the items that may be purchased with the gift cards, and not fees imposed by the card issuers.

For the foregoing reasons, I allowed House Bill No. 2289 to become law as Act 195, effective July 6, 2010, without my signature.

On July 6, 2010, House Bill No. 2832, entitled "A Bill for an Act Relating to Taro Security" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

This bill authorizes the Office of Hawaiian Affairs (OHA) to seek available federal, state, county or private funding to restore taro and lo'i cultivation. The bill also requires the Taro Security and Purity Task Force to submit reports to the 2014 and 2015 legislative sessions.

This bill raises several concerns. First, it should be noted that OHA already has the authority to seek federal, state, local and private funding for projects. Thus this bill does not grant that organization any powers it does not already possess.

However, the measure is troubling in that it proposes the implementation of recommendations that may not be in the best interests of the public, including the taro farming community. It would be unfortunate if projects were undertaken that did not address the needs and concerns of commercial taro growers that provide the foodstuff many of us enjoy and depend on. The bill would also support implementation of proposals that would violate other sections of the Hawaii Revised Statutes, including the manner in which fair lease rents are determined for the use of public lands.

I urge OHA and members of the Task Force to proceed with caution and to ensure that projects are in the best interest of all of the residents of our islands.

For the foregoing reasons, I allowed House Bill No. 2832 to become law as Act 196, effective July 6, 2010, without my signature.

Re: House Bill No. 2919 HD1 SD2 CD1

On July 6, 2010, House Bill No. 2919, entitled "A Bill for an Act Relating to the Employees' Retirement System" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to allow sewer maintenance, service and inspection supervisors enrolled in the State Employees' Retirement System (ERS) to retire early like their sewer worker subordinates, starting on July 1, 2011.

Although I am not opposed to providing equal benefits for equal work, and do not believe government employees working in the same capacity should be treated differently, I am fundamentally concerned with whether ERS benefits provided at current levels are financially sustainable. Over the years, the expansion of ERS benefits has led to increases in unfunded liability, which only eased recently with the moratorium on benefits expansion, pursuant to Act 256, Session Laws of Hawaii 2007. However, the current ERS unfunded liability is approximately $6.2 billion and the moratorium is expected to sunset on January 2, 2011.

This large unfunded liability calls into question whether retirement benefits can be maintained at current levels. Just as Hawaii's Medicaid benefits must be restructured to ensure the program remains financially sustainable and available to help the State's most needy; ERS benefits, such as early retirement benefits, must also be reassessed to ensure the system remains financially sustainable to provide for future retirees. Although current retirement benefits have already been promised to certain state and county employees, we must consider whether those benefits are reasonable and financially feasible in the future.

For the foregoing reasons, I allowed House Bill No. 2919 to become law as Act 197, effective July 6, 2010, without my signature.

Re: Senate Bill No. 2545 SD2 HD2 CD1

On July 6, 2010, Senate Bill No. 2545, entitled "A Bill for an Act Relating to Intoxicating Liquor" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

This bill has several purposes. First, it creates a new class of liquor license to regulate certain "bring-your-own-beverage" establishments. Second, it changes the conditions of Class 14 brewpub licenses on brewpubs. Third, this bill attempts to create an exemption to the liquor liability insurance requirements for certain retail dealers.

The provisions of this bill regarding bring-your-own-beverage (BYOB) establishments, balances the right of the public to peace and safety with the right of the business community to operate without unduly burdensome regulation. The brewpub amendments contained in this bill are also satisfactory.

Unfortunately, I find the last portion of this bill more emblematic of the legislation that typically reaches my desk. During the 2009 session, the Legislature passed Act 177, which imposed a blanket requirement for $1,000,000 in liquor liability insurance for hundreds of local businesses. In my Statement of Concerns, I noted that the bill would likely put some small establishments out of business.

