H.C.R. No. 3, entitled: "HOUSE CONCURRENT RESOLUTION RECOGNIZING THE IMPORTANCE OF 21ST CENTURY DATA GOVERNANCE FOR FACT-BASED POLICYMAKING," was offered by Representative Saiki, by request.

ANNOUNCEMENTS

Representative Belatti: "Thank you, Mr. Speaker. Point of personal privilege and may I ask if the Representative from Hawaii Kai will yield to a question? The question is, has the Minority Caucus elected you to be the minority leader of the caucus for the 2021 Legislative Session?"

At 12:09 p.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:11 p.m.

Representative Belatti: "Thank you, Mr. Speaker. So, just to reiterate, if the Representative from Hawaii Kai will yield to the question, has the Minority Caucus elected you to be the minority leader of the caucus for the 2021 Legislative Session?"

Representative Ward: "Thank you, Mr. Speaker. Thank you, Majority Leader. The good Majority Leader has asked a question that everybody probably knows is the elephant in the room. I want you to know two things. Number one, Val and I are still having leadership speeches. It has not ended, but it shall end soon. We hope.

"Some of you know that there was an article in Civil Beat this morning. It did not list my title, it listed me as something that we had talked about three weeks ago about what the Majority was concerned about. The pandemic and ending it, the economy, opening it, small businesses, helping them, and balancing the budget. That's the only thing that was said on behalf of my colleagues. And the four of us are here, because we are honored to be part of this great legislative body, to at least ask the hard questions in a two-party system.

"So, what we have is a little bit of a disagreement, and I know that when your side had a disagreement, one, Cynthia Thielen came up and said, I will be your Speaker. And you said, well look, let us resolve it on our own.

"So, may I beg your indulgence. We are getting organized. It will be there for, it will be a while. It will either be Val or myself. And I'm surprised that we're doing this. This is the first time I've ever been questioned in 20 years of being here to ask a question on the floor. And I yield to them and I expect

a reciprocal when something on the other side may be asked from this side. So, thank you, Mr. Speaker, and thank you, Majority Leader."

Representative Belatti: "Thank you, Mr. Speaker. Just a point of personal privilege, I would remind the previous speaker that he should refer to his colleagues as 'the Representative from Mililani' and not by their colloquial name. We would like to defer and offer respect to each of our colleagues.

"Mr. Speaker, further, and this will be brief, I was surprised to wake up at 6 a.m. this morning to read the Civil Beat article, which did in fact identify Representative from Hawaii Kai as the minority leader. There was also some untruth in that article, which said that there were to be no Opening Day speeches. As we have communicated to both caucuses, or excuse me, as we have communicated to the Majority Caucus and the four members of the Republican Party, those speeches were only going to be postponed. And there are plans, in fact, for the Majority Caucus, because the Majority Caucus has a majority leader and a speaker, to lay out the priorities for the State. That is still in the plans and I just wanted to clarify because, Mr. Speaker, facts matter. And the fact is that the Minority Caucus does not have an elected minority leader. Thank you, Mr. Speaker."

Representative Ward: "Mr. Speaker, brief retort. In effect she has proven the purpose of the article has been fulfilled. You guys did not have anything to say to the public and now you're saying, actually we did but we never told you. And now you've told us. The people of Hawaii will hear what the Majority Caucus stands for. My point was not to embarrass you as you're attempting to embarrass the Minority Caucus, the attempt was--"

Representative Belatti: "Mr. Speaker, I object and call for a recess, please."

At 12:15 p.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:17 p.m.

Vice Speaker Mizuno: "I'd like to remind all the members that on Monday we will convene at 9 a.m. for our regular session. The Governor's State of the State address will commence at 10 a.m. on Monday."

ADJOURNMENT

At 12:19 p.m., on motion by Representative Belatti, seconded by Representative Morikawa and carried, the House of Representatives adjourned until 9:00 a.m. Monday, January 25, 2021. (Representatives Holt, Ichiyama, and Tokioka were excused.)

ANNOUNCEMENTS

At this time, the Chair stated:

"The Chair has two announcements. First, please remember that we will be standing in recess for the purpose of convening in joint session at 10 a.m. this morning for the Governor's State of the State address.

"And second, please note that tomorrow is a recess day. We will convene again on Wednesday, January 27 at 9 a.m., after which will recess for the 10 a.m. State of the Judiciary address."

RECESS

At 9:06 a.m., the Chair declared a recess and the House of Representatives stood in recess subject to the call of the Chair, and in accordance with House Concurrent Resolution No. 2 met in Joint Session with the Senate to receive the Governor's State of the State address.

JOINT SESSION

The Joint Session of the House of Representatives and the Senate of the Thirty-First Legislature, Regular Session of 2021, was called to order at 10:00 a.m. by the Honorable Scott K. Saiki, Speaker of the House of Representatives.

The Speaker then stated:

"The Senate President and I extend our warmest *aloha* and welcome to the Governor of the State of Hawaii, the Honorable David Ige."

The Governor then addressed the Joint Session as follows:

"Thank you, Speaker Saiki, President Kouichi, and members of the Legislature, and everyone who is joining us virtually today. Good morning and *aloha*.

"Twelve months ago, we met in the House Chambers planning for what we thought would be a very bright and promising year. State revenues were at a high of \$8 billion, our unemployment rate was the lowest in the nation, and we had our best credit rating ever from the bond market.

"Literally overnight, our expectations were crushed by the coronavirus pandemic. With your help, Hawaii moved quickly. On February 28, the Hawaii State Laboratory was among the first in the nation to begin testing for the coronavirus. On March 25, we implemented a statewide stay-at-home order. And on March 26, we imposed a 14-day quarantine for travelers, again, one of the first in the nation. But the virus was not to be denied. On March 31st, we recorded our first fatality.

"With so much to deal with, where do we begin? In spite of it all, I believe we begin with hope. Hope, because there are safe and effective vaccines being distributed and more on the horizon. Hope, because we have a president who believes in science and who has real empathy for the millions of Americans affected by this disease. Hope, because all around us there are everyday heroes.

"Alofa Nua ran a small tire shop on Oahu with his wife Tanya, working seven days a week. He was young, healthy, and full of life. Last March, he began feeling ill and developed a fever. That's when he got tested for COVID-19. He thought it was just the flu, but he was wrong.

"A week after being admitted to the hospital, he began to have trouble breathing. The doctors at Queen's told him they would have to put him on a ventilator. In his words, they put him to sleep in March and he woke up in May. He was in the hospital for seven and a half weeks.

"During his stay, his heart stopped twice, his lungs collapsed, and his body was constantly fighting one infection after another. By all accounts, he should not be with us here today. But he is, because of his own resilience and the love and support of his family.

"More importantly, Alofa is a survivor because of the dedication, professionalism, and sincere concern of his medical caregivers, who refused to let him lose his battle with the virus. They are the true heroes of Hawaii. And there are many others, including our first responders and essential workers, who go to work every day, despite this deadly pandemic.

"Here in Hawaii, we have always counted on each other in good times and bad. Our past is filled with moments like this. We were at our best when we were looking out for each other. When we didn't let others, or the times, tear us apart. This is who we are. This is who we've always been.

"And so, we shoulder this mantle of shared responsibility for ourselves and for each other. We have a choice of letting this pandemic dictate our destiny or working together to create a brighter tomorrow. I ask you to join me in determining a new path to the future.

"It was a year that changed life as we knew it. More significantly, it was a time when we lost so many, family members, friends, co-workers, and neighbors. Our thoughts and prayers are with their families at this moment.

"That's why our most important responsibility right now is to protect the health and well-being of everyone in Hawaii. That means having accurate and reliable and timely information. It means having an effective testing system to identify outbreaks and a comprehensive contact tracing network. It means having the resources to isolate those with the virus and to provide the medical care they need.

"We will continue to take the tough actions necessary to keep our community safe, including the Safe Travels program and airport screening. Hawaii was amongst the first to demand pre-travel testing and quarantine procedures. That's one of the reasons we lead the nation with the lowest COVID infection and death rates.

"We are also implementing a comprehensive strategy for the distribution of vaccines in every county. We are getting vaccines to people where they live and where they are able to receive it. And we will be working with the Biden Administration to expedite the distribution of vaccines to everyone.

"My thanks to the Hawaii National Guard and the private hospitals, who played such a large role in assisting us in so many areas. I would also like to thank Mayors Derek Kawakami and Mike Victorino, and former Mayors Harry Kim and Kirk Caldwell, for their support and cooperation during this crisis. And I am grateful to Mayors Mitch Roth and Rick Blangiardi for stepping in to continue this work.

"Finally, protecting everyone's health means staying the course, because we are far from being out of the woods. As I noted earlier, this responsibility is one that is shared by all. We must all continue to follow the three Ws. Wear a mask, wash your hands, and watch your distance. And to those I would add, get vaccinated when it's your turn. And I thank you for your personal sacrifices during this difficult time.

"Our families' economic well-being means protecting our families' health is only part of taking care of their overall well-being. Our families are struggling just to survive. We went from having the lowest unemployment rate to having one of the highest in just a few weeks. That's why we paid out more than \$4 billion in unemployment benefits during the pandemic. And that's why distributing the federal CARES Act funds was a priority.

"We are grateful for the assistance of the Senate and the House, especially Senator Donovan Dela Cruz and Representative Sylvia Luke, in helping us direct these monies to those who needed them, including \$75 million in restaurant cards for the unemployed, \$25 million to small businesses for new products and markets, \$3 million to support the commercial fishing industry, \$61 million for PPE for business and educational institutions, \$10 million for local PPE manufacturing, \$15 million for childcare providers, \$31 million for computers and connectivity for our students, \$14 million to bring in nurses and healthcare workers, and \$5 million for food assistance.

"We've also spent more than \$71 million in housing assistance to about 13,700 households who would have otherwise faced eviction. This program was cited by Forbes Magazine as a model for the nation in getting rent checks to landlords faster than any other state.

"Moreover, the pandemic underscored why having a steady supply of affordable housing is so important for our families' well-being. We achieved our initial goal of building 10,000 new homes by 2020. But we need to do more. I am setting a new goal of 3,000 more units by the end of 2022.

"We also want to make lands available to build affordable leasehold homes, particularly around the rail line. As I outlined last year, if we can reduce the cost of land, we can dramatically lower the cost of affordable housing in Hawaii. I will be asking you to consider a bill to do just that. More importantly, the initiative would keep this supply of housing affordable forever.

"We also want to invest more in capital improvement projects, adding infrastructure and roads that will allow us to develop more homes. To that end, I am asking my administration to take a sweeping look at how we generate more affordable housing from financing through construction. There are at least four agencies involved in housing that could benefit from better coordination and economies of scale.

"In fact, construction has been one of the bright spots during this pandemic. We expect to see investments of \$1.1 billion in state capital improvement projects. Federal transportation projects, such as airports, harbors, and highways, will add another \$1.1 billion. And the private sector is expected to contribute another \$10 billion and thousands of jobs to help restart our economy.

"Also critical to our families' well-being is the continuing education of their children. Transforming an entire public education system during a pandemic is no small feat. We started this school year with teachers and students embracing online learning. Our schools were provided guidelines on how and when to transition to blended learning and when they can safely return to the classroom.

"Those decisions are being made by the individual schools. This ties in with our ongoing efforts to move the DOE into a more school-based system. We want principals and educators, those most familiar with staff, students, and their community, to be empowered to design schools of innovation that best meet their needs.

"Last year, the Legislature established a School Facilities Agency to bring our aging school buildings into the 21st century. Even before the pandemic, the new agency was viewed as an exciting new initiative which will also provide jobs and economic opportunities for Hawaii.

"The School Facilities Agency is a first step in maximizing school lands by building teacher housing, childcare facilities, after-school centers, and other uses that are compatible with school facilities. It's also part of a larger recovery plan, which I will get to shortly.

"Building new schools also means jobs and is an integral part of our recovery and resiliency efforts. Working with all stakeholders, we plan to aggressively move forward on three pilot projects to serve as a model for the schools of the future.

"During this pandemic, we've been forced to not only rethink the classroom but to take instruction beyond its walls. We've had to ask teachers to look for other ways to teach. And we've had to ask parents and students to take a more active role in their own education. If the pandemic has taught us anything, it has shown us that it does take an entire village to educate a child.

"In addition, the University of Hawaii is also combining distance and in-person learning for its 50,000 students across all campuses statewide. They are doing this while continuing to maintain a research engine generating more than \$400 million for our economy.

"At a time when government is being asked to be all things to all people, every state is facing historic revenue shortfalls. And so, from the beginning of this crisis, we've been monitoring its impact on the State's finances and taking action. These actions have included reducing the current budget by \$402 million, transferring \$345 million from our rainy day fund, and eliminating \$350 million from state programs. For the first time in our state's history, we borrowed \$750 million to help make payroll.

"In spite of these significant measures, we are still projecting that revenues will not fully recover to pre-pandemic levels until 2024. Even with the most generous of federal assistance, it is a staggering deficit. But there are things we can do to reduce the pain.

"Government will have to tighten its belt. Our citizens will be asked to do more with less. And we will all need to help each other. Unlike past years, our main budget initiative will be to find ways to cover the historic shortfalls.

"There are many paths toward that end. I know that there will be disagreements on how we get there. And no one has all the answers. But I know the best answers lie in the ones we arrive at together—not in spite of

each other, but because of each other. More than ever, we need to lean on that collective effort to manage this fiscal crisis.

"I might add that the latest report from the state's Council on Revenues projects our economy will outperform the earlier dire predictions. The council now expects the State to generate nearly \$6.3 billion in tax revenues for this fiscal year. That's why we were able to adjust the DOE's proposed reductions and now have about \$123 million more to restore to our classrooms. In a sea of bad news, that is good news indeed.

"In the meantime, we still have to find ways to revive our economy and do so as quickly as possible. There is no silver bullet and it will take time and perseverance.

"The struggle for businesses to stay afloat during this pandemic has been daunting at best. Because of this, the State is planning to cover the interest payments on the \$700 million DLIR loan on behalf of employers. That amounts to over \$165 million that our businesses would otherwise have to make up over the next six years.

"Hawaii has been amongst the hardest hit states in terms of job losses and economic activity. More than 580,500 Hawaii workers filed unemployment claims last year.

"Moreover, in the face of a life-threatening virus, where is the sweet spot between ensuring the health of everyone and keeping the economy going? When the CDC is telling everyone not to travel, how do we sustain our hotels and all those small businesses who depend on our visitors? The struggle to find that answer has been apparent. The problem is a complex one. It calls for flexibility and a willingness to turn on a dime. And that is not something that government has been good at. It is something that we must get better at.

"Last Spring, in response to COVID-19, we launched a 14-day quarantine for travelers, something that the Federal Government is now looking to emulate with travel to the U.S. The quarantine was devastating to our visitor industry. But it was one of the most important tools to stem the pandemic through the Summer and Fall, when the nation's infection rate rose exponentially. More importantly, it kept our families safe. And in the end, I believe, it also saved our reputation as a healthy visitor destination.

"I believe the key to reviving our economy remains tied to the health of our community, no matter how slow and frustrating the process may be at times.

"The pandemic also exposed our local economy for what it is—very dependent on tourism. To make the state less vulnerable to sudden and unexpected changes, we must diversify.

"We've been here before. In the 1970s, agriculture by itself couldn't relieve us of our addiction to tourism. Neither will technology in the 21st century, not by itself. But it can be used to support a multi-pronged approach toward greater diversification, even as we move to get tourism back on its feet. I will continue to promote technology to help diversify our economy.

"In addition, the pandemic has accelerated economic trends that were already underway. They include the rise of remote work and the demand for digital skills. These trends and the intervention of the pandemic show clearly where the future is. We must invest in our digital economy to be a player in that future.

"More importantly, the pivot to a digital economy will serve as a foundation for our economic resilience. It will help us to better weather future disruptions, no matter the makeup of our economic engine. In a digital economy, it doesn't matter where your workstation is located. In a digital economy, Hawaii's workforce can compete globally, contributing to higher wages, and a higher quality of life.

"More importantly, we can keep our *kama'āina* here to reverse the brain drain. Because, in a digital economy, our children won't have to move to the mainland to secure good jobs. But to do that, we will need to provide the right environment. Every government, business, and nonprofit organization must embrace digital technology to thrive.

"We need to develop a clear vision for a more diversified and sustainable economy that is compatible with our culture and way of life. And that vision

must be based on solid economic analyses. A post-COVID Hawaii cannot be Hawaii as it used to be.

"That's why, in the wake of the pandemic, I am calling for the creation of a program of action to not just reboot but to upgrade our economy. To create a Hawaii 2.0, if you will. I have asked the Senate President and Speaker to work with me, as well as business leaders, labor and community leaders, to develop this program of action for Hawaii's future.

"I have reached out to the Hawaii Business Roundtable, the Hawaii Executive Conference, the Chamber of Commerce of Hawaii, and the Hawaii Community Foundation to convene stakeholders and communities from across the state. I have also sought the counsel of Governors Ariyoshi, Waihee, Cayetano, Lingle, and Abercrombie for their thoughts on economic recovery. I have asked all of them for recommendations by April, which will be folded into specific actions by the third quarter of this year. The Legislature will then have an opportunity to act upon these initiatives in their 2022 session.

"The pandemic brought our economy to a screeching halt. But it could also be an opportunity to reassess our path forward. Opportunity takes on many disguises. Sometimes, it only waits for us to recognize it.

"A critical part of re-programming our economy is also the creation of a healthy statewide broadband network. During the pandemic, the importance of broadband to everything that we do was made all too real. All of us dramatically increased online activities, such as online learning, telework, telehealth, and workforce development and training.

"At the same time, a Broadband Hui, made up of more than 200 local stakeholders, met to find a path through the pandemic to the future. Their long-term goal aligns with the State's in developing a broadband infrastructure that is accessible and equitable for all. My thanks to the members of the *hui* and the State's broadband officer, Burt Lum, and many others for their collective efforts to increase our connectivity both during and after the pandemic.

"I can assure you that broadband will be a priority for the State in the coming years. I have directed Ed Sniffen, DOT deputy director of highways, to accelerate his pilot project to connect rural communities to broadband service. He will be leveraging federal funds and state and private sector resources.

"The project will focus on Puna, Kau, Hana, Nanakuli, Waianae, Waimanalo, Kalihi, and Kapaa. I am also directing my cabinet to implement projects to connect rural and underserved communities in similar projects. Clearly, the pandemic has highlighted that digital inequity in Hawaii. Part of our task is to make sure that a student in Nanakuli can access an online lesson plan as easily as a student in Kahala, and that, in a digital Hawaii, everyone's connected.

"Likewise, with an FCC grant, we will support a telehealth initiative to connect low-income patients with high medical risks to healthcare providers. The Department of Hawaiian Home Lands will receive at least \$30 million in federal funds to benefit Native Hawaiians.

"In addition, my legislative package includes this year a bill to create a Broadband and Digital Equity Office to oversee these efforts. This office will also enable us to identify and secure Hawaii's share of \$7 billion in new federal funds for broadband infrastructure and digital equity programs. The pandemic has made it painfully clear that life in the future will be all about being connected.

"Finally, my friends, we are at a historic crossroads, because of the pandemic and because of new leadership in Washington D.C. The latter is a source of rising hope and great expectations.

"Seventy-five years ago, our parents endured a global war that cast one of the darkest shadows over the free world. Their response was historic. It became their most enduring legacy to all of us. Today, we have a chance to pay it forward.

"This public health crisis has forced us to look down a different road. But it has not been determined where that road will end. That has always remained in our hands. The pandemic has not forced us to change. That we must do on our own to address the challenges we face.

"But our strength lies in something deeper than those superficial changes. It lies in who we have always been as a people. Hawaii is all of us poured into this vessel, a pot that doesn't melt away our differences but highlights them, and emphatically and proudly emphasizes it. That is our strength.

"Hawaii is John Burns, Dan Inouye, Barack Obama, Nona Beamer, Iolani Luahine, Chinn Ho, Benny Agbayani, Michelle Wie, Marcus Mariota, and Kolten Wong. Hawaii is the hundreds of small family businesses that make up the real backbone of our economy.

"It is Kalakaua Avenue and Kalihi Street on Oahu, Front Street and Main Street on Maui, Alii Drive and Kinoole Street on Hawaii Island, and Kuhio Highway that stretches from Kapaa to Haena on Kauai.

"It's watching your son playing little league baseball and your daughter scoring that soccer goal. It's the smell of a thousand lei at graduation and the swell of pride from beaming parents. And it's quiet moments, away from the rush of activities, when you get to savor life at its fullest. When you think to yourself, this is what it's all about. This makes it all worthwhile. Because we are here. We are Hawaii.

"In these dark times, with the pandemic knocking us back on our heels, it is not enough to occasionally show *aloha*. We must have *aloha* for each other at all times.

"We all have jobs to do, you, me, and everyone in Hawaii, to lift ourselves and each other back up into the sunlight. Let us not waste another moment. Join with me in meeting this challenge. Thank you and *aloha*."

President Kouchi then rose and stated:

"Thank you, Governor Ige. The Speaker and I, along with the members of the House of Representatives and the State Senate, stand ready to work with you to achieve the goals that you have outlined.

"In the area specifically of broadband, I just want to assure those in our community, on March 25th when everything was shutdown, a group called the Broadband Hui called their first meeting, I happened to attend that meeting, and on the Zoom call there were 15 people. This meeting has grown to have over 60 participants every Wednesday morning at 9 a.m. The members are made up of state legislators, state administrative leaders, private sector leaders, and the nonprofit community.

"Our community has already rallied to start putting the plans in place to advance us on the broadband and technology area. And they have been waiting for the necessary funds to execute the plan. And I share the Governor's optimism with the new leadership in Washington D.C. that we will create those partnerships to lead Hawaii back out of the current situation we are in and into prosperity. Again, thank you Governor, and on behalf of the Speaker and I, this joint session of the Legislature is adjourned."

At 10:31 o'clock a.m., President Kouchi declared the Joint Session of the House of Representatives and the Senate of the Thirty-First Legislature, Regular Session of 2021, adjourned.

ANNOUNCEMENTS

Representative Ward: "Thank you, Mr. Speaker. Today is a day that people don't want to remember but it's a day that we have to remember. It's called Holocaust Survival Remembrance Day, Mr. Speaker. This was declared by the United Nations as a reminder of what happened to the 6 million Jews in Europe and I guess a reminder of some of the hate speech that's going on today, as well as, when any group or race feels it's superior, wars break out. So, Mr. Speaker, for those of us who have some, even though small, or identify as Jewish, this is a special day to remember. Never again. Thank you, Mr. Speaker."

At this time, the Chair stated:

"The Chair will be requesting a moment of silence for Mayor Billy Kenoi after we adjourn."

OPEN JOURNAL

At this time, Representative Belatti moved to keep the Journal open until 6:00 p.m. this legislative day for the purpose of receiving House Bills for introduction, seconded by Representative Morikawa and carried. (Representative D. Kobayashi was excused.)

At this time, the Chair stated:

"Before we adjourn, the Chair has a couple of announcements. So, first, please note that tonight's 6 p.m. deadline is firm for bill introduction and there will be no exceptions. Please make sure that you give yourselves and your staff ample time to file your bills before 6 p.m.

"Second, the House will stand in recess for the purpose of convening in joint session at 10 a.m. for the State of the Judiciary address. And third, we will be reconvening in regular session on Friday at noon."

RECESS

At 9:09 a.m., the Chair declared a recess and the House of Representatives stood in recess subject to the call of the Chair, and in accordance with Senate Concurrent Resolution No. 1 met in Joint Session with the Senate to receive the Chief Justice's State of the Judiciary address in the Senate Chambers.

JOINT SESSION

The Joint Session of the Senate and the House of Representatives of the Thirty-First Legislature, Regular Session of 2021, was called to order at 10:01 a.m. by the Honorable Ronald D. Kouchi, President of the Senate.

President Kouchi then stated:

"At this time, House Speaker Saiki and I extend our warmest *aloha* and welcome to the Chief Justice of the Hawaii Supreme Court, where he will give his remarks on the State of the Judiciary. Welcome, Chief Justice Mark E. Recktenwald."

The Chief Justice then addressed the Joint Session as follows:

"President Kouchi, Speaker Saiki, members of the Senate and House, and everyone watching remotely, good morning and *aloha*.

"To the President and Speaker and all of the legislators, thank you for this opportunity and for your ongoing support. Since I last addressed you, we opened the state-of-the-art Keahuolu Courthouse in Kona. At this time, I'd like to acknowledge the passing of Mayor Billy Kenoi, who was a strong supporter of that project, and extend my sympathy and *aloha* to his wife and family.

"Now, as we look ahead, we are excited about the development of the new Wahiawa Civic Center, which will house our Wahiawa District Court. We're grateful to the Legislature for making these much-needed investments in our justice system.

"To Governor Ige and Lt. Governor Green, thank you for your abiding support and that of your team. Time and again during the COVID-19 pandemic, we've relied on the expertise and assistance of the executive branch to protect everyone in our courthouses, and we deeply appreciate it.

"On behalf of the Judiciary, our hearts go out to all those who have lost loved ones or suffered other hardships due to the pandemic. Thank you to all of the healthcare workers and frontline responders who work tirelessly to keep us all safe.

"The pandemic has forced us all to face challenges that we never could have expected a year ago. While the pandemic seemed to bring our society to a halt, the conflicts that our courts resolved didn't go on lockdown. Indeed, some, such as domestic violence and sexual exploitation, have likely intensified. So, we've had to craft new ways to provide justice safely.

"Courts are traditionally places where many people, sometimes hundreds, come together in person. Obviously, that couldn't continue. So, we turned to technology to hold court hearings remotely. As a result, we have reinvented the way justice is administered. This transformation has made us more accessible to the public and will undoubtedly shape the way we do business in the future.

"At the same time, we could not let the pandemic derail the vital work of improving our justice system and building public trust and confidence in the courts. The deaths of George Floyd, Breonna Taylor, Ahmaud Arbery, and so many others were stark reminders of the urgent work that remains to ensure that our system truly provides justice for all.

"And recent events in our nation's capital have made abundantly clear the importance of the rule of law to our democracy. The courts provide a forum where even the most divisive and bitter disputes can be resolved with fairness and respect. I am proud of the efforts of our judges and staff to keep this cornerstone of democracy functioning even in these difficult times.

"And I am pleased to share with you today the pressing challenges we faced during the pandemic and how the Judiciary adapted and innovated to sustain our programs. I will also share how we will navigate the road that lies ahead, from continuing the critical work of building trust in our courts, to our plan for administering justice with more limited resources.

"As the realities of the pandemic became clear, we shifted as many of our in-court proceedings as possible onto remote platforms. We have gone from essentially no use of Zoom or WebEx in March, to conducting more than 128,000 cases on those platforms statewide between August and December. This progress has been a true bright spot. For example, we've seen court appearances increase in our online traffic infraction hearings. Many people welcome the convenience of appearing remotely, rather than coming into a brick and mortar courthouse.

"We are, in effect, creating the courts of the future, courts that are more responsive to the needs of a community accustomed to doing business online. Clearly, remote proceedings will be a significant part of our operations even after the pandemic.

"These courts of the future are also more transparent. Since the pandemic began, the Hawaii Supreme Court has conducted 17 oral arguments remotely. It can be difficult for members of the public to come to our courthouse in downtown Honolulu, but remote technology made the court more accessible.

"In one case from Maui, close to 500 people tuned in to oral argument, giving the community most directly affected increased access to the process. This is true beyond the Supreme Court, too. In many courtrooms across the state, trials and other court proceedings are now accessible to the public via video conferencing platforms.

"That said, some of our work cannot be done remotely. Most notably, criminal defendants have the constitutional right to be present in the courtroom and confront the witnesses against them during trial. We suspended jury trials at the beginning of the pandemic because they require bringing many people together—jurors, parties, witnesses, attorneys, the judge, and staff.

"Restarting jury trials has been critical, since large backlogs developed while they were suspended. On Oahu alone, more than 2,200 criminal jury trials are pending. Defendants have the right to a speedy trial and can seek outright dismissal of the case as a remedy if that right is violated. And victims should not have to wait interminably for justice to be done.

"Our judges and staff have measured courtrooms to ensure social distancing, acquired masks and air purifiers, built clear barriers, held walkthroughs with representatives of the Department of Health, and brought together stakeholders for mock-trial proceedings. We have now restarted jury trials across the state, beginning in November on the neighbor islands. So far, we have completed thirteen on Oahu, and one each on Maui and the Big Island.

"The right to a jury trial is fundamental to our democracy, and I deeply appreciate the hundreds of prospective jurors who answered the call. It is our highest priority to keep those who serve safe, and we will absolutely pause if we are not confident that we can do so.

"As we faced these unprecedented challenges, the Hawaii State Bar Association has been with us every step of the way. I would like to extend my thanks to the HSBA for their critical contributions to the Judiciary's pandemic response, and particularly, to 2020 President Greg Frey and Executive Director Pat Mau-Shimizu.

"My deepest gratitude also goes to all of the Judiciary *'ohana*, our judges, court staff, and administrators, who have worked tirelessly over the past 10 months to ensure we can keep the community safe and maintain our essential services even when COVID-19 has hit close to home. I thank every single Judiciary employee, who have been nothing short of extraordinary. And a special *mahalo* to our chief judges, Mark Browning, who was recognized as

jurist of the year, Lisa Ginoza, Randal Valenciano, Rick Bissen, and Bob Kim. All have been unwavering and resilient leaders.

"In the face of the pandemic, we have also continued to serve the public by adapting our existing programs in inventive new ways. I'd like to share some examples of that innovation.

"We restarted our Community Outreach Court remotely and expanded it to a new location at Villages of Maili. The court provides individuals charged with nonviolent, low-level crimes the opportunity to perform community service in lieu of paying fines and fees. Many participants are experiencing homelessness, and the program provides needed services that help give them a fresh start. We are grateful to our partners, the prosecutor's office, the public defender, and other community groups, and excited to resume this program.

"I'd like to share now the thoughts of Emanuel Prichett, one of the 230 graduates:

First of all, I was homeless for about a few years, living in my car, driving on a license that was expired, and continually getting tickets during that time. Community Outreach Court gave me an opportunity to clear those tickets up. I was able to obtain a very good job with the City and County as a bus driver. And, without the help of Community Outreach Court, I don't think I would be in the place where I'm at right now.

Currently, I've lived in my same residence for the past three years, I have a steady job, my bills are paid, my insurance on my car is paid, and I feel great. So, Community Outreach Court was the one that made it happen for me. Thank you very much.

"Thank you, Emanuel. Clearly, the program has impacted his life in profound ways.

"We also helped ensure that the digital divide wouldn't be a barrier to justice. Many people don't have access to the internet or other tools needed to participate in court hearings remotely. We've taken huge strides to ensure access to our virtual courtrooms by, for example, creating a guide to online access and a map of free Wi-Fi hotspots, and opening a remote hearing kiosk in the Supreme Court Law Library.

"We also kept our access to justice efforts vibrant. Our six self-help centers across the state provide free legal information to those who cannot afford an attorney in civil cases. After briefly closing during the early days of the pandemic, the self-help centers reopened remotely and have served more than 1,400 people since May, at little to no cost to the public. *Mahalo* to the Access to Justice Commission and its chair, Judge Joseph Cardoza, the Legal Aid Society of Hawaii, the Hawaii State Bar Association, and, most importantly, the attorney volunteers for their dedication to access to justice.

"And, we increased treatment options for those in the criminal justice system with mental health challenges. In November of 2019, the Judiciary partnered with Governor Ige and the Department of Health to host a mental health summit that brought together national experts and local stakeholders. That collaboration led to the passage of Act 26, which directs non-violent defendants who are charged with petty misdemeanors into appropriate community-based treatment. Rather than take up scarce bed space at the Hawaii State Hospital, these individuals can now be treated more effectively, more humanely, and more efficiently.

"In short, the Judiciary has stayed committed to initiatives that streamline processes, make courts more accessible, and improve outcomes.

"An effective court system requires public confidence, and we have worked hard in recent years to increase civic understanding about the role of the courts. One signature example is the Courts in the Community program, which brings Supreme Court oral argument in actual cases to high schools across the state. We've reached more than 5,000 students statewide since 2012, most recently at Waipahu High School in November 2019. Seeing is believing, and Courts in the Community helps make the protections of the legal system real to young people. We're looking forward to restarting the program.

"Another critical initiative is the newly-formed Commission to Promote and Advance Civic Education. The PACE Commission will serve as a catalyst for civic education throughout the state and increase understanding

and respect for the institutions of our democracy. *Mahalo* to Chief Judge Lisa Ginoza and attorney Ted Pettit for spearheading this effort, as well as the American Judicature Society and its chair, Larry Okinaga, for their tireless advocacy in support of the commission.

"In order to build trust in the justice system, we must acknowledge and address systemic inequities, and we have redoubled our efforts to ensure the Judiciary lives up to the promise of equal justice for all.

"Hawaii is far from immune from the racial inequity that spurred this summer's protests across the country and at home. We have already taken some important steps by reforming bail and other aspects of our criminal justice system that may have disproportionate impacts, by training our judges and judiciary staff on how to recognize and address implicit bias, and by increasing access to our civil justice system. Moreover, the newly created Criminal Justice Research Institute will leverage data to identify inequity within the criminal justice system.

"It's clear there's a lot of work to do and that this will be a long and sometimes difficult conversation. But it's one that we must have. Earlier this month, our Committee on Equality and Access to the Courts sponsored a virtual panel discussion on racial equity, and the response was astounding. Almost 400 people attended.

"I thank the committee and, in particular, Willie Bagasol, Judges Rebecca Copeland and Sandra Simms, and Justice Sabrina McKenna, for their leadership. There are four more events scheduled in the coming weeks. We are listening to those who have bravely raised their voices to fight for a more equitable future and we are committed to heeding the call to action.

"Like everyone in Hawaii, the courts have had to accomplish more with fewer resources during the economic upheaval caused by the pandemic. And at the same time, other impacts of the pandemic are manifesting in our courtrooms.

"Last year, our district courts on Oahu received more than 60,000 criminal citations for violations of pandemic emergency orders. To put that in context, we had only 20,000 criminal citations in first circuit district court the prior year. Each emergency order violation is a full misdemeanor, carrying a possible sentence of up to a year in prison, and each defendant is entitled to a jury trial if requested. We are working with lawmakers and other stakeholders on legislation that will provide more flexible options to law enforcement.

"The strain of the pandemic is also profoundly affecting Hawaii's families. The Domestic Violence Action Center reports a 652% increase in client contacts for the six-month period from April to September of 2020 when compared to the prior year. Moreover, there are approximately 800 pending jury trials in Honolulu's domestic violence criminal division. And of course, new cases are coming in every week.

"Survivors of domestic violence deserve timely justice and accountability. Waiting years to get a resolution is unacceptable. Delay in these cases puts lives at risk, and reducing the services that we provide to prevent future abuse only worsens the harm.

"As another example, the economic strife caused by the pandemic, in tandem with increased isolation and closure of schools, have created conditions in which, tragically, sexual violence and trafficking can flourish. Indeed, local non-profit Imua Alliance, an anti-trafficking organization, reported a five-fold increase in their monthly calls during the pandemic. The courts see the devastating effects of commercial sexual exploitation in many ways. Too often, survivors of trafficking or sexual violence end up in the courtroom as defendants themselves.

"This is one reason why alternative and treatment-based programs are so essential, we must address the underlying causes of criminal conduct to truly do justice. For example, some participants in our Girls Court, a program for teenage girls involved in the juvenile justice system, are themselves survivors of sexual exploitation. Some face different challenges, like drug use or family instability. But all of the girls benefit from a holistic program rooted in teamwork and support that centers around the specific needs of young women.

"The Women's Legislative Caucus has been an important voice in this and other initiatives, and we are proud to continue to collaborate with its members.

"I'd like to share with you a video from one of our Girls Court graduates, who found a promising path forward through the program:

Girls' Court is important to me because it made me be the person I am today. It made me have dreams, made me have goals. Like, before Girls Court, I was doing drugs, I was going in and out of facilities, I was misbehaving, I wasn't following laws. But once I got into Girls Court, they taught me, they gave me support groups, they gave me a beautiful team that just always checked up on me. They never gave up on me the way that my family gave up on me.

Being in Girls Court, it's like a whole second family to me. Like, they built me up, they got me to where I am today. Like now, I'm a graduate in high school, I have goals of wanting to go into the military. A whole bunch of just wonderful things for my life. So, if I didn't join Girls Court, I wouldn't be the person that I am today. So, I hope this video helps Girls Court because Girls Court is amazing.

"I thank this young woman for sharing her story.

"In our district civil courtrooms, we are facing a coming surge of residential eviction cases when the moratorium on evictions expires. We have been working with the mediation centers and other groups to have alternative dispute resolution options in place to keep those cases out of the courts and, if possible, to keep people in their homes.

"In our criminal courtrooms, the restart of jury trials has been essential to working through the backlog of cases. But we simply cannot conduct as many jury trials as we could before the pandemic, particularly here on Oahu given the space limitations in our courtrooms. With our current budget restraints, renting larger spaces is cost prohibitive. As a result, trials on Oahu involving the most serious criminal offenses, for example, homicide cases that require a larger jury pool, or cases involving more than one defendant, have so far been unable to move forward.

"We are grateful to our government partners for their assistance. Both Governor Ige and former Mayor Caldwell approved CARES Act funds for our use, the Department of Defense provided National Guard assistance at Judiciary facilities, and the Department of Health has been an invaluable resource.

"That said, we are facing these challenges with significantly reduced resources. At the end of the last fiscal year, our entire budget was reduced by 5.3%. In the current fiscal year, our entire budget was reduced by 8.6%. We fully understand the need for these reductions. We appreciate the Legislature's deferral of a portion into the current fiscal year and thank Ways and Means Chair Dela Cruz and Finance Chair Luke for their leadership.

"Nevertheless, we've had to make some very difficult decisions. We curtailed court operations in some locations, such as closing the courtroom in South Kohala, and not filled vacant positions of experienced staff retirees, as well as delayed the filling of several judicial vacancies. Our current workforce has shrunk by 6.5% in a little over a year. We've also had to reduce funding by more than \$3 million statewide for programs that help some of the most vulnerable members of the community, such as services for victims of domestic violence, and other programs that help keep our community safe, including substance abuse testing and mental health services for criminal defendants.

"The Judiciary, as the third branch of government, currently accounts for less than 2% of the overall state budget. And over the past decade, our share has decreased. In short, we were already a lean operation before the pandemic hit and are even more so now. We have embraced the need to rethink government operations and have become more nimble and efficient as a result. While we know the road ahead is difficult, we respectfully request an operating budget that remains steady, with no increases but no further reductions. And a capital improvements budget that allocates modest resources towards shovel-ready projects that will stimulate the economy and keep our buildings safe.

"Although courts first and foremost decide cases, our essential work goes far deeper. Drug court, for instance, uses an intensive team approach to help defendants overcome substance abuse. There is nothing quite like the feeling

of accomplishment that graduates of the drug court experience when they successfully complete the program. You will hear about families that have come back together, once repeat offenders, who are now gainfully employed and reconciled with their loved ones.

"Steven Tyler of the band Aerosmith is a big supporter of Maui Drug Court, and put it like this in a virtual congratulations to a graduate from Molokai:

Aloha, Sadie Starkey, Molokai Drug Court. Congratulations, four years and four months. You know, today is the first day of the rest of your life. And I just want to tell you that sometimes, most times, for me, getting sober, which I have many times been to different rehabs, getting off the drugs is one thing. But then living life, living life after that and getting jiggy and getting real again, and doing the lessons you learned in drug court, that's the hardest thing, is becoming you.

Remember, you're out there and you're doing drugs, death, jail, insanity is your only choice. You got to stay sober and think aloha. Congratulations Sadie.

"Word to the wise from Steven. Get jiggy with treatment courts.

"Eliminating these programs will make our community less safe, because the data shows that treatment courts significantly reduce recidivism. And eliminating treatment courts will cost more in the long run. One study showed that the criminal justice system ultimately saves \$3.36 for every \$1 spent on drug courts like ours. In short, treatment courts aren't just effective, they're a good investment.

"I hope the examples I have shared with you illustrate that we deliver services essential to the health, safety, and functioning of our community, and to the well-being of our children and families. We are on the front lines of the response to the pandemic, delivering core services that keep people safe and society functioning so we can recover economically.

"With 2,200 criminal jury trials pending on Oahu alone and many hundreds more on the neighbor islands, it is imperative that we have the resources we need to fulfill the obligation of a speedy trial. Indeed, the demand for our services will only increase as criminal trials return to full speed, emergency order citation cases make their way through the system, eviction matters resume, and as other impacts of the pandemic, such as increases in domestic violence and sex trafficking, become even more evident.

"There is, perhaps, no principle more treasured in a free society than the tenet of equal justice for all. And a fair and impartial court system is the lifeblood of that ideal. But earlier this month, the attack on the nation's capital served as a painful reminder that we cannot take democracy for granted, and that we must continually work to fulfill the ideals of our nation.

"I am proud to lead a Judiciary that is committed steadfastly to the pursuit of equal justice for all in its truest and richest sense. That requires facing past inequity, listening and learning, and doing the hard work to improve. This work is both the right thing to do and it's imperative to earning the faith and trust of those whom we serve.

"The challenges of this past year have made this much clear, the fair and impartial administration of justice is more important than ever to our democracy and to the very fabric of our community. The Judiciary's ability to fulfill that critical mission has been tested. But I am extremely proud that, through innovation and determination, we have continued to provide essential services that keep us all safe and on the road to recovery.

"I am deeply grateful for the support of the Legislature and the executive branch as we work together to serve the people of Hawaii. I am acutely aware that there are more challenges to come. But I am confident we can meet those challenges and forge a Judiciary that will be even more accessible and responsive to the needs of our community long after the pandemic has ended. *Mahalo.*"

Speaker Saiki then rose and stated:

"Thank you, Chief Justice, for your report on the State of the Judiciary. Senate President Kouchi and I know that you, Chief Justice, and the entire Judiciary team have been under considerable pressure to adapt to pandemic conditions. We appreciate your work and the work of the entire Judiciary

team, all of the judges, and all of the employees, for your commitment and hard work over the past year.

"I also want everybody to know and understand that the Legislature has the utmost respect for Chief Justice Recktenwald. We have seen him work throughout this pandemic. We know that he is an honorable judge and leader of the Judiciary, and we look forward to working with him and his team throughout this pandemic and going forward. And with that, this joint session of the Legislature is hereby adjourned."

At 10:28 a.m., Speaker Saiki declared the Joint Session of the Senate and the House of Representatives of the Thirty-First Legislature, Regular Session of 2021, adjourned.

ADJOURNMENT

At 12:04 p.m., on motion by Representative Belatti, seconded by Representative Morikawa and carried, the House of Representatives adjourned until noon tomorrow, Tuesday, February 2, 2021. (Representative Gates was excused.)

EIGHTH DAY

Tuesday, February 2, 2021

The House of Representatives of the Thirty-First Legislature of the State of Hawaii, Regular Session of 2021, convened at 12:01 p.m., with Speaker Saiki presiding.

The invocation was delivered by Representative Sonny Ganaden, after which the Roll was called showing all members present, with Representatives Har, LoPresti, and Matsumoto participating remotely via videoconference, and with the exception of Representatives Perruso and Tokioka, who were excused.

By unanimous consent, reading and approval of the Journal of the House of Representatives of the Seventh Day was deferred.

ORDER OF THE DAY

ANNOUNCEMENTS

At this time, the Speaker delivered his address, stating:

"The Chair has some brief remarks. So, as you know, our Opening Day speeches were deferred because of the potential security threat, so these are my remarks that I would have presented on Opening Day.

"I just wanted to start off by saying that I know that many of you, like me, have mixed feelings about this legislative session. And this is a reflection of what the public is feeling and asking. When will this end? What will happen to us? Where is Hawaii headed? With these thoughts in mind, I actually have a title for my remarks this year. One State. One State.

"To survive the pandemic, we must be one state. This is not a time to pit one against another. The state versus the counties, county versus county, Democrats versus Republicans, liberals versus conservatives, progressives versus moderates, business versus workers. This is a time when everyone, everyone, must pull together and work together to achieve the common purpose of saving Hawaii.

"This can be done even if there are different ideas on how to get there. If President Obama was here today, he would remind us that most issues are not black and white. That most issues are gray, and that we should fight for our principles but be prepared to compromise if we want to achieve anything long-lasting.

"I would like to think that this is what the public expects of us. The public wants us to rise above conflicts and just get things done. This requires us to demonstrate three traits: leadership, trustworthiness, and decisiveness.

"During the past year, I would say that this is exactly what the House has demonstrated. When there has been inaction in other parts of government, the House has taken action. The House has been upfront with the public and taken hard positions even when some may disagree. It was only eight months ago when Representatives Nakamura, Cullen, and Luke allocated and implemented CARES funds for a restaurant card, rental assistance, and early childhood grants.

"Since last March, Representatives Belatti, McDermott, Onishi, and Yamashita worked with the House COVID-19 Committee to develop real public-private partnerships to fight major pandemic issues. Two days before New Year's Day, Representatives Ichiyama and Johanson helped build mass public vaccination centers at Pier 2 and the Blaisdell Concert Hall, which have the potential to collectively vaccinate up to 8,000 people per day.

"Representative Kitagawa took the lead to create a farm-to-car food distribution program in her community. Representative Eli has personally served and distributed over 10,000 meals in her community. In fact, all of our House members took a leading role to organize programs to help their communities and our state since the pandemic began.

"But this was only the start. During this session, the House will take leadership in three other areas. The first is to stabilize our government and state finances. This requires us to critique revenue streams and expenditures. We need to restructure government and consolidate overlapping functions.

We need to take a hard look at programs that are not functional, such as the ADC, the Agribusiness Development Corporation.

"Representative Quinlan has been working to clean up our existing government infrastructure so that government can actually facilitate economic growth. In this pandemic, if we cannot reform government to make it more effective, then we never will.

"Second, we need to build a reliable state public health infrastructure. This includes screening, testing, contact tracing, quarantine, and vaccinations. Even with vaccinations, we need a statewide mask mandate.

"In addition to the pandemic, Hawaii continues to struggle with particularly difficult health problems. Representative Yamane has been working to comprehensively reduce underage vaping through tax parity and better enforcement.

"We know that the pandemic has hit women and immigrants the hardest in terms of jobs, child care, and domestic violence. This is why we will find funds to save programs like the Sex Abuse Treatment Center, language access, and HIV services – critical programs that potentially face budget cuts. I would say to those who seek tax breaks or creating new programs, please keep in mind that such policies, at this time, come at the expense of life saving programs like these. Individuals without voices need to be protected, and the House will protect them.

"Third, we need to reopen the Hawaii economy incrementally and safely. We need to acknowledge that our economy differs from those in other states. Hawaii's economy is service-oriented and primarily consists of small businesses and restaurants.

"We need to incrementally and safely reopen travel. Even if that means using a statewide travel policy that is predictable and functional. Tourism must be better managed, and Representative Lowen is working to have visitors pay their fair share since they also use our natural and environmental resources. And non-residents who reside in Hawaii should also contribute their fair share.

"Representatives Hashem and Perruso have been applying lessons learned from the pandemic into local food resiliency and a Farm to School program. Representative Hashimoto has diligently worked to create a program to help prevent renters from being evicted. Representative Woodson understands that transforming our economy requires our public education system to be competitive on an international level. Vice Speaker Mizuno, Majority Floor Leader Morikawa, and the rest of the House leadership team stands ready to work with House members to achieve these goals.

"So, members, you know that reopening our economy will not be easy. As Representatives Tarnas, Nakashima, and Holt understand, it will require us to resolve conflicts between economic growth, culture, and the environment.

"There is a long-standing issue that we must address. Mauna Kea. As you know, the University of Hawaii has held the master lease to manage the Mauna Kea Astronomy Precinct and the Natural and Cultural Preservation Area since 1968. The master lease is set to expire in 2033, and the University is currently working to extend it. The University has tried to manage Mauna Kea, but for too long the University's work has been shrouded by its inability to appropriately manage cultural practices, resources, and education.

"This is why the University of Hawaii must no longer manage Mauna Kea, and it should cease its work to extend the master lease. The House will introduce a resolution to begin the process of reassessing a new governance structure for Mauna Kea. And we will invite Ku Kia'i Mauna Kea to have a seat at the table and be a part of the discussion. Mauna Kea is a manifestation of what happens when we draw lines, work in silos, and disregard different views.

"So, members, in conclusion, please remember just three things. Number one, avoid drawing lines. Number two, work through the gray. Number three, work with those you disagree with in good faith. If we do this, we will build Hawaii into one state. So, thank you very much and have a productive session."

The Chair then recognized Representative Belatti, the Majority Leader, to deliver remarks on behalf of the Majority Caucus:

"Mr. Speaker, if I may provide my opening remarks. Thank you, Mr. Speaker and colleagues. Brazilian novelist Paulo Coelho reminds us, 'when we least expect it, life sets us a challenge to test our courage and willingness to change; at such a moment, there is no point in pretending that nothing has happened or in saying that we are not ready. The challenge will not wait. Life does not look back.'

"None of us would have believed at the beginning of 2020 that we would be living through a global pandemic, the likes of which we have never seen for 100 years, and that this novel coronavirus would threaten the health of people around the world. Hawaii tragically has lost more than 410 of our own neighbors and friends to COVID.

"None of us could have ever imagined in March of 2020 that this pandemic would eviscerate our economy, cause our state tax revenues to plummet, and leave us with a \$1.4 billion budget shortfall that local economists are predicting will take years to recover from. But there is no time to look back.

"This dire situation is forcing us to question every expenditure, scrub through every special fund, examine and reexamine every tax credit, consider programmatic cuts that impact real services and real people, and look at targeted taxes. But our House is not inclined to simply increase taxes without considering the wider impact and consequences of those taxes.

"It is not simply enough for us to take cookie cutter solutions from the continental United States that often get pitched as progressive versus centrist, Democrat versus Republican. Frankly, those are just labels, and we need to move beyond labels, beyond slogans, and develop solutions that work in Hawaii, that recognize our strengths, our unique history, and yes, our unique state-county relationship, where the state bares the large burden of so many statewide services that are typically funded and implemented by counties in other states.

"There are no easy choices this session, and we will only be faced with harder choices in the year ahead if we do not do our due diligence now. Every expenditure, every tax credit, and every tax relief measure we authorize will come at the price of another program, another staff position, or furlough days.

"In line with this hard position and this strategy, the House is already leading by example. We have implemented cuts and reduced our fiscal year 2021 expenditures by \$1.4 million. We did this largely by doing more with less. We have a much skinnier leadership team and structure that will continue to rely on our system of committees, chairs, and vice chairs to do the important work of the House.

"We have reduced our invaluable House staff offices, our front-line workers. Where we have previously hired nine session staff for the Sergeant-at-Arms, we have only hired one additional session staff member. In the Clerk's Office, we've gone from eight session staff to four. In the Printshop, we have gone from fifteen to ten. Our representative offices have reduced their number of session staff down to one person, and colleagues are relying on volunteer interns who work remotely and continue to do the community work in our districts.

"We have eliminated copier contracts, postal budgets, travel budgets, and deferred some tech purchases, even when we have had to spend in order to purchase precious Zoom licenses and ensure that we have enough connectivity to conduct our virtual hearings efficiently and effectively.

"We are asking executive agencies to find smart, creative, innovative ways to consolidate, streamline, and restructure. And we are, the House that is, again, leading by example, and have asked our legislatively attached agencies to do the same.

"Mr. Speaker, I want to pause here and really emphasize this point, because there are largely uniformed accusations about the House and the members here not being supporters of accountability and transparency. Your House is looking at ways to restructure our legislatively attached agencies to reduce overhead and duplication and increase accountability by consolidating multiple agencies into an Office of Public Accountability. These agencies include, yes, the Office of the Auditor, the Office of the

Ombudsman, the Office of Information Practices, the Hawaii State Ethics Commission, and the Campaign Spending Commission.

"As you mentioned, Mr. Speaker, we will need to take all of these hard decisions, and we will need to decide how to restore funding for serious and critical programs like the Sex Abuse Treatment Center and legal services for immigrants and low-income workers and families. We need to prioritize what is truly important, step forward to protect the vulnerable, and do the right thing for our Hawaii.

"Yes, Mr. Speaker, these are unprecedented times indeed, but as elected officials, it is our duty to be held to a higher standard and be the reasoned voice for our constituents.

"Mr. Speaker, now is the time to work collaboratively to find solutions in providing hard-working families with the support they most definitely deserve. Your House stands ready to do this work, Mr. Speaker. Thank you."

This bill is meant to correct that, Mr. Speaker, it does, except it uses the loosey-goosey term of 'may' rather than 'shall.' It says the county clerks may add additional service centers. My constituents want to have more service centers so there's not going to be long lines.

"So I would suggest, as this progresses, that we change the very passive 'may' to a 'shall' so people will know, they know that we know, that we're watching out for the voting and we shall have their lines lessen by those clerks being prepared to do what they were supposed to do the last time and they didn't. Thank you, Mr. Speaker."

"Mr. Speaker, no vote, brief comment. Mr. Speaker, this is one of those been there, done that. We've vetted this with our good friend Marcus Oshiro when he was here.

"The jury is out on what actually the studies indicate. I think the majority are saying, hey if you got the startup costs, you're going to be okay, but look it's not a sure slam dunk. And my biggest fear is not the startup costs, but my biggest fear is what I've said time and time again, when you mix political leadership with economic leadership, i.e. banking, you have favoritism.

"I know the author of this bill and I have full confidence in him, because he comes out of banking. But government running a bank is not the way to run an economy or to run loans. Mr. Speaker, I've spent too much time in the third world to see how these things overlap and they just don't work out.

"For those reasons, Mr. Speaker, I think we're treading water in another place, and I wish we could cite journals of two or three years ago and enter the same comments because I'm kind of repeating myself. But having said that, a no vote would be the best thing I can do for right now. Thank you."

"Mr. Speaker, no vote, brief comment, please. All of us have a home that's taken over by the homeless in our district. It's intractable, drug use, all kinds of things that really are a big, big nuisance. And this bill is a good bill because it solves that, except, Mr. Speaker, it says, \$5,000 per day if you don't correct it if you're the owner.

"And I know the author has had a real big problem in his district regarding this, but as I brought up in the committee hearing, why not a warrant as a way of getting the people to have the police come in and get rid of these people? So, I think we have to hit the nail on the head, but this puts a sledgehammer, I think a little bit too heavy, \$5,000 a day is huge. Even the political fines are not even that high, Mr. Speaker. For those reasons, a no vote. Thank you."

Representative Matayoshi rose to speak in support of the measure, stating:

"In support, brief comment. As the previous speaker stated, this is a bill introduced to try to help deal with that problem in all of our districts. Every district has its own house or houses that pose an incredible problem to its neighbors, it affects the health and safety of the neighborhood and the community that it's in.

"The problem I'm trying to really address, the fines are kind of a separate issue, the problem I'm really trying to address here is forcing the county to act. And in one of the issues I had with my district, the counties just will not, no matter how high the fines are, they will not start foreclosure proceedings. And this is after the first 90-day period and a second 90-day period, so already half a year has gone by. I'm sure if any of you have tried to deal with problematic houses in your district, you've run into the same issue.

"And I think that there needs to be a drop-dead deadline for action by the counties. Otherwise, the neighbors and the community really has no avenue for relief, there's no light at the end of the tunnel. And when there's no light at the end of the tunnel, people just lose hope. I want to give them some kind of thing to look forward to, that at some point, the government is going to take action and try to deal with this problem. And that's what this bill is trying to do. Thank you."

Representative Perruso rose to speak in support of the measure with reservations, stating:

Representative Kapela rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

"Thank you so much, Mr. Speaker. With reservations. I've talked to the author about the measure, we've had some good conversations, I see where he's getting at. But there's a law of general applicability. It may have unintended consequences on the neighbor island where permitting and planning functions are spread out between several different agencies. Because of that, I have reservations, hopefully the next committee can look at that. Thank you."

"Mr. Speaker, this is a good bill, but it leaves desirable what it leaves out. Reservations, because, Mr. Speaker, we have just a matter of miles down the street from us, a company called Oceanit that has an assure-19, which means they can test for COVID-19 in 10 minutes for \$20, and it's this close to being approved. And when we do all this money for all these allocations, for all of these vaccinations, and all these other things, why are we not building our first pharmaceutical industry, which we have the opportunity to and it's just waiting for us? Now we can make it contingent, because they haven't gotten FDA approval, even though they're inches away. Conspicuous in its absence is a phrase that leads to what I'm saying, which is very, very pertinent for the saving of lives and the people in the State of Hawaii."

"Mr. Speaker, reservations and some brief comments. First of all, I want to commend the Chair for what he is doing. We chatted before session. It's really exciting, some of the things he's trying to pursue for our state with regard to film production. My only reservation is more of a note to myself, that this kind of lowers it initially, but he explained to me that there are areas of expansion and opportunities, maybe get more people at the table. So, that's good, I'd still like to see the number high, though. So, thank you sir."

Representative Okimoto rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. No vote with a brief comment. Mr. Speaker, I've been speaking from the floor here saying, we've got the strategic advantage of being the Hollywood of the Pacific, at least a billion-dollar industry. This to me, this bill is a one step backwards. We should be promoting it, specifically now, when COVID is rampant in most places and we're looking like we're a safe haven. People are coming here or want to come here, and we should incentivize them rather than disincentivize them.

"And lowering the cap, rather than raising it, should be even higher than it is now, because I think Kentucky, Tennessee, and some of these places that really are not known for anything that's aesthetic, like Hawaii, are beating us out for some of these TV and movie things.

"For those reasons, Mr. Speaker, we've lived off our good looks, this is a good way of using it. But we've got to use our brains in saying, come on guys, don't disincentivize the motion picture. Incentivize them, because we can be the Hollywood of the Pacific. Specifically, this is not rhetoric, we can be the Hollywood of the Pacific if we really put our brains to work and do what we should be doing. And this is not the way we should do it. Thank you, Mr. Speaker."

Representative Quinlan rose to speak in support of the measure, stating:

"In support, Mr. Speaker. First, I would like to say that, just by mere geographical fact, I believe Hollywood is the Hollywood of the Pacific. The intent of this bill is not to disincentivize the film industry, it is to make sure that the Hawaii taxpayer receives maximum value for the credit that it offers.

"And my concern is that for many years we have not been getting maximum value for the credit. We have dished out hundreds of millions of dollars with at times shoddy record keeping. And until we fix some of those issues, I think that it is only appropriate for us to find ways to tweak the tax and also to create more room at the trough.

"You may have noticed that I lowered the cap minimum from \$250,000 to \$50,000 in the hopes of incentivizing more of our local filmmakers, including the graduates that will soon be pumping out of the Academy of Creative Media. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1174, HD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Second Reading and was referred to the Committee on Finance, with Representative McDermott voting aye with reservations, with Representatives Okimoto and Ward voting no, and with Representative Eli being excused.

Representative McDermott rose to speak in support of the measure with reservations, stating:

"Reservations, Mr. Speaker, and the only reason is that I just don't know how you can quantify this and I'm not sure if it's plausible moving forward. I appreciate the intent, though."

Representative Ward rose to speak in support of the measure with reservations, stating:

"With reservations, Mr. Speaker, brief comment. If I understand this correctly, Mr. Speaker, every time there is a picture of Diamond Head that flashes, we're going to collect money, a royalty. If I'm not understanding that correctly, let me know. Because the way I read it, if there's Diamond Head or if there's Kealahou, where historically Cook and whatever came, what stops then for any time we see the Grand Canyon and Colorado says, well we're going to charge this. Or the Statue of Liberty, every time it shines in a photo, it's going to do that. Is this a standard industry practice or are we getting out of hand because of desire to be so voracious in our need for funds?

