SCRep. 1050-24 Judiciary & Hawaiian Affairs on H.B. No. 2012

The purpose of this measure is to:

- (1) Remove an exemption that allows owners of multiple parking facilities to electrify fewer parking spaces than required in one or more properties if they fulfill the requirement in aggregate spaces on all of their owned properties; and
- (2) Authorize counties to regulate electric vehicle charging systems for places of public accommodation with fewer than one hundred parking spaces.

Your Committee received testimony in support of this measure from the Hawai'i State Energy Office; Hawai'i Climate Change Mitigation and Adaption Commission; one member of the Maui County Council; Office of Economic Development of the County of Kaua'i; Hawaii Electric Vehicle Association; Oahu Metropolitan Planning Organization; 350Hawaii.org; Hawaiian Electric; and two individuals. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii and NAIOP Hawaii.

Your Committee finds that an unintended loophole in Act 75, Session Laws of Hawaii 2021, allows owners of multiple properties to provide fewer electric vehicle charging stations than required in an individual parking lot if they have fulfilled the requirement in aggregate by providing more than the required number of charging stations in a different parking lot. As a result, county enforcement of state laws regulating the designation of electric vehicle charging stations at places of public accommodation is nearly impossible, as county officials do not have the capacity to determine if a property owner is in compliance with the law. This measure is intended to remove this loophole and clarify the counties' authority to enforce state law relating to electric vehicle charging infrastructure.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2012, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2012, H.D. 2.

Signed by the Chair on behalf of the Committee.

SCRep. 1051-24 Judiciary & Hawaiian Affairs on H.B. No. 2492

The purpose of this measure is to comply with new federal regulations for commercial driver's licenses when the Drug and Alcohol Clearinghouse prohibits a driver from operating a commercial vehicle due to alcohol and drug violations.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that, on October 7, 2021, the Federal Motor Carrier Safety Administration (FMCSA) published a final rule establishing requirements for state driver licensing agencies' access to and use of driver-specific drug and alcohol program violation information contained in the FMCSA's Drug and Alcohol Clearinghouse. The final rule requires that:

- (1) Agencies must not issue, renew, upgrade, or transfer a commercial driver's license (CDL), or commercial learner's permit (CLP), as applicable, for any individual prohibited under FMCSA's regulations from performing safety-sensitive functions, including driving a commercial motor vehicle (CMV), due to one or more drug alcohol program violations;
- (2) Agencies must, upon receipt of notification that a driver is prohibited from operating a CMV due to a drug and alcohol program violation, initiate the downgrade process to remove the CDL or CLP privilege from the driver's license within sixty days; and
- (3) Drivers completing the return-to-duty process before the downgrade process is completed would no longer be prohibited from operating a CMV and thus would no longer be subject to a downgrade.

State driver licensing agencies have until November 18, 2024, to comply with these requirements. This measure brings the State into compliance with the requirements of the October 7, 2021, final rule.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2492, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2492, H.D. 2.

SCRep. 1052-24 Judiciary & Hawaiian Affairs on H.B. No. 2491

The purpose of this measure is to update the special penalties related to commercial motor vehicle employer and driver out-of-service violations and railroad-highway grade crossing violations to conform with federal regulations.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that it is necessary to update the civil penalties for certain violations by commercial driver's license drivers and their employers to comply with federal regulations.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2491, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2491, H.D. 2.

SCRep. 1053-24 Judiciary & Hawaiian Affairs on H.B. No. 2493

The purpose of this measure is to create two new commercial driver's license restrictions relating to operating a commercial motor vehicle in excess of eighteen thousand pounds gross vehicle weight rating and operating a commercial motor vehicle on Lanai and Molokai only.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that getting a standard commercial driver's license (CDL) on Molokai and Lanai is impossible without traveling to another island for testing. This results in high out-of-pocket travel costs for CDL applicants and a shortage of CDL licensed drivers. Furthermore, the Federal Motor Carrier Safety Administration has determined that a modified CDL road test on Lanai and Molokai would not meet the federal standard. Accordingly, this measure creates a new CDL restriction for persons operating commercial motor vehicles on Lanai and Molokai only.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2493, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2493, H.D. 2.

SCRep. 1054-24 Judiciary & Hawaiian Affairs on H.B. No. 1856

The purpose of this measure is to authorize the counties to regulate or impose restrictions on the manner of use of certain streets, highways, thoroughfares, or roadways.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Maui County Council; one member of the Hawai'i County Council; one member of the Kaua'i County Council; and Hawai'i State Association of Counties.

Your Committee finds that the heightened usage of streets, highways, thoroughfares, and roadways has led to traffic congestion that surpasses original capacity. Your Committee further finds that many of these streets, highways, thoroughfares, and roadways were not initially constructed to meet robust safety standards and lack the necessary infrastructure to support the current level of usage. As a result, the counties are unable to fully address the inherent risks associated with antiquated designs. This measure will empower counties to establish access limits, thereby ensuring the safety of residents and visitors who use these streets, highways, thoroughfares, and roadways.

Your Committee has amended this measure by:

- (1) Clarifying that the authority to restrict access does not include pedestrian access;
- (2) Clarifying that properties exclusively accessible via the streets, highways, thoroughfares, or roadways being regulated or restricted shall remain accessible without undue impediment; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1856, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1856, H.D. 2.

Signed by the Chair on behalf of the Committee.

SCRep. 1055-24 Judiciary & Hawaiian Affairs on H.B. No. 2526

The purpose of this measure is to increase penalties for certain offenses relating to the unauthorized driving or operation of a vehicle without a license.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that unlicensed drivers make up a disproportionately large percentage of drivers involved in fatal crashes. This measure would implement stricter penalties for these drivers with the goal of preventing crash fatalities and injuries in the State.

Your Committee has amended this measure by:

- (1) Inserting a preamble;
- (2) Amending the penalty for certain offenses related to the unauthorized driving or operation of a vehicle without a license to provide that for the third or subsequent offense within a five-year period:
 - (A) The person is guilty of a class C felony – the maximum penalties for which includes a \$10,000 fine and five years imprisonment; and
 - (B) The court, as part of the person's sentencing, is authorized to order the vehicle used by the person in the commission of the offense to be subject to forfeiture;
- (3) Deleting language that would have amended the penalties for the offense of operating a vehicle after license and privilege have been suspended or revoked for operating a vehicle under the influence of an intoxicant;
- (4) Changing the effective date to January 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2526, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2526, H.D. 2.

SCRep. 1056-24 Judiciary & Hawaiian Affairs on H.B. No. 2748

The purpose of this measure is to establish statewide vehicular law enforcement pursuit policies.

Your Committee received testimony in support of this measure from the Policing Project at NYU School of Law. Your Committee received testimony in opposition to this measure from the Honolulu Police Department and State of Hawaii Organization of Police Officers. Your Committee received comments on this measure from the Department of Law Enforcement.

Your Committee finds that although sometimes necessary, law enforcement vehicle pursuits can be dangerous, posing risks of serious injury or death to members of the public and law enforcement officers. Establishing statewide vehicular pursuit policies for state and county law enforcement agencies will ensure that law enforcement officers are only engaging in pursuits when necessary and when the public safety benefits of the pursuits outweigh the risks.

Your Committee has amended this measure by:

- (1) Clarifying when a law enforcement officer may engage in a vehicular pursuit;
- (2) Establishing reporting requirements and requiring the Department of Law Enforcement to adopt rules for the collecting and reporting of data;
- (3) Clarifying which vehicles may be used by a law enforcement officer in a vehicular pursuit;
- (4) Clarifying the definition of "vehicular pursuit" and "pursuit"; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2748, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2748, H.D. 2.

SCRep. 1057-24 Judiciary & Hawaiian Affairs on H.B. No. 2775

The purpose of this measure is to establish a communication and optical resolution process through which patients and their families, health care providers, and health care facilities can engage in open communication about how an adverse health care incident occurred, how a future incident will be prevented, and what compensation, if any, will be offered to the patient or their family.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Healthcare Association of Hawaii.

Your Committee finds that despite the best efforts of hospitals, doctors, nurses, and other health care professionals, about one in ten patients is harmed in health care. Your Committee further finds that the Communication and Optimal Resolution (CANDOR) process is an alternative resolution process that allows health care institutions and practitioners to respond in a timely, thorough, and just way when unexpected events cause patient harm.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2775, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2775, H.D. 2.

SCRep. 1058-24 Judiciary & Hawaiian Affairs on H.B. No. 2253

The purpose of this measure is to:

- (1) Permit all law enforcement officers to carry an opioid antagonist while on duty;
- (2) Permit, and provide immunity for, law enforcement officers to administer an opioid antagonist;
- (3) Require funds for the purchase of opioid antagonists used by law enforcement officers employed by a county to come from that county's general revenues or share of any opioid litigation proceeds;
- (4) Allow the Department of Health to establish education and training projects on drug overdose response and treatment for law enforcement officers; and
- (5) Allow the Department of Health to require all restaurants and hotel establishments to maintain an available inventory of Naloxone.

Your Committee received testimony in support of this measure from the Department of Law Enforcement; Department of Health; Honolulu Police Department; and Hawai'i Public Health Institute.

Your Committee finds that opioid antagonists, such as Naloxone, are safe medications to prevent opioid overdose deaths. Your Committee further finds that increased access and the timely administration of opioid antagonists to persons suffering from opioid overdoses will save lives. This measure would increase access to and promotes the timely administration of opioid antagonists.

Your Committee has amended this measure by:

- (1) Incorporating the substantive provisions of this measure into the Overdose Prevention and Emergency Response Act, where those provisions are not currently covered under existing law; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that this measure will authorize the Department of Health to require restaurants and hotel establishments statewide to maintain an available inventory of Naloxone to respond to emergency situations. However, this measure does not currently specify what is considered an "available inventory" or who is expected to administer Naloxone at the restaurants and hotels. Your Committee recognizes that in 2023, the City and County of Honolulu passed Ordinance No. 23-24 to require certain liquor establishments to maintain Naloxone on their premises. In that ordinance, covered businesses in the City and County of Honolulu are required to maintain a minimum of two doses of Naloxone and train all managers in the proper administration of Naloxone.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2253, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2253, H.D. 2.

Signed by the Chair on behalf of the Committee.

SCRep. 1059-24 Judiciary & Hawaiian Affairs on H.B. No. 2553

The purpose of this measure is to:

- (1) Authorize licensed pharmacists to administer vaccines to persons three years of age or older;
- (2) Authorize pharmacy interns and pharmacy technicians under the direct supervision of a pharmacist to administer vaccines to persons between the age of three and seventeen, if certain requirements are met; and
- (3) Authorize licensed pharmacists to order the administration of vaccines for persons between the ages of three and seventeen.

Your Committee received testimony in support of this measure from the Department of Health; University of Hawai'i at Hilo; Disability and Communication Access Board; Board of Pharmacy; CVS Health; Hawaii Pharmacists Association; Moloka'i Drugs, Inc.; Walgreens Co.; National Community Pharmacists Association; KTA Super Stores; Hawai'i Public Health Institute; and numerous individuals.

Your Committee finds that vaccinating minors against diseases is vital to protecting their health and the health of the community. However, vaccination coverage among Hawaii kindergarteners for routinely recommended childhood vaccines has declined by nearly ten percentage points between the period of 2017–2022 and remains below the national average. Your Committee further finds that due to the limited number of pediatricians and primary care providers throughout the State, the presence of pharmacies can improve access to health care, particularly in rural areas, due to dispersed locations and extended hours. This measure would ensure continued expanded access to vaccines in pharmacies, thereby improving immunization outcomes for children in Hawaii.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2553, H.D. 2, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

SCRep. 1060-24 Judiciary & Hawaiian Affairs on H.B. No. 2079

The purpose of this measure is to:

- (1) Relax the requirements for prescribing certain controlled substances as part of gender-affirming health care services;
- (2) Expand the protections established under Act 2, Session Laws of Hawaii 2023, to include gender-affirming health care services; and

- (3) Clarify jurisdiction under the Uniform Child-Custody Jurisdiction and Enforcement Act for cases involving children who obtain gender-affirming health care services.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Department of Health; Hawai'i Civil Rights Commission; Hawaii Medical Board; Board of Nursing; Democratic Party of Hawai'i; Stonewall Caucus of the Democratic Party of Hawai'i; QueerDoc; Hawai'i Health & Harm Reduction Center; Hawai'i State Center for Nursing; Rainbow Family 808; Pride at Work Hawai'i; Planned Parenthood Alliance Advocates - Hawai'i; and numerous individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Federation of Republican Women; Moms for Liberty Honolulu; and numerous individuals. Your Committee received comments on this measure from the Hawaii Medical Service Association and Kaiser Permanente Hawai'i.

Your Committee finds that dozens of states across the nation have either passed or are considering passing laws prohibiting gender-affirming health care services to people of all ages. These laws are contrary to the public policy of Hawaii which supports an individual's right to obtain gender-affirming health care services. Individuals who receive, seek, provide, or aid and abet the provision of gender-affirming health care services that are lawful in Hawaii should not fear State complicity in civil or criminal actions under the laws of other jurisdictions. Accordingly, your Committee believes that it is essential for the State to affirmatively protect an individual's right to obtain gender-affirming health care services within the State's boundaries.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2079, H.D. 2, and recommends that it pass Third Reading.

SCRep. 1061-24 Judiciary & Hawaiian Affairs on H.B. No. 2007

The purpose of this measure is to allow religious institutions, educational institutions, and medical institutions to build dwelling units on lands zoned within the urban district, under certain conditions.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Hawaii Appleseed Center for Law & Economic Justice; Grassroot Institute of Hawaii; Hawai'i YIMBY; and four individuals. Your Committee received testimony in opposition to this measure from the Department of Planning and Permitting of the City and County of Honolulu.

Your Committee finds that the limited diversity in housing options in the State increases the price of housing, ultimately forcing many residents out of Hawaii. Your Committee believes that by expanding options in the housing market, the State can alleviate price pressure on the private market, prevent the displacement of long-standing residents, and ensure that the State remains accessible across diverse housing prices and forms. This measure would increase the supply of housing by allowing certain institutions to build dwelling units on lands within the state urban land use district, under certain conditions.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2007, H.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2007, H.D. 3.

SCRep. 1062-24 Judiciary & Hawaiian Affairs on H.B. No. 2261

The purpose of this measure is to:

- (1) Amend the definition of "historic property" to remove the qualification that the property must be over fifty years old and instead require the property to be listed on the Hawaii or National Register of Historic Places or be built before August 21, 1959; and
- (2) Require historic review for proposed projects on existing privately-owned single-family detached dwelling units or townhouses only if the unit or townhouse is historic property.

Your Committee received testimony in support of this measure from the Hawai'i Association of REALTORS; NAIOP Hawaii; Building Industry Association of Hawaii; and one individual. Your Committee received testimony in opposition to this measure from the Historic Hawai'i Foundation and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that under existing law, any structure built before 1974 must undergo a historic preservation review before a proposed project may be commenced. Your Committee believes that this requirement is overly broad since many of these structures are not historically, architecturally, archaeologically, or culturally significant. This measure would narrow the definition of "historic property" to only include those buildings, structures, objects, districts, areas, or sites that are listed on the Hawaii or national register of historic places or were built before August 21, 1959.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2261, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2261, H.D. 2.

The purpose of this measure is to allow the counties to enact a zoning ordinance to amortize or phase out nonconforming single-family transient vacation rental units over a reasonable period of time.

Your Committee received testimony in support of this measure from one member of the Kaua'i County Council; one member of the Honolulu City Council; two member of the Maui County Council; Department of Planning and Permitting of the City and County of Honolulu; Hawai'i Hotel Alliance; Lāhainā Strong; Housing Hawai'i's Future; UNITE HERE Local 5; Keep It Kailua; Sen3Metry Group LLC; International Longshore & Warehouse Union Local 142; Hawai'i YIMBY; Sierra Club of Hawai'i; Hawai'i Lodging & Tourism Association; The American Hotel and Lodging Association; and numerous individuals. Your Committee received comments on this measure from Airbnb; Grassroot Institute of Hawaii; and numerous individuals.

Your Committee finds that existing law only allows the counties to amortize or phase out nonconforming uses of buildings or premises in commercial, industrial, resort, and apartment zoned areas, and expressly prohibits the amortization or phasing out of nonconforming uses of buildings or premises used for residential (single-family or duplex) or agricultural uses. Your Committee further finds that transient accommodation uses, or short-term rentals, may be interpreted as "residential uses" for which amortization or phasing out is not allowed. This measure would clarify that the counties have the authority to amortize or phase out nonconforming transient vacation accommodations which may allow the counties to better control short-term rentals in certain areas if necessary.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. The purpose of this measure is to establish the Institute of Indigenous Education, Science, and Outreach within the University of Hawaii at Hilo to develop and strengthen the Hawaiian-language education pathway, provide language education services, and provide outreach.

Your Committee received testimony in support of this measure from Aha Pūnana Leo; Ke Kula 'O Nāwahīokalani'ōpu'u Iki; and numerous individuals. Your Committee received comments on this measure from the University of Hawai'i System.

Your Committee has amended this measure by:

- (1) Inserting the contents of H.B. No. 2682, which:
 - (A) Authorizes the Hawaiian Language College Revolving Fund to receive monies from any revenue source and to be used to support the University of Hawaii at Hilo Imiloa Astronomy Center;
 - (B) Requires the Hawaiian Early Learning Trust Fund to be used for the Hawaiian Language Medium Education Pathway; and
 - (C) Prohibits the University of Hawaii from limiting the amount of revenue deposited into either fund and establishes a cap on individual deposits into both funds; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

The purpose of this measure is to stabilize funding for the Tobacco Enforcement Unit within the Department of the Attorney General by increasing:

- (1) The ceiling for the Tobacco Enforcement Special Fund from \$500,000 to \$750,000;

- (2) The cigarette tax stamp fee and the percentage of the cigarette tax stamp fee value deposited to the Tobacco Enforcement Special Fund; and
- (3) The amount to be deposited to the credit of the Tobacco Enforcement Special Fund from tobacco settlement monies.

Your Committee received testimony in support of this measure from the Department of Health; Coalition for a Tobacco-Free Hawai'i; and American Cancer Society Cancer Action Network. Your Committee received testimony in opposition to this measure from the Hawaii Smokers Alliance and two individuals. Your Committee received comments on this measure from the Department of the Attorney General; Department of Taxation; and Tax Foundation of Hawaii.

Your Committee has amended this measure by:

- (1) Establishing a stamp fee floor inventory tax on the stock inventory of stamps held by licensees before any increase in the stamp fee under the cigarette and tobacco tax laws is assessed and levied;
- (2) Changing the ceiling for the Tobacco Enforcement Special Fund to an unspecified amount;
- (3) Changing the cigarette tax stamp fee and the percentage of the cigarette tax stamp fee deposited to the Tobacco Enforcement Special Fund to unspecified percentages;
- (4) Changing the amount to be deposited to the credit of the Tobacco Enforcement Special Fund from tobacco settlement monies to an unspecified amount; and

SCRep. 1068-24 Finance on H.B. No. 2720

The purpose of this measure is to establish a collective bargaining unit for graduate assistants employed by the University of Hawaii and its community college system.

Your Committee received testimony in support of this measure from UNITE HERE Local 5; Hawaii State Teachers Association; United Public Workers, AFSCME Local 646, AFL-CIO; Academic Labor United; Rainbow Family 808; Pride at Work - Hawai'i; Democratic Party of Hawai'i; Democratic Party of Hawai'i Education Caucus; Democratic Party of Hawai'i Labor Caucus; Academic Labor United; University of Hawai'i at Mānoa Graduate Student Organization; National Education Association; University of Hawai'i Student Caucus; and numerous individuals. Your Committee received comments on this measure from the Department of Budget and Finance; University of Hawai'i System; Hawaii Government Employees Association, AFSCME Local 153, AFL-CIO; and Hawai'i Labor Relations Board.

Your Committee has amended this measure by reverting to the H.D. 1 version, which exempts graduate assistants employed by the University of Hawaii and its community college system from collective bargaining until they petition the Hawaii Labor Relations Board and the Board determines the graduate assistants are ready to be placed in a bargaining unit, at which point a collective bargaining unit for the graduate students will be established.

As affirmed by the record of votes of the members of your Committee on Finance that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2720, H.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2720, H.D. 3.

Signed by the Chair on behalf of the Committee.

Ayes, 15; Ayes with Reservations (Aiu, Ward). Noes, none. Excused, 1 (Cochran).

SCRep. 1069-24 Finance on H.B. No. 1911

The purpose of this measure is to appropriate funds for the operating and capital improvement costs of the Judiciary Branch for fiscal biennium 2023-2025.

The Judiciary Appropriations Act of 2023, Act 70, Session Laws of Hawaii 2023, appropriates:

Operating

	FY 2023-2024	FY 2024-2025
General Funds	\$185,148,711	\$189,015,776
All Means of Financing	\$197,865,224	\$201,861,529

Your Committee received testimony in support of this measure from the Judiciary; Department of Hawaiian Home Lands; Department of Corrections and Rehabilitation; Department of Commerce and Consumer Affairs; Department of Education; Department of Budget and Finance; Department of Land and Natural Resources; Department of the Attorney General; Department of Defense; Department of Agriculture; Department of Human Resources Development; Department of Accounting and General Services; Department of Labor and Industrial Relations; Department of Business, Economic Development & Tourism; Department of Health; Department of Taxation; Hawai'i State Public Library System; Stadium Authority; Hawaii State Energy Office; University of Hawai'i System; Hawaii Green Infrastructure Authority; Hawaii Public Housing Authority; Hawaii Housing Finance and Development Corporation; Early Learning Board; Hawai'i Community Development Authority; Office of Planning & Sustainable Development; Executive Office on Early Learning; Natural Energy Laboratory of Hawaii Authority; State Public Charter School Commission; Agribusiness Development Corporation; Department of Law Enforcement; Executive Office on Aging; Board of Education; Criminal Justice Research Institute; Hawaii Correctional System Oversight Commission; Hawai'i Tourism Authority; State Council on Developmental Disabilities; Public Utilities Commission; Kaho'olawe Island Reserve Commission; Office of the Prosecuting Attorney of the County of Kaua'i; Hawai'i Friends of Restorative Justice; Hawai'i Early Intervention Coordinating Council; Life of the Land; Community Alliance on Prisons; Hawai'i True Cost Coalition; Early Childhood Action Strategy; The University of Texas at Austin Prison and Jail Innovation Lab; National Association for Civilian Oversight of Law Enforcement; Hui For Excellence in Education; United Public Workers, AFSCME Local 646, AFL-CIO; Going Home Hawai'i; Local Food Coalition; Care for Aina Now Coalition; Microsoft; FAMM; Committee on Weights XIII; Catholic Charities Hawai'i; Hawaii Food Industry Association; Women's Prison Project; and numerous individuals. Your Committee received testimony in opposition to this measure from Kane'ohe Elementary School. Your Committee received comments on this measure from the Hawaii Health Systems Corporation; Department of Human Services; The Nature Conservancy; Hawaii Harbors Users Group; ACLU of Hawai'i; Reimagining Public Safety in Hawai'i Coalition; Hawai'i Association for Behavior Analysis; Hawai'i Health & Harm Reduction Center; Hawai'i Children's Action Network Speaks!; Native Hawaiian Legal Corporation; and numerous individuals.

Your Committee finds that the constitutional responsibility and power to appropriate rests solely with the Legislature.

The biennium budget was enacted in June 2023. A short time later and after the Legislature's Regular Session of 2023 had adjourned, Lahaina and Upcountry Maui experienced devastating wildfires and burned.

On October 30, 2023, over two months after the wildfires, the Administration issued Executive Memorandum 23-08, which diverted \$172,000,000 appropriated by the Legislature for various other purposes and initiatives in order to pay for expenses associated with the wildfires. This diversion was accomplished pursuant to the Emergency Proclamation when the Legislature was not in session. Although the action was proper under existing law, your Committee notes that in managing the crisis brought on by the wildfires, there is still a lack of a clear, comprehensive plan from the Administration to address the myriad of issues that have come to light over the past eight months.

The supplemental budget submitted by the Administration in December 2023 accounted for more than an additional \$200,000,000 in wildfire-related expenses. Granted, fully determining what the State's exposure will be is an extremely challenging task; however, it is disappointing that no comprehensive plan or official funding request for known costs associated with several initiatives and liabilities has yet to be submitted or included as part of the Administration's financial plan and supplemental budget. These include:

- A victims' relief fund announced in the media in November 2023;
- A housing program that was announced in the media in November 2023;
- Federal Emergency Management Agency (FEMA) ineligible housing costs associated with contract extensions that occurred in February 2024;
- Expenses incurred by state agencies responding to critical needs on Maui;
- Costs incurred by the State pursuant to the Emergency Management Assistance Compact, through which the State received aid from other states across the country; and
- Other potential subsidies.

Your Committee notes that Governor's Messages requesting additional funding were received late and did not provide this Committee with details or time to properly evaluate such requests.

Your Committee further finds that it is well known that during disasters like the wildfires, the federal government will assist states in mitigating recovery costs. Reimbursements, however, are almost never immediate; it may take several years for the State to receive these funds.

Consequently, fiscal prudence requires the focus and priority of your Committee to ensuring accountability and transparency in the budget. All known potential costs for programs associated with assisting survivors of the wildfires have been appropriated in this budget to remove the necessity to transfer money appropriated by the Legislature for specific purposes.

Communication, coordination, and cooperation among all branches of government will be needed in the coming days, months, and years to develop and implement solutions for survivors. In total, more than 10 percent of the general fund budget may be needed to respond to this disaster. Therefore, this budget appropriates \$1,051,100,000 and is allocated as follows:

- State share of federal assistance (\$135,300,000);
- Expenses not eligible for federal funding (\$77,400,000);
- Victim relief (\$65,000,000);
- Temporary housing for FEMA ineligible housing costs (\$122,500,000);
- Other non-congregate sheltering (\$500,000,000); and
- Additional subsidies (\$150,900,000).

The costs to ensure the safety and recovery of our communities will be enormous. At the same time, we need to make sure that essential services are maintained. These include:

- Mental health services, not only for wildfire survivors, but for many in our community suffering the lingering effects of the pandemic, homelessness, and a host of other difficulties;
- Health care, long term care, and home- and community-based care for disabled and kupuna; and
- General life basics for all communities, including:
 - Business and workforce development;
 - Child care and schools;
 - Housing; and
 - Food and nutrition for the vulnerable.

Preserving, maintaining, and enhancing these fundamental services are priorities of this budget.

Upon consideration, your Committee has amended this budget to appropriate the following in operating expenses and CIP funds:

Operating

	FY 2023-2024	FY 2024-2025
General Funds	\$10,736,611,097	\$11,315,446,095
All Means of Financing	\$19,026,771,466	\$20,380,669,537

Capital Improvements

	FY 2023-2024	FY 2024-2025
General Funds	\$374,265,000	\$148,727,000
All Means of Financing	\$2,896,421,000	\$4,530,982,000

Your Committee has also changed the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Finance that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1800, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1800, H.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

SCRep. 1071-24 Labor & Government Operations on S.B. No. 2291

The purpose of this measure is to establish advisory boards focused on workforce development for the Agribusiness Development Corporation, Hawaii Technology Development Corporation, and Natural Energy Laboratory of Hawaii Authority.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Department of Business, Economic Development, and Tourism; Agribusiness Development Corporation; Hawaii Technology Development Corporation; Natural Energy Laboratory of Hawaii Authority; Hawai'i Farm Bureau; and Hawai'i Farmers Union United.

Your Committee finds that as the State continues to identify workforce needs to promote a healthy local economy, coordination among the local business community, community partners, and other government agencies will be critical. Cultivating and growing the workforce in the agricultural, technology, and natural energy industries will support local food production, increase economic opportunities for local residents, and expand Hawaii's future workforce in areas of critical and future need.

Your Committee has amended this measure by:

- (1) Removing the Hawai'i Farm Bureau from the advisory boards focused on workforce development for the Hawaii Technology Development Corporation and Natural Energy Laboratory of Hawaii Authority;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2291, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2291, S.D. 2, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Sayama).

SCRep. 1072-24 Labor & Government Operations on S.B. No. 2286

The purpose of this measure is to:

- (1) Permit and appropriate funds for the Department of Labor and Industrial Relations to enter into contracts with eligible employers or registered apprenticeship programs in the private sector to provide on-the-job training to eligible interns;
- (2) Require the Department of Labor and Industrial Relations to:
 - (A) Develop eligibility criteria for eligible interns and employers or sponsors;
 - (B) Collaborate with the Department of Human Resources Development to process program applications and place interns;
 - (C) Provide the Department of Human Resources Development with certain information about each intern; and
 - (D) Submit an annual report on the internship program to the Legislature; and
- (3) Require the State to be the responsible employer for purposes of workers' compensation coverage when a student or recent graduate performs paid or unpaid work for a private or public employer as part of a school-approved, work-based learning program.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; University of Hawai'i System; Hawai'i Tourism Authority; Hawai'i Primary Care Association; Kohala Coast Resort Association; Hawai'i Farm Bureau; Hawaii Food Industry Association; Kapolei Chamber of Commerce; Chamber of Commerce Hawaii; Maui Chamber of Commerce; and Hawai'i Lodging & Tourism Association. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that many of the industries in the State, such as health care and tourism, are experiencing a shortage of workers and will need future employees with the necessary skills and experience to ensure and promote a healthy local workforce. By promoting economic growth, fostering public-private collaborations, and supporting local job creation, this measure expands opportunities for Hawaii's high school and college-aged students to gain valuable work experience through internships.

Your Committee has amended this measure by:

- (1) Requiring an eligible intern to be a Hawaii resident;
- (2) Clarifying that interns may be placed at a department, business, or organization within the State;
- (3) Clarifying that the State shall be responsible for workers' compensation for students or recent graduates who participate in the On-the-Job Training Work Experience Program established in this measure;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2286, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2286, S.D. 2, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Sayama).

SCRep. 1073-24 Labor & Government Operations on S.B. No. 2503

The purpose of this measure is to:

- (1) Require all places of public accommodation and state building construction projects constructed after December 31, 2024, to provide universal changing accommodations that are equally accessible regardless of gender; and
- (2) Require state building construction projects that are bid on after June 30, 2025, to include universal changing accommodations that are equally accessible regardless of gender, under certain conditions.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services; State Council on Developmental Disabilities; Disability and Communication Access Board; Stonewall Caucus of the Democratic Party of Hawai'i; Rainbow Family 808; Epilepsy Foundation of Hawaii; Retail Merchants of Hawaii; and nine individuals. Your Committee received comments on this measure from the Hawai'i Civil Rights Commission.

Your Committee finds that families and caregivers of individuals with disabilities often face challenges in finding accessible spaces during outings or daily activities. Universal changing accommodations ensure that caregivers of individuals with disabilities and adults with special needs have a safe and hygienic space to attend to their personal care needs. By making universal changing accommodations more accessible, this measure promotes the integration of individuals with disabilities into public spaces, ultimately enhancing their quality of life.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

Your Committee notes its concerns related to the costs associated with providing universal changing accommodations in places of public accommodation; however your Committee believes this measure provides adequate flexibility.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2503, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2503, S.D. 2, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Sayama).

SCRep. 1074-24 Tourism on S.B. No. 3364

The purpose of this measure is to:

- (1) Require the Hawaii Tourism Authority to develop Destination Management Action Plans for the counties and perform specific actions in the Plans to meet destination management objectives;

- (2) Expand the Hawaii Tourism Authority's powers and duties; and
- (3) Rename the Tourism Marketing Plan as the Strategic Tourism Management Plan and include statewide destination management and regenerative tourism efforts and programs in the Plan.

Your Committee received testimony in support of this measure from the Hawai'i Tourism Authority; Kohala Coast Resort Association; Maui Hotel & Lodging Association; Maui Chamber of Commerce; Hawai'i Lodging & Tourism Association; Council for Native Hawaiian Advancement; and two individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from two individuals.

Your Committee finds that there is a need for improved management and coordination between the State and private stakeholders in the tourism industry to address the impacts of tourism. The implementation of a community-led Destination Management Action Plan has allowed communities in each county to express their specific needs, desires, and visions for the tourism industry in that particular county. This measure will ensure the Hawaii Tourism Authority focuses on creating a sustainable tourism industry while also encouraging regenerative tourism in the State.

Your Committee has amended this measure by:

- (1) Expanding the definition of "destination management" to include collaboration and coordination with community stakeholders;
- (2) Repealing the exemption of the Hawaii Tourism Authority from administrative supervision of boards and commissions;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3364, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3364, S.D. 2, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

SCRep. 1075-24 Tourism on S.B. No. 2913

The purpose of this measure is to establish a regulatory framework for the sale of travel insurance.

Your Committee received testimony in support of this measure from the Hawaii Insurers Council; Crum & Forster; Allianz Global Assistance; United States Travel Insurance Association; and American Property Casualty Insurance Association. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that a comprehensive, uniform, and national regulatory framework for the sale of travel insurance is necessary to ensure travelers are protected across the nation. Your Committee further finds that this measure is based on the Travel Insurance Model Act adopted by the National Council of Insurance Legislators and National Association of Insurance Commissioners and thirty-five other states have already adopted this model legislation. This measure will clarify the application of existing laws to the unique aspects of travel insurance and ensure uniformity across the nation.

Your Committee has amended this measure by:

- (1) Specifying travel insurance that provides coverage for sickness, accident, disability, or death during travel, either exclusively or in conjunction with related coverages of emergency evacuation or repatriation of remains, shall be filed under an accident and health line of insurance; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2913, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2913, S.D. 1, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, 1 (Pierick). Excused, 2 (La Chica, Lamosao).

SCRep. 1076-24 Education on S.B. No. 3328

The purpose of this measure is to:

- (1) Require the Department of Education to establish, maintain, and operate the State's public education facilities;
- (2) Authorize the Department of Education to enter into certain agreements with other departments for the establishment, maintenance, and operation of the State's public education facilities;
- (3) Clarify that the Superintendent of Education is responsible for the management of the internal improvements of the State's public education facilities;
- (4) Establish the Office of Facilities and Real Estate Development and Office of School Operations and Services within the Department of Education;
- (5) Establish the Educational Facilities and Real Estate Development Special Fund;
- (6) Transfer the rights, powers, functions, duties, employees, records, documents, and equipment of the School Facilities Authority to the Department of Education; and
- (7) Repeal the School Facilities Authority.

Your Committee received testimony in support of this measure from the Board of Education; Department of Education; and one individual. Your Committee received testimony in opposition to this measure from the Department of the Attorney General and one individual. Your Committee received comments on this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that while the School Facilities Authority has only been in operation for a few years, for purposes of clarity and efficiency, the Department of Education should be the sole agency responsible for establishing, operating, maintaining, repairing, and improving the State's educational facilities.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000; and

(2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3328, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3328, S.D. 1, H.D. 1, and be referred to your Committee on Labor & Government Operations.

Signed by the Chair on behalf of the Committee.

SCRep. 1077-24 Energy & Environmental Protection on S.B. No. 2505

The purpose of this measure is to:

- (1) Establish system resilience as a metric to be monitored and considered by the Public Utilities Commission; and
- (2) Authorize the Commission to use amounts collected through the Hawaii electricity reliability surcharge to perform certain duties.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Public Utilities Commission; and Hawaii Clean Power Alliance. Your Committee received comments on this measure from Hawaiian Electric.

Your Committee finds that the State must prioritize actions that ensure the Hawaii Electric System can adapt to changing conditions and withstand and recover from disruptions. Your Committee further finds that resilience is an important metric that should be monitored to ensure the performance and stability of the electric system. Your Committee believes that this measure addresses this issue by establishing electric system resilience as a metric that is monitored and considered by the Public Utilities Commission and authorizing the Commission to use amounts collected through the Hawaii electricity reliability surcharge to perform certain duties.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2505, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2505, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

SCRep. 1078-24 Energy & Environmental Protection on S.B. No. 2575

The purpose of this measure is to prohibit the:

- (1) Mining, extraction, and removal of minerals from the seabed in all state marine waters, with certain exemptions; and
- (2) Issuance of any permit for or in connection with the development or operation of any facility or infrastructure associated with the mining, extraction, or removal of minerals from the seabed within state marine waters.

Your Committee received testimony in support of this measure from the Department of Health; Office of Hawaiian Affairs; Hawai'i Reef and Ocean Coalition; Sustainable Ocean Alliance Hawai'i; Sierra Club of Hawai'i; Parley for the Oceans, Hawai'i; Hawai'i Youth Climate Coalition; Hawai'i Wildlife Fund; Mālama Pūpūkea-Waimea; Deep Sea Mining Campaign; 350Hawaii.org; Environmental Caucus of the Democratic Party of Hawai'i; Rev Ocean; Friends of Hanauma Bay; FutureSwell; Marine Conservation Institute; Kauai Women's Caucus; Hawai'i's Thousand Friends; Sustainable Coastlines Hawai'i; National Parks Conservation Association; Oceanic Preservation Society; Surfrider Foundation, Hawai'i Region; Blue Climate Initiative; Tetiaroa Society; Benioff Ocean Science Laboratory; The Marine Mammal Center; The Ocean Foundation; Greenpeace Hawaii; HULI PAC; Te Ipukarea Society; Intemperate Earth; Kua'āina Ulu 'Auamo; For the Fishes; The Nature Conservancy; Americans for Democratic Action; Keiko Conservation; Fair Wind Cruises; and numerous individuals.

Your Committee finds that seabed mineral mining threatens the health of the State's marine ecosystems. This measure prohibits the mining, extraction, and removal of minerals from the seabed in all state marine waters, with certain exemptions, thereby taking a cautionary approach similar to other states, in weighing the costs and benefits of the potential extraction of natural resources.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2575, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2575, H.D. 1, and be referred to your Committee on Water & Land.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gates, Woodson, Ward).

SCRep. 1079-24 Energy & Environmental Protection on S.B. No. 2768

The purpose of this measure is to require the Hawaii State Energy Office to adopt rules governing a clean fuel standard for diesel and gasoline in the State.

Your Committee received testimony in support of this measure from the Hawai'i Climate Change Mitigation and Adaption Commission; Neste; Twelve Benefit Corporation; Clean Energy; Alliance for Automotive Innovation; Pacific Biodiesel; Biotechnology Innovation Organization; Island Energy Services, LLC; and Amazon. Your Committee received testimony in opposition to this measure from Life of the Land. Your Committee received comments on this measure from the Hawaii State Energy Office; Par Hawaii; 350Hawaii.org; Hawaiian Electric; and one individual.

Your Committee finds that establishing a clean fuel standard for alternative fuels will help reduce greenhouse gas emissions and stimulate economic development. This measure addresses this need by requiring the Hawaii State Energy Office to adopt rules governing a clean fuel standard for alternative fuels.

Your Committee has amended this measure to match the contents of H.B. No. 2297, H.D. 1, thereby:

- (1) Specifying that the clean fuel standard will apply to alternative fuels;
- (2) Changing the average carbon intensity reduction requirements from an unspecified amount to at least ten percent below 2019 levels by 2035 and at least fifty percent below 2019 levels by 2045;
- (3) Extending the implementation deadline for the clean fuel standard for alternative fuels to January 1, 2026;
- (4) Deleting the requirement that the rules include standards for measuring lifecycle greenhouse gas sequestrations attributable to the production and use of various fuels;
- (5) Clarifying that the Hawaii State Energy Office has the discretion, but is not required, to adopt rules for mechanisms that allow for the trading and banking of credits and exemptions for diesel, gasoline, and alternative fuels that are used in volumes below thresholds established by the Hawaii State Energy Office;
- (6) Clarifying the rule regarding mechanisms for generating credits for fuels used in transportation;
- (7) Adding military as an exempt end-use that may opt in to the program to generate credits when using alternative fuel;
- (8) Amending the definition of "alternative fuel";
- (9) Changing the effective date to July 1, 3000; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2768, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2768, S.D. 1, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

SCRep. 1080-24 Energy & Environmental Protection on S.B. No. 3010

The purpose of this measure is to require:

- (1) The Department of Land and Natural Resources to work with utility companies and other renewable energy developers on leasing processes to expedite the development of renewable energy; and
- (2) The Department of Business, Economic Development, and Tourism to direct the Hawaii State Energy Office, and work with utility companies and other renewable energy developers, on all applicable planning, leasing, and permitting processes to expedite the development of renewable energy resources.

Your Committee received testimony in support of this measure from Hawai'i Gas and one individual. Your Committee received comments on this measure from the Hawaii State Energy Office; Public Utilities Commission; and 350Hawaii.org.

Your Committee finds that the Department of Land and Natural Resources is required to work with utility companies and other renewable energy developers on planning and permitting processes that expedite the development of renewable energy. This measure would expand the requirement to leasing processes.

Your Committee has amended this measure by:

- (1) Deleting the requirement for the Department of Business, Economic Development, and Tourism to direct and work with the Hawaii State Energy Office and other renewable energy developers on planning, leasing, and permitting processes to expedite the development of renewable energy resources;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3010, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3010, S.D. 1, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

SCRep. 1081-24 Energy & Environmental Protection on S.B. No. 3195

The purpose of this measure is to broaden the definition of "renewable energy producer" that is used to determine the Board of Land and Natural Resources' disposition of public lands by direct negotiation, in order to allow more public lands to be leased for the generation of more types of renewable energy.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawaii State Energy Office; Public Utilities Commission; Life of the Land; and Hawai'i Gas. Your Committee received testimony in opposition to this measure from the Environmental Caucus of the Democratic Party of Hawai'i; 350Hawaii.org; Greenpeace Hawaii; and one individual. Your Committee received comments on this measure from the Kaua'i Island Utility Cooperative and Hawaiian Electric.

Your Committee finds that state laws provide opportunities for the Board of Land and Natural Resources to lease, without public auction, certain public lands to public utilities and renewable energy producers. Your Committee finds that the operative definition of "renewable energy producer" under existing law could be broadened to allow more public lands to be leased for the generation of additional types of renewable energy. This measure would broaden the definition to include producers and developers of all types of renewable energy as defined in section 269-91, Hawaii Revised Statutes, instead of solely producers of electrical or thermal energy.

Your Committee has amended this measure by:

- (1) Requiring the production or development of the renewable energy, biofuel, or other fuel to reduce lifecycle greenhouse gas emissions by seventy-five percent below that of the fossil fuel most likely to be replaced in order for the producer, developer, or grower of that energy or fuel to meet the definition of "renewable energy producer";
- (2) Clarifying that nothing in the definition of "renewable energy producer" shall be construed to allow wheeling that is not authorized by law or rule or approved by the Public Utilities Commission;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and

(4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3195, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3195, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

SCRep. 1082-24 Water & Land on S.B. No. 2284

The purpose of this measure is to establish a two-year program at the University of Hawaii to develop a wildfire forecast system for the State using artificial intelligence.

Your Committee received testimony in support of this measure from the University of Hawai'i System and Democratic Party of Hawai'i. Your Committee received comments on this measure from the Maui Chamber of Commerce.

Your Committee finds that the wildfire forecast system proposed by this measure will forecast the risks of wildfire statewide to enhance public safety, preparedness, and risk mitigation, including improving the preparedness of firefighters and enabling residents to take proactive fire mitigation measures for their homes and plan for evacuations.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2284, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2284, S.D. 2, H.D. 1, and be referred to your Committee on Higher Education & Technology.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Hashem).

SCRep. 1083-24 Water & Land on S.B. No. 2289

The purpose of this measure is to:

- (1) Require the Department of Health to include in its annual report regarding Kalaupapa Settlement:
 - (A) Details and updated information, as available, regarding the permanent transfer to other governmental or qualified non-governmental entities of the powers and duties of state agencies over Kalaupapa Settlement; and
 - (B) Community engagement efforts with community stakeholders and the Molokai community; and
- (2) Sunset the measure on the first June 30th after the Revisor of Statutes receives a written gubernatorial proclamation that the transfer of the Department's powers and duties over Kalaupapa Settlement is complete.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Department of Health; Ka'Ohana O Kalaupapa; and three individuals.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2289, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2289, S.D. 2, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Hashem).

SCRep. 1084-24 Water & Land on S.B. No. 2512

The purpose of this measure is to establish notice and reporting requirements for the transfer of certain contributions and grants received by the Governor through the exercising of emergency management powers.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Hawai'i Emergency Management Agency. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the requirements established in this measure will increase government transparency.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2512, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2512, S.D. 2, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

SCRep. 1085-24 Water & Land on S.B. No. 3067

The purpose of this measure is to move the Hurricane Reserve Trust Fund into the state treasury and make other housekeeping amendments relating to the Fund.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Hawai'i Emergency Management Agency; and one individual. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the state treasury maintains an investment pool consisting of participating state accounts. Funds within the state treasury are prudently managed to achieve the investment objectives of safety, liquidity, and yield, in priority order. The investment pool also enables the achievement of economies of scale for the effective and efficient management of funds and enhances the State's liquidity position.

Your Committee further finds that the amount of interest earned from the principal in the Hurricane Reserve Trust Fund and deposited to the general fund has fluctuated. This measure transfers the Hurricane Reserve Trust Fund into the state treasury to better facilitate the achievement of state treasury investment objectives.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3067, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3067, S.D. 1, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Hashem).

SCRep. 1086-24 Water & Land on S.B. No. 3157

The purpose of this measure is to authorize the use of direct negotiation to dispose of public land leases for agricultural, commercial, industrial, resort, and hotel purposes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and two individuals. Your Committee received testimony in opposition to this measure from the League of Women Voters of Hawaii; Unite Here Local 5; Hawai'i Farmers Union United; and one individual. Your Committee received comments on this measure from one member of the Hawai'i County Council.

Your Committee finds that authorizing the Department of Land and Natural Resources to directly negotiate with a potential lessee that has a specific, identified project provides the Board and Department of Land and Natural Resources the opportunity to more effectively review the project to ensure compliance with environmental impact laws and conformity with public trust obligations.

Your Committee has amended this measure by:

- (1) Removing the proposed requirement that only public lands that do not qualify for disposition under section 171-59(a), Hawaii Revised Statutes, are eligible for disposition by direct negotiation;
- (2) Removing agriculture, hotel, and resort uses from eligibility for disposition by direct negotiation;
- (3) Restricting the eligibility for disposition by direct negotiation for commercial and industrial uses to only parcels of five acres or less;
- (4) Requiring the Board of Land and Natural Resources to hold at least two public hearings before it can approve the disposition;
- (5) Repealing it in five years;
- (6) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3157, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3157, S.D. 2, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

SCRep. 1087-24 Water & Land on S.B. No. 3167

The purpose of this measure is to authorize the Governor to execute a compact on behalf of the State to cooperate in the Pacific States Marine Fisheries Commission.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that the Pacific States Marine Fisheries Commission is an interstate compact agency that helps state resource management agencies and the fishing industry sustainably manage Pacific Ocean resources. This measure will facilitate improved management of state and regional marine fishery resources through increased collaboration with other Pacific states.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3167, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3167, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

SCRep. 1088-24 Energy & Environmental Protection/Transportation on S.B. No. 3021

The purpose of this measure is to:

- (1) Change the name of the Electric Bicycle and Electric Moped Rebate Program to the Electric Mobility Rebate Program;
- (2) Expand the Program to include adaptive electric bicycles and electric micro-mobility devices;
- (3) Expand the Program to individuals who are fifteen years or older; and

- (4) Increase the maximum rebate amount for the Program to \$750 and establish an additional assistance rebate for individuals who meet certain qualifications.

Your Committees received testimony in support of this measure from the Department of Transportation; Hawaii State Energy Office; Hawai'i Climate Change Mitigation and Adaptation Commission; Oahu Metropolitan Planning Organization; one member of the Kaua'i County Council; Ulupono Initiative; Blue Planet Foundation; Hawai'i Applesseed Center for Law and Economic Justice; Hawai'i Bicycling League; and seven individuals.

Your Committees find that electric bicycles, electric mopeds, adaptive electric bicycles, and electric micro-mobility devices are more cost effective, environmentally friendly alternatives to gas-powered motor vehicles. This measure would expand the types of devices eligible for the Electric Mobility Rebate Program, increase the maximum rebate, and establish an additional assistance rebate for individuals that meet certain criteria.

Your Committees have amended this measure by:

- (1) Changing the rebates to unspecified amounts;
- (2) Adding electric cargo bikes to the types of devices eligible for the individual electric mobility rebate and additional assistance rebate;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committees respectfully request your Committee on Finance, should it deliberate on this measure, to consider the following maximum rebate amounts:

- (1) \$750 for the individual electric mobility rebate and \$750 for the additional assistance rebate;
- (2) \$10,000 for the non-profit organization electric mobility rebate; and
- (3) \$2,000,000 in total rebates per fiscal year.

As affirmed by the records of votes of the members of your Committees on Energy & Environmental Protection and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3021, S.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3021, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

SCRep. 1089-24 Human Services on S.B. No. 3116

The purpose of this measure is to explicitly establish that the priority of selection for Preschool Open Doors program participation applies only during the priority application period between February 1 and the start of each state fiscal year.

Your Committee received testimony in support of this measure from the Department of Human Services; Executive Office on Early Learning; Early Learning Board; Hui for Excellence in Education; Hawai'i Children's Action Network Speaks!; and Early Childhood Action Strategy.

Your Committee finds that the Preschool Open Doors program provides key financial assistance to enable children to attend preschool. This measure establishes a reasonable and appropriate balance between honoring key priorities in the selection of Preschool Open Doors participants to serve children with the greatest need and ensuring continuity of care to support children's development, while also expediting enrollment, ensuring efficient expenditure of funds, and maximizing the number of children served through the program.

Your Committee has amended this measure by:

- (1) Revising the preamble;
- (2) Removing language that required the Department of Human Services to adopt administrative rules to determine a child's underserved or at-risk status, as the Department's existing administrative rules already authorize this;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3116, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3116, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1090-24 Human Services on S.B. No. 3383

The purpose of this measure is to require the Executive Office on Aging to contract for a statewide assessment of the needs of the long-term care workforce for providers of home- and community-based services.

Your Committee received testimony in support of this measure from the Executive Office on Aging; AARP Hawai'i; and Healthcare Association of Hawaii.

Your Committee finds that the availability of skilled workers is essential to meet the long-term care needs of Hawaii's residents. In 1997, the Hawaii Long-Term Care Reform Task Force indicated the State's need to increase the number of workers for in-home and community-based programs. Since then, this worker shortage has continued to worsen and is exacerbated by the lingering effects of the COVID-19 pandemic and the growing numbers of the State's aging population who need long-term care. To address the needs for services for kupuna and the disabled, better understanding of the challenges and barriers faced by providers of home- and community-based services is required.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3383, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3383, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1091-24 Human Services on S.B. No. 3094

The purpose of this measure is to establish a working group within the Office of Wellness and Resilience to develop and make recommendations for a statewide framework for peer support specialists.

Your Committee received testimony in support of this measure from the Department of Corrections and Rehabilitation; Department of Health; Department of Human Services; Office of Wellness and Resilience; State Council on Developmental Disabilities; State Council on Mental Health; EPIC 'Ohana, Inc.; Pacific Peer Connection; Pū'ā Foundation; Hawaii Substance Abuse Coalition; Opportunity Youth Action Hawai'i; Commit to Keiki; Hawai'i Children's Action Network Speaks!; Hawai'i Health & Harm Reduction Center; and numerous individuals.

Your Committee finds that research shows that there are many benefits of peer support for individuals, including improved behavioral health outcomes, reduced hospital admission rates, longer community tenure, increased social functioning, and decreased substance abuse and depression. Your Committee further finds that peer support extends to many marginalized individuals in the State, such as homeless individuals, those involved in the child welfare system, survivors of disasters, individuals involved in the correctional and juvenile justice systems, and certain caregivers of youth. Your Committee believes that establishing a working group will benefit the State by enhancing the role of peer support specialists in serving individuals in need.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3094, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3094, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1092-24 Human Services on S.B. No. 279

The purpose of this measure is to:

- (1) Require Medicaid and private insurance coverage for ketamine therapy to treat depression; and
- (2) Appropriate funds for costs resulting from Medicaid coverage for ketamine therapy.

Your Committee received testimony in support of this measure from Beyond Mental Health; Kaiser Permanente Hawaii; and six individuals. Your Committee received comments on this measure from the Department of Human Services; Department of Commerce and Consumer Affairs; Hawaii Association of Health Plans; and Hawaii Medical Service Association.

Your Committee finds that ketamine therapy may relieve depressive symptoms and restore quality of life when all other treatments have failed. However, your Committee finds that this treatment can be cost prohibitive for many patients in Hawaii. This measure therefore requires Medicaid and private insurance coverage of ketamine therapy for Hawaii residents suffering from treatment-resistant depression.

Your Committee has amended this measure by:

- (1) Clarifying the health care providers who are authorized to prescribe ketamine to treat depression; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that Senate Concurrent Resolution No. 90, introduced during the Regular Session of 2024, is the concurrent resolution that specifically identifies this measure and requests the Auditor to prepare an impact assessment report on the mandated coverage of ketamine therapy, as is required pursuant to section 23-51, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 279, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 279, S.D. 1, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Kobayashi). Noes, none. Excused, none.

SCRep. 1093-24 Labor & Government Operations on S.B. No. 2536

The purpose of this measure is to:

- (1) Establish accounting services procurement preferences for certain Hawaii accounting service businesses; and
- (2) Clarify that the existing reciprocity procurement preference includes offerors pursuant to sections 103D-302 and 103D-303, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from Accuity LLP. Your Committee received testimony in opposition to this measure from the State Procurement Office.

Your Committee finds that Hawaii service businesses, such as public accounting firms, are an important aspect of the State's economy. However, the high cost of operating a business and the high cost of living in Hawaii makes it difficult to compete for government contracts against firms without offices in Hawaii that operate out of low-cost jurisdictions. This measure encourages the growth and sustainability of businesses that employ Hawaii residents by providing them with a competitive advantage in government contracts.

Your Committee has amended this measure by:

- (1) Adding a preference for Hawaii accounting service businesses to the selection criteria for the procurement of professional services related to accounting services;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes its concerns that establishing a preference for Hawaii accounting service businesses for procurement of professional services may have unintended consequences and result in having to establish additional preferences for other Hawaii-based businesses.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2536, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2536, S.D. 1, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

SCRep. 1094-24 Labor & Government Operations on S.B. No. 2615

The purpose of this measure is to authorize the counties to adopt labor standards that include but are not limited to standards for living wages, benefits, and requirements for participation in state-approved apprenticeship programs, under certain conditions.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Office of the Mayor of the City and County of Honolulu; one member of the Kaua'i County Council; one member of the Hawai'i County Council; two members of the Honolulu City Council; one member of the Maui County Council; Operating Engineers Local 3; Pacific Resource Partnership; and Hawaii Regional Council of Carpenters. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii and Maui Chamber of Commerce. Your Committee received comments on this measure from the Department of the Attorney General; General Contractors Association of Hawaii; and Hawaii Harbor Users Group.

Your Committee finds that some employees are victims of labor violations when their employers avoid their employer responsibilities related to wages, payroll taxes, insurance, licensing, safety, and other regulatory requirements. Empowering the counties to adopt certain disclosure requirements provides them with the flexibility to ensure the appropriate employer responsibilities are being provided to employees. Furthermore, this measure promotes economic development while maintaining a baseline for worker protections.

Your Committee has amended this measure by:

- (1) Clarifying that the counties shall have the authority to:
 - (A) Require employers to disclose information regarding its employees' wages, benefits, hours, and employment status; and
 - (B) Deny, revoke, or suspend a building permit application for violating laws relating to wages, benefits, hours, and employment status; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2615, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2615, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Sayama).

SCRep. 1095-24 Labor & Government Operations on S.B. No. 2474

The purpose of this measure is to:

- (1) Require and appropriate funds for the Department of Labor and Industrial Relations to establish and administer a Family Leave Insurance Program;
- (2) Provide family leave insurance benefits and extend the period of family leave to sixteen weeks for businesses that employ one or more employees who meet the hourly qualifications;
- (3) Require the Department of Labor and Industrial Relations to conduct a public outreach and education campaign to inform employees and employers of family leave insurance benefits and submit an annual report to the Legislature on any outreach and education efforts and projected and actual Family Leave Insurance Program participation; and
- (4) Eliminate the previous threshold of one hundred employees for employers to be subject to the family leave law.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Executive Office on Aging; Executive Office on Early Learning; Honolulu County Committee on the Status of Women; Hawai'i State Association of Counties; AARP Hawai'i; Catholic Charities Hawai'i; 'Ohana Leadership Council; Stonewall Caucus of the Democratic Party of Hawai'i; Hawai'i Children Action Network; UNITE HERE Local 5; Save Medicaid Hawaii; Hawaii State Teachers Association; Hawai'i Public Health Association; Hawaii Clubhouse Coalition; Rainbow Family 808; Hawai'i Family Caregiver Coalition; Chamber of Sustainable Commerce; IATSE Local 665; Democratic Party of Hawai'i; Imua Alliance; Democratic Party of Hawai'i Labor Caucus; Parents and Children Together; AAUW of Hawaii; American Civil Liberties Union of Hawai'i; Breastfeeding Hawaii; Hawai'i State Democratic Women's Caucus; Hawai'i Children's Action Network Speaks!; The American College of Obstetricians and Gynecologists; AlohaCare; American Heart Association; Hawai'i Women Lawyers; Hawai'i State Coalition Against Domestic Violence; Hawai'i Workers Center; Aloha United Way; Hawai'i Public Health Institute; Hawai'i Alliance for Progressive Action; Papa Ola Lokahi; Hawaii Medical Association; Hawai'i Health & Harm Reduction Center; Wainiha Country Market; and numerous individuals. Your Committee received testimony in opposition to this measure from the United Public Workers, AFSCME Local 646, AFL-CIO; Hawai'i Restaurant Association; Retail Merchants of Hawaii; Kauai Christian Academy; Hawai'i Nurses' Association – OPEIU Local 50; Hawaii Energy Marketers Association; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; NFIB, Hawaii Chapter; Society of Human Resource Management – Hawaii; Chamber of Commerce Hawaii; Maui Chamber of Commerce; and two individuals. Your Committee received comments on this measure from the Department of the Attorney General; Department of Human Services; Department of Budget and Finance; Department of Labor and Industrial Relations; Department of Health; American Council of Life Insurers; and Grassroot Institute of Hawaii.

Your Committee finds that many of Hawaii's working families struggle during times of caregiving and illness. While the federal Family and Medical Leave Act allows twelve weeks of unpaid leave to employees who have worked at a business that employs fifty or more employees, the majority of Hawaii's workforce cannot afford to take unpaid leave to care for a new child or attend to the needs of a family member with a serious health condition. This measure supports employees who might otherwise find themselves faced with the untenable choice between preserving their employment to provide for their families and providing care to a family member.

Your Committee has amended this measure by deleting its contents and inserting the contents of H.B. No. 2757, H.D. 1, a substantially similar measure that:

- (1) Beginning January 1, 2027, requires the Department of Labor and Industrial Relations to establish a Family and Medical Leave Program and begin collecting payroll contributions to finance payment of benefits;
- (2) Beginning January 1, 2028, requires the Department to start receiving claims and paying benefits under the Program; and
- (3) Takes effect on July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2474, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2474, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

SCRep. 1096-24 Labor & Government Operations on S.B. No. 3350

The purpose of this measure is to:

- (1) Require that judicial appointees file the same financial disclosures that are required of other state officials; and
- (2) Require the Commission on Salaries to consider the deterrence of bribery and corruption when making its salary recommendations.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii. Your Committee received testimony in opposition to this measure from the Judiciary.

Your Committee finds that various public officials are required to file annual financial disclosure statements with the State Ethics Commission. The public disclosure of their sources of income enhances public trust because the disclosure tends to reduce real and perceived conflicts of interest. This measure holds judicial appointees to the same financial disclosure standards as other state officials, which will promote public trust and aid the State Ethics Commission in identifying and addressing, if needed, any potential conflicts of interest to ensure the highest levels of integrity in the judicial system.

Your Committee has amended this measure by:

- (1) Adding a definition for "appointee for a judge or justice";
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3350, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3350, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

SCRep. 1097-24 Health & Homelessness on S.B. No. 2682

The purpose of this measure is to:

- (1) Beginning January 1, 2025, require physicians to perform or order a lead screening test for minor patients at certain intervals, and make a record of the lead screening test in the minor patient's records;
- (2) Require the Department of Health to adopt recommendations; and
- (3) Provide certain exemptions for the mandatory lead poisoning testing of minors.

Your Committee received testimony in support of this measure from the Department of Health; Hawai'i Chapter of the American Academy of Pediatrics; Healthy Mothers Healthy Babies Coalition of Hawaii; Hawaii Children's Action Network Speaks!; and one individual.

Your Committee finds that even a small amount of lead in a child's blood can lead to a variety of complications, including inhibiting their ability to learn, pay attention, and succeed in school. Your Committee further finds that Hawaii data from 2018 to 2023 shows that on average, two percent of all tested children under the age of six years had a level of lead in their blood that exceeded the Centers for Disease Control and Prevention Reference Level. However, because less than thirty percent of children under the age of three were tested in 2023, the true prevalence of lead poisoning in the State is likely much higher. This measure is intended to improve public health by implementing universal screening tests for lead poisoning of children residing in State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2682, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2682, S.D. 1, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

SCRep. 1098-24 Health & Homelessness on S.B. No. 3239

The purpose of this measure is to authorize the Office of Wellness and Resilience to develop, implement, and execute a program to acquire and forgive outstanding medical debt.

Your Committee received testimony in support of this measure from the Office of Wellness and Resilience; State Health Planning and Development Agency; The Queen's Health System; Healthcare Association of Hawaii; Leukemia & Lymphoma Society; American Cancer Society Cancer Action Network; Hawai'i Health & Harm Reduction Center; and two individuals.

Your Committee finds that medical debt is the most common form of personal bankruptcy across the nation. Your Committee further finds that medical debt can often serve as a social determinant of health, as medical debt often leads to patients to delay the care they need and is more likely to burden people with disabilities, lower-income people, and uninsured people. This measure authorizes the Office of Wellness and Resilience to develop a medical debt forgiveness program. However, your Committee believes that implementation of such a program is premature at this time and additional work must be conducted to determine the feasibility of establishing a state-run medical debt forgiveness program.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the substantive contents of this measure and inserting language requiring the Office of Wellness and Resilience to establish a Medical Debt Forgiveness Working Group to study the feasibility of developing, implementing, and executing a program for the State to acquire and forgive outstanding medical debt of Hawaii residents;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and

(3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3239, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3239, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Garcia). Noes, none. Excused, 1 (Nishimoto).

SCRep. 1099-24 Health & Homelessness on S.B. No. 3125

The purpose of this measure is to:

- (1) Authorize minors who are fourteen years of age or older to consent to medical care and services for sexually transmitted infections, pregnancy, and family planning services, including the prevention of sexually transmitted infections; and
- (2) Require health insurance plans and health care providers to maintain confidentiality policies and procedures for minor-initiated medical care and services.

Your Committee received testimony in support of this measure from the Department of Health; Planned Parenthood Alliance Advocates - Hawai'i; Hawai'i Health & Harm Reduction Center; Drug Policy Forum of Hawaii; Opportunity Youth Action Hawai'i; Essential Access Health; Parents and Children Together; Hawaii Academy of Family Physicians, Legislative Committee; Stonewall Caucus of the Democratic Party of Hawai'i; Rainbow Family 808; and numerous individuals. Your Committee received testimony in opposition to this measure from numerous individuals.

Your Committee finds that existing law permits minors who are fourteen years of age or older to consent, independently and without their parent or guardian's involvement, to medical care and services for screening and treatment of sexually transmitted infections. However, existing law does not allow minors to access preventive treatments for sexually transmitted infections, resulting in a critical gap in minors' access to medical care. This measure increases access to preventive health care and reduces the risk for the spread of sexually transmitted infections.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3125, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3125, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Garcia). Excused, 1 (Nishimoto).

SCRep. 1100-24 Education on S.B. No. 3305

The purpose of this measure is to exempt public charter schools that offer exclusively prekindergarten programs from certain statutory provisions affecting charter schools relating to funding and finance, the use of the weighted student formula, athletics, enrollment, computer science courses and content, and enrollment in industry-credential programs that are applicable to other public charter schools.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning; State Public Charter School Commission; Hui for Excellence in Education; Hawai'i Children's Action Network Speaks!; and Parents and Children Together.

Your Committee finds that the State Public Charter School Commission approved the first prekindergarten-only public charter school, PACT Parkway Villages Preschool, at the Commission's January 2024 general business meeting. Your Committee further finds that exempting prekindergarten-only public charter schools from unnecessary statutory provisions will prevent subjecting prekindergarten-only public charter schools to requirements that are inapplicable to them by virtue of being prekindergarten only and not serving other grade levels. This exemption will also help to expand access to early education.

Your Committee has amended this measure by changing the effective date to July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3305, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3305, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Garcia).

SCRep. 1101-24 Education on S.B. No. 2475

The purpose of this measure is, in part, to:

- (1) Establish a harm to students registry for all prekindergarten through grade twelve educational institutions within the State, to be maintained by the Department of Education;
- (2) Require educational institutions to report to the Department of Education instances of acts by school employees, contractors, or volunteers that demonstrate harm to students; and
- (3) Require the surrender of teaching licenses of certain individuals who resign or retire during an investigation into allegations against the individual of sexual assault or sexual harassment.

Your Committee received testimony in support of this measure from the Department of Education; State Public Charter School Commission; Executive Office on Early Learning; Early Learning Board; Hawai'i Teacher Standards Board; Hawaii Association of Independent Schools; Hawaii Council of Private Schools; Kamehameha Schools; Punahou School; and one individual. Your Committee received comments on this measure from the Department of the Attorney General; Department of Human Services; and Office of Information Practices.

Your Committee finds that establishing a harm to students registry and requiring educational institutions to report to the Department of Education instances of acts by school employees, contractors, or volunteers that demonstrate harm to students will streamline the sharing of vital information between schools in Hawaii about individuals who have perpetuated harm against children and help to ensure that the State's students will be educated in safe and healthy learning environments.

Your Committee finds that H.B. No. 2034, H.D. 3 (Regular Session of 2024), a substantially similar measure, was previously passed by the House.

Your Committee has amended this measure by deleting its contents and inserting the contents of H.B. No. 2034, H.D. 3, a measure that:

- (1) Creates a registry for all preschools and K-12 educational institutions within the State that contains information on school employees, contractors, or volunteers for whom, as a result of an investigation, a final finding has been issued that the individual has inflicted harm on a student;
- (2) Appropriates funds to establish an unspecified number of full-time equivalent positions within the Department of Education to manage the registry and carry out the requirements of this measure; and
- (3) Takes effect on July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2475, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2475, S.D. 2, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Garcia).

SCRep. 1102-24 Transportation on S.B. No. 2443

The purpose of this measure is to establish an Automated Speed Enforcement Systems Program in up to ten school zones across the State.

Your Committee received testimony in support of this measure from the Department of Transportation; Disability and Communication Access Board; Honolulu Police Department; Oahu Metropolitan Planning Organization; Ulupono Initiative; and three individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender and one individual. Your Committee received comments on this measure from the Judiciary; Department of the Attorney General; and Department of Budget and Finance.

Your Committee finds that according to the National Safety Council, forty-eight percent of all traffic fatalities in Hawaii were speed related. Your Committee further finds that automated speed enforcement system programs are proven safety countermeasures that decrease speed related fatalities. In studies on automated speed enforcement system programs, the National Transportation Safety Board found that they have been successfully applied in many locations across the nation and have significantly reduced the number of fatalities and serious injuries. Your Committee believes that implementing a similar program in certain areas across the State will greatly increase the safety of pedestrians and motorists.

Your Committee has amended this measure by:

- (1) Deleting language recommending immediate passage of this measure;
- (2) Deleting language permitting the counties to implement an Automated Speed Enforcement Systems Program;
- (3) Requiring, rather than permitting, the State to implement an Automated Speed Enforcement Systems Program;
- (4) Expanding the Automated Speed Enforcement Systems Program to include work zones and requiring the Automated Speed Enforcement Systems Program be implemented in at least one school or work zone in each county, rather than limiting the program to ten school zones across the State;
- (5) Deleting the general fund appropriation;
- (6) Amending the appropriations out of the Highway Safety Fund and into the Automated Speed Enforcement Systems Program Special Fund by changing the appropriation to an unspecified amount and changing the fiscal year in which the appropriations are made to fiscal year 2024-2025;
- (7) Changing the number of full-time equivalent positions established by this measure to an unspecified number;
- (8) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that there is a lack of clarity as to how the new penalty established by this measure will interact with existing speed limit laws. In particular, your Committee notes that it is unclear if the new penalty will be levied in addition to or instead of existing penalties for violating the State's speeding laws.

Your Committee further notes that additional clarity is needed on what would constitute a school or work zone. Your Committee also believes that it would be in the best interest of public safety if an Automated Speed Enforcement Systems Program was implemented prior to the beginning of the 2025-2026 school year. Accordingly, your Committee respectfully requests your Committee on Judiciary & Hawaiian Affairs, should it choose to deliberate on this measure, to insert language defining "school zone" and "work zone" and require the Department of Transportation to implement the Automated Speed Enforcement Systems Program one month prior to the 2025-2026 school year.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2443, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2443, S.D. 2, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1103-24 Transportation on S.B. No. 3022

The purpose of this measure is to impose a fee on each transportation network company ride, the proceeds of which shall be used on safety projects.

Your Committee received testimony in support of this measure from the Hawai'i State Energy Office; Oahu Metropolitan Planning Organization; Ulupono Initiative; Hawai'i Bicycling League; Hawai'i Appleseed Center for Law & Economic Justice; and two individuals. Your Committee received testimony in opposition to this measure from Uber Technologies. Your Committee received comments on this measure from the Department of Budget and Finance; Department of Taxation; Department of Transportation; and Tax Foundation of Hawaii.

Your Committee finds that rideshare services, also known as transportation network companies, provide a valuable service to the State's residents and visitors. Your Committee further finds that use of a rideshare service is not a one-to-one vehicle trip replacement, as many rideshare drivers log miles of driving without a passenger. A comprehensive 2021 study of more than forty-four cities concluded that ridesharing in urban areas resulted in a 0.9 percent increase in traffic and that congestion increased by 4.5 percent. Your Committee believes that implementation of a fee on transportation network companies to provide funding for safety measures is in alignment with the State's broader initiative to promote responsible tourism and will promote a sustainable and responsible means of addressing safety issues in the State. Your Committee also finds that a similar fee should be imposed on taxicabs and limousines.

Accordingly, your Committee has amended this measure by:

- (1) Expanding the fee to include rides provided by taxicabs and limousines;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes the concerns raised in testimony by the Tax Foundation of Hawaii that the fee imposed by this measure does not have a nexus with the Safe Routes to Schools Program and may be considered a tax on transportation network companies. Therefore your Committee respectfully requests your Committee on Consumer Protection & Commerce to consider whether the fee should be more appropriately classified as a tax.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3022, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3022, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1104-24 Transportation on S.B. No. 3183

The purpose of this measure is to:

- (1) Establish a county mileage-based road usage charge that includes electric and non-electric vehicles;
- (2) Permit electric vehicle owners to pay either a county registration surcharge or the mileage-based county road usage charge until June 30, 2028;
- (3) Establish a process for the counties to adopt a per-mile rate by resolution; and
- (4) Clarify the use of monies collected under the state and county road usage charges.

Your Committee received testimony in support of this measure from the Department of Transportation; Hawai'i State Energy Office; one member of the Kaua'i County Council; one member of the Honolulu City Council; one member of the County Council of Maui; Department of Transportation Services of the City and County of Honolulu; Oahu Metropolitan Planning Organization; Ulupono Initiative; and one individual. Your Committee received testimony in opposition to this measure from the Kauai Climate ACTION Coalition. Your Committee received comments on this measure from the Tax Foundation of Hawaii and Hawaii Electric Vehicle Association.

Your Committee finds that in the face of declining fuel tax revenue, the State and counties must find an alternative means to fund necessary road maintenance and infrastructure. Your Committee further finds that Act 222, Session Laws of Hawaii 2023, authorized the adoption of a statewide mileage-based road usage charge to be levied on electric vehicles. Your Committee believes that authorizing the counties to establish a similar mileage-based road usage charge at the county level will ensure the counties are able to provide a fair and sustainable means to fund the maintenance and repair of county roads and bridges.

Your Committee has amended this measure by:

- (1) Clarifying that only electric vehicles will be subject to the county mileage-based road usage charge;
- (2) Requiring the counties to automatically charge the owner of an electric vehicle a \$50 registration surcharge in lieu of the county mileage-based road usage charge if the owner of the electric vehicle has opted to pay the \$50 registration surcharge in lieu of the state mileage-based road usage charge;
- (3) Deleting the definition of "motor vehicles" and reverting to existing statutory language defining "motor vehicles" for the purposes of motor vehicle insurance;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Consumer Protection & Commerce, should it choose to deliberate on this measure, to consider an appropriate mechanism to provide funding to the counties to establish and implement a county mileage-based road usage charge.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3183, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3183, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1105-24 Transportation on S.B. No. 3242

The purpose of this measure is to:

- (1) Require certain departments and county transportation agencies to define, regularly identify, and address high-risk and dangerous corridors and intersections; and
- (2) Authorize the Department of Transportation and counties to reduce the maximum speed limit within one mile of a school without first conducting an engineering study.

Your Committee received testimony in support of this measure from the Department of Transportation; Oahu Metropolitan Planning Organization; Hawai'i Bicycling League; and two individuals.

Your Committee finds that regularly identifying high-risk or dangerous corridors or intersections and implementing solutions to mitigate the risk these areas pose will ensure greater safety for all users of the State's roadways.

Your Committee has amended this measure by:

- (1) Specifying that the provision requiring departments to define, regularly identify, and address high-risk and dangerous corridors and intersections is limited to the Department of Transportation;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3242, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3242, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1106-24 Culture, Arts, & International Affairs on S.B. No. 3281

The purpose of this measure is to:

- (1) Redesignate the Hawaii Museum of Natural and Cultural History as the Hawaii Museum of Natural and Indigenous History;
- (2) Require that the State of Hawaii Museum of Natural and Indigenous History and the State of Hawaii Museum of Monarchy History boards of directors each include two ex officio, nonvoting members, to be selected by each board, representing state agencies that are in direct partnership with each museum on projects that benefit the State;
- (3) Require the State of Hawaii Museum of Natural and Indigenous History to submit an annual report to the Legislature;
- (4) Establish standards and conditions that the State of Hawaii Museum of Natural and Indigenous History must meet to receive state funds; and
- (5) Appropriate funds for the renovation of Bishop Hall.

Your Committee received testimony in support of this measure from four individuals. Your Committee received testimony in opposition to this measure from eight individuals. Your Committee received comments on this measure from the Council for Native Hawaiian Advancement; Bishop Museum; Association of Hawaiian Civic Clubs; and numerous individuals.

Your Committee finds that pursuant to Act 398, Session Laws of Hawaii 1988, the Bernice Pauahi Bishop Museum was designated as the State of Hawaii Museum of Natural and Cultural History and pursuant to Act 291, Session Laws of Hawaii 2007, the Friends of Iolani Palace was designated as the State of Hawaii Museum of Monarchy History. Your Committee further finds that the intent of these designations was to provide the museums with a reliable funding source so that they would no longer be dependent on grants and private donations. Since both museums received millions of dollars in state funding in 2022, your Committee believes that there needs to be increased transparency and established standards for the operation of the museums to ensure that the museums are operated in alignment with the State's vision.

Your Committee has amended this measure by:

- (1) Retaining the existing statutory designation of the Bishop Museum as the State of Hawaii Museum of Natural and Cultural History;
- (2) Requiring the Comptroller, rather than the respective boards, to select the two ex officio, nonvoting members of the boards of directors of the Iolani Palace and Bishop Museum; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Culture, Arts, & International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3281, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3281, S.D. 2, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

SCRep. 1107-24 Higher Education & Technology on S.B. No. 2937

The purpose of this measure is to make permanent the exemption of laboratory school programs of the Hawaiian Language College at the University of Hawaii at Hilo from state English-medium standards, assessments, performance ratings, staff qualifications, and staff training requirements.

Your Committee received testimony in support of this measure from the University of Hawai'i at Hilo; Executive Office on Early Learning, Ke Kula 'O Nāwahīkalanī'ōpu'u Laboratory Public Charter School, Ke Kula 'O Nāwahīkalanī'ōpu'u Iki; Kupuna for the Mo'opuna; and numerous individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee finds that this measure would ensure the continuation of a laboratory school program, which is currently a Hawaiian-medium program, at the University of Hawaii at Hilo. Your Committee also finds that this measure is in alignment with the Early Learning Board's Road Map, which among other things, recommends the permanent exemption provided in this measure.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Higher Education & Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2937, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2937, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (M. Mizuno, Quinlan, Todd).

SCRep. 1108-24 Higher Education & Technology on S.B. No. 3191

The purpose of this measure is to permanently authorize the University of Hawaii to regulate conflicts of interest and other ethical issues for technology transfer activities sponsored by the University of Hawaii.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee finds that in 2017, the Legislature supported the University of Hawaii's efforts to promote the commercialization of inventions and discoveries generated by its faculty, students, and alumni by giving the University the responsibility to ensure that its transfer technology activities comport with the State Ethics Code. That authority is set to sunset on June 30, 2024. This measure will give the University permanent authority to ensure that its technology transfer activities continue to comply with ethics.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Higher Education & Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3191, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3191, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Quinlan, Todd).

SCRep. 1109-24 Agriculture & Food Systems on S.B. No. 3365

The purpose of this measure is to:

- (1) Require the Department of Agriculture to certify treatments performed on plant care components, which are wood chips, compost, and filter socks; and
- (2) Place certain restrictions on the distribution or transportation of plant care components without prior treatment certification from the Department of Agriculture.

Your Committee received testimony in support of this measure from the Department of Agriculture; 'Āina Design Corp.; and two individuals.

Your Committee finds that globalization has resulted in the increasing spread of invasive species, which poses a growing threat to the State and its agricultural economy and self-sufficiency. To address and mitigate that issue, this measure promotes the treatment of wood chips, compost, and filter stocks, which can harbor pests and invasives species, and restricts the movement of untreated plant care components into and throughout the State, thereby strengthening efforts to protect Hawaii's fragile environment, agricultural industry, and island communities against invasive species.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3365, S.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Lowen, Woodson, Ward).

SCRep. 1110-24 Agriculture & Food Systems on S.B. No. 3237

The purpose of this measure is to:

- (1) Require the Department of Agriculture to designate certain species as pests, and periodically update taxa designated as pests, for control or eradication and develop and implement a control or eradication program for each designated pest, under certain conditions;
- (2) Establish a Plant Nursery Licensing Program, as part of the Department of Agriculture's Biosecurity Program, to regulate the sale of nursery stock;
- (3) Prohibit the import of any material infested or infected with a pest or that is a pest unless imported under an appropriate permit or compliance agreement and amend the Department of Agriculture's authority to impose other limits on imports and transportation; and
- (4) Amend the method by which the Board of Agriculture makes and updates noxious weed designations and clarify responsibilities for the control or eradication of noxious weeds.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; one member of the Hawai'i County Council; North Shore Neighborhood Board No. 27; 'Ahahui o nā Kauka; League of Women Voters of Hawaii; Council for Native Hawaiian Advancement; Hui Hoomalu i ka Aina; HULI PAC; Sierra Club of Hawai'i; Hawai'i Land Trust; Coordinating Group on Alien Pest Species; Hawaii's Thousand Friends; Livable Hawaii Kai Hui; and numerous individuals. Your Committee received testimony in opposition to this measure from the Department of Agriculture; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and Hawai'i Floriculture and Nursery Association. Your Committee received comments on this measure from the Department of the Attorney General; Big Island Invasive Species Committee; Hawai'i Forest Industry Association; and Hawai'i Farm Bureau.

Your Committee finds that invasive species pose a threat to the State's endemic species, native ecosystems, and agriculture industry. To reduce this threat, it is necessary to implement greater measures to control and eradicate pests and noxious weeds. Your Committee further finds that it is necessary to impose greater regulations on the sale of nursery stock and imported materials that contain pests in order to reduce their impact on indigenous species and the agricultural economy.

Your Committee has amended this measure by:

- (1) Deleting language that would have authorized the invasive species committees or Hawaii Ant Lab to develop and implement control or eradication programs and to enter into private properties to control or eradicate pests;
- (2) Requiring the Department of Agriculture to consider impacts to each island in the State in developing and implementing control or eradication programs;
- (3) Establishing requirements for the entry of interstate shipments into the State;
- (4) Authorizing inspectors to conduct inspections of persons, baggage, cargo, and other articles imported into the State from additional United States territories;
- (5) Establish a civil penalty for knowingly selling plants infested or infected with a pest; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that the Department of Agriculture has indicated that it will need a capital improvement project budget for facilities statewide of approximately \$60,000,000 and staffing and operational funds of \$30,000,000 to support and implement this measure.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3237, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3237, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

SCRep. 1111-24 Agriculture & Food Systems on S.B. No. 2500

The purpose of this measure is to:

- (1) Establish a food and product innovation network within the Agribusiness Development Corporation to enable businesses to scale up new products from research and development to manufacturing and commercialization; and
- (2) Appropriate funds for the food and product innovation network, including for food and product innovation facilities across the State and to establish one full-time equivalent position.

Your Committee received testimony in support of this measure from the University of Hawai'i System; Department of Business, Economic Development, and Tourism; Department of Agriculture; Agribusiness Development Corporation; Hawai'i Forest Industry Association; Ulupono Initiative; Hawai'i Farm Bureau; Hawaii Food Industry Association; Chamber of Commerce Hawaii; and one individual.

Your Committee finds that the establishment of a food and product innovation network within the Agribusiness Development Corporation is essential to meet the State's agricultural and economic diversification goals. To establish this network, it is necessary to invest in the development of the appropriate facilities across the State to provide businesses with access to a diverse suite of manufacturing equipment and industry expertise. This measure promotes the State's agricultural industries, strengthening and diversifying the local economy.

Your Committee has amended this measure by:

- (1) Adding the Hawaii Community College Palamanui Food and Product Innovation Center as a partner member of the food and product innovation network;
- (2) Clarifying reporting requirements;
- (3) Appropriating funds for open-access food and value-added product development facilities on the islands of Kauai and Maui;
- (4) Changing the number of positions for the food and product innovation network to an unspecified number; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that one full-time equivalent (1.0 FTE) position would be required for this measure.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2500, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2500, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Lowen, Woodson, Ward).

SCRep. 1112-24 Agriculture & Food Systems on S.B. No. 572

The purpose of this measure is to:

- (1) Authorize and specify conditions under which the Department of Agriculture may declare a biosecurity emergency, during which the Department and Governor may take certain actions to prevent the establishment or spread of pests and prohibited or restricted organisms; and
- (2) Broaden the objectives and general actions of the Biosecurity Program to, among other things, require agricultural commodity importers to take certain actions to prevent the import of pests.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; Hawaii Cattlemen's Council; Hawai'i Farm Bureau; and two individuals.

Your Committee finds that invasive species pose an increasing threat to the State and its agriculture industry. Establishing and broadening the conditions under which the Department of Agriculture may declare a biosecurity emergency would facilitate more proactive and expedient mitigation of the risks posed by invasive species and their importation.

Your Committee has amended this measure by:

- (1) Removing requirements of agricultural commodity importers and incorporating some of those requirements into the Department of Agriculture's public education requirements;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes the concerns raised by the Department of Land and Natural Resources related to clarifying the role of the Hawaii Invasive Species Council in a biosecurity emergency.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 572, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 572, S.D. 2, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

SCRep. 1113-24 Education on S.B. No. 2072

The purpose of this measure is to:

- (1) Authorize the Department of Health to require the Department of Education to report on COVID-19 potential outbreaks or other public health emergencies and other related information in a manner most appropriate to public health and safety, as determined by the Department of Health;
- (2) Repeal the requirement that the report be published on a weekly basis on the Department of Education's website; and
- (3) Prohibit the Department of Health from requiring the Department of Education to provide personally identifiable information in any report pursuant to the federal Family Educational Rights and Privacy Act, except when the Department of Education has determined that a health or safety emergency exists.

Your Committee received testimony in support of this measure from the Department of Education and Department of Health. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the COVID-19 pandemic impacted the operations of schools, requiring the establishment of additional procedures and processes to ensure the safety of students and prevent spread of COVID-19. Your Committee further finds that pursuant to Act 4, Special Session Laws of Hawaii 2021, the Department of Education is required to publish a weekly report on schools that have a student, staff member, or affiliated individual who has tested positive for COVID-19.

Your Committee notes that COVID-19 testing on school campuses is no longer routinely conducted by the Department of Education, which instead uses data reported to schools by parents and legal guardians of students, making the weekly COVID-19 report an administrative burden with minimal impact. This measure will instead give the Department of Health discretion to require the Department of Education to report on COVID-19 potential outbreaks and other public health emergencies. This will ensure that the State can respond to health emergencies in schools while reducing the Department of Education's administrative workload.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2072, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2072, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Garcia).

SCRep. 1114-24 Education on S.B. No. 2257

The purpose of this measure is to authorize the Hawaii Teacher Standards Board to consider a high school diploma with education and coursework comparable to an Associate's degree as an appropriate qualification for persons who have not received an Associate's degree to teach career and technical education in public schools when developing criteria for a full career and technical education license.

Your Committee received testimony in support of this measure from the Department of Education; Hawai'i Teacher Standards Board; Pacific Resource Partnership; Hawaii Regional Council of Carpenters; and Hawai'i P-20 Partnerships for Education.

Your Committee finds that career and technical education programs allow students the opportunity to explore and learn through practical application of academic and technical skills. Your Committee notes that the existing education requirements for instructors may prohibit qualified individuals from applying to become instructors in career and technical education courses. This measure will provide the Hawaii Teacher Standards Board with more flexibility when considering whether to allow industry professionals to become licensed teachers in career and technical education courses.

Your Committee has amended this measure by changing the effective date to July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2257, S.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2257, S.D. 3, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Garcia).

SCRep. 1115-24 Education on S.B. No. 3087

The purpose of this measure is to expand access of early learning programs to other state properties and public lands besides public school campuses.

Your Committee received testimony in support of this measure from the Department of Education; Department of Human Services; Early Learning Board; Executive Office on Early Learning; Office of Hawaiian Affairs; Special Education Advisory Council; Hawai'i Children's Action Network Speaks!; Hui for Excellence in Education; Kamehameha Schools; and Early Childhood Action Strategy.

Your Committee finds that the Executive Office on Early Learning is currently authorized to administer a Pre-plus Program through public-private partnerships for children from families with low-incomes on Department of Education public school campuses. This measure would amend the name of the Pre-plus Program to the Early Learning Program, enhance availability, and improve operations of the Program by expanding early learning programs through offering potentially more cost-effective spaces on other public properties in addition to Department of Education public school campuses.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3087, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3087, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Garcia).

SCRep. 1116-24 Education on S.B. No. 3091

The purpose of this measure is to make an emergency appropriation to the Department of Education to cover the Department's food service operations.

Your Committee received testimony in support of this measure from the Department of Education; Hawaii Food Industry Association; Hawai'i Primary Care Association; and Hawai'i Food+ Policy.

Your Committee finds that the Department of Education is required to provide meal service for its students and staff and provides over twenty thousand school breakfasts and eighty thousand school lunches on a daily basis across Hawaii. Your Committee further finds that, because of inflationary cost increases, the Department of Education has accumulated a deficit of over \$20,000,000 for its food service operations. Although students and staff must pay for their meals, Title I students are provided meals free of charge. Students are also not denied a meal due to a lack of payment, all of which has contributed to this accumulated deficit. This measure seeks to make an emergency appropriation to the Department of Education to provide the funding needed to ensure continued school food service operations.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3091, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3091, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Garcia).

SCRep. 1117-24 Education on S.B. No. 3092

The purpose of this measure is to make an emergency appropriation to the Department of Education to provide funding for charter schools.

Your Committee received testimony in support of this measure from the Department of Education and Hawai'i State Teachers Association.

Your Committee finds that the Department of Education is required pursuant to Chapter 302D, Hawaii Revised Statutes, to provide proportional funding to charter schools based on their student enrollment. Your Committee notes that, although the overall enrollment for the Department of Education has gone up from the 2023 to 2024 school year, the growth rate for public charter schools has increased even faster, growing at four percent higher than projected. Your Committee notes that one factor to explain the sudden increase in public charter school enrollment is the need for temporary school options in Lahaina because of the destruction incurred by the devastating wildfires. Although charter school enrollment has increased, the amount of funding for charter schools is less than what is required. Your Committee believes that making an emergency appropriation to provide funds to the Department of Education is necessary to cover the Department's funding requirements for charter schools.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3092, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3092, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Garcia).

SCRep. 1118-24 Education on S.B. No. 3207

The purpose of this measure is to:

- (1) Repeal the annual salary cap of the Superintendent of Education; and
- (2) Make permanent the annual performance evaluation requirements for the Superintendent of Education.

Your Committee received testimony in support of this measure from the Board of Education. Your Committee received testimony in opposition to this measure from the Pursuit of Happiness Kauai; Aloha Freedom Coalition; Hi-Children's Health Defense; and numerous individuals.

Your Committee finds that the Board of Education sets the salary of the Superintendent of Education, subject to a salary cap. Your Committee further finds that Act 90, Session Laws of Hawaii 2014, amended provisions relating to the Superintendent of Education's salary to increase the salary cap and subject the Superintendent to an annual performance evaluation by the Board of Education. These provisions are scheduled to be repealed on June 30, 2024. Your Committee believes that the salary of the Superintendent of Education is best determined by the Board of Education and with the use of an annual performance evaluation. This measure will remove the salary cap, while making the annual performance evaluation requirement permanent.

Your Committee has amended this measure by changing the effective date to July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3207, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3207, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1119-24 Human Services on S.B. No. 2305

The purpose of this measure is to establish a Silver Alert Program within the Department of Law Enforcement to help locate and safeguard missing persons who are sixty-five years of age or older, cognitively impaired, or developmentally disabled.

Your Committee received testimony in support of this measure from the Department of Law Enforcement; Office of Wellness and Resilience; Executive Office on Aging; State Council on Developmental Disabilities; Office of the Prosecuting Attorney of the County of Hawai'i; Hawai'i Primary Care Association; Hawaii Medical Service Association; Alzheimer's Association-Hawaii; Catholic Charities Hawai'i; Hawaii Disability Rights Center; United Public Workers, AFSCME Local 646, AFL-CIO; Hawai'i Family Caregiver Coalition; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; International Longshore & Warehouse Union Local 142; Hawai'i Public Health Institute; AARP Hawai'i; Association of Hawaiian Civic Clubs; Easterseals Hawaii; Hawaii Teamsters & Allied Workers Local 996; Hawai'i Parkinson Association; Epilepsy Foundation of Hawaii; Papa Ola Lokahi; Chamber of Commerce Hawaii; Hawai'i Public Health Association; and numerous individuals. Your Committee received testimony in opposition to this measure from the Honolulu Police Department. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that more than half of states nationwide have established Silver Alert Programs modeled after the AMBER Alert program. Your Committee additionally finds that there are many emergency situations in which the use of a Silver Alert Program could help save the lives of those who are elderly, have cognitive impairments, or are developmentally disabled.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that during the public hearing on this measure, there was discussion about whether the minimum age to qualify for an investigation of a missing person via the Silver Alert Program proposed by this measure should be decreased to sixty years of age. Your Committee further notes that the

Department of Law Enforcement has requested an appropriation amount of \$250,000 to establish and operate the Silver Alert Program. Your Committee believes that these issues merit further consideration.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2305, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2305, S.D. 2, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

SCRep. 1120-24 Human Services/Health & Homelessness on S.B. No. 2885

The purpose of this measure is to:

- (1) Establish within the Statewide Office of Homelessness and Housing Solutions in the Department of Human Services a working group to develop a Triage Center Program that focuses on serving homeless individuals with substance abuse issues or mental illness; and
- (2) Appropriate funds to the Department of Human Services for the working group.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness; Office of Housing and Community Development of the County of Hawai'i; Partners In Care; CARES; Hawaii Substance Abuse Coalition; Aloha United Way; and two individuals. Your Committees received comments on this measure from the Department of Human Services and The Institute for Human Services, Inc.

Your Committees find that the State has one of the highest rates of homelessness in the nation. According to the 2023 Oahu Point in Time Count, homeless individuals are more likely to suffer from substance abuse problems, report a mental illness, and have one or more disabling conditions, all of which require proper medical treatment and resources that homeless individuals often lack. Your Committees believe that establishing a working group to develop a Homeless Triage and Treatment Center Program will offer many homeless individuals the opportunity to receive effective treatment.

Your Committees have amended this measure by:

- (1) Renaming the program the Homeless Triage and Treatment Center Program and clarifying the target population to be served by the program;
- (2) Requiring the costs of the Homeless Triage and Treatment Center Program to be covered by insurance whenever possible;
- (3) Adding a representative from The Institute of Human Services, Inc., to the working group;
- (4) Removing as unnecessary a reference to the State Ethics Code, as the State Ethics Commission's longstanding practice is to exclude the activities of task force members from the general provisions of the Code; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Health & Homelessness that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2885, S.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2885, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Health & Homelessness: Ayes, 8. Noes, none. Excused, none.

SCRep. 1121-24 Transportation on S.B. No. 2819

The purpose of this measure is to require a vehicle that is proceeding at less than the posted speed limit on a two-lane roadway where passing or overtaking another vehicle is not possible or permitted and behind which a line of five vehicles has formed to pull over where possible and permit the trailing vehicles to overtake.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that this measure will improve operational efficiency on Hawaii's roads and may reduce incidents of road rage.

Your Committee has amended this measure by:

- (1) Clarifying that this measure applies only to vehicles traveling at ten miles per hour or more below the posted speed limit, rather than all vehicles traveling below the speed limit; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

Your Committee respectfully requests your Committee on Judiciary & Hawaiian Affairs, should it choose to deliberate on this measure, to consider inserting language to ensure that requiring slow-moving drivers to pull to the side of the road to allow trailing vehicles to pass them will not create a scenario where the driver is legally required to take an action that would result in an unsafe situation.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2819, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2819, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

SCRep. 1122-24 Water & Land on S.B. No. 3327

The purpose of this measure is to:

- (1) Define the public trust purposes of the Commission on Water Resource Management and require the Commission, in acting upon water use permit applications, to prioritize applications for public trust purposes;
- (2) Allow the Commission to retain independent legal counsel;
- (3) Repeal the position of Deputy to the Chairperson of the Commission and establish the position of Executive Director of the Commission;
- (4) Amend the composition of the Commission and administratively attach it to the Department of Land and Natural Resources;

- (5) Authorize entities to challenge an emergency order of the Commission under certain conditions;
- (6) Establish fines for certain water use offenses; and
- (7) Amend the Commission's authority to declare water shortages and related notice requirements.

Your Committee received testimony in support of this measure from the Honolulu Board of Water Supply; Kāneʻohe Bay Regional Council; Hawaiʻi Reef and Ocean Coalition; Protect Kahoʻolawe ʻŌhana; Green Party of Hawaiʻi; Sierra Club of Hawaiʻi; Nā Alakaʻi o ka ʻĀhahui o Hawaiʻi; Koʻolaupoko Hawaiian Civic Club; Free Access Coalition; Nā Kiaʻi Kai; Save Honolulu Coalition; Aloha Lokahi Association; Lāhainā Strong; Council for Native Hawaiian Advancement; Native Hawaiian Legal Corporation; Haumana o Ke Kula Kaiapuni ʻO Kekaulike; Hui o Nā Wai ʻEhā; Earthjustice; Hawaiʻi Farmers Union United; Hui Hoomalu i ka Aina; Hawaiʻi Alliance for Progressive Action; and numerous individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources; County of Kauaʻi Department of Water; and County of Hawaiʻi Department of Water Supply.

Your Committee finds that this measure would better enable the members and staff of the Commission on Water Resource Management to implement the State Water Code in the public interest.

Your Committee has amended this measure by:

- (1) Adding provisions to allow the Commission on Water Resource Management to declare an emergency under certain circumstances, issue orders reciting the existence of the emergency, and require actions deemed necessary by the Commission to address the emergency;
- (2) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3327, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3327, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Hashem).

SCRep. 1123-24 Water & Land on S.B. No. 2143

The purpose of this measure is to appropriate monies to the Wildfire Management Branch of the Department of Land and Natural Resources' Division of Forestry and Wildlife to award grants to nonprofit organizations for wildfire preparedness and mitigation programming.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawaii State Fire Council; Maui Fire Department; Honolulu Fire Department; Hawaiʻi Forest Industry Association; Lāhainā Strong; Hawaiʻi Wildfire Management Organization; Firewise Committee of the Lanikai Neighborhood Community; Mahanalua Nui HOA; Fire Protection Subcommittee of the Kohala Ranch Community Association; Paniolo Hale Firewise USA; Maui Chamber of Commerce; and numerous individuals.

Your Committee finds that this measure provides funding for nonprofit organizations willing to engage in frontline efforts to mitigate the risk of wildfires to Hawaii's communities, including by implementing proactive measures such as fuel reduction, firebreak construction, and community outreach initiatives.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it choose to deliberate on this measure, to consider an appropriation amount of \$500,000.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2143, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2143, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Hashem).

SCRep. 1124-24 Water & Land on S.B. No. 2502

The purpose of this measure is to require the University of Hawaii to establish and implement a two-year program to develop web-GIS wildfire susceptibility and vulnerability maps for the State to determine which communities, landscapes, buildings, and infrastructure are most vulnerable to future wildfires.

Your Committee received testimony in support of this measure from the University of Hawaiʻi System; Hawaii Forest Industry Association; Democratic Party of Hawaiʻi; Lahaina Strong; and three individuals. Your Committee received comments on this measure from the Maui Chamber of Commerce and one individual.

Your Committee finds that the information provided through wildfire susceptibility and vulnerability maps would allow the prioritization of targeted risk reduction strategies in high-risk areas and assist in the development of adaptation policies that lessen the impacts of future wildfires. Your Committee further finds that these maps would also inform decisions about siting certain essential facilities, such as hospitals, schools, and fire stations, in areas that are less vulnerable to wildfires.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2502, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2502, S.D. 2, H.D. 1, and be referred to your Committee on Higher Education & Technology.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Hashem).

SCRep. 1125-24 Judiciary & Hawaiian Affairs on S.B. No. 2683

The purpose of this measure is to protect individuals who make claims of sexual misconduct from defamation lawsuits unless the claims are made with malice.

Your Committee received testimony in support of this measure from the Kapalama Neighborhood Security Watch. Your Committee received comments on this measure from the Hawai'i Civil Rights Commission.

Your Committee finds that reporting an incident of sexual assault, sexual harassment, or sex discrimination comes with fear of retaliation, such as a defamation lawsuit. This measure addresses the chilling effect that threats of lawsuits may have on survivors of sexual assault, sexual harassment, or sex discrimination by providing additional protections for the good-faith reporting of such claims.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2683, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2683, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1126-24 Judiciary & Hawaiian Affairs on S.B. No. 3109

The purpose of this measure is to give practical effect to the intent of the Legislature that funds appropriated in Act 279, Session Laws of Hawaii 2022, be available for expenditure until June 30, 2025, by lapsing previously appropriated funds and reauthorizing funds for fiscal year 2024-2025.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Department of Hawaiian Home Lands; and Department of Budget and Finance. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that Act 279, Session Laws of Hawaii 2022 (Act 279), appropriated \$600,000,000 to the Department of Hawaiian Home Lands to provide a multi-pronged approach to reducing its applicant waiting list. The intent was for these funds to be available until June 30, 2025, at which point all unencumbered funds would lapse back to the general fund. Your Committee recognizes that the Department of the Attorney General has since opined that the funds appropriated under Act 279 are only available until June 30, 2024, pursuant to the Hawaii State Constitution. This measure would ensure that the Department of Hawaiian Home Lands has another year to expend or encumber any remaining funds appropriated under Act 279.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3109, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3109, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

SCRep. 1127-24 Judiciary & Hawaiian Affairs on S.B. No. 3176

The purpose of this measure is to:

- (1) Provide deadlines for taxpayers under audit to comply with demands to produce documents and evidence; and
- (2) Require the Tax Appeal Court to preclude documents or evidence not produced pursuant to a demand from being introduced in evidence in a tax appeal or action unless the failure was due to reasonable cause.

Your Committee received testimony in support of this measure from the Department of Taxation. Your Committee received testimony in opposition to this measure from Council on State Taxation and three individuals. Your Committee received comments on this measure from Tax Foundation of Hawaii.

Your Committee finds that taxpayers are subject to criminal penalties for willfully failing to supply information to the Department of Taxation at the times required by law. However, there is no statutory deadline for taxpayers to comply with information and document requests during an audit. For this reason, many taxpayers ignore the Department's requests for information or refuse to permit the Department to examine records during an audit, opting instead to produce the records during a tax appeal, after conclusion of the audit and issuance of a final assessment. This measure establishes a specified time for taxpayers to comply with the Department's demands for information and documents during an audit.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3176, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3176, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

SCRep. 1128-24 Judiciary & Hawaiian Affairs on S.B. No. 3363

The purpose of this measure is to provide that a living beneficiary's place on the Department of Hawaiian Home Land's waiting list for any residential, agricultural, or pastoral tract may be designated for transfer to a successor if the living beneficiary dies before receiving an offer for a tract and that the successor is at least 1/32 Hawaiian.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Department of Hawaiian Home Lands and one individual.

Your Committee finds that the Hawaiian Homes Commission Act of 1920, P.L. 67-34 (HHCA), set aside two hundred thousand acres of land in trust and established trust funds for the use of the indigenous people of Hawai'i. The United States Congress intended that this Hawaiian Home Lands Trust would enable its beneficiaries to return to their land to improve and perpetuate their self-sufficiency and cultural preservation. Under the HHCA, persons having at least fifty percent Hawaiian blood are eligible for homestead leases.

Your Committee further finds that the extensive waiting list results in many beneficiaries passing away before they may be awarded a lease. This measure would allow a living beneficiary to designate a successor to the beneficiary's place on the waiting list.

Your Committee has amended this measure by:

- (1) Specifying that the successor must also meet the fifty percent Hawaiian blood threshold, rather than allow the successor to only meet a 1/32 Hawaiian blood threshold; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3363, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3363, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, 2 (Ganaden, Souza). Excused, none.

SCRep. 1129-24 Consumer Protection & Commerce on S.B. No. 2112

The purpose of this measure is to amend the definition of "installment lender" under the laws governing higher interest installment loans to clarify that traditional financial institutions retain the authority to make low-interest rate loans under the laws governing interest and usury.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that Act 56, Session Laws of Hawaii 2021 (Act 56), was enacted to provide an alternative financial product in place of payday loans, which trapped consumers in unsustainable cycles of debt through high fees. However, there is some confusion as to whether Act 56 prevents traditional financial institutions from making low-interest loans under the interest and usury law. This measure amends the definition of "installment lender" under the laws governing higher interest installment loans to clarify that traditional financial institutions retain the ability to make low-interest loans under the interest and usury law.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2112, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2112, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Belatti, Hussey-Burdick, Gates).

SCRep. 1130-24 Consumer Protection & Commerce on S.B. No. 2132

The purpose of this measure is to:

- (1) Amend the deadlines related to the repair of conditions that constitute health or safety violations and the payment of past due rent; and
- (2) Increase the amount that may be deducted from a tenant's rent for the tenant's actual expenditures to correct health or safety violations and defective conditions.

Your Committee received testimony in support of this measure from Hawai'i Children's Action Network Speaks!; Hawai'i Workers Center; and two individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Hawai'i Association of REALTORS.

Your Committee finds that the existing Residential Landlord-Tenant Code does not provide sufficient protections for tenants facing urgent repairs in their rented accommodations. This measure, by increasing the amount that may be withheld from the tenant's rent for actual expenditures, will encourage prompt maintenance and safeguard the well-being of tenants and habitability of rental units.

Your Committee has amended this measure by:

- (1) Changing the deadline related to the repair of conditions that constitute health or safety violations from ten calendar days to seven calendar days;
- (2) Deleting language that amended the deadline for a tenant to pay past due rent to be no less than ten calendar days after a notice;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2132, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2132, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

SCRep. 1131-24 Consumer Protection & Commerce on S.B. No. 2404

The purpose of this measure is to remove from the standard condominium proxy form the option of giving a proxy vote to the board of directors of a condominium association as a whole.

