Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2630, SD 1, HD 2 pass Third Reading, seconded by Representative Morikawa.

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, I rise in opposition. I should say strong opposition with some strong reservations. Contradictory, but because if I was a neighbor island representative, I would say spot on, this is good. If I was North Shore, it sounds good. But for those of us who live in urban Honolulu, urban neighborhoods, jaywalking is a bad policy, Mr. Speaker. The only value I see that comes out of this are probably funeral homes and the EMS and other people who benefit from people getting injured. For those reasons, Mr. Speaker, as we failed to pass it last year, I hope so the same as this year. Bad policy. Thank you."

Representative Chun rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative La Chica rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Poepoe rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Gates rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Ganaden rose to speak in support of the measure, stating:

"In support, Mr. Speaker. I'll try to be brief. The Department of Health actually testified on this, on what I thought was a criminal justice bill. I'm going to read just a brief portion. 'Despite Hawaii's favorable climate, geography, and reputation for active outdoor living, only 24.8% of Hawaii residents met federal guidelines for physical activity.' They go on to say, 'jaywalking laws are ineffective at producing roadway safety results, but also accentuate places which are hostile to walking. Removing jaywalking penalties has not been found to increase adverse public safety outcomes. Initial data from localities where decriminalization of jaywalking was implemented show that there has been little to no change in the number of traffic injuries and fatalities. In addition, cities with the lowest traffic death rates do not have jaywalking laws.'"

"I'm hoping members consider some of the places where we like to go visit and vacation, some of the finest cities in the world, and the way they use their roads. I think we should free our minds from the shackles of American normativity regarding roads and know that roads are for everybody, and that they're meant to be free. How's the song go? Like, this ain't Texas. I don't want Hawai'i to be one of the places in America where we just keep building more roads and keep dedicating ourselves to further lanes, and unnecessary vehicular traffic. Yeah, I think we should all just be able to go for a walk."

Representative Alcos rose to speak in opposition to the measure, stating:

"Oppose. We build streets to make our kids safe, our family safe. Many crosswalks we invested in. And in our districts, we see people still getting banged or getting hurt, even with the crossroad and all the moneys that we invest to. This is about keeping our family safe. I understand that other countries don't have that, but this is a good idea that we make a stop sign or a crossway or some place for be safe for our kids, our families, and even for drivers and be aware of who's crossing the road, where is that main intersection at? This is going backwards to me. I feel that safety should be our number one concern to save our family's life. Therefore, I'm against this bill. Thank you."

Representative Kong rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I would like to correct the representative from Hawai'i Kai, because Maui would not appreciate this

bill. It is very street specific in the code. But as far as O'ahu is concerned, it's interesting to note that we can jaywalk in a residential area as long as we're 200 feet from a crosswalk or intersection. But it is not allowable to jaywalk in a business district or where there's high traffic volume. So that's the problem. This bill only addresses the high traffic volume and business district, because you can actually jaywalk in the residential. So, we have to make a decision, is it safe to cross the street? Thank you."

Representative Kapela rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. First, I'd like to adopt the words of the representative from Kalihi as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Kapela continued, stating:

"Second, I would just like to make mention that my district is 108 miles long. And within my entire district, I don't have a single sidewalk and I have very few crosswalks. It is about safety. And we want to make sure that, I think first off, we should be putting more equitable money towards communities that don't have access to some of these most basic things like sidewalks and crosswalks. And then second, I think we also need to ensure that if we don't have those, if we don't have access to those things, we need to make sure that we're not ticketing those community members because they don't have a crosswalk that was provided to them in order to cross. Thank you."

Representative Kong rose to respond, stating:

"Second time, opposition. On the Big Island and Kaua'i, it is permissible to jaywalk, there is no ordinance. It all comes from your city traffic codes listed within each district or each county. Thank you."

Representative Ward rose to respond, stating:

"Second time, Mr. Speaker. I want to withdraw the comment about Maui, given the gentleman saying that Maui is not for this kind of a situation. But I would suggest this, Mr. Speaker, if we could hone this down and refine it to be applicable to any county less than 500,000, I think it would make a lot of sense. Again, as I said earlier, if I was on the Big Island, I would say this is spot on.

"But let me speak for my constituency in Hawai'i Kai. Kalama Valley, since its beginning with Henry Kaiser, has never had one crosswalk, and right now they're jaywalking from the Kalama Valley District Park to get into their mother and father's cars across the street. We don't have a way of doing that, and they're jaywalking, and they are frightened about their kids getting killed. The analogy is, Hanauma Bay is the most beautiful place to snorkel, but it's the most dangerous place for drowning. And those are the numbers.

"The point is, Mr. Speaker, this is a bill that sounds intuitively fun, but in terms of actuality, it could point to a lot of dangers. And why do we want to jeopardize the citizens and the people of Hawai'i? When we get to the marijuana bill, I'll say the same thing, why do we want to jeopardize the people by saying, go ahead and go ahead and do this without precaution. For those reasons, Mr. Speaker, this belongs in an urban area, maybe not in the neighbor islands, but if there's not a bill that is amended to that effect, I think everybody should vote no on this. Thank you."

Representative Pierick rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2630, SD 1, HD 2, entitled: "A BILL FOR AN ACT RELATING TO PEDESTRIANS," passed Third Reading by a vote of 35 ayes to 15 noes, with Representatives Chun, Gates, La Chica, and Poepoe voting aye with reservations, with Representatives Aiu, Alcos, Garcia, Garrett, Holt, Kila, Kong, Lamosao, Matayoshi, Matsumoto, Miyake, Pierick, Sayama, Tam, and Ward voting no, and with Representative Souza being excused.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 3289, SD 1, HD 1 pass Second Reading and be placed on the calendar for Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in support of the measure, stating:

"In support. This bill will help local family-owned businesses. And it will basically be a measure that can help prevent locally-owned businesses from having to sell their businesses, potentially out to the mainland. So, I'm in support of this."