"This may be a bad precedent, so I have reservations. But I'd like to see if that is in effect what it is. Every time you see Diamond Head, you're going to do it. Every time you see Iolani Palace, we're going to ding you for more things. Which, again, pushes away people competitively to where we should be attracting them rather than expelling them. For those reasons, Mr. Speaker, with reservations."

Representative Todd rose to speak in support of the measure, stating:

"In support. So, I actually think this bill is one of the coolest of the year and one of the most forward thinking. And for the last few years, I've kind of brought up, not on the floor, but in private meetings, the potential for virtual reality tourism and the need to prepare for such a thing. It's really not that far on the horizon, if you look at the advances in technology. And if we're going to continue to benefit from the industry, we're going to need to find ways to capitalize on that industry as it proceeds towards virtual reality. So, I think this is a natural step in that direction, even if that probably wasn't the original intent. Thank you."

What are you guys doing at the DOE?"

"So, in a way it could backfire and kind of embarrass us rather than make us look like, yeah we're going to make an efficient and a very thorough DOE. With those things, reservations, or we could wordsmith it to be a little bit less loosey-goosey, if you will. Thank you, Mr. Speaker."

"No vote, Mr. Speaker, and a comment, if possible. I do appreciate the need to protect Hawaii's critical electrical infrastructure, but I cannot in good conscience support this bill. House Bill 686 is modeled on legislation that is proposed by the American Legislative Exchange Council that has been used by fossil fuel and energy companies in other states to criminalize climate change demonstrators and indigenous rights activists. It does so in a draconian way by grading the new offense of trespassing on electrical infrastructure as a Class C felony, something that is much higher than the corresponding penalties for standard trespassing that already exist in our state law.

"The Legislature should not be eroding the First Amendment rights of environmental justice and Native Hawaiian rights activists, especially in the midst of a climate emergency and serious discussions about the preservation of our *‘āina*. Instead, we should be making sure that we come together to deliver a green future that sustains our islands for generations to come. Thank you, Mr. Speaker."

The government's capacity to bring an individual before it for rulemaking, for decision making, it is the basis of much of our state and federal constitutions.

"This bill clarifies the two compacts which allow citizens of the State of Hawaii to be housed in jurisdictions outside of the state. It clarifies that the jurisdiction of the State of Hawaii travels with the body, it goes with our prisoners. It doesn't matter if they're in Arizona, or New York, or Mars, really. It means that the State of Hawaii retains the capacity to bring them back home. Thank you, Mr. Speaker."

"To my knowledge, Mr. Speaker, this is the first time that this has come before a debate before the House of Representatives. My much thanks to the Legislative Reference Bureau for doing some legal research, along with my office.

"In strong support. In 1989, when House Bill 411 came before this body, there was no debate. It authorized the director of Corrections to transfer inmates out of state. In 1992, when Senate Bill 2900 came before this body on the 46th day, it had no debate. The same happened in 1994, it passed without debate on the 36th day.

"Mr. Speaker, it is well documented that the transfer of inmates out of state has a disproportionate impact on indigenous peoples. Specifically, here in the State of Hawaii, on Native Hawaiians. A 2010 study by the University of Hawaii as well as Georgetown University documents that. It is a global issue.

"I would like us to move beyond blame. I think that there are well-intended people in the Judiciary and in this body who do not intend to effectuate, continue systemic racism. It has more to do with the way implicit biases stack upon each other, the way that history seems to condense.

"In 2017, the Honolulu motion picture annual award ceremony named Out of State its best picture, which discussed this issue. There has been much discussion on best practices and research to the point.

"We support, through the payment of private prisons, organizations like GEO Group and CoreCivic, the private facilities that have been the primary beneficiaries of the Trump administration's jailing of children at the border. We hope that this practice will end.

"Just last week, in executive order, the Federal Government has ended its relationships with private prisons. We should do the same. As has New York, California, Texas, and other states.

"It currently costs \$78 per day to house a prisoner out of state. I would like, Mr. Speaker, for myself and other members to think of all the ways that the state is cutting to the bone and all the positions on the chopping block this year. The way we fund shareholder interest of private prison investors and we fund, essentially, children in cages.

"This bill will not take place immediately. It will not happen in the next year. It will happen in the next several years. In the passage of meaningful bail reform and sentencing reform as well as the smart prosecution of crime, which is already happening, as well as the inclusion of the oversight commission and data collected by the Supreme Court will be essential in this practice. Thank you, Mr. Speaker."

Representative Wildberger rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Reservations, brief comment. With all due respect to my neighbor from Kalihi, if we don't build a new jail, we'll never get rid of OCCC, and I believe it's been in the works for a while. So, yes, thank you."

Representative Ganaden rose to speak in support of the measure, stating:

"Apologies that I do not know procedure in response or prospective rebuttal to my neighbor and the Representative from Kalihi. I am not in disagreement. In strong support. The eventual replacement of the Oahu Community Correctional Center will happen. It will happen probably sooner rather than later. However, it needs to be done with best practices, with the intention of supporting victims, with the knowledge that there is a disproportionate impact of criminal justice on certain communities, as well as with the inclusion of the Hawaii State justice oversight commission, which includes over 150 years of experience of state workers to talk about ways that we can include restorative justice practices, save the state funds. Thank you."

Representative Tokioka rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ilagan's written remarks are as follows:

"I rise in opposition to House Bill 902, House Draft 1.

"This measure seeks to amend the definition of 'public lands,' removing certain procedural safeguards found in HRS Chapter 171 for public lands set aside from the governor or leased by other state departments or agencies to the Hawaii Housing Finance and Development Corporation (HHFDC).

"HB 902, HD 1 would allow ceded lands – which Native Hawaiians hold deep-rooted, intrinsic claims to – authorization to be 'leased or otherwise disposed of under HHFDC's broad leasing and disposition authorities,' as noted by the Office of Hawaiian Affairs (OHA).

"I would support a version of this measure that adopts the amendments offered by OHA which safeguard Native Hawaiian claims to ceded lands that may be subject to HHFDC's vague leasing authorities."

Representative Perruso rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Nakamura rose to speak in support of the measure, stating:

"In strong support and comments. Thank you, Mr. Speaker. Just wanted to state that HHFDC, right now, has to go to the DLNR each time they want to do something on public lands, which adds time and resources to get affordable housing built. This is their mission.

"People who have part Hawaiian or Native Hawaiians who do not qualify for DHHL lands, and there is an estimate of 200,000 part Hawaiians, have no other choice but to go, and who have low incomes, have no other choice but to work with HHFDC finance projects. So, you can put all of these lands in ceded lands and give it over to OHA, but these lands will stay empty unless we build affordable housing.

"And that's why I'm really proud that HHFDC has been working on Leialii in Lahaina, Maui to partner with DHHL for development of the Honokowai well. HHFDC is providing \$10 million of dwelling unit revolving fund and DHHL is funding any additional costs to build the well. They're going to split the water, and HHFDC sold village 1A and 1B at Leialii to DHHL.

"Furthermore, Mr. Speaker, HHFDC also sold improved lands to DHHL in various projects, including Laiopua in Kona, Hawaii, the Villages of Kapolei in Kapolei, Oahu, and Waiahole Valley on Oahu. I stand in strong support of efforts to give HHFDC the power to address the affordable housing need in the State of Hawaii."

"Thank you, Mr. Speaker. In strong support. May I please adopt the words of the Chair of Housing, and brief comments, please," and the Chair "so ordered." (By reference only.)

Representative Har continued to speak in support of the measure, stating:

"Mr. Speaker, this bill essentially gives HHFDC another tool in which to provide affordable housing for our local residents. At the end of the day, we do not have enough affordable housing in the State of Hawaii.

"The fact of the matter is, is that we have currently a study by UHERO shows that 11,000 people, because of the pandemic, are behind on their rental assistance payments. So, the fact of the matter is, is if we think that the homelessness population is not going to increase after the moratoriums are lifted, we're fooling ourselves. We need to do everything we can to support HHFDC so that they can expedite the production of affordable housing units in the State of Hawaii for our local residents. So, for these reasons, Mr. Speaker, I stand in strong support. Thank you."

And this is critical, we have asked OHA for some help in getting the database of all these people that may qualify for this. So, thank you, Mr. Speaker," and the Chair "so ordered." Which recalls the opposite, what are these political cronies? No, they're not. They're adjudicated, judiciously and objectively. And this one is more embarrassing the way it goes out.

"Now, look, I'm not the guy in the street, but when I see feedback and I see wording like this, I think we can do a better job is the fact, Mr. Speaker. And the selection committee says they're already doing it. It ain't broke, so why fix it. Thank you."

UNFINISHED BUSINESS

H.B. No. 356, HD 1:

Representative Belatti moved that H.B. No. 356, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Har rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition. Mr. Speaker, with respect to House Bill 356, I think on its face it's well intended. But a further examination of the actual bill itself, the amendment that was made, that I want to thank the Judiciary Chair for, but I think what's critical here is to understand the testimony of the Judiciary. Specifically, HRS Section 601-4 directs the Supreme Court to appoint a judicial council, and they serve an advisory capacity only.

"As such, the judicial council does not act as a board as defined by HRS 92-2, and as much as they are not required to conduct meetings and to take official actions. Really, the judicial council, their primary role is basically to review applications, interview candidates, and consider candidates' private and confidential information for selection onto the Ethics and the Campaign Spending Commissions.

"And so, one of the problems with this bill that I think that Common Cause, as well as a Judiciary, as well as the Ethics Commission brought to light is the chilling impact that this bill could have upon qualified candidates who may in fact want to serve on these boards, but because of the requirement of having to publicize private and confidential information, that would actually have a chilling impact they don't now want to qualify.

"We've been going through this problem for many years. When you require these members, who serve in a completely, their voluntary capacity, now you're asking them to produce all of this private information, many people who are really qualified to serve on these councils choose not to do

so, because they don't want to expose their families and their private information.

"So, I think one of the concerns that I have is that, the Judiciary made it very clear that requiring the Judiciary judicial council to now be exempted from the specific judicial exemption that was given to the Judiciary, and to be clear, the Judiciary is, in fact, exempt from sunshine. And now we're exempting the judicial council from sunshine. It seems to be, this is a separation of powers issue. The judicial branch is specifically excluded from the operation of other bills because of the separation of powers.

"I think my biggest concern right now is, it says, the sunshine law carves out a distinction for when a board considers the hire, evaluation, dismissal, or discipline of an officer or employee. Given that this evaluative role constitutes the primary function of the judicial council, it would seem counterproductive to open council meetings to the public, only to then invoke this statutory exception from open meetings.

"Again, I want to thank the Chair for the amendment, but if you read the proposed language, it's clear and unambiguous. It makes it clear that meetings of the judicial council shall be open to the public as provided in section 92-3, provided that deliberations for the selection of nominees shall be closed to the public.

"Deliberation for the selection of nominees has nothing to do, that's when you actually decide who is going to be chosen for those boards. It has nothing to do with the interview process, the selection. It has nothing to do with that preliminary process, and that's where all that confidential information is disclosed.

"So, I just think that, in discussions with the Judiciary Chair, I don't think that this bill reflects the intent. The amendment does not in fact reflect the intent of the Judiciary Chair. And to be passing it on third reading is actually irresponsible on behalf of this body. So, for those reasons, Mr. Speaker, I stand in opposition. Thank you."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Mr. Speaker, first, I'd like to comment that the judicial council does more than deliberate and appoint members of the Ethics Commission and the Campaign Spending Commission. If you look at their authorizing statute, it says that they shall give continuing consideration to the administration of justice in the courts of the state. It shall make reports and recommendations biennially to the Supreme Court, and also whenever deemed advisable by the court.

"At this point in time, we do not know what any of those reports say. Everything about the judicial council is shrouded in secrecy. This House is committed to public transparency and accountability. The Judiciary & Hawaiian Affairs Committee took into consideration the points about privacy, and the language for deliberations that was added to House Draft 1 tracks with 92-5, which makes it clear that the judicial council can in fact then apply confidentiality to both the interviews process as well as the selection process.

"So, this bill represents a commitment to transparency and public accountability that this House is committed to. And I speak in strong support of this bill. Thank you, Mr. Speaker."

Representative Tokioka rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative DeCoite rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"I am voting in opposition to this bill because it may have the unintended consequence of discouraging potential members of the State Ethics Commission and Campaign Spending Commission from wanting to be considered for appointment to these commissions. The non-public meetings of potential members for these commissions are like job interviews where personal and confidential information about the members may be discussed.

Opening these meetings up to the public may have a chilling effect on getting qualified people to serve. *Mahalo.*"

Representative Okimoto rose in opposition to the measure and asked that the remarks of Representative Har be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Har rose to respond, stating:

"Thank you, Mr. Speaker. Just a brief rebuttal to the Majority Leader, please. Thank you for those comments, Majority Leader, but the fact of the matter, what I'm talking about right now, is the issue of the amendment, which if you as an attorney can read the clear language that says, deliberations for the selection of nominees. It doesn't deal with the issue and it doesn't encompass the intent of the Judiciary Chair, which was to incorporate the entire process with respect to the interviewing and the hiring and the information that could be made public. That is not covered under the amendment, so that's the issue that I'm speaking to for the record. Thank you, Mr. Speaker."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and H.B. No. 356, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE JUDICIAL COUNCIL," passed Third Reading by a vote of 42 ayes to 6 noes, with Representative Ward voting aye with reservations, with Representatives DeCoite, Har, Kong, Okimoto, Onishi, and Tokioka voting no, and with Representatives Eli, Gates, and Lowen being excused.

We have an extremely regressive taxation policy in this state, which has created a perfect set of conditions for foreign and out-of-state investors to come and park their money here with the lowest property taxes and holding fees in the nation. It is the absolute best investing vehicle in property in the entire United States.

"This bill is an attempt to address the regressive nature of our GET, of our income tax, and also make sure that investors and second homeowners are paying their fair share of property taxes. It has a long way to go, it is very much a work in progress, and I beg the members' indulgence as we continue to work on it."

Representative Wildberger rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. No vote please and a brief comment. In opposition to 1286 because we're losing the race between vaccine and the variants coming to Hawaii, and the modicum of safety that Safe Travels has been offering us I think should be kept in place in, and autonomy for the counties should also be maintained. Thank you."

Representative Tokioka rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. No vote and I have some brief comments, but before I forget, I'd like to ask permission to put comments into the Journal. What this bill tries to do, in my opinion, Mr. Speaker, is to make all four counties the same. And I understand the consistency of that from a visitor standpoint when they're traveling from the mainland.

"But what's clear to me is that if you look at Kauai, how safe the travel has been to Kauai. And the Safe Travels program, for those of you from the neighbor islands and for anybody who travels in the neighbor island, you have to fill out this form that Safe Travels Hawaii has. And you go to the neighbor islands, and I don't know about Maui or Hawaii Island, but when you go to Kauai, you're checked at the gate. When you come out of the plane, they check it. Every single time you fly.

"You're supposed to do the same thing when you fly back to Oahu, but I've been back to Oahu since the pandemic six or seven times, and not once have I gotten checked at Oahu on the QR code or everything else. But we have to fill it out every time we travel, and we do, but I don't know if anybody else has gotten checked when they come back to Oahu. But I think what it tries to do is it tries to make all four counties the same, and we're not. We're not the same.

"I think Mayor Kawakami has done an excellent job keeping the people on Kauai safe. And I think when mayors on their own island try to do what they need to do to help keep their residents safe, it's not a bad thing, Mr. Speaker. I understand opening up the state, and we're working to try to get less expensive tests so that tourists and locals alike can get those tests so that they can travel throughout the state and travel throughout the inter-islands safely. But for right now, this bill doesn't do that, and I'm voting no right now. Thank you, Mr. Speaker."

Representative Tokioka's written remarks are as follows:

"As everyone knows, the island which I represent has the lowest case counts by far during this pandemic. I'm voting no on HB1286, HD 1, because of the numerous calls, emails, and text messages that I have received, as well as people stopping me in the streets while on Kauai. I am not going to vote in favor of this bill without having an alternative.

"At this time, I am working with the Senate President, and the Governor's administration, the Mayor of Kauai, and the County of Kauai to come up with a safer, more efficient, and less expensive testing plan to open travel to Kauai.

"I don't believe in the concept of one-size-fits-all. I also think each county knows what is best for their own county. I understand the struggles of everyone in the visitor industry or anyone who are unemployed due to the

global pandemic. Whatever we do, we need to make sure we continue to keep our community safe."

Representative Morikawa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I recently received an email from a constituent who worked in the tourism industry pleading for help. I quote, I am a single mother of two children, a four-year-old son and a seventeen-year-old daughter. I have to have Wi-Fi so my daughter can attend school her senior year. I can't afford tampons, toilet paper, soap, toothpaste, laundry detergent, and my phone bill. Eventually I will have no way to even file my claim for unemployment.

"Another plea from a business owner who has received many calls from friends who work for or own businesses related to the hospitality industry. The email says, these people are devastated. I won't go into details on how they feel and where their state of mind or health is, but I want you to know what is being said on the ground level. This Kauai quarantine and the deviation from the Safe Travels program has crippled their businesses and livelihoods. They have racked up credit card debt and stopped payments on most loans and bills.

"And one more desperate constituent writes, we have struggled to the brink of disaster here on Kauai. This has gone on long enough. Homelessness, poverty, drug addiction, suicide, alcoholism, and domestic violence are on a steady rise in our community. No one seems to care about the long-term consequences of suffocating the working class.

"Just this morning, the Star-Advertiser headline, 'COVID-19 pandemic harming mental health in Hawaii residents, especially young and lower-income people, survey reveals.' People are in survival mode right now. The crisis is overwhelming for many residents.

"I've received some emails from prominent Kauai residents expressing their disappointment in my support, even threatening my existence at the Legislature. I was brave enough to even return a call from an extremely upset business owner about my support for this bill. No matter what I said, her mind was made up that this bill will allow tourists to bring the virus in and hurt Kauai, and shame on me for going against our mayor.

"Mr. Speaker, Kauai is already hurting. These opposers are well off and enjoy the island to themselves. Some think we, the Legislature, can hand out more money for unemployment. To me, the emails from struggling businesses and residents are much more relevant and reflect the hardship to meet their very basic needs. Unemployment for many has ended and families are now really going to struggle.

"I am a voice for the residents and businesses on Kauai who are afraid to speak about this publicly because of possible backlash to the current tourist travel policy in place. I will take the criticism for them and I will stand up and represent them in their time of need.

"Mr. Speaker, as this bill moves through the legislative process, it reveals valuable information and allows us to ask questions which are critical for us to understand how this policy helps or hurts us as we work to support families, businesses, our children, and move past this pandemic.

"Thank you, Chair of PDP, for inserting a purpose section that gives an in-depth historical summary.

"This bill allows a traveler with a pre-test result that has not been received in time a chance to take another test to avoid quarantine and assures that the traveler stays quarantined until the result is received. The traveler is also responsible for all quarantine costs if a positive test is received.

"How does this open the flood gates to travelers? This will protect our Kauai residents and allow healthy visitors and Hawaii residents to enjoy our island and visit friends and family.

"I come to Oahu every week and see how the visitor industry is slowly coming back. Even being in the strict tier level, people here have freedom to roam, shop in stores, and dine in or take out in restaurants. Almost all people are masked and seem to respect social distancing. We are all aware of what we must do to protect ourselves from the virus, and it's our behavior that will determine stopping of the spread."

Representative Tarnas rose to yield his time, and the Chair "so ordered."

Representative Morikawa continued, stating:

"Thank you, Mr. Speaker, at first it seemed like I was the only legislator with travel problems, and testimony on this bill was mostly Kauai related. So, I thought maybe this bill wasn't necessary, since it seemed to only affect Kauai. Then I saw an article in the Washington Post titled, 'Hawaii wants tourists. Tourists want Hawaii. But the rules are complicated.' That made me change my mind.

"Because of strict travel policies of Kauai and different policies of Maui and Hawaii Island are affecting the entire state. If you need to go to Hawaii Island from Kauai, you need a pre-test. Then in order to return to Kauai, you need another test. Thank goodness we don't need to pre-test to get to Oahu, because tests are expensive, and we need to find a way to allow for cheaper and quicker tests.

"People need to get back to work. Children need to get back to school, full time. Residents need to regain their livelihoods. They need to be able to pay their bills and support their families and loved ones. They need hope that there is light at the end of the dark tunnel and the suffering will soon come to an end.

"When is the right time to travel? When and how do we allow travel for those who have been vaccinated? Or those who have already been exposed? And those who are proven to be negative? This needs to be addressed, and the advancement of the science is rapidly occurring, causing immediate policy changes. Moving this bill forward will continue the conversation and perhaps establish a policy that will benefit all of Hawaii. Thank you, Mr. Speaker."

Representative D. Kobayashi rose in support of the measure and asked that the remarks of Representative Morikawa be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Wildberger rose to respond, stating:

"Thank you, Mr. Speaker. Still in opposition. With all due respect to my esteemed college from Kauai, I'd like to point out that the occupancy of the hotels in Kauai, Oahu, and Maui for the week of the 18th through the 23rd of January were all 20%. Removing the safety that we have, the modicum of safety that we have in the Safe Travels program, because the CDC is continuing to tell people that they should not travel, you cannot make people get on planes and fly here and spend their money here. We do not have economic health without public health first. Thank you."

Representative Kapela rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Nakamura rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Perruso rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ganaden rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations, brief comment. As a representative representing urban Oahu, I feel uncomfortable voting on this measure considering how much it disproportionately affects neighbor islands as compared to Oahu. I stand by my reservations."

Representative McKelvey rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I rise in support, however I do have reservations. I've expressed them to the Chair of Pandemic, and I thank her for the work that she's already starting to do on this bill. It's three readings, it's got a long way to go. I have concerns with the language. I think it basically does nothing coming or going because of these concerns. However, I look forward to hearing this in Judiciary and hopefully we can have more dialog on these concerns. And so, with reservations. Thank you."

Representative Kapela rose, stating:

"I'm sorry, Mr. Speaker. I'd like to change my vote to a no."

Representative DeCoite rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"I am voting with reservations on this bill because I do not believe Hawaii needs a one-size-fits-all approach to rebuilding our economy. Each county follows the state's guidelines and requests the governor's approval before making any deviations from his proclamations. Although there may be some confusion and the rules may be cumbersome or inconvenient, our top priority is keeping our people safe. As we move forward with vaccinating our residents, we need to exercise caution as we reopen our economy. *Mahalo.*"

Representative Har rose in support of the measure with reservations and asked that the remarks of Representative McKelvey be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Takumi rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ichiyama rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. Mr. Speaker, I am in support of this bill because I think that public health and economic health are inextricably intertwined. I don't think it's one first then the other. They have to move forward together. And there's research that supports this, not just locally, but nationally and internationally.

"The World Health Organization declares poverty as the single most important factor in determining health. And I think that's a crucial point that we've missed so far in this discussion, is the long-term impacts of a deep and prolonged recession in our state.

"When someone loses their job, they don't just lose their income in Hawaii, they also lose their health insurance. Many of our residents are dealing with long-term illnesses, high blood pressure, diabetes, obesity. When they lose their healthcare coverage, they may lose access to their maintenance medications and they may end up in our emergency rooms. So, I would just urge our colleagues to remember the larger picture also. Thank you very much."

Representative Tokioka rose to respond, stating:

"I rise again in opposition, Mr. Speaker. Second time, and I'm not going to be long. Again, I think what this bill tries to do is one-size-fits-all, and it's certainly not like that. And I think, in deliberating on what we were going to do with this, I spent a lot of time talking with Mayor Kawakami, who most of you know him, who were here, and some of you who weren't here still know him. And what he told me was, other people who are not in his position don't understand the responsibility of somebody passing away under his watch and he has to explain to that family why the choices he made created a situation where that person, that individual, could have caught the virus and passed away.

"So, I understand the frustrations he has. He's also a businessperson. I'm a former hotel manager for many, many years. Most of my life I managed hotels and restaurants. I want to make sure we get them open, but we need to make sure that when we open them, they're safe. And again, I go back to the Safe Travels program, when you come to Oahu, they don't check anything. When you go, I'm not sure, the Maui representatives or the Big Island senators, they might want to say something. But I know they check me when I go to Kauai.

"So once again, Mr. Speaker, in opposition. And I do understand the people that are in support of this bill that want to make it uniform. But coming from Kauai, and if you see the emails and the phone calls and everything I got regarding this bill, you might have a different opinion. My job is to represent the people in District 15, and that's why I'm voting no on this bill. Thank you very much, Mr. Speaker."

Representative Onishi rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Yes, Mr. Speaker, as the Chair for Labor & Tourism, prior to this bill being heard, we received lots of emails on both sides of the issue from throughout the state and also from Kauai, especially from Kauai. And our experience in those emails is that there are people on both sides of this issue on Kauai.

"As the speaker from Kekaha spoke earlier, there are people and businesses that are hurting tremendously because of the separate restrictions that are posed on people travelling to Kauai, whether they're residents or they're visitors. I think it's been brought up in discussion here that people don't know what those kinds of restrictions are for any of the counties. And therein lies part of the problem. There is no requirement for checking on Oahu, but there is also requirement for you to take a test 72 hours prior to your arrival in Hilo or to Hawaii Island and it be negative.

"So, this is so confusing to people that are traveling interstate as well as visitors that are coming from overseas. There isn't a standard policy on what happens if somebody flies into Oahu and then has to go to Maui, or Hawaii Island, or to Kauai. Or if they fly into Kona and then transit to Oahu. That policy is not the same, so people are so confused, and they decide not to travel because of Hawaii's policies.

"So, a standard policy would not only help our local residents in understanding as they go to visit friends, families, work, what those rules exactly are, what they have to do every time and to every island. And as well as visitors and even residents coming from overseas.

"Now, there have been bad actors. A lot of residents, you've heard cases where even though they were positive for COVID, still got on the plane and decided to come to Hawaii and create a health threat on the island that they live on. That, to me, is unconscionable by these people. But we're not going to stop these people from doing that. We cannot. It is a federal law that we cannot restrict who gets on the plane.

"So, we do have protections in place. Those people were immediately arrested when they arrived in Hawaii, due to the reporting of the airlines. So, I think there are adequate protections in place.

"This issue, this bill, has been discussed, especially at our House COVID-19 Committee, and was a recommendation from this committee which is made up of members throughout the entire state from all kinds of industries and all kinds of areas. And I'm in strong support. Thank you, Mr. Speaker."

Representative Ward rose to respond, stating:

"Mr. Speaker, with reservations and a brief comment. I share the concern about the complexity of the regulations, and particularly the 72 hours, Mr. Speaker, which really says, we need a quick and inexpensive test, which one of the testifiers said. And that's why, a few days ago, I said we need the Oceanit, spit in a cup, 10 minutes, \$20, and that would resolve all this stuff. Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"With reservations, Mr. Speaker, because of the empowerment, the empowered new stadium development district authority. They can just do about anything they want, but as I've spoken on this floor, I would really like to see that they would do some fundraising by having naming rights included as part of their duties. Having said that, with reservations. Thank you."

Representative LoPresti rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I'm a no vote and I have comments. Thank you, Mr. Speaker. I realize this is second reading, but I think there are many reasons to be opposed to this bill, especially at this time.

"In our collective mad dash to demolish and redevelop the Aloha Stadium district, any number of considerations appear to have been swept aside, in my opinion, to the benefit of a few. It appears at this stage, to me, that little to no consideration is being given to affordable housing, to workforce housing, and perhaps most importantly, to the district's central role for use in emergency situations.

"There are five reasons that I think we should be opposed to this bill and I'll outline them here. One is disaster preparedness. Two is the University of Hawaii's football program and what they have actually expressed their desire is. Third is the redevelopments and how we should do redevelopment of transit-oriented developments. Fourth is the actual cost of \$350 million at a time like this. And last but not least is, as my distinguished colleague from Hawaii Kai has mentioned, the superpower authorities that are being given and to whom they are being given.

"I'll start with the first one. The first is the emergency preparedness. This is a matter of state and national security. Now, this is not just a district issue, a district project, this is a statewide and a national concern, actually. Honolulu Harbor, as we all know, is an indispensable port for container ships that are vital lifelines to Hawaii's food, supply, and not to mention the countless other products and supplies that allow us to live in these remote islands.

"While plans were largely in place to use the port at Joint Base Pearl Harbor-Hickam as a backup should some catastrophic failure happen at Honolulu Harbor and it becomes unusable by a disaster, there is no space within Joint Base that can serve as a laydown storage area for shipping containers and what is known as a, quote unquote, transshipment point for disaster preparedness.

"The New Aloha Stadium Entertainment District has been identified by HI-EMA and the DOD as the best place for this laydown storage area. In all of my discussions on this critical topic with admirals, with generals, with HI-EMA, with national security people from Homeland Security, none of them have contradicted that assessment. It has always been the plan. I have brought this up time and again since 2016. I've brought it up at community meetings out there. I don't see any reference to this, Mr. Speaker, in the EIS and any of the development plans. And yet, as this body moves forward with development plans for the district, absolutely no consideration has been given to the need for this emergency infrastructure.

"Let me explain it to you with a map. If there's a south shore event, like a tsunami, we have Honolulu Harbor that can get wiped out, and so Pearl Harbor becomes the backup point. And it's just not even a mile down the road and they can do the container shipment laydown area.

"The other backup plan is to bring those things 20 miles to Kalaeloa. Which, if there's a major south shore disaster, Kalaeloa will be a point that needs to be used for airlifting. And if you look at the tsunami map, it is in the tsunami zone. So, if there is a major disaster that takes out Honolulu Harbor, it's going to take out the backup. That's why Aloha Stadium needs to be written in in any redevelopment plans that it is used for this capacity. Otherwise, if something really bad happens, this is not an exaggeration, people will die because we won't get enough food and enough supplies into the state."

The Chair addressed Representative LoPresti, stating:

"Representative LoPresti, the custom and practice of the House is to not allow for visuals during floor debate."

Representative LoPresti continued, stating:

"My apologies, that was my last one.

"The second reason is the UH football program. Now, I spoke with the athletics director two days ago, and my takeaway from that conversation, and what I've seen of him speaking in the media, is they don't even want this new stadium, necessarily, because they're not being given what they've asked for time and time again.

"It makes more sense, if we support the Warriors football program, to give them what they ask and what they've been pleading for, which is control over their own stadium, their own concessions, their own parking. And that can be done at UH Manoa lower campus for much, much cheaper, with a much more reasonable size. Elvis is not coming back to Hawaii. We don't need a huge stadium for him. There is enough room down at UH Manoa to put a stadium for them there."

Representative Perruso rose to yield her time, and the Chair "so ordered."

Representative LoPresti continued, stating:

"Thank you so much, Mr. Speaker. Third is TOD redevelopment. This state and this body has put in so much time, money, and blood, sweat, and tears into getting the rail project done. And that is all part of a master plan for the entire island to talk about transit-oriented development. This is part of that. And it really, I beg my colleagues, it must include affordable housing, genuine affordable housing. I don't see 'luxury entertainment district' ever being used in the same sentence as 'affordable housing.' And I don't foresee that happening in any real development plan for this area. And we owe the people that much.

"With regard to the cost, \$350 million, Mr. Speaker, \$350 million at a time like this for a luxury entertainment district. We have UI backup, I have constituents since before the election who are still begging for UI assistance, whether it's actually giving more money to that or setting up the infrastructure for it. And that's what I find deeply troubling about this use about using this rhetoric of superpowers for these people to redevelop an entertainment district when we should be giving superpowers to people to fix the UI program. We should be giving those superpowers to talk about helping with rental assistance for people who have lost their jobs, for businesses that are struggling, for getting PPE, for getting testing, for getting the vaccine distribution out, Mr. Speaker."

Representative Belatti rose to a point of order, stating:

"Point of order, Mr. Speaker."

The Chair addressed Representative LoPresti, stating:

"Representative LoPresti, please confine your remarks to the measure that's before us."

Representative LoPresti continued, stating:

"Thank you, Mr. Speaker. I believe I am because I'm talking about the cost of the project.

"Now, last but not least, the superpowers and who makes up this board that is being given these superpowers for redevelopment. Many of you may recall an infamous speech I gave on the floor in 2017. And it was on this issue, Mr. Speaker, it was on this issue about Aloha Stadium and who is on that Stadium Authority. And the people who make up that Stadium Authority do not have the expertise necessary to even follow through this project, much less be given these extraordinary powers without oversight. They're mostly made up of football players, ex-football players, and lobbyists. This is not the A team that Hawaii wants to put forward to give superpowers to do much of anything, in my opinion.

"I would like to enter into the Journal my comments from 2017, the 45th day, on S.B. No. 994 on this measure where I talked about the real moral hazard of repeatedly rewarding people who are lobbyists with this great power when we really need to be more cautious with how we give that power out," and the Chair "so ordered." (By reference only.)

Representative LoPresti continued, stating:

"So, to summarize, UH, from my understanding, doesn't even want this deal. They're not being given a seat at the table. They're asking for two seats at the table. Elvis isn't coming back, we don't need a huge entertainment district. We don't need it now, that money needs to be put elsewhere. And rail development is an issue of statewide concern. Transit-oriented development is an issue of statewide concern. And I see nothing telling me that there's going to be real affordable housing with this development, Mr. Speaker. And for that reason and many others, I'm a no. Thank you."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I would just like to point out that this bill actually adds residents to the Stadium Authority. Thank you."

Mr. Speaker, I know we've been very heavy in committee hearings, so many of us missed the small business Zoom with the Chamber of Commerce and the Retail Merchants Association. In that discussion, this issue came up and they said this would really be a super burden on the small business community, because there are so many different products, so many different labels.

"And for those of you who couldn't make it, I should note that we recorded it and it will be sent around to everybody in the House and the Senate. And particularly the comment about this issue will reflect what I've just said as something that is not good. Therefore, because of that, no vote. Thank you."

Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support, brief comment. All this bill does is adds portable electric spas to our appliances that we have state standards for efficiency. And I think, I forget the name of the pool and spa organization, the national manufacturer, but they're in support of it. So, there's no other appliance being added to this. I'm not sure what the Representative from Hawaii Kai is talking about, but I believe it's a different bill."

The DLNR prefers to regulate this by administrative rules. It contends that administrative rules will enable the department to adopt more comprehensive changes to manage these species. What are these comprehensive changes that the department has in mind? How will their enforcement actions change? *Mahalo*."

Representative McKelvey's written remarks are as follows:

"House Bill 1017 undermines our entire foundation of administrative law and gives the department complete authority through its own rulemaking without statutory authority whatsoever. We need to continue protecting the resources of kona crab, *ula*, and Samoan crab instead of putting their protection in the hands of Honolulu-based decisions. It's important to know that without the statutory prohibitions, the default is that it is legal to take kona crab, *ula*, and Samoan crab without the department making rules first. It would also potentially criminalize aquaculture endeavors like those at NELHA. For these reasons I vote with reservations."

"Mr. Speaker, I rise in strong opposition, a no vote with comments. Mr. Speaker, on November 12th, 2019 Starsky Willy Soichy was killed. He was a boy that I knew. He was 16 years old. At the time, I was managing a youth program at Kokua Kalihi Valley, a federally qualified healthcare center.

"Apparently, the night before, he was breaking and entering into a neighbor's home. The neighbor was named Richard Obrero. Richard Obrero shot Starsky as he fled his home in the streets of Kamehameha IV public housing complex. When Mr. Obrero was brought into court, he said that he was standing his ground. He said that he had every right to shoot this boy.

"I was there to see young men and boys cry over the death of their friend and their cousin.

"I'd like to thank the introducer for bringing forth this conversation about gun violence to this community. However, I feel that it is misapplied. I'd like to remind members, as well as myself, that hate begets hate, violence begets violence, toughness begets a greater toughness. Mr. Speaker, I rise in memory of Joseph Kahahawai, Trayvon Martin, and Starsky Willy Soichy. I vote no."

Representative Wildberger rose to speak in opposition to the measure, stating:

Representative Lowen rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

"When I introduced this measure last year, it was really just to defend yourself on your own property. So, while I'm in support of this bill, there is one line that I think I do have some concerns about. In section 2, paragraph 2, part a, where it says, 'the actor is occupying the premises of a place that the actor has a legal right to be,' I think that could be very broadly interpreted. And I think what we don't want to come out of this bill is a law similar to Florida's which has led to a number of negative externalities and poor outcomes. Thank you, Mr. Speaker."

INTRODUCTION OF RESOLUTIONS

The following resolution (H.R. No. 31) was announced by the Clerk and the following action taken:

H.R. No. 31, entitled: "HOUSE RESOLUTION RELATING TO CAUCUS LEADERS AND COMMITTEE MEMBERSHIP OF THE HOUSE OF REPRESENTATIVES OF THE THIRTY-FIRST LEGISLATURE," was jointly offered by Representatives Okimoto, Matsumoto, and McDermott.

Representative Okimoto moved that H.R. No. 31 be adopted, seconded by Representative McDermott.

Representative McDermott rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative McDermott's written remarks are as follows:

"I want to thank the Representative from Hawaii Kai for his leadership and willingness to step aside and allow the next generation of Republican leadership to emerge; it takes a big man to give up power, and his willingness to embrace the situation for the betterment of all, including this body, was an example for us all. I admire him and his record of accomplishment over three decades as breathtaking in scope.

"A man elected to the House in 1990, served as minority leader until 1997 when he departed to run for Congress in 1998. Shortly after that election loss he worked for several years in the USAID, built on the foundation of his work as a Peace Corps volunteer and Vietnam veteran interpreter and East West Center graduate during the 1960s and early 1970s.

"Upon his return to Hawaii, in 2006 he once again ran for State House and won again! What folks may be unaware of is that the district he won in his second go around was not the district proper he once represented, it was the adjacent district. This accomplishment alone is remarkable. How many conservative Republicans win once in Hawaii, let alone twice? Few.

"He once again emerged as the leader of the Republicans and through various incarnations in the 2000s he held various positions. He often promoted the younger folks when he deemed it appropriate as he has done once again today.

"Perhaps the most important thing about the Representative from Hawaii Kai is his character. A devout man of faith, I can honestly tell you that in the 25-plus years I have known him, over the thousands of hours of conversation, he has never attacked another individual (Republican or Democrat) on a personal level. Yes, he would critique ideas in our body and

is in fact known for the catch phrase, 'the marketplace of ideas,' but never, ever, in private or in person, have I heard him attack an individual's character, only ideas.

"In closing, the Representative from Hawaii Kai is a veteran, a Peace Corps volunteer, East West Center and USAID alum, and a member of this body for approximately 2 decades on and off, he has devoted his entire adult life to public service. He has seen others come and go, but he has been the steady hand on the tiller always looking to help young people emerge as leaders. This is what he has done once again in stepping aside to allow the next generation, embodied by the Representative from Mililani Mauka, to now take the helm of leadership with him remaining as minority leader emeritus to provide mentorship and advice. Once again, the Representative from Hawaii Kai has shown us the example of how to lead."

The motion was put to vote by the Chair and carried, and H.R. No. 31 was adopted, with Representative Hashem being excused.

By unanimous consent, the following concurrent resolution (H.C.R. No. 38) was referred to Printing and further action was deferred:

Representative McDermott rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, reservations and some brief comments. With all due respect to the chairs or the introducers of this measure, as it moves on to Finance, I would like us to take a look at the issue of the unintended consequences. What I mean by that, Mr. Speaker, is this bill allows the Department of Transportation to charge fees or assessments on people who own private roads that the public uses.

"Now, I did look at the committee report and I looked at the bill. I may have missed it, but I didn't see where it says that they cannot shut that road down. In fact, we actually had this occur in my district. We have a road, 800 meters is owned by the golf course, one side the City, the other side the Navy. In that middle 800 meters there were potholes, in some cases 8-inches deep. It's not an exaggeration.

"We convened a meeting to address the issue with the golf course, city councilmen, state senator, myself, other colleagues. And the golf course said, well we're not going to repave it, we'll just close it, because there was another way to get in there, but this was much more convenient for the residents at Iroquois Point. This is North Road, what I'm speaking of. It's

owned by three different people. So, they said they're not going to fix it and they were going to close it down.

"They offered to give it to the City, they offered to give it to the State, which we know will not accept it because they're unimproved roads. Which is the issue they're trying to fix here, or the safety issue. So, the City came in and paved the unsafe conditions, even though it's against their own rules to improve private property. But they did it for the overall safety, because the golf course wouldn't do it, they were going to close it. So, as we move forward, can we look at that issue of whether they can close it or not, because it's their road. Thank you."

Representative LoPresti rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I just would like to have the comments of my colleague from Ewa Beach entered into the record as if they were my own. He raises a really legitimate point in the Ewa Beach area that I hope is also considered. Thank you," and the Chair "so ordered." (By reference only.)

"I am voting in opposition to this bill because I believe it is unnecessary. As the Office of Elections has pointed out, we have had an estimated 20 vacancies for either the U.S. Congress or the State Legislature in the past 10 years. I do not believe we had any problem in the past in filling these vacancies for the brief periods between the Governor's appointment of someone and an election. The only problem may have been for those who supported a candidate that was not selected by the Governor. In those situations, the remedy would be for those persons to run when the seat is up for election. Another problem of having frequent special elections is that people may get weary of having to vote so many times and thereby, reduce turnout when we have our regular elections in even-numbered years. *Mahalo.*"

"Mr. Speaker, on 440, a no vote and a brief comment, please. Mr. Speaker, this abolishes the Office of Aerospace Development, ironically on the day that we have aerospace, our American arrival on Mars today. But why I regret this, it was such a long time in the making and it has such potential.

"In fact, Mr. Speaker, this has the potential to diversify our economy even more so than, as I've spoken on the floor, being the Hollywood of the Pacific, making movies as an economic diversification, and creating jobs that pay very, very strongly.

"Eliminating this is really eliminating probably the best place in the Pacific for not only small satellite launches but also for space tourism. As we know, there will be weightlessness flights that go up and will come down and they're having a huge premium that visitors are willing to pay.

"For those reasons, Mr. Speaker, I would hope as this moves on, we would think of the economy that has stalled and this is a way of diversifying it. I know we've given a lot weight, lip service, if you will, to diversifying the economy. This is one of those and this is office of the epicenter of diversifying the economy for space tourism, which the future holds a lot of potential. And I just regret that this is going to be a bill that is likely going to pass. For those reasons, Mr. Speaker, a no vote. A strong no vote, thank you."

There's no actual person in the Office of Aerospace Development to develop any aerospace. I would also like to note that we amended the bill to keep PISCES intact. So, any outer space ventures, moon landings, weightless flights, that would be PISCES that they would be dealing with, not the Office of Aerospace Development. Thank you."

"Thank you, Mr. Speaker. In strong support and I would like to have the comments by the Representative from the North Shore written into the Journal as if it was my own," and the Chair "so ordered." (By reference only.)

Representative Luke rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. It is unfortunate that the Governor's budget eliminated PISCES and all remnants of this office. This office, Office of Aerospace, has nothing left, even the person who was heading this office is now doing other jobs. So, it has been decimated already. The only thing that was left was travel, and I don't think it is the responsibility of the Legislature to leave just travel and slush fund for this office.

"So, in as much as I agree with some of the things that the prior Minority Leader has spoken, it's one thing for us to continue wishful thinking and hope that this office succeed, I think at some point in time it is about leadership and we need to just start over and look at how we can support the efforts of PISCES, it may not be fit in this office anymore. Thank you."

Representative Kapela rose to speak in support of the measure, stating:

"I rise in strong support, Mr. Speaker. Teachers are the people on whom our children's and our society's futures depend. And while the DOE has talked about using federal funds to lessen learning loss endured by students

during the pandemic, nothing will make learning loss worse than losing qualified teachers in our student's classrooms. The DOE superintendent, Christina Kishimoto, has called for using \$53 million worth of federal funds to pay for private tutoring companies that are based outside of Hawaii. That's incredibly absurd.

"Three of the schools in my district are in the state's top five most severely impacted by the state's teacher shortage crisis. If we don't pass this measure to guarantee that federal funds are spent to keep quality and qualified teachers in our classrooms, then the teacher shortage crisis at schools in my community and across our state will continue to get much worse.

"HSTA has recently projected that even now, 700 teacher positions are on the chopping block. It has become incredibly clear that the DOE has no real plan to address Hawaii's teacher shortage crisis. Therefore, it is up to us as elected leaders and elected officials to ensure that our children are guided by professionals that they can trust to receive an excellent education.

"If the DOE needs money for tutoring, then I think that they should reduce the number of external contracts that it has for standardized testing, which recently totaled at least \$60 million. Teachers, however, should be the very first thing that the DOE and we, as legislators, defend. Thank you very much, Mr. Speaker."

"Mr. Speaker, I'm going to go reservations with brief comments. Certainly, I support refurbishing electronic devices. It seems an odd idea to require and allow DAGS to conduct inspections of people who've received public assistance. I don't quite get what this does. If it's saying if you receive public assistance they're going to potentially come in your house and see if you have an old TV you haven't donated, maybe I'm misunderstanding this, but this seems like a weird overreach. So, I'm reservations now until I understand it further. Thank you."

Representative Ganaden rose to speak in support of the measure, stating:

"In strong support and not so much in rebuttal but in response to the Representative from Ewa Beach. This bill would allow for e-waste, that accounts for tons of items currently going into landfills and into disposal, to be reused by members of the community. Oftentimes the devices that we use, they only require just a little bit of service, maybe a new hard drive, some more memory, to get them operable and used by students in our community. Representative Lowen rose to speak in support of the measure, stating:

"In support. Just in advance of possibly other WRs, I just want to explain this bill. This poor bill, which I think was sadly misunderstood. On our electric bills, what this bill does, when you pay your electric bill, you pay a fee called the public benefits fee. The funds the work Hawaii Energy does for energy efficiency. A lot of what they do is provide rebates on major appliances like refrigerators, air conditioners, hot water heaters. And often when you go to the store to shop, you might not be aware this rebate that you're actually helping to fund is available.

"So, this bill would require, only for the appliances that are covered with rebates under the Hawaii Energy program and funded by the public benefits fee, that the availability of those rebates is displayed. That's the first part.

"The second part requires that the FTC-mandated little yellow tags when you buy a major appliance that indicates the cost to operate, those are all based on a mainland per kilowatt-hour cost average. And of course, Hawaii is an outlier in the cost of electricity and so the costs here are a lot higher. So, we're mandating, just for the appliances that are on the FTC registry, so not everything, and it's already a list that's already in existence, that those would be adjusted for Hawaii cost to operate. So that when consumers go shopping, they are aware of how much money they can save and they can make decisions appropriately.

"And the work to calculate the cost to operate would be one statewide average, not per county. That was a question that was mis-answered in the committee hearing, and that's specifically in the bill if anyone had read it. It would be one statewide average, and that calculation would be done by Hawaii Energy and the State Energy Office, and the template for the labels would also be designed by them. So it's very little work for any retailer to do, it's really about letting consumers know what their options are so they can make the best choices for themselves. So, thank you."

"Thank you, Mr. Speaker. Reservations and just a comment. ADC has partnerships in my district that the group is responsible for maintaining ditches, waterways, and because of that, it prevents extreme flooding for the town of Kekaha. So, this is very, very important for that town, and I just hope that these partnerships can continue if this bill should pass, and that's my main concern. Thank you, Mr. Speaker."

Representative DeCoite rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"I am voting with reservations on this bill because I am not convinced that we need to get rid of the ADC. If the original purpose of the ADC was to take a lead role in converting the state's agriculture lands that were for producing pineapple and sugar to more economically viable farms, then that is still a worthwhile goal today. I am not certain that the Department of Agriculture can take on this additional new role since it already has a lot to do. Following a very negative audit, an agency typically tries to correct the problems highlighted in the report and I would like to hear more from ADC about their response to the audit. I look forward to hearing the discussion on this bill as it moves forward this session. *Mahalo.*"

Representative Perruso rose to speak in support of the measure, stating:

"In strong support with comments. So, I wanted to, in brief response to the Representative from Kauai, this bill does call for the repeal of ADC and to bring the activity, the work of ADC around land management and irrigation projects under the Department of Agriculture. And it does so because we have received a very scathing audit report as well as an independently produced report from UHERO, and both reports came to the same conclusions.

"So, Mr. Speaker, the gross mismanagement of public lands and public monies by this attached agency has been going on for 27 years and it has led to a serious erosion of public confidence. So, I am calling for a repeal of ADC, because when we look at its history, it was created in 1994, the Agribusiness Development Corporation, and it was provided with really important exemptions.

"So, the purpose of the law, of the agency, in fact, was to help us transition away from sugar and plantation lands and towards diversified sustainable agriculture done by small farmers. And when it was first created, it was given broad powers to buy, own, and develop these lands. So, it's granted exemptions from public land trust's regulation, from Public Utilities Commission's regulations, and also from civil service law. But with these powers, not only was it unable to affect the kind of work that it was meant to do, but it also led to serious questions about transparency in our work in this public-private partnership.

"So, just for the record, 1998 was the first time that repeal was called for, and that was on the basis of work that we asked for. We asked the LRB to

conduct a report, and on the basis of that report, House Bill 3625 called for the repeal of ADC and its incorporation into a newly reorganized Department of Education. In 2006 and 2007, we went through the process. LRB did the same work again, made recommendations, seven recommendations, none of them were acted upon.

"So, here we are again, under the current leadership we have been asking for years for an audit. We finally receive the audit. The results are scandalous, I've never read an audit report like that. And I think that it's time for us to hold this agency accountable for the purposes of improving public confidence in government. Thank you, Mr. Speaker."

Representative McDermott rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I'd just like to commend the introducer and of course the previous speaker for her courage in introducing this bill. I wouldn't say the report was scandalous, more like comical, it was so bad. And if nothing else, this is a shot across the bow to tell them to get their act together. So, I applaud the introducer of the bill. Thank you."

Representative Kapela rose to speak in support of the measure, stating:

"In strong support and I would like the words of the Representative from Wahiawa inserted into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Ganaden rose to speak in support of the measure, stating:

"Strong support, same request," and the Chair "so ordered." (By reference only.)

Representative Marten rose to speak in support of the measure, stating:

"I'm in support with comments. I just wanted to say that I hope that with the transition to the Department of Agriculture, I hope that the powers that allow ADC to do small leases with small farmers will also be moving with them because there are initiatives currently underway that are very important to my district. Thank you."

Representative Har rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition and very brief comments, Mr. Speaker. I do appreciate the words of the introducer and some of the other members who are in support of this measure. But that said, the whole point of an audit is to find out what are the issues with a particular agency or department. And now that we know, it's my understanding they're working towards addressing those issues. You just don't throw away or repeal a department that actually does a lot of great things that the Department of Agriculture cannot do.

"The whole point of setting up many of these independent but attached agencies, like the Hawaii Strategic Development Corporation or even Agribusiness Development Corporation, was to give them the latitude to do things that other departments were unable to do because of government bureaucracy. So, to just throw the baby out with the bath water without even giving them a chance to address the audit is just a bane in my opinion. So accordingly, Mr. Speaker, I'm in opposition. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, with reservations and with a comment that I guess meshes with what has been previously said. The fact that we're handing it over to government from quasi-government, if the private sector can't do it, I would like to see what happens in the years ahead when the government, now the Department of Agriculture, is posed and poised to do this. This will be a real test, of which I doubt is going to be successful. Thank you, Mr. Speaker."

Representative LoPresti rose to speak in support of the measure, stating:

"Strong support with comments. I'd simply like the words of the Representative from Wahiawa entered into the record as if they were my own," and the Chair "so ordered." (By reference only.)

For decades, they have been asking for their own independent legal counsel. They have an inherent conflict with the Office of the Attorney General. They deal with numerous difficult legal issues, interactions with the federal, the state constitutions, a trust that was drafted over a century ago, thousands of beneficiaries, and individuals from across the islands, as well as the interactions with numerous departments across the state. The Office of Hawaiian Affairs has their own counsel, it's only right that the department does as well. We're hoping that this will save the state funds as the Department of Hawaiian Home Lands will not need to continue to retain independent counsel for very foreseeable civil litigation. Thank you."

Representative Todd rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. Electioneering reports are awful. And I hope we go further, I hope we eliminate them all together. No public good is served by electioneering reports. They are a pain in everyone's behinds. They fine you when you're a day late for posting a public Facebook ad. That doesn't make any sense at all.

"It's also a huge barrier to new candidates, because they come in unaware that they have to file them in the first place. When this was initially initiated a couple years back, there were brand new candidates who ended up getting fined into the fives, tens of thousands of dollars because they were unaware of the reporting.

"In addition to that, the Campaign Spending Commission does not actually do their due diligence in finding people who violate them. They instead rely on you to self-report. So, it rewards people who do not report their electioneering communications and punishes those who report that they were a day or two late.

"I've yet to find a single valid public use for the electioneering communications. All it does is tell you what people already know. Did you know that this campaign ran an ad in the newspaper, and they paid for it? It doesn't make any sense. So, I hope we go further, this is a good step.

"But in addition to this, if you really wanted to make this a useful form of public disclosure, you would require very large multimillion-dollar campaigns to disclose every single expenditure that is made by consultants on their behalf. Because what happens is, if you're a relatively minor candidate like most of us, you spend a few thousand dollars here and there on ads or on mailers or on newspaper ads. But if you're running a multimillion-dollar campaign, you just say I spent \$100,000 at so-and-so consultants and they do stuff on my behalf.

"It serves no purpose and I hope we go much further and eliminate them altogether. Thank you."

"In support with a brief comment. Before I begin, I just want to say I have the utmost respect for our men and women serving this country in uniform, and because of that I believe that they should have the privilege of driving on some of the best roads that we can provide, and this does just that. We have to ensure that the Department of Transportation is publicly funded well.

"I remember a few years back where we had talk about raising the gas tax. And if we continue on this path where our infrastructure continues to crumble, we may have to revisit the gas tax again, and the last time I checked, no one is exempt from paying the gas tax. So, for these reasons, I'm in support."

Representative Sayama rose to speak in support of the measure, stating:

"In support, Mr. Speaker."

Representative Ward rose to respond, stating:

"Mr. Speaker, second time for my no vote. As a Vietnam veteran, I've got to say something for the military. Not that we're going to wave the flag, but to remember that there's a number of things that doesn't happen after you get out of the military. Settling back in, getting a job, getting a vehicle. Getting a *manini*, if you will, break, if you will, \$200, \$300 for a year.

"This is a gesture of support for our military. It is not something that's going to build the roads, as the young man said, that we're going to have the best roads. We've got the worst roads, in the State of Hawaii, and to say that this is going to help it out versus another thing of pushing back the veterans, I think for those reasons, there's a few veterans here on the floor that would agree that this is a gesture that we gave not only to Vietnam veterans, Gulf War veterans, and the others. But to take it back now I think is untimely and very, quite frankly, unhelpful to what otherwise is the cause that has been given. Thank you."

Representative Tam rose to respond, stating:

"Thank you, Mr. Speaker. Again, in strong support. I want to clarify what the Representative from Hawaii Kai said. Veterans are not exempt from the vehicle weight tax."

Representative Perruso rose to respond, stating:

"Rising again in strong support with some explanation. When I first started running for office, the issue that confronted me when I was talking to people on the doors was exactly this issue. The lack of fairness in our taxation system, especially with respect to this particular exemption. So, I am grateful for this measure and I stand in strong support."

Representative Wildberger rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I'm voting no again on this bill and I'd like to make a brief comment. Disaster response 101 dictates that local on-the-ground decision makers are able to do just that, pivot, respond, and make decisions that best effect their area.

"I think it's very important for the counties to retain their autonomy. And I think if we're going to fix one thing with the Safe Travels program, it be people that actually got a test 72 hours before their departure but have not received their results be allowed to come in and quarantine only until their results are received, instead of black-and-whiteing the decision and making them wait for the entire 10-day quarantine.

"Surveys from HTA show that 20% of the arrivals are struggling with the Safe Travels program. That's a B-minus, that isn't that bad. And if we could just fix the component that requires a 10-day quarantine of everyone, even people that didn't happen to receive their test results prior to their departure and have it day of arrival or the next day of arrival, that would go a long way to fix the challenges with this system and still allow our counties to retain their autonomy. Thank you."

Representative Tokioka rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. No vote and I'd like to ask that the words of the Representative from Kihei be inserted into the Journal as if they were my own. And I'd also like to add and insert the comments that I made on the floor on February 12th regarding this bill. Thank you very much," and the Chair "so ordered." (By reference only.)

Representative DeCoite rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"I am voting with reservations on this bill because I do not believe Hawaii needs a one-size-fits-all approach to rebuilding our economy. Each county follows the state's guidelines and requests the governor's approval before making any deviations from his proclamations. Although there may be some confusion and the rules may be cumbersome or inconvenient, our top priority is keeping our people safe. As we move forward with vaccinating our residents, we need to exercise caution as we reopen our economy. *Mahalo.*"

Representative Nakamura rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations, brief comment, please. Mr. Speaker, the irony of this bill is that Kauai is doing it right. They got the lowest cases, they got the lowest death rate on a proportional basis. What they're doing is really good, and when the neighbor islanders stand up and say, hey, you know, we really need to get over this, it's a shame.

"And the other thing that's missing in this, and I've mentioned it numerous times on this floor and it's probably a broken record, we need fast and cheap testing, not just the vaccinations. And that's our own first pharmaceutical potentially with Oceanit, it's down the street in downtown Honolulu. Patrick Sullivan has you spit in a cup, 10 minutes, \$20, and until we get that, Mr. Speaker, we're going to have all of the 72-hour chaos of which she said, I think it's more than 20% who think this is really bad. To get my daughter here for Christmas was just a headache, and getting back from a conference was a headache. And we're supposed to know all this, as representatives.

"Having said that, Mr. Speaker, we've got to do a better job. And this one kind of says, okay, one-size-fits-all, but one size is not going to be the cure all. And that's the issue of which, if Kauai is doing a better job, *e komo mai*, let's go for it. This doesn't allow that, and for those reasons, I have very strong reservations. Thank you."

Representative McKelvey rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I stand in support, however I do have reservations on the measure, if I may. I wouldn't speak on second reading, but I've been getting flayed by my constituents on this measure. Nowhere have you seen the divisiveness of it come up in an area where you have a lot of concerns of small community of what COVID and the variants can do, but in addition you have the highest unemployment in the nation because the visitor industry has yet to recover.

"The bill is a work in progress, Mr. Speaker. I joined on it because of what I thought was the counties starting to enter an area that before February of last year that they weren't involved in. In the airports, in the harbors, in other areas. They weren't doing inspections back then. They weren't doing their own forms. They weren't doing different things, different rules. When I signed on, one of the proposed rules coming out of the county was to allow county workers to inspect people's cell phones for their privacy settings. Things that add a lot of confusion and actually undermine public safety.

"And so, however, this is a conversation, there is language in this bill that is troubling. Language that I think goes beyond your normal natural order, if you will, of county preemption and state preemption. And that's what worries a lot of our citizens right there, that it may go too far.

"However, this situation with COVID is fluid and changes every day. One of the things I've discussed this morning with my community is the Governor's idea to exempt all vaccinated people from all testing whatsoever. This measure could provide for a framework of mandatory testing so that the Governor couldn't move ahead with such a move, which concerns a lot of people.

"Mr. Speaker, noting all of these, I wish, and I hope other committees will have these discussions, there's an effective date, I stand with reservations, but they're serious reservations and I hope they'll be considered moving on. Thank you, Mr. Speaker."

