As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1274, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1274, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (English, Moriwaki, Taniguchi).

#### SCRep. 677 Ways and Means on S.B. No. 1271

The purpose and intent of this measure is to authorize the Department of Taxation, in addition to the Department of Accounting and General Services, to perform tax refund offsets.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that authorizing the Department of Taxation, in addition to the Department of Accounting and General Services, to perform tax refund offsets will allow greater flexibility for the State to perform offsets, notify debtors, and provide certain information to a claimant agency for any valid debt due the claimant agency by a debtor who is otherwise entitled to a state tax refund.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Accounting and General Services *or* the Department of Taxation shall set off any valid debt upon the request of a claimant agency;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1271, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1271, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (English, Moriwaki, Taniguchi).

## SCRep. 678 (Joint) Transportation and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1505

The purpose and intent of this measure is to authorize the Department of Transportation to make harbor facilities temporarily available as a harbor of safe refuge when the National Weather Service forecasts a tropical storm or hurricane strength cyclones, unless specifically prohibited by the United States Coast Guard Captain of the Port.

Your Committees received testimony in support of this measure from the Hawaii Emergency Management Agency; Ocean Tourism Coalition; Calypso Charters; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi; Sea Link of Hawaii, Inc.; Atlantis Adventures; Passenger Vessel Association; Malolo Charters; Hawaii Pilots Association; Trilogy Excursions; Activities and Attractions Association of Hawaii; and two individuals. Your Committees received testimony in opposition to this measure from Matson. Your Committees received comments on this measure from the Department of Transportation.

Your Committees find that the Department of Transportation is responsible for the care and control of commercial harbors in Hawaii. Hawaii's isolated island geography emphasizes the significance of ocean cargo transport as the lifeline and only viable means to serve and support every facet of the local economy, including tourism, construction, national defense, agriculture, and all other industries supporting the State. Your Committees recognize the importance of critical harbors and believe that the Department of Transportation should be empowered to take all actions necessary to make the State's ports recoverable and accessible.

Your Committees further recognize the concerns regarding the increased risk to resuming port operations in the case of a delay in reopening the ports due to a sunken vessel or a vessel causing damage to any piers. However, your Committees believe that the safety of everyone holds the highest priority of the State.

Your Committees have amended this measure by:

- (1) Establishing a working group to create a plan of action when the National Weather Service forecasts a tropical storm or hurricane strength cyclones for small vessels under two hundred gross tons and examine the feasibility of making harbor facilities temporarily available as a harbor of safe refuge for those small vessels;
- (2) Establishing the membership of the working group; and
- (3) Requiring the working group to submit a report to the legislature no later than twenty days prior to the convening of the Regular Session of 2020.

As affirmed by the records of votes of the members of your Committees on Transportation and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1505, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1505, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

# SCRep. 679 (Majority) Judiciary on S.B. No. 94

The purpose and intent of this measure is to:

- (1) Require candidates for president and vice president of the United States to post their most recent income tax return on the Internet at least sixty days prior to and continuing through the date of the general election for free access by the public in order to be included on the state ballot, subject to certain conditions; and
- (2) Prohibit electors from voting for a candidate for president or vice president of the United States unless the candidates have posted their most recent income tax return on the Internet at least sixty days prior to and continuing through the date of the general election.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Honolulu Republican Party and seven individuals. Your Committee received comments on this measure from the Department of Taxation, Department of the Attorney General, and Tax Foundation of Hawaii.

Your Committee finds that until the 2016 election cycle, United States presidential and vice presidential candidates of major parties routinely released their income tax returns as part of a decades-old tradition. Your Committee further finds that a candidate's income tax returns provide voters with essential information regarding a candidate's potential conflicts of interest, business dealings, financial status, and charitable donations, and allows voters the opportunity to fully evaluate fitness for the offices of President and Vice President of the United States. This measure will require presidential and vice presidential candidates to release their income tax returns before they are placed on the Hawaii ballot.

Your Committee has amended this measure by:

- (1) Allowing candidates to redact any personal identification numbers of any kind before posting income tax returns;
- (2) Clarifying that "income tax return" has the same meaning as "individual income tax return" as used in the Internal Revenue Code of 1986, as amended; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 94, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 94, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Wakai). Noes, 1 (Kim). Excused, 1 (Fevella).

# SCRep. 680 Commerce, Consumer Protection, and Health on S.B. No. 1383

The purpose and intent of this measure is to abolish the Board of Health.

Your Committee received testimony in support of this measure from the Department of Health. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds the Board of Health's advisory role has been made redundant by the evolution of state and federal regulations, community standards of practice, grant guidance, and legislative oversight. Furthermore, as the Department of Health's scope expanded to include public health, behavioral health, and environmental protection, it became too complex for meaningful advisement by a generalist board like the Board of Health. Your Committee notes that the Board of Health has been vacant for several years and abolishing it will have little practical effect except to reduce the administrative load of the Department of Health.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1383 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Nishihara).

#### SCRep. 681 Ways and Means on S.B. No. 1014

The purpose and intent of this measure is to address recent increases in the cost of household and dependent care services.

Specifically, this measure amends the income tax credit that may be claimed for certain expenses for household and dependent care services that are necessary for gainful employment by:

- (1) Increasing the taxpayer's applicable percentage of the employment-related expenses and dollar limit on amounts creditable that constitute the tax credit; and
- (2) Requiring the Department of Taxation from September 30, 2020, and each September 30th thereafter, to make annual adjustments for inflation to the adjusted gross income thresholds and dollar limits on amounts creditable.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Collaborative Support Services Inc., Hawaii Appleseed Center for Law & Economic Justice, Midwives Alliance of Hawaii, Hawaii Alliance for Progressive Action, and three individuals.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that this measure will assist families with young children in the State to access high-quality early learning options.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1014, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1014, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

# SCRep. 682 (Joint) Public Safety, Intergovernmental, and Military Affairs and Water and Land and Agriculture and Environment on S.B. No. 831

The purpose and intent of this measure is to require the counties to give full consideration to urban agriculture principles and policies in land use zoning.

Your Committees received testimony in support of this measure from the Department of Agriculture, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals.

Your Committees find that communities around the country are looking to promote healthier eating by encouraging urban agriculture. "Urban agriculture" is an umbrella term encompassing a wide range of activities involving the raising, cultivating, processing, marketing, and distributing of food in urban areas. In many communities, urban agriculture takes the form of backyard gardens and community gardens.

Your Committees further find that allowing the counties to adopt an integrated approach to land use planning that incorporates urban agriculture principles and policies furthers the State's goals of sustainability and self-sufficiency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs, Water and Land, and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 831 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Wakai).

Water and Land: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

# SCRep. 683 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary on S.B. No. 1422

The purpose and intent of this measure is to specify that police officers have the discretion to issue citations, in lieu of making a lawful arrest without a warrant, for non-violent class C felonies, misdemeanors, petty misdemeanors, and violations under certain conditions, including that the offense does not involve domestic violence, sexual assault, robbery, or any other offenses under chapter 707, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Judiciary, Office of the Public Defender, Office of Hawaiian Affairs, the Drug Policy Forum of Hawaii, Community Alliance on Prisons, Hawaii Health and Harm Reduction Center, and three individuals. Your Committees received testimony in opposition to this measure from the Hawaii Paroling Authority and the City and County of Honolulu Department of the Prosecuting Attorney.

Your Committees find that section 803-6, Hawaii Revised Statutes, gives police officers the discretion to issue citations for misdemeanors, petty misdemeanors, and violations. However, police officers are reluctant to exercise this discretion. Your Committees also find that issuing citations in lieu of arresting these non-violent offenders would free up space in police cellblocks, county jails, and courthouse holding cells without jeopardizing public safety.

Your Committees further find that citation issuance is a viable alternative to arrest for low-risk defendants who have not demonstrated a risk of non-appearance in court, while still protecting the public from the risk of further crime.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1422 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Fevella). Judiciary: Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

#### SCRep. 684 (Joint) Hawaiian Affairs and Water and Land on S.B. No. 1502

The purpose and intent of this measure is to add the Chairperson of the Hawaiian Homes Commission (Chairperson) or the Chairperson's designee to serve as an ex officio, voting member of the Commission on Water Resource Management (Commission).

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, Ho'omanapono Political Action Committee, and Hawaii Farmers Union. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that the State Water Code has not been implemented in a manner that fully satisfies section 174C-101(a), Hawaii Revised Statutes, which requires decisions of the Commission relating to the planning for, regulation, management, and conservation of water resources in the State to incorporate and protect adequate reserves of water for current and foreseeable development and use of Hawaiian homelands as set forth in section 221 of the Hawaiian Homes Commission Act.

Your Committees find that by adding the Chairperson to the Commission, this measure will help ensure adequate reserves of water for current and future development of Hawaiian homelands.

However, your Committees have also heard concerns by testifiers on this measure. The Department of Land and Natural Resources raises two salient concerns in its testimony. First, adding a member to the Commission specifically to protect the interests of the Department of Hawaiian Home Lands could create the perception that the other members of the Commission have no obligation to consider the rights of Hawaiian homelands although it is the constitutional and statutory responsibility of all Commission members to protect and preserve the rights of the Department of Hawaiian Home Lands. The second concern is that including the Chairperson on the Commission will present the Chairperson with conflicts of interest since the Department of Hawaiian Home Lands is often a party before the Commission and the Chairperson has a duty to Hawaiian homelands beneficiaries, whereas the Commission has a duty to the general public.

While the Department of Land and Natural Resources' concerns are noted, your Committees find that this measure will allow for greater advocacy for Hawaiian Homes Commission Act beneficiaries in water management throughout the State.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1502 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Fevella). Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

#### SCRep. 685 Education on S.B. No. 1221

The purpose and intent of this measure is to:

- (1) Clarify wording regarding the delegation of powers to the Executive Director of the Hawaii Teacher Standards Board to timely approve license and permit applications; and
- (2) Include comprehensive reporting of data from the Department of Education, State Public Charter School Commission, and charter schools of the number of classrooms without a licensed teacher during the school year.

Your Committee received testimony in support of this measure from the Hawai'i Teacher Standards Board, Hawaii State Teachers Association, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that Hawaii continues to suffer from a shortage of qualified teachers. Currently, individuals who meet all of the requirements for a teaching license or permit have to wait for the Hawaii Teacher Standards Board to meet and affirm their license. This measure ensures that individuals who meet all requirements and receive approval from the Executive Director of the Hawaii Teacher Standards Board are issued teaching licenses or permits in a timelier manner.

Your Committee further finds that the Department of Education and State Public Charter School Commission currently report the number of emergency hire teachers in public school classrooms. This measure adds an additional reporting requirement of the number of classrooms without a licensed teacher for a quarter or more of the year, assisting the Legislature, preparation programs, and schools in knowing the actual need for closing the teacher recruitment and retention gap.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1221 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kim).

#### SCRep. 686 Ways and Means on S.B. No. 1130

The purpose and intent of this measure is to specify that the Internal Revenue Code section 512(a)(7), with respect to increases in unrelated business taxable income by disallowed fringe, is not operative in Hawaii income tax law.

Your Committee received testimony in support of this measure from the University of Hawaii Foundation and the Hawaii Alliance of Nonprofit Organizations. Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that the federal Tax Cuts and Jobs Act of 2017 disallowed certain fringe benefit deductions for ordinary businesses while increasing the unrelated business taxable income of tax-exempt organizations for the same amounts that are disallowed as deductions to ordinary businesses. Your Committee further finds that in Act 27, Session Laws of Hawaii 2018, Hawaii did not conform to the disallowance of deductions for ordinary businesses, but inadvertently conformed to the increase in unrelated business taxable income of tax-exempt organizations for the same amounts that are disallowed as deductions to ordinary businesses.

Your Committee therefore finds that this measure is necessary to restore equity between ordinary businesses and tax-exempt organizations with regard to the tax treatment of fringe benefits by ensuring that Hawaii does not conform to the increase in unrelated business taxable income of tax-exempt organizations for the same amounts that are disallowed as deductions to ordinary businesses.

Your Committee was informed by the Department of Taxation that the department prefers that any changes to conformity with the Internal Revenue Code should be limited to a single bill. Specifically, S.B. No. 1267, which is the department's annual conformity bill and was heard by your Committee, addresses the inconsistency with regard to the tax treatment of fringe benefits and also conforms other income tax and estate and generation-skipping transfer tax laws to the Internal Revenue Code. Your Committee notes that for S.B. No. 1267, testimony in support of the measure was received from the Department of Taxation while comments were received from the Tax Foundation of Hawaii.

Your Committee has amended S.B. No. 1130 by:

- (1) Incorporating the contents of S.B. No. 1267 into S.B. No. 1130, using the Department of Taxation's language with regard to Section 512(a)(7) of the Internal Revenue Code; and
- (2) Correcting technical errors in the text of the Hawaii Revised Statutes as drafted in S.B. No. 1267.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1130, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1130, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

#### SCRep. 687 Ways and Means on S.B. No. 1206

The purpose and intent of this measure is to authorize the use of premiums received from the sale of general obligation bonds for certain capital expenditures.

Your Committee received testimony in support of this measure from the Department of Budget and Finance.

Your Committee finds that this measure will allow premiums received from the sale of the general obligation bonds to be used to finance the construction or improvement of various public facilities, such as elementary and secondary schools, community college and university facilities, and other purposes approved by the Legislature. Your Committee believes that this measure will allow the State to meet funding requirements for capital improvement projects while incurring less debt and related annual debt service costs.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1206, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1206, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 6 (English, Kahele, Kidani, Riviere, Shimabukuro, Fevella).

# SCRep. 688 Ways and Means on S.B. No. 1275

The purpose and intent of this measure is to make various technical amendments to Title 14, Hawaii Revised Statutes, specifically the chapters dealing with tax administration (chapter 231), fuel tax (chapter 243), liquor tax (chapter 244D), and tobacco tax (chapter 245).

Your Committee received testimony in support of this measure from the Department of Taxation. The Tax Foundation of Hawaii provided comments on the measure.

Your Committee finds that the aforementioned statutory chapters have not been reviewed for technical amendments in many years and that the proposed revisions provide needed updates and clarifications.

- (1) Deleting the amendment that would have repealed the requirement that the county liquor commissions certify to the Department of Taxation any new liquor permits issued to dealers, but repealing their obligation to do so within forty-eight hours:
- (2) Amending the definition of "dealer" to include new types of liquor licenses; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1275, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1275, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (English, Moriwaki, Taniguchi).

### SCRep. 689 Ways and Means on S.B. No. 1361

The purpose and intent of this measure is to increase estate taxes for Hawaii net taxable estates that are valued at over \$10,000,000.

Your Committee received testimony in support of this measure from the Americans for Democratic Action Hawaii, League of Women Voters of Hawaii, Hawaii Appleseed Center for Law and Economic Justice, and several individuals.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that this measure will allow the State to capture some of the funds that certain residents will no longer be required to pay to the federal government due to the federal Tax Cuts and Jobs Act, which doubled the amount of an inheritance that is exempt from the federal estate tax, and to utilize those funds for addressing critically important state responsibilities.

Your Committee has amended this measure by making the measure applicable to decedents dying or taxable transfers occurring after December 31, 2019, in order to provide the Department of Taxation with sufficient time to implement the new law.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1361, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1361, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Riviere). Noes, none. Excused, 3 (English, Moriwaki, Taniguchi).

## SCRep. 690 Ways and Means on S.B. No. 1440

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Trevi Systems, Inc., or its related entity, Kona Coast Water LLC, to fund the plans, designs, construction, equipping, land leases, and other assets for two or more water desalination plants that use one hundred percent renewable solar energy for its customers on Hawaii island and potentially on other islands in the State.

Your Committee received written comments in support of this measure from Trevi Systems, Inc. and Kona Coast Water LLC, and from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure supports the development of the first forward osmosis seawater desalination plants in Hawaii using one hundred percent renewable energy.

Your Committee has amended this measure by:

- (1) Changing the amount of special purpose revenue bonds authorized to be issued to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1440, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1440, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

#### SCRep. 691 Ways and Means on S.B. No. 1504

The purpose and intent of this measure is to improve tax administration and accountability.

Specifically, this measure requires:

- (1) A person who prepares or assists in the preparation of a state income tax return, and all the preparer's agents, to obtain a federal preparer tax identification number; and
- (2) The person who has primary responsibility for the overall accuracy of the tax return to sign the return and provide the person's federal preparer tax identification number to the Department of Taxation.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that requiring tax return preparers to provide a federal preparer identification number to the Department of Taxation will help ensure that the preparers are accountable for the returns they prepare.