Representative Kobayashi rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. I didn't vote no in committee, but after some thinking, I've decided that this bill puts you on the side of either for the people or for the very wealthy. And by very wealthy, I mean couples that have an estate exceeding \$11 million, which are very, very few.

"The main reason I am voting no is that, while we give some very wealthy people a tax break, we will not get anything in return. Supposedly, this money that would go to the tax break could be used to reinvest in the business, or it could be used to fatten the pockets of those involved. If it's reinvested in the business, it could result in more tax revenue or it could not,

because not every business expansion succeeds. And hence, jobs would not be created, income tax would not be created. Nor do we have any assurance that these businesses would be more generous in their donations to nonprofits. So, nowhere along the line are we guaranteed that we will get, we, that is the State of Hawai'i government or the community, will get anything in return.

"In addition, of course, if this goes through, it would increase the taxes of everyone else, the so-called average people who do not qualify for \$11 million estate tax. The other problem with this bill is that it doesn't solve the federal problem. We have a federal estate tax, which is essentially double in size that of our state income tax. So, these businesses who are wanting to solve their estate tax problem on the backs of state taxpayers will still have the same problem with the federal government and be in jeopardy of having to do some drastic moves in estate planning or buying more life insurance to protect their current assets as they get transferred from one generation to the other.

"So, for these reasons, I've decided that I'm a no on this and urge that people consider are you for the people or are you for those couples who qualify for an \$11 million estate tax? Thank you."

Representative Ward rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'm in strong support. And admitting that this body is always weak in macro and microeconomics, because what the good speaker from Diamond Head forgot to mention is that this is all about the L&L Drive-Inn, it's about Zippy's, it's about one of the testifiers in the Finance Committee from Servco Pacific. Do you want these businesses to be passed on to their kids, or you want them to have the big box mainland guys to take over? This class warfare stuff just doesn't make sense. The big rich. I asked the actual owner of Servco Pacific, I said, how many employees you got? He says, I hire 1,000 people. I mean, that feeds a lot of people, puts a roof over the head of a lot of people.

"So, do we wonder why we're 50th in the nation for unfriendliness to the business, it's because of people who've misinterpreted what this is to perpetuate the L&L, the Zippy's, and the Servco Pacific. So, their families, we talk about we want people to stay in Hawai'i, well, let's keep our businesses in Hawai'i because they're going to be bought out or they're going to be taken over by mainland firms. It's common sense. Don't say who's for the people. Who's for the people who work for our businesses, because our businesses need help also, not just people who are not business people. And this class warfare stuff is just a lot of hate mongering. Thank you, Mr. Speaker."

Representative Kapela rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. This bill is a tax cut for the extreme wealthy in our state. It's not about small businesses, because if it really was about small businesses, we would have been supporting them more. This is about a huge tax cut for literally the 0.2% of Hawai'i's wealthiest families. An estate tax is intended in part to help avoid extreme concentrations of wealth sustained across generations. That's what an estate tax is.

"We would be losing \$43 million from our state budget if this is allowed to pass. So, let's talk about what we could pass if we didn't remove \$43 million from our budget, especially after we've told department heads that they should be preparing for potential cuts to their own budgets. These are potential cuts to the Department of Education, potential cuts to families in extreme need.

"So, this is what we could fund if we don't cut this \$43 million. We could ensure that every public school student has access to breakfast and lunch, that's \$23 million. We could have prevented 2,500 evictions each year with a rent relief and mediation program, that's \$13 million. We could have provided \$325 per child for a child tax credit for 176,000 children in low-income families, that would have been \$42 million. There are thousands of things that we could have spent this money on and that we can spend this money on if we don't allow the extreme wealthy to once again get another tax break. Thank you."

Representative Ganaden rose and asked that the Clerk record a no vote for him, and the Chair "so ordered."

Representative Evslin rose to speak in opposition to the measure, stating:

"In opposition with a brief comment, please. Thank you, Mr. Speaker. I largely agree with the words of the representative from Hawai'i Kai and the need to support small businesses in Hawai'i. My concern with this bill is that this goes further than the House bill, which would have done exactly that, and provides a broad avenue to get out of the estate tax for wealthy families. And so, I will continue to support the House bill if that comes out of conference, but I won't be supporting this bill. Thank you."

Representative Hussey-Burdick rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Marten rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise with reservations on 1790 with a brief comment. Again, if I was a neighbor island, I would say this is the best thing since sliced bread. We've got to have helicopter support for our sick and emergencies. The only problem with this, instead of having it in the private sector, who knows how to run a private business, this is going to be run by the Department of Health airlines. Mr. Speaker, government running an airline is, if it's a last resort, fine. If it's not from the private sector, I think we're making a big mistake. And I don't want to cite what's going on with the \$12 billion Skyline and how we can't even run a 20-year rail, I know that's not relevant, but it's the government that's doing that. That's the problem. HART is the one who's running the rail. You don't agree with that."

The Chair addressed Representative Ward, stating:

"Please confine your remarks, Representative Ward, to this measure."

Representative Ward continued, stating:

"My remarks are, if you're government, you're not entrepreneurial, you're kind of bureaucratic, and you don't know how to run an airline. Airlines are having enough problem in the private sector as it is. We know what Alaska Airlines had happen, we know what Boeing is going through. We know there's been problems at our airport making it look other than a third world country."

"Government is not the best people to run market-oriented issues. It's better that we have, look, I'm for the bill, I only said reservation, I'm for the bill. We've got to have support for our injured that are not within a vicinity of an ambulance getting there. But to have the airline run by the government, I think we're running into a big bottomless pit, quite frankly. Thank you."

Representative Todd rose to speak in support of the measure, stating:

"In support. This is my brother's bill, so I figured I should stand up on this one. I just wanted to clarify, and I know I say that a lot, but this would not be an airline. This is to provide emergency aeromedical services. Basically, if you have a massive heart attack or massive trauma and the neighbor islands do not have the hospitals or emergency rooms that can adequately care for you and you need transport to Honolulu, where the best medical centers are, then this would help to fund that. It would be a cooperation between the counties, who would administer this, and the state, who would help subsidize."

