INTRODUCTION OF RESOLUTIONS

The following concurrent resolutions (H.C.R. Nos. 1 and 2) were announced by the Clerk and the following action taken:

H.C.R. No. 1, entitled: "HOUSE CONCURRENT RESOLUTION RELATING TO RECESS DAYS FOR THE REGULAR SESSION OF 2024," resolving that the dates of the mandatory recess for the Regular Session of 2024 are hereby determined to be the 22nd, 23rd, 26th, 27th, and 28th days of February, on which dates the Regular Session of 2024 shall be recessed; and that the dates of the recesses other than the dates of the mandatory recess for the Regular Session of 2024 are hereby determined to be the 23rd and 25th days of January, the 4th and 6th days of March, the 8th, 10th, 24th, 29th, and 30th days of April, and the 2nd day of May, on which dates the Regular Session of 2024 shall be recessed, was jointly offered by Representatives Saiki and Ilagan.

On motion by Representative Nakamura, seconded by Representative Matsumoto and carried, H.C.R. No. 1 was adopted.

H.C.R. No. 2, entitled: "HOUSE CONCURRENT RESOLUTION REQUESTING THE GOVERNOR TO ADDRESS THE LEGISLATURE ASSEMBLED IN JOINT SESSION," resolving that the two Houses of the Legislature assemble in Joint Session in the Chambers of the House of Representatives at 10:00 a.m. on Monday, January 22, 2024, for the purpose of receiving such address or greetings from the Governor of Hawai'i as he should be pleased to make, was jointly offered by Representatives Saiki and Ilagan.

On motion by Representative Nakamura, seconded by Representative Matsumoto and carried, H.C.R. No. 2 was adopted.

At this time, the Speaker delivered his address, stating:

"Good morning, *aloha*, and Happy New Year. I would like to begin by welcoming and introducing our two newest House members, Representative Miyake and Representative Mizuno.

"So, Representative Tyson Miyake from District 10 previously served as the chief of staff and deputy county managing director with Maui County. He brings with him a fresh perspective and county level experience which will be invaluable as he works alongside the Maui delegation to deliver

much-needed relief and leadership to Maui in the upcoming session. So, Representative Miyake, I didn't know this, but he is actually a trained linguist and he is fluent in six languages. Congratulations.

"Next, we have Representative May Mizuno of District 29. So, Representative Mizuno has deep roots in her community, as well as here at the State Capitol, working alongside her husband, former Representative John Mizuno. Representative Mizuno is a dedicated member of the Kalihi Valley Neighborhood Board No. 16. Her dedication to her constituents will continue in her role as a member of the House. So, I didn't know this about Representative Mizuno, but she is a skilled outdoorsperson. Recently, she was in Alaska where she successfully reeled in a 157-pound halibut. Which is kind of the same weight and size of her husband, John. Fortunately, only the fish went to the taxidermist.

"So, with both Representative Miyake and Representative Mizuno here, we have a modern historical composition of 20 House freshmen members. So, congratulations to all of the freshmen.

"So, the third Wednesday in January is close enough that we can, at the beginning of every legislative session, say Happy New Year and mean it. It positions us to both reflect on the previous year, and to be thoughtful about what we are resolved to do now and in the future. This year, we begin somberly, with gratitude, and determination.

"It has been 162 days since the Maui wildfires, and the shockwaves have not yet subsided. To quote Archie Kalepa, Lahaina is bearing the burden and all of Hawai'i is feeling the pain. We are thankful and indebted to the many people who were indeed the very first responders, whether that was their job or not, and continue to this day to listen to, provide for, and advocate.

"We have a few of those individuals here today. Members, please join me in greeting, first, Mish Shishido, who is representing Mayor Rick Bissen. Community members of the Lahaina Advisory Team, Laurie Lei DeGama, Rick Nava, and Archie Kalepa. There are three additional members of the advisory team who are unable to attend today and they are Kaliko Storer, Kim Ball, and Nestor Ugale.

"So, this advisory team will envision the future of Lahaina, and in many respects, the future of our entire state. As we acknowledge these individuals and the communities they belong to, we are brought to an essential question. As Lahaina continues to bear the burden, and all of Hawai'i continues to feel the pain, what will we do about it?

"History provides lessons. One hundred five years ago in 1919, another large-scale fire devastated Lahaina. No lives were lost. The town was mostly built on the same footprint, with a few infrastructure improvements, mostly led by individual property owners who had the means to do so. We could follow this model, modernizing it a bit. And in doing so, perhaps resetting the clock for another, more horrific disaster a century from now. Or with climate change, much sooner.

"More than 250 years ago, Native Hawaiians figured out how to manage their needs in relationship to place. There are no entries in the Wehewehe Hawaiian online dictionary for the word sustainable, let alone self-sustaining. But that is exactly how decisions were made, food cultivated, population distributed, natural resources managed. They had to have a circular economy because, as far as they knew, they were the only people. And as it turned out, many of the folks who came to the islands over the centuries were Pacific people with similar values.

"There are now many people, and many interests outside of Hawai'i who make decisions independently that profoundly impact us. We have encouraged and become more dependent on economies that deplete our resources. The many conflicts in the world affect us, even if they are far away. And the acceleration of climate change alters every place and all things. None of this means we don't have agency over our future. It means we must exercise agency and not let things drift or compromise the present at the expense of the future.

"One of the things I am proud of is the work that this House engaged in since we adjourned since *sine die* eight months ago. The House had planned an interim agenda that was appropriately and abruptly changed in August. But throughout, the House worked, asked hard questions, and pursued better

solutions. The House brought meaning to the need for us to work beyond our own members and engage with people in our community.

"Two of these efforts in particular will help guide, not only legislation, but also how we think about these issues. The first is the working groups for Maui: Food, Water, and Other Supplies; Shelter; Environmental Remediation; Jobs and Business; Schools; and Wildfire Prevention. These are issues laid bare by the Maui fires, but they also have application in many other places across the state. Thank you to our co-chairs, Representatives Greggor Ilagan, Terez Amato, Luke Evslin, Nicole Lowen, Elle Cochran, Daniel Holt, Andrew Garrett, Justin Woodson, Jenna Takenouchi, Linda Ichiyama, and Darius Kila. And thank you to all of the House members who served as working group members and participated in this comprehensive work.

"The second interim effort focused on water. Thanks to Chair Linda Ichiyama, Chair Nicole Lowen, and Senator Jarrett Keohokalole, the Legislature worked with state agencies, the Board of Water Supply, City Council, the Governor, and Mayor Blangiardi in an unprecedented multiple jurisdiction effort. The Red Hill WAI, which means Water Alliance Initiative, report charts a proactive course of remediation so that decades, and perhaps even a century from now, future residents aren't poisoned by the nearly two million gallons of fuel in the ground that is slowly making its way to the water table.

"This work on the Lahaina wildfire, water, and many other topics aren't just interrogations of issues. We are fundamentally asserting that not only do we have agency and the responsibility to act, we are also questioning the how and the why and for whom. This, I think, is part of what Kumu Hina Wong told me recently. She said she would like to have all of us center Hawai'i. Members, to center Hawai'i is to center values that make sense for island communities and for our responsibilities as stewards of the public trust. We will need to remind ourselves of these values frequently, especially in a time of urgent decisions, and uncertain economic prospects.

"I've been pondering what it means for us, as legislators, to center Hawai'i. Is it to put the present and future well-being of this unique place, and the people of this place, at the center of our actions and decisions? It would mean, for example, to say that among the many needs and wants presenting themselves in the wake of the fires, that the needs and the well-being of local people of Maui and the residents of Lahaina come first.

"To center Hawai'i would require us to acknowledge that land is no longer the limiting factor of what we do. Because if we don't center the well-being of our water as a fundamental public trust responsibility, all of our affordable housing and economic development, and even our conservation efforts won't matter. And centering Hawai'i is to center *aloha* and the working principles of *aloha*, as did many in the days and weeks following the great fire.

"Some of us are newer to this chamber, and some of us are veterans. However short or long our tenure, our responsibilities take on even greater consequence if we are to not only represent the districts we are individually elected from, not only the state as a whole, but also to center Hawai'i and truly be the stewards in the public's trust, now and for the future.

"I would urge all of us to internalize the lessons of the wildfire, of the threatened water, of the pain and courage and *aloha* of our fellow residents in the face of unprecedented challenges. Hawai'i requires much of us, and we can, together, do our part. Thank you very much."

The Chair then recognized Representative Matsumoto, the Minority Leader, to deliver remarks on behalf of the Minority Caucus:

"Thank you. Mr. Speaker, Majority Leader Nakamura, friends, colleagues, and members of the public, good morning and *aloha*. This year, I had the honor to be part of the Rodel Fellowship, a group that brings together 12 Democrats and 12 Republicans from across the country, creating a cohort with the purpose of learning how to lead despite our differences. One of the takeaways from our conversations was that our nation and our states continue to be more polarized on many issues. But more importantly, how we conduct our state's business is often also divisive. We can do better.

"I encourage my fellow House members to rise above the noise. It is our job as legislators to model what civil discourse looks like. If we cannot

discuss difficult issues with decency and respect in this chamber, how do we expect it to happen in our communities? That doesn't mean that we always have to agree, and actually we shouldn't. But it means that we're willing to truly listen and hear what our colleagues, the departments, advocates, and what our communities have to say. I believe Hawai'i and our House can lead the way.

"Mr. Speaker, as you mentioned in your speech, this year our state was rocked by the horrific tragedy in Maui. The crisis should not be a partisan issue or even a political issue. I respect your leadership and commitment to the State of Hawai'i, and I appreciate that when we met about Maui, you agreed to create these six bipartisan working groups and began addressing the needs of the many residents in Maui that were affected. And I am proud that we took it a step further. And for the first time in the history of Hawai'i, we have a bipartisan bill package, and we will be supporting the residents of Maui with these 12 bills to start.

"The Republican caucus visited Maui together to see firsthand the important issues that we need to address this year. We met with relief groups, with business owners, schools, and residents who lost their homes. My hope is this bipartisan legislation will send a clear message to the residents of Maui that we are putting their needs over politics.

"Additionally, this past year the Republican caucus worked together and for the very first time hosted a series of events called the Listening Tour, where our caucus went to four locations on O'ahu: Kāne'ohe, Mililani, Hawai'i Kai, and Kapolei, and listened to the needs and concerns of the community members. And we look forward to the possibility of expanding that to neighbor islands in the future.

"The Listening Tour flipped the script on the traditional town hall. It was a community-led forum, where we had an interactive survey that tracked and displayed different issues as they were raised. It allowed our caucus to shape our bill package with the data that we got back from these meetings. Our Republican Caucus came away with a better understanding of the priorities of the people in Hawai'i, and that information has allowed us to respond with action.

"The primary concerns brought up in these meetings included cost of living, housing, crime, Hawaiian homes, and government transparency. I would like to take the time to thank our House Minority Research Office and all of the caucus staff for the hard work that they put into making this tour happen.

"The 2024 Republican Caucus package was created for the Hawai'i we know and love. Our Hawai'i. So our legislation focuses on six main priorities. First, we need to keep our *kama'āina* home, with legislation that will make it more affordable for residents to stay on islands and thrive. We are focused on bills to eliminate the income tax, create an exemption for food and medical services, and also to provide greater opportunities for families to start saving for a home that they can call their own.

"Second, we need to grow our job market to create more high paying jobs and more economic opportunities for residents. These bills grow our job market by making Hawai'i a friendlier place to start a business, preparing our students for the real world with job experience, and injecting new life into our very important film industry.

"Third, we need to strengthen our *'ohana*. Hawai'i family values are woven into the culture of our state. These bills give greater access to paid family leave, ensure parents know what's happening with their children, and create local school boards for education to be more in tune with the community's specific needs.

"Fourth, we need to invest in our homelands. We need to truly make the needs of Native Hawaiian families a priority. These bills will financially empower Hawaiians by making Hawaiian home land leases eligible for federal lending programs, designate Hawaiian home lands as state enterprise zones, and uphold the constitutional obligation to allocate revenue for OHA.

"Fifth, we need to protect our communities. Everyone should feel safe in their communities. This bill addresses rising crime with harsher penalties for organized theft, empower citizens with the right to protect themselves, and ensure access to treatment for Hawai'i's most vulnerable population.

"Finally, sixth, we need to improve our government. Our state needs greater accountability and transparency. These bills impose checks and balances on emergency powers, demand greater election integrity, and tackle government corruption through term limits. With such pressing needs for Maui, and for that matter, every island in our state, it is imperative that we lead with both kindness and respect. Let's be mindful how we interact with each other in this building and out in public. If we are truly able to rise above polarization and the noise, I know we can accomplish much for this session and for our entire state. *Mahalo*."

The Chair then recognized Representative Nakamura, the Majority Leader, to deliver remarks on behalf of the Majority Caucus:

"On behalf of the Majority Caucus, Mr. Speaker, we only have one question to ask you. When we left this chamber at the end of last session, did you really mean it when you told us to have a great interim? Yes, we returned to our island homes. We spent time with family and friends. We reengaged with our communities, worked on critical projects, and helped our constituents navigate the state bureaucracy.

"In between all of this, you pressed us to closely monitor the defueling of Red Hill fuel tanks and remediation efforts, and monitor the \$600 million in funds to the Department of Hawaiian Home Lands. You also encouraged us to get out and about. We learned about Waipahu High School's incredible career pathway curriculum and on and off campus learning opportunities.

"We drove and walked through Pu'u Maka'ala Natural Area Reserve above Hilo to learn about native ecosystem restoration efforts. We visited prisons and jails to see firsthand the poor physical conditions of our facilities, personnel challenges, and need for rehab programs. We saw destination management and regenerative tourism at work in Hā'ena State Park. We drove and walked through the Lahaina burn zone to fully understand the magnitude of the wildfire devastation and the critical work ahead.

"These are just a few highlights of the many site visits that we made during the interim. What gives us so much hope is the commitment of state and county employees and community leaders who told us their stories, shared their dreams and vision, and explained their challenges and opportunities. We are all better legislators for this.

"But, Mr. Speaker, going back to the first question, did you really mean it when you told us to have a great interim? Because after the Maui wildfire, you created not one or two, but six bipartisan working groups to address concerns and to answer two critical questions. What can we learn from the Maui wildfires? And how can we prepare ourselves for future disasters?

"The Wildfire Prevention Working Group prioritized bills to fund DLNR's wildfire prevention and response, increase fines for fire protection law violations, and establish the office of State Fire Marshal. We are the only state in the nation that doesn't have one. The Environmental Remediation Working Group proposed bills to fund long term air and water quality monitoring for communities directly impacted by the Maui wildfires.

"What happens when the disproportionate number of homes are vacation rentals instead of housing local residents? The Shelter Working Group proposed a bill to phase out non-conforming short-term vacation rentals by closing this current omission in state law and giving counties the explicit authority to do so. The Food, Water and Other Supplies Working Group proposed bills mandating a comprehensive distribution plan and allowing pharmacists to provide medication to patients without interruption during emergencies. The Schools Working Group proposed a bill requiring DOE schools to have a comprehensive school evacuation plan that includes wildfires and a communication plan for use during these emergencies.

"And how do we create a pipeline of skilled workers in the construction industry to build the needed housing on Maui? The Jobs and Business Working Group proposed funding the University of Hawai'i Maui College to hire adjunct faculty positions to meet this immediate need. Mr. Speaker, we would be remiss in not acknowledging the incredible work of our House Majority Research Office, led by Casey Hines, for meeting the very tight deadlines that you set to get reports written and bills drafted, and our Communications Office, led by Cathy Lee, who informed the public every step of the way. *Mahalo*, Casey and Cathy.

"Then, in addition to the bipartisan wildfire package, Mr. Speaker, you were determined to have a majority package of bills. I would personally like to thank the 23 members of the Policy Committee who worked during the interim to identify key areas of concern, listen to experts, and identify bills that will lay critical foundations for a stronger Hawai'i. The majority package addresses affordable housing and homelessness head on by providing funding for affordable rental housing for a group that has been largely ignored, our working families.

"The package also includes a bill to increase the base budget for homelessness programs that have not been increased for the past 10 years, while needs have continued to escalate. *Mahalo* to Health & Homelessness Chair Della Au Belatti for your work on this bill.

"Mental health is top of mind. And creating an associate level licensure process with insurance reimbursements for marriage and family therapists, mental health counselors and psychologists, and establishing a 24-hour Behavioral Health Crisis Center pilot program will help increase access to mental health services. *Mahalo* to Representative Cory Chun and Health Chair Belatti for working on these two bills.

"The most cost-effective way to meet our renewable energy and decarbonization goals is through energy efficiency. Extending the state's energy efficiency portfolio standards from 2030 to 2045 and requiring all future state buildings parking to be 25% electric vehicle charger ready will help the state lead by example. *Mahalo* to Energy & Environmental Protection Chair Nicole Lowen for championing these two bills.

"With the shortage of 4,000 healthcare workers in the state, we need to support current healthcare workforce development programs that are working. Funding the public high school Healthcare Workforce Certificate and Glidepath programs, and giving Windward Community College the resources to train mental health care workers, will help our healthcare workforce throughout the state. *Mahalo* to Healthcare Association of Hawai'i and our new Human Resources Chair Lisa Marten for crafting these bills.

"Finally, with the state government employee vacancy rate of 23% and the three to six months it takes to conduct a minimum qualification review, we include in the majority package a bill authorizing state departments, divisions, and agencies to conduct this review on their own. *Mahalo* to Labor & Government Operations Chair Scot Matayoshi for your work on and advocacy for this bill.

"So going back to the original question, Mr. Speaker, as I received your phone calls directing this and that during our family vacations, zoomed into meetings from mainland conferences, and spent holidays working on these bills, did you mean it, to have a great interim? Because, Mr. Speaker, quite frankly, you worked us.

"But we know that our hard work over the interim will create a more resilient Hawai'i, address pressing problems, and help Hawai'i's residents thrive. At the end of the day, we thank you, Mr. Speaker, for your leadership in galvanizing us, seizing the moment, and producing some solid bills for the people of Hawai'i. Thank you."

The Governor then addressed the Joint Session as follows:

"Jaime, Lieutenant Governor, Speaker, Senate President, colleagues, governors, mayors, consul generals, CJ, dignitaries, cabinet members who have been so wonderful, state leaders, and all the people of Hawai'i, *aloha*.

"Our state suffered a tragic and devastating loss when fires swept through Lahaina and other areas of Maui. I'd like to take a moment to honor the memory of those we lost that day, August 8, 2023. Please join me in a moment of silence to honor them. *Mahalo*.

"I want to express a heartfelt *mahalo* to everyone who has helped and supported the survivors of this tragedy and their families over the last five and a half months. People have been so brave in the face of tough times. I also want to say I respect those who have pressed us to do more to help those in need.

"It's been an extraordinary and humbling experience to serve as your governor over the past year, and Jaime and I are deeply grateful for your support and encouragement.

"Today I am here to report that although we have faced great challenges and suffered even greater loss over the past year, we have come together as one *'ohana* to recover and to heal. I am here to report that the state of Hawai'i is strong.

"First, a response to the Maui fires. We lost 100 of our loved ones in the fire, and the lives of thousands more were changed that day. Hurricane-force winds fanned fires over the islands of Maui and Hawai'i, causing the worst natural disaster in our state's history. Words cannot adequately describe the devastation caused by the fires, and it scorched thousands of acres and destroyed nearly all of Lahaina.

"At this moment, I want to recognize Maui Mayor Bissen, whose strength in the face of this disaster has been most admirable. Please stand, mayor.

"Two of the brave Maui firefighters are also here with us today, Keahi Ho and Koa Bonnell. Please stand so we can recognize you, and all of your fellow firefighters who put yourselves in harm's way.

"Chief of Police Pelletier, who can't be with us today, who is working, was alongside the firefighters and the first responders. And he led his police force into the disaster area to help rescue people. Few people, other than the survivors from Lahaina, can fully understand what it was like that day on the ground for police and firefighters. We are honored to know you. One more round of applause for these heroes.

"These men and women knew what they were facing when they went into the fire. Many knew that their own homes would be destroyed, and some

didn't know if their family were safe. So that's what they were facing, and they went in anyway. What they did was so truly heroic, I don't know if there were ever words that will be able to capture that.

"And then communities across our state quickly joined them, joined together in support of the thousands of displaced survivors. Archie Kalepa and his *'ohana* were among the very first to mobilize community members across Maui. Archie, you're also one of our heroes. Please stand.

"Another individual stepped up more than anyone could possibly imagine, and that was Chad Buck and his *'ohana*. I have never witnessed such generosity in my life, and the kindness that you brought to this disaster. Please stand and be recognized, Chad.

"The entire hotel community on Maui, including Jeff Wagoner, Jerry Gibson, and my dear friend Mufi Hanneman, thank you for stepping up when our community needed you the most to house people who had been displaced. *Mahalo* for your incredible work.

"As these heroes worked on the fire, our state agencies, including HI-EMA, the Departments of Education, Health, Human Services, all began immediately working alongside FEMA and Maui County, with the Red Cross, to provide meals, temporary housing, and new schools, as well as supportive services for the Disaster Relief Program which included financial recovery, medical and mental health care, which was so critically important.

"Concerned citizens and organizations such as the Hawai'i Community Foundation, the Red Cross, CNHA, and so many others immediately mobilized donation drives, and brought tens of millions of dollars to the effort. It poured in from all over the world. So, working with these partners in the first two weeks after August 8th, we relocated 8,000 of our displaced people into hotel rooms and condos across Maui.

"In a few short months, we have already disbursed over hundreds of millions of dollars of housing assistance to those who need it and were affected. And this is just the beginning of the effort. Disasters as severe as this one can take years to recover from.

"I am especially grateful to other individuals that have become local leaders and were already in our midst, helping our state for years in the past. These individuals right now, I'd like to recognize, are Micah Kane and Kuhio Lewis. Let's give them a round of applause. Micah and Kuhio have been providing inspiring leadership alongside all of our government.

"And then to date, FEMA has registered over 17,000 survivors for services and will begin to provide them the long-term housing that they need, 18-24 months of rental assistance, well into 2025. The American Red Cross, also in full partnership with us, is currently helping to house over 2,300 families, more than 5,000 individuals, in more than 30 hotels across Maui. It is a team effort.

"As governor, I authorized an additional \$100 million from Temporary Assistance for Needy Families, TANF monies, to match what others were donating, effectively doubling the power of public contributions to help those affected families pay for housing, transportation, food, clothing, and any need that arose.

"Because the Legislature stepped up, we also provided relief to local businesses in the form of emergency grants to be distributed by the Maui Economic Opportunity team, aimed at preventing bankruptcies. So, working with House and Senate leaders and in partnership with Maui County, we made \$12.5 million available in the form of grants of up to \$20,000 each to help local businesses survive and recover.

"What does this all mean? The road to recovery will be long. Healing will take time. It's going to take courage and commitment from all of us, but we will get there as we come together as an *'ohana* to help and support the Maui community.

"Now let's discuss the immediate recovery efforts on Maui. We've set aside up to \$600 million in the budget for recovery costs that will continue well into 2027. I've worked with President Biden and his administration directly to ensure that federal funds will pay for 100% of debris removal and emergency protective measures in the disaster areas, for six and twelve months respectively. Support which will save us hundreds of millions of dollars as we recover.

"In November, we brought a coalition together additionally to create the Maui Recovery Fund, which will rapidly provide funds to families who have lost a loved one, or who have been severely injured in the fires. Participation in this fund, as I've shared before, will be completely voluntary. The goal is to get as much money as possible to affected families, as quickly as possible. We have already secured \$175 million for the fund from our initial partners including the State, Maui County, Kamehameha Schools, Hawaiian Electric, Charter Communications, and Hawaiian Telcom. In order to operationalize this fund, we have pro bono services from First Hawaiian Bank and other community-minded professionals, leaders across the country who delt, for example, with 911. And we expect to have this fund up and running by March 1st to offer support to the families in Maui who have lost so much.

"Now most central on the people's minds in Maui is housing. So now let's discuss the Maui Interim Housing Plan. Earlier this month, we announced the Maui Interim Housing Plan, a \$500 million initiative to create a pool of more than 3,000 housing units for at least 18 months to house those who have been displaced by the fires. This collaborative effort brings together the State, the County of Maui, the Hawai'i Community Foundation, at Micah's lead, CNHA, with Kuhio at the helm, FEMA, and the Red Cross, with the goal of moving all displaced families, all displaced families, from short-term hotels into long-term housing by July 1st, with most households moving in by March 1st, just a few weeks away.

"Now here is where I have to make a humble appeal to people all across the state and the country. Every owner of a short-term rental property on Maui, please join us today in our mission to house the Lahaina families who have been displaced by the disaster. They are part of our *'ohana*, and right now we need your help to care for them.

"Let me break down how it is on Maui. There are 27,000 short-term rental units on that island alone. And if we can dedicate just 10% of these homes for displaced Lahaina families, we can house everyone. We'll cover the fair market value of each rental for two years, we'll also provide the property tax exemption that the mayor and his council very, very thoughtful passed just weeks ago, to give an exemption for property tax for 18 months to house those who participate. This is the right thing to do. And I urge everyone out there to join us in offering their homes, if they can, to house our people.

"Now, if not enough partners step forward to join us as we approach March 1st, believe me when I say this, I will be forced to declare a moratorium on all short-term rentals in West Maui, until we find enough housing for the displaced families. If you want to participate in this program, you can email us today. Email us at mauihousing2024@fema.dhs.gov to join in this effort. I'll say it again, mauihousing2024@fema.dhs.gov to join us in this effort. It is critically important we care for people and put them in housing.

"Now, in addition to \$250 million that FEMA put up immediately for rental assistance and to rent many of these units, they are currently in the process of leasing up to 1,500 homes for survivors. As of Friday, they were at 1,367, and that is a testament to the great work that Bob Fenton has done with his team. They are also planning and designing two housing sites on Maui to house up to 500 additional families. This operation alone totals \$450 million additional dollars from the federal government to help our people.

"In many cases, I don't think they are recognized enough, so I'd like to recognize Deann Criswell, who is the leader at FEMA, and Bob Fenton, the big guy over here to my left, who has been a great working partner. Please stand, Bob.

"In the coming weeks, in addition to all of this work, the first shipment of modular transitional homes will begin to arrive in Maui as part of our Department of Human Services efforts in their housing initiative. We will add an additional 480 units right away to help provide our people with a sense of stability and security as we implement further long-term housing plans that I've been describing.

"So, as we move forward, we're going to continue to remove the debris in West Maui. We'll do it safely and respectfully. And the plan is to listen to the people of Lahaina and rebuild the way they want us to rebuild.

"Now, I'd like to pivot to affordable housing statewide. Even before the fires on Maui, our state faced an urgent shortage of affordable housing. Housing costs in Hawai'i are among the most expensive in the nation. Our state is such a desirable destination, and such a profitable investment for so many, that people from around the world have purchased property to hold as investments or rent as short-term rentals to visitors, making on average, and these are individuals who invest, four times what they would if they rented the property simply to one of our local families.

"Right now, 52% of all short-term rentals in Hawai'i are owned by non-state residents. And 27% of short-term rental owners own 20 or more units. Take a minute to digest that, 52% of all short-term rentals are rented by people outside of Hawai'i and making four times as much as if they were renting to someone that we love who lost a home.

"Now, our housing crisis affects not only low-income families because there are so few houses, but it also affects middle class residents who earn too much to qualify for any help but too little to afford to buy or rent in this current housing market. Local families are being squeezed out of our housing market as 30-year mortgages approach 7% and the median home prices are absolutely way too high for most.

"The process of building homes, which we're all committed to, has become so complicated and costly in our state over the last three decades, fraught with unnecessary bureaucracy, impossible permitting processes, and prohibitive zoning rules, that we had to take immediate action. Now to do that, I signed the Emergency Proclamation Relating to Housing on July 17th last year, and I appreciate your patience. This proclamation formed a committee of our state's leading housing experts, and it empowered them to cut through the red tape and approve new housing projects more quickly and easily. We immediately approved 10,800 new units of low-income housing for struggling families. And now we have turned our attention to approve affordable housing projects in urban Honolulu and along the growing rail.

"Now, make no mistake, I know I ruffled a few feathers when we took this action, but we have to provide housing for our local people. So, in October, I listened to the environmental leaders across our state and issued an updated Proclamation Relating to Affordable Housing, allowing us to build more affordable housing while protecting precious natural and cultural resources, preserving the process, and preserving the unique character of all of Hawai'i. I am grateful for their input.

"And since then, we have begun to reform our housing bureaucracy. We have approved or accelerated multiple new projects and will bring thousands of homes to teachers, nurses, firefighters, working families all across our state in the coming years. Now, our supplemental budget for fiscal year 2025 alone places a emphasis on infrastructure and housing, with requests to the Legislature of up to \$373 million. This remains our administration's top statewide priority.

"But we have to have an honest moment here, building alone will not solve our housing crisis. We need to find new ways to make buying or renting a home more affordable in Hawai'i. We have to take further action to return the thousands of short-term rentals that I mentioned earlier to the local housing market. A challenge of this magnitude will require multiple solutions and approaches, there is no silver bullet.

"Now, what can we do? Greater enforcement of the laws we have regulating short-term rental markets are important. Tighter restrictions and tax changes are likely necessary. And emergency measures that we've been taking will be impactful. All of these can and should bring to bear the necessary sanity we have to have for our local long-term housing market for our own residents.

"Today, I am humbly calling on my colleagues here at the Legislature to help us by implementing new policies and reforms which will return our housing units to the long-term rental market for our people. This will increase supply and bring down prices in our local market, which is artificially and unfairly inflated by the global demand from visitors to our state. I will sign into law any bill the Legislature sends me that will help move short-term rentals and vacant investment properties owned by non-residents into our local housing market. This will increase supply and bring down costs for our families.

"In addition to this effort, my team has crafted what we feel will be a landmark piece of legislation, and I want to explain it to you right now. This piece of legislation will provide tax amnesty, tax amnesty, to any owner of a short-term rental who chooses to sell it to help us with our housing crisis. A sale of this kind, to an owner-occupier local family, or to someone who turns the home into a long-term rental for a local family, will be exempted from capital gains tax, conveyance tax, and general excise tax. This program we're calling House Hawai'i's 'Ohana is a plan that would start in the fall, when you give it to me, and last 24 months. During this tax amnesty period, I'll personally encourage short-term rental owners from around the world to sell their properties back to Hawai'i families.

"Let's talk a little bit about the cost of living. Families in our state struggle to make ends meet. Despite working multiple jobs, more are living paycheck to paycheck than even before the pandemic. Forty-four percent of all families in our state are ALICE families, barely getting by. And 63% of all Hawaiian families fall into this same category. I'll say that again, 44% of all of Hawai'i's families are living paycheck to paycheck and 63% of all of our Hawaiian families are falling into this category. This has to change.

"The cost of living in Hawai'i is simply too high, especially the cost of buying or renting a home. There are still too many local families who are moving to Vegas to seek affordable housing, lower cost of living. We have to find additional ways to reduce the cost of housing, food, health care, and really just make all of Hawai'i more affordable for our people.

"I'm grateful for what the Legislature did last year. In last year's legislative session, we introduced and passed phase one of our affordability plan, which in the first year alone provided \$104 million per year in direct income tax relief to Hawai'i's ALICE families. This phase one of the tax relief package supported working families by doubling, essentially, the earned income tax credit and our food tax credit. That was great work by Speaker and Senate President and all of you.

"The next phase of our plan, however, we need to go further and provide more tax relief for families that are struggling, including a child and dependent tax credit totaling about \$87 million annually. Why is this important? It's important so that working families with *keiki* can afford to live in Hawai'i, and so that the next generation will have a future here.

"We are also planning, through our proposals, to index the state's tax code to provide all taxpayers some modest relief from inflation. We have to do this, it's long overdue. And this change which will help people in every tax bracket, which I think will benefit all the families of Hawai'i. So, in summary there, it's critically important that in this legislative session, we move forward with this next phase of our Green Affordability Plan to further relieve the tax burden across the board.

"Now I'd like to share what I feel about tourism and the economy. The rapid return of visitors to our islands, along with the influx of federal funds, helped Hawai'i and our economy surge after the initial impact of the COVID pandemic. Hawai'i's unemployment rate, you'll recall, spiked to 22.6% at the beginning of the pandemic. And it's decreased and stabilized since down to 2.9%, which is a testament to small business in our state. As of October last year, that's where we landed. This is the lowest rate of unemployment since the pandemic.

"But with the closure of Maui to tourism after August 8th, I was very concerned that the aftermath of the fires would devastate Maui County's economy, as well as impact our entire state's economy for all the families that we have. Thousands of jobs and small businesses were at stake on Maui. And I know this was difficult, it was an incredibly difficult decision to allow hotels to re-open while many who had been impacted by the wildfires still lack permanent housing. People were concerned that reopening was too soon, while many others believed that moving towards recovery was necessary. Most people felt the need to get back to work so their families could survive.

"But all I can tell you is this, I care deeply about every family in Hawai'i, I listen to people's concerns, and I am sensitive about their fears. But sometimes a governor has to make certain decisions that are tough and truly necessary for the health of our entire state. In conjunction with the County of Maui, we began a phased reopening of West Maui on October 8th. Currently, historic Lahaina, the town and the surrounding areas, of course,

remain closed out of respect for the residents and due to the continuing relief efforts. But the rest of Maui and our state is open.

"As a result of that decision, as difficult as it was, just two weeks ago the Council on Revenues readjusted our economic projection up from 1.3% growth to 4% growth. This adds almost \$500 million of revenue to our state so that we can take on the greatest challenges together, all of which will arise and revolve around housing our people and our survivors on Maui. That's why we made those decisions and I just wanted to tell you from my heart, that's how we came to that decision together.

"It has been a rollercoaster ride since COVID, with the economy rising and falling, and the crisis. And I know that that's made your jobs extremely difficult, including appropriations and plans for the future. Last year, I made some budget cuts through line-item vetoes. I hope I did it respectfully enough. Saving us over \$1 billion dollars across the next two fiscal years, we were able to balance our budget, and more importantly, I believe, to preserve our entire \$1.5 billion rainy day funds. Now, these cuts, plus the positive projections for our economy, will now allow us to invest more on critical issues like access to health care, affordable housing, and homelessness. So, thank you very much for understanding those tough moments.

"Homelessness. Just over a year ago, when we came into office, we faced the second-highest per capita homeless rate in the country. A 2023 census of our homeless community found that 6,223 people in our state were living without a home. Our state's rate of homelessness of 43 per 10,000 is more than double the national rate of 18 per 10,000 for many reasons. Many in our homeless community struggle with mental illness and addiction. And, of course, they suffer on the streets and face a much shorter lifespan, averaging only 53 years.

"Our team took immediate action, with your guidance, to reduce homelessness with real solutions. And I have made it our goal to reduce homelessness by 50% within four years. Now, on January 23rd last year, right at this State of the State address, I signed an Emergency Proclamation on Homelessness to cut through some of the red tape that was preventing the much-needed action we had to take, allowing us to begin rapid construction of up to 20 *kauhale* villages statewide in the coming years.

"For those who haven't heard before, *kauhale* are communal villages, modest housing units in them for homeless individuals and small households. They provide shared space for cooking, eating, and recreation, growing food, or engaging in community activities together. When a person is in a *kauhale*, their suffering drops, their lifespan increases back to normal, and their costs drop 70%. This is the reason it's both smart fiscally and the right humanitarian action to take.

"In May, we opened the medical respite *kauhale*, Pulama Ola, in partnership with Project Vision and HomeAid, to care for the homeless on our streets as they were coming out from the hospitals as patients recently discharged. Located literally in my back yard, between the State Capitol, Queen's, Department of Health, and Washington Place, we placed Pulama Ola, and it was a great success. We expect several new *kauhale* to open in the coming months, including one just down the street. I will tell you that *kauhale* are going to revolutionize how we deal with homelessness. And right now, I'd like to recognize Project Vision's leader Darrah Kauhane and HomeAid's director Kimo Carvalho, along with all the great people on their teams, we couldn't do this without you. Please stand and be recognized, guys.

"I'd like to also again thank the Legislature for approving \$15 million last session for *kauhale*, and \$33 million this year. It was very thoughtful, thank you for that. We extend our deepest *mahalos* to James Koshiba, Nani, and all the others who led this effort with such heart and thoughtfulness over the last year. And now we place our trust in John Mizuno, a friend and legislative colleague. Where is John? House, you can kick the crap out of Mizuno now in my administration as you wish. He is joining me and our administration after decades of friendship and commitment. I can't wait to see this mission completed with John at our side. Thank you for sharing him with us. So, as we continue to invest in permanent solutions that create spaces for our people to be housed and healed, you're going to see the results of it. So, thank you again everyone, you've been amazing on that front.

"Now, let's turn to health care. For years, our state has struggled with a severe shortage of doctors, nurses, and other healthcare professionals. So, on September 9th, we announced a groundbreaking loan repayment program to address this crisis. Developed by JABSOM, the Healthcare Association of Hawai'i, and Hilton, State Department of Health, and my team, and funded by you, the Hawai'i Education Loan Repayment Program, or HELP, provides now an unprecedented \$30 million over these first two years in educational loan repayment to health professionals to bring them to and keep them in Hawai'i.

"Now why do we do this and who does it help? A diverse list of healthcare professions qualify for loan repayment in our state of up to \$50,000 per year, some who owe \$400,000 or \$500,000 of debt, in exchange for a minimum service of two years while they are getting into practice and caring for the patients that need them the most. And so, these scholarships are targeted to providers who care for those who are low-income patients, usually on Medicaid.

"The scholars alone in our first batch, and we've received thousands of applications, will touch 750,000 of our citizens because of your wisdom in passing this legislation and funding it. We've already received, like I said, thousands of applications with deep ties to our state. This is just weeks into its initial stage, and we've already announced our first 585 HELP healthcare champions.

"As I listen to the concerns of the large freshmen class coming in, they were focusing on mental health care, as we all have been worried about for so long. So, this year we're placing an extra emphasis on selecting mental healthcare and addiction treatment professionals to address the heightened concerns we've seen and have arisen since the COVID era and the disaster on Maui. This initiative will help ensure that rural and under-served communities across our state have access to the healthcare providers that they need. And within five years, Hawai'i will be the only state in the nation without a shortage of doctors, nurses, or social workers. Again, an initiative of this sort helps to bring an end to the healthcare disparities that many of our communities have suffered for too long.

"A few days ago, I met a young doctor who shared with me that she's about to complete her training in pediatric psychiatry. Because she received the HELP scholarship, she'll be able to begin her career in Hawai'i and settle here for good. Now, she grew up in Hawai'i and is still with her high school sweetheart. And now she'll be able to deliver a lifetime of care to local families instead of moving to the mainland to practice medicine.

"Last year we also strengthened our healthcare system by investing hundreds of millions of dollars in needed improvements in rural facilities across the islands. These investments also will help us extend our commitment to care for historically underserved communities and those who suffer health disparities. And I'd personally like to thank the WAM chair and the FIN chair for making that possible. Thank you guys, you're wonderful.

"In summary, lots of communities need help. But the Native Hawaiian community has been most likely to experience chronic disease ten years earlier and passing away an average of eight years earlier, shorter lifespan compared to other populations. So, as we pass these programs, we are addressing past injustices and ongoing disparities that impact our Native Hawaiian community. This will also be partnered with the work that we're doing with the Department of Hawaiian Home Lands, which the Legislature saw fit to approve \$600 million, and speed the provision of homestead lands to thousands of Native Hawaiian beneficiaries. Housing and health care go hand in hand. Thank you for that extraordinary work.

"Let's talk briefly about gun violence. Gun violence has been a growing problem in Hawai'i and across the country. The tragic shooting of 17-year-old Richianna DeGuzman moved us to take greater action. We hosted our state's first significant gun buyback event in decades on October 21st of last year, and it was an unprecedented success.

"In just a few hours, the Departments of Law Enforcement and Public Safety got almost 500 firearms off of our streets in exchange for Foodland gift cards, with no questions asked, no ID required. It was something to behold. We collected ghost guns, sawed off shotguns, semi-automatic weapons. We collected an uzi from the streets. And I've asked the directors of these departments to continue holding gun buyback events on a regular

basis to get more guns off of our streets. This initiative, along with our commitment to creating safe places from guns and signing key firearm legislation, will make our communities safer and protect our *keiki* from deadly violence.

"But it didn't stop at that one tragedy. Gun violence reared its ugly head again just weeks ago when a disturbed individual, a felon, shot a woman and then went on an island-wide rampage that seriously wounded two of our brave police officers, both of whom, thankfully, will survive. We must do more to protect our communities from the threat of violence from those who have no business possessing firearms. I will not let this issue divide us. It means taking lots of action on both sides of the political ideology. It means incarcerating violent criminals, preventing unstable people from having guns in the first place, and finally providing much more healthcare access to those suffering mental illness or drug addiction, which is too often linked to such tragedies. Thank you for helping me protect our *keiki*.

"Education. Our commitment to public education was demonstrated with your support this past April when we successfully negotiated a new four-year contract with Hawai'i teachers and the 13,500 that they represent. The contract, which was the first thing we prioritized, was important. It provided substantial pay raises for new hires and bonuses for experienced professional teachers. And it has paid dividends already. I want you to understand how successful it's been. We are now seeing far fewer teachers retire and far fewer teachers leaving the classroom. We slashed the teacher shortage by more than 50% in a single year.

"Investing in education will help our *keiki* to succeed, so we have requested more than \$125 million to support Hawai'i's public schools, we thank the Education chairs with our full heartfelt appreciation, because you're including substantial funding for the Department of Education. And it's not just the classroom, it's also food service and transportation. All of this is education for our *keiki*. So, I wanted to thank you.

"And now I wanted to take a moment to commend someone else. I wanted to take a moment to commend Lieutenant Governor Sylvia Luke, for her extraordinary work on early education. Please stand, Sylv. Many people across our state asked me to partner with and utilize our lieutenant governor's talent and capacity as a real partner, and I took that advice to heart. We are friends and we're colleagues, and the work she is doing to make preschool available to all of Hawai'i's young children will have a profoundly positive impact on our state for generations to come. Thank you, LG, your great work on this and many other initiatives is recognized and critical.

"Let's turn our attention to climate change and the environment. As caretakers of our islands, we are committed, across the board, to pursuing climate change strategies that are equitable and culturally responsible. Hawai'i must continue to invest in a sustainable culture, renewable energy, and reduce our dependence on fossil fuels. This is why I joined the U.S. Climate Alliance, a bipartisan coalition of 25 governors, securing America's net-zero future by advancing state-led, high-impact climate action.

"Now, we have to do more to protect our beaches in Hawai'i, and our parks, and our natural treasures from extreme weather which is fueled by climate change, without raising taxes or fees on Hawai'i residents. Let me talk to you about how I hope we can do this. This responsibility to protect Hawai'i's unique natural environment should extend to visitors to our islands. We've had some discussion about this and I'm excited about this session coming up. A climate impact fee on visitors would provide needed resources to protect our environment and increase awareness of the impacts of climate change.

"This legislative session, I will renew our efforts to pass a climate impact fee to help us stare down the terrible impacts of climate change. Last year, it stalled a little bit, but imagine how helpful that program would have been to address the disaster on Maui, had we had it. We need to do a little better this year. So, today I'm simplifying the proposal, I'm proposing a \$25 fee on visitors when they arrive and check into a hotel or a short-term rental. We already collect fees for travelers, this modest fee, far less than the resort fees or other taxes visitors have paid for years, will generate approximately \$68 million every year from visitors.

