On motion by Representative Nakamura, seconded by Representative Morikawa and carried, the report of the Committee was adopted and S.B. No. 2503, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO EQUITY," passed Second Reading and was referred to the Committee on Judiciary & Hawaiian Affairs, with Representative Alcos being excused.

Representative Quinlan, for the Committee on Tourism, presented a report (Stand. Com. Rep. No. 1074-24) recommending that S.B. No. 3364, SD 2, as amended in HD 1, pass Second Reading and be referred to the Committee on Judiciary & Hawaiian Affairs.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 3364, SD 2, HD 1 pass Second Reading and be referred to the Committee on Judiciary & Hawaiian Affairs, seconded by Representative Morikawa.

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise with reservations and a brief comment. Mr. Speaker, this is a tourism issue of which I know many people in the Legislature is very concerned that we've overdone tourism. And my point is, we got a management theme that this is following now. My point is, let's not overdo it, let's remember marketing is still key.

"My wife is a graduate of the TIM, the Travel Industry Management at UH, and she says tourism can turn on a dime. You cannot assume that because they are here, they're always going to come. It's a very volatile industry. So, when we say, hey, we're going to cool marketing and we're going to up the management, let's be moderate, let's be wise in what we're doing because, Mr. Speaker, they're still 50% of our budget. And if we lose that, we are not in good shape. So, let's be very moderate in our consideration. Thank you."

Representative Garcia rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Quinlan rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. And first I'd like to say that this bill has nothing to do with reducing marketing dollars or telling people not to come to Hawai'i. This bill has to do with the future of our society, of our state. We all know the numbers, \$900 million in TAT collections, 220,000 jobs directly supported by the tourism industry. And yes, it is absolutely the most crucial sector of any industry that we have in Hawai'i.

"However, Mr. Speaker, we cannot ignore our constituents. We cannot ignore our residents. We cannot continue to have hordes and hordes of people pile into certain hot spots and absolutely destroy the quality of life for so many neighborhoods, like the district that I represent. And I don't really know what regenerative tourism is, we throw that word around a lot. It's a bit of a buzzword, Mr. Speaker. But that's what we're attempting to define. We're trying to find a pathway forward so that both the tourists, the tourism industry, and most importantly, our treasured residents and

constituents can have a higher quality of life and maybe even a better vacation. *Mahalo*."

Representative Ward rose to respond, stating:

"Mr. Speaker, I appreciate my colleague from the North Shore. Continuing with reservations and a comment and a retort. Clearly, we cannot ignore our constituents. But clearly, we cannot ignore the unemployed. This is an economic issue, Mr. Speaker. We've got to keep constituents in our neighborhoods peaceful. We got to keep the traffic, the infrastructure, and everything in solid condition. But when you got half of your economy in the balance, making sure that people are employed is more important than making everybody happy campers because there's no noise next door. Which Airbnb is even the worst culprit that we have here with this particular marketing issue. Thank you."

Representative Quinlan rose to respond, stating:

"Still in support, Mr. Speaker, and I would just like to invite my colleague from Hawai'i Kai to come and visit me on a Saturday around noon. We'll drive to my mother's house for lunch. But bring a book, it's going to be a long trip."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3364, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO DESTINATION MANAGEMENT," passed Second Reading and was referred to the Committee on Judiciary & Hawaiian Affairs, with Representatives Garcia and Ward voting aye with reservations, and with Representative Alcos being excused.

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, the report of the Committee was adopted and S.B. Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 3328, SD 1, HD 1 pass Second Reading and be referred to the Committee on Labor & Government Operations, seconded by Representative Morikawa.

Representative Perruso rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Perruso's written remarks are as follows:

"As we work hard to address the critical issue of the teacher shortage crisis, it's imperative that we do not fall into the trap of pursuing short-term solutions that perpetuate long-term instability. The bill before us, SB 3328, proposes a concerning approach by essentially privatizing public land for teacher housing, to potentially help support individuals without teaching licenses from outside our state to teach within our DOE, individuals who, based on their contracts, will most likely leave the DOE classroom within 3-5 years.

"While the intention behind providing housing for incoming teachers is noble, we must recognize the inherent risks of relying on a transient workforce. By prioritizing individuals who may not have a long-term commitment to our communities, we risk exacerbating the very issue we seek to resolve – the teacher shortage crisis.

"Instead of locking into a model that prioritizes short-term fixes, we must invest in sustainable solutions that strengthen our education system from within. This means prioritizing the development of our own teacher pipeline,

nurturing and empowering individuals within our communities to become educators.

"Investing in grow our own teacher pipeline development not only addresses the immediate need for qualified teachers but also fosters a sense of commitment and continuity within our schools. By supporting aspiring educators from our communities, we ensure that they are equipped with the necessary skills and knowledge to thrive in their roles, leading to long-term stability in our education system.

"Furthermore, investing in our own teacher pipeline development aligns with our values of community empowerment and sustainability. It allows us to nurture local talent, build strong relationships between educators and students, and foster a sense of belonging within our schools.

"While the temptation to opt for quick fixes may be enticing, we cannot afford to sacrifice the long-term stability of our education system. Let us reject the notion of privatizing public land for transient teacher housing, reject the notion of creating a special real estate development branch within the DOE, and instead commit ourselves to investing in grow our own teacher pipeline development. Together, we can ensure that every child has access to quality education and build a brighter future for generations to come."

Representative Matayoshi rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Kapela rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Amato rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Belatti rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3328, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO EDUCATION," passed Second Reading and was referred to the Committee on Labor & Government Operations, with Representatives Amato, Belatti, Hussey-Burdick, Kapela, and Matayoshi voting aye with reservations, with Representative Perruso voting no, and with Representative Alcos being excused.

THIRD READING

H.B. No. 1800, HD 1:

Representative Nakamura moved that H.B. No. 1800, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Yamashita rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. First of all, before I get started on my comments, I'd like to thank you, Mr. Speaker, and your leadership team, for your continued support in allowing me to work on this committee as well as this budget. Thank you. And then also to the vice chair of Finance for her unwavering help and support through the whole process. She's a trooper, she's always there, and she's always continued to do whatever we need to get the work done for the committee. So, thank you very much.

"And then also, I'd like to thank our CIP chair, who worked really hard this year. He actually had to redo the budget, Mr. Speaker, I think three times. A little bit because of me, but, yeah, he did a good job, so we'd like to thank him for all his hard work. And we'd also like to thank the members of the Finance Committee who put in the work and the time throughout the whole process and the hours, going through all the bills that came through the committee and sitting through those long hearings and as well as combing through the budget and advising us on how to proceed forward. So, thank you very much to the committee.

"And of course, as many of you know, Mr. Speaker, the work cannot be done without our staff. So, I'd like to thank all our staff. Some of them are sitting up there, most of them are. Our budget research office, headed by our research chief, Randall Hiyoto, and Stacey Tagala is our supervisor. I'll have

them all stand up at once. And then also our researcher analysts, we have Kevin Peralta, Brendan Lee, Jordana Mangan, Brent Lopianetzky, and Jowana Lobendahn.

"And then from our budget office headed by our budget chief, Jon Kawamura, who is taking the pictures, and also our CIP analysts, who is most of the members' favorite person, Heath Williams up there. And, of course, Rebekah Kim, she's a budget analyst that assists Jon in many endeavors. And also, the other analysts up there, Elizabeth Bryant, Nancy Clark, Dianne Gabrillo, and Rika Kaneshige. And then not in the audience, I think, I cannot see, is working with special projects is our volunteer, Linda Chu Takayama, I'd like to thank her and Lisa Chun for working on all these things that we need.

"And then from our front office, our office manager, Lois Tambalo, and I think only Nikko is up there. And Kimoko Anmontha and Janis Higaki, I'd like to also thank them. And, of course, Mr. Speaker, Nandana Kalupahana, our committee clerk who, you know, bats cleanup for us. So, I'd like to thank all of them for all their hard work. And please, everybody, could you all please rise and please help me thank them for all their hard work. Thank you.

"Mr. Speaker, your Committee on Finance finds that the constitutional responsibility and power for appropriation rests solely with the Legislature. The biennium budget was enacted June 2023. A short time later, after the Legislature Regular Session 2023 adjourned *sine die*, Lahaina and Upcountry Maui experienced a devastating wildfire and burned. Since then, the administration has been spending money appropriated for other specific purposes and transferred money to programs purportedly tied to relief and recovery.

Ensuring the safety and recovery of our communities will come at an extraordinary cost to the state budget. We currently expect to spend over \$1 billion towards this relief and recovery effort. This is over 10% of our general fund budget."

Representative Tarnas rose to yield his time, and the Chair "so ordered."

Representative Yamashita continued, stating:

"Thank you very much. At the same time, preserving, maintaining, and enhancing our fundamental core services and the safety of the Hawai'i communities remain our priority.

"On October 30th, 2023, over two months after the wildfire, the administration issued Executive Memorandum 23-08, which diverted \$172 million appropriated by the Legislature for various other purposes and initiatives. In order to pay for these expenses associated with the wildfire, the diversion was accomplished by emergency proclamation when the Legislature was not in session.

"Mr. Speaker, although this action was proper under existing law, your committee notes that managing the crisis brought on by the wildfire, there is still a lack of clear, comprehensive plan from the administration to address this complex issue that has come to light over the past eight months. Fully determining the state's exposure will be an extremely challenging task. Although some wildfire funding requests were received from the administration, they were too late for the House to consider at this point in the legislative calendar.

"In the meantime, Mr. Speaker, your committee has been actively gathering information to make informed decisions and recommendations to the House. These include \$65 million for victim recovery, announced in the media November 2023, \$122 million for a housing program that was announced in the media November 2023, \$66 million for expenses incurred by state agencies responding to the needs on Maui, and \$10 million in costs incurred by the state pursuant to Emergency Management Assistance Compact. This is where the state receives aid from other states across the country in the immediate aftermath of the wildfire. And \$150 million as a potential subsidy for Maui County.

"And finally, \$500 million is being set aside for those who may be determined to be FEMA ineligible for temporary housing. This is a contract with the Red Cross for housing, for families in hotels who are waiting for permanent housing to be arranged. The contract originally started at \$99 million and quickly ballooned to \$300 million. Recently extended, it

now may cost as much as \$500 million. Governor's Message 4, which was received by the House on March 5, pegged the cost at \$297 million already.

"Many of these expenditures will be FEMA reimbursable, but it has taken years to get reimbursed for past disasters. We need to make sure that this budget can withstand a short-term shock, and important services for our community retain critical funding.

"Consequently, Mr. Speaker, financial prudence requires a focus and priority of your committee to ensure accountability and transparency in this budget. All known potential costs for programs associated with aiding survivors of the wildfire have been appropriated in this budget to eliminate the need for emergency proclamation to divert money from important programs. The necessity to divert money appropriated by the Legislature has been eliminated.

"Communication, coordination, cooperation among all branches of government will be needed in the coming days, months, and years to develop and implement a solution for our survivors. The cost to ensure the safety net and recovery of our community will be enormous. Although this budget focuses heavily on the expenses of the Maui wildfire, the core services of the state must be maintained.

"Numerous individuals in our community still grapple with enduring impacts of the pandemic, homelessness, the challenges of high cost of living. It is critical to maintain and enhance a robust safety net to foster a resilient community and build a stronger economy."

Representative Onishi rose to yield his time, and the Chair "so ordered."

Representative Yamashita continued, stating:

"Thank you. This includes mental health, health care for our disabled and *kūpuna*, biosecurity to protect our *ʻāina* and natural resources, business and workforce development, child care and education, affordable housing, and public welfare. Preserving, maintaining, and enhancing these fundamental services are a priority of this budget. I ask my colleagues for support of this measure. Thank you, Mr. Speaker, and I yield to the vice chair of Finance."

Representative Kitagawa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. The House prioritizes funding our public schools and ensuring quality education for our *keiki*. House Bill 1800, HD 1 allocates the following funds to support education: \$14,925,959 for vice principal and educational assistant salary increases, \$12,931,380 for weighted student formula and English language learner communities, \$6 million for weighted student formula for small and remote schools, \$5 million for athletics, including coaches' salaries and transportation, \$413,915 for advanced placement exams, \$20,990,000 for summer learning programs, \$5 million for security, \$18,266,346 for bus services, and \$10 million for door lock replacements and door blockers. This funding will help to ensure that we build stronger, safer, and more resilient schools in our community. And I'd now like to yield to the representative from Waimea."

Representative Morikawa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I support this budget because it prioritizes quality education for our *keiki* as well as higher education. \$6 million invested into the Preschool Open Doors Program enhances educational opportunities for our youngest learners. \$1.64 million in mental health support for our youth underscores the House's commitment to addressing mental health needs. Allocating over \$22 million to Promise Program for University of Hawai'i ensures residents can access quality education locally and that our state can retain local talent. Additionally, the budget aims to restore pandemic-era cuts to UH. A hopeful step for our communities is seen in the \$1 million for JABSOM to expand healthcare access to underserved communities. And now I yield to the representative from Liliha."

Representative Takenouchi rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Mr. Speaker, this budget also reflects that investing in mental health and overall health care for the well-being of our state remain a priority for the House majority, as we look to build safer, stronger, and more resilient communities. It includes over \$43 million committed to behavioral health, mental health services for both

youth and adults, and making all of these healthcare programs more accessible for the public to get the necessary support they need. The budget also reflects over \$11 million invested in additional healthcare sectors, including children with special needs, emergency medical services, family health services, and healthcare management. I now yield to my colleague from Moloka'i."

Representative Poepoe rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. This budget bill provides \$2 million to address rural air transportation to assist residents in medically underserved rural islands with accessing care that is only available on urban islands. This will bring much needed relief to patients who face dire consequences when they're unable to reach their appointments because of frequent and last-minute flight changes and cancellations.

"This budget places substantial investments in prioritizing funding for wildfire prevention, fire protection resources, and post-fire restoration and rehabilitation for our state. Additionally, this budget provides important funding for issues affecting our environment, including funding for expanding hydrologic data collection, as well as funding to provide response capacity for little fire ants, which is a growing epidemic across our state. With that, I will yield to the representative from Waipahu."

Representative Lamosao rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. This bill also prioritizes health care, cost of living, and Hawai'i's workforce. \$400,000 will be going to DAGS for menstrual products and dispensers in state buildings, which demonstrates the House's commitment to ensuring access to products and removing barriers for those who may not be able to afford it. And \$818,630 for positions for the Solar For All initiative in the Hawai'i Green Infrastructure Authority, which builds local jobs for our economy.

"Also appropriates \$50 million for the Hawai'i Green Infrastructure Revolving Fund, which demonstrates the House's commitment to clean energy and assist local families in lowering their energy bills. It also appropriates \$6 million for HTDC Accelerator, which empowers the growth of local businesses within the industries of manufacturing, technology, and beyond. And last but not least, \$15.5 million for home and community-based services. *Mahalo.*"

Representative Kahaloa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I now have the honor to highlight some of the budgetary areas for the support of agriculture and our local food system here in Hawai'i. The House draft of the state budget addresses food security for our residents. It allocates \$2 million for the Da Bux double up double bucks program, which partners with food retailers across the state to make Hawai'i grown fruits and vegetables more affordable for low-income recipients of the federal food benefits from the Supplemental Nutrition Assistance Program. It also allocates \$18 million for school meals for our *keiki*.

"Additionally, a key component of our budget is addressing biosecurity in our state to protect our *ʻāina* and preserve the integrity of natural resources and our environment. That includes \$700,000 for system upgrades for the animal quarantine, animal information system, \$2,967,852 for positions for plant quarantine inspectors, \$1,490,112 for positions for a plant quarantine branch. Working with the Department of Agriculture, this funding helps redeploy special funds in order to address invasive species, including little fire ants, coconut rhinoceros beetle, coqui frogs, brown tree snakes, and more, which threaten our environment.

"The goal is to establish a multidimensional system to prevent the entry and movement of pests and prohibited or restricted organisms into the state and between the islands. So that's why moving from special funds for these 46 positions to A funds will help us use that special fund to allocate money to our much-needed biosecurity needs. Thank you, Mr. Speaker, and I yield my time to the representative from Nānākuli."

Representative Kila rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. This budget is reflective of some of the highest needs and priorities of our residents in the State of Hawai'i. One of the biggest issues that constant constituents voice about is

traversing statewide roadways. Mr. Speaker, I am pleased to share that the state budget is a reflection of those concerns. The House draft of the state budget demonstrates our commitment to ensuring our roads and transportation infrastructure throughout the state is safe and reliable for our residents.

"At this time in the day and age of Hawai'i, we are not building, but we are having to repair and maintain important infrastructure to allow folks to traverse throughout the state. As the representative from Nānākuli, I see firsthand the investments that are made by the Department of Transportation to make the lives for the folks on the west side of O'ahu a better place.

"Mr. Speaker, \$3 million for routine maintenance on O'ahu highways and roadway safety maintenance services, \$1.25 million for Google Safety Analytics to help us collect data to develop strategies for ensuring safe roads, \$133 million that will be allocated to our well needed and deserved harbors. Mr. Speaker, \$826 million to our airports that are in desperate need of this funding, and almost \$500 million for our highways across the state.

"This budget is also reflective of a priority that has been made clear by families and students across the state, that they need a working group to create and task recommendations to handle and support our deaf and hard of hearing students across the state in our education system. Mr. Speaker, this budget is truly reflective of the priorities that have been raised by residents across the state, and I'm happy to rise in support. Mr. Speaker, at this time I'd like to yield to the representative from Mānoa."

Representative Garrett rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Rising in strong support. Mr. Speaker, since the onset of the pandemic, and despite the best efforts of the prior deputy director of DHRD, vacancies throughout state agencies have persistently risen, resulting in numerous unfilled positions across the state. Furthermore, a recent report indicates that 30% of current state civil service employees will become eligible for retirement within the next five years.

"Mr. Speaker, the House draft of the state budget demonstrates our commitment to addressing these vacancies, examining strategies for retaining public workers amidst these retirements, and exploring recruitment approaches to attract high quality individuals to pursue a career in public service within the State of Hawai'i. Specifically, this draft includes \$826,000 to support the Department of Human Resources Development in recruiting, retaining, and training employees. It also includes \$2.2 million to support the Department of Labor and Industrial Relations in addressing unemployment insurance, and \$3.6 million to the Department of Education for work-based learning. With that, Mr. Speaker, I'd like to yield to the representative from Waipahu and Pearl City."

Representative Chun rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Mr. Speaker, Hawai'i's *kūpuna* population continues to grow, and more than ever, an increased workforce in the healthcare sector is needed to support this growing population. In this budget we are allocating \$400,000 to the Executive Office on Aging to support our *kūpuna* and over \$23 million for Medicaid in-home services. Additionally, in supporting the delivery of quality care for our residents and services for our vulnerable populations, we've committed \$3 million for mobile clinics, which will provide assistance and treatment to displaced individuals. At this time, I'd like to yield to the representative from Moanalua."

Representative Aiu rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. This year's state budget highlights the House investment in affordable housing and demonstrates our ongoing commitment to building more affordable rental and for sale housing for low- and moderate-income families in Hawai'i. This budget allocates \$15 million for the accessory dwelling unit revolving fund, \$150 million for the Rental Housing Revolving Fund, and over \$378,000 to add positions to the Hawai'i Housing Finance and Development Corporation.

"Additionally, Mr. Speaker, the House continues to call for aquifer remediation and an integrated approach to resolving the water crisis. Immediate action needs to happen to ensure clean water now and in the future for Hawai'i residents, and this budget allocates \$750,000 to the Red Hill Water Alliance Initiative. Mr. Speaker, I yield to the CIP chair."

Representative Nishimoto rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. First of all, I want to start by thanking you, Mr. Speaker, and the members of this body, for giving me the honor and privilege of being your CIP chair again this year. It's a duty that I don't take lightly. I try to work as hard as I can on it because I know how important it is to you and also to the state.

"I do want to thank, I've got to start by thanking the chair and vice chair of the Finance Committee. This has been a very tough budget year. Your guidance and your leadership in the committee has been invaluable, and I'm very thankful that the two of you are there. I want to thank the members of the Finance Committee. We have sat through countless hours of briefings and hearings, and through those briefings and hearings are why we are here today with this budget.

"The overarching theme for when we created this CIP budget was rebuilding. Rebuilding is a word that carries weight. It's one that speaks to resilience, determination, and the unwavering spirit of all our communities. So, as we worked on this budget, we always kept in mind that this is more than CIP, this is more than numbers. This is a reflection of the values of our community.

"There was no doubt that this was a tough budget year, and it was a tough CIP budget year, Mr. Speaker. The administration gave us a budget that was \$144 million in the red, it was unbalanced by \$144 million. Your CIP budget does not take into account the governor's messages that came down on March 5, because it was too late for us to include it. In the absence of guidance from the administration, your CIP committee had to make some very tough choices. And those tough choices were helped by the hard work and dedication of staff. And I really want to thank them for their hard work. First of all, Teru Okamoto is our session staffer who helped on CIP, if he could stand, Teru, and be recognized. Next is the irreplaceable Taylor Date, who handles members' CIP. Please stand to be recognized, Taylor. And finally, the guy that eats, sleeps, and dreams CIP budget, Heath Williams.

"So, Mr. Speaker, what's in the CIP budget? Let me go through some of the highlights. The budget includes \$40 million for critical agriculture infrastructure, mostly irrigational and reservoir systems. We allocated \$230 million to affordable housing. For the DOE budget, I know a lot of communities and a lot of members were very nervous about the proposed lapses of projects in their community. This is an area that we worked very hard on and gave a lot of thought to.

"In the absence of a needs assessment by the DOE, it really fell on legislators working with their communities, with their school principals, to figure out what our communities need. So, these projects that were proposed lapsed were critical projects to communities, and we heard from all of you legislators and all of the people in communities. So, this budget restores all the projects that were not completed and will lapse and reappropriate those projects for two years to give them a chance to go forward for the DOE to complete them.

"We also allocated \$42.5 million to a new mental health crisis unit at the state hospital. We allocated \$40 million for comprehensive child welfare information systems, \$28.9 million for renewable energy."

Representative Gates rose to yield his time, and the Chair "so ordered."

Representative Nishimoto continued, stating:

"\$28.3 million for the state parks. We significantly increased UH's budget system wide. We gave \$50 million in subsidies to the counties. And finally, we funded every single Lahaina-related CIP project that was in the administration's budget. Mr. Speaker, this CIP budget isn't about fixing what's broken, it's about laying the groundwork for a brighter future. I urge my colleagues to support this budget. Thank you."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, I kept waiting for, I yield to the representative from Hawai'i Kai. But other than that, I have to insert myself now. I'm impressed, the first filibuster I've witnessed on this floor. Very well done. Except remember, this is only third reading in the House. We've got to deal with the Senate. The Senate is going to probably manipulate a few numbers, but I like the

confidence by which everyone spoke, like these are the numbers. Well, they're not the numbers.

"In support. I don't agree with all of it, and I've got a couple of things. First, the chair's staff did a super job. Even when we traveled to the Big Island, to Maui, they keep the numbers. The only difficulty is when I ask my staff to give me some numbers out of the budget, they say, give me the Da Vinci Code. Mr. Speaker, we still have a difficulty deciphering what's where and how, even inside if it's difficult, the public has an even more difficult time doing it.

"Having said that, one of my big issues is, we've been told that the Maui fires are going to cost us \$6 billion. This is a \$11.3 billion budget. We've got \$1 billion for Maui. Are we going to fall short of that? And my biggest concern is this, I don't see anything in the budget from the Maui fires lessons learned. We don't even know what the cause of the Maui fire is yet, let alone knowing what are the lessons learned. We have to plan ahead. I don't see that in the budget. I would have liked to have seen the AG's report, the FEMA report. I don't think any of that has been released. So, when we're going to plan proactively, we need to know ahead of time.

"The other thing I wanted to mention is probably the unkindest thing that we're doing to the people of Hawai'i is this cannabis task force, \$2.2 million. If we want to, as I spoke here on the floor before about numbing and dumbing down the people, this money is going to be used for, what I think is very naively, to take those in the black market. And by the way, the black market now is king of marijuana, 80% of even the medical marijuana people, 80% of every other sale is black market. This bill, giving the money to say, we're going to convert you guys, we're going to have a come to Jesus moment and we're going to make you legitimate growers of marijuana. It didn't happen in Colorado, it didn't happen in California, and the probability of these people being reformed and cleansed and washed and becoming legitimate growers is very, very, very remote.

"Having said that, Mr. Speaker, the bill has, I think, the best intentions. But remember, behind that is what the UH, UHERO people have said. We have an anemic economy. So, I don't think we can be too bold and robust in our bragging of what we've got here. There could even be something, for example, when the Japanese visitors don't come back because we have, within the Legislature, legalized recreational marijuana, they said, hey, we're out of here. That's a good third of the tourism budget. So, we have to be very careful with that, Mr. Speaker.

"Having said that, it's a good budget. We're on our way, but hopefully there's not going to be any dislocations in the near future. Thank you. Or I have anybody to yield to, I let that be left up to them."

Representative Pierick rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations. So, I'd like to thank the chair of Finance, the vice chair, the CIP chair, and all the staff with regards to this bill. It's a wonderful bill with many wonderful qualities. A lot of good stuff going on for education. The main concern I have is for cannabis. I have a note here that says, statewide multimedia campaign to provide information related to cannabis use and misuses. And that's a potential budget item for \$2.2 million. That's concerning for me, I don't think we should be putting money towards that, if we will do that. So, I'll be voting with reservations."

The motion was put to vote by the Chair and carried, and H.B. No. 1800, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE BUDGET," passed Third Reading by a vote of 47 ayes, with Representative Pierick voting aye with reservations, and with Representative Alcos, Amato, Ganaden, and Quinlan being excused.

At 1:08 p.m., the Chair noted that the following bill passed Third Reading:

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill would allow for 14-year-olds to get certain kind of screenings and preventative care, including family planning, which could be like abortion services. I'm not in favor of 14-year-olds making these kinds of decisions without parental consent, and I believe this bill provides that. So, I'm voting no."

Representative Perruso rose to speak in support of the measure, stating:

"In support. The language of this measure actually just extends existing provisions of care for minors to identification of sexually transmitted diseases, which coming from a community that has the dubious distinction of having the highest rate of STDs in the state, I think is really important. And it also provides really important clarification and definitional work that medical providers around the state are already working on. So, this helps them with that codification. So, for those reasons, I support."

Representative Kong rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition. Just want to say, we are continuing this trend from this building, attacking parental rights. And I think children, of course, they should seek immediate healthcare services if they are in these situations. But why wouldn't we want parents to know? Why wouldn't we want their parents to know? I'm pretty sure their parents would want to know if their child, ages 14 through 17, is seeking any type of medical care. So, this is just continuing the trend of attacking parents' rights. No vote."

Representative Ward rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Tam rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Perruso rose to speak in opposition to the measure, stating:

"No vote, brief comment please. So, as we discussed in the hearing on this measure, this measure is objectionable and I oppose this measure because it removes the cap on the superintendent salary when we just created two additional positions, very highly paid positions in the Department of Education, to support the superintendent's work. And I think that this flies in the face of what we're trying to do around fiscal accountability. And so, I urge members to vote no on this measure."

Representative Matayoshi rose to speak in opposition to the measure, stating:

"In opposition, brief comment. I wanted to say, my opposition is in regards to there being no cap. I think that if the bill is modified to keep the \$250,000 limit and not have that sunset, I think I'd be in favor of it. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"A no vote, please. And may the remarks from the representative from Wahiawā be entered into the Journal as my own please, if she'll agree with it," and the Chair "so ordered." (By reference only.)

Representative Woodson rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. Thank you. In 2014, the Legislature passed a proposal that increased the superintendent's cap from \$150,000 to \$250,000 annually. And included in that proposal was a provision that said that the superintendent shall be evaluated annually. That has been a benefit.

"That act has a sunset date of July 1, 2024. And so, unfortunately, if we do not pass this bill, then that means that not only will the superintendent's cap decrease to \$150,000, but it would have compounding impacts because there are complementing provisions that say that assistant superintendents, complex area superintendents, their cap is proportionate to the superintendents. So, inadvertently, we would have to actually decrease the salaries of our complex area superintendents, that would have a cascading impact of potentially decreasing the salaries of our principals and vice principals across the state. That is concerning to me.

"If you take a look at what is the comparable salary for superintendents across the country for similar school district sizes, the average amount is about \$356,000. And so, if you recall this last round, we had challenges having individuals that were attracted to that very challenging position. Superintendent Hayashi was very gracious and has, in my mind, done a good job with setting us on the proper trajectory to increased learning outcomes over time.

"And so, the proposal as it stands right now, it actually does not increase the cap. What it does is it says that the Board of Education shall establish a cap for the superintendent. That's fair. There is a public process that the board has to go through to do that, and it will allow them to have additional flexibility. And so, because of the compounding impacts it would have if we didn't pass this bill, because we need to make sure that we're attracting talent to that position, I humbly ask my colleagues to support this proposal. Thank you."

Representative Souza rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Amato rose, stating:

"I'd like to change my vote to reservations, please."

Representative Ward rose to respond, stating:

"Second time in opposition, Mr. Speaker. One thing we have to remember, it's not about the money, it's about performance. I mean, half of our kids can't even read at the third-grade level, they can't do math. I would say, let's give the guy \$1 million if we become the best in the nation for our students. But we are rewarding mediocrity by the way that this bill does it. And we shouldn't do that. We are not performing as we should. We got really smart kids in our communities, but they're not getting the value of what the educational system should offer them. So, we're offering higher wages to somebody who's doing a bad job. Thank you."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. Thank you, Mr. Speaker. I'd like to address a few things. With regards to comparable salary and how, if that's the motivation to vote yes in favor of this bill, there's a mayor in Texas who makes only \$1 a year, and so with regards to, we have to have a salary that's equal to other places, there's other places that make very little money when you have an executive position. I believe also the lieutenant governor of Texas is about like \$1 or something very small. And it's a very prestigious position, has lots of responsibility, but the income is very low. And it's, you're wanting to attract servant leaders, not necessarily people that are looking for the money. Side note, I got a pay decrease getting this job.

"With regards to a ratio-based salary for the assistant superintendent and the complex area superintendent, we can change that law. We don't necessarily have to increase the superintendent's salary in order to help their salary. Let's just change the law that says their salaries can be more similar.

And then with regards to attracting a good superintendent for a big salary, many people want to be the superintendent. I can give a list of names who would be happy to apply. So, I don't think that's the main crux of the issue.

"I'm not in favor of paying the superintendent more. I know this bill doesn't directly do that, but it indirectly does that by unleashing a cap. And so, if teachers are making not a lot of money and the community is saying, let's pay teachers more, I think let's focus more energy on that versus having one executive potentially make \$300,000 a year."

Representative Perruso rose to respond, stating:

"Second time, in opposition. So, I deeply appreciate the work that the chair on Education has done on this measure, and I really appreciate the concerns and the way that this problem is being tackled. I think that I still have deep reservations about deferring to the Board of Education and giving them additional power around salaries, because the Board of Education is not elected. And so, there is very little public control or even public influence over the Board of Education, a problem that's really evident when the public tries to agendize their issues concerning public education on the Board of Education agenda.

"And so, I think that given that distance from the public, that buffering from the public, it's really important that we maintain oversight and some control over what's happening with salaries, because should a situation arise in which there's an overly cozy relationship between the Board of Education and the superintendent, I think that the public would suffer. Thank you."

Representative Onishi rose to speak in support of the measure, stating:

"Thank you, in strong support. The residents of Hawai'i voted to make the Board of Education not elected. We used to have an elected Board of Education. We passed a constitutional amendment to take that away from the voters, and the voters decided to do that. So, I think the voters felt like an appointed board of education would be much more effective than one that was elected. And many of those people got elected year after year because nobody wanted to run.

"The other issue I wanted to bring up is, education in Hawai'i is the most critical issue for our young kids, and we're not willing to appropriately consider paying the superintendent, who has a responsibility over 180,000 of our kids in Hawai'i, a salary that people would consider to be an appropriate salary to hire possibly the brightest and the best. But we are willing to pay coaches for the University of Hawai'i way beyond \$250,000, just so we can have a successful sports team. So, with that, I am in strong support of this measure. Thank you."

"Mr. Speaker, I rise in strong support with a very, very brief comment. Having had the honor of being on the watchdog committee of the Hawaiian Homes, \$600 million, I'm not sure if it's been reported yet, but there's going to be almost 5,000 people taken off the waitlist of the 28,000 people because of this bill. I mean, because of the \$600 million. This bill just says, in case you don't encumber all that money, which, by the way, the great work of Kali Watson, he's encumbered that and even more money.

"So, the good news is, this is a failsafe, just in case some of that encumbered may slip, this will give him more time to spend the money. But the point is, the money's been well spent, and 5,000 Hawaiians are going to get leases because of that. That is very good news, and that's why I'm very in strong support of this. Thank you."

"Strong support, Mr. Speaker. This bill gives naming rights for the convention center, something that we should have done long ago. And you know I've preached too many times on this floor about the stadium, the Aloha Stadium, should be named because there are thousands and millions of dollars waiting to be put up on the marquee to allow us to have less taxpayers' money and more people for naming rights. So, I think they're doing the right thing on the convention center. I just don't like the fact that the roof leaks so much and a lot of the money that we save, we push through because of the water factor.

"But otherwise, this is a good bill. We're finally getting a little bit entrepreneurial. I often accuse the state of being not very innovative or creative. Naming rights should have been done from the get-go, but I hope that this bill will spill over for the naming rights of the, hopefully in Hālawā, new stadium, not at the University of Hawai'i, but I know I'm getting off course with that one. Thank you."

Representative Tarnas rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I stand in support of this legislation. This bill is a reasonable, moderate, and measured approach to regulating the legal use of cannabis by adults in Hawai'i. I want to acknowledge the diligent efforts of the Attorney General's Office and the hard work of my own staff in the Judiciary & Hawaiian Affairs Committee, members of the Senate.

"Together, we have worked to identify the best practices utilized in other states which have legalized adult use of cannabis. And we tailored the provisions to Hawai'i's unique legal, statutory, and societal context. The Senate considered the measure, made useful amendments, and your Committees on Judiciary & Hawaiian Affairs and Committee on Agriculture & Food Systems heard this measure and made additional amendments to the bill, which strengthen provisions to address concerns brought up by members of this body.

"This legislation, as crafted originally by the attorney general, has six main themes to it, or pillars. The enacting of the Hawai'i cannabis law, a legal safe harbor from state criminal prosecution concerning activities relating to cannabis for those who strictly comply with its provisions. Second, the creation of a robust independent body, the Hawai'i cannabis and hemp authority, with the power to regulate all aspects of the cannabis plant, whether it's medical use cannabis, non-medical adult use, or hemp, in accordance with the Hawai'i cannabis law.

"Third, the continuing role of law enforcement agencies in addressing illegal cannabis operations not acting in accordance with the Hawai'i cannabis law, which pose threats to public order, public health, and business operators who choose to operate in the legal market. Number four, a vibrant, well-funded social equity program to be implemented by the Hawai'i cannabis and hemp authority with the intent to bring greater economic opportunity to disadvantaged regions of the state and to help transition formerly illicit operators into the legal market.

"Number five, a delayed effective date of approximately 18 months for the legalization of non-medical adult-use cannabis and the first legal retail sales to allow the Hawai'i cannabis and hemp authority, law enforcement, licensees, and the public to prepare. And number six, the implementation of extensive, well-funded public health protections, including a public health and education campaign to inform the public about the new laws, the continuing risks to public health, especially to children, posed by cannabis, and financial assistance for public health services such as addiction and substance use treatment.

"So, the purpose of this act is to establish the Hawai'i cannabis and hemp authority, cannabis and hemp control board, and cannabis and hemp control implementation advisory committee. Also to establish laws for the cultivation, manufacture, sale, and personal adult use of cannabis. It amends or repeals existing laws relating to cannabis, including hemp. It establishes taxes for adult-use cannabis and medical use cannabis sales. It establishes the legalization of the possession of certain amounts of cannabis for individuals who are at least 21 years old beginning January 1, 2026. It transfers the personnel and assets of the Department of Health and assets of the Department of Agriculture relating to cannabis and hemp to the Hawai'i cannabis and hemp authority. And finally, this measure provides certainty for hemp farmers, support for small hemp farmers and industrial hemp projects, and effectively regulates hemp-derived cannabinoid products that may pose a danger to public health or public safety.

"This is a carefully crafted measure that I hope addresses the concerns of the members of this body, and I urge members to support it. Thank you, Mr. Speaker."

Representative Kitagawa rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I'd first like to start off by thanking the Judiciary and Agriculture Committees for their work on this bill, as I know the bill is very long, over 300 pages, and the hearing on Wednesday lasted for many hours. However, I am in strong opposition to

this bill, which would legalize marijuana. And I'd like to highlight just a few of the reasons for my opposition today.

"In Wednesday's joint committee hearing, it was evident that the majority of organizations and individuals who testified were in opposition to this bill. The prosecuting attorneys for the City and County of Honolulu and Maui County, as well as the Honolulu, Hawai'i County, Maui County, and Kaua'i County police departments, testified in strong opposition to this bill. The Department of Law Enforcement, the Department of Health, and the Department of Education also submitted testimony sharing serious concerns with this measure. The Attorney General's Office submitted comments on this measure, however, they noted during the hearing that the attorney general does not support the legalization of adult use of cannabis.

"I'd also like to highlight that there were a total of 221 testimonies submitted for this bill on Wednesday's hearing. Of the 221 testimonies, 61 or approximately 28% were in support, 44 had comments, but many of those comments included concerns, and 116 testimonies were in opposition. In addition, there were two community petitions submitted in testimony, which shared opposition to this bill. A total of 525 people signed on to those two petitions in opposition. Clearly, the majority of testifiers are in opposition to the legalization of marijuana.

"Supporters of legalization of marijuana will often reference a Star Advertiser poll that was previously conducted, in which the results showed that 58% of the population are in support of the legalization of marijuana. I'd like to share a little more details about this poll. This poll was conducted in July of 2022 and surveyed 800 registered Hawai'i voters with a margin of error of plus or minus 3.5%. The question was asked, do you support or oppose the legalization of recreational marijuana to generate tax revenue for the state? Let me repeat that question again. Do you support or oppose the legalization of recreational marijuana to generate tax revenue for the state?

"The question was not simply, do you support or oppose the legalization of marijuana, but it in fact asked people if their support or opposition to legalization was based upon the generation of tax revenue for the state. Many people believe that legalization will help to generate millions of dollars for our state, which can be used to address the many concerns that we have, such as funding for education, reducing homelessness, or helping to support our families in need. This bill does not, in fact, generate tax revenue for the state that can be used in the way that community members assume and think it should be used. The Department of Taxation provided testimony that this bill would, in fact, decrease the general fund by \$1 million in its first year and \$2.5 million each year thereafter.

"I would like to note, however, that this bill does create two special funds which evenly splits any proceeds from the tax on cannabis. The first special fund is the cannabis regulation, nuisance abatement, and law enforcement special fund, and the second special fund is the cannabis social equity, public health and education, and public safety special fund. However, both of these special funds do not designate funding to address any current community concerns, such as funding public education or other support services. This bill does none of that.

"The programs that are funded through this bill's two special funds are simply programs created to operate the cannabis program and address any possible and new concerns that will arise because of the legalization of marijuana. Even though a community grant program is included in this bill, it will not help to address our statewide issues that I just mentioned or the issues that community members assume will be fixed through any possible revenue generation.

"Mr. Speaker, there are so many other reasons why I oppose this bill and believe that this is the wrong direction we are headed towards as a state. But I will end by saying this. We are fooling ourselves to think that this bill will not have a negative impact on our youth, our families, or our communities. Even though this bill states that legalization is for adult use only, for those 21 years and older, it is unrealistic for us to believe that legalization will not increase access for youth or underage use of marijuana.

"Alcohol use, smoking, and vaping are all adult-use products for individuals who are 21 years or older, but we are facing one of the worst youth vaping epidemics in the nation. If we can't control youth vaping, what makes us think we can control access to and use of marijuana for our youth?

I urge my colleagues to join me in voting no on this measure. Thank you very much."

Representative Matayoshi rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I want to piggyback on some of what the previous speaker said about finances, which I think is kind of the low hanging fruit reason to vote against this bill. This bill will cost approximately \$39 million in its first year alone, it's not expected to generate any net tax revenue. And honestly, we're fronting that \$39 million in a year where we are well in the red. I mean, in the year where we are talking about possible government furloughs, in the year where we are talking about cutting government programs, we're going to have to front \$39 million across the board for this bill and hopefully get some of that back in tax revenue. I don't think this is the year for us to be trying that sort of experiment.

"Another point that I'd like to make in opposition is the seeming boom in the black market for states that have legalized recreational marijuana. One of the arguments I always hear in favor of legalizing marijuana is that it will get rid of the black market, that because it's legal and you can buy it everywhere, that there's going to be no reason to have the black market anymore. Yet this bill imposes significant restrictions, which I agree with, and licensure and regulations in making sure that a legal marijuana industry is safe.

"The black market doesn't have to abide by any of that. The black market doesn't pay taxes. The black market doesn't have any regulations on safety or control. And that same marijuana that's going to be sold, you can't really tell whether it was grown legally or illegally once it's in someone's pocket. So, the black market in other states that have legalized this have undercut the legal market. The legal guys want to do it fairly and legally and pay their taxes, which I can respect. But the black market can sell it for a cheaper price because they're not regulated, it's not subject to tax. And because of the normalization of legalizing marijuana, more people are willing to purchase it from the black market, from shadier sources. Because, again, once that marijuana is in your pocket, there's really no real way for us to tell whether that marijuana was purchased legally or illegally. So, I think if we do this in Hawai'i, the black market will undercut the legal market and we will see decreased tax revenues than what's projected.

"The danger to our society too is, I mean just the physical danger to our society from driving impaired is also going to increase if we legalize marijuana. Though the Prosecutor's Office pointed out that in a study done of Idaho and Oregon, once Oregon had legalized marijuana, cannabis impaired driving in the Rocky Mountains area post legalization starkly rose. And in a year where our own Speaker of the House has led the fight in regulating and trying to reduce the fatalities and accidents from driving without a license, I think that this is not the right time to now introduce another substance which could impair driving. I think that we're going in the wrong direction with that, given the direction that we're going with the driving without a license bills.

"The impact on tourism I think cannot be understated. I think every single person in this room has sign waved at one point or another, probably excessively. And we've all had that car drive past us, and it just hits you right in the face. Someone's smoking cannabis, and that smell really carries. When I'm taking my kids down to the aquarium in Waikīkī, it just kind of strikes you. And I'll look around, and I can't even see the person smoking, but I know it's around, the smell is just so strong and it carries.

"I understand that there are proposals to keep it out of Waikīkī, keep it out of high tourism areas. But that will require a massive crackdown and I don't think that law enforcement has the, frankly, the personnel in order to do that. And I think that that's going to lead to just a lot more arrests and a lot more people in jail, which I don't think that the introducers of this bill intended.

"Speaking of law enforcement and not having enough people, this bill requires a fairly large number of law enforcement officers to be hired to regulate this industry. Which, again, I think is the right direction to go if the state is to do this, I appreciate the Judiciary chair's efforts in making sure that there is a robust law enforcement division and branch to regulate this industry, were we to legalize it. But we just don't have the people. We're already short how many officers? If we're to put this up, and even if it's

delayed 18 months, if we can't hire and fill all those positions, which as the Labor chair, let me tell you, it's not an easy task to do."

Representative Garrett rose to yield his time, and the Chair "so ordered."

Representative Matayoshi continued, stating:

"Thank you. So, if we can't fill these positions, we're going to have to take the officers elsewhere. Well, we either have two choices. We can take the officers from elsewhere, and we're going to have even fewer officers on the crimes currently plaguing our communities, or we're going to have to try to do this legalized marijuana with fewer officers in the marijuana division, which I think is going to lead to disastrous results. So, I don't think there's a good way out of that situation, unfortunately.

"And my last point I just want to leave you with is, it's still federally illegal. There's an effort on the federal level to move it from a Schedule I to a Schedule III drug. That's not making it legal, you still need a prescription for Schedule III drugs. And, okay, I'm not going to opine on what schedule drug marijuana belongs in. But as long as it's federally illegal, we, by legalizing it here on a state level, put ourselves at the mercy of whichever president and whichever party is in control of the federal government at the time. And I do not want to subject our state to that kind of uncertainty, ever. Thank you."

Representative Kobayashi rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition. My opposition is based on public health concerns. Most of you don't know that I've sat on the Health Committee almost continuously during my entire career, including serving as chair of the Senate Health Committee for eight years. This legalization of marijuana is a public health disaster. First of all, it is a powerful, mind-altering hallucinate and intoxicant, which alters the brain, especially amongst young people up until their mid-20s or so, as the brain develops until that age. It produces, among other things, all kinds of psychological and psychic disorders including schizophrenia, depression, hallucination, lack of motivation. This is especially so amongst young people.

"Its effect on driving is dramatic. Driving is a zero-error activity. But marijuana impairs perception, vision, motor coordination, and makes people vulnerable to less attention. In the State of Washington, marijuana driving deaths double in the one year after legalization. In Colorado, one out of every eight traffic fatalities are marijuana related. Suffice to say that, marijuana also has other unintended consequences, such as, to produce opposition from the American Medical Association, the American Cancer Association, the American Academy of Pediatrics, the American Lung Association, American Epilepsy Society, and many, many, many other health and medical organizations, both statewide and nationally.

"I would say that no state has been able to curb the black market on marijuana. This results in all kinds of spillover effects amongst underage people. And I would note that underage people are particularly susceptible to the mental and mind-altering effects of marijuana.

"To say the least, marijuana is at least as dangerous in terms of lung health as smoking. One study suggests that marijuana produces four to five times the toxins and carcinogens as tobacco smoke, four or five times. So, you don't have to smoke a lot of marijuana to damage your lungs. In addition, it is associated with increased likelihood of heart attacks and weakens the immune system.

"The U.S. surgeon general has said famously that no amount of marijuana is safe for adolescents and advises the same against pregnant women, noting that marijuana and the active ingredient, THC, of marijuana, causes the placenta and brain blood barrier affecting the baby in utero.

"All in all, marijuana leads to a host of problems, and I won't get into the association between marijuana and crime and the marijuana in and amongst inmates.

"In the public hearing held, we had time and time again people saying, I started with marijuana and then I went on to so-and-so, and then I messed up my life. Not easy to say in public that you messed up your life. People weren't saying, I started drinking and then went on to so-and-so, and then I

messed up my life. They were speaking specifically on marijuana. And this was said time and time again in the public hearing recently held this week."

Representative Marten rose to yield her time, and the Chair "so ordered."

Representative Kobayashi continued, stating:

"I will conclude simply by saying that marijuana is a public health disaster with consequences and unintended ill effects that cannot be controlled once the bottle is open. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I also rise in strong opposition to the legalization of marijuana. I also have about a dozen reasons why this is the case. The first of which is it doesn't even belong in this legislature, this is something that should be on the ballot, Mr. Speaker. The polls, depending on which one you read, say, well, you know, we want it, then the other polls say we don't want it. I know my district is 57 against, 43 for it. This is an issue as serious as same sex marriage, which means it should go to the people rather than to this elected body. That's my first reason, Mr. Speaker.

"The second reason is, we don't have to go to the moon to prove it's there. Why don't we learn from what Colorado did? Why don't we learn from those who have done it already in California? We're saying we got to do it to show that the black market is not going to proliferate, which is a joke, that traffic accidents are not going to increase, that the youth are not going to be hurt, particularly for those whose brains have not even been developed yet, that gangs and corruption is not going to come and take over.

"Mr. Speaker, I think we're not being scientific enough, or let's say we're being too egotistical, to think that we are going to be immune from those things that's already happened in other places. That's why when I say, do we have to go to the moon to prove it's there, why don't we listen to Mr. Armstrong and all the other people who've been there and done it?

"My third reason issue is this, if we go back to Wednesday's hearing and we divide the pros of who want it, it's basically follow the money, it's economic reasons. Because when we had all the people who have got different diseases, we gave the medical marijuana the go ahead. And that was one of the big reasons I voted for that.

"But when I hear these economic reasons like, hey, we're going to get \$39 million in our first year, we're going to get I think it's about \$109 million by year four. We don't realize, Mr. Speaker, that those are *manini* compared to the Japanese market in Hawai'i, you know how much it's worth, \$2 billion. Even if when Prosecutor Alm says, the Japanese have told him, very reliable sources from Japan and in Waikiki, you guys legalize marijuana, our Japanese visitors, when they said the Japanese are not going to come, that's a \$2 billion market, Mr. Speaker. \$39 million is chump change chicken feed compared to even if only 25% or 50% of the Japanese don't come. We're risking big money.

"And the other thing was, and it was brought out in the hearing, DHRD said, because of the federal money and the prohibition at the federal level, you guys pass a bill like this, we may jeopardize millions of dollars of federal funds. And you can ask the chair of Finance, federal funding is a big part of our budget. We get a lot of money from transportation and all the other, DHS, the social factors.

"The point is, those who are for it are saying, follow the money. And if you look at the downside of it, now I'm not even talking about the mental illnesses that come from it or the traffic deaths it can happen from, for what all the police departments have said about us. So, let's dispense with this money.

"The other argument they give is that, well, we're going to decriminalize these people, we got sort of a thing that we want to expunge. We can do that separately. You don't have to legalize marijuana to say we're going to expunge and we're going to protect the lives and the reputation of these young people. And, Mr. Speaker, if you look at marijuana now and how it's practiced or enforced, it's already legalized. You can get marijuana anywhere at any time. And if you do get caught, HPD says we don't really enforce this when we smell it and we go do it, I mean, they leave it alone. And if there may be big money behind it and they have to do an enforcement,

you get, and this is quoting Prosecutor Alm, you get a parking ticket. A slap on the wrist, \$125 bucks."

Representative Matsumoto rose to yield her time, and the Chair "so ordered."

Representative Ward continued, stating:

"I've just begun to give my speech here. The point is, the police are not enforcing it. It's already legal, it's already *de facto* legal. I've jumped now to number five, the black market. This reality is proven already by the empiricism given to us, some rumor, some fact, those who are on medical marijuana, up to 70% of those people are going to the black market. They're not going to the dispensaries. Dispensaries are too expensive, they're too otherwise regulated, and people are not going to go to the dispensaries. Dispensaries were created so the medical people and others would go to them, and now they're going to the black market.

"Every person who thinks they can grow something and make money, a quick buck, this black market is going to proliferate. I said earlier, if we listen to the lessons of Colorado and California, the cartels have even come in because there's so much money in the black market. The Chinese farmers have come in because of so much money in the black market. So, who are we to think in Hawai'i that we are going to avoid it? I think that is so naive. I mean, the money is quick, it's fast. And we're going to say, we're not going to have that. And in the AG's bill, it says, we're going to reform those black market people and make them straight and narrow, we're going to make them legalized. That is such a naive concept.

"And by the way, the attorney general is against the legalization of marijuana. I repeat, the attorney general is against the legalization of marijuana. She said, if you guys are, I'm gonna editorial, if you guys are stupid enough to pass it, okay, we'll implement it, here's the way to avoid the difficult things to do it. But the AG herself knows that the public safety issues, which the police departments of every county have said is a no, no, Mr. Speaker. That's playing with fire.

"Let me move on to number eight. And this is, I think, one of the most important issues. It's about the future. We talk about the *keikis*, we got to keep the *keikis*, we got to educate them. Mr. Speaker, this bill will dumb down our kids. To think that only 21-year-olds are going to go and smoke marijuana because the bill says so, is so naive, is so silly. We can't even keep, as one of the good speeches were made earlier, we can't even keep the vaping under control. Everybody's vaping. And now you can go buy a vial of THC and stick it in your vape. Which means these young kids, mostly high school, particularly, even though I think in testimony in Wednesday's hearing, 33% of Hawai'i's youth, high school kids, 33% are regular users of marijuana. Not just occasion, I mean probably 100% have tried it, 30% are regular users.

"My point is, in this last point, we're dumbing down our kids. Do we want a stupid Hawai'i? I don't think so. So, for the sake of the youth, we should be totally against something like this. And it's so naive to think that this is going to be avoided because we can control it. We can't even control fireworks, we can't control vaping, we can't control the illicit market for cigarettes. And I was really amazed to hear that four times the amount of toxins come to you when you smoke marijuana. My god, there's enough against cancer for smoking and now we got four times that, and we want to legalize it, we want to give our stamp of approval to say, hey, us adults, we can do it. We're sending the signal to the young kids, hey, it's okay, mom and pop do it, you can do it also.

"So, in conclusion, Mr. Speaker, this bill will jeopardize our future. It will jeopardize and make life here the least of which is going to be beneficial for our young people. We need to send a warning by not passing this bill. We don't need to ruin our communities.

"And I want to end on one of the notes that came out in our hearing. The west side people were pleading with us, don't pass this bill, we want to build our communities, we don't want to ruin our communities. The west side were almost crying to the community. And I say before this body, they're crying for us because there's a correlation between, and this is a DEI thing, you guys who are woke and know DEI, there's a geographical factor here. The lowest in the most poverty parts of our state are the highest users of marijuana. So, what we do is we commit this stuff, so you guys are already

poverty stricken, are going to get even get worse, because we don't want you to get out of poverty. We want to numb you down, we want to make you kick back and relax. Because they're the highest users of marijuana, Mr. Speaker. That is very unfortunate. We're going to commit our communities that are already poor to being already poor."

Representative Garcia rose to yield his time, and the Chair "so ordered."

Representative Ward continued, stating:

"Okay, I've run out of time. I don't think that our constituents want this. If everybody did a poll, you would see because they know that some of the things that are going on by the facts coming out about the dumbing down and the other issues, Mr. Speaker, I think we'd know that this is not the way that we would be, as those who push the economics, we would be pennywise and pound foolish. Those who push the recrimination, we can expunge these records whatsoever.

"And lastly, Mr. Speaker, we don't want to be pennywise and pound foolish. And we must know that this is an election year, people are paying attention to us. And I would hope everybody in this room would get close to their constituents, because numbing and dumbing down the people of Hawai'i is not the future of this great state. We have great potential, but this is one of the steps backward against the people of Hawai'i rather than for the people of Hawai'i, which is why we are here and what we are supposed to be, for the people of Hawai'i. This bill goes in the opposite direction. Other than that, I have no strong feelings about the bill."

At this time, the Chair stated:

"Thank you, members, for your passionate speeches. I do want to remind you all that we are going through second reading, and this bill still has to go through CPC and FIN."

Representative Todd rose to speak in support of the measure, stating:

"Thank you, in support. I apologize in advance, I normally don't speak on second reading, but I figured we might want a little bit more balance in the discussion, very quickly. I think it's very possible, on top of respectful debate on the merits of the measure, I think it's very fair to say that there will be unintended consequences and some harm produced through legalizing. But I would also note that there's a lot of harm in not legalizing. And the real question is, where do you find that balance? And, we have to make a policy call on whether legalization is more harmful than prohibition.

"I would suggest that if you look through our country's history, prohibition has almost always been disastrous. I do think that it's relevant to look at a lot of the health impacts that have been mentioned. We have hepatitis, fibrosis, cirrhosis, stroke, high blood pressure, arrhythmia, cardiomyopathy, pancreatic cancer, liver cancer, colorectal cancer, breast cancer, head and neck cancer, which I didn't even know was a thing. That's all from alcohol.

"And I think if we had a bill on the floor to prohibit alcohol, which is demonstrably dangerous, and numbers would suggest significantly more harmful than cannabis usage in a vast majority of studies conducted on this issue, that it would fail spectacularly because we have a history, that we know that prohibition for alcohol does not work.

"There's been a lot of talk about how the black market is already thriving. Again, that's an argument for legalization. Prohibition is not effective, it props up the black market. It's also worth noting that one of the reasons the black market has had continued success in many other states that have legalized is because of overburdensome regulation when they've legalized cannabis. There's an opportunity, and I think this bill, there's a lot to learn from that.

"A lot of the front-end cost, I would argue, is completely unnecessary and, again, overly burdensome. I would prefer a more just blanket approach, but I would acknowledge that in the committees and the testimony we've received, that's just not viable if we're trying to get this through the administration, through the Legislature, which is why a lot of concessions have been made. But I don't think it's a fair point to suggest that the black market success in other states and the upfront cost is a result of legalization, when many of those concessions that are made to opponents of legalization are what have led to those outcomes.

"Beyond that, I think that it's fair to say that maybe our prosecutor here in Honolulu is not necessarily a tourism expert, and that is not his field. I don't think it's fair to say that tourism is all of a sudden going to disappear and dry up. I believe if you go through any major metropolitan area on the West Coast that has currently legalized cannabis, you will see a great number of tourists there. They're not all of a sudden disappearing from Seattle, San Francisco, and Portland, or Las Vegas, for that matter. I don't think there's any evidence to suggest that that would actually be the case.

"And lastly, I would just say that, very often, in terms of our discussion around energy and just the means of production here in our country and in Hawai'i specifically, we very frequently fail to recognize that much of the harm of our policymaking, of our consumption here, is exported to other countries. I think it's very clear, at least in my personal opinion, so maybe that's not a fair statement, that prohibition and the war on drugs has been the single most harmful policy agenda in the Western Hemisphere since slavery. And I don't say that lightly. I think the evidence is there. If you look at how it has completely destroyed many communities across the Western Hemisphere, we don't see that on our day to day here because we've exported that harm elsewhere. That's all I got, thanks."

Representative Nishimoto rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Alcos rose to speak in opposition to the measure, stating:

"I'd like to adopt the words as all the representatives that oppose this bill," and the Chair "so ordered." (By reference only.)

Representative Alcos continued, stating:

"And I would like to have a short comment. In opposition. About the finance, I hear a lot about money, if we could make money, it's not about the finance and the money, whether we make a billion dollars. Life that we're trying to save doesn't have a price that we want to come in and try to say that, hey, we can make \$500 million if we pass this bill and help our state, but yet we're going to kill one of our family members.

"We are here in the Capitol, I'm joining as a representative here in the House for my community, to save life, to make a valuable, a strong community. But having this inside our schools, in our parks. I know it's about adults, but it's not helping our community, I don't see it. You can already get medical use of it. And making it legal, I feel that this is going totally the opposite way. And we should never look at money just because the state can make money and that's why we want to go in this direction. It should never be about that. It should be about how can we help families. Thank you."

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Amato rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in strong support. Let me be clear, marijuana is medicine. I realize this is a sticky issue, but it resonates with me because, as a stroke survivor, I would rather have the opportunity to use THC to relieve my severe, constant pain than to use the opioids. Yet my health insurance will not cover a 329 card, and the 329 process is unattainable for many. My health insurer will not even give me a 329 examination to get a card, nor cover marijuana as a prescription, but it's willing to hand me opioids like they're candy.

"It is a fact that marijuana saves lives. In Colorado, after legalization, opioid deaths were reduced by 6.5%, violent crime was reduced, and of course, critical revenue was raised. I don't need to remind you all of the revenue, but anyway. The buzz is that traffic death rates statistics are invalid, as there is a clear lack of disambiguation of variables and traffic reports reported as cannabis fatalities, as alcohol was not separated as a variable. Officials like the AG and the county prosecutor should be precise and scientific when presenting scientists' potentially statistically biased arguments to the Legislature if they're to be taken seriously. They were not.

"This is about more than revenue arguments. We need to recognize that for too many people that have been sent to jail for simple marijuana possession at enormous cost to our society in lost wages, family disruption, incarceration costs, the loss of jobs, and income tax revenue. Teen use of

synthetic delta-8 THC is actually higher in states without legalized marijuana.

"Decriminalization was just gutted in the Senate, just today. Yet also today, Democratic Vice President Harris said nobody should go to jail for smoking weed. And people will continue smoking it. In January, U.S. Health and Human Services Secretary Xavier Becerra defended rescheduling marijuana based on science, not Reefer Madness propaganda scare tactics that we have been hearing. The days of the 1936 Reefer Madness propaganda are over in most of the country. Didn't we learn anything from 1920s prohibition? Prohibition in Hawai'i will only continue to funnel money to the black market and strengthen the illicit dealers.

"For too long, the Legislature has been bogged down in the weeds. We have an obligation to vote as the majority of our population requests. And let us be clear, a vast majority of voters say legalize it. Don't let adults' rights go up in smoke. This is an opportunity not to be wasted. It is high time we legalize marijuana. I am a strong supporter of the well vetted, detailed, and comprehensive version of this bill. Thank you."

Representative Woodson rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Souza rose to speak in opposition to the measure, stating:

"No vote, Mr. Speaker. In strong opposition, and I would like the words of the vice chair of Finance to be inserted into the Journal as my own. And brief comment. I just wanted to thank the Judiciary chair, as a member of the Judiciary Committee, for all of his hard work on cannabis legislation this session, for the bills that he introduced, and even the amendments to the Senate bill specifically. So, *mahalo* and thank you for allowing a democratic process in our committee hearings. *Mahalo*," and the Chair "so ordered." (By reference only.)

Representative La Chica rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Kila rose to speak in opposition to the measure, stating:

"Mr. Speaker, opposition. Mr. Speaker, as the representative from Kuapā or is commonly known as Hawai'i Kai has shared, the west side of O'ahu faces social disparities. But on the east side of O'ahu, they are much more affluent. But this issue transcends class and finances, where there are folks in opposition on both sides. Mr. Speaker, in your chamber today, this is a bipartisan opposition, with both sides of the House and both parties rising in opposition.

"Mr. Speaker, Oregon was hailed as the forefront and the fore founding of marijuana legalization. And within the last two weeks, headlines have read, they are now rolling back all prohibitions that they have caused, and they have unleashed a monster that they can no longer control. The Pandora's Box of marijuana legalization may fear to do the same things here in Hawai'i as it has done across the state.

"Mr. Speaker, yes, as folks have raised their support for this measure the same way folks have raised their opposition, every single county police department in the State of Hawai'i has raised opposition to marijuana legalization. I would not like to be on the side that continues to alienate and not support our law enforcement as they continue to do the unpopular work of our law-abiding citizens to bring law and order to this state.

"Mr. Speaker, erring on the side of caution has always proved to be better than to go headfirst, not knowing what to come. I appreciate the Judiciary chair doing their fair due diligence to bring this measure forward. But in today's circumstances and what we are currently facing in Hawai'i, there is no way I could support this measure. And for the folks that have stood in opposition and provided testimony, I stand in opposition for those reasons. Thank you."

Representative Takayama rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Kong rose to speak in opposition to the measure, stating:

"In opposition and I'd like the words of the representative from Kapolei as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Sayama rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Takenouchi rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Ichiyama rose in opposition to the measure and asked that the remarks of Representative Kitagawa be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Matsumoto rose in opposition to the measure and asked that the remarks of Representative Kitagawa be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Lamosao rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Chun rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Martinez rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. I support medical marijuana, but I don't support recreational marijuana. According to the Rocky Mountain High Intensity Drug Trafficking Area Strategic Unit, this was what they found. The yearly rate of emergency department visits related to marijuana increased by 52% after the legalization of recreational marijuana. That's from 2012 to 2016. Do we want to be increasing emergency deaths in Hawai'i? I think not. The percentage of all Colorado traffic deaths that were related to marijuana increased from 11% in 2013 to 21% in 2017. Do we want to be increasing traffic deaths in Hawai'i? I think not.

"Where marijuana is commercially available, companies are going to market it to drive up the profit and to try to get as many users as possible, even if only a certain percentage of users are problematic. That number of problematic users will go up when the number of people using marijuana goes up.

"I have close family members who are hurting their lives by using legalized substances in Hawai'i and in California, legalized alcohol in Hawai'i, legalized marijuana in California. The majority of testimonies submitted in committees are against this legalization. I sent out a survey to my district. Hardcopy mailers, also digital copies and emails, and then a QR code for the younger folks to use that digital option on the hard copy mailers sent to their homes. Over 60% of my community voted no, Elijah, please don't give your yes vote to this bill. I'm listening to my community, I'm going to vote no.

"I'd like to thank the words of the Finance vice chair and the District 20 representative. I don't think the pros outweigh the cons in this issue, and I'm going to be voting no."

Representative Garrett rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Aiu rose to speak in opposition to the measure, stating:

"No vote, brief comment. No, please."

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I just want to take a moment to thank the chair of Judiciary for having the political courage and the will to be able to bring this measure over from the Senate and to craft a really wonderful piece of legislation that provides a pathway forward for legalization, but also creates the guardrails that are necessary if we are going to legalize. I do believe that one day legalization will be a reality. I think that it's important that we have a pathway forward to ensure that our local growers are people that can become a part of this industry, that our medical industry can thrive, and I think that this bill allows that as well.

"Beyond that, I would also just like to say that this is not new. There are states across the country who have done this, and we are in no way leading the charge. We're trying to find, I think, a smart and possible way to ensure

that legalization can happen in our state before we have big multi-state organizations come here and really take away our potential to help our local industry. Beyond that, I'm just going to say that people are smoking marijuana and cannabis, they're going to continue to smoke cannabis. And I think that we cannot continue to jail people for smoking a plant. Thank you."

Representative Ward rose to respond, stating:

"Thank you, Mr. Speaker. Second time in opposition, strong opposition. Two words that come to mind. One, the prohibition where being misused, it's got the Al Capone imagery of prohibition. This is nothing like that. When you get a parking ticket as the reason why if you got smoking, and most, as I said, the police don't even give people an arrest. So, to say people are going to go to jail because of their smoking? If you're a dealer, of course. If you're doing and, outside of what is allowable, you get a parking ticket. I mean, you don't get a parking ticket. And if you have the minimum within the legalized area, you get a \$125 fine, of which we can make it \$5 if we want.

"The point is, there's no reason to make legalized marijuana because of the decriminalization. Because if we are so suppressed and the young people, no that's not the reason. The reason is because the downside economically, socially, politically, mental health wise, *et cetera*, all the ills of society, Mr. Speaker, are not there.

"We were elected to benefit the people of Hawai'i. The argument about the economics is a false argument, even those on the mainland. Because here's what happens when they say we got a windfall of marijuana for even those that are making it. They put in the marijuana money, say, for an education, then they back out the standard amount of money that they would allocate to that department, and you get a net *manini* gain. So, this argument about it is going to be an economic boon is just not valid.

"The other one about the decriminalize and expungement. We can do that without legalizing marijuana. Mr. Speaker, the cries of the west side, and I appreciate the representative from the west side, of all the things that have been happening there, this would be even an intensification of that. And for all of the people of Hawai'i, we've got enough things to get us high on. We got enough drinks, we got enough kind of drugs and toxic and other sorts of things to do. We don't need to add another one onto it. I'm not justifying what we have, but to add on more, the blood is going to be in our hands, Mr. Speaker. Thank you."

Representative Hashem rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Todd rose to respond, stating:

"Just very briefly, still in support. I just wanted to note that during the prohibition era, alcohol was actually legal for consumption and legal to have in your home. So, it was actually more legal during prohibition than it is for cannabis currently. I just want to note that. Thank you."

Representative Onishi rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committees was adopted and S.B. No. 3335, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CANNABIS," passed Second Reading and was referred to the Committee on Consumer Protection & Commerce, with Representatives Sayama and Takayama voting aye with reservations, with Representatives Aiu, Alcos, Chun, Garcia, Garrett, Hashem, Ichiyama, Kila, Kitagawa, Kobayashi, Kong, La Chica, Lamosao, Matayoshi, Matsumoto, Nishimoto, Onishi, Pierick, Souza, Takenouchi, Ward, and Woodson voting no, and with Representatives Cochran, Ganaden, Gates, Martinez, and Quinlan being excused.

No. 2476, HD 1, entitled: "A BILL FOR AN ACT RELATING TO DENTAL HYGIENISTS," passed Second Reading and was referred to the Committee on Consumer Protection & Commerce, with Representatives Cochran and Sayama being excused.

Representative Tarnas, for the Committee on Judiciary & Hawaiian Affairs, presented a report (Stand. Com. Rep. No. 1163-24) recommending that S.B. No. 2640, SD 2, as amended in HD 1, pass Second Reading and be referred to the Committee on Finance.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2640, SD 2, HD 1 pass Second Reading and be referred to the Committee on Finance, seconded by Representative Morikawa.

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition. Thank you, Mr. Speaker. This bill seeks to amend the Hawaiian Homes Commission Act to authorize the Department of Hawaiian Home Lands to provide cash awards to beneficiaries on the waiting list in lieu of a lease. It amends the Hawaiian Home Loan Fund to be allowed for the use of cash payments, and it requires DHHL to remove those names from the waitlist.

"Mr. Speaker, we should be ashamed of ourselves for even considering this bill in the House. So, because our state failed miserably to fulfill our duty as required under the Hawaiian Homes Commission Act, we now seek to remove names from the waitlist by offering wait listers a cash award. What an insult. What a slap in the face to the families who have died on the waitlist, to the legacy of Prince Kuhio and to the Hawaiian Homes Commission Act itself.

"In just a few days, we will all be celebrating the life and legacy of Prince Kuhio. If only he were here to see that 103 years after he worked so hard, as a nonvoting member of Congress, the Hawai'i State Legislature would consider paying off Hawaiians instead of fulfilling our duty. In a letter written by Prince Kuhio to the U.S. senators in 1921, he said, 'after extensive investigation and survey on the part of various organizations organized to rehabilitate the Hawaiian race, it was found that the only method in which to rehabilitate the race was to place them back upon the soil.'

"Mr. Speaker, this bill does not place the Hawaiian people back upon their soil. And there were some testifiers who mentioned in their testimony that this seems to be a bribe.

"A few years back, Hawaiian Home Lands sent out a survey to the wait listers inquiring their thoughts on a potential payout. The overwhelming majority of wait listers said, we don't want the money, give us our lease.

"In honor of Prince Kuhio and his fight for our *lāhui*, I urge this body to vote no on this bill and focus on actually doing our jobs and fulfilling the Hawaiian Homes Commission Act instead of paying people off to excuse our massive failure."

Representative Tarnas rose to speak in support of the measure, stating:

"Mr. Speaker, thank you very much. In support. Just to make it clear, this measure merely authorizes the Hawaiian Homes Commission, if they so choose, at their own discretion, to establish a program with guidelines that would provide for what is envisioned in this bill as an alternative. We're not compelling the commission to do this. We recognize that there has to be very thoughtful design of such a program in consultation with beneficiaries. All that has to happen.

"So, this legislature is eager to meet our needs. And we have invested significant appropriations in order to get the Department of Hawaiian Home Lands to a position where they can offer lots for Hawaiians to be able to settle for residential and other purposes. But I think what we need to do is to provide as many tools as possible to the commission so they can be successful. This is one more tool. It's not a mandate, it's just an authorization. So, I urge members to support it. Thank you, Mr. Speaker."

Representative Poepoe rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. Strong reservations, almost a no. I have two problems, why I'm far away from no. Number one, it's blank. I'm talking about the structure of the incentives. If the money is *manini*, it's really a slap in the face of all the Hawaiians. If it's something substantial where they can almost buy a condo, that's there. So, my first problem is, and why I have doubts, is because there's no money that says, it's all blank.

"The second thing is, unless people are old and have no kids, this is the only thing that would make sense. In other words, if we target it, saying, like a means test, this would be an age test and you have no children, then for those people who've waited 20 years and they're maybe 75, 85 years old, this would make sense. But for the others, Mr. Speaker, it may get close to being the B word, which I didn't say, so I don't get called out of order. Thank you."

Representative Pierick rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Amato rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Alcos rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Hussey-Burdick rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Kapela rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Perruso rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2640, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAIIAN HOMES COMMISSION ACT," passed Second Reading and was referred to the Committee on Finance, with Representatives Alcos, Amato, Hussey-Burdick, Kapela, Matsumoto, Perruso, Poepoe, and Ward voting aye with reservations, with Representatives Garcia and Pierick voting no, and with Representatives Cochran and Sayama being excused.

Representative Garcia rose to speak in opposition to both measures, stating:

"In strong opposition. I don't know if the members, Mr. Speaker, have read this resolution, but I just find it purely hypocritical that in recent weeks, the words 'right-wing' has been stricken from the record here on the floor because it was inappropriate. Here in this resolution, on pages eight to nine, it says, whereas, disinformation and digital hate speech have been linked to acts of violence, including various mass shootings. Whereas, just under half of those deaths caused by right-wing incidents were committed by people who showed support for white supremacy.

"This is a purely partisan resolution. And the fact is that there have been multiple mass shootings conducted by left-wing individuals as well. So, this premise is just completely unfounded. On page two, it continues with its partisan rhetoric, whereas, disinformation and digital hate speech have also been linked to the insurrection that occurred at the U.S. Capitol on January 6, 2021. There has never been a declared official insurrection that took place on January 6th. This goes to motive, if anything.

"I'm going to continue. Whereas, a 2021 Washington Post investigation found that right-wing extremists have been involved in 267 plots or attacks in the United States since 2015, resulting in 91 fatalities. Yet it fails to talk about all the other left-wing groups, Antifa, Black Lives Matter, that have burned down cities and also killed people as well.

"So, this resolution is one that should not be passed by this body. And I would urge my colleagues with common sense to vote no. Thank you."