Your Committee received testimony in support of this measure from the Palehua Townhouse Association; Kokua Council; and eight individuals. Your Committee received testimony in opposition to this measure from the Community Associations Institute, Legislative Action Committee, Hawaii Chapter;

Mariner's Village 1; Waialae Place; The Continental Apartments; Law Offices of Mark K. McKellar, LLC; Hawaii First Realty, LLC; Honolulu Tower AOA; Chamber of Sustainable Commerce; Hawaii State Association of Parliamentarians; AOA Lakeview Sands; Pulelehua AOA; and numerous individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that under existing law, a proxy vote may be allocated to the board of directors of a condominium association as a whole. However, this existing practice may be exploited to enable existing officers of the board to continue to sit on the board. This measure removes that option from the standard proxy form.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2404, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2404, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

SCRep. 1132-24 Consumer Protection & Commerce on S.B. No. 2600

The purpose of this measure is to authorize the use of electronic mail to deliver certain documents when purchasing condominiums.

Your Committee received testimony in support of this measure from the Palehua Townhouse Association; Hawai'i Association of REALTORS; Hawaii First Realty LLC; and two individuals.

Your Committee finds that, under existing law, a developer of a condominium project is required to disclose certain documents to prospective purchasers. The disclosure may be delivered either personally, by mail, by facsimile, or by another method as authorized by the Real Estate Commission. This measure will update the statutorily approved methods of delivery to include the modern method of communication through electronic mail.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2600, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2600, H.D. 1, and be referred to your Committee on Finance.

Ayes, 8. Noes, none. Excused, 3 (Belatti, Hussey-Burdick, Gates).

SCRep. 1133-24 Consumer Protection & Commerce on S.B. No. 2959

The purpose of this measure is to establish a refundable income tax credit for travel expenses to obtain medical care.

Your Committee received testimony in support of this measure from the Disability and Communications Access Board and one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that many residents must travel long distances to receive medical care. Residents not living on Oahu are sometimes required to travel to Oahu to receive the appropriate and necessary medical care they need. In other instances, residents must travel to the continental United States to receive life-saving medical treatment. This measure will provide some financial relief to such residents by establishing a refundable income tax credit for travel expenses to obtain medical care.

Your Committee has amended this measure by:

- (1) Specifying that a failure of a resident taxpayer to file a claim constitutes a waiver of the right to claim the tax credit;
- (2) Specifying that no other income tax credit or deduction can be claimed for travel expenses incurred for medical care for the taxable year;
- (3) Deleting the unnecessary savings clause; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that written testimony submitted by the Department of Taxation noted that under federal tax law, medical care excludes cosmetic procedures, unless the procedure corrects a deformity, trauma from a personal injury, or disfiguring disease, but includes certain medical procedures that may be viewed by some health insurance plans as elective. For example, laser eye surgery, when performed to correct defective vision, is considered medical care under federal law. As this measure progresses through the legislative process, your Committee notes that further clarification may be necessary to identify the types of procedures included or excluded from the term "medical care" under this measure.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2959, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2959, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

SCRep. 1134-24 Labor & Government Operations on S.B. No. 578

The purpose of this measure is to:

- (1) Authorize the Department of the Attorney General to employ retirants of the Employees' Retirement System as investigators without re-enrolling in the Employees' Retirement System if the position is identified as a labor shortage or difficult-to-fill position;
- (2) Authorize the Department of Agriculture to employ retirants of the Employees' Retirement System for management positions excluded from collective bargaining without re-enrolling in the Employees' Retirement System if the position is identified as a labor shortage or difficult-to-fill position; and
- (3) Require the appropriate director of human resources to report the employment of those retirants to the Legislature.

Your Committee received testimony in support of this measure from the Department of the Attorney General and Department of Agriculture. Your Committee received comments on this measure from the Employees' Retirement System.

Your Committee finds that the State is facing unprecedented vacancies in state positions. The Department of the Attorney General has found it difficult to fill investigator positions. This measure would allow for qualified and experienced retirants to be rehired without having a detrimental impact on their retiree benefits under the Employees' Retirement System.

Your Committee has amended this measure by:

- (1) Deleting language that would have authorized the Department of Agriculture to hire retirants of the Employees' Retirement System for management positions excluded from collective bargaining, under certain conditions;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 578, S.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 578, S.D. 3, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

SCRep. 1135-24 Labor & Government Operations on S.B. No. 2351

The purpose of this measure is to:

- (1) Rename the "Hawaii Workforce Development Council" to the "Hawaii Workforce Development Board";
- (2) Require the Hawaii Workforce Development Board and local workforce development boards to develop written conflict of interest policies consistent with federal law and regulations;
- (3) Clarify that the Hawaii Workforce Development Board is administratively attached to the Department of Labor and Industrial Relations;
- (4) Require the Hawaii Workforce Development Board to assist the Governor in coordinating local workforce development boards to improve the workforce development system;
- (5) Repeal the requirement for the Department of Labor and Industrial Relations to submit an annual report to the Legislature on the activities of the K-12 Agriculture Workforce Development Pipeline Initiative;
- (6) Restore program identification numbers and positions for the Hawaii Workforce Development Board that were transferred to the Workforce Development Division of the Department of Labor and Industrial Relations; and
- (7) Appropriate funds for positions within the Hawaii Workforce Development Board.

Your Committee received testimony in support of this measure from IATSE Local 665 and three individuals. Your Committee received testimony in opposition to this measure from the Department of Labor and Industrial Relations.

Your Committee finds that state workforce development boards review statewide policies and programs and make recommendations to support a comprehensive and streamlined workforce development system. By conforming Hawaii's workforce development board statutes with the conflict of interest and other provisions found in the federal Workforce Innovation and Opportunity Act and other federal regulations, this measure works toward developing healthy economic growth through a strong workforce development system in the State.

Your Committee has amended this measure by:

- (1) Attaching the Hawaii Workforce Development Board to the Department of Business, Economic Development, and Tourism, rather than the Department of Labor and Industrial Relations;
- (2) Requiring the Governor to appoint the Chairperson of the Hawaii Workforce Development Board from among the business representative members;
- (3) Requiring the Director of Business, Economic Development, and Tourism to review and approve all disbursements and allocations of funds by the Hawaii Workforce Development Board;
- (4) Inserting standard boilerplate language relating to rules, policies, procedures, guidelines, other material, deeds, leases, contracts, loans, agreements, permits, and other documents applicable to the Hawaii Workforce Development Council remaining in full force and effect during the restoring and transferring of positions to the Hawaii Workforce Development Board;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Judiciary & Hawaiian Affairs, should it deliberate on this measure, to consider whether the Hawaii Workforce Development Council's program identification number should be restored.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2351, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2351, S.D. 2, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kapela, Sayama, Alcos).

SCRep. 1136-24 Labor & Government Operations on S.B. No. 2516

The purpose of this measure is to:

- (1) Rename the position of Chief Information Officer to Chief Information Officer and Deputy Comptroller;
- (2) Provide that the Chief Information Officer and Deputy Comptroller shall be appointed by and report to the Comptroller; and
- (3) Match the salary of the Chief Information Officer and Deputy Comptroller to that of the First Deputy Comptroller.

Your Committee received testimony in opposition to this measure from three individuals. Your Committee received comments on this measure from the Department of Accounting and General Services; Office of Enterprise Technology Services; and Transform Hawai'i Government.

Your Committee finds that although the Office of Enterprise Technology Services is attached to the Department of Accounting and General Services, the Chief Information Officer, who heads the Office, is appointed by and reports to the Governor, rather than the Comptroller. This measure ensures that the Chief Information Officer reports to and is appointed by the Comptroller.

Your Committee has amended this measure by:

- (1) Clarifying that centralized computer information management and processing services shall be provided through the Chief Information Officer;
- (2) Deleting language that would have renamed the Chief Information Officer to Chief Information Officer and Deputy Comptroller;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2516, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2516, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kapela, Sayama, Alcos).

SCRep. 1137-24 Health & Homelessness on S.B. No. 2556

The purpose of this measure is to permanently establish and appropriate funds for the Community Outreach Court as a division of the District Court of the First Circuit.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness; Judiciary; Department of Human Services; Department of Law Enforcement; Hawaii Substance Abuse Coalition; and one individual. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that the Community Outreach Court project was established in 2017 as a mobile justice system that travels to neighborhoods on Oahu to resolve nonviolent offenses and provides an alternative for individuals whose personal circumstances might preclude them from appearing in court in a traditional setting. Since its inception, the Community Outreach Court has addressed more than ten thousand cases, recalled more than nine hundred bench warrants, lifted more than six thousand driver license stoppers, and assisted more than six hundred participants with social services or referrals. Your Committee further finds that the success of the Community Outreach Court has inspired the municipal court in Medford, Oregon, to adopt a similar program. Your Committee believes that formally codifying the Community Outreach Court, as proposed by this measure, will provide much needed resources and funding for the Community Outreach Court and allow it to serve a larger number of homeless individuals on Oahu.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it choose to deliberate on this measure, to consider appropriating \$250,000 to the Department of Law Enforcement to support the Community Outreach Court.

As affirmed by the record of votes of the members of your Committee on Health & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2556, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2556, S.D. 2, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

SCRep. 1138-24 Health & Homelessness/Human Services on S.B. No. 3290

The purpose of this measure is to require the Disability and Communication Access Board to convene a working group to study the state of American Sign Language in Hawaii.

Your Committees received testimony in support of this measure from the Department of Human Services; Disability and Communication Access Board; Hawai'i Civil Rights Commission; Hawaii Disability Rights Center; and three individuals. Your Committees received comments on this measure from one individual.

Your Committees find that American Sign Language (ASL) interpreters provide a vital service to the State's deaf and hard of hearing residents. Your Committees further find that despite an increase in demand for ASL interpretation services, there has been an increased difficulty in recruiting individuals who can serve as ASL interpreters across the State. This measure will ensure the State's deaf and hard of hearing residents continue to receive ASL interpretation services during emergencies and daily life activities by establishing a means for the State to acquire actionable information on the current state of the ASL interpreter workforce in Hawaii.

Your Committees have amended this measure by:

- (1) Clarifying that the working group is to study the state of American Sign Language interpretation services in the State;
- (2) Removing as unnecessary a reference to the State Ethics Code, as the State Ethics Commission's longstanding practice is to exclude the activities of task force members from the general provisions of the Code;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Health & Homelessness and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3290, S.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3290, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1139-24 Energy & Environmental Protection/Higher Education & Technology on S.B. No. 2504

The purpose of this measure is to repeal part II of Act 66, Session Laws of Hawaii 2023, which requires and appropriates funds for the Department of Business, Economic Development, and Tourism to work with the University of Hawaii on workforce development activities that support the development of the Hawaii Pacific Hydrogen Hub and related aspects of the State's hydrogen energy industry.

Your Committees received testimony in support of this measure from the Hawaii State Energy Office and Environmental Caucus of the Democratic Party of Hawai'i.

Your Committees find that in October 2023, the Department of Energy's Regional Clean Hydrogen Hubs Program selected several projects across the country to receive funding to establish a regional clean hydrogen hub. Your Committees further find that part II of Act 66, Session Laws of Hawaii 2023, was enacted before those projects were selected, when Hawaii was still in the process of competing for funding through the Program, to support the State's application for the funding; however, as the State's plan was not selected for the Program, this measure repeals part II of Act 66, Session Laws of Hawaii 2023.

As affirmed by the records of votes of the members of your Committees on Energy & Environmental Protection and Higher Education & Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2504, S.D. 2, and recommend that it pass Second Reading and be referred to your Committee on Finance.

Signed by the Chairs on behalf of the Committees.

Energy & Environmental Protection: Ayes, 3. Noes, none. Excused, 4 (Gates, Kahaloa, Woodson, Ward).

SCRep. 1140-24 Energy & Environmental Protection on S.B. No. 2677

The purpose of this measure is to:

- (1) Authorize homeowners and homebuilders to submit variance applications requesting that a single-family dwelling be exempt from having a solar water heater system;
- (2) Change the requirement that a demand water heater device be approved by Underwriters Laboratories, Inc., to any nationally recognized testing laboratory for the acceptance of a variance application;
- (3) Expand potential exemptions for the requirement that all new single-family dwellings have solar water heater systems;
- (4) Require a copy of the variance application to be provided to the appropriate county authority; and
- (5) Authorize applicants to submit the variance request concurrently with the building permit application.

Your Committee received testimony in opposition to this measure from the Green Party of Hawai'i; Sierra Club of Hawai'i; Sunaru Inc. dba Solar Help Hawaii; Kauai Climate Action Coalition; Blue Planet Foundation; 350Hawaii.org; Inception Financial LLC; Green Power Projects LLC; Meyer Burger Americas; Hawaii Solar Energy Association; Greenpeace Hawaii; Hawai'i Energy; The Solaray Corporation dba Inter-Island Solar Supply; and numerous individuals. Your Committee received comments on this measure from the Hawaii State Energy Office and Hawai'i Gas.

Your Committee notes that there are concerns regarding the environmental impact that this measure would have and potential regression of benefits that the State's solar water heater policy has provided to residents and the environment.

Accordingly, your Committee has amended this measure by:

- (1) Deleting all proposed amendments except the amendment to require that a demand water heater device be approved by any nationally recognized testing laboratory, rather than just Underwriters Laboratories, Inc.;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2677, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2677, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

SCRep. 1141-24 Energy & Environmental Protection on S.B. No. 2770

The purpose of this measure is to authorize the counties to establish an opt-in program that allows an annual payment in lieu of real property taxes for land or improvements that produce or store renewable energy sold to an electric utility.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office; Department of Budget and Fiscal Services, City and County of Honolulu; Ulupono Initiative; Clearway Energy Group; Longroad Energy; Hawaiian Electric; and one individual. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that electric utilities in the State are required to achieve a one hundred percent renewable portfolio standard by December 31, 2045. Your Committee further finds that counties could assist in the transition to renewable energy through in-lieu-of-property-tax programs; however, counties lack the statutory authority to do so. Your Committee believes that this measure addresses this need and greatly reduces development risks and costs for renewable energy projects by allowing counties to enact ordinances establishing these programs in lieu of property tax assessments that may default to considerations of highest and best use.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2770, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2770, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

SCRep. 1142-24 Health & Homelessness/Human Services on S.B. No. 3139

The purpose of this measure is to:

- (1) Establish a Crisis Intervention and Diversion Services Program within the Department of Health to expand existing crisis intervention and diversion services to divert persons in crisis from the criminal justice system to the health care system; and
- (2) Appropriate funds for the Crisis Intervention Efforts and Diversion Services Program.

Your Committees received testimony in support of this measure from the Judiciary; Department of Health; Department of Law Enforcement; State Council on Mental Health; The Institute for Human Services, Inc; AlohaCare; Hawaii Medical Association; Hawai'i Psychological Association; Hawaii Substance Abuse Coalition; Opportunity Youth Action Hawai'i; Hawaii Disability Rights Center; Community Alliance on Prisons; and three individuals. Your Committees received comments on this measure from The Queen's Health System.

Your Committees find that the current safety net of programs and services that addresses individuals with mental illness and justice system involvement is neither robust enough nor sufficiently inter-connected to assure appropriate, cost-effective, timely, and efficacious interventions. This has produced a revolving door effect in health care and criminal justice where a minority of cases drains a disproportionate amount of resources unnecessarily. Facilitating earlier intervention and access to more effective treatments for persons with serious mental illness, including those who may be imminently dangerous to self or others.

Your Committees have amended this measure by:

- (1) Requiring the Department of Law Enforcement to coordinate crisis intervention training for state and county law enforcement agencies and the training and certification of crisis intervention officers;
- (2) Defining "crisis intervention officer";
- (3) Beginning July 1, 2026, authorizing a crisis intervention officer who has probable cause to believe a person is imminently dangerous to themselves or others to have that person transported to a designated behavior health crisis center for further evaluation and possible emergency hospitalization;
- (4) Including two unspecified appropriations to the Department of Law Enforcement for:
 - (A) The establishment of three crisis intervention coordinator positions; and
 - (B) The training and certification of officers in mental health first aid and the crisis intervention team model;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Health & Homelessness and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3139, S.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3139, S.D. 2, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

SCRep. 1143-24 Health & Homelessness/Human Services on S.B. No. 2285

The purpose of this measure is to:

- (1) Define "health care" for the purposes of health planning and resource development and health care cost control;
- (2) Amend the duties and functions of the State Health Planning and Development Agency; and
- (3) Establish and appropriate funds for positions within the State Health Planning and Development Agency.

Your Committees received testimony in support of this measure from the Department of Human Services; State Council on Developmental Disabilities; State Health Planning and Development Agency; Executive Office on Aging; AlohaCare; Hawai'i Primary Care Association; and AARP Hawai'i. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from Kaiser Permanente Hawai'i; Hawaii Medical Service Association; Hawai'i Pacific Health; Healthcare Association of Hawaii; and Hawaii Association of Health Plans.

Your Committees find that there is a strong need to provide unconflicted oversight of the State's health care and long-term care functions to ensure access, equity, quality of care, health outcomes, and cost-effectiveness. Your Committees note that the State Health Planning and Development Agency is uniquely suited to provide this oversight as, through the State's All-Payer Claims Database, the Agency is the statutory recipient of insurance claims data of all health care provided for beneficiaries of Medicaid, Medicare, and the Employer-Union Health Benefits Trust Fund. This measure is intended to provide the State Health Planning and Development Agency with the tools needed to collect and apply health status data to systematically improve access, equity, quality of care, outcomes, and cost-effectiveness for health and long-term care services.

Your Committees further find that the State's residents deserve universal and equitable access to affordable, high-quality health care. However, high insurance costs, low reimbursement rates to providers, health care workforce shortages, and other factors have led to poor access to care for many Hawaii residents. Your Committees believe that the establishment of a Hui Ho'omana task force to, among other tasks, assist the State Health Planning and Development Agency in the initial creation of a State Health Services, Workforce, and Facilities Plan will be an effective mechanism to outline processes and procedures that would move the State in the direction of universal access to equitable and affordable high quality health care.

Therefore, your Committees have amended this measure by:

- (1) Requiring the State Health Planning and Development Agency to coordinate activities that affect health care costs, as well as access and quality, and deleting the requirement that the State Health Planning and Development Agency provide leadership or resources for the coordination of these activities;
- (2) Deleting language requiring the State Health Planning and Development Agency to develop an annual state global budget;
- (3) Requiring the State Health Planning and Development Agency to submit the State Health Services, Workforce, and Facilities Plan no later than twenty days prior to the convening of the Regular Session of 2026 and the updated plan every four years thereafter;

- (4) Amending the permitted contents of the State Health Planning and Development Agency's reports;
- (5) Establishing a task force known as the Hui Ho'omana to assist in the development of the State Health Services, Workforce, and Facilities Plan and to make recommendations to achieve universal access and equity to quality health care at an affordable cost for the State's residents and requiring the Hui Ho'omana to submit reports to the Legislature;
- (6) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Health & Homelessness and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2285, S.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2285, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

SCRep. 1144-24 Water & Land/Housing on S.B. No. 2836

The purpose of this measure is to ensure that the State has a unified vision and approach toward the development and redevelopment of public lands on the island of Maui by establishing an Interagency Council for Maui Housing Recovery within the Department of Business, Economic Development, and Tourism to coordinate effective and efficient housing development and redevelopment of state and county lands on Maui.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands; Hawaii Housing Finance and Development Corporation; Office of Planning and Sustainable Development; Hawaii Public Housing Authority; Maui Chamber of Commerce; and one individual. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Office of the Governor and Disability and Communication Access Board.

Your Committees find that as one of the largest landowners on the island of Maui, the State must be proactive in coordinating planning and development efforts among public agencies to maximize the benefits derived from the development and redevelopment of Maui's public lands.

Your Committees have amended this measure by:

- (1) Making the Hawaiian cultural advisor on the Hawaii Interagency Council for Maui Housing Recovery a voting member;
- (2) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Water & Land and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2836, S.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2836, S.D. 2, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

SCRep. 1145-24 Water & Land/Energy & Environmental Protection on S.B. No. 2922

The purpose of this measure is to establish and implement the Catastrophic Wildfire Securitization Act to allow public utilities to securitize rates in order to raise capital that can be used to pay for costs and expenses arising out of catastrophic wildfires.

Your Committees received testimony in support of this measure from Hawaiian Electric; Clearway Energy Group; Longroad Energy; Ulupono Initiative; and International Brotherhood of Electrical Workers Local 1260. Your Committees received testimony in opposition to this measure from the Hawaii Association for Justice. Your Committees received comments on this measure from the Office of the Governor; Department of the Attorney General; Department of Commerce and Consumer Affairs; Department of Budget and Finance; Public Utilities Commission; Hawai'i State Energy Office; Kaua'i Island Utility Cooperative; Life of the Land; and Maui Chamber of Commerce.

Your Committees find that in the wake of the August 8, 2023, Maui wildfires, public utilities must raise the capital to fund near-term costs and expenses to develop and implement effective plans for wildfire risk mitigation and contribute to disaster relief funds. Your Committees further find that present uncertainty as to the financial costs that Hawaii's largest electric utility may bear as a result of the 2023 Maui wildfires has led credit rating agencies to downgrade the credit rating of that utility to non-investment-grade status, which will have severe negative impacts on ratepayers. Your Committees recognize that ratepayers cannot bear the full burden of mitigation efforts through securitization and that shareholder contributions must be a part of utility capitalization moving forward. This measure establishes a framework to authorize public utilities in the State to securitize rates to pay for expenses related to catastrophic wildfires and will provide a vital source of liquidity and preserve the public utilities' financial viability.

Your Committees have amended this measure by:

- (1) Deleting its contents and inserting certain provisions from H.B. No. 2407, House Draft 2, including those related to:
 - (A) Applications to issue bonds and authorize wildfire protection fees;
 - (B) Bond issuance and wildfire protection property interests;
 - (C) Security interests in wildfire protection property;
 - (D) Transfers of wildfire protection property; and
 - (E) Successors to electric utilities that have received a financing order;
- (2) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Water & Land and Energy & Environmental Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2922, S.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2922, S.D. 2, H.D. 1, and be referred to your Committees on Consumer Protection & Commerce and Judiciary & Hawaiian Affairs.

SCRep. 1146-24 Housing on S.B. No. 3332

The purpose of this measure is to:

- (1) Extend the notice for summary possession proceedings from five days to fifteen days for failure to pay rent;
- (2) Require landlords to provide notice to mediation centers;
- (3) Require landlords to enter into mediation if scheduled by a tenant, which will delay when a landlord may file an action for summary possession except in cases where a tenant cancels the mediation or does not appear;
- (4) Restrict when landlord remedies are available depending on the amount of rent due;
- (5) Appropriate funds for the Judiciary to contract for mediation services; and
- (6) Establish and appropriate funds for an Emergency Rent Relief Program.

Your Committee received testimony in support of this measure from the Hawai'i State Judiciary Center for Alternative Dispute Resolution; Hawaii Public Housing Authority; Hawaii Appleseed Center for Law & Economic Justice; The Mediation Center of the Pacific, Inc.; Aloha United Way; Catholic Charities Hawai'i; Hawai'i State Coalition Against Domestic Violence; Hawai'i Children's Action Network Speaks!; Hawai'i Housing Affordability Coalition; Partners In Care; Hawai'i Health & Harm Reduction Center; Ku'ikahi Mediation Center; and numerous individuals. Your Committee received comments on this measure from the Department of the Attorney General; Department of Human Services; and Hawai'i Association of REALTORS.

Your Committee finds that many people in the State continue to face challenges paying their rent due to the ever-increasing costs of housing. Your Committee further finds that the Maui wildfires have exacerbated these challenges with the loss of lives and damage to residential and commercial properties. While individuals and families in Maui are currently protected from being evicted by the Governor's eviction moratorium, your Committee notes that this protection will not last forever. Your Committee believes that the State must ensure that those who suffered from the Maui wildfires continue to have a safe place to live.

Your Committee further notes that a substantially similar bill, House Bill No. 2642, H.D. 2 (Regular Session of 2024), is currently moving through the legislative process and was previously passed by the House. That measure better addresses the issue of reducing evictions by establishing a pre-litigation mediation program throughout the State, rather than just for counties affected by wildfires, as proposed by this measure. However, your Committee acknowledges the importance of ensuring that those affected by the Maui wildfires are duly protected against evictions after the expiration of certain emergency proclamations.

While your Committee acknowledges the important role an Emergency Rent Relief Program would have in providing financial assistance to further prevent evictions, your Committee finds that, due to current budget priorities, there is a lack of available funds for such a rent relief program this fiscal year.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language relating to pre-litigation mediation procedures and notice requirements, except for language that establishes a tiered time frame for when landlords are authorized to bring an action for summary possession after the expiration of the final eviction moratorium;
- (2) Deleting language that would have established and appropriated funds for an Emergency Rent Relief Program; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3332, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3332, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

SCRep. 1147-24 Housing on S.B. No. 2044

The purpose of this measure is to:

- (1) Specify that the transfer or acquisition of a controlling interest in an entity that owns real property in the State is subject to the conveyance tax; and
- (2) Require an unspecified amount of conveyance tax revenue to be deposited into the Dwelling Unit Revolving Fund.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Office of Planning and Sustainable Development; Hawaii Housing Finance and Development Corporation; Partners In Care; Land Use Research Foundation of Hawaii; Hawaii Appleseed Center for Law & Economic Justice; and one individual. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS; NAIOP Hawaii; Grassroot Institute of Hawaii; and one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that existing conveyance tax laws inadvertently enable parties, who are typically large investors and corporate entities, to avoid paying conveyance tax by transferring real property through entity-level transactions. Your Committee further finds that instead of conveying the real property directly, one party acquires the entity that owns the real property from another party, thereby avoiding the conveyance tax. This measure will close a loophole in existing conveyance tax laws to ensure that the State receives its fair share of tax revenue from certain entities.

Your Committee notes the concerns raised in testimony by the Department of Taxation regarding the difficulty of identifying and verifying when transfers of controlling interest occur, as records from entity transfers are not publicly available or reported to the Bureau of Conveyances. Your Committee respectfully requests your Committee on Consumer Protection & Commerce, should it deliberate on this measure, to work with pertinent state agencies to establish a reporting procedure that addresses the concerns of the Department of Taxation to ensure this measure is enforceable.

Your Committee has amended this measure by:

- (1) Repealing the dollar cap amounts of conveyance tax collections paid into the Land Conservation Fund and Rental Housing Revolving Fund;
- (2) Specifying that ten percent of conveyance tax collections are to be paid into the Dwelling Unit Revolving Fund for purposes of funding infrastructure programs in transit-oriented development areas;

- (3) Changing the effective date to January 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2044, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2044, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

SCRep. 1148-24 Energy & Environmental Protection/Water & Land on S.B. No. 2322

The purpose of this measure is to require and appropriate funds for the Department of Health to continue water testing during brown water advisories, with certain exceptions.

Your Committees received testimony in support of this measure from the Surfrider Foundation, Hawai'i Region; WAI: Wastewater Alternatives & Innovations; Hawaii Lifeguard Hui; Polanui Hui; Hui O He'e Nalu; Kihei Community Association; Windward Coalition for Community Concerns; Waiwai Ola Waterkeepers Hawaiian Islands; Kaiola Canoe Club; Friends of Hanauma Bay; Mālama Maunaloa; Sierra Club of Hawai'i; Earthjustice; Center for Biological Diversity; West Maui Preservation Association; Maui Tomorrow Foundation; The Makali'i Group; Friends of Maha'ulepu; Kia'i Wai O Wai'ale'ale'; HAMER; Young Progressives Demanding Action Hawai'i; Hawai'i Wildlife Fund; HI Strikes Back; Surfrider Foundation, O'ahu Chapter; and five individuals. Your Committees received comments on this measure from the Department of Health.

Your Committees find that testing water quality during brown water advisories ensures that the public has access to necessary information regarding the safety of the State's waters. This measure requires the continued testing of water quality of Tier 1 beaches during brown water advisories, with certain exceptions.

Your Committees have amended this measure by:

- (1) Narrowing the requirements to sampling of Tier 1 beaches;
- (2) Adding a condition that supplies and staff must be available for sample collection and analysis;
- (3) Deleting the appropriation;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committees recommend the insertion of an effective date of July 1, 2025, prior to the adoption of this measure in final form.

As affirmed by the records of votes of the members of your Committees on Energy & Environmental Protection and Water & Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2322, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. SCRep. 1149-24 Energy & Environmental Protection/Water & Land on S.B. No. 2997

The purpose of this measure is to require each electric utility to have a risk-based wildfire protection plan that is filed with and approved by the Public Utilities Commission.

Your Committees received testimony in support of this measure from the Kaua'i Island Utility Cooperative; Ulupono Initiative; Hawaiian Electric; and International Brotherhood of Electrical Workers Local 1260. Your Committees received testimony in opposition to this measure from Life of the Land. Your Committees received comments on this measure from the Office of the Governor; Department of Commerce and Consumer Affairs; Hawaii State Energy Office; Public Utilities Commission; Hawaii Association for Justice; and Maui Chamber of Commerce.

Your Committees find that the risk of wildfires in the State is increasing as a result of climate change and that preventive measures are necessary to mitigate this risk. This measure would require each electric utility to have a risk-based wildfire protection plan.

Your Committees have amended this measure by:

- (1) Requiring electric utilities to operate in compliance with an approved risk-based wildfire protection plan;
- (2) Adding further specifications for the basis of and inputs to the mandatory risk-based wildfire protection plans; procedures for their evaluation, approval, and update; penalties for failure of an electric utility to comply with an approved plan; and other details;
- (3) Authorizing the Public Utilities Commission to convene workshops to assist electric utilities in developing and sharing information for the identification, adoption, and implementation of best practices regarding wildfires;
- (4) Requiring public utilities to report wildfires potentially caused by or occurring in connection with their operations or service and requiring the Public Utilities Commission to investigate the causes of certain wildfires;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Energy & Environmental Protection and Water & Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2997, S.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. SCRep. 1150-24 Energy & Environmental Protection/Water & Land on S.B. No. 2513

The purpose of this measure is to establish and appropriate funds for a three-year New Wastewater System Demonstration Pilot Program within the University of Hawaii Sea Grant College Program.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Department of Hawaiian Home Lands; WAI: Wastewater Alternatives & Innovations; Hawai'i Reef and Ocean Coalition; Coral Reef Alliance; SCHHA Molokai Mokupuni; and six individuals. Your Committees received comments on this measure from the Department of Health.

Your Committees find that cesspools are a threat to the health of the State's residents and environment. Your Committees further find that there are approximately eighty-two thousand cesspools that will need to be upgraded, converted, or connected by 2050. This measure encourages the review and implementation of new technologies in wastewater management that could be critical for diverting sewage at scale.

Your Committees have amended this measure by:

- (1) Changing the name of the program to the Wastewater System and Individual Wastewater System Technology Demonstration and Implementation Pilot Program;
- (2) Changing the entity that the Program is established under to the University of Hawaii Water Resources Research Center and making the Center responsible for reporting requirements;
- (3) Changing the effective date to July 1, 3000 to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committees respectfully request your Committee on Finance, should it deliberate on this measure, to consider the following appropriation amounts:

- (1) \$89,500 per fiscal year to establish one full-time equivalent (1.0 FTE) Engineer V (SR-26) position; and
- (2) \$82,700 per fiscal year to establish one full-time equivalent (1.0 FTE) Engineer IV (SR-24) position.

As affirmed by the records of votes of the members of your Committees on Energy & Environmental Protection and Water & Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2513, S.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. SCRep. 1151-24 Energy & Environmental Protection/Water & Land on S.B. No. 3285

The purpose of this measure is to prohibit the Public Utilities Commission from approving the sale of a public utility, in whole or in part, to a private entity unless the public utility demonstrates that it solicited competitive offers for purchase from entities that operate under a non-investor-owned utilities ownership model, and notes whether or not non-investor-owned entities submitted acceptable bids.

Your Committees received testimony in opposition to this measure from Life of the Land. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs; Public Utilities Commission; Hawaiian Electric; Ulupono Initiative; and Hawai'i Gas.

Your Committees find that the State should encourage diversity of public utility ownership and ensure that offers from entities operating under non-investor-owned models are considered when a public utility is being sold. This measure would prohibit the Public Utilities Commission from approving the sale of a public utility to a private entity unless the public utility demonstrates that it solicited competitive offers from non-investor-owned entities.

Your Committees have amended this measure by:

- (1) Clarifying that the application of this measure is notwithstanding certain provisions of existing law relating to certificates of public convenience and necessity;
- (2) Limiting the application of this measure to only a gas utility or electric utility, rather than all public utilities;
- (3) Authorizing the Public Utilities Commission to establish a process for consideration of alternative bids in the event of a sale of a gas utility or electric utility;
- (4) Defining "non-investor-owned-utilities ownership model", rather than "investor-owned utilities ownership model";
- (5) Specifying that the appointment by the Public Utilities Commission of a receiver when there is an imminent threat of the utility failing applies to all public utilities, rather than just regulated water utilities or regulated sewer utilities;
- (6) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Energy & Environmental Protection and Water & Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3285, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. SCRep. 1152-24 Energy & Environmental Protection/Water & Land on S.B. No. 2518

The purpose of this measure is to appropriate funds to the Hawaii Technology Development Corporation for geothermal energy exploration, provided that the exploration efforts include surface and subsurface exploration.

Your Committees received testimony in support of this measure from the Hawaii Technology Development Corporation; Chamber of Commerce Hawaii; Ulupono Initiative; Hawaiian Electric; Blue Planet Foundation; Innovations Development Group, Inc.; Indigenous Consultants, LLC; and four individuals. Your Committees received testimony in opposition to this measure from two individuals. Your Committees received comments on this measure from the Hawaii State Energy Office and two individuals.

Your Committees find that geothermal energy was identified as a near-term and mid-term decarbonization opportunity in the Hawaii State Energy Office's Hawai'i Pathways to Decarbonization Report and can help the State meet its renewable energy goals. This measure establishes and appropriates funds to identify locations and characteristics of geothermal resources in the State.

Your Committees have amended this measure by:

- (1) Requiring the Hawaii State Energy Office to conduct a statewide environmental assessment for, and subsequently administer, a geothermal resources characterization program under the direction of the Hawaii Groundwater and Geothermal Resources Center of the University of Hawaii;
- (2) Updating the purpose of the appropriation and expending agency accordingly;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Energy & Environmental Protection and Water & Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2518, S.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. SCRep. 1153-24 Health & Homelessness on S.B. No. 2605

The purpose of this measure is to, beginning January 1, 2025, require health insurers, mutual benefit societies, health maintenance organizations, and health benefits plans under the Hawaii Employer-Union Health Benefits Trust Fund to provide health insurance coverage for various sexual and reproductive health care services.

Your Committee received testimony in support of this measure from the Hawaii Medical Service Association; Planned Parenthood Alliance Advocates - Hawai'i; Hawaii Medical Association; American Civil Liberties Union of Hawai'i; Hawai'i State Democratic Women's Caucus; American Association of University Women of Hawaii; Indivisible Hawaii Healthcare Team; Save Medicaid Hawaii; Essential Access Health; Legislative Committee of the Hawaii Academy of Family Physicians; Stonewall Caucus of the Democratic Party of Hawai'i; and numerous individuals. Your Committee received testimony in opposition to this measure from numerous individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Hawaii Association of Health Plans.

Your Committee finds that access to sexual and reproductive health care is critical for the health and economic security of the people of Hawaii. Your Committee further finds that while many sexual and reproductive benefits are mandated by the Patient Protection and Affordable Care Act of 2010 (Affordable Care Act), recent lawsuits and certain actions taken by the federal government have threatened or restricted access to these services. Your Committee believes that codifying these services, particularly the cost-sharing requirements mandated by the Affordable Care Act, will ensure Hawaii's residents do not lose access to no-cost preventive services such as birth control, well-person exams, and life-saving cancer screenings.

Your Committee notes that there is concern that statutorily mandating the inclusion of coverage for plans governed by the Prepaid Health Care Act may jeopardize the federal exemption of the Prepaid Health Care Act from the provisions of the federal Employee Retirement Income Security Act of 1974.

Your Committee has amended this measure by:

- (1) Deleting from the required sexual and reproductive health care services:
 - (A) Abortion; and
 - (B) Pre-exposure prophylaxis, post-exposure prophylaxis, and human papillomavirus vaccination;
- (2) Requiring the Insurance Commissioner to submit a report to the Legislature regarding compliance with the mandatory coverage proposed by this measure prior to the Regular Session of 2027;
- (3) Establishing a Reproductive Health Care Working Group to:
 - (A) Examine barriers and gaps for reproductive health care leading to health inequity in the State;
 - (B) Identify state laws, rules, or administrative practices that are barriers to the provision of effective reproductive health care; and
 - (C) Submit reports to the Legislature before the Regular Sessions of 2025 and 2026;
- (4) Making the health insurance coverage in this measure apply to all plans, policies, contracts, or agreements entered into on or after January 1, 2026;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Consumer Protection & Commerce, should it deliberate on this measure, to:

- (1) Review whether any of the sexual and reproductive health care services identified in this measure is not covered by the Hawaii Essential Health Benefits Benchmark Plan that sets the requirements for essential health benefits as required by the Affordable Care Act, Hawaii Medical Service Association's Preferred Provider Plan of 2010, as of January 2014, and the State's existing Prevalent Plan as approved under the requirements of the Prepaid Health Care Act; and
- (2) Inquire into the methods payments are made by the employer of selected plans and identify the processes for individuals to access additional insurance and make payments for services that may not be covered by their employer's offered health care insurance plan.

As affirmed by the record of votes of the members of your Committee on Health & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2605, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2605, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

SCRep. 1154-24 Health & Homelessness on S.B. No. 2837

The purpose of this measure is to transfer the Maui State Veterans Home to the Oahu Regional Health Care System or another state agency.

Your Committee received testimony in support of this measure from the Department of Defense; Hawaii Health Systems Corporation; Hawaii Health Systems Corporation – Oahu Region; Hawaii National Guard Enlisted Association; Hawaii American Legion; and three individuals. Your Committee received testimony in opposition to this measure from the Hawaii Government Employees Association, AFSCME Local 153, AFL-CIO.

Your Committee finds that the Department of Defense is currently in the process of constructing a state veterans home on the island of Maui to provide long-term care services to Maui's veteran community. However, the Department of Defense lacks the medical expertise to oversee the continued operation of a long-term care facility. Your Committee believes that the Oahu Regional Health Care System is an appropriate entity with the expertise to manage a long-term care facility and has the capability to temporarily manage the proposed state veterans home on Maui as the Maui Regional Health Care System prepares to permanently manage the state veterans home.

Accordingly, your Committee has amended this measure by:

- (1) Temporarily authorizing the Oahu Regional Health Care System to oversee the operations and management agreement of the Maui State Veterans Home, rather than transferring the Maui State Veterans Home to the Oahu Regional Health Care System or another state agency;
- (2) Requiring the Maui Regional Health Care System to secure ownership of the land of the Maui State Veterans Home;
- (3) Transferring permanent ownership and oversight of the operations and management agreement for the Maui State Veterans Home from the Oahu Regional Health Care System to the Maui Regional Health Care System by June 30, 2028;
- (4) Requiring the Maui Regional Health Care System to submit annual reports to the Legislature on its progress to facilitate the Regional System's ability to exercise permanent ownership and oversight of the operations and management agreement;
- (5) Requiring the Department of Defense, Maui Regional Health Care System, and Oahu Regional Health Care System to submit joint reports to the Legislature on the progress of the Maui State Veterans Home prior to the Home's transfer from the Oahu Regional Health Care System to the Maui Regional Health Care System;
- (6) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2837, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2837, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

SCRep. 1155-24 Health & Homelessness on S.B. No. 3128

The purpose of this measure is to:

- (1) Repeal the transfer of the Oahu Regional Health Care System in its entirety from the Hawaii Health Systems Corporation to the Department of Health; and
- (2) Require the Oahu Regional Health Care System to enter into an agreement with the Department of Health regarding the Oahu Regional Health Care System taking care of low acuity patients in the Department's custody by the end of 2024.

Your Committee received testimony in support of this measure from the Department of Health; Hawaii Health Systems Corporation Corporate Board of Directors; Hawaii Health Systems Corporation - Oahu Region; and one individual.

Your Committee finds that Act 212, Session Laws of Hawaii 2021, required the transfer of the Oahu Regional Health Care System (Oahu Region) to the Department of Health from the Hawaii Health Systems Corporation. However, there is growing concern that this transfer has become financially unfeasible and will provide no net gain in services for the community. Your Committee believes that the transfer of the Oahu Region to the Department of Health is a worthwhile endeavor and the transition process should continue while possible alternatives for the use of the Leahi Hospital campus and Maluhia are considered.

Accordingly, your Committee has amended this measure by:

- (1) Deleting provisions repealing the transfer of the Oahu Region from the Hawaii Health Systems Corporation to the Department of Health and inserting language extending the transfer of the Oahu Region to December 31, 2026;
- (2) Requiring the working group established by Act 212, Session Laws of Hawaii 2021, to submit a report to the Legislature prior to the Regular Session of 2026;
- (3) Requiring the Oahu Region to submit a report to the Legislature prior to the Regular Session of 2026;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3128, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3128, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

SCRep. 1156-24 Tourism on S.B. No. 3006

The purpose of this measure is to:

- (1) Exempt the Convention Center from certain requirements regarding concessions on public property;
- (2) Authorize the Hawaii Tourism Authority to sell or lease naming rights of the convention center facility; and
- (3) Facilitate advertising and marketing in and on the convention center facility.

Your Committee received testimony in support of this measure from the Hawai'i Tourism Authority and Hawai'i Lodging & Tourism Association. Your Committee received testimony in opposition to this measure from UNITE HERE Local 5 and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that many prestigious venues across the nation have sold naming rights, which for the Convention Center is valued at up to \$500,000 in the first year, escalating to a twenty-year agreement value of over \$13,000,000. This measure opens up additional possibilities for funding to address the Center's repair and maintenance needs.

Your Committee notes the concerns of the Department of Budget and Finance noting that the federal Internal Revenue Code prohibits certain private-use activities, including naming rights and other advertising, in facilities financed by tax-exempt general obligations bonds, and the potential that this measure may not be compliant with the Internal Revenue Code, thereby jeopardizing the State's ability to maintain its tax-exempt status for bonds used to finance the Convention Center. Your Committee will continue to work with the Department so as to not jeopardize the State's tax-exempt status for bonds used to finance the Convention Center.

Your Committee has amended this measure by:

- (1) Specifying that authorized advertising that is exempt from outdoor advertising prohibitions at the Convention Center is to be inside the Center; of the same size, illumination, and color; and in the same location as the existing "Hawaii Convention Center" sign, rather than any outdoor advertising device in or on the convention center;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3006, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3006, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1157-24 Tourism on S.B. No. 2659

The purpose of this measure is to:

- (1) Incorporate a regenerative tourism framework into the Hawaii State Planning Act by expanding objectives and policies for the tourism industry;
- (2) Require the Hawaii Tourism Authority to prepare and periodically update the Tourism Functional Plan to include the updated tourism economic goals, Hawaii Tourism Authority's strategic plan, and Hawaii 2050 Sustainability Plan; and
- (3) Require an updated Tourism Functional Plan to be submitted to the Legislature.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Hawai'i Tourism Authority; Office of Planning and Sustainable Development; Fair Wind Cruises; and Maui Chamber of Commerce.

Your Committee finds that over-tourism has taken a toll on the State's natural resources. Your Committee further finds that regenerative tourism is an approach that focuses on creating positive social, environmental, and economic impacts on destination management. This holistic approach to tourism prioritizes sustainable development, community engagement, and responsible consumption. Your Committee believes that regenerative tourism represents an opportunity for the State to redevelop the tourism industry in a manner that is beneficial to visitors and residents alike.

Your Committee notes that the last Tourism Functional Plan was published in 1991. Your Committee believes that all the State's functional plans, including the Tourism Functional Plan, should be periodically updated to ensure that all the plans reflect the current needs of the State. As this measure moves through the legislative process, your Committee will continue to work with the Office of Planning and Sustainable Development to establish a periodic update of all the State's functional plans.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2659, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2659, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1158-24 Tourism on S.B. No. 2406

The purpose of this measure is to:

- (1) Require contracts entered into by the Hawaii Tourism Authority for management of the Convention Center facility to include marketing for all uses of the facility; and
- (2) Amend the reporting frequency for contracts and agreements entered into by the Authority.

Your Committee received testimony in opposition to this measure from the Hawai'i Visitors & Convention Bureau; Hawai'i Hotel Alliance; MC&A, Inc.; and The Kahala Hotel & Resort. Your Committee received comments on this measure from the Hawai'i Tourism Authority.

Your Committee finds that existing law allows the Hawaii Tourism Authority to enter into separate contracts for the marketing of all uses of the Convention Center and for the management, use, operation, or maintenance of the Center. Your Committee believes that it would be more efficient and a better use of taxpayer dollars to consolidate contracts relating to the Hawaii Convention Center to ensure its proper management.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2406, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2406, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1159-24 Judiciary & Hawaiian Affairs/Agriculture & Food Systems on S.B. No. 2461

The purpose of this measure is to:

- (1) Provide that medical cannabis dispensaries may purchase cannabis and manufactured cannabis products from other dispensaries without any showing that the purchase is:
 - (A) Necessary for a qualifying patient's continuous access for medical use; or
 - (B) For medical, scientific, or other legitimate purposes; and
- (2) Require the Department of Health to adopt rules no later than nine months after a medical cannabis product is statutorily permitted to be manufactured and distributed.

Your Committees received testimony in support of this measure from the Hawaii Cannabis Industry Association and Cure Oahu. Your Committees received testimony in opposition to this measure from the Department of Health Office of Medical Cannabis Control and Regulation. Your Committees received comments on this measure from Akamai Cannabis Consulting.

Your Committees find that, despite recent legislative attempts to allow the wholesale of medical cannabis between medical cannabis dispensaries, wholesale currently occurs on an emergency basis with an under thirty days request and approval process, or on a proof of need basis requiring over thirty days request and approval process. Your Committees further find that the existing rules also provide the Department of Health with full discretion to reject requests with no specific timeline to respond. This limited approach impairs dispensaries' ability to do future planning, share manufacturing capabilities, or specialize in equipment or products without facing significant risk of potential wholesale request rejections. Wholesale expands patient access to a variety of formulations, products, and strains without sacrificing safety and consistency, and should be more widely supported. This measure provides greater flexibility to dispensaries to purchase cannabis and medical cannabis products from other dispensaries to ensure patient access and mitigate the effects of business fluctuations.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Judiciary & Hawaiian Affairs and Agriculture & Food Systems that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2461, S.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. SCRep. 1160-24 Judiciary & Hawaiian Affairs/Agriculture & Food Systems on S.B. No. 3335

The purpose of this measure is to:

- (1) Enact the Hawaii Cannabis Law to:
 - (A) Provide a legal safe harbor from state or county criminal prosecution concerning activities relating to cannabis for those who strictly comply with the provisions of the law;
 - (B) Establish the Hawaii Hemp and Cannabis Authority as an independent body with the power to administratively regulate all aspects of the cannabis plant;
 - (C) Legalize the sale and possession of cannabis for non-medical adult use beginning January 1, 2026;
 - (D) Provide economic opportunities to disproportionately impacted areas;
 - (E) Encourage those currently engaging in illegal, unlicensed commercial cannabis activities to enter the legal market;
 - (F) Ensure that state and county law enforcement agencies work closely with the Hawaii Hemp and Cannabis Authority and vigorously investigate and prosecute illegal cannabis activities that fall outside any safe harbor protection; and
 - (G) Mandate that the Hawaii Hemp and Cannabis Authority make the protection of public health and safety its highest priorities;
- (2) Establish taxes for adult-use cannabis and medical use cannabis sales;
- (3) Amend or repeal existing laws relating to cannabis, including medical cannabis and hemp;
- (4) Transfer the personnel and assets of the Department of Health and assets of the Department of Agriculture relating to cannabis and hemp to the Hawaii Hemp and Cannabis Authority; and
- (5) Establish positions and appropriate funds.

Your Committees received testimony in support of this measure from one member of the Kaua'i County Council; Hawaii Cannabis Industry Association; Big Island Grown; Hawaii Cannabis Industry Solutions; Techmana LLC; Pakalolo for the People; Noa Botanicals; Hawaiian Ethos; The Hawai'i Cannabis THC Ministry; National Organization for the Reform of Marijuana Laws; Green Aloha Ltd.; Cultivation Sector Consulting, LLC; Spectra Analytical Laboratory; Cure Oahu; United Food and Commercial Workers Local 480; Hawaiian Kingdom Task Force; Cannabis Society of Hawai'i; and numerous individuals.

Your Committees received testimony in opposition to this measure from the Hawaii High Intensity Drug Trafficking Area; Hawaii Paroling Authority; one member of the Kaua'i County Council; one member of the Honolulu City Council; Department of the Prosecuting Attorney of the City and County of Honolulu; Honolulu Police Department; Hawaii Police Department; Maui Police Department; Kauai Police Department; Department of the Prosecuting Attorney of the County of Maui; Kauai Complex Area Principals; Kohala Elementary School; Honokaa High and Intermediate School; Hawaii Family Forum; Coalition for a

Drug-Free Hawaii; Retail Merchants of Hawaii; Hawaii Federation for Republican Women; Weed and Seed Hawaii, Inc.; Smart Approaches to Marijuana; One Impact Hawaii; HOPE HI; Hawaii Substance Abuse Coalition; ABC Stores; and numerous individuals.

Your Committees received comments on this measure from the Department of the Attorney General; Department of Taxation; Department of Law Enforcement; Department of Health; Department of Human Resources Development; Department of Budget and Finance; Department of Commerce and Consumer Affairs; Office of Collective Bargaining; Office of Information Practices; Department of Education; Department of Agriculture; Hawaii State Council on Developmental Disabilities; Office of the Prosecuting Attorney of the County of Kaua'i; Ala Moana-Kakaako Neighborhood Board No. 11; American Cancer Society Cancer Action Network; Drug Policy Forum of Hawai'i; American Civil Liberties Union of Hawai'i; Tax Foundation of Hawaii; Marijuana Policy Project; Greenwave Advisors LLC; Doctors for Drug Policy Reform; Akamai Cannabis Consulting; Care Waialua LLC; Last Prisoner Project; Healthcare Association of Hawaii; Chamber of Sustainable Commerce; Law Enforcement Action Partnership; Catholic Charities Hawai'i; Council for Native Hawaiian Advancement; Hawai'i Public Health Institute; Hawai'i Youth Services Network; Democratic Party of Hawai'i; Reason Foundation; Hawaii Appleseed Center for Law and Economic Justice; Hawai'i Alliance for Cannabis Reform; Hawaii Children's Action Network Speaks!; Hawai'i Afterschool Alliance; American Academy of Pediatrics, Hawai'i Chapter; Hawaii Credit Union League; Malie Cannabis Clinic; and numerous individuals.

Your Committees find that over the past decade, there has been a growing movement across the nation to legalize cannabis, also known as marijuana, for recreational use. As of February 2024, twenty-three states, two territories, and the District of Columbia have legalized small amounts of cannabis for adult recreational use.

Your Committees further find that in late 2022 President Biden directed the Secretary of Health and Human Services and the United States Attorney General to review how marijuana is scheduled under federal law. Marijuana is currently classified as a Schedule I controlled substance, alongside heroin and LSD, but ahead of fentanyl and methamphetamine. Your Committees recognize that the descheduling of marijuana at the federal level may be imminent, thus it is important for the State to have regulations in place.

Your Committees also find that cannabis use is already fairly prevalent in Hawaii. In 2021, approximately 14.9 percent of individuals aged twelve or older in Hawaii reported marijuana use in the past year. By allowing cannabis to be cultivated and processed by legitimate businesses, the State can establish quality control and labeling standards to protect cannabis users.

Your Committees additionally find that allowing the State to regulate and tax the sale of cannabis will undercut the illegal drug trade in Hawaii and redirect revenue from drug trafficking organizations to the State where it can be used for public safety and substance abuse prevention, treatment, and education.

Your Committees have amended this measure by:

- (1) Allowing a caregiver to administer a cannabis product that is not smoked to a medical cannabis patient under the age of twenty-one on school grounds and in a vehicle;
- (2) Clarifying that colleges and universities may authorize the possession or use of cannabis or cannabis accessories by adults on their property, and explicitly allowing the medical use or personal use of cannabis by faculty members and students while in faculty or student housing;
- (3) Clarifying that a landlord shall not prohibit the possession of cannabis or the consumption of cannabis that is not inhaled unless a tenant is renting a room or rooms in only a portion of a residence, where the rest of the residence is rented to other people or occupied by the landlord;
- (4) Requiring one member on the Cannabis and Hemp Control Board to have expertise in Hawaii's agricultural community;
- (5) Deleting language that would have allowed the Executive Director of the Hawaii Cannabis and Hemp Authority to demand and be granted access to the books, papers, and records of close associates of any licensed business whom the Authority suspects are involved in the financing, operation, or management of the licensed business;
- (6) Clarifying when the Hawaii Cannabis and Hemp Authority may not refuse to employ or deny employment to an applicant or terminate or refuse to secure the services of any contractor or subcontractor due to a previous conviction;
- (7) Deleting language regarding the requirements for the transportation of adult-use cannabis;
- (8) Clarifying certain protections for persons who consume adult use cannabis;
- (9) Replacing language referring to cannabis paraphernalia with the defined term cannabis accessories;
- (10) Consolidating provisions related to the unlawful sale of cannabis to a person under the age of twenty-one and changing the offense to a misdemeanor;
- (11) Amending the scope of the social equity program and public health and education grant program;
- (12) Amending the traffic violations related to marijuana and marijuana concentrate;
- (13) Amending the offense of promoting a detrimental drug in the third degree; and
- (14) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Judiciary & Hawaiian Affairs and Agriculture & Food Systems that are attached to this report, your Committees are in accord with the intent and purpose of S.B. SCRep. 1161-24 Higher Education & Technology on S.B. No. 2287

The purpose of this measure is to require the Information Technology Steering Committee to assist the Chief Information Officer in developing a plan to enhance the hawaii.gov mobile application to increase resident and visitor usage of the mobile application.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services.

Your Committee finds that this measure would allow the Chief Information Officer to receive assistance from the Information Technology Steering Committee in developing a plan to enhance the mobile application developed by the State for the public to access the State's website.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Higher Education & Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. SCRep. 1162-24 Education/Health & Homelessness on S.B. No. 2476

The purpose of this measure is to permit licensed dental hygienists to perform preventative dental sealant screenings and apply dental sealants on individuals, under certain conditions, as part of a Department of Education school-based oral health program.

Your Committees received testimony in support of this measure from the Department of Education; Department of Health; Nancy Atmospera-Walch School of Nursing at the University of Hawaii at Manoa; Disability and Communication Access Board; Board of Dentistry; Hawai'i Oral Health Coalition; Save Medicaid Hawaii; Hawaii Medical Service Association; AlohaCare; Hawaii Dental Service; Hawaii Dental Association; Hawai'i Children's Action Network Speaks!; Hawaii Dental Hygienists' Association; and numerous individuals.

Your Committees find that most states are not providing enough resources to help individuals prevent tooth decay, which can increase health care costs for many families. Your Committees further find that school-based dental sealant programs provide sealants to children least likely to receive them otherwise. Studies have shown that tooth decay of molars dropped an average of sixty percent up to five years after sealant application as part of a school program. Sealants also prevent decay at one-third the expense of filling a cavity. Your Committees believe that allowing licensed dental hygienists to perform preventative dental sealant screenings and apply dental sealants on individuals through a school-based oral health program is a proactive step that will help prevent tooth decay for Hawaii's children.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 3000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Education and Health & Homelessness that are attached to this report, your Committees are in accord with the intent and purpose of S.B. SCRep. 1163-24 Judiciary & Hawaiian Affairs on S.B. No. 2640

The purpose of this measure is to amend the Hawaiian Homes Commission Act to authorize the Department of Hawaiian Home Lands to provide cash awards to beneficiaries to purchase a residential lot outside of Department's trust lands, or to pay the beneficiary's existing mortgage note or rent, in lieu of awarding the beneficiary a lease.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Department of the Attorney General and Department of Hawaiian Home Lands.

Your Committee finds that the Department of Hawaiian Home Lands does not have sufficient land to provide housing for the approximately twenty-eight thousand native Hawaiian beneficiaries on its waiting list. This measure would provide an alternative path for beneficiaries to obtain or maintain permanent housing.

Your Committee has amended this measure by:

- (1) Amending the authorized uses of the Hawaiian Home Loan Fund to be additionally used for cash award payments;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2640, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2640, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1164-24 Labor & Government Operations on S.B. No. 2718

The purpose of this measure is to allow the Hawaii Labor Relations Board to admit and consider hearsay evidence.

Your Committee received testimony in support of this measure from the Hawai'i Labor Relations Board.

Your Committee finds that the Hawaii Labor Relations Board oversees collective bargaining, unfair labor practices, and contests involving citations or orders of the Director of Labor and Industrial Relations regarding the State's occupational safety and health laws. However, under existing law, the Hawaii Labor Relations Board is prohibited from considering hearsay evidence, meaning its unable to consider all evidence presented in its deliberations and assign the evidence the proper weight. Therefore, this measure permits the Hawaii Labor Relations Board to admit and consider hearsay evidence in its proceedings and ensures fair hearings for all parties involved.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2718, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2718, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

SCRep. 1165-24 Labor & Government Operations on S.B. No. 2553

The purpose of this measure is to:

- (1) Clarify the definition of "covered employer" in the Hawaii Retirement Savings Act; and
- (2) Amend and align provisions of the Hawaii Retirement Savings Program to require automatic enrollment unless the employee opts out.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Hawai'i Retirement Savings Board; Executive Office on Aging; AARP Hawai'i; and seven individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Retail Merchants of Hawaii.

Your Committee finds that many individuals do not have access to an employer-sponsored retirement plan and are at significant risk of not having enough retirement income to meet basic expenses during retirement. Providing private sector employees with access to employer-sponsored retirement plans, unless they opt out, is a reliable way to improve employees' financial security and promote savings needed for a secure retirement.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2553, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2553, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Kapela, Sayama, Alcos).

SCRep. 1166-24 Labor & Government Operations on S.B. No. 2288

The purpose of this measure is to:

- (1) Require that travel reports submitted by state employees, officers, or other representatives of state departments or agencies, in connection with out-of-state or intra-state travel for purposes of official state business, be made available for public review on the Comptroller's website, subject to certain exceptions; and
- (2) Appropriate funds to provide digital and searchable public access to the travel reports of state employees, officers, and other representatives of the State for travel that is related to official state business.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; and Department of Accounting and General Services. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that out-of-state and intra-state travel information by state employees, officers, or other representatives is difficult to acquire, as there is no accessible, searchable database to find out how often state officials use taxpayer-funded travel and how much it costs. The reporting requirements in this measure seek to promote open government, transparency, and accountability by improving access to travel data.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2288, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2288, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Kapela, Sayama, Alcos).

SCRep. 1167-24 Labor & Government Operations on S.B. No. 3070

The purpose of this measure is to lower the Employees' Retirement System's funding period to amortize the System's total unfunded accrued liability from thirty years to twenty years.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Employees' Retirement System Board of Trustees. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the funding period in which the Employees' Retirement System is expected to be fully funded has steadily decreased from the forecasted thirty years in fiscal year 2015-2016 to twenty-four years in fiscal year 2021-2022. This measure amends the maximum funding period to amortize the total unfunded accrued liability of the Employees' Retirement System to start at twenty-five years and lower by one year each year thereafter until reaching twenty years, which will strengthen the Employees' Retirement System over the long term without impacting the expected path toward full-funding or current contribution rates.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3070, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3070, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Kapela, Sayama, Alcos).

SCRep. 1168-24 Labor & Government Operations on S.B. No. 2652

The purpose of this measure is to expand items that may be contained in the state budget to include information related to vacant positions for reclassification or abolishment.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that there are thousands of vacant positions within state government and that these vacancies negatively impact the availability and quality of customer service provided to the public. While the Director of Human Resources Development is required to submit a report to the Legislature before reclassifying and abolishing vacant positions within state departments and agencies that are under the jurisdiction of the Department, more timely data on the State's vacancies would further assist the Legislature in addressing the high number of vacancies in state government.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2652, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2652, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kapela, Sayama, Alcos).

SCRep. 1169-24 Labor & Government Operations on S.B. No. 2787

The purpose of this measure is to:

- (1) Establish an Immigration Services and Access Unit within the Office of Community Services to promote immigrant economic self-sufficiency, community inclusion, and integration; and
- (2) Appropriate funds for the Immigration Services and Access Unit, including for new positions.

Your Committee received testimony in support of this measure from the Department of Human Services; Office of Language Access; Office of Community Services; Hawai'i Alliance for Progressive Action; World Education Services; The Legal Clinic; Roots Reborn; Hawai'i Coalition for Immigrant Rights; Hawai'i Friends of Civil Rights; Pacific Gateway Center; Hawai'i Children's Action Network Speaks!; Kaibigan ng Lahaina; and nine individuals. Your Committee received testimony in opposition to this measure from the Hawaii Federation of Republican Women.

Your Committee finds that while immigrants comprise a significant percentage of the State's population, there is a lack of broad-based, dedicated services for recent immigrants to help them with language access, employment searches, access to health care, and other challenges and opportunities. This measure provides support for the Office of Community Services to fulfill its full legislative mandate to serve the immigrant population through immigration services and programs.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2787, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2787, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kapela, Sayama, Alcos).

SCRep. 1170-24 Labor & Government Operations on S.B. No. 2715

The purpose of this measure is to make it unlawful for an employer to discharge, discipline, or otherwise penalize or threaten any adverse employment action against an employee because the employee declines to attend or participate in an employer-sponsored meeting that communicates the opinion of the employer about political matters, or declines to receive or listen to a communication from the employer that communicates the opinion of the employer about political matters.

Your Committee received testimony in support of this measure from the Hawaii State AFL-CIO; International Union of Painters and Allied Trades, District Council 50; International Longshore & Warehouse Union Local 142; and numerous individuals. Your Committee received testimony in opposition to this measure from the Maui Chamber of Commerce. Your Committee received comments on this measure from NFIB, Hawaii Chapter; and Society of Human Resource Management Hawaii.

Your Committee finds that political coercion in the workplace is a growing problem affecting workers from all backgrounds and across the political spectrum. Because many workers can be terminated at any time, some employers may try to exercise vast authority over employees' lives, including their political activities or freedom of association. This measure ensures that employees are provided protections if they choose to not attend employer-sponsored meetings that communicate the opinion of the employer about political matters.

Your Committee has amended this measure by:

- (1) Adding a definition for "political matters";
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2715, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2715, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

SCRep. 1171-24 Culture, Arts, & International Affairs/Corrections, Military, & Veterans on S.B. No. 2731

The purpose of this measure is to authorize the issuance of special number plates to honor veterans of the Iraq and Afghanistan wars.

Your Committees received testimony in support of this measure from the Hawaii Military Affairs Council and two individuals.

Your Committees find that Hawaii special number plates are already available for veterans of certain wars and conflicts. Your Committees further find that creating a special number plate for veterans of the Iraq and Afghanistan wars honors and expresses gratitude for their service in protecting the State and nation.

Your Committees have amended this measure by changing its effective date to July 1, 3000, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Culture, Arts, & International Affairs and Corrections, Military, & Veterans that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2731, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2731, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1172-24 Culture, Arts, & International Affairs on S.B. No. 116

The purpose of this measure is to authorize the issuance of special number plates to commemorate Duke Kahanamoku.

Your Committee received testimony in support of this measure from the Ikaika Hawai'i Watermans Academy; Hawaiian Lifeguard Association; Hoemana; Outrigger Duke Kahanamoku Foundation; and numerous individuals.

Your Committee finds that Duke Kahanamoku is one of the first internationally recognized Native Hawaiians, known for his contributions as an all-around waterman, a lifeguard and lifesaver, a record-setting swimmer, a five-time Olympic medalist, and Hawaii's original ambassador of aloha. Your Committee therefore finds it appropriate to honor Duke Kahanamoku with a special license plate emblazoned with his name, promoting his legacy of aloha.

Your Committee further finds that Hawaii has the second-highest drowning rate in the nation for residents and that drowning is the leading cause of death in Hawaii for keiki ages one to fifteen. The issuance of special number plates as proposed by this measure would not only honor Duke Kahanamoku and recognize his legacy of aloha but also generate funds for programs that promote water safety and swim education.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Culture, Arts, & International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 116, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 116, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Matayoshi, Sayama).

SCRep. 1173-24 Culture, Arts, & International Affairs on S.B. No. 541

The purpose of this measure is to designate January 17 of each year as Reconciliation Day to commemorate the memory of Queen Liliuokalani and the illegal overthrow of the Kingdom of Hawaii.

Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies and one individual.

Your Committee finds that on January 17, 1893, the Hawaiian monarchy and its sovereign monarch, Queen Liliuokalani, were illegally overthrown. Your Committee believes that it is necessary to recognize and remember this historic date to ensure that future generations are aware of the injustices faced by the Hawaiian people.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Culture, Arts, & International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 541, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 541, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1174-24 Culture, Arts, & International Affairs on S.B. No. 2841

The purpose of this measure is to designate May 15 of each year as Water Safety Day.

Your Committee received testimony in support of this measure from the Pool & Hot Tub Alliance; Hawai'i Children's Action Network Speaks!; Hoemana; Hawaiian Lifeguard Association; Outrigger Duke Kahanamoku Foundation; Hawai'i Children's Action Network Speaks!; and numerous individuals.

Your Committee finds that between 2018 and 2022, drowning was the leading cause of death for children one to seventeen years of age in Hawaii. Your Committee further find that drowning is a very preventable source of injury or death. Therefore, your Committee finds it beneficial to designate a Water Safety Day each year to spread awareness of drowning and educate youth in becoming safer in and around the water.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Culture, Arts, & International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2841, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2841, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

SCRep. 1175-24 Human Services/Health & Homelessness on S.B. No. 3279

The purpose of this measure is to:

- (1) Establish the State of Well-Being Project and a timeline for the project to:
 - (A) Assess current tiers of mental health support services; and
 - (B) Enhance existing well-being programming and, when non-existent, build out culturally grounded and community-informed well-being programming to establish mental health support services for key stakeholder communities across the State; and
- (2) Appropriate funds for mental health specialist positions within the Office of Wellness and Resilience.

Your Committees received testimony in support of this measure from the Executive Office on Early Learning; Office of Wellness and Resilience; CARES; Hawai'i Youth Services Network; Catholic Charities Hawai'i; Hawai'i Children's Action Network Speaks!; Maui Chamber of Commerce; Elected Officials to Protect America Code Blue Water Solutions; and five individuals.

Your Committees find that current research on health reveals that mental illness is one of the most pressing challenges humanity is facing today. Your Committees further find that untreated mental illness not only negatively affects the individual struggling with mental health issues but also leads to negative statewide outcomes, including increased unemployment, homelessness, domestic violence, violent crime, and school dropout rates. Your Committees believe that establishing a State of Well-Being Project that provides a tiered approach to address statewide mental health concerns would be of great benefit to the State and those individuals in need of mental health support services.

Your Committees have amended this measure by:

- (1) Clarifying the meaning of and differences between tier 1 and tier 2 mental health support; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Health & Homelessness that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3279, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3279, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1176-24 Health & Homelessness on S.B. No. 2529

The purpose of this measure is to amend the definition of "patient's provider" to allow licensed physicians, advanced practice registered nurses, and physician assistants to sign Provider Orders for Life-Sustaining Treatment for their patients without a face-to-face encounter.

Your Committee received testimony in support of this measure from the Department of Health; State Health Planning and Development Agency; Kaiser Permanente Hawai'i; Hawaii Medical Service Association; AlohaCare Hawaii Association of Health Plans; Healthcare Association of Hawaii; Kōkua Mau; Hospice Hawaii, Inc. dba Navian Hawaii; Hawai'i Care Choices; and nine individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Provider Orders for Life-Sustaining Treatment (POLST) are portable medical orders intended for persons with a chronic debilitating illness or life-limiting disease that provide instructions for the patient's care plan out of a hospital, including the patient's instructions for the provision of resuscitative or life-sustaining measures. Your Committee further finds that language in existing law for POLST forms can be interpreted as requiring a face-to-face encounter between a health care provider and a patient before the POLST form can be signed by the provider. This requirement can result in patients receiving unwanted treatment if a POLST with the most current directions is not in place. This measure aligns Hawaii's POLST law with other states and is intended to reduce unnecessary delays for patients seeking to obtain or update a POLST, while also maintaining appropriate safeguards for patient safety.

As affirmed by the record of votes of the members of your Committee on Health & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2529, S.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Consumer Protection & Commerce and Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 1 (Nishimoto).

SCRep. 1177-24 Judiciary & Hawaiian Affairs on S.B. No. 2017

The purpose of this measure is to require defendants convicted of causing the death of a parent or legal guardian of a minor child or adult dependent child with disabilities by the operation of a vehicle in a negligent manner while under the influence of drugs or alcohol to provide restitution in the form of financial support to each surviving child of the victim.

Your Committee received testimony in support of this measure from the Department of Transportation; Mothers Against Drunk Driving Hawaii; and five individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments on this measure from the Department of Corrections and Rehabilitation.

Your Committee finds that this measure will deter drivers from driving under the influence and support minors through financial hardship that accompanies the loss of a parent or legal guardian.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2017, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2017, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Ayes, 9. Noes, 1 (Ganaden). Excused, none.

SCRep. 1178-24 Judiciary & Hawaiian Affairs on S.B. No. 2216

The purpose of this measure is to amend the manner in which the State Ethics Commission provides advice and conducts investigations.

Your Committee received testimony in support of this measure from the Hawai'i State Ethics Commission.

Your Committee finds that the dynamic nature of the ethical landscape within public service necessitates a continuous evolution of the State's ethics framework. Your Committee believes that a critical element of a strong ethical framework is the capacity to offer prompt advice. This measure enhances the clarity of the advice-seeking process by offering public officials a confidential channel for requesting advice and receiving written summaries.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2216, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2216, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 1179-24 Judiciary & Hawaiian Affairs on S.B. No. 2217

The purpose of this measure is to:

- (1) Establish a phased process for adjusting the reporting period for gift disclosures filed with the State Ethics Commission to conform with the state fiscal year; and
- (2) Provide for the electronic filing of statements required by the State Ethics Commission.

Your Committee received testimony in support of this measure from the Hawai'i State Ethics Commission.

Your Committee finds that the reporting periods for legislators and state employees to disclose gifts to the State Ethics Commission do not line up with the State's fiscal year, which begins on July 1 and ends on June 30 of the next year. Your Committee further finds that existing law regarding statements required to be filed with the State Ethics Commission does not provide for statements to be filed electronically, which would streamline the process and make it easier to submit statements. This measure will align gift reporting requirements with the State's fiscal year and promote efficiency and effectiveness in the administration and enforcement of the State Ethics Code and lobbyist laws.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2217, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2217, H.D. 1, and be referred to your Committee on Finance.

Ayes, 10. Noes, none. Excused, none.

SCRep. 1180-24 Judiciary & Hawaiian Affairs on S.B. No. 2405

The purpose of this measure is to authorize campaign funds to be used for a candidate's child care and vital household dependent care costs under certain conditions.

Your Committee received testimony in support of this measure from the Campaign Spending Commission; Common Cause Hawaii; Hawaii State Democratic Women's Caucus; Vote Mama Foundation; American Association of University Women of Hawaii; and four individuals.

Your Committee finds that the Federal Election Commission and thirty-one states have already authorized the use of campaign funds for child care expenses. This measure would allow Hawaii to improve access to democracy by enabling parents and caregivers to campaign for public office.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2405, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2405, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

SCRep. 1181-24 Judiciary & Hawaiian Affairs on S.B. No. 2439

The purpose of this measure is to:

- (1) Extend the statute of limitations for civil actions brought by adults subjected to sexual offenses for a four-year period;
- (2) Allow a claim to be brought against legal entities during the four-year period if there is a finding of gross negligence; and

(3) Authorize a court to award attorney's fees to a defendant when an accusation of sexual abuse was made with no basis in fact and with malicious intent.

Your Committee received testimony in support of this measure from the Stonewall Caucus of the Democratic Party of Hawai'i; Hawaii Association for Justice; Rainbow Family 808; and six individuals. Your Committee received comments on this measure from the Department of the Attorney General and RAINN.

Your Committee finds that victims of sexual abuse may face certain obstacles when filing a civil action against their abusers. However, your Committee recognizes that allowing civil actions to be filed for sexual abuse that occurred decades ago may present various challenges related to evidence and witness availability that may prejudice respondents. This measure attempts to strike a balance between allowing victims of sexual abuse to seek recourse through the judicial system and protecting the right of persons to defend themselves in civil actions.

Your Committee has amended this measure by:

- (1) Incorporating its provisions into the existing law regarding civil actions arising from sexual offenses;
- (2) Shortening the period under which an adult victim of sexual abuse may file a claim to one year commencing on July 1, 2024, and limiting claims to sexual abuse that occurred after June 30, 2014;
- (3) Inserting a sunset date of July 1, 2025;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2439, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2439, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1182-24 Judiciary & Hawaiian Affairs on S.B. No. 2591

The purpose of this measure is to impose a fine of \$1,000 on any private landowner who fails to disclose and record with the Bureau of Conveyances the existence of burial or archaeological sites on their property that the landowner knew or should have known of.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Department of Land and Natural Resources; Malama Makua; and one individual.

Your Committee finds that the presence of a burial or archaeological site on a property may affect the use of the property. Therefore, it is important that prospective buyers are made aware of any burial or archaeological sites on the property before the completion of a real estate transaction. Disclosing and recording burial and archaeological sites will also make it easier to plan for and protect these sites from damage.

Your Committee has amended this measure by:

- (1) Clarifying that a court of competent jurisdiction is responsible for imposing the fine on private landowners;
- (2) Requiring the fine to also be imposed on private landowners who fail to disclose the burial or archaeological sites in the documents used to offer the real property for sale;
- (3) Requiring the fines to be deposited into the Hawaii Historic Preservation Special Fund;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2591, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2591, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 1183-24 Judiciary & Hawaiian Affairs on S.B. No. 2601

The purpose of this measure is to:

- (1) Extend the time period by which a civil action for childhood sexual abuse may be initiated; and
- (2) Allow a court to order the personnel of a legal entity against whom a claim is brought to undergo training on trauma-informed response to allegations of sexual abuse.

Your Committee received testimony in support of this measure from the Stonewall Caucus of the Democratic Party of Hawai'i; Rainbow Family 808; Democratic Party of Hawai'i; Hawai'i Public Health Institute; Sex Abuse Treatment Center; Hawaii Association for Justice; Hawai'i Children's Action Network Speaks!; Imua Alliance; Hawai'i State Coalition Against Domestic Violence; and numerous individuals. Your Committee received testimony in opposition to this measure from the Church State Council. Your Committee received comments on this measure from the Department of the Attorney General and Hawaii Insurers Council.

Your Committee finds that survivors of childhood sexual abuse often do not divulge the truth of their abuse until adulthood, with some survivors delaying disclosure for fifty years or more. This measure will provide victims of childhood sexual abuse a better opportunity to seek justice.

Your Committee has amended this measure by:

- (1) Clarifying the time period by which a civil action for childhood sexual abuse may be initiated based on when the sexual abuse occurred;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2601, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2601, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 1184-24 Judiciary & Hawaiian Affairs on S.B. No. 3009

The purpose of this measure is to:

- (1) Specify the responsibilities of the Department of Law Enforcement's Sheriff Division regarding judicial and legislative security; and
- (2) Require the Sheriff Division to pursue, obtain, and maintain accreditation from the Commission on Accreditation for Law Enforcement Agencies, Inc.

Your Committee received testimony in support of this measure from the Judiciary; Hawaii State Trial Judges Association; and one individual. Your Committee received comments on this measure from the Department of Law Enforcement.

Your Committee finds that due to the nature of judicial and legislative work there is an escalating problem of threats and safety risks faced by these public agencies and their employees by some members of the public who have negative reactions to government decisions or actions. This measure promotes a coordinated effort between the executive, judicial, and legislative branches of government to provide the security resources necessary to ensure that governance and essential functions continue in the event of an emergency.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3009, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3009, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 1185-24 Judiciary & Hawaiian Affairs on S.B. No. 3243

The purpose of this measure is to:

- (1) Prohibit foreign entities and foreign-influenced business entities from making contributions, expenditures, electioneering communications, or donations for election purposes;
- (2) Require every business entity that contributes or makes an expenditure to a state election to file a statement of certification regarding its limited foreign influence; and
- (3) Require noncandidate committees making only independent expenditures to obtain a statement of certification from each top contributor required to be listed in an advertisement.

Your Committee received testimony in support of this measure from the Campaign Spending Commission; League of Women Voters of Hawaii; International Longshore & Warehouse Union Local 142; Free Speech For People; and four individuals.

Your Committee finds that the State has a compelling interest in securing its democratic self-governance from foreign influence. This measure will protect the integrity of Hawaii's elections and boost public trust in elected representatives.

Your Committee has amended this measure by:

- (1) Amending the preamble;
- (2) Deleting language related to foreign-influenced business entities;
- (3) Changing the effective date to January 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3243, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3243, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Ganaden, Kong, Souza). Noes, none. Excused, none.

SCRep. 1186-24 Judiciary & Hawaiian Affairs on S.B. No. 2758

The purpose of this measure is to authorize civil claims to be made against a business, an owner of a business, or an operator of a business that profits from sexual exploitation or sex trafficking.

Your Committee received testimony in support of this measure from Rainbow Family 808; Imua Alliance; and two individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that this measure will provide victims of sexual exploitation or sex trafficking with an avenue for recourse and hold businesses that profit from sex trafficking accountable.

Your Committee has amended this measure by:

- (1) Amending the statute of limitations to:
 - (A) Require that a claim be brought within ten years after an act of coercion into sexual exploitation or an act of sex trafficking; and
 - (B) Maintain the existing tolling provisions that were set to be repealed;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and

(3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2758, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2758, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 1187-24 Agriculture & Food Systems on S.B. No. 1590

The purpose of this measure is to:

- (1) Require the Department of Agriculture to assess the steps necessary for the State to supplement federal authority to perform meat inspections within the State;
- (2) Require the Department of Agriculture to assess the steps necessary to transfer full authority over meat inspections from the federal government to the State; and
- (3) Appropriate funds to establish inspector positions within the Department of Agriculture to conduct meat inspections.

Your Committee received testimony in support of this measure from the Department of Agriculture; Land Use Research Foundation of Hawaii; Hawaii Cattlemen's Council; Ulupono Initiative; Maui County Farm Bureau; Hawai'i Farm Bureau; and one individual. Your Committee received testimony in opposition to this measure from Animal Rights Hawai'i.

Your Committee finds that it is essential to inspect livestock in order to ensure that consumers are accessing safe meat products. Your Committee further finds that the State has been dependent on the United States Department of Agriculture Food Safety Inspection Service for its meat inspection services since the mid-1990s. Your Committee believes that this measure would help restore the State's capacity and provide another option for meat inspection services for local poultry and livestock.

Your Committee has amended this measure by:

- (1) Changing the number of positions for meat inspection to an unspecified number;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that the Department of Agriculture is requesting three full-time equivalent inspector positions to conduct meat inspections and one full-time equivalent Meat Inspection Supervisor position.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1590, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1590, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Lowen, Woodson, Ward).

SCRep. 1188-24 Agriculture & Food Systems on S.B. No. 2079

The purpose of this measure is to allow the State of Hawaii Plant and Animal Declaration Form to be distributed, completed, and transmitted electronically.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor; Department of Business, Economic Development, and Tourism; Department of Agriculture; Hawai'i Farm Bureau; and one individual.

Your Committee finds that the State of Hawaii Plant and Animal Declaration Form provides an opportunity for travelers to the State to declare items that may be harboring harmful pests so that they may be intercepted and inspected for pests and other prohibited items. Your Committee further finds that an electronic version of this form may be more efficiently distributed, completed, and transmitted, thereby encouraging compliance and more accurate reporting of items for inspection and resulting in greater biosecurity.

Your Committee has amended this measure by:

- (1) Clarifying that the defacing of any declaration form, regardless of whether it is paper or electronic, shall constitute a violation;
- (2) Clarifying the timing of submission for paper and electronic forms;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2079, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2079, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Lowen, Woodson, Ward).

SCRep. 1189-24 Agriculture & Food Systems on S.B. No. 2329

The purpose of this measure is to appropriate funds for mullet production for fishponds and stock enhancement in the State, including for new positions, equipment, maintenance, and operating costs for restorative aquaculture projects.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; Office of the Mayor of the County of Maui; Kua'āina Ulu 'Auamo; Marine Science Learning Center at Wai'anae High School; Sierra Club of Hawai'i; Hawai'i Pacific University Oceanic Institute; Hawai'i Alliance for Progressive Action; Hulu Mamo Hawaiian Civic Club; Association of Hawaiian Civic Clubs; Green Party of Hawai'i; Kauai Climate Action Coalition; Paepae o He'eia; Hawaii Aquaculture and Aquaponics Association; and numerous individuals.

Your Committee finds that native fish hatcheries contribute to food security, cultural preservation, and education and collaboration by supporting fishponds and aquaculture. Your Committee further finds that to promote aquaculture and the operation and restoration of fishponds, it is essential to equip fish hatcheries with proper resources, including personnel, equipment, maintenance, and operating costs.

Your Committee has amended this measure by:

- (1) Changing the number of Aquatic Biologist V positions, Aquatic Biologist IV positions, Fishery Technician V positions, and Fishery Technician IV positions to unspecified numbers;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee recommends the establishment of two full-time equivalent Aquatic Biologist V positions, two full-time equivalent Aquatic Biologist IV positions, three full-time equivalent Fishery Technician V positions, and one full-time equivalent Fishery Technician IV position to effectuate the purposes of this measure.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2329, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2329, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Lowen, Woodson, Ward).

SCRep. 1190-24 Agriculture & Food Systems on S.B. No. 2401

The purpose of this measure is to appropriate funds to:

- (1) Each county as a grant-in-aid for the implementation of feral chicken control programs; and
- (2) The Department of Health for a feeding of feral animals education campaign.

Your Committee received testimony in support of this measure from the Department of Health; Department of Agriculture; Department of Customer Services of the City and County of Honolulu; Hawai'i Farm Bureau; and two individuals. Your Committee received comments on this measure from the Hawaiian Humane Society.

Your Committee finds that feral chickens are known to be a nuisance in Hawaii's suburban and residential communities. Your Committee further finds that controlling these feral populations via a feral chicken control program and education campaign would best serve the environment, human health, and these animals.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion, and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2401, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2401, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Lowen, Woodson, Ward).

SCRep. 1191-24 Agriculture & Food Systems on S.B. No. 2413

The purpose of this measure is to require the Board of Agriculture to submit a report to the Legislature on the percentages of agricultural lands being leased by the State that are suitable for farming and actively being used for farming purposes and certain dollar amounts relating to lease transfers between lessees.

Your Committee received testimony in support of this measure from Hawai'i Food+ Policy; Hawaii Cattlemen's Council; Hawai'i Farm Bureau; and one individual. Your Committee received testimony in opposition to this measure from the Department of Agriculture.

Your Committee finds that it is important that the State effectively identify and actively use agricultural lands for farming. Your Committee further finds that this measure and resultant report would provide useful information to ensure that leased agricultural lands are being used for their intended purposes and supporting the State's agricultural industry.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2413, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2413, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Lowen, Woodson, Ward).

SCRep. 1192-24 Agriculture & Food Systems on S.B. No. 2419

The purpose of this measure is to appropriate funds for the Biosecurity Program of the Department of Agriculture to develop and implement projects for clean plant material, agricultural treatments, diagnostics, and pest management.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; Office of Hawaiian Affairs; Land Use Research Foundation of Hawaii; Hawaii Cattlemen's Council; Larry Jefts Farms, LLC; Ulupono Initiative; Hawaii Floriculture and Nursery Association; Maui County Farm Bureau; Hawai'i Farm Bureau; Hawaii Crop Improvement Association; Hawai'i Food+ Policy; and two individuals.

Your Committee finds that invasive species pose an increasing risk to the State's agricultural industry and environmental health and the quality of life of its residents and visitors. Your Committee further finds that this measure would bolster the Department of Agriculture's efforts to mitigate and control risks associated with the importation and spread of invasive species.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2419, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2419, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Lowen, Woodson, Ward).

SCRep. 1193-24 Agriculture & Food Systems on S.B. No. 3025

The purpose of this measure is to:

- (1) Make imposition of the fine penalty applicable to any violation of the commercial hemp production licensure requirement as well as restrictions on growing and transporting hemp;
- (2) Repeal the requirement for the adoption of additional rules by the Department of Agriculture to address nuisance issues, including smell, noise, and excessive lighting, arising out of the activities of hemp growers; and
- (3) Clarify that the Department of Agriculture shall not require inspections or sampling of hemp that duplicates inspections and sampling required by the United States Department of Agriculture.

Your Committee received testimony in support of this measure from the Department of Agriculture.

Your Committee finds that existing law requires the Department of Agriculture to create additional rules that address nuisance issues resulting from hemp production, despite the fact that regulations already exist under Department of Health rules and county land use ordinances. Existing law also prohibits the State from imposing penalties on licensed hemp producers for certain violations, such as the illegal use of pesticides or hemp production within buffer zones. Your Committee further finds that this measure would reduce the duplication and confusion arising from the existence of two separate regulatory authorities and strengthen the State's ability to enforce laws and regulations involving hemp production.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3025, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3025, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Lowen, Woodson, Ward).

SCRep. 1194-24 Agriculture & Food Systems on S.B. No. 3329

The purpose of this measure is to require the disclosure of any little fire ant infestation as part of any sale of residential real property.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS. Your Committee received comments on this measure from the Department of Agriculture and Hawaii Pest Control Association.

Your Committee finds that invasive species are a serious threat to the State and that little fire ants are among the most concerning to homeowners, as little fire ants may measurably affect homeowners' quality of life and the value of their real property if offered for sale. Your Committee finds that the existence of a little fire ant infestation is a material fact that should be disclosed to a potential buyer of residential real property and along with specific details on any treatment for the infestation to enable the buyer to make a well-informed decision.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes the Hawai'i Association of REALTORS' testimony that known pest infestations, including little fire ant infestations, are already included among the material facts required to be disclosed by sellers of residential real property and that the existing *Seller's Real Property Disclosure Statement* form asks a seller for the information proposed by this measure.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3329, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3329, S.D. 1, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Lowen, Woodson, Ward).

SCRep. 1195-24 Agriculture & Food Systems on S.B. No. 3361

The purpose of this measure is to include oilseed cover crops in the Cover Crop Reimbursement Pilot Program.

Your Committee received testimony in support of this measure from the Department of Agriculture; Biotechnology Innovation Organization; Pacific Biodiesel; Hawai'i Farm Bureau; and one individual.

Your Committee finds that cover crops are known to increase pollinator health and biodiversity, improve soil health, and decrease soil erosion. The Cover Crop Reimbursement Pilot Program, established in 2022, reimburses farming operations for the costs of acquiring cover crop seeds, green manure, and compost. Your Committee finds that oilseed crops, such as camelina, carinata, pennycress, and sunflower, could also be used as cover crops and to locally produce more firm renewable energy and should therefore be included in the Pilot Program to advance the State's progress toward agricultural self-sufficiency, environmental health and a circular economy, and clean energy goals.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3361, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3361, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Lowen, Woodson, Ward).

SCRep. 1196-24 Corrections, Military, & Veterans/Judiciary & Hawaiian Affairs on S.B. No. 2094

The purpose of this measure is to require and appropriate funds for the Department of Corrections and Rehabilitation to establish a one-year pilot program to allow inmates incarcerated at the Women's Community Correctional Center to foster pets while incarcerated.

Your Committees received testimony in support of this measure from the Department of Corrections and Rehabilitation; Office of the Public Defender; ACLU of Hawai'i; Animal Welfare Institute; Hawaiian Humane Society; and five individuals. Your Committees received comments on this measure from United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committees find that pet programs that allow incarcerated persons to foster animals can increase the emotional intelligence, coping skills, work ethic, and employability of incarcerated persons. Your Committees further find that pet programs can help alleviate staffing issues and reduce the administrative burden in the State's animal shelters. This measure establishes a one-year pilot program to allow inmates at the Women's Community Correctional Center to foster pets while incarcerated.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committees note that while the Department of Corrections and Rehabilitation has expressed that it does not require an appropriation to implement the pilot program at this time, your Committees respectfully request your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$50,000, should it deem an appropriation appropriate.

As affirmed by the records of votes of the members of your Committees on Corrections, Military, & Veterans and Judiciary & Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2094, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2094, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chairs on behalf of the Committees.

Corrections, Military, & Veterans: Ayes, 7. Noes, none. Excused, 2 (Ganaden, M. Mizuno).

Judiciary & Hawaiian Affairs: Ayes, 7. Noes, none. Excused, 3 (Ganaden, Holt, Miyake).

SCRep. 1197-24 Consumer Protection & Commerce on S.B. No. 2695

The purpose of this measure is to modernize the definition of "personal information" under the law governing security breaches of personal information.

Your Committee received testimony in support of this measure from the Department of Education; Office of Consumer Protection of the Department of Commerce and Consumer Affairs; Office of Enterprise Technology Services; Student Advocates for Responsible Technology; Planned Parenthood Alliance Advocates - Hawai'i; and one individual. Your Committee received testimony in opposition to this measure from ABC Stores; TechNet; Retail Merchants of Hawaii; State Privacy & Security Coalition; CTIA; Consumer Data Industry Association; Hawaii Financial Services Association; and RELX. Your Committee received comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs; Hawaii Credit Union League; and Hawaii Bankers Association.

Your Committee finds that House Concurrent Resolution No. 225, H.D. 1, S.D. 1 (2019), convened the Twenty-First Century Privacy Law Task Force to examine and make recommendations regarding existing privacy laws and regulations to protect the privacy interests of the people of Hawaii. One of the Task Force's recommendations was that the definition of "personal information," under the law governing security breaches of personal information, should be modernized to sufficiently account for additional identifying data elements that would place an individual at risk of identity theft or may compromise the individual's personal safety if the elements are exposed to the public. This measure implements this recommendation.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2695, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2695, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Pierick). Excused, 4 (Belatti, Hussey-Burdick, Gates, Lowen).

SCRep. 1198-24 Consumer Protection & Commerce on S.B. No. 2511

The purpose of this measure is to require the Public Utilities Commission to consider the short- and long-term retention and creation of local jobs in its review of electric utility performance.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Public Utilities Commission.

Your Committee finds that performance incentive mechanisms provide financial motivation for electric utilities to improve performance toward established outcomes or to discourage underperformance. Your Committee further finds that the energy sector can and should contribute to economic growth and employment in the State. This measure motivates electric utilities to promote local economic growth by requiring the Public Utilities Commission to consider an electric utility's performance with respect to short- and long-term retention and creation of local jobs.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2511, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2511, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Belatti, Hussey-Burdick, Gates, Lowen).

SCRep. 1199-24 Consumer Protection & Commerce on S.B. No. 2727

The purpose of this measure is to allow condominiums to participate in a commercial property assessed financing program.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Hawai'i Green Infrastructure Authority; Hawai'i State Energy Office; Office of Planning and Sustainable Development; Palehua Townhouse Association; Island Insurance Companies; PACE Loan Group; Hawaii Insurers Council; Community Associations Institute, Legislative Action Committee, Hawaii Chapter; Parkland Gardens AOA; Hawai'i Association of REALTORS; Holomua Collaborative; Hawaii First Realty LLC; C-PACE Alliance, Inc.; Nuveen Green Capital; Hawaii Solar Energy Association; CastleGreen Finance, LLC; AOA at Pat's at Punalu'u; Hawai'i Energy; aio; Hawai'i Gas; Hawaii Community Foundation; HPM Building Supply; HVCA; Mana Up; Tori Richard, Ltd.; Ulupono Initiative; Contessa Condominium; Petros PACE Finance, LLC; Heritage House Condominium; and seven individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of Budget and Fiscal Services of the City and County of Honolulu; Hawaii Bankers Association; Hawaii Credit Union League; and Kokua Council.

Your Committee finds that more than two hundred eighty-one high-rise residential buildings, primarily condominiums developed before 1975, have failed to pass safety evaluations due to the lack of fire sprinklers or other safety requirements. Your Committee further finds that the costs to install fire safety measures are substantial for condominiums. This measure would provide a mechanism to finance fire safety, renewable energy, and other efficiency and resiliency measures at more attractive terms for condominiums.

Your Committee has amended this measure by:

- (1) Amending the parameter for whether a condominium property regime is included within the definition of "commercial property" to be based on whether the condominium property regime has six or more units, rather than the height of the building;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2727, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2727, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Belatti, Hussey-Burdick, Gates).

SCRep. 1200-24 Consumer Protection & Commerce on S.B. No. 2977

The purpose of this measure is to impose a penalty for unlicensed individuals performing certain work that requires a contractor license, including the offering or performing of repairs or improvements to existing structures and property and tearing down or rebuilding structures and property that were damaged or destroyed due to a natural disaster.

Your Committee received testimony in support of this measure from the Office of Consumer Protection; Contractors License Board; Subcontractors Association of Hawaii; and Maui Chamber of Commerce. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that, following a significant weather event, unscrupulous individuals may take advantage of homeowners by convincing the homeowners to hire these individuals to perform significant rehab work, including building a whole new structure, without the required license and necessary accompanying expertise.

Your Committee further finds that existing law imposes a penalty for unlicensed contracting following a disaster. However, this is limited to when a person is performing repairs. As such, the existing law does not adequately protect homeowners following an event, such as the 2023 Maui wildfires, where many structures will need to be wholly rebuilt, rather than simply repaired. This measure expands the existing prohibition on unlicensed contracting following a disaster to address situations in which improvements are necessary following a disaster.

Your Committee has amended this measure by:

- (1) Specifying that the imposition of the penalty provided in this measure is discretionary, rather than mandatory;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2977, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2977, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Pierick). Excused, 4 (Belatti, Hussey-Burdick, Gates, Lowen).

SCRep. 1201-24 Health & Homelessness on S.B. No. 2992

The purpose of this measure is to require the Department of Health to convene an Advisory Committee on Mental Health Code Review beginning July 1, 2025, and every ten years thereafter.

Your Committee received testimony in support of this measure from the Department of Health; Disability and Communication Access Board; Hawaii Health Systems Corporation Corporate Board of Directors; Maui Chamber of Commerce; and one individual. Your Committee received comments on this measure from The Queen's Health System.

Your Committee finds that the chapters of the Hawaii Revised Statutes relating to mental health and involuntary transport, examination, hospitalization, and treatment have been amended in a piecemeal manner over the past several decades, leading to a lack of clarity and inconsistency. Your Committee further finds that establishing a mechanism to ensure regular and systematic review of the State's mental health laws is essential to maintaining the coherence and effectiveness of those laws. The Advisory Committee on Mental Health Code Review that is proposed by this measure will advance the State's overall goal of improving mental health in the State, particularly for those who are unable to help themselves.

Your Committee has amended this measure by:

- (1) Requiring the Department of Health to convene the advisory committee beginning July 1, 2024, rather than July 1, 2025;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2992, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2992, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1202-24 Higher Education & Technology on H.R. No. 23

The purpose of this measure is to urge all State departments and agencies to address disinformation and digital hate speech by:

- (1) Developing public safety plans to protect public institutions and employees from threats of violence that are organized online;
- (2) Increasing access to media literacy and training in how to effectively identify and respond to disinformation and digital hate speech;
- (3) Establishing trauma-informed protocols to assist those who are targeted and harmed by disinformation and digital hate speech; and
- (4) Making any necessary amendments to rules and policies to address disinformation and hate speech

Your Committee received testimony in support from Democratic Party of Hawaii and three individuals.

Your Committee finds that disinformation and digital hate speech have been linked to a global increase in violence towards minorities. Sixty four percent of teenagers have encountered hate speech on social media. Your Committee finds that government officials, employees and citizens are regularly subjected to threats of violence which corrodes democracy. Your Committee further finds that this resolution will provide safe guards for democracy.

As affirmed by the record of votes of the members of your Committee on Higher Education & Technology that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 23 and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Marten, Matayoshi, Quinlan, Garcia).

SCRep. 1203-24 Higher Education & Technology on H.C.R. No. 34

The purpose of this measure is to urge all State departments and agencies to address disinformation and digital hate speech by:

- (1) Developing public safety plans to protect public institutions and employees from threats of violence that are organized online;
- (2) Increasing access to media literacy and training in how to effectively identify and respond to disinformation and digital hate speech;
- (3) Establishing trauma-informed protocols to assist those who are targeted and harmed by disinformation and digital hate speech; and
- (4) Making any necessary amendments to rules and policies to address disinformation and hate speech

Your Committee received testimony in support from Democratic Party of Hawaii, Hawaii Alliance for Progressive Action and five individuals.

Your Committee finds that disinformation and digital hate speech have been linked to a global increase in violence towards minorities. Sixty four percent of teenagers have encountered hate speech on social media. Your Committee finds that government officials, employees and citizens are regularly subjected to threats of violence which corrodes democracy. Your Committee further finds that this resolution will provide safe guards for democracy.

As affirmed by the record of votes of the members of your Committee on Higher Education & Technology that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 34 and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs.

SCRep. 1204-24 Judiciary & Hawaiian Affairs on S.B. No. 2240

The purpose of this measure is to:

- (1) Require and appropriate funds for the Office of Elections to file an application with the Electronic Registration Information Center, Inc., for the State to be admitted as a member of the organization;
- (2) Require the State and each county to use the information and services made available by the Electronic Registration Information Center, Inc., to verify their voter registration rolls; and
- (3) Require the Office of Elections to request an appropriation from the Legislature, before fiscal year 2025-2026, for the State's annual membership dues to the Electronic Registration Information Center, Inc.

Your Committee received testimony in support of this measure from the Office of Elections; League of Women Voters of Hawaii; and one individual. Your Committee received testimony in opposition to this measure from the Hawai'i Federation of Republican Women and numerous individuals.

Your Committee finds that the Electronic Registration Information Center, Inc., also known as ERIC, is a nonprofit organization that uses secure data-matching tools to help member states improve the accuracy of their voter registration rolls. With nearly half of the United States participating in ERIC, your Committee believes that Hawaii would benefit greatly from the information and services provided by ERIC.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes the Campaign Spending Commission's funding request of \$149,000 for fiscal year 2024-2025 to join ERIC.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2240, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2240, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Kong). Noes, none. Excused, 3 (Ichiyama, Miyake, Souza).

SCRep. 1205-24 Judiciary & Hawaiian Affairs on S.B. No. 2520

The purpose of this measure is to:

- (1) Require the Attorney General to defend professionally licensed or certified state employees in civil actions or proceedings when the employee was acting within the scope of their employment and was not grossly negligent, wanton, or uncooperative;
- (2) Clarify that professionally licensed or certified state employees may employ their own attorneys at their own expense; and
- (3) Establish a process for the Attorney General to transfer or withdraw representation if the Attorney General declines to defend a professionally licensed or certified state employee.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaii Association for Justice; and Hawaii State AFL-CIO.

Your Committee finds that this measure would further strengthen the legal protections for governmental employees when exercising their professional judgment, which will enable the State to attract and retain qualified employees who may otherwise fear that they would be held personally and financially liable.

Your Committee has amended this measure by:

- (1) Clarifying the preamble;
- (2) Clarifying when the Attorney General must work with the professionally licensed or certified state employee to amicably transfer representation to the successor counsel;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2520, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2520, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 1206-24 Judiciary & Hawaiian Affairs on S.B. No. 2927

The purpose of this measure is to propose an amendment to article VI, section 3, of the Constitution of the State of Hawaii to make the appointment and senate consent procedure for district court judges the same as the appointment and senate consent procedure for supreme court justices and intermediate court of appeals and circuit court judges.

Your Committee did not receive any written testimony on this measure.

Your Committee finds that the existing senate consent process for district court judges, whereby a district court appointee is automatically considered rejected if not consented to by the Senate within thirty days of receipt of the appointment, is inefficient. The Hawaii State Legislature is a part-time legislature, which means that the Senate must convene special sessions throughout the year for the sole purpose of consenting to district court appointments. Your Committee believes that it would be more fiscally prudent and efficient for district court appointments to be automatically considered consented to if the Senate fails to reject the appointment within thirty days.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2927, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2927, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 3 (Ichiyama, Miyake, Souza).

SCRep. 1207-24 Judiciary & Hawaiian Affairs on S.B. No. 2687

The purpose of this measure is to prohibit a person from distributing, or entering into an agreement with another person to distribute, materially deceptive media to impact elections.

Your Committee received testimony in support of this measure from the Campaign Spending Commission; Hawaii State AFL-CIO; and one individual. Your Committee received testimony in opposition to this measure from the Office of the Public Defender and numerous individuals. Your Committee received comments on this measure from the Department of the Attorney General and Charter Communications.

Your Committee finds that the use of deepfakes or generative artificial intelligence in elections can be a powerful tool used to spread misinformation, which can result in an increase in political tensions and electoral-related conflict and violence. This measure would add Hawaii to the growing list of states that regulate the use of deepfake and generative artificial intelligence technologies to impact elections, ensuring the integrity of the election process and protecting voters from misinformation.

Your Committee has amended this measure by:

- (1) Amending the conduct that is prohibited under the offense of distribution of materially deceptive media;
- (2) Amending the exception for broadcasters to include broadcasters, cable operators, or streaming services that were not involved in the creation of the materially deceptive media;
- (3) Authorizes the Campaign Spending Commission to assess a fine or refer a violation for criminal prosecution;
- (4) Deleting the definition of "depicted individual" and clarifying the definition of "materially deceptive media";
- (5) Authorizing the Campaign Spending Commission, instead of a Commissioner of the Campaign Spending Commission, to bring a cause of action for injunctive or other equitable relief;
- (6) Clarifying that the court's authority to award reasonable attorney's fees and costs to plaintiffs that obtain permanent injunctive relief does not apply to the Campaign Spending Commission if it is represented by a state attorney;
- (7) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2687, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2687, S.D. 1, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 3 (Ichiyama, Miyake, Souza).

SCRep. 1208-24 Judiciary & Hawaiian Affairs on S.B. No. 2983

The purpose of this measure is to regulate charitable fundraising platforms and activities of platform charities during declared federal disasters.

Your Committee received testimony in opposition to this measure from the Department of the Attorney General.

Your Committee finds that this measure will prevent any deception, confusion, or misunderstanding that may arise from the use of charitable fundraising platforms and activities of platform charities.

Your Committee has amended this measure by:

- (1) Adopting the amendments provided by the Department of the Attorney General that:
 - (A) Regulates charitable fundraising platforms and platform charities under existing Hawaii laws;
 - (B) Expands applicability to include the regulation of charitable fundraising on internet platforms at all times, not only when a federal disaster is declared; and
 - (C) Delays implementation until January 1, 2026, to allow sufficient time for the Department of the Attorney General to make necessary changes;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2983, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2983, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 3 (Ichiyama, Miyake, Souza).

SCRep. 1209-24 Judiciary & Hawaiian Affairs on S.B. No. 3008

The purpose of this measure is to propose amendments to article VII, sections 12 and 13, of the Constitution of the State of Hawaii to:

- (1) Expressly provide that the Legislature may authorize political subdivisions, such as the counties, to issue tax increment bonds; and
- (2) Exclude tax increment bonds from determinations of the funded debt of the political subdivisions.

Your Committee received testimony in support of this measure from the Office of Planning and Sustainable Development; Stadium Authority; Hawaii Housing Finance and Development Corporation; Office of Housing of the City and County of Honolulu; Move Oahu Forward; NAIOP Hawaii; Hawaiian Electric; and Stanford Carr Development, LLC. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that tax increment financing allows a portion of property taxes in excess of a base assessed value to be dedicated to finance the costs of a project through the issuance of bonds. Although statutory law permits the counties to provide for tax increment financing and issue tax increment bonds, tax increment bonds are not clearly listed in the types of bonds that the counties may issue under the Hawaii State Constitution. This measure would clearly authorize this method of financing for public works, public improvements, and other actions by the counties within the tax increment districts.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3008, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3008, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 3 (Ichiyama, Miyake, Souza).

SCRep. 1210-24 Higher Education & Technology on S.B. No. 2526

The purpose of this measure is to requires the Technology Services Consolidation Working Group to assist the Office of Enterprise Technology Services in working with certain state agencies to inventory and categorize the business criticality of each major state information technology system or data set and determine the appropriate data center or hosting facility requirements. This measure also extends the Working Group's dissolution date to June 30, 2026.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services and Servpac.

Your Committee finds that this measure helps to safeguard and ensure the uninterrupted availability of government information technology systems and essential public services.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Higher Education & Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2526, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2526, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (M. Mizuno, Quinlan, Todd).

SCRep. 1211-24 Higher Education & Technology on S.B. No. 3192

The purpose of this measure is to make permanent the Innovation and Commercialization Initiative Program established within the University of Hawaii.

Your Committee received testimony in support of this measure from the University of Hawai'i System and Chamber of Commerce Hawaii.

Your Committee finds that this measure supports the University of Hawaii's efforts and crucial role in helping to diversify Hawaii's economy by promoting research, discovery, and commercial innovation. Your Committee further finds that this measure provides express statutory authority to the University to sponsor and directly participate in the transformation of innovations created by its researchers into viable commercial enterprises.