"We'll invest these funds the way you feel we should invest them. We'll invest them for beach preservation, for fire breaks, and other prevention

measures to help avoid tragedies like the one last year on Maui. So, I believe, in my heart, this is not too much to ask of visitors to our islands. Now, I am open to any other proposals that would achieve the same goals, including an increase in the transient accommodations tax, don't have a heart attack Jerry or Mufi or anyone. We'll find a way to compromise on these issues. Because as you can see, we are here surrounded by everyone who cares about the state, whether they have one position or another on an issue doesn't mean we don't come together. So, we pass this fee to preserve our natural resources, our beaches, our forests, our waterfalls. This is an essential part of our culture and our way of life. This climate impact fee would help us protect them. So, thank you for considering this proposal. I know it will help our state.

"Red Hill. We have already made important progress on draining the fuel from Red Hill so it can finally be shut down for good. The military began removing the fuel on October 16th, more than five months ahead of schedule, and have already drained 104 million gallons from the tanks, which is 99.5% of the total. Now, the goal of the Red Hill Task Force is to remove all of the fuel, and the last 0.5% of the fuel will be removed in the early months of next year. Then we will close the facility permanently, so that it never again poses a threat to our health or to the safety of our water.

"I need to say *mahalo* to every environmental advocate, engineer, public worker, everyone who helped us achieve this victory at Red Hill, including our congressional delegation who brought hundreds of millions of dollars to the effort. We're going to continue to take every necessary action to protect our precious natural resources, especially our water, and to hold those accountable who have threatened them fully in the past. So, thank you everyone for coming together. And thank you Speaker and Senate President for bringing all of us together as one family on this issue.

"A few new opportunities. With heavy focus this year on Maui's recovery, affordability, and housing, it would be easy to forget to mention other important opportunities for our state which will help us diversify our economy. This year we launched the Aloha Stadium proposals, finally, so, we'll move forward on the stadium. We opened high level discussions with Japan to create an open travel corridor between Japan and Hawai'i. And we are actively seeking right now to expand our state's film industry, with a greater emphasis on local production and developing our own kids to become film professionals.

"We'll invest in sustainable agriculture, as you saw with the action on Act 90, with a special thanks to Senator Lorraine Inouye, so that we can bring more food security to our state. And we'll also prioritize energy research and development, with the goal of becoming a hydrogen hub someday in the future. We've already begun important discussions with some experts in Japan to partner with our own university and provide new pathways to fully sustainable energy state for our beautiful Hawai'i.

"And then finally, our Board of Regents will select a new University President in 2024, and I will continue to rely on UH to help us drive economic innovation. These are important moments that we can all celebrate in the coming year.

"Finally, our path forward. We will never forget the day that the fires took our loved ones and changed the lives of so many on Maui. The people of Maui have shown strength in the face of adversity, but the days ahead will not be easy, and they will continue to need our support. And we will be there for them as long as it takes. Over the past five and a half months, we have shown the rest of the country and the entire world the true spirit of *aloha*. That includes Saturday when Archie Kalepa brought so many thousands of people together on Maui.

"We've come together around our shared values and a common purpose to support Maui as they begin to recover and heal, to house our people, and to end homelessness. And finally, to make life in Hawai'i more affordable, so that our next generation can build a future here at home. Again, I want to express my deepest gratitude to the people of Hawai'i for your resilience and your commitment to each other. It is an honor to serve as your governor. *Mahalo and aloha.*"

President Kouchi then rose and stated:

"Thank you, Governor Green. I'd like to take the time to offer a few thank yous before adjourning. Last Wednesday, when I gave the remarks in the

Senate Chamber, I was a little overcome by the overflow crowd, the spirit, the optimism. And again, as I look at the floor here on the House of Representatives filled and the gallery full, I would be remiss if I didn't say to Speaker Saiki, during the pandemic, thank you for the leadership he showed in putting together the two vaccination clinics with Doctor Green, Queens Hospital, at the Blaisdell Center and with Ray Vara of Hawai'i Pacific Health, the largest vaccination center over at the pier, so that we have been able to achieve a lot of the numbers that the Governor has talked about. Thank you.

"Before you guys get excited, I was sitting there watching the House present a lei to the lieutenant governor, to the chief justice, and to Chair Lindsey, and I got no lei. And I said, this is how rumors start. So, I want to be clear, one of the cigar leis I'm wearing was presented to me as I was entering. In a loud voice they said, welcome to the House of Representatives. So, I did get my lei early, so the thank you is heartfelt, Speaker. And then I have just one more quick thank you and I'll hit the gavel and we can all go about. Senator Dela Cruz, whatever OHA wants.

"The last thank you is to Chad Buck. As everyone rallied in the state to come forward to help Maui, members of the Legislature and our staff put the word out for collection at the Father Damien statue. And we were overwhelmed by the generosity of the people of O'ahu. All of the area that you're sitting in, all of the area in the Senate Chamber gallery, hallways in the basement, conference rooms were filled with the outpouring of love from the people of Hawai'i.

"And Chad Buck sent his employees and his trucks to load everything that was collected and take it to the pier. On the other end on Maui, his employees and trucks were waiting to take everything off of the pier and have it distributed. When Senators Kidani and Dela Cruz put together a drive out in the Mililani area, he again deployed his employees, his trucks. Everything that he did, we had asked him to track and submit receipts, whether it was by the State of Hawai'i, the County of Maui, or FEMA to be reimbursed, and he did not submit a single receipt for reimbursement. It was his donation to the people of Maui and the people of Hawai'i. Thank you, Chad, again.

"I don't know if Governor Green has a great lunch prepared, but I'm going to find out. I declare this joint session adjourned."

"I'm in support, sir. This is the time when the majority reminds the minority, hey, this is second reading, you don't have to speak on this bill. Well, this is also the time that the minority says to the majority, hey, this is when the good, bad, and the ugly are pointed out. And this is one of the good ones.

"This is a good bill. It says, using what we have as a land resource on existing properties with infrastructure, we can build ADUs by giving the loan. The only difficulty I have, and my reservation would be, given that it's a loan and it's at market rates, do you know what the market rate is now, Mr. Speaker, 6%, 7%, \$300,000 loan, of which this is the cap, you're barely going to make your rent to pay your loan off. That is not an incentive.

"I understand there's another bill from a guy from Hawai'i Kai that says, we will match you \$1 for your \$1. And ADUs only cost \$100,000, generally speaking, where they can actually rent it out and incentivize themselves to get their money back. Because right now, from a business point of view, from an economic point of view, from an entrepreneurial point of view, the structure of the incentives just don't say I'm going to run and build an ADU. But the ADU is really the secret, one of the silver bullets to solving the housing crisis. And I know for Maui in particular, there's a bill that says, for every dollar a Maui person puts in, the government will put in \$3, so we can get Maui back up and running. Otherwise, this is a good bill, it just needs to go a little bit further. Thank you, Mr. Speaker. I congratulate the author."

Representative Garcia rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. Mr. Speaker, increasing taxes is not the solution to solve Hawai'i's problems. A bill similar to this passed in 2018, which was ruled invalid by the Hawai'i State Supreme Court in less

than one month prior to the 2018 election. And even if this time the wording is different, it's still a creation of a new tax. Revenue is not the problem. It's the careless stewardship of tax dollars that's the problem.

"We don't have enough money for education. Really? The DOE forfeits hundreds of millions of dollars by mistake. The superintendent, who makes \$240,000 a year currently, is being considered for an increase to \$350,000 a year. Government is not the answer to our problems. Government is the creator of these problems. Stop increasing Hawai'i's cost of living. *Mahalo*."

Representative Alcos rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Pierick rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition. Mr. Speaker, this bill is the county being usurped by the state. We want to get in on the property tax issue. The Constitution was very clear, and the founders of the State of Hawai'i, and the founders and the writers of the Constitution of the State of Hawai'i were very clear. The right to tax property is that solely of the counties.

"We are aggressive. We are greedy. We are the ones who need all the money. And we say, well, we can overstep them because we're going to tax the rich who've got \$300 million houses. Mr. Speaker, there's a separation of state and county, and this thing goes over the line and it's a very bad precedent. In fact, we even open up the precedent, I think last year or the year before, we're allowing the counties to do their TAT. Sometimes we're going to have a Maui or a Kaua'i or a TAT that hits the roof. And we will have no control over it because we've let this genie out of the bottle. And taxation, you know, there's no limit to what we need in terms of funding government. There's no limit to what we need to just tax a little bit more, a little bit more.

"Which brings me to the conclusion of my speech. And that is, Mr. Speaker, we cannot keep slicing the pie thinner and thinner. Governor stood there the other day and said, 44% of all the Hawai'i families are ALICE families, asset limited income challenged earners, the working poor. Then he threw a real bomb and he said 63% of the Hawaiian families are ALICE families, the working poor, 63%. So, my question is this, Mr. Speaker, what the hell are we doing here, if we're not getting people jobs to get the money, instead of just slicing the pie thinner and thinner and giving you a tax break for this, giving you a tax break for that? Let's get them ready to have jobs that make money, they can put a roof over their head and they could put food on their family.

"This is just another grab in this bill, to say we're going to tax you more and we're going to give it to the state rather than to the counties. And the state needs to get an economy that's diversified. The state needs to get an economy that will put food on the table for these ALICE families, 63% of the Hawaiian families. Mr. Speaker, that's embarrassing. All of us should be embarrassed. One of our communities, 63% of the people cannot afford food or rent over them. We are not doing our job, Mr. Speaker. Having said that, I have no strong feelings about this bill."

Representative Woodson rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. This proposal simply proposes a constitutional amendment for properties over \$3 million. One of the previous speakers indicated that our superintendent is paid perhaps too much, when in fact, he's paid actually less than what you see in comparable school districts. And it is also not true that the DOE actually forgoes lots of money each and every year. That is just an inaccurate statement. And for these reasons and others, I humbly recommend that we continue the proposal just to see if our other colleagues will support it as we move on through this session. Thank you."

Representative Perruso rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. And I appreciate the comments of the previous speakers. In strong support. So, I would just like to note that this measure would impose a property tax surcharge on non-owner-occupied residences valued at over \$3 million. And that those moneys would be used to fund not

just our Department of Education but our P20 system. So, funding for our pre-K through support for our university undergraduates.

"And I also want to speak to a couple of assertions that were made. The first is that there's a clear distinction and demarcation between the responsibilities of the counties and the state. We have overlapping areas of responsibilities. And in this particular area, the counties used to carry the responsibilities for facilities and transportation. They no longer contribute in any meaningful way to our public school system. This measure would change that by changing the Constitution. The Constitution is a living document. If it were frozen, we would see, I think, massive unrest. Amending the Constitution gives us a chance to change the structure of government.

"And I think another important assertion to address is that there is not already shared responsibility. So, it's my understanding that the counties enjoy access to GET funds, TAT funds. So, we are already sharing in these revenue-generating mechanisms. And this provides us another way to actually address this question of speculation in the islands by folks who, for the most part, the data shows, primarily do not live here. So, to use those funds to support our public education systems, I think is a valuable proposition. *Mahalo.*"

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Mr. Speaker, this measure would look at taxing properties over \$3 million. We can go even higher. Let me share with you a property that was sold in October 2023 in Park Lane, Ala Moana, according to the Honolulu Star-Advertiser, an unnamed wealthy buyer recently paid \$27.5 million for a penthouse condominium in Honolulu, eclipsing the peak pay for that same property of \$22 million when it was first sold six years ago new.

"Mr. Speaker, my husband and I scrimped and saved for over 15 years to buy a little piece of air in the sky that is valued under \$600,000. You can see that in my financial disclosure, maybe it's around \$700,000 now. This measure would not affect us. This measure is going to affect the wealthy, the uber wealthy that are purchasing, for the price of paradise, properties that are over millions of dollars. Not our local family, not our local people.

"So, if this is a measure that can be crafted and properly get at these unnamed wealthy buyers purchasing penthouses for over \$27.5 million, yes, let's do that. Let's consider that as an option for our public school students, for our public school teachers, for our public work employees, who day in and day out work to make the ALICE wages that they are desperately trying to make so they can afford a little piece of pie in the sky that is valued at under \$1 million, far under \$1 million. Thank you, Mr. Speaker."

Representative Amato rose in support of the measure and asked that the remarks of Representatives Belatti and Perruso be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Kobayashi rose to speak in support of the measure, stating:

"Mr. Speaker, in support. A point of clarification. This bill says that public funds may be appropriated but may not be appropriated for the support or benefit of any sectarian or nonsectarian private educational institution. But then it goes on to say, except that proceeds may be appropriated to finance or assist nonprofit corporations, nonprofit private and sectarian and nonsectarian schools, colleges, and universities. I believe that's a contradiction. I am also not sure that the DOE is a nonprofit organization. Thank you."

Representative Nakamura rose, stating:

"Mr. Speaker, I'd like to remind members that this bill is up for second reading and there are two additional committees that will be reviewing this bill. So, just want to remind members that there will be further discussion on this measure."

Representative Souza rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support, and I would request that the words from the representative from Makiki be inserted into the Journal as my own. Thank you," and the Chair "so ordered." (By reference only.)

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Kong rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ward rose, stating:

"Mr. Speaker, it's more of a point of order. Basically, it was in response and in reciprocal relationship to the majority leader who said, hey, this is only second reading. In my speech the other day, I said, remember, hey, minority, you guys are speaking on second reading. Well, the point is, majority, to remember that second reading is a way to flag what is the good, bad, and the ugly, and this is not one of the better-looking bills.

"The point is to catch these things early rather than say, at third reading. Third reading is like, boom, it's over with. The point is, we are a deliberative body. First reading is a giveaway. When people say, oh god, bill passed the first reading--"

The Chair addressed Representative Ward, stating:

"Representative Ward, I heard your point of order."

Representative Ward: "You heard the point of order. The point is to speak pejoratively against second reading, I take personally. And I think in the democratic process, it's out of order. Thank you."

Representative Garcia rose to respond, stating:

"Thank you, Mr. Speaker. Still in opposition. It was mentioned that this is just for the rich and for those who don't live here. I hear lots, tax the rich, tax the rich. Well, that's not going to solve Hawai'i's problems either. They say it's only for properties valued over \$3 million. Well, if you just look back 20 years ago, lots of properties which are currently valued closer to \$2 million was below \$1 million. So, in 10, 15, 20 years, a property value right now, if we continue in this direction of taxing the rich, taxing the rich, in 20 years, these \$1 million houses will end up being \$3 million and everyone's being taxed. No vote."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1537, HD 1, entitled: "A BILL FOR AN ACT PROPOSING AMENDMENTS TO ARTICLES VIII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY TO INCREASE FUNDING FOR PUBLIC EDUCATION," passed Second Reading and was referred to the Committee on Judiciary & Hawaiian Affairs, with Representative Matsumoto voting aye with reservations, with Representatives Alcos, Garcia, Kong, Pierick, and Ward voting no, and with Representatives Cochran, Gates, Kapela, and Nakashima being excused.

Representative Ganaden rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. Potholes, broken street signs, consistent flooding. These are the kinds of things that we hear about all the time from our constituents, and that we often have to tell them that it's the responsibility of the county. I really commend the introducer and the previous committee for tackling this after many years. We have issues regarding private roads all throughout the state. This bill disproportionately affects working class communities and rural communities, where if we essentially force the hand of the county, we can really improve people's lives. Thank you."

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition. This bill takes away the court's authority to hold lawbreakers accountable. It removes all fines assessed to minors. I think we're sending a bad message here, that when you break the law there's no penalty attached to it. And one issue was brought up in committee that, well, there are families who can't afford these fines. Well, the court already has set precedents where, if families cannot afford, those kids and families can opt in for community service. So, it's a bill that sends the wrong message to our residents here in Hawai'i. No vote."

Representative Pierick rose to speak in opposition to the measure, stating:

"No. To reiterate the representative from Kapolei's perspective, this bill is going to repeal the curfew for children in Hawai'i. When I was going door to door in Royal Kunia, one of our constituents asked me to enforce curfew, because sometimes the kids get rambunctious at night. So, we want to make sure that our communities are safe.

"And to reiterate the topic of fines, if somebody is going to commit a crime, they should prepare to serve the time, or in this case, pay the fine. So, I believe that fines are smart in punishing children for doing wrong. As a child being raised in Hawai'i, my parents punished me by fining me when I

did something wrong, and I think that's something that the rest of our children should experience when they break the law."

Representative Quinlan rose to speak in opposition to the measure, stating:

"In opposition. I have stumbled upon a very simple method to avoid fines and court costs. Don't commit crimes. Thank you."

"Thank you, Mr. Speaker. In strong support. The data shows, and we do have national and also Hawai'i-specific data that shows that when we do work around the juvenile justice system and seek to address the causes of juvenile engagement with the justice system rather than creating a more strict penal system, we also help to address the school-to-prison pipeline. And I think that it is in the best interest of all of our communities that we do that work as soon as possible."

Representative Kila rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Gates rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Holt rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Garcia rose to respond, stating:

"Still in opposition. Once again, bad precedent, and we're sending the wrong message. It was mentioned that once again, families who can't afford these things are normally Hawaiian families. I think that's not the right notion to mention for these issues. Once again, the message must be clear that when you break the law, there needs to be a penalty paid. And it makes no sense why just because they're minors, they cannot pay fines. It's called teaching children lessons. You break the law, you pay the fine."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2722, HD 1, entitled: "A BILL FOR AN ACT RELATING TO YOUTH FEES AND FINES," passed Second Reading and was referred to the Committee on Judiciary & Hawaiian Affairs, with Representatives Alcos and Matsumoto voting aye with reservations, with Representatives Garcia, Gates, Holt, Kila, Kong, Pierick, and Quinlan voting no, and with Representatives Kapela, Nakashima, and Ward being excused.

Representative Souza rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ganaden rose to speak in support of the measure with reservations, stating:

"Same request, Mr. Speaker. After the Lahaina fires, many residents were concerned about advertisements from outside law firms working with local counsel to represent victims of the fire. This rule, I think, would better be handled by rules of the Supreme Court and by rules that govern attorneys. For that reason, I'm going to be voting with the reservations."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2570, HD 1, entitled: "A BILL FOR AN ACT RELATING TO ATTORNEYS," passed Second Reading and was referred to the Committee on Finance, with Representatives Ganaden and Souza voting aye with reservations, and with Representatives Kapela, Nakashima, and Ward being excused.

Representative Pierick rose to speak in opposition to the measure, stating:

"No vote. This bill establishes the Daniel K. Inouye College of Pharmacy Special Fund to support pharmacists, workforce assessment, and planning efforts. I think public education is a great idea. I think we should fund people getting smarter. At the same time, there are a lot of smart people in our state without college degrees. We can include truck drivers, plumbers, waitresses, and other service jobs that don't require degrees. These people would be paying taxes towards other people benefiting from a college degree.

"So, I think we should be fair and allow people to pursue education, but in a private capacity. There are members in this body that support scholarships. They use their own funds to create scholarships for private schools, even in the Senate, that happens. So, I support school that is in the private sector where people have to get it without using tax dollars, but just get it because they can apply for a scholarship or things like that."

Representative Kong rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Alcos rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Perruso rose to speak in support of the measure, stating:

"In support. Just to clarify, this measure simply creates a special fund and creates a mechanism whereby pharmacists, like many other folks in different medical professions, can collect fees, professional fees, so that they can strengthen and enhance the work of their profession. So, it does not levy a tax on the general public or in any way further burden the general public."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2113, HD 1, entitled: "A BILL FOR AN ACT RELATING TO PHARMACY," passed Second Reading and was referred to the Committee on Consumer Protection & Commerce, with Representative Alcos voting aye with reservations, with Representatives Garcia, Kong, and Pierick voting no, and with Representatives Kapela, Nakashima, and Ward being excused.

Representative Pierick rose to speak in support of the measure, stating:

"In support. This bill appropriates funds to the Department of the Prosecuting Attorney of the City & County of Honolulu for the Career Criminal Prosecution Unit. I believe our law enforcement officers need to be well funded and our prosecutors need to prosecute. Right now, we've got criminals roaming the streets that aren't being prosecuted. The police detain them, the prosecutors don't prosecute, and then the judges let them go. So, I hope that these funds go towards hard prosecutions."

Representative Ganaden rose to speak in opposition to the measure, stating:

"No vote, Mr. Speaker. It's been in the news, pretty thoroughly, the differences in opinion in the ways that crime should be prosecuted between the State and the Office of the Prosecutor here in Honolulu County. The prosecutor has declined to prosecute any state crimes, and now they are asking for an increase in funding for career criminals. I don't think that this would have stopped the career criminals like the Kealohas or numerous other individuals that have operated throughout our community with impunity. I think that this is a matter of priorities with the prosecutor, and they have ample funding to prioritize career criminals if they wish to do so."

Representative Perruso rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. So, let's say they start at 60, retire at 65, and live to be 80 years old, they're going to get a pension for 15 years. That doesn't seem fair when it comes to *quid pro quo*. They should put in the work and then get the pay. I don't think five years is long enough to get a pension."

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Pierick rose to speak in opposition to the measure, stating:

"No vote. So, this bill prohibits the sharing of personal information of clerks, election officials, and election workers for the purposes of intimidation, threats, harassment, or abuse. The intent of this bill is very good. However, I think it's aiming at the wrong issue at the moment. I think the goal should be to clean up the elections in Hawai'i versus putting more protections on the election officials. If the election official is threatened, there is already a protocol--"

Representative Quinlan rose to a point of order, stating:

"Point of order, Mr. Speaker. We have exceptionally clean elections in Hawai'i."

Representative Pierick continued, stating:

"I believe there's a current process. If the election official feels threatened, they can contact law enforcement to have protections given to them and reinforced. Thank you."

"Just a point of interest. The governor of New Hampshire, his cell phone number is of public information. My cell phone number is on the internet. So, as far as creating protections for public servants, I think their information should be out there for everybody to contact them. And if you're involved in the elections, I don't think that it should be a sacred, a secluded person doing that."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1786, HD 1, entitled: "A BILL FOR AN ACT RELATING TO ELECTIONS," passed Second Reading and was referred to the Committee on Finance, with Representatives Garcia and Pierick voting no, and with Representatives Nakashima and Ward being excused.

Representative Pierick rose to speak in opposition to the measure, stating:

"No vote. This bill would basically change things in the Hawai'i penal code. If this is going to make punishments harder, I'm in favor of this. But because there's a movement in our state to decrease punishment, I don't think this bill is probably going to lead our state in the right direction."

Representative Souza rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. This bill is meant to review the penal code and make a determination if there needs to be updates or changes to the penal code. So, I'm not sure what the previous speaker was talking about. Thank you, Mr. Speaker."

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

"In opposition. Gender should not be considered in the recruitment process. May the best person who is qualified, regardless of their gender, get the job. No vote."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. The bill establishes, as a goal of the state, the increased representation of female law enforcement officers in the state by 2030. So, if that would look like increased pay for women, then there's a pay disparity. If they're not going to hire men because they haven't reached their female quota, it sounds like we're excluding males from being police officers. As the former representative mentioned, if somebody wants to be a police officer, let's let them be a police officer. The best candidate should be hired. Gender shouldn't be the main factor in law enforcement."

Representative Ganaden rose to speak in support of the measure, stating:

"In support, Mr. Speaker. I'm not sure what the previous speaker was referencing, but this bill supports police officers' current recruitment

strategies. There's a nationwide shortage of police and law enforcement. After testimony before your Judiciary Committee, we believe there are approximately 500 total statewide openings, including around 68 with the Department of Law Enforcement, just created two years ago, as well as 400 in county police.

"Recruitment is necessary to fulfill the needs of public safety. It is also the intent of all who testified to support female recruitment. We have seen when we get female officers, less incidences of officer-involved violence, better reaction to de-escalation techniques, and better work environments. It's one of the last places in the American workplace that hasn't been fully integrated. Thank you, sir."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2231, entitled: "A BILL FOR AN ACT RELATING TO LAW ENFORCEMENT," passed Second Reading and was referred to the Committee on Finance, with Representatives Garcia and Pierick voting no, and with Representatives Nakashima and Ward being excused.

Representative Souza rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill appropriates funds to the Department of Law Enforcement for the state's gun buyback program. I don't think we should be taxing people to create funds in a state budget that then buy people's

firearms. If people want to sell their firearms, they should choose to sell it, maybe on a legal market, and not have to burden the state with purchasing those guns."

Dozens of them were illegal, including ghost guns, several that had been fitted with silencers, sawed-off shotguns, and an Uzi. These are the kinds of things that we want to keep off the streets. We are not violating anyone's Second Amendment rights. We are offering them actually pennies to the dollar for what they could get probably on the black market, illegally, or in some other place. This is a public safety measure. Thank you."

Representative Marten rose to speak in support of the measure, stating:

"Thank you, in support. For HB 2473, Relating to Conservation Mitigation Programs, I wanted to clarify, maybe there are some misunderstandings among my colleagues about what this is. All this is, is when there is a project, like an airfield or a windmill or something like that, they are required by law, if they are going to have an impact on wildlife, to compensate by doing a project somewhere else. And at the moment, they often set up their own individual new projects. This would allow the DLNR instead to use that funding to support their ongoing projects so that they know that A, the project works, it will have the intended beneficial environmental outcome for the threatened species, and B, it's something that will be ongoing, that can be maintained beyond the time of the project. Thank you."

"Reservations, brief comment. I know it's only second reading, but I've had dear friends die on hiking trails. And many other people that I know have gotten stuck for hours and didn't call because they thought they were going to be charged more than they could afford for their life. I understand that this bill limits the fees to only people hiking on illegal trails, but I don't think that any life is less valuable for making that questionable choice. Thank you, Mr. Speaker."

Representative Pierick rose to speak in support of the measure, stating:

"In support. This bill extends the state's energy efficiency portfolio standards from 2030 to 2045. So, I understand that we shut down a coal plant on the west side of O'ahu in efforts towards making renewable energy our state source of energy. But when we look at shutting down our sources of energy, and then we're now changing our dates or targets for when we have these state efficiency portfolio standards achieved, we have to look at the rolling blackouts as our status reports.

"Rolling blackouts aren't determinants of success, I think they're determinants of failure. And so, I believe our body has failed to best regulate how we have energy in our state. If we're having rolling blackouts, we're not achieving our goal of providing our residents with electricity. And so, I thank the body for introducing this measure to extend those energy efficiency dates."

Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Just to clarify, the energy efficiency portfolio standards are pretty unrelated to either rolling blackouts or coal plant closure, the two of which are also not related to each other. So, just clarifying that. Thank you."

That has happened to me, in fact. And so, I think we need to continue this conversation, and this is a work in progress. In support."

Representative Lamosao's written remarks are as follows:

"The COVID-19 pandemic has caused a significant impact on Hawai'i households. A recent survey indicates that 43.8% of the population faced difficulties in paying their daily expenses in the last seven days, including those with higher incomes. Financial strain has affected 54% of those earning between \$100,000 to \$149,999. Families earning less than \$100,000 bear an unimaginable financial burden. These statistics are alarming and emphasize the need for comprehensive measures to tackle the pandemic's financial impact on people from all walks of life.

"The pandemic has disproportionately affected women, especially in Native Hawaiian and Pacific Islander communities. A recent survey conducted by the Hawai'i State Commission on the Status of Women and Ma'i Movement Hawai'i (November 2021 report) found that a significant number of female respondents reported severe financial burdens. This adds to pre-existing inequalities and highlights the need for targeted measures to ensure women have access to the resources and support they need.

"Unfortunately, research reveals that many women face additional challenges in their daily lives. For instance, 86% of females have started their period unexpectedly in public, and 34% have been forced to leave their activities to retrieve menstrual products at home. Additionally, 46% of women are afraid that asking for menstrual accommodations might negatively impact their career growth. These statistics are alarming and emphasize the need for comprehensive measures to address the challenges that women face, including access to menstrual products.

"Providing access to affordable menstrual products is crucial not just for basic hygiene but also for empowering women to navigate their lives with dignity and equality. Access to free menstrual products can significantly reduce the financial burden on women, leading to improved overall well-being and economic stability. This is a small but significant step towards creating a more equitable and just society for all.

"HB 2003 can play a crucial role in tackling the challenges faced by all women, including our mothers, sisters, daughters, and wives. Lack of access to menstrual products can lead to unsafe and potentially harmful alternatives that may cause medical issues and infections. Limited access to menstrual products is a public health concern, just like the lack of access to essential hygiene products like toilet paper. By taking small steps such as these, we can contribute to a more equitable and just society for all. Let's work together to ensure that women have access to menstrual products and can navigate their lives with dignity and equality."

Representative Amato rose in support of the measure and asked that the remarks of Representative Belatti be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Alcos rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Marten rose to speak in support of the measure, stating:

"In support. I just want to express my gratitude for the younger members of this group that have seen something is possible that my generation didn't even think of, a benefit for women. Thank you."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. So, as previously discussed, this bill would put menstrual products in men's restrooms if a unisex bathroom isn't available. I don't think our state needs to be striving towards unisex bathrooms. So, with that premise not being highly recognized, the goal of then putting menstrual products in men's restrooms I don't think is a good idea. So, I'm going to vote no."

Representative Souza rose to speak in support of the measure, stating:

"In support, Mr. Speaker. I think that everyone needs to remember that this bill is about accessibility, and that's pretty much the premise of what's going on here. So, thank you."

Representative Quinlan rose to speak in opposition to the measure, stating:

"With great regret, Mr. Speaker, a no vote."

Representative Gates rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Takenouchi rose in support of the measure and asked that the remarks of Representative Belatti be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Holt rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Kahaloa rose in support of the measure and asked that the remarks of Representative Belatti be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Perruso rose to speak in support of the measure, stating:

"In strong support. I'd like to adopt the words of the chair of Human Services as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Ganaden rose to speak in support of the measure, stating:

"In support, Mr. Speaker. I just wanted to be the only male standing in support here. I'm just surprised by the fragile masculinity in this body. It's really not that big of a deal. If you got to go in and pick up a tampon in a men's restroom and hand it to somebody else, really not hurting anybody. Thank you."

Representative Tam rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I just want to ensure that he's not the only one that stands up as a male to talk about this bill. Again, this bill is about access. I don't see any problem about providing it in a men's restroom. If I am walking with someone and they go into a women's restroom and they said that they're out of products there, I can easily go into a men's restroom to grab one for them, and I think that's a great idea. Thank you so much."

Representative Garcia rose to respond, stating:

"Still in opposition, Mr. Speaker. Maybe if the body would amend this in its next committee to include free shavers and shaving cream for men, perhaps condoms, *et cetera*, this is ridiculous. No vote."

Representative Kapela rose to a point of order, stating:

"Mr. Speaker, point of order. That is not relevant to this bill."

Representative Garcia: "It's a recommendation. Thank you."

Representative Tam rose to respond, stating:

"Thank you, still in support. I just want to clarify that men shaving their beards is very different than menstruating, so there's no comparison. Thank you."

"No vote. My understanding is that this bill would acquire property from the private sector and make it a public sector affordable housing project. If we look at the history of the state, a lot of our housing that comes from the government becomes less of a quality versus what the private sector can offer us. I think the private sector often supersedes what the public sector can offer us with regards to housing. So, I'm against spending millions of dollars to buy property so that the state can then rent it out."

Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Just to clarify, this bill would, there's already existing requirement under law for one EV charger per 100 stalls. This bill would just require that the stalls needed to be built where that project was taking place and couldn't be aggregated to another island or another location on the same island. So, it's good for neighbor islands. And

in addition, it would give counties the authority, which we think they may already have but they want a clarification on, and some counties have moved forward with this, but give counties the authority to require more EV chargers than the one that's required under state law. But it does not increase any requirements that are under state law."

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. But I just wanted to raise a few things I think everyone should be aware of. Part of this bill would allow Hawaiian Electric to take out, because they have a really bad credit rating right now, part of what this bill would do would allow them to take out a bond securitized by ratepayers, which means it would be backed by a new fee on electric bills. And that's a big ask. So, I just think everyone should be paying close attention to this.

"I had the Hawai'i State Energy Office look at some numbers they could try to ballpark for us of what it would cost, because Hawaiian Electric is saying they have no idea, they can't give us any numbers. And it would be, if it was kind of based on range of 5% to 6% interest rate, and looking at how Hawai'i Green Infrastructure Authority did something similar, if it was a bond for \$500 million, it would be between \$5.79 to \$6.39 a month on every ratepayer's electric bill. If the bond was for more, which is definitely not out of the realm of possibility, if the bond was for \$1 billion or \$2 billion, then those would be raised proportionally. So, you could double that to \$12.70-something cents on the outside, for a \$2 billion bond, we'd be looking at more than \$25 a month for every ratepayer.

"So, I just think everyone should be paying close attention to this bill and making sure that we're holding Hawaiian Electric accountable to answer our questions that we have about how they are going to spend the money if we authorize it, and what they are doing internally with their company to try to find savings and other means of addressing this issue. Thank you."

Representative Lowen rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations. This bill has, again, another really big give to the electric company and it has just a lot of big blanks in it. It's a board made of unknown membership, with an unknown number of members to be appointed by the governor. And it's requesting the state and the electric utility and other entities like private landowners put in unknown funds, amount of money, into this wildfire fund, which will help to offset some of the liability costs that potentially could be falling on the electric utility. And I just think, again, we should all be paying close attention because we're moving this forward and there's just a lot of blanks in this bill."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. My understanding is that this bill provides universal access to affordable, high quality health care and health insurance. This would mean a task force for that. So, if that would eventually become implemented, we would be spending taxes on universal health care. So, vegans and pescatarians, people that are stewarding their bodies well, they're exercising, they're getting a lot of sleep, their tax dollars are going towards people who are obese, getting a heart attack, other kinds of diseases. So, I don't think it's fair when we're taxing the healthy to provide health care for the sick."

"Point of order. I'm worried that this is shaming carnivores."

It's merely setting up a task force so that we as a state can continue a lot of the legacy with the Prepaid Health Care Act, but really looking at the various disparities of folks who are uninsured, who have costs, who have different preexisting conditions as well as chronic diseases and any other things that impact them. And so, it's just an improvement for quality and access to health care. *Mahalo*."

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition. Mr. Speaker, this bill, HB 2436, for medical care for minors. It allows a minor, any person between the age of 14 to 17, to consent to the provision of medical care and services. No consent of any other persons, that's parent, caregiver, or guardian, shall be required to authorize services. Information such as pregnancy or sexual health may, not shall, may be disclosed to parents, guardians, or caregivers at the discretion of a medical provider after consultation with the minor. Establishes policies and procedures between providers, covered entities, and minors to withhold information of medical services from parents and guardians based on the discretion of the minor.

"This is a blatant attack on parental rights, and it's sad to see that this seems to be the common thread through this legislature to attack parents, the family unit, and their rights. My question is, what happens if something dangerous happens, god forbid a minor dies, by consenting to a medical procedure, who is held liable if parents are not aware? This is ridiculous. No vote."

Representative Todd rose to speak in support of the measure, stating:

"Thank you, in support. I just wanted to point out that, contrary to a lot of the public discourse right now, the most common form of sexual assault is typically with a family member. Unfortunately, it's just our reality. Family member or a close acquaintance. And I think there are a number of times we

can imagine where a minor may not want to consult a parent, who may be the actual abuser in these cases. So, while I understand the concerns and I think those concerns are valid, I do think we need to recognize the reality of our public health care situation at the moment. And it's an unfortunate reality that you may want to seek care in these cases without disclosure. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. A no vote based upon the fact that we need to strengthen, not weaken, Hawaiian families. And, Mr. Speaker, most on this floor, we have weakened rather than strengthened Hawai'i's families."

Representative Perruso rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support and I'd like to adopt the words of the representative from Hilo as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Alcos rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. Mr. Speaker, we need parents. Minors are not independent enough to know what's best for them at 14 years old with regards to their medical decisions. The brain is not fully developed until 25 years old. Parents are oftentimes above 25 years old of children who are 14 years. And I think their decisions, their input is very valid in medical care services."

Representative Tam rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. When it comes down to this bill, I just want to make it very clear that a minor can't consent to treatment of the disease if they have it. They can consent to testing of the disease. But they, unfortunately, as the laws right now are written, they can't have preventative care. And this bill is all about preventative care. And permission to insert further written comments in support. Thank you."

Representative Tam's written remarks are as follows:

"In alignment with its mission to reduce harm, promote health, create wellness, and fight stigma, Hawai'i Health & Harm Reduction Center strongly supports measures to increase access to needed medical care and services for all persons, including access to medications that can prevent the transmission of HIV. HHHRC carries forward the work of Life Foundation, Hawai'i's first and largest HIV/AIDS services organization. The use of pre-exposure prophylaxis can help mitigate the risks of contracting HIV. Sexual and gender minorities face significant social and structural stigma. Even though HIV can be managed through the use on anti-retroviral medications, preventing HIV among those at risk is a salutary policy."

Representative Kong rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Garcia rose to respond, stating:

"Second time, still in opposition. Just want to say, using the excuse that some kids are abused by their family and parents and using that to premise taking away all parent's rights, I just don't see the correlation there. Bad situations happen and there are lots of situations where families are involved in abuse. And that's wrong, it's sad, it's horrible. But why use that as an excuse to take away every other parent's right in this state? Parents have the right to raise their kids the way they want to raise their kids and it's not government's job to step in that way and tell families what to do. No vote."

Representative Belatti rose to speak in support of the measure, stating:

"In support. Very briefly, I would suggest the reading of the bill because this does not take away all parents, all of their rights. Thank you."

Representative Marten rose to speak in support of the measure, stating:

"Thank you, in strong support. I just wanted to note that the only thing that's added in this bill is treating STDs. And that's a really serious thing. A

young person might not want to disclose to their parents if they're sexually active. But not treating, failing to treat an STD can result in all kinds of problems, including lifelong sterility. So, hiding something from your parents could result in lifelong consequences that could be very easily treated and spread. So, thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2436, HD 1, entitled: "A BILL FOR AN ACT RELATING TO MEDICAL CARE FOR MINORS," passed Second Reading and was referred to the Committee on Consumer Protection & Commerce, with Representative Matsumoto voting aye with reservations, with Representatives Alcos, Garcia, Kong, and Pierick voting no, and with Representatives Nakashima, Nishimoto, Sayama, and Ward being excused.

At 12:45 p.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:45 p.m.

REPORTS OF STANDING COMMITTEES

Representative Belatti, for the Committee on Health & Homelessness, presented a report (Stand. Com. Rep. No. 202-24) recommending that H.B. No. 2629, as amended in HD 1, pass Second Reading and be referred to the Committee on Housing.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 2629, HD 1 pass Second Reading and be referred to the Committee on Housing, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill taxes the rich to give benefits to the poor. If somebody tries hard and they become well-off, this bill would target them and tax them towards people who sometimes don't try hard and try to mooch off of the system or mooch off of the state. So, I don't support this."

Representative Quinlan rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. Unfortunately, in the America of today, you don't get rich by trying hard, you get rich by being born rich. Thank you."

Representative Kong rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations on the bill, as well as the comment from the gentleman from the North Shore. Because America is based upon hard work, effort, education, training. And the America that he's talking about does not exist except for those who don't have the initiative to go and become entrepreneurial, innovative, and creative. Mr. Speaker, this is a battle of values. This is a matter of values."

Representative Perruso rose to a point of order, stating:

"Point of order. I'm concerned that he's disparaging people who are living in poverty."

Representative Ward continued, stating:

"This is a point of personal privilege where he denigrated my nation in front of everybody. You don't denigrate America and say it's worthless, people."

Representative Tam rose to a point of order, stating:

"Point of order, Mr. Speaker. Address the rostrum."

At 12:49 p.m., Representative Garcia requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:50 p.m.

Representative Ward continued, stating:

"I'd like to thank the gentleman from the North Shore. We just shook hands and we're all capacetic."

Representative Garcia rose, stating:

"Just a point of parliamentary inquiry. Just a reminder, Mr. Speaker, a simple disagreement with the statement doesn't warrant a point of order. Thank you."

Representative Pierick rose to respond, stating:

"Thank you, in opposition. In response to a previous comment that people are born rich and that's how they become rich in America and they can't become rich through trying hard, through capitalism. My grandfather was in poverty. My dad talks about stories of basically them eating dog food when they got so poor. My family, me growing up in Hawai'i, we were in welfare growing up in Hawai'i, and we can work past that. My dad is, he's not poor anymore, I don't think I'm poor anymore. And it's not because we were born into it, we tried hard."

Representative Quinlan rose to respond, stating:

"Just to further clarify my earlier remarks. There is a Social Mobility Index that ranks countries. What is the Social Mobility Index? It measures your ability to be born poor in a country and to die wealthy. The United States has one of the lowest rankings of any first world nation behind such luminaries as Portugal, South Korea, and Lithuania. Thank you."

At 12:52 p.m., the Chair declared a recess subject to the call of the Chair.

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 2159, HD 1, entitled: "A BILL FOR AN ACT RELATING TO MENTAL HEALTH," passed Second Reading and was referred to the Committee on Judiciary & Hawaiian Affairs, with Representatives Nakashima, Nishimoto, Sayama, and Ward being excused.

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 1954, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE COMMUNITY OUTREACH COURT," passed Second Reading and was referred to the Committee on Judiciary & Hawaiian Affairs, with Representatives Nakashima, Nishimoto, Sayama, and Ward being excused.

Representative Belatti, for the Committee on Health & Homelessness, presented a report (Stand. Com. Rep. No. 207-24) recommending that H.B. No. 2079, as amended in HD 1, pass Second Reading and be referred to the Committee on Consumer Protection & Commerce.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 2079, HD 1 pass Second Reading and be referred to the Committee on Consumer Protection & Commerce, seconded by Representative Morikawa.

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition. Thank you, Mr. Speaker. HB 2079, I want to read from page 48, lines 9 through 17. 'A court of this State shall have temporary emergency jurisdiction if the child is present in this State and the child has been abandoned or it is necessary in an emergency to protect the child because: ... (2) The child has been unable to obtain gender-affirming health care services.'

"Once again, it's a blatant attack on parental rights. Parents have the right to raise their children the way they want. And I have no problem with anyone making their own decisions about their own life, their own gender, their own expression, if you are an adult. Let parents raise the kids the way they want to raise their kids. And allowing gender affirming care for minors, in my opinion, is mutilation. No vote."

Representative Kong rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Alcos rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, no vote. And we have just proven the fact that we are diminishing the rights of the family, consistently, every session. Thank you."

Representative Pierick rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. And I would just like to say that this bill, the premise is supposed to be able to help students or minors that are often kicked out of their homes if their parents don't agree with what this child believes, that they are who they're meant to be. So, all across the nation, we are witnessing attacks on gender affirming care and reproductive rights."

"This bill is an attempt to preserve basic civil liberties for Hawai'i's people. This bill acts as a shield from overreaching out-of-state prosecution and out-of-state subpoenas for gender affirming care providers. It protects families from having their *keiki* removed by out-of-state agencies for either receiving or providing access to gender affirming care, something we have seen other states attempt to do. And it increases equitable access to gender affirming care services performed by local healthcare providers by protecting those providers from legal assaults by other states. Hawai'i has long been a leader in defending the rights of our LGBTQ+ community. This bill strengthens that legacy for future generations."

Representative Perruso rose to speak in support of the measure, stating:

"In strong support. I'd like the remarks of the previous speaker to be entered into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Tam rose to speak in support of the measure, stating:

"Same request, and permission to insert written comments in support," and the Chair "so ordered." (By reference only.)

Representative Tam's written remarks are as follows:

"In alignment with its mission to reduce harm, promote health, create wellness, and fight stigma, Hawai'i Health & Harm Reduction Center strongly support efforts to expand gender-affirming health care services for all trans and gender non-conforming persons. Transgender persons have been subject to pervasive institutional stigma, including access to needed medical care, often in addition to trauma experienced as victims of physical, sexual, and psychological abuse. Trans youth face significant challenges to their health and well-being compared to their cisgender and LGB peers."