Representative D. Kobayashi rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Wildberger rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. No vote and brief comment. I'm concerned that the definition of essential workers is entirely too broad and that neighbor islands are not offered enough protection with this bill. We want to protect our essential workers that are sort of sitting ducks in grocery stores and places of public enterprise. But when you've got people who are called essential workers and doing a variety of tasks, flying interisland on a regular basis, we've had issues with community spread and seeding a virus. And with the variants coming, I feel like that we need to narrow the definition of essential worker. Thank you."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Kitagawa rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations and a few comments. First, I'd like to start off just by thanking all of the nurses and APRNs for the work that they do, especially during the pandemic. They are an important part of the healthcare profession and my reservations do not stand from a belief that they are not capable of providing excellent health care or do not play an integral role in our healthcare community. I also appreciate the work of the HHH and CPC Committee Chairs who have done work on this bill and the other APRN bills to address inequities within our healthcare system.

"However, my reservations for this bill as well as other APRN-related bills that I have voted with reservations on stem from the way that the

Legislature is addressing policy related to the APRN profession. Since 2009, over the past 12 years, Hawaii's Legislature has passed 22 laws related to the scope of practice for APRNs. And in looking at information provided by the Hawaii State Center for Nursing, there are actually more than 22 laws that have passed related to the practice and expansion of this profession. The CPC Committee recently heard four bills related to expanding the scope of APRN practice in a variety of ways. There is also a Senate bill this session that looks to expand the scope of APRN practice here in Hawaii.

"I am surprised that there have been so many laws passed to expand or clarify the scope of practice for this one profession. I am concerned about the piecemeal fashion of these multiple pieces of legislation. As the healthcare needs of our communities continue to grow, I believe that it's important to look at legislation in a holistic manner. When we look at legislation to expand the scope of practice for a profession in an isolated manner, we miss seeing the bigger picture of how all these singular bills connect to one another and how they can impact each other in our communities. I can understand that as needs change, sometimes a handful of bills are necessary to address these issues. However, over 22 laws and at least four bills this session seems like quite a bit to address the needs of one profession.

"I'd like to see us have conversations, including with multiple stakeholders, to discuss what the role of APRNs and other healthcare professionals should be in addressing the many healthcare concerns we have in our communities. At some point, without having these discussions, the distinction between the different types of healthcare professionals, including physicians, becomes blurred. I believe we will continue to see piecemeal legislation in future sessions looking to expand the scope of practice for APRNs and other healthcare professionals without having these conversations. And I don't believe that that's in the best interest of our communities. Thank you for letting me share my reservations."

Representative Marten rose to speak in support of the measure, stating:

"I would like to comment in strong support. I just wanted to reflect on the comments from the Representative from Kaneohe and say that this bill and the intent of expanding the scope of services, which would be a benefit to neighbor island women and their families, is not about the healthcare providers, it is about the patients."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I have a no vote and a brief comment, not a rebuttal but an explanation. Why are we picking on the APRNs or designating so many things over the last few years as to what they do? The answer is very simple. We have a shortage of physicians. If the physician is not there, we gotta give it to the nurses. The APRNs are there.

"Why do we have a shortage of physicians? Well, the cost of living, the cost of housing, and Mr. Speaker, the buck comes back to us. What have we done about that? Even though last year when we opened the session we were going to fix it, we got COVID, now we gotta get it back on the front burner and get cost of housing, get the cost of living down, because all of these things are going to keep multiplying and APRNs are probably going to even be revisited even more in the future. Thank you, Mr. Speaker."

Representative Wildberger rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support with a brief comment. This bill offers neighbor island residents access to health care that Oahu residents take for granted. This is about equity in healthcare access for neighbor islands. And if we didn't have a shortage of doctors, then we wouldn't have to put all of these functions into nursing capacity, but we simply don't have the access to doctors, and we need that. These are constitutionally confirmed rights for women, and we don't, right now, have that access on Kauai, in the County of Maui, or on the Big Island. Thank you."

We need access, especially on the neighbor islands, and we have to make sure that this building is giving young women that opportunity to choose what they do with their bodies," and the Chair "so ordered." (By reference only.)

Representative DeCoite rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support and I'd like to ask for the words of the Representative from Kihei be entered into the Journal as if they were my own. And to add on that, in the most isolated areas of my district and limited travel to come back to Oahu and to have those services needed, I think this is highly needed in our area. So, thank you, Mr. Speaker," and the Chair "so ordered." (By reference only.)

The invocation was delivered by Representative Nicole E. Lowen, after which the Roll was called showing all members present, with Representatives Har and LoPresti participating remotely via videoconference, and with the exception of Representative Ohno, who was excused.

By unanimous consent, reading and approval of the Journal of the House of Representatives of the Twenty Second Day was deferred.

On motion by Representative Morikawa, seconded by Representative Matsumoto and carried, the following Senate Bill passed First Reading by title and further action was deferred: (Representatives Ichiyama and Ohno were excused.)

S.B. No. 402

ORDER OF THE DAY

SUSPENSION OF RULES

On motion by Representative Morikawa, seconded by Representative Matsumoto and carried, the rules were suspended for the purpose of considering certain House Bills for Third Reading by consent calendar. (Representatives Ichiyama and Ohno were excused.)

REPORTS OF STANDING COMMITTEES

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 645) recommending that H.B. No. 1041, HD 1 pass Third Reading.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 1041, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CONFORMITY TO THE INTERNAL REVENUE CODE," passed Third Reading by a vote of 50 ayes, with Representative Ohno being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 646) recommending that H.B. No. 516, HD 1 pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 516, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Ward rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I just want to note my reservations and a brief comment that this is well intended, it gives used appliances from those who have state funds and welfare recipients to give them to other people who are in need. The difficulty with this, Mr. Speaker, is the implementation, as indicated in the hearing, how are you going to actually find out what appliances are working and who are you going to pass them to. The second thing is that the nanny state is now bordering into the technological region.

"But my biggest concern is that, well if we can do this, why don't we actually have probably where rich people can give or they must give their appliances to the poor? I just don't see the nexus between one standing as

one who's on welfare having to give your technological vehicle or advanced appliances to other people. As the saying goes, Mr. Speaker, a good job is the best welfare check, and it's not a used computer or a used television set or a radio. Thank you."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you so much, Mr. Speaker. I wasn't going to speak on this bill, but it's third reading and given the previous comments, I respectfully disagree. In support. This is actually a really great bill, and the bill has moved along, the stakeholders from both government and the private sector, the tech sector, weighed in heavily and amendments were made as such. And as a result, it protects the State, it allows for donations to happen, and it creates standards that are realistic for the tech industry. And so I hope as this bill moves forward, it gets consideration. Even it being in the majority package, it's a really good bill and I thank the author for introducing it, and I hope for your support. Thank you."

Representative LoPresti rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, thank you. Reservations with comments. I certainly applaud the intent of this bill. I think it's a great idea, but the implementation seems to be overbroad and I don't think that the House should pass it out in the state in the form that it is. I think we could have done a better job before we send it over and I hope that the issues that have been brought up before get addressed if it makes it to the end. Thank you."

Representative Cullen rose to speak in support of the measure, stating:

"Mr. Speaker, strong support. May I please have the words adopted from the Representative from Lahaina as my own and permission to enter written comments. I just wanted to thank the three committee chairs for allowing this great idea to come to fruition. As we've seen with this pandemic, the issues that have come with electronic devices for our students in our classrooms and providing more students in our communities with the ability to distance learn and to have the technology available, I think this is that next step towards that direction. Thank you, Mr. Speaker," and the Chair "so ordered." (By reference only.)

Representative Cullen's written remarks are as follows:

"The pandemic has brought to light the disparities faced in our communities with access to technology, most notably in ensuring that all of our *keiki* are equally equipped with the tools they need to succeed while distance learning. This measure would provide greater access and opportunity to many while also reducing electronic waste, positively impacting our environments for future generations to enjoy. So, this is not only an education measure but also a climate measure. Thank you to the chairs once again for showing the leadership in moving this measure along. It has a long way to go in the Senate and one can only hope that the Senate does what is right."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 516, HD 1, entitled: "A BILL FOR AN ACT RELATING TO SUSTAINABLE ELECTRONICS MANAGEMENT," passed Third Reading by a vote of 50 ayes, with Representatives LoPresti and Ward voting aye with reservations, and with Representative Ohno being excused.

Representative McDermott rose to speak in support of the measure, stating:

"Mr. Speaker, I stand in support with a brief comment. Anything we can do to support agriculture is appreciated. Particularly, the pandemic has shown us the fragility of our supply chain, and that's the issue. Food security

has risen to the forefront once again. This is a good measure. It stabilizes the industry. We need to do more, but this is a great start. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 817, HD 2, entitled: "A BILL FOR AN ACT RELATING TO AGRICULTURE," passed Third Reading by a vote of 50 ayes, with Representative Ohno being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 650) recommending that H.B. No. 306, HD 1 pass Third Reading.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 306, HD 1, entitled: "A BILL FOR AN ACT RELATING TO HEALTH," passed Third Reading by a vote of 50 ayes, with Representative Ohno being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 651) recommending that H.B. No. 311, HD 1 pass Third Reading.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 311, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE NURSING FACILITY SUSTAINABILITY PROGRAM," passed Third Reading by a vote of 50 ayes, with Representative Ohno being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 652) recommending that H.B. No. 1282, HD 2 pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1282, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Ward rose to speak in support of the measure with reservations, stating:

"With reservations and a brief comment, please. Thank you, Mr. Speaker. I have three reasons for my reservations. First, it grows government, grows centralized government. This transfers the HHSC control of our hospitals into now the Department of Health. I'm not convinced that it's going to be able to do it cheaper, even though we've invested millions and millions and millions of dollars to make HHSC successful. I can't say it was successful, but I can't say the Department of Health is going to make it successful given

what it did even with the COVID and the testing and the contact tracing. Government doesn't show that it runs things very efficiently, so it's hard to believe that they're going to be able to do a better job, and I would just like to see how we follow up with this particularly in terms of the fiscal and the governance ability. And I know it's about Leahi Hospital and getting those on board for the elderly and long-term care, but there's no reason that HHSC cannot do that.

"The other good thing about HHSC that we're taking away is that it was very grassroots, county home rule specific. I think going backwards from that to more centralized government is a step backwards. And hopefully if this bill passes, it's going to work, but I have my doubts. For those reasons, I have serious reservations. Thank you."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support, brief comments. Mr. Speaker, I want to thank the chairs who've worked on this bill. This is a bill that helps us to begin to restructure government so that government can work better for us. It also will strengthen our behavioral healthcare system statewide. Thank you, Mr. Speaker."

Representative Luke rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I would like to thank the current Health Chair. This issue has been very controversial in the past, and in trying to get Oahu region to be decoupled from HHSC, because, as you know, Oahu region, unlike the other county hospitals, it's not a complete hospital function, it is pretty much a long-term care facility. And for HHSC to support a long-term care facility which is not generating any revenues ended up hurting some of the potential expansion and support for the neighbor island hospitals. So, because the Oahu region hospitals pretty much just does Medicaid patients that no private hospitals are willing to take, this is something that we need to do, because we have to fund them anyway. And this allows Department of Health the flexibility to use some of the unused beds for homeless, triage, and other things as well.

"The reason why I wanted to speak up today is because this is something that we have tried to do in the past and many times failed, and I wanted to just acknowledge the Health Chair because, for some reason, this year there was no opposition, which was shocking, whereas in the past it has been super controversial. So I don't know what it is about him that we are able to get this done, but I know even you, Vice Speaker, we tried and it was super controversial, and they wanted to threaten the Honokaa Representative to such means. So, I'm just saying that I'm just very impressed, so I just wanted to thank the Health Chair, I can't just say enough how impressed I am. So, thank you very much."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1282, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE TRANSITION OF THE OAHU REGIONAL HEALTH CARE SYSTEM FROM THE HAWAII HEALTH SYSTEMS CORPORATION INTO THE DEPARTMENT OF HEALTH," passed Third Reading by a vote of 50 ayes, with Representative Ward voting aye with reservations, and with Representative Ohno being excused.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 223, HD 1, entitled: "A BILL FOR AN ACT RELATING TO MASSAGE THERAPISTS," passed Third Reading by a vote of 50 ayes, with Representative Ohno being excused.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 1004, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE BOILER AND ELEVATOR SAFETY LAW," passed Third Reading by a vote of 50 ayes, with Representative Ohno being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 657) recommending that H.B. No. 1192, HD 1 pass Third Reading.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 1192, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CONSUMER PROTECTION," passed Third Reading by a vote of 50 ayes, with Representative Ohno being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 658) recommending that H.B. No. 47, HD 1 pass Third Reading.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 659) recommending that H.B. No. 767, HD 2 pass Third Reading.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 767, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE FARM TO SCHOOL PROGRAM," passed Third Reading by a vote of 50 ayes, with Representative Ohno being excused.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 760, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative LoPresti rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. Ruling on a potential conflict. My spouse is involved in production of drama, in theatre," and the Chair ruled, "no conflict," and that the ruling would extend through *sine die*.

Representative LoPresti continued to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. No vote and comments. This bill is meant to support the performing arts, which I totally applaud and would get behind. The problem as outlined in my understanding by the Attorney General's Office is that basically the law is setting it up so that if the State of Hawaii sponsors a performance of the 9th Symphony of Beethoven, the State of Hawaii now owns the rights to the 9th Symphony of Beethoven. If the State of Hawaii sponsors a performance of Guys and Dolls, the State of Hawaii now somehow owns the rights to that recording of Guys and Dolls. That's completely in conflict with performing arts law and respecting intellectual property rights of the artists. And that's the problem with bill, and therefore I'm a no."

Representative Branco rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support and comments. *Aloha e nā hoa hanalima ma Kapikala*. The chairman of the Hawaii State Foundation on Culture and the Arts Pundy Yokouchi once said, 'art is as important as education because art is education.' Therein lies the spirit I believe and the intent of the 1% of the arts fund and why it's so important to Hawaii, especially for our Native Hawaiian arts community. Much of our Native Hawaiian arts, like our language, is displayed through oral and dance performance, which is not currently promoted through the special fund. How can we expect the indigenous arts of these islands to be perpetuated as a cornerstone of art education when they're not prioritized?

"In the Hawaii SFCA 2019-2023 Strategic Priorities report, of their 12 strategic priorities, only one is dedicated to Native Hawaiians. Under this single objective, three strategies are listed. Strengthen relationships with Native Hawaiians, regularly liaise with representatives of Native Hawaiians, and to encourage, support, acknowledge Native Hawaiian culture.

"They report nothing on the need to perpetuate traditional and customary practices while also supporting the self-determination and advancement of Native Hawaiian cultural practitioners and artists. There's nothing on the need to secure Native Hawaiian culture, arts, and intellectual property against misappropriation and exploitation. The SFCA list of strategies is something that you would find when beginning a relationship, or vastly needing to improve an existing relationship. This should not be the strategic priorities of a state agency that was founded nearly 50 years ago. The inclusion of the performing arts to their 1% of the arts fund would give *hālau hula* and other *oli* and *mele* practitioners the opportunity for their work to be included.

"The arts preserve what fact-based, historical records can't, and they tell us how it felt to exist in a particular time and place. I can't think of anything more fitting for these records of Hawaii than the opportunity to hear and view performances from our leaders in the performing arts, including others from our Pacific Islander communities. I realize that there is only so much funding for the arts, but that funding should include Native Hawaiian arts and performing arts. The arts should be inclusive, the arts should be ever evolving, and the arts should always be perpetuated. *Mahalo*."

Representative Holt rose in support of the measure and asked that the remarks of Representative Branco be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Kapela rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Perruso rose to speak in support of the measure with reservations, stating:

"I had previously submitted a green slip for a no vote and I'd like to change that to a WR."

Representative Ganaden rose to speak in support of the measure with reservations, stating:

"Same request."

Representative Gates rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. Just to clarify what the previous speaker said regarding copyright infringement, this version of the bill, this HD is a recommendation from the AG's office taking into account the copyright issues. So, thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 760, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE FOUNDATION ON CULTURE AND THE ARTS," passed Third Reading by a vote of 48 ayes to 2 noes, with Representatives Ganaden and Perruso voting aye with reservations, with Representatives Kapela and LoPresti voting no, and with Representative Ohno being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 663) recommending that H.B. No. 777, HD 1 pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 777, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative LoPresti rose to speak in opposition to the measure, stating:

"Mr. Speaker, no vote please and comments. My main issue with this bill is, in one of the hearings Iolani Palace came and testified they don't need this, they can't use it. It's general obligation bonds. If the palace needs fixing, that's the responsibility of DLNR, not money that should be stripped out of the arts fund to fix the roof. So, when people that the bill is to support come and say we don't need the bill, then I'm comfortable voting no. Thank you."

Representative Kapela rose to speak in opposition to the measure, stating:

"No vote with a brief comment. There is a small arts organization in my district that would be incredibly impacted by this bill. When we take money away from the State Foundation on Culture and the Arts, when we take money away from the arts, the organizations that suffer the most are the small ones in rural communities and on neighbor islands. We need to make sure that we're increasing access to the arts, especially arts in education, and not stripping it away in a time of need. Thank you."

Representative Holt rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I would just like to note that the State Foundation on Culture and the Arts has had an unencumbered balance of \$9 million for the last multiple years, so I don't think that anybody is going to be losing any programs. I'd also like to commend the introducer as well as the Chairs of the Committees on Culture, Arts and Finance for looking at different ways to fund these very historical, important museums in our state. So, in strong support, thank you."

Representative Gates rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. We all know that desperate times calls for creative measures to be taken. This bill is just that. As we know, COVID has been impacting Iolani as well as Bishop Museum, which are both state entities, and this will provide much needed funding to support the repair and maintenance, which the GO bonds are able to be used for, which is the special works of art fund. This bill is passed in hopes that we can prevent some catastrophic failures of infrastructure at both Iolani and Bishop Museum, which are state treasures for Hawaii. So, thank you, Mr. Speaker."

Representative Ganaden rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 777, HD 1, entitled: "A BILL FOR AN ACT RELATING TO WORKS OF ART SPECIAL FUND," passed Third Reading by a vote of 46 ayes to 4 noes, with Representatives Ganaden,

Kapela, LoPresti, and Perruso voting no, and with Representative Ohno being excused.

ANNOUNCEMENTS

Representative Matsumoto: "Thank you, Mr. Speaker. I just wanted to announce that it's that time of year again for the Women's Legislative Caucus Easter Basket Drive. For those of you who are new members, every year we have an Easter basket drive to donate hygiene items or household items to women and children in need. This year we are donating to four different organizations, the Domestic Violence Action Center, the Institute for Human Services, Parents and Children Together, and the Salvation Army. And this is going to be on March 31st. We'll also be selecting an Easter bunny and an Easter chick that you can be taking pictures with. Instead of doing it down in the entryway, we're going to be doing it up in the rotunda by the Father Damien statue so it can be out in open air and socially distanced to take photos. So, it's a really great thing that we do for the community and I think this year it's more important than ever. So, thank you."

Representative Har: "Thank you, Mr. Speaker. Mr. Speaker, if I may address you and the body for one minute, I would appreciate it.

"Mr. Speaker and colleagues, I wanted to address an incident that occurred on Monday, February the 22nd. As I'm sure you've all heard by now, I was arrested for suspicion of driving under the influence. I wanted this opportunity to explain to you what exactly happened that evening and to apologize to this body.

"It's important for all of you to know, I have been sick, I've been ill for several weeks now, I've been battling a respiratory illness and have been on prescription medication. I did work late that night, I've been working late on several projects in my private sector job, and after working late that night I made the decision to have a beer with dinner. While I didn't realize it at that time, it's obvious that that decision, coupled with my medication and my long work hours, was something that I'll regret for the rest of my life.

"Mr. Speaker, as a freshman I was always taught by our predecessors, our elder statesmen, that regardless of differences, political, personal, professional, or philosophical, above all, the institution comes first. The House of Representatives is an institution which we all have the privilege of serving. Mr. Speaker, I want to deeply apologize to you, the members of this body, for any embarrassment and shame I caused to you, my colleagues, and the institution.

"Thank you to the members who have reached out to me with your thoughts, your prayers, and your kind words of support. I remain fully committed to regaining your trust and confidence as a member of the House of Representatives, the Legislature, and your colleague. Thank you for this opportunity to speak."

"Mr. Speaker, rising in opposition. I'd like to make two small points. First, a technical point. This bill calls for a special fund. Usually special funds are self-sustaining and also have nexus. I think that if the enforcement unit in the AG is to be fully funded, it would need general funds, and in which case special funds would not be needed.

"Point number two is that penalties, such as fines on the individual user level, have usually been much less effective than fines on the wholesale manufacturer or distribution level. So, you have requirements for warning labels on cigarettes, you have requirements for what ages you can purchase cigarettes, you have requirements for tobacco taxes, which have been extremely effective in lowering the usage of cigarettes especially amongst young people. So, that is generally the preferred way of tobacco control and enforcement. And while the fines here are not harmful, I think that they can also be added to with other, more effective means. Thank you."

Representative Okimoto's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in opposition to HSCR 705, HB 445, HD 1. While I appreciate the author of this bill's intent in curbing the budget deficit, this bill will have lasting effects on our residents. This bill proposes to lower the Hawaii estate tax from \$5.49 million to an unspecified amount. My concern is that by lowering the estate tax, we will further motivate our aging population to join the ongoing exodus of our state's residents to the mainland. Furthermore, many of our residents live in multigenerational homes that have already appreciated just this year. If the family does not have the assets to pay the tax, they would be forced to sell their homes and further exacerbate our locals' problem of not owning a home. Thank you, Mr. Speaker."

Representative Har rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Quinlan rose to disclose a potential conflict of interest, stating:

"In opposition and a conflict of interest. Passage of this bill may materially affect my son's finances," and the Chair ruled, "no conflict," and that the ruling would extend through *sine die*.

Representative Quinlan continued to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. So, you know, the devil is in the details. I don't have a real particular problem with the estate tax itself, but it's the level it's set at that really matters. I understand that right now, the amount is blank, but let's say hypothetically, if we're talking about estates under \$5 million, for the majority of folks, they made the majority of their money in their lifetime with their salary, not with investments necessarily or capital gains or stock options.

"So, if you made enough salary to have a \$5 million estate, your entire life you've been taxed at about a 50% effective tax rate when you factor in state and local taxes. And my fear is that if we set too low of a limit, what we're going to do is prevent middle class people from passing on their family homes to their children. Thank you."

Representative Ward rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. Representative Cullen's written remarks are as follows:

"I stand in strong support of this measure. Illegal aerial explosives/fireworks have plagued some of our communities to the point that it has impacted the way of life for our community members and our pets. We are trying to find ways to encourage law enforcement to be more present in our communities so it would deter individuals from illegally possessing fireworks and for participating in it. This measure would increase the fines for any individuals caught popping fireworks and for individuals who have a permit but are caught popping them outside of the permitted hours. The fines collected will be allocated for law enforcement."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. "Mr. Speaker, I rise in opposition to HB 111, HD 2.

"The intent of this bill is to transition Hawaii away from fossil fuels so that the State of Hawaii is 100% reliant on renewable energy. While I certainly believe the intent of this bill is laudable, notwithstanding I am in opposition.

"The reason for my opposition is that this measure does not align with the state's 100% renewable portfolio standards mandate set forth in §269-92(d), which describes events and situations that are beyond the control of the electric utility companies that would allow them to use fossil fuels to generate electricity in emergency situations. Furthermore, there should be other amendments to the measure more clearly defining emergency electricity generation facilities, and describing events or circumstances that are beyond the reasonable control of electric utility companies.

"Mr. Speaker, I agree that Hawaii should move aggressively in the direction of renewable energy, but I also believe that we need to have more discussions on planning the 'what ifs' to make absolutely sure that after our state eliminates most of the fossil fuel energy production and reserves, there will be a contingency plan in place to provide continuous electricity for the people in the State of Hawaii. And for these reasons, I stand in opposition to HB 111, HD 2. Thank you."

Representative Ward rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Okimoto's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in opposition to HSCR 726, HB 433, HD 1. This bill imposes a 'climate change impact fee' of an unspecified amount per day or portion of a day to a rented rental motor vehicle. We already have legislation on the books that imposes a tax on the renting of motor vehicles, specifically HRS chapter 251. Furthermore, this surcharge is to be administered by the DLNR, which will put them at odds with

DOTAX who is already administering a tax on rental motor vehicles. With all due respect to the author, our rental car industry already pays its fair share of fees. We should encourage industries to recover during our ongoing budget crisis, and this bill conflates already considerable revenue losses. For those reasons, Mr. Speaker, I am opposed to this bill."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. Representative Okimoto's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in opposition to HSCR 730, HB 1142, HD 2. I will keep this brief; this is, first and foremost, a tax increase on mid-level cars. Our state already has THE highest cost of living in the US. Legislation and taxes like this further contribute to this problem and force our population to outsource their needs to the mainland. For these reasons, Mr. Speaker, I am opposed to this bill."

Representative Har rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Har's written remarks are as follows:

"Mr. Speaker, I rise in opposition to HB 1142, HD 2, Relating to Energy. This bill enacts a 1% surcharge on the gross proceeds and income on the sale of gas-powered vehicles with a value of \$60,000 or more. The monies collected from this surcharge would then be placed into the public utilities commission special fund subaccount established for the sole purpose of funding the rebate program for the construction of EV charging stations.

"Mr. Speaker, I am a staunch supporter of alternative energy and in fact, have owned a hybrid vehicle since 2007. While I support the intent of this measure, my concern is that passing this measure as is violates HRS §37-52.3, which states that there is criteria for the establishment and continuance of special funds as shown below:

§37-52.3. Criteria for the establishment and continuance of special funds. Special funds shall be established only pursuant to an act of the legislature. The legislature, in establishing or reviewing a special fund to determine whether it should be continued, shall ensure that the special fund:

- (1) Serves a need, as demonstrated by:
 - (A) The purpose of the program to be supported by the fund;
 - (B) The scope of the program, including financial information on fees to be charged, sources of projected revenue, and costs; and
 - (C) An explanation of why the program cannot be implemented successfully under the general fund appropriation process;
- (2) Reflects a clear nexus between the benefits sought and charges made upon the program users or beneficiaries or a clear link between the program and the sources of revenue, as opposed to serving primarily as a means to provide the program or users with an automatic means of support that is removed from the normal budget and appropriation process;....

"Mr. Speaker, I submit that there is no nexus between the surcharge enacted against purchasers of gas-powered vehicles valued over \$60,000 and the EV charging stations rebate program. State law requires a 'clear link.' If, however, this measure included electric vehicles valued at \$60,000 and over, there would be a clear link because the purchasers of EV at this price point would be the potential users of the EV charging stations.

"As this bill violates HRS §37.52.3(2) in that there is no nexus between the surcharge on gas powered vehicles and the EV charging rebate system, I stand in opposition to HB 1142, HD 2. Thank you."

Representative DeCoite's written remarks are as follows:

"I am voting in opposition to this bill because I am not convinced that we need to get rid of the ADC. If the original purpose of the ADC was to take a lead role in converting the state's agricultural lands that were producing sugar and pineapple to more economically viable farms, then that is still a worthwhile goal today. I am not certain that the Department of Agriculture can take on this additional new role since it already has a lot to do. Following a very negative audit, an agency typically tries to correct the problems highlighted in the report and I would like to hear more from ADC about their response to the audit and specifically what they intend to do to make corrections. *Mahalo.*"

Representative Tokioka rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matayoshi rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I wanted to address some concerns that came up in the testimony. Members, this bill addresses a concern occurring every day in the courts of Hawaii. Domestic violence offenders almost always after arrest put pressure on victims not to appear in court, to recant, and to not cooperate with prosecutors. And it's working. Each year, hundreds of cases are dismissed for this reason.

"The pressure by domestic violence defendants to have victims recant or not appear in court can often be heard in recordings from jail, where every day domestic violence defendants threaten, sweet talk, and coerce victims not to appear or to testify untruthfully.

"This bill is a narrow hearsay exemption for statements made to responding officers prior to the defendant's arrest. When the police respond to a call for domestic violence and the perpetrator is not on the scene, the primary purpose for both the questions to the victim and the responses to those questions to law enforcement are made in response to an ongoing emergency and are therefore nontestimonial in nature. Police officers ask questions to the victim in order to gather facts as to what happened, what medical attention might be needed, who did this, where they are, in order to arrest the person quickly and thereby keep the victim and their family safe.

"In domestic violence cases, the perpetrator who is not in custody is still a danger to the victim and their family. For example, the defendant might have keys to the home, might know what time the victim leaves their house and the route they take, might know the friends and family of the victim and where the victim might flee to if they don't feel safe at home, and a lot of other information that puts the victim in danger while the perpetrator is still on the loose.

"So that this questioning and the answers to these questions, again, passes the ongoing emergency test standard that the U.S. Supreme Court discussed in its most recent case on this issue, *Michigan v. Bryant*, in 2011, prior to the arrest of the defendant in a domestic violence case, it is clear that there is an ongoing emergency, such that the primary purpose of the police officers' questions, the victim's answers to what exactly happened and by whom, is to gather important, potentially lifesaving facts. As the court clearly stated in *Michigan v. Bryant*, the existence of an ongoing emergency at the time of the encounter is among the most important circumstances informing the interrogation's primary purpose.

"Nationwide, statistics show that 44.8% of women killed from 2007 to 2016 were killed by an intimate partner. And other news stories and studies are also alarming, discussing that the ongoing emergency right after a victim reports a case of intimate partner violence, women in abusive relationships are 500 times more at risk to violence when they leave.

"So, the primary purpose of this bill is to address the ongoing emergency of how the criminal justice system in Hawaii handles the prosecution of domestic violence cases. The proposed bill has constitutional safeguards in place that would entitle the defendant to a fair trial, only allowing statements that have a sufficient *indicia* of reliability after judicial review, which also be held constitutionally valid. So I ask my colleagues to join me in supporting this bill. Thank you."

Representative Nakamura rose to speak in opposition to the measure, stating:

"Thank you, in opposition. I respect the introducer of the bill's position and attempt to address this ongoing concern. I just wanted to note that there's a lot of negative testimony from the Judiciary, from the public defenders, and from the Hawaii Association of Criminal Defense Lawyers. So, I just wanted to state my concerns based on the testimony we received. Thank you."

Representative Ganaden rose to disclose a potential conflict of interest, stating:

"Noting a brief conflict. I'm a member of the Hawaii State Bar's committee on Hawaii defense attorneys," and the Chair ruled, "no conflict," and that the ruling would extend through *sine die*.

Representative Ganaden continued to speak in support of the measure, stating:

"I'm also standing in strong support. As a former staff attorney for the Domestic Violence Action Center, I represented numerous individuals who would go into court requesting a temporary restraining order to be turned into a full protective order under Chapter 586, which is in the family court.

"Oftentimes, the court would suspend numerous forms of evidence that wouldn't be admissible under criminal court in order to hear all the facts. Oftentimes, the individuals that we were representing were still in a

relationship or were going to go back into a relationship with the respondent. So, the facts that were presented to the family court were oftentimes very different from the facts that were presented to the criminal court. For that reason, and because individuals would exercise their rights under due process, things would change in between the issuance of the protective order and the forthcoming criminal trial.

"If you work in this kind of line of work, you know that this is a unique kind of thing. That intimate family violence goes across lines of race, of class, of all sections of humanity. The way that hurt begets hurt is terrifying and predictable. For that reason, I stand in strong support."

(Stand. Com. Rep. No. 777) recommending that H.R. No. 33, as amended in HD 1, be adopted; and

(Stand. Com. Rep. No. 778) recommending that H.C.R. No. 41, as amended in HD 1, be adopted.

Representative Belatti moved that the reports of the Committees be adopted, and that H.R. No. 33, HD 1; and H.C.R. No. 41, HD 1 be adopted, seconded by Representative Morikawa.

Representative Tarnas rose to speak in support of both measures, stating:

"Thank you, Mr. Speaker. In support with some comments. These resolutions are in response to the House Speaker's comments at the very beginning of session, when he threw down the gauntlet saying that the University of Hawaii really should not be the one to manage the mountain going forward. The Speaker was giving voice to skepticism that is shared by residents in the state, not everybody, but there are a number that think the University should not be the one to manage the mountain.

"So, these two resolutions are to set up a working group that would allow the opportunity for the Native Hawaiian representatives to speak their perspective and share that perspective with the other members of the working group and then in turn to the Legislature and to the land board.

"The University is proceeding forward on their plans to extend the lease on the mountain so that they would be able to manage it as part of their responsibilities over these public trust lands. There is an independent evaluation of the management plan, and in that independent evaluation it states that, while the University has done a good job managing the natural resources on the mountain, they have struggled to really manage the cultural resources on the mountain. And that they have tried, but they have not really been able to engage with the Native Hawaiian community in seeking their input on a new management framework for the mountain. The University has identified five different governance structures, alternatives, and they are really only evaluating one of them, which is the one that has the University as the main manager.

"These resolutions set up a working group that would allow us to engage with the Native Hawaiian community and evaluate these other management structures for the mountain. And I think it's important for us, in our responsibility to manage public trust lands, that we engage with the Native Hawaiian community to get their perspective and share that perspective with other members of the working group, which would include the land board,

the Board of Regents, the Office of Hawaiian Affairs, and also with the observatories.

"And I think this is really important for everyone to have that opportunity, have that discussion, so we can bring forward these perspectives to the University as they make their recommendation to the land board. And these recommendations would be shared with the land board and with the Legislature, so that we can make these important decisions going forward.

"I urge the members not to make this resolution about the Thirty Meter Telescope, it really is about the existing observatories on the mountain and how we manage the mountain going forward, so that we can actually do our job managing public trust resources and listen to the perspective of our Native Hawaiian community. So, I urge members here to support these resolutions and I appreciate their support. Thank you, Mr. Speaker."

Representative Ward rose to speak in opposition to both measures, stating:

"Mr. Speaker, opposition and a few comments. In all due respect to the Representative from the Big Island, in which the mountain does exist, if the mountain was in my district, I would certainly do the same thing that he's doing. However, he's wrong in a couple of places. First of all, all the testimony, we heard this in our committee, the Hawaiians are saying, we don't want this bill. So, if it's a way to embrace them, it looks like the wrong methodology by which to proceed.

"In particular, it's where they see it as, and we can't pretend it's not about TMT, because I think that's the big fatal flaw. There's an elephant in the room, there's an elephant on the mountain, and it's called the TMT. This does not get us farther to a resolution of that of which we know this is a festering sore in the Hawaiian community and in all of the governance model of this state. We've got to resolve that problem.

"I am not personally convinced that the way that this is restructured is another thing that shows we're doing something to do something, but in order to get to the ultimate of resolving this within the Hawaiian community, either culturally or scientifically, it's not going to get there.

"For those reasons, Mr. Speaker, there's expectations that are being put out today that are not going to be in that and we're going to end up in the same old, same old position. And we've got to get some leadership to really take control of this, and this particular reso is not going to be able to do it. For those reasons, I have a no vote. Thank you."

Representative D. Kobayashi rose and asked that the Clerk record a no vote for him on both measures, and the Chair "so ordered."

Representative Kapela rose and asked that the Clerk record a no vote for her on both measures, and the Chair "so ordered."

Representative Perruso rose to speak in opposition to both measures, stating:

"No vote with comments. While I applaud the intention of the author of the bill and of this general approach, I do have concerns about the perception from the community that this is a vehicle to move forward further development on the *mauna*. And as I stand in opposition to that, I stand in opposition to both of these resolutions."

Representative Wildberger rose and asked that the Clerk record a no vote for her on both measures, and the Chair "so ordered."

Representative Ganaden rose to speak in support of both measures with reservations, stating:

"With reservations, Mr. Speaker. I was actually present on Mauna Kea on July 16, 2019 when numerous members of law enforcement came in to remove, with force, individuals who had come to protect the mountain with their lives. That noted, if this moves forward, I would like to note the concerns of the Office of Hawaiian Affairs that request that any working groups should consist of more than just a bare majority of Native Hawaiian voices and should specifically include Native Hawaiians who have demonstrated *kuleana* regarding Mauna Kea. Thank you."

Representative McKelvey rose to speak in support of both measures with reservations, stating:

"Thank you, Mr. Speaker. With reservations. I'd just like the comments of the previous speaker entered into Journal as if it were my own," and the Chair "so ordered." (By reference only.)

Representative McKelvey continued, stating:

"I share the concerns that were issued by OHA during the committee hearing, but I keep coming back to this one point. Right now, under the status quo, it's just the University, them and them alone, that controls the fate of the mountain. And a lot of the decisions of future endeavors will lie with them and them alone.

"So, this working group actually begins the process of hopefully trying to wrestle this unilateral control back towards the community and to the Native Hawaiian community. But I have my concerns, given the previous speaker, so, with reservations. Thank you."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her on both measures, and the Chair "so ordered."

Representative Tarnas rose to respond, stating:

"Thank you, Mr. Speaker. Second time, just a brief correction. The Representative from Hawaii Kai was not quite accurate. We did receive supportive testimony from Native Hawaiian leaders and Native Hawaiian organizations, like the Hawaiian Civic Club in Hilo and Hawaiian Civic Club in Kohala.

"The Native Hawaiian leaders, the Native Hawaiian community are not of one opinion about this. And we did receive supportive testimony saying, yes, we do need to have a forum where we would be able to provide our perspective. So, this does offer that forum.

"And we did receive testimony saying, members of this working group really should be from Hawaii Island. And I certainly have made that recommendation to the Speaker, as he makes his decisions about who serves on this. And I am encouraging the Native Hawaiian organizations to nominate people who would be able to serve on this working group, so that we can have a positive conversation and share perspectives. That's essential for us as we carry out our responsibilities for these public trust lands. Thank you, Mr. Speaker."

Representative Ward rose to respond, stating:

"Mr. Speaker, I stand corrected with the good Representative from the Big Island. Only 80% of the people were against it, instead of 100%. Thank you."

Representative Todd rose to speak in support of both measures, stating:

"In support. Just to add on to what the Water & Land Chair said, I do think it's especially important to point out that one of the testimonies that came in support was from someone who was actually kind of the face of the *kia'i* in a way and was arrested on the *mauna*. I think if they can come around to the idea to at least be open to the general idea of reconciliation and finding a path forward, then it isn't really our role to assign motive and intent to an entire group of people based on individual testimony, I don't think that's fair.

"Also, as I said in committee before the vote, I don't think it's fair to attach this to TMT. There is nothing in this process that will have any impact on whether TMT is allowed to proceed or not. They are already allowed to proceed, that's not what's at issue here. It's about finding a path forward for the future of Mauna Kea that kind of accounts for a broader collection of voices and is not driven by the University of Hawaii, which inherently has a conflict of interest in their management.

"So, I think whether we get to the right place or not, I do think that this is the right approach, and I'm hoping that we can take into consideration a lot of the testimony to improve this process and make sure it's as equitable as possible. Thank you."

Representative Nakamura rose to speak in support of both measures, stating:

"In support. I wanted to ask that the words of the Water & Land Committee Chair and the Representative from Hilo be accepted as my own. I also wanted to note that both of these representatives represent the Island

of Hawaii. The Judiciary Chair, who heard this bill, is from the Island of Hawaii. And the two members who also serve on the Judiciary Committee with me represent the Island of Hawaii. So, I respect their recommendation and their efforts to try to find a path together forward by involving as many voices in the proposed process. Thank you, Chair," and the Chair "so ordered." (By reference only.)

Representative Branco rose to speak in support of both measures, stating:

"In support. For this measure, I believe this will start a conversation. This will be a hard conversation, but I believe in the hardest conversations, there can be resolution. And so that's why I support this.

"I also caution the body, as someone from the Native Hawaiian community, I think it's important that Native Hawaiians speak up for themselves. And so, it's very difficult for me to hear sometimes, Native Hawaiians think this, Native Hawaiians think this, when you are not from the community. So, I think we need to recognize the folk that Native Hawaiians should speak for themselves. *Mahalo*."

The motion was put to vote by the Chair and carried, and the reports of the Committees were adopted and H.R. No. 33, HD 1, entitled: "HOUSE RESOLUTION CONVENING A WORKING GROUP TO DEVELOP RECOMMENDATIONS FOR A GOVERNANCE AND MANAGEMENT STRUCTURE FOR MAUNA KEA," was adopted, with Representatives Ganaden, Matsumoto, and McKelvey voting aye with reservations, with Representatives Kapela, D. Kobayashi, Perruso, Ward, and Wildberger voting no, and with Representative Takumi being excused; and

"In opposition, brief comment. Mr. Speaker, it is clear that the awarding of these contracts should demonstrate need. We continue to put these lands up for lease. Besides that, CTAHR already has its own fair share of problems in trying to advance itself in their own leases, as well as securing the fact of liability coverage. So, with that, I'm in opposition and permission to insert comments to the Journal. Thank you."

Representative DeCoite's written remarks are as follows:

"I am voting in opposition to this bill in its current form because functions are being given to CTAHR that are not part of their mission of education and research. As the Department of Agriculture has pointed out, this bill would disregard current DOA eligibility requirements in the leasing process. A contractor who wins multiple consecutive contracts could accumulate and monopolize the use of significant tracts of public land as each subsequent contract provides an additional opportunity to lease without demonstrating a need for additional acreage. The DOA's land leasing programs ordinarily have minimum lease terms of 15 years. The longer term allows a farmer to invest in and make improvement to the land and provides long-term stability. A contractor who is only awarded a single season contract could gain a windfall in the form of a valuable long-term lease after fulfilling a short-term contract. *Mahalo.*"

"Thank you, Mr. Speaker. In opposition please, brief comment. Right now, our Employees' Retirement System, that every single person here is invested in, is 18 months behind in its disclosure of earnings and performance. Any private investment vehicle would never be able to survive with that sort of performance. And so, this bill is asking to make investments that are not disclosed to the people that are contributing, and so, because of that, I am in strong opposition to this measure. *Mahalo*."

Representative LoPresti rose in opposition to the measure and asked that the remarks of Representative Wildberger be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

"Mr. Speaker, a no vote with a brief comment, please. Mr. Speaker, this lessens the motion picture tax credit and cap. And to my way of thinking, this is a lessening of our competitive edge or our competitive advantage, and we are kind of in a bullish movie and TV area right now. But like many of us here, including my wife, we will not pay retail. And this is almost a necessary incentive, if you will. If you're going to come to film anywhere, you've got to have tax credits. And by us lessening the amounts, I think we're lessening our competition. And, as I've said on this floor on numerous times and occasions, we have the ability to become the Hollywood of the Pacific. But we've got to play the structure of our incentives properly, and I think this is a disincentive. For those reasons, no. Thank you."

"Thank you, Mr. Speaker. In support. I would like to once again point out that this measure before us is one of fiscal accountability. It's one of transparency for our taxpayers. Representative Yamashita's written remarks are as follows:

"I stand in strong support of Stand. Com. Rep. No. 820, H.B. No. 775. This bill serves as a remembrance of the late Mayor Elmer Cravalho to commemorate his leadership and civil service not only to the people of Maui County, but also the people of the State of Hawaii. He was the first speaker of the State and Territorial House and continued his political career as the first mayor of Maui.

"Born in Paia, Maui on Feb. 19, 1926, Elmer Cravalho started his career as a Maui schoolteacher. In 1954, he entered the political realm and was elected to the Hawaii House of Representatives, serving until 1967. After statehood, he became the first Hawaii State House speaker in 1959 following his time as being the House chair of Finance.

"Leaving his position as speaker of the House, Elmer Cravalho ran for and won the special election to fill the position as Maui County's chairman. A few years later in 1969, due to a new charter provision that served as a foundation for the current political system that we know today, he was elected as Maui's first mayor.

"As mayor, he was responsible for many economic and infrastructure development projects. This included boosting Maui's tourism industry and creating affordable housing projects. One of his most notable projects was the development of the waterline from Wailuku and Wailea. The waterline project enabled the expansion of Kihei, developing it from once barren land to a residential locality and popular destination of Maui. His love for Maui was clear in the projects he chose to implement and the perseverance he showed throughout his life.

"On a personal note, I would like to thank him for all the guidance he shared with me during my tenure in office. I met with him on a regular basis, where he acted as an educator and mentor with a wealth of knowledge that is invaluable to me.

"Mayor Elmer Cravalho was a visionary leader whose actions changed Maui and the State of Hawaii to what we know today. Renaming a major roadway will serve as a thank you from his community for his commitment to Maui's growth and all that he did for the people he served."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 775, entitled: "A BILL FOR AN ACT RELATING TO RENAMING KAHULUI AIRPORT ACCESS ROAD," passed Third Reading by a vote of 50 ayes, with Representative McKelvey being excused.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition with a brief comment, please. Mr. Speaker, this is a well-intended bill. I think we want to lessen gasses and pollution as much as possible. But the issue is, it's the wrong timing. Mr. Speaker, this says that if a birthday party or a graduation has the release of a balloon that's inflated with gas that is lighter than air, you're going to be in trouble.

"Mr. Speaker, and again, with all due respect to the author, this trivializes the seriousness that we are now faced in the State of Hawaii. We've got the highest unemployment rate in the nation, we've got a huge budget deficit, and we're playing around with balloons and saying that we're going to make a difference by saying, if you're going to have a birthday party or graduation,

we're going to prohibit that. All this does is grow government and grow the authority of we in the state government has over the people. And I think this sends the wrong message, it's Nero in the burning of Rome while he is fiddling. And with all due respect, look, it makes sense, it's a good thing, but it's not the time to do it now, it sends the wrong message to the people of Hawaii. Thank you, Mr. Speaker."

Representative LoPresti rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition, brief comment, basically echoing what OHA said. If this involves crown lands and lands that the Hawaiians should have, we have a moral imperative to return the Hawaiians to the land. And if this alienates more land, we're going in the opposite direction. So, on behalf of what OHA has said, in between the lines, this is a step backwards, we don't need to give less land to the Hawaiians. More land, and obviously more housing. Thank you."

Representative Nakamura rose to speak in support of the measure, stating:

"In strong support. Mr. Speaker, since I first got elected to this body four years ago, I noticed that the Legislature has made an incredible commitment to affordable housing. And you've done that. I think we've all collectively worked on this to increase the amount of funds going into the dwelling unit revolving fund and the rental housing revolving fund, the two critical tools used to build and finance affordable housing in the State of Hawaii. As a result of this commitment by this Legislature, over the next five years, 8,000 affordable rentals and homes will be built.

"We met with OHA and HHFDC recently to talk about, how do we position Native Hawaiians into these rental units and homes? And we came up with some preliminary ideas about how to make this happen. And Mr. Speaker, the end result is that we're going to be working together with HHFDC and OHA to create waiting lists of renter-ready and mortgage-ready Native Hawaiians who can then have the opportunity to live in these units that have been financed by the State of Hawaii.

"And so, this is another tool that gives HHFDC the opportunity to do more, to not draw the line in the sand, but rather find ways to work together to make renter and homeownership a reality. And I just feel that we have the opportunity to address the critical issue of Native Hawaiians who are disproportionately homeless, disproportionately live in crowded conditions, and disproportionately are not homeowners in their native lands.

"So, I want to recognize and thank the Vice Chair of the Housing Committee and the Vice Chair of Water & Land for assisting in these ongoing discussions, and hopefully we will work toward really making a difference for Native Hawaiians. Thank you."

Representative Hashimoto rose to speak in support of the measure, stating:

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 825, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition with a brief comment. This bill gives basically martial law powers to the governor. I don't think we're under martial law, but he can take over buildings. In fact, he could take over this legislative session and building if he so desired. So, I think it's a bit of an overkill, an overreach. I know we want to be good to the governor, we want to make the emergency powers work, but to have a bill like this, this suggests to me that the departments are not cooperating when the government or the governor asks for something. And again, it looks too much like martial law to me. Thank you."

Representative Johanson rose to speak in support of the measure, stating:

"Thank you, in support. Just to correct the record, this bill has nothing to do with martial law. All it explicitly does in statute is clarify that for state agencies, in times of emergency proclamation, the governor is able to assume control of any state facility. Members may be wondering the genesis of this bill, which is why I'd like to explain it, because I've heard it mischaracterized in several floor sessions now. And I thought for the record, since this is third reading, I would elaborate.

"Mr. Speaker, under your leadership, the House has launched numerous initiatives, whether it was the standing up of the unemployment insurance massive operation at the Hawaii Convention Center, as well as the two public vaccination sites for the mass public vaccination campaign. And many of those members that you tasked with working on it know all too familiar how long, and painful, and arduous the discussions were with various state agencies, in a crisis, one of the greatest crises that members of the public have faced with us, know all too well how long and painful the negotiations were over whether or not a state agency would be recompensed and what rate of pay would be necessary to compensate a state agency that the state taxpayers already funding through their taxes.

"So, although the governor may already have this authority implied, the truth is, Mr. Speaker, so that to borrow the phrase of the previous speaker, while Rome is burning, rather than wasting precious time while a pandemic is raging, the governor shouldn't have to be so concerned with whether or not we're going to pay to use a school, whether or not we're going to pay to use a convention center. We should be acting on the best interest of our constituents, especially because they're already underfunding all of these state properties as it is. This bill merely clarifies that in statute so that if we're ever in a situation similar to this pandemic, we're not wasting precious weeks and days negotiating what the rate of recompense will be for a taxpayer-funded facility. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, brief retort. I totally agree with the logic of that. But, if we're in an emergency and I'm running the Convention Center, I shouldn't be concerned about charging the governor rent, I should just yield the right of way. And that's my whole sense, that this issue looks like a leadership issue, that the departments are not in sync with the governor, or there's something not in sync when we have an emergency. We shouldn't be talking about how many days and how much rent we should be paying, we should be getting on with the emergency and getting the job done for the people of Hawaii. That's my point."

Representative Tam rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I would like to have the comments from the Representative from West Honolulu inserted into the Journal as if my own. And I'd also like to add that, I've received a lot of comments from my constituents as to why we couldn't use the Convention Center for mass vaccination centers, and this bill would basically allow us to use that. And I

just don't think that the state should be charging the state rent for a state service. Thank you," and the Chair "so ordered." (By reference only.)

Representative D. Kobayashi rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ilgan rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Same request as the Representative from Waikiki," and the Chair "so ordered." (By reference only.)

Representative Luke rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. When the House helped to set up the unemployment processing center at the Convention Center, one of the things that we became very aware of was that, because the Hawaii Tourism Authority had a specific contract with the use of the Convention Center and because it was in violation of contract law, the governor could not just completely forgive the payment of bringing in outside food for volunteers or even the use of the facility.

"Right now, we're paying, still, about \$12 million to the Convention Center. The emergency powers are still limited in the governor being able to ignore contract laws. The governor can ignore certain state laws and suspend certain current state laws, but under contract laws and others, you cannot.

"It is unfortunate that we continue to have to pay \$12 million. Even if it's on the books, that is money out of pocket for DLIR. And because of that, DLIR doesn't have the budget to hire more staff to process unemployment claims right now. They have about 100 call center employees still at the Convention Center based on the current expenses and they have 75 adjudicators. I think they would like to have more, but because of the contract situation, they just cannot do it. It is kind of an unfortunate situation.

"And we're finding out all these kinds of things through the pandemic. But as to what the CPC Chair recognized, if we can fix this for the future, we need to do it now. As opposed to trying to rely on, or hoping that through leadership or somebody answered the call, if we can just fix some of the laws and make it easier for the future governors or the future legislature to do it, we just have to. Thank you."

Representative Onishi rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With strong reservations. I just want for people to understand that HTA and the Convention Center are funded through appropriations from the TAT. Now, their contracts that they make between private entities depend on that TAT funding. And when the issue of the use of the Convention Center was brought up, the governor had suspended all appropriations from the TAT. So, the HTA and the Convention Center were basically not getting any funding to make good on those contracts. So, they suspended those contracts.

"And when the use of the Convention Center was considered, the issue of who's going to clean the Convention Center and how are we going to pay for the utilities that are being used without compensation was apparent. Other government entities are already funded with general fund appropriations for their expenses, but the Convention Center and HTA are funded directly through TAT appropriations. And in this situation, the governor, instead of continuing the appropriations so that the Convention Center and HTA could provide the center for free, decided to suspend it, and they had no funding in order to make good on those contracts and provide the services that were necessary for the use of the Convention Center. So, I have strong reservations in regards to this bill. Thank you."

Representative Tokioka rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Cullen rose to speak in support of the measure, stating:

"Mr. Speaker, I stand in strong support. As a member who volunteered at the Convention Center and saw the UI claims that came in and the possibilities and all the individuals that we did help at that time, I saw that this measure was needed because, as we looked at the budget not just for last session and then seeing it in this session, as we read the budget and you

see some of the U fund transfers to cover costs for emergency-related items, this measure would just seem common sense. And in doing that, we can help the department streamline many things and be more efficient. With that, I stand in strong support, Mr. Speaker."

Representative Ichiyama rose to speak in support of the measure, stating:

"Mr. Speaker, in support and just a brief comment. This bill really just clarifies what is already in our existing emergency statute HRS 127A. And it just clarifies and gives the governor this extra flexibility and powers and authority. And I think in a state of emergency, that extra flexibility is warranted. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 825, HD 2, entitled: "A BILL FOR AN ACT RELATING TO EMERGENCY POWERS," passed Third Reading by a vote of 48 ayes to 2 noes, with Representatives D. Kobayashi, Onishi, and Tokioka voting aye with reservations, with Representatives Okimoto and Ward voting no, and with Representative McKelvey being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 837) recommending that H.B. No. 954, HD 1 pass Third Reading.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 954, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII EMERGENCY MANAGEMENT AGENCY," passed Third Reading by a vote of 50 ayes, with Representative McKelvey being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 838) recommending that H.B. No. 1286, HD 2 pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1286, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative DeCoite rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Tokioka rose to speak in opposition to the measure, stating:

"No vote, Mr. Speaker, and just a brief comment. When you read this bill, it looks like it's applied to the neighbor islands. But specifically, it was focused, in my opinion and many people from my district and from the island of Kauai, it was focused on Kauai. That's how they feel. And a lot of times they feel separated from what happens over here, that's why they count on their delegation to stand up for them. With Mayor Kawakami's request to Governor Ige to open up Safe Travels on April 5th, it seems that this bill would not even be necessary. So, for those reasons, Mr. Speaker, in opposition."

Representative Wildberger rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In continued exasperated opposition, brief comment, please. Many of you all might remember receiving this lovely medallion from the governor after Opening Day with wishes of unity and best wishes for a great session, which I appreciate so much. But I was shocked to find the words that were on the front of it that read, one canoe, one island, one planet. And I can subscribe to the one canoe concept and I certainly can subscribe to the one planet concept, but I have a big problem with the one island concept. And I think that is really the heart of a large reason why I ran for office, to bring a voice to our neighbor islands. And I feel like this bill takes us steps back from achieving autonomy and having a voice. And so again, Mr. Speaker, in opposition and would like to see autonomy retained for leaders on the ground, particularly as it pertains to emergency preparedness and disaster management. Thank you very much."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations, brief comment. Mr. Speaker, these are the times that try the mindset and the ability of legislators. On the one hand, I feel very strongly we've got to get tourism back and we've got to get the economy going. At the same time, I sense home rule and what Mayor Kawakami, a very competent former colleague in this body, he wanted to do it even better than we have for the State of Hawaii. He could be a model. And I understand that he has now backed off of that, he's willing to go for the state.

"So, we've got to get tourism open. We've got to get a consistency, and I said recently I came back from the mainland, it was just a jungle trying to get through all the 72 hours and the other stuff. So, that is still a problem, but at least we're going to have some consistency. But I think home rule needs to be more honored more often. And for those reasons, Mr. Speaker, I hope this goes well, but I have reservations as to how it's going to work out. Thank you."

Representative Nakamura rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Morikawa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Mr. Speaker, HB 1286 has been a very contentious measure. However, as with many bills, this is the public's opportunity to voice their concerns. We know that consistency is a key to success, and the intentions of this bill is just that.

"I believe the message is clear, that we need a policy that will work for Hawaii that will help to spur our economy, stabilize our workforce, and of utmost importance, maintain the health of our state. It has spurred the conversation and brought the advocates to the table, which has helped to find solutions that many can agree on. Whether or not this measure is necessary, I am not sure. It could impede our end goal, or it could continue fostering good conversations. Only time will tell, Mr. Speaker. Thank you."

Representative B. Kobayashi rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, in support with reservations. My concern is flexibility and speed of action. This bill would require that there be a concurrent resolution of the Legislature in order to change a state law. First of all, the Legislature convening during the interim is often difficult and not quick. The other point is that if there is a state law, a law would be more inflexible than a governor's proclamation. So, both in terms of law and in terms of changing law, it's slower if this bill comes into law. I would rather see a process that is flexible and fast reacting. Thank you."

Representative Ichiyama rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. I think the just past speaker's comments about flexibility are well taken, and so that's why this bill was amended to create the concurrent resolution process, which members may not know is very simple, it's a one-day process, versus trying to pass a law which in special session can take five days.

"I would also say that I think our Legislature has proven itself to be remarkably flexible and agile in this past year in responding to whatever needs came up. And I think members recognize across their districts, when the need arises, they were there, they responded quickly. And I think that's an important point that we shouldn't miss here, that this bill has built in flexibility.

"But also, it provides a stability and certainty to an industry that has been in complete chaos and confusion. And that's really what we're trying to address here, is to provide consistency, predictability, stability, so that we can reopen our economy, people can get back to work and feed their families.

"I also wanted to talk about, I mentioned earlier in second reading, that I believe that public health and economic health are intertwined, and I still find that true. But the second reason I support this bill is because I believe that decisions that have a statewide impact need to be made at a statewide level.

"And let me give you two examples. Mr. Speaker, if we allow a particular county to close down their economy, that has a significant impact on our state finances, our state budget. So, our school system is one state school system that's funded in large part by general fund revenues. Those general fund revenues are collected from the general excise tax, income taxes, even the TAT. And when we have to make cuts, that doesn't just affect one county, Mr. Speaker, that affects schools from Hilo to Hanalei. And I'm proud of our statewide system, I think it makes it fair, makes it equitable. But the only way that we can do that is to spread our resources across the state and not just say whatever one county has should stay in that county.

"The second example I would offer is unemployment insurance. Mr. Speaker, when we close down a sector of our economy and hundreds of people are furloughed or lose their job, it's the State that has to maintain the unemployment insurance system. We have to administer it. We hire the call center workers, the adjudicators. We have taken on the fiscal responsibility of borrowing hundreds of millions of dollars to pay UI benefits.

"And so again, Mr. Speaker, I would just reemphasize my support for this bill, because decisions that have a statewide impact should be made at a statewide level. Thank you."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. May I have the words of the Chair of the Pandemic & Disaster Preparedness Committee entered as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Luke rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. One of the things that I support this bill is, as you know, Mr. Speaker, even during the interim, many of us helped the administration during this whole process. And my staff has been involved in many of the day-to-day functions of what's going on.

"Part of the money that was used for CARES was to purchase a significant amount of test kits that the Department of Health is holding. And priorities have been set for those test kits, including essential workers, hospitals, including long-term care facilities and others.

"Because we have no statewide system, and it is really about what counties come in to ask for things before any other counties, recently we were able to learn that 250,000 test kits were diverted to one specific county for a Safe Travels type of second test program. And we were successful, thank you to your efforts, Speaker, we were able to block that. Because part of the 250,000 that went to a specific county got diverted by that contractor for the benefit of Oahu.

"If anything, Oahu, the City and County of Honolulu, has the means to purchase their own second test and it should not be state funds, it should not be CARES funds that take care of the second test. It really should be, the onus should be on the traveler. So, those types of things are happening, and it is unfortunate.

"The Legislature is struggling with so many things. The administration is also struggling with a lot of things. And these specific day-to-day things are not being caught, and it really puts a burden on me and my staff and you and your staff and other members of the Legislature to catch some of these mistakes. So, I think that's why we need a statewide policy, so we don't have to run to the governor and say, this is what's happening, can you put a stop to this? Because you cannot benefit one county over others. And just to let the members know, the members from the two counties who spoke up, it wasn't in their county.