"The counties, particularly Hawai'i County, have done an excellent job in trying to procure state-of-the-art aeromedical services. We had a private anonymous donor on the West Hawai'i side who gave millions of dollars to this purpose. And there is going to be a new helicopter, state of the art, delivered to the Big Island sometime in 2025. The problem is, to adequately provide that service, to be on call 24/7 to deal with medical emergencies, you need to be able to fund that. And the counties are not capable of doing that on their own. If they receive assistance from the state, it would allow them to expand those services to literally save lives."

"And we would now have a fleet set up that could respond to major emergencies within the state, like a major wildfire. Right now, the counties themselves do not have the capacity to fight large fires of that nature, and we cannot rely on other states. If you have a major fire on the West Coast, other states respond. We don't have that luxury here. So, this would go a long way."

"I understand that this year is difficult financially. But fortunately, that need is not immediate. This would be growing over time as these helicopters get delivered and purchased. It will literally save lives. I personally know multiple people in my life who have passed away or been severely harmed because they cannot receive those adequate services, even in Hilo, where we have an excellent hospital. And Hilo is fortunate in that capacity, relative to much of the other parts of the state."

"If you have a major heart attack, literally every minute before you receive those lifesaving services, your heart gets worse and can get permanently damaged. Without being able to respond, it will really lead to negative outcomes. But also, because you're really relying on the current system, which may have one helicopter that's capable of taking you, if that helicopter is already transporting someone, you're there waiting for the next helicopter. Oftentimes that wait can be more than 12 hours, at which point you have passed away or you have lifelong complications."

"And then beyond that, I would just note that, there has been testimony received from the city & county, and they would like this to potentially be expanded to rural O'ahu, where they have some of these same challenges with traffic concerns, particularly if there's an accident on the highway where ambulances can take a very long time to respond and get back into Honolulu. So, I would like to see this expanded over time, particularly where it was noted on the North Shore. Thank you."

Representative Morikawa rose in support of the measure and asked that the remarks of Representative Todd be entered into the Journal as her own, and the Chair "so ordered." (By reference only.)

Representative Kahaloa rose to speak in support of the measure, stating:

"Also in support. I would like to also adopt the words of the chair of Transportation with one clarification. The introducer of the bill is not my brother, but he is the fire chief of our county, and I think that's really important. And what we experienced on our island is the need for this donation of the helicopter that can travel between islands. We had a community leader who had a health incident at a conference for health care in front of nearly 400 people. And it took him almost seven or eight hours to get medevacked to Kapiolani. And we know, if you have a stroke or a heart attack, every minute, every hour counts. Thank you."

Representative Morikawa rose to respond, stating:

"Mr. Speaker, just to clarify, in support. The fire chief is not my brother also. But I also want to make one more point. The cost for neighbor island patients to come to a hospital here in O'ahu is humongous. Many of us can't afford to pay it. Many of the people who are the ones that need it are Medicaid or perhaps don't even have coverage, so they're stuck with a \$100,000 bill, it could go that high. So, I think this is a very important conversation that is going to be good for all neighbor islands. Thank you."

Representative Ilagan rose to speak in support of the measure, stating:

"Mr. Speaker, I stand in support. I would also like to share a story in my district that a young girl fell out off Maku'u cliff. And if this helicopter was available, her life would have been saved. This happened a month ago. And just to give you an understanding of the need for this helicopter, if there was any way to launch a boat to save that girl's life, they would have to go to Hilo to launch the boat. The Pohoiki Boat Ramp is not available to launch the boats. You could also launch the boat on Ka'u. The size and the distance, because Big Island is 4028 square miles, just from Hilo to Ka'u is the same shoreline of O'ahu. So, imagine not even being able to access and save that girl's life because we don't have the needed equipment and infrastructure to do so. So, I stand here in support, and I wish that we could have saved that girl's life and have that equipment there now. Thank you."

Representative Evslin rose to speak in support of the measure, stating:

"In support with brief comment. I wouldn't be here today if not for the services of emergency medical transport like this. If the helicopter that transported me in 2010 were not available that day, I would not have had any way out of a remote part of the island of Moloka'i. So, I am in strong support. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3126, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO EMERGENCY AEROMEDICAL SERVICES," passed Third Reading by a vote of 49 ayes to 1 no, with Representative Ward voting aye with reservations, with Representative Pierick voting no, and with Representative Souza being excused.

Representative Pierick rose to speak in opposition to the measure, stating:

"Thank you, in opposition. This measure would take \$750 of our tax money and go to the purchaser of a bicycle, electric bike. So, we're using the state tax dollar money to fund the purchases of bicycles. I think if people want to buy a bike, that's their choice. If people want to buy a car, that's their choice. We shouldn't be incentivizing people to buy bicycles. Let the private sector govern themselves by them purchasing what they want and not letting

people that are working hard and having sometimes 30% of their income taken away from them, put in the state budget, and then reallocated to people who are buying bicycles. So, I'm voting no."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. "Mr. Speaker, reservations, brief comment. In the Finance Committee, there was a question posed to the PUC to ask them to further explore the impact that this could potentially have on ratepayers, and they did confirm that this could have a concerned impact to ratepayers. So, until the discussion is finalized to get a greater perspective of the impact, I will be voting with reservations."

Representative Garcia rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Lowen rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Lowen's written remarks are as follows:

"The purpose of this measure is to add 'resilience' as a metric to be considered by the Public Utilities Commission in their decision making alongside reliability. An earlier draft of this bill also mandated the implementation of section HRS section 269-142, by changing language from 'may' to 'shall' regarding whether the PUC should contract for someone to oversee reliability concerns (A HERA administrator). The section giving the PUC the option to establish a Hawai'i electric reliability administrator (and to implement fees to fund this) has been in statute for more than a decade. In the EEP committee hearing this language was changed from 'shall' back to 'may.'

"When the PUC was questioned on the bill in the finance committee, but when they said that costs could be increased, they were referring to what would happen if the HERA statute is implemented and the surcharge is added. I think this misled committee members, understandably, into thinking that this bill would mandate the HERA. It does not—not the current draft in any case. And, whether or not this bill to add consideration of resilience passes, it changes nothing about the already existing authority that the PUC has to implement HERA and the surcharge, should they choose to do so.