Representative Amato rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Health care is a human right and one of the most important jobs any legislator can do is reaffirm society's protections at the state level."

Representative Garcia rose to respond, stating:

"Second time, in opposition still. Just wanted to give a reminder, Mr. Speaker, that the children of Hawai'i does not belong to government. And how dare government once again step in and tell parents how they can and cannot raise their child? This is life changing. This is life altering for children. This isn't just a Tylenol pill or an Advil. This is life altering, permanent things that will happen to them and change them forever. This is, I mean, I just don't understand why more people aren't enraged about this. Let parents raise their kids the way they want to raise them. No vote."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2079, HD 1, entitled: "A BILL FOR AN ACT RELATING TO HEALTH," passed Second Reading and was referred to the Committee on Consumer Protection & Commerce, with Representative Matsumoto voting aye with reservations, with Representatives Alcos, Garcia, Kong, and Pierick voting no, and with Representatives Nakashima, Nishimoto, Sayama, and Ward being excused.

Representatives Tamas and Belatti, for the Committee on Judiciary & Hawaiian Affairs and the Committee on Health & Homelessness, presented a report (Stand. Com. Rep. No. 208-24) recommending that H.B. No. 2630, as amended in HD 1, pass Second Reading and be referred to the Committee on Consumer Protection & Commerce.

Representative Nakamura moved that the report of the Committees be adopted, and that H.B. No. 2630, HD 1 pass Second Reading and be referred to the Committee on Consumer Protection & Commerce, seconded by Representative Morikawa.

Representative Kitagawa rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition and a comment. This bill would allow psilocybin, more commonly known as magic mushrooms, for therapeutic use. Currently, psilocybin is listed under federal and state law as a Schedule I controlled substance, which means that it has a high potential for abuse and no recognized medicinal uses. Currently, only Colorado and

Oregon allow psilocybin for medicinal use, and it is not legal at the federal level and in the majority of states.

"In testimony, the Department of Law Enforcement, as well as the Hawai'i Medical Association, which represents Hawai'i's physicians and medical residents and students from all specialties and practices, testified in opposition to this bill. They state that although psilocybin has shown some promise, the safety and efficacy to treat mental health conditions has not been established, and that further studies and medical research need to be conducted.

"The Department of Law Enforcement has also indicated that this bill lacks appropriate safeguards, and in reading this bill, I would have to agree. This could include ensuring that only patients are able to use psilocybin, and that it doesn't become available to those who should not have it, like our youth. In addition, the Hawai'i Psychological Association provided comments on this bill and agreed that more study is needed. I believe that this bill is premature at this time, and we don't have enough data or research to safely indicate that psilocybin's benefits outweigh the concerns. For these reasons, I'm in opposition to this bill. Thank you."

Representative Tarnas rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. The testimony from the Department of Law Enforcement acknowledged that psilocybin is actually recognized as a breakthrough technology. It was explained to us that the Food and Drug Administration has listed this as a breakthrough technology, which means that there are therapeutic uses and that they will move expeditiously in order to properly schedule this for use for therapeutic purposes. So, this measure I think is a measured step forward. It's not opening up the door to allow unfettered use. And it's looking to the professionals who are trained in this area to help guide us going forward. And so, I think this is a good measure, and I'm asking support from the other members. Thank you."

Representative Kila rose in opposition to the measure and asked that the remarks of Representative Kitagawa be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Kobayashi rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. My opposition is in deference to the Hawai'i Medical Association, who likely knows a little bit more about mental health treatment than I do or will ever know. Especially when it deals with a hallucinogenic treatment that has not been approved by the U.S. government or the Food and Drug Administration.

"Psilocybin is recognized as a possible breakthrough therapy. But I think that is still premature, especially given the testimony of the Department of Law Enforcement, who says that now there could be any number of people who would possess this without any evidence of registration or intended use. So, for those reasons, I'm no. Thank you."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Matayoshi rose to speak in opposition to the measure, stating:

"No vote, Mr. Speaker, brief comment. As the chair of Judiciary & Hawaiian Affairs stated, this drug may be a breakthrough drug, but it might not be. And they're going through the process right now. I feel like it needs to play out at the federal level and it's premature at this time for us to jump the gun and pass this bill. Thank you."

At this time, the Chair stated:

"Members, just as a reminder, this is our second reading of this bill and it will go through many committees. So, I just want to mention that there are going to be other committees that this bill will go through. I know we're having a healthy discussion, but I just want to send that reminder."

Representative Amato rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Psilocybin is converted in the body to psilocin, which affects hydroxy tryptophan receptors, which modulate serotonin, which provides a feeling of well-being. This therapy

has a lot of advantages over SSRI-based therapies. And quite frankly, I have a constituent who is alive today because of this therapy. So, thank you, Mr. Speaker."

Representative Garcia rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. No vote and a brief comment. I just want to remind the body that this is a free country, and it is second reading, but feel free to speak your mind. People are allowed to speak on second reading. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, no vote. And may I ask that the good office of the vice chair of Finance, her remarks, be entered into the Journal as if they were my own. She was spot on," and the Chair "so ordered." (By reference only.)

Representative Ward continued, stating:

"But I would, Mr. Speaker, remind the people of what's going on mentally in this nation. Why are people shooting themselves? Why are the prisons filled with mental, unfortunately unable to adapt to normal society? Why are the homeless, 80% of them having some mental ill, it's because of these numbing and dumbing down drugs. And you want to talk about mushrooms? Look what Oregon did. Oregon opened the door to any kind of drugs. And they, particularly in the capital city, they've got just a swath of people who are enabled by people in bodies like this who say, hey, it's okay, man. Go for it.

"We're on the precipice of legalizing recreational marijuana. Not learning from what has happened in Colorado. Not what's happened in California where the cartels are taking over, the Chinese are taking over, they've got 80% of the black market taking over. Mr. Speaker, what are we trying to enable? Are we trying to make a better population for the people of Hawai'i or are we trying to push them down the hole, and particularly for our youth, numb them down and dumb them and make them, how would you say, not impotent, unable to be functioning members of our society.

"Okay, we can help a few people. That's good. But to abandon the general welfare of what, you know, most people are sober most of the time, most people have their rational mind about them. When we've got all things with alcohol and marijuana already out there, why do we want to do this, Mr. Speaker? Look at the homeless. They were just right on our doorstep the other day. Those who were around yelling and talking to themselves. Look at the prisons filled with people. What are we doing to our society? What is America doing to the mental health? We don't have mental health institutions anymore. We do not have the carrying capacity to drug our people any further.

"Mr. speaker, we've gone far enough, and this bill pushes a nice warm and fuzzy kind of, yeah, it's going to be okay. But look at the results on the streets. Look at the results in the mental institutions. Look at the results in the prisons. We are punishing our people by doing things such as this, Mr. Speaker. Please, everyone, listen closely to those negative voices and those who know what's going on in the psychological associations, in the medical association, and in the public safety sector. Other than that, I have no strong feelings about this bill."

Representative Takayama rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I just want to note that the current governor is a medical doctor himself, and that his Office of Wellness and Resilience testified in strong support before the Judiciary Committee in support of this bill because of its possibility of furthering the dialog as to psilocybin's role in treating mental health illnesses. Thank you."

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Can I adopt the words of both the chair and the vice chair of Judiciary into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. Not to be hubris, but to compare what the previous representative said about the doctor governor approving it. I have a doctorate

in counseling, I have my application approved in mental health counseling, and I disagree with this. This is not good for the community."

Representative Alcos rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Gates rose to speak in support of the measure, stating:

"In strong support and may I adopt the words of the chair and vice chair of Judiciary & Hawaiian Affairs and make mention that we are prescribing antidepressants and all these other prescription drugs to treat these conditions that are mentioned in this bill. And this provides a natural means for residents to access similar types of care. And I think that we should further the discussion on this matter, and I appreciate the time. *Mahalo*," and the Chair "so ordered." (By reference only.)

Representative Perruso rose to speak in support of the measure, stating:

"In strong support. May I adopt the words of the representative from Wai'anae and insert them into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Kahaloa rose to speak in support of the measure, stating:

"Same request," and the Chair "so ordered." (By reference only.)

Representative Kapela rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Perruso rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Lowen rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Kila rose to speak in support of the measure with reservations, stating:

"With reservations, brief comment. I want to thank the introducer for this bill for exempting anything past West O'ahu and Ko Olina to not include any gaming establishments. There are some concerns around the subject matter. But I will reference in the community survey that was distributed to the House District 44. There is not appetite for this kind of conventional style of gambling, but there is an appetite to explore a state lottery system. Thank you."

Representative Poepoe rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Matayoshi rose to speak in opposition to the measure, stating:

"A no vote, brief comment. As far as gambling goes, I do consider it a kind of a regressive tax on less wealthy people. I don't mean to disparage the intent of the bill to help certain populations, but if we're going to help them, I think we should be taxing people who can better afford it. Thank you."

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Kobayashi rose to speak in opposition to the measure, stating:

"Mr. Speaker, a no vote. Gambling works because there are more losers than winners. Why would the state want to create a system where we endorse losers to lose more? Thank you."

Representative Marten rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Alcos rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ganaden rose, stating:

"I'd like to adopt the words of the representative from District 44 as my own. In support of maybe like scratchers, but maybe not this kind of gambling. Thanks."

Representative Chun rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Souza rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Quinlan rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Takayama rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Amato rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Holt rose to speak in support of the measure, stating:

"Thank you, in strong support. I appreciate all the comments regarding gambling. And just to let you guys know that the genesis of this bill comes from the continual underfunding of the Office of Hawaiian Affairs. This measure is to increase funding for our Native Hawaiian organization, which has historically been an afterthought.

"So, a little bit of history. I'm not going to go all the way back to the overthrow. But in terms of statehood, the terms of statehood had considered the plight of the Hawaiian people, specifically in the Admission Act of 1959. Section 5F, the act refers to crown and government lands of the Hawaiian Kingdom, which have been designated ceded to the Republic of Hawai'i and then to the United States.

"The act conveyed these lands to the new State of Hawai'i with the caveat that revenues were to constitute a trust for five purposes. One of those purposes was a betterment of the conditions of Native Hawaiians. By any measure, those conditions were sorely in need of improvement, but by 1970 they had not changed for the better as the state's trust obligation went ignored.

"In 1978, a constitutional convention was called to review and revise the functions of the responsibilities of Hawai'i's government. And at the convention, the Native Hawaiian legislative package was considered by delegates. Among provisions incorporated into the new State Constitution was the establishment of the Office of Hawaiian Affairs as a public trust with a mandate to better the conditions of both Native Hawaiians and the Hawaiian community in general. OHA was to be funded with a pro-rata share of revenues from state lands designated as ceded.

"To follow that, in 1979, the Legislature enacted Chapter 10 of the Hawai'i Revised Statutes, implementing the changes to the Constitution and making OHA a semi-autonomous, self-governing body. Subsequent legislation has further defined the amount of revenue stream accruing to OHA. So, the amount owed to OHA has always been in question. But what is clear is that it is up to the Legislature, us, to define the amount OHA shall receive.

"To read a bit of a quote from Chief Justice Moon's opinion in the case OHA versus State of Hawai'i in 2001, 'how the State satisfies that constitutional obligation requires policy decisions that are primarily within the authority and expertise of the legislative branch. As such, it is incumbent upon the legislature to enact legislation that gives effect to the right of native Hawaiians to benefit from the ceded lands trust.' Further, he says, 'we trust that the legislature will re-examine the State's constitutional obligation to native Hawaiians and the purpose of HRS § 10-13.5 and enact legislation that most effectively and responsibly meets those obligations.'

"So in 1997, the amount given to OHA was set at \$15.1 million. And it stood there for 25 years until 2022, when we increased the amount to \$21.5 million. I think by any means, we can all agree that a \$5 million increase in 25 years does not keep up with how much land values have increased over that same period.

"So, this measure here intends to give revenues from this casino an additional \$50 million to the Office of Hawaiian Affairs. Now, I am unaware of any other measures or proposals that we have to increase the Office of

Hawaiian Affairs, because, as I mentioned, it's become an afterthought. I was recently asked by a colleague, how come we don't increase the amount given to OHA? And I didn't have an answer. But I'd like to pose a question to all of you, why don't we make this right and correctly fund OHA as intended by the Constitution. Thank you."

Representative Todd rose to speak in support of the measure, stating:

"Thank you, in support. I figured I'd build on this positive momentum and add my own thoughts. I generally believe, whether it's substances, just human behavior in general, most gambling issues, that we'd be better off lifting prohibition and just stepping in as a regulator, because it removes a lot of the organized crime element that currently takes place in game rooms across the state, or in places we're not even sure actually exist but probably do.

"But beyond that, I think it's kind of, albeit complicated, if we are going to add a new revenue stream, I do believe that it should be benefiting an entity like OHA or DHHL for that purpose. And beyond that, I think the estimate currently is that Hawai'i residents take 300,000 trips to Las Vegas annually. If we could just capture a certain percentage of that revenue that we're currently exporting, I think we'd be better off for it. Thank you."

Representative Souza rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, I probably should have said this sooner, but request for a ruling on a potential conflict. My brother is a trustee at the Office of Hawaiian Affairs," and the Chair ruled, "no conflict."

Representative Ganaden rose to respond, stating:

"Mr. Speaker, I'd like to change my position. In support. I think that this advances an important conversation about the appropriate use of the taxation from ceded lands. Three years ago, we had a similar conversation about the use of gaming funds for the appropriate payment for services and land use for the Department of Hawaiian Home Lands. What resulted in that was over two years of important conversation. So, for those purposes, in support."

Representative Garcia rose to respond, stating:

"Thank you, Mr. Speaker. Still in opposition. I want to thank the representative from Iwilei for that history of the failure of this body in this building to do what's right. And not just what's *pono* and righteous, but what is constitutionally mandated in paying OHA their full 20% of public land trust revenue. Also, I do want to note, it was mentioned that there's no other bills this session to do that. Well, if the majority would sometimes just read the minority bills, we had a bill in there to pay OHA their full 20% of public land trust revenue minus gambling. No vote."

Representative Ward rose to respond, stating:

"Mr. Speaker, no vote. And with agreement with the chair of the Hawaiian Caucus in that we need to fund more generously OHA. But as my colleague just noted, we need to do it the way that has been legally, statutorily, constitutionally said that 20% of the ceded land revenues should go to OHA. So, when we posed the question, what should we do? Well, let's do what's right, do what's legal, let's do what's on the books and give them their due.

"This is not rocket science. And you can understand why you want to go on, you want to do gambling? Well, it's a shortcut because you can't get the 20%, you can't raise things otherwise. So, as we nickel and dime them, they want to do a side run. But in effect, it's because we have not given them what we are legally obliged to do, and that's 20% of the ceded lands. Mr. Speaker, not rocket science. Let's do what's right. And I think the saying is, you're *ono* if you're *pono*, and I think that's what we need to do with this bill. Thank you, Chair."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2762, HD 1, entitled: "A BILL FOR AN ACT RELATING TO GAMING," passed Second Reading and was referred jointly to the Committee on Consumer Protection & Commerce and the Committee on Judiciary & Hawaiian Affairs, with Representatives Amato, Chun, Garrett, Hussey-Burdick, Ichiyama, Kila, Matsumoto, Poepoe, Souza, and Takayama voting aye with reservations, with Representatives Alcos, Garcia, Kapela, Kobayashi, Lowen, Marten,

Matayoshi, Perruso, Pierick, Quinlan, and Tam voting no, and with Representatives Nakashima, Nishimoto, Sayama, and Ward being excused.

Representative Holt, for the Committee on Economic Development, presented a report (Stand. Com. Rep. No. 217-24) recommending that H.B. No. 2765, as amended in HD 1, pass Second Reading and be referred jointly to the Committee on Consumer Protection & Commerce and the Committee on Judiciary & Hawaiian Affairs.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 2765, HD 1 pass Second Reading and be referred jointly to the Committee on Consumer Protection & Commerce and the Committee on Judiciary & Hawaiian Affairs, seconded by Representative Morikawa.

Representative Todd rose to speak in support of the measure, stating:

"Thank you. I figured I'd get ahead of the curve with this one. I'm in support of HB 2765. I've introduced similar measures in the past. If there's such a thing as low hanging fruit, even lower hanging fruit than the lottery, it is this proposal. Sports wagering is already happening constantly. If you watch any ESPN broadcast, the company that is owned and operated by Disney, the most like maybe, maybe potentially falsely, positive and good vibe company possible, right? This is a very American apple pie type of company. Constant ads for sports gambling. It exists everywhere. It's currently happening probably in offices throughout the Capitol on people's phones. This would do very little harm. And all it would allow us to do is regulate and capture some revenue.

"This does not bring along with it the social ills that we would attach with something that's as bold as a casino. Very little potential for negative outcomes. But we'd capture some revenue, we'd regulate what is currently an unregulated market. And just anecdotally, as someone who's coached high school football for quite a while, it's not unusual to find out before a game we're playing that there's a line on our games. This is already happening constantly and everywhere, we'd just be better off regulating it and stepping in. And kind of fulfilling our responsibility as a regulator, which we so often cast aside in cases like this. Thank you."

Representative Quinlan rose to speak in opposition to the measure, stating:

"Great speech. May I adopt the words of the previous speaker. And a no vote, thank you," and the Chair "so ordered." (By reference only.)

Representative Kila rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations. May I adopt the words of the chair of Transportation and clarify the only thing on my phone is Pokémon Go. Thank you," and the Chair "so ordered." (By reference only.)

Representative Perruso rose to speak in opposition to the measure, stating:

"No vote. But I would like to adopt the words of the chair of Transportation," and the Chair "so ordered." (By reference only.)

Representative Matayoshi rose to speak in opposition to the measure, stating:

"No vote. And I do not want to adopt his words."

Representative Kapela rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Lowen rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Tam rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Alcos rose to speak in opposition to the measure, stating:

"No vote, Mr. Speaker. For the reasons why, my dad, back in the days, he was running a six-five gambling with football, basketball. And I seen many families break up. They lost their home. They lost their wife. And I didn't see any family get ahead in life by gambling. I mean, I love gambling

myself. But if I took it into a serious way, I think I would lose my family as well. I feel that gambling does bring a threat to our local families. So, I'm against this bill. Thank you."

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Marten rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Souza rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Hussey-Burdick rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Chun rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Garrett rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Poepoe rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Ichiyama rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. I have a family member who has been addicted to gambling. And this individual basically lost his wife and house through the ordeal. Gambling isn't a gateway towards fun and entertainment for the community. It is a gateway towards addiction and disruption. It does not help the economy. It basically captivates the poor to stay poor by believing that they can get a break someday by hitting the jackpot, when statistically, they never do."

Representative Kobayashi rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Holt rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I do understand addiction concerns. And that's why taxes would be collected to implement a gambling mitigation program, which currently does not exist. As the chair of the Transportation Committee said, there are so many people gambling right now in an unregulated market where you don't even need money to bet. They offer you a credit line and when you don't pay up, guess what happens? Bad things.

"So, if we were to legalize this and offer people a way to gamble in the legal market, they would need their own funds to gamble. And along with the illegal gambling in the game rooms, there's all kinds of detrimental factors to our community. And this money would also go towards the Department of Law Enforcement to enforce on these game rooms and illegal gambling that's currently existing. Thank you and in support."

Representative Gates rose to speak in support of the measure, stating:

"In support, Mr. Speaker. May I adopt the words of the Transportation Chair and the Economic Development Committee as well, as if they were my own. I just would like to also mention that Hawai'i is the only other state besides Utah that does not have any form of gambling. And I think that is contributing directly to the illicit markets that we are putting and directing ample funds to go after. So, creating a legal means to do that will allow for the state to save some money and even collect revenue, which can go to supporting our communities and addressing the concerns from communities, whether it's the addiction or law enforcement presence. So, with that, I stand in strong support. *Mahalo*," and the Chair "so ordered." (By reference only.)

Representative Kahaloa rose in support of the measure and asked that the remarks of Representatives Holt and Todd be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Pierick rose to respond, stating:

"Thank you, in opposition. Drawing a parallel of how the taxes on gambling can help our state, Hawai'i is considered the prostitution or sex trafficking hub of the Pacific. If we then say, let's legalize prostitution, set up a brothel in town, and then we can use the proceeds from those activities to help their families, that's not good."

Representative Kapela rose to a point of order, stating:

"Point of order, Mr. Speaker. Trafficking has nothing to do with this bill."

Representative Pierick: "As stated previously, I was drawing a parallel with gambling."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2765, HD 1, entitled: "A BILL FOR AN ACT RELATING TO SPORTS WAGERING," passed Second Reading and was referred jointly to the Committee on Consumer Protection & Commerce and the Committee on Judiciary & Hawaiian Affairs, with Representatives Chun, Garrett, Hussey-Burdick, Ichiyama, Kila, Matsumoto, Poepoe, Souza, and Tam voting aye with reservations, with Representatives Alcos, Garcia, Kapela, Kobayashi, Lowen, Marten, Matayoshi, Perruso, Pierick, and Quinlan voting no, and with Representatives Nakashima, Nishimoto, Sayama, and Ward being excused.

ORDER OF THE DAY

REPORTS OF STANDING COMMITTEES

Representative Yamashita, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 218-24) recommending that H.B. No. 2520 pass Second Reading and be placed on the calendar for Third Reading.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 2520 pass Second Reading and be placed on the calendar for Third Reading, seconded by Representative Morikawa.

Representative Souza rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I will be voting no on this measure. This seems like a typical housekeeping measure as far as funding goes. But I take issue with a certain aspect of this bill as to how the funds, specifically relative to Section 3, pertaining to the House of Representatives, are utilized, especially as a matter of equity, so that House members, including myself, can use the resources that the funding will cover.

"In Section 3, it states that an appropriation out of the general revenues of the State of Hawai'i in the sum of over \$16 million will be made to the House of Representatives. If any part of this over \$16 million appropriation is funding partisan research offices and partisan legal services within the House, which is my understanding of how this appropriation will be allocated upon further research and conferring with the drafting agency for this particular bill, then I cannot support this bill.

"As a Republican member, it appears that I am not able to utilize the resources of the House Minority Research Office, which is a real issue when funding is being allocated to the House to help House members. Therefore, having any part of this appropriation funding partisan offices, from my perspective, is not being used to its highest and best value if we are picking

and choosing who can utilize the resources this bill is meant to cover. I cannot support funding that leads to inequity in this matter. Thank you, Mr. Speaker."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill appropriates funds for the Auditor, Legislative Reference Bureau, Ombudsman, and the Ethics Commission. These are notable things that should be funded. However, this also supplies our salary, and this would give each of us, this year, \$72,000 a year. When we look at how many potholes we have, the way that our kids are being raised in the Department of Education, when we look at taxation, when we look at the level of homelessness and the expensive housing on the market, I think we're doing a bad job and we shouldn't be rewarded with salaries. So, I don't support our salary."

Representative Quinlan rose to speak in support of the measure, stating:

"In support, Mr. Speaker. And I'd just like to point out that we are all free to donate our salaries to charity."

Representative Nakamura rose, stating:

"Just a point of clarification that salaries are included, not in this bill, but through Budget and Finance."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2520, entitled: "A BILL FOR AN ACT MAKING APPROPRIATIONS TO PROVIDE FOR THE EXPENSES OF THE LEGISLATURE, THE AUDITOR, THE LEGISLATIVE REFERENCE BUREAU, THE OMBUDSMAN, AND THE ETHICS COMMISSION," passed Second Reading and was placed on the calendar for Third Reading, with Representatives Pierick and Souza voting no, and with Representative Nakashima being excused.

Representative Matayoshi, for the Committee on Labor & Government Operations, presented a report (Stand. Com. Rep. No. 219-24) recommending that H.B. No. 2373, as amended in HD 1, pass Second Reading and be referred to the Committee on Finance.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 2373, HD 1 pass Second Reading and be referred to the Committee on Finance, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill makes emergency appropriations for collective bargaining cost items for the members of bargaining units, *et cetera*. So, in other words, if the governor declares a state emergency proclamation, then certain state employees can get paid more. We're in a state where the governor seems to continually proclaim emergencies, and the previous governor did the same thing. So, if we're going to be in an emergency proclamation state, this would then raise the salaries of a lot of state employees, and I don't think that's fair to the taxpayer. Thank you."

Representative Garcia rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2373, HD 1, entitled: "A BILL FOR AN ACT MAKING EMERGENCY APPROPRIATIONS FOR PUBLIC EMPLOYMENT COST ITEMS," passed Second Reading and was referred to the Committee on Finance, with Representative Garcia voting aye with reservations, Representative Pierick voting no, and with Representative Nakashima being excused.

Representative Matayoshi, for the Committee on Labor & Government Operations, presented a report (Stand. Com. Rep. No. 220-24) recommending that H.B. No. 2374, as amended in HD 1, pass Second Reading and be referred to the Committee on Finance.

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 2374, HD 1, entitled: "A BILL FOR AN ACT MAKING EMERGENCY APPROPRIATIONS FOR PUBLIC EMPLOYMENT

COST ITEMS," passed Second Reading and was referred to the Committee on Finance, with Representative Nakashima being excused.

Representative Matayoshi, for the Committee on Labor & Government Operations, presented a report (Stand. Com. Rep. No. 221-24) recommending that H.B. No. 1832, as amended in HD 1, pass Second Reading and be referred to the Committee on Finance.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 1832, HD 1 pass Second Reading and be referred to the Committee on Finance, seconded by Representative Morikawa.

Representative Ward rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Contrary to expectations, I don't always stand up and speak against the bill, because this is a great bill. I stand up for good bills. This is a good bill. But it's where there's been molasses in a type of DHRD lockjaw of getting employees hired and we've got 20% to 25% of our state government vacant. Mr. Speaker, this is a bill in the right direction, it starts the flow. But I would say we could even go further.

"I think we should be on Indeed, even Craigslist. We should have a net that goes far and wide to make sure we fill these positions. Because sometimes departments say, well, you give us the money, but we couldn't fill the position. DHRD has got to do a better job. This bill helps do it, and I thank the authors for that. But we've got to do better to get our employment. And I know everybody's got a shortage of workers, but we've got to do better if we are going to get the job done for the people of Hawai'i. For those reasons, Mr. Speaker, it's a surprise to you, I'm very much in favor of this. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1832, HD 1, entitled: "A BILL FOR AN ACT RELATING TO HIRING," passed Second Reading and was referred to the Committee on Finance, with Representative Nakashima being excused.

Representative Matayoshi, for the Committee on Labor & Government Operations, presented a report (Stand. Com. Rep. No. 222-24) recommending that H.B. No. 2382, as amended in HD 1, pass Second Reading and be referred to the Committee on Finance.

No. 2382, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE EMPLOYEES' RETIREMENT SYSTEM," passed Second Reading and was referred to the Committee on Finance, with Representative Nakashima being excused.

Representative Matayoshi, for the Committee on Labor & Government Operations, presented a report (Stand. Com. Rep. No. 223-24) recommending that H.B. No. 2343, as amended in HD 1, pass Second Reading and be referred to the Committee on Judiciary & Hawaiian Affairs.

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. Representative Matayoshi, for the Committee on Labor & Government Operations, presented a report (Stand. Com. Rep. No. 225-24)

recommending that H.B. No. 2480, as amended in HD 1, pass Second Reading and be referred to the Committee on Finance.

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 2480, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE CERTIFICATION OF DOCUMENTS," passed Second Reading and was referred to the Committee on Finance, with Representative Nakashima being excused.

"Mr. Speaker, no vote on 235, please. Mr. Speaker, these are loans for people who are in desperate condition of economic hardship. The interest rate is now fixed at 6%. Mr. Speaker, some of you don't know that I used to work for the United Nations and the World Bank, and anything that's 6% is really a gouging rate. We would give basically away free money, 1% to 2%. Which means the hardship is the issue, not the repayment. In fact, many of these things are grants.

"The point is, 6% is almost at market value. Are we helping these people as the market value? Are we a private bank that can do market rates? I don't think so. Because of those reasons, I don't think we are being sympathetic enough with those people who need the money, and they don't need it at market rates. Having said that, Mr. Speaker, a no vote."

"Thank you, Mr. Speaker. Strong support with thanks to the governor for respecting the Small Business Regulatory Review Board. Some of us went to the White House in 1993, when there was a national phenomenon to put regulatory boards together for small business, because there was legislation that was being passed that they never knew until it was already in effect.

"So, this basically is a review board. But you know, Mr. Speaker, how we've treated it, we've created it in the '90s. But, you know, when have we ever funded it? We haven't funded it yet. This is the first time we respected it. And I want to thank the governor for, hopefully, this is the first step in the direction to make sure small business, which is the most creative, innovative job creation in the State of Hawai'i, that it be given its due course. And there's 25,000 to 30,000 of these. Thank you, Mr. Speaker."

"A no vote, Mr. Speaker. This bill is kind of unimaginable. It says if you get a DUI, you cannot go to Safeway and buy beer, you cannot go to a bar and buy something, because on your license it says DUI. Do we want to shame people? If people get a drug or a, what do you call it, a sexual predator position, do we put it on their driver's license? I understand that this bill puts it on the driver's license.

"But the irony of all this, if you put all what I just said aside, is that we're going to punish the guys who drink and drive. But, hey, if you get drunk, if you get drugged with marijuana or mushrooms, you are okay. Mr. Speaker, this body is speaking out of two sides of its mouth. And I know that bill hasn't come up, but it's going to come up. We're going to make it easier to do marijuana, instead of \$125, we're going to make it like \$25.

"But, Mr. Speaker, this is telling you guys who drink, we're going to deny you and we're going to expose you at Safeway and Longs and all these other places. But for you druggies, you hippies, or you guys who are on mushrooms and marijuana, you're okay. That is inconsistent, Mr. Speaker. I think this is putting a scarlet letter in place, it's putting a label on people's

forehead. And it's embarrassing people who I think the only place they can drink now is in their home. Or if they drink, they can be a passenger.

"The point is, Mr. Speaker, this goes overboard, it's overreach. It's big brother going into your stomach and your brain and your social setting beyond of which we should be doing. That's extremism, Mr. Speaker. For those reasons, I vote no. Thank you."

Representative Garcia rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

"Mr. Speaker, I would vote tentatively against this. Because, as I said earlier, there's an inconsistency. We want to lower the blood alcohol content, but we don't want to do anything with the druggies and the mushrooms and

the marijuana. How does this fit logically with this body's protection for the people outside? I just don't see it consistent.

"I know it was either Shakespeare or somebody who said, consistency is the hobgoblin of small minds. Well, I think it's small minds that will say, we're going to push you hard on your alcohol, but we're going to lighten up on your drug addiction, i.e., marijuana and other forms of hard, hard drugs, some of which have been, as we know in Oregon, legalized and they've regretted it. And here we're walking down the same path, rather naive and sort of whistling past the graveyard. Thank you."

Representative Quinlan rose to speak in support of the measure, stating:

"In support, Mr. Speaker. I really don't think it's fair or accurate to conflate people using marijuana, which is medically regulated as a drug for certain treatments and for certain conditions in this state. The only medical treatment that I know of for alcohol is if you have antifreeze poisoning."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 1845, HD 1 pass Second Reading and be referred to the Committee on Finance, seconded by Representative Morikawa.

Representative Souza rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. Request for a ruling on a potential conflict. My brother is an OHA trustee, and this particular bill also addresses OHA statewide races," and the Chair ruled, "no conflict," and that the ruling would extend through *sine die*.

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1845, HD 1, entitled: "A BILL FOR AN ACT RELATING TO PARTIAL PUBLIC FINANCING OF ELECTIONS," passed Second Reading and was referred to the Committee

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 1596, HD 1 pass Second Reading and be referred to the Committee on Finance, seconded by Representative Morikawa.

Representative Lamosao rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Alcos rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I referenced this bill earlier, I just want to finish what was maybe a partial thought. In opposition, strongly so, sir. This lowers the offense of marijuana from, I forget how many grams, to you get one ounce, and from \$125 it goes down to \$25. Which basically means it's already a parking ticket, and now we're going to make it less than a parking ticket.

"My question, Mr. Speaker, what's our logic on this? Lightening up on marijuana but pushing down in alcohol. Look, I thought if you're out of your mind, whether it's one substance or the other, it's equally against the public safety for the people of Hawai'i. So, Mr. Speaker, we're talking out of both sides of our mouth. We talk about, we want to make it so easy, which it's already so easy, anybody can get marijuana anywhere, anytime, at any price. This is going to allow even the black market to even proliferate even more. So, do we know what we do?

"Mr. Speaker, I'm looking at you, but I'm attacking all my colleagues. Do we really know what we're doing? We look at Colorado, we don't pay attention. We look at California, we don't pay attention. We look at Oregon, we don't pay attention. Hopefully, Prosecutor Alm is going to bring this to the fore with Mayor Blangiardi and show the realities of what path we're taking down. Numbing and dumbing down the people of Hawai'i, particularly our youth whose brains are not even in shape. And it's going to be a great thing, like vaping, and everybody is going to go backwards in terms of their development and their human, God-given potential. This is a bad, bad bill and very inconsistent, Mr. Speaker. Thank you."

Representative Souza rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Kong rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Kila rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Matsumoto rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Matayoshi rose to speak in opposition to the measure, stating:

"In opposition, Mr. Speaker, brief comment. Mr. Speaker, this bill seeks to basically decriminalize the possession of marijuana up to one ounce. As we've previously discussed, one ounce is a lot of marijuana. One ounce is about 50 to 60 joints. The problem that I have with this bill is the same problem that I had with the bill when we decriminalized up to three grams of marijuana. Now that it's up to an ounce, it really implies the intent to not just use, but to sell marijuana. And that's my concern, is that we are decriminalizing an amount that would make it easier for the illegal sale and distribution of marijuana.

"The \$130 fine down to \$25 is also making it a fairly *de minimis* amount. I think that that makes it more of a slap on the wrist, or just a kind of a transactional fine rather than something truly discouraging for people to use and sell marijuana.

"This bill raises the amount that you can carry on you from three grams up to a little over 28 grams, that's about a ten-fold increase. Meanwhile, we're taking the fine from \$130 down to \$25, so we're decreasing it by five times. I honestly just think we're going in the wrong direction with this. And this would be almost a *de facto* legalization of marijuana bill. Thank you."

Representative Tarnas rose to speak in support of the measure, stating:

"Thank you, in support. This is a decriminalization bill, not a legalization bill, that's a separate bill which we can address at that time. What this bill does is aligns our amount that we would decriminalize with most other states that have decriminalized cannabis. As you know, nearly half of the states in this country have legalized cannabis. What this does is helps to destigmatize what is a drug that is not a hard drug. This is one that if we were to take a harm reduction approach to dealing with our substance abuse issues within the state, in fact this is the best thing we can do is to decriminalize cannabis.

"An ounce, if you go to a dispensary and you look up at the price board, they price it by an ounce. For those who might be unaccustomed to purchasing cannabis, that might seem like a lot, but it's not really a lot. It might be maybe a month's supply for somebody who is a regular user. And it's not necessarily only to smoke, you can use this to make baked goods so that you could take this as an edible.

"So, I would just urge members to not really worry that this is going down a path that's going to cause some significant problems to our community. I think this is, unfortunately, being caught with a small amount of cannabis, over three grams but less than an ounce, or with some apparatus that you use to consume cannabis, is unfortunately the first step to get people to enter into the criminal justice system. And I think the drug war has failed, and it's time for us to change the way we're approaching what is really a drug that is not something that is causing all of our major problems. It's methamphetamine, it's crack, those are the hard drugs, fentanyl. It's not cannabis. So, I urge members, take a deep breath, it's okay, and vote yes. *Mahalo*, Mr. Speaker."

The Chair addressed Representative Tarnas, stating:

"Representative Tarnas, I know that you don't want to look at the Chair, but please address the Chair when giving floor remarks."

Representative Chun rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Matsumoto rose to respond, stating:

"Thank you, Mr. Speaker. Still in opposition, and if I could have the words of the representative from Maunawili put into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. I encourage the body to take a deep breath and vote no. This bill makes the class B felony offense of delivering drug paraphernalia to persons under 18 years of age applicable to offenders who are at least 21 years old, exempts drug paraphernalia for marijuana from certain penalties under the Uniform Controlled Substances Act, makes the possession of less than one ounce of recreational marijuana a nonjailable violation punishable by a fine of \$25, which was \$3,000.

"This is decriminalizing something that should be punishable that's hard. We should not have a city that's infested with drug dealers, we should punish drug dealers. And this would decrease the penalty of drug dealers. I vote no."

Representative Alcos rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. Safety is one of the biggest things that we want to protect our kids with. But this is opening up a gateway for our youth to sell more drugs because it's only going to be \$25. Well, they can make more money on the streets and take advantage of this bill. I feel that it's going the opposite way. I think that if you increase the fines, I would definitely vote on it. But people are dying out there. People getting shot. There's violence on our street. And I think marijuana, as the former representative said, that this is just marijuana, but it leads to many different things, and there's many people died from illegal drugs on the street. So, I'm in opposition on this. Thank you."

Representative Ganaden rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I'd like to adopt the words of the chair of Judiciary as if they were my own, with brief comment. Representative from District 41 noted that he would like to see increased penalties. This has kind of been the norm in American politics for about 40 years. It led to many issues with regards to inappropriate policing, mass incarceration, and the inappropriate use of county and state funds. Furthermore, there's a nationwide and statewide hiring crisis. Many individuals have marijuana charges on their records, they can't seem to find jobs. For those reasons, I'm in support."

Representative La Chica rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition, brief comment. While I do appreciate the author's intent to address unnecessary arrests, as well as the inequity in our criminal justice system and bringing our Hawai'i laws up to par with the rest of the nation, I do have concerns that with the relaxation of these laws, we really need to have a discussion on strengthening instead how we address the sale, the illegal sale and distribution as well as some of our prevention programs for our youth on mental health, substance use. We really need to look at these issues that overall address community safety first before we look into this. *Mahalo*."

Representative Kobayashi rose to speak in opposition to the measure, stating:

"In opposition. I'm concerned about the amount, one ounce, and the penalty, \$25. Really, the last time I got a parking ticket, I think it was a \$40 parking ticket. So, I think those two things should be looked at. Thank you."

Representative Nishimoto rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Kitagawa rose to speak in opposition to the measure, stating:

"In opposition, brief comment. I'm in opposition to this bill. Unlike the legalization bill that we have been discussing and that's moving in the Senate, this bill has no safeguards. And although this is a decriminalization bill, as others have stated, up to one ounce is quite a bit of marijuana still, it can be 50 to 60 joints. And with that decreased amount, really, there is nothing prohibiting or discouraging people from using marijuana.

"I also am concerned because there are no safeguards. I'm concerned about what we're saying to our youth. We were looking at our vaping epidemic, we can't get that under control. By saying that this, up to an ounce, is decriminalized, ultimately saying you're not going to get in trouble other than a \$25 fee, what is prohibiting our youth from engaging in trying out marijuana? There's no consequence other than \$25, which is really just a slap on the wrist. And I don't want this to become another epidemic for our youth.

"Medical marijuana is already available. So, if you need it, you have access to it, and you can use that for whatever health benefits or health needs you might have, it is available to you. And I would just also like to just point out that even though people say the harms of marijuana use are not there,

that it will not lead to other types of harder drugs or issues with your family, or concerns, or trauma, or whatever that might be, generational issues, I have seen experiences where marijuana use has led to harder drugs, has led to jail time, has broken up families. And so, I don't want to see us going down that pathway. And I want to make sure that we stop that before we open the door to that. So, in opposition."

Representative Garrett rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Takenouchi rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Garcia rose to respond, stating:

"Thank you, Mr. Speaker. Second time, in opposition still. I just want to say that as someone who was raised in public housing and being surrounded by addicts, I can confirm that cannabis is not a not harmful substance, it is indeed harmful. I think all the addicts that I grew up around have told me that they all first started with a puff. And this is sending the wrong message to Hawai'i's *keiki*. It's not good for society. No vote."

Representative Gates rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. May I adopt the words of the chair of Judiciary & Hawaiian Affairs as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Gates continued, stating:

"I think that we have to go back to the history of the prohibition on cannabis to understand where we are today. And if we look at the history of cannabis, it was prohibited because of other corporations having similar products to hemp, for example, like nylon, that then competed with the hemp products that were being created by this plant. And that drove a lot of advocacy to ban hemp, as well as cannabis, to stop the production of these types of products.

"But also, it was a campaign that was very racist towards immigrants, as well as African-Americans who were using cannabis at the time, as a way to be able to stoke fear into the public's perception relating to cannabis. And that leads us to the federal prohibition of cannabis, which was driven by profits of other corporations.

"But then we also have to discuss the prohibition that was led by Big Pharma, which cannabis provides a lot of relief for different issues that people face on a day-to-day basis, including headaches. And if we're talking about drugs, let's not forget about all of the over-the-counter drugs that you can provide right now at any Longs, CVS that you go to, such as Tylenol, NyQuil, and other forms of over-the-counter medicines. And Mr. Speaker, if you take too much of these medications, you potentially could die. I've never heard of anyone using too much cannabis where they end up dead. I could not find any statistics relating to that.

"And so, with this decriminalization, I think that we can also take away the enforcement issues that we're facing at HPD with going after all of these other crimes. If we take cannabis off of that list, they can focus on the hardcore drugs, which we know for a fact has ruined our communities, such as meth and fentanyl, heroin, and other drugs that we know exist right now.

"But I also would like to mention that with the legalization of cannabis, if we actually move on it, that we can really provide safeguards to a lot of the issues that have been shared by my colleagues. Right now, we don't have those safeguards in place because it's a black market and people are purchasing it from the street dealers. We really should have the legalization discussion later on, hopefully, to really talk about how we can protect our communities, how can we put more oversight in this area. And I don't think that we've done that yet.

"But I would like to just end off by saying that, we know what exists out there in the community, we're turning a blind eye to it right now, given this decriminalization bill and not being able to have the legal means to go and actually purchase these types of medical products from legal stores. And the biggest part about it is that as a consumer, if you're a consumer, you don't have any safeguards right now because you don't know what you're purchasing off of the streets. By having the legal means, you will know

exactly what you're purchasing. And I think that's something we should be looking forward to, given that over 24 states have already passed legalization. With that, Mr. Speaker, I end my comments. *Mahalo*."

Representative Ward rose to respond, stating:

"Mr. Speaker, how many times I'm against this? Mr. Speaker, the reality is, even if, and look, I voted for medical marijuana. It's great, medicinal, it's helping a lot of people survive. But the reality is, 80% of that market is going to the black market, they're not going to the dispensaries. That's why the dispensary is saying, hey, we're not making any money. So, the fact that we're going to control the black market is a fairy tale. It's going to proliferate.

"Which again, unless we're blind or deaf, we cannot see what happened in Colorado, where the Chinese and the cartels came in and the black market is gangbusters. California, the same way. Why would people refuse to come to Hawai'i to open up a black market? Doesn't make sense, Mr. Speaker.

"The point is, this stuff is going in a direction which, if we let this bill out to promote it, versus if we vote against it, we inhibit it. Everybody's saying, well, we should promote it, who votes for this. Should we be promoting more consumption of marijuana when in effect it's available anytime, anywhere, by anybody.

"I'm actually saddened to think that the gateway argument is still moot. If you look at the science of it, even the history of the medical, the drug issue, why did we become the meth capital of the nation? Because marijuana prices went up, meth prices were cheap. You could get the same high for less amount of money."

Representative Quinlan rose to a point of order, stating:

"Point of order, Mr. Speaker. It is irresponsible to again, to conflate the high you get from marijuana with the high you get from methamphetamines. They are not in the same world. They do not have nearly the same effects on brain chemistry. There is a huge body of literature out there that is very clear on the differences between crystal methamphetamine and marijuana."