"So, one of the things I really object to was that part of the test kits was diverted for the use for Oahu, Oahu travelers. And that's not right. And we should not be using CARES funding for the benefit of second test just for the benefit of a few counties. So, thank you very much."

Representative Onishi rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support, and can I have the words of the Chair of Pandemic & Disaster Preparedness and the Chair of Finance entered into the Journal as if they were my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition today, as I did yesterday. This bill is untimely and targets an individual unfairly, and for those reasons I will just say that it's probably the same thing I would say as I did yesterday. For the sake of what is in the process of being said, may the comments I made yesterday, I will finish now this speech with entering those into the Journal, with your permission."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Mr. Speaker, just to address some of the public discourse that this may be applicable to any past or present office holders, if we look at the language of the bill, it says November 1st, 2022. So, that puts that to bed.

"Secondly, Mr. Speaker, this measure is not simply about employment. I would point members to the language of the bill that also refers to controlling interest in businesses. And what I would say is, noted attorney constitutional professor Zephyr Teachout teaches us and says, 'corruption, in the American tradition, does not just include blatant bribes and theft from the public till, but encompasses many situations where politicians and public institutions serve private interests at the public's expense.'

"It is that language in this bill that applies to the executives. And it is that language and concern about business interests that may intersect with the politician's own private interests.

"As a hypothetical, we could have a sitting executive who is a consultant to a group that maybe perhaps gains and garners large public contracts. It is that precise type of corruption that this bill aims to reach. And as we have seen, not just in our state, but in our nation, we have this concern about corruption, and it should apply to all of our executives who sit in these places of trust.

"And one last point, Mr. Speaker, as it was raised yesterday, the difference between legislators and executives is that we are designed to be a part time equal branch of government. In the instances of these executives, they are full time employees who wield great power and influence over the use of public funds. Again, that is the corruption, that is what we are getting at with this bill. We need to have a clear barrier to the intermingling of businesses and governmental interest. That is the importance of this bill, Mr. Speaker. Thank you."

Representative Tokioka rose to speak in opposition to the measure, stating:

"No vote and I'd like to ask the Clerk to insert the words into the Journal from my floor speech yesterday. Thank you," and the Chair "so ordered." (By reference only.)

Representative Quinlan rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative DeCoite rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"I am voting in opposition to this bill because I believe it is unnecessary. The nature of the lieutenant governor's role is different from the governor. The lieutenant governor has few official duties to perform except to take over when the governor is not able to carry out the duties of the office. For example, this occurs each time the governor leaves the state.

"If we look at the Legislature, many of us would have a problem if we were prohibited from having outside employment. Although, the work of a legislator is part time and paid in this manner, the work continues throughout the year. After the legislative session ends, we do not stop serving our constituents, or attending legislative events, or maintaining an office year-round. *Mahalo.*"

Representative Gates rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and H.B. Representatives Aquino, Cullen, DeCoite, Eli, Har, Kong, McDermott, Tokioka, Ward, and Yamane voting no, and with Representative McKelvey being excused.

H.B. No. 1339:

Representative Belatti moved that H.B. No. 1339 pass Third Reading, seconded by Representative Morikawa.

Representative Tokioka rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support on House Bill 1339 and my comments should be brief. This measure takes some explanation because I think, for me, this is an important measure for us to outline for future legislators the processes and roles and responsibilities that they may have to engage in in the event that impeachment becomes a necessity.

"What we learned during the pandemic and in recent times, even with the concern around Mauna Kea, is that our constitutional provision for impeachment may not be self-executing. Of the 50 states, we are the only state that has, in our constitution, the language that our impeachment statute be for causes that may be provided by law. With the absence of a measure like this leaves future legislators without a roadmap, and that's what this bill does. This bill provides grounds for impeachment that are found in the US Constitution and other state laws across the nation.

"I hope that this measure gets full consideration as it continues to move through the process because we should not be left floundering in the event that impeachment becomes a necessity that this body, this co-equal branch of government, must exercise. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and H.B. No. 1339, entitled: "A BILL FOR AN ACT RELATING TO IMPEACHMENT," passed Third Reading by a vote of 46 ayes to 4 noes, with Representatives DeCoite, Har, Tokioka, and Ward voting no, and with Representative McKelvey being excused.

At 1:10 p.m., the Chair noted that the following bills passed Third Reading:

H.B. No. 1147

ANNOUNCEMENTS

Representative DeCoite: "Thank you, Mr. Speaker. This morning I woke up with the news of the passing of Clarence Woody Kekaula Kahilihiwa of Kalaupapa, known to many of us as Uncle Boogie. Uncle Boogie was one of 12 patients that reside at the Kalaupapa Settlement. Uncle Boogie was one of a kind, a gentle soul with a huge heart and a smile that you could see from a mile away.

"Many of us were lucky enough to visit with him last year when he came with other Kalaupapa residents to testify on a bill to designate January as Kalaupapa month. Due to the pandemic, the bill was not able to be heard in the House. The bill is back again this year and will be crossing over from the Senate, and it is my hope that we can pass this bill as a tribute to Uncle Boogie and all of the residents past and present of Kalaupapa.

"Mr. Speaker, in 2012 Uncle Boogie was asked to write an introduction to a book about Kalaupapa, and at the end of the introduction he wrote, to all of our people, you will always be remembered. You are the pillars and icons of times past. This book is a tribute to you. Your stories are of solitude, passion, and grace, and may your legacy live on with *aloha*.

"Mr. Speaker, Uncle Boogie is one of the icons he wrote about, and the people of Kalaupapa, Molokai, District 13 and the State of Hawaii are better because of his legacy and his *aloha*. Mr. Speaker, at the appropriate time, I would like to ask for a moment of silence to honor Uncle Boogie of Kalaupapa. *Mahalo*."

Speaker Saiki: "Alright members, we'll take a moment of silence after we recess."

Representative LoPresti's written remarks in support of the measure are as follows:

"This bill is intended to help protect students and prospective students from predatory businesses posing as schools just to extract millions of dollars in federal student loans and GI Bill funds.

"In 2015, Corinthian Colleges, which included Heald College, declared bankruptcy after the federal Department of Education fined them \$30 million for 'overstating job placement rates.'

"Prior to its bankruptcy filings, Corinthian Colleges was under intense scrutiny for alleged predatory lending practices. According to one news story from KHON2 News, 'regulators claim the school preyed on low-income students, encouraged them to take out expensive loans and then used abusive tactics to collect repayment before the students graduated.'

"HB 389 does not 'discriminate' against for-profit institutions, but rather simply requires them to disclose that they are for profit to prospective students.

"HB 389 is intended to help protect prospective students at for-profit colleges from ever being in a position in which thousands of Heald Students found themselves: buried in debt with no degree or job prospects.

"Transparency is all this bill asks for. Any college not willing to take this simple declarative step likely isn't interested in full disclosure to their customers, their students. And that should worry all of us."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I've spoken a number of times regarding the stadium. This is again in opposition, because it's missing one thing, Mr. Speaker. And that is, as I've even had a floor amendment earlier, a floor amendment that says we should monetize the naming of the stadium. Mr. Speaker, we have a number of examples of that occurring. United Airlines Stadium, \$69 million for USC. University of Washington, \$41 million for a 10-year contract with Alaska Airlines. Colorado State, kind of like the size of our state and UH, \$38 million for a deal with a local credit union. Boise State, \$12.5 million.

"Mr. Speaker, we need to have taxpayers' money in mind. Even if we got \$5 million like they did at Stan Sheriff, UH got \$5 million from Bank of Hawaii. Mr. Speaker, I don't know why there's not more entrepreneurial thinking. It's time to, I think, think of taxpayers just other than some of the things that we have without thinking much other than bureaucracy.

"For those reasons, Mr. Speaker, we obviously need a new stadium. It's a money maker. And I know there's a great plan for it, but if we put up for naming rights, there would be at least 5, 10, 15, 20, sometimes multiple millions of dollars. We have to start thinking more entrepreneurial. We have a Department of Business and Economic Development that I understand has not put in one pro-business bill during the time when the businesses are suffering the most. So, Mr. Speaker, I'm surprised that I have to stand up and say, hey, let's get entrepreneurial, let's get some money to save taxpayers money.

"So with that, Mr. Speaker, it's a good bill except it's missing the most important thing and that is to bail out the taxpayers for at least \$5 to \$20 to \$30 million of which we could use by having naming rights at the new stadium. For those reasons, Mr. Speaker, I will keep continually pushing for entrepreneurship, innovative, creative thinking, not bureaucratic thinking, the way it is in this bill. Thank you, Mr. Speaker."

Representative LoPresti rose to speak in opposition to the measure, stating:

"Mr. Speaker, thank you. No vote for me and comments, please. I'd like the comments from second reading inserted into the Journal as if they were my own this time around. And I just would reiterate, I'm opposed to this on many levels. The most important thing, in my opinion, that it's missing is the emergency laydown area and the designation for that in the case of natural or manmade disaster. Thank you," and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1348, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE STADIUM DEVELOPMENT DISTRICT," passed Third Reading by a vote of 49 ayes to 2 noes, with Representatives LoPresti and Ward voting no.

"I stand in opposition to this measure because I think that it's premature. We are in the first year of implementation of a brand-new special education pupil allocation formula, and there are also administrative mechanisms designed to address the issue that was brought forward by DreamHouse. So, for those reasons, I stand in opposition."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1294, HD 2, entitled: "A BILL FOR AN ACT RELATING TO EDUCATION," passed Third Reading by a vote of 50 ayes to 1 no, with Representative Perruso voting no.

Representative Matsumoto's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in support with reservations.

"This bill seeks to regulate the sale and use of electric guns. I have reservations about this measure for the following reasons:

1. This measure imposes many regulations on a self-defense tool that is generally non-lethal. As Hawaii already has a multitude of restrictions for actual firearms, I struggle to find good reasons for Hawaii to impose just as aggressive regulations on generally non-lethal items meant for self defense of a scope far beneath that of regular firearms. With the regulations this bill currently proposes, including application, permit issuance, background check, and required training course, it would essentially prohibit the legal purchase of electric guns.
2. Moreover, the proposed procedure to regulate these electric guns (which include tasers) are set to overload the already-struggling police department, as the Honolulu Police Department has previously stated they are already inundated with requests for traditional firearms permits.
3. In addition, I fail to see why this level of restrictions are necessary, when one can purchase an electric gun through Amazon in most other states. Hawaii is one of two states in the country that ban ownership of such electric guns.

"While there are many other reasons and further explanations that I will not address here, overall I find this measure concerning in that the proposed regulations seem to go above and beyond what is necessary and reasonable for the population to safely acquire and use electric guns. Thank you, Mr. Speaker."

This measure would provide really critical regulatory safeguards to protect Hawaii's families from catalytic converter thefts that have been going throughout this pandemic. Families really depend on their vehicles to get to work, to drive their kids to school, and to conduct their daily business. And I'm really happy and grateful that members of this

House have passed this measure expediently, and I look forward to working with the Senate as well as HPD to ensure the proper administration and enforcement of this measure. Thank you, Mr. Speaker."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, strong support and congratulations to the new Representative from Palolo who has kind of sent out the warning to all of us who either buy or have already bought a Prius, Mr. Speaker, not mentioning yours, and others that are targeted for these catalytic converters. So, let us be on our alert for not only the ones that are electric but also the ones that are half electric and half gas. So again, accommodations to the young man from Palolo. Thank you."

"On SCR 890, please withdraw my green slip and enter aye with reservations and comments to the Journal."

Representative McKelvey's written remarks are as follows:

"Mr. Speaker, I stand with reservations to HB 529, HD 1. While this measure may work for Honolulu County, it may not work for other counties. For instance, in Maui County, similar functions are split between the planning and public works departments. Additionally, this could be used as a means to foreclose on people for numerous zoning infractions which would normally not rise to that level."

Representative McDermott rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative McDermott's written remarks are as follows:

"I don't object to the contents or basic intent of this bill. I object to the tone and patronizing language contained in the introductory premise of the legislation, specifically where it cites 'to update existing parentage laws that reflect outdated, cisheteronormative concepts of families, parenthood, and parental rights.' I find it personally insulting. Setting aside the tortured terminology, I doubt that the Legislature wants to assert that the traditional views of Buddhists, Muslims, Hindus, Christians, Jews, or other people of faith, are no longer valid or relevant when it comes to parenting or family formation. Often our job as legislators is to amend laws or provide corrective measures reflecting changes in technology, the economy or society at-large. In this case, there are good arguments for the proposed task force to study revisions to the Hawaii statutes. Yet this legislation should not require that we insult our fellow citizens by diminishing their values."

Representative Kitagawa rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative McDermott rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition, just a few brief comments. Mr. Speaker, I came here in '96, my first time here. And I've seen things that we do usually is to ensure more regulation, ensure a greater education, ensure a greater degree of safety for the licensed professionals who come before us and who the public is exposed to.

"This is the first time I've seen us take a step backwards, in my view, lowering the requirements for an invasive surgical procedure. As you can see, this thing on my hand here, I had surgery two weeks ago. I had two doctors, an anesthesiologist and an orthopedic surgeon, just to fix my finger. So I look at this and say, wait a minute, I wouldn't feel safe allowing my daughter to have an abortion under these circumstances. I mean, I'm pro-life to begin with, obviously, I'm not going to change anybody's mind here. But why would we lower the safety threshold, why would we lower the education that's required? Well, I know there's arguments why they do that, but I just don't think it's the right thing to do. And comments in the Journal too, please."

Representative McDermott's written remarks are as follows:

"I find this legislation deeply flawed. It is nothing more than a political gesture on behalf of those who want abortions at any and all times. It actually lowers the medical expertise and requirements for those who would perform this invasive surgical procedure. These abortions referenced in the bill are not the equivalent of the 'morning after pill type,' rather they are, depending on the level of potential complications, done in a clinic and constitute a serious, invasive medical operation. Bill Clinton once declared that abortion should be safe, legal, and rare. Simply put, by lowering professional standards this bill would make it less safe and more common."

Representative Okimoto rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in strong opposition. I am unapologetically pro-life. To me and many others, there is no compromise to the life of a child. This is not a stance I take lightly. This is a conviction to protect life, and one that is under constant attack. The pro-life, pro-choice debate has been around longer than I've been alive and has been debated *ad nauseam*. At the end of the day, this body is making a value judgement as a society, both as Americans and as citizens of Hawaii.

"For the women legislators, we make value judgements based on our own experiences and what is important to us as women. Women are not monolithic and shouldn't be chastised for speaking their truth and voting on their convictions.

"For me, I'm a woman who was born and raised on the island of Kauai. My biological grandmother was faced with a similar decision that many women face in their lives. Do I keep this child inside of me or do I terminate it? This is one of the most difficult decisions we may make as women, no matter our background. In my case, my biological grandmother chose to keep her future daughter and put her up for adoption. Had she made a different decision, Mr. Speaker, I would not have the privilege of addressing you and this body today.

"Mr. Speaker, we may hear heartfelt speeches on each side, heart breaking stories of women who have struggled through the difficult choice of terminating their pregnancy and those who made the difficult choice of keeping their child in less than ideal circumstances. We may debate the technicalities of whether APRNs should have the authority to perform aspiration abortions, but for me the choice is as simple as life and death. I am a mother of two beautiful daughters, and I work diligently to instill the

same values to them that made me who I am today. These values are the reason for my opposition.

"From the beginning, the pro-life movement has been about assisting women in crisis pregnancies. The movement that launched crisis pregnancy centers, the Sisters of Life and so many other organizations, to help house, feed, clothe, and care for expecting mothers, has always viewed motherhood as vastly superior to abortion. While I completely understand the arguments from my colleagues about the access to care in our rural areas and on our neighbor islands, I urge us to consider expanding access to contraceptives instead of expanding access to the brutal nature of procedures such as aspirational abortions.

"Mr. Speaker, as you might know, we celebrated, just yesterday, International Women's Day. Women such as Harriet Tubman, Amelia Earhart, Mother Teresa, Susan B. Anthony, and countless others who have paved the way for myself and my fellow 13 fellow female Legislators to sit on this floor today. These pioneers have come from all walks of life and have had deeply held convictions all across the political spectrum. At the end of the day, we as a body are making a value judgement on behalf of our residents. Today, I am choosing to stand with women who stand for life. Thank you, Mr. Speaker."

Representative Tokioka rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ichiyama rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I want to clarify some of the statements that were made by prior speakers. First and foremost, this bill does not authorize APRNs to perform surgery. APRNs are not trained to perform surgery and none of them want to do surgery. I think that point should be made very clear here.

"What this bill allows is to allow APRNs to practice to the top of their training and their scope, as this body has done numerous times over the past years. This bill would allow APRNs to prescribe a medication that can terminate pregnancy up to nine weeks, and APRNs already have prescriptive authority for a wide range of other drugs.

"It would also allow APRNs to perform aspiration abortions, which is not surgery. It is a procedure that's performed in an office. Under this bill, that requirement remains, it must be performed in an office. And it is a simple procedure that takes five to ten minutes, it uses vacuum suction. It is very similar to a procedure that APRNs already do called an endometrial biopsy, where they use vacuum suction to remove the lining of the uterus so that a sample can be taken and tested.

"We heard numerous testimonies from doctors, from OBGYNs. In fact, the Hawaii Chapter of the American College of Obstetricians and Gynecologists came out in strong support of this measure, and they are the women's health professionals who are trained in this area, who specialize in this area, who perform these procedures. And they resoundingly, unanimously said that it is safe for APRNs to perform this procedure, that they can be trained and practice to the top of their scope.

"I also want to note, in the larger discussion about the scope of practice for APRNs and other medical professionals that this body has considered in the past, and sometimes what gets lost is the discussion about the cost of health care, Mr. Speaker. We are facing skyrocketing costs in health care, and by allowing well-trained professionals to practice to the top of their scope helps reduce those overall costs for us.

"But I don't want to miss the larger point of this legislation and why I'm in support. It's about access, Mr. Speaker. Prior to the pandemic, access on the neighbor islands to abortion care was severely restricted. And during the pandemic, Mr. Speaker, that situation only got worse. For example, Planned Parenthood currently flies over doctors to Maui County to provide care two days a month. They had to suspend that during the very darkest days of our lockdown, because it wasn't safe for the doctors to travel. And that meant that women in Maui County had no access, Mr. Speaker, because of the unique situation caused by the lockdown.

"In essence, when we legalized abortion in this state, which has been the law of this state for the past 50 years, but by limiting it to physicians only, we've created a Dutch door. And Mr. Speaker, this bill addresses that

situation and ensures that no matter where somebody lives in this state, that they can have access to this critical health care. Permission to insert further comments to the Journal. Thank you, Mr. Speaker."

Representative Ichiyama's written remarks are as follows:

"Thank you, Mr. Speaker, for the opportunity to submit additional written remarks in support of HB 576, HD 3. I wanted to add in the record my appreciation to House leadership, especially to the Speaker and Majority Leader, for their support of this bill. I would also like to acknowledge the hard work of the respective Chairs of the Committee on Health, Human Services and Homelessness, Committee on Consumer Protection and Commerce and Committee on Judiciary and Hawaiian Affairs. Each of these chairs helped to improve this bill as it moved through the legislative process. I sincerely believe that it takes a lot of teamwork to move a bill forward, and this one was no exception. Thank you all very much."

Representative Onishi rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support and I'd like to have the words from the Chair for PDP entered as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Onishi continued, stating:

"Mr. Speaker, I'm unapologetically pro-choice. As a father of three daughters and the grandfather of two granddaughters, I am fully supportive of their choice to decide what happens to their bodies. I also represent a very rural district, as the previous speaker has indicated, has had challenges with medical services during this pandemic.

"This bill allows for certain procedures to be done by advanced practice registered nurses who have been trained and fully licensed to do these procedures. I don't believe that there is a health risk under these circumstances and, again, it's very important that my daughters and my granddaughters are able to make the choices that they want to make and not the government. Thank you."

Representative Ganaden rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. Requesting that the words of the Chair of PDP be entered as my own. Further, Mr. Speaker, this is of great importance to my community. Health care and women's right to choose constantly comes up for members of my community that go to church often and consider this as a part of their faith in discussion. I rise in strong support as a member of this body with a Y chromosome. Thank you," and the Chair "so ordered." (By reference only.)

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition. There are some of us who believe that life begins at conception. And it's all about life, liberty, the pursuit of happiness. And, Mr. Speaker, life doesn't belong in a vacuum cleaner. Thank you."

Representative Marten rose to speak in support of the measure, stating:

"I rise in strong support and would like to have the words of the Representative from Salt Lake entered as my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative DeCoite rose to speak in support of the measure, stating:

"In strong support. I'd like the words of the Chair of PDP be inserted into the Journal as if it was my own. Talk about rural, I think I represent the most rural district separated by water of three different islands. As we saw many people that tried to come down and get services that were not provided on Molokai, Hana, and Lanai, we know that it became a huge challenge, so I appreciate the fact that this bill allows us to have those choices and allows us to have resources available for young women that need guidance and support along with those services. And then I wish to insert comments into the Journal. Thank you," and the Chair "so ordered." (By reference only.)

Representative DeCoite's written remarks are as follows:

"I am voting in support of this bill because it will have a positive impact on women in rural and medically underserved communities in our state. My

rural district is one of those whose communities will benefit from this bill. Many of my constituents need to travel or fly to Maui or Oahu to get the health care they need. This bill will help provide the access to the health care we need in our communities. *Mahalo.*"

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support and I would also like to have the words from the Representative from Salt Lake inserted into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Kapela continued, stating:

"Another brief comment on top of that, today we've heard from a number of different representatives about being pro-life or pro-choice. And one thing that I want people to also realize is that we have to take into consideration the life of the mother. I have a very dear friend that would not be alive if she did not have access to an abortion. We have to think about those people as well. We have to think about young women who have been raped. We have to think about young women who have had so many different pains thrown at them and something like this being just one more obstacle. And whether or not we choose to keep a child or to terminate for our own choices, we have to be able to have that choice. And we have to be able to have access to that choice. And I think it's our job as legislators to provide possibility, to provide support, to provide options, and not to provide barriers or hate towards those women or towards those individuals.

"And I also want to say, I think that we also need to think about the many women, as it was International Women's Day yesterday, the many women whose names are not highlighted, whose names may never be known, because they didn't have access to a choice, to choose what to do with their own body. So, thank you."

Representative Nakamura rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support, may I ask that the words of the Chair of PDP be entered into the Journal as my very own," and the Chair "so ordered." (By reference only.)

Representative Nakamura continued, stating:

"Representing the island of Kauai, access to this type of care is not available. Women will have to pay for travel, sometimes overnight expenses, lodging, and so forth. This is something that's needed for many neighbor island rural communities.

"I also feel that APRNs have been given, via state policy, the authority to act in many ways as a primary care provider. They're permitted to evaluate patients, order and interpret diagnostic tests, they're able to prescribe treatments and medications. Mr. Speaker, they already provide a wide range of services. APRNs administer anesthesia during surgeries and manage chronic conditions like hypertension and diabetes, to provide gynecological care and family planning services. So, for these reasons, in strong support. Thank you."

Representative Wildberger rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support, brief comment. I'd also like the words from the Chair of the PDP Committee inserted into the Journal as if they were my own and additional brief comment. I'd also like to show my appreciation for the Representative from Mililani highlighting that contraception is also very important in access. During the Trump administration, Hawaii lost \$2 million in funding for family planning, and access to contraception and disease treatment was eliminated for many low-income people, especially on the neighbor islands. And when you don't have access to contraception, unintended pregnancies are a result, so thank you," and the Chair "so ordered." (By reference only.)

Representative Takumi rose to speak in support of the measure, stating:

"In support, Mr. Speaker. I'd just like to address the comments made by my good friend, the Representative from Ewa Beach, regarding the seems to be watering down our standards and widening the scope of practice for professionals that heretofore did not have that. I don't recall if he was here in 2015 when we enabled physician's assistants to have full prescriptive authority, joining 40 other states that allow that. We've also widened the

scope of practice for optometrists, relative to ophthalmologists. And we've obviously had very robust discussions, still didn't happen, but robust discussions as to whether or not psychologists should have prescriptive authority. So, this is nothing new. Thank you."

Representative Okimoto rose to respond, stating:

"Thank you, Mr. Speaker. Still in opposition. I just would like to clarify that being pro-life has and will never propagate hatred towards anyone. Thank you, Mr. Speaker."

Representative Tam rose in support of the measure and asked that the remarks of Representative Ichiyama be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative LoPresti rose in support of the measure and asked that the remarks of Representative Ichiyama be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Perruso rose in support of the measure and asked that the remarks of Representative Ichiyama be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Matsumoto rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition. If I could also have permission to insert written comments into Journal. I wasn't going to speak, but I thought I'd just say a few words. I often look at this issue from a bit of a different lens. And as we move forward looking at different pieces of legislation, and I know we're working on some of these issues, but I'd like to make the point that I feel women's need for equality is not necessarily increased access to abortion, but to be given what they need to survive financially and socially as mothers.

"And to me, that means inexpensive and readily available child care. It's a workplace that provides for the needs of the mother, whether that's flexible scheduling, maternity leave, paid family leave, telework, and state support to really help reintegrate women back into the workplace. And I felt like that was a lens that needed to be shared, and something like I said I know we're working on, but we need to be working on it much more in order to provide women, not telling them that they only have one option but that there are so many options for them to succeed both in their careers or in school as well as being a mother. Thank you, Mr. Speaker."

Representative Matsumoto's written remarks are as follows:

"Thank you, Mr. Speaker. I rise in opposition.

"This measure seeks to allow registered nurses to perform aspiration abortions. There has been a longstanding debate between those who view abortion as an issue of a woman's right to her own body, and those who view it as an issue of life for the unborn. Some in this legislative body have framed this issue, and the bill in which this issue is packaged, in terms of 'health care' and advocating for access to this 'health care' across every island in the state. While I understand this perspective, I personally take a different view of the issue of abortion, this framing of abortion as 'health care,' and the greater overall issue of how the state can support women holistically.

"Oftentimes we hear of the abortion issue as a binary choice: either be a mother and leave the workforce or path of education, or have an abortion and continue either working or studying. I believe this is the critical aspect that must be addressed: women are not confined to this 'either/or' situation. We can be both mothers and professionals in the workplace. I know many working mothers who not only are competent and highly achieving professionals in their respective industries, but are also caring, nurturing mothers who maintain healthy familial relationships. If the state is going to be pro-women and claim to support women, then the state should reflect on what it actually means to support women.

"Supporting women is implementing flexible work schedules and telework opportunities so that women can choose a routine that best suits her work and her child-raising approach. Supporting women is having affordable and flexible childcare options that allow for mothers seeking further education to arrange their optimal daily schedule. Supporting women is allowing for maternity and paternity leave, allowing a family to assess all

their options and decide what arrangement is best suited for their particular familial habits and preferences. It can be argued that providing greater access to abortion does not liberate women, but instead makes it acceptable for society to not support women in all areas of their life. Thank you, Mr. Speaker."

Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I'd like to adopt the words of the Representative from Moanalua. I'm also unapologetically pro-choice. But I will point out, this bill is about equity for rural areas and access to health care and access to a procedure that is legal in the State of Hawaii. And that's not what we're here debating today, this is about providing access particularly for rural areas that are underserved," and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 576, HD 3, entitled: "A BILL FOR AN ACT RELATING TO HEALTH CARE," passed Third Reading by a vote of 42 ayes to 9 noes, with Representatives Kitagawa, Quinlan, and Tokioka voting aye with reservations, and with Representatives Aquino, Cullen, Eli, Har, Kong, Matsumoto, McDermott, Okimoto, and Ward voting no.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 913) recommending that H.B. No. 290, HD 1, as amended in HD 2, pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 290, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Tokioka rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition, I'll make this as short as I can. I understand and I respect the introducer and the author of the bill, but to look at the many difficult choices that we have to make because of the budget restraints that is in front of us, this, in my opinion, shouldn't be one of them.

"On this very same floor, under the guidance of former Representatives Ito and Takai, we did the ceremony for the fallen soldiers. And I think everyone who was here at that time was extremely proud of being an American, being a part of this body, and being able to support the men and women who lost their lives fighting for this country. And it was right here, on our own floor.

"So, to do this, the emails that I got from my veterans and people on Kauai were very, very disappointed to see what was happening. And I again say that I understand the budget constraints, but it just takes away a lot of what we have already done to honor our veterans and our soldiers. We hear stories from General Hara of the things that he dealt with in Afghanistan, and many others who come back, too, that have fought wars and supported their country.

"So, for those reasons and many others, Mr. Speaker, I'm in opposition and I, again, hope that everyone who introduced this or had a part of this understands why I'm saying what I say. Because those days when we did have those ceremonies, I'm sure everyone who was here had tears, especially the first time that it happened. So, thank you for this opportunity."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. Believe it or not, Mr. Speaker, there used to be a veterans caucus in the House of Representatives. Some of us were active, some were inactive, so it's inactive. But on the basis of that, we've spoken of the veterans in the State of Hawaii. So, on that basis, I would say this misplaced savings, if there is savings, in effect, I think it puts the Legislature in a bad light *vis-à-vis* the fact that we are the highest per capita veteran state in the nation. And for those reasons, Mr. Speaker, I also ask that the gentleman from Kauai's comments be inserted into the Journal as my own. And if we want to be fiscally responsible, I think we should take it out on a different tact and a different way of doing it than this one. Thank you, Mr. Speaker," and the Chair "so ordered." (By reference only.)

Representative Tam rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I believe that I speak for everyone when I say that we have the deepest appreciation for our men and women in uniform, and this bill is not an attack on them, nor is it to undermine their work. The purpose of this bill is to ensure that the Hawaii Department of Transportation is properly funded so that the people of Hawaii, including the military, can drive on the best roads we can offer.

"According to the testimony offered by the Hawaii Appleseed Center for Law and Economic Justice, the total amount of transportation funding gained by this bill could result in \$2 million to \$9 million each year. The Department of Transportation has seen a large reduction of funds since the result of COVID-19. Less people are driving, so less fuel tax money is coming in. Less planes are landing, meaning less landing fees. Less harbor fees because no cruise ships are coming in. All this, while our infrastructure continues to crumble because of the heavy rains that we are seeing right now. By passing this bill, we will provide some much needed funding to our roads so the Legislature can avoid raising fuel taxes on everyone else.

"The Tax Foundation also mentioned in their testimony that exemptions on an individual's age or status is technically poor tax policy. It results in a large reduction of funds, and often times those funds are picked up by everyone else. So, while a military member will have some relief because of the exemption, a single mother making minimum wage would have their taxes raised in order to make up for the lost revenue.

"I would also like to point out that this bill is about Section 249-6.5 of the Hawaii Revised Statutes and it does not include our veterans. Our veterans currently right now are not exempt, meaning they pay the vehicle weight tax. So, for these reasons, I'm in support of the bill."

Representative McDermott rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. Mr. Speaker, have you ever spent Christmas halfway around the world in sand up to your butt and you're by yourself? Well, that's what these kids do. And while they're here, while they're deployed, we're going to tell them, you know what, instead of paying the reduced rate, you're going to pay the full freight, because that's the least we can do for you.

"Mr. Speaker, I don't believe this thing is going to become law, to be quite frank with you. If it passes the House and goes to the Senate, I'm pretty sure the governor will get a call to at least to veto it from the PACOM Indo-Pacific Command up there, because this is a real slap in the face to the one industry that we have going right now that supports us. So, I just think it's bad. Thank you, Mr. Speaker."

Representative Perruso rose to speak in support of the measure, stating:

"I rise in strong support. I support this measure on the basis of equity. I'm sure that most members of the House are aware that active service members do not generally, by and large, pay income taxes in the State of Hawaii because, if they declare residency in another state in which they do not have to pay income tax, they are able to not pay income tax at all. So, most military members do that. And I want to say that this is one small way we're giving them an opportunity, one small way in which they can contribute to the common good and support our community, support our public schools, support our public tax base. *Mahalo*."

Representative Ward rose to respond, stating:

"Mr. Speaker, second time in opposition. Two factors, Mr. Speaker. We have two golden goose economic drivers. One is tourism and one is federal spending. This gets to the heart of federal spending and it kind of nibbles a bit away from that, Mr. Speaker. Also, people who are pleading for the potholes to be filled, please understand that in the history of this body, some 10 years ago, we raided the pothole fund. We took the money, we used it in the general fund, and we have never recovered since then. So, this body is directly responsible for why we have these kind of grabs for money for even our veterans and our military people, who are heretofore exempt. So please know historically, we are part of the culpability of why we have a problem with our roads. Thank you, Mr. Speaker."

Representative Aquino rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative DeCoite rose to speak in opposition to the measure, stating:

"Opposition, Mr. Speaker, and I would like to adopt the words of the Representative from Kauai as if they were my own, and just a brief comment. If this is a little of what our veterans have to sacrifice, they are front line, when we sacrifice our families and go to war and defend our country. I would think that if this is such a little contribution to be made back to the State of Hawaii in funds, I would think that it should be a give at this point. And that's why I'm in strong opposition, Mr. Speaker, thank you," and the Chair "so ordered." (By reference only.)

Representative Tam rose to respond, stating:

"Mr. Speaker, in support and I just want to reiterate that this is not about veterans. Veterans pay the vehicle weight tax, so I would advise members to not reference veterans at all, as it does a disservice to them. I'd also like to remind the Minority Leader Emeritus that in 2017 to 2018, the Department of Transportation repaved Kalanianaʻole Highway, and that benefits a lot of Hawaii Kai residents living in Hawaii Kai and working in town."

Representative Tokioka rose to respond, stating:

"Second time in opposition. I realize that this bill doesn't affect veterans, and I was referring to the people that were contacting me who were veterans. And whenever a bill like this comes up, it's mainly the veterans that call my office or call me. Thank you."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative McDermott rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative McDermott's written remarks are as follows:

"This bill to repeal the vehicle weight tax exemption is both shortsighted and petty, as well as an insult to both our active duty military and members of our Hawaii National Guard. We should remember that it was our late Congressman and former House colleague, Mark Takai, who was the original champion of providing this exemption. It is not only a practical gesture of recognition for our servicemen and servicewomen but, as Major General Hara, director of the Hawaii Emergency Management Agency and homeland security advisor points out, an important tool in recruiting and retaining Hawaii Air and Army National Guard members. We can honor those who continue to serve by rejecting this ill-conceived legislation."

Representative Har rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition, brief comment. First, may I please adopt the words of the Representative from Lihue into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Har continued, stating:

"Secondly, Mr. Speaker, I do very much appreciate the comments made by the introducer of this bill and his passion. I think I'd take a different perspective, because in 2008 I was the vice chair of the then committee that was called Public Safety & Military Affairs. And it was then the chair, Representative Cindy Evans, and myself who introduced this bill on behalf of our former colleague Representative Mark Takai.

"And this bill actually started off as an exemption for any active national guardsman or woman would be able to get one vehicle registration fee waived. And it became, when we looked at the amount of money that it would affect the state highway fund, we then decided to somewhat morph it throughout the process and it became one vehicle for an active national guardsman or woman for one vehicle in their family.

"And you have to understand at that time, that was when we were at active war in Iraq and in Afghanistan, and many of our local men and women who are active national guardsmen and women were deployed. And so Representative Takai had come to Representative Evans and myself and said, this is the right thing to do.

"And so, while all of you may have a different perspective, for which I very much appreciate, this is a very personal bill for me because our former Congressman Mark Takai, who was many of our friends, this is a personal bill he asked for us to pass because of what we were going through at that time. For those reasons, Mr. Speaker, I remain in strong opposition to this measure. Thank you."

Representative Ohno rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. While I've also had the honor of sitting through the very emotional and honorable floor presentations honoring our service members, I've also had the honor of serving with one of our former colleagues, former Congressman and former House member Takai, it is a painful measure that I do put forward in support.

"The reason why, very quickly, is just I think the circumstances of this year and the circumstances that face our state departments and many of our public employee friends are very dire. As a result, I don't believe this bill would have much of a shot a year ago and I don't think this bill will have much of a shot in a couple of years. But I just want to remind you and the members, the circumstances in which we're under are very unique and I think this bill deserves consideration. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 290, HD 2, entitled: "A BILL FOR AN ACT RELATING TO VEHICLE WEIGHT TAXES," passed Third Reading by a vote of 39 ayes to 12 noes, with Representatives Aquino and Matsumoto voting aye with reservations, and with Representatives Branco, DeCoite, Eli, Har, Ilagan, Kong, McDermott, Okimoto, Tokioka, Ward, Woodson, and Yamane voting no.

No. 11, HD 1, entitled: "A BILL FOR AN ACT RELATING TO EDUCATION," passed Third Reading by a vote of 50 ayes to 1 no, with Representatives Matsumoto and Okimoto voting aye with reservations, and with Representative McDermott voting no.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 225, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Okimoto rose to speak in support of the measure with reservations, stating:

"Reservations please, brief comment. I'd just like to say, I appreciate the intent of this bill, Mr. Speaker, as all of our *keiki* should feel safe at school. However, as stated in the testimony from the Department of Education, these rules already exist, thus making this measure duplicative. If codified into law, my concern is that it also runs the risk of hamstringing the DOE

from making changes to the definitions of the terms bullying, cyberbullying, and harassment when deemed necessary. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 225, HD 2, entitled: "A BILL FOR AN ACT RELATING TO BULLYING," passed Third Reading by a vote of 51 ayes, with Representative Okimoto voting aye with reservations.

Representative Okimoto rose to speak in support of the measure with reservations, stating:

"With reservations, Mr. Speaker, and a brief comment. There is a similar Senate version of this bill that establishes the Office of Aerospace Development in the Hawaii Technology Development Corporation instead of abolishing the OAD completely, which allows us to continue discussions and methods of diversifying our economy through the aerospace sector. Thank you, Mr. Speaker."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, in strong opposition. Notwithstanding what the Senate may be doing, I think we're taking a step backward by doing this, Mr. Speaker. I earlier spoke on the need for the State of Hawaii to get more creative, innovative, more entrepreneurial. Well, this takes a giant leap backwards because it takes away basically what's on the forefront of technology and aerospace.

"All of you do Amazon. Well, your delivery is going to be by a UAV, which we now are opting out of in this particular bill. We are basically canceling all the legislation we did to create keeping up with the rest of America for aerospace and for high technology.

"I think it's rather shameful to know that we have the most strategic position for aerospace tourism, we have the most strategic position for shooting of a breadbasket or how would you say, satellites that are as small as a loaf of bread. We have undermined this by saying, well we don't want anything to do with it.

"Now, I know, and I'm also grateful to the Chair of Finance who said, we are not really getting rid of all of it, we are putting it into the University of Hawaii Hilo. Which is good. We have PISCES. PISCES is the Pacific islands space center *et cetera*, but it's still not the same as the Office of Aerospace Development to mainstream us into the 22nd century, 23rd and beyond.

"Mr. Speaker, as co-chair of the Small Business Caucus, I'm very disappointed that we are so anti, not antibusiness, we are so apathetic to entrepreneurial, creative, innovative things. And as I've said earlier, I'm really disappointed that our DBEDT, our engine of our economy, hasn't put in one pro-business bill in this session when the businesses are hurting the most.

"For those reasons, Mr. Speaker, I'm really sad by a bill like this. Hopefully something will happen with UH Hilo. But the fact is, they used to fly over Hawaii, and now with these other things that are going on, we are going to be a forgotten area in the Pacific because we haven't adjusted. We think that we're so smart, we live off of our good looks, but we're not

using our brains. We've got to get more entrepreneurial, we've got to get more creative, we've got to do it more innovative, and we've got to stop throwing things onto the wayside. Thank you, Mr. Speaker."

Representative Quinlan rose to speak in support of the measure, stating:

"In support, Mr. Speaker. There is just so much to unpack, so many inaccuracies in one long run-on sentence. How do we take a step back from nothing? The Office of Aerospace Development is defunct and has been defunct for quite some time. There is nobody working in there. And after 15 years of having OAD and having PISCES, funding these positions, funding their research, we have nothing to show for it. We have no projects, we have no space port, we're not testing any drones here. And that's not OAD's fault, necessarily, or the fault of PISCES, it's the result of a number of different factors. But I think to suggest that the mere existence of a few positions in a division of DBEDT would make or break the aerospace industry in Hawaii is disingenuous. Anyways, I don't want to get myself in trouble, that's it. Thanks, Mr. Speaker."

Representative Ward rose to respond, stating:

"Mr. Speaker, in opposition. For the good Representative from the North Shore, he also accusing me of what he himself, the reason why it never went anywhere, Mr. Speaker, is because we never funded it. We never funded the positions. That's number one. Literally, for the last 10 years. I mentioned Mr. Crisafulli who is very aggressively, very, very strongly mentioning that, if we're going to compete with the rest of the nation, we've got to put some skin in the game, is his term. So, we've never funded this, so it's kind of died from neglect."

"And number two, we never responded to the private sector gestures of Elon Musk and the other Virgin Galactic who wanted to come here, but we kind of played, as I said earlier, we live on our good looks, we don't use our brains. So, Mr. Speaker, this is a death of neglect, this is the death of bureaucratic nonsense, and from this body not picking it up and running with it and being creative and innovative, I put the onus of our unfortunately killing off of this, this is a job creator, now it's a job killer the way that this bill is fit. So, for those reasons, Mr. Speaker, I will remain in opposition."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. As the one who created PISCES, I feel I need to step up and say something. I stand in support of this measure. The OAD, Jim did a great job, he tried to use it as a way to bring minds from around the world to Hawaii to discuss things, to have conferences on aerospace. But there was a frustration, Mr. Speaker, of the private sector, that these meetings, while well intended, were just that, meetings, think groups, work tanks. No real projects were being engaged in. The opportunity of our location, of having an analogue center here in Hawaii, wasn't being realized, which is why we created PISCES."

"And the Chair of Finance, I thank her, cause all those years contrary, let the record reflect, she funded those positions and funded the programs, some of which include the basalt concrete project which was undergone in Hilo, as well as other projects which have brought the University of Hawaii and other universities to the Big Island to take advantage of these partnerships."

"You have to evolve, Mr. Speaker, to the 21st century, and PISCES was trying to do that. Jim did a great job, but even then, there was concern and issues from the private sector of the efficacy of OAD. To refocus this back into PISCES and back into the University is a good thing in moving forward to try to really engage that private sector partnership for our strategic location."

"So, I want to thank both the Chair of Finance for her previous support, I also want to thank the Chair of Economic Development for continuing to demand results of these projects and programs. And so for that, I stand in support of the measure. Thank you."

Representative Quinlan rose to respond, stating:

"Thank you, Mr. Speaker. Still in support and may I have the words of the Chair of Government Reform entered into the record as if they were my own. And I'd just like to briefly point out that my colleague from Hawaii Kai often rails against bureaucracy in this chamber and at the same time speaks glowingly of the private sector, so it confuses me when in this case

his answer to our lack of an aerospace industry seems to be keeping more bureaucrats employed permanently. Thank you," and the Chair "so ordered." (By reference only.)

Representative Luke rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. One of the things I wanted to point out was that there was some incorrect statement about not funding Office of Aerospace. Even the position of the executive director has been funded and continues to be funded, which will be removed in this bill, only because the position has now been filled by the former Department of Labor director. And as soon as the former labor director became the head of Office of Aerospace, DBEDT quickly reassigned that individual to do workforce development."

"I think this is an example of legislative intent in trying to work with the administration and the executive to get progress in some of these economic efforts. But at some point in time after 10, 15 years, if the executive still continues to struggle, it is really the opportunity for the Legislature to reexamine, as opposed to continuing to fund a program that has really struggled and only has succeeded only on those parts like PISCES and unmanned aerial where the Legislature got involved. Other than that, other than going through NASA trade shows and other type of similar trade outfits, Office of Aerospace has not developed to the full potential that it could have."

"And this is an example of perhaps sometimes government should stay out of the way as opposed to trying to control every step of the way. What do we have as far as innovation and technology in this state? It really is in the University of Hawaii, and that's why we feel that maybe it is time, after giving DBEDT 15 years to succeed in this program, if they have not been able to do so, it is time for us to restructure and reexamine and have it be placed in an area where they can succeed as opposed to continuing to wish that this program will succeed under the executive where they have not really completely supported or envisioned the full potential. So, thank you very much."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 862, HD 2, entitled: "A BILL FOR AN ACT RELATING TO STATE GOVERNMENT," passed Third Reading by a vote of 50 ayes to 1 no, with Representative Okimoto voting aye with reservations, and with Representative Ward voting no.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 941) recommending that H.B. No. 1388, HD 1 pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1388, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Ganaden rose to speak in support of the measure, stating:

"In strong support. Mr. Speaker, the original home mortgage interest deduction in the United States was created to incentivize home ownership. It has been twisted in years to allow for the rich to get richer and for the poor to become poorer. As it is currently structured, it increases inequality and contributes to housing unaffordability."

"I'd like to note for the members that the housing price of the average home here on Oahu is up 3% this year during the pandemic to \$814,000. In its testimony before the first committee, the Department of Transportation noted that an increase to the general fund, if we were to enact this bill, would be \$9.2 million. Noting the increase in housing here on the island of Oahu, I think that might be a bit conservative."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1388, HD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Third Reading by a vote of 48 ayes to 3 noes, with Representatives McDermott, Okimoto, and Ward voting no.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 942) recommending that H.B. No. 1027, HD 1, as amended in HD 2, pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1027, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I am in opposition. As the City & County administered Hanauma Bay, which all of us have been a visitor or a participant in, and the fee that they collect is what this bill is about, the MLCD.

"The bill is aimed specifically and only at Hanauma Bay, and its aim is to get the money from the city's Hanauma Bay fund to spend throughout the state instead of only at Hanauma Bay, and in violation of two federal court orders governing the use of the Hanauma Bay fund.

"Mr. Speaker, the bottom line is, this is a cash cow. The state has discovered it, the state works on the ocean side of it, the city runs it in the administrative land side. And because it has been so prosperous, and I know there is a grab for money wherever and however it can be found, but this is not the place. This is my district. This is a place that needs the money to keep it pristine, to keep it operational, to keep it as it is one of the gems of all of the world, if you will, to not only visitors, but to local people alike.

"And some people say, well the Friends of Hanauma Bay gave written testimony in the Finance Committee and they were all for it. Well, I just spoke to the president this morning, and she said the verbal testimony, she said, was to pull back that positive note on this bill, 1027, and to know negatively that now her eyes, the Hanauma Bay friends, have their eyes open and they know that this is bad because it's another grab for what otherwise is for the maintenance and the wellbeing of Hanauma Bay operationally.

"For those reasons, Mr. Speaker, please note that this is not a good bill, it's a step backwards, and it's a grab of money from my district. Thank you."

Representative Tarnas rose to speak in support of the measure, stating:

"Thank you, in support, brief comments. I just want to note for members that, in the Water & Land Committee we specifically amended the bill to address the concerns of the City & County of Honolulu to ensure that this would not be in conflict with the two court cases that the previous speaker referred to. And so, the measure, as amended, should be able to be adopted without any concern. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1027, HD 2, entitled: "A BILL FOR AN ACT RELATING TO MARINE LIFE CONSERVATION DISTRICTS," passed Third Reading by a vote of 49 ayes to 2 noes, with Representatives McDermott and Ward voting no.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 954) recommending that H.B. No. 1144, HD 2 pass Third Reading.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 945) recommending that H.B. No. 753, HD 1 pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 753, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Matayoshi rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matayoshi's written remarks are as follows:

"I am very supportive of the intent of HB 753, HD 1, which is to ease a financial burden on DHHL to allow for the development of more affordable housing for Native Hawaiians. My concern, however, is that we are paying for this development on the backs of our public schools; namely, the public schools that will serve the population this measure is meant to help. We cannot increase the student population in an area while at the same time depriving that area's schools of funding needed for those students. For this reason, I will be voting with reservations."

Representative LoPresti rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 753, HD 1, entitled: "A BILL FOR AN ACT RELATING TO SCHOOL IMPACT FEES," passed Third Reading by a vote of 51 ayes, with Representatives LoPresti and Matayoshi voting aye with reservations.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 948) recommending that H.B. No. 1012, HD 1 pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1012, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Onishi rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. Mr. Speaker, this is another veiled attempt for DLNR to try to cover up the mismanagement of Banyan Drive. For many years, Banyan Drive has been mismanaged. The properties on Banyan Drive have been left to disrepair. And it now requires the removal of some of the structures, some of the hotels that formerly existed in Banyan Drive, and the DLNR has been trying to come to the State to have the State pay for that removal in order for them to do the development of Banyan Drive.

"Obviously, the removal of these buildings, condemned buildings, should be part of the full development plan, and it shouldn't be costing the people of Hawaii in order to take those buildings down and benefit the developer.

"In this particular case, the restructuring of the lease, or the forgiveness of lease rent to the developer, is in essence the State and the people of Hawaii paying for what the developer should be able to do for the permission of developing that property. So, I stand in strong opposition."

Representative Perruso rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Todd rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I just have brief comments and I'd also like the words from the Representative from South Hilo adopted as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Todd continued, stating:

"Just to kind of echo some of those sentiments, if this area, even though this has statewide applicability, it's really designed specifically for an area in my district that everyone is very tired of hearing about, so I'll be brief.

"The dollar figure in question is about \$6 million. And I think it's worth noting that the actual value of this property, in terms of potential lease revenue, would be probably only in the order of \$100,000 a year, give or take. So, you'd really be paying a developer to take this off of your hands, in a sense. And they may, in effect, have 30, maybe even 50 years of free lease of this land for tearing down a building that should never have gotten into this condition in the first place, had this area been managed better. So, I just want to add that. Thank you."

Representative Sayama rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Holt rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ilagan rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Nakamura rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Hashimoto rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative McKelvey rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1012, HD 1, entitled: "A BILL FOR AN ACT RELATING TO RENTALS FOR PUBLIC LAND LEASES,"

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 952) recommending that H.B. No. 1122, HD 1 pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1122, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Holt rose to speak in support of the measure with reservations, stating:

"Thank you. Mr. Speaker. With reservations, brief comment. I'm unapologetically pro-Hawaiian. I appreciate the Sovereign Council of Hawaiian Homestead Associations putting forth these measures, but as highlighted in the testimony by the department, as I read before, the amendments proposed are unnecessary and propose to elevate the interests of lessees and homestead associations over the interests of applicants on the waitlist. And we have over 28,000 members on the waitlist. So, for those reasons, I'm with reservations."

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Branco rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative DeCoite rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"I am voting with reservations on this bill because it imposes additional requirements on the DHHL which in every case, the DHHL has testified that they are unnecessary. When we see bills that impose substantive changes to the administration of DHHL, we hear from a broad cross section of Hawaiian organizations and the Hawaiian community who weigh in on such changes. In the case of this bill, I have not seen widespread support, opposition, or comment. *Mahalo*."

Representative Todd rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Gates rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Branco, DeCoite, Gates, Har, Holt, Ilagan, Okimoto, Quinlan, Sayama, and Todd voting aye with reservations.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 953) recommending that H.B. No. 1124, HD 1 pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1124, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations, but I'm still in support of it, with degrees of it. First, I want to thank the west side author of this bill. This is essentially a step forward for the Hawaiian Homes Commission to modernize their lease. But, Mr. Speaker, it doesn't, probably, go far enough, because the number of Hawaiians who have lived and died in a state of transgenerational trauma, waiting for a place to call home in their homeland, and I'm going to say, it borders on criminal.

"Whatever excuses might spring from the State after 100 years of failed management of this trust responsibility, it is disturbingly clear and there is no end in the sight. The governance model of DHHL from the get-go has been one of perpetuating government dependency, and that continues till now, year after year after year.

"The State of Hawaii signed off on the trust responsibility of the Homestead Act of 1920 as a condition of statehood in 1959. So, let's be clear, the ultimate responsibility lies in the lap of the governor and the Hawaii State Legislature. If after 100 years of profoundly egregious mismanagement of a fundamental trust, you would think that the leaders of the State would stop looking at DHHL to come up with solutions, which they seem incapable of doing.

"The point is, the model is broken. Broken. The model has to change. House Bill 1124, HD 1, offers a legitimate path to resolving the breach of trust. What is lacking, Mr. Speaker, clearly, is the political will and the courage and determination to right this wrong. House Bill 1124 will take us to the well, but it won't force us to drink.

"It's a good beginning. It's piecemeal. It's something that we need to do. Looking at the lease, the way that Bishop Estate has written leases and put them forth, there is actually value to it when you have a 99-year lease. Heretofore, if you have a Hawaiian Homes lease, all you get is what is in the construction or the reconstruction rebuilding price. So, Mr. Speaker, this is a definite step forward.

"And I'd note that the effective date is 2050. And one of my Hawaiian colleagues said, yes, and all the 28,000 on the waitlist will be dead by then because there are more people on the waitlist that are dying than are getting homes. After 100 years, only 9,800, maybe 10,000 leases at the most. Which means, Mr. Speaker, for 100 years, we built 100 houses per year. I know a developer who could do that in a number of months, Mr. Speaker. We are really negligent. And as I said in the beginning, this borders on criminality. For those reasons, Mr. Speaker, it's okay, but not so okay."

Representative Holt rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations. I appreciate the passion that the previous speaker has for DHHL and the Hawaiians. Like I said, thank you for the SCHHA for putting this bill forth. I wish it was as simple as this.

"Over the interim, our former colleague and the current chair of the Senate Health Committee looked into these issues to require appraisals, improvements, to identify the replacement costs of the leasehold market value. The problem is that DHHL homestead leases are not like any other properties in Hawaii.

"And, as stated in the testimony from the department, 'the term leasehold is and refers to a lessee's right to exclusive use and possession of a tract of DHHL land for a term of years. DHHL leaseholds can only be owned by qualified beneficiaries. Consequently, the market for DHHL leaseholds is limited by statute.'

"There is also another section in this bill which would again put homesteads and current homesteaders ahead of those on the waitlist. Again, in the testimony from the department it says, 'authorizing second position loans could require additional sources of loan financing to existing lessees while nearly three times that number are awaiting a lease and financing for their homestead award.' For those reasons, I'm with reservations, Mr. Speaker.

Representative Todd rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ilagan rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Hashimoto rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Har rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ward rose to respond, stating:

"Second time, with reservations but mild support, Mr. Speaker. One of the caveats obviously is that if one of the leases is to pass to another person, it has to be Hawaiian, it has to be 50%, or 25% if it's the children. That limits the number of potential buyers. But for those who follow the numbers locally, as well as on the mainland, as well as in the world, there's probably a half a million Hawaiians. So, that is something that administratively can be taken care of, the governor could probably do it.

"The Department of the Interior asked for innovative, creative things of which this body, with this bill, can introduce creative, innovative ways. And this is a creative, innovative way of getting out of the doldrums of 100 houses every year for 100 years and never fulfilling what otherwise is, to me, a moral imperative to put the Hawaiians back on the land. I repeat, a moral imperative to put the Hawaiians back on the land which was promised 100 years ago. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1124, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAIIAN HOMES COMMISSION ACT," passed Third Reading by a vote of 50 ayes to 1 no, with Representatives Branco, DeCoite, Gates, Har, Hashimoto, Holt, Ilagan, Matayoshi, Matsumoto, Nakamura, Okimoto, Quinlan, Todd, Tokioka, and Ward voting aye with reservations, and with Representative Ganaden voting no.

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative B. Kobayashi rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, support with reservations and a few comments. After our majority caucus, I was given some dollar numbers and I'd like to share them with you. The master settlement agreement is one of the most lucrative law cases that have come to the support of state finances. Over the past 20 years, over approximately \$1 billion has gone into the tobacco trust fund, not to count the billions in addition that have gone to the general fund, the Department of Health, health prevention fund, the UH School of Medicine.

"In the past 20 years, approximately \$45 million have been earned in interest income through the Hawaii Community Foundation for the tobacco trust fund. This is, depending on your perspective, a little bit of money or a lot. I would suggest that given that there would have been zero interest income had the money gone into the general fund, that this is a lot of money.

"Second dollar item has to do with the rumor that \$1 million from the tobacco trust fund went to support the Biki bike car rental program of the City and County. In fact, while there was \$1 million given to Biki bikes by the State, it came not from the tobacco trust fund, but from the pot of money that went to the Department of Health, health prevention.

"The third item is that I am told that while this program, the tobacco control program, will be supported by general funds, the general fund support is \$1 million less than what is currently available. So, for these

reasons and others, I would like to suggest that we look at this program more closely as this bill proceeds. Thank you."

Representative Perruso rose to speak in support of the measure with reservations, stating:

"While I appreciate the intent of this measure to move special funds into the general funds, and I definitely support that approach, I still do have reservations about this particular bill."

Representative Tam rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Nakamura rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ganaden rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I'd like to change my no vote to a with reservations. I'd like the words of the speaker who spoke four times previously to be entered as my own. Also noting, hoping that we can clarify in future iterations of this bill, the decoupling of the financing of the cost of construction for the University Health and Wellness Center from the need to support tobacco cessation in communities like the one I represent. Thank you," and the Chair "so ordered." (By reference only.)

Representative Kapela rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. THIRD READING

At this time, the Chair stated:

"The following measures will be deferred one legislative day. House Bill 961, HD 1, on page 32. On page 35, House Bill 432, HD 1.

H.B. No. 961, HD 1:

By unanimous consent, action was deferred one legislative day.

H.B. No. 432, HD 1:

By unanimous consent, action was deferred one legislative day.

H.B. No. 221, HD 1:

Representative Belatti moved that H.B. No. 221, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Takumi rose to speak in opposition to the measure, stating:

"Thank you very much, Mr. Speaker. In opposition. Mr. Speaker, as your CPC chair emeritus, I've got a little familiarity with condominium issues. On this one, it's well intended but there is one big unintended consequence.

By putting in language that says that no condominium association employee can solicit proxies, it will result in most if not all condominiums not being able to achieve quorum.

"As you know, many condominiums have a very difficult time achieving quorum, particularly those condominiums where the majority of the owners are not even living in the state. So, usually the board directs the community association employee to get votes. And how do they do that? Usually they do a mailing. Because, as you know, boards are all volunteers, and to do a mailing of 200, 300, 400, 500 unit owners is very time consuming, and so that's what they pay condo associations to do.

"Secondly, I've known instances where in order to get proxy votes, the employees would literally go door to door in that condo, knocking on the doors, asking if they can fill out the proxy form. Under this bill, that would not be allowed.

"So, if the intent is to paralyze boards and not get proxies and not achieve quorum, this bill would achieve that purpose. I am hopeful with a nine word change, nine words added to this bill, we can take care of this unintended consequence and also ensure that association employees are not engaging in something nefarious in trying to get proxies for their own ends. Thank you, Mr. Speaker."

Representative LoPresti rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I have reservations with comments. I'd like the words of the previous speaker entered into the record as if they were my own, although I was not CPC chair emeritus," and the Chair "so ordered." (By reference only.)

Representative LoPresti continued, stating:

"I have reservations for similar reasons, but also slightly different. I'd like to see, and the reason I'm a reservation and not a no, is I'd like to see the language that was removed put back in.

"As the president of my association, it is difficult to achieve quorum sometimes. But I think one of the rationales behind the idea to not allow people to give a proxy to the board as a whole, is because sometimes there is disagreement in the community as to what the board is doing. And it's hard to replace the board when you give a proxy and that proxy is almost always given to the board as a whole. And if you want to change something, you can't do that and give a proxy. So, the part that was removed is the part that should be kept, in my opinion.