The measure now before me, Senate Bill No. 2545, incorporates an attempt to mitigate the adverse impacts of last year's Act by creating an exemption for certain businesses. Unfortunately, the language is poorly

drafted. Exempting "convenience minimarts" without a clear definition of what a "convenience minimart" is creates confusion and is unlikely to help the small businesses that need it the most. This bill makes a feeble attempt at defining a "convenience minimart" as a "mom and pop store," but also fails to define what qualifies as a "mom and pop store." Does this automatically exclude unmarried owners of small convenience stores or persons who are related but not married? This ambiguity is unfortunate because it involves the livelihood of island families.

However, because of the multi-faceted nature of this bill, a veto of this measure would stifle the beneficial provisions. The flawed language in this bill regarding liquor liability insurance will have to be corrected in a future legislative session. The public would be better served if the Legislature considered the impacts of burdensome regulation before enacting laws, not afterwards. This would avoid multi-year attempts at fixing legislation after the fact, as we see here with this bill.

For the foregoing reasons, I allowed Senate Bill No. 2545 to become law as Act 198, effective July 6, 2010, without my signature.

Re: House Bill No. 2698 HD2 SD2 CD1

On July 6, 2010, House Bill No. 2698, entitled "A Bill for an Act Relating to Technology" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to require the Director of Commerce and Consumer Affairs to promote telework and the expansion of broadband services in the State. This bill also requires the administrator of the Department of Commerce and Consumer Affair's Cable Television Division to: (1) convene and chair the Telework Promotion and Broadband Assistance Advisory Council and advise the Department of Commerce and Consumer Affairs on promoting telework and broadband services in the State, and (2) convene a work group to discuss and develop procedures to streamline the State and County permitting process for broadband services. This measure also appropriates moneys from the Compliance Resolution Fund for fiscal year 2010-2011 to fund telework and broadband activities, and requires DCCA to report annually to the legislature on all expenditures of federal moneys received pursuant to the American Recovery and Reinvestment Act (ARRA) of 2009.

This bill represents a modest approach to the advancement of broadband services in the State of Hawaii. Far more comprehensive broadband initiatives were under consideration by the Legislature, including proposals introduced by the Senate Majority, House Majority, House Minority, and this Administration. These alternative proposals recognized the evolution and convergence of telecommunications technology by consolidating regulation of communications services (cable and telephone) under a new Hawaii Communications Commission, in order to expedite the availability of the latest communications services at the earliest possible time to Hawaii's residents. The Commission would have been funded from existing fees and would have been directed to achieve transformational goals, including creating broadband access on a competitive basis at reduced prices, increasing service penetration and quality, streamlining the permit process, and providing access to businesses and residents by 2012 at prices and speeds that would have made Hawaii a world leader. Regrettably, the Legislature decided to pass this bill instead, which, although helpful, is primarily concerned with promotion, advocacy and advice with respect to broadband matters.

Additionally, this measure adds functions related to telework to the responsibilities of the Department of Commerce and Consumer Affairs that are not a part of its core mission. The Department's function is to protect consumers from unfair business practices while "upholding fairness in the marketplace." The Department's mission does not and should not include promoting telecommuting by state and county employees.

For the foregoing reasons, I allowed House Bill No. 2698 to become law as Act 199, effective July 6, 2010, without my signature.

Re: Senate Bill No. 2548 SD2 HD1 CD1

On July 6, 2010, Senate Bill No. 2548, entitled "A Bill for an Act Relating to Information Technology" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to establish the position of Chief Information Officer within the Office of the Governor, create an Information Technology Steering Committee within the Governor's office, and set up a Shared Services Technology Special Fund to be funded by an unspecified percentage of central services fees. This bill also requires the Governor to submit a report to the 2011 Legislature recommending the state agency to house the Chief Information Officer, the funding level for the special fund, and legislation necessary to implement the Governor's recommendations.

I support improvements in Information Technology (IT) management and my Administration has demonstrated this through leadership that has automated numerous state functions that now allow the public to interact with state agencies electronically. We have also consolidated State Information Technology functions and enhanced the functions of the Information and Communication Services Division (ICSD) within the Department of Accounting and General Services (DAGS).

