THE
NINTH LEGISLATURE
STATE OF HAWAII
REGULAR SESSION OF 1978
JOURNAL OF THE SENATE

FIRST DAY

Wednesday, January 18, 1978

In accordance with the provisions of Section 11 of Article III of the Constitution of the State of Hawaii, the Senate of the Ninth Legislature of the State of Hawaii, Regular Session of 1978, was called to order at 10:00 o'clock a.m., Wednesday, January 18, 1978, by the Honorable John T. Ushijima, President of the Senate.

At this time, the President appointed Senators Ching, Taira and Yee to escort Reverend Leon Sterling to the dais for invocation.

The Committee of three escorted Reverend Sterling to the dais and was discharged with thanks.

The Divine Blessing was then invoked by Reverend Sterling.

The Roll was then called showing all Senators present.

The President then addressed the members of the Senate and guests as follows:

"Mr. Governor, Lt. Governor, Fellow Senators, Guests, Ladies and Gentlemen:

Upon assuming the Presidency of this body three sessions ago, I asked that we join together in setting the theme of the Senate in effectiveness, efficiency, responsibility, and responsiveness.

I suggest that these watchwords are even more important in our deliberations this year.

We are all aware that a constitutional convention will be held later this year to review the fundamental law of our State. The imminence of this event should not deter us from fulfilling our own obligations in this forum. On the contrary, it adds impetus to our responsibility to effectively and efficiently determine sound public

policy in the many legislative issues before us.

There is much work at hand for all of us.

The recessionary trend of previous years appears to have been curbed. Yet, our economy remains uneasy, and the related problem of unemployment persists at levels that concern us all. These matters merit our full attention and our most imaginative thinking so that meaningful corrective programs can be drafted through our collective efforts.

The majority program we have assembled during the interim months again focuses sharply on our economic needs. Certainly, every indicator we have seen points up the public's desires for more job opportunities and for fresh economic initiatives.

Nationally, President Carter has given highest priority to the energy program he has submitted to Congress.

We believe that the energy issue is even more critical to Hawaii, isolated as we are in the middle of the Pacific. Our almost total dependence on imported foreign oil for our energy requirements is a matter of urgent concern to us all. Our vulnerability on this score was indelibly impressed upon our motorists during the gas shortage four years ago.

Whether the Federal government will approve strategic oil reserves in Hawaii is still uncertain. We cannot risk exposing our State's productive capacity to the mercy of oil suppliers. It is imperative that we take the necessary initiatives today to protect ourselves from having our economy brought to a standstill by forces over which we have little or no control.

We are indeed pleased and we welcome the Administration's proposals to accelerate development of alternative energy sources for Hawaii. A comprehensive

energy program is certainly one of the most important issues for us to face in these times. An important consideration in encouraging energy conservation is to focus on and promote such practices at the home consumption level.

We have already enacted tax incentives to inspire wider consumer acceptance of solar heating devices and other systems that do not rely on conventional energy sources.

We propose even more liberal tax credits to make alternative systems more attractive and to give consumers a cost-effective return on their investment over a shorter run.

To generate broader public awareness of the economic importance of energy self-sufficiency, we propose development of an extension service system and a 'Hawaii Solar Center' to assist our citizens in taking greater advantage of the natural energy resources so readily available in our Islands.

Because we consider the energy program so vital to Hawaii's future, Senator Yim's Committee on Energy and Natural Resources plans to move expeditiously on the package of legislation that will be referred to his committee. I suggest that all of us put our best thoughts into this program so that we can come up with the most effective legislation we can conceive to protect Hawaii against economic catastrophe.

A second major component of our majority program focuses on aquaculture development, which has been a priority element in our past sessions.

Many of us have long recognized the great potential that lies in aquaculture. Properly stimulated and developed, countless new jobs can be created through this program. As with alternative energy systems, Hawaii is ideally suited for fishfarms and other aqua-businesses.

We have made substantial progress in research and planning and in putting this budding industry on an equal footing with agriculture in terms of taxation, permit requirements, and loan assistance. Nevertheless, the industry remains largely in its infancy.

One problem identified is the diffusion of aquaculture programs among several State agencies. The consequence has been an apparent lack of coordination.

To resolve this difficulty, we propose designating the Department of Agriculture as the lead State agency in all aquaculture activities. We also believe it timely to establish an Aquaculture Information Center as the clearinghouse for the prospective fishfarmer to contact for permit requirements, market analyses, and current research findings.

Because of the many permits required to start an aquaculture business, we also propose a single, master permit system to consolidate all requirements and thus shorten the time between conception and construction of a fishfarm.

If we mean to become more self-sufficient, to strengthen our export capacity, and to create the new jobs our people need and want, we must be bold and willing to take some risks in making aquaculture a viable industry here.

To be sure, there will be many other subjects that will require our earnest attention in the days and weeks ahead. We share, of course, the public's concern over crimes of violence and organized criminal activity, as was brought out in the State Crime Commission's recent public opinion survey. We recognize that such concerns often stem from a sense of frustration over the difficult course of extracting justice from arrest to conviction to incarceration. If the public perception is correct, then the anxieties of the man-on-the-street should be eased. For our part, we are prepared to work for a greater degree of effectiveness in controlling crime with those law enforcement agencies that are directly involved and responsible for bringing criminals to justice.

We also acknowledge our concern over the urban design of our capital city. The progress of the Kakaako Redevelopment Project approved two sessions ago holds our continued interest, and we look forward to a report providing us a timetable on this ambitious State-city program.

In a related activity, the two-day seminar scheduled for later this month is intended to provide us with a comprehensive briefing on mass transit so that any decision we may be required to make on this issue can be arrived at with the best current information available.

In all our deliberations, we must be alert and sensitive to the total spectrum of opinions and views presented to us. We open this session in a spirit of cooperation -- with our counterparts in the House, with the Administration, with the county governments, and with

the various publics that appear before our committees. As always, we seek reasonable accommodation of all views in the interest of unity and harmony.

Finally, I suggest we turn our thoughts to another special significance of this date. Today, we also observe the bicentennial anniversary of Captain Cook's arrival in Hawaii.

We may differ on the value of this occasion, but I think we can all appreciate and respect the spirit of adventure and the human desire to extend man's understanding of this earth that certainly must have inspired Cook and others who dared explore unknown fields.

As chosen representatives of our people, it is fitting that we reflect upon those virtues possessed by all great leaders of the past. They accepted their responsibility to make decisions, however difficult, when the time for decisions arrived.

Mindful of the unity that has bound us together in past sessions, I am confident that the members of this body are prepared to accept the task at hand with a sense of genuine purpose and commitment to the common good.

Thank you very much."

Senator Yee then spoke as follows:

"Mr. President and fellow members of the Senate:

This is a time for optimism and cooperation. As Senate Republican leader, I will not depart from that theme at this time.

First, Mr. President, I want to take this opportunity to thank you, as President of the Senate, for your fair and objective personal leadership over the past three years.

I also want to express my personal appreciation to other majority committee chairmen, who, in contrast to some in the past, have followed your leadership in treating Republican bills and resolutions very fairly.

Last year, for example, we had nearly twenty of our measures become law because they were evaluated on their merits instead of partisan considerations. I am confident that this same form of enlightened leadership and fairness will be demonstrated in the Senate again.

Mr. President, the Republican members

of this body share your concern of energy and the development of aquaculture. It grieves us to see the large percentage of unemployment, the increase in crime, and the lack of finances to meet our obligations. We are also deeply concerned about our education system, the high cost of housing and welfare and the need to protect our environment.

We pledge to work with you and your colleagues in this body to alleviate these persistent problems and help make a better Hawaii for our children and their families.

Equally as important is our concern to help improve the image of our State Legislature. As most of us are aware, the image of elected officials throughout the United States is not at its highest esteem. The confidence and faith of the people in their elected representative district are at a seriously low level. Ironically, part of this lack of confidence can be attributed to certain elected officials who use other elected officials as scapegoats or whipping boys, without realizing they are hurting so many of us in public office.

My pledge is that the Republicans plan to do all it can to restore the integrity and confidence and work under your leadership, so that we will have a very profitable and meaningful session this year.

Thank you, Mr. President."

At 10:30 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 10:45 o'clock a.m.

Senator Kawasaki then rose on a point of personal privilege and stated as follows:

"Mr. President, I feel compelled to respond to some very scurrilous statements and attacks made on some of the very highest State positions, specifically, the Governor, the Lt. Governor and myself by Mayor Frank Fasi, impugning the integrity of the work of the duly constituted Senate Subcommittee investigating the Kohala Task Force.

Mr. President, at a luncheon gathering with a sizeable audience on Wednesday, Mayor Fasi, in his typical fashion, made some very derogatory remarks impugning the integrity of not only my Committee members and their work with the investigation of the Kohala Task Force, but also the character of the two highest government officials working in consonance with us to bring a better life to the people of this State.

Mr. Fasi, in his typical fashion, likened to the tactics of the late Joseph McCarthy, said that he has complete knowledge of a 'deal'... a 'deal', if you will, made between the Governor, the Lt. Governor and myself. The terms of the deal consist of the following: that in return for the support of Governor Ariyoshi for Lt. Governor Nelson Doi's campaign two years ago for the mayorship against Mr. Fasi, that Lt. Governor Doi would not run against the Governor for that position in 1978. Part of the deal included that as a very strong supporter, admirer and close friend of the Lt. Governor, that I, too, was asked and consented to dropping the investigation or the Kohala Task Force inquiry.

A committee, appointed by you and which I chaired, did investigate the improprieties as we saw it in the

Kohala Task Force projects. Fasi said that I dropped that particular investigation as part of this deal to gain support for Lt. Governor Nelson Doi's race against him for mayor.

If Mr. Fasi only had informed himself properly, he would have found out that I not only did not drop that investigation, but that we came out with a very critical report outlining and specifying some of the improprieties we found in the Kohala Task Force projects.

As a matter of fact, this report was the basis for the present investigation being conducted by the County of Hawaii in its interest in this matter. I have been approached by Jim Dahlberg, the Chairman of the Council of the County of Hawaii who will be conducting this investigation, and by other members of that Council, and I have assured them of every cooperation, of every bit of information that my committee has uncovered; and that we will do everything possible to help them with the investigation, and that we will do this as a matter of public interest.

Fasi stated that as part of the deal that I was requested and again I consented to dropping my constant inquiry about the propriety of the existence of the Newspaper Preservation Act, which we enacted in 1973. He said that I had gone into a deal with the owners of the newspapers, the Honolulu Star Bulletin and the Advertiser, and that in return, that I would be assured of ample publicity and good support from the newspaper, the press, for Nelson Doi's campaign against him.

I would suggest to Mayor Fasi that he inquire with the owners of the Honolulu Star Bulletin and the Advertiser whether such a deal was made. I must say in compliment to the integrity, that although Mr. Chinn Ho, a majority stockholder in the Star Bulletin, and Mr. Giannellia who heads Gannett Corporation in Hawaii here, and to the credit of both Mr. Thurston Twigg-Smith and George Chaplin, who are personal friends of mine, they have never at any time, approached me for an agreement for them to cover Nelson Doi's campaign to his advantage against Fasi in return for my not saying anything about the newspaper monopoly situation.

As you recall, Mr. President, and for the edification of the minority members, on January 3rd of this year, prior to the session's starting, in a majority Senate caucus, I again approached the subject among my colleagues as to whether or not this was the time for us to repeal the Newspaper Preservation Act. Only recently, as you know,

the newspapers again raised advertising rates which will be passed on by the super markets to our consumers of this State. Again we discussed perhaps the need for the repeal of that Act in order to discourage wanton raising of advertising rates which affect the consumers of this State. So this answers Fasi's allegation that I am no longer interested in bringing about a cessation to the monopoly situation in the newspapers locally.

Now Mr. Fasi knows only too well, perhaps better than anybody else, that Lt. Governor Nelson Doi and myself would never enter into any kind of a deal whether with Mr. Fasi himself, with the Governor upstairs, with anyone else, to run or not to run for any particular position. Mr. Fasi knows better. But this does not faze him. This is just the beginning of Mr. Fasi's technique and campaign this year to use anyone, anybody's name, any situation to publicize what he considers this conspiracy against him throughout this State, to prevent him from running for Governor.

Now, ordinarily, I would just dismiss this as just another one of Fasi's antics, but when the integrity of high government officials with whom I serve and the integrity of the work of the Senate Subcommittee that investigated Kohala is involved and is impugned, then I think it is my responsibility to respond.

I agree with the Minority Leader who said in his Opening Day response to your Address, Mr. President, that the public has developed a rather jaundiced view about politicians and political bodies generally. The image is a little tarnished of late as a result of Watergate, the Bert Lance affair and the Kukui Plaza scandal, which was technically stymied through some technical procedures.

Now I think it is the responsibility of every one of us here as Senators, that anytime any person or any group of persons make an unjustified remark questioning the integrity of our work, or questioning the character of any one of us who are Senators, without justification, that we had better respond as a matter of public interest, again to restore public confidence in the people they elect.

Thank you, Mr. President."

RE-REFERRAL OF A SENATE BILL

The President made the following re-referral of a bill that was introduced on Thursday, January 19, 1978:

Senate Bill Referred to:

- No. 1554-78 Committee on Consumer Protection, then to the Committee on Judiciary

At 9: 36 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 9: 37 o'clock a.m.

At 9: 38 o'clock a.m., the Senate stood in recess subject to the call of the Chair to meet in joint session with the House of Representatives in accordance with House Concurrent No. 1.

JOINT SESSION

The Joint Session of the Senate and the House of Representatives was called to order at 10: 05 o'clock a.m., by the Honorable James Wakatsuki, Speaker of the House of Representatives.

At this time, the Speaker introduced the following to the members of the Joint Session: the First Lady of Hawaii, Mrs. Jean Ariyoshi, and Lt. Governor Nelson K. Doi.

The Speaker then appointed the Committee from the Senate, composed of Senators Kawasaki, Ching, Taira and Yee, and the Committee from the House, composed of Representatives Kondo, Kihano, Yuen and Ajifu, to escort the Honorable George R. Ariyoshi, Governor of the State of Hawaii, to the dais.

Representative Naito then presented Governor Ariyoshi with a lei on behalf of the Senate and the House of Representatives.

The Speaker presented the Governor of the State of Hawaii, the Honorable

George R. Ariyoshi.

Governor Ariyoshi addressed the Joint Session as follows:

"Mr. Speaker, Mr. President, Mr. Chief Justice, Mr. Lieutenant Governor, members of the Ninth State Legislature, distinguished ladies and gentlemen, my fellow citizens:

It is a high privilege to address this august body -- you who are charged under our Constitution with determining the policies of our State. All of you have diligently and conscientiously tackled the many problems and challenges facing our community. I am very, very grateful for the cooperative spirit with which you have worked with me.

Twelve months ago, I stood before you at this very same podium and told you that we must become masters of our future and that if we have no say over who comes here, and in what numbers, we might as well abandon any thoughts of a Hawaiian future.

As I said then, and I repeat now, the fundamental question underlying everything we do is whether we have spiritual determination to be masters of our destiny.

These Islands -- through the days of the Monarchy, the Republic, the Territory, and the State -- have reached many turning points which have shaped the destiny of all those who live here now and those who will live here in the future.

This year, we will once again reach a turning point in our history. People of every age, of every era, tend to feel that the decisions facing them are the most crucial and the most important of all of history.

I would say that our age, our era, certainly is no different.

Most of us are convinced that the decisions we make in the next few months and years -- or the decisions that we decline to make -- very well can be the difference between success and failure in our State.

Time, since its beginning, seemingly has accelerated, demanding more and more of each generation and giving fewer moments in which to accomplish objectives.

1978 is a year of decision for Hawaii, and indeed for our style of life.

We are serious when we talk about a preferred future for our Islands and for all of our citizens -- those who live here now and those who will live here

after we are all long gone.

If we do not seize the opportunities now present to assert ourselves and to implement our wishes, then we will have only ourselves to blame. It will be tragic if, in the year 2000, the leaders at that time look back a quarter of a century on the lost opportunities and with great remorse for what might have been, but wasn't.

We have been told that possibly nothing of significance will come out of this legislative session, that because 1978 is an election year, all of us will be too cautious and too concerned about our images to propose and act upon anything controversial and to this, I say, nonsense! The needs and the concerns of the people know no political seasons, and I trust that we will answer any such notions that we will have a 'non controversial' session by enacting significant legislation and spelling out clearly and boldly for all to see the directions toward which we feel this State should move.

Today, I would like to report to you briefly on how we have perceived our commitment to the future of Hawaii and what we have been doing to implement that commitment.

Early last summer, I assembled a group of State workers, expert in a variety of disciplines --land use, health, planning, agriculture -- to join with me in an effort to begin to address our concerns over the rate of growth in Hawaii.

I asked them to let their minds run free, not to be constrained by negative thinkers or by past defeats, and to identify for us possible strategies by which we might reasonably expect to gain some control over our future.

I told them, as I have told others, that I am not advocating a no-growth policy, but that I am seeking the right amount of growth, the right kind of growth, and in the right places.

They have responded to this difficult task by identifying a variety of potential legislative and administrative actions which I will ask you, and the citizens of Hawaii, to consider in the days which lie ahead. Many of these ideas remain conceptual in nature.

Many will require further review and analysis. As we delve into them more thoroughly, some may fall by the wayside. But it is my hope that you will allow these legislative halls to become a forum for discussion and for dialogue on these and other ideas

which will be put forward as we, together, seek a direction for tomorrow.

We are submitting these proposals without the benefit of public hearings. We want the Legislature to provide the forum which so far has been lacking. We want you and our citizens to be very frank in expressing opinions on these proposals, to articulate your hopes and desires for the future of these islands, and to become partners with the Executive Branch of this government in shaping our future.

Let me briefly share some of the major areas of thought which will be presented to you.

First, we believe that we must seek the kind of growth for our economy -- in tourism, agriculture and other commerce -- which will not encourage in-migration, but rather will provide jobs for our own people, at decent wages, and in an atmosphere which enhances their sense of well-being and dignity.

In this regard, we will propose legislation appropriating funds which will again make the State a partner with the City and County of Honolulu in providing much needed capital improvements in Waikiki and to encourage the renovation and redevelopment of the existing visitor facilities.

In addition, we will propose the implementation of a program to encourage intra-state tourism and recommend legislation relating to managing the rate and nature of tourism growth. We will also propose legislation which will encourage the employment of Hawaii residents in the public and private sector and continue on-going efforts to match available jobs with the talents of resident job-seekers.

Secondly, we will continue our efforts to seek greater self-sufficiency for Hawaii by increasing our agricultural diversity and preserving our agricultural lands. To me, this is vital if Hawaii is to remain economically viable and environmentally attractive.

We will therefore propose legislation which will allow the State to purchase the development rights for agricultural land. We will propose that leases of public lands for agriculture be allowed on a negotiated basis in order that agricultural enterprises are not left out of the process of obtaining viable acreage. We will propose, also, that agricultural lot sizes be a minimum of two acres and that the penalty of failure to retain land dedicated to agriculture be raised from ten percent to 25 percent of the maximum taxes due.

Next, we will propose actions which the State can take to directly discourage in-migration and immigration.

These will include the use of the survey technique to identify more specifically why people come to Hawaii and why they leave. We will recommend that you consider statutory amendments that exclude able-bodied adults, without minor children, and below a certain age, from receiving State-funded welfare payments. And, we will ask that you consider authorizing a study of the impact of a system of taxation which would impose higher tax rates on future new residents on the basis that their presence directly and immediately places new costs upon the public sector for services.

Also, we will seek to improve the availability and accessibility of family planning services so that our own resident population will have a choice in the matter of family size.

As I stated to you in my message last year, we also believe it is necessary to pursue with the Federal government remedies to current immigration laws which unfairly impact Hawaii and threaten certain other states and cities.

We will work with our Congressional delegation to explore the avenues available to us in amending present statutes so that immigrants may be more equitably apportioned among the states and so that states receive Federal funds proportionate to the number of immigrants choosing to reside within their boundaries.

I intend to pursue several other programs which I feel are vitally needed for the integrity and the stability and the well-being of certain of the states, including Hawaii, in regard to immigration.

On the one hand, Congress establishes quotas for the number of immigrants that are admitted annually to the United States, reasoning, quite correctly, that our society can absorb just so many persons who may put special burdens on our institutions. But the same Federal government that recognizes that the entire nation can absorb only so many immigrants fails to recognize that individual states have identical concerns, often magnified because of lack of resources.

To me, it is terribly inconsistent for the U.S. government to say that only so many immigrants can enter the United States in any given period, but then fail to take into account the special needs of the individual states.

In connection with this, I am exploring proposing congressional action which will establish state-by-state quotas for immigrants, based on population and ability to provide services.

Also, I am going to explore Federal legislation that would require each immigrant to remain a minimum period of time in the state to which he or she first settles before moving to another state. The theory here is that once immigrants establish roots and lifestyles in certain areas, they are less likely to resettle in such target areas as Hawaii, which presently are bearing a disproportional burden for a Federal policy in which they have no voice.

Also, I feel the Federal government must take measures to make sponsors of aliens entering this country more responsible for their economic well being. I am suggesting that Federal action be taken to hold sponsors financially responsible if public assistance is needed to support an immigrant during a specified period of time after entrance into the United States.

I emphasize, as I did in my previous State of the State message, that my actions in the field of immigration are not designed to separate families. Far from it. I feel that the reuniting of families must receive the highest priority possible in determining who may enter this country. But at the same time, we must also be realistic. This State cannot accommodate every person who may wish to live here. To me, it is that simple.

We must find solutions here in Hawaii, and working in concert with the Federal government, to this growing and encompassing problem. No longer can we shrug off the problem with the easy remark that this is a Federal matter. Yes, it certainly is a Federal matter, but at the same time, the Federal government is a creature of the 50 states and it simply must be responsive to the needs of the member states of this and other areas.

It is with this in mind that I intend to pursue this issue vigorously in the months ahead until we achieve an equitable balance between human needs on the one hand and our State's needs on the other. I am confident that this balance can be achieved.

And finally, we need ways to control both the timing and the location of growth in this State.

In this regard, we will send legislation to you which would require the adoption of specific criteria by the Land Use Commission for deciding whether lands should be made available for development. These

criteria would include consideration of the need, location, environmental effects and public costs of future urban development. In addition, we will propose that a study be undertaken of whether the Land Use Commission should become a full-time body.

This is part of the package of proposals that we will offer for your consideration this session in the areas of growth and the future of these islands.

We need these tools, and others, with which to shape and direct the future of this State. You members of the Legislature are the only ones who can provide them.

Without these tools, we will lose, and continue to lose, precious opportunities. With them, we can begin to move in the directions that we all desire and that are so necessary for all the citizens of this State.

Because I feel that action is so vitally needed not only in the areas of our future but also in the areas of our present, I wish to discuss with you for a few minutes some of the issues that will come before you this session.

The continuing escalation of our welfare costs is of great concern to us all. Last year, I proposed a number of measures to curb the rapid increases in general and medical assistance payments. These measures are not intended to cut off assistance from the needy. However, we cannot endure these increases year after year at the expense of the curtailment of other programs, and I urge your favorable consideration and action of the proposals now before you.

In this case, perhaps money speaks louder than words. When year after year, we find it necessary to provide huge unanticipated additional appropriations for a single State program -- \$8 million this year and \$17 million for next year -- then we must take action.

Another nagging concern in this area is welfare fraud. Last year, with limited support, we successfully prosecuted 65 offenders and recovered \$150,000. This year, I am requesting more funds and positions to continue this crackdown on welfare abusers. These offenders are an unnecessary burden on our taxpayers and they bring the entire program into public disrepute.

In the same area, we are asking for funds this session to set up within the Attorney General's office a special

unit to investigate and prosecute those providers who abuse the Medicare-Medicaid programs.

On transit, this Administration addressed itself to the enormous and growing problems of traffic congestion, particularly on the island of Oahu. We have added new highways and we have widened and expanded existing ones. While these measures have helped, other alternatives must also be pursued. Obviously, we cannot forever endure an increasing and worsening congestion of automobiles. There has to be a turn-around and we must decide soon what that is to be.

I feel that we must come to grips with this issue this session. It is my feeling that not all of the answers are yet at hand, despite what some persons would lead us to believe. We are told, for instance, that a fixed guideway system, linking this city along a narrow corridor, is the only answer. It may be the ultimate answer or it may not be. Frankly, I do not think anyone in this State yet has the answers to who is going to pay for such a system, not only to construct it, but even more importantly, to operate it. The costs of such a system would be enormous for every tax-paying citizen in this State.

The questions on mass transit are vital to this State, and I am happy that you are attempting to get all the facts to seek the best possible solutions.

In another area, we have underway a plan to redevelop the Honolulu waterfront area, to make it a people-place, and to link it with the downtown Honolulu business area. I find the plans exciting for this old, but ever new, area of our city. I urge your support on this project.

The State has long sought a system of integrated inter-island transportation to accommodate both the passenger and cargo needs of our State. We continue to pursue this goal and are prepared to continue jointly with private enterprise the development of semi-submersible vessels as a possible answer to one of the major gaps in available systems, and in this regard, I am asking for \$160,000 for developmental planning funds to be used in a joint effort with interested parties in the private sector.

Also, we are studying very carefully the consequences of the termination of Sea Flite operations and the announced curtailment of inter-island cargo service by Hawaiian Air.

I want to report to you also that this Administration intends to pursue vigorously a joint operation of Barber's Point Airfield as a general aviation airport for Oahu.

I am totally in support of moving general aviation from Honolulu International Airport as a matter of safety for all of our traveling public. At the same time, I am reluctant to locate a new airport in any of our rural residential areas. It has long been my feeling that if persons decided to live near existing airports, they at least knew what they were getting into. Only as a last resort should we impose a new airport facility in an area where none has existed before and, for that reason, I am going to pursue very vigorously a joint sharing of the military facilities at Barber's Point. I will enlist the help of our Congressional delegation and I will keep you informed of the progress on this.

Last year, we submitted for your consideration a bill which would have provided for a merging of our employees' retirement system with the social security system. We viewed this as an urgent matter because of the increasing costs of our present system to both the government as an employer and our employees. I reiterate the urgency of this legislation now because of recent increases in social security taxes which serve to compound an already serious problem.

In the area of crime, I urge you to give serious attention to the findings and recommendations of the Hawaii Commission on Crime which is operating under the able leadership of Lieutenant Governor Nelson K. Doi.

This commission has embarked on a very ambitious and very much needed undertaking to identify problem areas and to offer solutions for the protection of our citizens.

In another area, aquaculture is proving to be one of the fastest growing industries in Hawaii. Sales of aquaculture products in 1978 are expected to increase 500 percent over 1977. Conservative forecasts for this industry indicate that wholesale receipts may reach \$84 million in 1990 and create thousands of new jobs.

As the President of the Senate and the Speaker of the House pointed out in their addresses at the opening of this session last week, aquaculture offers tremendous potentials for this State. Therefore, I am requesting \$750,000 for research and development, and \$1.25 million to match \$3.75 million in Federal funds for the construction of a Tropical Aquaculture Center in Hawaii. I am convinced that these dollars will be repaid with great interest in the years ahead as the aquaculture

industry flourishes and provides thousands of productive jobs for our citizens.

The Federal government, in conjunction with the University of Hawaii, is very seriously considering the establishment of a Tropical Agricultural Center in Hawaii. This Center, supported by Federal and State dollars, would create programs covering agricultural education and research and development needs relevant to the Pacific and Asian regions. The establishment of the Center would undoubtedly attract research activities of many private sector firms involved in tropical agriculture; further expand employment opportunities for University graduates; and draw needed capital into Hawaii. I will communicate with you further on this project.

For many years, we have expressed the desire and the need to develop Kakaako to its fullest potential. I am happy to report today that we are ready to begin the first of three critical planning phases to make the development of residential, recreational, commercial and light industrial uses in this area a reality. This year, we are requesting nearly \$2 million to fund the first phase. The total planning cost will be \$6 million and will pave the way for a development program that will help our construction industry, provide new job opportunities, new homes, and recreational areas for our residents.

I know that the private sector has been patiently awaiting government action for many years and I urge its cooperation and understanding as we work together on this landmark project. Kakaako may not be the answer to all our urban problems, but it is a welcome and long-awaited start.

With your strong support, the State has made great progress in energy management and conservation and in the research and development of alternate energy resources. Federal recognition of Hawaii's progress is evidenced by the growing commitments of Federal funds for our energy programs. In order to step up research and application of our natural energy resources, I am requesting authorization to spend \$5 million on promising projects. Our funds will be used to match Federal dollars whenever and wherever possible. In addition, with the support of Hawaii's Congressional delegation, we will continue to press the United States Department of Energy for a strategic petroleum reserve to be located here. I am sure that all of us are aware of our almost total dependence on oil and certainly we all vividly recall the 1974 energy crisis and the gas plan. Action this year is vital and will move us toward achieving our goal of reducing our dependence on oil imports wherever

possible.

I want to reaffirm my total commitment to the University of Hawaii and to higher education in this State. Despite a lack of all of the dollars we would like to spend in the UH system, I feel that tremendous progress has resulted in the past year and I am confident that this progress will continue, under enlightened administration and programs. Just as I am asking for planning in all aspects of our future, I am asking, too, that this legislative body address itself decisively this session to a West Oahu campus.

My feeling is that we vitally need another four-year undergraduate program on the island of Oahu other than the Manoa campus. We need it not only to relieve physical pressures on the Manoa facilities, but also to provide a more relaxed atmosphere for those of our students who would benefit from such an environment.

But while favoring another undergraduate college, I do not favor spending enormous, or unneeded, sums of money to create one. I am of the opinion that we should attempt to acquire a 44-acre parcel of Federal land now being used by the Navy as a drum-storage area which is adjacent to Leeward Community College. This land would provide space for expansion while at the same time permitting a sharing of existing and new facilities. I think it would be the height of folly for us to spend enormous sums of money on creating a totally new campus when we can mesh with already existing facilities and thereby serve the people for less money.

I urge your earnest consideration of such a plan.

I want, also, to take notice today of what I perceive to be a new spirit and a new dedication in the operation of our public school system. I am tremendously encouraged by the accomplishments of the past several years in the education of our young, and in the plans for the future. I am impressed with the efforts to bring a greater involvement on the part of all of our citizens to the process of education, and also to provide for greater flexibility in the educational process, extending down to the district and school levels. We are intensifying efforts to involve the total community in making a commitment to quality education in this State and I feel we definitely are moving in the right direction.

I was tremendously encouraged, incidentally, by the results of the first Governor's conference on

education held three weeks ago. The conference focused on our problems as well as our achievements and set a direction which I hope we will pursue with success in the years to come.

The Department of Accounting and General Services and the Stadium Authority have begun to explore the possibilities of expanding our Aloha Stadium site at Halawa into a complete sports and convention complex consisting of a multi-purpose arena accommodating perhaps 20,000 persons for a variety of events. Such exploration will necessarily take into consideration the plans being developed by the City and County of Honolulu.

This island needs such a complex, not only to complement existing facilities and satisfy existing needs, but also to attract major league basketball and hockey teams and to provide adequate facilities for even the largest conventions, including, perhaps, the nominating conventions of our two major political parties.

And now, I would like to discuss with you very briefly a document which I put a great deal of hope for the future -- the State Plan.

In your wisdom, you ordered that such a document be assembled. The Plan brings together the collective thinking of the State on the needs and desires of our people. It represents our objectives and details the machinery needed to achieve them. It spells out our priorities and calls for a statewide planning framework. What is being proposed is a mechanism whereby State and County activities can be integrated in a framework which recognizes the distinct roles and responsibilities of each level of government.

All this has been accomplished in the State Plan which, if adopted this session, will be the first such document in any of the fifty states.

Once again, Hawaii will have led the nation in innovation and good government, but obviously, we should not adopt this document just to be first. We should adopt it because it will lead to a better Hawaiian tomorrow.

I will be sending you several of the State Plan's working tools for your consideration and approval this session.

The first of these tools is what we call the priority directions. While the State Plan articulates the long-range aspirations of our people, the priority directions list detailed challenges for immediate attention and action by this Administration and this Legislature. Priority directions, once adopted by you through concurrent resolution,

will provide the necessary direction for State and County agencies as well as the private sector over the next years. I wish to note that our legislative packages reflect the directions detailed in this document.

A second tool of the State Plan is the State functional plans. The first of these plans -- tourism, housing, agriculture, and transportation, are being prepared for your consideration. These plans assess our needs on a statewide basis and play the vital roles of guiding the allocation of public resources in the future. This role is exceedingly important, given the limitations of our resources and the need to manage them in the best possible manner in order to achieve the goals and objectives listed in the State Plan.

I urge you, then, to study the State Plan and its accompanying legislation, to offer us your input on it, and ultimately to adopt it, if you agree with us on its importance.

The Hawaii State Plan is not the end, it is a beginning. It is the beginning of us finally taking control of our destiny. It will serve notice that we know what is good for this State, what is proper, and what is achievable.

Thus far today, I have concentrated on the future of these islands, properly, I feel, because there is no more important subject.

But for a few minutes, I would like to share with you some of my thoughts on the immediate past, and what we have achieved, working together, for the good of this State.

I am sure that we are all mindful of a recent survey that shows a discouragingly low public regard for the functions of government and how those functions address themselves to the needs of the people.

This disenchantment with government certainly is not restricted to Hawaii. Our figures were about the same as those recorded nationally, but this is of little comfort to those of us in government. I find it disturbing and disconcerting, particularly when this public perception of government is measured against the concern and the effort that are expended in all branches of government for the benefit of our people. That these efforts are not perceived and appreciated is a genuine sorrow to me, and I assume to you also, and I feel this disenchantment with government is composed of many parts.

For one thing, there is a general malaise throughout this country on the part of the governed toward those who govern. Some of this is understandable since in these days of financial and social complexities, the expectations of citizens often exceed the abilities of government to perform.

But at the same time, I think all of us have been remiss in not telling our constituents just what we have been doing -- and why. We have not made them equal enough partners, certainly in information, in the governing process. We have tended too much, possibly, to feel that doing a good job was tantamount to being perceived as doing a good job.

So possibly it would be a worthwhile exercise for the next few minutes to note briefly what we have achieved -- working together, you and I, for the common good -- in the past few years.

Certainly the accomplishments have been many and varied. They have touched on every conceivable aspect of life in these islands.

They range from the acquisition of hundreds of acres of park lands to be held in public trust, to helping the elderly; from putting more of our citizens onto the land through the Hawaiian Homes program, to striving to alleviate traffic congestion on Oahu; from bold and aggressive steps to secure alternate energy sources for this State, to fiscal responsibility; from a more progressive and humane treatment of our mentally incompetent and disturbed, to the successful operation of Aloha Stadium; from welfare reform, to home ownership for low and moderate income families; from the preservation of a major part of the Cost of Living Allowance for our Federal workers, to the development of water resources; from the promotion of Hawaii's products, to the preservation of our agricultural lands; from the protection and preservation of our Hawaiian sugar industry, to planning for an International Trade Center; from the start of a new prison, to extensive capital improvement funds to stimulate a lagging economy; from vans for the handicapped, to a new look and a new spirit in our educational system; from a coastal zone management law to planning for a new revitalized waterfront in downtown Honolulu; from a tourism study, to the Windward Regional plan which is designed to preserve and protect a unique area and lifestyle; from a full-time Public Utilities Commission, to inexpensive meals for the elderly; from the spurring of the aquaculture industry, to sunset laws to weed out those governmental functions and programs that either don't work or are not needed; from programs

to find absent parents and make them participate in the support of their children, to new hospitals and health centers for the care of our people; from a plan for Kakaako, to a reef runway for the convenience and safety of our citizens; from a new highway in Kona, to a new airport in Hilo; from the Kohala Task Force, to the Kauai Task Force; from assisting 'Hawaii 5-0', to placing a telescope atop Mauna Kea through which we can study the mysteries of the universe.