Representative Ward rose to speak in opposition to both measures, stating:

"Mr. Speaker, I rise in strong opposition. First reason is because this is a piece of left-wing propaganda during an election year, and we're buying into what's going on at the national level, and this is the state level. This is just totally unfair. But let me be very clear, everybody in this room is against hate speech, against violence and other things that verbally start out. I mean, no one is for that. But this one is targeted against your minority.

"Remember, we're only five people. You guys are 45 people. And when you're down, we want to kick and stick our foot on your neck again. So, procedurally, this is totally unfair. Also procedurally, suddenly, at 7:30 in the morning, we get this thing, finally, we get it on the agenda. Why so late and why so secretive?

"But as my colleague said, it's very unbalanced and unfair. Everywhere it says right-wing extremism, it should say left-wing extremism. Who shot Representative Scalise when he was playing softball? It was a left-wing guy. I mean, let's be fair. I mean, this is a political resolution which doesn't belong in this body. And when the word bribery came up, we can't even say bribery. Now we're saying left-wing, now we're saying right-wing, you cannot say it, Mr. Speaker? I think we're being hypocritical.

"The point is, there's extremes on the left, there's extremes on the right, and this kind of buys into the national narrative where everybody, including our president, every chance he gets, he says, beware of the right-wing extremism. And these on the right side of the Democratic Party are just pushing a narrative, which is at the national level, which we do not belong in at all, according to this resolution.

"The other irony is that the whereases don't even match the be it resolved. All the whereases are what's going on in the mainland. Give me the empirical ratings of what's going on here locally in terms of hate speech. As I said earlier, we can't even say bribe and we get called out of order. In fact, if this speech, if this reso was a speech, you, Mr. Speaker, or the other Speaker would call us out of order. Because it's so partisan and it's so accusatory, it doesn't fit with our rules. But yet here it's a reso on the floor, and we're acting as if it's a formal, acceptable thing. Again, a national issue which we're taking up here locally for the sake of what's an election year in 2024.

"One of the funny things is that we're going to make a plan for our departments to how to become word police and safe havens for speech, but we can't even make a plan for the wildfires on Maui and make sure that that doesn't happen again. But we're going to make sure the word police in the State of Hawai'i are relevant.

"Mr. Speaker, there's just so many reasons it doesn't belong here. A resolution is for something that's good and helpful. This is hateful and it impugns the minority. None of us are in this hate speech mode, none of us are doing this stuff. But it's a national issue which you're trying to foist off on us, as if we are the guilty party. And remember, there's only a few of us. And you guys got 45. Why when we're down, do you want to step on our neck? That's the great irony.

"This, in the end, may end up biting you just the same way that Hillary Clinton called all of those who vote Republican as deplorable. You're calling all the Republicans in Hawai'i, you guys are the white extremists, and you're the ones who are the ones who are doing all of this hate speech.

"Mr. Speaker, this is a bad resolution. Mr. Speaker, I'm surprised you even put it on the agenda. These are the things that if, again, as we said, if we speak on them, we get termed out of order. This thing formalizes something that is really hate speech. And that's the great irony. This reso does exactly what it says that shouldn't be done in the State of Hawai'i, and we're doing it right now on the floor of the House. So, I'd love to hear some justification why the minority and the Republicans are so bad for the people of Hawai'i. Thank you, Mr. Speaker."

At 12:53 p.m., Representative Nakamura requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:54 p.m.

Representative Alcos rose to speak in opposition to both measures, stating:

"Mr. Speaker, based on what my colleague said, no vote."

Representative Matsumoto rose and asked that the Clerk record a no vote for her on both measures, and the Chair "so ordered."

Representative Pierick rose and asked that the Clerk record a no vote for him on both measures, and the Chair "so ordered."

Representative Garcia rose to respond, stating:

"Thank you, Mr. Speaker. Second time, still in opposition. I forgot to include in my first time speaking something that I would consider hate speech by some of the left-wing members here in this building. On March 17th, Senator Karl Rhodes tweeted, 'Trump says Presidents have total immunity. So if Biden has Trump assassinated, that's ok?' Talk about pure hypocrisy. No vote."

Representative Cochran rose to speak in opposition to both measures, stating:

"Thank you, Mr. Speaker. I'm reading the be it resolved and its, state departments, agencies are urged to address disinformation and digital hate speech, developing public safety plans to protect public institutions and employees.

"I'm in opposition. I mean, I'm in support of that be it resolved because I asked for that. I was threatened online. I have threats to me. And this House, Sergeant-at-Arms, Attorney General's Office, did not follow through. I still sit here feeling very unprotected, very unsafe in my own home back on Maui since the wildfires and things that occurred to me during the wildfires. I brought it to the attention of this House, to Speaker and others.

"So, I agree with the be it resolved, but this is my own community who did this to me. These weren't right-wing people. These are just, I don't know what happened. But today I still sit here very threatened and I'm shaking inside, still very upset with what occurred. And I had gotten no help till today. So, I do agree that we shouldn't be naming people on the other side of us, because it happened in my own hometown from my community members."

Representative Ward rose to respond, stating:

"Mr. Speaker, also in opposition. But I want to add a footnote to my no. And that is, I would gladly become a yes if it said, in balance, left-wing extremists and right-wing extremists. Let's be balanced. Americans are far left and they're far right, we know that. But this reso picks out one and gives selective examples to where these are the bad guys.

"Because 2024 is going to be a really hard-fought election. This kind of gets in and it poisons the well here in Hawai'i, by this body speaking out for saying right-wing extremists are marching on the election already. This is like right out of the DNC narrative. If you can pass this around every state legislature, hey, great, get that imagery out there so people won't vote Republican or conservative.

"For those reasons, Mr. Speaker, if it said left-wing extremist and right-wing extremists, I'd say I'd vote for the thing and I would speak for it. It's a shame what we just heard about the representative from Maui. That should never be the case. Hate has no place to do in democracy, in politics. Unfortunately, fear mongering like this reso is part of what people do, and it's unfair. Thank you."

Representative Kila rose to speak in support of both measures with reservations, stating:

"Mr. Speaker, reservations. And I just want to add that there are six minority members in the House, not five."

Representative Perruso rose to speak in support of both measures, stating:

"In support. I strongly support this measure because I think it is accurate to say that many members have experienced the negative effects of disinformation and digital hate speech. And I think that it is within our power to work with our state departments and agencies to make sure that all

of our workplaces are safe, and that there are plans in place and measures in place to provide for safety.

"Mr. Speaker, I think that we have not done enough in our current context to really understand and address the effects of activity on social media. And that we need to start taking that space seriously and to talk about how it affects our collective safety, working in our capacity, but also trying to protect other public workers. So, for those reasons, I support this measure."

Representative Souza rose to speak in support of both measures, stating:

"Thank you, Mr. Speaker. I rise in strong support. And thank you to the representative from Nānākuli for acknowledging that there are six of us. Perhaps that's one of the basis of the problem and perhaps why this bill was introduced. Because there is no acknowledgment, I think a lot of times, that there are six of us and I am a Republican. So, who knows if that was what the representative from Hawai'i Kai misspoke.

"I do agree with the representative from Wahiawā, and I would like her words to be inserted into the Journal as my own," and the Chair "so ordered." (By reference only.)

Representative Souza continued, stating:

"And also have my own comments. I think that disinformation, hate speech, it's obviously very rampant. We see it all over social media. Members of this body, allegedly, are the ones pushing a lot of times for disinformation and hate speech. We see different things happening. Different posts, different videos being shown. We have cameras on us right now, which is basically from one party on this floor, that is utilized to harass members. That's my experience.

"And so, when we look at a bill like this, it's because people are frustrated and we need a solution. And so, I understand that there's fringe parts of both parties. There's fringe right, there's fringe left. So, I do agree with the representative from Hawai'i Kai in that aspect. But I also think that we need to be accountable as members. And I think that this resolution doesn't go far enough. We need to police ourselves. We need to show *aloha* out there and then our community members will follow.

"And so, I think that this resolution is a good start. I think that it could potentially address all fringe aspects of different political parties. But I do stand in strong support. And I think that the representatives on this floor need to take accountability for their actions as to why this particular measure has come to fruition. And so, as a representative from Kapolei-Makakilo, I would encourage my neighboring representative to take some accountability for his actions as well. Thank you."

Representative Garcia rose, stating:

"Point of order, Mr. Speaker. A point of personal privilege, excuse me. I would like to request that the comment that was made, which was not germane to the bill at hand, about the neighboring representative taking responsibility for his actions. Number one, that that imputes motive. Number two, saying that the rep from Hawai'i Kai was alluding to the fact that she is somehow not a Republican is not in any way what he said, and that was taken out of context, so those things could be stricken from her speech because they do not pertain to the resolution at hand."

The Chair then stated:

"At this time, I won't be striking any speeches, I'm allowing them to—"

At 1:02 p.m., Representative Garcia requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:04 p.m.

Representative Souza rose, stating:

"Point of order and a point of personal privilege, Mr. Speaker. I just want to say that my comments were germane to this bill, and that's why I'm in support of this legislation. And I did mention that perhaps the representative from Hawai'i Kai was not alluding to the fact that I was not a Republican. But I think just even saying that there's five of us, I think that's problematic. Thank you."

Representative Quinlan rose to speak in support of both measures with reservations, stating:

"With reservations, Mr. Speaker. While I fully support the intent of this measure, words do matter. And I think that's the problem that we're trying to grapple with right now. There are some words in the resolution that make me a little uncomfortable on behalf of the community that I represent. But there have been some words said by people in this room that have also made me very uncomfortable.

"And as representatives of the public and as guardians of the public trust, it is so important that we measure our words. It is so important that we say exactly what we mean to say and leave no room for ambiguity. Because we are leaders, and when we go in a direction, Mr. Speaker, people will follow us. *Mahalo*."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

"Mr. Speaker, no vote, brief comment. Mr. Speaker, part of our job of being legislators or the purpose of legislation is to design what kind of a society we want. And I think a no vote on this says, we want a society where parents have preeminence in the decisions for their children, not big government. And I think this goes in that direction. Thank you."

Representative Kong rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Garcia rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill would allow the counties to basically phase out or create rules against short-term rentals. Short-term rentals are a part of our economy. If families want to acquire additional rooms or additional houses that they can rent out, that's a source of income for those families. So, with hopes that we can sustain and support our economy, and support families who that is their revenue source, I'm voting no."

Representative Quinlan rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. This bill is not just a statutory imperative, it is a moral imperative. We had a lot of testimony in the committees on Housing and Tourism the other day on this measure. And I heard from a lot of second homeowners, and third homeowners, and fourth homeowners about how we're interfering with them running their small businesses. Mr. Speaker, we're talking about the housing inventory of the entire state. And if we start looking at our housing inventory as just another opportunity to make money, we are all losing. Thank you, Mr. Speaker."

Representative Marten rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. This bill is really important on O'ahu, where the county has tried to reign in the vacation rental industry that has eaten up so much of our housing supply. And they have been unable to do so because of HRS language. So, this will free them to manage their housing stock as they see fit, best fit. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. A no vote, but with amendments, but that's my reservations. Because I know I can't say no with reservations. The first is which, this is more of a county Maui-specific bill. We know that there are so many that were second and third homes, like our colleague from the North Shore just mentioned. Clearly, this should be where it's Maui related.

"And secondly, for the sake, and this is the moral issue behind it, not just economics, but we have owner-occupants. I would love to see this thing exclusively for owner-occupants, who are the *kūpuna*, who are the one, if you remember, I did an amendment on the floor saying, hey, let's let these people live with a bit of money as they live in the house that they're renting out, and it's a room in the house. It's the only fair thing to do. It's not a second or third home, and those are the ones who should be eliminated and not take advantage of this. For those reasons, Mr. Speaker, I think it's Maui-centric, and it should be owner-occupant-centric. Thank you."

Representative Alcos rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Evslin rose to speak in support of the measure, stating:

"In support. I just want to clarify that this bill is not just Maui-centric. On the island of Kaua'i, one in eight homes is a vacation rental. And on the island of Kaua'i, similar to Maui, we are losing housing stock every year due to the proliferation of vacation rentals. And when we have on these islands growing populations and dwindling housing stock every year, that's a recipe for rapidly skyrocketing housing prices. And the counties currently have no capacity to walk that back. So again, all this is doing is removing the barrier within state law for the counties to act on this, if they choose, and in the form that they choose. So, I think this is a necessary bill. Thank you."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Perruso rose to speak in support of the measure, stating:

"In strong support, and I'd like to enter the words of my college from the North Shore into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I'd like the words of both the Housing chair and the chair of Tourism inserted into the Journal as if they were my own. I'd just also like to say that, the dream of owning a home here

in the State of Hawai'i, if you were born and raised here, has become nothing more than a dream. And until we can actually get ahold of this market and that and the fact that most homes are being rented on vacation rental platforms, it's always only going to be a dream. And I'd like to see that become a reality for Hawai'i's people. Thank you."

Representative Cochran rose to speak in support of the measure, stating:

"Thank you, Chair. And in super, super duper strong support of this bill. And I appreciate that it is, for me personally, Maui-centric. As a council member, I was dead set against STRs, TVRs, because I am strong believer that there's a purpose for hotel zoning, for resort zoning. And these short-term rentals and vacation rentals were never intended to be within residential communities. It has changed our entire lifestyle and environment. So, I thank you for pursuing this. And this has been a long time coming, and it should have been done years ago.

"Bread and breakfasts are something that I finally could swallow because yes, the owner is on site. So, when you had issues, they're there to take care of it. Versus, I saw swaths of corporations as LLCs buy up entire streets and turn all those residential homes into rentals, vacation rentals. So, thank you for this on the floor today. Strong support. *Mahalo*."

The motion was put to vote by the Chair and carried, and the report of the Committees was adopted and S.B. No. 2919, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO PROPERTY," passed Second Reading and was referred to the Committee on Finance, with Representatives Alcos, Garcia, and Matsumoto voting aye with reservations, with Representatives Kong, Pierick, Souza, and Ward voting no, and with Representatives Holt, Kitagawa, Lamosao, Lowen, and Nakashima being excused.

No. 2537, SD 2, entitled: "A BILL FOR AN ACT RELATING TO ENERGY," passed Second Reading and was referred to the Committee on Finance, with Representatives Holt, Kitagawa, Lamosao, Lowen, and Nakashima being excused.

"Mr. Speaker, in opposition. I want to say this gently, but I want to say this is a silly bill that says we're going to allow jaywalking. And the only thing I can think of, it really explains in detail why we have an approval rating in this legislature of 18%, it's even worse than our president, 18% approval rating because we're spending our time on things like this, which is probably going to endanger people. I don't care what the studies have been cited as. Encouraging jaywalking, particularly as kids see adults and the kid do it, just like in marijuana, it's going to lead to a disaster. This will end up being appealed if we practice it. It's a silly bill and embarrasses us. Thank you."

"Thank you, in support. I just wanted to speak briefly about an issue I'm extremely passionate about, which is crossing streets when you're more than 200 feet away from a crosswalk provided that there is no imminent danger, it would not slow or cause any cars to stop or slowdown whatsoever. I think that's pretty much it, I just want to issue my strong support for the measure. Thank you."

Representative Lowen rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I'll adopt the words of the Transportation chair and just say that, we should be encouraging environments where pedestrians are safe instead of continuing just to build streets and transit and cities around cars solely. And this measure would do that. When jaywalking was initially made illegal back when cars were first becoming popular, it was specifically effort and action of the automobile industry. And we're just so used to it that we can't see outside this box that we're in to understand that things can be different. And so, I support this measure."

Representative Kapela rose in support of the measure and asked that the remarks of Representatives Todd and Lowen be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Perruso rose in support of the measure and asked that the remarks of Representatives Todd and Lowen be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

"Mr. Speaker, still in opposition, but I'd like to adopt the words of the Transportation chair and EEP chair as if they were my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative Matayoshi rose to speak in opposition to the measure, stating:

"In opposition. I just want to note that, when we're all driving and there's no crosswalk there, I feel like people are not expecting a pedestrian. Even though it may look safe, I think that crosswalks are probably the right place to, it's not only a signal to pedestrians to tell them which area is safe to cross, but it's also kind of to give drivers a heads up. And without that there, I am just afraid that we're doing something that's going to place people in danger. Thank you."

Representative Kahaloa rose to speak in support of the measure, stating:

"In support. In certain rural communities, we do not have enough crosswalks. So, they are a suggestion and not a rule. So, unless the state would like to put in a ton more crosswalks in rural communities that would cost money, I'm in support of this measure."

Representative Cochran rose to speak in support of the measure, stating:

"Thank you, in support and here is my justification. The one and only connector road, it is dangerous, but it's the only way for residents across the street to get over to the grocery store, to the shopping mall, to the restaurants. And obviously government needs to install crosswalks, but at this time, there aren't any. So, they have to cross the road and jaywalk, in essence. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, again in opposition, but in sympathy. If I was a neighbor islander, I would say exactly what my colleagues have just said. So, this should be for a certain island of a certain number of people, and not push it on the neighbor islands. Because what they're saying is correct. We don't want people to walk far away, even though it's good for their exercise. You want it to be primarily for an urban and an island like O'ahu. So, I want to agree with the neighbor islands, but disagree with the whole application of the bill. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. Representative Souza rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. Just a brief comment that, as a very strong advocate for aviation and space, this bill will definitely increase our ability to diversify our economy. And also, the space economy is slated to become a trillion-dollar industry within the next decade. So, hopefully this will allow Hawai'i to lay the groundwork so that we can take part in that. Thank you."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, may I have the former speaker's words entered into the Journal as my own," and the Chair "so ordered." (By reference only.)

Representative Ward continued, stating:

"Because what she said is truth. In support. Because this is a no brainer in terms of diversification of the economy. We have the potential geographically, we have the potential in terms of the political will probably is lacking, but we have the capacity to bring in the private sector. We have the capacity to bring in the money to do this, and we're just sitting, kind of on our hands. So, this pushes the ball a little bit forward.

"If you recall, there was a, with the former senator, Kai, from the Big Island, and I had the aerospace caucus going, and I know there is one that's going on now, which is very, very important to the future of, probably not only our economy, but probably what's going on with the world of the Pacific, *vis-à-vis* space exploration as well as Xi Jinping and other sorts of things.

"So, this is a new innovative, creative way. The thing that when I call upon being entrepreneurial and innovative, Mr. Speaker, this is the area where it's at. And we've been really kind of paranoid schizophrenic in regards, well we love you DBEDT, keep on going, and then we take Crisafulli and we knock him out, we retire Crisafulli, and then we keep a position but we don't fund it, or we fund a position and we don't fill it. Mr. Speaker, this bill at least gives us some momentum in the right direction. And I would urge everybody to keep their eyes on what goes up in the sky can be a winner for us. Thank you."

Representative Todd rose to speak in support of the measure, stating:

"Thank you. I just wanted to get ahead of this, because I think I saw a minority member standing up. In support. I just wanted to note that, this would basically take what we did at the state level, which is a pilot project specific to electric vehicles only, and it does have a fee that you can opt into, which will cap and mean you do not have to pay a road usage charge. So, I would note that because the cap is in there, it benefits rural drivers. Because if you drive more than what the average is, you can opt into the cap, which means you do not pay the road usage charge. Whereas if you drive less, if you opt into the cap, you will pay more than you would pay if you opted back into the road usage charge. So, it benefits rural drivers and only applies to electric vehicles. Thank you."

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition. Thank you to the representative from Hilo. But I do want to say that the whole reason why the state has been pushing EVs is to fulfill this goal we have of shifting towards renewable energy. And so, we were supposed to create incentives for people to get EVs, and here we go charging them. So, no vote."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, strong opposition. This is a free lunch for the EVs. Fifty bucks a year for an EV. I mean, my goodness, I drive an old car and I've got to fill it with a lot of gas and I pay a lot of taxes on that. To say \$50 caps it, basically, we're trying to incentivize all you guys who have petroleum-running cars, we're going to get rid of you and we're going to give these guys the benefit of the doubt. We've given them free parking at the airports, we've given them rebates. But for those who can afford it, which now I think if you look at what's going on in Detroit, they're saying we're producing these EV cars and nobody's buying them. This is forcing down the throat this electrical phenomenon. Which in this case, \$50 is a drop in the bucket. It should be where we take all of the cars who pay the fees and divide it into an average and make them pay. To tell me that I only pay \$50 a year for my car is a joke. So, this is a free lunch for the EV crowd. Thank you."

Representative Todd rose to respond, stating:

"Thank you, still in support. I think a lot of folks would be shocked at how little fuel tax they currently pay. A vast majority of folks, particularly in the urban core, pay significantly less than \$50 to the state. I would note that this is exclusively a bill that deals with the county. Some counties have higher fuel taxes, some have lower fuel taxes, Maui and Hawai'i Island having more significant. Which again, would definitely benefit rural drivers.

"But the intent of the pilot program is to collect that data so that we can arrive at that correct amount, if this is something that is applied after 2028, when this program would lapse. But we need to collect that data so we know what the appropriate figure is. This is kind of a guesstimate right now, but it could end up being a little bit more, it could end up being a little bit less. But until we collect that data, we're not going to know for sure. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, still in opposition. For those of us who buy gas in Honolulu or on the island of O'ahu are up to 25% to 35%, just in taxes. It could even be higher, it could be even 40%. But in some places, like New York, it's 50%, San Francisco even higher than that. It's very highly taxed because

everybody drives, it's a good place to get money. But with this free lunch for the EV's, I think it's out of whack. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3183, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO ROAD USAGE CHARGE PROGRAM," was referred to the Committee on Finance, with Representatives Garcia and Ward voting no, and with Representatives Martinez, Nakashima, and Quinlan being excused.

"Mr. Speaker, I'm in opposition to this. We've just gone through a few emergencies and we're still suffering from the Maui wildfires. Either there's a sense of distrust with the governor in terms of how he's allocated funds, I don't know why we want to hamstring or delay, I guess maybe not hamstringing, his ability to power, which governors since statehood have been able to move funds around and to declare an emergency.

"The only time I heard a declared emergency on this floor was when Mayor Caldwell stood up when Governor Lingle proclaimed a homeless crisis, and he was vehemently rebuked by Cynthia Thielen, who stood here and said, how dare you say these people on the poor do not deserve emergency? The point is, when you have emergency, you move funds, you move quickly, and you move it effectively.

"With a bill that says, well, you know, you got to go through a consensus model. Which is good, our job is checks and balances as the Legislature. And the minority, our job is to be the loyal opposition. But in this case, I'm for the governor. Why I want to slow him down if it's an emergency? Unless this is make believe and we don't really believe when there's an emergency that it's a real emergency, Mr. Speaker. So why slow down the governor's ability to move funds to make sure that wildfires or homelessness or anything else is delayed? I just don't understand. For those reasons, Mr. Speaker, this is not a good bill. Thank you."

Representative Tarnas rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. This bill is a reasonable and moderate and measured approach to regulating the legal use of cannabis by adults in Hawai'i. Legalizing cannabis for use by adults will actually have significant public safety and public health benefits for our community. It will better protect youth from drug use through education and investment in youth programs. It will reduce drug violence. It will promote public safety by allowing people to buy from legitimate businesses, not on the illegal market. It will ensure that the cannabis products purchased are safe, free from contaminants like fungus and mold, or even worse, methamphetamine and fentanyl. It will allow us to tax and regulate cannabis products, which currently provide no tax or revenue to the state.

"In states that have legalized cannabis, the facts are, teen cannabis use has gone down, not up. The rates of psychosis-related diagnoses and prescribed antipsychotics have gone down by a statistically significant amount in legalization states compared to prohibitionist states. There has not been an increase in fatal accidents attributable to cannabis alone in states that have legalized cannabis, because the drivers actually have alcohol and other substances in their system. You can't attribute it just to cannabis.

"If we continue to criminalize cannabis, we will continue to keep cannabis production and sales in the illegal, unregulated market, which continues to cause real harm to our community because the product is not tested and can

be contaminated with seriously harmful substances. We have specifically set up a system in this bill to manage all psychoactive cannabis products in this new authority. Because right now, hemp-derived psychoactive products are totally unregulated and available in stores and on the street today. This bill addresses this loophole to protect the public.

"This bill also allows 18 months to set up rules, provide opportunity for other businesses to be established in production and retail. This new regulatory framework is designed to attract the legacy growers to participate in the regulated market. As we heard in the hearings on this bill, the regulated market today can offer cannabis at the same price as it is sold on the unregulated market.

"This system can work well. Let's give it a chance. Health and safety regulations, lab testing, potency labels, and taxation are only possible with legalization. It is time to legalize cannabis for adult use in Hawai'i. And I would encourage members to support this measure. Thank you, Mr. Speaker."

Representative Kitagawa rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I continue to be in strong opposition to this bill for many reasons, and I would like to just share a few of those. The Attorney General's Office stated the following during testimony in the most recent hearing. The Attorney General Lopez has made very clear that federal illegality, the growth of the illicit market, driving while high, and concerns regarding public health, and protecting children are serious issues associated with legalization. No effort to legalize cannabis, however carefully planned and well intentioned, will be without such problems and risks. As the chief legal and law enforcement officer for the state, it is extremely concerning to hear from the attorney general this level of concern over so many aspects of legalized marijuana.

"The Department of Health's testimony also highlights clear concerns regarding the legalization of marijuana, and how legalization will not help individuals reach their full health potential, but will in fact have negative impacts on the health of the public. They also mentioned that marijuana can provide medical benefits for certain medical conditions, which is commonly stated by supporters as a reason to pass this bill. However, the reality is that patients who need marijuana for medical reasons or conditions can already get access to it through the state's legal medical cannabis program. Legalization is not required to continue our state's medical cannabis program.

"As I mentioned last week, it is foolish for us to think that this bill has enough safeguards and regulations that youth will not have greater access to marijuana once it is legalized. We cannot stop the use of substances like alcohol, tobacco, and vaping for our youth, even though these are adult use only products. The reality is that legalization allows easier access for youth to get marijuana, including in the form of edibles and gummies. This increased access and use, as stated by the Department of Health in testimony, can lead to mental health and substance abuse concerns.

"The Department of Health shared data in testimony that adolescents and young adults who use cannabis daily or near daily are more likely than non-users to develop future psychotic disorders such as schizophrenia, as well as develop cannabis use disorder, which is an addiction to cannabis that causes a psychiatric disorder, including mood, anxiety, and personality disorders. They also share data to suggest that adolescents and young adults who use cannabis are more likely than non-users to have suicidal thoughts or attempt suicide.

"Since I've been elected to office in 2018, we have heard and passed numerous bills trying to address our mental health crisis in the state, as well as reduce our alarming youth suicide rates. Many of us have also fought against our youth vaping epidemic. We shouldn't legalize another substance that puts our *keiki* at risk. We shouldn't pass a measure that goes against everything we have been fighting for over the last few years in regards to these measures. And we shouldn't make it easier for our kids to get access to substances that can have long-term negative effects on their lives and the lives of those around them.

"Legalization of marijuana has so many concerns to the public and safety, and as I mentioned last week, has no economic benefit to the state as it will

not put money into our general fund, but instead puts money directly into two special funds created in this bill. Let's not pass a measure that does more harm than good. Thank you very much."

Representative Takayama rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. Is it possible to record the speech of last week in the Journal? Just proceed with new ones? I don't want to go over it again, but I want to remind people that when we say the black market is going to not proliferate, I think if we look at even the medical marijuana card holders, 70% to 80% of those people are going to the black market because of, otherwise, some of the gaslighting says, well, we got prices that are as cheap in the dispensaries as they are on the streets. People vote with their wallets and that shows that that is not exactly true. Why would they be going to the black market?

"The other thing is that legalization is already here. There's no place you can't get marijuana, Mr. Speaker. If you get it, as the prosecutor says, you get a slap on the wrist, you get a parking ticket. So, this thing about we got a rush to get marijuana in and all that. And even if you got expungement as the big issue, feeling sorry for the victim, we can do that without legalization, Mr. Speaker. But the black market issue is a very, very big one.

"And the whole point of let's let all this stuff out of the bag, it's benign. Look what happened to Oregon, Portland. It became a toilet of drugs and crazy people. And now when they decriminalized by law, anything, any drug goes, now they've reversed that, Mr. Speaker. Because they've seen it and they've learned from their experience. That's what adults are. That's what human beings are, we learn from experience. That's why there's erasers on the end of pencils. When you make mistakes, you make and learn from the feedback. Do we think we're not going to be the Colorado or the consequences of California, where the cartels come in and it becomes really a black market?

"And I want to end with what Governor Lingle has talked about. She says, we're going to allow all these little pot shops to pop up in neighborhoods that are the poorest. And she noted, she says, there's a reason why we don't allow liquor stores, prohibited next to public housing. We've got them probably on their way because marijuana and marijuana usage is centralized. And this is a geographical bias in poor people.

"Who are the people who smoke nowadays? Not middle-class or upper-class people. It's the poor people who smoke. And for the marijuana consumers, it's the same group. So, we're going to punish those people who are having a hard time, struggling to exist. And a lot of those, as you know, are the ALICE families, asset limited income challenged earners who are the working poor in the Hawaiian community, 63% of the community. Which is an embarrassment in a thing of its own.

"So, Mr. Speaker, this is the worst thing that we could do. And when those people sing the praises of marijuana because of the money, and I'm going to meet with the Japanese consul general, to see if it's true what the prosecutor said, if we legalize marijuana, the amount of tourists that come and the amount of spending from Japan could be hit. Right now, they're at about \$2 billion. Even a percentage of what we get in terms of this great refund of \$39 million we get in the first year, then we go up to \$400 million, that's going to be chicken feed, Mr. Speaker. This is economically, psychologically, sociologically, legislatively a bad deal. It's against the people of Hawai'i. We got to learn from the mistakes of others and not do it, Mr. Speaker. I think when judge said the odor of mendacity for marijuana is prevalent in so many of the speeches that says this is the best thing since sliced bread. Thank you, Mr. Speaker."

Representative Amato rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support. There is so much hyperbole and misinformation about marijuana being spread, especially by law enforcement officials who want to influence law making instead of enforcing law. Instead of trying to convince you why marijuana is okay, I'm going to discuss the unscientific, unfounded 50-year-old propaganda arguments we have all been hearing.

"Some say it will cause more traffic fatalities. The attorney general misleadingly spread fatality data that lumped in marijuana with alcohol and presented zero evidence on weed alone causing a single death. Let me be clear, officials like the attorney general and county prosecutor, even the former governor, presented inflammatory, statistically biased arguments to this body. Their biased numbers cannot be part of any rational discussion.

"Some say it affects brain development until age 25. While this may be true, the bill specifies not for kids. Not for kids. Putting age restrictions on kids is a proven technique that demonstrably worked for reducing tobacco use. So why do some assume this won't work for marijuana? Even make it age 26 and up if you want. Look, I am a mother of four. If you really care about the *keiki* as I do, and I know you do, and if kids on drugs are the concern, then instead let's pass massive anti-meth and anti-fentanyl taskforce funding. Let's fix real problems.

"It is well documented that teen use of dangerous synthetic Delta-8 THC is higher in states without legal marijuana. And you can buy Delta-8 at a convenience store. Why don't we protect *keiki* by eliminating access to Delta-8? How about we stop teenage drinking and flavored tobacco smoking? I was one of the introducers last year of HB 833 to ban flavored tobacco, which couldn't even get a hearing. Similarly, this year, HB 1778 died. Let's solve the real problems and not point the blame at marijuana.

"Some say there will be overdoses. Overdoses? If a kid drinks a bottle of alcohol, they can die. A Tylenol overdose will destroy a liver. And let's be honest, too much weed does cause intoxication and altered perception, and for some, anxiety. But no one dies from smoking a joint. No one. Do you get uncomfortable if you smoke too much or eat too much weed? Yes, but you don't die.

"Some say marijuana causes increased heart attacks and strokes. This is true of any burned, inhaled plant, including tobacco, and alcohol is far worse. Are we Puritans from the 1600s that must control everyone's activities? Should we start burning witches too? This body is supposed to stand for body autonomy rights. It's time to decide if you really do. Unfiltered marijuana is no worse than unfiltered tobacco, both contain tar. So, are you going to ban tobacco? So far, we can't even ban flavored vapes. Indeed, U.S. Surgeon General C. Everett Koop recommended bong water pipes for marijuana. Doctor Koop was a logical man of science.

"Some say dispensaries will be robbed and there will be an increase in crime. By that flawed reasoning, we should eliminate all liquor stores and banks. Some say it is an election year, we'll all lose our seats if we pass the bill. Wrong. A majority of people statewide support legalization, so that is just fear mongering to influence other legislators. In my district, two thirds of the people want legalization. And in this representative form of government, I work for my constituents, so I'll vote yes.

"Some say it is illegal at the federal level, so it will jeopardize federal funding. This is just wrong. Show me one state that has lost federal funding by legalizing weed. President Biden has been laying the groundwork to ease federal restrictions since 2022. Even HHS Secretary Becerra is working to change it to a Schedule III status. What is a Schedule III? The DEA says Schedule III chemicals have a 'moderate to low potential for physical and psychological dependence.'

"So, let's quit exaggerating Reefer Madness fear propaganda and stick to facts. I agree with our President and Democratic Vice President Kamala Harris, who said nobody should have to go to jail for smoking weed."

Representative Perruso rose to yield her time, and the Chair "so ordered."

Representative Amato continued, stating:

"Thank you. Some say we already have medical marijuana. Even as a stroke survivor with chronic pain, my health insurance will not cover a 329 card, and the 329 process is unattainable for many, funding black market gangsters. My health insurer will not even give me a 329 examination to get a card and won't cover marijuana as a prescription, but it is willing to hand me opioids like they are candy. This is bizarre at best, and it's dangerous. Personally, I would rather have people enjoying a relaxing joint than see addicts dying from alcohol, fentanyl, or unsafe, unregulated, laced black market drugs. My science team tells me that mold on weed produces aflatoxins, which are vigorous, cancer-causing agents. People will use

marijuana, so we owe it to them to give them safe, tested, inspected marijuana and prevent cancer.

"Some say this bill is cash negative. Finance can fix this so it's cash positive by altering the taxation rate, 22% should do it. Some say it will make people lazy. There is zero evidence of this. This 1930s racist argument was reaffirmed by Reagan's War on Drugs, which resulted in excessive levels of imprisonment and enforced drug detention centers, and politics with disproportionate impacts on vulnerable poor, minorities, and women.

"Far too many in Hawai'i have been sent to jail for simple marijuana possession at an enormous cost to our state in lost wages, family disruption, incarceration costs, and income tax revenue. If you could prevent needless suffering, maybe even save one life or keep one family together by passing this bill, would you do it? I would. Decriminalization was gutted in this building just last week. No one should go to jail for smoking a joint. Except, apparently, adults in Hawai'i with a four-gram fatty.

"Some say it's a gateway drug. I challenge anyone here to cite a refereed scientific paper on this. I know many people who will only smoke weed and not drink alcohol. In fact, in Colorado, after legalization, opioid deaths were reduced by 6.5%, violent crime was reduced, and critical state revenue was created after legalization. Again, if you could prevent needless suffering, maybe even save one life by passing this bill, would you do it? I sure would. So, I am voting yes.

"The Honolulu prosecutor said this isn't the 3% THC weed from Woodstock. That is the one true thing I heard from him. And Woodstock was not about dirt weed. Some people are about 50 years out of touch.

"Some say it causes psychological problems. I challenge you to show me two refereed scientific studies that agree on this fake propaganda statement. The days of 1936 Reefer Madness propaganda are over in most of the United States. Didn't we learn anything from 1920s prohibition, fueling guns and gangsters, or the unintended consequences of the Reagan War on Drugs? Prohibition in Hawai'i will continue to funnel money to organized crime and strengthen dangerous illegal dealers. We can have safe, inspected, regulated, profitable marijuana, and save lives doing it.

"Whether it is reproductive rights, housing, or marijuana, I promised my district that I would legislate from the heart, using science as my guide, and most importantly, vote the way they tell me. So, I must vote yes. It is the wish of the people of my community.

"I know feelings are running high, but please consider my words and stick to facts in this close vote. I hope even one of you will switch from a hard no to a yes, or yes with reservations for legalization. Save one family, save one life today. *Mahalo*."

Representative Matayoshi rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I was going to mostly stand on my testimony from last time, but these are going pretty long. I'm just going to hit some of the highlights and respond to some of the points brought up today. In opposition. The first is the price tag. It's \$39 million in a year where we are talking about cutting budgets to departments, to social programs. Granted, the proponents of this bill would have you believe that most of this money would be made up. But even if they're right, we would be fronting the \$39 million to establish this program. And I think that's \$39 million that we just simply do not have.

"On the item of black market, other states who have legalized marijuana recreationally have seen a huge boom in the black market. I've heard from previous speakers that we want to tax them, and the taxes are going to make it up, but that the prices are going to remain the same and competitive with the black market. Mr. Speaker, those two are in opposite. The reason why the black market is able to sell marijuana for cheaper is because they are not subject to the tax. So, if you make the tax what it is in the bill or if you even raise it, as certain speakers have suggested, that's going to differentiate the price even more. I think that in order to get the money back through this bill, we're going to get it back through taxes. So, it's virtually impossible to sell legal weed and get our money back and compete with the black market. You can't have your cake and eat it too, the taxes make it impossible to do that.

"The dangers to drivers, I have heard the previous speakers, one of the previous speaker's speech that, yes, most or a lot of the drivers that were arrested for driving under the influence of marijuana were also intoxicated with alcohol as well. That might be true. But I strongly, I do believe that if you are high and drunk, you are more likely to cause an accident rather than just drunk. So, I'm not sure why we're adding marijuana into the mix. I think that the increase in vehicle incidents with people who are driving high does make a difference. I think that we did see a rise in the Rocky Mountain area.

"The impact on tourism, I'm not going to go too much into it. Everyone knows that marijuana smells pretty terrible when it's smoked. I want to point out that it's already illegal to smoke marijuana pretty much everywhere right now, but it's still happening. If we normalize recreational marijuana, we're going to see an increase in those areas. Even though we're saying, no, no, don't smoke in the parks, don't smoke in the beach, we are still going to see an increase in it, especially due to normalization.

"The point I really want to hit, Mr. Speaker, that I did not go over last time, is this is going to require a lot of law enforcement. And I think everyone acknowledges that, including the bill's introducers and the bill's proponents. In order to make this bill work, we're going to need, I counted 17 law enforcement to hire just for this program. Right now, HPD on O'ahu is at 20% vacancy, we have 425 vacancies, at last count. On Maui, we have a 30% vacancy with 165 vacancies. On Hawai'i Island, we have 89 vacancies.

"If we're not able to fill the vacancies we have, we're missing hundreds and hundreds of officers. And yet this program proposes to hire 17 more on top of the ones we're not filling yet. I don't believe that's going to happen. And if that doesn't happen, in order to effectuate this program, to make sure it's done the way the bill's introducer would like it to be done, we're going to need to start pulling officers from other places. And officers are already stretched so thin, they're having trouble responding to 911 calls. I'm personally afraid of the danger it's putting our community in if we need to pull officers off the beat or out of other divisions in order to staff this cannabis office. I don't believe that that's the right thing we should be doing for our community, and I really do believe that it's going to make Hawai'i a more dangerous place.

"It is still federally illegal, even if they did move it down to a Schedule III drug, we're not selling ketamine on the streets. I think that even a Schedule III drug is dangerous. It should not be recreationally available, so I don't believe that's a valid argument. It's true that no president so far has cracked down on any states that have legalized marijuana, but presidents change all the time, we're about to have a presidential election. There's no way to tell in the future whether Hawai'i joining in with the other states is not going to have negative repercussions on our state."

Representative Garrett rose to yield his time, and the Chair "so ordered."

Representative Matayoshi continued, stating:

"Thank you, almost done. The last point I want to make, Mr. Speaker, is that we seem to be creating a problem with this bill and then trying to use the tax revenue to solve that problem. And I know other people will say that the problem's already here, but I really believe that we're making it worse and then using all the money for programs to make it better. It just doesn't make sense to me. So, thank you."

Representative Nishimoto rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Matsumoto rose in opposition to the measure and asked that the remarks of Representatives Kitagawa and Matayoshi be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Kobayashi rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. Let me summarize what I said last time about this being a public health disaster. We have numerous, dozens, maybe even hundreds of refereed scientific journal articles about the bad health effects of marijuana. Certainly, marijuana affects the brain and mental health, addiction, hallucinations, depression, anxiety.

"It also changes the brain structure, not just the brain functioning. Marijuana, especially amongst heavy adolescent users, changes the brain structure. Changes in areas involving attention, memory, decision making, and motivation. We don't have a precise way, even with our best scientific diagnostic electronic equipment, to detect how many brain cells die. And of course, that's partly because brain cells die normally every day, but they're regenerated. What happens is that you have, quote, amongst heavy users, an irreversible intelligent quotient, IQ loss up to eight points, as well as motivational mood changes.

"This is a powerful drug that has great effects on the brain. As such, it decreases job performance, it decreases academic performance, and increases dropouts. When you take marijuana, you will affect everything from motor skills to memory to attention, problem solving. This is all not good for job performance and for academic performance. So, I repeat, we have much evidence that this is a public health disaster.

"On the point about the \$39 million mentioned from the representative from Kāne'ohe. Attorney general iterates that she would recommend \$10 million for cannabis regulation special fund, \$10 million for cannabis social equity special fund, \$5 million for public health and education. I would note on this point, we already spent \$7.5 million for tobacco prevention and control. But this money mostly comes from the biggest ever tax legal settlement in Hawai'i history, which brought in \$40 million-plus the prior fiscal year ending FY 23 and is expected to bring us over \$1.2 billion in the next 25 years. But even with all of that money, and even with the \$7.5 million spent on tobacco prevention and control, many people, of course, see tobacco as a big problem, especially the vaping issue. So, what we are facing is dollar needs that grow upon us.

"I would mention Oregon. Oregon spends millions of dollars every year on public safety enforcement. So, in 2022, they had a special one-time emergency fund of \$22 million allocated for law enforcement. And guess what? When applications went out, applications came in at \$12.8 million more than the \$26 million. So, the needs grow for all these special funds. Whether it be public health education, nuisance abatement, law enforcement special fund, *et cetera*. All of this is a bit like a deep, deep, dark, empty pit that calls out for money. And we cannot solve all of these problems with money because so many of the ill effects of marijuana cannot be measured precisely. I'll quit at that. Thank you very much."

Representative Sayama rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations with brief comments. Well, it doesn't really take a genius to see that this bill and issue is very contentious, both on a social, financial, and perhaps moral front. First, I just want to note my concerns of this bill and issue. As the chair on Labor & Government Operations had noted, this bill would create a significant financial burden on the state. And this year, with the Lahaina wildfires, as well as the hazard pay from Covid-era kind of looming on the Legislature's budget, I struggle to see how we will be able to pay for the upfront costs to administer this extensive regulatory regime. The Council on Revenues just released another projection which noted that economic projections will remain relatively stagnant at 4%. And so, again, there are significant financial concerns for this body to consider.

"Next is the 18-month transition period, which the chair on Judiciary had noted. On page 30 of the attorney general's report, it noted that this 18-month period was based off of the Massachusetts model, I believe, but it also noted that it would welcome a longer transition period. Mr. Speaker, I believe that the 18 months, while well intentioned and well researched, is insufficient to create a robust regulatory regime, as this bill envisions. And hopefully, through an extended transition period, we would be able to inform the public, really, through the education campaign that this bill creates, the risks of marijuana use as well as establishing a robust campaign to, again, educate the public on this matter.

"I do have a few more points. As also was noted by the Labor & Government Operations chair, recruitment and hiring is also an issue. Again, this creates numerous full-time positions within various departments. And according to DHRD's 2024 vacancy report, we still have 27% on average vacancy rates in civil service positions across the State of Hawai'i. And of the positions filled, 39% are retirement ready. Mr. Speaker, I struggle to understand how the state would be able to fill all these positions that this bill

creates within an 18-month period to effectively carry out the regulatory structures listed.

"Finally, I do have some personal concerns relating to self-grown cannabis plants. I have no problem with parity and fairness, treating recreational cannabis with any other recreational substance such as alcohol or tobacco. But the fact of the matter is, I don't think we allow the general public, the consumer, to grow their own tobacco products to create and consume or sell any of their homegrown, perhaps alcohol products as well. So, I do have some personal concerns there.

"Now, all these concerns being said, I do support this measure in some ways as well. Like the chair on Judiciary & Hawaiian Affairs said, and as the AG noted, this creates a robust and reasonable regulatory regime for adult-use cannabis. Having visited three cannabis production facilities in the state and a dispensary on O'ahu, I have been thoroughly impressed with the quality of these facilities, the safety, the security, and the professionalism of the staff there as well. This bill provides parity for medical and recreational cannabis, I believe. And so, I am fairly certain that if this bill is thoroughly implemented, that there will be sufficient safety measures there.

"This will also improve consumer protection significantly. Again, currently, this marijuana recreational use is completely unregulated. Consumers do not know what they're putting into their body when they consume marijuana. This could be on various fronts, such as mold or extremely high THC levels, which could pose safety hazards to the consumers. Much like tobacco and any other sin products, we need to make sure that marijuana is well regulated and managed for the consumer safety as well."

Representative Ilagan rose to yield his time, and the Chair "so ordered."

Representative Sayama continued, stating:

"Thank you, Mr. Speaker. Finally, I will be brief, I'm sorry. This bill also institutes a number of public health protections. As the AG noted in their draft report, this bill implements extensive, well-funded public health protections, including mandatory public-education campaigns to inform the public about the new laws and the continuing risks to public health posed by cannabis and financial assistance for public health services such as addiction and substance abuse treatment. It goes on to establish a number of special funds and grant programs that supplement financially the number of nonprofits that address these social ills from other substance abuse as well.

"Finally, Mr. Speaker, I do want to note, again, that while the attorney general in their report noted that they do not support the legalization of adult use cannabis, they say, 'I am proud of what we have presented here today. This is a reasonable, moderate bill that sought to balance a myriad of interests with significant known and unknown risks.'

"Mr. Speaker, we rarely vote on any measure here with certainty. There is always going to be risks involved. But from a consumer protection point of view, this bill would help the public. This will make consumption of recreational marijuana safer. And with that, again, I stand with reservations. Thank you."

Representative Souza rose in opposition to the measure and asked that the remarks of Representatives Kitagawa and Matayoshi be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Onishi rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Belatti rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In support with reservations. In support largely for many of the reasons articulated by our chair of Judiciary & Hawaiian Affairs. And I would like to thank the chair for doing the tremendous work that was undertaken to craft such a moderate and reasonable bill that looks out for public safety, health, and the welfare of our people.

"I also support this bill because of many of the reasons outlined by people who are opposed to it, because of the fact that cannabis presents a harmful, dangerous effect to our residents, our community, and mostly because of the harm that it can cause to the youth. And I've always approached this area of

cannabis regulation from that perspective. How do we craft laws that protect public health, safety, and our youth?"

"Mr. Speaker, my reservations, though, come from the fact that there are federal actions that affect this public safety, health, and welfare. Federal actions that we must respond to as a legislative body. And these are actions that we don't have any control of. It was the president of the other party in 2018 that legalized and removed hemp, defined as cannabis, with low concentrations of the psychoactive compound Delta-9 tetrahydrocannabinol from the definition of marijuana in the Controlled Substances Act.

"This action by the president of another party has led to a situation where in this state, we have legalized the purchase of very dangerous cannabis products. Products where you can walk into Ala Moana and purchase things like Green Roads CBD Puffs Melon Ice or Green Roads CBD Puffs Lush Ice. How about CBD Puffs Mixed Berries that have tremendous amounts of cannabinoids in them? You can also go into these legal sites and purchase hemp-derived cannabis products. Edibles, Mr. Speaker, like fruit drops. How about lemon drops, CBD gummy bears, or CBD assorted rings. There is no regulation stopping anyone under the age of 21 from purchasing these products. These products are used, and if seen by law enforcement, cannot be stopped by law enforcement.

"So, it is this measure that looks to regulate the hemp market, the illegal illicit black market, and yes, even strengthen the medical cannabis market that is going to protect the public health and safety of our people. Because of the state of federal laws creating a state of deregulation and lack of regulation and lack of testing, not just in our state but in many, many states. And it was nice to hear, when this bill was heard, to get confirmation that the attorney general is also very concerned about this area of hemp-derived cannabis that is uncontrolled, unregulated, and untested in our community.

"Mr. Speaker, another reason why I support this bill with reservations is because there is another impending federal action that may take place, where if cannabis is de-scheduled to Schedule III, it could cause chaos even within our medical cannabis market. So, this bill, as it stands now, where it can move to the Finance Committee and other issues be addressed so that the House comes out with a position on how to best regulate cannabis. We don't need to take the bill wholesale from what the Senate did, and we've already amended it, we don't need to take the bill wholesale from how the attorney general amended it. The title says, 'Relating to Cannabis.'

"If this body is truly interested in regulating and protecting our community, especially our youth who are vaping at higher numbers, and some of these hemp-derived legal cannabis businesses in our community are selling vape cartridges that are getting into the hands of our youth. If you're really serious about it, let's continue to move this bill and find a way to have a House position that regulates, tests, taxes. We already tax these hemp-derived cannabis products at 4%. Let's figure out a way that we can tax them more, as this bill currently does. And let's figure out a way to really determine our own destiny with legislation that can continue to be worked on. Because, you know what, we have April still to go. Thank you, Mr. Speaker."

Representative Pierick rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. So, we've already voted on this measure. Twenty-three of us voted no already, and some of us voted with reservations, and some of us voted yes on a previous day. So, this message is mainly for, obviously I'm addressing you, but those who are hearing me, it's mainly for those who are trying to switch from a no vote to a yes with reservations. Our primary elections are coming up in five months in August, and there are many people, political action committees, donors, and candidates, who are waiting for that no vote to switch to a yes vote with reservations."

Representative Belatti rose to a point of order, stating:

"Point of order, Mr. Speaker."

The Chair addressed Representative Pierick, stating:

"Representative Pierick, please confine your remarks to the substance of this measure. Thank you."

Representative Pierick: "Thank you. I'm talking about the implications of somebody voting yes with reservations on this bill."

Speaker Saiki: "No. Please confine your remarks to the content of this measure."

Representative Pierick continued, stating:

"I'm against this bill, and I encourage everybody to vote no against it. Thank you."

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition, thank you. I want to thank the speakers who have spoken thus far, both for and against it. I want to speak, there's been lots of numbers thrown around of fatalities and of children, from both sides, and the impacts it will have on Hawai'i's residents. But I want to speak from a personal standpoint.

"I was born and raised in public housing programs here in Hawai'i, and this was prevalent. It was all around us growing up. Cigarettes, weed, I mean, everybody did it in public housing. And the influence came upon me and my siblings at a very early age. And the reason why I'm voting no today is because I've seen the impact that this has had on my family and the impact that it's had on families around me in public housing and friends.

"And some may say, well, this isn't a gateway drug. Well, to some people, it could be. Just like with alcohol, some people are very tolerant, some people are not tolerant. Some people can drink a whole six pack and be okay, some people will drink two beers and not be okay. Same with marijuana. Some are tolerant, some are not.

"But I do believe, Mr. Speaker, that the medical cannabis industry should be expanded here in Hawai'i. I do believe that more people would be a lot better off if they had access to medical marijuana versus all the opioids that are being used, antidepressants which are being used. But I don't believe that full legalization will be good for society at large.

"I've talked with my family and friends about this recently who still smoke weed on a daily basis and even they say, Diamond, please vote no against this, because they know the impacts it will have on the children of Hawai'i.

"And I just heard the previous speaker or a couple previous speakers ago say, what about these Delta-9 vapes and all this stuff which are currently being sold and the impact that that's having on children currently in schools. We argue all the time about banning flavored tobacco, big rallies up here about banning flavored tobacco. Yet we're going to legalize marijuana. And we think that these vape pens, by the way, there's full THC, just go to California, Washington, Oregon. You go to these stores, all these flavors mixed berry, cherry, strawberry. And we think that those items are not going to be in the hands of our *keiki*? We can't even control flavored tobacco products. Teachers are coming to us saying they're having behavioral issues in school because they're hooked on nicotine products. And if Delta-9's a problem currently, what makes us think full THC pens and edibles and other stuff will not get in the hands of children today. It's just impossible. That's the first reason.

"Second reason is this, I surveyed my district and the overwhelming majority, Mr. Speaker, over 65% who responded said they do not support the full legalization. So therefore, I would urge my colleagues to remember our state motto, *ua mau ke ea o ka 'āina i ka pono*, the life of this land is perpetuated in righteousness. So, cannabis isn't an evil plant, but it's how we use it and how we regulate it. And this bill, in my opinion, is not good for society. No vote."

At 1:26 p.m., Representative Pierick requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:28 p.m.

Representative Gates rose to speak in support of the measure, stating:

"*Mahalo*, Mr. Speaker. I rise in strong support. Mr. Speaker, as your chair of Agriculture & Food Systems, I look at cannabis and hemp as the plant it is. But when we consider SB 3335, we must ask ourselves one fundamental question, why? Why should we strongly regulate and tax cannabis here in the State of Hawai'i? The answer is simple, because tens of thousands of

pounds and millions of dollars are already being exchanged each year illegally in Hawai'i through the illicit market.

"With the feds legalizing hemp products in 2018 through the Farm Bill act, we now have hemp-tuaries in our communities and selling illegal products that we see as illegal, but is not illegal on the federal level. And that is my fear, Mr. Speaker. If the federal government legalizes cannabis, it puts Hawai'i residents and consumers at a disadvantage because they will be operating under federal rules rather than state frameworks that are unique to our communities.

"Right now, cannabis is sold indiscriminately on street corners, in schools, homes, businesses across the island. It's sold to anyone willing to pay, kids included. There are no safeguards right now. There are no rules. Cannabis can be tainted with fentanyl and other drugs, incorporated into edible products that look like candy.

"Opponents of SB 3335 have raised concerns that cannabis will be sold on every corner or lead to more criminal activities in our communities. Well, Mr. Speaker, I too share those concerns. I'm concerned that cannabis can already be sold on every street corner, that cannabis is already being sold by criminals. I'm concerned that these same criminals are selling the cannabis and hemp products to our children, the ones we want to protect. We simply cannot turn a blind eye to the fact that cannabis is currently being sold illegally each and every day in Hawai'i.

"In previous testimony in CPC from HPD, law enforcement admits that it doesn't go after cannabis offenses already, they're focused on meth and fentanyl, which we believe their resources should be allocated to. If you don't know that cannabis is being sold and hemp products are being sold in our community illegally, I'd urge you to look into getting a prescription to help with glaucoma.

"It's cliché, and I cringe every time to point this out, but it's accurate nonetheless, the definition of insanity is repeating the same behavior and expecting a different result. We've repeated the same behavior of turning a blind eye to see these types of crimes increasing in our community, and us not doing anything about it. Cannabis has always been outlawed, yet the illegal market continues to flourish.

"We had the 1980s war on drugs before I was born, Mr. Speaker. Yet the illegal market has continued to flourish. We had Operation Green Harvest here locally in Hawai'i, which contributed to many Native Hawaiians being incarcerated, yet the illegal market has continued to flourish. We established the medical cannabis dispensary as a legal outlet, and the illegal market continues to flourish. We decriminalized possession of cannabis in small quantities, yet the illegal market has continued to flourish because we provide no legal means to access cannabis here in Hawai'i, besides the medical market.

"This bill provides another path, one that has already been taken by 24 other states, to legalize, regulate, and tax cannabis for 21-plus adult use. Majority of the public here in Hawai'i also supports legalization, and I feel that it is our duty to do the people's work and give the people what they are asking for. The governor is also in support as well as the Senate and House members here.

"Under this bill, cannabis can only be sold at a limited number of strictly regulated and licensed retail. It can only be sold to 21 and over. It must be tested and certified by labs. It can't look like candy or other products that might be enticing to children. And it has the 14% tax. The funding that will be generated through this will also go to law enforcement, social programs, and other initiatives to help our state. And the tax revenue can exceed over \$100 million in a few short years.

"Cannabis industry workers would be allowed to organize and join unions, creating new jobs opportunities with living wages."

Representative Lowen rose to yield her time, and the Chair "so ordered."

Representative Gates continued, stating:

"Thank you. This bill no longer includes appropriation, and it will use the funds from the medical program to administer this program. Most importantly, this bill takes the best practices and lessons learned from other

states that have legalized cannabis, so we avoid the unintended consequences feared by some.

"Mr. Speaker, I'm proud of the strength and leadership of our legislature that we have demonstrated over the years on many important issues, from being the first state to establish 100% renewable energy goals, to being among the first states to allow same-sex marriage. I know that change can be scary, and that this bill might seem like a significant change to some of you. But at this time, I also know that each one of you are strong, and I know that you guys are all leaders and can see clearly that the data supports legalization here in Hawai'i. Whether it's the reduced usage of youth, whether it's cleaner, better products and safer products for the end consumer, or the money that can be generated to then go to paying for additional law enforcement to go after kids not only using cannabis, but also other illegal crimes in the community, Mr. Speaker.

"I hope you all understand that Hawai'i is the last remaining democratically-controlled state to consider legalizing and regulating adult use cannabis. And I hope that you guys join me in supporting SB 3335 and demonstrate the leadership our legislature is known for. In closing, Mr. Speaker, you have always told your members that the House of Representatives need to lead the way for the future of Hawai'i, and with your support, we've gotten this far in the discussion relating to cannabis. So, let's continue to lead the way. Thank you, Mr. Speaker."

Representative Todd rose to speak in support of the measure, stating:

"Thank you. I just wanted to say I'm in support, and set a good example by inserting my prior comments from the last time we had this conversation. And just note to supporters and opponents that there's a variety of very extensive studies done on the subject matter. Virtually all of them show there's no positive or negative impact, in pretty much any capacity, in any direction you look at. So, given that, I kind of err on the side of individual liberty. Thank you," and the Chair "so ordered." (By reference only.)

Representative Pierick rose to respond, stating:

"Thank you, Mr. Speaker. In opposition. My majority of my constituents are Filipino Catholics, over 60%. And so, to represent them, I'll be voting no. I ask the question for all of us, who do we represent? What's the majority makeup? What's their demographic? What's their religion? What's their preference on this issue? That should have a big part to play on what we believe we should do."

Representative Nakamura rose to a point of order, stating:

"Point of order. According to Rule 28, we should limit remarks to the content of the bill."

The Chair addressed Representative Pierick, stating:

"Please confine your remarks, representative."

Representative Pierick: "Thank you. With regards to this bill, it receives public testimony in committees and it receives testimony with emails, phone calls, text messages, and direct messages to the representatives. So, with regards to this bill, we ask ourselves, what is the pulse of the community on this issue?"

Representative Nakamura rose to a point of order, stating:

"Point of order. Again, according to Rule 28, we are not talking about the pulse of the community, we are talking about the contents of the adult cannabis bill before us."

The Chair addressed Representative Pierick, stating:

"Please proceed."

Representative Garcia rose, stating:

"Mr. Speaker, my point of personal privilege, I guess, would be, mentioning how your district feels about this bill is completely related to this bill."

The Chair addressed Representative Garcia, stating:

"Representative Garcia, the Chair has asked Representative Pierick to continue with his remarks. Please proceed."

Representative Pierick continued, stating:

"Thank you. So, in receiving public input, I think it's a good idea for us to vote in alignment with that. And we should ask ourselves, is the public input coming from social media polls, website polls, and that would probably attract a certain demographic. And then is it coming from surveys sent out to our voters, that's going to attract another demographic. People that fill out paper forms probably are on the older side, and people who are filling out social media polls are probably on the younger side. So, these are things we should consider when we vote yes or no. I'll be voting no. Thank you."

Representative Lamosao rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Tam rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I also surveyed my district. I asked them, do they support marijuana legalization? I didn't ask them whether it's well-regulated or anything. Well, 55% of them came back and said yes, 38% said no, 7% said unsure, and of the 7% that said unsure, they all favored a well-regulated market. So, we can pretty much count them in the support pile too. That's all I have to say. Thank you."

Representative Takenouchi rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Garrett rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Kila rose to speak in opposition to the measure, stating:

"Mr. Speaker, opposition. Mr. Speaker, as a registered Democrat, the Democratic platform is a yes, but today I am a no. In a rare move of bipartisan opposition, you have both parties today sharing their opposition. As a Democrat, we often push measures to advance and move the party forward in our communities. But as a representative in Nānākuli-Mā'iili, when I have a district of unhoused people experiencing substance abuse, where is that same support?"

"The ACLU recently has taken a public stance in support, Mr. Speaker. Where is ACLU when I need help dealing with folks experiencing substance abuse that occupy public spaces, beaches, and prevent the public to access public spaces. Every single person that you can talk to on the unhoused coastline of the west side will mention at any one point in time, weed was their first drug. Sorry, cannabis. Every county police department has testified in opposition. I refuse to continue the narrative of this body that we are continuing to alienate law enforcement every single time that they have voiced their concern. If we're going to consider marijuana, I also would like this body to consider gambling, the true tax revenue generator that it's to be.

"A previous speaker said on the floor in the 1920s and mentioned the war on drugs. Mr. Speaker, let me remind the body, in the 1920s, we were a territory, not a state. The inclusion and introduction of drugs has hurt Native Hawaiian communities, to the point that where we have moved from Hawai'i and have moved to the coastlines of Hawai'i. To protect the family was another notion mentioned. My no vote is to protect families, Mr. Speaker. At a town hall held in the interim, I had a young daughter come to the microphone, 11 years old, when we asked the question to the community on the legalization of marijuana. She had shared that drugs has affected her family directly and that her dad was first smoking marijuana. Her dad then transitioned to every other drug afterwards, sold their car to the effects of gambling, and has now put them in homelessness.

"Data may say otherwise, but when you also talk to people, people perspectives are different from data. Anyone in recovery of substance abuse will mention more times than not that yes, marijuana was their first drug and may also serve as a gateway drug.

"Mr. Speaker, what happens when our schools become inundated with marijuana? We will stand to be blamed, as they already are. Many proponents of this measure talk about the importance of its effects about Native Hawaiians. Where are the proponents of this issue of Native Hawaiians when displacement, access to housing, and addressing the cost

of living, when all these are relevant matters, and they choose not to show up? Native Hawaiians are often the scapegoat to pass or not pass a measure, and I refuse to allow that narrative to continue.

"When folks are experiencing substance abuse, they are not in the backyard of your communities. They come to the west side of O'ahu and they occupy public spaces and beaches that then do not allow people to access the places that they pay taxes to. If folks want to be supportive of Native Hawaiians as they claim to be, then show up 24/7 and not when it financially benefits you."

Representative Kahaloa rose to speak in support of the measure, stating:

"In support, Mr. Speaker. May I please insert comments into the Journal with a brief comment? Thank you, Mr. Speaker. As some of you know, we have a great deal of agriculture in Kona and on Hawai'i Island. Besides Kona Coffee, we have Kona Gold. Kona Gold and Maui Wowie are examples of globally known strains of cannabis products that are Hawai'i-made products. I would love to see them as legal agriculture in Hawai'i."

Representative Kahaloa's written remarks are as follows:

"I have many reasons why I support adult use cannabis, but I think it is important to share a few personal reasons with all of you. My grandfather was addicted to opioids in the last decade and a half of his life. It was difficult for me to see him continue to use western medication in such strong quantities as a form of pain management, but it was alarming when a nurse had to explain to me that he had an addiction. Now these are legal medications approved by the federal government for pain management.

"Cannabis is a form of pain management, but is typically not subscribed to patients like my grandfather and he would never ask for that type of prescription. Smoking was a 'no no' for him, but I would have hoped that he could have had the opportunity to use edible cannabis. He would have never gotten a medical license or gone into a medical cannabis store by himself. The stigma of cannabis and his health would not allow for it. That is why things need to change and why we need this legislation."

Representative Alcos rose to speak in opposition to the measure, stating:

"Mr. Speaker, opposed, comment. Marijuana, some of us are over here talking about testing the marijuana and the experience that they have. Just imagine, if all of us smoked five joints, ten joints, and right now we making rules in the state, all of us is all stoned inside here. But it's legal. I can go outside there during my lunch break and smoke marijuana, come inside here and be the voice for the people. This is who we represent is ourselves, our people, our family.

"Some people take steroids, make them stronger, faster, bigger. That seems like a good drug, but it's illegal. Cocaine, other drugs, make them stay up, make them work harder. But we say no to those drugs because those drugs are illegal. It alternates our body, it alternates our mind. And yet marijuana is a drug that even some that says that there's so many pounds of illegal drugs is coming on, or marijuana coming on and coming in Hawai'i, or monies that are being transferred.

"So, now we go after all these other illegal drugs that have steroids, cocaine, or whatever, based on pounds and money. But we don't do that because we know that's wrong. We know that this illegal drugs is through life experience. We didn't see much enhancement that people grow better for our community. But you can see that affects our community, through life experience.

"I don't need to test one professional from UH or somebody to study in it, I just had to live it. We all live it. We all know our families that has been struggling. And yet we sit here today making like we should legalize it because maybe we need more tax money. Or maybe we should support some other cause for it. But it is legal medically. People already can get it as the way it is. But we don't have to hurt more of ruining lives.

"So, for our colleagues here, if we reservations or oppose, this is a chance that we can really make a difference. And I know that we are here and trying to do it. And I don't see anybody coming inside here stoned, because I believe that we have the right intentions. So, let's continue with that right intentions and serve our people. Thank you."

Representative La Chica rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Woodson rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Aiu rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Chun rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ganaden rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support. May I have the words of the chair of Judiciary & Hawaiian Affairs entered in Journal as if they were my own. Brief comment. One of the good things about being a state that is late in national or international conversations, is that we can take a lot of lessons and figure out what is appropriate for Hawai'i or not. I think that this measure takes some reasonable regulations and long overdue regulations for cannabis. For those reasons, I'm in support," and the Chair "so ordered." (By reference only.)

Representative Ward rose to respond, stating:

"Second time, I want to footnote a couple of things. First, a comment that I'm really proud of what we're doing, we're actually debating. This is the marketplace of ideas and I think this is really what the people put us here for, regardless of what their position is on this particular vote.

"First thing I want to mention is that, for some reason, some people think that the black market is going to go away because of what we've got here. We have to remember that the AG said that this is not something that she supports because of public safety. And some people have said, well, because of public safety, well, that's just made-up stuff. She's not doing Fauci-science. She's doing real public safety, listening to all the police commissioners, to all the mayors--"

Representative Ganaden rose to a point of order, stating:

"Mr. Speaker, point of order. Fauci-science, I'm not sure of what he's referring to."

Representative Ward: "That's a creative use of terms because of what is true and what is not true."

Speaker Saiki: "Representative Ward, Representative Ward."

Representative Ward: "And don't interrupt me when I'm speaking.

Speaker Saiki: "Representative Ward."

Representative Ward: "Don't interrupt me when I'm speaking. I have a vocabulary, you have a vocabulary."

At 1:47 p.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:48 p.m.

Representative Ward continued, stating:

"Thank you, Mr. Speaker. I was speaking about the attorney general saying, because of public safety, because of those professionals who are on the line for those people who are under the influence of marijuana, they know that this stuff is real. She's doing it for more than she just covering her backside on this thing. She said she doesn't do it. Of course, she made because of what we want, a structure and a safety. But to think that the black market is going to go away, Mr. Speaker, is really naive. I think to believe that is being very unscientific.

"The second thing is, I think there's one word that we've not mentioned in this whole debate, and that's the H word. The homeless. We have a mental crisis among the homeless. The most accessible thing to them is marijuana, even though it's the cheap wine and the booze that they're doing also. If we legalize and we think we've got a control under homelessness in it, and the money that we're paying, Mr. Speaker, we're paying millions upon millions of dollars. And then somebody related to this homeless czar here, who knows this is a big problem. And we have tried to, through the governor,

ambitiously, to cut down homelessness in the next three years, which I applaud and we should do it. But if we legalize this, this is going to work against our colleague to eliminate homelessness, because it's going to increase homelessness because of the way that marijuana affects the economy, the people, and particularly the youth who I think we should be really in protection for. So, normalization, homelessness is going to be catalyzed by the increase in the use of marijuana. Thank you."

Representative Perruso rose in support of the measure and asked that the remarks of Representatives Belatti and Sayama be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative M. Mizuno rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Kong rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I would just like to take a moment to thank the chair of Judiciary & Hawaiian Affairs for his commitment to this work and being able to put forward a really incredible bill. And I'm really proud to be a part of the body that was able to hear this. I'd also like to thank his committee and the committees that have had to hear this bill as well. I know that they have spent long hours listening to them and listening to members of the community. I would also like to have his words, the chair of Judiciary & Hawaiian Affairs, put into the Journal as if they were my own, along with the representative from Hōlualoa inserted into the Journal as my own as well," and the Chair "so ordered." (By reference only.)

Representative Kapela continued, stating:

"I think this is an issue, it's going to keep coming back again and again and again. And I think my constituents would be upset if I didn't stand up in strong support. I have been a supporter since I've gotten elected, and I will continue to support this until we get this work done. I also want to say that, as someone who has watched families be ripped apart by the war on drugs, I think it's really high time that we legalize recreational cannabis use and stop ripping families apart for smoking a plant."

Representative Gates rose to respond, stating:

"Thank you, Mr. Speaker. Still in support. Just wanted to mention that alcohol is the number one gateway drug to other illicit hardcore drugs, as noted by HPD in their testimony in CPC. We also know that prohibition hasn't been working on this issue relating to cannabis. And if we are not going to do anything to change what's being done now, then how can we expect anything to change?

"And the last thing is, there is adequate amount of support for those in our houseless population that want support. We have gone out countless times to those on the beach on the west side and the people we can help, we helped, and the people that did not want to take the help, that's a rock and a hard place to put the Legislature and folks that are in that situation. But I do think that there is a lot being done to address those situations in our community. And I think that this can help address those issues as well. *Mahalo*."

Representative Matayoshi rose to respond, stating:

"Thank you, Mr. Speaker. Still in opposition. I just want to encourage the body to vote on the bill before us. While I respect and actually agree with the chair of Health on a lot of the protections that this bill puts in, I disagree that we should vote with reservations or vote in favor of this bill, just to see it move along. If those changes are made, then I might reconsider my vote. I just don't know. But we can't be voting on what the bill might be. We can't be voting on a bill that has some good parts, but also has an incredible harm to our society in the form of legalizing recreational marijuana. And I encourage all the members to vote on the bill before us. This might be the last time that we get to see this bill, and I encourage you all to just take a look, make a vote on the bill before us at this time. Thank you."

Representative Alcos rose to respond, stating:

"Mr. Speaker, opposition. Just sitting down listening to the votes, we are just four votes away to killing it right now. Guys, some of us didn't vote on it and some of you here get to share your voice on it. This is a chance that we can, your voice is really being heard in your community. And please, this is a passionate bill to all of us. So please make your voices or let your voice be heard. Thank you."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in support. Mr. Speaker, I just saw the movie Sound of Freedom. If people haven't seen it, I highly recommend it. It really gives you upfront and close understanding of what this is really about. It's unbelievable all the tragedy that is happening.

"One of the takeaways is the fact that there is now more slavery in the world now, when it's illegal, than when it was legal. And most of the slavery is young girls in the sex trafficking. So, Mr. Speaker, this is not a perfect thing aligning. I understand there's a part where it's not as stringent if we adopt the federal, but it's better than not having the other benefits of the federal. So, this is a good bill.

"But, I cannot believe, and I know Hawai'i is part and parcel of that sex trafficking. Look at Sound of Freedom and you will be angry, but then you will weep or at least shed a tear. This is a good bill. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and S.B. No. 2757, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO SEX TRAFFICKING," passed Third Reading by a vote of 48 ayes, with Representatives Ganaden, Kapela, and Woodson being excused.

And again, it's not going to be in front of the Auditorium, it's going to be up in the rotunda, right in front of the Father Damien statue. So, if you haven't made your baskets yet, if you can go out today and tomorrow to make your baskets, we have our five organizations that we will be donating to. And again, we will have our surprise Easter Bunny and Easter Chick that you will be able to take pictures with. Thank you."

Representative Ward: "Thank you, Mr. Speaker. Just a reminder, at 3:00 p.m., if any of you can grace us with your presence at the premiere viewing, private viewing of Broken Promises 2. That's all about the Hawaiian Homes Commission and the federal law that says any surplus federal land has to go to the Department of Hawaiian Home Lands. That is a film all about that. Representative Hussey-Burdick rose to speak in opposition to the measure, stating:

"No vote, brief comment. Thank you, Mr. Speaker. The private property that benefits from this resolution was last purchased in 2021 for over \$1.5 million. And the text of this resolution almost urges the Legislature not to pass it. 'Whereas, the boat ramp and concrete wall were constructed seaward of the private property record boundary without prior authorization, and a portion of the boat ramp and concrete wall previously located on private property is now seaward of the current shoreline on state submerged lands.'

"It warns of rising sea levels and states, 'whereas, the practice of issuing easements to private landowners for state submerged lands on a case-by-case basis is not prudent as a long-term strategy when considered in relation to the public trust doctrine and in the context of planning for landscape-scale adaptation and retreat.'