Your Committee has amended this measure by changing its effective date to June 29, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Higher Education & Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3192, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3192, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Marten, Matayoshi, Quinlan, Garcia).

SCRep. 1212-24 Higher Education & Technology on S.B. No. 2817

The purpose of this measure is to appropriate monies to the University of Hawaii College of Tropical Agriculture and Human Resources to establish five full-time equivalent (5.0 FTE) faculty positions for additional extension specialists and extension agents.

Your Committee received testimony in support of this measure from the College of Tropical Agriculture Human Resources of the University of Hawai'i; Ulupono Initiative; Hawai'i Farm Bureau; and University of Hawaii Professional Assembly.

Your Committee finds that the University of Hawaii College of Tropical Agriculture and Human Resources' Extension Service provides vital, on-the-ground assistance to farmers and ranchers across the State. This measure will support those efforts.

Your Committee has amended this measure by:

- (1) Modifying the position for an extension specialist in water quality and conservation in the County of Maui from an extension specialist to an extension agent;
- (2) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it choose to deliberate on this measure, to consider granting the appropriations for the full-time equivalent (FTE) positions a recurring general fund designation.

As affirmed by the record of votes of the members of your Committee on Higher Education & Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2817, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2817, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (M. Mizuno, Quinlan, Todd).

SCRep. 1213-24 Higher Education & Technology on S.B. No. 2527

The purpose of this measure is to promote the development of the high technology industry in the State by:

- (1) Temporarily reinstating the Technology Infrastructure Renovation Tax Credit;
- (2) Amending the definition of "renovation costs" to include the repair, replacement, monitoring, and testing of technology-enabled infrastructure machinery; and
- (3) Expanding the definition of "technology-enabled infrastructure" to include data servers.

Your Committee received testimony in support of this measure from Hawaiian Electric; Servpac; and Charter Communications. Your Committee received comments on this measure from the Department of Taxation; Tax Foundation of Hawaii; and Chamber of Commerce Hawaii.

Your Committee finds that this measure strengthens the resiliency, development, and expansion of Hawaii's high-technology sector.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that the Department of Taxation indicated that the expected revenue losses for fiscal year 2025-2026 and 2026-2027 are estimated to be \$400,000 and \$500,000, respectively.

As affirmed by the record of votes of the members of your Committee on Higher Education & Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2527, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2527, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Marten, Matayoshi, Quinlan, Garcia).

SCRep. 1214-24 Culture, Arts, & International Affairs on S.B. No. 2657

The purpose of this measure is to establish Makahiki Commemoration Day.

Your Committee received testimony in support of this measure from two individuals.

Your Committee finds that the Makahiki season is an ancient Hawaiian New Year festival that honors the god Lono, celebrates bountiful harvest, and is a time for peace, resting, and feasting. Due to its great cultural importance in Hawaiian tradition, your Committee believes that the State should designate a day of each year to celebrate the opening of the Makahiki season.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Judiciary & Hawaiian Affairs, should it deliberate on this measure, to consider designating Makahiki Commemoration Day as one of the kapu Hua days of Mōhala, Hua, or Akua of the lunar month of 'Ikuā and consider inserting provisions to establish a process to determine and publicize the equivalent day of the Gregorian calendar on which the State should commemorate the Makahiki season.

As affirmed by the record of votes of the members of your Committee on Culture, Arts, & International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2657, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2657, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Matayoshi, Alcos).

SCRep. 1215-24 Health & Homelessness on S.B. No. 3122

The purpose of this measure is to authorize the Director of Health to issue public health standing orders for evidence-based health care screenings that have received the highest recommendations from the United States Preventive Services Task Force.

Your Committee received testimony in support of this measure from the Department of Health; Hawai'i Public Health Institute; Hawaii Association of Health Plans; Hawai'i Public Health Institute; Hawai'i Health & Harm Reduction Center; and two individuals. Your Committee received comments on this measure from AlohaCare and Hawaii Medical Service Association.

Your Committee finds that standing orders are protocols that authorize designated members of a health care team, such as nurses or medical assistants, to complete certain clinical tasks without having to first obtain a physician order. Your Committee further finds that several studies have demonstrated that standing orders can increase the delivery of routine preventive care services, including immunizations. This measure is intended to improve public health by creating quicker and easier patient access to preventive care, which can in turn move routine care out of the exam room and create more time for health care providers to address individualized patient care.

Your Committee has amended this measure by:

- (1) Requiring public health standing orders to include language informing patients that there may be out-of-pocket costs associated with accessing services;
- (2) Requiring an entity providing items or services pursuant to a public health standing order to provide the items or services to a patient after certain requirements have been met;
- (3) Establishing a Public Health Standing Orders Working Group;
- (4) Inserting a repeal date of June 30, 2027;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3122, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3122, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1216-24 Housing on S.B. No. 1170

The purpose of this measure is to require the counties to issue affordable housing credits, until June 30, 2031, for affordable housing units that are constructed under various Hawaii Housing Finance and Development Corporation programs.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Hawai'i Association of REALTORS; 'Ikenākea Development LLC; EAH Housing; NAIOP Hawaii; Maui Chamber of Commerce; and one individual. Your Committee received testimony in opposition to this measure from the Office of Housing and Community Development of the County of Hawai'i and Department of Planning and Permitting of the City and County of Honolulu. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation and Office of Planning and Sustainable Development.

Your Committee finds that the State is in dire need of more affordable housing. To add to housing challenges already faced by Hawaii residents, interest rates for residential mortgages have reached a forty-year high. The recent increases in interest rates have resulted in a lower sales price for certain units built under the housing development programs overseen by the Hawaii Housing Development Corporation, due to sales price limitations tied into area median income limitations. This measure will provide a means for housing developers to fulfill their affordable housing requirements with less risk, thereby increasing the supply of affordable housing for residents of the State.

Your Committee has amended this measure by:

- (1) Authorizing the counties to impose a geographic constraint on the transfer of affordable housing credits with a minimum radius of five miles by public road;
- (2) Specifying that no housing credits shall be issued until a certificate of occupancy has been issued;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1170, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1170, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 1 (Kila).

SCRep. 1217-24 Housing on S.B. No. 2133

The purpose of this measure is to:

- (1) Authorize the Hawaii Housing Finance and Development Corporation to issue bonds for housing project infrastructure and finance the development of regional state infrastructure projects;
- (2) Exempt bonds issued by the Hawaii Housing Finance and Development Corporation for improvements by assessments, and the interest thereon, from certain taxes, with exceptions;
- (3) Include proceeds from bonds issued for regional state infrastructure projects as a source of revenue for regional state infrastructure subaccounts; and
- (4) Authorize regional state infrastructure subaccount revenues to be used to repay regional state infrastructure project bond holders.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Office of Planning and Sustainable Development; Hawaii Housing Finance and Development Corporation; and NAIOP Hawaii.

Your Committee finds that the costs of off-site infrastructure and lack of sufficient infrastructure are major barriers to developing affordable housing in the State. The costs of off-site infrastructure are typically paid by private housing developers, who then pass the cost on to homebuyers and renters. This measure provides an alternative financing option for regional infrastructure development and improvements, thereby allowing the Hawaii Housing Finance and Development Corporation to facilitate the development of infrastructure for new affordable housing projects across the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2133, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2133, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 1 (Kila).

SCRep. 1218-24 Housing on S.B. No. 3120

The purpose of this measure is to:

- (1) Establish the position of Housing Policy and Program Coordinator in the Hawaii Public Housing Authority;
- (2) Clarify that the employment of certain positions and the adjustment of their salaries are authorized by the Executive Director of Hawaii Public Housing Authority and not the Board of Directors; and
- (3) Repeal the wage ceiling requirement for positions in the Hawaii Public Housing Authority.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority. Your Committee received testimony in opposition to this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the federal government created numerous rule changes through the Housing Opportunity Through Modernization Act and Fair Housing Act. In addition, there is the pending implementation of the United States Department of Housing and Urban Development's National Standards for the Physical Inspection of Real Estate to assist in improving low-income public housing quality and the health and safety of public housing tenants. Your Committee believes that these new and future policy and program changes will need to be effectively and efficiently researched, coordinated, implemented, and monitored by an expert, such as a Housing Policy and Program Coordinator.

Your Committee has amended this measure by:

- (1) Specifying that the Executive Director of Hawaii Public Housing Authority shall set the salaries of certain positions to the extent that the Board of Directors delegates this authority to the Executive Director;

- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3120, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3120, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Onishi). Noes, none. Excused, 1 (Kila).

SCRep. 1219-24 Housing on S.B. No. 2337

The purpose of this measure is to, until June 30, 2028, expand the counties' authorization to exercise the same powers as the Hawaii Housing Finance and Development Corporation for purposes of developing, constructing, financing, refinancing, or providing low- and moderate-income housing projects and mixed-use developments.

Your Committee received testimony in support of this measure from the Office of Planning and Sustainable Development; Hawaii Housing Finance and Development Corporation; Department of Planning and Permitting of the City and County of Honolulu; Office of Housing of the City and County of Honolulu; Office of Housing and Community Development of the County of Hawai'i; Pacific Resource Partnership; Maui Chamber of Commerce; and one individual. Your Committee received comments on this measure from the Grassroot Institute of Hawaii.

Your Committee finds that under existing law, the counties are authorized to exercise the same powers as the Hawaii Housing Finance and Development Corporation for developing, constructing, and providing low- and moderate-income housing; however, they are not authorized to use affordable housing bonds to develop mixed-use developments. This measure seeks to provide the counties with the same authority as the Corporation with respect to mixed-use development, which will enable the counties to implement their general plans and create communities that offer residents a choice of housing options that are in close proximity to schools, recreation, and commercial centers.

Your Committee has amended this measure by:

- (1) Deleting the sunset date; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2337, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2337, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 1 (Kila).

SCRep. 1220-24 Housing on S.B. No. 3121

The purpose of this measure is to clarify certain powers and responsibilities of the Hawaii Public Housing Authority regarding certain housing projects.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority.

Your Committee finds that concentrating public housing for extremely low-income families in dense urban areas has shown to be an ineffective use of scarce affordable housing resources. Your Committee further finds that a shift has been made to instead create financially viable and socially stable mixed-income housing by the United States Department of Housing and Urban Development. Your Committee believes that mixed-income and mixed-finance redevelopment is an attractive option that will contribute to the economic and social diversity and stability of the overall community in Hawaii.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3121, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3121, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 1 (Kila).

SCRep. 1221-24 Transportation on S.B. No. 2308

The purpose of this measure is to establish additional penalties for persons convicted of speeding in a school zone.

Your Committee received testimony in support of this measure from the Department of Transportation; Department of Education; Oahu Metropolitan Planning Organization; and one individual. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that despite the existence of speed reduction laws in school zones, nationwide approximately twenty-five thousand students are injured in a school zone-related accident each year. Your Committee further finds that the most common contributing factors to school zone-related accidents are speed and distracted drivers. Your Committee believes that increasing penalties for those convicted of speeding in a school zone will help deter motorists from committing future violations; however your Committee believes the Court should have discretion in whether to impose the increased penalties.

Accordingly, your Committee has amended this measure by:

- (1) Permitting, rather than requiring, the imposition of additional penalties for persons convicted of speeding in a school zone; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2308, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2308, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1222-24 Transportation on S.B. No. 2450

The purpose of this measure is to authorize the Department of Transportation to:

- (1) Establish a maximum gross weight limit for ocean transport containers; and
- (2) Weigh any ocean transport container offloaded at any harbor in the State and impose a fine on any company that offloads an ocean transport container that exceeds the maximum gross weight limit.

Your Committee received comments on this measure from the Department of Transportation.

Your Committee believes that this measure is necessary to ensure the safe and efficient operation of the State's harbors.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2450, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2450, S.D. 1, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1223-24 Transportation on S.B. No. 2735

The purpose of this measure is to require:

- (1) The Examiner of Drivers to test applicants for driver's licenses on the applicant's knowledge of the dangers posed by larger motor vehicles, including trucks and sport utility vehicles, to pedestrians and bicyclists; and
- (2) Persons who commit the offense of excessive speeding or habitually operating a vehicle under the influence of an intoxicant to retake and pass a driver's license examination for each offense.

Your Committee received testimony in support of this measure from the Department of Transportation and Oahu Metropolitan Planning Organization.

Your Committee finds that so far in 2024, over a third of traffic fatalities in the State involved a pedestrian. While the total number of traffic fatalities has decreased since 2023, the number of traffic fatalities involving a pedestrian has increased. Your Committee believes that providing educational opportunities to make drivers-in-training aware of the dangers larger motor vehicles pose to pedestrians and bicyclists, as done by this measure, will assist in reducing traffic fatalities to zero by 2050.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2735, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2735, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1224-24 Transportation on S.B. No. 2747

The purpose of this measure is to require the Department of Transportation to adopt rules requiring tour aircraft operators maintain minimum aircraft liability insurance coverage.

Your Committee received testimony in support of this measure from the Hawaii Association for Justice and Blue Hawaiian. Your Committee received testimony in opposition to this measure from Jack Harter Helicopters.

Your Committee finds that establishing minimum aircraft liability insurance coverage requirements for tour aircraft operations will enhance and incentivize safety in the State's tour aircraft operator industry.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2747, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2747, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1225-24 Transportation on S.B. No. 2943

The purpose of this measure is to establish a Commercial Drivers Workforce Working Group to address the State's current and future needs for commercial driver's license holders.

Your Committee received testimony in support of this measure from the Department of Transportation; Department of Education; State Council on Developmental Disabilities; Hawaii Food Industry Association; and one individual.

Your Committee finds that as the State is geographically isolated from the mainland United States, efficient transportation is critical for the survival of Hawaii's population and tourism industry. Your Committee further finds that because storage space is limited within the State, commercial driver's license holders play a pivotal role in moving shipments from docks and airports to store shelves. Your Committee notes that this measure is a step toward addressing

the growing crisis of a shortage of commercial drivers by establishing a working group to develop and implement a strategic plan that encourages employment in the commercial driver's field to ensure the State's economic and social well-being.

Your Committee has amended this measure by:

- (1) Dissolving the working group on June 30, 2025;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2943, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2943, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1226-24 Higher Education & Technology/Labor & Government Operations on S.B. No. 2782

The purpose of this measure is to require the Office of Enterprise Technology Services to develop multilingual accessibility standards, in consultation with the Office of Language Access, to provide technical guidance to state entities regarding public access to vital information and documents.

Your Committees received testimony in support of this measure from the Department of Human Services; Office of Enterprise Technology Services; Office of Language Access; Hawai'i Friends of Civil Rights; Hawai'i Children's Action Network Speaks!; Hawai'i Coalition for Immigrant Rights; The Legal Clinic; Roots Reborn; Waipahu Safe Haven Immigrant/Migrant Resource Center; and five individuals.

Your Committees find that this measure is a reasonable step to ensure that persons with limited English proficiency have meaningful access to state government services, programs, and activities.

Your Committees have amended this measure by:

- (1) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committees note that the Office of Enterprise Technology Services is unable to perform the tasks proposed in this measure without additional financial support.

As affirmed by the records of votes of the members of your Committees on Higher Education & Technology and Labor & Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2782, S.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2782, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1227-24 Water & Land on S.B. No. 2156

The purpose of this measure is to appropriate funds to the Department of Land and Natural Resources to conduct maintenance dredging at state small boat harbors, boat launch ramp facilities, and other state boating facilities and waterways, including design, permitting, and dredging work, as identified by the Department.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Agribusiness Development Corporation; one member of the Hawai'i County Council; O'ahu Hawaiian Canoe Racing Association; Malama Charters; Wailoa River and Reeds Bay Boating and Users Association; Captain Kimo's Hawaiian Adventures; and three individuals.

Your Committee finds that maintenance dredging is critical to the maintenance of small boat harbors, channels, ramps, and other port infrastructure in Hawaii. Your Committee recognizes that the current process of waiting until dredging is imminent to appropriate funds and following with the initiation of the permitting process creates a haphazard system for the allocation of funds and the issuance of permits. This disorganized process contributes to deteriorating conditions at these facilities when increased amounts of marine sediment and foreign debris accumulate, sometimes building to a height that, if not cleared immediately, can damage the hulls of ships. This measure will appropriate the necessary funds to assist the Department of Land and Natural Resources in continuing to conduct maintenance dredging projects across the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2156, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2156, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Souza).

SCRep. 1228-24 Water & Land on S.B. No. 2842

The purpose of this measure is to establish a Wildfire Mitigation Working Group to develop a state wildfire mitigation plan and to advise and make recommendations to state agencies concerning the State's wildfire safety and prevention efforts.

Your Committee received testimony in support of this measure from the Office of Planning and Sustainable Development; Hawaii State Fire Council; Hawai'i Forest Industry Association; Democratic Party of Hawai'i; Lāhainā Strong; Maui Chamber of Commerce; and four individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources and Public Utilities Commission.

Your Committee finds that the Wildfire Mitigation Working Group proposed by this measure will help the State improve its efforts at wildfire safety, prevention, preparedness, and mitigation.

Your Committee has amended this measure by:

- (1) Not explicitly specifying that the Wildfire Mitigation Working Group is established within the Department of Land and Natural Resources;
- (2) Clarifying that the Chairperson of the State Fire Council may designate a designee to serve on and as co-chair of the Wildfire Mitigation Working Group;
- (3) Changing the working group member representing the Hawaii Emergency Management Agency from the Executive Officer to the Administrator of the Hawaii Emergency Management Agency;
- (4) Removing certain responsibilities of the Wildfire Mitigation Working Group, including:
 - (A) Developing and making recommendations to the Public Utilities Commission related to utility wildfire safety and mitigation performance metrics;
 - (B) Developing and making recommendations related to the contents of electric utility wildfire mitigation and protection plans and plan updates; and
 - (C) Providing other advice and recommendations related to wildfire safety, as requested by the Public Utilities Commission; and
- (5) Requiring the Wildfire Mitigation Working Group to submit the state wildfire mitigation plan and a report of its findings and recommendations, including any proposed legislation, to the Legislature by December 1, 2026;
- (6) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2842, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2842, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Ayes, 8. Noes, none. Excused, 1 (Hashem).

SCRep. 1229-24 Water & Land on S.B. No. 3153

The purpose of this measure is to:

- (1) Establish the Dam and Appurtenance Improvement or Removal Grant Program Special Fund to receive funds for the Dam and Appurtenance Improvement or Removal Grant Program; and
- (2) Appropriate funds into and out of the Dam and Appurtenance Improvement or Removal Grant Program Special Fund for purposes of the Dam and Appurtenance Improvement or Removal Grant Program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Agribusiness Development Corporation; Land Use Research Foundation of Hawaii; Hawaii Crop Improvement Association; and Hawai'i Farm Bureau.

Your Committee finds that the Dam and Appurtenance Improvement or Removal Grant Program was established to financially assist owners of private dams and appurtenances to keep them properly maintained. Your Committee further finds that the original appropriation for the Program will lapse prior to the establishment of grant application rules and processes by the Department of Land and Natural Resources. This measure provides for a special fund to receive and preserve the availability of funds for the Program.

Your Committee has amended this measure by:

- (1) Changing the appropriations into and out of the Dam and Appurtenance Improvement or Removal Grant Program Special Fund to unspecified amounts;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider inserting appropriation amounts of \$10,000,000 into and out of the Dam and Appurtenance Improvement or Removal Grant Program Special Fund for fiscal year 2024-2025.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3153, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3153, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Souza).

SCRep. 1230-24 Water & Land on S.B. No. 3154

The purpose of this measure is to clarify that failure to comply with approved mitigation commitments, conduct an archaeological inventory survey, or comply with other administrative requirements pertaining to archaeology approved by the Department of Land and Natural Resources shall result in civil and administrative violations.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Department of Land and Natural Resources; Historic Hawai'i Foundation; and two individuals.

Your Committee finds that this measure will provide the State Historic Preservation Division with more flexibility in regulating archaeological activities in Hawaii and protecting burial sites and historic properties.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3154, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3154, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

SCRep. 1231-24 Consumer Protection & Commerce on S.B. No. 2697

The purpose of this measure is to require the Department of Commerce and Consumer Affairs to revoke the license of an architect who has been, or caused a government employee to be, convicted of a criminal offense involving the acceptance of a bribe.

Your Committee received comments on this measure from the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects.

Your Committee finds that public corruption by government officials who use their public office to obtain personal gain is the ultimate betrayal of the public's trust. To restore public trust, there must be adequate accountability for all parties involved. Your Committee further finds that when public corruption involves a person licensed as an architect, the architect's professional license is not revoked upon a judgment of conviction. Instead, the architect's professional license remains in good standing until there is a formal petition and hearing. This measure promotes accountability by requiring the Department of Commerce and Consumer Affairs to revoke the license of an architect who has been, or caused a government employee to be, convicted of a criminal offense involving the acceptance of a bribe.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2697, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2697, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

SCRep. 1232-24 Consumer Protection & Commerce on S.B. No. 2834

The purpose of this measure is to establish a process for a landlord to dispose of a deceased tenant's personal property and take possession of the dwelling unit following the death of the tenant.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Hawai'i Association of REALTORS.

Your Committee finds that, under existing law, there is no explicit guidance for a landlord to take possession of a dwelling unit in the event of a tenant's death. As a result, the death of a tenant can delay returning the dwelling unit to the landlord for a significant amount of time. This measure provides proper guidance for the surrender of the dwelling unit to the landlord and the disposal of the deceased tenant's personal property following the tenant's death.

Your Committee has amended this measure by:

- (1) Allowing a family member who comes forward to be considered the representative for purposes of commencing the process for disposing of the deceased tenant's personal property;
- (2) Clarifying that the time periods specified in this measure are computed in calendar days;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2834, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2834, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Belatti, Hussey-Burdick, Gates, Lowen).

SCRep. 1233-24 Consumer Protection & Commerce on S.B. No. 2170

The purpose of this measure is to replace the existing Mixed Martial Arts Program with a new regulatory framework by incorporating combat sports under the existing Boxing Commission of Hawaii, and renaming the Commission the Combat Sports Commission of Hawaii.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Department of Business, Economic Development, and Tourism; Mayor of the County of Hawai'i; and two individuals. Your Committee received testimony in opposition to this measure from Nokanet.

Your Committee finds that mixed martial arts allow for the use of striking and grappling techniques; standing and on-the-ground combat; and blend boxing, wrestling, Brazilian jiu-jitsu, Muay Thai, kickboxing, karate, judo, and other combat styles. Your Committee further finds that a regulatory commission specializing in combat sports may further promote the State's ability to attract major combat sports events. This measure seeks to allow for the growth of mixed martial arts in the State through a regulatory commission.

Your Committee has amended this measure by:

- (1) Replacing language that incorporated combat sports under the existing Boxing Commission of Hawaii and renamed the Commission the Combat Sports Commission of Hawaii, with language that establishes a Combat Sports Commission of Hawaii separate from the Boxing Commission of Hawaii; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2170, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2170, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Pierick). Noes, none. Excused, 4 (Belatti, Hussey-Burdick, Gates, Lowen).

SCRep. 1234-24 Consumer Protection & Commerce on S.B. No. 3083

The purpose of this measure is to adopt the revisions to the National Association of Insurance Commissioners Model No. 440, the Insurance Holding Company System Regulatory Act.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Tradewind Group; and American Council of Life Insurers.

Your Committee finds that the National Association of Insurance Commissioners' (NAIC) Insurance Holding Company System Regulatory Act has, since the 1970s, provided state insurance departments with a framework for insurance group supervision. In 2020, the NAIC adopted revisions that established group capital calculation filing requirements and liquidity stress test reporting.

Your Committee further finds that the group capital calculation provides United States solvency regulators with an additional analytical tool for conducting group-wide supervision and assists regulators in holistically understanding the financial condition of non-insurance entities. The group capital calculation provides key financial information on the insurance group; quantifies risk across the insurance group; supports transparency into how capital is allocated; and aids in understanding whether and to what degree insurance companies are supporting the operations of non-insurance entities. The group capital calculation is intended to satisfy the group capital assessment requirements of the Covered Agreements made between the United States and the European Union and United Kingdom. Without the group capital calculation, any supervisor in the European Union or United Kingdom could impose its own group capital calculation on a United States group operating in the European Union or United Kingdom and all United States insurers within that group.

Your Committee additionally finds that the liquidity stress test was developed to provide state insurance regulators with insights into a key macroprudential risk monitored by the Financial Stability Oversight Council and other jurisdictions internationally, while also enhancing group supervision. The liquidity stress test requires insurers to file the results of a specific year's liquidity stress test to the lead state insurance commissioner. This measure provides the Insurance Division with greater tools to properly conduct insurance group supervision and will enable the Division to maintain its accreditation status with the NAIC.

Your Committee has amended this measure by:

- (1) Clarifying that the Insurance Commissioner may adopt the most recent versions of certain NAIC publications by order and without regard to chapter 91, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. SCRep. 1235-24 Consumer Protection & Commerce on S.B. No. 3220

The purpose of this measure is to transfer the authority to enforce the Motor Carrier Law from the Public Utilities Commission to the Department of Transportation.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received comments on this measure from the Public Utilities Commission.

Your Committee finds that, under the Motor Carrier Law, the Public Utilities Commission regulates passenger and property motor carriers transporting passengers or property for compensation or hire on public highways. Passenger carriers are classified by authorized vehicle seating capacity and include tour companies, limousine services, and other transportation providers. Property carriers are classified by the types of commodities transported and the nature of services performed, namely: general commodities, household goods, commodities in dump trucks, and specific commodities.

However, your Committee further finds that the significant number of regulated motor carriers (1,741 at the end of Fiscal Year 2023) has left the enforcement of the Motor Carrier Law lacking. The Department of Transportation has a larger number of enforcement officers who may provide for better and more consistent enforcement of motor carriers statewide. This measure therefore transfers the enforcement authority of the Motor Carrier Law from the Public Utilities Commission to the Department of Transportation.

Your Committee has amended this measure by:

- (1) For purposes of the laws governing public utilities in general, deleting language regarding the scope of a motor vehicle safety officer's enforcement authority that is duplicative of language in the existing Motor Carrier Law and inconsistent with the amendments to the Motor Carrier Law under this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3220, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3220, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Belatti, Hussey-Burdick, Gates, Lowen).

SCRep. 1236-24 Human Services on S.B. No. 2245

The purpose of this measure is to:

- (1) Add a definition for "exigent circumstances" under the Child Protective Act;
- (2) Amend the definition of "imminent harm" under the Child Protective Act;
- (3) Authorize a child's family to consent to protective custody or temporary foster custody of the child;
- (4) Clarify the circumstances when police officers shall assume protective custody of a child and when the Department of Human Services shall assume temporary foster custody of a child; and

- (5) Authorize the Department of Human Services to file a petition and seek an ex parte motion for protective custody if there is reasonable cause to believe that a child is subject to imminent harm.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Judiciary; Honolulu Police Department; and one individual. Your Committee received testimony in opposition to this measure from nine individuals. Your Committee received comments on this measure from the Department of Human Services; Hawaii Coalition for Child Protective Reform; and one individual.

Your Committee finds that H.B. No. 2428, H.D. 2 (Regular Session of 2024), a substantially similar measure, was previously passed by the House. Your Committee further finds that H.B. No. 2428, H.D. 2, updates and clarifies the procedures for removing children from unsafe homes, with and without court orders, while taking into consideration concerns regarding maintaining family integrity, the due process rights of parents, and federal case law. Your Committee also finds that H.B. 2428, H.D. 2, is preferable as it incorporates recommendations suggested by the Attorney General.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of H.B. No. 2428, H.D. 2, a measure that:
 - (A) Adds a definition for "exigent circumstances" and amends the definitions of "harm" and "imminent harm" under the Child Protective Act;
 - (B) Clarifies when the police may take protective custody of a child and when the Department of Human Services may assume temporary foster custody of a child when exigent circumstances are present;
 - (C) Creates a judicial process for filing a petition for an order for protective custody, including the circumstances where such an order may be issued without notice and without a hearing; and
 - (D) Contains an effective date of July 1, 3000;
- (2) Clarifying the time frame for the filing of initial reports associated with an ex parte motion for protective custody; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2245, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2245, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

SCRep. 1237-24 Housing/Tourism on S.B. No. 2919

The purpose of this measure is to:

- (1) Authorize the counties to regulate the time, place, manner, and duration in which uses of land and structures may take place;
- (2) Authorize the counties to amortize or phase out transient accommodation uses in residential or agricultural zoned areas; and
- (3) Expand the definition of "transient accommodations" to include certain shelters and vehicles with sleeping accommodations.

Your Committees received testimony in support of this measure from one member of the Maui County Council; Sierra Club of Hawai'i; Puukukui Owners/Residents Neighborhood Organization; International Longshore & Warehouse Union Local 142; Lāhainā Strong; Hawaii Hotel Alliance; UNITE HERE! Local 5; Hawaii's Thousand Friends; Hawai'i Alliance for Progressive Action; Save Our North Shore Neighborhoods; Hawai'i Lodging & Tourism Association; The American Hotel and Lodging Association; Hawai'i Hotel Alliance; and numerous individuals. Your Committees received testimony in opposition to this measure from Hawaii First Realty LLC; O'ahu Short Term Rental Alliance; Papakea G205; Hawai'i Mid and Short-Term Rental Alliance; Hawai'i Association of REALTORS; West Hawaii Association of REALTORS; Kapalua Ridge Resort; Essencia Cleaners; Grassroot Institute of Hawaii; Hawai'i Island REALTORS; Kaua'i Board of REALTORS; Kihei Oasis Vacation Rental-Maui; Maui Vacation Rental Association; REALTORS Association of Maui, Inc.; Airbnb; Hawaii Legal Short Term Rental Alliance; IRC Cleaning; Rental By Owner Awareness Association; Ocean Breeze Hideaway; Hodge Capital; Kona Kai LLC; O'ahu Short Term Rental Alliance; Rentals Maui, Inc.; Maui Chamber of Commerce; Beachside Realty, LLC; Kama'āina Occupied Short-Term Rentals O'ahu; Honolulu Board of REALTORS; and numerous individuals. Your Committees received comments on this measure from the Department of Taxation; Tax Foundation of Hawaii; Maui Hotel & Lodging Association; Ohana Aina Association; Hale Alana Vacation Rental; Airbnb Public Policy, Hawai'i; and numerous individuals.

Your Committees find that certain transient vacation rental units are permitted to operate in the State through zoning laws adopted in each county. Your Committees further find that other transient vacation rental units continue operating only by virtue of their status as legal, nonconforming uses that have been grandfathered in. This measure is intended to address this legal loophole by allowing the counties to amortize or phase out certain transient vacation rentals.

Your Committees also find that the existing housing supply in the State is insufficient to ensure that residents remain in Hawaii. With more and more residents moving away in search of affordable housing, your Committees believe the State and counties need to be more proactive in increasing the housing supply. This measure clarifies the counties' statutorily granted zoning authority regarding phasing out or amortizing certain vacation rentals and is intended to empower the counties to determine what is in the public good for each respective county, including the flexibility to address community-specific concerns.

Your Committees note the concerns that this measure may have an unintended consequence of taxing houseless individuals who reside in their vehicle by expanding the scope of the transient accommodations tax law to include vehicles with sleeping accommodations. Your Committees further note that under the existing definition of "transient accommodation", individuals who are legally residing in their vehicle would be protected from paying the transient accommodations tax, so long as these individuals are not leasing or letting their vehicle for consideration to a transient for less than one hundred eighty days.

Your Committees have amended this measure by:

- (1) Specifying that transient vacation rental units, rather than transient accommodation uses, may be amortized or phased out in an area of any zoning classification;
- (2) Defining "transient vacation rental unit"; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Housing and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2919, S.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2919, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1238-24 Energy & Environmental Protection on S.B. No. 2537

The purpose of this measure is to clarify that the Chief Energy Officer, not the Department of Business, Economic Development, and Tourism, shall be responsible for supporting the renewable portfolio standards and reporting on certain energy matters.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office.

Your Committee finds that Act 122, Session Laws of Hawaii 2019, transferred the duties and responsibilities of the State Energy Coordinator and the functions of the Renewable Energy Facilitator and the then-existing State Energy Office to a newly created Hawaii State Energy Office and Chief Energy Officer. Your Committee further finds that as an oversight, Act 122 did not provide the Chief Energy Officer with the responsibility to support renewable portfolio standards and report on certain energy matters and finds that these responsibilities should be under the Chief Energy Officer's purview.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2537, S.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Finance.

SCRep. 1239-24 Energy & Environmental Protection/Labor & Government Operations on S.B. No. 3103

The purpose of this measure is to require persons who construct a renewable energy generation project sited in the State to provide a signed attestation or declaration regarding compliance with project labor standards to the Department of Business, Economic Development, and Tourism.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations; Hawaii State Energy Office; Pacific Resource Partnership; Operating Engineers Local Union No. 3; Hawaii Regional Council of Carpenters; and Blue Planet Foundation. Your Committees received comments on this measure from Hawaiian Electric and Tesla.

Your Committees find that this measure will stimulate the economy and help the State move toward the goal of one hundred percent renewable energy by 2045. Requiring new large-scale renewable energy projects to pay a prevailing wage will help ensure that workers are compensated fairly and that certain requirements for federal funding or credits are met. Your Committees further find that this measure will provide jobs and opportunities in the State for the renewable energy and construction industries.

Your Committees have amended this measure by:

- (1) Narrowing the definition of "construction" to exclude off-site construction and fabrication and post-construction equipment testing or inspection;
- (2) Adding a definition for "renewable energy";
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Energy & Environmental Protection and Labor & Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3103, S.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3103, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

SCRep. 1240-24 Health & Homelessness/Transportation on S.B. No. 3126

The purpose of this measure is to establish and appropriate funds for an emergency aeromedical services partnership program administered by the Department of Health in partnership with rural counties.

Your Committees received testimony in support of this measure from the Department of Health; Hawaii Health Systems Corporation Corporate Board of Directors; Hawaii Health Systems Corporation – West Hawaii Region; one member of the Maui County Council; one member of the Hawai'i County Council; Hawai'i Fire Department; Maui Fire Department; The Queen's Health System; Hawai'i Pacific Health; Hawaii Medical Service Association; Global Medical Response; Daniel R. Sayre Memorial Foundation, Inc.; Mitsubishi Electric Championship at Hualalai; Kohala Coast Resort Association; Mauna Kea Resort; Hawaii Community Federal Credit Union; Friends of First Responders; Save Medicaid Hawaii; Indivisible Hawai'i Healthcare Team; and numerous individuals. Your Committees received testimony in opposition to this measure from two individuals. Your Committees received comments on this measure from the Office of the Mayor of the County of Kaua'i.

Your Committees find that the State is currently serviced by a single private sector air ambulance provider. Although commercial airlines sometimes transport patients, the commercial carriers are not equipped for advanced life support patients. As a result, if the private air ambulance service is not operational, there are few transportation options available for sick patients. Your Committees further find that a partnership that would share the cost of an air ambulance, such as the one between the Department of Health and the County of Maui, is one means of improving emergency aeromedical services in the State. Your Committees believe that implementing the Maui model across the State will increase the availability of aeromedical transport to all the State's residents. Your Committees note that, excluding the initial cost of purchasing a suitable air ambulance vehicle, the yearly cost of operating one air ambulance unit would be approximately \$4,000,000.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Health & Homelessness and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3126, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3126, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1241-24 Water & Land on S.B. No. 2951

The purpose of this measure is to appropriate funds and establish positions for the Agribusiness Development Corporation to maintain and improve the East Kauai Irrigation System.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Hawaiian Home Lands; Agribusiness Development Corporation; Office of the Mayor County of Kaua'i; County of Kauai Office of Economic Development; Larry Jeffs Farms, LLC; Ulupono Initiative; Local Food Coalition; Hawaii Cattlemen's Council, Inc.; Saiva Siddhanta Church; Hawai'i Farm Bureau; East Kauai Water Users' Cooperative; Kalepa Coalition; and Kekaha Agriculture Association.

Your Committee finds that the East Kauai Irrigation System is a critical source of water in the region that supports agricultural production in Hawaii. The East Kauai Irrigation System is also a century-old system that requires repair, renovation, and improvements. This measure will provide the necessary funding for the maintenance and improvements to the East Kauai Irrigation System to ensure the System continues to provide irrigation water to farm operations in East Kauai.

Your Committee has amended this measure by:

- (1) Changing the appropriation for maintenance of and improvements to the East Kauai Irrigation System to an unspecified amount;
- (2) Changing the number of positions established within the Agribusiness Development Corporation to an unspecified number;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider:

- (1) Appropriating \$750,000 for maintenance of and improvements to the East Kauai Irrigation System; and
- (2) Appropriating funds for three full-time equivalent (3.0 FTE) positions within the Agribusiness Development Corporation.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2951, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2951, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1242-24 Water & Land on S.B. No. 2814

The purpose of this measure is to:

- (1) Require the Department of Agriculture, in collaboration with the Agribusiness Development Corporation and counties, to conduct a water infrastructure study for the State; and
- (2) Appropriate funds to the Department of Agriculture for the statewide water infrastructure study.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation; Ulupono Initiative; Local Food Coalition; Hawai'i Farm Bureau; and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources and Department of Agriculture.

Your Committee finds that water projects are of critical importance to overall food production within the State and must be accurately categorized, properly maintained, and effectively managed. Your Committee further finds that developing an inventory of agricultural water infrastructure through a study is necessary to track the condition and maintenance needs of the State's agricultural water infrastructure.

Your Committee has amended this measure by:

- (1) Specifying that the study shall be an agricultural water infrastructure study;
- (2) Changing the deadline for report submittal to November 1, 2026;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$3,000,000 for fiscal year 2024-2025.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2814, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2814, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1243-24 Water & Land on S.B. No. 1258

The purpose of this measure is to require the Department of Land and Natural Resources to develop and implement an improved management system for the Kaena Point State Park, Makua and Keawaula regions.

Your Committee received testimony in support of this measure from Malama Makua and five individuals. Your Committee received testimony in opposition to this measure from the Hawaii State Aha Moku. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the Makua and Keawaula sections of Kaena Point State Park are of great importance to the State and the Native Hawaiian community. Historically, these areas have been known primarily for traditional Native Hawaiian practices, including fishing practices, warrior training, and medicinal practices, and are places of cultural enlightenment and healing. Your Committee further finds that specific areas within the Makua and Keawaula sections of Kaena Point State Park were closed to overnight access because of overuse and abuse from illegal driving on the beach, unmanaged camping, harmful fishing and gathering practices, and other recreational uses that resulted in hazardous accumulations of rubbish and human waste. Although these

areas were intended to reopen with a proper management system in place that encompasses Hawaiian management values, this proper management system has not been implemented. Your Committee believes that a proper management system for these areas is long overdue and the implementation of an improved management system, as required by this measure, will improve public safety and environmental protection.

Your Committee has amended this measure by:

- (1) Clarifying that the improved management system shall be for the Kaena Point State Park, Makua and Keawaula sections, that is unique and tailored to address the specific public access and natural and cultural resource needs of the two significant and undeveloped portions of Kaena Point State Park;
- (2) Clarifying certain requirements of the Department of Land and Natural Resources in developing and implementing the improved management system;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1258, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1258, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1244-24 Water & Land on S.B. No. 2721

The purpose of this measure is to clarify that violations of part I of chapter 200, Hawaii Revised Statutes, relating to ocean recreation and coastal areas programs, or any rules adopted thereunder, are subject to criminal penalties.

Your Committee received testimony in support of this measure from the Ocean Tourism Collation; Maui Chamber of Commerce; and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that this measure seeks to strengthen enforcement efforts against violations of Hawaii's ocean recreation and coastal areas programs laws.

Your Committee has amended this measure by:

- (1) Deleting all proposed amendments to section 200-14(a), Hawaii Revised Statutes, and replacing them with a provision that makes it a petty misdemeanor to violate any provision of chapter 200, Hawaii Revised Statutes, or rule adopted by the Department of Land and Natural Resources relating to reckless or unauthorized operation of a vessel, unauthorized mooring of a vessel, unauthorized commercial activity, unauthorized camping within state small boat harbors or boating facilities, animal abandonment within state small boat harbors or boating facilities, or creation of animal colonies within state small boat harbors or boating facilities;
- (2) Removing the requirement that individuals knowingly or intentionally violate any rule adopted by the Department of Land and Natural Resources to be guilty of committing a traffic infraction;
- (3) Deleting all proposed amendments to section 200-14(c), Hawaii Revised Statutes, and replacing them with a provision that allows the Environmental Court to, in addition to or as a condition to the suspension of any criminal fines and penalties, deprive the offender of the privilege of operating any vessel, including any thrill craft or vessel engaged in parasailing or water sledding, in certain geographical areas of the waters of the State for a period of no more than twelve months;
- (4) Amending section 200-14.5, Hawaii Revised Statutes, to narrow the Board of Land and Natural Resources' authority to bring legal action to recover for damages resulting from a violation of chapter 200, Hawaii Revised Statutes, rather than subtitle 8 of title 12, Hawaii Revised Statutes, and allow the Board of Land and Natural Resources to, in addition to or as a condition to the suspension of any administrative fines and penalties, deprive the offender of the privilege of registering or titling any vessel for use on state waters, or mooring any vessel in any state small boat harbor, boating facility, or state waters, for a period of not more than twenty-four months;
- (5) Repealing section 200-25, Hawaii Revised Statutes, relating to fines and penalties regarding the Boating Law;
- (6) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2721, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2721, S.D. 2, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

SCRep. 1245-24 Water & Land on S.B. No. 2546

The purpose of this measure is to require hunting guides to:

- (1) Obtain written permission from the owners of private lands before taking their clients to hunt on the private land; and
- (2) Submit a copy of the written permission to the Department of Land and Natural Resources as part of their annual reports.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawai'i Cattlemen's Council; Hawai'i Farm Bureau; Ulupalakua Ranch; and three individuals.

Your Committee finds that this measure will help ensure that guided hunting tours operate in a safe and responsible manner.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2546, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2546, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1246-24 Water & Land/Energy & Environmental Protection on S.B. No. 3142

The purpose of this measure is to authorize the Director of Health to transfer federal capitalization grant funds between the Water Pollution Control Revolving Fund and the Drinking Water Treatment Revolving Loan Fund pursuant to federal regulations.

Your Committees received testimony in support of this measure from the Department of Health and Ulupono Initiative.

Your Committees find that the United States Environmental Protection Agency oversees the State's implementation of the Water Pollution Control Revolving Fund and the Drinking Water Treatment Revolving Loan Fund programs and may withhold or delay future capitalization grants if those programs struggle to expeditiously disburse grant monies. Your Committees further find that combining financial resources from the Drinking Water Treatment Revolving Loan Fund and the Water Pollution Control Revolving Fund will increase state and county flexibility in planning for and responding to emergent or long-term water infrastructure needs.

Your Committees have amended this measure by:

- (1) Specifying that the Governor, rather than the Director of Health, has the authority to transfer or authorize another state official to transfer federal capitalization grant funds;
- (2) Clarifying that certification of the ability to transfer funds by the Attorney General shall be completed only on the initial transfer;
- (3) Clarifying that the transfer limit of funds between programs and in either direction is based on thirty-three percent of the Drinking Water Treatment Revolving Loan Fund capitalization grant amount;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Water & Land and Energy & Environmental Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3142, S.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3142, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1247-24 Judiciary & Hawaiian Affairs on S.B. No. 3242

The purpose of this measure is to:

- (1) Require the Department of Transportation and county transportation agencies to define, regularly identify, and address high-risk and dangerous corridors and intersections; and
- (2) Authorize the Department of Transportation and counties to reduce the maximum speed limit within one mile of a school without first conducting an engineering study.

Your Committee received testimony in support of this measure from the Department of Transportation and Oahu Metropolitan Planning Organization.

Your Committee finds that regularly evaluating high-risk or dangerous corridors and intersections and implementing solutions to mitigate the risk will allow for expedient safety improvements to dangerous areas to help make Hawaii's streets safer.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3242, S.D. 1, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

SCRep. 1248-24 Judiciary & Hawaiian Affairs on S.B. No. 2385

The purpose of this measure is to propose an amendment to article VI, section 3, of the Constitution of the State of Hawaii to:

- (1) Establish a window between September 1 and November 30 during which the Judicial Selection Commission may not present a list of judicial nominees to the Governor or Chief Justice, and require the judicial position to remain vacant until after November 30, when the Governor or Chief Justice may be presented with a list of nominees; and
- (2) Prohibit the Senate from being called into more than two special sessions to consent to judicial appointments, and require that any subsequent appointments made during that legislative interim be held until the beginning of the next regular session for consideration by the Senate.

Your Committee received testimony in opposition to this measure from the Judicial Selection Commission. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that during the interim between regular sessions of the Legislature, the Senate may be called into multiple special sessions to consider judicial appointments pursuant to the Hawaii State Constitution. These special sessions, which can occur at any point throughout the interim, are costly and can be disruptive for Senators who may be working in their districts or traveling. This measure would establish a blackout period that would prevent the Senate from having to come into special sessions in the months leading up to the next regular session, resulting in taxpayer savings and increased government efficiency.

Your Committee has amended this measure by:

- (1) Amending the start date of the window to August 1;
- (2) Deleting language that would have required the judicial position to remain vacant until after November 30, when the Governor or Chief Justice may be presented with a list of nominees;
- (3) Deleting language that would have prohibited the Senate from being called into more than two special sessions to consent to judicial appointments, and required that any subsequent appointments made during that legislative interim be held until the beginning of the next regular session for consideration by the Senate;

- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2385, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2385, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

SCRep. 1249-24 Judiciary & Hawaiian Affairs on S.B. No. 3236

The purpose of this measure is to clarify that if no personal property designation appears in a recorded instrument, the interests of the beneficiaries shall be real property.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands.

Your Committee finds that lower-income native Hawaiians who purchase a unit in a Department of Hawaiian Home Lands project using Low-Income Housing Tax credits must complete a fifteen-year compliance period where the participant satisfies certain income restrictions, verification requirements, inspections, and tenancy occupancy restrictions. During this period, the participant is considered a "renter" and the participant does not receive a homestead lease until after the compliance period has ended. Your Committee further finds that if the participant dies before the fifteen-year compliance period is over and their heir is less than fifty percent Hawaiian, the unit cannot be transferred to the participant's heir and the heir receives nothing. This measure is intended to enable native Hawaiians using Low-Income Housing Tax Credits to purchase a unit to name a successor to their interest in the unit before the end of the fifteen-year compliance period by designating beneficial interests in land placed in a Hawaiian Home Lands land trust as real property rather than of personal property.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3236, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3236, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1250-24 Judiciary & Hawaiian Affairs on S.B. No. 3305

The purpose of this measure is to exempt public charter schools that offer exclusively prekindergarten programs from certain statutory provisions affecting charter schools relating to funding and finance, the use of the weighted student formula, athletics, enrollment, computer science courses and content, and enrollment in industry-credential programs that are applicable to other public charter schools.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning; State Public Charter School Commission; Hawai'i Children's Action Network Speaks!; and Parents and Children Together.

Your Committee finds that exempting prekindergarten-only public charter schools from unnecessary statutory provisions will prevent prekindergarten-only public charter schools from being subjected to requirements that are inapplicable to them by virtue of being prekindergarten only and not serving other grade levels. This measure further ensures efficient operations at Hawai'i's prekindergarten-only public charter schools and creates more access to much-needed, community-based prekindergarten programs across the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3305, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 3305, H.D. 2.

SCRep. 1251-24 Judiciary & Hawaiian Affairs on S.B. No. 3364

The purpose of this measure is to:

- (1) Require the Hawaii Tourism Authority to develop Destination Management Action Plans for each county and perform specific actions in the Plans to meet destination management objectives;
- (2) Expand the Hawaii Tourism Authority's powers and duties;
- (3) Repeals the exemption of the Hawaii Tourism Authority from administrative supervision of boards and commissions;
- (4) Requires the Strategic Tourism Management Plan to include statewide destination management and regenerative tourism efforts and programs; and
- (5) Renames the Tourism Marketing Plan as the Strategic Tourism Management Plan.

Your Committee received testimony in support of this measure from the Hawai'i Tourism Authority; Ho'omana Pono, LLC; Council for Native Hawaiian Advancement; Kohala Coast Resort Association; Maui Hotel & Lodging Association; Hawai'i Lodging & Tourism Association; and one individual.

Your Committee finds that this measure will codify the existing work performed by the Hawaii Tourism Authority to advance destination management and regenerative tourism through the creation of county specific Destination Management Action Plans.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3364, S.D. 2, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 3364, S.D. 2, H.D. 2.

SCRep. 1252-24 Judiciary & Hawaiian Affairs on S.B. No. 2291

The purpose of this measure is to establish advisory boards, focused on workforce development, for the Agribusiness Development Corporation, Hawaii Technology Development Corporation, and Natural Energy Laboratory of Hawaii Authority.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Department of Business, Economic Development, and Tourism; Agribusiness Development Corporation; Hawaii Technology Development Corporation; Local Food Coalition; Hawai'i Farmers Union United; Hawai'i Farm Bureau; and Hawaii Food+ Policy.

Your Committee finds that establishing advisory boards to support departmental and agency initiatives through identifying workforce needs and improving the coordination and alignment with business, community partners, and other government agencies will greatly assist in developing and creating opportunities to expand the workforce in critical areas of future need.

Your Committee has amended this measure by:

- (1) Amending the composition of the advisory board established within the Agribusiness Development Corporation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2291, S.D. 2, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 2291, S.D. 2, H.D. 2.

SCRep. 1253-24 Judiciary & Hawaiian Affairs on S.B. No. 2615

The purpose of this measure is to authorize the counties to require employers to disclose information regarding its employees' wages, benefits, hours, and employment status and deny, revoke, or suspend a building permit application for violating laws relating to wages, benefits, hours, and employment status, under certain conditions.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Office of the Mayor of the City and County of Honolulu; one member of the Hawai'i County Council; two members of the Maui County Council; two members of the Honolulu City Council; Hawaii Regional Council on Carpenters; and Pacific Resource Partnership. Your Committee received comments on this measure from General Contractors Association of Hawaii.

Your Committee finds that there have been recent reports of labor abuse at certain construction projects in the State with workers being subjected to unsafe conditions, wage theft, and being denied required benefits. Your Committee believes that the authority given to the counties in this measure will help stop unscrupulous actors more efficiently, thereby ensuring workers in the State are working under just and fair conditions.

Your Committee has amended this measure by:

- (1) Clarifying that a denial, revocation, or suspension of a building permit is permissible only when the Department of Labor and Industrial Relations, United States Department of Labor, or a judicial order has determined that a violation of law has occurred; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2615, S.D. 1, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 2615, S.D. 1, H.D. 2.

SCRep. 1254-24 Labor & Government Operations on S.B. No. 2866

The purpose of this measure is to require the Executive Branch of the State to develop and maintain a publicly accessible online project management platform.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services.

Your Committee finds that capital improvement projects are construction projects that provide improvements or additions to land, buildings, and infrastructure. Because these projects are typically large and expensive, the public should have access to information related to completed or pending projects. This measure promotes government transparency and provides the public a meaningful way of engagement in the political process.

Your Committee has amended this measure by:

- (1) Specifying that the online project management platform shall be developed and maintained no later than July 1, 2025; and
- (2) Changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2866, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2866, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1255-24 Labor & Government Operations on S.B. No. 2942

The purpose of this measure is to:

- (1) Allow minors under the age of sixteen to work in theatrical employment if the employer procures a valid certificate of employment and the minor is accompanied by a parent, guardian, or a certain responsible adult;

- (2) Require a nurse certified in basic life support to accompany, supervise, and advocate on behalf of a minor who is under the age of one; and
- (3) Require a studio teacher to accompany, teach, and attend to the well-being of minors who have attained the age of five years and are required to but have been excused from attending school.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Stonewall Caucus of the Democratic Party of Hawai'i; Pride at Work - Hawai'i; IATSE Local 665; Hawaii State AFL-CIO; SAG-AFTRA Hawaii Local; and numerous individuals.

Your Committee finds that there is currently no law requiring a nurse or set teacher to be on the film set each day that a minor is employed in theatrical employment. While a set teacher is required to be on the film set every three consecutive days, some production companies have intentionally scheduled a minor's work in such a way as to avoid having a set teacher on set at all. This measure recognizes the importance of ensuring safe working conditions for children, as well as ensuring that their educational opportunities are protected while working on these types of productions.

Your Committee has amended this measure by:

- (1) Replacing references to "studio teacher" with "set teacher";
- (2) Specifying that a set teacher is required on set if a minor is on set for three or more consecutive days;
- (3) Deleting language that would have required a set teacher to accompany and attend to the health, safety, and well-being of a minor on set;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2942, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2942, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1256-24 Labor & Government Operations on S.B. No. 2991

The purpose of this measure is to:

- (1) Require the Hawaii Labor Relations Board to adopt rules establishing criteria for the creation of new bargaining units;
- (2) Require the Hawaii Labor Relations Board to, upon its approval of the application, submit a report to the Legislature, including proposed legislation to consider and create the new bargaining unit, accompanied by a decision and order issued by the Board; and
- (3) Appropriate funds for the development of the criteria and procedures for the creation of new bargaining units, including for staff.

Your Committee received comments on this measure from the Hawai'i Labor Relations Board; United Public Workers, AFSCME Local 646, AFL-CIO; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that despite interest from a number of groups seeking to form bargaining units, existing law does not set forth specific, clear procedures and criteria for when a new bargaining unit should be created. This measure requires the Hawaii Labor Relations Board to adopt rules establishing criteria for the creation of new bargaining units, providing an opportunity for additional prospective bargaining units to be established.

Your Committee has amended this measure by:

- (1) Clarifying that an employee who applies and petitions the Hawaii Labor Relations Board for a new bargaining unit shall not be in an existing bargaining unit and not be part of a category of individuals excluded from collective bargaining;
- (2) Clarifying language related to the Hawaii Labor Relations Board's actions upon making a determination of whether or not to approve a petition to establish a new bargaining unit;
- (3) Changing the expending agency of the appropriation to the Department of Labor and Industrial Relations;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2991, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2991, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Sayama, Alcos).

SCRep. 1257-24 Labor & Government Operations on S.B. No. 3099

The purpose of this measure is to:

- (1) Reduce the minimum number of years of credited service qualified Tier 2 members must have to be eligible for vested benefit status for service retirement allowance purposes from ten years to five years; and
- (2) Appropriate funds for investments into the Employees' Retirement System.

Your Committee received testimony in support of this measure from the Office of the Governor; Department of Budget and Finance; Department of Labor and Industrial Relations; Employees' Retirement System Board of Trustees; Department of Human Resources of the City and County of Honolulu; United Public Workers, AFSCME Local 646, AFL-CIO; University of Hawaii Professional Assembly; and one individual.

Your Committee finds that employees who are members of the Employees' Retirement System are eligible for vested benefit status based on a minimum number of years of credited service. "Tier 1 members" must have a minimum of five years of credited service to be eligible for vested benefit status, while "Tier 2 members" must have a minimum of ten years of credited service to be eligible for vested benefit status. Reducing the minimum number of years of credited service from ten years to five years for Tier 2 members would allow their career track to be on par with Tier 1 members and help state and county employers with the recruitment and retention of qualified employees with minimal impact to the unfunded accrued actuarial liability for pension accumulation.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3099, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3099, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1258-24 Consumer Protection & Commerce on S.B. No. 2913

The purpose of this measure is to establish a new regulatory framework for the sale of travel insurance in the State.

Your Committee received testimony in support of this measure from the Hawaii Insurers Council; Allianz Global Assistance Service Company; United States Travel Insurance Association; and American Property Casualty Insurance Association. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that travel insurance is a type of insurance for risk associated with traveling, such as loss of luggage, trip cancellation, and delays. Travel insurance gives consumers peace of mind when booking a trip well in advance of departure enabling the traveler to be reimbursed for part of or all their expenses should an undesirable event occur that prompts cancellation or interruption of their trip.

Your Committee further finds that a comprehensive and uniform regulatory regime for the sale of travel insurance will greatly benefit consumers by creating a level playing field for the travel insurance market and establishing standard protections and requirements for the sale of travel insurance. Your Committee also finds that this measure closely tracks the Travel Insurance Model Act adopted by the National Council of Insurance Legislators and National Association of Insurance Commissioners and which, as of January 2024, has been adopted by thirty-five states. This measure is intended to clarify and standardize the application of existing laws to the unique aspects of travel insurance.

Your Committee has amended this measure by:

- (1) Specifying that for purposes of classifying and filing travel insurance, travel insurance that provides certain coverage for sickness, accident, disability, or death during travel, may be filed under either an accident and health line of insurance or an inland marine line of insurance;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2913, S.D. 1, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 2913, S.D. 1, H.D. 2.

SCRep. 1259-24 Consumer Protection & Commerce on S.B. No. 2505

The purpose of this measure is to:

- (1) Establish system resilience as a metric to be monitored and considered by the Public Utilities Commission; and
- (2) Authorize the Public Utilities Commission to use amounts collected through the Hawaii Electricity Reliability Surcharge to perform certain duties.

Your Committee received testimony in support of this measure from the Public Utilities Commission and Hawaii Clean Power Alliance. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Hawaiian Electric.

Your Committee finds that grid reliability and resilience are more important than ever, especially after the 2023 Maui wildfires, and given the growing natural disaster risks posed by climate change to the State's electric grid. There are trade-offs between a more resilient grid and a more reliable one, which requires great care in balancing the two priorities. This measure tasks the Public Utilities Commission with considering and monitoring system resilience as part of its regulatory supervision.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2505, S.D. 2, H.D. 1, and recommends that it be referred to your Committee on Finance.

SCRep. 1260-24 Consumer Protection & Commerce on S.B. No. 3010

The purpose of this measure is to require the Department of Land and Natural Resources to work with utility companies and other renewable energy developers on leasing processes to expedite the development of renewable energy.

Your Committee received testimony in support of this measure from Hawaii Gas and Hawaii Clean Power Alliance. Your Committee received comments on this measure from the Public Utilities Commission and 350Hawaii.org.

Your Committee finds that the Department of Land and Natural Resources is required under existing law to work with electric utility companies and other renewable energy developers on planning and permitting processes that expedite the development of renewable energy. This measure seeks to expand the requirement to additionally include collaboration with other utility companies and work on leasing processes, to further renewable energy development and facilitate the private sector's attainment of renewable portfolio standards.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3010, S.D. 1, H.D. 1, and recommends that it be referred to your Committee on Finance.

Ayes, 10; Ayes with Reservations (Hussey-Burdick). Noes, none. Excused, 1 (Sayama).

SCRep. 1261-24 Consumer Protection & Commerce on S.B. No. 2500

The purpose of this measure is to establish and appropriate funds for the Food and Product Innovation Network within the Agribusiness Development Corporation to enable businesses to scale up new products from research and development to manufacturing and commercialization.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Agriculture; Agribusiness Development Corporation; University of Hawai'i System; Hawai'i Farm Bureau; Ulupono Initiative; Hawaii Food Industry Association; Hawai'i Farmers Union United; Chamber of Commerce Hawaii; and Maui Chamber of Commerce.

Your Committee finds that research and product development is risky and requires significant up-front capital, which discourages many of Hawaii's emerging agribusinesses and entrepreneurs from exploring new markets. The establishment of a food and product innovation network will decrease the investment risk for growing businesses and accelerate their efforts to develop new products that promote food resiliency and Hawaii's export marketing. Your Committee further finds that the food and product innovation network proposed by this measure has the ability to significantly assist the State's agricultural businesses by providing space and equipment for farmers and other entrepreneurs to create value-added products made with locally grown and raised agricultural products.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2500, S.D. 2, H.D. 1, and recommends that it be referred to your Committee on Finance.

Ayes, 10. Noes, none. Excused, 1 (Sayama).

SCRep. 1262-24 Consumer Protection & Commerce on S.B. No. 2536

The purpose of this measure is to amend the Hawaii Public Procurement Code by:

- (1) Establishing a new accounting services procurement preference for certain Hawaii accounting service businesses; and
- (2) Clarifying that the existing reciprocity procurement preference includes offerors under the provisions governing competitive sealed bids and competitive sealed proposals.

Your Committee received testimony in support of this measure from Accuity LLP. Your Committee received testimony in opposition to this measure from the State Procurement Office.

Your Committee finds that there is growing concern in the State's accounting industry about a shortage of accountants due to a decrease in the number of accounting graduates from the University of Hawaii. Another major concern is the lack of career opportunities for accounting graduates in Hawaii. The shortage of accountants could have significant implications for businesses and the economy as the demand for accounting services continues to grow. This measure, through a proposed procurement preference, is an opportunity for the State and county governments to provide the opportunities necessary to incentivize the local operation of accounting firms.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2536, S.D. 1, H.D. 1, and recommends that it be referred to your Committee on Finance.

SCRep. 1263-24 Education/Labor & Government Operations on S.B. No. 2070

The purpose of this measure is to temporarily:

- (1) Exempt career and technical education goods and services purchased by the Department of Education from the Procurement Code; and
- (2) Require the Department of Education to acquire three verbal or written quotes for career and technical education purchases of no more than \$100,000.

Your Committees received testimony in support of this measure from the Department of Education; Department of Business, Economic Development, and Tourism; Hawai'i State Energy Office; and three individuals. Your Committees received comments on this measure from the State Procurement Office.

Your Committees find that as the largest department in the State, the Department of Education must procure numerous career and technical education equipment. However, the process to procure career and technical education equipment under the Procurement Code can be lengthy and complicated and can deter schools from purchasing these types of equipment. Your Committees believe that exempting from the Procurement Code educational materials and equipment related to training for direct student instruction in career and technical education programs within the Department of Education will enable the Department to timely acquire these types of materials and equipment, which will provide students with up-to-date skills and knowledge that align with industry standards.

Your Committees have amended this measure by:

- (1) Requiring awards over \$2,500 for career and technical education purchases to comply with statutory provisions requiring offerors, upon award of contract, to comply with all laws governing entities doing business in the State;
- (2) Requiring awards over \$500,000 for career and technical education purchases to be approved by the Superintendent of Education;
- (3) Changing the effective date to July 1, 3000; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committees respectfully request your Committee on Finance, should it deliberate on this measure, to consider requiring the Department of Education to obtain three verbal or written quotes for purchases of more than \$100,000, rather than for those below \$100,000.

As affirmed by the records of votes of the members of your Committees on Education and Labor & Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2070, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2070, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1264-24 Energy & Environmental Protection on S.B. No. 3360

The purpose of this measure is to:

- (1) Increase the dollar amount of the Renewable Fuels Production Tax Credit;
- (2) Amend the maximum amount of the tax credit that can be claimed by a taxpayer;
- (3) Establish an additional tax credit for renewable fuels produced from renewable feedstock locally grown or recycled in the State and an additional tax credit for renewable fuels produced with lifecycle greenhouse gas emissions at least seventy-five percent below that of fossil fuels;
- (4) Amend the credit period and reset taxpayers' ability to claim credits, if they already claimed credits, for taxable years beginning after December 31, 2023; and
- (5) Amend the maximum total amount of tax credits allowed for all eligible taxpayers in a calendar year.

Your Committee received testimony in support of this measure from the Biotechnology Innovation Organization; Hawai'i Farm Bureau; Hawai'i Forest Industry Association; Par Hawaii; Pono Pacific; Pacific Biodiesel; and two individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General and one individual. Your Committee received comments on this measure from the Department of Taxation; Hawaii State Energy Office; Tax Foundation of Hawaii; Airlines for America; and Hawaiian Airlines.

Your Committee finds that the State must incentivize the production of locally sourced, firm renewable energy in order to meet its renewable portfolio standards. This measure would address this need by establishing additional tax credits for certain renewable fuel production practices.

Your Committee has amended this measure by:

- (1) Reinstating the dollar amount of 20 cents per 76,000 British thermal units for the renewable fuels productions tax credit;
- (2) Converting the dollar amount per gallon for the additional credit for renewable fuels produced from certain types of renewable feedstock to 15 cents per 76,000 British thermal units and clarifying that the additional credit includes sustainable aviation fuels;
- (3) Deleting the additional tax credit for renewable fuels produced with lifecycle greenhouse gas emissions at least seventy-five percent below that of fossil fuels but clarifying that the renewable fuels production tax credit shall only be claimed for production of a renewable fuel with lifecycle greenhouse gas emissions at least seventy-five percent below that of the fossil fuel most likely to be replaced by that renewable fuel;
- (4) Clarifying that a taxpayer who previously claimed the renewable fuels production tax credit for taxable years beginning before January 1, 2024, is eligible to claim the credit for a single credit period for taxable years beginning after December 31, 2023;
- (5) Amending the definition of "lifecycle greenhouse gas emissions" to include certain emissions values;
- (6) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3360, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3360, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1265-24 Transportation on S.B. No. 2342

The purpose of this measure is to amend:

- (1) The penalties for repeated traffic violations, repeated reckless driving violations, and repeated violations of excessive speeding;
- (2) The fines for driving without motor vehicle liability insurance; and
- (3) Motor vehicle insurance liability coverage minimums.

Your Committee received testimony in support of this measure from the Department of Transportation; Department of the Prosecuting Attorney of the City and County of Honolulu; Hawaii Association for Justice; and five individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender; American Property Insurance Association; The Hertz Corporation; State Farm Mutual Automobile Insurance Company; and two individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs; Department of the Attorney General; Turo; Hawaii Insurers Council; and one individual.

Your Committee finds that traffic fatalities and injuries in Hawaii have increased, with a record high of one hundred seventeen traffic fatalities and five hundred seventy serious traffic-related injuries in 2022. Your Committee further finds that required motor vehicle insurance minimum policy limits have not been raised in twenty-five years, since the enactment of Act 275, Session Laws of Hawaii 1998. As a result, and accounting for inflation, Hawaii's consumers have less than half of the automobile insurance protection they had when the law was first enacted. This measure is intended to increase public safety for drivers and pedestrians by ensuring an enhanced level of protection for consumers by raising minimum motor vehicle liability coverage requirements and increasing the penalties for various violations to create a greater deterrent to dangerous driving behaviors.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Consumer Protection & Commerce, should it choose to deliberate on this measure, to determine the appropriate effective date for the section requiring the Insurance Commissioner to issue memos soliciting rate filings from motor vehicle insurers to reflect the amendments to the motor vehicle insurance liability coverage minimums made by this measure.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2342, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2342, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

SCRep. 1266-24 Transportation on S.B. No. 2746

The purpose of this measure is to require, with certain exceptions, the securing of mooring lines from vessels requiring tug assistance to the State's commercial docks, wharves, piers, quays, and landings be performed by a stevedoring company.

Your Committee received testimony in support of this measure from the Laborer's International Union Local 368; Plumbers & Fitters Local 675; International Union of Painters and Allied Trades, District Council 50; Hawaii Teamsters and Allied Workers Local 996; International Brotherhood of Electrical Workers, Local Union 1186; International Association of Bridge, Structural, Ornamental and Reinforcing Iron Workers, Local Union Number 625; International Longshore & Warehouse Union Local 142; Operating Engineers Local Union No. 3; and numerous individuals. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii; Grassroot Institute of Hawaii; and one individual. Your Committee received comments on this measure from the Department of Transportation; Public Utilities Commission; Hawaii Gas; General Contractors Association of Hawaii; and Building Industry Association-Hawaii.

Your Committee finds that the companion to this measure, House Bill No. 1936, H.D. 2 (Regular Session of 2024), was previously passed by the House.

Your Committee has amended this measure by deleting its contents and inserting the contents of House Bill No. 1936, H.D. 2, a measure that requires the Department of Transportation to require that the securing of mooring lines from vessels to commercial docks, wharves, piers, quays, and landings be performed by labor subject to collective bargaining.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2746, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2746, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

SCRep. 1267-24 Transportation on S.B. No. 2350

The purpose of this measure is to establish:

- (1) A separate prohibition on driving motor vehicles with noisy mufflers on public highways in high density areas;
- (2) Tiered fines for violations of motor scooter muffler regulations; and
- (3) Tiered fines for violations of motor vehicle muffler regulations.

Your Committee received testimony in support of this measure from the Department of Transportation; Honolulu Police Department; Waikiki Neighborhood Board No. 9; Windward Coalition; Liveable Honolulu; Diamond Head Ambassador Board of Directors; and numerous individuals. Your Committee received testimony in opposition to this measure from Chromeparts and numerous individuals.

Your Committee finds that excessive noise from modified mufflers on motor vehicles and motorcycles significantly contributes to noise pollution in the State, particularly in densely populated areas. Your Committee further finds that although existing law prohibits vehicle owners from installing mufflers that increase the noise of their vehicle, the penalties for doing so are minimal and do little to deter violations. Your Committee believes that increasing the penalties for after-market muffler modifications will reduce violations of existing laws, leading to lower noise levels and greater health and well-being for the State's residents.

Your Committee has amended this measure by:

- (1) Clarifying that the prohibition on driving motor vehicles with noisy mufflers shall be on public highways in high density population areas;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2350, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2350, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

SCRep. 1268-24 Transportation on S.B. No. 2630

The purpose of this measure is to permit pedestrians to act contrary to the statewide traffic code, commonly known as jaywalking, under certain circumstances.

Your Committee received testimony in support of this measure from the Office of the Public Defender; one member of the Kaua'i County Council; Get Fit Kauai – Healthy Eating Active Living Coalition of Kauai County; Hawai'i Appleseed Center for Law & Economic Justice; Hawai'i Public Health Institute; Grassroot Institute of Hawaii; Hawai'i Bicycling League; and numerous individuals. Your Committee received testimony in opposition to this measure from the Department of Transportation; Department of Law Enforcement; Honolulu Police Department; and one individual. Your Committee received comments on this measure from the Department of Health; Hawai'i Climate Change Mitigation and Adaptation Commission; and one individual.

Your Committee finds that jaywalking laws are ineffective at producing roadway safety results and often disproportionately target persons of color and lower income individuals who are more likely to rely on walking as a mode of transportation. Initial data from localities that have decriminalized jaywalking, such as Virginia, Kansas City, and California, show that there has been little to no change in the number of traffic injuries or fatalities. Your Committee further finds that the number of jaywalking-related citations in Hawaii are significantly higher than those in other localities across the nation. Your Committee believes that allowing pedestrians to use their own judgement to safely cross roadways in a manner that would otherwise violate the Statewide Traffic Code without fear of penalty will reduce unnecessary harassment of disadvantaged groups and minorities without increasing traffic injuries or fatalities.

Your Committee has amended this measure by:

- (1) Deleting the preamble;
- (2) Clarifying the standard of care a pedestrian must observe when crossing in a manner contrary to the Statewide Traffic Code;
- (3) Deleting language imposing a minimum fine for speeding violations;
- (4) Inserting a savings clause;

- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes the concern raised in testimony that the requirement that a pedestrian must be two hundred feet from a marked crosswalk before the pedestrian can cross in a manner that would be contrary to the Statewide Traffic Code may be too limiting and may result in unnecessary or unenforceable tickets as police officers and pedestrians may misjudge how far the pedestrian is from a marked crosswalk. Your Committee further notes that it is unclear if this measure would protect pedestrians who cross after a pedestrian-control signal begins flashing or counting down from being ticketed for jaywalking. Therefore, your Committee respectfully requests your Committee on Judiciary & Hawaiian Affairs, should it choose to deliberate on this measure, to consider whether the two hundred foot requirement is necessary and whether additional language should be inserted into this measure to further clarify the circumstances under which a pedestrian may jaywalk without fear of penalty.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2630, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2630, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

SCRep. 1269-24 Water & Land on S.B. No. 2575

The purpose of this measure is to prohibit the:

- (1) Mining, extraction, and removal of minerals from the seabed in all state marine waters, with certain exemptions; and
- (2) Issuance of any permit for or in connection with the development or operation of any facility or infrastructure associated with the mining, extraction, or removal of minerals from the seabed within state marine waters.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Department of Health; Fair Wind Cruises; Sierra Club of Hawai'i; Kua'āina Ulu 'Auamo; Benioff Ocean Science Laboratory; Sustainable Ocean Alliance Hawai'i; Parley for the Oceans, Hawai'i; Hawai'i Youth Climate Coalition; Hawai'i Wildlife Fund; Kauai Women's Caucus; Mālama Pūpūkea-Waimea; Sustainable Coastlines Hawai'i; Deep Sea Mining Campaign; National Parks Conservation Association; Oceanic Preservation Society; Rev Ocean; Blue Climate Initiative; Tetiaroa Society; FutureSwell; The Marine Mammal Center; Marine Conservation Institute; HULIPAC; Te Ipukarea Society; Greenpeace USA; Greenpeace Hawaii; Hawai'i Reef and Ocean Coalition; Climate Protectors Hawai'i; Green Party of Hawai'i; 350Hawaii.org; Big Island Reef Keepers Hui; Americans for Democratic Action; Friends of Hanauma Bay; Environmental Caucus of the Democratic Party of Hawai'i; The Nature Conservancy; Hawaii's Thousand Friends; Surfrider Foundation, Hawai'i Region; The Ocean Foundation; and numerous individuals.

Your Committee finds that this measure is a forward-thinking and proactive response that prohibits seabed mineral extraction in the State's ocean waters.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2575, H.D. 1, and recommends that it be referred to your Committee on Finance.

SCRep. 1270-24 Water & Land/Labor & Government Operations on S.B. No. 2085

The purpose of this measure is to establish the Division of the State Fire Marshal within the Department of Labor and Industrial Relations.

Your Committees received testimony in support of this measure from the Office of the Governor; Department of Labor and Industrial Relations; Hawaii State Fire Council; Honolulu Fire Department; Maui Fire Department; one member of the Maui County Council; Hawaiian Electric; Democratic Party of Hawai'i; and one individual. Your Committees received comments on this measure from the Department of the Attorney General; Department of Land and Natural Resources; and Maui Chamber of Commerce.

Your Committees find that Hawaii is the only state without a State Fire Marshal, whose position was abolished in 1979 and replaced with the State Fire Council. Your Committees further find that the State Fire Council's members serve as non-compensated volunteers as their time allows from their full-time employment. This measure better serves the needs of the State by establishing a dedicated State Fire Marshal.

Your Committees have amended this measure by:

- (1) Deleting its contents and inserting the contents of House Bill No. 1843, House Draft 2, including:
 - (A) Establishing the Office of the State Fire Marshal, rather than a division and having the Governor, instead of the State Fire Council, appoint the State Fire Marshal;
 - (B) Establishing the length of the State Fire Marshal's term of office at ten years;
 - (C) Modifying the duties of the State Fire Marshal;
 - (D) Requiring the State Fire Council to submit a report of its findings and recommendations, including any proposed legislation, to the Legislature by November 1, 2024, including:
 - (i) An organizational plan, including structure and personnel plan, for the Office of the State Fire Marshal;
 - (ii) A description of the roles and division of responsibilities between the State and the counties, and the Office of the State Fire Marshal and the State Fire Council, regarding fire prevention and response; and
 - (iii) Proposed operating budget for the Office of the State Fire Marshal; and
 - (E) Deleting the appropriations for the State Fire Marshal position and operating costs and modifying the full-time equivalent administrative staff positions for the Office of the State Fire Marshal to an unspecified number;
- (2) Not subjecting the appointment of the State Fire Marshal to the advice and consent of the Senate;
- (3) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committees respectfully request your Committee on Finance, should it choose to deliberate on this measure, to establish one full-time equivalent (1.0 FTE) administrative staff position for the Office of the State Fire Marshal.

As affirmed by the records of votes of the members of your Committees on Water & Land and Labor & Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2085, S.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2085, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1271-24 Water & Land/Energy & Environmental Protection on S.B. No. 2753

The purpose of this measure is to clarify that no state or county building code shall prohibit the use of a substitute refrigerant allowed by the Environmental Protection Agency if the applicable equipment is listed and installed in compliance with the latest safety standards.

Your Committees received testimony in support of this measure from the Department of Health; Building Decarbonization Task Force of the Hawai'i Environmental Change Agents; Climate Protectors Hawai'i; and Air-Conditioning, Heating, and Refrigeration Institute.

Your Committees find that certain refrigerants, including hydrofluorocarbons, are potent greenhouse gases that can have an immense impact on global warming. Your Committees further find that the United States Congress passed the American Innovation and Manufacturing Act of 2020 to mandate an eighty-five percent phasedown in hydrofluorocarbon refrigerants. To comply with the American Innovation and Manufacturing Act of 2020, updates to the Hawaii State Building Codes and county building codes are needed. This measure will require the necessary building code updates to provide the certainty that the manufacturing industry needs to comply with the federal regulations and ensure that the transition to alternate refrigerants is safe and efficient.

Your Committees have amended this measure by:

- (1) Requiring the State Building Code Council, when it adopts, amends, or updates the Hawaii State Building Codes, to establish codes and standards that are consistent with the goal of reducing greenhouse gas emissions associated with hydrofluorocarbons;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Water & Land and Energy & Environmental Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2753, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2753, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chairs on behalf of the Committees.

SCRep. 1272-24 Health & Homelessness on S.B. No. 2345

The purpose of this measure is to:

- (1) Require the Department of Law Enforcement to coordinate crisis intervention training for state and county law enforcement officers and crisis intervention officers;
- (2) Authorize a law enforcement officer to call a crisis intervention officer for assistance when the law enforcement officer believes a person is imminently dangerous to self or others; and
- (3) Appropriate funds for positions and training and certification of crisis intervention officers.

Your Committee received testimony in support of this measure from the Department of Health; Office of the Public Defender; Department of Law Enforcement; Office of Hawaiian Affairs; Executive Office on Aging; Disability and Communication Access Board; State Council on Mental Health; The Institute for Human Services, Inc.; Hawai'i Primary Care Association; Alzheimer's Association; State of Hawaii Organization of Police Officers; AARP Hawai'i; Epilepsy Foundation of Hawaii; Hawaii Disability Rights Center; Opportunity Youth Action Hawai'i; and one individual. Your Committee received comments on this measure from The Queen's Health System.

Your Committee finds that many of the individuals cited or arrested in the State for offenses such as drinking liquor in public or camping on sidewalks, beaches, and other restricted places suffer from chronic conditions relating to drugs, alcohol, or mental illness. Your Committee further finds that instead of incarceration, these individuals would be better served by being transported to a medical facility where they can receive treatment for their disorders. This measure is intended to provide law enforcement officers with the training necessary to recognize a person suffering from a mental health crisis and take steps to de-escalate the situation.

Your Committee has amended this measure by:

- (1) Permitting, rather than requiring, the Department of Law Enforcement to coordinate crisis intervention training and restricting the training to state and county law enforcement agencies;
- (2) Defining "crisis intervention training";
- (3) Deleting the definition of "crisis intervention officer";
- (4) Deleting language authorizing a law enforcement officer to call a crisis intervention officer for assistance when the law enforcement officer believes a person is imminently dangerous to self or others;
- (5) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2345, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2345, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1273-24 Judiciary & Hawaiian Affairs on S.B. No. 2387

The purpose of this measure is to correct erroneous references in chapters 520 and 520A, Hawaii Revised Statutes, regarding a landowner's liability.

Your Committee did not receive any written testimony on this measure.

Your Committee finds that this housekeeping measure is necessary to correct erroneous statutory references in chapters 520 and 520A, Hawaii Revised Statutes. Your Committee further finds that these corrections must be executed by the Legislature, rather than through the Legislative Reference Bureau, as there are questions of legislative intent.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2387 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 1274-24 Judiciary & Hawaiian Affairs on S.B. No. 3123

The purpose of this measure is to:

- (1) Authorize the Department of Hawaiian Home Lands to access vital records for purposes of verifying native Hawaiian ancestry for beneficiary programs; and
- (2) Require the Department of Health and Department of Hawaiian Home Lands to enter into a memorandum of agreement to assure appropriate access and handling of confidential records and sealed records that have been unsealed pursuant to court order.

Your Committee received testimony in support of this measure from the Department of Health; Department of Human Services; Department of Hawaiian Home Lands; Office of Hawaiian Affairs; and one individual.

Your Committee finds that Hawaii is a "closed record" state, which means that persons or entities must demonstrate a direct and tangible interest in a vital record to have access to the record. Your Committee further finds that amending the existing law to allow access to the Department of Hawaiian Home Lands for certain purposes and under certain conditions, as proposed by this measure, will greatly reduce administrative barriers in vetting claims of native Hawaiian ancestry for purposes of participating in beneficiary programs while still protecting the privacy of vital records.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3123, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3123, S.D. 2, H.D. 1, and be placed on the calendar for Third Reading.

SCRep. 1275-24 Higher Education & Technology on H.R. No. 131

The purpose of this measure is to urge the Hawaii Tourism Authority, in consultation with the Office of Enterprise Technology Services to conduct a study of the social and safety impacts of geotagging in the State and submit a report of their findings to the Legislature.

Your Committee received comments from the Hawaii Tourism Authority.

Your Committee finds that the Hawaii Tourism Authority does not have adequate funding to conduct this study.

As affirmed by the record of votes of the members of your Committee on Higher Education & Technology that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 131 and recommends that it be referred to your Committee on Finance.

SCRep. 1277-24 Culture, Arts, & International Affairs on S.B. No. 3312

The purpose of this measure is to:

- (1) Adopt, establish, and designate the shaka as the official gesture of the State; and
- (2) Authorize the State Foundation on Culture and the Arts to develop a public work of art related to the shaka and its history to be displayed in a prominent location in the State.

Your Committee received testimony in support of this measure from the Hawaii Bulletin and numerous individuals.

Your Committee finds that all origin theories of the shaka gesture have the shaka developing within the State. Your Committee further finds that the shaka has positive connotations as it is used to share aloha, foster connection, and be poNo. By adopting, establishing, and designating the shaka as the official

gesture of the State, Hawaii can better preserve its brand association with the shaka, better secure recognition as the birthplace of the shaka, and better preserve the meaning of the shaka.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Culture, Arts, & International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3312, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3312, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

SCRep. 1278-24 Culture, Arts, & International Affairs on S.B. No. 2710

The purpose of this measure is to establish the Hawaii Leadership Awards Program to honor Hawaii individuals who have made considerable and outstanding contributions to Hawaii in their respective fields and serve as inspirations to others.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services.

Your Committee finds that the Aloha Order of Merit was established to recognize individuals who have made significant contributions and achieved national and international recognition in a field. Your Committee finds that there is not a similar program to recognize those who have made significant contributions to the State and believes that there are exceptional and notable individuals who deserve recognition for their contributions to Hawaii.

Your Committee has amended this measure by:

- (1) Removing language that establishes a permanent Hawaii Leadership Awards archive;
- (2) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Culture, Arts, & International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2710, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2710, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1279-24 Health & Homelessness on S.B. No. 2322

The purpose of this measure is to require the Department of Health to continue water sampling and analysis of Tier 1 beaches during brown water advisories, with certain exceptions and under certain conditions.

Your Committee received testimony in support of this measure from the Department of Health; Surfrider Foundation, Hawai'i Region; Windward Coalition for Community Concerns; Sierra Club of Hawai'i; Earthjustice; Friends of Maha'ulepu; Hawaii Lifeguard Hui; Waiwaiola Waterkeepers Hawaiian Islands; Center for Biological Diversity; Kia'i Wai O Wai'ale'ale; Polanui Hui; Kaiola Canoe Club; West Maui Preservation Association; HAMER; Hui o He'e Nalu; Friends of Hanauma Bay; Maui Tomorrow; Young Progressives Demanding Action Hawai'i; Kihei Communication Association; Mālama Maunaloa; The Makali'i Group; Hawaii Wildlife Fund; HI Strikes Back; WAI: Wastewater Alternatives and Innovations; and four individuals.

Your Committee finds that the suspension of testing activities of all affected beaches during brown water advisories may lead to inaccurate or incomplete information about pollution levels and the health risks posed to the public by the affected beaches. Your Committee further finds that without testing during brown water events, the Department of Health will be unable to determine if the locations the Department is monitoring experience pollution spikes during heavy rains. Your Committee believes that continuing weekly testing of Tier 1 beaches during brown water advisories will give the State the data needed to effectively enact pollution mitigation efforts and make decisions in the best interests of public health and safety.

As affirmed by the record of votes of the members of your Committee on Health & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2322, S.D. 1, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 1 (Kobayashi).

SCRep. 1280-24 Health & Homelessness on S.B. No. 2461

The purpose of this measure is to:

- (1) Provide that medical cannabis dispensaries may purchase cannabis and manufactured cannabis products from other dispensaries without any showing that the purchase is:
 - (A) Necessary for a qualifying patient's continuous access for medical use; or
 - (B) For medical, scientific, or other legitimate purposes; and
- (2) Require the Department of Health to adopt rules no later than nine months after a medical cannabis product is statutorily permitted to be manufactured and distributed.

Your Committee received testimony in support of this measure from the Hawaii Cannabis Industry Association; Pono Life Maui; Cure Oahu; Hawaiian Ethos; and one individual. Your Committee received testimony in opposition to this measure from the Department of Health. Your Committee received comments on this measure from Akamai Cannabis Consulting.

Your Committee finds that because the Department of Health has full discretion to reject requests for dispensary-to-dispensary sales with no specific timeline to respond, wholesale of cannabis and manufactured cannabis products between dispensaries currently occurs on an emergency basis. As a result, the ability of dispensaries to do future planning, share manufacturing capabilities, or specialize in equipment or products is significantly impaired. Your Committee further finds that the Department of Health has not engaged in rulemaking to allow for the sale of pre-rolled cannabis flower products, even though the sale of these products was authorized by Act 108, Session Laws of Hawaii 2023. Your Committee believes that addressing these issues, as intended by this measure,

will grant dispensaries the flexibility needed to ensure patient access to cannabis and manufactured cannabis products and mitigate the effects of business fluctuations.

As affirmed by the record of votes of the members of your Committee on Health & Homelessness that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2461, S.D. 2, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

SCRep. 1281-24 Higher Education & Technology on S.B. No. 2513

The purpose of this measure is to:

- (1) Establish and appropriate funds to implement a three-year New Wastewater System And Individual Wastewater System Technology Demonstration and Implementation Pilot Program within the University of Hawaii Water Resources Research Center to review, examine, and demonstrate new wastewater technology systems; implement those technologies in wastewater system demonstration projects; and establish prioritization categories similar to those established in the Hawaii Cesspool Hazard Assessment And Prioritization Tool for the islands of Molokai, Lanai, and Niihau; and
- (2) Appropriate funds for positions within the Department of Health's Wastewater Branch.

Your Committee received testimony in support of this measure from the Hawai'i Reef and Ocean Coalition and WAI: Wastewater Alternatives & Innovations. Your Committee received comments on this measure from the Department of Health and Department of Land and Natural Resources.

Your Committee finds that the demonstration and implementation pilot program in this measure is essential to determine the best, most affordable wastewater technologies to minimize the cost of cesspool upgrades while maximizing environmental protection.

Your Committee respectfully requests your Committee on Finance, should it choose to deliberate on this measure, to consider appropriating:

- (1) \$89,500 for fiscal year 2024-2025 to establish one full-time equivalent (1.0 FTE) Engineer V (SR-26) position within the Department of Health's Wastewater Branch; and
- (2) \$82,700 for fiscal year 2024-2025 to establish one full-time equivalent (1.0 FTE) Engineer IV (SR-24) position within the Department of Health's Wastewater Branch,

as requested by the Department of Health in its testimony.

Your Committee also urges the University of Hawaii Water Resources Research Center and Department of Health to work with the University of Hawaii Sea Grant College Program in conducting the pilot program.

As affirmed by the record of votes of the members of your Committee on Higher Education & Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2513, S.D. 2, H.D. 1, and recommends that it be referred to your Committee on Finance.

SCRep. 1282-24 Higher Education & Technology on S.B. No. 2502

The purpose of this measure is to require the University of Hawaii to establish and implement a two-year program to develop web-GIS wildfire susceptibility and vulnerability maps for the State to determine which communities, landscapes, buildings, and infrastructure are most vulnerable to future wildfires.

Your Committee received testimony in support of this measure from the University of Hawai'i System and Democratic Party of Hawai'i. Your Committee received comments on this measure from the Maui Chamber of Commerce.

Your Committee finds that web-GIS wildfire susceptibility and vulnerability maps help identify areas that are more susceptible to wildfire hazard, allow decision-makers to prioritize high-risk areas for targeted risk-reduction strategies, and assist in the development of adaptation policies that lessen the disastrous impacts of future wildfires. Your Committee further finds that decision-makers can use wildfire vulnerability maps to guide zoning regulations to reduce the impact of wildfires on communities. Your Committee also finds that government authorities will be more informed about policies allowing construction in vulnerable areas and locating essential facilities, such as hospitals, schools, and fire stations, in areas that are less vulnerable to wildfires.

As affirmed by the record of votes of the members of your Committee on Higher Education & Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2502, S.D. 2, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 2 (Martinez, Quinlan).

SCRep. 1283-24 Higher Education & Technology on S.B. No. 2284

The purpose of this measure is to establish a two-year program at the University of Hawaii to develop a wildfire forecast system for the State using artificial intelligence.

Your Committee received testimony in support of this measure from the University of Hawai'i System and Democratic Party of Hawai'i. Your Committee received comments on this measure from the Maui Chamber of Commerce.

Your Committee finds that an early-detection system will assist in forecasting potential wildfire incidents across the State and will enhance public safety, disaster preparedness, and risk mitigation.

As affirmed by the record of votes of the members of your Committee on Higher Education & Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2284, S.D. 2, H.D. 1, and recommends that it be referred to your Committee on Finance.

SCRep. 1284-24 Energy & Environmental Protection on S.B. No. 3194

The purpose of this measure is to authorize independent generators of renewable energy to wheel the renewable energy they produce to users of renewable energy under policies and procedures established by the Public Utilities Commission.

Your Committee received testimony in support of this measure from the Public Utilities Commission; Hawaii Solar Energy Association; Kauaʻi Island Utility Cooperative; Blue Planet Foundation; Environmental Caucus of the Democratic Party of Hawaiʻi; Hawaii Clean Power Alliance; and one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs; Hawaii State Energy Office; Life of the Land; Ulupono Initiative; and Hawaiian Electric.

Your Committee finds that independent renewable energy generators are not authorized under existing state law to engage in retail wheeling, limiting a potential source of renewable energy in the State. This measure authorizes independent generators of renewable energy to engage in retail wheeling pursuant to policies and procedures established by the Public Utilities Commission, if and when the Commission determines that retail wheeling is in the public interest.

Your Committee has amended this measure by:

- (1) Specifying that the Public Utilities Commission will use an investigatory docket that examines certain issues related to retail wheeling in its determination of whether retail wheeling is in the public interest;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3194, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3194, S.D. 2, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

SCRep. 1285-24 Economic Development on S.B. No. 3265

The purpose of this measure is to:

- (1) Establish the Hawaii Film Advisory Council;
- (2) Amend the Motion Picture, Digital Media, and Film Production Income Tax Credit to:
 - (A) Amend the aggregate cap amount;
 - (B) Extend the sunset date of the Tax Credit to January 1, 2039;
 - (C) Clarify the requirements for obtaining an independent third-party certification for the Tax Credit;
 - (D) Expand the definition of "qualified production" to include streaming platforms; and
 - (E) Amend the definition of "qualified production costs" to include fashion production and music production costs;
- (3) Provide a general excise tax exemption for certified development of film studio facilities; and
- (4) Appropriate funds for the establishment of one full-time equivalent film industry development liaison position, and associated administrative costs, within the Creative Industries Division of the Department of Business, Economic Development, and Tourism.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; University of Hawaiʻi System; Honolulu Film Office; Department of Research and Development of the County of Hawaiʻi; Hawaii Media Inc.; Hawaii State AFL-CIO; SAG-AFTRA Hawaii Local; ʻŌhina LLC; Motion Picture Association; Kapolei Chamber of Commerce; IATSE Local 665; Chamber of Commerce Hawaii; Hawaiʻi International Film Festival; Island Film Group; and numerous individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that collaboration with the film industry has been of great benefit for Hawaii, helping the State diversify its economy with industry spending currently at \$400,000,000 and economic output at over \$700,000,000 annually. Your Committee further finds that the establishment of a Hawaii Film Advisory Council will strategically position Hawaii as a premier destination for filmmakers, attracting high-profile productions and stimulating economic activity.

Your Committee has amended this measure by:

- (1) Amending the Hawaii Film Advisory Council membership;
- (2) Amending the definition of "qualified production costs" to include costs associated with the creation, design, fashion, and accessories products created by Hawaii businesses for use in the production and costs associated with the contracting and licensing of Hawaii-originated music to be utilized in on-camera use or post-production, rather than fashion production and music production costs;
- (3) Deleting language that would have:
 - (A) Provided a general excise tax exemption for certified development of film studio facilities; and
 - (B) Amended the aggregate cap amount for and extended the sunset date of the Motion Picture, Digital Media, and Film Production Income Tax Credit;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3265, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3265, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

SCRep. 1286-24 Economic Development on S.B. No. 2497

The purpose of this measure is to amend the tax credit for research activities by:

- (1) Changing the total amount of certified credits to an unspecified sum;

- (2) Extending the sunset date of the tax credit; and
- (3) Narrowing the qualifying criteria for the tax credit to qualified high technology businesses that are small businesses registered in the State.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Technology Development Corporation; Makai Ocean Engineering, Inc.; H Nu Photonics LLC; Oceanit; Chamber of Commerce Hawaii; Hawaii Food Industry Association; and one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that research activities have been shown to be effective in stimulating regional or state technology and research and development sectors. Your Committee further finds that for the past two years, the existing maximum amount of \$5,000,000 for the tax credit for research activities is often reached very quickly after applications for the tax credit open, leaving many eligible businesses unable to take advantage of the tax credit. This measure will amend the maximum amount of the tax credit for research activities while narrowing the qualifying criteria for the tax credit to small businesses to allow for more research and development companies to qualify for the credit and benefit small businesses in the research sector.

Your Committee has amended this measure by:

- (1) Repealing the provision that excluded the applicability of the base amount in the Internal Revenue Code in determining qualified research expenses;
- (2) Amending the definition of "qualified high technology business";
- (3) Inserting a definition for "small business";
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider amending the maximum aggregate amount of tax credits for research activities that can be certified per year to \$15,000,000.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2497, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2497, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1287-24 Economic Development on S.B. No. 2081

The purpose of this measure is to establish the Aerospace and Aeronautics Development Program within the Department of Business, Economic Development, and Tourism.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Technology Development Corporation; Alliance for Collaboration in the Exploration of Space; Chamber of Commerce Hawaii; and one individual.

Your Committee finds that the fields of aerospace and aeronautics have played a pivotal role in expanding and diversifying the national economy by forging new inroads to scientific discovery, advancing national engineering and manufacturing expertise, pioneering innovations in communications and computer technologies, enhancing surveillance of our home planet, and enabling a better understanding of weather systems and climate change. Your Committee further finds that Hawaii's strategic near-equatorial location, geography, resident expertise in a broad range of aerospace- and aeronautics-related technologies, and long-standing ties with space-faring nations throughout the Asia-Pacific region provide vital assets and promise great capabilities. Your Committee believes that establishing the Aerospace and Aeronautics Development Program will promote the growth and diversification of the State's aerospace and aeronautics businesses, diversify the State's economy, and create high paying jobs.

Your Committee has amended this measure by:

- (1) Appropriating funds for the establishment of one full-time equivalent position within the Hawaii Technology Development Corporation to assist the Corporation's aerospace coordinator;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$75,000 for an aerospace development specialist; \$40,000 for program travel and conferences; and \$35,000 for consulting and subject matter expertise support.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2081, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2081, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 1 (Kong).

SCRep. 1288-24 Economic Development on S.B. No. 2974

The purpose of this measure is to establish a Business Revitalization Task Force to identify methods to improve Hawaii's general economic competitiveness and business climate, including by mitigating regulatory and tax burdens.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawai'i Farm Bureau; Retail Merchants of Hawaii; Hawaiian Telcom; Kapolei Chamber of Commerce; Chamber of Commerce Hawaii; Hawaii Food Industry Association; Maui Chamber of Commerce; and two individuals. Your Committee received testimony in opposition to this measure from UNITE HERE Local 5.

Your Committee finds that the State continues to be ranked low in terms of business opportunities and economic competitiveness by many organizations. The low rankings largely reflect the uniqueness of the State's geographic location and its economic structure, having a smaller market for new products and relying heavily on a few industries. Your Committee further finds that the State needs to balance economic growth with environmental concerns, social equity, and government finances. Your Committee believes that the establishment of a task force is an important means of collecting ideas from stakeholders and addressing the economic challenges the State faces.

Your Committee has amended this measure by:

- (1) Amending the Business Revitalization Task Force's membership;

- (2) Requiring the Task Force to:
 - (A) Select a chairperson from among certain members;
 - (B) Meet no less than quarterly;
 - (C) Develop recommendations for improving governmental operations and reducing costs; and
 - (D) Consider reports issued by the Auditor; State Ethics Commission; Department of Business, Economic Development, and Tourism; and University of Hawaii Economic Research Organization and any other relevant reports in performing its duties;
- (3) Authorizing the Task Force to conduct its meetings by teleconference or other similar means;
- (4) Requiring that any staff to assist the Task Force in performing its duties be assigned by the Department of Business, Economic Development, and Tourism or the President of the Senate, Speaker of the House of Representatives, and Governor;
- (5) Allowing the Task Force to submit all or parts of its recommendations to the Legislature prior to the submission of its report;
- (6) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that the establishment and activities of the Business Revitalization Task Force can be accomplished without funding. However, your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$50,000.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2974, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2974, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1289-24 Consumer Protection & Commerce on S.B. No. 2726

The purpose of this measure is to require the Legislative Reference Bureau to conduct a study on condominium subjects, which will help the Condominium Property Regime Task Force fulfill its obligation under Act 189, Session Laws of Hawaii 2023.

Your Committee received testimony in support of this measure from the Palehua Townhouse Association; Hawaii First Realty LLC; Angel's Site Management Solutions; Community Associations Institute, Legislative Action Committee, Hawaii Chapter; Honolulu Tower AOA; Chamber of Sustainable Commerce; AARP Hawai'i; and numerous individuals. Your Committee received comments on this measure from the Legislative Reference Bureau; State Procurement Office; and Kokua Council.

Your Committee finds that Act 189, Session Laws of Hawaii 2023, established the Condominium Property Regime Task Force, which was tasked with:

- (1) Examining and evaluating issues regarding condominium property regimes governed by the Condominium Property Act;
- (2) Conducting an assessment of the alternative dispute resolution systems established by the Legislature;
- (3) Investigating whether additional duties and fiduciary responsibilities should be placed on members of the boards of directors of condominium property regimes; and
- (4) Developing any legislation necessary.

Your Committee further finds that the Condominium Property Regime Task Force requires further research so that it may better complete its objectives. Information provided by the Legislative Reference Bureau, as proposed by this measure, will enable the Task Force to develop potential legislation on an informed and objective basis.

Your Committee has amended this measure by:

- (1) Extending the deadline for the final report and the cease date for the Condominium Property Regime Task Force to June 30, 2026;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2726, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2726, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1290-24 Consumer Protection & Commerce on S.B. No. 3365

The purpose of this measure is to:

- (1) Require the Department of Agriculture to:
 - (A) Certify treatments performed on wood chips, compost, and filter socks; and
 - (B) Prohibit the intrastate distribution of untreated plant care components that originated outside the State; and
- (2) Place certain restrictions on the distribution or transportation of plant care components without prior treatment certification from the Department of Agriculture.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; and Hawai'i Farmers Union United.

Your Committee finds that it is critically important to prevent destructive invasive species from entering the State. Your Committee further finds that wood chips, compost, and filter socks may be used to enrich the soil with nutrients and prevent erosion. However, when left untreated, wood chips, compost, and filter socks may be a source of invasive species. Your Committee notes that in particular, wood chips and compost are a known vector for the highly invasive

coconut rhinoceros beetle. This measure ensures these materials are treated and certified before distribution, which will significantly mitigate the risk of pest infestation and promote the protection of the State's agricultural industry and the environment.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes the concerns raised in testimony by the Department of Agriculture that the phrase "entering the State" as used in this measure may be in conflict with existing law regulating the inspection of commodities. As written, this measure would require the Department of Agriculture to inspect and release regulated goods before all requirements, such as treatment for pests, have been met. The Department indicated that treatment for pests occurs either prior to entry into the State or, if a pest infestation is discovered upon inspection, while the shipment is in quarantine. Therefore your Committee respectfully requests your Committee on Finance, should it choose to deliberate on this measure, to consider inserting language clarifying that plant care components be either treated prior to entering the State or quarantined until treatment is completed.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3365, S.D. 2, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 3365, S.D. 2, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 1 (Sayama).

SCRep. 1291-24 Consumer Protection & Commerce on S.B. No. 3183

The purpose of this measure is to:

- (1) Beginning July 1, 2025, establish a county mileage-based road usage charge for electric vehicles, while allowing, until June 30, 2028, owners of electric vehicles the choice of paying a \$50 registration surcharge in lieu of the county mileage-based road usage charge;
- (2) Clarify the collection and disposition of funds from the state and county mileage-based road usage charges; and
- (3) Establish a \$50 maximum state mileage-based road usage charge until June 30, 2028.

Your Committee received testimony in support of this measure from the Department of Transportation; Hawaii State Energy Office; Department of Transportation Services of the City and County of Honolulu; Oahu Metropolitan Planning Organization; Ulupono Initiative; and one individual. Your Committee received comments on this measure from the Tax Foundation of Hawaii; Alliance for Automotive Innovation; Hawai'i Automobile Dealers Association; and Hawaii Electric Vehicle Association.

Your Committee finds that increasing popularity of electric vehicles has presented opportunities and challenges for Hawaii's transportation infrastructure. The State's fuel tax revenue, which is used to fund necessary road maintenance and infrastructure, is declining as more of the State's residents adopt electric vehicles. To address the loss of fuel tax revenue, Act 222, Session Laws of Hawaii 2023, enacted a mileage-based road usage charge on electric vehicles to establish a fair and sustainable means of funding for the maintenance and improvement of roadways owned and maintained by the State. Your Committee further finds that the counties are facing a similar decline in county fuel tax revenue, leading to a shortfall in funding for the maintenance of county road infrastructure. This measure is intended to establish a mileage-based road usage charge on the county level to ensure that all of the State's roads and bridges are safe and accessible as Hawaii begins transitioning to a fair and sustainable source of transportation funding.

Your Committee has amended this measure by:

- (1) Specifying that the rate for the county mileage-based road usage charge is to be comparable to the county fuel tax on gasoline and no more than the estimated county fuel tax; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3183, S.D. 2, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 3183, S.D. 2, H.D. 2.

SCRep. 1292-24 Consumer Protection & Commerce on S.B. No. 2518

The purpose of this measure is to require and appropriate funds for the Hawaii State Energy Office to conduct a statewide environmental assessment for, and subsequently administer, a geothermal resources characterization program under the direction of the Hawaii Groundwater and Geothermal Resources Center at the University of Hawaii.

Your Committee received testimony in support of this measure from the Department of Research and Development of the County of Hawai'i; Ulupono Initiative; Hawaiian Electric; Chamber of Commerce Hawaii; Sustainable Energy Hawai'i; Blue Planet Foundation; Innovations Development Group, Inc.; Indigenous Consultants, LLC; and six individuals. Your Committee received comments on this measure from the Hawaii State Energy Office.

Your Committee finds that geothermal energy is heat that was generated during the planet's formation stored in rocks and fluids and brought as steam to the Earth's surface using deep wells. The steam drives turbines to generate electricity. Your Committee further finds that geothermal has been identified as a near-term and mid-term decarbonization opportunity for Hawaii. Geothermal energy thus has the potential to play an extremely significant role in meeting the State's energy objectives of reliability, affordability, and diversification. Because geothermal exploration and identification require significant investment of upfront capital, underlying research to confirm the viability of geothermal is needed. This measure therefore provides the Hawaii State Energy Office with the necessary authorization to explore for geothermal resources.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2518, S.D. 2, H.D. 1, and recommends that it be referred to your Committee on Finance.

SCRep. 1293-24 Consumer Protection & Commerce on S.B. No. 2770

The purpose of this measure is to authorize the counties to establish an opt-in program that allows an annual payment in lieu of real property taxes for land or improvements that produce or store renewable energy sold to an electric utility.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office; Department of Budget and Fiscal Services of the City and County of Honolulu; Hawaii Solar Energy Association; Clearway Energy Group; Ulupono Initiative; Longroad Energy; Hawaiian Electric; and one individual.

Your Committee finds that Act 97, Session Laws of Hawaii 2015, established a one hundred percent renewable portfolio standard for electric utilities by December 31, 2045, which requires that all net electricity sales be from renewable energy sources. Your Committee further finds that several renewable energy projects have faced drastic property tax increases, which have impacted the financial viability of those projects and created uncertainty for future renewable energy projects. This measure will provide more certainty for developers of renewable energy projects by allowing the counties to establish opt-in programs for in-lieu payments of real property taxes.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2770, H.D. 1, and recommends that it be referred to your Committee on Finance.