"The universal language that says that the association managers cannot solicit a proxy seems a bit overbroad. If the intent is to limit something nefarious, I think that's fixable in the bill. But we can't hamstring boards from having the people that they pay to help manage their associations to help do the job. And so, that's why I'm reservations, because I think we can still fix it. Thank you."

Representative Johanson rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I want to start off by saying, I appreciate the comments, actually, from the Representative from Pearl City, and I agree. I think his comments are helpful as it moves over to the Senate in providing some clarification because I, too, agree that the intent here is to try to ensure that nothing nefarious is happening from the various employees who have a vested interest and sometimes might actually have a conflict of interest in the manner in which they pursue the solicitation of proxies.

"For most members, including myself, who are getting an education in this, the proxies are important because this is a governance structure that governs the condominium associations. And this is how common area improvements are done, policies are made. So, I think those are very good comments that I take to heart.

"I will say, the restoration of the portion of the bill that I deleted would have achieved exactly what the Representative from Pearl City and myself are concerned about, which is the inability to actually govern a condo association. These proxies are important, and the ability to delegate them to the board is a necessary part of condo association government. Thank you very much."

Representative LoPresti rose to respond, stating:

"Mr. Speaker, second time, still in reservation. By reinserting that language, you'd still very much have the ability to have the governance structure function. There are many options of what to do with a proxy. You can give it to your neighbor, you can give it to an individual member. There's lots of options. The default tends to be only giving it to the board to use, and that is where, in my experience, a lot of the problems come.

"When people think that something nefarious is being done on a board or they don't like the way the board is making decisions, by having the option to have the proxies given to somebody else, you still have governance structure. But by removing the option to, that sometimes these boards put out calls for proxies and the only real option that's given to them is that they can give the proxy to us, the board, if I'm speaking as a board member. And that's not the only possibility, there are many possibilities. And so, I just wanted to correct that. Thank you."

The motion was put to vote by the Chair and carried, and H.B. No. 221, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CONDOMINIUMS," passed Third Reading by a vote of 49 ayes to 2 noes, with Representative LoPresti voting aye with reservations, and with Representatives McDermott and Takumi voting no.

Representative Ward rose to speak in support of the measure with reservations, stating:

"With reservations, Mr. Speaker. Interestingly, marriage is now just, as the bill indicates, a personal relationship. I think this lessens the meaning of marriage, it kind of cheapens it, if you will, and anybody and everybody can now marry anyone.

"Interestingly, the first part of the bill says, you've got to pay a license fee. So, is this a way of getting money by actually diluting actually what vows are, which we hopefully take seriously nowadays, and this thing kind of cheapens it. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and H.B. No. 248, HD 1, entitled: "A BILL FOR AN ACT RELATING TO PERSONAL RELATIONSHIPS," passed Third Reading by a vote of 50 ayes to 1 no, with Representative Ward voting aye with reservations, and with Representative McDermott voting no.

Representative Ganaden rose to speak in opposition to the measure, stating:

"Mr. Speaker, registering a no vote. As noting the testimony of the Office of the Public Defender, this would criminalize some of the very common behavior of minors in our community in making statements online. In 2012, this legislative body made great strides to change the way that the state handles juvenile felonies. I think this is a step in the wrong direction. Thank you."

The motion was put to vote by the Chair and carried, and H.B. No. 169, HD 1, entitled: "A BILL FOR AN ACT RELATING TO DISORDERLY CONDUCT," passed Third Reading by a vote of 47 ayes to 4 noes, with Representatives Ganaden, Kapela, Perruso, and Tam voting no.

Misc. Com. No. 1001, from Mike Golojuch, Sr., dated March 6, 2021, transmitting a letter asking that the House investigate and appropriately act upon an incident involving the Representative of the 42nd District.

At this time, the Chair stated:

"Alright members, miscellaneous communication 1001 will be deferred until Wednesday, March 17, 2021."

ORDER OF THE DAY

SUSPENSION OF RULES

On motion by Representative Morikawa, seconded by Representative Okimoto and carried, the rules were suspended for the purpose of considering certain House Bills for Third Reading by consent calendar. (Representatives Matsumoto and Mizuno were excused.)

UNFINISHED BUSINESS

At this time, the Chair stated:

"Alright members, just for clarification, we'll be taking up the measures that were deferred from Tuesday. We are positioned to vote on three of those measures and the other six will be recommitted. So, there will be a series of motions to do this."

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 903) recommending that H.B. No. 476, HD 2, as amended in HD 3, pass Third Reading.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 476, HD 3 pass Third Reading, seconded by Representative Morikawa.

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 476, HD 3, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Third Reading by a vote of 47 ayes to 2 noes, with Representatives Okimoto and Ward voting aye with reservations, with Representatives D. Kobayashi and McDermott voting no, and with Representatives Matsumoto and Mizuno being excused.

Representative Luke, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 927) recommending that H.B. No. 80, HD 1 pass Third Reading.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 80, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE LOW-INCOME HOUSING TAX CREDIT," passed Third Reading by a vote of 49 ayes, with Representatives Matsumoto and Mizuno being excused.

H.B. No. 961, HD 1:

Representative Belatti moved that H.B. No. 961, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Perruso rose to speak in opposition to the measure, stating:

"I stand in opposition. There are two provisions of this measure, and I'm not going to address the first part. So, the first part has to do with expedition of licensure for the family members of active service members. What I am going to address is the second part, which creates an exemption for those members of the military and their family to declare residency. So, that means that if they were to seek employment by the city or any of the counties or the state, they would not need to declare residency in the State of Hawaii. And that's important because that's the only thing that makes it necessary for them to pay income taxes here.

"The vast majority of active service members and their families don't pay income taxes here, and that has a deleterious effect on our budget for the state. Their students, their children attend our public schools, they use our public roads, they use our public infrastructure, and most of that, well some large part of that, is funded by income taxes. So, I did want to point out the possible negative impacts of losing any income tax that we do collect from those military dependents who may work in our schools or in other parts of our city and state government. *Mahalo.*"

ORDER OF THE DAY

REPORTS OF STANDING COMMITTEES

Representative Tarnas, for the Committee on Water & Land, presented a report (Stand. Com. Rep. No. 964) recommending that H.C.R. No. 16 be referred to the Committee on Consumer Protection & Commerce.

Representative Belatti moved that the report of the Committee be adopted, and that H.C.R. No. 16 be referred to the Committee on Consumer Protection & Commerce, seconded by Representative Morikawa.

Representative Wildberger rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. No vote and brief comment, please. I would like to acknowledge the Water & Land Chair for his very thorough presentation by DLNR and others who work on these seawall resolutions. Due to their still very extended intervals of 55 and 65 years, I'll be voting no on the extended term leases, just because I would prefer to see statewide sea level rise policy adapted instead of part and parcel reactionary measures being put in place. Thank you."

Representative Perruso rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Kapela rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative B. Kobayashi rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I would note that this resolution and other resolutions all involve existing structures, not new structures. Further, some of the resolutions, not this one, involve survey errors or omissions. So, this is to correct portions of the structures that were already given permission but because of measurement errors were excluded from the first approvals. Thirdly, all of these resolutions have had OCCL oversight, Office of Conservation and Coastal Lands. That has been pretty much a standard procedure.

"I would agree that we have still much to do in making sure that these easements, some of which will extend for 55 years, should be kept to a minimum and perhaps better scrutinized and perhaps approved along with a set of guidelines that give everyone some assurances that there are baselines and review, but at least we're going in the right direction. So, I would suggest we work further on this but approve these resolutions. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 16, entitled: "HOUSE CONCURRENT RESOLUTION AUTHORIZING THE ISSUANCE OF A TERM, NON-EXCLUSIVE EASEMENT COVERING A PORTION OF STATE SUBMERGED LANDS AT KAALAWAI, HONOLULU, OAHU, FOR THE EXISTING SEAWALL, AND FOR USE, REPAIR, AND MAINTENANCE OF THE EXISTING IMPROVEMENTS CONSTRUCTED THEREON," was referred to the Committee on Consumer Protection & Commerce, with Representatives Kapela and Perruso voting aye with reservations, and with Representative Wildberger voting no.

THIRTY-FIRST DAY

Wednesday, March 17, 2021

The House of Representatives of the Thirty-First Legislature of the State of Hawaii, Regular Session of 2021, convened at 12:02 p.m., with Speaker Saiki presiding.

The invocation was delivered by Representative Dee Morikawa, after which the Roll was called showing all members present, with Representative Har participating remotely via videoconference.

MISCELLANEOUS COMMUNICATIONS

The following miscellaneous communication (Misc. Com. No. 1002) was received and announced by the Clerk:

Misc. Com. No. 1002, from Carolyn Martinez Golojuch, dated March 8, 2021, transmitting a letter petitioning the House to investigate and appropriately act upon an incident involving the Representative of the 42nd District.

At this time, the Chair stated:

"Members, a copy of Misc. Com. No. 1002 has been placed on each of your desks. The Chair will consolidate this matter with the next item, item 6, unfinished business."

ORDER OF THE DAY

UNFINISHED BUSINESS

MISCELLANEOUS COMMUNICATIONS

Misc. Com. No. 1001, from Mike Golojuch, Sr., dated March 6, 2021, transmitting a letter asking that the House investigate and appropriately act upon an incident involving the Representative of the 42nd District.

At this time, the Chair stated:

"Members, as you know, we have received Misc. Com. Nos. 1001 and 1002. The Chair will refer these communications to a special committee that will be established pursuant to House Rule 14 via a memorandum to be sent to all House Members at a subsequent date."

Representative Tokioka rose, stating:

"Mr. Speaker, can I ask for a point of information? Rule 46 talks about members objecting to the process that you're talking about right now. And it's not clear if that means if a member objects to what we're doing, it doesn't say how many members, it doesn't say anything about that process. So, can we have some clarification about that?"

At 12:07 p.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:21 p.m.

Representative Tokioka continued, stating:

"Thank you, Mr. Speaker. Thank you for the opportunity to explain my request. And I am going to stand with objection to the motion that you made to refer this to committee. And only to the point that the representative that is being talked about in communication 1002 has a court date. And that court date will happen. And at that point, then I think this body should consider what we do from that point going forward. But to send it to the committee now with no clear guidelines to us of what this committee's going to do, then I think it's not fair to the process. So, for that reason, I stand in objection to the motion."

The Chair addressed Representative Tokioka, stating:

"Alright, Representative Tokioka, the Chair's ruling is to refer these matters to a special committee to be established pursuant to Rule 14 and

through a memorandum sent by the chair. Do you wish to appeal that ruling?"

Representative Tokioka: "Mr. Speaker, I have not had the opportunity to discuss with anyone that portion of the ruling. But I am talking about Rule 46 and this communication, so I'd like to review the other parts of Rule 14 before I render a decision on your question."

Speaker Saiki: "Okay, thank you for your objection."

But what we've got here is a real liability because we've had bills like this in the past where it says, the bill of rights for health, the bill of rights for housing, and the state is liable, legally liable, if we don't provide that, there's going to be a plethora of lawsuits.

"So, until I find out the legal standing of a quote, liability for the environment, because there's a lot of places where the environment is not safe nor healthy here, how much this is going to actually cost if it does pass and then implement it and adjudicate it to where we are not able to afford it. "Mr. Speaker, as I have mentioned in the EEP Committee, my no vote is in moral support for an industry that has been devastated by the Covid-19 pandemic. Many people have lost their jobs and still not working. In my opinion, to impose another imposition on the industry right now is not good."

Representative D. Kobayashi rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Okimoto rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"No vote, brief explanation why no. Mr. Speaker, everyone knows that my office did a study in 2018 regarding the Hawaiians not having the land which they lost, of which we have 203,000 acres for the Department of Hawaiian Home Lands to put the Hawaiians back on. And this actually is another land grab, if you will, by which you could reclassify lands of which then they could never be reclaimed again because of the new status that this bill gives.

"So, if anybody's pro-Hawaiian, Native Hawaiian, if we are super sovereignty or mild sovereignty, this is not a good bill because it's about the indigenous population and a return to the land by taking away the land of which from the Great Māhele to the present has always been an issue. And if anybody loves the 'āina, it's the Hawaiian people. And this is bad business for the Hawaiian people. Thank you, Mr. Speaker."

Representative Branco rose to speak in support of the measure with reservations, stating:

"Thank you. With reservations and brief comments. So, HHFDC did a report in December 2019 and discovered that there are 117,000 Native Hawaiian households, and 12,700 of them are actually serviced by DHHL, which leaves 104,000 of Native Hawaiian households that are not serviced.

"And so, I do believe that this measure could assist what HHFDC is doing, in coordination with OHA, could help Native Hawaiians. But I also have to mention that with this measure, we have to decouple the issue, we have to make sure it's not convoluted, that housing for Native Hawaiians is not the same as claims for Native Hawaiian's ancestral lands. And so, we need to make that clear. *Mahalo*."

Representative Eli rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Kapela rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative DeCoite rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"I am voting in opposition to this bill because my concern and priority is making sure that ceded lands are used to benefit Native Hawaiians as intended. Under this bill, ceded lands could be leased or disposed of by using HHFDC's broad leasing authority by granting long term, including 99-year leases, or by disposing of these lands at below market value. This bill goes too far and will undermine the State's commitment to Native Hawaiians. *Mahalo*."

Representative Wildberger rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative McKelvey rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Gates rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ganaden rose to speak in opposition to the measure, stating:

"No vote, Mr. Speaker. Mr. Speaker, this may not survive scrutiny by the Supreme Court should an organization like the Native Hawaiian Legal Corp, which submitted testimony, were they to take a plaintiff and argue this in the court, it may not survive. Act 176 in 2009 allowed for the Office of Hawaiian Affairs to get rights of first refusal for the sale of public lands, as articulated in this bill. It requires agencies to receive the legislative approval prior to the sale of just these kinds of parcels. The parcels have not yet been designated. This would allow developers to cut their timeline by about a year. It's important that we allow the public to weigh in on these things and to allow good law to stay good law. Thank you."

Representative Holt rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations and I would just like to note that many other measures to benefit Native Hawaiians have not even received a hearing. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committees was adopted and S.B. No. 2, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC LANDS," passed Second Reading and was referred to the Committee on Judiciary & Hawaiian Affairs, with Representatives Branco, Gates, Holt, LoPresti, Matsumoto, McKelvey, Sayama, Tokioka, and Wildberger voting aye with reservations, and with Representatives DeCoite, Eli, Ganaden, Kapela, D. Kobayashi, Okimoto, Perruso, and Ward voting no.

ANNOUNCEMENTS

Representative Kapela: "Thank you, Mr. Speaker. Two days ago, eight women were murdered in Atlanta, Georgia in an act of mass gun violence. Six of the slain women were of Asian ancestry and ethnicity. While police are still investigating the killer's motive, we cannot deny that that incident represents an act of racial terror against Asians and Asian Americans in our nation. As COVID-19 has surged across our shores, anti-Asian racism has soared as well.

"Too often in our society, violence against women is combined with men's sexual aggression. Women, especially women of Asian and Pacific Islander ancestry, are exoticized as objects of male fantasies whose value is determined by their ability to satisfy a man's urges. As a young woman of color and as a service provider for survivors of sex trafficking, I believe that we must take a strong stance and stand against the intolerance and misogyny in our communities.

"Accordingly, I am asking if at the appropriate time we may hold a moment of silence for the Atlanta shooting victims and the women throughout our entire world who have lost their lives to extremist hate and gender violence. Thank you."

Vice Speaker Mizuno: "Yes, at the appropriate time."

Representative Ward: "Chair, this is just a friendly reminder, Mr. Speaker, that the fellowship luncheon will proceed directly after this session and they are to pick up their lunches in Room 402, which is your office, correct? In Room 402, and we shall proceed from there. Thank you."

Representative Hashem, for the Committee on Agriculture, requested a waiver of the 48-hour advanced notice requirement for the purpose of hearing the following measure on Friday, March 19, 2021, at 10:00 a.m. in Conference Room 325, and the Chair "so ordered."

S.B. No. 186, HD 1, Relating to Restrictions on Agricultural Uses and Activities.

Representative Belatti: "Thank you, Mr. Speaker. I just wanted to join in with the Representative from Kailua-Kona, but I would also like to say that on behalf of all the House and particularly on many of the leaders in this House like the Representative from Upcountry Maui, who has taken a national stand in joining with Asian American members from across the nation to fight against this issue of racial injustice, that we acknowledge that there is much work to be done and that many members in our chamber are doing that work. Thank you, Mr. Speaker."

At this time, the Chair stated:

"The Chair would like to remind members of today's triple referral filing deadline. Any bills moving from their first committees to their second committees in a triple referral, you must file your committee reports with the Clerk's Office by 7:00 p.m. this evening. Please allow yourself and your staff sufficient time to file your reports before the deadline."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. A no vote for a number of reasons, the first of which I would vote yes sociologically speaking because the more proximity they are to their families the better and quicker they're going to be rehabilitated.

"From a cost point of view, government cost point of view, if we take away the option for private prisons, we're going to really up the cost of government. We almost double, \$150 a day to have a prisoner here, I think it's \$70 or \$80 to have it on the mainland. That should be an option for government to be able to choose given how much money is available.

"But lastly and most importantly, the word is that some prisoners from Hawaii, in fact a number of them, will choose to go to a mainland prison because they have skill training. They get a skill when they get out. Here we don't have that skill training or vocational training. We put them out on the street, and many end up homeless. So, for those reasons, person who go to the mainland come back with a skill, and I think that should be an option that we allow people to have. For those reasons, Mr. Speaker, a no vote."

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Sayama rose to speak in support of the measure, stating:

"In support, Mr. Speaker. While I acknowledge the state's need to house our inmates in out-of-state private prisons, I feel like the state has a moral responsibility to house our inmates in state, as the Representative from Hawaii Kai mentioned, that recidivism rates are a contribution to the state's expenses and when we house our inmates out-of-state, we only increase the recidivism rates for these inmates.

"I also believe that the state should not see the private prison institutions as a long-term solution, as only a temporary solution to address the issues we have with our own criminal justice reform right at home. Thank you, Mr. Speaker."

Representative Har rose in support of the measure with reservations and asked that the remarks of Representative Ward be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Branco rose to speak in support of the measure, stating:

"I rise in support of this measure. I want to take this opportunity to share some statistics facing our Native Hawaiian population that is incarcerated. According to the Hawaii Criminal Justice Data Center Report, Native Hawaiians make up 39% of the incarcerated population, compared to 25% of the state population. Forty-four percent of incarcerated women in Hawaii are Native Hawaiian, compared to Native Hawaiian women making up 19.8% of the general population. These statistics leave me with many questions. And these questions are, why is it this way, what are we doing as a body to fix this, and how do we decriminalize someone who is consistently called a criminal? *Mahalo*."

Representative Sayama rose to speak in support of the measure, stating:

"Once again in support. As I mentioned earlier, I strongly believe that Hawaii should phase out our private prison systems. We should look for more long-term sustainable criminal justice reform back in our state. As was mentioned in the testimony from the Department of Public Safety, our jails and prisons are significantly under resourced and dilapidated, making it very dangerous for not only the inmates but also the staff that work there. So, I hope going forward that this measure will put a spotlight and address the long-term, our needs for criminal justice reform at home. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, no vote with the same comments from the earlier bill regarding correctional facilities."

Representative Wildberger rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. A young man from Kihei named Bronson Nunuha was brutally murdered at Saguaro Correctional Center, a private for-profit prison in Arizona, while serving five years for burglary. Hawaii, which pays Corrections Corporations of America millions of dollars annually to house its prisoners, has known for years that CCA-run facilities have struggles with gang violence. A 2001 Hawaii report on another Arizona facility managed by the same private for-profit company wrote that one gang runs the facility.

"These private for-profit prisons are not leading to a reduction in crime, the majority of Hawaii's incarcerated males are locked up far from home in Saguaro, far away from their families and support networks, making the ultimate goal of rehabilitation even more difficult. We're creating a diaspora.

"*Mahalo* to my colleagues and especially the corrections chair and vice chair for moving this bill forward. We must break free from our contracts with private prisons. We must start recognizing that our prisoners are our *kuleana*, and we need to start embracing restorative justice practices. *Mahalo*."

Representative McDermott's written remarks are as follows:

"I support the budget with some reservations. I want to express my gratitude to the Finance Chair, the Vice Chair, and their extraordinary staff. They really work hard for the people of Hawaii. I trust the Finance Chair as her knowledge of the budget is deep and her care and compassion for the people of Hawaii is unquestioned. My concern is the amount of federal money that may be used for abortions. The exact amount is unknown, but I suspect that well over \$two million, euphemistically designated for 'family planning,' is really money for abortions as required by federal funding formulas. I find it quite unsettling that in a pandemic crisis we are continuing to spend money on abortions. I would feel better if there was a guarantee this money isn't being used for abortions as I find this morally wrong and non-sensical when our people have so many legitimate needs."

"Thank you, Representative. The Stand. Com. Rep. No. 1134 is together with 1135, that is the HR 86, the HCR to that is 104, so we're having a WR for both?"

Representative LoPresti rose to speak in opposition to both measures, stating:

"No vote. I agree with my colleague, this issue has been studied to death. It is far past time that this body actually move on paid family leave, sick leave, and other things. And I think another study is not what is needed, we need to act. Thank you."

Representative Kapela rose to speak in support of both measures with reservations, stating:

"In support but with very strong reservations as the two previous speakers have said. I strongly support the implementation of a family leave program, it's way past time that we've done this. I think it's unconscionable that in the middle of the pandemic we still have people that have to choose between earning a paycheck or caring for their family.

"Just last night I was on social media and I saw a young family started a GoFundMe asking for donations so that they can be next to their daughter, they're from Hawaii Island, they want to be able to be next to their nine-year-old daughter while she fights for her life at Kapiolani Medical Center. People shouldn't have to ask on social media, through a GoFundMe, for donations so that they can be there for their loved ones. They wouldn't have to do that if we had things like paid family leave.

"This measure, as the other speakers have said, calls for a task force to study and design a family leave system for consideration by the Legislature. We've done that twice. In 2017, the Hawaii State Commission on the Status on Women received a grant from the US Department of Labor to conduct research about establishing a paid family leave program for our state. The 2017 study found that the annual cost to cover 16 weeks of family leave for a worker earning \$48,000 would be roughly \$58. That's one dollar per week for invaluable financial security.

"Then in 2018, the Legislature passed a measure calling for a second study, this time funded by the state at a cost of \$265,000. That report was completed in November of 2019, and may I also add that all freshmen lawmakers were given this study the very first day we walked into this chamber for freshman orientation. The 2019 study found that 400,000 workers could be eligible for a family leave program in our state and that no matter what model we decide to employ, participants would pay less than 1% from each paycheck to cover their time off. Finally, it concluded that a state-run family leave program would require \$2.2 million annually to maintain, while a model in which the state simply regulates the program would cost \$930,000 annually.

"This resolution calls for a task force to study the study of a study. And I think the reality is that people are suffering here in our state. And instead of kicking the can further down the lane and pushing it off, I think that it's time that we find the courage this biennium to take action and to really help people in our state. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.R. No. 86, HD 1, entitled: "HOUSE RESOLUTION REQUESTING THE DIRECTOR OF LABOR AND INDUSTRIAL RELATIONS TO CONVENE A TASK FORCE TO STUDY, DESIGN, AND DEVELOP A PAID FAMILY LEAVE PILOT PROGRAM," was referred to the Committee on Finance, with Representatives Kapela and Perruso voting aye with reservations, with Representative LoPresti voting no, and with Representative McDermott being excused; and

So, really the idea to remove his name is because of his family and not because of anything he's done personally.

"And more than something that addresses a need on the other side of the country in Washington D.C. at the Smithsonian, I'm speaking out generally against our cancel culture, which really goes against a lot of our local sensibilities to really dig up things and find tangential evidence to make changes like this where we're taking an individual, because of his family affiliation, and really penalizing him for it. Thank you. I'll be with reservations on this."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition, brief comment. The good Representative from Kona earlier noted that, hey, the people of Hawaii are suffering. Mr. Speaker, part of the reason for that is because of bills like this, which are job killers.

"This bill takes away the tax credit which funds and fuels our motion picture industry, of which I've many times on this floor I've spoken as we have the potential to become the Hollywood of the Pacific. For another good colleague from the North Shore who has a fiscal bent on this particular bill, it's not about fiscal responsibility, it's about job creation. Mr. Speaker, this is going to discourage our competitive edge which we have going really well in the whole of the nation. And to do a cut like this takes away the competitive edge that otherwise we would be front and center in most movie production studios.

"For those reasons, Mr. Speaker, this is a step backward and it's why the State of Hawaii is having suffering because the size of its economy doesn't fit the needs of its people. I related to a family of eight kids, the guy's got a job, the husband and wife have jobs that can feed three really well, two are marginal, and three are on food stamps and welfare because we don't have enough income in the family. We don't have an economy big enough. We keep slicing it bigger and bigger rather than growing the pie. For those reasons, Mr. Speaker, this is a job killer, we don't need it, it's bad policy. Thank you."

Representative Quinlan rose to speak in support of the measure, stating:

"In support, Mr. Speaker. I do appreciate the Minority Leader Emeritus's comments and his love for the Teamsters, the film industry, and all the wonderful workers that it does employ. But I do want to point out that in the current iteration of the bill, the cap only goes from \$50 million to \$45 million and we'll still have the vast, vast majority of those jobs. But right now, most of the money from the film tax credit is not flowing into the hands of local people, it's flowing into the hands of millionaires and film studio executives, and I'm not too concerned with how well they're doing financially right now. Thank you."

Representative D. Kobayashi rose to speak in support of the measure, stating:

"In support. So there really, while you can't argue that obviously we need more business and jobs here, what's missing from that discussion is the causality of the credit relative to the activity. There are unique geographical and cultural attributes that we have here in Hawaii that can't be replicated in other parts of the world or the country that will lead people to film here anyway.

"While we do have a cap situation, these decisions made to film here are made before it's really understood whether you'd be over the cap or not. So, really when you look at the issue, it's one of elasticity of demand, that how

elastic is demand for filming in Hawaii. And I would say it's very elastic. That if we reduce the credit or we impact it in any way, I don't see it negatively impacting our level of filming here in Hawaii in a big way because I think there are aspects that are unique here to our location. And until we can prove the causality and the elasticity of the credit relative to the activity, I think it's a little early for us to commit this kind of money and just by saying we need the jobs and its greater activity. Thank you."

Representative Wildberger rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Okimoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ward rose to respond, stating:

"Second time, Chair, just a couple of other added statistics. We have a cost benefit ratio of 4:1, for every dollar that we invest, we get four dollars back, and that's primarily local individuals, that's primarily for our own economy. But in terms of elasticity, elasticity is a notion where, if you're a smoker, no matter what the price goes, you can get people to buy cigarettes. I don't think the good Representative from Manoa realizes the elasticity is what we've been living on for the last decades about our beautiful looks of Hawaii and no matter what we do people will come. The bottom line, Mr. Speaker, is we've lived on our good looks long enough, we've got to start using our brains now, and that's one of these bills that's going backwards. Thank you."

Representative Quinlan rose to respond, stating:

"Just a point of information, Mr. Speaker, when we raised the cigarette tax, it did not stop me from smoking."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. It looks like the state is headed in a direction of a public-private partnership with a corporate prison.

"We're trying to avoid a financial debacle, and if the private prison corporation has its way, we build a facility with no oversight and design to perpetuate mass incarceration and bleed the taxpayer in perpetuity. We need oversight. We need the ability for the Finance chair and for the entire state to review how much this is going to cost for not just our finances but for the rest of our community. Thank you."

"Mr. Speaker, I rise in opposition to HCR 111. While I do not oppose the author nor the merits of the resolution that racism continues to be a problem for our citizens, I cannot support the narrative that racism is a 'public health crisis.' Currently, we are in a health crisis; it has a name, it has symptoms, and it can be cured and mitigated through medicine and medical care. Mr. Speaker, this body is a melting pot of so many races, ethnicities, and cultures; it is, in fact, a representation of our Hawaii; this body does not introduce, protect or perpetuate racism, to suggest that the very system we swore to uphold is systemically racist is disingenuous to the good faith of all the members that reside in these halls.

"If there is a racist law in the HRS, please show me, and I will wholeheartedly condemn it and support every measure to ensure it is removed with extreme prejudice.

"Lastly, Mr. Speaker, if we genuinely want to make great strides to end racial disparities within our communities, it is time we call and identify the true health crisis, poverty. Poverty, much like COVID, does not discriminate. It burdens, afflicts, and corrodes equally all who are within it.

"Mr. Speaker, resolutions like this do not heal or uplift; they despair. Resolutions reinforce the divisive narrative that no matter how hard they try, no matter how much they sacrifice, it will never be enough because the system that represents them is holding them down because of the color of their skin. Mr. Speaker, I urge you to look around this room filled with those whose varied ethnic backgrounds most accurately reflect our state and say we do not 'Prioritize racial equity in decision making processes,' as so stated in this measure. Mr. Speaker, it is for these reasons that I cannot support this resolution. *Mahalo*."

Representative McDermott rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative McDermott's written remarks are as follows:

"I believe that this measure is well intended but is totally misguided. It implies that the State of Hawaii is a racist state and that the state government needs to affirm that our collective racism is a public health crisis. I reject that notion on its face. The people of Hawaii are not racist and resist that thought process at every level. Hence, there is no systemic racism either. Who are the racists that the authors of the resolution assert are the preponderance of our population? Balderdash, if anything, our State of Hawaii has taught the world that all ethnicities can live in harmony. We are the gold standard on how to live together with *aloha*. We, the people of Hawaii, are not racists. This measure is insulting. I suggest that the problems with health care outcomes are based on socio-economic disadvantage along with language and other cultural traditions. To think otherwise is to assume that our medical system is controlled by racists, who are they? Where are they?"

Representative Tam rose to speak in support of the measure, stating:

"Strong support with written comments into the Journal."

Representative Tam's written remarks are as follows:

"Mr. Speaker, I rise in strong support of this resolution as it would declare racism a public health crisis. We in Hawaii may not experience the strong role of racism on the continent, but we are not free from racism ourselves as racism is deeply embedded into our community.

"The case for racism to be declared a public health crisis in Hawaii can be seen in our homeless crisis. In 2016, data from the Department of Housing and Urban Development cited that Native Hawaiians and other Pacific Islanders make up 42% of the homeless population in Hawaii even though they only account for 10% of the state's population. This is not because they 'refuse to work,' as some suggested, but because they face systemic barriers others may not face simply because of the color of their skin.

"I believe that the current lack of housing is undeniably a public health issue and we must treat it as such. Our housing crisis has only been exacerbated due to stay-at-home orders and other COVID-19 related restrictions. According to the Centers for Disease Control and Prevention, the homeless population is at higher risk of contracting COVID-19.

"These systemic barriers put Native Hawaiians' and other Pacific Islanders' health at risk and, therefore, make racism a public health crisis.

"For these reasons, Mr. Speaker, I rise in support of the resolution before us."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. Mr. Speaker, this is something I would have assumed DBEDT would've done many, many years ago, which they haven't, as we tend to not think of diversifying the economy seriously. "I think large corporations are accountable to their shareholders, they're not accountable to the community, and they're not accountable to their employees. So, I urge this body to reconsider our approach to post pandemic economic recovery, and center local business and our local workers that keep wealth here in the islands rather trying to entice large corporations to Hawaii."

"I stand in strong support of Stand. Com. Rep. No. 1328, HR 130, and Stand. Com. Rep. No. 1329, HCR 154. I would like to share an update to the number provided regarding the 'Stop AAPI Hate' reporting center's tracking on hate incidents targeting Asian Americans. The number of incidents has increased to 3,800 from the 2,800 reported in HR 130 and HCR 154. These updated numbers are from March 19, 2020 to February 28, 2021.

"The 3,800 hate incidents reflect only those that were reported and is only a fraction of hateful acts that actually occur. It is clear since the start of the COVID-19 pandemic that the number of hate incidents towards the Asian American community are increasing.

"As leaders, we must condemn the acts of violence and hateful rhetoric in our communities. The health and safety of all Americans, no matter their background, must be of the utmost priority."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, strong support. This is a bill that says we need a strategic plan from DHHL. And they said, well look we already have one. But I'm really pleased that over the objections of the DHHL and a very few others, this has passed.

"In the committee I asked, well if you have a strategic plan, when will you empty the waitlist, that's the 28,000 that have been waiting for years? And believe it or not, they said that will be in 182 years. Mr. Speaker, I couldn't believe what I had heard because I'm sure there's been some couching, if you will, of how bad things are.

"So, if their strategic plan says they're going to have to wait 182 years, clearly this bill is in need of passage and for us to follow up and make sure there's a strategic plan, not just a kind of lets go through that lasts 100 years and get only 10,000 people on the waitlist served. It's rather a disgrace.

"In some of the things that we've passed earlier were about economic racism and social and health racism in the bill that we just went through, well this is kind of a geographical racism. The Hawaiians have not been able to be put on the land. It's almost, as I've said earlier in a different speech this week, it's a moral imperative. We have the moral responsibility to put the Hawaiians on the land, and the strategic plan that says it takes 182 years, that is immoral, not a moral imperative.

"For those reasons, Mr. Speaker, this is a very good bill, and thank you for chair and the members of the committee for not listening to the Hawaiian DHHL people. Thank you."

Representative Holt rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations. We continue to not listen to the department when they tell us that they're doing these plans. Unfortunately, plans cannot create homes, and that requires funding, \$4 billion to be exact. Thank you."

Representative Wildberger rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative DeCoite rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations, brief comment. Again, here we have trust in an agency that has failed most of us as Native Hawaiians. When you talk about how they organize themselves, we've also requested the digitization of it. Hawaiian Homes have claimed they've digitized their waitlist. They have not digitized their waitlist. They're behind on collections also because they cannot even do online payments. Those are just a few of my reservations. Permission to insert comments to the Journal. Thank you."

Representative DeCoite's written remarks are as follows:

"I am voting with reservations on this bill because I am unsure that DHHL needs a high-level strategic plan to guide their actions now and in the future. They already have a clear mission to address the 28,000 beneficiaries on the waiting list for a residential homestead lot. They need to shorten the wait and find ways to get more Native Hawaiians on to their lands and into homes. *Mahalo*."

Representative Wildberger rose to speak in opposition to the measure, stating:

"No vote please, Mr. Speaker. I was surprised to see this happen in PDP Committee where very quickly and sort of quietly entire language from another bill was inserted into this bill, and I feel like that sort of maneuver is what erodes our trust in government by the public.

"I'd like to highlight a completely offensive piece in that language on page 14, line 16 and 17. It says, 'furthermore, many neighbor island counties receive more than a per capita share of state financial resources.'

"We can't evaluate how we're expending resources based on per capita. We have large land masses on neighbor islands that need to be cared for that are state lands that cost money. I would argue that many neighbor island districts, disproportionate to population, act as cash cows for the state. I have asked for tax revenue by district from DOTAX but they're unable to give me that information.

"So, continuing to stand in opposition based on the idea of removing autonomy for neighbor island leaders and any leader in any locale for being able to react and pivot and do what they need to do for their community. I'd like to let everyone know, in case you haven't been keeping up with the COVID numbers, that Maui's positivity rate is now 3.2% today. Thank you, Mr. Speaker."

Representative Perruso rose to speak in support of the measure with reservations, stating:

"I voted with reservations on House Bill 1286 so I find that I should also vote with reservations on this bill. So, I think that my colleague's comments suggested that the contents of House Bill 1286 were moved into this bill. *Mahalo.*"

Representative DeCoite's written remarks are as follows:

"I am voting with reservations on this bill because I do not believe Hawaii needs a one-size-fits-all approach to rebuilding our economy. Each county follows the state's guidelines and requests the governor's approval before making any deviations from his proclamations. Although there may be some confusion and the rules may be cumbersome or inconvenient, our top priority is keeping our people safe. As we move forward with vaccinating our residents, we need to exercise caution as we reopen our economy. *Mahalo.*"

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, in support. This is an emergency appropriation related to COVID and, Mr. Speaker, as I've said many times on the floor, I would hope sometime, and hopefully in the Finance Committee there will be an earmark for starting the first pharmaceutical industry in the State of Hawaii, which we have down the street. Again, it's Patrick Sullivan and it's ASSURE-19, it's 10 minutes, spit in a cup. It's still pending FDA approval, but you can also make things contingent upon FDA approval. So that, with the Oceanit, I would hope that eventually in the Finance Committee and thereafter, that the consideration of starting a pharmaceutical industry, which is a very clean industry and pays very high jobs, he's got like 100 PhDs on his payroll right now and many of those are from UH. So, Mr. Speaker, this is a good bill, I just hope it gets more specific as it goes along. Thank you."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 795, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO STATE SMALL BOAT HARBOR FEES," passed Second Reading and was referred to the Committee on Finance, with Representatives DeCoite, McKelvey, Okimoto, Tam, Ward, and Wildberger voting aye with reservations, with Representative McDermott voting no, and with Representative Quinlan being excused.

Representatives Tarnas and Lowen, for the Committee on Water & Land and the Committee on Energy & Environmental Protection, presented a report (Stand. Com. Rep. No. 1364) recommending that S.B. No. 1162, SD 2 pass Second Reading and be referred to the Committee on Finance.

On motion by Representative Belatti, seconded by Representative Morikawa and carried, the report of the Committees was adopted and S.B. No. 1162, SD 2, entitled: "A BILL FOR AN ACT RELATING TO FOREST STEWARDSHIP," passed Second Reading and was referred to the Committee on Finance, with Representative Quinlan being excused.

SUSPENSION OF RULES

At 12:34 p.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:35 p.m.

On motion by Representative Morikawa, seconded by Representative Matsumoto and carried, the rules were suspended for the purpose of considering a certain House Bill for Third Reading by consent calendar. (Representative Quinlan was excused.)

THIRD READING

H.B. No. 200, HD 1:

Representative Belatti moved that H.B. No. 200, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Luke rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise to speak in favor of House Bill 200, HD 1. In strong support, this is Relating to the State Budget. In the beginning of session, we were faced with a \$1.6 billion to \$1.8 billion budget deficit. And in order to struggle with that, the Governor was contemplating different furloughs and cuts of real essential social services.

"I think many of the members on this floor had one or different programs where they felt very queasy and nervous and really sad about. And this budget is really the work of every member of this House. Because after we received the Governor's budget, we received so many comments. Not just from the community, but many of you folks who showed major concerns about one cut or another.

"So, we just wanted to take this time to thank all the House members for your patience and for your due diligence, working with the community, and coming out with this budget today. Thankfully, with the \$1.6 billion assistance from the Federal Government and the Council on Revenues new projection, we are able to proudly present the House with this balanced budget.

"I wanted to thank the House leadership and Senate leadership for allowing the Finance members and Finance Committee to delay passage of this budget. If we were to do it two weeks ago, we would not be seeing the same budget, and the budget would have resulted in massive cuts. And the delay of two weeks and providing the generous two-week extension for us to work on this budget gave us an opportunity to really reflect the wishes and the desire of this House.

"Let me start by thanking the committee members. Every single one of the committee members work long hours, weekends, and many times a hearing that ran a little bit too late for, I think, some members' desire. And without their comments and their suggestions, we would not be making some of the restoration and changes today. So, my deepest appreciation goes out to many, many members on the Finance Committee.

"Special thanks go out to Vice Chair, who without his assistance, we would not be able to put together this budget. And also, the CIP sub-

committee chair, the Representative from Upcountry, who I continue to be more than impressed with how he is able to take care of the needs of the executive and the judiciary, and many of the members' needs just with the limited amount of resources. So, my heartfelt gratitude goes out to the CIP sub-chair.

"And of course, the GIA sub-chair, who didn't have any GIA this year, but he's eagerly waiting for one day to again be able to do the GIA. But I wanted to at least encourage him because he's like the eager beaver who is waiting and going, okay, is it me? Is it me yet? No, it's not you yet, and it probably won't be you next year. But the fact that he is so eager to get into the work, I wanted to at least show my appreciation.

"In this budget, we are able to fully restore many of these programs. Number one, the one that we heard so many comments and concerns was the Sex Abuse Treatment Center. The \$714,000 cut to sex assault services would have required services to be closed on weekends and nights. And I think you heard me say many times that it would be irresponsible for us to continue those cuts when we would be telling sex assault victims to come back on Monday at 8:00 for them to get services. And we specifically wanted to thank the Women's Caucus and many of the Women's Caucus legislation, and specifically the co-chairs of the Women's Caucus, we wanted to just thank you folks for bringing this out. Oh goodness, is it five minutes already?"

Representative Tarnas rose to yield his time, and the Chair "so ordered."

Representative Luke continued, stating:

"Thank you, Water & Land Chair. The next one is HIV services. HIV services actually resulted in a 64% cut, which is more than a lot of programs. This would have resulted in one of the Kona offices to be closed. HIV services and wraparound services made a lot of inroads into especially the transgender community, and they built in a lot of goodwill over the years. And to have a 64% cut would negate all the work that they have put in.

"So, I wanted to specifically thank the two Kona Representatives, especially the EEP Chair, who spearheaded letter writing and also for bringing this issue to light. So, thank you specifically to the Kona Representatives. And also, to the Waikiki Representative, who has been a strong supporter of this program.

"I also wanted to thank Heather Lusk of the Harm Reduction program because she has been working with the community to make sure that they don't get overly excited about some of these cuts, and she knew that working with the legislators will result in the restoration that we see today.

"The next is Office of Language Access. Office of Language Access received about \$300,000 in cuts. This will impact immigrant interpretive services. And as we talk about many of the programs, if you don't even understand what these vaccine programs or safety programs are, then it doesn't even make sense that we provide any programs at all. So, in order to ensure that we have continuous interpretive programs for our immigrant population, we will be restoring Office of Language Access. And special thanks go out to Amy Agbayani, the Vice Chair, and Transportation Chair for being the champions of this restoration.

"Family planning was also cut. We will be restoring family planning. Also, classroom and SPED funding. We are fully restoring classroom EDN 100 and EDN 150. We wanted to thank the Chair of Education for continuing his battle to make sure that classroom and SPED funding continues to be at the same level that we have been getting.

"The next one is Bishop Museum. Bishop Museum unfortunately has suffered revenue loss because people are unable to go and see Bishop Museum. But because of that, one of the state museums, Bishop Museum is a state museum, they have suffered substantial budget cuts. We will be restoring that. And thanks to efforts of the Culture, Arts, & International Affairs Chair, we are happy that the restoration has occurred in this.

"Hilo Youth Challenge, we have two youth challenge programs, one in Kalaeloa and then one in Hilo. Hilo Youth Challenge has been completely eliminated from the Executive budget. And thanks to the strong support of the new Puna Representative under the mentorship of the Hilo Representative, we are very grateful that we have an opportunity to fully restore the Hilo Youth Challenge program in the amount of \$600,000.

"Next is tuberculosis prevention. It was shocking that tuberculosis prevention would be cut from this budget. If tuberculosis services would be cut, it would result in three times as much tuberculosis cases. And because of our immigrant population and tuberculosis continues to be an issue in some communities, we will be fully restoring tuberculosis prevention. And we wanted to thank Dr. Bruno, specifically, of Queen's Medical Center, who worked with Department of Health to assist in this program."

Representative Johanson rose to yield his time, and the Chair "so ordered."

Representative Luke continued, stating:

"Thank you very much, CPC Chair. Hep C budget has been cut in public safety, which meant that, there are 81 inmates who are currently infected with Hep C but the budget cuts would only allow 8 people out of the 81 to be treated. So, the budget fully restores Hep C funding."

"Kupuna Caucus, including the current chair who is too young to be a Kupuna Caucus chair, I don't know how that happens, and his mentor, the real *kupuna* from Pearl City, thanks to their efforts we are restoring Kupuna Care funding in this budget."

"And lastly, family planning has also been cut. I think I may have said that already, but it's important, so it's important that I talk about it twice."

"Some of the other items that will be partially restored include Civil Rights Commission, the Land Use Commission, and DOCARE. With DOCARE funding, it provides 30 new officers, including \$771,000 to provide additional equipment and officer training. And I know both the Kailua Representative and Enchanted Lake Representative, this was something that was important to both of you folks. So, thank you for being champions of DLNR and the efforts of DOCARE."

"Other things that are included in this budget, you may have read recently, general assistance went from \$360 a month to \$250 a month, which is crazy. Out of anything, this is the one that we should be most furious about. And thankfully, through this budget, we will be maintaining the current level of funding. And thank you to the Health Chair for his continuous work with Department of Human Services so that they be responsive to this community."

"The Promise program has been cut, but because of the lack of private funding. The Promise program is a gap funding. So, the Promise program comes in in the last segment of funding to allow for people to attend community colleges. At a time where there was lacking private funding and grants, Promise program was cut. So, because of that, we are not just restoring Promise program funding, but we are actually increasing by \$600,000. And again, thank you to the Education Chair for bringing this up."

"The one that the Education Chair really deserves thanks is the restoration of Early College. This budget will add another \$1.5 million, bringing Early College to \$2.6 million. And between Promise program and Early College, lack of funds should not be a barrier to education, and these two programs will provide the needed pathway for some of our young kids."

"Homeless services will also be included, but in addition to what the executive provided, this budget also includes storage and transportation expenses. As you know, when the counties sweep certain areas, we have to have transportation services to allow these homeless individuals to get transportation services to a clinic or wraparound services. So, that's very important."

"In addition to that, one of the really crown jewels of the Kaneohe Bay is the sea urchin program, and you can see the nodding of my good friend, Representative from District 50. One of the crown jewels is, because of the sea urchin program, they were able to assist in the coral growth, and because of that, we are adding \$1 million in this budget for a sea urchin hatchery to assist in the sea urchin program."

Representative Branco rose to yield his time, and the Chair "so ordered."

Representative Luke continued, stating:

"Thank you very much, Representative. In addition to that, Rapid 'Ōhi'a Death has been a legislative priority. And whether it was on the Big Island or now it's going to all islands, especially Kauai. Thanks to the initial

implementation of this program through the efforts of the Labor & Tourism Chair and many of the Big Island members, we want to continue the funding of Rapid 'Ōhi'a Death so we continue to fight against this disease."

"The Kaimuki Representative, who is a strong supporter of the Waikiki Aquarium, has also brought up the fact that, similar to Bishop Museum, Waikiki Aquarium has also suffered budget shortfalls. They also have issues with some penalties from the Federal Government for releasing fish waste, and because of that, a lot of their operational costs has gone to correct that issue. So, because of that, they are facing a significant amount of budget problem. So, this budget also provides \$1 million for the Waikiki Aquarium."

"One of the important things in this budget is the \$740 million for UI loan payment. This is the amount that the State borrowed to pay for individuals who continue to be unemployed. And this amount will become due in November of 2022. So, thanks to the funding that we received from the Federal Government, we are able to fully pay back the November 2022 amount without penalty to either the State or the employers."

"And lastly, with working with the Labor & Tourism Chair, this budget includes \$105 million to assist the Unemployment Office. What this would entail is 300 more people to be hired at the Convention Center to process unemployment claims and the adjudication, and they will begin the process of a ticketing system to allow the Unemployment Office to do a one-on-one visitation or consultation with a claimant. This is a huge jump in order to allow our unemployed population, unemployed residents, to get their claims processed and ensure that they will get timely payment. So, thank you to the Labor & Tourism Chair for his hard work on this."

"This budget also includes many restructuring, you may have heard in the bills that we discussed, and one of the House initiatives is the restructuring of the Office of Planning. So, the new Office of Planning will be called Office of Planning and Sustainable Development. And it will include not just the Office of Planning, but also Land Survey, OEQC, Land Use Commission, I think that's it for now."

Representative Marten rose to yield her time, and the Chair "so ordered."

Representative Luke continued, stating:

"Thank you. So, thank you to the Water & Land Chair and the EEP Chair, because this was a huge task. And to get to a point where all the agencies agreed and were happily willing to work on the consolidation was so impressive by the fact that many times when we tried to consolidate and restructure, every agency fights. But this shows the genuineness of the chairs and showing the departments that they are trying to assist the departments to move them to an area where they will be more responsive to the communities' needs and more responsive to residents. So, my heartfelt gratitude goes out to the two chairs."

"The one that we continue to reorganize is aerospace. And thanks goes out to the ECD Chair and also the Waikiki Representative, and also the Representative from District 51, who helped in the restructure of aerospace so that PISCES can rightfully move to UH Hilo where they will be very productive and work towards aerospace from UH Hilo. So, thank you very much."

"This budget doesn't just have additions, this has significant cuts as well. But it continues to cut in our House draft all the positions that continue to be vacant. Once we cut those positions, we will meet with the departments to figure out the important positions from the ones that they are willing to give up. So, we just wanted to thank the departments for their continued cooperation in working with the Finance staff."

"Thanks to the Corrections, Military, & Veterans Chair and Vice Chair who continue to be the champions of keeping our inmates local, this budget cuts \$50 million from out-of-state prisons. Currently, they have a \$48 million budget. Forty-eight million dollars includes paying for about 1,800 inmates, but right now we have about 1,000 inmates. So, in order to encourage Public Safety to house inmates in-state and provide services in-state, this budget cuts that budget by \$15 million."

"Last year, some of the counties were willing to share the cost of EMS and hospitals, mainly Maui Health, understanding that the state's finances were so much more dire than the counties. This budget starts that discussion

by having cost sharing with the counties for things like EMS and the hospitals.

"Thank you again, Mr. Speaker and members, for allowing the Finance Committee to submit this budget today. And I am relieved that we are able to pass this budget, as opposed to the budget that was submitted by the administration. I know the administration had a difficult task in trying to get us a balanced budget in January. But in working with them we are grateful and thankful to be presenting a balanced budget today. Thank you."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, in support. That was very encouraging and optimistic, because when we first came in on the 20th of January, we had four really big hurdles. One was balancing the budget, which with this news, this is great news. Getting rid of the pandemic, well we're still working on that, we're still vaccinating. Reaching out to small business, Love's Bakery and the others, we're still struggling with that one. And I think opening our economy is the big elephant still in the room as we get near to *sine die*.

"But I want to commend the Finance Chair for particularly shooting across the bow all the special funds which for 10 or 20 years we've never been able to do it, the scooping and the probably putting in the fear of God, if you will, in the departments. You just can't play with special funds without legislative authority or, let's say, oversight. So, I commend her for that and the boldness of otherwise putting, not only the vacant positions in their perspective, but making sure that we've balanced the budget.

"Having said that, Mr. Speaker, I'm generally an idealist and an optimist, but the real test of the pudding is in the tasting which is going to be next year and the year after. If we don't get the economy open, get their businesses going, we will have had a great celebration of today's budget, which I share and I commend the Chair for that, but genuinely we've got to reach out to our business community, get the jobs back, we have still the highest unemployment in the nation, and we've got to get our economy open again and moving so next year we can hear, hopefully in the 2022 session when we give the budget report, we say we have been able to stay the course, we've balanced the budget, and we've done well. For those reasons, Mr. Speaker, I commend the Chair as well as this budget balancing and taking a big worry out of all of our heads. Thank you."

Representative Wildberger rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I wanted to acknowledge the team of 20-something young people that work in the Committee on Finance under Chair Luke, who on a Saturday presented an over 1,600-page document to the Finance Committee to go over all of these budget issues, six of them were young women, and the work, the deep dive, the granular detail that they went to was really commendable work and I would love to see their names inserted into Journal with the Chair's permission. Thank you."

Representative Luke rose to respond, stating:

"Mr. Speaker, I just wanted to thank the Representative from Kihei because I completely forgot to mention my staff, which I normally do. And they gave me a list of their names, so I wouldn't be able to go back to my office if I didn't read this.

"So, my great appreciation to Nan. Of course, everybody knows because I joked about him before, it's Nandana Kalupahana. Without him, I wouldn't look even remotely as smart as you think I am. Because you know, without all of these folks, they do terrific work.

"For the budget staff, of course, we have Albert Vargas, Riley Fujisaki, who is the CIP specialist, Aldric Ulep, Jon Kawamura, Jacqueline Bersson, Kristen Sibley, Rebekah Kim, and Naleipuaena Akau. Terrific budget staff.

"For the research staff, Randall Hiyoto, Stacey Tagala, Joy Nakashima, Ivana Tran, and Thuy Nguyen. For my main office we have Rachele Lamosao, Sheri Omalza, Devan Kahale Ibuos, and Geraldine Ilan. And I request that their names be inserted into the Journal. Thank you very much."

Representative Cullen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I stand in strong support. Mr. Speaker, I wanted to express my big *mahalo* for our Chair of Finance because she's a great steerswoman as we move through this very difficult time. I wanted to express my *mahalo* to the rest of the committee for their great work, and especially to the Finance budget staff, because taking some time to work with them on some of these areas where we are making it more transparent, where we are making an effort to be more fiscally responsible, they actually took that time through their busy schedules to actually go through it line by line with myself, so I wanted to express my big *mahalo* to the Finance budget staff.

"But I wanted to highlight one area where I want to send the biggest *mahalo* in restoring Office of Language Access because as a state to recognize only two official languages, English and 'Ōlelo Hawaii, OLA homes about 130 languages. Since language is our lifeline, this is very important to our communities, the budget work that we did through the committed efforts of protecting OLA so that they can continue their efforts to ensure that persons who do not speak, read, write, or understand English are able to access programs and services, especially during these times as we work through this pandemic. With that, Mr. Speaker, *mahalo*."

The motion was put to vote by the Chair and carried, and H.B. No. 200, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE BUDGET," passed Third Reading by a vote of 50 ayes, with Representative Quinlan being excused.

At 1:04 p.m., the Chair noted that the following bill passed Third Reading:

H.B. No. 200, HD 1

And just as our Finance Chair shared her appreciation for the staff that she's been able to work with, we are very grateful for Kao. So, if you see him, give him a happy birthday high five or elbow/fist bump. And thank you. Happy Birthday Kao."

At this time, the Chair stated:

"The Chair would like to remind committee chairs that today is the second lateral filing deadline. For bills that need to move to their final committees, please file your committee reports and drafts with the Clerk's Office by 9:00 p.m. this evening."

Representative Ward rose to speak in opposition to the measure, stating:

"No vote, brief comment, Mr. Speaker. Mr. Speaker, this is, it's not 'get out of jail free' but basically it says, if you're poor and you're mentally ill, you shouldn't have to pay. Well the problem is, Mr. Speaker, we're putting the mentally ill, the homeless, into the prisons instead of those who are in effect the real felons.

"The difficulty is, even if you are mentally defective or poor, you still have no skin in the game if there's no reason for going there. And what some creative states have done is to have them sign an affidavit that says, if you don't show up, you're gonna owe this money. So, there's a better way around

it rather than this no bail. I think if it isn't broke, it shouldn't have to be changed. And right now, it's giving the message that, hey guys, you, particularly those who are in the revolving door, you get in, you get out, you get in, you get out, revolving door. This is a message that says, hey we're going to be really soft on crime, and this opens that flood gate. Thank you, Mr. Speaker."

Representative Ganaden rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. And in response, the pretrial criminal defense system is broken, as articulated by the Native Hawaiian Justice Task Force Report, created by this Legislature in 2012. It is broken for those who don't have resources in our community. It is broken according to an ACLU report last year that notes that approximately half of the individuals at the Oahu Community Correctional Center are there simply because they can't afford to get out.

"This bill represents a prudent process-oriented approach to pretrial reform, it reduces Hawaii's overreliance on cash bail, and ensures that bail and detention determinations are instead tailored to individual risks of flight and danger to the community. Mr. Speaker, the era of Dog the Bounty Hunter is over, and we need to support criminal justice reform so that we can eventually bring people back home from the mainland and Arizona. Thank you."

Representative LoPresti rose to speak in support of the measure, stating:

"Strong support. I would just like the comments from the Representative from Joint Base Pearl Harbor-Hickam entered into the record as if they were my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative Ward rose to respond, stating:

"Second time. Mr. Speaker, there's a missing piece of information here. Judges have the discretion to waive the bail of which in the vast majority of the cases, empirically speaking, they do that. So, say the fact that we're saying we're putting the poor in is not exactly accurate, and there already is a remedy for that and it is being used. Therefore, this one and for those who have maybe untoward motives, they are the ones that are going to take advantage of this, and that's unfair. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. "In strong opposition with a brief comment. So, I really appreciate the efforts of the Vice Chair of Judiciary on this measure, however we did do a successful pilot in 2019 on the issue of ag theft, and none of the recommendations included extended terms for crimes committed on ag lands.

"I think that this also speaks to possible offloading of the counties' problems onto us, because this is properly under the counties' jurisdiction, and if we extend prison terms, that really becomes a fiscal responsibility for us. So, I would like us to consider maybe rebalancing that relationship on this issue. Thank you."

Representative Kapela rose in opposition to the measure and asked that the remarks of Representative Perruso be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Ganaden rose to speak in opposition to the measure, stating:

"No vote, brief comments. Mr. Speaker, again, my thanks to the Judiciary for passing this through, however, an extended term of imprisonment for offenses committed on agricultural lands will have numerous unintended consequences. Noting the testimony of the Office of the Public Defender here on Oahu, it notes that a Native Hawaiian expressing cultural rights may trespass mistakenly onto agricultural land and thereby will be subject not only to a mandatory minimum jail term but also an extended jail term. Trespassing tourists could also face the same thing. Also concerned about the fact that many gentleman's estates throughout rural Hawaii are still considered agricultural land. This would be essentially creating a private police force in several of these communities. Thank you so much."

Representative D. Kobayashi rose to speak in opposition to the measure, stating:

"Same request."

"Mr. Speaker, no vote and a brief, brief comment. Mr. Speaker, this is a Hawaiian land grab. It's subtle, it's very shifty, and it's something that I think is inexcusable until all the Hawaiians are put back on the land, of which I said we have a moral obligation to return the land and put the Hawaiians back on the land. And this one pushes us farther away from that, with a good excuse for saying we're going to build affordable housing. And I know a lot of Hawaiians do get affordable housing, but this is about land, it's not about rental housing. Thank you, Mr. Speaker."

"I am voting in opposition to this bill because my concern and priority is making sure that ceded lands are used to benefit Native Hawaiians as intended. Under this bill, ceded lands could be leased or disposed of by using HHFDC's broad leasing authority by granting long term, including 99-year leases, or by disposing of these lands at below market value. This bill goes too far and will undermine the state's commitment to Native Hawaiians. *Mahalo.*"

So, I have spoken about this before and I rise again because in the interim I've had an opportunity to speak to both DLNR and DAR and they didn't have enough information on the impact that the previous introduction of bass had, not just on Lake Wilson but also on the waters downstream.

"So, I reached out to uncles in the community who fish and got information from them and indeed there are bass downstream. And so, the problem with these largemouth bass is that they are apex predators, so they wipeout the native species. And in the pandemic, this was especially problematic, because people in my community wanted to fish, but if you fish in Lake Wilson you have to catch and release any bass or any of these sport fish fishes. And so, because they have wiped out all the other fishes, there's no point fishing in Lake Wilson. And I just don't want that to become the case for all the waters downstream from my community. *Mahalo*."

ANNOUNCEMENTS

Representative Ward: "Mr. Speaker, I have an announcement and it's because tomorrow we have a holiday. It's a state holiday in honor of Prince Kuhio. I think to celebrate it properly we need a little bit more background and I'm going to name a couple of things and a few of his accomplishments, if I may, Mr. Speaker.

"He was born in 1871 on March 26th, tomorrow's March 26th, that was 150 years ago, and he was born on Kauai. Some of our good colleagues who are from Kauai, kudos to them. And he was basically the father of the Hawaiian Republican Party, so it's dear to a few of us in the minority here.

"He was the first elected member of Congress of royal decent, to this day he still is the same, and the first Republican actually who was elected to the US Congress. His tenure lasted for 19 full years until his death. He actually died in office in 1922.