The list of accomplishments and achievements goes on and on, too long, too diverse, and too voluminous for this address.

But because I am so proud of the accomplishments that you and I have forged in moving this State forward, ever forward, toward its destiny, I will be making available to you, and the rest of our citizens, a more detailed report in printed form of our stewardship in the past three years.

These years have not been easy ones, make no mistake about that. They have not been blessed with abundant revenues. They have witnessed a national recession and local construction problems, which had a chilling effect on our economy. They were years in which the demands on government became ever more compelling, while the abilities and the willingness of our citizens to pay for these services did not rise commensurately. They were years of inflated dollars and reduced purchasing power.

But if these were lean years for revenues, they were at the same time rich years for accomplishments. They were rich in services offered to our citizens. They were rich in our abilities to move ahead in our educational systems on all levels despite money restrictions. They were years in which the Hawaii dream of equality and justice for all moved many steps forward toward total reality. They were years in which the State government accepted every problem and every challenge as an opportunity to create a better State. They were years in which Hawaii moved to the forefront in international trade and in the furthering of peace and understanding amongst all nations. They were years in which we moved aggressively in our efforts to attract regional headquarters for multi-national firms, and I may say here that in the next few days, I will make an announcement for the location of a regional headquarters of a large American corporation in our State.

They were years during which we made many decisions -- many right, some wrong -- which will affect the lives of all of our citizens for decades to come. And they were years in which the government of this State said loudly and clearly that we will be the masters of our fate and the shapers of our destiny.

Working with you, this is my legacy my first Administration will leave for the people of this State. Not just accomplishments that can be measured, many as they may be, but a new spirit and a new will to succeed and to achieve.

No leader can ask for more than that, and I am well satisfied.

And now, my friends, we come to the end of another State of the State message. I appreciate your attention to what I have had to say.

We share an awesome responsibility, you and I, a responsibility that transcends this time and this place.

It is, after all, you and I, as representatives of the people of this State, who must find the right direction, the direction which will leave Hawaii a better place than we found it.

It is not easy to find that direction. We know that it does not come just from taking care of today's problems and today's needs. Putting our priorities on finding immediate solutions to immediate concerns leads us nowhere. Direction comes only from an awareness of future problems and future needs and a willingness to step forward and address that future -- as difficult and overwhelming as that may sometimes be. And, as politically unrewarding, too.

That has been my approach to the job of governing because I believe that while there are many who can accomplish the daily work, there are few who can lay the foundation for a preferred future. I believe that you and I, working together, have made great strides in laying that foundation. But much more needs to be done, and, God willing, you and I will be called upon to continue our efforts to bring rich rewards to all who have found their place in Hawaii.

Aloha, mahalo, and God bless you all."

President Ushijima then rose and stated:

"Thank you, Mr. Governor, for your very comprehensive speech that imparts your policies, your thoughts and programs for Hawaii. We certainly appreciate the concerns that you have expressed.

The concerns are ours also and again, we offer to you our hand of cooperation to move Hawaii forward to solve many of the problems that confront us for a great and better Hawaii.

If there is no further business before this body, this joint session with the Senate and the House, Second Session, Ninth State Legislature, is hereby declared adjourned."

declared the Joint Session adjourned.

RE-REFERRAL OF SENATE BILLS

The President made the following re-referral of a Senate Bill that was introduced on Friday, January 20, 1978:

Senate Bill	Referred to:
-------------	--------------

No. 1658-78	Committee on Consumer Protection, then to the Committee on Judiciary
-------------	--

The President then made the following re-referral of a Senate Bill that was introduced on Monday, January 23, 1978:

Senate Bill	Referred to:
-------------	--------------

No. 1714-78	Committee on Health, then to the Committee on Ways and Means
-------------	--

At 11:39 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:49 o'clock a.m.

At this time, the President remarked as follows:

"On January 16, 1978, Air Force Captain Ellison Onizuka was selected from among 8,079 applicants to become one of America's thirty-five new astronauts. Captain Onizuka is the first Island-born man, as well as the first Oriental to be so honored.

Captain Onizuka is slated to man the space shuttle which will begin operation in the 1980's. He will serve as a mission specialist conducting experimental work in space.

Captain Onizuka was born in Kealahou on the Big Island. In 1963-64 he served as president of the 4-H Federation of Hawaii. He graduated from Kona High School in 1964 and won a Standard Oil Scholarship to attend the University of Colorado. After graduation from the University of Colorado, where he studied aerospace engineering, Captain Onizuka joined the Air Force in 1970 and is currently serving as a flight instructor at Edwards Air Force Base in California.

Captain Onizuka is 31 years old, married, and has two children. His mother, Mrs.

Mitsue Onizuka, is the proprietor of Onizuka Store in Keopu, North Kona. Captain Onizuka's father died ten years ago.

This morning, it is our pleasure to have visit us in the Senate Captain Onizuka's mother, Mrs. Mitsue Onizuka. Accompanying her to the Legislature is his brother, Claude Onizuka, who is branch manager of the Kona Community Federal Credit Union, and his sister, Mrs. Norma Sakamoto, who is with Hawaiian Trust Company in Honolulu.

Naturally, when an occasion like this happens we're all very proud. The people of Keopu, Kona are proud, the people of the Big Island are proud and, I am sure, the people of the State are proud of the accomplishments of Captain Onizuka."

Members of the Senate, it is my pleasure to introduce to you the mother of Captain Onizuka, Mrs. Mitsue Onizuka, his sister, Mrs. Norma Sakamoto, and his brother, Mr. Claude Onizuka."

Senator Henderson presented a lei to Mrs. Mitsue Onizuka and Senator Hara presented her with a certified copy of the resolution, adopted on the Third Day of the Session.

Senator Nishimura then rose to offer an oral resolution.

"Mr. President, I'd like the record to reflect the following oral resolution:

'BE IT RESOLVED by the Senate of the Ninth Legislature of the State of Hawaii, Regular Session of 1978,

that this Body extends to Senator Dennis O'Connor its warmest Aloha, heartiest congratulations, and many happy returns on the occasion of his 48th birthday.'

Mr. President, I move for the adoption of the resolution.

Mr. President, I was remiss or I am remiss in not having noted my good colleague's birthday today. I saw him earlier, before the session started, and I asked him why he was wearing a lei and he informed me that he was one year older. I told him that if I had known yesterday I would have prepared a formal resolution for introduction today.

In any case, it's my understanding that he is seeking higher office, and I want the record to show that I introduced this resolution congratulating him, and although I am not endorsing his candidacy to higher office, I want the record to reflect that I am wishing him Godspeed, good luck, and success in his quest for higher office so that he would give me a better opportunity for reelection.

Thank you very much."

Senator Taira seconded the motion for the adoption of the oral resolution, and the motion was put by the Chair and unanimously carried.

ADJOURNMENT

At 11:58 o'clock a.m., on motion by Senator Taira, seconded by Senator Yee and carried, the Senate adjourned until 8:30 o'clock a.m., Thursday, January 26, 1978.

THIRD READING

Senate Bill No. 1736-78:

Senator R. Wong moved that S.B. No. 1736-78, having been read throughout, pass Third Reading, seconded by Senator Yamasaki.

Senator R. Wong then spoke for the passage of the bill as follows:

"Mr. President, I rise to speak in favor of this bill.

Senate Bill No. 1736-78, the Legislative Expense Bill, provides funds for the expenses of the Legislature up to June 30, 1979 and for the legislative support agencies for the 1978-79 fiscal year.

Under this bill, Mr. President, the Senate is appropriated \$1,552,093 and the House of Representatives \$2,007,750. These amounts represent an extremely modest 1.68% increase over last year's appropriations. Considering the impact of inflation and the rising costs of equipment, supplies, personnel and other expenses, I believe this reflects the Legislature's commitment to fiscal restraint.

Additionally, Mr. President, this bill appropriates \$973,680 for the Legislative Auditor, \$150,000 for special studies, \$93,500 for the State Ethics Commission, \$916,935 for the Legislative Reference Bureau and \$284,009 for the Ombudsman. These appropriations are necessary to enable these agencies to continue their work in their usual exemplary manner during the coming fiscal year.

Mr. President, I should like to call the attention of the members of this Honorable Body to the fact that the total of all the appropriations contained in this bill--\$5,977,967--is exactly the same as the total of last year's bill. There has been no overall increase whatsoever.

The Ways and Means Committee has reviewed the provisions of this bill thoroughly. We have heard the budget testimonies of the legislative support agencies. We have conducted a public hearing on this bill to enable input from the public. For the information of the members of this Honorable Body, we have received no testimony on this bill from the general public.

I urge all the members of this Honorable Body to vote in favor of this bill.

Thank you, Mr. President."

It is my pleasure to introduce to you the Honorable Peter Coleman, Governor of American Samoa."

Governor Peter Coleman of American Samoa then addressed the members of the Senate as follows:

"Thank you, Mr. President.

Honorable members of the Senate of the great State of Hawaii, our distinguished guests, ladies and gentlemen. It is indeed an honor to be standing here in the great halls of Hawaii, recalling many years ago when I first went to high school here. The President of the Senate and I were at law school at the same time, in our younger days, so I come back to Hawaii as part of

Hawaii.

The South Pacific Islands, the island countries, look to Hawaii for leadership. We look to Hawaii for leadership in technology, leadership in education, leadership in information, agriculture, history, and for economic development.

We are very grateful for this occasion today because it reaffirms the feeling of friendship, the association of brothers and sisters of the Pacific Islands, and through our cooperative efforts, the advances that have been experienced by Hawaii also come to our areas, so that the standard of living, aspirations for a stable economic future, will also be met through your help.

Thank you very much and Mahalo nui loa."

The President then introduced to the members of the Senate, Senator Jason Boe, President of the Oregon State Senate, and the newly elected President of the National Conference of State Legislatures.

Senator Boe addressed the members of the Senate as follows:

"Thank you, Mr. President.

Governor Coleman, distinguished guests, distinguished members of the Hawaii Senate. I am here to greet you on behalf of the Senate of the State of Oregon and to extend to you our very best wishes for a smooth and very productive session of your Senate.

I am here also as the incoming President of the National Conference of State Legislatures to greet you on behalf of that organization of which your state is also a member. This organization represents 7,600 state legislators in all of the 50 states of America and it was formed because of the needs that each of us in the state legislatures have.

Only a short period of time ago, political scientists were writing about the demise of the state legislative system. They were writing in their textbooks and in their pamphlets, and in their research papers about the lack of need for a state legislature, that, after all, since the Federal Government was taking so much in the way of taxes and had so much power over the lives of individual citizens of our Nation, what was the use of the state legislature. They were predicting freely, our death.

The National Conference of State

Legislatures is formed, among other things, to prove the lie that that particular philosophy represents. I think it behooves all of us as legislators to remember that it was not the state legislatures and the state legislators that created the Federal Government. They are our creature.... we, not theirs. This is the message that I would like to leave with you as I encourage your continued and active participation in the work of the National Conference of State Legislatures in Washington, D.C., on behalf of all state legislatures.

I will be the first president of this organization to come from the Western part of the United States. Since Hawaii is a very close neighbor to Oregon, separated only by a few miles of ocean, but still our shores border each other, we invite your active participation in leadership positions. And you can be sure that when I become president, I will be seeking from your leadership in the Senate and the House, members who are willing to work, to become involved in this organization so that the voice of Hawaii may be truly and adequately represented in this conference.

Thank you for your very kind reception today. It is a joy to be here with you. Thank you!"

On motion by Senator Yim, seconded by Senator King and carried, the report of the Committee was adopted and S.B. No. 1598-78, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE BANNING OF PILOT LIGHTS ON GAS APPLIANCES", passed Second Reading and was placed on the calendar for Third Reading on Tuesday, February 7, 1978.

In accordance with Article III, Section 16, of the Constitution of the State of Hawaii, the 24-hour notice was given on S.B. No. 1598-78, S.D. 1.

Senator Yim, for the Committee on Energy/Natural Resources, presented a report (Stand. Com. Rep. No. 38-78) recommending that Senate Resolution

No. 4 be referred to the Committee on Intergovernmental Relations.

On motion by Senator Yim, seconded by Senator King and carried, the report of the Committee was adopted and S.R. No. 4, entitled: "SENATE RESOLUTION REQUESTING VARIOUS STATE AND COUNTY AGENCIES TO FORMULATE AND ADOPT RULES CONCERNING THE ENERGY PROBLEM", was referred to the Committee on Intergovernmental Relations.

Senator Yim then rose to speak in favor of the legislative package of energy bills:

"Mr. President, I would like to speak in favor of the legislative package of 18 Energy Bills and one resolution before us this morning, rather than tomorrow morning. Mr. President, as you know, we started on the process of developing a Comprehensive Energy Program last June. Some ten special task forces were created of leading authorities in Hawaii in the various energy topics under consideration. Our concerns ranged from a stronger conservation program, closer ties to Alaska, some nine alternate energy potentials... all leading to energy self-sufficiency for Hawaii.

These task forces examined the state of the art, what is both happening and could happen in Hawaii, and what are some of the problems and areas where legislation could assist. At the completion of these meetings, the 'Comprehensive Energy Report' was compiled, which represented a consensus of the various participants. A goal that emerged was that of energy self-sufficiency for Hawaii by year 2010 or as soon as technically and economically feasible.

We know that the road ahead is not going to be an easy one. To accomplish all or even part of this goal, mistakes will be made. It will cost a great deal of money. But what are our alternatives? Oil sooner or later will be running out, or at least becoming too costly to use to generate electricity or to run our automobiles.

Each of the bills before us this morning was contained in the 'Comprehensive Energy Report' as recommended legislation that could help Hawaii better meet its energy needs. No one bill will make a major difference. But each bill, if enacted, can and will make a major contribution.

Mr. President, the legislative energy package under consideration this morning represents about 50% of the Senate's efforts on energy. Hopefully,

by this Friday, your Energy Committee will submit to this Body the other half of the Senate's Energy Legislative Program -- and that is the Appropriation Bill - S.B. No. 1581.

These bills collectively are the result of the many dedicated citizens, who have given much of their time, their ideas, and efforts to make Hawaii one of the most progressive and innovative leaders in the area of energy self-sufficiency.

In closing, Mr. President, I would like to express my appreciation for the support many in this Senate have given to this Energy Program... the strong encouragement provided by our leadership group, and the patience and input by my committee members who have been faithful in their attendance and wise in their decisions at some very long public hearings.

To all of you, thank you."

At this time, Senator Anderson introduced to the members of the Senate, 50 senior citizens from the Koolau Senior Center of Kaneohe, who entertained the Senators with a number of songs. Mr. Edgar Jones, Honorary Mayor of Kaneohe, was also introduced.

Senator Kuroda then introduced former school principal, Kenneth Nagata, and Mrs. Nagata.

RE-REFERRAL OF A SENATE BILL

The President then made the following

re-referral of a Senate Bill which
had been introduced on Wednesday,
February 1, 1978:

Senate Bill Referred to:

No. 1954-78 Committee on Consumer
Protection, then to the Committee
on Judiciary

THIRD READING

Senate Bill No. 1567-78, S.D. 1:

Senator Yim moved that S.B. No.
1567-78, S.D. 1, entitled: "A BILL
FOR AN ACT RELATING TO GEOTHERMAL
RESOURCES", be recommitted to the
Committee on Energy/Natural Resources,
and the President, noting that there
was no objection, so ordered.

Senate Bill No. 1574-78, S.D. 1:

Senator Yim moved that S.B. No.
1574-78, S.D. 1, entitled: "A BILL
FOR AN ACT RELATING TO ENERGY
CONSERVATION IN PUBLIC BUILDINGS
AND FACILITIES", be recommitted
to the Committee on Energy/Natural
Resources, and the President, noting
that there was no objection, so ordered.

Senate Bill No. 1577-78, S.D. 1:

Senator Yim moved that S.B. No.
1577-78, S.D. 1, having been read through-
out, pass Third Reading, seconded
by Senator King.

Senator Anderson then spoke as
follows:

"Mr. President, I don't rise to speak
against the bill, because I favor the
solar establishment, but I do so because
there is no funding in this bill.

The Committee Report states that
the purpose of the bill is to establish
the Hawaii Solar Center to foster research,
development, application and utilization
of solar energy.

I'd like to support this bill but I
would like to do so with an appropriation.
I'm afraid that if I support the legislation
establishing the agency, then I am
committed to support the financing.
Since I don't know how much the financing
will be, I'd rather not support the
bill.

I think that this is an important piece
of needed legislation and it should
have the appropriation set forth with
some definition so that we know that
the passage of this bill is going to
establish such an agency and will be
moving forward.

Until I see some dollars or am convinced that we are going to fund it, I'll have to vote no on the measure.

Thank you, Mr. President."

Senator Yim then stated as follows:

"Mr. President, your Committee on Energy/Natural Resources was informed during the public hearing that the Energy Resources Coordinator's Office, now located in the Department of Planning and Economic Development, does have Federal funding. It can go as high as \$500,000 and be given some flexibility in the whole area of conservation and education information. Mr. President, this measure will give direction to the Energy Resources Coordinator to go ahead and proceed in that direction.

Thank you, Mr. President."

The motion was put by the Chair and carried, and S.B. No. 1577-78, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE ESTABLISHMENT OF HAWAII SOLAR CENTER", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, 1 (Anderson).

Senate Bill No. 1591-78, S.D. 1:

On motion by Senator Yim, seconded by Senator King and carried, S.B. No. 1591-78, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO ENERGY EFFICIENT PROCUREMENT PRACTICES", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Senate Bill No. 1593-78, S.D. 1:

On motion by Senator Yim, seconded by Senator King and carried, S.B. No. 1593-78, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE ESTABLISHMENT OF AN ENERGY EXTENSION SERVICE PROGRAM", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Senate Bill No. 1594-78, S.D. 1:

Senator Yim moved that S.B. No. 1594-78, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator King.

Senator Anderson then spoke against the measure as follows:

"Mr. President, the report states that the purpose of this bill is to establish and provide funding for an energy conservation poster contest in the public school system. It's kind of like being against 'motherhood' but I really don't think we need legislation to be on the books forever for a poster program. I think this could have been done with a concurrent resolution or it could have been an item in the Department of Education budget for a one time or a two time deal, but to pass legislation for a poster program, and, with no funding again, I'll just have to vote no.

Thank you, Mr. President."

Senator Yim then stated as follows:

"Mr. President, at the time of the public hearing, the Energy Resources Coordinator's Office indicated that there is some funding from the Federal level.

For the past three years, the Chair of the Energy/Natural Resources Committee felt that the Energy Resources Coordinator's Office has not been moving as fast as possible to resolve some of the energy problems facing this State. This is to give legislative intent--a strong language--to that office to start moving ahead in many directions, including the area of educating our young...to start moving in the direction for some sort of conservation or ethics.

This bill would indicate very strongly to the Energy Resources Coordinator's Office what we intend to do this session in the energy program.

Thank you, Mr. President."

The motion was put by the Chair and carried, and S.B. No. 1594-78, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE ENERGY CONSERVATION POSTER CONTEST", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 22. Noes, 3 (Anderson, Ching and Saiki).

At 11:47 o'clock a.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:50 o'clock a.m.

Senate Bill No. 1596-78, S.D. 1:

On motion by Senator Yim, seconded by Senator King and carried, S.B. No. 1596-78, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO A STUDY ON THE DEVELOPMENT OF AN EFFECTIVE USED OIL RECYCLING PROGRAM", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Senate Bill No. 1598-78, S.D. 1:

On motion by Senator Yim, seconded

by Senator King and carried, S.B. No. 1598-78, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE BANNING OF PILOT LIGHTS ON GAS APPLIANCES", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

ADJOURNMENT

At 11:55 o'clock a.m., on motion by Senator Taira, seconded by Senator Anderson and carried, the Senate stood adjourned until 11:30 o'clock a.m., Wednesday, February 8, 1978.

No. 1611-78, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE DEPARTMENT OF AGRICULTURE", passed Second Reading and was placed on the calendar for Third Reading on Wednesday, February 15, 1978.

In accordance with Article III, Section 16, of the Constitution of the State of Hawaii, the 24-hour notice was given on S.B. No. 1611-78, S.D. 1.

At this time, Senator Yim rose to speak in favor of Senate Bill No. 1581-78, S.D. 1, and stated as follows:

"Mr. President, S.B. No. 1581-78, S.D. 1, is the heart of the Senate Energy Legislative Program for this legislative session. Closely related to this bill is the Governor's supplemental CIP request for energy programs. Taken together, they provide a reasonable level of funding of the Comprehensive Energy Program, to enable Hawaii to move significantly forward towards Hawaii's goal to become energy self-sufficient.

The bill provides a total of \$3,845,000 in addition to the Governor's supplemental request of \$5,000,000 for a total of \$8,845,000.

These funds will provide the needed State matching funds for major federally funded projects that could total three to four times this amount for research and development of alternative energy programs in Hawaii.

The position of your Committee on Energy is that our scientists at the University and elsewhere in the State should seek every possible dollar of federal support.

However, in certain key areas, such as geothermal, biomass or ethanol fuel demonstration, and ocean thermal energy, the programs are of such high priority, the State should be prepared to proceed with these projects, even if federal dollars are not available. In some cases, securing private corporation assistance such as from the sugar industry or corporations such as Lockheed may be possible. We cannot wait for the federal government's Department of Energy to determine what Hawaii's energy program should be. Hawaii has some unique possibilities that should be fully developed irregardless of federal funding.

Senator Matsunaga's office has advised us that this attitude taken by your Committee will have a most positive effect upon the Department of Energy. It should increase our ability to attract greater federal support. This is especially so in the area of self-sufficiency as Hawaii is becoming the leader in the nation in energy self-sufficiency.

As to the specifics of S.B. 1581-78, S.D. 1:

Under Biomass: The bill provides funds to supplement the Governor's request for conversion of the HC&S Maui Rum Plant. It can produce 700,000 gallons a year of ethanol for automobile fuel by 1981. It's all 'Go' for this project with or without federal support.

The Corn-Ethanol Program will provide a State program in conjunction with the USDA or DOE funding, which could prove to be another major additional source of ethanol. Over 100 million gallons would be possible from 140,000 acres of corn or other crops . . . on non-sugar lands. In addition, this program will provide valuable cattle feed and other by-products that will help make it cost effective with gasoline.

A third program is a potentially significant algae source. One algae recently developed under Hawaii Natural Energy Institute (HNEI) seed grant, reproduces its weight in 26 hours and can provide a high grade oil. 1,000 acres of this algae could produce the equivalent of over 1 million barrels of oil a year.

The Energy Tree Farm Program would result in planting a million trees a year, and ultimately, 150,000 acres of energy tree crops which can be cut and chipped to provide 230 megawatts of electricity or one-fourth the electrical needs of Honolulu.

The bill also provides funding for research in other promising areas of biomass. The Governor requested \$130,000 for sugar-electric research. In 1975, the burning of bagasse alone generated 625,000,000 kilowatt hours of electricity. This energy source provides 40% of the electric consumption on the Big Island.

The totals for important biomass programs are \$1,830,000 in S.B. 1581, S.D. 1, and \$1,300,000 in the Governor's program for a grand total of \$2,830,000.

Under Geothermal, your Committee is requesting funding to match federal geothermal requirements for programs in research, development and demonstration in geothermal. In addition, is the Governor's supplemental request for funds to be used in geothermal resource assessment

on Maui, Oahu and other promising areas and for nonelectrical research facilities to be located in Puna. Nonelectrical uses of geothermal may prove to be the most valuable use of all. In total, \$1,050,000 for ongoing geothermal research and assessment is being provided by S.B. No. 1581, S.D. 1, and the Governor's supplemental request.

This is in addition to the \$2.7 million of federal funds already committed to Hawaii to build a well head generator in Puna. By 1981 it should be providing about 3.5 megawatts of electrical power, sufficient to supply the needs of 3,500 families. The geothermal program is your Committee's number one priority.

In Ocean Energy, rapid moves toward major decisions are being made by the Department of Energy as well as by one or more major corporations. Within two years, the first 50 kw OTEC Plant in the world could well be operational in Hawaii.

Your Committee feels that this project should be 'Go' with or without federal monies. Tied to the OTEC project in Kona is a potential agriculture research program as a result of pumping from the deep ocean nutrient rich water to feed a variety of small aquatic animals and plants.

The total provided for ocean energy by S.B. 1581, S.D. 1, is \$1,225,000 and the Governor's supplemental request is \$2,525,000 for a grand total of \$3,750,000. This should establish Hawaii as one of the leaders in the world on ocean thermal energy conversion research.

The final CIP portion of S.B. 1581, S.D. 1 provides funds for solar and wind demonstration projects, demonstrations including use of solar hot water in State buildings; photovoltaic solar systems; solar air conditioning; and a variety of wind systems with required engineering work. We have some of the best locations in the world to apply these solar and wind systems to reduce our need for oil.

Because of the pressure on general funds appropriations this session, your Committee has reduced the original amounts requested by S.B. No. 1581. General funds are included for an agri-energy program at the Department of Agriculture, increased staffing of the Natural Energy Laboratory, and funding for a major ocean-energy conference at the Ke-ahole site. This conference should attract scientists from around the world as it will be

a 'first'; and reaffirm Hawaii as the leader in ocean energy.

Finally, S.B. 1581, S.D. 1, reestablishes funding for the Hawaii Natural Energy Institute at the University, which shall play the coordinating role for all research and development on natural energies in the State.

Besides seeking to reduce and eliminate Hawaii's dependence upon imported oil costing the people of this State over \$500,000,000 a year, this program will create many new jobs.

Further, it will reduce the outflow of Hawaii's dollars and help improve Hawaii and the Nation's balance of trade;

It will help to improve Hawaii's overall economy and tax base;

It will enable Hawaii to be less affected by any future oil embargos and the anticipated major increases in the costs of oil as the world's supply is depleted;

It will provide a major thrust to Hawaii's goal of becoming energy self-sufficient.

For all these reasons, Mr. President, I ask for support of S.B. No. 1581-78, S.D. 1.

Thank you."

Senator Kuroda then introduced to the members of the Senate the following persons participating in the Hawaii Energy Research Program:

ORDER OF THE DAY

THIRD READING

Senate Bill No. 2200-78:

Senator R. Wong moved that S.B. No. 2200-78, having been read throughout, pass Third Reading, seconded by Senator Yamasaki.

Senator R. Wong then spoke for the passage of the measure as follows:

"Mr. President, I rise to speak in favor of this bill.

Senate Bill No. 2200-78 simplifies and more closely conforms the State Income Tax Law to the Federal Internal Revenue Code.

This bill represents the culmination of some three years of support and effort on the part of the Legislature. Working together with the Legislative Reference Bureau, the State Department of Taxation, the Tax Foundation of Hawaii and the Chamber of Commerce of Hawaii over the past three years, we have made tremendous progress. Major conformance legislation was passed last year--notably Act 47.

This has been a matter of great satisfaction to me as Chairman of the Ways and Means Committee because of the support and encouragement given towards greater conformance on the part of all the Committee members, both Democrat and Republican.

Senate Bill No. 2200-78 now before us raises the degree of conformance even further and makes the State Law more current with Federal Law, as of December 31, 1977. This bill is the direct result of Senate Concurrent Resolution No. 161, adopted last year, requesting the Legislative Reference Bureau and the Tax Department to review the State Income Tax Law and

to submit recommendations for closer Federal conformance.

Passage of this bill will further the efforts of the Legislature to reduce government red tape and make it easier for businesses to operate in Hawaii. Since 1975, Mr. President, under your leadership, this has been a major topic of concern on the part of the Senate, one shared by all members, majority and minority alike. This bill represents a major step forward in addressing this concern about the red tape problem.

I should note that this bill has the support of both the State and the private sector. In our hearing yesterday on this bill, favorable testimony was received from the Tax Foundation, the Chamber of Commerce, the National Federation of Independent Business and the real estate investment trust industry. No one spoke against the bill. This is one of the rare instances, Mr. President, of the enthusiastic unanimity on the part of all parties concerned with respect to a bill of such far-reaching impact and great complexity.

The revenue impact of this bill is difficult to assess. The Tax Department has been working on this question. However, the consensus among the expert authorities is that it will result in a modest revenue gain to the State.

Mr. President, I would be remiss if I did not acknowledge the tremendous contribution made by the many individuals from government and from the private sector who worked many long hours in the preparation of this bill. Without their help, this bill would not have been possible. In particular, Mr. President, I would like to thank Lowell Kalapa from the Tax Foundation, Elliott Brilliant from the Chamber of Commerce, Dale Chikuami, formerly on the Ways and Means Staff, Tomotaru Ogai from the Tax Department, and especially Richard Kahle from the Legislative Reference Bureau.

Mr. President, I urge the members of the Senate to vote unanimously in favor of this bill.

Thank you very much, Mr. President."

Senator Kawasaki then stated as follows:

"Mr. President, I am going to vote in favor of this bill but with certain reservations.

I think a carte blanche approval of major changes in our State tax laws may be something we may regret in the future.

The only reason there was no particular vocal opposition to the enactment of this bill is because most people don't understand the voluminous nature of this bill.

I would like to have seen a change of our local State tax laws, section by section, and conformance with the Internal Revenue Code. I would not like to realize later that perhaps our State laws were a little more liberal, particularly with regard to the taxing of our middle income group of citizens. I think that today the middle income group foots the bill in this country and in our State.

The low income groups are given all kinds of benefits that we have enacted over the years, social legislation that benefitted them; and the wealthy doesn't matter as they have the financial means, but I think it is the middle income group of taxpayers that we should be particularly careful about.

Thank you, Mr. President."

The recent decision announced by the Secretary of the Department of Energy that the 1979 Federal budget will not include funds for emergency oil reserve in Hawaii, in no way forecloses the option of the President's approval of a supplemental budget item to include such storage.

In other words, the Carter Administration is still open to further efforts on the part of the State of Hawaii to provide emergency oil reserves for our State. In this regard this resolution may be helpful.

Thank you, Mr. President."

"Mr. President, I would like to comment on this resolution.

I am particularly appreciative of the great impact and the contribution the Moiliili Japanese School and its founders have made to this State of ours. There is one subject taught in language schools, Japanese language schools, which is the subject of ethics, in Japanese called 'shushin' and I think the impact of this particular item in their curriculum has had a very salutary effect on the State.

It is reflected in the fact that most of the graduates of the Japanese language schools are not part of the criminal statistics that appall us. They are not, generally speaking, part of the statistics involving great welfare costs to welfare recipients.

I would like very much to see the public schools incorporate into their curriculum, the basic course of ethics as it is practiced by the Japanese language schools, but I am appreciative, as a member of this Senate, of the contributions made, not only by the Moiliili Japanese School, but by all language schools... Chinese language schools, the Korean language schools, the Japanese language schools.

I think this Body should support with great energy and encouragement for the continuance of schools of this nature, after the regular public school hours, to keep our youngsters busy, but more importantly, to help develop their character in subjects like ethics.

Thank you, Mr. President."

MATTER DEFERRED FROM EARLIER ON THE CALENDAR

Senate Bill No. 2409-78, S.D. 1:

By unanimous consent, action on S.B. No. 2409, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO ENVIRONMENTAL IMPACT STATEMENTS", was deferred until Thursday, March 2, 1978.

At this time, Senator Ching rose on a point of personal privilege and stated as follows:

"Mr. President, I wish to clear the record on some statements that were made in a Star-Bulletin article of last night (February 28, 1978). I think that it is quite proper that the record be cleared.

As you and the other members of this Body know, I am one that believes in Harry Truman's statement: 'If you can't stand the heat, get out of

the kitchen.' very seldom react to public statements that are made either for or against me but I have been asked by other members of this Body to clarify some statements that were questionable in the article.

In the article, a State Health Official was quoted as the source of admittedly 'intemperate' remarks aimed at me particularly, but, also aimed at a majority of the members of your Health Committee.

This official singled me out as the key person who torpedoed a bill 'without justification'.

He characterized my position on the Rubella Bill as 'bone-headed resistance.'

Mr. President, I think his remarks are not only 'intemperate' but totally out of line and are an insult to this entire Body.

This self-styled critic is a Federal Health Adviser on loan to our Health Department and he is here primarily to coordinate the Hawaii Immunization Project. He's been here for three years and considers himself an expert on our local problems;

For my part, I believe he's been here three years too long and that the sooner he returns to his federal job on the mainland the better off we'll be.

He may have hoodwinked some members of the Health Committee, but the majority of us are not convinced that all the problems inherent in rubella testing have been worked out.

To impugn the integrity of the members of the Senate, especially the majority of the members of the Health Committee, is hardly the rational way to develop an acceptable testing program.

We have legitimate concerns and, as it has turned out, perhaps the main concern now is that this so-called 'adviser' is not the best source of advice for our Health Department.

Thank you, Mr. President."

MATTER DEFERRED FROM EARLIER ON THE CALENDAR

Senate Bill No. 2409-78, S.D. 1:

Senator King moved that S.B. No. 2409-78, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Hulten.

Senator Yee then moved that S.B. No. 2409-78, S.D. 1, be recommitted to the Committee on Ecology, Environment and Recreation, seconded by Senator Anderson.

At 2:01 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 2:02 o'clock p.m.

Senator Yee then rose to speak for the recommittal as follows:

"Mr. President, the reason that we ask that this bill be sent back to the Committee is because there has been a tremendous amount of confusion and dissecting of the bill. What is being proposed now really doesn't do anything. I feel that the bill should go back to the Committee so that all of the questions that have been brought out in the past two days can be resolved.

I know that each one of us has certain reservations on this bill and in order to have an effective bill, I feel that it cannot be handled on the floor in this manner and I sincerely hope that the Chairman will take this into consideration.

Mr. President, I ask that the bill be recommitment."

Senator King rose to speak against the motion to recommit and stated as follows:

"Mr. President, the Senator who spoke before me said that we have been talking for two days, actually we've been talking for four days on this bill.

The confusion that he talks about, the reservations, I have made an effort to meet all of them.

The Senator who just spoke originally considered offering an amendment in terms of aquaculture and I said that that was fine by me. I have made every effort to meet not only with that Senator but with all members of the Minority and Majority, even taking the impetus upon myself to call various lobbyists that I thought might be concerned with this bill. I feel that the time for discussion is over.

If the Senator has any specific thing that he would like to have clarified, or an amendment he would like to suggest at this point, I would be absolutely delighted to hear it.

Mr. President, I urge that this Body vote against the motion to recommit."

Senator Anderson then rose to speak in support of the motion to recommit and stated as follows:

"Mr. President, as a member of the Third Senatorial District, we have a specific problem in that District, in taro growing in the Waikane-Waiahole area. I think this bill was originally intended to help not just those taro growers with their fight with the Board of Water Supply but, also, some of the other island farmers as well.

Our motion to recommit is a sincere one and I will support Senator King when she says she had made every effort because she certainly has. We have been in discussions with her for two or three days. I think that that alone shows the complexity of this bill.