This legislation raises legal, fiscal and structural concerns that will need to be addressed in future legislation.

First, by failing to place the Chief Information Office and Steering Committee within a principal department, this bill likely violates Section 6 of Article V of the State Constitution which requires all executive offices, departments and instrumentalities of the State to be allocated within one principal department. A permanent location will need to be found for this office, which is recognized by this bill since it instructs the next Governor to determine where the function should be located.

Further this bill does not appear to provide an organizational structure or framework within which the Chief Information Officer can effectively manage and oversee statewide information technology governance. This bill has the Chief Information Officer bypassing the Director of DAGS and supervising the Department's ICSD. This creates reporting difficulties for the ICSD staff and will blur the lines of accountability for information technology functions.

Additionally, the special fund established in this bill does not meet the requirements of Section 37-52.3 and 37-52.4 of the Hawaii Revised Statutes which require such funds to have a clear nexus between the benefits sought and the charges levied. The bill does not create an appropriate means of financing the information technology functions.

Fortunately the Legislature recognized these failings and the measure contains language asking the Governor to propose legislation to correct these flaws.

For the foregoing reasons, I allowed Senate Bill No. 2548 to become law as Act 200, effective July 6, 2010, without my signature.

Re: Senate Bill No. 2817 SD1 HD1 CD1

On July 6, 2010, Senate Bill No. 2817, entitled "A Bill for an Act Relating to Solar Energy Devices" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to require private homeowners associations to revise their rules by July 1, 2011, so as not to impose conditions or restrictions that render a solar energy device more than 25 per cent less effective; increase the cost of installation, maintenance, and removal of a solar energy device by more than 15 per cent; or until June 20, 2015, require an encumbrance on title because of the placement of the solar energy device.

Solar energy technology remains an integral part to achieving Hawaii's 70% clean energy goals by 2030. I believe that facilitating access to and expanding the use of renewable energy technology, such as solar energy panels, helps the community achieve this critical goal.

However, I am concerned that this bill gives too much latitude to homeowners in community, condominium, and apartment associations. The legislation fails to address installation and placement of solar energy devices and does not consider the necessity for association control over common areas and structural elements. This bill impacts the planned community associations' ability to monitor community aesthetics and uniform conditions which may adversely impact the property values of homeowners.

Further, the bill would limit the ability of homeowner associations for a period of five years to ensure that the liability and costs of these devices are properly borne by the individual homeowner who benefits from its installation. Exposing homeowners associations to the electrical costs, repairs, maintenance and possible damage caused by a solar device without recourse to take action against the homeowner's property could create undue fiscal and legal liabilities.

For the foregoing reasons, I allowed Senate Bill No. 2817 to become law as Act 201, effective July 6, 2010, without my signature.

Re: Senate Bill No. 2386 HD1 CD1

On July 6, 2010, Senate Bill No. 2386, entitled "A Bill for an Act Relating to the University of Hawaii Capital Improvements Program Project Assessment Special Fund" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to create a University of Hawaii Capital Improvements Program Project Assessment Special Fund to cover certain administrative costs, including staff salaries, involved in carrying out capital improvements program projects managed by the University. The special fund is to be funded by assessments made on capital improvement projects that are managed by the University.

My Administration remains concerned with the practice of using borrowed funds to pay short-term costs, such as salaries and administrative expenses. Such a practice increases the debt burden of a jurisdiction, is misleading regarding the current and future costs of government operations, and results in considerably higher operating costs when both principal and interest are calculated as part of the carrying costs for these personnel.

I am also concerned that the special fund does not meet the requirements of Sections 37-52.3 and 37-53.4, Hawaii Revised Statutes, including: 1) reflecting a clear nexus between the benefits sought and the charges made; 2) providing an appropriate means of financing for the program or activity; and 3) demonstrating the capacity to be financially self-sustaining.