"This resolution also states that the private property owner, a trust, has even executed a removal bond agreement to insure the State of Hawai'i against the cost of removing the encroachments in the event that the Legislature and the governor do not approve this resolution.

"Unlike the previous resolution, HCR 9, there is no public benefit to this measure. I have taken an oath to uphold the public trust, and as such, I have a fiduciary duty to oppose the passage of a measure that would exclusively benefit private interests at the expense of our public trust beaches. Thank you."

Representative Perruso rose to speak in opposition to the measure, stating:

"In opposition, brief comment. I appreciate the work of the vice chair of Water & Land on this measure and the following four measures to limit the term of these easements. But I am deeply concerned about this pattern that we continue to pursue year after year. And I am hopeful that in the near future, this body can develop legislation that develops a more holistic approach to these questions."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 10, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION AUTHORIZING THE ISSUANCE OF A TERM, NON-EXCLUSIVE EASEMENT COVERING A PORTION OF STATE SUBMERGED LANDS AT KANEOHE, KOOLAUPOKO, OAHU, FOR THE EXISTING BOAT RAMP AND CONCRETE WALL, AND FOR USE, REPAIR, AND MAINTENANCE OF THE EXISTING

Representative Hussey-Burdick rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. No vote, another brief comment. The private property that benefits from this resolution was last purchased in 2011 for over \$13 million. And again, the text of this resolution almost urges the Legislature not to pass it. This revetment was approved in 1964 and is now being swallowed by the ocean. It is time we stop approving seawalls and hardening to benefit wealthy private landowners at the cost of our public trust beaches."

Representative Perruso rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Amato rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 11, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION AUTHORIZING THE ISSUANCE OF A TERM, NON-EXCLUSIVE EASEMENT COVERING A PORTION OF STATE SUBMERGED LANDS AT WAIALAE-IKI, HONOLULU, OAHU, FOR THE EXISTING REVETMENT, AND FOR USE, REPAIR, AND MAINTENANCE OF THE EXISTING IMPROVEMENTS CONSTRUCTED THEREON," was referred to the Committee on Finance, with Representatives Amato, Hussey-Burdick, and Perruso voting no, and with Representatives Belatti, Ganaden, Kapela, La Chica, Nakashima, Nishimoto, Sayama, Tam, and Todd being excused.

Representative Hussey-Burdick rose to speak in opposition to the measure, stating:

"No vote, brief comment. The private property that benefits from this resolution was last purchased in 2021 for almost \$2 million. And again, the text of this resolution almost urges the Legislature not to pass it. These private landowners have also executed a removal bond agreement to insure the state against the cost of removing the encroachment in the event that the Legislature and the governor do not pass this resolution.

"It's time we send a message to private property owners that the shoreline property they purchased during our housing crisis is not going to get bailed out by the Legislature when they apply for continued easements to protect their damaged assets. Thank you."

Representative Amato rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

USE, REPAIR, AND MAINTENANCE OF THE EXISTING IMPROVEMENTS CONSTRUCTED THEREON," was referred to the Committee on Finance, with Representatives Amato, Hussey-Burdick, and Perruso voting no, and with Representatives Belatti, Ganaden, Kapela, La Chica, Nakashima, Nishimoto, Sayama, Tam, and Todd being excused.

Representative Ichiyama, for the Committee on Water & Land, presented a report (Stand. Com. Rep. No. 1402-24) recommending that H.C.R. No. 13, as amended in HD 1, be referred to the Committee on Finance.

Representative Nakamura moved that the report of the Committee be adopted, and that H.C.R. No. 13, HD 1 be referred to the Committee on Finance, seconded by Representative Morikawa.

Representative Hussey-Burdick rose to speak in opposition to the measure, stating:

"No vote, brief comment. The private property that benefits from this resolution was last purchased in 2017 for almost \$1.3 million. And again, the text of this resolution almost urges the Legislature not to pass it. These private trustee landowners have also executed a removal bond to insure the state against the cost of removing the encroachment in the event that we do not pass this resolution.

"Mr. Speaker, there's a growing body of scientific literature since the 1980s that demonstrate how seawalls and shoreline hardening negatively impacts nearby beaches. This is one of the reasons why the Legislature codified HRS chapter 171-53, requiring the Legislature to approve any lease of new submerged state lands via concurrent resolutions like this. Thank you."

Representative Perruso rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Amato rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Hussey-Burdick rose to speak in opposition to the measure, stating:

"No vote. And my brief comment this time is that this is a slew of private property owners who have a whole apartment building that benefits from the privatization of our public beaches. Thank you."

Representative Perruso rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Amato rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Cochran rose to speak in support of the measure, stating:

"Thank you, in favor. As much as I detest seawalls, this particular one, I've had the opportunity to go to the landowners. And it's something that the Mā'alaea Harbor, after it was built, had exacerbated the erosion of the shoreline. These condos we built, they had to basically put these up. We

can't cry over spilled milk, but they're being so undermined. And the sections that were removed, it just continues to get more eroded. I hate to say, at this point, these sea walls are needed to keep the land in place. So, yeah, I'm in support. And I've walked the whole entire shoreline with them just last week and saw the devastation. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 14, HD 1, entitled: "HOUSE CONCURRENT RESOLUTION AUTHORIZING THE ISSUANCE OF A TERM, NON-EXCLUSIVE EASEMENT COVERING A PORTION OF STATE SUBMERGED LANDS AT MAALAEA BEACH LOTS, WAIKAPU, WAILUKU, MAUI, FOR THE EXISTING SEAWALL, AND FOR USE, REPAIR, AND MAINTENANCE OF THE EXISTING IMPROVEMENTS CONSTRUCTED THEREON," was referred to the Committee on Finance, with Representatives Amato, Hussey-Burdick, and Perruso voting no, and with Representatives Belatti, Ganaden, Kapela, La Chica, Nakashima, Nishimoto, Sayama, Tam, and Todd being excused.

Representative Ward rose to speak in opposition to both measures, stating:

"Mr. Speaker, no with a yes if it was changed a bit. The point is, Mr. Speaker, it's not fair. In opposition. But look, the Palestinians need help. But this is a lopsided version of what should be our position on the Middle East, not just one sided. Almost like last week's, if you're a right-wing Republican, you're the bad guy. And this says if you're Israeli, by implication, you're the bad guy.

"My point is that when we do these resos, they should be fair and they should be balanced. Otherwise, we're taking a political side on what otherwise is a multi-billion dollar, multiple thousands of people's lives at stake. And we're only on one side. And one of the things that this reso forgets or omits purposely is that they never mention the October 7th attack, where raping and pillaging of the Israeli people were done. It doesn't mention a bloody second about that. Other than the Holocaust, this is the worst attack on the Jewish people since their existence.

"And now we're going to say, and by the way, I used to work for USAID. I was a presidential appointee at USAID in the Bush Administration. I know what we've done with the Palestinians and the Jews. We've given \$1 billion every year almost for decades. But what did the Palestinians do with the money, like we're calling for here? The Palestinians built hundreds of miles of tunnels underneath their land in Gaza, instead of giving it to the people and their education and their training. So, when we have a reso saying, oh my god, so sorry about the Palestinians, what about the Jewish people that is not mentioned in this?

"Because of those things, Mr. Speaker, we have to be fair and balanced. This is one of those lopsided things, just like last week, that besmirches a particular view of life as conservatives. And this leaving out the Jews is like forgetting that there's another people in another country that is one of our biggest allies in the Middle East for democracy and for the future of that area. For those reasons, Mr. Speaker, I wish we could amend these kinds of things to make them a bit more balanced. Thank you."

Representative Quinlan rose to speak in opposition to both measures, stating:

"In opposition, Mr. Speaker. Mr. Speaker, I love Taiwan. My mother grew up there. Most members of my family attended the Taipei American School, and I still have a lot of family members that live there today. It's a place that holds a special place in my heart. However, Mr. Speaker, I really worry about these types of resolutions. We have a federal government, we have a state department. And I think that we should try and leave these matters to them and focus on the problems that we have here in Hawai'i. Thank you."

Representative Ward rose to speak in support of both measures, stating:

"Mr. Speaker, in strong support. Mr. Speaker, the biggest threat to the Pacific, which will make Pearl Harbor look like a cakewalk, is the invasion of Taiwan by Xi Jinping. No one is sure when it's going to happen, but there's speculation that before, not after, 2027, that's three short years from

now. To have a reso that says, as the American policy is, to be close or closer to Taiwan, I think is commonsensical. All of you know, I'm a graduate of the East-West Center on international relations, it has been a key part of my existence in addition to the Peace Corps and working with the United Nations.

"So, knowing that when the diplomats stop talking, the bullets start flying. And this is part of what the diplomats do, they say let's have gestures of cooperation, *et cetera*. So, Mr. Speaker, until we are foisted upon this suddenly like a shock in the night, this is something that says, hey, Hawai'i, wake up. Because if the Pacific is caught up with the invasion of Taiwan, Japan is going to jump in, South Korea is going to jump in, the US is going to jump in. The whole of the Pacific will be blown to hell. Hopefully, Xi Jinping is more civilized in his treatment of his brothers and sisters in Taiwan.

"But because Taiwan has been kind of a third-class citizen by the world so far, this is something that will encourage them. This is something that will say, we got your back, and we've got a treaty that says that. So, this is in consistent State Department lexicon. And because we are the closest to Taiwan, we are probably the more influential, if you will, in saying, hey, we're with you, Taiwan. And I know the Chinese population here, as the good representative from the North Shore said, he has blood relatives that are related to this.

"But this is a macro political, this is more third, fourth, fifth World War kind of seriousness. And for that reason, Mr. Speaker, I would hope this would send a message to Xi Jinping saying, don't play around with the Taiwanese, don't blow up the Pacific, your economy will be killed, your credibility, like Putin, will be lowered, and everything that you want to do because of your strong economy and military, you will be a pariah in the Pacific.

"Mr. Speaker, this is a good gesture to send a shot to Xi Jinping, not only saying we love you, Taiwan, but to tell Xi Jinping, let's cool it, let's not blow up the Pacific. Because if it happens, this place and our budget is going to go to hell in a handbasket. We think we're prospering with tourism. Wait till this happens before 2027, or in 2027, we will be crying that, oh my god, we didn't know it was happening. Well, this is a warning that it's going to possibly happen and we should be prepared. For those reasons, Mr. Speaker, this is a very good reminder of the state of the art and the danger that we have being in the middle of the Pacific. Thank you."

Representative Quinlan rose to respond, stating:

"Thank you, Mr. Speaker. Still in opposition, and I'd just like to adopt the words of the representative for the Hollywood of the Pacific," and the Chair "so ordered." (By reference only.)

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. From my understanding, this bill would encourage, basically, the continued legalization of medical abortion. I believe that this process is usually done 10 weeks or before during the pregnancy. I sent out a survey to my constituents and they replied, and these are the survey results with regards to a bill like this. The question was, at what point do you feel the law should allow abortion? There's many options they could choose from. The first was I don't support abortion, which was 42% of my constituents replied with that answer. The next reply was the heartbeat, six weeks, 18.5% replied for that one. The next option is end of the first trimester or 12 weeks, 17.8% replied with that one. Vitality of the baby, 22 weeks, which was 9.5% of my constituents who participated in the survey, replied to that answer. End of the second trimester or 26 weeks, 3.6% of the people who filled out the survey replied to that one. And the last option was up to birth, so 8.2%. So, this bill would be 10 weeks or less for chemical abortions. If we combine do not support abortion replies to heartbeat replies of six weeks, that's 60%. So, majority of my constituents don't support this bill. I'm voting no."

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2333, HD 1 pass Second Reading and be placed on the calendar for Third Reading, seconded by Representative Morikawa.

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition. This bill, SB 2333, House Draft 1, allows the chief election officer to use accurate copies of paper ballots, not the actual paper ballots, but copies of paper ballots rather than the originals when conducting a precinct audit. Mr. Speaker, the precinct audits is not that hard to do. We as taxpayers pay with our tax dollars the Office of Elections to conduct elections. And with audits, this is simply a transparency issue. And there should always be paper records, always be paper ballots to go back to, to verify that the vote count that's projected by those machines are accurate. So, this is a bill moving forward in a wrong direction. And in times when there's such low approval of this body and lack of trust of this body, we should be moving towards transparency and not the other way. No vote."

Representative Ward rose to speak in opposition to the measure, stating:

"Me. Speaker, may the comments of the former speaker be entered into the Journal as my own and with a brief comment," and the Chair "so ordered." (By reference only.)

Representative Ward continued, stating:

"Opposition. We need to fund the election officer more because it's the election rolls with so many dead people on it. I even introduced a bill that says as soon as somebody dies, there should be a death certificate sent to the Office of Elections. Because they say when we ask them in a hearing, why aren't you guys doing this, they said we don't have the money, we don't have the manpower. So, if that's their reason why they want to do electronic copy, let's give them the money and the manpower."

"There's a lot of, as you know, nationally, *et cetera*. We shouldn't be suspect in a democracy 200 years old saying, hey, you guys don't know how to run an election yet. When I was in USAID, as I said earlier, in the office of democracy and governance, we were actually doing validated elections on the internet. I know that sends shudders to some people in the state, but they were highly monitored. And if Osama Bin Laden can script something we can't read, we did election scripted so well, nobody could break into them. But the point is, we're not ready for that. And for what the gentleman just said, we should have hard copies. It's not rocket science. It's common sense. And if people want more confidence, that's the way it should be. And this bill is not the way to go. Thank you."

Representative Matsumoto rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matsumoto's written remarks are as follows:

"SB 2333 allows the chief election operator to use copies of paper ballots rather than the original paper ballots for the purposes of auditing an electronic voter system's tally. I believe that switching to copies rather than using the original paper ballots to audit electronic tallies poses a threat to the integrity of our elections. I will continue to watch this measure as it continues to move through the legislative session, but for now I vote with reservations."

Representative Ward rose to speak in opposition to both measures, stating:

"Mr. Speaker, same request and a brief comment. Mr. Speaker, as I noted last week, we tend to be bumping up against federal issues. And I know certain parties in this room have been accused of wanting to kill Social Security, cut Social Security, take Social Security around. This kind of raises its head, kind of like a red herring of sorts. For those reasons, I think, why don't we just stay out of national politics and stick to our knitting here that we have in the State of Hawai'i. We've got enough problems as it is.

"But this is another thing for divisiveness and what otherwise, people should know that old people are the ones who vote, are the ones who keep people in office. And no way is Social Security ever going to be cut. No way is Social Security ever going to be killed. No way is Social Security ever going to be modified to where it's not benefitting the people who are 62, 65, and above.

"For those reasons, Mr. Speaker, this is a little bit of a tangential leaning into the political season. And for those reasons, I don't think it's a tasteful

resolution. Even though Social Security is meant to do good things, I think in the context of where we are in November 2024, it's one of those electrifying pieces of legislation. For those reasons, I vote no. Thank you."

Representative Pierick rose to speak in opposition to both measures, stating:

"In opposition. This bill in some way would support gambling in the State of Hawai'i. I have a relative who has become addicted to gambling, lost his marriage this way. This is not a good idea for our community. It hurts people when they start basically letting their bank account savings go towards some sort of hope where they can make it big, but they don't make it big because the gambling structures are set up to where the people arbiting the gambling structure, they're winning, not the actual gamblers."

Representative Perruso rose to speak in opposition to both measures, stating:

"With different reasoning, but no vote."

Representative Kapela rose and asked that the Clerk record a no vote for her on both measures, and the Chair "so ordered."

Representative Ward rose to speak in opposition to both measures, stating:

"Mr. Speaker, no vote and a different reasoning in addition to what has been said. I just learned this morning that gambling is proliferated throughout the nation. It's sexy. It's kind of like legalizing marijuana, hey, we're going to make a windfall. But what in that report that I heard this morning they said, now, not only are they betting on teams, but they're betting on players. I can bet on you as a basketball player, how many points you're going to make and how many points you're not going to make. If you got big money on that, are you going to throw the game and miss your layups and miss your other things because you know you've got a really big stake in winning or losing that game?"

"Mr. Speaker, this is on the road to corruption. Look, I'm not a goodie two shoes guy, but you know when the nose of the camel is in the tent, it's going to get worse. So, you go from betting on teams to betting on players. We're corrupting the human mind. Look, we're all tempted to do things that are not right. We're now structuring it so sports become, my god, did they really win that based upon merit, based upon their skills, based upon their integrity? Versus, hey look, somebody made a lot of money. And for those reasons, Mr. Speaker, this is not the best way to go. And we and Utah are the only places that don't have gambling as a legal entity in the state. So, why do we want to put the camel's nose in the tent and make it smell like this? Thank you."

Representative Marten rose and asked that the Clerk record a no vote for her on both measures, and the Chair "so ordered."

Representative Todd rose to speak in support of both measures, stating:

"Strong support. I've actually floated over the years a number of sports gambling measures. And very similar to cannabis and in a few other areas, it's already happening, it's already everywhere within our state. It's easily accessible more than ever because you can do it on your phone. I have a very large number of friends and acquaintances that are already doing this. The problem is that they're doing it and we're not collecting any of that revenue and it's gone completely unregulated. It's instantly accessible at any time, 24/7, 365. We'd be better off creating some sort of regulatory structure, or at the very least, providing some sort of comprehensive analysis on what that would look like so that we can make an informed decision."

"And I don't think that it's a thing of pride that we're one of only two states that have not found a way to legalize gambling in some capacity. I think it's kind of embarrassing sometimes, but I realize that everyone would disagree, well not everyone, but some would disagree. But looking forward to that comprehensive analysis and at least allowing us to make an informed decision down the road. Thank you."

Representative Matayoshi rose to speak in support of both measures with reservations, stating:

"Reservations. Good speech. I'm not a no anymore."

Representative Souza rose and asked that the Clerk record an aye vote with reservations for her on both measures, and the Chair "so ordered."

Representative Ward rose to respond, stating:

"Mr. Speaker, I mentioned one important point from the data. In opposition. The data, the literature clearly says the studies of those who lose the money in gambling are the ones who can least afford it. We've got 63% of the Hawaiian families who are in ALICE category, 42% of the whole state is ALICE families. The ones most prone to gamble are going to be those people who can least afford it. And that's not me talking, that's the data, that's the literature, that's time and again. And then to try to rehabilitate habitual gamblers, you think it's hard with methamphetamines, *et cetera*. Getting a gambling habit to change is really a tough proposition. But the point is, we are punishing the poor of the State of Hawai'i if we want to get into gambling. Regardless of, oh we're going to make a lot of money, I think that's a fantasy. Thank you, Chair."

Representative Holt rose to speak in support of both measures, stating:

"Thank you, Mr. Speaker. I appreciate the previous speaker's vigorous support of Native Hawaiians. In support. And I'd just like to note that it is federally been legal for a few years now. It would bring in extra revenue generation for our state. And I look forward to the results of this study. Thank you."

This bill authorizes the State Foundation on Culture and the Arts to develop a public work of art related to the shaka and its history to be displayed in a prominent location of the state. "At the same time, we're the House of Representatives and we're focusing time on a hand gesture when there's so many other issues facing our state. Homelessness, crime, affordable housing, high-cost electricity. So, with the

goal of having different priorities as our priority and not the shaka, I'll be voting no."

Representative Quinlan rose to speak in support of the measure, stating:

Representative Tam rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I think that the bigger picture behind bills like these is that it really does have an economic benefit. When we pass bills that creates a state gesture or a state observance day, many in the local community come together and hold festivals or events around district parks, and that showcases a lot of our local businesses and that's what makes them thrive. So, I think that this is not a waste of time. Thank you."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support, brief comments. Mr. Speaker, I think it's important for me to stand up on this bill, Senate Bill No. 2837, House Draft 1, because this may be the only opportunity to articulate the reasons why House Draft 1 is so important for this measure.

"This measure concerns the subject of temporarily authorizing the proposed state veterans home on Maui to O'ahu Regional Health Care System, and to establish a timeline and a permanent oversight, transition of that oversight of operations and management to be reassigned to the Maui Regional Health Care System.

"This is very important, Mr. Speaker, for a number of reasons and in part to address the comments in the attorney general's testimony before the Finance Committee, which suggests that it is not this subject that is covered. This is an important subject because it covers facilities, such as a state veterans' home, that we desperately need in this community, much like the O'ahu state veterans home here that is being overseen by O'ahu Regional Health Care System. We currently need the O'ahu Regional Health Care System to take temporary authorization of the oversight and operations of the proposed state veterans home.

"We need a state veterans home on Maui. We also know that this is a timely procedure that needs to be followed. But what we learned in testimony before the committees is that it's really important that the state veterans home on Maui be at some point transitioned away from O'ahu Regional Health Care System to ensure that the revenues that will be generated will flow back to the people and the health system of Maui.

"A second thing we learned in the testimony before the various committees on this measure, is that the self-perpetuating board, the Maui regional board, has not been meeting. And that is a critical, critical body that needs to be reestablished, because that was part of the promise of the privatization and the movement towards Maui health system. We know that there are members, community members on the Maui health system board. So, it is not impossible, as it has been promised to members of this legislative body, that the Maui health board can be reconstituted.

"We need to have this permanent process in place in law so that we ensure that this program can move forward, that proposals can be made to the federal government for federal moneys, but then to also ensure that it is not that the facility and its oversight and its revenues go to the people of the county that it serves, which is Maui. So, in strong support of House Draft 1 of this bill. Thank you, Mr. Speaker."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, strong support, and may I have the words of the former speaker entered into the Journal as my own. And as a Vietnam veteran, we need more veteran homes. I cannot believe to this day some of the largest homeless populations are Vietnam veterans. Impossible. So, these veteran homes that are under the supervision of this bill is very, very much needed. Thank you," and the Chair "so ordered." (By reference only.)

The point is this, if we had enough police, we wouldn't need this. We are 477 at least short on Hawai'i, on this island, Honolulu, HPD. So, those who don't like the bill, and I know some people will vote with reservations or against it, please push to get more policemen and we wouldn't need this bill. For those reasons, Mr. Speaker, this is very important because technology fills in where human effort fails, and we have failed to fund the police to its fullest. Thank you."

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2706, SD 1, HD 1 pass Second Reading and be placed on the calendar for Third Reading, seconded by Representative Morikawa.

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This measure would basically create a task force for the purpose of expunging criminals' records. And I don't think that's the movement that our legislative body should head in. We should be tough on crime, deter crime, and communicate to the community that if people commit crimes, there are consequences. And this measure doesn't seem to do that. So, I'll be voting no."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Kong rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2706, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO EXPUNGEMENT OF CRIMINAL RECORDS," passed Second Reading and was placed on the calendar for Third Reading, with Representatives Kong and Ward voting aye with reservations, with Representatives Garcia and Pierick voting no, and with Representatives Saiki, Todd, and Woodson being excused.

Representative Tarnas, for the Committee on Judiciary & Hawaiian Affairs, presented a report (Stand. Com. Rep. No. 1635-24) recommending that S.B. No. 2347, as amended in HD 1, pass Second Reading and be placed on the calendar for Third Reading.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2347, HD 1 pass Second Reading and be placed on the calendar for Third Reading, seconded by Representative Morikawa.

Representative Kapela rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Ganaden rose to speak in opposition to the measure, stating:

"No vote, Mr. Speaker, brief comment. This seems to be coming from an effort from individuals from Waikīkī that want to expand upon criminal sentencing in a similar way that this state and many other states did throughout the 1990s. It didn't work then, and it won't work now to make us any safer. It will make certain offenses that are currently misdemeanors, if you get three of them, like a three strikes law, turn into a felony. That's a pretty significant difference. That's going to cause defense attorneys, mainly the Public Defender's office, to take many cases to trial because it's going to turn what could be a few months sentence into a five-year sentence.

"These laws throughout the nation have been held unconstitutional. And furthermore, there's no data to support it. We are moving in a way through the criminal justice system towards collaboration through all forms of government, through a data-informed system. I think that this is the wrong way to go about it."

Representative Souza rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"No vote with a brief comment, Mr. Speaker. This bill returns us back to common sense. I don't know if everyone has been watching the news, but people in New York City, particularly young women, have been suddenly walking down the street and getting punched in the face.

"Those who have also recently been accused and convicted as killers have got like 15 or 20 or 30 offenses. Mr. Speaker, this is common sense. I mean, even the weathermen know, the best way to predict the weather tomorrow is what's the behavior in the weather today. If these guys have been 15 or 20 times offending, you got to use common sense, say hey, the probability is in the 90% they're going to do it again. So, you got to give them some behavioral modification, if you will, to say wake up, you're not going to get away with this.

"And this nation is allowing too much of that let's get out of jail free. We've had bail free, get out of jail free issues, expungement issues. I mean, we are not a nation of criminals. But we're allowing too much of this to happen, and a lot of it's related to drugs, but I know that's the next bill, but we'll keep it from. The point is, look, we're not stupid. This is common sense. When you're a child and you misbehave, you get punished. Somehow, we don't have that when we get adults and people who are killing, robbing, and stealing other people. And we go off on this tangent, oh, it's such a bleeding heart that we're going to hurt these people. Well, they've hurt a lot of people and that's why the, I'll just leave it at that point. This is common sense, let's stick with it. We're America, we can know better, we can do better. Thank you."

Representative Amato rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Perruso rose in opposition to the measure and asked that the remarks of Representative Ganaden be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Hussey-Burdick rose in opposition to the measure and asked that the remarks of Representative Ganaden be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2347, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CRIME," passed Second Reading and was placed on the calendar for Third Reading, with Representatives Amato, Ganaden, Hussey-Burdick, Kapela, Perruso, Souza, and Ward voting no, and with Representatives Saiki, Todd, and Woodson being excused.

Representative Tarnas, for the Committee on Judiciary & Hawaiian Affairs, presented a report (Stand. Com. Rep. No. 1636-24) recommending that S.B. No. 2487, SD 1, as amended in HD 1, pass Second Reading and be placed on the calendar for Third Reading.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2487, SD 1, HD 1 pass Second Reading and be placed on the calendar for Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill would basically take the current fine of possessing three grams of recreational marijuana, that fine is \$130, and it would switch it to where if you had one ounce of recreational marijuana, you would be only charged \$25. One ounce of marijuana is about 50 blunts. This could be interpreted as basically having less of a penalty for drug dealers. I don't think that's a good idea. I don't think that's where our state should be heading. So, I'm voting no."

Representative Matayoshi rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. To correct the prior speaker, this bill actually sets the bar at two ounces, so about 100 to 120 joints. That's one of the reasons I'm in opposition. That's just far too much to decriminalize at this rate. I think that if someone is carrying around 100 of anything, that it would imply the intent to sell. I think that if someone was carrying 100 toothbrushes down the street, you would assume that they're going to be selling toothbrushes. If someone is carrying 100, 120 joints worth of marijuana down the street, that indicates an intent to sell as well.

"This is not a companion bill to the House decriminalization bill, but there was a similar one heard and originating in the House, that was altering the third degree, I believe promoting dangerous drugs in the third degree. This is going to be changing promoting dangerous drugs in the second degree, which is a little bit harsher, too. So, not only have we doubled it from one ounce to two ounces, but we are adjusting a higher level of offense as well.

"I'll just point this out too, it's \$25. We're basically making it a slap on the wrist. It's \$25 or two hours of community service for carrying slightly less than two ounces, up to two ounces, I guess, of marijuana. I think that's essentially legalizing it up to that amount.

"I also disagree with the committee report. In the committee report it states, your committee finds that arrest for possession of small amounts of marijuana, or related paraphernalia, is one of the most common entry points into the criminal justice system. Now, I called the Judiciary to ask them how many people are currently in jail or prison due to simply possession of marijuana. And this time when I called, they couldn't give me an answer. They said that all of the crimes for just simple possession of marijuana, just by itself, are conglomerated with a lot of other crimes and they couldn't sort out the number.

"So, if, as a previous speaker on a different bill has said, we are moving towards more of a data-based approach to this, we don't have the data to justify this. And in my previous role as vice chair of the Judiciary, when a bill similar to this came up, the Judiciary at that point told me there were only a handful of people in jail or in prison at the time who were for simple possession and that was it, not associated with a different crime as well, or in addition.

"So, I don't believe that Hawai'i has necessarily the same problems as we're seeing on the mainland. I think this bill is addressing a problem that might be present in other states but is not present in this one. And this is just simply too much for us to bear. Thank you."

Representative Kitagawa rose to speak in opposition to the measure, stating:

"In opposition and can I have the words of the other representative from Kāne'ohe entered into the Journal as my own. And just a brief comment. As I mentioned previously, when we discussed decriminalization with House Bill 1596, I believe that this bill sends the wrong message to the public, especially our youth. By allowing two ounces of marijuana to essentially be legalized, we're pretty much saying that it's okay, that it's not wrong to use marijuana and that it's an okay substance to have. And I don't want to be sending that message to our youth who are already getting mixed messages about other kinds of substances that are out there on the market. In opposition, thank you," and the Chair "so ordered." (By reference only.)

Representative Kobayashi rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition for the same reasons as the two prior speakers. I thought one ounce was already high. Because a person carrying around 50

joints or 50 to 60 joints isn't going to smoke it in a day or two. That person is probably a distributor or seller. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition and a brief comment. First, honor where honor is due, thanks where thanks is due. I want to thank the chair of Finance, the vice chair of Finance for what, otherwise, was a historical not hearing of a bill which the people of Hawai'i were crying out that, hey guys, don't legalize it.

"This bill, however, Mr. Speaker, is kind of another end run to make it look like it's warm and fuzzy. These are the accouterments or the instruments by which you smoke, toke, or whatever with marijuana. It's not something that I think is in the trend of where we are going. And I think this is not a good bill because it's trying to keep the promotion of marijuana as just another thing on the shelf which young kids and other kids can just marvel with.

"For those reasons, Mr. Speaker, this is not a good bill. But I think we made history yesterday, and I hope we continue, because this bill, like gambling and like other issues, are going to come back time and time again. So, let's set the record straight now and continue. So, thank you."

Representative Garcia rose to speak in opposition to the measure, stating:

"No vote and a point of order. I just want to remind this body of decorum and that when members are speaking not to laugh and giggle and have some respect. Thank you."

The Chair then stated:

"Let's be civil members."

Representative Kila rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Lamosao rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Souza rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Nishimoto rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Garrett rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Matsumoto rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Quinlan rose to speak in support of the measure with reservations, stating:

"Reservations, brief comment. I have serious qualms about further decriminalizing marijuana if we don't have a pathway to legalization. I think that our current level of decriminalization is sufficient, and I don't know that we're actually solving a problem with this measure. Thank you."

Representative Kong rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Chun rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Aiu rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative La Chica rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Alcos rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Tarnas rose to speak in support of the measure, stating:

"In support, thank you. Sorry to stop the roll here of those who are opposing this. I would urge members here to support this. The reason is, I

just wanted to quote from the public defender. 'Government resources should not be wasted arresting and prosecuting marijuana consumers. Unlike dangerous, illicit drugs like cocaine or crystal methamphetamine, marijuana has proven medical and health benefits and can be used safely. The FDA has recommended rescheduling marijuana from a Schedule I drug to a Schedule III drug because it meets three criteria: a lower potential for abuse, a currently accepted medical use treatment in the U.S. and a risk of low or moderate physical dependence in people who abuse it. There has never been a confirmed cannabis overdose death. Spending taxpayer dollars for criminal prosecution of marijuana is simply a waste of resources that can be better spent focusing on more serious offenses.'

"I support this, and I urge other members here to support it as well. Thank you, Mr. Speaker."

Representative Ward rose to respond, stating:

"Mr. Speaker, second time. Refute the former speaker in the sense that Prosecutor Alm said, I'm going to use my words now, basically legalization is already here. Nobody gets other than a slap on the wrist if they're smoking marijuana. That was a construct that brought to me intellectually. The other day I was at a festival, a public festival, 400 people. Suddenly, a big whiff of marijuana smoke hit where I was sitting with some neighborhood board people. Ten feet away, Mr. Speaker, almost like between you and me, were the HPD. Did they get all excited and go, hey, where did that smell come from? No. They are not arresting people for marijuana smoking. It's legitimate, legal, even though you're getting a \$130 fine.

"So, to say that this is going to interrupt or be so necessary to keep these guys out of jail, slap on the wrist, \$130, it's like a parking ticket. And the fact that I saw HPD right there, and I knew if I could smell it, they could smell it, and they weren't enforcing that. So, this thing about scaring people that you're going to go to jail because you smoke a joint is total nonsense. Thank you, Mr. Speaker."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I'd like to point out to members that what the final committee did in this measure was to criminalize for as promoting a detrimental drug in the third degree possession of any marijuana, any marijuana concentrate, or marijuana-infused products, transferring a personal use quantity of marijuana to a person who is 21 years of age or older, or smoking marijuana in a public place.

"This actually provides a measure to allow police officers to enforce against people who are found smoking marijuana in a public place, which is some of the complaints that I found from many of my constituents. And so, I think this edition, different from the Senate draft, is a very important addition and actually does provide law enforcement with more tools to enforce against illegal, unlawful marijuana use. Thank you, Mr. Speaker."

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. And I'd like to have the words of the chair of Judiciary & Hawaiian Affairs inserted into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Matayoshi rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. Still in opposition. I disagree with the public defender. I believe that if someone wants to, I mean, I think the public defender's point is marijuana is not as dangerous as things like heroin, methamphetamine. And that's all well and good, but it's still a drug, it's still federally illegal. And it is medically available in the State of Hawai'i already. So, all of the points the public defender brought up about it having a beneficial use, having health impacts, that's all well and great. People here can already do that without this bill. We do not need this bill in order to get any of the benefits that the public defender is raising. It's still a scheduled drug, even if federally they're thinking about lowering it from a Schedule I drug to a Scheduled IV, III, or V, it's still a controlled substance. And I don't think that we should be decriminalizing, to this degree, a controlled substance.

"There's also no mitigation measures in this bill, as there were in the recreational marijuana bill, which I also obviously disagree with. But this

bill is in some ways worse. We're allowing up to two ounces of marijuana possession to have a \$25 fine. Two ounces is way too much. What we're doing here, we already have decriminalization up to three grams, which, you know, I also disagree with, but that's neither here nor there since it's current law.

"What we're doing right now is we're allowing people to carry enough marijuana on them to sell it. So that's really what this bill is. We've already gone through decriminalization for small amounts for personal use. Now we're going to the point where we're allowing someone to carry so much on them that it makes it that they can sell it. And with the \$25 kind of a minor slap on the wrist fine, it makes it commercially viable for them to do it as well.

"So, I'm against this bill. It doesn't have the mitigation measures of the other bill. And it's essentially promoting the ability for people to sell an illegal drug. Thank you."

Representative Ganaden rose to speak in support of the measure with reservations, stating:

"Reservations. I think my reservations might surprise some people, considering my historic considerations of criminal justice. But it might be better to just wait until the federal government reschedules marijuana and cannabis and then we do this all in one fell swoop. That we send a direct message to the community that we have heard their voices regarding public sentiment around cannabis and around smoking.

"I've actually been to dispensaries in California and Washington and purchased product. And it felt like I was going into a fancy wine shop, and it felt like the people selling the product were just making stuff up. And I think that there's a changing culture happening in the United States. I don't think we should do it in a piecemeal way. Maybe the better way to do it is to do a holistic approach, tell the community exactly what we've heard, what we've learned from, and how we don't want to continue to criminalize cannabis or associate it with the harder drugs that are really ravaging our communities."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. It was recently mentioned that America is changing its culture with regards to criminalizing or uncriminalizing this drug. I agree. Oregon recently, I believe this past week, signed into law that they were recriminalizing a certain substance. I think that our state should be similar in having a criminalized approach to drugs."

Representative Takenouchi rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Amato rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. So, I just received an email from one of my constituents who just wanted me to point out that as the American Academy of Pediatrics noted in its 2015 report, supporting cannabis decriminalization, imprisonment represents direct removal of a person from needed roles in society, adults away from jobs, parents from young children, and adolescents away from school and their families. Furthermore, these people are placed in environments where they're likely to have close contact with people who have committed serious violent offenses or are repeat offenders.

"Hawai'i's current decriminalization law applies to only a paltry three grams, far less from any other state. This means hundreds of people are still being arrested each year for personal use amounts. With all of the harms outlined by the American Academy of Pediatrics, Hawai'i recognizes far more is personal use quantity than our medical cannabis law, which applies up to four ounces. So, as I said, this was the email that I literally just received from one of my constituents. And as it is my job to amplify their voice, I feel I have done that, and I am in support. *Mahalo.*"

Representative Tarnas rose to respond, stating:

"Second time, in support. I just want to make it clear to members here that if somebody is caught with between one and two ounces, it's a petty misdemeanor in this bill. So, make sure everyone understands. I urge your support for this measure. Thank you, Mr. Speaker."

Representative Martinez rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Hussey-Burdick rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. And I just also want to clarify that this bill does nothing to change HRS Chapter 712-1249.4 and 1249.5, which are commercial promotion of marijuana in the first degree and in the second degree. So, if you are selling cannabis, it is still a crime, even if this bill were to pass. And also, for a point of clarification, even if the amount of people who are being incarcerated for this plant make up whatever the statistic was, 3% of our current arrests, that is a really harmful way to diminish the lives of several hundred people who are sitting in jail simply for this plant which has been recognized to have medical qualities. Thank you."

Representative Alcos rose to respond, stating:

"Mr. Speaker, second time, opposition. This is going to change our culture. We'll be standing around in a crowd or a grocery store or at a park, this is the smell we're going to smell every day. It's going to be around us much more than what it is today. And a lot of us here doesn't smoke. And this bill, where is it going to stop? One ounce, two ounce, next time, ten ounce or maybe legal. It's going the wrong direction for our families. This is to protect our families, our kids, our *keikis*. And this bill, this drug, we can understand medically it's going to help and the bill is there, like we all been saying. So, I strongly oppose this bill. Thank you."

Representative Onishi rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Lowen rose in support of the measure and asked that the remarks of Representative Tarnas be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2487, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO MARIJUANA," passed Second Reading and was placed on the calendar for Third Reading, with Representatives Chun, Ganaden, La Chica, Martinez, Quinlan, and Takenouchi voting aye with reservations, with Representatives Aiu, Alcos, Garcia, Garrett, Kila, Kitagawa, Kobayashi, Kong, Lamosao, Matayoshi, Matsumoto, Nishimoto, Onishi, Pierick, Souza, and Ward voting no, and with Representatives Saiki, Todd, and Woodson being excused.

Representative La Chica rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. Wanted to just say a few comments, my first opportunity to speak on this bill. Just wanted to thank the Judiciary chair and CPC chair for moving both measures, Senate and House. This bill would target the spread of deepfakes during an election. And as you all know, with all the benefits of AI, unfortunately, AI also has the ability to not just threaten people's livelihoods as what we've seen with the film and the creative industry, but it can also be used to misrepresent individuals running in an election through the spread of fabricated media. And so deepfakes really are media portraying individuals saying or doing some things that they've never said or done. And so, this bill would help protect the integrity of our elections. For those reasons, I support this measure."

Representative Garcia rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2687, SD 1, HD 2, entitled: "A BILL FOR AN ACT RELATING TO ELECTIONS," passed Third Reading by a vote of 49 ayes, with Representative Garcia voting aye with reservations, and with Representatives Kitagawa and Souza being excused.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2747, SD 2, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Morikawa rose to speak in support of the measure with reservations, stating:

"Strong reservations, Mr. Speaker. This bill will hurt Kaua'i's aviation tour industry. I received concerns from Kaua'i operators, and I would like to share them for the record. These are quotes. The aviation insurance requirements in this version are not obtainable by any of the nine helicopter and three airplane tour companies on Kaua'i. This bill would cause all of the air tour companies on Kaua'i to cease operations. Approximately 300 Kaua'i residents directly employed by air tour companies would lose their jobs.

"Requiring insurance that is not readily available at a reasonable cost to operators, as well as creating a requirement for air tour operators that are not imposed upon other operators, would be deemed by the FAA to be a violation of FAA grant assurances. The FAA has the exclusive authority to regulate aircraft safety generally. Based upon that authority, the FAA has the exclusive jurisdiction to establish, and actually has established, insurance requirements for operators. The states have no discretion by their regulatory powers to impose higher standards. As a result, the bill is federally preempted.

"Another concern as follows, the House Consumer Protection & Commerce Committee amended SB 2747 to increase the liability insurance requirement for air tour operators to \$20 million per person per incident. Notably, this amendment was not informed by committee-conducted studies or assessments, but rather prompted by the recommendation of a single testimony. It is crucial to highlight that this testimony does not represent the views of the general aviation industry in Hawai'i.

"Mr. Speaker, I'm very concerned about the consequence this version will have, raising the liability insurance requirement from \$1 million to \$20 million. And I am sure that many operators are not aware of the sudden change, because the amount of testimonies we see, from what I saw, were very few. Thank you."

Representative Nakamura rose to speak in support of the measure with reservations, stating:

"With reservations. Just wanted to adopt the words of the majority floor leader as if they were my own. And also wanted to add that, for a bill that is involved with aircraft and helicopters, that both the Department of Transportation and the attorney general did not weigh in on this bill. Thank you," and the Chair "so ordered." (By reference only.)

Representative Ward rose in opposition to the measure and asked that the remarks of Representative Morikawa be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Garcia rose in opposition to the measure and asked that the remarks of Representative Morikawa be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Amato rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Kila rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. Reservations, please, and brief comment. There are concerns about the measure before us because at the beginning of its conception, \$1 million was the first number. There was no issue with some of the number being proposed, because every operator was able to provide coverage and even has coverage as such. The bill's intent is around a 2019 accident in Kailua, but as the measure sits before us now, as previous speakers have mentioned, \$20 million is only applicable and obtainable by one operator.

"I'm concerned that measures like this benefit one single person and operating group, and that will hurt the small operators of helicopters. And I would like to add, the FAA has the exclusive authority to regulate aircraft safety generally. And based on this authority, the FAA has the exclusive jurisdiction to establish this. So as a result, the bill is federally preempted. So, reservations."

Representative Matsumoto rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Pierick rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Alcos rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Kapela rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Cochran rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2747, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO AIRCRAFT," passed Third Reading by a vote of 40 ayes to 9 noes, with Representatives Amato, Kila, Morikawa, and Nakamura voting aye with reservations, with Representatives Alcos, Cochran, Evslin, Garcia, Kapela, Matsumoto, Miyake, Pierick, and Ward voting no, and with Representatives Kitagawa and Souza being excused.

Representative Hussey-Burdick rose to speak in opposition to the measure, stating:

"Thank you. No vote, brief comment. There's a growing body of scientific literature that demonstrates how seawalls and shoreline hardening negatively impact nearby beaches. This is one of many reasons why the Legislature codified HRS Chapter 171-53 in 1962, requiring the Legislature to approve any lease of state submerged lands via concurrent resolution like these. The text of these resolutions, this resolution and the following five, almost urge the Legislature not to pass it. It warns of rising sea levels and states, I quote, 'the practice of issuing easements to private landowners for state submerged lands on a case-by-case basis is not prudent as a long-term strategy when considered in relation to the public trust doctrine and in the context of planning for landscape-scale adaptation and retreat.'"

Representative Amato rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Hussey-Burdick rose to speak in opposition to the measure, stating:

"No vote, brief comment. I understand that this resolution is a little bit different. It deals with an apartment building that houses a lot of people, some local residents, some not. But the underlying point remains the same. These are private property owners. This is a public trust resource. If the ocean is encroaching on a private property, no matter how big or small, we need to recognize that as a wasted asset and retreat and move inward and realize that we cannot keep building shoreline homes at a cost of millions of dollars and expect that people can continue to live there. Thank you."

Representative Perruso rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Kapela rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Belatti rose to speak in support of the measure, stating:

"Mr. Speaker, in support for this measure and the previous measures related to the term leases. Brief comment in support. I understand the issues being raised by our colleague from Kailua. But I also appreciate that these resolutions have been amended with a shorter lease term, and that there is a promise and an expectation that we will confront these issues being presented by these resolutions in legislative sessions to come. Because truly, managed retreat in addressing our shoreline is a critical issue that we have to face for our generation. Thank you, Mr. Speaker."

Representative Cochran rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Also in support. And I think I stated previously that I am definitely not a fan of seawalls. This is something that has been exacerbated, it has already a domino effect. And it will be detrimental if they cannot continue to maintain and do improvements upon this existing wall, which had started because of the harbor that the state had built many, many years ago. So, there is a clear delineation on when you do not put a wall versus having a wall in this particular shoreline. And the part where they force the landowner to manage retreat, the land itself has eroded just pure dirt into the ocean there because of lack of seawall and existing seawalls around it. So, this definitely needs to happen. And I concur with previous testimony here and I am in very strong support because it's very needed. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.C.R. No. 14, HD 2, entitled: "HOUSE CONCURRENT RESOLUTION AUTHORIZING THE ISSUANCE OF A TERM, NON-EXCLUSIVE EASEMENT COVERING A PORTION OF

"Thank you, Mr. Speaker. In opposition, brief comment. I would like to insert the comments that I made for HCR 10, and also note that there are at least three private beachfront properties that benefit from this resolution, each valued between \$4 million and \$5 million. I have taken an oath to uphold the public trust, and as such, I have a fiduciary duty to oppose the passage of measures that would exclusively benefit private interests at the expense of our public trust beaches. It is time that the Legislature stops automatically approving seawalls and hardening to benefit wealthy private landowners at the cost of our public trust beaches. Thank you."

Representative Kapela rose in opposition to the measure and asked that the remarks of Representative Hussey-Burdick be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Belatti rose and asked that the Clerk record an aye vote with reservations for her on both measures, and the Chair "so ordered."

Representative Poepeo rose to speak in opposition to both measures, stating:

"No vote and a comment. In a nutshell, this resolution is directed at the County of Maui. It lists several whereas clauses speaking to the devastating effects of the fires, the cost of recovery. It comments on the mayor's recent proposed budget. It opines on certain things that should be included or omitted from the budget. And in the be it resolved, it urges the County of Maui to pass a fiscally prudent budget specifically to maintain current staffing levels, except for increases mandated by the county charter or those critical to wildfire response.

"There is a particular whereas clause that for me is problematic and could be interpreted, in my opinion, as contradictory to the be it resolved clause. The ninth whereas clause calls out two things that I am very protective of and two things very important and directly impacting to my district. This clause mentions that the mayor's budget includes funding for the Department of 'Oiwi Resources and funding for the East Maui Regional Community Board. And, as we know, East Maui is within a part of my district. And both of these are charter amendments.

"A little bit of history. The water authority was created to give East Maui residents a seat at the table when decisions are made regarding water resources in East Maui. For decades, East Maui streams were decimated, dewatered, and completely dried up. There was once a thriving commercial *kalo* export industry made up of generational and lineal Native Hawaiian families in East Maui, and that industry was killed when the water was diverted to grow sugar in the central plains. It took decades in court to get some of that water restored so that families could start their *lo'i* again. And that's some of the history behind why that board was created.

"The Department of 'Oiwi Resources was created to elevate and incorporate our culture and native worldviews and perspectives. Our cultural resources, arts, our language, our place names, our *'ike*, into the works and decisions of our county government. And that was another huge fought win and recognition for *kānaka* and culture in our government.

"So, I question why this clause is included at all considering the county is mandated to fund the charter. The Department of 'Oiwi Resources is required by charter to be active by July 1st, 2024. So, I think that potentially to not fund these items may put the county in violation of its own laws.

"I know that this is a resolution. But that message could be perceived as suggesting the county to not fund these important sections of the charter. And I've had numerous constituents reach out with great concern for this resolution. And at the end of the day, I'm here to represent my district and our people and our *'āina*. So, no vote. Thank you."

Representative Amato rose, stating:

"Thank you, Mr. Speaker. I would like to cancel my reservations and change my vote to no, please."

Representative Marten rose and asked that the Clerk record an aye vote with reservations for her on both measures, and the Chair "so ordered."

Representative Belatti rose, stating:

"Thank you. Based on the words of my colleague from Moloka'i as well as from Lahaina, I'd like to also change my reservations to a no vote. Thank you."

Representative Ganaden rose, stating:

"Same request."

Representative Ward rose to speak in opposition to both measures, stating:

"Mr. Speaker, no vote. And a brief comment on the comments. As I read this and I hear this, this is kind of like a hit piece to the Maui County vote of no confidence or we know better at the state than you do. I think it's rather offensive, I think it's out of bounds, the way that we've handled this. So,

strong no vote and in favor of every comment that has been made by the Maui reps."

Representative Garcia rose and asked that the Clerk record a no vote for him on both measures, and the Chair "so ordered."

Representative Marten rose to speak in support of the measure with reservations, stating:

"With reservation and brief comments. I really appreciate the version that's before us right now and I have no objection to that at all. My reservation is just for what might happen in conference. But I really appreciate the work that's been done and the willingness of the committees to let the counties proceed with their current ongoing adjustments to their own land use ordinances. Thank you."

Representative Hussey-Burdick rose to speak in opposition to the measure, stating:

"No vote, brief comment. I understand that the two most controversial provisions were removed in the only committee held by the House. But I also understand that any part of any previous version could potentially be revived in conference committee. I understand that the main argument in support of this bill is because we haven't built enough housing stock to house all of our people.

"But is that really true when we have such high vacancy rates? Some areas are as high as 25%. That means one out of every four units in those communities are sitting empty, while people who are born and raised here are sleeping in their cars on the street. How much more housing do we need to build in order to make these houses affordable?

"There's also been an assertion that one of the main reasons inflating the price of housing is because of our arduous permitting process. Let me correct the record. This bottleneck is not caused by our hard fought environmental and community protections. It's because most of our county permitting departments are disastrously underfunded, understaffed, and overworked. This bill is not going to fix that and would actually lead to a further backlog of permit requests from an unprecedented number of homeowners trying to suddenly subdivide their existing units.

"If this body was serious about reducing the cost of housing, we would require counties to adequately fund their permitting departments and impose a steep vacant homes tax to incentivize our existing units to go back on the market and bring prices down. I'm voting no on this bill because urban sprawl is not the answer to our housing crisis. Our urban roads, sewer

systems, and emergency facilities are not built to withstand three to six times higher density. My community is already feeling the impacts of overburdened sewer systems and roadway congestion. Thank you, Mr. Speaker. No vote."

"Thank you, Mr. Speaker. No vote for me with brief comment. Mr. Speaker, I really appreciate the hard work of the committee chairs on this bill and the amendments that they made. But I still have strong reservations about the potential that this bill will increase the price of residential homes and potential vacant land once it gets rezoned and make it more attractive to investors, not just people in Hawai'i, but also for people from outside of Hawai'i that are going to be coming to Hawai'i and bid up the price for land and residential homes. Thank you."

Assisted community treatment is basically something that's reserved for people who aren't able to make good decisions about their own health and safety and their impact on others as well. And we've seen that the public defenders always oppose these. They're not the people that are taking care of these patients and they're not the people that understand what is possible with medication and treatment. So, this would have healthcare providers that are experienced in this area make those decisions on behalf of the patients. And I think they are probably in a better position to do a good job. Thank you."

Representative Ganaden rose to speak in opposition to the measure, stating:

"I'm in opposition. This bill would remove the Office of the Public Defender from representing individuals whose body is being taken custody of by the state. Ordinarily, I absolutely agree with Office of the Public Defender. However, we're not replacing this representation with anything. We're not replacing them in statute with a qualified nonprofit such as the Legal Aid Society, any of the qualified nonprofits that operate throughout the state. For that reason, I am not in support. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition. We've just gone through a very serious emergency. And this particular measure says, hey, when we got an emergency, we've got to give the governor a mother-may-I of 14 days before the money is going to be released. I mean, that's counterintuitive to

the fact. When you have an emergency, time is of essence, time is of life, time is of keeping with what you're supposed to do in an emergency and that's make quick decisions, pay quickly with money, and not say..."

"Look, I respect everything that we have in the Constitution. We are the watchdogs. We are the ones that control the purse strings. But why we want to handcuff the governor for an emergency. Not handcuff, okay, that's a little bit extreme. Why do we want to delay release of money? We want to get everything, men, materials, women, assets, off the spot. I don't know of any other place that would have this. Because in the Constitution it says, the governor can move money around from the departments by the very right of he being the governor.

"Why do we want to do this? I don't know if somebody's got a sore bone about what happened in Maui or what happened with whatever, or it's because it's 2024 election. Why do we want to do this? I hope somebody stands up and says, Ward, you're wrong, and this is something that we really need because he's taken advantage of us.

"For those reasons, Mr. Speaker, why do we want to, after experiencing an emergency, lets prepare ourselves for one that's coming obviously somewhere down in the future. For those reasons, I would love to hear an explanation of the logic of this bill."

Representative Cochran rose to speak in support of the measure, stating:

"Thank you, and I'll respond to the representative from Hawai'i Kai. In support. There needs to be more accountability, open and transparency, especially with the moneys that have been brought down to Lahaina, specifically. I mean, nine months later, billions of dollars later, there still has not one house built. The people of Lahaina want to know, where is all the money? I continuously see people on the parks, in cars, on the streets, in the beaches, committing suicide all the time. It's just, yeah, we want to know that trickle down, where has every penny gone. Because a lot of it has not fell upon the people to better their situations at this time. So, I would like to see some accountability and reporting. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, also in continual opposition. And I agree with the good representative from Maui. Accountability, we have. But this bill is about timing. Give him the opportunity to get the money quickly. And it's got to be accountable. You're not going to get accountability by giving 14 days. It's just not going to happen. So, of course, we have to be accountable. But this is moving quickly to get the fire or whatever it is that's happening to done quickly, and the governor is the one who can do this. For those reasons, Mr. Speaker, it's common sense. Don't shackle the governor. Thank you."

"Thank you, Mr. Speaker. WR. The comments come from a lot of state entities and, I'm just like, where is the County of Maui involved, where are comments from Lahaina Strong, any nonprofits? Our hospitals need nurses, our schools need teachers. I understand this is going to move forward and hopefully incorporate all of these entities, so that's great. So, hence my WR in moving this conversation forward. Thank you."

Representative Belatti rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In support with strong reservations and brief comment. Mr. Speaker, I really want to express my thanks to the chairs of the Water & Land Committee, Judiciary & Hawaiian Affairs, and Finance Committee, because they did in fact amend this measure to really constrain the original request of DLNR to have unfettered ability to do direct

negotiations for public land leases. The source of my reservations comes largely because we know how fraught and political the process has been around public land leases.

"In fact, all of those chairs on those previous committees and myself served on a select committee where we were analyzing and looking at the auditor's analysis of the handling of public land leases. And we know it is fraught with political uncertainties. And so, based on that experience, as well as the testimony from two groups, the League of Women Voters and UNITE HERE, in the committee before Finance, I'd just like to express what their concerns are.

"The League of Women Voters opposes this version because, 'eliminating competition for public commercial and industrial leases on parcels up to 5 acres will encourage "pay-to-play" political campaign contributions by lessees who want a lease extension and potentially could politicize the selection of lessees.' The League of Women Voters go on to suggest further safeguards that we might consider in this process, if we're going to allow the direct negotiation for public land leases.

"UNITE HERE cautions us to say, and says in their testimony in comment, that 'we continue to encourage this Committee to consider whether or not it is in the public's interest or the State's interest for any public land to be leased without going through the procurement process.'

"So, for these reasons, and as this bill continues to move ahead, Mr. Speaker, I vote with strong reservations. Thank you."

Representative Cochran rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Amato rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 3207, SD 2, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill would allow, basically, the salary cap of the superintendent of the State of Hawai'i for the Department of Education to be removed. That salary cap currently is \$250,000, and I believe his pay at the moment is \$240,000. So, with the potential of his pay increasing by \$10,000, this bill would eliminate that to where it can go even higher and higher. When will it stop, \$300,000, \$400,000? That's a lot of money to go to the Department of Education superintendent.

"Let's compare that with the annual income of a teacher. It's nowhere near \$100,000. So, there's a big pay disparity between a teacher who's the boots on the ground with the children and the superintendent. So, I believe that we shouldn't be increasing the salary of the superintendent, especially with the ACT and SAT scores of Hawai'i being at a national average below many other states."

Representative Matayoshi rose to speak in support of the measure with reservations, stating:

"Reservations, brief comment. I do want to say, I think the superintendent is actually doing quite a good job right now. The reason I'm with reservations, even though I voted no in committee, is because I think we do need some version of this bill to go forward. Right now, the cap is \$250,000 but it's going to go back down to \$150,000 if the sunset clause remains in the current statute, and I don't think that the superintendent should be taking a \$90,000 cut. Again, I think he's doing a good job.

"Uncapped seems maybe a little too far, though. I would like to see some kind of cap in this. The cap in the original bill was set at \$350,000. That still seems a little high to me, but I've heard the Board of Education is doing a study on what should be the appropriate salary for a superintendent, given our district, given our state size, given his responsibilities. If we are going to raise the cap, I would like it raised to a number defined by data and by that study. So, I think we should be waiting for that study to come through before we raise the cap. But I do want this bill, again, to go through just to eliminate at least the sunset date on it. Thank you."

Representative Lamosao rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Woodson rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Excluding our superintendent's current salary, the average salary for superintendents for like school districts is \$379,000. Mr. Speaker, as it was mentioned, our superintendent currently makes \$240,000, which is the lowest in the group. However, if this proposal is not passed, there is a provisional sunset, which, as stated, would revert our superintendent's salary cap to \$150,000 annually.

"To me, Mr. Speaker, that just sends the wrong message. And what is to stop people from then saying that we should pay our administrators a fraction of a comparable salary, or our teachers a fraction of the current salary.

"And I want to speak to something that actually bothered me on the floor when this bill was considered previously in this chamber, because I think it was a direct attack on the superintendent. And someone stated that this particular superintendent has not done anything for the entirety of the system, that he has been ineffective. And that is just factually and empirically false.

"You can take a look at certain metrics. You could take a look at state-by-state comparisons. And when you do that, as an example, our fourth graders, their reading scores are in the top 10 in the nation. That is up from 39th in the country. From 39th to the top 10 under the leadership of this superintendent and his team, which would also be impacted by this bill. Our fourth-grade math scores have went from the bottom half to the top half. And I could draw other correlations as to how the superintendent, his team, the teachers, the administrators, all have worked together to improve preparedness for our students.

"And so, Mr. Speaker, I'm humbly requesting that the members do support this proposal. It is true, as it was mentioned, that this would allow the Board of Education to then set the salary of the superintendent. To me, that is appropriate. We allow the Board of Education to set standards. Standards dictate curriculum. Curriculum dictates preparedness. That is significantly more important than the superintendent's salary. And so, for these reasons and others, Mr. Speaker, I'm humbly asking my colleagues to please support this proposal. *Mahalo*."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition. Mr. Speaker, allow me to list 10 reasons why this bill should not pass, or that this bill will lock in the status quo, of which not too many of us are always proud of what we have in the State of Hawai'i.

"This is kind of like news flashes, December 7, 2023, DOE calls off \$500 million worth of construction projects after failing to meet timelines. Half a billion dollars, well, we didn't know what was going on. Number two, February 8, 2024, DOE, 11 public schools fire alarms don't work and at least a dozen more need repair. I mean, that's rocket science. You can't fix fire alarms. The point is, if you're the superintendent, the buck stops there, the Harry Truman. I know you've got other people who may be the ones who fall on their sword, but that's not the case.

"Number three, August 7, 2023, thousands of Hawai'i classrooms lack AC. The DOE won't say which ones. Teachers say they're frustrated by a lack of transparency about how many AC units need to be installed and where. Number four, July 25, 2023, newsflash, DOE to suspend school bus service to 14 campuses amid ongoing driver shortage. Number five, June 29, 2023, investigation finds DOE wasted millions of dollars on solar-powered AC systems. Number six, February 12, 2024, the Hawai'i

Department of Education is nowhere close to meeting its mandate to buy more local food. The DOE has also failed to deliver a required annual update to state lawmakers on its progress.

"Number seven, and this goes to the good chair's statistics, 2022 to 2023 school year, 52% proficiency in language arts, 40% proficiency in math, 40% proficiency in science. Third grade literacy, reading near or above third grade level, 78%. On time graduation, 85%. Going to college, just 50%. Chronically absent students, 15 days or more, 30%. Mr. Speaker, do we want to reward this? I don't think so. America is a meritocracy. If you do well, you get advancement *vis-à-vis* salary increases, *et cetera*. This is going to lock us into a status quo.

"Look, there's nothing personally wrong with the particular individual. He is doing well, we just got to do better as a state. Because it's not about him, it's about our *keiki* and about the state of the art of what we need with the brains that what we can do as a state in the middle of the Pacific that needs these people to be more educated than what we have today. For those reasons, Mr. Speaker. Let's not reward meritocracy."

Representative Todd rose to speak in support of the measure, stating:

"Thank you, in support. I'll be brief, but I would just note that if we were to look at articles about the Legislature, we'd probably find a lot of reasons to cut our own salaries. It's not a good justification, just by looking at headlines to make these determinations.

"And that actually supports my argument for why we should have an uncapped salary figure, which is that an inherently political body, like the Legislature, should not be making these decisions. We don't make decisions on our own salaries. We don't set the salary for the governor or department heads, which are the most similar jobs to being the superintendent. We have a salary commission that is specifically designed to be an apolitical body to make those recommendations to us, and not the other way around. I think we can rely on the Board of Education, which is a non-elected body, to be that impartial, when necessary, to set a number that they believe is appropriate.

"And I would just note that while \$250,000 definitely is a lot of money and sounds like a lot of money, relative to a two-plus billion-dollar budget, if you were to look in the private sector, that is a very minuscule amount. And if we were to compare it to teacher pay, my wife is a teacher, in full disclosure. If you look at that as a multiplier, the average teacher is making about a quarter, give or take, of what the superintendent makes. If you look at any private sector industry and you compare CEO pay to an average employee, that number is astronomically higher. I think that's a very reasonable figure. I think we can rely on the board to make that determination.

"And we should also note that anything we set in effect does not apply specifically to this superintendent but to that position in general and would affect future superintendents as well. So, using job performance, positive or negative, for a current superintendent to make this determination is not appropriate in my mind. Thank you."

Representative Perruso rose to speak in opposition to the measure, stating:

"In opposition with a brief comment. I want to thank the chair of Education for his work on this measure. And I recognize the situation that has brought us here. I continue to be opposed to this particular approach to the problem, in part specifically because I lack the kind of confidence that my colleague has in the Board of Education. So, because our Board of Education is no longer elected, they are buffered from public sentiment, they are not accountable to the public, they're appointed by the governor. And I think that it's really important that the Legislature maintain a relationship and a negotiating role in the salary of the superintendent. Because I think that we direct significant funds to the Department of Education, and I think that it is our role and responsibility to be engaged in the determination of his or her salary. Thank you."

Representative Quinlan rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. And I'd like to adopt the words of the chair of the Education Committee, as well as the chair of the Transportation Committee, as my own."

Representative Kila rose to speak in support of the measure with reservations, stating:

"Reservations, brief comment. I will say, as a former bus driver, I do applaud the new superintendent's way to solve some of the issues that they've inherited."

Representative Garcia rose in opposition to the measure and asked that the remarks of Representative Ward be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Gates rose in support of the measure with reservations and asked that the remarks of Representative Todd be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Ward rose to respond, stating:

"Mr. Speaker, second time in opposition. Let me be very clear, it's not about money. This bill is not about money, this bill is about performance. I mean, I would pay \$500,000, \$750,000 to the superintendent if it puts us up in the top one, or two, or three in the nation. That our kids are the smartest, they all go to MIT or Harvard or wherever. It's not about money. Look, we've got money to pay this stuff. I mean, that's nickel and diming. The argument about money is not the issue. The issue is performance and getting us all uplifted in math, science, and all the other things that we need. To me, this is the issue. We're arguing dollars and cents, it doesn't make sense. It's about performance. That's what we need in the DOE. Thank you."

Representative Chun rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Martinez rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

At 2:00 p.m., Representative Nakamura requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 2:01 p.m.

Representative Pierick rose to respond, stating:

"In opposition for the second time. Thank you. It was discussed earlier about how the salary commission sets the salary for legislators, and the Board of Education would then, in this bill, set the salary for the superintendent. Allow me to just bring light to who gets to be those people on the salary commission and the Board of Education. To be a member of the Board of Education, the governor would select somebody, and then that person needs to be confirmed by the Senate. So, in other words, if you're a friend of the governor and you do well enough in the Senate, win the committees, you become a member of the Board of Education. And then one of those members can get selected to become the superintendent.

"So, we have a part to say in all of this process of what their salary is, because we're voting on this measure to cap their salary or not. And then our colleagues in the Senate, they get a say--"

Representative Ganaden rose to a point of order, stating:

"Point of order, Mr. Speaker. Friend of the governor sort of implies an ethical distinction that I think should be stricken from the record."

At 2:02 p.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 2:03 p.m.

Representative Pierick continued, stating:

"Thank you, Mr. Speaker. So, we've just defined how you get appointed to the Board of Education, how they select the superintendent, and how that pay is unfolded. With regards to the salary commission, we as members of the House of Representatives, we do have a part to play in that. And according to this document, two members of the salary commission shall be appointed by the governor, two members shall be appointed by the president of the Senate, two members shall be appointed by the speaker of the House of Representatives. We all select the speaker of the House, so we have a part to say in that. And one member shall be appointed by the chief justice of the Supreme Court. We decide the salary of the chief justice of the Supreme Court. We very much, as representatives, have a part to play in the salary

commission and the Board of Education, and so, we should vote no on this bill to not let the salary of the superintendent exceed \$250,000.

"If I'm a worker and I'm working hard and my part of my income gets taken out into the state budget, into the line item for the Department of Education. If I'm only making \$70,000 a year and I know that \$16,000 of my taxes, maybe not mine specifically, but that line item of like \$2.1 billion in the Department of Education is going towards an exorbitant salary of the superintendent, I don't think most of the Hawai'i residents would support that. So, I'm voting no."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3207, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO EDUCATION," passed Third Reading by a vote of 37 ayes to 12 noes, with Representatives Chun, Gates, Kila, Lamosao, Martinez, and Matayoshi voting aye with reservations, with Representatives Aiu, Alcos, Amato, Garcia, Hussey-Burdick, Kapela, Matsumoto, Perruso, Pierick, Poepoe, Tam, and Ward voting no, and with Representatives Kitagawa and Souza being excused.

Representative Gates rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ganaden rose to speak in support of the measure, stating:

"In support, Mr. Speaker. I'll try to be brief. The Department of Health actually testified on this, on what I thought was a criminal justice bill. I'm going to read just a brief portion. 'Despite Hawaii's favorable climate, geography, and reputation for active outdoor living, only 24.8% of Hawaii residents met federal guidelines for physical activity.' They go on to say, 'jaywalking laws are ineffective at producing roadway safety results, but also accentuate places which are hostile to walking. Removing jaywalking penalties has not been found to increase adverse public safety outcomes. Initial data from localities where decriminalization of jaywalking was implemented show that there has been little to no change in the number of traffic injuries and fatalities. In addition, cities with the lowest traffic death rates do not have jaywalking laws.'"

"I'm hoping members consider some of the places where we like to go visit and vacation, some of the finest cities in the world, and the way they use their roads. I think we should free our minds from the shackles of American normativity regarding roads and know that roads are for everybody, and that they're meant to be free. How's the song go? Like, this ain't Texas. I don't want Hawai'i to be one of the places in America where we just keep building more roads and keep dedicating ourselves to further lanes, and unnecessary vehicular traffic. Yeah, I think we should all just be able to go for a walk."

Representative Alcos rose to speak in opposition to the measure, stating:

"Oppose. We build streets to make our kids safe, our family safe. Many crosswalks we invested in. And in our districts, we see people still getting banged or getting hurt, even with the crossroad and all the moneys that we invest to. This is about keeping our family safe. I understand that other countries don't have that, but this is a good idea that we make a stop sign or a crossway or some place for be safe for our kids, our families, and even for drivers and be aware of who's crossing the road, where is that main intersection at? This is going backwards to me. I feel that safety should be our number one concern to save our family's life. Therefore, I'm against this bill. Thank you."

Representative Kong rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I would like to correct the representative from Hawai'i Kai, because Maui would not appreciate this

bill. It is very street specific in the code. But as far as O'ahu is concerned, it's interesting to note that we can jaywalk in a residential area as long as we're 200 feet from a crosswalk or intersection. But it is not allowable to jaywalk in a business district or where there's high traffic volume. So that's the problem. This bill only addresses the high traffic volume and business district, because you can actually jaywalk in the residential. So, we have to make a decision, is it safe to cross the street? Thank you."

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. First, I'd like to adopt the words of the representative from Kalihi as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Kapela continued, stating:

"Second, I would just like to make mention that my district is 108 miles long. And within my entire district, I don't have a single sidewalk and I have very few crosswalks. It is about safety. And we want to make sure that, I think first off, we should be putting more equitable money towards communities that don't have access to some of these most basic things like sidewalks and crosswalks. And then second, I think we also need to ensure that if we don't have those, if we don't have access to those things, we need to make sure that we're not ticketing those community members because they don't have a crosswalk that was provided to them in order to cross. Thank you."

Representative Kong rose to respond, stating:

"Second time, opposition. On the Big Island and Kaua'i, it is permissible to jaywalk, there is no ordinance. It all comes from your city traffic codes listed within each district or each county. Thank you."

Representative Ward rose to respond, stating:

"Second time, Mr. Speaker. I want to withdraw the comment about Maui, given the gentleman saying that Maui is not for this kind of a situation. But I would suggest this, Mr. Speaker, if we could hone this down and refine it to be applicable to any county less than 500,000, I think it would make a lot of sense. Again, as I said earlier, if I was on the Big Island, I would say this is spot on.

"But let me speak for my constituency in Hawai'i Kai. Kalama Valley, since its beginning with Henry Kaiser, has never had one crosswalk, and right now they're jaywalking from the Kalama Valley District Park to get into their mother and father's cars across the street. We don't have a way of doing that, and they're jaywalking, and they are frightened about their kids getting killed. The analogy is, Hanauma Bay is the most beautiful place to snorkel, but it's the most dangerous place for drowning. And those are the numbers.

"The point is, Mr. Speaker, this is a bill that sounds intuitively fun, but in terms of actuality, it could point to a lot of dangers. And why do we want to jeopardize the citizens and the people of Hawai'i? When we get to the marijuana bill, I'll say the same thing, why do we want to jeopardize the people by saying, go ahead and go ahead and do this without precaution. For those reasons, Mr. Speaker, this belongs in an urban area, maybe not in the neighbor islands, but if there's not a bill that is amended to that effect, I think everybody should vote no on this. Thank you."

Representative Pierick rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2630, SD 1, HD 2, entitled: "A BILL FOR AN ACT RELATING TO PEDESTRIANS," passed Third Reading by a vote of 35 ayes to 15 noes, with Representatives Chun, Gates, La Chica, and Poepoe voting aye with reservations, with Representatives Aiu, Alcos, Garcia, Garrett, Holt, Kila, Kong, Lamosao, Matayoshi, Matsumoto, Miyake, Pierick, Sayama, Tam, and Ward voting no, and with Representative Souza being excused.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 3289, SD 1, HD 1 pass Second Reading and be placed on the calendar for Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in support of the measure, stating:

"In support. This bill will help local family-owned businesses. And it will basically be a measure that can help prevent locally-owned businesses from having to sell their businesses, potentially out to the mainland. So, I'm in support of this."

Representative Kobayashi rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. I didn't vote no in committee, but after some thinking, I've decided that this bill puts you on the side of either for the people or for the very wealthy. And by very wealthy, I mean couples that have an estate exceeding \$11 million, which are very, very few.

"The main reason I am voting no is that, while we give some very wealthy people a tax break, we will not get anything in return. Supposedly, this money that would go to the tax break could be used to reinvest in the business, or it could be used to fatten the pockets of those involved. If it's reinvested in the business, it could result in more tax revenue or it could not,

because not every business expansion succeeds. And hence, jobs would not be created, income tax would not be created. Nor do we have any assurance that these businesses would be more generous in their donations to nonprofits. So, nowhere along the line are we guaranteed that we will get, we, that is the State of Hawai'i government or the community, will get anything in return.

"In addition, of course, if this goes through, it would increase the taxes of everyone else, the so-called average people who do not qualify for \$11 million estate tax. The other problem with this bill is that it doesn't solve the federal problem. We have a federal estate tax, which is essentially double in size that of our state income tax. So, these businesses who are wanting to solve their estate tax problem on the backs of state taxpayers will still have the same problem with the federal government and be in jeopardy of having to do some drastic moves in estate planning or buying more life insurance to protect their current assets as they get transferred from one generation to the other.

"So, for these reasons, I've decided that I'm a no on this and urge that people consider are you for the people or are you for those couples who qualify for an \$11 million estate tax? Thank you."

Representative Ward rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm in strong support. And admitting that this body is always weak in macro and microeconomics, because what the good speaker from Diamond Head forgot to mention is that this is all about the L&L Drive-Inn, it's about Zippy's, it's about one of the testifiers in the Finance Committee from Servco Pacific. Do you want these businesses to be passed on to their kids, or you want them to have the big box mainland guys to take over? This class warfare stuff just doesn't make sense. The big rich. I asked the actual owner of Servco Pacific, I said, how many employees you got? He says, I hire 1,000 people. I mean, that feeds a lot of people, puts a roof over the head of a lot of people.