The farmers in the Third Senatorial District need to resolve their water problem. This bill does not answer that problem.

This bill states that all state and county agencies who divert water have to get an environmental impact statement. That is on the books today.

In talking with the Board of Water Supply this morning, they tell me that even when they turn the valves of existing facilities to move substantial water from Waiahole to Kailua, Kaneohe and Waimanalo, they get an assessment for that so they go beyond the law today.

It's such a complex question of how to give the balance between the residential and the farmers and now the aquaculture people some balance ... some water and protection. That is why we have been bouncing around on this bill for four days.

I would hate very much for this bill to pass in its present form because it does nothing for the problem in my District or in other districts where the problem exists.

I would very much like to commit this bill back to the Committee who has been working on it, who has the expertise. Our deadline is Tuesday, we have three days, Saturday, Sunday and Monday, to come up with the language so that we do have a vehicle to solve the problems of the farmers and come out with something constructive.

Our motion to recommit is not one to kill the bill. It's one to keep it alive because we think a bill is needed.

We would like to have all the heads of the Senate to work, to suggest, and to help the Committee Chairman and the Committee to resolve this. It's a constructive motion and we would very much ask for some support.

Thank you, Mr. President."

Senator Ching then stated as follows:

"Mr. President, by the same token, I hope that the vote against the motion to recommit is not to be construed as being against the basic problems that the bill seeks to resolve."

Senator King then rose to speak, as follows:

"Mr. President, I appreciate the Minority Floor Leader's commending the Committee on its expertise. If we were that expert I don't think there would have been all these problems.

The Senator also mentioned that the taro growers in the Waiahole-Waikane area were a prime concern. Well, it was the taro growers who came before us and made very eloquent pleas about the problems of water. Waiahole-Waikane, in fact, is an outstanding example of the Board of Water Supply filing a negative declaration so that nobody knew what they were going to do there until after they had begun doing it. It is just exactly this kind of thing that the bill and the amendment lying before us would attempt to prevent."

The motion to recommit was put by the Chair and Roll Call having been requested, failed to carry on the following showing of Ayes and Noes:

Ayes, 7. Noes, 18 (Ching, Chong, Hara, Hulten, Kawasaki, King, Kuroda, Nishimura, O'Connor, Taira, Takitani, Toyofuku, F. Wong, R. Wong, Yamasaki, Yim, Young and Ushijima).

Senator King then offered the following amendment to S.B. No. 2409-78, S.D. 1:

"1. Amend SECTION 1 of the Bill

by amending subparagraph (F) on page 3, lines 10 through 12, to read as follows:

'(F) All actions by any State or county agency proposing any water development or diversion project.'

2. Amend SECTION 1 of the Bill by deleting subparagraphs (G) and (H) on page 3, lines 13 through 19.

3. Amend the Bill by adding a new section to read as follows:

'SECTION 3. This Act shall take effect upon its approval.'

On motion by Senator King, seconded by Senator Hulten and carried, Roll Call having been requested, the amendment was adopted on the following showing of Ayes and Noes:

Ayes 14. Noes, 11 (Anderson, George, Hara, Kawasaki, Leopold, Saiki, Soares, Takitani, Toyofuku, Yamasaki and Yee).

In accordance with Article III, Section 16, of the Constitution of the State of Hawaii, the 24-hour notice was given on S.B. No. 2409-78, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO ENVIRONMENTAL IMPACT STATEMENTS."

Senator Anderson then spoke in opposition to the measure as follows:

"Mr. President, I'd like to cast a 'no' vote on this bill and very briefly, I'd like to let it be known to some of you, especially from the neighbor islands and some of the businessmen here, that this bookstore is not a bookstore. It's a department store.

The intent of the bookstore originally of course was to provide books and sundries that were needed for the boarding students. But this bookstore is something like a 4 or 5 million dollar enterprise. It's got everything from books to sundries, gifts, toys, candies and toilet articles and on and on. They haven't yet gone to a catalog for importing cars, but that's next year.

The legitimate businessmen situated around the University campuses and the businesses near the vicinity of the neighbor island universities have to compete with this bookstore. A five million dollar enterprise is quite sizeable.

The students that they hire to sell, of course, don't get the fringes and aren't afforded the same privileges that the private sector is mandated to pay the employees.

I would just ask that you talk to some of your small businessmen in your various communities and really find out the impact of this so-called 'bookstore' on the University's campuses.

Thank you, Mr. President."

The motion was put by the Chair and carried, and S.B. No. 1673-78, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO EXEMPTING ITEMS PURCHASED FOR RESALE BY THE UNIVERSITY OF HAWAII BOOKSTORES FROM THE REQUIREMENTS OF PUBLIC ADVERTISEMENTS FOR SEALED TENDERS", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

At 12:08 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

Senate Bill No. 2525-78, S.D. 1:

Senator O'Connor moved that S.B. No. 2525-78, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Ching.

Senator Kuroda then spoke for the measure as follows:

"Mr. President, although I am going to vote 'yes' on this bill, I think that the action taken by the Committee resulted in a too restrictive provision and I just wanted to call to the attention of the group that this practice of inexpensive campaigning by sign-holding along the roadside should be given a little more flexibility than limiting it to the highways of less than 25 miles per hour and also limiting the number of people. In this case, it is only the candidate and I think that there should be a little more provision whereby one, two or three associates could also be with him.

Thank you, Mr. President."

Senator Leopold then stated as follows:

"Mr. President, in my campaign for the State Senate, I did not hold a single sign on any day, but I would like the Clerk to register a 'no' vote for me on this bill

because I feel it is discriminatory and unconstitutional."

Senator Chong then spoke against the measure as follows:

"Mr. President, I go along with the comments made by the Senator from the Fourth District in that I think this bill is restrictive. It is not clear to me that sign-holding has caused major accidents along the highway and I urge my colleagues to vote against this bill."

Senator Kawasaki, in opposition to the measure, stated as follows:

"Mr. President, I am one who voted against the proposition of allowing sign-holding as a major way of getting elected to office simply because, first of all it is dangerous; and secondly, I think to expect to get elected to office on the basis of a sign that you hold or wave as people pass by, is an insult to the intelligence of electorates. Therefore, I am again being consistent in voting against this bill.

Thank you, Mr. President."

Senator Anderson then rose to speak against the bill as follows:

"Mr. President, over the years we have seen the erosion of the capability of the politician to reach his constituency. I disagree, of course, with the Senator who just spoke. This was a compromise a couple of years ago when it wiped out all the other provisions for the politicians. This was the one that was left for the newcomer where he could get some name identification because he couldn't raise the money to buy expensive television and expensive newspaper ads.

It was house-to-house and on the street where the newcomer could challenge the incumbent and then he would follow up with the one-to-one contact or the coffee hours or the rallies.

It's getting more and more difficult. First you banned the passing out of political literature within 1,000 feet to voters on that particular morning.

You came back in a couple of years and you forbade and banned the posting of these cloth banners on the trees and the highways, which I still happen to think was very much a part of Hawaii.

Then we went to a campaign spending and we limited how much a politician could spend to reach his constituency in getting his viewpoints across. Then last year we came in with another

restriction and now, finally, this one.

As an incumbent, this helps me, of course, against anyone who challenges me because the incumbents are better known in the district.

I think some politicians overdo this on the highways in the morning when you have twenty-five or thirty people waving signs, but I don't think it is challenging the intelligence of the voter.

The politician, and I'm sure I speak for all of you, has a difficult time reaching the constituency today. Most of us can't afford television in a district race or even a senatorial race and newspaper ads are very, very expensive.

If some of you hadn't been on street corners campaigning in this very manner, you wouldn't be sitting in your chairs today. We all got here in different types or forms of campaigning, but you've got to admit that some of you wouldn't be here today if you didn't have this inexpensive opportunity to reach the voter.

I think it is discriminatory that it is okay for the unions to put out fifty or seventy-five people in a driveway and picket, but my supporters to elect Andy Anderson or anybody else, can't picket or hold signs.

I don't stand on street corners and I never have, but I don't like denying the privilege to others who may want to take this opportunity to campaign. I think you sometimes over-react in your legislation or your intent to clean up for safety or whatever.

I think a certain amount of common sense has to prevail in every election campaign that represents every candidate. If I put out thirty-five or forty people on Kalaniana'ole Highway some morning, and this causes a traffic tie-up, then that's going to work against me. I have got to believe that you have to allow some common sense to be left to the candidate in his campaign, and trying to put everything into law, for whatever reason you support it, I think is wrong.

Therefore, I think this measure should not pass.

Thank you, Mr. President."

Senator Kawasaki then noted as follows:

"Mr. President, just as a matter of clarification and for the edification of the good Senator from the Third District, I think I was the only member of this twenty-five-member body that appeared before the City Council way back when they were deliberating on the proposition of banning the use of these cloth banners that he speaks of, and, at that time, I advocated the allowance of the use of these banners that are no longer permitted, on the grounds that that was a very cheap means of exposure for the new candidate.

Thank you, Mr. President."

Senator Kuroda then stated as follows:

"Mr. President, I have a little concern here that there may not be enough votes to move this bill. I want to clarify the situation here that five years ago, I stood on this floor and spoke in opposition to the bill that eventually became law prohibiting sign-holding and which was declared by the courts to be unconstitutional.

Inasmuch as there may be an attempt in the future to try and prohibit sign-holding again, I introduced this bill so that we can regulate it, because regulation is much better than prohibition.

Also, Mr. President, when the good Senator from the Third District talks about common sense employed by campaigners, oftentimes unless you have some regulatory type of policy or law to guide the so-called people who are supposed to be practicing common sense, if you don't come down hard with some kind of guidelines, you are going to find 100 people on the roadside.

I agree with the Senator from the Third District that people should be given freedom of conducting inexpensive campaigns because I am a product of that. However, unless we provide strict guidelines, we are going to find that our fellow man will not be using their common sense, so I urge my fellow Senators here to vote for this measure.

Thank you, Mr. President."

At 12:18 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:19 o'clock p.m.

Senator Anderson then commented as follows:

"Mr. President, very briefly, on

the word 'regulate' that was used a few minutes ago, we have laws on the books today that regulate signs of any size. But you ought to venture out to the Waiahole Valley where you can find some 4 x 8 plyboard signs very poorly done in composition and art that have been there for a year, damning politicians, damning government and damning private owners. I haven't seen the laws being regulated or enforced against people who do it that way because of practical politics and I don't like being regulated because I am an easy victim.

Thank you, Mr. President."

The motion was put by the Chair and carried, and S.B. No. 2525-78, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO REGULATION OF MOVABLE SIGNS ALONGSIDE PUBLIC HIGHWAYS", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 14. Noes, 11 (Anderson, Chong, Henderson, Kawasaki, King, Leopold, Nishimura, R. Wong, Yee, Yim and Young).

MATTER DEFERRED FROM EARLIER ON THE CALENDAR

Senate Bill No. 2455-78:

Senator Hulten moved that S.B. No. 2455-78, having been read throughout, pass Third Reading, seconded by Senator Kawasaki.

Senator George then spoke in opposition to the bill as follows:

"Mr. President, I rise to speak against the measure as this is a bill which would give the counties all cleaning of streams, whether publicly or privately owned, or state or county owned.

It is my feeling that we're giving the counties a present that is going to cost them some four million dollars a year, which is the last ballpark figure I heard. I don't think they have really the capacity and manpower, equipment or money to properly clean the streams that are presently under their jurisdiction.

I am going to vote 'no' on this measure.

Thank you, Mr. President."

The motion was put by the Chair and carried, and S.B. No. 2455-78,

Senator King then spoke for the measure as follows:

"Mr. President, I rise to speak in favor of the bill but I did sign it with reservations and I'd like to just mention briefly the reason for my reservations.

We're talking here about an enormous facility--the estimate of the cost range up to 80 to 85 million dollars. The acreage needed ranges from 15 to 25 acres. There was substantial testimony against it.

My qualms derive from the fact that over and over in the testimony there was discussion about economies of scale and the necessity of maintaining at least 1,000 tons of solid waste a day. I hope that in the future we will be increasingly recycling material and would hate to make a commitment to a monster that we have to keep feeding.

Thank you, Mr. President."

Senator F. Wong moved that S.B. No. 2279-78, having been read throughout, pass Third Reading, seconded by Senator Hara.

Senator Kawasaki spoke in opposition to the measure as follows:

"Mr. President, I'm voting against this bill primarily because the language of the bill does not very specifically state what segment of the agriculture industry would be given a liberalized loan repayment treatment.

It just seems to me because we have been overly liberal in our farm loan program, our monitoring has been lax. This is the reason why we have had situations like the Kohala Task Force mess that we have been involved in in the last two years.

The subsidies the farmers obtain from the State at taxpayers' expenses are the kind of subsidies other businesses do not get. For this reason, I would hate to just carte blanche liberalize the term of repayment on the monthly principal, which payments basically are pretty nominal sums. I think to further extend the limitation for five years for all categories of farmers may not be improving our miserable farm loan repayment record in this State.

Thank you, Mr. President."

Senator F. Wong then spoke for the passage of the bill as follows:

"Mr. President, I think it is wrong to categorize that the bill is too liberal because it covers all farm loans. Our farm loan system right now is vested with the Board of Agriculture. They have the discretionary powers to extend the particular loans that we are talking about.

I have indicated to the Senator from the Fifth District that our present statute right now does not permit the discrimination in favor of one particular segment of our agricultural industry against the other and thus whatever farm loan statutes that we have have to be applied across the board to all segments of agriculture.

More importantly, Mr. President, we have a serious problem in our farm community today. The situation in extending the farm loan is similar to a measure that was adopted by the U.S. Congress and given a mandate

to the United States Department of Agriculture to extend similar farm loans up to two years, and this conforms our statute to the Federal statute.

I ask all members to support the agricultural industry and pass this measure.

Thank you very much."

Senator Nishimura moved that S.B. No. 1979-78, having been read throughout, pass Third Reading, seconded by Senator O'Connor.

Senator Kawasaki then spoke in favor of the bill as follows:

"Mr. President, I speak in favor of the passage of this bill and in so doing, I'd like to commend the Judiciary Committee and its Chairman for passing out of its committee in this session a number of very effective, I hope, pieces of legislation, addressed to the organized criminal elements.

This particular bill makes the penalty for the possession of silencers to a class A felony. A person has a silencer in his possession only for one reason.

Also emanating from the Judiciary Committee is going to be Senate Bill No. 1855-78, S.D. 1, and Senate Bill No. 2086-78, S.D. 1. One makes it mandatory sentencing for repeater offenders who are felons and the other makes it mandatory for the judge to impose restitution to a victim of an offender. Where a victim suffers financial damage, it mandates the judges to require restitution.

After the offender is incarcerated, he comes out on parole, then he has to make restitution over a period of time at the discretion of the judge at the terms outlined by the judge.

These are law and order bills, if you want to call them that, but I think this is well addressed to the criminal elements. Hopefully, the

public who is so concerned about the proliferation of serious crimes, will be made aware of the Senate's position on this.

I think it would be in the public service for the media to publicize these bills and their passages adequately so that the criminal elements will get a very clear message that at least the Senate of the State of Hawaii will not condone the kind of activities the criminal elements have been involved in in the last few decades.

Thank you."

Senator Kawasaki then spoke in opposition to the measure as follows:

"Mr. President, I am voting against this bill because what this bill does primarily is to give the Department of Social Services a responsibility of developing a master no-fault insurance program to cover all of the welfare family recipients who do have cars.

There is no mandate or instruction in this bill to require that the Department of Social Services very carefully screen the necessity of covering a number of cars in a family.

I would support the program that would perhaps provide at taxpayers' expense a covering of automobile insurance premiums for the principal bread winner of a welfare recipient family. But this one does not limit it to that. If a family has four cars, three of which belong to the youngsters in the family with no apparent contribution of income to that family, the taxpayers still have to pay for that insurance, and for this reason, I will have to vote against this bill.

Thank you, Mr. President."

The motion was put by the Chair and carried, and Stand. Com. Rep. No. 480-78 was adopted and S.B. No. 1555-78, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO

Senator Anderson then spoke against the bill as follows:

"Mr. President, I rise to speak against this bill. I remember a few years ago when this very body had to be the first in the country to ratify the 18-year-old vote. I don't think the ink was dry on the newspaper or the cable and before it was typed in the back room, then a resolution supporting the 18-year-old vote was before this body.

Since then we changed the age of majority and it's really somewhat contradictory to recognize an 18-year-old person who is responsible and liable for all the laws of the State, who can vote for the governor, who can get involved in the Constitutional Convention, who can change the make-up of this State entirely, but who can't drink until he is 19 even though he is recognized as a legal adult when

he is 18.

Again, it's just trying to legislate moral standards on people. If a young man has been drinking at 18, they're going to drink at 17, or they're going to drink at 16 or 14. It really depends on the environment, his home and his upbringing, and all the laws that you pass and all the words that you put down on paper trying to prohibit it, isn't going to stop the young man at 18 not to drink because you passed a law.

I think it's contradictory to our past actions and I will vote 'no'.

Thank you, Mr. President."

At 6:47 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 6:50 o'clock p.m.

By unanimous consent, consideration of S.B. No. 1863-78 was deferred to the end of the calendar.

Senate Bill No. 2046-78:

Senator Nishimura moved that S.B. No. 2046-78, having been read throughout, pass Third Reading, seconded by Senator O'Connor.

Senator Kawasaki then spoke against the measure as follows:

"Mr. President, I am voting 'no' on this bill primarily because of the Department of Accounting and General Services' concern about the immensity of a contract like this. They estimate that a contract involving this type of program might involve somewhere between 60 and 80 million dollars with the term of the contract running 20 to 25 years.

We were also told in testimony before the Committee that the County now has the authority to enter into no-bid contracts involving these types of projects and they do not need our sanction. That being the case, I don't think we should enable them to enter into these types of contracts by state statute.

I recall very clearly some of the newspaper articles involving the Federal investigation of the sewer treatment plant overruns by the City and County of Honolulu and some of the concerns of the Federal officials. Let me quote a sentence or two that I am concerned with, and you will know that these types of projects will, as of necessity, require Federal funding, Federal consent, and so forth.

In the Honolulu Star-Bulletin, December 1, 1977, there was an article entitled 'Non-Bid Sewage Contracts Questioned', and it

goes to say 'A preliminary audit report by the United States Environmental Protection Agency (EPA) says that the City had apparent deficiencies in its selection process for non-bid contracts for sewage plant projects that may have led to 'unreasonable' architectural and engineering fees. Further, public works personnel indicated that in most instances the final selection of an architectural engineering firm was made within the Mayor's office, the audit report said.'

Mr. President, it's articles like this that I would quote on but I won't take the time to, that lead me to believe that if the County wants to enter into non-bid contracts involving these amounts of money for a long time--20, 25 years--then that's their business. Certainly we should not sanction this by State statute and I will vote against this bill for that reason.

Thank you, Mr. President."

The motion was put by the Chair and carried, and S.B. No. 2046-78, entitled: "A BILL FOR AN ACT RELATING TO THE PROCUREMENT OF PUBLIC CONTRACTS", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 15. Noes, 10 (Anderson, Chong, Hara, Henderson, Kawasaki, King, Leopold, Saiki, Soares and Yee).

Senate Bill No. 2093-78:

Senator Ching moved that S.B. No. 2093-78, having been read throughout, pass Third Reading, seconded by Senator Hara.

Senator Nishimura then spoke against the measure as follows:

"Mr. President, this bill came out from the Judiciary Committee of which I am Chairman and I signed the report 'I do not concur'. It is the first time in the ten years that I have been here that I have signed a committee report prepared by my Committee 'I do not concur.' But, inasmuch as I have learned a lesson from that here, I have allowed this bill to come down to the floor for full consideration by the whole body and I would like to try to persuade members of this Honorable Body to feel as I do, that we don't need this bill.

In 1970, Mr. President, the Judicial Council of Hawaii Penal Law Revision Project, chaired by the Honorable Judge Masato Doi, published a preliminary draft detailing a comprehensive division

of the criminal laws of this State. The final product was a polished one that emerged after intensive review encompassing many hours of hard work. The final product became Act IX of 1972 and, from 1973, we have been governed by the provisions of the Hawaii Penal Code.

The Penal Code provided that upon conviction, a judge would basically face two choices; he could either place the defendant on probation or he could incarcerate the defendant. If the judge chose incarceration, he had to sentence the defendant to the maximum sentence provided by law, except for a few unique circumstances.

Within six months, the Parole Board sets the minimum sentence the defendant must serve prior to being eligible for parole. At the time of hearing to set the minimum sentence, the Parole Board had the benefit of detailed studies profiling the defendant's strengths, weaknesses and needs. Thus, the Parole Board knows how much time is needed for a program of rehabilitation so that when he once again emerges from the confines of the prison walls, he will be able to walk the streets as a useful productive member of society.

Now, this is not the only factor recognized by the Parole Board. They also look at the seriousness of the crime to determine the length of the minimum sentence. But now this body is asked to change the system.

I ask why? What has happened in the last five years to make us change our minds? Has the Parole Board demonstrated incompetence? Has the Parole Board demonstrated laziness? In my opinion, it has not.

In my opinion, they have done an excellent job. It is not an easy job to judge the future of peoples' lives, balancing the need of the convict, the needs of society.

Just a short two years ago, we enacted into law, Act 92 making the Parole Board a full-time board. Since then, they have made great strides in developing uniformity of minimum sentences.

One criticism of our system of sentencing is the disparity of the length of sentences meted out to the defendant. Two defendants, for example, of similar background and committing the same crime in similar circumstances may meet and find that one is serving a minimum

of five years while the other is serving ten years.

The injustice of it all is quickly apparent to everyone and especially to the one serving ten years. The bitterness engendered does not make rehabilitation any easier--it makes it a hell of a lot tougher.

In the Federal system, the judge sets the minimum and the disparity resulting of sentencing has been attacked by experts in the correction field.

The Senate of the United States has just passed S. 1437 decodifying and revising the U.S. Penal Code in a serious attempt to reform criminal law at the national level. That bill makes provision for a sentencing commission to issue guidelines on sentencing to attack the problem of disparate sentences. While the Federal government moves in one direction towards uniformity, we are now considering a move toward disparity since obviously the judge sets the minimum, there will be no uniformity.

The Parole Board has met this problem of disparate sentences head on. They have set up guidelines on the minimum sentences that should be served for such types of crime, for each type of crime, but to insure flexibility they have set up a system where time could be added to the sentence when aggravating factors exist and the minimum could be reduced when mitigating circumstances warrant such action.

Before the full-time Parole Board existed, Mr. President, the average minimum was one-fourth of the maximum sentence. Now it is more like one-third of the maximum.

Some argued that we should wait nine months before setting the minimum. They say that a good criminal can be a good con artist and behave for six months, but would find it difficult to behave for nine months. I say that this demonstrates a certain naivete of the usefulness of information on behavior in prison.

Mr. President, prison society is a society of criminals. The one who gets along best in that kind of society is the criminal. He will not be a behavior problem for his values and mores fit in with the rest of the prison society. A good con, in other words, knows how to pull time. It is the inexperienced prisoner who is not a hard-core criminal that finds it difficult to adjust to prison life. What we can learn in the additional three months is irrelevant to the making of an intelligent decision.

Some say that judges should set the minimum sentence because they know all the circumstances of the case. That may be true, Mr. President, if the case went to trial, but we should remind ourselves that over 90% of convictions result from guilty pleas. The only facts the judge ever knows are those contained in the pre-sentence report which is also available to the Parole Board.

There is also the problem of time-- a judge will have other duties besides setting minimum sentences and doing parole revocation hearings. He must preside over trials, sentence hearings, pre-trials and hear motions. And these go on constantly, since by its very nature, criminal law is very litigation-oriented.

Just recently the First Circuit had to assign a fourth judge to the criminal calendar to handle the volume of cases going to trial. But yet it is not uncommon for trials to go long into the night. In fact, sometimes the session goes as long as those of our colleagues across the way.

Could the Judiciary handle this extra burden? In this respect, Mr. President, I should like to call to the member's attention that the Judiciary Branch testified on this bill and on February 27, 1978, they submitted written testimony and also read into the record, their feelings on this bill.

Rather than read the reasons why they feel this bill should not pass, let me just read the bottom line: 'The Judiciary actively opposes Senate Bill No. 2093-78 on the following bases:' (And they outline the reasons why they do not want this particular bill.)

Mr. President, since our recent poll results show that crime is the number one concern of the citizens of this State, it seems that any bill which claims to deal more harshly with criminals has become a 'motherhood' bill which should be passed in the interest of the public safety and public welfare.

This bill will not reduce crime, Mr. President. This bill will not guarantee that the convicted person will end up in jail. This bill will not ensure that longer sentences of convicted criminals will result. On the contrary, Mr. President, this bill, if it becomes law, will do just the opposite of what the proponents think the provisions

of this bill will accomplish.

I for one, Mr. President, am willing to give our Parole Board a vote of confidence. I am willing to kokua the Judiciary branch who has asked that this bill be filed, and I ask all the members of this body to join me, Mr. President, in extending a helping hand to the Judiciary branch by voting 'no' on the bill.

Thank you, Mr. President."

By unanimous consent, consideration of S.B. No. 2093-78 was deferred to the end of the calendar.

On motion by Senator Nishimura, seconded by Senator O'Connor and carried, S.B. No. 2148-78, entitled: "A BILL FOR AN ACT RELATING TO CORPORATIONS", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Senate Bill No. 2188-78:

On motion by Senator Nishimura, seconded by Senator O'Connor and carried, S.B. No. 2188-78, entitled: "A BILL FOR AN ACT RELATING TO CORPORATION DIRECTORS", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Senate Bill No. 2287-78:

By unanimous consent, consideration of S.B. No. 2287-78 was deferred to the end of the calendar.

Senate Bill No. 2476-78, S.D. 1:

On motion by Senator Nishimura, seconded by Senator O'Connor and carried, S.B. No. 2476-78, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE IMPORTATION OF BEER FOR PRIVATE CONSUMPTION", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

Senate Bill No. 2590-78, S.D. 1:

Senator Nishimura moved that S.B. No. 2590-78, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator O'Connor.

Senator Kawasaki then spoke against the bill as follows:

"Mr. President, I am voting 'no' on this bill primarily because of the Judiciary Department's objection to the bill.

In my dialogue with the Department, I was told that they are particularly concerned because the pre-sentencing program which we enacted a year or two ago has not as yet been truly implemented.

They are going through the throes of a new type of program being consolidated and so forth, and to add the parole and probationary program to the Intake Services personnel is, in the judgement of the Judiciary Department, just going to compound a problem. They would be supporting such a proposition in subsequent years after the pre-sentencing program has been fully developed and fully operating to the Judiciary's satisfaction.

They are concerned about the lack of dialogue for example, right now, in the pre-sentencing program between the Judiciary, the judges and the authorities in the Judiciary and the pre-sentencing Intake Services personnel. So with the recommendation of the Department of the Judiciary, I will have to vote 'no' and I urge others to vote the same way.

Thank you."

Senator O'Connor then commented:

"Mr. President, lest there be some confusion on the part of the members on the comments that were made by my esteemed colleague, this bill has to do with matters that happen after sentencing or after trial has occurred. The bill which has to do with the pre-sentencing portion of this did not come down from the Judiciary Committee. So this bill does not change the law as it presently exists for Intake Service Centers in the pre-sentencing area. It has to do with probation and supervision of convicted persons who are placed on probation and matters that occur after the sentencing."

Senator Kawasaki then stated, "For the edification of the previous speaker, I am fully aware of the situation, Mr. President."

Senator Nishimura then explained further:

"Mr. President, there are two bills that pertain to pre-sentence investigation. My understanding of the Judiciary's concern and objections relate to a bill that is still in the House.

This particular bill, as the Vice Chairman of the Judiciary Committee has noted, pertains to probation, which is post-sentence, and it is my understanding that the Judiciary Branch has no objection to this particular bill...the functions being transferred to the Intake Service Center."

Senator Kawasaki then asserted, "Mr. President, as a matter of clarification, twenty minutes ago, I talked with Mr. Lester Cingcade of the Judiciary Department to clarify this very bill."

By unanimous consent, consideration of S.B. No. 2590-78, S.D. 1, was deferred to the end of the calendar.

I would, however, like to especially acknowledge the hard work and long hours put in by the Senate Energy/Natural Resources Committee and staff under the able chairmanship of Senator T.C. Yim. Mr. President, the results of their work are now before us.

Senator Kawasaki, in opposition to the measure, commented as follows:

"Mr. President, although I am a music major myself, I am voting against this bill.

If this bill had provided that the thirty tuition waivers for the University of Hawaii students were based on need, it would be one thing, but just blanket providing tuition waivers for thirty music major students and possibly denying some other students who may need tuition waivers, in addition to the 600 that we already provide for, I think might not be the desirable thing under the present situation.

I would be in favor of a bill that very specifically states that the tuition waiver to a music major student should be based on financial need and not blanket tuition waiver treatment for thirty students."

Senator Yee, also in opposition, spoke as follows:

"Mr. President, I feel again that we are making an exception to one group of students, and I feel that there are other groups of worthy artistic talent not included here-- in art, dancing, athletics, whatever you have. I think it is very discriminatory to single out just one group, so I will be voting 'no' on this measure."

Senator Soares, in support of the bill, commented as follows:

"Mr. President, I am going to speak in favor of the bill.

I know that many students are given scholarships for their football, baseball, basketball or other athletic ability. These athletic scholarships are based on their ability and not on need.

Many of the grants are based on need but scholarships are not. Therefore, I'd like to see this bill passed because it will be moving to a new area where we have a lot of musical talent and where we can attract top students for our orchestra at the University. So I urge a 'yes' vote on the bill."

The motion was put by the Chair and carried, and Stand. Com. Rep.

No. 509-78 was adopted and S.B. No. 1936-78, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO TUITION WAIVERS FOR UNIVERSITY OF HAWAII MUSIC MAJORS", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

**MATTERS DEFERRED FROM

Senate Bill No. 1787-78, S.D. 1:

On motion by Senator Toyofuku, seconded by Senator Young and carried, S.B. No. 1787-78, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC EMPLOYMENT", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, 1 (Soares).

Senate Bill No. 2533-78, S.D. 1:

Senator King moved that S.B. No. 2533-78, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Hulten.

Senator O'Connor then stated as follows:

"Mr. President, I'm going to vote against this bill because the section of the law as presently constituted sets up a formula for a landowner who has a historic site on his property with a 90-day period during which he may not touch the property. At the end of the 90-day period, the State is required either to go forward with condemnation or to allow the landowner to do something about the historic site.

The proposed amendment would alter that formula and tack on a 6-month period before the 90-day period and instead of having the landowner able to do anything during that period, he would then be hung up for a period of nine months with no knowledge of what might happen to his land.

I believe that this is unconscionable. I believe that the State, if acting in this fashion, should be faced with a condemnation period within which they either have to do something or 'get off the pot'. Therefore I am going to vote 'no' on this bill."

The motion was put by the Chair and S.B. No. 2533-78, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO HISTORIC PRESERVATION", having been read throughout, failed to pass Third Reading on the following

showing of Ayes and Noes:

Ayes, 11. Noes, 14 (Anderson, Ching, Hara, Henderson, Kawasaki, O'Connor, Saiki, Soares, Taira, Takitani, Toyofuku, F. Wong, Yamasaki and Yee).

Senate Bill No. 1912-78:

By unanimous consent, S.B. No. 1912-78, entitled: "A BILL FOR AN ACT RELATING TO WATER CONSERVATION", was recommitted to the Committee on Economic Development.

Senate Bill No. 1622-78, S.D. 1:

Senator R. Wong moved that S.B. No. 1622-78, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Yamasaki.

Senator Anderson then spoke against the bill as follows:

"Mr. President, we have no argument with the portion of compensation for the people who legitimately went to court and settled with the State, but in this bill on page 10, Mr. President, various school teachers have damages to their cars. For instance, damage to car in Kahuku High and Elementary School parking lot, \$89.80; damage to car by vandals at Roosevelt High School, \$57.20; damage to car by vandals at McKinley High School, \$197.00; damage to car by vandals at McKinley High School, \$169.31. I thought most of the people had insurance programs for vandalism to cars.

In questioning the Attorney General's Office and DAGS, I believe it was, when they were before the Ways and Means Committee, we were told that there is no policy if a teacher's car or a student's car or a State employee's car is vandalized in the various parking lots. I think it allows all kinds of shenanigans between students. It allows all kinds of abuses against the State on the claiming of vandalism. If the car is scratched by students, deliberately, on his own car or someone else's car with a point job on the hood, he can now, under the procedures claim vandalism and get compensation for a new paint job. It can go on and on.

I don't think this was the intent of the bill originally. I think the State needs a policy of vandalism. Everybody has to have and should have an insurance policy which takes care of these kinds of compensations and for this part of the bill, I ask that a 'no' vote be had--that the bill be put back in Committee and this be taken out and then re-submitted

at a later date.

Thank you."

Senator R. Wong then commented:

"Mr. President, in answer to the Minority Floor Leader's comments, I would like to point out that the bill contains payments for school teachers and not students.

The point to be made, Mr. President, is that under the collective bargaining contract with the HSTA organization, part of the negotiating item involved in the settlement of fringe benefits is the idea that teachers be allowed to park on the school premises. Therefore, Mr. President, under those circumstances, it becomes a responsibility of the schools. All of the claims submitted in this bill for damages to automobiles have occurred on school premises. I just want the body to note that.

Thank you."

Senator Yee, in opposition to the measure, spoke as follows:

"Mr. President, to elaborate further, I think what the Minority Floor Leader was alluding to is that these are school teacher's cars parked on school campuses, but there is no criteria as to when you are going to say, okay it's a teacher's car or custodian's car or student's car, because then this can apply to the University of Hawaii where thousands of cars are parked each day by students, faculty and employees on State property. This can go on and on and create a tremendous financial burden on the State, so our reason for voting 'no' is because of this opening of Pandora's box to all kinds of claims against the State on State property.

Thank you, Mr. President."

Senator R. Wong then noted:

"Mr. President, I don't want to belabor the point, but in terms of the DOE, there is a screening process by which all claims of occurrence of accidents or any cases of vandalism on school premises are processed through the Department of Education and then through the Attorney General and then submitted to us for our scrutiny, whether or not we feel this is fair.

Thank you."

Senator Anderson then added:

"Mr. President, they are processed by the Department of Education, but really, they are accepted by the Department of Education to pass on to the Attorney General.

When we questioned the Attorney General, he admitted to members of the Ways and Means Committee that there was no policy and they just submit it to the Budget and Finance people for compensation.

There's more confusion and lack of policy in this program than I've seen in a long time in a very small program among the various agencies. Nobody seemed to know why they passed it on or whether it was authorized or whether it was a compensation plan. Everybody just kept passing it on to Eileen Anderson until she finally printed it in the bill. She didn't know why she did it because she couldn't find any policy.

It's a small amount in this bill, but it's a precedent and there are thousands and thousands of school teachers out there and there was no discussion about collective bargaining. We did discuss the possibility of students being included and again the area of gray appeared.

Anybody who parks on State land, including our own employees in our State parking lots, are accountable under this vandalism open clause and it could, in the future, run into many, many thousands of dollars.

Thank you, Mr. President."