Re: House Bill No. 2084 HD1 SD1 CD1

On July 6, 2010, House Bill No. 2084, entitled "A Bill for an Act Relating to the Federal Disproportionate Share Hospital Funds" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to extend the lapse date to June 30, 2011 for a $12,291,054 appropriation out of the general fund authorized by Act 23, Special Session Laws of Hawaii 2009. The appropriation would serve as a State match required to access $15 million in federal funding available through the federal Disproportionate Share Hospital payment program.

Although the purpose of this bill holds merit, the State general funds continue to show revenue levels considerably below operating costs. As a result the State has had to postpone making payments, cut funding to selected programs, and reduce staffing. The state's six year financial plan reflects the assumption that money lapses. Since the appropriation in Act 23 was valid until June 30, 2010 but this bill did not take effect until July 6, 2010, after the lapse date, the provisions of this bill are effectively moot.

I am proud my Administration has found innovative approaches to drawing down additional federal Medicaid money through a special waiver program arranged by the State Department of Human Services. Hospitals in Hawaii have received a total of $84 million in additional federal money since 2005, including $14.4 million in fiscal year 2010 to help cover charitable and uncompensated care. Using federal rather than State funds to help our hospitals is the most prudent approach during these lean budget times.

Re: Senate Bill No. 2461 SD2 HD2 CD1

On July 6, 2010, Senate Bill No. 2461, entitled "A Bill for an Act Relating to Transportation" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to raise the rental motor vehicle customer facility surcharge from $1.00 per day to $4.50 per day, effective September l, 2010; and appropriate funds from the Rental Motor Vehicle Customer Facility Charge Special Fund for the planning, design, and construction of consolidated rental car facilities at our state airports.

I support the State Airport Modernization Plan and other initiatives that improve motor vehicle facilities and services at Hawaii's airports. This not only attracts visitors and businesses to Hawaii, but also improves our state's reputation as a world class destination.

I previously expressed concern about the fiscal impact of Act 226, Session Laws of Hawaii 2008, which established the $1.00 per day surcharge on car rentals at Hawaii airports. I continue to have reservations with this bill because the significant impact of $4.50 per day surcharge may negatively affect the visitor industry by increasing the cost of vacationing in Hawaii. The fee would cost an additional $45,000,000 per year and comes at a time when the State is trying to encourage and support visitor arrivals, not make it more costly to come and enjoy Hawaii.

In addition, I also note that the surcharge special fund will lose an estimated $1,700,000 in revenue during the months of July and August 2010, after the current $1.00 surcharge is repealed on July 1, 2010 and before the new $4.50 surcharge is imposed on September l, 2010.

Re: House Bill No. 2774 HD2 SD2 CD1

On July 6, 2010, House Bill No. 2774 entitled "A Bill for an Act Relating to Human Services" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purposes of this bill are to lift the restriction on the use of generic psychotropic medications for patients on Medicaid; to adjust the state death benefit to match the Federal Social Security Administration death benefit; and to limit the ability of the Administration to effectively use Medicaid moneys to address job creation and economic recovery.

The lifting of the restriction on the use of generic brand medications will help address the growing costs of prescription drugs for those patients that rely on psychotropic medicines. Requiring the State to only pay for brand name medications has placed an undue cost on the program without any proof that lower-cost generic drugs can not satisfactorily treat these patients.

Likewise, the bill ensures that the relatives of low-income individuals receiving government assistance payments receive similar lump sum amounts when the recipient passes away. This will have a modest cost savings for the state and provide equity in the treatment of these individuals who receive public assistance.

It is troubling that this bill contains a restriction against allowing my Administration and the next Administration to propose creative ideas on the use of federal and state Medicaid funds. Earlier this year, with the approval of senior federal officials in Washington DC, we launched the Hawaii Premium Plus program. This program allows the State to use Medicaid funds to help offset the health care costs of new employees. This helps overcome one of the barriers employers face when deciding whether to hire or rehire an individual during difficult economic periods.

I am pleased that the program was approved by the Centers for Medicare and Medicaid Services (CMS) and the Department is working with local employers to start the hiring process. I am concerned that the ambiguities created by this bill's language made some businesses hesitant to participate and has cost us precious time in starting to enroll the unemployed in new jobs. This is indeed unfortunate, since getting people off of unemployment and back into the work force should be our united goal.