Your Committee has amended this measure by deleting its contents and inserting the provisions of Senate Bill No. 1272, a similar measure, and making further amendments, which cumulatively have the effect of amending this measure by:

- (1) Providing that a tax return preparer shall not omit its preparer tax identification number from any return or claim for refund prepared for compensation where the Department of Taxation requires the preparer tax identification number to be disclosed;
- (2) Establishing penalties for tax return preparers who do not obtain a preparer tax identification number or furnish it to the Department of Taxation when required;
- (3) Establishing a procedure for a tax return preparer to appeal penalties imposed;
- (4) Authorizing the Director of Taxation to bring a civil action to enjoin a tax return preparer from acting as a tax return preparer or engaging in certain conduct;
- (5) Authorizing the Department of Taxation to adopt rules pursuant to chapter 91, Hawaii Revised Statutes;
- (6) Defining the terms "tax return preparer" and "preparer identification number"; and
- (7) Providing that the measure shall apply to any returns filed after December 31, 2019.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1504, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1504, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (English, Moriwaki, Taniguchi).

#### SCRep. 692 Ways and Means on S.B. No. 1533

The purpose and intent of this measure is to establish a tax advisory commission to advise the Department of Taxation in making the tax system more user-friendly for taxpayers and the private sector.

Your Committee received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that establishing and receiving advice from the tax advisory commission will enable the Department of Taxation to execute its administrative duties more efficiently.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making a technical, nonsubstantive change for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1533, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1533, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (English, Moriwaki, Taniguchi).

# SCRep. 693 Agriculture and Environment on S.B. No. 901

The purpose and intent of this measure is to require the Department of Health to adopt rules for onsite non-potable water reuse systems.

Your Committee received testimony in support of this measure from the Department of Health, Ulupono Initiative, One World One Water, The Nature Conservancy Hawai'i, Hawai'i Community Foundation, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Surfrider Foundation Hawaii Chapters, and three individuals.

Your Committee finds that as an island state, Hawaii has limited access to natural fresh water and unlike in other states, it is not economically feasible to ship in additional supplies when needed. The use of recycled water for non-potable applications has proven safe and feasible in Hawaii in regulatory schemes and in high-rise and mid-rise developments in New York, California, Japan, and Australia, among other locations. The use of recycled water generated onsite at high-rise and mid-rise developments can replace a large percentage of the future potable water demand of such developments.

Your Committee further finds that a water reuse task force was convened by the Department of Health based on House Concurrent Resolution No. 86, S.D. 1 (2018), to identify policies to help scale up water reuse in the State. The task force recommended increasing onsite water reuse at the development level and following the National Blue Ribbon Commission's best management practices for non-potable water systems to help the State achieve its 2030 goal of doubling wastewater reuse.

- (1) Changing the deadline by which the Department of Health must adopt rules for onsite non-potable water reuse systems from January 1, 2020, to January 1, 2021, due to the complexity of adopting rules for the expanded program and the need to consult with affected parties; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 901, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 901, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 694 Agriculture and Environment on S.B. No. 221

The purpose and intent of this measure is to establish a low interest loan program to offer financial assistance to cesspool owners who upgrade or convert their cesspools to septic systems or aerobic treatment unit systems, or who connect their systems to existing sewer systems or any other wastewater treatment systems approved by the Department of Health.

Your Committee received testimony in support of this measure from the County of Hawaii Office of the Mayor, City and County of Honolulu Department of Environmental Services, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Surfrider Foundation Hawaii Chapters, and six individuals. Your Committee received comments on this measure from the Department of Health and City and County of Honolulu Board of Water Supply.

Your Committee finds that the State's groundwater is being harmed by nonpoint contamination sources that flow directly off the land, rather than through pipes or ditches. Cesspools are a nonpoint contamination source of great concern. These substandard systems are essentially holes in the ground that do not treat wastewater but merely dispose of it.

Your Committee further finds that there are approximately eighty-eight thousand cesspools in the State that collectively release more than fifty-three million gallons of untreated sewage into the ground each day. Hawaii relies on groundwater for ninety percent of its drinking water.

Your Committee also finds that in 2017, legislation was enacted requiring all cesspools not excluded by the Director of Health to be upgraded or converted to septic systems or aerobic treatment unit systems, or connected to sewage systems by January 1, 2050. Your Committee finds that safe drinking water is an urgent matter and this measure will help prevent further contamination by providing financial assistance to landowners to fulfill the mandate of the 2017 legislation by, or even before, the 2050 deadline.

Your Committee has amended this measure by deleting language that would have allowed the loan program to include the option of on-bill financing supported by the water pollution control revolving fund because on-bill financing is beyond the City and County of Honolulu Board of Water Supply's expertise and scope of work.

However, your Committee notes that on-bill financing can help more people receive financing and that the source of an on-bill financing component of the loan program should be further researched for feasibility and possible reincorporation into this measure.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 221, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 221, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 695 Labor, Culture and the Arts on S.B. No. 267

The purpose and intent of this measure is to designate June 21 as International Yoga Day.

Your Committee received testimony in support of this measure from Gandhi International Institute for Peace, Hari Nama Mission, Down to Earth Organic and Natural, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, eight individuals, and a form letter signed by twenty-nine businesses and individuals.

Your Committee finds that yoga is a long standing tradition in Indian culture that is practiced by many people in Hawaii. On December 11, 2014, the United Nations adopted a resolution proclaiming June 21 as the International Day of Yoga. Accordingly, this measure will recognize June 21 of each year as International Yoga Day in Hawaii.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 267, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 267, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

# SCRep. 696 Ways and Means on S.B. No. 1151

The purpose and intent of this measure is to increase the authority of the Chairperson of the Board of Agriculture to approve agricultural and aquacultural loans so as to authorize amounts not to exceed \$100,000, up from the current loan authorization limit of \$25,000.

Your Committee received written comments in support of this measure from Department of Agriculture; Ulupono Initiative; Hawaii Farm Bureau; Hawaii Cattlemen's Council; and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee finds that this measure provides a needed adjustment to the authorization amount for agricultural and aquacultural loans made by the Department of Agriculture. The current authorized loan amounts have not been updated since statutory authority was established for agricultural loans and aquacultural loans in 1982 and 1997, respectively.

Your Committee further finds that this measure supports the goal of increasing local food production in the State by enabling the Department of Agriculture to respond to a larger number of agricultural and aquacultural loan financing applications.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1151, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1151, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Kahele, Shimabukuro).

#### SCRep. 697 Ways and Means on S.B. No. 1291

The purpose and intent of this measure is to fund alternative energy research and development grants to promote technology and innovation jobs in the State.

Your Committee received written comments in support of this measure from the Hawaii Technology Development Corporation; Oceanit Laboratories, Inc.; Makai Ocean Engineering, Inc.; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; and three individuals.

Your Committee finds that this measure will further the State's commitment to renewable energy and strengthen the local economy by supporting high-skill renewable energy research and development in the State.

Your Committee has amended this measure by:

- (1) Changing the appropriation amounts to unspecified amounts;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1291, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1291, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Harimoto, Kahele, Shimabukuro, Taniguchi).

## SCRep. 698 Ways and Means on S.B. No. 1351

The purpose and intent of this measure is to authorize the Department of Agriculture to employ temporary inspectors to take samples of the industrial hemp plants for verification that certain chemicals do not exceed permissible concentration levels.

Your Committee received written comments in support of this measure from the Department of Agriculture, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaii Farm Bureau, and Hawaii Center for Food Safety.

Your Committee finds that the State's industrial hemp pilot program currently has only one employee. Authorizing the use of additional personnel for hemp sampling will allow the program to expand in an efficient manner.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1351, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1351, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 6 (English, Kahele, Kanuha, Kidani, Riviere, Taniguchi).

#### SCRep. 699 Ways and Means on S.B. No. 105

The purpose and intent of this measure is to allow jurors to be reimbursed for reasonable transportation costs, including but not limited to bus fare, rail fare, bicycle rentals, and taxi costs, to and from a court.

Your Committee received written comments in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee finds that because the public transportation options in the State have grown to include bicycle rentals and different types of hired car services, and will soon include a fixed rail system, the transportation costs for jurors are no longer limited to mileage fees and bus fares.

- (1) Changing the maximum reimbursement for a taxi or other hired car service fare to \$100 per one-way travel segment;
- (2) Requiring that a juror submit receipts prior to receiving a reimbursement for a taxi or other hired car service fare; and

(3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 105, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 105, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Kahele).

## SCRep. 700 Ways and Means on S.B. No. 130

The purpose and intent of this measure is to appropriate funds for civil legal service providers to deliver civil legal services to lowand moderate-income persons.

Your Committee received written comments in support of this measure from the Judiciary, the Department of Human Services, Volunteer Legal Services Hawaii, Legal Aid Society of Hawaii, and two individuals.

Your Committee finds that funding civil legal services for low- and moderate-income persons helps to ensure that the State's judicial system is accessible to all who need it.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 130, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 130, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Kahele, Shimabukuro).

#### SCRep. 701 Ways and Means on S.B. No. 330

The purpose of this measure is to require the Department of Human Services to allow for an earned income disregard of one hundred thirty-eight percent of the federal poverty level for income earned by certain individuals when determining eligibility of those individuals for Medicaid.

This measure also requires the Department of Human Services to evaluate the earned income disregard program and to submit reports to the Legislature prior to the 2020, 2021, and 2022 Regular Sessions.

Your Committee received written comments in support of this measure from Aloha Independent Living Hawaii, Lanakila Pacific, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual.

Your Committee finds that many Medicaid beneficiaries do not seek or obtain employment because doing so will reduce their Medicaid benefits. This measure will allow those individuals to increase their income through part-time employment while retaining their current Medicaid benefits.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 330, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 330, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Kahele).

# SCRep. 702 Ways and Means on S.B. No. 493

The purpose and intent of this measure is to prohibit health insurers that cover treatment for stage two through stage four cancer from requiring an insured who is diagnosed with stage two through stage four cancer to undergo step therapy prior to covering the insured for the drug prescribed by the insured's health care provider, under certain conditions.

Your Committee received written comments in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii and Hawaii Medical Association.

Your Committee received written comments on this measure from the Department of Commerce and Consumer Affairs, Insurance

Your Committee finds that for cancer patients, selecting the proper personalized treatment as quickly as possible can be critical to survival. Delays in getting patients the right treatments at the right time may lead to unnecessary complications in the physician-patient decision-making process.

Your Committee has amended this measure by making technical corrections regarding the types of organizations that have lists of prescription drug formularies.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 493, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 493, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

#### SCRep. 703 Ways and Means on S.B. No. 852

The purpose and intent of this measure is to clarify that restitution payments to crime victims may include reimbursements for mental health treatment, counseling, therapy, and lost earnings.

Your Committee received written comments in support of this measure from Hawaii Psychological Association.

Your Committee finds that because ambiguity exists regarding what specific losses by crime victims are reimbursable, reimbursement payments to these victims can be significantly delayed.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 852, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 852, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Kahele).

#### SCRep. 704 Ways and Means on S.B. No. 698

The purpose and intent of this measure is to bolster the State's commitment to conservation, sustainability, and economic development by codifying the seventeen United Nations Sustainable Development Goals and incorporating existing State sustainability goals, such as the Aloha+ Challenge, Sustainable Hawaii Initiative, and Hawaii Commitments presented to the 2016 World Conservation Congress.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, Office of Planning, Office of Hawaiian Affairs, Hawaii Farm Bureau, Kamehameha Schools, Hawaii Green Growth, The Nature Conservancy of Hawaii, Surfrider Foundation Hawaii Chapters, Healthy Climate Communities, Hawaii Public Health Association, and two individuals.

Your Committee finds that this measure will supplement the State's existing sustainability goals, empower collective government and private conservation efforts in Hawaii, and contribute to efforts statewide to build a more sustainable future.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 698, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 698, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Taniguchi).

#### SCRep. 705 Ways and Means on S.B. No. 1149

The purpose and intent of this measure is to establish a pilot program to identify efficient foreign agriculture small equipment and retrofit their engines to comply with federal Environmental Protection Agency standard emissions regulations.

Your Committee received written comments in support of this measure from the Department of Agriculture, Land Use Research Foundation of Hawaii, Ulupono Initiative, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaii Farm Bureau, Hawaii Crop Improvement Association, Maui Chamber of Commerce, and one individual.

Your Committee finds that this measure will expand the options available to local farmers and ranchers for small equipment while also complying with United States Environmental Protection Agency emissions standards. Your Committee also finds that an appropriation of \$500,000 for fiscal year 2019-2020 is necessary to achieve the intent of this measure.

- (1) Requiring the Chairperson of the Board of Agriculture to submit a report to the Legislature on the pilot program's progress and any findings, recommendations, or proposed legislation, no later than twenty days prior to the convening of the regular session of 2020;
- (2) Changing the appropriation to an unspecified amount;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1149, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1149, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Kahele, Shimabukuro).

#### SCRep. 706 Ways and Means on S.B. No. 1191

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2019-2021 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (1) and their excluded counterparts.

Your Committee received written comments in support of this measure from the Department of Budget and Finance, University of Hawaii, and Hawaii Health Systems Corporation.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (1) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1191, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1191, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, 1 (English).

## SCRep. 707 Ways and Means on S.B. No. 1192

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2019-2021 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (2) and their excluded counterparts.

Your Committee received written comments in support of this measure from the University of Hawaii, Hawaii Health Systems Corporation, and Hawaii Government Employees Association.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (2) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1192, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1192, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, 1 (English).

# SCRep. 708 Ways and Means on S.B. No. 1195

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2019-2021 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (5) and their excluded counterparts.

Your Committee received written comments in support of this measure from the Hawaii State Teachers Association.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (5) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1195, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1195, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, 1 (English).

#### SCRep. 709 Ways and Means on S.B. No. 1196

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2019-2021 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (6) and their excluded counterparts.

Your Committee received written comments in support of this measure from the Hawaii Government Employees Association.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (6) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1196, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1196, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, 1 (English).

# SCRep. 710 Ways and Means on S.B. No. 1197

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2019-2021 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (7) and their excluded counterparts.

Your Committee received written comments in support of this measure from the University of Hawaii and University of Hawaii Professional Assembly.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (7) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1197, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1197, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, 1 (English).

# SCRep. 711 Ways and Means on S.B. No. 1200

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2019-2021 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (10) and their excluded counterparts.

Your Committee received written comments in support of this measure from the University of Hawaii and Hawaii Health Systems Corporation.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (10) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1200, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1200, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, 1 (English).

#### SCRep. 712 Ways and Means on S.B. No. 1201

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2019-2021 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (11) and their excluded counterparts.

Your Committee received written comments in support of this measure from the Hawaii Fire Fighters Association.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (11) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1201, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1201, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (English).

# SCRep. 713 Ways and Means on S.B. No. 1202

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2019-2021 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (13) and their excluded counterparts.

Your Committee received written comments in support of this measure from the Hawaii Health Systems Corporation and Hawaii Government Employees Association.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (13) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1202, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1202, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (English).

# SCRep. 714 Ways and Means on S.B. No. 1203

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2019-2021 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (14) and their excluded counterparts.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (14) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1203, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1203, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (English).

# SCRep. 715 Ways and Means on S.B. No. 1193

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2019-2021 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (3) and their excluded counterparts.

Your Committee received written comments in support of this measure from the University of Hawaii, Hawaii Health Systems Corporation, and Hawaii Government Employees Association.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (3) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1193, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1193, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, 1 (English).

# SCRep. 716 Ways and Means on S.B. No. 1194

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2019-2021 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (4) and their excluded counterparts.

Your Committee received written comments in support of this measure from the University of Hawaii, Hawaii Health Systems Corporation, and Hawaii Government Employees Association.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (4) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1194, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1194, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, 1 (English).

# SCRep. 717 Ways and Means on S.B. No. 1198

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2019-2021 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (8) and their excluded counterparts.

Your Committee received written comments in support of this measure from the University of Hawaii and Hawaii Government Employees Association.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (8) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1198, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1198, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, 1 (English).

### SCRep. 718 Ways and Means on S.B. No. 1199

The purpose and intent of this measure is to make appropriations and allocations for fiscal biennium 2019-2021 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (9) and their excluded counterparts.

Your Committee received written comments in support of this measure from the University of Hawaii, Hawaii Health Systems Corporation, and Hawaii Government Employees Association.

Your Committee finds that negotiations between the exclusive representative of collective bargaining unit (9) and the public employer are currently in progress. Allowing this measure to advance through the legislative process provides a vehicle to appropriate necessary funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1199, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1199, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (English).

#### SCRep. 719 Ways and Means on S.B. No. 19

The purpose and intent of this measure is to amend the calculation of the surplus lines insurance premium tax to tax the entirety of the premium using the rate established by Hawaii statute, regardless of location of risk.