The motion was put by the Chair and carried, and S.B. No. 1622-78, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE RELIEF OF CERTAIN PERSONS' CLAIMS AGAINST THE STATE AND PROVIDING APPROPRIATIONS THEREFOR", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 16. Noes, 8 (Anderson, George, Henderson, Kawasaki, Leopold, Saiki, Soares and Yee). Excused, 1 (Taira).

Standing Committee Report No. 473-78 (S.B. No. 1925-78, S.D. 2):

Senator R. Wong moved that Stand. Com. Rep. No. 473-78 be adopted and S.B. No. 1925-78, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Yamasaki.

Senator Soares spoke in opposition to the measure as follows:

"Mr. President, I rise to speak against this bill and I want to be sure that I am understood that I support a crime commission, but in the discussion of this bill in Committee and with other members of the law enforcement group, I am at a loss to find that the bill contains a certain amount of provisions that raise the efficiency question as to how they are going to operate in concert with our police department.

My first question, Mr. President, is why is the Chairman of the Commission appointed by a two-thirds majority of a Joint Session of the House and Senate and yet the Commission themselves are appointed by the Governor and confirmed by the Senate.

Also, Mr. President, the bill allows the Commission to investigate without any concurrence from the counties or the Department here in Honolulu who may be on the trail of something that is very important, and order them to divulge their investigation and turn over the evidence to the Commission. I question this kind of feasibility of power that we have with the Commission.

Mr. President, the bill provides that the Commission have closed hearings and they can mandate the County governments to cooperate as they see fit, rather than work with and together with the various county police departments.

In the hearings held in the Ways and Means Committee, the local police department felt that while they were working very well with the Commission that these features of the bill would hamper their operation and may cause some problems.

For that reason, I will vote against the bill."

Senator Kawasaki, in favor of the measure, commented as follows:

"Mr. President, I specifically want to respond to the question posed by the good Senator from the Seventh District.

It was my amendment that provided for the appointment of the Chairman of the Crime Commission primarily because of some of the names that were tossed around by the media as to possible Lt. Governor candidates. I was just afraid if we had a person elected to that position by the language of this bill, that whatever his capabilities to lead a Crime Commission is, he automatically would be the Chairman

of the Commission. We could have a man or a woman who would not be strong enough to withstand possible intimidation on the part of the organized criminal elements, and this is a possibility because organized crime activities involve big money.

It's an economic necessity for these people sometimes to have an ineffective Crime Commission. I wanted to make sure that the person who leads the Crime Commission is an able person, a tough person with unquestionable integrity, a person whose reputation would be unimpeachable by the respective county police departments.

This is the reason I felt that the appointment should be by two-thirds majority of each house at a vote to be taken in joint session. This is the way we appoint the Legislative Auditor, the Director of the Legislative Reference Bureau and the Ombudsman.

As to giving the Crime Commission subpoena powers and some of the powers enumerated in the bill, I think a Crime Commission without these powers would be emasculated.

We do not quite agree that the efforts on the part of the county law enforcement agencies to contain the activities of organized crime is quite satisfactory, not only to the Legislature, but to the entire population. And I think a very objective Crime Commission that is efficient with the necessary powers, completely divorced from any entanglements with each county's law enforcement agencies, might just do the job.

I certainly would want to give the Crime Commission every support possible and I want to, in this connection, congratulate and compliment the Chairman of the Ways and Means Committee, whose idea it was to form a Crime Commission.

When the idea was first broached here there were a lot of skeptical people, but in retrospect, when you examine what they have done in the short tenure with a very limited amount of funds, about \$106,000 I believe, I think what they have come out with is quite impressive.

I certainly would like to continue the life of the Crime Commission. Give them ample funds, give them the subpoena powers and then see what they can do. Otherwise, all our enunciated concern about criminal activities, particularly on the part of organized criminal elements here, would be meaningless. If you don't provide for a strong Chairman, you emasculate the entire program

of the Crime Commission.

For that reason, I want to not only congratulate the Chairman for having the foresight to have enacted something like this with his initiative but also his desire to continue the life of the Commission with ample funds.

Thank you."

Senator Soares then commented:

"Mr. President, I might also add that a two-thirds majority vote of a joint session of the House and Senate would be necessary to remove a commissioner only for neglect of duty, misconduct or disability. It means that no matter what kind of performance he has made between sessions, we will have to go back in the next year in joint session to prove either misconduct or prove negligence of duty before he can be removed. I think that feature is dangerous in the sense of a very overly strong Chairman.

Thank you, Mr. President."

The motion was put by the Chair and carried, and Stand. Com. Rep. No. 473-78 was adopted and S.B. No. 1925-78, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO A CRIME COMMISSION", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

MATTERS DEFERRED FROM

Senate Bill No. 1855-78, S.D. 1:

Senator O'Connor moved that S.B. No. 1855-78, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Ching.

Senator Nishimura then spoke in opposition to the measure as follows:

"Mr. President, I rise to speak against

this bill. This is another bill that emanated from the Judiciary Committee of which I am Chairman and I signed the Committee Report 'I do not concur' This bill will amend Section 706-646.5 relating to sentencing of repeat offenders.

The laws as we presently have on the books provide that for certain kinds of convictions pertaining to murder, relating to assault in the first degree, relating to kidnapping, relating to rape in the first degree, relating to sodomy in the first degree, relating to burglary in the first degree, relating to robbery in the first degree, relating to the promoting of a dangerous drug in the second degree, relating to the promoting of a harmful drug in the first degree, we have mandatory prison sentences.

It would require, for example, that upon conviction of a second offense for the same offense, in these categories, a person would be sentenced for five years and for the third conviction for the same offense, for ten years mandatory sentence.

The laws on our books, Mr. President, in our Penal Code, provide the chapter on disposition of defendant. It's a balanced, logical, cohesive, rational and integrated treatment of how to handle defendants who are convicted for crimes that they are charged with, particularly felony.

For example, when a person is convicted, our Penal Code Section 706-605. Authorized disposition of convicted defendants..." (Senator Nishimura read the entire section from the Hawaii Revised Statutes.)

"Mr. President, this is what the courts may do when a person has been convicted. Now if the court is going to sentence the person, then the court has to consider Section 706-621. Grounds favoring withholding sentence of imprisonment..." (Senator Nishimura then read the entire section from the Hawaii Revised Statutes.)

"Then, Mr. President, there is Section 706-622. Criteria for placing defendant on probation..." (Senator Nishimura read the entire section from the Hawaii Revised Statutes.)

"On the other hand, Mr. President, when the person has been convicted of a felony and the felony for the person being sentenced falls into certain categories outlined in the Penal Code, then the sentencing is a little stricter.

For example, there is a clear provision in the law for the judge to sentence imprisonment for extended terms and in Section 706-662. Criteria for sentence of extended terms of imprisonment for felony..." (Senator Nishimura then read the entire section from the Hawaii Revised Statutes.)

Mr. President, this bill would substitute a legislative mandate that the judge or the Parole Board not exercise any of the discretionary powers that they have in looking at the record of the defendant before the court or the Parole Board that is sentencing him.

I feel, Mr. President, that the Penal Code which has been praised by many people spells out correctly the approach to be used when sentencing a person who has been convicted of a felony, whether he be classified as a multiple offender or dangerous offender or as a professional criminal.

I think it is better to leave the sentencing aspect to the person who is handling the case, who has the felon before him, so that all the pertinent factors and circumstances may be reviewed and the sentencing can be appropriate to the offense and to the individual.

If there is a feeling by the members of this body that the court or certain judges are not implementing the laws of this State correctly, then the proper action to take is to have an investigation and perhaps impeach and remove such incompetents, if he be an incompetent judge. I do not believe, Mr. President, that by enacting mandatory sentencing, we are going to change the incident of crime or the number of criminals that are sent to jail.

For this and other reasons, I urge all the members of this body to vote down this bill on mandatory sentencing."

Senator Kawasaki spoke in favor of the bill as follows:

"Mr. President, I would like to compliment the members of the Judiciary Committee who heard testimony for and against this bill. By virtue of the number of people who have voted in the majority for the enactment of this bill, I think perhaps this is evidence that we are all concerned about the effectiveness of all the statutes covering fines, parole and the implementation of the statutes that we have.

I think if we are really to give meaning to our professed desire to contain the activities, particularly of the serious offender, the felon Class A, B and

C, then it behooves us at least to enact this legislation and see what kind of a dent it will make in our crime statistics.

I think you are, as I am, appalled almost weekly when I pick up the morning and evening papers and find that some of the apprehended criminals in very serious offenses against persons particularly, are people who have been paroled time and again... people who had paid fines, people who are back in society again inflicting damage. I point out to you the recent cases of victims who are no longer living today because they were the victims of paroled felons, who were put into society at the judgment of parole authorities.

Had the proponent of this bill who just spoke not been such a strong advocate of the Parole Board having the responsibility of setting the minimum sentence, then perhaps what he has just recited would be received by me with some credence.

He has admitted that who knows better the proper disposition of an offender than a court judge who presided at the trial, who took into consideration all of the evidence of the particular offense, who took into consideration the personal history, the criminal history of an offender. Yet he advocated that we leave the decision as to minimum sentencing on the part of the Parole Board.

I don't quite understand this disparity of view here. As a matter of fact, I wish that the previous bill had passed.

I had the occasion to speak to a number of very respected judges in the Circuit Court system and the Supreme Court, notwithstanding the contention that the Judiciary-- and I suppose in this case he is talking about the administrator, Mr. Cingcade, his opposition to the passage of the other bill.

I am concerned on the part of respected judges who are exasperated and chagrined at the fact that, while they mete out sentences that they think are effective in keeping with the seriousness of the offense, the paroling authority metes out minimum sentences that are just a fraction of the original sentence.

When you have this dual authority here I say that existing statutes would be made a sham, statutes regarding fines, the imposition of fines, and the paroling system. I maintain

that if we are to have some effective means of combating the proliferation of serious crimes, particularly against persons, then we've got to mandate by statute, mandatory sentencing legislation.

For that reason, I support the enactment of this bill."

Senator Nishimura responded:

"Mr. President, in response to the previous speaker's comments, I must admit that I am not as articulate as he is, not having had many occasions to expound on this floor and I don't know as many \$50 words as he does, but I think I read the Hawaii Penal Code a little bit better than he can. And what this thing says is that the judge may withhold sentencing of imprisonment. In other words, the judge may grant probation and he has that function.

On the other hand, the judge does impose the maximum sentence when he does imprison a defendant. The paroling board does impose the minimum sentence. What I am saying is that this is a simple bill on its face, but it has wide ramifications. It touches many parts of the Penal Code pertaining to disposition of defendant.

In our highly complex and technological society, Mr. President, there are no simple answers, only intelligent choices. I submit that staying with the Penal Code is better than enacting laws that appear simple but will not do the job.

Thank you."

Senator Anderson then commented:

"Mr. President, the Hawaii Penal Code isn't a 'sacred cow' document. It was a document that the judges spent many hours on as one to bring our laws in uniformity and conformity. It was to bring some equity. But it is a living document.

It's one that can be changed and amended as times change. I would hate to think that my support of the Hawaii Penal Code some years back was one that I could never change my mind on, I could never amend, or I could never look at it differently as society changes.

I think the Hawaii Penal Code and its various sections--and I don't profess to be an expert in it--needs constant review as the problems in society become more complex. I think it's a document that definitely needs review.

The Chairman of the Judiciary Committee was talking about the public having the right for an investigation if they aren't satisfied. Well, I saw some 2,000 to 3,000 signatures circulating in the Capitol a couple of days ago calling for such an investigation, and I haven't heard yet the Senate Judiciary Committee picking up the cause for the public to be a forum for the public hearing.

The Supreme Court, I suppose, is the proper role, but if the Senate Judiciary Committee is really concerned in what he says in the problems of the public and their sincerity, then maybe the Senate Judiciary Committee is the proper forum for receiving these 2,000 signatures and listening to some of the problems of our people.

Earlier he said that the judges and their discretion...well, their discretion is challenged and questioned by the great majority of our people in this society today in our State. They don't have much confidence in the judicial system anymore. Maybe it is time the mandated sentences be tried or tested and maybe it's an overreaction for a period.

Many of our laws I think are overreactions

when you get into a period of concern and I would like to have seen this bill go one step further in this period of overreaction.

I guess I am as guilty as anybody else. I think these people ought to be put in jail once they've repeated two, three and four times and then the key thrown away."

The motion was put by the Chair and carried, and S.B. No. 1855-78, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO SENTENCING", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 18. Noes, 6 (King, Nishimura, Toyofuku, R. Wong, Young and Ushijima). Excused, 1 (Taira).

At this time, members of the Senate extended congratulations to Senator Takitani on the celebration of his birthday.

Ayes, 25. Noes, none.

THIRD READING

House Bill No. 1802-78, H.D. 1:

Senator Toyofuku moved that H.B. No. 1802-78, H.D. 1, having been read throughout, pass Third Reading, seconded by Senator Young.

At this time, Senator Kawasaki expressed his concern about the bill, stating:

"Mr. President, while I support this bill I'm a little concerned about our imitating, if you will, the futile practice of setting wage increases four years in advance. In this particular case, up to July 1, 1981.

I would certainly support the raising of the minimum wage to \$2.65 an hour and possibly to \$2.90 to meet with the federal parity but I am afraid that taking a fatalistic attitude as setting and just assuming that inflation is going to take place continually, four years hence, I think only feeds this vicious spiral of inflation . . . labor asking for more and the businessman and employer charging more for goods to pay for that added cost of labor plus an additional profit for himself. This vicious cycle has just contributed, I think, to the inflationary cycle that has hurt consumers throughout this nation in the last 10 years. I would hope that instead of doing this, setting wage increases four years hence, that we increase the minimum wage as we go, as we approach the July 1st year and next year possibly go to \$2.90 and so on.

Just supposing we have recession taking place. What we may have to do is repeal what we have passed in previous years. As I have said, I have a jaundiced view of taking such a fatalistic attitude, that we'll never be able to cope with inflation. We're writing into this bill automatically the assumption that in 1981 we'll just have more inflation.

While I support this bill, I would like the Human Resources Committee to consider this concern in future years.

Thank you, Mr. President."

Senator Anderson then added as follows:

"Mr. President, very briefly, I'm going to vote against this bill. I signed the Committee report with reservations.

As I sit here reading the Committee report I'd just like to cite one quick example. It is an example, I guess, justifying the increases. For example,

a head of a family of four who is employed full-time at the present \$2.40 an hour minimum is considered to be living in the poverty because . . . and it goes on and on. I don't know of anybody in this State who is supporting a family of four earning \$2.40 an hour.

We have tried to ascertain from the Department of Labor for the last several years as to how many people in our State are at the minimum and what kind of classes are they . . . whether they are students, young people or wage earners. As usual, the labor unions come in . . . and support this wholeheartedly, even though every major labor union in this State is controlled by collective bargaining and this has no effect on the unionized employees.

As a small employer myself, I used to, and I say used to hire four, five or six young students every year. I hired them for various menial type occupations such as in the warehouse folding boxes, not because we needed them but it was a kind of social obligation to keep five or six people off the highways and off the roads, to keep them busy during the summer. The last time around, because of the increase in minimum wage, we had to cut back and we've now entirely eliminated hiring any young people during the summer months because we can no longer afford the minimum wage.

The types of people that are affected are basically young people and students, the McDonald's, the Farrell's, all of these quick hash houses who hire hundreds and hundreds of students. They aren't wage earners in the sense that they are supporting a family. They're wage earners to a point where they're putting a few bucks aside for college or they're putting a few dollars in their bank account for a rainy day. The record will show that the young people in our country are also spending more and more money on hi-fi sets, television sets, records. The spending capability of the young is increased tremendously by their being allowed to work in various types of jobs where an employer doesn't need high productivity out of them.

I'm sure somebody's going to say, before the week is over, that Anderson's against paying equal work for equal time. That's not true at all. If you hire a young person for a particular job and he's qualified then that job should pay him \$3, \$4, or \$5 an hour if that's what we should be paying him. But there are so many hundreds and thousands of young people employed today in our very State. It is very unfortunate that during the summertime we will see the hundreds of kids that will go before a small employer looking for any kind

of work at any kind of salary and we can't put them on the payroll anymore because you raise it up so high.

Anybody who argues that somebody is supporting a family of four at \$2.40 is not telling the truth.

I was at first, going to ask for the Committee Report to be separated from this bill and support the legislation, but I just can't. I find that the Department of Labor in testifying before the Human Resources Committee used the federal bill to tack on and take the federal recommendation for the tip provision, which is entirely different than the State's. They had no legitimate reason. In other words, the Department of Labor takes from the federal government what it can justify and what it wants, but anytime the federal government has a benefit for the State our pro-labor department seems to minimize it and I just think this whole thing should be looked at.

I really believe that a State Senator

asking the Department of Labor how many of our people and what categories are in the minimum wage, whether it is any problem in our community, whether jobs are being denied young people because of it and you can't get satisfactory answers, then I just can't go helter skelter and support this measure.

Thank you, Mr. President."

The motion was put by the Chair and carried, and H.B. No. 1802-78, H.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE WAGE AND HOUR LAW", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, 1 (Anderson).

At this time, Senator Yee rose on a point of personal privilege and stated:

"Mr. President, for information and concern, about 8:35 a.m., this morning I was involved in a four-car accident on the H-1 Freeway. Cars were damaged, one was totally destroyed, but, fortunately, no one was hurt.

I bring this up because several months ago I had written to the Chief of Police of Honolulu to ask why citations are not issued by police officers to persons who are in the wrong that caused accidents, and the answer was because of the no-fault insurance law passed by the Legislature; that it was an administrative decision of the Police Department who felt that because of no-fault there was no need to interview witnesses; that there's no need to cite anyone for traffic violations and as a result there has been a tremendous savings toward the Department's effort in having their personnel testify in court because of witnesses and violations. As a result, I think, we have all witnessed the increase of premiums on our insurance policies, whereas, no-fault was supposed to help reduce premium.

In my very recent encounter with a very serious traffic accident involving

four cars, the police did their duty as was laid down by the administration of the Police Department. Nobody was cited, everybody is to take care of their own injuries, their own damages to their cars.

I can't help but feel that the wrongdoer will continue to get away whenever there's a traffic accident when no citation is issued and there is no need to appear in court. He will continue to be a reckless driver on the streets.

Mr. Bill Wood, editor of the Hawaii Business Magazine had written an article in the last issue expressing the same concern that I am expressing to you today.

I bring this to your attention because I think this is something that we should all look into in the next session.

Thank you, Mr. President."

Senator Ching then stated:

"Mr. President, a brief rejoinder to the Minority Leader's remarks, if I might.

First of all, I think we all share the feeling that we're glad no one was hurt in the accident, but whatever the action the Police Department has taken, I think this is not as a result, a direct result, of any legislation that this Legislature had a hand in. This was an administrative decision, as the good Senator pointed out.

As far as the no-fault part of our law, and I know there are eminent attorneys in the hall that can correct me on this, the personal injury part of it is covered by your own coverage but as far as the damage to the vehicle, you can still go after the wrongdoer and file a civil action, if necessary, so that he does not get away scot-free, that part of it I have learned through bitter experience.

Thank you, Mr. President."

Senator Toyofuku then rose to state that the Easter hat on his desk represents the first prize that was won by Mrs.

Eunice Fong, 76 years old, of the Chinese Social Club at the Hawaii State Senior Center.

At this time, Senator Nishimura, Chairman of the Committee on Judiciary, requested a waiver of the 48-hour notice of a Decision-Making Meeting on the following measures:

H.B. No. 1889-78, H.D. 2, entitled: "A BILL FOR AN ACT RELATING TO THE HAWAII SUPREME COURT CONCERNING A FULL COURT, ORAL ARGUMENTS AND SUBSTITUTE JUSTICES";

H.B. No. 2094-78, entitled: "A BILL FOR AN ACT RELATING TO THE ADMINISTRATIVE PROCEDURES ACT";

House Bill No. 2352-78, S.D. 1:

By unanimous consent, consideration of H.B. No. 2352-78, S.D. 1, was deferred to the end of the calendar.

THIRD READING

House Bill No. 1893-78, S.D. 1:

Senator Toyofuku moved that H.B. No. 1893-78, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Young.

Senator Leopold then spoke against the measure as follows:

"Mr. President, I have serious concerns about this bill for two reasons.

First, I don't think that people

will come to this State specifically to get on our State program for the Unemployed. I think that when they do come, they have a difficult time in finding a job and I think it is better that they are able to participate in such a program rather than to have them go on our welfare rolls, as the latter would place an even greater burden on our taxpayers.

Secondly, the definition of 'residency' by the terms of the Committee Report is to be determined by the Department of Labor and Industrial Relations. I think this presents us with a possibility for arbitrary definitions with one department defining residency one way and another department defining residency another way.

Mr. President, for these two reasons, I would like to record a 'no' vote on this bill. Thank you."

The motion was put by the Chair and carried, and H.B. No. 1893-78, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO UNEMPLOYMENT", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Toyofuku moved that H.B. No. 2729-78, H.D. 2, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Young.

At this time, Senator Kawasaki rose to speak against the bill and stated as follows:

"Mr. President, I'm voting 'no' on this particular bill primarily because I'm a little concerned that we very arbitrarily, years ago, set the deputies' pay, a deputy for a particular department, at 95% of the compensation of the director of that department. It just seems to me that possibly 80% might be a more realistic figure when you consider that today many of our department heads and those of high position are paid salaries comparable to what the Governor of the State of Hawaii was receiving 3-½ years ago.

There are a lot of \$40,000 a year jobs

today with excellent fringe benefits and retirement benefits. I don't know that in the financial circumstances we're in today and the circumstances I predict we will be in in future years that we can afford this kind of writing into the law, an arbitrary figure like 95% of the pay of the director for the deputy.

I find, for example, to my consternation that the State Ombudsman's pay of \$42,500 is comparable to the pay of a circuit court judge. I feel it's high even as the author of the Ombudsman bill, when the compensation was originally set at about \$22,000 a year. Today, that particular position pays \$42,500 a year, which is, as I said, comparable to the Governor's salary 3-½ years ago. That's bad enough.

I found also to my consternation that the Deputy Ombudsman receives \$40,000 a year. Now, as the original sponsor of that bill, I did in no way years ago anticipate that we'd be paying this kind of salaries for deputy positions.

I'm not singling out one particular position, but my point is that this Legislature has gone overboard to pay the kind of compensation that the State of Hawaii and the people of this State, non-government workers, cannot afford to be paying. When we write into the law a further paying of 95% of the deputies' pay for positions not today included under the collective bargaining group of employees then I say we are compounding the problem.

I discussed this problem with the Chairman of the Human Resources Committee and he agreed that we may have to overhaul the entire salary schedule. I'm concerned because slowly but surely I see this State moving into the direction of New York City.

New York City today is in no way out of the financial straits they found themselves in years ago. Only by Congressional action, only by intercession on the part of the federal government, are they able to honor some of the bonds that are becoming due in payments.

The fact that the dollar of this nation, the greatest economic nation in the world, is today dropping daily against the Swiss mark, against the Japanese yen, against the West German mark, is symptomatic of the dire financial straits this country is in. It's in this condition because legislatures, including the Congressional Body, have refused to come to grips with what is facing us today. That the world today no longer respects the financial stability of our country.

Many of the states are having its problems - Michigan, California, Massachusetts, New York. Hawaii, I predict, is slowly going that way and I think it's about time that we had a little sharper pencil. Compensate dedicated employees properly but not extravagantly. I believe that this just compounds the problem and for that reason I would like at this time to have my vote recorded as a 'no' vote.

Thank you, Mr. President."

The motion was put by the Chair and carried, and H.B. No. 2729-78, H.D. 2, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC OFFICERS AND EMPLOYEES EXCLUDED FROM COLLECTIVE BARGAINING", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

House Bill No. 3039-78, H.D. 1, S.D. 1:

Senator R. Wong moved that H.B. No. 3039-78, H.D. 1, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Yamasaki.

At this time, Senator Kawasaki rose to speak against the bill and stated as follows:

"Mr. President, this is one of the two nights in the annual session that saddens me; primarily because I will have to vote against the bill that generally contains appropriations for some very worthwhile projects that need to be carried on for the benefit of the people of this State. It also contains appropriations for many projects of dubious value and, in my judgment, appropriations which are not justified. They're all lumped together in this one big bill and I cannot in good conscience vote for some of the projects in the bill.

After 12 years of being in the Senate, I am convinced that we cannot in a 60 or 70-day legislative session humanly evaluate, monitor and make sensible judgments in expenditures, for example, this bill of \$870 million for the biennium. I hope this message gets to the delegates to the Con Con, whoever they are going to be.

This is a night that I am convinced that the legislature should be a full-time proposition. If necessary, cut down the number of legislators from 76 to half. Go to the unicameral legislature if this is necessary to cut down the costs of having a legislature to do a job. Make it a full-time job, compensate the legislators properly. I think the members

of the Legislature are the only group of employees or workers, privately or publicly, who have not had a pay raise since 1968, ten years ago. We were too timid to up the compensation, or ask for a compensation increase, and I think, as I said, to compensate the legislators properly, \$25,000 or \$30,000 a year, cut down the number in half, require that they put full-time into this responsibility of serving the people of this State, to make judgments, financial judgments running into \$870 million dollars.

The idea may receive some criticism, but after 12 years of being around here I find that it's humanly impossible for the Ways and Means Committee and its Chairman to intelligently and adequately assess the propriety of the appropriations we allocate to some of these projects. There are good projects in there, there is some 'junk,' to use the vernacular, 'plain junk.' I can't in good conscience, not having had the opportunity to make intelligent judgments on appropriations of these kinds of amounts for a variety of programs, a whole gamut of programs, I cannot, in good conscience, vote 'aye' on this bill.

I would hope that in the conference committee with the House some very close scrutiny will be given to some of the items and the kinds of cost involved.

I would wish, as I said, that the next Constitutional Convention take very seriously my suggestion that you cannot possibly in a 60 or 70-day part-time legislative session make good financial judgments benefiting the people of this State.

I will have to vote 'no' on this bill.

Thank you, Mr. President."

Senator Anderson then expressed his concern as follows:

"Mr. President, I was hoping the Chairman of the Ways and Means was going to say a few words, but I don't want left standing on the record, unchallenged, that the bicameral system is the reason for this budget.

Over the years we on the Republican side of the aisle have criticized the size, the growth, the content, the 'rubbish,' as my colleague calls it, and year after year after year this budget has grown and grown and grown, and no longer is it called deficit because it's no longer popular. You now call it a manageable deficit. This budget is balanced. The budget that came over from the House, controlled

by the majority party, is balanced. The problem is that the bills that are floating around total some \$20 to \$25 million and once those bills are plugged into this balanced budget, it's no longer balanced. It becomes a manageable deficit by definition. I don't think a bicameral legislature is the reason for this, Mr. President. It's politics, it's election year, it's taking care of the boys, it's taking care of the constituency, it's putting on the books projects that we know will never be funded. Putting projects there that we hope the revenues will turn around and the Governor may release. It's all kinds of decisions that aren't made by responsible business-type decision-makers. But politicians aren't business-like decision-makers, they're political animals, they try to take care of the constituency, the Parkinson's law comes into play where they create demands to meet expenditures and income. It goes on and on and on, but it's not the bicameral system.

I would venture to say that if the unicameral system was established in this State, and I don't want to go on record in opposition to it because I think it should be aired and it may be a responsible alternative, but this budget is not in this situation.

I've been here for 16 years and in the last 10 or 12 years this budget has grown astronomically out of proportion and it's not because of the bicameral legislature. It's because the decision-makers, the politicians, can't say 'no.' They all want to be popular in their districts.

'Heaven's to Betsy' that if we had a unicameral legislature, some of our full-time legislators, and I don't particularly mean this Body, but some of our full-time legislators, not having the opportunity to provide some checks and balances in the Senate, this budget would be in a worse condition than it is today. The responsibility of this Body to pass a budget that is not well thought out is diluting our respect in the community.

The Constitution provides that the legislature is the policy-making body and we control the money and the income. By continually over-appropriating, and this goes back to Governor Burns' days and days before that, we've passed on 10, 15, 20% more than we have anticipated, allowing the Governor to pick and choose. If this continues, the day is rapidly approaching that when a legislator sticks into the budget a particular appropriation, it's going to be almost comical because it ends up in the so-called Part V and the stigma that's attached to Part V because it's a political budget and not the State budget, is pretty sad. The time has really come for this legislature to take the Governor's budget and to scrap it.

We had before the Ways and Means Committee this year what we call 'zero-base budgeting.' It was almost comical to sit there because they're talking about rolling back 10 or 20 percent of the State appropriations and starting afresh. We can't roll back 3% or 4% anymore.

Last year the Ways and Means Committee rolled back 3% and all hell ran through the community and the administration. You've just allowed this to grow and to grow and you've promised the sky to everybody and now it no longer balances.

I share your concern, Senator Kawasaki, but it's not the unicameral that's going to solve it. It's going to be responsible legislators who are willing to say 'no.' Grow up and assume the responsibility as charged in the Constitution and then it will happen.

Manageable deficit - we are rapidly going to become a New York City if we don't correct it. The balance in the budget, surely, but in the next couple of days you are going to be acting on \$20 million worth of legislation that you probably all will be voting 'aye' for, which is going to throw the so-called balanced budget way out of proportion. To sit here and say we hope the conference committee resolves it is just kidding ourselves and I think we all know it."

Senator Kawasaki then added as follows:

"Mr. President I do not wish to prolong this matter but I think the good Senator from the Third District, my good friend, misconstrued my remarks. I did not advocate a unicameral legislature. I said that in order for us to do a good job, an intelligent job of evaluating the sums that we appropriate, we may have to go to a full-time legislative proposition. It doesn't have to be the unicameral legislature. But, if there are objections on the part of the public that feel, 'look, we can't afford to have you guys working for us full-time,' then I say cut it in half. It can be a bicameral legislature of half the members; redistrict, reapportion, if necessary, but make it a full-time proposition. Pay the legislators more than \$12,000 a year when it costs Senators every four years \$35 to \$40 thousand just to get elected. This is nonsense!

My point is we have to have a full-time body examining the budget and the programs. Short of that, I would suggest that next year, and if I am back next year, Godwilling, I will

move for the position of having the legislature work full-time and appropriate enough money in our Senate legislative expense budget to give the Ways and Means Committee a bigger staff, a competent staff that can be on full-time, year-round, to examine the budget appropriations, monitor the programs for which we give this money. Either that or supplement the staffing and the appropriations for the B&F people so they in conjunction with the competent staff on the Ways and Means Committee evaluate and monitor these programs for which we provide appropriations. This may help us to come to some intelligent decisions based on the recommendations of the full-time competent staff that we provide for the Senate next year.

I would hope that the legislative expenses bill that we provide for the Senate next year would contain enough money to provide staffing short of our being able to serve full-time around the year with decent salaries."

The President then stated that: "We can appreciate the discussion being carried on right now, but I don't want the discussion to get away from the very thing that we are talking about, the budget. We don't want to get into unicameralism, bicameralism, staffing or anything of that sort. We all appreciate that, so please confine your remarks to the subject at hand, and that's the budget,"

Senator Anderson further remarked:

"Mr. President, if the Vice President of the Senate will check the record, two or three years ago, we increased the so-called interim staff. There's nothing wrong with the Ways and Means staff and I don't know why I am standing here defending the Ways and Means staff, the Chairman can do that a lot better than I can.

The information available to make the decisions is there. The time spent by staff to make decisions is there in the Ways and Means Committee. They present to us on blackboards, all the statistical information that we need to make the decisions. We're skirting and running away from them.

Sitting here tonight on a self-imposed deadline is a good example. A good example of poor administration. This pile of bills represents some hundred and odd pieces of legislation, some of which are far-reaching, some housekeeping. But, because of a self-imposed deadline of this Body and the one across the hall, we have to sit here tonight and try to digest and understand and vote on a hundred and some odd bills.

The budget before us is understood and we are capable of making the hard-nosed decisions the Vice President spoke about. The budget before us from staff has been presented because they have worked all year long. The information is here and it's upstairs. The product before you is a document not based on the statistics, not based on the recommendations always of the staff, but political decisions. All the staff and all the money taking you from \$12,000 to \$30,000 isn't going to improve the document until the politician grows up."

Senator R. Wong then rose to speak in favor of the budget, as follows:

"Mr. President, I would like to say a few words in favor of the budget.

First, Mr. President, I would like to correct a misconception by my honorable colleague from the Fifth Senatorial District, the Honorable Vice President of the Senate. The budget does not contain 'junk,' Mr. President. I want to make the record very clear that many of the proposals and the programs suggested in the budget are a result of requests from constituents to their duly-elected officials.

Whether you or I agree that an opihi study is not important to Oahu but may be important to the Big Island, is a Big Island decision. What I'm saying, Mr. President, is that I think the democratic process works through the system of duly-elected officials listening, hopefully, to their constituency. It may not necessarily have state-wide implication, but it may have county implication, county problems, county needs and county wishes.

All I want to point out, Mr. President, is that in the few years that I have had the privilege of chairing this particular Committee, the decisions have been hard and difficult. I think oftentimes I've lost my bid to project new types of legislation for getting revenues. I think each and every member of the Ways and Means Committee has had a full opportunity for input and in particular, Mr. President, I remember in 1975 when I attempted to pass an omnibus tax which I think was not very popular at the time, which my committee, in its wisdom, or for whatever the reason might be, decided not pass that particular budget.

In the years that followed, Mr. President, we have attempted to try and keep down spending and to get some semblance of fiscal responsibility here in the Senate. I think for the first time in

many, many years there was an honest attempt by the members of the Senate, and in particular, the members of the Ways and Means, to try and keep a ceiling on the spending of the CIP portion of the legislation. I believe that with the help of the minority in our committee, we agreed, Mr. President, that we would keep a limit on debt service to this State, which in turn means in essence that the bond ratings for this particular State may be affected by what we do here.

This year, Mr. President, the debt service limit for the State of Hawaii ranges in the area of \$374 million. We have managed through this budget to cut \$17 million off of the Governor's budget and in addition have managed to keep our spending level at \$200 million. I think this is the most responsible position we have taken in the Senate in the past three years.

With reference to the budget that you have before you, we have attempted to meet all the needs and the requests of the people of this State. I must agree with Senator Anderson that it's very difficult to try and balance the budget in view of the revenues coming into the State. But, in our attempt to do this we have resorted to certain, what I call financial moves, within the budget and it's clearly understood by the members of the Ways and Means Committee to try and restrict the spending in this State.

Mr. President, I want the record to take note that the Senate has deleted \$17 million from the requests of the Governor and I think this is responsible. I think when one views this particular budget, it tries to maintain the current levels of service which we have no control over and it has tried in its attempt to meet needs. These are very difficult as we realize that a deficit has occurred in an area where many of us have very deep concerns in the area of welfare and much of the needs of the programs that we have envisioned, much of the money that we have poured into this worthwhile activity providing help to the people who need it. We may have the rules and the regulations to restrain or restrict more spending in this area, but we in the State of Hawaii, as Democrats joining hands with the Republicans on most issues, have managed to take care of the poor.

In a period where unemployment is high, jobs are scarce, we have stretched our budget to the limit to make sure that these people who are in need are well taken care of.