SCRep. 1294-24 Consumer Protection & Commerce on S.B. No. 3021

The purpose of this measure is to:

- (1) Rename the Electric Bicycle and Electric Moped Rebate Program the Electric Mobility Rebate Program; and
- (2) Expand eligibility and amend the maximum rebate amounts available under the Electric Mobility Rebate Program.

Your Committee received testimony in support of this measure from the Department of Transportation; Hawaii State Energy Office; Hawaii Climate Change Mitigation and Adaptation Commission; one member of the Kaua'i County Council; Oahu Metropolitan Planning Organization; Hawai'i Bicycling League; Ulupono Initiative; Hawaii Electric Vehicle Association; Hawai'i Appleseed Center for Law & Economic Justice; 350Hawaii.org; Carbon Cashback Hawai'i; Blue Planet Foundation; Kauai Climate Action Coalition; and three individuals.

Your Committee finds that Hawaii households face two challenges with respect to transportation. The first is financial. For Hawaii households, owning a personal vehicle costs about \$8,100 per year. The second is environmental. Ground transportation accounts for roughly twenty-five percent of greenhouse gas emissions in the State.

To address these dual challenges, your Committee finds that electric mobility devices, including adaptive electric bicycles, electric bicycles, electric cargo bikes, electric micro-mobility devices, and electric mopeds, offer a more affordable transportation option for Hawaii households while simultaneously reducing carbon emissions. This measure encourages the further adoption of electric mobility devices by creating multiple rebate levels, expanding the availability of the rebate, and increasing the amount additional qualified individuals would receive.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3021, S.D. 2, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Nakashima, Hussey-Burdick, Lowen, Tam).

SCRep. 1295-24 Consumer Protection & Commerce on S.B. No. 3128

The purpose of this measure is to:

- (1) Extend the transfer of the Oahu Regional Health Care System (Oahu Region) from the Hawaii Health Systems Corporation to the Department of Health to December 31, 2026;
- (2) Require the working group established by Act 212, Session Laws of Hawaii 2021, to submit a report to the Legislature on updates to the operating and budget plan and pro forma capital improvements plan and a breakdown of costs related to the transfer;
- (3) Require the Oahu Region and Department of Health to enter into an agreement regarding the Oahu Region taking care of low acuity patients in the Department's custody by the end of 2024; and
- (4) Require the Oahu Region to report to the Legislature prior to the Regular Session of 2026.

Your Committee received testimony in support of this measure from the Department of Health and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committee received comments on this measure from the Hawaii Health Systems Corporation Corporate Board of Directors and Oahu Regional Health Care System of the Hawaii Health Systems Corporation.

Your Committee finds that the Hawaii Health Systems Corporation comprises five semi-autonomous health care regions within the State, one of which is the Oahu Regional Health Care System (Oahu Region). However, the Oahu Region is unique because of the limited services its facilities, Leahi Hospital and Maluhia, provide. Rather than serving the general population, Leahi Hospital and Maluhia serve primarily long-term care and Medicaid patients and thus operate as de facto safety net social services.

Your Committee further finds that, due to these characteristics, the Legislature concluded that the Department of Health was best suited to operate Leahi Hospital and Maluhia. This was based on the Department of Health's existing operation of the Hawaii State Hospital, a facility that does not generate revenue but provides necessary care for mentally ill patients. Thus, through Act 212, Session Laws of Hawaii 2021, the Legislature mandated the transfer of the Oahu Region's facilities to the Department of Health with a deadline of December 31, 2022.

However, your Committee also finds that transfer efforts were hampered by various obstacles, including the high complexity of the transfer and public health emergencies stemming from the water contamination at Red Hill and the COVID-19 pandemic. As a result, the deadline was extended by Act 150, Session Laws of Hawaii 2022, to December 31, 2025. Nonetheless, your Committee finds concerns remain over the transition. This measure further extends the transition to December 31, 2026, to provide adequate time to address the concerns.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3128, S.D. 2, H.D. 1, and recommends that it be referred to your Committee on Finance.

SCRep. 1296-24 Consumer Protection & Commerce on S.B. No. 2605

The purpose of this measure is to:

- (1) Beginning January 1, 2026, require health insurers, mutual benefit societies, and health maintenance organizations, and health benefits plans under the Hawaii Employer-Union Health Benefits Trust Fund, to provide health insurance coverage for various sexual and reproductive health care services;
- (2) Require the Insurance Division of the Department of Commerce and Consumer Affairs to submit a report to the Legislature regarding the mandated health insurance coverage; and
- (3) Establish a Reproductive Health Care Working Group and require the Working Group to submit reports to the Legislature.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; University of Hawaii Professional Assembly; Indivisible Hawaii Healthcare Team; Planned Parenthood Alliance Advocates – Hawaii; Hawaii Medical Service Association; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Stonewall Caucus of the Democratic Party of Hawai'i; Women's Caucus of the Democratic Party of Hawai'i; Kauai Women's Caucus; Essential Access Health; and numerous individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs; and Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs.

Your Committee finds that all persons in the State – regardless of income, wealth, or type of insurance – should have access to the full range of preventive sexual and reproductive health services at no cost. Your Committee further finds that the federal Patient Protection and Affordable Care Act of 2010 (P.L. 111-148) mandates that coverage include certain preventive sexual and reproductive health services. However, the continued existence of these covered services is at risk with ongoing litigation. As such, this measure codifies the preventive service coverage requirements of the federal Patient Protection and Affordable Care Act of 2010 into state law. Your Committee also finds that the Reproductive Health Care Working Group established by this measure will provide the Legislature with important information regarding barriers to and gaps in reproductive health care in the State.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2605, S.D. 2, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

SCRep. 1297-24 Consumer Protection & Commerce on S.B. No. 2837

The purpose of this measure is to:

- (1) Temporarily authorize the Oahu Regional Health Care System to oversee the operations and management agreement of the proposed Maui State Veterans Home; and
- (2) Establish a timeline and process whereby the permanent ownership and oversight of the operations and management agreement of the proposed Maui State Veterans Home is reassigned to the Maui Regional Health Care System.

Your Committee received testimony in support of this measure from the Department of Defense; Maui Regional Health Care System of the Hawaii Health Systems Corporation; Oahu Region Health Care System of the Hawaii Health Systems Corporation; Hawaii Health Systems Corporation Corporate Board of Directors; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Oahu Veterans Council; and three individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that veterans have served the country and State with honor, courage, and at great personal sacrifice and family cost. There are approximately one hundred thousand veterans in the State, of which forty-one thousand are aged sixty-five and older.

Your Committee further finds that State Veterans Homes are long-term care facilities that provide nursing home, domiciliary, or adult day care and are owned, operated, and managed by state governments. The United States Department of Veterans Affairs authorized two hundred sixty-eight beds for State Veterans Homes in Hawaii. The Yukio Okutsu State Veterans Home in Hilo, Hawaii has ninety-five beds. The Daniel K. Akaka State Veterans Home on Oahu is under construction and will have one hundred twenty beds. At this time, there is not a State Veterans Home to serve the seven thousand five hundred veterans on Maui.

Your Committee also finds that the Department of Defense is in the process of constructing a State Veterans Home on Maui. However, the Department of Defense does not have the medical expertise for continued operational oversight of a long-term care facility. Accordingly, this measure temporarily transfers the oversight of the State Veterans Home on Maui to the Oahu Regional Health Care System and then permanently transfers the oversight to the Maui Regional Health Care System.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2837, S.D. 2, H.D. 1, and recommends that it be referred to your Committee on Finance.

SCRep. 1298-24 Consumer Protection & Commerce on S.B. No. 3125

The purpose of this measure is to:

- (1) Authorize minors who are fourteen years of age or older to consent to medical care and services for sexually transmitted infections, pregnancy, and family planning services, including the prevention of sexually transmitted infections; and
- (2) Require health insurance plans and health care providers to maintain confidentiality policies and procedures for minor-initiated medical care and services.

Your Committee received testimony in support of this measure from the Department of Health; Disability and Communication Access Board; Kumukahi Health+ Wellness; Parents And Children Together; Hawai'i Health & Harm Reduction Center; Opportunity Youth Action Hawai'i; Stonewall Caucus of the Democratic Party of Hawai'i; Drug Policy Forum of Hawai'i; Essential Access Health; and numerous individuals. Your Committee received testimony in opposition to this measure from numerous individuals.

Your Committee finds that this measure supports critical treatment of minors diagnosed with sexually transmitted infections, including the human immunodeficiency virus (HIV). Existing statutes do not appear to permit minors to consent to medical care related to the prevention of sexually transmitted

infections such as HIV, which is a critical gap in access to medical care. Permitting minors who cannot or will not seek the consent of their parents or guardians to consent to HIV medical care is essential to the health of the minor and a valuable step in ending the HIV epidemic in Hawaii.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3125, S.D. 2, H.D. 1, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Pierick). Excused, 4 (Nakashima, Hussey-Burdick, Lowen, Tam).

SCRep. 1299-24 Judiciary & Hawaiian Affairs on S.B. No. 572

The purpose of this measure is to authorize and specify conditions under which the Department of Agriculture may declare a biosecurity emergency, during which the Department and Governor may take certain actions to prevent the establishment or spread of pests and prohibited or restricted organisms, and broaden the objectives and general actions of the Biosecurity Program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; Hawai'i Farm Bureau; Maui Chamber of Commerce; Hawaii Floriculture and Nursery Association; and two individuals. Your Committee received testimony in opposition to this measure from Hawaii Harbors Users Group.

Your Committee finds that under existing law, the Department of Agriculture has two main options to take emergency action on an invasive pest: request the Governor to declare a state of emergency due to potential loss of the environment or adopt emergency rules, including rules for the quarantine of an area or commodity. The Department may act on an invasive species or its host only if the pest has been declared a pest by the Board of Agriculture; however, the Board of Agriculture has not established a process for designating pests. Your Committee further finds that this measure provides an alternative to the existing options, which may not allow the rapid response and flexibility required to timely contain or eradicate pests.

Your Committee has amended this measure by:

- (1) Clarifying that a requisition shall terminate automatically one hundred calendar days after the declaration of a biosecurity emergency, or by a separate proclamation by the Governor;
- (2) Removing language that would have allowed awards paid out for claims for damage when the Governor requisitions and takes control of any property due to a biosecurity emergency to be paid out of the general revenues of the applicable county; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 572, S.D. 2, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 572, S.D. 2, H.D. 2.

SCRep. 1300-24 Judiciary & Hawaiian Affairs on S.B. No. 2556

The purpose of this measure is to permanently establish and appropriate funds for the Community Outreach Court as a division of the District Court of the First Circuit.

Your Committee received testimony in support of this measure from the Judiciary; Governor's Coordinator on Homelessness; Office of the Public Defender; Department of Law Enforcement; Department of Human Services; Partners In Care; Hawaii Substance Abuse Coalition; and ACLU of Hawai'i. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that over the course of six years, the Community Court Outreach Project has held several court sessions across Oahu. Through these sessions, the Community Court has addressed more than ten thousand cases, recalled more than nine hundred bench warrants, lifted more than six thousand driver license stoppers, and assisted more than six hundred participants with social services or referrals. This measure would further support the Community Court and provide much needed resources and funding to assist the Court's clients and operations.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2556, S.D. 2, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 2556, S.D. 2, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 2 (Holt, Souza).

SCRep. 1301-24 Judiciary & Hawaiian Affairs on S.B. No. 2512

The purpose of this measure is to establish notice and reporting requirements for the transfer of certain contributions or grants received by the State pursuant to the Governor's emergency powers.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure will enhance government transparency, especially during a state of emergency.

Your Committee has amended this measure by:

- (1) Clarifying that the notice and reports are related to the expenditure or use of resources; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2512, S.D. 2, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 2512, S.D. 2, H.D. 2.

SCRep. 1302-24 Judiciary & Hawaiian Affairs on S.B. No. 2836

The purpose of this measure is to ensure that the State has a unified vision and approach toward the development and redevelopment of public lands on Maui by establishing an Interagency Council for Maui Housing Recovery to coordinate effective and efficient housing development and redevelopment of state and county lands on Maui.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Department of Hawaiian Home Lands; Office of Planning and Sustainable Development; Maui Chamber of Commerce; and Maui Hotel & Lodging Association. Your Committee received comments on this measure from the Office of the Governor and one individual.

Your Committee finds that the interagency council proposed by this measure would provide effective coordination among federal, state, and county agencies and the Maui community to facilitate the recovery of permanent housing on Maui.

Your Committee has amended this measure by:

- (1) Amending the composition of the Hawaii Interagency Council for Maui Housing Recovery to remove the members of the Legislature and instead have the President of the Senate and Speaker of the House of Representatives each appoint a member; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2836, S.D. 2, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 2836, S.D. 2, H.D. 2.

SCRep. 1303-24 Judiciary & Hawaiian Affairs on S.B. No. 2503

The purpose of this measure is to require:

- (1) All places of public accommodation and state building construction projects constructed after December 31, 2024, to provide universal changing accommodations that are equally accessible regardless of gender; and
- (2) Bids for state building construction projects that are submitted after June 30, 2025, to include universal changing accommodations, where feasible and cost effective.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services; State Council on Developmental Disabilities; Hawai'i Civil Rights Commission; Disability and Communication Access Board; Stonewall Caucus of the Democratic Party of Hawai'i; Retail Merchants of Hawaii; Hawai'i Family Caregiver Coalition; Hawaii Disability Rights Center; Rainbow Family 808; Epilepsy Foundation of Hawaii; and six individuals.

Your Committee finds that many individuals with intellectual, developmental, or physical disabilities require assistance when using restroom facilities. However, individuals with disabilities and their caregivers often face challenges in finding safe, hygienic, and accessible spaces during outings or daily activities. This measure is intended to alleviate the burden on persons with disabilities and their families and caregivers by requiring the implementation of universal changing accommodations in all places of public accommodation and state buildings.

Your Committee has amended this measure by:

- (1) Delaying the requirement that all places of public accommodation and state building construction projects provide universal changing accommodations to those establishments constructed after July 31, 2025, so that it occurs after the requirement that bids for state building construction projects include universal changing accommodations;
- (2) Inserting a severability clause; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2503, S.D. 2, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 2503, S.D. 2, H.D. 2.

SCRep. 1304-24 Judiciary & Hawaiian Affairs on S.B. No. 578

The purpose of this measure is to:

- (1) Allow a retiree to be employed as an investigator in a position identified by the Department of the Attorney General as a labor shortage or difficult-to-fill position, subject to certain conditions, without reenrollment in the Employees' Retirement System and without loss or interruption of retirement benefits; and
- (2) Require reporting of the employment of those retirees to the Legislature.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of Law Enforcement; Hawaii Floriculture and Nursery Association; and Hawai'i Farm Bureau. Your Committee received comments on this measure from the Employees' Retirement System.

Your Committee finds that the Department of the Attorney General has identified certain investigator positions as difficult to fill and critically important to the Department's law enforcement capability and objectives. Given the Department's long-standing need for investigators, this measure would expedite the process of bringing trained, experienced investigators back to the work force without any loss or interruption to their existing retirement benefits.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 578, S.D. 3, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 2 (Holt, Souza).

SCRep. 1305-24 Judiciary & Hawaiian Affairs on S.B. No. 2319

The purpose of this measure is to propose a constitutional amendment to raise the mandatory retirement age for state justices and judges from seventy years to seventy-five years.

Your Committee received testimony in support of this measure from the Judiciary; Office of the Public Defender; Community Alliance on Prisons; Stonewall Caucus of the Democratic Party of Hawai'i; and three individuals.

Your Committee finds that many judges and justices are forced to retire from the bench at the age of seventy years old pursuant to the Hawaii State Constitution. Your Committee believes that judges and justices who are willing and able to preside over cases into their mid-seventies should be allowed to continue serving the public in these important positions.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2319 and recommends that it pass Second Reading and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, 1 (Ganaden). Excused, 2 (Holt, Souza).

SCRep. 1306-24 Judiciary & Hawaiian Affairs on S.B. No. 2557

The purpose of this measure is to allow the court to appoint an attorney for the subject of a petition for assisted community treatment, rather than entitling an indigent subject of a petition for assisted community treatment to representation by a public defender.

Your Committee received testimony in support of this measure from the Office of the Public Defender. Your Committee received testimony in opposition to this measure from the ACLU of Hawai'i and one individual. Your Committee received comments on this measure from Hawaii Disability Rights Center.

Your Committee finds that the purpose of assisted community treatment is to curb dangerous behavior that could result in involuntary hospitalization, incarceration, or adverse outcomes such as injury, serious illness, or even death. Persons who are the subject of a petition for assisted community treatment are protected throughout the petition process by guardians ad litem who act in the person's best interest, medical professionals, and the court. Since these persons are not at risk of detention, representation by a public defender is usually not necessary and can often result in delayed treatment. This measure would enable the swift treatment of persons who are seriously mentally ill.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2557, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2557, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Ganaden). Noes, none. Excused, 2 (Holt, Souza).

SCRep. 1307-24 Judiciary & Hawaiian Affairs on S.B. No. 2832

The purpose of this measure is to specify that the counties may issue traffic infractions for violations of any law prohibiting or restricting the stopping, standing, or parking of vehicles on highways.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Maui; County of Hawai'i Office of the Prosecuting Attorney; one member of the Maui County Council; and Ulupono Initiative.

Your Committee finds that this measure ensures that counties are able to issue traffic infractions wherever vehicles are stopping, standing, or parking and creating an unsafe environment on state or county roadways.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2832, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2832, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

SCRep. 1308-24 Judiciary & Hawaiian Affairs on S.B. No. 2286

The purpose of this measure is to:

- (1) Permit the Department of Labor and Industrial Relations to enter into contracts with eligible employers or registered apprenticeship programs in the private sector to provide on-the-job training to eligible interns;
- (2) Subject to certain limitations, require the Department of Human Resources Development to collaborate with the Department of Labor and Industrial Relations for certain portions of the on-the-job-training work experience program;
- (3) Provide that the State shall be the responsible employer for purposes of workers' compensation coverage when a student or recent graduate performs paid or unpaid work for a private or public employer as part of the on-the-job-training work experience program; and
- (4) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Department of Education; University of Hawai'i System; Hawai'i Tourism Authority; Chamber of Commerce Hawaii; Hawaii Food Industry Association; Hawai'i Farm Bureau; Kohala Coast Resort Association; Hawai'i Lodging & Tourism Association; Maui Chamber of Commerce; and one individual.

Your Committee finds that providing state funds for private-sector internships is in the best interests of the State and will promote economic growth, foster public-private collaborations, and support job creation.

Your Committee has amended this measure by:

- (1) Amending the scope of the workers' compensation coverage for students and recent graduates; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2286, S.D. 2, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 2286, S.D. 2, H.D. 2.

SCRep. 1309-24 Judiciary & Hawaiian Affairs on S.B. No. 2289

The purpose of this measure is to:

- (1) Require the Department of Health to include in its annual report regarding Kalaupapa Settlement:
 - (A) Details and updated information, as available, regarding the permanent transfer to other governmental or qualified nongovernmental entities of the powers and duties of state agencies over Kalaupapa Settlement; and
 - (B) Community engagement efforts with community stakeholders; and
- (2) Sunset the measure on the first June 30th after the Revisor of Statutes receives a written gubernatorial proclamation that the transfer of the Department's powers and duties over Kalaupapa Settlement is complete.

Your Committee received testimony in support of this measure from the Department of Health; Office of Hawaiian Affairs; Ka 'Ohana O Kalaupapa; and three individuals.

Your Committee finds that the Department of Health and other government agencies have been meeting for years about the transfer of the Kalaupapa Settlement to another entity when there is no longer a living community but thus far have not included Molokai community voices in the transition team or discussions about the eventual transfer. This measure seeks to make the transition planning process more transparent and inclusive of the communities most likely to be affected by the transfer.

Your Committee has amended this measure by:

- (1) Clarifying language regarding the permanent transfer of the powers and duties of the Kalaupapa Settlement to other qualified governmental agencies or qualified nongovernmental entities;
- (2) Clarifying language regarding the immediate addition of Ka Ohana O Kalaupapa to the executive transition team;
- (3) Deleting the sunset provision; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2289, S.D. 2, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 2289, S.D. 2, H.D. 2.

SCRep. 1310-24 Judiciary & Hawaiian Affairs on S.B. No. 2443

The purpose of this measure is to:

- (1) Establish the Automated Speed Enforcement Systems Program, to be implemented by the State in at least one school zone or work zone in each county;
- (2) Create a new offense of noncompliance with speed limit under automated speed enforcement system; and
- (3) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Transportation; Disability and Communication Access Board; Honolulu Police Department; Pearl City Neighborhood Board No. 21; Oahu Metropolitan Planning Organization; Ulupono Initiative; and one individual. Your Committee received testimony in opposition to this measure from the Office of the Public Defender and four individuals. Your Committee received comments on this measure from the Judiciary; Department of the Attorney General; Department of Budget and Finance; and AAA Hawaii.

Your Committee finds that nearly half of all traffic fatalities in Hawaii in 2021 involved speeding. Your Committee further finds that speed safety cameras are proven to deter speeding and its impact and are recommended for state and local adoption by the National Transportation Safety Board and the Federal Highway Administration. Your Committee believes that establishing an Automated Speed Enforcement Systems Program will significantly reduce speed-related traffic fatalities in Hawaii.

Your Committee has amended this measure by:

- (1) Clarifying statutory references as it relates to the Automated Speed Enforcement Systems Program;
- (2) Limiting the implementation of the Automated Speed Enforcement Systems Program to those locations where a photo red light imaging detector system has been implemented; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2443, S.D. 2, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 2443, S.D. 2, H.D. 2.

SCRep. 1311-24 Agriculture & Food Systems on S.B. No. 2362

The purpose of this measure is to appropriate funds to the University of Hawaii for statewide research into ornamental ginger pathogens, prevention of the spread of ornamental ginger pathogens, production and distribution of pathogen-free ornamental ginger plants, and outreach to ornamental producers.

Your Committee received testimony in support of this measure from the University of Hawai'i System; Department of Agriculture; Land Use Research Foundation of Hawaii; Hawai'i Floriculture and Nursery Association; East Oahu County Farm Bureau; Hawai'i Farm Bureau; and five individuals.

Your Committee finds that the commercial production of ornamental ginger in the State has been declining, as emerging plant diseases are negatively impacting the production and economic viability of ornamental ginger. Your Committee further finds that researchers and extension agents at the University of Hawaii College of Tropical Agriculture and Human Resources have performed a statewide survey and causal agent identification study, which determined that a combination of six viruses is the cause of the ornamental ginger's decline, with other pathogens and ornamental ginger genetic variation as possible contributing factors. This measure further supports the University of Hawaii's statewide research and efforts to produce virus-free plants and develop cultural management strategies for managing virus-infected plants.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

Your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider an appropriation amount of \$125,000.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2362, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2362, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1312-24 Agriculture & Food Systems on S.B. No. 3026

The purpose of this measure is to amend the membership of the Advisory Committee on Pesticides by replacing representatives of the pineapple and sugar industries with representatives of the coffee and diversified agriculture industries.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; University of Hawai'i System; Department of Agriculture; Hawai'i Farm Bureau; Hawai'i Food+ Policy; Hawai'i Farmers Union United; and two individuals.

Your Committee finds that the Advisory Committee on Pesticides, which is composed of representatives from industries that make, use, or are affected by pesticides, is required to advise and assist the Department of Agriculture in developing or revising laws and rules related to pesticides in the State. Your Committee further finds that as coffee and other crops have emerged as major contributors to the local agriculture industry, the composition of the Advisory Committee has remained the same. Therefore, this measure updates the composition of the Advisory Committee to more accurately reflect the current landscape of the agriculture industry in the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes the concerns about ensuring that the composition of the Advisory Committee on Pesticides includes active stakeholders, such as the Hawaii Farmers Union United, who are familiar with the challenges faced by farmers and the impacts of pesticide use.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3026, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3026, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

SCRep. 1313-24 Agriculture & Food Systems/Water & Land on S.B. No. 2159

The purpose of this measure is to:

- (1) Require the Department of Agriculture, in coordination with the Office of Planning and Sustainable Development, to prepare and periodically update the State Agriculture Functional Plan to include other agricultural economic updates, including aquaculture, that expand the State's priority on food by including freshwater and saltwater aquatic organisms as a viable food source; and
- (2) Require the Governor to submit the updated plan to the Legislature prior to the Regular Session of 2026.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs; Office of Planning and Sustainable Development; Maui Phoenix Farms LLC dba Maui Trout Company; Hawaii Aquaculture and Aquaponics Association; Hawai'i Farm Bureau; Hawai'i Farmers Union United; The Nature Conservancy, Hawai'i and Palmyra; Chamber of Commerce Hawaii; and one individual. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that since the last update to the State's Agricultural Functional Plan in 1991, Hawaii's agriculture industry has undergone immense diversification and expanded beyond a predominantly plantation-based agricultural sector. An emerging segment within Hawaii's agriculture industry is aquaculture, which involves the use of aquatic systems to harvest fish and other animal products. This measure ensures that updates to the State's Agricultural Functional Plan will provide guidance on the development of the aquaculture industry and the ways in which it can support food and nutrition security within the State.

Your Committees have amended this measure by:

- (1) Requiring the Department of Agriculture, in coordination with the Office of Planning and Sustainable Development, to produce a report on freshwater and saltwater aquatic organisms prior to updating the State Agriculture Functional Plan and applying the proposed elements of the updated State Agriculture Functional Plan to the report instead;

- (2) Adding as an element of the report research and monitoring, performed in collaboration with Native Hawaiian organizations of the impacts that expanding aquacultural markets may have on Hawaii's traditional and customary fishing practices and the State's ocean ecosystems;
- (3) Requiring the Department of Agriculture, rather than the Governor, to submit the first report, rather than the updated State Agriculture Functional Plan, to the Legislature prior to the Regular Session of 2026;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Agriculture & Food Systems and Water & Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2159, S.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2159, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1314-24 Agriculture & Food Systems/Water & Land on S.B. No. 2960

The purpose of this measure is to:

- (1) Clarify that agricultural lots shall be used for farming by requiring that purchasers and lessees of farm lots submit proof of using the lots to produce food or conduct other agricultural activities; and
- (2) Authorize certain agricultural cooperatives to apply for farm lots.

Your Committees received testimony in support of this measure from the Agribusiness Development Corporation; Hawai'i Farm Bureau; Hawaii Cattlemen's Council; and five individuals. Your Committees received comments on this measure from the Department of the Attorney General and Department of Agriculture.

Your Committees find that agricultural lands are a key resource that can be used to meet the State's goals for economic diversification and food self-sufficiency. However, nonfarming use of agricultural lands has significantly increased over the past few decades. This measure ensures that agricultural lands are used primarily for productive agricultural purposes and further supports food sustainability in the State.

Your Committees have amended this measure by:

- (1) Exempting purchasers or lessees who experience significant economic hardship directly caused by a disaster from certain agriculture-related requirements;
- (2) Clarifying that an agricultural cooperative association may apply for a farm lot if at least fifty-one percent ownership interest is owned by one or more members who qualify as bona fide farmers;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Agriculture & Food Systems and Water & Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2960, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2960, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chairs on behalf of the Committees.

SCRep. 1315-24 Agriculture & Food Systems/Water & Land on S.B. No. 2560

The purpose of this measure is to provide that each lease that the Department of Agriculture enters into, renews, or extends shall authorize the Department to:

- (1) Enter the leased premises at any time to survey for, identify, investigate, control, or eradicate invasive pests;
- (2) Require a lessee to maintain control of any invasive pests on the leased premises, at the lessee's expense; and
- (3) Terminate the lease if the lessee refuses the Department entry or is found in violation of any applicable law, rule, or order relating to the control or eradication of invasive pests.

Your Committees received testimony in support of this measure from the Coordinating Group on Alien Pest Species; Hawai'i Farmers Union United; and five individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Agriculture; Hawai'i Farm Bureau; and Hawaii Cattlemen's Council.

Your Committees find that the impacts of invasive species to Hawaii have been severe, negative, and expensive and have included serious habitat degradation, extinction of native species, increased wildfire risk, increases in the cost of agriculture and livestock production, and many other impacts. Authorizing the Department of Agriculture to better regulate lessees of agricultural lands will strengthen the State's efforts to mitigate the threats and impacts of invasive species.

Your Committees have amended this measure by:

- (1) Replacing references to "invasive pest" with "pest";
- (2) Adding language that ensures that the Department of Agriculture works with lessees to manage pests, including providing prior notification before entering premises, working with lessees to seek funding and develop a plan to control pests, and terminating a lease if a lessee refuses to work cooperatively toward the control of pests;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Agriculture & Food Systems and Water & Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2560, S.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2560, S.D. 2, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.

Agriculture & Food Systems: Ayes, 5; Ayes with Reservations (Cochran, Perruso). Noes, none. Excused, 2 (Lowen, Ward).

SCRep. 1316-24 Labor & Government Operations on S.B. No. 1099

The purpose of this measure is to:

- (1) Extend the period in which a county may adopt a surcharge on state tax, under certain conditions;
- (2) Authorize the use of county surcharge revenues for affordable and workforce housing infrastructure in counties having a population of five hundred thousand or less; and
- (3) Authorize, in all counties that adopt or have adopted a surcharge on state tax, the use of county surcharge revenues for housing infrastructure, including roadways, water, and sewer.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and one member of the Maui County Council. Your Committee received comments on this measure from the Department of the Attorney General; Department of Taxation; one member of the Maui County Council; and Tax Foundation of Hawaii.

Your Committee finds that the development of housing is of critical importance to the State. Historically, housing developers were responsible for the development of infrastructure to support housing, requiring them to ultimately pass the cost on to homebuyers. Your Committee further finds that Act 48, Session Laws of Hawaii 2023, authorized, among other things, the use of county surcharge on state tax revenues for housing infrastructure, under certain conditions. This measure further clarifies the authority of the counties to use county surcharge on state tax revenues for housing infrastructure costs, ensuring that those associated costs are not passed on to homebuyers and making homeownership attainable for more residents.

Your Committee has amended this measure by:

- (1) Deleting language that would have extended the period in which a county may adopt a surcharge on state tax, under certain conditions;
- (2) Clarifying the authority of the counties to use county surcharge on state tax revenues for housing infrastructure costs, including financing costs;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1099, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1099, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kapela, Martinez, Alcos).

SCRep. 1317-24 Labor & Government Operations on S.B. No. 3007

The purpose of this measure is to:

- (1) Authorize a state department, division, or agency, rather than the Department of Human Resources Development, to conduct the minimum qualification review of applicants for vacant positions within the department, division, or agency; and
- (2) Require the Department of Human Resources Development to provide state departments, divisions, and agencies the applications received for vacancies, under certain circumstances.

Your Committee received testimony in support of this measure from the Department of Law Enforcement; and United Public Workers, AFSCME Local 646, AFL-CIO. Your Committee received testimony in opposition to this measure from the Department of Human Resources Development. Your Committee received comments on this measure from the Department of Corrections and Rehabilitation; Department of Business, Economic Development, and Tourism; Department of Transportation; Department of Health; Office of Planning and Sustainable Development; and Hawaii Housing Finance and Development Corporation.

Your Committee finds that as the State is facing unprecedented vacancies in state positions, it is critical to streamline the application process to allow state departments, divisions, and agencies to fill these vacancies in a timely and efficient manner. This measure allows state departments, divisions, and agencies the ability to review their own applicants for vacant positions, speeding up the review process for key positions and ensuring that the state workforce is adequately staffed with dedicated workers.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3007, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3007, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kapela, Martinez, Alcos).

SCRep. 1318-24 Human Services/Transportation on S.B. No. 3002

The purpose of this measure is to appropriate funds to the Department of Transportation to implement the recommendations of the Task Force on Mobility Management, established pursuant to Act 214, Session Laws of Hawaii 2013, in consultation with the Aging and Disability Resource Center of the Executive Office on Aging and other stakeholder groups.

Your Committees received testimony in support of this measure from the Executive Office on Aging; Disability and Communication Access Board; State Council on Developmental Disabilities; AARP Hawai'i; National Federation of the Blind of Hawaii; Oahu Metropolitan Planning Organization; and five individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Human Services and Department of Transportation.

Your Committees find that Act 214, Session Laws of Hawaii 2013, established a statewide Task Force on Mobility Management within the Department of Health. Your Committees further find that this Task Force's final report addressed the need for the development and establishment of a Mobility Management Program, where a single entity in a geographical area is charged with knowing and deploying the entire array of transportation resources available. Your Committees recognize that there remains a strong need for mobility management in the State and believes that implementing the recommendations made by the Task Force is critical to meeting the transportation needs of the State's disabled and elderly population.

However, your Committees note the concerns raised in testimony by the Department of Transportation, commenting that establishing the Statewide Outreach and Coordinator positions within the Department may not be effective, given that transit services are predominantly administered at the county level. Your Committees discussed who may be the most appropriate entity to assume responsibility for coordination and planning of the recommendations made by the Task Force on Mobility Management and find that the Disability and Communication Access Board may be the most appropriate agency.

Your Committees have amended this measure by:

- (1) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3002, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3002, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1319-24 Energy & Environmental Protection on S.B. No. 2122

The purpose of this measure is to extend the State's energy-portfolio standards from 2030 to 2045, update the standards, and authorize the Public Utilities Commission to adjust the 2045 standard and establish interim goals.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Hawai'i Climate Change Mitigation and Adaption Commission; Hawaii Green Infrastructure Authority; Hawaii State Energy Office; Public Utilities Commission; Office of Economic Development of the County of Kaua'i; Office of Climate Change Sustainability and Resiliency of the City and County of Honolulu; Building Decarbonization Task Force of the Hawai'i Environmental Change Agents; Hawaiian Electric; Hawai'i Energy; Ulupono Initiative; Blue Planet Foundation; Democratic Party of Hawai'i; 350Hawaii.org; Hawaii Solar Energy Association; and one individual.

Your Committee finds that section 269-96, Hawaii Revised Statutes, sets a statewide energy efficiency goal for 2030 and directs the Public Utilities Commission to establish interim goals. Your Committee further finds that the energy-efficiency portfolio standards must be extended in order to ensure that the State continues its progress in clean energy and decarbonization. This measure addresses this need by extending the energy portfolio standards to 2045, updating the standards, and authorizing the Public Utilities Commission to adjust the 2045 and interim standards.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2122, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2122, S.D. 1, H.D. 1, and be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

SCRep. 1320-24 Housing on S.B. No. 2066

The purpose of this measure is to establish another means for a housing project to seek an exemption from certain laws and rules, including those relating to planning, zoning, and construction, that are developed under the various programs of the Hawaii Housing Finance and Development Corporation.

Your Committee received testimony in support of this measure from the Church of the Crossroads and one individual. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation and NAIOP Hawaii.

Your Committee finds that the State is experiencing a severe shortage of housing, leading to many residents moving out of Hawaii in search of more affordable housing options on the mainland. To address the housing shortage, existing law authorizes certain housing projects to be exempt from all State laws and rules relating to planning, zoning, construction of dwelling units, under certain conditions. However, your Committee further finds that recent interest rates have increased to the point where it is no longer feasible to finance housing construction under the restrictions in existing law. Your Committee believes that the State must further incentivize the development of housing for residents by creating a new pathway for projects to seek exemption from state laws, county charters or ordinances, or rules.

Your Committee has amended this measure by:

- (1) Inserting a purpose section;
- (2) Amending the conditions that housing projects seeking an exemption from all state rules and laws must meet to include meeting existing requirements, not having an affordability requirement or income restrictions, and dedicating one hundred percent of the units in the project exclusively for qualified residents for the lifetime of the project;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2066, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2066, S.D. 2, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

SCRep. 1321-24 Judiciary & Hawaiian Affairs on S.B. No. 2475

The purpose of this measure is to:

- (1) Create a registry for all preschools and K-12 educational institutions within the State that contains information on school employees, contractors, or volunteers for whom, as a result of an investigation, a final finding has been issued that the individual has inflicted harm on a student; and
- (2) Appropriate funds to establish positions within the Department of Education to manage the registry and carry out the requirements of this measure.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning; Department of Education; Hawai'i Teacher Standards Board; Kamehameha Schools; Punahou School; Hawaii Association of Independent Schools; and Hawaii Council of Private Schools. Your Committee received comments on this measure from the Department of the Attorney General and Department of Human Services.

Your Committee finds that the establishment of a harm to students registry is critically important to increasing the communication between public and private preschools and K-12 educational institutions regarding individuals who have inflicted harm to students. The registry will assist educational institutions in making informed employment decisions which will better protect Hawaii's students from habitual perpetrators.

Your Committee has amended this measure by:

- (1) Allowing the Department of Education to share information from the harm to students registry with the Department of Human Services;
- (2) Establishing a process for a person to have their name removed from the harm to students registry;
- (3) Clarifying when an institution must defend and indemnify the Department of Education from liability;
- (4) Clarifying that term "institution" includes both public and private educational institutions;
- (5) Requiring a reporting private school, public charter school, or early learning program or school to certify, before transmitting an employee's name and other information to the Department of Education, that the employee either waived the right to appeal or lost the appeal; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2475, S.D. 2, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 2475, S.D. 2, H.D. 2.

SCRep. 1322-24 Judiciary & Hawaiian Affairs on S.B. No. 3191

The purpose of this measure is to permanently authorize the University of Hawaii to continue to regulate conflicts of interest and other ethical issues for technology transfer activities sponsored by the University of Hawaii.

Your Committee received testimony in support of this measure from the University of Hawai'i System. Your Committee received comments on this measure from the Hawai'i State Ethics Commission.

Your Committee finds that the commercialization of intellectual property created by basic and applied research at the University of Hawaii greatly benefits the State by diversifying employment opportunities, creating a more robust innovation sector, introducing better performing products, and providing a potential economic return on the public resources committed to the University. This measure would allow the University of Hawaii to support its various activities and initiatives to develop and commercialize the intellectual property created by university faculty, staff, or alumni, resulting in a more diverse workforce and dynamic economy in the State.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3191, S.D. 1, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 3191, S.D. 1, H.D. 2.

SCRep. 1323-24 Judiciary & Hawaiian Affairs on S.B. No. 2351

The purpose of this measure is to:

- (1) Rename the "Hawaii Workforce Development Council" as the "Hawaii Workforce Development Board" to be administratively attached to the Department of Business, Economic Development, and Tourism;
- (2) Require the Hawaii Workforce Development Board and local workforce development boards to develop written conflict of interest policies;
- (3) Amend provisions related to the selection of the Chairperson, duties, and powers of the Hawaii Workforce Development Board; and
- (4) Repeal the requirement for the Department of Labor and Industrial Relations to submit an annual report to the Legislature on the activities of the K-12 Agriculture Workforce Development Pipeline Initiative.

Your Committee received testimony in support of this measure from IATSE Local 665 and six individuals. Your Committee received testimony in opposition to this measure from the Department of Labor and Industrial Relations. Your Committee received comments on this measure from the Department of the Attorney General and Department of Business, Economic Development, and Tourism.

Your Committee finds that while the Legislature conformed the composition and duties of the Workforce Development Council with the new governance structure established by the federal Workforce Innovation and Opportunity Act of 2014 through Act 57, Session Laws of Hawaii 2016, the conflict of interest

provisions in the federal law for state and local workforce development boards were not incorporated into state law. This measure will codify in state law the federal provisions governing conflicts of interest for members of state and local workforce development boards and the renaming of the Council.

Your Committee finds that the companion to this measure, H.B. No. 2199, H.D. 2 (Regular Session of 2024), a substantially similar measure, was previously passed by your Committee. Your Committee further finds that H.B. No. 2199, H.D. 2, is preferable as in that measure, the Hawaii Workforce Development Board maintains its administrative attachment to the Department of Labor and Industrial Relations and therefore does not require an appropriation for full-time equivalent positions.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of H.B. 2199, H.D. 2; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2351, S.D. 2, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 2351, S.D. 2, H.D. 2.

SCRep. 1324-24 Judiciary & Hawaiian Affairs on S.B. No. 2685

The purpose of this measure is to establish judicial procedures to prevent and remedy abusive litigation.

Your Committee received testimony in support of this measure from Hawai'i State Coalition Against Domestic Violence; Hawai'i Children's Action Network Speaks!; Parents And Children Together; Domestic Violence Action Center; and seven individuals. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that individuals who commit violence against, or otherwise abuse, their intimate partners may also use the judicial system to continue the abuse after the relationship has ended by using court proceedings to control, harass, intimidate, coerce, or impoverish the former intimate partner. Your Committee further finds that even if a lawsuit is meritless, forcing an abuse survivor to expend time, money, and emotional resources responding to the action provides a means for the abuser to assert power and control over the survivor. This measure is intended to establish judicial procedures to limit or prevent the use of litigation by an abuser to further victimize a survivor.

Your Committee has amended this measure by:

- (1) Amending the definition of "abusive litigation" to comport with a defendant's right of due process by amending circumstances and case to be only those in which there would be a finding by a court that a party has committed intimate partner violence against another;
- (2) Amending the crimes pursuant to which a court may find that a party has committed intimate partner violence against another to include the offense of aggravated harassment by stalking, rather than the offense of harassment;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion;
- (4) Inserting a delayed effective date of January 1, 2026, for the judicial procedures to prevent and remedy abusive litigation; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2685, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2685, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1325-24 Judiciary & Hawaiian Affairs on S.B. No. 3157

The purpose of this measure is to authorize the Board of Land and Natural Resources to dispose of public land leases by direct negotiation for commercial or industrial use on parcels of up to five acres.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual. Your Committee received testimony in opposition to this measure from the League of Women Voters of Hawaii. Your Committee received comments on this measure from one member of the Hawai'i County Council and UNITE HERE Local 5.

Your Committee finds that disposing of certain public land leases by public auction is often cumbersome and has been a deterrent to leasing public lands, resulting in many properties remaining vacant, generating no income, and serving no public benefit. Allowing the Board of Land and Natural Resources to directly lease public lands for certain commercial and industrial use would make these leases more attractive while also ensuring that the public interest is protected in the process through existing statutory safeguards.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3157, S.D. 2, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 3157, S.D. 2, H.D. 2.

SCRep. 1326-24 Judiciary & Hawaiian Affairs on S.B. No. 2937

The purpose of this measure is to make permanent the exemption of laboratory school programs of the Hawaiian Language College at the University of Hawaii at Hilo from state English-medium standards, assessments, performance ratings, staff qualifications, and staff training requirements.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning; Office of Hawaiian Affairs; University of Hawai'i at Hilo; Ke Kula 'O Nāwahīkalanī'ōpu'u; Kupuna for the Mo'opuna; and numerous individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee finds that this measure would facilitate the continued progress in Hawaiian-medium education and the revitalization of the Hawaiian language across the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2937, S.D. 1, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 2937, S.D. 1, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 1327-24 Judiciary & Hawaiian Affairs on S.B. No. 3139

The purpose of this measure is to:

- (1) Establish a Crisis Intervention and Diversion Services Program within the Department of Health to expand existing crisis intervention and diversion services to divert persons in crisis from the criminal justice system to the health care system;
- (2) Require the Department of Law Enforcement to coordinate crisis intervention training for state and county law enforcement agencies and training and certification of crisis intervention officers; and
- (3) Appropriate funds for the Crisis Intervention and Diversion Services Program, crisis intervention coordinator positions, and the training and certification of crisis intervention officers.

Your Committee received testimony in support of this measure from the Judiciary; Office of Hawaiian Affairs; Department of Law Enforcement; Department of Health; Office of the Public Defender; State Council on Mental Health; Hawaii Disability Rights Center; Alzheimer's Association; Hawai'i Primary Care Association; Opportunity Youth Action Hawai'i; Hawaii Substance Abuse Coalition; AlohaCare; and Hawai'i Psychological Association. Your Committee received comments on this measure from Community Alliance on Prisons; Queen's Health System; and Reimagining Public Safety in Hawai'i Coalition.

Your Committee finds that this measure is intended to assist persons experiencing mental health or substance use crises by providing training for law enforcement officers on how to safely interact with these persons and divert them to appropriate health care services, rather than incarcerate them.

Your Committee has amended this measure by:

- (1) Requiring crisis intervention officers to be train and certified in mental health and co-occurring disorders involving substance use disorders for first aid and the crisis intervention team model;
- (2) Permanently exempting the three crisis intervention coordinator positions in the Department of Law Enforcement from civil service laws;
- (3) Clarifying the process for initiating an emergency admission; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3139, S.D. 2, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 3139, S.D. 2, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 2 (Holt, Souza).

SCRep. 1328-24 Judiciary & Hawaiian Affairs on S.B. No. 2305

The purpose of this measure is to require and appropriate funds for the Department of Law Enforcement to develop and implement a Silver Alert Program to help locate and safeguard missing persons who are sixty-five years of age or older, cognitively impaired, or developmentally disabled.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Office of Wellness and Resilience; Department of Law Enforcement; Department of Health; State Council on Development Disabilities; County of Hawai'i Office of the Prosecuting Attorney; Hawaii Self Advocacy Advisory Council; Catholic Charities Hawai'i; United Public Workers, AFSCME Local 646, AFL-CIO; AARP Hawai'i; Easterseals Hawaii; Kokua Council; Hawaii Disability Rights Center; Hawai'i Family Caregiver Coalition; Hawai'i Primary Care Association; Hawaii Alliance for Retired Americans; Hawai'i Public Health Institute; Chamber of Commerce Hawaii; Association of Hawaiian Civic Clubs; International Longshore & Warehouse Union Local 142; Papa Ola Lokahi; Alzheimer's Association-Aloha Chapter; Hawaii Alliance for Retired Americans; Council for Native Hawaiian Advancement; Hawaii Medical Service Association; Hawai'i Public Health Association; Pukalani Superette; and numerous individuals. Your Committee received testimony in opposition to this measure from the Honolulu Police Department. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that silver alerts, which are used in thirty-seven other states, are vital tools that provide time-sensitive information to the public about elderly, cognitively impaired, or developmentally disabled persons who have gone missing.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "developmentally disabled";
- (2) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2305, S.D. 2, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 2305, S.D. 2, H.D. 2.

SCRep. 1329-24 Judiciary & Hawaiian Affairs/Consumer Protection & Commerce on S.B. No. 2861

The purpose of this measure is to prevent unfair exclusive listing agreements from becoming prevalent in the State by:

- (1) Making certain long-term exclusive listing agreements for the sale of residential real property void and unenforceable under the state law that governs unfair and deceptive practices;

- (2) Prohibiting the recording or filing of exclusive listing agreements of any duration with the Bureau of Conveyances; and
- (3) Establishing certain remedies for persons who are subject to unfair exclusive listing agreements.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Department of Commerce and Consumer Affairs; Hawai'i Association of REALTORS; and AARP Hawai'i. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that exclusive listing agreements are agreements that require a homeowner to grant exclusive listing rights for a property over a period of time – in some cases up to forty years. However, these agreements, which are recorded as liens, run with the property, and not with the homeowner. As a result, future owners are subject to the agreement which can impede a homeowner's ability to borrow money through a mortgage or home equity loan. Your Committees further find that companies that provide exclusive listing agreements often target vulnerable populations, such as seniors, and do not adequately explain the agreement's terms. This measure would protect Hawaii's homeowners by prohibiting this unfair and deceptive practice.

Your Committees have amended this measure by:

- (1) Amending the preamble;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committees note that the Department of Commerce and Consumer Affairs has assured your Committees that this measure would not preclude parties from mutually agreeing to a subsequent one-year agreement after the expiration of the initial one-year agreement.

Your Committees respectfully request your Committee on Finance, should it deliberate on this measure, to consider changing the effective date to November 1, 2024, to give the realtors time to provide educational awareness of the new law and create new forms.

As affirmed by the records of votes of the members of your Committees on Judiciary & Hawaiian Affairs and Consumer Protection & Commerce that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2861, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2861, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1330-24 Water & Land on S.B. No. 2182

The purpose of this measure is to make permanent the Ocean Stewardship Special Fund.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; The Nature Conservancy; Hawai'i Reef and Ocean Coalition; Sierra Club of Hawai'i; Kua'āina Ulu 'Auamo; and one individual. Your Committee received testimony in opposition to this measure from the Ocean Tourism Coalition.

Your Committee finds that this measure recognizes the economic and environmental importance of Hawaii's ocean resources and the need to protect them.

Your Committee has amended this measure by:

- (1) Modifying to whom the Ocean Stewardship User Fee applies;
- (2) Instead of making permanent the Ocean Stewardship Special Fund, extending its sunset date to January 1, 2031;
- (3) Changing its effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2182, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2182, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1331-24 Water & Land/Consumer Protection & Commerce on S.B. No. 2908

The purpose of this measure is to prohibit residential rent increases in affected areas for an unspecified period after a severe storm warning or issuance of an emergency proclamation.

Your Committees received testimony in support of this measure from the Hawai'i Emergency Management Agency; UNITE HERE Local 5; Lāhainā Strong; and three individuals. Your Committees received comments on this measure from the Hawai'i Association of REALTORS and Grassroot Institute of Hawaii.

Your Committees find that this measure seeks to protect individuals affected by natural disasters and emergencies from predatory increases in the rents for their homes.

Your Committees have amended this measure by:

- (1) Clarifying the powers of the Governor and mayors to extend or terminate a state of emergency or local state of emergency;
- (2) Allowing the prohibition against any increase in the selling price of any commodity, whether at the retail or wholesale level, in the area that is the subject of the proclamation or the severe weather warning to be restricted to particular commodities in the proclamation;
- (3) Providing that the prohibitions against increasing the prices of commodities and terminating residential tenancies expire seventy-two, rather than ninety-six, hours after the effective date and time of the declaration, except under certain circumstances;
- (4) Clarifying that agencies other than the National Weather Service issue and cancel severe weather warnings;
- (5) Changing its effective date to January 1, 3000, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Water & Land and Consumer Protection & Commerce that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2908, S.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2908, S.D. 1, H.D. 1, and be referred to your Committee on Judiciary & Hawaiian Affairs.

SCRep. 1332-24 Water & Land/Consumer Protection & Commerce on S.B. No. 3344

The purpose of this measure is to establish the Hawaii Wildfire Relief Fund and Corporation to provide compensation for property damage resulting from a wildfire, regardless of cause.

Your Committees received testimony in support of this measure from the Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; International Brotherhood of Electrical Workers Local 1260; AES Hawai'i; Ulupono Initiative; Kona-Kohala Chamber of Commerce; Chamber of Commerce Hawaii; Hawai'i Island Chamber of Commerce; Maui Chamber of Commerce; Hawaiian Electric; Clearway Energy Group; and numerous individuals. Your Committees received testimony in opposition to this measure from State Farm Mutual Automobile Insurance Company and Hawaii Association for Justice. Your Committees received comments on this measure from the Office of the Governor; Department of Commerce and Consumer Affairs; Office of Administrative Hearings, Division of Consumer Advocacy, and Insurance Division of the Department of Commerce and Consumer Affairs; Public Utilities Commission; Office of the Auditor; Tax Foundation of Hawaii; Kaua'i Island Utility Cooperative; and Hawaiian Telecom.

Your Committees find that when the cause of a wildfire is uncertain or contested, costly and protracted litigation ensues. Litigation regarding wildfire damages can impose massive costs on the State, counties, utilities, landowners, and other defendants that may be alleged to have contributed to catastrophic wildfires. Such costs can overwhelm these major institutions of the community, undermining their ability to make investments needed by Hawaii. Indeed, even the possibility of litigation regarding a future catastrophic wildfire can create a cloud of uncertainty that threatens to impair the ability of these entities to attract capital on reasonable terms--capital that is vital to make investments in wildfire prevention, among other priorities. Such an outcome harms everyone.

Your Committees further find that it is in the public interest to ensure that the threat of wildfires does not make investment in Hawaii's public utilities so financially risky that it becomes too costly or impossible for them to raise capital to implement vital plans, including plans to mitigate wildfire risk, and to provide safe, reliable, and affordable service to the people of the State. Your Committees also find that it serves the public good to avoid the costs of litigation arising out of catastrophic wildfires in order to protect Hawaii's economy and encourage investment in the State.

Your Committees have amended this measure by:

- (1) Introducing the concept of and adding a definition for an "operation date";
- (2) Amending the definitions of "catastrophic wildfire", "cooperative utility", "eligible claim", and "investor-owned utility";
- (3) Adding definitions for "property insurer", "property owner", and "upfront";
- (4) Clarifying that the Wildfire Relief Fund is not subject to chapter 431, Hawaii Revised Statutes;
- (5) Specifying that the Wildfire Relief Fund Corporation Board of Directors consists of five members, including the manner in which their terms are staggered;
- (6) Clarifying that the Auditor must conduct an annual financial audit of the Wildfire Relief Fund Corporation and Wildfire Relief Fund;
- (7) Removing telecommunications carriers as entities that may participate in the Wildfire Relief Fund as a contributor;
- (8) Modifying certain provisions for contributors' participation in the Wildfire Relief Fund;
- (9) Amending the components of the plan that an electric utility must submit to the Public Utilities Commission for the Commission's approval;
- (10) If any agency of the State that requires any contributor other than an electric utility to submit a plan to mitigate wildfire risk, allowing the agency to prohibit a contributor from participating in the Wildfire Relief Fund as a contributor until the agency approves the contributor's plan;
- (11) Clarifying the timing of the Public Utilities Commission's approval of the plan identified in paragraph (9) in relation to the electric utility's deadline to make a required contribution and commencement of participation in the Wildfire Relief Fund;
- (12) Deleting the requirement for an actuarial study regarding the Wildfire Relief Fund;
- (13) Modifying the manner in which the Wildfire Relief Fund is capitalized by initial contributions, including by:
 - (A) Specifying that the total capitalization of the Wildfire Relief Fund can be calculated based on the financial capacity of the Fund, not simply the amount of liquid money in the Fund;
 - (B) Requiring the State to make an initial monetary contribution in an unspecified amount to the Wildfire Relief Fund and irrevocably pledge to appropriate and provide up to an unspecified amount to the Fund, subject to certain conditions;
 - (C) Limiting the aggregate amount of the State's financial responsibility to the Wildfire Relief Fund, contingent or otherwise, to an unspecified amount; and
 - (D) Allowing the Administrator of the Wildfire Relief Fund to permit payment of the initial contribution through an upfront payment and deferred annual payments, with interest;
- (14) Modifying provisions regarding how potential contributors can participate in the Wildfire Relief Fund after the Fund has begun operating;
- (15) Modifying certain provisions concerning insufficient funding of the Wildfire Relief Fund, including by allowing the Administrator of the Wildfire Relief Fund to permit payment of supplemental contributions by deferred annual supplemental contributions with interest, rather than a single upfront contribution;
- (16) Prohibiting an electric utility from recovering its contributions to the Wildfire Relief Fund from its customers in rates;
- (17) In its evaluation of the prudence of the conduct of a public utility in connection with a catastrophic wildfire, requiring the Public Utilities Commission to determine whether the actions of the public utility were prudent and in the public interest;
- (18) Applying the Public Utilities Commission's determination of prudence to all public utilities, not solely investor-owned utilities;
- (19) Requiring contributors to notify the Administrator of the Wildfire Relief Fund if they will make, or fail to make, a supplemental contribution to the Fund at least thirty days before the supplemental contribution is due;

- (20) Specifying that it is the Department of Land and Natural Resources that assigns areas within the State to extreme, high, and moderate wildfire risk classes;
- (21) Clarifying compensation amounts from the Wildfire Relief Fund that may be claimed by property owners with insurance coverage for the losses;
- (22) Specifying that the date for a property insurer to elect to participate in the Wildfire Relief Fund election is the same as the date for property owners to submit a request to opt out of participation in the Fund;
- (23) Specifying that property damage claims apply to real or personal property;
- (24) Authorizing the Administrator of the Wildfire Relief Fund to extend, for good cause, the declaration of a depletion event by an additional thirty days;
- (25) Tolling the limitation period for any cause of action arising out of the catastrophic wildfire that could be asserted by the property owner or property insurer that declines to accept the depletion payment from the date of the catastrophic wildfire to the date the Administrator of the Wildfire Relief Fund offers claimants the depletion payment;
- (26) Not binding any property owner or property insurer, other than a contributor, that accepts the depletion payment to the limitation on claims with respect to only the applicable catastrophic wildfire;
- (27) Entitling any contributor against whom a claim is brought by a recipient of a depletion payment to a credit against the contributor's financial liability as to that claimant, in an amount equal to the depletion payment received by the claimant multiplied by the contributor's proportion of contribution to the Wildfire Relief Fund relative to the other contributors;
- (28) After the payments to all claimants who accepted the depletion payment have been made, and within three years from the date of the applicable wildfire, requiring the Administrator of the Wildfire Relief Fund to make additional payments to each claimant who accepted the depletion payment;
- (29) Requiring the additional payments identified in paragraph (28), when added to the depletion payment, to be equal to the full value of the Administrator of the Wildfire Relief Fund's determination of the amount of payment due to each claimant;
- (30) Clarifying the process for hearings and appeals of determinations, including specifying thirty-day deadlines;
- (31) Clarifying that the rights of a property insurer to sue as subrogee of its policyholder are not affected by a property owner's participation in the Wildfire Relief Fund and eligibility to seek uninsured property damages from the Fund;
- (32) Establishing a working group within the Department of Commerce and Consumer Affairs to prepare a report and submit it to the Legislature by November 1, 2024, concerning implementation of the Wildfire Relief Fund;
- (33) Inserting an appropriation of general revenues, to take effect on the operation date, as defined in this measure, as a reserve against the State's irrevocable pledge to the Wildfire Relief Fund;
- (34) Changing its effective date to July 1, 3000, to encourage further discussion; provided that part I takes effect on July 1, 2025; and
- (35) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committees respectfully request your Committee on Finance, should it choose to deliberate on this measure, to consider testimony suggesting that:

- (1) The total capitalization amount of the Wildfire Relief Fund should be \$1,000,000,000;
- (2) The initial contributions to the Wildfire Relief Fund by public utilities other than investor-owned electric utilities, property owners, and other governmental entities that are eligible to participate in the Fund should be \$333,300,000 collectively;
- (3) The initial contributions to the Wildfire Relief Fund by investor-owned electric utilities should be \$333,300,000;
- (4) The initial monetary contribution of the State to the Wildfire Relief Fund should be \$9,300,000 and the irrevocable pledge of the State to the Fund should be \$324,000,000, for a total of \$333,300,000;
- (5) At no time should the aggregate amount of the State's financial responsibility to the Wildfire Relief Fund, contingent or otherwise, exceed \$324,000,000;
- (6) The maximum amount that an uninsured property owner can receive from the Wildfire Relief Fund should be \$50,000;
- (7) An insured property owner should receive as Wildfire Relief Fund compensation the lesser of:
 - (A) Thirty-five percent of the amount by which the property owner's losses exceed the amount of insurance coverage for the losses; or
 - (B) Fifty percent of the property owner's insurance coverage applicable to the losses; and
- (8) The sum of \$32,400,000 should be appropriated from the general fund as a reserve for the State's irrevocable pledge to the Wildfire Relief Fund.

As affirmed by the records of votes of the members of your Committees on Water & Land and Consumer Protection & Commerce that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3344, S.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3344, S.D. 2, H.D. 1, and be referred to your Committee on Finance.

SCRep. 1333-24 Consumer Protection & Commerce on S.B. No. 2516

The purpose of this measure is to specify that the Chief Information Officer is to:

- (1) Provide centralized computer information management and processing services;
- (2) Be exempt from civil service;
- (3) Report to the Comptroller; and
- (4) Have the same salary as the First Deputy Comptroller.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services. Your Committee received testimony in opposition to this measure from the Office of Enterprise Technology Services and three individuals. Your Committee received comments on this measure from Transform Hawai'i Government.

Your Committee finds that, at its inception, the Chief Information Officer was a position in the Office of the Governor with the position reporting directly to the Governor. Your Committee further finds that Act 84, Session Laws of Hawaii 2011, transferred the position to the Department of Accounting and General Services, but did not amend the reporting structure. This measure corrects this inadvertent structural deficiency by directing the Chief Information Officer to report to the Comptroller.

Your Committee has amended this measure by:

- (1) Restoring language that specifies that the Governor, rather than the Comptroller, shall appoint the Chief Information Officer, subject to the Senate's advice and consent process;
- (2) Specifying that the salary of the Chief Information Officer shall be established by the Governor, rather than be the same as the First Deputy Comptroller; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2516, S.D. 2, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 2516, S.D. 2, H.D. 2.

SCRep. 1334-24 Consumer Protection & Commerce on S.B. No. 2285

The purpose of this measure is to:

- (1) Clarify the definition of "health care" for purposes of health planning and resource development and health care cost control by the State Health Planning and Development Agency;
- (2) Amend the functions and duties of the State Health Planning and Development Agency;
- (3) Establish a task force known as the Hui Ho'omana within the State Health Planning and Development Agency; and
- (4) Appropriate funds to the State Health Planning and Development Agency for administrative costs and to establish positions.

Your Committee received testimony in support of this measure from the Department of Human Services; Executive Office on Aging; State Health Planning and Development Agency; University of Hawai'i at Mānoa John A. Burns School of Medicine; University of Hawai'i at Mānoa Nancy Atmospera-Walch School of Nursing; State Council on Developmental Disabilities; Hawaii Primacy Care Association; and AlohaCare. Your Committee received comments on this measure from Hawai'i Pacific Health; Healthcare Association of Hawaii; and Hawaii Medical Service Association.

Your Committee finds that it is paramount that residents in the State have access to affordable, quality, and equitable health care. The risks from the fragmentation of health care are of great concern in Hawaii due to the size and geographic distribution of the population across the various islands and where health care services are delivered almost entirely through a system of nonprofit providers. Your Committee further finds that, at its inception, the State Health Planning and Development Agency was established to be the State's health oversight agency. This measure will solidify the Agency's authority as a health oversight agency to ensure that all residents of the State have access to high-quality, equitable, and affordable health and long-term care services.

Your Committee also finds that the Hui Ho'omana established by this measure will provide an important means of achieving a multi-stakeholder vision for the ideal future of health care in Hawaii, including input from state agencies, the public and private health sectors, and consumer and neighbor island perspectives.

Your Committee has amended this measure by:

- (1) Deleting the requirement that the representatives from the Statewide Health Coordinating Council on the Hui Ho'omana be confirmed by the Senate; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2285, S.D. 2, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 2285, S.D. 2, H.D. 2.

SCRep. 1335-24 Consumer Protection & Commerce on S.B. No. 3239

The purpose of this measure is to require the Office of Wellness and Resilience to convene a Medical Debt Forgiveness Working Group to study the feasibility of developing, implementing, and executing a program for the State to acquire and forgive outstanding medical debt of Hawaii residents.

Your Committee received testimony in support of this measure from the State Health Planning and Development Agency; Healthcare Association of Hawaii; The Queen's Health System; Holomua Collaborative; and one individual. Your Committee received comments on this measure from the Office of Wellness and Resilience and American Cancer Society Cancer Action Network.

Your Committee finds that medical debt can take a serious toll on an individual's mental and physical well-being. Individuals with debt are three times more likely to have mental health conditions, such as anxiety, stress, or depression. Medical debt is also more likely to burden people with disabilities or in worse health, lower-income persons, and uninsured persons. This measure will convene a working group to examine the feasibility of relieving Hawaii residents of a medical debt burden.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3239, S.D. 2, H.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, 1 (Pierick). Excused, 5 (Nakashima, Belatti, Hussey-Burdick, Lowen, Tam).

SCRep. 1336-24 Consumer Protection & Commerce/Judiciary & Hawaiian Affairs on S.B. No. 2922

The purpose of this measure is to create a process whereby electric utilities are able to timely recover the prudently incurred costs and expenses of developing, implementing, and administering wildfire protection plans and ensure those costs and expenses are not borne disproportionately by any particular ratepayer or county.

Your Committees received testimony in support of this measure from the Office of the Governor; Public Utilities Commission; International Brotherhood of Electrical Workers Local 1260; Life of the Land; Longroad Energy; Clearway Energy Group; Kaua'i Island Utility Cooperative; Ulupono Initiative; Hawaiian Electric; Land Use Research Foundation of Hawaii; and numerous individuals. Your Committees received testimony in opposition to this measure from the Hawaii Association for Justice and one individual. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs; Department of the Attorney General; Department of Budget and Finance; Hawaii State Energy Office; and Maui Chamber of Commerce.

Your Committees find that the Hawaii State Energy Office conducted a comprehensive energy system risk assessment for Oahu on the interdependencies within the energy sector supply chain and the interdependencies of the energy sector with Federal Emergency Management Agency Community Lifeline services that are essential to the response and recovery from hazard events. The Office found that wildfire is one of the top two most significant threats to the State's critical energy infrastructure and the emergency response sectors that depend on it. At the same time, power infrastructure in red flag conditions can also be the cause of wildfire.

Your Committees further find that as wildfire risk has increased in a warming climate, many states are starting to adopt best practices for wildfire mitigation or protection plans. These plans are widely available and have been largely based on California's laws and regulations. These laws and regulations may serve as a model for the State and can potentially be adapted to suit the State's unique geography, culture, and overall landscape through workshops, hosted by either the electric utilities or the Public Utilities Commission. This measure moves the State forward to implement best practices in mitigating wildfire risk and by providing a mechanism for electric utilities to finance wildfire mitigation projects.

Your Committees have amended this measure by:

- (1) Incorporating the contents of S.B. No. 2997, S.D. 2, H.D. 1, a measure that:
 - (A) Creates a process whereby electric utilities develop and submit effective risk-based wildfire protection plans to the Public Utilities Commission for approval and the Commission evaluates those plans and either approves them or does so with modifications; and
 - (B) Requires public utilities to report wildfires caused by or occurring in connection with their operations;
- (2) Amending various definitions;
- (3) Amending the required contents of the wildfire protection plans;
- (4) Clarifying that the Public Utilities Commission (Commission) is to determine the reasonable costs to develop, implement, and administer a wildfire protection plan, including establishing a mechanism to recover these costs in rates;
- (5) Limiting the liability of electric utilities, the State, and the Commission and its commissioners, employees, and agents with respect to any action taken under the measure;
- (6) Integrating the Commission's consideration of penalties with the existing Performance Based Regulation process;
- (7) Prohibiting the admissibility of the Commission's determination that an electric utility materially failed to comply with an approved wildfire protection plan in certain lawsuits and other actions;
- (8) Amending the requirements for an electric utility to apply to the Commission for a financing order to issue bonds, including:
 - (A) Amending the factors the Commission must consider when determining whether to approve or deny an application for a financing order;
 - (B) Clarifying that the Commission must issue a financing order within one hundred twenty days of the filing of an application for wildfire protection costs that are paid or obligated to be paid;
 - (C) Authorizing an electric utility to include in its application a request for authorization to sell, transfer, assign, or pledge recovery property to a governmental financing entity in certain circumstances;
 - (D) Prohibiting the Commission from issuing a financing order if the wildfire protection charges under all issued financing orders constitute more than five percent of the average residential customer bill;
 - (E) Specifying the actions the State and its agencies are prohibited from taking regarding financing orders and bonds; and
 - (F) Amending the Commission's procedure for periodic true-up adjustments to wildfire protection charges;
- (9) Permitting wildfire protection property to be sold or assigned by certain parties upon default under the terms of a recovery bond; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Consumer Protection & Commerce and Judiciary & Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2922, S.D. 2, H.D. 1, as amended herein, and recommend that it be referred to your Committee on Finance, in the form attached hereto as S.B. No. 2922, S.D. 2, H.D. 2.

Signed by the Chairs on behalf of the Committees.

Consumer Protection & Commerce: Ayes, 7. Noes, none. Excused, 4 (Sayama, Belatti, Hashem, Hussey-Burdick).

SCRep. 1337-24 Consumer Protection & Commerce on S.B. No. 3237

The purpose of this measure is to:

- (1) Require the Department of Agriculture to designate certain species as pests, and periodically update taxa designated as pests, for control or eradication and develop and implement a control or eradication program for each designated pest, under certain conditions;
- (2) Establish a Plant Nursery Licensing Program, as part of the Department of Agriculture's Biosecurity Program, to regulate the sale of nursery stock;
- (3) Prohibit the import of any material infested or infected with a pest or that is a pest unless imported under an appropriate permit or compliance agreement and amend the Department of Agriculture's authority to impose other limits on imports and transportation; and

- (4) Amend the method by which the Board of Agriculture makes and updates noxious weed designations and clarify responsibilities for the control or eradication of noxious weeds.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; ‘Ahahui o nā Kauka, Association of Native Hawaiian Physicians; Sierra Club of Hawai‘i; Livable Hawaii Kai Hui; Environmental Caucus of the Democratic Party of Hawai‘i; Hawai‘i Farmers Union United; Hawai‘i’s Thousand Friends; Kua‘Āina Ulu ‘Auamo; Coordinating Group on Alien Pest Species; Hawai‘i Land Trust; O‘ahu Invasive Species Committee; League of Women Voters of Hawaii; and numerous individuals. Your Committee received testimony in opposition to this measure from the Department of Agriculture and Hawaii Floriculture and Nursery Association. Your Committee received comments on this measure from the Hawai‘i Forest Industry Association; Hawai‘i Farm Bureau; and Big Island Invasive Species Committee.

Your Committee finds that the State imports eighty percent of its commodities and ninety percent of its food, making border biosecurity critical for preventing new invasive species from arriving and spreading in the State. Your Committee further finds that many other states combat invasive pests by routinely quarantining areas infested with high impact pests and preventing the sale of infested merchandise. Your Committee believes that this measure will grant the Department of Agriculture the tools needed to carry out its responsibilities and effectively regulate and prevent new and existing invasive species from entering Hawaii, while also promoting greater biosecurity.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3237, S.D. 2, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 3237, S.D. 2, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Pierick). Excused, 4 (Nakashima, Hussey-Burdick, Lowen, Tam).

SCRep. 1338-24 Consumer Protection & Commerce on S.B. No. 3234

The purpose of this measure is to:

- (1) Impose a different transient accommodation tax rate for transient vacation rentals and a property insurance surcharge on conveyance tax and use those revenues to capitalize the Hawaii Property Insurance Association (Association) and Hawaii Hurricane Relief Fund (Fund);
- (2) Expand the statutory authorization for the Association to issue property insurance other than fire insurance for certain real properties organized as a condominium and amend the designated geographic area eligible for coverage to specifically include Lava Zones 1 and 2;
- (3) Require Association member insurers and licensed property and casualty insurers to recoup assessment costs paid into the Association and Fund through a surcharge on premiums;
- (4) Require coverage limits and deductibles and fund capitalization amounts for licensed property and casualty insurers to be established in a plan of operation for the Fund, subject to approval by the Insurance Commissioner; and
- (5) Reinstate the special mortgage recording fee to capitalize the Fund.

Your Committee received testimony in support of this measure from the Palehua Townhouse Association; Hawaii First Realty LLC; Hawaii Financial Services Association; Honolulu Tower AOA; Hawaii Insurers Council; Hawaii Bankers Association; First Insurance Company of Hawaii; Community Associations Institute, Legislative Action Committee, Hawaii Chapter; Hawaii Association of Mortgage Brokers and Professionals; Hawaii Credit Union League; Zephyr Insurance Company, Inc.; Mortgage Bankers Association of Hawaii; and four individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs; Department of Taxation; Tax Foundation of Hawaii; Land Use Research Foundation of Hawaii; Maui Chamber of Commerce; State Farm Mutual Automobile Insurance Company; and Hawai‘i Association of REALTORS.

Your Committee finds that the availability of condominium building master insurance policy and unit owner insurance policy options within the condominium insurance marketplace was shrinking, even before the August 2023 Maui wildfire event. For condominium building master insurance policies, insurers have increased deductible amounts from what used to be between \$10,000 to \$25,000 per unit, per occurrence, to as much as \$250,000. Furthermore, insurance premiums for hurricane insurance policies have recently risen so high that three hundred seventy-five to three hundred ninety buildings have opted to renew their hurricane insurance policies with less than one hundred percent hurricane coverage. This measure expands the markets of last resort in the State to assist the stabilization of the property insurance market until risks can be depopulated back to the standard insurance market when market conditions improve and risks become more insurable because of building component replacement or maintenance, or mitigation equipment or protocols have been implemented for fire, wildfire, or hurricane events.

Your Committee has amended this measure by:

- (1) Updating the preamble;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3234, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3234, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Nakashima, Hussey-Burdick, Lowen, Tam).

SCRep. 1339-24 Consumer Protection & Commerce on S.B. No. 3335

The purpose of this measure is to:

- (1) Enact the Hawaii Cannabis Law to:
 - (A) Provide a legal safe harbor from state or county criminal prosecution concerning activities relating to cannabis for those who strictly comply with the provisions of the law;

- (B) Establish the Hawaii Cannabis and Hemp Authority as an independent body with the power to administratively regulate all aspects of the cannabis plant;
 - (C) Legalize the sale and possession of cannabis for personal adult use beginning January 1, 2026;
 - (D) Provide economic opportunities to disproportionately impacted areas;
 - (E) Encourage those currently engaging in illegal, unlicensed commercial cannabis activities to enter the legal market;
 - (F) Ensure that state and county law enforcement agencies work closely with the Hawaii Cannabis and Hemp Authority and vigorously investigate and prosecute illegal cannabis activities that fall outside any safe harbor protection; and
 - (G) Mandate that the Hawaii Cannabis and Hemp Authority make the protection of public health and safety its highest priorities;
- (2) Establish a tax on the retail sale of cannabis and a tax on the sale of medical cannabis and require every business engaged in the sale of cannabis to obtain a cannabis tax permit;
 - (3) Add new traffic offenses relating to the consumption or possession of marijuana or marijuana concentrate and clarifying existing traffic offenses as they relate to marijuana and marijuana concentrate;
 - (4) Making conforming amendments relating to the legalization of personal adult use of cannabis under the Hawaii Cannabis Law;
 - (5) Establish the temporary Cannabis and Hemp Control Implementation Advisory Committee to advise and assist the Cannabis and Hemp Control Board regarding the Hawaii Cannabis Law;
 - (6) Transfer the personnel and assets of the Department of Health and assets of the Department of Agriculture relating to cannabis and hemp to the Hawaii Hemp and Cannabis Authority;
 - (7) Establish positions and appropriate funds; and
 - (8) Make other conforming and housekeeping amendments.

Your Committee received testimony in support of this measure from the Department of Agriculture; Office of the Public Defender; Lau Ola LLC, dba Big Island Grown Dispensaries; Hawaii Cannabis Industry Association; Democratic Party of Hawai'i; Doctors for Drug Policy Reform; Marijuana Policy Project; National Organization for the Reform of Marijuana; Love Sandwich, LLC; Techmana LLC; Hawai'i Alliance for Cannabis Reform; Cultivation Sector Consulting, LLC; Green Aloha Ltd.; Pakalolo for the People; Law Enforcement Action Partnership; Hawaiian Ethos LLC; Noa Botanicals; Kauai Hemp Company; Cannabis Society of Hawai'i; Hawaii Cannabis Industry Solutions; Drug Policy Forum of Hawai'i; Cure Oahu; 808 Viral; and numerous individuals. Your Committee received testimony in opposition to this measure from the Department of Law Enforcement; University of Hawai'i System; Department of the Prosecuting Attorney of the City and County of Honolulu; Department of the Prosecuting Attorney of the County of Maui; Hawai'i Police Department; Honolulu Police Department; Kaua'i Police Department; Maui Police Department; Hawaii Family Forum; One Impact Hawaii; Hawaii Substance Abuse Coalition; Care Waialua; Smart Approaches to Marijuana Hawaii; Hawaii Federation of Republican Women; Retail Merchants of Hawaii; Hawaii Council on Child and Adolescent Psychiatry; American Cancer Society Cancer Action Network; ABC Stores; Hawai'i Lodging & Tourism Association; and numerous individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs; Department of Taxation; Department of Education; Department of Budget and Finance; Department of the Attorney General; Department of Health; Department of Human Resources Development; Office of Information Practices; State Council on Developmental Disabilities; Chamber of Sustainable Commerce; Hawaii Psychiatric Medical Association; Akamai Cannabis Consulting; Council for Native Hawaiian Advancement; Healthcare Association of Hawaii; Catholic Charities Hawai'i; Reason Foundation; Hawai'i Afterschool Alliance; Hawai'i Hemp Farmers Association; American Civil Liberties Union of Hawai'i; GreenWave Advisors LLC; and eight individuals.

Your Committee finds that the existing prohibition on cannabis has allowed an illicit market to flourish in the State. In an illicit market, there are no regulations ensuring the safety of the products made available to consumers. By legalizing cannabis, a well-structured regulatory framework may protect consumers and ensure public safety by enforcing potency and purity standards and testing, labeling, and packaging requirements. The legalization of cannabis allows the regulatory authority to control access to cannabis, including which individuals may sell and purchase cannabis, and ensure safety.

Your Committee further finds that there is a growing body of evidence demonstrating the beneficial aspects of cannabis. The State was among the earliest entities to recognize the beneficial aspects of cannabis and was the first state to authorize the medical use of cannabis through the enactment of Act 228, Session Laws of Hawaii 2000. More recently, the United States Department of Health and Human Services, on August 29, 2023, recommended that cannabis be rescheduled from Schedule I to Schedule III under the federal Controlled Substances Act.

Your Committee also finds that the recognition of cannabis as having beneficial properties has led to a growing trend of adult use legalization. Twenty-four states and the District of Columbia have enacted laws authorizing the personal possession and consumption of cannabis by adults. This measure will promote consumer protection and safety through the establishment of a framework for the legal regulation of cannabis in the State.

Your Committee has amended this measure by:

- (1) Requiring cannabis businesses to enter into, maintain, and abide by the terms of a labor peace agreement with a bona fide labor organization as an ongoing material condition of initial application and renewal of a license or permit;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3335, S.D. 2, H.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.B. No. 3335, S.D. 2, H.D. 2.

SCRep. 1340-24 Judiciary & Hawaiian Affairs on S.B. No. 2757

The purpose of this measure is to align sex trafficking laws with federal law by providing that the commercial sexual exploitation of a minor is a form of sex trafficking.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Honolulu Police Department; Department of the Prosecuting Attorney of the County of Maui; Stonewall Caucus of the Democratic Party of Hawai'i; Rainbow Family 808; Hawai'i Youth Services Network;

Imua Alliance; and five individuals. Your Committee received comments on this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that sex trafficking is a serious and pervasive issue in the State. Your Committee further finds that, unlike federal regulations, existing state laws do not recognize the solicitation of a minor for prostitution as a form of sex trafficking. This measure is intended to bring the State's laws regarding the solicitation of minors in alignment with federal regulations to ensure persons exploiting children for commercial sex are held accountable to the fullest extent of the law.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2757, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2757, S.D. 1, H.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Ganaden). Noes, none. Excused, none.

SCRep. 1341-24 Judiciary & Hawaiian Affairs on S.B. No. 3159

The purpose of this measure is to:

- (1) Clarify that a contested case hearing is not required for matters that are identical or arising from the same factual situation as another administrative matter that has been previously adjudicated; and
- (2) Include administrative contested case proceedings within the scope of the vexatious litigant statute.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from Earthjustice; Sierra Club of Hawai'i; Life of the Land; Starn O'Toole Marcus & Fisher; and one individual.

Your Committee finds that this measure seeks to remove the requirement of conducting multiple contested case hearings on substantially similar matters where the party or parties requesting the hearing can make no bona fide showing as to why new or additional proceedings are warranted.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3159, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3159, S.D. 1, H.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

SCRep. 1342-24 Corrections, Military, & Veterans on H.R. No. 139

The purpose of this measure is to request that the Women's Corrections Implementation Commission develop a strategy and make recommendations to reduce the number of women incarcerated at the Women's Community Correctional Center by twenty-five percent by 2029.

Your Committee received testimony in support of this measure from the Department of Corrections and Rehabilitation; Tahirih Association BEYOND BARS Reentry Program; and five individuals.

Your Committee finds that the State has failed to divert women from the criminal justice system and that the population of incarcerated women at the Women's Community Correctional Center has increased by nine hundred fifty percent since 1978. This measure requests that the Women's Corrections Implementation Commission develop a strategy and make recommendations to reduce the number of women incarcerated at the Women's Community Correctional Center by twenty-five percent by 2029.

As affirmed by the record of votes of the members of your Committee on Corrections, Military, & Veterans that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 139 and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 1343-24 Corrections, Military, & Veterans on H.C.R. No. 160

The purpose of this measure is to request that the Women's Corrections Implementation Commission develop a strategy and make recommendations to reduce the number of women incarcerated at the Women's Community Correctional Center by twenty-five percent by 2029.

Your Committee received testimony in support of this measure from the Judiciary; Department of Corrections and Rehabilitation; Criminal Justice Research Institute; Tahirih Association BEYOND BARS Reentry Program; YWCA O'ahu; FilmWorks Pacific; and six individuals.

Your Committee finds that the State has failed to divert women from the criminal justice system and that the population of incarcerated women at the Women's Community Correctional Center has increased by nine hundred fifty percent since 1978. This measure requests that the Women's Corrections Implementation Commission develop a strategy and make recommendations to reduce the number of women incarcerated at the Women's Community Correctional Center by twenty-five percent by 2029.

As affirmed by the record of votes of the members of your Committee on Corrections, Military, & Veterans that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 160 and recommends that it be referred to your Committee on Finance.

SCRep. 1344-24 Energy & Environmental Protection on H.R. No. 101

The purpose of this measure is to request the Public Utilities Commission to order Hawaiian Electric to continue to deploy and pursue community-based renewable energy projects.

Your Committee received testimony in support of this measure from Elemental Excelerator; Hawaii Solar Energy Association; Hawaii PV Coalition; and Solar United Neighbors. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Public Utilities Commission.

Your Committee finds that community-based renewable energy projects help make renewable energy accessible to individuals who are unable to install their own solar energy systems. Your Committee further finds that in a status update requested by the Public Utilities Commission, Hawaiian Electric recommended that Phase 2, Tranche 2 of its Community-Based Renewable Energy Project be paused, which would delay the installation of additional community-based renewable energy projects. This measure requests that the Public Utilities Commission order Hawaiian Electric to continue Phase 2, Tranche 2 of the Project and continue to issue requests for proposals for the Community-Based Renewable Energy Program.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 101 and recommends that it be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gates, Kahaloa, Ward).

SCRep. 1345-24 Energy & Environmental Protection on H.C.R. No. 120

The purpose of this measure is to request the Public Utilities Commission to order Hawaiian Electric to continue to deploy and pursue community-based renewable energy projects.

Your Committee received testimony in support of this measure from the Hawaii Green Infrastructure Authority; Elemental Excelerator; Hawaii Solar Energy Association; Hawaii PV Coalition; and Solar United Neighbors. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Public Utilities Commission.

Your Committee finds that community-based renewable energy projects help make renewable energy accessible to individuals who are unable to install their own solar energy systems. SCRep. 1346-24 Energy & Environmental Protection on H.R. No. 192

The purpose of this measure is to urge the Department of Health to investigate and implement policies to reduce the importation of products, packaging, or materials containing perfluoroalkyl and polyfluoroalkyl substances (PFAS) into the State.

Your Committee received testimony in support of this measure from Greenpeace Hawaii and two individuals. Your Committee received comments on this measure from the American Chemistry Council.

Your Committee finds that PFAS are persistent, toxic substances that are harmful to the health of humans and wildlife. This measure urges the Department of Health to investigate and implement policies to reduce the importation of products, packaging, or materials containing PFAS.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 192 and recommends that it be referred to your Committee on Consumer Protection & Commerce.

SCRep. 1348-24 Energy & Environmental Protection on H.R. No. 132

The purpose of this measure is to request the Department of Health to conduct a feasibility study on the implementation of continuous monitoring and sampling technologies in waste combustion facilities and municipal solid waste landfills.

Your Committee received testimony in support of this measure from Greenpeace Hawaii and one individual. Your Committee received testimony in opposition to this measure from Covanta. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that waste combustion facilities are among the largest sources of industrial air pollution. Your Committee further finds that waste combustion facilities and municipal solid waste landfills in the State do not continuously monitor and sample certain air pollutants. This measure requests the Department of Health to conduct a feasibility study on the implementation of continuous monitoring and sampling technologies in waste combustion facilities and municipal solid waste landfills.

Your Committee notes that funding for the feasibility study proposed by this measure may not be necessary, as the Department of Health should already be considering the feasibility of implementing continuous monitoring and sampling technologies in waste combustion facilities and municipal solid waste landfills as part of its duties.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 132 and recommends that it be referred to your Committee on Finance.

SCRep. 1350-24 Energy & Environmental Protection on H.R. No. 177

Your Committee received testimony in support of this measure from the Democratic Party of Hawai'i; 350Hawaii.org; Greenpeace Hawaii; and one individual.

Your Committee finds that big oil companies have an enormous carbon footprint and have significantly contributed to climate change. Your Committee further finds that in a lawsuit filed by the City and County of Honolulu, the Hawaii Supreme Court rejected claims made by defendants that big oil and gas companies do not fall within state court jurisdiction and that there is no public nuisance claim for a climate damages case under Hawaii law. This measure requests that the Attorney General file a lawsuit against big oil corporations for climate damages to the State and engage a third-party law firm that has expertise in this legal area.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 177 and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs.

SCRep. 1352-24 Labor & Government Operations/Water & Land on H.R. No. 52

The purpose of this measure is to request the establishment of a stream maintenance working group within the City and County of Honolulu.

Your Committees received testimony in support of this measure from one individual. Your Committees received testimony in opposition of this measure from the Department of Land and Natural Resources.

Your Committees has amended this measure by:

- (1) Amending its title;
- (2) Requesting the City and County of Honolulu to establish the Stream Maintenance Working Group, rather than the Department of Land and Natural Resources;
- (3) Requesting the representative from the City and County of Honolulu to serve as chairperson of the Working Group, rather than the representative from the Department of Land and Natural Resources; and

(4) Requesting the City and County of Honolulu to provide administrative support to the Working Group, instead of the Department of Land and Natural Resources.

As affirmed by the records of votes of the members of your Committees on Labor & Government Operations and Water & Land that are attached to this report, your Committees concur with the intent and purpose of H.R. No. 52, as amended herein, and recommend its adoption in the form attached hereto as H.R. No. 52, H.D. 1.

SCRep. 1354-24 Agriculture & Food Systems on H.R. No. 141

The purpose of this measure is to urge the Department of Agriculture to:

- (1) Establish a two-year Agricultural Crime Pilot Project to examine and assess the effectiveness of prosecuting agricultural crimes and crime cases in certain counties in the State;
- (2) Coordinate with the Department of Law Enforcement, the City and County of Honolulu and County of Kauai to hire an enforcement officer for each county;
- (3) Assess the implementation of the pilot project to determine whether to continue, expand, or end the pilot project; and
- (4) Submit an interim report and final report to the Legislature prior to the convening of the Regular Session of 2025 and the Regular Session of 2026, respectively.

Your Committee received no written testimony for this measure.

Your Committee finds that agricultural crimes such as theft and vandalism are a persistent and significant issue effecting farmers and ranchers in the State. Your Committee further finds that agricultural crimes increase agricultural costs of production, making it more difficult for local agricultural operations to sustainably produce food. This measure asks the Department of Agriculture to establish a two-year Agricultural Crime Pilot Project, monitor the pilot project's effectiveness and longevity prospects, and hire a full-time enforcement officer to be placed within the respective county prosecuting attorney's office or any other law enforcement agency.

Your Committee has amended this measure by:

- (1) Adding language to include the County of Maui in the Agricultural Crime Pilot Program; and
- (2) Updating the title to reflect the amended change.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 141, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.R. No. 141, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ward).

SCRep. 1355-24 Agriculture & Food Systems on H.C.R. No. 162

The purpose of this measure is to urge the Department of Agriculture to:

- (1) Establish a two-year Agricultural Crime Pilot Project to examine and assess the effectiveness of prosecuting agricultural crimes and crime cases in certain counties in the State;

SCRep. 1356-24 Agriculture & Food Systems on H.R. No. 13

The purpose of this measure is to request the Board of Agriculture to:

- (1) Conduct a study to determine the percentages of agricultural lands being leased by the State that are suitable for farming and are actively being used for farming purposes; and
- (2) Determine the dollar amounts of lease rent, cost of infrastructure improvements made by the original lessee, sum paid by the purchaser of the remainder of the lease, and amount from the sum paid by the purchaser that goes to the State; and
- (3) Submit a report of its finds and recommendations, including and proposed legislation, to the Legislature, prior to the Regular Session of 2025.

Your Committee received no written testimony for this measure.

Your Committee finds that the State provides agricultural leases at below market rates to bolster local food production, and that some of these leases are being used primarily as residences or non-agricultural businesses, left unused for food production. Your Committee further finds that lessees in high-demand locations can transfer the remainder of their lease to the highest bidder, often converting their lease into a substantial profit above and beyond their investments into the property. This measure asks the Board of Agriculture to conduct a study to better understand the severity and scope of agricultural leases being used in this way, to pave the way for future legislation to provide a possible remedy for this issue.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 13 and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

SCRep. 1358-24 Agriculture & Food Systems on H.R. No. 14

The purpose of this measure is to request the Department of Agriculture to:

- (1) Create a plan to develop an Invasive Species Placard Program and assess the resources needed to implement the program; and
- (2) Submit the plan, the assessment of the resources needed to implement the program, and its recommendations, including to any proposed legislation, to the Legislature no later than twenty days prior to convening of the 2025 Regular Session.

Your Committee received testimony in support of this measure from the Coordinating Group on Alien Pest Species.

Your Committee finds that invasive pests are animals, insects, disease agents, or other organisms that are detrimental to agriculture, horticulture, public health, or natural resources including native biota or that have an otherwise adverse effect on the natural environment. Your Committee further finds that members of the public would be less likely to purchase and spread invasive pests if nurseries, farms, and other agriculture-related businesses were required to show a placard stating their invasive pest status within the classification system developed by the Department of Agriculture. Accordingly, this measure asks

the Department of Agriculture to create a plan for the Invasive Species Placard Program and to share this plan with the Legislature before the Regular Session of 2025.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 14 and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

SCRep. 1360-24 Agriculture & Food Systems on H.R. No. 32

The purpose of this measure is to request the Department of Agriculture to:

- (1) Develop a strategic plan to enhance food security for low-income communities in Hawaii by identifying and assessing barriers to accessing locally produced and nutritious food; and
- (2) Explore strategies to expand access to affordable, locally sourced food and support local farmers through economic incentives and capacity-building programs.

Your Committee received testimony in support of this measure from the Democratic Party of Hawai'i; Hawai'i Public Health Institute; and Church State Council.

Your Committee finds that food security is a fundamental human right that is essential for public health. Your committee further recognizes the challenges faced by low-income communities in accessing nutritious food and advocates for promoting local food production to improve health, economic security, and environmental sustainability. Accordingly, this measure calls for a comprehensive strategic plan involving collaboration among government agencies, community organizations, and agricultural stakeholders to address issues related to food access, affordability, land use, education, and community engagement.

Your Committee has amended this measure by:

- (1) Adding language to include communities recovering from disasters to the food security study;
- (2) Adding a request for the study to include communities recovering from disasters, particularly in the Lahaina community following the August 2023 wildfires; and
- (3) Updating the title to reflect the amended changes.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 32, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.R. No. 32, H.D. 1.

SCRep. 1362-24 Agriculture & Food Systems on H.R. No. 140

The purpose of this measure is to request the Department of Agriculture to:

- (1) Convene a working group to review the effectiveness of the relevant State laws governing agricultural-based commercial operations; and
- (2) Invite relevant stakeholders to participate in the working group.

Your Committee received testimony no written testimony for this measure.

Your Committee finds that Hawaii law permits agricultural-based commercial operations to operate on agricultural land without a minimum requirement of agricultural activity on that land. Your committee further finds that the intent of the statute authorizing this operation was to enable bona fide agricultural producers to remain profitable and continue to farm in the State by allowing producers to have additional income streams. The authorizing statute is thus being abused by businesses receiving permits to sell and display goods that have been produced anywhere in the state. Accordingly, this measure requests the convening of a working group comprised of relevant stakeholders to review the effectiveness of the relevant state laws governing agriculture-based commercial operations.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 140 and recommends that it be referred to your Committee on Finance.

SCRep. 1363-24 Agriculture & Food Systems on H.C.R. No. 161

The purpose of this measure is to request the Department of Agriculture to:

- (1) Convene a working group to review the effectiveness of the relevant State laws governing agricultural-based commercial operations; and
- (2) Invite relevant stakeholders to participate in the working group.

Your Committee received testimony in support of this measure from Keep the North Shore Country; Hui o Kamananui; Hawaii's Thousand Friends; Hawai'i Farm Bureau, and four individuals. Your Committee received comments from the Department of Agriculture.

Your Committee finds that Hawaii law permits agricultural-based commercial operations to operate on agricultural land without a minimum requirement of agricultural activity on that land. Your committee further finds that the intent of the statute authorizing this operation was to enable bona fide agricultural producers to remain profitable and continue to farm in the State by allowing producers to have additional income streams. SCRep. 1364-24 Human Services on H.R. No. 31

The purpose of this measure is to request the University of Hawaii Economic Research Organization to conduct a study of ways to increase access to Supplemental Nutrition Assistance Program (SNAP) benefits, including:

- (1) Public policy options for addressing the benefits cliff created by SNAP's eligibility requirements, including a cost-benefit analysis of expanding eligibility to households that are three hundred percent above the federal poverty level; and
- (2) An estimate of the number of Hawaii residents whose income is below the three hundred percent federal poverty level and who may become eligible for SNAP benefits if the State expands income eligibility to this level; and
- (3) An estimate of the number of residents who are currently eligible for SNAP, but not enrolled; and
- (4) Other issues that the University of Hawaii Economic Research Organization determines to be important in increasing access to SNAP benefits.

Your Committee received testimony in support from Democratic Party of Hawaii; Hawaii Public Health Institute; and AlohaCare. Your Committee received comments from the Hawaii State Department of Human Services; University of Hawaii; and UHERO.

Your Committee finds that Supplemental Nutrition Assistance Program (SNAP) benefits are crucial in providing food assistance to some of Hawaii's most economically disadvantaged backgrounds. Many families just below SNAP's income eligibility threshold decline pay increases because the financial benefit of increased economic opportunities does not exceed the potential cost of losing SNAP benefits, thus creating a SNAP benefits cliff. Your Committee further finds that increasing access to SNAP benefits would help economically vulnerable households meet their basic needs without limiting their earning potential.

Your Committee has amended this measure by:

- (1) Striking language regarding education level requirements of SNAP recipients;
- (2) Adding language requesting relevant State departments and agencies to provide the University of Hawaii Economic Research Organization with access to information to successfully complete the study;

- (3) Adding language requesting the University of Hawaii Economic Research Organization to submit both a preliminary and final report of the study; and
- (4) Amending the date that the University of Hawaii Economic Research Organization is requested to submit a preliminary and final report of the study.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 31, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.R. No. 31, H.D. 1.

SCRep. 1366-24 Human Services on H.R. No. 22

The purpose of this measure is to urge the Governor and pertinent State agencies to commit to provide culturally appropriate resources, services, and programs for Native Hawaiian individuals and families experiencing intellectual and developmental disabilities.

Your Committee received testimony in support of this measure from the Hawaii State Department of Health; Hawaii State Council on Developmental Disabilities; and Office of Hawaiian Affairs. Your Committee received comments on this measure from 'Apoākea (Infinite Reach) Native Hawaiian Innovation Institute.

Your Committee finds that intellectual and developmental disabilities are often lifelong disabilities that may involve challenges that affect intellectual functioning and adaptive functioning, or a person's ability to learn, reason, communicate, socialize, or perform self-care tasks. Your Committee further finds that implementing programs and services with Native Hawaiian cultural focuses and contexts can serve as effective care for individuals with disabilities.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 22 and recommends that it be referred to your Committee on Finance.

SCRep. 1368-24 Human Services on H.R. No. 180

The purpose of this measure is to request the Department of Human Services to report on the positive effects of cultural and therapeutic services provided by community-based organizations at the Kawaiiloa Youth and Family Wellness Center.

Your Committee received testimony in support from the Hawaii State Office of Youth Services; Partners in Development Foundation; RYSE; Opportunity Youth Action Hawaii; and one individual.

Your Committee finds that ten percent of Hawaii's homeless population is comprised of individuals under the age of eighteen years, and forty-four percent of homeless youth report having spent time in jail or a juvenile detention center. Community-based support centers for homeless or formerly incarcerated youth substantially reduce the likelihood that youth are incarcerated and experience homelessness. Your Committee further finds that expanding State and private sector collaboration and implementing proven and effective therapeutic and cultural methods to promote youth wellness can help the State reduce homelessness and the negative effects of incarceration.

Your Committee has amended this measure by:

- (1) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of H.R. SCRep. 1370-24 Education on H.R. No. 27

The purpose of this measure is to request the Board of Education to adopt a policy relating to community schools to guide the establishment of additional community schools throughout the State.

Your Committee received testimony in support of this measure from the Ceeds of Peace; Hawai'i Afterschool Alliance; Democratic Party of Hawai'i Education Caucus; Pacific American Foundation; Hawai'i Children's Action Network Speaks!; CARES; and four individuals. Your Committee received comments on this measure from the Board of Education and Department of Education.

Your Committee finds that community schools provide comprehensive programs and services to meet the unique needs of students and families, including a lack of stable housing, inadequate medical and dental care, persistent hunger, trauma, and exposure to violence. Your Committee further finds that the community school strategy aligns with the Department of Education's Nā Hopena A'o Framework, strengthening the sense of belonging, responsibility, excellence, aloha, and total well-being. Your Committee notes that community schools programs are already operating in many parts of Hawaii, especially in remote, rural, and economically disadvantaged areas, and believes that more students and their families could benefit from an expansion of community schools.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 27 and recommends that it be referred to your Committee on Finance.

SCRep. 1372-24 Education on H.R. No. 168

The purpose of this measure is to urge the Department of Education to ensure that school libraries and school library media centers are staffed with licensed school librarians and licensed school library media specialists.

Your Committee received testimony in support of this measure from the Department of Education; Hawaii Association of School Librarians; and numerous individuals.

Your Committee finds that a well-equipped and staffed school library is essential for fostering student learning, personal growth, and academic success. Schools with a strong school library program and a licensed school librarian provide their students with the best chance to succeed. Your Committee further finds that licensed school librarians collaborate with teachers to enhance learning with print materials, electronic books, and electronic databases. Additionally, licensed school librarians provide guidance, expertise, and support in fostering a love for reading and ensure students have the necessary information literacy skills necessary for college, career development, and community engagement. Your Committee believes that staffing libraries and library media centers with licensed school librarians and licensed school library media specialists will provide all students with the resources and support needed for their growth and success.

SCRep. 1374-24 Education on H.R. No. 64

The purpose of this measure is to request the Board of Education, in partnership with the State Public Charter School Commission, to submit a report to the Legislature on increasing access to stable, suitable, and affordable facilities for public charter schools.

Your Committee received testimony in support of this measure from HawaiiKidsCAN; Ke Kula 'O Nāwahīokalani'ōpu'u; Kualapuu Public Charter School; and one individual. Your Committee received testimony in support of the intent of this measure from the State Public Charter School Commission. Your Committee received comments on this measure from the Board of Education.

Your Committee finds that Hawaii's public charter schools serve a critical role as laboratories of innovation in the State's education system, with more than twelve thousand students enrolled in public charter schools. Your Committee further finds that the lack of funding for, and availability of, proper facilities has been a long-standing issue for charter schools nationally and locally, forcing some charter schools in Hawaii to hold classes outdoors, on covered lanais, or in unstable temporary structures.

Your Committee further finds that although the State Public Charter School Commission may request funding for facilities as part of its annual budget request, the amounts received in recent fiscal years have not kept pace with the cost of providing and maintaining high quality facilities. Your Committee notes that unused or underutilized state facilities would help alleviate the lack of proper facilities for public charter schools. Additionally, there are various financing options, such as federal support, that can be used to help support public charter schools. Your Committee believes that the State has the opportunity and responsibility to maximize existing assets that are currently available to assist public charter schools to ensure all students have proper facilities for their education.

Your Committee has amended this measure by including the Executive Director of the School Facilities Authority as a recipient of a certified copy of this measure.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 64, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.R. No. 64, H.D. 1.

Signed by the Chair on behalf of the Committee.

SCRep. 1375-24 Education on H.C.R. No. 79

The purpose of this measure is to request the Board of Education, in partnership with the State Public Charter School Commission, to submit a report to the Legislature on increasing access to stable, suitable, and affordable facilities for public charter schools.

Your Committee received testimony in support of this measure from HawaiiKidsCAN; Kanu o ka Aina; Kualapuu Public Charter School; and four individuals. Your Committee received testimony in support of the intent of this measure from the State Public Charter School Commission. Your Committee received comments on this measure from the Board of Education.

SCRep. 1376-24 Education on H.R. No. 149

The purpose of this measure is to urge the Department of Education to ensure that each public school and public charter school in the State, from kindergarten through grade twelve, employs, or retains under contract, a certain number of mental health professionals.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board and one individual. Your Committee received comments on this measure from the Department of Education and State Public Charter School Commission.

Your Committee finds that the State is experiencing an acute mental health crisis among children and youth. Your Committee further finds that school psychologists provide direct and indirect support to evaluate and address students' intellectual development, academic success, social-emotional learning, and mental and behavioral health. Additionally, school counselors counsel students and parents, evaluate students' abilities, address learning problems, and assist students in career and personal development. Your Committee recognizes that school psychologists and school counselors are crucial to supporting the mental health and well-being of students in school.

Your Committee notes that the National Association of School Psychologists recommends a ratio of one psychologist to five hundred students and the American School Counselor Association recommends a ratio of one school counselor to two hundred fifty students. Public schools and public charter schools in Hawaii presently do not meet the recommendations by the National Association of School Psychologists. Your Committee believes that ensuring adequate staffing levels of mental health professionals consistent with recommended ratios will provide Hawaii's keiki with critical support needed to address the ongoing mental health crisis.

Your Committee has amended this measure by:

- (1) Including the Chairperson of the Board of Education as a recipient of a certified copy of this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 149, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.R. No. 149, H.D. 1.

SCRep. 1378-24 Corrections, Military, & Veterans on H.R. No. 18

The purpose of this measure is to establish a working group to address issues related to water and air contamination and remediation arising from the operation of the Puuloa Range Training Facility.

Your Committee received testimony in support of this measure from the United States Marine Corps; University of Hawai'i System; and three individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Hawaii Military Affairs Council.

Your Committee finds that lead contamination from the Puuloa Range Training Facility threatens the health and safety of the residents of the Ewa Beach community. This measure establishes a working group to address the water and air contamination and remediation issues arising from the operation of the Puuloa Range Training Facility.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Corrections, Military, & Veterans that is attached to this report, your Committee concurs with the intent and purpose of H.R. SCRep. 1380-24 Corrections, Military, & Veterans on H.C.R. No. 121

The purpose of this measure is to encourage the United States Navy to eradicate octocoral and other invasive species from the waters of Pearl Harbor.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received comments on this measure from the Hawaii Military Affairs Council.

Your Committee finds that octocoral and other invasive species are threatening Pearl Harbor's maritime ecosystem. Your Committee further finds that the Department of Land and Natural Resources has not been informed of the outcomes of pilot eradication projects conducted by the United States Navy in certain areas of Pearl Harbor. Your Committee further finds that this information would be essential to informing the State's response if octocoral and other invasive species are found outside Pearl Harbor.

Accordingly, your Committee has amended this measure by:

- (1) Adding findings related to the United States Navy's pilot eradication projects;
- (2) Encouraging the United States Navy to provide the Department of Land and Natural Resources with status updates on the eradication and spread of invasive octocoral;
- (3) Amending its title; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Corrections, Military, & Veterans that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 121, as amended herein, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs in the form attached hereto as H.C.R. No. 121, H.D. 1.

SCRep. 1381-24 Agriculture & Food Systems on H.R. No. 169

The purpose of this measure is to urge the State to:

- (1) Prohibit the use of biocontrol agents that might threaten economically important forage grass species; and
- (2) Provide for the protection of Hawaii's rangelands and grass species that sustain beef cattle production through funding policies, initiatives, and directives to state agencies.

Your Committee received no written testimony for this measure.

Your Committee finds that Hawaii's beef cattle industry has created significant economic and environmental benefits, including contributions to the state economy, job creation, food security, and culture. Your Committee recognizes the importance of Hawaii's rangelands, which cover about twenty percent of the state's landmass, in providing ecosystem services such as soil stabilization and carbon sequestration. It recognizes ranchers as essential stewards of these lands, managing them through livestock grazing to prevent soil erosion and invasive weed growth. Your Committee further finds reason for concern regarding the labeling of certain forage grasses as invasive species, noting their importance for both livestock feed and ecological balance. Your Committee acknowledges the role of livestock grazing in managing these grasses and reducing the risk of wildfires.