The Chair addressed Representative Ward, stating:

"Representative Ward, please confine your remarks to the measure before us."

Representative Ward continued, stating:

"Mr. Speaker, my point was it was a market variable. It wasn't anything to do with this biological stuff, it was a market factor. It was too expensive for marijuana, and meth gave you the same high, cheaper. That's what I said, that's what I meant.

"But my point of continuing this discussion is, if it's not a gateway, then there wouldn't have been as much marijuana addiction of which, particularly UK science has proven that this is clearly a gateway. Unfortunately, it's still kind of a matter of judging, well you interpret the science to be a yes, the science to be no. But we have some very obvious examples for us, facing us right in the face, and we're not looking at it. We are either blind or deaf. What happened in Colorado, what happened in California, and what is going on with the Oregonians who are saying, oh my god, we allowed mushrooms and anything that gets you high to be legal. And they're saying, well, maybe that's not the best thing for our society, not the best things for our youth, not the best things for our people.

"If we want to protect the people of Hawai'i, Mr. Speaker, we should not be promoting this with a bill, but we should be inhibiting it. Let it go. It's already legal, it's already available. Let us just leave it as it is and not promoting it. In many ways, when we did medical marijuana, we said, that's the full stop and we will not go further than that. Having said that, Mr. Speaker, this is not a good bill. Thank you."

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I first would like to adopt the words of the chair of the Judiciary Committee into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Kapela continued, stating:

"And then another brief comment. Our current threshold that is decriminalized for possession is three grams, and that continues to result in hundreds of individuals being arrested in Hawai'i every single year and facing possible jail time for simple possession of cannabis. Once again, simple possession of a plant.

"Our cannabis decriminalization law is the lowest amount of all decriminalization and legalization laws in the U.S. Most laws apply to at least an ounce. Removing criminal penalties for certain cannabis offenses will keep people out of jail and save taxpayer dollars. We currently spend over \$250 per day, that's over \$90,000 per year, to incarcerate a single adult. Approximately 39% of incarcerated detainees are Hawaiian, according to a comprehensive study by the Office of Hawaiian Affairs. And that number is even worse for Hawaiian women, who comprise 44% of the state's female inmate population.

"Jailing people for smoking a plant is what destroys lives. Keeping people in jail, continuing to detain them, is what destroys families. I think that this is a small step when we consider a community of care and when we consider taking a drug and a medicine, such as cannabis, and ensuring that we actually move towards reforming our cannabis laws to be much more justice-oriented and restorative for our communities. So, that's why I'm in support."

Representative Woodson rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Matayoshi rose to respond, stating:

"Still in opposition, Mr. Speaker. Just briefly, I wanted to emphasize the point made by the shorter representative from Kāne'ohe, that there are no safeguards on this bill, unlike the recreational marijuana bill. What we have here is normalization without any education involved. Also, when I was formerly vice chair of Judiciary, we actually asked the Judiciary how many people are currently in jail just for simple possession of marijuana. And the numbers, I think, were under 10 people. I mean, there's almost no one in jail just for simple possession. It's usually simple possession along with other crimes. Thank you."

Representative Gates rose to respond, stating:

"Thank you, Mr. Speaker. Just a just a quick comment. As we mentioned incarceration of our Native Hawaiian people, I definitely believe that Operation Green Harvest, when Hawai'i took a stance to go after anyone using or growing cannabis, the attorney general acknowledges that the green harvest has a direct correlation to Hawai'i's meth epidemic. Thank you, Mr. Speaker."

Representative Ward rose in opposition to the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ward's written remarks are as follows:

"Mr. Speaker, I am in opposition to this measure. My views on the impact of legalizing this measure are best articulated by Prosecutor Steven Alm in his October 8, 2023 op-ed in the Star Advertiser entitled, 'Legalizing marijuana will cause harm.'"

"Thank you, Mr. Speaker. I rise in opposition to this. Mr. Speaker, a few of us were around during the Lingle Administration, when there was a deep recession. We had to really count on what were basic services because we were running out of money. Since that payroll lag was implemented, every administration heretofore really liked it because, hey, this is \$172 million you don't have to pay out. Now, Mr. Speaker, this bill says, hey, we want to do a payroll—"

At 12:13 p.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:14 p.m.

Representative Ward continued, stating:

"Thank you, Mr. Speaker. I hope they find whoever is missing. And I may relate that to what I'm going to say. Because if we take \$172 million out of our budget to do a payroll advance, we're going to be hurting somebody on Maui. And it could be a kid, it could be a missing kid, it could be somebody who lost their family.

"I really think this is a bad policy and bad timing. If you want to do this, do it when there's a robust budget, not when things are tight and we've got an island that's suffering and not surviving. They need probably about \$6 billion. And we want to do a payroll advance. And if you know payroll advances are hard when you make a mistake to really recall that money.

"Everybody's adjusted to this since the Lingle Administration. Nobody probably other than inside baseball knows about it. So, Mr. Speaker, it's a policy to go back to normal. But in terms of timing, it's really, really bad. And we should look bad because it's going to be taking away from Maui. And anybody from Maui who knows about this, I think will be ashamed of us. Thank you."

Representative Ward rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Garcia rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill would basically pay for all the meals for the kids in the Department of Education, no matter their income level. I don't think it's the job of all of the people of Hawai'i to be paying their state income tax towards the meals of the children. Parents should raise the kids and not the government."

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Students can't learn if they're hungry and starving. I think it's important that we ensure that every single child has access to not only a quality education, but the opportunity to really learn that education. Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise with mixed emotions on this bill. I support it, but I have some reservations. Okay, I know you're going to put me in favor. But hey, guys, let's all recall that we have ALICE families. When the governor stood there and he said 44% of Hawai'i's families are ALICE families, 63% of the Hawaiian community are ALICE families. We're saying, hey, we don't have enough money in our economy to have a roof over our head and feed our kids.

"So, what is surprising about feeding our kids in school? These kids are not getting it. What I'd like to see as this progresses through our system in the Legislature is there'd be some metrics. We should be able to get a GPA or some kind of a measurement that this is helping people to do better in school, because otherwise, as was indicated earlier, if you're hungry, you're not going to be very smart or you're not going to be very much prone to excel in your academic performance.

"So, Mr. Speaker, this is good, but I hope it's temporary. We should be able to have an economy that allows people to buy lunch for their kids. I put the burden of proof on this body that we are not diversifying our economy enough to have wages in our families. And I'm still talking about this is good. Let's give them a crutch, but let's not wire it to them where it's forever and ever. We've got to get people to be self-confident, independent, and self-reliant rather than government for anything, even including their lunch and their breakfast.

"It's unfortunate we have to do it. It's a good bill, but it's unfortunate we have to do this. We've got to get a stronger economy to make this not happen perpetually into the future. Thank you."

Representative Matayoshi rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In favor, in support. This is my bill. I think the best way to prevent being becoming an ALICE family is to get a good education. And kids can't learn without food.

"So, pretty simple bill. It sounds like everyone is in favor of, well it sounds like most of us are in favor of feeding kids. I think this bill is fairly targeted since a lot of ALICE families are in the public school system. For better or worse, a lot of wealthier families choose to not send their kids to public schools. So, this is a bill, again, targeted relief. And what better way to spend government money than feeding kids and growing the next generation? Thank you."

Representative Perruso rose to speak in support of the measure, stating:

"Mr. Speaker, I would just like to enter the words from the vice chair of Higher Education and the chair of Labor into the Journal as if they were my own. And also to note that, as the previous speaker mentioned, the majority of our students are actually living in poverty, and the majority of our schools

are Title I schools. So that should be some indication to the body that there is a high level of need," and the Chair "so ordered." (By reference only.)

Representative Garcia rose to respond, stating:

"Mr. Speaker, still with reservations. I do want to say, as somebody who was raised in public housing and with free breakfast and lunch in Hawai'i public schools, I appreciate the services that are there for families who cannot afford to pay for their own school lunch. But for families who can afford to pay for it, it should not be the job of every other hard-working taxpayer in the state to cover that. So, with reservations."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1775, HD 1, entitled: "A BILL FOR AN ACT RELATING TO EDUCATION," passed Second Reading and was referred to the Committee on Finance, with Representatives Garcia and Ward voting aye with reservations, with Representative Pierick voting no, and with Representatives Kila and Takayama being excused.

Representative Perruso rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Ward rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I stand in strong support, and I'd like to write strong comments into the Journal regarding the revitalization of the business community, which goes back to our previous discussion about, why are there so many ALICE families? Because we haven't revitalized our economy to do what we are best at. Having said that, this is a good bill, we need, again, all boats rise with a rising economy. When our economy is so weak and wages so small, Mr. Speaker, we need bills like this for us to focus our attention on revitalization of our business community."

Representative Ward's written remarks are as follows:

"I am in strong support of HB 1965. In my 'past life' prior to joining elected office, I worked extensively in the business world as both a small business owner and entrepreneur trainer, as well as studied Hawai'i's business environment and potentials at length as the focus of my PhD. When joining the Legislature in 1993, I co-created the House Small Business Caucus which continues to this day to advocate on behalf of our entrepreneurs. One of my greatest priorities is increasing Hawai'i's economic diversification and competitiveness. Our location and resources provides us with a prime opportunity to expand in many different directions. We can be the Hollywood of the Pacific, the Space Center of the Pacific, the Geneva of the Pacific, the Pharmaceutical Center of the Pacific, the list goes on..."

"This measure through the creation of a task force to explore such potentials is long overdue. I am hopeful that its findings will allow us to become more entrepreneurial, more innovative, and more competitive in our region and across the world in a variety of fields. As we continue to suffer from brain drain to the U.S. mainland, it is crucial we invest in our state and its people by stimulating our industries and fostering a friendly business climate which as of late we have sadly failed to do."

This is not an artificial voice. This is myself. My point is this. This AI ideally should have been before August 8th. And why should we have to have a mother, may I to do this? We should be using AI with only one particular caveat, and that is source it out. Like when you use something or plagiarize something, or if you don't source it out, you're plagiarizing. And I think we have to treat AI the same way we treat academic kernels of knowledge and wisdom. The point is, this is long overdue, and I hope every time that AI is used for policemen to catch a thief, we don't have to pass a bill to do that. My point is, Mr. Speaker, we need to use AI while it's readily available for problems that we have as a society. Just source it out like I did at the beginning of my speech. This is Representative Gene Ward, the real person. Thank you."

"Mr. Speaker, many of us have been troubled by recent incidences in our community in which firearms have been used by individuals after a domestic violence incident. The Cachuela case comes to mind. It happened just prior to Christmas. The petitioner, Ms. Cachuela, requested a protective order which was issued to her on a Wednesday. The incident happened on a Friday.

"In 2021, this body changed the law regarding protective orders and mandated that respondents who have a protective order ordered against them have to submit their firearms. What we're finding out is there is some communication issues between the Judiciary and the various county police departments and the newly created state office. So, we're hoping that this bill will help us craft better policy in the future and assist our various state agencies and county agencies in communicating to get firearms from people that don't need them. Thank you. In support."

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition. Thank you, Mr. Speaker. This bill prohibits the assessment of any fees, fines, or court costs against a person who was adjudicated for an offense committed during the person's minority. In other words, if you're under the age of minority. Once again, this is sending a wrong message, a bad message, to Hawai'i's children and families that when you break the law, there is no penalty whatsoever. And I think it's important to note that the Judiciary has a system already in place where if families cannot afford the fees imposed, they can work it out through community service. So, this is a bad bill. No vote."

Representative Chun rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"No vote, brief comment, please. Mr. Speaker, this bill tends to negate the notion that historically, academically, has been called cause and effect. Something causes something has an effect. Stimulus response. This turns science on its head in saying, hey, if there's no consequences, why not just continue doing it? Just like if there's only \$900, you can, if you steal under \$900 and we know this is going wild on the mainland, Mr. Speaker, that you're going to get out of jail free.

"So, I think this is a goody two shoes kind of thing. Like, hey, because you're young, we don't want to teach you a lesson, because Pavlov's dog and all these other stimulus response, cause and effect. All those are old principles. We want to do new things. You can do whatever you want and get away with it, we're not going to charge you or punish you at all.

"Mr. Speaker, we're turning ourselves into anti-intellectuals with bills like this. This is not the way to go. People have to learn by their mistakes. The school of hard knocks, unfortunately, is being thrown out the window with a bill like this. For that it's bad policy, sends the wrong message, as my colleague just stated. Thank you."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Alcos rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Perruso rose to speak in support of the measure, stating:

"In strong support. Mr. Speaker, youth who cannot pay for fines and fees face extended probation, additional court visits, loss of or an inability to obtain a driver's license, and even incarceration. The debt keeps them trapped in the system and can have lifelong negative consequences. Fines and fees increase recidivism, the data shows, undermine the rehabilitative aims of the juvenile justice system, and threaten community safety and stability. For those reasons, I'm in strong support."

Representative Kila rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Holt rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Kapela rose to speak in support of the measure, stating:

"In strong support and I'd like to request to adopt the words of the representative from Wahiawā into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Tam rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ganaden rose to speak in support of the measure, stating:

"In support, Mr. Speaker. In 2012, the state embarked on a bunch of ambitious measures to change the way we deal with juveniles in the criminal justice system. There have been many successes in that long road. Just last year we celebrated, for the first time in the history of the State of Hawai'i, no young women who were incarcerated.

"There have been many changes to juvenile justice done by the Judiciary, Department of Human Services, schools, parents. We've all learned to communicate. One of the big lessons that we've learned is that fines don't do anything but traumatize kids and don't prepare them to be better adults. We've learned to work with kids and develop their skills and prepare them to be functioning members of society. The Judiciary testified that they have essentially stopped fining children, it does no good. So, to provide some uniformity throughout the state, I stand in strong support. Thank you."

Representative Garcia rose to respond, stating:

"Still in opposition, strong opposition. I don't know what data was referred to in science and studies and all this stuff that shows certain things. But being someone who was raised in an environment where lots of my friends and family were involved in the court systems, I think fines are very important. It teaches people a lesson, when you break the law, there's a penalty to pay. And if you can't pay it, work it out. But this whole notion of soft on crime, not enforcing the law, is ridiculous. And you look around all these other cities across the country who have adopted these liberal policies, their crime is just soaring through the roof. And we don't want that happening here in Hawai'i. A no vote."

Representative Tarnas rose to speak in support of the measure, stating:

"In support. Just to make it clear that while this measure says that minors shall not be levied any fines, there's still consequences for the offense. They still can be ordered to do community service as long as it doesn't interfere with their school or work. They still can be compelled to participate in accountability programs that are offered by the Judiciary. They still have to clean up the graffiti, if that was their offense, and their guardians or parents need to work with them. They still can be compelled to go to alcohol or drug abuse counseling services and programs.

"So, there is accountability here. It's just that we're not going to be using fines as a way to do it. We're going to try to help rehabilitate these youngsters so that they can become productive members of our community. So, I urge all members to support this. Thank you, Mr. Speaker."

Representative Ward rose to respond, stating:

"Mr. Speaker, second time, no vote and another brief comment. Mr. Speaker, if we have longitudinal studies that say when we don't give them a penalty or something that says this is wrong that you're doing, I would agree with my two colleagues who just said, hey, this doesn't work. Penalizing people, punishing them, having them do the time if they do the crime, it doesn't work. Give me a longitudinal study and I'll show it. This is quick instant science that we're having quotations.

"Just like we said, hey, we shouldn't put people in prison. And behind that motive was, hey, we don't want to pay \$258 a day for people, we want to save money, so we let these guys out on the street.

"The point is, the lessons that's going on in the mainland that have done these things, hey, the thing is backfiring. Even Portland is saying this fentanyl-free stuff, it's a bunch of crap. This thing about any drugs can go, mushrooms, *et cetera*, a bunch of crap we're going to pull down and pull, but we're going to defund the free druggie stuff. This is Portland I'm quoting, not Honolulu. If you disagree, it's not a point of order."

Representative Perruso rose to a point of order, stating:

"Point of order. This is not relevant. I am not necessarily disagreeing, but I am saying that the content of his oration is not relevant."

The Chair addressed Representative Ward, stating:

"Thank you. Could you please stick to the measure, Representative Ward."

Representative Ward: "Come on, Mr. Speaker, letting that be as an interruption is an insult to the democratic process. I have the floor. If someone disagrees, they can stand up and argue, not sort of get a point of order."

Vice Speaker Ilagan: "Representative Ward, let's talk about the measure. Thank you."

Representative Ward continued, stating:

"The bottom line is this, we need to have longitudinal studies to prove what otherwise this bill is trying to do that's saying there's no cause and effect, you don't catch kids when they're young to straighten them out. And in fact, the data says they have even a profile of people who don't have a father in the family, they have done no schooling, you can almost predict people who are going to go to prison. And this thing even adds to the opposite effect of that. That, hey, just leave them alone. Which, to me, Mr. Speaker, we're turning science on its head.

"But if what has been said on this floor is true, show me the longitudinal studies when we let these guys go scot-free, that they come and they become nice, very productive adult citizens. That is la la land. And as I cited early, before I was interrupted, Portland and these other liberal cities have said anything goes, they're pulling back now, saying let's get back to reality. You can't have drug free places. The businesses are leaving. People in the neighborhoods are saying, hey guys, we don't want to walk over feces and drug-laden homeless people in our community. And thank god we don't have it in Hawai'i, but if we keep on this liberal path that anything goes, Mr. Speaker, let us not be surprised that this body initiated, ushered, and otherwise was a co-conspirator in that process."

Representative Souza rose to speak in support of the measure, stating:

"In support, Mr. Speaker. And just a point of clarification, it's my understanding that Republican-run red states are leading the charge in reducing or eliminating youth fines. Thank you."

Representative Ganaden rose to respond, stating:

"Mr. Speaker, second time, in response to the words from the representative from District 18. In support. The State of Hawai'i actually has these really wonderful longitudinal studies. Longitudinal is kind of the buzzword that I really enjoyed for a few years when I was working with youth every day. It's where you track data over a long period of time, usually human resources data.

"There's a famous study, started in 1955, called the Kaua'i Longitudinal Youth Study, if the representative would like to look it up, that discusses the impact of, basically, poverty on growing up here in the islands. It's cited by many nonprofits throughout the state for the reasons for supporting afterschool programs, sports programs, those kinds of things. We have an evolving conversation across the world really about adverse childhood effects. We use the acronym ACES, so we now have, like, a way to score the ways that individuals have trauma growing up and the ways to reduce those traumas.

"I'd like to commend the many members here that are in young people's lives. One of the big findings from the Kaua'i Youth Longitudinal Study, started in 1955, was that one of the biggest ways to keep a child out of poverty and out of crime is to just be a person in their lives. You only need one, you only need one consistent adult in your life to turn your life around. And one of the other things they found is fines and continuous interactions with the court, they do nothing but add to trauma. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2722, HD 2, entitled: "A BILL FOR AN ACT RELATING TO YOUTH FEES AND FINES," was referred to the Committee on Finance, with Representatives Aiu, Chun, Kong, La Chica, Lamosao, Matsumoto, and Tam voting aye with reservations, with Representatives Alcos, Garcia, Gates, Holt, Kila, Pierick, Quinlan, and Ward voting no, and with Representatives Matayoshi, Takayama, and Todd being excused.

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill gives power to the government to tax even more. Right now, Hawai'i has some of the highest taxes in the nation. The people of Hawai'i don't need more taxes, they need less taxes."

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

"Mr. Speaker, in support, I rise with a brief comment. Mr. Speaker, my concern is, this is very good in one sense because it uses interested, already owned property which will, with the right size, be able to build another one. And this gives you the money to do that. That is great. It's using, we don't have to buy new land, we just incentivize those who have land who can build and can rent and increase the housing supply.

"My reservation, that's not the right word, my hesitation is that the incentives are not big enough. Case in point, Mr. Speaker, this will give you, for example, a \$300,000 loan at 6%. Six percent is almost market rate. And if you've got a 6% loan, you're going to have to pay \$1,800 a month. And if we look at the market rent for a two bedroom in Lahaina at \$2,450, that gives you about \$600 net. But that's not really net because you got to pay GET tax, you may be inclined to have repairs, who knows what they're going to do with the TAT tax with these things. The point is, it's a pretty slim one. And generally speaking, entrepreneurially, people don't invest money unless they're 60% or 70% sure that they're going to make money.

"This is probably squeaky clean. Okay, if you've got a lot of money and you want to do good, you probably will do this. But for those who want to be incentivized, Mr. Speaker, I would suggest there's enough wiggle room in the interest rate. If you could pull that one down, I think you would get a lot more participation. Because we need housing, we need housing in Maui, we need it fast. And this is a good bill, it just needs to be tweaked a little bit better. And I know the man who put it together is a businessman, and I'm sure he's listening intently. Thank you, sir."

Representative Evslin rose to speak in support of the measure, stating:

"In support, thank you. This measure would, through HHFDC, would loan money out to CDFIs at 1% interest and allow the CDFIs to reloan that out to qualified individuals at between 1% and 6% interest rates. The intention here is that many families simply won't qualify for financing nowadays, especially with high interest rates. And by providing that money through CDFIs, these are financial institutions which are dedicated to support working-class families and communities, this ensures that working-class households can get access to capital to build an ADU, provide family for housing members, or possibly to get rental income to afford a mortgage. So, I think this is a good measure. Thank you."

The point is this, whoever you are, you're in it. I don't know if the amortization tables don't allow that. But generally, America is a place of choice, and you choose to be in something, or you choose to be out of it. Representative Lamosao rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Hussey-Burdick rose to speak in support of the measure, stating:

"In strong support. As someone who has a biology degree who has actually studied gender and sex at an R-1 research university, I must correct

the factually inaccurate statements that have been made on this floor about there only being two genders.

"The science is very clear. Many studies, including a 2018 study by Horii *et al.*, published in Diagnostic Gynecologic and Obstetric Pathology (Third Edition), shows that many people with intersex parts have different XX and XY genotypes, concluding that chromosomes do not necessarily dictate what genitals you get.

"There are more than two genders found in nature, despite anyone's feelings about it. Transgender, intersex, and nonbinary humans not only exist, but they are a vibrant and appreciated addition to our society. Many indigenous cultures not only accept people who don't fit into the gender binary, but they honor them as sacred souls that transcend traditional gender roles.

"The Fourteenth Amendment of the United States Constitution guarantees people of all genders, not just two genders, equal treatment and due process under the law. Therefore, Mr. Speaker, I contend that it is not only our right, but it is our duty to pass this legislation. Thank you."

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition, thank you. I took a class of biology in 10th grade, and I learned then that there is an X chromosome and there is a Y chromosome. There are special circumstances, of course, throughout nature, but nonetheless, 99.9% of the time you got an X chromosome or a Y chromosome, it's basic science, even the animals know it.

"I do want to talk about this bill from this angle. This bill is not attacking transgender people. And my no vote against this is not an attack on transgender people. It's simply saying we're talking about minors here, Mr. Speaker. Minors, this is children. If you're an adult, this is a free country, you can live your life as you wish, dress as you wish, live as you wish. But this is children. This is child mutilation, to remove their gender parts at a young age.

"We don't even allow kids to purchase cigarettes until they're 21 years old, or alcohol, or join the service till they're 18. But yet for a gender transition reassignment surgery, hormone therapy, chemical castration, this is okay? I think most families here in Hawai'i, if they knew that all these people in here, Mr. Speaker, would vote yes on this, they would not be happy. No vote."

Henry Kaiser said there should be a breadbasket in the back, of which we have in Kamilo Nui Valley. They have a lot of cesspools. This bill is very relevant to them. And do you know why I really like this bill? Because it's a pilot, Mr. Speaker. That should be more the theme of this body, so we don't do unintended consequences by locking things into the law, we just say, let's see if it works. This is a pilot program. I commend the author, and I think that should be for every deliberating body like this one, to do a pilot, see if it works rather than lock it in and have unintended consequences of which we never unlock things forever in too many cases. For that reason, Mr. Speaker, this is a very good bill. Thank you."

"First, funding for the Hawai'i State Hospital is critical to ensure the security and safety for all those working at the hospital, the only publicly funded state psychiatric hospital serving patients from throughout Hawai'i. More information is still needed from the Department of Health about the exact number of staffing and administrative positions being requested, specifics about the security features, equipment, and upgrades that are being planned for the hospital campus, and the additional funds for treatment throughout the mental health continuum of care from crisis residential services, to treatment at the hospital, and programs within the community. My hope is that this information will be forthcoming in the promised governor's message.

"Second, in light of recent reports that lawmakers' hands will be tied by larger than expected budget requests related to recovery from the devastating Maui wildfires, this bill seeks to appropriate funding for these requests from the mental health and substance abuse special fund created through HRS Section 334-15 rather than utilizing general revenue funds.

"Based on past annual reports by the Department of Health, the Adult Mental Health Division has expended funds from this special fund for psychiatric services and other non-state employment services on a fee basis in the amounts of \$4,665,278.94 between July 1, 2018 through June 30, 2019, and \$16,589,152.95 between July 1, 2020 through June 30, 2021. Accordingly, it would be entirely consistent with past funding that monies from this fund be used, either in whole or in part, to fund the urgent requests from the department to address the immediate safety and security concerns at the Hospital."

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 1939, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE ARTS," passed Second Reading and was referred to the Committee on Finance, with Representatives Aiu, Garrett, Perruso, Takayama, and Todd being excused.

Representative Tam, for the Committee on Culture, Arts, & International Affairs, presented a report (Stand. Com. Rep. No. 616-24) recommending that H.B. No. 1940, as amended in HD 1, pass Second Reading and be referred to the Committee on Finance.

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 1940, HD 1, entitled: "A BILL FOR AN ACT MAKING AN APPROPRIATION TO THE STATE FOUNDATION ON CULTURE AND THE ARTS," passed Second Reading and was referred to the Committee on Finance, with Representatives Aiu, Garrett, Perruso, Takayama, and Todd being excused.

Representative Tam, for the Committee on Culture, Arts, & International Affairs, presented a report (Stand. Com. Rep. No. 617-24) recommending that H.B. No. 2735, HD 1 be referred to the Committee on Finance.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 2735, HD 1 be referred to the Committee on Finance, seconded by Representative Morikawa.

Representative Holt rose to speak in opposition to the measure, stating:

"In opposition, Mr. Speaker. I learned something new and surprising in the testimony in the hearing. In our Tourism hearing, we had raised concerns that the state foundation does not focus on the host culture, our Hawaiian culture. The executive director responded, and I quote, I definitely admit that the state foundation was built to exclude. So, for those reasons, I'm in opposition."

[Note: The following is an exchange between Representative Holt and Karen Ewald, Executive Director of the Hawai'i State Foundation on Culture and the Arts, during the hearing in the Committee on Tourism on February 1, 2024:

Representative Holt: "In the past, there have been some concern that the State Foundation on Culture and the Arts kind of doesn't focus on the host culture, and so has there been any improvements made, is there any focus that you guys have specifically on the Hawaiian culture?"

Karen Ewald: "There have been, and I'd like to say, we've made drastic, mindful improvements in the last few years to turn that keel, because I will be, definitely admit that the state foundation was built to exclude, and by including Native Hawaiian host cultures, we did take mindful efforts to do that. We, just with the grants program, our folk and traditional, it's very robust with the support of Native Hawaiians, and other cultures for that matter. But we have increased our contracting and acquisition of works of art for Native Hawaiians by 78%. I'm not going to say that we're all there yet and we're good to go, I think that we still have a long way to go,

but it's been a real mindful effort on our part. And I'd love to talk further about that, too."]

Representative Lamosao rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Kila rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ward rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Kong rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Gates rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ganaden rose to speak in support of the measure, stating:

"In support, Mr. Speaker. I believe as the state and the Legislature tries to rearticulate how we're going to be selling ourselves to the world, we're still a tourism-based economy, we need to figure out how we're going to support the existing programs that have traditionally been supported by the Hawai'i Tourism Authority.

"I think for the vast majority of these programs, the appropriate housing agency is the State Foundation on Culture and the Arts. In regards to their support of culture, they have responded, I think more than adequately, to include numerous shows, right across the street and throughout the state, that have a variety of voices from historically underrepresented groups, including from Native Hawaiian communities. For those reasons, in support."

Representative Ward rose to respond, stating:

"Second time, Mr. Speaker. The question is whether if we're in a horse race, do you want to have a Clydesdale versus a real racehorse stallion. Government does not know how to run things. The HTA knows how to run things. They were so successful we are, quote, shutting them down, shutting them, pulling them back.

"You want to give it to the state culture and the arts, which I have a PhD, they've got PhDs all over the place. Those are not the kind of people that we want to have in control of who we are and what our identity is. HTA has done a great job. Hawai'i visitors bureau has done a great job. As I said, they've done such a job, we're trying to cool their jets a bit. But to transfer away these things, of which they've done a good job at, and particularly now marketing the Hawaiian culture, *malama* Maui, *malama* Big Island, *et cetera, et cetera*.

"Why do we want to do that? Why do we want to shift the chairs of the Titanic just for the sake of, well, we're doing our job. We're reactionary. Mr. Speaker, let's take into context the cultural subculture of each of these institutions. HTA is entrepreneurial, it's economic, State Foundation on Culture and the Arts, here's some of the artistic, this is the things that they do. Which they do well, but they're not into the tourism industry.

"A Clydesdale is a beautiful horse, but he can't run fast. A racehorse is what we'd need for these kinds of entities. Business people, people who think enough. And I know there's not very many business people on this floor, Mr. Speaker. That's probably why we always side with the bureaucrats rather than with the small businesses, rather than with the entrepreneurs of this great state. For those reasons, Mr. Speaker, let's let the entrepreneurs go forward in the economic circles and let the Clydesdales and the bureaucrats stay back and mind the store as managers, not as leaders. Thank you."

Representative Quinlan rose to speak in support of the measure, stating:

"In support, Mr. Speaker. I would like to point out to the members that the intent is not to take any grants that are related to tourism away from the tourism authority. Quite frankly, the concern is that under the current program, there are too many of these grants that are being awarded to wonderful organizations with great programs that I believe very strongly in

my heart that the state should fund. Unfortunately, the nexus to tourism is quite weak or non-existent. There has been a lot of talk on this floor over the last couple of years, mostly from one corner over there, about the need for HTA to help us power our economic engine. This bill is an attempt to refocus our tourism authority on our economic engine for the betterment of all of us. *Mahalo.*"

Representative Alcos rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2735, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII TOURISM AUTHORITY," was referred to the Committee on Finance, with Representatives Alcos and Kong voting aye with reservations, with Representatives Garcia, Gates, Holt, Kila, Lamosao, and Ward voting no, and with Representatives Aiu, Garrett, Perruso, Takayama, and Todd being excused.

Representative Tam, for the Committee on Culture, Arts, & International Affairs, presented a report (Stand. Com. Rep. No. 618-24) recommending that H.B. No. 2246, HD 1 be referred to the Committee on Finance.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 2246, HD 1 be referred to the Committee on Finance, seconded by Representative Morikawa.

Representative Holt rose to speak in opposition to the measure, stating:

"In opposition, Mr. Speaker. And I'll just restate my comment that the director of the state foundation said that, I definitely admit the state foundation was built to exclude the host culture. Thank you."

Representative Lamosao rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Kila rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ward rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Gates rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2246, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE STATE FOUNDATION ON CULTURE AND THE ARTS," was referred to the Committee on Finance, with Representatives Garcia, Gates, Holt, Kila, Lamosao, and Ward voting no, and with Representatives Aiu, Garrett, Perruso, Takayama, and Todd being excused.

Representative Perruso, for the Committee on Higher Education & Technology, presented a report (Stand. Com. Rep. No. 619-24) recommending that H.B. No. 2710, as amended in HD 1, pass Second Reading and be referred to the Committee on Consumer Protection & Commerce.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 2710, HD 1 pass Second Reading and be referred to the Committee on Consumer Protection & Commerce, seconded by Representative Morikawa.

Representative Garcia rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2710, HD 1, entitled: "A BILL FOR AN ACT RELATING TO TELECOMMUNICATIONS," passed Second Reading and was referred to the Committee on Consumer Protection & Commerce, with Representative Garcia voting aye with reservations, and with Representatives Aiu, Garrett, Perruso, Takayama, and Todd being excused.

Representatives Nakashima and Tarnas, for the Committee on Consumer Protection & Commerce and the Committee on Judiciary & Hawaiian Affairs, presented a report (Stand. Com. Rep. No. 620-24) recommending that H.B. No. 2407, HD 1, as amended in HD 2, be referred to the Committee on Finance.

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, the report of the Committees was adopted and H.B. No. 2407, HD 2, entitled: "A BILL FOR AN ACT RELATING TO WILDFIRE RISK MITIGATION," was referred to the Committee on Finance, with Representatives Aiu, Garrett, Perruso, Takayama, and Todd being excused.

Representative Belatti, for the Committee on Health & Homelessness, presented a report (Stand. Com. Rep. No. 621-24) recommending that H.B. No. 407, as amended in HD 1, be recommitted to the Committee on Health & Homelessness.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 407, HD 1 be recommitted to the Committee on Health & Homelessness, seconded by Representative Morikawa.

At this time, the Chair stated:

"Members, this is a short form bill, is there any discussion on this measure? The Chair would like to remind the members that pursuant to Section 387 in Mason's, a motion to recommit is subject to limited debate. So, debate is limited to the propriety of the recommitment of House Bill 407. This is a procedural discussion on whether procedurally the measure should be recommitted or not recommitted."

Representative Kobayashi rose to speak in opposition to the motion to recommit, stating:

"Mr. Speaker, I have a procedural issue. I am in opposition. Mr. Speaker, this bill is to be recommitted back to the same committee from which it came, Health & Homelessness. I believe that this is an inappropriate committee referral. Now that this bill has new content, which it did not have at all before, it is a new bill. And as a new bill, it should have a different committee referral than back to its original committee."

"This bill now designates a specific chapter in HRS having to do with professional vocational licensing, which was absent in the original short form bill. It mentions midwives, birth attendants, doulas, lactation specialists, an attorney general task force, an LRB study. And it says, among other things, 'a person may practice midwifery without a license to practice midwifery if the person is,' then followed by two pages. So, on this basis, clearly, clearly this bill is a new bill. And as a new bill, it deserves and necessitates a different committee referral other than just one committee. Thank you."

Representative Kitagawa rose to speak in opposition to the motion to recommit, stating:

"Thank you, Mr. Speaker. I'm in opposition to this recommitment. I'm in opposition to the recommitment of this short form bill because it goes against the process. The short form bill's contents were shared with committee members and the public just two days ago, on Wednesday. And based on the proposed contents, as representative previously had stated, it should go to two or more committee referrals instead of the single referral that is currently on the short form bill."

"Yesterday was the lateral filing deadline, which means that this short form bill will have missed the deadline should it have the multiple committee referrals that it should have. My concern is that this goes against transparency and full disclosure, and opportunities for the community to weigh in on this issue. And for that reason, I'm in opposition of the recommitment."

Representative Matayoshi rose to speak in opposition to the motion to recommit, stating:

"In opposition. Mr. Speaker, one of the reasons that this short form bill was used, the justification was a letter from the attorney general to the chair of Higher Ed, dated January 17th, 2024, responding to an email sent on January 15th, 2024. This letter is not a formal opinion. A formal opinion by

the AG, under HRS 28-3, would be highly instructive, as per our Supreme Court. This is an informal advice letter which does not hold that kind of weight. And I don't think, in my opinion at least, that it raises issues that are of such an emergency nature that it requires such an extraordinary procedural measure to bring up.

"The reason I bring up the dates of the letter and the date of the email is because this was about a week before bills were due. And it seems like, from the letter contents at least, that this bill was not, or the concept was not being worked on during the eight months of interim. Perhaps it was, it just doesn't seem like it. But interim would have been the more appropriate place to work on this and to bring it up in the normal course of things, whereas right now it's being brought up as sort of an emergency measure as a short form bill, which I again just don't think is appropriate. If this is an emergency measure that needs to be introduced, I just don't see justification. Thank you, Mr. Speaker."

Representative Belatti rose to speak in support of the motion to recommit, stating:

"Thank you, Mr. Speaker. In support and request to insert written comments, including the AG's letter that was presented to members of this body, not just the requesting member of the Higher Education Committee.

"Some brief comments. Mr. Speaker, this is a procedural motion, and we are following the procedures of this body. The proposed draft was shared in the same way that for House Bill 408, which we just passed, with the committee at the time that we had the hearing for decision making.

"Secondly, Mr. Speaker, this is a proper procedure because, as you know, the re-referral process involves a re-referral process. The process now is to recommit to Health & Homelessness and then the bill will be considered for re-referral, as I explained in the hearing. I do not think anyone is suggesting that it should only stay with the Health Committee. So, I understand the concerns that folks are raising.

"But again, this is a procedural motion and for this purpose, we have followed the procedures, followed the scripts that were provided by the Chief Clerk's Office with the passage of a short form bill. And in fact, given the fact that we were given such late notice, it is precisely this kind of matter of this great importance where it should be re-referred in a way that it can be heard. Thank you, Mr. Speaker."

Representative Belatti's written remarks are as follows:

"Mr. Speaker, I stand in support of House Bill 407, House Draft 1 and its recommitment to the Committee on Health & Homelessness consistent with this body's past policy, practice, and precedent in handling short form bills.

"First, in my 18 years as a member of this body, I cannot recall a time when a short form bill has received this type of treatment and opposition on a procedural motion. It is precisely because of this deviation from our chamber's long practice and precedent of having short form bills being recommitment to the committee from which it came, to be followed by an appropriate re-referral by the Speaker that allows for a future public hearing, that I support recommitment so that a future public hearing can be conducted consistent with the principles of transparency, full disclosure, and opportunity for the community to weigh in on the important issues raised by this measure.

"This opportunity for the community to weigh in and be heard, and the propriety of this body taking action to continue the legislative process is critical in light of the January 17, 2024, Attorney General's opinion that was provided to various lawmakers, members of the Health & Homelessness Committee, and has been submitted as part of these written remarks. This Attorney General's opinion raises very serious concerns about access to reproductive and maternal health care for mothers and their babies especially in rural communities, and overly broad regulations not just for licensed midwives but for doulas, lactation consultants, counselors, and other birth working professionals, as well as cultural or religious practitioners.

"Second, in response to concerns that the use of this short-form bill was to get around a bad referral, this is simply not true. Consistent with the January 10, 2024, House Majority Leader memo to all members in this chamber describing short form bills, the ideas generated in the House Draft

1 truly arose after the bill introduction deadline of January 24, 2024, from the numerous discussions amongst those individuals identified below.

"As I explained in the hearing before the House Committee on Health & Homelessness as we moved out this measure pursuant to House Rule 11.5(5), following the issuance of the Attorney General's opinion, there was much discussion about the implications and serious concerns raised by the opinion. These discussions included: (1) what was intended by Act 32, the original law enacted in 2019; (2) who the law was intended to apply to; (3) what could be done through the implementing agency and the rulemaking process; and (4) what could be done between now and the sunset of entire statute on June 30, 2025, to address the concerns raised in the 2024 opinion. These discussions further accelerated after the January 29, 2024, public meeting of the Midwives Committee where the proposed rules and rulemaking process for Act 32 were among the topics to be discussed.

"These discussions occurred among numerous legislators, including the House Majority Leader, a co-convenor of the Women's Legislative Caucus, the chair of the House Human Services Committee, the chair of the House Higher Education & Technology Committee, and other legislative members. These discussions also included deputy attorney generals, and staff of the relevant implementing agencies from the Department of Commerce and Consumer Affairs, the Professional and Vocational Licensing Division, and the Regulated Industries Complaints Office.

"To reiterate, the House Draft 1 that is the subject of this motion for recommitment is the product of all of these discussions that occurred largely after the bill introduction deadline. Accordingly, it is entirely appropriate for this measure to be recommitment and re-referred so that a public hearing can be conducted. For the reasons stated herein, and because the opposition to this procedural motion deviates so enormously from the long practice and precedent of this chamber and effectively flies in the face of a commitment to transparency and public participation in the hearing process, I wholeheartedly support this motion."

The Honorable Amy A. Perruso
Representative, District 46
The Thirty-Second State Legislature
State Capitol, Room 444
415 South Beretania Street
Honolulu, Hawai'i 96813

Dear Representative Perruso:

This responds to your email on January 15, 2024, to the Attorney General, who asked me to respond on her behalf. Your email included an attached letter asking several questions regarding midwives and Chapter 457J, Hawaii Revised Statutes (HRS). We respond to those questions as follows, according to the questions posed in your letter.

1. Are Birth Attendants legally allowed to continue practicing past July 1, 2023?

No, birth attendants are not legally allowed to continue practicing past July 1, 2023. The laws governing midwifery start with the premise that no person shall engage in the practice of midwifery, except as provided in HRS Chapter 457J. See HRS § 457J-5. In other words, all practitioners of midwifery are regulated by HRS Chapter 457J.

HRS § 457J-6 then describes exemptions, one of which is for persons acting as birth attendants on or before July 1, 2023. Birth attendants are not midwives. Rather, they are a separate category of practitioners who were exempted by the legislature when HRS Chapter 457J was enacted in 2019. The legislature specifically stated that the enactment of Act 32:

also exempts a separate category of birth attendants for a three-year period, to allow this community to define themselves and develop common standards, accountability, measures, and disclosure requirements. By the end of the three-year period, the legislature intends to enact statutes that will incorporate all birth practitioners and allow them to practice to the fullest extent under the law. The legislature also notes that practicing midwifery according to this Act does not impede one's ability to incorporate or provide cultural practices.

The Honorable Amy A. Perruso
January 17, 2024
Page 2

Act 32, 2019 Haw. Sess. Laws 83. Emphases added. The fact that Act 32 specifically references a three-year period indicates a finite period of time that closes at the end of the three years, July 1, 2023.¹

Reading HRS §§ 457J-5 and 457J-6 a)(5) together, it is clear from the plain language that the latter provides an exemption for persons acting as a birth attendant only until July 1, 2023, subject to certain conditions.² After July 1, 2023, birth attendants are no longer exempted from the requirements of having a midwife license. The obligation to obtain a midwife license is based on HRS § 457J-5, which is still in effect.

In addition to the explicit language of Act 32's provisions and Session Laws, the legislative history of Act 32 supports the interpretation of having all birth practitioners becoming licensed by a definite date in the near future.³ The Committee on Commerce, Consumer Protection, and Health stated that "all persons engaged in the practice of midwifery as required by this measure shall be licensed by January 1, 2024." S. Journal, Stand. Comm. Rep. No. 659 (Haw. 2019). The Committee on Health reported that a Proposed Draft it received after public testimony added "provisions allowing for the continued practice of birth attendants who are not midwives through July 1, 2023." H. Journal, Stand. Comm. Rep. No. 1700 (Haw. 2019). Emphasis added. Lastly, the Committee on Finance stated that this measure "[e]xempts a separate category of birth attendants until July 1, 2023, to allow time to define and develop common standards, accountability measures, and disclosure requirements for birth attendants." H. Journal, Stand. Comm. Rep. No. 2213 (Haw. 2019). Emphasis added.

Clearly, the use of the terms "through" and "until" reflects a specific window of time, the closure of which ends on July 1, 2023. The three-year time period had the specific purpose of defining and developing common standards, accountability measures, and disclosure requirements for birth attendants. We are unaware of any wording in the statute or intent expressed in the legislative history to include a silent or implicit grandfather clause in HRS § 457J-6.

Given the express language of HRS Chapter 457J and the Session Laws and legislative history of Act 32, we conclude that the exemption for birth attendants as provided in HRS § 457J-6(a)(5) ended on July 1, 2023.