Mr. President, certain references

were made to the Ways and Means staff. I must say, Mr. President, the entire Senate agreed with the legislative appropriations bill to provide full staffing for the Ways and Means Committee. I think we are the only Committee that is here on a year-round basis and for the record, I am a full-time legislator. I spend full-time here at the legislature. I work with my staff and I thought they did 'one hell of a job.' I have no regrets, whatever the outcome may be in the next election. I can tell you that the Senate is moving in the right direction when it is provided the means to monitor, and I use the word 'monitor,' the administration. The result of this budget that you see in terms of the numbers that appear here which are very confusing to most people is clearly understood by my staff and clearly understood by the members of the Ways and Means.

Mr. President, I can say in all honesty, in the three years, now going to the fourth, that I have been here serving as a Senator and as Chairman of this Committee, my Committee operation has been truly open to every member of the Ways and Means Committee, both minority and majority, for input into any document that comes out of Ways and Means and here on the floor for a vote.

I want to say this, Mr. President, it could only have been done with the understanding of not only people within the Committee, but the members here on the floor who never really get to see the document until it arrives on the Senate floor. Our Ways and Means Committee has tried in its effort in the past three or four years to maintain the concept of prior concurrence. To most of the Committee Chairmen here seated in this hall, we have acquiesced, the word is 'acquiesced,' to their suggestions as to how the format of the budget should be made out and the final form in which you see here has had the concurrence of every Chairman from every Committee here in the Senate. I think this is in keeping with the idea that everybody has had a part in making truly this budget. I am saying this because I know there is a great deal of concern about the economics in this State.

Mr. President, we have been monitoring the Department of Taxation since the last session and I am aware of the fact that revenues that are coming in are not within the projections that we made a year ago. Right now the revenue projection is at 6.1. We have projected this budget based on an 8.3 projection for the fiscal year and a 10.4 for the following. We still

think this is possible, Mr. President.

There are circumstances within the Tax Department relative to collection that we feel will raise this 6.1 cumulative to somewhere around 8%. I am not an economist, Mr. President, and the idea of revenue estimating is really a guesstimate but this budget is based on the most reliable source that we can depend on, the Governor's Revenue Estimating Committee which is made up of people throughout the community who have some knowledge of the economics of this State. We have checked with them before the submittal of this budget and they maintain that the growth rate for this fiscal year will end up at 8.3. I don't know what other source to use or to recommend to this Honorable Body but I can say that this is the best and most reliable authority that we have.

Based on that, Mr. President, we have presented before this Honorable Body a balanced budget. Yes, there are certain changes made within lapsing and those kinds of things which occur in the budget process but we are hopeful that this bill will go into conference and, as Senator Kawasaki alluded to, will receive close scrutiny. I can assure the Senator and my distinguished colleague from across the aisle, he being a member of the conference committee and always scrutinizes very well what is the final product.

Mr. President, I have no qualms about this budget. I think we have met the needs of this State. I think we have fulfilled our responsibility. I ask this Honorable Body to vote 'aye' for this budget.

Thank you very much, Mr. President."

At this time, Senator O'Connor rose to add his remarks, as follows:

"Mr. President, I am going to vote 'aye' on this bill but with a distinct caveat which I would like to state for the record. That caveat being that Part VA of this budget contains a listing of projects. This listing of projects is identical to the listing of projects which came over to us in the House version of this bill. The caveat with which I vote on this bill is one in which I do not agree necessarily with some of the projects listed in that particular section.

I want it clearly understood that when this bill goes into conference, if it does go into conference, that we simply, by listing those projects in Part VA, have not established a situation where we are agreeing with the House position. More clearly, the sum of \$1 million has been allocated for those projects and

the House allocated a sum of \$5 million indicating, obviously, that many of the projects listed in VA of this document could not be funded and would not appear in a final budget document."

Senator Anderson then quickly added:

"For a point of clarification, the \$1 million and \$5 million, if the good Senator would have totaled up those projects, they total \$9 million and the House funded \$5 million - we came in with \$1 million for a conference item."

Senator O'Connor then replied:

"Mr. President, that's exactly why I made my caveat. I thought the good Senator was going to join me."

Senator F. Wong moved that Stand. Com. Rep. No. 693-78 be adopted and H.B. No. 2756-78, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Hara.

Senator King then rose to speak in favor of the bill, stating as follows:

"Mr. President, I rise to speak in favor of this bill though you may not guess it from the remarks I'm about to make.

It's an all right bill, got good things -- my 'w/r' was with regret so I rise, Mr. President, to mark and mourn what it might have been.

What it might have been was a simple, stark commitment to agriculture, a commitment on a basic minimal level -- action on our part, to underwrite the thousands upon thousands of words

spun off, vaporous verbalizing of state policy in support of agriculture.

You've heard the phrase talk is cheap. Talk is. You've heard the phrase too, dirt cheap. Dirt isn't, not in this limited loved fleet of islands we call Hawaii, we call home.

And what kind of home it will be for us down the road will depend in substantial measure, it seems to me, on the degree to which we keep our commitment to diversified agriculture.

The part that's not in this bill, Mr. President, is the part that would have provided simply, clearly, and unequivocally, that the cream of our agricultural land, now in agricultural use, would remain in agricultural use, period. Or exclamation point.

Now what there is over any desirable agricultural district is a question mark. Will the Land Use Commission reclassify it urban? Or in some major cases, when will the Land Use Commission reclassify it urban?

This bill could have included an amendment saying Prime and Unique agricultural land stays in agriculture.

Of the 1,900,000 acres of land in the agricultural district, Prime and Unique total only 335,000; 304,000 in Prime and 31,000 in Unique. That's only 17.4 percent of the land in the agricultural district, less than 1/6th of the lands dedicated to agriculture in this state, just 8% of the total land area of the State of Hawaii, a mere 1/12th of Hawaii Nei.

That 1/12th is the best farming land we have. Prime land is the most flexible, the most versatile. It is capable of growing diversified crops, feed, forage, and fiber crops. We can grow on Prime land the variety of crops we need to help sustain our population.

Unique land is called unique because it is best suited to crops which are unique to Hawaii. So unique land is prime in the sense that it is the best land for some crops which are high quality or high yield or are important crops in the island economy.

If prime and unique lands are lost to development, nothing can bring them back, no other lands can take their place.

Yet it is easier to say, 'We must preserve agricultural lands' than to do something to preserve them and once again we have lost a chance to cast our vote for the future of Hawaii.

Once again we are content to sit back

and allow our best agricultural land to be redistricted if the right applicant comes forward. Once again we are content to watch special uses allowed on land best suited for green growing food crops.

All of us who speak pretty words about open space and green belts, about the rosy future of diversified agriculture, about the need to protect ourselves from foreign oil supplies and mainland dock strikes, must now face the fact we would rather talk than act.

Mr. Robert Ota, who's with the agricultural division of a reputable institution, the Bank of Hawaii, recently gave a talk on Kauai on agriculture and this hard-headed banker wound up his speech by saying, 'I can't help but be bullish about the future of agriculture in the State.' He said, 'Last year our agricultural producers brought into the state about \$1½ million per day from sales outside of the state, or a total of \$535 million.' He said, 'In addition, we produced an additional \$80 million of milk, eggs, vegetables, beef and other commodities for our local consumption.' He said, 'Our agricultural labor situation looks something like this - agriculture employs 12,400 employees and their families; in self-employed agriculture there are 4,500 families.' He said, 'It is estimated that an agricultural dollar in Hawaii has a multiplying effect of six times its productive value.' He said, 'We can triple or quadruple our production of certain commodities without appreciably affecting its market-ability or price.' This is from a hard-headed banker, Mr. President.

A growing number of our young people are getting into agriculture. What will happen if we keep pulling our best land out.

And so, Mr. President, I mourn tonight that just now, when all of us are working to find ways to control growth in Hawaii, to shape a sane, stable future for our state, we are not allowed to commit less than 8% of the best land in our state to agriculture.

Land in agriculture means green growing crops to people who view land as a resource. But I guess, Mr. President, it means green flowing bucks to some who view land as a commodity.

We will have such a measure, Mr. President, the only question is when. And how much more Prime land we'll lose forever before that comes to pass.

In my 6 years as a legislator, Mr. President, I've never 'kanalua'd.' Tonight, in effect, I'd like to 'kanalua' three times to toll what might have been.

Thank you, Mr. President."

The motion was put by the Chair and carried, and Stand. Com. Rep. No. 693-78 was adopted and H.B. No. 2756-78, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO LAND USE", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator F. Wong moved that H.B. No. 2689-78, H.D. 1, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Hara.

At this time, Senator King rose to speak against the measure, as follows:

"Mr. President, I rise to speak against this bill and I'll be brief.

It seems to me that what this bill says is that if a county finds that unreasonable economic hardship or where land utilization can be improved then they can allow lots and agricultural districts to be cut down provided that there are no more than the same number of lots.

It seems to me what this would allow is a developer to come in with an area

with a certain number of lots and then plead economic hardship or say that he wants to improve land utilization, make maybe three \$500,000 lots, they're very large, then do the others much smaller, a half acre, and so move in much more easily to putting a subdivision into agricultural districts.

I therefore, urge a 'no' vote on this, Mr. President."

Senator Kawasaki then stated as follows:

"Mr. President, I vote with certain reservations on this bill because I am opposed to setting all lands classified as agricultural, Class A, B, Prime, Unique.

I am concerned that, particularly on this island, legislative bodies like ours, like the City Council, will have to consider the requirements for a piece of land for the average citizen who wants to live somewhere close to where the action is, within a 30-mile radius of City Hall and State Capitol.

We will have to provide lands that are going to be set aside so that future generations may not have to go way out to Mililani, Pacific Palisades, the Leeward side, miles away, with the cost of transportation being what it is today in this energy crisis era. We have classified a lot of lands, I think, under the general classification of agriculture that may be very conducive to providing decent fee simple lands for a prime commodity requirement by the average citizen to build a home to raise his family.

When we say that the minimum agricultural lot should be no smaller than one acre we preclude thousands of our citizenry here to being able to purchase land, fee simple, somewhere close to town so he can go to work very conveniently and without great cost to him over a period of years. Something for his family that is easy to purchase. Not many people can purchase in today's prices fee simple land of one acre minimum. The cost of purchasing fee land which is of one acre minimum is prohibitive to the majority of our citizens here.

While we worry about setting aside agricultural land for the professional agriculture entrepreneur we do not provide for the man who wants to retire or the man who wants to do agricultural pursuits on a part-time basis. There are many crops conducive to part-time activity, orchids being one of them, anthuriums, bromeliads, many types of flower crops -ginger.

I have seen, for example, a nursery on the Kaneohe side with 33,000 square feet under saran provisions raising dendrobiums. The gentleman, a member of the legislature, cannot meet the demands for his crop which is dendrobium orchids.

My point is that there is a need for us to provide lands in sizes less than one acre suited for agricultural work but suited also for putting up a residence to raise a family. When we specify that all lands, I'm not talking about prime lands particularly, but all lands under agricultural use district shall be one acre minimum in the future, we preclude many of our citizens, thousands of our retirees and citizens from being able to buy a lot larger than 7,500 square feet, larger than 5,000 square feet. Something even the size of half an acre that he may be able to afford, may be able to raise some crops to supplement his table requirements or food requirements, and that may supplement his retirement income.

We will have to be thinking of this in the future and I would advocate permitting agricultural use of lots, particularly those that are conducive to raising a family on a residential basis, land that is conducive for part-time agricultural pursuits even as small as half an acre, because this is the size, in my judgment, that the average person can afford. As a matter of fact, I doubt that many people can even afford half an acre today. When we set aside one acre as a minimum then we are saying that the average person that wants a lot, as I described, will have no chance on this island to purchase such a lot.

I vote with reservations on this bill because that's still better than making a two-acre minimum requirement, but I would hope that someday this Body consider setting aside on this island, close to the City where the action and the work is, lands that people can use to raise their families and do part-time agricultural work."

Senator F. Wong then rose to speak in favor of the bill and stated:

"Mr. President, I rise, very briefly, to speak in favor of the bill.

I think we find ourselves too often providing laws on the books that make the administration of our laws totally inflexible. This is one of those cases. The administration has come to us and asked us for relief for what is considered to be a practical problem.

Mr. President, the bill clearly states on page 2 that under a consolidation and resubdivision the number of lots

cannot be any greater than there was prior to consolidation.

Thank you, Mr. President."

At this time, Senator Kawasaki remarked:

"Mr. President, I signed the Committee Report emanating from the Judiciary Committee, 'I concur,' because I was in agreement with the Senate position. But an article in tonight's evening paper regarding the concern on the part of the staff of the Crime Commission for the absolute necessity of the immunities provision that's advocated by the House is well taken.

I would hope that in the conference committee the Senate conferees would consider very strongly the plea on the part of the Crime Commission staff for the absolute necessity of the immunities provision that was provided in the House version.

If we are to give meaning to our professed claim that we want to do something to contain the activities of the organized criminal elements, if we want to help the law enforcement agencies or police departments with some 2,000-force manpower, and I have every confidence the police forces of the respective counties could adequately contain the activities of a couple of dozen hoodlums who are a part of the organized criminal elements, if we are to give meaning and sincere support in our effort to help the law enforcement agencies, our judiciary system, to contain the proliferating of organized criminal activity here, then we should provide the Crime Commission with the necessary tools, including the provision of immunity from suits that they are asking us for. I would hope that the Senate conferees would support the House version providing for this tool that's needed so badly."

Senator Soares then rose to speak against the measure and stated:

"Mr. President, I rise to speak against this bill as I did so when the Senate bill passed.

One of the problems that was in the Committee hearing was that the law enforcement the Crime Commission is asking for, this very subject that my colleague across the hall is asking for, would put a burden on our police departments, our law enforcement agencies.

They do not have that immunity and problems would be created when the commission would ask for information or records of the police departments on a certain case being investigated,

interfering with it to begin with, and then having the opportunity to be immune from any suits and the department who gave it to them would then be sued. I think this is an irresponsible act toward our police departments. I think they are doing an excellent job and the power being asked for in this bill is far beyond what I feel a crime commission should be empowered with.

I ask my colleagues to vote this bill down."

The motion was put by the Chair and carried, and Stand. Com. Rep. No. 711-78 was adopted and H.B. No. 2239-78, H.D. 2, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO A CRIME COMMISSION", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

At this time, Senator King rose to speak against the measure:

"Mr. President, I rise to speak against this bill and in so doing I'd like to cite a classic example of depressing legislative shenanigans a lot of us had hoped had been put behind us with the advent of sunshine. Not even sunshine just plain old basic rules and the question: If it's something you or a powerful special interest wants, forget the rules, kid. It's not a game we're playing.

A concerted effort began last session to scuttle the park dedication statute. They got part of what they wanted last session with House Bill 1547, H.D. 1, and they got ready with a resolution and the taxpayer supported self-serving Council to scuttle it some more this time.

Well they've done it, but let me make clear, it's not what they've done I'm talking about tonight it's how.

For differences of opinion, strong differences of opinion are inevitable, are okay. But we're supposed to go by certain rules. The House Water Land Committee went by rules. When this measure came up in the House they sent out a hearing notice with date, time and place, House Bill 1869, 'Relating to the Dedication of Park and Playground Space.' Everybody was alerted. They had a chance to testify, both pro and con and the bill died in Representative Kawakami's Water Land Committee.

But, let me cite what happened then in the House. Senate Bill 71 moved from the

Senate to the House, a good bill reported out by Senator Young's Housing and Hawaiian Homes Committee. It went to the House Housing Committee and there, lo and behold, that's lo spelled 'l o w', there, low and behold, it suddenly got tacked onto at some place along page 43, the measure taking away home rule from the Counties, particularly the City and County of Honolulu, and determining how best to serve the people of that County in terms of park needs. From there it went to House Finance and there it very properly, in accordance with the rules, died.

I'd like to quote, Mr. President, from the latest issue, March 27, of Building Industry Digest of Hawaii, just a brief quote first from John Connell's 'Straight from C.I.O.' Here's how Mr. Connell described what happened in House Finance. He said, and I quote, 'However, even though the Committee members agreed with the intent, the park dedication portion was deleted from the bill due to procedural irregularities. It appears,' said Mr. Connell, 'that one of the rules of the House is that no measure should be piggy-backed onto another one unless they had both been reported through to the Committee free and clear.'

From the same issue, Mr. President, under the General Contractor's Association of Hawaii article I'd like to quote Mr. Elroy Chun, also describing what happened in House Finance. He said, and I quote, 'After almost an hour of discussion, Committee Chairman Jack Suwa recommended the industry proposed addition to the bill be deleted on the basis of the House's own rule prohibiting piggy-backing. His recommendation was sustained.' Mr. Chun goes on and I quote, 'We feel every legislator does try to play it straight and if there is any seeming deviousness we must assume there may have been a strategic reason for it.'

Well, there was certainly deviousness, Mr. President, in the way this scuttling measure reappeared in the Senate. It was on our desks last night fourth from the bottom of a big stack of bills and not many knew it was there. I didn't until this morning because the bill was entitled, 'Relating to the General Powers of Counties.' It was a bill actually, Mr. President, that should have come to my Committee in the first place and there's a memo of record to the President's office pointing this out, but saying I wouldn't press it. It should have come to my Committee, Mr. President, because it was a bill that dealt with enforcement of ordinances regulating or prohibiting

noise, smoke, dust, vibration or odors which constitute a public nuisance. That's what the bill was.

The amendment to the section, a reasonable one I think and one that I would have supported, had to do with agricultural burning permits and all the testimony at IGR to which this was first referred dealt with just that. It passed clean to Judiciary but when it came out of Judiciary with no members of the public ever knowing the park dedication scuttling measure was being considered, it had it tacked onto it. Absolutely no relation to agricultural burning, Mr. President, unless you consider the act done under a smoke cover.

I don't know if the bill, if it passes as is, is subject to legal challenge since clear, proper procedure was so blatantly ignored. I won't address that, as I haven't addressed the merits of the measure. I only speak of the way it was done. I could use Elroy Chun's word 'devious.' I could say 'odorous, reprehensible.' What it was was 'sneaky' and it stinks.

I urge a 'no' vote by the Senate, Mr. President, to say to people loud and clear that in our State Senate rules still count.

Thank you, Mr. President."

Senator Chong then added:

"Mr. President, as a member of the Senate Judiciary Committee I thought I was signing a bill relating to the general powers of the counties relating to agricultural burning of which there was a hearing in the committee. It was a little shock to see attached to the back of this bill the last 3 or 4 pages on the park dedication matter added to it. So, I also urge the members of this Body to vote against this bill."

At 9:50 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 10:28 o'clock p.m.

Senator Nishimura then inquired if the Senator from the Sixth Senatorial District would yield to a question to which Senator King replied in the affirmative.

Senator Nishimura then asked:

"Mr. President, words such as devious, odorous, sneaky, was used by the speaker in making her objections noted on the record. I, as Chairman of the Judiciary Committee would like to know whether I was included as a principal, and included in the definition of such words as devious, odorous and sneaky?"

To which, Senator King replied:

"Mr. President, I would like to state clearly for the record that the individual Chairman of the Committee is certainly not included."

Senator Nishimura thanked Senator King then added:

"Mr. President, I appreciate the vote of confidence, considering the fact that I, as Chairman of the Judiciary Committee, have experienced in this session, or last year, the dubious distinction of having had a bill yanked out of Committee, of having had to sign committee reports 'I do not concur' and voting 'no' on bills that I sent out from my Committee. It will not be the last time that I vote 'no' on bills that come out from the Judiciary Committee. I can foresee that in the near future I will be voting 'no' again on other bills that the members of my committee feel should be considered by the whole Senate.

For the record, I should like to state that with respect to House Bill 2248, 'Relating to General Powers of Counties,' there was a hearing held on this bill on Wednesday, March 22, 1978. At that time we received testimony from the General Contractor's Association of Hawaii and the statements presented by them are on record. They indicated that they wanted the bill amended to provide for the possibility of taking care of the park dedication problem that they were encountering. We also received additional testimony from another individual also testifying in favor of the proposal to take care of the problem pertaining to the dedication problem encountered with the City and County of Honolulu.

On Thursday, March 23, we had a decision-making hearing at which time when the public was present and during an open meeting, the matter was discussed openly by the full Committee--perhaps not the full Committee by that time, some members had gone home or gone to other places, but I recall that there was still a quorum present at the time that the decision was made about tacking on the bill to this House Bill 2248 and we looked for another vehicle, unfortunately, the title was not broad enough. Mindful of the constitutional requirement that no law shall be passed except by bill and that each law shall embrace but one subject which shall be expressed in its title, we decided to use this bill as a vehicle, with the clear understanding that in the event the additional subject matter became too burdensome, it would be knocked off and we would

preserve the original subject matter pertaining to cane burning.

I don't know what the problem is really because earlier this evening we voted on and acted favorably on House Bill 49 which, if you are going to use the word piggy-backing, piggy-backed the subject matter of the real estate board onto the bill requiring public members to be added to boards and commissions.

In addition, on House Bill 1920 which we acted favorably on earlier, this being, 'A Bill for an Act Relating to Boards and Commissions,' we piggy-backed the Board of Barbers and the Board of Massage. In other words, they were sunsetted, but we revived them even though it was after Easter. They were piggy-backed and no one squawked then so I don't really understand what the problem is.

All I know is that no rules were violated. The decisions were made in open meetings by the Judiciary Committee, all members were given the committee report and the bill, and for the record, Mr. President, my name was affixed to the Committee Report the very last."

Senator Anderson then rose to speak against the bill:

"Mr. President, we've been trying to get a park dedication program into effect in the City and County of Honolulu for the last 10 years, I swear. This bill doesn't affect the neighbor islands because you don't have the heavy concentration of subdivisions and you don't have the lack of playgrounds because of your open space--your mountains and your streams and the low density.

We have had over the years not a couple of calls but hundreds of calls and lots of them Leeward, lots of them Windward, lots of them out in the Seventh Senatorial District where our major urban sprawl subdivisions have popped up asking about lack of playgrounds for the children.

Over the years, when these developers have come in, beautiful rendering drawings of the subdivisions have always been up on the blackboard and in the center of these subdivisions usually are these tremendous park layouts. One by one the lots would begin to sell and then the lots were offered to the City and County of Honolulu to be purchased for a park under the old system and in 20 years, I believe, the City and County has bought only one single park of this nature. Consequently, by strange coincidence, these renderings and these park sites put aside by the subdividers always lend themselves to be cut up properly into house lots once the County hasn't

been able to afford to buy it. The park dedication program was to put the burden of providing this recreational area on the new homes in that area.

The Committee Report says on page 2, there was testimony to the effect that one subdivider was asked to contribute \$3,240 per dwelling unit while another subdivider was asked to contribute \$1,300 per dwelling unit as a result of the park dedication ordinance; that your committee finds that there's a great disparity in the amount of cash contributions.

Well, if one subdivision happened to be in Waipahu and one in Waikiki, sure there's going to be disparity because the land costs more in some areas. There's got to be disparity geographically and financially as the cost per square foot varies throughout the City and County of Honolulu. That certainly isn't to be worked against it.

The report goes on to say the ordinance has increased the development costs, which are passed on to the new homeowner. That was understood when we tried to put the dedication program together. The cost of the park was wanted and needed by the young families moving into these areas.

As these subdivisions opened up in our community in this County, the people that moved to it basically are new, young, married couples starting out in families and having families. And who needs recreational parks more than these young people? Sure, maybe the \$2,000 or \$2,300 per dwelling looks expensive and it is expensive to these people who are trying to make ends meet, but records will show, Mr. President, that after a year or six months or two years in these subdivisions the hue and cry from the community from these subdivisions are from these very people who want the park, the swings and the slides for their children, and the County has not been able to provide it. That was the whole crux of the ordinance as we passed it.

Now the City and County of Honolulu is moving ahead on it. We have a letter on file from the Council Chairman opposed to this measure and \$500 per unit, in most cases, for all practical purposes, scuttled this bill.

I don't know the problem on the neighbor islands in upteenth degree, but I do know in the City and County of Honolulu, in the Third, the Fourth, the Fifth and the Seventh Senatorial Districts we need this kind of a measure.

It's an assessment to the parties who buy, be it through this route or a property tax increase, it's the same thing, it's going to be on those individuals. Nothing is for free. They want the parks for their kids.

We've had all kinds of bills and talks and discussions about keeping children busy, keeping them off the streets, and we finally get a measure that provides a recreational park to provide and burn up their energy and all of a sudden we're trying to scuttle it.

I would really ask the Senators from this County with the problems in your particular districts to search deep. This should never have been allowed to be put onto this measure. I'm not accusing piggy-back, I look at it as an amendment and it's fair game, but we don't need to repeal the park dedication bill. It should be enforced, it should be implemented. I think that the \$1,300 or \$3,000 is going to be money well spent to keep these kids off the streets. I would really ask that you reconsider and vote this measure down.

Thank you, Mr. President."

Senator R. Wong also rose to speak against this bill and stated:

"Mr. President, usually I would not do this, but I would like to make two clarifications. One, personally as the Chairman of a Committee and second, I don't consider this measure piggy-backing. As far as I'm concerned, the title of the bill determines its content. To me the title is very broad. It can include the burning of cane and it also can include what Senator King alluded to in terms of a park kind of dedication concept.

I do want to make the record clear, as Senator Anderson has reiterated here before this Honorable Body, that on Oahu we seem to have a problem with reference to parks. I don't want to bring up old stories, but I remember in 1975 a bill was passed by the Senate which would have addressed itself to this particular problem and that was the question of the room tax of which 60% of all proceeds collected from the room tax would be used for the purchase of parks. In the wisdom of the House, after much disagreement, the House decided not to pass the measure.

I think, if this measure would have passed, it would have given us the parks and would have lessened the burden to the developers who, surely, Mr. President, are harrassed by rules and regulations and cost factors, and we would not have this problem today.

Therefore, Mr. President, I wish to urge the members of this Honorable Body to vote against this measure, for Oahu's sake and for the children of Oahu.

Thank you."

Senator Hulten then rose to speak in favor of the bill and stated:

"Mr. President, I was the author of the original park dedication bill in 1967 whereby we passed the legislation mandating the counties to adopt ordinances which would require developers to dedicate lands for public parks in the event they were developing large subdivisions.

What has happened, however, is the counties, especially the City and County of Honolulu, would rather have cash than parks. What the City has been doing is requiring the developers to put up cash rather than to give land. They won't accept the land, they want the cash. This cash is then spent, God knows where, but it's not spent on the park in the neighborhood where the subdivision is going, it may be spent across town someplace. It's frustrating the way the ordinance was adopted by the City and County of Honolulu.

Now, what this measure does is limit the amount of cash the City can demand. Hopefully, they will then rather accept the land than go after the money because the prime purpose of the original statute was to see that land was provided so that these young families that they talk about would have parks in their neighborhoods. As it is today, there are no parks in the neighborhoods, the money goes someplace else.

I urge that we act favorably on this legislation."

The motion was put by the Chair and carried, and Stand. Com. Rep. No. 727-78 was adopted and H.B. No. 2248-78, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO GENERAL POWERS OF COUNTIES", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Senator Kawasaki then rose to speak against the bill and stated:

"Mr. President, as I did in the previous session, I am voting against this bill primarily because, in my judgment, the Department of Economic Development has the responsibility of providing coordination for the tourist industry. This bill just creates another \$37,500 a year director's position and it also provides for staff in addition to what's already provided the DPED.

It just seems to me the DPED should, among its resources of staff allocation, provide one of its staff people the responsibility of being the coordinator of all tourist activities. If, however, they find that an additional person and an additional staff is needed, then my suggestion would be to finance the cost of those provisions by deducting from the HVB, who should logically be doing all the coordinating activities. Deduct from the almost \$2.1 million that HVB receives in State funds, in addition to what they solicit from the private sector, the cost of providing the tourist coordinator and his staff.

I would not like to see additional funds be allocated in addition to what's given to HVB to provide for another high-paid position. If they don't want to do that then I would suggest that DPED allocate one man from their staff resources to be the effective tourist coordinator.

For that reason, I will vote against this bill."

Senator Kawasaki then rose to state:

"Mr. President, I am voting against this bill and I would like to suggest to my colleagues that if we are not certain of the absolute necessity of providing additional judges to the judiciary system and where we are not willing to make appropriations available to them, we are just saying we authorize the additional judges, then we should not allow this bill to pass. Just as certain as death and taxes, funds will be appropriated in the future session.

I have not been quite convinced of the necessity for the additional judges requested by the Judiciary. It just seems to me that this Body and the Body across have been very generous with the Judiciary. We've raised their salaries, some of which I have a jaundiced view of; we've given them additional clerks in the Supreme Court; we've given them additional staffing and now, they are asking for additional judges.

Apparently, the Ways and Means Committee is not in concurrence with the need for these positions because they are saying let's authorize the possible appointment of these positions and worry about the funds later.

If in the future sessions we are convinced that there is need for additional judges to be allocated then at that time we should make the decision that is requested of us tonight and at that time sufficient funds be provided for these added judges. Until then, I would suggest that we vote 'no' on this bill.

Thank you, Mr. President."

The motion was put by the Chair and carried, and Stand. Com. Rep. No. 701-78 was adopted and H.B. No. 1885-78, H.D. 2, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO CIRCUIT AND DISTRICT JUDGES", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 24. Noes, none. Excused, 1 (Yee).

Standing Committee Report No. 710-78 (H.B. No. 819, S.D. 1):

Senator R. Wong moved that Stand. Com. Rep. No. 710-78 be adopted and H.B. No. 819, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Yamasaki.

Senator Kawasaki then rose to speak against the measure and stated:

"Mr. President, I am voting against this bill because when we started converting into the Civil Service tenure system some of those positions that were originally created with the clear definition that they were not covered under Civil Service tenure and people accepted these positions on that understanding, we opened the door for future requests like this. We have allowed this to happen, opening a 'Pandora's Box' of requests of similar nature for other people not tenured under Civil Service.

As a matter of fact, I am quite in agreement with President Carter, who wants a close examination of the U.S. Civil Service System and what it does under the tenure system in promoting efficiency and work output by people covered under the Civil Service System. Until perhaps the results of the federal study comes out, we should hold in abeyance any more converting of these positions into the Civil Service tenure system.

As I stated earlier, when we employed these people they knew very clearly that they were not tenured and I would suggest that we wait until the federal report examining the whole Federal Civil Service tenure system is publicized. We can then make decisions to further cover other people if at that time it seems feasible."

The motion was put by the Chair and carried, and Stand. Com. Rep. No. 710-78 was adopted and H.B. No. 819, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO CIVIL SERVICE AND

EXEMPTIONS", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 16. Noes, 8 (Anderson, George, Henderson, Kawasaki, King, Leopold, Saiki and Soares). Excused, 1 (Yee).

Standing Committee Report No. 714-78 (H.B. No. 2545-78, H.D. 2, S.D. 2):

Senator Ching moved that Stand. Com. Rep. No. 714-78 be adopted and H.B. No. 2545-78, H.D. 2, S.D. 2, having been read throughout, pass Third Reading, seconded by Senator Hara.

Senator Yamasaki then remarked:

"Mr. President, while I had originally intended to vote 'no' on this bill, I now would like to vote 'yes.' However, I have certain reservations on this bill.

I would like to see this bill moved to the House so that further amendments can be made with respect to safety requirements for school buses.

I am informed by two families, concerned members of this community, that the school buses here in this County are really bad and that much of the safety requirements are lacking. Therefore, I would like to see this bill go into conference and have the requirements on safety be strengthened so that it will comply with the federal requirements on school bus transportation as required by Public Law 89-563 and amended by Public Law 93-492. I would like to see that this bill is strengthened further by requiring compliance with mandatory requirements, in accordance with the federal law on school buses.

Thank you, Mr. President."

Senator Kawasaki then rose to speak against the bill and stated:

"Mr. President, I have to vote against this bill. I think this is a very clear example of special legislation.

We're extending the bus transportation contract with the State with those people who already enjoy the benefits of these contracts. These contracts provide for an extension of two years and again, by this bill, we extend those extensions another two years, for a total of ten years.

I think the public interest dictates that at the end of the extension period of the people today holding State trans-

portation contracts, all such contracts should be put out to bid for other people, to have other organizations who do want to get into the business, to have an opportunity to bid for these contracts. This would provide the competition required.

I think the present law giving the extension under existing contracts have given these people enough time to write off the cost of the equipment, if that is their desire. But to extend further the present contracts which already have options for renewal provided is going to open the 'Pandora's Box' of requests by other people holding other contracts with the State to say, 'please extend my contract, you did it for the transportation people in the school bus program, why don't you do it for us?' There will be requests for extension of contracts by airport concessionaires, and other concessionaires that are today doing work for the State.

I think this sets a bad precedent and it's certainly unfair to those companies who may have wanted to enter into a business agreement, a business contract with the state and have anticipated that they have no certain time period and they too will be eligible to bid for contracts of this nature."

Senator Chong then added:

"Mr. President, very briefly, I rise to speak against this bill.

In very simple English, this bill would enable school bus contractors to extend without open public bidding up to four years. That's four years without public bidding, whereas, right now they automatically come up every year. I should think that healthy competition is necessary and in the public interest to keep the contract situation the way it is."

The motion was put by the Chair and carried, and Stand. Com. Rep. No. 714-78 was adopted and H.B. No. 2545-78, H.D. 2, S.D. 2, entitled: "A BILL FOR AN ACT RELATING TO SCHOOL BUS CONTRACTS", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 13. Noes, 11 (Chong, Kawasaki, King, Kuroda, Leopold, Nishimura, O'Connor, Saiki, R. Wong, Yim and Young). Excused, 1 (Yee).

House Bill No. 227, S.D. 1:

Senator Nishimura moved that H.B. No. 227, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator O'Connor.

Senator Kawasaki then stated:

"Mr. President, the bill apparently was introduced by the administration's Department of Regulatory Agencies as a House bill saying that they would like to be released of the administrative responsibilities and the chores attendant to a franchisor who wants to do business in Hawaii selling franchises to franchisees to register the conditions or terms of a contract for these franchises with the Regulatory Agencies and these registration forms require certain disclosures. The Regulatory Agencies would like only to have the terms be known to a possible purchaser of one of these franchise contracts. I see some objections to this.

It is in the public interest to have all of the information about the terms of a contract on a franchise be available to anyone else that may be interested. He simply can go to the Department of Regulatory Agencies and get all the information to determine whether he would like to get into the business or not. I see no particular burden of responsibility to have the Regulatory Agencies continue this registration and disclosure requirement being submitted to them.

I would like also, if this goes to conference, to remove the exemption of those franchise companies who's net worth is over a million dollars. Most of the franchises sold today are certainly worth over a million dollars and why not have those people make full disclosure of their terms to a possible purchaser. Why do we exempt a business because it is big financially? Abuses on the part of franchisees may be just as easy to perpetrate by big franchises as the small ones that are required today.

I would like to see in conference, if this goes to conference, that the conferees representing the Senate remove the exemption that is provided for a company with a net worth of a million dollars or more."

Senator O'Connor then added:

"Mr. President, I am voting in favor of this bill; however, mostly because our franchise laws existing on the books drastically need some updating. This bill is a good vehicle for that updating. However, as our good and friendly Senator Hulten oft says, 'there are several mechanical errors in this bill' and I trust that they will be worked out as we go along toward the end of this session.

I think that for the most, people know where they are and the problems that exist with them; however, we

do have a problem with the franchise law. It has to be updated. It has to be straightened out as it presently exists on the books and I vote in favor of this measure as a vehicle to do that."