"So, do we wonder why we're 50th in the nation for unfriendliness to the business, it's because of people who've misinterpreted what this is to perpetuate the L&L, the Zippy's, and the Servco Pacific. So, their families, we talk about we want people to stay in Hawai'i, well, let's keep our businesses in Hawai'i because they're going to be bought out or they're going to be taken over by mainland firms. It's common sense. Don't say who's for the people. Who's for the people who work for our businesses, because our businesses need help also, not just people who are not business people. And this class warfare stuff is just a lot of hate mongering. Thank you, Mr. Speaker."

Representative Kapela rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. This bill is a tax cut for the extreme wealthy in our state. It's not about small businesses, because if it really was about small businesses, we would have been supporting them more. This is about a huge tax cut for literally the 0.2% of Hawai'i's wealthiest families. An estate tax is intended in part to help avoid extreme concentrations of wealth sustained across generations. That's what an estate tax is.

"We would be losing \$43 million from our state budget if this is allowed to pass. So, let's talk about what we could pass if we didn't remove \$43 million from our budget, especially after we've told department heads that they should be preparing for potential cuts to their own budgets. These are potential cuts to the Department of Education, potential cuts to families in extreme need.

"So, this is what we could fund if we don't cut this \$43 million. We could ensure that every public school student has access to breakfast and lunch, that's \$23 million. We could have prevented 2,500 evictions each year with a rent relief and mediation program, that's \$13 million. We could have provided \$325 per child for a child tax credit for 176,000 children in low-income families, that would have been \$42 million. There are thousands of things that we could have spent this money on and that we can spend this money on if we don't allow the extreme wealthy to once again get another tax break. Thank you."

Representative Ganaden rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Evslin rose to speak in opposition to the measure, stating:

"In opposition with a brief comment, please. Thank you, Mr. Speaker. I largely agree with the words of the representative from Hawai'i Kai and the need to support small businesses in Hawai'i. My concern with this bill is that this goes further than the House bill, which would have done exactly that, and provides a broad avenue to get out of the estate tax for wealthy families. And so, I will continue to support the House bill if that comes out of conference, but I won't be supporting this bill. Thank you."

Representative Hussey-Burdick rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Marten rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 3126, SD 1, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise with reservations on 1790 with a brief comment. Again, if I was a neighbor island, I would say this is the best thing since sliced bread. We've got to have helicopter support for our sick and emergencies. The only problem with this, instead of having it in the private sector, who knows how to run a private business, this is going to be run by the Department of Health airlines. Mr. Speaker, government running an airline is, if it's a last resort, fine. If it's not from the private sector, I think we're making a big mistake. And I don't want to cite what's going on with the \$12 billion Skyline and how we can't even run a 20-year rail, I know that's not relevant, but it's the government that's doing that. That's the problem. HART is the one who's running the rail. You don't agree with that."

The Chair addressed Representative Ward, stating:

"Please confine your remarks, Representative Ward, to this measure."

Representative Ward continued, stating:

"My remarks are, if you're government, you're not entrepreneurial, you're kind of bureaucratic, and you don't know how to run an airline. Airlines are having enough problem in the private sector as it is. We know what Alaska Airlines had happen, we know what Boeing is going through. We know there's been problems at our airport making it look other than a third world country."

"Government is not the best people to run market-oriented issues. It's better that we have, look, I'm for the bill, I only said reservation, I'm for the bill. We've got to have support for our injured that are not within a vicinity of an ambulance getting there. But to have the airline run by the government, I think we're running into a big bottomless pit, quite frankly. Thank you."

Representative Todd rose to speak in support of the measure, stating:

"In support. This is my brother's bill, so I figured I should stand up on this one. I just wanted to clarify, and I know I say that a lot, but this would not be an airline. This is to provide emergency aeromedical services. Basically, if you have a massive heart attack or massive trauma and the neighbor islands do not have the hospitals or emergency rooms that can adequately care for you and you need transport to Honolulu, where the best medical centers are, then this would help to fund that. It would be a cooperation between the counties, who would administer this, and the state, who would help subsidize."

"The counties, particularly Hawai'i County, have done an excellent job in trying to procure state-of-the-art aeromedical services. We had a private anonymous donor on the West Hawai'i side who gave millions of dollars to this purpose. And there is going to be a new helicopter, state of the art, delivered to the Big Island sometime in 2025. The problem is, to adequately provide that service, to be on call 24/7 to deal with medical emergencies, you need to be able to fund that. And the counties are not capable of doing that on their own. If they receive assistance from the state, it would allow them to expand those services to literally save lives."

"And we would now have a fleet set up that could respond to major emergencies within the state, like a major wildfire. Right now, the counties themselves do not have the capacity to fight large fires of that nature, and we cannot rely on other states. If you have a major fire on the West Coast, other states respond. We don't have that luxury here. So, this would go a long way."

"I understand that this year is difficult financially. But fortunately, that need is not immediate. This would be growing over time as these helicopters get delivered and purchased. It will literally save lives. I personally know multiple people in my life who have passed away or been severely harmed because they cannot receive those adequate services, even in Hilo, where we have an excellent hospital. And Hilo is fortunate in that capacity, relative to much of the other parts of the state."

"If you have a major heart attack, literally every minute before you receive those lifesaving services, your heart gets worse and can get permanently damaged. Without being able to respond, it will really lead to negative outcomes. But also, because you're really relying on the current system, which may have one helicopter that's capable of taking you, if that helicopter is already transporting someone, you're there waiting for the next helicopter. Oftentimes that wait can be more than 12 hours, at which point you have passed away or you have lifelong complications."

"And then beyond that, I would just note that, there has been testimony received from the city & county, and they would like this to potentially be expanded to rural O'ahu, where they have some of these same challenges with traffic concerns, particularly if there's an accident on the highway where ambulances can take a very long time to respond and get back into Honolulu. So, I would like to see this expanded over time, particularly where it was noted on the North Shore. Thank you."

Representative Morikawa rose in support of the measure and asked that the remarks of Representative Todd be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Kahaloa rose to speak in support of the measure, stating:

"Also in support. I would like to also adopt the words of the chair of Transportation with one clarification. The introducer of the bill is not my brother, but he is the fire chief of our county, and I think that's really important. And what we experienced on our island is the need for this donation of the helicopter that can travel between islands. We had a community leader who had a health incident at a conference for health care in front of nearly 400 people. And it took him almost seven or eight hours to get medevacked to Kapiolani. And we know, if you have a stroke or a heart attack, every minute, every hour counts. Thank you."

Representative Morikawa rose to respond, stating:

"Mr. Speaker, just to clarify, in support. The fire chief is not my brother also. But I also want to make one more point. The cost for neighbor island patients to come to a hospital here in O'ahu is humongous. Many of us can't afford to pay it. Many of the people who are the ones that need it are Medicaid or perhaps don't even have coverage, so they're stuck with a \$100,000 bill, it could go that high. So, I think this is a very important conversation that is going to be good for all neighbor islands. Thank you."

Representative Ilagan rose to speak in support of the measure, stating:

"Mr. Speaker, I stand in support. I would also like to share a story in my district that a young girl fell out off Maku'u cliff. And if this helicopter was available, her life would have been saved. This happened a month ago. And just to give you an understanding of the need for this helicopter, if there was any way to launch a boat to save that girl's life, they would have to go to Hilo to launch the boat. The Pohoiki Boat Ramp is not available to launch the boats. You could also launch the boat on Ka'u. The size and the distance, because Big Island is 4028 square miles, just from Hilo to Ka'u is the same shoreline of O'ahu. So, imagine not even being able to access and save that girl's life because we don't have the needed equipment and infrastructure to do so. So, I stand here in support, and I wish that we could have saved that girl's life and have that equipment there now. Thank you."

Representative Evslin rose to speak in support of the measure, stating:

"In support with brief comment. I wouldn't be here today if not for the services of emergency medical transport like this. If the helicopter that transported me in 2010 were not available that day, I would not have had any way out of a remote part of the island of Moloka'i. So, I am in strong support. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3126, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO EMERGENCY AEROMEDICAL SERVICES," passed Third Reading by a vote of 49 ayes to 1 no, with Representative Ward voting aye with reservations, with Representative Pierick voting no, and with Representative Souza being excused.

"Thank you, in opposition. This measure would take \$750 of our tax money and go to the purchaser of a bicycle, electric bike. So, we're using the state tax dollar money to fund the purchases of bicycles. I think if people want to buy a bike, that's their choice. If people want to buy a car, that's their choice. We shouldn't be incentivizing people to buy bicycles. Let the private sector govern themselves by them purchasing what they want and not letting

people that are working hard and having sometimes 30% of their income taken away from them, put in the state budget, and then reallocated to people who are buying bicycles. So, I'm voting no."

"Mr. Speaker, reservations, brief comment. In the Finance Committee, there was a question posed to the PUC to ask them to further explore the impact that this could potentially have on ratepayers, and they did confirm that this could have a concerned impact to ratepayers. So, until the discussion is finalized to get a greater perspective of the impact, I will be voting with reservations."

Representative Garcia rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Lowen rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Lowen's written remarks are as follows:

"The purpose of this measure is to add 'resilience' as a metric to be considered by the Public Utilities Commission in their decision making alongside reliability. An earlier draft of this bill also mandated the implementation of section HRS section 269-142, by changing language from 'may' to 'shall' regarding whether the PUC should contract for someone to oversee reliability concerns (A HERA administrator). The section giving the PUC the option to establish a Hawai'i electric reliability administrator (and to implement fees to fund this) has been in statute for more than a decade. In the EEP committee hearing this language was changed from 'shall' back to 'may.'"

"When the PUC was questioned on the bill in the finance committee, but when they said that costs could be increased, they were referring to what would happen if the HERA statute is implemented and the surcharge is added. I think this misled committee members, understandably, into thinking that this bill would mandate the HERA. It does not—not the current draft in any case. And, whether or not this bill to add consideration of resilience passes, it changes nothing about the already existing authority that the PUC has to implement HERA and the surcharge, should they choose to do so.

"The parts of this bill to add resilience consideration, which is essentially the only substantive changes in this draft, would not increase electric bills."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2505, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE PUBLIC UTILITIES COMMISSION," passed Third Reading by a vote of 49 ayes to 1 no, with Representatives Garcia, Kila, and Poepe voting aye with reservations, with Representative Amato voting no, and with Representative Souza being excused.

Representative Poepe rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Hussey-Burdick rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Onishi rose to speak in support of the measure with reservations, stating:

"With reservations and short comment. So, this bill calls for the exploration of geothermal resources throughout the state. As we know, the development of geothermal, especially on the island of Hawai'i, has been met with opposition and concern by many in the district that geothermal

resources are currently being utilized. I think this bill puts the cart before the horse, because we don't know where communities would be willing to accept geothermal development. This bill asks that both be done simultaneously.

"I think geothermal exploration takes millions and millions of dollars to figure out whether or not those geothermal resources would be adequate in order to be productive. I would rather see this bill be changed into a bill that would explore whether or not communities in Hawai'i would be accepting of geothermal development within their community, before we start spending millions of dollars on exploration. Thank you, Mr. Speaker."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, in support. Mr. Speaker, I would make very clear that the ratepayers are so much opposed to being the highest paid electricity in the nation, \$0.40 to \$0.45 per kilowatt hour, that is the bigger concern. Is this going to give us the least expensive way of doing it? And we know from the Big Island that it is, and it can become cheaper. Last night I had a beer summit, the chair of the Public Utilities Commission, Mr. Asuncion, was there. And he said, we've got to get a better grid, but we also have to think of better ways of wheeling, *et cetera*, to be able to put the price of electricity down. He knows it's expensive. But he also knows there are different ways that we can do this. And this is one of the ways, one of the options, it doesn't say that it's going to be in your community. I said, is there any geothermal in Hawai'i Kai and he said, we don't know yet.

"But I think we've learned enough to do it properly from what we've done on the Big Island. We know that that's probably one of the least expensive kilowatt hours of electricity. And people are, just in the last couple of years, the rates have gone sky high. And now we've just passed a bill that says there's going to be another 5% surcharge, which probably is correct because Maui can't absorb all the same thing, and I know there were a lot of reservations. But somebody has got to pay for what happened on Maui.

"So the point is, Mr. Speaker, we have to seek ways to lower the cost of electricity. This is one of the ways to do it, and I think this is a way to pursue it. It doesn't say it's going to happen, but it says let's do the explorations and see if it's feasible. Thank you."

Representative Lowen rose to respond, stating:

"Thank you, Mr. Speaker. In a historic first, I agree with almost everything the representative from Hawai'i Kai said. And I would just say, as we move forward adopting renewable energy, and there's still a lot more space on the grid to adopt more of those variable renewable resources. But there will be a need for firm resources, and the things that we can count as renewable, biodiesel, biofuel, biomass, potentially LNG, which we don't use here at all now but could be considered, are, one, not great replacements for fossil fuel because they still have relatively high carbon footprints. And two, they're not cheaper.

"So, what we really should be doing as we move forward is really double down on trying to figure out where we can do more geothermal and use our local resource. And the other advantage of that is that it is a local resource. All those other things require imports. And even if we expand production of biofuels in state, it's still going to always be a drop in the bucket. There will never be enough that we could be able to produce here with the land that we have and not having an economy of scale that would make it affordable or enough to cover the need. So, we'll still be relying on imports.

"And there is a huge need to make sure that we okay these projects with communities, but it's really a chicken and an egg situation. I think both need to move forward at the same time. And you need to figure out where the resources exist, and you need to talk to the community. So, I don't think you can really pick which one should happen first. That will just slow everything down. And we've already been way too slow, in my opinion, on moving forward on this."

Representative Onishi rose to respond, stating:

"Thank you, Mr. Speaker, second time. I agree that geothermal is potentially a game changer for the State of Hawai'i in terms of providing the least cost renewable energy. But even if they found geothermal resources that could be developed in Hawai'i Kai, I would be very hesitant to assume

that the people in Hawai'i Kai would be willing to have a geothermal plant built in the middle of their district. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2518, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO GEOTHERMAL ENERGY EXPLORATION," passed Third Reading by a vote of 48 ayes to 2 noes, with Representatives Hussey-Burdick, Onishi, and Poepoe voting aye with reservations, with Representatives Kapela and Perruso voting no, and with Representative Souza being excused.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 3010, SD 1, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Hussey-Burdick rose to speak in support of the measure with reservations, stating:

"Reservations, brief comment. Some of my constituents might be surprised to see an environmentalist express concerns about a bill to expedite the transition to renewable energy. However, our current definition of renewable is actually not very sustainable. It includes practices and procedures that actually expend more greenhouse gases than traditional fossil fuels. So, I would love to see the definition of renewable energy cleaned up to include some kind of sustainability element. And until then, I just have reservations about expediting things that could put us in a worse situation in terms of climate change than we already are. Thank you."

Representative Garcia rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3010, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO RENEWABLE ENERGY," passed Third Reading by a vote of 50 ayes, with Representatives Garcia and Hussey-Burdick voting aye with reservations, and with Representative Souza being excused.

Representative Yamashita, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1813-24) recommending that S.B. No. 2240, SD 2, HD 1 pass Third Reading.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2240, SD 2, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition. This bill, Senate Bill 2240, requires the Office of Elections to file an application with the Electronic Registration Information Center, also known as ERIC, Incorporated. This is a private, nonprofit organization. Currently, there are a bunch of states who are working with ERIC to clean up their voter rolls. But as of right now, there are a lot of states, more than 11 right now, which are withdrawing their association with ERIC due to security concerns.

"Mr. Speaker, the Office of Elections is funded and paid for by we the people, and we entrust the director, the Office of Elections to conduct elections as a way of protecting democracy, if you will. But this bill gives the power of the Office of Elections to a third-party nonprofit organization which raises so many red flags with security concerns, *et cetera*. However, it should be noted clearly that the Elections Commission itself voted

against this bill. They are in opposition to this bill. And the director of the Office of Elections, Scott Nago, says that though they hire and fire him, they advise him, he disagrees, they're against it, he's supporting it. I would trust the Elections Commission and their opposition to this bill. So, no vote."

Representative Tarnas rose to speak in support of the measure, stating:

"In support, thank you. I think this is a very useful bill because this Electronic Registration Information Center is a service that is offered to states to ensure that people are not registered to vote in more than one state. So, it does help to improve election integrity. I work with election officials through National Conference of State Legislatures in their elections special committee. And I have learned that election officials in red states and blue states have said that ERIC is a very useful tool.

"It has been others, that are not election officials, that have pressured some of the officials in certain states to pull out of ERIC. And I think unfortunately, they use information that is not accurate. And so, I try to base my recommendations on good evidence and best practices in other states. And I think ERIC is best practice in other states. It has gotten politicized. But I think if we look at the facts, it is useful, the security is good, and it prevents people from being registered in more than one state, which we don't want to have. So, I would urge members to support this. Thank you, Mr. Speaker."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. Why do we have an election commission? To figure out what's best to do for the elections. As the gentleman from Kapolei noted, the Elections Commission says, hey, this is not worth the ten-plus thousand dollars per year. I mean, this is not a freebie. This is a for-profit. I think I would correct it, it's an INC, which generally means for-profit, not a nonprofit. And the value added is on a downside. A lot of people in the Finance Committee hearing said, you mean you're going to give my age, social security, maybe birthdate? And the testifier said, yes. And they said, oh my god.

"We don't even now, when we go for reelection, when people sign our papers, they don't even have to put their Social Security number, except maybe the last two numbers, and they only put the year that they were born. So, we're going to turn this over to a national group. And they said the only value is when somebody moves out of the state, they'll say that you can't move. But the biggest problem is people who die and they're still on the list, which we have control over locally. So, the money that we need to do that better, i.e., clean the roles, is not joining some national organization, of which again, as earlier noted, 11 states says, hey, this is not worth the bang for the buck. So, Mr. Speaker, for all those reasons, why do we want to spend more money when there's no value added? That is absurd. Thank you."

Representative Cochran rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. And I'm also a no vote. I want to reiterate that the Elections Commission board did unanimously vote no for it, and it was only Director Nago that is in favor. And so, I'm clearly a no vote. Thank you so much."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2240, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO ELECTIONS," passed Third Reading by a vote of 40 ayes to 10 noes, with Representatives Aiu, Alcos, Cochran, Garcia, Gates, Kila, Kong, Matsumoto, Pierick, and Ward voting no, and with Representative Souza being excused.

Representative Hussey-Burdick rose to speak in support of the measure with reservations, stating:

"I have reservations about this bill and a brief comment. This bill just doesn't sit right with me. I debated for a long time whether I should vote no or with reservations, especially since there are some Native Hawaiian leaders who I deeply respect in strong support of this bill, and I really want to honor their wishes. But I feel like we're being presented with a false dichotomy here. As if the only two choices are this buyout or to let them die on the waitlist. I'm ashamed that our leaders have utterly failed over the last 60 years to provide enough homesteads to keep Hawaiians in Hawai'i. I'm ashamed that this is the choice that we're left with. I'm voting with reservations for now to keep this conversation going, but I think we all know that Hawaiians deserve better than this."

Representative Poepoe rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Kapela rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. At 1:07 p.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:18 p.m.

THIRD READING

S.B. No. 2706, SD 1, HD 1:

Representative Nakamura moved that S.B. No. 2706, SD 1, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"Thank you, in opposition. This bill would create a task force to look into expunging the records of criminals. When I knocked on a door specifically in Waipahu, in Harbor View, a gentleman, in replying to my question, what can I do for you if I get elected, he said, please decrease crime. Do you see that sign right there? He was pointing to some memorial in his front yard. He said a gentleman got shot in his front yard. So, imagine us, the representatives, we're creating a task force to expunge the criminal records of individuals, potentially in Waipahu. I don't think it's a measure that my constituents prefer. So, I'll be voting no."

The motion was put to vote by the Chair and carried, and S.B. No. 2706, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO EXPUNGEMENT OF CRIMINAL RECORDS," passed Third Reading by a vote of 47 ayes to 3 noes, with Representatives Garcia, Pierick, and Ward voting no, and with Representative Souza being excused.

S.B. No. 2347, HD 1:

Representative Nakamura moved that S.B. No. 2347, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Ganaden rose to speak in opposition to the measure, stating:

"No on SB 2347. Mr. Speaker, this has several issues with it. This is a bill that would turn three misdemeanors into a felony. This is, in my mind, kind of a throwback to the worst era of the, quote, unquote, tough on crime, mass incarceration bills from the '80s and '90s that led to a bunch of different issues. We've been moving, in the state, towards data collection and collaborative approaches towards criminal justice. This bill has none of those data points that we are ordinarily asking for.

"And I understand that we want to send a strong commitment to the public that we are against habitual violent misdemeanants. But this bill, if passed, would turn many of the trials that are currently held at the district court right across the street on Alakea into trials that are going to be held further down the street at circuit court, turning them into jury trials. I think folks who are on the fence about it should consider whether or not they want to serve on a jury trial for a misdemeanor offense.

"Ordinarily, these cases are handled very quickly. I think this could lead to a significant backlog of cases at all levels of courts throughout the State of Hawai'i. I'm going to be voting no."

Representative Amato rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and S.B. No. 2347, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CRIME," passed Third Reading by a vote of 45 ayes to 5 noes, with Representatives Amato, Ganaden, Hussey-Burdick, Kapela, and Perruso voting no, and with Representative Souza being excused.

S.B. No. 2487, SD 1, HD 1:

Representative Nakamura moved that S.B. No. 2487, SD 1, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Tarnas rose to speak in support of the measure, stating:

"In support, thank you. I'd like to take this opportunity to explain clearly what this bill does, because it was mischaracterized during the second reading, and so I just want to make it very clear. What this bill does is it decriminalizes if the possession of an ounce of cannabis or less. The possession of more than one ounce and less than two ounces is a petty misdemeanor. Possession of two ounces or more is a misdemeanor.

"We also added something to this bill, which we don't currently have in statute, which is to create an offense of smoking marijuana in a public place and adds a significant fine. Because I wanted to address some of the issues that have come up in the many debates that we've had on this floor about cannabis policy. And so, I think this is a very reasonable bill. Twenty-seven of the decriminalized and legalization states, they decriminalized an ounce or more. If you go into a dispensary for medical cannabis right now, on the price list, a standard amount that is sold is one ounce. One ounce is about 28g.

"The Department of Health just came out with rules for medical cannabis so the dispensaries could sell pre-rolls, which are basically joints of cannabis, and the standard amount in each pre-roll is one gram. So out of an ounce, you can produce 28 pre-rolls, 28 joints. A standard carton of cigarettes has 20 cigarettes in it, so less than two cartons of cigarettes is what we're talking about here, an ounce. So, it's not an unusual amount. It's basically about middle of the road when you look at all the states that have decriminalized, because some of them go up to three ounces. But I tried to be very reasonable here, so we're suggesting one ounce.

"So, I really urge members to support this. I think it's a reasonable approach. And I appreciate the opportunity to work on this cannabis reform for our House. Thank you."

Representative Kitagawa rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. Before I start, I'd like to define a couple of words from Merriam Webster's dictionary. The definition of decriminalize is to remove or reduce the criminal classification or status of something. A synonym is one of two or more words that have the same or nearly the same meaning. The synonym of decriminalize is to legalize, permit, or approve. This, in my opinion, is another way to legalize marijuana in our state.

"As I mentioned previously, this sends the wrong message to the public and our youth saying that pretty much marijuana use is okay up to one ounce, and that the fines in this bill are not high enough to deter anyone from marijuana use. I think the public is not fully aware of this bill and the negative implications that it could have. The public has been focused on the legalization of marijuana, and this bill, in my opinion, has been flying under the radar. I don't believe that the public knows that this is essentially a legalization of marijuana bill, per the definition that I had just mentioned. And for those reasons, I'm in opposition."

Representative Matayoshi rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I first want to apologize to the chair of JHA, I did mistakenly mischaracterize the bill last time. I had said it was two ounces, it is one ounce to decriminalize. And I also want to thank him for putting in the \$130 fine for smoking marijuana in a public place. I thought that was a really good step and something that really showed that he was listening to the other side as well.

"I am still, though, in opposition to this bill. For one, it's still federally illegal. I think that a lot of people's opinions may change if the federal government decides to take marijuana off of the schedule drug. But, until that time, I think our state should be comporting with federal law. The original version of this Senate bill would have changed the decriminalization amount from three grams to fifteen grams. So that was already a five-fold increase. This bill would change it to one ounce, which is a nine-fold increase. That is quite a large increase in the amount that would be decriminalized. And I think that that's just far too much for our state to bear at this time.

"The \$25 fine might as well not even be a fine. I mean, everyone knows it's a slap on the wrist. If you're carrying around an ounce of weed, you can afford a \$25 fine any time you may get caught. So, we're essentially, as the previous speaker said, legalizing possession of marijuana up to the one-ounce mark.

"There is mention of a two-ounce limit in here, though, and that's what had confused me before in my first reading of this bill. Which again, I apologize for. But the two-ounce mark is put in there for promotion of a

detrimental drug in the second degree. And the reason this is important is because this was not in the Senate version of the bill. This wasn't even in the House version of this bill that did not make it through the House. What this essentially does is, in addition to one ounce and below being decriminalized, it lowers the violation for if you're caught with possessing between two ounces and one ounce from a felony C to a misdemeanor. So, there is a practical impact of putting this two-ounce mark in this bill. If you are caught between one and two ounces, it is a reduction in the violation of the penalty that you will be facing. So, I think that's another significant portion of this bill that people are not necessarily paying attention to at this time.

"I do want to point out that the effective date, as we have discussed quite a bit in caucus, is upon approval. So, I do want to encourage those of you who are sitting on the fence with reservations, honestly, just go up or down, I think, at this point. The time has come. I don't think that we're going to see this bill again, there is a decent chance that the Senate just agrees to our version of the bill and it goes straight up to the governor. I respect everyone's decision and ability to make a decision, but at this point, I think if you're with reservations, you need to decide whether you are for this bill or against it. Because I don't think we're going to see this again, and I think it's fair for your communities to have everyone go either up or down on this bill. So, I encourage you all to just pick one.

"The AGs reached out to me recently about this bill. I did not talk to the Prosecutor's Office, but I will assume from Steve Alms' previous comments that he and his office is also against this bill. There are a number of large entities in opposition to this bill, so I want to encourage us to at least listen to them. Because this bill was amended in committee, they didn't get a true chance to take a look at the changes. And again, this two-ounce mark is not in any House version, it's not in the Senate version. I think that portion of it did not get a fair chance to get commented upon by the various entities that might have been interested as well.

"The last point I want to make is that medical marijuana is already legal. And we all know that, it's been that way for a while. Everyone who needs marijuana for a medical health reason already has it. What we're dealing with in this bill is we're decriminalizing marijuana from one ounce and below. And really, all we're targeting with this bill are people who want to smoke cannabis for recreation, for fun. We're not targeting those people who need it for some kind of medical condition. Those are a very sympathetic group that I actually agree with. I don't think that we should be passing this law to allow people who just want it for recreation to be decriminalized. Thank you."

Representative Gates rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. May I adopt the words of the JHA chair as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Gates continued, stating:

"With a comment. I think our communities have been asking us to address this longstanding issue. I think this bill is a step in the right direction to do that. One of the biggest concerns we hear from residents and the fear that is being spread by many in the opposition, is that cannabis will be used everywhere, anywhere, you'll be getting clouds blown in your face, and exaggerating what actually will happen if legalization were to take place. This bill will prevent that fear from ever materializing, because having regulations on the books to go after people using cannabis in public is something that we don't have. And so, with this bill, we'll be able to go after folks that decide to use cannabis recklessly in our community.

"Additionally, funding will be allocated to our police resources. And speaking with our police resources, they have blatantly said they don't go after cannabis offenses because it's such a low-level offense in their minds. What they're really going after, Mr. Speaker, is the meth epidemic that is currently taking place, that are putting people on our beaches. Or the prescription drug crisis that our entire nation faces right now, Mr. Speaker. Additionally, we know that fentanyl is also on the rise. And so, with additional funding as well as relaxing on going after cannabis, these law enforcement folks can really do their job and make our community safer by going after these more hardcore drugs.

"And as we know, cannabis is also a medical plant. As your chair of Agriculture & Food Systems, that's what we look at it as. And to deny our

communities and to even criminalize them reverts us back to the ways of old. And I think that we have to create the future for Hawai'i that we want to see. And I don't think any of us want to see members of our families or community being arrested and having records based on having cannabis and possession of it.

"I do appreciate the work that's being done to, again, address the nuisance being brought up. And I think that this bill is better than sitting on our hands and turning a blind eye to what's actually occurring in our community. I'll leave it off on the fact that we have to go back to the origins of why cannabis was prohibited in the first place, and it was very racist policies that I think we can no longer endorse. And I urge our colleagues to follow us as we create that path forward to right the wrongs and to take a stance against criminalizing a plant. Thank you, Mr. Speaker."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition. I think what we have here, Mr. Speaker, is de facto recreational legalization. De facto means an actual, but not legally in practice, it means it's actually the case as it is. Two reasons for that. Number one, we're allowing nine times the amount, three grams to one ounce, that's nine times. For the fine from \$130 to \$25, that's six times a decrease. So, in effect, hey, look, it's no big deal, it's cheaper than a parking ticket. This is not mine, but I want to show you the cheapest parking ticket in the City & County of Honolulu is \$35, meaning you can get a ticket for smoking marijuana that's only \$25 under this bill, Mr. Speaker. Have we become that lopsided, that smoking marijuana is different than having offenses with your car? I think we've reached an extreme absurdity.

"If it's de facto already legal, why do we want to do it more? I think, maybe it's an end run by those who want to do the legalization will just do it incrementally with bills like this. But I will note one other factor. And it's never mentioned except for one time by the gentleman from Diamond Head. We were mentioned the package or the carton of cigarettes or the package of cigarettes. One thing that we don't know, for those who are promoting marijuana, marijuana smoke has 20 times the carcinogenic content of cigarettes. All of this promotion of marijuana is promoting cancer, is promoting a lot of toxication into the lungs of our young people.

"Mr. Speaker, for those reasons, we're giving a legalization of recreational marijuana on a de facto basis by making it so cheap and so easily to be not disciplined that we've got legalization with this bill. For those reasons, Mr. Speaker, I hope everybody voted against legalization will do so. And lastly, I'd like the comments from the vice chair of Finance and the gentleman from Kāne'ohe put in the Journal as my own," and the Chair "so ordered." (By reference only.)

Representative Quinlan rose to speak in support of the measure with reservations, stating:

"With reservations, if I am allowed to do so in fact. Mr. Speaker, there has been a lot of fear mongering around this issue. And I really want to push back on some of the claims that have been made in the public and on the floor of this chamber. So many people have said, if we legalize marijuana or if we decriminalize, that the Japanese will stop coming, that we'll lose out on huge sections of our economy, that billions of dollars will just float away into the ether. Mr. Speaker, that is not the case. The Japanese did not stop going to New York, they did not stop going to California, they have not stopped going to any locations where they have legalized cannabis.

"However, there is a kernel of truth amongst the fear mongering. It is quite possible that if we don't pay special attention to Waikīkī as we embark on this path of legalization, that we could lose some tour groups, we could lose some school groups. Or they might say, hey, there's just much smoke, there's too much public smoking. And that's the component that I'm really worried about.

"So, a huge *mahalo* to the chair of the Judiciary Committee for inserting that fine on public smoking. Actually, I think it should be even higher. I think it should be \$500. And let's send a very strong message, not just to the people of Hawai'i, but also to our treasured travel partners in Japan, that we take this issue very, very seriously and we will not allow the public smoking of marijuana, of cannabis in Hawai'i."

Representative Alcos rose to speak in opposition to the measure, stating:

"Oppose. I lost my mom about five years ago, six years ago. She had a lot of lung issues due to smoking cigarette. My dad, four years before that, still smoking cigarette. I asked them, why did you guys take up smoking? My mom said she was stress, or a lot of people that taking up smoking, they just wanted to try it. And basically, it's an addiction that they got into and they get hard time letting it go. I lost my parents, they was kind of young, due to smoking.

"My son started smoking marijuana. Afraid that he might lose some time in his life to spend with his kids down the line. Vaping, a lot of people is smoking and vaping. It's going to short our life term from maybe our life term, maybe like say 75, now it's going to bring them down 10 years. Not only that, the addiction and the health problems that they have in medical. It's much more money that we spend on their medical bill trying to save our kids or our families, our dads, then the investments that we going to be collecting to help to pay for one road or help to collect tax in this certain reasons. But more money we're going to be spending out at the end. But in the front we can probably save some money. But at the end, if they get addiction to it, we're losing our families, we're breaking that apart. It's going to cost us more money.

"This money is just like you taking your money out, burning them, and it's not an investment. It's not something that it's going to help quality of life into your family, unless it's a medical situation. I could take that money and buy my kid a football shoes or put more food on the table as we struggling today. But we decide, just because they wanted to try it, they get hard time getting off of it, and they want that feeling that they're feeling, whether it's alcohol, whether it's cigarettes, whether it's marijuana.

"This is a drug that does not help our society to move forward. But what we thinking of is, well, let's collect the tax. It's going to make us money and we're going to pay more bills. It's a wrong way of thinking and I think this is wrong and I strongly oppose against that. Thank you."

Representative Takayama rose to speak in support of the measure, stating:

"Mr. Speaker, I support this bill because I believe that people who choose to use marijuana in the privacy of their own homes should not be subject to heavy fines or even incarceration. Under this bill, it will still be illegal to possess large quantities of cannabis, it will still be illegal to sell marijuana, and it will now be illegal to smoke marijuana in a public place. I believe that this bill is not a perfect bill, and so I understand members may vote against it. But I do believe it's a fair bill. And for that reason, I stand in support. Thank you."

Representative Kobayashi rose to speak in opposition to the measure, stating:

"I rise in opposition. I support decriminalization, but decriminalization should be at a point as low as possible, not necessarily nine times the current decriminalization maximum. Number two, I think we should have further discussion about the penalties for possession of marijuana above the decriminalization level. Right now, this bill deals with one ounce up to less than two ounces, and two ounces and above. I think that's where we need to discuss this further and see what penalties would apply. I think that petty misdemeanors and misdemeanors for all of these are too low. I would remind everyone that marijuana is still not a harmless substance, it is a very powerful and potentially dangerous drug. Thank you."

Representative Pierick rose to speak in opposition to the measure, stating:

"Thank you, in opposition. I'd like to have the words of both of the Kāne'ohe representatives adopted as my own," and the Chair "so ordered." (By reference only.)

Representative Pierick continued, stating:

"And then, with that being the preface, I continue. I have a family member who I love very dear, and he's experienced several events in life that has led him to drink alcohol to the abusive level, that led him to smoking cigarettes, that led him to practice recreational marijuana. And it continues further. It hasn't helped him, it's only hurt him. And a grieves my heart to witness someone who I love so much experience that kind of situation.

"I think all of us love our constituents. We think about them, hopefully, daily. And knowing that I've got 30,000 people that I get to serve, I don't

want any of them to experience the same heartaches that this family member of I have experienced. So, in referencing the Kāne'ohe representative's Webster dictionary definition that this bill basically legalizes, not decriminalizes, recreational marijuana, I vote no."

Representative Matayoshi rose to respond, stating:

"Thank you, still in opposition. I just wanted to bring up that, when we had the recreational marijuana bill before us, it had a lot of thoughtful provisions that are not present in this bill. It had a lot of thoughtful provisions for prevention, for law enforcement. Those are not present in this bill. And I was, granted, in opposition to the previous bill as well, but this bill, by legalizing or by attempting to decriminalize marijuana for up to one ounce, is basically inviting all of those ills with none of the fixes. There are no more resources for police, there are no prevention programs, there are no social equity programs, none of that.

"And it confuses me, because by putting all of those programs into the recreational marijuana bill, which I appreciate, don't get me wrong, but by putting those into the recreational marijuana bill, we were essentially agreeing, together, both sides were agreeing that there were problems that needed to be solved if we were going to legalize recreational marijuana. Everyone agrees that those were, well, not everybody, but most of us agreed that those were needed steps to take if we were going to legalize marijuana recreationally. Yet here we are trying to essentially legalize marijuana recreationally up to one ounce, without any of those safeguards in place. And that's another reason why I'm strongly in opposition to this bill. Thank you."

Representative M. Mizuno rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Gates rose to respond, stating:

"Thank you, Mr. Speaker. I just want to remind our body that alcohol is still the number one gateway to other harmful drugs, as well as tobacco. And we know that cannabis has, again, medical properties, alcohol has none. And I feel that the public has been scrutinizing our body because they feel we have been hypocrites, because we have allowed for alcohol to, again, be in our communities on every corner, that again has no medical benefits or is completely harmful, just being frank, to us as humans to consume. And our take on alcohol is that it's okay and that we even allow it in our universities as well. So, for those reasons, again, Mr. Speaker, I don't want to be a hypocrite, and that's why I'm in strong support."

The motion was put to vote by the Chair and carried, and S.B. No. 2487, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO MARIJUANA," passed Third Reading by a vote of 32 ayes to 18 noes, with Representatives M. Mizuno and Quinlan voting aye with reservations, with Representatives Aiu, Alcos, Chun, Garcia, Garrett, Kila, Kitagawa, Kobayashi, Kong, Lamosao, Martinez, Matayoshi, Matsumoto, Nishimoto, Onishi, Pierick, Takenouchi, and Ward voting no, and with Representative Souza being excused.

S.B. No. 2354, SD 1:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, S.B. No. 2354, SD 1, entitled: "A BILL FOR AN ACT RELATING TO ALCOHOL," passed Third Reading by a vote of 50 ayes, with Representative Souza being excused.

- (5) Updating cross-references in sections 10 and 13.

Representative Nakashima moved that Floor Amendment No. 3 be adopted, seconded by Representative Sayama.

Representative Nakashima rose to speak in support of the proposed floor amendment, stating:

"Thank you, Mr. Speaker. The amendment being made to SB 2342 encompasses the additional language from HB 1991, which was not passed by the Senate. This is the rideshare bill. And in order to maintain its integrity in conference, we would like to add this to another bill relating to transportation, SB 2342, SD 2, HD 2, to be able to continue the discussion."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill would basically create a task force that would eventually lead to universal health care for the State of Hawai'i. Let's look

at Vermont. Vermont in 2011 passed a single-payer healthcare plan. Three years later, their Democrat governor basically said, let's get rid of this program because it would require 11% payroll tax for employers and a 9% income tax to finance. So, we ask ourselves, who is going to pay for the probable, eventual recommendations from this task force to create universal health care in the State of Hawai'i? The taxpayers. Does District 39 want to pay for this? I don't think so. I'm voting no for 'Ewa Beach and Waipahu."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2285, SD 2, HD 3, entitled: "A BILL FOR AN ACT RELATING TO THE STATE HEALTH PLANNING AND DEVELOPMENT AGENCY," passed Third Reading by a vote of 49 ayes to 2 noes, with Representatives Garcia and Pierick voting no.

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, I rise in strong support. Mr. Speaker, this is a bill that allows the drop-dead date, if you will, for the \$600 million that we gave to DHHL. And I first should express my appreciation to everybody on this floor that helped that \$600 million to be done. And I thank you, sir, for putting me on the watchdog committee. I'm happy to report that there's probably 4,000 to 6,000 people that are going to be taken off the waitlist because of that funds.

"And as a failsafe measure, this bill says, look, Kali, if you don't spend the money by June 2024, which is coming up very shortly, this bill allows it to go to June 2025. Which I think is very admirable, doable, fair, and for the sake of what they're doing in terms of so many properties they're buying and so many houses they're building. This is a good bill, it's a failsafe bill, basically technical, but it's substantive because they are delivering on that \$600 million that we gave them. Thank you, Mr. Speaker."

Representative Holt rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. This is a great bill that we're passing to make sure that the funds will be expended. I think we're on pace to get it out on time. But just to make sure that we can get the best use of all of these funds, I think it's important we pass this measure. We've also come up with a new problem, though. The department has done such great work that they need more money. So, I look forward to working with everybody to ensure that we can get these houses built out as Department of Hawaiian Homes is the fastest, most efficient way we can build housing. And we all know what a housing crisis we're in. So, for those reasons, I'm in support. Thank you."

At this time, Representative Nakamura offered Floor Amendment No. 4, amending S.B. No. 2513, SD 2, HD 2 as follows:

SECTION 1. Senate Bill No. 2513, S.D. 2, H.D. 2, is amended by removing section 2 of the bill which would have repealed section 342D-72, HRS, concerning the January 1, 2050, mandate for cesspool update, conversion, or connection on page 6, line 16 through page 7, line 20; and amending a portion of the preamble on page 6, lines 1-2 for purposes of conformity and consistency.

SECTION 2. Senate Bill No. 2513, S.D. 2, H.D. 2, is amended by renumbering sections 3, 4, 5, and 6 as sections 2, 3, 4, and 5, respectively.

SECTION 3. Senate Bill No. 2513, S.D. 2, H.D. 2, is amended by deleting section 7.

SECTION 4. Senate Bill No. 2513, S.D. 2, H.D. 2, is amended by renumbering section 8 as section 7.

Representative Nakamura moved that Floor Amendment No. 4 be adopted, seconded by Representative Morikawa.

Representative Nakamura rose to speak in support of the proposed floor amendment, stating:

"Mr. Speaker, this floor amendment is to remove a section that was added in the last committee that repealed the 2050 date by which all cesspools in Hawai'i are to be converted. There are over 83,000 cesspools throughout Hawai'i, emitting 52 million gallons of raw sewage into our environment. In 2017, the Legislature approved a bill to enact this law, that requires all

cesspools to be converted by 2050. This was introduced by, at the time, Representative Jarrett Keohokalole.

"Yet almost 10 years later, very few conversions have taken place. And there's only about 300 conversions a year, where we need to get to 3,000 a year. This deadline is critical to just having a goal so that everyone can work toward. And we do acknowledge the need for the Department of Health to step it up. We acknowledge the need for our county government to step it up, and homeowners as well. But this floor amendment, we do not need the 2050 date conversion date to be repealed at this time. Thank you."

The motion that Floor Amendment No. 4, amending S.B. No. 2513, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO WASTEWATER SYSTEMS," be adopted, was put to vote by the Chair and carried, with Representative Quinlan being excused.

At 10:31 a.m., the Chair noted that Floor Amendment No. 4 was adopted.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 572, SD 2, HD 2 pass Third Reading, seconded by Representative Morikawa.

At this time, Representative Ward offered Floor Amendment No. 5, amending S.B. No. 572, SD 2, HD 2 as follows:

SECTION 1. Senate Bill No. 572, S.D. 2, H.D. 2, is amended by amending Section 1, page 1, line 4 through page 2, line 3 to read as follows:

"§150A- Biosecurity emergency. (a) The department, with the approval of the governor, may declare a biosecurity emergency if:

- (1) There has been in the State an outbreak or occurrence of a pest or prohibited or restricted organism that has the potential to cause significant economic or environmental loss if the pest or organism becomes established in the State based on scientific evidence or peer-reviewed research;
- (2) There is established in one area of the State a pest or prohibited or restricted organism that has the potential to cause significant economic or environmental loss if the pest or organism becomes established in another area of the State based on scientific evidence or peer-reviewed research; or
- (3) A pest or prohibited or restricted organism is, or threatens to be, beyond the State's ability to control based on scientific evidence or peer-reviewed research."

SECTION 2. Senate Bill No. 572, S.D. 2, H.D. 2, is amended by amending Section 1, page 3, line 9 through line 12 to read as follows:

"(2) A requisition shall terminate automatically twenty calendar days after the governor has acted to requisition or take control of any goods, real property, or watercraft required for the purposes of this section."

SECTION 3. Senate Bill No. 572, S.D. 2, H.D. 2, is amended by amending Section 1, page 3, line 13 through line 19 to read as follows:

"(c) If the governor requisitions and takes control of any property or the temporary use thereof, the owner, or other person entitled thereto, shall be paid a sum, determined by the governor to be fair and just compensation for the property or use, immediately after the property has been requisitioned and taken, or in installments if the property is taken for temporary use."

Representative Ward moved that Floor Amendment No. 5 be adopted, seconded by Representative Garcia.

Representative Ward rose to speak in support of the proposed floor amendment, stating:

"Thank you, Mr. Speaker. Sometimes we don't name the bills properly, but I would call this bill the piracy on the high seas. This allows us to confiscate ships owned by Pasha, by Matson, and any others that are suspect, and it's a good cause, of having a lot of invasive species. We know the

rhinoceros beetles are wreaking havoc on our environment, the red fire ants, and we sympathize with the neighbor islands, coqui frogs have basically taken over.

"But, Mr. Speaker, this is a very blunt instrument by which we're doing. Look, this is America. We don't confiscate people's property. This one says, in the first amendment that I'm putting through here, is that you cannot do this for 100 days. If you can't find out what's going on in 100 days, you don't know what you're doing. So, the amendment says, hey, 20 days, if we're going to confiscate your ship, 20 days, or your airplane or whatever. And in that confiscation, remember the supply chain that we experienced during COVID, if we think that was bad, put all these Matson and Pasha ships to inspect them for 100 days is going to be costly.

"And that's the other amendment that says, you don't pay until 100 days. And my amendment says, as soon as you take the ship away or the aircraft away, you pay them immediately, none of this waiting and doing it. And the last part is saying, this cannot be something arbitrary and capricious. It's got to be scientific based, peer reviewed research that says you are in violation of this and we're going to take your property.

"Mr. Speaker, I have in my family the history of pirates. And some of you don't know the history behind why they call it the boogeyman. The boogeyman is when they come up and they suddenly take your ship away from you. The equivalent of this is what this bill is doing by what otherwise, in the testimony, Matson and all the shipping people are saying, why do you want to do this? There's a better way to get to the invasive species than by this confiscation. This is basically anti-American, a piracy on the high seas. For those reasons, Mr. Speaker, I submit this for consideration. Thank you."

Representative Gates rose to speak in opposition to the proposed floor amendment, stating:

"Thank you, Mr. Speaker. In opposition. This bill is to address the invasive species issues that we've been facing as a state across our communities. In District 45, we've lost majority of our coconut trees due to the coconut rhinoceros beetle. Now it is attacking our mango trees. And many of our businesses, our residents, and just our way of life has been impacted by the lack of effort and focus on getting results relating to invasive species.

"This bill does not just only address ships, but this also addresses nurseries, businesses selling products that are contaminated, for example, with little fire ants. This will also give the Department of Agriculture the tools they need to get ahold of the issue of invasive species in our communities, Mr. Speaker. And I think that we also have to recognize the economic impacts that not taking this issue seriously, that if we remain doing the same thing we've been doing, we won't see the results that our community members have been asking for. So, I ask our members to oppose this. And thank you, Mr. Speaker."

Representative Marten rose to speak in opposition to the proposed floor amendment, stating:

"Also in opposition to the floor amendment. I just wanted to reiterate what the chair from the Agriculture Committee was saying, that this bill will give some teeth for the Department of Agriculture to be able to quarantine product. We've had problems in my district with nurseries knowingly selling infested products, and it actually wasn't illegal. There's some current emergency rules that were put in place, that are temporary, to allow the Department of Agriculture to do more. But we need permanent legislation to keep the movement of those products from happening within our islands and within our state. Thank you."

Representative Ward rose to respond, stating:

"Thank you, Mr. Speaker. Also, trying to get the amendment. I think people have missed the point. I totally agree with the last two speakers, Mr. Speaker. We've got to get a leg up on these fire ants. I mean, why did coqui frogs take over the Big Island? Because we were slow on the uptake. This is good, but it goes too far. The point is, if you're going to confiscate a Matson or a Pasha ship, don't take it 100 days to keep it unused. My amendment says give them 20 days, that's three weeks, Mr. Speaker. If we can't go through the ins and outs of a ship in three weeks, we don't know what we're doing.

"The other thing is, it says you can't compensate people until 20 days are over. No, it should be immediately. As soon as you stop commerce in these huge ships that cost millions of dollars, why should they take the big loss? We're going to wait 20 days before compensation, that's not fair. So, the point is, we've got to stop the invasive species. But the comments are saying, we've got to stop invasive species. My comments are, let's be fair to those who are running these transportation, particularly the ships that run in and out, that supply us the food that give us sustenance, who keeps this place alive, Mr. Speaker. Let's not punish them. Let's give them moderate incentives to do what we want to do to get rid of the invasive species. But don't throw the baby out with the bath. Don't throw the ship out. That's why this bill is piracy and it's unfair to the shipping industry. Thank you."

The motion that Floor Amendment No. 5, amending and S.B. No. 572, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO AGRICULTURE," be adopted, was put to vote by the Chair and upon a voice vote, failed to carry.

(Main Motion)

Representative Kila rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill basically gives the governor too much executive power to seize vessels on the ocean. He can basically say, yep, that boat has some pests, it has some organisms that we don't want, let's go seize the boat, let's take it for 100 days, and I'm in control of it. That's a lot of power for a Hawai'i state governor. It sounds more like a king or a dictator.

"I don't think this bill is good. It gives too much power to the governor. We have people like Matson submitting testimony that 90% of our goods in the state come through boats. So that's our cars, that's our food and things that we rely on. So, I don't believe we should be giving the governor power to start seizing commerce like that."

Representative Lamosao rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Yamashita rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. I rarely speak on bills, but I'm speaking in support. So, one of the things that I think we need to consider why we need drastic actions on invasive species is because, as we all know, the federal government requires us to inspect everything when we leave the state. At the airport, we put our bags through, we inspect everything. But coming into the state, the federal government is protecting the rest of the nation from us, but they are not protecting us from the rest of the nation.

"So, to be able to protect us, we need to put in these kinds of measures. I'm not saying this is fully vetted, but I just believe that we need to do something drastic. Just because the federal government doesn't support us from things coming in, but they do support us from sending invasive species to them. Thank you."

Representative Kahaloa rose in support of the measure and asked that the remarks of Representative Yamashita be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Gates rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Same request. I just want to clarify that this bill will only take effect after a department has declared the emergency for biosecurity and with approval of the governor. And it specifically mentions when this action would trigger, and that's when there is an outbreak or an occurrence of a pest, or prohibited or restricted organism that has the potential to cause significant economic or environmental loss if the pest or organism becomes established in the state based on scientific evidence or peer reviewed research, Mr. Speaker. For those reasons, I stand in strong support. Thank you," and the Chair "so ordered." (By reference only.)

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2922, SD 2, HD 3 pass Third Reading, seconded by Representative Morikawa.

Representative Amato rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition, brief comments and a wish to submit written remarks. The House Draft was initially deferred by Water & Land with good reasons. Regardless of the description stating, 'avoiding a disproportionate impact on a specific ratepayer or county,' deep diving into the details, that description seems ingenuine. I am concerned that this bill will end up being shouldered by consumers, and it has several flaws. Securitization would allow HECO to sell unpaid utility debt collections from broken Maui families to finance this. This is strike one.

"But more importantly, the bill does not preclude HECO from passing these costs to ratepayers. So regardless of description, it actually can make customer bills higher. That is strike two. This bill effectively blocks the PUC from regulating HECO on this issue. That is strike three. This bill is out. This bill does not serve the people of Hawai'i, it serves and benefits the HECO shareholders. It is time we stand up for the rights of the middle class. Please join me in voting no. Thank you."

Representative Amato's written remarks are as follows:

"In opposition. The HB was initially deferred by the Water and Land Committee, and with good reason.

"Regardless of the description stating, 'avoiding a disproportionate impact on a specific ratepayer or county,' diving deep into the details, that description seems ingenuine at best and deceptive.

"I am concerned that this bill will end up being shouldered by consumers, and has several flaws. Securitization would allow HECO to sell unpaid utility debt collections from broken or in debt Maui Families to finance this. That is strike 1. More importantly, the bill does not preclude HECO passing these costs to all ratepayers so regardless of description it actually can make customer bills higher. That is strike 2. There is already an unacceptable 5% fee coming out of FIN on another bill. The bill Effectively blocks the PUC from regulating HECO on this issue. That is Strike 3. This bill is out.

"This bill does not serve the people of Hawai'i, and many legislators here who own HECO stock should not be voting on it as they may be protecting their investment instead of the people.

"This bill serves and benefits HECO and its shareholders, not the hard working people of Maui. We should have a coop utility like Kaua'i KIUC. There is a fundamental disconnect with having a public utility that privately owned and operated for profit. The fiducial responsibility for profit generation is at odds with good safe service at low cost, which explains why we have antiquated distribution on Maui, yet the highest rates in the entire USA.

"Something is very wrong here and we all must stand up to call it out publicly, not just pass profit-making measure that protect this for-profit utility and its stockholders.

"We are supposed to be working for the people not for corporations. It is time we stand up for the rights of the middle class. Please join me in voting no."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. Mr. Speaker, I think there's two people in this room who were here when Iniki hit Kaua'i. Everybody paid for Kaua'i. Everybody chipped in for Kaua'i. We never nickel and dined saying, well, because it's your island, you guys pay the big share. The point is, if we want HECO to survive and we don't want a mainland firm to come and take over, this bill is one of those steps that we need to secure HECO. Thank you."

Representative La Chica rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I am in support of the section in this bill that would, which I appreciate that our chair for Consumer Protection had made, which would establish a process for electrical utilities to develop and submit wildfire protection plans to the Public Utilities Commission. So, most recently, in my district, Hawaiian Electric decided to implement changes that affected my district through power outages in response to the fires where a disruption would trigger an automatic shut off to power, which affected about 2,500 residents in my community. This was done so without any type of community engagement, any type of communication. And this

happened over several weeks, multiple times during one week in the evening hours, affecting several hundred residents.

"So, for those reasons, I believe that there should be a process for any type of communitywide changes. Even if it's, we want to support wildfire protection planning, we want to prevent these fires from happening, but it shouldn't come at a cost to not notifying our community, or not involving them in any drastic changes that would affect their day to day."

Representative Belatti rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In support with reservations and brief comments. Supporting with reservations based on the comments of the speaker from Kihei. And I just hope as this moves forward, attention to making sure that ratepayers aren't too adversely affected will be noted. Thank you, Mr. Speaker."

Representative Kapela rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. Can I adopt the words of the representative from Kihei as if they were my own and a brief comment. At the heart of this, this is a bailout bill for HECO at the expense of families across the state. My electricity bill is already high enough. So, for that reason alone, I cannot support this bill."

Representative Ganaden rose to speak in support of the measure with reservations, stating:

"With reservations, Mr. Speaker. I'm concerned that we are going to be voting on this bill prior to a report delivered to us by the Office of the Attorney General regarding how the fire was spread and apportioning some version of, essentially, blame. I feel like this is a bit premature. Wish that we could hold it till about the middle of the summer, but we can't. For those reasons, reservations."

Representative Cochran rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I stand in strong opposition of this bill. For me, in real brief comments, it gives an open line of credit to HECO. And at this time, as you can imagine, the town of Lahaina really has no trust. There is proof of mismanagement, negligence. They had currently a fire protection plan in place from the 2019 Hurricane Lane fire incident that happened in the exact same spot, practically. They were given \$95 million to roll out a plan and it obviously did not happen, so this fire occurred. And this also, we as a state will codify and put into law that we're giving them okay to raise rates up to 5%. So, there's numerous reasons. May I request submittal of further written comments. And also, 1227 testimonies in opposition from the Lahaina fire victims that were given to the Finance Committee, but never been recorded or acknowledged. So, I would like to have permission to enter all those names into the Journal."

The Chair addressed Representative Cochran, stating:

"Representative, the Chair will allow submission of written comments, but will take the matter of the testimonies under advisement. Thank you."

Representative Cochran's written remarks are as follows:

"Now is not the right time for this securitization bill. HECO is effectively bankrupt already. Securitization is a process that would allow HECO to borrow billions of dollars now and pledge their future revenues from ratepayers as collateral for their loans now. Paying the debts caused by HECO's negligence by ratepayers and the victims of the fire that HECO caused in Lahaina and Upcountry is wrong. Ratepayers should not pay—shareholders should. If this has to be done, then make sure HECO pays wildfire victims before it pays other debts."

Representative Souza rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Alcos rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. As previously discussed, this measure would basically allow the electric company to potentially raise rates to the residents of Hawai'i. This is a somewhat of a response to the Lahaina fire. So, if we're going to raise the rates on the people who are using electricity, there's probably some sort of reasoning behind that, the expenses are getting high for the electric company. Here are some of those expenses for the electric company. Their CEO makes \$575,000 a year. So, the expense of the electric company is that they pay their CEO half a million dollars a year. Here is another expense they have, \$210,000 a year goes to the director. I guess the rates of electricity need to go up because their pay is pretty high. The Hawaiian Electric Industries hired a utility bankruptcy expert as a CFO, and their payment to this person was \$1.5 million for a 15-month job. So, I guess this is another expense for the electric company that they want to pass on to the consumer by increasing their rate. This doesn't sound like a good idea. I'm voting no."

Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. And I think there's a lot of misunderstanding about what this bill does and what securitization actually is. So, securitization is allowing a fee on electric bills to back a loan. And by allowing that mechanism, you lower the cost of borrowing for the electric utility. Sorry, I have a lot of different things to say."

"And I think the thing that we have to remember is that our electric utility is currently in a really bad financial situation. Their credit rating is in the pits. They're going to have to borrow money regardless, and ratepayers are going to pay for that regardless. So, although I have concerns about the current version of the bill, and I think it needs to be tightened up a lot, the alternative, this isn't do we support a fee on bills that would help the utility to borrow at a lower rate, the choice is between borrowing at a lower rate that ratepayers pay for or borrowing at a higher rate that ratepayers pay for. There's not a future in which the utility doesn't need to borrow money. And that includes whether they are sold to another entity or whether they declare bankruptcy."

"This bill isn't paving a pathway. It's not a bailout bill because, frankly, my personal opinion is this is probably not enough to prevent potentially a bankruptcy proceeding regardless. And this also won't prevent another entity coming in to buy it off. So that's not what it's about, that's just a misplaced understanding of what it's doing. So, I think that's the important thing to remember. I would also say that there were amendments made in its second committee, in Consumer Protection Committee, without conferring with the lead chairs of Water & Land and EEP that I think really weakened it."

"The wildfire mitigation piece that the representative from Mililani mentioned was actually just in another bill because two bills were combined. But a bunch of amendments were made to that to make it go from being required to be a docketed process to a non-docketed process. And this would mean there's less transparency and less communication with stakeholders in the public and communities. And, in addition, in that committee, I think that there were added back in provisions that allowed for automatic increases if the estimated cost of implementing the wildfire mitigation plans was more than what the PUC had previously approved. There was this provision where it could automatically be approved to be x percent higher without having to go through the process, which the consumer advocate opposed, and we had taken out in its prior committees, that got added back in."

"So, I think there's a lot of ways this bill needs to be made better. And even what we passed out of Water & Land and EEP I think needed to be strengthened. Because while I do think that we should approve the securitization mechanism, and definitely we absolutely need the piece of this bill that requires wildfire mitigation plans to be done by the electric utility through a PUC process, which is what has been implemented in California, in Oregon prior to some of their big fire events. And we need to have that backstop in statute here."

"We also have this opportunity to empower the PUC in their approval of whatever the securitization agreement is, to empower the PUC to really take a close look at HECO and to look at things like, are they appropriately looking internally at their high-level salaries, are they looking at selling off assets? Is it something where we should push to have other ownership structures considered, like cooperatives, potentially, for the neighbor islands for example, where you would have access to cheaper capital just by being

a rural cooperative, you would automatically have access to cheap capital and cheaper borrowing. And so that could be a benefit to ratepayers potentially as well. You could look at whether the PUC should push for separating distribution from generation, and have the opportunity to have the PUC consider these things and decide what's in the public benefit. So, this bill is really an opportunity to empower the PUC to do those things, if we choose to do that.

"This isn't the time, I think the fear that, you know, we're going to have electricity, we're going to have an electric utility. And I think the idea that if we don't do something, somehow the lights are going to go off, that's not really the debate that's on the table."

Representative Quinlan rose to yield his time, and the Chair "so ordered."

Representative Lowen continued, stating:

"Thank you. And so, I think these are just things to keep in mind as we move forward and to try to understand what actually this bill is doing. And then the other question of the Maui fire victims, I think is something that has to be considered separately. But whether we should empower, I think the amendments that were proposed on this bill that some people have been talking about on the floor today, would look at having securitization as a mechanism be used to fund damages being paid to fire victims before looking at utility infrastructure and having that be a ratepayer base fee statewide. And I don't think that for damages to victims, that that should be the first go to before we look deep into HECO and what liability they can put on shareholders and on their own holding. So, with that I'll stop."

Representative Nakamura rose to speak in support of the measure, stating:

"In support. I'd like to adopt the words of the EEP chair as they were my own. And I would like to also clarify that, for the representative from Lahaina, that the testimony that was submitted to the Finance Committee prior to the hearing were, I am told, have been added to the legislative website. So, just wanted to put that on record. Thank you," and the Chair "so ordered." (By reference only.)

Representative Matsumoto rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matsumoto's written remarks are as follows:

"This measure addresses an extremely nuanced and delicate situation regarding Hawaiian Electric (HECO) and its future after the devastating Maui wildfires. On one hand, critics suggest that the proposed securitization of electricity rates acts as a 'bailout' for HECO in the wake of the wildfires. On the other hand, advocates support securitization because of the potential consequences that can arise from HECO being financially devastated if they are found liable for the Maui wildfires. However, HECO's liability in the Maui wildfires is still in litigation and there is an active investigation into the matter. I recognize both sides of the debate surrounding this bill and I am waiting to learn more before making a final decision. For this reason, I will vote with reservations on this matter for now."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2922, SD 2, HD 3, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC UTILITIES," passed Third Reading by a vote of 41 ayes to 10 noes, with Representatives Alcos, Belatti, Ganaden, Matsumoto, and Souza voting aye with reservations, and with Representatives Amato, Cochran, Garcia, Gates, Hussey-Burdick, Kapela, Perruso, Pierick, Poepoe, and Quinlan voting no.

Representative Yamashita, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1844-24) recommending that S.B. No. 3344, SD 2, HD 1, as amended in HD 2, pass Third Reading.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 3344, SD 2, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Hussey-Burdick rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Kapela rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3344, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO WILDFIRES," passed Third Reading by a vote of 50 ayes to 1 no, with Representatives Hussey-Burdick and Kapela voting aye with reservations, and with Representative Poepoe voting no.

Representative Yamashita, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1846-24) recommending that S.B. No. 2919, SD 2, HD 1, as amended in HD 2, pass Third Reading.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2919, SD 2, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. Short-term rentals are a vibrant part of our economy, \$6 billion of our economy come through short-term rentals, 48,000 different jobs in our state come through short-term rentals, and these short-term rentals are mostly owned by local residents. This bill would give the county power to eliminate short-term rentals. A lot of people submitted testimony against this measure. This is to some extent a response to the Lahaina Maui fires. And I appreciate that heart in wanting to eliminate some short-term rentals to clear up space for long-term rentals for the Lahaina victims, that's an admirable goal. But when you do that, you're hurting so many other people in the short-term rental industry. Again, \$6 billion for the economy, 48,000 jobs."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, also in opposition. In addition to those benefits of the \$6 million into the economy and the 40,000 jobs, Mr. Speaker, this is a demographic target on the back of our *kūpuna*. Many of these people have their own home, renting out a room, do that so they can survive. Social Security and a room that they rent is basically it. So, I would say if we want to help our *kūpuna* and we have a Kupuna Caucus, we have a special place in the Office of Aging, well, this is something that brings them a monthly income. And it's not invasive, it's in their own home, they are there as kind of the housemother or the housefather. And it's probably the least invasive."

"And even the HTA, I think a study said that, not only do they bring in the money, but we don't have enough hotel rooms in Waikīkī to keep people housed when they visit us. So, with those reasons, Mr. Speaker, I think a vote for this bill is against our *kūpuna*. But for keeping the *kūpuna* employed as short-term rentals, I think it's the best thing that we could do is to help them out by giving them this added income. Thank you."

Representative Quinlan rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. I will never understand why we spend so much time in this building worrying about people that have at least two homes. Isn't our job as legislators to worry about people that have no homes?"

"With your indulgence, Mr. Speaker, I'd like to take you on a little journey through history. Let's go back about 6,000 years to the Tigris-Euphrates River Valley, the birth of civilization, Babylon. A group of nomadic pastoralists decided that they were going to domesticate wheat. They had discovered the secret of a food source that renewed itself every year and they didn't have to wander through the desert with their camels or their goats or whatever they had. So, when they domesticated wheat, they realized that they had to build a city. They had to build a place for them to live. They weren't living in tents anymore, they were living in cities, in houses with walls."

"So fast forward to today, and we think about the concept of archeology. We have archeologists, not like the Indiana Jones archeologists, but regular archeologists. And we have a lot of incredible technology, Mr. Speaker. We can use lidar to look at ancient cities. And we look at how they're laid out and we can discover from analyzing the midden heaps what types of businesses were there, where were the homes, where were the slaughterhouses, where were the businesses? And even 6,000 years ago, in the very first cities that our civilization ever built, the slaughterhouse would be on one side of the city and the homes would be on the other."

"What I'm trying to say, Mr. Speaker, is that zoning as a concept is integral to human civilization. And what this measure does is it gives the power of zoning back to our county governments, where their elected officials will make decisions about where it is appropriate to have hotels, where it is appropriate to have short-term rentals, and where it is not. All this bill is, is home rule, Mr. Speaker. It's an opportunity for our citizens, for our county governments, to make the same decisions that human beings have been making for 6,000 years. Thank you."

Representative Tam rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Tam's written remarks are as follows:

"I typically do not vote with reservations on a bill's third reading, however, I believe that improvements made to this bill would positively impact residents of House District 24 before this bill is sent to the governor."

"I am recommending proposed amendments to this bill include an exemption for special districts that include resort zoned in counties with populations over 500,000."

"I am concerned that the unintended consequences of passing this measure as is would drastically decrease the property value for resident constituents who purchase these types of property. Many constituents purchase such properties because it is what they are able to afford at the time of purchase and may have intentions of upgrading when means are available or if the occupants would like to expand to accommodate family planning. Decreased property values could prevent families in these situations from upgrading and improving their standard of living."

"Additionally, such limitations on properties that are grandfathered in as non-conforming use, could be a violation of contract that the buyer entered in when they purchased their property. This opens the county and state to lawsuits that would potentially cost the state millions of dollars."

"For these reasons, I will be voting with reservations."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Alcos rose to speak in opposition to the measure, stating:

"No vote. Looking at this vacation rentals, it's good to have. First, I would like to adopt the words of Hawai'i Kai representative as my own," and the Chair "so ordered." (By reference only.)

Representative Alcos continued, stating:

"And a brief statement is that one of the biggest investment we can do here is real estate, invest our money into real estate. Of course, we want to invest our money, we want to buy one home, as the previous speaker is, we want to find one home. But we want to find a second home or third home if we can give back to our families, if we can give back to our kids, and that they'll be okay and set off."

"Because right now, if my son had to go and buy a house today, I honestly can't understand how these kids can get out of high school or college to afford one home today. They cannot. But I got to buy it 20 years ago to make an investment so that they can have a home and to find our kids to get someplace to live. Now, that's local investors, I'm okay with it. But foreign investors, outside investors, I would like to see a stop on it. But for local investors to find a second home or a third home to invest into our kids, because investing into a bank ain't making much money. But investing into real estate, it helps. So those reasons, I'm a no."

Representative Marten rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. While Maui has highlighted when vacation rentals are permitted, what a large percentage of the housing stock they can take over, this has been a problem in my community on O'ahu for decades. And it's something that the county has tried to deal with. And actually, the state law has made them unable to rein in the vacation rentals' issues over the duration of what is called a short-term rental."

"And so, this, as the previous speaker from the North Shore mentioned, allows home rule. And we know that counties are closer to the situation on the ground and are better suited to address and make decisions over that. And so, this allows them to implement what they have been trying to do to decrease the number of vacation rentals that are residential homes that have been taken out of residential use and put into resort use. At a time when we have a housing crisis and we are investing a lot of our state taxpayer dollars into creating affordable housing, when we have that housing stock, taking it back will help. Thank you."

Representative Holt rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I think it's really unfortunate that some people characterize our housing market as small businesses. It's up to the counties to decide what they want to do with this. But it was noted in testimony that 27% of vacation rental owners own 20 or more units, and I don't think that that's what we would like in our state. So, for those reasons, in support."

Representative Cochran rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I stand in strong support and I'd like to adopt the words of representative of House District 47 as if they are my own. And as a former Maui County Council member, I have all the confidence that the respective counties will make the best *pono* decisions that affect their direct people at their homes. So, this is, again, giving home rule back to counties, and I totally support it. *Mahalo*," and the Chair "so ordered." (By reference only.)

Representative Ganaden rose to speak in support of the measure, stating:

"In support, Mr. Speaker. May I adopt the words of the representative from Chinatown as if they were my own? We actually very much agree on this. With brief comment. Mr. Speaker, I think many of our constituents want us to go much further than this bill. People have been asking us, as elected officials, to stop out-of-state homeowners from purchasing homes entirely, which is in violation of the federal constitution. I think this allows the continuation of a democratic process and a conversation with communities about how to keep local families here," and the Chair "so ordered." (By reference only.)

Representative Ward rose to respond, stating:

"Second time. Contrary to the Indiana Jones thesis from the gentleman from the North Shore, I think anthropologists would say one of the care from the very beginning of time was for the older people. Mr. Speaker, my point is, this should be left to those who are aging in place, who need extra income. I agree with all the others who have said, hey this, we don't want a proliferation, but we want to carve out owner-occupants. I hope in the end, when we do the Senate and House negotiations in the conference committees, that some of that will come up."

"But of course, we have to control tourism. We don't want the big mainland takeover, 20 houses by one particular or how many units that they may have. But the point is, there are those who thrive and survive on this, who are in a demographic that is very, very precarious. And because of that, it would be worthy to have the amendment to make this an owner-occupant. And particularly, as I said earlier, this is a *kūpuna*-based issue. Thank you."

Representative Cochran rose to respond, stating:

"Thank you, second and final. I also have strong confidence in Maui County, I can speak on their behalf, as I was one of the creators of the short-term rental bills there. There's a distinction between bed and breakfasts, which are owner-occupied, and also short-term rental and TVRs. And so, I believe the bed and breakfasts with the owner-occupied type units have a bit were passed through first because it made best sense. And then the rest came along, which I always was wholeheartedly not in support."

"So, I really believe that the county is going to look at that first and foremost. Because they are a local people. They're actually people who live in their homes and they rent side rooms or cottages or what have you for that extra income to subsidize themselves. So again, I am in strong support. And I have every confidence that Maui County, in particular I can speak for, will be making the right decisions. *Mahalo*."

Representative Evslin rose to speak in support of the measure, stating:

"In support. Thank you, Mr. Speaker. We are facing a dire shortage of housing in Hawai'i, which is the primary contributor to our housing crisis right now. Part of that shortage is because we are building far too few homes in Hawai'i. But also, of the homes that we're building, many of those are being converted to vacation rentals. As I've said here before, island of Kaua'i, one in eight homes is a vacation rental. Island of Maui, I believe one in seven homes is a vacation rental. As long as outside investors can purchase property in Hawai'i and make a whole lot of money by renting those out to visitors, we are going to have a really hard time solving our affordable housing crisis.

"And the purpose of this bill is merely, as has been said many times, to give the counties the authority to, as they choose, phase out short-term rental units. Units with owner-occupants could be excluded from that, short-term rental units in resort areas could be excluded to that. But the counties need the power to determine how to do this on their own. And to the notion that local people are benefiting from this, TAT data for Kaua'i shows something like less than 20% of vacation rental units are owned by local residents. The primary beneficiaries of vacation rentals in Hawai'i are mainland investors. That needs to end. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2919, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO PROPERTY," passed Third Reading by a vote of 45 ayes to 6 noes, with Representatives Matsumoto and Tam voting aye with reservations, and with Representatives Alcos, Garcia, Kong, Pierick, Souza, and Ward voting no.

Representative Tarnas, for the Committee on Judiciary & Hawaiian Affairs, presented a report (Stand. Com. Rep. No. 1848-24) recommending that S.B. No. 2560, SD 2, HD 1, as amended in HD 2, pass Third Reading.

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, the report of the Committee was adopted and S.B. No. 2560, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO INVASIVE SPECIES," passed Third Reading by a vote of 50 ayes to 1 no, with Representative Pierick voting no.

Representative Tarnas, for the Committee on Judiciary & Hawaiian Affairs, presented a report (Stand. Com. Rep. No. 1849-24) recommending that S.B. No. 2245, SD 1, HD 1, as amended in HD 2, pass Third Reading.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2245, SD 1, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Garcia rose to speak in support of the measure, stating:

"In support. I voted no on this on second reading and throughout committee, but I am very thankful that some amendments were made in the JHA Committee to define exactly what exigent circumstances are, which is very important to make sure that we're not in violation of the Fourth and Fourteenth Amendment, as there is precedent that what's been happening here for a long time violates the Fourteenth Amendment. So, with the addition to this bill on page one, it defines exigent circumstances to mean, 'based on specific and articulable evidence, there is reasonable cause to believe.' So, thank you for the amendments and I will now be voting yes."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2245, SD 1, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE CHILD PROTECTIVE ACT," passed Third Reading by a vote of 51 ayes.