Your Committee received written comments in support of this measure from the Wholesale & Specialty Insurance Association and American Property Casualty Insurance Association.

Your Committee received written comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that this measure repeals language authorizing the Insurance Commissioner to enter into an interstate compact to collect surplus lines premium taxes. Under current law, the interstate compact, among other things, requires the State to use a method in cooperation with other states in allocating risk and computing taxes due on premiums to each state where properties, risks, or exposures are located. Your Committee recognizes that a very small minority of states have signed onto this interstate compact, and it is more beneficial for the State to use a system where surplus lines brokers make direct payments to the Director of Finance.

Your Committee has amended this measure by changing its effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 19, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 19, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Kahele, Riviere, Taniguchi).

# SCRep. 720 Ways and Means on S.B. No. 216

The purpose and intent of this measure is to require a recount of votes if a margin of victory for an election contest or a tabulation for a ballot measure is equal to or less than one hundred votes or one-half of one per cent of the votes cast, whichever is greater.

Your Committee received written comments in support of this measure from the League of Women Voters of Hawaii, the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual.

Your Committee received written comments on this measure from the Office of Elections and the County Clerk of the County of Kanai.

Your Committee finds that this measure will facilitate the accurate tabulation of votes.

Your Committee has amended this measure by:

- (1) Extending the deadline for the completion and public announcement of the results of a mandatory vote recount to seventy-two hours after the closing of polls on election day;
- (2) Changing its effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 216, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 216, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Kahele, Shimabukuro).

### SCRep. 721 Ways and Means on S.B. No. 503

The purpose and intent of this measure is to increase government accountability by addressing the ongoing issue of salary or wage overpayments.

Specifically, this measure:

 Requires each department to deduct the department's total salary or wage overpayment from the department's budget request for the following fiscal biennium;

- (2) Requires employees who exhaust their sick or vacation leave to be placed on a manual accounting system; and
- (3) Removes the two-year statute of limitations on the determination and notice of salary or wage overpayment.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services and Department of Transportation.

Your Committee received written comments on this measure from the Department of Education, Department of Budget and Finance, and University of Hawaii.

Your Committee finds that from November 2016 to October 2017, state departments and agencies overpaid salaries in an amount exceeding \$415,000 each month. Your Committee believes that holding state departments and agencies accountable for salary overpayments will decrease overpayment waste and increase state efficiency.

Your Committee has amended this measure by:

- (1) Exempting the University of Hawaii from the requirement to place employees who exhaust sick or vacation leave on a manual accounting system; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 503, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 503, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, 1 (Taniguchi).

# SCRep. 722 Ways and Means on S.B. No. 504

The purpose and intent of this measure is to appropriate \$500,000 for fiscal year 2019-2020, and the same sum for fiscal year 2020-2021, necessary for the repair, restoration, and maintenance of the coronation pavilion, two pergolas, and a fountain at Iolani Palace.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources and two individuals.

Your Committee finds that this measure will support necessary repairs and maintenance that will allow the people of Hawaii to continue to utilize and enjoy the grounds of one of Hawaii's most historic and culturally significant landmarks.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 504, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 504, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

# SCRep. 723 Ways and Means on S.B. No. 695

The purpose and intent of this measure is to require the Department of Hawaiian Home Lands to create a digital database of its applicant, beneficiary, and lessee records.

Your Committee received written comments in support of this measure from the Department of Hawaiian Home Lands, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and Hawaiian Community Assets.

Your Committee received written comments on this measure from the Department of the Attorney General.

Your Committee finds that creating a digital database of the Department of Hawaiian Home Lands' beneficiary records will help beneficiaries to determine their application status more easily and efficiently.

Your Committee has amended this measure by:

- (1) Removing the appropriation to the Department of Hawaiian Home Lands;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 695, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 695, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

#### SCRep. 724 Ways and Means on S.B. No. 874

The purpose and intent of this measure is to facilitate the provision of micro housing units on Hawaiian home lands.

Specifically, the measure:

- (1) Authorizes the Department of Hawaiian Home Lands to make certain loans to qualifying lessees for the purchase or lease of micro housing units for use on Hawaiian home lands; and
- (2) Appropriates funds.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaiian Community Assets, Hawaiian Affairs Caucus of the Democratic Party of Hawaii, Sovereign Council of Hawaiian Homestead Associations, and two individuals.

Your Committee received written comments on this measure from the Department of Hawaiian Home Lands and Department of the Attorney General.

Your Committee recognizes that this measure is intended to address the financial and financing challenges that the Department of Hawaiian Home Lands and its lessees face in establishing and increasing residential housing opportunities on leased Hawaiian home lands

Your Committee has amended this measure by:

- (1) Removing the appropriations;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 874, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 874, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

#### SCRep. 725 Ways and Means on S.B. No. 998

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Hawaiian Electric Company, Inc.; Maui Electric Company, Limited; and Hawaii Electric Light Company, Inc.; to fund various multi-project capital improvement programs, including costs to cover the acquisition of land or the construction or acquisition of facilities used or related to the production, transmission, or distribution of electricity.

Your Committee received written comments in support of this measure from Hawaiian Electric Company, Inc.; Ulupono Initiative; and Land Use Research Foundation of Hawaii.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure supports the construction of facilities necessary to supply electricity in the State.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified amounts; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 998, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 998, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

# SCRep. 726 Ways and Means on S.B. No. 1001

The purpose and intent of this measure is to establish within the Office of Enterprise Technology Services a Chief Data Officer position and a Data Set Task Force to develop, implement, and manage statewide data policies, procedures, and standards.

Your Committee received written comments in support of this measure from the Department of Education, Office of Information Practices, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Transform Hawaii Government, Elemental Excelerator, Civil Beat Law Center for the Public Interest, and Ulupono Initiative.

Your Committee finds that this measure would facilitate data sharing between state agencies, thus increasing the transparency and accessibility of government information.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1001, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1001, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

# SCRep. 727 Ways and Means on S.B. No. 1003

The purpose and intent of this measure is to establish the Innovative Project Delivery Guidelines Task Force.

More specifically, this measure:

- (1) Establishes the Innovative Project Delivery Guidelines Task Force within the Department of Accounting and General Services;
- (2) Requires the Task Force to submit innovative project delivery guidelines recommendations to the Legislature;
- (3) Requires the Department of Accounting and General Services to adopt rules based on the Task Force's recommendations; and
- (4) Appropriates moneys to the Department of Accounting and General Services.

Your Committee received written comments in support of this measure from BIA Hawaii, Land Use Research Foundation of Hawaii, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and Ulupono Initiative.

Your Committee received written comments on this measure from the State Procurement Office.

Your Committee finds that the State would benefit from the research and development of institutional framework and tools to support state agencies in identifying, implementing, and overseeing innovative project delivery arrangements.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$200,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1003, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1003, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

# SCRep. 728 Ways and Means on S.B. No. 1176

The purpose and intent of this measure is to ensure that the State's false claims act remains in conformity with federal law.

Specifically, this measure:

- (1) Conforms the penalty amounts for false claims to the State with the penalty amounts pursuant to the 2019 amounts of the federal False Claims Act; and
- (2) Requires that, beginning in 2020 and every year thereafter, the penalty amounts in Hawaii's false claims act shall have the same amounts and the same effective dates as those adjusted and adopted by the United States Department of Justice for the federal False Claims Act.

Your Committee received written comments in support of this measure from the Department of the Attorney General.

Your Committee finds that this measure will bring the State into compliance with a federal mandate that the Hawaii false claims act penalties consistently match the federal False Claims Act penalties.

Your Committee has amended this measure by:

- (1) Reducing the maximum penalty amount from \$22,927 to \$22,363 to match the amount established in federal law;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1176, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1176, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

# SCRep. 729 Ways and Means on S.B. No. 1190

The purpose and intent of this measure is to authorize the Hawaii Housing Finance and Development Corporation to enter into seventy-five year leases for units in residential condominiums located on state lands.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; and Land Use Research Foundation of Hawaii.

Your Committee finds that this measure will facilitate the development of affordable residential condominiums for low-income individuals and families in Hawaii.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1190, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1190, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

# SCRep. 730 Ways and Means on S.B. No. 1257

The purpose and intent of this measure is to update certain fees assessed on users of state small boat harbors.

Specifically, this measure:

- (1) Establishes that liveaboard fees for state small boat harbors shall be established by appraisal by a state-licensed appraiser approved by the Department of Land and Natural Resources and shall be set at fair market value; and
- (2) Clarifies the moorage fee structure for vessels used for commercial purposes and provides that those vessels are subject to liveaboard fees if used as places of principal habitation.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources.

Your Committee received written comments in opposition to this measure from the Hawaii Fishing and Boating Association and one individual.

Your Committee received written comments on this measure from the Ocean Tourism Coalition.

Your Committee finds that the liveaboard fee, which is paid by a permittee who lives on their vessel, is intended to offset the cost of increased use of services such as utilities, showers, and restrooms, providing security, and other administrative costs. Your Committee further finds that the liveaboard fee has not been increased since 1991.

Your Committee has amended this measure by making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1257, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1257, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (English, Taniguchi).

# SCRep. 731 Ways and Means on S.B. No. 1382

The purpose and intent of this measure is to make public hearings and informational briefings at the state capitol more accessible to residents throughout the State.

More specifically, this measure:

- (1) Requires each chamber of the Legislature to establish procedures for livestreaming all public hearings and informational briefings held at the state capitol;
- (2) Requires the legislative broadcast program to make an audio or audiovisual recording of all public hearings and informational briefings held at the state capitol and maintain an archive of the recordings that are to be made available to the public; and
- (3) Appropriates moneys to the Legislative Reference Bureau to purchase recording equipment and archival materials and hire staff.

Your Committee received written comments in support of this measure from the Disability and Communication Access Board and one individual.

Your Committee received written comments on this measure from the Legislative Reference Bureau.

Your Committee finds that pursuant to sections 21G-3 and 21D-6, Hawaii Revised Statutes, the Joint Legislative Access Committee, rather than the Legislative Reference Bureau, is vested with supervising authority over the Legislative Broadcast Program. Therefore, the Bureau may not be able to expend moneys for a program that is not under its jurisdiction. Accordingly, your Committee notes that the Joint Legislative Access Committee may be the more appropriate entity to expend the moneys appropriated in this measure.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1382, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1382, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

#### SCRep. 732 Ways and Means on S.B. No. 1404

The purpose and intent of this measure is to expand the Hawaii rural health care provider loan repayment program.

More specifically, this measure:

- Extends the Hawaii rural health care provider loan repayment program to include certain advance practice registered nurses, registered nurses, and licensed social workers; and
- (2) Appropriates moneys to the Department of Health for the health care provider loan repayment program.

Your Committee received written comments in support of this measure from the Department of Health, the University of Hawaii, the Office of the Mayor of the County of Hawaii, the East Hawaii Region of the Hawaii Health Systems Corporation, East Hawaii Independent Physicians Association, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaii Primary Care Association, Healthcare Association of Hawaii, Hawaii Medical Service Association, Hawaii Pacific Health, Hilo Medical Center, Hilo Medical Center Foundation, Lanai Community Health Center, The Queen's Health Systems, TEAMHealth Hospital Medicine, and numerous individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that extending the Hawaii rural health care provider loan repayment program should attract more health care providers to rural areas of the State that are experiencing a shortage of these providers.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$350,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1404, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1404, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

# SCRep. 733 Ways and Means on S.B. No. 1494

The purpose and intent of this measure is to establish a working group to evaluate behavioral health care and to identify steps needed to promote the integration of services to more effectively respond to and coordinate care for individuals experiencing substance abuse, mental health conditions, and homelessness.

Your Committee received written comments in support of this measure from the Department of Human Services, Department of Commerce and Consumer Affairs Insurance Division, Governor's Coordinator on Homelessness, Mental Health America of Hawaii, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee finds that more than half of the adults with mental illness in the State do not receive treatment, due in part to various gaps in behavioral health care and related services. Your Committee further finds that the working group will require \$50,000 in each year of the 2019-2021 fiscal biennium.

Your Committee has amended this measure by:

- (1) Specifying that the Director of Health shall invite the representatives from the entities operating a health care plan and from the Hawaii Substance Abuse Coalition to participate on the working group;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1494, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1494, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

# SCRep. 734 Ways and Means on S.B. No. 12

The purpose and intent of this measure is to authorize the Hawaii Housing Finance and Development Corporation to develop and implement a housing voucher program for full-time teachers employed by the Department of Education or at a public charter school.

Your Committee received written comments in support of this measure from the Department of Education, Hawaii Teacher Standards Board, Democratic Party of Hawaii Education Caucus, and Hawaii State Teachers Association.

Your Committee received written comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that housing subsidy vouchers are an effective tool to increase public school teacher retention.

Your Committee notes that the Hawaii Housing Finance and Development Corporation has requested a minimum of 22.5 full-time equivalent positions and a \$1,000,000 general fund appropriation to staff the housing voucher program.

Your Committee has amended this measure by:

- (1) Specifying that the maximum voucher amount of \$500 is a monthly amount;
- (2) Limiting the beneficiaries of the voucher program to full-time teachers employed at hard-to-fill public schools, including public charter schools, as identified by the Department of Education;
- (3) Clarifying that the vouchers are renewable for one additional year, provided that the applicant submits proof of continued employment as a full-time teacher; and
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 12, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 12, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (English, Riviere).

#### SCRep. 735 Ways and Means on S.B. No. 50

The purpose and intent of this measure is to appropriate funds to the University of Hawaii for the Hawaii Nutrition Employment and Training Program.

Your Committee received written comments in support of this measure from the Department of Human Services, Hawaii Nutrition Employment and Training Program of the University of Hawaii, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual.

Your Committee finds that the Hawaii Nutrition Employment and Training Program helps Supplemental Nutrition Assistance Program recipients achieve self-sufficiency by providing training, employment, and assistance with higher education costs.

Your Committee notes that an appropriation of \$520,000 is needed for each fiscal year of the 2019-2021 fiscal biennium in order to sustain the program.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$520,000 to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 50, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 50, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

# SCRep. 736 Ways and Means on S.B. No. 226

The purpose and intent of this measure is to appropriate funds to support youth suicide early intervention, prevention, and education initiatives in the counties of Kauai, Hawaii, and Maui.

Your Committee received written comments in support of this measure from the Department of Education, County of Hawaii Office of the Mayor, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaii Family Forum, LGBT Caucus of the Democratic Party of Hawaii, Hawaii Pacific Health, Sutter Health Kahi Mohala, Papa Ola Lokahi, The Queen's Health Systems, Kamehameha Schools, Hawaii Pacific Health, Council for Native Hawaiian Advancement, and three individuals.

Your Committee received written comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that this measure will increase interventions and sustain youth suicide prevention projects to address the higher rates of suicide among youth in Kauai, Hawaii, and Maui counties. Your Committee notes that appropriations in the following amounts are necessary to achieve the intent of this measure:

- (1) \$25,000 for fiscal year 2019-2020 and the same sum for fiscal year 2020-2021 for the county of Kauai;
- (2) \$50,000 for fiscal year 2019-2020 and the same sum for fiscal year 2020-2021 for the county of Hawaii; and
- (3) \$50,000 for fiscal year 2019-2020 and the same sum for fiscal year 2020-2021 for the county of Maui.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified amounts; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 226, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 226, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

#### SCRep. 737 Ways and Means on S.B. No. 308

The purpose and intent of this measure is to extend the report submission deadline for the sunrise analysis required by Act 109, Session Laws of Hawaii 2018, regarding the impacts of the establishment of a paid family leave program on industry, consumers, employees, employers, and care givers prior to choosing a model or framework that will work best for Hawaii's workforce.

Your Committee received written comments in support of this measure from the Hawaii Appleseed Center for Law and Economic Justice, PHOCUSED, Hawaii Children's Action Network, Maui Chamber of Commerce, Hawaii Women's Coalition, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual.

Your Committee received written comments on this measure from the Legislative Reference Bureau.

Your Committee finds that this measure will allow necessary additional time for the Legislative Reference Bureau to evaluate and execute a contract for the required sunrise analysis and provide the selected contractor with adequate time to conduct a thorough analysis regarding this matter of significant public interest.

Your Committee has amended this measure by making a technical nonsubstantive amendment for the purpose of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 308, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 308, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

## SCRep. 738 Ways and Means on S.B. No. 337

The purpose and intent of this measure is to make the legislative process more accessible to all residents of the State.

More specifically, this measure:

- (1) Establishes the remote legislative access program;
- (2) Requires the Joint Legislative Access Committee to oversee the program's staff and operations and recommend policies for the program; and
- (3) Appropriates moneys to the Legislature to establish the remote legislative access program.