The motion was put by the Chair and carried, and H.B. No. 227, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO THE FRANCHISE INVESTMENT LAW", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 20. Noes, 4 (Anderson, Kawasaki, Saiki and Soares). Excused, 1 (Yee).

House Bill No. 2465-78, H.D. 1, S.D. 1:

On motion by Senator Nishimura, seconded by Senator O'Connor and carried, H.B. No. 2465-78, H.D. 1, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO GASOLINE DEALERS", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 22. Noes, 2 (Leopold and Saiki). Excused, 1 (Yee).

At 11:15 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 11:20 o'clock p.m.

Standing Committee Report No. 726-78 (H.B. No. 425, H.D. 1, S.D. 1):

Senator Nishimura moved that Stand. Com. Rep. No. 726-78 be adopted and H.B. No. 425, H.D. 1, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator O'Connor.

Senator Kawasaki then expressed his concern and stated:

"Mr. President, there is quite a misunderstanding about the language of this bill.

What this bill does in effect is to prohibit an ordinary homeowner to act as a journeyman plumber. The language of the bill says that homeowners doing work at home are exempt, providing they do not do any work involving valves or the rearrangement of pipes.

If I wanted to rearrange the pipe in my garden as part of my landscape I would be prohibited by this language from doing that. If I wanted to change the valve because my valve is corroded and it needs to be changed and rearrange a part of my piping system in the yard, I could not do this under the provisions of this bill.

I would suggest that this bill be recommitted and the language cleaned up a bit, then perhaps I might be in favor of the bill."

Senator Toyofuku then answered:

"Mr. President, I would like to suggest that the previous speaker read the section, entitled: 'Unlicensed Activity', in its entirety. It says, 'No person shall act or assume to act as a journeyman electrician, journeyman speciality electrician, supervising electrician, supervising speciality electrician, motion picture operator, journeyman plumber, master plumber or maintenance electrician without a license previously obtained in compliance with this Chapter and the rules and regulations of the Board.' Then it goes further to say, '... except that any person who owns his principal place of residence may personally perform emergency repair work in a plumbing system.'"

I suggest that the previous speaker read the section in its entirety."

Senator Kawasaki then replied:

"Mr. President, I would suggest that the previous speaker continue from the next word on which says, 'except that any person who owns his principal place of residence may personally perform emergency repair work in a plumbing system when such repairs do not involve or require rearrangement of valves, pipes or fixtures.'"

Senator Toyofuku then stated:

"Mr. President, without this bill, no homeowner can do any repairs as such. He must call in a journeyman plumber. I do hope that the previous speaker understands that if this bill dies then he has to call in a journeyman plumber to fix any pipe that may be broken."

Senator Kawasaki then added:

"Mr. President, really, this has some impact on a lot of do-it-yourself homeowners worried about the cost of calling in a union plumber at \$12.00 a half an hour plus fringes.

The present law prohibits the ordinary homeowner to act as a journeyman plumber for compensation in doing work for someone else. That's fine, but really, this language will prevent me or any other homeowner who's got great talents in doing do-it-yourself fixit operations on plumbing from even changing his valves or rearranging

his pipe. That is exactly what the language says and I think this was not the intent of the bill, but that is what the end result is going to be.

For that reason, I will have to vote against this bill."

Senator Anderson then stated:

"Mr. President, I find myself in the dubious position of agreeing with the Senator from the Fifth Senatorial District.

The bill doesn't sound like much, it's kind of comical, but really I think it would turn an awful lot of our constituency throughout the State into illegal positions. I don't think that when I change a valve today I am acting or assuming to act as a master plumber or a journeyman plumber. I'm merely fixing a faucet or a valve in my yard. I am not assuming to be anything other than a handyman.

The bill does make it illegal the moment I put a five-foot extension pipe and put a common valve into my yard. Either way, this bill is unenforceable. They haven't been enforcing it the way it was and no county's going to be able to enforce it the way you are amending it.

This kind of legislation should really never see the light of day because some inspector could get cute out in the field if the bill does pass and if he interprets it to the letter of the law he could harrass somebody in the community.

Coming from the Windward District where we have an awful lot of do-it-yourselfers, and the neighbor island, I think it would be best that the bill be clarified before it is passed."

Senator Nishimura then rose in support of the bill and stated:

"Mr. President, in the consideration of this bill, I had the occasion to talk to a councilman from Kauai and he was kind enough to show me an opinion that was extended by a county attorney who indicated that the law, as it stood right now, could be interpreted to provide that no emergency repair work could be performed by a homeowner.

I saw that legal opinion and I'm not in a position to refute or challenge the ability of the lawyer who wrote the opinion.

The Kauai people seem to think that unless this law is amended they cannot perform emergency repair work. I am going along and try to kokua them and ask all my colleagues to kokua our one Senator from Kauai."

The motion was put by the Chair and carried, and Stand. Com. Rep. No. 726-78 was adopted and H.B. No. 425, H.D. 1, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO ELECTRICIANS AND PLUMBERS", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 20. Noes, 4 (Anderson,

Ching, Henderson and Kawasaki).
Excused, 1 (Yee).

Senator Young moved that the report of the Committee be adopted and that S.C.R. No. 74, S.D. 1, be adopted, seconded by Senator Toyofuku.

Senator King then spoke against the motion as follows:

"Mr. President, I'm going to be voting 'no' on this concurrent resolution and the resolution that follows and I'd like to briefly state why.

It's not because I don't feel that we should examine the economic impact of the restrictions and requirements of the National Flood-Insurance Act in our State. I think this should be done, but I think that there are departments of the State, rather than the Council of Housing and Construction Industry to do this.

This Council started out with no funding, and I understand that now during this session, they are requesting \$120,000 for their funding. It seems to me that they are attempting to become another layer of government when to date, they have been a self-serving agency.

For this reason, Mr. President, I will be casting a 'no' vote.

Thank you."

The motion was put by the Chair and carried, and, Roll Call having been requested, the report of the Committee was adopted and S.C.R. No. 74, S.D. 1, entitled: "SENATE CONCURRENT RESOLUTION REQUESTING THE COUNCIL OF HOUSING AND THE CONSTRUCTION INDUSTRY TO EXAMINE THE ECONOMIC IMPACT OF THE RESTRICTIONS AND REQUIREMENTS OF THE NATIONAL FLOOD INSURANCE ACT IN THE STATE OF HAWAII", was adopted on the following showing of Ayes and Noes:

Senator Young, for the Committee on Housing and Hawaiian Homes, presented a report (Stand. Com. Rep. No. 766-78), recommending that Senate Resolution No. 276, as amended in S.D. 1, be adopted.

On motion by Senator Young, seconded by Senator Toyofuku and carried, the report of the Committee was adopted and, Roll Call having been requested, S.R. Senator King then spoke against the motion as follows:

"Mr. President, I'm going to be voting 'no' on this bill and I'd like to just briefly state why.

The Committee Report from the House Finance Committee refers to a language change, excluding reference to low income on page 2. They don't mention that also on page 3a, the present statute

says 'to provide safe and sanitary dwelling accommodations for persons of low income.' They've stricken 'for persons of low income' and if they had at least put 'with priority given to persons of low income', I think I would have found this more acceptable.

Another change that they made is in housing for the elderly. They added new language to the statute saying that this shall be exempt from all county zoning ordinances relating, among other things, to building height restrictions, recreational area, open space. I'm not sure that the elderly should be discriminated against, in a sense, in this particular way, or that we should be taking this option away from the county. I understand the intent of this is to attempt to build costs at lesser expense, but I'm not sure that this is the proper way to do it.

I feel even more strongly regarding the new language on page 43 which says that 'the authority may develop public land in an agricultural district and in conservation districts.' The former is subject to approval by the Land Use Commission and the latter by the Board of Land and Natural Resources, but they added new language saying 'the petition shall be conclusive proof that the intended use is a superior public use to that which the land has been appropriated.'

I don't believe that in terms of agricultural or conservation district land, the petition itself should be conclusive proof. I think the petition should include conclusive proof and the Board and the Land Use Commission should then make the determination.

It is for these reasons that I'll be voting against this bill, Mr. President."

The motion was put by the Chair and carried, and the Senate agreed to the amendments proposed by the House to S.B. No. 71, S.D. 3, and S.B. No. 71, S.D. 3, H.D. 2, entitled: "A BILL FOR AN ACT RELATING TO HOUSING", having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

MATTER DEFERRED FROM EARLIER ON THE CALENDAR

Senate Bill No. 2279-78, H.D. 1:

Senator F. Wong moved that the Senate agree to the amendments proposed by the House to S.B. No. 2279-78, and that S.B. No. 2279-78, H.D. 1, having been read throughout, pass Final Reading, seconded by Senator Hara.

Senator Kawasaki then spoke against the passage of the measure as follows:

"Mr. President, I spoke against this bill about a week ago and at that

time voiced some objections. I find today that I have even a greater, more compelling reason to plead with the members of this Body to vote against this bill.

I think you have had a report of the Legislative Auditor's inquiry into our Farm Loan Program delivered to your offices. I have had some very jaundiced views about this program as I think the condition is appalling. It has been appalling for a number of years. I have on many occasions during the past sessions, spoke out against the inefficiency in the Farm Loan Program.

If you have not had the opportunity to read the item on the front page of the Pacific Business News, which, incidentally, thousands of independent businessmen subscribe to and these are people who are not directly connected with the farming industry, I think I should read this because some of the items included in this article are very pertinent to how you should be voting on this bill before us.

This bill in language purports to extend the time of which a borrower from the State in the Farm Loan Program may not have to make any monthly principal payments. These principal payments are rather reasonable. They have been scheduled over a period of years and it is a schedule which I think a reasonably efficient and prudent businessman is able to meet. Now, by law, we have provided that in the event, for reasons beyond his control, a farmer cannot make principal payments, then we give him a two-year extension.

This bill further extends this to five years, three additional years, for reasons beyond his control and they specify these reasons on the first page of the bill. They also say 'but not limited to' the reasons specified. Now this is what I think is dangerous about it.

But let me read excerpts from the Business News Week publication, entitled 'Auditor's Report Blasts Farm Loan Program', written by Debra Whitefield, and I quote,

'A scathing report by the Legislative Auditor... charges the Department of Agriculture with "deliberately" turning the farm loan program into a subsidy program and with lending money to a select group of farmers.

For those reasons, the audit concludes, the program has "failed miserably."

Serious questions are raised in the report about the manner in which some agricultural loans are granted. Specifically addressed are findings of statutory violations, unequal distribution

of loans, failure to document loan security, acceptance of outdated financial statements, and "sloppy and perfunctory" management.

Other findings:

- Loans are approved on the basis of "insufficient and legally unacceptable security."
- Loans exceeding statutory limits have been granted aquaculture farmers.

The department is engaged in the "questionable practice of refinancing existing farm loans", a practice that severely limits the number of program participants.

- Of \$8.88 million in loans outstanding June 30, 1975, 48.4 per cent was concentrated among 12.9 per cent of the borrowers. More than 60 per cent of those were from the Big Island.'

Twelve million dollars of State taxpayers' money has been expended in this Farm Loan Program since 1961. We provide this kind of subsidy for no other segment of the business community--no other segment. To continue the article,

- '- Efforts to ensure repayment of loans have been "sloppy" and "perfunctory."

The Department of Agriculture has made direct loans to farmers even when available financial data and past experience clearly indicated inability to repay.

The "failure" of DOA to encourage financing from private and also from federal sources has placed financial burdens on the state.

Loans are made "even when the projections have shown insufficient flow of cash to repay the loan applied for, the applicant's past loan experience has shown a chain of delinquencies, and the applicant's equity has been a negative one," the report says. "Moreover, DOA has made loans upon loans when the indicators have shown inability to repay even existing loans."

As of June 30, 1975, 787 farm loans to 661 farmers were outstanding. The loans totaled \$4,882,581. Eighty-six per cent of those were direct state loans.'

Mr. President, these are not loans made by lending institutions guaranteed by the State of Hawaii but direct State loans. To further quote the article,

'Nearly half of the \$8,882,581 was concentrated in the hands of 12.9 per cent of the borrowers.

That concentration of state loans in the hands of a few, clearly violates the intention of the section of the law reading "during a tight money situation all available farm loans should be spread among reasonably efficient farmers rather than concentrated among a few."

Nearly 31 per cent of the money outstanding was delinquent, nearly double the 1971 delinquency rate.'

Mr. President, this audit covered the period of one year between 1974 and 1975. The Department of Agriculture, as is the customary practice, was given a chance to respond to the Legislative Audit, and I'd like to continue the article,

'State Auditor Clinton Tanimura, who received the department's comments and justifications for recommended changes two weeks ago, said the department's comments may be reflected in some "very minor" revisions to the report. However, he said he found the comments for the most part "thoughtless."

Now, Mr. President, a similar report criticizing the Farm Loan Program emanated from the Legislative Auditor's Office in 1971.

At that time, conditions were pretty bad. The Kohala Task Force projects were generally commenced in 1973, after the first critical report by the Legislative Auditor's Office. And in reviewing the Kohala Task Force projects, the \$5.8 million, the State taxpayers' money which was expended in a fiasco of sorts, apparently showed that the Department did not pay too much heed to the warning issued in the first report.

Now comes the second report covering a year's period between 1974 and 1975. The point I wish to make is that had the Department, with reasonable diligence, adhered to the recommendations of the first audit report, we would not have had the Kohala fiascos--that's the point.

Secondly, I think our passing this bill--it sounds rather innocent, helping a certain segment of the business community by not requiring reasonably scheduled monthly principal payments--we are compounding what is already a bad situation.

I think the businessmen, thousands of businessmen, the other segments of our community, have the perfect right to say, 'Hey, what about us? What about my business? I need some

help.' Perhaps what we should do for those businesses who are unable to pay their State taxes, for reasons beyond their control, is not charge them the 12% interest as we do on the taxes that they owe. They don't owe us any loans, only taxes. We should give other segments of private entrepreneurs this kind of treatment.

I have been here for about ten or eleven years and I have been appalled at how, by legislative act, we have been giving special treatment to a very select group of farmers. You see the capital improvement projects in every session--huge amounts of money for appropriations, cooling plants, storage facilities and all kinds of improvements, some of which I think are questionable.

The point I wish to make is that we are not helping to improve the Farm Loan Program administration by further liberalizing what is already, in my judgment, a very liberal attitude on the part of the State Legislature for one segment of our business work here--the farmers.

I'd like to help the diligent farmer at a time when most farm products are selling for good prices and conditions are fairly good. I don't think we need to extend by three years, for a total of five years, that period in which he does not have to make any payment of principal.

I think this is a bad bill and I wish you would reflect on this and certainly I would hope that you read the Legislative Auditor's Report.

I think this only compounds a bad situation and hopefully, we can do something to improve what is the Farm Loan Program administration today. But this bill certainly, as I said, compounds a bad situation. I would wish that you would vote against this bill.

Thank you."

Senator F. Wong then spoke for the measure as follows:

"Mr. President, I rise to speak in favor of the bill.

The points made by the distinguished Senator from the Fifth District are correct because we do have significant problems in the administration of the Farm Loan Program, but I don't think that we can confuse the administration of the program with what the needs of the farming community are.

For some time now, this Body has chastised the administration of the Farm Loan Program in a number of sessions, including the extensive work that we did regarding the Kohala Task Force, and many of the suspicions that we had about the Farm Loan Program have been borne out by the Auditor's Report, which, as you know, has been long overdue.

Mr. President, the matter of the administration of the Farm Loan Program is the subject matter of the Senate right now and that matter will be discussed in great detail before the end of the session. However, I rise to speak and ask for the support of this bill primarily because it is of assistance to the farming community, which is not involved in the administration of the bill.

The Legislature, in its wisdom a long time ago, determined that agriculture was of great importance to this State and therefore was entitled to special consideration.

Mr. President, what we're asking for is flexibility to extend the principal payment for an additional two years and with provisions for a third year if, under certain circumstances such as drought, shipping strike, things that are completely beyond the control of our farmers, necessitate such an extension.

I think that the public policy of this State should be to assist the agricultural community in times of hardship. This type of legislation is certainly in the best interest of the State of Hawaii.

Thank you, Mr. President."

Senator Yee then stated as follows:

"Mr. President, I speak very briefly in favor of the bill to echo the sentiments of the previous speaker, but more so that there is nothing wrong with the bill. I think it is an excellent bill and therefore must rise to speak in favor of it.

The things that the Senator from the Fifth District talks about are purely administrative, and if he had a resolution here on the table today condemning the Board of Agriculture, condemning the Director of Agriculture for the sloppiness that it has carried out its duties in the past two years, I would vote with him on that also.

But that is not the question on this bill. The question has been pointed out to help an industry that really needs help. And now, besides strictly farming, aquaculture is part of the overall agriculture activity and they certainly need help

as well.

Thank you."

Senator Kawasaki then commented as follows:

"Mr. President, there is one short point I want to make.

I would go along with the bill if the extension was for perhaps a year. I think I could support three years of extension for a businessman who legitimately has a bad economic hardship. But this one goes for an extension of three additional years, for a total of five years.

Also, my concern is the language that says 'in addition to factors beyond a farmer's control.' If the borrower is in a state of extreme financial hardship which is caused by factors beyond his control, which factors include but not limited to...those words 'but not limited to' is, I think, what is dangerous in this bill.

I would say that if you are going to vote 'aye' on this bill, then be prepared, be prepared to extend similar benefits

to other types of businesses because we do not help many other businessmen, who are diligent in their efforts to make ends meet, to help economy, to create jobs. We do not help other business segments in a similar type of program. So just be prepared to provide this same benefit to others.

Thank you."

The motion was put by the Chair and carried, and the Senate agreed to the amendments proposed by the House to Senate Bill No. 2279-78, and S.B. No. 2279-78, H.D. 1, entitled: "A BILL FOR AN ACT RELATING TO FARM LOANS", having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

Ayes, 22. Noes, 3 (Kawasaki, O'Connor and Soares).

ORDER OF THE DAY

MATTERS DEFERRED FROM APRIL 5, 1978

Standing Committee Report No. 783-78 (S.C.R. No. 91, S.D. 1):

Senator Yim moved that Stand. Com. Rep. No. 783-78 be adopted and S.C.R. No. 91, S.D. 1, be adopted, seconded by Senator King.

At this time, Senator Yim rose to speak on the Senate resolutions relating to the manganese nodule processing industry in Hawaii:

"Mr. President, for several years, we have been hearing reports that Hawaii might benefit from these deep sea manganese nodules containing valuable metals such as copper, nickel, and cobalt in addition to manganese. This opportunity has arisen because of the location of vast beds of high grade nodule deposits 600 to 1,000 miles southeast of Hawaii. Hawaii's strategic location close to the rich deposits, its vast potential alternate energy sources in the form of geothermal and biomass power, and suitable seaport capabilities make Hawaii a logical contender for the location of manganese nodule processing plants.

A recent report of the State Department of Planning and Economic Development (DPED) noted that the State could enjoy tremendous economic benefits should processing plants be established here. Just one processing plant would annually generate \$262 million in gross state revenues, create over 2,400 new jobs, and thereby greatly strengthen Hawaii's economic health and tax base. In addition, in view of the fact that virtually all of our nation's manganese, nickel, and cobalt supplies currently come from foreign sources, the development of this new industry would also contribute significantly to the security of our nation's mineral supplies.

The DPED report also indicates that there are many steps that must be taken if Hawaii is to participate and benefit in this multimillion dollar industry. There are also many cautions, particularly as relate to our environment that must be observed. There is the need, therefore, to conduct further studies to gain a full understanding of all the various ramifications of the manganese industry.

There also remain several critical questions which must be addressed before active implementation of a project will be undertaken: What are the provisions of international law concerning ownership of the nodules? Who is authorized to mine them? Who is to share in the expected royalties?

As many of us know, the United Nations 'Law of the Sea Conference' is currently meeting on these issues. Assuming the conference fails to yield acceptable solutions to these questions, and such appears likely, there is a strong possibility that the Congress of the United States and other industrialized nations may enter into mini-treaties to support private industry development of manganese nodules with proper environmental and other safeguards.

Thus, regardless of the outcome of the United Nations 'Law of the Sea Conference,' it appears fairly certain that major mining operations will be established near Hawaii in the next few years.

Recent developments have indicated that immediate action by our state government must be taken if Hawaii intends to be an active participant in this industry.

First, as most of you know, last week, one of the major consortia which has been working out of Hawaii announced that its 3-mile deep ocean mining tests were very successful. The consortia has also indicated that in a few months, it will return to Hawaii to seriously discuss possible locations for a processing plant and other concerns for Hawaii.

Secondly, I met with a representative from another consortia last week. This consortia is considering the possibility of building a pilot processing plant in Hawaii, valued at several million dollars, capable of processing approximately 50,000 tons of manganese nodules a year. The anticipated target date for the start-up operations is 1980--just 2 years away!

Thirdly, still another consortia was contacted through my office. Its representative indicated that Hawaii is 'definitely in the running' for being chosen as a nodule mining site. A chief concern of this consortia however, is assurance that the location of a processing plant in Hawaii would be welcomed by the State and the affected local community. A key representative of this consortia will be visiting Hawaii in a few weeks to further discuss some of the factors that the consortia will consider in selecting a site for its processing plant.

As seen by the foregoing, some important industry decisions are going to be made

soon. The various consortia have already invested many millions of dollars to establish prototype mining operations. The consortia are working from a definite timetable and must therefore render certain key decisions regarding the siting of processing plants soon.

Hawaii has the opportunity to participate in this growth industry, but we must act now! The manganese resolutions before this Honorable Body represent affirmative steps that must be taken if the development of a manganese industry in Hawaii is to become a reality.

Senate Resolution No. 316 requests the DPED to conduct a feasibility study on the establishment of a foreign trade zone on the island of Hawaii for locating manganese nodule processing plants and related industry.

Senate Resolution No. 337 and Senate Concurrent Resolution No. 91 request the Legislative Reference Bureau to conduct a study to determine state/county actions necessary to encourage the location of a processing plant in Hawaii, including: (1) identifying major factors the consortia will consider in plant siting; (2) identifying the consortia timetable for selecting a plant site; (3) recommending specific legislative actions; and (4) developing the legislation to implement the necessary state/county actions.

The resolutions further request:

The University of Hawaii Department of Oceanography to secure needed base line data on environmental issues;

The University of Hawaii to develop a possible program of courses which could provide needed skills;

The College of Tropical Agriculture to analyze the tailings or waste products of manganese processing for possible use and commercial applications;

The DPED to complete analysis of state, county and local industry infrastructure and develop a program to strengthen the required infrastructure to meet the needs of the manganese processing industry; coordinate the ongoing effort on behalf of the state to attract the manganese processing industry to Hawaii; provide a public information program; maintain communication with the interested consortia members; and provide a clearinghouse of information.

Senate Resolution No. 363 and Senate Concurrent Resolution No. 113 express legislative support for the development of a manganese nodule industry for Hawaii; invites various consortia to seriously consider the establishment of their respective manganese processing plant in Hawaii; and request the Hawaii delegation in the Congress of the United States to actively support the passage of legislation which will provide viable economic incentives ...including the financial protection necessary...to enhance the establishment of a manganese industry in Hawaii.

Senate Resolution No. 370 and Senate Concurrent Resolution No. 117 request the Governor to create a broad based manganese nodule task force of public and private representatives to guide and help coordinate the required actions to attract a manganese nodule processing industry to Hawaii.

Fellow Senators, we are now at the crossroads of what could be the most important decision in recent Hawaiian economic history. The establishment of a manganese industry in Hawaii would be a tremendous stimulus to our shaky economy. There are still some questions that need to be answered concerning the various ramifications of a manganese industry. However, because of the rapid development of this industry, we cannot wait until all the answers are in before we take affirmative action. We cannot allow this opportunity to slip by because we did not act in time and discover later that a manganese industry would be good for Hawaii.

In conclusion, I strongly urge for your support of all the senate resolutions which outline the programs and action needed now to attract this promising industry to Hawaii.

Thank you, Mr. President."

MISCELLANEOUS COMMUNICATION

A communication from the Honorable Daniel K. Akaka, Member of the U.S. Congress, (Misc. Com. No. 27), acknowledging receipt of Senate Resolution No. 41, adopted February 3, 1978; Senate Resolution No. 40, adopted February 6, 1978; Senate Resolution No. 214, adopted February 21, 1978; Senate Resolution 92, adopted February 22, 1978; and Senate Resolution No. 28, adopted March 20, 1978, was read by the Clerk and was placed on file.

At 12:10 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 12:32 o'clock p.m.

At this time, Senator King rose on a point of personal privilege and stated:

"Mr. President, it's no big thing, but when somebody sets you up as a sitting duck, then I think you ought to squawk or at least quack a bit.

I'm referring to John Connell's latest column, 'Straight from CILO,' the latest issue of the paper in which I feel I've been unfairly maligned. It's on park dedication and it's a series of claims and facts.

Mr. Connell claims such things as 'if this bill is approved there will be no more parks or what the people, who are supporting it are claiming.'

I won't go into that, I haven't heard anybody claiming that at all.

I'd like to comment just briefly on his personal comments about me. I don't think that I would bother if my friend John Connell were a befuddled type so that I felt that he didn't know what he was doing, but John is sharp. He knows what's going on and he knows what's said, and he's articulate, so he says what he means.

He says in his column, 'She', after referring to me, 'was against the bill' in referring to my floor speech. In the floor speech, I made it very clear I wasn't speaking about the bill itself but about the procedure that was used. He said that I said that 'those who supported it were underhanded and sneaky.' I didn't do that at all. I said, 'the procedure was...', and he concludes that paragraph by saying, 'it is unfortunate that someone in public office cannot exercise enough self-control to confine the debate to the merits of the issue and not delve into personalities.' I didn't delve into personalities at all, Mr. President. I quoted Mr. Connell and Mr. Elroy Chun from their paper commending the House on what they had done there.

Thank you."

Senators King and F. Wong, for the Committees on Ecology, Environment and Recreation and Economic Development, presented a joint report (Stand. Com. Rep. No. 830-78), recommending that Senate Concurrent Resolution No. 96, as amended in S.D. 1, be adopted.

Senator King moved that the joint report of the Committees be adopted.

and that S.C.R. No. 96, S.D. 1, be adopted, seconded by Senator F. Wong.

Senator F. Wong then stated as follows:

"Mr. President, I rise to speak with reservation in support of Senate Concurrent Resolution No. 96 and also Senate Resolution No. 344 which follows, relating to coastal zone management. As members of this Body know, I have signed the committee report 'with reservations' and I would like to state those reservations at this time.

Last year, we enacted Act 188 which many of us considered to be the finest coastal zone management program in the United States. The Legislature in addressing the question of the conformance to the federal coastal zone act said, 'Your Committee recognizes that federal funds are important to implement this Act, but the primary motivation for enactment is to have the best possible coastal zone management program in the United States and one that clearly recognizes Hawaii's unique natural resources and the geographical and political configuration of our islands.'

Furthermore, in the finding and purpose of the Act, we stated, 'Where Hawaii's unique geographical and political circumstances result in a necessity of choosing between the intent of the federal legislation and the specific requirements, the purposes of this Act shall control.'

It seems to me that the legislative intent in no uncertain terms said, if we could not obtain federal funds based upon Act 188, then it was just too bad.

Now we have a situation where the Department of Planning and Economic Development in the administration of this Act is seeking federal funds and because the federal government has indicated that the shoreline management area in the Act does not comply with the federal requirements, it has established an 'administrative boundary' for the purposes of coastal zone management.

The administrative boundary establishes as the area for coastal zone management, the entire State of Hawaii except for forest reserves. I hesitate to second guess the administration in its negotiations with the federal government, but I cannot help but question the wisdom of offering the entire State, except for the forest reserve, as an administrative boundary and then trying to reduce that area at a later date in determining the permanent boundary.

Perhaps a better course of action would have been to submit the application using the existing Shoreline Management Areas and let the federal government tell us what they can and cannot live with,

or offer an area twice the size of the existing SMA. I fear that once we have given the federal government the entire State, that it will be very difficult to take anything back.

Mr. President, to designate the entire State except for the forest reserve is not only questionable, but more importantly, it is poor management and ignores Hawaii's unique geographical and political configuration.

It does appear that DPED in its quest for federal funds is jeopardizing the delicate balance that we reached last year in designating and designing a coastal zone management program.

Mr. President, the natural resources of our coastline are too important to be a political football between the federal and State governments. In this regard, the State government should dictate the kind of program that we feel is best suited for the State of Hawaii and not vice versa. We cannot afford to let the federal government tell us how we should run our coastal zone management program.

Mr. President, if DPED's 306 application is successful, we will receive approximately \$1.8 million. That is too cheap and too little to gain for what we will have lost to the federal government.

The actions of DPED have caused me grave reservations and I fear for the real price that we will have to pay for receipt of these federal funds.

Thank you, Mr. President."

there rather than be arbitrarily denied consideration. "

The Senate reconvened at 11:11 o'clock a.m.

Senator Anderson then rose to speak on the return by the House of the foregoing bills, as follows:

"Mr. President, to this subject, I'd like to restate the concern this side of the aisle has on this tactic that the House has invented this year. In all of my 16 years of serving in the Legislature, I have never heard of one house not accepting the bill sent over from the other house because they're either controversial or not popular, for whatever reason.

I think you reiterated the other day, when you sent them back, that the Constitution mandates that when one house sends bills to the other it provides that they must act on it. Your letter, provided to us last night, states that the majority caucus, evidently with minority consensus, has taken a position to somewhat pick and choose. Last week, when we sent the three bills over, it was not accepted and was sent back to us. It's been like a ping-pong ball.

We had a discussion in the Ways and Means Committee on the three bills. Our understanding of the policy there, being that all three bills are Ways and Means, is that the House would act on all three bills or no bills, knowing full well the firemen as well as the guardsmen would get down here and lobby. Without arguing the merits or the demerits of the particular bills, because the firemen are a very active group and they have been lobbying very effectively the last two or three days, the House has now conceded to keep that bill even though

the title was changed like the other two. That's straight politics and I want that known very clearly and I want the press to record it as such.

I don't think the House has a right to pick and choose or to yield to political pressure groups. If we could get all of the Hawaii Kai residents down to the Capitol to lobby for the next day or two, I am sure the Hawaii Kai sewerage bill as well as the guardsmen's bill would pass.

I know the leadership in the Senate has repeatedly sent letters and met with the House leadership, but I've just got to believe that the precedent that they are establishing has to be far-reaching and dangerous and if any bill in the future is not wanted it will somehow bounce back and forth in the interim period. When we adjourn tomorrow night, I don't know who's going to be in possession of these bills. Maybe it's going to end on the Clerk's desk someplace or maybe in the messenger's office, which is really unheard of and very, very irresponsible.

I'm asking the Senate leadership to meet with the leadership in the House one more time.

I can't believe that the majority party in this state, in such overwhelming numbers, cannot find some consensus or some compromise to prevent this from happening and to take care of the two other groups that are being shortchanged in this misunderstanding or this ping-pong game.

Again, I would like to ask that the President meet with the Speaker one more time today. I'm sure the minority leader would be happy to meet so that a consensus of all 25 Senators is reached.

Thank you, Mr. President."

Senator Ching then added:

"Mr. President, I guess we finally gave the minority floor leader a chance to 'zing' us before the adjournment, sine die, of this session.

I just want to assure my colleagues on this side of the aisle that although we agree with his basic premise that what the House is trying to do here is not agreeable to us, I also want to point out one thing, just for the sake of those that have not seen or read a copy of the President's letter

to the Speaker of the House. The majority caucus and the minority leadership concurrence with the action was on the part of the House, not the Senate. That was the action by which they tried to return the two bills yesterday afternoon. Failing that, because we refused to accept the bills at that time, they have formally returned it to us through what they consider official channels.

It's our feeling that the House has not constitutionally acted on these bills, therefore, for the second time we are formally returning the bills to them. Actually, it's the third time that we are returning the bills to them. The second attempt being by informal action of the caucus. I want to make that point very clear to the minority floor leader and to my colleagues in the majority.

As far as being in communication with the House, our lines are still open. They know that we are ready to sit and talk to them, either on all three bills as a package or on the two remaining bills as a package or on those two bills individually. As far as I know, they have made no attempts to get back to us."

The President then stated as follows:

"I would like to reassure the minority floor leader that every attempt is being made to keep our lines of communication open so far as these two bills are concerned."

A communication from the House (Hse. Com. No. 569), returning Senate Bill No. 2620-78, S.D. 2, which passed Third Reading in the House of Representatives on April 13, 1978, in an amended form, was placed on file.

In accordance with Article III, Section 16, of the Constitution of the State of Hawaii, the 24-hour notice was given on the Final Reading of S.B. No. 2620-78, S.D. 2, H.D. 1, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC ASSISTANCE."

No. 570) informing the Senate that the report of the Committee on Conference on the disagreeing vote of the House to the amendments proposed by the Senate to House Bill No. 3039-78, H.D. 1, was adopted and H.B. No. 3039-78, H.D. 1, S.D. 1, C.D. 1, passed Final Reading in the House of Representatives on April 13, 1978, by not less than two-thirds vote of all the members to which the House is entitled, was placed on file.

ORDER OF THE DAY

MATTER DEFERRED FROM APRIL 12, 1978

Senate Bill No. 350, S.D. 2, H.D. 2:

Senator R. Wong moved that S.B. No. 350, S.D. 2, H.D. 2, having been read throughout, pass Final Reading, seconded by Senator King.

Senator George then rose to speak against the bill and stated as follows:

"Mr. President, I better explain myself because I wouldn't want to be thought pro-waste or save-the-sewage, but I have a real hang up of conscience with it.

This problem exists. There is a problem, there is no question about it. But I'm not really sure that this bill is the way to handle it. What we have are a few dozen malfunctioning private wastewater treatment plants. Now this bill exempts from the requirements for certification the employees of large operations. In other words, industrial operations and agricultural operations. It also exempts the very large private treatment plant such as Hawaii Kai. What's left then under the applicability of this bill are the employees or the resident managers, actually, or small condominiums and housing projects in areas that are not served by sewers.

Certifying the employees I don't think is going to solve the problem. The problem is one that was created by government.

I sat on the City Council and cheerfully approved the siting of housing projects, lowcost housing projects, condominiums, in areas not served by sewers. The requirement for this approval was that the State Department of Health certify the projects, the wastewater treatment system as okay, which they did. Government caused the problem because the systems are failing, because they are lousy systems. They are second grade, poor, schlock systems and even the Department of Health will admit that. We are now trying to cure this problem by certifying the employees that are supposed to take care of these junk systems. It's government's fault, it's government's problem, I think government ought to make the people whole.

Now, the Department of Health has told us that it isn't going to cost the State anything. Who it's going to cost are the people who live in these housing projects and in these condominiums, under circumstances that we permitted to them. My conscience just won't let me stick them with it.

Thank you, Mr. President."

Senator Yee also rose to speak against the bill and stated:

"Mr. President, I speak not only on the merits of the bill but on its legal technicality.

I have been informed by our minority legal staff that the bill is defective in the sense that the title is rather narrow. It really relates to mandatory certification of operating personnel in wastewater treatment facilities.

While we read through the bill, it embraces a dozen other major items

of substance that is not within the title as required by the Constitution.

On this basis, I find that this is a very defective bill and I must vote against it."