Representative Tarnas, for the Committee on Judiciary & Hawaiian Affairs, presented a report (Stand. Com. Rep. No. 1850-24) recommending that S.B. No. 3125, SD 2, HD 1, as amended in HD 2, pass Third Reading.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 3125, SD 2, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. Parents should be involved in the medical care that their children receive. Why are we expanding access for children to make medical decisions without parental supervision for kids that are only 18 years old. Their brains don't fully develop until their 20s. Minors need to be encouraged to navigate these potentially uncomfortable conversations about sex and sexually transmitted diseases.

"While there are some young people in very unfortunate situations, this bill is worded in a way that would negatively impact thousands of families. This bill is to allegedly address marginalized youth in broken family situations, runaways, homeless. But shouldn't we be putting more focus on helping these people mend with their families versus encouraging secrecy among them?"

"Fourteen-year-old boys are in the category of 11- to 15-year-old boys, and those are the main perpetrators of sexual assaults. So, if this bill is to allow a 14-year-old little girl or boy find out if they have received a sexually transmitted disease, or to get some sort of family planning care without mom or dad knowing, how about we focus more on the cause before it, the perpetrators, the sexual assaulters, versus just saying, all right, the solution is let the 14-year-old kids get these medical services without mom or dad knowing about it. I'm voting no."

Representative Lamosao rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Belatti rose to speak in support of the measure, stating:

"In support with comments. I'm in strong support of this and I wish that the words that I were to speak next were my own. But the testimony before the Health Committee that was the most persuasive to me was by someone who actually works with treating many youth who live with HIV. Mr. Kekoa Kealoha, before the Health Committee stated, 'young people continue to represent the largest growing demographic of people affected by STIs—HIV among them. Working for nearly a decade in HIV care and prevention, I have been the one to deliver devastating news to too many people. For every person who learned he or she had HIV, Hepatitis, or STIs when I administered a test, I see missed opportunities for prevention. The thing is, clients don't come to see people like me because they want to; they come because they have to. They bring their traumas with them. Often, trauma is what leads to potential exposure to HIV, STIs, Hepatitis, and more. I have very frequently been the first person these folks have said anything to about their traumas.'

"'We could talk about parental rights and how, in an ideal world, parents should be involved in their children's medical care.' Which I suspect is some of the opposition to this bill. That's my own language. 'But the reality is that parents aren't involved when their children decide to have sex. They don't decide for their children to be assaulted. Some of them don't know their child is gay, bisexual, lesbian, transgender, queer, or otherwise identified. And, worst of all, some of them won't support their children... The young people at greatest risk for HIV acquisition are those who have uninvolved, uninterested parents who will not support healthful decision-making. This bill is for them.'

"'Telling someone she or he has HIV is one of the most difficult things I've ever had to do. It's much more difficult to work one-on-one with people living with HIV, who have no support system, whose families have turned their backs on them, ejected them from their homes, and refused to acknowledge their humanity. It's even harder to sit with a client, disclose their status to their family, and watch the emotional responses take over. I pray none of you experience that and I'd like to ask you to think about those people who will not have access to life-saving medication.'

"Mr. Speaker, this bill only allows for the expansion of prevention, lifesaving prevention to diseases that kill, like HIV. We can't often say that a bill will save lives. But this will. This bill will save lives. In strong support, Mr. Speaker."

Representative Ganaden rose to speak in support of the measure, stating:

"In support, Mr. Speaker. When voting on this bill, I am conscious of some of the history of the United States during my lifetime. The way that under the presidency of George Bush, AIDS and HIV treatment was significantly expanded here in the United States. And later on during the

presidency of his son, George Bush, Jr., AIDS and HIV treatment was expanded significantly throughout the world, particularly in the African continent.

"Mr. Speaker, the age of consent here in the State of Hawai'i is 14 years old. That means 14 years old, means that individuals are having sex. They are engaging in this kind of behavior legally. In the time that it may take for a 14-year-old to an 18-year-old to speak to a guardian or a parent, they are missing prospective important medical decisions and medical care, which may save their lives. For that reason, I'm voting yes."

Representative Matsumoto rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matsumoto's written remarks are as follows:

"As a parent, I know the necessity of being present in every one of my child's decisions. I care about the food they eat, the clothes they wear, and the friendships they make. Of course, it's natural to be concerned about something as important as their health. The truth of the matter is that parents deserve to be in the know about every aspect of their child's life and subsequently, be informed about treatments and services that are potentially life-altering. This bill disrupts that inherent privilege.

"Unfortunately, I also recognize that many youth in our state do not have a healthy family foundation and are often left to make pivotal decisions on their own out of necessity and trauma. These marginalized youth often deserve support and access to life saving medical care. I have studied both sides of the argument, acknowledged the testimony both in favor and opposition, and concluded that parents should not have their rights revoked. However, our vulnerable youth do deserve preventative health care but I believe this would be better addressed in a future bill that addresses marginalized youth and not all youth, like it does in this bill. With that, I respectfully oppose."

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I had a floor comment prepared, but in the time that we've discussed this measure on the floor, I've decided that I wanted to share a story instead. We're all moved in this body by individuals in our communities or individuals that we come across who move us to take action. And one of the people that really moved me into this building was the very first trafficking survivor that I ever worked with.

"She was 13 when she was first trafficked. And she had been trafficked for three years on the streets of Waikiki. She's a local girl. And when I met her, she was 16. In those three years that she was trafficked, she had been raped over 10,000 times. By the time we finally met her, and by the time I finally got a chance to meet this incredible young woman, she had contracted, she had tested positive for HIV. And she eventually passed away from AIDS. She was one day shy of being free for an entire year from being a trafficking victim.

"If a bill like this would have been passed, she might still be alive today. This bill, currently existing in state law already, minors can consent to medical treatment. But this bill is about prevention. We want to make sure that we can prevent their deaths. We want to make sure that we can prevent STDs. This bill truly does save lives, just as our Health chair said. Thank you."

Representative Tam rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Mr. Speaker, I support this bill because the State of Hawai'i has put forth a plan called Hawai'i to Zero, which plans to end the HIV epidemic in Hawai'i by 2030. This bill is in line with those plans and would actually help us reach those goals. As previously mentioned, this bill also saves lives. Currently, minors can consent to testing and treatment, but they cannot consent to prevention. My question is, why are we waiting till the worst-case scenario when we get sick or potentially die that we decide to act?

"And finally, we often talk about parental rights. But what about minors who don't have parents because their parents turned their back on them simply because their child confide and trusted in them to understand who their true, authentic selves is, only to be tossed out on the street. I'm sure a

lot of those kids would love to have parents to talk to this about, but unfortunately that's not the case. This bill is for them. This bill allows them to have the preventative treatments to save their lives. Thank you, Mr. Speaker."

Representative Pierick rose to respond, stating:

"In opposition. A lot of discussion has underwent in this building so far about this bill, and we're talking about life versus death. So, we're conflating secrecy with life. So, if the 14-year-old child doesn't tell their parents and goes, gets this medical procedure, their life will be saved. The parents are causing death because the parents are preventing them from getting these medical services. That's what this body seems to, some of these members, seem to be arguing.

"The argument is being used that there are some parents that are throwing their children out in the streets, that they will die because they don't believe them, they don't accept them. How many parents are doing that? Can we get a number? So, we're going to create a law that affects all of the children in Hawai'i, all the parents in Hawai'i, because of some anecdotes. I'm voting no on this bill."

Representative Cochran rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I stand in strong support. Access to prevention is lifesaving and very critical. I was told by Maui AIDS Foundation just a few weeks back that they tested a positive HIV result in over two and a half years. It is preventable. It is treatable. So, it's something that we should not be testing positive in any way, shape or form in this day and age. But unfortunately, we did. And it's been many years prior that people were safe and clean and protected. So, I'm in huge support to have access to the services. Thank you."

Representative Alcos rose to speak in support of the measure with reservations, stating:

"With reservations. Little bit confused. I'm for parents' rights. But I also want to save that child or that kid if they got AIDS or some kind of disease. And time has to act right away. But would love to get the parents involved, so I'm with reservations. Thank you."

Representative Gates rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Aiu rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Marten rose to speak in support of the measure, stating:

"In strong support. With HIV, there is treatment, but there is no cure. It's a lifelong treatment and it doesn't deal with all of the symptoms of the disease. So, the only real strategy we have is prevention. And prevention is a public health measure. If somebody is not infected, they can't spread it. And so that's really our only way to manage and hopefully get rid of this disease. No vaccines have worked. So, I stand in strong support for everybody who needs this prevention medication to get access to it, regardless of what their age is, regardless of what their parent's position is. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3125, SD 2, HD 2, entitled: "A BILL FOR AN ACT RELATING TO MEDICAL CARE FOR MINORS," passed Third Reading by a vote of 45 ayes to 6 noes, with Representatives Aiu, Alcos, Gates, and Lamosao voting aye with reservations, and with Representatives Garcia, Kila, Kong, Matsumoto, Pierick, and Ward voting no.

For taking out the monster homes, taking out three or four or five ADUs. A great revision. The unfortunate thing, and according to my district advisors, is they're not sure what the words really mean. It's a little confusing and a little convoluted. For those reasons, for an abundance of caution, Mr. Speaker, I'm going to vote no. And hopefully this thing won't morph back into its original form when we go to conferences. Thank you."

Representative Nakamura rose to speak in support of the motion to recommit, stating:

"In support of the motion. With all of the fiscal constraints that we are facing today with the Maui wildfire expenses, the upfront FEMA expenses that we will not be reimbursed for for many, many years, the need to address

affordable housing both short term and long term on the island of Maui, and infrastructure needs within Lahaina. We really need to make that our priority this session. The need for hazard pay and all of the competing needs that have been set aside because of the Maui wildfire priority. Need for affordable housing to deal with the growing homelessness crisis throughout our state. Need to address all of the mental health needs.

"We need to find ways to address this concern about the transfer of wealth. But this may not be the time to do that. With all these other competing needs, let's focus on the needs at hand and address this. And I think we have a lot to learn from the families who are experiencing the transfer of wealth. But we need to focus on what our immediate needs are at hand. And therefore, I support this recommittal."

At this time, Representative Garcia moved for a roll call vote, seconded by Representative Ward.

At this time, the Chair stated:

"Members, there has been a request for a roll call vote on the motion to recommit. All members in support of a roll call vote, please raise your right hand. Mr. Clerk, is there a requisite number of members in support of a roll call vote?"

The Chief Clerk then stated:

"Mr. Speaker, we count five members."

The request for roll call was put to vote by the Chair and upon a show of hands, the request was denied.

The Chair then stated:

"Okay, we'll be proceeding with a voice vote."

The motion was put to vote by the Chair and carried, and S.B. No. 3289, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," was recommitted to the Committee on Finance.

Representative Garcia rose to a point of order, stating:

"Point of order, Mr. Speaker. I would just ask that when you take a vote, to leave some time for those to respond by saying no, because there are members here who are casting a no vote. Thank you."

SUSPENSION OF RULES

UNFINISHED BUSINESS

S.B. No. 2342, SD 2, HD 3:

Representative Nakamura moved that S.B. No. 2342, SD 2, HD 3 pass Third Reading, seconded by Representative Morikawa.

Representative Hussey-Burdick rose to speak in opposition to the measure, stating:

"No vote, brief comment. My opposition here is not based on the floor amendment, that's the only part of this three-part bill that I don't really have a problem with. My opposition stems from the fact that this is going to increase insurance premiums at the benefit of insurance companies, making it more difficult for the poorest among us to be insured drivers.

"And then the second part of my opposition stems from the fact that it imposes a mandatory minimum on people who are driving without a license. Mr. Speaker, driving without a license is not an inherently dangerous activity. It's not like drunk driving, which obviously should be stopped in every circumstance. Driving without a license, for those of us who have driver's licenses, we might not realize how hard it is to sometimes get one. During the pandemic, it sometimes took up to six months to get an appointment for a new renewal of a driver's license. Some people maybe just moved here from a foreign country and are having a hard time getting all their documents together in order to get a driver's license.

"I had a constituent who was unable to get a driver's license for three years because the county department, the DMV, was insisting that he had a stopper on his license in Oregon. I helped him contact the Oregon DMV, who insisted he had no problems, there was no stopper on his record, there was no reason he should be denied a license. And nobody listened to him until I got involved. And he cried when he received his license in the mail.

"This bill criminalizes homeless people, who often live in their cars. You have to prove residency in order to get a driver's license, which is extremely difficult to do if you're living in your car and you don't have a residence. So, for those reasons, I am opposed to this bill. And I hope that the members of this body will consider how difficult it might be for people who are in different situations besides our own. Thank you."

The motion was put to vote by the Chair and carried, and S.B. No. 2342, SD 2, HD 3, entitled: "A BILL FOR AN ACT RELATING TO TRANSPORTATION," passed Third Reading by a vote of 44 ayes to 5 noes, with Representatives Alcos, Garcia, Hussey-Burdick, Kong, and Pierick voting no, and with Representatives Cochran and Woodson being excused.

S.B. No. 2513, SD 2, HD 3:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, S.B. No. 2513, SD 2, HD 3, entitled: "A BILL FOR AN ACT RELATING TO WASTEWATER SYSTEMS," passed Third Reading by a vote of 47 ayes to 2 noes, with Representatives Garcia and Pierick voting no, and with Representatives Cochran and Woodson being excused.

At 12:49 p.m., the Chair noted that the following bills passed Third Reading:

S.B. No. 2342, SD 2, HD 3
S.B. No. 2513, SD 2, HD 3

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, strong support. This reso introduces the support for Taiwan. Who, by the way, my colleague is now in Taiwan and that's why he's absent and excused for a good reason. Taiwan, like Japan, is a strong ally. And this reso acknowledges that, even though they're not a full member of the United Nations because of the difficulty with now what is China, it says let them have their observing status. Which they have been observing status, this kind of reaffirms that, maybe expands it to a small degree. But, as we know, and I mentioned earlier, Xi Jinping has got his eyes on Taiwan. And if Xi Jinping goes towards Taiwan, I think all of us in the Pacific are going to be greatly stressed, in trouble, if not upset violently. And our economy and everything is going down the tube. So, anything we can do for Taiwan, like a reso like this, keep them into the international community, don't make them second class citizens the way they are now. They're treated very, very poorly. And we've got to keep our eyes on what Xi Jinping is possibly doing with Taiwan. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.C.R. And we are 1,417 days away from that date and the county has yet to select a new landfill site. Thank you."

Representative Gates rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Amato rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Alcos rose to speak in support of the measure, stating:

"In strong support. Putting the landfill out at the Waipi'o Complex, it's actually a level ground area by Pearl Harbor. All that waste is going to be leaking into the ocean. What's happening to Red Hill right now with all that gas going into the ocean, all the pollution going into the ocean. After it goes into Pearl Harbor, it goes through the coastline of 'Ewa district, and then goes to Campbell Industrial district and hits Wai'anae coast and then the water goes out to the Pacific Ocean. It doesn't really flow all the way to the west coast. But all that pollution that is going out, and it's not getting filtered by the land, it's going straight into the ocean from really close at that Pearl Harbor level. And having a dump site right in that area, you might as well just throw that rubbish right into the ocean, into Pearl Harbor. That is really going to be a bad place to put a rubbish dump."

"I understand that we need a rubbish dump someplace else, but to take away the soccer complex that we already have for thousands of people using them on the weekend, and still not enough sports complex that we shortage of in our community, I just feel this location is really in need for these kids and it's a bad area where we're thinking of putting the rubbish. It's a big challenge that we face, but strongly support that we try to look for someplace else. Thank you."

Representative Chun rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Chun's written remarks are as follows:

"Mr. Speaker, I stand in support of HR 77, HD 1, which strongly urges the City and County of Honolulu to reconsider using the Waipi'o Soccer Complex as its next landfill."

"The Waipahu community has shouldered the burden of hosting a landfill site. According to Hawai'i State Department of Health data, from 1943 to 1972, the Waipahu Incinerator Ash Landfill and Dump took in municipal solid waste. Despite stopping the disposal of municipal solid waste in 1972, the site continued to take industrial waste, ash, sewage, and sludge until November of 1991. The Department of Health Landfill Report also lists the 'Ewa Sugar Mill/O'ahu Sugar Company - Waipi'o Peninsula, as having a landfill and dump site there although the exact dates are unknown. Not only has Waipahu shared the burden of having a landfill in its community, but the site of the proposed landfill at the Waipi'o Soccer Complex on the Waipi'o Peninsula has already been used in this manner."

"The Waipi'o Soccer Complex is also a prized gem for Hawai'i's soccer community. Many youth tournaments are held throughout the year at the park, also attracting major teams and events from other states and countries. Even the United States Women's Soccer Team utilized the facility for practice when visiting Hawai'i in 2015 after winning the World Cup earlier that year. The Hawai'i High School Athletic Association also uses the facility for state high school tournaments."

"Mr. Speaker, the Waipi'o Soccer Complex is also located next to the Pouhala Marsh Wildlife Sanctuary that shares the same coastline in West Loch. This 70-acre wetland marsh was identified by the United States Fish and Wildlife Service as a 'wetland of critical concern' due to the habitat and wildlife within that area. Having a municipal waste landfill that is so close to a protected wildlife sanctuary raises concerns for the animals and habitat in that area."

"For these reasons, I support HR 77, House Draft 1, and encourage the City and County of Honolulu to look at all options before selecting the Waipi'o Soccer Complex as the next landfill. Thank you, Mr. Speaker."

Representative Lamosao rose to speak in support of the measure, stating:

"Strong support, permission to submit written comments as well. Thank you."

Representative Lamosao's written remarks are as follows:

"The Waipi'o Soccer Complex is a prized gem for Hawai'i's soccer community. Many youth tournaments are held throughout the year at the park, also attracting major teams and events from other states and countries. Even the United States Women's Soccer Team utilized the facility for practice when visiting Hawai'i in 2015 after winning the World Cup. It is a win for our community that we can preserve this space for Hawai'i's athletes to practice and thrive."

Representative La Chica rose to speak in support of the measure, stating:

"Strong support, permission to also insert written comments."

Representative La Chica's written remarks are as follows:

"In strong support of HR 77. As the state representative for Waipi'o, I am deeply concerned about the proposal to turn the Waipi'o Soccer Complex into a landfill. This complex is a lifeline for our community. 30,000 O'ahu soccer players, including many of our *keiki* and their families, rely on these fields for exercise, recreation, and team spirit. We can't simply displace them."

"There are also serious questions about logistics. The Navy controls the land and has plans for it already. Let's be clear: this proposal disrupts not just our community but also critical military projects.

"There must be a better solution for our waste disposal needs. I urge the city council to explore all options and find a way to protect both our environment and the recreational spaces our families depend on."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.R. No. 77, HD 1, entitled: "HOUSE RESOLUTION STRONGLY URGING THE CITY AND COUNTY OF HONOLULU TO RECONSIDER USING THE WAIPIŌ SOCCER COMPLEX AS ITS NEXT LANDFILL SITE," was adopted, Representatives Amato, Gates, and Kila voting no, and with Representatives Cochran, Ganaden, Garcia, Hashem, Holt, and Poepoe being excused.

MEMORANDUM

TO: All House Members
FROM: Speaker Scott K. Saiki /s/ Saiki
SUBJECT: **Conference Procedures - Announcement of Final Conference Drafts**

Effectively immediately, when a conference committee is set to vote upon a bill in conference committee, the lead House chair is required to clearly summarize the purpose and content of the bill before the vote is taken. This applies even where the agreement only consists of an amended effective date (in other words, it is not sufficient to merely explain, for example, that "the conferees agree to the Senate amendments" or "the conferees have agreed to change the effective date to January 1, 2025"). The summary is not meant to be exhaustive; rather, it must only include a general explanation of the purpose and context of the bill and the amendments that have been agreed upon.

This disclosure requirement applies to House lead chairs and applies to both House and Senate bills. If the Senate lead chair does not summarize the content of an agreed-upon Senate bill prior to the vote, then the House lead chair must do so. This requirement also applies where the House conferees meet without the Senate in order to agree to a draft.

The purpose of this new procedure is to reasonably inform the conference committee conferees and the general public of the content of the measure that is being voted upon. An explanation is particularly helpful where no written proposed conference draft has been made available and conferees are requested to vote upon provisions that are only verbally announced. In those situations, an explanation will also assist staff who are drafting the final version of the conference draft.

Please note that because amendments to the Executive operating budget will be announced on a day-by-day basis, the Finance Chair is not required to restate amendments to the budget bill prior to the conference committee vote. Similarly, this requirement does not apply if written lists of CIP and GIA grantees are made available to the House conferees prior to the vote.

Thank you for your assistance with this matter. Please contact my office if you have any questions.

Representative Belatti's written remarks are as follows:

"Mr. Speaker, I stand in support of House Bill 2072, Senate Draft 1 insofar as this is the only measure that appears we will pass as a legislative body this year to enact campaign finance reform.

"The issue addressed in House Bill 2072, Senate Draft 1 arose out of the tragic Lahaina wildfires and requires candidates, candidate committees, and noncandidate committees to disclose that: (1) solicitations for contributions relating to disasters are 'subject to state campaign finance laws;' (2) these 'contributions may be used to influence the outcomes of elections for

political office or votes relating to ballot questions;' and (3) 'persons affected by the disaster may not necessarily benefit from any solicited contribution.'

"I am glad we are able to address this serious concern, but I remain hopeful that we can address other equally serious disclosure and source of contribution concerns with our current campaign finance laws in future legislative sessions. Addressing campaign finance laws such as these – and continuing to provide greater transparency and disclosure of all contributions made to candidates, candidate committees, and noncandidate committees – will go far in restoring the public's trust and confidence in government and our system of regulating the influence of campaign contributions."

The motion was put to vote by the Chair and carried, and H.B. No. 2072, HD 1, SD 1, entitled: "A BILL FOR AN ACT RELATING TO CAMPAIGN FINANCE," passed Final Reading by a vote of 48 ayes, with Representatives Garcia, Kila, and Nakashima being excused.

SUSPENSION OF RULES

On motion by Representative Morikawa, seconded by Representative Pierick and carried, the rules were suspended for the purpose of considering certain House Bills for Final Reading by consent calendar. (Representative Garcia was excused.)

FINAL READING

H.B. No. 1527, HD 1, SD 2:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, H.B. No. 1527, HD 1, SD 2, entitled: "A BILL FOR AN ACT RELATING TO VETERINARY MEDICINE," passed Final Reading by a vote of 50 ayes, with Representative Garcia being excused.

H.B. No. 1595, HD 1, SD 1:

Representative Nakamura moved that H.B. No. 1595, HD 1, SD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Tarnas rose to speak in support of the measure, stating:

"In support, thank you. I wanted to let you know that this bill, in its current form, was one that was proposed by the attorney general. So, it's much more narrow than the version that we approved in the House some time ago.

"Currently, nearly 30,000 people have records for non-conviction arrests for the offense of small possession of cannabis. But even though these 30,000 people are already eligible for expungement, they have to petition the attorney general to go through a process and they have to initiate themselves. Since 2019, only two people have initiated this process.

"So, this pilot project would begin a state-initiated process for these expungements, which means that the attorney general would grant the expungement without a petition. The attorney general calls this a reasonable and cost-effective approach. Many other states are beginning this state-initiated expungement process. And the attorney general will report back to the Legislature before the 2026 session regarding effectiveness and potential expansion of the program. So, I urge all members to support this. Thank you."

The motion was put to vote by the Chair and carried, and H.B. No. 1595, HD 1, SD 1, entitled: "A BILL FOR AN ACT RELATING TO EXPUNGEMENT," passed Final Reading by a vote of 41 ayes to 9 noes, with Representatives Aiu, Alcos, Kila, Kitagawa, Kong, Lamosao, Matsumoto, Pierick, and Ward voting no, and with Representative Garcia being excused.

H.B. No. 1611, HD 2, SD 2:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, H.B. No. 1611, HD 2, SD 2, entitled: "A BILL FOR AN ACT RELATING TO LAW ENFORCEMENT OFFICERS," passed Final Reading by a vote of 48 ayes to 2 noes, with Representatives Alcos, and Pierick voting no, and with Representative Garcia being excused.

H.B. No. 1842, HD 1, SD 1:

Representative Nakamura moved that H.B. No. 1842, HD 1, SD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Hussey-Burdick rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Hussey-Burdick's written remarks are as follows:

"Mr. Speaker, my reservations aren't so much about what this bill does, but rather about what this bill fails to address. This bill was a product of the Wildfire Prevention Working Group, but I was a member of that working group and none of the experts we brought in to advise us on how to prevent future wildfires suggested this bill idea as a solution. They emphasized the need to adequately manage land, reduce invasive grasses, promote native species, discourage land banking, strengthen and enforce the fire code, and repeatedly hammered down on the need to address climate change. Not a single one of those wildfire experts suggested that our arson penalties aren't strong enough. In fact, they said that it's usually very difficult to find the perpetrator whenever intentional arson is suspected, and we learned that accidental ignitions are far more common – 75% of wildfires are caused by accidental ignitions like hot cars parked on dry grass, campfires, fireworks, and downed power lines.

"Numerous studies show that increasing penalties does not actually deter crime because offenders are often unaware of the penalties. Harsher penalties may instead exacerbate recidivism.

"Mr. Speaker, I really thought this year – in the wake of the devastation of Lahaina – would be the year when this body passed strong measures to prevent and prepare for future wildfires. Measures that change the building codes to require multiple ingress and egress evacuation roads for every community. Measures that mandate large landowners to adequately manage fire risk on their land or face stiff penalties. Measures that continue the critical discussion about who should bear the cost of relocating power lines underground in high-risk areas. Measures that combat climate change, recognizing that wildfires and all forms of natural disasters are only going to become more prevalent and more destructive until and unless we drastically reduce greenhouse gasses in our atmosphere. This bill does nothing to address any of these concerns.

"Let's not pretend that this bill will help prevent what happened on Maui from happening elsewhere. Let's pass stronger measures next year and do everything in our power to make sure that nothing like this ever happens again."

The motion was put to vote by the Chair and carried, and H.B. No. 1842, HD 1, SD 1, entitled: "A BILL FOR AN ACT RELATING TO FIRE PREVENTION," passed Final Reading by a vote of 49 ayes to 1 no, with Representative Hussey-Burdick voting aye with reservations, with Representative Pierick voting no, and with Representative Garcia being excused.

H.B. No. 1869, HD 1, SD 2:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, H.B. No. 1869, HD 1, SD 2, entitled: "A BILL FOR AN ACT RELATING TO UNMANNED AIRCRAFT," passed Final Reading by a vote of 50 ayes, with Representative Garcia being excused.

H.B. No. 2071, HD 1, SD 1:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, H.B. No. 2071, HD 1, SD 1, entitled: "A BILL FOR AN ACT RELATING TO PHOTO RED LIGHT IMAGING DETECTOR SYSTEMS," passed Final Reading by a vote of 47 ayes to 3 noes, with Representatives Alcos, Amato, and Souza voting no, and with Representative Garcia being excused.

H.B. No. 2295, HD 1, SD 1:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, H.B. No. 2295, HD 1, SD 1, entitled: "A BILL FOR AN ACT RELATING TO THE TRAFFIC CODE," passed Final Reading by a vote of 50 ayes, with Representative Garcia being excused.

H.B. No. 2342, HD 1, SD 2:

Representative Nakamura moved that H.B. No. 2342, HD 1, SD 2 pass Final Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"Thank you, in opposition. This bill basically clarifies that men and women cannot conceal butterfly knives and switchblade knives. So, if a woman wants to maybe walk somewhere, maybe in town and maybe other parts of Hawai'i that aren't as safe as others, if they're having a knife in their purse, this bill clarifies that it's illegal. I don't think that's a good direction. I think we should be arming people to protect themselves. Thank you."

Representative Aiu rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Aiu's written remarks are as follows:

"I rise with reservations regarding HB 2342. HB 2342 creates a separate Class C felony offence for those that commit a misdemeanor offense if they possess a firearm, whether loaded or not, and whether operable or not, at the time of the commission of the misdemeanor offence. While I strongly support tough penalties for those that commit crime, this bill has the

potential to create a plethora of unintended consequences that will treat individuals that commit non-violent, misdemeanor offenses as felons. For example, if a person is driving without their license, normally a misdemeanor offense punishable up to 30 days in jail and a \$1,000 fine, is pulled over and also has an unloaded or inoperable firearm in the vehicle, this bill may impute to the individual an additional potential Class C felony offence which may be punishable by up to a 5-year prison sentence and \$10,000 in fine."

The motion was put to vote by the Chair and carried, and H.B. No. 2342, HD 1, SD 2, entitled: "A BILL FOR AN ACT RELATING TO WEAPONS," passed Final Reading by a vote of 42 ayes to 8 noes, with Representative Aiu voting aye with reservations, with Representatives Alcos, Gates, Kila, Kong, Matsumoto, Pierick, Souza, and Ward voting no, and with Representative Garcia being excused.

H.B. No. 2352, HD 1, SD 2:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, H.B. No. 2352, HD 1, SD 2, entitled: "A BILL FOR AN ACT RELATING TO LAW ENFORCEMENT," passed Final Reading by a vote of 50 ayes, with Representative Garcia being excused.

H.B. No. 2425, HD 2, SD 2:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, H.B. No. 2425, HD 2, SD 2, entitled: "A BILL FOR AN ACT RELATING TO THE CHILD ABUSE AND NEGLECT CENTRAL REGISTRY," passed Final Reading by a vote of 50 ayes, with Representative Garcia being excused.

H.B. No. 2444, HD 1, SD 1:

Representative Nakamura moved that H.B. No. 2444, HD 1, SD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Hussey-Burdick rose to speak in opposition to the measure, stating:

"No vote and brief comment. One in three American adults have some kind of criminal record. Hemp is a highly versatile and useful plant that's so harmless that even George Washington grew it. Especially when, on one hand, we're talking about providing social equity opportunities for individuals and communities who have been most harmed by the war against drugs, I just don't think there's any need for anyone to have to pass a background check in order to grow hemp. Thank you."

The motion was put to vote by the Chair and carried, and H.B. No. 2444, HD 1, SD 1, entitled: "A BILL FOR AN ACT RELATING TO CRIMINAL HISTORY RECORD CHECKS," passed Final Reading by a vote of 48 ayes to 2 noes, with Representatives Amato and Hussey-Burdick voting no, and with Representative Garcia being excused.

H.B. No. 2483, HD 1, SD 2:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, H.B. No. 2483, HD 1, SD 2, entitled: "A BILL FOR AN ACT RELATING TO CRIMINAL HISTORY RECORD CHECKS," passed Final Reading by a vote of 50 ayes, with Representative Garcia being excused.

H.B. No. 2513, HD 1, SD 1:

Representative Nakamura moved that H.B. No. 2513, HD 1, SD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Pierick rose to speak in opposition to the measure, stating:

"Thank you, in opposition. This bill is basically a weak-on-crime bill. When I went door to door throughout 'Ewa Beach and Waipahu, many constituents told me that they want to have tough-on-crime policies. They want less crime in the west side. So, this bill would, to some extent, open the door for more crime. Because if somebody, let's say at 18 years old, commits a certain offense, this bill would allow that offense to be expunged.

"I've volunteered multiple years at the Kapolei Juvenile Detention Facility, leading studies and counseling youth there. And there are a lot of youth that need consequences for their action. I've witnessed this firsthand account. And so, this bill I don't think would be helping our community. So, I'm voting no."

The motion was put to vote by the Chair and carried, and H.B. No. 2513, HD 1, SD 1, entitled: "A BILL FOR AN ACT RELATING TO EXPUNGEMENT," passed Final Reading by a vote of 47 ayes to 3 noes, with Representative Ward voting aye with reservations, with Representatives Kila, Kong, and Pierick voting no, and with Representative Garcia being excused.

H.B. No. 2526, HD 2, SD 1:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, H.B. No. 2526, HD 2, SD 1, entitled: "A BILL FOR AN ACT RELATING TO MOTOR VEHICLES," passed Final Reading by a vote of 47 ayes to 3 noes, with Representatives Gates, Hussey-Burdick, and Pierick voting no, and with Representative Garcia being excused.

At 12:18 p.m., the Chair noted that the following bills passed Final Reading:

H.B. No. 1527, HD 1, SD 2
H.B. No. 1595, HD 1, SD 1
H.B. No. 1611, HD 2, SD 2

H.B. No. 2342, HD 1, SD 2
H.B. No. 2352, HD 1, SD 2
H.B. No. 2425, HD 2, SD 2

H.B. No. 2483, HD 1, SD 2

At this time, the Chair stated:

"Members, please turn to your digital action sheets. We will be taking up two motions. One to suspend the rules to reconsider our previous action in disagreeing to the Senate amendments, and one to reconsider our previous action and give notice of intent to agree."

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, the rules were suspended for the purpose of reconsidering action previously taken in disagreeing to amendments made by the Senate to certain House Bills. (Representative Garcia was excused.)

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. I'd like to thank the introducers of this measure. They have a good heart and a good intention behind it. Albeit the same, the negative

part about this resolution is that it discourages the Judicial branch applying fines to minors, believing that it doesn't effectively deter their actions. I disagree with this. When I was raised, my parents fined me for when I misbehaved and I'm grateful for that. I believe that fines are an effective way to deter children's behaviors and get them in the right direction."

Representative Ganaden rose to speak in support of the measure, stating:

"In support, Mr. Speaker. The data from across the world and the United States suggests that fines do not deter criminal behavior from minors, in fact it's just the opposite, it encourages minors to not want to work with authority figures. There are much better ways to deal with minors in the justice system. When the Judiciary testified, they said that they largely have discouraged using fines. They needed this to do better assessment after a resolution that was passed last year. In support."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.C.R. No. 213, SD 1, entitled: "SENATE CONCURRENT RESOLUTION REQUESTING THE OFFICE OF THE ADMINISTRATIVE DIRECTOR OF THE COURTS TO COLLECT, COMPILE, AND SHARE DATA ON THE ASSESSMENT OF FEES, COURT COSTS, FINES, AND RESTITUTION IN CASES AGAINST MINORS," was adopted, with Representative Pierick voting no, and with Representatives Cochran, Garcia, and Quinlan being excused.

SUSPENSION OF RULES

On motion by Representative Morikawa, seconded by Representative Pierick and carried, the rules were suspended for the purpose of considering certain House Bills for Final Reading by consent calendar. (Representatives Cochran, Garcia, and Quinlan were excused.)

FINAL READING

H.B. No. 159, HD 1, SD 1:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, H.B. No. 159, HD 1, SD 1, entitled: "A BILL FOR AN ACT RELATING TO LIQUOR LICENSES," passed Final Reading by a vote of 49 ayes, with Representatives Cochran and Garcia being excused.

H.B. No. 470, HD 2, SD 2:

Representative Nakamura moved that H.B. No. 470, HD 2, SD2 pass Final Reading, seconded by Representative Morikawa.

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I stand in strong support of House Bill 470, SD 2, with brief remarks. I promise this will be brief, Mr. Speaker. This is a really important bill as it addresses a very important gap group within our homeless population.

"In 2023, three unsheltered youths died while living on the streets of O'ahu. One of the three homeless youths who died was Acacia Lynzey Kaiu-Brown, a young woman of Nānākuli, Hawai'i, who died on the streets of Kailua on July 25, 2023. She was born here in Honolulu. Like Acacia, almost one in four homeless youth reported that their reason for becoming homeless is physical abuse or parental substance abuse. More than half of unhoused youths who want to access shelter and services are told it is not available.

"We know from the Department of Education, there are 3,542 students in unstable housing in the last two years. In 2021, this body passed Act 23, which allowed for unaccompanied minors to consent to a no cost emergency shelter and related services. But this act sunset on June 30th, 2023, nearly a month before Acacia Kaiu-Brown died on the streets of Kailua. That act ensured that young people experiencing homelessness had safe and secure shelter where they could be stabilized, heal, and access resources, including much needed mental health treatment, suicide prevention, and drug counseling.

"Mr. Speaker, this bill today will allow those vulnerable unhoused minors to once again have pathways to end their homelessness by allowing vetted community providers to provide a safe and low barrier alternative to licensed child caring institutions.

"Mr. Speaker, I would like to thank the introducer of this bill, the representative from Waikiki, and the Human Services chair for working so diligently on making sure this bill got over the finish line. Thank you, Mr. Speaker."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations, brief comment. Mr. Speaker, these kids need help. They need a safe haven like this. Unfortunately, too many are out there. And I want to cite the hope that we have that this bill does not have to be used so often. As the governor stood there in the State of the State and said, the goal of the homeless czar, our former Representative Mizuno, is to cut homelessness by 50% in the next three years. That is a great goal if it's accomplishable. Some things, in like the tragedy of Acacia, should not happen again. But for immediate purposes, this is a necessary step. Thank you, sir."

Representative Alcos rose to speak in opposition to the measure, stating:

"In oppose. Mr. Speaker, I like this bill that is helping out the homeless or the kids that is in need, especially the ones that are getting abused. I think that is a really important bill that we pass. But what about if I had a kid that their cell phone got taken away and they want to run away. And you go to the shelter, I have no idea where that kid is. I have 30 days not knowing where my kid is going, just because you take away their cell phone.

"Nowadays we take away their cell phone is more worse than lickings. The kid's crying because they cannot communicate with their friends or cannot go on Instagram or TikTok or whatever social media it is. And they run away from your home. And yet, as a parent, we don't know where they going. We cannot find out because if the kid does not let the shelter know who their parent or what their parent is, I wouldn't be able to sleep at night. I wouldn't be able to know where my kid is going. I mean, I would search day and night to try to find that kid.

"Now, if there's some kind of word in the language that we can change this bill or that they have to call your parent, or the kids would have to let you know where your parent is or what's going on, I would understand, maybe, we have that kind of thought. But then I understand where the kid can get hurt or would get on the opposite side of it. But as a parent, imagine now a lot of kids run away from home just because of, you feel like you cannot even call your boyfriend or girlfriend and you're breaking up that relationship. But that's life skills that they start going out, and a lot of teens

run away because of that. How do we protect parent's rights at that point? That's the reason why I oppose this bill. Thank you."

Representative Marten rose to speak in support of the measure, stating:

"In support. I just wanted to clarify that, among the many services that these shelter provides, the first is assistance in reunification with the family if they deem it appropriate. If the child is being abused by their family, then that would not be appropriate, but in most other situations it is, and they try to help with that and also do family counseling. Thank you."

Representative Tam rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I would just like to have the words of the Health chair and the words of the Human Services chair inserted into the Journal as if they were my own, except for the part where she was thanking the introducer, of course. But I just also want to say that, let's say that your child does run away. I think that any parent would rather have their child being sheltered than on the street, where they are subjected to illness and possible death. Thank you."

The motion was put to vote by the Chair and carried, and H.B. No. 470, HD 2, SD 2, entitled: "A BILL FOR AN ACT RELATING TO MINORS," passed Final Reading by a vote of 47 ayes to 2 noes, with Representative Ward voting aye with reservations, with Representatives Alcos and Pierick voting no, and with Representatives Cochran and Garcia being excused.

Representative Alcos rose to speak in opposition to the measure, stating:

"Oppose. This bill want a cease fire, prohibit cease fire. And supporting Israel, I don't feel that Israel want to go in there and kill anybody. They don't want to kill a woman, a child, man. What I feel that they want to go in there is try to save their hostage and try to protect their country. It's like if someone go in your house, breaks in, take your family members, rape them, kill them, cut their head off, or do whatever that they're doing to your family member or your friends or your country. And yet we're going to ask them to please stop, cease fire. And we're going to try to cease fire and tell them to stop shooting and stop trying to not kill.

"When Hamas is trying to hide behind the Palestinians and trying to make like, if was my family, if I went in this guy's house, take their family, bring him out, kill him, or rape them. And yet I'm going to use my family member to stand in front of the door in case there's going to be any retaliation. And yet hide behind the Palestinian. I feel that you shouldn't be hiding. I think they should come up. Hamas should return the hostages as needed. And in Genesis 12:3, we should be, if our nation don't stand behind Israel, it says that we would be a blessed nation if we protect and stand with Israel. So those reasons, I oppose on this."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. I'd like to have the words of the previous speaker adopted as my own and also share the following. This resolution kind of paints them as equals. Hamas is a terrorist group. They are murdering people, they're raping people, they're hostageing people. That's not good. We don't like that. Israel is the good guy. They're the good group in this picture. And so, we don't want to be telling them, you guys need to stop shooting, if that is the way that they can deter more rapes, more hostages being taken by Hamas. So, we are an island state in the middle of the Pacific Ocean, and this is a conflict in the Middle East and the other end of the world. I don't think we have much of a say when it comes to how Israel should be protecting their citizens against a terrorist group. Thank you," and the Chair "so ordered." (By reference only.)

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition. Israel is one of our strongest allies, Mr. Speaker, and how dare we turn our backs on them. The reso talks about the killing of innocent civilians, and it's an unfortunate reality that with war comes the death of innocent civilians. But let's also be clear that what happened on October 7th was initiated by a terrorist organization, Hamas. And there were Jews, over a thousand Jews, who were massacred, who were slaughtered, who were burnt alive. It was inhumane. And we should stand with Israel until every last member of Hamas is stamped off of the face of the earth. No vote."

Representative Ward rose to speak in support of the measure with reservations, stating:

"I rise with reservations. Mr. Speaker, this is better than the one we had the last time, which was very out of balance. I really like the title of this one. We got to stop the fighting, we've got to restore peace. Both the Jews and the Arabs enjoy peace. But remember, this is a 6,000-year battle. We know

more recently, the Holocaust tried to get rid of the Jews. And then this is probably the next biggest one.

"But as a human being, where I feel insulted, embarrassed, and otherwise squeamish, how can one race, one country say you don't have a right to exist? I mean, are we still barbaric, living out of caves, saying you don't have a right to live. You live on the Big Island, you don't have a right to exist. I have no right to say that. The Arabs have no right to say that to the Jews. And anybody who's saying from the mountains to the sea or whatever, that is so barbaric.

"The point is, this has got better balance. But as I said earlier, I worked for USAID with President Bush. We gave a billion to the Jews, we gave a billion every year to the Arabs in Gaza, the Palestinian Authority. And what did they do with it, they got thousands of miles, hundreds of miles of underground tunnels, instead of feeding and giving their people nurture, training, *et cetera*. So, Mr. Speaker, we haven't heard the last of this. But if we're not balanced, the Middle East is a powder keg.

"And recently the Iranians sent stuff directly into Israel, and the Israelis sent stuff directly back. We don't know where that stands. Even as we speak, we don't know the position that it's going to do.

"So, we've got to calm down. It's got to be balanced. And as my colleague said, this looks like the way that's been going around in the nation that, hey, if you're Palestinian, you ra ra ra and you don't give the Jews time of day. But again, my biggest disappointment is how can one nation, one country, one ethnic group say to another, you have no right to exist? That is shame on we as human beings. Thank you, Mr. Speaker."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. First, I would like to start off by thanking the members of this body who are calling for a cease fire and who have been advocating for a cease fire. I think we've all stood in different spaces on this particular resolution. I would also like to thank the chair of Culture, Arts, & International Affairs for his work on trying to make a balanced resolution that this body could hear on this floor. This is that, and I'm grateful. I would also like to thank the chair of Judiciary & Hawaiian Affairs for also trying to work on making sure that this resolution would come to the floor.

"I would like to point out that there is a mistake in the third whereas clause. It currently says that this violence has claimed the lives of more than 13,000 Palestinians, and that is inaccurate. This violence has claimed the lives of more than 33,000 Palestinians. I would also like to point out that one of the things that this resolution talks about is a lack of food, and that's why we're calling for a cease fire. The lack of food that's mentioned in here makes it seem like that's the only reason we're calling for a cease fire and makes it seem like this is not a manmade created problem.

"This is a genocide of Palestinian people. And I want that to be very clear in how I feel about this. We've heard many, many individuals come and testify in this Capitol. We've heard them talk about people dying. We've heard people talk about family members being killed. We've heard Palestinians who are going there as doctors to try and help relieve hospitals. Where we have one hospital on the very edge that's not even really a hospital anymore because it's so tattered and torn down and bombed. These doctors, these surgeons, can barely do first aid in these spaces.

"One of the things that I'm so grateful for is that I know that I have a safe home for my child. When we talk about Palestinians, none of them are safe. At any moment, someone can come in and take their home and kill their children and rape their wives, and that's not okay. In the testimony that we received from a young woman who has family members in Palestine, she talked about pregnant women being raped in hospitals while their family members, their husbands, their husband is forced to watch. There's nothing right about that.

"This resolution has some issues, but it is trying to find balance and it is trying to find justice. And Dr. King once said that justice is what love looks like in public. And I think that this is a small step towards that. That's why I'm supporting this.

"And I think it's also really important to mention that this genocide is being paid for by American tax dollars. Our money is going there and paying for this. This is money that could be used for affordable housing, for health care, for a million other things that we need here in Hawai'i, here in the U.S. So, I think that's why we should care. And I think that it's important that we call for a cease fire and one day, a free Palestine. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, if I came up on that rostrum and punched you in the nose and then you beat me up, that would probably be justified."

The Chair addressed Representative Ward, stating:

"Representative Ward, stick to the merits of the measure."

Representative Ward continued, stating:

"Here is my point, with reservations. My point is, Mr. Speaker, if this is genocide, who's the one who started this fight? October 7th. No, no, no, Israel didn't start the fight. Israel was attacked on October 7th. Learn your history. Sounds like Fauci science."

The Chair then stated:

"Order. First of all, members of the audience, in order to maintain order and decorum in the Chamber, I will ask the audience to refrain from any outbursts or demonstrations which may disrupt the deliberations and proceedings on this floor. Disruption of these proceedings is in violation of the rules of the House and the Hawai'i state law. Thank you."

Representative Ward continued, stating:

"Thank you, Mr. Speaker. That was a good reminder of civility. The point is, Israel wasn't looking for a fight. It came upon them on October 7th. That is the bottom line of what has transpired. Or now, if they've gone faster and harder against the enemy, they weren't looking for the fight, they came to the fight. So, that's why I said if I came up and punched you and then you beat me up, it was totally justified. Thank you."

At this time, Representative Saiki called for the previous question.

The motion was put to vote by the Chair and carried, and S.C.R. No. 13, SD 1, HD 1, entitled: "SENATE CONCURRENT RESOLUTION URGING THE MEMBERS OF HAWAII'S CONGRESSIONAL DELEGATION AND THE BIDEN ADMINISTRATION TO CALL FOR AN IMMEDIATE, PERMANENT BILATERAL CEASEFIRE IN GAZA AND THE RETURN OF ALL HOSTAGES, AND TO CONTINUE NEGOTIATIONS FOR LASTING PEACE IN THE REGION," was adopted, with Representatives Matsumoto and Ward voting aye with reservations, with Representatives Alcos, Garcia, and Pierick voting no, and with Representatives Evslin, Holt, Ichiyama, Kong, Lowen, Nakashima, and Quinlan being excused.

And request additional written comments. Thank you."

Representative Chun's written remarks are as follows:

"Mr. Speaker, I rise in strong support of House Bill 1974 House Draft 1, Senate Draft 1, which increases the monthly needs allowance for those living in long-term care facilities. At the beginning of the legislative session, this was identified as one of the top priorities for the legislative Kupuna Caucus and I want to thank the chair of Human Services for her work on this as well as the Senate Ways and Means vice chair, the Senate co-convenor of the legislative Kupuna Caucus.

"Mr. Speaker, the funding for the personal needs allowance comes from the federal Supplemental Security Income Program and does not have a direct impact on the state budget or general fund. The last increase to the personal needs allowance was nearly 16 years ago, when the allowance was increased from \$30 to \$50 in 2007. The monthly needs allowance is crucial because it allows individuals residing in adult foster homes, adult residential care homes, domiciliary homes, and other long-term care facilities to purchase necessary items. With the rising costs of goods, the \$50 has become a barrier to providing personal items such as basic toiletries, linens, meals, and snacks. This modest \$25 increase is long overdue and will help so many people achieve or continue their self-determination and independence.

"For these reasons, I stand in strong support of House Bill 1974, House Draft 1, Senate Draft 1. Thank you, Mr. Speaker."

Representative Marten rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I just wanted to thank the members of the Filipino Caucus that have been advocating on behalf of this service that is provided largely by our Filipino population, that takes such good care of our *kūpuna* in the community at a cost that's much lower than institutionalizing our *kūpuna*. And for this amazing service that they have provided us, they have not had any increase in their reimbursement from the state for 16 years, despite the cost increases.

"So, while it's sad that it took so long, I'm glad that this year, between this and some other measures, we are finally giving them their due. And I just wanted to give a special thanks to the representatives from District 4, from District 36, 40, and 29 for their strong advocacy for all of these measures. Thank you."

Representative Pierick rose to speak in support of the measure, stating:

"In support, thank you. This bill basically helps caregivers and foster caregivers for those who are *kupunas* and adults that need care. This bill is going to give them more money, and that's definitely a need in our community. In Waipahu and 'Ewa Beach, we have many care homes that provide such love and compassion towards these people. So, thank you."

Representative Ganaden rose to speak in support of the measure, stating:

"Mr. Speaker, I'd like to adopt the words of the chair of Human Services as if they were my own. Also, in appreciation of the advocates, the many care home operators in lower Kalihi. Also noting that the State of Hawai'i is aging. We are aging faster than other states and other communities, and this is going to be an increasing sector of our economy. Paying more attention to them in this session and in future sessions is essential. Thank you."

The motion was put to vote by the Chair and carried, and H.B. No. 1974, HD 1, SD 1, entitled: "A BILL FOR AN ACT RELATING TO SOCIAL SERVICES," passed Final Reading by a vote of 48 ayes, with Representatives Holt, Kong, and Nakashima being excused.

H.B. No. 2216, HD 2, SD 2:

Representative Nakamura moved that H.B. No. 2216, HD 2, SD 2 pass Final Reading, seconded by Representative Morikawa.

Representative Lamosao rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'd like to thank the chair of Human Services for her continued support and hard work and the rest of the members who also supported this measure as well.

"Mr. Speaker, I stand in strong support of HB 2216, a vital piece of legislation that seeks to alleviate the burdens faced by our caregivers here in Hawai'i, many of whom are of Filipino descent. This bill is about the very fabric of our community, the well-being of our *kūpuna* and disabled population, and the fundamental values of compassion and support that define us as a state.

"As we all know, the cost of living in Hawai'i has escalated over the years, making it increasingly challenging for caregivers to make ends meet. The disproportionate prices of housing, food, and other essentials weigh heavily on their shoulders, threatening their ability to provide the care and support our most vulnerable so desperately need.

"Our care home providers are not just caregivers, they are pillars of our community, integral to the fabric of Hawai'i. They deserve more than just our gratitude, they deserve tangible support, the kind that allows them to provide the highest quality of care to *kūpuna* and our disabled population, without worrying about financial strain.

"So, Mr. Speaker I urge this body to pass HB 2216. Let us send a clear message that we value the dedication and sacrifice of our caregivers, that we are committed to ensuring that they have the resources they need to continue their invaluable work. *Mahalo.*"

Representative M. Mizuno rose to speak in support of the measure, stating:

"I rise in strong support. How would you feel if you never got a pay raise in 16 years? Our care home providers have not received a pay increase since 2008, when former representative John Mizuno first introduced legislation to adequately compensate our valued caregivers.

"Care home operators are an essential part of the state's long-term care system. They provide over 8,300 beds for our elderly and disabled, double the number of beds nursing homes provide. They provide a home-like setting for our *kūpuna* and provide not only physical care, but emotional support and companionship, where our *kūpuna* become part of a family. This compassionate care gives our *kūpuna* purpose, companionships, hope, and the love of being part of an *'ohana* throughout their golden years.

"People sometimes forget that caregivers work 24 hours a day. If you break down their compensation by the hour, they are by far the lowest paid employees in the state.

"We all see the inflation at the grocery store and the steady increase in cost of living. Our caregivers have been struggling with these increased costs for 16 years, to the point where many have reached a breaking point. This increase is long overdue, and I'm grateful to be a co-author to this bill to give the caregivers a pay raise.

"For the foregoing reasons, I ask all members to vote in support of House Bill 2216 to give a pay raise to our community caregivers. Thank you, Mr. Speaker."

Representative Chun rose in support of the measure and asked that the remarks of Representatives Lamosao and M. Mizuno be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Martinez rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I would like also to adopt the words of the representative from Waipahu and Kalihi as my own words," and the Chair "so ordered." (By reference only.)

Representative Martinez continued, stating:

"And with additional comments. Today I stand before you to advocate for our collective support on the crucial legislative measure, HB 2216, HD 2, SD 2. This measure seeks to address the necessary pay increase of home caregivers who provide care and the living space for adults with foster care needs and those with adult disabilities.

"Last session, the representative from Waipahu and I authored a bill to increase their pay, however, it did not move forward because the bill was not financed. Then, during the interim, the Senator from Puna and I met with the different stakeholders in the care home industry. We met with the representatives from the Department of Human Services and, of course, with the Finance chair for this bill. Then, during the beginning of this session, I authored another bill that would address this issue. However, even if my bill was not heard or scheduled from the chair of Human Services, I still stand in support of HB 2216, because at the end of the day, these care givers really need the increase in pay, and it's been about 14 years.

"Caregiving is imperative. I helped to establish a local union for the adult home caregivers, and it is my duty to advocate for their needs. As many of you are aware, caregivers play an indispensable role in our society, providing essential support and care to our loved ones in their time of need. However, it's essential to recognize that a significant portion of these caregivers are Filipinos and are also from the communities from 'Ewa Beach, Waipahu, Kalihi, and Honolulu, and others, and have been marginalized for too long.

"Through thoughtful collaboration and bipartisan effort, we can enact positive change and uphold the values we hold dear. I urge each of you to consider the vital contributions of caregivers and join me in supporting this measure for the betterment of our community. Our caregivers work tirelessly, and they deserve a much-needed increase yesterday. *Mahalo*, Mr. Speaker."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support, brief remarks. If I may have the words of the representatives from Waipahu and Kalihi Valley inserted as if they were my own as well. In strong support. This measure and the one before has long been priorities of the Health and Human Services Committees, so I want to thank all of those folks who did work on these two important measures. Thank you, Mr. Speaker," and the Chair "so ordered." (By reference only.)

Representative Alcos rose to speak in support of the measure, stating:

"In strong support. I'd like to adopt the words from representative from Kalihi. And I just said it's about time and I wish they get even more of a bigger pay raise. Thank you," and the Chair "so ordered." (By reference only.)

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, strong support. I'd like to thank the Mizuno family who kicked this off years ago. And I always worked with John when he did this. And now, I would like to say in a complimentary way that if you would add the words of the representative from Kalihi, with the same name, with the same purpose, that she keep doing this year by year. Thank you, Mr. Speaker," and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and H.B. No. 2216, HD 2, SD 2, entitled: "A BILL FOR AN ACT RELATING TO CARE

HOMES," passed Final Reading by a vote of 48 ayes, with Representatives Holt, Kong, and Nakashima being excused.

H.B. No. 2393, HD 1, SD 1:

Representative Nakamura moved that H.B. No. 2393, HD 1, SD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support, brief remarks. Mr. Speaker, I'd like to thank the chairs of Consumer Protection & Commerce and Finance for working on this measure. This is an important measure that will increase access to services for mammography to detect breast cancer in women. This is a very tricky area of the law, Mr. Speaker, an area that includes state mandated health insurance benefits where we see the intersections of overlapping authorities from the federal Affordable Care Act, our groundbreaking state Prepaid Health Care Act, and the unique one and only ERISA exemption that is provided to the State of Hawai'i for our Prepaid Health Care Act.

"This measure is wading into the area of essential health benefits but does it in a way that that complies with both the federal Affordable Care Act and guidance coming out of the Centers for Medicare & Medicaid Services by ensuring a base level of coverage for breast cancer screening under current insurance mandates, based on coverage for other radiological exams. As we continue to move forward with other health insurance mandates that this body is considering, I think that we need to take a very cautious approach like the one taken in this measure. Thank you, Mr. Speaker. In strong support."

The motion was put to vote by the Chair and carried, and H.B. No. 2393, HD 1, SD 1, entitled: "A BILL FOR AN ACT RELATING TO TITLE 24, HAWAII REVISED STATUTES," passed Final Reading by a vote of 48 ayes, with Representatives Holt, Kong, and Nakashima being excused.

At 12:36 p.m., the Chair noted that the following bills passed Final Reading:

H.B. No. 1578, HD 2, SD 1
H.B. No. 1974, HD 1, SD 1
H.B. No. 2216, HD 2, SD 2
H.B. No. 2393, HD 1, SD 1

Representative Kila: "Thank you, Mr. Speaker. Last week Thursday and Friday, the Office of the Lieutenant Governor invited folks to support the Hawai'i Food Bank through their initiatives. And also in that same capacity, she invited local businesses to partake in the food drive by allowing us to support them on the 5th floor. I want to extend a huge *mahalo* to the Office of Lieutenant Governor for not just supporting the Hawai'i Food Bank but supporting our local businesses as well. With the business from House District 44, the business of the many folks in the Legislature in both chambers, by staff as well, was greatly appreciated. So, thank you folks so much."

MEMORANDUM

TO: All House and Senate Members

FROM: President Ronald D. Kouchi

Speaker Scott K. Saiki

RE: Extension of Budget Decking Deadline

On December 21, 2023, we issued the 2024 Legislative Timetable, which designated April 22, 2024 as the deadline to file the budget bill to deck for Final Reading ("Budget Decking").

While members of the Senate Committee on Ways & Means and the House Committee on Finance have been earnestly and diligently working to finish work on the budget on time, additional time is necessary to complete negotiations. As it would be contrary to the interests of the State of Hawaii to allow the budget to remain incomplete due to an internal legislative deadline, we hereby extend 2024 Budget Decking to April 23, 2024 at 11:30 p.m. for filing conference committee reports and conference drafts for the following bills:

HB 1800 RELATING TO THE STATE BUDGET

HB 1911 RELATING TO THE JUDICIARY

The other time deadlines established pursuant to Rule 11 of the 2024 Joint House and Senate Committee on Conference Procedures, namely conclusion of negotiations by 6:00 p.m. and availability of conference committee reports by 9:00 p.m., shall remain in place.

This deadline extension is made pursuant to the authority granted to us as the presiding officers of our respective chambers and by Rule 13 of the 2024 Joint House and Senate Committee on Conference Procedures.

ADOPTION

H.C.R. No. 52, HD 1, SD 1:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, H.C.R. No. 52, HD 1, SD 1, entitled: "HOUSE CONCURRENT RESOLUTION URGING THE DEPARTMENT OF LAW ENFORCEMENT, FIRE DEPARTMENTS AND POLICE DEPARTMENTS OF EACH COUNTY, HUMANE SOCIETIES IN EACH COUNTY, AND MEDIA ORGANIZATIONS THROUGHOUT THE STATE TO COLLABORATE TO CREATE AND DISSEMINATE PUBLIC SERVICE ANNOUNCEMENTS TO HIGHLIGHT THE DANGERS OF, AND ADVOCATE AGAINST THE USE OF, ILLEGAL FIREWORKS IN ORDER TO PROTECT THE HEALTH AND SAFETY OF THE COMMUNITY, PETS, AND WILDLIFE," was Adopted, with Representatives Lowen and Quinlan being excused.

H.C.R. No. 70, HD 1, SD 1:

Representative Nakamura moved that H.C.R. No. 70, HD 1, SD 1 be Adopted, seconded by Representative Morikawa.

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. My grandmother's brother was addicted to gambling. This bill inadvertently encourages people to gamble in Hawai'i. Hawai'i is one of the only states in our nation that doesn't allow gambling, and I think that that should continue to be the same. We don't want people to become addicts."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I have a brief comment with my no vote. This monetizes talent. It monetizes people who are skilled, who are muscular, who are talented or tall. But the unfortunate thing is that, if you remember in the old boxing days when they would throw a fight, throw a fight means you faked that you've got knocked down because you knew the money was on you. And because of that, it's like all of us in here, if we're in this building for the money, we're in the wrong business. And if we're in there to monetize these people by having this, to me, it's the nose of the camel in the tent. This will lead itself, probably, to something further, because this will not be enough when we do sports betting."

"I think already we have a chance to do this on the federal level. So, bringing it to Hawai'i I think would be a bad idea and negative on the basis of our economic wellbeing, particularly ALICE families. And those who gambling are the ones who, this is the literature talking, those who gamble the most are the ones who can least afford to lose. And that's an unfortunate statistic. Thank you."

Representative Alcos rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and H.C.R. No. 70, HD 1, SD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE DEPARTMENT OF BUSINESS, ECONOMIC DEVELOPMENT, AND TOURISM TO CONVENE A SPORTS WAGERING WORKING GROUP TO CONDUCT AN ANALYSIS OF THE POTENTIAL LEGALIZATION AND REGULATION OF ONLINE SPORTS WAGERING IN HAWAII," was Adopted, with Representatives Alcos, Garcia, Pierick, and Ward voting no, and with Representatives Lowen and Quinlan being excused.

No. 71, HD 1, SD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE DEPARTMENT OF HEALTH TO CONVENE A STAKEHOLDER WORKING GROUP TO MAKE RECOMMENDATIONS TO ENHANCE MEANINGFUL ACCESS TO HEALTH CARE IN THE STATE THROUGH THE PROVISION OF LANGUAGE ASSISTANCE SERVICES," was Adopted, with Representatives Lowen and Quinlan being excused.

H.C.R. No. 91, HD 1, SD 1:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, H.C.R. No. 91, HD 1, SD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE DEPARTMENT OF HUMAN SERVICES TO ESTABLISH A WORKING GROUP TO ADDRESS ISSUES RELATING TO REIMBURSEMENTS AND PAYMENTS TO HOME- AND COMMUNITY-BASED SERVICES PROVIDERS," was Adopted, with Representatives Lowen and Quinlan being excused.

Representative Nakamura moved that H.C.R. No. 138, HD 1, SD 1 be Adopted, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. Our legislative body convenes for about four months out of the year, 60 legislative days. And during this time, we have lobbyists that come to us and get us to vote one way or another. If we were to extend our legislative session throughout the year, it may invite lobbyists to try to convince us throughout the year, thus potentially encouraging bribes throughout the year. I'm voting no."

Representative Nakamura rose to speak in support of the measure, stating:

"In support. Our county councils throughout our state operate year-round. They have budgets a fraction of the state's budget. Mr. Speaker, this is simply a study to look at what other states are doing, to look at what works, what doesn't work, what systems need to change. But it is a way to try to look at different ways of running the state legislature. Thank you."

Representative Ganaden rose to speak in support of the measure, stating:

"In support, Mr. Speaker. The State of Hawai'i, being the last state of the Union, has picked up many responsibilities that are ordinarily handled by the county, including education. For that reason, there are many bills that die for no reason other than we've run out of time. I'm in strong support of considering extending the work that we do here in this chamber and in this building. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, thank you. Last week or the week before, I was on Insights on the subject of should we have a full-time legislature. On the side of no, there shouldn't be, was myself and Senator Joy San Buenaventura. And on the side for yes, we should have, was Senator Stanley Chang and the representative from the League of Women Voters.

"The argument was, and I think we've already heard some on the floor, that it's going to give us more time to do more deliberative, more intellectually sound areas. Like the 2,000 bills that we introduced four months ago, we're going to boil them down probably next Wednesday to about 200 bills. Will that increase the ability? Maybe or maybe not. I mean, why do we have a reading as the Legislature of 18% in the eyes of the public?

"This, by the way, will cost three times the amount. I think we have \$25 million a year for running the Legislature, and it would probably become three times the amount. And if you ask people, should the legislators get, like New York or California, \$150,000 to \$175,000 per year? The public has not done that.

"So, lest you think it's my opinion, I have surveyed my district, they are not for it at all. And if anyone else surveys their district, should we put you there full time because you're going to produce better results? I think it's going to be a consensus. Let alone be the way we are. And effective or ineffective, we are what we are. But having a full-time legislature will not improve. That's, to me, the bottom line. Thank you, in opposition."

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and H.C.R. No. 138, HD 1, SD 1, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE LEGISLATIVE REFERENCE BUREAU TO CONDUCT A STUDY OF A CONTINUOUS LEGISLATIVE SESSION, EXTENDING THE LEGISLATIVE SESSION, AND ADDING ADDITIONAL RECESS DAYS," was Adopted, with Representatives Garcia, Pierick, and Ward voting no, and with Representatives Lowen and Quinlan being excused.

H.C.R. No. 196, SD 1:

Representative Nakamura moved that H.C.R. No. 196, SD 1 be Adopted, seconded by Representative Morikawa.

Representative Garcia rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and H.C.R. No. 196, SD 1, entitled: "HOUSE CONCURRENT RESOLUTION URGING THE HAWAIIAN HOMES COMMISSION TO CONSULT BENEFICIARIES OF THE HAWAIIAN HOMES COMMISSION ACT REGARDING ALTERNATIVE WAITLIST AND AWARD PRIORITIZATION BASED ON LINEAL AND GENERATIONAL DESCENDANCY FOR HAWAIIAN HOME LANDS LOCATED IN HANA, MAUI," was Adopted, with Representative Garcia voting aye with reservations, and with Representatives Lowen and Quinlan being excused.

MEMORANDUM

TO: All Senate Members
All House Members

FROM: Senate President Ronald D. Kouchi
House Speaker Scott K. Saiki

RE: Extension of Final Decking Filing Deadline to Midnight

The deadline to file conference committee reports and bill drafts for fiscal bills was established as 11:30 p.m. on April 26, 2024. However, many measures were the subject of negotiation throughout the day, and the number of bill drafts needing intricate attention by drafting agencies has resulted in the inability to meet the filing deadline. We feel that since the conferees reached agreement, allowing these bills to die based on an internal procedural deadline is not in the best interest of the people of Hawaii.

Pursuant to Rule 13 of the 2024 Joint House and Senate Committees on Conference Procedures, we hereby authorize an extension of the deadline to file these bills and committee reports with our respective Clerk's offices from 11:30 p.m. to midnight.

The motion that Floor Amendment No. 12, amending H.B. No. 2374, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT MAKING EMERGENCY APPROPRIATIONS FOR PUBLIC EMPLOYMENT COST ITEMS," be adopted, was put to vote by the Chair and carried, with Representative Ichiyama being excused.

At 10:20 a.m., the Chair noted that Floor Amendment No. 12 was adopted.

At this time, the Chair stated:

"Members, please note the 48-hour notice for this measure. Please turn to page 2 and refer to CCR 1-24 for the state budget."

Conf. Com. Rep. No. 1-24 and H.B. No. 1800, HD 1, SD 1, CD 1:

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 1800, HD 1, SD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

At this time, Representative Pierick offered Floor Amendment No. 13, amending H.B. No. 1800, HD 1, SD 1, CD 1 as follows:

SECTION 1. House Bill No. 1800, H.D. 1, S.D. 1, C.D. 1, is amended by amending section 4, page 47, lines 9 through 20, to read:

"2. AGS881 - STATE FOUNDATION ON CULTURE AND THE ARTS

		1.50*	1.50*
OPERATING	AGS	10,330,534A	[-10,333,356A] <u>10,585,556A</u>
		17.00*	17.00*
	AGS	5,675,823B	5,717,241B
		4.50*	4.50*
	AGS	805,300N	[-805,300N] <u>907,500N</u>
		1.00#	1.00#
	AGS	70,175T	70,175T"

Representative Pierick moved that Floor Amendment No. 13 be adopted, seconded by Representative Ward.

Representative Pierick rose to speak in support of the proposed floor amendment, stating:

"Thank you. We have a great state budget, and this amendment would remove about some million dollars on the pool project that's around the Capitol. I think we should be focusing money elsewhere and not on revitalizing a pool around the Capitol. Perhaps we just fill it up with dirt, move forward. And then with regards to the rail, a lot of our constituents

don't like the rail. So, I don't think we should be putting \$40 million-plus towards the rail. Let's nix that item and then pass the budget."

Representative Yamashita rose to speak in opposition to the proposed floor amendment, stating:

"Mr. Speaker, in opposition. Thank you very much, Mr. Speaker. As far as the funds that are going for the pool, this is money that has already been allocated to the special fund for the Culture and the Arts for art, which this project was approved by their board for that purpose. And as far as other things, Mr. Speaker, my recommendation is that the members vote this down. Secondly, Mr. Speaker, normally we don't move to amend the budget without agreement with the Senate. If we did this, this would be substantial where it could reopen negotiations, it could waste hundreds, maybe thousands of staff hours that went into putting together this budget, it could extend session, it could add to cost of government, which I am opposed to. So, I vote no."

Representative Pierick rose to respond, stating:

"Thank you. It was mentioned that by passing this amendment, we're going to extend our work hours and increase our budget by a lot of money. This amendment is to decrease the budget by over \$50 million. I don't think passing this amendment is going to match that cost. Thank you."

The motion that Floor Amendment No. 13, amending H.B. No. 1800, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE BUDGET," be adopted, was put to vote by the Chair and upon a voice vote, failed to carry, with Representative Ichiyama being excused.

(Main Motion)

Representative Yamashita rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. First of all, I'd like to thank, Mr. Speaker, you and your leadership team for your support as far as the Finance Committee. I'd like to thank the members of the Finance Committee for their support throughout the session. And, of course, all the chairs that have helped put this budget together and the members of this body, I thank you so much for all your help through this process.

"Of course, all of us know that this cannot be done without the hard work of our staff. And so, I told them they don't have to come down today, so I didn't have to introduce them all. But I do want to thank all of them for all their hard work and the long hours that they did put in on this budget. In House Draft 1, I thanked them individually, if I could insert that into this speech. Thank you, Mr. Speaker," and the Chair "so ordered." (By reference only.)

Representative Yamashita continued, stating:

"This session began with an immediate focus on the Maui wildfire recovery efforts. The challenge was to balance the needs of all our community while ensuring core services for our state were not neglected. Despite the fact that funding uncertainties still exist with the Maui wildfire recovery efforts, this budget reflects the collaboration and ensures that resources for mental health services and health care for all, community-based care for the disabled and elderly, business and workforce development, child care and education, affordable housing, and public welfare will all be available.

"We crafted the state budget with careful consideration, reflecting the House's dedication to fiscal prudence, accountability, and transparency. Mr. Speaker, on Opening Day, you advised us that to center Hawai'i is to center values that make sense for island communities and for our responsibilities as stewards of the public trust. It would mean, for example, to say, among many things that we need and want, presenting themselves in the wake of the fire, that the needs and the wellbeing of the local people of Maui and the residents of Lahaina come first.

"Mr. Speaker, we delivered on that promise during this legislative session. We put significant resources and investments into this year's budget to support Maui's communities. \$1 billion in appropriations in 2024 and 2025 for Maui wildfire addressed food, housing, mental and health care, infrastructure recovery management, debris removal, and hazard mitigation. On behalf of my island home and my fellow representatives from Maui, I'd

like to extend my deepest gratitude for this body for placing Maui at the forefront of this year's budget. Thank you.

"Balancing the needs and strengths for a social safety net and the core functions as we address the recovery efforts to meet the needs of wildfire devastation, we're keenly aware of the lingering effects of COVID-19 pandemic and the critical needs to strengthen our state's social safety net. This was accomplished by funding both the budget and related bills for mental health, human services, housing, hazard pay for the employees who were on the job during COVID-19.

"Additionally, long outstanding support for key areas that had to be accommodated, which include these things, recurring funding for the Hawai'i Tourism Authority, the University of Hawai'i, direct student-centered classroom programs in the Department of Education, revamping our biosecurity system to prevent the state from being overrun by invasive pests and disease. Mr. Speaker, the Legislature made significant investments in biosecurity to protect our island and natural resources."

Representative Takayama rose to yield his time, and the Chair "so ordered."

Representative Yamashita continued, stating:

"Thank you. Safeguarding our environment against invasive species that endanger Hawai'i's native species and community has been a challenge. Designating a centralized agency to bolster the defense of our lands and shores is a key step to protecting our natural habitat and preserve the wellbeing of our state.

"Mr. Speaker, over 450 inspectors and personnel at the federal level protect the United States from Hawai'i. They make sure that insects and other potential harmful species do not move from Hawai'i to the mainland. Over 450 personnel from the United States government. Mr. Speaker, we barely have 100 to protect Hawai'i from the world. Less than 100 people take on the task of protecting the islands from the world.

"This budget includes converting 66 positions from special and revolving funds to general funds to increase personnel to well over 100 employees. This is just one of the necessary steps to protect our 'āina and preserve the integrity of our borders. This frees up non general funds that can be used to address current and new invasive species coming from out of state. It will ensure the capacity to implement and to react to unanticipated threats.

"Additionally, Mr. Speaker, we have increased the budget to place responsibility for an invasive species to the Department of Agriculture. We recognize that preventative action is needed now more than ever.