"The parts of this bill to add resilience consideration, which is essentially the only substantive changes in this draft, would not increase electric bills."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2505, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE PUBLIC UTILITIES COMMISSION," passed Third Reading by a vote of 49 ayes to 1 no, with Representatives Garcia, Kila, and Poepe voting aye with reservations, with Representative Amato voting no, and with Representative Souza being excused.

Representative Poepe rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Hussey-Burdick rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Onishi rose to speak in support of the measure with reservations, stating:

"With reservations and short comment. So, this bill calls for the exploration of geothermal resources throughout the state. As we know, the development of geothermal, especially on the island of Hawai'i, has been met with opposition and concern by many in the district that geothermal

resources are currently being utilized. I think this bill puts the cart before the horse, because we don't know where communities would be willing to accept geothermal development. This bill asks that both be done simultaneously.

"I think geothermal exploration takes millions and millions of dollars to figure out whether or not those geothermal resources would be adequate in order to be productive. I would rather see this bill be changed into a bill that would explore whether or not communities in Hawai'i would be accepting of geothermal development within their community, before we start spending millions of dollars on exploration. Thank you, Mr. Speaker."

Representative Ward rose to speak in support of the measure, stating:

"Mr. Speaker, in support. Mr. Speaker, I would make very clear that the ratepayers are so much opposed to being the highest paid electricity in the nation, \$0.40 to \$0.45 per kilowatt hour, that is the bigger concern. Is this going to give us the least expensive way of doing it? And we know from the Big Island that it is, and it can become cheaper. Last night I had a beer summit, the chair of the Public Utilities Commission, Mr. Asuncion, was there. And he said, we've got to get a better grid, but we also have to think of better ways of wheeling, *et cetera*, to be able to put the price of electricity down. He knows it's expensive. But he also knows there are different ways that we can do this. And this is one of the ways, one of the options, it doesn't say that it's going to be in your community. I said, is there any geothermal in Hawai'i Kai and he said, we don't know yet.

"But I think we've learned enough to do it properly from what we've done on the Big Island. We know that that's probably one of the least expensive kilowatt hours of electricity. And people are, just in the last couple of years, the rates have gone sky high. And now we've just passed a bill that says there's going to be another 5% surcharge, which probably is correct because Maui can't absorb all the same thing, and I know there were a lot of reservations. But somebody has got to pay for what happened on Maui.

"So the point is, Mr. Speaker, we have to seek ways to lower the cost of electricity. This is one of the ways to do it, and I think this is a way to pursue it. It doesn't say it's going to happen, but it says let's do the explorations and see if it's feasible. Thank you."

Representative Lowen rose to respond, stating:

"Thank you, Mr. Speaker. In a historic first, I agree with almost everything the representative from Hawai'i Kai said. And I would just say, as we move forward adopting renewable energy, and there's still a lot more space on the grid to adopt more of those variable renewable resources. But there will be a need for firm resources, and the things that we can count as renewable, biodiesel, biofuel, biomass, potentially LNG, which we don't use here at all now but could be considered, are, one, not great replacements for fossil fuel because they still have relatively high carbon footprints. And two, they're not cheaper.

"So, what we really should be doing as we move forward is really double down on trying to figure out where we can do more geothermal and use our local resource. And the other advantage of that is that it is a local resource. All those other things require imports. And even if we expand production of biofuels in state, it's still going to always be a drop in the bucket. There will never be enough that we could be able to produce here with the land that we have and not having an economy of scale that would make it affordable or enough to cover the need. So, we'll still be relying on imports.

"And there is a huge need to make sure that we okay these projects with communities, but it's really a chicken and an egg situation. I think both need to move forward at the same time. And you need to figure out where the resources exist, and you need to talk to the community. So, I don't think you can really pick which one should happen first. That will just slow everything down. And we've already been way too slow, in my opinion, on moving forward on this."

Representative Onishi rose to respond, stating:

"Thank you, Mr. Speaker, second time. I agree that geothermal is potentially a game changer for the State of Hawai'i in terms of providing the least cost renewable energy. But even if they found geothermal resources that could be developed in Hawai'i Kai, I would be very hesitant to assume

that the people in Hawai'i Kai would be willing to have a geothermal plant built in the middle of their district. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2518, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO GEOTHERMAL ENERGY EXPLORATION," passed Third Reading by a vote of 48 ayes to 2 noes, with Representatives Hussey-Burdick, Onishi, and Poepoe voting aye with reservations, with Representatives Kapela and Perruso voting no, and with Representative Souza being excused.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 3010, SD 1, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Hussey-Burdick rose to speak in support of the measure with reservations, stating:

"Reservations, brief comment. Some of my constituents might be surprised to see an environmentalist express concerns about a bill to expedite the transition to renewable energy. However, our current definition of renewable is actually not very sustainable. It includes practices and procedures that actually expend more greenhouse gases than traditional fossil fuels. So, I would love to see the definition of renewable energy cleaned up to include some kind of sustainability element. And until then, I just have reservations about expediting things that could put us in a worse situation in terms of climate change than we already are. Thank you."

Representative Garcia rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 3010, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO RENEWABLE ENERGY," passed Third Reading by a vote of 50 ayes, with Representatives Garcia and Hussey-Burdick voting aye with reservations, and with Representative Souza being excused.

Representative Yamashita, for the Committee on Finance, presented a report (Stand. Com. Rep. No. 1813-24) recommending that S.B. No. 2240, SD 2, HD 1 pass Third Reading.

Representative Nakamura moved that the report of the Committee be adopted, and that S.B. No. 2240, SD 2, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Garcia rose to speak in opposition to the measure, stating:

"In opposition. This bill, Senate Bill 2240, requires the Office of Elections to file an application with the Electronic Registration Information Center, also known as ERIC, Incorporated. This is a private, nonprofit organization. Currently, there are a bunch of states who are working with ERIC to clean up their voter rolls. But as of right now, there are a lot of states, more than 11 right now, which are withdrawing their association with ERIC due to security concerns.