¹ Section 12 of Act 32, Haw. Sess. Laws 91, states that the Act "shall take effect upon its approval; provided that sections 6 and 7 shall take effect on July 1, 2019." Thus, the three-year period referenced in HRS § 457J-6 ends on July 1, 2023.

² A basic tenet of statutory interpretation is that where the language of the law in question is plain and unambiguous, the duty of the court is only to give effect to the law according to its plain and obvious meaning. *In re Estate of Spencer*, 60 Haw. 497, 499 (1979).

³ Where the language of a statute is ambiguous or of doubtful meaning, the court may consider extrinsic aids to construction. *State v. Ogata*, 58 Haw. 514, 518 (1977). See also HRS § 1-15 (Construction of ambiguous context).

2. Are birth attendants and other birth working professionals (i.e. doulas, lactation consultants, counselors, cultural or religious practitioners, extended hanai, etc.) legally allowed to practice if their scope is not identical to the definition of midwifery but contains any combination of the activities in the definition?

HRS § 457J-2 defines midwifery to mean the provision of one or more of the following services:

- (1) Assessment, monitoring, and care during pregnancy, labor, childbirth, postpartum and interconception periods, and for newborns, including ordering and interpreting screenings and diagnostic tests, and carrying out appropriate emergency measures when necessary;
- (2) Supervising the conduct of labor and childbirth; and
- (3) Provision of advice and information regarding the progress of childbirth and care for newborns and infants.

Emphasis added. In other words, the provision of any one service, or one service in combination with another service included in the definition of midwifery, constitutes the practice of midwifery for which a license is required. The provision of services does not need to be exactly identical to or encompass all of the activities listed in the definition of midwifery to be considered the practice of midwifery. Unless exempted by HRS § 457J-6, the provision of any activity in the definition of midwifery requires a license.

2.a. The definition does not include details about payment. Would a hanai family member be considered to be practicing midwifery without a license if they "provided advice and information regarding the progress of childbirth and care for newborns and infants"?

HRS § 457J-6(c) states that "[n]othing in this chapter shall prohibit a person from administering care to a person's spouse, domestic partner, parent, sibling, or child." Because hanai family members are not included in this statute, hanai family members providing any of the activities described in the definition of midwifery would be considered practicing midwifery without a license regardless of whether money is exchanged.

2.b. HRS 457J exempts persons assisting their spouse, domestic partner, parent, sibling, or child but not grandparents, aunts, uncles, cousins, or broader hanai family.

Correct. As explained in 3. above, HRS § 457J-6(c) specified only a limited group of individuals. Extended family members were not recognized as those permitted to assist in care.

The Honorable Amy A. Perruso

2.c. HRS 457J exempts professionals who are "licensed and performing work within the scope of practice or duties of the person's profession that overlaps with the practice of midwifery" but does not exempt professionals like doulas, lactation consultants, or religious or cultural practitioners that do not currently have a licensing regime.

Partially correct. HRS § 457J-6 describes exemptions to the general license requirement of HRS § 457J-5. HRS § 457J-6(a)(1) exempts certified nurse-midwives licensed under Chapter 457. HRS § 457J-6(a)(2) exempts those "licensed and performing work within their profession" that overlaps with the practice of midwifery. Emphasis added. HRS § 457J-6(a)(3) exempts student midwives subject to certain conditions. And HRS § 457J-6(a)(4) exempts "a person rendering aid in an emergency where no fee for the service is contemplated, charged, or received." Because they are unlicensed, birth professionals such as doulas or lactation consultants are not included in those exempted by HRS § 457J-6(a)(2) which specifies a licensed status.

Regarding religious and cultural practitioners, HRS § 457J-6(b) states that "[n]othing in this chapter shall prohibit healing practices by traditional Hawaiian healers engaged in traditional healing practices of prenatal, maternal, and child care as recognized by any council of kupuna convened by Papa Ola Lokahi. Nothing in this chapter shall limit, alter, or otherwise adversely impact the practice of traditional Native Hawaiian healing pursuant to the Constitution of the State of Hawaii." This provision seems to allow traditional healing practices of prenatal, maternal, and child care so long as those practices are recognized by a council of kupuna convened by Papa Ola Lokahi.

While the provision also allows the practice of traditional Native Hawaiian healing pursuant to the Constitution of the State of Hawaii, the specific Native Hawaiian healing practice protected by the State Constitution is not identified. In addition, Act 32, which created HRS Chapter 457J, states that "[t]he legislature also notes that practicing midwifery according to this Act does not impede one's ability to incorporate or provide cultural practices." Act 32, 2019 Haw. Sess. Laws, 83. Emphasis added. But while a licensed midwife can certainly include cultural practices, it is not clear what, if any, cultural practices are exempted from midwifery licensure.

3. Does HRS § 436B-27(b) apply to birth attendants, doulas, lactation consultants, counselors, cultural or religious practitioners, extended hanai, etc.?

Yes. Except for the parameters described for cultural practitioners in HRS § 457J-6(b), any person who engages in any of the activities included in the definition of midwifery for which a license is required and fails to obtain such license, or advertises or represents that the person is licensed to engage in midwifery, is subject to HRS § 436B-27 and its penalties.

HRS § 436B-27(b) states that "[a]ny person, who engages in an activity requiring a license issued by the licensing authority and who fails to obtain the required license, or who uses any word, title, or representation to induce the false belief that the person is licensed to engage in the activity, other than a licensee who inadvertently fails to maintain licensing requirements under the appropriate licensing statute and who subsequently corrects the failure so that there was no lapse in licensure, shall be guilty of a misdemeanor and each day of unlicensed activity shall be deemed a separate offense."

Lastly, your email included a Civil Beat article titled "Midwifery Should Be Regulated For Safety Of Consumers And Community". You asked if the author's assertion is correct that "birth attendants can continue practicing past July 1, 2023 because birth attendant's services are not considered midwifery." Emphasis in original. As explained in 1. above, we opine that the author's assertion is incorrect and that birth attendants are prohibited from practicing past July 1, 2023.

Representative Marten rose to speak in opposition to the motion to recommit, stating:

"In opposition. I just wanted to say that we, as a committee member, we only got the text of that bill at the time that we had to vote. I have no problem with the contents of the bill, but my feeling is that the content of this bill, which was established in 2019, basically establishing licensure for midwives, has been very successful. Now there's 37 midwives that have been licensed since that time, including nine since we didn't make any changes to that law last year. And when it sunsets, to that end we have an auditor's report coming up in November. And midwives themselves who are subject to this licensure are working on redefining their scope of practice, expanding it to include other skills such as managing menopause. And this bill attempts to amend that bill without their input, without input from the auditor's report—"

Representative Belatti rose to a point of order, stating:

"Point of order, Mr. Speaker. I believe this is supposed to be arguing about procedure and not the contents of the bill. Thank you, Mr. Speaker."

The Chair addressed Representative Marten, stating:

"Representative Marten, please confine your remarks to the procedure."

Representative Marten: "So, I just mean the timing. I think it would be better managed next year. Thank you."

Representative Belatti rose to respond, stating:

"Mr. Speaker, thank you. Second time. I would just again say, with respect to procedure, we have moved a number of short form bills. And again, as chair, I follow the directions and the script, and we provided the text to the members, all of the members, for both House Bill 407, House Bill 408, and previously last session for House Bill 406. So procedurally, I believe that it is proper that this be recommitted to the Health & Homelessness Committee and that then leadership to take up the re-referral process. Thank you, Mr. Speaker."

Representative Matayoshi rose to respond, stating:

"Still in opposition. Another reason I brought up the date of the attorney general's letter of January 17th, 2024, is that this was before session started. There was a bill going through that had a similar subject matter at least that could have been heard by the Health Committee in due course with the proper referrals and changed to this very form. But instead, that bill was not heard and the short form was used. To me this seems like, procedurally, a way to get around what was perhaps a bad referral to have this bill heard in this manner."

Representative Belatti rose, stating:

"I understand that this is my third time, Mr. Speaker, but—"

The Chair addressed Representative Belatti, stating:

"Representative Belatti, there is a limit on speeches."

Representative Kobayashi rose to respond, stating:

"Second time, Mr. Speaker. If consistency is a matter of concern at all at this point, let me point out that there is another bill before us which has the same language, word for word identical, as this bill. This bill is House Bill 2649. The bill starts off with what I had read before, 'a person may practice midwifery without a license to practice midwifery if the person is.'"

"These two bills have the same exact identical language for about two pages. This latter bill, HB 2649, had a three-committee referral. First, a joint committee referral to Health and Consumer Protection, and then, comma, a referral to Finance. This bill did not move beyond its first reading. Thank you."

At 12:54 p.m., Representative Belatti requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 12:56 p.m.

Representative Belatti rose, stating:

"Thank you, Mr. Speaker. A point of personal privilege. In some of the discussion by previous speakers, Mr. Speaker, is my intent is being impugned as being the lead who prevented the hearing on House Bill 2649. I will note that it is a decision by the joint committees of Health & Homelessness and CPC. Thank you, Mr. Speaker."

At this time, the Chair stated:

"We will be taking a voice vote on this motion. All those in favor of the motion say aye. All opposed say no."

"The Chair's ruling is that the noes have prevailed. The motion is defeated."

The motion that the report of the Committee be adopted and that H.B. No. 407, HD 1, entitled: "A BILL FOR AN ACT RELATING TO HEALTH," be recommitted to the Committee on Health & Homelessness was put to vote by the Chair and, upon a voice vote, failed to carry, with Representatives Aiu, Garrett, Perruso, Pierick, Takayama, and Todd being excused.

625-24) recommending that H.B. No. 1630, as amended in HD 1, pass Second Reading and be placed on the calendar for Third Reading.

Representative Nakamura moved that the report of the Committees be adopted, and that H.B. No. 1630, HD 1 pass Second Reading and be placed on the calendar for Third Reading, seconded by Representative Morikawa.

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in strong opposition against 625, HB 1630. Why am I so opposed to this? A couple of reasons. Mr. Speaker, for about the last decade at least, we've had an identity crisis. Sometimes we think that we are Los Angeles, and we can just build and sprawl way out. Or sometimes we think we're Hong Kong and we can build, or maybe not Hong Kong, Singapore, in terms of the Stanley Chang lexicon, that we can just build up or we can build dense. And this is a density build. This bill says we're in favor of Hong Kong.

"Because, Mr. Speaker, this bill says you can build three houses on one lot. Can you imagine three houses on one lot? Now, look, I'm all for ADUs. ADUs says, look, if you can build 800 square feet, you've got a lot that's small, you can actually put another house on. But when it says you can build three houses, we've gone too extreme, Mr. Speaker.

"I want to commend my colleague from the North Shore, they got it right. They said, keep the country, country. We've got to adapt keep Kalihi, Kalihi, keep Kapolei, Kapolei, keep Hawai'i Kai, Hawai'i Kai. Mr. Speaker, I wish to disassociate my name having signed on this and turned out this bill the way it is. Thank you."

Representative Marten rose in opposition to the measure and asked that the remarks of Representative Ward be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Quinlan rose to speak in support of the measure, stating:

"In support, Mr. Speaker. I think that the dream of the 5,000 square foot lot with the white picket fence and the standalone home is unfortunately no longer an economic reality for many of the people that we represent. I'm sure that there will be a lot of comments on this bill, but I want to applaud the author for being so bold. Thank you."

Representative Kong rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Takenouchi rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Poepoe rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Garrett rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Hussey-Burdick rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Chun rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Alcos rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Lamosao rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Nishimoto rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Matayoshi rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Sayama rose to speak in support of the measure with reservations, stating:

"With reservations and brief comments. Thank you, Mr. Speaker. First, I do want to extend my appreciation to the Housing chair on this measure. Based on the overwhelming supportive testimony it did receive in its one

hearing, it's clear that you did your due diligence on this. However, I do maintain significant reservations about the implications of this measure on my district that is ground zero for monster home issues in Honolulu.

"Mr. Speaker, monster homes describe large developments in residential zoned areas which house multiple tenant residences. While some of these developments abide by city zoning ordinances, many others do not. Bad actors like Christy Zeng Lei, who has recently been found to provide false documentation on a construction of a monster home in Kaimukī.

"My reservation for this measure comes not in its intent to encourage denser housing developments in urban areas, but in the enforcement of the law by the counties. Seeing the many illegal monster homes in my district and across O'ahu, I believe my concerns for a lack of enforcement is well-founded. Even with the recent ruling by the Honolulu Building Board of Appeals that fortunately ordered the demolition of an illegal monster home in Kaimukī, the process took four years of constant advocacy by residents.

"While this recent ruling for Kaimukī and a relatively faster and transparent permit process may indicate improvements in the county's ability to prevent, identify, and penalize bad actors, I am still concerned the changes proposed in this measure would overwhelm an already strained system of enforcement.

"To be clear, I do believe in the intent of the measure, I do believe the state and county should encourage denser housing developments. And I believe that single-family homes in urban settings, no matter how well they served the community in the past, fail to address our housing needs now and for the future. It is because of my beliefs and hope for this change that I only vote with reservation.

"If this measure is to continue further, I hope this body and the public will have ample opportunities to provide testimony as is warranted by a measure that may have broad and serious implications. Thank you."

Representative Kobayashi rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. Mr. Speaker, this is a mystery bill. We don't know many of the details because they are purposely left unspoken. Specifically, this bill revolves around the term 'missing middle housing,' which is defined as an abstract concept. Missing middle housing is defined as 'a new or existing dwelling unit, or a new or existing part of a dwelling unit, that includes a kitchen and bathroom.' We don't know how big it will be. We don't know any details except that this is to be defined later by the counties, the very counties that brought us monster homes for lack of implementation, for lack of enforcement.

"The bill has another feature that talks about any parcel within urban-zoned lands may be subdivided, consolidated, re-subdivided, provided that all resulting parcels are residentially owned and at least 2,000 square feet in area, 'except that a county may by ordinance or rule allow residentially zoned parcels smaller than 2,000 square feet.' Again, the counties have full leeway without any restriction as to determine what, why, how, and how big.

"This bill has a further mystery in that it focuses on one area, urban lands which are residentially zoned. I would say that we need to go all out, full force, on the various, many situations that have caused our housing shortage. We can do denser apartment areas, we can go into commercial mixed use, industrial mixed use, we have unfortunately slowed the pace in which we have converted agricultural lands into urban lands. There was a time when farms existed in Kunia, Waipio, Waipahu, Leeward O'ahu, 'Ewa, Central O'ahu, Mililani, even Hawai'i Kai, 'Aiea, Hahaione, even Kāhala. All of those lands are now urban.

"I remember Kāne'ohe being farmland with a taro patch with a water buffalo. And that whole area from Kāne'ohe to Temple Valley to Kahala'u is now urban zone. So, there are many opportunities to increase where we build denser.

"This bill affects the people I know best, the people I know longest in my constituency, those who are in single-family homes. I feel obliged to support their views and do not feel good about telling them, I don't care about what your lifestyle is, I don't care about density, I don't care about increased traffic

and parking problems, and I don't care if there's an increase in renters in your area. For these reasons, I'm voting no against this bill."

Representative Quinlan rose to yield his time, and the Chair "so ordered."

Representative Kobayashi continued, stating:

"I would say that we need to focus on the whole spectrum of how to solve our housing crisis, both in urban lands, which are residentially zoned, and all other lands, zoned urban or not. That, I think, is one of the missing components of this attempt.

"The author circulated a summary of this bill saying that HB 1630, quote, allows more homes in exactly the ways we need them. The missing middle of the housing stock, between expensive single-family homes and big apartment buildings. I know that if you want to build less expensive homes, one way would be to look at more apartments, more condos, which are generally considerably cheaper than single-family homes. This changes the focus and says the solution is a single silver bullet affecting only urban homes which are residentially zoned. I think that we need to broaden our scope. And for these reasons, I'm no on this bill and urge others to vote no. Thank you."

Representative Evslin rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Thank you, members, for all your comments today. And thank you for all of your feedback over the last few months on this bill. Your comments have certainly made it a better bill, as amended in our joint committee hearing with Water & Land, Judiciary, and Housing. I just want to provide a little bit of context for the rationale behind the bill and explain a bit on what it does.

"For the rationale, the cost of housing in Hawai'i has gone up by 155% since 1984, the year that I was born, and that's adjusted for inflation, so that's over and above the cost increases of all other goods, housing has gone up by 155%. And that's just cost increases for existing homes, this doesn't include new luxury homes coming onto the market and skewing it, this data set is just valuation increases for existing homes.

"And what that means is, if you bought a home in 2012 for \$500,000, that exact same home today would have more than doubled in price, meaning you're making around \$20 an hour at a full-time job at the increasing value of that home. And unlike a full-time job where your labor is providing value to a product or service and people are paying you for that, your house isn't getting any better at sheltering you, it's probably getting worse because it's getting old. That value is based purely on scarcity. We're not building enough homes for our local population here, and so the price of existing homes is going through the roof. And that money does not materialize out of thin air. It's literally a transfer of wealth from my generation. Those who weren't able to afford a home 10, 20, 30 years ago are paying that increasing valuation. And it's having huge impacts on our communities in so many ways.

"As UHERO has shown, more than a third of local residents can't afford the cost of a median priced home in Hawai'i. This is causing mass migration out of Hawai'i, as Civil Beat reported this morning in an article that was titled something like, are local people happier on the mainland? And the subject really was cost of living is cheaper on the mainland and local people are doing better there than they are here, which is tragic.

"This mass outmigration is causing worker shortages across lots of critical industries. Teacher shortages, caregiver shortages, entry-level public-sector jobs. You cannot do any of these jobs and afford a home in Hawai'i. It's causing homelessness. We don't have enough homes, people are homeless. It's a spiral of negative outcomes because of that.

"And then even those who are able to afford a home in Hawai'i are often working two or three jobs just to make it. And two or three jobs means time away from your family, that's increased stress on the family that leads to a host of other negative outcomes. So much of what we spend the time here on the floor talking about, I think is related to the cost of housing, making it, in my opinion, the biggest crisis we face in Hawai'i.

"And why are we building so few homes? Again, as UHERO has shown, Hawai'i has the most regulated housing market in the country by far. And as study after study shows, high amount of zoning regulations and regulatory

burden leads to less housing construction overall, leads to higher market prices for housing. So, in a lot of ways, and I mean this with all due respect to everybody here, to the institution, to everybody working hard to solve this problem. But what we're doing is not working. Me, as the Housing Committee chair, I feel like I'm failing on this front. Me, as a former council member, am failing as we are seeing rapid increases in the price of housing under our watch.

"And maybe if we had \$2 or \$3 billion in this year's budget extra, we could subsidize housing and we could maybe solve the crisis or put a big dent in it. But we don't have \$2 or \$3 billion now, we're never going to have that money to put into housing. And by all means, yes, let's put \$150 million into Rental Housing Revolving Fund. That's going to help people who need it, but that's not going to solve the housing crisis in Hawai'i. To do that we need, in my opinion, regulatory reform and zoning reform, similar to this measure and beyond in other ways.

"And what this measure intends to do is to continue to try and preserve and protect agricultural and conservation-zoned land and to make it easier to build in the urban state land use district as our state land use laws were intended to do. And it does so by essentially legalizing multi-family housing in all residential lots within the urban state land use district, contingent on infrastructure. Right, nobody can build this housing if there isn't available infrastructure."

Representative Tarnas rose to yield his time, and the Chair "so ordered."

Representative Evslin continued, stating:

"And it preserves HRS 46-4, has a number of provisions which gives the counties their zoning powers. The counties, through their land use ordinances, have codified these powers in terms of setback requirements, lot coverage restrictions, floor area restrictions, height restrictions. All of these things control the form of development, the building envelope. None of that changes under this bill at all. Those are all entirely preserved. All this does is ensures that the counties are allowing for, essentially, two extra ADUs on that property, a duplex and an ADU on the house or possibly a triplex, within the existing footprint of the home.

"This bill also ensures that people can split their lots. Smaller lots means smaller home sizes mean cheaper homes. It also would reduce the impact fees for those units to make it easier to build. The intention being, again, legalize multi-family housing, allow people to provide housing, maybe for their aging parents or for their children or just as a rental unit so that they can afford a mortgage, like I do. The only way I can afford a mortgage is I split my home in half, I rent out half of it, I can pay my mortgage, I've increased the supply of rental housing. If we do that enough, we can drive down the market price of housing.

"On its own, this isn't going to solve the housing crisis. But I think if we don't do this, or measures like this, that we don't have a chance of solving the housing crisis. Again, I appreciate the dialog here, I appreciate everybody's continued feedback on the bill, and I appreciate our efforts towards making this a better bill. Thank you, strong support."

Representative Kila rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. In order to keep Mā'ili, Mā'ili, to keep Nānākuli, Nānākuli, we need to build in areas that there is land available. Mr. Speaker, it was this body that has drawn criticism to our dependance on imported goods, as a previous speaker has alluded to the conversion of ag lands for residential development. How are we to feed our people if we are converting ag lands to housing?

"The average commute to a resident in House District 44 from downtown Honolulu at 5 a.m. is upwards of 70 to 85 minutes on any given day during the workweek. 87-137 Keli'ikipi Street in Wai'anae, Hawai'i, a dilapidated home for sale in Mā'ili, is currently requesting a price of \$540,000 due to the sole fact of home scarcity.

"The urban core benefits from infrastructure that is available to them, that was unfortunately not planned and developed in our rural areas. When we have several hundred homes in House District 44 that cannot even hook up to sewer to convert their cesspool for one, the cost, and two, the poor planning, the sprawl and push out of the urban core has started to push out

the community members who make rural communities like my district special.

"I cannot keep Mā'ili, Mā'ili or Nānākuli, Nānākuli when the residents who contribute to the character and makeup of my community are living in sprawls and heightened numbers. And if someone comes in to take their place, we lose the character and identity of our rural communities. So, for those reasons alone, I support this measure. *Mahalo*."

Representative Ward rose to respond, stating:

"Thank you, Mr. Speaker. Second time in opposition. First request is, may the good representative from Diamond Head, his comments be entered into the Journal as my own," and the Chair "so ordered." (By reference only.)

Representative Ward continued, stating:

"And he reminded me, and first I want to appreciate the chair very sincerely, very passionately, and objectively, except for missing a few things, has pleaded his case. But for all of us in this body who, for the last two sessions, have had a new anti-tourism, anti-HTA, anti-let's not get our neighborhoods bogged down with Airbnb. If we think that this bill is not going to, when you got three units on your house, and by the way, we have the smallest units in the United States, this is Peter Savio and not me talking. If we have the smallest units and we put two more on our existing lots, for sure we're going to get more Airbnb.

"So, if we want our neighborhoods to get more crowded, more traffic, more noise, here's this red carpet to put out and say, *e komo mai*, Airbnb, which we've spoken against for so long. Let's know that unintended consequences are almost normal when you get bills this easily opening the spigot. Thank you, Mr. Speaker."

Representative Marten rose to respond, stating:

"Again, in opposition. I've been worried about this bill since the first time I saw it because my constituents are very concerned about what they call monster houses. And something that would allow three different residences on a single lot, started out as four, that means five unrelated adults can live in each one. You can have 15 unrelated adults, plus their families, living on a single lot. It gets very crowded, it changes the character of the neighborhood.

"The other thing it does is it will increase our prices. Because now investors who want to rent can come and buy properties, just as we saw that same price pressure with vacation rentals when they were so unregulated, or still are. If you know you can have an income stream off your property through multiple rentals, you'll pay more for it. And in my district, people don't only have the dream of being renters, they dream of one day being homeowners. And that price will increase the cost for everyone.

"In addition, those that do not want to build additional properties on their house and do not want to have rentals, their property values will increase along with their neighbors and their property taxes will go up. We just had a reassessment in property taxes, which upset a lot of people in my district. And this would cause a further increase in value, which people that just want to live there aren't able to capture that value, but they do have to pay the increased taxes.

"So, these are among the reasons that I think the way to address this problem is not through this particular measure, but rather looking at our true urban core to keep moving towards a more walkable lifestyle where people don't need to each own a car, whereas this does not do that. Thank you."

Representative Kobayashi rose to respond, stating:

"Mr. Speaker, again in opposition. This bill, as I said earlier, is a mystery bill. It does not allow two more homes to be built. Specifically, it says not allowing two or more missing middle homes to be built. So, we don't know where there is a cut off, whether it's two more homes or three more homes or four more homes. That is all to be decided later, and it will be decided by a group of people who I frankly do not have much faith in.

"We have been told by Honolulu DPP, Department of Planning and Permitting, that monster homes should not exist, that the current laws prohibit monster homes, prohibit homes with three kitchens, prohibit homes

with 15 bedrooms, but we have them aplenty. The implementation, the enforcement behind our current laws are unfortunately lacking, and I have no reason to believe that they will be drastically improved instantly or quickly through our county government. So, again, I am in opposition. Thank you."

Representative Todd rose to speak in support of the measure, stating:

"In support. I just wanted to thank the committees who heard this prior for their efforts, particularly the Housing chair for taking a bold approach. I think it's pretty clear that as the session goes on, should this see action after today, that maybe there's an opportunity to fine tune some things. But I'm very supportive of the approach.

"I think we all should recognize that the state's a very diverse place geographically. In our area, the Hilo, Puna, East Hawai'i area as an example, we approved all of this development out in Puna, well before our lifespans actually, which makes me feel good, but it probably shouldn't have happened. And that's kind of the sprawl that we're trying to prevent is now we have these massive infrastructure problems, massive traffic issues, because they approved the development of 30, 40, 50,000, one to three-acre lots. And that's the kind of sprawl that could potentially be prevented if we better utilize our urban lands.

"But I do recognize that there are areas where this may be impractical. So, I'm hopeful that as it proceeds, we'll kind of fine tune some of those things and eliminate some of the potential unintended consequences. But beyond that, I think the state is bad at a lot of things. And I think being here, we all recognize that there are areas where the Legislature has historically failed. But I think we do need to recognize that one of the reasons we're in this place is that the counties have spectacularly failed to manage housing policy. And I think it is the time for the state to take a more active role in housing policy where necessary to set broader policy that the counties should adhere to.

"Just as an example, when talking about the property tax issue specifically, on Hawai'i County, that would not be a problem, because we cap the increase in property tax at, I think, 3% per year for a single-family home. So, valuations do not impact property tax growth for single-family owner-occupant households. It's a very simple fix, and Honolulu City and County could very easily implement that if they chose to, but they haven't.

"So, just in support of this approach and hoping we can work things out so that everyone feels a little bit more comfortable down the road. Thank you."

Representative Matayoshi rose to respond, stating:

"Thank you, Mr. Speaker. Still with reservations. I do want to thank the bill's introducer and the Housing chair for starting this discussion. I think it's worth looking into. One of the reasons why I'm voting with reservations right now is because I want to see the conversation go forward. I want to see if we do pass it on to the Senate, what discussions and changes happen in the Senate, and then see the final bill before we vote on it.

"The splitting of lots gives me a lot of trepidation. And I've had discussions with the Housing chair, who, to his credit, reached out to me to have a very reasonable discussion on this. I think that it will change the character of neighborhoods, or at least has the potential to do so. There's a lot been said about how many houses are allowed on one lot. But what concerns me more is what I see in my neighborhoods, where a developer will come in, buy one lot, subdivide it, and build two huge houses on it. If this is allowed to be kind of a blanket rule, I am afraid of what's going to happen to our neighborhoods.

"As for solving the housing crisis going forward, I'm just not sure this is the right approach. I'm not set against it necessarily yet, but I really think that if we need more housing, transit-oriented development is the way to go, at least on O'ahu. Building high density housing near rail stations, where we don't need a lot of parking, for kind of lower-income, middle-income families to not have to have cars and still have that ability to get to work, I think that's the way to go forward. And I'd love to see us pushing that here. But obviously I welcome the discussion and I look forward to seeing this bill as it moves. Thank you."

Representative Kitagawa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Can I have the words of the Housing chair adopted as my own and also make a few comments," and the Chair "so ordered." (By reference only.)

Representative Kitagawa continued, stating:

"Thank you. So, I think that I recognize all of the concerns that are shared. And I thank the Housing chair for starting this conversation because I think it is an important conversation to have when so many in our communities are looking for housing, for affordable housing. We are losing generations because there is a lack of housing.

"So, I see this bill not as just a bill who is going to bring in tourists or short-term rentals, but I see this as an opportunity to bring people's children home, to bring people's grandchildren home. To be able to build another unit on your property easier so that your family can be together instead of moving to the mainland. And that, for me, is something that my community has been asking for. When I go door to door, people say the concern is that my grandchildren are no longer here, my children moved away to the mainland, I can't see my grandchildren anymore. But this bill starts the conversation to be able to look at how do we encourage multigenerational family housing in our communities? How do we bring our local people home so that there is a place to live that is affordable?

"So, I appreciate the concerns that are shared, but I also just want to note that we're talking about local people. We're not just talking about tourists who are going to come and stay in our neighborhoods. And I also want to highlight that it's important that we keep our ag lands and our preservation lands, ag and preservation. People are currently purchasing preservation land to try to go and change it into residential lots, and that is unacceptable, especially for the community that I represent. And so, I just feel like it's important that we focus on housing where it's supposed to be, and that we preserve and save our ag lands and our preservation lands. Thank you very much."

Representative Matsumoto rose in support of the measure and asked that the remarks of Representatives Evslin and Kitagawa be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Ganaden rose to speak in support of the measure, stating:

"In support, Mr. Speaker. May I have the words of the Housing chair as well as the chair of Transportation inserted into the Journal as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Ganaden continued, stating:

"With brief comment. Mr. Speaker, I think that when we are discussing building around TOD areas of the urban core, you're talking about urban Honolulu, the kind of neighborhood that I represent.

"I think that, in listening to the intelligent and civil debate that we've had here today, this might be shaping up into a conversation between districts that have Title I schools, that have lower socioeconomic communities, working class communities, versus those that have more, I guess, white collar, established communities. I'm hoping that's not how it is as we continue to debate this and converse about this.

"I'm hoping that my colleagues here continue to support the Housing chair in his efforts to bring forth this important conversation and to continue to consider sharing the burden of housing local people. Thank you."

Representative Garcia rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Tam rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. And can I have the words from the representative from Kāne'ohe and the Housing chair's words inserted into the Journal as if they were my own, and a brief comment," and the Chair "so ordered." (By reference only.)

Representative Tam continued, stating:

"Thank you. I have gone door to door in my district, and we are a very dense and very urban district. And affordable housing continues to be one of the top issues that they bring up to me, even though they are living in a

dense area. What I can acknowledge is that we have not done enough to ensure that our local families have a place to live and have a shelter over their heads. I'm hoping that this bill will at least begin the conversations for us to really take affordable housing seriously. Thank you."

Representative Souza rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. And can I please have the words of the vice chair of Finance, the Housing chair, and the representative from Kalihi inserted into the Journal as my own," and the Chair "so ordered." (By reference only.)

ANNOUNCEMENTS

Representative Aiu: "Thank you, Mr. Speaker. I'd just like to request a brief moment of silence today to recognize or to commemorate the life of Emme Tomimbang. A graduate of Farrington High School, Leeward Community College, and University of Hawai'i at Mānoa, Emme's educational background laid a strong foundation for her illustrious career.

"She was a pioneer in highlighting the diverse narratives within Hawai'i, from the rich history of the Hawai'i Filipino community to profiles of influential figures across the islands and beyond. Emme's passion for storytelling took her around the world, yet her heart remained deeply rooted in Hawai'i, always aiming to promote a sense of place and the unique culture of her home state.

"Her contributions were recognized with numerous accolades, including Telly Award for her biography of President Barack Obama. Emme's dedication for her work and her community was evident in her work, such as with her documentary, *Mabuhay with Aloha*, which celebrated the Hawai'i Filipino Centennial, and her efforts to educate and inspire through lectures at the Philippine universities. Thank you, Mr. Speaker."

Vice Speaker Ilagan: "Thank you. Members, we will be taking a moment of silence after adjournment."

Representative Ward: "Thank you, Mr. Speaker. This is more of a heads up than an announcement. There's a bit of confusion regarding a rally for the country of Ukraine in its second-year anniversary of the war. It's supposed to be at 4:30 p.m., and there doesn't seem to be a confirmation that's out, but there was an email that said there is going to be one.

"So, please have a peek out your door at 4:30 p.m. If the Ukrainians show up, please do. You don't have to wear a pin or a flag, but show support for what otherwise is a grueling, grueling war that hopefully is going to show that freedom and democracy prevails against Putin, who unfortunately just murdered Navalny and his biggest political opponent. Having said that, 4:30 p.m., just a heads up. Thank you, Mr. Speaker."

Representative Lamosao: "Mr. Speaker, I respectfully ask for a moment of silence to commemorate the life of Cranston Pia, beloved father, son, husband, brother, friend, and rancher who tragically passed away over the weekend following an incident on his Mākaha ranch. My heartfelt condolences are extended to his wife Kristen and daughter Keely, and the entire Pia and Hanabusa families during this difficult time. *Mahalo*."

Vice Speaker Ilagan: "Thank you. We'll also do that same request after adjournment."

"In opposition, Mr. Speaker, just brief comments. This is a gov's package bill. I appreciate the intent of this measure to expand on the membership and attempt to standardize education and training for law enforcement officers across the state. Reading the testimony, it says in here that it does seem to reverse a lot of the progress Hawai'i has made in the last few years by exempting nearly all officers from the minimum standards and licensing requirements for the board. So, anyone hired before July 1, 2026, it would grandfather anyone, and so they would be exempt from minimum standards and licensing requirements. And I believe that all standards should apply across the board, not creating a separate level of officers. Public safety is important, and we want to make sure that our communities are prioritized. So, for these reasons, I vote no."

Representative Kitagawa rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. This bill is related to expungement, and I have concerns about this bill similar to those shared in testimony by the Attorney General's Office. And I'd like to share a few of the concerns that they brought up through their testimony. They have stated that, promoting a detrimental drug in the third degree under section 712-1249 is still an offense within the penal code of the HRS. Decisions on expungement and the sealing of these court records should not be made unless or until section 712-1249, HRS, no longer exists in the penal code. Otherwise, a person could theoretically be arrested or convicted pursuant to this section one day, and then the record expunged the next day.

"Their next point that I wanted to share from their testimony states that, based on section 1 of this bill, it appears the proposals are being made in response to the decriminalization of possession of cannabis in the amount of three grams or less, yet the proposed mandate would actually involve expungement of all offenses charged under section 712-1249, HRS. Section 712-1249, HRS, currently covers possession of less than one ounce of cannabis.

"So, I think this expungement would go against the law that we had passed a few years ago, which would expunge the three grams of cannabis possession. And this one, based on what the attorney general has stated, could go up to the one ounce of cannabis.

"Also like to note that the Judiciary also asked that this measure be deferred to allow further study of this issue, and that the Department of Corrections and Rehabilitation is also in opposition of this bill. And for these reasons, I'm a no on this measure. Thank you very much."

Representative Tarnas rose to speak in support of the measure, stating:

"In support, thank you. This measure is specifically aimed at assisting those people who were arrested or convicted of an offense of possession of

three grams or less of marijuana. We, the Legislature, in 2019, had decriminalized the possession of three grams or less of cannabis. Despite decriminalization, some persons still have prior arrest records or conviction records for these charges. And looking at how other states are managing this, the processes generally require an eligible person to navigate the court system and pay court fees.

"According to the National Conference of State Legislatures, at least 20 states have developed state-initiated processes to expunge certain criminal records at no cost to the record holder to ease the logistical and financial barriers to receiving an expungement. So, the purpose of this bill is to create a state-initiated process to expunge these drug-related criminal records at no cost to the record holder.

"It's true that this is actually related to, which was referred to, a specific 712-1249 section in the HRS. While the Committee on Judiciary wanted to narrowly focus just on the three grams or less of cannabis, unfortunately, the criminal record database does not distinguish between what specific controlled substance the person was arrested or convicted for in 712-1249. And so, this was as precise as we could do under current circumstances with the existing criminal history database that exists. We are working on behalf of your Judiciary Committee to try to improve our database so that we can be more precise. But, failing that, this is the most precise wording that we could produce in our bill to try to bring some fairness and justice to those who were arrested or convicted for an offense that is no longer criminal. So, I urge the members to support this as we go forward. Thank you."

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition, thank you. On page three, starting on line 4 of House Bill 2342, any person who knowingly possesses or intentionally uses or threatens to use a dirk, dagger, blackjack, metal knuckles, or other deadly or dangerous weapon, or a billy, and it does define a billy, while engaged in the commission of a separate felony or misdemeanor shall be guilty of a class C felony. Are we serious? This is crazy. People have a fundamental right to protect themselves. And to carry weapons on them is people's fundamental right. This is ridiculous. No vote."

Representative Kong rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Souza rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Ward rose to speak in opposition to the measure, stating:

"No vote, brief comment, Mr. Speaker. This is from the Office of the Public Defender, who I often don't quote, but in his letter or her letter, it says, this means that a person who lawfully acquires a firearm for self-defense purposes and later commits a misdemeanor is guilty of a class C felony and loses the right to have firearms for the rest of their life. For the rest of their life. This can lead to unintended consequences. Suppose a defendant, this is very serious, while carrying a pistol holstered to their person, punches an intruder in the defendant's home and is charged with assault in the third degree. If the jury rejects their defense and finds the person guilty of the misdemeanor offense, they would also be found guilty of this new felony offense even if the person carrying of the firearm was lawful and unrelated to the misdemeanor. The section 2 offense would arguably be seriously unconstitutional.

"For those reasons, Mr. Speaker, I think we're trying to zero down into a rabbit hole that's going to get us in worse trouble than what we're trying to get out of. Thank you, Mr. Speaker."

Representative Tarnas rose to speak in support of the measure, stating:

"In support, thank you. This bill is an administration bill. It specifically does a number of things, but I want to focus on one particular one. It specifically creates a class C felony offense for carrying, using, or threatening the use of a firearm in the commission of a separate misdemeanor offense. This new provision would protect the public from the criminal use of firearms, while also respecting the right of law abiding and responsible citizens.

"In the Bruen case, which your members understand was a Supreme Court decision that allows to carry a firearm, as set forth with restrictions that the Supreme Court has said are reasonable in interpreting the Second Amendment. So, I think that this bill is narrowly focused. The attorney general crafted this in order to be consistent with the Bruen decision and protection of the rights under the Second Amendment. So, I think this is a reasonable bill to move forward with and I urge members to support it. Thank you."

Representative Kila rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Alcos rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ganaden rose to a point of order, stating:

"Point of order, Mr. Speaker. The previous discussions of like what men's role is in society, I don't think is exactly relevant to the purview of the bill."

Representative Garcia rose to a point of order, stating:

"Point of order, Mr. Speaker. That was not a point of order. It's a point of parliamentary inquiry. And, so, yeah, it's not a point of order."

Vice Speaker Ilagan: "Members, let's stay to the merits of the bill."

Representative Pierick continued, stating:

"This bill is about firearms, which includes the topic of defense, which includes the topic of protection. Traditionally in families, men are the protectors of the family and if the man can't be there, they often want to enable the woman to protect herself. That can include a firearm, a knife. This bill would restrict women from having a switchblade or a butterfly knife in their purse. We want women to be protected, and I think having a knife in their purse can provide that added level of self-defense. I don't think this is a good bill. I'm voting no."

Representative Gates rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Since marriage equality has been law of the land the people have come to the understanding that the LGBTQ+ community is like everyone else. Public opinion has quickly shifted in favor of marriage equality. I am confident that the people will support marriage equality when we put it on the ballot. There is no place for discriminatory language in our constitution. Our constitution should represent everyone including the LGBTQ+ community."

Representative Souza rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In strong opposition. The Mauna Kea Stewardship Authority should not have the opportunity to bypass the sunshine law in order to conduct its duties in a manner that constitutes *ho'oponopono*, which we have also learned in testimony to the Judiciary Committee that *ho'oponopono* may mean different things to different people, which would create further confusion as to its applicability in this capacity.

"The Mauna Kea Stewardship Authority, no matter how challenging they find their task during this transitional period, owes a duty of transparency to the people of Hawai'i and cannot operate in a manner that hinders the very core of why the authority was formulated to begin with, to find common ground and create openness in carrying out their duties to best serve the interests of our *mauna*.

"In rectifying past wrongs, whether in regards to lack of communication, a disregard for proper protocol, or an inattentiveness to cultural sensitivity, we are making the same mistake again with this measure. Thank you."

Representative Ganaden rose to speak in support of the measure, stating:

"In support. May I adopt the words of the representative from District 43 as my own, with brief comment. We heard very compelling testimony as for the reasons why we shouldn't disallow the sunshine law in this very important conversation about the use of Mauna Kea, especially considering the great amount of public and private resources that are going to be going into this conversation. Thank you," and the Chair "so ordered." (By reference only.)

Representative Poepoe rose in opposition to the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Poepoe's written remarks are as follows:

"Mr. Speaker, I rise in opposition to HB 2692. This bill uses the term and concept of *ho'oponopono* as a reason for proposing to authorize two or more members to meet during the transition period, including a number that would constitute quorum. Traditionally, *ho'oponopono* is used within the *'ohana* unit, not broadly between any 'parties,' but specifically between family members. It is often accompanied by ceremony and even symbolic objects like *limu kala*, the *kala* fish, *pua kala* or other appropriate offerings and *pule*. I understand though that *ho'oponopono* has been utilized, applied, modified, and practiced in different ways. I do not discount that the situation described in this bill may indeed require and could benefit from some form of mediation or conflict resolution. Whatever form this takes, accountability to the public should be maintained and that cannot happen in private meetings. I agree that frank and lengthy discussions need to be had, but again, this process should be visible and accessible to the public. More so, I can see how this bill could be counterproductive and result in greater distrust from the public, especially considering the polarizing, precedent-setting nature of the issue. For those reasons, I am voting no."

Representative Belatti rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. In support with reservations and may I have the words of the representative from Makakilo adopted as if they were my own and some brief comments. I am very concerned about this recommendation about exempting from the sunshine law. We're seeing this kind of language in other bills. And so that's what I would like to flag. Thank you, Mr. Speaker," and the Chair "so ordered." (By reference only.)

Representative Gates rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Ward rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

"Mr. Speaker, I rise in strong support of House Bill 2192, House Draft 1, which authorizes the director of the Department of Commerce and Consumer Affairs to appoint an organization as the limited owner of a cemetery, under certain circumstances.

"The Sunset Memorial cemetery has suffered years of neglect after the owner of the property passed away. Many of the plots and headstones were either vandalized or damaged due to a lack of security and fencing to secure the area. There are also issues with access to water and general maintenance of the property. This issue has been ongoing for over a decade without any potential resolution.

"This bill helps address long-standing problems at the Sunset Memorial cemetery and sets up a framework for other aging cemeteries that could face similar issues soon. It is the product of years of work and efforts on behalf of the representative from Pearl City and his staff. He has worked with various neighborhood boards, including the Waipahu and Pearl City boards. Both neighborhood boards' chairs, former chairs and other members have invested so much time and effort into this issue, all of which I appreciate greatly.

"For these reasons, I stand in support of House Bill 2192, House Draft 1. Thank you, Mr. Speaker."

Or the opposite of that is to denigrate, malign, or otherwise destroy or hurt one company.

"This bill, according to the hearing that we had in Finance, hurts tremendously, Tradewind. They're the only ones who get hit by this, all the other guys are okay. I think the lawyers in the room and in both the minority and majority should look at this, if this is getting out of bounds, because it's one company that's going to hurt and be hurt badly by this particular bill. Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 1950 pass Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. While I'm in favor of kimchi, using our tax dollars to designate a day, I say tax dollars, meaning it's our salary, it's our printing, we're printing this paper out. Things like that, it goes into the Journal. For us to be putting effort towards a kimchi day while potholes are a plentiful, while there's many other issues in our state, I think we could prioritize our efforts elsewhere. So, I'll be voting no."