"I want to thank this body for their hard work in crafting this budget that will benefit the welfare of the residents of the State of Hawai'i and lays a solid foundation for a path forward. I urge my colleagues to support this measure. Thank you very much, Mr. Speaker."

Representative Kahaloa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. And thank you, Chair. In support. One of the main focuses of the House this year was to reevaluate the biosecurity procedures of the state and to provide a more cohesive system to address the current invasive species that are already here, as well as new ones that might take hold in our communities. To that end, in conjunction with \$20 million in House Bill 2619, the biosecurity omnibus bill, the budget includes \$4,341,890 in general fund appropriations in order to convert 66 positions from special fund or revolving funds, to redeploy those non general funds to better respond to existing or future biosecurity threats.

"This budget also appropriates \$1.5 million for Da Bux Program, double bux program. This program partners with grocery stores and food hubs to offer SNAP nutrition incentives as a 50% discount on Hawai'i-grown fruits and vegetables. Not only does Da Bux help low-income residents afford more local fruits and vegetables, but it also has a significant impact on the economy by giving these consumers an opportunity to engage in Hawai'i's food system by supporting our farmers.

"There's also \$1 million and three positions for meat inspectors. More inspectors grows our ability to increase our local protein supply in the state. \$733,076 for improvements to animal quarantine software systems for the

Department of Agriculture. \$275,160 to convert 6.5 agricultural commodity aids to general funds from revolving funds. \$93,434 in additional funds for a grant writer position for the Department of Agriculture. This can help the department draw down more needed federal funding. Also, \$750,000 and three positions for the East Kaua'i Irrigation System maintenance. This is important for agricultural infrastructure.

"As a highlight to help my district, this budget also transfers positions and funds to create the West Hawai'i District Office for the Department of Accounting and General Services. This will help all schools in West Hawai'i get more support for much needed repairs and maintenance. Thank you, Chair, and may I yield my time to my colleague from Waipahu."

Representative Lamosao rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in strong support. Mr. Speaker, this budget stands as a testament to our commitment to fostering economic growth and prosperity throughout our state. This budget embodies our dedication to supporting communities, uplifting local businesses, and bolstering key industries.

"First, I am grateful to announce the allocation of \$400,000 towards the menstrual products and dispensers in state buildings. This investment not only promotes hygiene but also enhances accessibility for those in need, ensuring that basic necessities are readily available to all.

"Furthermore, the provision of \$15.5 million for home and community-based services is a crucial step towards supporting our caregivers who tirelessly serve our communities without receiving a raise in over 15 years. This funding will provide them with the resources and support they deserve for their invaluable contributions. Additionally, the allocation of \$5 million for high pressure processing equipment signifies our commitment to innovation and technological advancement in key sectors. This investment will undoubtedly drive progress, competitiveness in our industries.

"Moreover, this budget allocates \$34 million for the Hawai'i Convention Center, which plays a vital role in attracting business and tourism in our state. This funding will ensure that the convention center remains as a beacon of opportunity and economic activity for years to come.

"The allocation of \$63 million and 30 positions for the Hawai'i Tourism Authority, including \$3.5 million for a smart tourism destination management application, underscores our commitment to revitalizing our tourism sector in a sustainable and forward-thinking manner.

"Furthermore, the allocation of \$13 million for a state match for broadband deployment signifies our dedication to bridging the digital divide and ensuring equitable access to essential services for all residents.

"Lastly, the allocation of \$6 million for the HTDC Accelerator demonstrates our unwavering support for the growth and development of local businesses, particularly within manufacturing and technology sectors. This investment will empower entrepreneurs and drive innovation, further solidifying our state as a hub for opportunity and progress.

"I urge this body to support this budget as it represents a bold and comprehensive approach for fostering economic growth, supporting our communities, and positioning our state for a prosperous future. *Mahalo*. I now yield my time to the colleague from District 35."

Representative Chun rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Mr. Speaker, supporting our *kūpuna* and our most vulnerable populations continues to be a priority for the state. This budget does that by providing \$5.75 million as a state match and \$9.78 million in federal funds for increased reimbursement rates for community, residential, and adult day program services.

"This budget also accommodated \$250,000 in Senate Bill 2305, which creates a Silver Alert program. Also, \$400,000 for the Healthy Aging Partnership Program, and \$250,528 and three positions to continue the Windward Community College education program and Women's Community Correctional Center. I now yield to my colleague from District 27."

Representative Takenouchi rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Mr. Speaker, May is Mental Health Awareness Month, so I'm very excited to highlight some of the investment that this budget does for mental health and healthcare services in our communities. We're at a critical point where we need to expand access to care and strengthen our safety net services. This is an excellent starting point, and I hope we'll continue to build momentum to care for the people of our state. This budget provided over \$32 million to address mental health in the state, as well as improvements at the state hospital, including \$6.6 million in general funds for the Iwilei Behavioral Health Crisis Center and supportive housing services to get immediate care for the public and ensure individuals are able to get the appropriate level of care.

"There's also \$971,119 for 10 positions for new forensic psychologist positions, and \$528,531 for pay increases to our existing forensic psychologists statewide. This budget also includes \$8.8 million for new and existing group homes to provide community-based care, \$6.8 million in contracts for additional forensic beds at Castle, and \$9.5 million for forensic beds at the Hawai'i State Hospital. This budget also has \$2,150,665 for four positions at our state hospital for increased security and improvements after the tragedy that happened last fall. Lastly, it has \$18.8 million for increases in Child and Adolescent Mental Health Division contracts to support our service providers doing work in the community. I urge the body to support this budget. I would also like to now yield to my colleague from Mānoa."

Representative Garrett rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Rising in support. This budget reflects this body's commitment to reducing vacancies in state government and investing in the professional development of our workforce. Among other things, this budget includes the following. For the Department of Human Resources Development, \$730,080 for five positions and marketing funds to assist with the recruitment backlog. For the Department of the Attorney General, about \$526,000 and five positions for the Criminal Justice Division, about \$337,000 and four positions for the Civil Recoveries Division, and about \$2.4 million for the Career Criminal and Victim Witness Assistance Program.

"Mr. Speaker, this budget also allocates \$17 million in insurance premiums for the state, \$2.5 million for Microsoft G5 licenses, which will eventually provide opportunities for AI deployment, and \$470,000 for emergency radio systems for Hawai'i Wireless Interoperability Network. Mr. Speaker, we won't solve our vacancy problem overnight, but this budget represents a step in the right direction. I'd now like to yield to my colleague from House District 32."

Representative Aiu rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. This budget continues to invest in affordable housing and demonstrates our ongoing commitment to creating more affordable rental and for-sale housing for low- and moderate-income families in Hawai'i as we address the housing crisis. This budget allocates \$180 million into the Rental Housing Revolving Fund for tier one, which covers AMI level 0% through 60% AMI, and this budget also allocates \$25 million for tier two of the Rental Housing Revolving Fund, which covers escalation costs for already ongoing projects.

"This budget allocates \$560,000 and three positions to the Hawai'i Housing Finance and Development Corporation to administer these programs, \$10.5 million to the Hawai'i Housing Public Authority for repair and maintenance, \$1.3 million for Homeless Programs Office contracts, and \$1.5 million for State Rental Supplement Program. Thank you, Mr. Speaker. And I now yield to my colleague from District 44."

Representative Kila rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Mr. Speaker, the Legislature before you is in a time where our infrastructure is now needing maintenance and repair from far before. The legislatures before us had the opportunity and privilege to do groundbreaking projects, but it is now the time of this legislature to acknowledge the mismanagement and delayed repair and maintenance for many projects across the state. But with this budget, we make them significant investments to acknowledge that we need to take care of our aging infrastructure.

"As we work continuously with our federal partners to draw down federal monies, it is imperative that the state makes an effort to invest into our

roadways. But not just our roadways, Mr. Speaker. Our airports and our harbors, and improving the safety of overall transportation. We are committed to doing that by just some of the highlights here in this budget. We've increased the ceiling for security at the airports by \$5.3 million, keeping our travelers safe and allowing for expeditious travel. \$1.2 million increase for security at the harbors as well, making sure that cargo is flowing smoothly and expeditiously into consumers hands. A \$900,000 increase for roadside maintenance contracts, as the Department of Transportation has taken on the heavy task to make sure that we are responsible partners in providing wildfire mitigation. \$3 million increase for roadside maintenance across all counties as well, acknowledging our partnership with our counties. A \$300,000 increase for the Hawai'i County Police services on state highways that we have implemented on Hawai'i Island. And an additional \$5 million for stored property ordinance and debris removal programs that we partner with our counties to safely dispose of the debris that may cause a hazard to our roadways.

"Mr. Speaker, this budget is also reflective of acknowledging that there are communities throughout the state that have faced long disrepair and access. Mr. Speaker, I am very grateful to our colleagues for acknowledging that and allocating CIP monies for land acquisition and design to allow the full access of the Pa'akea Road emergency parallel route. This was years in the making and now we are finally at the finish line, so I'm grateful to my colleague from Wai'anae and the colleagues of Nānākuli that have sat in the seat before us. And at \$3.45 million, this emergency bypass route will allow residents to safely traverse in and out of the coast in any time of despair.

"As we also acknowledge our investments in the Department of Transportation, we do not forget those who are often left behind. It has been a priority for the last two years to take care of our *keiki* and our young and vulnerable populations. And through a \$100,000 allocation, we'll be working with the Department of Education, the Department of Health to craft policies to acknowledge and help our students who are deaf and hard of hearing and are often left behind in our school systems. Mr. Speaker, I am very grateful for the budget that we have crafted, and I urge all members to support this. I now yield to my colleague from House District 13."

Representative Poepoe rose to speak in support of the measure, stating:

"In support. In addition to what was already mentioned, and to help mitigate and adapt to the impacts of climate change, maintain our natural spaces, and respond to environmental issues, this budget provides \$5,850,000 for forest and resource management, \$2 million ceiling increase for state parks for repair and maintenance of equipment, \$10 million ceiling increase for state parks for repair and maintenance statewide, \$1.5 million for Act 90 transfer surveys, \$475,000 for mesonet stream gauges and well monitors, three positions and \$750,000 for the Red Hill Water Alliance Initiative, \$451,732 for DLNR's administrative office, and seven positions and \$647,296 for DLNR's Human Resource Office.

"I also wanted to mention and express gratitude for the \$2 million for a pilot project for rural air medical transportation. The bill that went along with the funding didn't make it, but luckily the funding made it into the budget after kind of a roller coaster of ups and downs. But I just wanted to appreciate my colleagues and Finance chair and leadership for understanding how much of a difference this project could potentially make in my district and for getting it back into the budget after it was removed on the other side. This could very well save lives, or at the very least, drastically improve healthcare outcomes and access to medical care for residents in my district. So, thank you for your consideration and support for that. I will now yield to my colleague from House District 17."

Representative Morikawa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Greater focus on direct student learning is a priority of this budget. When we invest in quality education and building more resilient education systems, our communities will thrive. \$21 million for summer learning hubs, \$12.9 million for increases to weighted student formula and English Language Learners program, \$6 million for increases in weighted student formula for small and remote schools, \$2.48 million for workforce readiness, \$1.65 million for complex areas to address inflation-based cost increases, \$1.3 million for Hawai'i Keiki: Healthy & Ready to Learn health technicians, \$413,915 for Advanced Placement exams, and \$10 million for school night security

contracts, active threat training, and Saferwatch panic buttons in schools. I now yield to my colleague from Kaimukī."

Representative Kobayashi rose to speak in support of the measure, stating:

"Mr. Speaker, in support. This budget includes significant investments in higher education as follows, \$17.5 million to restore COVID-era funding as reoccurring items in the base budget, \$1.07 million and 6.5 positions for the nursing programs at UH Mānoa, \$510,000 and six positions for systemwide mental health services, \$1 million for wildfire mapping and vulnerability assessments, \$142,500 and four positions for education studies and Indigenous Teacher Education Program, \$925,000 and four positions for UH medical school professors on Kaua'i, Hawai'i, and Maui, and \$3.7 million for the community college Promise Scholarship program. I now yield to the vice chair of House Finance Committee."

Representative Kitagawa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. This year, I, along with the Representative from District 23, chaired the grant-in-aid process for the House. Thank you for the opportunity and support to do that. At the beginning of this session, it was unknown if we would have enough funds to provide grant-in-aid this year. I am happy to share, though, that this budget includes a total of \$30 million in grant-in-aid for organizations, including \$20 million in capital improvement funds and \$10 million in operating funds.

"As in previous years, the number of applicants far exceeded the amount of funds we had available for grants-in-aid. This year, we had over 300 applications, and we were able to fund 164 of them, a little over 50%. This year's grant-in-aid funding spans across all of our islands and positively impacts all of our communities. I'd like to share just a few of the highlights that are included in grant-in-aid in this year's budget.

"It includes funding for organizations that focus on the following. Food banks and community food distribution sites. Hospitals and community health centers. Support for our youth and students, including organizations that provide after school activities, mentorship opportunities, and educational programs in the community. Support for our *kūpuna*, including organizations that provide free meals to *kūpuna*, interaction opportunities through community centers, and support for the Alzheimer's Association. Support for our environment, including preservation and restoration of our natural resources. Support for our most vulnerable populations, including those who are victims of human trafficking, those who are experiencing homelessness, those who are experiencing health conditions including AIDS, and those who are experiencing substance abuse. Support for local agriculture, including farmers and ag education. Support for our animals, including funding for all of the humane societies on all islands, in addition to animal rescue organizations and trap and neuter programs. And support for the culture and arts, including Native Hawaiian-serving organizations and programs that support art and music. This list highlights just some of the organizations that were funded through the grant-in-aid program this year.

"Thank you to the many organizations that applied and shared about their programs over this legislative session. And I want to thank them for the work that they do to support our communities and people in our state, and to partner with us in meeting those needs. I'd now like to yield my time to the CIP chair of the House Finance Committee, representative from District 23."

Representative Nishimoto rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I've spent the bulk of my career in the Finance Committee, so I've seen my share of state budgets. This year was a particularly challenging year for us crafting the state budget, not because of lack of money per se. In past years, we've had huge budget shortfalls, which made it very challenging. This year was challenging because of the uncertainty of things due to the Lahaina fires. Our budget situation and projections seemed to change daily. So, I really want to give a heartfelt thank you to our Finance chair, our Finance vice chair, and the members of the Finance Committee for their leadership through a very tough budget season. I think the members of the House should join me in thanking them, if we could all thank them right now. They did great work, and I think it needs to be recognized.

"Mr. Speaker, I once again thank you for being your CIP chair this year. I appreciate the faith the members have put in me. And I think we came out with a great CIP budget that we can all be proud of, using the guiding principles of putting the focus on education, on health and welfare, and with an eye to the future.

"So, what's in the CIP budget. So, we have \$31 million for a new enterprise financial accounting system, which will be the accounting system for the entire state and will make it run smoother. In the Department of Agriculture, we have a total of \$41.7 million for improvements to state irrigation systems in the reservoir system. We have \$230 million for affordable housing statewide, \$15 million for clean energy initiatives, which would be a solar battery storage loan program, \$10 million for siren and emergency notification system modernization and maintenance, \$1.28 billion for the Department of Education, which includes over \$70 million for Title IX gender equity and ADA compliance projects.

"We have \$60 million for the state library system, \$40 million for a comprehensive child welfare information system in the Department of Human Services. A historic level, I'm told, of funding for the state hospital system at \$191.7 million. And then we have almost \$30 million in improvements for the state laboratory, including a new Biosafety Level 3 laboratory, which does all our disease testing and monitoring. And finally, Mr. Speaker, we have over \$400 million for the University of Hawai'i this year.

"We've done all of this staying within a \$1.5 billion fiscal year 25 budget. And I would be remiss if I did not mention that we've got \$118 million for Lahaina direct projects and ancillary projects. So, thank you to the members."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I wasn't sure the filibuster was going to end. But having said that, I rise with support with some mild reservations. And I would start by saying, what we've seen at a micro level, we have to look at a macro level. We have to kind of go up to 3,500 feet and look at the budget as something that, I am a member of the Finance Committee, but if I was a member of the public, deciphering what's in that budget from a macro level is very, very difficult. I mean, just to figure out that it was \$20 billion was something to add up all the figures and not understanding that I'm not alone, because five out of four members of Americans in this state have problems with mathematics. Five out of four don't know what they're talking about. That's supposed to be a joke, everybody.

"Having said that, Mr. Speaker, one of the disappointments is, I stood here when Iniki and Kaua'i was asking for \$3 billion. I find it disappointing when we've got only \$1 billion for Maui. This was going to be Maui centric. The budget doesn't look Maui centric. And my sense is, it's going to catch up with us in other sessions and it's going to be a little bit money that's coming lately. I would have loved to see that a bit more frontal. That is a bit of a problem.

"The other problem is, and everybody gave nice speeches about the budget, but what we don't do, we don't measure the efficacy of the money that we're putting or the money that we're throwing at some of these problems. Everybody knows in the Finance Committee, I always ask metric questions. How are we moving the ball down the field? Instead of, like for health, are we actually getting healthier or worse? I think we're getting worse, but the numbers are not specific to build into our budget process. We know the governor stood there and said, we're going to cut homelessness in a half. I really appreciated that metric. But the point is, we've gone over budget with the, I forget how much it was for the expenditure override. But are we going to measure how well we do with that? I'm not sure of that. I would like to see that's something built in as performance indicators as it goes.

"Mr. Speaker, there's a couple of other things that I want to mention. And that is some of the conspicuous things absent in this budget that's going to hurt this budget. And I mention this because we could be losing L&L Drive-Inn, we could be losing Zippy's, we could be losing Serveco. Look, 80% of all the jobs in Hawai'i are from the private sector. They feed our economy. Those guys don't have a deduction because of this session for their state taxes. They are now subject, instead of going from generation to generation,

to having the big boys who come in from the mainland buy them out and then we suddenly sell ourselves to others.

"The second thing that I think is conspicuously absent in here, and it has to do with HECO, our power grid is in danger. The bill that was supposed to securitize or help them get the funding to support themselves with I think now 105 lawsuits, there's nothing in here to help HECO. I would love to have seen that.

"For those reasons, Mr. Speaker, I think it's kind of summarized, if any of you read the Star Advertiser and the questions they have in the polls. For those of you who have been beating on your chest, please absorb these numbers. In terms of how well the state legislature is doing, not well and below average 69%, Mr. Speaker, 69%. Not well or below average, that means flunking. We are in our own eyes, doing fantastic. In the eyes of the public, not so. How many are doing average or fair, 27%. And in the final analysis--"

Representative Nakamura rose to a point of order, stating:

"Mr. Speaker, please confine remarks to the budget, which is the subject matter at hand."

The Chair addressed Representative Ward, stating:

"Representative Ward, continue."

Representative Ward continued, stating:

"I am confining my remarks to the confines of the budget by the way that we reacted in our filibuster. I'm trying to give some reality, Mr. Speaker. These are the realities. Those are the people who see the budget, not the way that everybody stood up and praised the budget, but the facts, the way that there are other people other than we, the minority. Having said that, Mr. Speaker, we're not doing well enough in the eyes of the public. We're underperforming and we're not--"

Representative Garcia rose to yield his time, and the Chair "so ordered."

Representative Ward continued, stating:

"Thank you. And we're not meeting the needs because we don't measure them and we don't give them a sense of how we're progressing. Otherwise, why would we be 69% in failure? I know we had a favorable rating of 18%.

"My point is this, if we've got this money that we're spending and we're not meeting the needs of the people, Mr. Speaker, there's some disconnect of this budget and the needs that are out there, maybe too much defined by us rather than defined by the people of the State of Hawai'i.

"But the point is, Mr. Speaker, we can do better. And I'm going to end on what to me is heart wrenching. When the governor stood there and spoke about 63% of the Hawaiian community being ALICE families. I'm not sure this budget is going to help those who are the working poor. And for those reasons, Mr. Speaker, this is a bill that goes through, it goes through the motions. It's not Maui centric. It leaves out the power grid. It leaves out a lot of our small businesses. And finally, Mr. Speaker, we can always do better. For those reasons, I yield to my colleague from Kapolei."

Representative Garcia rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support with brief comments. And before I give my comments, may I request permission to insert written comments as well. Mr. Speaker, on this day of debate, I would like to kind of frame my remarks on this bill around three points, where we have been, what we have done or will do with the bill we are about to pass, and what future work we or future legislators will need to do when this legislature and this House reconvenes in 2025.

"Mr. Speaker, it may come as a surprise to you, since last year I voted in opposition to this bill, but because of the work done by, as my neighboring Representative from McCully-Mō'ili'ili said, by the work done by the Finance chair, the Finance Committee, and by leadership, this is a better bill. First, on points of process. In September of 2023, legislators received a

request from 14 community groups to do a better job with the budget process, and we responded. We've seen more transparency. We've seen budget sheets that are made available to the public. We see more educated conversations about what's happening with the budget because of the reforms that were adopted by this legislature, and for that I am grateful.

"What have we done with this bill? As so many of my colleagues before me have said, we are investing in health and human services in numbers that we have not done before. So, that is very important. I'd like to focus on one piece that I'm most familiar with, which is the Homeless Programs Office budget. And in that line-item budget, I'm going to combine comments about both what we've done and what more we have to do. In that piece of the budget, we have allocated \$1.32 million to the Homeless Programs Offices for state contracts that deal with a very specific problem of homelessness. It does outreach, it provides supportive housing, it pays for those services that respond directly to the homeless problem that we see in our community.

"Now, the governor only asked for \$1.32 million, and we respected that request. But we know from the community out there that there is this notion of the true cost of government. What is the true cost of government? And there was ask from the community that we in fact increase this line-item budget 20% just so that homeless programs could maintain their current contracts. Well, from this budget, we went up to what the governor stated, and it's going to give those homeless programs contractors the opportunity to rebid, because I believe that's what the Department of Human Services is going to do, so that we can, in fact, one, hold them accountable and begin to really address the true cost of government and hopefully in a future budget, fund the true cost.

"So, Mr. Speaker, this budget may not be the perfect budget for everybody, but it is a budget that does address the basic needs of our community and our people, and it does put Maui center. So, for those reasons, I support this. Thank you, Mr. Speaker."

Representative Belatti's written remarks are as follows:

"As noted in my oral remarks, all members of the Legislature received a letter entitled 'Urgent Reforms for Hawaii's Legislative Process' dated September 25, 2023, and signed by 14 community groups.

"I applaud these 14 groups that bravely stood up, calling for much needed legislative reforms to ensure true transparency and accountability in the crafting of the state's budget that includes the budget bill such as HB 1800 and other bills impacting the state's overall budget. These groups include Common Cause, the Democratic Party of Hawai'i Education Caucus, the Democratic Party of Hawai'i Labor Caucus, Food+ Policy, Good Food Movement, Hawai'i Home Birth Collective, Hawai'i Alliance for Progressive Action, Hawai'i Workers Center, HuliPac, Indivisible Hawai'i, Living Wage Hawai'i, Our Hawai'i, Partners in Care, and Save Medicaid.

"Their letter publicly requested three critical reforms to enhance the legislative process. First, these community stakeholders requested passing the base budget a month before the session concludes to provide ample time for legislators and the public to review and provide input so that the decision-making process around important budgeting matters would be inclusive and well-informed. Along these lines, they also proposed making a line-by-line draft of the final budget publicly available a week before the final vote as this reform would significantly enhance transparency and accountability and ensure critical funding is allocated where it is needed most.

"Second, community stakeholders requested stopping the practice of referring non-fiscal bills to the Finance or Ways and Means Committees to eliminate unnecessary hurdles for bills without appropriations or significant impact on tax revenues. Finally, community stakeholders requested ending the 'cattle call' practice of last-minute decision-making during the conference committee phase and extending the legislative session when necessary to ensure the thorough evaluation of each bill's merits.

"In crafting HB 1800 this year and as I stated in my verbal remarks, this Legislature implemented one of these reforms, in part, by providing budget worksheets before the vote on this bill, thus providing some improved transparency around the decisions being made. More reforms such as these need to be adopted and implemented by future legislators if we are to have a truly transparent and fully informed budget-making process that the public

deserves and that does not leave large gaps in funding critical areas that is government's responsibility.

"As I also noted in my verbal remarks, HB 1800, CD 1 allocates an additional \$1.32 million for State Homeless Programs Office contracts. According to Partners In Care (PIC), a community coalition of more than 60 non-profit homelessness providers, individuals with lived experience and concerned community members, this additional funding represents a mere 5% increase to the State Homeless Programs Office contracts. What's really needed to maintain current contracts is a 20% increase of \$5,280,000 as has been advocated for throughout this legislative session.

"Without this basic increase in funding, homeless programs and services are in danger. PIC explains that 'despite the need to expand services and the increases in operational costs, most contracts have not been increased in ten years,' thus not even keeping pace with inflation. Furthermore, 'recruitment and retention of front-line staff have become increasingly difficult due to flatlined salary structures and acute increases in the cost of living' felt by all in our community. According to a True Cost coalition survey cited by PIC in communications widely shared with legislators during this legislative session, 40% of service organizations report they will have to reduce services or face closure without increased adequate funding. This highlights a dire situation and a gap in funding that is not addressed by HB 1800, CD 1 and should not be ignored. This further reflects a critical priority area for future lawmakers to fund to ensure basic public safety and health that includes safe access to public spaces in our communities."

Representative Perruso rose to speak in support of the measure, stating:

"In support and just as a brief comment. I am grateful for this budget, especially the work around University of Hawai'i and restoring the base funding. I think it's really critical. And I'm happy that we're back to a place where we can start talking about investing in higher education."

Representative Cochran rose to speak in support of the measure, stating:

"*Mahalo* Mr. Speaker and appreciate all the comments thus far in respect to the budget and in particular for Lahaina. I want to request to enter further comments into the Journal also. And so, one of the biggest things, literally this word, one word in this entire budget brought tears to my eyes. And I want to thank the CIP person for, sorry, I don't know your district number, for working with the other house to insert the word 'dredging' for Mala Boat Ramp. \$3.2 million was put into the budget for last year, and I wanted to track it. And so, I appreciate also the funding that's put into the budget for a statewide tracking system on the budget itself and the funds that we vote through as we are.

"And so, that dredging has everything to do with our safety. Our emergency boats and things of that nature that cannot launch, has not been able to launch since before the fire. And so, it's life and death, it's critical. But unfortunately, the previous year the word 'dredging' was not inserted. So, thankfully it had been worked through both houses, and that one word really is going to save lives. And so, I appreciate that one particular thing for Mala Boat Ramp and the \$3.2 million.

"And the other thing is the tracking system, the reason why I feel it's so critical is because of what I just explained. I tried to, the funds that went through last budget, I asked DOBOR, DLNR, if I can track that money to make sure it's being utilized as stated in the budget, and I was told there is no tracking system. So, as I learned what we vote through today will go to B&F. B&F gets the total amount, then it's up to the departments to ask for the money that we implement, that we designate for each program, for each department. But if those departments do not ask for it, then it sits. And that has been the issue for me with this one particular item from Mala. And so, now, this tracking system, I'm very encouraged that not just myself, but others can track how the monies are being utilized or not being utilized. So, I appreciate that.

"Those are my brief comments at this time. I appreciate everybody's work, and in particular also the water reuse planning statewide. I've always said that it's a wasted resource. And Maui County really has to focus on doing this, and it can help for fire suppression and everything else, and also funding for erosion efforts and fire prevention. So, again, I will put more words into the Journal, but I just want to thank everybody for their focus, love, and support for Lahaina. *Mahalo*. In support."

Representative Cochran's written remarks are as follows:

"The SCR for HB 1800 explains that the administration fails to have a plan on how the funds asked for will be utilized. Till today there is not an actual detailed plan. In and of this point I am very leery of giving these multiple millions of dollars to the governor. I am so far supportive of DHS who I can physically see working directly in and around HD14 at this point. The continued use of the sentence within all of our fiscal bills, 'The legislature finds that the devastating wildfires brought on by winds from Hurricane Dora' is utterly false. It appears to me that the Legislature is trying to rewrite the narrative of cause and history of the fire. As of my writing there is yet to be a report or officially confirmed cause of the fire. This will be vetted through the courts.

"I appreciate the funding being dedicated to Maui and Lahaina in particular. What I am questioning is the actual implementation of how the funds get utilized and by who.

"The other point I cannot understand and have not gotten an explanation is to why funds from FY2023-2024 are no longer listed in the final budget bill. There was \$41 million for all the Upcountry schools, and they are no longer in the biennium HB 1800. Also, majority of the funds for Maui are listed for both Lahaina and Upcountry. I can't tell how much of it will really end up going to Lahaina.

"What I have learned is that we the Legislature creates this budget, then the money goes to Budget & Finance who then waits for the respective departments to ask for the funds. Then, we the Legislature have to trust that the departments have asked for and are utilizing the funds as stated by us. I am happy to see funds in the budget for a tracking system as one currently does not exist. I am looking forward to actually having an open, transparent tracking system to hold the administration and departments accountable for their spending of funds we the Legislature approves."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1800, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE BUDGET," passed Final Reading by a vote of 51 ayes, with Representatives Garcia and Ward voting aye with reservations.

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 2458, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE DEPARTMENT OF LAW ENFORCEMENT," passed Final Reading by a vote of 50 ayes to 1 no, with Representative Amato voting no.

Conf. Com. Rep. No. 5-24 and H.B. No. 1916, HD 1, SD 1, CD 1:

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 1916, HD 1, SD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill has a great intent behind it, it's to protect judges' information from the public. So, let's say that a judge gives a ruling on somebody, somebody is upset with that, they want to retaliate against the judge, find him, assassinate him. This bill would protect his information so that it would be harder for them to find his information and get him.

"This bill also includes our information, as an opt-in program, to be private. So, if I want my house address, personal email, personal phone number to be private, we can opt into that program with this bill. I'm against legislators having the opportunity to opt into that program, because I think we should be that much closer to the public. People should be allowed to walk up to our house, knock on our door and say, hey, I'd like to talk to you about this. Because we're in the community and we're of the community. Judges perhaps should have a little bit more protection. Thank you."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Mr. Speaker, yesterday, the Brennan Center for Justice conducted a webinar nationwide entitled, 'The High Cost of Public Service.' We know that public servants have come under direct threats. This measure is a response to the kind of discord and conflict that we see brewing in the community. We have seen family members of legislators, judges attacked, physically attacked. And this comes from people on both sides of the legislative aisle. We have a problem of discourse in civility, and this type of measure is needed because of the threats to family members and public servants. I think this is the step in a right direction. It's not the only thing that we can do to encourage civility and safety for all of our public servants. Thank you, Mr. Speaker."

Representative Cochran rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. So, yes, in strong support and just want to request words to be entered into the Journal, please. Thank you."

Representative Cochran's written remarks are as follows:

"Although my personal information has been out in the public eye for over a dozen years since being a public official, this bill will not change my situation in this respect. What I hope this bill does is emphasize the need to protect our public officials at all costs.

"After the Lahaina fire, I had a resilience hub I had created ripped out from under me and destroyed with malice and hate. The hub was built to help the community where the government never came. So, this horrible act harmed the community. It gave me PTSD like seeing the town of Lahaina I grew up in going down in flames in front of my eyes. There ended up being a group from the neighborhood in cahoots with whom I can only surmise in tearing the life supporting, community-built hub down. The group defamed my name, called myself and well respected *kūpuna* every name in the book, posted scary and threatening videos calling me out on Facebook.

"About 20 people participated in this act of bullying and harassment which scared myself and the couple other supporters at the hub at the time. This group took donated items which were specifically given to myself to disperse within the nearby community not anywhere else. Kadar of Temple of the Peace and Linda Puppolo of The Maui AIDS Foundation were devastated to hear of their items literally stolen and taken to an unknown site. I had over \$1,200 in my own personal items taken which value constitutes a theft 1 charge. This act was threatening, bullying, harassment and purely illegal. Horrible social media posts were constant. The most alarming point is that these people only live a few blocks from me. The main person talking smack online is shown toting automatic rifles and handguns. I went back to the Capitol to ask Sergeant-at-Arms if they could protect me, and they said only in the Capitol building. I have lived and continue to live in fear and have since installed cameras around my home. Really, how is this fair?

"I'm explaining this incident to highlight the need to show that public officials out in the community doing their jobs to support the community can still have opposition within the same community. The state needs to show that we the public officials lives and mental well-being matters. Living in paranoia of being attacked or worse killed is not how anyone should live. If this bill can protect us, then please implement ASAP."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1916, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE DISCLOSURE OF PERSONAL INFORMATION ASSOCIATED WITH CERTAIN PUBLIC SERVANTS," passed Final Reading by a vote of 50 ayes to 1 no, with Representative Pierick voting no.

Conf. Com. Rep. No. 11-24 and S.B. No. 3037, SD 1, HD 1, CD 1:

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 3037, SD 1, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in support of the measure, stating:

"In support. This is a great bill that helps to fight the sexual exploitation of children. We should be fighting this kind of activity. So, thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3037, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO PROMOTING PORNOGRAPHY FOR MINORS," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 12-24 and S.B. No. 2845, SD 2, HD 1, CD 1:

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2845, SD 2, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. So, this bill prohibits anybody under 21 years old from having ammunition. So, if you're 20 years old, 21 years old, 19 years old, 18 years old, you can't have ammunition. Ammunition is a valuable thing because you can put it in the gun to defend yourself. Let's say you're a female, you're 18 years old, and somebody is coming at you to rape you. If

you pull out your gun, you can potentially prevent yourself from being raped.

"This same body passed Senate Bill 1, now Act 1, where a 14-year-old can have an abortion. From different perspectives, you can kill your baby."

The Chair addressed Representative Pierick, stating:

"Representative Pierick, please confine your remarks to this measure."

Representative Pierick continued, stating:

"Thank you. The topic is ammunition. Ammunition is a self-defense tool. And we're talking about people under 21 years old with regards to this. There's an inconsistency with this bill and the rest of our laws in our state that say that a 14-year-old can terminate the life of their child--"

The Chair addressed Representative Pierick, stating:

"Representative Pierick, please confine your remarks to the measure before us."

Representative Pierick: "Thank you. But the 14-year-old girl can't arm herself--"

Speaker Saiki: "Representative Pierick, please confine your remarks to the measure before us."

Representative Pierick continued, stating:

"Thank you, I am. The 14-year-old person can't use ammunition to defend themselves from rape, which will cause the pregnancy. So, we need to be allowing people to arm themselves with ammunition to prevent themselves from getting into these kinds of things. Thank you."

Representative Tarnas rose to speak in support of the measure, stating:

"Mr. Speaker, thank you. In support. This measure makes it clear that, we already have on the books that you have to be 21 or older to own a firearm. This makes it clear that you have to be 21 or older to purchase ammunition, we're just being consistent. The representative who just spoke asked for consistency. This bill makes our statutes consistent so that those who are 21 and older are the only ones that can purchase firearms, and that 21 and older are the ones that can purchase ammunition. So, I urge all members to support this. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2845, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO FIREARMS," passed Final Reading by a vote of 45 ayes to 6 noes, with Representative Ward voting aye with reservations, and with Representatives Garcia, Gates, Kila, Kong, Pierick, and Souza voting no.

Conf. Com. Rep. No. 13-24 and S.B. No. 2927, SD 1, HD 1, CD 1:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, the report of the Committee was adopted and S.B. No. 2927, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT PROPOSING AN AMENDMENT TO ARTICLE VI, SECTION 3 OF THE HAWAII CONSTITUTION TO MAKE THE SENATE CONFIRMATION PROCESS FOR JUDICIAL APPOINTMENTS MORE UNIFORM," passed Final Reading by a vote of 48 ayes to 3 noes, with Representatives Garcia, Matsumoto, and Pierick voting no.

Conf. Com. Rep. No. 14-24 and S.B. No. 3034, HD 1, CD 1:

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 3034, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Hussey-Burdick rose to speak in opposition to the measure, stating:

"No vote and brief comment. Mr. Speaker, this bill is a gift to people who intentionally drug and take advantage of women, and it terrifies me. This bill shifts the burden of proof to the victims of involuntary intoxication. That means the people who were drugged would have to prove that beyond a reasonable doubt. How is anyone who is slipped a roofie in a bar supposed

to be able to prove that? In their drugged state, they're supposed to hold on to the cup and take it from the bar so they can use it in court later?

"I recognize that the scope of this bill is very narrow in terms of using it as a defense when the drugged victim then goes on to commit another crime, but let's think about the situations this would impact. If a person was drugged, maybe even someone who was the designated driver, otherwise completely sober, if they started driving a car before the drug kicked in, they would not then be able to use involuntary intoxication as a defense unless they could prove they were drugged beyond a reasonable doubt. If the person was drugged and then was forced to become an accomplice to a crime in their altered state, they would have to prove beyond a reasonable doubt that someone else involuntarily intoxicated them.

"Mr. Speaker, people get drugged and forced into prostitution. The bottom line is, there's no way I could possibly predict all the truly terrible ways that this bill is going to harm victims of involuntary intoxication, but I know that it will. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3034, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO PENAL LIABILITY," passed Final Reading by a vote of 44 ayes to 7 noes, with Representatives Amato, Cochran, Hussey-Burdick, Kapela, Perruso, Poepoe, and Souza voting no.

Conf. Com. Rep. No. 15-24 and S.B. No. 3033, HD 1, CD 1:

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2333, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition. Mr. Speaker, SB 2333 allows the chief election officer to use accurate copies of paper ballots rather than the originals when conducting a precinct audit of the electronic voting systems tally, in this Conference Draft 1. As I said before in this floor, Mr. Speaker, we the people, we own the Office of Elections. And there is a reason why we have enshrined in law the requirement for a precinct audit, and that is to ensure that the election results which are given from those machines are indeed accurate.

"It was said that the reason for using digital copies is a matter of convenience. Mr. Speaker, that's a lame excuse given by Scott Nago. During an audit, precincts are chosen at random and just 10% of ballots are audited. This is to assure public trust. We the people deserve transparency, and it's my firm belief that the original paper ballots are to be counted and used during precinct audits. And with the dark cloud hovering over our state, why do we think it's okay to move in the opposite direction of transparency? Do we think that the public is dumb to sit by and not question this move? I urge this body to vote no and stand on the side of common sense and stand for the use of paper ballots in the precinct audit. No vote."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I couldn't have said it better. In opposition. May the remarks of the gentleman to my right, may I adopt his words as if they were my own. I couldn't have said it better. Thank you," and the Chair "so ordered." (By reference only.)

Representative Tarnas rose to speak in support of the measure, stating:

"In strong support. I will say it better. This measure clarifies and updates the conduct of the audit used with modernized voting equipment and technology for elections by mail. Should an issue arise during the conduct of the post-election audit, which impacts the results of the election, the audit may be expanded to include first, additional contests, and further, additional precincts. There are additional safeguards in this measure of checks and balances, including logic and accuracy tests of the voting equipment before and after counting voted ballots, and the comparison of ballots received and accepted by the county elections division to voted ballots counted, that is the turnout, by district precinct reported in the election results. This measure does improve integrity and security of our elections, and I urge members to support this measure. Thank you."

Representative Matsumoto rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matsumoto's written remarks are as follows:

"Allowing the chief election operator to use copies of paper ballots rather than the original paper ballots for the purposes of auditing an electronic voter system's tally raises concerns from the public regarding the integrity of the election. In order to maintain the public's confidence in our democratic processes, I oppose using electronic copies of ballots instead of the original physical ballots."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2333, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO ELECTION AUDITS," passed Final Reading by a vote of 46 ayes to 5 noes, with Representatives Alcos, Garcia, Matsumoto, Pierick, and Ward voting no.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 3236, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Ward rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. This is regarding Hawaiian succession. Currently, a DHHL beneficiary is unable to pass their property onto a successor who is less than 50% Native Hawaiian. And this is when they're in their 15-year compliance, which is a rental period. This measure

would correct that unintended consequence experienced by these individuals and give them a break. And, Mr. Speaker, we know there's still 29,000 on the waitlist. This type of bill helps many more get, but we still have a long ways to go. So, this is a good bill, and it will help the DHHL community. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3236, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE LAND TRUST ACT," passed Final Reading by a vote of 51 ayes.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2557, SD 1, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Ganaden rose to speak in opposition to the measure, stating:

"In opposition, Mr. Speaker. I'm not sure if this bill is constitutional. This removes the Office of the Public Defender from representing individuals who are subject of a petition for involuntary medical treatment, under chapter 353. I'm really so grateful to the body and to the governor's office for putting so much more emphasis into mental health and to the efforts of moving people out of pretrial incarceration and into services like those offered by the state hospital.

"The unfortunate thing is that when people have these hearings, they are going to be committed. Law states that commitment is the equivalent of imprisonment. Since, I believe, 1956, the law of the United States says that, if you are facing potential imprisonment, you get an attorney if you cannot afford one. Of course, when a right is given to an individual, it is rarely pulled back by the government. I think we should defer this measure until a future session in which we can work with the Judiciary to create an appropriate court-appointed program that does not yet exist for civil attorneys who do this kind of practice. And until then, unfortunately, the next best option is having individuals represented by the Office of the Public Defender. Thank you."

Representative Tarnas rose to speak in support of the measure, stating:

"Thank you, in support. I want to make sure that the members know that this measure allows a court to appoint an attorney for the subject of a petition for assisted community treatment if the interests of justice require one to be appointed. So, the judge has that authority to appoint counsel for that individual. Yes, this measure does repeal language that entitles the subject of a petition for assisted community treatment to legal representation by a public defender, but the court can name a court-appointed attorney to represent that individual. So, I urge members to support this. Thank you, Mr. Speaker."

Representative Ganaden rose to respond, stating:

"Second time. First off, I want to thank the chair of Judiciary for hearing this and for all his work. This is one of the I think only instances in which we disagree. I am not sure that the Judiciary yet has a program in place to appoint court-appointed counsel for these kinds of instances. And because that program is not in place, individuals who are facing potential charges and potential commitment may be housed in pretrial imprisonment for a duration unknown. For that reason, again, I'm not in support."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2557, SD 1, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO LEGAL REPRESENTATION," passed Final Reading by a vote of 45 ayes to 6 noes, with Representatives Amato, Ganaden, Hussey-Burdick, Kapela, Perruso, and Poepoe voting no.

Representative Cochran rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Cochran's written remarks are as follows:

"I am not in favor of allowing HHFDC to waive numerous exemptions over Maui County laws, rules, ordinances, etc. Maui County has fast-tracked 201H projects, yet the projects have stalled. Imposing the 45-day clock onto the process has added pressure and hardship for the council to push projects that should have been better vetted with more community input.

"I appreciate the efforts to streamline the building process. I believe there are enough ways to expedite affordable housing projects, building inventory is not contingent on more laws or removal of laws in place. We would be better off focusing on creating two types of housing inventory. One, investment properties (we have more than enough), and two, affordable in perpetuity housing in order to address our housing shortage."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2066, SD 2, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO HOUSING," passed Final Reading by a vote of 47 ayes to 4 noes, with Representatives Amato, Cochran, Hussey-Burdick, and Kapela voting no.

Representative Amato rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. We need to diversify our economy and we need good paying, ecofriendly jobs. This is why I'm a strong advocate of the film industry, and I support encouraging their success in Hawai'i. Encouraging compliance with the motion picture, digital media, and film production income tax credit requirements is a win for the industry, helps fund good jobs, and is a win for Hawai'i and its people. I urge my members to join me in supporting this. Thank you."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, strong support. I reiterate what I've said many, many times on this floor, we should be the Hollywood of the Pacific. This one gets us closer to it. But, Mr. Speaker, it's rather embarrassing to know that Kentucky and Georgia beat us out every year. We're still in the top five. We can do much better. We have the perfect environment, and we should be unequivocally the Hollywood of the Pacific. Hopefully next time we will even ratchet up our attractiveness as this bill does right now. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 795, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXES," passed Final Reading by a vote of 51 ayes.

Representative Pierick rose to speak in support of the measure, stating:

"In support. This is a tough on crime bill against fireworks. This law lets police and fire officials to check places where fireworks are sold or kept to make sure they follow safety rules. It sets rules for inspections and record keeping by the Department of Law Enforcement. So, many constituents in Waipahu, they don't like the fireworks going off at all hours of the night and this bill seeks to address that issue. Thank you."

Representative Takayama rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Takayama's written remarks are as follows:

"Mr. Speaker, I support this measure because it will enable the Illegal Fireworks Task Force to continue its successful efforts to reduce the nuisance and dangers of illegal fireworks, especially illegal aerials. In less than one year of operation, the Illegal Fireworks Task Force has taken more than 150,000 pounds of illegal fireworks off our streets.

"Mr. Speaker, I enjoy fireworks. But not when they occur in random aerial bomb explosions that rattle our homes, frighten our pets, and torment veterans suffering from post-traumatic distress. We've already seen positive results from the seizures made by the task force.

"HB 2193 will give the joint state-city-federal task force expanded authority to conduct searches and inspections for illegal fireworks at licensed fireworks dealerships, while our budget bill appropriates \$1.2 million for the task force.

"*Mahalo* to the chairs of the Committees on Judiciary & Hawaiian Affairs and Finance for their support of this important measure."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2193, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO FIREWORKS," passed Final Reading by a vote of 51 ayes.

Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. After more than 30 years of farmers' pleas for help in fixing Hawai'i's coffee labeling laws falling on deaf ears at the Legislature, this year we're finally making progress. And by 2027, after

a tiered phase in, specialty coffee geographic origin names will not be allowed to be used on packages that don't contain a majority of product from that region. So, if coffee has the name Kona or Ka'u or Kaua'i on it, it will be at least 51% from that region. This increase from 10% to 51% is progress. It's huge progress.

"But while we are here today to celebrate this victory, and I am incredibly grateful for it, it has also taken us too long to get here. For more than 30 years, Hawai'i has been the only region in the world to allow the use of regional names on packages of specialty ag crops with only 10% genuine content. And this marketing devalues the product, damages the economic interest of Hawai'i's farmers, and deceives consumers. You can't buy local eggs where only half of the eggs in the carton are local and the rest are imported. You can't buy Georgia peaches that are only 51% from Georgia, or Idaho potatoes that aren't all from Idaho. You can't buy Champagne that's not from Champagne, or Bordeaux that's not from Bordeaux, and we wouldn't spend extra money buying French or Italian wine, only to later realize that it's made from grapes that are 90% from California.

"And further, a recent study and a 2010 study on the economic impacts of our labeling laws reinforce what farmers already knew, that allowing these blends to bear origin names harms farmers.

"I've given a speech about coffee labeling just about every year that I've served, so I could have pulled up my notes from past speeches and used those, but those are already in past Journals and don't need to be said again.

"So, what I'd like to add this year is that we should all think long and hard about why it took us so long to get here, to take a half step toward doing the right thing. Because we have issues here in Hawai'i that can't afford to wait 30 years, and we have plenty of things that we are dealing with today that might be better if we had taken action 30 years ago. So, whatever it is that causes this inertia in the way that we run things here, that makes it easier for us to do nothing than to do something, day after day and year after year, we should really think about that and try to do better.

"So, again, *mahalo* from me, and I know from the coffee farmers to everyone in support of this bill today. The farmers will be back undoubtedly to fight for 100%, and hopefully it won't take 30 more years to get there."

Representative Kahaloa rose to speak in support of the measure, stating:

"In strong support. As people around the world get to know our regional coffees, from Ka'u all the way to Kaua'i and to my personal favorite, Kona coffee. In these hallowed chambers, things do not happen without 51% of the members in this body. So, as we all know, 51% or a majority is important. This is also important for agriculture, when we choose to use regional names to label Hawai'i coffee. Passing this bill means we provide truth in labeling to all bags of Hawai'i coffee by moving the percentage to 51%, as our representative from Kailua-Kona stated before. This bill is three decades in the making, and all Kona legislators have fought for coffee, including our current governor when he was in the Legislature. Thank you, members, for your support. You don't know how much this means to our coffee farmers all across the *pae 'āina*, including in Kona. Thank you."

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I'd like to adopt the words of the representative from Kailua-Kona as if they were my own, and I would also like to adopt the words of the representative from Hōlualoa as if they were my own as well," and the Chair "so ordered." (By reference only.)

Representative Kapela continued, stating:

"I'm so grateful to every single member who has helped get this across the finish line. Thirty years. It's taken 30 years to adopt something that truly helps our farmers, that truly helps agriculture. So, for me, all I can think about is the incredibly hard-working farmers that live on Hawai'i Island who have come back year after year after year, who are now old and gray but still so kind and still carry so much love for the land every single time they've stepped into this building. Thank you for supporting them."

Representative Gates rose to speak in support of the measure, stating:

"In strong support and may I adopt the vice chair of Agriculture's words as if they were my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative Kahaloa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Macadamia nuts are one of Hawai'i's most gifted products. Yet, as we stand here today, consumers have no guarantee that the mac nuts they purchase in a local shop or with a local name are indeed local macadamia nuts. This measure is critical, as it impacts 600-plus macadamia nut farmers, with most on Hawai'i Island and some in my district too.

"The macadamia nut industry produced over 400 million nuts in 2021 and is our second most valuable agricultural commodity here in Hawai'i. However, in 2022, our state's production declined by 29% from the year prior. This is why we looked at protecting this commodity last session, to make sure that this industry stays viable and that we keep farming jobs and macadamia nut manufacturing facilities here in Hawai'i.

"This measure simplifies current mac nut legislation and requires a disclosure label on primary macadamia nut products. Over 2,000 pages of testimony on this bill worked its way through session. There have been many, many, many discussions with stakeholders, and I am pleased to say

that we found consensus with our Senate counterparts, and with the support of our Speaker, to move this bill forward. I honestly didn't believe this would be possible this session. But we have a bill. And this measure is meant to protect the consumer, protect our local farmers, and protect the Hawai'i brand. Thank you, members."

Representative Gates rose to speak in support of the measure, stating:

"In strong support, may I adopt the words of the vice chair of Agriculture as if they were my own. *Mahalo*," and the Chair "so ordered." (By reference only.)

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill allows pharmacists to administer vaccines to three-year-olds, but parental consent isn't mentioned in the bill. There were some pharmacists that submitted testimony on the bill, and they mentioned that, yes, parental consent is not mentioned in the bill, and it's not needed. So, I'm voting no, because I think parents should be involved in the process of their kids, at three years old, getting vaccines from pharmacists."

Representative Quinlan rose to speak in support of the measure, stating:

"In support, Mr. Speaker. And I hope that nobody's suggesting that three-year-olds are going to start walking down to Longs to get vaccinations."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1577, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO MOTOR VEHICLE TOWING FEES," passed Final Reading by a vote of 50 ayes to 1 no, with Representative Kong voting no.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2687, SD 1, HD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative La Chica rose to speak in support of the measure, stating:

"Mr. Speaker, in support. This bill would prevent the distribution of deceptive deepfakes during an election period. This is similar to House Bill 1766, which crossed over to the Senate. Mr. Speaker, while the use of artificial intelligence or AI technology has its benefits, its potential for misuse can't be ignored. And deepfakes are manipulated media of a person's image, video, or audio, saying or doing things that they didn't. And it can be damaging not just to a candidate who's running during an election, but to any individual when this is used irresponsibly.

"Mr. Speaker, this bill goes after these bad actors who recklessly distribute these deepfakes regardless of the risk. And while it does not prevent people from creating deepfakes, it does create strict disclosure requirements as well as penalties. And I just wanted to *mahalo* our House Judiciary and Senate chairs for helping to advance this measure, the conferees and as well as House leadership for their support. *Mahalo*."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, in support. If anybody is unsure of the danger of this bill, there is a Mayor Blangiardi speaking of the great benefits of marijuana. And we know that Mayor Blangiardi, with prosecutor Alm, *et cetera*, were one of the reasons why there was such a push back. So, what this bill does is already active out in there in social media. And I know this is an election year, we should be very aware of it. And hopefully passage of this bill sends a message to the community, don't play around with AI. And I think we should apologize to the mayor for whoever implicated him to being a lover of weed. Thank you."

Representative Garcia rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2687, SD 1, HD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO ELECTIONS," passed Final Reading by a vote of 51 ayes, with Representative Garcia voting aye with reservations.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition, strong opposition in fact. Mr. Speaker, this bill is about an emergency. It's about handcuffing the governor. And I think we have to first realize what an emergency is, particularly as we have Maui Strong here. They know what an emergency is, and they know what a crisis is. According to the HRS, an emergency is defined as an occurrence, or imminent threat thereof, which results or may likely result in substantial injury or harm to both life and/or property.

"We want to be open. We want to be certain that the emergency is taken care of. But, Mr. Speaker, this bill says, before the governor can release any money, we've got to get a mother-may-I of 14 days from the Legislature. Mr. Speaker, that makes no sense. We've got houses burning, we've got, it could be an Iniki as we had in 1992. Why do we want to hesitate when lives are at stake?

"I can't understand this. Even HIEMA was against this. The department of budget was against this. When you get those who are in the business of fixing emergencies and they're against it. And it doesn't make good sound policy, it looks like a grudge match. And I don't know who the authors of this bill is or whoever got something to go with the governor. But let's not handcuff the governor, Mr. Speaker. This could cost people's lives and property.

"And because of those reasons, anybody who votes yes for this bill is really asking for endangering the people of Hawai'i. And that's not why we're here. Thank you, Mr. Speaker."

Representative Ichiyama rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I am in support of this bill, and I just want to clarify a couple of points. First of all, we have established a major disaster fund in our state treasury as well as in statute, and that fund has emergency dollars that are made available to the governor if he or she decides that there is a disaster that needs to be responded to immediately. And typically, we've funded that in the amount of \$5 million on an annual rolling basis. This year's budget appropriates additional millions of dollars into the major disaster fund. And that's funds that the governor can tap in the event of emergency without having to ask us either way, in any case.

"But when I think the administration uses their emergency powers in a way to move additional millions of dollars, potentially from existing appropriations, then this body, the Legislature, has the right to know about that, because that will affect appropriations in future budget years, and that we will have to account for and also make sure that we set aside money for in the future. So, I'm in support of this bill. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. Representative Marten rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support and I'd like to thank all those, especially the Housing chair, that worked on this bill to get the language just right. Because of concerns raised by Kailua residents three decades ago against vacation rentals that were proliferating in our community, changing the quality of life in our neighborhoods, the City & County grandfathered in all the existing vacation rentals and banned new ones. Since that time, due to the advent of the internet advertising, as well as no will to enforce in the city, we have had an exponential growth in the number of vacation rentals, illegal vacation rentals.

"We now have a city council and a mayor that actually have tried very hard to change the situation and bring those properties back into residential use. Unfortunately, because of the way our state law was written, they were challenged in court by investors who find that doing a rental once a month every 30 days is still good business. And this law will allow them to change the duration and hopefully bring those properties back into residential use. Thank you."

Representative Pierick rose to speak in opposition to the measure, stating:

"Thank you, in opposition. There's a lot of great people that have submitted testimony in support and in opposition to this. My team sent out a mailer to every single home in our district, and we received a bit of response. More people responded that they wanted me to vote no on this bill. So, what should I do? I should vote no on this bill because the community, my community, when I survey them, they asked me to do that. So, I'll be voting no. Thank you."

Representative Cochran rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In super, super strong support. And I give a lot of credit to my fellow Lahainaians of Lahaina Strong who has been walking the halls here days on end and just weeks and tirelessly. So, I appreciate all their efforts to getting us to this point. And with that I am in super strong support. Thank you very much."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. Representative Ward rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Pierick rose to speak in opposition to the measure, stating:

"Thank you, in opposition. So, this bill would allow the governor to seize control of a vessel for 100 days, so the boat would not be in operation, if they perceive that there's an emergency to the state. Our state survives largely in part to goods being brought in by boats and ships. And if the governor's going to reach his power and seize a boat, he could be inhibiting our commerce in our state. So, we don't need that, we don't want that. So, I'll be voting no so that we can have free commerce."

Representative Kila rose to speak in support of the measure, stating:

"Mr. Speaker, in support. Regarding the previous remarks from the speaker, in the conference draft there was an exemption made to the vessels that do commerce, so they will not be affected by this measure. Thank you."

Representative Gates rose to speak in support of the measure, stating:

"In strong support. May I adopt the words of the vice chair as if they were my own. And I would just like to say to my colleagues that this bill is very important because we have let invasive species run rampant throughout our communities unchecked for so long. And this is one of the tools that we are going to use to really get a grasp on a lot of the issues like coconut rhinoceros beetles, little fire ants, so forth, and new invasive species that may be coming to our shores. So, in in strong support. Thank you," and the Chair "so ordered." (By reference only.)

Representative Ward rose to respond, stating:

"Mr. Speaker, second time. This is in defense of everything that's said, I agree with. The only thing is, why 100 days? I think that's too long. We can't get the job, we can't find these guys out within at least a week or two or so, 100 days is like a shutdown. I mean, that's too extreme. If it was modified, I would agree. But to shut down Matson and Pasha and all the other guys, which, as my colleague said, we are dependent upon 90-some percent of everything that we have. To put those guys in mothballs for 100 days, even though for the great cause, that's too long and it's inefficient. If we can't find a rhinoceros beetle within a week, we don't know what we're doing. Thank you."

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 1832, HD 1, SD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Matayoshi rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Mr. Speaker, there's no secret that the state has difficulty hiring. There are many reasons for this, and this bill addresses one of them. This bill addresses trying to get DHRD or the minimum qualification review to get done sooner. Right now, departments like DOH have 700-plus vacancies. That puts an undue pressure on the employees that are currently working at DOH, and also just leaves a lot of services that DOH cannot render.

"And for DHRD's part, DHRD is so overtaxed that it's difficult for them to get this minimum qualification check done on the applications for sometimes as much as six months, leading to people forgetting they even applied to the state by the time they get a call back. What this bill attempts to do, again, is to provide relief to not only DHRD, but to all of the departments that have come to me in the last couple of years asking for relief for this hiring problem. Asking for relief and asking for our help to fill these vacancies that just pepper their departments.

"This bill doesn't force the departments to take on all hiring. It's not an attempt to decentralize DHRD. But it is an attempt to allow departments to select which positions they want to take on themselves, which positions they determine are high need in order to do the minimum qualification review themselves and immediately call back and fill those positions with interviews.

"We also changed this bill, Mr. Speaker, out of concern for DHRD, that the list once vetted by the department, which they're already doing this vetting for internal hiring, that this list will then be sent to DHRD for one more review, which DHRD said they could get out in about two to three days. But in the meantime, the interviews will already be taking place.

"I am in strong support of this bill. I think that this bill is, again, not a magic bullet, it's not going to fill 700-plus vacancies at Department of Health. But I think it's a good start, and I'm very proud of us as a legislature for moving forward with this and bringing some relief to our departments. Thank you."

Representative Pierick rose to speak in support of the measure, stating:

"Thank you, in support. I'd like to have the words of the previous representative from Kāne'ohe adopted as if they were my own, and reiterate that this is a good bill because it reduces red tape in the government and allows the individual agencies in our states to process their applications versus another department," and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1832, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO HIRING," passed Final Reading by a vote of 51 ayes.

Representative Pierick rose to speak in support of the motion to recommit, stating:

"In support. I'm very grateful that this body is doing that. This is a gut and replace bill. And in order to basically get this out of our record of having done that, we're recommitting that. So, thank you."

The motion was put to vote by the Chair and carried, and Conf. Com. Rep. No. 106-24 and H.B. No. 2563, HD 2, SD 2, CD 1, entitled: "A BILL FOR

Representative Takayama rose to speak in support of the measure, stating:

"Mr. Speaker, in support. This measure addresses a long-standing problem in my district of an abandoned cemetery that has been the target of thefts and desecration by trespassers. This measure will enable our community to enact security measures, and will hopefully turn a community eyesore into an asset. So, on behalf of myself and my fellow Pearl City representative, I'd like to thank members for their support. Thank you."

Representative Chun rose in support of the measure and asked that the remarks of Representative Takayama be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Amato rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. So, this bill authorizes the DCCA to appoint a limited owner of a cemetery in need of perpetual care or protection. I thank the CPC chair for the opportunity to work on this bill, as well as my conference committee co-chair, and for the excellent staff that helped me in learning through the process as we completed this bill in conference committee. With this bill we set a precedent of protecting and respecting our cemeteries and our loved ones who are placed there. *Mahalo.*"

Representative Souza rose in support of the measure and asked that the remarks of Representative Takayama be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Lamosao rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I'd like to adopt the words from representative from Pearl City as if they were my own. I'd like to also insert additional comments. Many of my constituents have their ancestors buried in Sunset Memorial. And so, I just want to commend the hard work of this body for passing this important measure. *Mahalo,*" and the Chair "so ordered." (By reference only.)

Representative Lamosao's written remarks are as follows:

"Mr. Speaker, I rise in favor of preserving the Sunset Memorial, a cherished asset in our community, as a tribute to our ancestors interred in the memorial park. This legislation will ensure its preservation, and I extend my gratitude to the bill's sponsors and the state for their dedication to maintaining this important site. Thank you."

Representative Kila rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I'd like to thank the introducer for this measure, as there is constituent in House District 44 whose family member is buried at the cemetery in Sunset Memorial. Two weeks ago, they recently cleaned the cemetery after being dismantled and vandalized by several folks. They're excited to learn that through representative from Pearl City's efforts that this will no longer be occurring. And I'd like to, again, reiterate my thanks to the representative for this measure. *Mahalo.*"

Representative Kong rose to speak in support of the measure, stating:

"In support. I'd like to adopt the words of the representative from Pearl City as if they're my own. And I'd like to add from 'Aiea, too. Thank you very much," and the Chair "so ordered." (By reference only.)

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2601, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in support of the measure, stating:

"In support. This is a good bill. This basically expands the ability for somebody who was sexually assaulted to have justice. So, let's say you're a child and you've been sexually assaulted, once you reach 18 years old, the law is currently that you're not allowed to file for civil action until eight years after the incident. This bill would expand that to 32 years. So, a scenario could be the child has been raped or sexually assaulted as a child, they reach their 18th birthday, 31 years later, 32 years later, they receive counseling and say, you know what, you should seek vindication on what was wronged you when you were a child. This bill would expand access to vindication. So, this is good. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2601, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO SEXUAL ABUSE OF MINORS," passed Final Reading by a vote of 51 ayes.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 3207, SD 2, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Amato rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition, if I may. Let me begin. He's a super guy, does his job, and he's got a super salary, which is right now about \$240,000. But according to this bill, as we raise the cap, it becomes higher than the governor. The governor only makes \$165,000, lieutenant governor \$162,000, and the attorney general \$162,000. I would be willing to pay \$500 million, or \$100 million, or \$10 million, or whatever it takes to get us in the top five or the top ten in the nation.

"Mr. Speaker, right now we can't even read and do math at the third grade. I'm not sure we're going to reward something that otherwise is mediocrity. And that's not what the basis of our nation has from the beginning, we are a meritocracy. And I think we should make it more performance based. In fact, if it was performance based, even raising his salary, I would totally agree. Somebody is going to say, well, there is a portion of it that is performance based, but let's make the whole thing performance based. Just like you and I, when we go out for reelection, what did we do as the representative? It's either up or down. And I think it should be the same with the superintendent. Again, who is a nice man. But in terms of the salary, I don't think it's deserving to go any higher. Thank you."

Representative Woodson rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. The previous speaker's comments are antithetical to prior comments he has made with regards to market rates and government intervention. So, he typically argues the

inverse, which is that the market should not be dictated by government. In this situation, he's saying the inverse. So, I am perplexed by that.

"Also, just to correct the record, actually, the State of Hawai'i and some of our student bases is in fact in the top 10. That is a direct result from the superintendent, his team, our teachers, our principals and vice principals. I want to make that point clear.

"Furthermore, if we do not pass this proposal, it means that the superintendent salary will revert by statute to a maximum of \$150,000. To me, that's not fair, that's not justified. And as I referenced before, a superintendent with comparable qualifications, with a similar school size, earns \$356,000 annually. And so, what justification do we have for that position to only yield 40% of what the market is bearing. That is not fair to me, Mr. Speaker.

"The proposal as it's written, it does not say that the salary cap will increase. It would be that the Board of Education, moving forward, would set the superintendent salary. That is fair, that is transparent, and that's why I'm asking my colleagues to support this proposal.

"When the Board of Education was asked specifically about this proposal, the board chair at the time, Haruki, said that he would likely appoint a commission to see what we should pay the superintendent and to make a recommendation to the board, and the board would vote on that. That is a fair and transparent process.

"And so, although there might be some disagreement, we want to support our superintendent. We want to support our assistant superintendents, our deputy superintendents. And we want to continue to support the continuum of professionals that work in that industry, because they are preparing our kids for the future.

"Now, what happens if this bill doesn't pass, and the superintendent says he cannot do it anymore. He can't do it, he walks away. The deputies, because their salary would decrease, say they would walk away. And I would argue it puts our teachers, our principals and vice principals, in a compromising position. Because how could they negotiate for higher salaries if we pay our superintendent 40% of what the market is bearing. That is not fair. That to me would be despicable, actually.

"So, if in fact the superintendent, the deputies, the teachers, the principals and vice principals, they are doing their job. Top 10 fourth grader reading scores in the nation, according to NAEP. Very high scores with Strive HI when you look at the larger consortium. Other verifiable metrics that say that we are moving in the right direction. I am humbly asking my colleagues to please support this proposal. Thank you."

Representative Quinlan rose to speak in support of the measure, stating:

"Strong support, Mr. Speaker. And may I have the words of the chair of the Education Committee entered into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Amato rose, stating:

"Thank you, Mr. Speaker. I'd like to thank the chair of Education. And I'd like to change my vote from reservations to yes."

Representative La Chica rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I'd also like to adopt the words of the Education speaker as if they were my own. And then just brief comment. This is not an issue of looking at an immediate raise. As mentioned in the measure and in testimony, the superintendent is still subject to a rigorous review process by the Board of Education. This is really a policy of ensuring stability in our leadership. And because of the domino effect that it would trigger by reducing the salary back to \$150,000 because of the sunset on June 30, 2024, this might create an exodus of the great administration and the leaders that we already have. And just noting that they're already doing this work, this hard work overseeing 20,000 employees in the department. So, for the future of our *keiki* and to deliver the best quality education possible, I urge my colleagues to support this measure."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3207, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO EDUCATION," passed Final

Representative Belatti rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Belatti's written remarks are as follows:

"Mr. Speaker, I stand in strong support of House Bill 1827, Conference Draft 1.

"As a long-time proponent of investing in Hawai'i's workforce, especially its healthcare workforce, this measure almost triples state funds of \$2,450,000 to \$6,800,00 by collaborating with community partners to support the Public High School Health Care Workforce Certificate Program, public high school classrooms to be used for healthcare training, and the Certified Nurse Aides Glidepath Program. These monies are investments in our future that prepare our public school students for immediate placement into living wage jobs with career ladders that can help them achieve even more for themselves and their families. This measure also addresses and fills an immediate and critical need in our community for skilled workers in a variety of settings from hospitals to nursing homes, clinics, and other healthcare settings across the state.

"For these reasons, I wholeheartedly support House Bill 1827, Conference Draft 1."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1827, HD 2, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO HEALTHCARE WORKFORCE DEVELOPMENT," passed Final Reading by a vote of 51 ayes.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 2107, HD 2, SD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Lamosao rose to speak in support of the measure, stating:

"In strong support. We recognize that access to language resources is crucial for disseminating information effectively to migrant communities. Especially in times of crisis, ensuring language accessibility becomes even more imperative. The Maui wildfires have highlighted the importance of providing resources in multiple languages to ensure that all members of our diverse population can access vital information and resources. Moving

forward, we must prioritize the development and dissemination of multilingual resources to better serve and support our migrant communities during emergencies. *Mahalo*."

Representative Cochran rose to speak in support of the measure, stating:

"Thank you. And I want to echo my colleague next to me in relationship to this bill. Strong support. I was going through the fires and realizing in the early days that the language barrier, in particular for our Filipino community, which makes up the brunt of where I live, had huge challenges. And I would hope that in the future, FEMA and all these other outside entities that come to wherever in the world, that they research the culture, the people, the languages that are affiliated in the areas that they come into to help because they had zero interpreters. There was no one there to bridge that gap for the language barriers. And I know today that a lot of our Filipino speakers lost out on benefits, lost out on help because they didn't realize they could appeal. They didn't have the opportunity to ask questions and to learn what the details and repercussions of their decisions were.

"So, I look forward to this being supported and to assist in future disasters and any hardships that we may face. Because today, we still currently need this professional help in our communities and especially for the future. So, I *mahalo* for this bill being pushed forward today. Thank you."

Representative Ganaden rose to speak in support of the measure, stating:

"In support, Mr. Speaker. Like many of my colleagues, I had an opportunity to actually visit Lahaina. I went there in August of last year for an event at the Lahaina Community Center for the Filipino community. Myself and other members of the Filipino Lawyers Association, we attempted to assist individuals with extending their SNAP benefits, getting a variety of other issues dealt with regarding their housing or benefits. We ran into this problem firsthand. So, for those of us that were there, we saw how dire the need was for language interpreters to rebuild Lahaina in the next few years. I didn't know until I got there how strong the Filipino community was across the state, but particularly in the Lahaina community. For that reason, in strong support."

Representative La Chica rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I too am very grateful to have been given the opportunity to assist with the Hawak Kamay, which means hand in hand, Resource Fair, which was in September in Lahaina. My friend Kit Furukawa in the Maui Filipino Chamber of Commerce just got all of the Filipino folks together and told us, hey, looks like our immigrant population, they're not seeking services.

"And typical of any immigrant population, one in every four Hawai'i residents here in Hawai'i is of Filipino descent, and one in every nine is of limited English proficiency. And for that community, they have this fear of authority. They have a fear of being told no. And when they have to go through just pages and pages of immigration papers, financial forms, food assistance, housing, it can be very, very overwhelming. And so, it was a very humbling moment to be there in September along with other Filipino, Ilocano, Visayan speakers. But this is really essential as it gets information out quickly and it gets information out to people who need it the most."

Representative Martinez rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I want to request and adopt the words of the representative from Lahaina as my own. Thank you," and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2107, HD 2, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATED TO DISASTER SERVICES," passed Final Reading by a vote of 51 ayes.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 2743, HD 2, SD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Nakamura rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I want to, first of all, thank you, Mr. Speaker, Finance chair and Water & Land chair, for helping to shepherd this bill through our process. We worked during the interim with the counties, with advocates and stakeholders and with a group of representatives, including my partner working on this project, the representative from Kailua-Kona, representative from Wahiawā, the representative from Līhu'e, the representative from Kohala, representative from Kāne'ohe, who, at the end of the day, came up with a 35-page document that, because of financial constraints, because of legal constraints and really differing opinions internally about how to proceed and philosophies on how to move forward with this issue.

"We did come up with a five-page bill that is a study, that the University of Hawai'i will conduct to tell all of the landowners in our state whether or not they will have ability to hook up to a wastewater treatment facility. And I think this is an incremental step, but a very important study that will give landowners information that they currently do not have. So, I'm very grateful for this incremental step.

"In the meantime, there are 83,000 cesspools throughout the state emitting 50 million gallons per day of raw sewage. And I'm very hopeful that in the interim to come, that we can continue the dialog to expand the discussion internally, that we can find solutions that are going to make a difference for our environment and for all of the homeowners that are impacted with a cesspool that government said was okay to have many, many decades ago. So, thank you so much for the opportunity, and I hope that members will support this bill. Thank you."

Representative Cochran rose to speak in support of the measure, stating:

"Thank you chair and appreciate this effort also. In support. I just want to add in relation to cesspools and since the wildfires in Lahaina, in particular the Waikeolu Terrace area, which is a priority one area. Now that literally the slate has been wiped clean of the homes and things and we're just down to the bare bones dirt, now is the time. If we're going to convert these properties out of cesspools and into sewerage with the county, I think hopefully this study and this discussion will incorporate that. Because I think the discussions occurred perhaps way before the fire had occurred. So, now we're looking at a very different landscape. And I think we have a great opportunity today to revisit the cesspool situation in the Lahaina area. *Mahalo.*"

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2743, HD 2, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO WASTEWATER," passed Final Reading by a vote of 48 ayes to 3 noes, with Representatives Alcos, Garcia, and Pierick voting no.

Conf. Com. Rep. No. 135-24 and H.B. No. 2224, HD 2, SD 1, CD 1:

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 2224, HD 2, SD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Chun rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. This session, I was able to work with a remarkable group of stakeholders who are also members of the Legislative Kupuna Caucus, along with our Senate counterpart, the senator from Ala Moana and Waikīkī, with one goal, to take a hard look at our long-term care system. Changing our long-term care system is so important

because we are spending more money on long-term care than ever before, but the outcomes of that care are not improving. Quite simply, spending more money will not get us where we need to go in terms of delivering better care.

"Our goal of making things better for the people who need long-term care, whether in an institutional or community-based setting, begins with this bill. The Executive Office on Aging, in coordination with the State Health Planning and Development Agency, will begin the crucial task of creating a long-term care master plan for the state.