Your Committee has amended this measure by:

- (1) Deleting language describing ranchers as grass farmers and replacing it with the critical role they play in managing lands and reducing fuels loads; and
- (2) Adding language requesting the State to also consider a holistic approach when addressing wildfire risk by utilizing a variety of tools and strategies.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 169, as amended herein, and recommends its adoption in the form attached hereto as H.R. No. 169, H.D. 1.

SCRep. 1382-24 Agriculture & Food Systems on H.C.R. No. 189

The purpose of this measure is to urge the State to:

- (1) Prohibit the use of biocontrol agents that might threaten economically important forage grass species; and
- (2) Provide for the protection of Hawaii's rangelands and grass species that sustain beef cattle production through funding policies, initiatives, and directives to state agencies.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Cattlemen's Council; Larry Jeffs Farms, LLC; Hawai'i Farm Bureau; Hawaiian Electric and ten individuals. Your Committee received testimony in opposition of this measure from the Department of Land and Natural Resources.

SCRep. 1383-24 Agriculture & Food Systems on H.R. No. 150

The purpose of this measure is to request:

- (1) State and county agencies to check and scan the microchip of a deceased dog or cat found on a public roadway; and
- (2) Request any information found to be timely passed along to county animal services.

Your Committee has received testimony in support of this measure from nine individuals.

Your Committee finds that the loss of pet cats and dogs in creates a significant emotional impact, and that closure for such losses can help mitigate the impact. Your Committee notes that many pets are killed on state or county roadways and disposed of without any effort to identify their owners. Your committee further finds that since January 1, 2022, pet owners have been required to microchip their pets, facilitating easier identification. Accordingly, this measure urges state and county agencies to scan deceased pets for microchips and record relevant information, enabling the notification of owners and facilitating reunions.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 150 and recommends its adoption.

SCRep. 1385-24 Corrections, Military, & Veterans on H.R. No. 60

The purpose of this measure is to request that the United States Department of Defense, including the Navy, Army, and Air Force, increase on-base housing availability for active duty personnel and their dependents assigned to military installations in the State.

Your Committee received comments on this measure from the Hawaii Military Affairs Council.

Your Committee finds that the large population of military personnel assigned to Hawaii further exacerbates the affordable housing shortage in the State. This measure requests the Department of Defense to increase on-base housing availability for active duty personnel and their dependents, as this may lessen competition for limited housing between local civilian residents and military personnel.

As affirmed by the record of votes of the members of your Committee on Corrections, Military, & Veterans that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 60 and recommends its adoption.

SCRep. 1387-24 Corrections, Military, & Veterans on H.R. No. 41

The purpose of this measure is to urge the Department of Law Enforcement, fire departments and police departments of each county, humane societies in each county, and media organizations throughout the State to collaborate to create and disseminate public service announcements to highlight the dangers of, and advocate against the use of, illegal fireworks.

Your Committee received testimony in support of this measure from two individuals.

Your Committee finds that the effects of illegal fireworks are significant and wide-ranging, including physical injuries to and psychological effects on individuals, displacement of pets, and negative impacts on wildlife. This measure urges various state and county entities to collaborate to create and disseminate public service announcements to highlight the dangers of, and advocate against the use of, illegal fireworks.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Corrections, Military, & Veterans that is attached to this report, your Committee concurs with the intent and purpose of H.R. SCRep. 1389-24 Water & Land on H.R. No. 127

The purpose of this measure is to urge the Department of Land and Natural Resources to convene a Vegetation Management Working Group to study, evaluate, and make recommendations regarding regulations that define property owner obligations to perform vegetation management on public and private property for purposes of wildfire risk mitigation.

Your Committee received testimony in support of this measure from Hawaiian Electric. Your Committee received comments on this measure from the Department of Land and Natural Resources; Department of Commerce and Consumer Affairs; and Public Utilities Commission.

Your Committee finds that vegetation management, including the creation of firebreaks and the removal of buildup of flammable vegetation, is essential for the mitigation of wildfire risks and the promotion of safer conditions for the State's communities.

Your Committee has amended this measure by requesting the Vegetation Management Working Group, in its review of vegetation management, to consider the wildfire mitigation actions that are being proposed as part of the Hawaiian Electric Company's Climate Adaptation Transmission and Distribution Resilience Program in Docket No. 2022-0135 and the electric utilities' (including Kauai Island Utility Cooperative) hazard mitigation plans to be filed with the Public Utilities Commission (Commission) over the next few months, in response to Commission Order No. 40396. These plans will be filed as part of a non-docketed proceeding under Case No. 2023-04661.

Your Committee notes the Department of Land and Natural Resources' concern that establishing a working group without appropriating funds for the administrative support needs of the group would place an unfunded mandate on the Department that would consume substantial time and resources.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 127, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.R. No. 127, H.D. 1.

SCRep. 1390-24 Water & Land on H.C.R. No. 148

The purpose of this measure is to urge the Department of Land and Natural Resources to convene a Vegetation Management Working Group to study, evaluate, and make recommendations regarding regulations that define property owner obligations to perform vegetation management on public and private property for purposes of wildfire risk mitigation.

Your Committee received testimony in support of this measure from Hawaiian Electric and International Brotherhood of Electrical Workers Local 1260. Your Committee received comments on this measure from the Department of Land and Natural Resources; Department of Commerce and Consumer Affairs; and Public Utilities Commission.

Your Committee finds that vegetation management, including the creation of firebreaks and the removal of buildup of flammable vegetation, is essential for the mitigation of wildfire risks and the promotion of safer conditions for the State's communities.

SCRep. 1391-24 Water & Land on H.R. No. 187

The purpose of this measure is to urge the Department of Health to collaborate with the University of Hawaii to establish a Per- and Polyfluoroalkyl Substances Testing Grant Program.

Your Committee received testimony in support of this measure from the Honolulu Board of Water Supply; Environmental Caucus of the Democratic Party of Hawaii; Americans for Democratic Action; and two individuals.

Your Committee finds that per- and polyfluoroalkyl substances (PFAS) are thought to pose a serious toxicity risk to humans, organisms, and the environment. Your Committee further finds that these chemicals have been named "forever chemicals" due to the length of time they remain in the environment, which is a cause for serious concern. Your Committee finds that the Per- and Polyfluoroalkyl Substances Testing Grant Program proposed by this measure would provide funding to assist local communities, businesses, and residents in Hawaii to obtain the proper testing services for PFAS detection.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 187 and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

SCRep. 1393-24 Water & Land on H.R. No. 115

The purpose of this measure is to direct the Hawaii Emergency Management Agency to submit a hazard mitigation assistance grant request or pre-disaster mitigation program grant request to the Federal Emergency Management Agency for rockfall mitigation in Moanalua Gardens and Moanalua Valley, Oahu, under the Tripler Army Medical Center hillside.

Your Committee did not receive any testimony on this measure.

Your Committee finds that boulders along hillsides pose a threat of dangerous rockfalls and landslides that could directly and indirectly impact communities across the State. On Oahu, the Moanalua Gardens and Moanalua Valley communities are considered a high risk zone for landslides and rockfalls. Your Committee further finds that certain hillsides surrounding Moanalua Valley are owned by the federal government, such as Tripler Army Medical Center. Your Committee notes that the Hawaii Emergency Management Agency is responsible for planning for and responding to natural and human-caused emergencies in the State and believes that the Agency should assist in obtaining federal grants for rockfall mitigation in Moanalua Gardens and Moanalua Valley.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 115 and recommends that it be referred to your Committee on Finance.

Your Committee further finds that certain hillsides surrounding Moanalua Valley are owned by the federal government, such as Tripler Army Medical Center. Your Committee notes that the Hawaii Emergency Management Agency is responsible for planning for and responding to natural and human-caused emergencies in the State and believes that the Agency should assist in obtaining federal grants for rockfall mitigation in Moanalua Gardens and Moanalua Valley.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 134 and recommends that it be referred to your Committee on Finance.

SCRep. 1395-24 Water & Land on H.R. No. 73

The purpose of this measure is to request the Hawaii Emergency Management Agency to install a new emergency siren in upper Pacific Palisades, Oahu, to increase emergency management protections.

Your Committee received testimony in support of this measure from the Pearl City Neighborhood Board No. 21.

Your Committee finds that it is often difficult, if not impossible, for certain community members in the Pacific Palisades area to hear the emergency siren. Your Committee finds that on numerous occasions, the Pearl City Neighborhood Board has sought the support of Hawaii's emergency management agencies to resolve this issue but has yet to receive proper assistance. Your Committee further finds that placing a new siren in upper Pacific Palisades would resolve this issue and promote public safety.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 73 and recommends that it be referred to your Committee on Finance.

SCRep. 1397-24 Water & Land on H.C.R. No. 29

The purpose of this measure is to urge the United States Congress to support continued funding of the Affordable Connectivity Program.

Your Committee received testimony in support of this measure from the Lieutenant Governor; Department of Business, Economic Development, and Tourism; CTIA; Verizon; Charter Communications; and Hawaii Broadband Hui.

Your Committee finds that the United States Congress assigned the Federal Communications Commission to administer the Affordable Connectivity Program, the successor program to the Emergency Broadband Benefit, which helped almost nine million households to afford internet access during the coronavirus 2019 pandemic. Your Committee further finds that in areas of the State in which broadband is available, the Affordable Connectivity Program allows subscribers to afford internet speeds and devices sufficient for key online activities, such as at-home learning, health care, banking, and public services. In areas of the State in which broadband is not available, the Affordable Connectivity Program incentivizes the deployment of new broadband infrastructure.

Your Committee also finds that thousands of Hawaii residents benefit from the Affordable Connectivity Program, but they are at risk of losing broadband service in 2024 if the United States Congress does not fund an extension of the program. Your Committee believes that allowing the Affordable Connectivity Program to end will be a great disservice to those who rely on the program to access vital online services and resources.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 29 and recommends that it be referred to your Committee on Finance.

SCRep. 1398-24 Water & Land on H.C.R. No. 9

The purpose of this measure is to authorize the issuance of a perpetual, non-exclusive easement covering a portion of state submerged lands at He'eia, Ko'olaupoko, O'ahu, for the existing drain and for use, repair, and maintenance of the existing improvements constructed thereon.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that section 171-53, Hawaii Revised Statutes, requires the Board of Land and Natural Resources (Board) to obtain prior authorization from the Legislature and prior approval of the Governor to dispose of state submerged lands. The Board identified portions of the existing drain seaward of the property identified as Tax Map Key: (1) 4-6-003:077, He'eia, Ko'olaupoko, O'ahu, as encroaching upon state submerged lands and on July 8, 2010, approved the issuance of a perpetual, non-exclusive easement to resolve the drain encroachment and on December 13, 2019, approved technical amendments to insert accurate legal references and facilitate the easement documentation process. Your Committee further finds that this measure expresses the requisite legislative approval so that an easement may be issued for the continued use of those state submerged lands.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 9 and recommends that it be referred to your Committee on Finance.

SCRep. 1399-24 Water & Land on H.C.R. No. 10

The purpose of this measure is to authorize the Board of Land and Natural Resources to issue a term, non-exclusive easement covering a portion of state submerged lands seaward of the property identified as Tax Map Key: (1) 4-5-047:051, Kaneohe, Koolauloko, Oahu, for the existing boat ramp and concrete wall, and for use, repair, and maintenance of the existing improvements constructed thereon pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and two individuals.

Your Committee finds that section 171-53, Hawaii Revised Statutes, requires the Board of Land and Natural Resources (Board) to obtain prior authorization from the Legislature and prior approval of the Governor to dispose of state submerged lands. The Board identified portions of an existing boat ramp and concrete wall, and existing improvements constructed thereon, seaward of the property identified as Tax Map Key: (1) 4-5-047:051, Kaneohe, Koolauloko, Oahu, as encroaching upon state submerged lands and on August 26, 2022, approved a grant of a twenty-five-year, non-exclusive easement to resolve the existing encroachments. Your Committee further finds that this measure expresses the requisite legislative approval so that an easement may be issued for the continued use of those state submerged lands.

Your Committee has amended this measure by:

- (1) Adding WHEREAS clauses explaining your Committee's concerns about the ongoing challenges posed by sea-level rise and the existing practice of issuing easements to private landowners for state submerged lands on a case-by-case basis;
- (2) Providing that the term of the non-exclusive easement to resolve the existing encroachments should not exceed fifteen years; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 10, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.C.R. No. 10, H.D. 1.

SCRep. 1400-24 Water & Land on H.C.R. No. 11

The purpose of this measure is to authorize the Board of Land and Natural Resources to issue a term, non-exclusive easement for the existing revetment fronting the property identified as Tax Map Key: (1) 3-5-058:011, Waialae-Iki, Honolulu, Oahu, which was placed upon state submerged lands, pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that section 171-53, Hawaii Revised Statutes, requires the Board of Land and Natural Resources (Board) to obtain prior authorization from the Legislature and prior approval of the Governor to dispose of state submerged lands. On April 14, 2023, the Board of Land and Natural Resources approved a grant of a twenty-five-year non-exclusive easement to resolve the revetment encroachment. Your Committee further finds that this measure expresses the requisite legislative approval so that an easement may be issued for the continued use of those state submerged lands.

Your Committee has amended this measure by:

- (1) Adding WHEREAS clauses explaining your Committee's concerns about the ongoing challenges posed by sea-level rise and the existing practice of issuing easements to private landowners for state submerged lands on a case-by-case basis;
- (2) Providing that the term of the non-exclusive easement to resolve the existing encroachments should not exceed fifteen years; and

SCRep. 1401-24 Water & Land on H.C.R. No. 12

The purpose of this measure is to authorize the Board of Land and Natural Resources to issue a term, non-exclusive easement covering an existing concrete boat ramp seaward of the land identified as Tax Map Key: (1) 4-5-047:013, Kaneohe, Koolaupoko, Oahu, which is situated upon state submerged lands, pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that section 171-53, Hawaii Revised Statutes, requires the Board of Land and Natural Resources (Board) to obtain prior authorization from the Legislature and prior approval of the Governor to dispose of state submerged lands. The Board identified the existing concrete boat ramp seaward of the land identified as Tax Map Key: (1) 4-5-047:013, Kaneohe, Koolaupoko, Oahu, as encroaching upon state submerged lands and on May 12, 2023, approved a grant of a twenty-five-year, non-exclusive easement to resolve the concrete boat ramp encroachment. Your Committee further finds that this measure expresses the requisite legislative approval so that an easement may be issued for the continued use of those state submerged lands.

Your Committee has amended this measure by:

- (1) Adding WHEREAS clauses explaining your Committee's concerns about the ongoing challenges posed by sea-level rise and the existing practice of issuing easements to private landowners for state submerged lands on a case-by-case basis;
- (2) Providing that the term of the non-exclusive easement to resolve the existing encroachments should not exceed fifteen years; and

SCRep. 1402-24 Water & Land on H.C.R. No. 13

The purpose of this measure is to authorize the Board of Land and Natural Resources to issue a term, non-exclusive easement covering portions of the existing riprap revetment, ramp, and rock groin seaward of the property identified as Tax Map Key: (1) 5-3-008:012, Hauula, Koolauloa, Oahu, which were placed on state submerged lands, pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that section 171-53, Hawaii Revised Statutes, requires the Board of Land and Natural Resources (Board) to obtain prior authorization from the Legislature and prior approval of the Governor to dispose of state submerged lands. The Board identified portions of an existing riprap revetment, ramp, and rock groin seaward of the property identified as Tax Map Key: (1) 5-3-008:012, Hauula, Koolauloa, Oahu, as encroaching upon state submerged lands and on August 26, 2022, approved a grant of a twenty-five-year, non-exclusive easement to resolve the riprap revetment, ramp, and rock groin encroachments. Your Committee further finds that this measure expresses the requisite legislative approval so that an easement may be issued for the continued use of those state submerged lands.

Your Committee has amended this measure by:

SCRep. 1403-24 Water & Land on H.C.R. No. 14

The purpose of this measure is to authorize the Board of Land and Natural Resources to issue a term, non-exclusive easement covering a portion of state submerged lands seaward of the property identified as Tax Map Key: (2) 3-8-014: 022, Maalaea Beach Lots, Waikapu, Wailuku, Maui, for the existing seawall, and for use, repair, and maintenance of the existing improvements constructed thereon, pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Milowai Maalaea AOA; Ma'alaea Village Association; and numerous individuals.

Your Committee finds that section 171-53, Hawaii Revised Statutes, requires the Board of Land and Natural Resources (Board) to obtain prior authorization from the Legislature and prior approval of the Governor to dispose of state submerged lands. The Board identified a portion of the existing seawall seaward

of the property identified as Tax Map Key: (2) 3-8-014: 022, Maalaea Beach Lots, Waikapu, Wailuku, Maui, as encroaching upon state submerged lands and on January 8, 2021, approved an amendment to the Board of Land and Natural Resources' October 9, 2015, approval of a term, non-exclusive easement to shorten the term of the non-exclusive easement from fifty-five to twenty-five years, or in the event the applicant is unsuccessful in acquiring the fee or obtaining an extension of the ground lease of the abutting apartment property, to end on December 31, 2038, concurrent with the expiration of the ground lease for the abutting apartment property. Your Committee further finds that this measure expresses the requisite legislative approval so that an easement may be issued for the continued use of those state submerged lands.

Your Committee has amended this measure by:

- (1) Adding WHEREAS clauses explaining your Committee's concerns about the ongoing challenges posed by sea-level rise and the existing practice of issuing easements to private landowners for state submerged lands on a case-by-case basis;
- (2) Providing that the term of the non-exclusive easement to resolve the existing encroachments should not exceed fifteen years;
- (3) Requesting the Board of Land and Natural Resources to require that the easement provide for either public access to the shoreline from the grass next to the seawall or the installation of a railing along the top of the seawall to allow the public lateral access to the shoreline; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 14, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.C.R. No. 14, H.D. 1.

SCRep. 1404-24 Water & Land on H.C.R. No. 22

The purpose of this measure is to authorize the Board of Land and Natural Resources to issue a term, non-exclusive easement covering a portion of state submerged lands identified as Tax Map Key: (1)3-1-039: seaward of 065, Waikiki, Honolulu, Oahu, for the construction, use, repair, and maintenance of concrete steps pursuant to section 171-53, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that section 171-53, Hawaii Revised Statutes, requires the Board of Land and Natural Resources (Board) to obtain prior authorization from the Legislature and prior approval of the Governor to dispose of state submerged lands. A private entity requested the approval of the Department of Land and Natural Resources' Office of Conservation and Coastal Lands to reconstruct concrete steps on state submerged lands in the same location, alignment, configuration, and footprint as previously existing concrete steps that had been constructed on the makai side of an existing seawall that fronted state submerged land identified as Tax Map Key: (1)3-1-039: seaward of 065, Waikiki, Honolulu, Oahu, and that were removed from the state submerged lands in 2021. Your Committee further finds that on October 13, 2023, the Board approved a grant of a twenty-five-year non-exclusive easement to resolve any encroachment issues. Your Committee also finds that this measure expresses the requisite legislative approval so that an easement may be issued for the use of those state submerged lands.

Your Committee has amended this measure by:

- (1) Adding WHEREAS clauses explaining your Committee's concerns about the ongoing challenges posed by sea-level rise and the existing practice of issuing easements to private landowners for state submerged lands on a case-by-case basis;
- (2) Providing that the term of the non-exclusive easement to resolve the existing encroachments should not exceed fifteen years; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. SCRep. 1405-24 Human Services on H.R. No. 96

The purpose of this measure to request the Auditor to conduct an audit of the Department of Health's Clean and Sober Homes Registry and any related programs, including:

- (1) a list of unregistered clean and sober homes.

Your Committee received testimony in opposition of this measure from Hawaii Substance Abuse Coalition; and Hawaii Health & Harm Reduction Center. Your Committee received comments on this measure from the Department of Health; and the Office of the Auditor.

Your Committee finds that the clean and sober homes, also known as sober living recovery residences, support the recovery of individuals with substance use disorders and help prevent relapse, criminal justice system involvement, and overdose. While most clean and sober homes are well-run, there are concerns that other homes are overcrowded and not well-managed. While there is a need to assess the clean and sober homes not listed on the State registry, your Committee finds that the information that H.R. 96 seeks to obtain is not an audit, and therefore cannot be obtained by the State Auditor. Your Committee further finds that the Alcohol and Drug Abuse Division within the Department of Health testified in favor of addressing this problem with an informal working group, as described in H.C.R. 178, which they are willing to convene and lead with no additional appropriation. Hawaii Substance Abuse Coalition also testified in support of this strategy.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of H.C.R. 178, a measure that:
 - (A) Requests the Department of Health to assess the registration and monitoring of clean and sober homes by convening and leading an informal working group to discuss the management of clean and sober homes;
 - (B) Clarifies what a clean and sober home, or a recovery residence, is;

- (C) Clarifies that Act 193, Session Laws of Hawaii 2014, developed procedures intended to ensure that clean and sober homes were properly monitored and accountable by creating a voluntary clean and sober home registry within the Hawaii Department of Health, Alcohol and Drug Abuse Division;
 - (D) Clarifies that most clean and sober homes are independently owned, and many are not monitored by the State, especially if the clean and sober home is not registered with the Department of Health; and
 - (E) Establishes that there is a need to improve the operation of clean and sober homes not on the voluntary registry; and
- (2) Making technical, nonsubstantive amendments for the purpose of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 96, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.R. No. 96, H.D. 1.

SCRep. 1407-24 Housing on H.R. No. 99

The purpose of this measure is to request the Hawaii Housing Finance and Development Corporation to adopt administrative rules that preempt the counties from imposing residential income requirements on housing projects that are lower than those adopted or established by the State.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that there are inconsistencies with housing regulations between the State and each county, placing stress on residents and housing developers. Your Committee further finds that the State already has one of the highest levels of regulations on housing development and these inconsistencies add to the onerous process of building housing throughout the State. Your Committee believes that any inconsistency between the State and counties should be remedied by ensuring that the counties do not implement stricter requirements for the development of housing than the requirements set by the State.

Your Committee has amended this measure by:

- (1) Urging the counties to adopt or amend ordinances to be consistent with the Hawaii Housing Finance and Development Corporation's rules regarding residential income requirements on housing projects, instead of requesting Hawaii Housing Finance and Development Corporation to amend their rules to preempt the counties from imposing stricter income requirements;
- (2) Deleting language that would have requested the Hawaii Housing Finance and Development Corporation to amend its application process for developers seeking expedited processing and exemptions to preempt any affordability threshold criteria of any county;
- (3) Amending the recipients of certified copies of this measure;
- (4) Amending its title in accordance with its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 99, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.R. No. 99, H.D. 1.

SCRep. 1408-24 Housing on H.C.R. No. 118

The purpose of this measure is to request the Hawaii Housing Finance and Development Corporation to adopt administrative rules that preempt the counties from imposing residential income requirements on housing projects that are lower than those adopted or established by the State.

SCRep. 1409-24 Housing on H.C.R. No. 89

The purpose of this measure is to urge the Director of Finance to adopt administrative rules to define "beneficial effects to the State" to include financing of housing.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that Hawaii's limited supply of housing continues to be a major issue and the State must find ways to expand financing options to increase the supply of housing. Your Committee further finds that existing law authorizes the Director of Finance to invest the public treasury with certain depositories, under certain conditions, that will have beneficial effects to the State. Your Committee believes that supporting various ways to finance the development of housing should be considered a beneficial effect to the State, which will help ensure that there is a sufficient supply of affordable housing to keep residents in Hawaii.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 89, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.C.R. No. 89, H.D. 1.

SCRep. 1410-24 Energy & Environmental Protection on H.R. No. 24

The purpose of this measure is to request the University of Hawaii Economic Research Organization to conduct a study on scope 1, 2, and 3 greenhouse gas emissions.

Your Committee received testimony in support of this measure from the Democratic Party of Hawai'i and Hawai'i Alliance for Progressive Action. Your Committee received comments on this measure from the University of Hawai'i System.

Your Committee finds that scope 1, 2, and 3 greenhouse gas emissions categorize different kinds of emissions a company creates in its own operations and wider value chain. Your Committee further finds that assessing and reporting scope 1, 2, and 3 greenhouse gas emissions, is crucial for identifying opportunities to reduce emissions across public and private sectors. Your Committee has considered the testimony submitted on this measure and concluded that the Department of Health, instead of the University of Hawaii Economic Research Organization, would be a more appropriate entity to consider including an analysis of scope 1, 2, and 3 greenhouse gas emissions as part of its work to track greenhouse gas emissions pursuant to section 342B-71, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Urging the Department of Health, instead of the University of Hawaii Economic Research Organization, to consider including an analysis of scope 1, 2, and 3 greenhouse gas emissions into its work to track greenhouse gas emissions;
- (2) Requesting the Department of Health to include its analysis in their next greenhouse gas emissions inventory report if the analysis is included in its work to track greenhouse gas emissions;
- (3) Amending its title in accordance with its amended purpose; and

(4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 24, as amended herein, and recommends that it be referred to your Committee on Consumer Protection & Commerce in the form attached hereto as H.R. No. 24, H.D. 1.

SCRep. 1411-24 Energy & Environmental Protection on H.C.R. No. 35

The purpose of this measure is to request the University of Hawaii Economic Research Organization to conduct a study on scope 1, 2, and 3 greenhouse gas emissions.

Your Committee received testimony in support of this measure from the Democratic Party of Hawai‘i; Hawai‘i Alliance for Progressive Action; and three individuals. Your Committee received comments on this measure from the University of Hawai‘i System.

Your Committee finds that scope 1, 2, and 3 greenhouse gas emissions categorize different kinds of emissions a company creates in its own operations and wider value chain. Your Committee further finds that assessing and reporting scope 1, 2, and 3 greenhouse gas emissions, is crucial for identifying opportunities to reduce emissions across public and private sectors. Your Committee has considered the testimony submitted on this measure and concluded that the Department of Health, instead of the University of Hawaii Economic Research Organization, would be a more appropriate entity to consider including an analysis of scope 1, 2, and 3 greenhouse gas emissions as part of its work to track greenhouse gas emissions pursuant to section 342B-71, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Urging the Department of Health, instead of the University of Hawaii Economic Research Organization, to consider including an analysis of scope 1, 2, and 3 greenhouse gas emissions into its work to track greenhouse gas emissions;
- (2) Requesting the Department of Health to include its analysis in their next greenhouse gas emissions inventory report if the analysis is included in its work to track greenhouse gas emissions;
- (3) Amending its title in accordance with its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 35, as amended herein, and recommends that it be referred to your Committee on Consumer Protection & Commerce in the form attached hereto as H.C.R. No. 35, H.D. 1.

SCRep. 1412-24 Energy & Environmental Protection on H.R. No. 193

The purpose of this measure is to request the Hawaii State Energy Office to convene a Renewable Liquid Fuels Working Group to study local production, development, and incentives for renewable liquid fuels.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office; Hawai‘i Farm Bureau; Alaska Airlines; Hawai‘i Gas; Pono Pacific; Airlines for America; Par Hawaii; Airlines Committee of Hawaii; Hawaiian Airlines; and Island Energy Services.

Your Committee finds that renewable liquid fuels offer a viable solution for mitigating greenhouse gas emissions produced by the transportation sector. This measure requests that the Hawaii State Energy Office convene a Renewable Liquid Fuels Working Group to study local production, development, and incentives for renewable liquid fuels.

Your Committee has amended this measure by:

- (1) Allowing the chairperson of the working group to invite other members; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 193, as amended herein, and recommends that it be referred to your Committee on Consumer Protection & Commerce in the form attached hereto as H.R. No. 193, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gates, Kahaloa, Ward).

SCRep. 1413-24 Energy & Environmental Protection on H.C.R. No. 213

The purpose of this measure is to request the Hawaii State Energy Office to convene a Renewable Liquid Fuels Working Group to study local production, development, and incentives for renewable liquid fuels.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office; Hawai‘i Farm Bureau; Alaska Airlines; Hawai‘i Gas; Pono Pacific; Airlines for America; Par Hawaii; Airlines Committee of Hawaii; Hawaiian Airlines; Island Energy Services; and Pacific Biodiesel.

Your Committee finds that renewable liquid fuels offer a viable solution for mitigating greenhouse gas emissions produced by the transportation sector. This measure requests that the Hawaii State Energy Office convene a Renewable Liquid Fuels Working Group to study local production, development, and incentives for renewable liquid fuels.

Your Committee has amended this measure by:

- (1) Allowing the chairperson of the working group to invite other members; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 213, as amended herein, and recommends that it be referred to your Committee on Consumer Protection & Commerce in the form attached hereto as H.C.R. No. 213, H.D. 1.

SCRep. 1414-24 Housing on H.C.R. No. 100

The purpose of this measure is to encourage developers to incorporate net zero waste building strategies when constructing and renovating housing projects in the State.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Hawaii Public Housing Authority; and Ulupono Initiative.

Your Committee finds that the fresh water resources of the State are vital and finite and in recent years, some of Hawaii's waters have been severely polluted by a variety of toxic contaminants. Your Committee further finds that, as recommended by the United States Department of Energy, developers can help sustain the State's fresh water resources by designing and constructing net zero water housing projects that minimize total water consumption and wastewater discharge and maximize alternative water sources. Your Committee believes that the construction of net zero water housing in the State would reduce the impact on aquifers and water reclamation infrastructure and conserve more water resources.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 100 and recommends that it be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Kitagawa).

SCRep. 1415-24 Housing on H.C.R. No. 202

The purpose of this measure is to urge the United States Congress to support the Workforce Housing Tax Credit Act.

Your Committee received testimony in support of this measure from the Pacific Housing Assistance Corporation.

Your Committee finds that as the price of housing continues to rise, more and more middle-class Americans find themselves opting for suitable rental housing rather than homeownership. Your Committee further finds that the Workforce Housing Tax Credit Act, which was first introduced in the United States Congress on December 7, 2023, aims to increase the supply of affordable housing for middle-income families who earn too much to qualify for low-income affordable housing. Your Committee believes that the passage of the federal Workforce Housing Tax Credit Act is critically important to support the creation of new housing for middle-income families.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 202 and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Kitagawa).

SCRep. 1416-24 Housing on H.R. No. 120

The purpose of this measure is to request the State Building Code Council to adopt, amend, or update the State Building Code to authorize point access block construction for residential buildings up to six stories.

Your Committee did not receive any written testimony on this measure.

Your Committee finds that existing building code requirements effectively mandate a double-loaded corridor building, where two stairways access a corridor in the middle of the building with units on each side. This can result in the dwelling units in these buildings having daylight come only from one single exterior wall with little to no cross ventilation. Your Committee further finds that buildings with point access blocks are compact single stair buildings with dwellings that are centered around a stairway and elevator core and have a single point of access. Dwelling units in buildings with point access blocks tend to be very flexible, with a higher proportion of units ranging from two- to four-bedrooms. Your Committee believes that the State would benefit from allowing the residential buildings to be constructed to allow for point access blocks, which could alleviate the State's severe lack of housing by reducing construction costs.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 120 and recommends that it be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Kitagawa).

SCRep. 1417-24 Housing on H.C.R. No. 139

SCRep. 1418-24 Housing on H.R. No. 112

The purpose of this measure is to urge the Hawaii Housing Finance and Development Corporation to develop a ten-year plan to satisfy Hawaii's housing demand.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the State is currently experiencing a severe shortage of housing, leading to many residents moving out of Hawaii in search of more affordable housing options on the mainland. Your Committee further finds that the Hawaii Housing Finance and Development Corporation is statutorily tasked with providing financing for housing and the development of housing. Your Committee believes that the Hawaii Housing Finance and Development Corporation should take a proactive approach to address the State's housing shortage by creating a ten-year housing plan to address Hawaii's housing demand.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 112 and recommends that it be referred to your Committee on Finance.

SCRep. 1420-24 Housing on H.R. No. 102

The purpose of this measure is to request the counties to amend or adopt an ordinance to allow religious institutions, educational institutions, or medical institutions to develop residential units on parcels that meet certain conditions.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and Grassroot Institute of Hawaii.

Your Committee finds that with the severe shortage of affordable housing, the State needs to focus on innovative solutions to address housing demands. Your Committee further finds that there are certain institutions that are willing to build housing on their lands but are prohibited from doing so under existing zoning laws. This measure would encourage the development of housing throughout the State by allowing religious institutions, educational institutions, or medical institutions to develop residential units on their lands, under certain conditions.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 102 and recommends that it be referred to your Committee on Finance.

SCRep. 1422-24 Water & Land on H.R. No. 74

The purpose of this measure is to encourage the State of Hawaii to adopt a proposed constitutional amendment, and the electorate to ratify the proposed amendment, guaranteeing all individuals the right to a clean and healthy environment.

Your Committee received testimony in support of this measure from the Green Party of Hawai'i; 350Hawaii.org; Greenpeace Hawaii; Kauai Climate Action Coalition; and numerous individuals.

Your Committee finds that the proposal and ratification of an environmental rights amendment to the Hawaii State Constitution, as contemplated in this measure, is a potent symbol of the State's commitment to providing its residents with a healthy environment, a stable climate, clean air, and clean water.

Your Committee has amended this measure by:

- (1) Including the right to a stable climate within the proposed constitutional amendment;
- (2) Modifying its title to reflect its amended scope; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 74, as amended herein, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs in the form attached hereto as H.R. No. 74, H.D. 1.

SCRep. 1424-24 Water & Land on H.R. No. 57

The purpose of this measure is to request the Insurance Commissioner to coordinate and develop a Wildfire Insurance Compact with strategic partner states that have similar wildfire risks or robust disaster management systems.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that developing a wildfire insurance compact represents a proactive step toward securing Hawaii's future amid the growing potential for the occurrence of wildfires.

Your Committee has amended this measure by:

- (1) Deleting the provision that requested the Insurance Commissioner to develop a Wildfire Insurance Compact that focuses primarily on risk pooling and informational technology sharing to mitigate and share the risks and costs associated with wildfires; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 57, as amended herein, and recommends that it be referred to your Committee on Consumer Protection & Commerce in the form attached hereto as H.R. No. 57, H.D. 1.

SCRep. 1426-24 Water & Land on H.R. No. 194

The purpose of this measure is to request the Department of Land and Natural Resources to collaborate with federal, state, and county governments; landowners; and stakeholders in order to protect, restore, and manage Hawaii's wetlands, especially those in West Maui.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and The Nature Conservancy.

Your Committee finds that wetlands provide vital environmental services, such as supporting subsistence food practices, protecting against sea surge inundations and sea level rise, safeguarding coral reefs and nearshore fisheries from the impacts of runoff, and providing habitats for native bird and plant species. Your Committee further finds over thirty percent of Hawaii's coastal wetlands have been lost due to development and stream diversion and that the State's wetlands, specifically those on West Maui, faced significant challenges in the aftermath of the Maui wildfires.

Your Committee additionally finds that the Department of Land and Natural Resources does not have the resources to address many of the problems presently facing wetlands but can cultivate successful partnerships between the private sector, public agencies, and other stakeholders in order to serve the needs of Hawaii, its environment, and communities. Your Committee finds that in collaboration with federal, state, and county governments; landowners; and stakeholders, the Department of Land and Natural Resources would be able to provide the services needed to restore and protect Hawaii's wetlands.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 194 and recommends that it be referred to your Committee on Finance.

SCRep. 1428-24 Water & Land on H.R. No. 200

The purpose of this measure is to recommend that the Hawaii Public Housing Authority make certain changes to its policies relating to the use of its land.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that public housing residents should be empowered to utilize green spaces for food production, cultural activities, and the development of climate-resilient and welcoming natural spaces.

Your Committee has amended this measure by:

- (1) Encouraging the Hawaii Public Housing Authority to create green spaces for food production, cultural activities, and climate resilience; consider actions that allow for in-ground planting, resident use of green spaces, facilitated community engagement, sustainable agriculture, and climate-resilient landscapes; and consider the provision of technical and financial assistance;
- (2) Modifying its title to reflect its amended scope;
- (3) Requesting the Hawaii Public Housing Authority to collaborate with residents of public housing in implementing the recommendations outlined in this measure;
- (4) Adding the Executive Director of the Hawaii Public Housing Authority as a recipient of a certified copy of the measure; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.R. SCRep. 1429-24 Water & Land on H.C.R. No. 220

The purpose of this measure is to recommend that the Hawaii Public Housing Authority make certain changes to its policies relating to the use of its land.

Your Committee received testimony in support of this measure from the Hawaii Reef and Ocean Coalition and Climate Protectors Hawaii.

Your Committee finds that public housing residents should be empowered to utilize green spaces for food production, cultural activities, and the development of climate-resilient and welcoming natural spaces.

Your Committee has amended this measure by:

- (1) Encouraging the Hawaii Public Housing Authority to create green spaces for food production, cultural activities, and climate resilience; consider actions that allow for in-ground planting, resident use of green spaces, facilitated community engagement, sustainable agriculture, and climate-resilient landscapes; and consider the provision of technical and financial assistance;

SCRep. 1430-24 Water & Land on H.C.R. No. 8

The purpose of this measure is to approve the dedication of Kukuia Street, Lahaina, Hawaii, TMK No. 2-4-5-021-021 (por.) to the County of Maui.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Business, Economic Development & Tourism; Hawaii Housing Finance and Development Corporation; and one member of the Maui County Council.

Your Committee finds that Land Patent Grant No. S-15,792, issued on November 4, 1994, conveyed over 500 acres to the Housing Finance Development Corporation for the development of the Villages at Leali'i housing project in Lahaina. Your Committee finds that at the time of this land transfer, the land was undeveloped. Your Committee finds that following the completion of housing developments, land is historically dedicated to a county that will be in charge of maintaining the land. Your Committee finds that historically a dedication of land to a county represents a conveyance of lands from the Department's inventory and, as such, is subject to legislative approval under section 171-64.7, Hawaii Revised Statutes. Your Committee additionally finds that the Department of Land and Natural Resources supports the dedication of Kukuia Street to the County of Maui, as this land will provide a roadway and potential affordable rental housing in Lahaina, Maui, which is much needed in the aftermath of the Maui wildfires.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 8 and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

SCRep. 1431-24 Culture, Arts, & International Affairs on H.R. No. 160

The purpose of this measure is to request the Governor to declare a Cyber Harassment and Cyberbullying Awareness Day.

Your Committee received testimony in support of this measure from the Democratic Party of Hawai'i.

Your Committee finds that there has been a significant rise in cyber harassment and cyberbullying in the last ten years as a result of internet usage increasing exponentially. Your Committee believes that the State has not adequately addressed cyber harassment and cyberbullying, and declaration of Cyber Harassment and Cyberbullying Awareness Day is a step in the right direction to recognize this issue.

Your Committee has amended this measure by:

- (1) Setting the date of Cyber Harassment and Cyberbullying Awareness Day on June 21, 2024;
- (2) Amending its title accordingly; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Culture, Arts, & International Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 160, as amended herein, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs in the form attached hereto as H.R. No. 160, H.D. 1.

SCRep. 1433-24 Culture, Arts, & International Affairs on H.R. No. 25

The purpose of this measure is to urge the President of the United States to promptly reinstate funding for the United Nations Relief and Works Agency for Palestine refugees in the Near East to support its life-saving and critical humanitarian assistance programs to Palestinian refugees.

Your Committee received testimony in support of this measure from the Democratic Party of Hawai‘i; Rise for Palestine; Hawai‘i Workers Center; UNITE HERE! Local 5; Calvary by the Sea Lutheran Church; Faith Action Hawai‘i; Democratic Socialists of O‘ahu; Jewish Voice for Peace-Hawai‘i; and numerous individuals.

Your Committee finds that innocent men, women, and children in Palestine continue to face mass displacement, loss of livelihoods, and limited access to necessities such as food, clean water, and health care services. Your Committee further finds that humanitarian agencies assisting Palestinians in dire need require continuous funding from governments or other private donors. Your Committee therefore believes that the United States should help fund the United Nations International Children's Emergency Fund and World Food Programme, as supporting these agencies save Palestinian lives through food assistance, cash transfers, and other necessary interventions.

Your Committee has amended this measure by:

- (1) Changing the humanitarian agency receiving aid from the United Nations Relief and Works Agency to the United Nations Children's Fund and World Food Programme;
- (2) Amending its title accordingly; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Culture, Arts, & International Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 25, as amended herein, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs in the form attached hereto as H.R. No. 25, H.D. 1.

SCRep. 1434-24 Culture, Arts, & International Affairs on H.C.R. No. 36

The purpose of this measure is to urge the President of the United States to promptly reinstate funding for the United Nations Relief and Works Agency for Palestine refugees in the Near East to support its life-saving and critical humanitarian assistance programs to Palestinian refugees.

Your Committee received testimony in support of this measure from the Democratic Party of Hawai‘i; Rise for Palestine; Democratic Socialists of O‘ahu; UNITE HERE! Local 5; Jewish Voice for Peace-Hawai‘i; Calvary by the Sea Lutheran Church; Faith Action Hawai‘i; Hawai‘i Workers Center; and numerous individuals. Your Committee received testimony in opposition to this measure from One Impact Hawaii and one individual.

Your Committee finds that innocent men, women, and children in Palestine continue to face mass displacement, loss of livelihoods, and limited access to necessities such as food, clean water, and health care services. Your Committee further finds that humanitarian agencies assisting Palestinians in dire need require continuous funding from governments or other private donors. SCRep. 1435-24 Consumer Protection & Commerce on H.C.R. No. 172

The purpose of this measure is to request the Director of Health to convene a working group to address issues relating to patient transfer and ambulance services and evaluate potential solutions.

Your Committee received testimony in support from The Hawaii Chapter of the American College of Emergency Physicians; Air Methods; and Hawaii Medical Association. The Department of Health offered comments.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 172 and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

SCRep. 1436-24 Consumer Protection & Commerce on H.C.R. No. 173

The purpose of this measure is to request the Insurance Commissioner to convene a working group to assess the feasibility and impact of requiring coverage for commercial properties and structures, including greenhouses and shade houses, under the Hawaii Property Insurance Association's plan of operation.

Your Committee received comments from the Department of Commerce and Consumer Affairs.

Your Committee notes that this resolution is a work in progress and that under current law, the Hawaii Property Insurance Association is statutorily authorized to cover commercial risks up to the limits of coverage for residential risks as set forth in the plan of operation. During the public hearing, an issue was raised regarding clarifying or expanding the scope of this measure, including the types of commercial properties that may be considered under the Association's plan of operation. Your Committee notes that this measure is a work in progress and supports continued discussion as this measure moves forward.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 173 and recommends that it be referred to your Committee on Finance.

SCRep. 1437-24 Legislative Management on H.R. No. 119

The purpose of this measure is to request the Legislative Reference Bureau to study the implementation of a year-round Legislature.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that a year-round Legislature in Hawaii could allow for increased transparency in the legislative process as it would provide lawmakers more time to discuss and analyze the pressing issues of the State, while also giving the public more time to participate. However, your Committee notes that a year-round Legislature would require increased staffing and resources. These costs associated with a year-long Legislature have not been studied in depth. Your Committee believes that it would be beneficial to get a better understanding of the costs associated with a year-long Legislature and the potential financial burden on taxpayers by studying states that currently operate on a year-round basis.

Your Committee has amended this measure by:

- (1) Changing the scope of the study to focus on certain states with year-round legislatures to clarify the similarities and differences in legislative operations, costs, and policies regarding outside employment;
- (2) Changing when the Legislative Reference Bureau's report is to be submitted to the Legislature to forty-five days, rather than twenty days, before the convening of the Regular Session of 2025; and
- (3) Amending its title in accordance with its amended purpose.

As affirmed by the record of votes of the members of your Committee on Legislative Management that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 119, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.R. No. 119, H.D. 1.

Signed by the Chair on behalf of the Committee.

SCRep. 1443-24 Health & Homelessness on H.R. No. 1

The purpose of this measure is to urge retail stores and pharmacies doing business in the State to adopt a policy on a national and local level guaranteeing an individual's unhindered access to all United States Food and Drug Administration-approved contraceptives.

Your Committee received testimony in support from the American Association of University Women of Hawaii; AlohaCare; Democratic Party of Hawaii; Hawaii State Democratic Women's Caucus; and seven individuals.

As affirmed by the record of votes of the members of your Committee on Health & Homelessness that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 1 and recommends that it be referred to your Committee on Consumer Protection & Commerce.

SCRep. 1445-24 Water & Land/Housing on H.C.R. No. 3

The purpose of this measure is to urge each of the counties of the State to establish an emergency zoning code that would allow for the siting of temporary shelters to be used immediately following a disaster.

Your Committees received testimony in support of this measure from one individual.

Your Committees find that the August 2023 Maui wildfires reportedly damaged 3,631 properties, a majority of which were rental housing and housing for low-income families. Numerous private individuals have set up temporary housing on private land, with much of the temporary housing going on agricultural lands; however, no county has established an emergency zoning code that would allow the siting of temporary shelters, such as trailers, recreational vehicles, and prefabricated housing. Your Committees recognize that disasters can occur anywhere and at any time and believe that the establishment of emergency zoning codes for the siting of temporary shelters for use immediately after a disaster will help address the aftereffects of any future disaster and ensure that residents have a clean and safe place to reside during trying times.

As affirmed by the records of votes of the members of your Committees on Water & Land and Housing that are attached to this report, your Committees concur with the intent and purpose of H.C.R. No. 3 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

SCRep. 1446-24 Legislative Management on H.C.R. No. 201

The purpose of this measure is to establish a candidate advisory committee for the nomination of the Auditor, Ombudsman and Legislative Reference Bureau Director.

Your Committee did not receive any written testimony on this measure.

Your Committee finds that the creation of a candidate advisory committee for the nomination of the Auditor, Ombudsman, and Legislative Reference Bureau Director will be a transparent process that enables public input to ensure that the best qualified individuals are selected for these legislative service agency director positions.

As affirmed by the record of votes of the members of your Committee on Legislative Management that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 201 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kitagawa).

SCRep. 1447-24 Housing on H.R. No. 70

The purpose of this measure is to urge the Hawaii Housing Finance and Development Corporation to adopt administrative rules to create a process for housing projects to be exclusively for sale or rent to qualified residents.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the State is experiencing a severe shortage of housing. To address the housing shortage, existing law authorizes certain housing projects to be exempt from all State laws and rules relating to planning, zoning, construction of dwelling units, under certain conditions. However, your Committee further finds that recent interest rates have increased to the point where it is no longer feasible to finance housing construction under the restrictions in existing law. Your Committee believes that the State must further incentivize the development of housing for residents by creating a new pathway for projects to seek exemption from state laws, county charters or ordinances, or rules.

Your Committee has amended this measure by:

- (1) Clarifying that the Hawaii Housing Finance and Development Corporation is urged to amend their administrative rules to establish another pathway for housing projects seeking an exemption from state laws and rules, including meeting existing requirements, not having an affordability requirement or income restrictions, and dedicating one hundred percent of the units in the project exclusively for qualified residents for the lifetime of the project;
- (2) Amending the recipients of certified copies of this measure;
- (3) Amending its title in accordance with its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 70, as amended herein, and recommends its adoption in the form attached hereto as H.R. No. 70, H.D. 1.

SCRep. 1449-24 Culture, Arts, & International Affairs on H.R. No. 80

The purpose of this measure is to:

- (1) Endorse the participation of Taiwan as an observer in the United Nations Framework Convention on Climate Change, International Civil Aviation Organization, World Health Organization, and International Criminal Police Organization;
- (2) Support further progress on the United States-Taiwan Initiative on 21st-Century Trade and the early conclusion of negotiations, and encourage the United States Trade Representative to commence negotiations to enter into a bilateral trade agreement with Taiwan; and
- (3) Commemorate the State's thirty-first anniversary of sister-state relations with Taiwan and the forty-fifth anniversary of the Taiwan Relations Act.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that Taiwan and the United States share common values, such as the ideal of democracy, human rights, the rule of law, and a free market economy. Your Committee further finds that Mandarin is designated as a critical language in the United States, exemplified by the establishment of the United States-Taiwan Education Initiative in 2020 to strengthen cooperation on international education and highlight Taiwan's ability to provide Mandarin language instruction. The University of Hawaii and the National Tsing Hua University also share a partnership to enhance their exchange programs, granting the opportunity to improve Mandarin language skills for a number of Hawaii residents. Given the already positive relationships between the United States and Taiwan and Hawaii and Taiwan, your Committee believes in supporting further progress in these two relationships and endorses greater inclusion of Taiwan in various international organizations.

As affirmed by the record of votes of the members of your Committee on Culture, Arts, & International Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 80 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

SCRep. 1450-24 Culture, Arts, & International Affairs on H.C.R. No. 96

The purpose of this measure is to:

- (1) Endorse the participation of Taiwan as an observer in the United Nations Framework Convention on Climate Change, International Civil Aviation Organization, World Health Organization, and International Criminal Police Organization;
- (2) Support further progress on the United States-Taiwan Initiative on 21st-Century Trade and the early conclusion of negotiations, and encourage the United States Trade Representative to commence negotiations to enter into a bilateral trade agreement with Taiwan; and
- (3) Commemorate the State's thirty-first anniversary of sister-state relations with Taiwan and the forty-fifth anniversary of the Taiwan Relations Act.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; and Taipei Economic and Cultural Office in Honolulu.

Your Committee finds that Taiwan and the United States share common values, such as the ideal of democracy, human rights, the rule of law, and a free market economy. Your Committee further finds that Mandarin is designated as a critical language in the United States, exemplified by the establishment of the United States-Taiwan Education Initiative in 2020 to strengthen cooperation on international education and highlight Taiwan's ability to provide Mandarin language instruction. SCRep. 1451-24 Energy & Environmental Protection/Transportation on H.R. No. 40

The purpose of this measure is to request the Hawaii Climate Change Mitigation and Adaption Commission to develop vehicle miles traveled reduction strategies and make related recommendations.

Your Committees received testimony in support of this measure from the Blue Planet Foundation. Your Committees received comments on this measure from the Office of Planning and Sustainable Development.

Your Committees find that decreasing transportation-related emissions is essential to achieving the State's greenhouse gas reduction goals. Your Committees further find that vehicle miles traveled have increased almost forty percent over the last twenty-five years and, without intervention, are projected to continue to increase. This measure requests the Hawaii Climate Change Mitigation and Adaption Commission to develop vehicle miles traveled reduction strategies and make related recommendations.

Your Committees have amended this measure by:

- (1) Requesting the Hawaii Climate Change Mitigation and Adaption Commission to collaborate with the Department of Transportation;
- (2) Amending its title accordingly; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Energy & Environmental Protection and Transportation that are attached to this report, your Committees concur with the intent and purpose of H.R. No. 40, as amended herein, and recommend its adoption in the form attached hereto as H.R. No. 40, H.D. 1.

SCRep. 1455-24 Health & Homelessness on H.R. No. 56

The purpose of this measure is to request the Department of Health to convene a Stakeholder Working Group to make recommendations to enhance meaningful access to health care in the State through the provision of language assistance services.

Your Committee received testimony in support from the Office of Language Access; AlohaCare; Hawaii Children's Action Network Speaks!; Hawaii Primary Care Association; Hawaii Coalition for Immigrant Rights; Hawaii Public Health Institute; Waipahu Safe Haven Immigrant/Migrant Resource Center; Kula no na Po'e Hawaii o Papakolea, Kewalo, Kalawahine; Hawaii Appleseed Center for Law & Economic Justice; Kokua Kalihi Valley Comprehensive Family Services; and six individuals. Your committee received comments from the Healthcare Association of Hawaii.

Your Committee has amended this measure by:

- (1) Inserting language adding the Healthcare Association of Hawaii to the working group; and
- (2) Making technical, nonsubstantive amendments for the purpose of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health & Homelessness that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 56, as amended herein, and recommends its adoption in the form attached hereto as H.R. No. 56, H.D. 1.

SCRep. 1458-24 Judiciary & Hawaiian Affairs on S.B. No. 2333

The purpose of this measure is to authorize the Chief Election Officer to use accurate copies of paper ballots, rather than the originals, when conducting a precinct audit of an electronic voting system's tally.

Your Committee received testimony in support of this measure from the Office of Elections. Your Committee received testimony in opposition to this measure from numerous individuals. Your Committee received comments on this measure from Common Cause Hawaii.

Your Committee finds that as a condition of using an electronic tally of ballots created by an electronic voting system, the Chief Election Officer is required to conduct a random audit of the vote counts in ten percent of the precincts where an electronic voting system was used. By allowing the use of accurate copies of paper ballots, rather than the original paper ballots, to conduct the audits, this measure will increase the efficiency of the audits without compromising their precision.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2333, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2333, H.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 3 (Ichiyama, Miyake, Souza).

SCRep. 1459-24 Judiciary & Hawaiian Affairs on S.B. No. 2193

The purpose of this measure is to amend the offense of use of a computer in the commission of a separate crime to include violation of privacy in the first and second degrees.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu; Honolulu Police Department; and three individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that the use of a computer to commit a separate crime, such as hacking into someone's personal or financial information, has become increasing prevalent in this digital age. Violation of privacy in the first and second degree can have devastating consequences for individuals. Your Committee believes that clarifying and strengthening penalties for using a computer to violate privacy will uphold and protect individuals' privacy rights and ensure equitable administration of justice.

Your Committee has amended this measure by:

- (1) Including a sunset date of July 1, 2027;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purpose of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2193, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2193, S.D. 1, H.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Ganaden). Noes, none. Excused, none.

SCRep. 1460-24 Judiciary & Hawaiian Affairs on S.B. No. 3033

The purpose of this measure is to align the criminal offense of tampering with physical evidence with the wording of the Model Penal Code for tampering with or fabricating physical evidence.

Your Committee received testimony in support of this measure from the Department of the Attorney General and one individual.

Your Committee finds that existing laws addressing the tampering of physical evidence omit several phrases from the corresponding offense in the Model Penal Code. This measure is intended to increase public confidence in investigations conducted by state and local law enforcement by strengthening the State's laws prohibiting tampering with physical evidence.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3033, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3033, H.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 1461-24 Judiciary & Hawaiian Affairs on S.B. No. 3034

The purpose of this measure is to explicitly categorize defenses to penal liability based on intoxication that is not self-induced or is pathological as affirmative defenses.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of the Prosecuting Attorney of the County of Maui; and Hawai'i Police Department. Your Committee received testimony in opposition to this measure from the Office of Public Defender.

Your Committee finds that an affirmative defense entitles a defendant to an acquittal if the trier of fact finds that the evidence, when considered in light of any contrary prosecution evidence, proves by a preponderance of the evidence that the specified fact or facts negate penal liability. Categorizing nonself-induced or pathological criminal intoxication defenses as affirmative defenses will increase the likelihood that related evidence will be properly preserved.

Your Committee has amended this measure by:

- (1) Inserting a sunset date of July 1, 2027;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3034, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3034, H.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 1462-24 Judiciary & Hawaiian Affairs on S.B. No. 3226

The purpose of this measure is to amend administrative procedure to provide that a maximum time period to grant or deny a business or development-related permit, license, or approval shall only apply if a request for a contested case has not been filed or is required by law.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Hawai'i.

Your Committee finds that this measure will address contested cases filed within the specified timeframes, uphold due process, and ensure a fair contested case hearing for all parties involved.

Your Committee has amended this measure by:

- (1) Clarifying when the maximum time period applies by deleting language applying it to instances where a contested case is required by law;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3226, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3226, S.D. 1, H.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 1463-24 Judiciary & Hawaiian Affairs on S.B. No. 2197

The purpose of this measure is to amend the definition of "advance gambling activity" to repeal language that included making no effort to prevent the occurrence or continuation of gambling activity.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu and Honolulu Police Department. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that this measure would hold property owners accountable if they have knowledge of the illegal activity occurring on their property and they continue to allow illegal gambling establishments to operate.

Your Committee has amended this measure by:

- (1) Including a sunset date of July 1, 2027;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2197, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2197, S.D. 1, H.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 1464-24 Judiciary & Hawaiian Affairs on S.B. No. 3037

The purpose of this measure is to allow the prosecution of persons who provide pornographic materials to undercover law enforcement officers who represent themselves as minors for the purposes of undercover operations.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of the Prosecuting Attorney of the City and County of Honolulu; Honolulu Police Department; and three individuals. Your Committee received testimony in opposition to this measure from Office of the Public Defender.

Your Committee finds that the Department of the Attorney General's Internet Crimes Against Children Task Force regularly conducts Operation Keiki Shield operations where undercover law enforcement officers pose as minors on the Internet to identify, locate, arrest, and prosecute offenders who solicit minors to engage in sexual activities on the Internet. Your Committee further finds that because the existing offense of promoting pornography for minors only allows for prosecution if the pornographic material is sent to an actual minor, undercover officers engaged in authorized Operation Keiki Shield operations are unable to charge offenders even when the offender falsely believes they are sending pornographic material to an actual minor and not an undercover officer posing as a minor. Your Committee believes that expanding the offense of promoting pornography for minors to include offenders who send pornographic material to an officer posing as a minor because they believe the officer is in fact a minor will greatly assist in the prosecution of offenders who disseminate pornographic materials to minors.

Your Committee has amended this measure by:

- (1) Inserting a savings clause;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and

(3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3037, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3037, S.D. 1, H.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 1465-24 Judiciary & Hawaiian Affairs on S.B. No. 2845

The purpose of this measure is to prohibit:

- (1) A person from selling ammunition to a person under the age of twenty-one; and
- (2) A person under the age of twenty-one from owning, possessing, or controlling ammunition, with exceptions.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu; Institute for Human Services, Inc.; Hawai'i State Coalition Against Domestic Violence; Moms Demand Action for Gun Sense in America; Mom's Demand Action for Gun Sense in America – Hawaii Chapter; Everytown for Gun Safety; Students Demand Action for Gun Sense in America; Indivisible Hawaii; Everytown Veteran Advisory Council; and numerous individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender; National Rifle Association for Hawaii; Hawaii Firearms Coalition; and numerous individuals.

Your Committee finds that despite the State having some of the strongest gun safety laws in the nation, including restrictions on the ownership of firearms by persons under the age of twenty-one, existing law does not restrict the purchase, ownership, or possession of ammunition by persons under the age of twenty-one. Setting a minimum age requirement to purchase, own, or possess ammunition is consistent with the existing minimum age requirement to purchase, own, or possess a firearm in the State and helps to ensure the safety of residents and reduce incidents of gun violence in the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2845, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2845, S.D. 2, H.D. 1, and be placed on the calendar for Third Reading.

SCRep. 1466-24 Judiciary & Hawaiian Affairs on S.B. No. 3011

The purpose of this measure is to make it unlawful for certain entities, or agents thereof, to operate a weed whacker in or within one hundred feet of a residential zone during certain times.

Your Committee received testimony in support of this measure from the Windward Coalition and five individuals. Your Committee received testimony in opposition to this measure from the Hawai'i County Department of Parks and Recreation. Your Committee received comments on this measure from one individual.

Your Committee finds that noise pollution is a steadily increasing problem, particularly in densely populated areas of Hawaii. Your Committee further finds that weed whackers contribute an excessive and unusual amount of noise, which is not only severely annoying and distracting, but also has the potential to cause permanent hearing damage. This measure provides certain restrictions on the operation of a weed whacker within or in close proximity to residential areas, ensuring that residents are able to live in a healthy and peaceful environment.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3011, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3011, S.D. 2, H.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

SCRep. 1467-24 Human Services on H.C.R. No. 53

The purpose of this measure is to request the Auditor to assess the social and financial effects of mandatory health insurance coverage for biomarker testing.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board; Debbie's Dream Foundation: Curing Stomach Cancer; American Cancer Society Cancer Action Network; Infusion Access Foundation; AdvaMed; International Cancer Advocacy Network; Alzheimer's Association-Aloha Chapter; and four individuals.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 53 and recommends that it be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

SCRep. 1468-24 Human Services on H.R. No. 78

The purpose of this measure is to request the Department of Human Services to study the feasibility of increasing the Medicaid reimbursement payment rate for Hawaii's Community Care Foster Family Homes and Expanded Adult Residential Care Homes for Medicaid clients.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, the Adult Foster Home care Association of Hawaii, ILWU – Local 1000, the presidents of six associations of community care foster family homes, and numerous individuals. The Department of Human Services provided comments.

Your Committee has amended this measure to:

- 1) Request the Department of Human Services provide an evaluation and report of the impacts of the implemented rate increases on uptake, utilization, and cost savings to the Medicaid program; and
- 2) Require implementation of rate studies every four years starting from the date of the last rate study, requiring said results be reported to the Legislature twenty days prior to the convening of the following legislative session.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 78, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.R. No. 78, H.D. 1.

Signed by the Chair on behalf of the Committee.

SCRep. 1470-24 Human Services on H.R. No. 75

The purpose of this measure is to request the Department of Human Services to establish a working group to address issues relating to reimbursements and payments to home and community-based services providers.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, the Healthcare Association of Hawaii, Coalition of Caregivers, and United Community Healthcare of Hawaii. The Department of Human Services provided comments.

Your Committee requests that the Department of Human Services provide a projected budget breakdown for the implementation of this working group prior to the next hearing for this measure.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 75, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.R. No. 75, H.D. 1.

SCRep. 1474-24 Water & Land on H.R. No. 104

The purpose of this measure is to request the Department of Law Enforcement to convene a Search and Rescue Working Group to develop and make recommendations to deter hikers from entering illegal hiking trails and address rising search and rescue costs facing the State and counties due to increased illegal hiking traffic.

Your Committee received testimony in support of this measure from the Department of Law Enforcement and two individuals.

Your Committee finds that hiking is a popular outdoor activity to enjoy the State's unique natural environment. Your Committee further finds that certain areas within the numerous hiking trails available to the public throughout the State pose safety concerns and consequently have been closed to the public. Despite warnings, some individuals and groups unlawfully enter trails that have been closed to the public due to safety concerns, ultimately putting themselves at risk of significant injury and risking damage to native habitats and other natural resources that may be in those closed areas for preservation purposes.

Your Committee also finds that an increase in hiking in Hawaii requires more emergency responders to be readily available in case hikers are in need of search and rescue, increasing the risks posed to emergency responders. Your Committee notes that the State and counties of Hawaii incur significant costs associated with the rescue of hikers who choose to go on illegal hikes and often ignore signs prohibiting access, with each rescue costing upwards of thousands of dollars, and nearly one thousand rescues are made every year in Hawaii. Because of the considerable costs associated with the search and rescue of individuals who willfully disregard their and others' safety by ignoring warning signs, your Committee believes that it is critical to develop policies concerning hiking that encourage public safety and accountability.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 104 and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

SCRep. 1476-24 Water & Land on H.R. No. 81

The purpose of this measure is to request the Department of Accounting and General Services to establish a working group to plan and construct a Hawaii First Responders Memorial.

Your Committee received testimony in support of this measure from the Hawai'i Fire Department; United Public Workers, AFSCME Local 646, AFL-CIO; and one individual.

Your Committee finds that the Hawaii Law Enforcement Memorial, which was completed in 2016, offers a place of honor for those law enforcement officers who made the ultimate sacrifice while serving the people of Hawaii. Your Committee further finds that this measure is an important first step toward erecting a proper memorial that honors the sacrifices of Hawaii's non-law-enforcement first responders--firefighters, paramedics/emergency medical technicians, lifeguards, and medical flight nurses and pilots.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.R. SCRep. 1478-24 Water & Land on H.R. No. 39

The purpose of this measure is to request the Auditor to conduct a performance audit of the operations and management of the Department of Land and Natural Resources' Division of Boating and Ocean Recreation.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the Department of Land and Natural Resources' Division of Boating and Ocean Recreation (Division) manages the State's small boat harbors, mooring and boating facilities, and statewide ocean recreation programs. The Division's responsibilities include enforcing laws and rules pertaining to boating safety and regulation of commercial activities and overseeing permits for ocean recreation events.

Your Committee further finds that in recent years, community members have expressed numerous concerns about the Division, particularly its lack of effective communication with the boating community, an inconsistent approach to interpreting and enforcing administrative rules, repeated and prolific complaints across the State about Division management, and ongoing employee misconduct complaints and ethics violations. Your Committee notes that the office of the Auditor previously conducted a management audit and issued in April 2001 Report No. 01-09, "Audit of the Management of State Boating Facilities by the Department of Land and Natural Resources", which found that mismanagement of state boating facilities has been a recurring problem and recommended that the Division develop strategic plans to address these ongoing issues with the boating program. Your Committee believes that a performance audit conducted by the Auditor on the current operations and management of the Division is warranted, based on the public's and the Auditor's long-standing concerns.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 39 and recommends that it be referred to your Committee on Finance.

SCRep. 1480-24 Water & Land on H.R. No. 86

The purpose of this measure is to urge the Department of Land and Natural Resources to clearly delineate or distinguish property boundaries to ensure that hunting activities are occurring on designated lands.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that there have been multiple incidents where hunters have crossed from public hunting areas and trespassed onto private lands. Your Committee finds that this trespassing has sometimes resulted in the injury or loss of private livestock and even human life. Your Committee further finds that a clear delineation between public and private property lines would reduce the likelihood of these occurrences.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 86 and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs.

SCRep. 1481-24 Water & Land on H.C.R. No. 105

The purpose of this measure is to urge the Department of Land and Natural Resources to clearly delineate or distinguish property boundaries to ensure that hunting activities are occurring on designated lands.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that there have been multiple incidents where hunters have crossed from public hunting areas and trespassed onto private lands. Your Committee finds that this trespassing has sometimes resulted in the injury or loss of private livestock and even human life. Your Committee further finds that a clear delineation between public and private property lines would reduce the likelihood of these occurrences.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 105 and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs.

SCRep. 1482-24 Education on H.R. No. 145

The purpose of this measure is to urge the State Public Charter School Commission to work with stakeholders to develop and adopt administrative rules governing the negotiation process between the Commission and public charter schools.

Your Committee received testimony in support of this measure from Ke Kula 'O Nāwahīokalani'ōpu'u; Kualapuu Public Charter School; and three individuals. Your Committee received comments on this measure from the State Public Charter School Commission.

Your Committee finds that existing state law allows the State Public Charter School Commission (Commission) to adopt rules to administer and implement state laws regarding public charter schools and negotiate and execute sound charter contracts with each approved charter applicant and with existing public charter schools. Your Committee further finds that although existing state law provides the Board of Education with the power to decide appeals of decisions by the Commission to deny the approval of a charter application, deny renewal of a charter contract, or revoke a charter school's charter contract, there is no appeals process for a complaint regarding unfair negotiating practices by the Commission. Your Committee believes that a more defined system of negotiation between public charter schools and the Commission is needed to allow charter schools to run their own individual operations effectively and efficiently.

Your Committee has amended this measure by:

- (1) Clarifying that the State Public Charter School Commission only consider providing an appeals process before the Board of Education for addressing complaints regarding the Commission's execution of administrative rules in developing administrative rules as requested by this measure;
- (2) Deleting certain findings made in this measure;
- (3) Amending its title; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 145, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.R. No. 145, H.D. 1.

Signed by the Chair on behalf of the Committee.

SCRep. 1483-24 Education on H.C.R. No. 166

The purpose of this measure is to urge the State Public Charter School Commission to work with stakeholders to develop and adopt administrative rules governing the negotiation process between the Commission and public charter schools.

Your Committee received testimony in support of this measure from the Governing Board of Kanu O Ka 'Aina New Century Public Charter School; Hawaii Academy of Arts & Science Public Charter School; Kualapuu Public Charter School; and six individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the State Public Charter School Commission.

Your Committee finds that existing state law allows the State Public Charter School Commission (Commission) to adopt rules to administer and implement state laws regarding public charter schools and negotiate and execute sound charter contracts with each approved charter applicant and with existing public charter schools. SCRep. 1484-24 Education on H.R. No. 172

The purpose of this measure is to request the Auditor to conduct an audit of the Department of Education's statewide backlog of capital improvement repair and maintenance projects.

Your Committee received testimony in support of this measure from Hawai'i Children's Action Network Speaks!; Hui for Excellence in Education; and one individual. Your Committee received comments on this measure from the Office of the Auditor.

Your Committee finds that the Department of Education is responsible for the repair and maintenance of 4,425 buildings statewide, which is more than twenty million square feet of space. This is a time-consuming and financially draining task as approximately twenty percent of Hawaii's two hundred fifty-seven public schools are more than one hundred years old, and the average age of school buildings in the State is seventy-two years. Your Committee further finds that properly repairing and maintaining public school buildings are necessary for the safety of Hawaii's students and teachers.

Your Committee notes that in January 2018, the Department of Education reported to the Legislature that the school repair and maintenance backlog was \$293,000,000. The Department of Education later redacted that statement, reporting that the true backlog was \$868,000,000. This backlog has sharply increased in the few past years and is now estimated to be more than \$1,400,000,000, with more than four thousand six hundred repair and maintenance projects needed to be undertaken or finished by the Department of Education. Your Committee believes that an audit of the Department of Education could help identify any shortcomings in the current distribution of funds and determine any necessary changes to increase the efficiency of the Department of Education's capital improvement repair and maintenance projects.

Your Committee has amended this measure by requesting that the Auditor examine certain processes of the Department of Education related to repair and maintenance and procurement.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 172, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.R. No. 172, H.D. 1.

SCRep. 1486-24 Labor & Government Operations on H.R. No. 61

The purpose of this measure is to urge state departments and agencies to enable employees to telework to the greatest extent possible.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services. Your Committee received testimony with comments from the Department of Human Resources Development.

Your Committee notes that expanding telework capabilities will provide employees better flexibility and work-life balance as it allows employees to have more control over their schedules and daily life. Your Committee also highlights the cost savings to workers from lower commute costs such as gas, transportation, and parking due to increased telework. Your Committee believes telework will also make the state of Hawaii a more desirable employer.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 61 and recommends that it be referred to your Committee on Finance.

SCRep. 1488-24 Labor & Government Operations on H.R. No. 63

The purpose of this measure is to request The Auditor to conduct a sunrise review of the potential impacts of licensure and regulation of certain human resources management personnel.

Your Committee received testimony in support of this measure from Hawaii Government Employee Association-University of Hawaii and Hawaii Government Employee Association. Your Committee received testimony with comments of this measure from the Office of the Auditor.

Your committee notes that the legislative auditor testified that no bill was introduced this year to use as a baseline to complete the request outlined in this resolution. However, your committee points out that HB1646 would serve that purpose.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 63 and recommends that it be referred to your Committee on Consumer Protection & Commerce.

SCRep. 1490-24 Labor & Government Operations on H.R. No. 65

The purpose of this measure is to urge state executive departments to review minimum qualifications and compensation for class specifications for job postings and provide suggestions to the department of human resources development.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services.

Your Committee notes this measure may increase the opportunity to recruit and hire qualified individuals to fill the growing vacancies throughout the state. Your Committee also notes that this may result in fewer unfilled posts in the State of Hawaii and open doors for a broader pool of candidates.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 65 and recommends that it be referred to your Committee on Finance.

SCRep. 1492-24 Labor & Government Operations on H.R. No. 66

The purpose of this measure is to request the Director of Labor and Industrial Relations to amend title 12, chapter 15, Hawaii Administrative Rules, to clarify that compensation for advanced practice registered nurses under the state's workers' compensation law is distinct from compensation for registered nurses and shall be one hundred percent of the fees authorized under the Medicare fee schedule.

Your Committee received no testimony.

Your Committee recognizes the long standing supportive relationship between the Hawaii Department of Labor and Industrial Relations and advanced practice registered nurses. Your Committee notes that advance practice registered nurses are required to earn a postgraduate degree and operate at a higher level, overseeing patient care. Your Committee finds that amending the Workers' Compensation Medical Fee Schedule to ensure advanced practice registered nurses receive increased compensation will improve access to quality medical care.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 66 and recommends that it be referred to your Committee on Finance.

SCRep. 1496-24 Labor & Government Operations on H.R. No. 53

The purpose of this measure is to request The Department of Labor and Industrial Relations to convene an Interagency Enforcement Task Force to combat the underground economy and employee misclassification.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations and Pacific Resource Partnership.

Your Committee notes that convening an interagency enforcement task force is essential for maximizing resources and effective coordination. Your Committee notes interagency task forces facilitate sharing data information to create effective enforcement measures. Your Committee believes the task force will help protect the rights and interests of workers.

Your Committee has amended this measure by:

- (1) Amending its title;

(2) Clarifying that only the Director of Labor and Industrial Relations, rather than the Director or the Deputy Director is requested to serve as the Chair of the Interagency Enforcement Task Force;

(3) Limiting the scope of the Working Group to only the construction industry;

(4) Limiting the scope of the Task Force by deleting language requesting the Task Force to encourage identification of violators, work collaboratively with stakeholders to diminish the size of the underground economy and reduce employee misclassification, and work collaboratively with social service agencies to provide assistance to vulnerable populations that have been exploited by the underground economy and employee misclassification;

(5) Requesting the Insurance Commissioner from the Department of Commerce and Consumer Affairs to participate as a member of the Task Force; and

(6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 53, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.R. No. 53, H.D. 1.

SCRep. 1498-24 Labor & Government Operations on H.R. No. 144

The purpose of this measure is to request the Department of Human Resources Development to conduct a sample survey of for-profit, non-profit, and government organizations in Hawaii that have successfully implemented remote work, hybrid work, or telework arrangements.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism, Holomua Collaborative, Hawaiian Host Group, Hawaii Community Foundation, Hawaii Planning Mill, Mana Up, Title Guaranty Hawaii, and one individual. Your Committee received testimony with comments from the Department of Human Resources Development and University of Hawaii Economic Research Organization.

Your Committee notes that conducting a survey can help identify the strategies and best practices of successful implementation of remote work arrangements. Your Committee notes data from the survey provide valuable insights that can inform the development of policies and initiatives aimed at supporting remote work.

Your Committee has amended this measure by requesting the Department of Human Resources Development to work in coordination with the University of Hawaii Economic Research Organization to identify areas in the State that have a combination of lower housing costs and decreased access to good-paying jobs.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee concurs with the intent and purpose of H.R. SCRep. 1500-24 Transportation on H.R. No. 114

The purpose of this measure is to request the Department of Transportation to install speed bumps, speed detection devices, photo red light imaging detector systems, and other safety measures in House District 32.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that according to the Insurance Institute for Highway Safety, 1,109 people were killed in crashes that involved red light running in 2021. Your Committee further finds that the Photo Red Light Imaging Detector System program established by Act 30, Session Laws of Hawaii 2020, has resulted in a significant decrease in the number of crashes and citations in areas where red light cameras operate. Your Committee believes that placing red light cameras, along with other road safety measures, in House District 32 will increase road safety and reduce fatal traffic accidents in that district.

Your Committee has amended this measure by:

- (1) Amending its title;
- (2) Requesting the Department of Transportation to work in partnership with the City and County of Honolulu to install speed bumps, speed detection devices, photo red light imaging detector systems, and other safety measures in House District 32; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 114, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.R. No. 114, H.D. 1.

SCRep. 1502-24 Transportation on H.R. No. 116

The purpose of this measure is to request the Department of Transportation to conduct a study and offer recommendations regarding means by which Lānaʻi's supply chain issues caused by barge delays due to poor weather and ocean conditions may be resolved.

Your Committee received testimony in support of this measure from one member of the Maui County Council. Your Committee received comments on this measure from Young Brothers, LLC.

Your Committee finds that since 1900, Hawaii's residents have relied on Young Brothers for their shipping needs given that chapter 271G, Hawaii Revised Statutes, legalized the Young Brothers as the sole water carrier to transport property subject to the regulatory authority of the Public Utilities Commission. Your Committee further finds that Lānaʻi is acutely reliant on Young Brothers for regular barge services in order to avoid issues arising from supply chain shortages. Your Committee also finds that supply shortages have been especially prevalent due to unfavorable weather and ocean conditions which have threatened Young Brother's abilities to ensure the safety of their employees and their ability to enter the harbor and unload barges. Your Committee further

finds that in addition to supply chain issues and barge delays, Lānaʻi experiences expensive transportation costs due to its limited sea-barge and air-freight options. These services are essential for Lānaʻi's economic development as they provide a lifeline to the island's grocery stores and local businesses.

Your Committee additionally finds there are numerous ways to mitigate these supply shortage issues that challenge Lānaʻi, such as increasing storage facilities near Kaumālapaʻu Harbor for refrigerated and perishable goods. Your Committee further finds that to best address these supply shortage and harbor infrastructure issues, it is necessary for the Department of Transportation to conduct a study and provide recommended solutions in a report to the Legislature. Your Committee also finds that to ensure the success and usefulness of this study it may be necessary to seek outside expertise, such as that of the United States Army Corps of Engineers.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 116 and recommends that it be referred to your Committee on Finance.

SCRep. 1503-24 Transportation on H.C.R. No. 135

The purpose of this measure is to request the Department of Transportation to conduct a study and offer recommendations regarding means by which Lānaʻi's supply chain issues caused by barge delays due to poor weather and ocean conditions may be resolved.

Your Committee received testimony in support of this measure from one member of the Maui County Council. Your Committee received comments on this measure from Young Brothers, LLC.

Your Committee finds that since 1900, Hawaii's residents have relied on Young Brothers for their shipping needs given that chapter 271G, Hawaii Revised Statutes, legalized the Young Brothers as the sole water carrier to transport property subject to the regulatory authority of the Public Utilities Commission. Your Committee further finds that Lānaʻi is acutely reliant on Young Brothers for regular barge services in order to avoid issues arising from supply chain shortages. Your Committee also finds that supply shortages have been especially prevalent due to unfavorable weather and ocean conditions which have threatened Young Brother's abilities to ensure the safety of their employees and their ability to enter the harbor and unload barges. Your Committee further finds that in addition to supply chain issues and barge delays, Lānaʻi experiences expensive transportation costs due to its limited sea-barge and air-freight options. These services are essential for Lānaʻi's economic development as they provide a lifeline to the island's grocery stores and local businesses.

Your Committee additionally finds there are numerous ways to mitigate these supply shortage issues that challenge Lānaʻi, such as increasing storage facilities near Kaumālapaʻu Harbor for refrigerated and perishable goods. SCRep. 1504-24 Transportation on H.R. No. 133

The purpose of this measure is to request that the Department of Transportation conducts a feasibility study regarding the identification, repair, and transfer of private or disputed roads.

Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that chapter 264, Hawaii Revised Statutes, requires the Department of Transportation to establish an inventory of the roads and highways that are under its jurisdiction. Your Committee also finds that this chapter requires the Department of Transportation to score and rank the conditions of the roads under its jurisdiction so that repairs may be scheduled. Your Committee further finds that section 264.1-2.1, Hawaii Revised Statutes, provides the county with the power to demand the transfer or surrender of disputed roads. Your Committee finds that the Department of Transportation presently lacks the resources needed to identify and develop a list of all private and disputed roads that are not within its jurisdiction or control and it is necessary to conduct a feasibility study regarding the identification, repair, and transfer of private or disputed roads prior to the Department assuming financial responsibility for these roads.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 133 and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs.

SCRep. 1506-24 Transportation on H.R. No. 135

The purpose of this measure is to request that the Department of Transportation conduct a study regarding the impact of allowing motor vehicle owners to biannually pay motor vehicle registration fees and taxes.

Your Committee received testimony in opposition to this measure from the Department of Transportation.

Your Committee finds that despite these concerns the annual taxes and fees collected when non-new motor vehicles are registered can pose a huge financial burden to Hawaii's residents who may not be able to afford this lump sum payment. Your Committee also finds that these costs may result in residents abandoning their cars, using illegal vehicles, or struggling to keep up with other payments. Your Committee finds that biannual payments may reduce these issues and allow low-income residents to afford the cost of living and their motor vehicle registration payments. Your Committee notes that while there are concerns regarding biannual payments of motor vehicle registration fees and taxes, such as increased transaction fees charged by the online and kiosk registration systems and additional costs for printing and distributing two renewal notices, registration decals, and notices, this issue warrants greater study.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 135 and recommends that it be referred to your Committee on Finance.

SCRep. 1508-24 Transportation on H.R. No. 136

The purpose of this measure is to urge the United States and the State to recognize and address the air transportation crisis on Molokai and Lana'i.

Your Committee received testimony in support of this measure from AlohaCare and one individual.

Your Committee finds that prior to the COVID-19 pandemic, Molokai and Lana'i were serviced by three airlines. However, following the COVID-19 pandemic, two of the airlines ceased operations, leaving only a single airline providing commercial flights for Molokai and Lana'i residents. As a result, residents of Molokai and Lana'i face unique challenges in accessing nonemergency but critical medical care and are often forced to cancel or miss appointments due to frequent and unexpected flight reassignments and cancellations. Your Committee further finds that federal regulations complicate and restrict the actions the State may take on its own to address this issue. Your Committee believes that this measure demonstrates the State's desire to work with the federal government to provide safe, reliable air transportation for the residents of Molokai and Lana'i.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 136 and recommends that it be referred to your Committee on Finance.

SCRep. 1510-24 Transportation on H.R. No. 203

The purpose of this measure is to request the City and County of Honolulu to convene a task force to study permitted events in urban Honolulu.

Your Committee did not receive any written testimony on this measure.

Your Committee finds that the City and County of Honolulu grants over one hundred permits for events every year. Your Committee further finds that many of these events require the road closure of major arteries in urban Honolulu, and some of these closures can last up to twelve hours, preventing residents

in these areas from leaving their homes and carrying on their daily activities. This measure requests the City and County of Honolulu to examine the frequency, duration, impact, and road closure management of these events on residents of the communities in which these events are held.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of H.R. SCRep. 1512-24 Transportation on H.R. No. 161

The purpose of this measure is to urge the Department of Health, Department of Transportation, and Department of Land and Natural Resources to take action to reduce the carbon emissions arising from airplane transportation to and from the State.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from Airlines for America and Hawaiian Airlines.

Your Committee finds that the United Nation's Intergovernmental Panel on Climate Change found that each individual must remain within a yearly "carbon budget" of 2.7 tons in order to keep human-made global warming below 1.7 degrees Celsius and reach zero net emissions by 2050. Your Committee further finds that the average round trip flight to and from the State creates 1.8 tons of carbon emissions, which is approximately two-thirds of a person's 2.7-ton annual carbon budget. Your Committee notes that the Federal Aviation Administration currently oversees all aviation regulation, including emissions control, which may lead to preemption of any State regulations that are contrary to federal law. However, your Committee believes that there are multiple possibilities for addressing carbon emissions caused by air travel that do not require direct legislative action.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of H.R. The purpose of this measure establish a working group to evaluate the effectiveness of the University of Hawaii Community Colleges Summer Tuition Pilot Program.

Your Committee received testimony providing comments for this measure by the Legislative Reference Bureau.

Your Committee finds that the financial burden on students attending summer classes has been a longstanding concern,

often hindering their ability to pursue additional coursework or expedite their degree completion and it is in the legislatures best interest to look at diverse ways to support our community college students.

The purpose of this measure is to urge the University of Hawaii to lead the way in best practices for diversity, equity, and inclusion and demonstrate the importance of these initiatives by adopting a statewide equity statement.

Your Committee received no testimony for this measure.

Your Committee finds that in addition to ethnic diversity, UH is home to many first-generation students, veterans, international students, and students from the continental United States – all of which help make each class of students complex and diverse. As a result, UH has a special burden to ensure that all students feel welcome within the institution.

SCRep. 1519-24 Economic Development on H.R. No. 55

The purpose of this measure is to request the Department of Business, Economic Development, and Tourism to convene a Sports Wagering Working Group to conduct a comprehensive analysis of the potential legalization and regulation of online sports wagering in Hawaii.

Your Committee received testimony in support of this measure from the Sports Betting Alliance and DraftKings. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that a robust illegal sports betting market thrives in the absence of a legal, regulated framework. Your Committee further finds that the American Gaming Association estimates that Americans wager over \$63,000,000,000 each year in the illegal market with no oversight, consumer protections, or tax revenue generated. Your Committee also finds that sports wagering is offered safely and responsibly by reputable operators in jurisdictions where sports wagering is legal, and these operators implement robust measures with regard to identity verification, consumer protection, responsible gaming, and game integrity that are not present in the illegal market. Your Committee recognizes that the legalization of sports wagering presents an opportunity to generate significant revenue for Hawaii and believes that a comprehensive analysis of the potential legalization and regulation of online sports wagering in the State is warranted.

Your Committee notes that the Department of Business, Economic Development, and Tourism states in its testimony that for the project to be completed at the scope and timeline as requested in this measure, the Department would need \$200,000 in state funds to hire a research company to conduct the analysis. Alternatively and preferably, the Department currently has vacancies for economist positions and, if the deadline to submit the report to the Legislature is extended to twenty days prior to the Regular Session of 2026, the Department could fill the economist positions over the next few months and conduct the analysis in house.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 55 and recommends that it be referred to your Committee on Finance.

SCRep. 1521-24 Economic Development on H.R. No. 164

The purpose of this measure is to request the Department of Business, Economic Development, and Tourism to collaborate with universities in the State to convene the Hawaii Creative Innovation Group.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; University of Hawai'i System; and one individual.

Your Committee finds that the fashion and music industries in the State contribute to economic growth, job creation, cultural preservation, and tourism development, and the State's diverse ecosystem of artists, venues, recording studios, and educational institutions strengthens the State's cultural identity and enriches the lives of residents and visitors alike. The success stories of local music programs, accelerators, and projects are examples of the opportunities that exist in the intersection between music and media for the State's artists. Your Committee believes that the convening of a Hawaii Creative Innovation Group will help identify pathways and develop support systems to assist the emerging creative sectors in Hawaii.

SCRep. 1523-24 Economic Development on H.R. No. 94

The purpose of this measure is to request the Department of Business, Economic Development, and Tourism to convene a working group to examine the feasibility of a state lottery.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that according to the North American Association of State and Provincial Lotteries, forty-four states and the District of Columbia offer lotteries in the United States. Gallup polls have found that state lotteries are the most popular form of gambling in the United States, with roughly half of respondents saying they purchased a lottery ticket in the past twelve months. In 2021, Americans spent \$105.26 billion on lottery tickets, and state governments on average take in about a third of each lottery jackpot in taxes and revenue.

Your Committee recognizes that Hawaii is one of the few remaining jurisdictions without a state lottery. Your Committee believes that a working group should be convened to study whether a state lottery would be feasible.

The Department of Business, Economic Development, and Tourism states in its testimony that for the project to be completed at the scope and timeline as requested in this measure, the Department would need \$200,000 in state funds to hire a research company to prepare the feasibility study.

Your Committee further notes that the Department currently has vacancies for economist positions and recommends extending the deadline to submit the report to the Legislature to twenty days prior to the Regular Session of 2026 to give the Department time to fill the economist positions and conduct the study in house.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the Department of Business, Economic Development, and Tourism is requested to submit its report examining the feasibility of a state lottery to the Legislature no later than twenty days prior to the convening of the Regular Session of 2026; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 94, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.R. No. 94, H.D. 1.

In 2021, Americans spent \$105.26 billion on lottery tickets, and state governments on average take in about a third of each lottery jackpot in taxes and revenue.

Your Committee recognizes that Hawaii is one of the few remaining jurisdictions without a state lottery. Your Committee believes that a working group should be convened to study whether a state lottery would be feasible.

The Department of Business, Economic Development, and Tourism states in its testimony that for the project to be completed at the scope and timeline as requested in this measure, the Department would need \$200,000 in state funds to hire a research company to prepare the feasibility study.

Your Committee further notes that the Department currently has vacancies for economist positions and recommends extending the deadline to submit the report to the Legislature to twenty days prior to the Regular Session of 2026 to give the Department time to fill the economist positions and conduct the study in house.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the Department of Business, Economic Development, and Tourism is requested to submit its report examining the feasibility of a state lottery to the Legislature no later than twenty days prior to the convening of the Regular Session of 2026; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 113, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.C.R. No. 113, H.D. 1.

SCRep. 1537-24 Transportation on H.R. No. 12

The purpose of this measure is to urge the City and County of Honolulu to work with the Department of Transportation to plan and implement options for alternative ingress and egress in Mililani Mauka.

Your Committee received testimony in support of this measure from three individuals.

Your Committee finds that best practices for emergency preparedness require that a community possess more than one evacuation route, as a single ingress and egress route may prevent emergency vehicles from responding in a timely fashion. Your Committee further finds that Mililani Mauka features a single primary ingress and egress route, which leaves its residents vulnerable should that access road be obstructed during a natural disaster. This measure is intended to increase public safety by identifying alternative access routes for Mililani Mauka.

Your Committee has amended this measure by:

- (1) Amending its title in accordance with its amended purpose;
- (2) Deleting as unnecessary references to the Department of Transportation Services of the City and County of Honolulu;
- (3) Requesting the City and County of Honolulu to provide a plan for an alternative emergency access road in Mililani Mauka to the Legislature twenty days prior to the convening of the Regular Session of 2025, rather than twenty days prior to the convening of the Regular Session of 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 12, as amended herein, and recommends its adoption in the form attached hereto as H.R. No. 12, H.D. 1.

SCRep. 1539-24 Transportation on H.R. No. 45

The purpose of this measure is to urge the Department of Transportation to install speed bumps and speed limit signage on the portion of Kapolei Parkway between Kapolei High School and Kapolei Middle School.

Your Committee received testimony in support of this measure from the Department of Transportation; Kanehili Community Homestead Association; and three individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that the stretch of Kapolei Parkway between Kapolei High School and Kapolei Middle School experiences a significant volume of traffic, particularly during morning and afternoon school hours. Your Committee further finds that many drivers exceed posted speed limits, creating an unsafe

situation for pedestrians crossing the street. Your Committee believes that installing speed bumps and clear and well-maintained signage will reduce speeding and increase pedestrian safety in this area.

Your Committee has amended this measure by:

- (1) Amending its title in accordance with its amended purpose;
- (2) Requesting the City and County of Honolulu, as well as the Department of Transportation, to install speed bumps and speed limit on the portion of Kapolei Parkway between Kapolei High School and Kapolei Middle School; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 45, as amended herein, and recommends its adoption in the form attached hereto as H.R. No. 45, H.D. 1.

SCRep. 1541-24 Transportation on H.C.R. No. 59

The purpose of this measure is to urge the Department of Transportation Services of the City and County of Honolulu to work with the Honolulu Police Department to increase enforcement efforts against illegal electric bicycles and dirt bike motorcycles to make sidewalks and public roadways safer.

Your Committee received testimony in support of this measure from the Department of Transportation; Hawaii Federation of Republican Women; and five individuals.

Your Committee finds that electronic bicycles are widely available and becoming a more prevalent means of personal transportation. However, electric bicycles can become a serious safety hazard when ridden on sidewalks or in the middle of traffic lanes. Your Committee further finds that riders of electric bicycles often make an illegal and dangerous modification to their electric bicycles by installing an aftermarket delimiter that allows the electric bicycle to reach speeds of thirty miles per hour. This measure is intended to make the State's roads and sidewalks safer by increasing enforcement efforts against illegally modified electric bicycles and unsafe and unlicensed use of dirt bike motorcycles.

Your Committee has amended this measure by:

- (1) Amending its title in accordance with its amended purpose;
- (2) Deleting as unnecessary references to the City and County of Honolulu and instead urging the Department of Transportation Services of the City and County of Honolulu to work with the Honolulu Police Department; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 59, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 59, H.D. 1.

SCRep. 1542-24 Transportation on H.R. No. 43

The purpose of this measure is to urge the Department of Transportation to work with the City and County of Honolulu to plan and implement options for alternative ingress and egress routes in Pacific Palisades.

Your Committee received testimony in support of this measure from the Pearl City Neighborhood Board No. 21 and one individual.

Your Committee finds that best practices for emergency preparedness require a community possess more than one evacuation route, as a single ingress and egress route may prevent emergency vehicles from responding to an emergency in a timely fashion. Your Committee further finds that Komo Mai Drive, a steep and winding one-lane road, is the only ingress and egress from Pacific Palisades, which could leave residents of Pacific Palisades trapped should Komo Mai Drive be obstructed during an emergency or natural disaster. This measure is intended to increase public safety by identifying alternative access routes for Pacific Palisades.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 43 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

SCRep. 1544-24 Transportation on H.R. No. 38

The purpose of this measure is to request the City and County of Honolulu to conduct a sidewalk feasibility study along Kalihi Street from Kamaikai Street to Kalihi Valley Park.

Your Committee did not receive any written testimony on this measure.

Your Committee finds that because much of the infrastructure in Kalihi Valley was constructed before modern standards for road construction were developed, most of the upper portion of Kalihi Street lacks sidewalks. Your Committee further finds that because of the lack of sidewalks, there are many dangerous locations along Kalihi Street where pedestrians are required to walk in the street itself. This measure is intended to explore the feasibility of making significant improvements to Kalihi Street's sidewalks, including the removal of telephone poles in certain sections.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 38 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

The purpose of this measure is to urge the Governor and Board of Pharmacy to support the Lanai Community Health Center's Telepharmacy Pilot Demonstration and Research Project as a method of expanding the accessibility and affordability of prescription drugs to vulnerable populations and rural communities throughout the State.

Your Committee received testimony in support of this measure from the Hawaii Primary Care Association; Board of Pharmacy; AARP Hawaii; American Cancer Society Cancer Action Network; and Epilepsy Foundation of Hawaii.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 142 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, none.

SCRep. 1548-24 Labor & Government Operations on H.R. No. 5

The purpose of this measure is to urge the City and County of Honolulu to establish a new Satellite City Hall office in Mililani to improve access to government services.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition from one individual.

Your committee finds that building a new satellite city hall can improve accessibility and eliminate the need for individuals to drive long distances. Your committee notes that by facilitating easier access to many important services such as vehicle registration, licensing, creating state identification, license plate & emblem replacement, utilities payment, property tax payment and obtaining permits will improve quality of life. Your committee recognizes that the establishment of Mililani Satellite City Hall is a critical component of a governmental function and an essential service.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 5 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kapela, Martinez, Alcos).

SCRep. 1549-24 Labor & Government Operations on H.C.R. No. 15

The purpose of this measure is to urge the City and County of Honolulu to establish a new Satellite City Hall office in Mililani to improve access to government services.

Your Committee received testimony in support of this measure from Hawaii High School Republicans, Hawaii Federations of Republican Women and six individuals. Your Committee received testimony in opposition of this measure from one individual.

SCRep. 1550-24 Labor & Government Operations on H.R. No. 62

The purpose of this measure is to request the Governor establish a leadership accelerator program for exceptional managers in state government.

Your Committee received no testimony this measure.

Your Committee notes leadership accelerator programs provide opportunities for managers to connect with peers from across different government agencies. Your Committee notes investing in leadership development ensures that there are capable individuals prepared to take on higher-level roles and effectively lead government agencies in the future.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 62 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kapela, Martinez, Alcos).

SCRep. 1551-24 Labor & Government Operations on H.C.R. No. 77

The purpose of this measure is to request the Governor establish a leadership accelerator program for exceptional managers in state government.

Your Committee received no testimony this measure.

Your Committee notes leadership accelerator programs provide opportunities for managers to connect with peers from across different government agencies. Your Committee notes investing in leadership development ensures that there are capable individuals prepared to take on higher-level roles and effectively lead government agencies in the future.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 77 and recommends its adoption.

SCRep. 1552-24 Housing/Water & Land on H.R. No. 121

The purpose of this measure is to urge the Office of Planning and Sustainable Development to develop a fiscal analysis methodology to compare infrastructure and service costs with the financial contributions of a particular development to determine whether a specific project or particular zoning classification will contribute to the long-term fiscal sustainability of the state and respective county.

Your Committees received comments on this measure from the Office of Planning and Sustainable Development.

Your Committees find that low density developments consistently cost more in infrastructure maintenance costs and general service expenditures than they provide in tax revenue. This deficit continues to worsen, and new developments continue to be planned without accounting for future maintenance, infrastructure costs, and service costs. Your Committees believe that maintaining fiscally sustainable development will help the State build infrastructure, invest in vibrant public spaces, and house the State's growing population. However, your Committees note that in order to do this, proposed developments should be judged, in part, based on their long-term fiscal cost to the State.

Your Committees have amended this measure by:

- (1) Urging the Office of Planning and Sustainable Development to develop a scope of work or requests for proposals for bidders to perform their own analysis and methodology to determine the long-term fiscal sustainability of a development, rather than urging the Office to develop a fiscal analysis methodology;

- (2) Urging bidders, rather than the Office of Planning and Sustainable Development, to develop a visual mapping analysis and consider a methodology that estimates ongoing maintenance costs and the future replacement costs of infrastructure;
- (3) Amending the recipients of certified copies of this measure;
- (4) Amending its title in accordance with its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Housing and Water & Land that are attached to this report, your Committees concur with the intent and purpose of H.R. No. 121, as amended herein, and recommend its adoption in the form attached hereto as H.R. No. 121, H.D. 1.

Signed by the Chairs on behalf of the Committees.

SCRep. 1554-24 Legislative Management on H.R. No. 202

The purpose of this measure is to request the Legislative Reference Bureau to conduct a study to determine the implementation and standards of various sexual health education policies within the Department of Education.

Your Committee received testimony in support of this measure from the American Association of University Women of Hawai'i and Planned Parenthood Alliance Advocates-Hawai'i. Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that only twenty percent of Hawaii middle schools and forty-eight percent of high schools provided all twenty-two Centers for Disease Control and Prevention critical sexual health education topics. This measure will ensure that Hawaii's students are provided with the knowledge and tools necessary to make responsible, informed, and empowered choices about their sexuality, gender, relationships, and sexual and reproductive health.

Your Committee has amended this measure by:

- (1) Amending the contents of the study;
- (2) Changing its title to make a technical amendment; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Legislative Management that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 202, as amended herein, and recommends its adoption in the form attached hereto as H.R. No. 202, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kitagawa).

SCRep. 1555-24 Legislative Management on H.C.R. No. 222

The purpose of this measure is to request the Legislative Reference Bureau to conduct a study to determine the implementation and standards of various sexual health education policies within the Department of Education.

Your Committee received testimony in support of this measure from the American Association of University Women of Hawai'i; Planned Parenthood Alliance Advocates-Hawai'i; and seven individuals. Your Committee received testimony in opposition to this measure from One Impact Hawaii. Your Committee received comments on this measure from the Department of Education and Legislative Reference Bureau.

Your Committee finds that only twenty percent of Hawaii middle schools and forty-eight percent of high schools provided all twenty-two Centers for Disease Control and Prevention critical sexual health education topics. This measure will ensure that Hawaii's students are provided with the knowledge and tools necessary to make responsible, informed, and empowered choices about their sexuality, gender, relationships, and sexual and reproductive health.

Your Committee has amended this measure by:

- (1) Amending the contents of the study;
- (2) Changing its title to make a technical amendment; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Legislative Management that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 222, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 222, H.D. 1.

SCRep. 1556-24 Consumer Protection & Commerce on S.B. No. 2119

The purpose of this measure is to authorize out-of-state pharmacies to transfer prescription information to an in-state pharmacy for the initial fill of an out-of-state prescription.

Your Committee received testimony in support of this measure from the Department of Health; Board of Pharmacy; Disability and Communication Access Board; Kaiser Permanente Hawai'i; CVS Health; Walgreen Co.; and two individuals.

Your Committee finds that an out-of-state visitor may require prescription medication while in Hawaii. In this situation, the visitor will consult with the visitor's out-of-state physician for acute medication, who would typically issue the prescription to a pharmacy in the visitor's home state. Because existing law allows out-of-state pharmacies to transfer prescription information for refills, but not for initial fills, local pharmacists must contact out-of-state physicians for a verbal prescription order. This results in more work for the pharmacy and can cause delays in treatment for the out-of-state patient. This measure will allow out-of-state patients in Hawaii to receive their medication in a timely manner.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2119, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2119, H.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 4 (Belatti, Hussey-Burdick, Gates, Lowen).

SCRep. 1557-24 Judiciary & Hawaiian Affairs on S.B. No. 2532

The purpose of this measure is to:

- (1) Clarify that the definition of "dwelling", as it relates to offenses against property rights, includes multi-unit buildings and clearly marked and secured appurtenant parking or storage areas that are restricted to residents; and
- (2) Allow the owner of a multi-unit building, owner of an individual unit, a property manager, or an authorized representative of the condominium association to act as a complainant for the purpose of investigating and prosecuting an offense of burglary in the first degree in a multi-unit building.

Your Committee received testimony in support of this measure from the Honolulu Police Department; Honolulu Tower Association of Apartment Owners; and four individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that there has been an increase in the number of criminal acts by non-residents in areas of multi-unit buildings that are restricted to residents. Your Committee further finds that there is a need to clarify that the areas in multi-unit buildings that are restricted to residents, such as parking and storage areas within apartment buildings and condominiums, are part of the overall dwelling to ensure acts of theft in these areas are properly investigated and prosecuted as a burglary.

Your Committee has amended this measure by:

- (1) Amending the conditions under which a parking or storage area is included under the definition of "dwelling";
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2532, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2532, S.D. 2, H.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 3 (Ichiyama, Miyake, Souza).

SCRep. 1558-24 Judiciary & Hawaiian Affairs on S.B. No. 2236

The purpose of this measure is to require law enforcement officers to post notice of a search that has been conducted on a property, regardless of whether a warrant was issued.

Your Committee received testimony in support of this measure from the Office of the Public Defender. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that this measure will ensure residents are properly informed when a search has been conducted by the police on their private residence.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2236, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2236, S.D. 2, H.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, none. Excused, none.

SCRep. 1559-24 Water & Land on H.R. No. 79

The purpose of this measure is to urge the Department of Facility Maintenance of the City and County of Honolulu to clean several of Waipahu's streams and canals.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that there are several streams and canals in Waipahu that may be at risk for increased siltation and flooding due to the presence of debris and fast-growing vegetation. Your Committee further finds that cleaning and clearing these streams and canals in Waipahu would reduce the risks associated with these safety hazards.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 79 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, none.

SCRep. 1560-24 Water & Land on H.C.R. No. 95

The purpose of this measure is to urge the Department of Facility Maintenance of the City and County of Honolulu to clean several of Waipahu's streams and canals.

Your Committee did not receive any written testimony on this measure.

Your Committee finds that there are several streams and canals in Waipahu that may be at risk for increased siltation and flooding due to the presence of debris and fast-growing vegetation. Your Committee further finds that cleaning and clearing these streams and canals in Waipahu would reduce the risks associated with these safety hazards.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 95 and recommends its adoption.

Ayes, 9. Noes, none. Excused, none.

SCRep. 1561-24 Water & Land on H.R. No. 76

The purpose of this measure is to recognize the issue of illegal dumping within the Waipahu community.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that urgent action regarding illegal dumping is needed to mitigate health risks, protect the environment, and ensure the well-being of residents of and visitors to Waipahu.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 76, as amended herein, and recommends its adoption in the form attached hereto as H.R. No. 76, H.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, none.

SCRep. 1562-24 Water & Land on H.C.R. No. 92

The purpose of this measure is to recognize the issue of illegal dumping within the Waipahu community.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that urgent action regarding illegal dumping is needed to mitigate health risks, protect the environment, and ensure the well-being of residents of and visitors to Waipahu.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 92, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 92, H.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 9. Noes, none. Excused, none.

SCRep. 1563-24 Water & Land on H.R. No. 9

The purpose of this measure is to urge the Department of Land and Natural Resources to implement a native plant seeding project on the lands impacted by the November 2023 wildfires in Mililani Mauka to protect the area from the threat of similar devastation in the future.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that implementing native plant seeding projects is a proactive measure that addresses the urgent need for ecological restoration and wildfire risk mitigation. Your Committee further finds that seeding native plants in restoration efforts enhances the ecosystem's resilience against future wildfires, supports the recovery of endangered and threatened species by providing them with their natural habitat, and preserves the biodiversity that is crucial for maintaining ecological balance.

Your Committee has amended this measure by:

- (1) Urging the Department of Land and Natural Resources to work with the United States Fish and Wildlife Service to implement the native plant seeding project;
- (2) Amending its title to reflect its modified scope;
- (3) Adding the Fish and Wildlife Administrators and Project Leader of the Pacific Islands Fish and Wildlife Office of the United States Fish and Wildlife Service as recipients of certified copies of this measure; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 9, as amended herein, and recommends its adoption in the form attached hereto as H.R. No. 9, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 1564-24 Water & Land on H.C.R. No. 19

The purpose of this measure is to urge the Department of Land and Natural Resources to implement a native plant seeding project on the lands impacted by the November 2023 wildfires in Mililani Mauka to protect the area from the threat of similar devastation in the future.

SCRep. 1565-24 Water & Land on H.R. No. 188

The purpose of this measure is to urge Hawaii's Congressional delegation to obtain federal funding for the construction of an Environmental Protection Agency certified laboratory to test for environmental toxins in the State and publish the results of its analyses to the public.

Your Committee received testimony in support of this measure from the Honolulu Board of Water Supply; Sierra Club of Hawai'i; Democratic Party of Hawai'i; Environmental Caucus of the Democratic Party of Hawai'i; and two individuals.