It should be noted that based on our legal analysis of this measure, we conclude the funding cap applies only to the state portion of the funds that will be spent for the Hawaii Premium Plus program.

For the foregoing reasons, I allowed House Bill No. 2774 to become law as Act 205, effective July 6, 2010, without my signature.

Gov. Msg. No. 460, dated July 7, 2010, informing the House that on July 6, 2010, pursuant to Section 16 of Article III of the State Constitution, the following bill became law without her signature, stating:

"Dear Mr. Speaker and Members of the House:

Re: Senate Bill No. 466 SD2 HD1 CD1

On July 6, 2010, Senate Bill No. 466, entitled "A Bill for an Act Relating to Pollution" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to ban the use of leaf blowers in or around residential areas except, between 8:00 a.m. to 6:00 p.m. on Mondays through Saturdays and 9:00 a.m. to 6:00 p.m. on Sundays and state or federal holidays. This bill also prohibits persons from operating a leaf blower in such a way that debris is deposited onto adjacent properties or public rights of way. The bill imposes a maximum fine of $500 on violations. This ban does not apply to government entities operating leaf blowers and is effective July 1, 2010.

Although leaf blowers can be a nuisance, it is unfortunate that a specific type of landscaping equipment is being considered for regulation by law because neighbors cannot communicate with each other, or do not have the common courtesy to operate this equipment responsibly. Moreover, it is uncertain whether enforcement of this ban will be effective since leaf blowers are portable and citations cannot be issued without proof of violations.

However, the exceptions provided for in this ban still allow landscaping companies to operate during regular business hours and allows homeowners to do yard work on weekends and holidays.

For the foregoing reasons, I allowed Senate Bill No. 466 to become law as Act 206, effective July 6, 2010, without my signature.

Sincerely,

"Dear Mr. Speaker and Members of the House:

Re: House Bill No. 2283 HD2 SD1 CD 1

On July 6, 2010, House Bill No. 2283, entitled "A Bill for an Act Relating to Public Procurement" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to require public employees, and actual or prospective bidders, offerors, contractors, and businesses, when participating in public procurements, to do so in an ethical manner. The bill provides for specific ethical standards.

I support ethical practices in public procurement. This measure is redundant of existing administrative rules. Similar standards of ethical behavior are already required of public procurement participants by Hawaii Administrative Rule section 3-131-1.02. Consequently, this bill is another example of unnecessary legislation.

For the foregoing reasons, I allowed House Bill No. 2283 to become law as Act 207, effective July 6, 2010, without my signature.

Sincerely,

Gov. Msg. No. 462, dated July 7, 2010, informing the House that on July 6, 2010, pursuant to Section 16 of Article III of the State Constitution, the following bill became law without her signature, stating:

"Dear Mr. Speaker and Members of the House:

Re: Senate Bill No. 2165 SD1 HD2 CD1

On July 6, 2010, Senate Bill No. 2165, entitled "A Bill for an Act Relating to Private Guards" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to impose new registration, training, classroom instruction, education, and criminal history requirements for all guards and employees of guard agencies who act in a guard capacity. In so doing, this measure repeals the current regulatory exemption for guards who are employed solely by an employer in connection with the affairs of the employer. The new registration requirements take effect July 1, 2013, and are repealed on July 1, 2016.

Raising the professional standards for security guards in Hawaii is an admirable goal. However, I have concerns about some of the impacts of these new registration requirements on business and industry in Hawaii, as well as the amount of state resources it will take to implement these new requirements.

First, the costs associated with guard services for certain private employers will likely increase since this bill mandates that the guard employees of any private business entity that provides its own in-house guard services are now subject to regulation. Some members of the retail industry have indicated that these new requirements are manageable, and believe that rule-making by the Board of Private Detectives and Guards will afford them the opportunity to craft appropriate procedures to implement these new registration requirements. I support them in this effort.