"During his tenure, here is some of the accomplishments that he did. He was the first to introduce statehood for Hawaii, that was in 1919. And most importantly and most remembered for is his founding of the Hawaiian Homes Commission, his introduction of that Hawaiian Homes Commission Act in 1920 which, as you know, granted 203,000 acres to the Hawaiian community, of which we're still, 100 years later, trying to fix.

"But, Mr. Speaker, I should put a footnote here that he wanted no blood quantum. The 50% requirement of blood quantum actually was a political compromise, but he never wanted to have it to where you had to have a certain lineage, if you will. If you were Hawaiian, you were Hawaiian, and from that you should be back on the land.

"Some other accomplishments and primarily CIP accomplishments, Pearl Harbor, got the appropriation and the dredging and the construction of that, Makapuu Lighthouse, the Territorial Building, the Hilo Wharf, Hawaii's Volcano National Park, the hospital at Kalaupapa, and a number of things that now in the governance model, the county system and the home rule that many of us hold very, very dear in this body.

"Lastly, he restored the Royal Order of Kamehameha and established the first Hawaiian Civic Club. For those reasons, Mr. Speaker, Prince Kuhio was a great Hawaiian and a great American and is why we celebrate tomorrow as a state holiday. Thank you, Mr. Speaker, and happy three-day weekend to members. Thank you."

ANNOUNCEMENTS

Representative McDermott: "Thank you, Mr. Speaker. Very briefly, today is Vietnam Veterans Day. And thanks to your leadership and the leadership of the Majority Leader, over the past decade we've recognized those gentlemen and women on this floor. But we can't do that because of the pandemic.

"So today, we're going to at 1:00 p.m. have a ceremony at the Capitol Vietnam/Korean War Memorial out here on the lawn. We're fully permitted, Mr. Speaker, we have a permit, only 10 people can gather, however, I would invite members, if they socially distance, to come up afterwards or during and get photos with these Vietnam veterans. We're recognizing three gentlemen today, Joseph Magaldi, Jr., Carl Meier, and Robert Kent. And it would be a nice photo opportunity and they would appreciate it.

"Lastly, Mr. Speaker, we have one Vietnam veteran among us, I believe, and that's the Representative from Hawaii Kai, if he would stand to be recognized, I would be grateful. Please give him a hand. If I've missed anybody, is there any other Vietnam veterans? Thank you, Mr. Speaker."

"Mr. Speaker, in strong support. Mr. Speaker, HSCR 1516, HR 57 designates September as Suicide Prevention and Action Month. Mr. Speaker, I've not lived very long on this planet, but I've already lost three friends in this manner. And to speak of suicide often is to acknowledge the shadow, as it is the thing not to be named.

"There is an increasing body of knowledge that suggests that what we have intuited, that taking one own's life has more to do with debt, the loss of a job, a home, or a relationship than it does with persistent mental health issues, and by that logic, everything that we do here in this building that increases the social safety net, that gives young people hope, will lead to a reduction in preventable loss of life.

"The Department of Health has done an excellent job of tracking these numbers throughout the pandemic. We gratefully did not see an uptick as was predicted in statistics, but it must be noted, as noted in the testimony, that in Hawaii, one person died by suicide every two days.

"Mr. Speaker, this measure is only important in so much as we talk about it, as we destigmatize reaching out to discuss mental health. In the realm of criminal justice and particularly family violence, we know that tools that support mental health are a key factor to reducing both criminality and suicidal ideation, and especially for men of color, we must destigmatize reaching out.

"Many thanks to the introducers, to the organizations across Hawaii like the Keala Foundation, to healthcare centers, and the hundreds of individuals across the state doing this important work. Thank you."

"I believe that this measure is well intended but is totally misguided. It implies that the State of Hawaii is a racist state and that the state government needs to affirm that our collective racism is a public health crisis. I reject that notion on its face. The people of Hawaii are not racist and resist that thought process at every level. Hence, there is no systemic racism either. Who are the racists that the authors of the resolution assert are the preponderance of our population? Balderdash, if anything our State of Hawaii has taught the world that all ethnicities can live in harmony. We are the gold standard on how to live together with *aloha*. We, the people of Hawaii, are not racists. This measure is insulting. I suggest that the problems with health care outcomes are based on socio-economic disadvantage along with language and other cultural traditions. To think otherwise is to assume that our medical system is controlled by racists, who are they? Where are they?"

Representative Okimoto rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Belatti rose to speak in support of the measure, stating:

"Mr. Speaker, in support, brief comments. Mr. Speaker, I want to thank this body for taking up this measure in light of the events that are occurring nationally. As we look at hate crimes that have increased throughout the country, as we look here locally and see the types of discrimination and racism that has played out in our very own hallways, in our very own communities, when we look at the disparate impacts of racism on communities such as the Native Hawaiian and Pacific Islander communities that are experiencing rates of COVID at higher rates, that is the structural racism that this measure is striking at.

"One last comment, Mr. Speaker. We have to work on racism in our own home. Growing up as a child with Chinese and Filipino parents, I was always acutely aware of my darker brown skin, but that should not be a limitation for us or for any of our children. We have to work within our own homes to break down racism, and we have to attach that fight to policies and procedures and actions that can be taken through the actions of government. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 111, entitled: "HOUSE CONCURRENT RESOLUTION ASSERTING THAT RACISM IS A PUBLIC HEALTH CRISIS AND URGING THE STATE TO COMMIT TO RECOGNIZING AND ADDRESSING THE RESULTING INEQUITIES," was adopted, with Representative Ward voting aye with reservations, with Representatives McDermott and Okimoto voting no, and with Representatives Gates and Ohno being excused.

Representative Belatti moved that the reports of the Committee be adopted, and that H.R. No. 111, HD 1; and H.C.R. No. 129, HD 1 be adopted, seconded by Representative Morikawa.

Representative Holt rose to speak in opposition to both measures, stating:

"Thank you, Mr. Speaker. In opposition. I'd just like to give some history on why OHA owns these lands in the first place. OHA was created in the 1970 Constitutional Convention with the mandate to better the conditions of both Native Hawaiians and the Hawaiian community in general.

"OHA was to be funded with a *pro rata* share of revenues from the state lands designated as ceded. And in 1979, the Legislature enacted Chapter 10, HRS, implementing changes to the Constitution and making OHA a semi-autonomous, self-governing body. Subsequent legislation has further defined the amount of revenue stream accruing to OHA, which, Mr. Speaker, has always been up for debate.

"And this is where we get to Kakaako Makai. 2012, to make up for previous claims of underpayments to OHA, the state offered these parcels and OHA accepted. And there are doubts as to whether or not this was a fair settlement, as expressed in the committee reports from the Judiciary and Labor and Ways and Means Committee, which expressed 'concerns about the fairness of this proposed settlement,' and recognized that 'property values could be enhanced by certain entitlements that, while not specifically provided for in this measure, could be obtained at a future date.'

"So, here we are, nine years later, and OHA has a plan, and they're asking for an amendment for residential housing on these lands. And we're telling them no. We're telling them, let's conduct a study. Don't worry, you guys can participate, you guys get one seat. And we're going to put a random organization on this study as well, the Kakaako Makai Community Planning Advisory Council. I googled them. They call themselves Kakaako United, with the acronym KŪ, using the *kahakō*. Very interesting. I guess that qualifies them to be on this working group.

"And then we have Friends of Kewalos, whose biggest claim is that it will block access to their surf spot. Their surf spot is not accessed through Kakaako Makai, it's accessed through Kewalo Basin. They're also creating renderings of what the proposed developments would look like. But, when they create these renderings, they use old photos which show no condos, none of the dozens of Howard Hughes condos that are up currently.

"It's just feet away from these properties that OHA wants to develop, right across the street. Right across the street of the multi-million-dollar condos, where no studies were done to tell them what they can do.

"And lastly, it's great to see all the support for all the social justice movements nationally and internationally, but this is just another reminder that Hawaiians are still struggling in their own ancestral lands. Thank you, Mr. Speaker."

Representative Ward rose to speak in opposition to both measures, stating:

"Mr. Speaker, no vote and may I ask that the former speaker's remarks entered in the Journal as my own, and I want to supplement them with a couple of remarks," and the Chair "so ordered." (By reference only.)

Representative Ward continued, stating:

"Mr. Speaker, this was heard very thoroughly in our committee. And one of the things that was promised by OHA was that the evaluation, based upon the exchange of which we basically offloaded \$200 million of debt to them, was based upon 400 feet. And that's really the crux of the issue, 200 feet versus 400 feet.

"Mr. Speaker, it's the worst thing you can do to the Hawaiian community when, in effect, all they want to do is get back in their land. And I'm not

going to go into the diatribe about Department of Hawaiian Homes, 100 years can't even get them on the land.

"So, Mr. Speaker, this is the least of a gesture to the indigenous population. To allow them to use what they agreed to with the State of Hawaii, 400 feet, and that's in writing. So, this is kind of renegeing, if you will, of what was a promise kind of like maybe the Great Māhele.

"But Mr. Speaker, if we're going to do justice, if we're going to talk about racism, let's get even with the Hawaiians, let's give the indigenous people their day. Every group that's come to Hawaii has made it except the ones that were here in the beginning. Let's do what's fair, Mr. Speaker. This is trying to reverse what otherwise is a written agreement, and a contract is a contract. But the moral obligation to put the Hawaiians back on the land, of which this would be one gesture, is something that we should not renege on. For those reasons, Mr. Speaker, emphatically no. Thank you."

Representative Okimoto rose and asked that the Clerk record a no vote for her on both measures, and the Chair "so ordered."

Representative Quinlan rose in opposition to both measures and asked that the remarks of Representative Holt be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Perruso rose and asked that the Clerk record an aye vote with reservations for her on both measures, and the Chair "so ordered."

Representative Kapela rose in opposition to both measures and asked that the remarks of Representative Holt be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Todd rose and asked that the Clerk record a no vote for him on both measures, and the Chair "so ordered."

Representative Wildberger rose and asked that the Clerk record a no vote for her on both measures, and the Chair "so ordered."

Representative Tokioka rose in opposition to both measures and asked that the remarks of Representatives Holt and Ward be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative DeCoite rose in opposition to both measures and asked that the remarks of Representatives Holt and Ward be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Ganaden rose and asked that the Clerk record a no vote for him on both measures, and the Chair "so ordered."

Representative Marten rose and asked that the Clerk record a no vote for her on both measures, and the Chair "so ordered."

Representative LoPresti rose and asked that the Clerk record a no vote for him on both measures, and the Chair "so ordered."

Representative Sayama rose and asked that the Clerk record an aye vote with reservations for him on both measures, and the Chair "so ordered."

Representative Belatti rose to speak in support of both measures, stating:

"Thank you, Mr. Speaker. In strong support. Mr. Speaker, this House does not shy away from difficult issues. This is a difficult issue. And as the Representative from Hawaii Kai has said, yes, I speak about racism and institutional racism. And this measure is a way forward.

"If you look at the text of this resolution, it says to convene a working group to discuss future development plans in Kakaako Makai including, including by identification of public lands of comparable value suitable to the Office of Hawaiian Affairs for a possible land exchange for some or all of its nine parcels in Kakaako Makai.

"Mr. Speaker, we cannot ignore that there was a law in place that handicaps the ability to develop these lands. We cannot ignore that this is a place that many people, including Hawaiians, would like to see remain open as green and open space. As we continue to pave over our Hawaiian lands, our lands. When you go to Ala Moana and you see the local people there every weekend enjoying that place and people of all races enjoying that

place, imagine if we lose another green spot in this important area, where rail will be coming through soon at some point.

"So, Mr. Speaker, this is a difficult decision, this is a difficult discussion to have, and this House is not afraid to have it, and it is opening the door for the people to come forward and to deal with the facts at hand, including a law that was in place at the time that the settlement was made. This is an important point to remember, we cannot bind the hands of future legislatures. So, whatever, perhaps, settlement that we don't know of, that's not the settlement that is on the law and the books of the Hawaii Revised Statutes. So, this is a way forward, a way forward that we can do in a *pono* way. Thank you, Mr. Speaker."

Representative Holt rose to respond, stating:

"Thank you, Mr. Speaker. I'm glad we're here to talk about facts, because losing green space is not one of the facts. The park's not going away. They're already permitted to build 20 stories on all of these properties. The fact that we're trying to make like we're taking away green space is just a lie.

"This is a tough discussion to have and I'm glad we're having it, but we need to, we're here to change laws, we're lawmakers. To say that there's a law on the book and we can't change it. Mr. Speaker, may I also have the words of the Representative of Hawaii Kai inserted into Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Tam rose to speak in support of both measures, stating:

"In support and I would like the words from our Majority Leader inserted into the Journal as if they were my own and a brief comment. I just want to express my disappointment that OHA refuses to come to the table if this resolution were to pass. Thank you," and the Chair "so ordered." (By reference only.)

Representative Ward rose to respond, stating:

"Mr. Speaker, still in opposition. This was a money maker of which it's going to be cut into half, it only makes sense to do such a thing. Mr. Speaker, this is known as a step forward. I mean, for those who see the reality, it's a step backwards."

At 12:28 p.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:29 p.m.

Representative Ward continued, stating:

"You shouldn't show up to a place where you're going to be decimated. The point being, Mr. Speaker, this is a step backwards, this is breaking of a contract that says, look, the valuation of this property is at 400 feet, here's \$200 million of which we owe you, OHA. I mean, that is very, very clear. Instead of binding the hands of a future legislature, we're handcuffing a previous legislature which was a written agreement.

"Mr. Speaker, this is a no-brainer. But if you look at the whole issue of the Hawaiian situation, the Hawaiian community, this is an opportunity for them to get mainstream right by Ward Center and all of the great development in there to do a 400-foot area, which is a money maker, to get more Hawaiian OHA funds, perhaps DHHL. This is something that I'm just surprised.

"Green space, that should have been an issue that they would have debated on the floor here when the issue came up and was voted on. They knew it was gonna be a green space, and as the gentleman from Kalihi said, hey, there's gonna be 20 stories anyways.

"So, I just don't see why there's resistance to do something that is the right thing to do, and I'll repeat again until it's done, we have a moral obligation to put the Hawaiians back on the land no matter how long it takes, and this is one of those steps backwards, which we should be taking forward, which we haven't done. Thank you, Mr. Speaker."

Representative Quinlan rose to respond, stating:

"In opposition, Mr. Speaker. So, we got this great document here in Hawaii, it's our State Constitution. We all swore an oath on it, it has very specific provisions in it for Native Hawaiians. And our answer over the last

however many years since statehood has been, well, are we going to give them their public land trust money? Ah, no. Ok, so what else can we do. Well, are we going to properly fund DHHL? Ah, no no no, we're not going to do that. Are we going to properly manage Mauna Kea? Ah... Ok, well these guys need money, so maybe we can just give them some land and they could build some residential stuff and sell it? No, no no, cannot do that. Oh, I know, how about a casino? We could get them a casino and then we could properly fund DHHL and we could build some houses for these folks that are on the wait list. Absolutely not."

Representative Okimoto rose to respond, stating:

"Still in opposition, Mr. Speaker. May I adopt the words of the Representative from Kalihi, his original comments, into the Journal as if they were my own. Thank you, Mr. Speaker," and the Chair "so ordered." (By reference only.)

Representative Hashimoto rose and asked that the Clerk record an aye vote with reservations for him on both measures, and the Chair "so ordered."

Representative Har rose to speak in opposition to both measures, stating:

"Thank you, Mr. Speaker. In opposition. Before I begin, may I please adopt the words of the Representatives from Kalihi and Hawaii Kai as well as from the North Shore into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Har continued, stating:

"Thank you, Mr. Speaker. Mr. Speaker, the reason I'm in objection to this resolution is that, at the time of the settlement, I was privileged to be the vice chair of the Committee on Water, Land, & Ocean Resources. So, we were the lead committee on the settlement. And, at the time, it was Representative Jerry Chang who was the chair. And this settlement agreement was truly in response to the OHA vs State case that had been ensued in civil litigation for many years.

"And the issue was always how much did we owe the Office of Hawaiian Affairs with respect to the settlement monies for the ceded lands trust? And that number could never be determined.

"And so finally, the State came to an agreement with the Office of Hawaiian Affairs, and it was for specifically Kakaako Makai. And the issue of entitlements did come up. But that said, it was with the understanding, and again, this is coming from someone who was a part of the settlement negotiations. We understood that this land was to be given to OHA, and for the benefit of the Native Hawaiian beneficiaries, because they should be able to have self-determination for their land. We were now giving them their land, which they rightfully own.

"And so now, it would not be well received to actually say, preservation of open space, that's not the issue. The issue is giving self-determination rights to the Office of Hawaiian Affairs to do what is best for their land and for their beneficiaries. So, for those reasons, Mr. Speaker, I stand in opposition. Thank you."

Representative Ilagan rose and asked that the Clerk record a no vote for him on both measures, and the Chair "so ordered."

Representative Takumi rose to speak in opposition to both measures, stating:

"Thank you very much, Mr. Speaker. No vote. You develop working groups when all the stakeholders decide that is the best process by which perhaps we can come up with a consensus. The fact that OHA has already indicated they will not participate in this working group fatally cripples whatever conclusions this group will come up with. Thank you."

Representative Kong rose and asked that the Clerk record a no vote for him on both measures, and the Chair "so ordered."

Representative Tokioka rose in opposition to both measures and asked that the remarks of Representative Har be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative McDermott's written remarks are as follows:

"Mr. Speaker, I rise in opposition to these measures. First, let me say that I respect the author of this legislation. However, it is totally off the mark. Racism is despicable for sure; pure evil in my view. Which is why this legislation is so off the mark. The people of Hawaii are not evil and our population is quite diverse. Yet this resolution calls on the governor to 'declare that racism is a public health crisis.' I am sure the visitor industry is thrilled with this measure, they can brand a new advertising campaign, 'Come to Hawaii where Racism is a Public Health Crisis.' Or as HCR 112 states, we can ask them to visit '...the wound of Hawaii's historically shared trauma founded on racism and discrimination, like the forced relocation of those with leprosy to Kalaupapa.'

"This resolution is totally misguided and slurs our population. It implies that the State of Hawaii is a racist state and that the state government needs to affirm that our collective racism is a public health crisis. The resolution is creating a fantasy which has no basis in fact. I reject that notion on its face. Hawaii is a modern, mostly metropolitan society where all races live together in harmony. The people of Hawaii are not racist and resist that thought process at every level. Governor Ige agrees with me in part, 'we derive our strength from our diversity,' said Ige, very much echoing what former Governor Abercrombie himself used to say, '...our diversity defines us, not divides us. We embrace diversity. There is more that unites us than divides us.'

"To assert that Hawaii is racist or has a systemically racist government casts aspersions on all the good public servants, both past and present. This is now popular drivel being foisted upon society. We have never heard of this concept before. Hence, there is no systemic racism either. Who are the racists that the author of this resolution assert is the preponderance of our population? Balderdash, if anything our State of Hawaii has taught the world that all ethnicities can live in harmony. We are the gold standard on how to live together with *aloha*.

"We, the people of Hawaii, are not racist, in fact, 'Hawaii is one of the most racially diverse places in the world as there is no majority – everyone is in a minority.' In the 2010 Census, 24% of Hawaii residents claimed multi-ethnic backgrounds (two or more races), far more than any other state in the USA. The second highest is Alaska with 7%. Here in the Aloha State, you will find a 'mixed plate' of ethnic groups; 39% of Hawaii's population is Asian, 25% is White, 10% is Native Hawaiian or other Pacific Islanders, 9% is Hispanic, and 2% is African American, American Indian, and Alaska Native.

"I suggest the problems with healthcare outcomes are based on socioeconomic disadvantages along with language and other cultural traditions. For example, I am married to an American Samoan, who is steeped in her cultural tradition. My home, as with many Polynesians and Pacific Islanders, contains multi-generational family members all living under one roof. Moreover, my home currently has 8 immediate family members and it has even been as high as 12, from great-grandmother to great-granddaughter. Could the cultural tradition along with language barriers possibly explain why Pacific Islanders experience a higher rate of COVID-19 transmission? Proper social distancing is simply impossible. To blame the increased rate of COVID-19 transmission on racism is incorrect in my view.

"Other disparities in health outcomes can be easily explained by socioeconomic disadvantage and cultural diet – we do love our spam. Racism is a convenient scapegoat. The virus does not discriminate. Living conditions, cultural tradition, and extended family living are the real culprit.

"Our healthcare professionals are heroes in my estimation. They work hard for everyone, all people. To think otherwise is to assume that our medical system is controlled by racists. Who are they? Where are they? Who are these racist doctors? Where are these racist hospitals and clinics? Who are these racist medical Board of Directors – both in the private and public sector? Which race are they favoring? This measure is insulting. I believe the idea has not been provided the appropriate forethought. I question if the measure's content reflects the Aloha Spirit."

Representative Okimoto rose in opposition to both measures and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Okimoto's written remarks are as follows:

"Mr. Speaker, I rise in opposition to HR 90 and HCR 112. While I do not oppose the author nor the merits of the resolution that racism continues to be a problem for our citizens, I cannot support the narrative that racism is a 'public health crisis.' Currently, we are in a health crisis; it has a name, it has symptoms, and it can be cured and mitigated through medicine and medical care. Mr. Speaker, this body is a melting pot of so many races, ethnicities, and cultures; it is, in fact, a representation of our Hawaii; this body does not introduce, protect or perpetuate racism, to suggest that the very system we swore to uphold is systemically racist is disingenuous to the good faith of all the members that reside in these halls.

"If there is a racist law in the HRS, please show me, and I will wholeheartedly condemn it and support every measure to ensure it is removed with extreme prejudice. Lastly, Mr. Speaker, if we genuinely want to make great strides to end racial disparities within our communities, it is time we call and identify the true health crisis, poverty. Poverty, much like COVID, does not discriminate. It burdens, afflicts and corrodes equally all who are within it. Mr. Speaker, resolutions like this do not heal or uplift; they despair. Resolutions reinforce the divisive narrative that no matter how hard they try, no matter how much they sacrifice, it will never be enough because the system that represents them is holding them down because of the color of their skin. Mr. Speaker, I urge you to look around this room filled with those whose varied ethnic backgrounds most accurately reflect our state and say we do not 'Prioritizing racial equity in decision-making processes' as so stated in this measure. Mr. Speaker, it is for these reasons that I cannot support this resolution. *Mahalo.*"

Representative McDermott rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative McDermott's written remarks are as follows:

"Mr. Speaker, I rise in opposition to these measures. First, let me say that I respect the author of this legislation. However, it is totally off the mark. Racism is despicable for sure; pure evil in my view. Which is why this legislation is so off the mark. The people of Hawaii are not evil and our population is quite diverse. Yet this resolution calls on the governor to 'declare that racism is a public health crisis.' I am sure the visitor industry is thrilled with this measure, they can brand a new advertising campaign, 'Come to Hawaii where Racism is a Public Health Crisis.'

"This resolution is totally misguided and slurs our population. It implies that the State of Hawaii is a racist state and that the state government needs to affirm that our collective racism is a public health crisis. The resolution

is creating a fantasy which has no basis in fact. I reject that notion on its face. Hawaii is a modern, mostly metropolitan society where all races live together in harmony. The people of Hawaii are not racist and resist that thought process at every level. Governor Ige agrees with me in part, 'we derive our strength from our diversity,' said Ige, very much echoing what former Governor Abercrombie himself used to say, '...our diversity defines us, not divides us. We embrace diversity. There is more that unites us than divides us.'

"To assert that Hawaii is racist or has a systemically racist government casts aspersions on all the good public servants, both past and present. This is now popular drivel being foisted upon society. We have never heard of this concept before. Hence, there is no systemic racism either. Who are the racists that the author of this resolution assert is the preponderance of our population? Balderdash, if anything our State of Hawaii has taught the world that all ethnicities can live in harmony. We are the gold standard on how to live together with *aloha*.

"We, the people of Hawaii, are not racist, in fact, 'Hawaii is one of the most racially diverse places in the world as there is no majority – everyone is in a minority.' In the 2010 Census, 24% of Hawaii residents claimed multi-ethnic backgrounds (two or more races), far more than any other state in the USA. The second highest is Alaska with 7%. Here in the Aloha State, you will find a 'mixed plate' of ethnic groups; 39% of Hawaii's population is Asian, 25% is White, 10% is Native Hawaiian or other Pacific Islanders, 9% is Hispanic, and 2% is African American, American Indian, and Alaska Native.

"I suggest the problems with healthcare outcomes are based on socioeconomic disadvantages along with language and other cultural traditions. For example, I am married to an American Samoan, who is steeped in her cultural tradition. My home, as with many Polynesians and Pacific Islanders, contains multi-generational family members all living under one roof. Moreover, my home currently has 8 immediate family members and it has even been as high as 12, from great-grandmother to great-granddaughter. Could the cultural tradition along with language barriers possibly explain why Pacific Islanders experience a higher rate of COVID-19 transmission? Proper social distancing is simply impossible. To blame the increased rate of COVID-19 transmission on racism is incorrect in my view.

"Other disparities in health outcomes can be easily explained by socioeconomic disadvantage and cultural diet – we do love our spam. Racism is a convenient scapegoat. The virus does not discriminate. Living conditions, cultural tradition, and extended family living are the real culprit.

"Our healthcare professionals are heroes in my estimation. They work hard for everyone, all people. To think otherwise is to assume that our medical system is controlled by racists. Who are they? Where are they? Who are these racist doctors? Where are these racist hospitals and clinics? Who are these racist medical Board of Directors – both in the private and public sector? Which race are they favoring? This measure is insulting. I believe the idea has not been provided the appropriate forethought. I question if the measure's content reflects the Aloha Spirit."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations with a brief comment, please. Mr. Speaker, for decades, study after study after study has indicated that socioeconomic status is the highest correlate that we have in social science. It's correlated with your health, your wellbeing, your self-perception, where you live, what you do. And socioeconomic status is based upon two indicators, and that is your education and your job or your income. Generally speaking, your education determines which job you got and what income you got.

"And because of that, we've got a kind of economic determinism that we don't see, which is not reflected in this reso, it makes it a public health crisis, when in effect it's a socioeconomic crisis, which means we must grow our economy to get out what otherwise professor from the University of Hawaii research office professor, I forgot his name, he's one of the professors who is on the Council on Revenues, who said basically this. We've got a third of our people who are making it in Hawaii and two thirds are on the margin or perhaps in jeopardy, the ALICE families, as they call them, those who are in jeopardy. Which means, Mr. Speaker, as long as we are having the

equivalent of a family that has nine kids, three of them are fed well, another three are on rations, and the other three live on government programs or, in effect, food stamps.

"This is to say that if we want to get out of the inequality business of which this points to, we've got to grow the economy, we just can't keep slicing it in smaller and small pieces. If we're going to lift the people of Hawaii out of any of these disparities and inequalities, we must grow the economy. And I think this misses the mark by going not to the socioeconomic level of which social sciences documented very, very well, but to the point of one of the symptoms of it, of which we've got to get rid of. And I agree with all the whereas, but we've got to grow the economy if we're going to be equally treating all the people of the State of Hawaii. For those reasons, Mr. Speaker, I think it's a good reso, but with reservations. Thank you."

Representative Okimoto rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Okimoto's written remarks are as follows:

"I am in opposition to this measure and would like to reference my remarks on Day 40, March 31, 2021, for H.R. No. 90 and H.C.R. No. 112."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.C.R. No. 140, SD 1, entitled: "SENATE CONCURRENT RESOLUTION ASSERTING THAT RACISM IS A PUBLIC HEALTH CRISIS AND URGING THE STATE TO COMMIT TO RECOGNIZING AND ADDRESSING THE RESULTING INEQUITIES, AND STUDY AND REPORT TO THE LEGISLATURE ON ECONOMIC DISPARITIES THAT CONTRIBUTE TO THE DETRIMENTAL PUBLIC HEALTH EFFECTS OF RACISM," was adopted, with Representative Ward voting aye with reservations, and with Representatives McDermott and Okimoto voting no.

"Mr. Speaker, I rise in opposition to HSCR 1700, SB 294. Mr. Speaker, civil asset forfeiture can significantly assist our law enforcement's ability to combat crime by targeting specific property that has been deemed to be capable of furthering criminal activity. Some of these assets include vehicles that have been used in kidnappings, drug trafficking, and sex trafficking. I have serious concerns that restricting asset forfeiture to cases involving felony offenses will significantly increase high-profile criminals' ability to continue terrorizing our communities. Mr. Speaker, this is, to my knowledge, the second measure of this session that not only compromises our law enforcement officers' abilities to do their jobs but would also recklessly endanger their lives and the lives of the people in our communities. Mr. Speaker, as I have mentioned in the past, we should be doing everything we can to assist our law enforcement officers. Instead, measures like this seem to be trying to find ways to hamstring our officers every step of the way in solving crimes, particularly crimes of violence and trafficking."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, a no vote with a few comments. This bill is where, if you are charged with something, you don't have to pay bail. I call it the get out jail free card because it's shown in other jurisdictions that it's questionable or it doesn't work. And some of those can say, well okay, we don't have to take their money, but let's at least get an affidavit from them which says if they don't show up, then they got to pay.

"This bill doesn't do either of those, it just says, hey if you are of a certain guideline, and most of these people are going to be homeless anyway, I can't see why we're doing this and how we're going to help people, because many of these people really need treatment and it is only when they get into places like prison, which are the new mental health treatment centers, that they do actually get attention, get the physical, psychological, and in often cases drug treatment that they need.

"So, for those reasons, Mr. Speaker, I don't think this is good policy. It's been tried in various states, but it doesn't seem to work that well, if at all. Thank you."

Representative Okimoto rose to speak in opposition to the measure, stating:

"In opposition please, Mr. Speaker, brief comment. I do not think this bill helps to protect the people of Hawaii due to the addition of Class C felony offences. While it does say nonviolent in the bill, this category is still at risk for public safety as it includes burglary in the second degree and felony

possession, just to name two. This does not solve the issue of overcrowding of facilities either and I think we can think of a better solution. Thank you, Mr. Speaker."

"I respectfully oppose S.B. No. 413, SD 1. This measure would prohibit defendants originally charged with the offenses of violation of privacy in the first degree and certain sections of violation of privacy in the second degree from qualifying for a deferred acceptance of guilty or *nolo contendere* plea.

"The courts should be allowed to maintain their discretion on a case-by-case basis to grant deferrals in these types of situations. According to the state public defender: 'A criminal conviction follows an individual for the rest of his/her life. It will impact his/her ability to seek and maintain employment and to receive government benefits. A defendant who is youthful, immature, remorseful and is not likely to re-offend should be allowed, in limited circumstances, to be given the opportunity for a second chance – a chance to avoid a criminal conviction. Police officers, soldiers, government and private sector employees may lose their jobs if they receive a criminal conviction.'

"The prohibition of deferrals of guilt could also lead to the increase of jury nullifications which would obscure the truth and would not establish the defendant's history accurately if he or she were to be tried for a repeat offence. Deferrals of guilt allow the courts more room to judge each case on

its own circumstances and determine what verdict will result in the best outcome for maintaining justice and societal welfare.

"For these reasons, I respectfully oppose this bill."

And may I also have permission to insert written comments into the Journal. Thank you, Mr. Speaker."

Representative Okimoto's written remarks are as follows:

"Mr. Speaker, in support with comments on HSCR 1811, SB 811. Mr. Speaker, I wanted to bring the concerns of the Department of Health, which are also concerns of my own, they read as follows:

Potential for disclosure of a case to be identifying, especially in smaller schools or in districts where community transmission is low enough to make a case in a school a rare event. Identification of a case to classmates or others in the school community can lead to stigma and even bullying, which can cause harm to the case and/or family members.

Inciting panic among school community members who have not actually been exposed to the case, causing unnecessary disruption of learning or even school closure.

If a policy of mandated reporting of cases in schools is to be adopted, DOH believes it will be critical for DOE and its school communities to also address potential stigma that may follow from such disclosure, and to contextualize case disclosure with well thought-out guidance about what such disclosure does and does not signify.

"Thank you, Mr. Speaker."

Representative Okimoto rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, in support with reservations and brief comment as well. While I understand the intent and purpose of why the bill seeks out preferential candidates with 10 years of experience at the DOE, at the end of the day, our students, our schools, and faculty deserve candidates that not just meet but exceed the minimum qualifications of the position. Mr. Speaker, the priorities for the selection of the superintendent should be the overall qualification and ability to perform the job at a high level. I believe this measure would limit the candidate pool for the position of superintendent and exacerbate already difficult recruiting efforts. Thank you, Mr. Speaker."

"Mr. Speaker, a no vote in opposition, and may I say a few words. Mr. Speaker, ranked-choice voting is back. I'm not sure why, but the reasons why it's probably back is because it failed because it's unnecessary and confusing.

"What do you mean it's confusing? Well, the experience is, specifically in my office, I said, well look, if my staff couldn't understand it, call the Office of Elections and figure out what it is, how you add up and do the mathematics one way or the other. Lo and behold, Mr. Speaker, the Office of Elections didn't know how to explain it. They don't know what this Australian system is and what it calls for.

"So, if in effect if we who are running the Office of Elections and those of us who have to get elected, if it's that confusing, the public is going to be really diminished by that.

"So, I don't see what the value would be, unless there's something that says there's going to be a real shift in the super majority to be even bigger than the super majority. I know Charles Djou probably would not have won under this particular bill.

"But the point is, it's not necessary, the system is not broken. And if we're going to confuse the people by making where they have to know advanced geometry in order to figure out who's winning, because some people who win who don't even have a chance at winning, but by the mathematics they somehow win. And this is why every year it comes up, it fails, and I hope this is the same rationale for this year, that we stick with what we got and make it better rather than shifting into a system that the Australians and the rest of the world can play around with. Thank you, Mr. Speaker."

Representative Okimoto rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition, brief comment. In races throughout the decades, Republican candidates can receive a small number of votes in the Republican primary ballot but win by strong majorities in the general. This bill would prevent voters from making that choice in our November elections.

"As Professor James G. Gimpel testified during a case challenging Maine's ranked-choice voting law, quote, unlike ordinary elections and ordinary run-offs, voters are required to make predictions about who will be left standing following an initial tabulation of the votes.

"The predictive nature that comes from ranked-choice voting obscures true debates, true issue-given dialogue between and among candidates, and eliminates genuine binary choices between two top tier candidates.

"Ranked-choice voting is not the solution to encourage more people to vote. It is overly complicated, confusing, and deprives voters of genuinely

informed choices. For these reasons, Mr. Speaker, I am in opposition to this measure. Thank you."

Representative McDermott rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative McDermott's written remarks are as follows:

"Establishing a 'ranked choice' voting system for special elections is simply an attempt to establish a precedent for expanding this confusing system to regular elections. If the argument is that special elections with a large number of candidates can produce a winner with less than a majority of votes, then the solution is to provide for a run-off between the top two contenders. Ranked-choice voting has a decidedly mixed record in mainland constituencies. Not only is it confusing to many, but the process is subject to potential manipulation. SB 560 is clearly a precursor. If it were employed in Hawaii for primary elections, as had been proposed in the past, with all candidates from every party on the same ballot, it would mean that in November voters would only have a choice between two candidates and possibly only from the same party. My contention is that ranked-choice voting would eliminate minority parties from offering a choice to voters in November. By starting with special elections, SB 560 would move Hawaii in that direction and that is why it should be defeated."

Representative LoPresti rose to speak in support of the measure, stating:

"Strong support. I wanted to share an example of where this would have really helped. In my district, where I live, in the City Council race in 2010, this doesn't apply to city council, it applies to Congress, but the gentleman who won and became the city councilperson, I'm trying to look up the numbers, he won with a small, tiny majority of the vote. There were 14 candidates in that race, 14 candidates, and really one of those candidates was anti-rail, the other 13, we were all in favor of rail.

"It was the first election I ever ran, I didn't know what I was doing, I think I came in 12th. But my colleague from Ewa Beach would have been the city councilman, a Republican, if I remember correctly, because of something like ranked-choice voting. But instead what we had was a division of 14 interests, and only one of them, who was a fringe candidate, frankly, ended up becoming our city councilman, instead of somebody who actually more closely resembled the values, who embodied the values, of our community. And I'm happy to say it was my Republican colleague from Ewa Beach would have been better for that job. Thank you."

Representative Kong rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Tam rose to speak in support of the measure, stating:

"In support with a brief comment. Two other states have implemented ranked-choice voting, Maine and Alaska, and I don't think their voters are confused, and that's all I have to say."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 560, HD 2, entitled: "A BILL FOR AN ACT RELATING TO RANKED CHOICE VOTING," passed Third Reading by a vote of 47 ayes to 4 noes, with Representatives Kong and Tokioka voting aye with reservations, and with Representatives Matsumoto, McDermott, Okimoto, and Ward voting no.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition to this measure which generally, because it's claims against the state, look we did this wrong, we have to pay it back, so it's not a big deal. Except there's one exception in this particular measure and that is, Mr. Speaker, when the Kalima case was declared that

the financial obligation of the DHHL to pay for the legal fees is generally, and after 10 years in the finance, in budget and finance, it's a budget item that they would do, but this, because of a clause in this particular bill, says, you, DHHL, are going to have to pay for this. Which is punitive, Mr. Speaker.

"We already know how many housing and other things that they are behind doing, they've got 28,000 on the wait list. So, to make them take out \$370,000-plus is punitive, unfair. And for the price of housing that they build, this is two Hawaiian homestead homes that could be built. So, why is it not in budget and finance, why does it go back as a claw back to DHHL, of which this body has unfairly treated for the last 100 years? Thank you, Mr. Speaker."

Representative Belatti rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. Ruling on a potential conflict. I'm employed by a law firm that has a case in this matter from which I was not a part of or involved in any of the litigation of this matter," and the Chair ruled, "no conflict," and that the ruling would extend through *sine die*.

Representative Ward rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ward's written remarks are as follows:

"Mr. Speaker, I rise in opposition of this bill.

"Why should the government of Hawaii, Hawaii!, prohibit people from wearing fur? This bill would prohibit that, even if you lived on top of Mauna Kea – where maybe is the only place fur is worn nowadays. Otherwise, this bill is out of place here in Hawaii, where the climate rarely lends itself to wearing something so warm. To me, this feels like a 'me too' bill.

"It's important to remember that most alternatives to fur are petroleum-based synthetics; these cause more harm to nature!

"Fur provides vital income for remote indigenous communities who are limited in their options for creating income. Fur farming provides important employment and income for rural communities at a time when many forms of agriculture are becoming increasingly difficult for small, family-run operations.

"Fur farming is sustainable. Everything is used. You might be surprised to know that Fur farming takes over 50,000 tons of food waste a year, diverting it from overflowing landfills. Manure is used for fertilizer, everything is used. Fur farmers deserve your support. Fur farming also has the advantage of not needing a large land base, fertile soil or clement weather.

"The regulatory requirements of this bill would entail the creation of a program within the Department of the Attorney General, which is not a regulatory agency, and would only serve to grow government for a handful of telescope workers on *mauna*."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 969, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO ANIMAL FUR PRODUCTS," passed Third Reading by a vote of 46 ayes to 2 noes, with Representatives Kong and Ward

Very needed, very important, however, missing something very, very essential, and that is people who are actually farmers, businessmen, or entrepreneurs who can revitalize the economy. Unfortunately, these are mostly bureaucrats that are going to do this and I don't think they're going to hit the mark. For those reasons, it leaves out what it really needs the most, but otherwise it's a beginning. Thank you."

"Thank you, Mr. Speaker. In opposition. First of all, I recognize the problem it's trying to solve, school impact fees, waiving them, we certainly need to see more Department of Hawaiian Home Lands homes. My problem with the bill is that this will inextricably exacerbate a lack of school infrastructure for those people as well as for especially people on the west side of Oahu where I represent.

"We still have the largest high school in the state that still is lacking massive infrastructure. We still need a new, even larger, high school for that community. And I just feel that this is trying to help one constituency by taking away from another one that needs help, and I just don't like that way of problem solving. And so, I have to be in opposition for the kids. Thanks."

"Mr. Speaker, in opposition, brief comment. Mr. Speaker, this is the bill that if you release a helium or a balloon with air lighter than normal air, you're going to get a \$500 fine. I've got a bit of a problem with that in that I know there are some people who go to massive either events where you release 200, I think that probably would be fitting, but this is an overreach. It says you're giving a kid a birthday party and the balloon goes up out because you're in a picnic and it goes into the sky, you're going to get a \$500 fine. Mr. Speaker, I can't imagine us regulating hot air as politicians. I just find this really, really difficult. Thank you."

Representative Quinlan rose to speak in support of the measure, stating:

"Mr. Speaker, in support with a caveat. I don't think this bill goes far enough, Mr. Speaker. I think that we should actually ban the sale of all balloons. And to the Minority Leader Emeritus's point, this bill only deals with intentional release. Thank you."

ANNOUNCEMENTS

Representative Lowen: "Thank you, Mr. Speaker. I just wanted to take a minute on the floor to recognize that today is the 51st anniversary of Earth Day, which was founded in 1970. Last year was the 50th, and many events were planned to celebrate the 50th but had to be cancelled because of COVID, so I didn't want to miss the opportunity this year.

"The initial Earth Day marked a moment when many Americans recognized that we must start thinking about doing things differently and not operating our economy in such a way that we cause continual cumulative damage to the environment. The initial Earth Day and environmental movement in the US led to the creation of the EPA, the Clean Air and Clean Water Acts, the Endangered Species Act, and OSHA. And yet despite these accomplishments now today, we are living with the consequences of having failed to successfully meet those challenges that were recognized 51 years ago.

"We still grapple with how to reduce emissions from transportation and power plants, pollution and run off that threaten coral reefs, growing landfills, and plastic pollution that has made its way into the air we breathe, the food we eat, and the water we drink, and an alarming loss of biodiversity as wilderness and wildlife disappear. And unfortunately, we don't have 51 more years left to solve these problems. If we cannot change course, we are headed rapidly toward an Earth that will be radically changed and potentially uninhabitable. This could happen in our lifetime and it will happen in the lifetime of our children if we cannot take collective action in time.

"So, as we wrap up this legislative session, I'm proud of what we have all accomplished together, including some great bills that look like they will pass relating to the climate crisis, clean energy, clean transportation, sea level rise, and conservation. But we also have so much more work to do if we are to meet the huge challenges ahead. So, today on the 51st Earth Day, let us recommit together to our *kuleana*, to work together to be the leaders that future generations and the planet need us to be."

Representative Ward: "Thank you, Mr. Speaker. It's not only Earth Day, it's also the Peace Corps' birthday. This is the 60th anniversary from President Kennedy's founding of the Peace Corps in 1961 with a quarter million of Americans who have served overseas. In Hawaii, there's been 1,600, Mr. Speaker. And you know our colleague Richard Creagan was a Peace Corps volunteer, our colleague former Representative Jim Shon, and yours truly served in the Peace Corps. In fact, people wonder why you're so independent, well if you live two years in the jungles of Borneo, you get to be a little bit independent minded.

"But the bottom line is this, Mr. Speaker. This is Peace Corps Week, and I know some of you have had staffers who wanted to join the Peace Corps, you've come to talk to me. I just want to open that up again as anyone interested in joining the Peace Corps, this is the time to do it, this is the place in the nation. And if we want a better world, we've got to be able to do the economic and social and otherwise development that the Peace Corps has done. So, I'm very proud to announce this is the Peace Corps Week, and anyone who is interested in doing that, I would be more than glad to help to give information. Thank you, Mr. Speaker."

Representative Tokioka: "Thank you, Mr. Speaker. Not an announcement but a point of clarification. As the Majority Leader was going through the different bills and resos, and this is something new on the action sheets, I'm assuming that these are not big changes because on the yellow sheets that we used to get we can at least follow and find out which bills have issues that we may have to vote with reservations or no votes, and this process is very hard to allow us to do that. So, I'm not sure if we're going to do the same thing tomorrow, but hopefully we can get more clarifications because I'm not sure if everybody knew exactly what resos and bills we were voting on and what information was in there that we didn't get on a sheet."

Vice Speaker Mizuno: "Excellent point. I think that's why the leadership asked that we defer it for one legislative day, the concurrent resolutions, but we'll do our best to keep everyone updated on the measures before us."

Representative Tokioka: "So, that was all the resolutions that we're carrying over until tomorrow?"

Vice Speaker Mizuno: "All the House concurrent resolutions deferred one legislative day."

Representative Tokioka: "And the bills too or just the resolutions?"

Vice Speaker Mizuno: "Just the resolutions. The bills were for notice of intent to agree."

Representative Tokioka: "Okay. Thank you."

Representative Wildberger: "Thank you, Mr. Speaker. Tomorrow we are carrying on the tradition of our esteemed retired colleague Cynthia Thielen with Aloha Friday Hemp Day, and I invite everyone to wear their hemp apparel that you may have received from Cynthia Thielen. And in the event you don't happen to have anything hemp, simply wear any organic textile that you might feel comfortable in. We're going to take photos in the rotunda at 5:30 p.m. tomorrow night before session. So, please join us for Hemp Day and we'll see you tomorrow. Thanks."

Representative McDermott rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative McDermott's written remarks are as follows:

"I rise in support of this measure. Mr. Speaker, I want to thank the hardworking and thoughtful House Transportation Chair who saw merit in this effort. Mr. Speaker, I also want to thank the Finance Chair and Vice Chair for their stewardship of this measure and its passage. I want to acknowledge the Senate Transportation Chair who consulted us prior to making a modification; he came over to my office literally and discussed the measure with my staff, ensuring that we saved the resolution. Finally, I also want to thank my Ewa Beach colleagues in both the House and the Senate from House District 41 and Senate District 19 who have also supported the work needed to be done to fix the issues for this road. Mr. Speaker, I want to thank you and this body for the fairness you have shown in this very non-partisan issue.

"Mr. Speaker, what follows is an exhaustive summary of the dispute. The road is owned by three separate parties – the City and County of Honolulu, the Ewa Beach Golf Course, and the US Navy. The area of concern rests in the middle of the road, which is owned by the golf course, bound by the Navy on the eastern side and the city on the western side. Public law prevents the city from 'improving' private property, that includes repaving the road to fix potholes and other safety improvements like sidewalks. It is my hope that the research attached will help the working group come up with a viable solution by determining who is responsible for the maintenance of a privately-owned section of North Road in Ewa Beach, Hawaii that is subject to access easements. Additionally, an evaluation of options available to ensure maintenance and safety of the easements and privately-owned portion of North Road will also drive solutions for the problem."

Representative McDermott also submitted the following:

YHB Ewa, LLC ("YHB") is a limited liability corporation that owns and operates Ewa Beach Golf Course.¹ The deed conveying the property to YHB reserved the Government's right of access in addition to a right of access for other lots and "others entitled thereto."² These lots received the right of access after the initial transfer of the property by the Government and allow ingress and egress to Fort Weaver Road via North Road.

The Ewa Beach Golf Course extends on both sides of North Road and uses a tunnel underneath to travel from one portion of the golf course to another.³ The public and military are using the easement to traverse North South Road on a regular basis. There has been an ongoing issue with people dumping trash, bulky items, and unwanted vehicles on the privately-owned road. The City and County will not provide trash pickup services since the road is privately-owned. YHB is willing to convey the land to another entity if it can retain use of the golf cart tunnel.

Generally, the law holds the owner of an easement responsible for maintenance of the easement. In this case, there are several easement holders, therefore under this legal theory, each would be responsible for a portion of the maintenance of the road. However, there may be an exception to this general rule based on the public use of North Road and the number of easements and access rights.

Although a portion of North Road is privately-owned, it is in the public's interest that the road is regularly maintained. The City and County of Honolulu should take over the maintenance of North Road as a matter of public safety because the road has been used as a public road for decades. It is unfair to place the burden of maintaining the road on the owner and easement holders since they do not have the right to prevent the public use of the road. There are several options to pursue to force the County to act, including: (1) pursuing disputed road status, (2) petitioning the County to maintain the road, (3) attempting to dedicate the road to the County, or (4) petitioning the Mayor to initiate condemnation proceedings. If the owner does not wish to pursue these options, or if they fail, a hui of easement holders could be formed to share the maintenance costs. Meanwhile, legislation can be drafted to address the gaps that exist in the statutes that allow roads to languish without maintenance.

Detailed Information:

1. Easement/Right of Access

YHB purchased the golf course from New Ewa Beach Golf Club, Inc., in 2005. The deed conveying the golf course property to YHB was recorded on 10/17/2005. The land purchased includes Lot 784-A-3-A-1, 784-A-3-B-2, 784-A-4-B, and 1589.⁴ Lot 784-A-4-B is a portion of North Road.

The road was originally owned by the United States Government as part of Lot 784.⁵ The Government eventually subdivided Lot 784 into Lots 784-A through M.⁶ Lot 784-A was later

subdivided again into Lots 784-A-1 through A-5 and the Government sold portions of the land. North Road was designated as Lot 784-A-4-B and conveyed along with other parcels. The original conveyance document reserved a right of access for the U.S. Government, which will terminate if/when the land is conveyed for a public road.⁷

Based on the provisions in the conveyance documents, there are numerous entities with deeded access rights over the privately-owned portion of North Road including: (1) the U.S. Government, (2) anyone residing in or traveling to and from the housing on what used to be Iroquois Point military base, (3) anyone entering or leaving the church, and (4) anyone entering or leaving Lot 1590 owned by Parker School Trust. YHB uses the tunnel underneath North Road on a regular basis and could also use North Road itself. YHB does not have the option of closing off the road because of the numerous valid easement rights recorded in the deed.

2. Maintenance of Easements

The law is fairly settled that the owner of an easement is responsible for its maintenance. In this instance, there are many entities holding easement and access rights, therefore the cost of maintenance would be split proportionally among them. However, this may not apply here because of the long-history of public use of the road.

Control v. Ownership – Hawai‘i follows the general rule that “it is the control and not the ownership [of premises] which determines the liability.”⁸ This rule was interpreted in a later case to apply when a private road was opened to public use. In that case, the owners never attempted to restrict public use of the road thus giving up control of the private road.⁹ The Court also determined that the road had been clearly marked as part of the sale of lots on a subdivision map that was accepted by the County and thereby deemed as dedicated to the County. Based on these facts the road at issue was deemed to be the County’s responsibility.

The public has been traveling over North Road, including the privately-owned portion, for over fifty years. YHB has continued to unlimited use by the public. It is undetermined how many people have access rights via the deed due to the vagueness of the reference in the legal description. The unidentified owners of access rights are in addition to those lots and entities with easements who are clearly identified. YHB cannot close off the portion of the road that it owns because of the recorded access rights. In addition, the road has been opened to public use for many years, and neither YHB nor the other easement holders have control over the use of the road.

Unfortunately, the argument over whether the owners of the road and easement have control over the road will only come into play if there is a suit over an injury or damage related to the condition of the road. It is likely that the Court would follow its earlier reasoning and decide that the road has become the responsibility of the County. However, the strength of the “control” argument does not solve the immediate problem of maintaining the road.

A. Disputed Road

There is a procedure in place where a disputed road must be taken over by the County. Hawaii Revised Statute § 264.2.1 (a) defines a disputed road as one that is: (1) open to the public, (2) located in a County with a population of over 500,000, and (3) for which there is a dispute over ownership, or jurisdiction between the State or any of its subdivisions, a county, or a private party. The Department of Transportation gets to determine if a dispute meets the criteria under this statute. If the road satisfies the requirements to be a disputed road, and no one has exercised ownership of the road in the five years prior to July 1, 2017, the road is deemed to be surrendered to the County pursuant to an administrative order. The County must accept the road. Merely driving on the road does not constitute an act of ownership.¹⁰ However, conducting any clean-up activities or maintenance on the road is an act of ownership.

YHB’s road satisfies the first two criteria of a disputed road as it is open to the public and located in a county with a population of over 500,000. However, the statute states there must be a “dispute over ownership or jurisdiction between the State or any of its subdivisions, a county or a private party.”¹¹ Although there is no dispute over who owns the road it could be argued that there is a dispute over who owns easement/access rights over the road. It could also be argued that there is a dispute over jurisdiction since the Government, County, and golf course all own portions of North road. However, if YHB or any easement holders have conducted maintenance or cleanup in the five years prior to July 1, 2017, that activity qualifies as an act of ownership. If no one has exercised ownership during the statutory timeframe, there is a chance to have the road deemed disputed.

The statute does not provide a process to have a road declared disputed, so it is advisable to follow the same procedure outlined in the following section which includes a written request. The request needs to make a compelling case that the road is disputed, and that no ownership has been exercised. The chief engineer of the Department of Facility Maintenance determines if the road satisfies the criteria. Note that if the road is declared disputed, the County takes over ownership and will record a deed in the Bureau of Conveyances. It is uncertain if this process would still allow YHB to use the tunnel.

B. Petition for Maintenance – The City Council adopted Council Resolution No. 81-252 to establish a new policy for maintaining streets and roads. The Resolution states that it serves the public interest to “maintain those streets and roads which serve the general public and are necessary for transportation purposes, whether publicly-owned or non-dedicated or non-surrendered.” Section 14-32 provides a framework to facilitate the maintenance of certain private roads.¹²

In summary, the ordinance allows for maintaining the surface of private roads under limited circumstances, including: (1) the road must have not been dedicated or surrendered to the city or any other governmental entity, (2) the private road is not maintained by any governmental entity, (3) maintaining it will benefit the general public, (4) the owner does not exclude access by the general public in any form (even by a sign), (5) it serves at least six or more parcels but is not

part of a cluster housing development or planned development, and (6) no developer or homeowners’ association is maintaining it. Maintenance of the road must be practicable and safe for the County and must be necessary to protect the safety of motorists, bicyclists, and pedestrians or is otherwise in the public interest. The road must not suffer such design defects as to make use of the street or road hazardous to the public.¹³

In order to begin the process, 60% of the those who own an interest in the fee title or easement in the road must initiate and submit a written request to the chief engineer of the Department of Facility Maintenance. Owners, and those with the right to control the use of the road, must agree to the department’s terms regarding maintenance and liability.¹⁴ If appropriations are available and the road meets the above criteria, the Department of Facility Maintenance may maintain the surface of the road.¹⁵ The chief engineer of the Department of Facility Maintenance determines whether the road meets the criteria.

If the privately-owned segment of North Road meets the criteria, the surface would be maintained by the City and County. Although that would not solve the illegal dumping problem, the City would be more likely to respond to requests for the removal of items if they were maintaining the road.

C. Dedication

HRS §264-1 outlines the requirements for dedicating a road to the County. The road must be considered a public highway and must have been constructed and completed according to all existing requirements.¹⁶ If the road was constructed and completed as required, the County must accept delivery of the deed conveying the road to the County. If the road was not constructed and completed as required, the County has the option to accept the deed or not.

YHB needs to determine if the road meets the construction and completion requirements necessary to force the County to accept the deed to the road. The statute is silent regarding any prohibitions against reserving rights upon dedication; therefore, the deed may contain access rights for use of the tunnel. Based on information provided regarding past discussions with the County, it is not likely that the road meets the construction criteria for acceptance in its current state. YHB has the option of bringing the road up to standards and then dedicating it. If the road was dedicated to the County, the County would own the road and be responsible for all maintenance and repair including removing dumped items. The deed to the County could reserve YHB’s right to use the tunnel.

D. Condemnation

Another option is condemnation, however, YHB may not be able to reserve access rights in the deed via this option. The statute requires that the road is a public road, ownership has not been exercised by limiting use or access, or the State or County has provided some maintenance to

the road in the public interest.¹⁷ The owner of the road must petition the Mayor to initiate condemnation proceedings. By statute, an owner cannot petition the Mayor until after the dissolution of the roads commission established by Act 194, Session Laws of Hawaii 2016. The Act states the roads commission “will cease to exist on June 30, 2018” therefore, YHB can now proceed with a petition.¹⁸ There are no requirements regarding the condition of the road if it was constructed according to the rules and regulations in place at the time it was built.¹⁹ If the road was condemned, the County would take it over and be responsible for all related maintenance and clean-up. YHB may or may not retain use of the tunnel.

One problem with the statute is that it is silent regarding when, or if, the Mayor must initiate condemnation proceedings. Legislation should be drafted to clarify that the Mayor must initiate condemnation proceedings if the other conditions outlined in the statute are met and to provide for an alternate mechanism when the owner of the road is unknown or unable to petition the Mayor.

In 2019, there were two bills introduced that would have required the Attorney General to condemn certain private roads on Oahu. House Bill 94 got one hearing but was deferred.²⁰ Senate Bill 327 passed third reading but then died after being sent to the House.²¹ The roads at issue in these measures were privately owned roads in town where the ownership was unknown. The measures were drafted to attempt to petition the Mayor to initiate condemnation proceedings since no owner could be found.

D. Hui

If all else fails, a resolution could be drafted to urge the YHB and the easement/access right holders to form a hui to maintain the road. The hui could be comprised of the identifiable easement/access right holders. Each party could contribute funds based on their use of, or interest in, the road. The hui could hire a management company to regularly maintain and repair the road, manage the funds, and provide an accounting.

4. Additional Information – Conveyance History

The road at issue is Lot 784-A-4-B. This lot is entirely made up of a portion of North Road consisting of 2.8594 acres.²² The legal description attached as Exhibit “A” to the deed shows the following easements and access rights regarding Lot 784-A-4-B:

- Right of access to Fort Weaver Road across Lot 784-A-4-B in favor of certain lots as set forth by Land Court Orders filed between 1958 and 1968.²³

- Land Court Order dated June 17, 1958 reflect the approval for subdividing Lot 784 into Lots 784-A through M.²⁴ The Order reflects the following:
 - Lots 784-B to 784-H, and 784-J comprise the Capehart Housing Project Site.²⁵ We can infer that these parcels were the site for the military housing.
 - Lots 784-K & L were used for a material storage yard by the contractor who was building the military housing.²⁶
 - Lot 784-M was leased to the City and County for the Intermediate and High School which were not yet built. Lot 784-A comprised the remainder of the existing subdivision.
- The Land Court Order filed on October 10, 1958 clarifies that Lots 784-B through 784-H, and Lots 784-J through L have access rights across Lot 784-A-4.²⁷ Lot 784-A-4 included the portion of North Road in 1958 but has since been subdivided again. The privately-owned portion of North Road is now Lot 784-A-4-B.
- Hawaiian Electric has an easement for power lines and appurtenances, which appears to be a standard utility easement.
- Right of access for ingress and egress to a public road, in favor of Lot 1588 across Lot 784-A-4-B (North Road).²⁸ Tax records show that Lot 1588 is currently owned by the Church of Jesus Christ of Latter-Day Saints.²⁹
- Easement "103" in favor of Lot 1590 running across the south border of Lot 784-A-4-B (North Road).³⁰ Tax records show that Lot 1590 is owned by the Parker School Trust.³¹
- Rights of access in favor of *others entitled thereto*.³² Exhibit "A" provides no additional detail regarding who is entitled to the right of access under this section. Since Lot 784-A was subdivided numerous times and sold this statement was likely included as a safeguard against omitting anyone with an access right.
- The United States reserved the right of access over North Road in the Quitclaim Deed that conveyed the property to Hawaii Meat Company, Ltd., back in 1976.³³ The right will end when/if the Lot is conveyed for a public road as the right will no longer be necessary.³⁴

Representative LoPresti rose to speak in support of the measure, stating:

"Support. I just want to congratulate my colleague from Ewa Beach. He's worked on this for many years and it's one of the most important things that could be happening for our community and I want to congratulate him on this. This is one of those roads that is owned by federal, by city, by a golf course, and it's a place where people dump things all the time and my colleague goes out there [*speech inaudible*]."

The motion was put to vote by the Chair and carried, and H.C.R. No. 97, SD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE FORMATION OF A TASK FORCE ON NORTH ROAD MANAGEMENT," was Adopted, with Representatives DeCoite, Har, Nakamura, and Tokioka being excused.