Your Committee finds that although section 321-29.5, Hawaii Revised Statutes, was enacted in 2022 to mandate the Department of Health to establish and operate a toxicology laboratory designed to test for diseases as well as air and water quality issues, no such laboratory has been funded or constructed. Following the November 2021 Red Hill Bulk Fuel Storage Facility release of fuel and per- and polyfluoroalkyl substances containing aqueous film forming foam, the Department of Health's laboratory did not have the capability to evaluate the presence of toxins in water, so the State had to send samples to the continental United States and wait nearly one month for a determination of the toxicity level of exposure of nearly one hundred thousand people. Your Committee further finds that a local facility that can test for diseases and air and water quality issues and provide the public with timely analyses of environmental toxins would significantly aid in preventing contamination of the water supply and mitigating threats to Hawaii's environment and public health.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 188 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 1566-24 Water & Land on H.C.R. No. 208

The purpose of this measure is to urge Hawaii's Congressional delegation to obtain federal funding for the construction of an Environmental Protection Agency certified laboratory to test for environmental toxins in the State and publish the results of its analyses to the public.

Your Committee received testimony in support of this measure from the Honolulu Board of Water Supply; Sierra Club of Hawai'i; Democratic Party of Hawai'i; Hawaii Reef and Ocean Coalition; Environmental Caucus of the Democratic Party of Hawai'i; Americans for Democratic Action; and four individuals.

Your Committee finds that although section 321-29.5, Hawaii Revised Statutes, was enacted in 2022 to mandate the Department of Health to establish and operate a toxicology laboratory designed to test for diseases as well as air and water quality issues, no such laboratory has been funded or constructed. Ayes, 9. Noes, none. Excused, none.

SCRep. 1567-24 Water & Land on H.R. No. 178

The purpose of this measure is to request the State's Congressional delegation to advocate for the enforcement of existing international laws to reduce ghost nets entering the State from international waters and take other actions to reduce marine debris from fishing gear.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Friends of Hanauma Bay.

Your Committee finds that discarded or lost fishing nets in the ocean, otherwise known as ghost nets, entangle, injure, and kill hundreds of thousands of marine animals and coral reefs every year. Because ghost nets are non-biodegradable, these fishing debris can pollute the ocean for up to six hundred years after initially entering the ocean.

Your Committee further finds that international waters are the most common location for fishing vessels to dump ghost nets, and one hundred fifteen thousand pounds of ghost nets wash in from international waters to the reefs of Papahānaumokuākea Marine National Monument (Papahānaumokuākea) annually, harming coral reefs and marine wildlife. Your Committee notes that there is a backlog of ghost net accumulation of approximately one million pounds in Papahānaumokuākea, despite ongoing clean-up efforts by government agencies and non-profit organizations.

Your Committee also finds that the International Maritime Organization's London Dumping Regime and International Convention for the Prevention of Pollution from Ships Annex V specifically prohibit discharge of synthetic ropes and fishing gear. The International Law of the Sea allows states to take action against vessels entering their ports if there is evidence that they have abandoned or negligently lost fishing gear, although gear is not marked in such a way as to trace ownership. Your Committee believes that the United States Congress should take action to reduce ghost nets entering in Hawaii.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 178 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 1568-24 Water & Land on H.C.R. No. 198

SCRep. 1569-24 Water & Land on H.R. No. 69

The purpose of this measure is to request the Department of Land and Natural Resources to work with the National Oceanic and Atmospheric Administration and other experts to conduct a study on the population status of coral reef herbivores around the island of Oahu and develop effective policies for substantially increasing those populations within a decade.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Democratic Party of Hawai'i; Hawai'i Reef and Ocean Coalition; Environmental Caucus of the Democratic Party of Hawai'i; Friends of Hanauma Bay; The Nature Conservancy; and five individuals. Your Committee received comments on this measure from For the Fishes.

Your Committee finds that coral reefs provide extremely valuable ecosystem goods and services for the people of Hawaii. Reefs are also fundamental to the fabric of local communities, providing a source of food, materials, and traditional activities. Your Committee further finds that many reefs around the island of Oahu have been degraded from poor land use practices and are dominated by dead coral covered by seaweeds. The maintenance and recovery of coral reefs require abundant and diverse herbivores, which keep reef surfaces clean so that corals can flourish.

Your Committee notes that the population of coral reef herbivores around Oahu is the lowest in the State, existing at below five percent of its potential. Your Committee believes that strengthening existing statewide fishing rules concerning herbivores, along with other policies and strategies, are needed to help replenish herbivore populations in the coral reefs surrounding Oahu.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 69 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 1570-24 Water & Land on H.C.R. No. 83

The purpose of this measure is to request the Department of Land and Natural Resources to work with the National Oceanic and Atmospheric Administration and other experts to conduct a study on the population status of coral reef herbivores around the island of Oahu and develop effective policies for substantially increasing those populations within a decade.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Democratic Party of Hawai'i; Hawai'i Reef and Ocean Coalition; Big Island Reef Keepers Hui; Environmental Caucus of the Democratic Party of Hawai'i; Friends of Hanauma Bay; The Nature Conservancy; and six individuals. Your Committee received comments on this measure from For the Fishes.

SCRep. 1571-24 Water & Land on H.C.R. No. 4

The purpose of this measure is to request Hawaii's Congressional delegation to amend Public Law 105-377 to expand the membership of the Northwest Wildland Fire Protection Agreement to include Hawaii.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that the Northwest Wildland Fire Protection Agreement offers a proven framework for collaboration and mutual aid among member states, provinces, and territories. Your Committee further finds that through this Agreement, members benefit from sharing critical information, technologies, and resources, empowering them to respond more effectively to wildfires and undertake measures that significantly reduce the risk of such events.

Your Committee has amended this measure by:

- (1) Requesting the current members of the Northwest Wildland Fire Protection Agreement, rather than Hawaii's Congressional delegation, to amend the Agreement to allow Hawaii to join as a member;
- (2) Amending its title in accordance with its amended purpose;
- (3) Amending the list of recipients of certified copies; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 4, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 4, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 1572-24 Education on H.C.R. No. 174

The purpose of this measure is to request the Department of Education to conduct a study on the implementation of later school start times, to commence no earlier than 8:30 a.m., and the impact on student health and wellness.

Your Committee received testimony in support of the intent of this measure from the Department of Health. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that the American Academy of Pediatrics recommends that the first school bell ring no earlier than 8:30 a.m. nationwide. Early school start times are associated with students sleeping less, irritability and fatigue, and difficulty paying attention in class, leading to poor academic performance. Your Committee further finds that all but five public high schools in the State begin their school days before 8:30 a.m. Your Committee believes that the concept of having schools statewide begin their school days after 8:30 a.m. may increase student academic performance and should be explored.

Your Committee has amended this measure by:

- (1) Requesting the Department of Education to consult with the Hawaii State Teachers Association on any requests the Association may have regarding school start times in future bargaining contracts and include any requests in the study;
- (2) Including the President of the Hawaii State Teachers Association as a recipient of a certified copy of this measure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 174, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 174, H.D. 1.

Signed by the Chair on behalf of the Committee.

SCRep. 1573-24 Education on H.R. No. 201

The purpose of this measure is to recognize February 19 through February 23, 2024, as Scholastic Journalism Week in Hawaii.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that the nationally recognized Journalism Education Association is celebrating one hundred years of supporting student journalists and advisers in Hawaii and nationwide since its founding in 1924. Your Committee further finds that the Journalism Education Association supports free and

responsible scholastic journalism by providing resources and educational opportunities, promoting professionalism, encouraging and rewarding student excellence and teacher achievement, and fostering an atmosphere that encompasses diversity and builds unity. Your Committee recognizes that February 19 through February 23, 2024, has been designated as Scholastic Journalism Week throughout the country to celebrate the Journalism Education Association as well as its advisers, student journalists, and publication programs, and believes that Scholastic Journalism Week is deserving of recognition in Hawaii.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 201 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

SCRep. 1575-24 Education on H.R. No. 171

The purpose of this measure is to urge the Department of Education to develop a comprehensive plan for the reinstatement of cancelled school bus service routes.

Your Committee received testimony in support of this measure from the Pearl City Neighborhood Board and four individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that the availability of school bus services is essential to student attendance, especially for families who live in rural and remote areas and students who come from socioeconomically disadvantaged communities. Your Committee further finds that the Department of Education provides bus services in neighborhoods across the State to ensure broad access to educational opportunities for Hawaii's students, serving approximately twelve thousand student riders on Oahu and thirteen thousand student riders on the neighbor islands.

Your Committee notes that, currently, there is a nationwide shortage of school bus drivers. Due to the shortage of qualified school bus drivers in the State, student bus transportation services have been completely or partially suspended at ten Oahu high schools and four schools on Kauai in the 2023-2024 school year. Suspensions of additional school bus service routes in other counties of Hawaii are anticipated if the shortage of qualified school bus drivers continues. Your Committee believes that a comprehensive plan to reinstate previously cancelled school bus service routes is needed to ensure that all students in the State are able to use school bus services to arrive at public schools on time.

Your Committee further notes that the Department of Education stated in its testimony that the comprehensive plan could encompass the consideration of alternative transportation options such as carpooling and public transit in addition to school bus transportation, and could also include the examination of efficiency strategies such as centralized bus stops.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 171 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Martinez, Matayoshi, Todd).

SCRep. 1576-24 Education on H.C.R. No. 191

The purpose of this measure is to urge the Department of Education to develop a comprehensive plan for the reinstatement of cancelled school bus service routes.

Your Committee received testimony in support of this measure from the Pearl City Neighborhood Board No. 21 and six individuals. Your Committee received comments on this measure from the Department of Education and one individual.

SCRep. 1577-24 Education on H.R. No. 93

The purpose of this measure is to urge the Department of Education, in collaboration with the Office of School Facilities and Support Services, to develop procedures that will expedite the hiring process for security guards regulated under chapter 463, Hawaii Revised Statutes.

Your Committee received comments on this measure from the Board of Private Detectives and Guards.

Your Committee finds that many young people experience nonfatal physical injuries as a result of school violence. Your Committee further finds that there has been an increased incidence of violent events at public schools, which represents a growing trend of violence that jeopardizes the safety and well-being of children and educators in the State.

Your Committee also finds that security guards, under state law, are a regulated profession subject to licensure, registration, and continuing education requirements. The Department of Education's Office of School Facilities and Support Services has an existing contract ensuring all security guards employed by the Department of Education are compliant with the licensure renewal requirements for private detectives and guards. Your Committee believes that the growing trend of violence at public schools necessitates the need for an increased security presence on public school campuses through an increase in hiring for security guards regulated under State law.

Your Committee has amended this measure by:

- (1) Amending its title in accordance with its amended purpose;
- (2) Urging the Department of Education to also collaborate with the Board of Private Detectives and Guards in developing procedures to expedite the hiring process for security guards; and
- (3) Deleting language that urged the Department of Education to consult with the Board of Private Detectives and Guards to create new job descriptions for security personnel that do not require the applicant to be licensed under chapter 463, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 93, as amended herein, and recommends its adoption in the form attached hereto as H.R. No. 93, H.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 3 (Martinez, Matayoshi, Todd).

SCRep. 1578-24 Education on H.C.R. No. 112

The purpose of this measure is to urge the Department of Education, in collaboration with the Office of School Facilities and Support Services, to develop procedures that will expedite the hiring process for security guards regulated under chapter 463, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Education. Your Committee received comments on this measure from the Board of Private Detectives and Guards.

SCRep. 1579-24 Water & Land on H.R. No. 122

The purpose of this measure is to strengthen fire and flood mitigation in South Maui and encourage actions to control the invasive axis deer population on Maui.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that this measure supports a net gain in wetlands for the entire State, which will bolster efforts at fire and flood mitigation.

Your Committee has amended this measure by:

- (1) Requesting the State, rather than the Department of Land and Natural Resources, to adopt a policy to promote a net gain in wetlands;
- (2) Modifying its title in accordance with its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 122, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as H.R. No. 122, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, none.

SCRep. 1580-24 Judiciary & Hawaiian Affairs on S.B. No. 2958

The purpose of this measure is to amend or repeal various provisions of the Hawaii Revised Statutes or the Session Laws of Hawaii for the purposes of correcting errors and references, clarifying language, or deleting obsolete or unnecessary provisions.

Your Committee received testimony in support of this measure from the Legislative Reference Bureau.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this statutory revision measure is submitted by the Legislative Reference Bureau pursuant to Chapter 23G, Hawaii Revised Statutes. All of the statutory amendments proposed by this measure are intended to be technical in nature to correct errors or omissions or to repeal obsolete laws.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2958, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2958, H.D. 1, and be placed on the calendar for Third Reading.

SCRep. 1581-24 Judiciary & Hawaiian Affairs on S.B. No. 2562

The purpose of this measure is to:

- (1) Prohibit individuals without a valid unrevoked license obtained from the Hawaii Board of Veterinary Medicine, or operating under the direct supervision of the same, from performing any surgical procedure on any pet animal;
- (2) Make performing any surgical procedure on any pet animal without a valid unrevoked license, or operating under the direct supervision of the same, a class C felony; and
- (3) Repeal the exception of cropping and docking as customarily practiced under the offense of cruelty to animals in the first degree.

Your Committee received testimony in support of this measure from the Hawaiian Humane Society; Animal Welfare Institute; Animal Interfaith Alliance in Britain; and numerous individuals. Your Committee received testimony in opposition to this measure from the Department of Agriculture. Your Committee received comments on this measure from the Hawaii Board of Veterinary Medicine; Hawaii Veterinary Medical Association; and Hawaii Cattlemen's Council, Inc.

Your Committee finds that surgical procedures on pet animals, such as dogs and cats, by untrained persons are cruel and harmful to the animals. Your Committee further finds that surgical procedures should only be performed on pet animals by licensed veterinary practitioners.

Your Committee further finds that H.B. No. 1527, H.D. 1 (Regular Session of 2024), a substantially similar measure, was previously passed by the House.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of H.B. 1527, H.D. 1, a measure that:
 - (A) Prohibits animal owners and their employees from performing any surgical procedures on the owner's animal or animals, if the owners and employees are not licensed to practice veterinary medicine;
 - (B) Increases the penalties for the unlicensed practice of veterinary medicine to a fine of no more than \$1,000, or imprisonment of no more than one year, or both;
 - (C) Clarifies that the offense of cruelty to animals in the first degree does not apply to accepted veterinary practices when the practices are performed by a license veterinarian; and
 - (D) Takes effect on July 1, 3000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2562, S.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2562, S.D. 3, H.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 1 (Kong).

SCRep. 1582-24 Judiciary & Hawaiian Affairs on S.B. No. 2693

The purpose of this measure is to establish the criminal offense of charitable fraud during a state of emergency.

Your Committee received testimony in support of this measure from the Honolulu Police Department. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that this measure will deter people from engaging in deceptive acts or practices regarding the solicitation of a contribution to assist persons affected by a disaster or emergency.

Your Committee has amended this measure by:

- (1) Clarifying the criminal acts that would constitute an offense of charitable fraud during a state of emergency;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and

(3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2693, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2693, S.D. 2, H.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 3 (Ichiyama, Miyake, Souza).

SCRep. 1583-24 Judiciary & Hawaiian Affairs on S.B. No. 3036

The purpose of this measure is to:

- (1) Clarify the definition of "profits from prostitution" to include situations where the money, thing of value, or other property received is not in excess of expenditures related to the agreement or understanding or is for reimbursement or repayment of a debt; and
- (2) Amend the sex trafficking and promoting prostitution criminal offense statutes by inserting relevant definitions in those statutes and repealing a statute that is no longer needed.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of the Prosecuting Attorney of the City and County of Honolulu; Department of the Prosecuting Attorney of the County of Maui; Honolulu Police Department; Imua Alliance; and two individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that in *State v. Ibarra*, 153 Hawai'i 50, 526 P.3d 575 (2023), the Hawaii Supreme Court decided to redefine a statutorily defined term. Your Committee further finds that as one of three co-equal branches of the Hawaii State Government, the Legislature has the sole power to make new laws or change existing laws. This measure clarifies the laws on sex trafficking and promoting prostitution so that sex traffickers may be held accountable.

Your Committee has amended this measure by:

- (1) Clarifying that the offense of sex trafficking includes profiting from prostitution that is the result of another person compelling or inducing a person by force, threat, fraud, coercion, or intimidation to engage in prostitution;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3036, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3036, S.D. 1, H.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Ganaden). Noes, none. Excused, none.

SCRep. 1584-24 Judiciary & Hawaiian Affairs on S.B. No. 2841

The purpose of this measure is to designate May 15 of each year as Water Safety Day.

Your Committee received testimony in support of this measure from the Hawai'i Children's Action Network Speaks!; Keiki Injury Prevention Coalition; Outtrigger Duke Kahanamoku Foundation; and one individual.

Your Committee finds that nationwide, drowning is the leading cause of death for children between the ages of one and four, and the second leading cause of unintentional death for children between the ages of five and fourteen. Your Committee further finds that Hawaii ranks second in the nation for drowning deaths. This measure is intended to curb the number of fatal child drownings by recognizing and encouraging water safety education for children.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2841, H.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 1585-24 Judiciary & Hawaiian Affairs on S.B. No. 2718

The purpose of this measure is to allow the Hawaii Labor Relations Board to admit and consider hearsay evidence.

Your Committee received testimony in support of this measure from the Hawai'i Labor Relations Board.

Your Committee finds that unlike other administrative agencies, the Hawaii Labor Relations Board is unable to admit or consider hearsay evidence under existing law. Enabling the Board to consider relevant hearsay evidence will provide a more just hearing process, particularly for self-represented litigants.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2718, S.D. 1, H.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 1 (Evslin).

SCRep. 1586-24 Judiciary & Hawaiian Affairs on S.B. No. 3025

The purpose of this measure is to:

- (1) Make the fine for growing hemp without a license applicable to any violation of the commercial hemp production law;
- (2) Clarify that the Department of Agriculture shall not require inspections or sampling of hemp that duplicates inspections or sampling required by the United States Department of Agriculture; and
- (3) Repeal the requirement for the adoption of additional rules by the Department of Agriculture to address nuisance issues, including smell, noise, and excessive lighting, arising out of the activities of hemp growers.

Your Committee received testimony in support of this measure from the Department of Agriculture; Rainbow Family 808; and one individual.

Your Committee finds that, under the existing laws regulating commercial hemp production, the Department of Agriculture is only authorized to impose penalties for failing to hold a license issued by the United States Department of Agriculture and is explicitly prohibited from imposing penalties for any other conduct with respect to the production of hemp. This explicit prohibition constrains the Department of Agriculture from enforcing other laws, including the Hawaii Pesticides Law. This measure will provide the Department with greater authority to enforce the laws of the State.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3025, H.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 3 (Ganaden, Holt, Ilagan).

SCRep. 1587-24 Judiciary & Hawaiian Affairs on S.B. No. 3154

The purpose of this measure is to clarify that failure to comply with agreed-upon archaeological mitigation commitments, conduct an archaeological inventory survey, or comply with other requirements pertaining to archaeological activities approved by the Department of Land and Natural Resources will result in civil and administrative violations.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs and Department of Land and Natural Resources.

Your Committee finds that this measure will allow the Department of Land and Natural Resources' State Historic Preservation Division to impose civil and administrative penalties for archaeological violations, even if those violations do not result in demonstrable damage to historic property, archaeological resources, or burial sites.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3154, S.D. 1, H.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 3 (Ganaden, Holt, Ilagan).

SCRep. 1588-24 Judiciary & Hawaiian Affairs on S.B. No. 2132

The purpose of this measure is to:

- (1) Amend the deadline related to the repair of conditions that constitute health or safety violations; and
- (2) Increase the amount deducted from a tenant's rent for the tenant's actual expenditures to correct health or safety violations and defective conditions.

Your Committee received testimony in support of this measure from the Hawai'i Association of REALTORS; Hawai'i Children's Action Network Speaks!; and one individual.

Your Committee finds that substandard and dangerous housing conditions can lead to housing instability and health and safety concerns for Hawaii's families. This measure would improve protections for Hawaii's renters and promote swift action by landlords to correct violations and defective conditions.

Your Committee notes that amending this measure to change the effective date to November 1, 2024, will allow realtors to produce new forms to comply with this measure.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2132, S.D. 1, H.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, none.

SCRep. 1589-24 Consumer Protection & Commerce/Judiciary & Hawaiian Affairs on S.B. No. 2529

The purpose of this measure is to amend the definition of "patient's provider" to allow licensed physicians, physician assistants, and advanced practice registered nurses to sign Provider Orders for Life-Sustaining Treatment for their patients without a face-to-face encounter.

Your Committees received testimony in support of this measure from the Department of Health; State Health Planning and Development Agency; Healthcare Association of Hawaii; Kōkua Mau; Hawai'i Care Choices; AlohaCare; Hawaii Medical Service Association; Hawaii Association of Health Plans; Kaiser Permanente Hawai'i; and nine individuals.

Your Committees find that a Provider Orders for Life-Sustaining Treatment (POLST) form is a portable medical order that documents a patient's choices for treatment near the end of life. POLST forms are universally recognized by first responders and professional health care caregivers throughout the State and are used in many health care settings, including hospitals, skilled nursing facilities, adult residential care homes, expanded adult residential care homes, community care foster family homes, hospices, and other settings.

Your Committees further find that existing law may be construed to require a face-to-face encounter with a patient. This is especially challenging for persons in hospice care, in which face-to-face encounters are not required under Medicare regulations unless the patient has been in hospice care for at least six months. This measure provides persons with greater flexibility to create or amend their POLST forms by repealing language that may be construed to require a face-to-face encounter between the patient's provider and the patient.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Consumer Protection & Commerce and Judiciary & Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2529, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2529, S.D. 1, H.D. 1.

Signed by the Chairs on behalf of the Committees.

Consumer Protection & Commerce: Ayes, 8. Noes, none. Excused, 3 (Nakashima, Hussey-Burdick, Lowen).

Judiciary & Hawaiian Affairs: Ayes, 9. Noes, none. Excused, 1 (Evslin).

SCRep. 1590-24 Judiciary & Hawaiian Affairs on S.B. No. 2715

The purpose of this measure is to make it unlawful for an employer to discharge, discipline, or otherwise penalize or threaten any adverse employment action against an employee because the employee declines to attend or participate in an employer-sponsored meeting that communicates the opinion of the employer about political matters, or declines to receive or listen to a communication from the employer that communicates the opinion of the employer about political matters.

Your Committee received testimony in support of this measure from the Hawaii State AFL-CIO; International Longshore and Warehouse Union Local 142; and numerous individuals. Your Committee received opposition to this measure from the Maui Chamber of Commerce. Your Committee received comments on this measure from the Society of Human Resource Management Hawaii.

Your Committee finds that it is an unfair labor practice for employers to retaliate against employees who decline employer-sponsored meetings and communications related to the employer's political beliefs. This measure would safeguard employees' rights to free expression and autonomy in the workplace.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2715, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2715, S.D. 1, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 1 (Evslin).

SCRep. 1591-24 Judiciary & Hawaiian Affairs on S.B. No. 2819

The purpose of this measure is to require vehicles traveling ten miles per hour or more below the posted speed limit on a two-lane highway, behind which five vehicles are formed in a line, to pull over where possible to let the trailing vehicles proceed when passing is unsafe.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that this measure would improve the flow of traffic on certain roads where overtaking or passing slow-moving vehicles is not possible.

Your Committee has amended this measure by:

- (1) Clarifying that vehicles traveling ten miles per hour or more below the posted speed limit on a two-lane highway shall pull over where possible to let the trailing vehicles proceed when overtaking or passing is unsafe unless doing so would result in an unsafe situation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2819, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2819, S.D. 1, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Ganaden). Noes, none. Excused, none.

SCRep. 1592-24 Judiciary & Hawaiian Affairs on S.B. No. 2066

The purpose of this measure is to establish another means for a housing project to seek an exemption from certain laws and rules, including those relating to planning, zoning, and construction, that are developed under the various programs of the Hawaii Housing Finance and Development Corporation.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation; NAIOP Hawaii; and Maui Chamber of Commerce.

Your Committee finds that existing regulatory barriers further exacerbate the severe shortage of affordable housing in the State. This measure provides another incentive for developers to utilize various programs under the Hawaii Housing Finance and Development Corporation to increase the supply of housing, thereby keeping residents in Hawaii.

Your Committee has amended this measure by:

- (1) Clarifying that a housing project seeking exemption from laws and rules of the State, in addition to meeting other requirements, may have affordability requirements or income restrictions and must require one hundred percent of the units in the project to be exclusively for qualified residents; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2066, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2066, S.D. 2, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 3 (Ganaden, Holt, Ilagan).

SCRep. 1593-24 Judiciary & Hawaiian Affairs on S.B. No. 2308

The purpose of this measure is to establish additional fines and penalties for violations of speeding in a school zone.

Your Committee received testimony in support of this measure from the Department of Transportation; Department of Education; and Oahu Metropolitan Planning Organization. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that the number of citations issued statewide for speeding in construction or school zones increased from two hundred twenty-four in 2022 to three hundred twenty-nine in 2023. Your Committee further finds that the fines and penalties established under this measure would serve as a stronger deterrent against speeding in school zones.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2308, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2308, S.D. 1, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 3 (Ganaden, Holt, Ilagan).

SCRep. 1594-24 Judiciary & Hawaiian Affairs on S.B. No. 2735

The purpose of this measure is to require:

- (1) The Examiner of Drivers to test applicants for driver's licenses on the applicant's knowledge of the dangers posed by larger motor vehicles, including trucks, to pedestrians and bicyclists; and
- (2) Persons who commit the offense of excessive speeding or habitually operating a vehicle under the influence of an intoxicant to retake and pass a driver's license examination for each offense.

Your Committee received testimony in support of this measure from the Department of Transportation; Oahu Metropolitan Planning Organization; and two individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that this measure will reduce motor vehicle fatalities and injuries by requiring persons who engage in dangerous driving behavior to retake and pass the driver's license examination. This measure will also increase education and awareness about the potential hazards of driving larger motor vehicles by requiring it to be tested on driver's license examinations.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2735, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2735, S.D. 1, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 2 (Ganaden, Holt).

SCRep. 1595-24 Judiciary & Hawaiian Affairs on S.B. No. 2834

The purpose of this measure is to establish a process for a landlord to dispose of a deceased tenant's personal property and take possession of the dwelling unit following the death of the tenant.

Your Committee received testimony in support of this measure from the Hawai'i Association of REALTORS.

Your Committee finds that there is no guidance in existing law to address when a unit is occupied by a tenant who dies, specifically how the possession of a rented unit is ended and the disposition of a deceased tenant's belongings is conducted. This measure will provide an orderly means to end tenancies upon a tenant's death and dispose of the deceased tenant's personal property.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes for future consideration as this measure progresses through the legislative process that the Hawai'i Association of REALTORS has requested an implementation date of November 1, 2024, to allow the Association sufficient time to amend its Standard Forms.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2834, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2834, S.D. 1, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 2 (Ganaden, Holt).

SCRep. 1596-24 Judiciary & Hawaiian Affairs on S.B. No. 3312

The purpose of this measure is to:

- (1) Adopt, establish, and designate the shaka as the official gesture of the State; and
- (2) Authorize the State Foundation on Culture and the Arts to develop a public work of art related to the shaka and its history to be displayed in a prominent location in the State.

Your Committee received testimony in support of this measure from the Hawaii Bulletin and seven individuals.

Your Committee finds that the shaka is a key brand symbol for Hawaii, offering influential power to build the State's economy, global brand, and resident pride. Your Committee further finds that, as the shaka is now used around the world, this measure ensures that Hawaii retains recognition as the birthplace of the shaka and honors the shaka as the official gesture of the State.

Your Committee has amended this measure by:

- (1) Including a definition of "shaka"; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3312, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3312, S.D. 1, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 2 (Ganaden, Holt).

SCRep. 1597-24 Judiciary & Hawaiian Affairs on S.B. No. 2721

The purpose of this measure is to clarify the penalties for violations of ocean recreation activities.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments on this measure from the Department of the Attorney General and Maui Chamber of Commerce.

Your Committee finds that this measure would enable the Department of Land and Natural Resources to impose sufficient penalties to deter repeat violations in the areas and facilities under the jurisdiction of the Division of Boating and Ocean Recreation.

Your Committee has amended this measure by:

- (1) Clarifying the environmental court's ability to impose geographical restrictions;
- (2) Defining certain terminology;
- (3) Repealing the authority of the Department of Land and Natural Resources to impose administrative fines for water pollution violations; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2721, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2721, S.D. 2, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 3 (Ganaden, Holt, Ilagan).

SCRep. 1598-24 Consumer Protection & Commerce on S.B. No. 3103

The purpose of this measure is to require persons who construct a large-scale renewable energy generation project sited in the State to provide a signed attestation or declaration regarding compliance with project labor standards to the Department of Business, Economic Development, and Tourism.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Hawai'i State Energy Office; Pacific Resource Partnership; Hawaii Regional Council of Carpenters; and Operating Engineers Local Union No. 3. Your Committee received comments on this measure from Hawaiian Electric and Tesla.

Your Committee finds that the State's commitment to ensuring that one hundred percent of all electrical energy be generated using renewable energy necessitates the development of a succession of large-scale renewable energy projects. Your Committee further finds that such projects should be in compliance with fair labor practices that reflect the values of the State. This measure will foster the mentoring and development of a skilled, in-state workforce, while offering workers long-term career opportunities in the burgeoning renewable energy sector and the ability to earn a living wage with benefits.

Your Committee has amended this measure by:

- (1) Inserting an exception in the event that a person constructing a covered project is unable to find contractors and subcontractors able and willing to meet the labor standards set forth in this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3103, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3103, S.D. 2, H.D. 2.

Signed by the Chair on behalf of the Committee.

SCRep. 1599-24 Consumer Protection & Commerce on S.B. No. 2476

The purpose of this measure is to authorize licensed dental hygienists under the general supervision of a licensed dentist to perform preventive dental sealant screenings and apply preventive dental sealants in a school-based oral health program.

Your Committee received testimony in support of this measure from the Department of Health; Department of Education; University of Hawai'i System; Disability and Communication Access Board; Board of Dentistry; Hawai'i Oral Health Coalition; Hawaii Medical Service Association; AlohaCare; Hawai'i Children's Action Network Speaks!; Hawaii Dental Service; Hawaii Dental Association; and numerous individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that dental hygienists are trained to identify when sealants may be appropriate and to apply sealants to teeth. However, under existing law, dental hygienists are only able to apply sealants when certain requirements are met: a child must be a patient of record with a dental provider and have a treatment plan from that provider before receiving a protective sealant. These requirements create administrative barriers that hinder efficiency and effectiveness of school-based oral health programs.

Your Committee further finds that allowing dental hygienists to apply sealants at the time of screening in a school-based setting is an effective, cost-free solution that improves oral health outcomes. While dental hygienists perform these key prevention activities, supervising dentists can prioritize patients' advanced care needs. This measure promotes good oral health practices by increasing access to dental hygienist services, which will improve the sustainability, efficiency, and effectiveness of school-based oral health programs.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2476, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2476, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Hussey-Burdick, Gates, Lowen).

SCRep. 1600-24 Consumer Protection & Commerce on S.B. No. 2350

The purpose of this measure is to establish:

- (1) A separate prohibition on driving motor vehicles with noisy mufflers on public highways in high density population areas;
- (2) Tiered fines for violations of motor scooter muffler laws; and

- (3) Tiered fines for violations of motor vehicle muffler laws.

Your Committee received testimony in support of this measure from the Department of Transportation; Honolulu Police Department; Waikiki Neighborhood Board No. 9; Windward Coalition; Livable Honolulu; and numerous individuals.

Your Committee finds that chronic noise pollution causes a wide variety of adverse health effects, including hearing damage, sleep disturbance, stress, anxiety, depression, impaired cognitive function, and increased cardiovascular effects. Your Committee further finds that excessive noise from modified mufflers on motor vehicles significantly contributes to noise pollution in the State. This measure promotes a healthier environment by increasing the penalties for noisy mufflers, which may deter would-be violators from installing aftermarket or altered equipment that creates excessive noise.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2350, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2350, S.D. 2, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Hussey-Burdick, Gates, Lowen).

SCRep. 1601-24 Consumer Protection & Commerce on S.B. No. 2687

The purpose of this measure is to prohibit the distribution of, or entering into an agreement with another person to distribute, materially deceptive media between the first working day of February in every even-numbered year through the next general election.

Your Committee received testimony in support of this measure from the Campaign Spending Commission; Hawaii State AFL-CIO; Public Citizen; and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from TechNet and Computer & Communications Industry Association.

Your Committee finds that deepfakes are videos, audio, or images that have been manipulated using artificial intelligence, often to create, replace, or alter faces or synthesize speech. Recent advances in the realm of artificial intelligence have made the tools needed to create deepfakes more widely accessible, while the quality of deepfake technology is improving rapidly, making it harder for the average person to detect a deepfake. These rapid advances in deepfake technology have deeply concerning implications for the upcoming elections. This measure is a vital step in ensuring that elections remain safe from the harmful influence of deepfake technology by prohibiting the distribution of materially deceptive media and providing a mechanism to criminally and civilly enforce this prohibition.

Your Committee has amended this measure by:

- (1) Specifying that interactive computer services are exempt from the prohibitions under this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2687, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2687, S.D. 1, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Hussey-Burdick, Gates, Lowen).

SCRep. 1602-24 Consumer Protection & Commerce on S.B. No. 2747

The purpose of this measure is to require the Department of Transportation to adopt rules requiring applicants for a tour aircraft operations permit to maintain minimum aircraft liability insurance coverage.

Your Committee received testimony in support of this measure from the Hawaii Association for Justice and Blue Hawaiian.

Your Committee finds that tour aircraft operations are businesses that offer aircraft for hire by passengers for the purposes of aerial observation of landmarks and other manmade or natural sites in the State and transporting passengers for tourist-related activities. Your Committee further finds that there have been a number of recent incidents involving helicopter crashes that resulted in catastrophic injury, loss of life, and substantial property damage, including a 2019 crash in a Kailua neighborhood on Oahu. This measure will ensure that these operations have the coverage necessary to properly compensate passengers and Hawaii residents in the event of a catastrophic incident.

Your Committee has amended this measure by specifying that the minimum aircraft liability insurance coverage be \$20,000,000 per person per incident that covers, at a minimum, bodily injury and death and loss and damage to property.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2747, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2747, S.D. 2, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Hussey-Burdick, Gates, Lowen).

SCRep. 1603-24 Consumer Protection & Commerce on S.B. No. 2753

The purpose of this measure is to:

- (1) Clarify that no state or county building code can prohibit the use of a substitute refrigerant allowed by the Environmental Protection Agency if the applicable equipment is listed and installed in compliance with any applicable safety standards and use conditions; and
- (2) Require the State Building Code Council to establish codes and standards consistent with the goal of reducing greenhouse gas emissions associated with hydrofluorocarbons.

Your Committee received testimony in support of this measure from the Department of Health; Building Decarbonization Task Force of the Hawai'i Environmental Change Agents; Climate Protectors Hawai'i; Air-Conditioning, Heating, and Refrigeration Institute; and Environmental Investigation Agency. Your Committee received testimony in opposition to this measure from the Chamber of Sustainable Commerce.

Your Committee finds that hydrofluorocarbons (HFCs) are primarily used as refrigerants in air conditioners and refrigerators as well as other applications such as fire suppressants, solvents, foam blowing agents, and aerosols. HFCs are greenhouse gases with global warming potentials that can be hundreds to

thousands of times more potent than carbon dioxide. Their use has been rapidly increasing worldwide due to the global phaseout of ozone-depleting substances and increased demand for refrigeration and air conditioning.

Your Committee further finds that the federal American Innovation and Manufacturing Act of 2020 (42 U.S.C. 7657) authorizes the United States Environmental Protection Agency (EPA) to phase down the production and import of HFCs and transition to a range of new environmentally friendly substitute refrigerants. To date, over forty states have updated their building codes to include necessary changes that will allow the use of substitute refrigerants and avoid any marketplace disruptions as the EPA transition begins. This measure removes a barrier to ensure that the State's consumers and businesses can maintain uninterrupted access to new air conditioning and refrigeration equipment that uses the most advanced and climate-friendly technologies available.

Your Committee has amended this measure by:

- (1) Clarifying that building codes and standards are to be consistent with the goal of reducing greenhouse gas emissions associated with hydrofluorocarbons and not in conflict with federal law; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2753, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2753, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, 1 (Pierick). Excused, 3 (Hussey-Burdick, Gates, Lowen).

SCRep. 1604-24 Education on H.R. No. 170

The purpose of this measure is to request the Board of Education, in partnership with the Department of Education, to produce a plan for adhering to school counselor best practices.

Your Committee received testimony in support of this measure from HawaiiKidsCAN. Your Committee received comments on this measure from the Board of Education.

Your Committee finds that school counselors play a critical role in ensuring students' academic, career, social, and emotional development and in promoting equity and access to opportunities and educational experiences for all students. Additionally, school counselors support students' postsecondary access and success by helping them navigate the college admissions process, explore career opportunities, and develop essential life skills and provide preventative and responsive services to help students overcome barriers that may impede their academic and postsecondary success.

Your Committee also finds that the American School Counselor Association (ASCA) recommends a student-to-school counselor ratio of two-hundred-to-one to effectively address the comprehensive needs of all students, yet just sixty-two percent of Hawaii public middle and high schools meet this recommendation. The ASCA recommends that a minimum of eighty percent of a school counselor's time should be spent in direct and indirect student services, yet Hawaii public middle and high school counselors report only being able to spend seventy-three percent of their time on these services.

Your Committee believes that having a twelve-month school counselor can ensure continuity of support for students, particularly for those who may not have access to such support outside of school. Your Committee further believes that providing Hawaii public intermediate, middle, and high school counselors with a more clearly defined job description will help school counselors better address the needs of Hawaii's students.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 170 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Martinez, Matayoshi, Todd).

SCRep. 1606-24 Finance on S.B. No. 2305

The purpose of this measure is to require and appropriate funds for the Department of Law Enforcement to establish and operate a Silver Alert Program to help locate and safeguard missing persons who are sixty-five years of age or older, cognitively impaired, or developmentally disabled.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; State Council on Developmental Disabilities; Office of the Mayor of the County of Kaua'i; Office of the Prosecuting Attorney of the County of Hawai'i; Hawai'i Police Department; United Public Workers, AFSCME

Local 646, AFL-CIO; AARP Hawai'i; Hawai'i Primary Care Association; Hawai'i Family Caregiver Coalition; Catholic Charities Hawai'i; Hawaii Disability Rights Center; Hawai'i Public Health Association; Hawaii Medical Service Association; Easterseals Hawaii; Hawai'i Parkinson Association; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Epilepsy Foundation of Hawaii; Oahu Search and Rescue; Association of Hawaiian Civic Clubs; International Longshore & Warehouse Union Local 142; Chamber of Commerce Hawaii; Council for Native Hawaiian Advancement; and numerous individuals. Your Committee received comments on this measure from the Office of Wellness and Resilience; Department of Law Enforcement; Department of Human Services; Executive Office on Aging; Honolulu Police Department; Hawaii Alliance for Retired Americans; and Alzheimer's Association – Aloha Chapter.

As affirmed by the record of votes of the members of your Committee on Finance that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2305, S.D. 2, H.D. 2, and recommends that it pass Third Reading.

SCRep. 1627-24 Finance on S.B. No. 3242

The purpose of this measure is to:

- (1) Require the Department of Transportation and county transportation agencies to define, regularly identify, and address high-risk and dangerous corridors and intersections; and
- (2) Authorize the Department of Transportation and counties to reduce the maximum speed limit within one mile of a school without first conducting an engineering study.

Your Committee received testimony in support of this measure from the Department of Transportation; Department of Transportation Services of the City and County of Honolulu; and Oahu Metropolitan Planning Organization.

As affirmed by the record of votes of the members of your Committee on Finance that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3242, S.D. 1, H.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 14. Noes, none. Excused, 2 (Cochran, Alcos).

SCRep. 1628-24 Consumer Protection & Commerce on S.B. No. 2122

The purpose of this measure is to extend the State's Energy-Efficiency Portfolio Standards from 2030 to 2045, update the standards, and authorize the Public Utilities Commission to establish interim goals and adjust the 2045 and interim standards.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Hawai'i Green Infrastructure Authority; Hawai'i State Energy Office; Public Utilities Commission; Office of Climate Change, Sustainability and Resiliency of the City and County of Honolulu; Hawaiian Electric; Ulu pono Initiative; Building Decarbonization Task Force of the Hawai'i Environmental Change Agents; Citizens' Climate Lobby Hawai'i; Climate Protectors Hawai'i; Hawai'i Alliance for Progressive Action; Democratic Party of Hawai'i; 350Hawaii.org; Hawai'i Energy; Blue Planet Foundation; and numerous individuals.

Your Committee finds that the Energy-Efficiency Portfolio Standards have been a successful policy for the State, serving as a critical component in support of the State's clean energy and decarbonization goals. Since the standards were established, they have generated many successful energy-saving programs for Hawai'i residents and businesses. According to the Market Potential Study (2020), the State is on track to meet and exceed the established 2030 target of four thousand three hundred gigawatt hours of energy savings. This measure challenges the State to further exceed the goal by establishing a new long-term goal of six thousand gigawatt hours by 2045.

While the Market Potential Study (2020) has noted that the State is on track to meet and exceed the established 2030 target, your Committee notes that the Public Utilities Commission has stated in its Report to the 2024 Legislature on Hawai'i's Energy Efficiency Portfolio Standards that more aggressive strategies will be needed to meet the 2030 target. Your Committee further notes that the aggressive strategies would not be identified until the next Market Potential Study update is completed, which is expected to occur in 2026. Consequently, your Committee notes there are concerns that this measure may be premature in its extension and increase of the energy efficiency goals since it is unclear whether the State will meet the 2030 target.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2122, S.D. 1, H.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Onishi). Noes, none. Excused, 3 (Hussey-Burdick, Gates, Lowen).

SCRep. 1629-24 Finance on S.B. No. 2345

The purpose of this measure is to:

- (1) Authorize the Department of Law Enforcement to coordinate crisis intervention training for state and county law enforcement agencies; and
- (2) Appropriate funds for positions and training and certification of officers in mental health first aid and the crisis intervention team model.

Your Committee received testimony in support of this measure from the Department of Health; State Council on Mental Health; Disability and Communication Access Board; Hawaii Substance Abuse Coalition; Hawai'i Primary Care Association; Alzheimer's Association - Hawaii; State of Hawaii Organization of Police Officers; Opportunity Youth Action Hawai'i; Epilepsy Foundation of Hawaii; Hawai'i Psychological Association; and four individuals. Your Committee received comments on this measure from the Office of Hawaiian Affairs; Department of Law Enforcement; Office of the Public Defender; Executive Office on Aging; and The Queen's Health System.

Your Committee has amended this measure by:

- (1) Changing the number of positions established by this measure to an unspecified number; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Finance that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2345, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2345, S.D. 2, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 14. Noes, none. Excused, 2 (Cochran, Alcos).

SCRep. 1630-24 Finance on S.B. No. 2401

The purpose of this measure is to appropriate funds to each county as a grant-in-aid for the implementation of feral chicken control programs and to the Department of Health for a feeding of feral animals education campaign.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau; BOMA Hawai'i; and one individual. Your Committee received testimony in opposition to this measure from Animal Rights Hawai'i. Your Committee received comments on this measure from the Department of Health; Department of Agriculture; and Hawaiian Humane Society.

Your Committee has amended this measure by specifying that each county that receives a grant-in-aid shall provide an unspecified percentage of matching funds for the implementation of feral chicken control programs.

As affirmed by the record of votes of the members of your Committee on Finance that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2401, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2401, S.D. 2, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 14. Noes, none. Excused, 2 (Cochran, Alcos).

SCRep. 1631-24 Judiciary & Hawaiian Affairs on S.B. No. 2908

The purpose of this measure is to:

- (1) Clarify the powers of the Governor and mayors to extend or terminate a state of emergency;
- (2) Clarify when proclamations take effect;
- (3) Prohibit residential rent increases in areas subject to emergency declarations and severe weather warnings; and
- (4) Shorten and clarify the duration of price control periods and the prohibition against residential-tenancy terminations.

Your Committee received testimony in support of this measure from the Hawai'i Emergency Management Agency; Hawai'i Association of REALTORS; Lāhainā Strong; Hawaii Food Industry Association; Hawai'i Restaurant Association; Hawai'i Alliance for Progressive Action; UNITE HERE Local 5; Jewish Voice for Peace - Hawai'i; and numerous individuals. Your Committee received comments on this measure from the Grassroot Institute of Hawaii and one individual.

Your Committee finds that individuals facing unforeseen disasters are particularly vulnerable to predatory practices, such as price gouging, that are intended to maximize profits during an emergency. This measure would further protect Hawaii residents from predatory rent increases during and after emergency situations.

Your Committee has amended this measure by:

- (1) Amending the duration of the prohibition on rent increases to twenty-four hours after a severe weather warning is canceled or seventy-two hours after the effective date and time of a declaration of a state of emergency, unless the prohibition is otherwise continued; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2908, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2908, S.D. 1, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 3 (Ganaden, Holt, Ilagan).

SCRep. 1632-24 Judiciary & Hawaiian Affairs on S.B. No. 2657

The purpose of this measure is to establish Makahiki Commemoration Day.

Your Committee received testimony in support of this measure from the Hawai'i Alliance for Progressive Action and five individuals.

Your Committee finds that existing state law recognizes November 20 of each year as Makahiki Commemoration Day. However, your Committee believes that it would be more appropriate to celebrate Makahiki Commemoration Day based on the traditional Hawaiian lunar calendar. This measure reflects a continued commitment to pursue the commemoration of the Makahiki season, an ancient Hawaiian New Year festival that honors the god Lono and celebrates bountiful harvest.

Your Committee has amended this measure by:

- (1) Amending the date on which Makahiki Commemoration Day is recognized; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2657, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2657, S.D. 1, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 2 (Ganaden, Holt).

SCRep. 1633-24 Judiciary & Hawaiian Affairs on S.B. No. 2630

The purpose of this measure is to authorize pedestrians to act contrary to the Statewide Traffic Code when a reasonably careful pedestrian would determine that there is no immediate danger of a collision with a moving vehicle.

Your Committee received testimony in support of this measure from one member of the Kaua'i County Council; Hawai'i Public Health Institute; Hawai'i Appleseed Center for Law and Economic Justice; American Civil Liberties Union of Hawai'i; Grassroot Institute of Hawaii; Get Fit Kauai; Hawai'i Bicycling League; America Walks; Kauai Path, Inc.; and numerous individuals. Your Committee received testimony in opposition to this measure from the Department of Law Enforcement; Department of Transportation; Honolulu Police Department; Maui Police Department; D. Otani Produce; and two individuals. Your Committee received comments on this measure from the Department of Health and one individual.

Your Committee finds that pedestrians should be trusted to cross the street when the absence of oncoming traffic makes it reasonably safe to do so. Your Committee further finds that removing jaywalking penalties has not been found to increase adverse public safety outcomes.

Your Committee has amended this measure by:

- (1) Deleting language that limited the authorized action in this measure to only when pedestrians are more than two hundred feet from a marked crosswalk; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2630, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2630, S.D. 1, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, 4 (Holt, Kong, Miyake, Souza). Excused, 1 (Ichiyama).

SCRep. 1634-24 Judiciary & Hawaiian Affairs on S.B. No. 2706

The purpose of this measure is to establish the Clean Slate Expungement Task Force to develop legislation for a state-initiated record clearing program.

Your Committee received testimony in support of this measure from the Office of the Public Defender; Crime Victim Compensation Commission; Community Alliance on Prisons; Last Prisoner Project; Hawai'i State Coalition Against Domestic Violence; American Civil Liberties Union of Hawai'i;

Hawai'i Innocence Project; Beyond Guilt Hawai'i; Democratic Party of Hawai'i; Opportunity Youth Action Hawai'i; Sex Abuse Treatment Center; Reimagining Public Safety in Hawai'i Coalition; Drug Policy Forum of Hawai'i; Law Office of Georgette A. Yaindl, LLC; and numerous individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General and Honolulu Police Department. Your Committee received comments on this measure from the Judiciary and Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that as of 2019, three hundred thousand residents of the State have been adversely affected by their past criminal records, hindering their ability to access employment, housing, and other opportunities. This measure establishes the Clean Slate Expungement Task Force to develop legislation for a state-initiated record clearing program.

Your Committee has amended this measure by:

- (1) Clarifying the objectives of the Clean Slate Expungement Task Force, including an objective that the Task Force provide recommendations to the Judicial Council that will inform the review of the Hawaii Penal Code;
- (2) Amending the membership of the Clean Slate Expungement Task Force, including:
 - (A) Specifying that representatives of private organizations are to be invited by the Task Force, rather than mandated; and
 - (B) Adding that the Task Force invite two directly impacted individuals with lived experience in the criminal legal system to participate as members of the Task Force;
- (3) Adding SEARCH – System for the Electronic Analysis and Retrieval of Criminal Histories – to the groups to be sought to provide technical assistance;

SCRep. 1635-24 Judiciary & Hawaiian Affairs on S.B. No. 2347

The purpose of this measure is to establish the Offense of Habitual Violent Misdemeanor Crime for the prosecution of persons who are convicted of three or more violent misdemeanors within five years and to be categorized as a class C felony.

Your Committee received testimony in support of this measure from the Department of Corrections and Rehabilitation; Department of Law Enforcement; Honolulu Police Department; Department of the Prosecuting Attorney of the City and County of Honolulu; Office of the Prosecuting Attorney of the County of Hawai'i; Waikiki Neighborhood Board No. 9; Waikiki Improvement Association; The Institute for Human Services, Inc.; Chamber of Commerce Hawaii; Hawai'i Lodging & Tourism Association; ABC Stores; and numerous individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender; Community Alliance on Prisons; Reimagining Public Safety in Hawai'i Coalition; American Civil Liberties Union of Hawai'i; and nine individuals. Your Committee received comments on this measure from the Department of the Attorney General and one individual.

Your Committee finds that a pattern of conviction for intentional, habitual violent behavior correlates to a likelihood of similar repeat offenses in the future. Your Committee further finds that repeat violent offenders pose a danger to the community. This measure establishes an offense for persons who habitually commit violent offenses.

Your Committee has amended this measure by:

- (1) Amending the Offense of Habitual Violent Misdemeanor Crime as follows:
 - (A) Renaming the offense to the Offense of Habitual Violent Crime;
 - (B) Including Abuse of a Family or Household Member in the list of instant offenses that triggers a habitual violent crime perpetrator to be charged for Offense of Habitual Violent Crime;
 - (C) Expanding the list of offenses for which prior convictions would categorize a person as a habitual violent crime perpetrator; and
 - (D) Specifying that a sentence of the Offense of Habitual Violent Crime is to be either an indeterminate term of imprisonment of five years with a minimum term of imprisonment of no less than one year or, for first convictions, a term of probation of five years with conditions to include one year of imprisonment;
- (2) Requiring the Department of the Attorney General to submit an annual report to the Legislature before the Regular Sessions of 2025 and 2026;
- (3) Requiring the prosecuting attorney of each county to provide the Department of the Attorney General with the data necessary to complete the annual report;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion;
- (5) Inserting a sunset date of June 30, 2026; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2347, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2347, H.D. 1, and be placed on the calendar for Third Reading.

SCRep. 1636-24 Judiciary & Hawaiian Affairs on S.B. No. 2487

The purpose of this measure is to increase:

- (1) The minimum amount of marijuana that a person must possess under the offense of promoting a detrimental drug in the second degree from one ounce to thirty grams; and
- (2) The amount of marijuana that is decriminalized under the offense of promoting a detrimental drug in the third degree from three grams to fifteen grams.

Your Committee received testimony in support of this measure from the Office of the Public Defender; Drug Policy Forum of Hawai‘i; Last Prisoner Project; ACLU of Hawai‘i; Marijuana Policy Project; Aloha Green Apothecary; Hawaii Substance Abuse Coalition; Democratic Party of Hawai‘i; Hawaii Cannabis Industry Solutions; Hawai‘i Alliance for Cannabis Reform; Cannabis Society of Hawai‘i; Hawai‘i Public Health Institute; and numerous individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General; Honolulu Police Department; Department of the Prosecuting Attorney of the City and County of Honolulu; and four individuals.

Your Committee finds that arrest for possession of small amounts of marijuana, or related paraphernalia, is one of the most common points of entry into the criminal justice system. Recognizing the push toward decriminalizing recreational marijuana across the nation, the Legislature decriminalized the possession of three grams or less of recreational marijuana in 2019. Your Committee believes that recreational marijuana should be further decriminalized to prevent individuals in possession of small amounts of marijuana, and related paraphernalia, from entering the criminal justice system. This will ensure that funds and resources are allocated to more serious drug offenses.

Your Committee has amended this measure by:

- (1) Exempting the possession of drug paraphernalia for marijuana from certain penalties under the Uniform Controlled Substances Act;
- (2) Amending the offense of promoting a detrimental drug in the second degree to prohibit knowingly possessing two ounces or more of marijuana other than marijuana concentrate and marijuana-infused products; ten grams or more of marijuana concentrate; or marijuana-infused products containing one gram or more of tetrahydrocannabinol, in the aggregate;
- (3) Amending the offense of promoting a detrimental drug in the third degree to:
 - (A) Prohibit knowingly possessing any marijuana concentrate in any amount or marijuana-infused products containing any amount of tetrahydrocannabinol; transferring a personal use quantity of marijuana to a person who is twenty-one years of age or older without remuneration; and smoking marijuana in a public place;
 - (B) Further decriminalize the possession of marijuana by making the possession or transfer without remuneration of a personal use quantity of marijuana a fine of \$25, or two hours of community service if requested;
 - (C) Make smoking marijuana in a public place a fine of up to \$130, or up to ten hours of community service if requested; and
 - (D) Defining when a transfer of marijuana is considered for remuneration and the term "personal use quantity of marijuana"; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2487, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2487, S.D. 1, H.D. 1, and be placed on the calendar for Third Reading.

SCRep. 1716-24 Judiciary & Hawaiian Affairs on H.R. No. 21

The purpose of this measure is to request the Office of Hawaiian Affairs to identify the scope of Native Hawaiian cultural appropriateness for the purpose of addressing Native Hawaiian disparities with emphasis on Native Hawaiian economic development, education, health, and housing needs.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Aloha Consultants; and one individual. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee finds that Native Hawaiians experience disparities and inequities in crucial aspects of life, including but not limited to economics, education, health, and housing. This measure requests the Office of Hawaiian Affairs to identify the scope of Native Hawaiian cultural appropriateness in these areas to better inform policy processes in the State.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 21 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

SCRep. 1718-24 Judiciary & Hawaiian Affairs on H.R. No. 176

The purpose of this measure is to urge the Hawaiian Homes Commission to consult beneficiaries of the Hawaiian Homes Commission Act regarding alternative waitlist and award prioritization based upon lineal and generational descendancy for Hawaiian Home Lands located in Hana, Maui.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that the Department of Hawaiian Home Lands currently gives priority for homestead leases based upon a beneficiary's date of application. However, in some situations it may be more culturally appropriate, and preferable, for awards to be based upon lineal and generational descendancy.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 176 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

SCRep. 1720-24 Judiciary & Hawaiian Affairs on H.R. No. 59

The purpose of this measure is to urge the Department of Law Enforcement to develop and implement a U visa certification policy.

Your Committee received testimony in support of this measure from the Department of Law Enforcement; The Legal Clinic; Valar Law LLC; Hawai'i Friends of Civil Rights; Hawai'i Coalition for Immigrant Rights; Hawai'i Alliance for Progressive Action; and five individuals.

Your Committee finds that federal law allows eligible undocumented immigrant victims to petition for nonimmigrant status under a U visa, which allows the victims to temporarily remain and work in the United States while assisting law enforcement. Having a U visa certification policy for the State will encourage undocumented immigrant victims to report and assist the investigation and prosecution of crimes involving domestic violence, sexual assault, and human trafficking.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 59, as amended herein, and recommends its adoption in the form attached hereto as H.R. No. 59, H.D. 1.

SCRep. 1722-24 Judiciary & Hawaiian Affairs on H.R. No. 174

The purpose of this measure is to request the Department of the Attorney General to conduct a study to determine if xylazine testing strips should be excluded from the State's definition of drug paraphernalia.

Your Committee received testimony in support of this measure from the Department of Law Enforcement. Your Committee received testimony in opposition to this measure from the Department of the Attorney General.

Your Committee finds that there has been a sharp increase in the trafficking of fentanyl mixed with xylazine. Xylazine, also known as "Tranq," is a powerful sedative that the United States Food and Drug Administration has approved for veterinary use only. Your Committee further finds that since xylazine is not an opioid, overdose reversal agents such as naloxone do not counteract the effects of xylazine. This places users at a higher risk of suffering from a fatal drug poisoning. People who inject drug mixtures containing xylazine can also develop severe wounds, including necrosis, that may lead to amputation. Your Committee believes that xylazine testing strips could prevent these complications and save lives by allowing users to test their drugs for xylazine before administration.

Your Committee has amended this measure by amending its title and substantive provisions to change the agency responsible for the study from the Department of the Attorney General to the Department of Law Enforcement.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 174, as amended herein, and recommends its adoption in the form attached hereto as H.R. No. 174, H.D. 1.

SCRep. 1724-24 Judiciary & Hawaiian Affairs on H.R. No. 185

The purpose of this measure is to:

- (1) Urge the University of Hawaii to adopt and publicize a statewide equity statement; and
- (2) Request the University of Hawaii to establish diversity, equity, and inclusion committees at each of its campuses.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee finds that diversity, equity, and inclusion efforts by the University of Hawaii should be supported as other states actively seek to undermine efforts to make higher education equitable for all students.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 185 and recommends its adoption.

SCRep. 1729-24 Consumer Protection & Commerce on H.R. No. 193

The purpose of this measure is to request the Hawaii State Energy Office to convene a Renewable Liquid Fuels Working Group to study local production, development, and incentives for renewable liquid fuels.

Your Committee received testimony in support from the Hawaii State Energy Office; Airlines for America; Island Energy Services; and Airlines Committee of Hawaii.

Your Committee finds that renewable liquid fuels offer a viable solution for mitigating greenhouse gas emissions produced by the transportation sector. This measure requests that the Hawaii State Energy Office convene a Renewable Liquid Fuels Working Group to study local production, development, and incentives for renewable liquid fuels.

Your Committee has amended this measure by:

- (1) Adding a representative from a local fuel distributor to be invited to participate in the working group; and
- (2) Deleting the interim reporting requirement and requesting the final report to be submitted to the Governor and Legislature no later than 20 days prior to the convening of the Regular Session of 2025.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee concurs with the intent and purpose of H.R. SCRep. 1742-24 Finance on H.R. No. 98

The purpose of this measure is to urge the Department of Transportation to establish a safe parking pilot program that allows homeless individuals living in their cars to park on state lands during prohibited hours.

For the purposes of conducting a public hearing, your Committee on Finance replaced the contents of this resolution with provisions urging the County of Maui to adopt a financially prudent budget for fiscal year 2024-2025 that maintains current operational levels except for certain mandatory or critical increases.

Your Committee received testimony in support of this measure from two members of the Maui County Council, Maui Chamber of Commerce, West Maui Taxpayers Association Inc., and two individuals.

Your Committee received comments on this measure from the County of Maui – Office of the Mayor and one member of the Maui County Council.

Your Committee finds that the August 2023 wildfires on the island of Maui destroyed the core of historic Front Street in Lahaina, Maui, and many surrounding neighborhoods, killing over a hundred people, destroying thousands of residential and commercial structures, and displacing thousands of residents.

Your Committee notes that the Maui County Mayor recently proposed a budget for fiscal year 2024-2025 reflecting an increase of \$429,200,000 over the prior fiscal year, a 33.9 percent increase, while at the same time expecting \$150,000,000 from the State in fiscal year 2024-2025, with more expected in the following two years, to assist with recovery efforts.

At the same time, the State has been supporting recovery efforts by diverting funding from budgeted programs, reprioritizing its current budget, and reducing budget requests of State agencies for fiscal year 2024-2025 and beyond to make more funding available to assist Maui County. The state has already dedicated over \$200,000,000 for recovery efforts and is currently expecting to dedicate over \$1,000,000,000 in the coming year.

Your Committee has amended this measure by adopting the provisions of the proposed draft urging the County of Maui to adopt a financially prudent budget for fiscal year 2024-2025.

As affirmed by the record of votes of the members of your Committee on Finance that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 98, as amended herein, and recommends its adoption in the form attached hereto as H.R. No. 98, H.D. 1.

SCRep. 1743-24 Finance on H.C.R. No. 117

The purpose of this measure is to urge the Department of Transportation to establish a safe parking pilot program that allows homeless individuals living in their cars to park on state lands during prohibited hours.

For the purposes of conducting a public hearing, your Committee on Finance replaced the contents of this resolution with provisions urging the County of Maui to adopt a financially prudent budget for fiscal year 2024-2025 that maintains current operational levels except for certain mandatory or critical increases.

Your Committee received testimony in support of this measure from two members of the Maui County Council, Maui Chamber of Commerce, West Maui Taxpayers Association Inc., and two individuals.

Your Committee received comments on this measure from the County of Maui – Office of the Mayor and one member of the Maui County Council.

Your Committee finds that the August 2023 wildfires on the island of Maui destroyed the core of historic Front Street in Lahaina, Maui, and many surrounding neighborhoods, killing over a hundred people, destroying thousands of residential and commercial structures, and displacing thousands of residents.

Your Committee notes that the Maui County Mayor recently proposed a budget for fiscal year 2024-2025 reflecting an increase of \$429,200,000 over the prior fiscal year, a 33.9 percent increase, while at the same time expecting \$150,000,000 from the State in fiscal year 2024-2025, with more expected in the following two years, to assist with recovery efforts.

At the same time, the State has been supporting recovery efforts by diverting funding from budgeted programs, reprioritizing its current budget, and reducing budget requests of State agencies for fiscal year 2024-2025 and beyond to make more funding available to assist Maui County. The state has already dedicated over \$200,000,000 for recovery efforts and is currently expecting to dedicate over \$1,000,000,000 in the coming year.

Your Committee has amended this measure by adopting the provisions of the proposed draft urging the County of Maui to adopt a financially prudent budget for fiscal year 2024-2025.

As affirmed by the record of votes of the members of your Committee on Finance that is attached to this report, your Committee concurs with the intent and purpose of H.C.R. No. 117, as amended herein, and recommends its adoption in the form attached hereto as H.C.R. No. 117, H.D. 1.

SCRep. 1744-24 Judiciary & Hawaiian Affairs on S.B. No. 2354

The purpose of this measure is to:

- (1) Expand the definition of "beer" to include any alcoholic beverage containing not less than 0.5 percent alcohol by volume obtained by fermentation of any infusion or decoction of malt or any substitute, including alcohol seltzer beverages, but excluding sake, cooler beverages, or other distilled products; and
- (2) Permit brewpubs to sell beer manufactured by the brewpub, or beer manufactured on their premises, under certain conditions.

Your Committee received testimony in support of this measure from Kona Brewing Hawaii. Your Committee received testimony in opposition to this measure from the Hawai'i Alcohol Policy Alliance. Your Committee received comments on this measure from Cares.

Your Committee finds that the existing statutory definition of "beer" follows the traditional basic ingredients used in historical beer manufacturing. However, this definition does not adequately reflect the expansion of the craft beer manufacturing sector and is not in alignment with the federal definition. This measure will alleviate these inconsistencies.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2354, S.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

SCRep. 1745-24 Housing/Water & Land/Judiciary & Hawaiian Affairs on S.B. No. 2948

The purpose of this measure is to:

- (1) Beginning January 1, 2025, permit residential uses in areas zoned for commercial use, with certain exceptions; and
- (2) Require, no later than January 1, 2026, the counties to adopt or amend ordinances to allow for adaptive reuse of commercial buildings for residential purposes.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Office of Housing of the City and County of Honolulu; Affordable Housing Connections LLC; Hawai'i Association of REALTORS; Democratic Party of Hawai'i; NAIOP Hawaii; Oahu Metropolitan Planning Organization; Hawai'i Zoning Atlas; Housing Hawai'i's Future; Grassroot Institute of Hawaii; Building Owners and Managers Association Hawaii; Hawaii Young Republicans; Building Industry Association of Hawaii; Maui Chamber of Commerce; and numerous individuals. Your Committees received testimony in opposition to this measure from Hawaii's Thousand Friends and one individual. Your Committees received comments on this measure from the Disability and Communication Access Board and one individual.

Your Committees find that the lack of diverse housing options contributes to the high cost of living in the State, pushing many residents out of Hawaii. Your Committees further find that adaptive reuse of commercial buildings has the potential to expand the State's housing inventory while also facilitating the creation of more vibrant communities. Adaptive reuse will allow for the development of housing in commercial districts and encourage the repurposing of older commercial buildings that are underutilized due to market conditions or functional obsolescence. Your Committees believe that this measure can be an important contribution toward easing Hawaii's housing shortage by allowing for the reuse of commercial buildings.

Your Committees have amended this measure by:

- (1) Clarifying that multifamily uses are considered residential uses for purposes of this measure;
- (2) Clarifying that the application of each adaptive reuse building code ordinance is notwithstanding any law, ordinance, or code or standard to the contrary;
- (3) Prohibiting the counties from requiring a micro unit to be larger than minimum standards established in the International Building Code, rather than setting a minimum standard of two hundred twenty square feet for micro units;
- (4) Changing the effective date to January 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Housing, Water & Land, and Judiciary & Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2948, S.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2948, S.D. 2, H.D. 1, and be placed on the calendar for Third Reading.

SCRep. 1746-24 Housing/Water & Land/Judiciary & Hawaiian Affairs on S.B. No. 3202

The purpose of this measure is to:

- (1) Require county zoning ordinances to allow for two or more additional dwelling units per residentially zoned lot within an urban district;
- (2) Prohibit private covenants for residentially zoned lots within an urban district from including certain limitations or restrictions on residential units;
- (3) Require the director of the county agency responsible for land use to review and act on any application for subdivision, consolidation, or resubdivision of certain parcels within the state urban land use district; and
- (4) Amend the calculation of impact fees for certain developments.

Your Committees received testimony in support of this measure from the Office of Planning and Sustainable Development; Hawaii Housing Finance and Development Corporation; Office of the Mayor of the County of Maui; one member of the Kaua'i County Council; County of Hawai'i Planning Department; Department of Planning and Permitting of the City and County of Honolulu; County of Kaua'i Planning Department; one member of the Hawai'i County Council; Affordable Housing Connections LLC; AARP Hawai'i; Hawai'i Island Chamber of Commerce; Council for Native Hawaiian Advancement; Oahu Metropolitan Planning Organization; Hawai'i Zoning Atlas; Island Plastic Bags, Inc.; Hawai'i Housing Affordability Coalition; Hawai'i YIMBY; Hawaii Appleseed Center for Law & Economic Justice; Housing Hawai'i's Future; Grassroot Institute of Hawaii; Hawai'i Children's Action Network Speaks!; Holomua Collaborative; HPM Building Supply; Kaua'i Chamber of Commerce; Hawaii Habitat for Humanity Association; Hawaii Young Republicans; Building Industry Association of Hawaii; Chamber of Commerce Hawaii; Dowling Company, Inc.; Maui Chamber of Commerce; and numerous individuals. Your Committees received testimony in opposition to this measure from two members of the Honolulu City Council; Hawaii Kai Neighborhood Board No. 1; Kailua Neighborhood Board No. 31; Mānoa Neighborhood Board No. 7; Save O'ahu's Neighborhoods; Rubin Enterprises.info; Lanikai Association; Windward Coalition; Case Lombardi A Law Corporation; Waimānalo Health Center; The Outdoor Circle, Manoa Branch; Livable Hawaii Kai Hui; Hawaii's Thousand Friends; Board of Directors of the 'Āina Haina Community Association; AIA Hawaii State Council; HI Good Neighbor; and numerous individuals. Your Committees received comments on this measure from the Department of the Attorney General; Office of Hawaiian Affairs; one member of the Honolulu City Council; Hawai'i Association of REALTORS; NAIOP Hawaii; and five individuals.

Your Committees find that the State's housing crisis has reached a point where existing methods are no longer sufficient to meet the increasing demands for affordable housing. Thousands of residents are leaving Hawaii every year in search of more affordable housing options on the mainland. Many families that remain in Hawaii are living paycheck to paycheck, with most of their money going to housing costs. Your Committees believe that reducing regulatory barriers to the development of housing will increase the supply of housing, thereby allowing more families to remain in Hawaii.

Your Committees received numerous written testimony in both support and opposition to this measure, as well as oral testimony at the hearing. The committee members engaged in a robust discussion with testifiers, and it was a respectful deliberative process. Your Committees also heard from several of the counties that they are discussing amendments to their county land use ordinances to allow additional dwelling units on lots zoned for residential use. It is your Committees' intention to closely monitor these discussions and if the counties are unsuccessful, to revisit this issue in a future legislative session.

Your Committees have amended this measure by:

- (1) Deleting language that would have required the counties to allow additional residential units on a residentially zoned lot within an urban district and all related language;
- (2) Clarifying that no private covenants for a residentially zoned lot within an urban district recorded after the effective date of this measure shall restrict density on that lot below the amount allowed by county zoning codes;
- (3) Exempting any private covenants recorded before the effective date of this measure from the private covenant restrictions under this measure;
- (4) Defining "residentially zoned lot";
- (5) Clarifying the powers of the director of the county agency responsible for land use and each county regarding any application for subdivision, consolidation, or resubdivision of parcels within the urban district;
- (6) Deleting the savings clause;
- (7) Changing the effective date to January 1, 3000, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Housing, Water & Land, and Judiciary & Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3202, S.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3202, S.D. 2, H.D. 1, and be placed on the calendar for Third Reading.

SCRep. 1780-24 Finance on S.B. No. 582

The purpose of this measure is to:

- (1) Transfer to the general fund the excess balances of various non-general funds from various state departments and agencies; and
- (2) Appropriate funds to support the State's response to the August 2023 wildfires that affected the County of Maui.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Hawai'i Emergency Management Agency; and one member of the Maui County Council. Your Committee received comments on this measure from the Department of Land and Natural Resources; Department of Agriculture; Department of Budget and Finance; Department of Human Services; Department of the Attorney General; Department of Transportation; Hawai'i Tourism Authority; Hawaii Technology Development Corporation; and Hawaii State Energy Office.

Your Committee finds that the transfer of excess amounts in various non-general funds to the general fund is one option to free up funds to help the State pass a balanced budget and provide much-needed assistance to the County of Maui in the wake of the wildfires. However, issues have arisen regarding the eligibility of certain costs related to Maui wildfire response for Federal Emergency Management Agency (FEMA) assistance, and other mechanisms have been proposed to provide assistance for Maui wildfire victims. Given these recent developments, your Committee has determined that other mechanisms are needed to cover the State's immediate expenses incurred in wildfire response efforts and to provide other assistance for Maui wildfire victims.

Accordingly, your Committee has amended this measure by:

- (1) Removing the transfer of excess balances of various non-general funds from various state departments and agencies to the general fund;
- (2) Making emergency appropriations for expenses related to FEMA-ineligible noncongregate housing and other costs relating to the provision of food, housing, and other assistance and for services, goods, or construction that are eligible for partial reimbursement through FEMA;
- (3) Requiring the monthly reporting of information related to the expenditure of funds;
- (4) Making an emergency appropriation to fund the State's contribution to the One Ohana Bank Trust Account for the compromise and settlement of claims caused by the Maui wildfires;
- (5) Requiring the Department of the Attorney General to submit an annual report on claims, amounts paid, administrative costs incurred, contributors, and contribution amounts associated with the One Ohana Bank Trust Account;
- (6) Repealing the general obligation bond authorization for the payment or prepayment of the State's other post-employment benefits liability through Act 247, Session Laws of Hawaii 2022;
- (7) Lapsing the general fund appropriation to the Pension Accumulation Fund through Act 115, Session Laws of Hawaii 2022, as amended by Act 35, Session Laws of Hawaii 2023;
- (8) Temporarily lifting various restrictions on the use of Major Disaster Fund monies and extending the lapse date of certain funds set aside for wildfire response;
- (9) Requiring the Department of Defense to submit a monthly report to the Legislature on federal reimbursements and expenditures related to the wildfire disaster and the Governor to submit a summary of that information to the Legislature before the Regular Session of 2025;
- (10) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Finance that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 582, S.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 582, S.D. 2, H.D. 1, and be placed on the calendar for Third Reading.

SCRep. 1781-24 Finance on S.B. No. 2725

The purpose of this measure is to:

- (1) Limit the tax base for pass-through entity taxation to an electing pass-through entity's qualified individual, trust, and estate members; and
- (2) Allow qualified individual, trust, and estate members to carry forward the pass-through entity tax credit to subsequent years until exhausted.

Your Committee received testimony in support of this measure from the Hawai'i Restaurant Association; Chamber of Commerce Hawaii; and Retail Merchants of Hawaii. Your Committee received comments on this measure from the Department of Taxation; Accuity LLP; Grassroot Institute of Hawaii; and Tax Foundation of Hawaii.

Your Committee finds that federal law caps the state and local tax (SALT) deduction for individuals at \$10,000 for the 2018-2025 tax years. Your Committee further finds that the Internal Revenue Service announced that the \$10,000 cap on SALT deductions claimed by pass-through entities would not apply if the state income tax is imposed directly on the entity. In response, the State enacted Act 50, Session Laws of Hawaii 2023 (Act 50), to allow entities to elect to be taxed at the entity level and claim a credit if certain of their members had income subject to the tax. However, Act 50 imposed the maximum individual tax rate and prevented the tax credit from being refunded or carried forward to subsequent years, which made it difficult for small businesses to benefit from Act 50 and created administrative difficulties for the Department of Taxation in implementing the credit for pass-through entities that have members that are also pass-through entities.

Your Committee finds that H.B. No. 1803, H.D. 1 (Regular Session of 2024), was previously passed by the House. Your Committee further finds that this measure is preferable to assist small businesses in benefitting from Act 50 as originally intended.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of H.B. No. 1803, H.D. 1, a measure that reduces the pass-through entity level tax rate and allows the pass-through entity tax credit to be carried forward to subsequent years;
- (2) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Finance that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2725, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2725, H.D. 1, and be placed on the calendar for Third Reading.

SCRep. 1782-24 Finance on S.B. No. 3068

The purpose of this measure is to appropriate funds to support the State's continued response to the August 2023 wildfires that affected the counties of Hawaii and Maui.

Your Committee received testimony in support of this measure from the Department of Transportation; Department of Land and Natural Resources; Department of Human Services; Hawai'i Emergency Management Agency; Care for 'Āina Now Coalition; Trust for Public Land; and eight individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Budget and Finance and Hawaii Housing Finance and Development Corporation.

Your Committee finds that additional funds will be needed by many state and county agencies to address the State's ongoing response to the wildfires.

Your Committee has amended this measure by:

- (1) Deleting several appropriations, some of which will instead be included in the Supplemental Appropriations Act of 2024, while retaining a total appropriation in this measure of \$459,720,000 for wildfires disaster response and recovery efforts as follows:
 - (A) \$200,000,000 out of the State Risk Management Revolving Fund for the disbursement of insurance claim payments, subject to reporting on proceeds allocated and expenditures made;
 - (B) \$186,160,000 in general revenues as a set-aside for wildfire recovery costs and authorization for the Governor to transfer funds to other state agencies, subject to prior notice given to the Legislature and reporting after each use of the transfer authority;
 - (C) \$10,000,000 in general revenues to the Department of Land and Natural Resources for fire and emergency response equipment; and
 - (D) \$63,560,000 in reimbursable general obligation bond revenue to fund capital improvement projects for the County of Maui, subject to reimbursement by the County of Maui for all interest payments on debt services of the bonds;
- (2) Requiring the Governor and any department or agency that receives funds transferred by the Governor to submit financial information reports regarding the expenditures;
- (3) Deleting the reauthorization of general funded capital improvement project operating appropriations as general obligation bond funded appropriations;
- (4) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Finance that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3068, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3068, S.D. 1, H.D. 1, and be placed on the calendar for Third Reading.

SCRep. 1783-24 Finance on S.B. No. 2831

The purpose of this measure is to authorize the Director of Taxation, for a six-year period beginning January 1, 2025, to assist certain counties, upon the declaration of a major disaster by the Governor, in levying, assessing, collecting, and otherwise administering the county transient accommodations tax.

Your Committee received testimony in opposition to this measure from the Office of the Mayor of the County of Maui and one member of the Maui County Council. Your Committee received comments on this measure from the Department of Taxation and Maui Chamber of Commerce.

Your Committee finds that this measure would provide temporary assistance to the County of Maui in collecting and administering the county transient accommodations tax.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Finance that is attached to this report, your Committee is in accord with the intent and purpose of S.B. Your Committee finds that Hawaii is one of a minority of states that imposes a state estate tax. Your Committee further finds that Hawaii's family businesses are critically important to the state economy, as they typically reinvest a significant portion of their profits into valuable but illiquid business assets such as more employees, better facilities, and smarter technology. The imposition of state estate taxes upon the death of the owner of a family business has sometimes resulted in the sale of the business due to a lack of liquidity or has required the business to divert capital to purchase life insurance, in order to pay estate taxes. This measure would expand application of the marital deduction to additional family members who may receive an interest in property upon the passing of an owner, which would help family businesses retain ownership of their businesses, better compete against publicly held companies, and continue reinvesting in the local economy and workforce.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Finance that is attached to this report, your Committee is in accord with the intent and purpose of S.B. SCRep. 1815-24 Finance on S.B. No. 2640

The purpose of this measure is to authorize the Department of Hawaiian Home Lands to provide beneficiaries on the waiting list the option of taking a cash award, payable from the Hawaiian Home Loan Fund, in lieu of a lease, which if exercised would result in removal from and loss of the right to return to the waiting list but continued entitlement to other rights provided by the Hawaiian Homes Commission Act.

Your Committee received testimony in support of this measure from Malama Makua and two individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee considers, as a viable option for this measure, the imposition of a safeguard of a twenty-to-thirty-year waiting period on the waiting list before having the option of taking the cash award.

As affirmed by the record of votes of the members of your Committee on Finance that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2640, S.D. 2, H.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

SCRep. 1816-24 Consumer Protection & Commerce on S.B. No. 2342

The purpose of this measure is to:

(1) Amend:

- (A) The penalties for repeated traffic violations, reckless driving violations, and violations of excessive speeding;
- (B) The penalties for driving without motor vehicle liability insurance; and
- (C) Motor vehicle insurance minimums to protect residents from repeat offenders; and

(2) Require the Insurance Commissioner to solicit rate filings from motor vehicle insurers for the amended motor vehicle insurance minimums in two stages, with the first stage for policies taking effect on or after July 1, 2025, and the second stage for policies taking effect on or after January 1, 2027.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu; Hawaii Association for Justice; and six individuals. Your Committee received testimony in opposition to this measure from the American Property Casualty Insurance Association of America; Hertz; and State Farm Mutual Automobile Insurance Company. Your Committee received comments on this measure from the Department of the Attorney General; Department of Commerce and Consumer Affairs; Hawaii Insurers Council; Turo; and one individual.

Your Committee finds that traffic fatalities and injuries in Hawaii have increased, with a record high of one hundred seventeen traffic fatalities and five hundred seventy serious traffic-related injuries in 2022. In the first six months of 2023, Hawaii had forty-three traffic fatalities, with two deaths occurring immediately outside of public schools. Your Committee recognizes that these tragic events demonstrate the need for greater safeguards and deterrents to improve safety on Hawaii's streets and better protect Hawaii residents. This measure increases the penalties for various violations to create a greater deterrent to dangerous driving behaviors.

Your Committee notes that this measure increases the penalty for a third offense of excessive speeding within a five-year period to be no fewer than thirty days and no more than ninety days. However, as identified by the Department of the Attorney General in the Department's written testimony before your Committee, this penalty is in conflict with the offense's classification as a petty misdemeanor, which, under the Hawaii Penal Code, is specified to be punishable by up to thirty days in prison. The Department has offered to draft language to resolve this conflict and your Committee anticipates this draft language will be available for conference.

Your Committee further notes that the Insurance Commissioner, in his written testimony before your Committee, requested that the proposed motor vehicle insurance minimums that are to take effect on January 1, 2027, be deleted from the measure and be revisited at a later date, after determining the impact of the initial increases to the motor vehicle insurance minimums.

Lastly, your Committee notes that the impact of the increases to the motor vehicle insurance minimums proposed by this measure is unclear since consumers may opt to purchase motor vehicle insurance coverage in excess of the statutorily required minimums. It may be prudent for the Insurance Division of the Department of Commerce and Consumer Affairs to gather data to determine the number of persons that would be impacted by such an increase.

Your Committee has amended this measure by:

- (1) Deleting the second stage of rate filing solicitations to be conducted by the Insurance Commissioner;
- (2) Inserting a savings clause;
- (3) Changing the effective date for the rate filing solicitations to be conducted by the Insurance Commissioner to January 1, 2026; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Consumer Protection & Commerce that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2342, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2342, S.D. 2, H.D. 2.

Signed by the Chair on behalf of the Committee.

SCRep. 1827-24 Finance on S.B. No. 3109

The purpose of this measure is to give practical effect to the intent of the Legislature that funds appropriated in Act 279, Session Laws of Hawaii 2022 (Act 279), be available for expenditure until June 30, 2025, by lapsing previously appropriated funds and reauthorizing funds for fiscal year 2024-2025.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Department of Hawaiian Home Lands; Office of Hawaiian Affairs; and Ho'omana Pono, LLC. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the companion to this measure, H.B. No. 2420, H.D. 2 (Regular Session of 2024), which was previously passed by the House, is a preferable method to give practical effect to the Legislature's intent for the appropriation in Act 279.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of H.B. No. 2420, H.D. 2, a measure that:
 - (A) Deposits certain unexpended or unencumbered funds appropriated through Act 279 that are set to lapse on June 30, 2024, into an Act 279 Special Fund and appropriates funds out of the Act 279 Special Fund; and
 - (B) Provides that funds from the appropriation out of the Act 279 Special Fund that are unencumbered as June 30, 2026, shall lapse as of that date;
- (2) Changing the effective date to June 29, 3000, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Finance that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3109, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3109, S.D. 1, H.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 14. Noes, none. Excused, 2 (Alcos, Ward).

SCRep. 1828-24 Finance on S.B. No. 1511

The purpose of this measure is to:

- (1) Clarify that the purpose of the Research Corporation of the University of Hawaii is to promote educational, scientific, and literary pursuits through research, training of research personnel, and dissemination of knowledge by publication of research findings; and
- (2) Amend laws relating to certain appropriations, exceptions to collective bargaining, purposes and powers, exemptions from state laws, and accountability for the use of funds of the Research Corporation of the University of Hawaii to ensure that they are aligned with the stated purpose.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Research Corporation of the University of Hawai'i. Your Committee received comments on this measure from the Department of Land and Natural Resources; University of Hawai'i System; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Finance that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1511, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1511, S.D. 2, H.D. 2.

SCRep. 1833-24 Finance on S.B. No. 3234

The purpose of this measure is to amend the laws relating to the Hawaii Hurricane Relief Fund (Fund) and Hawaii Property Insurance Association (Association) by:

- (1) Imposing a different transient accommodation tax rate for transient vacation rentals and a property insurance surcharge on conveyance tax rates to capitalize the Association and Fund;
- (2) Expanding the statutory authorization for the Association to issue property insurance for certain condominiums and amending the designated geographic area eligible for coverage to specifically include lava zones 1 and 2;
- (3) Requiring Association member insurers and licensed property and casualty insurers to recoup assessment costs paid into the Association and Fund through a surcharge on premiums;
- (4) Requiring coverage limits and deductibles and fund capitalization amounts for licensed property and casualty insurers to be established in a plan of operation for the Fund, subject to approval by the Insurance Commissioner; and
- (5) Authorizing the Insurance Commissioner to reinstate the Special Mortgage Recording Fee to capitalize the Fund.

Your Committee received testimony in support of this measure from the Hawaii Green Infrastructure Authority; Honolulu Tower Association of Apartment Owners; Hawaii Financial Services Association; Hawaii Credit Union League; Hawaii Bankers Association; Mortgage Bankers Association of Hawaii; Holomua Collaborative; and two individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs; Department of Taxation; State Farm Mutual Automobile Insurance Company; Maui Chamber of Commerce; Hawaii Insurers Council; Hawai'i Association of REALTORS; Grassroot Institute of Hawaii; and Land Use Research Foundation of Hawaii.

Your Committee has amended this measure by:

- (1) Amending the plan of operation requirements of the Association and the Fund to include specific criteria that condominium associations must meet to qualify for insurance under each entity;
- (2) Explicitly providing that the Association and the Fund shall only be utilized as an insurer of last resort and requiring proof that an applicant has not been able to obtain property insurance from insurers licensed to conduct business in the State;
- (3) Establishing for a limited time a Temporary Property Insurance Stabilization Fee on real property transactions to capitalize operations of the Association and Fund;
- (4) Clarifying that the Fund shall provide for the repayment of any funds or revenues received through bond issuances after the Fund is sufficiently capitalized;
- (5) Appropriating an unspecified amount of general funds and authorizing the issuance of an unspecified amount of general obligation bonds to capitalize the Fund; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Finance that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3234, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3234, S.D. 1, H.D. 2.

Signed by the Chair on behalf of the Committee.

SCRep. 1843-24 Finance on S.B. No. 2922

The purpose of this measure is to:

- (1) Create a process for electric utilities to develop and submit wildfire protection plans to the Public Utilities Commission for approval and allow the recovery of related costs and expenses through securitization, while avoiding a disproportionate impact on a specific ratepayer or county; and
- (2) Require public utilities to report wildfires potentially caused by or occurring in connection with their operations.

Your Committee received testimony in support of this measure from the Office of the Governor; Clearway Energy Group; Chamber of Commerce Hawaii; Honolulu Japanese Chamber of Commerce; Kona-Kohala Chamber of Commerce; and numerous individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice; Lāhainā Strong; and seven individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs; Department of the Attorney General; Hawaii State Energy Office; Public Utilities Commission; Ulupono Initiative; Longroad Energy; International Brotherhood of Electrical Workers Local Union 1260; Kaua'i Island Utility Cooperative; and Hawaiian Electric.

Your Committee has amended this measure by:

- (1) Removing the special purpose revenue bond authorization; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Finance that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2922, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2922, S.D. 2, H.D. 3.

SCRep. 1844-24 Finance on S.B. No. 3344

The purpose of this measure is to:

- (1) Establish the Wildfire Relief Fund and Wildfire Relief Fund Corporation (Corporation) to provide compensation for property damage resulting from catastrophic wildfires in the State, regardless of cause;
- (2) Establish a working group to review, analyze, and report on implementation of the Wildfire Relief Fund; and
- (3) Appropriate funds for the Wildfire Relief Fund, as a reserve against the State's irrevocable pledge to the Wildfire Relief Fund, and as one-time funding for an Administrator position to support the Corporation.

Your Committee received testimony in support of this measure from the Honolulu Japanese Chamber of Commerce; Hawai'i Farm Bureau; Kona-Kohala Chamber of Commerce; Chamber of Commerce Hawaii; Maui Chamber of Commerce; and numerous individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice. SCRep. 1845-24 Finance on S.B. No. 2337

The purpose of this measure is to expand the counties' authorization to exercise the same powers as the Hawaii Housing Finance and Development Corporation for purposes of developing, constructing, financing, refinancing, or providing low- and moderate-income housing projects and mixed-use developments.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Office of Planning and Sustainable Development; Office of Housing of the City and County of Honolulu; one member of the Maui County Council; Department of Planning and Permitting of the City and County of Honolulu; Land Use Research Foundation of Hawaii; and one individual. Your Committee received comments on this measure from the Grassroot Institute of Hawaii and Maui Chamber of Commerce.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Finance that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2337, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2337, S.D. 2, H.D. 2.

SCRep. 1846-24 Finance on S.B. No. 2919

The purpose of this measure is to:

- (1) Clarify the counties' authority to:
 - (A) Regulate the time, place, manner, and duration in which uses of land and structures may take place; and

(B) Amortize or phase out transient vacation rental units in an area of any zoning classification; and

- (2) Expand the scope of the transient accommodations tax law to include certain shelters and, beginning January 1, 2025, vehicles with sleeping accommodations.

Your Committee received testimony in support of this measure from the Mayor of the County of Maui; one member of the Maui County Council; Keep it Kailua; Kohala Coast Resort Association; Sierra Club of Hawai'i; Lāhainā Strong; Maui Housing Hui; Housing Hawai'i's Future; Tagnawa; Jewish Voice for Peace-Hawai'i; Hawaii's Thousand Friends; UNITE HERE Local 5; AF3IRM Hawai'i; Kauai Oceanfront Dream LLC; International Longshore & Warehouse Union Local 142; Hawaii Hotel Alliance; Hawai'i Lodging & Tourism Association; Help Maui Rise; Puakukui Owners/Residents Neighborhood Organization; and numerous individuals.

Your Committee received testimony in opposition to this measure from Tropica USA Corp.; The Ohana Aina Association; Maui Paradise Properties; Hawaii First Realty LLC; O'ahu Short Term Rental Alliance; Hawai'i Association of REALTORS; Hawai'i Mid and Short-Term Rental Alliance; QNL Holdings Inc.; Air Tec Co.; REALTORS Association of Maui, Inc.; Airbnb; Hawaii Legal Short Term Rental Alliance; Kaua'i Board of REALTORS; Private Homes Hawaii; Maui Chamber of Commerce; Honolulu Board of REALTORS; Maui Vacation Rental Association; West Hawaii Association of REALTORS; Deep Blue Builders; Hearts for Animals Wellness Center; Vertigo Associates LLC; Kapua Gulch Farms, LLC; Kina's Maui Condo Rentals LLC; Kona Bubbles; and numerous individuals.

Your Committee received comments on this measure from the Department of Taxation; Kama'āina Occupied Short-Term Rentals O'ahu; Hawai'i Alliance for Progressive Action; Airbnb Public Policy, Hawai'i; Grassroot Institute of Hawaii; Maui Hotel & Lodging Association; Tax Foundation of Hawaii; and five individuals.

Your Committee has amended this measure by changing the effective date to July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Finance that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2919, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2919, S.D. 2, H.D. 2.

SCRep. 1847-24 Judiciary & Hawaiian Affairs on S.B. No. 3122

The purpose of this measure is to reduce barriers to health care access and expand population health-based interventions by:

- (1) Authorizing the Director of Health to issue public health standing orders for patients to self-refer to certain health care screening services;
- (2) Establishing requirements for the provision of items or services pursuant to a public health standing order; and
- (3) Establishing the Public Health Standing Orders Working Group to provide advice and recommendations to the Department of Health regarding public health standing orders.

Your Committee received testimony in support of this measure from the Department of Health; Hawaii Association of Health Plans; Hawaii Medical Service Association; AlohaCare; Hawaii Health & Harm Reduction Center; Hawai'i Pacific Health; Hawai'i Public Health Institute; Hep Free Hawai'i; and four individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that under existing processes, a patient who wants to obtain a routine health screening must first schedule an office visit with their provider to receive an order for the screening before scheduling another appointment for the actual screening. This measure would eliminate the need for the first appointment and allow a patient to refer themselves for the screening – saving time and money.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2024; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3122, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3122, S.D. 1, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Kong). Noes, none. Excused, 1 (Souza).

SCRep. 1848-24 Judiciary & Hawaiian Affairs on S.B. No. 2560

The purpose of this measure is to provide that each lease that the Department of Agriculture enters into, renews, or extends shall authorize the Department to:

- (1) Enter the leased premises with prior notification to survey for, identify, investigate, control, or eradicate pests;
- (2) Work cooperatively with a lessee to seek funding and develop a plan to maintain control of any pests on the leased premises; and
- (3) Terminate the lease if the lessee refuses entry to the Department or refuses to work cooperatively with the Department toward the control or eradication of pests.

Your Committee received testimony in support of this measure from Carol Kwan Consulting LLC. Your Committee received comments on this measure from the Department of Agriculture; Coordinating Group on Alien Pest Species; Hawai'i Farm Bureau; and Hawaii Cattlemen's Council, Inc.

Your Committee finds that this measure will codify mandatory lease provisions related to the control and eradication of pests that must be included in future leases approved by the Department of Agriculture. Your Committee notes that this measure will not impact existing lessees.

Your Committee has amended this measure by:

- (1) Amending the definition of "pest" so that it matches the definition used in the chapter related to plant and non-domestic animal quarantine and microorganism import; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2560, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2560, S.D. 2, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 1 (Souza).

SCRep. 1849-24 Judiciary & Hawaiian Affairs on S.B. No. 2245

The purpose of this measure is to amend the Child Protective Act by:

- (1) Adding a definition of "exigent circumstances" and amending the definitions of "harm" and "imminent harm";
- (2) Clarifying when the police may take a child into protective custody and when the Department of Human Services may assume temporary foster custody of a child when exigent circumstances are present; and
- (3) Authorizing the court to order a child to be placed into protective custody and temporary foster custody without notice or a hearing.

Your Committee received testimony in support of this measure from the Judiciary; Department of the Attorney General; Department of Human Services; Honolulu Police Department; Hawaii Coalition for Child Protective Reform; Hawaii Family Advocacy Group; Kapalama Neighborhood Security Watch; and seven individuals.

Your Committee finds that this measure updates and clarifies the procedures for removing children from unsafe homes, with and without court orders, while taking into consideration concerns regarding maintaining family integrity, the due process rights of parents, and federal case law.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 2025; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2245, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2245, S.D. 1, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 1 (Souza).

SCRep. 1850-24 Judiciary & Hawaiian Affairs on S.B. No. 3125

The purpose of this measure is to:

- (1) Authorize minors who are fourteen years of age or older to consent to medical care and services for sexually transmitted infections, pregnancy, and family planning services, including the prevention of sexually transmitted infections; and
- (2) Require health insurance plans and health care providers to maintain confidentiality policies and procedures for minor-initiated medical care and services.

Your Committee received testimony in support of this measure from the Department of Health; Disability and Communication Access Board; Parents And Children Together; Hawai'i Youth Services Network; Essential Access Health; Planned Parenthood Alliance Advocates - Hawai'i; Opportunity Youth Action Hawai'i; Stonewall Caucus of the Democratic Party of Hawai'i; and eight individuals. Your Committee received testimony in opposition to this measure from the Federation of Republican Women and numerous individuals.

Your Committee finds that existing law allows minors to consent to medical care related to the treatment of sexually transmitted diseases but not the prevention of those diseases. Your Committee further finds that human immunodeficiency virus (HIV) prevention medications, which have been approved for use in at-risk minors since 2018, are safe and highly effective at preventing HIV. This measure will ensure that Hawaii's at-risk minors are able to access critical, life-saving medication that would prevent the spread of HIV in the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2025; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3125, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3125, S.D. 2, H.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, 1 (Kong). Excused, 1 (Souza).

SCRep. 1851-24 Labor & Government Operations on S.C.R. No. 33

The purpose of this measure is to request the Department of Labor and Industrial Relations to convene an interagency task force to combat the underground economy and employee misclassification in the state's construction industry.

Your Committee received testimony in support of this measure from the Hawaii Department of Labor and Industrial Relations, Pacific Resources Partnership and Hawaii State American Federations of Labor and Congress of Industrial Organization.

Your Committee received comments from the Department of Commerce and Consumer Affairs – Professional Vocational Licensing Division and Department of Commerce and Consumer Affairs – Regulated Industries Complaints Office.

Your Committee notes that the establishment of an interagency task force is crucial because it facilitates the creation of a framework that is better suited for developing an action plan. Several task force members' opinions enable more creative planning that can more effectively handle the problem. Your Committee further acknowledges that construction companies that follow the law are forced to compete with contractors who use off-the-books labor, misclassify employees as independent contractors, and evade paying taxes and social insurance premiums. Your Committee finds that the Interagency Task Force will ensure the collection of all taxes, fines, and penalties that illegal practices violate, as well as help ensure that workers have safe working conditions and receive their rightful compensation.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 33, S.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Kapela).

SCRep. 1852-24 Labor & Government Operations on S.C.R. No. 184

The purpose of this measure is to request the Department of Human Resources Development to conduct a sample survey of organizations in the state within the for-profit, nonprofit, and government sectors that have successfully implemented remote work, hybrid work, or telework arrangements.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Holomua Collaborative; HPM Building Supply; Hawaiian Host Group; Hawai'i Community Foundation; Title Guaranty of Hawaii, LLC; Mana Up; Hawaii Workforce Funders Collaborative and one individual.

Your Committee received comments on this measure from the Department of Human Resources Development.

Your Committee finds that remote working offers numerous benefits that benefit both the personal and professional state employee. Your Committee acknowledges that the flexibility of remote work allows for better work-life balance for employees. Remote work additionally offers potential cost savings with reduced commutes, a lack of parking spaces, and other expenses. Your Committee finds increased productivity as a result of being able to work from the comfort of their homes. Your Committee recognizes that the increased attractiveness of work-from-home potential will attract a larger pool of capable applicants.

As affirmed by the record of votes of the members of your Committee on Labor & Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 184, S.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Kapela).

SCRep. 1853-24 Housing on S.C.R. No. 183

The purpose of this measure is to urge the Department of the Attorney General to investigate and enforce applicable laws against landlords who are ending rental agreements to house individuals who are eligible for Federal Emergency Management Agency's Direct Lease Program or the Department of Human Services Rental Assistance Program.

Your Committee received testimony in support of this measure from Aloha United Way and one individual.

Your Committee finds that the August 2023 Maui wildfires devastated the County of Maui, with over two thousand structures destroyed, of which roughly one thousand five hundred were residential structures, displacing thousands of households. The federal government and State have been working to ensure that all those displaced have a safe and clean environment to reside in while they search for a more permanent living situation. However, incidents have been reported on Maui where landlords are not renewing lease agreements with existing tenants to take advantage of financial support being offered by the federal government and State. While your Committee acknowledges the need to house displaced individuals directly affected by the wildfires, this should not be done through the displacement of existing tenants.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 183, S.D. 1, and recommends that it be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 1 (Kitagawa).

SCRep. 1854-24 Housing on S.C.R. No. 115

The purpose of this measure is to encourage developers to incorporate net zero waste building strategies when constructing and renovating housing projects in the State.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and Ulupono Initiative.

Your Committee finds that the fresh water resources of the State are vital and finite and in recent years, some of Hawaii's waters have been severely polluted by a variety of toxic contaminants. Your Committee further finds that as recommended by the United States Department of Energy, developers can help sustain the State's fresh water resources by designing and constructing net zero water housing projects that minimize total water consumption and wastewater discharge and maximize alternative water sources. Your Committee believes that the construction of net zero water housing in the State would reduce the impact on aquifers and water reclamation infrastructure and conserve more water resources.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 115 and recommends that it be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 1 (Kitagawa).

SCRep. 1855-24 Housing on S.C.R. No. 217

The purpose of this measure is to urge the Federal Emergency Management Agency to utilize funds for non-congregate housing for infrastructure and development needs for affordable rental housing.

Your Committee received testimony in support of this measure from one member of the Maui County Council.

Your Committee finds that as a result of the devastating August 2023 wildfires in Maui, the Federal Emergency Management Agency is currently providing housing relief aid through temporary rental assistance to eligible residents. However, your Committee notes that this assistance is set to expire in 2025. Your Committee believes that further collaboration and funding from all levels of government is needed to address the immense cost of rebuilding areas affected by the wildfires.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 217 and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 1 (Kitagawa).

SCRep. 1856-24 Housing on S.C.R. No. 226

The purpose of this measure is to request the Governor, in collaboration with the County of Maui, to provide a clear strategy for addressing the short- and long-term housing needs for residents displaced by the August 2023 Maui wildfires.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and one individual.

Your Committee finds that the August 2023 Maui wildfires have resulted in significant damage to homes and properties, leaving many residents displaced and in need of immediate housing assistance. Your Committee further finds that without prompt and decisive action, the already devastating impact of the wildfires will only be compounded by the lack of adequate housing for those in need. Your Committee believes that the State, with the Governor taking the lead, must prioritize developing a clear strategy to address the short- and long-term housing needs of those affected by the wildfires.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 226 and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 1 (Kitagawa).

SCRep. 1857-24 Housing on S.C.R. No. 45

The purpose of this measure is to urge the Director of Finance to adopt administrative rules to define "beneficial effects to the State" to include financing of housing.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that Hawaii's limited supply of housing continues to be a major issue and the State must find ways to alleviate the affordable housing supply crunch. One solution would be to expand financing options to increase the supply of housing. Your Committee further finds that existing law authorizes the Director of Finance to invest the public treasury with certain depositories, under certain conditions, that will have beneficial effects to the State. Your Committee believes that supporting various ways to finance the development of housing should be considered a beneficial effect to the State, which will help ensure that there is a sufficient supply of affordable housing to keep residents in Hawaii.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 45, S.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.C.R. No. 45, S.D. 1, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 1 (Kitagawa).

SCRep. 1858-24 Housing on S.C.R. No. 103

The purpose of this measure is to request all high-occupancy state and county buildings, the design of which commences on or after July 1, 2025, to be designed and constructed to withstand category five hurricanes and to serve as shelters in the event of an emergency.

Your Committee did not receive any written testimony on this measure.

Your Committee finds that the frequency of natural disasters is increasing across the world, making the State even more susceptible to catastrophic natural disasters, such as hurricanes. With global warming causing stronger hurricanes, your Committee believes that the State must take a proactive approach to prepare for the potential increase of natural disasters by designing and constructing certain buildings that can withstand a category five hurricane.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 103, S.D. 1, as amended herein, and recommends that it be referred to your Committee on Water & Land in the form attached hereto as S.C.R. No. 103, S.D. 1, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 1 (Kitagawa).

SCRep. 1859-24 Housing on S.C.R. No. 43

The purpose of this measure is to urge the Hawaii Housing Finance and Development Corporation to amend the priority for which Low-Income Housing Tax Credits are allocated and monies in the Rental Housing Revolving Fund are used and adopt certain administrative rules that incentivize the development of affordable housing in the State.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation; Catholic Charities Hawai'i; and AARP Hawai'i.

Your Committee finds that the Low-Income Housing Tax Credit (LIHTC) Program is the federal government's primary policy tool for encouraging the development and rehabilitation of affordable rental housing. The LIHTC Program awards developers federal tax credits to offset construction costs in exchange for agreeing to reserve a certain fraction of units that are rent-restricted for lower-income households. Your Committee further finds that at the state level, the Rental Housing Revolving Fund also offsets construction costs for the development of affordable rental housing for low-income households. Your Committee believes that the priority of projects that receive funding from the LIHTC Program and Rental Housing Revolving Fund need to be amended to ensure that these funds are used to further incentivize the development of affordable rental housing.

Your Committee notes the concerns raised in testimony before your Committee regarding the order of priority under this measure potentially having unintended consequences of locking some communities out of much needed affordable housing and that prioritizing certain projects before considering key factors, such as project readiness, may contravene the objective of economical resource allocation.

Your Committee has amended this measure by:

- (1) Changing its title to make a technical amendment; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 43, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 43, S.D. 1, H.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Kitagawa).

SCRep. 1860-24 Economic Development on S.C.R. No. 172

The purpose of this measure is to request the Department of Business, Economic Development, and Tourism to collaborate with universities in the State to convene the Hawaii Creative Innovation Group.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; University of Hawai'i System; and 'Āina Design Corp.

Your Committee finds that the fashion and music industries in Hawaii contribute to economic growth, job creation, cultural preservation, and tourism development, and the State's diverse ecosystem of artists, venues, recording studios, and educational institutions strengthens the State's cultural identity and enriches the lives of residents and visitors alike. The success stories of local music programs, accelerators, and projects are examples of the opportunities that exist in the intersection between music and media for artists of Hawaii. Your Committee believes that the convening of a Hawaii Creative Innovation Group will help identify pathways and develop support systems to assist the emerging creative sectors in the State.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 172, S.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Hussey-Burdick, Nakamura).

SCRep. 1861-24 Energy & Environmental Protection on S.C.R. No. 170

The purpose of this measure is to urge the Department of Health to investigate and implement policies to reduce the importation of products, packaging, or materials containing perfluoroalkyl and polyfluoroalkyl substances (PFAS) into the State.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that PFAS are persistent toxic substances that can contaminate drinking water, bioaccumulate in fish and wildlife, and have adverse health effects on humans. Your Committee further finds that PFAS are used in a variety of products, packaging, and materials that are imported into the State. This measure urges the Department of Health to investigate and implement policies to reduce the importation of products, packaging, or materials containing PFAS into the State.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 170, S.D. 1, and recommends that it be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Gates, Woodson, Ward).

SCRep. 1862-24 Energy & Environmental Protection on S.C.R. No. 130

The purpose of this measure is to urge the Department of Health to take all action necessary to require wastewater treatment plants to test sewage sludge and any other residual material for the presence of perfluoroalkyl and polyfluoroalkyl substances (PFAS).