Second, there are cost and staffing implications for the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, an estimated 10,700 individual guards will require registration. Prior to implementation of the new registration requirements, the Division will need the staff and resources to meet these demands. Given current fiscal realities, this may not be the best use of limited resources. Moreover, this bill would require the establishment of procedures to register all guards, promulgation of rules to effectuate this measure, and the expenditure of moneys for implementation, only to have the law sunset on July 1, 2016.

Third, it may not be appropriate to apply these new registration and training requirements to armored car guards. Guards in the armored car industry have their own training standards, as the function of armored car guards is substantially different from the duties of other security guards. Consequently, the public and the industry would likely be better served with separate training requirements for armored car guards. I encourage stakeholders in the armored car industry to become involved in the rulemaking process, so that their concerns might be addressed. Additionally, there is still time to address these and other concerns via statutory amendment prior to implementation of the new registration requirements in 2013.

For the foregoing reasons, I allowed Senate Bill No. 2165 to become law as Act 208, effective July 6, 2010, without my signature.

Sincerely,
/s/ Linda Lingle

Re: House Bill No. 979 HD1 SD1 CD1

On July 6, 2010, House Bill No. 979 entitled "A Bill for an Act Relating to the Environment" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

This bill temporarily authorizes moneys from the Special Land and Development Fund and the Land Conservation Fund to be used for invasive species control and to promote reforestation.

Although species control, erosion control and reforestation are worthwhile activities, it is not appropriate to fund these programs at the expense of other high priority public projects and activities. The Land Conservation Fund is used to protect cultural, natural and historic resources through the purchase of private lands where these resources are located.

The Special Land Development Fund supports the operations of the Office of Conservation and Coastal Lands. I am particularly concerned that this fund also supports our Dam Safety programs that should remain a high priority with sufficient funding to protect the safety of the public. It would have been better if the Legislature had identified alternative sources of funding for invasive species control and reforestation projects.

For the foregoing reasons, I allowed House Bill No. 979 to become law as Act 209, effective July 6, 2010, without my signature.

Gov. Msg. No. 464, dated July 7, 2010, informing the House that on July 6, 2010, pursuant to Section 16 of Article III of the State Constitution, the following bill became law without her signature, stating:

"Dear Mr. Speaker and Members of the House:

Re: House Bill No. 1665 HD1 SD2 CD1

On July 6, 2010, House Bill No. 1665, entitled "A Bill for an Act Relating to Hawaiian Fishponds" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

Under current law (171-52 HRS) land acquired by condemnation that is in excess of the needs for which condemned, may be disposed of by the Board of Land and Natural Resources. This bill would prevent the Department of Transportation from asking the Board to dispose of two parcels that contain fishponds even though they were acquired by condemnation and are excess to the Department's needs.

While I understand the cultural and economic significance of preserving existing Hawaiian fishponds, I am concerned this bill will require the Department of Transportation to continue to maintain these properties when it has limited resources to do so.

The Department of Transportation has not been successful in convincing other government agencies to assume responsibility for these fishponds which require considerable maintenance. Federal law requires the Department to be compensated at fair market value for parcels which are acquired using federal funds. When a parcel is transferred, the fair market value must be recouped via another piece of land of equal or greater value. This bill did not address the fair market value issue and does not provide a mechanism to allow the transfer of these fishponds to another entity.

Given that the sale of state lands is currently subject to approval by the Legislature through concurrent resolution pursuant to chapter 171-64.7, Hawaii Revised Statutes, this measure also does not increase the protections for government-owned Hawaiian fishponds since the Legislature already retained the power to preserve them through their authority to approve or disapprove land sales.

For the foregoing reasons, I allowed House Bill No. 1665 to become law as Act 210, effective July 6, 2010, without my signature.

Sincerely,

Gov. Msg. No. 465, dated July 7, 2010, informing the House that on July 6, 2010, pursuant to Section 16 of Article III of the State Constitution, the following bill became law without her signature, stating:

"Dear Mr. Speaker and Members of the House:

Re: House Bill No. 2003 HD3 SD2

On July 6, 2010, House Bill No. 2003, entitled "A Bill for an Act Relating to Campaign Financing" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The primary purpose of this bill is to repeal and recodify, Chapter 11 of Hawaii Revised Statutes, the campaign spending laws.