H.C.R. No. 112, SD 1:

Representative Belatti moved that H.C.R. No. 112, SD 1 be Adopted, seconded by Representative Morikawa.

Representative McDermott rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative McDermott's written remarks are as follows:

"I stand in opposition to this measure because I believe the basic premise is incorrect and it sends the wrong message to the rest of America. We are blessed to live in one of the most racially and ethnically diverse states in the country. The diversity of this legislative body itself stands as testament to that fact. What purpose does it serve, in a non-binding resolution, to assert that there is a public health crisis in Hawaii because of racism? Not every problem we face in our community is the result of bigotry or prejudice. We are better than that. The disparities in health care and health outcomes may have more to do with education, culture, and socio-economic status than an alleged racist system. Those are the factors that we as legislators should be working hard to try and address."

Representative Okimoto rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition with a few points of discussion, if I may. First and foremost, I rise on behalf of the other two members of my family who are from Asia. As many of you know, my wife is from Malaysia, my daughter is from China. And secondly, I want to be very clear from the outset that racism is wrong. Racism is immoral, but it's not a public health crisis, Mr. Speaker. COVID-19 is a public health crisis.

"As I said on this floor last week, socioeconomic status is the most structurally solid variable of all of the social sciences for decades and decades. This means your education and your income predict more outcomes in life than any other variable, including race. To say that racism is a public health crisis in Hawaii makes a good point, but it is a mainland description, if it exists, it exists there, not here, Mr. Speaker, as this reso would suggest.

"Did you know, Mr. Speaker, that most of the marriages in Hawaii are interracial, not within one's race, but mostly outside. Mr. Speaker, the point is, do we want to send the message out that, hey, all of you who love each other in Hawaii, we're really having a racist crisis here as a racist state.

"And of course we need to admit there are some people in Hawaii whose motivation or action is based upon race. In fact, that's the definition of what racism is. It's a person whose actions are based on the race of the other person. Racism addresses why a person takes an action or says a particular thing based on the race of the other person.

"Mr. Speaker, we need to stay on the path we are on now in Hawaii, stressing our similarities rather than stressing our differences, stressing our common humanity, and knowing and appreciating everyone's human value and everyone's personal worth.

"Personally, I love diversity. With my many years of living overseas and speaking foreign languages, frankly I'm very bored in a monocultural setting. Diversity is what's interesting about Hawaii. It's a strength for us, it's not a weakness. Someone who said if God didn't like diversity, we'd all be the same color and speak the same language. Well, we don't all speak the same language and we're not all the same color, and that's why we're so strong. Mr. Speaker, let's stay on the path of looking at our similarities and those things that have long united us in the State of Hawaii.

"Again, and I repeat emphatically, racism is always wrong and racism is immoral. Fortunately, Mr. Speaker, we still hold these truths to be self-evident, that all men and women are created equal, that they are endowed by their creator with certain unalienable rights that among these are life, liberty, and the pursuit of happiness. Democracy fortunately is self-correcting, and this phase of racial inequality will be and must be overcome.

"Mr. Speaker, I'm not sure that this reso fits what we want to project as the State of Hawaii, but for those reasons, Mr. Speaker, I've really strong reservations and that means probably a no vote. Thank you."

Representative B. Kobayashi rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support. Racism is a multi-factor issue. It involves public health, it involves criminal justice, social justice, civil justice, it involves civil rights, it involves the failure of governmental and economic programs. So, to say that racism is a public health crisis is true, but that's only part of what racism is. Thank you."

Representative Wildberger rose to speak in support of the measure, stating:

"Strong support, Mr. Speaker. I just want to commend the Majority Leader for putting this forward because even though Hawaii is multicultural, it is also extremely hierarchal and ethnocentric. And so, we need to address issues of injustice in our penal system, in our economic system, and in our health system, and this resolution helps us understand that we need to make many further improvements in these areas. In strong support, thanks."

Representative LoPresti rose to speak in support of the measure, stating:

"Strong support. I just would like the words of the previous two speakers entered into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Ganaden rose in support of the measure and asked that the remarks of Representatives B. Kobayashi and Wildberger be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

ANNOUNCEMENTS

Representative Branco: "I'm saddened to announce that one of Hawaii's long-time public servants, Bob Awana, passed away at his home last night. As Governor Linda Lingle's chief of staff, he was often seen walking these halls long before many of us imagined we would be here. And so, at the appropriate time, I'd kindly ask for a moment of silence."

Vice Speaker Mizuno: "Thank you very much, Representative. We do know Bob Awana. We will do that at the appropriate time. Thank you very much."

Representative Wildberger: "Thank you, Mr. Speaker. Today is the Legislature's annual Hemp Aloha Friday. In honor of our esteemed former colleague, Representative Cynthia Thielen, I'm so proud to continue this tradition and carry this *kuleana* on in her behalf. My thanks to everyone who's wearing hemp or organic fiber garments today. This crop is phenomenally versatile and can lead the way to a more sustainable environment and circular economy. According to federal statistics, Hawaii now has 70 licensed hemp growing farmers. We should be doing all we can to encourage this budding industry. *Mahalo*."

At this time, the Chair stated:

"Members, we will be taking some items out of order. The first is on page 38, Conf. Com. Rep. No. 160, House Bill 613, we have a floor amendment for consideration, this is Floor Amendment No. 2."

Conf. Com. Rep. No. 160 and H.B. No. 613, HD 2, SD 2, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 613, HD 2, SD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

At this time, Representative Woodson offered Floor Amendment No. 2, amending H.B. No. 613, HD 2, SD 2, CD 1, as follows:

SECTION 1. House Bill No. 613, H.D. 2, S.D. 2, C.D. 1, is amended by replacing section 3, page 14, lines 11 through 16, with the following:

"(13) The sum of \$29,700,000 or so much thereof as may be necessary for fiscal year 2021-2022 shall be expended for the purpose of educator workforce stabilization to retain teachers; provided that moneys appropriated shall be used for a one-time stabilization payment of \$2,200 for each full-time and half-time teacher; and"

SECTION 2. House Bill No. 613, H.D. 2, S.D. 2, C.D. 1, is amended by replacing section 3, page 14, line 17, through page 15, line 18, with the following:

"(14) The sum of \$6,360,000 or so much thereof as may be necessary for fiscal year 2021-2022 shall be expended within four complex areas; Kauai; Maui (Molokai); Hawaii island (Honokaa-Kealahou, Kohala, Konawaena); and Leilehua-Mililani-Waialua for the purpose of a pilot greenhouse(s) for sustainability and agriculture training, including robotics and other agricultural technology training; provided that, as much as possible, the greenhouse(s) shall be adjacent to agricultural production centers and develop capacity for future farming and farmers; and"

Representative Woodson moved that Floor Amendment No. 2 be adopted, seconded by Representative Kapela.

Representative Woodson rose to speak in support of the proposed floor amendment, stating:

"Thank you, Mr. Speaker. The first friendly floor amendment I have to offer is found on page 14 under section 3 in paragraph 14, and it simply provides more flexibility for the complex area superintendents to offer this particular greenhouse pilot program. This program is important because it allows for interdisciplinary learning environments to transpire, which is important for not only increased learning outcomes, but long-term hard and soft skills that will be earned throughout the course of their instruction.

"The second is also found on page 14 under paragraph 13, which is again under section 3, and it simply adds half-time teachers to make sure that we include full-time and half-time teachers. Thank you."

The motion that Floor Amendment No. 2, amending H.B. No. 613, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO EDUCATION," be adopted, was put to vote by the Chair and carried.

At 9:28 a.m., the Chair noted that Floor Amendment No. 2 was adopted.

At 9:28 a.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 9:29 a.m.

SUSPENSION OF RULES

On motion by Representative Morikawa, seconded by Representative Matsumoto and carried, the rules were suspended for the purpose of considering certain House and Senate Bills for Final Reading by consent calendar.

UNFINISHED BUSINESS

Conf. Com. Rep. No. 180 and H.B. No. 200, HD 1, SD 1, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 200, HD 1, SD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

At 9:30 a.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 9:30 a.m.

At 9:31 a.m., Representative Ward requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 9:32 a.m.

Representative Ward rose, stating:

"Mr. Speaker, I'd like to withdraw my floor amendment, but I'd like to give the reason and I'd like to give my speech, if I may, or should I speak when the debate is called for for HB 200?"

The Chair addressed Representative Ward, stating:

"If you're withdrawing it, there's no debate on it."

Representative Ward: "We are going to debate the budget though, right?"

Speaker Saiki: "You can debate this when we take up HB 200 for the final reading vote."

Representative Ward: "Exactly. Thank you."

Representative Luke rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise to speak in favor of House Bill 200, HD 1, SD 1, CD 1, Relating to the State Budget. Mr. Speaker, this budget is 7% less than the Governor's budget in fiscal year 22 and 6% less than fiscal year 23 in general funds. We achieved this through reduction of vacant positions, combing through each department budget to reduce expenses such as equipment, lease rent, and office expenses, and of course deployment of the federal funds.

"Mr. Speaker, I wanted to thank the Finance Committee and my staff. Because of the truncated schedule this year, many of the members, including the staff, had to work long hours, weekends, and a lot of time and resources spent to putting this budget together, and if it wasn't for every single one of the finance staff, this would not be a reality today, and I can't express enough how thankful I am for each and every one of them.

"I also wanted to thank not just the Finance members, but every Finance member who spent a lot of time on many of the bills being the Finance designee. They have no idea how grateful I am to each and every one of them, and that makes my job so much easier for them to be the FIN designee on all the bills that we are about to vote on today. So, my heartfelt gratitude goes out to every single one of them.

"And thank you to the chairs. The chairs rose up to the challenges this year, and in spite of many challenges this year, they did a tremendous amount of work, tremendous amount of time and resources went into everything that they did to take care of the needs of our community. So, thank you to the chairs. And every single one of the members here, the fact that you continue to come and work for the people of Hawaii, I think only we understand how much time that you folks put in, how much sacrifice you put it, so my heartfelt gratitude goes out to every single one of you.

"And especially you, Mr. Speaker. Many times, the Speaker is the last to take credit and the first to take the blame, and we know that, so our appreciation goes out to you, Mr. Speaker. I know you're getting a little teary eyed right now, but it's okay, you can let your emotions out once in a while.

"Gratitude goes out to Chair Donovan Dela Cruz, because he is in the other chamber I think I can mention him by name and he should be mentioned by name. Throughout working with him as WAM Chair, in spite of what some people may think and in spite of what might be a perceived reputation, he is a generous individual and he is kind and he is very easy to work with and accommodating to the many needs of both the House and the Senate.

"Gratitude also goes out to his staff. They work so hard, and we saw the challenges of them having even shorter time because we, both the House and the Senate leadership allowed the House to extend the time for us to pass the budget to the Senate. The Senate had even a shorter period of time to work on their budget, and so we understand that they were under a tremendous amount of pressure to get the budget done in time. And I think those kinds of nuances, individuals would not understand, but those are the things that people would take for granted, but I understand that it was a lot of pressure on every single one of the staff for trying to get this budget out."

Representative Cullen rose to yield his time, and the Chair "so ordered."

Representative Luke continued, stating:

"Thank you, Vice Chair. And to the WAM members as well, for them being the support and the individuals who back the WAM Chair and many of the things that we are doing today.

"And I would like to thank the Governor and his departments for working diligently with us. Many times we would have long discussions on some of the budget items, and it would be Budget and Finance and the Attorney General's Office, and sometimes we don't agree but we somehow work it out where we come to an agreement and we are able to deliver this budget with most of the things that they were interested in as well.

"My gratitude goes out to the CIP Chair who worked with the CIP Chair on the Senate side to have a very responsible CIP budget, along with the task of using some of the infrastructure federal funds that have been allocated. So, my heartfelt gratitude goes out to the CIP Sub-Chair.

"And of course, last but not least, my Vice Chair, he has no idea how greatly appreciative we are and I am of him. And he takes away some of the stress and many of the burdens from me. And he is quiet but effective and he provides all the support and many times the judgement and opinion that sometimes I could lack, so I depend on him as my confidant and my rock. So, thank you to the Vice Chair.

"When the Legislature first received the Governor's budget back in December, it became quickly evident that the budget included many devastating cuts to social service programs. I think many in this body were very disturbed about the cuts to HIV services, to sex assault services, and others.

"We made a commitment early on that first and foremost we needed to restore those programs. With the members' help, this budget restores and funds over \$80 million in social service programs. And because it's important, let me just read those. This is a restoration and funding for sex assault treatment services; rent supplement program for low-income families; restoration of general assistance to the current level of about \$360 as opposed to \$250; \$14.3 million for homeless services, including stored property and debris removal service, which was not included in the initial Governor's budget; cash support for child care; perinatal and family planning, and in fact we provided a million dollars more than what was in the budget for family planning; HIV prevention and care services; tuberculous prevention; restoration of Office of Language Access, which provides interpreter services for immigrant population; support for senior centers; re-entry programs for inmates; Hep C treatment for inmates; Hilo Youth Challenge; child protective services personnel; developmental disability programs; crime victim compensation; and of course, domestic violence support through the Judiciary budget.

"The people who depend on these programs are not the ones who send email blasts to our offices or hold rallies. But we are all that they have. And it is our job and our duty to recognize and protect the most vulnerable.

"While other states have already recovered economically, all forecasts lead us to believe that economic recovery will not occur for Hawaii prior to 2024. This means that balancing this year's budget is not enough, and we need to restructure government services for efficiency and service to achieve cost savings."

Representative Nakamura rose to yield her time, and the Chair "so ordered."

Representative Luke continued, stating:

"Thank you, Housing Chair. This budget includes a framework for consolidation of OP/LUC/OEQC into a new division called the Office of Planning and Sustainable Development. And isn't that what we're here about, for sustainable development? So, my heartfelt gratitude goes out to the Water Land Chair and EEP Chair for working on this project. Sometimes making these kinds of structural changes is not easy, and for them to have achieved this is really a recognition of them and their personalities and their ability to work on a significant task like this.

"This budget also consolidates two workforce divisions. Before today, there were two workforce divisions in Department of Labor, and I would like to thank the Labor Chair for helping us consolidate them so that they can provide efficiency and service. And also, elimination of Office of Aerospace and redeploying the most important part, which is PISCES, to University of Hawaii Hilo. And I wanted to thank the Representative from Waikiki and Representative from Kailua and also the Economic Development Chair for helping us through the move of PISCES and the Challenger Center to DOE.

"Many decades ago, some of you might know, maybe the Labor Chair might know, but there were close to 100 dairies in our state. And that's so shocking. That's why milk control special fund was created, to regulate the dairies and help set price for it to benefit Hawaii consumers. Today, we have one dairy, and the program of milk control special fund is not sustainable from the fees from just one dairy.

"Just because a special fund served a certain purpose before, that doesn't mean we continue it for the sake of continuing it. Why am I mentioning milk control special fund? Because along with milk control special fund, we have looked at many special funds, and this budget eliminates this and many others, and converts them to general funds so that we can reevaluate some of the use of these special funds and reevaluate its function. Just like the milk control special fund, it may have been a good many decades ago when we had close to 100 dairies, it's no longer viable when we only have one dairy. This year we have instituted a new practice of putting a five-year sunset on any new special funds created so that the Legislature will continue to have oversight for these special funds.

"This year there has been much discussion about ADC and HTA. This budget, with the help of both the Agriculture Chair and the Labor & Tourism Chair, eliminates the special funds for both, so that we have more accountability and more transparency of both ADC and HTA.

"Through this budget, we made a lot of progress, and we didn't let COVID stand in our way. I thank you again to each and every one of you for your service to the people of Hawaii and for allowing this budget to pass. Thank you."

Representative Wildberger rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I would like to express my appreciation to our esteemed Finance Chair and Representative from Pacific Heights on the work that she led has created accountability and transparency in what our tax dollars are doing here in government. And I just wanted to share my appreciation for her and her team for the good work that prevented mass layoffs or furloughs in this budget and just want to share my appreciation. *Mahalo*."

Representative Holt rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. This budget has a lot of great things in it and I'd like to especially thank the Finance Chair and the CIP Chair. And I think that it's important that we highlight that this year the Department of Hawaiian Home Lands has received probably the highest amount in, at least in recent years, probably forever. So, appreciation for that, about \$70 million in the next couple of years.

"And also, there was money in the budget to start removing the Hoku Kea telescope from Mauna Kea, and I think it's a great first step for us to show good faith that we are upholding our end of the bargain. So, thank you guys. In support."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, I too am in support of this and commend two things for the Finance Chair. One is, the balanced budget makes us look good. The fact that it balances is great. And what is the breath of fresh air is the special funds for the first time in the history that, at least I know in this body, that we've swept the special funds and put it into the general funds, which means we're actually in the business of taking care of the purse strings.

"However, having said that, Mr. Speaker, there's a couple of things that I would draw an issue with, and I guess the amendment was maybe too much of a making of an issue out of it, but there's something in the budget that I

think needs to be pointed out, and that is there's a line item in the DOE that says we're going to give pay raises to the complex area superintendents.

"Mr. Speaker, I've got three issues with that. Number one, these are the guys that make \$145,000 to \$175,000 per year. The optics of that do not look good at all. If anybody needs a raise, it's the teachers in the DOE, not the district area superintendents. And thirdly, Mr. Speaker, even though we've balanced the budget, we have a bare cupboard. The coffers are bare. EUTF funds are now at 4.1 unfunded liabilities, we've got an economy that's not open, we've got 70,000 people who are still unemployed. Mr. Speaker, we are not in good fiscal shape. We are now temporarily in good shape, but in the long run we're not.

"So, the fact that we are not levelling the pay raise increase field, if you will, the executive is agreed, the Judiciary is agreed, the unions have agreed, no one gets a pay raise, except now the superintendent complex area guys get it. That's inconsistent. I wanted to point that out. And because we project with our budget what our priorities are, I don't think giving a pay raise to people who are making \$145,000 to \$175,000 really says where our heart and where our care is, particularly for our teachers. For those reasons, Mr. Speaker, it's a good budget, but that thing in it is not a good item. Thank you."

Representative Luke rose to respond, stating:

"Thank you, Mr. Speaker. In support. I just wanted to respond to what the Representative from Hawaii Kai stated. I encourage him to read not just this bill, but every bill. And we ask that if he does not read all the bills, if he can get assistance from his staff, because in House Bill 613, thanks to the vision of Education Chair in both the House and the Senate, they put in language that any pay raise increase for all superintendents, which encompasses all deputy superintendents, granted by the Board of Education shall only take effect when department heads receive their pay raises.

"So, because this was a floor amendment, the Hawaii Kai Representative had ample opportunity to read the floor amendment as well, which was encompassed in the Education Chair, so if I could ask that the Hawaii Kai Representative withdraw his statements for inaccuracy. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, still in support, but questioning. I don't know if it was the mask or my understanding, are we to understand then that these people will not be given raises until whenever, quote, the department heads get a raise? And that is undefined in our budget for the Judiciary and the Executive and the Legislature. It's for all of those who are the leaders, not the departments. Unless you mean the departments of all the executive. I was not clear on what she was meaning, but if that's the case, it's even a better reason for withdrawing the amendment, because it's in there.

"However, the difficulty of reading a 220-page budget, as I read, I thought it was buried in someplace, but I never saw it. And the next time I will query the Chair directly. Thank you, Mr. Speaker."

Representative Cullen rose to speak in support of the measure, stating:

"Mr. Speaker, strong support. Mr. Speaker, I wanted to express my gratitude not only to the Finance and WAM staff, seeing how hard they have worked over the past several weeks in order for us to get a balanced budget that is very responsible at this time, I applaud leadership upon the Finance Chair and WAM Chair, they did a really great job in balancing the federal funds that came down with what we needed.

"And one area I want to talk about, even though it's real small, that Hawaii can look forward to is, and we always talk about food security in the state, we always talk about food security nationally and globally. And a big program that we have within Department of Agriculture is actually the queen bee program. Hawaii, even though as small as we are, exports percentagewise one of the largest, largest I say, in supplying North America, both continental US and Canada.

"So when we look to how we expand new programs and how we look at global and food security, and you tie in key words like sustainability, this small program that was actually the certification program that was still funded, but this additional funding will allow Hawaii to be that leading nation in the exporting of bees, which at this time I feel is very important,

knowing that we are moving towards goals and food security goals and sustainability that was very, very exacerbated during this COVID-19 pandemic.

"Also, I wanted to respond to the Representative from Hawaii Kai, if he read page 15, section 4, and it clarifies that 'recent salary recommendations by the commission on salaries,' so when the only individuals that have a recommendation by the salary commission is the Legislature, the Executive, and the Judicial, which is judges and department heads, so there is the clarification. Thank you, Mr. Speaker."

Representative Woodson rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I also wanted to thank the Finance Chair, the Vice Chair, and the Sub Chair for the work they did on the budget, including as it relates to the Department of Education. It's no easy task to make sure that we go ahead and reinsert all the positions that we thought we were going to lose. So, we're very grateful for that.

"And also, just to respond to the gentleman from Hawaii Kai, also in a complimenting bill HB 613, we did in fact give teachers a onetime bonus of \$2,200. Thank you."

Representative Ilagan rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support. As a newly elected freshman into this body, I'm very grateful to our Finance Chair, because there was a lot of things I had to learn. And she also helped guide me through the budget, as well as all my fellow Finance members, and her leadership is greatly appreciated through these tough times.

"I really am also very appreciative of the fact that she helped restore the Youth Challenge program. And these are kids who, at-promise kids, who really needed the help, and so I really appreciate it, because it was during the time when the administration was looking to cut the program. And here we are now, and I'm very thankful for what she has done. As well as I am very thankful for WAM as well, when Senator Dela Cruz, on his side of the chamber, as we all know that it takes two chambers to get it through this body.

"And I also want to say thank you to my fellow Hilo Representative who mentored me through this process as well, as well as the Representative from Nuanu who also helped me through some budget things. Thank you."

Representative B. Kobayashi rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in strong support. This year and this budget was unlike any other, and hopefully not to be repeated. We started this session with ourselves in a hole which was far above our heads, and we now find ourselves, I think, still in a hole, although the hole now is perhaps waist high and we could perhaps easily climb out of it, but we're still in a hole.

"This budget was possible only because of a one-time-only American rescue plan giving the state \$1.6 billion. Those funds will not be available next year in all likelihood, and so getting out of the hole will have to be done by ourselves. But we face a daunting future. Our revenues, our cash reserves I should say, are low. Two years ago, we ended up with a carryover balance of \$999 million, virtually a few thousand dollars away from \$1 billion. We have had that kind of carryover balance since I reentered this place, beginning 2013. This year we will not have anything near that.

"So, one of the things that this budget did was, for the first time ever, insert legislative add-ons of nine digits more than several times. That is nine digits to repay \$700 million for a UI loan; \$390 million for EUTF, Employee Union Trust Fund for health insurance; and also \$250 million going to the rainy-day fund. That will help us in future years, because as you know, we have bleak prospects for future state revenues. And I think that Finance Chair and Finance staff should be commended for looking out not only for this year's budget, but for future budgets, because as I said, we are not out of the hole yet. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 200, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE BUDGET," passed Final Reading by a vote of 51 ayes.

At 10:00 a.m., the Chair noted that the following bill passed Final Reading:

H.B. No. 200, HD 1, SD 1, CD 1

At 10:00 a.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 10:36 a.m.

At this time, the Chair recognized the Clerk who announced:

"I have been informed by a representative of the President of the Senate that the conference committee report for H.B. No. 200, HD 1, SD 1, CD 1 was adopted, and said House Bill, Relating to the State Budget, passed final reading in the Senate at 10:19 a.m. on this day.

"In addition, I have been informed by the Assistant Clerk of the House that at 10:23 a.m. on this day, H.B. No. 200, HD 1, SD 1, CD 1 has been duly transmitted by the Legislature to the Governor, pursuant to Article VII, Section 9 of the Hawaii State Constitution."

Representative Belatti moved that the report of the Committee be adopted, and that S.B. No. 489, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Cullen's written remarks in opposition to the measure are as follows:

"Mr. Speaker, I stand in opposition to SB 489, HD 1, CD 1. As a strong supporter of agriculture in our state, I am also a stronger supporter of community safety. With no confidence in our Honolulu County department to enforce the non-residential structure portion of this law and how it has been abused by people living on agricultural land over the years, I fear expanding the exempted portion for agricultural shade cloth structures, cold frames, or greenhouses from 20,000 square feet to 60,000 square feet causes great concern. Within District 39, we have thousands of acres of agricultural land and hundreds of those acres are located less than 100 yards away from residential communities. The concern I have is that 60,000 square feet is larger than a football field; having that much unpermitted constructed material near homes is alarming and may be a safety issue, especially during major weather events. The county's inability and unwillingness to enforce when problems are presented and the concerns of putting lives in danger is why I stand in opposition. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 489, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO AGRICULTURAL BUILDINGS," passed Final Reading by a vote of 49 ayes to 1 no, with Representative Cullen voting no, and with Representative LoPresti being excused.

Representative Kapela rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations and a brief comment. Kona and Kau coffee are two of the state's most iconic agricultural products. They're both grown in my district. Yet the outbreak of coffee leaf rust that we are currently experiencing is threatening the health of our coffee plants and in turn the economic wellbeing of Hawaii Island's farmers and our beloved coffee industry. Therefore, I strongly, strongly support the measure's expansion of the coffee berry borer subsidy program to include coffee leaf rust.

"As Kona coffee farmers have noted in their testimony, however, we need to focus on funding fertilizers that strengthen the tree and their ability to resist rust infestation. In his testimony on this proposal, Kona Coffee Farmers Association President Colehour Bondera said that strengthening tree health is a vital component of fighting the coffee leaf rust infestation, much like human immune systems fighting off viral infection.

"Our state has taken strides in recent years to move away from using pesticides to resolve agricultural problems since pesticides are often poisonous to community members, our farmers, and our environment. In the future, I truly hope that we can and we will work with local farmers in addressing agricultural issues in a way that is safe and long lasting so that we can advance regenerative agricultural practices throughout Hawaii's farming industry. Thank you very much."

Representative Wildberger rose in support of the measure with reservations and asked that the remarks of Representative Kapela be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support and a brief comment. The product used for coffee berry borer is actually an organic fungus, and then for coffee leaf rust, we haven't heard that this is one of the pesticides of major concern for toxicity. So, I feel like these concerns are a little preemptive and reactionary. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 855, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO COFFEE PEST CONTROL," passed Final Reading by a vote of 50 ayes, with Representatives Kapela and Wildberger voting aye with reservations, and with Representative LoPresti being excused.

Representative Kapela rose to speak in support of the measure, stating:

"Support with a brief comment. To begin, I would really like to thank the House Education Committee Chair for his incredibly hard work and mentorship, but his hard work specifically on this measure. Life is not a standardized test, and I think we hear that time and time and over and over again. Too often, however, our schools are judged on test scores that do not accurately reflect the quality of their students' learning potential.

"Academic and financial plans are the guiding documents for school programming. This measure will ensure that AcFin, as they're often called, will focus on inputs that genuinely determine student achievement, like access to quality teachers and class size. This bill puts into law the definition of authentic assessments as well, which is extremely significant. Authentic assessments are the exact opposite of standardized tests. Rather than reducing learning to a series of rote questions, they align classroom instruction with real-world problem solving, allowing students to apply what they learn to addressing critical issues that are faced in their communities.

"I applaud the Education Committee Chair and those who have worked on this measure for their vision in moving our school system forward in a more forward-thinking direction and empowering educational leaders to craft academic and financial plans that will deliver the schools that our *keiki* and our children finally deserve. So, thank you very much."

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1192, HD 1, SD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Johanson rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support of the measure. Imagine being in need of a \$300 loan to buy a tire or groceries and you don't have a checking account or a savings account and your friends and family can't loan you the money. Then imagine that you pay \$529 over the span of five months for that initial \$300 loan. This is an all too common scenario as this is the average cost to the consumer who borrows in Hawaii through a payday lending product, according to the Pew Charitable Trusts.

"This is the case for nearly 20% of Hawaii's population who remain unbanked or underbanked, according to an FDIC survey. This is a significant population of our neighbors and constituents who don't have access to capital through the traditional banking system. I suspect, given the pandemic's ravages of Hawaii's economy, that the percentage is even higher

now. This makes our neighbors and constituents disproportionately reliant on alternative financial services like payday lending.

"Although meant to help assist, our payday lending laws can trap people in need, unknowingly, in a cycle of debt that can significantly exacerbate their financial woes. That's what makes this bill a real boon for our constituents in need of greater economic justice. The transition away from payday lending to installment lending, which is a financial product that enables the borrower to build credit and extend their horizon to repay the loan, is a huge reform that will benefit people and in so doing help to put our state's population on a more financially sound footing.

"In this bill, interest rates are capped, monthly fees are capped, an installment period of two to twelve months is ensured, the borrower's ability to renegotiate if extra time is needed to pay is preserved, and the borrower's ability to pay the loan off early is guaranteed. There are numerous other consumer safeguards crafted into this bill.

"This bill before us, Mr. Speaker and members, is the biproduct of many years of work by my Senate counterpart, the Chair of the Senate Commerce and Consumer Protection Committee. I'd like to thank her so much for her steadfast advocacy for years on this issue on behalf of consumers. I'd also wish to thank my predecessors, the CPC chairs from House District 10 in Lahaina and House District 35 in Pearl City, and a former vice chair of the CPC Committee from Kahului, House District 9, for their work on this issue for these many past years.

"Most of all, Mr. Speaker, I'd like to thank the commissioner of financial institutions, Iris Ikeda. She's one of the smartest, most inventive, and hardest working public servants I've had the pleasure of dealing with. This bill has been rewritten multiple times this session alone thanks to Iris. She's had many a weekend and weeknight phone call with me on the nuances and details of this almost 100-page measure. She's worked hard to help us address concerns from across the spectrum, and in so doing, she's helped to ensure that Hawaii will not only have a viable installment lending product, but also a workable transition away from payday lending, all the while preserving access to capital for some of our residents most in need.

"Lastly, Mr. Speaker, I'd also like to thank you for allowing your chairs the freedom to craft the House's agenda. Economic justice is a passion of mine and so many of our colleagues. And I've been reminded over the years that it can come in many forms. There's no one bill, no one panacea to engender this outcome all by itself. Rather, we must be creative enough to look at the whole landscape of ideas.

"This bill, the phasing out of predatory lending practices and the ushering in of a lending product to those in need that helps to build credit and weather the unplanned financial rough patches, is going to help so many in need. Today, through the passage of this bill, the House and the Legislature as a whole achieve an important reform that will make Hawaii more affordable and livable for the most economically vulnerable among us. Thank you."

Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. First, I would like the words of the CPC Chair entered into the record as if they were my own except for the part about myself, of course. And I just want to thank him for this. This was a daunting thing that has plagued your Committee on CPC for years and years and years. How do you provide capital to working people in need without creating a usury environment that's full of oppressive regime of payback? So, my congratulations to him and the committee and all the work that they've done on moving the stick finally on this issue that was a vexing one for a number of years. Thank you so much," and the Chair "so ordered." (By reference only.)

Representative Luke rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I also wanted to congratulate the CPC Chair. This is a culmination of work that took decades to get to this point. This is a very difficult issue only because, in as much as we want to provide alternative means of funding and financing for the most vulnerable, we needed to put in safeguards. And it was just a tough issue for many, many years. And I wanted to congratulate both the CPC Chair and the CPN Chair on the Senate side, because it has taken a long time for Senator Roz Baker to work on this issue, and so congratulations to the CPC Chair. And I also wanted to dedicate this to Iris Ikeda, who came in the Legislature with me

many years ago, and without her support and her knowledge, we wouldn't be in this place. So, thank you very much."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1192, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO CONSUMER PROTECTION," passed Final Reading by a vote of 50 ayes, with Representative LoPresti being excused.

Conf. Com. Rep. No. 42 and H.B. No. 282, HD 1, SD 2, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 282, HD 1, SD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Tam rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I want to begin by thanking the Chairs of the House Health, Human Services, & Homelessness Committee and the House Judiciary & Hawaiian Affairs Committee as well as their counterparts in the Senate for their work on this measure before us. I would also like to thank the Department of Human Services, the Governor's coordinator on homelessness, and many advocates, including Carla Houser and Ian Ross, that have worked on this as well.

"The bill that we are voting on today expands circumstances where unaccompanied homeless minors can consent to no cost emergency homeless shelters. The Legislature had already intended to solve this very problem years ago and make Hawaii a right to shelter state, but the previous language fell short of providers actually providing shelter to unaccompanied minors. So right now, these kids may not be admitted and are turned away from these shelters across the islands each night. As a result, they would have to return to our streets where it is cold and where they are more prone to violence, drugs, and human trafficking.

"There are many circumstances where a minor can be unaccompanied and homeless. These include but are not limited to rejection from their family, household abuse, or they are victims of human trafficking and they are fortunate enough to escape.

"Now, there are concerns that this will incentivize minors to run away from home, and I won't completely dismiss these concerns, but regardless of their reasons, it is still safer for them to be in a shelter where they work with providers than be on the street.

"To mitigate what risks may remain, shelters will be required to record and register these minors and to coordinate with the Department of Human Services.

"This is very important to the LGBT community. The LGBT community is oftentimes rejected, especially by their own family, and to be rejected by a shelter is just another punch in the gut to them. By passing this bill today, the Legislature will send a strong message to some of our most vulnerable populations that they are seen, they are heard, they are loved, and they are valued. Thank you for the opportunity to speak on this important measure."

Representative Yamane rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I just wanted to commend the author, the Representative from Waikiki, for his hard work and dedication on this matter. He brought it back from the brink of being deferred several times, so the chair would like to commend my vice chair for his hard work and his compassion. Thank you."

Representative Belatti moved to recommit Conf. Com. Rep. No. 72 and the attached proposed conference draft to the Committee on Conference, seconded by Representative Morikawa.

Representative Ganaden rose to speak in support of the motion to recommit, stating:

"Mr. Speaker, in support. Mr. Speaker, the men who crafted the United States Constitution didn't get a lot right. Something that they did get right is the Bill of Rights, the Fourth Amendment, which prevents the government from unreasonable search and seizure. If you are practicing in criminal justice, this is your bread and butter, this is what we talk about all the time. There's nothing more American than telling the government to get the hell off my property and come back with a warrant.

"This bill is colloquially referred to as the Breonna Taylor Law. It's part of an international conversation about police justice. It is especially important here, because there have been numerous officer-involved shootings over the last decade and especially over the last month. The previous Honolulu police chief is currently spending time in federal prison. The current one has recently stepped down.

"This bill would have incorporated some of the oversight that we are hoping for in police departments that is happening across the nation. In support, again, hoping that in the future this body can craft a law that allows for officers to reduce officer-involved shootings, reduce violence in our communities. Thank you so much."

Representative Matayoshi rose to speak in support of the motion to recommit, stating:

"Thank you, Mr. Speaker. In support of the recommitment. I just wanted to raise some concerns that were raised by the public defender. The public defenders did come out with constitutional issues based on the 30 second waiting period and also we had concerns brought to us by the Attorney General's Office and prosecutors and most other police organizations in the state. Thank you."

Representative Kapela rose to speak in support of the motion to recommit, stating:

"Mr. Speaker, in strong support. This year, we've seen so many people take to the streets to demand justice for people that need it. And it's really just disappointing to me that this bill has given so many people so much hope for our legislative session and for people that have just been pushed

aside by not having justice. And it's so disappointing to me that we're going to recommit this bill and take away that hope so quickly. So, I hope that in the future, we will do so much more to uplift every single person around us regardless of race or ethnicity. Thank you."

Representative Ward rose to speak in support of the motion to recommit, stating:

"Mr. Speaker, in support of the recommitment. I would just add, what we heard in the Judiciary Committee was very clear. HPD does this, it's not in writing as this bill would indicate, but they said they are doing this. Maybe that needs to be probably spelled out. But they just don't bust into people's houses the way that some may have implied. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and Conf. Com. Rep. No. 72 and S.B. No. 726, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO POLICING," were recommitment to the Committee on Conference, with Representative LoPresti being excused.

Representative Nakamura rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. In recent months, as tourism has picked up, residents around the state have raised concerns. We don't want to go back to pre-pandemic tourism in Hawaii. The congested roads at scenic spots and coastal areas, illegal parking along popular beach parks, the constant noise of helicopters in residential areas, and overcrowded hiking trails and trail heads. Many are calling for better management of our destination, our home, the communities we represent.

"Mr. Speaker, HB 1276 is one tool to assist the State Parks Division manage our parks by giving the BLNR the authority to set entrance, parking, shuttle, lodging, and camping fees in a flexible way depending on visitor seasonal demand and peak usage. By setting visitor limits and increasing visitor fees, we can earn much more than the rigid \$2 per person across the board park entrance fee that took one year to adopt via rules. By charging \$35 for a shuttle and entrance fee to Haena State Park, for example, we reduce the cars on the road, reduce greenhouse gases, make the community shuttle financially feasible. Revenues will be used to do interpretive signage, improve park amenities, and maintain our parks.

"This bill, Mr. Speaker, along with HB 601 that gives police chiefs the authority to use county staff other than police officers to issue parking citations that was recently passed, are tools that help communities throughout the state manage the impacts of overtourism.

"I want to thank you, Mr. Speaker, for providing these tools that will help tourism coexist with our communities. By setting limits and by providing management tools to our state and county agencies, we improve the quality of life for our residents and an amazing quality experience for our visitors. Mahalo to the Water and Land, Judiciary, and Finance Chairs for their early support of these strategies."

Representative Marten rose to speak in support of the measure, stating:

Representative B. Kobayashi rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I represent the area which includes Diamond Head. Diamond Head has had 1 million visitors in 2019. Those visitors are crammed into a narrow trail going up to the summit of Diamond Head. What this bill will do is enable the Parks Department to experiment in demand pricing so that there would be a different price for entry during different times of the day, and thus even out the number of hikers going up to the summit at any one time. This flexibility, along with the opportunity to spend some of the money, would help high demand areas. Thank you."

Representative Holt rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. May I please have the words of the Housing Chair inserted into the Journal as if they were my own. And I would just like to give a special thanks to her because going out to the North Shore of Kauai and seeing what she has done to fix that place after the disaster that they had, it's a great example for all of us and what we can do to our state parks around our state. So, special thanks and in strong support," and the Chair "so ordered." (By reference only.)

Representative Lowen rose to speak in support of the measure, stating:

"Strong support and permission to insert comments in the Journal."

Representative Lowen's written remarks are as follows:

"I rise in strong support of this bill that establishes a pathway to transition Hawaii's state fleet of light-duty vehicles to 100% zero-emissions by 2035, and by 2030 for passenger cars. The passage of this measure represents a big step towards reducing Hawaii's emissions in the ground transportation sector, which is a necessary action if we are to meet our goals for a zero-emissions clean economy and reduce Hawaii's greenhouse gas emissions. Ground transportation alone accounts for over a quarter of the fossil fuel imported into the state and electrifying this sector will both reduce emissions and keep millions of dollars in the state economy that would otherwise be spent on imports.

"This bill represents bold climate action, moves Hawaii closer to energy independence, and will also save millions of taxpayer dollars in vastly reduced maintenance and fuels costs for state-owned vehicles. The cost to the state of owning and operating an electric vehicle as part of its light-duty fleet is, today, cheaper than owning gas-powered vehicles, and the savings will only continue to grow as more models of EVs become available and prices continue to drop.

"HB 552 also represents government leading by example and forging a path forward to demonstrate what is possible and to facilitate a similar transformation in the private sector. With our vote today, Hawaii will join

other global leaders in commitment to transforming ground transportation into a sector powered by clean energy."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. Representative Mizuno rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'd like to rise in support. I'd like permission to submit comments to the Journal, please. I wanted to recognize three people that really advocated for this bill. On the Senate side, the Chair of the Economic Development, Tourism, and Technology Committee, he did a great job at advocating for the passage. Two other people, Miss Hawaii USA 2020 Samantha Neyland, who did a great job in educating me and working with myself, as well as Danny de Gracia, who's a Civil Beat writer and works for the state, he also worked for the Legislature before, worked together on the passage of this bill. I just wanted to thank them and just wanted to recognize the historical significance that June 19th has as it displays the end of slavery and also recognizes the great work of our African Americans in our community. Thank you very much, Mr. Speaker."

Representative Mizuno's written remarks are as follows:

"Mr. Speaker, I rise in strong support of Conf. Com. Rep. No. 133 on the measure of Senate Bill 939, as amended in House Draft 2, Conference Draft 1. As the introducer of the House companion to this measure, House Bill 1308, I am thankful to have been a part of this worthy effort to at last recognize Juneteenth, the day that marks the historical end of slavery in the United States of America which occurred during the liberation of Texas on June 19, 1865.

"One of the questions that was asked throughout this legislative process when we heard this bill and its companion in multiple committees was 'why do we need to celebrate Juneteenth in Hawaii?' And the resounding answer that so many people and organizations that testified in support of this measure collectively showed us was that Juneteenth represents so much more than just acknowledging America's troubling past flirtations with slavery, prejudice, and discrimination; it represents celebrating America's future desire to overcome, to triumph, and to endure as a nation where all people are free to pursue and enjoy the promise of life, liberty, and the pursuit of happiness.

"Mr. Speaker, symbols are powerful tools in cultural progress, because they create not only things we can reflect on, but traditions that we can build

upon. Juneteenth is a powerful symbol for the State of Hawaii, and it is one that in this hallowed chapel of democracy, I pray that my fellow members will see is long overdue. The people need more than just laws to sustain a republic; they must know that their government and their representatives have not forgotten them, and that is what this measure is about.

"Our very own former Miss Hawaii USA 2020 Samantha Neyland helped redeem us, both politically, and I dare say historically, when she came to the Legislature with an idea and a vision last year, that Hawaii needed to recognize the importance of Juneteenth. In working with Ms. Neyland, we were challenged and inspired by her passion to change something that the rest of us had overlooked for so long.

"At the time of the introduction of this bill, Hawaii was one of only three states of the Union that had not yet enacted laws to officially recognize Juneteenth. As this bill advances to final reading, we are that much closer to not only joining our sister states, but that much further in advancing our fellow men and women in equality.

"We are living in troubling times that require a community conscience and sense of purpose that transcends the color of our skin and continental origin of our forebears. The late President John F. Kennedy famously said, 'in the final analysis, we each inhabit this small planet; we all breathe the same air; we all cherish our children's futures, and we are all mortal.'

"When COVID-19 came to our shores, the virus showed us not only how fragile and precious all life is, but it made us realize that without each other, without people to stand with each other, a house divided cannot stand and civilization is only as good as our love for one another. Juneteenth is about bringing us together, eliminating disparities, erasing division, and strengthening those bonds that America's authors of the Constitution sought after as a more perfect, just, and tranquil Union.

"I would like to include for future generations what Ms. Neyland has to say to our members, and our great state, as we prepare to advance this bill:

As the first-ever African-American Miss Hawaii U.S.A., I am honored and proud to witness the historic change the Hawaii State Legislature is making today by establishing Juneteenth as an annual day of remembrance and celebration. As a state known for our melting pot of diversity, it is long overdue for Hawaii to fully live out our Aloha Spirit by correcting this grave oversight and joining the forty-eight states across the country that officially commemorate Juneteenth.

S.B. 939 will better educate Hawaii youth on an accurate telling of U.S. history, the African-American experience, and the importance of combating racial injustice in today's society. As we stand with the backdrop of rising anti-Asian hate and continued police brutality towards the African-American community, the passage of S.B. 939 will send a clear message to the world that all who venture to the Aloha State will be seen, heard, and welcome in Hawaii.

"Mr. Speaker, I strongly encourage the adoption of Conf. Com. Rep. No. 133 and the full passage of SB 939 into law. We rarely have such an opportunity, in so short a time, to do so great a good, on behalf of those who have waited so long for justice, and in the memory of those who have laid so costly a sacrifice upon the altar of freedom.

"Mr. Speaker, I would like to also add for the record the names of the following individuals and organizations who helped bring Juneteenth Day to Hawaii:

Samantha Neyland, Miss Hawaii USA 2020, and Hawaii for Juneteenth
 Founder
 Robert Benson Trumbo III, Coalition Lobbyist & Legislative Strategist
 Danny de Gracia, Honolulu Civil Beat Columnist
 Tommy Waters, Honolulu City Council Chair
 Senator Glenn Wakai, SB 939 Introducer
 Representative Cedric Gates, House Chair Committee on Cultural, Arts,
 & International Affairs
 Representative John Mizuno, HB 1308 Introducer"

Representative Gates rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. First off, I would like to adopt the words of the Vice Speaker as if they were my own and insert them into the Journal. In

support. I would just like to also recognize that by passing this bill, we will not be the last state to adopt Juneteenth and recognize it as a holiday. The last state is South Dakota, so I'm glad we're able to beat them. Also, I want to *mahalo* the Chairs of GVO, WAM, JHA, and FIN for moving this measure forward. Thank you, Mr. Speaker," and the Chair "so ordered." (By reference only.)

Representative Nakamura rose to speak in support of the measure, stating:

"In strong support. With the median cost of a home in Hawaii at \$950,000, how will our families ever afford a fee simple home? At Pokai Bay on the Waianae Coast, 70 low- and moderate-income families are building three bedroom, two bath homes and will have a mortgage of \$300,000. These homes are valued at \$700,000 upon completion and have breathtaking ocean views. At Elele on West Kauai, 107 low- and moderate-income families are in the process of building homes in two phases and will have a mortgage of \$240,000. These homes are now valued \$450,000 and are within walking distance of an elementary school. And in Kahului, Maui, the first multi-story self-help housing was built with an average price of less than \$200,000, providing a model for higher density housing at future transit-oriented development sites.

"Mr. Speaker, these are just a few examples of the many nonprofit housing organizations who have the expertise to make self-help housing work in Hawaii. They have built strong working relationships with development partners, the USDA, and county housing agencies. They have leveraged millions of dollars of federal funds along the way. At Pokai Bay, 88% of the construction costs will be from the Federal Government. By assisting developers with the remaining 12% of funding, we can stretch our state funds to help families achieve homeownership.

"The exciting news is that there are over 500 units of affordable, self-help housing in the pipeline. HB 79 creates a new revolving loan program and fund to help fill in this gap, that 12% of financing to leverage federal funds to make homeownership possible.

"By putting in their sweat equity, families learn construction skills to help maintain their homes over the long run, families build teamwork and a strong sense of community, and, most of all, families build equity, wealth creation to achieve other goals in life. In the meantime, every county gains additional property taxes and the state gains additional GET and income taxes by the new business generated by building suppliers, specialty contractors, insurance, and escrow companies.

"Mr. Speaker, I would like to recognize my Housing Committee members for their support of this measure, the 27 co-introducers of this bill, our Finance Chair for helping to find the funding to get this program off the ground, and my conference co-chair and Buzz's dad representing Kapahulu who helped me fix this bill late Friday night. *Mahalo piha* to all."

Representative Hashimoto rose to speak in support of the measure, stating:

"Strong support, Mr. Speaker. I'd like to adopt the words of the Housing Chair as if they were my own and I'd like to congratulate her on working very hard and all the stakeholders in making this happen, because I think this will be a great thing to push affordable housing development forward. Thank you, Mr. Speaker," and the Chair "so ordered." (By reference only.)

Representative Wildberger rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I'd like to acknowledge the leadership of our esteemed colleague from Kauai and her good work on the Housing Committee this year. It's really a breath of fresh air and moving forward with better serving our people who are struggling to get a home. Homeownership is more than just the American dream, it's the fundamental foundational leg up economically. People who are able to get into homeownership are then able to work the equity in their home for a variety of other advancements, and so this is a great step forward. These self-help housing projects are giving families opportunities they would otherwise not be able to accomplish on their own. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 79, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO HOUSING," passed Final Reading by a vote of 51 ayes.

Representative Belatti rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Belatti's written remarks are as follows:

"Mr. Speaker, I stand in support of Senate Bill 1350, Conference Draft 1.

"As related to reapportionment, this bill comports with the directive outlined in Sections 4 and 6 of Article IV of the Hawaii State Constitution and in *Solomon v. Abercrombie*, 126 Haw. 283, 270 P.3d 1013 (2012) that Hawaii's population base for purposes of apportioning members of the State Legislature and drawing district lines is restricted to permanent residents. By directing the Reapportionment Commission to 'only extract non-permanent residents from the total population of the State counted by the United States Census Bureau,' Senate Bill 1350, CD 1 supports the process that was adopted in the final work of the last Reapportionment Commission.

"As related to executive, judicial, and legislative salary deferrals, Senate Bill 1350, CD 1 appropriately recognizes the economic and fiscal challenges faced by the State during this pandemic and wisely defers these salary increases through December 31, 2022."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1350, SD 1, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO STATE GOVERNMENT," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 163 and H.B. No. 1376, HD 2, SD 2, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1376, HD 2, SD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Hashimoto rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. This bill is a culmination of efforts by many stakeholders and it lays out a plan of action once the governor's eviction moratorium ends. Mediation is a key to this bill, which is funded through the American Rescue Plan federal relief funds, and attempts to ease the burden on the court system by attempting to find resolution through a professional mediator before landlords can file any type of court action. The end goal is to ease landlords and tenants back to normalcy in a methodical manner after facing an unprecedented year.

"I would like to thank the Chair of Housing for her foresight in understanding the need to address this matter starting back in November, and as a result, this bill is a culmination of collaboration with representatives from the Mediation Center of the Pacific, landlord representatives, the Legal Aid Society, the Realtor's Association, Hawaii Appleseed, Hawaii Finance and Development Corporation, UHERO, and the Judiciary, just to name a few.

"I would also like to thank my colleagues, especially the Chair of the Consumer Protection Committee, the Majority Leader, yourself, Mr. Speaker, and the Finance Chair in helping to ensure that we could fit all of these moving pieces together to ultimately help give guidance to landlords and tenants of our state during this very difficult time. Thank you, Mr. Speaker."

Representative Nakamura rose to speak in support of the measure, stating:

"In strong support and I'd like to ask the Vice Chair of Housing's words be included as my own. I'd also like to just recognize our Vice Chair of Housing for working tirelessly with all of the stakeholders to craft the bill built on consensus. Not everyone was happy with the components of the bill, but all could live with it. We are grateful for all of the chairs who were involved from the very beginning and would like to recognize the CPC Chair for his negotiating skills to get us to the finish line. Thank you," and the Chair "so ordered." (By reference only.)

Representative Johanson rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I wanted to stand to recognize both the Housing Chair and Housing Vice Chair for their incredible work and because I think this particular bill, HB 1376, is really the epitome of what good legislation should be both in terms of process as well as final product. You've heard from the two previous speakers just how much collaboration existed on this bill, but I think just to flesh it out in a little more detail, it was Zoom meeting after Zoom meeting after Zoom meeting from November.

"And truly, it's one thing to talk to stakeholders in a silo and then report back to other disagreeing stakeholders what somebody else said. I think what is so commendable about the Vice Chair and the Chair's work on this bill is that they did it all together. It was many Zoom calls with people who adamantly disagreed and came at it from both the side of tenants' rights as well as landlord rights, an area that many of us who've been in the Legislature for a long time know is fraught with a lot of disagreement and a lot of tension and a lot of controversy. And so, to convene these stakeholders regularly and rigorously and achieve a product is very commendable.

"Also, not just in terms of process why I think this is such a great bill, but also in terms of the final product, it really seeks to help tenants who are in need, and there are a lot of them, Mr. Speaker. But I think it also balances that very nicely and arrived at a good compromise, a good constructive, effective compromise, I might add, to also ensure that all of this mountain

of debt that many landlords are left having accrued and tenants are left with ultimately has a path toward resolution.

"So, I just really want to congratulate the Housing Vice Chair and the Housing Chair for really demonstrating in this bill what great legislation should look like. Thank you."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support, request to insert written comments. And just to echo my thanks for the Vice Chair and the Chair of Housing and the Chair of CPC for leading the efforts in this collaborative legislative piece. Thank you."

Representative Belatti's written remarks are as follows:

"Mr. Speaker, I stand in strong support of House Bill 1376, Conference Draft 1.

"Emergency government orders shutting down our state economy beginning in March 2020 have disrupted our lives in countless ways. Businesses have closed for good, hundreds of thousands of residents have either lost their jobs or worked at reduced hours, and food lines were and continue to be commonplace since the start of the pandemic. Housing has and continues to be uncertain for many Hawaii residents even though state and national eviction moratoria have been in place for much of 2020 and continue today.

"House Bill 1376, Conference Draft 1 recognizes the uncertainty faced by both tenants and landlords as rental and mortgage debt has piled up while the eviction moratoria have allowed tenants to stay housed during this public health crisis. As the economy reopens and people are able to resume their previous jobs or find new employment, HB 1376, CD 1 provides a balanced approach through mediation services for tenants and landlords to resolve this back rent problem and, most importantly, work out affordable long-term rental agreements in anticipation of the end of government-imposed eviction moratoria.

"This carefully crafted process has been worked on through a collaborative process led by the Chair and Vice-Chair of this body's Housing Committee. The drafting of legislation began long before this session started and has involved numerous community stakeholders representing tenants, landlords, and government agencies such as the Consumer Advocate and the Judiciary. This process has also been crafted based upon the governmental rental assistance that is expected to reach the pockets of those who have been unable to meet their rental obligations due to hardships caused by the pandemic. Finally, funds have been secured and appropriated to ensure that mediation services are available in all four counties. As a bill that addresses a core, basic need faced by everyone, House Bill 1376, Conference Draft 1 represents what is possible when good people work together as a community to solve difficult problems."

Representative Wildberger rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In exasperated opposition, please. Every paycheck, all of you contribute \$255.63 to our ERS system. That's about \$312,000 for the House, about \$159,000 from the Senate, and then if you count up all of the contributions for the staff in the building, that's another just short of \$1 million. So, annually, \$1.4 million. A drop in the bucket compared to all of the state employees that are contributing to our ERS system.

"This bill is asking for less transparency and more opacity in the conducting of investment of your retirement dollars. A system which has unfunded liabilities. This bill is asking to allow secrecy in unconventional investments of your retirement money. So, are we going to make a big investment in Bitcoin? Who knows? Is there going to be enough money left over for my esteemed colleague from Kaimuki to retire? We won't know. I want him to be able to have a solid, reliable retirement when he reaches his pension age.

"I encourage my colleagues to take a second look at this, and do you want to have oversight over how your money is invested, do you want to know if your money is invested sustainably? Are your investments supporting our communities, or are they investing in fossil fuels, are they investing in companies like Blackstone that commit undesirable acts on our lands and to our people? Thank you very much."

Representative Perruso rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 58, HD 1, SD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Kapela rose to speak in support of the measure, stating:

"In support, Mr. Speaker, with a brief comment. I want to start by thanking the House Finance Chair and her Senate counterpart, the Chair of the Senate Ways and Means Committee, for their work on this bill. I am incredibly heartened that we passed a budget this year that addressed the economic impact and downturn and prevents major programs from being cut and also preventing layoffs.

"If we fail to raise revenue, however, we will face difficult economic challenges in the near future. This measure increases taxes on luxury property investors who can modify our *‘āina* by raising the conveyance tax on the sale of properties valued at \$4 million or greater. It also temporarily repeals a number of general excise tax exemptions that unfairly distort our tax code.

"According to the Hawaii Department of Taxation's estimates on similar versions of this bill, the provisions of this measure could raise close to \$95 million for fiscal year 2022 and \$125 million for fiscal year 2023. We need that money in order to sustain the programs that we are using federal funds to subsidize this year and to cover the cost of future expenses, such as expanding access to quality preschool programs and creating a clean energy economy and uplifting our public health.

"So, I hope that in years to come, we will look at additional measures to tax the rich to produce the revenue that we need in order to help our working families. But until then, this bill is one step forward in a pursuit of an economic justice for all. So, thank you very much."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. Conf. Com. Rep. No. 174 and H.B. No. 1348, HD 2, SD 2, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1348, HD 2, SD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise with reservations. Mr. Speaker, this is probably my fifth or sixth speech on this issue. This is about the Stadium Authority and its lack of creative, innovative taxpayer saving methodology by at least putting out there selling the naming rights of Aloha Stadium. It's been done by so many places, even right at UH field. And I can't understand why if you don't ask, you don't get, why we don't at least ask. And I know that this is kind of a broken record, but Mr. Speaker, we're at a difficult time in terms of our finances, and to be able to do this, at least leverage it, give people the opportunity to name the Aloha Stadium, whether it's Hawaiian Airlines or whether it's any other company that wants to come in. But the point is, taxpayers need to be aware that we're not doing that and the fact that we should be. Thank you."

Representative LoPresti rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I share some of the concerns of my colleague from Hawaii Kai, but my opposition has always been largely about, and again I'm sorry to repeat myself, but the lack of a clear plan in any redevelopment for the Stadium Development District for an emergency laydown area. I hope to God we never need it. But someday when there's a south shore event, a major tsunami, or a man-made disaster in Honolulu Harbor, where we have to go to the emergency backup plans to unload containers that we can't use Honolulu Harbor, we're not going to have an area where we can lay those down, and people will die, because they're not going to get their food, they're not going to get their medicine, there aren't

enough airplanes to bring in stuff into the state if there is a major emergency. And still to this day, there is nothing in the plan to make sure that we simply have a parking lot, a parking lot strong enough to hold containers. But we can't get this in there.

"My other major concern has always been, even going back to 2017, I think it was, when I made a speech on the floor about who runs the Stadium Development District Authority, they're largely lobbyists. We're giving so much control and so much power to these appointed lobbyists to make these deals presumably on behalf of the public interest and the public good. Forgive me, I don't have that kind of faith in lobbyists to do that. There's nothing preventing any of these people from suddenly changing jobs and becoming some highly paid six figure, maybe seven figure, consultant for the people who get these contracts."

Representative Belatti rose to a point of order, stating:

"Point of order, Mr. Speaker. Can the speaker address the rostrum?"

The Chair addressed Representative LoPresti, stating:

"Yes, please confine your remarks Representative LoPresti."

Representative LoPresti continued, stating:

"Thank you, I believe I am. I hear a noise behind me, I might turn around. But I'm addressing my remarks this way.

"I don't have the faith in lobbyists to make the right decisions for the public good and the public interest. There's nothing preventing them that prevents people like us, we can't just switch our jobs and become a lobbyist and make money off of, but not that anybody has ever done that, of course, that we can't just switch jobs and become a lobbyist and start making money for companies that might have benefitted from legislation we've done in the past. There's nothing preventing these lobbyists from doing that necessarily, and I don't trust them to do the right thing. And I just think it's too much power for a small select group whose only real qualification in my book is having given money to people like us. Thank you. I wish to insert comments in the Journal. Thank you."

Representative LoPresti's written remarks are as follows:

"In a collective mad dash to demolish and redevelop the Aloha Stadium District, any number of considerations appear to have been swept aside. To the benefit of some who see it as an opportunity enrich themselves and their allies, it appears at this stage that little to no consideration is being given to affordable housing, workforce housing, or perhaps most importantly, the district's central role for use in extreme emergency situations.

"Indeed, among the members of the Aloha Stadium Authority, there appears to be little to no experience in large development projects, let alone affordable housing projects. The authority is comprised almost entirely of lobbyists, consultants, and financial advisers. It's hard to have trust in how the New Aloha Stadium Entertainment District will genuinely serve the people, when those at the helm are bought and paid for.

"Honolulu Harbor is an indispensable port for the container ships that are vital lifelines for Hawaii's food supply, not to mention the countless other products and supplies that allow us all to live in these remote islands. Plans are largely in place to use the port at Joint Base Pearl Harbor-Hickam as a backup should Honolulu Harbor become unusable by disaster. However, there is no space within the Joint Base that can serve as a laydown storage area for shipping containers.