Your Committee received written comments in support of this measure from the Disability and Communication Access Board, Democratic Party of Hawaii, and five individuals.

Your Committee finds that communication technology has improved in ways that make the legislative process more accessible to individuals with disabilities and individuals who live outside of urban Honolulu. Accordingly, your Committee believes that this measure will provide increased opportunity for public participation in the legislative process.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 337, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 337, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

### SCRep. 739 Ways and Means on S.B. No. 373

The purpose and intent of this measure is to establish a curriculum-to-career pipeline that will prepare students in kindergarten through grade twelve to enter the State's workforce with the appropriate skills, certifications, licensing, or college credit upon graduation from high school.

Specifically, this measure provides parameters and funding to the Department of Education, in collaboration with the Department of Business, Economic Development, and Tourism, the Department of Labor and Industrial Relations, and the University of Hawaii, to develop and implement the K-12 curriculum-to-career-pipeline initiative.

Your Committee received written comments in support of this measure from the Department of Education, Department of Labor and Industrial Relations, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual.

Your Committee received written comments on this measure from the Executive Office on Early Learning.

Your Committee finds that this measure will support, strengthen, and advance a consolidated statewide effort to prepare students for a career in the State, expand career options for students who graduate from Hawaii schools, and close the skills gap between workers and available jobs, particularly in the fields of science, technology, engineering, and mathematics.

Your Committee notes that the Department of Education estimates that the implementation and operation of the program contained in this measure will require the services of one full-time equivalent (1.0 FTE) Educational Specialist II position. The cost to the State for an Educational Specialist II staff position is \$97,202.

Your Committee has amended this measure by:

- (1) Adding specific language to the appropriation that authorizes the expenditure of funds for one full-time equivalent (1.0 FTE) Educational Specialist II position; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 373, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 373, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 2 (Kahele, Riviere).

# SCRep. 740 Ways and Means on S.B. No. 387

The purpose and intent of this measure is to authorize the Hawaii Housing Finance and Development Corporation to collaborate with the Department of Education to plan rental housing projects for public school teachers and to require the Department of Education to contract with private entities to develop, manage, maintain, or revitalize teacher housing.

This measure also authorizes the issuance of general obligation bonds, provides that the proceeds shall be deposited into the dwelling unit revolving fund, and appropriates funds from the revolving fund for the development of rental housing for teachers.

Your Committee received written comments in support of this measure from the Department of Education; Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; Hawaii State Teachers Association; Hawaii Association of REALTORS; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Democratic Party of Hawaii Education Caucus; Hawaiian Community Assets; and one individual.

Your Committee finds that providing housing assistance may help lessen Hawaii's teacher shortage.

Your Committee has amended this measure by:

- (1) Changing the authorization to issue general obligation bonds into an appropriation of general funds of an unspecified amount;
- Clarifying that the threshold for authorizing the rental of available units to non-teachers shall be teacher occupancy falling below ninety-five percent of total units in a project;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 387, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 387, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

#### SCRep. 741 Ways and Means on S.B. No. 409

The purpose and intent of this measure is to establish an annual vehicle registration surcharge fee for electric vehicles, plug-in hybrid electric vehicles, alternative fuel vehicles, and hybrid vehicles manufactured after 2018.

Your Committee received written comments in support of this measure from four individuals.

Your Committee received written comments in opposition to this measure from the Alliance of Automobile Manufacturers, Big Island EV Association, Ulupono Initiative, and three individuals.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii; Hawaiian Electric Company, Inc.; and three individuals.

Your Committee finds that the surcharge imposed under this measure reflects a balanced approach to promoting the public's use of electric vehicles and other alternative fuel vehicles while ensuring an adequate source of revenue for highway maintenance.

Your Committee has amended this measure by:

- (1) Deleting the restriction that the surcharge fee shall apply to vehicles manufactured after 2018; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 409, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 409, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Keith-Agaran). Noes, none. Excused, 2 (Harimoto, Riviere).

#### SCRep. 742 Ways and Means on S.B. No. 565

The purpose and intent of this measure is to increase traffic safety on the State's roads.

Specifically, this measure:

- (1) Requires the Department of Transportation to implement a Vision Zero Program by July 1, 2020; and
- (2) Establishes a goal to eliminate fatalities and serious injuries from traffic accidents in Hawaii by 2030.

Your Committee received written comments in support of this measure from the Department of Transportation, Hawaii Strategic Highway Safety Plan, Mayor of the County of Hawaii, Department of Transportation Services of the City and County of Honolulu, County of Hawaii Planning Department, Blue Zones Project, Hawaii Public Health Institute, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaii Bicycling League, and nine individuals.

Your Committee finds that Vision Zero has been successfully adopted by Sweden, Washington State, and many of the country's large cities. Your Committee further finds that this initiative relies on data-driven strategies and places urgency and accountability on system designers and policymakers.

Your Committee has amended this measure by:

- (1) Codifying the program in chapter 286, Hawaii Revised Statutes; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 565, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 565, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Kahele).

#### SCRep. 743 Ways and Means on S.B. No. 651

The purpose and intent of this measure is to authorize the Board of Agriculture to make determinations on the eligibility of certain persons for leases to construct and operate facilities for agriculture or aquaculture, provided that certain criteria are met.

Your Committee received written comments in support of this measure from the Department of Agriculture, Hawaii Farm Bureau, and Hawaii Cattlemens Council.

Your Committee recognizes that recent developments in agriculture indicate a growing reliance on technological advances and methods that require substantial resources to build and maintain infrastructure for innovative agricultural models. Your Committee notes that many farmers do not have sufficient financial resources readily available to them, forcing them to seek assistance from others outside of the State and elsewhere in the agricultural industry to acquire investment capital. Your Committee believes that this measure may assist local farmers to obtain investment capital to establish and grow their businesses.

Your Committee has amended this measure by:

- Clarifying the eligibility requirements of persons seeking agricultural leases to ensure consistent references to "crops or products" generated from the lease operations;
- (2) Changing its effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 651, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 651, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Taniguchi).

# SCRep. 744 Ways and Means on S.B. No. 699

The purpose and intent of this measure is to ensure permanent, adequate funding for the State of Hawaii Museum of Natural and Cultural History at the Bernice Pauahi Bishop Museum.

Specifically, this measure:

- Beginning with the 2021-2023 fiscal biennium and each fiscal biennium thereafter, requires the Governor to include in the
  executive budget a minimum amount per fiscal year to be allocated to the State of Hawaii Museum of Natural and Cultural
  History; and
- (2) Appropriates funds to support the work of the State of Hawaii Museum of Natural and Cultural History.

Your Committee received written comments in support of this measure from the Bishop Museum, Charles Reed Bishop Trust, Kamehameha Schools, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual.

Your Committee received written comments on this measure from the Department of the Attorney General and Department of Budget and Finance.

Your Committee finds that this measure will support the significant research, public education, and historic preservation efforts of the State of Hawaii Museum of Natural and Cultural History.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 699, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 699, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

#### SCRep. 745 Ways and Means on S.B. No. 885

The purpose and intent of this measure is to increase the income ceiling to qualify for the low-income household renters income tax credit and increase the amount of the tax credit per qualified exemption.

Your Committee received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, League of Women Voters of Hawaii, Catholic Charities Hawaii, Americans for Democratic Action Hawaii, Hawaii Appleseed Center for Law and Economic Justice, Hawaii Alliance for Progressive Action, IMUAlliance, Chamber of Commerce Hawaii, and five individuals.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the low-income household renters tax credit amount has not been changed since 1981, and the adjusted gross income ceiling has not been adjusted since 1989.

Your Committee further finds that basing the income threshold for the income tax credit for low-income renters on the taxpayer's filing status will ensure efficient and fair administration of the tax credit.

Your Committee has amended this measure by:

- (1) Changing the income threshold amount from \$60,000 for all taxpayers to \$30,000 for single filers or married filers filing separately, \$45,000 for head of household filers, and \$75,000 for joint filers;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making this measure applicable to taxable years beginning after December 31, 2019.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 885, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 885, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 13. Noes, none. Excused, none.

# SCRep. 746 Ways and Means on S.B. No. 965

The purpose and intent of this measure is to extend the tax credit for research activities to an unspecified date and to increase the amount of the tax credit from one hundred percent to one hundred twenty-five percent of the allowed federal tax credit.

Your Committee received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Makai Ocean Engineering, Inc.; Maui Chamber of Commerce; and one individual.

Your Committee received comments on this measure from the Department of Taxation, Hawaii Technology Development Corporation, and Tax Foundation of Hawaii.

Your Committee finds that state investments made through tax credits should be awarded to businesses that not only conduct research and development in Hawaii, but also remain in Hawaii after claiming the tax credits.

Your Committee has amended this measure by:

- (1) Adding a recapture provision for businesses or taxpayers that claim the tax credit and leave the State within five years;
- (2) Repealing the June 30 deadline for a qualified high technology business to file the annual survey required for claiming the tax credit;
- (3) Changing the proportions of the federal tax credit that are allowed to be claimed to unspecified amounts; and
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 965, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 965, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 3 (English, Moriwaki, Taniguchi).

#### SCRep. 747 Ways and Means on S.B. No. 985

The purpose and intent of this measure is to issue special purpose revenue bonds to assist Pearl Harbor Floating Drydock, LLC, in the construction of a purpose-built floating drydock to service submarines and surface ships at Pearl Harbor.

Your Committee received testimony in support of this measure from Chamber of Commerce Hawaii; Pacific Marine & Supply Company, Ltd; Ship Repair Association of Hawaii; and two individuals.

Your Committee received comments on this measure from the Department of Budget and Finance; the Department of the Attorney General; and one individual.

Your Committee finds that supporting this industrial enterprise project will enhance ship repair capacity within the State and stimulate long-term economic benefits by keeping a greater number of submarine and surface ship repair projects in Hawaii.

Your Committee has amended this measure by:

- (1) Redesignating the statutory authority under which the special purpose revenue bonds may be issued, pursuant to this measure, to Part V, rather than Part III, of chapter 39A, Hawaii Revised Statutes, as the project supported by this bill is intended to service, rather than construct, submarines and surface ships;
- (2) Changing all references to "manufacturing enterprise" to instead reference "industrial enterprise" in conformance with part V, chapter 39A, Hawaii Revised Statutes; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 985, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 985, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Kidani, Taniguchi).

# SCRep. 748 Ways and Means on S.B. No. 1069

The purpose and intent of this measure is to reduce noise pollution over residential areas.

Specifically, this measure provides helicopter owners or operators an incentive to retrofit their helicopters with noise-canceling technology by:

- (1) Establishing a tax credit for taxpayers who install a helicopter noise-canceling technology system on a helicopter owned by the taxpayer and operated primarily within the State during the taxable year; and
- (2) Prohibiting commercial flights of tour helicopters within one mile of a residential neighborhood between 6:00 p.m. and 8:00 a.m. from Mondays through Saturdays, or between 6:00 p.m. and 9:00 a.m. on Sundays and holidays.

Your Committee received testimony in support of this measure from the County of Hawaii Mayor's Office and numerous concerned individuals.

Your Committee received comments on this measure from the Department of Taxation, Department of the Attorney General, and Tax Foundation of Hawaii.

Your Committee finds that tour helicopters generate loud noise that could have a disruptive impact on the quality of life for Hawaii residents.

Your Committee has amended this measure by:

- (1) Providing that a qualified taxpayer shall not claim more than one tax credit per helicopter;
- (2) Requiring a taxpayer claiming a helicopter noise-canceling technology system tax credit to furnish the Department of Taxation a certification from a qualified inspector or other qualified person that the helicopter and the helicopter's noise-canceling technology system meet the noise reduction requirement to qualify for the tax credit;
- (3) Postponing the date that the tax credit would be available from taxable years beginning after December 31, 2018, to taxable years beginning after December 31, 2019;
- (4) Clarifying that for purposes of qualifying for the tax credit, the maximum sound level of a helicopter shall be measured at an unspecified number of feet from the helicopter:
- (5) Clarifying that commercial flights of tour helicopters within one mile of residential neighborhoods shall be prohibited except between 8:00 a.m. and 6:00 p.m. on Monday through Saturday, or between 9:00 a.m. and 6:00 p.m. on Sunday or a state holiday;
- (6) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (7) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1069, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1069, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13; Ayes with Reservations (Inouye, Kanuha, Kidani, Moriwaki, Taniguchi). Noes, none. Excused, none.

#### SCRep. 749 Ways and Means on S.B. No. 394

The purpose and intent of this measure is to amend the way Hawaii taxes multistate businesses.

More specifically, this measure apportions business income by using only the taxpayer's sales factor, rather than the average of the taxpayer's property, payroll, and sales factors.

Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that, for income tax purposes, most states including Hawaii have adopted the Uniform Division of Income for Tax Purposes Act (UDITPA). Under UDITPA, codified under state law as part II of chapter 235, Hawaii Revised Statutes, a taxpayer is required to compute a property factor, which is a fraction representing the amount of property in Hawaii versus elsewhere; a payroll factor, which is a fraction measuring Hawaii payroll; and a sales factor, a fraction which measures Hawaii sales. The amount of net income apportioned to Hawaii is then the net income from operations everywhere multiplied by the average of the property, payroll, and sales factors. Your Committee further finds that some states have amended their versions of UDITPA to disregard the property and payroll factors, and apportion business income based solely on a taxpayer's sales factor.

Your Committee has amended this measure by:

- (1) Inserting provisions from S.B. No. 1270 to adopt market-based sourcing for the sale of services and intangible property for purposes of apportioning income under the Uniform Division of Income for Tax Purposes Act; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 394, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 394, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

#### SCRep. 750 Ways and Means on S.B. No. 579

The purpose and intent of this measure is to provide tax relief to low-income households.

Specifically, this measure:

- (1) Amends the allowable income tax credit for low-income household renters to an unspecified amount;
- (2) Makes the earned income tax credit refundable for ten taxable years after December 31, 2019; and
- (3) Amends the allowable amount of the refundable food/excise tax credit to an unspecified amount.

Your Committee received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Americans for Democratic Action Hawaii, HACBED, League of Women Voters, IMUAlliance, Hawaii Appleseed Center for Law and Economic Justice, and two individuals.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that this measure would provide financial relief to the thirty-five thousand families in the State that a recent report found were "food insecure," meaning they have had trouble obtaining adequate food and, in some cases, have gone hungry.

Your Committee has amended this measure by:

- (1) Removing provisions that make the earned income tax credit refundable;
- (2) Extending the sunset date of the earned income tax credit to December 31, 2029;
- (3) Providing that the changes to the tax credits in the measure shall apply to taxable years beginning after December 31, 2019;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for the purpose of style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 579, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 579, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Moriwaki, Taniguchi, Fevella).

# SCRep. 751 Commerce, Consumer Protection, and Health on S.B. No. 225

The purpose and intent of this measure is to specify that a certified ocularist, certified by a nationally recognized ocularist certifying board, may perform duties within the scope of that certification.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals.

Your Committee finds that there is only one board certified ocularist in Hawaii. This measure gives more certified ocularists the opportunity to practice in Hawaii by expanding the existing law to include those ocularists certified by the American Board of Ocularistry, the National Examining Board of Ocularists, or any other nationally recognized ocularistry certifying board.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 225, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 225, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Fevella).

#### SCRep. 752 Commerce, Consumer Protection, and Health on S.B. No. 269

The purpose and intent of this measure is to enable condominium associations to adopt rules and regulations that:

- (1) Require unit owners to prohibit smoking inside a condominium unit as part of a lease agreement; and
- (2) Prohibit smoking on a lanai of a condominium unit and in all common elements.

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i Public Health Institute, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and seven individuals. Your Committee received testimony in opposition to this measure from the Hawaii Smokers Alliance and sixteen individuals. Your Committee received comments on this measure from Associa and one individual.

Your Committee finds that individuals who live in multi-unit housing are especially susceptible to involuntary exposure to secondhand smoke. Data shows that tobacco use is slightly higher among those living in multi-unit housing compared to single-family homes. Among those living in multi-unit dwellings with no smoking rules, approximately 34.4 percent experienced incursions of secondhand smoke from neighbors or somewhere in the building. Hawaii's relatively high volume of multi-unit housing dwellers leaves many in vulnerable situations.

Your Committee further finds that secondhand smoke exposure is causally linked to adverse health outcomes among non-smokers, including heart disease, stroke, lung cancer in adults, and increased risk of severe asthma attacks, respiratory infections, and sudden infant death syndrome in children. Smoke-free policies are becoming the public norm, and the only way to effectively eliminate exposure to dangerous secondhand smoke is to prohibit tobacco use altogether. This measure supports a public health strategy toward comprehensive protections against involuntary exposure to secondhand smoke for those living in condominiums. Additionally, this measure protects unit owners from the high cost associated with the removal and damage caused by third-hand smoke.