"I want to thank the chair of Human Services and the chair of Finance for supporting this bill, and also the funding for it. And I look forward to continue working on this issue with interested stakeholders so that we can provide our *kūpuna* with a long-term care system that works for everyone. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2224, HD 2, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO LONG-TERM CARE," passed Final Reading by a vote of 51 ayes.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 1148, HD 1, SD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Belatti rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Belatti's written remarks are as follows:

"Mr. Speaker, I stand in strong support of House Bill 1148, Conference Draft 1.

"The statewide expansion of the Mental Health Technician ('MHT') certificate of competence program from Windward Community College in this bill is a testament to what can be done when our sister agencies work together to address workforce needs.

"Developed as a collaboration between the Hawai'i State Hospital, the Department of Health's Adult Mental Health Division, and Windward Community College, the MHT program is an excellent example of upskilling our workforce, building career ladders that provide opportunities and brighter prospects for our residents, and addressing the critical needs in our communities for qualified mental health workers.

"For these reasons, I wholeheartedly support House Bill 1148, Conference Draft 1 as a wise investment of just \$210,150 of taxpayer monies into our state's future."

Representative Marten rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. And I just wanted to express my deep gratitude for this body. The Majority Caucus supported this initiative recognizing Windward Community College, who has embraced the fact that they host the state hospital on their campus and set up a program to train entry-level workers in that hospital in collaboration with the hospital, and are now wanting to extend that training to grow our own mental healthcare providers across the state. I also wanted to thank the majority leader for not giving up on this bill once it died in the Senate, and most particularly to the vice chair and the chair of Finance that allowed it to come back at the last moment. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1148, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO MENTAL HEALTH," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 148-24 and S.B. No. 1170, SD 2, HD 1, CD 1:

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 1170, SD 2, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Cochran rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Cochran's written remarks are as follows:

"First off, some Maui County council members have never heard of this. This affects them directly and it appears they have not been confided in or given heads up that this is coming down the pipeline. Even HHFDC has concerns along with the Department of Planning and Permitting. I have never understood how housing credits given to the developer of DHHL has helped to build the physical units our community actually needs in the area it is sorely needed.

"Why should DHHL be given credits when that is their mission to build for the Hawaiian people. The eminent domain process should go through the proper channels not mandated in a bill for an entity."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1170, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO AFFORDABLE HOUSING CREDITS," passed Final Reading by a vote of 46 ayes to 5 noes, with Representatives Cochran, Hussey-Burdick, Kapela, Perruso, and Poepeo voting no.

Conf. Com. Rep. No. 149-24 and S.B. No. 3202, SD 2, HD 1, CD 1:

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 3202, SD 2, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Evslin rose to speak in support of the measure, stating:

"In support. Thank you, Mr. Speaker. In 1961, the very first Hawai'i State Legislature passed Act 187, which was a groundbreaking first and only of its kind dual state and local zoning code, and this is known as our Hawai'i State Land Use Law. And at the time, Hawai'i was facing rampant development of agricultural land in ways that were disconnected from existing town centers. And the Legislature took bold action at the time. And the stated intent of our Hawai'i State Land Use Law is to preserve and protect agricultural and conservation zoned land, while making it easy to develop housing in areas where housing exists currently.

"And to implement that, the state developed four state land use districts. There's the agricultural and conservation districts, which encompass 95% of land in Hawai'i. There's the rural district and then there's the urban state land use district, which is 4.5% of land in Hawai'i. And then the state delegated zoning authority to the counties in varying ways in those state land use districts. And in delegating that authority, the state very clearly, in the preamble to Act 187, retained zoning authority.

"At the time, it was sort of the heyday across the country in the '60s and '70s of single-family zoning. And so, all of the counties, in adopting their municipal zoning codes in the urban state land use district, adopted zoning codes which essentially restricted multi-generational households in the urban district. This was different than the development pattern in Hawai'i previously. Our plantation towns, our plantation camps were developed traditionally with multi-generational households. And this is different than essentially humans have lived for all of human history in multi-generational households.

"And now fast forward 60 years to today, we have essentially filled up our urban state land use district with predominantly single-family homes. And as UHERO has shown, we have the highest regulatory burden of any state in the country on housing development. And because of it, we are developing far too few homes in our urban state land use district, far fewer homes than needed, even for our natural born population. And we're pushing development into our agricultural districts.

"So, in my opinion, at least, we are failing on the twin tenants of our Hawai'i State Land Use Law. We are not preserving and protecting agricultural land, and we have not made it easy to develop housing within

the urban state land use district. And this is having just tremendously negative consequences throughout Hawai'i. Every single day, 180 people are moving to the mainland. In a lot of ways, these are economic exiles from Hawai'i.

"Graduation season is coming up. And I used to be a high school teacher, and I always go to graduation with really mixed emotions. On the one hand, I'm so proud and filled with joy at these high school graduates who have worked so hard to get to the point where they're at. Some who have done everything right to get to that point, some who have overcome just tremendous odds. And they're standing there on the stage, and at the same time, filled with profound sense of loss and sadness that for so many of these, this will be the last time that they are full-time residents of Hawai'i. Those who go to college, many, if not the majority of them, will never be able to return because there are no housing options for them when they come back. And those that stay, like many of my generation and all the generations that have come after, will have to work two or three jobs just to remain in Hawai'i.

"And so, I think that this is the greatest public policy challenge of our time, in how do we fulfill, again, the twin tenants of our State Land Use Law, make it easy to develop housing in the Urban State Land Use District, preserve and protect agricultural land.

"SB 3202 is not going to solve the housing crisis, but it's a step in the right direction. And there's been a lot of misinformation out there about the bill, so I just want to clarify some aspects of it. The bill does require the counties to take action on ADUs. Based on the feedback from my colleagues here, based on feedback from the Senate, based on feedback from two Honolulu City Council members—"

Representative Nakamura rose to yield her time, and the Chair "so ordered."

Representative Evslin continued, stating:

"The bill has changed to, while the counties have to take action to allow ADUs, they have a lot of flexibility in how they allow those ADUs to be developed. They can allow ADUs in a significantly less than the entire urban state land use district, if they choose. There are no development restrictions on the allowance of those ADUs, so counties can continue to impose all of their existing development standards or impose new development standards. Things like floor area ratio, height setback requirements, off-street parking requirements, impermeable surface requirements, all of those stand, and the counties can impose them however they choose.

"In addition to that, existing requirements such as Honolulu County's owner occupancy requirement or the *'ohana* unit requirement, which requires a blood relative to live in the unit, nothing in the bill preempts the counties from imposing those.

"In addition to that, the bill is very explicit that counties can continue to reject permits due to a lack of infrastructure. The intention here was to push the counties to act but give them a lot of flexibility in how they choose to act. In addition to that, the subdivision component of the bill would require ministerial subdivision. The intention there is to reduce red tape on subdivisions. The impact fee section would reduce impact fees for small units. It would eliminate impact fees for the conversion of single-family homes to multifamily. And then lastly, the covenants section of the bill would simply require future covenants not to restrict against ADUs.

"So, again, this bill isn't going to solve the housing crisis, but I do think it's an important step in the right direction. And I also want to just thank my colleagues here for the ongoing dialog on the bill, the feedback that I've gotten from the bill, the debate that we've had here on the floor about the bill. I also want to thank the many stakeholders and advocates, both in support and against the bill. I've learned a lot through this process, and the bill has changed throughout the process based on their feedback.

"At the end of the day, I hope that every member here can vote their conscience, do what's right for their communities, and do what's right as they see for Hawai'i. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In strong opposition. This, according to my community, is the unkindest cut of all. It's the worst bill that we're going to put through because it's going to turn my community into something it doesn't want to be. I appreciate the Housing chair and his comments, a great history of the crisis that we've had, probably from the beginning. Because we've always had an identity crisis. Sometimes we think we are Los Angeles and can spread out. Sometimes we think we can, like Hong Kong, go up. We still haven't figured it out, Mr. Speaker. But this one is not the solution.

"The problem is, even if what he just said is true, those people who come in and buy land and then build all of these ADUs, you think that's going to lower the price of housing? You think this is going to help people at all? It's going to bring more, just like the Airbnb came in and they bought houses and they're doing their Airbnb and making lots of bucks, like Maui's got 20 properties per individual for some crazy reason. The point is, this is going to make it worse.

"One of the big developers has contacted my office and said, you guys are heading in the wrong direction, you think you're solving a problem, but you're actually creating one by cutting up land but not making any of the costs go down. So, we're creating a market. If we think Airbnb was a problem, this is the mini developer series of monster homes and places like Hong Kong that we have not seen.

"But hey, you guys have heard enough of what I had to say. I want to quote what the chairman of the City Council has said about this particular bill, Mr. Speaker. He has said, 'we are deeply disappointed in the conference draft of SB3202, which was amended in relative isolation and in the final hours of this year's Legislative session without any public input or discussion. We oppose this measure and are disappointed by the significant changes posted on Saturday, April 27, for a final House and Senate vote this Wednesday, May 1.' That's where we are today, sir.

"As you may recall, the Honolulu City Council (through Resolution 24-65) voiced its collective concerns over the bill's original version, which drew criticism from communities and Neighborhood Boards across O'ahu.' In fact, last night, Mr. Speaker, I went to the neighborhood board. They reminded me again how bad this bill is and how it doesn't fit in who we think we are. Now, I know the neighbor islands love this bill because they've got big lots, they've got a lot of expansion. We should make this bill applicable to those that are under 500,000. But that's another issue.

"Let me proceed with Council Chair Waters in his statement. 'Blanket mandates for additional development in residential neighborhoods across the state discount years of thoughtful planning by our communities and county councils. New density requirements not included in previous drafts violate House-Senate Conference Rules and the State Constitution, which requires three readings in each chamber, putting the legality of the entire measure into question.'

"I proceed on page two of his letter. 'Two additional dwelling units per single-family dwelling, which appears to not include *'ohana* units, put our communities at risk of out-of-state speculation,' which I mentioned earlier. Buy up the land, develop it as high density as you can, sell it off at the highest market you can get, and we are left holding the bag. Density, traffic, infrastructure, shortage of utilities, *et cetera*. He didn't say that, I just said that, Mr. Speaker.

"Continuing with Council Chair Waters, 'it does not appear that counties can deny applications for permits of additional dwellings based on adequate infrastructure, such as police, fire, emergency services, traffic, and parking.'

"And he goes on and on again not in support of this but in saying that, and I, let me summarize it with my own words. We have a housing crisis, but, Mr. Speaker, this is not the solution. We have problems with already monster houses, which we're trying to shut down. We're trying to shut down Airbnb. And what we are creating now with the intention of very good multiple housing for those who don't have housing, we're going to create a market that's going to make it where people move in with the money and all those who are the ones, the 15,000 leaving every year are going to even leave more and quicker. Having said that, Mr. Speaker, I see you've given me the time out sign."

Representative Matsumoto rose to yield her time, and the Chair "so ordered."

Representative Ward continued, stating:

"Mr. Speaker, you see, I pay very close attention to you, sir. Having said that, my community is totally against this particular bill. And as the good gentleman from the North Shore has coined the term, keep the country, country. Hawai'i Kai says to me to say to you to say to all of our colleagues, keep Hawai'i Kai, Hawai'i Kai, don't pass this bill. Thank you, sir."

Representative Marten rose to speak in opposition to the measure, stating:

"In opposition, Mr. Speaker. This bill has caused a division between certain parts of our state. And I have always tried, when legislation comes up that is specific to a neighbor island or a particular community, to defer to the representative from that area and trust that they and their constituents understand the situation on the ground and what their needs are and what might harm them. We've heard from many suburban districts on O'ahu, from neighborhood boards, from residents, from our City Council, that they do not like what this bill would force them to do.

"They have been working very methodically with a lot of public input on Bill 64, which would allow one 'ohana unit and one ADU. This would force two ADUs, and it's being done in the name of intergenerational housing, which I can say we already have in my district with our 'ohana units. And it's also being done in the name of affordability. And we heard in testimony on Maui, when they instituted a policy to allow two additional ADUs, that prices went up.

"I would ask this body to follow the old saying, do unto others as you would have them do unto yourself, and leave the communities that do not want to be part of this, that want to make their own way along a similar path, but with their own nuances, let them do their own thing. Thank you, Mr. Speaker."

Representative Matayoshi rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I won't bore everyone too much, I know I've spoken a lot on this bill. To me, I actually agree with the Housing chair on a lot of things, that we don't want to continue to expand into agricultural areas, we don't want to keep converting ag or conservation land into residential zones. But I think the fundamental disagreement is where the development should take place. I think that we did figure out whether we should be expanding horizontally or vertically. And the plan that I thought we had was transit-oriented development along the rail line.

"Now I can only speak for O'ahu, I cannot speak for the neighbor islands. And honestly, I'm just another representative coming from a suburban district. But I have been listening to my constituents, and I've been thinking about this and how this would apply to Kāne'ohe and Kailua, and it disturbs me.

"It seems like this bill is trying to expand horizontally without expanding the bounds horizontally. It's trying to pack in more houses into our neighborhoods where that was never the intention, and that would change the fundamental nature of our communities. And that I cannot support.

"I think that we should be building more housing. I certainly think that building more housing would be good and would drive down prices. I think that that should be vertical housing along rail stations. That's why we're building this rail in the first place for O'ahu. Again, I can't speak for the neighbor islands, maybe the neighbor islands want this. I can say that O'ahu and the suburban districts definitely do not want this.

"I wish there was another way. I honestly wish that we had the space in Hawai'i to expand like a Las Vegas, like a Los Angeles, that we could continue to expand into wide open deserts, that we had space to build houses for everyone who wants to live here, and everyone could have a single-family house. It's just not that way in Hawai'i. And if we try to do what this bill is intending to do, I really fear that we're going to reach a point where we can't turn back, where the nature of our communities is going to be so different, so dense, so compact and have so many more cars and people on the streets that it's going to be irreversible.

"I agree with the representative from Kailua that if we allow more ADUs, it's not necessarily going to make housing prices go down. I mean, anyone here who has tried to buy a house in the past has seen that housing prices for

a large lot that could possibly have room for expansion for other homes, that they go for more because the homebuyers know that they can expand, that they can perhaps build a rental unit, get more income from that. This bill would make every lot that. And expecting the price to go down when you're adding, for all the lawyers in here, when you're adding more sticks to the bundle, I think it's just fallacy. So, I stand in strong opposition to this bill. Thank you."

Representative Cochran rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Cochran's written remarks are as follows:

"As much as 'ohana units are a positive addition to any property and needed to create more housing, this bill will have unintended consequences not yet discussed openly and transparently to all counties it will affect. To me, this is shoving something down the throats of the county and mandated upon them a drop-dead date to adopt and conform or else deemed done regardless of their input. Housing in residentially zoned lots seems appropriate but not all residential lots can fit two ADUs. This is foolhardy and made out to have positive impacts for our housing needs. I disagree and want it put on record for posterity."

Representative Hussey-Burdick rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In respectful opposition. I appreciate that the chairs did remove the most controversial portions of the bill, requiring the counties to approve significantly smaller minimum lot sizes. However, this bill still requires the counties to approve additional ADUs without any kind of mechanism to prevent outside investors or companies from buying up all these properties, adding on ADUs, and renting them out at top dollar. This, Mr. Speaker, is urban sprawl, and it is not the answer to our housing crisis.

"Most of our districts are already struggling with overburdened sewer systems and roadway congestion. If every lot could suddenly generate an additional two to three times the rental income by adding on ADUs, it will actually increase the cost to buy the whole lot and push the dream of homeownership even further away from our younger generations. This bill ensures that people like me will only ever be able to rent tiny rooms in crowded houses, surrounded by a dozen roommates.

"There are so many easier and better ways to reduce the cost of living. Like imposing a steep vacant homes tax to incentivize the existing 20% to 25% vacant units to go back on the market and bring prices down, investing in high density, transit-oriented development in the urban core, or fixing the unacceptable permitting backlog that is caused by corruption, bureaucracy, and outdated technology. The passage of this bill would almost certainly result in a flood of new permit requests to build ADUs, exacerbating the existing backlog to unprecedented levels. Flooding the market with new ADUs might temporarily reduce the cost of those units until the market adjusts, but this bill will not actually reduce the cost of housing. It only benefits the developers and the construction industry. Thank you."

Representative Garrett rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. Rising in opposition with brief comments, please. Mr. Speaker, let me preface my remarks by saying how much I appreciate the Housing chair's commitment to solving the affordable housing crisis. As a fellow freshman, I've gotten to know him quite well during our first term together, and I know he's very knowledgeable and passionate about this issue, and I feel we're very fortunate as a body to have someone with his expertise serving in this capacity.

"Mr. Speaker, the Legislature is designed to be a marketplace of ideas, a place where reasonable minds can differ. As much as I respect the representative from Līhu'e, I'm afraid that's where we are today with this bill, two reasonable people who happen to disagree. As someone who represents a community within Honolulu proper, I know that we do not have the sufficient infrastructure in place in older neighborhoods like Mānoa to support the type of densification being proposed by this bill.

"As pointed out previously, there are no assurances that this bill will lead to an increase in our affordable housing inventory. Rather than stress communities throughout urban Honolulu and to help keep the country, country, I believe the more prudent course of action would be to focus on

transit-oriented development projects to meet our affordable housing needs. Mr. Speaker, I do vaguely recall a member of this body saying the Aloha Stadium site could serve such a purpose, but I digress.

"Lastly, we voted just a short while ago on Senate Bill 2919 that strengthens the county's ability to rein in short term rentals, which I support. In that conference committee report, we noted how that bill reinstates and supports home rule authority relating to zoning. Mr. Speaker, I'm concerned that our credibility as an institution is questioned when we selectively use the home rule argument to suit a particular need. If we believe that the counties are best positioned to address housing on a county-by-county basis, we should not impose restrictions on their planning and zoning authority in a piecemeal manner, as SB 3202 does.

"As this bill made its way through conference, I was hoping it would be amended to exempt the City & County of Honolulu, but since no such amendment was included, I'm afraid I have no choice but to continue my opposition to this bill. Thank you."

Representative Kila rose to speak in support of the measure, stating:

"In support. Mr. Speaker. From the beginning and inception of this measure, I have stood up in support. And as we have been bombarded by the hundreds of emails in opposition, I have read this. I have supported this measure from inception, and I encourage you to email your representative if they are in support or opposition of this measure. I have been bombarded from many folks in the O'ahu urban core and outer core opposing this measure. I have received one email from one of my constituents in support. Mr. Speaker, if folks had the time, money, and opportunity to rally around this measure the same way folks in opposition has, I'm sure there'll be a much different email outcome.

"Mr. Speaker, the lots awarded by the Department of Hawaiian Home Lands right now rest at 5,000 square feet, and that is the reality for lessees being awarded lots. To the comments of being squeezed into houses and not affording rent, that is the reality of folks right now. In House District 44, from my house to the nearest H-1 access without traffic, it takes 20 minutes. On a commuting day from the H-1 corridor Kapolei exit to Mā'ili on any given day can range from 45 minutes to an hour on the already extenuating travel the folks must take.

"I understand full heartedly that folks have had to oppose this measure based off of the concerns of constituents, but time and time again, the Legislature has been asked to tackle this issue, and I would like to find a way that we can move this measure forward. I understand the concerns that have been raised, but I raise the concerns of what's the reality happening now. With the opposition of urban sprawl, we've now faced rural sprawl. You have lots in my district and homes in my district worth near \$200,000 to \$300,000 but have now been appraising by 100% and even at times 150%. These homes are not affordable to the folks in my community, but they are affordable to the folks who cannot afford a home in the urban core.

"Mr. Speaker, my residents and my constituents are being priced out of their own neighborhood that they can no longer call home. So, the arguments raised at keeping their neighborhood, their neighborhood, I have said time and time again, I cannot keep my district, my district if the folks who make this character of my district leave.

"I hope that there is a better way we can find a path forward, and I understand that housing is a contingent issue, but in respect to the resolution that was posed by the City Council, my council member was the only one to vote in opposition. So, for the districts that she represents from Mākaha all the way to Kapolei, I stand in support of SB 3202."

Representative Belatti rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition, request to adopt the words of the representative of District 51, and Mānoa, District 22, striking being a freshman. Thank you, Mr. Speaker," and the Chair "so ordered." (By reference only.)

Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. And I want to adopt the words of our Housing chair and just say, I appreciate his hard work on this issue that is really an attempt to tackle one of the most important and most challenging

issues in our state. We continue to not make enough progress on this issue. And sometimes moving forward is hard. And yes, increasing density means you also have to look at traffic and infrastructure and other things, but we can't continue to use the need for all those things at the same time to be an excuse to take action on anything. So, I appreciate the hard work put into this session, I think a really sincere attempt to do something good for the state."

Representative Amato rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I would also like to adopt the words of the Housing chair in support. I've received hundreds of emails like everyone else in opposition, but the ones that actually did come from my district, mind you, there were only about three, but each of them were saying, please, yes. So, for that reason, still in support. Thank you," and the Chair "so ordered." (By reference only.)

Representative Takenouchi rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Takenouchi's written remarks are as follows:

"I remain seriously concerned about the impacts that this bill will have when implemented in the City and County of Honolulu, especially in the urban core where we are already experiencing overcrowding in our residential neighborhoods. While the other county planning departments have come out in support of SB 3202, I have not heard adequate assurances from leaders in the executive administration or the legislative branch on O'ahu that they feel this is a feasible option to build housing stock for our island. Forcing this mandate on all of the counties without assurances they are able to create a thoughtful, effective program is premature and unnecessary at this time.

"I was a staff member for District 27 from 2012 until 2022 when I took office. The very first 'monster home' issue I worked on was in 2014, before they were widespread in the news or even carried the moniker 'monster home.' Since then, it has been an ongoing challenge to monitor projects as developers routinely buy up longtime family properties with single-family homes, raze the buildings, and replace them with units housing two, three, four, or more sets of renters. With this influx of people comes an influx of vehicles that eliminate all available on-street parking for visiting 'ohana or visitors trying to use our neighbor facilities like parks and pools.

"My constituents want to welcome new neighbors who will be a part of their longtime, close community, but we are hitting a tipping point where the number of people and cars being crammed into residential neighborhoods is at an all-time high. And, when we talk about the counties continuing to have oversight on building regulations, all of my monster homes have legally obtained permits and passed their building inspections even upon follow-up requested checks for violations. The one thing residents have found sometime helpful is inspectors finding more than the allotted number of individuals in a living space, when they could prove it.

"With this bill, three separate dwelling units will all be allowed to legally house multiple sets of renters in these overstressed spaces. I cannot in good conscience support this bill if it does not explicitly mandate protections to keep an already stressful situation from becoming utterly chaotic. A minimum of two parking stalls per ADU would greatly address some of the fears coming from my constituents, as it would keep the living space ratio on the lot controlled and ensure real off-street parking options are being considered in the building plans. Because we know that many renters – families, married and unmarried couples, or just sets of roommates – will likely bring two or more cars with them. I don't blame them for their reliance on vehicles. It's just how we have set the current system to work, even in urban Honolulu. In my district, the city is having to cut bus routes and condense services. If we are going to talk about building density, let alone mandating density, we need to provide real transportation alternatives to go along with that.

"I reiterate that implementing this program on O'ahu feels premature given what we are already seeing happen in our residential districts. I hope that the Honolulu City Council will take judicious time, after we thrust this situation upon them, to craft a system that will take into consideration the

very real concerns residents are raising about their neighborhoods morphing into overcrowded spaces they no longer recognize."

Representative Garcia rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ward rose to respond, stating:

"Thank you, Mr. Speaker. Is it possible to adopt all the remarks in the opposition to be in the Journal as if they were comments of my own? Some really good points have been made, Mr. Speaker. I will choose the gentleman from Kāne'ohe," and the Chair "so ordered." (By reference only.)

Representative Ward continued, stating:

"My point is, Mr. Speaker, this is not about us, it's about the people out there. Who in my district, people say, oh, you guys are so well off. No, they worked their tails off to pay their first and second mortgages. And that's why they're so insistent upon keeping Hawai'i Kai, Hawai'i Kai. Keeping their neighborhood part of their own. It's the king of the castle or the queen of the castle.

"So, it's about quality of life. Quality of life is deteriorating. We already know that. And this is one of the ways, and I forget which person said, we should exempt Honolulu County. The neighbor islanders love that, I don't think there's one neighbor island, Mr. Speaker, who doesn't love this bill. And if, probably, I was on the neighbor island they wanted, I would probably say the same. The point is, it doesn't belong on O'ahu, it doesn't belong in our districts. And you could tell by the opposition. And if we're listening to our constituents, there should be a negative vote on something that seems to be for many reasons, obviously, still on the docket to be voted for.

"For those reasons, Mr. Speaker, I would hope we would continue to listen to the people of Hawai'i. And to know this one-size-fits-all and we're going to let the deterioration of the quality of life continue is not going to be the best way, as policymakers, for the future of, not only our state, but for our individual districts. Thank you."

Representative Ichiyama rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition, and I'd like to adopt the words of the representatives from Waimānalo and Mānoa as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Ichiyama continued, stating:

"First, I want to begin by acknowledging the hard work of the Housing chair on this bill. I think he's been very diligent throughout session. And this bill is much different than the form that it was introduced in.

"However, I oppose this bill as it's currently drafted for two reasons. But really it comes down to fairness. The first reason that I cannot support this bill as currently drafted is because our Honolulu City Council has said, this is not the right way for them to implement accessory dwelling units. In fact, they have said, let us do it our way, let us do it in accordance with our statutorily required general plan, and we're moving in this direction. I think they said that very loud and clear when they passed their resolution earlier this session.

"And ultimately, it's the City Council and the counties that will have to deal with the impacts of this legislation. They're the ones who are going to have to look at increasing sewer fees, at additional burdens on our first responders, our police, fire, ambulance, on increased demand and uses on our parks, complaints about parking and traffic. We at the State Legislature do not have to deal with the consequences that will result as of this bill, it's the counties. And to me, it's a matter of fairness. If the counties say, let us do this in our own way, we agree with you on the goal, let us work together to reach that goal. Then I think that, as a matter of fairness, they should be allowed to do that.

"And the second reason, Mr. Speaker, is that there is a path in this bill that treats O'ahu differently than the rest of the counties. And that it's a mandate that if they choose not to adopt an ordinance requiring two additional dwelling units or the reasonable equivalent, that they have a second option, they have to meet a certain number of minimum units as outlined in the 2019

housing study. And for all of the counties, they have to meet 50% of the need or half of the need of units outlined in that study. But for O'ahu, we have to meet 150% of that need, 50% of that through additional dwelling units, and 100% of that need through apartment units. And I think it's unfair for O'ahu to have a different standard than the rest of our sister counties.

"And just to be clear, looking at this 2019 study, the estimated need for O'ahu is 22,000 units. So, O'ahu is being required, potentially under this bill, to add another 30,000 units. And I think, Mr. Speaker, that's unfair. Thank you."

Representative Onishi rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. We addressed this issue in the CPC Committee and I had the opportunity to question the planning director from Hawai'i County. I personally am somewhat offended that this legislature is being used to circumvent the opposition of a bill like this by our own Hawai'i County Council. The planning director basically admitted that he's coming to the State Legislature and to the proponents of this bill because he cannot get similar requirements passed by the county council.

"And that really offends me because we always talk about home rule and the ability for our county councils to do what is best for the people within the county, and that we should be looking at general policies that enhance or work together in tandem with the counties. But this is a bill that really goes against the will of our sister body, the county councils. And despite the fact that it may seem like the neighboring counties all support this, I don't actually believe Hawai'i County's County Council supports this type of a measure, and they have not chimed in. But it really is a concern of me when the planning director is saying, I can't get this past Hawai'i County, so therefore can the state do it for me? So, with that being said, I'm in strong opposition. Thank you."

Representative Gates rose to speak in support of the measure, stating:

"In support. May I adopt the words of our Housing chair as if they were my own. Just a brief comment. Housing and homelessness in our communities, especially mine of District 45, has been a top priority. And I know that any tools that we can provide our state to address our housing crisis is something I'm in strong support. For my generation, I believe it's getting increasingly harder to envision calling Hawai'i home and long term. And I hope that this measure will help us achieve that. And that is why I'm in support. *Mahalo*," and the Chair "so ordered." (By reference only.)

Representative La Chica rose to speak in support of the measure, stating:

"Mr. Speaker, in support. This measure, I really feel is one of those, *mahalo* to our Housing chairs for leading this charge. But I feel that this is one of those measures that really gives the opportunity and empowers our families to build their own housing within lots that they currently reside in. I know it still gives the counties the development authority to approve or reject those applications. But as somebody who was born and raised in the Philippines, we have long adopted this concept of housing family compounds, where families can live side by side, sharing meals, hosting parties, and being this support system for one another. And not saying that this is what's going to happen here in Hawai'i, but I just don't believe that we're suddenly going to see an influx of all these developers that are going to come in and buy our homes and turn them into these expensive luxury homes and raise rents.

"It's really a solution for our local family so that when the family expands, when their kids choose to have kids of their own, they don't have to be outbid for another home, they don't have to sell their home to afford another, and they won't have to move to the mainland in search of a more affordable option. And this is really about multi-generational housing for me, that's why I feel like this is a bold policy that's enabling legislation. Because I also don't feel like our counties would really just suddenly kind of do things because it has taken us decades to get to this point, and we haven't really addressed the solution, and we haven't really enabled our families to build their own housing for our own families. So, for this reason, I support this measure."

Representative Kobayashi rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. I really appreciate the good work of the Housing chair to amend the bill from what it was when it stipulated minimum lot sizes of 2,000 square feet and 1,200 square feet. I think those were eye awakening numbers. But overall, I think that this bill is a one silver bullet kind of solution to the housing problem. All solutions need to be on the table, whether it's expanding into agricultural land, whether it's expanding more into commercial business areas, and also, of course, whether we treat the counties differently.

"This is a problem, I think, especially for Honolulu in this bill. Honolulu has two options, but option B, that of growing into the possibility of developing 30,000 more units, is not a real option for Honolulu. And so, I think that the mandate for at least two accessory dwelling units, or the reasonable equivalent, will lead to greater densification to the detriment of the current lifestyle and the current traffic parking problems.

"The City & County seems to be fully aware that densities must be increased. They are willing to go for one more accessory dwelling unit, but having at least two is too much. At least two could mean three, four, whatever. And I think that all of this is compounded by the fact that there is no easy mechanism to make the cost of housing and real property in Hawai'i less with this bill. Thank you."

Representative Nakamura rose to speak in support of the measure, stating:

"In support. Mr. Speaker, with a 50,000-unit shortage of housing throughout the State of Hawai'i, we need all kinds of strategies. This strategy is one option. SB 3202 started off very differently from what this final bill is turned out to be. There are many safeguards put in place for the counties. The counties have a lot more authority to figure out whether or not additional density is suitable in any given neighborhood, given either site constraints, parking limitations, infrastructure limitations, and the list goes on and on. There are many guardrails added to this bill from when we first started.

"With the cost to build an affordable housing unit in Hawai'i, the high cost of labor, the supply chain issues, the high interest rates, it ranges from, if you have low-income housing tax credit financing, maybe \$125,000 per unit and up to \$500,000, \$600,000 units these days to build an affordable rental unit. And we simply don't have all the resources, at the state and the county and the federal levels, to accommodate this need. And that's why we need all kinds of strategies.

"SB 3202 is not the fix, it's not the silver bullet, but it is one strategy that will make sense for some families who have a desire to increase densities on their lots. But I think we need multiple strategies. I think members mentioned strategies around transit-oriented development. On the neighbor islands, it's development around our bus stations. We need to do smart growth. We need to partner with our counties to decide where that growth is going to occur. And we need to be at the table to help finance these improvements as well.

"So, standing in support and thankful for the voices on both sides of the fence, because we know that we need multiple strategies to help the families in Hawai'i."

At this time, Representative Ward moved to recommit Conf. Com. Rep. No. 149-24 and S.B. No. 3202, SD 2, HD 1, CD 1 to the Committee on Housing, seconded by Representative Garcia.

Representative Ward rose to speak in support of the motion to recommit, stating:

"Mr. Speaker, I rise in favor of the recommitment. Mr. Speaker, I think we've heard from probably almost two dozen people and those who haven't spoken. But this is, as you can see, O'ahu centric in its position against this, which generally is not a wise strategy. We are a state legislature, we should have all counties involved. I'm not saying that if the chair was from O'ahu there would be a different bill, but maybe it would be a little bit different. They would perhaps have carved it out.

"But I think this is a very divisive bill, given what we have heard from so many different people. And I owe an apology to the gentleman from the Big Island. I said there was nobody from the neighbor islands against this. My apologies to the gentleman. The point is, we can do better. And I think going back and not rushing through this but have it back into the Housing

Committee would be the more prudent thing to do. It would be where discretion is the better part of valor, I think Shakespeare said. For those reasons, Mr. Speaker, recommitment is a simple process. Let's go back to the drawing board, let's get a better bill out. Thank you."

Representative Nakamura rose to speak in opposition to the motion to recommit, stating:

"Mr. Speaker, in opposition to the recommitment. We have spent the entire session debating this bill. Clearly, we have members in support and in opposition to this bill. Clearly, we've gone through the process. I do not believe we should continue to repeat this process again next session."

The motion to recommit Conf. Com. Rep. No. 149-24 and S.B. No. 3202, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO URBAN DEVELOPMENT," to the Committee on Housing, was put to vote by the Chair and upon a voice vote, failed to carry, with Representative Kapela being excused.

(Main Motion)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3202, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO URBAN DEVELOPMENT," passed Final Reading by a vote of 29 ayes to 22 noes, with Representative Garcia voting aye with reservations, and with Representatives Belatti, Chun, Cochran, Garrett, Hashem, Holt, Hussey-Burdick, Ichiyama, Kapela, Kobayashi, Kong, Marten, Matayoshi, Nishimoto, Onishi, Perruso, Poepoe, Quinlan, Sayama, Takayama, Takenouchi, and Ward voting no.

Conf. Com. Rep. No. 150-24 and S.B. No. 1035, SD 2, HD 1, CD 1:

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 1035, SD 2, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Amato rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Healthcare is a human right. And on Maui, Maui is in crisis in many ways. Even before the pandemic and fires, we had a 43% shortage of doctors. In the last six months, we have had six anesthesiologists resign, one of our only two neurosurgeons quit and the second will likely follow, and one obstetrician just moved to the continent.

"The Big Island is losing an anesthesiologist, forcing their surgical center to stop procedures. The only urologist on Kaua'i just put in their resignation. Maui's current operating room capacity is only 40% of international standards. In Hawai'i, we are at much less than a third world capacity in many things that are health related. And we have an aging population. The only beneficiaries to this whole dire situation are big insurance companies and hospital executives with high pay.

"Investing in our healthcare industry is crucial for economic diversification and resilience. One fix is encouraging leaner operations. By nurturing efficient private practices, we are helping everyone. This bill provides an exemption to the regressive GE tax, which is a good start in a positive direction. I thank both the Health chair and the Finance chair for their wisdom in bringing this excellent and much needed bill to the floor."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, may I adopt the words of my colleague from Maui and a couple of comments in addition, please. Mr. Speaker, what I like about this bill is that my side of the aisle has been trying to get a GET tax exemption of services for probably as old as many of us in this particular room. This is obviously music to our ears. It takes not only the medical services but also dental services.

"The bottom line is this, this session has not really focused on reducing the cost of living for our people. This one does. Not a whole lot, but it's a beginning. And that's one of the biggest concerns from every poll that is taken in this state. Do the cost of living. And that's why I said earlier, 69% don't think we're doing a good job here. I forgot to mention, you know what percent says we're doing a great job or better? Four percent, Mr. Speaker. That's something we need to contemplate. But this is a great bill, it's a great beginning to get the cost of living down. Thank you."

Representative Matsumoto rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matsumoto's written remarks are as follows:

"Exempting medical and dental services provided by healthcare providers to patients who receive Medicare, Medicaid, and TRICARE benefits from the GET is an effective measure to address the lack of accessible health care and the rising cost of living in Hawai'i. The rising cost of living in the state has become detrimental to the survival of local medical practices, forcing many to close their doors or relocate to the mainland. This measure will help curb the growing shortage of medical and dental practices by providing tax relief to providers in the form of an exemption from the GET for services to patients who receive Medicare, Medicaid, and TRICARE. For this reason, I support this measure."

Representative Garcia rose to speak in support of the measure, stating:

"In support. I just want to say that, like the representative from Hawai'i Kai mentioned, our caucus has pushed for the exemption of medical services for a long time. And so, this is music to our ears. I think hopefully next session we'll go one step further and exempt all medical and dental service, not just those reimbursed through Medicaid, Medicare, and Tricare."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support, brief comments. Mr. Speaker, your Committee on Health advanced numerous GET exemptions around the issue of doctors and medical services, particularly around Medicaid, Medicare, or Tricare. So, this bill before us is welcome to me.

"But I would add one caution. In asking the director of taxation the anticipated revenue loss due to this GET exemption, because we had been told earlier that there was not going to be revenues to be able to really do these kinds of exemptions, I would note that what the director of taxation informed me of is that in fiscal year 2026, this particular measure will be a \$33.6 million loss. In fiscal year 2027, \$77.5 million loss. When we go further into fiscal year '31, it's \$92 million.

"So, again, I'm in very strong support of this exemption for the GET. But it raises the question, as we move forward with all of our tax policies, as we look at lost revenues, what are we going to be doing with the majority of our tax policy to address cost of living, tax relief for working families, and to ensure that we have an economic system that benefits working families. Thank you, Mr. Speaker."

Representative Aiu rose to speak in support of the measure, stating:

"Mr. Speaker, In support. I was actually the only one that voted in opposition to this bill when it came for third reading because of the reasons stated by the previous speaker on the tax loss. But I just want to thank the Finance chair for figuring out how to make this work in the budget and giving this tax relief to much needed medical services. Thank you."

Representative Yamashita rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Yamashita's written remarks are as follows:

"Mr. Speaker, SB 1035 is a General Excise Tax exemption on Medicare, Medicaid, and TriCare Medical and Dental services.

"The impact to tax collections has been estimated by the Dept. of Taxation as:

- FY26: -34.6 million
- FY27: -77.1 million
- FY28: -80.5 million
- FY29: -84.0 million

"This will strengthen the social safety net by providing greater access to health care for the lowest income families and elderly, and this will ease the fiscal burden on doctors and dentists practicing in Hawai'i.

"SB 1035, CD 1 would exempt independent primary care practices from the GET for Medicare, Medicaid, and Tricare patients, who are among the most expensive and vulnerable patients.

"The result should be an increase in access to health care affecting, most severely, neighbor island and rural populations, *kōpuna*, and high-risk patients. Lower access to care results in poorer health outcomes and higher healthcare costs.

"Per the State Health Planning and Development Agency, the impact of losing essential healthcare providers for Medicaid patients will increase emergency and hospitalization rates, thereby increasing the amount needed for state Medicaid 40% matching contributions. This could be a greater impact than the loss in GET revenue.

"I urge my colleagues' support."

Representative Pierick rose to speak in support of the measure, stating:

"Thank you, in support. It was previously mentioned that \$90 million will be not in the state budget due to this bill, and I think that is music to my ears. That means \$90 million will be in the hands of the residents of Hawai'i versus ours."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 1035, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE GENERAL EXCISE TAX," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 152-24 and H.B. No. 1830, HD 2, SD 1, CD 1:

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 1830, HD 2, SD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Chun rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in strong support and a brief comment. Today is May 1st, which is not only lei day, but it also begins the start of Mental Health Awareness Month. As the purpose of Mental Health Awareness Month is to shed light on the mental health issues and stigmas that people face, it is fitting that we are discussing this measure today. Mental health touches a lot of issues we face as a society, as causes of some people facing homelessness to our criminal justice system, workplace productivity, and truancy, just to name a few. It is something that, as policymakers, we cannot ignore.

"As mental health became a priority for the Majority Caucus this session, it was important that we addressed issues of access and provider shortage. Mr. Speaker and colleagues, this bill is one step in easing those providers shortage of burdens.

"Each profession in this bill, psychologists, social workers, and marriage and family therapists, work tirelessly every day to meet the mental health needs of our state. But becoming a fully licensed professional is not an easy journey. Many prospective mental health professionals leave the islands to pursue their clinical hours, oftentimes due to the cost-of-living issues combined with having the ability to be reimbursed for their services in other states. Just like prospective doctors who are more likely to stay in Hawai'i when pursuing their medical residency here, mental health professionals who complete their clinical hours here are just as likely to stay. That is why this bill is important, to give these professionals the ability for reimbursement while pursuing their clinical hours.

"Mr. Speaker and colleagues, I want to truly thank you for prioritizing mental health by assisting these individuals who dedicate themselves to becoming mental health professionals. As we look at the needs of not only our *keiki*, but every person in need of mental health services, this bill takes a step forward to ensure that we have these professionals ready to help. Thank you."

Representative Nakamura rose to speak in support of the measure, stating:

"In support. I'd like to adopt the words of the representative from Waipahu as my own. And I'd just like to thank him for all of his work during the interim to make sure that all of the stakeholders and all of the concerns raised last session were addressed in this year's bill. Thank you," and the Chair "so ordered." (By reference only.)

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support and may I have the words from the representative from Waipahu entered as if they were my own," and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1830, HD 2, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO MENTAL HEALTH," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 154-24 and H.B. No. 2619, HD 1, SD 1, CD 1:

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 2619, HD 1, SD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Kahaloa rose to speak in support of the measure, stating:

"In support. This bill is in honor of the late Representative Clift Tsuji, who served alongside many of you here in this very chamber representing his beloved island home. In his 75 years, he saw the consequences of invasive species and fought tirelessly for biosecurity during his tenure as Ag chair.

"This bill recommitments our state to protecting our environment, our food security, and our way of life against invasive species. It places the leadership of all biosecurity efforts on the Department of Agriculture and starts to give them the tools they need to be successful in this endeavor. This bill funds nearly \$20 million in staffing and programing to help manage and eradicate invasive species like the coconut rhinoceros beetle, little fire ants, rose-ringed parakeets, coqui frogs, two-lined spittle bug, and so many more.

"Let us not surrender in the battle against invasive species and keep up our efforts in biosecurity. We want our *keiki* to be free to play safely on playgrounds without fear of being bitten by little fire ants. And we want our scenic Hawaiian landscapes to behold and proudly display coconut trees across Hawai'i.

"Let us honor the memory and work of the honorable Clift Tsuji by passing this bill. And thank you to the chair and vice chair of Finance and the chair of Agriculture & Food Systems for making this happen. *Mahalo*."

Representative Gates rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. May I adopt the words of the vice chair of Agriculture as if they're my own," and the Chair "so ordered." (By reference only.)

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, strong support. And to note that, Clift Tsuji was a dear friend, and I was his vice chair long, long ago, if people can remember that. I was a vice chair, you can ask Clift Tsuji. Thank you."

Representative Kitagawa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. In January of this year, there were 49 little fire ant active sites on the island of O'ahu, including 14 in Kāne'ohe. Over the last few months, the number of active sites has grown. This bill includes \$2.5 million for little fire ant response, and \$2 million for a public awareness campaign that will help to educate the public about the many invasive species in our communities and the threats they pose to our natural environment and the safety of our people. I'd like to thank the chair of Finance and the chair and vice chair of the Agriculture Committee for their work on this biosecurity bill that will help to address the spread of little fire ants across our state and in my community. Thank you very much."

Representative Yamashita rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. In support. And may I adopt the words of the vice chair of Agriculture and the vice chair of Finance, except for the part thanking me.

"Mr. Speaker, this is a very, very important bill that, for the first time in our state history, there is a comprehensive look at biosecurity, not only that plant quarantine is actually doing the work, but that it is coordinating between departments, between different entities to make sure that we are using technology to have mapping oversights of where they are spraying and that we do not duplicate that spraying that would compromise our

environment. These types of things that are being put in place are very, very important. We have to protect our environment, but at the same time, we have to make sure that we keep our communities safe.

"The bill also allows the department to do actual research into what type of pesticides to use for our unique kind of environment that we have, the unique shrubbery and plant life that we have throughout our state, that we don't harm them going forward. And because there are a lot of things that are not allowed in our state that could work, but they need that kind of work done so that we can make sure that it fits, not only for agriculture and for our communities, but for different kind of crops that are, I think, going to be important that we kind of look into all those things. I actually should have wrote all this down before I started speaking. But anyway, Mr. Speaker, I'd like to add additional written comments into the Journal. Thank you."

Representative Yamashita's written remarks are as follows:

"The Hawai'i Department of Agriculture's Biosecurity Program is a multi-level, collaborative program that prevents the introduction and establishment of new invasive species; detects and controls established pests, and promotes the growth of agriculture.

"The invasive species problem seems insurmountable, but this measure provides for aggressive action towards solving the problem. Included is language that:

- Holds Department of Agriculture and invasive species partners to be accountable and transparent as they work to control little fire ant, coconut rhinoceros beetle, and coqui.
- Increases inspector positions to strengthen the ability to protect our island and the state from new invasive species from entering.
- Funds programs for control of rose-ringed parakeet, feral chickens, and two-lined spittlebug.
- Implements pest management programs for farms, nurseries, and ranches, benefitting agricultural producers.
- Tracks progress through public awareness campaigns.

"The budget includes conversion of 66 positions from special funds or revolving funds to general funds. This will free up non-general funds to be used to address current or new invasive species.

"HB 2619, CD1 provides:

- 1,000,000 Risk Assessment
- 1,200,000 Pest Management Systems Approach
- 1,100,000 Brown Tree Snake Rapid Response
- 500,000 Pest Diagnostics
- 1,500,000 Coconut Rhinoceros Beetle Response
- 1,000,000 Green Waste
- 500,000 Compost Reimbursement
- 2,000,000 Public Awareness Campaign
- 2,500,000 Little Fire Ants Response
- 100,000 Coqui Frog Response
- 100,000 Invasive Species Outreach
- 2,000,000 Tech Upgrades
- 500,000 Import Replacement Fund
- 1,500,000 Biosecurity Facility Planning
- 300,000 Rose-Ringed Parakeet
- 800,000 Two-Lined Spittlebug
- 200,000 Feral Chicken Control at Counties"

Representative Nakamura rose to speak in support of the measure, stating:

"In support and I'd like to adopt the words of the vice chair of Agriculture as if they were my own, and thank the Ag chair and vice chair, Finance chair and vice chair, and members for adding the rose-ringed parakeet funding and pilot program to this bill. Thank you," and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2619, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO AGRICULTURAL BIOSECURITY," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 155-24 and H.B. No. 1953, HD 1, SD 2, CD 1:

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 1953, HD 1, SD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. So, this bill would basically create policies or best practices that can be perceived as soft on crime. Waipahu has crime, and we don't want crime in Waipahu. So, to counteract that crime, we want tough-on-crime policies. And this bill wouldn't do that. So, I'll be voting no."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1953, HD 1, SD 2, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE PENAL CODE," passed Final Reading by a vote of 49 ayes to 2 noes, with Representatives Garcia and Pierick voting no.

Conf. Com. Rep. No. 156-24 and H.B. No. 2074, HD 2, SD 1, CD 1:

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 2074, HD 2, SD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Holt rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. First, I'd like to *mahalo* the chair of the Education Committee and the chair of the Finance Committee for getting us to this point. This measure is very important to many members, as been evidenced by this being the number one priority for the Native Hawaiian Caucus in the House, and also by the numerous testimonies provided by organizations and individuals in every step of the way.

"For Hawaiians, the life of our language, 'Ōlelo Hawai'i, is tied to the health and well-being of our people and culture. Ka Papahana Kaiapuni is an important program that both advances the revitalization of our language and educates the next generation of students. Its success supports the health and well-being of Native Hawaiians, our language, and our culture. Ka Papahana Kaiapuni programing has also been and continues to be integral to the state fulfilling its constitutional obligations.

"Article X, Section four of the Hawai'i State Constitution gives the state the duty to promote the study of Hawaiian culture, history, and language. Further, the Constitution states that, 'the State shall provide for a Hawaiian education program consisting of language, culture and history in the public schools.'

"The Department of Education has experienced a significant growth in the demand for Hawaiian language immersion education to be provided in Hawai'i's Kaiapuni schools. Over the past decade, enrollment has grown by approximately 1,400 students, and yet resources have consistently declined since 2008. This act is to address the immediate and long-term requirements in response to the growing demand for Kaiapuni education access by appropriating funds to establish multiple full-time equivalent Kaiapuni staff positions.

"This funding will support positions distributed at the state level, reinforcing educational support to ensure the successful cultural, linguistic, and academic achievements of the Kaiapuni students. And additionally at the school level, these positions will be designated to provide new Kaiapuni program school sites and classrooms with faculty necessary to facilitate daily student instruction, thereby strengthening the overall educational foundation. So, for those reasons, I'm in support. *E ola mau ka 'Ōlelo Hawai'i.*"

Representative Kahaloa rose to speak in support of the measure, stating:

"In strong support. May I adopt the words of the chair of the Native Hawaiian Caucus. Thank you," and the Chair "so ordered." (By reference only.)

Representative Garcia rose to speak in support of the measure, stating:

"In strong support, same request," and the Chair "so ordered." (By reference only.)

Representative Marten rose to speak in support of the measure, stating:

"Mr. Speaker, I'd also like to adopt the words of the chair of the Hawaiian Caucus, and I'd like to note that one of the positions that is funded is the immersion teacher in our DOE High School. So, it's just to keep her there, it's not to expand the program. And we can expect to have similar bills trying to actually expand the program, especially as our younger students, where we have full classrooms, move up, we will need to keep adding teachers. Thank you."

Representative Amato rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. *E ola ka 'Ōlelo Hawai'i.*"

Representative Souza rose to speak in support of the measure, stating:

"In strong support. I would like to adopt the words of the chair of the Native Hawaiian Caucus. Thank you," and the Chair "so ordered." (By reference only.)

Representative Woodson rose to speak in support of the measure, stating:

"Same request, please," and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2074, HD 2, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO KAIAPUNI EDUCATION," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 157-24 and S.B. No. 2257, SD 3, HD 1, CD 1:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, the report of the Committee was adopted and S.B. No. 2257, SD 3, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO EDUCATION," passed Final Reading by a vote of 51 ayes.

Conf. Com. Rep. No. 159-24 and S.B. No. 2305, SD 2, HD 2, CD 1:

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2305, SD 2, HD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Takayama rose to speak in support of the measure, stating:

"In strong support. Mr. Speaker, more than 20 years ago, my father, who was suffering from dementia, wandered off while on a shopping trip with my brother in Kāne'ohe. Simply wandered off. And that is what happens with people who suffer from Alzheimer's and other related dementias. My brother and I spent several hours driving through Kāne'ohe town and had the help of Kāne'ohe police in searching for him. Fortunately, we found him several hours later, safe and sound.

"Fast forward 20 years later and circumstances really haven't changed for families with *kūpuna* or developmentally disabled who wander off. They're on their own in terms of organizing a search for their loved ones. If they can convince police to join them, they'll have the help of police.

"This bill advances us to the modern age in terms of enlisting the public by alerting them to missing persons who are vulnerable. And for that, I'd like to thank my Pearl City colleague, who is the co-convener of the Kupuna Caucus, for advocating this bill. And I'd also like to thank the chair of Finance Committee for funding it in the budget. And with that, I like to ask my fellow members to support this bill. Thank you."

Representative Chun rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Mr. Speaker, this measure creates a Silver Alert program designed to send out a message to utilize the community's help in locating our *kūpuna* and vulnerable individuals when they go missing. When someone suffering from dementia or a cognitive impairment wanders off, they can forget where they are, become confused, and end up severely injuring themselves, or in worse cases, leading to their untimely death.

"This was the case for Mililani resident William Burr, a Vietnam War veteran who was diagnosed with dementia. He went missing last October and his body was unfortunately found many months later. One of the advocates for this bill was Joseph Burr, William's brother, who testified at

nearly every public hearing from his home in Ohio, sharing the belief that if this program was in place, his brother might have been found alive. This is the story of countless others who go missing every year and how this program can help bring them home safely.

"Mr. Speaker, I want to give a shout out to the Alzheimer's Association of Hawai'i for really championing this measure, along with the State Council on Developmental Disabilities, Executive Office on Aging, as well as many other community and governmental agencies. This effort began last year with meetings including with the Department of Law Enforcement, that was open to housing the program, as well as with the California Highway Patrol and the Arizona Department of Public Safety, who both shared their *mana 'o* on their state's Silver Alert systems.

"Finally, Mr. Speaker, I want to thank the chair of Human Services and the chair of Finance for helping to get this bill through. And I also want to thank this body for prioritizing safety for our *kūpuna* and our vulnerable individuals. Losing a loved one who wanders off can be the most terrifying situation for families and caregivers. But today, we are not only giving them hope, but we are also providing the help needed so that their loved ones can be found. Thank you."

Representative Kila rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, declare a potential conflict. I may have to use this measure to locate you sometime in the future."

The Chair addressed Representative Kila, stating:

"Probably no conflict."

Representative Kila continued to speak in support of the measure, stating:

"In support. May I adopt the words of the previous speaker, please," and the Chair "so ordered." (By reference only.)

Representative Kila continued, stating:

"Mr. Speaker, I have appreciated watching the Honolulu Police Department evolve their position on this measure. When it was first introduced, Honolulu Police Department vehemently opposed this measure, constantly pointing to the fact that they would not be able to implement this. Today before us, SB 2305, Honolulu Police Department is now willing to come to the table to help enact this measure.

"Mr. Speaker, this body last year committed \$1 million to the Alzheimer's Association by funding a public awareness campaign around this disease. Mr. Speaker, this body has been friendly to our older population, but we've also been acting to support our aging population. From the appropriation last year to the measure this year, we continue to work to make sure our aging population is continued to be looked after and cared for. So, I'm very grateful to have watched this measure evolve, and I look forward to one day having the safeguards in place to really help the families who will really benefit from this bill. Thank you."

Representative Cochran rose to speak in support of the measure, stating:

"Thank you, Chair. In strong support. So, during the fire, sitting at the hub that I had up on Lahainaluna Road, there was an uncle with sundowners, and he'd walk by several times a day, just in the afternoons, and especially in the evening hour when the sun's going down, hence sundowner. And I want this Silver Alert to be activated, yes. But also, to look into the families, because we had to call and find out if the family needed help with oversight, to prevent him from actually leaving the yard, going through the gate, and walking down the street a half a mile. So, there is hardship within the family unit to have oversight on their loved one who's afflicted with Alzheimer's and sundowners. So, I'm hoping that in conjunction with a Silver Alert, that we look into the families where we see the constant person being lost and going through this situation. So, *mahalo*."

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2837, SD 2, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support of this measure, brief remarks. First, I'd like to thank the vice chair of the Committee on Health & Homelessness, who took on the Herculean effort of negotiating numerous health bills, very complicated issues. And Senate Bill 2837, CD 1 is one of those complicated measures. I'm grateful that she was able to help and the conference committee was able to negotiate language that states that the Maui State Veterans Home shall be assimilated into a state agency having a Maui affiliation. I think this is a good compromise that really affects the intent of ensuring that any state veterans home on Maui will be having its revenues go back to the island and the residents of Maui, as we know that the state veterans home on O'ahu does that very thing here with O'ahu Regional System.

"Mr. Speaker, I'm also in support of this measure because I think, and as I stated when we were talking about the budget, how I wanted to talk about where we have been, what we will be doing with this bill in front of us, and the future work that we have to do with this legislation. What this legislation highlights is that we have to grapple with understanding what O'ahu Regional System, what Maui Regional System, what the entire HHSC Corporation looks like as we move into the future.

"So, again, as this bill looks at making sure that O'ahu will start the process of getting the state veterans home on Maui, we need to ensure that the commitments that were made to the Committee on Health & Homelessness, that the Maui Health System Regional Board will be reconstituting itself. Because we have very serious, serious issues that we need to deal with with all of these regional systems. In another bill, Mr. Speaker, and I'll just touch on it really briefly, Senate Bill 3128, we left the transfer of O'ahu Regional Health Systems back into DOH up in the air.

"So, these are the kinds of issues that we will need to grapple with in the future. In the past, and I look to my colleague to my left from District 20 who represents Kāhala, Kaimukī, Kapahulu, he was in this House from 1978 to 1994 as a House member and a Senate member. In 1995, he left and HHSC was created. In 1995 to 1997 he was the administrator of HHSC. In 2012 to the present he has served in this House and he has seen us go through regionalization, the public-private partnership that created the Maui Health System. We are going to have to grapple with these issues of what does O'ahu Regional Health Care look like, what do all the other regions look like, and what does HHSC Corporation look like. So, that is the work for the future that is hinted to by this bill. Thank you, Mr. Speaker."

Representative Amato rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. It is high time we did more to respect, honor, and support our veterans. Today, I am proud to support this bill, which will ensure that we do not add even more delays to building a much needed and much deserved veterans home on Maui. Maui needs to control its health care. Having a state agency with a Maui connection is a good start. Yet, we should all watch this project to ensure control of Maui health care stays on Maui and that our veterans get the support I know we all want them to have. Thank you, vice chair of Health & Homelessness for your excellent work in negotiating this."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2837, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE OAHU REGIONAL HEALTH CARE SYSTEM, HAWAII HEALTH SYSTEMS CORPORATION," passed Final Reading by a vote of 51 ayes.

No. 1932, HD 2, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE DEPARTMENT OF TRANSPORTATION," passed Final Reading by a vote of 46 ayes to 5 noes, with Representatives Belatti, Hussey-Burdick, Kapela, Perruso, and Poepeo voting no.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 2790, HD 1, SD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Matsumoto rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I stand in support of HB 2790. Again, I would like to thank everybody who worked on this bill over this session. Hawai'i has the third lowest rate of homeownership in the entire nation. And we all know that providing pathways to homeownership is imperative for our state. And this bill relates to the Hula Mae Program, which is a first-time homebuyer program that existed in our state for many years but hasn't been utilized since 2013. And I've been pushing for this bill for many, many years, because I know firsthand what an impact it can make in the lives of those in our community.

"My husband and I were able to buy a home in 2013 with the Hula Mae Program, and we wouldn't have been able to do it without it. The Hula Mae Program offers a very low interest rate, 2.95% at the time. It required us to live in our house for 10 years, we've been there for over 11. And it allowed for a smaller downpayment. And also required homeowner classes to help you make decisions on the best way to get a loan, or what type of home would be within your range. And so, we were one of the last families that were able to utilize this. And I'm really encouraged that HHFDC will be reinstating this program. This bill will provide accountability to have HHFDC provide a report to the Legislature on how they're doing. And I know this program will make a positive impact in our state. Thank you."

Representative Alcos rose to speak in support of the measure, stating:

"In strong support. And I would like to adopt the words of the Mililani representative. Thank you," and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2790, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO HOUSING," passed Final Reading by a vote of 51 ayes.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 2404, HD 1, SD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in support of the measure, stating:

"In support. This bill provides tax relief and incrementally increases standard deduction amounts. This is a good bill. And I thank the body for helping Hawai'i by reducing this tax burden."

Representative Yamashita rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. In support. This is a monumental piece of legislation that will give tax relief to the working families of Hawai'i. By 2030, it will result in the biggest tax cut in state history by saving taxpayers more than \$5 billion. It starts off in 2025 by doubling the standard deduction, and as minimum wage increases are applied in the years to come in 2026 and 2028, and they are pushed into higher tax brackets, what this bill does is adjust the brackets to make sure that we are not taxed higher rates and slowly gives everybody more relief. So, I urge everybody to support this bill. Thank you."

Representative Todd rose to speak in support of the measure, stating:

"Thank you, in support. I just want to thank the Finance Committee and Finance chair for their work on this measure. I know that there's a lot of moving parts and there's going to be some stuff we have to kind of piece together over time. Taxes are complicated. But I think it became very clear to me with my first couple of years in office here, that we have a massive structural issue with how we tax people within our state. I think this is an important component, along with future analysis of a variety of taxes. But I do think it's a step in the right direction.

"We need to begin to shift our tax code away from things like income tax and more towards wealth-based taxes, like property taxes. So, I am glad that this is taking a very critical first step. And also, that most of us here, almost all of us, will see a pretty substantial tax cut, which will be pretty reflective of how the general public will also be seeing things on a week-to-week basis with their paychecks. Thank you."

Representative Matsumoto rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. This is a really important bill. We talk about cost of living all the time in the state, and we've been looking for an income tax cut for a very, very long time. Really encouraged that we're going to be putting more money in the pockets of those in our communities. And if I could have more written comments inserted into the Journal. Thank you."

Representative Matsumoto's written remarks are as follows:

"Hawai'i's cost of living has been the center of debate in the Legislature for quite some time. After years of advocating, we have finally brought a historic income tax cut to the floor for a final reading vote. This measure will provide much needed income tax relief to the individuals and families across the state who are struggling financially due to the high cost of living and tax burdens imposed on them. For this reason, I stand in support of this measure."

Representative Kitagawa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I'd like the words of the Finance chair inserted into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Kitagawa continued, stating:

"And just a few brief comments. So, in addition to helping families, this bill will also help single tax filers, including our *kūpuna* who are on a fixed income. So, it has a broad range of people that it will be assisting in our community.

"I'd like to thank the chair of Finance and you, Mr. Speaker, for all of your work on this bill and for your foresight in ensuring that Hawai'i residents

would not be paying more in taxes, especially due to the increase in minimum wage. This bill will reduce the cost of living for all of Hawai'i residents, which we have been working towards in the past few years in the Legislature. Thank you."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, strong support. And I could not have said it better because he gave my speech, and he gave the enthusiasm that is behind this historic bill. That's the chair of Finance. I would only add one thing. I've talked about the ALICE families and how 63% of the Hawaiian community is ALICE families. This is straight on, spot on to help the ALICE families. That gives me a lot of joy. Thank you, Mr. Speaker. And may I have his remarks entered into the Journal as if they were my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative Nakamura rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I wanted to adopt the words of our chair of Finance as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Nakamura continued, stating:

"And at the start of session, we all talked about the high cost of living in Hawai'i. We talked about the plight of over half of our population of ALICE families who are struggling to make ends meet and are living paycheck to paycheck. By incrementally increasing the standard deduction for all taxpayers, by incrementally changing income tax brackets pegged to increases in minimum wage until 2028, we are going to be making some impactful changes to our tax code.

"A family of four making the median household income of \$88,000 a year will see a tax savings of \$348 next year, \$1,546 in 2025, and by 2030, this family will see a tax savings of \$3,393. That's \$3,393 in additional income per year. This family will go from paying the second highest income taxes in the country to the fourth lowest. Mr. Speaker, the scale and breadth of this tax relief bill, pegged at over \$5 billion, is unprecedented. I'd like to acknowledge you, the chair and vice chair of our Finance Committee, and our Senate colleagues for bringing this bill before us."

Representative Garcia rose to speak in support of the measure, stating:

"In support. And as the loyal opposition, it's our job to hold the majority accountable, but also to recognize when a good bill is here. And the fact is, this is an excellent bill for the people of Hawai'i. And as the majority leader said, the fact that we are the second highest taxed income state in the country is a horrible reputation to have. But now that we're dropping to the fourth, congratulations Majority Caucus."

Representative Perruso rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, thank you. In support with reservations. So, HB 2404, CD 1, when enacted, will significantly alter Hawai'i's tax landscape, as previous speakers have mentioned, primarily through two mechanisms. One, a substantial increase in the standard deduction, and second, a consolidation of tax brackets through the elimination of the bottom brackets. This policy, while seemingly beneficial through a broad lens, disproportionately favors higher income earners, therefore exacerbating existing inequalities within our state.

"By 2025, the financial implications of these changes become apparent. According to the Institute for Taxation and Economic Policy, the state stands to lose \$656 million in revenue, a substantial fiscal shortfall. However, the distribution of these tax breaks under this bill are of even greater concern. A substantial 42% of these benefits, as others have mentioned, will accrue to the top 20% of earners, individuals making over \$147,000 annually. In stark contrast, those in the lowest 20% income bracket earning less than \$27,200 will receive an average tax break of only \$335. This discrepancy highlights a clear skew towards benefiting those who are already well-off.

"As the policy fully matures by 2031, the pattern of inequality intensifies. The projected loss in state revenues balloons to nearly \$1.4 billion. The tax breaks continue to disproportionately benefit the wealthy, with 43% of the benefit going to the top 20% of earners. The top 1% of earners with an

average income of \$1.5 million will enjoy a tax break of approximately \$12,800, which starkly contrasts with the \$469 tax break to those in the bottom 20%.

"There are more targeted ways of designing tax policies so as to better support those who are struggling, our working families who are having to move to the continent to survive. I support the taxation of wealth as the foundation of our budgeting policy. But as we are all well aware, the state has no power to tax property at this point in time, and neither chamber passed out any legislation this session that would have advanced that approach. I think that this bill, HB 2404, is a particularly risky approach, forwarding as it does broad substantive changes in tax policy that will have significant impacts on state revenue without any new progressive tax revenue generators. For these reasons, I have reservations."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Mr. Speaker, in strong support because I've long believed that we needed to adjust the standard deduction and income brackets. But also in acknowledgment of the analysis just provided by the previous representative, the representative from Wahiawā, this does raise serious questions about out years and what we would need to do. I also agree that we should be looking at taxing wealth, but this body has time and time again turned away from doing the one thing that we could do, which is to add additional taxes through a conveyance tax on very high income or high-priced properties. So, it's, again, with a lens, this is something we need to do, but this creates future work for us as to how we're going to ensure tax fairness in our state for working families. Thank you, Mr. Speaker."

Representative Kapela rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. With reservations. This is a huge tax cut for working families, but this is also a tax giveaway to the wealthy. For those reasons, I am with reservations. And I would like to insert written comments into the Journal."

Representative Kapela's written remarks are as follows:

"This bill has been hailed as the biggest tax cut for working families in Hawai'i's history. While it does contain some provisions that benefit everyday people, it is also an egregious tax giveaway to the wealthy.

"I recently received an analysis of the conference draft of HB 2404 from the Institute on Taxation and Economic Policy (ITEP), one of the nation's foremost nonpartisan tax policy organizations. According to ITEP, under this proposal, in 2025 the top 20% of income earners in Hawai'i—who earn an average of around \$150,000 per year—will receive 43% of the tax breaks, totaling roughly \$271.5 million. The bottom 40% of income earners will receive less than half that amount, at roughly \$117 million. Six years from now, in 2031, the situation will get even worse, with the top 20% receiving over \$590 million in tax cuts, while the bottom 40% will receive roughly \$210 million in relief.

"This bill also carries a shockingly high cost. ITEP estimates that the proposal will cost nearly \$656 million in tax revenues in 2025 and roughly \$1.4 billion adjusted for inflation in 2031. These are huge sums of money for our state that could be used to establish programs that truly invest in working families, like paid family leave, a child tax credit, a well-funded public school system, free community college, universal healthcare and mental health programs, food security for low-income residents, and so much more.

"Finally, this proposal does not fix the child and dependent care tax credit, which is something the House strongly supported this year and that was originally included in this bill. Last year, we promised the public that we delivered significant tax relief for child care. We later learned that very few people can claim the credit because we failed to make an additional amendment to fully implement it. Sadly, the final draft of this proposal does not fix that problem for working parents.

"Some parts of this bill are good, such as increasing the standard deduction. Yet, it also has glaring problems that need to be addressed in future years. For that reason, I have serious reservations about its impact on the fiscal future of our island home."

Representative Hussey-Burdick rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. Also with reservations. I typically try to either choose a yes or no on final reading votes. But I think this bill has a lot of good parts in it. Of course, I support tax breaks for our poorest among us, it's desperately needed for working families. But the wealthier tax brackets I don't think need these same tax breaks. And I worry about how we're going to close this revenue gap in future legislative years. So, I'm with reservations on this bill. Thank you."

Representative Yamashita rose to respond, stating:

"Thank you, Mr. Speaker. Still in support. So, Mr. Speaker, this is a foundational piece into restructuring our whole tax code. Going forward, we will be meeting with UHERO and others to complete the task. We have, as we know, the GET will sunset that the counties have. And I think that has to be part of the discussion going forward as far as how we mix that into our tax policy going forward. Mr. Speaker, I look forward to working on this issue going forward, and I urge my colleagues to still support this bill. Thank you."

Representative Ward rose to respond, stating:

"Thank you, Chair. In support. First of all, democracy is self-correcting. Anything that we pass here, if it doesn't work, we can change it. But I'm a bit pained that we have a bill that helps the poor, which turns into an argument of class warfare. Mr. Speaker, that is not the intent of this bill. And as the chair of Finance has just spoken, this is macroeconomics. But if there's one thing that we should do with the tax policy, and this is one thing that I would say we as a body have forgot and neglected, and that is, Mr. Speaker, diversifying the economy."

"When we raise the economy, all boats rise. When the sea rises, the tide rises, all boats rise. And one of the things you can point to, not the tax code, oh, you're being unfair. Class warfare is very unhealthy. We've already shown how socialism and communism doesn't work. Between China and Russia, there was 125 million people killed to implement that kind of stuff. My point is, Mr. Speaker, there's a better way of doing it. Let's help the poor. Let's not turn it into class warfare. Thank you."

"So, if we want to complain about the rich and the poor, let's get the economy and the opportunities which allow these people to rise rather than, oh, you're being unfair. Class warfare is very unhealthy. We've already shown how socialism and communism doesn't work. Between China and Russia, there was 125 million people killed to implement that kind of stuff. My point is, Mr. Speaker, there's a better way of doing it. Let's help the poor. Let's not turn it into class warfare. Thank you."

Representative Gates rose to speak in support of the measure, stating:

"In strong support and adopting the words of the Finance chair as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Perruso rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Perruso's written remarks are as follows:

"HB 2404, CD 1 proposes significant changes to Hawai'i's personal income tax structure by more than quintupling the standard deduction in five steps from 2024 to 2031 and eliminating the bottom five tax brackets in three steps from 2025 to 2029. These changes aim to simplify the tax code and provide relief, but they raise concerns about the distribution of benefits and potential fiscal impacts."

"In 2025, the bill is projected to cost the state \$656 million in lost revenues. The distribution of tax breaks would be skewed towards higher-income earners: \$271 million, or 42%, would benefit the top 20% of earners, who make an average of \$300,000 annually. The top 1% (earning \$1.5 million on average) would receive an average tax break of \$6,000, while the bottom 20% (earning less than \$27,200) would get an average break of just \$335. Nearly 65% of the tax breaks would go to those earning over \$90,000 (the top 40%), with only 18% benefiting those earning less than \$53,000 (the bottom 40%)."

"By 2031, the bill would cost the state nearly \$1.4 billion annually, which is more than 10% of expected general fund tax revenues. The distribution of tax breaks would remain regressive: \$591 million, or 43%, would go to the top 20% of earners (those making over \$147,000 per year). The top 1% would receive an average tax break of \$12,800, while the bottom 20% would get an average of \$469. Two-thirds (67%) of the tax breaks would go to those earning over \$90,000, with only 15% going to those earning less than \$53,000."

"The key takeaways from these projections are that the majority of the tax breaks would favor higher-income earners, raising concerns about equity and the effectiveness of the bill in providing relief to those who need it most. Additionally, the substantial revenue loss poses challenges for state budget planning, necessitating the identification of alternative revenue sources or spending adjustments to maintain essential public services. More targeted ways to provide tax relief to lower-income residents, who would benefit most, should be considered."

"Related versions of the bill, such as HB 2404, SD 1, introduced a cost-of-living adjustment (COLA) factor, increased standard deduction amounts, and raised income tax brackets with an estimated cost of \$140 million per year. HB 2404, HD 1 increased income thresholds for full itemized deductions, lifts the cap on state and local tax deductions, implements a one-time increase in personal income tax brackets, and expands the child and dependent care tax credit."

"In conclusion, we must carefully evaluate whether the proposed changes align with the goal of equitable tax relief and consider the broader economic implications, including consumer spending and investment. Balancing fiscal responsibility with the equitable distribution of tax benefits is essential for informed decision-making."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2404, HD 1, SD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO INCOME TAX," passed Final Reading by a vote of 51 ayes, with Representatives Hussey-Burdick, Kapela, and Perruso voting aye with reservations.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2443, SD 2, HD 2, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Amato rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I am in strong opposition. And full disclosure, everyone knows this is my favorite bill to speak out in opposition to. Because we should all be wary of the slippery slope of having artificial intelligence cameras, networks, essentially primitive robocops, and where it will take us 20 years from now. The quote from a prescient movie I once saw was dramatic. Dead or alive, you're coming with me. You have 20 seconds to comply. I can't do a robot voice. Anyway, I fear the day when poorly regulated computerized OCP privatized police are the way we fulfill a prime directive to serve the public trust, protect the innocent, and uphold the law."

"From a purely legal standpoint, the U.S. Constitution Sixth Amendment guarantees an accused right to face an accuser, specifically to expose biases. Yet you cannot face an entity that has no face. Nor can you expose its bias if you're not a computer scientist with full code access."

"Given the rapid advances in artificial intelligence, laws that allow hackable computers to cite people for violations violate our fundamental constitutionally guaranteed rights. AI paired with robo cameras will set a singularly dangerous singularity precedent, a veritable Pandora's computer server box, which we can never unplug. I love computers and high technology, yet I must vote no for my children, future grandchildren, and all humanity. Thank you."