Representative Tam rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. This is a non-fiscal bill, and it is really easy for us just to pass something that means a lot to a very large Korean community here in Hawai'i. And I want to remind members that you are not just here just to fix potholes, but to also do things for the people. And if the representative from District 39 is incapable of doing more than one thing, then feel free to lean on the majority."

Representative Garcia rose to a point of order, stating:

"Point of order, Mr. Speaker. That was infringing upon motive. Yeah, so, that should not be happening on this floor. Thank you."

Representative Tam: "Thank you, Mr. Speaker. I was simply responding to what he was saying on the floor."

Representative Garcia: "That was impugning motive, Mr. Speaker."

Representative Quinlan rose to speak in support of the measure, stating:

"In support, Mr. Speaker. I don't think that we should be using taxpayer money to fix potholes because not everybody drives a car, some people walk everywhere. Thank you."

Representative Amato rose in support of the measure and asked that the remarks of Representative Tam be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Ichiyama rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Ichiyama's written remarks are as follows:

"Thank you, Mr. Speaker. I am in support of HB 1950, which would designate November 22 of each year as Kimchi Day in Hawai'i."

"Kimchi is a traditional Korean dish with a long, rich history that began over two millennia ago during the time of the Three Kingdoms of Korea. Nowadays, kimchi is often a part of meals shared between friends and family in Hawai'i. Hawai'i is also the birthplace of the first commercialized bottled kimchi in the United States. Hannah Sun Nai Kim, the daughter of a Korean immigrant family who arrived in Honolulu Harbor in 1904, started her Kohala Kim Chee business in Hawai'i in the 1940s. In our local grocery stores you can often find several varieties of kimchi, from cabbage to cucumber, mild, medium, and hot!"

"Last year, this Legislature passed HCR 33, to designate November 22, 2023 as the first Kimchi Day. Last year was also the 120th anniversary of the arrival of the first Korean immigrant workers to the United States. Those early Korean immigrants came here, to Honolulu, with hopes of creating a better life for themselves and their families. According to my family lore, my maternal great-grandfather was among the first wave of Korean immigrants to Hawai'i.

"In November 2023, Korean-American communities across Hawai'i celebrated the first Kimchi Day with cultural performances, educational presentations, kimchi-making demonstrations, and the opening of the first Kimchi Museum in Honolulu. It was a wonderful month of activities that brought our local community together in appreciation of kimchi and Korean traditions.

"Thus, designating November 22nd as Kimchi Day in Hawai'i is a powerful celebration of cultural diversity and culinary heritage. Kimchi, a staple of Korean cuisine, embodies centuries of tradition, craftsmanship, and communal gathering. By dedicating a day to celebrate kimchi, Hawai'i embraces inclusivity, fostering deeper connections among its diverse population."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1950, entitled: "A BILL FOR AN ACT RELATING TO KIMCHI DAY," passed Third Reading by a vote of 49 ayes, with Representatives Cochran and Holt being excused.

THIRD READING

H.B. No. 1915:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, H.B. No. 1915, entitled: "A BILL FOR AN ACT RELATING TO THE UNIFORM PROBATE CODE," passed Third Reading by a vote of 48 ayes, with Representatives Belatti, Cochran, and Holt being excused.

H.B. No. 2090, HD 1:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, H.B. No. 2090, HD 1, entitled: "A BILL FOR AN ACT RELATING TO HOUSING," passed Third Reading by a vote of 48 ayes, with Representatives Belatti, Cochran, and Holt being excused.

H.B. No. 1630, HD 1:

Representative Nakamura moved that H.B. No. 1630, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition to 1630. You may recall that in the second reading I said there's an identity crisis afoot here, which has been actually afoot for probably a decade or so, or even more. Sometimes we want to go density and think we're Hong Kong, or we want to go sprawl and think that we are Los Angeles. Mr. Speaker, this bill allows us to be even more dense than Hong Kong. I would say maybe in parts of the Philippines

outside of Manila, where it's just cheek and jowl, and some other neighborhoods.

"The reason being that on page five, line five of this bill, it says that the county shall allow at least two additional dwelling units on every piece of property. Okay, you've got a house already, so at least two, that means three. Which means at least two means you can do four, maybe five. Mr. Speaker, you know what we're inviting? We fear the mainland coming in and doing Airbnb. What if the mainland comes in, buys up a piece of property and puts in four, five, six houses. One may be an Airbnb, but the other ones are rentals. Do we want to spoil our neighborhood?"

"I know we have a housing crisis and I told earlier in my speech, I love ADUs. Let's put one place on one family unit for rental or for family purposes. But this one is an extreme, huge, huge loophole. If we're going to allow us to be an urban blight, this is the formula for it, when you can put four or five houses on one lot.

"And again, some people in this state may not do it, but we are opening ourselves to mainland exploitation. And as I said earlier, the North Shore had it right when they said keep the country, country. And my community says keep Hawai'i Kai, Hawai'i Kai and not put this gross development program into effect.

"For those reasons, Mr. Speaker, I would hope everybody looks at their neighborhood the way they have a snapshot now, and just imagine with a three to four time the density and see if that's the same neighborhood that they represent now. Thank you, Mr. Speaker."

Representative Sayama rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition with brief comments. I do appreciate the intent of this measure. As someone in my generation who doesn't have much hope of homeownership myself, and whose family members have moved away to the mainland, I do think that Hawai'i needs to change and change for more affordable housing.

"However, I have serious concerns with this measure, as I have previously stated on this floor. Since then, I have received significant amounts of community concerns. Community members and community neighborhood boards have passed resolutions opposing this measure as well. And I share their concerns, reasonably.

"Honolulu City and County, DPP specifically hasn't done a great job enforcing its current zoning ordinances and has allowed for bad actors to create illegal monster home developments not only in Kaimuki, in Pālolo, in Saint Louis Heights, but also across O'ahu. Mr. Speaker, I do believe that DPP has improved. However, not enough. And I don't think that, not only Honolulu, but other counties may have the capacity to enforce this new state mandate. And I hope that we could continue to work on affordable housing measures during this legislative session, but I just don't think that this measure is quite ready, at least in my community. Thank you."

Representative Perruso rose in opposition to the measure and asked that the remarks of Representative Sayama be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Alcos rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. In my community is now an urban community, 'Ewa Beach. And the old 'Ewa Beach area, we have about three generations of families. So, the first owner, now their son living in there, now they got their kids. Parking on the streets is really filled up already. Our infrastructure is not being built. Getting out of 'Ewa Beach, trying to get onto the freeway, it's crowded already.

"I like that we want to help our families to stay in Hawai'i, try to create living, try to create space. But I think we got to fix our infrastructure first. Our sewer system, our water system, our parking. Those developments that are being built in our community, already there's no street parking. How can we get more housing and more family in our area if we don't fix our infrastructure? So, for that reasons, I oppose."

Representative Quinlan rose to speak in support of the measure, stating:

"In support. Due to our existing rules and regulations around wastewater disposal and septic systems, this measure will not have any effect on the district that I represent, and we will continue to keep the country, country."

Representative Marten rose to speak in opposition to the measure, stating:

"In opposition, Mr. Speaker. My community feels very strongly about their right to weigh in on the character of their neighborhood. And they have done so with zeal for the Ko'olau Poko communities, the sustainable communities plan. This completely undermines that work where the community actually had a voice in deciding what their community would look like.

"It also undermines the work of the Honolulu City Council, where members of my community have really spoken out strongly about monster homes. This would basically make monster homes legal. And the problem that we've had in my particular community with monster homes is mostly Chinese investors, that we have birth homes and different types of businesses that are built. And it's something that they have protested, they've been heard by the city council who have been trying to address the problem, and this law would undermine their voice. Thank you."

Representative Kobayashi rose to speak in opposition to the measure, stating:

"Mr. speaker, in opposition. I'd like to point out several things that happened with this bill. One, this bill was fast tracked, assigned to three committees jointly. Then having one hearing, that hearing notice was posted on Friday, and the hearing itself was scheduled for Monday. There was a similar fast track on a very similar bill on the Senate side. Of course, this resulted in a lot of testimony from industry people related to development, construction, building supplies, real estate, but very few others.

"The second thing that happened with this bill was that we voted on this bill on the floor on second reading on a Monday with a proposed HD 1. We did not have the real HD 1 before us. We did not have that HD 1 until the next week when it was finally reported from the joint three committees on Wednesday. So, over a week we had no copy of the actual HD 1.

"That was an unfortunate situation, which led to an awkward confrontation on my part. On that day that this bill was officially reported, I was asked to go to the neighborhood board, and I reported on this bill based on the proposed HD 1 and later was told I was wrong, I had provided misleading information, but all because I was using the proposed HD 1, which is all I had at that time, and not the real HD 1, which was not posted until that day of the neighborhood board meeting.

"The second part of this bill, I'm in opposition, is that it creates density of a huge nature. It has so many unknowns. And we have to trust the people who gave us monster homes to fill in these details. These details will not be available for perhaps a year, or perhaps more, depending on when the effective dates are for this bill.

"And thirdly, I'm concerned about this bill because of my constituents, most of whom are not going to monetize their property. Most of whom who want to simply enjoy their neighborhood, their lifestyle. They do not expect to create two or more dwelling units on their property. They want to enjoy their current lifestyle, would not want greater density, greater traffic, greater parking problems. And I think I owe them a bit of respect in representing what they see as their definition of happiness. So, for those reasons, I am opposed. Thank you."

Representative Matayoshi rose to speak in opposition to the measure, stating:

"In opposition. Mr. Speaker, I want to thank the Housing chair for putting forth this measure. I think we do need more innovative solutions, I just don't think this is the right one. Our housing market in Hawai'i is a bit upside down right now. Compared to other places on the mainland, the ratio of single-family houses to townhomes and apartments is reversed. We have way more single-family homes than apartment units, or at least our ratio was much, much higher than that on the mainland.

"I think that this bill seeks to expand horizontally, which I do not think is the right way to go. I think we need to be looking at, if we're looking at more density, which I agree it is a place we need to go, and if we're looking at

creating more units, I really think more thought needs to be given to transit-oriented development and more dense vertical housing in certain areas that can handle it. This bill seeks to create more density, but I feel it seeks to create more density in the wrong areas. It's seeking to create more density in the neighborhoods, in the suburbs, in places that are designed, and people move to, quite frankly, to get away from the vertical, very dense housing.

"And that's vertical, very dense housing that we need. But again, it shouldn't be in certain places in certain neighborhoods. It should be, I hope, along the rail line, at rail stops, so that people will need less modes of transportation and are more encouraged to use the rail, that's a whole other can of worms. But that I think is the direction we should be going. And I think this bill is just simply going in the wrong direction. Thank you."

Representative Kong rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Evslin rose to speak in support of the measure, stating:

"In support. Thank you, Mr. Speaker. I really appreciate the dialog today, and again, over the last few months that we've had on this bill. I do want to address some of the comments that have been made today, in that I think there may be some misunderstandings on what the bill would do.

"So, starting with this idea that it would transform our communities, our communities are already being transformed in a lot of ways because our residents are being pushed out. And the people that make up our communities, that are the heart of our communities, are no longer able to afford to live in our communities, just based on the current status quo. Yes, by allowing up to two ADUs on a lot, that would make some gentle differences in communities. An ADU in a backyard could look a little different, a duplex might look a little different. But this is a way for us to retain our residents who make our communities special.

"Also, on the idea that this would legalize monster homes everywhere, that's patently false. All of the regulatory tools that the counties can use to control a building envelope, floor area ratios, setback requirements, lot coverage restrictions, form and design guidelines, all remain totally untouched by this bill. HRS 46-4 enshrined zones, every single county zoning ordinance, land use ordinance around the state codifies those in a way that is totally untouched by this bill. So, this idea that communities won't be able to ensure that they have a voice in making sure that they're in the future form of development, that's just not true. There are lots and lots of ways through form and design guidelines, and all of those other building envelope restrictions that can ensure that retain the character of our neighborhoods.

"All this does is require a minimum of two ADUs be allowed on all residential lots in Hawai'i. So, it's not four or five ADUs, it's two ADUs. And the reason why it says 'at least' is because some counties are going beyond two ADUs. Kaua'i County goes beyond two ADUs. We didn't want to preempt them on that regard, but we want to set a floor of two ADUs.

"Also, on the idea that we should be going vertical, not horizontal. I largely agree. We should be investing more in our TOD areas. We do want more dense development in the areas where our jobs are. This would only apply to 4.5% of land in Hawai'i, our existing urban state land use districts. It doesn't apply to the 95% of land that's agricultural or conservation-zoned land.

"So, this is a gentle increase in density of 4.5% of land in Hawai'i, because all we really have in Hawai'i right now, as a previous speaker said, are single-family homes, essentially, or very high-density homes in urban Honolulu. Unlike essentially the rest of the country, we have nothing in between. We have very few duplexes, we have very few triplexes, this missing middle of housing. This would just legalize that, again, on only 4.5% of land in Hawai'i, which is our urban state land use district.

"Also, regarding inability of the counties to enforce this, I think it's important to mention that all four county planning departments have testified in support of this. These are the organizations, the bodies that will be enforcing this measure. All four are in support. On the idea that this is driven by the manufacturing industry or the home construction industry, that's also just not true. I can mention that we received testimony in support from the Land Use Commission, from HHFDC, from the Office of Planning

and Sustainable Development, again, all four county planning departments, AARP Hawai'i, Habitat for Hawai'i, Council for Native Hawaiian Advancement, Hawai'i Housing Affordability Coalition, Hawai'i Appleseed Center for Law & Economic Justice, *et cetera, et cetera*. A whole lot of stakeholders that are not construction industry related.

"And lastly, it was mentioned at the second reading that this would increase property tax values. That's also not true. If you build an ADU, yes, your property taxes will go up. But your neighbor's taxes won't go up. All four counties use a market model computer assisted mass appraisal system."

Representative Ganaden rose to yield his time, and the Chair "so ordered."

Representative Evslin continued, stating:

"That system for direct comparisons uses properties of similar structures. So, if your neighbor builds an ADU, that house now with two units won't be used to calculate your own property tax assessment. So, your assessed value won't go up as a neighbor.

"And then lastly, I want to clarify that the actual HD 1 was posted when we debated this on the floor for second reading. It wasn't just the proposed HD 1, the actual HD 1 was on there. You could click a link on our computers here and get access to it, so it was posted in a timely manner.

"Again, I appreciate all the dialog here. This bill does have a defective date, so it would go on for, hopefully, continued dialog if it moves out today. Thank you all."

Representative Ward rose to respond, stating:

"Mr. Speaker, in continued opposition. There's nothing as good as a good floor debate in democracy to get the facts out. I have two questions. Did I hear a floor amendment by the good gentleman from Kaua'i's speech? In the bill on page five, as I mentioned, on line five, it says, shall allow for at least two additional. And the good gentleman said that there's only going to be two ADUs. That's question number one, did I misread it, or did he give a floor amendment by virtue of speech? The minority would love to be able to amend bills by floor speeches.

"Second question. There seems to have been, as he very thoroughly went down all the questions, I posed the question, what's going to stop the mainland, greedy individuals, who come and do Airbnb to come and become developers and put three and four and five houses on a lot and develop, not just for Airbnb, but for the sake of density, for the sake of condominiumizing and dividing their lots up and making them basically city blocks in its density. My trust on the mainland buying property in Hawai'i is very small, given what's going on in Maui. And the sales now are 30%, 40% of all sales now are offshore. So, if we pass this bill, this is an open door, come to Hawai'i.

"Even the good representative from Diamond Head said, hey, let's respect our neighbors. Well, if somebody sells their house as a good neighbor and then somebody buys it up from the mainland who wants to make this a huge development, it's kind of like mini subdivisions, like a micro subdivision bill in a way, if we can get four or five houses on a lot, not just two. If it says two, it should say two, and the good representative should amend it in his committee, or we should as we go through the process. But right now, it says at least two, which means if you got one, you got three at a minimum for according to the law, which means there's more. For those reasons, Mr. Speaker, I just wanted to pose those two questions that have gone unanswered. Thank you."

Representative Garcia rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative La Chica rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I represent one of tens of thousands of families that have a multigenerational family living under one roof. Like many Filipino communities across the state, it is in our values, it is our priority to be able to continue to care for our grandparents, and also provide a home for possibly other family members who are just getting a fresh start.

"This bill would enact and enable our counties to be able to expand housing within the existing footprint. It would enable families like mine to continue to have our family members stay. It would enable our neighbors to remain on our block, on our street. I mean, how many of us have knocked on doors and have heard that their grandkids couldn't stay here, they've had to see other neighbors move. And that's what does, as the representative from Kaua'i has mentioned, affects the character of our neighborhoods.

"And overall, it does reduce the cost of living, as I see it. In the long term, with healthcare costs rising, and growing costs for rapidly aging generation, the average cost for an assisted living facility is \$7,000 a month. Something that we cannot afford. And for these reasons, I vote to support, and ask our other colleagues to support as well. *Mahalo*."

Representative Aiu rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, ruling on a potential conflict, please. My family home may be subject to this bill," and the Chair ruled, "no conflict," and that the ruling would extend through *sine die*.

Representative Chun rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Chun's written remarks are as follows:

"Mr. Speaker, I stand with reservations on House Bill 1630, House Draft 1, which intends to lessen the housing crisis within the state by encouraging the development of the missing middle housing market which includes additional dwelling units. While the goal of the legislation is laudable, my reservations are specific to the interpretation of the section and the unintended consequences it may have on the counties.

"Mr. Speaker, I have concerns with the term 'may' on page 5, line 9 of the measure. The previous section uses a 'shall,' which unmistakably creates a mandate on the counties to allow for additional dwelling units on residential lots. The 'may,' however, does not provide the same specific guidance for counties – since the language was intended to allow for the counties to continue enforcing their existing ordinances with regards to setbacks, size, bulk, and building and housing codes. By using the term 'may,' I believe that this measure unintentionally allows the counties – or planning directors – a permissive state law that allows disobedience of their own county laws. County councils adopt ordinances for the purpose of enforcement and this bill appears to make following those codes permissive.

"I want to thank the chair of Housing who has made changes from the proposed House Draft 1 to strengthen the bill in the adopted in the current draft. But since this section was not changed, I stand with reservations of House Bill 1630, House Draft 1. Thank you, Mr. Speaker."

Representative Poepoe rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Kitagawa rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support and can I please have the words of the Housing chair adopted as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Kitagawa continued, stating:

"And brief comment. As mentioned on second reading of this bill, I'm in support of this bill as I believe that it will help bring families together, it'll help keep families that are moving to the mainland here, and give families an option to build additional dwellings on their property.

"I also wanted to mention a little bit about the Ko'olau Poko Sustainable Communities Plan, as it was mentioned previously by a previous speaker. And Ko'olau Poko, for those who may not know, goes from Makapu'u all the way through my district towards Kualoa. And they did create a vision and they have a plan that they have put together through the city council. And one of the things that's a focus for them is to maintain the community growth boundary to protect agricultural open space and natural resources.

"The plan also mentions that residential use is approved, or therefore, it says in the document that, therefore, housing capacity in Ko'olau Poko will be increased only by, and they list a few things but I want to highlight two

of them, subdivision of larger residential lots into smaller parcels at various locations throughout the region, which is included in this bill, expansion of existing homes to accommodate larger households, and additional housing units on existing residential lots through such programs as 'ohana dwellings and accessory dwelling units. So, based on the information in this sustainable community plan, these are acceptable to those who contributed to the discussion relating to the Ko'olau Poko region.

"And I just wanted to point out that I think, as we've all kind of heard as far as support, it's really important for us to try to find ways to keep our communities together and to stop the fact that people are just leaving Hawai'i and we're really losing the family structure, grandparents, as previously said, can't see their grandchildren anymore because they've moved to the mainland. So, I am in support of this measure."

Representative Kila rose to speak in support of the measure, stating:

"Mr. Speaker, in support. 87-922 Farrington Highway, Wai'anae, Hawai'i 96792. A previous home used for drug activities, bare bones, \$750,000. To afford a home at \$750,000 with a 20% down payment, you're looking at \$150,000. Mr. Speaker, residents in Hawai'i have been ranked with the highest credit card debt in the nation. My district median income is \$150,000, but the individual income averages about \$30,000 to \$40,000. Mr. Speaker, who in my district is going to afford a house at \$750,000 that will still need work, still need to be repaired, and still need to be maintained?

"Mr. Speaker, homes like this that pop up in sale for my district allows people who need housing in my district to be displaced by the rising cost of living in Hawai'i. When we talk about monster homes, Mr. Speaker, monster homes are here and if you take a look at homes for sale in Hawai'i just based on bedrooms, they're called mansions. Properties that are well over \$7 million with bedrooms of 9, 10, and 11 bedrooms, for one person, for one time, not to be used, ever.

"Mr. Speaker, I think the concern and understanding raised by previous folks on the floor is granted, but as I've said previously, I cannot keep Mā'ili, Mā'ili if people from Mā'ili leave. I cannot keep Nānākuli, Nānākuli if people from Nānākuli leave. Based on the last recent census, due to population growth on the west side, Farrington Highway and the corridor of the old Farrington Highway separated by the road, due to population growth, one side is now zoned rural while the other side is still zoned urban. If our rural communities lose the access to funding based on whether it's a USDA loan, a first-time homeowner loan based on their zoning, housing will become more and more unaffordable for these people. Mr. Speaker, and for those reasons, I rise in support."

Representative Todd rose to speak in support of the measure, stating:

"Thank you, in support. I just wanted to thank the Housing chair for his work and also for using the word triplex in a sentence so that I didn't call it one tree plex. I just note that I think, without getting too far into the weeds, I think largely community development plans, which are community driven, are a mistake and have been a mistake. The reason being that no community is going to willingly opt in to have further development in the way that the state as a whole may need. I think if you were to ask people, even in the urban core of Honolulu, if you go to Kaka'ako and ask them if they want more high rises and you give them the option to actually make those decisions, they're going to say, no more high rises.

"So unfortunately, the process we do have that plays out tends to reward communities that are more organized and more activated, which also tends to penalize communities that are less activated and less organized, which largely tend to be coming from less fortunate circumstances. Beyond that, I think there are reasonable compromises in the future. I spoke on it last time. I think it probably needs some amendments here and there, but I'm very supportive of the process and the intent.

"And in addition to that, I would say that housing reform in general is very uncomfortable, but it's necessary. And there may be certain communities where this absolutely does not make sense. And I think that there is room, after this crosses over, to address some of those things. I stay out in 'Ewa Beach with my auntie and there's virtually no parking in that community. So, it's definitely an area that cannot accommodate this kind of growth. So, I'm hopeful that they can find some compromises down the road.

"But also, just in support, just in general, as someone who is fortunate enough to have a home in my community, but recognizes that many folks, particularly my age, probably don't want to live in the same home as their in-laws. You kind of got to pick one side or the other, and that's not going to make everyone comfortable. But something like an ADU, which is attached to that property, may be a more comfortable situation and help to keep families together without that kind of direct conflict at the breakfast table. Thank you."

Representative Tam rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. A lot of us talk about this bill primarily being for our young individuals, but it also affects many of our *kūpuna*, especially in my district. I've heard way too many stories of my *kūpuna* in my district that are transitioning from a one bedroom to a studio condominium because they simply cannot afford because they're living on a fixed income on Social Security right now.

"A one bedroom, 560 square foot condominium in my district with no view costs around \$522,000. If you calculate the mortgage payments as well as the maintenance fees, that could come out to about \$2,400 right there, a month. I don't know anyone that can afford something like that and want to live in something so small.

"And for those reasons, I am really thankful that the Housing chair has proposed something so innovative that is meant to address our housing crisis. Because I do believe that for us to fix our housing crisis, we need to do something big and bold, and this bill does that. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and H.B. No. 1630, HD 1, entitled: "A BILL FOR AN ACT RELATING TO URBAN DEVELOPMENT," passed Third Reading by a vote of 37 ayes to 11 noes, with Representatives Chun, Garcia, Kong, and Poepoe voting aye with reservations, with Representatives Alcos, Garrett, Hussey-Burdick, Kobayashi, Marten, Matayoshi, Nishimoto, Perruso, Sayama, Takenouchi, and Ward voting no, and with Representatives Belatti, Cochran, and Holt being excused.

ORDER OF THE DAY

REPORTS OF STANDING COMMITTEES

Representative Yamashita, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 739-24) recommending that H.B. No. 1801 pass Second Reading and be placed on the calendar for Third Reading.

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, the report of the Committee was adopted and H.B. No. 1801, entitled: "A BILL FOR AN ACT RELATING TO STATE BONDS," passed Second Reading and was placed on the calendar for Third Reading, with Representatives Cochran, Ichiyama, Matayoshi, Quinlan, and Woodson being excused.

Representative Yamashita, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 740-24) recommending that H.B. No. 1660, as amended in HD 1, pass Second Reading and be placed on the calendar for Third Reading.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 1660, HD 1 pass Second Reading and be placed on the calendar for Third Reading, seconded by Representative Morikawa.

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition. Thank you, Mr. Speaker. HB 1660, I think I mentioned before the statistic that there are more Native Hawaiians who are living on the U.S. continent than here in Hawai'i, but specifically because of stuff like this, increasing taxes, our economy right now, the cost of living right now. And here we are increasing taxes. It's just, it's very unfortunate. And I don't know how we can continue voting yes on tax increases in 2024. No vote."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill, as the former representative mentioned, will increase taxes, specifically capital gains taxes for our residents. That's not a good thing. This would de-incentivize investors. And a lot of our elders rely on capital gains for their income. So, I'm voting no."

Representative Kong rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Alcos rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Matsumoto rose in support of the measure with reservations and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Matsumoto's written remarks are as follows:

"As Hawai'i's economy struggles to experience meaningful growth, the Legislature continues to create economically unfriendly pieces of legislation that have significant consequences for our state. Raising capital gains tax discourages investment into our state's economy, thus slowing economic growth and activity as a whole. Also, it should be noted that this increase will also impact our *kūpuna*, who often rely on converting their assets to spendable income during retirement.

"Raising the tax on capital gains adds to the ever-growing tax burden that weighs down on entrepreneurship and investment in our state's already stagnant economy. The Legislature must keep in mind the economic implications behind measures such as this one that threaten economic growth, investment, and the movement of capital within our state. For these reasons, I vote with reservations on this measure."

Representative Ward rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Kapela rose to speak in support of the measure, stating:

"Mr. Speaker, in support, strong support, please. Fiscal austerity harms working families. This year we've heard many concerns about our state budget. The Maui wildfires have taken a toll on our fiscal surplus. The Department of Budget and Finance has even proposed across the board budget cuts of 10% to 15% for every state agency, which would be a devastating blow for public services.

"We cannot cut our way back to prosperity. Hawai'i saddles low-income neighbors with a heavy state and local tax burden. On average, the lowest income 20% of taxpayers face a state and local tax rate that's nearly 60% higher than the top 1% of households. Hawai'i is also one of only nine states that taxes all capital gains. These are profits from the sales of stocks, bonds, investment properties, art, and antiques, at a lower rate than ordinary income. This tax loophole almost entirely benefits high income taxpayers, including nonresidents who profit from investing in local real estate.

"Some taxes, not all, should be raised. If Hawai'i were to tax capital gains at the same rate as ordinary income, we would bring in between \$130 million to \$180 million per year, this is according to our State Department of Taxation, 97% of which would be paid by the top 5% of income earners in

our state. The bottom 80%, that's most working families, that's almost every single person on this floor, would pay nothing at all. For those who earn more than \$400,000 per year, long-term capital gains constitute about one third of the total taxable income for residents and nearly half for nonresidents.

"As Hawai'i Children's Action Network pointed out in their testimony, long-term capital gains constitutes 4.5% of total taxable income in the state. That's nearly \$7 billion. We need this revenue to fund our future. So rather than cutting essential services and positions, let's close the tax loopholes that benefit the most economically privileged at the expense of everyone else. Thank you."

Representative Holt rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ward rose to respond, stating:

"Mr. Speaker, in opposition with a brief comment, given the former comment of the good representative from the Big Island. Part of our problem, Mr. Speaker, is that we don't grow the pie. We have a pie that's so small that a lot of people can't afford a roof over their head, or food on the table. I'm talking about the ALICE families. But the other difficulty is we keep slicing the pie thinner and thinner, and we got to give from this group to that group. We're already the highest taxed in the nation, Mr. Speaker.

"Until this body commits itself to diversifying the economy and getting high paying jobs, all of the comments that we've just heard from the Big Island are going to be continually of class warfare type of comment, and it's not good for the health of it. Because our responsibility is to provide for all the people, not taking away from one to give to the other. We've got to be fair, of course, but we've got to get an economy that works for all of the people of Hawai'i. It doesn't do that. And, Mr. Speaker, I think we're derelict in our duty."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition, strong opposition, to 753. This is the stadium bill that shifts the Hālawā Valley to Mānoa. Mr. Speaker, we know that all bills should be logical, should be factual, should be scientific, should be based upon good reasoning, not for short, but also long range. This is a very short range, myopic bill. And not only am I opposed to it, so is DBEDT, so is DAGS, so is the Stadium Authority. And the unkindest cut of all, if you will, the most important cut is that UH doesn't want it.

"This bill is pushing the Stadium Authority, instead of being where it is now, back to Mānoa. Mr. Speaker, that, because of the contractual obligations, is going to cost us an arm and a leg and waste of millions of dollars in state funding for actions that have already been taken to date. UH admits that it doesn't know how to build stadiums. In fact, they say, the only thing we need is a place to play football. And they don't make any money because their stadium is going to be smaller and if we look at how the stadium at Hālawā made money, it was because of concerts. We don't have a super juggernaut of a football team that's going to attract a lot of people to be able to make money. But we've got concerts and we bring people in.

"The challenge is, do we want to do what seems very illogical and against the will of the university itself? Or do what is the right thing, to continue with what we're doing instead of switching horses in the middle of the stream?

"The bottom line, Mr. Speaker, why are we forcing this down UH's throat? I'd love to hear the sponsor's reason why this is financially viable as well as strategically objective. Thank you, Mr. Speaker."

Representative Kapela rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Perruso rose to speak in opposition to the measure, stating:

"Same request, and with a brief comment. So, I think that in light of our current fiscal situation, it's exactly this kind of project that I think we should consider imposing a moratorium on. Not just the transfer to UH, but also the stadium project writ large. And I think that we should go through all of our projects and identify those projects that can be paused while we deal with the fiscal situation from the Maui wildfires. And for that reason, I am voting no."

Representative Garcia rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I want to commend the chair of Education and the committee for amending the bill. And this is a similar bill to one that came across this floor about two years ago, House Bill 2125, which was a blatant attack against parents, and it was regarding harassment of educational workers. And the word was used in there, annoy. If someone feels annoyed, that would be considered harassment. I want to thank the chair for removing the word annoyed and taking the amendments proposed by the AG."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1651, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE SAFETY OF EDUCATIONAL WORKERS," passed Third Reading by a vote of 48 ayes, with Representatives Cochran, Quinlan, and Woodson being excused.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 1775, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill would basically use the taxpayer money of people from around the State of Hawai'i to pay for the breakfasts and the lunches of all students in the Department of Education. Currently, those with financial needs get breakfast or lunch. This bill would give it to everybody. Currently in the State of Hawai'i, we're ranked number 17 with regards to a state budget line iteming funds for the Department of Education. I believe that comes out to be about \$18,000 per student. So, I think there's a lot of funds already for this. I don't think we should be giving more funds to this. Thank you."

Representative Todd rose to speak in support of the measure, stating:

"Thank you, in support. I just wanted to note that currently, a very large percentage of students already receive free and reduced lunch. My daughter benefits from this even though we would not personally qualify, because a certain percentage of students at our school do qualify. She therefore does qualify. So, in a way it is an anti-class warfare bill. Thank you."

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Can I adopt the words of the representative from Hilo. I would also just like to say that students can't learn if they're hungry, and this bill fixes that," and the Chair "so ordered." (By reference only.)

Representative Kahaloa rose in support of the measure and asked that the remarks of Representative Todd be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Tam rose to speak in support of the measure, stating:

"Thank you. In strong support, same request," and the Chair "so ordered." (By reference only.)

Representative Souza rose to speak in support of the measure, stating:

"In strong support, same request. Thank you," and the Chair "so ordered." (By reference only.)

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition. As someone who was raised, as I said before, in this category that qualifies for free breakfasts and school lunch, I'm opposing this bill because parents need to learn how to parent. And I'm not saying this in a sarcastic way. It's the truth. For children who are in families that don't meet a certain income limit or criteria, they already qualify for free school lunch. So, kids who are hungry, who can't afford it, like me growing up, we

qualified for free school lunch. And we already have those programs for families who need it. So, this is just free food for everyone. Not a good idea. No vote."

Representative La Chica rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. This measure aims to protect all those who can't necessarily fulfill their student account. So, too often, and especially during committee, we heard from several dozen students who shared with us that this is their only meal of the day. They often get turned away at the lunch line for simply not having money in their school lunch account. So, no child should have to be hungry. And for many of them, whether it's a lapse or their parents forget, or because some of these kids actually even have to take on jobs, this will help fulfill their nutritional requirement and help them because, as they mentioned, it is their only meal of the day. So, for these reasons, I'm in strong support."

Representative Gates rose to speak in support of the measure, stating:

"In strong support. May I adopt the words of the Transportation chair as if they were my own. And just a brief comment. With our high cost of living, our residents deserve any break they can get. *Mahalo*," and the Chair "so ordered." (By reference only.)

Representative Amato rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I would like to please adopt the words of the Transportation chair as if they were my own. Also, I would like to say this bill is really a unifier and removes the stigma that many students face when they get to the lunch line and they're told that they cannot have lunch, yet they have to sit in the cafeteria with all the other students who are. Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. I'm between with reservations and support. And because of this, because I think this has been a driver the DOE themselves has been responsible for this, regardless of the economic arguments that we've heard on the floor. We heard in our testimony in the Finance Committee that if you are a student who doesn't qualify or your account has gone down, you are personally, publicly, and openly yanked out of the line. And I said to the DOE, don't you have any prescreening before you get to the cashier that you can save face a little bit for these people? So, I see entirely the motivation for this. Why are they doing that? Because they don't have a system, which to me is leadership and management rather than the economics of which we pleaded various poverty concessions.

"So, I say part of this bill is DOE's doing. And because they're not doing their job in terms of managing and leading, they should never have students belittled in front of a cashier because they can't afford it. When kids want to wear Fila shirts and Chanel and all other kinds of name recognition stuff, being turned down at a lunch line is totally unacceptable. I would think DOE should be a little bit more sensitive to their needs. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1775, HD 1, entitled: "A BILL FOR AN ACT RELATING TO EDUCATION," passed Third Reading by a vote of 46 ayes to 2 noes, with Representative Ward voting aye with reservations, with Representatives Garcia and Pierick voting no, and with Representatives Cochran, Quinlan, and Woodson being excused.

Representative Kila rose to speak in support of the measure, stating:

"Mr. Speaker, strong support. This bill has the intention to possibly address and ratify our school bus driver shortage epidemic right now. As a school bus driver, you're assigned one school bus route and you're expected to complete that in a period of 2.5 hours. As we look through across the state when we're talking about traffic issues, the idea to stagger our school schedules may have a larger impact, not just on school bus drivers, but our communities as well. If we can move to a staggered school bus schedule, it would also address the needs that older students need a little bit more rest to be qualified to receive the education that they're getting. But ultimately, if we can keep our school bus drivers on the road for just an hour or two more, their jobs now become competitive and we may be able to address the school bus shortage. So, for those reasons, I stand in support."

So, people all across the State of Hawai'i, they work hard, maybe with non-college jobs. Their tax-earned money would go toward students going to college. We can increase economic mobility without university education. There's lots of people who do really well without a college degree. I don't think non-college degree people should be taxed for someone else's college."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise with a few comments with reservations. I don't know how to express the pain that a lot of people in Maui are going through, and the representatives and the senators from those areas know better than I. But I do know that the notion of governance is important about who's in charge, what is supposed to be done, roles and responsibilities assigned accordingly. This is probably good in the sense that it allows another voice in another group of people. But, Mr. Speaker, I'm confused by the layers of governance of which we are going to rebuild Maui. It's almost like the Abbott and Costello, who's on first? We've got to get leadership, and, I'm going to give an example, when 911 came, the mayor of New York said, you're going to do this, you're going to do that, and we coordinated it in a very cohesive way, and it was very effective.

"My fear is that we've got overlapping layers of governance of which some people are on all of them, some people are not on all of them, some people are on some of them, some people are not on some of them. Mr. Speaker, we've got to get clarity because the people of Maui, and again I'm not the best source of it, but from what I've heard, we are slow in responding and getting the people of Maui back onto their feet, restored economically, housing-wise and otherwise. So, if we keep putting layers of democracy in the way rather than getting on with getting the job done, we're going through the motions, but we're not getting anywhere.

"For those reasons, Mr. Speaker, I hope this adds something to the mix of governance. But let's get on with it, with leadership, and with precision on what should be done to make the people of Maui whole, the way we did in 1992 when Iniki hit Kaua'i, they knew what they wanted, we gave them the money, and they did it and they survived. I think it's a great model, but with this layers of governance, I'm not sure that we're heading in that same direction. Thank you."

Representative Kahaloa rose to speak in opposition to the measure, stating:

"Mr. Speaker, no vote, please, with a brief comment. I support the intention of this bill, to support small boat harbors and starting a pilot program to create a public-private partnership. The challenge with the bill is that the state boat harbor is not identified. So, it's confusing and it causes a lot of concern for small boat harbors across the state, because they don't know if they're subject to this legislation if it were to pass. So, for that reason, I'm in opposition."

Representative Morikawa rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. Strong reservations and comments. Public-private partnerships of our small boat harbors is not a good idea. Granted, the Department of Land and Natural Resources Division of Boating and Ocean Recreation was given the running of these small boat harbors from the Department of Transportation many years ago with very little personnel and resources, it should not be the reason we need to suddenly try to go in this direction. What happens with the current government personnel? How much will the harbor users need to pay to use the harbor? The bottom line is the bottom line, profits.

"Government was meant to provide a service for the health and safety of the public. Small boat harbors allow users to access the ocean, which Hawai'i is surrounded by, for food sustenance, recreation, and business. All of this helps to boost the economy of our communities. We cannot lose our free access to small boat harbors. DOBOR has a history of being mismanaged, but if they were provided the necessary guidance and resources, we would not be having this discussion today. These sudden

legislative initiatives has led to many stresses from businesses who have spent so many years to build their business.

"There is a better way to help small boat harbors survive, and that would be with everyone coming together to develop a plan that will assure that ocean use does not impact the environment, and the public does not lose access to this important facility. Thank you, Mr. Speaker."

"In opposition, brief comment. I share the concerns of the State Fire Council and the Maui Fire Department, which stated in testimony that this bill may cause hikers to hesitate or not request assistance from first responder agencies. Mr. Speaker, I've lost far too many friends on our trails here to ever give anybody a reason not to call for help when they need it. Thank you."

Representative Morikawa rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, strong reservations. There was a lot of opposition to this bill throughout the hearings, but thank you to the chair of Water & Land, amendments were made that were well received. However, in Finance, you could sense that there was still a lot of mistrust from harbor users about how the Division of Boating and Ocean Recreation has been running the small boat harbors. The intent of this bill is good, but there still needs to be more input from all stakeholders, where most everyone is confident that this is what we need to do. And I think that would promote the confidence and trust we need from the public. What we have done on Kaua'i at the Kikiaola Small Boat Harbor is working. Through community involvement with

residents, fishermen, tour boat operators, we have been able to work the partnerships necessary to help this harbor to become more sustainable. Thank you, Mr. Speaker."

Representative Alcos rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Todd rose to speak in support of the measure, stating:

"In strong support. This is an issue that's been growing, particularly in rural areas. And right now, there is very little recourse whatsoever, even with increased penalties, on the Big Island side at the county level. It puts prosecutors in a very weird situation. I can only speak to the Big Island on this, where you have something really, truly horrific, including a death happening, and their recourse is to charge something like a petty misdemeanor, which almost seems like an insult. So, I'm for providing the prosecuting attorney's offices with more flexibility, which this would do. So, in strong support."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, may I have the remarks from the gentleman from Hilo as my own and I add a brief comment in support. I think he was rather strongly in support, and I'm strongly in support. If you were in the Finance

Committee and you heard the women who said their father got killed by a dog and he was outside the purview of the police and any law, it was sad to think that, as advanced as we are in terms of statutes and regulations, that we have nothing when a dog basically becomes a murderer.

"Mr. Speaker, this is a serious area which we've either been blindsided to, or we've never paid attention to, or we've never heard enough of these anecdotes in this building to act upon it. So, this bill is very serious and very necessary. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. Representative Kong rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition, thank you. This bill would basically use taxpayer money to buy guns. In different countries, governments make efforts to procure the citizens guns, and those efforts usually end up in an infringement of freedoms and a decreasing of freedoms. If the government says something and the people rise up against it, if they don't have firearms, there's usually less bravery in the people to speak up when they don't have firearms. This bill doesn't require people to sell their guns to the government, but it does require tax dollars to be used to purchase those guns. Thank you."

Representative Tam rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Mr. Speaker, back in November 2023, there was a successful gun buyback program where we collected, on O'ahu, nearly 500 firearms. This allows individuals who no longer want to own guns to safely trade it in anonymously. This provides individuals who currently have guns free gun locks and supports safe storage. The reason why I'm supporting this is because I really support the idea of safely selling their guns to the government rather than selling it on the black market where it can end up back on our streets."

Representative Ganaden rose to speak in support of the measure, stating:

"Mr. Speaker, in support. As the previous representative noted, there was over 500 guns submitted when this program was enacted here on O'ahu.

Many of those guns, several dozen, were illegal. Several were threaded for silencers, there were several sawed off shotguns, the officers believe that a few of them might have been connected to homicides. All of those firearms by law are destroyed. So, if anybody is listening in the public and they're wondering what happens to these guns, they are destroyed.

"What we also heard from law enforcement was that many of these guns are the result of somebody who passed away and they've just been collecting dust in a closet somewhere, and they pose a danger to young people and to other family members, they don't know what to do with them. So, people turn them in with heavy hearts, for pennies on the dollar, really. And it's another opportunity to promote public safety in our community. For that reason, I support law enforcement on all islands in their ability to make our communities safer. Thank you."

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition. I just want to say that our freedoms are worth a lot more than Foodland gift cards. Thank you."

Representative Marten rose to speak in support of the measure, stating:

"In strong support and I'd like to have the words of the representative from Kalihi adopted as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Souza rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I can understand the value of the sentiment of this measure and the detrimental effects that litigation could have on domestic violence victims. But this measure presents a slippery slope, because I have engaged with litigants on the other side of this coin who may be penalized by this measure when trying to bring legitimate causes of action before the court.

"We need to preserve access to the courts, and I am worried about the unintended consequences of this bill. This bill makes sure that litigants and family law matters do not weaponize the courts. But in some cases, what this bill seeks to do could suppress legitimate litigation, even if this measure seemingly provides a rational framework to deter abusive litigants. Measures passed in other states like Washington and Texas are still in its infancy in regards to abusive litigation, and we haven't seen the full effects of its implementation. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2657, HD 1, entitled: "A BILL FOR AN ACT RELATING TO ABUSIVE LITIGATION," passed Third Reading by a vote of 47 ayes to 1 no, with Representative Souza voting no, and with Representatives Cochran, Quinlan, and Woodson being excused.

"*Mahalo*, Mr. Speaker. I stand in strong support of this measure, which aims to curb the dissemination of deceptive deepfakes in the critical period leading up to primary and general elections. *Mahalo* to the chair of the Judiciary Committee and its members for your work on this bill.