I understand the need for a recodification of the campaign finance statute, and support such efforts to clarify their applicability. Nevertheless, although this measure is improved from House Bill No. 128 HD1 SD1 CD2, that I vetoed last year, it still retains certain provisions that were grounds for that veto with which I still have concerns. It also contains new provisions that raise equity issues.

First, this bill increases the limit on campaign contributions by nonresidents from the twenty percent presently specified in section 11-204.5, Hawaii Revised Statutes, to thirty percent of the total contributions received by a candidate or candidate committee in an election period. The Administration has taken the position that full disclosure of all contributions both Hawaii and mainland-based is more appropriate than artificial or politically-motivated limits on these contributions.

Second, this bill adds a new section that requires corporations to file reports with the Commission if they give donations of $1,000 or more in the aggregate. However, this provision does not apply to labor unions or related associations that may also contribute and who, as a matter of equity, should be subject to the same reporting requirements.

For the foregoing reasons, I allowed House Bill No. 2003 to become law as Act 211, effective July 6, 2010, without my signature.

Sincerely,

Gov. Msg. No. 466, dated July 7, 2010, informing the House that on July 6, 2010, pursuant to Section 16 of Article III of the State Constitution, the following bill became law without her signature, stating:

"Dear Mr. Speaker and Members of the House:

Re: House Bill No. 2318 HD2 SD1 CD1

On July 6, 2010, House Bill No. 2318, entitled "A Bill for an Act Relating to the Homeless" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to establish the Housing First Special Fund in the state treasury. Deposits to this special fund are to come from appropriations from the Legislature and gifts, donations, and grants from public agencies and private persons. The bill provides that each county may provide matching funds.

The bill also requires the Hawaii Public Housing Authority (HPHA), and the Department of Human Services, in consultation with the United States Department of Housing and Urban Development, to implement Housing First programs and services, as deemed appropriate, subject to the availability of funds.

Addressing the needs of the homeless has remained a priority for my Administration. Since 2006 we have built emergency shelters and transitional facilities to address the needs of families with children and adults who seek a clean, safe place to sleep at night. We have partnered with non-profit, private and faith-based organizations to establish a continuum of care that has provided pathways for thousands of families and individuals to move out of homelessness. But we also are cognizant more needs to be done.

This bill recognizes there are those within the homeless community who have been without shelter for extended periods. Many of them suffer from substance abuse or mental health issues. This measure attempts to address the needs of these chronically homeless but fails to provide sustainable, long term funding to tackle this problem.

This bill establishes the Housing First Special Fund, but does not contain an appropriation. Although $1,000,000 is appropriated out of the Emergency and Budget Reserve Fund through Senate Bill No. 2469, such funding is limited to only one year. A successful Housing First program would need to have dedicated funding for more than a year. Further it would be inappropriate to fund Housing First programs at the expense of current programs that serve those with children and those who are "clean and sober."

I am also concerned with the vague terminology in this measure. The bill defines "chronically homeless" as "a homeless individual who has an addiction or a mental illness, or both." "Addiction" and "mental illness" are undefined. The resulting impact of the definition of "chronically homeless" is that it is very broad. The definition covers individuals who have any kind of addiction or mental illness and do not have a home, regardless of the length of time or number of times spent without a home. Further, the bill fails to exclude persons who have the resources to rent or who have access to other housing alternatives. This does not serve the purpose of servicing the truly chronically homeless.

We should not underestimate the resources it will take to address this fact. I urge the departments involved to develop a reasoned, realistic funding plan that can be implemented over the coming years to mirror the

progress we have achieved to date in helping families, children and adults to regain a place to live.

For the foregoing reasons, I allowed House Bill No. 2318 to become law as Act 212, effective July 6, 2010, without my signature.

Sincerely,
/s/ Linda Lingle