Representative Garcia rose to speak in opposition to the measure, stating:

"In bipartisan opposition. I request that the words of the representative from Kīhei be inserted into the Journal as my own," and the Chair "so ordered." (By reference only.)

Conf. Com. Rep. No. 175-24 and S.B. No. 2240, SD 2, HD 1, CD 1:

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2240, SD 2, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition. Mr. Speaker, SB 2240 requires the Office of Elections to file an application with the Electronic Registration Information Center, also known as ERIC, so that Hawai'i can be admitted as a member of this organization. First off, Mr. Speaker, let's be clear, by joining ERIC, our state Office of Elections will be handing over the sacred data of Hawai'i voters to a third party, non-government corporation for the sake of convenience.

"According to Scott Nago, ERIC will help clean our voter rolls. But isn't that his job? He says that this will comb through data and remove duplications. But isn't that why we pay him and everyone who works at that office a salary? My point is simply this, why do we, the people of Hawai'i, have to pay a mainland non-government company to do the job of the Office of Elections? Let's not forget also that in recent months, many states have pulled out of ERIC due to serious concerns over its security.

"Also, Mr. Speaker, we can't forget that the entire Election Commission voted unanimously against supporting this bill and joining ERIC. Every single member on that commission said no to joining ERIC, both Democrat and Republican appointees said no to joining ERIC unanimously. During the Finance Committee hearing, Director Nago said, with a grin on his face, quote, well, they just advise me, they don't tell me what to do. Wow. This is why the people of Hawai'i are so sick of government bureaucrats. No vote."

Representative Tarnas rose to speak in support of the measure, stating:

"Mr. Speaker, in support. My constituents are very much in support of ERIC. And I have studied the elections integrity best practices throughout the state. Through your arrangement, I was able to attend National Conference of State Legislatures election committee meetings, meeting with people from states who are run by Republican administrations and states run by Democratic administrations. And each one of them, no matter whether they were Republican or Democrat, said that ERIC is a good idea. It has been maligned by misinformation.

"In bringing the state into the system that ERIC offers, we are improving the integrity of our voter rolls. We will be able to make sure that people are not registered in more than one state. Our Office of Elections is very cognizant of its responsibility to make sure that the voter rolls of the state are accurate. And the Legislature has in some ways made this even more difficult by making sure that they just can't take people off the voter rolls because they didn't vote.

"So, I think we need every kind of tool in our toolbox to help ensure the integrity of our voter rolls. ERIC does offer this opportunity because it just makes sure that people are not registered in more than one state. It also requires us to send out a letter to everyone who has a driver's license in the state who is not registered to vote, and encourage them to register to vote. So, in fact, by joining ERIC and meeting the requirements of this organization, we may in fact increase the number of people registered to vote, which would be a very good thing.

"And I think in terms of Mr. Nago and his relationship with his advisory council, I think we should leave that to Mr. Nago and to the advisory council. Mr. Nago, he's hired as a professional. They can hire and fire, but they do advise. And he has to be discerning about which advice to accept and which to look to best practices in the state. In this case, with joining the national voter registration database, I think it is a best practice from everything I've learned. And I would encourage members to support this bill because it allows us to join this national voter registration database and improve the integrity of our voter rolls. Thank you, Mr. Speaker."

Representative Tam rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I would just like to have the words of the Judiciary chair inserted into the Journal as if they were my own. And I want to add that many of the states that have left ERIC are now scrambling to replace it. And that includes forking up hundreds and thousands of their own taxpayer dollars to replace it when they could have just stayed with the program and not have any of this headache," and the Chair "so ordered." (By reference only.)

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. 96825 is the highest per capita education in the state, Mr. Speaker. I don't brag that because it's Hawai'i Kai, but it is Hawai'i Kai, and nobody knows about ERIC. To say that we know about ERIC is foolhardy.

"The point is, Mr. Speaker, what we have is a problem with our voter rolls because we don't clean them. And as my colleague said, that's the job of Mr. Nago. His job is not to go contrary to his board. I mean, it's like the President of the University of Hawai'i telling the Board of Regents, hey, up yours, forget about it, we don't want to pay attention to you.

"I don't know if Mr. Nago is looking for another job or whatever, but his taking this position to jeopardize our constituents who have to give Social Security and for their personal birthdates to these people on a national level who we don't know. I don't care who backed out of it. The point is, you got to pay \$100,000 to get into this thing, and then even more to keep your membership. So, what do we get out of it? Zero.

"If you leave the state, maybe we can make sure you don't register in another state. That's not our problem. The problem is when people die, we don't have that on record with Mr. Nago. So, Mr. Speaker, this is a waste of money. And the fact is, we don't need this. In particular, my district will not allow any of these Social Security and birth dates to be done on a whim just because we've got an ERIC and an option to do that. Let's do our job here and not pay for it to be done by the mainland, which jeopardizes the security of our residents. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2240, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO ELECTIONS," passed Final Reading by a vote of 42 ayes to 9 noes, with Representatives Aiu, Alcos, Garcia, Gates, Kila, Kong, Matsumoto, Pierick, and Ward voting no.

Conf. Com. Rep. No. 177-24 and S.B. No. 2085, SD 2, HD 1, CD 1:

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2085, SD 2, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Kila rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. On September 6, 2023, a month after the Maui wildfires, it is the leadership of this House that convened six interim working groups to address the many issues that were raised. You tapped myself and the Water & Land chair to co-chair the Wildfire Prevention Working Group. With 15 other members in 60 days, we worked diligently to prepare and provide recommendations to the Legislature to acknowledge what has happened. Mr. Speaker, in this session alone, we've responded to many of the concerns that have raised by implementing law. Now, we will increase fines for fire starting activities on red flag days. And we've also appropriated over \$1 billion to address some of these wildfire concerns.

"But, Mr. Speaker, the most minuscule amount of \$175,000 will probably have the most profound impact, and that is by the creation of a state fire marshal. The representative from Kaimukī had shared with the Finance Committee that in his earlier years in the Legislature, that he was there for the removal on the funding of this position. And now in his departure, we are finally reinstating this position.

"Mr. Speaker, the state fire marshal will head all the fire county chiefs in working to make sure that the state and county is doing diligent work and measures to prevent another catastrophe based on negligence. Mr. Speaker, I am excited to see this office be implemented, but I have to also share with my colleagues that it is up to us to continue to support the state fire marshal as they build out their program and department in the next several years.

"Mr. Speaker, I appreciate the chance that you have allowed us to work through these measures and find recommendations to address the issues and causes that we faced over the interim. And as we move forward into the years ahead in the Legislature, it is this legislative body that have worked together to reinstate the fire marshal.

"And a great provision that was added to the bill is that the State Fire Council will be the body to appoint this position for a period of five years. So, as we move into the interim and to the next session ahead of us, let us continue to support our new state fire marshal and the effort and work that they will do. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2085, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE FIRE MARSHAL," passed Final Reading by a vote of 51 ayes.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2787, SD 2, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Lamosao rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Lamosao's written remarks are as follows:

"This legislation aims to create an Immigrant Services and Access unit within the Office of Community Services. Its goal is to enhance economic self-sufficiency, inclusion, and community integration for immigrants across our state. With over 250,000 foreign-born individuals residing here, significant portions hail from the Philippines (46%), followed by Japan (8%), China (8%), Korea (7%), Micronesia (5%), Vietnam (4%), and Mexico (2%). Fifty-seven percent of Hawai'i's immigrants are naturalized US citizens, many of whom have children born in the U.S. Establishing this unit will bolster OCS's ability to expand and enhance services for immigrants facing barriers to accessing government resources and experiencing exclusion from full community participation."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2787, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO IMMIGRATION," passed Final Reading by a vote of 48 ayes to 3 noes, with Representatives Garcia, Pierick, and Ward voting no.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 582, SD 2, HD 1, CD 1 pass Final Reading, seconded by Representative Morikawa.

Representative Miyake rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. This bill will help allocate resources for expenses related to housing, food, and other assistance for individuals affected by the Maui wildfire disaster. As a representative from Maui, I want to extend my deepest gratitude to the members of this body for their unprecedented support during this time of need. Your swift actions in response to the devastating wildfires has been crucial in taking care of our residents displaced from their homes. Thank you for standing with us and for your unwavering dedication as we navigate through these challenges together. Thank you."

Representative Cochran rose to speak in support of the measure with reservations, stating:

"Thank you. And this is a huge bill and I *mahalo* everybody for the diligent work and support for Lahaina and the wildfire. I actually have a WR on this one. There's one particular section, it's Section 2, the first sentence. It is stating that this legislature finds that the devastating wildfires brought on by the winds from Hurricane Dora. As far as I've been following, there has been no report that has pinpointed the actual origin.

"So, I'm noticing all this legislation having to do with the fire and all this funding is starting with that sentence. And it's taking me aback that we as a legislature is taking it upon ourselves to figure out that this is the origin. It definitely exacerbated the fire, but as far as I'm concerned, it is not the origin and cause. So, that's my one and only sticking point within all these pages of this bill and another future one that I'll be speaking to. But other than that, I want to move it forward, obviously with the funding, because it's going to help the needs of my community. But I just wanted to state that for the record. *Mahalo*."

Representative Kahaloa rose in support of the measure and asked that the remarks of Representative Miyake be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, in support and a minuscule comment. We have to wait until December to get the ATF, the alcohol, tobacco, and firearms, to tell us what the origin was. Mr. Speaker, I hope the hundreds of lawsuits and others in anticipation of this actually find out, not in equivocation, but in actual fact, what was the origin of this fire? And hopefully the feds can do this, because right now it's still up in the air. And people are asking me, and I say, well, we are still doing the investigation. So, hopefully we are going to finally get to the source of it, hopefully by Christmas. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 582, SD 2, HD 1, CD 1, entitled: "A BILL FOR AN ACT RELATING TO STATE BUDGET," passed Final Reading by a vote of 51 ayes, with Representative Cochran voting aye with reservations.

At this time, the Chair stated:

"The Chair would like to do a particular shout out to the Senate President. It's a tough job serving in that role. And I want to just let everybody know that he has worked so hard this session to facilitate the work of not just the Senate, but also of the House. And as a result of that, we have, in my opinion, one of the most historic legislative sessions in our state. And I'd just like to thank him for all of his work, all of his patience, and his commitment to this work at the Legislature."

President Kouchi then stated:

"So, I am here with some of my leadership team and half of our minority caucus to also extend my congratulations for what is an amazing session and the collaboration between both of our chambers on a session that started out with really concern about the kind of cuts we were going to have to make to help Maui. And you all did an incredible job to make sure that everyone in Hawai'i was helped. The Speaker may say how hard my job is, but listening to your introductions, his job is twice as hard as mine, because you guys take way longer than we do in the Senate.

"And I'm here to inform you, as of 11:10 a.m., we adjourned on the Senate side. One year, in a miscommunication, it was thought that somebody felt slighted. I have told my members who have lunch appointments to take care of their staff and thank them, to please attend to their staff, that we would come and congratulate the House, know that you have our admiration and respect, but since we now adjourn on Friday, we have neighbor island members who are going to be heading home. So, good luck as you finish the rest of your agenda. And Speaker, thank you for the hard work and collaboration."

At 11:40 a.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:08 p.m.

S.B. No. 63, SD 2, HD 3, CD 2

H.B. No. 40, SD 1, CD 2:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, H.B. No. 40, SD 1, CD 2, entitled: "A BILL FOR AN ACT RELATING TO THE GENERAL FUND," passed Final Reading by a vote of 50 ayes, with Representative Pierick being excused.

At 12:10 p.m., the Chair noted that the following bill passed Final Reading:

H.B. No. 40, SD 1, CD 2

S.B. No. 3068, SD 1, HD 1, CD 2:

Representative Nakamura moved that S.B. No. 3068, SD 1, HD 1, CD 2 pass Final Reading, seconded by Representative Morikawa.

Representative Cochran rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I have a WR on this one, Mr. Speaker. And so, this is in direct relation to the last bill that I spoke and voted a WR on. And this one is the Section 1, the first sentence that I take extreme issue on and I don't believe it's accurate. And I believe that it's changing the narrative of what truly occurred in Lahaina and the direct cause. Thank you."

Representative Ward rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I rise in support with some scruples. I think this is a good bill. It has \$459 million as an appropriation, which I think is needed. But, Mr. Speaker, what I have is I have a cloudiness as to whether we're doing our due diligence for Maui. I know when we started out this session, you said, we're going to be Maui centric, we're going to give Maui everything they have. But when I add up all the figures and we're at about \$1 billion-plus, I'm not sure that's going to measure up to what is needed. And I don't know if there's some things that haven't been considered or they've considered them and they lowball them because they knew that things were tight. There's an anemic economy ahead of us. But I do know, as I stood here in the Iniki 1992 appropriations for Kaua'i, we give them billions, not just as this. And I know there's another part of the budget that is joined to this.

"And the second thing, and I mentioned this before, because after 9/11, you've got to have somebody like a Rudy Giuliani saying, you do this, you do that, don't do this, you do this, and you coordinate it. I have not seen that synchronization of leadership, of concurrence and what to do when and how, and obviously this is the how much. And maybe because of that confusion on the leadership issue, maybe the monies are going to shift.

"So, my point of saying this, Mr. Speaker, we should be prepared not only for adjustments that may be coming and maybe a special session should be called, but we should also be prepared when we do finally find out the origin and the cause of this fire, that we build stuff in the budget to make sure there's a lesson learned and we, in effect, don't repeat what happened in this

session. For those reasons, Mr. Speaker, it's a good bill, but I think it's a little bit pecuniary. Thank you."

Representative Ichiyama rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I think that this measure shows the incredible leadership, coordination, thoughtfulness, and hard work by both the House, the Senate, the administration, and the County of Maui. And it is a forward-looking bill. And I am also in deep appreciation that this bill contains part of the recommendations of the bipartisan wildfire working groups that we put together this past session. It includes a significant historic appropriation to the Department of Land and Natural Resources to maintain the 25% of our state's total lands that the state is responsible for overseeing. And I think that's a significant investment. And I'm in strong support. Thank you."

Representative Yamashita rose to speak in support of the measure, stating:

"Thank you very much, Mr. Speaker. In support. May I adopt the words of the Water & Land chair as if they were my own. Mr. Speaker, as we all know, this is a very, very challenging year. And this bill, along with the budget and 582, encompasses about \$1 billion for Maui and to deal with the wildfire currently and going forward. As we know, there's still a lot of work going forward. And we will continue to meet with the county and with others and with HUD. And there are other federal funds that we can go after, and our work will continue in that area. So, in support. This is just one part, Mr. Speaker. And may I insert additional comments into the Journal. Thank you," and the Chair "so ordered." (By reference only.)

Representative Yamashita's written remarks are as follows:

"Mr. Speaker, this bill would not be possible without the work of the Wildfire Working Group convened by you during the 2023 interim, and the input of several House committee chairs, and members of the Finance Committee.

"It is the culmination of countless hours of information gathering and consideration. The Finance Committee also visited Lahaina in the aftermath of the wildfires and was able to witness firsthand the heroic recovery efforts of state and federal personnels as well as the communities affected.

"Much collaboration, cooperation, and work remain in the years ahead. Hurricane Dora on August 8, 2023 was an element that created the conditions resulting in one of the worst natural disasters in the state's history. We may not be able to control nature, but funding in this bill will provide support to prevention and mitigation programs we can control and make our communities safer.

"SB 3068, the emergency appropriations in SB 582, CIP items in HB 1800, and money already diverted by the governor, the total being set aside for wildfire purposes is: \$1,119,066,799.

"Wildfire totals in SB3068: \$459,911,480

- General Funds \$221,189,453
- Other funds: \$202,421,473
- Federal funds \$36,300,554

"Details:

- \$200 million from the risk management revolving fund that will support various reconstruction efforts in Lahaina
- \$186 million to B&F as a set aside for disaster recovery costs
- \$62,500 for a Lahaina temporary library
- \$26 million and 6 positions for HMS emergency management purposes
- \$521,473 for DOCARE wildfire recovery efforts
- \$424,344 for 6 positions at HIEMA for emergency support functions and wildfire recovery efforts
- \$1.9 million for PUC consultant contracts for utility dockets
- \$23 million in federal grants for wildfire response, recovery, prevention, and equipment at LNR and HHL
- \$7.4 million for wildfire response, rehabilitation, and fuel reduction
- 22 LNR FTE \$1,412,928

- \$11.4 million and 22 positions at LNR for fire and emergency response equipment and personnel
- \$2.3 million at UH for a registry and multiethnic cohort study on health effects

"Provisos:

- \$400,000 for Commission on Water Resource Management to pursue and match federal money for Chapter 180, HRS, activities in areas affected by Hurricane Dora. This would include extramural funding for stormwater management for drought resiliency and reducing wildfire risk.
- \$194,000 for the Civil Air Patrol to support civilian auxiliary aviation services, which may include search and rescue efforts, damage assessments, aerial photography of impacted areas, alerts and notifications, and the transportation of supplies
- Maui County to reimburse the state for any interest on GOR bonds issued for projects; FEMA reimbursements, if any, to be dedicated to principal payments of GOR

"Guardrails and Reports

"Finally, Mr. Speaker, we have much work to do in the years ahead. In order to assist future efforts, this bill requires robust reporting requirements of Budget and Finance and any agency spending money on recovery efforts. We will continue to monitor the expenditure of public funds and assure that progress is made in supporting survivors."

Representative Kila rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. May I adopt the words of the co-chair of Wildfire Prevention Working Group as if they were my own. And I'd like to add that, upon the additional funding that we've appropriated, the recommendations from the five other bipartisan wildfire working groups, they have made their recommendations as well in SB 3068. And I'd like to thank the collaboration efforts by the House minority and majority members for this measure," and the Chair "so ordered." (By reference only.)

Representative Matsumoto rose in support of the measure and asked that the remarks of Representatives Ichiyama and Kila be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Ganaden rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I'd also like to adopt the words of the co-chairs as if they were my own. Brief comment. Many people who were affected by the fires, who are survivors, whose family members perished in the fires, they brought their grief to the wildfire working group and to this legislature. We hope that this bill plays a small part in answering the call that Maui gave to the state. We hope that we can not only show through our thoughts and prayers, but through our pocketbooks that we are continuing to invest in Maui and towards the perpetuation of the healing of that community for the betterment of the state," and the Chair "so ordered." (By reference only.)

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I want to thank the Finance chair and the members of the committee who endeavored to put in \$2.3 million into this bill for a very forward-looking public health measure of creating a multi-ethnic cohort study and maintaining a registry of those affected by wildfires. This really important public health piece was designed seeing the experience of 9/11 and other wildfires, where public health agencies really wanted to have this kind of longitudinal study being done for victims impacted by disasters. Hawai'i is taking a first step in being a leader in post-disaster health management through this very measure. So, for that reason, I support this bill. I'd also like to have the words of the chair of Water & Land adopted as if they were my own. Thank you, Mr. Speaker," and the Chair "so ordered." (By reference only.)

Representative Souza rose in support of the measure and asked that the remarks of Representative Ichiyama be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Cochran rose to respond, stating:

"Second and final. I just wanted to add in if I can insert more comments into the Journal. But I just want to reiterate that the sentence about the Legislature finds that devastating wildfires are brought on by winds. There were high wind warnings across the county three days prior, and yet the utility company did not do any type of actions to address it, the county also. And so, there had to be some type of ignition of some type of fire or whatever to be fueled by that wind. So, it wasn't technically the wind that had caused it. And again, I want to reiterate, there's no such report, as of my speaking today, of the actual origin of that fire. So again, I do not agree with the first sentence in Section 1 of SB 3068. Thank you, Mr. Speaker."

Representative Cochran's written remarks are as follows:

"My disagreement with this bill is basically the first sentence in the Section 1 which states, 'The Legislature finds that the devastating wildfires brought on by winds from Hurricane Dora....'

"This statement is false and inaccurate. There is no official report on what the true cause of the fire is as I write these remarks.

"How dare the State Legislature claim to determine what the cause of the fire was."

The motion was put to vote by the Chair and carried, and S.B. No. 3068, SD 1, HD 1, CD 2, entitled: "A BILL FOR AN ACT MAKING APPROPRIATIONS FOR WILDFIRE RECOVERY," passed Final Reading by a vote of 49 ayes, with Representative Cochran voting aye with reservations, and with Representatives Pierick and Quinlan being excused.

At 12:18 p.m., the Chair noted that the following bill passed Final Reading:

H.B. No. 2374, HD 1, SD 2, CD 2:

Representative Nakamura moved that H.B. No. 2374, HD 1, SD 2, CD 2 pass Final Reading, seconded by Representative Morikawa.

Representative Lamosao rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. I would like to recuse myself from voting on this measure. I would like to request that I be recused. I was a staff member during the period of time that's being considered in this measure. Thank you."

The Chair addressed Representative Lamosao, stating:

"Yes, you are recused from this vote."

Representative Takenouchi rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. I'd also like to request recusal from voting on this bill. I was also a staff member in the Legislature during this time."

The Chair addressed Representative Takenouchi, stating:

"You're also recused."

Representative Hussey-Burdick rose to disclose a potential conflict of interest, stating:

"Same request."

The Chair addressed Representative Hussey-Burdick, stating:

Mizuno, Pierick, and Takenouchi being excused.

FINAL READING

Representative Nakamura moved to agree to the amendments made by the Senate to the following House Bills, seconded by Representative Morikawa and carried: (Representative Pierick was excused.)

H.B. No. 1861, HD 2, (SD 2)

H.B. No. 2159, HD 2, (SD 2)

H.B. No. 1861, HD 2, SD 2:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, H.B. No. 1861, HD 2, SD 2, entitled: "A BILL FOR AN ACT RELATING TO NUMBER PLATES," passed Final Reading by a vote of 50 ayes, with Representative Pierick being excused.

H.B. No. 2159, HD 2, SD 2:

Representative Nakamura moved that H.B. No. 2159, HD 2, SD 2 pass Final Reading, seconded by Representative Morikawa.

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support, brief remarks. Mr. Speaker, it's entirely fitting that this bill is the last bill that we're voting on. Mental health, homelessness, substance abuse has been on our minds for a long time and has been a priority to be addressed by this legislature. I want to thank the members of the Attorney General's Office, the members of the Judiciary, the Office of the Public Defender, the Governor's senior advisor for mental health and the justice system, the Governor's coordinator on homelessness, and even community homeless service providers like the Institute for Human Services who have worked on this bill. In addition to the many community partners that have worked on this, I'd like to thank the senator from Chinatown, as well as our Judiciary & Hawaiian Affairs chair, as well as the vice chair of the Health & Homelessness Committee, who really worked to push this bill forward.

"Mr. Speaker, this bill is so critical because undoubtedly, as we leave these halls, we are going to be accused of not being tough enough on crime. Mr. Speaker, your House believes that we can't just be tough on crime, we have to be smart on crime. And that's what this bill precisely does. It addresses issues like mental health, substance abuse, the assisted community treatment order. Mr. Speaker, how do we know this measure will work? We've learned in April 2024 that the Safe and Sound Waikiki program is seeing major reductions in crime. This program is based upon things like the dispensing of court required medication to 14 mentally ill people through the Assisted Community Treatment program, the placement of 4 people into stabilization or respite centers, and the connecting of outreach workers to more than 180 people.

"This measure, which strengthens the Assisted Community Treatment programs, which, in the words of Christopher Thomas, an attorney who worked with IHS, explained that the involvement of the attorney general in the petitioning for ACT orders is a natural handoff of hospitalized patients to the benefits of ACT street medicine that we see working on the streets of Waikiki. It cannot just be limited to the tourist areas. It needs to go statewide.

It needs to go into the communities of McCully, Mō'ili'ili, Makiki, Pearl City, Wai'anae, Nānākuli. These are the reforms that are going to make a difference. These are the reforms that get people from the criminal justice system into mental health and substance abuse treatment. We have IHS testifying that these are the kinds of measures that work.

"So, Mr. Speaker, in strong support. And I acknowledged the concerns of individuals and our community partners like the ACLU. But this is the measure that will work.

"I will leave you with one story, Mr. Speaker, of why I support this bill. A mentor of mine in San Francisco told me a story about a homeless person clearly needing help on the streets of San Francisco. Being told, you can sign up for these services on one hand, but advocates talking to him on the other hand and saying, you don't have to take these services, you have civil rights. Mr. Speaker, three days later, that homeless individual was dead on the streets. We cannot have that happening. We need to create a system that diverts people to mental health, substance abuse treatment, and services. And it is the reforms in House Bill 2159, Senate Draft 2 that will do this precisely. Thank you, Mr. Speaker."

Representative Tam rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I would just like to have the words of the representative from Makiki and the chair of Health & Homelessness into the Journal as if they on my own. I would also like to mention, as the representative of Waikīkī, I've seen this implemented in our district, and it has been proven to help our community. Thank you," and the Chair "so ordered." (By reference only.)

Representative Ganaden rose to speak in support of the measure with reservations, stating:

"In support with reservations, Mr. Speaker. This bill is the work of many years, many individuals across advocacy groups, the groups that do mental health treatment, members of the justice community to finally move towards smart justice. Unfortunately, it has something of a fatal flaw. In Section 2 of the bill, it removes the appointment of the Office of the Public Defender to individuals who are facing commitment.

"Mr. Speaker, commitment is the equivalent under law as incarceration. And these individuals, if they are indigent, they qualify for an attorney if they cannot pay for one.

"I think that this can be cured. I think that if the Judiciary were to appoint attorneys, which is what they are capable of doing under the act, and if they want to do so *sua sponte*, then we can avoid a constitutional violation. I also know that members of this body and our Judiciary are working to create a better appointment system, so that we can avoid that fate. Again, in support with reservations."

Representative Ward rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support and a brief comment. Mr. Speaker, we're finally helping those who cannot help themselves. This is a group of helpless individuals which finally says, for your own good, we're going to give you hospitalization. They call it involuntary because many of them wouldn't realize what voluntary or involuntary is. We're finally giving them a reach.

"This homelessness has been a social mutation for the last couple of decades. I think this is a great experiment to see what can happen from it. But it's going to save lives because we know the average life of the homeless person is 55 years, because of their lifestyle that takes off 15 to 20 years of their life. So, this is a compassionate bill.

"And I would say, lastly, beware of the ACLU. Because even though we're helping people who are helpless and cannot help themselves, they're going to make sure that they whisper, as my colleague said, into their ear, hey, you don't have to do this, you have rights. But by saying that compassionately, we're killing individuals. So, Mr. Speaker, this is a breakthrough and I hope it works very well. Thank you."

Representative Kapela rose in support of the measure with reservations and asked that the remarks of Representative Ganaden be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Souza rose in support of the measure with reservations and asked that the remarks of Representative Ganaden be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Amato rose in support of the measure and asked that the remarks of Representative Belatti be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and H.B. No. 2159, HD 2, SD 2, entitled: "A BILL FOR AN ACT RELATING TO MENTAL HEALTH," passed Final Reading by a vote of 49 ayes to 1 no, with Representatives Ganaden, Kapela, and Souza voting aye with reservations, with Representative Hussey-Burdick voting no, and with Representative Pierick being excused.

At 12:28 p.m., the Chair noted that the following bills passed Final Reading:

H.B. No. 1861, HD 2, SD 2

H.B. No. 2159, HD 2, SD 2

Representative Morikawa: "Thank you, Mr. Speaker. For all of those who have birthdays after today, happy pre-birthday. I'd also like to wish my dear friend from Hilo, his milestone birthday today, let's give him a hand. Happy Birthday."

Representative Lamosao: "I'd just like to remind the members and everyone in the gallery that tomorrow is our Filipino Fiesta at the FilCom Center, so come to District 36 tomorrow. Thank you."

Representative M. Mizuno: "Thank you, Mr. Speaker. Before we end our session, I would like to announce that my office did three fundraisers for Hawai'i Food Bank. The Massage Day at the Capitol, the lumpia day, and the floats. For Massage Day, we made \$706. For the lumpia yesterday, thank you everyone for purchasing, we made \$610. And for the floats, we made \$758, for a total of \$2,073. Thank you very much, everyone, and thank you to my hardworking staff. Thank you, Mr. Speaker."

At this time, the Chair stated:

"Members, as you know, we have three members who will be leaving the House. Together, they represent 46 years of service in this body, and we wanted to take an opportunity to recognize them this morning."

At this time, the Chair recognized Representative Gates, who was presented with a certificate and lei by Representatives Nakamura and Quinlan on behalf of the Members of the House.

Representative Gates: "Aloha and good afternoon, everyone. Aloha. All the emotions of my final floor speech in the House are sinking in. When I got in at the age of 23, I was full of energy and hope. Look at me now, age

30. I may be a little less hopeful, but I still have the energy to run away from this place while I still can. Mr. Speaker, I have kept the promise to myself, which was to serve with an open mind and an open heart. And that has led me to doing some really amazing things for my community through the legislative process. Eight years in the House has come and went, I guess it's true that time flies when you're doing what you love.

"Mr. Speaker, I wouldn't be here if it wasn't for the support of my friends and family and colleagues. In the gallery is the love of my life, my rock, my fiancée, Leilani. In two weeks, I'm blessed to be able to call you my wife. And I appreciate you for always having my back and loving me unconditionally. *Mahalo* to my family, my parents Bill and Easter, who are in heaven, by siblings Ben, Bill, and Emerald, who are also in the gallery with my nieces, Empress and Easter, please stand. Love you.

"*Mahalo* to my tireless staff, Cross Crabbe and Lacey Kon, please stand. Oh, Chris Shellko as well. My staff has really allowed me to do what I needed to do to serve my community. Without their support, none of the things I do would be possible, so I greatly appreciate them from the bottom of my heart. Most importantly, Mr. Speaker, I would like to give the biggest *mahalo* to my community of 96792 for sending me here to this big square building to represent their values and their *'ohana*. I hope I have made my District 45 proud and have left a path behind for our next generation of leaders to follow.

"With the support of my colleagues, all of you on the floor with me today, I've been able to secure hundreds of millions of dollars to go towards improving the Wai'anae Coast community. A community that has felt neglected by state government, by county government, by government in general. And with the largest population of Native Hawaiians. And it just feels so good to be able to go back to them, to let them know all the great work we've been able to accomplish through this legislative process.

"Each year, Mr. Speaker, we also pass legislation to improve the quality of life of not just my district, but the State of Hawai'i. Most importantly, we stay true to the values and principles that brought us to the building of doing what's right and bringing our people together to find solutions.

"Some of the people that I really looked up to while serving here is my brother to the left, Nishimoto. He has really been a great role model and showed us how to be a samurai. Saiki, Speaker, you empowered young members like me to create change, and allowed me to be an example of what's possible for our young leaders. By allowing me to be a chair for four years, you have really allowed me to create change through working as a subject matter expert on these issues.

"Nadine, our mama bear. You got elected with me and really have given us a foundation of stability. And your wise words always have kept us on the straight path, so *mahalo* for that. Sean, Daniel, Chris, my guys. Young lions forever. You all allowed me to soar like eagles when you weren't acting like turkeys. Kyle, *mahalo* for your help of getting my community the resources we need desperately and have taken care of our community through so many ways. And our community of Wai'anae appreciates you from the bottom of our hearts.

"The honorable mentions, my west side legislator, Representative Kila. I'm glad to be able to call you a friend and to have someone who can relate to our two-hour commutes to the Capitol. My vice chair, Kirstin, you have been the best vice chair a chair could ask for. Through all your hard work, we've been able to do some things that haven't been done for 30 years for agriculture, so *mahalo* for your dedication to our communities and our agriculture industry. Woodson, I look forward to establishing our cross-chamber caucus for the Popolo Caucus, try caucus. Three G, our pickle master and the master of madness as our vice chair, *mahalo*.

"Tarnas, although we could live without your very detailed reviews in caucus, I appreciate you and *mahalo* you for all your hard work on the many bills this session. And of course, our favorite bill, legalizing cannabis. Dee, your cooking was food for our soul, going to miss those flying saucers. My brother Hashem, one of the unspoken heroes in my life. As someone who took a young person like me, excited to run for office, and really showed me the ropes and allowed me to do what was necessary to get here. *Mahalo* my brother.

"And I wish I had the time to say something kind about all 50 of you, but I see our Sergeant-at-Arms inching closer to take the mic away. But I'll end by saying *mahalo* for the memories. I'm blessed to have had a job that has allowed me to make my community a better place, and it has truly made me a better man. I love you all. *A hui hou*. Obama out."

Speaker Saiki: "Thank you, Representative Gates. So, Representative Gates, as you know, members, he wears his heart on his sleeve, he has an infectious laugh, and he leaves some landmark legislation during his time as Agriculture Committee chair. So, thank you, Representative Gates.

"Second member is Representative Bert Kobayashi. As members know, Representative Kobayashi is our member with the most institutional knowledge, institutional note taker, and our chief protocol officer."

At this time, the Chair recognized Representative Kobayashi, who was presented with a certificate and lei by Representatives Morikawa and Belatti on behalf of the Members of the House.

Representative Kobayashi: "Mr. Speaker and members of this honorable body, the one important thing I need to say is to thank you all. Thank you, thank you, thank you for putting up with me, for your kindness, your support, your help for many years. I know that you will carry on and do well in future years.

"I've tried to do my best to improve the people, the process, and the product of this body, and know that that is something that must be strived for year after year after year. Similarly, I would like to say to the citizens and voters of my district, that I appreciate years of support, trust, when I try to do my very best to represent you respectfully and honestly. I hope that this has been satisfactory for you, but I know that there is so much to do and so much that can be done better.

"We have the enviable job of trying to solve all the problems of the world without spending any money, and without making any friends, as though all of the problems of the world were a win-win. I hope that you are able to cope with the future problems, which seem to be getting larger in size, more global in scope, and more complex in intricacies. That will be your challenge, and I hope that you will be up to that challenge.

"Finally, in closing, I'd like to say again, thank you, thank you, thank you. You have been very supportive of me, and I wish that I could pay back in return. Thank you. Goodbye."

Speaker Saiki: "Thank you, Representative Kobayashi. Our third member is Representative Scott Nishimoto. So, we all know Representative Nishimoto as Buzz's dad, our GQ advisor, and one of the best CIP chairs in the history of the House."

At this time, the Chair recognized Representative Nishimoto, who was presented with a certificate and lei by Representatives Kitagawa and Nakashima on behalf of the Members of the House.

Representative Nishimoto: "Thank you, Mr. Speaker. I'm looking at this certificate and I noticed you signed it with reservations. So, I see our lieutenant governor up there, and two years ago, when she gave her goodbye speech, it was so memorable. And she's only up there because she thinks I'm going to cry.

"Well, Mr. Speaker, first and foremost, I want to thank my community for giving me the honor and privilege of representing them for the past 22 years. They elected a young 28-year-old who was six months out of law school. They took a chance on me, and I hope that they don't regret their choice. I've worked hard every day to try to fulfill the trust they put in me, and I'm grateful for the opportunity that they gave me.

"Next, I want to thank our support staff here at the Capitol. They really are the heart and soul of the Capitol. They keep things running, they make us look good, they make us look like we know what we're doing, and they are really great. Yesterday, I was giving a tour of the Capitol to Ala Wai Elementary School third graders. And they had a lot of questions about the light. And I told them, in my 22 years here, I've only seen it lit up a handful of times. So, whoever lit up that light today, thank you for making this extra special by, on my last day, illuminating the light.

"I want to thank my staff, both current and former staffers. A few are in the gallery here today, and if they could stand and be recognized. They are a large reason why I've had some success here at the Capitol. I've been very lucky to hire people that are substantially more talented than I am and work hard. They make me look good, and they care about this job as much as I do, and that's very hard to find sometimes. But I'm so grateful to have had them and have them.

"I want to *mahalo* all of you. I've always thought of you as family, both current and past legislators, both Democrat and Republican. I've always thought of you as family. I thank you for all the lessons that you've taught me, for your friendship and for your mentorship over the years. I truly mean that. The Capitol is just a building, but the people that are in it is what makes it special. And it really is the legislators that I've served with over the years that make it special.

"Three important people are here today, in my life. First, I want to introduce my parents, and if they could please stand to be recognized, they're up there, they're shy, but please stand to be recognized. They have been a huge part of my journey here. They are my biggest supporters. They're my biggest critics. But they are just an endless source of support for me. And we're kind of a typical Asian family, we don't express love verbally. We express it through deeds, and criticism sometimes. But I do want to say how much I love you. And I don't know how I got so lucky to have you, I'm truly blessed to have you in my life. And I just appreciate you more and more every day. So, thank you.

"And then, of course, to Debbie. We met my very first campaign. I was going door to door, and I knocked on her door. And she opened it and I thought she was the most beautiful person I've ever seen. And over the years, I've learned that she's even prettier on the inside. And I thank her for being my support, listening to my problems, and always being there for me when I need you. So, thank you, Debbie.

"My staff actually they wrote a speech for me, it's very good, I'm not going to use it. My apologies to them. But as I was sitting here through the short introduction period today, I had some thoughts. It reminded me of my first Opening Day. My grandparents were here, it was a special day for all of us. But my grandparents being here was super special. My mom is from Waialua on the North Shore, my dad is from Kaka'ako and Kapahulu. So, I consider myself part country, part city. I know some of you will disagree with that. But my grandparents were here, they come from very different places. One country, one city. But the thing I thought about on my first Opening Day was how different the Hawai'i that they grew up in is the Hawai'i today.

"They, in their childhood, could never have imagined that anyone from their family, much less their grandson, would have been able to serve in the Legislature. It just was not something that was possible then. And through the hard work of the people who sat in these chairs before us, who had a vision for Hawai'i, they had a vision of a society with equality and access for everyone. These were leaders that were trying to create a better society. And through their hard work, it's the reason why I was able to serve here for the last 22 years. And I'm really grateful for that.

"But we have so much more work to do. Their vision has come a long way, but it's not been fulfilled yet. And I hope that, in the years to come, we will continue to try to achieve that vision. We're in a time of great change, but there's also great opportunities ahead. And I hope we're going to take that. Because the people that sat in our chairs before us, they had a vision for Hawai'i. And it's our job to fulfill that vision so that the next generation has the opportunities that we all had.

"Let me just end by saying this. Nobody knows what the future will hold. I hope I'm able to continue to serve in some capacity in the future. But I am certain of the fact that our state's ambitions, dreams, and hopes will be fulfilled by you folks in the future. So, I hope you'll take that with you. I hope you'll continue to work hard. And I thank you for the opportunities you've given me. Thank you."

Speaker Saiki: "Thank you, Representative Nishimoto. And again, thank you to our departing members for your 46 years of service to the House and to our state."

The Chair then recognized Representative Nakamura, the Majority Leader, to deliver closing remarks on behalf of the Majority Caucus:

"Thank you, Mr. Speaker. On behalf of the Majority Caucus, I'm pleased to say that we accomplished what we set out to do at the start of the session. We focused on taking care of Maui wildfire victims and helping the County of Maui address a myriad of needs. Helping families recover, rebuilding homes and infrastructure, and providing supportive services will all contribute to healing over time.

"Last interim, we tried to figure out what we could do better as a state to prevent future wildfires. We funded wildlife mitigation programs, equipment, and staffing. We passed legislation to start up a state fire marshal office, map wildfire hazard areas statewide, and improve emergency responses. On top of the wildfire priority, we passed the largest package of tax relief, \$5 billion over the next six years. The doubling of the standard deduction and changes to the income tax brackets will provide tax relief to Hawai'i's residents beginning next year.

"While housing must be rebuilt in Lahaina and throughout Maui, we also approved additional funding statewide for homelessness programs, affordable rental housing, and teacher housing. We provided unprecedented funding for mental health services, including crisis intervention centers and youth counselors. Licensure changes for mental health professionals and mental health training will provide needed capacity to address current gaps in services. High school health care and Glidepath programs will create pathways to address the healthcare worker shortage. And changes to our own state hiring practices should help reduce the time required to fill positions in state and county government.

"I thank the authors of all of these bills for moving the majority package forward. I would like to thank our hard-working committee chairs and majority whips, representatives from Hilo, Kāne'ohe, Pearl City, and Wahiawā, for their assistance throughout the session. And of course, my staff, Ben, Phil, Kala, and Tessa, for all of their support to me and to the Majority Caucus throughout this session. At the end of the day, Mr. Speaker, under your leadership, we have much to be proud of."

The Chair then recognized Representative Matsumoto, the Minority Leader, to deliver closing remarks on behalf of the Minority Caucus:

"Thank you, Mr. Speaker. As we wrap up the 2024 Legislative Session, I want to express my gratitude to those who've been instrumental in the journey thus far. First, I'd like to extend my appreciation to the members of the House Republican Caucus for their significant contributions this year. And as one of our members loves to say, we don't have the votes, but we have the voice. And we talked a lot this year, as we should.

"Thank you to my colleagues across the aisle. While our votes might not always align, our best work this session has been a result of bipartisan collaboration and input. And I also want to acknowledge the invaluable support of our House Minority Research Office. Through the highs and lows of this session, their unwavering commitment has been commendable. To the Republican staff, your spirit of collaboration, even in challenging times, epitomizes the essence of this institution. And your efforts have been crucial in effecting positive change for our districts and those across the state.

"To everyone in the Chief Clerk's Office, IT, Printshop, Public Access Room, LRB, Sergeant-at-Arms, our DAGS team, and all other dedicated staff, I extend my heartfelt gratitude for your tireless efforts. You cannot be thanked enough. Your contributions have been indispensable to ensuring an effective legislative session.

"In my opening address, I outlined the priorities of our Republican Caucus, which included tackling the high cost of living and housing, fostering job growth, strengthening our communities, prioritizing public safety, and driving government reform, and of course, making sure Maui's recovery remains top priority. We worked collaboratively and rallied behind legislation that improves the lives of residents all across our state, from homeownership assistance, GET exemption for medical services, and the largest income tax cut in our state's history, these are all initiatives that our caucus has been advocating for for years, and we're so encouraged that we are taking steps in the right direction.

"We supported bills that address *kūpuna* care, the state's pressing homeless challenge, and working families that need childcare. We also funded programs that bolster early workforce development in high schools and colleges across the state, just to name a few. And while we have passed some legislation to support our state, we all know there is much more to be accomplished.

"As leaders, we know we don't have the answers to everything. And this year, our caucus did our first ever listening tour, where we heard constituent concerns firsthand to guide us in drafting our bills. We asked the question, and we paid attention to the feedback. And this is because listening in its highest form demands not only hearing words that are spoken, but attuning ourselves to all of the concerns that are expressed. And that means for those in our community, it doesn't matter what party you come from or what background you have, everybody's input makes a difference in our state.

"And as the 2024 Legislative Session draws to a close, I am proud of our many collective achievements thus far. However, we know our work never ends. During this interim period, it is imperative that we continue to earn the trust of the people and reinvigorate our legislative process to prioritize their interests and sound policy. It is our collective responsibility to serve the people of Hawai'i diligently, and I look forward to continuing that work with you all. *Mahalo.*"

Speaker Saiki then gave his closing remarks as follows:

"The Chair has a couple of comments. And first, to kind of repeat what the others have said, to begin with thank-yous for all of the people who have helped us get through this legislative session. So, thank you to the Chief Clerk's Office, Sergeant-at-Arms, our research offices, the Printshop, our custodial staff, Legislative Reference Bureau, and all of the staff members in our individual offices. Thank you for all of your work and the role that you played throughout this legislative session.

"So, when we began this session on January 17, there was so much uncertainty in our state. And I know that each of you felt that uncertainty. We were in the aftermath of the Lahaina wildfire, we were faced with disaster preparation, and we were unsure about the fiscal situation of our state. But you pulled through. And this session, in my opinion, is a historic session when you look at all of the accomplishments that you have produced. And rather than speak generally, I'd like to point to some specific examples of what you've accomplished.

"Maui financial relief, income tax reform, elimination of medical services general excise tax, Kona coffee labeling, macadamia nut labeling, short-term rental regulation, statewide visitor app, decentralized state employee hiring, expanded mental health professional licensure, senior's Silver Alert program, *Kaiapuni* Hawaiian language education, animal cruelty, homeless funding, cesspool planning, wildfire prevention, state parks funding, a constitutional amendment to protect marriage equality, low- and middle-income rooftop solar financing, statute of limitations for child victims, a recurring base budget for the Department of Education, a recurring base budget for the University of Hawai'i, increased adult care home payments, increased long-term care facility payments, creation of the Immigration Services and Access Unit at the Department of Labor, *Hula Mae* loans, and housing adaptive reuse. And of course, I have to mention, regulation of noisy mufflers, weed whackers, and feral chickens, as well as recognition of *Kimchi Day*.

"So, members, you should view these accomplishments also within the context of the past two years, when you took the lead to raise standards of conduct and to improve how we make decisions in this body. These accomplishments did not happen by chance. They were all advanced by your ideas, determination, and hard work. You have built a solid record of achievement that will center Hawai'i and help thousands and thousands and thousands of people. Thank you for your work and have a great summer."

**GOVERNOR'S MESSAGES RECEIVED AFTER THE ADJOURNMENT
OF THE 2024 LEGISLATURE SINE DINE**

GOVERNOR'S MESSAGES

The following messages from the Governor (Gov. Msg. Nos. 11, 767, 768, and 1111 through 1365) were received by the Clerk and were placed on file:

Gov. Msg. No. 11, dated June 10, 2024, providing notice of an interdepartmental transfer of general funds to comply with the statutory authorization limit for FY24 and correct an administrative oversight.

Gov. Msg. No. 767, dated August 30, 2024, appointing Matthias Kusch to serve as the Representative from the 1st House District as follows:

"EXECUTIVE CHAMBERS
KE KE'ENA O KE KIA'ĀINA

August 30, 2024

The Honorable Scott K. Saiki
Speaker of the House of Representatives
Thirty-Second Legislature
Hawai'i State Capitol, Room 431
Honolulu, Hawai'i 96813

Aloha Speaker Saiki:

I am pleased to inform you that pursuant to section 17-4 (a), Hawai'i Revised Statutes, I have appointed Mr. Matthias Kusch to serve as the representative from House District 1. Mr. Kusch shall serve his first appointment immediately, completing this current term in the Thirty-Second State Legislature. Then, Mr. Kusch shall serve a full two-year term in the Thirty-Third State Legislature, starting in January 2025.

These appointments fill the vacancy created in the 1st House District due to the untimely passing of Representative Mark M. Nakashima on July 11, 2024. Representative Nakashima was running unopposed for the 1st House District seat in both the primary and general elections, and the candidate filing deadline ended on June 4, 2024.

Mahalo,
/s/ Josh Green
Josh Green, M.D.
Governor, State of Hawai'i

- c: The Honorable Sylvia Luke, Lieutenant Governor, State of Hawai'i
The Honorable Ronald D. Kouchi, President of the Senate, State of Hawai'i
Mr. Derek Turbin, Chairperson, Democratic Party of Hawai'i"

Gov. Msg. No. 768, dated October 9, 2024, correcting the term of appointment of Matthias Kusch as the Representative of the 1st House District on GM 767 as follows:

"EXECUTIVE CHAMBERS
KE KE'ENA O KE KIA'ĀINA

October 9, 2024

The Honorable Scott K. Saiki
Speaker of the House of Representatives
Thirty-Second Legislature
Hawai'i State Capitol, Room 431
Honolulu, HI 96813

Aloha Speaker Saiki:

Upon further review, the appointment of Mr. Kusch pursuant to section 17-4 (a), Hawai'i Revised Statutes is only for the current term in the Thirty-Second State Legislature.

The Attorney General has conducted additional legal review and determined that the current appointment is for the remainder of the term for House District 1 that ends November 5th, 2024. Pursuant to Hawai'i Revised Statutes section 12-41 (a), a candidate unopposed in the general election is to be declared duly and legally elected following the primary election. As a

result, the late Rep. Nakashima was posthumously re-elected to a new term starting November 5, 2024.

This has created unique circumstances for the representation of House District 1. An additional appointment process must be completed after November 5, 2024, for the next term of House District 1. Pursuant to Article III, section 4 of the Hawai'i State Constitution, the vacancy process for filling this seat must be conducted in accordance with HRS Section 17-4. Unfortunately, this process cannot begin until after the general election on November 5th, 2024. I am hopeful that the Democratic Party and district council can proceed expeditiously and promptly execute the selection process without delay.

Thank you for your understanding with the matter. I am grateful for Mr. Kusch's willingness to serve through the remainder of the current term. The Democratic Party of Hawai'i will have to conduct its process to identify names who would best serve House District 1.

Mahalo,
/s/ Josh Green

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 40

Honorable Members
Thirty-Second Legislature
State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 40, entitled "A Bill for an Act Relating to the General Fund."

The purpose of this bill is to dispose of excess general fund revenues, as required by Section 6 of Article VII of the Hawai'i Constitution, by appropriating funds to be deposited into the Emergency and Budget Reserve Fund and the Pension Accumulation Fund.

Given the Maui wildfire recovery efforts and other State priorities such as affordable housing and reducing the cost-of-living for our residents, it would be financially unwise to transfer \$300,000,000 in general funds to the Emergency and Budget Reserve Fund, the State's rainy day fund, designated in section 2 on page 2 of the bill, and to deposit an extra \$135,000,000 into the Pension Accumulation Fund, designated in section 3 on pages 2-3 of the bill. I object to these transfers because the Emergency and Budget Reserve Fund balance exceeds \$1,500,000,000, its highest ever, and the State is committed to making regular payments on its unfunded liabilities, including its pension obligations, making these transfers unnecessary.

Section 16 of Article III of the Hawai'i Constitution provides that, "[e]xcept for items appropriated to be expended by the judicial and legislative branches, the governor may veto any specific item or items in any bill which appropriates money for specific purposes by striking out or reducing the same." Because of the foregoing objections, pursuant to my line-item veto authority, I have reduced the \$300,000,000 general fund appropriation for fiscal year 2024-2025 for deposit into the Emergency and Budget Reserve Fund in section 2 to \$1 (page 2, line 16). In addition, I have reduced the \$135,000,000 general fund appropriation for fiscal year 2024-2025 for deposit into the Pension Accumulation Fund in section 3 to \$1 (page 3, line 1).

For the foregoing reasons, I am returning House Bill No. 40 with the reductions set forth above totaling \$434,999,998 in general fund appropriations for fiscal year 2024-2025.

Respectfully,

A BILL FOR AN ACT

RELATING TO THE GENERAL FUND.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

- 1 SECTION 1. The legislature finds that article VII,
2 section 6, of the Hawaii State Constitution requires the
3 legislature to dispose of excess general fund revenues when
4 certain factors are met, as follows:
- 5 (1) Provide for a tax refund or tax credit to the
6 taxpayers of the State, as provided by law;
7 (2) Make a deposit into one or more funds, as provided by
8 law, which shall serve as temporary supplemental
9 sources of funding for the State in times of an
10 emergency, economic downturn, or unforeseen reduction
11 in revenue, as provided by law; or
12 (3) Appropriate general funds for the pre-payment of
13 either or both of the following, as provided by law:
- 14 (A) Debt service for general obligation bonds issued
15 by the State; or
16 (B) Pension or other post-employment benefit
17 liabilities accrued for state employees.

- 1 The legislature further finds that the necessary factors
2 have been met for two successive fiscal years and that the
3 legislature is constitutionally required to dispose of excess
4 tax revenues, as authorized under article VII, section 6, of the
5 Hawaii Constitution.
- 6 Accordingly, the purpose of this Act is to implement
7 article VII, section 6, of the Hawaii Constitution, by:
- 8 (1) Making a deposit into the emergency and budget reserve
9 fund established under section 328L-3, Hawaii Revised
10 Statutes; and
11 (2) Making a deposit into the pension accumulation fund
12 established under section 88-114, Hawaii Revised
13 Statutes.
- 14 SECTION 2. In accordance with article VII, section 6, of
15 the Hawaii Constitution, there is appropriated out of the

 2 or so much thereof as may be necessary for fiscal year 2024-2025

 4 section 88-114, Hawaii Revised Statutes.
 5 SECTION 4. In accordance with section 9 of article VII of
 6 the Constitution of the State of Hawaii and sections 37-91 and
 7 37-93, Hawaii Revised Statutes, the legislature has determined
 8 that the appropriations contained in this Act will cause the
 9 state general fund expenditure ceiling for fiscal year 2024-2025
 10 to be exceeded by \$323,323,869 or 3.1 per cent. The reasons for
 11 exceeding the general fund expenditure ceiling are that:
 12 (1) The appropriations made in this Act are necessary to
 13 serve the public interest; and
 14 (2) The appropriations made in this Act meet the needs
 15 addressed by this Act.

Gov. Msg. No. 1331, transmitting his statement of objections to specific items contained in H.B. No. 2619, HD 1, SD 1, CD 1, as follows:

"EXECUTIVE CHAMBERS

HONOLULU

July 8, 2024

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 2619

Honorable Members
 Thirty-Second Legislature
 State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 2619, entitled "A Bill for an Act Relating to Agricultural Biosecurity."

This bill requires the Department of Agriculture (DOA) to lead and coordinate the State's invasive pest control and eradication biosecurity efforts. It appropriates \$19,780,660 in general funds for the DOA's biosecurity program and a total of \$200,000 in general funds as grants-in-aid to counties of the State that contribute 100 percent of matching funds to implement a feral chicken control program.

I strongly support the intent of this bill and continue to work with the DOA on control, eradication, and biosecurity of invasive species threats. However, this bill is objectionable because of the high appropriation. The use of general fund moneys must be reprioritized due to the change in the Council on Revenues' general fund tax revenue projection in May 2024 that necessitates that the State's financial plan be rebalanced through line-item vetoes and reductions to spending. I have worked with the DOA to determine where cuts are feasible to ensure the funding provided in this bill has an effective impact on the biosecurity of our State. Further, this bill is objectionable because of the appropriation of general funds for county-implemented feral chicken control programs. I prefer the approach provided in Senate Bill No. 2401, entitled "A Bill for an Act Relating to Feral Chickens," which requires the DOA to work with each county to address the

feral chicken issue affecting our communities, and which I approved as Act 185, Session Laws of Hawaii 2024.

Section 16 of Article III of the State Constitution provides that, "[e]xcept for items appropriated to be expended by the judicial and legislative branches, the governor may veto any specific item or items in any bill which appropriates money for specific purposes by striking out or reducing the same." Because of the foregoing objections, and pursuant to my line-item veto authority, I have reduced the general fund appropriation of \$19,780,660 for fiscal year 2024-2025 in section 6 (on page 8, line 18) to \$10,000,000 by reducing the amounts appropriated for the following programs and positions (chart on pages 9 and 10):

- Risk Assessment (Prog ID/Org: AGR 122 EB) reduced from \$1,000,000 to \$240,000.

- Public Awareness Campaign (Prog ID/Org: AGR 122) reduced from \$2,000,000 to \$0.
- Little Fire Ants Response (Prog ID/Org: AGR 122 EB) reduced from \$2,500,000 to \$1,500,000.

- Tech Upgrades (Prog ID/Org: AGR 122 EA) reduced from \$2,000,000 to \$800,000.
- Import Replacement Fund (Prog ID/Org: AGR 122 EB) reduced from \$500,000 to \$0.
- Biosecurity Facility Planning (Prog ID/Org: AGR 122 EA) reduced from \$1,500,000 to \$600,000.
- Two-Lined Spittlebug (Prog ID/Org: AGR 122 EC) reduced from \$800,000 to \$600,000.
- Plant Quarantine Inspector (Prog ID/Org: AGR 122 EB); Position Numbers 95001A, 95002A, 95003A, 95004A, and 95005A, each reduced from \$69,096 to \$34,548.
- Plant Quarantine Inspector (Prog ID/Org: AGR 122 EB); Position Numbers 95006A, 95007A, 95008A, 95009A, and 95010A, each reduced from \$69,096 to \$51,822.

- Accountant (Prog ID/Org: AGR 122 EC); Position number 95026A reduced from \$59,508 to \$14,877.

- Plant Pathologist (Prog ID/Org: AGR 122 EC); Position number 95032A reduced from \$86,376 to \$21,594.
- Noxious Weed Specialist (Prog ID/Org: AGR 122 EC); Position number 95033A reduced from \$86,376 to \$21,594.

- Planner (Prog ID/Org: AGR 122 ED); Position number 95034A reduced from \$76,788 to \$19,197.
- Environmental Health Specialist (Prog ID/Org: AGR 122 ED); Position number 95035A reduced from \$86,376 to \$21,594.
- Environmental Health Specialist (Prog ID/Org: AGR 122 EE); Position numbers 95036A, 95037A, 95038A, 95039A, and 95040A, each reduced from \$63,096 to \$15,774.
- Planner (Prog ID/Org: AGR 846 EE); Position number 95047A reduced from \$68,280 to \$17,070.
- Grand Total (page 10) reduced from \$19,780,660 to \$10,000,000.

Further, because of the objections provided above, and pursuant to my line-item veto authority, I have reduced the general fund appropriation of \$200,000 for fiscal year 2024-2025 in section 7 (on page 10, line 4) for the feral chicken control program to \$0. I have stricken out the grant-in-aid amounts of \$50,000 to the City and County of Honolulu (on page 11, line 3), the County of Hawai'i (on page 11, line 4), the County of Maui (on page 11, line 5), and the County of Kauai (on page 11, line 6) and changed each of those, respectively, to \$0.

For the foregoing reasons, I am returning House Bill No. 2619 with the reductions set forth above totaling \$9,980,660 in general fund appropriations for fiscal year 2024-2025.

Respectfully,

A BILL FOR AN ACT

RELATING TO AGRICULTURAL BIOSECURITY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. The legislature finds that Act 163, Session Laws of Hawaii 2017, known as the Clift Tsuji Act, among other things, appropriated funds to the department of agriculture to support the department's biosecurity program for fiscal years 2018 to 2019. However, the department was unable to utilize the full appropriation for its programs before its lapsing at the end of the appropriated period. Furthermore, the original source of funds, the agricultural development and food security special fund, was repealed by section 8 of Act 9, First Special Session Laws of Hawaii 2021.

The legislature recognizes the significant impact of invasive species on Hawaii's agriculture, environment, natural resources, public health, and economy and supports the biosecurity program under the department of agriculture.

The legislature further finds that the department of agriculture has created the biosecurity program to fight pests

"EXECUTIVE CHAMBERS

HONOLULU

July 8, 2024

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 3153

Honorable Members
Thirty-Second Legislature
State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Bill No. 3153, entitled "A Bill for an Act Relating to the Dam and Appurtenance Improvement or Removal Grant Program."

The purpose of this bill is to establish the Dam and Appurtenance Improvement or Removal Grant Program Special Fund to receive moneys for the Dam and Appurtenance Improvement or Removal Grant program. The bill appropriates funds into and out of the Special Fund for the Dam and Appurtenance Improvement or Removal Grant Program.

Ensuring the safety and stability of dams involves diligent adherence to safety standards. Establishing a strong framework for managing dam improvements and removals involves thoughtful planning for the program's long-term costs. This bill appropriates \$10,000,000 in general funds for deposit into the Dam and Appurtenance Improvement or Removal Grant Program Special Fund and appropriates \$10,000,000 out of the Special Fund for the Dam and Appurtenance Improvement or Removal Grant Program. I object to these appropriations because it would not be fiscally prudent to appropriate these funds until further assessment of the sustainability of the program can determine its viability.

Section 16 of Article III of the Hawai'i Constitution provides that, "[e]xcept for items appropriated to be expended by the judicial and legislative branches, the governor may veto any specific item or items in any bill which appropriates money for specific purposes by striking out or reducing the same." Because of the foregoing objections, pursuant to my line-item veto authority, I have reduced the \$10,000,000 general fund appropriation for fiscal year 2024-2025 for deposit into the Dam and Appurtenance Improvement or Removal Grant Program Special Fund in section 4 to \$5,000,000 (page 7, line 13). In addition, I have reduced the \$10,000,000 special fund appropriation out of the Dam and Appurtenance Improvement or Removal Grant Program Special Fund in section 5 to \$5,000,000 (page 7, line 21).

For the foregoing reasons, I am returning Senate Bill No. 3153 with the reductions set forth above totaling \$5,000,000 in general funds and \$5,000,000 in special funds for fiscal year 2024-2025.

Respectfully,
/s/ Josh Green, M.D.

A BILL FOR AN ACT

RELATING TO THE DAM AND APPURTENANCE IMPROVEMENT OR REMOVAL
GRANT PROGRAM.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that many private dam
2 owners do not have the resources to conduct the necessary
3 repairs or removal of their dams, resulting in dams remaining
4 unsafe and continuing to pose a risk to the downstream public in
5 the event of a dam failure. The legislature further finds that
6 although the total cost to bring all private dams into
7 compliance will be in the hundreds of millions of dollars, dams
8 in Hawaii provide many public benefits, such as potable water,
9 water for agriculture and livestock, fire protection, ground
10 water recharge, flood control, energy generation, sediment
11 control, and recreation. Therefore, it is in the public's best
12 interest for the legislature to provide financial assistance to
13 these private dam owners.
14 Act 134, Session Laws of Hawaii 2023 (Act 134), established
15 and appropriated moneys for a dam and appurtenance improvement
16 or removal grant program to financially assist owners of private
17 dams and appurtenances to keep them properly maintained.

Gov. Msg. No. 1333, transmitting his statement of objections to specific items contained in H.B. No. 1800, HD 1, SD 1, CD 1, as follows:

"EXECUTIVE CHAMBERS

HONOLULU

July 8, 2024

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 1800

Honorable Members
Thirty-Second Legislature
State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 1800, entitled "A Bill for an Act Relating to the State Budget."

The purpose of this bill, the Supplemental Appropriations Act of 2024, is to adjust and request appropriations for the fiscal biennium 2023-2025 to fund the operations and capital improvement projects of Executive Branch agencies and programs by amending the General Appropriations Act of 2023, Act 164, Session Laws of Hawaii 2023.

While the bill as a whole has merit, the use of general fund moneys must be reprioritized due to: (a) the change in the Council on Revenues' general fund tax revenue projection in May 2024 that necessitates that the State's financial plan be rebalanced through line-item vetoes and reductions to the budget; and (b) the need to maintain healthy financial reserves so that the State can meet its reserve policy requirements. Because of this, the following general fund appropriations were subject to: (a) an assessment of items that require additional planning, public input, and clarity on the use of moneys; (b) an evaluation of each expending agency's ability and capacity to spend down the moneys efficiently within the authorized appropriation period; and (c) an appraisal to determine if other funds or financing mechanisms could support the programs or projects.

Section 16 of Article III of the Hawaii Constitution provides that, "[e]xcept for items appropriated to be expended by the judicial and legislative branches, the governor may veto any specific item or items in any bill which appropriates money for specific purposes by striking out or reducing the same." Consequently, I object to the expenditure of some of the appropriations in this bill, for the reasons indicated.

A. For those general fund program appropriations in section 3 of Act 164, Session Laws of Hawaii (SLH) 2023, as set forth in section 4 of this bill, I object to their expenditure due to (a) the change in the Council on Revenues' general fund tax revenue projection in May 2024 that necessitates that the State's financial plan be rebalanced through line-item vetoes and reductions to the budget; and (b) the need to maintain healthy financial reserves so that the State can meet its reserve policy requirements. The specific generally funded program appropriation items I have objected to are listed below in the order in which they appear in the bill.

B. For those general fund appropriations for capital improvement projects in section 7 of Act 164, SLH 2023, as set forth in section 7 of this bill, I object to their expenditure due to (a) the change in the Council on Revenues' general fund tax revenue projection in May 2024 that necessitates that the State's financial plan be rebalanced through line-item vetoes and reductions to the budget; and (b) the need to maintain healthy financial reserves so that the State can meet its reserve policy requirements. The specific generally funded capital improvement project appropriation items I have objected to are listed below in the order in which they appear in the bill.

C. For those general obligation bond appropriations for capital improvement projects, in section 7 of Act 164, SLH 2023, as set forth in section 7 of this bill, I object to their expenditure because, although these projects are desirable, they are not essential at this time. The specific general obligation bond funded capital improvement project appropriation items I have objected to are listed below in the order in which they appear in the bill.

Specific Items Vetoed

Because of the foregoing objections, I have taken the following actions on specific appropriation items in sections 3 and 7 of Act 164, SLH 2023, as set forth in sections 4 and 7, respectively, of this bill, pursuant to my appropriation item veto authority, as follows:

"EXECUTIVE CHAMBERS

July 9, 2024

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 1633

Honorable Members
Thirty-Second Legislature
State of Hawai'i

Pursuant to Section 16 of Article iii of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 1633, entitled "A Bill for an Act Relating to Contractors."

The purpose of this bill is to remove the leasing restriction on owner-builders who obtain an owner-builder exemption to act as their own

contractor and who build or improve residential or farm buildings or structures on property they own or lease and do not offer the buildings or structures for sale.

This bill is objectionable because it creates a broader owner-builder exemption that would allow unlicensed contractors to be used for rental projects. Increased unlicensed activity would impact quality and safety standards and may adversely affect consumers. The broadened exemption under this bill would allow the impact of the unlicensed work to fall upon a renter who may be unaware that unlicensed work had been done on the property. The repeal of the requirement that structures be built for personal use also increases the possibility that those structures would be built for other purposes, such as short-term rentals.

For the foregoing reasons, I am returning House Bill No. 1633 without my approval.

Respectfully,
/s/ Josh Green, M.D.
JOSH GREEN, M.D.

Gov. Msg. No. 1359, transmitting his statement of objections to H.B. No. 2359, HD 2, SD 1, CD 1, as follows:

"EXECUTIVE CHAMBERS

HONOLULU

July 9, 2024

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 2359

Honorable Members
Thirty-Second Legislature
State of Hawai'i

Pursuant to Section 16 of Article iii of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 2359, entitled "A Bill for an Act Relating to the Hawaii Broadband and Digital Equity Office."

The purpose of this bill is to establish the Digital Equity Grant Program to award grants to applicants to deploy digital equity projects to covered populations in the State.

This bill is objectionable because it would inhibit the development of small-scale, community-based networks in historically disadvantaged communities in Hawai'i. While the State Digital Equity Plan, developed by the Hawaii Broadband and Digital Equity Office, is a roadmap for achieving digital equity baseline across the islands, the bill excludes the deployment of broadband infrastructure and wireless community networks from eligible projects. These providers, although potentially large, should be permitted to participate in the Digital Equity Grant Program in order to best develop community-based networks in historically disadvantaged communities.

For the foregoing reasons, I am returning House Bill No. 2359 without my approval.

Respectfully,
/s/ Josh Green, M.D.

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 572

Honorable Members
Thirty-Second Legislature
State of Hawai'i

Pursuant to Section 16 of Article iii of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Bill No. 572, entitled "A Bill for an Act Relating to Agriculture."

The purpose of this bill is to allow the Department of Agriculture to declare a biosecurity emergency, with the approval of the Governor, if an outbreak or spread of a pest has the potential to cause significant economic or environmental loss to the State. During the biosecurity emergency period, the Governor would be allowed to requisition and take control of any goods, real property, or watercraft for the purposes of the biosecurity emergency.

This bill is objectionable because the power to requisition watercraft may in effect impede harbor operations and the timely movement of commercial goods transported through Hawaii's ports, such as consumer goods, motor vehicles, construction materials, and fuel. This would unnecessarily impact the flow of goods that our communities rely on and appears to be an extreme power that could be addressed in a more methodical and limited approach.

For the foregoing reasons, I am returning Senate Bill No. 572 without my approval.

Respectfully,
/s/ Josh Green, M.D.

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 1511

Honorable Members
Thirty-Second Legislature
State of Hawai'i

Pursuant to Section 16 of Article iii of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Bill No. 1511, entitled "A Bill for an Act Relating to the Research Corporation of the University of Hawaii."

The purpose of this bill is to clarify the purpose of the Research Corporation of the University of Hawai'i (RCUH) and that its undertakings shall be limited to acts that are reasonably necessary to carry out its purpose. It repeals the requirement that the University of Hawai'i (UH) contract with RCUH when the UH determines that other various agencies cannot more effectively or efficiently accomplish certain research and training activities. In addition, it grandfathers existing RCUH contracts and requires new contracts to be subject to new limitations. Further, it limits the scope of the special account the RCUH is authorized to establish. The bill also requires revolving accounts to follow UH Administrative Procedure 12.204, which is UH's administrative procedure for establishing Special Fund Research Recharge Centers accounts in the UH system. Furthermore, the bill limits internal service orders and revolving accounts of the RCUH that use UH intramural funds for certain projects and requires biannual reports to the Legislature.

This bill is objectionable because UH and RCUH representatives have been diligently examining and making appropriate changes to the entire UH/RCUH relationship and research operation for almost four years after the intentional decision by UH and RCUH to make the UH research enterprise better and more efficient.

During the Regular Session of 2021, the Senate adopted Senate Resolution No. 148, "Requesting the University of Hawaii to Convene a Task Force to Examine and Assess Its Arrangement for Services with the Research Corporation of the University of Hawaii." As requested, the UH convened a "Task Force" to review UH's arrangement for services with RCUH. The Task Force produced recommendations that addressed: (1) the terms of the UH/RCUH Internal Agreement Management Fee; (2) reducing service orders to RCUH; (3) improving federal regulation compliance by integrating UH and RCUH systems relating to human resources, travel, and financial systems; and (4) RCUH's financial system infrastructure. The details of these findings were published in a December 2021 Report to the 2022 Legislature pursuant to Senate Resolution No. 148 (2021).

In addition to the above, RCUH incorporated recommendations from the Task Force into its current Strategic Plan, and the UH is currently working

on updating its Administrative Policy 12.203 (Service Orders to RCUH) in consultation with UH Human Resources and the Hawai'i Government Employees Association to address legislative concerns regarding collective bargaining positions. Although the Task Force was dissolved after completion of its charge, this important work is not complete and UH and RCUH continue to work together to strengthen and support the UH research enterprise.

Finally, and most importantly, the wording in this bill creates ambiguities and uncertainty, especially with respect to defining projects and the division of work. That would cause differing interpretations throughout the UH system and State of Hawai'i, resulting in unnecessary delays and inconsistencies. If this bill were to become law, it would result in severe fiscal and operational impacts to the UH and would make Hawai'i less competitive for pursuing competitive extramural funding. This is highly concerning as it will negatively impact UH's record extramural funding that creates thousands of jobs across the State and provides millions of dollars in economic benefits.

For the foregoing reasons, I am returning Senate Bill No. 1511 without my approval.

Respectfully,
/s/ Josh Green, M.D.

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 2512

Honorable Members
Thirty-Second Legislature
State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Bill No. 2512, entitled "A Bill for an Act Relating to Emergency Management Powers."

The purpose of this bill is to establish notice and reporting requirements for the expenditure or use of public resources by the Governor pursuant to the Governor's emergency powers.

This bill is objectionable because it would negatively impact the State of Hawaii's ability to quickly provide support for residents impacted during a state of emergency by creating additional compliance requirements for the Governor and Department of Defense. It would amend section 127A-12(b)(7), Hawaii Revised Statutes, to require the Governor to provide "not less than fourteen days" notice to the Legislature before contributions or grants can be expended or used for the purposes of emergency management. During a state of emergency, the Governor needs flexibility and support to rapidly execute key decisions involving public safety. The notice and reporting requirements within this bill impede the Governor's and the Department of Defense's ability to be responsive and flexible during these times.

For the foregoing reasons, I am returning Senate Bill No. 2512 without my approval.

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 2557

Honorable Members
Thirty-Second Legislature
State of Hawai'i

Under Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning, without my approval, Senate Bill No. 2557, entitled "A Bill for an Act Relating to Legal Representation."

The purpose of this bill is to allow a court to appoint an attorney for the subject of a petition for Assisted Community Treatment (ACT) if the court determines that the interests of justice require one be appointed, rather than entitling an indigent subject of an ACT petition to be represented by a public defender.

This bill is objectionable because the amendments in sections 7 and 12 of House Bill No. 2159, Relating to Mental Health, and the amendments provided in this bill are virtually identical to each other, with only minimal stylistic differences. The enactment of House Bill No. 2159 renders this bill redundant.

STATEMENT OF OBJECTIONS TO SENATE BILL NO. 3068

Honorable Members
Thirty-Second Legislature
State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Bill No. 3068, entitled "A Bill for an Act Making Appropriations for Wildfire Recovery."

The purpose of this bill is to appropriate funds to support the State's continued response to the August 2023 wildfires that affected the County of Maui.

This bill is objectionable because, while the bill appropriates funds to assist with the Maui wildfire recovery, the bill inadvertently zeroes out funding for the Hawaii Housing Finance and Development Corporation to be used for affordable housing. To prevent delays in building affordable housing units for Hawaii residents, this bill cannot be enacted. Housing is a top priority for my Administration, along with the Maui wildfire recovery efforts. I intend to fully support the Maui wildfire recovery appropriations made in this bill through the Major Disaster Fund. The Supplemental Appropriations Bill of 2024, House Bill No. 1800, has sufficient appropriations that can be transferred to the Major Disaster Fund to support the Maui wildfire recovery efforts outlined in this bill.

For the foregoing reasons, I am returning Senate Bill No. 3068 without my approval.