"Deepfakes, which are any form of fabricated or manipulated media meant to misrepresent someone, pose a grave threat during election cycles, as they can be strategically timed to influence public sentiment. From fake endorsements to misleading speeches, these manipulated media pieces aim to exploit the vulnerability of voters who may unknowingly consume false information. This bill addresses these deceptive tactics that undermine the public's ability to make informed decisions, and passage of this bill into law

will help to serve as a deterrent against those who would undermine our election process."

ORDINARY CALENDAR

UNFINISHED BUSINESS

At this time, the Chair stated:

"Before we begin debate, the Chair would like to remind members that while the House floor is an important venue for members to speak and debate, the House Rules, and particularly rule 62, require that remarks be confined to the content of the measures before us and that remarks be civil and respectful. As the Mason's Manual of Legislative Procedure states, freedom of speech involves obedience to all the rules of debate. The language used by members during debate should be temperate, decorous, and respectful. So, accordingly, the Chair reserves the right to call attention to breeches of order and to strike remarks that violate the House Rules."

Representative Ward rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. It's always good to start out an all-day debate in a positive way, because this is a good bill, I'm in strong support. And basically what it does is that it amends the Hawaiian Homes Act of 1920 by increasing the loan limit for direct loans provided by the Department of Hawaiian Home Lands from 50% to 70%. Mr. Speaker, this is only fair and quite frankly, many loans are at 80%. So, in a way, it's in the right direction, but it probably should be higher. For those reasons, Mr. Speaker, this is a good bill for getting housing for the DHHL waitlist. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2218, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAIIAN HOMES COMMISSION ACT," passed Third Reading by a vote of 49 ayes, with Representatives Cochran and Woodson being excused.

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill, from my understanding, would prolong a conversation where the renter and the homeowner potentially try to figure out a way for the renter to pay off his rent. When a landlord, a homeowner, has a mortgage, that mortgage needs to have a sometimes bi-monthly or monthly payment to come in, and if that is prolonged by the renter not being able to pay the homeowner, that can cause a problem for the homeowner. So, I'll be voting no."

Representative Ganaden rose to speak in support of the measure, stating:

"Mr. Speaker, in support. This was a very successful measure that was a result of the housing crisis that happened in about a decade throughout the United States. Representative Matsumoto's written remarks are as follows:

"Condominium associations act as a self-governing body composed of elected directors who are entrusted with their duties by the owners. For decades, condominium owners have been able to fill out specific checkboxes on proxy forms to allow these entrusted individuals, as a whole body, to vote on their behalf. Removing the option for owners to give proxy votes to the board of directors as a whole is unreasonable and only creates a power imbalance within the board of directors and the association as a whole. This legislation imposes an unneeded restriction on a successful form of self-governance that has been functioning for decades. The Legislature should refrain from disrupting condominium associations' ability to serve their community, and for those reasons I vote with reservations."

Representative Matsumoto's written remarks are as follows:

"Requiring law enforcement agencies and the Law Enforcement Standards Board to report allegations of misconduct and disciplinary actions taken against officers to the National Decertification Index poses serious issues. This bill requires allegations and disciplinary action to be made available to the NDI before due process is conducted in the form of a grievance procedure involving an independent arbitrator. Given the possibility that the independent arbitrator could find that an officer was wrongfully disciplined, the question becomes whether reporting allegations and disciplinary actions to the NDI prematurely serves a meaningful purpose. This bill undermines the current grievance process in place and is unfair to officers who are rightfully cleared of misconduct by an independent arbitrator. Reporting misconduct and disciplinary data prematurely to the NDI before the grievance procedure finishes serves no purpose, and for this reason I vote with reservations."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. "People wonder why I keep pushing this bill, and it is for one family who lives in my district who has four cows. Unless you happen to be 40 miles out of Hilo and 13 miles up a single road, you are never going to find this

dairy. So, let me alleviate many of the fears that this is going to be a widespread enterprise. I am looking at a single family selling to their neighbors. And I don't know how many other farms there may be out there, but I'm sure that none of them are near you. *Mahalo*."

"Mr. Speaker, in strong opposition. When I joined the Legislature, one of the rules I believe is the role of a legislator is to do no harm and to protect the health of the residents of Hawai'i. Over my tenure, we have discussed, debated, amended, passed, and killed bills that impact the health and safety of the residents of Hawai'i.

"We have addressed alcohol consumption, smoking, vaping, dangerous drugs that have a negative impact on the health and safety of the residents of Hawai'i. We have addressed the use of defibrillators, allergy medications, requiring immunizations, and overdose-reversing drugs to protect the health and safety of the residents of Hawai'i. HB 1989, HD 2, which allows the sale of raw milk to the public, is legislation that goes against the protection of the health and safety of the residents of Hawai'i.

"In the Consumer Protection & Commerce Committee on this bill, we received testimony in opposition from the Department of Health and the Department of Agriculture. Both departments we count on to help ensure the quality and safety of the foods that are made available to the residents of Hawai'i. We also received testimony in opposition from the Hawai'i Farm Bureau, the foremost private nonprofit organization in Hawai'i that is the strongest advocates for the continued support and development of agriculture and agricultural products for our residents in Hawai'i. Their message in opposition was that raw milk is unsafe.

"Mr. Speaker, when I checked the Center for Disease Control's website regarding raw milk on their web page, Food Safety, under the subheading, Foods That Can Cause Food Poisoning, raw milk is listed as one of those foods. On the Raw Milk page it says, and I quote, 'Unfortunately, some people are choosing to drink raw milk. Raw milk—and products made from it—can make you and your loved ones sick. Raw milk has not undergone a process called pasteurization that kills disease-causing germs. Pasteurized milk is a safe and healthy food. When milk pasteurization began in the early 1900s, deaths and diarrheal illnesses in young children declined dramatically.'

"If you go to the Fast Facts: Why is Raw Milk Unsafe? page, it says, 'raw milk is one of the riskiest foods....Most of the nutritional benefits of drinking raw milk are available from pasteurized milk without the risk of disease that comes with drinking raw milk....Anyone, even healthy adults, can get sick from drinking raw milk, but...the people most at risk for severe illness are adults 65 years and older, children younger than 5 years, and people with weakened immune systems.' Does that warning sound familiar?

"Mr. Speaker, the U.S. Food and Drug Administration website regarding raw milk says on their Food Safety and Raw Milk webpage, 'while the perceived nutritional and health benefits of raw milk consumption have not been scientifically substantiated, the health risks are clear. ... While raw milk puts all consumers at risk, the elderly, immune-compromised people, children and pregnant women are especially vulnerable to the hazards of raw milk consumption. FDA's consumer education will continue to focus on helping consumers understand the risk to these populations. The FDA's position on raw milk is in concert with the Centers for Disease Control and the American Academy of Pediatrics.'"

Representative Perruso rose to yield her time, and the Chair "so ordered."

Representative Onishi continued, stating:

"Mr. Speaker, the American Academy of Pediatrics on their Raw Milk: What You Need to Know website, has a similar warning. 'Anyone can get sick from drinking raw milk or products made from raw milk. Raw milk may be contained in cream, cheeses, yogurt, ice cream, frozen yogurt, or pudding. Children, pregnant women, people with weakened immune

systems, or older adults are more likely to get sick. Although most healthy people get well, the symptoms can become chronic (long-term) or severe or may result in death."

"With that, Mr. Speaker, I cannot support this bill and vote no."

Representative Morikawa rose to speak in support of the measure, stating:

"Mr. Speaker, in support. When I was raised on the Big Island on Parker Ranch, the only milk that we had access to was raw milk. I enjoyed it. I loved it. I don't think I would drink it today. However, I believe that maybe I obtained a lot of immunities from drinking it. But when you're poor, sometimes this is something that you must drink. Thank you, Mr. Speaker."

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. So, this is not something that was really on my radar at the beginning of legislative session. But recently I had the opportunity, during the recess, to go and visit a farm in my district. And this specifically is one of the bills that would really impact this farm. This is something that would allow these farmers to be able to sell to their neighbors. Something that they're already trying to do or want to do, but unfortunately can't because of a law.

"So, I think the reality is that this bill doesn't force anyone to drink raw milk. If you don't want to drink raw milk, good for you, there's a litany of stories all across the state where you can buy pasteurized milk. But if you do want to buy raw milk, you should be able to have that opportunity. Because I think that not only does it benefit the farmers, but it also benefits the individuals who should have a choice in the milk that they buy, or the products that they want to buy, or the farms that they want to support. For those reasons, I'm in support of this measure. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. "In opposition. This bill exempts construction of roads, waterworks, bridges, airfields, walls, canals, surface parking, utilities, piers, landscaping, athletic fields, and play courts from the 1% transfer into the works of special art. That's a good thing. I'm glad that we are making a motion to decrease the amount of taxpayer dollars that go towards art. However, this bill still has appropriation to art. And for that reason, I vote no."

"Thank you, Mr. Speaker. Strong support for this small business tax credit. It'll help the pharmacists, researchers, and other small businesses. And request insert into the Journal with comments. Thank you."

Representative Ward's written remarks are as follows:

"I am in strong support of HB 1957 as this bill assists small businesses and promotes the economic diversification of Hawai'i. By raising the maximum amount of tax credits for research activities, this bill facilitates innovation and growth in a sector important to the development and wellbeing of the state and allows for local studies to be conducted on sea level rise, invasive species, disaster management, and other topics crucial to the welfare of Hawai'i. The research and development industry in Hawai'i

deserves the Legislature's support as it employs thousands of citizens and provides wages well above the state average. Additionally, not only does this bill support businesses currently in operation, but it will attract new organizations through the increased access to tax credits and the extension of the sunset date. In 2022, twenty-six companies applied for the research tax credit, however, only nine were able to benefit from the program due to the low cap. Raising the cap will benefit small, local businesses and provide them with better opportunities to become profitable. This state needs to protect and propel its economy to assist recovery efforts and lower the cost of living and this bill is a step in the right direction."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1957, HD 2, entitled: "A BILL FOR AN ACT RELATING TO RESEARCH ACTIVITIES," passed Third Reading by a vote of 49 ayes, with Representatives Cochran and Woodson being excused.

"In opposition to 936. This bill would appropriate tax dollars funds to go towards public financing of elections. So that means the people of Hawai'i, they would have money taken out of their paycheck and become taxes, and that would fund Democrats and Republicans running for office. So, that would mean the taxpayer money of a Republican would finance the Democrat's election and vice versa. I'm voting no."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1845, HD 2, entitled: "A BILL FOR AN ACT RELATING TO PARTIAL PUBLIC FINANCING OF ELECTIONS," passed Third Reading by a vote of 47 ayes to 2 noes, with Representatives Aiu and Matsumoto voting aye with reservations, with Representatives Garcia and Pierick voting no, and with Representatives Cochran and Woodson being excused.

"Mr. Speaker, may I request a ruling on a possible conflict? My daughter works as an associate public defender."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill would basically require a certain amount of women to be hired into the law enforcement. That's affirmative action. I don't believe we should be supporting that. People should be hired based on the merits of their character, not necessarily based on the merits of their

ethnicity, gender, or other things like that. If we're looking for certain qualities in a candidate for law enforcement office, let's say compassionate, caring, using less excessive force, then we should describe those as things we're looking for in hiring people into law enforcement and not just say, we need more females in law enforcement."

Representative Ganaden rose to speak in support of the measure, stating:

"In support, Mr. Speaker. This bill has support from law enforcement across the state and all counties. Unlike what the previous speaker just mentioned, it is has nothing to do with, what did he say, character, affirmative action. Also, it's not mandated. This is a goal. Law enforcement is one of the last sectors of public employment that hasn't been integrated regarding gender. We now know from data from across the United States that women make excellent officers. So, if you're watching and if you're a woman and you think you qualify for law enforcement here in the state, please apply. There's about 400 positions open statewide. Women tend to de-escalate better and make excellent employees. So, for those reasons, in support."

Representative Todd rose to speak in support of the measure, stating:

"Thank you, in support. I think one of the strengths of law enforcement here in Hawai'i is that it's relatively representative of our population, especially when compared to many other states where there's a huge divide between urban and rural communities where, very often, law enforcement officers come from rural communities and end up policing, very often, in more urban communities where there's a disconnect.

"So, I think this would just kind of lean further into that strength of Hawai'i's law enforcement agencies where it could be even more representative of our population, which is very important. There's been a ton of studies on things like implicit bias. And the more representative we can make that law enforcement community; the better our outcomes could be. Thank you."

Representative Aiu rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2231, HD 1, entitled: "A BILL FOR AN ACT RELATING TO LAW ENFORCEMENT," passed Third Reading by a vote of 45 ayes to 4 noes, with Representative Aiu voting aye with reservations, with Representatives Alcos, Garcia, Kila, and Pierick voting no, and with Representatives Cochran and Woodson being excused.

Representative Belatti rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. Request for a ruling on a potential conflict. The measure in this, HB 2340, I'm employed by a law firm that has a claim in this for which I have done no work on this claim, wo work on this case."

The Chair addressed Representative Belatti, stating:

"The Chair's ruling is that there is no conflict on this measure, it applies to a class of claims. The ruling remains in effect through *sine die* unless circumstances change."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2340, HD 2, entitled: "A BILL FOR AN ACT MAKING APPROPRIATIONS FOR CLAIMS AGAINST THE STATE, ITS OFFICERS, OR ITS EMPLOYEES," passed Third Reading by a vote of 49 ayes, with Representatives Cochran and Woodson being excused.

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise painfully with reservations. Why am I saying am I rising painfully? Because it's part of what the jobs in the business group did when you put everybody into a working group. I was on that group, I was proud to be in that group. But, Mr. Speaker, what we've delivered in this bill falls really short. I use the analogy of, and this is true, the Maui business community is really drowning. They are suffering, they are painful, they are really in need of a lot of help.

"As you see a drowning swimmer, instead of throwing a life preserver, we throw them swimming lessons, Mr. Speaker. This bill gives them an adjunct professor at the university, one person. In all the needs that we heard when we went to Maui, I don't see how we can justify this. The point is, it kind of damns with faint praise. I mean, it's good that we're doing that, but let's remember, CNHA has been doing a, quote, carpenter academy, construction academy, for months already, so they're already in there doing that. So, if we're going to help jobs and business and we come up with a professor, is that the best we can do? I don't think so, Mr. Speaker. So, yeah, it's okay, but it's painful to see that the business community is crying out and we give them a professor. For those reasons, Mr. Speaker, I am painfully with reservations. Thank you."

Representative Garrett rose to speak in support of the measure, stating:

"Un-painfully rising in support. Thank you. As the co-chair of your interim working group on jobs and business for the Maui recovery, a position I jointly held with the good representative from Chinatown, I'd like to remind this body that our group came up with several recommendations, not just this one. Although this bill may be the only legislative action we proposed, our report included several other recommendations for the three areas we looked at, the initial unemployment situation and performance of the state's unemployment insurance system, the impacts of tourism, and the impacts to businesses.

"I'd like to remind the representative from Hawai'i Kai that shortly after the wildfires, the administration proposed the business assistance fund of \$25 million, and that our report included many recommendations that were suggested by businesses in Lahaina when our working group visited them in person for a listening session.

"Most of our working group's recommendations were aimed at the county, including our suggestions that they provide support for a federal resource navigator, and that they improve their communications by sharing more concrete timelines for when businesses that were not impacted by the wildfires may be able to reopen. We also encouraged banks and lenders to consider a forbearance on mortgages held by the impacted businesses that lost everything in the wildfires.

"We know that it's going to take time for Lahaina to rebuild, likely several years. But the one thing that became abundantly clear to the working group is that the county does not currently have the skilled labor necessary to undertake that reconstruction. Providing the additional faculty to UH Maui College, which already has several high performing construction trades programs in place, would allow them to scale up their programs and expand Maui's construction workforce.

"Sure, construction is not for everyone, but this bill creates an additional pathway for people who are interested in a new career and may be interested

in helping to rebuild their beloved hometown with their own hands. Without growing their own, Maui would have to rely on importing construction workers from other communities across the state, as well as from the continent. And with such a housing crunch on the Valley Isle, the last thing we want to do is exacerbate the situation by forcing Maui to import labor and have them compete for very limited housing. For these reasons, Mr. Speaker, I stand in support of this bill. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1844, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE UNIVERSITY OF HAWAII," passed Third Reading by a vote of 46 ayes, with Representative Ward voting aye with reservations, and with Representatives Cochran, Gates, Kahaloa, Matayoshi, and Woodson being excused.

Mr. Speaker, this is a seemingly innocuous bill, but the language that concerns me is the ability being provided to the Department of Transportation to own, hold, improve, and rehabilitate any real, personal, or mixed property and sell, the key word here is to be able to sell lands that they have acquired. And that's concerning to me because of the extent with which Department of Transportation has land holdings across the state. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1932, HD 2, entitled: "A BILL FOR AN ACT RELATING TO THE DEPARTMENT OF TRANSPORTATION," passed Third Reading by a vote of 43 ayes to 3 noes, with Representative Belatti voting aye with reservations, with Representatives Kapela, Perruso, and Poepoe voting no, and with

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill would appropriate funds to the Mass Transit Special Fund. In other words, this would use taxpayer money on the rail. Not a lot of people in Hawai'i use the rail. My district has about four different rail stations. So, definitely my district would, to some extent, disproportionately be benefited by the rail. However, not even in my district a lot of people use the rail. I think we should use the funds already allocated for the rail to continue with that, and we shouldn't be using more tax dollars on the rail. Thank you."

Representative Todd rose to speak in support of the measure, stating:

"Thank you, in support. I just wanted to note that this is not an additional appropriation, because the money is already in the Mass Transit Special Fund. But due to budgetary restraints, namely the ceiling, they just need to kind of reallocate money that is already there because they can't legally spend it at the moment, mostly just due to some red tape. So, this is a

government efficiency piece of legislation and would just allow some processes to be streamlined, whereas it's currently being held up by our own kind of inaction in the past. Thanks."

Representative Ganaden rose to speak in support of the measure, stating:

"In support. I'd like to adopt the words of the Transportation chair as if they were my own. Brief comment, Mr. Speaker. I'd like to thank not only the Transportation chair, but the federal government and HART for communicating appropriately and for allocating a significant amount of money to the development of this project that many in my community and others have been waiting for for quite a long time," and the Chair "so ordered." (By reference only.)

"Mr. Speaker, I rise in strong support of 998. This is the bill that we watch very closely. I had the honor of being on the watchdog committee for the \$600 million for the DHHL, the boon that we provided so they can get, and this is what Kali Watson, the director of DHHL, said. With that money, there's going to be 5,000 people taken off of the waitlist, Mr. Speaker. With that they've also committed even beyond the \$600 million. So, they're really going aggressively. So, this is a good bill that says whatever portion is not spent and lapses, we extend that so the \$600 million will stay safe within DHHL. It's a good bill. It shows when you give them the resources, DHHL can do the job. Thank you."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. I'd like to thank the introducer of this bill and the heart behind helping those in the homeless community. I don't believe the answer to addressing homelessness is creating a government department, having a government department, funding that government department with taxpayer money to address the homeless issue. I think the solution is less government.

"So, if we have an individual in Hawai'i, they have an income, if that income grows, then they can afford to pay for a rent or pay for a mortgage. What limits that is high taxes. Hawai'i has some of the highest taxes in the nation. If the business has high corporate tax that limits the employer paying the employee, if we have lots of red tape restricting the construction of housing, that makes it more expensive to build a house and then to rent it out or sell it.

"So, these are all things that make the cost of living high in Hawai'i and which sometimes lead people to become homeless. So, I don't believe the answer to the homelessness issue is taxing the people of Hawai'i, creating a

program to service the homeless. The answer is decreasing the government. Thank you."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Mr. Speaker, as we head into difficult budget negotiations, I wanted to place a spotlight on this bill, as it is a majority package bill to ensure that the safety net of our community is in place. This bill is considering an appropriation that would fund necessary and critical homeless service outreach programs, care coordination, and transition supports. This particular budget item has not received an increase for over a decade.

"When we call and we ask for assistance in our community to deal with encampments under bridges, in parks, it's these programs where we work and partner with community outreach providers to do the necessary work to address homelessness. This is but one part of the piece and the strategy for addressing and tackling homelessness by this majority. And so, in strong support, Mr. Speaker."

"I'm opposed, no vote. In my district, to transfer, to upgrade to the cesspool and tie in, to see that my *kūpunas*, our families, have to spend \$20,000 to \$50,000 to convert. I can see if the state comes in or government comes in and we can get some kind of special funds in helping our constituents out. But I cannot see how to pass this bill and put this problem all on them 100% when already it's hard for them to make a living. So, no vote."

Representative Ward rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Hussey-Burdick rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support, brief comment. I just want to make sure that everybody knows that when we initially started the discussion about cesspool conversion and upgrades, it was really expensive to upgrade to sewer, a sewer connection does cost \$20,000 to \$50,000. However, there are a wide range of alternative toilet technologies, which can cost only about \$1,000 per unit, per toilet. So, there are a lot of low-cost resources and funding available from the state to upgrade so that it doesn't cost \$20,000 to \$50,000. Thank you."

Representative Ward rose to speak in support of the measure, stating:

"I stand in strong support because I love ADUs. Accessory dwelling units, Mr. Speaker, is key to the housing crisis. The infrastructure is already there. The property is already owned. It doesn't take anything other than what this bill does, is provide a loan. So, I want to thank the chair of Housing for this creative, innovative bill. And I want to thank the chair of Finance for blanking out the interest rates, because we don't want to have it at market rates, so everybody can afford to do this, particularly for the people in Maui and other places. And I know people on the neighbor islands have a lot of land, and this is going to be a boon for them also and especially for them. Thank you."

Representative Hussey-Burdick rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Matsumoto rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. I'd like to thank the introducer of this bill, as well as all of the students from Mililani High School who have come out and testified on this bill, the importance of having local agriculture in our schools. I think this is something that we really need to focus on, especially when we're trying to support our small farmers and actually all of the farmers across our state. The one thing that I ask as we go forward, I know this bill is focused on only plant based, but as somebody who comes from a farming family, I know how important it is to support our poultry farmers, our cattle ranchers, and all others that are not just our plant-based farmers in Hawai'i. But in strong support and permission to insert additional written comments. Thank you."

Representative Matsumoto's written remarks are as follows:

"Encouraging schools to achieve the local farm-to-school meal objective of sourcing 30% of their food from local food producers is a great idea for promoting and supporting our state's agriculture industry. In a time where Hawai'i's food supply remains dependent on the importation of food, I believe that this legislation helps our state take a step in the right direction towards an independent and resilient food supply. For these reasons, I support this measure."

Representative Garcia rose to speak in support of the measure, stating:

"In support. I wouldn't think I would be speaking on plant-based meal options, Mr. Speaker, but I do support plant-based meal options. I think, looking at my community and my district and talking to some of the students in my schools, the issue of lifestyle diseases is quite prevalent in our Native Hawaiian community. And my community have lots of Hawaiian homesteads, and there are high rates of hypertension, type 2 diabetes, cholesterol, atherosclerosis, all types of lifestyle diseases. And if we can encourage a more healthier lifestyle within our schools, this will benefit my community. So, in support. Thank you."

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 2012, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill would require, basically, merchants to have charging stations in their parking lots. So, if a person drives into the merchant's parking lot, they can charge their vehicle and then drive on their way. There's no mention in this bill that requires the person charging the

vehicle to go into the store and buy something to compensate the cost of electricity that the merchant would have to pay to charge the vehicle.

"Let me give you an example. This past January, I went to San Francisco, and I went with my friend to various places in that area. And he would go from store to store charging his vehicle. Okay, the owners of those stores have to pay for the electricity. That's not going to help the merchants. And this bill won't help the merchants of Hawai'i. I'm voting no."

Representative Lowen rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. If you take the time to read the bill, that's not what it does. There's already an existing state law that requires EV charging stations, I think per the number of stalls, one per 100 stalls. And there's no provision that that can't be charged for, in some of these stations, the merchants can opt to charge for it, they're not required to give free electricity.

"What this bill does is just say that, per that requirement that already exists, and has for, I think, more than a decade, that those stalls have to be built in the location where that requirement was incurred. Because right now the law allows for, say, a new Target to be built in Kona, but all the EV stalls can be put in over on Hilo side. So, we're just saying it has to be at that location. And then it also allows the counties, if they choose, to have the authority to require additional stalls under county law. So, that just gives them home rule. And that is what this bill does. Thanks."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2012, HD 2, entitled: "A BILL FOR AN ACT RELATING TO ELECTRIC VEHICLE PARKING," passed Third Reading by a vote of 46 ayes to 3 noes, with Representatives Garcia, Kong, and Pierick voting no, and with Representatives Cochran and Woodson being excused.

At this time, Representative Garcia offered Floor Amendment No. 1, amending H.B. No. 2553, HD 2 as follows:

SECTION 1. House Bill No. 2253, H.D. 2, is amended by deleting the existing section 4 and replacing it with the following:

Representative Garcia moved that Floor Amendment No. 1 be adopted, seconded by Representative Ward.

Representative Garcia rose to speak in support of the proposed floor amendment, stating:

"Thank you, Mr. Speaker. If you and the members can turn your attention to the floor amendment before you. Number one, the only thing that I am requesting to amend within House Bill No. 2553 is parental consent, is adding in parental consent. So, the only thing we're adding in here is on page three, number nine, that says, 'the pharmacist has provided the vaccine information statement to and obtained consent from patient's parent or caregiver prior to administering the vaccine.'

"This bill gives way for physicians, physician assistants, and interns to vaccinate people ages 3 through 17. All this floor amendment says is that's okay if their parents say okay, if they have consent from their parents. This isn't a partisan issue, this is the basic commonsense issue. And I think most parents would agree that they would not want their child to be vaccinated against their consent or against their will. So, I would kindly urge this body to adopt this commonsense floor amendment in supporting parents' rights over their *keiki*. *Mahalo*."

Representative Belatti rose to speak in opposition to the proposed floor amendment, stating:

"Mr. Speaker, in opposition. In opposition at this time, Mr. Speaker, insofar as this floor amendment is unnecessary, as parental consent is required for vaccinations through a myriad of other laws, including HRS 671-3. Thank you, Mr. Speaker."

The motion that Floor Amendment No. 1, amending H.B. No. 2553, HD 2, entitled: "A BILL FOR AN ACT RELATING TO PHARMACISTS," be adopted, was put to vote by the Chair and upon a voice vote, failed to carry, with Representatives Cochran, Ganaden, and Woodson being excused.

(Main Motion)

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2553, HD 2, entitled: "A BILL FOR AN ACT RELATING TO PHARMACISTS," passed Third Reading by a vote of 45 ayes to 4 noes, with Representatives Garcia, Gates, Kila, and Pierick voting no, and with Representatives Cochran and Woodson being excused.

Representative Tarnas, for the Committee on Judiciary & Hawaiian Affairs, presented a report (Stand. Com. Rep. No. 1060-24) recommending that H.B. No. 2079, HD 2 pass Third Reading.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 2079, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. LGBTQ rights are human rights. In our state's defense of civil liberties for all, preserving bodily autonomy is a matter of urgent concern. There has been a great deal of

misinformation deliberately spread about this bill, so today I wanted to correct the record and respond to those who have put a politics of fear before the politics of individual liberty.

"Here is what this bill actually does. First, it protects providers and recipients of gender-affirming care from being targeted by out-of-state agencies that seek to undermine their bodily freedom and obtain their private patient information. Sadly, this is something that has been done by red states all across the country in an attempt to suppress gender minorities.

"Second, this measure protects families from having their *keiki* removed by out-of-state agencies for providing their *keiki* with access to gender-affirming care. Again, this is something that individuals from red states are doing in an effort to literally steal transgender children away from their parents and their homes. Third, this proposal improves access to gender-affirming care by allowing telehealth providers to prescribe hormone treatment without an in-person consultation."

At 11:14 a.m., Representative Nakamura requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 11:14 a.m.

Representative Kapela continued, stating:

"Fourth, this bill further enshrines bodily autonomy into state law so that individual medical decisions are made by doctors, their families, their parents, and their patients.

"Finally, here is what the bill does not do. This bill would not allow minors to access gender-affirming care without parental consent. I'm going to say it one more time because I think a lot of people don't get it. If you are a parent and you decide to do this with your child, then it's okay. But you cannot, your child cannot do this or get gender-affirming care without your consent as a parent. There is no law in the country that allows that. And we are certainly not going to try and do that with this bill.

"Additionally, this bill would not cause parents to lose custody of their children for restricting access to gender-affirming care. If your child wants gender-affirming care and you say no to your minor child, they have to listen to you as the parent.

"On the contrary, this bill guarantees that parents who do allow their children access to gender-affirming care won't lose their children because of custody challenges brought by other states.

"It is not the advocates for this bill who are trying to limit individual rights or take away people's children. It is the opponents of gender-affirming care who are attempting to prevent families from making a choice that is in their best interest, and who are supporting laws that would criminalize their *keiki* for expressing their true identity. I think it's so important that we support parents' rights and support families who choose this. Just because someone has a different choice than you, doesn't mean that you should take that away from them. Thank you."

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition, strong opposition. Thank you. I want to read the description of this bill, House Bill 2079. It relaxes the requirements for prescribing certain controlled substances as part of gender-affirming health care services. It expands the protections established under Act 2 to include gender-affirming health care services. It clarifies jurisdiction under the Uniform Child-Custody Jurisdiction and Enforcement Act for cases involving children who obtain gender-affirming health care services.

"Mr. Speaker, as I've said before on this floor, House Bill 2079 is a blatant attack against the parents and families of Hawai'i. This is children we're talking about. And I think some folks, Mr. Speaker, like to make this argument over a particular group of people. My opposition to this isn't targeting anyone for their lifestyle choice, the way they choose to live their life. This is a free country, and I believe every citizen has the right to live life as they wish, and no one can tell them what to do or how to live.

"But this is children we're talking about. Minors, not anybody, this is minors. And this bill targets children. This bill has had quite the discussion across Hawai'i in recent weeks. And what I'm hearing from the people of

Hawai'i who, yes, have read the many pages of this bill, is simply this, leave our *keiki* alone. These decisions, when they engage in gender-affirming care, are permanent. They are life changing. As I said before, this isn't just taking a pill or dyeing your hair color green or blue. This is life changing alterations. It includes gender reassignment surgery and/or hormone blockers, which I believe is chemical castration. And there have been no long, long-term studies to show the efficacy and health benefits from these gender affirmation drugs.

"The main drug that's used in gender-affirming care is something called Lupron, which, by the way, big pharma makes about \$30,000 a year per person who's on hormone blockers, Lupron. This bill doesn't stop at the promotion of child mutilation. It continues, and here is what I find offensive—"

Representative Kapela rose to a point of order, stating:

"Mr. Speaker, point of order. There's nothing about child mutilation in this bill."

Vice Speaker Ilagan: "Hold on. Representative Kapela, you're not recognized.

Representative Kapela: "I ask that he constrain his remarks to this bill."

Representative Ward: "Mr. Speaker, really a point of order is parliamentary procedure..."

At 11:19 a.m., Representative Garcia requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 11:20 a.m.

The Chair then stated:

"Members, let's just remember, let's keep our remarks to the bill."

Representative Garcia continued, stating:

"Thank you, Mr. Speaker, as I will continue to keep my remarks pertaining to this bill. This bill does not stop at the promotion of child mutilation. It continues, and here is what I find offensive. On page 48—"

Representative Nakamura rose to a point of order, stating:

"Point of order. Keeping remarks to the bill and not going beyond the contents of the bill."

Representative Garcia continued, stating:

"Point of order, Mr. Speaker. I'm talking about House Bill 2079, okay, and I'm going to continue in opposition. And it is my opinion, Mr. Speaker, and by the way, this is a free country, we're allowed to have our own opinions. And folks may not agree, they may disagree, but we have the right to have our own opinions. So, on page 48 it says this, a court of this state shall have temporary—"

Representative Nakamura rose to a point of order, stating:

"Point of order. Mr. Speaker, please strike that this is child mutilation from the Journal."

At 11:21 a.m., Representative Garcia requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 11:26 a.m.

Representative Garcia continued, stating:

"Thank you, Mr. Speaker. Continuing on my opposition to House Bill 2079. Page 48 states, and I quote, 'a court of this State shall have temporary emergency jurisdiction if the child is present in this State and the child has been abandoned or it is necessary in an emergency to protect the child because,' and then it gives two reasons. The first reason makes sense, 'the child, or a sibling or parent of the child, is subjected to or threatened with mistreatment or abuse.' That makes sense.

"But the second point, 'the child has been unable to obtain gender-affirming health care services.' Mr. Speaker, I think what this bill does is it

lays the foundation, because there are those who fear that families from red states who have passed legislation prohibiting this gender-affirming care for minors, that those families would come here and make Hawai'i a gender-affirming sanctuary state. And that if those states try and enforce their laws on their residents, we step in and our court system steps in, and we now have temporary emergency jurisdiction over their children in court.

"This is a blatant attack on families. It's against what we believe here in Hawai'i. Parents have a fundamental right to raise their children the way they want. And if parents are okay with this, that's great, that is their right. But there are many, many, many families who disagree, who feel that this is a bill that should not be passed in Hawai'i. So, for those reasons, very strong no vote."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I want to point to the exact same language that the previous speaker pointed to, and what he fails to emphasize is that the child has been abandoned. That this law goes into effect when the court finds that the child has been abandoned. There are many situations that it will be a court to determine and then provide this access. And so, for that reason, to read this law in its entirety, to look at Section 583A, and to understand that this is not taking away the parent's right. Thank you, Mr. Speaker."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill has many dynamics, many facets. I'm going to be against the theme of the bill, which is gender-affirming care. I would like to thank the heart behind inclusion and equity. All members of our community are valuable.

"This bill relaxes requirements for what and how physicians prescribe controlled substances like puberty blockers and hormones in regard to gender-affirming care. It allows out-of-state physicians to prescribe with merely a telehealth interaction, no need to be in person. So, a doctor can be on the phone talking to the family, and they can initiate sex change surgery processes like hormones and puberty blockers.

"A potential dilemma facing transgender children, their families, and their doctor, is this. Taking cross hormones can reduce fertility. There isn't enough research to find out if it is reversible or not. So, when children make the decision to start taking hormones, they have to consider whether they ever want to have biological children. No long-term longitudinal studies of puberty blockers and their effects on children have ever been done. Thus, the treatment that this bill encourages is somewhat experimental.

"Concerns have been raised that hormonal suppression of puberty may permanently alter neurodevelopment. The possible impact of puberty blockage on a young person's cognition has important implications for the capacity to give informed consent. In other words, if a child takes puberty blockers, if they're going to in the future make medical decisions about sex change surgery, their ability to make that cognitive decision has been decreased.

"Sweden was one of the earliest and strongest supporters of gender-affirming care. A Swedish study published in 2011 found that, 'persons with transsexualism, after sex reassignment, have considerably higher risks for mortality, suicidal behaviour, and psychiatric morbidity than the general population. Our findings suggest that sex reassignment, although alleviating gender dysphoria, may not suffice as treatment for transsexualism...'

"Countries who are earliest supporters of gender-affirming care, such as Finland, Sweden, Norway, and the UK, are now backpedaling and acknowledging how experimental this treatment is.

"As legislators, we bear the responsibility of weighing the consequences of the legislation we enact. Should we open the door wider for our *keiki* to embark on a journey filled with uncertainties and implications when they have yet to attain full cognition development? It is incumbent upon us to safeguard their wellbeing and refrain from endorsing experimental procedures that have no definite solution to gender dysphoria.

"I implore my colleagues to consider the gravity of the decision before us. Let us prioritize the welfare of our youth. They deserve nothing less than our unwavering commitment to their health and future wellbeing. God made

male and female. He did a pretty good job. Men and women are equal, and they're complementary in biology."

Representative Quinlan rose to speak in opposition to the measure, stating:

"In opposition, Mr. Speaker. And I'd first like to commend the introducer's really hard work on what is an incredibly complex issue. Personally, I don't know that I think it's as cut and dried as either side would have us believe. I am concerned about the lack of data. I'm concerned about some of the provisions in this bill. I'll save the rest of my comments for final reading, but I am forcefully reminded of something Sartre once said, *l'enfer, c'est les autres*."

Representative Tam rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I want to back up what the chair from our Committee on Health says, that is how the bill is structured to be. This bill provides a safeguard for our families from having their children removed by out-of-state agencies for providing them with lifesaving medical care. It does not take away parental rights. In fact, it protects families' right to live in a supportive home.

"I also want to clarify that being transgender is not a choice. No one wakes up one day and decides, hey, I'm going to be transgender and I'm going to make my life 10 times harder. Because the data shows, and it indicates that 82% of trans individuals have considered suicide, 40% of them have attempted it. It's even higher amongst our transgendered youth. This bill saves lives and I urge this body to support it. Thank you."

Representative Perruso rose to speak in support of the measure, stating:

"Mr. Speaker, in support. As someone who represents a community in which there are multiple families whose children have attempted suicide for these reasons, for the reasons mentioned by the previous speaker, I want to support this particular measure. And I do want to circle back to the specific work that this measure does.

"So, it does not create any laws that authorize surgeries on minors or take away children from their families. I think that's a really important clarification, because there has been a lot of misinformation on social media. This bill will ensure that parents in Hawai'i cannot have their children removed by out-of-state courts for allowing medical care under a doctor's supervision for their child that is already legal in the State of Hawai'i. It only seeks to hold residents of our island home harmless from laws enacted on the continent. And for those reasons, I'm in strong support."

Representative Souza rose to speak in support of the measure with reservations, stating:

"Thank you, Mr. Speaker. Yes, with reservations. Time and time again, Mr. Speaker, we hear this term thrown around on the floor about parental rights. And once more, this term has been used in reference to this bill, that this bill will infringe on parental rights. However, parental rights cannot be given by the government because parents have inherent rights in addition to fundamental rights under the law.

"In *Pierce v. Society of Sisters*, a Supreme Court case from 1925, it states that, 'the child is not the mere creature of the state; those who nurture him and direct his destiny have the right, coupled with the high duty, to recognize and prepare him for additional obligations.'

"Generally, this body can only affirm parental rights. So, the very individuals on this floor who keep begging this body to give parents rights are contradicting the very essence of their arguments rooted in faith and religion that parents should have the right to raise their children. Parents do have this right, and they can exercise it freely, with exceptions, as this fundamental right is not absolute.

"A Harvard Law Review article pointing to the specific dilemma of banning gender-affirming care states the following. 'Many other courts and commentators have presumed that parents' common law right to supervise their children's healthcare is constitutionally protected. Gender-affirming care bans would likely violate this right. Prohibiting parents from authorizing medically necessary treatment for their children when they

believe this care is in their children's best interests is just the kind of intrusive government conduct that parental due process rights guard against.'

"The argument that parents should have the right to raise their children as they choose is the very crux of this bill. This bill specifically states that, 'a law of another state that authorizes a state agency to remove a child from their parent or guardian based on the parent or guardian allowing the child to receive gender-affirming health care services shall be against the public policy of this State...'

"Banning gender-affirming care and imposing your wishes on trans youth is making decisions for these families.

"The Supreme Court in the Troxel decision said this. 'For the state to delegate to the parents the authority to raise the child as the parents see fit, except when the state thinks another choice would be better, is to give the parents no authority at all. "You may do whatever you choose, so long as it is what I would choose also" does not constitute a delegation of authority. If there is no delegation of authority, there is no barrier between the state and how parents raise their children.'

"You can't have it both ways and provide contradictory arguments. On one hand, some on this floor are saying parents need rights, while also simultaneously saying they know, as legislators, what is best for our children without caring about the overwhelming evidence that this course of treatment in this bill protects, and it is the standard course of action for dealing with gender dysphoria, according to the super majority of medical institutions.

"Ultimately, Mr. Speaker, we have a responsibility on this floor to express the facts of bills and not sensationalize issues just to provide content to the social media crowd and rally our bases. Again, Mr. Speaker, I can't infringe on a parent's rights to raise their children as they deem fit, and therefore I will be voting yes with reservations on this measure. Thank you."

Representative La Chica rose to speak in opposition to the measure, stating:

"*Mahalo*, Mr. Speaker. In opposition. I would like to thank the introducer as well as the Health chair for the clarification provided on this bill. Mr. Speaker, I am in support of access to care, because I do believe that every single individual should be able to live their fullest lives. I do want to share, Mr. Speaker, that in 2022, the Legislature did pass into law House Bill 2405, which strengthens our Gender Affirming Treatment Act and provides access to gender-affirming care deemed medically necessary.

"I also appreciate that this bill seeks to offer protections to those who seek and provide gender-affirming care in the state, without fear of prosecution. While there are attempts across the nation to ban gender-affirming care access, I do believe that Hawai'i will never be one of those states. However, despite the proactive intent of this bill, I do feel that it is in search of a premature problem.

"Missing in this measure is testimony from providers saying that this bill is necessary for the protection of public health beyond what is already legal under current Hawai'i law. Providers, and I've spoken to some providers, currently offer gender-affirming care and the law in place already protects patients from discriminatory treatment, as well as decisions that are found to be cosmetic.

"Finally, testosterone is classified as a Schedule III controlled substance due to its potential for risk and misuse and concerns without a thorough in-person evaluation. Hawai'i laws would not prevent testosterone from being prescribed if deemed medically necessary. Providers are able to do telehealth consultations after a first in-person evaluation. So, for those reasons, I am a no at this time."

Representative Kila rose to speak in opposition to the measure, stating:

"Mr. Speaker, opposition please. Could I please adopt the words of the Health chair and the vice chair of Higher Education as if they were my own. And brief comment. Whether this bill chooses to pass or not, predating the Legislature and predating time, *māhū* folks in the Native Hawaiian community are here and have always been here. Thank you," and the Chair "so ordered." (By reference only.)

Representative Alcos rose to speak in opposition to the measure, stating:

"In strong opposition, Mr. Speaker. Our children make mistakes, change their minds. As they get older they always come back and say, hey, mom, dad, I wish I listened to you back in the past when I was younger. We raising our kids, we do want to give them and support them on their decision. Understand that the bill that we want to help them out.

"But if you, for example, if a pineapple is green, you're not going to eat the pineapple, you're going to wait till the pineapple get ripened and you're going to eat the pineapple later on when the pineapple is ripe. Why cannot we wait to our kids turn at the age to make their choice? Why do we have to support them at the younger age when the mistakes is happening at our younger age.

"I made mistakes at my younger age. Those are the most time that I made the mistakes. But to show the love and care just because that child and say, I want to be a man or I want to be a female, and we're going to support it that way just because of that. But that child cannot make that decision at that younger age. I feel that we should be supporting our kids by the right time as they growing up to make that decisions for themselves. So, I oppose this. Thank you."

Representative Ganaden rose to speak in support of the measure, stating:

"Mr. Speaker, in support. I was actually surprised in a full read of this bill about how little it actually changes in the law. As mentioned by several other speakers, this legislature changed the law several years ago regarding the ability of individuals aged 14 and up to get gender-affirming health care services.

"I wanted to also note that the big chunk of the bill has to do with the Uniform Child-Custody Jurisdiction and Enforcement Act, acronym UCCJEA. It gets kind of technical in family court when we discuss which court will have jurisdiction over the custody of a child. These sometimes end up in appellate courts. But because we're talking about 14-year-olds, 14-year-olds tend to choose where they want to live with their feet. So, oftentimes, a family court will just ask the young person, where do you want to live? How do you want to live? Which parent or guardian do you want to live with? And for that reason, I'm in support of this. I think we need to defend our family court's ability to honor the wishes of young people and where they want to live.