Your Committee has heard the concerns raised in testimony that this measure's prohibition against smoking is limited only to tenants and will therefore have little impact on condominium projects that have a high percentage of owner-occupied units. Your Committee understands these concerns and concludes that amendments to this measure are needed.

Your Committee has amended this measure by:

- (1) Clarifying that condominium associations may adopt rules and regulations prohibiting smoking in all units and the entire condominium project by all persons; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 269, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 269, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Chang, Nishihara).

# SCRep. 753 Commerce, Consumer Protection, and Health on S.B. No. 385

The purpose and intent of this measure is to repeal defaults on student loans, student loan repayment contracts, and scholarship contracts as grounds for sanctioning professional and vocational licensees.

Your Committee received testimony in support of this measure from the American Nurses Association in Hawaii. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that Hawaii is one of only several states that allow the denial, revocation, or suspension of a professional or vocational license based on student loan defaults. This means that a licensee who has incurred tens of thousands of dollars of debt for a professional degree and passed all subsequent licensing examinations could be barred from practicing, making any prospect of repayment even more difficult. This measure aligns Hawaii with the majority of states by repealing student loan defaults as grounds for a license denial, suspension, or revocation.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 385, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 385, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Fevella).

#### SCRep. 754 Commerce, Consumer Protection, and Health on S.B. No. 770

The purpose and intent of this measure is to require a high school education or its equivalent as a condition for obtaining a license as a real estate broker or real estate salesperson.

Your Committee received testimony in support of this measure from the Real Estate Commission, Hawai'i Association of REALTORS, and one individual.

Your Committee finds that one of the purposes of the Hawaii Regulatory Licensing Reform Act is to protect public welfare, rather than the regulated profession or vocation. This policy was reiterated upon establishment of the Real Estate Commission whose purpose includes the protection of the general public in its real estate transactions. According to testimony from the Real Estate Commission, requiring a high school diploma or its equivalent as a condition for obtaining a license ensures an educated licensee population in order to protect consumers in their real estate transactions, which is one of the most important financial decisions in many people's lives. This measure supports efforts to help raise the bar of professionalism in the real estate industry by establishing a minimum educational requirement.

Your Committee has amended this measure by clarifying that this measure shall apply only to new applicants who are applying for licensure as a real estate broker or salesperson for the first time on or after the July 1, 2020, effective date and for first license renewal applications commencing in 2020.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 770, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 770, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Fevella).

#### SCRep. 755 Commerce, Consumer Protection, and Health on S.B. No. 777

The purpose and intent of this measure is to clarify the list of acceptable institutions or organizations that can approve the continuing education courses needed by naturopathic physicians for license renewal.

Your Committee received testimony in support of this measure from the Board of Naturopathic Medicine, Hawaii Society of Naturopathic Physicians, and eight individuals.

Your Committee finds that the Board of Naturopathic Medicine (Board) is authorized to require continuing education requirements for renewal of naturopathic licenses. However, the Board has found it extremely challenging to evaluate and approve continuing education courses because the definition of "continuing education courses" under existing law does not include courses approved by other jurisdictions' naturopathic regulatory boards, colleges, or institution of naturopathic medicine programs accredited by the Council on Naturopathic Medical Education. This has led to a significant decrease in acceptable continuing education courses that Hawaii-licensed naturopathic physicians may use to meet the Board's continuing education requirements. Furthermore, if naturopathic physicians are unable to renew their licenses, this may lead to a disruption of patient care. This measure clarifies which courses are acceptable and expands options to help licensees meet their continuing education requirements.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 777, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 777, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Fevella).

# SCRep. 756 Commerce, Consumer Protection, and Health on S.B. No. 806

The purpose and intent of this measure is to amend money transmitter licensure requirements by adding a credit report and extending personal background history from five years to ten years, which will enable the Division of Financial Institutions to join a compact of states that license money transmitters.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that applications for a money transmitter license must be made through the Nationwide Multistate Licensing System, also referred to as NMLS, the sole nationwide platform that provides for information-sharing among regulators to increase efficiencies for regulatory jurisdictions and enhance consumer protection. A compact of twenty-one states have agreed to accept each other's findings on standardized key areas of the licensing process, which will promote greater efficiency and alleviate the regulatory burden for money transmitters applying for licenses in multiple states. This measure therefore enables Hawaii to join this compact of states with standardized licensing laws.

Your Committee has amended this measure by:

- (1) Inserting language authorizing the Insurance Commissioner to conduct a financial responsibility review of the applicant as part of the licensing process; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 806, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 806, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Fevella).

# SCRep. 757 Commerce, Consumer Protection, and Health on S.B. No. 1288

The purpose and intent of this measure is to:

- (1) Provide for the use of an electronic voting device instead of a secret ballot in condominium association meetings; and
- (2) Require a condominium board to take reasonable steps to ensure secrecy and integrity of the votes, and that an audit trail be available after the meeting.

Your Committee received testimony in support of this measure from the Hawai'i State Association of Parliamentarians Legislative Committee, Community Associations Institute Legislative Action Committee, Hawaii Council of Associations of Apartment Owners, Palehua Townhouse Association, Associa, and four individuals. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that numerous Hawaii condominium associations have a secret ballot requirement that is commonly met by using paper ballots. Larger association board elections can take hours, and the results are often inaccurate due to human error in the counting process. Paper ballots can be easily compromised, are more susceptible to fraud, can be lost or left with another owner resulting in unauthorized or unregulated proxy voting, and can pose quorum concerns.

Your Committee further finds that technologies for electronic voting devices continue to improve, but amending association governing documents can be costly and time consuming and existing law has not been updated to authorize condominium associations to utilize these available technologies. Should a condominium association choose to utilize electronic voting technologies, this measure authorizes the use of electronic voting devices and provides reasonable procedures for ensuring security and integrity in the election process. Your Committee further notes that this measure does not mandate the use of electronic voting technologies, but provides condominium associations with a tool to conduct more efficient meetings and elections.

Your Committee has amended this measure by:

- (1) Clarifying that electronic voting devices may be used in any condominium association meeting regardless of whether a secret ballot is involved or required; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1288, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1288, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Chang, Nishihara).

### SCRep. 758 Commerce, Consumer Protection, and Health on S.B. No. 203

The purpose and intent of this measure is to clarify that pharmacists may perform certain vaccinations or immunizations and are required to maintain immunization records.

Your Committee received testimony in support of this measure from the Board of Pharmacy, University of Hawai'i at Hilo Daniel K. Inouye College of Pharmacy, Hawaii Immunization Coalition, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and ten individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that the ability to provide access to care by trained pharmacists in a timely manner is vital to ensuring the health and welfare of the consumers of this State. Pharmacists are among the most accessible heath care providers in the community and are conveniently located in urban and rural communities. Pharmacists are currently authorized to administer the human papillomavirus, Tdap (tetanus, diphtheria, pertussis), meningococcal, or influenza vaccine to persons between the ages of eleven and seventeen years of age. Pharmacists in Hawaii have been administering the influenza vaccine for years and during the 2016 Hepatitis A outbreak, were able to administer the Hepatitis A virus vaccine. Access to pharmacists thus played a major role in ensuring that many people were protected in a timely manner. This measure increases availability of vaccines to adolescents and adults and recognizes pharmacists' expanded presence in the immunization health care arena.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 203 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Fevella).

#### SCRep. 759 Commerce, Consumer Protection, and Health on S.B. No. 541

The purpose and intent of this measure is to:

- (1) Simplify the definition of "manufactured cannabis product" for purposes of clarity; and
- (2) Ensure access to medical cannabis for qualifying patients by replacing the term "transdermal patches" with the term "transdermal devices".

Your Committee received testimony in support of this measure from the Department of Health. Your Committee received comments on this measure from the Akamai Cannabis Clinic.

Your Committee finds that simplifying the definition of "manufactured cannabis product" removes redundancies in the Hawaii Revised Statutes and clarifies which medical cannabis products may be manufactured and distributed by Hawaii dispensaries.

Your Committee further finds that ensuring access to multiple delivery systems of medical cannabis is integral to increasing quality of care for medical cannabis users. Transdermal delivery is advantageous for certain medical cannabis users because it avoids the effects of oral ingestion and can ensure stable levels of the drug in a patient's bloodstream over long periods of time. Your Committee further finds that the Medical Cannabis Legislative Oversight Working Group has recommended updating transdermal patches to transdermal devices to increase the viable methods of medication delivery and take advantage of recent developments in transdermal delivery mechanisms. However, your Committee notes the concerns of the Department of Health that not all transdermal devices are appropriate for patient use of medical cannabis and finds that department oversight to ensure patient safety is warranted.

Your Committee has amended this measure by:

- (1) Limiting the manufacture and distribution of transdermal devices to those approved by the Department of Health; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 541, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 541, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Chang, Keohokalole, Nishihara).

#### SCRep. 760 Commerce, Consumer Protection, and Health on S.B. No. 543

The purpose and intent of this measure is to clarify the requirement for a motor vehicle insurer to maintain a complete sales and claims service office does not apply to the County of Kalawao.

Your Committee received testimony in support of this measure from the Hawaii Insurers Council, State Farm Insurance Company, and one individual.

Your Committee finds that under existing law, motor vehicle insurers must maintain a "brick and mortar" sales and claims service office, although licensed producers of motor vehicle insurers are able to satisfy this requirement by establishing and maintaining a sales and claims office in every county in which the insurer does business. However, when this exception to the complete sales and claims office requirement was passed, the County of Kalawao was not excluded. Your Committee notes that the County of Kalawao is the smallest county in the country. There are no driver's licenses issued by the county and, due to the limited number of vehicles, no insurance agent offices. Requiring a sales and claims agent in the County of Kalawao is therefore an unnecessary expense with no benefit. Accordingly, this measure excludes the County of Kalawao from the complete sales and claims office requirement and the county office exception under the State's motor vehicle insurance code.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 543 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Chang, Nishihara).

# SCRep. 761 Commerce, Consumer Protection, and Health on S.B. No. 549

The purpose and intent of this measure is to require restaurants that sell children's meals which include a beverage to make the default beverage a healthy beverage beginning January 1, 2020.

Your Committee received testimony in support of this measure from the Department of Health; American Heart Association; American Diabetes Association; Hawai'i Public Health Association; Hawai'i Public Health Institute; Blue Zones Project-Hawaii; Ka Ohana O Na Pua; Hawaii Dental Hygienists' Association; Hawai'i Primary Care Association; Kaho'omiki, Hawai'i Council on Physical Activity and Nutrition; We Are One, Inc.; Hawaii Children's Action Network; Hawaii Association for Health, Physical Education, Recreation, and Dance; fifty-seven individuals; and a petition signed by two hundred twelve individuals. Your Committee received comments on this measure from the Hawai'i Restaurant Association and American Beverage Association.

Your Committee finds that over the past thirty years, Hawaii has experienced an unprecedented increase in obesity and chronic conditions like type 2 diabetes, heart disease, liver disease, and tooth decay. Sweetened sugary drinks have been identified by numerous scientific studies as a major contributor to the obesity epidemic, and the Centers for Disease Control and Prevention recommends decreasing sugar sweetened beverages to prevent and reduce obesity. Requiring retail food establishments to provide a healthy default beverage as part of a children's meal encourages healthier choices when families eat outside the home.

Your Committee has amended this measure by:

- (1) Expanding the definition of "restaurant";
- (2) Adding a definition of "one hundred per cent fruit juice or vegetable juice" and including this in the list of default beverages;
- (3) Clarifying the permissible types of milk and non-dairy beverages that may be offered as a default beverage;
- (4) Clarifying that no sugar or corn syrup can be added to the default beverage options of flavored water or fruit;
- (5) Specifying that the Department of Health may levy fines for violations; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 549, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 549, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Chang, Keohokalole, Nishihara).

#### SCRep. 762 Commerce, Consumer Protection, and Health on S.B. No. 725

The purpose and intent of this measure is to specify that a condominium association's proxies and ballots may be destroyed ninety days, rather than thirty days, after an association meeting.

Your Committee received testimony in support of this measure from Associa, Hawaii Council of Associations of Apartment Owners, Palehua Townhouse Association, and four individuals.

Your Committee finds that many condominium associations' election documents are maintained by property management companies, which may digitize and archive those documents. This measure extends the period of time before physical election documents are destroyed to ensure ample time for an interested party to review election results without imposing an undue burden or hardship on the property management company or the association.

Your Committee has amended this measure by clarifying that in the event of a contested election, the documents shall be retained until resolution of the contested election.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 725, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 725, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Chang, Nishihara).

# SCRep. 763 Commerce, Consumer Protection, and Health on S.B. No. 772

The purpose and intent of this measure is to:

- (1) Repeal the requirement that a clear and legible notice, placecard, or marker be attached to a faucet, spigot, or outlet from which draft beer is drawn; and
- (2) Require definitions adopted by the counties related to stacking of beer to refer to a standard serving of total volume and beer standard size servings to be limited to forty-four ounces of total volume before a customer at any one time.

Your Committee received testimony in support of this measure from the Hawaiian Craft Brewers Guild, Maui Brewing Company, Honolulu Beerworks, Lanikai Brewing Company, Beer Lab HI, INU Island Ales, Big Island Brewhaus, REAL gastropub/Bent Tail Brewing Company, and Waikiki Brewing Company. Your Committee received testimony in opposition to this measure from the Hawai'i Alcohol Policy Alliance, Hawaii Partnership to Prevent Underage Drinking, and eight individuals. Your Committee received comments on this measure from the City and County of Honolulu Liquor Commission.

Your Committee finds that existing law prohibits licensees or employees from selling draft beer unless it is dispensed from a spigot with an individual tap handle showing the manufacturer's name or brand that is visible within ten feet of the spigot. This requirement is antiquated and not up to date with digital technology or simpler display methods that allow small craft breweries and tap rooms to provide significantly more information to consumers than what is on a tap handle. Furthermore, tap handles are costly and burdensome, especially for small, independent craft breweries that only sell their own beer or provide seasonal brews or specialty offerings that are only on tap for a few days or weeks of the year. Therefore, this measure allows beer taps to be identified via other means and reduces the burden on owners of businesses serving craft beer.

Your Committee further finds that stacking rules, which limit the number of alcoholic beverages that can be in front of a single consumer at any one time, are not uniform amongst the counties. These rules also prohibit smaller craft breweries from serving smaller samples, typically four to six ounces per glass, of a variety of their offerings to a consumer at a single time. Serving flights of smaller volume helps breweries to grow their businesses as craft beer consumers try new, specialty, and seasonal beer choices. This measure defines and standardizes stacking based on a total volume of forty-four ounces, rather than the number of glasses, that can be served at one time.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 772 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Chang, Keohokalole, Nishihara).

# SCRep. 764 Commerce, Consumer Protection, and Health on S.B. No. 1211

The purpose and intent of this measure is to remove the requirement that a vehicle protection product warrantor and a service contract provider submit to the Insurance Commissioner a copy of each warranty or service contract form proposed for use in the State.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and Motor Vehicle Protection Products Association.

Your Committee finds that, currently, vehicle protection product warrantors and service contract providers must annually submit a copy of each warranty or service contract form proposed for use in the State. However, the Insurance Commissioner does not have the regulatory authority or expertise to approve these forms. This measure removes this submission requirement and prevents any misconception by warrantors, service contract providers, or the public that the Insurance Commissioner has inspected and approved the warrantor forms or service contract forms for use. This measure also reduces the regulatory burden for warrantors and service contract providers and reduces the Insurance Commissioner's administrative expenses and duties to scan and store all the forms.

Your Committee notes that this measure does not remove other contract and disclosure requirements that protect consumers, nor does it eliminate the power of the Insurance Commissioner to investigate or enforce existing laws concerning service contracts and vehicle protection products.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1211 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Chang, Nishihara).

#### SCRep. 765 Commerce, Consumer Protection, and Health on S.B. No. 1243

The purpose and intent of this measure is to update definitions and terminology related to the State newborn hearing screening program and mandate reporting of diagnostic audiologic evaluation results to the Department of Health to improve appropriate follow-up for infants identified as deaf or hard of hearing.

Your Committee received testimony in support of this measure from the Department of Health, Disability and Communication Access Board, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committee received comments on this measure from Kaiser Permanente Hawaii.

Your Committee finds that under existing law, the State newborn hearing screening program is unable to routinely access diagnostic audiologic evaluation results. Identifying and following up with families of infants who are deaf, or hard of hearing are especially important in Hawaii, as data show the incidence of infants who are born deaf or hard of hearing in the State is about twice the incidence in other States. Missing diagnostic audiologic evaluation results also cause great delay for entry into much-needed early intervention services. Enrollment in early intervention services is critical for deaf or hard of hearing children to develop language and social skills and increase school readiness.