Senator R. Wong then rose to speak in favor of the bill and stated:

"Mr. President, I find myself also in a quandary because I think my distinguished colleague from the Third Senatorial District is in agreement that something ought to be done. I am in disagreement with her with reference to the certification aspect.

We have been informed by the Department of Health that it's these small operations that are of great concern to the Department of Health. That, if nothing is done, there is a good possibility that some of these small operators may contaminate our own water supply.

Now, with reference to the distinguished minority leader about the legality of the title of this measure, Mr. President, I have with me a copy of an Attorney General's Opinion which says that the content of the bill can fit within the title as described in the bill. The copy is before me, I'd be more than willing to share this with my distinguished colleague, the minority leader. If not, Mr. President, I would like to ask that this Honorable Body vote in favor of this measure."

The motion was put by the Chair and carried, and the Senate agreed to the amendments proposed by the House to S.B. No. 350, S.D. 2, and S.B. No. 350, S.D. 2, H.D. 2, entitled: "A BILL FOR AN ACT FOR MANDATORY CERTIFICATION OF OPERATING PERSONNEL IN WASTEWATER TREATMENT FACILITIES", having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

Senator Nishimura moved that H.B. No. 2305-78, having been read throughout, pass Third Reading, seconded by Senator O'Connor.

Senator Yee then rose to explain why he is voting against the bill and stated:

"Mr. President, this bill provides for penalties against credit card offenders of a fine of not more than \$1,000 with not more than one year imprisonment, or both. At the same time, the bill makes this a Class C penalty in the statute.

The Class C section in the Penal Code states that felons convicted under the Class C section could be asked to pay a maximum of \$5,000.

There will be some confusion on the part of the judge, for penalties of credit card offenses when this specific law states, a fine of not more than \$1,000 and then making it a Class C felony also. In the Class C felony section today

it is stated that a convicted felon could be asked to pay up to \$5,000 in fines. The ambiguity may cause this bill to be declared by the court as invalid.

Please register my 'no' vote."

By unanimous consent, action on H.B.No. 2305-78 was deferred to the end of the calendar.

Senator Toyofuku moved that H.B. No. 2402-78, H.D. 1, having been read throughout, pass Third Reading, seconded by Senator Young.

Senator Yee then rose to speak against the measure, as follows:

"Mr. President, I'd like to ask the Committee Chairman of this particular bill to look at it again because it seems quite restrictive and it limits the fishermen who would like to get rid of one of our parasites in our waters. This bill restricts noncommercial fishermen from taking more than 50 mosquito fishes or 50 tilapia at any one time that they fish in the Ala Wai Canal.

I think all of us know that the tilapia has been a very disrupting factor in our ecological life - in our streams and our waterways. As far as I'm concerned, if the tilapias were all eliminated from the Ala Wai Canal the mullets in the Ala Wai Canal would be able to reproduce much more rapidly than they are now.

The historical fisherman that we used to see at the Ala Wai Canal had a little ramp or platform that he sat on all day with a line to catch mullet. You don't see them today because of the tilapias.

This bill, if it passes, seems like a rather heavy law on the people who would like to fish for tilapia or who

probably consume tilapia. I think tilapia is a parasite in our islands and I wish all of you to support me in voting against the measure.

Thank you, Mr. President."

Senator King then added:

"Mr. President, I just want to respond to the previous speaker. I am not rising to speak on behalf of the tilapia or anything, but as I understand this bill, and it didn't come out of my Committee, but, as I understand this bill, right now you cannot use a small mesh net in the Ala Wai Canal to catch tilapia.

There has been pressure from the House saying that there are a number of fishermen who would like to use a small mesh net in the Ala Wai Canal to catch mosquito fish, tabai or tilapia, which they are not allowed to do right now. This bill would allow them to catch up to 50 fishes with a mesh net. Presently, you can only do pole fishing at the Ala Wai.

Thank you, Mr. President."

Senator O'Connor rose to state that as a correction to the two comments made previously, "the first section of this bill prevents any fishing at all on the Ala Wai."

Senator F. Wong rose to request that the bill be deferred to the end of the calendar.

Then Senator Yim rose to object to the request on behalf of the hundreds of young people that want to fish on the Ala Wai and added that the Senate should act on the bill favorably at this time.

The motion was put by the Chair and carried, and H.B. No. 2402-78, H.D. 1, entitled: "A BILL FOR AN ACT RELATING TO FISHING", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

House Bill No. 2242-78, H.D. 1:

Senator Nishimura moved that H.B. No. 2242-78, H.D. 1, having been read throughout pass Third Reading, seconded by Senator Young.

Senator Nishimura then rose to state:

"Mr. President, for the record, I would like to correct the Committee report's purpose clause or purpose statement, or read into the record what the purpose statement should be rather than what is written in Standing Committee Report No. 976-78.

What had happened was that when we prepared the Committee Report on House Bill No. 2242-78, H.D. 1, we had taken what we had previously drafted for a companion Senate bill. The purpose statement in the Standing Committee Report does not exactly reflect what is in the House draft.

For the record, the purpose of this bill is to amend the present laws relating to theft in the third degree by shoplifting, by providing that the court may require minors to perform public services in lieu of a fine.

Thank you."

The motion was put by the Chair and carried, and H.B. No. 2242-78, H.D. 1, entitled: "A BILL FOR AN ACT RELATING TO LIABILITY FOR THEFT BY SHOPLIFTING", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

House Bill No. 2305-78:

House Bill No. 2434-78, H.D. 1:

Senator Nishimura rose to state: "Although I am the Chairman of the Judiciary Committee, I intend to vote 'no' and speak against this bill, therefore, I yield to the Vice Chairman of the Judiciary Committee."

Senator O'Connor then moved that H.B. No. 2434-78, H.D. 1, having been read throughout, pass Third Reading, seconded by Senator Ching.

Senator Leopold then rose to state:

"Mr. President, in the purpose section of this bill, the first sentence, it states that, '...in order to protect effectively the privacy of wire and oral communications while fighting serious or organized crime...' - it's these two considerations that I have found in conflict in my mind as I've wrestled with this bill.

The original House Bill 2434, I support. The House later decided to remove certain civil rights safeguards in this measure and sent the House draft over to the Senate. In the deliberations of the Senate Judiciary Committee I attempted to put back the safeguards into the bill but when the vote was taken on putting back those safeguards, unfortunately, only one other Senator voted in support of it and that was my colleague from the Sixth Senatorial District, Senator Anson Chong.

I would very briefly like to point out some of the safeguards that I have been concerned about in the bill. The definition of 'organized crime' on page 4 of the bill, I believe, is too vague. I wanted the definition to be more, to be tighter. I wanted the definition for 'organized crime' to say, 'any combination or conspiracy to engage in criminal activity as a significant source of income'. The original bill had 'as a source of income' and I would have preferred to have the word 'significant' added to that. The present definition that is in the House draft which we are voting on this afternoon says, 'Organized crime is any combination or conspiracy to engage in criminal activity.'

Another concern that I have in this bill is found on page 16. One of the safeguards that has been put in this bill which has been pointed out by supporters of the bill as a very important safeguard, and I would concur, is that there has

to be an adversary hearing where a judge will appoint an attorney to oppose the application for the wiretap. The appointed attorney, however, is given only 24 hours notice of the hearing under the House draft we are voting on I would prefer to see more time for adequate notice.

Another safeguard which I am concerned about was what has been called the 'minimization of the invasion of privacy factor' in the bill. The original bill required that conversations, in which none of the persons involved as named in the application and order, shall not be interrupted. That provision was removed in the House draft. The present language says, '... conversations that appear unlikely to result in incriminating conversations relating to the offense for which the order is issued shall be subject to intermittent monitoring.' I would have preferred the language in the original bill which said 'those conversations that appear unlikely to result in incriminating conversations relating to the offense not be interrupted at all.' But that is not contained in the draft.

In addition, in the original bill it was required that reports of the interruption of incriminating statements would be made as soon as practicable, after such interception, in order for the issuing judge to decide whether the interception should automatically terminate. This safeguard also does not appear in the House draft.

These are some of the concerns as to why I am not entirely satisfied with this bill. I've been wrestling with it and I've come to the conclusion that organized crime, like an octopus, has enveloped this State. There are many, many things that we'll have to give our police department and State enforcement officials in order that they can effectively fight organized crime in this State. A policeman and a policewoman puts his and her life on the line every day and I think its incumbent upon government to give them every tool possible with which to fight crime in this State.

Although I've wrestled with the bill, and the purpose clause has conflicting statements because I don't think it effectively protects the privacy of these wiretaps and the people involved, I feel that I have to support the Legislation with these serious reservations in the hope that in subsequent legislative sessions, perhaps next session, we can put back the safeguards which I think are very important to this legislation."

Senator Nishimura, then rose to speak against the bill, as follows:

Mr. President, as we know, it is a matter of common sense that wiretapping entails a significant interference with the privacy of citizens. Witnesses before the Judiciary Committee underscored this legislative concern. In a 1963 speech, former U.S. Senator Hiram L. Fong had this to say about electronic eavesdropping:

'What a terrible encroachment on one of the most valued rights of a citizen -- the right of privacy, the right to be personally secure. It was against precisely these kinds of police state tactics, this kind of tyranny, that our founding fathers rebelled from England and established our republic A wiretap cannot be limited to a particular person, place, or purpose. It is by its very nature unlimited and unlimitable. Whenever a tap is placed on a phone, it monitors all conversations on that phone, and every phone in the world which may be connected with it . . .

Of course, all Americans are concerned that those who violate the law are apprehended and convicted. But if wiretapping is made legal, is not the price we must pay, the loss of personal liberty, far too high a price?'

Mr. President, that precisely is the question: Is wiretap, and the diminution of privacy it entails, too high a price? And that can't be answered unless we consider the expected benefits which are claimed by the proponents of this snooping technique.

What are the benefits? Mr. President, this bill is touted as an organized crime measure, and I will say that if I believed wiretap would be effective against organized crime in Hawaii, I would not speak against the bill, because if we could reduce organized crime it would probably be worth the price. But the evidence is not there.

Even as employed by the FBI, the wiretap technique has not been effective against organized crime, as evidenced by the fact that 80% of the federal wiretaps have been used against gamblers and drug offenders. And of that 80%, all but a tiny handful were effective only against small-time criminals. The FBI admitted that most of the gambling taps, for example, were employed against 'mom and pop' bookie operations, and that most of the convictions they obtained in the courts resulted in suspended sentences.

There have been virtually no efforts

to combat organized crime by local prosecutors and local police in Hawaii. If, as many believe, we have an organized crime problem here, it will not be solved by wiretap. What it takes is trained personnel, commitment and allocation of resources. The problem to date, I suggest, has been lack of commitment, not lack of electronic gadgetry and snooping.

Will the police use wiretap only against organized crime figures? The bill defines organized crime as 'any combination or conspiracy to engage in criminal activity.' Since any two persons who commit a crime can be said to have combined or conspired, this 'limitation' in the bill is in reality no limitation at all. Thus, the bill, although hailed as an organized crime measure, is really a general crime-fighting measure, and as such the price, as former Senator Fong said, 'is too high.'

Finally, the bill is defective in that it omits two of the most important safeguards against unwarranted eavesdropping recommended by the crime commission. The first would have limited wiretaps to telephone conversations in which at least one of the speakers was named in the probable cause court order. That important safeguard has been deleted, and so as the bill now reads the police can listen to conversations even though neither speaker is a named target of the investigation. The point is that wiretap legislation should contain explicit prohibitions against listening to the conversations of persons unknown to the police just out of curiosity -- and experience has shown that wiretappers have almost unlimited curiosity. For this reason alone the bill should be defeated.

Moreover, the second important safeguard recommended by the crime commission and missing in the bill is the provision that would have required the police to report to the court whenever they hear incriminating conversations, so that the court -- and not the police -- can decide when the tap should terminate. Without this judicial supervision of the eavesdropper, experience again teaches that he will listen to everything said on a private or business telephone used even occasionally by a suspected criminal for the maximum duration of 30 days.

In summary, the wiretap bill should be rejected because: (1) it will invade the privacy of innocent citizens; (2) there is no reason to believe it will be effective against organized crime; and (3) it will permit unsupervised snooping into the conversations of

persons not even known to the police.

In this connection, Mr. President, I should like to quote from a statement that was made by Professor Schwartz in his article on current proposals to legalize wiretapping. He said: 'Sometimes it is said that innocent people have nothing to fear from their conversations being overheard. But this ignores the nature of conversation as well as the fact that most people have some aspects of their lives that they do not wish to expose. Free conversation is often characterized by exaggeration, obscenity, agreeable falsehoods, and the expression of anti-social desires or views not intended to be taken seriously. The unedited quality of conversation is essential if it is to preserve its intimate, personal and informal character. How anxious people are to preserve this unedited aspect of telephone conversations can be seen from the public reaction against the recording of telephone conversations even by one of the parties to the call. The objection, of course, is even more serious when it becomes a matter of having one's telephone conversations recorded by police agents. Government officials and business and political leaders are beginning to hesitate to employ the telephone so that we may be reaching a stage when the telephone's usefulness as an instrument of commerce and government is being impaired without demonstrable gains in law enforcement.'

On a more basic level, Mr. President, the question is: What kind of a society do we want to build in Hawaii? 'The trouble with wiretapping and similar techniques,' former U.S. Senator Fong warned, 'whatever their utility in safeguarding national security, is that a nation which countenances them ceases to be free.'

In a similar vein, former Attorney General Ramsey Clark put it this way: 'Invasion of privacy demeans the individual. Can a society be better than the people comprising it when a government degrades its citizens or permits them to degrade each other, however beneficent the specific purposes it limits opportunities for individual fulfillment and national accomplishment. If America permits fear in its failure to make basic social reforms, to excuse police use of secret electronic surveillance, the price will be dear indeed. The practice is incompatible for the free society.'

Mr. President, the evidence is in and I'm sorry to say that I fail to find by preponderance of the evidence that this bill is needed."

Senator Yee then rose to state, as follows:

"Mr. President, I rise to point out a very defective portion of this bill which I can't help but feel that the Attorney General would recommend to the Governor that this bill be vetoed.

Page 31 of the bill, as amended by House Draft 1, and the last page referring to Section 803-50, sets forth the duration that this bill is supposed to take effect. The section reads: 'This act shall be effective for a period of six years beginning "blank" and terminating "blank".'

There is a defect in the bill in that there is no definite period of duration, even though Section 3 of the bill states that this act shall take effect upon its approval.

I say that this will not negate the defect in the above section which relates to duration. All that Section 3 says is that 'this act shall take effect upon approval' means that all the material in here is law, but this law is going to hang in abeyance until our next session because there is no beginning period and we in the Legislature have failed to put the beginning period and the terminating period.

In our State Constitution in the enactment and passage of bills, and I refer to Article 3, Section 16, beginning on the second sentence, it says: 'No bill shall pass third or final reading in either house unless printed copies of the bill, in the form to be passed, shall have been made available to the members of the house at least 24 hours.'

Yes, we have the bill, but 'in the form to be passed' means that the bill must be complete. There can be no loose parts. There can be no misinterpretation.

I am a law and order man, and many of you know that, contrary to Senator Duke Kawasaki's popularity on the death penalty bill, I am the first Senator in this chamber to have introduced the death penalty bill years ago.

Unfortunately, this omission of the definite period of duration will kill this bill."

Senator Kawasaki then added:

"Mr. President, I pointed out the deficiency alluded to by the minority leader in Section 803-50 and believe that that defect, as he would refer to it, could be handled in subsequent sessions.

The Committee report clearly states

that the duration of this wiretap legislation would be in effect for six years, upon its approval.

By the time we meet next session, only one out of the sixyear duration period would have passed. We could, by amendment, take care of the exclusion that bothers the minority leader.

In answer to a one man's opinion articulated by the Chairman of the Judiciary Committee that this wiretap legislation, as it is proposed, will in no way contain or affect the proliferation of organized criminal activities, may I just quote one section contained in this particular report. It says: 'In 1976 a National Commission for the Review of Federal and State Laws relating to electronic surveillance reaffirm the previous finding of the Congress that electronic surveillance is an indispensable, I repeat, is an indispensable aid to law enforcement in combating organized crime and recommended that states which have a significant rate of organized crime enact wiretap legislation.

In a similar vein, the Hawaii Commission on Crime in January, 1978, issued a report on wiretapping and proposed a model statute, 'designed to allow court ordered wiretapping to fight organized crime in Hawaii while protecting the privacy to the fullest extent possible without crippling law enforcement efforts.' This is contained in Wiretapping Report No. 122, issued by the Crime Commission.

I would like to think that I can place greater credence upon the judgment of a duly constituted congressional committee finding, as compared to one man's opinion as articulated by the Chairman of the Judiciary Committee.

I urge the passage of this legislation as concrete evidence to the public at large who are rightfully concerned about the proliferation of serious crimes, particularly as perpetrated by the organized criminal elements. But more particularly, as concrete evidence to the law enforcement agencies' personnel, some 2500 people dedicating their lives who, as Senator Leopold, said, daily put their lives on the line in performing their duties, to demonstrate to them very clearly and vividly that we do not only talk in the State Senate. We want to help them enforce the laws, help them to contain the alarming increase of serious crimes in this State.

I urge every member of this Senate to vote for this measure because we can show that in this session we did try to do something about the rising crime rate."

Senator Chong then rose to state:

"Mr. President, page 10 of this bill would have the public believe that it is designed to combat, and I quote the scare words: 'murder, kidnapping, property damage involving the danger of serious bodily injury, extortion, criminal coercion, bribery of a juror, or a witness or police officer, receiving stolen property, gambling and sales of dangerous, harmful or detrimental drugs.' These are the buzz words picked up by the media and transmitted to the public.

Mr. President, I am certain that all of us here are against these things. I am certain that all of us agree that those who violate the law should be caught and convicted. And I am certain that we want to give our hard working, dedicated law enforcement people all the help they need to combat crime.

This bill will not guarantee or even make a dent in eliminating that long list of scare words I mentioned earlier. But it can have serious negative effects on our open society. Is wiretapping an effective means of apprehending and convicting those directing organized crime? Can the court, as a practical matter, provide adequate supervision for wiretapping operations? Will the public's sense of confidence in law enforcement outweigh the growing sense that 'Big Brother' is out there gaining more and more control over their everyday activities?

Mr. President, I considered these questions and weighed the testimony of the Police Department and the Hawaii Commission on Crime against the very thorough testimony of Mr. Addison Bowman, Professor of Law at the University of Hawaii Law School and, to me personally, the most convincing statements of former U.S. Senator Hiram Fong submitted by the ILWU.

In summary, Mr. Bowman testified and, I quote, 'The proponents of electronic surveillance claim that the benefits of law enforcement outweigh the corrosive effects of individual privacy and dignity, but the results of federal and state surveillance conducted between 1968 and 1976 do not bear out the assertion . . . the federal and state experience with electronic eavesdropping since 1968 is inconclusive at best.' Mr. Bowman further testified that the average federal gambling tap in 1976 cost more than \$11,000 with dubious results; that 80% of all state and federal electronic surveillance between 1968 and 1976 were for gambling and drug cases and that 'all but a tiny handful of gambling taps were on small time operations.'

I am not satisfied that wire tapping is justified by that kind of return.

Second, can the court actually provide adequate supervision? Again, Mr. Bowman provided analysis of cases where such was simply not the case. We are only a few short years away from the tragedy of violation of the privacy of the late Dr. Martin Luther King and the over-zealous guardians of the national security we have so sadly come to know through the unraveling of the incident at Watergate.

Thirdly, this House Bill, as reported out of Committee, includes some changes of significance from the proposal presented by the Hawaii Commission on Crime. Among these differences is the definition of 'organized crime' alluded to earlier. I am deeply concerned with the definition provided in the House draft, and if for no other reason, would be compelled to vote 'no.'

Organized crime as pointed out by the Chairperson of the Senate Judiciary Committee is defined as 'any combination or conspiracy to engage in criminal activity', 'any combination'.

I know that my colleagues in the House have referred to crime in Hawaii as 'disorganized', but to legislate that any conspiracy to engage in criminal activity shall henceforth be defined as organized crime will do little other than to make Steve McGarrett look good and make you and I wonder if our private joke with a friend, casually spoken in a telephone conversation, may someday come back to haunt us.

Finally, as former U.S. Senator Hiram Fong stated: 'A free society guards its liberties jealously. The most important lesson of history America has to learn is that when freedom is denied to one person, it's denied to all.'

I urge everyone to vote against this bill."

Senator O'Connor rose then to speak in favor of the bill and stated:

"Mr. President, first, I direct myself to the comments made by the minority leader concerning the provision on page 31 of the bill in which certain omissions seem to occur.

The section specifically states that the act shall be effective for a period of six years, leaves out the beginning and end of that specific comment. However, the act, in the very next section, indicates that it shall take effect upon its approval. It doesn't take too much common sense to understand that the six-year period

shall begin upon approval of the act and shall run for six years thereafter.

Secondly, in listening to the arguments this afternoon, concerning this matter, it seems as though many of us have been here before. I refer this Honorable Body to the Constitutional Convention of 1968 in which this matter was thoroughly debated, the pros ... cons.

Hiram Fong's comments were cited in 1968 also because, as indicated by earlier speakers, they were made in 1963.

In the 1968 Constitutional Convention communications intercepted by electronics were not only thoroughly debated but were incorporated in provisions to be voted upon by the public in our Constitution. And, I shall read Section 5 of that proposal, which in the election of 1968, the people of the State of Hawaii adopted.

Section 5 says: 'The rights of the people to be secure in their persons, houses, papers and effects against unreasonable searches, seizures and invasions of privacy shall not be violated and no warrant shall issue but upon probable cause supported by oath or affirmation and particularly describing the place to be searched and the persons or things to be seized, or the communications sought to be intercepted.'

The words added in 1968 were 'or the communications sought to be intercepted.' This provision plainly and simply states that in this State at that time, the people of the State, in adopting that provision of the constitution, indicated that upon probable cause a warrant could be issued to intercept communications.

After that section was placed in the State Constitution by the people of the State of Hawaii, these bodies, the House and the Senate, then considered that constitutional provisions in light of the then existing federal statutes. This matter was thoroughly considered and again debated here in the years 1972 and 1973 when the Hawaii Penal Code was adopted. At the time that the Hawaii Penal Code was adopted, wiretapping was contrary to federal law. There was a federal law specifically prohibiting the kind of bill which we are deliberating upon today.

In adopting Section 711-111, Violation of Privacy, of the Hawaii Penal Code, the legislature acknowledged that wiretapping by federal law was illegal and for the State of Hawaii, adopted a law consummate with the constitutional mandate in which wiretapping was

then allowed and has been allowed in the State since 1972, where one of the parties to the transmission acquiesced in the wiretap and that section is still law in this State and will remain the law in this State no matter what we do today.

Now, what is changed since 1972 which would bring the bill before us which we are presently deliberating? The major thing that's changed is that the federal law has changed entirely in this area. The federal law since 1972 has been changed to allow a procedure exactly similar, although we will have more safeguards, to that proposed in this legislation.

In the federal law today, a federal law enforcement officer may go to federal court and obtain from the federal judge a warrant to tap and this must be done upon probable cause and there are specific safeguards in the federal law which ensure the privacy of the citizens of the United States. These safeguards are also incorporated in the law before us today.

What has happened in Hawaii since the change in federal law? There has been much talk about whether or not a measure of this nature is effective as against organized crime, whether or not we have situations in Hawaii for which this kind of thing can be used, and the answer is obviously 'yes' because the only convictions that we have obtained in Hawaii over the past 4 years in the area of organized crime and gambling have been with the use of the federal wiretap law.

There were earlier statements that we need simply to have better and more efficient police work and that is what will solve our situation here in Hawaii with this proliferation of gambling and crime. That's not the answer, Mr. President, because our local police work was used to compile the affidavits in the one case that's come to trial in the federal court. Our local police work was used simply to get the warrant to be used in the wiretap. The information then acquired in the wiretap was used thereafter to secure the convictions of many people involved in the gambling end of organized crime in Hawaii. That is an accomplished piece of police work, coupling our local people and the federal people in an effort which culminated in the use of wiretap to get the convictions, right here in this State.

Today, we have before us a measure which will allow our local police departments to utilize wiretapping under severely controlled circumstances in order to accomplish exactly the same thing. These safeguards include things that

the federal bill never envisioned, including the ability to have an attorney present to argue the side of the person who shall be wiretapped. Together with a reporting system and a system of wiretaps which can only lead really to a complete insurance that privacy per se will be safeguarded.

This bill will give our police departments a tool that they vitally need. It's a tool that they can only have today by going through the federal system and bringing the FBI or another federal agency into their police activities.

I would heartily urge all members of this body to vote for House Bill No. 2434-78, H.D. 1, as an effective tool to combat crime in this jurisdiction."

Senator Taira then stated, as follows:

"Mr. President, as a member of the Judiciary Committee from which this bill emerged, I signed the Committee Report 'with reservation' because I did not at that time feel there were enough controls, enough safeguards, to protect what we all love so dearly, the right to privacy.

I've been quoted on radio as being somewhat opposed to the concept of what this bill hopes to accomplish, but in the last day or two I've talked to a lot of people, talked to some of my colleagues, and have come to the conclusion that this is a good bill.

It's a good tool to give to our law enforcement officials in their fight against organized crime; therefore, I want to tell all of you that I support this bill.

Thank you, Mr. President."

The motion was put by the Chair and carried and H.B. No. 2434-78, H.D. 1, entitled: "A BILL FOR AN ACT RELATING TO ELECTRONIC EAVES-DROPPING", having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 16. Noes, 9 (Chong, King, Nishimura, Takitani, Toyofuku, R. Wong, Yamasaki, Young and Ushijima).

In accordance with Article III, Section 16, of the Constitution of the State of Hawaii, the 24-hour notice was given on the Final Reading on H.B. No. 2173-78, H.D. 3, S.D. 3, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO PLANNING".

The Clerk then stated that it was on or about 2:30 o'clock p.m.

The President stated that the Journal will reflect that Conference Committee Report No. 60-78 and H.B. No. 2173-78, H.D. 3, S.D. 3, C.D. 1, was placed on the desks of the members at 2:30 o'clock p.m., this day.

"Mr. President, I rise to speak in favor of S.B. No. 2202-78, S.D. 1, H.D. 1, C.D. 1, and in so doing I'd like to make a point for the record that my colleague and I from the 7th Senatorial District have the complete support of our Republican minority in the Senate. We are looking for some help from our majority members in trying to put together enough votes to attempt to kill this bill in order that the House might reconsider their stance and their attitude toward the Hawaii Kai sewerage and National Guards' tuition bills.

It is my determination to try whatever possible means there are to have us get together and resurrect those two bills.

Mr. President, I do know that most of us have a lot of projects in this CIP bill and we've worked long and hard these last 59 days. It is also my determination that we should do all we possibly can to satisfy our constituency and, in my case, over 20,000 of them, to try to bring out the Hawaii

Kai bill in order to help them.

I hope the understanding that we have with our counterparts across the hall will not continue in this manner in the years ahead.

I now ask my colleagues to vote for the bill before us."

The motion was put by the Chair and carried, and Conf. Com. Rep. No. 47-78 was adopted and S.B. No. 2202-78, S.D. 1, H.D. 1, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO CAPITAL IMPROVEMENT PROJECTS AND AUTHORIZING THE ISSUANCE OF BONDS", having been read throughout, passed Final Reading by not less than two-thirds vote of all the members to which the Senate is entitled, on the following showing of Ayes and Noes:

MESSAGE FROM THE GOVERNOR

A message from the Governor (Gov. Msg. No. 260) returning Senate Bill No. 1596-78, without his approval, together with his statement of objections relating to the measure which reads as follows:

"STATE OF HAWAII EXECUTIVE CHAMBERS

April 14, 1978

STATE OF OBJECTIONS TO SENATE BILL NO. 1596-78

Honorable Members
Ninth Legislature
State of Hawaii

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith Senate Bill No. 1596-78, Senate Draft 1, entitled, 'A Bill for an Act Relating to a Study on the Development of an Effective Used Oil Recycling Program.'

The purpose of this bill is to obtain basic information needed to initiate a used oil recycling program in Hawaii by requiring the Energy Resources Coordinator to conduct a study. Although I agree that a study to obtain such information should be conducted, it appears that this bill is not necessary because a similar study has already been included in the State Energy Conservation Program of the Department of Planning and Economic Development. Since federal funds have already been granted for the study, a study will be conducted under the grant from the United States Department of Energy to obtain the information needed to initiate a used oil recycling program in Hawaii.

I have been informed that there also appears to be a constitutional objection to this bill because this bill did not pass three readings in the Senate as required by Section 16 of Article III of the Constitution of the State of Hawaii. As introduced, Senate Bill No. 1596-78 was titled, 'A Bill for an Act Relating to an Appropriation for a Study on the Development of an Effective Used Oil Recycling Program' (emphasis added). The purpose of the bill, as stated in Section 1 of the original bill, was 'to fund a study to obtain basic information needed to effectuate an [sic] used oil recycling program in Hawaii' (emphasis added). Section 2 of the original bill, on page 2 at lines 21-23, appropriated \$20,000 for the study. After Senate Bill No. 1596-78 in its original form passed first reading in the Senate, the title and the body of the bill were amended. The body of the bill was amended to delete the appropriation and to change the purpose of the bill by deleting the words underscored above, 'to fund a study.' The title of the bill was amended to delete the words underscored above, 'an Appropriation for.' It appears that the changes in the body and the title of the bill resulted in a new bill that materially differed from the bill originally introduced and, therefore, the new bill should have independently met the three-reading requirement of Section 16 of Article III of the Constitution of the State of Hawaii. Unfortunately, Senate Bill No. 1596-78, Senate

Draft 1, was not reread in the Senate as a new bill and was read only twice.

Consequently, in view of the lack of necessity for this bill and the apparent constitutional objection that could be made to it, I am here-with returning this bill, as provided by Article III, Section 17, of the State Constitution.

Respectfully,

/s/ George R. Ariyoshi

GEORGE R. ARIYOSHI
Governor of Hawaii"

was read by the Clerk and was placed on file.

Senator F. Wong then rose to speak in favor of the measure and stated:

"Mr. President, I rise to speak in favor of H.B. No. 2173, C.D. 1, the Hawaii State Plan.

Mr. President, three long years ago this Legislature began its work on the Hawaii State Plan. In drafting Act 189 in 1975, there was a great deal of confusion as to the meaning of a policy plan, as well as the meaning of objectives and

policies. A year later, there were new words added to our vocabulary such as functional plans and even later such things as priority directions. All of these words are now household words.

It was obvious in 1975 that we desperately needed a better planning process for our State. In that year we reconstituted the land use commission and in doing so enacted interim land use guidance policies which will fall upon the enactment of the Hawaii State Plan. Later, we enacted an interim tourism policy act which was used to guide the development of tourism in the State of Hawaii which will also fall upon the enactment of this Plan. Last year we struggled with the issues relating to coastal zone management and found that without a blueprint it was becoming increasingly difficult for us to understand and appreciate the various governmental relationships and the priorities for our State.

Mr. President, in the last three years I have been convinced more than ever that the Hawaii State Plan is long overdue. There is a need for us to plan comprehensively for Hawaii's future rather than reacting to brush fires which oftentimes become roaring forest fires. We need to establish an orderly process whereby the Legislature in exercising its constitutional responsibility will act as the chief policy making body in the State.

The Hawaii State Plan is a bold step in this direction. It balances well the interest of the State and the County governments as well as being sensitive to the needs of the residents and people of Hawaii.

Mr. President, the Hawaii State Plan is not perfect, but it has a solid foundation. It is structured in such a way that it invites public review and input; it invites the Legislature to review recommendations made by the policy council and further invites the Legislature to amend the Plan on a regular basis.

Mr. President, this Plan is an opportunity and a challenge. It is an opportunity to plan for Hawaii's future in a comprehensive manner and to provide direction and priority for the use of our precious and limited resources. It is a challenge to the State and County governments to work together in harmony within the parameters of the State Plan. It is a challenge to the Legislature, to exercise its constitutional responsibility as the chief policy maker. Only time will tell whether or not these challenges will be met. I am confident that with the spirit of cooperation that it can

and will be done.

Mr. President, three years is a long time to work on one bill. The last eight days appeared to be an eternity. Many people within the State and County governments have generously given of their time and talents to produce this important document. I would be remiss however, if I did not recognize the very special contribution of Gay Larned-Griffin, the clerk of our committee, whose dedication and commitment to the Plan was an inspiration to us all. Mr. President, the Senate conferees on the bill deserve the admiration of all of us. The time we spent together on the bill is not important, but the way that they conducted themselves in conference makes me very proud and privileged to be associated with them. At times they were patient and tolerant, at other times they were firm and aggressive, but at all times they conducted themselves with the highest dignity and decorum. It is this kind of dedication that will create a better Hawaii tomorrow.

Mr. President, I have been asked in the last twenty-four hours as to what was the most significant thing that happened to produce the Plan. The answer is prayer. In my judgment, Mr. President, the most significant contribution that was made during the last three years for the enactment for the Plan occurred early Wednesday morning in the majority caucus room, less than fifty feet from here. On that Wednesday morning, most of the Senate conferees together with other members of the Senate and the Governor of the State of Hawaii, prayed for the House and Senate conferees, for the success of the Hawaii State Plan and for the people of Hawaii. As we prayed there were tears in our eyes for the love that we have for our State and her people. Mr. President, a few short hours later our prayers were answered and today we have a Plan that we all can be truly proud of.

Mr. President, if with further consultation with the Lord I choose to join my distinguished colleague, the majority floor leader, and seek an early retirement, I hope that I will be remembered as one of the architects of the Hawaii State Plan and for the prayer that was said that morning.

Thank you, Mr. President."

Senator King then added a brief comment:

"Mr. President, I think that it is very appropriate that on the day that we are going to adopt the State Plan it is also the day on which we honored the Rev. Olin Pendleton, for the resolution honoring him concludes with his own words about

people-oriented planning for Hawaii.

In voting 'aye' on the Hawaii State Plan I'd like to express the hope expressed by Rev. Pendleton, that in its implementation it be indeed people-oriented planning to achieve a higher quality of life for us and for our children and their children."

The motion was put by the Chair and carried, and Conf. Com. Rep. No. 60-78 was adopted and H.B. No. 2173-78, H.D. 3, S.D. 3, C.D. 1, entitled: "A BILL FOR AN ACT RELATING TO PLANNING", having been read throughout, passed Final Reading on the following showing of Ayes and Noes:

SPECIAL COMMITTEE REPORT

Senator Nishimura, for the Interim Committee on Judiciary, which was requested to conduct an investigation of juvenile offenders and to make an overall review of the existing delinquency prevention efforts in our community, as well as the existing problems and functions in the juvenile justice system, presented a report (Spec. Com. Rep. No. 1-78) with certain recommendations.

By unanimous consent, the report of the Committee was received and placed on file.

The President then addressed the members of the Senate as follows:

"Members of the Senate:

Before we get into the final moments of the session and before we adjourn sine die, let me make a few observations that I believe should be placed on the record.

In the four sessions that the members of this Body have been together, I believe it can be said, without fear of too much contradiction, that the Senate has performed as an effective, efficient, responsible, and responsive TEAM.