"Mr. Speaker, the Office of Elections is funded and paid for by we the people, and we entrust the director, the Office of Elections to conduct elections as a way of protecting democracy, if you will. But this bill gives the power of the Office of Elections to a third-party nonprofit organization which raises so many red flags with security concerns, *et cetera*. However, it should be noted clearly that the Elections Commission themselves voted

against this bill. They are in opposition to this bill. And the director of the Office of Elections, Scott Nago, says that though they hire and fire him, they advise him, he disagrees, they're against it, he's supporting it. I would trust the Elections Commission and their opposition to this bill. So, no vote."

Representative Tarnas rose to speak in support of the measure, stating:

"In support, thank you. I think this is a very useful bill because this Electronic Registration Information Center is a service that is offered to states to ensure that people are not registered to vote in more than one state. So, it does help to improve election integrity. I work with election officials through National Conference of State Legislatures in their elections special committee. And I have learned that election officials in red states and blue states have said that ERIC is a very useful tool.

"It has been others, that are not election officials, that have pressured some of the officials in certain states to pull out of ERIC. And I think unfortunately, they use information that is not accurate. And so, I try to base my recommendations on good evidence and best practices in other states. And I think ERIC is best practice in other states. It has gotten politicized. But I think if we look at the facts, it is useful, the security is good, and it prevents people from being registered in more than one state, which we don't want to have. So, I would urge members to support this. Thank you, Mr. Speaker."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, in opposition. Why do we have an election commission? To figure out what's best to do for the elections. As the gentleman from Kapolei noted, the Elections Commission says, hey, this is not worth the ten-plus thousand dollars per year. I mean, this is not a freebie. This is a for-profit. I think I would correct it, it's an INC, which generally means for-profit, not a nonprofit. And the value added is on a downside. A lot of people in the Finance Committee hearing said, you mean you're going to give my age, social security, maybe birthdate? And the testifier said, yes. And they said, oh my god.

"We don't even now, when we go for reelection, when people sign our papers, they don't even have to put their Social Security number, except maybe the last two numbers, and they only put the year that they were born. So, we're going to turn this over to a national group. And they said the only value is when somebody moves out of the state, they'll say that you can't move. But the biggest problem is people who die and they're still on the list, which we have control over locally. So, the money that we need to do that better, i.e., clean the roles, is not joining some national organization, of which again, as earlier noted, 11 states says, hey, this is not worth the bang for the buck. So, Mr. Speaker, for all those reasons, why do we want to spend more money when there's no value added? That is absurd. Thank you."

Representative Cochran rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. And I'm also a no vote. I want to reiterate that the Elections Commission board did unanimously vote no for it, and it was only Director Nago that is in favor. And so, I'm clearly a no vote. Thank you so much."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2240, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO ELECTIONS," passed Third Reading by a vote of 40 ayes to 10 noes, with Representatives Aiu, Alcos, Cochran, Garcia, Gates, Kila, Kong, Matsumoto, Pierick, and Ward voting no, and with Representative Souza being excused.

Representative Hussey-Burdick rose to speak in support of the measure with reservations, stating:

"I have reservations about this bill and a brief comment. This bill just doesn't sit right with me. I debated for a long time whether I should vote no or with reservations, especially since there are some Native Hawaiian leaders who I deeply respect in strong support of this bill, and I really want to honor their wishes. But I feel like we're being presented with a false dichotomy here. As if the only two choices are this buyout or to let them die on the waitlist. I'm ashamed that our leaders have utterly failed over the last 60 years to provide enough homesteads to keep Hawaiians in Hawai'i. I'm ashamed that this is the choice that we're left with. I'm voting with reservations for now to keep this conversation going, but I think we all know that Hawaiians deserve better than this."

Representative Poepoe rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Kapela rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 2640, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAIIAN HOMES COMMISSION ACT," passed Third Reading by a vote of 48 ayes to 2 noes, with Representatives Hussey-Burdick, Kapela, and Poepoe voting aye with reservations, with Representatives Garcia and Pierick voting no, and with Representative Souza being excused.

THIRD READING

S.B. No. 2706, SD 1, HD 1:

Representative Nakamura moved that S.B. No. 2706, SD 1, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Pierick rose to speak in opposition to the measure, stating:

"Thank you, in opposition. This bill would create a task force to look into expunging the records of criminals. When I knocked on a door specifically in Waipahu, in Harbor View, a gentleman, in replying to my question, what can I do for you if I get elected, he said, please decrease crime. Do you see that sign right there? He was pointing to some memorial in his front yard. He said a gentleman got shot in his front yard. So, imagine us, the representatives, we're creating a task force to expunge the criminal records of individuals, potentially in Waipahu. I don't think it's a measure that my constituents prefer. So, I'll be voting no."

The motion was put to vote by the Chair and carried, and S.B. No. 2706, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO EXPUNGEMENT OF CRIMINAL RECORDS," passed Third Reading by a vote of 47 ayes to 3 noes, with Representatives Garcia, Pierick, and Ward voting no, and with Representative Souza being excused.

S.B. No. 2347, HD 1:

Representative Nakamura moved that S.B. No. 2347, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Ganaden rose to speak in opposition to the measure, stating:

"No on SB 2347. Mr. Speaker, this has several issues with it. This is a bill that would turn three misdemeanors into a felony. This is, in my mind, kind of a throwback to the worst era of the, quote, unquote, tough on crime, mass incarceration bills from the '80s and '90s that led to a bunch of different issues. We've been moving, in the state, towards data collection and collaborative approaches towards criminal justice. This bill has none of those data points that we are ordinarily asking for.

"And I understand that we want to send a strong commitment to the public that we are against habitual violent misdemeanants. But this bill, if passed, would turn many of the trials that are currently held at the district court right across the street on Alakea into trials that are going to be held further down the street at circuit court, turning them into jury trials. I think folks who are on the fence about it should consider whether or not they want to serve on a jury trial for a misdemeanor offense.