Your Committee notes that the provision of all audiological reports to the Department of Health is not the purpose of this measure. Rather, only the diagnostic audiologic reports related to follow-up of newborns who did not pass newborn hearing screening or when an infant's hearing status changes need to be provided to the Department of Health. These reports will enable the Department to follow up with parents in an appropriate and timely manner with the goal of increasing awareness of and access to early intervention options.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1243, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1243, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Fevella).

#### SCRep. 766 Commerce, Consumer Protection, and Health on S.B. No. 1263

The purpose and intent of this measure is to update section 329-38(i), Hawaii Revised Statutes, to be consistent with federal law by allowing the use of either words or figures to indicate quantity on electronic prescriptions.

Your Committee received testimony in support of this measure from the Department of Public Safety, Kaiser Permanente Hawaii, and Greenwich Biosciences. Your Committee received comments on this measure from Akamai Cannabis Clinic.

Your Committee finds that existing state law requires words and figures be used to indicate quantity on all prescriptions for controlled substances, whereas federal law allows words or figures. According to testimony from the Department of Public Safety, many electronic prescription programs conform with federal law and therefore do not have the capability to use both words and figures. As a result, electronic prescriptions may be rejected and must be reissued in written form, by fax, or telephonically. This measure conforms Hawaii electronic prescription requirements with federal regulations, thereby reducing barriers to electronic prescription use in the State.

Your Committee has amended this measure by:

- (1) Amending the Controlled Substances Act to make it consistent with amendments in the federal controlled substances law by including a Schedule V controlled substance used to treat certain childhood-onset epilepsy patients; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1263, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1263, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Chang, Keohokalole, Nishihara).

# SCRep. 767 Commerce, Consumer Protection, and Health on S.B. No. 1328

The purpose and intent of this measure is to require drug manufacturers to notify prescription drug benefit plans and pharmacy benefit managers of any planned increase in the wholesale price of certain drugs that would result in a sixteen percent or more increase over any two-year period.

Your Committee received testimony in support of this measure from the Hawaii Medical Service Association, Kaiser Permanente Hawai'i, and one individual. Your Committee received testimony in opposition to this measure from the Pharmaceutical Research and Manufacturers of America. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that one of the greatest threats to the affordability of health care coverage is the pharmaceutical industry's pricing of new and existing medications. According to testimony received by your Committee, between 2015 and 2018, overall drug spending for Hawaii members of a particular health maintenance organization increased one hundred forty-six percent for that organization's specialty pharmacy. New drugs are being approved and marketed at higher prices than their predecessor treatments, often with no difference in effectiveness or safety. Your Committee notes that hospitals and health plans report pricing information. It is therefore appropriate for pharmaceutical manufacturers to do the same when implementing major price increases. This measure will promote transparency in drug pricing and is an important step toward controlling excessive costs for prescription drugs.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1328 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Chang, Nishihara).

# SCRep. 768 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1077

The purpose and intent of this measure is to create greater accountability of the state correctional system by requiring the Director of Public Safety to report to the Governor and Legislature any death of an inmate or employee of a correctional facility.

Your Committee received testimony in support of this measure from the Community Alliance on Prisons, Ho'omanapono Political Action Committee, and one individual. Your Committee received testimony in opposition to this measure from the City and County of Honolulu Police Department. Your Committee received comments on this measure from the Department of Public Safety, Department of the Attorney General, and Hawaii Disability Rights Center.

Your Committee finds that inmates in state or state-contracted correctional facilities have died while incarcerated with questions surrounding their cause of death. Your Committee heard testimony that in addition to this measure's reporting requirement, the State should consider conducting a special investigation surrounding all deaths. Special investigations would allow for additional data from rape test kits, documented disabilities, and other events leading up to the death to help determine the cause of death, particularly in cases of suicide.

Your Committee has amended this measure, as suggested by the Attorney General, by:

- Stating that the Director of Public Safety has discretion to withhold any information protected by state or federal law pending next-of-kin notification, rather than discretion to only withhold the decedent's name; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1077, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1077, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 769 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary on S.B. No. 1423

The purpose and intent of this measure is to allow defendants for whom a monetary amount of bail has been set to be able to pay the bail amount twenty-four hours per day, seven days per week and be released from custody upon posting or payment of bail at any time.

Your Committees received testimony in support of this measure from the Judiciary, Office of the Public Defender, Office of Hawaiian Affairs, Community Alliance on Prisons, Democratic Socialists of Honolulu, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Drug Policy Forum of Hawaii, and two individuals.

Your Committees find that in Hawaii, defendants can only post bail or bond and be released during normal business hours, which often results in defendants having to wait to make a request in court to be released or go through a bail agent to file a surety bond.

Your Committees also find that defendants who are able to post bail or bond should not be detained simply because of an administrative barrier requiring that bail or bond be payable only during normal business days and hours. In accordance with other jurisdictions that have expanded the timeframe in which bail may be posted and defendants released, your Committees find that

defendants should be allowed to pay the bail amount twenty-four hours per day and seven days per week and be released from custody upon posting or payment of bail if the defendant is not a flight risk or otherwise pose a danger to the community.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1423 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Judiciary: Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

# SCRep. 770 Judiciary on S.B. No. 2

The purpose and intent of this measure is to:

- (1) Prohibit defendants from claiming that discovery, knowledge, or disclosure of a victim's gender, gender identity, gender expression, or sexual orientation resulted in extreme mental or emotional disturbance sufficient to reduce a charge of murder to a charge of manslaughter unless the other circumstances of a defendant's explanation are already sufficient to reasonably find extreme mental or emotional disturbance; and
- (2) Require the court to instruct the jury to disregard bias and prejudice regarding gender, gender identity, gender expression, or sexual orientation when a defendant's explanation of extreme mental or emotional disturbance includes discovery, knowledge, or disclosure of a victim's gender, gender identity, gender expression, or sexual orientation.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, Hawai'i State Commission on the Status of Women, Office of the Prosecuting Attorney of the County of Kaua'i, Honolulu Police Department, LGBT Caucus of the Democratic Party of Hawaii, Americans for Democratic Action, Human Rights Campaign, Rainbow Family 808, and nineteen individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that over the years, members of the LGBTQIA community have suffered significant discrimination, prejudice, and other related hardships. Your Committee additionally finds that no one should be targeted as a victim based on bias against their actual or perceived gender, gender identity, gender expression, or sexual orientation. This measure will prevent a defendant from claiming that the discovery of a victim's gender, gender identity, gender expression, or sexual orientation caused extreme mental or emotional disturbance sufficient to reduce a charge of murder to a charge of manslaughter.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 771 Judiciary on S.B. No. 413

The purpose and intent of this measure is to specify that, for purposes of making a complaint for criminal trespass in the second degree on commercial premises, evidence of a prior "reasonable warning or request" to leave the premises may be evidenced by a copy of the previously issued written warning or request, whether or not the copy is posted at the premises or retained by the county police department.

Your Committee received testimony in support of this measure from the Retail Merchants of Hawaii and one individual. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that the execution of criminal trespass laws for persons who have entered or remained unlawfully on another's commercial property has become unnecessarily complex. Your Committee further finds that police officers enforcing the law against a person who has previously been issued a reasonable warning or request to leave and who subsequently violates that warning or request have sometimes required the owner or lessee of the commercial premises to be present and in possession of the original copy of the prior written warning or request to leave, before allowing a complaint to be made. This measure will clarify that a copy of a reasonable warning or request is sufficient for the purposes of making a complaint for criminal trespass in the second degree on commercial premises. Additionally, your Committee notes that the original reasonable warning or request must have been legitimate for a copy of that request to suffice for the purposes of making a complaint.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 413 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

# SCRep. 772 Judiciary on S.B. No. 558

The purpose and intent of this measure is to allow parties to a marriage or civil union to choose any middle or last name to use upon the marriage or civil union.

Your Committee received testimony in support of this measure from the LGBT Caucus of the Democratic Party of Hawaii, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, and three individuals.

Your Committee finds that existing law allows spouses in a marriage or partners in a civil union to declare the middle and last names each will use upon marriage or civil union, as long as the middle or last name chosen by each was legally used at any time, past

or present, by either spouse or partner. This measure will provide more flexibility for married persons or civil union partners by allowing them to choose any middle or last name, regardless if it was legally used by either party, upon marriage or civil union.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 558 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

#### SCRep. 773 Judiciary on S.B. No. 1342

The purpose and intent of this measure is to establish restrictions on donative transfers to protect transferors from coercive, exploitative, or otherwise improper transfers benefitting persons involved with drafting the transfer instrument or persons who have significant influence over the transferor.

Your Committee did not receive any testimony on this measure.

Your Committee finds that a donative transfer is the means by which an individual may transfer a gift of property to another and includes wills, trusts, and other legal documents. Your Committee further finds that donative transfers to others with whom the drafter of the transferring instrument is in a special relationship, due to blood, marriage, business, or a legal relationship, run the risk of the donative transfer being subject to undue influence. This measure enacts safeguards to ensure that a donative transfer represents the intention of the transferor and is not compromised by an act of the transferee.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1342 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

# SCRep. 774 Labor, Culture and the Arts on S.B. No. 292

The purpose and intent of this measure is to require that a contractor contracting for services with a civil servant submit certified payrolls and comply with certain wages and hours laws.

Your Committee received testimony in support of this measure from the Hawai'i Construction Alliance, Hawaii Regional Council of Carpenters, Pacific Resource Partnership, Hawaii Laborers-Employers Cooperation and Education Trust, and LiUNA Local 368. Your Committee received testimony in opposition to this measure from the City and County of Honolulu Department of Design and Construction.

Your Committee finds that service employees of contractors under state or county contracts require greater wage protection than is currently afforded. Unlike chapter 104, Hawaii Revised Statutes, which covers public works construction, section 103-55, Hawaii Revised Statutes, does not provide sufficient provisions to ensure compliance. Without greater wage protection, contractors bidding on government service contracts can reduce their bid price by not appropriately compensating workers. This measure requires that contractors of service employees under state or county contracts submit certified payrolls and comply with certain wage laws, which will ensure that workers on government service contracts are accurately and appropriately compensated.

Your Committee notes that professional service contracts are excluded from the certified payroll requirements and that the intent is that this requirement is limited to construction contracts.

Your Committee has amended this measure by:

- (1) Specifying that the requirement for certified payrolls applies to service contracts in excess of \$500,000; and
- (2) Inserting an effective date of January 1, 2051, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 292, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 292, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

# SCRep. 775 Judiciary on S.B. No. 138

The purpose and intent of this measure is to add a campaign spending report filing deadline of October 1st during a general election year for candidates and candidate committees.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and League of Women Voters of Hawaii.

Your Committee finds that current, accurate information about candidate spending is important to ensuring a well-informed electorate. Your Committee further finds that currently, after the final primary report that is due twenty days after the primary election, a voter will not be able to access more current information about a candidate's spending until the filing of the preliminary general report due ten days before the general election. Your Committee additionally finds that, because absentee ballots are mailed to voters approximately twenty-one days before a general election, voters who choose to vote by mail may not have access to current campaign finance information at the time that they cast their vote. This bill will add a campaign spending report filing deadline at the beginning of October to ensure that voters receive current candidate spending information before they receive their absentee ballots.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 138 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 776 Judiciary on S.B. No. 107

The purpose and intent of this measure is to:

- (1) Provide that the ballot of an absentee or military-overseas voter is valid even if the voter becomes ineligible to vote after casting the ballot; and
- (2) Repeal the requirement that an absentee voter's ballot be deemed invalid if the voter returns the return envelope but dies prior to the opening of the polls.

Your Committee did not receive any testimony on this measure.

Your Committee finds that many voters who cannot physically go to a polling place rely on absentee ballots in order to vote. Your Committee further finds that this includes service members of the United States military who are residents of Hawaii but are serving overseas. Your Committee additionally finds that circumstances can arise in which a person who is eligible to vote casts their vote using an absentee ballot but becomes ineligible to vote after casting their ballot. This measure ensures that such votes will be properly counted.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 107, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 107, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 777 Judiciary on S.B. No. 1173

The purpose and intent of this measure is to bring the State of Hawaii into compliance with federal law to maintain eligibility for federal funding of child support enforcement programs.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that pursuant to title 42 United States Code section 666(b)(6)(D), each state must have in effect laws requiring the imposition of a fine against any employer who:

- (1) Discharges from employment, refuses to employ, or takes disciplinary action against any noncustodial parent subject to income withholding; or
- (2) Fails to withhold support from income or pay the amounts to a child support agency.

Your Committee further finds that under title 42 United States Code section 654(6)(B)(ii), each state must increase the annual collection fee from \$25 to \$35 assessed on all state child support enforcement cases that are subject to title IV section D of the Social Security Act and have not received assistance under the state Temporary Assistance for Needy Families program. Federal law also revised the amount that a state must collect and disburse to the family from \$500 to \$550 before imposing the collection fee each federal fiscal year.

Your Committee finds that compliance with these requirements is necessary to maintain eligibility for federal funding of child support enforcement programs. In addition, your Committee finds that amending the income withholding requirements increases the effectiveness of the income withholding process and protects the obligor parent from employment discrimination if the obligor parent has an income withholding order issued against them.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1173, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1173, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

#### SCRep. 778 Judiciary on S.B. No. 325

The purpose and intent of this measure is to clarify that evidence demonstrating an alleged parent's non-consent to an artificial insemination procedure that resulted in the birth of a child may be introduced as evidence relating to paternity.

Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the Hawaii Supreme Court's recent majority opinion in LC v. MG and Child Support Enforcement Agency, 143 Hawaii'i 302 (2018), held in part that the Hawaii Uniform Parentage Act precludes a spouse from rebutting the marital presumption of parentage with evidence that demonstrates a clear and convincing lack of consent to the other spouse's artificial insemination procedure. Your Committee further finds that this holding was based on speculation regarding the Legislature's intent when it adopted the Uniform Parentage Act in 1973. This measure will clarify the issue of evidence of consent to artificial insemination within the Hawaii Uniform Parentage Act.

Your Committee has amended this measure by clarifying that evidence relating to consent to an artificial insemination procedure that resulted in the birth of a child may be introduced as evidence relating to paternity.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 325, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 325, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

#### SCRep. 779 Judiciary on S.B. No. 189

The purpose and intent of this measure is to authorize the Chief Justice of the Supreme Court of Hawaii to designate circuit court judges, retired intermediate appellate judges, or retired Supreme Court justices to temporarily fill a vacancy on the Intermediate Court of Appeals.

Your Committee received testimony in support of this measure from the Judiciary.

Your Committee finds that the Intermediate Court of Appeals originally consisted of a chief judge and two associate judges. Your Committee further finds that the number of judges on the Intermediate Court of Appeals has since been increased to six as a result of significant increases in the court's caseload. Your Committee additionally finds that exiting law requires the Intermediate Court of Appeals to decide cases in panels of no fewer than three judges, and only allows the Chief Justice of the Supreme Court of Hawaii to designate temporary appellate judges if vacancies, disqualifications, or a combination of the two reduces the court to two or fewer available judges. This measure will give the Intermediate Court of Appeals the ability to continue meeting the court's substantial and complex caseload by authorizing the Chief Justice to designate judges to fill any temporary vacancy on the court.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 189, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 189, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

# SCRep. 780 Judiciary on S.B. No. 723

The purpose and intent of this measure is to:

- (1) Allow parties to a case brought under the Uniform Parentage Act to petition the court to consolidate multiple cases, motions, or petitions involving siblings with the same parents into a single petition, without having to file a new case, motion, or petition; and
- (2) Require the Judiciary to post the titles of all filings and all minutes in paternity cases to the Judiciary's website after redacting any information in which an individual has a significant privacy interest.

Your Committee received testimony in support of this measure from the Hawai'i State Commission on the Status of Women, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committee received comments on this measure from the Judiciary and Department of the Attorney General.

Your Committee finds that rapid and just proceedings are vital to the busy and often time-sensitive caseload of the family court in matters of paternity. Your Committee further finds that combining cases where appropriate can lead to efficient adjudication of matters before the court. However, your Committee additionally finds that the court already has the power to combine cases at the court's discretion.

Accordingly, your Committee has amended this measure by:

- (1) Removing the requirement that the court consolidate cases, motions, or petitions involving siblings with the same parents upon petition from parties;
- (2) Establishing the same confidentiality standards with regards to records and hearings for paternity cases as other cases heard by the family court;
- (3) Changing the effective date to March 15, 2094, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 723, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 723, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

#### SCRep. 781 Judiciary on S.B. No. 566

The purpose and intent of this measure is to establish the offense of unauthorized attachment of an object to a fence, gate, or wall, which is committed when a person knowingly attaches an object to a fence, gate, wall, or other structure or barrier without the owner's permission.