I emphasize the word TEAM, because our productivity has been the result of all of our members working together to come up with a meaningful set of legislation in each of the three sessions past, as well as in the session that we will soon bring to a close.

Looking back to 1975, I believe the record of our accomplishments together is a very impressive one.

We have taken initiatives to redress the imbalances in the respective powers and authority of the legislative and executive branches. We also took steps to make the judiciary branch more independent, as it should be.

Among our many other positive measures have been:

Programs to curb campus violence and strengthen school security.

A crash program to build a new maximum security facility for our State Corrections Program.

Establishment of a full-time Public Utilities Commission and a Paroling Authority.

Homeowner taxation relief by doubling the home exemption, as well as improved tax credit for the low-income taxpayers.

Legislation to insure health care service for the public by enacting a medical malpractice law.

Adoption of a State Plan as a blue print for our future.

Our interest in promoting diversified agriculture was demonstrated in many programs, among them the funding of the agricultural parks throughout the State, additional financing for the Farm Loan Program, and commodity development.

We saw the day of the small farmer returning, and we took those steps necessary to let our young men and women return

to the soil' as yet another career option. Certainly an important consideration in encouraging this industry was our desire to continually increase Hawaii's self-sufficiency.

Threatened by national and international economic forces, we also came to the defense of the agricultural industry that originally led Hawaii's emergence into the modern world -- our vital sugar industry.

The Kakaako Redevelopment Project that is currently under way is also a consequence of the Senate's initiative and foresight.

In response to concerns over a sluggish economy, we pumped many millions more dollars into programs to fund State public service jobs and to step up repair and maintenance in public works.

Last year, we turned our attention to growing problems of crime and violence throughout the State by setting up a Crime Commission to determine the extent of our problems. This agency has been reorganized and extended through legislation approved this year.

We also focused our concentration even more in problems related to unemployment and our economy by passing a package of legislation designed to stimulate economic recovery.

We also zeroed in on two matters important to Hawaii's future: energy and aquaculture.

The follow-through legislation passed this year will, we hope, pave the way for making aquaculture the major industry it should become in Hawaii in the near future.

And, while it may not be recognized as such today, I am certain that in the future the energy legislation we have approved this year will be acknowledged as a measure of this Senate's foresight.

In all that we have managed to accomplish over these past four years, my job as President has been made easier by each of you, through your individual diligence and dedication to the common good.

Above all, this Senate has worked together to be productive. We have stood together when it counted, and I think this is something that this Senate should be remembered for.

Certainly, the example you have

set underscores the real merits of a bicameral legislature.

To me, it is a mark of statesmanship that partisan considerations have rarely impeded the progress of our labors in this Body. On this score, I want to express my appreciation to and commend the minority members and their leadership.

In matters that counted, you have been part of the Senate team, and you deserve to share in the record of achievements compiled in the past four sessions.

I want to again thank each of you and your efficient staff members for making the work of this Chair so pleasant and enjoyable in the sessions that I have been privileged to serve as your presiding officer.

Needless to say, there have been difficult moments -- what job would be worth it were it not for its challenges -- but, by and large, such problems have been resolved with a minimum of lasting grievances because of your desire to work as a team.

Finally, let me acknowledge the uncertainty of the future. I know that a majority of you will be seeking reelection to this Body later this year. We all know that the mood of our constituents is subject to constant shifts in public attitudes.

In my judgment, the voters of your respective districts would be well served by sending all of you back here for another four years.

To each of you, then, Mahalo, my very sincere thank you, and good luck in your future endeavors."

Senator Yee then rose and spoke as follows:

"Mr. President, I'd like to make a few closing remarks.

First, I want to thank all of the majority members for the excellent cooperation they have given the Republicans on this side of the aisle. Thank you for your inspiring leadership during the past four years.

I know some will be saying that this has been a dull session, a quiet session, but let me say that the past four years were very difficult years not only in Hawaii but throughout the United States. These were the years of adjustments, the honeymoon and growth periods were over and it is only natural that we do have a sober session.

This is the first time in my 16 legislative sessions that we are going to adjourn

before the sun goes down and this in itself is a record. It shows the cooperation and the seriousness that we have together taken the concerns of the public.

I want to thank all of you and I do hope we all come back next year because, of those I know who are running for offices, we may not be as quiet and comfortable in the next four years.

Thank you, Mr. President."

Senator Taira then rose to make an announcement:

"Mr. President, I want to announce that I shall not seek re-election to the State Senate this fall. I make this announcement at this time to end all speculation as to my political plans for the future.

This is my 16th year of legislative service, divided equally as a member of the House and as a member of this distinguished Body. Together with my earlier 9 years of service as a public school teacher, I shall be rounding out 25 years of public service. I am proud, happy and thankful for having had such an opportunity to serve our people, and I hope that I have in some small measure, contributed to the growth and progress of our great State of Hawaii during these very difficult years.

I shall retire with no regrets because I know there will always be men and women of vision and dedication ever ready and willing to carry on. This is what has made Hawaii a great State, and I am confident that the future holds bigger and better things for our State and our people.

And now I extend to each of you Senators, your staff members and workers in the Senate and the House, at all levels, to all of you I extend my warm and sincere Mahalo for your friendship, understanding and cooperation during these past 16 years. I wish you well in your future political and legislative endeavors, whatever they may be.

Thank you, Mr. President, and again, Mahalo to all of you."

Senator Toyofuku then commented:

"Mr. President, I rise to speak in compliment to the previous speaker.

I have much mixed emotions today because I feel as though I've just lost my left arm. I feel like I've lost a good friend, a colleague whom I

admire, a brother whom I have done many things with, and worked with on many projects. And yet, Mr. President, I'm very pleased, pleased and happy because my good friend Bob will finally be able to have the peace of mind and the rest that he so richly deserves after many frustrations, disappointments, pressures and anxieties of being a legislator for more than 15 years. This is not to mean, of course, that there has not been much satisfaction, but rather there has been much pleasure and satisfaction of knowing that he has contributed much to the well-being of the people in our State.

Mr. President, I would like to ask you and all of my colleagues to join with me in wishing him well, much happiness and success in the future to you, Bob.

Thank you."

Senator Kawasaki then stated:

"Mr. President, I, too, would like to join the distinguished Senator, Chairman of the Human Resources Committee, in commending my colleague on the left of me for his illustrious service in this Body.

Up until 45 minutes ago I had hopes of possibly talking this gentleman out of retiring because I think his services will be sorely missed here and I believe everyone here shares this feeling with me.

There was never a member of the Senate who is more convivial -- and I am sure my fellow Senators Hara, Toyofuku and Ching will agree with me. We will sorely miss him.

I had some suggestions communicated to me that perhaps we need to have the Governor possibly appoint Bob as Director of the Department of Agriculture to clean up the mess in the Farm Loan Program. I think most of us would take that suggestion to heart and perhaps might make this suggestion. In any case, I too want to join Senator Toyofuku in wishing Bob Taira all the happiness and all the satisfaction and he is assured that we will be calling on him to help us.

We wish him well and hope that he will enjoy the mahjong sessions that he delights in. We hope too that he'll be a good grandfather doing a lot of babysitting chores that he also delights in.

Good luck to Bob Taira!"

Senator Ching then rose to speak, as follows:

"Mr. President, I just heard an announcement that I hoped would not be made. However, I know all of us wish Bob well.

I have two wishes to make. Perhaps somewhere along the line he will see his way through to further serving the people of this State in one more capacity, that is, as a delegate to the Constitutional Convention. We will need men, and women, like him - men of vision and dedication, as he so aptly puts it.

The second wish is that whatever office he seeks in furtherance of his public career, and I don't think he's ready, fully ready, to retire at the young age that he is at, that the rest of us will be here to heartily endorse and confirm an appointment."

Senator F. Wong also rose to speak:

"Mr. President, I would like to join in saying good things about a man that all of us truly love.

Senator Taira, as one of the co-founders of our Wednesday Prayer Breakfast, on behalf of all of the members of the Senate who participated in this affair, we would like to offer you our first, number one, charter membership and hope that you will find the time to join us on Wednesday morning starting next week Wednesday.

Thank you very much."

Senator Leopold then rose to make an announcement, as follows:

"Mr. President, barring any special session of the Legislature this will be my last day as a State Senator.

I want to thank you, Mr. President, for all the courtesies that you have given me and thank all the members of the Senate for all the courtesies that they also have given me. I'd like too, to thank the Clerk and the Assistant Clerk and all the members of the staff who have helped make my four years in the Senate an enjoyable and rewarding one.

I want to wish you, Mr. President, and every member of this Senate the best success in the years ahead."

Senator Yee then rose to comment on Senator's Leopold's remarks:

"Mr. President, I think Senator Leopold is telling us that he will not be seeking re-election to the State Senate and, I believe, we all know that he is seeking a higher office as

the Republican nominee for the Governorship of the State of Hawaii.

John has been a very diligent servant for the past four years. We all know there's no other person that has worked as hard and has shaken as many hands during his political career.

We will miss him here in the Senate and we wish him well."

Senator Soares then added:

"Mr. President, I would be remiss if I did not say a few words on behalf of both my colleagues.

Senator Leopold who I was very fortunate to serve as former leader in the House for three terms, and to have joined him in the Senate these last three years. I believe all of us have recognized that Senator Leopold is a strong-minded person, very dedicated to his cause of serving the people the best way he possibly can, does his homework and being very articulate on the floor of the Senate. I know we will all miss him and I, personally, will miss him, sitting right next to me and sharing with him the many laughs we had together.

Also, Mr. President, if I might, I want to say a very fond Aloha to my very close friend, Senator Bob Taira.

Three years ago, when we were together in Philadelphia, I was wrestling with the thought of being appointed by the Governor to this Body. Some phone calls came through and I was worried as to whether I would get the appointment or not, and Bob may have forgotten, but he reassured me that time tells and things will always come out in the wash. I got washed out and I'm now in the Senate.

Mr. President, I have never met a finer man in my life, a more reasonable person, a man with a capacity for taking one ball game at a time, having the capacity to look beyond many of our visions, and a man that is gifted, in my opinion, really gifted with the ability to hold people together.

Bob, I personally will feel very lost without you. I know we on this side of the aisle respect you very, very much and I ask God to take good care of you and help you.

We are very proud to have associated with Bob Taira.

Thank you."

Senator Chong then remarked:

"Mr. President, there's an interesting book that was published last year authored by Gail Sheehy called 'Passages.' I would like to quote very briefly some apt passages from her book because Bob Taira and John Leopold, and I quote: '... are obviously navigating through various life styles to that point of dignity worth defending...' and both understand that, and I quote again, '...that courage to take new steps allows us to let go of each stage with its satisfactions and to find the fresh responses that will release the richness of the next.'"

Senator Kuroda rose to state:

"Mr. President, I also would like to make a few remarks.

I also want to say good luck to Bob and congratulations on his retirement. However, I would like also to share my remarks more for Senator Leopold who served on the Committee on Consumer Protection and who supported me in my activities as Chairman.

Senator Taira upon his announcement had a good amount of applause, I'd like now to lead a standing applause for Senator Leopold for his hard work and for the hard task that he has before him."

STATEMENT OF OBJECTIONS
TO SENATE BILL NO. 1691-78

Honorable Members
Ninth Legislature
State of Hawaii

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith without my approval, Senate Bill No. 1691-78 entitled, 'A Bill for an Act Relating to Amendment of Notice to Victim Provision of HRS 706-602.'

The purpose of this bill is to provide for notification to victims of criminal acts of the benefits available under the Criminal Injuries Compensation Act. Under the present law, the court, service center or other agency personnel are supposed to provide such notification. This bill seeks to change the law to require that the police department personnel of the various counties notify the victims of the benefits available.

I have been advised by the Mayor of the City and County of Honolulu that notifying potential recipients of the benefits of the Criminal Injuries Compensation Act and of the procedures in making claims is a non-police function and should rightfully remain within the scope of the Criminal Injuries Compensation Commission itself, that the extension of police duties to non-police matters would prove to be a detriment to overall police services and is unnecessary, since there is

an agency in existence created for this particular purpose.

Accordingly, I am returning Senate Bill No. 1691-78 without my approval, as provided by Section 17 of Article III of the State Constitution.

STATEMENT OF OBJECTIONS
TO SENATE BILL No. 2190-78

Honorable Members
Ninth Legislature
State of Hawaii

Pursuant to Section 17, Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, Senate Bill No. 2190-78, entitled 'A Bill for an Act Relating to Federal-Aid Highways.'

The primary purpose of this bill is to make it the duty of the Director of Transportation to 'insure that the state highway system conforms to the safety standards and construction criteria required by the Federal Highway Safety Act of 1966, as amended.'

While I appreciate the fact that the legislative power, vested in the Legislature, extends to all rightful subjects of legislation not inconsistent with the Constitutions of the State of Hawaii and the United States of America, I am constrained to return the bill without approval for the following reasons:

(1) The title of this bill is limited to Federal-aid highways while the substance thereof is much broader, as it refers to the 'state highway system' established by Section 264-41, HRS, and which includes, pursuant to Section 264-42, numerous miles of non-federal aid highways. The broader coverage of the substance of the statute, when compared with its title, violates Section 15 of Article III of the Constitution of the State of Hawaii which requires that the subject be expressed in the title. Violation of said Section 15 does not normally invalidate the entire bill. However, if the constitutional and unconstitutional portions are incapable of separation, as in this bill, then the entire bill becomes inoperative.

(2) The mandate to the Director of Transportation to insure conformity with the Federal Highway Safety Act of 1966, as amended, may well result in countless suits against the State for breach of its duty to so insure, even when funds therefor have not been appropriated.

(3) Even if funds had already been appropriated, it would be impossible to conform the entire existing system to the federal standards and criteria prior to the effective date of the law. Such non-conformance would expose the State to suits for damages, a result which could not have been within the contemplation of the Legislature.

For the foregoing reasons, I am returning Senate Bill No. 2190-78 without my approval.

STATEMENT OF OBJECTIONS
TO HOUSE BILL NO. 64

Honorable Members
Ninth Legislature
State of Hawaii

Pursuant to Section 17, Article III of the Hawaii Constitution, I am returning herewith, without my approval, House Bill No. 64 entitled, 'A Bill for an Act Relating to Juvenile Corrections.'

The purpose of this bill is to require vocational, educational, health, and other programs at each juvenile correctional facility in the state.

While I appreciate the fact that the legislative power, vested in

the legislature, extends to all rightful subjects of legislation not inconsistent with the Constitutions of the State of Hawaii and the United States of America, I am nevertheless constrained to return the bill without my approval.

The responsibilities envisioned by the bill are already incorporated in existing law. For example, Section 352-8, HRS, specifies that the objectives of the Hawaii Youth Correctional Facility are the 'detention, management, education, employment, reformation, and maintenance of such children and adults as are committed thereto.' In this connection it is noted that the Department of Education has established Olomana Youth Center on the grounds of the Youth Correctional Facility, which provides educational opportunities to committed youths.

Moreover, under Section 352-21, HRS, the Director of Social Services is authorized to 'bind out as apprentices' juveniles from the Hawaii Youth Correctional Facility 'to such useful trades, employment, or occupations as are suitable to their years and capacity'

It would appear, therefore, that House Bill No. 64 simply provides for the duplication of existing programs.

Although the bill necessitates the implementation of vocational, educational, health, and other programs for juvenile offenders, it is also noted that additional appropriations have not been provided for these purposes.

For the foregoing reasons, I am returning House Bill No. 64 without my approval.

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 429

Honorable Members

State of Hawaii

Pursuant to Section 17, Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 429, entitled, 'A Bill for an Act Relating to Professional Engineers, Architects, Surveyors, and Landscape Architects.'

The purpose of this bill is to increase the maximum amount of the estimated cost of a privately owned or controlled residential building, which may be constructed without a stamp of certification by an architect or engineer, from \$35,000 to \$50,000 for a one-story building and from \$30,000 to \$45,000 for a two-story building.

As currently written, section 464-13, Hawaii Revised Statutes, applies the \$35,000 and \$30,000 estimated cost figures to all structures, both residential and non-residential. Under the proposed amendments, however, all non-residential structures, regardless of cost, must obtain a stamp of certification. I have been informed by the Board of Professional Engineers, Architects, Surveyors and Landscape Architects that the proposal would inflict severe financial burdens on small commercial establishments and existing businesses which plan small inexpensive alterations or additions.

Furthermore, the deletion of the

non-residential exemption would result in lengthening an already extremely long county approval process.

For the foregoing reasons, I am returning House Bill No. 429 without my approval.

STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 1539

Honorable Members
Ninth Legislature
State of Hawaii

Pursuant to Section 17, Article III of the Hawaii Constitution, I am returning herewith, without my approval, House Bill No. 1539, entitled, 'A Bill for an

Act Relating to Bail Sureties.'

The purpose of this bill is to allow sureties to discharge their liability if, within 90 days of a defendant's non-appearance in court, he is surrendered to an appropriate law enforcement agency.

While I appreciate the fact that the legislative power, vested in the legislature, extends to all rightful subjects of legislation not inconsistent with the Constitutions of the State of Hawaii and the United States of America, I am nevertheless constrained to return the bill without my approval.

A major purpose of bail is to ensure a defendant's appearance in court when ordered. A defendant should be penalized, if he fails to so appear. However, the bill would only require him to pay whatever his non-appearance may have cost the government, so long as he shows up in court within 90 days after the date he was supposed to appear. The effect is to encourage, rather than discourage non-appearance and thus greatly impair the effectiveness of the bail procedure.

Additionally, the bill would necessitate civil hearings to determine the extent of costs to be paid by the bondsman whenever they are in dispute. These hearings would therefore add an unjustified burden to our already overburdened judicial docket.

Finally, the scope of the costs to be paid by the bondsman upon a defendant's surrender within 90 days is vague and uncertain. For example, do they include costs incident to rescheduling and requiring witnesses, prosecutors, and jurors to reappear?

While the bill would seem to benefit non-appearing defendants and their sureties, it does not further the interests of justice and the purposes of bail.

For the foregoing reasons, I am returning House Bill No. 1539 without my approval.

STATEMENT OF OBJECTIONS
TO HOUSE BILL NO. 1822-78

Honorable Members
Ninth Legislature
State of Hawaii

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning herewith House Bill No. 1822-78, entitled, 'A Bill for an Act Relating to Tourism.'

The purpose of this bill is to provide a vehicle by which the State will work with the visitor industry and all other governmental agencies associated with tourism to coordinate and implement comprehensive policies to achieve the State's desired goals and objectives of attaining a high quality of life for the people of Hawaii. House Bill No. 1822-78 proposes to add a new chapter titled, 'Office of Tourism,' to the Hawaii Revised Statutes. The new chapter establishes an Office of Tourism placed, for administrative purposes only, within the Department of Planning and Economic Development (DPED), establishes a

Visitor Industry Council (comprised of representatives from visitor industry organizations, labor organizations, the counties, and the Director of Planning and Economic Development and the new Director of Tourism), requires the Office of Tourism in conjunction with the Visitor Industry Council to develop and periodically update a 'ten-year policy plan for tourism which shall be presented to the legislature for adoption by concurrent resolution,' and transfers the tourism promotion and development functions of DPED to the Office of Tourism.

I believe that this bill is unnecessary because there already exists a satisfactory vehicle to achieve the State's goals and objectives under Chapters 201 and 203, Hawaii Revised Statutes, and the new chapter, entitled, 'Hawaii State Planning Act,' that was added to the Hawaii Revised Statutes by Act 100 of the 1978 Session Laws. The bill is also unacceptable because it will create administrative problems.

The Director of Tourism must have at least seven years of administrative and managerial experience in the visitor industry. This qualification requirement will restrict my selection. It is an unrealistic requirement because persons who may otherwise be well qualified for the position cannot be appointed. It is also doubtful whether the superior candidates in the industry would apply for a position without permanent tenure. Moreover, the bill provides that the staff of the new Office of Tourism will be hired without regard to Chapters 76 and 77, Hawaii Revised Statutes. This provision would be disadvantageous because a permanent, continuing staff is needed, rather than one which may be subject to 'political' appointments. In addition, despite the additional program responsibilities assigned to the Office of Tourism by this bill (such as a public information program, job counseling and career programs, a trouble-shooting program to deal with residents' tourism-related complaints, and staff assistance to the Visitor Industry Council), the Legislature did not appropriate additional funds to cover the added costs of these operating programs, nor to provide for the salary of the Director of Tourism or additional staff.

The bill also provides that the Director of Tourism and the Visitor Industry Council must be appointed prior to July 21, 1978. This time factor will likely reduce the quality of the appointment both from the necessity of a quick selection on

my part and the narrow recruitment base allowed by the bill.

Furthermore, the bill proposes to replace the present Interim Tourism Advisory Council, which is advisory to the Director of Planning and Economic Development, with the Visitor Industry Council, which will not be advisory to the Director of Planning and Economic Development but will instead have final approval responsibility for the ten-year policy plan for tourism prior to submission to the Legislature. This change to an executive 'decision-making' role for the Visitor Industry Council could result in a policy plan being sent to the Legislature that contains policies contrary to those desired by this Administration.

Moreover, the bill's provisions placing the new Office of Tourism within DPED for 'administrative purposes only' and transferring the tourism functions of DPED to the new Office of Tourism indicate the Legislature's intent to remove the new Office of Tourism from the supervision and control of the Director of Planning and Economic Development. Read together with the bill's amendment to Section 201-27, Hawaii Revised Statutes, requiring the Director of Planning and Economic Development to recommend to the Director of Tourism ways and means for coordinating tourism activities, I believe that the bill creates an unworkable administrative structure under which the Governor's ability to supervise and control the executive functions of DPED through the department head would be seriously impaired, possibly in violation of Section 6 of Article IV of the Constitution of the State of Hawaii.

For the foregoing reasons, I find House Bill No. 1822-78 to be unacceptable and I am herewith returning the bill.

STATEMENT OF OBJECTIONS

Pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, I am returning without my approval, House Bill No. 1998-78, entitled, 'A Bill for an Act Relating to Environmental Impact Statements.'

The purpose of this bill is to ensure that actions proposing the development of water resources that will probably have significant environmental effects will be carefully evaluated. However, this bill merely amends Section 343-4(a) (2), Hawaii Revised Statutes, to make the requirement of an environmental impact statement additionally applicable only to actions by state or county agencies proposing any water development or diversion project that will probably have significant environmental effects.

Since Section 343-4(a) (1), Hawaii Revised Statutes, already makes the requirement of an environmental impact statement applicable to '[a]ny action which will probably have significant effects and which proposes the use of state or county lands or the use of state or county funds,' I believe that such actions by state or county agencies proposing any water development or diversion project

that will probably have significant environmental effects are already subject to the requirement of an environmental impact statement under Section 343-4(a). A state or county project not involving state or county lands or funds appears very unlikely to occur.

Consequently, I believe that House Bill No. 1998-78 is ineffectual and unnecessary and I am herewith returning this bill as provided by Article III, Section 17, of the State Constitution.

STATEMENT OF OBJECTIONS

Pursuant to Section 17, Article III of the Constitution of the State of Hawaii, I am returning herewith House Bill No. 2170-78, entitled, 'A Bill for an Act Relating to the Hawaiian Homes Commission Act, 1920, As Amended.'

The purposes of this bill are to consolidate existing funds in the Department of Hawaiian Home Lands, to create new funds to account for borrowed monies and interest revenues and to increase departmental capabilities developing land and making loans.

Although the purposes and intent of the bill have merit, I find objections to the \$2,500,000 increase (from a maximum of \$5,000,000 to a maximum of \$7,500,000) in the 'additional receipts' to be effective from and after July 1, 1979 (page 19, lines 17-19). My objections are based on the following:

(1) the revenue producing capabilities of the DHHL are sufficient to administer and operate the provisions of the Hawaiian Homes Commission Act;

(2) the flexibility provided by this bill to borrow money, develop lands and make loans should preclude the need for further State appropriations to the DHHL to operate programs under the Act;

(3) the State has continually provided general obligation bond funds, without charge, to develop Hawaiian Home lands; and,

(4) the funding of educational improvement projects for children of lessees should more properly be included in the regular, operating budget of the Department of Education so that normal fiscal controls could be exercised over those projects.

For the foregoing reasons, I am returning House Bill No. 2170-78 with my objections to the proposed increase of 'additional receipts' from the amount of \$5,000,000 to the amount of \$7,500,000, effective July 1, 1979, referred to above.

EXECUTIVE CHAMBERS

STATEMENT OF OBJECTIONS
TO HOUSE BILL NO. 2191-78

Honorable Members
Ninth Legislature
State of Hawaii

Pursuant to Section 17, Article III of the Constitution of the State of Hawaii, I am returning herewith, without my approval, House Bill No. 2191-78, entitled, 'A Bill for an Act Relating

to Administration of Taxes.

The purpose of this bill is to assure the collection from the consignees of motor vehicles imported into the State of any Hawaii use tax applicable to such motor vehicles. The bill seeks to effectuate such purpose by proscribing any common carrier, or any officer, agent, employee or representative thereof, from releasing and delivering any and all motor vehicles transported into the State without presentation by the consignee of either (1) a certificate signed by the Director of Taxation showing that said consignee has paid all applicable use taxes or (2) a general excise tax license. There are no enforcement penalties provided to insure that common carriers will comply with the requirements of this bill.

If enacted this bill will impose a burden upon all persons who import any motor vehicle into the State for whatever purpose or use. The burden will be greater upon persons without a general excise tax license, inasmuch as such persons will be required to obtain from the Department of Taxation, a certificate evidencing that they have paid the Hawaii use tax applicable to such vehicle before they can obtain its release. A person with a Hawaii general excise tax license will be able to obtain the release of his vehicle by merely showing such license to the common carrier, the optimistic premise being that any person with a general excise tax license will properly report and pay the applicable use tax with his monthly or quarterly general excise and use tax return. As a result, while persons with any general excise tax license will be permitted to voluntarily comply with the use tax law at their convenience, persons without a general excise tax license will be forced into compliance by withholding access to their motor vehicle unless use taxes, if any are applicable, have been paid prior to the release of the vehicle.

The Department of Taxation reports that it presently enforces the collection of these use taxes by utilizing registration information provided by the Motor Vehicle Divisions of the counties and also by inspecting bills of lading and other records of common carriers with respect to motor vehicles imported into the State. In the Department's experience this method has insured the collection of use taxes on imported motor vehicles in nearly all cases. Inasmuch as the current procedure of the Department of Taxation is working satisfactorily, it is unnecessary

to inconvenience and burden taxpayers, as well as to impose additional manpower requirements upon the Department in an attempt to achieve total compliance by those importer-taxpayers who do not possess a general excise tax license.

The bill also contains certain technical defects which do not affect the validity of the bill but which may raise questions as to ambiguity.

For the foregoing reasons, I am returning House Bill No. 2191-78 without my approval.

Respectfully,

/s/ George R. Ariyoshi

GEORGE R. ARIYOSHI
Governor of Hawaii"

Gov. Msg. No. 318 informing the Senate that pursuant to Section 17 of Article III of the Constitution of the State of Hawaii, House Bill No. 258, entitled: "A Bill for an Act Relating to the Definition of Death," became law (Act 248) without his signature on June 20, 1978, and noting as follows:

"As you know, the purpose of this bill is to establish and provide a statutory definition of the medical death of a human being.

Traditionally, death has been deemed to occur when a licensed physician determines that there has been an 'irreversible cessation of spontaneous respiratory and circulatory functions.'

However, the advances in medical life supporting technology have made it possible to artificially sustain the respiratory and circulatory functions. This has made the diagnosis of death much more difficult from both a medical and legal point of view. This bill attempts to deal with the problem of providing that in the event that artificial means of support preclude a determination that respiratory and circulatory functions have ceased, a human body shall be considered dead if the person has experienced irreversible cessation

of brain function. However, the final version of the bill included a condition considered by the medical community as being unnecessarily restrictive. This pertained to the requirement in subsection (b) that a neurologist or neurosurgeon must be called in consultation prior to determining irreversible cessation of brain function. The Hawaii Medical Association considered this requirement as unnecessary since the attending physician should determine what assistance he may need, if any, in determining brain death. Further, problems might arise on neighbor islands on the availability of special equipment and in obtaining specific expertise where neurologists and neurosurgeons are not readily available.

However the HMA, representing about 700 state-licensed physicians, finally accepted the bill as reported out as 'better than no bill at all.' Many doctors also feel that with a precise definition of death, they would be less vulnerable to malpractice suits. It is also pointed out that the law contains a provision for periodic mandatory review in subsection (e) leading to possible amendments should experience so dictate.

After much thought and many discussions with those for and against the bill, I have decided to let the bill become law without my signature. I have asked the Health Department to monitor very closely the impact of the new law during the coming months. At present, it is my intention to request the next session of the legislature to amend the law by deleting the requirement of having a neurologist or neurosurgeon as a consultant in determining brain death.

For the foregoing reasons, I have allowed House Bill No. 258 to become law (Act 248) without my signature.

With warm personal regards, I remain,

Yours very truly,

Gov. Msg. No. 319 informing the Senate of certain inadvertent errors uncovered in House Bill No. 3039-78, the Supplemental Appropriations Act, and reading as follows:

"STATE OF HAWAII
EXECUTIVE CHAMBERS

June 21, 1978

Honorable John T. Ushijima
President of the Senate
Ninth State Legislature
State Capitol, Room 410
Honolulu, Hawaii 96813

Dear Senator Ushijima:

This is a follow-up to your joint letter of April 25, 1978, bringing to my attention certain inadvertent errors uncovered in House Bill 3039-78, the Supplemental Appropriations Act. In my letter to you dated May 8, 1978, I had promised to keep you apprised on the progress regarding these matters.

Although I had intended to, where permissible, invoke the authority of Section 11 of House Bill 3039-78 to correct such manifest errors, staff review indicates that except for error reflected in the amount for EDN 106, none of the other errors would constitute manifest errors in the meaning of Section 11.

I have invoked the authority of Section 11 to correct the inadvertent error of EDN 106, amending the appropriation of \$2,133,240 for fiscal year 1978-79 to read \$2,083,240.

As for the inadvertent errors in expending agency designations, the Administration intends to take the following actions to accomplish legislative intent:

Errors in Expending Agency Designations:

AGR 192 should be EDN 207 for Hawaii's Future Farmers of America....\$20,000

Proposed Action:

The Department of Education will consult with the Department of Agriculture when allocating funds to the Hawaii's Future Farmers of America.

BUF 802 should be BUF 881 for grant-in-aid to Honolulu Symphony Society....\$100,000

Proposed Action:

Because the provisions of Section 99 of Act 10, SpSLH 1977, allows the transfer of program appropriations within, \$100,000 will be transferred from BUF 802 to BUF 881.

ATG 100 should be GOV 102 for Project 'EMBER,' energy awareness program....\$24,000

Proposed Action:

The Attorney General's Office will

coordinate this matter with the Governor's Office by contractual or other appropriate arrangement.

AGR 101 should be AGR 192 for Farmers Market and Centralized Distribution Center . . . \$30,000

Proposed Action:

The transfer of \$30,000 from AGR 101 to AGR 192 will be made as permitted under Section 99 transfer provision.

GOV 109 should be LNR 805 for Puako Reef Survey . . . \$30,000

Proposed Action:

The Governor's Office will arrange with the Department of Land and Natural Resources for the study by contractual or other appropriate arrangement.

SOC 802 should be HTH 501 for grant-in-aid to Lanakila Rehabilitation Center . . . \$47,208

Proposed Action:

Because this appropriation item involves a grant, the Department of Social Services and Housing can administer the grant without difficulty.

PED 102 should be AGR 192 for Local Beef Marketing Program . . . \$100,000

Proposed Action:

The Department of Planning and Economic Development will coordinate this matter with the Department of Agriculture to obtain marketing services as intended.

Other Inadvertent Errors:

Part III. Section 4 Tourism Program (PED 113) should read:

The expending agency shall expend \$2,083,240 instead of \$2,133,240 for fiscal year 1978-79.

Proposed Action:

The Department of Planning and Economic Development is advised of this error and will handle the matter administratively.

Standing Committee Report reflecting \$100,000 for ATG 100 for personnel compensation realignment should be corrected to read:

\$80,000 for compensation realignment
\$70,000 for special litigation expenses

Proposed Action:

The Attorney General's Office is advised of this error and will handle the matter administratively.

Please be advised that although every attempt will be made to administratively carry out the intent of the Legislature regarding the above appropriation item, in all likelihood, additional general fund authorizations under House Bill 3039-78 and other general fund authorizations under specific appropriation measures approved by the 1978 legislative session will exceed projected general fund resources estimated by the Administration to be available for fiscal year 1978-79.

In that event, it will be necessary for the expending agencies to consider the release of these appropriation items on a priority basis within general fund resources available to the respective State agencies.

With warm personal regards, I remain,

Yours very truly,

/s/ George R. Ariyoshi

The President shall then call upon all voting in the negative of the question to vote "No." The President shall then announce the result to the Senate.

(3) If any member shall doubt the result, as announced, the President shall again state the question and call upon the members to vote by rising in their places, and they shall remain standing until counted, and the result shall be again announced.

(4) The method of voting by ballot shall be as customary. (2) The President may excuse a member who has a monetary interest in the question, or whose right to a seat in the Senate will be affected by the question, or whose official conduct is involved in the question. If a member thinks he or she may have such a personal interest in the question, the member shall rise and disclose the interest to the President. The President then shall rule whether the member has a conflict of interest. If so, the member shall be excused from voting.

CONSTITUTIONAL PROVISIONS RELATIVE TO
PROCEDURES IN THE EVENT OF VETO

ARTICLE III

Sec. 17. Every bill which shall have passed the Legislature shall be certified by the presiding officers and clerks of both houses and shall thereupon be presented to the Governor. If he approves it, he shall sign it and it shall become law. If the Governor does not approve such bill, he may return it, with his objections to the Legislature. He may veto any specific item or items in any bill which appropriates money for specific purposes by striking out or reducing the same; but he shall veto other bills, if at all, only as a whole.

The Governor shall have ten days to consider bills presented to him ten or more days before the adjournment of the Legislature sine die, and if any such bill is neither signed nor returned by the Governor within that time, it shall become law in like manner as if he had signed it.

The Governor shall have forty-five days, after the adjournment of the Legislature sine die, to consider bills presented to him less than ten days before such adjournment, or presented after adjournment, and any such bill shall become law on the forty-fifth day unless the Governor by proclamation shall have given ten days' notice to the Legislature that he plans to return such bill with his objections on that day. The Legislature may convene at or before noon on the forty-fifth day in special session, without call, for the sole purpose of acting upon any such bill returned by the Governor. In case the Legislature shall fail to so convene, such bill shall not become law. Any such bill may be amended to meet the Governor's objections and, if so amended and passed, only one reading being required in each house for such passage, it shall be presented again to the Governor, but shall become law only if he shall sign it within ten days after presentation.

In computing the number of days designated in this section, the following days shall be excluded: Saturdays, Sundays, holidays, and any days in which the Legislature is in recess prior to its adjournment as provided in Section 11.

Sec. 18. Upon the receipt of a veto message from the Governor, each house shall enter the same at large upon its Journal and proceed to reconsider the vetoed bill, or the item or items vetoed, and again vote upon such bill, or such item or items, by ayes and noes, which shall be entered upon its Journal. If after such reconsideration such bill, or such item or items, shall be approved by a two-thirds vote of all members to which each house is entitled, the same shall become law.