"Ordinarily, these cases are handled very quickly. I think this could lead to a significant backlog of cases at all levels of courts throughout the State of Hawai'i. I'm going to be voting no."

Representative Amato rose and asked that the Clerk record a no vote for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and S.B. No. 2347, HD 1, entitled: "A BILL FOR AN ACT RELATING TO CRIME," passed Third Reading by a vote of 45 ayes to 5 noes, with Representatives Amato, Ganaden, Hussey-Burdick, Kapela, and Perruso voting no, and with Representative Souza being excused.

S.B. No. 2487, SD 1, HD 1:

Representative Nakamura moved that S.B. No. 2487, SD 1, HD 1 pass Third Reading, seconded by Representative Morikawa.

Representative Tarnas rose to speak in support of the measure, stating:

"In support, thank you. I'd like to take this opportunity to explain clearly what this bill does, because it was mischaracterized during the second reading, and so I just want to make it very clear. What this bill does is it decriminalizes if the possession of an ounce of cannabis or less. The possession of more than one ounce and less than two ounces is a petty misdemeanor. Possession of two ounces or more is a misdemeanor.

"We also added something to this bill, which we don't currently have in statute, which is to create an offense of smoking marijuana in a public place and adds a significant fine. Because I wanted to address some of the issues that have come up in the many debates that we've had on this floor about cannabis policy. And so, I think this is a very reasonable bill. Twenty-seven of the decriminalized and legalization states, they decriminalized an ounce or more. If you go into a dispensary for medical cannabis right now, on the price list, a standard amount that is sold is one ounce. One ounce is about 28g.

"The Department of Health just came out with rules for medical cannabis so the dispensaries could sell pre-rolls, which are basically joints of cannabis, and the standard amount in each pre-roll is one gram. So out of an ounce, you can produce 28 pre-rolls, 28 joints. A standard carton of cigarettes has 20 cigarettes in it, so less than two cartons of cigarettes is what we're talking about here, an ounce. So, it's not an unusual amount. It's basically about middle of the road when you look at all the states that have decriminalized, because some of them go up to three ounces. But I tried to be very reasonable here, so we're suggesting one ounce.

"So, I really urge members to support this. I think it's a reasonable approach. And I appreciate the opportunity to work on this cannabis reform for our House. Thank you."

Representative Kitagawa rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. Before I start, I'd like to define a couple of words from Merriam Webster's dictionary. The definition of decriminalize is to remove or reduce the criminal classification or status of something. A synonym is one of two or more words that have the same or nearly the same meaning. The synonym of decriminalize is to legalize, permit, or approve. This, in my opinion, is another way to legalize marijuana in our state.

"As I mentioned previously, this sends the wrong message to the public and our youth saying that pretty much marijuana use is okay up to one ounce, and that the fines in this bill are not high enough to deter anyone from marijuana use. I think the public is not fully aware of this bill and the negative implications that it could have. The public has been focused on the legalization of marijuana, and this bill, in my opinion, has been flying under the radar. I don't believe that the public knows that this is essentially a legalization of marijuana bill, per the definition that I had just mentioned. And for those reasons, I'm in opposition."

Representative Matayoshi rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I first want to apologize to the chair of JHA, I did mistakenly mischaracterize the bill last time. I had said it was two ounces, it is one ounce to decriminalize. And I also want to thank him for putting in the \$130 fine for smoking marijuana in a public place. I thought that was a really good step and something that really showed that he was listening to the other side as well.

"I am still, though, in opposition to this bill. For one, it's still federally illegal. I think that a lot of people's opinions may change if the federal government decides to take marijuana off of the schedule drug. But, until that time, I think our state should be comporting with federal law. The original version of this Senate bill would have changed the decriminalization amount from three grams to fifteen grams. So that was already a five-fold increase. This bill would change it to one ounce, which is a nine-fold increase. That is quite a large increase in the amount that would be decriminalized. And I think that that's just far too much for our state to bear at this time.

"The \$25 fine might as well not even be a fine. I mean, everyone knows it's a slap on the wrist. If you're carrying around an ounce of weed, you can afford a \$25 fine any time you may get caught. So, we're essentially, as the previous speaker said, legalizing possession of marijuana up to the one-ounce mark.

"There is mention of a two-ounce limit in here, though, and that's what had confused me before in my first reading of this bill. Which again, I apologize for. But the two-ounce mark is put in there for promotion of a

detrimental drug in the second degree. And the reason this is important is because this was not in the Senate version of the bill. This wasn't even in the House version of this bill that did not make it through the House. What this essentially does is, in addition to one ounce and below being decriminalized, it lowers the violation for if you're caught with possessing between two ounces and one ounce from a felony C to a misdemeanor. So, there is a practical impact of putting this two-ounce mark in this bill. If you are caught between one and two ounces, it is a reduction in the violation of the penalty that you will be facing. So, I think that's another significant portion of this bill that people are not necessarily paying attention to at this time.

"I do want to point out that the effective date, as we have discussed quite a bit in caucus, is upon approval. So, I do want to encourage those of you who are sitting on the fence with reservations, honestly, just go up or down, I think, at this point. The time has come. I don't think that we're going to see this bill again, there is a decent chance that the Senate just agrees to our version of the bill and it goes straight up to the governor. I respect everyone's decision and ability to make a decision, but at this point, I think if you're with reservations, you need to decide whether you are for this bill or against it. Because I don't think we're going to see this again, and I think it's fair for your communities to have everyone go either up or down on this bill. So, I encourage you all to just pick one.

"The AGs reached out to me recently about this bill. I did not talk to the Prosecutor's Office, but I will assume from Steve Alms' previous comments that he and his office is also against this bill. There are a number of large entities in opposition to this bill, so I want to encourage us to at least listen to them. Because this bill was amended in committee, they didn't get a true chance to take a look at the changes. And again, this two-ounce mark is not in any House version, it's not in the Senate version. I think that portion of it did not get a fair chance to get commented upon by the various entities that might have been interested as well.