Your Committee received testimony in opposition to this measure from the Office of the Public Defender and Honolulu Police Department.

Your Committee finds that objects, such as tents and other structures, that obstruct public sidewalks are increasingly being anchored or attached to adjacent property, such as fences belonging to private owners. Your Committee further finds that existing law does not appear to empower law enforcement officers to summarily detach these objects from private property. This measure will discourage the attachment of objects to fences and other structures without permission and facilitate the removal of objects attached in this manner.

Your Committee has amended this measure by making stylistic, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 566, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 566, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

# SCRep. 782 Judiciary on S.B. No. 1037

The purpose and intent of this measure is to:

- (1) Amend the offense of strangulation of a family or household member to include blocking the nose or mouth of the person or applying excessive pressure to the chest; and
- (2) Clarify that infliction of visible injury is not required to establish the offense.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, Office of the Prosecuting Attorney of the County of Kaua'i, Department of the Prosecuting Attorney of the City and County of Honolulu, Honolulu Police Department, AAUW of Hawaii, Domestic Violence Action Center, Parents and Children Together, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Zonta Club of Hilo, Hawaii State Coalition Against Domestic Violence, and two individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that strangulation is highly dangerous and potentially deadly form of abuse that frequently precedes other acts of violence. Your Committee further finds that successfully prosecuting perpetrators of strangulation can be difficult because only fifty percent of strangulation victims have visible injuries. This measure will enable more effective prosecution of strangulation cases.

Your Committee has amended this measure by:

- (1) Requiring, for the offense of strangulation, the causing of bodily injury;
- (2) Clarifying the definition of "bodily injury"; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1037, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1037, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

# SCRep. 783 Judiciary on S.B. No. 1047

The purpose and intent of this measure is to establish a five-year pilot project to strengthen state and county responses to domestic violence and increase offender accountability by:

- Amending the offense of abuse of family or household members to provide for a lesser included petty misdemeanor offense and penalties;
- (2) Reducing congestion in the court system caused by a backlog of jury trial cases by repealing a provision that would otherwise disqualify persons charged with the misdemeanor offense of abuse of a family or household member in the second degree from receiving a deferred acceptance of guilty plea under certain conditions, and specifying that the deferred acceptance shall be set aside if the defendant fails to complete a court-ordered domestic violence intervention program or parenting classes within the time frame specified by the court; and
- (3) Requiring data collection and reporting to determine the effectiveness of the pilot project by county police departments, prosecutors, and the judiciary on the number of arrests, charges, and convictions relating to domestic violence.

Your Committee received testimony in support of this measure from the Judiciary, Office of the Public Defender, Hawai'i State Commission on the Status of Women, Department of the Prosecuting Attorney of the City and County of Honolulu, Office of the Prosecuting Attorney of the County of Kaua'i, Honolulu Police Department, LGBT Caucus of the Democratic Party of Hawaii, AAUW of Hawaii, Domestic Violence Action Center, Parents and Children Together, Hawaii State Coalition Against Domestic Violence, and three individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that instances of domestic violence fall on a broad spectrum of severity. Your Committee further finds that existing domestic violence laws are often not inclusive enough to encompass the entirety of the spectrum. Your Committee additionally finds that there are occasionally instances in which the level of force utilized by the perpetrator is not sufficient to meet the criteria of abuse of family or household member. Your Committee also finds that some first offenders are willing and able to participate in domestic violence education classes; learn how to better manage stress, anger, and other negative emotions that may result in violence; and do not subsequently re-offend. This measure will create a pilot program to expand the offense of abuse of family or household member to include petty misdemeanor offenses, allow some misdemeanor domestic violence offenders to receive a deferred acceptance of guilty plea under certain circumstances, and require agencies involved in law enforcement to collect and report data relating to domestic violence.

Your Committee has amended this measure by:

- (1) Restructuring the abuse of family or household member statute to clearly differentiate between petty misdemeanor offenses and misdemeanor offenses:
- (2) Deleting language requiring the court to set aside a deferred acceptance of guilty plea or nolo contendere plea if a defendant fails to complete a domestic violence intervention program or parenting class, or otherwise violates the conditions of their plea; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1047, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1047, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

# SCRep. 784 Commerce, Consumer Protection, and Health on S.B. No. 823

The purpose and intent of this measure is to:

- (1) Require insurers to provide a choice to the insured consumer authorizing a repair provider to utilize a like kind and quality crash part or the original equipment manufacturer crash part; and
- (2) Specify the circumstances when an insured consumer who chooses the use of an original equipment manufacturer crash part must pay the additional cost of the original equipment manufacturer crash part that is in excess of the equivalent like kind and quality crash part.

Your Committee received testimony in support of this measure from the Automotive Body and Painting Association of Hawaii, Auto Body Hawaii, and sixteen individuals. Your Committee received testimony in opposition to this measure from the Hawaii Insurers Council; National Association of Mutual Insurance Companies; GEICO; LKQ Corporation; American Property Casualty Insurance Association; Prism Group, LLC; Sigs Collision Centers; Oahu Aluminum Repair; and Mascot Auto Parts. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and State Farm Mutual Automobile Insurance Company.

Your Committee finds that Hawaii is the only state that requires claimants to pay the increased cost between a cheaper, aftermarket crash part, and the original equipment manufacturer crash parts in body repair. In the event a driver causes an accident, the insurance company insuring the driver can choose to use generic or aftermarket crash parts, and require the injured party to pay the difference in the event the injured party wants the replacement parts to be original equipment manufacturer crash parts. Because advanced driver assistance systems in vehicles are very complex and many of them are integrated with each other, proper operation may be compromised by the use of non-original equipment manufacturer parts. This measure aids in preventing additional costs to the consumer and the insurer and takes into consideration the preferences of the insured consumer.

Your Committee notes that the intent of this measure is not to discourage the use of aftermarket parts, but rather to ensure that consumers receive appropriate disclosures concerning the comparisons between and the prices of aftermarket crash parts and original equipment manufacturer crash parts.

Your Committee has heard the concerns raised in testimony that the measure lacks sufficient definitions, which may cause ambiguity and confusion, in addition to a number of comments regarding language in the purpose section.

Accordingly, your Committee has amended this measure by:

- Specifying that insurers must clearly give consumers notice, at the time the insurer offers new or renewal motor vehicle policy coverage, of the choice of whether to use a like kind and quality crash part or an original equipment manufacturer crash part for motor vehicle body repair work;
- (2) Replacing references to the term "crash avoidance" with the industry standard term "Advanced Driver Assist Systems";

- (3) Removing language that required insured consumers to pay the additional cost of the original equipment manufacturer crash part that is in excess of the equivalent like kind and quality crash part, unless original equipment manufacturer crash parts are required by the vehicle manufacturer's warranty, as federal law prohibits warranties to contain such a requirement;
- (4) Clarifying that like kind and quality parts that are both certified and approved by governmental or industry organizations shall be utilized, rather than utilized if available;
- (5) Clarifying that this measure applies to crash parts for vehicles that are not more than ten years old, rather than five years old, as of the date of the collision;
- (6) Inserting a definition of "crash part";
- (7) Clarifying the definition of "like kind and quality" to mean an aftermarket part that is not manufactured by the original vehicle manufacturer;
- (8) Updating the purpose section;
- (9) Extending its sunset date to July 1, 2029;
- (10) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 823, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 823, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ruderman).

#### SCRep. 785 Commerce, Consumer Protection, and Health on S.B. No. 1212

The purpose and intent of this measure is to:

- (1) Require third party administrators to be licensed and regulated by the Insurance Commissioner; and
- (2) Authorize the Insurance Commissioner to issue targeted variances, waivers, or no-action letters under provisions of the State's insurance code.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; MDX Hawaii, Inc.; and Hawaii-Western Management Group. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice. Your Committee received comments on this measure from State Farm Mutual Automobile Insurance Company, Kaiser Permanente, and Hawaii Medical Service Association.

Your Committee finds that third-party administrators collect charges or premiums from residents in the State in connection with insurance policies, or adjust or settle claims on those policies. Hawaii is one of eight states and jurisdictions that do not regulate third-party administrators. Currently, nineteen states require third-party administrator licenses, sixteen states require certificates of registration, eight states require certificates of authority, and two states require either licenses or registrations. This measure is based on the National Association of Insurance Commissioner's Registration and Regulation of Third-Party Administrators Guideline, which offers flexible, bright line rules to help states tailor and adopt measures particular to their own needs.

This measure regulates third-party administrators, ensures adequate consumer protection, and promotes transparency of third-party administrators by requiring licensure, encouraging disclosure of contracts between insurers and third-party administrators, and promoting the financial responsibilities of third-party administrators.

Your Committee has heard the concerns raised in testimony that the ability of the Insurance Commissioner to issue targeted variances, waivers, or no-action letters, as proposed by this measure, is overly broad. According to testimony received by your Committee, this measure appears to authorize the Insurance Commissioner to broadly exempt any person or entity from almost every law in the State's Insurance Code, for any amount of time and in any scope. There are also no guidelines for consistent application of variances, transparency, or opportunity for public comment. Your Committee understands these concerns and concludes that amendments to this measure are necessary.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have allowed the Insurance Commissioner to issue variances, waivers, or no-action letters; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1212, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1212, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Chang, Nishihara).

# SCRep. 786 Judiciary on S.B. No. 1039

The purpose and intent of this measure is to permit persons convicted of certain prostitution offenses to file a motion to vacate the conviction if the defendant is not convicted of another offense under the penal code within three years of the original prostitution conviction.

Your Committee received testimony in support of this measure from the Office of the Prosecuting Attorney of the County of Kaua'i, Hawai'i State Commission on the Status of Women, LGBT Caucus of the Democratic Party of Hawaii, American Association of University Women of Hawaii, Harm Reduction Hawaii, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu and IMUAlliance. Your Committee received comments on this measure from The Sex Abuse Treatment Center.

Your Committee finds that sex trafficking victims are often misidentified and criminalized by law enforcement. The existing law in Hawaii allows for sex trafficking victims to vacate prostitution convictions with proven victimization at any time within six years. However, trafficking victims face significant challenges to disclose and prove their victimization. This measure allows trafficking victims to vacate certain prostitution convictions, without proof of victimization, if the defendant is not convicted of any other prostitution offenses within three years following the original prostitution conviction. By clearing a trafficking victim's criminal record, this measure would help victims reintegrate into society, find non-exploitative employment, bring about substantial cultural reform, and send a strong message that a person's participation in prostitution is often complex and should not bar access to resources, safety, and compassion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1039 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

# SCRep. 787 Judiciary on S.B. No. 419

The purpose and intent of this measure is to:

- (1) Raise the minimum age requirement to enter into marriage from sixteen to eighteen years of age;
- (2) Remove the parental consent and written approval by the Family Court requirements for a minor to marry;
- (3) Require, rather than permit, the Family Court to declare void the marriage contract on the ground that the parties, or either of them, had not attained the legal age of marriage at the time of the marriage;
- (4) Remove spousal cohabitation after the parties attain legal age as an exception for an annulment based on nonage; and
- (5) Make conforming amendments to reflect the change in the legal age for marriage and repeal certain parental and judicial consent requirements for marriage.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that numerous states are reviewing existing laws to consider amending the minimum age for marriage in order to protect young adults under the age of eighteen. Proponents for raising the legal age for marriage are concerned that allowing young adults, who are minors under the law, to marry may contribute to sex trafficking or marriages obtained by force or duress. One study showed that while most minors were sixteen or seventeen years of age at the time of marriage, some were as young as twelve years of age. The vast majority of these marriages were between a minor female and an adult male. Your Committee further finds that, in Hawaii, existing state law allows minors as young as sixteen years of age to marry. State law further authorizes the family court to approve a marriage of a minor of fifteen years of age. This measure amends and repeals existing law allowing minors to marry, ensuring the end of child marriage in Hawaii.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 419, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 419, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

# SCRep. 788 Commerce, Consumer Protection, and Health on S.B. No. 767

The purpose and intent of this measure is to raise the threshold under the contractor licensing law's handyman exemption from \$1,000 to \$1,500 and make it applicable only to the cost of labor.

Your Committee received testimony in support of this measure from the Hawai'i Association of REALTORS; National Association of Residential Property Managers, Oahu Chapter; National Association of Residential Property Managers, Maui Chapter; REALTORS Association of Maui, Inc.; Young Hawaii Homes, Inc.; Woodstock Properties, Inc.; Gustafson Real Estate, LLC; Lani Properties Corporation; and twenty-five individuals. Your Committee received testimony in opposition to this measure from the Painting and Decorating Contractors Association of Hawaii; Hawaii Regional Council of Carpenters; Painting Industry of Hawaii Labor Management Cooperation Trust Fund; Hawaii Tapers Market Recovery Trust Fund; Hawaii Glaziers, Architectural Metal Glassworkers Local Union 1889 AFL-CIO Stabilization Trust Fund; Carpet, Linoleum and Soft Tile Local Union 1926 Market Recovery Trust Fund; International Union of Painters and Allied Trades – District Council 50; Hawaii Building and Construction Trades Council, AFL-CIO; Electrical Contractors Association of Hawaii; Subcontractors Association of Hawaii; Abbey Carpet of Maui; Plumbing and Mechanical Contractors Association of Hawaii; Pacific Resource Partnership; Sheet Metal and Air Conditioning Contractors' Association, Hawaii Chapter; Hawaii Wall and Ceiling Industry Association; Guy's Superior Interiors, Inc.; two individuals; and a form letter signed by over one hundred fifty individuals.

Your Committee finds that handymen provide a valuable service by doing maintenance, minor jobs, and projects that are too small for a licensed contractor to take on because of their higher overhead costs. Waiting for a contractor to be available can often take months, delaying the completion of necessary jobs. Handymen are especially utilized in rural areas and neighbor islands where there is a smaller pool of contractors available. Your Committee notes that the costs of living, housing, materials, and inflation have increased since the handyman exemption was last raised in 1992; however, penalties and sanctions have increased five-fold without any increase to the exemption amount. A modest increase of the handyman exemption helps keep pace with current increases in these costs.

Your Committee has heard the testimony expressing concern that increasing the handyman exemption to \$1,500, applicable solely to labor costs, will result in far more unlicensed work, posing a risk to public health and general safety. Unlicensed contractors or handymen are not required to maintain liability or workers' compensation insurance, which potentially exposes homeowners to damages with no recourse. According to testimony received by your Committee, many contractors in the finishing trades and their union employees would be adversely affected because it would make them less competitive against an unlicensed handyman who does not have to bear the substantially greater costs of being a licensed contractor.

Accordingly, your Committee has amended this measure by:

- Clarifying that the threshold under the contractor licensing law's handyman exemption is \$1,500 per project or operation, which includes the aggregate cost of labor, materials, taxes, and other expenses, and applies only to residential repairs or minor renovation projects;
- (2) Restoring existing statutory language that specifies that the exemption does not apply in any case where a building permit is required regardless of the aggregate contract price;
- (3) Requiring persons performing projects or operations under the handyman exemption to provide their name and contact information to the Department of Commerce and Consumer Affairs;
- (4) Requiring the Department of Commerce and Consumer Affairs to adopt rules and make annual reports to the Legislature detailing any complaints received regarding projects or operations performed under the handyman exemption;
- (5) Updating the purpose section;
- (6) Inserting a sunset date of June 30, 2024;
- (7) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 767, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 767, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Chang, Ruderman).

# SCRep. 789 Commerce, Consumer Protection, and Health on S.B. No. 808

The purpose and intent of this measure is to:

- Authorize pharmacies to accept the return of any prescription drug for disposal via collection receptacles or mail-back programs;
- (2) Prohibit pharmacies from re-dispensing returned prescription drugs or from accepting returned prescription drugs in exchange for cash or credit; and
- (3) Require the pharmacist-in-charge to ensure that only authorized reverse distributors acquire prescription drugs collected via collection receptacles or mail-back programs.

Your Committee received testimony in support of this measure from the Department of Health; Department of Public Safety; Board of Pharmacy; University of Hawai'i at Hilo, Daniel K. Inouye College of Pharmacy; Hawaii State Opioid Law Enforcement Organization/First Responder Working Group; Hawaii Substance Abuse Coalition; CVS Health; Hawaii Medical Service Association; Walgreen Co.; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and seven individuals.