"I'm also concerned about the differing state opinions that might be coming down the pipe in the next few years, and the possibility that young people might be removed from this jurisdiction based on open decisions by the Ninth Circuit or the Supreme Court. Thank you."

Representative Chun rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Pierick rose, stating:

"A point of personal privilege. If I could make a recommendation for everybody to include in their next mailer that they voted yes on this bill if they did, and explain to them what this bill means and let their voters know what they're doing."

Vice Speaker Ilagan: "That's not what it's used for with your personal privilege, but let's just move on."

Representative Martinez rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Matsumoto rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Souza rose to a point of order, stating:

"Second time, Mr. Speaker, and just a point of order. I know that there was not a ruling on the earlier decision to strike 'child mutilation' from the record. Can I proceed? I'm making the same point of order, but a different explanation."

Vice Speaker Ilagan: "Yes, it'll be stricken out of the record."

Representative Souza: "I'm sorry. Yes, I would like to strike 'child mutilation' from the record, and just with a little explanation."

Representative Garcia rose to a point of order, stating:

"Point of order, Mr. Speaker. Did you just say yes to striking the word 'child mutilation' or yes to the point of order?"

Vice Speaker Ilagan: "Yes, to the point of order."

Representative Garcia: "So, the word 'child mutilation' has not been stricken, correct?"

Vice Speaker Ilagan: "It is stricken."

Representative Garcia: "It is stricken?"

Vice Speaker Ilagan: "Representative Garcia if you would like the challenge the Chair's ruling?"

Representative Garcia: "I do, that's what I'm doing. Point of order."

At 11:46 a.m., Representative Nakamura requested a recess and the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 11:47 a.m.

Representative Souza continued, stating:

"Thank you, Mr. Speaker. I just wanted to strike 'child mutilation' from the record because 'child mutilation' is not an actual term. And further, it's an inappropriate term and was derived from conservative states.

"And there is female genital mutilation and circumcision that is oftentimes mistaken for male genital mutilation. But the broad term 'genital mutilation' or 'child mutilation' is sensationalizing gender-affirming care and is factually incorrect. And even if used, it's being used in the wrong context. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2261, HD 2, entitled: "A BILL FOR AN ACT RELATING TO HISTORIC PRESERVATION," passed Third Reading by a vote of 47 ayes to 2 noes, with Representatives Hussey-Burdick and Poepoe voting aye with reservations, with

Representatives Kapela and Perruso voting no, and with Representatives Cochran and Woodson being excused.

Representative Tarnas, for the Committee on Judiciary & Hawaiian Affairs, presented a report (Stand. Com. Rep. No. 1063-24) recommending that H.B. No. 1838, HD 1, as amended in HD 2, pass Third Reading.

Representative Nakamura moved that the report of the Committee be adopted, and that H.B. No. 1838, HD 2 pass Third Reading, seconded by Representative Morikawa.

At this time, Representative Ward offered Floor Amendment No. 2, amending H.B. No. 1838, HD 2as follows:

SECTION 1. House Bill No. 1838, H.D. 2, is amended by amending Section 2, page 6, line 6 through page 7, line 10 to read as follows:

"Neither this section nor any ordinance enacted pursuant to this section shall prohibit the continued lawful use of any building or premises for any trade, industrial, residential, agricultural, or other purpose for which the building or premises is used at the time this section or the ordinance takes effect; provided that a zoning ordinance may provide for elimination of nonconforming uses as the uses are discontinued, or for the amortization or phasing out of nonconforming uses or signs over a reasonable period of time in commercial, industrial, resort, and apartment zoned areas only[-]; provided further that a zoning ordinance may provide for the amortization or phasing out of nonconforming single-family transient vacation rental units that are not owner-occupied over a reasonable period of time in an area of any zoning classification. In no event shall [such] the amortization or phasing out of nonconforming uses apply to any existing building or premises used for residential (single-family or duplex) or agricultural uses[-] other than nonconforming transient vacation rental units that are not owner-occupied as provided in this subsection. Nothing in this section shall affect or impair the powers and duties of the director of transportation as set forth in chapter 262.

For the purposes of this subsection:

"Transient vacation rental unit" means "short-term rental home", "short-term vacation rental", "transient vacation rental", "transient vacation unit", or "transient vacation use", as those terms are defined by county ordinance.

"Owner-occupied" means property which is used as the owner's primary residence and which property, or portion thereof, is operated as a transient vacation rental unit."

Representative Ward moved that Floor Amendment No. 2 be adopted, seconded by Representative Garcia.

Representative Ward rose to speak in support of the proposed floor amendment, stating:

"Thank you, Mr. Speaker. A few comments to make common sense out of what otherwise is a zoning issue. This came to my attention from a constituent who is old, who is taking care of a family member who is crippled, disabled, and they live on Social Security. The point is to amend something to allow people who in their home allow short-term rentals. Who people who are totally within the vicinity of all of their rooms, except they rent out a room temporarily.

"Mr. Speaker, this is a bill for our *kūpuna*, it's a bill for those who are on a fixed income, it's a bill for those who are just being able to make it. And it's not people who come in and buy and make an Airbnb, it's for those people whose homes are there, who they have supervision over, who have jurisdiction over. And the amendment says, hey, let's let these old people do that so they can survive because of the high cost of living, *et cetera, et cetera.*

"So, it's just a tweak saying don't exclude the old people. And I urge all of you who have constituents who are old to consider this, because it's not bringing any new visitors, Airbnb, it's allowing people to rent out a room and not being considered those who are being excluded by many of the zoning laws. For those reasons, Mr. Speaker, it's common sense, give the *kūpuna* a break. Thank you."

Representative Evslin rose to speak in opposition to the proposed floor amendment, stating:

"In opposition. Thank you, Mr. Speaker. The purpose of the bill is to give the counties the authority to, if they choose, phase out non-conforming vacation rentals over a reasonable period of time. They, under the current version of the bill, without the amendment, the counties could choose not to phase out hosted short-term rentals.

"The problem, in my opinion, with the proposed amendment is that it would apply much too broadly in that there are lots of owner-occupied parcels that are nonconforming that I think the counties will want to phase out over a reasonable period of time. For example, this would include part-time residents who have, say, a homeowner's exemption for their parcel. They live in it for part of the year, but then they short-term rent it when they're not here. This amendment would prohibit those from being phased out.

"It would also apply to parcels, which we have a number of them on Kaua'i, with multiple vacation rentals on a single lot of record, where the owner lives onsite. So, there's examples of five or more vacation rentals on a parcel, owner lives on there, that's essentially a hotel in a residential area. Counties wouldn't have the authority to phase that out if they so choose. I believe that it would also be hard for them to enforce, and it would create a legal loophole that would open them up to challenges as they try to phase out these rentals over time. So, for those reasons, I oppose the amendment. Thank you."

Representative Ward rose to respond, stating:

"Mr. Speaker, second time in support, brief rebuttal. Mr. Speaker, the reason we have committees is so we can amend things, and the reason why we put amendment is so we can think of things in a different way. For example, we could put a means test. As I said, this is for old people who are on a fixed income who have a house which is probably their only asset to supplement their social security. So, we could do a means test. We could do an age test. We can do something that says even you have to be an owner occupant.

"The point is, Mr. Speaker, we can carve out an exemption for those people who are barely making it in Hawai'i. And I don't need to remind everybody, 15,000 people are leaving every year because of the cost of living. This is the chance to keep the *kama'aina kūpuna* home. And regardless of how there is those who are going to take advantage of it, there's nobody taking more advantage of the Airbnb now than what's already on the books.

"My point is, Mr. Speaker, this bill has the potential to be good for the older people, for those on Social Security, those who are fixed. Which, as I said earlier in my community, it's an elderly person living on Social Security who wants to rent out a room and do it legitimately, and it simply carves out that in this other bill. For those reasons, Mr. Speaker, this is common sense. And if we remember, Hawai'i has almost 20% of its population who are over 65. Thank you."

Representative Evslin rose to respond, stating:

"In continued opposition. Just to clarify again, the bill currently gives the counties the full authority, if they wanted to, to make carve outs for hosted rentals with means testing, with whatever they want to do. In my opinion, the counties are better suited to come up with those carve outs than we would in a blanket amendment here. Thank you."

H.B. No. 1595, HD 1:

Representative Nakamura moved that H.B. No. 1595, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Chun rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Kitagawa rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition and comment. This bill creates a state-initiated process to expunge criminal records related to the offense of promoting a detrimental drug in the third degree, which would include possession of three grams or less of marijuana, which was decriminalized in 2019. However, as I stated during second reading, under Hawai'i Revised Statutes 712-1249, attempting to expunge records under this HRS would not

only expunge those in possession of three grams or less of marijuana, but would expunge all offenses charged under this section, which includes possession of less than one ounce or 28 grams of cannabis, nearly 10 times the decriminalized amount, as well as any amount of a Schedule V substance.

"This bill, as written, does not achieve the expungement of three grams or less of marijuana, which is our legal decriminalization law, but in fact expunges other offenses that are not decriminalized and still not allowed by law.

"I'd also like to thank the Judiciary & Hawaiian Affairs Committee for holding an informational briefing last week on the issue of expungement. During this informational briefing, it was shared by both the Attorney General's Office as well as the Judiciary, that more time is needed to study and discuss how best to create a state-initiated process for expunging a person's record. They referenced a bill moving through the Senate, which would establish the clean slate expungement task force to develop a state-initiated record clearing program. This task force would include different departments as well as organizations, to determine ways to best move forward with expungement of a criminal record. I believe that we should focus on something like this as a first step instead of passing this bill, which is clearly not worked out and does not achieve the outcome that it is intended.

"The informational briefing also provided information and data that I believe was not taken into consideration when creating and moving this bill forward, and in my opinion, brought up other issues that should be discussed regarding expungement, like non-conviction records and the many steps that currently happen for an expungement to take place, as well as the numerous departments that are involved in the process.

"I believe that this bill is premature and may have unintended consequences if it is passed into law. And for these reasons, I am in opposition to this bill. Thank you very much."

Representative Tarnas rose to speak in support of the measure, stating:

"In support, thank you. This measure creates a state-initiated process for the approximately 30,000 people who have a record for either an arrest or conviction under HRS 712-1249, which includes the lowest level of cannabis possession. Unfortunately, we cannot disaggregate the amount of cannabis or whether someone was arrested for a different substance. So, the only way to bring relief to all these individuals is through expungement for all offenses under this particular part of the HRS.

"Many states have transitioned to a state-initiated record clearance process, including Utah, Michigan, and Minnesota, because we find that if it's a petition-based system, most individuals don't go through the process. It's a very complicated process that is intimidating. And so that's why we're trying to establish a state-initiated record clearance process. And so, I urge all members to support this. Thank you, Mr. Speaker."

Representative Matsumoto rose in opposition to the measure and asked that the remarks of Representative Kitagawa be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Ward rose in opposition to the measure and asked that the remarks of Representative Kitagawa be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

Representative Garcia rose in opposition to the measure and asked that the remarks of Representative Kitagawa be entered into the Journal as his own, and the Chair "so ordered." (By reference only.)

The motion was put to vote by the Chair and carried, and H.B. No. 1595, HD 1, entitled: "A BILL FOR AN ACT RELATING TO EXPUNGEMENT," passed Third Reading by a vote of 35 ayes to 14 noes, with Representative Chun voting aye with reservations, with Representatives Aiu, Alcos, Garcia, Kila, Kitagawa, Kong, La Chica, Lamosao, Matayoshi, Matsumoto, Nishimoto, Onishi, Pierick, and Ward voting no, and with Representatives Cochran and Woodson being excused.

H.B. No. 2342, HD 1:

Representative Nakamura moved that H.B. No. 2342, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. So, this bill would make it illegal to have a switchblade or a butterfly knife. If we look at the 2022 Supreme Court ruling on the Bruen case, American citizens have the right to defend themselves. So, this bill seems to be in opposition to that Supreme Court case. I want to protect the constituents of District 39, and if they feel threatened or at harm, they should be allowed to put those kind of knives on their person to defend themselves. It's also my heart's desire to protect the people of Hawai'i outside of my district. So, voting no against this bill would be an effort to protect the people of Hawai'i, to allow them to have a switchblade and a butterfly knife on them. To quote John Locke, the safety of the innocent is to be preferred. I'm voting no."

Representative Alcos rose to speak in opposition to the measure, stating:

"Mr. Speaker, I'm voting no on this bill. The weapon that people are using are the butterfly knife, brass knuckle. The problem is not the weapon, the problem is the person behind the weapon. And if the person want to carry a knife or a gun or switchblade and they're going to do this kind of actions, that person is going to do that action anyway. To name that these weapons are the cause of the person doing this kind of illegal activities, I feel that it's not because of the weapon, it's because of the person. And therefore, the reason I oppose. Thank you."

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition. Just want to say that with the rising crime statistics, and not just crime but violent crime here in Hawai'i, I think we should be encouraging self-defense and encouraging people to use non-lethal weapons such as these mentioned."

The motion was put to vote by the Chair and carried, and H.B. No. 2342, HD 1, entitled: "A BILL FOR AN ACT RELATING TO WEAPONS," passed Third Reading by a vote of 39 ayes to 10 noes, with Representatives Alcos, Garcia, Gates, Kila, Kong, Lamosao, Matsumoto, Pierick, Souza, and Ward voting no, and with Representatives Cochran and Woodson being excused.

H.B. No. 2804, HD 1:

Representative Nakamura moved that H.B. No. 2804, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Lamosao rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Poepoe rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and H.B. No. 2804, HD 1, entitled: "A BILL FOR AN ACT RELATING TO NOISE," passed Third Reading by a vote of 42 ayes to 7 noes, with Representatives Lamosao and Poepoe voting aye with reservations, with Representatives Alcos, Garcia, Gates, Kila, Kong, Miyake, and Pierick voting no, and with Representatives Cochran and Woodson being excused.

H.B. No. 2311, HD 1:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, H.B. No. 2311, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CRIME," passed Third Reading by a vote of 49 ayes, with Representatives Cochran and Woodson being excused.

H.B. No. 2513, HD 1:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, H.B. No. 2513, HD 1, entitled: "A BILL FOR AN ACT RELATING TO EXPUNGEMENT," passed Third Reading by a vote of 42 ayes to 7 noes, with Representatives Alcos, Garcia, Gates, Kila, La Chica, Lamosao, and Ward voting no, and with Representatives Cochran and Woodson being excused.

H.B. No. 1604, HD 1:

Representative Nakamura moved that H.B. No. 1604, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill would make it to where you can't arrest somebody if they're on probation, if they come back, they are tested positive for drugs. So, if you commit a crime and you get released on probation, while you're on probation, if you check in with your parole officer and you test positive for drugs, when you're normally supposed to go back to jail, this bill would make it to where you don't have to go to jail anymore.

"Those who testified against this bill is the Hawai'i Paroling Authority, the Office of the Prosecuting Attorney of Kaua'i, the Department of the Prosecuting Attorney of Honolulu. So, I don't think that it's a good idea to pass this bill. The rationale of those in support of this bill say that there's not enough space in jail for those that would go to jail, so let's just make it to where less people go to jail. I don't think that's the preferred thoughts that we should have on the bill. I think we should put people in jail if they should go to jail. Thank you."

Representative Ganaden rose to speak in support of the measure, stating:

"In support, Mr. Speaker. I think the previous speaker might be confused. This bill has to do with screening and the ability for courts to mandate screening for defendants facing numerous charges. It received a whole lot of support. It's actually in practice in many courts throughout the State of Hawai'i. So, in support of that generalized practice for all defendants, in support."

Representative Tarnas rose to speak in support of the measure, stating:

"Thank you, in support. This measure allows the court to order substance abuse assessment and treatment of a defendant before trial. It prohibits the revocation of parole or arrest of a parolee solely due to the parolee having one positive test for drug use. This standardizes, Mr. Speaker, what has become routine practice by allowing someone to have one failed drug test without violating the terms of parole. And this is important, judges maintain the discretion to incarcerate, as the language is 'may,' not 'shall.' So, I urge members to support this measure. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and H.B. No. 1604, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CRIMINAL JUSTICE REFORM," passed Third Reading by a vote of 42 ayes to 7 noes, with Representatives Aiu, Alcos, Garcia, Holt, Kong, Matsumoto, and Pierick voting no, and with Representatives Cochran and Woodson being excused.

H.B. No. 2802, HD 1:

Representative Nakamura moved that H.B. No. 2802, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. If the government needs a framework to define marriage for tax purposes, they can simply create laws of civil union and taxing people that are multiple people living in the same household. It's not the government's job to define marriage, it's God's job to do that."

Representative Tam rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. For 26 years, Section 23 of the Hawai'i State Constitution grants the Legislature the power to reserve marriage to opposite sex couples, which has caused a lot of damage and hurt in the LGBTQ+ community. Lifelong partners were unable to be by each other's side as they take their final breath. Partners couldn't make financial decisions together. Many were unable to have their love recognized legally and were forced to live with the stigma not felt by their heterosexual peers.

"However, progress doesn't stop. In those 26 years, the Defense of Marriage Act was struck down as unconstitutional. The Hawai'i State Legislature passed the Marriage Equality Act in 2013. The Supreme Court ruled that, in *Obergefell v. Hodges*, that marriage is a right nationwide, and the United States codified that right through the Respect for Marriage Act. Yet despite all this change, Section 23 remains untouched in our Constitution. That changes with this legislation. Today we'll be passing out of this House the first step to removing discriminatory language that should have never been in the Constitution in the first place.

"Public opinion has changed on the issue of marriage for the LGBTQ+ community. The people have come to realize that the community is just like everyone else. We are neighbors, lawyers, doctors, postal workers, and even legislators, and for 26 years the community has lived under a constitution that excludes them. The Hawai'i State Constitution should represent everyone, including the LGBTQ+ community. So, I urge my colleagues today to please pass this bill."

Representative Todd rose to speak in support of the measure, stating:

"Thank you, in support. The bill itself is very, very short. It actually just strikes out one sentence. And somewhat ironically, it actually restricts the power of government to define marriage. So, strong support of having less government control over marriage. Thank you."

Representative Souza rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. Our State Constitution providing that the Legislature has authority to reserve marriage to opposite sex couples is at odds with marriage equality for same sex couples passed by this legislature in 2013. Hawai'i affords same sex marriage through statute, and to reserve the Legislature the authority to overturn rights that were already afforded over 10 years ago is archaic and should be placed on the ballot to let the people of the state decide if Article I, Section 23, should be repealed.

"The people of Hawai'i should make this decision and decide whether or not we should continue to dangle this carrot that is embedded in our Constitution that could strip same sex couples of their current rights under the law. Thank you."

The motion was put to vote by the Chair and carried, and H.B. No. 2802, HD 1, entitled: "A BILL FOR AN ACT PROPOSING AN AMENDMENT TO ARTICLE 1, SECTION 23, OF THE HAWAII CONSTITUTION RELATING TO MARRIAGE," passed Third Reading by a vote of 43 ayes to 6 noes, with Representatives Alcos, Garcia, Kong, Matsumoto, Pierick, and Ward voting no, and with Representatives Cochran and Woodson being excused.

H.B. No. 2692, HD 1:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, H.B. No. 2692, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE MAUNA KEA STEWARDSHIP AND OVERSIGHT AUTHORITY," passed Third Reading by a vote of 36 ayes to 13 noes, with Representatives Alcos, Garcia, Gates, Holt, Hussey-Burdick, Kapela, Matsumoto, Perruso, Pierick, Poepoe, Souza, Tam, and Ward voting no, and with Representatives Cochran and Woodson being excused.

H.B. No. 1602, HD 1:

Representative Nakamura moved that H.B. No. 1602, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Quinlan rose to speak in support of the measure with reservations, stating:

"With reservations, Mr. Speaker. America has always been a nation of second chances, but are we to also be a nation of third and fourth and fifth chances? My fear is that this measure somewhat erodes our culture of personal responsibility."

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill would allow someone if they're supposed to appear before the court, if they don't appear before the court, they've got a 48-hour grace period. This is a weak on crime bill. We need to be tough on crime. People need to be held accountable, if they commit a crime and the process of that accountability is appearing before the court."

Representative Holt rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. Some of the reasons given by the proponents for giving this 48-hour leeway grace period is traffic, car trouble, not being able to find the right courtroom. I think these are serious issues. If people have committed a crime, they should be able to show up on time. And just citing the testimony from SHOPO, I think everybody sees that crime is rising in our state. To note SHOPO's testimony, it says, 'deaf to the pleas of those in our community for more to be done to address brazen criminals who seem to be operating without consequences, the backers of this bill wish to provide criminal defendants with more leeway and less accountability, which will directly affect the safety of our communities and further decrease the public's trust and confidence in our criminal justice system.' Thank you."

Representative Souza rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Tarnas rose to speak in support of the measure, stating:

"In support. This measure allows the person's attorney or the person, if the person is not represented by counsel, to contact the court during the grace period, if they missed their court appearance, to request that the initial appearance be reset in the court's calendar without the issuance of a warrant. We worked with the Judiciary in order to come up with the language that we included in the draft of the bill before us today, Mr. Speaker. And we have the blessing of the Judiciary with this language so that it would work within the functioning of the courts, and it's fair and reasonable. So, I urge members to support it. Thank you, Mr. Speaker."

Representative Lamosao rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and H.B. No. 1602, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CRIMINAL JUSTICE REFORM," passed Third Reading by a vote of 42 ayes to 7 noes, with Representatives Lamosao, Quinlan, and Souza voting aye with

reservations, with Representatives Alcos, Garcia, Gates, Holt, Kila, La Chica, and Pierick voting no, and with Representatives Cochran and Woodson being excused.

H.B. No. 1660, HD 1:

Representative Nakamura moved that H.B. No. 1660, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"In opposition. This bill increases capital gains tax. This would discourage investors from investing in Hawai'i. Elders often depend on capital gains tax. Hawai'i is already the 10th highest in the nation when it comes to capital gains. I don't think we should be trying to compete for a higher score when it comes to high taxes. I'm voting no."

The motion was put to vote by the Chair and carried, and H.B. No. 1660, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CAPITAL GAINS," passed Third Reading by a vote of 42 ayes to 7 noes, with Representatives Alcos, Amato, Garcia, Kong, Matsumoto, Pierick, and Ward voting no, and with Representatives Cochran and Woodson being excused.

H.B. No. 2652, HD 1:

Representative Nakamura moved that H.B. No. 2652, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Belatti rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and H.B. No. 2652, HD 1, entitled: "A BILL FOR AN ACT RELATING TO TAXATION," passed Third Reading by a vote of 43 ayes to 6 noes, with Representative Belatti voting aye with reservations, with Representatives Ganaden, Hussey-Burdick, Kapela, Kila, Perruso, and Poepoe voting no, and with Representatives Cochran and Woodson being excused.

H.B. No. 2653, HD 1:

Representative Nakamura moved that H.B. No. 2653, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Belatti rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

No. 2653, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE ESTATE TAX," passed Third Reading by a vote of 43 ayes to 6 noes, with Representative Belatti voting aye with reservations, with Representatives Ganaden, Hussey-Burdick, Kapela, Kila, Perruso, and Poepoe voting no, and with Representatives Cochran and Woodson being excused.

H.B. No. 2664, HD 1:

Representative Nakamura moved that H.B. No. 2664, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Garrett rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. Rising in support. It is only within the last week that we have begun to comprehend exactly how dire our fiscal situation is with uncontrolled costs due to the Maui wildfires. We were initially told by the administration that the impact in this fiscal year would be about \$200 million, and the governor's team did the best they could to free up funds, mostly by converting the means of financing for several projects and initiatives this body previously passed. Yet nearly seven months after the fires, we're now learning that we need triple that amount. And without a clear plan on how to house the survivors as something less than \$1 million per day, we really don't know how much we're in for."

"I mention this because my motivation for introducing this bill, which would lapse nearly \$350 million in CIP funding for the New Aloha Stadium Entertainment District, or NASED, and sweep nearly \$50 million in the Stadium Authority Special Fund, was to make the point that in this type of fiscal emergency, there can be no sacred cows. Everything must be on the

table as we decide how to salvage our financial plan for this supplemental year, even a project like NASED that has been discussed for over a decade. We should also identify other projects that may fall under the nice to have category and look for potential cost savings to help us balance our budget."

"Mr. Speaker, in your Committee on Finance, opponents of this bill pointed out that 10 years of planning has gone into this NASED project and that over \$25 million has been spent so far, and that walking away now would leave us with nothing to show for it. Admittedly, I only took one or two classes of economics in college, but I do recall learning about the concept of the sunk-cost fallacy, which describes a tendency to follow through on an endeavor simply because we have already invested money, time, or effort into it, even if the current costs outweigh the benefits. As stewards of taxpayer funds, we should never throw good money after bad."

"In that same hearing, opponents also expressed concerns that canceling an active procurement may subject us to lawsuits. But I'll remind this body that the state previously canceled this very same RFP, and we were not sued at that time."

"Mr. Speaker, I would like to mention that the other reason I introduced this bill as the representative from Mānoa is to support my beloved University of Hawai'i and provide some assurance for the future of its football program. When Aloha Stadium was condemned in 2020 with hardly any notice, the university was left scrambling for a place to play. The state didn't provide any aid at that time, yet the university came up with \$30 million to build a temporary stadium at its current site at Ching Field on the Mānoa campus."

"It has been almost four years since the stadium was shut down, which means there are only a handful of players left on the team, if any, who actually played in Aloha Stadium. The best-case scenario we hear from proponents of NASED is that the new Aloha Stadium would be available in time for the 2028 season. Which means by then, eight years would have passed and several hundred UH football players will have only known Ching Field."

"This is a long way of saying the university and its football program have been left twisting in the wind this whole time, and this bill would finally bring some certainty. Mr. Speaker, this bill does so by reappropriating over \$200 million of the \$350 million being lapsed back to the university to make Ching Field permanent and improve related infrastructure in the lower campus."

"With this money, will Ching Field become a world class venue? No, of course not. Will UH ever become a member of a Power Five conference with such a simple stadium? Again, of course not. But that was never going to happen anyway, no matter how beautiful a new Aloha Stadium might look like."

"I will concede that the University of Hawai'i testified in opposition on this bill, but I'll remind this body that there are times when entities may feel compelled to make certain public pronouncements for a multitude of reasons. I'm confident that if the Legislature decides that this is the best path forward, the university will gladly accept the funding and build a stadium as expeditiously as possible."

"But most importantly, Mr. Speaker, what this bill does is free up sorely needed CIP funding in cash to help us meet our obligations to the Maui recovery, as well as other unmet needs of the state. I don't believe there's any other vehicle this session that would create nearly \$200 million in combined capacity like this bill does."

"Finally, this bill also morphs the current Stadium Authority into the Hālawā Redevelopment Authority and tasks it with deciding the best path forward for this 100-acre gem of a site, one that already comes with a fully built transit station."

Representative Kila rose to yield his time, and the Chair "so ordered."

Representative Garrett continued, stating:

"Thank you very much. With apologies to the representative from Hālawā, this site is completely owned by the state, so I believe all of us should have a say in its future. Everyone in this chamber agrees that housing is the number one issue facing our community. So, hitting the pause button

on NASED will give us a chance to decide what really is the highest and best use for this parcel.

"Mr. Speaker, this bill represents the last chance to have that important discussion. From my vantage point, this site is a once in a generation opportunity to bring thousands of affordable and workforce housing units into the market in one fell swoop. I don't believe we'll ever get to the 50,000 units the governor tells us we need with simple urban infill projects here and there scattered throughout the state. We owe it to the people of Hawai'i to start thinking bigger.

"If this repurposed authority were to issue an RFP along those lines, one that removes a burden of designing, building, maintaining, and operating a stadium, I believe there would be even more interest from developers in transforming that site into a vibrant, transit-oriented community.

"For these reasons, Mr. Speaker, I stand in support of this bill, and I encourage my colleagues to do the same to keep this discussion going. I'd like to remind my colleagues that a no vote on this bill maintains the status quo, allows NASED to proceed, and does not free up the funds we need to address our ongoing commitments to the survivors of the Maui wildfires. Thank you."

Representative Quinlan rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I'd like to first say that I agree with almost everything the representative from Mānoa just said. As the chair of your Tourism Committee, unfortunately, I have a lot of experience with canceling RFPs. And my concern is not necessarily the merits as it relates to the budget, but whether or not we as a state are going to keep our word.

"And we've seen this over and over with large-scale projects where we've had to pull out for various reasons, whether they're political or financial or disaster related. And I worry that it's creating a climate of business that is not friendly. And I worry that it will, in the future, increase our costs because fewer developers, fewer businessmen will actually want to come here and do business with us. Thank you."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. First, may I request the words of my debating partner from the North Shore be entered into the Journal as my own," and the Chair "so ordered." (By reference only.)

Representative Ward continued, stating:

"But let me be very clear, in strong opposition, Mr. Speaker. This bill is a loser. And I start with a question. Why is the convention center roof leak so badly in Honolulu at this Kalakaua and Kapiolani. Why does that roof leak? It's because we chose the wrong location. We wanted to go on the cheap. We want to go to Ching Field. Here's the equivalent. We were pushed to make a decision.

"Personally, I wanted to go into the Ala Wai Canal where there was going to be a mound. It was going to be under the ground. It was going to be environmentally perfect and beautiful. But no, we had to have centrality. Even though it was still far away from Waikiki, and you couldn't walk to it. The point is, when you make a decision about location, you're locking things in very seriously and very expensively.

"And we talk about Maui. This is \$25 million we're going to throw out the window of which we've already invested. It's not good money after bad, it's taking good money and putting it into a bad location because Ching Field is going to be a loser. It's not going to get anybody to come to the football games, regardless of how bad UH is as a football player.

"The way that the Hālawā Aloha Stadium made money is through concerts, and that's where the potential is with auxiliary functions, Mr. Speaker. It's common sense, it's economic sense. So, if we're going to immediately save money and not borrow any more money, which we can do, we're going to create a loser, which promotes us into mediocrity. Which promotes us into a small little field which once we do it, we're never going to build another Aloha Stadium.

"So, Mr. Speaker, let's get away from this conundrum. Just stick with what we've decided and not get a lemon like we got at the convention center. It doesn't make sense. This is a loser the way we're shifting in the middle of the stream. Thank you."

Representative Alcos rose to speak in opposition to the measure, stating:

"Mr. Speaker, I want to thank the introducers on this bill, trying to save the state some money to create some good ideas that they feel that direction that we should go. I'm in opposition, strong opposition. For the reasons why the stadium is where it is, it's centralized. It's an area where the whole island can be an easy place for get to. We have the swap meet there, we built the rail there. We built over \$20 million that we're losing, just was invested in the idea that the stadium is going to be there.

"I think Hawai'i should be the sports capital in this world. I think we should be bigger stadiums and we've got the best weather here to drive tourism in Hawai'i more. I feel that by taking away the opportunity from little kids that's going out to the stadium and being able to get in there and play and perform and do all these other things, now they're going to have to travel to UH or different other areas and taking away these venues. I believe that we should invest into these areas for our kids, and not always that we're making money or we're losing money, but it's about the people and the quality of life that we start giving and sharing with them.

"And I think my side of the community don't want to travel all the way to UH or some other areas. We do want to have someplace closer to home. And centralize where the stadium is now, I feel that's a good idea. If we could get something on the west side, I think it's a great idea as well. But, for those reasons, I oppose on this bill. Thank you."

Representative Aiu rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. Mr. Speaker, in September 2023, the University of Hawai'i hosted Stanford University for the football game. And what the university did was to accommodate the people at the stadium, which at the time held less than 14,000 people, was they transitioned all classes to remote, or they canceled classes. Mr. Speaker, it's clear that the university, one, doesn't have the students as a priority as far as education is concerned, and two, that the university simply doesn't have the infrastructure to support a stadium of any capacity. And for that reason, I'm in opposition. Thank you very much."

Representative Yamashita rose in support of the measure and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Yamashita's written remarks are as follows:

"Expanding the University of Hawai'i's Ching Field for UH football games instead of building a new stadium at Hālawā is supported for two main reasons – it makes common sense and it's economical.

"The current stadium site in Hālawā only has enough infrastructure – water and sewer – to support the stadium itself. If surrounding retail, residential, and commercial development is expected to generate enough monies to pay for future stadium maintenance, that cannot occur for at least another 10 years when county water and sewer lines are scheduled to be built.

"In addition to the 10 years of carrying costs, a private developer may also face additional expense if a pedestrian walkway or bridge has to be built from the Skyline rail station. Engineers have noted the soil is so unstable it may require extensive excavation required for large buildings.

"Should these engineering and construction issues delay or prevent the private development from generating the projected revenue, the state may need to step in with annual subsidies as envisioned in previous proposals.

"A stand-alone stadium in Hālawā is unlikely to generate enough revenue to support itself. The UH plays at most eight football games there annually, and it is mainly dark the rest of the time. There have been 46 concerts held there in the last 45 years. Yet the stadium has been operating at a loss. The state had to provide as much as \$9 million in subsidies every year. In recent times, the biggest source of income for the stadium has been the swap meet.

"Sports economists note that new sports facilities have 'an extremely small, perhaps even negative, effect on overall economic activity and employment. No recent facility appears to have earned anything approaching a reasonable return on investment.'

"That may be why, out of the 216 Division I college football teams, all except six play in their own stadiums.

"HB 2664, passed by the House, would provide \$211 million to the UH for Ching Field to expand to 17,000 seats and fund improved infrastructure and restrooms in compliance with Division I rules. The measure would also return \$49 million to help pay for our escalating but critically needed costs for rebuilding from the Lahaina tragedy.

"In a time when the recovery cost for the Lahaina disaster has multiplied from the original \$600 million estimate to now closer to \$1 billion, we cannot reasonably risk state revenues on a new stadium when a common-sense alternative exists."

Representative Souza rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In strong opposition and permission to insert comments into the Journal."

Representative Souza's written remarks are as follows:

"I am in strong opposition of HB 2664, HD 1. This bill is generally what is wrong with the way we handle things here in Hawai'i. We oftentimes plan for today and do not think about the long-term future of our state, the potential revenue flow, and the community-building aspects of potential projects. Moreover, when we do plan for the long-term future of our state, years into planning for a project, we squash it or alter it so dramatically that it no longer is the project it was supposed to be—and wasting resources and money in the process.

"We need a stadium in Hawai'i—to bring in revenue and to provide a place for community-building—through athletics, concerts, and other opportunities that having this space will provide. The first problem with this bill is cutting the funding for the new stadium in Hālawā, and the second problem with this bill is throwing money at the current stadium at UH—which we already know based on UH's testimony in the Finance Committee—that they do not want the funds and they do not want a new stadium on the UH Mānoa campus. The rationale for this bill is to make available funding for the Maui wildfire relief efforts, but it's a mistake to change course now on the stadium project.

"This bill offers short-sighted solutions, and it is time that we become true visionaries for what Hawai'i can be and offer to our people and visitors."

Representative Ward rose to respond, stating:

"Second time, Mr. Speaker. I forgot to mention how adamantly against this bill the University of Hawai'i. Of course, we can force it down our throat, which the good representative from Mānoa indicated. But in terms of making it successful, pushing something that big of a project of which they're not good at, they have not the capacity for, I think is bad business.

"I want to quote one of the sayings in the Finance Committee by one of the vice presidents from UH. When they testified in the Finance Committee, they told us, it's nice to have a boat, but it's even better to have a friend who has a boat. In other words, it's great that we have the Hālawā Aloha Stadium. You know what a boat is, it's the continual pouring down a hole, money, dollar after dollar continually without any end. I know there's another way of saying that same thing.

"The last thing I want to say is, given our colleagues over in the Senate, Mr. Speaker, this bill is declaring war with the Senate. This is going to be a long, drawn-out battle if we stick to this particular vantage point of this bill.

"Economically speaking, again, the UH location is a loser. For the potential in the future, we've got to stick with the Aloha Stadium. This bill is changing directions to me is a conundrum. It just doesn't make any policy sense at all. Thank you."

Representative Belatti rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Holt rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. All things aside, it's about our kids in our state. Everybody grows up playing football, they want to play at Aloha Stadium. This year we have to have the high school championship at Mililani High School. Great stadium, great field, but it's just not the same. What are we telling all of our kids and our football team at UH, that they're going to have to just play at Cooke Field. It's what everybody grows up and strives to play for. They play Pop Warner games, they play high school games. Right now we have so many games at Farrington High School because that's the only place that they can play. It's just for our kids. Thank you, Mr. Speaker."

Representative Amato rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Hussey-Burdick rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and H.B. No. 2664, HD 1, entitled: "A BILL FOR AN ACT RELATING TO SPORTS FACILITIES," passed Third Reading by a vote of 35 ayes to 14 noes, with Representatives Amato, Belatti, Hussey-Burdick, and Matsumoto voting aye with reservations, with Representatives Aiu, Alcos, Garcia, Gates, Holt, Kong, La Chica, Lowen, Perruso, Pierick, Quinlan, Souza, Tam, and Ward voting no, and with Representatives Cochran and Woodson being excused.

RECALL FROM COMMITTEE

Representative Garcia, pursuant to House Rule 38.1, moved to recall H.B. No. 955 from committee to the Floor, seconded by Representative Ward.

At this time, the Chair recognized the Clerk who announced that the minimum 20 days have passed since the referral of H.B. No. 955, HD 2 to the Committee on Finance.

At this time, the Chair stated:

"All right, members, it has been moved and seconded that House Bill No. 955, HD 2 be recalled from the Committee on Finance. This is a procedural motion. The motion does not address the content or substance of this measure. Therefore, debate is limited to the propriety of the action in recalling this bill. Debate on the merits or substance of this measure is not in order at this time."

Representative Garcia rose to speak in support of the motion to recall, stating:

"Mr. Speaker, in support of the motion. Thank you. I think procedurally, this is the right thing to do to give people a voice after being shut down time and time again."

Representative Nakamura rose to speak in opposition to the motion to recall, stating:

"Thank you, Mr. Speaker. This motion to recall is highly unusual. And as you said, this is a procedural vote. No matter what members think about the substance of this bill, this vote today is limited to the process of recalling a measure out of a committee from last year, last session, and bringing it back onto this floor one year later, taking the vote out of the hands of the members of the Finance Committee and bringing it to the floor for a third reading vote, then sending it off to the Senate. By recalling it and bringing it to a third reading vote, we would bypass the Finance Committee, which is, in my eight years of being here, I have not witnessed. I think it would set a bad precedent, and I think we should be very cautious about moving this motion forward."

Representative Ward rose to speak in support of the motion to recall, stating:

"Thank you, Mr. Speaker. I rise in favor of the procedural motion. Mr. Speaker, I celebrate democracy. I celebrate procedural motions because democracy is a messy thing. There's a lot of moving parts, we're even compared to being sausage makers. Well, this is one of the ways that the machinery, as it goes along, you can interrupt and say, hey, by the way, maybe that sausage doesn't taste right, let's go back and see if the ingredients are there. And I think procedurally, Mr. Speaker, this is why democracy allows these kinds of things. We may have made a mistake. There's enough movement out in the public to say that we've made a mistake, there's enough people who've said that we've made a mistake.

"But remember, in a democracy, everybody has a say, and this gives them and us a say, say let's correct our course, let's retaste the sausage. Remember, in the beginning there was only the executives. They were either kings or princes or dictators. And now we've got from the executive, we also have a legislative body and a history of democracy, a third level of government called the judiciary. So, there's a lot of checks and balances. And when you say that this is not unprecedented, that's why the founding fathers of this constitution of this state said, hey, guys, you want to pull something to the floor, you've got to have 17 votes. You want to do a roll call, you've got to have 11 votes. So, this is not setting a precedent, it's exercising what they said. We love democracy. And Mr. Speaker, for those reasons. I think this is a very well made opportunity for us to speak for the people of Hawai'i. Thank you."

Representative Hussey-Burdick rose to speak in support of the motion to recall, stating:

"Thank you, Mr. Speaker. I rise in bipartisan support. While I understand that rule 38.1 is rarely utilized, making this a highly unusual and controversial motion, situations like this are exactly the reason why the provision for recall is enshrined in our constitution. There are times when our jobs require us to stand up against immense pressure, and this is one of those times. The gravity of the situation is this. The attorney general has confirmed that any traditional birth attendant, doula, lactation consultant, childbirth educator, grandparent, or *hanai* family member that gives advice and information regarding the progress of childbirth—"

Representative Ichiyama rose to a point of order, stating:

"Point of order, Mr. Speaker."

The Chair addressed Representative Hussey-Burdick, stating:

"Representative Hussey-Burdick, please confine your remarks to the procedural aspect of this motion."

Representative Hussey-Burdick: "Thank you, Mr. Speaker. I'm confining my remarks to the reason why the gravity of this situation calls for us to move for a procedure like this."

Speaker Saiki: "Please proceed with the procedural discussion."

Representative Hussey-Burdick: "Shall be guilty of a misdemeanor."

Speaker Saiki: "Representative Hussey-Burdick, please confine your remarks to the procedural aspects of this motion."

Representative Hussey-Burdick continued, stating:

"Thank you, Mr. Speaker. I am confining my remarks to the reason why this procedure is necessary.

"The state is now being sued by the Center for Reproductive Rights and the Native Hawaiian Legal Corporation—"

Speaker Saiki: "Representative Hussey-Burdick."

Representative Quinlan rose to a point of order, stating:

"Point of order."

At 1:05 p.m., the Chair declared a recess subject to the call of the Chair.

The House of Representatives reconvened at 1:08 p.m.

Representative Hussey-Burdick continued, stating:

"Thank you. As I was saying, the state is now being sued by the Center for Reproductive Rights and the Native Hawaiian Legal Corporation because of our failure to act. There have been three bills introduced this year in an attempt to fix that, but this body has once again failed to act. Now, HB 955, which has already passed through two committees and three floor readings, is our only remaining chance to get the state out of what's sure to be an expensive and embarrassing lawsuit.

"Just so everybody understands the full consequences of their vote today, voting yes on this motion to recall legalizes grandmas, voting no ensures that grandparents, cultural practitioners, doulas, and hundreds of birth care professionals will continue to be liable for criminal penalties under HRS 457J."

Representative Quinlan rose to a point of order, stating:

"Point of order, Mr. Speaker. Is this debate on the process or the merits of the measure? I'm a little confused."

Speaker Saiki: "I believe that the discussion is over. Members, is there further discussion?"

Representative Pierick rose to speak in support of the motion to recall, stating:

"In support of the procedure. I believe that there have been four resolutions passed by each of the county councils that have been delivered to us, and they would be in support, from my understanding, of this procedure."

Representative Ganaden rose to a point of order, stating:

"Point of order, Mr. Speaker. I believe he's not actually discussing the procedure, he's discussing the merits in trying to use evidence of some other vote to discuss that."

The Chair addressed Representative Pierick, stating:

"Representative Pierick, please confine your remarks to the procedure aspect of this motion."

Representative Pierick continued, stating:

"I'm in support of this procedure, and I believe four other county councils are as well."

At this time, the Chair stated:

"Members, further discussion? If not, it's been moved and seconded that House Bill No. 955, HD 2 be recalled from the Committee on Finance. We will be taking a vote by hand. All those in favor of the recall, please raise your right hand. Mr. Clerk, do you have a count?"

The Clerk then stated:

"Mr. Speaker, only five members voted aye."

The Chair then stated:

"All right, the motion has failed."

The motion that H.B. No. 955, HD 2, entitled: "A BILL FOR AN ACT RELATING TO CHAPTER 457J, HAWAII REVISED STATUTES," be recalled from the Committee on Finance was put to vote by the Chair and upon a show of hands, the motion was defeated, with Representatives Alcos, Amato, Cochran, Chun, Gates, Holt, Marten, M. Mizuno, Poepoe, Takayama, Todd, and Woodson being excused.