Your Committee received testimony in support of this measure from Hawai'i Reef and Ocean Coalition; Americans for Democratic Action; Environmental Caucus of the Democratic Party of Hawai'i; and one individual.

Your Committee finds that reclaimed water can be contaminated with PFAS, which can then be introduced into the food system if the reclaimed water is used for irrigation for food agriculture. Your Committee further finds that PFAS found in reclaimed water and sludge pose a serious range of health risks and that testing and monitoring of PFAS at waste water treatment plants is crucial in protecting public health. This measure urges the Department of Health to take all action necessary to require wastewater treatment plants to test sewage sludge and any other residual material for the presence of PFAS.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 130, S.D. 1, and recommends that it be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Gates, Woodson, Ward).

SCRep. 1863-24 Energy & Environmental Protection on S.C.R. No. 76

The purpose of this measure is to request the Department of Health to conduct a feasibility study on the implementation of continuous monitoring and sampling technologies in waste combustion facilities and municipal solid waste landfills.

Your Committee received testimony in support of this measure from Climate Protectors Hawaii; Environmental Caucus of the Democratic Party of Hawai'i; Energy Justice Network; and one individual. Your Committee received testimony in opposition to this measure from Covanta. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that waste combustion facilities are among the largest sources of industrial air pollution. Your Committee further finds that waste combustion facilities and municipal solid waste landfills in the State do not continuously monitor and sample many harmful air pollutants. This measure requests the Department of Health to conduct a feasibility study on the implementation of continuous monitoring and sampling technologies in waste combustion facilities and municipal solid waste landfills.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 76, S.D. 1, and recommends that it be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Gates, Woodson, Ward).

SCRep. 1864-24 Energy & Environmental Protection on S.C.R. No. 132

The purpose of this measure is to request the Office of the Governor to convene a working group to plan for the remediation of perfluoroalkyl and polyfluoroalkyl substances (PFAS) in the State.

Your Committee received testimony in support of this measure from the Board of Water Supply of the City and County of Honolulu; Hawai'i Reef and Ocean Coalition; Environmental Caucus of the Democratic Party of Hawai'i; and one individual.

Your Committee finds that PFAS are commonly described as persistent organic pollutants or "forever chemicals" that remain in the environment for long periods of time. Your Committee further finds that PFAS are toxic to humans and have been linked to serious medical conditions. This measure requests the Office of the Governor to convene a working group to plan for the remediation of PFAS in the State.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 132 and recommends that it be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gates, Woodson, Ward).

SCRep. 1865-24 Energy & Environmental Protection on S.C.R. No. 74

The purpose of this measure is to request the Department of Health to conduct a study of the methods used in other states to monitor air pollutants emitted by municipal waste combustion facilities.

Your Committee received testimony in support of this measure from the Department of Health; Climate Protectors Hawaii; Environmental Caucus of the Democratic Party of Hawai'i; Energy Justice Network; and one individual. Your Committee received comments on this measure from Covanta.

Your Committee finds that of the twenty-two known pollutants that municipal waste combustion facilities in the State emit, only four are monitored continuously, while the remaining eighteen are either monitored once per year or not at all. Your Committee further finds that different states employ different methods to monitor pollutants emitted by municipal waste combustion facilities and that the experiences of other states may be helpful for determining the optimal monitoring method for Hawaii. This measure requests the Department of Health to conduct a study of the methods used in other states to monitor air pollutants emitted by municipal waste combustion facilities.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 74, S.D. 1, and recommends that it be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gates, Woodson, Ward).

SCRep. 1866-24 Energy & Environmental Protection on S.C.R. No. 97

The purpose of this measure is to request the Hawaii State Energy Office to convene a Renewable Liquid Fuels Working Group to study local production, development, and incentives for renewable liquid fuels.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office; Hawai'i Farm Bureau; Pacific Biodiesel; Island Energy Services; Par Hawaii; Pono Pacific; Airlines for America; Hawaiian Airlines; and Airlines Committee of Hawaii. Your Committee received testimony in opposition to this measure from the Energy Justice Network.

Your Committee finds that the transportation sector significantly contributes to greenhouse gas emissions and that the State is heavily dependent on various modes of transportation for tourism, commerce, and inter-island travel. Your Committee further finds that renewable liquid fuels offer a viable solution to mitigate greenhouse gas emissions across various modes of transportation. This measure requests the Hawaii State Energy Office to convene a Renewable Liquid Fuels Working Group to study local production, development, and incentives for renewable liquid fuels.

Your Committee has amended this measure by:

- (1) Clarifying that a representative from the airline industry, rather than from Airlines for America, is requested to be invited to the working group;
- (2) Narrowing the Working Group's focus to fuels for the transportation sector by:
 - (A) Removing representatives from Hawaiian Electric, Hawaii Gas, and Kauai Island Utility Cooperative as individuals requested to be invited to the working group;
 - (B) Requesting the working group to identify costs, benefits, and risks of local renewable liquid fuel production; and
 - (C) Deleting the request for the working group to evaluate the adoption of a clean fuel standard;
- (3) Adding an interim reporting requirement for January 1, 2025;
- (4) Changing the deadline for the submission of the final report to January 1, 2026; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 97, S.D. 1, as amended herein, and recommends that it be referred to your Committee on Consumer Protection & Commerce in the form attached hereto as S.C.R. No. 97, S.D. 1, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gates, Woodson, Ward).

SCRep. 1867-24 Energy & Environmental Protection on S.C.R. No. 128

The purpose of this measure is to request the Department of Health to establish a PFAS Testing Grant Program in collaboration with the University of Hawaii.

Your Committee received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawai'i and one individual.

Your Committee finds that perfluoroalkyl and polyfluoroalkyl substances (PFAS) are toxic to humans, linked to serious health conditions, and remain in the environment for long periods once introduced. Your Committee further finds that testing and sampling for PFAS are essential in protecting public health. This measure requests the Department of Health to establish a PFAS Testing Grant Program in collaboration with the University of Hawaii to assist local communities, businesses, and residents in obtaining testing services and biological sampling for PFAS detection.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 128, S.D. 1, and recommends that it be referred to your Committee on Higher Education & Technology.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gates, Woodson, Ward).

SCRep. 1868-24 Transportation on S.C.R. No. 106

The purpose of this measure is to urge the Department of Health, Department of Transportation, and Department of Land and Natural Resources to take any action possible to reduce the carbon emissions arising from airplane transportation to and from the State.

Your Committee received comments on this measure from the Hawai'i Climate Change Mitigation and Adaptation Commission and Hawaiian Airlines.

Your Committee finds that the United Nation's Intergovernmental Panel on Climate Change found that each individual must remain within a yearly "carbon budget" of 2.7 tons in order to keep human-made global warming below 1.7 degrees Celsius and reach zero net emissions by 2050. Your Committee further finds that the average round trip flight to and from the State creates 1.8 tons of carbon emissions, which is approximately two-thirds of a person's 2.7-ton annual carbon budget. Your Committee believes that research into sustainable aviation fuel and other decarbonization measures for air travel may lead to actionable recommendations that can be adopted by the State to reduce the environmental cost of travel to and from the islands.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 106, S.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.C.R. No. 106, S.D. 1, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1869-24 Transportation on S.C.R. No. 139

The purpose of this measure is to request a task force be convened to develop options to reduce cost and return increased value to residents from funds made available by the State for public mass transit.

Your Committee received testimony in support of this measure from Ulupono Initiative.

Your Committee finds that public mass transit projects produce significant benefits, such as reducing the cost of transit for commuters, reducing traffic, and increasing access to new areas in the urban core for housing and mixed use communities. Your Committee further finds that funding for public mass transit projects, such as the City and County of Honolulu's Skyline project, has historically been through county surcharges on the general excise tax, of which Hawaii residents bear approximately two-thirds of the cost.

Your Committee has amended this measure by:

- (1) Amending its title; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that there is a lack of clarity with respect to the purpose and scope of the task force established by this measure. In particular, your Committee notes that it is unclear if the task force is being requested to study alternative funding mechanisms for public mass transit projects that would reduce the financial burden these projects place on State residents, or if the task force is being requested to generally develop criteria that should be considered before state funds are released to fund mass transit projects. Therefore, your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, consider clarifying the purpose and scope of the task force established by this measure.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 139, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.C.R. No. 139, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1870-24 Transportation on S.C.R. No. 140

The purpose of this measure is to request the convening of a task force to research and develop a green highway program in the State.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Department of Transportation.

Your Committee finds that green highways offer numerous benefits, including improved air and water quality, reduced noise pollution, enhanced biodiversity, and increased recreational opportunities. Green highways may also contribute to island heat mitigation by incorporating features such as green infrastructure, shade trees, and reflective pavements. Your Committee further finds that the implementation of a green highway program aligns with statewide goals for environmental stewardship, climate resilience, and sustainable development.

Your Committee has amended this measure by:

- (1) Amending its title; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes that this measure does not provide guidance or requirements as to the criteria that should be used when selecting co-chairpersons for the task force. Therefore, your Committee respectfully requests your Committee on Finance, should it deliberate on this measure, to consider establishing criteria the President of the Senate and Speaker of the House of Representatives should use when selecting the task force's co-chairpersons.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 140, S.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.C.R. No. 140, S.D. 1, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1871-24 Transportation on S.C.R. No. 165

The purpose of this measure is to request the Department of Transportation to conduct a study on the feasibility of bringing other airlines to serve the Molokai Airport.

Your Committee received testimony in support of this measure from three individuals.

Your Committee finds that as of January 2021, only one passenger airline has provided service to the general public out of Molokai Airport. Your Committee further finds that despite the best efforts of this airline, significant flight delays and cancellations, in addition to costly ticket prices and limited flights, have caused an undue burden on Molokai residents. Your Committee believes that exploring the feasibility of bringing other airlines to serve the Molokai Airport is in the best interest of the health and safety of Molokai's residents.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 165 and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1872-24 Health & Homelessness on S.C.R. No. 23

The purpose of this measure is to urge the Department of Health to amend the Hawaii Administrative Rules to authorize licensed dietitians to prescribe modified diets and plan therapeutic diets.

Your Committee received testimony in support of this measure from the Hawaii Academy of Nutrition and Dietetics and three individuals. Your Committee received comments on this measure from the Department of Health.

As affirmed by the record of votes of the members of your Committee on Health & Homelessness that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 23, S.D. 1, and recommends that it be referred to your Committee on Consumer Protection & Commerce.

Ayes, 6. Noes, none. Excused, 2 (Kobayashi, Garcia).

SCRep. 1873-24 Health & Homelessness on S.C.R. No. 34

The purpose of this measure is to request the Hawaii Medical Association and Hawaii Psychiatric Medical Association to convene a roundtable to establish medical protocols to ensure that an individual's thyroid function is tested before psychotropic medications for mental illness are prescribed.

Your Committee received testimony in support of this measure from the Hawaii Disability Rights Center and six individuals.

As affirmed by the record of votes of the members of your Committee on Health & Homelessness that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 34 and recommends that it be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Kobayashi, Garcia).

SCRep. 1874-24 Health & Homelessness on S.C.R. No. 81

The purpose of this measure is to urge the Governor to ensure that relevant state agencies, including the Department of Health and Department of Human Services, collaborate to explore avenues to ensure continued access to affordable medications for the State's underserved populations under the 340B drug pricing program and urging Hawaii's congressional delegation and relevant federal agencies to monitor pharmaceutical companies and take appropriate actions to protect the integrity of the 340B drug pricing program.

Your Committee received testimony in support of this measure from the Department of Human Services; Queen's Health System; Hawaii Pacific Health; Healthcare Association of Hawaii; Hawaii Primary Care Association; Waianae Coast Comprehensive Health Center; and one individual. Your Committee received testimony in opposition of this measure from the Pharmaceutical Research and Manufacturers of America.

Your Committee has amended this measure by:

- (1) Deleting language that states pharmaceutical companies are intentionally undermining the purpose of the 340B Program;
- (2) Inserting language to reference Section 256B of Title 42 of the United States Code; and
- (3) Making technical, non-substantive amendments for the purpose of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health & Homelessness that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 81, S.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.C.R. No. 81, S.D. 1, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Kobayashi, Garcia).

SCRep. 1875-24 Education/Higher Education & Technology on S.C.R. No. 144

The purpose of this measure is to urge the Department of Education, University of Hawaii Community Colleges, and Hawaii P-20 Partnerships for Education to develop clear pathways for students in Department of Education career and technical education academies to seamlessly continue their education in career and technical education programs at University of Hawaii Community Colleges.

Your Committees received testimony in support of this measure from the Department of Education; University of Hawai'i Community Colleges; Hawai'i P-20 Partnerships for Education; and Chamber of Commerce Hawaii.

Your Committees find that students participating in career and technical education programs learn vital skills they need to attain high-skill, high-wage careers in high-demand occupational fields. Your Committees further find that the Department of Education offers its students up to thirteen broad continuing and technical education pathways. Your Committees note that, although the University of Hawaii also offers a wide array of continuing and technical education pathways for community college students, there is a lack of clear coordination between Department of Education and University of Hawaii educational systems. Your Committees believe that the development of clear pathways for students in Department of Education Career and Technical Education Academies to seamlessly continue their education in career and technical education programs at University of Hawaii Community Colleges is needed to ensure growth in the State's future labor force.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education & Technology that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 144 and recommend that it be referred to your Committee on Finance.

Signed by the Chairs on behalf of the Committees.

SCRep. 1876-24 Education on S.C.R. No. 142

The purpose of this measure is to urge the Department of Education to study the impact of teacher salary step movements on salary schedule compression.

Your Committee received testimony in support of this measure from the Hawai'i State Teachers Association. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that teacher salary step movements play a crucial role in determining the career progression of educators and their compensation within the Hawaii public school system. Your Committee further finds that teachers have not always been provided with regular step movements, resulting in some teachers having decades of experience being "compressed" onto the same salary step as teachers having significantly fewer years of experience. Salary schedule compression has been recognized as an issue affecting the retention and morale of educators in the State. Your Committee believes that analyzing the impact of teacher salary step movements on salary schedule compression through a comprehensive study is critical in making informed policy decisions and ensuring fair and competitive compensation for teachers.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 142, S.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 3 (Woodson, Marten, Matayoshi).

SCRep. 1877-24 Education on S.C.R. No. 98

The purpose of this measure is to request the Department of Education to partner with the Hawaii State Teachers Association and teacher education programs at local universities and colleges to provide pathways for school support personnel to become full-time teachers.

Your Committee received testimony in support of this measure from the Department of Education; University of Hawai'i System; Hawai'i State Teachers Association; and one individual.

Your Committee finds that the State is suffering a severe shortage of licensed teachers. In the 2021-2022 academic year, the Department of Education experienced a 12.3 percent increase in public school teacher turnover, with nine hundred twenty teachers who resigned and three hundred ten teachers who retired. School support staff for the Department of Education, such as aides and service staff, are also experiencing a high rate of turnover. Your Committee further finds that certain school support personnel, including education assistants, para-professional teachers, part-time teachers, and extended hire substitute teachers, play a critical role in the classroom. While school support personnel have extensive experience with instructional delivery, classroom operation, and pedagogy, many school support personnel who choose to enroll in teacher certification programs do not receive course credit for their classroom work and experience. Your Committee believes that providing more convenient pathways to obtain the requisites to become a full-time teacher will encourage school support personnel to pursue full-time teaching careers, which will help the State's current teacher shortage.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 98, S.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Garcia). Noes, none. Excused, 3 (Woodson, Marten, Matayoshi).

SCRep. 1878-24 Higher Education & Technology on S.C.R. No. 5

The purpose of this measure is to:

- (1) Urge the Chief Information Officer to ensure prompt implementation of Act 172, Session Laws of Hawaii 2022, (Act 172) on or before December 31, 2024; and
- (2) Request and advise the Chief Information Officer to submit a report to the Legislature no later than thirty days before the Regular Session of 2025, that:
 - (A) Describes the status of implementation of Act 172; and
 - (B) Makes any recommendations for future legislation needed to ensure that the State's electronic information technology meets or exceeds federal accessibility standards.

Your committee received testimony in support from the Department of Human Services, Disability and Communication Access Board, Hawaii Office of Enterprise Technology Services, National Federation of the Blind of Hawaii and five individuals. Your committee received comments from the Department of Human Services.

As affirmed by the record of votes of the members of your Committee on Higher Education & Technology that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 5 and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (La Chica, Matayoshi, Quinlan, Todd, Woodson).

SCRep. 1879-24 Higher Education & Technology on S.C.R. No. 83

The purpose of this measure is to

- (1) The Office of Enterprise Technology Services (OETS) to improve the State's Open Data Portal by:
 - (A) Increasing and expanding the data sets available on the Open Data Portal;
 - (B) Centralizing all open data sets of all state departments onto the Open Data Portal;
 - (C) Continually updating the data sets for accuracy and recency of publicly accessible data; and
 - (D) Studying and assessing the successful open data portals of other states and major municipalities; and
- (2) The heads of all state departments to work with OETS to centralize their open data sets to the State's Open Data Portal.

Your committee received testimony in support from the Office of Enterprise Technology Services one individual.

As affirmed by the record of votes of the members of your Committee on Higher Education & Technology that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 83 and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (La Chica, Matayoshi, Quinlan, Todd, Woodson).

SCRep. 1880-24 Higher Education & Technology on S.C.R. No. 143

The purpose of this measure is to request the University of Hawaii at Mānoa to:

- (1) Develop a comprehensive plan to address undergraduate, graduate, and faculty housing facility needs on the University of Hawaii at Mānoa campus;
- (2) Redevelop Hale Noelani, increasing its bed space to at least one thousand five hundred beds using the most long-term cost-effective method to both the State, University, and students;
- (3) Develop a new business model, including the potential of mixed-use or private-public partnerships, that ensures the Student Housing Services program and faculty housing is capable of operating as a self-sustaining, special funded unit;
- (4) Create a plan within their budget to support in-state residents with demonstrated financial need via a housing allowance, stipend, or similar grant-in-aid to offset the cost of residents to ensure long-term affordability; and
- (5) Furnish a report to the Legislature that contains conceptual business models, operational plans, and financing models consistent with this Concurrent Resolution no later than twenty days prior to the convening of the Regular Session of 2025.

Your committee received testimony in support from the University of Hawaii.

As affirmed by the record of votes of the members of your Committee on Higher Education & Technology that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 143, S.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (La Chica, Matayoshi, Quinlan, Todd, Woodson).

SCRep. 1881-24 Higher Education & Technology on S.C.R. No. 174

The purpose of this measure is to request:

- (1) The Legislature to convene a task force to develop a Twenty-First Century Data Governance Task Force (Task Force) to assess current demographic data collection, processing, retention, and sharing procedures utilized by all state agencies;
- (2) The Task Force to submit a report of its findings and recommendations to the Legislature before the Regular Session of 2025; and
- (3) The Task Force to dissolve on June 30, 2025.

Your committee received testimony in support from the Office of Planning and Sustainable Development.

As affirmed by the record of votes of the members of your Committee on Higher Education & Technology that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 174, S.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (La Chica, Matayoshi, Quinlan, Todd, Woodson).

SCRep. 1882-24 Higher Education & Technology on S.C.R. No. 202

The purpose of this measure is to urge the development of a baccalaureate degree program in education with an online option at Leeward Community College to address the educational needs of working adults in all counties.

Your committee received testimony in support from the University of Hawaii.

As affirmed by the record of votes of the members of your Committee on Higher Education & Technology that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 202, S.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 5 (La Chica, Matayoshi, Quinlan, Todd, Woodson).

SCRep. 1883-24 Water & Land on S.C.R. No. 6

The purpose of this measure is to approve the dedication of Kukuia Street, Lahaina, Hawaii, to the County of Maui.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; and one individual.

Your Committee finds that Land Patent Grant No. S-15,792, issued on November 4, 1994, conveyed over five hundred acres of undeveloped land to the predecessor agency of the Hawaii Housing Finance and Development Corporation for the development of the Villages at Leali'i housing project in Lahaina. Your Committee further finds that following the completion of housing developments, land is historically dedicated to a county that will be in charge of maintaining the land. Your Committee finds that historically a dedication of land to a county represents a conveyance of lands from the Department's inventory and, as such, is subject to legislative approval by concurrent resolution under section 171-64.7, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 6, S.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Souza).

SCRep. 1884-24 Water & Land on S.C.R. No. 46

The purpose of this measure is to request the Department of Accounting and General Services to establish a working group to plan and construct a Hawaii First Responders Memorial.

Your Committee received testimony in support of this measure from the Board of Directors for the Hawaii Law Enforcement Memorial Foundation; United Public Workers, AFSCME Local 646, AFL-CIO; and one individual.

Your Committee finds that the Hawaii Law Enforcement Memorial, which was completed in 2016, offers a place of honor for those law enforcement officers who made the ultimate sacrifice while serving the people of Hawaii. Your Committee further finds that this measure is an important first step toward erecting a proper memorial that honors the sacrifices of Hawaii's non-law-enforcement first responders--firefighters, paramedics/emergency medical technicians, lifeguards, and medical flight nurses and pilots.

Your Committee has amended this measure by adding background information on the Hawaii Law Enforcement Memorial Foundation.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 46, S.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.C.R. No. 46, S.D. 1, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Souza).

SCRep. 1885-24 Water & Land on S.C.R. No. 70

The purpose of this measure is to request the Hawaii Emergency Management Agency to make the installation of a new emergency siren near the intersection of Aumakua Street and Auhuhu Street in upper Pacific Palisades, Oahu, a top priority.

Your Committee received testimony in support of this measure from the Pearl City Neighborhood Board No. 21.

Your Committee finds that it is often difficult, if not impossible, for certain community members in the Pacific Palisades area to hear the emergency siren. Your Committee further finds that on numerous occasions, the Pearl City Neighborhood Board has sought the support of Hawaii's emergency management agencies to resolve this issue but has yet to receive proper assistance. Your Committee believes that placing a new siren in upper Pacific Palisades would resolve this issue and promote public safety.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 70, S.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Souza).

SCRep. 1886-24 Water & Land on S.C.R. No. 99

The purpose of this measure is to request the United States Department of Transportation to conduct an investigation into the safety of the bridges along Hana Highway.

Your Committee received testimony in support of this measure from seven individuals.

Your Committee finds that as a heavily traveled route by residents and visitors, Hana Highway urgently needs an investigation of the safety of its numerous bridges.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 99 and recommends that it be referred to your Committee on Transportation.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Souza).

SCRep. 1887-24 Water & Land on S.C.R. No. 122

The purpose of this measure is to request the Department of Land and Natural Resources to:

- (1) With support from the National Oceanic and Atmospheric Administration Pacific Islands Fisheries Science Center and other experts, conduct a study on the population status of individual species and families of coral reef herbivores around the island of Oahu, prioritizing the severely depleted uhu and kala populations; and
- (2) Conduct an analysis of alternative policies for substantially replenishing populations of coral reef herbivores around the island of Oahu within the decade.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawai'i Reef and Ocean Coalition; Friends of Hanauma Bay; Animal Rights Hawai'i; The Nature Conservancy; Oceanic Preservation Society; and numerous individuals.

Your Committee finds that coral reefs provide extremely valuable ecosystem goods and services for the people of Hawaii. Reefs are also fundamental to the fabric of local communities, providing a source of food, materials, and traditional activities. Your Committee further finds that many reefs around the island of Oahu have been degraded from poor land use practices and are dominated by dead coral covered by seaweeds. The maintenance and recovery of coral reefs require abundant and diverse herbivores, which keep reef surfaces clean so that corals can flourish.

Your Committee notes that the population of coral reef herbivores around Oahu is the lowest in the State, existing at below five percent of its potential. Your Committee believes that strengthening existing statewide fishing rules concerning herbivores, along with other policies and strategies, are needed to help replenish herbivore populations in the coral reefs surrounding Oahu.

Accordingly, your Committee has amended this measure by:

- (1) Amending a provision to state that the depletion of herbivores results in reefs being dominated by seaweeds rather than corals, thus reducing fishing and other recreational, commercial, and traditional cultural opportunities;
- (2) Deleting a provision stating that coral reef herbivores are frequently targets of spearfishing at night around the island of Oahu when the fish are inactive and highly vulnerable, resulting in unsustainable exploitation and unreported catch;
- (3) Amending a provision to state that existing statewide fishing rules concerning herbivores may be insufficient to replenish herbivore populations around Oahu before coral bleaching becomes an annual event;
- (4) Modifying its title in accordance with its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 122, S.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.C.R. No. 122, S.D. 1, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Souza).

SCRep. 1888-24 Water & Land on S.C.R. No. 123

The purpose of this measure is to request the Department of Land and Natural Resources to convene a working group to make recommendations on solutions to reduce wildfire risk and the feasibility of establishing a vegetation management program as it relates to landowners and public utilities.

Your Committee received testimony in support of this measure from Hawaiian Electric. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs; Department of Land and Natural Resources; Charter Communications; and Hawaiian Telcom.

Your Committee finds that a significant portion of public and private lands in Hawaii are covered in unmanaged grasses, trees, and other vegetation, such as guinea grass, fountain grass, molasses grass, and buffelgrass, which can form continuous fuel beds, ignite easily, attain extremely high fine fuel loads, and are capable of growing back more vigorously in the post-fire environment than the majority of native vegetation. As a result, they pose an extraordinary wildfire risk. Your Committee further finds that vegetation management is essential for the mitigation of wildfire risks and the promotion of safer conditions for the State's communities and environment.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 123, S.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.C.R. No. 123, S.D. 1, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Souza).

SCRep. 1889-24 Water & Land on S.C.R. No. 181

The purpose of this measure is to request the establishment of a statewide firefighting aircraft program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Hawaiian Electric.

Your Committee finds that because of its geographic isolation and unique topography, the State faces significant barriers to effective wildfire response. Your Committee further finds that each county's current aerial firefighting resources, such as helicopters and drones, are effective firefighting tools but are difficult to deploy outside of the county during times of mass emergencies. Your Committee believes that a statewide firefighting aircraft program would significantly increase the State's firefighting capabilities and enhance fire safety throughout the State.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 181, S.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Souza).

SCRep. 1890-24 Water & Land on S.C.R. No. 182

The purpose of this measure is to urge the Public Utilities Commission to honor and comply with its statutory duty to investigate the causes of the August 2023 Maui wildfires as required by section 269-9, Hawaii Revised Statutes.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Public Utilities Commission.

Your Committee finds that the Public Utilities Commission could and should do more to uphold its statutory obligations to investigate the causes of the 2023 Maui wildfires, which resulted in the loss of over one hundred lives, and exercise its investigatory and other powers to ensure that electric utility services are delivered in a safe, reliable, economical, and environmentally sound manner.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 182, S.D. 1, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Souza).

SCRep. 1891-24 Water & Land on S.C.R. No. 186

The purpose of this measure is to request the Insurance Commissioner to conduct a comprehensive study on wildfire risk and insurance, including market-based approaches.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs Insurance Division.

Your Committee finds that it is in the public interest to ensure the accessibility and availability of adequate insurance coverage for future losses from wildfires for the welfare and safety of residents of the State.

Your Committee notes that the Department of Commerce and Consumer Affairs testified that it does not currently have the resources or staff with expertise to conduct the study requested by this measure. Therefore, the Department would need an appropriation of funds to hire consultants. Your Committee also notes that the Department is requesting that the deadline to submit the report be delayed to at least one year after adoption of this measure to allow sufficient time to organize and conduct the study.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 186 and recommends that it be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Souza).

SCRep. 1892-24 Water & Land on S.C.R. No. 203

The purpose of this measure is to request the Office of Planning and Sustainable Development and County of Maui to inventory and map existing R-1 water (water recycled from wastewater that has undergone oxidation, filtration, and disinfection) delivery systems and reservoirs in Maui County.

Your Committee received testimony in support of this measure from one member of the Maui County Council and Hawaii Reef and Ocean Coalition. Your Committee received comments on this measure from the Department of Land and Natural Resources and Office of Planning and Sustainable Development.

Your Committee finds that without increasing the use of reclaimed water in the State, residents will encounter potable drinking water shortages caused by the overuse of potable drinking water for agricultural, landscaping, or firefighting purposes. Your Committee further finds that an important first step in increasing the use of reclaimed water is to create accurate inventories and maps of existing R-1 water delivery systems and reservoirs that may be used to store reclaimed water.

Your Committee has amended this measure by:

- (1) Requesting the Department of Land and Natural Resources, along with the Office of Planning and Sustainable Development and County of Maui, to inventory and map existing R-1 water delivery systems and reservoirs in Maui County;
- (2) Broadening the scope of the inventory and mapping of existing R-1 water delivery systems and reservoirs to Maui County, not just the island of Maui;
- (3) Amending its title in accordance with its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 203, S.D. 1, as amended herein, and recommends that it be referred to your Committee on Finance in the form attached hereto as S.C.R. No. 203, S.D. 1, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Souza).

SCRep. 1893-24 Water & Land on S.C.R. No. 215

The purpose of this measure is to request the Department of Land and Natural Resources to collaborate with federal, state, and county governments; landowners; and stakeholders to protect, restore, and manage West Maui wetlands and wetlands statewide.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Hawaii Reef and Ocean Coalition.

Your Committee finds that wetlands provide vital environmental services, such as supporting subsistence food practices, protecting against sea surge inundations and sea level rise, safeguarding coral reefs and nearshore fisheries from the impacts of runoff, and providing habitats for native bird and plant species. Your Committee further finds over thirty percent of Hawaii's coastal wetlands have been lost due to development and stream diversion and that the State's wetlands, specifically those on West Maui, face significant challenges in the aftermath of the Maui wildfires.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 215, S.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Souza).

SCRep. 1894-24 Water & Land on S.C.R. No. 219

The purpose of this measure is to urge the Federal Emergency Management Agency to expedite the placement of Maui wildfire survivors into the Direct Lease Program.

Your Committee received testimony in support of this measure from Lahaina Strong and numerous individuals.

Your Committee finds that as of March 2024, hundreds of survivors and families of the August 2023 Maui wildfires still lack long-term housing. Your Committee further finds that one option for long-term housing is the Federal Emergency Management Agency's (FEMA) Direct Lease Program, whereby FEMA leases existing, ready-to-occupy residential properties for use as temporary housing for families displaced by wildfires. Your Committee recognizes that it is a moral and financial priority for the State to move as many survivors as possible into long-term housing programs by expediting the Direct Lease Program process.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 219, S.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Souza).

SCRep. 1895-24 Culture, Arts, & International Affairs on S.C.R. No. 147

The purpose of this measure is to request the State to begin planning to collaborate with partners in Japan to appropriately recognize the eightieth anniversary of the end of World War II, including the atomic bombings and lives lost in Japan and Hawaii throughout the war, and reaffirm a commitment to ensuring these tragedies are never repeated.

Your Committee received comments on this measure from the State Foundation on Culture and the Arts.

Your Committee finds that August 2025 will mark the eightieth anniversary of the atomic bombings in Hiroshima and Nagasaki as well as the conclusion of World War II in the Pacific. Your Committee further finds that during World War II, Hawaii and Japan lost countless lives in the attacks on Pearl Harbor, the atomic bombings, and in battles throughout the Pacific theater and around the world. Your Committee concludes that properly recognizing and honoring the lives lost in World War II, particularly at the anniversary of the bombings of Hiroshima and Nagasaki, will reaffirm the lessons learned from these tragedies, strengthen mutual respect and understanding between our people, and reaffirm the deep friendship between Japan and Hawaii for current and future generations.

Your Committee has amended this measure by:

- (1) Changing who is requested to begin planning to collaborate with partners in Japan to appropriately recognize the end of World War II from the State to the State Foundation on Culture and the Arts;
- (2) Amending its title accordingly; and

(3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Culture, Arts, & International Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 147, as amended herein, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs in the form attached hereto as S.C.R. No. 147, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Matayoshi, Alcos).

SCRep. 1896-24 Human Services on S.C.R. No. 166

The purpose of this measure is to reaffirm the State's commitment to providing culturally appropriate resources, services, and programs for Native Hawaiian individuals and families experiencing intellectual and developmental disabilities.

Your Committee received testimony in support of this measure from the Department of Education; Department of Human Services; Department of Health; Office of Hawaiian Affairs; State Council on Developmental Disabilities; and AlohaCare.

Your Committee finds that individuals with intellectual and developmental disabilities and their families and care providers face unique challenges and often require specialized resources and support. Your Committee further finds that Native Hawaiians are overrepresented among individuals with intellectual and developmental disabilities, highlighting the systemic disparities and increased vulnerabilities of this population. To ensure that the needs of the State's more vulnerable members are met, it is important to provide culturally appropriate resources, services, and programs that affirm the dignity and worth of Native Hawaiian individuals with intellectual and developmental disabilities.

Your Committee has amended this measure by:

- (1) Changing who is being urged to commit to provide these services, programs, and resources from the Governor and Legislature to pertinent state agencies;
- (2) Amending its title in accordance with its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 166, S.D. 1, as amended herein, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs in the form attached hereto as S.C.R. No. 166, S.D. 1, H.D. 1.

SCRep. 1897-24 Human Services on S.C.R. No. 177

The purpose of this measure is to request the Department of Budget and finance to work with the State Council on Developmental Disabilities to enhance the ABLE Savings Program by promoting it to all individuals who may qualify.

Your Committee received testimony in support of this measure from the Hawaii State Council on Developmental Disabilities; Executive Office on Aging; Hawaii Disability Rights Center; Community Advocacy Research Education Services; and one individual.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 177 and recommends that it be referred to your Committee on Finance.

SCRep. 1898-24 Human Services on S.C.R. No. 175

The purpose of this measure is to request the Department of Human Services to report on the cultural and therapeutic services provided by community-based organizations at the Kailua Youth and Family Wellness Center.

Your Committee received testimony in support of this measure from the Opportunity Youth Action Hawaii; Partners in Development Foundation; Residential Youth Services and Empowerment; Community Advocacy Research Education Services; and one individual.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 175 and recommends that it be referred to your Committee on Finance.

SCRep. 1899-24 Human Services on S.C.R. No. 207

The purpose of this measure is to request the Auditor to conduct a sunrise analysis on mandating dental and vision insurance coverage.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 207, S.D. 1, and recommends that it be referred to your Committee on Consumer Protection & Commerce.

SCRep. 1900-24 Human Services on S.C.R. No. 156

The purpose of this measure is to urge the United States Congress to take immediate and decisive action to support middle-and lower-income households in America.

Your Committee did not receive testimony on this measure.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 156, S.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, 1 (Garcia). Excused, 2 (Kobayashi, Nishimoto).

SCRep. 1901-24 Agriculture & Food Systems on S.C.R. No. 52

The purpose of this measure is to request the Board of Agriculture to:

- (1) Conduct a study of the percentages of agricultural lands being leased by the State that are suitable for farming and actively being used for farming purposes;
- (2) Determine certain dollar amounts for each agricultural lease transferred from one lessee to another lessee; and
- (3) Submit a report to the Legislature before the Regular Session of 2027.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau and one individual.

Your Committee received testimony in opposition from the Department of Agriculture.

Your Committee finds that state agricultural lands are a crucial resource for achieving Hawai'i's goals of economic diversification and food self-sufficiency, but some subsidized leases are being used for non-agricultural purposes or remain unused. Furthermore, the transfer of leases to the highest bidder can result in windfall profits for lessees and may not ensure that the land is used by the most suitable farmers for agricultural production. Your Committee further finds that additional data is needed to assess the effectiveness of Department of Agriculture leases in maximizing the benefit of these lands to the State and to determine whether the transfer of leases results in the monetization of the difference between the actual and subsidized lease values for private, rather than State, benefit. This measure seeks to provide for this data by requesting the Board of Agriculture to conduct a study.

Your Committee notes testimony received from the Department of Agriculture stating that the study requested by this measure is unfunded and would cost approximately \$500,000 to conduct.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 52, S.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Cochran, Woodson, Ward).

SCRep. 1902-24 Agriculture & Food Systems on S.C.R. No. 53

The purpose and intent of this measure is to request that the Department of Agriculture establish an advisory commission to be convened quarterly and address certain issues to guide action and progress in the agriculture, aquaculture, and food systems industries of the State. The commission is to submit their findings and recommendations to the Board of Agriculture.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau and one individual.

Your Committee received comments from the Department of Agriculture.

Your Committee finds that one of the critical aims of the Hawaii Statewide Comprehensive Economic Development Strategy is to develop agriculture, aquaculture, and food systems. As the State moves toward its self-sufficiency and food security goals, an advisory commission is necessary to increase communication, provide expert guidance, and create strategic partnerships between relevant stakeholders to support an increase in exports and local food production.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 53, S.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Cochran, Woodson, Ward).

SCRep. 1903-24 Agriculture & Food Systems on S.C.R. No. 129

The purpose and intent of this measure is to request:

- (1) The Department of Agriculture establish a Sustainable Food Systems Working Group to develop an Interagency Food Systems Plan;
- (2) The Working Group submit the Plan and its recommendations for the implementation of the Plan to the Legislature before the Regular Session of 2025;
- (3) The Department provide any necessary administrative and staff support to the Working Group; and
- (4) The Working Group be dissolved on June 30, 2025.

Your Committee received testimony in support of this measure from the Local Food Coalition; Ulupono Initiative; Hawaii Food Industry Association; Hawai'i Farm Bureau; and one individual.

Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that food imports encompass eighty-five percent of available food in the State, which leaves communities vulnerable to disasters that may alter or disturb the current food system. Your Committee further finds that the development of a sustainable food system would not only make its local food production more resilient, but also support "green" job creation, sustainable economic development, land stewardship, and climate change resiliency. This measure temporarily establishes a Sustainable Food Systems Working Group to help establish a more sustainable food system for the State.

Your Committee notes testimony received by the Department of Agriculture stating that the Department lacks the capacity to meet unfunded mandates and that creating a working group without the participation of agricultural operators or organizations could be less effective than desired.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 129, S.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Cochran, Woodson, Ward).

SCRep. 1904-24 Agriculture & Food Systems on S.C.R. No. 164

- (1) Urge the Department of Agriculture to establish a two-year Agricultural Crime Pilot Project to examine and assess the effectiveness of prosecuting agricultural crime cases, including those of agricultural theft, agricultural vandalism, and trespassing; and

(2) Request the Department of Agriculture to:

- (A) Examine and assess the effectiveness of prosecuting agricultural crimes;
- (B) Coordinate with the Department of Law Enforcement and each of the four counties to hire enforcement officers for each county;
- (C) Assess the implementation of the pilot project, including the pilot project's effectiveness, to determine whether to continue, make permanent, or end the pilot project;
- (D) Create additional tools such as a Crimestoppers Anonymous phone line, an accessible online form for better reporting, and an Agricultural Crime Task Force;
- (E) Submit an interim report to the Legislature before the Regular Session of 2025; and
- (F) Submit a final report to the Legislature before the Regular Session of 2026.

Your Committee received testimony in support of this measure from the Department of Agriculture; Kapapala Ranch; Hawaii Cattlemen's Council, Inc.; Hawai'i Farm Bureau; and four individuals.

Your Committee finds that agricultural crimes, including theft, vandalism, and trespassing, are a persistent issue affecting farmers and ranchers in Hawaii, with nearly nineteen thousand incidents reported in 2019, resulting in approximately \$14,400,000 in losses and security costs. Despite the prevalence and cost of these crimes, many incidents go unreported, and few result in convictions, prompting the Legislature to establish a two-year Agricultural Theft and Vandalism Pilot Project in 2019 to examine the effectiveness of prosecuting such cases in Hawaii and Maui counties. Your Committee acknowledges these ongoing challenges facing local farmers, and this measure works to expand the pilot project statewide to provide resources to suppress incidences of agricultural crimes and losses to farmers, ranchers, aquaculturists, and floriculturists in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 164, S.D. 1, and recommends that it be referred to your Committee on Judiciary & Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Cochran, Woodson, Ward).

SCRep. 1905-24 Agriculture & Food Systems on S.C.R. No. 191

The purpose and intent of this measure is to urge the Department of Agriculture to adopt proposed amendments to chapter 4-72, Hawaii Administrative Rules, that provide important authorities for the Department of Agriculture to prevent the spread of insects, diseases, and other invasive pests within the State.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Coordinating Group on Alien Pest Species; and one individual.

Your Committee received comments from the Department of Agriculture.

Your Committee finds the Department of Agriculture has the sole authority to quarantine or prevent the movement of invasive pests or infested materials within the State, and all other state departments, county governments, industries, and the public rely on the Department to prevent the spread of these pests. The proposed amendments to chapter 4-72, Hawaii Administrative Rules, provide important authorities for the Department to prevent and slow the spread of high-impact invasive pests, such as coconut rhinoceros beetle, coqui frog, and little fire ants, and clarify the Department's authority to stop the sale of pest-infested merchandise directly to the public. Your Committee further finds that adopting these amendments is urgently needed to address the rapid spread of invasive pests within the State and protect Hawai'i's agricultural industries, natural resources, consumers, and the public.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 191 and recommends that it be referred to your Committee on Consumer Protection & Commerce.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Cochran, Woodson, Ward).

SCRep. 1906-24 Agriculture & Food Systems on S.C.R. No. 192

The purpose of this measure is to:

- (1) Conduct a performance audit of the Plant Pest Control and Plant Quarantine Branches of the Department of Agriculture's Plant Industry Division; and
- (2) Submit a report of their findings and recommendations to the Legislature before the Regular Session of 2025.

Your Committee received testimony in support of this measure from the Department of Agriculture.

Your Committee received comments the Office of the Auditor.

Your Committee finds that the establishment and spread of invasive species is harmful to Hawai'i's agriculture, native biota, public health, and economic well-being. The Plant Industry Division of the Department of Agriculture, which includes the Plant Quarantine Branch, Pesticides Branch, and Plant Pest Control Branch, is responsible for delivering the State's mandated biosecurity program and controlling or eradicating pests that could cause significant damage. Your Committee further finds that the Department of Agriculture has failed to produce the required annual report on the biosecurity program to the Thirty-Second Legislature, and previous audits have found deficiencies in the Plant Quarantine Branch's data gathering, data analysis, and organizational framework, as well as the utilization of its staff and operational capacity by the Plant Pest Control Branch. The performance audit requested in this measure will provide the information necessary for decision-makers to strengthen the State's biosecurity system and mitigate risks associated with invasive species.

Your Committee notes the increasing urgency to address biosecurity needs for the state and the importance of a holistic approach to a recommended audit relating to biosecurity in Hawai'i.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 192, S.D. 1, and recommends that it be referred to your Committee on Finance.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Cochran, Woodson, Ward).

SCRep. 1907-24 Transportation on S.C.R. No. 63

The purpose of this measure is to request the Department of Transportation to prioritize remediation of the flooding issues present on Route 11 around Mile Post 60 as a safety project.

Your Committee did not receive any written testimony on this measure.

Your Committee finds that there is a well-documented history of flooding on Route 11 near Mile Post 60 on the island of Hawaii. Your Committee further finds that Mamalahoa Highway, which is used by nearby communities to access medical services and as an emergency evacuation route, is frequently closed due to flooding issues. Your Committee believes that these road closures pose significant safety issues to the communities that rely on Mamalahoa Highway. This measure is intended to encourage the Department of Transportation to address these safety concerns by prioritizing remediation of flooding issues present on Mamalahoa Highway.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 63, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1908-24 Transportation on S.C.R. No. 85

The purpose of this measure is to urge the Department of Transportation to install speed bumps and speed limit signage on the portion of Kapolei Parkway between Kapolei High School and Kapolei Middle School.

Your Committee received testimony in support of this measure from the Department of Transportation and Kapolei Makakilo Neighborhood Board. Your Committee received comments on this measure from one individual.

Your Committee finds that speeding is often a major contributing factor in motor vehicle accidents and traffic fatalities. Portions of Kapolei Parkway have experienced a number of such accidents and fatalities that frequently involved speeding. Your Committee further finds that the installation of road safety measures such as speed bumps and speed limit signs may help reduce the number of speeding vehicles and improve pedestrian safety in Kapolei.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 85 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1909-24 Transportation on S.C.R. No. 116

The purpose of this measure is to urge the Department of Transportation to work with the City and County of Honolulu to plan and implement options for alternative ingress and egress routes in Pacific Palisades.

Your Committee received testimony in support of this measure from the Pearl City Neighborhood Board No. 21 and two individuals.

Your Committee finds that best practices for emergency preparedness require a community to possess more than one evacuation route, as a single ingress and egress route may prevent emergency vehicles from responding to an emergency in a timely fashion. Your Committee further finds that Komo Mai Drive, a steep and winding one-lane road, is the only ingress and egress from Pacific Palisades, which could leave residents of Pacific Palisades trapped should Komo Mai Drive be obstructed during an emergency or natural disaster. This measure is intended to increase public safety by identifying alternative access routes for Pacific Palisades.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 116 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1910-24 Transportation on S.C.R. No. 25

The purpose of this measure is to encourage the Department of Transportation and Department of Transportation Services of the City and County of Honolulu to expand the red-light safety program.

Your Committee received testimony in support of this measure from the Department of Transportation; Disability and Communication Access Board; Pearl City Neighborhood Board No. 21; Kapalama Neighborhood Security Watch; and two individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that red-light running is one of the most significant causes of traffic fatalities and injuries at signalized intersections. Your Committee further finds that Act 30, Session Laws of Hawaii 2020, authorized the implantation of automated enforcement at certain intersections in urban Honolulu, and that as of February 2023, there have been nine hundred forty-six citations at the five intersections in urban Honolulu currently issuing citations. Your Committee believes that expanding automated enforcement of red-light running may reduce traffic fatalities and injuries across the State.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 25, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 1911-24 Water & Land on S.C.R. No. 3

The purpose of this measure is to urge the United States Geological Survey to conduct topographical surveys, particularly within lava-flow hazard Zones 1 and 2, to its long-term lava-flow hazard map of Hawaii island.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that the United States Geological Survey Miscellaneous Field Studies Map 2193, which shows long-term lava flow hazards on the island of Hawaii, was last updated in 1992. Your Committee further finds that an update to that map could help state and county emergency management agencies, as well as affected residents and businesses, better understand risks from volcanic hazards on the island of Hawaii.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 3, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Souza).

SCRep. 1912-24 Water & Land on S.C.R. No. 67

The purpose of this measure is to urge the Legislature to preserve, protect, and restore limu kala to the full extent of its capability.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received comments on this measure from Kua'āina Ulu 'Auamo; Mālama Pūpūkea-Waimea; and one individual.

Your Committee finds that the Legislature recognized the critical role of limu kala in Hawaii's nearshore ecosystems and Native Hawaiian history and culture through the passage of Act 230, Session Laws of Hawaii 2023, which designated limu kala as the state limu of Hawaii. However, populations of Native Hawaiian limu, including limu kala, have been severely damaged by the ongoing effects of climate change, development, and pollution runoff. This measure reiterates the Legislature's commitment to supporting healthy reefs and nearshore ecosystems in the State by urging the protection and restoration of all Native Hawaiian limu populations.

Your Committee has amended this measure by:

- (1) Broadening it to include Native Hawaiian limu in general;
- (2) Amending its title accordingly; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 67, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 67, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Souza).

SCRep. 1913-24 Water & Land on S.C.R. No. 104

The purpose of this measure is to urge the State, City and County of Honolulu, and United States military to coordinate and address the issue of illegal dumping within Waipahu, Oahu, and the surrounding communities of Ewa, Pearl City, and Aiea.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that urgent action regarding illegal dumping is needed to mitigate health risks, protect the environment, and ensure the well-being of residents of and visitors to Waipahu and the surrounding communities of Ewa, Pearl City, and Aiea.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 104, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 104, S.D. 1, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Souza).

SCRep. 1914-24 Water & Land on S.C.R. No. 131

The purpose of this measure is to urge Hawaii's Congressional delegation to take all actions necessary and proper to cause the United States Congress to fund the construction and commencement of operations of a laboratory certified by the United States Environmental Protection Agency to analyze environmental toxins in the State and publish its results to the public.

Your Committee received testimony in support of this measure from the Honolulu Board of Water Supply; Sierra Club of Hawai'i; Environmental Caucus of the Democratic Party of Hawai'i; and two individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that although section 321-29.5, Hawaii Revised Statutes, was enacted in 2022 to mandate the Department of Health to establish and operate a toxicology laboratory designed to test for diseases as well as air and water quality issues, no such laboratory has yet been funded or constructed. Following the November 2021 Red Hill Bulk Fuel Storage Facility release of fuel and per- and polyfluoroalkyl substances containing aqueous film forming foam, the Department of Health's laboratory lacked the capability to evaluate the presence of toxins in water, so the State had to send samples to the continental United States and wait nearly one month for a determination of the toxicity level of exposure of nearly one hundred thousand individuals. Your Committee further finds that a local facility that can test for diseases and air and water quality issues and provide the public with timely analyses of environmental toxins would significantly aid in preventing contamination of the water supply and mitigating threats to Hawaii's environment and public health.

Your Committee has amended this measure by:

- (1) Changing its title accordingly;
- (2) Clarifying the lack of adequate testing laboratory facilities in the State that can expeditiously identify diseases and toxins; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 131, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 131, S.D. 1, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 1 (Souza).

SCRep. 1915-24 Energy & Environmental Protection on S.C.R. No. 220

The purpose of this measure is to urge the Hawaii construction industry to increase the recycling of construction and demolition debris and to expand the usage of recycled construction materials to the greatest extent possible.

Your Committee received testimony in support of this measure from two individuals.

Your Committee finds that many of the State's landfills are reaching capacity or expected to close within the next twenty years. Your Committee further finds that increased recycling of construction and demolition debris would help divert significant amounts of waste from entering the State's landfills. This measure urges the Hawaii construction industry to increase the recycling of construction and demolition debris and to expand the usage of recycled construction materials to the greatest extent possible.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 220 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Gates, Woodson, Ward).

SCRep. 1916-24 Health & Homelessness on S.C.R. No. 64

The purpose of this measure is to urge the State and counties to prioritize and direct all available resources to supporting coordinated interagency collaboration and public-private partnerships aimed at addressing the ongoing fentanyl epidemic.

Your Committee received testimony in support of this measure from the Department of Health and Hawaii Island Fentanyl Task Force.

As affirmed by the record of votes of the members of your Committee on Health & Homelessness that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 64 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Kobayashi, Garcia).

SCRep. 1917-24 Economic Development on S.C.R. No. 145

The purpose of this measure is to request the appropriate stakeholders to update the East-West Center study titled "Hawaii as an East-West Bridge: A Survey of the Economic Value of Non-Tourist International Activities in Hawaii".

Your Committee received testimony in support of this measure from the East-West Center. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that the East-West Center conducted a study in 1990 titled "Hawaii as an East-West Bridge: A Survey of the Economic Value of Non-Tourist International Activities in Hawaii" to measure the value of non-tourist international activities in Hawaii and demonstrate such activities' significance to the state economy. Your Committee further finds that updating this study will enable the State to adapt to emerging trends, engage in new opportunities, and address evolving challenges, helping to ensure Hawaii's resilience and economic competitiveness in the global arena.

Your Committee notes that in written testimony the Department of Business, Economic Development, and Tourism states that the estimated cost to conduct the study is between \$60,000 to \$75,000.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 145, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Hussey-Burdick, Nakamura).

SCRep. 1918-24 Culture, Arts, & International Affairs on S.C.R. No. 1

The purpose of this measure is to recognize the day of the second new moon after the winter solstice of every year as the Lunar New Year in the State of Hawaii.

Your Committee received testimony in support of this measure from CARES and one individual.

Your Committee finds that the Lunar New Year is observed by numerous residents in the State, especially by the State's Chinese, Korean, Japanese, and Vietnamese populations. Your Committee concludes that recognizing the Lunar New Year in Hawaii honors the State's rich cultural history, demonstrates its commitment to cultural diversity, and extends best wishes for peace and prosperity to all who celebrate this important occasion.

Your Committee has amended this measure by:

- (1) Limiting recognition of the Lunar New Year from every year to only 2025;
- (2) Amending its title accordingly; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Culture, Arts, & International Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 1, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Martinez, Matayoshi, Alcos).

SCRep. 1919-24 Culture, Arts, & International Affairs on S.C.R. No. 2

The purpose of this measure is to urge the Legislature to endorse the participation of Taiwan as an observer in the United Nations Framework Convention on Climate Change, International Civil Aviation Organization, World Health Organization, and International Criminal Police Organization; support the further progress on and speedy conclusion to the United States-Taiwan Initiative on 21st-Century Trade; encourage the United States Trade Representative to commence negotiations to enter into a bilateral trade agreement with Taiwan; and support the State's thirty-first anniversary of sister-state relations with Taiwan the forty-fifth anniversary of the Taiwan Relations Act.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Taipei Economic and Cultural Office in Honolulu; and one individual.

Your Committee finds that the United States and Taiwan are bonded by a shared commitment to democracy, human rights, the rule of law, and a free market economy. Your Committee concludes that it is critical to strengthen the ties between Taiwan and the United States by assisting Taiwan on a global stage, developing stronger United States-Taiwan trade initiatives, and supporting Hawaii's sister-state relationship with Taiwan.

Your Committee has amended this measure by:

- (1) Amending its title; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Culture, Arts, & International Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 2, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 2, S.D. 1, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Martinez, Matayoshi, Alcos).

SCRep. 1920-24 Culture, Arts, & International Affairs on S.C.R. No. 146

The purpose of this measure is to encourage the State to consider the initiation of a sister-state relationship between Hawaii and the Spanish province of the Balearic Islands.

Your Committee received testimony in support of this measure from five individuals. Your committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that pursuant to section 229-3, Hawaii Revised Statutes, the initiation of a sister-state relationship between Hawaii and another state or province follows an evaluation and recommendation by the Hawaii Sister-State Committee, which then forwards its recommendation to the Legislature for its consideration. Your Committee further finds that the province of the Balearic Islands, also known as Baleares, is comparable to Hawaii in many ways, including but not limited to geography, tourism, housing, climate, numbers of county councils governing the islands, and economies and work forces that rely on tourism. Your Committee concludes that the combination of similar experiences between Hawaii and Baleares affords a valuable opportunity to develop, learn, and confront the most pressing issues affecting both places.

Your Committee has amended this measure by:

- (1) Changing who is urged to consider the initiation of a sister-state relationship between Hawaii and Baleares from the State to the Hawaii Sister-State Committee;
- (2) Amending its title accordingly; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Culture, Arts, & International Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 146, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 146, S.D. 1, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Martinez, Matayoshi, Alcos).

SCRep. 1921-24 Agriculture & Food Systems on S.C.R. No. 29

The purpose of this measure is to:

- (1) Support efforts to improve the Aquaculture Development Program Strategic Plan; and
- (2) Adopt the recommendations made by Hatch Innovation Services in its February 2024 report regarding the Strategic Plan.

Your Committee has received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; and one individual.

Your Committee finds that Hawai'i's aquaculture industry has significant potential for growth and development due to the State's unique advantages, including its favorable climate, access to varied water temperatures, ongoing restorative aquaculture at Native Hawaiian fishponds, and a strong aquaculture research environment. This measure supports the Aquaculture Development Program's ten-year strategic plan, aiming to develop a robust, sustainable food-production system that will contribute meaningfully to the community, economy, and environment.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 29 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Cochran, Woodson, Ward).

SCRep. 1922-24 Agriculture & Food Systems on S.C.R. No. 101

The purpose and intent of this measure is to urge a transition to a plant-based lifestyle.

Your Committee received testimony in support of this measure from Animal Rights Hawai'i; Climate Protectors Hawaii and Ocean Reef and Ocean Coalition; Down to Earth Organic & Natural; 350 Hawaii; Vegan Society of Hawaii; and twelve individuals.

Your Committee received testimony in opposition from Kapapala Ranch; Hawaii Cattlemen's Council; SC Ranch; and four individuals.

Your Committee received comments from the Department of Agriculture.

Your Committee finds that a plant-based lifestyle can offer a multitude of beneficial impacts to human health, animal welfare, local agriculture and the environment. This measure urges the transition to a plant-based lifestyle and acknowledges the enormous positive impacts attributed to it, including reducing the effects of climate change by reducing market demand for carbon-emitting meat products.

Your Committee notes that a plant-based food lifestyle means eating patterns that focus primarily on foods originating from plants. This includes not only fruits and vegetables, but also nuts, seeds, oils, whole grains, legumes, and beans. It does not mean an exclusively vegetarian or vegan diet, but one that proportionally adds more foods from plant sources to a diet that may also include foods from animal sources.

Your Committee has amended this measure by:

- (1) Deleting language advocating for the phasing out or eliminating of animal-based food products from the diet; and
- (2) Adding language specifying foods and calorie breakdown of the traditional Native Hawaiian diet.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 101, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 101, H.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Cochran, Woodson, Ward).

SCRep. 1923-24 Agriculture & Food Systems on S.C.R. No. 152

The purpose and intent of this measure is to request the City and County of Honolulu to collaborate with the State to expand community gardening opportunities for residents.

Your Committee received testimony in support of this measure from Hawai'i Farm Bureau and one individual.

Your Committee received comments from the Department of Land and Natural Resources.

Your Committee finds that community gardening provides numerous individual health benefits, while also providing communities with a source of organic, healthy, and affordable local food options. In Honolulu, where a significant portion of the population resides in condominiums and densely populated neighborhoods, community garden programs offer a respite from city life and have become increasingly popular, with demand rapidly outpacing available supply, as exemplified by the extensive waitlist at the Ala Wai Community Garden. This measure encourages collaboration between the City and County of Honolulu and the State to expand community gardening opportunities for residents on Oahu.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 152 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Cochran, Woodson, Ward).

SCRep. 1924-24 Agriculture & Food Systems on S.C.R. No. 178

The purpose and intent of this measure is to urge the State to:

- (1) Prohibit the introduction of biocontrol agents that might threaten economically important forage grass species; and
- (2) Provide for the protection of Hawai'i's rangelands and important forage grass species that sustain beef cattle production through funding policies, initiatives, and directives to state agencies to incentivize livestock grazing for the management of forage grasses and other vegetation on lands managed by the State and private sector that are currently undermanaged.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Cattlemen's Council, Inc.; Hawai'i Farm Bureau; Kapapala Ranch; Larry Jefts Farms, LLC; and four individuals.

Your Committee received testimony in opposition from the Department of Land and Natural Resources and three individuals.

Your Committee finds that Hawai'i's beef cattle industry is a major agricultural sector, contributing over \$48,000,000 to the state economy annually through job creation, taxes, and the sale of animals and meat products, while also improving the State's food security. Ranchers provide vital ecosystem services such as soil stabilization, watershed capacity enhancement, carbon sequestration, nutrient cycling, and noxious weed suppression. Your Committee further finds that the local beef cattle industry relies on intentionally introduced forage grasses that are essential for feeding communities across the islands and providing manageable and sustainable ground cover, but these grasses are increasingly being labeled as invasive and targeted for eradication without considering the adverse impact on ranchers and their stewardship role. This measure supports the effort to prevent the eradication of these grasses to sustain beef cattle production in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture & Food Systems that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 178 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Lowen, Perruso). Noes, none. Excused, 3 (Cochran, Woodson, Ward).

SCRep. 1925-24 Water & Land on H.R. No. 77

The purpose of this measure is to recognize the issue of illegal dumping within the Waipahu community and urge the State, City and County of Honolulu, and military to work together to address this concern.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed H.D. 1, which deletes the contents of this measure and instead strongly urges the City and County of Honolulu to reconsider using the Waipio Soccer Complex as its next landfill site.

Your Committee received testimony in support of the proposed H.D. 1 from one member of the Honolulu City Council; Hawaii Youth Soccer Association; Hui O Ho'ohonua; and numerous individuals. Your Committee received testimony in opposition to the proposed H.D. 1 from one individual.

Your Committee finds that the proposed H.D. 1 recognizes that the conversion of the Waipio Soccer Complex, which serves as a crucial hub for collegiate, high school, and amateur sports and recreational activities and provides opportunities for the community to engage in physical fitness and social interaction, into a landfill site would:

- (1) Pose detrimental effects on the environment, including soil contamination, air pollution, and disruption of wildlife habitats, including nearby marine and wetland habitats;
- (2) Adversely affect the health and well-being of nearby residents, exposing them to potential hazards associated with waste-disposal activities, such as odors, noise, and increased traffic congestion; and
- (3) Significantly affect Waipahu High School, which is located in close proximity to the Waipio Soccer Complex, and potentially expose students, faculty, and staff to health risks and environmental hazards.

Your Committee further finds that there exist alternative sites for landfill development that are less ecologically sensitive and more suitable for accommodating waste-management needs without compromising the integrity of recreational spaces and the natural environment.

Your Committee has amended this measure by adopting the proposed H.D. 1.

As affirmed by the record of votes of the members of your Committee on Water & Land that is attached to this report, your Committee concurs with the intent and purpose of H.R. No. 77, as amended herein, and recommends its adoption in the form attached hereto as H.R. No. 77, H.D. 1.

SCRep. 1927-24 Judiciary & Hawaiian Affairs on S.C.R. No. 27

The purpose of this measure is to encourage the United States Navy to eradicate octocoral and other invasive species from the waters of Pearl Harbor.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual. Your Committee received comments on this measure from the Hawaii Military Affairs Council.

Your Committee finds that octocoral and other invasive species are threatening Pearl Harbor's maritime ecosystem. As stewards of the waters of Pearl Harbor, the United States Navy is responsible for eradicating these invasive species before they spread to other areas within state waters.

Your Committee has amended this measure by:

- (1) Amending its title;
- (2) Urging the United States Navy to provide the Department of Land and Natural Resources with regular updates on the status of eradication efforts and the extent of invasive octocoral;
- (3) Requiring that a certified copy of this measure be transmitted to the Chairperson of the Board of Land and Natural Resources; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 27, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 27, S.D. 1, H.D. 1.

SCRep. 1928-24 Judiciary & Hawaiian Affairs on S.C.R. No. 213

The purpose of this measure is to request the Office of the Administrative Director of the Courts to collect, compile, and share data on the assessment of fees, court costs, fines, and restitution in cases against minors.

Your Committee received testimony in support of this measure from the Office of the Public Defender; ACLU Hawai'i; Policy Advocacy Clinic at Berkeley Law; Hawai'i Friends of Restorative Justice; Opportunity Youth Action Hawai'i; and Hawaii Health & Harm Reduction Center. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that the imposition of fees, fines, and costs on young people and their families can have wide-ranging consequences, none of which serves the purposes of rehabilitating, deterring, or punishing delinquent youth. Your Committee further finds that these monetary assessments have a disproportionate impact on families of color and can even lead to recidivism and escalating crime. The information provided pursuant to this measure will assist the Legislature as it examines the practice of imposing monetary assessments on Hawaii's youth and families.

As affirmed by the record of votes of the members of your Committee on Judiciary & Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 213, S.D. 1, and recommends its adoption.

Signed by the Chair on behalf of the Committee.

SCRep. 1942-24 Culture, Arts, & International Affairs on S.C.R. No. 13

The purpose of this measure is to urge the President of the United States and members of Hawaii’s Congressional delegation to support an immediate and permanent ceasefire in Gaza.

Your Committee received testimony in support of this measure from the Hawai‘i County Council; Syced Investigations, LLC; Malu ‘Aina; Trinity United Methodist Church; Aloha Lokahi Association; HULI PAC; Autotech Kona; Sierra Club of Hawai‘i; Green Party of Hawai‘i; Democratic Party of Hawai‘i; Episcopal Church in Hawaii; UNITE HERE Local 5; Progressive Democrats of Hawaii; Women Organizing for Change in Agriculture and Natural Resource Management; Our Revolution Hawaii; Muslim Association of Hawaii; AF3IRM; Jewish Voice for Peace-Hawaii; Ka Lei Maile Alii; Kona 4 Palestine; Veterans for Peace, Hawai‘i Ch. 113; and numerous individuals. Your Committee received testimony in opposition to this measure from the Jewish Sisterhood of Kaua‘i; Jewish Community of Kaua‘i; Jewish Community Relations Board of Hawaii; Kauai Jewish Center; and numerous individuals.

Your Committee finds that between October 7, 2023, and April 4, 2024, armed violence has claimed the lives of more than thirteen thousand Palestinians and wounded tens of thousands more, the majority of which are civilians. Your Committee further finds that hundreds of thousands of lives are at imminent risk if a permanent ceasefire is not reached and humanitarian aid is not delivered without delay. Your Committee therefore believes that the United States federal government should utilize its immense diplomatic and economic power to save Palestinian and Israeli lives.

Your Committee has amended this measure by:

- (1) Clarifying Hamas' role in the Israel-Hamas War Hostage Crisis;
- (2) Inserting language about the meaning of "Aloha";
- (3) Clarifying that members of Hawaii's Congressional delegation and the Biden Administration are urged to publicly call for an immediate, permanent bilateral ceasefire in Gaza and the return of all hostages; facilitate the de-escalation of hostilities; promptly send and facilitate the entry of humanitarian assistance into Gaza; and continue negotiations for lasting peace in the region;
- (4) Amending its title accordingly; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency and style.

As affirmed by the record of votes of the members of your Committee on Culture, Arts, & International Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 13, S.D. 1, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 13, S.D. 1, H.D. 1.

Conf. Com. Rep. 1-24 on H.B. No. 1800

The purpose of this measure is to appropriate supplemental funds for the operating costs of the Executive Branch for the fiscal biennium beginning on July 1, 2023, and ending on June 30, 2025.

The biennium budget was enacted in June 2023 as Act 164, Session Laws of Hawaii 2023. A short time later and after the Legislature's Regular Session of 2023 had adjourned, Lahaina and Upcountry Maui experienced devastating wildfires and burned.

The State's financial commitment to wildfire recovery has been substantial in both services and supports that may be reimbursable by the Federal Emergency Management Agency. However, the constitutional responsibility and power to appropriate funds rests solely with the Legislature. As such, your Committee on Conference remains resolute in providing for wildfire survivors and maintaining core services and operations statewide in areas like public education, healthcare, and natural resource protection.

Fully determining the State's exposure to wildfire-related expenses remains an extremely challenging task. This challenge has been compounded by the resolution of hazard pay commitments the State must provide for dedicated public employees who provided continuous critical services during the COVID-19 pandemic.

Additionally, during disasters like the Maui wildfires, the federal government often assists states in mitigating recovery costs. Reimbursements, however, are almost never immediate, and it may take several years for the State to receive these funds.

Communication, coordination, and cooperation among all branches of government will be needed in the coming days, months, and years to develop and implement solutions for survivors. Preserving, maintaining, and enhancing fundamental services are priorities of this budget.

Your Committee on Conference has approved a Conference Draft of the Executive budget that appropriates \$19,023,831,466 in all funds, inclusive of \$10,733,671,097 in general funds, for fiscal year 2023-2024 and \$19,209,528,184 in all funds, inclusive of \$10,395,945,997 in general funds, for fiscal year 2024-2025.

Conf. Com. Rep. 9-24 on H.B. No. 2315

The purpose of this measure is to amend the laws regarding condominium association voting and meetings by:

- (1) Repealing the provisions governing the use of an electronic voting device and references to machine voting at association meetings; and
- (2) Clarifying the procedures for electronic meetings, electronic voting, and mail voting.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2315, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2315, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 10-24 on S.B. No. 2693

The purpose of this measure is to:

- (1) Establish the offense of charitable fraud during a state of emergency; and
- (2) Provide that a person commits charitable fraud during a state of emergency if that person, during a state of emergency proclaimed by the Governor, performs certain deceptive acts or practices in connection with the solicitation of a contribution to assist persons affected by a disaster or emergency.

Your Committee on Conference finds that natural disasters present an opportunity for persons to fraudulently solicit contributions for disaster relief victims during a state of emergency declared by the Governor. Your Committee on Conference believes that this measure will provide the State with avenues to prosecute persons engaging in charitable fraud and theft in the aftermath of an emergency.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2693, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2693, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 11-24 on S.B. No. 3037

The purpose of this measure is to allow the prosecution of persons who provide pornographic materials to undercover law enforcement officers who represent themselves as minors for the purposes of undercover operations.

Your Committee on Conference finds that the Hawaii Internet Crimes Against Children Task Force, run by the Department of the Attorney General, in collaboration with various federal and county law enforcement agencies, regularly conducts undercover operations where undercover law enforcement officers pose as minors on the Internet to identify, locate, arrest, and prosecute offenders who solicit minors to engage in sexual activities. However, existing law only allows for prosecution if the pornographic material is sent to an actual minor. This measure will enhance law enforcement's efforts to combat crimes against children by allowing prosecution of those who disseminate pornographic materials to undercover law enforcement officers who pose as minors.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3037, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3037, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 12-24 on S.B. No. 2845

The purpose of this measure is to prohibit:

- (1) A person from selling ammunition to a person under the age of twenty-one; and
- (2) A person under the age of twenty-one from owning, possessing, or controlling ammunition, with exceptions.

Your Committee on Conference finds that setting a minimum age requirement to purchase, own, or possess ammunition that conforms to the existing minimum age requirement to purchase, own, or possess a firearm in the State will help to ensure the safety of residents and reduce incidents of gun violence in the State. Accordingly, this measure will improve public safety and conform the State's laws regulating ammunition with the State's existing firearm laws.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2845, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2845, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 13-24 on S.B. No. 2927

The purpose of this measure is to propose amendments to the Hawaii State Constitution to make the appointment and Senate consent procedure for District Court judges the same as those for Supreme Court justices and Intermediate Court of Appeals and Circuit Court judges.

Your Committee on Conference finds that the existing Senate confirmation process for judicial appointments differs if the appointment is made by the Governor or the Chief Justice. Additionally, due to the Legislature being a part-time legislature, the Senate must convene special sessions throughout the year for the sole purpose of consenting to District Court appointments. This measure will reduce confusion, promote government efficiency, and provide clarity for the judicial appointment process by making the Senate confirmation process for judicial appointments the same, regardless of whether the appointment is made by the Governor or the Chief Justice.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon compliance with article XVII, section 3, of the Hawaii State Constitution; and

(2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2927, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2927, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 14-24 on S.B. No. 3034

The purpose of this measure is to explicitly categorize defenses to penal liability based on intoxication that is not self-induced or is pathological as affirmative defenses.

Your Committee on Conference finds that existing law allows criminal defendants to raise intoxication defenses during the trial, which leaves the prosecution at severe disadvantage due to the prosecution lacking sufficient time to investigate these claims. This measure will shift the initial burden of proof regarding these defenses to the defendant, thereby allowing the prosecution to fully vet the legitimacy of the defense and possible lack of supportive evidence while still requiring a defendant be found not guilty, should the prosecution be unable to meet its burden of proof.

Your Committee on Conference has amended this measure by:

(1) Including a sunset date of July 1, 2034;

(2) Making it effective upon its approval; and

(3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3034, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3034, H.D. 1, C.D. 1.

Conf. Com. Rep. 15-24 on S.B. No. 3033

The purpose of this measure is to align the criminal offense of tampering with physical evidence with the wording of the Model Penal Code for tampering with or fabricating physical evidence.

Your Committee on Conference finds that existing law omits several phrases from the corresponding offense in the Model Penal Code that are needed to comprehensively combat physical evidence offenses. Tampering with physical evidence can take many forms beyond what is provided in existing law, and your Committee on Conference believes that the Model Penal Code wording for the corresponding offense encompasses those forms. This measure will increase the probability that evidence will be accurate and credible by increasing the scope of when tampering with physical evidence is an offense and making the fabrication of physical evidence an offense.

Your Committee on Conference has amended this measure by:

(1) Making it effective upon its approval; and

(2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3033, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3033, H.D. 1, C.D. 1.

Conf. Com. Rep. 16-24 on S.B. No. 2347

The purpose of this measure is to establish the offense of habitual violent crime.

Your Committee on Conference finds that most violent crimes are committed by a small number of repeat offenders. Despite this, many repeat offenders face minimal consequences for their repeated acts of violence. This measure will deter violent crime in local communities while ensuring that repeat offenders are held accountable for their acts of violence.

Your Committee on Conference has amended this measure by:

- (1) Including a sunset date of June 30, 2027;
- (2) Making it effective upon its approval; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. Conf. Com. Rep. 17-24 on S.B. No. 2333

The purpose of this measure is to authorize the Chief Election Officer to use accurate copies of paper ballots, rather than the originals, when conducting a precinct audit of an electronic voting system's tally.

Your Committee on Conference finds that existing law requires the Chief Election Officer, as a condition of using an electronic tally of ballots created by an electronic voting system, to conduct a random audit of the vote counts in ten percent of the precincts where an electronic voting system was used. This measure will improve the efficiency of the required audits by clarifying and updating the conduct of the audits used with modernized voting equipment and technology for elections by mail.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. Conf. Com. Rep. 18-24 on S.B. No. 2217

The purpose of this measure is to increase uniformity, efficiency, and effectiveness in the administration and enforcement of the State Ethics Code and lobbyists law by:

- (1) Establishing a phased process for adjusting the reporting period for gift disclosures filed with the State Ethics Commission to conform with the state fiscal year; and
- (2) Providing for the electronic filing of statements required by the State Ethics Commission.

Your Committee on Conference finds that although the state fiscal year begins on July 1, existing law requires legislators and employees to submit a gifts disclosure statement with the State Ethics Commission no later than June 30 of each year, covering a period from June 1 of the preceding calendar year through May 31 of the year of the report. This measure will align the gift reporting requirement with the state fiscal year to promote conformity and efficiency and reduce confusion regarding the administration and enforcement of the State Ethics Code and state lobbyists law.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. Conf. Com. Rep. 19-24 on S.B. No. 2197

The purpose of this measure is to amend the definition of "advance gambling activity" to repeal language that included making no effort to prevent the occurrence or continuation of gambling activity.

Your Committee on Conference finds that existing law only requires the owner of a property to make an effort to stop illegal gambling from occurring on the property, which results in many owners taking minimal effort to evict tenants who conduct illegal operations, despite the owners receiving notice from law

enforcement that illegal activity is occurring on their property. This measure will improve public safety by holding property owners accountable if they allow illegal gambling establishments to continue to operate on their property.

Your Committee on Conference has amended this measure by:

- (1) Including a sunset date of July 1, 2029; and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. Conf. Com. Rep. 20-24 on S.B. No. 2193

The purpose of this measure is to amend the offense of use of a computer in the commission of a separate crime to include violation of privacy in the first and second degrees.

Your Committee on Conference finds that including the offenses of violation of privacy in the first and second degrees under the offense of use of a computer in the commission of a separate crime will strengthen penalties against violators for conducting this type of illegal behavior. This measure will strengthen law enforcement's ability to combat these types of computer crimes, provide an additional tool for prosecutors, and serve as a deterrent to prevent these types of crimes from occurring.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2193, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2193, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 21-24 on S.B. No. 2216

The purpose of this measure is to clarify and modernize the way the State Ethics Commission provides advice and conducts investigations.

Your Committee on Conference finds that a key component of a proactive ethical framework is the ability for the State Ethics Commission to provide timely advice. Additionally, your Committee on Conference believes that modernizing the investigative process in statute will help to provide clarity and reduce the potential for misreading the process. This measure will therefore address the need for clarity in the advice-seeking process by providing public officials with a confidential and secure mechanism to request advice and make necessary house-keeping amendments to modernize the investigative process.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2216, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2216, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 22-24 on S.B. No. 3123

The purpose of this measure is to:

- (1) Authorize the Department of Hawaiian Home Lands to access vital records for purposes of verifying Native Hawaiian ancestry for beneficiary programs; and
- (2) Require the Department of Health and the Department of Hawaiian Home Lands to enter into a Memorandum of Agreement to assure appropriate access and handling of confidential records and sealed records that have been unsealed pursuant to court order.

Your Committee on Conference finds that Department of Hawaiian Home Lands staff currently requests genealogical research services for claimants of native Hawaiian beneficiary status on an individual basis. Your Committee on Conference further finds that authorizing the Department of Hawaiian Home Lands staff to work alongside Department of Health staff would greatly accelerate the process. This measure will therefore ease the administrative burden on

Department of Hawaiian Home Lands staff conducting genealogical research to determine eligibility for certain programs, including Hawaiian Home Lands homestead leases.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3123, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3123, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 23-24 on H.B. No. 2478

The purpose of this measure is to authorize the Governor to execute a compact on behalf of the State to cooperate in the Pacific States Marine Fisheries Commission.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that at least one commissioner of the Pacific States Marine Fisheries Commission representing Hawaii must be a practitioner of and expert in traditional and customary native Hawaiian cultural fishing practices and must serve as a representative of such on the Commission;
- (2) Changing the effective date to upon its approval; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. Conf. Com. Rep. 24-24 on S.B. No. 3154

The purpose of this measure is to clarify that failure to comply with approved mitigation commitments, conduct an archaeological survey, or comply with other administrative requirements pertaining to archaeology approved by the Department of Land and Natural Resources shall result in civil and administrative violations.

Your Committee on Conference finds that stronger enforcement mechanisms are needed to protect cultural and historical sites from irresponsible archaeology and development practices. This measure will allow the State Historic Preservation Division to regulate archaeological activities more effectively by authorizing the State Historic Preservation Division to pursue assessments of administrative violations.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3154, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3154, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 25-24 on S.B. No. 3011

The purpose of this measure is to:

- (1) Make it unlawful for any person to operate a weed whacker in or within one hundred feet of a residential zone, subject to certain exceptions;
- (2) Extend the time for the use of leaf blowers and weed whackers within or near residential zones;
- (3) Provide exceptions for government entities and agents acting on behalf of government entities during emergencies; and
- (4) Define weed whacker.

Your Committee on Conference finds that weed whackers emit an excessive amount of noise, which is not only a disturbance for residents and communities, but also a public health concern for the State, and has the potential to cause permanent hearing damage. This measure restricts the usage of weed whackers to certain times of the day to alleviate sound nuisances and safeguard public health.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3011, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3011, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 26-24 on S.B. No. 3236

The purpose of this measure is to clarify that if no personal property designation appears in a recorded instrument relating to the Land Trust Act, the interests of the beneficiaries shall be real property.

Your Committee on Conference finds that to fulfil its mission to fully support self-sufficiency for native Hawaiians by providing the opportunity for homestead leases and homeownership, the Department of Hawaiian Home Lands has been creating the opportunity for lower-income native Hawaiians on the Department's waiting list to access Hawaii Housing Finance and Development Corporation funding through the Low-Income Housing Tax Credit program. However, if a "renter" accessing funding this way dies before a fifteen-year compliance period is finished and their intended successor is less than fifty percent native Hawaiian, the unit cannot be transferred to their intended successor and the intended successor receives nothing. This measure will address this problem by clarifying that the beneficiary interest under these types of land trusts are real property, rather than personal property.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3236, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3236, H.D. 1, C.D. 1.

Conf. Com. Rep. 27-24 on S.B. No. 2529

The purpose of this measure is to amend the definition of "patient's provider" in State law governing Provider Orders for Life-Sustaining Treatment by removing language that requires the provider to examine the patient.

Your Committee on Conference finds that one of the most important documents for patients with a serious illness is a Provider Orders for Life-Sustaining Treatment (POLST) form, a portable medical order that documents a patient's care plan outside the hospital and specifies the patient's wishes and directions to health care providers regarding the provision of resuscitative and life-sustaining measures. Your Committee on Conference further finds that language in existing law, which can be interpreted as requiring health care providers to meet with the patient face-to-face before signing the POLST, impedes patients from obtaining POLST in a timely manner, thereby exposing the sickest and most vulnerable patients to the risk of receiving unwanted and unnecessary care. This measure will aid patients in creating or updating POLST documentation by removing lengthy and inefficient requirements.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2529, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2529, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 28-24 on S.B. No. 2960

The purpose of this measure is to:

- (1) Clarify that agricultural lots shall be used for farming by requiring that purchasers and lessees of farm lots submit proof of using the lots to produce food or conduct other agricultural activities; and
- (2) Authorize certain agricultural cooperative associations to apply for farm lots.

Your Committee on Conference finds that wealthy individuals have purchased large parcels of land on which to live and pursue farming as a hobby rather than as a livelihood. The Hawaii State Constitution obligates the State to conserve and protect agricultural lands. This measure will ensure that lessees and purchasers of farm lots and ranch lots use that land primarily for farming and producing food.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2960, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2960, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 29-24 on S.B. No. 2715

The purpose of this measure is to make it unlawful for an employer to discharge, discipline, or otherwise penalize or threaten any adverse employment action against an employee because the employee declines to attend or participate in an employer-sponsored meeting that communicates the opinion of the employer about political matters, or declines to receive or listen to a communication from the employer that communicates the opinion of the employer about political matters.

Your Committee on Conference finds that some employers use "captive audience meetings", where employee attendance is mandatory or de facto mandatory, to disseminate employer's political views that have little or no relevance to the workplace or the employees' work duties and penalize employees who refuse to attend. Your Committee on Conference further finds that participation in these meetings should be voluntary however, protection for employees who refuse to attend is limited under existing law. This measure establishes legal protections for employees who choose not to participate in these meetings.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2715, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2715, S.D. 1, H.D. 2, C.D. 1.

Conf. Com. Rep. 30-24 on S.B. No. 2718

The purpose of this measure is to allow the Hawaii Labor Relations Board to admit and consider hearsay evidence.

Your Committee of Conference finds that existing law is contradictory with regards to whether the Hawaii Labor Relations Board, a quasi-judicial administrative agency, is permitted to admit and consider hearsay evidence in its proceedings. Specifically, despite there being a myriad of exceptions in the Hawaii Rules of Evidence that allow certain types of hearsay evidence to be admissible in any other court or administrative proceeding under a hearsay exception and the general principle that administrative proceedings are more flexible than judicial proceedings and therefore should not be bound by the Rules of Evidence, existing law explicitly prohibits the Hawaii Labor Relations Board from admitting or considering hearsay evidence in its unfair labor practices proceedings. This measure allows the Hawaii Labor Relations Board to admit and consider hearsay evidence in its unfair labor practices proceedings, placing them in line with proceedings before other administrative boards and commissions.

Your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of July 1, 2024; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2718, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2718, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 31-24 on S.B. No. 2119

The purpose of this measure is to authorize out-of-state pharmacies to transfer prescription information for the initial fill of an out-of-state prescription in the State.

Your Committee on Conference finds that it is common for an out-of-state patient to require an acute medication while visiting the State. Your Committee on Conference further finds that because state law does not explicitly permit out-of-state pharmacies to transfer prescription information to in-state pharmacies for dispensing an initial prescription fill, local pharmacists must contact out-of-state practitioners for a verbal order, resulting in workflow redundancy and

treatment delays for out-of-state patients. This measure will allow out-of-state patients in the State to receive the initial filling of their prescription medication in a timely manner.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. Conf. Com. Rep. 32-24 on S.B. No. 2557

The purpose of this measure is to allow the court to appoint an attorney for the subject of a petition for assisted community treatment, rather than entitling an indigent subject of a petition for assisted community treatment to representation by a public defender.

Your Committee on Conference finds that guardians ad litem act in the best interests of persons who are the subject of a petition for assisted community treatment and protect them throughout the petition process. Your Committee on Conference further finds that representation by a public defender is typically not necessary in these cases due to the person not facing the risk of detention, and representation by a public defender may also result in the person's treatment being delayed. This measure will preserve government resources and ensure that the treatment of a person who requires assisted community treatment does not suffer from unnecessary delays.

Your Committee on Conference respectfully requests that the Judiciary report to the Legislature on the use of appointed counsel in assisted community treatment (ACT) cases, including how often they appoint counsel for the subject of an ACT petition, the reasons for the appointments, when in the process appointments are made, the cost per appointment, and an estimate for future funding to support appointed counsel.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2557, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2557, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 33-24 on S.B. No. 2476

The purpose of this measure is to authorize licensed dental hygienists to perform preventive dental sealant screenings and apply dental sealants on individuals, under certain conditions, in a school-based oral health program.

Your Committee on Conference finds that dental sealants, a protective layer coating the chewing surface of molars, play a significant role in the oral health and development of children by helping to prevent tooth decay. Providing dental sealants through school-based oral health programs will serve as a proactive approach to expand and improve access to oral health care for Hawaii's keiki.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. Conf. Com. Rep. 34-24 on S.B. No. 3365

The purpose of this measure is to:

- (1) Require the Department of Agriculture to certify treatments performed in the State on plant care components; and

- (2) Place certain restrictions on the distribution or transportation of plant care components without prior treatment certification from the Department of Agriculture.

Your Committee on Conference finds that pests and other invasive species can enter and spread throughout the State by infesting plant care components, such as wood chips and filter socks. Your Committee on Conference further finds that properly treating plant care components before they are distributed or transported within and from the State will help prevent the introduction and spread of these invasive species. This measure provides the Department of Agriculture with another method to further protect the agricultural industry and delicate ecosystems of the State from pests and other invasive species.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. Conf. Com. Rep. 35-24 on S.B. No. 2066

The purpose of this measure is to establish another means for a housing project to seek an exemption from certain laws and rules, including those relating to planning, zoning, and construction, that are developed under the various programs of the Hawaii Housing Finance and Development Corporation.

Your Committee on Conference finds that Hawaii is facing a critical housing shortage, particularly for Hawaii residents who are seeking a permanent home for their families, rather than trying to acquire real estate for investment or speculative purposes. Existing regulatory barriers can also slow down the production of the additional housing units that are so urgently needed. Therefore, this measure will allow for an alternative pathway for housing projects to expedite the regulatory process to increase affordable housing units in Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the housing projects developed under the alternative pathway shall not impose stricter income requirements than those adopted or established by the State;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2066, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2066, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 36-24 on S.B. No. 2721

The purpose of this measure is to clarify that criminal penalties are authorized for certain violations of ocean recreation laws.

Your Committee on Conference finds that stricter penalties are needed to deter illegal activity at small boat harbors and boating facilities, which are some of the most heavily trafficked facilities in the State. However, the provisions of section 200-14, Hawaii Revised Statutes, are unclear as to whether criminal penalties are authorized for violations, hindering enforcement efforts. This measure will deter illegal activity at small boat harbors by clarifying and imposing stricter penalties.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the Department of Land and Natural Resources may adopt rules relating to boating accidents;
- (2) Restoring language imposing penalties on any individual who violates any provision of chapter 200, Hawaii Revised Statutes, or any rule adopted by the Department of Land and Natural Resources;
- (3) Restoring language that authorizes the Department of Land and Natural Resources to impose administrative fines and penalties for water pollution violations;
- (4) Clarifying that administrative fines shall apply to all violations of chapter 200, chapter 200A, and chapter 200D, Hawaii Revised Statutes;
- (5) Making it effective upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. Conf. Com. Rep. 37-24 on S.B. No. 795

The purpose of this measure is to:

- (1) Require productions to provide evidence of reasonable efforts to comply with all applicable requirements to qualify for the Motion Picture, Digital Media, and Film Production Income Tax Credit; and
- (2) Require taxpayers be given notice of and an opportunity to cure requirements for the Motion Picture, Digital Media, and Film Production Income Tax Credit within thirty days of receiving the notice.

Your Committee on Conference finds that the Motion Picture, Digital Media, and Film Production Income Tax Credit program has resulted in a thriving film and digital media industry that has broadened the State's tax base and helped to strengthen the State's economy. Recent amendments to the program, however, could have the effect of disqualifying a production from all available tax credits due to one or a few minor issues with its compliance requirements. This measure will help continue to create high-paying jobs and allow the State to remain a successful production center in the Pacific by ensuring that productions will not be at risk of being found non-compliant with the tax credit requirements over minor technical issues and provide taxpayers an opportunity to cure compliance issues, should they arise.

Your Committee on Conference has amended this measure by inserting an effective date of January 1, 2025.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 795, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 795, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 39-24 on H.B. No. 2482

The purpose of this measure is to:

- (1) Require the Office of the Lieutenant Governor or the appropriate county clerk's office to ensure access to paper or electronic copies of all meeting notices and repeal the requirement to post notices in a central location in a public building; and
- (2) Repeal statutory language providing that cancellation of a meeting is not required for failure of a board to file a copy of the meeting notice with the Office of the Lieutenant Governor or the appropriate county clerk's offices and retain a copy of proof of filing the notice, or failure of the Office of the Lieutenant Governor or county clerk's offices to provide paper or electronic copies of all meeting notices.

Your Committee on Conference has amended this measure by:

- (1) Reverting to a portion of the existing statutory language to prevent the cancellation of a meeting for failure of a board to file a copy of the meeting notice with the Office of the Lieutenant Governor or the appropriate county clerk's offices and retain a copy of proof of filing the notice, or failure of the Office of the Lieutenant Governor or county clerk's offices to ensure access to paper or electronic copies of all meeting notices; and

Conf. Com. Rep. 41-24 on H.B. No. 2193

The purpose of this measure is to amend the State's Fireworks Control Law to:

- (1) Authorize officers having police powers and every county fire department officer to enter and inspect the premises of a licensee or permittee for compliance with the Fireworks Control Law, and establish penalties for hindering an officer;
- (2) Establish procedures to authorize the Department of Law Enforcement to conduct administrative inspections of controlled premises;
- (3) Require licensees and permittees who hold, store, transport, sell, possess, or otherwise dispose of fireworks or articles pyrotechnic to keep records and maintain inventories;
- (4) Require licensees and permittees to report to the Director of Law Enforcement and appropriate county fire chief if they have reason to believe that fireworks or articles pyrotechnic were stolen, embezzled, or otherwise obtained by fraud or diversion;
- (5) Authorize law enforcement agencies and county fire departments to safely dispose of confiscated fireworks and articles pyrotechnic;
- (6) Require violators to be held liable for storage and disposal costs;
- (7) Specify that each type of prohibited firework constitutes a separate violation; and
- (8) Authorize the Department of Law Enforcement, in addition to the counties, to enforce the Fireworks Control Law.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2024; and

Conf. Com. Rep. 44-24 on H.B. No. 2090

The purpose of this measure is to:

- (1) Beginning January 1, 2025, permit residential uses in areas zoned for commercial use, under certain circumstances; and
- (2) Require, no later than January 1, 2025, each county to adopt or amend its ordinances to allow for adaptive reuse of existing commercial buildings in the county's building code.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that multifamily uses are considered residential uses for purposes of this measure;
- (2) Specifying that adaptive reuse of existing commercial buildings shall be allowed until each county adopts or amends its ordinances accordingly;
- (3) Clarifying that the application of each adaptive reuse ordinance, rather than each adaptive reuse building code ordinance, is notwithstanding any law, ordinance, or code or standard to the contrary;
- (4) Clarifying requirements for adaptive reuse ordinances, including:
 - (A) Prohibiting the counties from requiring a micro unit to be larger than minimum standards established in the International Building Code, rather than setting a minimum standard of two hundred square feet; and
 - (B) Providing for an exemption to any off-street parking requirements if the existing off-street parking satisfies at least fifty percent of a county's parking requirements, but specifying that a county is not precluded from exempting an adaptive reuse project from all off-street parking requirements;
- (5) Changing the effective date to upon approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Conf. Com. Rep. 48-24 on H.B. No. 2298

The purpose of this measure is to:

- (1) Make it a violation to use a Hawaii geographic origin in labeling or advertising for roasted coffee, instant coffee, or ready-to-drink coffee beverages that contain less than a certain percentage of coffee by weight from that Hawaii geographic origin, phased in to a minimum of one hundred percent by July 1, 2027; and
- (2) Exempt retailers that do not package roasted coffee, instant coffee, or ready-to-drink coffee beverages from liability for the sale of roasted coffee, instant coffee, or ready-to-drink coffee beverages that use a label or advertisement in violation of the coffee labeling law.

Your Committee on Conference has amended this measure by:

- (1) Deleting the timeline that phased in the minimum percentage of coffee by weight from a Hawaii geographic origin to a minimum of one hundred percent by July 1, 2027;

- (2) Continuing the existing statutory minimum of ten percent of coffee by weight through June 30, 2027, and, beginning July 1, 2027, increasing the minimum percentage to fifty-one percent of coffee by weight when using a Hawaii geographic origin in labeling or advertising for roasted coffee, instant coffee, or ready-to-drink coffee beverages;

Conf. Com. Rep. 53-24 on H.B. No. 2278

The purpose of the measure is to:

- (1) Expand the labeling requirements for macadamia nuts to labels on a consumer package that represent the origin of the raw or processed macadamia nuts as being from any place within the State, including through the company name or the use of images of the State;
- (2) Require a listing of the countries of origin of the portion of the processed macadamia nuts not grown in Hawaii that are included in the package to also be shown on the label; and
- (3) Establish a private right of action for private persons injured by a violation of the labeling requirements for macadamia nuts.

Your Committee on Conference has amended this measure by:

- (1) Inserting a preamble;
- (2) Deleting language expanding the labeling requirements to labels on a consumer package that represent the origin of the raw or processed macadamia nuts as being from any place within the State, including through the company name or the use of images of the State;
- (3) Repealing statutory language requiring the disclosure of the percentage of macadamia nuts grown in the State if a label contains language that a portion of raw or processed macadamia nuts in the package was grown in the State;
- (4) Requiring a disclosure statement if a product contains raw or processed macadamia nuts grown outside of the State;
- (5) Deleting language establishing a private right of action;
- (6) Exempting products that contain any other ingredient, except seasonings and flavorings, in addition to macadamia nuts from the labeling requirements;
- (7) Changing the effective date to January 1, 2026; and

Conf. Com. Rep. 58-24 on S.B. No. 2687

The purpose of this measure is to:

- (1) Prohibit a person from distributing, or entering into an agreement with another person to distribute, materially deceptive media during certain months of election years, with exceptions;
- (2) Establish criminal penalties for distributing materially deceptive media; and
- (3) Establish remedies for parties injured by the distribution of materially deceptive media.

Your Committee on Conference finds that the potential for deceptive media to be used during election years to manipulate public opinion, spread misinformation, and undermine the foundation of the State's democracy is cause for grave concern. Your Committee on Conference believes that preserving the authenticity of political discourse is essential to a fair and informed electorate. This measure will ensure that the State's elections remain free from the harmful influence of deceptive media.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that, subject to certain exceptions, a person is prohibited from recklessly distributing, or entering into an agreement with another person to distribute, materially deceptive media;
- (2) Clarifying that the exceptions to the prohibition against the distribution of, or entering into an agreement with another person to distribute, materially deceptive media apply to:
 - (A) A broadcaster, cable operator, or direct-to-home satellite provider unless it was involved in the creation of the materially deceptive media; or
 - (B) An interactive computer service, cloud service provider, or streaming service for content provided by another person or a developer or provider of any technology used in the creation of materially deceptive media, unless the interactive computer service, cloud service provider, or streaming service has knowledge that the content is deceptive and intends to deceive a resident of the State;
- (3) Defining the terms "cloud service provider", "direct-to-home satellite provider", and "interactive computer service";
- (4) Amending section 1 to reflect its amended purpose;
- (5) Making it effective upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2687, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2687, S.D. 1, H.D. 2, C.D. 1.

Conf. Com. Rep. 59-24 on S.B. No. 3192

The purpose of this measure is to make permanent the Innovation and Commercialization Initiative Program established within the University of Hawaii.

Your Committee on Conference finds that the commercialization of viable research activities conducted at the University of Hawaii plays a critical role in the diversification of the State's economy. This measure continues critical support for research activities at the University of Hawaii to remain competitive as a leader in economic development and workforce innovation.

Your Committee on Conference has amended this measure by inserting an effective date of June 29, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. Conf. Com. Rep. 60-24 on S.B. No. 3191

The purpose of this measure is to permanently authorize the University of Hawaii to continue to regulate conflicts of interest and other ethical issues for technology transfer activities sponsored by the University of Hawaii.

Your Committee on Conference finds that Act 38, Session Laws of Hawaii 2017, established that technology transfer activities sponsored by the University of Hawaii shall be exempt from certain requirements of the State Ethics Code. This exemption is scheduled to repeal on June 20, 2024. The University of Hawaii has adopted policies and procedures to ensure compliance with ethical standards and to avoid conflicts of interest. Accordingly, this measure allows the University of Hawaii to continue to serve as a leader in innovation and economic development by permanently authorizing the University of Hawaii to continue to operate technology transfer activities under its existing requirements.

Your Committee on Conference has amended this measure by inserting an effective date of June 29, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. Conf. Com. Rep. 61-24 on S.B. No. 2182

The purpose of this measure is to:

- (1) Amend the persons required to collect the Ocean Stewardship User Fee; and
- (2) Extend the sunset date of the Ocean Stewardship Special Fund to January 1, 2031.

Your Committee on Conference finds that the Ocean Stewardship User Fund provides the Department of Land and Natural Resources with moneys to conserve, restore, enhance, and manage ocean resources for the benefit of residents, visitors, and local businesses. This measure will extend the sunset date of the Ocean Stewardship Special Fund to ensure that the Department of Land and Natural Resources continues to protect and preserve the State's nearshore environment.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2182, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2182, H.D. 1, C.D. 1.

Conf. Com. Rep. 62-24 on S.B. No. 2532

The purpose of this measure is to:

- (1) Clarify that the definition of "dwelling", as it relates to offenses against property rights, includes multi-unit buildings and connected parking or storage areas that are restricted to residents; and
- (2) Allow the owner of a multi-unit building, an owner of an individual unit, a property manager, or an authorized representative of the condominium association to act as a complainant for the purpose of investigating and prosecuting an offense of burglary in the first degree in a multi-unit building.

Your Committee on Conference finds that certain individuals, who are neither residents nor guests of a multi-unit dwelling, have increasingly burglarized the secured areas of multi-unit dwellings, which include secured parking and storage areas. However, the investigation and prosecution of these crimes can be complicated due to the limited definition of "dwelling" under the existing law. Therefore, this measure clarifies that the areas in multi-unit buildings that are restricted to residents, such as parking and storage areas within apartment buildings and condominiums, are part of the overall dwelling to ensure that theft in these areas are properly investigated and prosecuted as burglaries.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2532, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2532, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 63-24 on S.B. No. 2834

The purpose of this measure is to amend the Residential Landlord-Tenant Code to provide for a process to dispose of the tenant's personal property and surrender the dwelling unit to a landlord when there is a death of a tenant.

Your Committee on Conference finds that, under existing law, there is no explicit guidance for a landlord on how to retake possession of a dwelling unit in the event of a tenant's death. Consequently, landlords have been required to navigate, using their best judgment, the delicate and complex process of reconciling any unpaid rent, handling questions concerning the status of the security deposit, and disposing of the deceased tenant's personal property and belongings from the premises. Your Committee on Conference finds that by establishing a formal statutory process for landlords to resolve matters involving a deceased tenant or tenants, this measure will provide for a more orderly transition and improve outcomes for all parties involved.

Your Committee on Conference has amended this measure by inserting an effective date of November 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2834, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2834, S.D. 1, H.D. 2, C.D. 1.

Conf. Com. Rep. 64-24 on S.B. No. 2600

The purpose of this measure is to authorize the use of electronic mail to deliver certain documents when purchasing a condominium.

Your Committee on Conference finds that electronic mail is a fast, convenient, and reliable method of sending and receiving documents, including documents relating to a condominium purchase. However, under existing law, certain disclosure documents required to be provided by condominium project developers to prospective purchasers must be delivered by either personal delivery, registered or certified mail, facsimile transmission, or any other way prescribed by the Real Estate Commission. Therefore, this measure modernizes existing law and provides purchasers with an efficient digital means to receive, keep, and access their condominium documents.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2600, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2600, H.D. 1, C.D. 1.

Conf. Com. Rep. 65-24 on S.B. No. 2575

The purpose of this measure is to prohibit the:

- (1) Mining, extraction, and removal of minerals from the seabed in all state marine waters, with certain exemptions; and
- (2) Issuance of any permit for or in connection with the development or operation of any facility or infrastructure associated with the mining, extraction, or removal of minerals from the seabed within state marine waters.

Your Committee on Conference finds that seabed mining and related activities threaten not only the State's rich and biodiverse marine ecosystems, but also ocean-dependent industries, such as commercial and recreational fishing and tourism. Your Committee on Conference therefore finds that seabed mining is inconsistent with the State's obligation to protect its waters under the Hawaii State Constitution and the public interest. This measure ensures the protection and preservation of state marine waters by prohibiting seabed mining and the extraction and removal of minerals from the seabeds in all state marine waters.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2575, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2575, H.D. 1, C.D. 1.

Conf. Com. Rep. 66-24 on S.B. No. 2657

The purpose of this measure is to amend the date of Makahiki Commemoration Day.

Your Committee on Conference finds that Makahiki season is the ancient Hawaiian New Year festival that honors the god Lono. As Makahiki season spans four consecutive months, designating a specific date in the Gregorian calendar should align with one of the kapu Hua days of Mōhala, Hua, or Akua of the lunar month of 'Ikuu. Therefore, this measure aligns the commemoration of Makahiki based on the traditional Hawaiian lunar calendar.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2657, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2657, S.D. 1, H.D. 2, C.D. 1.

Conf. Com. Rep. 67-24 on S.B. No. 2819

The purpose of this measure is to require vehicles traveling ten miles per hour or more below the posted speed limit on a two-lane highway, behind which five vehicles are formed in a line, to pull over where possible to let the trailing vehicles proceed when passing is safe.

Your Committee on Conference finds that traffic safety and congestion has been a key frustration for residents in the State. Your Committee on Conference believes that this measure will prevent collisions, improve operational efficiency, and minimize road rage statewide by requiring slow-moving vehicles to safely pull over to allow vehicles to pass safely.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2819, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2819, S.D. 1, H.D. 2, C.D. 1.

Conf. Com. Rep. 68-24 on S.B. No. 2350

The purpose of this measure is to:

- (1) Establish a separate prohibition on driving motor vehicles with noisy mufflers on public highways in high density population areas;
- (2) Establish separate fines for violations of motor scooter and motor vehicle muffler laws; and
- (3) Define "high density population areas".

Your Committee on Conference finds that while existing law prohibits vehicle owners from installing mufflers that increase the noise of their vehicle, the penalties are too minimal to deter violations. Your Committee on Conference further finds that establishing more stringent laws regarding motor vehicle and motor scooter mufflers will reduce noise, improve public health and safety, and allow residents and visitors in the State to enjoy peace and a higher quality of life.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2350, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2350, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 69-24 on S.B. No. 3312

The purpose of this measure is to:

- (1) Adopt, establish, and designate the shaka as the official gesture of the State; and
- (2) Authorize the State Foundation on Culture and the Arts to develop a public work of art related to the shaka and its history to be displayed in a prominent location in the State.

Your Committee on Conference finds that the shaka is a key brand symbol for the State, offering influential power to build the State's economy, global brand, and resident pride. Accordingly, this measure will recognize the shaka symbol as the official gesture of the State.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3312, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3312, S.D. 1, H.D. 2, C.D. 1.

Conf. Com. Rep. 70-24 on S.B. No. 2753

The purpose of this measure is to:

- (1) Clarify that no state or county building code shall prohibit the use of a substitute refrigerant allowed by the United States Environmental Protection Agency if the applicable equipment is listed and installed in compliance with the latest safety standards; and
- (2) Require the State Building Code Council to establish codes and standards that are consistent with the goal of reducing greenhouse gas emissions associated with hydrofluorocarbons and not in conflict with federal law when it adopts, amends, or updates the Hawaii State Building Codes.

Your Committee on Conference finds that the American Innovation and Manufacturing Act of 2020 mandates an eighty-five percent phasedown in hydrofluorocarbon refrigerants nationwide. Your Committee on Conference further finds that updates to the State Building Code are necessary to avoid marketplace disruptions as manufacturers transition to hydrofluorocarbon substitutes. This measure ensures federal compliance under the State Building Code.

Your Committee on Conference also finds that requiring the State Building Code Council, when it adopts, amends, or updates the Hawaii State Building Codes, to establish codes and standards that are consistent with the goal of reducing greenhouse gas emissions associated with hydrofluorocarbons and not in conflict with federal law could create problems insofar as it would require the counties to apply standards which have not yet been adopted by the International Building Code. Realizing the importance of this measure and the two thousand jobs that could be lost if this measure does not pass, your Committee on Conference has chosen to delete this language from this measure despite its noble goals. Your Committee on Conference encourages the counties, who can establish codes and standards that are consistent with the goal of reducing greenhouse gas emissions associated with hydrofluorocarbons and not in conflict with federal law, to pursue this at the county level.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Deleting language that would have required the State Building Code Council to establish codes and standards that are consistent with the goal of reducing greenhouse gas emissions associated with hydrofluorocarbons and not in conflict with federal law when it adopts, amends, or updates the Hawaii State Building Codes;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2753, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2753, H.D. 2, C.D. 1.

Conf. Com. Rep. 71-24 on S.B. No. 2512

The purpose of this measure is to establish notice and reporting requirements for the expenditure or use of public resources by the Governor, pursuant to the Governor's emergency powers.

Your Committee on Conference finds that, in the event of a declared disaster, it is necessary for the Governor to assume certain emergency powers. Your Committee on Conference believes that this measure will ensure the transparency of the Governor's actions during a declared disaster.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2512, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2512, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 72-24 on S.B. No. 2132

The purpose of this measure is to:

- (1) Amend the deadline related to the repair of conditions that constitute health or safety violations; and
- (2) Increase the amount deducted from a tenant's rent for the tenant's actual expenditures to correct health or safety violations and defective conditions.