"The last point I want to make is that medical marijuana is already legal. And we all know that, it's been that way for a while. Everyone who needs marijuana for a medical health reason already has it. What we're dealing with in this bill is we're decriminalizing marijuana from one ounce and below. And really, all we're targeting with this bill are people who want to smoke cannabis for recreation, for fun. We're not targeting those people who need it for some kind of medical condition. Those are a very sympathetic group that I actually agree with. I don't think that we should be passing this law to allow people who just want it for recreation to be decriminalized. Thank you."

Representative Gates rose to speak in support of the measure, stating:

"Mr. Speaker, in strong support. May I adopt the words of the JHA chair as if they were my own," and the Chair "so ordered." (By reference only.)

Representative Gates continued, stating:

"With a comment. I think our communities have been asking us to address this longstanding issue. I think this bill is a step in the right direction to do that. One of the biggest concerns we hear from residents and the fear that is being spread by many in the opposition, is that cannabis will be used everywhere, anywhere, you'll be getting clouds blown in your face, and exaggerating what actually will happen if legalization were to take place. This bill will prevent that fear from ever materializing, because having regulations on the books to go after people using cannabis in public is something that we don't have. And so, with this bill, we'll be able to go after folks that decide to use cannabis recklessly in our community.

"Additionally, funding will be allocated to our police resources. And speaking with our police resources, they have blatantly said they don't go after cannabis offenses because it's such a low-level offense in their minds. What they're really going after, Mr. Speaker, is the meth epidemic that is currently taking place, that are putting people on our beaches. Or the prescription drug crisis that our entire nation faces right now, Mr. Speaker. Additionally, we know that fentanyl is also on the rise. And so, with additional funding as well as relaxing on going after cannabis, these law enforcement folks can really do their job and make our community safer by going after these more hardcore drugs.

"And as we know, cannabis is also a medical plant. As your chair of Agriculture & Food Systems, that's what we look at it as. And to deny our

communities and to even criminalize them reverts us back to the ways of old. And I think that we have to create the future for Hawai'i that we want to see. And I don't think any of us want to see members of our families or community being arrested and having records based on having cannabis and possession of it.

"I do appreciate the work that's being done to, again, address the nuisance being brought up. And I think that this bill is better than sitting on our hands and turning a blind eye to what's actually occurring in our community. I'll leave it off on the fact that we have to go back to the origins of why cannabis was prohibited in the first place, and it was very racist policies that I think we can no longer endorse. And I urge our colleagues to follow us as we create that path forward to right the wrongs and to take a stance against criminalizing a plant. Thank you, Mr. Speaker."

Representative Ward rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. I rise in opposition. I think what we have here, Mr. Speaker, is de facto recreational legalization. De facto means an actual, but not legally in practice, it means it's actually the case as it is. Two reasons for that. Number one, we're allowing nine times the amount, three grams to one ounce, that's nine times. For the fine from \$130 to \$25, that's six times a decrease. So, in effect, hey, look, it's no big deal, it's cheaper than a parking ticket. This is not mine, but I want to show you the cheapest parking ticket in the City & County of Honolulu is \$35, meaning you can get a ticket for smoking marijuana that's only \$25 under this bill, Mr. Speaker. Have we become that lopsided, that smoking marijuana is different than having offenses with your car? I think we've reached an extreme absurdity.

"If it's de facto already legal, why do we want to do it more? I think, maybe it's an end run by those who want to do the legalization will just do it incrementally with bills like this. But I will note one other factor. And it's never mentioned except for one time by the gentleman from Diamond Head. We were mentioned the package or the carton of cigarettes or the package of cigarettes. One thing that we don't know, for those who are promoting marijuana, marijuana smoke has 20 times the carcinogenic content of cigarettes. All of this promotion of marijuana is promoting cancer, is promoting a lot of toxication into the lungs of our young people.

"Mr. Speaker, for those reasons, we're giving a legalization of recreational marijuana on a de facto basis by making it so cheap and so easily to be not disciplined that we've got legalization with this bill. For those reasons, Mr. Speaker, I hope everybody voted against legalization will do so. And lastly, I'd like the comments from the vice chair of Finance and the gentleman from Kāne'ohe put in the Journal as my own," and the Chair "so ordered." (By reference only.)

Representative Quinlan rose to speak in support of the measure with reservations, stating:

"With reservations, if I am allowed to do so in fact. Mr. Speaker, there has been a lot of fear mongering around this issue. And I really want to push back on some of the claims that have been made in the public and on the floor of this chamber. So many people have said, if we legalize marijuana or if we decriminalize, that the Japanese will stop coming, that we'll lose out on huge sections of our economy, that billions of dollars will just float away into the ether. Mr. Speaker, that is not the case. The Japanese did not stop going to New York, they did not stop going to California, they have not stopped going to any locations where they have legalized cannabis.

"However, there is a kernel of truth amongst the fear mongering. It is quite possible that if we don't pay special attention to Waikīkī as we embark on this path of legalization, that we could lose some tour groups, we could lose some school groups. Or they might say, hey, there's just much smoke, there's too much public smoking. And that's the component that I'm really worried about.

"So, a huge *mahalo* to the chair of the Judiciary Committee for inserting that fine on public smoking. Actually, I think it should be even higher. I think it should be \$500. And let's send a very strong message, not just to the people of Hawai'i, but also to our treasured travel partners in Japan, that we take this issue very, very seriously and we will not allow the public smoking of marijuana, of cannabis in Hawai'i."

Representative Alcos rose to speak in opposition to the measure, stating:

"Oppose. I lost my mom about five years ago, six years ago. She had a lot of lung issues due to smoking cigarette. My dad, four years before that, still smoking cigarette. I asked them, why did you guys take up smoking? My mom said she was stress, or a lot of people that taking up smoking, they just wanted to try it. And basically, it's an addiction that they got into and they get hard time letting it go. I lost my parents, they was kind of young, due to smoking.