"The New Aloha Stadium Entertainment District has been identified by HI-EMA and the DOD as the best place for this laydown storage area. In all my discussions on this critical topic, I have not heard anyone contradict that assessment. And yet, as this body moves forward with development plans for the district, absolutely no consideration has been given to the need for this emergency infrastructure.

"In order for the New Aloha Stadium Entertainment District to serve in emergencies as a laydown storage area, the parking lots need substantial reinforcement to accommodate the weight of all those shipping containers. For years I have urged this body to include in the legislation for Aloha Stadium planning and construction costs to include these much need

infrastructure reinforcements. And to this day, my concerns have fallen on deaf ears.

"As Dave Shapiro noted in a January 21st column, the 'State response to concerns by UH and others,' [including myself], 'resembles the city's old dodge on rail, when critics were told at first it was too early to offer alternatives, then told when they tried again later that decisions were made and it was too late.'

"That the University of Hawaii has been a primary tenant of Aloha Stadium for so many years, yet was not consulted on the stadium's closure and doesn't appear to be much included in the ongoing plans for the new stadium is puzzling to say the least. And at worst may serve as canary for the project moving forward. Is no one asking themselves why we need a new sports arena when the primary sporting tenant has been excluded and seems at best only mildly interested in it?

"Tom Yamachika, in a CivilBeat column last June, highlighted the cost of the project. He wrote, 'The plan is for the state to put up \$350 million, with \$20 million coming from the general fund and the rest being borrowed...,' he continued, 'That sounds like a good deal, but there are still some tough questions to be answered.' Indeed.

"Where was the urgency for DLIR's antiquated unemployment insurance system? Or the crushing backlog of pending claims for the thousands and thousands of residents who remain out of work? Or exempting unemployment insurance benefits from state income taxes?

"Indeed, even at this stage in the process, the New Aloha Stadium Entertainment District seems to be poised to become yet another luxury community, ignoring long-needed affordable housing units and following in the footsteps of the redevelopment of Kakaako.

"During a February 9 press conference, the Governor had this to say about the need for and cost of the New Aloha Stadium Entertainment District; 'The cost of a new stadium is significant. From our perspective in the Executive, we did not appropriate the funds in our CIP budget to reconstruct the stadium. It has never been in our budget. It's hard. It's a very expensive item and when we're looking at public schools, health care facilities, the University of Hawaii and other kinds of core infrastructure in our community, it's hard to say that we want to spend \$350 million or so on a replacement for the stadium... My understanding is the stadium is structurally sound... There are things we can do to prolong the life of the stadium.'

"I remain frustrated that none of these concerns have been seriously addressed at any stage of this bill's progress and have no confidence in the Stadium Authority's ability to oversee this project. Moving forward, the Legislature and the Governor need to keep a watchful eye on the Stadium Authority to ensure the project is managed responsibly and that there are no shenanigans on the part of the authority's members for their own personal enrichment, or the personal enrichment of their friends or political allies. I and others will be watching for years to come."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1348, HD 2, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE STADIUM DEVELOPMENT DISTRICT," passed Final Reading by a vote of 50 ayes to 1 no, with Representative Ward voting aye with reservations, and with Representative LoPresti voting no.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 469, HD 1, SD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Lowen rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition and a brief comment. Even though I recognize this is just a working group, the way that the language is currently written presumes the ultimate transfer of these lands from DOA to DLNR. And I think there still needs to be more discussion that takes place about whether that should be the end result, not simply about how it happens. The transfer of these lands out of DLNR could mean that they never ever are put back into conservation, that they never ever regrow the native forest that used to be there, that protect our watershed and sequester our carbon. So, thank you."

Representative Wildberger rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Kapela rose in opposition to the measure and asked that the remarks of Representative Lowen be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Perruso rose in support of the measure with reservations and asked that the remarks of Representative Lowen be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Marten rose in support of the measure with reservations and asked that the remarks of Representative Lowen be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative DeCoite rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative DeCoite's written remarks are as follows:

"I am voting with reservations on this bill because there are many different points of view on how we should best transfer non-agricultural park lands from the DLNR to the DOA. I hope that the working group that will be established under this bill will be able to determine the best path forward in accomplishing this task. I also am hopeful that the working group will include all interested parties in their deliberations and carefully consider their input. *Mahalo.*"

Representative McKelvey rose in support of the measure with reservations and asked that the remarks of Representative Lowen be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. Representative Yamane rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Standing in support. Mr. Speaker, when you assigned me the Committee of Health, Human Services, & Homelessness, you asked us to be bold. The measure before you, Mr. Speaker, takes a bold step forward. Before I continue on my comments, I did want to say my deepest appreciation to your Chair of Finance, she brought the bill back from the brink of death to be before you today. Mr. Speaker, in collaboration with both the Chair of Health on the Senate as well as the Chair of Human Services in the Senate, all three chairs worked together tirelessly to bring in all the various stakeholders to the table.

"Mr. Speaker, what you have before you is a single measure that not only will move the state forward on addressing long-term care issues, but, Mr. Speaker, also allows the state to be more proactive on things of chronic homelessness as well as severely mental health issues. Mr. Speaker, as chair, I had to work with various entities. I would like to thank the Chair of Labor as well as HGEA as we move forward on this measure allowing them to look outside the box.

"Mr. Speaker, in this measure before you, you will have within a transition of a year and a half of movement in which now we will be able to positively impact the lives of hundreds, maybe thousands, of Hawaii residents, those that are suffering with severe mental health issues, Mr. Speaker, also addressing the economic drag on having chronic homelessness entering our emergency rooms. So, before you, again, I would like to thank you for your support on moving this measure and bringing it to the floor as we address what you charged our committee to do, which is be bold, to address our fiscal impact, and address the needs of the people of Hawaii. Thank you."

Representative Tam rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I want to take this moment to thank the Chair of the Health, Human Services, & Homelessness Committee for his work on this bill. I've seen him spend late nights and a lot of time working on this and I just wanted to make it for the record that he deserves the deepest amount of appreciation for what we are about to vote on today."

Representative Luke rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I also wanted to thank the Chair of Health for being able to allow us to pass this bill. This has been the work of years by former Health chair and myself, and this new Health chair was able to accomplish what we are doing today.

"The Oahu region has never been a profit-making portion, only because it really deals with the individuals who have nowhere else to go, because they are the Medicaid population that no other private entities wanted to take, so the two Oahu, Maluhia and Leahi, were never able to make enough money to support themselves.

"The result of that was that all the other HHSC entities, which basically were the neighbor island hospitals, and for certain areas it was the only major hospital in that neighborhood, had to contribute money for the Oahu region to continue its function. And that's how the HHSC, the whole corporate model became. And so because of that, there was a lot of inequities and so in as much as the neighbor island health care hospitals wanted to succeed and provide different types of state of the art health needs or health care for its residents really, unfortunately because of the way the structure was made, it could not move in that direction.

"But the Oahu region has a different purpose, and thanks to deputy director of Health, Eddie Mersereau, who really deserves the credit for working on this issue, the two hospitals in the Oahu region serves a purpose of the continuum of service for whether it's homeless individuals or to take care of mental health or how do we integrate the entire behavioral health agencies within the Department of Health, integrate that with the state hospital, Hawaii State Hospital, how do we provide beds that our private hospitals and public hospitals cannot provide? So, this is a significantly important piece of legislation and my heartfelt gratitude goes out to the

Health Chair for helping us get to the next stage of tackling behavioral health within the State of Hawaii. Thank you very much."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. May I have the words of the previous speaker adopted as if they were my own, and request to insert written comments," and the Chair "so ordered." (By reference only.)

Representative Belatti's written remarks are as follows:

"Mr. Speaker, I stand in strong support of Senate Bill 628, Conference Draft 1.

"Senate Bill 628, Conference Draft 1 is one of this Legislature's significant bills that achieves long-needed structural and regulatory reform that will have enduring impact and will improve people's lives. By initiating the transition and transfer of Oahu's regional health care facilities from the Hawaii Health Systems Corporation (HHSC) to the Department of Health (DOH), this bill will ensure that there is a stronger continuum of care for those with serious behavioral health needs and substance abuse problems across the state, as well as ensure that there are more long-term care services and beds for our *kūpuna* on Oahu.

"Leahi Hospital and Maluhia are currently safety-net facilities that provide important long-term care services to Medicaid patients. At the same time, gaps in service persist for those in need of subacute behavioral health services and stabilization beds because they are struggling with mental health conditions, substance use, and homelessness. By beginning this transfer, the Department of Health will be better able to coordinate the services and network of stabilization beds that are needed to triage, clinically assess, and place patients in the appropriate setting whether it is at lower acuity residential and community-based programs, intermediate post-acute care facilities, or higher-level acute hospitals.

"Improving Hawaii's healthcare systems is a constant work in progress. Senate Bill 628, CD 1 represents a significant milestone in advancing care and strengthening Hawaii's behavioral health system overall."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, a no vote on this and a couple of comments. Mr. Speaker, I hope the Chair of Finance is right. I just don't have the same faith that putting it into the government hands is going to do the job, because it's lost millions and millions of dollars over the years. And how we look at the Department of Health, how it handled the pandemic and what happened with the personnel, there's a number of things that, when you're working for government, you're in a different mindset.

"So, the bottom line, Mr. Speaker, is I'm not from Missouri, but it's going to be, show me that this is going to be better, because when somebody says I'm from the government, I'm here to help you, which I think this bill says, it's not a good sign of what we can expect for future development. And that is, basically having these hopefully break even or not be so much in red ink as they have been over the past decade or so. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 628, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE TRANSITION OF THE OAHU REGIONAL HEALTH CARE SYSTEM FROM THE HAWAII HEALTH SYSTEMS CORPORATION INTO THE DEPARTMENT OF HEALTH," passed Final Reading by a vote of 50 ayes to 1 no, with Representative Ward voting no.

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 862, HD 2, SD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Wildberger rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. This bill is so very different from the draft that I signed earlier this year. And my name is on it, so I'd like to express why I oppose the final version of this bill.

"I am very grateful for the Finance Committee getting a handle on HTA's spending and reducing their funding and creating accountability. I am opposed to the reduction in TAT tax that the sister island counties are going to be tasked with generating themselves. In the case of Maui, who generated \$280 million in calendar year of 2019, 3% of that will be a solid two-thirds reduction from the \$22 million we used to be allocated, and it just feels like a taxation without representation issue to me. Thank you."

Representative Tam rose to speak in support of the measure with reservations, stating:

"With reservations and a brief comment. I want to thank the Chair of the Economic Development Committee, the Chair of the Labor & Tourism Committee, and the Chair of Finance for their hard work negotiating this bill, and HTA for their work trying to revive our economy.

"There are a lot of moving parts to this bill and I think that it definitely has some merit and it's worth a try. This is a year to restructure our government and this pandemic allows us to do that. And if this bill doesn't work, I think that we can always come back. But it is definitely worth a try, especially when we're talking about restructuring our government. So, for those reasons, I'm in support with reservations."

Representative Quinlan rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. I'd also like to thank the Finance Chair and the Chair of Labor & Tourism for helping me work on this measure. Besides the obvious, let me tell you, for years and years and years, the Hawaii Tourism Authority has enjoyed an incredible degree of not just autonomy, but guaranteed funding. And they produced results, they produced some incredible results, 11 million visitors a year.

"But I submit to the members that perhaps they weren't the results that we really wanted. And if you ask my constituents, they would tell you that we brought too many people who on average were not spending enough money per person. So, the impacts of the visitor industry have started to outweigh the benefits in many parts of Hawaii.

"So, this measure is one of accountability to not just the taxpayer but also to the Legislature, as we seek to redefine what the future of tourism is in Hawaii. Thank you."

Representative Todd rose to speak in support of the measure, stating:

"Thank you, in support. I just first wanted to thank the body and particularly the Economic Development Chair and Finance Chair for ensuring that PISCES still exists, because I know that was a point of contention earlier in the year. And on behalf, I think, of a lot of the East Hawaii legislators, in particular, I'm very thankful for that.

"And then beyond that, I did want to note that while there is a possibility that the total revenue to the neighbor islands will decline with this change to the way TAT is distributed, that doesn't have to be the case. It just depends on what is actually collected. And if you look at the 3% that is proposed, that in theory should actually lead to more money for the counties than the \$103 million which was a share of roughly \$600 million. So, 3% was actually higher than they had been receiving, assuming that TAT revenues return to normal. Thank you."

Representative Ganaden rose to speak in support of the measure, stating:

"In support, Mr. Speaker. I'd like the words of the Representative from the North Shore inserted into the Journal as if they were my own. Also thanking the Finance Committee and the Committee on Labor & Tourism. As the representative of thousands of people who work in the hotel industry, I think that the reining in of the taxpayer dollars spent on Hawaii Tourism Authority is long overdue, and that this bill represents a test. A test as to whether or not trickledown economics works in real time. Whether or not hotels, in asking for taxpayer dollars to spend on public relations sent out to mainly Americans who are going to come here no matter what because they

can't travel abroad, will be spent on the taxpayers themselves, will be spent on the human beings who live and work in our communities. And right now, they are not totally doing that. They're not rehiring at an effective rate, they're not bringing back people who lost their jobs last year. So, my thanks again on reining in the budget for the Hawaii Tourism Authority," and the Chair "so ordered." (By reference only.)

Representative Tokioka rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In support with reservations. And I'd like to take this opportunity to thank the Labor Chair. When we were on a recess, I asked him about the bill. I'm sure many of us received the emails from the industry, and he shared some discussions that he had had with the industry, and that helped me understand the position that we were in with everything going on. And I do know for all of us who read the bill when it came over from the Senate or their version of it, this is a way, way better bill. It kept in a lot of the Hawaiian programs which was important to many of us, it kept the body whole. But I do have concerns with the decrease in the taxes for the counties. Although we're all going to be suffering now, it's hard to tell what it's going to turn out to be. So, for that reason, I just want to thank, as well as the Chair of Labor & Tourism, the Chair of Economic Development for their work on this bill. Thank you very much, Mr. Speaker."

Representative Marten rose to speak in support of the measure, stating:

"I rise in support, but I do want to say that I have learned that I will never introduce a bill as titled 'relating to state government' again. This bill was dramatically transformed, and I was very concerned when they added in cuts to HTA. I've actually been very supportive of HTA's change from simply marketing to more management of tourism, and I wanted to continue to support that movement, and so I'm glad that the House worked to restore funding. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. No vote, brief comment. Two reasons why this is not good policy, Mr. Speaker. First of all, it lets the tax issue out of the bag. Counties generally have taxation for property taxes. This now puts them into the hotel tax, and the hotel tax specified in the bill is on top of the transient accommodation tax of the state. So, the lack of competition, or let's say that they're going to be more expensive to go to the neighbor islands than before.

"The second thing, and it's part of this bill, Mr. Speaker, we dropped the ball on space exploration, diversifying the economy, and aerospace tourism. It's unfortunate, because that's going to be the future when electric and self-driving cars come, these drones and all the things that were going to be in the Office of Aerospace are now going to be put on the side.

"So, the issue of the taxation, we wanted the community to be uniform in terms of the Safe Travels Hawaii, now we're going to have different kind of taxes on different hotels on different islands. I don't think that's a good policy, and it lets the whole taxation issue, which was a property tax issue, out of the bag and who knows where it's going to take us. For those reasons, Mr. Speaker, serious doubts as to whether this policy will ever reach anything good. Thank you."

Representative Luke rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Let me just start by thanking the Representative from the 51st District for allowing a broad title for us to be able to put in sections of the bill. But that is a lesson for all of us, when we send over broad titles, it can come back with something like this. But I do want to thank the Labor Chair, the ECD Chair, initially this had tons of other components, but we were able to wheedle it down to what was important for the House.

"So, what was important for the House, Mr. Speaker? It was important that we have a mechanism to hold HTA accountable and to set a vision for HTA, which was not specifically industry driven, but really state driven. So, that's why in this bill and what has been passed this year is to take the research portion out of HTA and give it to DBEDT.

"Because, at the beginning of the year when we hear from economists and they talk about the tourism numbers growing on a yearly basis, where it hit

10 million tourists prior to COVID hitting, but the amount of tourism spending has not kept up with the number of tourists coming into Hawaii has been a disturbing trend for many of us. How do we fix that? And that has been the big issue that we've been grappling with. In as much as whether it's the House or whether it's the Senate, administration, outside community members, HTA, they've all talked about, we cannot go back to how it was before. We cannot have 10 million tourists come onto our lands and continue to grow without individuals paying the comparable or proportionately same amount of spending. Well, this bill does that.

"What does it do? Instead of having a 10.25% or with the rail tax 11.25%, there's a potential that hotel tax could be 13%. There's the potential that not just on hotels, Airbnbs and bed and breakfasts could also have an addition to their property tax, the additional 3%. In addition to this bill, there's a rental car surcharge bill that has increased, ocean stewardship that has increased, the parks funding that has increased, but this is all part of the big plan to, how do you have tourists pay for their fair share of using natural resources in the State of Hawaii, or should that burden be transferred to the local residents? And I think our answer collectively is no.

"So, I am very proud to stand today to pass this bill, to have an opportunity for us to pave the future about curbing tourism, but at the same time having the right type of tourists who will pay their share, who will pay for the use of resources, who will pay for the use of coming to Hawaii, and I am very proud to be part of this House. So, thank you very much to the Labor Chair, thank you very much to the ECD Chair, and the Tourism Chair. Thank you."

Representative B. Kobayashi rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I'd like to touch on the various themes here. Number one, county autonomy. I believe that giving the counties authority to add on a hotel room tax provides them with autonomy, true autonomy, so that they can determine their own future. I once worked in the State of Michigan where county autonomy, or sometimes home rule, was a huge and important issue. County officials in Michigan could run their entire campaign on that plank of home rule.

"Personally, I believe that eventually we should think about expanding county autonomy and giving counties more taxing authority, not just for the hotel room tax. Let them put their votes on the line. Let them be accountable to their own counties. One size does not fit all. The kind of needs that Honolulu has are far different from County of Kauai, and that should be noted. And we, the State of Hawaii, cannot easily do that. We tend to look at each county as more or less the same, depending on which county we come from.

"The second point is sustainable tourism. I don't know what that means, and I believe that HTA has only a fuzzy definition for what that means. I think that eventually if HTA does figure out what that means, they should put it into hard terms, particularly dollar terms, and tell us what they're going to spend their money on.

"I once was executive secretary of the governor's Commission on Population and the Hawaiian Future. This was an attempt to deal with what was called quality growth. We were talking about having too many tourists, or the potential of having too many tourists in Hawaii. Their concern was, and this was 1975, so I'm dating myself, this was their concern, that Hawaii in the year 2000 would have 11 million tourists. Of course, that did not happen in year 2000, but in the year 2019 we did have 10 million tourists and we seem to be climbing very, very rapidly to 11 million tourists.

"Back in the 1970s, this concern about quality growth was sufficient so that you had virtually every large corporation in town represented by their CEOs involved in a huge task force and set of meetings and conferences to try to figure out how to achieve quality growth. I think that maybe we need to think about and marshal the leaders of the community, again going back to what happened in the 1970s, and really put together a communitywide vision of sustainable tourism.

"So, for these reasons, I support this bill and I hope that this is the first step in a conversation with HTA and the entire industry to figure out what we will become. Thank you."

Representative Har rose in support of the measure with reservations and asked that the remarks of Representative Tokioka be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

H.B. No. 136, HD 1, (SD 1)
 H.B. No. 391, HD 3, (SD 2)
 H.B. No. 490, HD 2, (SD 1)

 H.B. No. 1041, HD 1, (SD 1)
 H.B. No. 1322, HD 1, (SD 2)

The Chair addressed the Clerk who announced that the record of votes for the appropriate measures had been received, which indicated that the requisite number of House conferees appointed had agreed to the amendments made by the Senate, and had cast affirmative votes to report said measures to the floor for final disposition.

H.B. No. 136, HD 1, SD 1:

On motion by Representative Belatti, seconded by Representative Morikawa and carried, H.B. No. 136, HD 1, SD 1, entitled: "A BILL FOR AN ACT RELATING TO LIQUOR LICENSES," passed Final Reading by a vote of 51 ayes.

H.B. No. 391, HD 3, SD 2:

In accordance with the Conference Committee Procedures agreed upon by the House of Representatives and the Senate, the managers on the part of

the House recommended that the House agree to the amendments proposed by the Senate to H.B. No. 391, HD 3, on the following showing of Ayes and Noes:

Ayes, 4 (Ohno, Kitagawa, Matayoshi, and Ganaden). Noes, none. Excused, 1 (McDermott).

On motion by Representative Belatti, seconded by Representative Morikawa and carried, H.B. No. 391, HD 3, SD 2, entitled: "A BILL FOR AN ACT RELATING TO THE RESIDENTIAL LANDLORD-TENANT CODE," passed Final Reading by a vote of 51 ayes.

H.B. No. 490, HD 2, SD 1:

Representative Belatti moved that H.B. No. 490, HD 2, SD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Hashimoto rose to speak in support of the measure, stating:

"Mr. Speaker, strong support of 490. This measure attempts to protect those trying to enjoy their golden years and creates enhanced penalties for those who commit crimes against our seniors, from bodily injury to breaking and entering to theft, forgery, or fraud. The hope is that those who target crimes against those who are more vulnerable will think twice and hopefully deter these crimes from happening in the first place.

"This priority of the Kupuna Caucus will go a long way in helping to keep our community safe, and I want to thank the Health, Human Services, & Homelessness Chair for his leadership along with the Judiciary Chair and members of the Kupuna Caucus along with each of the stakeholders for their support and input into making this measure a reality. Thank you, Mr. Speaker."

Representative Takayama rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I would like to commend the previous speaker, not only for his authorship of this important measure, but also for his leadership as House convener of the Kupuna Caucus. Even though he is himself not of *kupuna* age, I think his participation shows that the impact of senior issues affects multiple generations, affects all of us in some way. So, I'd like to thank him for his leadership and express my hopes for his many more years of successful leadership on behalf of the Kupuna Caucus. Thank you."

The motion was put to vote by the Chair and carried, and H.B. No. 490, HD 2, SD 1, entitled: "A BILL FOR AN ACT RELATING TO CRIMES AGAINST SENIORS," passed Final Reading by a vote of 51 ayes.

H.B. No. 515, HD 1, SD 2:

Representative Belatti moved that H.B. No. 515, HD 1, SD 2 pass Final Reading, seconded by Representative Morikawa.

Representative Belatti rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support with request to insert written comments."

Representative Belatti's written remarks are as follows:

"Mr. Speaker, I stand in support of House Bill 515, Senate Draft 2.

"Farm to school initiatives are important priorities of this legislative session to achieve the ultimate goal of improved food security for our island state. Part I of this bill is a critical piece in understanding the progress that has been made to date by the Hawaii Department of Education (DOE) in purchasing locally sourced produce. This will provide valuable information on the baseline amount of produce that the DOE's Food Services Branch currently purchases and insights into the ways in which the DOE can accelerate its activity to achieve the 30% locally sourced products goal set forth in House Bill 767, Senate Draft 2."

Representative Kapela rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations and a brief comment. So, to begin, I do fully support this measure's original intent, which was to discover how much locally produced food is being used in our public school system's food

service programs. I have reservations about part two of this bill, however, which requires the Board of Education to prioritize superintendent candidates that have ten years of employment in the DOE, including no less than five years serving in the position of principal or higher.

"On earlier drafts of this measure, the House took the position that the BOE should prioritize candidates who have served for at least five years in our school system in the position of teacher or higher, which would have allowed the board to give equal consideration to superintendent candidates who have demonstrated excellence as classroom leaders.

"We often say that teachers are the most important factor in determining a child's learning growth. If that's true, then we should uplift the experiences of teachers in our search for the new superintendent. Focusing on departmental administrators will only reproduce the exact same shortcomings of the system that we have now, and if we want real change, then we should prioritize the idea of the teachers whose professional creativity and excellence is too often silenced by institutional paralysis. Thank you."

Representative LoPresti rose in support of the measure with reservations and asked that the remarks of Representative Kapela be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and H.B. No. 515, HD 1, SD 2, entitled: "A BILL FOR AN ACT RELATING TO THE DEPARTMENT OF EDUCATION," passed Final Reading by a vote of 51 ayes, with Representatives Kapela and LoPresti voting aye with reservations.

H.B. No. 767, HD 2, SD 2:

Representative Belatti moved that H.B. No. 767, HD 2, SD 2 pass Final Reading, seconded by Representative Morikawa.

Representative Belatti rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support, request to insert written comments."

Representative Belatti's written remarks are as follows:

"Mr. Speaker, I stand in strong support of House Bill 767, Senate Draft 2.

"This bill moves the Farm to School program from the Department of Agriculture to the Department of Education (DOE) to advance Hawaii's initiatives to strengthen Hawaii's food system and ensure students have access to fresh, locally grown and locally sourced foods. Since its inception in 2015, the Farm to School program has worked through the Department of Agriculture in collaboration with the DOE to better understand Hawaii's food system and the opportunities and challenges facing Farm to School efforts.

"Six years after the program's inception and with a Farm to School coordinator position that has worked within the DOE since 2018, this formal transfer will allow the Farm to School program to advance and accelerate its efforts, especially in working through and improving the DOE's procurement system to ensure that the 30% purchasing goal in this bill is met by 2030.

"Local farmers, ranchers, and producers need to be able to: (1) understand the opportunities with public schools – whether these are school, complex, or statewide opportunities; (2) identify crops and other products that can be grown and produced annually for schools; and (3) navigate the procurement and contracting system with a degree of certainty about the locally grown or locally sourced products that will need to be provided on an annual basis. A Farm to School program spearheaded from within the DOE as envisioned by this bill will lead to healthy results for our students, our farmers, and our local producers."

Representative Cullen rose to speak in support of the measure, stating:

"Strong support. I just wanted to thank the Chair of Agriculture, Finance Chair, and our colleagues on the other side for looking at this measure. Because this measure as it was and it has been a strong initiative not just from the Legislature, but from the Executive Branch and the DOE.

"This measure sets a goal, and I just want to send a big *mahalo* to all the advocates that have continually worked on Farm to School. And this sets us a target and a goal to where we need to go, because when people talk about the state purchasing local, DOE serves over 100,000 meals a day in school. So, when you talk about purchasing power, this moves the state forward in procuring and purchasing locally grown food, and will provide healthier meals for the future generations. And may I please ask for permission to insert further written comments. Thank you."

Representative Cullen's written remarks are as follows:

"Mr. Speaker, I stand in support of HB 767, HD 2, SD 2. This measure is the continuation of work that has been done for Farm to School in the past by all advocates. As the first state in the nation to codify these goals relating to Farm to School, this measure provides us more input from partners and opens the way for new ideas on how we can work towards these goals. Just like how the state pushed our future into clean energy with goals, we will do the same with local food production, self-reliance, sustainability, and healthier options for future generations. For these reasons, I stand in strong support. *Mahalo* to all that supported these efforts."

The motion was put to vote by the Chair and carried, and H.B. No. 767, HD 2, SD 2, entitled: "A BILL FOR AN ACT RELATING TO THE FARM TO SCHOOL PROGRAM," passed Final Reading by a vote of 51 ayes.

H.B. No. 991, HD 2, SD 2:

On motion by Representative Belatti, seconded by Representative Morikawa and carried, H.B. No. 991, HD 2, SD 2, entitled: "A BILL FOR AN ACT RELATING TO THE DISCLOSURE OF VITAL STATISTICS RECORDS," passed Final Reading by a vote of 51 ayes.

H.B. No. 1020, HD 1, SD 2:

In accordance with the Conference Committee Procedures agreed upon by the House of Representatives and the Senate, the managers on the part of the House recommended that the House agree to the amendments proposed by the Senate to H.B. No. 1020, HD 1, on the following showing of Ayes and Noes:

Ayes, 3 (Tarnas, Nakashima, and Branco). Noes, none. Excused, 1 (McDermott).

Representative Belatti moved that H.B. No. 1020, HD 1, SD 2 pass Final Reading, seconded by Representative Morikawa.

Representative Belatti rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support."

Representative Gates rose to speak in support of the measure, stating:

"In strong support. I would like to give a big *mahalo* to the Water & Land, JHA, and FIN Chairs for moving this measure forward. During COVID, our state parks has seen the need for a reimagining how we manage it. Not just for our tourism population, but also for our local residents. In Waianae, our state parks remain closed to the public, and I believe that this measure will help move that forward. I would also like to thank the Finance Chair for beefing up the DOCARE budget to help manage and enforce these big ragers that happen at these state parks as well as to enforce park rules so that our *'āina* is taken care of. Thank you."

The motion was put to vote by the Chair and carried, and H.B. No. 1020, HD 1, SD 2, entitled: "A BILL FOR AN ACT RELATING TO ADAPTIVE NATURAL RESOURCE MANAGEMENT," passed Final Reading by a vote of 51 ayes.

H.B. No. 1041, HD 1, SD 1:

On motion by Representative Belatti, seconded by Representative Morikawa and carried, H.B. No. 1041, HD 1, SD 1, entitled: "A BILL FOR AN ACT RELATING TO CONFORMITY TO THE INTERNAL REVENUE CODE," passed Final Reading by a vote of 51 ayes.

H.B. No. 1322, HD 1, SD 2:

On motion by Representative Belatti, seconded by Representative Morikawa and carried, H.B. No. 1322, HD 1, SD 2, entitled: "A BILL FOR

AN ACT RELATING TO TRAUMA-INFORMED CARE," passed Final Reading by a vote of 51 ayes.

At 12:20 p.m., the Chair noted that the following bills passed Final Reading:

H.B. No. 136, HD 1, SD 1
H.B. No. 391, HD 3, SD 2
H.B. No. 490, HD 2, SD 1
H.B. No. 515, HD 1, SD 2
H.B. No. 767, HD 2, SD 2
H.B. No. 991, HD 2, SD 2
H.B. No. 1020, HD 1, SD 2
H.B. No. 1041, HD 1, SD 1
H.B. No. 1322, HD 1, SD 2

FINAL READING

Representative Belatti moved to agree to the amendments made by the Senate to the following House Bills, seconded by Representative Morikawa and carried:

H.B. No. 345, HD 2, (SD 2)
H.B. No. 961, HD 1, (SD 2)
H.B. No. 975, HD 1, (SD 1)

Ayes, 4 (Yamane, Ichiyama, Tam, and LoPresti). Noes, none. Excused, 1 (Ward).

On motion by Representative Belatti, seconded by Representative Morikawa and carried, H.B. No. 345, HD 2, SD 2, entitled: "A BILL FOR AN ACT RELATING TO ASSISTED COMMUNITY TREATMENT," passed Final Reading by a vote of 51 ayes.

H.B. No. 961, HD 1, SD 2:

Representative Belatti moved that H.B. No. 961, HD 1, SD 2 pass Final Reading, seconded by Representative Morikawa.

Representative Perruso rose to speak in opposition to the measure, stating:

"In strong opposition. So, I wanted to reiterate my concern about the first part of this measure. The first part lays out an exemption for all military dependents to have to declare residency when applying for and being awarded state and county jobs. So, these public jobs will be provided for folks who won't be paying income tax in the state, and I think that that's not wise policymaking when we look at some weaknesses in our tax structure. So, I'm hoping that we come back and reconsider the first part of this measure next session. *Mahalo*."

The motion was put to vote by the Chair and carried, and H.B. No. 961, HD 1, SD 2, entitled: "A BILL FOR AN ACT RELATING TO MILITARY DEPENDENTS," passed Final Reading by a vote of 46 ayes to 5 noes, with Representatives Kapela, D. Kobayashi, Perruso, Tam, and Wildberger voting no.

ANNOUNCEMENTS

Representative Ward: "Mr. Speaker, before we go to announcements, can I have a point of auditory order, a point of information? Mr. Speaker, I would doubt that everyone heard 100% of the speeches today. I don't know if these disco speakers or whatever they are or it's our masks, but the combination. I mean, I love to hear the freshmen speeches, especially from Kona, but I didn't catch everything because it was depending on if it's too fast, something acoustically is missing, I don't know what it is, but I would bring that to the point to maybe the Sergeant or the others, so when we do debate, we certainly are able to hear everybody's words, especially yours, Mr. Speaker. Thank you."

Speaker Saiki: "Alright Representative Ward, I'm sorry I couldn't hear what you just said, but we will take it under advisement."

At 12:27 p.m., on motion by Representative Morikawa, seconded by Representative Matsumoto and carried, the House of Representatives

ORDER OF THE DAY

SUSPENSION OF RULES

On motion by Representative Morikawa, seconded by Representative Matsumoto and carried, the rules were suspended for the purpose of considering certain House Bills for Final Reading by consent calendar. (Representative McDermott was excused.)

UNFINISHED BUSINESS

Conf. Com. Rep. No. 185 and H.B. No. 1281, HD 1, SD 2, CD 1:

Representative Belatti moved that the report of the Committee be adopted, and that H.B. No. 1281, HD 1, SD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Yamane rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Standing in support. Mr. Speaker, I'm glad to be here today to talk on this measure. When you assigned me as the chair of this committee, I met with the Chair of Finance and we went over specific issues on what we would like to accomplish. After leaving her office, Mr. Speaker, I was like, my gosh, this is what she wants delivered this year? But I'm happy to say we're able to deliver this measure before you, which will transfer the Oahu EMS system to the County of Honolulu.

"Mr. Speaker, this transfer was worked in negotiations with the Mayor's Office as well as council members in the City & County of Honolulu. Mr. Speaker, we were able to solicit the support not only of the Governor's Office, but as well as my colleagues across in the Senate Chamber, specifically Chair Jarrett Keohokale, who sat across from me and also worked diligently on bringing everybody to the table.

"Mr. Speaker, the measure before you, which has been tried before, has all these stakeholders in support. Mr. Speaker, when I was volunteering to give vaccinations to our first responders, all those EMS personnel, while they waited in line, I would ask them what their position would be on this new opportunity. And all of them said they are looking forward to now working together as a first responder team on equal footing, as EMS with fire and with HPD.

"So, Mr. Speaker, I took that charge, and with the support of your Finance Chair, and I appreciate her standing with me during the process, we began negotiations. So, Mr. Speaker, what you have before you today is a multimillion-dollar process in which we will transform the EMS system throughout the County of Honolulu. Mr. Speaker, this will not only address future governmental spending, but it will also retransform and give our paramedics more options, not only professionally, but also fiscally.

"So, Mr. Speaker, on behalf of myself and my committee and my co-chairs that supported, like the Chair of Finance, which I appreciate your leadership, the Chair of Labor & Tourism, and others, I am very proud today to offer this measure before you for approval. Thank you."

Representative Luke rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I would like to thank the Health Chair for his work on this bill that has been an issue for many, many years, and in spite of the pandemic year and us having to deal with many of the COVID issues, it is pretty historic that we are able to pass this bill today. So, my heartfelt gratitude goes out to the Health Chair and also the Senate Health Chair.

"The issue with EMS over the years has been that every community needs additional ambulance services, but because of the statewide system, there is a priority ranking that comes into play. So if, for instance, Kapolei or the Leeward side need an additional ambulance, that doesn't come into play until we look at the need for the rest of the state. So, many times you wonder, hey

you know what, our area could use another ambulance, but unless it rises to the top of the priority list, many of the counties are not within their power to implement and fund their ambulance unit. And over time as we struggle to look at, okay, who's next in line to receive a new ambulance, it has been a struggle. And so, what this does is, it's a pilot project for all the counties to set their own destiny and how they can use ambulance services and best serve the needs of their community.

"Some might wonder, okay, will this be a revenue loss for the City & County of Honolulu? Actually, it's not. The amount that the State of Hawaii provides City & County of Honolulu is around \$49 million a year. Because of the formula that was devised by the Chair of Health working with the Senate Chair of Health and the department and the city, over the next four years it's only about a \$3 million revenue loss, but that can be supplanted and supported by the type of bills that we have passed just in the last couple of years.

"So, for instance, State of Hawaii is one of the western states that charges the least amount of money for ambulance services. Other states charge for ambulance services at a much higher rate, which is paid by either Medicaid, Medicare, or health insurance. So, in our system, the state and the taxpayers are pretty much paying for many of the ambulance services, where it could be spread out among the healthcare providers and the services that we're already providing.

"The other thing that the state has done is, in the past we could only charge for the use of ambulance if it was from your home or destination to an ER. Just in the last few months, thanks to the work of the current Health chair and the prior Health chair, who is now the Vice Speaker, and also prior, prior Health chair, who is now the Majority Leader, so you can see how long this has been an issue, they have reformed the ambulance services so that we not only have the ability to charge when an individual goes to an ER, we can now charge to bring homeless individuals as opposed to going to ER, we can charge them when they go to a clinic, we can charge if they're going to other type of doctor offices. That's very critical, because it's not charging them, it's charging Medicaid, it's charging Medicare, and we're having lost opportunity by not doing that.

"So, this is actually a really terrific bill. It will help the City & County of Honolulu to better manage and evaluate their ambulance services and provide effective service for their residents. And we hope that we will continue to have those discussions with the other counties as well. Thank you very much."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1281, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO EMERGENCY MEDICAL SERVICES," passed Final Reading by a vote of 50 ayes, with Representative McDermott being excused.

H.B. No. 613, HD 2, SD 2, CD 2:

Representative Belatti moved that H.B. No. 613, HD 2, SD 2, CD 2 pass Final Reading, seconded by Representative Morikawa.

Representative Kapela rose to speak in support of the measure, stating:

"I rise in strong support, Mr. Speaker. I would like to thank the Chair of the House Education Committee and the Chair of the House Finance Committee for their incredibly hard work to make this measure possible. COVID-19 took a very heavy toll on Hawaii's education system and Hawaii's public school system. When the year began, the economic downturn created a projected \$400 million budget cut for public education, leaving thousands of teaching positions in danger of being lost and exposing gross inequality in how our learning resources are being allocated.

"This measure begins to address the educational problems sparked by the financial crisis. To begin, this bill appropriates funding for the teacher shortage differentials for next school year. These modest pay increases for teachers significantly help to resolve the teacher shortages in special education, Hawaiian immersion, and hard-to-fill areas, all of which are massively understaffed in my district and many of ours as well.

"Additionally, the proposal also provides a one-time \$2,200 bonus for all teachers in our state who've worked tirelessly to deliver education to our *keiki* during the pandemic. As we worked to find long-term funding to create

the professional salaries for our classroom leaders, we should embrace every single opportunity to uplift the financial wellbeing of the teacher workforce here in our state.

"This bill also appropriates \$70 million for heat abatement. At the current cost of providing air conditioning for our classrooms of about \$10,000 per classroom or less, this will be enough to finish the job of cooling our schools. That's something that the Legislature began to do when it appropriated \$100 million for air conditioning in 2016, so thank you.

"Finally, this bill contains \$100 million for complex areas and \$20 million for underserved students, which will be spent on programs like trauma informed care and social and emotional wellness. If spent wisely, these funds can allow us to create community schools that elevate our children's academic potential by addressing their exposure to traumatic events and helping them and their families meet their basic needs.

"Passage of this bill will begin to uplift our schools out of this pandemic. It's also a step forward in delivering the future in which every single child here in our state can reach for the stars. So, thank you, Mr. Speaker, and thank you to every single member who made this possible."

Representative Woodson rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. What we tried to do with this proposal is to make sure that we maximize the federal funds that came down. We are greatly appreciative to our congressional delegation, and through this proposal we're able to do a lot of great things, some of which the Vice Chair mentioned.

"I also want to say a special *mahalo* to our Finance Chair. She has been great to work with, she's a great partner, as well as the Education Chair in the Senate and the Ways and Means Chair as well. So, with that, I thank you and I ask for favorable consideration."

The motion was put to vote by the Chair and carried, and H.B. No. 613, HD 2, SD 2, CD 2, entitled: "A BILL FOR AN ACT RELATING TO EDUCATION," passed final Reading by a vote of 50 ayes, and with Representative McDermott being excused.

At 10:45 a.m., the Chair noted that the following bills passed Final Reading:

H.B. No. 1281, HD 1, SD 2, CD 1
H.B. No. 613, HD 2, SD 2, CD 2

INTRODUCTION OF RESOLUTIONS

The following resolutions (H.R. Nos. 163 through 166) were announced by the Clerk and the following action taken:

H.R. No. 163, entitled: "HOUSE RESOLUTION RELATING TO COMMITTEE ASSIGNMENTS OF THE HOUSE OF REPRESENTATIVES OF THE THIRTY-FIRST LEGISLATURE," was offered by Representative Belatti.

Representative Belatti moved that H.R. No. 163 be adopted, seconded by Representative Morikawa.

Representative LoPresti rose to speak in support of the measure, stating:

"Mr. Speaker, strong support. I just wanted to say thank you. Two of the most important issues for Ewa Beach are traffic and housing. And when you do a survey for Ewa, what the important issues are is traffic, traffic, traffic, and I really appreciate the resolution. Thank you."

The motion was put to vote by the Chair and carried, and H.R. No. 163 was adopted, with Representative McDermott being excused.

H.R. No. 164, entitled: "HOUSE RESOLUTION ESTABLISHING AN INVESTIGATING COMMITTEE TO FOLLOW UP ON THE AUDITS OF THE DEPARTMENT OF LAND AND NATURAL RESOURCES' SPECIAL LAND AND DEVELOPMENT FUND, REPORT NO. 19-12, AND AGRIBUSINESS DEVELOPMENT CORPORATION, REPORT NO. 21-01; TO EXAMINE THE RECOMMENDATIONS MADE IN THOSE AUDITS; AND FOR PURPOSES OF IMPROVING THE OPERATIONS AND MANAGEMENT OF THESE STATE AGENCIES,

THEIR FUNDS, AND ANY OTHER MATTERS," was offered by Representative Belatti.

Representative Belatti moved that H.R. No. 164 be adopted, seconded by Representative Morikawa.

Representative Perruso rose to speak in support of the measure, stating:

"In strong support. Mr. Speaker, the issue of ADC has plagued us this session and I think that it has been an issue even prior to the publication of the audit and the UHERO report, and I am really grateful for this investigative committee that will look into the financial dealings and the lease arrangements that are currently very opaque. My office staff has spent countless hours doing further investigation into the findings of the audit, and I think that this action is really critical to restore public confidence, if not in the Legislature, at least in the House. So, *mahalo*."

The motion was put to vote by the Chair and carried, and H.R. No. 164 was adopted, with Representative McDermott being excused.

H.R. No. 165, entitled: "HOUSE RESOLUTION AUTHORIZING AND EMPOWERING THE SPEAKER TO PERFORM AND CARRY OUT ANY OFFICIAL LEGISLATIVE BUSINESS DURING THE INTERIM BETWEEN THE 2021 AND 2022 REGULAR SESSIONS," was offered by Representative Belatti.

On motion by Representative Belatti, seconded by Representative Okimoto and carried, H.R. No. 165 was adopted, with Representative McDermott being excused.

H.R. No. 166, entitled: "HOUSE RESOLUTION INFORMING THE SENATE AND GOVERNOR THAT THE HOUSE OF REPRESENTATIVES IS READY TO ADJOURN SINE DIE," was offered by Representative Saiki.

On motion by Representative Belatti, seconded by Representative Mizuno and carried, H.R. No. 166 was adopted, with Representative McDermott being excused.

ANNOUNCEMENTS

At 10:49 a.m., Representative Luke requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 10:49 a.m.

Representative McKelvey: "Thank you, Mr. Speaker. On behalf of the Maui delegation, it is with sadness we would like to request a moment of silence for former colleague Representative Kam Tanaka who passed away earlier. From Lahaina, he graduated Lahaina Luna in 1967 and had a great, illustrious military career before coming back and serving the community.

"He was my opponent. It's for him that I am here, and we became good friends on the campaign trail, which shows that this doesn't have to be a bare-knuckle occupation. And so, during that time he was a good man who stepped up for the community, and so I would just like to recognize him on behalf of the Maui delegation and his family. Thank you."

Speaker Saiki: "We will take a moment of silence at the appropriate time."

Representative Tokioka: "Thank you, Mr. Speaker. I'm not sure and I'm sure it's going to happen, but I wanted to take this opportunity to acknowledge the retirement of a good friend of ours in the Senate. I've known the Senator from Hana when we got elected on the county council at the same time in 1996. That ages myself because I know some of you in this body weren't even born yet.

"The Senator from Hana and I got to work together on HSAC, NACo, NCSL, and certainly House and Senate bills. And I know he's going to be missed fondly by many of us in here. And I just wanted to take this opportunity to tell him how much I appreciated his work, his work with all of us, his work for Hana, his district, and all of the State of Hawaii. So, thank you very much for this opportunity, Mr. Speaker."

Representative DeCoite: "Thank you, Mr. Speaker. I would also like to take the opportunity to send a huge shout out to Senator English, as he is retiring today from the Senate. He and I have had the opportunity to work side by side, whether we were agreeing or disagreeing, on many issues. He has done a lot for the district and for the County of Maui, as well as the State of Hawaii. While many have found it challenging as he leaves and vacates his seat, I wish him well. I ask that we keep him in our prayers. I think that his announcement of him moving on and to care for his health really brought meaning behind COVID, as many have now stepped up realizing the realization that COVID has a long-term effect.

"I ask that people seriously consider the COVID shot, the vaccine shot, and it has brought much light to many of us. I wish him well. I will continue our friendship alongside as we continue to do the best that we can for Maui County, Maui Nui, and the State of Hawaii. And as we move forward, I will continue to do the best that I can. I have accepted his request to also follow suit and support as best as I can. So, *mahalo*, Mr. Speaker. Thank you."

Representative Holt: "Thank you, Mr. Speaker. I also would like to wish my best to Senator English. Before I was elected, I worked in the Senate for many years. My first job was to follow hearings as a Ways and Means bills analyst, and the Transportation Committee and Senator English was one of my assignments. I learned so much watching him and how he handled himself. And also being one of the few Hawaiian Legislators, always looking up to him and how he dealt with these tough situations. So, he will be sorely missed and a *hui hou*, Senator."

Representative Ward: "Mr. Speaker, a note of omission in my invocation today was to call upon all the Nehemiahs to pray for Senator English, because that is a very immediate thing and we wish him well to be back healthy and strong, even though not in the Senate. So, Nehemiahs, please pray for Senator English. Thank you, Mr. Speaker."

Representative Onishi: "Thank you, Mr. Speaker. I also would like to make a shout out to Senator English. More recently, I was working with him as the House representative on the FestPAC committee, and we had some very trying times when I got on the committee, and Senator English's leadership and support really allowed us to be prepared, prior to the pandemic, for hosting FestPAC in Hawaii. It was really important for me and for him, I think, to show that the Legislature's leadership in organizing a multinational event in Hawaii was possible, and he did a great job and I appreciate all the work that he did. Thank you."

Representative Ilagan: "Mr. Speaker, I just want to say, I know there's a lot of bad news, but I just want to share with you some good news. Yesterday the Representative of Kailua celebrated his birthday and I want to wish him a very happy, happy birthday, and many blessings going into the interim. So, Mr. Speaker, I just want to ask this body for a round of applause for him."

Representative Yamane: "Thank you, Mr. Speaker. I would be remiss if I didn't want to wish a *hui hou* to Senator English. You guys all brought up great stories, but I had to sit across him as Trans Chair, and I think I'm still healing from those years battling him with the Senate to get the House position. But one of the great things, as we work through those times, is the friendship, bonds, and trust that you gain working with the members across the aisle as well as the other chamber. And I want you to know that over the years we've learned to be good friends, and I wanted to wish him all the best. And to remind the members, when we fight for bills, we fight on the issues, but we all can come together as friends after. So, thank you."

Representative Belatti: "Thank you, Mr. Speaker. I just wanted to add on your behalf and on my behalf as having sat across and in counterparts to Senator English, that we also wish the best to him as he continues on. Thank you, Mr. Speaker."

Representative Tam: "I just want to take this moment to thank my staff for coming on as my staff for my very first session. Their names are Maigee Chang, Flora Samis. I had a staffer who worked for me for three months and then he found a new job so congratulations to him, his name is Adam Babica. I would like their names inserted into the Journal, too. Thank you."

At 10:57 a.m., Representative Luke requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 10:59 a.m.

The Chair then recognized Representative Belatti, the Majority Leader, to deliver closing remarks on behalf of the Majority Caucus:

"Thank you, Mr. Speaker. In preparing my remarks today, I found myself focusing on gratitude. Gratitude for all the hard-working staff members in this building and in our offices who came along with us on this shortened 55-day roller coaster ride of a legislative session during a global pandemic. I cannot thank enough the staff in our legislative offices who stood up a virtual, remote testimony system that allowed residents from across our island chain to participate in the democratic process.

"I cannot thank enough the Sergeant-at-Arms staff who have kept our environments healthy and safe so that we could carry on the essential business of governing and crafting laws and policies to carry us through this pandemic. I cannot thank enough the drafting agencies who worked tirelessly to help us write over 3,000 bills, of which a little over 200 will now reach the Governor's desk.

"I cannot thank enough each of our own legislative permanent and session staff members in our offices who have pulled late nights, learned to work remotely, came back earlier than other businesses in January and February, and dealt with all 51 of our idiosyncrasies and egos to do the work needed for Hawaii. Members, if you'd like to, please, can we rise for a standing ovation for the members of our staff offices, for the Sergeant-at-Arms, and for our individual offices for all the work they have done for the people of Hawaii. Thank you, members.

"Now, we all know that the House has been laser focused on meeting the needs of the most vulnerable in our community, both people and small businesses. Through our funding and budget bills, we early on shored up our unemployment system so that businesses would not have to lay off workers or shutter their doors. We have provided for those who receive and rely on general assistance, Medicaid, and SNAP food benefits. We have ensured that services for survivors of sexual assault and domestic violence are not cut or reduced. And we are maintaining those programs that provide homeless services and needed re-housing and rent assistance.

"If that is all that we did, that would have been enough. But real leadership tackles difficult problems and comes up with solutions that have meaningful impacts. Because of this House, we have tackled structural and regulatory reform that achieves meaningful change and will improve people's lives. Through the transfer of Oahu's HHSC Leahi Hospital and Maluhia facilities, we have ensured that there will be a stronger continuum of care for those with serious behavioral health needs and substance abuse problems across the state, as well as ensured that there are more long-term care services and beds for our *kūpuna*.

"Through the reform of the Hawaii Tourism Agency, we will now have an agency that answers more to our residents, who are demanding sustainable managed tourism. By reducing HTA's budget from \$79 to \$60 million, we are ensuring more accountability and transparency to their work. By transferring the research arm of the HTA to the Department of Business, Economic Development & Tourism, no longer will HTA simply be the spending and marketing arm of the tourism industry. Instead, we will now have two agencies that are more responsive to the needs and concerns of Hawaii's residents.

"Finally, not only have we reinvested in Hawaii's antiquated unemployment insurance computer system to upgrade and modernize its processes, we have continued to maintain, throughout this pandemic, the maximum state benefits for those unemployed that is the seventh highest weekly benefit in the nation.

"In addition to these bills resolving decades-long problems and in wrapping up my remarks, I found myself thinking about these last two questions yesterday. What will Hawaii look like 50 years from now because of the government reform and restructuring bills we passed in this legislative session? How will our lives be different because of the policy decisions we made in 2021?

"My hope, Mr. Speaker, is that we will see some of the following.

"Healthy *keiki* in our public schools who have had access to early learning opportunities with high quality teachers, in schools that offer pathways to early college and high-paying jobs in diverse industries such as health care, creative media, science, technology, and yes, even aerospace development and astronomy.

"More local residents living in homes within their reach because of the buildout of affordable homeownership housing projects funded by Hawaii Housing Finance & Development Corporation and by the levels of investment we have made into the Department of Hawaiian Home Lands.

"People driving more electric vehicles because there is an entire network of electric vehicle charging systems throughout our communities, in residential condominiums, shopping centers, hotels, and in all places of business.

"Communities connected by broadband infrastructure that crisscrosses our island state.

"State parks and trails that are managed sustainably through the dynamic tools we are providing this session to our agencies responsible for natural resource management.

"A vibrant and robust farming community that supplies fresh locally grown fruits, vegetables, and proteins to feed our public school students and low-income working families.

"Pasturelands free from two-lined spittle bugs, flourishing local forests free from Rapid 'Ōhi'a Death, and healthy reef ecosystems free from invasive algae and full of healthy sea urchins and managed fisheries.

"Finally, we will have runaway homeless youth who are able to find a helping hand, a friendly face, and a safe place to lay down for a night in a homeless shelter that welcomes them while there is a social safety system that helps them get back on track with their lives.

"This is what we have done this session, members, during a global pandemic. I say this is what I hope to see in 50 years, because all of this, from now to 50 years from now, will require us to do work, to continue to do work during the interim in the next year and the years ahead. Mr. Speaker, your House stands ready to do that work. Thank you."

The Chair then recognized Representative Okimoto, the Minority Leader, to deliver closing remarks on behalf of the Minority Caucus:

"Thank you, Mr. Speaker. *He po 'i na kai uli, kai ko 'o, a 'ohe hina pūko 'a*. Though the sea be deep and rough, the coral rock remains standing. Said of one who remains calm in the face of difficulty. There were many challenges this session, but through it all this body remained calm and stalwart in its duties to the state.

"Friends and colleagues, nearly two years ago, I sat on this House Floor with many of you as a freshman legislator who had just completed her first session in office. When I look back on that freshman legislator, I realize just how much I have learned and grown. While no one is probably more surprised to see me standing here giving this speech than I am, I truly am grateful for all who have helped me navigate through this political world on both sides of the aisle.

"When I thought about what I wanted to impart on this body today, the prevalent thought that came to my mind was, we are better united than divided. The easy route in life will always be to find reasons to be divided. However, I firmly believe that despite our partisan labels, factions, and policy disagreements we have with one another, our shared love for Hawaii continues to guide us and bring us together to find the best solutions for the people we represent.

"COVID has shown how fragile life can be. As we see on the mainland, there is a growing tidal wave of division swelling. Rhetoric that seeks to separate us rather than unite us. A rhetoric that our men and women in uniform are separate from our communities instead of an integral part of it. A rhetoric that makes us more pessimistic than optimistic. Mr. Speaker, I'm confident that this pursuit of division will not reach our state, our shores, because this is Hawaii.

"We have something that many other states do not, our love and support of our sense of community. While others draw lines in the sand, we sow seeds of *aloha* and break bread with our neighbors. We cherish and protect the teachings of our *kūpuna* and pass them on to our *keiki*, and we grow stronger for it, the Aloha Spirit grows stronger for it, and we can be the standard of unity and the example for the rest of our brothers and sisters.

"Although this session is coming to a close, our work in our communities is just the beginning. Some of our children are still being left out of classrooms, families are still looking for work, and our businesses are still fighting their way out of financial hardships that have shuttered so many doors. While the path to recovery may sound daunting, there is hope, because this body stands united to a common cause.

"Mr. Speaker, I would like to take this time to thank my colleagues in the Minority Caucus and their staff. Representatives Matsumoto and McDermott, who despite having experienced devastating losses in your families, continue to show up and represent your communities to the best of your abilities. I have the utmost respect for your selflessness and courage. And to Representative Ward, who has worked tirelessly for his district for over 20 years, thank you for your commitment to this body.

"Mr. Speaker, Majority Leader Belatti, and all of my fellow friends across the aisle, thank you for the talk story sessions, sound advice, the solicited and unsolicited ones, and belief in me as a new leader. I would also like to thank the IT team for helping to facilitate our constitutional obligations to convene during a pandemic. And to staff, Sergeants, and DAGS for working hard for ensuring a safe and healthy workplace. The Chief Clerk's Office for taking on a myriad of roles to allow for a seamless legislative process. Thank you also to HMIR for working tirelessly to help the Minority Caucus.

"And last but definitely not least, thank you to my family and my office *'ohana*, Eric, Jame, Kaeo, Jacqueline, and Eunice, who have worked diligently and selflessly to ensure that I can be the best legislator possible. You have shown me how working as a team, we can accomplish nearly anything. I would not be the legislator and leader I am today without the love and support of my family and my staff.

"To close, Mr. Speaker, 20 years from now when I look back on this session, I believe I will see this as one of the most challenging and rewarding chapters of my life. With each great form of adversity came great lessons and a perseverance to further overcome the challenges ahead. Just as the phoenix rises from the ashes, Mr. Speaker, we too will rise from the challenges COVID-19 has put before us. *Mahalo*."

Speaker Saiki then gave his closing remarks as follows:

"The Chair has some brief closing remarks as well. First, the Chair would like to reiterate the acknowledgments to all of our staff who have worked throughout this pandemic to get us to this day. So, thank you to the Legislative Reference Bureau, our research offices, all of our individual staff members, the Printshop, the IT office, our maintenance crew, the Chief Clerk's Office, and the Sergeant-at-Arms. Thank you for all of your work.

"Members, when we opened our session 101 days ago on January 20, no one knew what to expect. We were still at the height of the pandemic and we had just experienced the riot at the United States Capitol. The public was uncertain and so were we. But the House rolled up its sleeves, focused in, and achieved major results that will help our residents, our environment, and our economy.

"We began this session by identifying three priorities. First, stabilizing our state finances. Second, strengthening our public health infrastructure. And third, reopening our economy safely and incrementally. Underlying all of this was our resolve that the health and safety of our residents was and continues to be our top priority.

"So, let's take a step back and look at what has happened over the past 100 days since our Opening Day. Thanks to the Federal Rescue Act, we have restored funding for children, families, and *kūpuna*.

"We have strengthened our public health infrastructure through screening, testing, and contact tracing. And just remember that on January 20 there were on average 108 COVID cases per day, and that average is now down to 77 cases.

"The House also took the lead to increase vaccinations. On January 20, 20,477 people had received two vaccine doses. Today, the count is up to 524,000 people, that is half a million people since we began our regular session.

"We are also meeting our promise to have visitors pay their fair share, because they use our natural resources and infrastructure just like everyone else. On January 20, we had 6,259 out-of-state arrivals. Two days ago, we received 14,639 arrivals in one day.

"As you know, the past year-and-a-half have been the most brutal in history for the Legislature, but I have never seen the House so focused and worked so hard before. Everyone made a contribution, everyone made a difference, everyone represented their constituents admirably.

"In this pandemic session, the House led the way to achieve some very significant results. University scholarships for special education students, a 100% emission free state vehicle fleet, sea level rise adaptation, Forest Stewardship program, EV charging stations, nonprofit affordable housing loans, Green Job Youth Corps, Broadband Infrastructure Grant program, state park fees, Environmental Advisory Council, \$2.38 million dollars for sex assault treatment services, \$2.3 million for family planning services, \$4.6 million for HIV services, \$875,000 for Rapid 'Ōhi'a Death prevention, \$720,000 for Iolani Palace, \$2.6 million for the Early College program.

"And we also provided direct financial support for families in need. \$5.4 million to restore general assistance, \$14.3 million for homeless programs, Housing First, Rapid Re-Housing, and homeless outreach services, \$31 million for child care services, free emergency shelters for minors, mediation services for renters who face eviction, minimum wage for disabled workers, food donations, \$2.4 million for the Hawaii Keiki program, \$1.5 million for Kupuna Care, and predatory payday loan reform.

"So, there are a lot more accomplishments that this Legislature achieved, that the House achieved. Do not let anyone say, do not let anyone say that this was a do-nothing Legislature. Our achievements are significant, and they will help the residents of our state.

"This legislative session was the first of two parts. We are now beginning part two and we will work between now and January 2022 to achieve economic fairness, sustainability, and government reform.

"So again, members, the Chair would like to thank all of you for your leadership and for your work, and please have a productive summer. Thank you very much."