Your Committee on Conference finds that when a landlord fails to commence repairs after receiving notice of certain health or safety violations or defective conditions on the leased premises, existing law authorizes the tenant to deduct from their rent not more than \$500 as reimbursement for any actual expenditures made to cure the condition. However, this amount is often far below the actual costs and expenses required to cure the condition, forcing tenants, rather than landlords, to pay out of their own pockets to return the property to a habitable condition, which the landlord is required to provide. Your Committee on Conference finds that by increasing the amount that may be deducted from the tenant's rent to not more than \$1,000 or one month's rent, whichever is greater, this measure will encourage the prompt maintenance of the property by landlords and safeguard the well-being of tenants.

Your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of November 1, 2024; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2132, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2132, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 73-24 on S.B. No. 2342

The purpose of this measure is to:

- (1) Amend the penalties for violations of certain traffic laws and required motor vehicle insurance minimums;
- (2) Establish primary and optional coverage requirements for U-drive motor vehicle insurance policies;
- (3) Establish disclosure requirements for U-drive motor vehicle insurance policies;
- (4) Amend the required coverage for shared cars that are made available through a peer-to-peer car-sharing program during the car-sharing period; and
- (5) Require the Insurance Commissioner to solicit rate filings from motor vehicle insurers.

Your Committee on Conference finds that traffic fatalities, injuries, and violations committed by repeat offenders have increased in the State. This measure amends the penalties for repeated driving without motor vehicle liability insurance to deter repeat offenders and increases required motor vehicle insurance minimums to provide greater coverage to drivers.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have amended penalties for repeated traffic violations, reckless driving violations, and excessive speeding violations;
- (2) Increasing penalties for repeatedly driving without motor vehicle liability insurance to \$2,000;
- (3) Clarifying required motor vehicle policy coverage minimums, effective January 1, 2026;
- (4) Deleting all language regarding U-drive motor vehicle insurance policies;
- (5) Deleting language that would have amended the required coverage for shared cars that are made available through a peer-to-peer car-sharing program during the car-sharing period;
- (6) Clarifying the required coverage for shared cars that are made available through a peer-to-peer car-sharing program during the car-sharing period;
- (7) Making conforming amendments;
- (8) Amending section 1 to reflect its amended purpose;
- (9) Inserting an effective date of July 1, 2024; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2342, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2342, S.D. 2, H.D. 3, C.D. 1.

Conf. Com. Rep. 74-24 on S.B. No. 3157

The purpose of this measure is to expand the disposition of public land leases through direct negotiation to include commercial and industrial purposes.

Your Committee on Conference finds that the public auction process used for the disposition of public lands discourages potential lessees. Consequently, properties have remained vacant, generating no income and serving no public benefit, while in some cases incurring significant management costs for the Department of Land and Natural Resources. This measure will facilitate the productive use of public lands by authorizing the disposition of public land leases through direct negotiation for commercial and industrial purposes.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3157, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3157, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 75-24 on S.B. No. 2731

The purpose of this measure is to authorize the issuance of special number plates to honor veterans of the Iraq and Afghanistan wars.

Your Committee on Conference finds that while special number plates are available for combat veterans of certain wars and conflicts, veterans of the wars in Iraq and Afghanistan are not included. Therefore, this measure will create license plates to honor the veterans of the Iraq and Afghanistan conflicts.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2731, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2731, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 76-24 on S.B. No. 2983

The purpose of this measure is to:

- (1) Beginning January 1, 2026, authorize the Department of the Attorney General to regulate charitable fundraising platforms and platform charities;
- (2) Include provisions relating to the misuse of funds; and
- (3) Impose vicarious liability upon a platform charity for a charitable fundraising platform's misuse of funds, and vice versa.

Your Committee on Conference finds that the State needs to improve and expand enforcement of charitable fundraising activities, including regulating charitable fundraising on internet platforms. This measure will ensure the prevention of fraudulent and predatory charitable fundraising behavior.

Your Committee on Conference has amended this measure by:

- (1) Inserting language that requires charitable fundraising platforms and platform charities to be subject to filing an annual report and annual renewal fees;
- (2) Deleting language that would have exempted a charitable fundraising platform or platform charity from certain restrictions on distributing funds if certain agencies do not publish an electronic list of recipient charitable organizations or other charitable organizations in good standing;
- (3) Inserting an effective date of January 1, 2026; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2983, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2983, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 77-24 on S.B. No. 2504

The purpose of this measure is to:

- (1) Repeal part II of Act 66, Session Laws of Hawaii 2023, which requires the Department of Business, Economic Development, and Tourism to work with the University of Hawaii on workforce development activities that support the development of the Hawaii Pacific Hydrogen Hub and related aspects of the State's hydrogen energy industry; and
- (2) Repeal the appropriation to develop the Hawaii Pacific Hydrogen Hub.

Your Committee on Conference finds that part II of Act 66, Session Laws of Hawaii 2023, was enacted to support the State's pursuit of federal funding for the development of a Hawaii Pacific Hydrogen Hub. Your Committee on Conference further finds that although the Hawaii Pacific Hydrogen Hub proposal was not selected, the Hawaii State Energy Office has gained considerable knowledge that could accelerate the future development of green hydrogen use in the State and that two projects included in the proposal are still moving forward. As the State's proposal was not selected, this housekeeping measure repeals part II of Act 66, Session Laws of Hawaii 2023, and the appropriation to develop the Hawaii Pacific Hydrogen Hub, as they are no longer necessary.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2504, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2504, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 78-24 on S.B. No. 2289

The purpose of this measure is to require the Department of Health to include in its annual report regarding Kalaupapa Settlement:

- (1) Details and updated information, as available, regarding the permanent transfer of the powers and duties of the Department and any other state agencies over Kalaupapa Settlement to other qualified governmental or qualified nongovernmental entities; and
- (2) Details of the Department's engagement efforts with community stakeholders.

Your Committee on Conference finds that Kalaupapa, within Kalawao County on the island of Molokai, holds great significance in the State's history, and that under existing law, Kalaupapa Settlement is under the jurisdiction and control of the Department of Health. Your Committee on Conference further finds that as the number of patients residing in Kalaupapa declines and the Department of Health prepares for the eventual transfer of jurisdiction over Kalawao County to another government agency, it is imperative for the Legislature to remain informed and updated regarding plans for the future transfer. This measure will keep the Legislature informed of this important transition by including details and updated information regarding the permanent transfer of Kalaupapa Settlement in the Department of Health's annual report to the Legislature.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have required the immediate addition of certain community organizations to the executive transition team;
- (2) Making it effective upon its approval and inserting a sunset date of the first June 30 after the Revisor of Statutes receives a written gubernatorial proclamation that the transfer of all of the powers and duties of the Department of Health over Kalaupapa Settlement is complete; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2289, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2289, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 79-24 on S.B. No. 2537

The purpose of this measure is to clarify that the Chief Energy Officer is responsible for supporting the renewable portfolio standards and reporting on certain energy matters.

Your Committee on Conference finds that the purpose of Act 122, Session Laws of Hawaii 2019 (Act 122), was to transfer the duties and responsibilities of the State Energy Resources Coordinator, the functions of the Renewable Energy Facilitator, and the then existing State Energy Office to the newly established Hawaii State Energy Office and Chief Energy Officer. Your Committee on Conference further finds that Act 122 did not make conforming amendments to certain sections of existing laws pertaining to the reporting of certain energy matters to the Legislature. Accordingly, this measure clarifies these reporting requirements.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2537, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2537, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 80-24 on S.B. No. 2133

The purpose of this measure is to:

- (1) Authorize the Hawaii Housing Finance and Development Corporation to issue bonds for housing project infrastructure and finance the development of regional state infrastructure projects;
- (2) Exempt bonds issued by the Hawaii Housing Finance and Development Corporation for improvements by assessments, and the interest thereon, from certain taxes, with exceptions;
- (3) Include proceeds from bonds issued for regional state infrastructure projects as a source of revenue for regional state infrastructure subaccounts; and
- (4) Authorize regional state infrastructure subaccount revenues to be used to repay regional state infrastructure project bond holders.

Your Committee on Conference finds that the development of additional housing inventory often requires updates to aging infrastructure needed to accommodate the new units. The cost of updating infrastructure presents a major barrier to the development of housing projects, with the cost often falling on the shoulders of the developers, which ultimately leads to the costs being passed down to the project's residents. Therefore, this measure will facilitate the development of infrastructure required to support new housing projects urgently needed across the State.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to amend section 201H-191.5(d), Hawaii Revised Statutes, to specify that the cost of providing regional infrastructure improvements may be assessed against housing and mixed-use transit-oriented development projects specially benefiting from the improvements;
- (2) Inserting an effective date of July 1, 2024; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2133, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2133, H.D. 1, C.D. 1.

Conf. Com. Rep. 81-24 on S.B. No. 1258

The purpose of this measure is to require the Department of Land and Natural Resources to develop and implement an improved management system for the Kaena Point State Park, Makua and Keawaula sections.

Your Committee on Conference finds that the Makua and Keawaula sections of the Kaena Point State Park are exceptionally valuable to the Native Hawaiian community and are of cultural and historical significance. However, due to irresponsible recreational uses and the accumulation of waste, the Makua and Keawaula sections were closed to overnight access. This measure will ensure that the Makua and Keawaula sections are reopened with an improved management system that encompasses Hawaiian management values in balancing public use with the preservation of aina, wildlife, and cultural resources.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. Conf. Com. Rep. 82-24 on S.B. No. 2974

The purpose of this measure is to:

- (1) Establish a Business Revitalization Task Force within the Department of Business, Economic Development, and Tourism to identify methods to improve Hawaii's general economic competitiveness and business climate, including the mitigation of regulatory and tax burdens; and

(2) Require the Business Revitalization Task Force to submit a report to the Legislature.

Your Committee on Conference finds that the State ranks below other states in new business formations, early survival rates for startups, self-employment, and business climate. This measure establishes a task force to collaboratively and comprehensively collect ideas from stakeholders to promote economic growth in the State and propose solutions to improve the State's business economy.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the Chair of the House of Representatives Standing Committee with primary jurisdiction over economic development and the Chair of the Senate Standing Committee with primary jurisdiction over economic development may invite one representative from certain industries to serve as members of the task force, including one representative from the Chamber of Commerce Hawaii;
- (2) Deleting language that would have allowed certain task force members to be reimbursed for expenses, including travel expenses;
- (3) Inserting an effective date of July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2974, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2974, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 83-24 on S.B. No. 2919

The purpose of this measure is to:

- (1) Clarify the counties' authority to regulate the time, place, manner, and duration in which uses of land and structures may take place;
- (2) Allow counties to enact zoning ordinances to amortize or phase out transient vacation rental units in an area of any zoning classification; and
- (3) Beginning January 1, 2025, expand the scope of the transient accommodations tax law to include certain shelters and vehicles with sleeping accommodations.

Your Committee on Conference finds that despite attempts made by certain counties to regulate short-term transient accommodations and enact ordinances pursuant to their home rule authority relating to zoning, transient accommodations in residential-zoned neighborhoods have been permitted to continue due to judicial opinions that have interpreted their status as a legal, nonconforming use that has been grandfathered in by statute. Therefore, this measure reinstates and supports the home rule authority that was intended for the counties relating to zoning by authorizing the counties to phase out or amortize transient accommodation uses by zoning ordinance.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have prohibited time, place, manner, or durational zoning regulations from being deemed to create different types of land uses or structures;
- (2) Deleting language that would have authorized transient vacation rental units to be amortized or phased out in an area of any zoning classification and inserting language clarifying that uses that include the furnishing or offering of transient accommodations shall not be considered residential uses or agricultural uses and may be phased out or amortized in any zoning district by county zoning regulations;
- (3) Inserting language authorizing a county zoning ordinance to provide that transient accommodations may be furnished to a transient for a period of less than one hundred eighty consecutive days;
- (4) Deleting language that would have defined the term "transient vacation rental unit" and inserting a definition of "transient accommodations" to have the same meaning as defined under section 237D-1, Hawaii Revised Statutes;
- (5) Amending section 1 to reflect its amended purpose;
- (6) Making it effective upon its approval; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2919, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2919, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 84-24 on S.B. No. 2079

The purpose of this measure is to allow the State of Hawaii Plant and Animal Declaration Form to be distributed, completed, and transmitted electronically.

Your Committee on Conference finds that the Hawaii Plant and Animal Declaration Form (Declaration Form) helps prevent the importation of harmful pests into the State. Your Committee on Conference recognizes that allowing individuals, passengers, and crew of any flight or cruise that enters the State to submit

an electronic version of the Declaration Form would increase compliance and more accurate reporting of the importation of harmful pests into the State. This measure clarifies that the Hawaii Plant and Animal Declaration Form may be distributed, completed, and transmitted electronically, thereby facilitating the protection of Hawaii's unique environment, agriculture, and communities.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. Conf. Com. Rep. 85-24 on S.B. No. 1511

The purpose of this measure is to:

- (1) Clarify the purpose of the Research Corporation of the University of Hawaii and that its undertakings shall be limited to acts that are reasonably necessary to carry out its purpose;
- (2) Repeal the requirement that the University of Hawaii contract with the Research Corporation when the University determines that other various agencies cannot more effectively or efficiently accomplish certain research and training activities;
- (3) Grandfather existing Research Corporation contracts and require new contracts be subject to new limitations;
- (4) Limit the scope of the special account the Research Corporation is authorized to establish;
- (5) Require revolving accounts to follow University of Hawaii Administrative Procedure 12.204; and
- (6) Limit internal service orders and revolving accounts of the Research Corporation that use University intramural funds to certain projects and require biannual reports to the Legislature.

Your Committee on Conference finds that the Research Corporation of the University of Hawaii (Research Corporation) was established in 1965 for the purposes of promoting, encouraging, initiating, developing, and conducting scientific research and investigation in all branches of learning, which is then disseminated to the public. To achieve its statutory mandate, the Legislature at the time provided the Research Corporation with flexibility in certain operations to promote cooperative research projects with various firms and stakeholders. However, the Research Corporation has gradually expanded its undertakings beyond its original mandate, raising concerns that the Research Corporation has entered projects and roles outside of its established purpose. Therefore, this measure ensures greater accountability and transparency of the Research Corporation of the University of Hawaii and streamlines its purpose to align with its original purpose and intent.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that funds appropriated by the Legislature may be expanded to contract with the Research Corporation to be used for promoting and developing the scientific and commercial value of inventions, discoveries, and processes;
- (2) Clarifying that the University of Hawaii shall notify the exclusive representative of the appropriate bargaining unit to review conformance of positions that are planned to be hired through the Research Corporation;
- (3) Clarifying that, for each civil service employee that will be supplanted, the Research Corporation shall provide a list of the programs affected in its next report to the Legislature;
- (4) Specifying that persons being educated or trained shall be engaged in the conduct of research pursuant to a grant, contract, or other authorized funded agreement;
- (5) Inserting language requiring the Research Corporation to promote and develop the scientific and commercial value of inventions, discoveries, and processes;
- (6) Clarifying that the Research Corporation shall assist in disseminating knowledge through the publication of research findings;
- (7) Specifying that the Research Corporation may enter into and perform contracts, leases, cooperative agreements, or other transactions when the Board of Directors determines necessity in the conduct of the Research Corporation's business pursuant to its statutory purpose;
- (8) Repealing language that authorized the Research Corporation to receive awards from any agency or instrumentality of the United States, a foreign nation, a state, a territory, or a possession, or from any political subdivision thereof;
- (9) Clarifying that no gift to the Research Corporation shall be accepted unless its Board of Directors determines that the gift is beneficial to the Research Corporation's statutory purpose;
- (10) Clarifying that the Research Corporation may also receive devises or bequests, in addition to grants or gifts, on behalf of the University of Hawaii or any other agency of the State whenever the donor or grantor determines that the University or any other state agency cannot accomplish the purpose of the gifts, grants, devises, or bequests;
- (11) Clarifying that the Research Corporation may establish a special account for purposes relating to research, training, or the promotion or development of the scientific and commercial value of inventions, discoveries, and processes;
- (12) Clarifying that the Research Corporation shall follow University of Hawaii Administrative Procedure, AP. 12.204, relating to the guidelines and procedures for revolving fund service orders from the University of Hawaii to the Research Corporation;
- (13) Inserting an effective date of July 1, 2024; and

(14) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. Conf. Com. Rep. 86-24 on S.B. No. 2337

The purpose of this measure is to expand the counties' authorization to exercise the same powers as the Hawaii Housing Finance and Development Corporation for purposes of developing, constructing, financing, refinancing, or providing low- and moderate-income housing projects and mixed-use developments.

Your Committee on Conference finds that, under existing law, the Hawaii Housing Finance and Development Corporation has the authority to plan, develop, construct, and finance housing projects, including mixed-use developments. Your Committee on Conference further finds that the counties are granted the same authority and powers, except for the ability to use affordable housing bonds to develop mixed-use developments. Because the counties also share a burden in promoting transit-oriented development, urban revitalization, and the conversion of properties to residential space, this measure will enable the counties to develop and construct mixed-use developments.

Your Committee on Conference has amended this measure by:

- (1) Inserting language requiring that county projects prioritize walkability to the extent practicable;
- (2) Making it effective upon its approval;
- (3) Inserting a sunset date of June 30, 2028; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2337, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2337, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 87-24 on S.B. No. 3364

The purpose of this measure is to:

- (1) Require the Hawaii Tourism Authority to develop destination management action plans for each county and to perform specific actions in each plan;
- (2) Expand the powers and duties of the Hawaii Tourism Authority;
- (3) Repeal the exemption of the Hawaii Tourism Authority from administrative supervision of boards and commissions;
- (4) Rename the Tourism Marketing Plan as the Strategic Tourism Management Plan; and
- (5) Require the Strategic Tourism Management Plan to include statewide destination management and regenerative tourism efforts and programs.

Your Committee on Conference finds that there is a need for improved management and coordination between the State and private and public stakeholders in the tourism industry to address the impacts of tourism. Your Committee on Conference further finds that the three-year, community-led destination management action plans have been a key initiative through which communities across the State have articulated their needs, desires, and visions for tourism in their communities, on their terms. This measure amends the powers and duties of the Hawaii Tourism Authority, statutorily establishes the destination management action plans, and aligns statutory mandates for the Hawaii Tourism Authority with the work they have already been doing to advance destination management and regenerative tourism.

Your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of July 1, 2024; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3364, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3364, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 88-24 on S.B. No. 2659

The purpose of this measure is to:

- (1) Incorporate a regenerative framework into the Hawaii State Planning Act by expanding objectives and policies for the visitor industry;
- (2) Require periodic updates to the Tourism Functional Plan;
- (3) Specify elements to be included in the Tourism Functional Plan; and
- (4) Require an update to the Tourism Functional Plan to be submitted to the Legislature no later than twenty days prior to the convening of the Regular Session of 2025.

Your Committee on Conference finds that tourism has major environmental impacts, such as increased biodiversity loss, landscape impact, and waste and water scarcity. Regenerative tourism represents a sustainable way of traveling and discovering new places that also supports residents' preferences for managing tourism development. This measure incorporates a regenerative tourism framework into state planning objectives and policies to help maintain a high-quality visitor experience while counterbalancing many of the social, economic, and environmental impacts of tourism.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2659, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2659, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 89-24 on S.B. No. 572

The purpose of this measure is to:

- (1) Authorize and specify conditions under which the Department of Agriculture may declare a biosecurity emergency, during which the Department and Governor may take certain actions to prevent the establishment or spread of pests and prohibited or restricted organisms; and
- (2) Broaden the objectives and general actions of the State's Biosecurity Program.

Your Committee on Conference finds that the entry and establishment of new invasive species in the State can lead to significant economic and environmental loss. Your Committee on Conference recognizes that there is a high likelihood of a new, devastating pest or disease entering the State, given the increase and expansion of global trade and travel. Your Committee on Conference believes that authorizing the Department of Agriculture to declare a biosecurity emergency, with the Governor's approval, would help the Department acquire the necessary resources to rapidly respond to new pest introductions, thereby protecting the economy and environment of the State.

Your Committee on Conference has amended this measure by:

- (1) Inserting language that exempts any vessel that has anti-fouling hull coating and does not discharge ballast water, uses freshwater for ballasting, or is equipped with ultraviolet filtration systems for ballast water, from being requisitioned or taken control of by the Governor during a declared biosecurity emergency;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 572, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 572, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 90-24 on S.B. No. 2413

The purpose of this measure is to require the Board of Agriculture to submit a report to the Legislature before the Regular Session of 2025 on:

- (1) The percentages of agricultural lands being leased by the State that are suitable for farming and actively being used for farming purposes; and
- (2) Certain dollar amounts relating to lease transfers between lessees.

Your Committee on Conference finds that accurate data on public agricultural lands, especially those that are leased, would help optimize public and private investments in agriculture to meet the State's local food production and agricultural sustainability goals. This measure ensures that public land is used prudently for the benefit of its residents by identifying public, productive agricultural lands and protecting their use under the state and county land use regulatory systems.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2413, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2413, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 91-24 on S.B. No. 3070

The purpose of this measure is to gradually reduce the Employees' Retirement System's maximum funding period to amortize the total unfunded accrued liability from thirty years to twenty years.

Your Committee on Conference finds that due to the Employees' Retirement System's (System) long-term investment performance, the funding period in which the System is expected to be fully funded has steadily decreased from the forecasted thirty years in fiscal year 2015-2016 to twenty-four years in fiscal year 2021-2022. Therefore, this measure will reduce the maximum projected funding period to amortize the total unfunded accrued liability of the System from thirty years to twenty years, which would lower future costs, align the System with new Actuarial Standards of Practice, and allow the State to receive favorable ratings from bond rating agencies.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. Conf. Com. Rep. 92-24 on S.B. No. 2526

The purpose of this measure is to extend the Technology Services Consolidation Working Group's dissolution date and require the Working Group to assist the Office of Enterprise Technology Services in working with certain state agencies to inventory and categorize the business criticality of each major state information technology system or data set and determine the appropriate data center or hosting facility requirements.

Your Committee on Conference finds that government data systems provide critical government services to citizens of the State. Your Committee on conference further finds that the benefits of a resilient data center or hosting facility extend far beyond the avoidance of downtime, as it will foster greater public trust in government operations, as citizens can be confident that their data is secure and accessible even in the face of unforeseen events. Moreover, it will enhance the State's ability to respond to emergencies and natural disasters, ensuring that critical information remains available when it is needed most. Therefore, this measure will ensure that all consolidated state information technology data are housed in a facility with the resiliency to perform maintenance or upgrades without downtime and the redundancy and contingencies for power outages.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. Conf. Com. Rep. 93-24 on S.B. No. 2516

The purpose of this measure is to:

- (1) Clarify that centralized computer information management and processing services shall be provided through the Chief Information Officer; and
- (2) Specify that the Chief Information Officer shall be appointed by and have a salary established by the Governor and report to the Comptroller.

Your Committee on Conference finds that although the Office of Enterprise Technology Services is established within the Department of Accounting and General Services, existing law requires the Chief Information Officer who heads the Office to report to the Governor, rather than the Comptroller. Your Committee on Conference further finds that this glitch in the reporting structure was inadvertently created when the position of the Chief Information Officer was transferred from the Office of the Governor to the Department of Accounting and General Services. This measure corrects this structural deficiency.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2516, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2516, S.D. 2, H.D. 2, C.D. 1.

The purpose of this measure is to:

- (1) Require the Information Technology Steering Committee to assist the Chief Information Officer in developing a plan to enhance and increase usage of the hawaii.gov mobile application, the State's mobile internet application; and
- (2) Require the Chief Information Officer's annual report of the Office of Enterprise Technology Services to include updates on the hawaii.gov mobile application.

Your Committee on Conference finds that the coronavirus disease 2019 pandemic demonstrated the importance of ensuring that state services are accessible to individuals using mobile communication devices. This measure will facilitate increased usage of "hawaii.gov mobile", the mobile application developed by the State for the public to access its website, by residents and visitors.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. Conf. Com. Rep. 95-24 on S.B. No. 2536

The purpose of this measure is to amend the Hawaii Public Procurement Code by:

- (1) Establishing a new accounting services procurement preference for certain Hawaii accounting service businesses; and
- (2) Clarifying that the existing reciprocity procurement preference includes offerors under the provisions governing competitive sealed bids and competitive sealed proposals.

Your Committee on Conference finds that the State can encourage the growth and sustainability of businesses that employ Hawaii residents by providing those businesses with a competitive edge in government service contracts through the establishment of procurement preferences. The procurement preference established by this measure incentivizes public accounting firms with offices in the State to increase career opportunities for residents to provide accounting services to the government, while the expansion of the reciprocity exemption would further support fair competition with other public accounting firms that operate out of low-cost jurisdictions and do not have offices in the State. Your Committee on Conference respectfully requests that any departments affected by this measure communicate to the Legislature on the impact of this measure on the State.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of July 1, 2024, and a repeal date of July 1, 2028; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2536, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2536, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 96-24 on H.B. No. 1902

The purpose of this measure is to:

- (1) Clarify that the Governor's and mayors' emergency management powers must be consistent with the Hawaii State Constitution;
- (2) Clarify the scope of the comprehensive emergency management plan;
- (3) Clarify the powers of the Governor and mayors to extend or terminate a state of emergency or local state of emergency, respectively;

- (4) Shorten the duration of price control periods from ninety-six hours to seventy-two hours in a state of emergency or local state of emergency; and
- (5) Amend emergency management law regarding tenants, mortgagors, consumers, and residents for certain periods of time after the issuance of a state of emergency or local state of emergency.

Your Committee on Conference has amended this measure by:

- (1) Reverting to the H.D. 1, thereby deleting part II, pertaining to tenants, mortgagors, consumers, and residents for certain periods of time after the issuance of a state of emergency or local state of emergency;
- (2) Changing its effective date to upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1902, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1902, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 97-24 on H.B. No. 2453

The purpose of this measure is to authorize the Governor, or a state official with authorization from the Governor, to transfer federal capitalization grant monies between the Water Pollution Control Revolving Fund and the Drinking Water Treatment Revolving Loan Fund.

Your Committee on Conference has amended this measure by:

- (1) Requiring the Department of Health, no later than twenty days prior to the convening of each Regular Session, to submit to the Legislature a report on:
 - (A) All transfers between the Water Pollution Control Revolving Fund and Drinking Water Treatment Revolving Loan Fund; and
 - (B) Whether the transfers comply with federal law; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2453, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2453, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 100-24 on H.B. No. 2471

The purpose of this measure is to establish a statutory framework for inspections of public land leases or licenses by the Department of Land and Natural Resources, including by third-party inspectors contracted by the Department.

Your Committee on Conference has amended this measure by:

- (1) Narrowing the types of public land that may be inspected by the Department of Land and Natural Resources to public land subject to a lease or license under chapter 171, Hawaii Revised Statutes;
- (2) Narrowing the subject of authorized inspections by third-party inspectors to structures or buildings, rather than all public land subject to a lease or license under chapter 171, Hawaii Revised Statutes;
- (3) Narrowing the type of corrective action the Department of Land and Natural Resources may take based on the third-party inspectors' reports to corrective action regarding structures or buildings, rather than leases, licenses, or land;
- (4) Incorporating its provisions by operation of law as a provision of all leases and licenses entered into by the Board of Land and Natural Resources after, rather than as of, its effective date; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2471, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2471, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. 101-24 on H.B. No. 2499

The purpose of this measure is to:

- (1) Designate the Dean of the College of Engineering at the University of Hawaii as the Chief Procurement Officer for the University; and
- (2) Extend the sunset date for the designation of the University of Hawaii Chief Procurement Officer to June 30, 2027.

Your Committee on Conference has amended this measure by:

- (1) Designating the University of Hawaii Chief Financial Officer, rather than the Dean of the College of Engineering at the University of Hawaii, as the Chief Procurement Officer for the University;
- (2) Extending the sunset date for the designation of the Chief Financial Officer as the Chief Procurement Officer to June 30, 2028;
- (3) Requiring the University of Hawaii to:
 - (A) Provide the Chief Financial Officer a six-month transition period to hire and transfer the necessary procurement staff; and
 - (B) Complete its reorganization to place the procurement staff under the control of the Chief Financial Officer by July 1, 2025;
- (4) Changing the effective date to June 29, 2024; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2499, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2499, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. 102-24 on H.B. No. 1832

The purpose of this measure is to:

- (1) Allow a state department, division, or agency, rather than the Department of Human Resources Development, to conduct a minimum qualification review of applicants for vacant positions within the department, division, or agency; and

- (2) Require the Department of Human Resources Development to provide state departments, divisions, and agencies the applications received for vacancies under certain circumstances.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have authorized a state department, division, or agency to consider alternative qualifications and substitutions in place of minimum qualifications; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1832, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1832, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 105-24 on H.B. No. 1760

The purpose of this measure is to:

- (1) Authorize the Hawaii Housing Finance and Development Corporation, or a county pursuant to a cooperative agreement, to establish a bond volume cap recycling program;
- (2) Authorize the Hawaii Housing Finance and Development Corporation, subject to legislative approval, to secure a line of credit or other instrument of indebtedness to meet federal requirements for the bond volume cap recycling program;
- (3) Require a county or issuer to submit a report to the Department of Budget and Finance and Hawaii Housing Finance and Development Corporation on the status or use of its portion of the volume cap that is being recycled;
- (4) Establish a bond volume cap recycling program subaccount in the Rental Housing Revolving Fund; and
- (5) Provide legislative authorization for the Hawaii Housing Finance and Development Corporation to secure a line of credit or other instrument of indebtedness during the 2023-2025 fiscal biennium not to exceed \$150,000,000.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have codified in the Hawaii Revised Statutes a statutory cap of \$150,000,000 for the total amount of the line of credit or other indebtedness that the Hawaii Housing Finance and Development Corporation may secure;
- (2) Changing the effective date to July 1, 2024; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1760, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1760, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 106-24 on H.B. No. 2563

The purpose of this measure is to:

- (1) Require the Hawaii Tourism Authority to study the feasibility of, and create a plan for, developing and publishing a mobile application that includes all online application processes and fee collections for reservations to conduct regulated recreational and commercial activities;
- (2) Exempt the Hawaii Convention Center from certain requirements regarding concessions on public property;
- (3) Authorize the Hawaii Tourism Authority to sell or lease the naming rights of the Hawaii Convention Center; and
- (4) Facilitate advertising and marketing in or on the Hawaii Convention Center.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have required the Hawaii Tourism Authority to study the feasibility of, and create a plan for, developing and publishing the mobile application; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. Conf. Com. Rep. 107-24 on H.B. No. 2192

The purpose of this measure is to allow the Director of Commerce and Consumer Affairs to appoint a limited owner of a cemetery for which no owner can be found and authorize the limited owner to file complaints for wrongful acts and engage in security and perpetual care activities for the cemetery.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2192, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2192, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 108-24 on H.B. No. 2546

The purpose of this measure is to:

- (1) Allow for the use of fine meshed nets for the protection of plants against invasive species; and
- (2) Require the Department of Agriculture to establish a registration program for purchasers of fine meshed nets in the State.

Your Committee on Conference has amended this measure by:

- (1) Inserting a preamble related to the use of fine meshed nets for the protection of plants against invasive species, such as the coconut rhinoceros beetle;

- (2) Specifying the manner in which fine meshed nets shall be applied;
- (3) Deleting language that would have required the Department of Agriculture to establish a registration program;
- (4) Requiring the Department of Agriculture to adopt certain rules related to preventing non-targeted entanglement and other prohibited uses;
- (5) Changing the effective date to upon approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2546, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2546, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 109-24 on H.B. No. 2339

The purpose of this measure is to:

- (1) Delete the term "enhanced" in reference to 911 services to allow funding of all 911 technologies; and
- (2) Allow the 911 board to employ staff, in addition to the Executive Director, who are exempt from civil service and collective bargaining laws.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2339, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2339, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 110-24 on H.B. No. 1836

The purpose of this measure is to allow registered pharmacists, during declared states of emergency, to refill prescriptions for persons directly affected by the declared emergency for up to a thirty-day supply without the practitioner's authorization if the practitioner is unavailable to authorize the refill and if, in the pharmacist's professional judgment, failure to refill the prescription might interrupt the patient's ongoing care and have a significant adverse effect on the patient's well-being.

Your Committee on Conference has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1836, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1836, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. 111-24 on S.B. No. 2591

The purpose of this measure is to:

- (1) Impose a fine on any private landowner that fails to disclose or record with the Bureau of Conveyances, or in documents used to offer real property for sale, the existence of burial or archaeological sites on their property that the landowner knew or should have known of; and
- (2) Require fines collected to be deposited into the Hawaii Historic Preservation Special Fund.

Your Committee on Conference finds that it is important that private landowners contribute to the preservation and protection of burial sites on their lands. This measure will hold private landowners accountable by imposing fines on property owners that fail to record or disclose these sites on their land.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and

(2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2591, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2591, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 112-24 on S.B. No. 3109

The purpose of this measure is to give practical effect to the Legislature's intent for the appropriation in Act 279, Session Laws of Hawaii 2022 (Act 279), by:

- (1) Establishing the Act 279 Special Fund until June 30, 2026;
- (2) Depositing certain unexpended or unencumbered funds appropriated through Act 279 that are set to lapse on June 30, 2024, into the Act 279 Special Fund and appropriating funds out of the Act 279 Special Fund; and
- (3) Providing that unencumbered monies from the appropriation out of the Act 279 Special Fund shall lapse on June 30, 2026.

Your Committee on Conference finds that Act 279 appropriated \$600,000,000 to the Department of Hawaiian Home Lands to reduce the number of applicants on the Department's waitlist. However, the appropriation made by Act 279 does not align with the constitutional time limit on appropriations set by article VII, section 11, of the Hawaii State Constitution. This measure will correct the original general fund lapse date in Act 279 and ensure that the Department of Hawaiian Home Lands may expend the funds appropriated by Act 279 as the Legislature intended.

Your Committee on Conference has amended this measure by:

- (1) Establishing the Act 279 Special Fund in session law, rather than in the Hawaiian Homes Commission Act of 1920, as amended;
- (2) Specifying that moneys in the Act 279 Special Fund shall also be used to explore and develop opportunities to generate additional revenue from lands that the Department of Hawaiian Home Lands controls to fulfill its fiduciary duties;
- (3) Inserting an appropriation of \$129,100,000 to be expended by the Department of Hawaiian Home Lands for the purposes of Act 279;
- (4) Clarifying that the appropriation made by this Act shall not lapse at the end of the fiscal biennium for which the appropriation is made; provided that all moneys from the appropriation unexpended or unencumbered as of June 30, 2026, shall lapse as of that date; and
- (5) Inserting an effective date of June 29, 2024, and a repeal date of June 30, 2026.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3109, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3109, S.D. 1, H.D. 2, C.D. 1.

Conf. Com. Rep. 113-24 on S.B. No. 2601

The purpose of this measure is to:

- (1) Expand the time period by which a civil action for childhood sexual abuse committed on or after July 1, 2024, may be initiated; and
- (2) Authorize a court to require personnel of legal entities to undergo training on trauma—informed response to allegations of sexual abuse.

Your Committee on Conference finds that many childhood sexual abuse victims withhold disclosure, often due to limited access to quality psychological care and social services. This measure will provide victims of childhood sexual abuse additional time to come forward and seek justice against their abuser.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2601, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2601, H.D. 1, C.D. 1.

Conf. Com. Rep. 114-24 on S.B. No. 3290

The purpose of this measure is to:

- (1) Require the Disability and Communication Access Board to convene a working group to study the state of American Sign Language interpretation services in Hawaii; and
- (2) Require the working group to submit a report to the Legislature with the assistance of the Department of Health.

Your Committee on Conference finds that American Sign Language (ASL) interpreters provide a critical service to deaf, hard of hearing, deaf-blind, and hearing individuals in the State that wish to effectively communicate with each other in a variety of settings and circumstances. Your Committee on Conference further finds that there remains a critical need to develop an ASL interpreter workforce and to acquire additional information on the state of ASL interpretation services in the State. This measure will provide critical data to ensure greater access for individuals to receive ASL interpretation services in the State during emergencies and daily life activities and address other current and future issues relating to this critical service.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to clarify that no member of the working group shall be made subject to chapter 84, Hawaii Revised Statutes, solely because of that member's participation as a member of the working group; and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3290, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3290, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 115-24 on S.B. No. 2725

The purpose of this measure is to reduce the pass-through entity level tax rate and allow the pass-through entity tax credit to be carried forward to subsequent years.

Your Committee on Conference finds that Act 50, Session Laws of Hawaii 2023, allowed certain pass-through entities to elect to pay Hawaii income tax at the entity level. Act 50 was enacted to assist Hawaii's small businesses by allowing taxpayers to deduct Hawaii state income taxes paid on their federal income tax returns. These deductions from federal taxable income had been eliminated by changes to the federal tax code in 2017, which deprived Hawaii taxpayers of significant federal tax benefits. Under Act 50, the entity level tax is calculated by applying the highest individual income tax rate to the taxable income to be distributed, thus entitling qualified pass-through entity members to receive a nonrefundable income tax credit that cannot be carried forward to a subsequent year if the credit exceeds the member's income tax liability. Your Committee on Conference further finds that, due to the inability to carry forward the tax credit, many members remain unable to benefit from Act 50 as intended.

Your Committee on Conference has amended this measure by:

- (1) Reverting it to the original version of the measure, which:
 - (A) Adds a definition for "qualified member" and repeals the definitions for "direct member" and "indirect member", as used in the State's pass-through entity taxation election law; and
 - (B) Allows certain qualified members who are entitled to a tax credit to use the credit against the member's net income tax liability in subsequent years until exhausted;
- (2) Amending the pass-through entity level tax rate to be the sum of all qualified member's distributive shares and guaranteed payments of Hawaii taxable income, as calculated under chapter 235, Hawaii Revised Statutes, multiplied by nine percent; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2725, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2725, H.D. 1, C.D. 1.

Conf. Com. Rep. 116-24 on S.B. No. 3083

The purpose of this measure is to amend various sections of article 11 of the Insurance Code to adopt revisions to the National Association of Insurance Commissioners (NAIC) Model No. 440, Insurance Holding Company System Regulatory Act.

Your Committee on Conference finds that the NAIC updated certain provisions of the Insurance Holding Company System Regulatory Act, relating to, among other things, the group capital assessment and calculation, which captures insurer risk at the level of the entire group, and liquidity stress test calculation. Accordingly, this measure makes various technical updates to the State's Insurance Holding Company System law to conform with the NAIC revisions.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3083, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3083, S.D. 1, H.D. 2, C.D. 1.

Conf. Com. Rep. 117-24 on S.B. No. 3094

The purpose of this measure is to:

- (1) Establish a temporary Peer Support Specialist Working Group (Working Group) within the Office of Wellness and Resilience to develop and make recommendations for a framework for peer support specialists in the State;
- (2) Require the Working Group to submit a report of its findings and recommendations to the Legislature before the Regular Session of 2025; and
- (3) Appropriate funds for the Working Group, including for the Office of Wellness and Resilience to contract with an administrative facilitator to provide necessary support for the Working Group in carrying out its duties.

Your Committee on Conference finds that peer support is effective for improving behavioral health outcomes, including reduced hospital admission rates, longer community tenure, increased social functioning, and decreased substance abuse and depression. The recommendations from the Working Group established pursuant to this measure will allow the State to make an informed decision on establishing a framework of trauma-informed care for peer support specialists to better serve individuals in need.

Your Committee on Conference further finds that reimbursing members of the Working Group who are employed by the State and serving in their official capacity on the Working Group would be duplicating travel expenses they already receive. Furthermore, your Committee on Conference finds that compensating members of the Working Group who are not employed by the State could create a disparity with other state-mandated working groups.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Deleting language that would have:
 - (A) Reimbursed members of the Working Group who are employed by the State and serving in their official capacity on the Working Group for reasonable expenses necessary for the performance of their duties, including travel expenses;
 - (B) Required that members of the Working Group who are not employed by the State receive compensation for their time spent on Working Group meetings and related work; and
 - (C) Appropriated funds for the Working Group, including for the Office of Wellness and Resilience to contract with an administrative facilitator to provide necessary support for the Working Group in carrying out its duties;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3094, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3094, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 118-24 on S.B. No. 2943

The purpose of this measure is to:

- (1) Establish a Commercial Drivers Workforce Working Group within the Department of Transportation to address the workforce shortage of commercial drivers in the State; and
- (2) Require a report to the Legislature.

Your Committee on Conference finds that the scarcity of commercial drivers license (CDL) holders directly impacts the State's public and private sectors. Your Committee on Conference further finds that taking steps, including the establishment of a working group to develop a plan to address the shortage of commercial drivers in the State, will help to increase the efficiency and reliability of the State's public and private sectors.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2943, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2943, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 119-24 on S.B. No. 2439

The purpose of this measure is to extend the statute of limitations for a one—year period beginning on July 1, 2024, for civil actions brought by adult victims of acts that occurred after June 30, 2014, that constituted or would have constituted a criminal sexual offense.

Your Committee on Conference finds that victims of sexual abuse may face certain obstacles when filing a civil action against their abusers, such as requiring additional time before they are ready to file a lawsuit. This measure will allow more victims to seek justice by extending the statute of limitations for civil actions brought by persons subjected to sexual offenses as an adult against the person who committed the act.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have made amendments to section 657-1.8, Hawaii Revised Statutes, that would have:
 - (A) Beginning July 1, 2024, authorized a person eighteen years of age or older who is a victim of sexual abuse that occurred after June 30, 2014, to file a claim for a period of one year if the victim was barred from filing a claim against the victim's abuser due to the expiration of the applicable civil statute of limitations in effect before July 1, 2024;
 - (B) Clarified that a civil cause of action for sexual abuse of a person more than eighteen years of age shall be based upon sexual acts that constituted or would have constituted a criminal offense under existing sexual offense provisions;
 - (C) Authorized a psychologist licensed pursuant to chapter 465, Hawaii Revised Statutes, to notarize a statement included in the certificate of merit; and
 - (D) Clarified that the notarized statement shall include the facts and opinions of acts specified in section 657-1.8(b), Hawaii Revised Statutes;
- (2) Inserting language that creates a new section in chapter 657, Hawaii Revised Statutes, that:
 - (A) Beginning July 1, 2024, revives for a two-year period certain actions for which the statute of limitations had previously lapsed if the abuse occurred after June 30, 2012, in the State when the person who is a victim of sexual abuse was eighteen years or older;
 - (B) Establishes provisions for claims against legal entities during the two-year window period if there is a finding of gross negligence;
 - (C) Clarifies that a civil cause of action for sexual abuse of a person that occurred when the person was eighteen years of age or older shall be based upon sexual acts that constituted or would have constituted a criminal offense under existing sexual offense provisions;
 - (D) Allows a victim of sexual abuse to file a civil claim against a legal entity under certain circumstances;
 - (E) Authorizes a defendant to recover attorney's fees if the court determines that a false accusation was made with no basis in fact and with malicious intent;
 - (F) Requires the submission of a certificate of merit, filed by the attorney for the plaintiff, that shall be sealed and remain confidential;
 - (G) Requires the certificate of merit to include a notarized statement by a marriage and family therapist licensed pursuant to chapter 451J, Hawaii Revised Statutes; mental health counselor licensed pursuant to chapter 453D, Hawaii Revised Statutes; psychologist licensed pursuant to chapter 465, Hawaii Revised Statutes; or clinical social worker licensed pursuant to chapter 467E, Hawaii Revised Statutes; and
 - (H) Clarifies that the notarized statement is required to include the facts and opinions that were relied upon to form a reasonable belief that the plaintiff was subject to acts that constituted or would have constituted a criminal offense under part V of chapter 707, Hawaii Revised Statutes;
- (3) Deleting the sunset date of July 1, 2025;
- (4) Making it effective upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2439, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2439, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 120-24 on S.B. No. 2475

The purpose of this measure is to:

- (1) Establish a harm to students registry, for all early learning programs or schools and K-12 educational institutions within the State, that contains information on school employees, contractors, or volunteers for whom, as result of an investigation, a final finding has been issued that the individual has inflicted harm on a student; and
- (2) Appropriate funds.

Your Committee on Conference finds that Hawaii's prekindergarten through grade twelve students have a right to pursue their educational goals in safe, secure, and healthy learning environments statewide. However, in recent years, there has been a growing number of individuals who have perpetuated harm against children at one institution and then sought subsequent employment at another institution, creating a cycle of harm and abuse towards students. This measure establishes a Harm to Students Registry to create additional safeguards for students, maintain safe learning environments, and ensure individuals who have inflicted harm against students are held accountable.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have authorized the Department of Education to share information listed on the Harm to Students Registry with the Department of Human Services;
- (2) Deleting the appropriation;
- (3) Inserting an effective date of July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Conf. Com. Rep. 121-24 on S.B. No. 1099

The purpose of this measure is to clarify the authority of the counties to use county surcharge on state tax revenues for housing infrastructure costs for county-supported housing projects.

Your Committee on Conference finds that the cost of infrastructure to support housing is a major barrier to the development of affordable and workforce housing statewide. Your Committee on Conference notes that Maui County is the only county in the State that has not adopted a surcharge on state tax and that allowing surcharges on state tax to be used for housing infrastructure would provide Maui County with the revenues necessary to address its affordable housing crisis. This measure offers another source of funding for counties to offset the high costs of housing infrastructure, thereby accelerating the development of housing projects at the county level. Your Committee on Conference notes that the phrase "county-supported housing projects" could be ambiguous and, as such, believes that an amendment that clarifies the authority of the counties to use their surcharge on state tax revenues for housing infrastructure costs only for county-appropriated housing infrastructure costs is necessary to ensure that no ambiguity exists.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Clarifying that the authority of the counties to use their surcharge on state tax revenues for housing infrastructure costs are only for county-appropriated housing infrastructure costs;
- (2) Inserting an effective date of July 1, 2024; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Conf. Com. Rep. 122-24 on S.B. No. 2937

The purpose of this measure is to repeal the sunset date for the exemption of laboratory school programs of the Hawaiian language college at the University of Hawaii at Hilo from state English-medium standards, assessments, performance ratings, staff qualifications, and staff training requirements.

Your Committee on Conference finds that existing professional standards at Hawaiian language medium education programs ensure affiliated teachers and staff complete certain assessments, are appropriately trained, and are reviewed accordingly. This measure will therefore ensure continuity of the laboratory school program to provide high quality Hawaiian language immersion educational experiences for Hawaii's students.

Your Committee on Conference has amended this measure by making it effective upon its approval.

Conf. Com. Rep. 123-24 on S.B. No. 3207

The purpose of this measure is to:

- (1) Remove the salary cap of the Superintendent of Education; and
- (2) Make permanent the annual performance evaluation requirements for the Superintendent of Education.

Your Committee on Conference finds that the Superintendent of Education plays a significant role in effectuating education policy and goals for the Department of Education. This measure repeals the salary cap for the Superintendent while ensuring high performance standards through a permanent, annual performance evaluation.

Your Committee on Conference has amended this measure by inserting an effective date of June 29, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. Conf. Com. Rep. 124-24 on S.B. No. 2861

The purpose of this measure is to:

- (1) Make certain long-term exclusive listing agreements for the sale of residential real property void and unenforceable under the state law that governs unfair and deceptive practices;
- (2) Prohibit the recording or filing of exclusive listing agreements of any duration with the Bureau of Conveyances; and
- (3) Establish certain remedies for violations.

Your Committee on Conference finds that exclusive listing agreements are agreements that require a homeowner to grant exclusive listing rights for a property over a certain period of time, typically in exchange for a nominal upfront payment. Having been known to last up to forty years, these exclusive listing agreements—which are recorded as liens that run with the property—can impede the owner's ability to sell, refinance, or transfer the property can likewise subject future owners to the agreement without notice. Your Committee on Conference finds that many consumers are enticed into entering these complex agreements without a full understanding of the consequences because companies often deceptively advertise their terms or fail to fully disclose them. Accordingly, it is necessary to prevent unfair exclusive listing agreements from becoming prevalent in the State, and therefore this measure makes certain long-term exclusive listing agreements for the sale of residential real property void and unenforceable.

Your Committee on Conference has amended this measure by inserting an effective date of November 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2861, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2861, S.D. 1, H.D. 1, C.D. 1.

The purpose of this measure is to:

- (1) Require the Office of the Lieutenant Governor to set a fee for the issuance of an apostille or a non—apostille certification; and
- (2) Establish and appropriate funds into and out of the Apostilles and Certifications Special Fund.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$12,000 into and out of the Apostilles and Certifications Special Fund for operational and administrative expenses of the apostille and certification of document services;
- (2) Changing the effective date to July 1, 2024; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

- (1) Support the Public High School Health Care Workforce Certificate Program;
- (2) Renovate and equip certain public high school classrooms to be used for health care training; and
- (3) Support the Glidepath Program for certified nurse aides.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$750,000 to the Department of Business, Economic Development, and Tourism to support the Public High School Health Care Workforce Certificate Program;
- (2) Appropriating \$1,000,000 as a grant-in-aid for Hawaii3R's to renovate and equip certain public high school classrooms to be used for health care training;
- (3) Appropriating \$700,000 to the Department of Business, Economic Development, and Tourism to support the Glidepath Program for certified nurse aides;
- (4) Changing the effective date to July 1, 2024; and

The purpose of this measure is to require that the authorized benefits for chiropractic treatments allowed under personal injury protection benefits provided through motor vehicle insurance be tied to the charges, and any subsequent increases in charges, that are permissible under the workers' compensation supplemental medical fee schedule.

Your Committee on Conference has amended this measure by:

- (1) Inserting the contents of the H.D. 1 version, which increases the reimbursement rate for chiropractic treatments for personal injury protection benefits under motor vehicle insurance from \$75 to \$100; and
- (2) Changing the effective date to upon approval.

Conf. Com. Rep. 128-24 on H.B. No. 1640

The purpose of this measure is to:

- (1) Require that within thirty days of receipt of a written request from the exclusive representative to negotiate, and at times allowed under the collective bargaining agreement, the employer shall negotiate the repricing of classes within a bargaining unit; and
- (2) Provide that if an employer fails to timely initiate a negotiation or the parties cannot reach an agreement within ninety days after the exclusive representative's written request to negotiate or by January 31 of a year in which the agreement is due to expire, whichever is earlier, an impasse exists and certain impasse procedures shall apply.

Your Committee on Conference has amended this measure by:

- (1) Increasing the timeframe in which impasse procedures shall apply from ninety to one hundred fifty days;
- (2) Specifying that no more than fifteen repricing impasse procedures shall be active at any time, under certain conditions;

- (3) Changing the effective date to July 1, 2024;
- (4) Inserting a sunset date of June 30, 2029, and specifying that any negotiations on repricing that started prior to the sunset date may continue after the sunset date; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee on Conference has specifically excluded collective bargaining agreement impasse procedures from the fifteen active impasse procedure maximum in this measure. Only repricing impasse procedures shall count toward the fifteen maximum amount.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. Conf. Com. Rep. 134-24 on H.B. No. 2743

The purpose of this measure is to:

- (1) Authorize the counties to designate sewer improvement districts;
- (2) Authorize the counties to assess a cesspool pollution fee on real properties containing a cesspool, beginning July 1, 2025;
- (3) Authorize each county to establish a county cesspool closure and mitigation special fund;
- (4) Authorize the counties to use cesspool pollution fee revenues or other revenues, including real property tax revenues, for certain activities that eliminate, reduce, or mitigate the impacts of cesspools, including the expansion of county sewer systems and the issuance of grants and low-interest loans to property owners; and
- (5) Require and appropriate funds for the University of Hawaii Water Resources Research Center and the University of Hawaii Sea Grant College Program to develop an overlay with the Hawaii Cesspool Prioritization Tool to identify specific priority areas in which the county sewer system or other centralized treatment system could most feasibly be expanded or constructed to reduce or eliminate cesspools before January 1, 2050.

Your Committee on Conference has amended this measure by:

- (1) Deleting all content except for the required development of an overlay with the Hawaii Cesspool Prioritization Tool and associated appropriation;
- (2) Inserting an appropriation amount of \$350,814 for development of the overlay;

Conf. Com. Rep. 140-24 on H.B. No. 2742

The purpose of this measure is to:

- (1) For tenancies subject to eviction moratoria under emergency proclamations issued by the Governor and relating to wildfires, when it becomes legally permissible to terminate residential tenancy for nonpayment of rent:
 - (A) Extend the notice period for summary possession proceedings from five days to fifteen days for failure to pay rent;
 - (B) Require landlords to provide the notice to mediation centers;
 - (C) Require landlords to enter into mediation if scheduled by a tenant, which will delay when a landlord may file an action for summary possession except in cases where a tenant cancels the mediation or does not appear; and
 - (D) Restrict when landlord remedies are available depending on the amount of rent due;
- (2) Reiterate that eviction moratoria under the various emergency proclamations issued by the Governor may continue until terminated by a proclamation by the Governor or expiration of the proclamation; and
- (3) Appropriate funds for the Judiciary to contract for mediation services.

The pre-litigation eviction mediation process outlined in this measure is intended for survivors of the August 8, 2023, Maui wildfires who may be struggling to make rental payments as a result of this tragedy.

Your Committee on Conference has amended this measure by:

- (1) Specifying that a mediation center must contact the landlord or landlord's agent and tenant to schedule mediation within fifteen calendar days of receipt of the landlord's notice;
- (2) Specifying that if the tenant schedules mediation, the landlord and tenant are required to participate;
- (3) Specifying that the reiteration of the eviction moratoria applies to the eviction moratoria in effect as of July 1, 2024;
- (4) Inserting an appropriation amount of \$410,000 for the Judiciary to contract for mediation services for the purposes of this measure;
- (5) Changing the effective date to July 1, 2024;
- (6) Inserting a sunset date of December 31, 2026, or upon the one-year anniversary of the expiration date of the final eviction moratorium; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. Conf. Com. Rep. 144-24 on H.B. No. 1801

The purpose of this measure is to authorize the issuance of general obligation bonds and to make the constitutionally-required findings that the bond issuance will not cause the state debt limit to be exceeded.

Your Committee on Conference finds that article VII, section 13, of the Constitution of the State of Hawaii requires the Legislature to include a declaration of findings in every general law authorizing the issuance of general obligation bonds, which shall declare that the issuance of state bonds authorized will not cause the debt limit to be exceeded at the time of issuance. Your Committee on Conference further finds that the proceeds generated from the general obligation bonds authorized to be issued under this measure will be used to finance the fulfillment of important state objectives.

Your Committee on Conference has amended this measure by:

- (1) Inserting the appropriate dollar amounts throughout the measure as provided by the Department of Budget and Finance;
- (2) Updating references to applicable dates and measure numbers that are cited in the measure;
- (3) Making it effective upon approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1801, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1801, S.D. 1, C.D. 1.

Conf. Com. Rep. 145-24 on S.B. No. 3116

The purpose of this measure is to:

- (1) Specify that the priority of selection for Preschool Open Doors Program participation applies only during the priority application period between February 1 and the start of each program year; and
- (2) Specify that applications received after the priority application period shall be processed on a first-come, first-served basis.

Your Committee on Conference finds that the Preschool Open Doors Program provides key financial assistance to enable children to attend preschool and serves certain three- and four-year old children with priority extended to certain categories of children. However, existing law does not specify whether the priority of selection to participate in the Preschool Open Doors Program applies year-around or during a limited period of time. Your Committee on Conference further finds that establishment of a priority application period would ensure that the Preschool Open Doors Program maximizes the funding appropriated to the Program to serve the greatest number of three- and four-year-old children in a timely fashion. This measure preserves the prioritization process while also expediting the review and approval of applications to allow faster access to Preschool Open Doors Program subsidies and increase participation in this school readiness program.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to require the Department of Human Services to adopt rules, pursuant to chapter 91, Hawaii Revised Statutes, to determine a child's underserved or at risk status, if not duplicative of the rules already adopted under chapter 17-799, Hawaii Administrative Rules;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3116, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3116, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 146-24 on S.B. No. 2284

The purpose of this measure is to:

- (1) Establish a two-year program at the University of Hawaii to develop a wildfire forecast system for the State using artificial intelligence; and
- (2) Appropriate funds.

Your Committee on Conference finds that the threat of wildfires has increased in recent years, necessitating proactive evacuation planning, risk mitigation, and updated data in the event of natural disasters. By forecasting wildfires, the State can streamline rapid response and suppression efforts focused on specific community needs while ensuring first responders are adequately informed and prepared. Therefore, this measure will enhance emergency management and wildfire mitigation preparedness procedures in the State to help protect communities against future emergencies.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$1,000,000 for fiscal year 2024-2025 for the development of the wildfire forecast system;
- (2) Inserting an effective date of July 1, 2024; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2284, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2284, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 147-24 on S.B. No. 3153

The purpose of this measure is to:

- (1) Establish the Dam and Appurtenance Improvement or Removal Grant Program Special Fund to receive moneys for the Dam and Appurtenance Improvement or Removal Grant Program; and
- (2) Appropriate funds for the Dam and Appurtenance Improvement or Removal Grant Program.

Your Committee on Conference finds that many private dams across the State are in disrepair and many private dam owners do not have the resources to conduct the necessary repairs or removal of their dams. Your Committee on Conference further finds that dams provide many public benefits. Therefore, it is in the public's best interest for the Legislature to provide financial assistance to private dam owners. This measure will assist the Department of Land and Natural Resources in providing funds to qualifying dam owners.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation of \$10,000,000 from the general fund to be deposited into the Dam and Appurtenance Improvement or Removal Grant Program Special Fund as seed funding for the purposes of the Dam and Appurtenance Improvement or Removal Grant Program;
- (2) Inserting an appropriation of \$10,000,000 from the Dam and Appurtenance Improvement or Removal Grant Program Special Fund to be expended by the Department of Land and Natural Resources for the Dam and Appurtenance Improvement or Removal Grant Program;
- (3) Inserting an effective date of July 1, 2024; and

- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3153, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3153, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 148-24 on S.B. No. 1170

The purpose of this measure is to require the counties to issue affordable housing credits for affordable housing units that are constructed under the various programs of the Hawaii Housing Finance and Development Corporation.

Your Committee on Conference finds that the current high interest rate environment is negatively impacting the Hawaii Housing Finance and Development Corporation's production of affordable housing in the State. To promote housing production at the county level, this measure will provide a pathway for housing to be built at a lower cost and provides a means for developers to fulfill their affordable housing requirements with less risk and increase the State's housing supply.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have allowed a county to impose a geographic constraint on the transfer of affordable housing credits with a minimum radius of five miles by public road;
- (2) Inserting language allowing the credits to be applied to satisfy up to fifty percent of the affordable housing obligations imposed by the county for each market-priced residential or non-residential development, unless the county allows for more than fifty percent as provided by county ordinance, rules, or any memoranda of agreement between the county and the Hawaii Housing Finance and Development Corporation;
- (3) Inserting language requiring that, prior to the issuance of an affordable housing credit, an agreement, including affordable housing-related agreements between a county or the Hawaii Housing Finance and Development Corporation and an eligible developer, shall be executed and include language requiring:
 - (A) A new and sequential identification number of at least four digits in length for each affordable housing credit to be issued within each county for tracking purposes;
 - (B) An agreement to be recorded on title of at least one parcel or tax map key of the originating housing project, as defined in section 201H-1, Hawaii Revised Statutes; and
 - (C) The prompt amendment of an agreement when an affordable housing credit originally generated by a housing project is sold, transferred, or utilized to create an easily auditable trail of ownership;
- (4) Changing the sunset date from June 30, 2031, to July 1, 2031;
- (5) Making it effective upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1170, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1170, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 149-24 on S.B. No. 3202

The purpose of this measure is to:

- (1) Prohibit private covenants for residentially zoned lots within an urban district from including certain limitations or restrictions;
- (2) Require the director of the county agency responsible for land use to review and act on any application for subdivision, consolidation, or resubdivision of certain parcels within the state urban land use district; and
- (3) Amend the calculation of impact fees for certain developments.

Your Committee on Conference finds that the shrinking population in the State is a result of the inequitable access to housing. Promoting higher density development in urban areas can aid in addressing the State's shortfall of housing units and reduce the pressure to convert agricultural and conservation lands into urban uses. Therefore, this measure promotes higher density, compact development, and the efficient use of the State's limited lands that are suitable for residential development.

Your Committee on Conference has amended this measure by:

- (1) Inserting as a new part I language establishing a new section in chapter 46, Hawaii Revised Statutes, to require the counties, no later than December 31, 2026, to either implement a countywide ordinance allowing for two accessory dwelling units per residentially zoned lot or using their zoning maps to allow two accessory dwelling units on certain lots, subject to certain restrictions;

- (2) Clarifying that no private covenant for a residentially zoned lot within an urban district recorded after the effective date of this measure shall limit the:
 - (A) Number of accessory dwelling units on that residentially zoned lot below the amount allowed pursuant to part I of this measure; or
 - (B) Long-term rental of residential units on that residentially zoned lot;
- (3) Amending the definition of "residentially zoned lot";
- (4) Clarifying that the administrative authority to accept, reject, and approve, or deny any application for subdivision, consolidation, or resubdivision of a parcel of land that has been fully zoned for residential use within the state urban district shall be vested with the director of the county agency responsible for land use or a single county officer designated by ordinance, provided that the parcel is not on important agricultural lands, on certain wetlands, within a floodplain district, on a habitat for protected or endangered species, within a state historic district, or within a lava zone, and other certain conditions;
- (5) Making it effective upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3202, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3202, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 150-24 on S.B. No. 1035

The purpose of this measure is to exempt from the general excise tax amounts received by a hospital, infirmary, medical clinic, health care facility, or pharmacy, or a medical or dental practitioner, for health care-related goods and services purchased under Medicaid, Medicare, or TRICARE.

Your Committee on Conference finds that, under the existing general excise tax law, there is an incongruity in the way medical service providers are treated. Your Committee on Conference also finds that medical services rendered at a nonprofit hospital, infirmary, or sanitarium are exempt from the general excise tax, whereas the same services rendered by individual or group practices or clinics are fully taxable. Your Committee on Conference further finds that government programs, such as Medicare, Medicaid, and TRICARE, do not compensate for the tax differential, leading some health care providers to bear additional economic costs.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date from June 30, 3000, to January 1, 2026; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. Conf. Com. Rep. 152-24 on H.B. No. 1830

The purpose of this measure is to:

- (1) Beginning July 1, 2026, establish provisional or associate-level licensure requirements and insurance reimbursement allowances for marriage and family therapists, mental health counselors, and psychologists;
- (2) Authorize associate psychologists who possess a provisional license to sit for the licensing examination before completing certain supervised experience requirements;
- (3) Authorize insurance reimbursements for services provided after July 1, 2026, by a supervised social work intern, in certain circumstances; and
- (4) Appropriate funds from the Compliance Resolution Fund.

Your Committee on Conference has amended this measure by:

- (1) Authorizing the Department of Commerce and Consumer Affairs to use fees collected for provisional or associate-level licenses to defray the costs incurred by the Department for the operations of the marriage and family therapists and mental health counselors licensing programs and the regulation of psychologists by the Board of Psychology;
- (2) Inserting appropriation amounts out of the Compliance Resolution Fund of \$73,406 for the establishment of one full-time equivalent Office Assistant V position and \$75,000 for updates to the Professional and Vocational Licensing Division's internal databases;

The purpose of this measure is to authorize the Hawaii Teacher Standards Board to consider qualified individuals with at least an associate's degree or high school diploma with comparable education and coursework, industry experience, and content expertise to teach career and technical education courses.

Your Committee on Conference finds that career and technical education offers students experiential learning opportunities to prepare them for higher education and future careers. This measure provides opportunities for experienced industry professionals to become instructors to teach career and technical education courses to help fill critical teacher vacancies while ensuring that instructors possess the same or a higher level of knowledge as currently qualified teachers.

Your Committee on Conference has amended this measure by inserting an effective of July 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2257, S.D. 3, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2257, S.D. 3, H.D. 1, C.D. 1.

Conf. Com. Rep. 158-24 on S.B. No. 2497

The purpose of this measure is to:

- (1) Repeal the provision that made references to the base amount in the Internal Revenue Code inapplicable to the Research Activities Tax Credit and allowed credits for all qualified research expenses to be taken without regard to previous years' expenses;
- (2) Narrow the qualifying criteria for research activities tax credits to applicants who are small businesses registered in the State;
- (3) Amend the maximum amount of tax credits that can be certified per year; and
- (4) Extend the sunset date of the research activities tax credit to December 31, 2029.

Your Committee on Conference finds that research activities help to stimulate the State's economy and create beneficial employment opportunities for residents. Currently, the State's Research Activity Tax Credit is scheduled to expire after this taxable year. This measure extends the tax credit through 2029 to further support distribution of tax credits to qualified companies and to stimulate the local economy and create quality jobs in the State.

Your Committee on Conference has amended this measure by:

- (1) Removing language that would have amended the maximum amount of research activities tax credits that can be certified per year;
- (2) Clarifying that "small business" means a company with no more than five hundred employees;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2497, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2497, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 159-24 on S.B. No. 2305

The purpose of this measure is to:

- (1) Establish a Silver Alert Program within the Department of Law Enforcement to help locate and safeguard missing persons who are sixty-five years of age or older, cognitively impaired, or developmentally disabled; and
- (2) Appropriate funds.

Your Committee on Conference finds that more than half of states nationwide have established silver alert programs to help identify missing individuals with cognitive impairments, developmental disabilities, or who are the elderly. This measure will help law enforcement and provide immediate information to the public, facilitate a prompt response, and enhance the chances of locating an individual with a developmental disability, cognitive impairment, or who is sixty-five years of age or older.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$250,000 for the Silver Alert Program;
- (2) Inserting an effective date of July 1, 2024; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2305, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2305, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 160-24 on S.B. No. 2070

The purpose of this measure is to, until July 1, 2027:

- (1) Exempt Department of Education purchases for career and technical education goods and services from the State Procurement Code;
- (2) Require the Department of Education to acquire three verbal or written quotes for career and technical education purchases of not more than \$100,000;
- (3) Require awards of over \$2,500 for career and technical education purchases to comply with certain statutory provisions regarding offerors; and
- (4) Require awards of over \$500,000 for career and technical education purchases to be approved by the Superintendent of Education.

Your Committee on Conference finds that career and technical education opportunities provide students with hands-on learning experiences in various emerging and in-demand industries and allow students to directly learn skills using proper industry equipment. This measure ensures timely access to critical career and technical education materials and equipment to provide students with high quality educational experiences and develop skills to support success in their future careers.

Your Committee on Conference has amended this measure by:

- (1) Requiring the Department of Education to acquire three written quotes for purchases that exceed \$100,000;
- (2) Deleting language that would have required the Department of Education to obtain three verbal quotes for purchases of no more than \$100,000;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Conf. Com. Rep. 161-24 on S.B. No. 3305

The purpose of this measure is to require all public charter schools that exclusively offer prekindergarten programs to adhere to the public charter school law, with certain exceptions.

Your Committee on Conference finds that prekindergarten-only public charter school programs provide the State's youngest keiki with critical educational opportunities. This measure will expand access to early learning programs while ensuring institutional adherence to applicable statutory requirements.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. Conf. Com. Rep. 162-24 on S.B. No. 3087

The purpose of this measure is to expand access to early learning programs on other state properties and public lands besides Department of Education public school campuses.

Your Committee on Conference finds that expanding access to early learning programs for Hawaii's youngest keiki is of paramount importance to the State. Therefore, this measure authorizes the expansion of early learning programs to locations besides Department of Education public school campuses to increase availability and provide all students with an opportunity to commence their educational careers.

Your Committee on Conference has amended this measure by:

- (1) Authorizing early learning programs to be established in available public buildings, rather than public properties; and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3087, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3087, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 163-24 on S.B. No. 2401

The purpose of this measure is to:

- (1) Appropriate funds to each county as a grant—in—aid, subject to a county match, for the implementation of feral chicken control programs; and
- (2) Appropriate funds to the Department of Health for a feeding of feral animals education campaign.

Your Committee on Conference finds that feral chickens and roosters are a persistent nuisance, particularly in suburban and urban residential communities. Feral chickens damage gardens and food crops, harm native plants and resources, crow at all times of day and night, and leave unsanitary droppings. This measure will protect the State's ecosystem and natural resources and the health and safety of its residents by requiring the Department of Agriculture to work with each county to implement feral chicken control programs and feeding of feral animals education campaigns.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have made an unspecified appropriation as a grant-in-aid, subject to a county match, to each county for the implementation of feral chicken control programs;
- (2) Deleting language that would have made an unspecified appropriation to the Department of Health for a feeding of feral animals education campaign;
- (3) Inserting language requiring the Department of Agriculture to work with each county to implement feral chicken control programs and feeding of feral animals education campaign in each county;
- (4) Inserting language requiring each county to match the funds expended by the Department of Agriculture for the implementation of the feral chicken control program and feeding of feral animals education campaign in that county;
- (5) Amending section 1 to reflect its amended purpose;
- (6) Making it effective on July 1, 2024; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2401, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2401, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 164-24 on S.B. No. 3279

The purpose of this measure is to:

- (1) Establish within the Office of Wellness and Resilience the State of Well-Being Project to assess and enhance Tier 1 and Tier 2 mental health support services for all key stakeholder communities across the State; and
- (2) Appropriate funds to implement the State of Well-Being Project, including funds to establish full-time equivalent mental health specialist positions within the Office of Wellness and Resilience.

Your Committee on Conference finds that the prevalence of both acute and chronic mental illnesses has been on the rise in the State over the past two decades and that it is critically important to have a tiered approach to comprehensively address statewide mental health concerns. This measure establishes the State of Well-Being Project to enhance Tier 1 and Tier 2 mental health support services for key stakeholder communities across the State and promote a safe and healthy State for all citizens.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have provided specific examples of mental health support services in the statutory definitions of Tier 1 mental health support and Tier 2 mental health support;

- (2) Inserting an appropriation amount of \$876,000 or so much thereof as may be necessary for fiscal year 2024-2025 for the establishment and implementation of the state of well-being project, to be expended as follows:
 - (A) \$475,000 to establish six full-time equivalent (6.0 FTE) mental health specialist positions within the Office of Wellness and Resilience; and
 - (B) \$401,000 for the Office of Wellness and Resilience to implement this measure;
- (3) Inserting an effective date of July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3279, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3279, S.D. 1, H.D. 2, C.D. 1.

Conf. Com. Rep. 165-24 on S.B. No. 2837

The purpose of this measure is to:

- (1) Temporarily authorize the Oahu Regional Health Care System to oversee the operations and management of the proposed Maui State Veterans Home; and
- (2) Establish a timeline and process whereby permanent oversight of the proposed Maui State Veterans Home will be reassigned to the Maui Regional Health Care System.

Your Committee on Conference finds that although the state Department of Defense is currently planning for the construction of the Maui State Veterans Home, the management, operation, and staffing of the Maui State Veterans Home should be placed with a state agency that is able to manage a long-term care facility.

Your Committee on Conference has amended this measure by:

- (1) Deleting provisions that would have:
 - (A) Temporarily placed ownership and oversight of the Maui State Veterans Home with the Oahu Regional Health Care System;
 - (B) Required the Maui Regional Health Care System to secure ownership of the land of, and assume permanent oversight over, the Maui State Veterans Home; and
 - (C) Required reports to the Legislature;
- (2) Statutorily authorizing the Oahu Regional Health Care System to include the Maui State Veterans Home;
- (3) Requiring that no later than June 30, 2027, the Maui State Veterans Home shall be assimilated into a state agency having a Maui affiliation, in a manner and to an extent that may be negotiated between the Oahu Regional Health Care System or a state agency having a Maui affiliation and the state Department of Defense;
- (4) Clarifying that no liabilities of the Maui State Veterans Home that exist at the time the Maui State Veterans Home is assimilated shall become liabilities of the agency into which the Maui State Veterans Home is assimilated;
- (5) Clarifying that the assimilation shall not be affected by the amendments made to section 323F-2(b), Hawaii Revised Statutes, by Act 212, Session Laws of Hawaii 2021;
- (6) Changing the effective date to make the measure effective upon its approval; and
- (7) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2837, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2837, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 166-24 on H.B. No. 1932

The purpose of this measure is to:

- (1) Authorize the Department of Transportation to acquire and hold title to real, personal, or mixed property for certain purposes;
- (2) Amend the definition of "public lands" to exclude lands to which the Department of Transportation holds title; and
- (3) Authorize the Department of Transportation to expend funds to directly acquire real property for projects relating to climate mitigation and adaptation and visual and noise buffer zones and barriers.

Your Committee on Conference has amended this measure by:

- (1) Removing language subjecting the disposal of lands held by the Department of Transportation to the same requirements for the disposal of submerged or reclaimed lands;
- (2) Inserting language granting the Director of Transportation the same powers as the Board of Land and Natural Resources for functions subject to Chapter 171, Hawaii Revised Statutes;
- (3) Inserting language requiring a department or agency with control of state lands to convey title or lease of those lands to the Department of Transportation upon request by the Department of Transportation and subject to approval by the Governor;
- (4) Clarifying that lands set aside by the Governor for the Department of Transportation or lands leased by the Department of Transportation are excluded from the definition of "public lands";
- (5) Changing the effective date to July 1, 2024; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. Conf. Com. Rep. 167-24 on H.B. No. 1763

The purpose of this measure is to:

- (1) Prohibit the Hawaii Housing Finance and Development Corporation from forgiving any loan made from the Rental Housing Revolving Fund unless the Corporation forecloses on the project;
- (2) Amend the permitted uses of and priority for which monies in the Rental Housing Revolving Fund are to be used;
- (3) Repeal the authorization to use the Rental Housing Revolving Fund to provide grants; and
- (4) Require the Hawaii Housing Finance and Development Corporation to submit a report to the Legislature on plans to revolve funds back into the Rental Housing Revolving Fund.

Your Committee on Conference has amended this measure by:

- (1) Defining "efficiency" and "feasibility";
- (2) Expanding the permitted uses of the Rental Housing Revolving Fund to include credit enhancement, rather than credit enhancement for construction loans, and gap financing;
- (3) Clarifying that the rental housing projects that are eligible to receive a Rental Housing Revolving Fund loan are those that demonstrate project readiness, efficiency, and feasibility, with priority given to projects with a perpetual affordability commitment;
- (4) Changing the effective date to July 1, 2024; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. Conf. Com. Rep. 169-24 on H.B. No. 2404

The purpose of this measure is to:

- (1) Amend the amounts for the income tax brackets and standard deduction amounts for each filing status for taxable years beginning after December 31, 2023; and
- (2) For taxable years beginning after December 31, 2024, annually adjust the income tax brackets and standard deduction amounts by a cost-of-living adjustment factor.

Your Committee on Conference has amended this measure by:

- (1) Removing the annual adjustment for taxable years beginning after December 31, 2024, to income tax brackets and standard deduction amounts by a cost-of-living adjustment factor;
- (2) Amending the standard deduction amounts for each filing status for taxable years 2024, 2026, 2028, 2030, and 2031;
- (3) Amending the income tax brackets for each filing status for taxable years 2025, 2027, and 2029;

Conf. Com. Rep. 170-24 on S.B. No. 116

The purpose of this measure is to authorize the issuance of special number plates to commemorate Duke Kahanamoku.

Your Committee on Conference finds that Duke Kahanamoku was one of the first internationally recognized Native Hawaiians with a multitude of achievements that have contributed greatly to Hawaii's favorable international reputation. This measure will honor Duke Kahanamoku through the issuance of a commemorative special license plate.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the special number plate design contains words, images, or both, not to exceed four and a half inches in height by four inches in width; and
- (2) Inserting an effective date of July 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 116, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 116, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 171-24 on S.B. No. 3220

The purpose of this measure is to:

- (1) Transfer the enforcement of the Motor Carrier Law from the Public Utilities Commission to the Department of Transportation;
- (2) Make conforming amendments; and
- (3) Appropriate funds.

Your Committee on Conference finds that although the Public Utilities Commission is responsible for the enforcement of the Motor Carrier Law under existing law, the Department of Transportation, which has jurisdiction over the State's facilities and infrastructure in all modes of transportation (land, air, and water), would be better-suited to regulate and enforce the Motor Carrier Law, as the regulation of vehicles over the public highways would more naturally fall under its purview. Therefore, this measure transfers jurisdiction over the enforcement of the Motor Carrier Law to the Department of Transportation for the purpose of improving administrative efficiency.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have appropriated funds;

- (2) Inserting language requiring the transfer of enforcement of the Motor Carrier Law from the Public Utilities Commission to the Department of Transportation to be completed before December 31, 2024;
- (3) Inserting an effective date of July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3220, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3220, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 172-24 on S.B. No. 2443

The purpose of this measure is to:

- (1) Establish the Automated Speed Enforcement Systems Program, to be implemented by the State in only those locations where a photo red light imaging detector system has been implemented;
- (2) Create a new offense of noncompliance with maximum speed limit under automated speed enforcement system; and
- (3) Appropriate funds.

Your Committee on Conference finds that speed safety cameras are a proven method to deter speeding and are recommended by the National Transportation Safety Board and the Federal Highway Administration for local and state adoption. Your Committee on Conference further finds that an Automated Speed Enforcement Systems Program will reduce speed-related traffic fatalities throughout the State.

Your Committee on Conference has amended this measure by:

- (1) Inserting language that prohibits citations to be issued for vehicles driving not less than five miles per hour over the posted maximum speed limit;
- (2) Inserting language that authorizes the Department of Transportation to raise the minimum threshold for issuance of a citation pursuant to rules adopted pursuant to chapter 91, Hawaii Revised Statutes;
- (3) Clarifying that photographs, microphotographs, video, or other recorded images produced by the automated speed enforcement system shall be prima facie evidence;
- (4) Clarifying that any photographs, microphotographs, video, or other recorded images evidencing a violation be available for inspection in any proceeding to adjudicate the liability for that violation;
- (5) Deleting the full-time equivalent positions for the administration of the Automated Speed Enforcement Systems Program;
- (6) Inserting an appropriation out of the State Highway Fund for the Automated Speed Enforcement Systems Program Special Fund;
- (7) Inserting an appropriation amount of \$5,000,000 out of the Automated Speed Enforcement Systems Program Special Fund for the purpose of ten radar devices and for the operation of the Automated Speed Enforcement Systems Program;
- (8) Inserting an effective date of July 1, 2024; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Conf. Com. Rep. 173-24 on S.B. No. 2841

The purpose of this measure is to designate May 15 of each year as Water Safety Day.

Your Committee on Conference finds that between 2018 and 2022, drowning was the leading cause of death for children one to seventeen years of age in Hawaii. Accordingly, this measure will spread awareness of drowning and educate youth in becoming safer in and around the water by designating May 15 of each year as Water Safety Day.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2841, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2841, H.D. 1, C.D. 1.

Conf. Com. Rep. 174-24 on S.B. No. 3242

The purpose of this measure is to:

- (1) Require the Department of Transportation or county transportation agency having jurisdiction over roads, highways, or similar infrastructure to evaluate high-risk or dangerous corridors or intersections and plan strategies for mitigation; and
- (2) Provide that an engineering study is not required to be considered if the Department of Transportation or any county decreases maximum speed limits within one mile of a school.

Your Committee on Conference finds that serious motor vehicle accidents are a growing concern in the State where numerous crashes have occurred near schools, causing injuries and fatalities. This measure will help expedite safety improvements to dangerous areas to increase the safety of the State's roadways.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3242, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3242, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. 175-24 on S.B. No. 2240

The purpose of this measure is to:

- (1) Require and appropriate funds for the Office of Elections to file an application with the Electronic Registration Information Center, Inc., (ERIC) for the State to be admitted as a member of the organization;
- (2) Require the State and each county to use the information and services made available by ERIC to verify their voter registration rolls; and
- (3) Require the Office of Elections to request an appropriation from the Legislature, beginning fiscal year 2025—2026 and each fiscal year thereafter, for the State's annual membership dues to ERIC.

Your Committee on Conference finds that ERIC, is a nonprofit organization that was formed to help states improve the accuracy of voter registration rolls by using secure data-matching tools. This measure will provide another tool for election officials to maintain the accuracy and integrity of the voter registration rolls by allowing election officials to compare the State's voter registration file and driver license and identification card file with other member states.

Your Committee on Conference has amended this measure by:

- (1) Inserting legislative findings clarifying that part of the process for a state to be admitted as a member of ERIC is for that state to send mailers to its residents who have driver's licenses but are not registered to vote, encouraging them to register to vote;
- (2) Inserting an appropriation amount of \$125,000 for the Office of Elections to prepare and file an application with ERIC, for the State to be admitted as a member of the organization, and for the Office of Elections to send mailers to all Hawaii residents who have driver's licenses but are not registered to vote, encouraging them to register to vote;
- (3) Inserting an effective date of July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2240, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2240, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 176-24 on S.B. No. 2726

The purpose of this measure is to:

- (1) Require the Legislative Reference Bureau to conduct a study on condominium property regimes and the approaches used in certain other jurisdictions with respect to ombudsman programs, licensing for management, alternative dispute resolution, governmental regulation, owner education, and owner access to condominium documents;
- (2) Extend the deadline for the final report and the cease date for the Condominium Property Regime Task Force to June 30, 2026; and

- (3) Make an appropriation for the study.

Your Committee on Conference finds that the Condominium Property Regime Task Force established by Act 189, Session Laws of Hawaii 2023, requested the Legislature to task the Legislative Reference Bureau with studying and reporting on several specific subjects relating to condominium property regimes that would enable the Task Force to thereafter recommend legislation suitable to Hawaii's needs on an informed and objective basis. Therefore, this measure requires and appropriates funds for the Legislative Reference Bureau to complete the requested study of condominium subjects in other states and provides additional time for the Condominium Property Regime Task Force to complete its work based on the Legislative Reference Bureau's future findings and recommendations.

Your Committee on Conference has amended this measure by:

- (1) Inserting a general fund appropriation amount of \$200,000 for the Legislative Reference Bureau to conduct the requested study;
- (2) Making an appropriation in the amount of \$150,000 from the Condominium Education Trust Fund established pursuant to section 514B-71, Hawaii Revised Statutes, for the Legislative Reference Bureau to conduct the requested study, subject to certain conditions;
- (3) Inserting an effective date of July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2726, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2726, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 177-24 on S.B. No. 2085

The purpose of this measure is to establish and appropriate funds for the Office of the State Fire Marshal to direct statewide efforts in preventing and responding to fires throughout the State.

Your Committee on Conference finds that the State Fire Marshal position was abolished in 1979 and replaced by the State Fire Council, composed of the Fire Chiefs of the four counties, Fire Chief of the State Aircraft Rescue Firefighting Unit, and a representative of the Division of Forestry and Wildlife Division of the Department of Land and Natural Resources. Your Committee on Conference further finds that while the State Fire Council acts as the de facto State Fire Marshal's office, the members serve as non-compensated volunteers, and can only meet on a quarterly basis due to the high demand of their leadership positions within their fire respective services. Therefore, this measure establishes the Office of the State Fire Marshal to provide critical input and oversight to the State's Fire Code, coordinate with county fire departments and other agencies in promoting fire safety and the efficient deployment of fire operations in the State, and oversee the training and certification of fire inspectors and investigators in the State, among other duties.

Your Committee on Conference has amended this measure by:

- (1) Requiring the State Fire Marshal to be appointed by the State Fire Council, rather than by the Governor;
- (2) Requiring the State Fire Marshal to serve a term of five years rather than ten years;
- (3) Inserting language requiring the State Fire Council to meet expeditiously to select and appoint a new State Fire Marshal to serve the remainder of the unexpired term in the event of a vacancy;
- (4) Deleting language that would have required the State Fire Marshal to:
 - (A) Coordinate with county fire departments and other agencies in promoting fire safety and the efficient deployment of fire operations in the State; and
 - (B) Administer state-level fire protection training and aid in the establishment of training facilities and programs, including statewide standardization of certification and training levels for firefighters;
- (5) Inserting language that clarifies that the duties of the State Fire Marshal include:
 - (A) Coordinating fire protection efforts between local agencies for the State;
 - (B) Working with the State Fire Council on matters relating to fire services in the State;
 - (C) Working with state and county law enforcement agencies for enforcement of the State Fire Code;
 - (D) Reviewing and assessing the fire risk of the State;
 - (E) Reviewing and proposing amendments to the State Fire Code and submitting the proposed amendments to the State Fire Council for the Council's consideration in its adoption of or amendments to the State Fire Code;
 - (F) Reviewing the emergency resources that are available in the State to be deployed to address fires;
 - (G) Assessing whether the State would benefit from a statewide public fire safety messaging program; and
 - (H) Assisting in the disbursement of federal grants for structural fire protection purposes to the counties;
- (6) Clarifying that the State Fire Marshal may utilize the services of the State Fire Council, including its advisory committees and administrative staff, as appropriate;
- (7) Inserting language including the State Fire Marshal in the list of positions excepted from the application of chapter 76, Hawaii Revised Statutes, the State's Civil Service Law;
- (8) Inserting language requiring the State Fire Council to establish the terms of employment for the position of the State Fire Marshal and appoint the State Fire Marshal;

- (9) Inserting an appropriation amount of \$172,000 for the following:
- (A) \$120,000 for the establishment of one full-time equivalent (1.00 FTE) permanent State Fire Marshal position;
 - (B) \$40,000 for the establishment of one full-time equivalent (1.00 FTE) permanent position to support the State Fire Marshal; and
 - (C) \$12,000 for training, office supplies, rent, and other operating and administrative costs to support the State Fire Marshal;
- (10) Amending section 1 to reflect its amended purpose;
- (11) Inserting an effective date of July 1, 2024; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2085, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2085, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 178-24 on S.B. No. 2991

The purpose of this measure is to:

- (1) Require the Hawaii Labor Relations Board to adopt rules establishing criteria and procedures for the creation of new bargaining units;
- (2) Require the Hawaii Labor Relations Board to issue a decision and order upon making a determination of whether or not to approve the petition, and if approved, submit a report for the Legislature to consider and enact the establishment of the new bargaining unit; and
- (3) Appropriate funds for the development of the criteria and procedures for the creation of new bargaining units and to establish an unspecified number of new positions within the Hawaii Labor Relations Board to implement the criteria and procedures.

Your Committee on Conference finds that the Legislature currently holds the exclusive authority to establish a new bargaining unit through legislation. Your Committee on Conference also finds that there is no path or process for those wishing to create a new bargaining unit to follow. Therefore, this measure will establish clear criteria and procedures to create new bargaining units as well as transfer a portion of the screening authority for prospective bargaining units from the Legislature to the Hawaii Labor Relations Board.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$95,000 for the establishment of one full-time equivalent (1.0 FTE) staff attorney position (LBR 161), exempt from chapter 76, Hawaii Revised Statutes, within the Hawaii Labor Relations Board;
- (2) Inserting an effective date of July 1, 2024;
- (3) Inserting a repeal date of July 1, 2027; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2991, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2991, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 179-24 on S.B. No. 2782

The purpose of this measure is to require the Office of Enterprise Technology Services to develop multilingual accessibility standards and appropriate funds to establish an unspecified number of program manager positions within the Office of Enterprise Technology Services.

Your Committee on conference finds that electronic information technology is rapidly replacing print media, emphasizing the importance of ensuring access to technology for all residents to participate fully in state programs, services, and activities. Providing equal access to state services and information for individuals with limited English proficiency upholds fundamental fairness principles and when diverse communities can fully engage with state resources, it promotes entrepreneurship, workforce participation, and consumer spending, thereby benefiting the economy. Therefore, this measure will provide clear technical guidance related to public access to vital information and documents and standardize performance criteria and technical requirements across the State's enterprise technology systems.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$100,000 for the establishment of one full-time equivalent (1.0 FTE) permanent program manager position within the Office of Enterprise Technology Services;
- (2) Inserting an effective date of July 1, 2024; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Conf. Com. Rep. 180-24 on S.B. No. 2787

The Purpose of this measure is to establish the Immigration Services and Access Unit within the Department of Labor and Industrial Relations' Office of Community Services and appropriate funds for the unit, including funding for new positions.

Your Committee on Conference finds that Hawaii is one of the most culturally diverse states with one of the highest proportions of non-English speakers in the nation, many of them being immigrants and migrants with limited English proficiency. Your Committee on Conference further finds that English proficiency, or the lack thereof, has a great impact on people's economic and social activities, and health literacy and wellness. Therefore, this measure will allow the Office of Language Access to further improve language access within state government, provide a critical link for communication, and make State services accessible to individuals with limited English proficiency.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$450,000 to fund the Immigrant Services and Access Unit within the Office of Community Services, to be expended as follows:
 - (A) \$80,000 to establish one full-time equivalent (1.0 FTE) Unit Supervisor Position;
 - (B) \$48,000 to establish one full-time equivalent (1.0 FTE) Fiscal Clerk position;
 - (C) \$12,000 as operation funds, including funds for on-site monitoring, legal review costs, printing costs, and travel expenses to attend conference training;
 - (D) \$300,000 to expand the Immigration Resource Centers to provide more direct client assistance for naturalization fees and replacement of U.S. Customs and Border Protection Form I-94 Arrival/Departure Records, and to specifically provide further assistance to immigrants affected by the August 2023 Maui wildfires; and
 - (E) \$10,000 for furniture and equipment for the newly established positions;
- (2) Inserting an effective date of July 1, 2024; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2787, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2787, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 181-24 on S.B. No. 2461

The purpose of this measure is to:

- (1) Authorize medical cannabis dispensaries to purchase cannabis and manufactured cannabis products from other dispensaries without any showing that the purchase is necessary for a qualifying patient's continuous access to cannabis for medical use, or the cannabis and manufactured cannabis products are for medical, scientific, or other legitimate purposes; and
- (2) Require the Department of Health to adopt rules regarding medical cannabis products within a certain timeframe.

Your Committee on Conference finds that the State's medical cannabis dispensary program is intended to ensure that qualifying patients have safe and legal access to medical cannabis, which can be enhanced through the efficiencies derived from wholesaling. Notwithstanding, under existing law, a medical cannabis dispensary can only purchase cannabis and manufactured cannabis products directly from another dispensary if they can demonstrate a specific need for the purchase and obtain prior approval from the Department of Health. Your Committee on Conference finds that by authorizing sales between dispensaries of cannabis products as a matter of course, without having to demonstrate a specific need and obtain approval, this measure will increase the availability of medical cannabis, lower costs for patients, and improve the administration of the State's medical cannabis dispensary program.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have required the Department of Health to adopt rules regarding medical cannabis products no later than nine months after a product is permitted to be manufactured and distributed pursuant to section 329D-10(a), Hawaii Revised Statutes, the state law governing the types of manufactured cannabis products;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. Conf. Com. Rep. 182-24 on S.B. No. 63

The purpose of this measure is to:

- (1) Authorize the Board of Nursing to issue temporary permits for six-month periods to out-of-state licensed practical nurses and registered nurses or nurses who hold a multistate license issued by another state, territory, or foreign country, under certain circumstances;
- (2) Provide an exception from licensing requirements to nurses who are licensed in another state, territory, or foreign country and accompanying a patient from out-of-state for a period of less than two weeks and who are not employed or affiliated with a health care entity in the State; and
- (3) Appropriate funds to the Department of Commerce and Consumer Affairs to implement the regulation of nurses as required by this measure.

Your Committee on Conference finds that the State is experiencing a chronic shortage of medical professionals statewide. This measure establishes a streamlined procedure for certain nurses who are not licensed in the State to practice in the State under a temporary permit valid for six months, and requires the Board of Nursing to issue temporary permits within ten business days of the date the completed application is received to help alleviate the strain on the existing nursing workforce.

Your Committee on Conference has amended this measure by:

- (1) Inserting language clarifying that the Board of Nursing may issue a temporary permit to a practical nurse or registered nurse licensed in another jurisdiction who meets certain criteria;
- (2) Inserting language clarifying that the Board of Nursing may issue a temporary permit to a nurse who currently holds a multistate license issued by another state, territory, or country; provided that the individual meets certain criteria;
- (3) Deleting language that would have provided that temporary permits issued pursuant to this measure would in no case be valid for more than a period of six month from the date of issuance and that a new and separate temporary permit may be issued under certain conditions;
- (4) Inserting language that, beginning July 1, 2025:
 - (A) Allows an out-of-state registered nurse or licensed practical nurse to apply for a temporary permit simultaneously with an application for a license to practice as a registered nurse or licensed practical nurse in the State;
 - (B) Requires any out-of-state registered nurse or licensed practical nurse applying simultaneously for a temporary permit and license to practice to submit only one application with a single, non-refundable fee as prescribed by the Board of Nursing; and
 - (C) Requiring the simultaneous temporary permit to be issued within ten business days of the date the completed application is received by the Board of Nursing under certain conditions and to be valid until the time the Board of Nursing approves the individual's application for a license to practice as a registered nurse or licensed practical nurse, but no longer than one year;
- (5) Inserting language allowing the Department of Commerce and Consumer Affairs to employ necessary personnel without regard to chapter 76, Hawaii Revised Statutes, including one full-time equivalent (1.0 FTE) permanent Office Assistant, for the purposes of this measure;
- (6) Deleting language that would have made an appropriation;
- (7) Inserting an effective date of July 1, 2024; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. Conf. Com. Rep. 183-24 on S.B. No. 3139

The purpose of this measure is to:

- (1) Establish a Crisis Intervention and Diversion Services Program within the Department of Health to expand existing services to divert those with mental health issues to appropriate health care services;
- (2) Require the Department of Law Enforcement to coordinate crisis intervention training for state and county law enforcement agencies and training and certification for crisis intervention officers;
- (3) Define "mental health emergency worker" and "crisis intervention officer"; and
- (4) Appropriate funds.

Your Committee on Conference finds that thousands of people in the State are cited or arrested each year for offenses such as drinking liquor in public, loitering in public parks after hours, and camping on sidewalks, beaches, and other restricted public places. Most of these people suffer from issues relating to drugs, alcohol, or mental illness and may be better served through the health care system, rather than the criminal justice system. This measure establishes a Crisis Intervention and Diversion Services Program to ensure that persons having mental illnesses or co-occurring mental illnesses and substance use disorders receive appropriate treatment.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have required the Department of Law Enforcement to coordinate crisis intervention training for state and county law enforcement agencies and crisis intervention officers;
- (2) Deleting language that would have included in the list of positions excepted from State's Civil Service Law, three Crisis Intervention Coordinator positions in the Department of Law Enforcement;
- (3) Amending section 334-59, Hawaii Revised Statutes, which governs emergency examination and hospitalization of persons who are deemed imminently dangerous to self or others, by inserting language that:
 - (A) Clarifies when a law enforcement officer may gain control of the person and the procedures the officer shall take to call for assistance from a mental health emergency worker;
 - (B) Requires a Crisis Intervention Officer to call a mental health emergency worker if the Officer has probable cause to believe that the person is imminently dangerous to self or others, to determine if the person should be transported by ambulance or other suitable means to a behavioral health crisis center designated by the director; and
 - (C) Defines "crisis intervention officer";
- (4) Deleting language that would have appropriated funds;
- (5) Amending section 1 to reflect its amended purpose;
- (6) Making it effective upon its approval; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3139, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3139, S.D. 2, H.D. 3, C.D. 1.

Conf. Com. Rep. 184-24 on S.B. No. 582

The purpose of this measure is to make emergency appropriations, and reallocate certain state moneys, to fund the State's response to the August 2023 wildfires on the island of Maui.

More specifically, the measure:

- (1) Makes emergency appropriations for certain Federal Emergency Management Agency-eligible and Federal Emergency Management Agency-ineligible costs related to the August 2023 Maui wildfires;
- (2) Makes an emergency appropriation to fund the One Ohana Bank Trust Account to compensate Maui wildfire victims;
- (3) Repeals the general obligation bond appropriation for the Other Post-Employment Benefits Trust Fund and the Pension Accumulation Fund;
- (4) Temporarily lifts various restrictions on the use of the Major Disaster Fund and extends the lapse date of certain disaster relief funds to allow continued expenditures for the wildfire relief efforts; and
- (5) Requires the state Department of Defense and the Governor to submit reports on expenditures and federal reimbursements related to the August 2023 Maui wildfires.

Your Committee on Conference finds that the State's total expenses for Hawaii's response to the August 2023 Maui wildfires are expected to exceed the \$199,100,000 allocated to the Major Disaster Fund for initial wildfire response and recovery efforts. The emergency appropriations and reallocation of funds authorized by this measure are necessary so that the State may continue to aid displaced individuals and families, restore crucial infrastructure, and implement measures to prevent future wildfires.

Your Committee on Conference has amended this measure by:

- (1) Amending the appropriation to the Departmental Administration and Budget Division of the Department of Budget and Finance for noncongregate housing and other expenses related to the Maui wildfires by:
 - (A) Changing the appropriation amount from \$292,400,000 to \$297,000,000; and
 - (B) Providing that no funds shall be transferred unless matched by at least \$40,000,000 in private funds;
- (2) Deleting the appropriation to the Departmental Administration and Budget Division of the Department of Budget and Finance for services, goods, or construction that are eligible for partial federal reimbursement via certain public assistance programs;
- (3) Deleting a provision repealing the general obligation bond appropriation for the Other Post-Employment Benefits Trust Fund and the Pension Accumulation Fund;
- (4) Deleting a provision limiting the use of federal reimbursement moneys for the Maui wildfires disaster to expenditures for the State's share of services, goods, or construction that are eligible for partial federal reimbursement via certain public assistance programs, and making conforming amendments;

- (5) Deleting reporting requirements for the Governor and state Department of Defense on expenditures and federal reimbursements relating to the August 2023 Maui wildfires disaster;
- (6) Changing the effective date from July 1, 3000, to upon the measure's approval;
- (7) Changing the repeal and reenactment date of sections 37-41.5 and 127A-16, Hawaii Revised Statutes, from July 1, 2029, to July 1, 2026;
- (8) Changing the lapse date from July 1, 2029, to June 30, 2026, for any unencumbered trust account moneys retained in the account to be used for the recovery efforts from the Maui wildfires disaster that began on August 8, 2023;
- (9) Reordering certain sections of the measure for clarity; and
- (10) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 582, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 582, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 185-24 on S.B. No. 3091

The purpose of this measure is to make an emergency appropriation to the Department of Education for its food service operations.

Your Committee on Conference finds that meals provided to students at Department of Education schools are critical to the development and well-being of Hawaii's students, which have become increasingly essential for thousands of students who rely on school breakfasts and lunches. This measure provides the Department of Education with critical funding to continue food service operations at public schools.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$20,000,000 for fiscal year 2023-2024 for the Department of Education to cover its food service operations;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Conf. Com. Rep. 186-24 on S.B. No. 3092

The purpose of this measure is to make an emergency appropriation to the Department of Education for charter school operations.

Your Committee on Conference finds that the Department of Education has a statutory mandate to provide proportional funding to charter schools commensurate with the respective school's student enrollment. This measure provides critical funding to support the operations and educational opportunities for students at Hawaii's public charter schools.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$6,600,000 for fiscal year 2023-2024 for the Department of Education to provide funding for charter schools;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Conf. Com. Rep. 187-24 on H.B. No. 2340

The purpose of this measure is to satisfy several claims against the State, its officers, or its employees.

Your Committee on Conference has amended this measure by:

- (1) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (2) Deleting the appropriation of \$800,000 in general funds for a settlement in the case of Schweitzer v. State of Hawaii;
- (3) Appropriating \$35,000 in general funds for a settlement in the case of Ralph Fukumoto v. State of Hawaii, Department of Public Safety;
- (4) Authorizing the payment of \$36,536.06 in general funds appropriated to the Department of the Attorney General for a settlement in the case of State of Hawaii v. The Honorable Jeffrey P. Crabtree and the Sierra Club;
- (5) Changing the effective date to upon approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

The purpose of this measure is to provide a tax credit to taxpayers and appropriate funds for fiscal year 2023-2024 to be deposited into the Emergency and Budget Reserve Fund and Other Post-Employment Benefits Trust Fund pursuant to Article VII, section 6, of the Hawaii State Constitution.

Your Committee on Conference has amended this measure by:

- (1) Removing the provisions that provided an income tax credit;
- (2) Inserting an appropriation amount of \$300,000,000 to be deposited into the Emergency and Budget Reserve Fund and making the appropriation for fiscal year 2024-2025;
- (3) Inserting an appropriation amount of \$135,000,000 to be deposited into the Pension Accumulation Fund and making the appropriation for fiscal year 2024-2025;
- (4) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;

Conf. Com. Rep. 189-24 on S.B. No. 3068

The purpose of this measure is to make various appropriations to facilitate Maui's recovery from the August 2023 wildfires, including for repairs and replacement of infrastructure that will reduce the risk of future wildfires.

Specifically, this measure:

- (1) Appropriates \$200,000,000 from the state risk management revolving fund for disbursement of wildfire insurance claim payments;
- (2) Appropriates \$186,160,000 as a set-aside for wildfire recovery costs;
- (3) Authorizes the Governor to transfer funds to other state agencies and requires the Governor and the departments receiving those funds to report those transfers to the Legislature;
- (4) Appropriates \$10,000,000 for fire and emergency response equipment; and
- (5) Authorizes the Director of Finance to issue \$63,560,000 in reimbursable general obligation bonds for various projects on Maui.

Your Committee on Conference finds that in August 2023, the island of Maui suffered devastating wildfires that resulted in one hundred one confirmed fatalities, sweeping destruction of homes and businesses, and catastrophic impacts to the Maui community. Your Committee believes that the recovery of

Maui will require additional moneys and programs along with authorizations for the expenditure of various federal funds. Your Committee further finds that a prudent recovery should include infrastructure repairs and replacement that will help to prevent future wildfires.

Your Committee on Conference has amended this measure by:

- (1) Amending the purpose section to reflect current efforts to support the Maui wildfire recovery and the reduction of future wildfire risks;
- (2) Adding an appropriation of \$62,500 in general funds for a temporary library to be located in Lahaina, Maui;
- (3) Adding an appropriation of \$424,344 in general funds for six full-time equivalent temporary positions within the Department of Human Services;
- (4) Adding appropriations of \$13,370,000 in general funds and \$12,751,554 in federal funds for emergency management related to the Maui wildfires;
- (5) Adding an appropriation of \$521,473 from the conservation and resources enforcement special fund for the Department of Land and Natural Resources, Division of Conservation and Resources Enforcement, for the Maui wildfire recovery efforts;
- (6) Adding an appropriation of \$1,000,000 from the public utilities commission special fund for consultant contracts for utility dockets, to be expended by the Public Utilities Commission;
- (7) Adding an appropriation, or authorizing the expenditure of federal moneys received by the State, of up to \$20,000,000 for wildfire response, recovery, and prevention measures;
- (8) Adding an appropriation of \$7,425,000 in general funds for fire response and rehabilitation, and wildfire fuels reduction, contracts;
- (9) Adding an appropriation of \$1,412,928 in general funds for twenty-two full-time equivalent positions within the Native Resources and Fire Protection Program of the Department of Land and Natural Resources;
- (10) Deleting from the measure the authorization to issue reimbursable general obligation bonds in the amount of \$63,560,000 for various projects on Maui since the authorizations for those projects were recently included in the Supplemental Appropriations Act of 2024;
- (11) Adding an appropriation of \$10,000,000 in general funds for fire and emergency response equipment;
- (12) Adding an appropriation, or authorizing the expenditure of federal moneys received by the State, of up to \$3,549,000 for fire and emergency response equipment;
- (13) Adding an appropriation of \$900,000 from the public utilities commission special fund for consultant contracts for utility dockets, to be expended by the Division of Consumer Advocacy;
- (14) Adding amendments to the General Appropriations Act of 2023, Act 164, Session Laws of Hawaii 2023, as amended by House Bill 1800, H.D. 1, S.D. 1, C.D. 1, passed by the Legislature during the Regular Session of 2024, to:
 - (A) Require that of the general fund appropriation for the Hawaii Association of Conservation Districts, \$400,000 shall be expended in accordance with chapter 180, Hawaii Revised Statutes, and also requiring that the moneys shall be used to match extramural funding for stormwater management for drought resiliency and reducing wildfire risk, along with requiring that the Department of Land and Natural Resources submit a report to the Legislature accounting for the usage of the moneys;
 - (B) Require that of the general fund appropriation for amelioration of natural disasters, the sum of \$194,000 shall be expended for civilian auxiliary aviation services; and
 - (C) Require reimbursement to the State from the County of Maui for certain wildfire recovery projects;
- (15) Adding an appropriation of \$2,334,681 for the University of Hawaii Economic Research Organization to conduct a multiethnic cohort study on the health effects of the August 2023 Maui wildfires and to develop and maintain a registry of those affected by the wildfires to assess their long-term health and well-being and the impacts on communities;
- (16) Requiring the lapsing of appropriations in the measure that are unencumbered as of June 30, 2025;
- (17) Changing the effective date to July 1, 2024; and
- (18) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.