"My son started smoking marijuana. Afraid that he might lose some time in his life to spend with his kids down the line. Vaping, a lot of people is smoking and vaping. It's going to short our life term from maybe our life term, maybe like say 75, now it's going to bring them down 10 years. Not only that, the addiction and the health problems that they have in medical. It's much more money that we spend on their medical bill trying to save our kids or our families, our dads, then the investments that we going to be collecting to help to pay for one road or help to collect tax in this certain reasons. But more money we're going to be spending out at the end. But in the front we can probably save some money. But at the end, if they get addiction to it, we're losing our families, we're breaking that apart. It's going to cost us more money.

"This money is just like you taking your money out, burning them, and it's not an investment. It's not something that it's going to help quality of life into your family, unless it's a medical situation. I could take that money and buy my kid a football shoes or put more food on the table as we struggling today. But we decide, just because they wanted to try it, they get hard time getting off of it, and they want that feeling that they're feeling, whether it's alcohol, whether it's cigarettes, whether it's marijuana.

"This is a drug that does not help our society to move forward. But what we thinking of is, well, let's collect the tax. It's going to make us money and we're going to pay more bills. It's a wrong way of thinking and I think this is wrong and I strongly oppose against that. Thank you."

Representative Takayama rose to speak in support of the measure, stating:

"Mr. Speaker, I support this bill because I believe that people who choose to use marijuana in the privacy of their own homes should not be subject to heavy fines or even incarceration. Under this bill, it will still be illegal to possess large quantities of cannabis, it will still be illegal to sell marijuana, and it will now be illegal to smoke marijuana in a public place. I believe that this bill is not a perfect bill, and so I understand members may vote against it. But I do believe it's a fair bill. And for that reason, I stand in support. Thank you."

Representative Kobayashi rose to speak in opposition to the measure, stating:

"I rise in opposition. I support decriminalization, but decriminalization should be at a point as low as possible, not necessarily nine times the current decriminalization maximum. Number two, I think we should have further discussion about the penalties for possession of marijuana above the decriminalization level. Right now, this bill deals with one ounce up to less than two ounces, and two ounces and above. I think that's where we need to discuss this further and see what penalties would apply. I think that petty misdemeanors and misdemeanors for all of these are too low. I would remind everyone that marijuana is still not a harmless substance, it is a very powerful and potentially dangerous drug. Thank you."

Representative Pierick rose to speak in opposition to the measure, stating:

"Thank you, in opposition. I'd like to have the words of both of the Kāne'ohe representatives adopted as my own," and the Chair "so ordered." (By reference only.)

Representative Pierick continued, stating:

"And then, with that being the preface, I continue. I have a family member who I love very dear, and he's experienced several events in life that has led him to drink alcohol to the abusive level, that led him to smoking cigarettes, that led him to practice recreational marijuana. And it continues further. It hasn't helped him, it's only hurt him. And a grieves my heart to witness someone who I love so much experience that kind of situation.

"I think all of us love our constituents. We think about them, hopefully, daily. And knowing that I've got 30,000 people that I get to serve, I don't

want any of them to experience the same heartaches that this family member of I have experienced. So, in referencing the Kāne'ohe representative's Webster dictionary definition that this bill basically legalizes, not decriminalizes, recreational marijuana, I vote no."

Representative Matayoshi rose to respond, stating:

"Thank you, still in opposition. I just wanted to bring up that, when we had the recreational marijuana bill before us, it had a lot of thoughtful provisions that are not present in this bill. It had a lot of thoughtful provisions for prevention, for law enforcement. Those are not present in this bill. And I was, granted, in opposition to the previous bill as well, but this bill, by legalizing or by attempting to decriminalize marijuana for up to one ounce, is basically inviting all of those ills with none of the fixes. There are no more resources for police, there are no prevention programs, there are no social equity programs, none of that.

"And it confuses me, because by putting all of those programs into the recreational marijuana bill, which I appreciate, don't get me wrong, but by putting those into the recreational marijuana bill, we were essentially agreeing, together, both sides were agreeing that there were problems that needed to be solved if we were going to legalize recreational marijuana. Everyone agrees that those were, well, not everybody, but most of us agreed that those were needed steps to take if we were going to legalize marijuana recreationally. Yet here we are trying to essentially legalize marijuana recreationally up to one ounce, without any of those safeguards in place. And that's another reason why I'm strongly in opposition to this bill. Thank you."

Representative M. Mizuno rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Gates rose to respond, stating:

"Thank you, Mr. Speaker. I just want to remind our body that alcohol is still the number one gateway to other harmful drugs, as well as tobacco. And we know that cannabis has, again, medical properties, alcohol has none. And I feel that the public has been scrutinizing our body because they feel we have been hypocrites, because we have allowed for alcohol to, again, be in our communities on every corner, that again has no medical benefits or is completely harmful, just being frank, to us as humans to consume. And our take on alcohol is that it's okay and that we even allow it in our universities as well. So, for those reasons, again, Mr. Speaker, I don't want to be a hypocrite, and that's why I'm in strong support."

The motion was put to vote by the Chair and carried, and S.B. No. 2487, SD 1, HD 1, entitled: "A BILL FOR AN ACT RELATING TO MARIJUANA," passed Third Reading by a vote of 32 ayes to 18 noes, with Representatives M. Mizuno and Quinlan voting aye with reservations, with Representatives Aiu, Alcos, Chun, Garcia, Garrett, Kila, Kitagawa, Kobayashi, Kong, Lamosao, Martinez, Matayoshi, Matsumoto, Nishimoto, Onishi, Pierick, Takenouchi, and Ward voting no, and with Representative Souza being excused.

S.B. No. 2354, SD 1:

On motion by Representative Nakamura, seconded by Representative Morikawa and carried, S.B. No. 2354, SD 1, entitled: "A BILL FOR AN ACT RELATING TO ALCOHOL," passed Third Reading by a vote of 50 ayes, with Representative Souza being excused.

At 1:48 p.m., the Chair noted that the following bills passed Third Reading:

S.B. No. 2706, SD 1, HD 1
S.B. No. 2347, HD 1
S.B. No. 2487, SD 1, HD 1