Your Committee finds that unused medications in households and at various patient care facilities expose residents to potential harm due to mistaken ingestion and increase the potential for theft and assault. Annually, more than seventy-one thousand children under the age of nineteen are admitted to emergency rooms for unintentional overdoses of prescription and over-the-counter drugs. Your Committee further finds that keeping unused opioids or other common drugs of misuse in homes is no longer safe or responsible. Disposal of unwanted, expired, or unnecessary prescription drugs reduces the risk of overdose, prevents unused or unwanted drugs or controlled substances from being diverted to an unintentional user, and avoids contaminating landfills and oceans. This measure helps address the nationwide opioid epidemic, promotes patient safety, and helps to reduce the number of incidences of children and pets accessing these medications.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 808, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 808, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Chang, Keohokalole, Nishihara).

#### SCRep. 790 Commerce, Consumer Protection, and Health on S.B. No. 1323

The purpose and intent of this measure is to require the Department of Commerce and Consumer Affairs to:

- (1) Adopt state appliance efficiency standards; and
- (2) Prohibit the sale, lease, rent, or installation of appliances that do not meet efficiency standards by a certain date.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Public Utilities Commission; California Energy Commission; National Resources Defense Council; American Council for an Energy-Efficient Economy; Environment America; Blue Planet Foundation; Consumer Federation of America; Young Democrats of Hawaii; Elemental Excelerator; Healthy Climate Communities; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; and over twenty individuals. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii and Association of Home Appliance Manufacturers. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Plumbing Manufacturers International, and Consumer Technology Association.

Your Committee finds that Hawaii residents pay double or triple what residents of other states pay for their energy, and the potential savings from appliance efficiency standards are substantial. State-level standards for minimum energy and water efficiency have been projected to result in water and energy bill savings of \$38 million annually by 2025 and increasing to over \$75 million by 2035, adding dollars to consumers' pockets and benefiting the economy.

Additionally, by 2025 in Hawaii alone, recommended appliance efficiency standards would annually prevent fifty-six thousand metric tons of carbon dioxide from entering the atmosphere, the equivalent of taking over twelve thousand cars off the road. Furthermore, a recent study found that one-third of Hawaii's clean energy goals could be reached through adoption of new appliance standards and implementation of updated building codes. Your Committee further finds that appliances meeting the efficiency standards are readily available from multiple manufacturers. Other states with larger markets, like California, have already accomplished significant work in setting the appropriate standards and shifting manufacturers' behaviors and compliance. This measure promotes the acceleration of Hawaii's clean energy goals, benefits consumers by reducing energy costs, and helps to reduce greenhouse gas emissions.

Your Committee has heard the testimony from the Department of Commerce and Consumer Affairs, noting that adopting the appliance energy standards already promulgated in California would be more efficient for Hawaii and will allow Hawaii to benefit from the market power that California exerts on manufacturers and the appliances they produce, due to California's size and consumer demands. Your Committee notes that the Public Utilities Commission is already developing proposed language to promulgate appliance efficiency standards in Hawaii to be enforced by the Public Benefits Fee Administrator.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language that requires the Public Utilities Commission and the Department of Business, Economic Development, and Tourism to adopt rules for minimum appliance efficiency standards for products sold or installed in the State consistent with the existing appliance efficiency standards established in California;
- (2) Removing language that would have required the Department of Commerce and Consumer Affairs and the Director of Commerce and Consumer Affairs to adopt rules for minimum appliance efficiency standards for certain products sold or installed in the State and making associated conforming amendments;
- (3) Clarifying the scope of the rules to be adopted by the Public Utilities Commission and the Department of Business, Economic Development, and Tourism:
- (4) Removing language that would have established specific appliance energy standards for certain products, provided protection against repeal of federal regulations, and established testing requirements for products to determine compliance;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1323, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1323, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Chang, Ruderman).

# SCRep. 791 (Joint) Commerce, Consumer Protection, and Health and Energy, Economic Development, and Tourism on S.B. No. 1442

The purpose and intent of this measure is to require the Public Utilities Commission to consider the value of improving energy data access and transparency in order to make informed decisions.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Elemental Excelerator, Ulupono Initiative, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, and one individual. Your Committees received comments on this measure from the Public Utilities Commission.

Your Committees find that there is public interest in increasing transparency and improving access to all relevant energy-related data, whether services are provided by a regulated utility or a third-party services provider. Successfully reducing energy consumption requires individuals and businesses to understand their usage behaviors. By providing ratepayers with information concerning their energy consumption, they can make more informed decisions and manage their costs. This information also provides the State the

opportunity to implement an open data environment that will help people make informed decisions regarding achieving the State's clean energy goals. This measure will improve energy data access and transparency in order to empower ratepayers, improve decision-making related to reliability and operational efficiency of the electric system, maximize the value of grid modernization technologies and investments, and promote innovation and economic development opportunities.

Your Committees have amended this measure by:

- (1) Clarifying that the Public Utilities Commission shall:
  - (A) Specifically consider the value of access to and transparency of electric power systems data, rather than energy data;
  - (B) Increase, rather than maximize, the amount of publicly-available data related to utility generation, transmission, and distribution systems; and
  - (C) Ensure that electric power systems data is made available through simple, electronic, consistent, machine-readable formats with temporal and geographic granularity; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1442, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1442, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Nishihara, Ruderman).

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Inouye).

#### SCRep. 792 Commerce, Consumer Protection, and Health on S.B. No. 774

The purpose and intent of this measure is to prohibit a licensing authority from using rules to supersede requirements set forth in licensing laws and adopting rules that authorize an unlicensed individual to perform duties, activities, or functions that, if performed by another professional, would require licensure of that professional.

Your Committee received testimony in support of this measure from the Hawaii Dental Hygienists' Association, three individuals, and a petition signed by over two hundred ten individuals. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs and Contractors License Board.

Your Committee finds that professional or vocational licensees may employ auxiliary personnel to assist these licensed individuals in the practice of their profession or vocation. While considered to be a valuable part of the team, these auxiliary personnel may not be licensed or certified in the State or required to meet the same stringent standards of training and care as licensed individuals. In order to protect the safety of the public, it is important for those in various professional and vocational fields to adhere to legislatively determined parameters regarding the scope of practice of their own particular profession or vocation. This measure therefore clarifies that the clearly delineated duties of a licensed professional are not within the duties, activities, or functions of an unlicensed, unregulated individual.

Your Committee has considered the testimony offered by the Department of Commerce and Consumer Affairs and the Contractors License Board expressing concern that this measure would prohibit many individuals from gaining the requisite on-the-job training or qualifying experience needed to obtain a license. Although this measure exempts apprentices or trainees who are working toward licensure in an apprenticeship program or clinical program, according to the Contractors License Board, many individuals working toward licensure are not in an apprenticeship program.

Accordingly, your Committee has amended this measure by exempting persons who are working toward licensure, including but not limited to apprentices, trainees, graduates, or students, and personnel who are under the supervision of a licensee and who are not required to obtain a license pursuant to applicable licensing statutes; provided that they are not auxiliary personnel regulated under existing law, rather than only exempting those in an apprenticeship or clinical program.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 774, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 774, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Chang, Ruderman, Fevella).

# SCRep. 793 Commerce, Consumer Protection, and Health on S.B. No. 809

The purpose and intent of this measure is to clarify that the scope of service contracts regulated by the Insurance Commissioner includes contracts for certain motor vehicle repair and replacement services.

Your Committee received testimony in support of this measure from the Motor Vehicle Protection Products Association.

Your Committee finds that service contracts offer consumers benefits not covered under traditional automobile insurance policies or that usually cost less than common automobile insurance policy deductibles. This measure clarifies the scope of products that may be offered as service contracts, which will promote uniformity and minimize confusion or dispute over the regulatory status of these products.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 809 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Chang, Ruderman).

#### SCRep. 794 Commerce, Consumer Protection, and Health on S.B. No. 827

The purpose and intent of this measure is to prohibit merchants from adopting a warranty policy that requires a purchaser to pay an additional fee to obtain a repair, replacement, or refund for goods returned pursuant to the warranty.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committee received testimony in opposition to this measure from Retail Merchants of Hawaii. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that some merchants charge customers a processing fee, even when a warranted product is being returned because of a manufacturer's defect. Your Committee further finds that setting fees as a precondition for using a warranty is improper, as this shifts the cost to process a refund onto a customer and prevents customers from utilizing their warranties. Your Committee notes that these fees should not be passed onto the consumer but should be borne by the merchant.

Your Committee has amended this measure by:

- Adopting the amendment suggested by the Department of the Attorney General to add a definition of "merchant in the State" for clarity and to preclude Commerce Clause challenges; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 827, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 827, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Chang, Ruderman).

#### SCRep. 795 Commerce, Consumer Protection, and Health on S.B. No. 694

The purpose and intent of this measure is to require that food scales be located within one hundred feet of self-service food items sold by weight.

Your Committee received testimony in support of this measure from the Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi. Your Committee received testimony in opposition to this measure from the Hawaii Food Industry Association and Retail Merchants of Hawaii. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that this measure would require food scales to be located within one hundred feet of self-service food items sold by weight. However, your Committee has heard the testimony expressing concerns that, as retail space is limited and valuable, requiring scales to be placed within one hundred feet of self-service food items may not be practical or necessary. Your Committee has also heard the concerns raised in testimony about the negative economic impact this measure may have on small businesses and farmers' markets, as scales are not cheap to purchase or consistently calibrate. Your Committee appreciates these concerns and believes further consideration regarding potential consequences of this measure on small businesses and farmers' markets is warranted as this measure moves through the legislative process.

Accordingly, your Committee has amended this measure by:

- (1) Removing language that would have required a self-service food seller to locate a scale no further than one hundred feet from the self-service food being offered for sale;
- (2) Requiring a seller to provide a scale for a customer to use before sale that is approved for use, accurate, and properly licensed by the Department of Agriculture as a commercial measuring device and that indicates the price of the item being weighed;
- (3) Inserting language that exempts farmers' markets;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 694, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 694, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Chang, Ruderman).

# SCRep. 796 Commerce, Consumer Protection, and Health on S.B. No. 540

The purpose and intent of this measure is to allow the Board of Pharmacy to approve pilot and demonstration projects for innovative applications in the practice of pharmacy under certain circumstances.

Your Committee received testimony in support of this measure from the Board of Pharmacy, University of Hawai'i at Hilo, Daniel K. Inouye College of Pharmacy, Kaiser Permanente Hawaii, Walgreen Co., and eight individuals.

Your Committee finds that it is important to continuously improve the effectiveness of health care delivery systems, including pharmacies. Enabling the Board of Pharmacy to conduct pilot and demonstration research projects can accelerate innovation and create opportunities for pharmacists to enhance patient care and safety, reduce barriers, and increase access to pharmaceutical services.

Your Committee has considered the testimony concerning the language in this measure that would require drug take-back programs to be approved by the Board of Pharmacy. Currently across the country, board approval for drug take-back programs is not required because these programs are already strictly regulated by the federal Drug Enforcement Administration.

Accordingly, your Committee has amended this measure by:

- Removing language that would have authorized the Board of Pharmacy to approve a project that implements a drug take-back program; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 540, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 540, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Fevella).

# SCRep. 797 Judiciary on S.B. No. 92

The purpose and intent of this measure is to allow surviving immediate family members of murder or manslaughter victims to access a copy of the closing report prepared by the investigating police department, upon the conclusion of all criminal and civil proceedings that arose from the offense.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that accessing the closing report upon the conclusion of criminal and civil proceedings can help the surviving family members of murder or manslaughter victims to process their loss and begin healing. Your Committee further finds that allowing family members to receive a copy of the report will avoid situations in which the surviving family members are forced to view the report at a police station or other institutional setting. Your Committee additionally finds that sharing a single copy may be impractical if surviving family members do not live near one another.

Accordingly, your Committee has amended this measure by making each immediate family member eligible to receive a copy of the closing report.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 92, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 92, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

# SCRep. 798 (Majority) Judiciary on S.B. No. 1043

The purpose and intent of this measure is to:

- (1) Require health insurers, mutual benefit societies, and health maintenance organizations to provide coverage for a comprehensive category of reproductive health services, drugs, devices, products, and procedures; and
- (2) Prohibit discrimination in the provision of reproductive health care services.

Your Committee received testimony in support of this measure from the Hawai'i State Commission on the Status of Women; AAUW of Hawaii; Save Medicaid of Hawaii; Planned Parenthood; LGBT Caucus of the Democratic Party of Hawaii; Planned Parenthood of the Great Northwest and Hawaiian Islands; Bayer US; Planned Parenthood Votes Northwest and Hawaii; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii'; Hawaii Section of the American College of Obstetricians and Gynecologists; We Are One, Inc.; ACLU of Hawaii; Hawaii Women's Coalition; and eight individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Hawaii Primary Care Association, Kaiser Permanente Hawaii, and Hawaii Medical Service Association

Your Committee finds that the Affordable Care Act includes preventative service coverage requirements for sexual and reproductive health care. Your Committee further finds that access to no-copay preventative services such as birth control, well-woman exams, and cancer screenings are important to public health in the State. This measure will conform state law to the requirements of the Affordable Care Act.

Your Committee acknowledges that your Committee on Commerce, Consumer Protection, and Health has made considerable efforts to move this complicated measure forward. Your Committee is concerned, however, that the reference to chapter 481, Hawaii Revised Statutes, for penalty and remedy purposes, as specified for each proposed revision to chapter 431, parts I and II; chapter 432; chapter 432D; and chapter 346, Hawaii Revised Statutes, should be more closely examined by stakeholders and future committees during the legislative process, and revised if appropriate. Your Committee also has concerns about the structure of the effective date included in this measure.

Your Committee additionally notes that the mandatory health care coverage established by this measure may trigger sunrise review requirements pursuant to section 23-51, Hawaii Revised Statutes.

Accordingly, your Committee has amended this measure by:

- (1) Changing the effective date to March 15, 2094, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1043, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1043, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Gabbard). Excused, none.

## SCRep. 799 Judiciary on S.B. No. 1009

The purpose and intent of this measure is to ban the sale of flavored tobacco products.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Department of Education; Department of Health; Office of the Prosecuting Attorney of the County of Hawaii; Hawaii Pacific Health; Hawaii Primary Care Association; Hawaii Youth Services Network; Hawaii Dental Hygienists' Association; Hawaii State Teachers Association; Hawaii Public Health Association; Alexander Academy of Performing Arts; Hawaii COPD Coalition; Hawaii Public Health Institute; The Man Cave; We Are One, Inc.; Hawaii Blue Zones Project; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; African American Tobacco Control Leadership Council; Pioneering Healthier Communities of Honolulu; Lanai Community Health Center; Cancer Action Network; Mid-Pacific Do What You Love Service Club; Kapi'olani Medical Center for Women and Children; American Heart Association; University of Hawai'i Student Health Advisory Council; seventy-two individuals; and a petition signed by two hundred twelve dental hygienists. Your Committee received testimony in opposition to this measure from Hi Lyfe Vaporz, LLC; VOLCANO Fine Electronic Cigarettes; Cigar Association of America, Inc.; Nii Superette, Inc.; ABC Stores; Retail Merchants of Hawaii; Irie Hawaii Stores; Hawaii Smokers Alliance; twenty-eight individuals; and a petition signed by one hundred ten individuals. Your Committee received comments on this measure from the Hawaii Food Industry Association.

Your Committee finds that the use of flavored tobacco products is extremely prevalent among Hawaii's youth, and frequently results in the development of tobacco addiction. Almost all smokers start before the age of twenty-one, with most starting off using flavored tobacco products, which are often marketed to the State's youth. Your Committee further finds that the federal Family Smoking Prevention and Tobacco Control Act prohibited characterizing flavors, including fruit and candy flavorings, in cigarettes but did not ban menthol in cigarettes or the use of characterizing flavors in other tobacco products. This measure will prohibit the sale or distribution of all flavored tobacco products, including products with menthol, in the State.

Your Committee has amended this measure by clarifying that penalties for unlawfully selling a flavored tobacco product apply to any retailer whose agents or employees violate the prohibition.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1009, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1009, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

## SCRep. 800 Judiciary on S.B. No. 940

The purpose and intent of this measure is to grant county agencies the implicit right to enter property to investigate agricultural buildings and structures for violations of, and compliance with, building permit and code exemption qualifications.

Your Committee received testimony in support of this measure from the Office of Planning, Department of Agriculture, Mayor of the County of Hawai'i, and Hawaii Cattlemens Council. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that certain qualified agricultural structures are exempt from building permit and building code requirements. Your Committee further finds that, to curtail illegal uses, county agencies require the ability to inspect exempted agricultural structures to ensure that those structures conform to exemption requirements. Your Committee additionally finds that implicit rights are generally not specifically enumerated in writing.

Accordingly your Committee has amended this measure by changing the implicit right of county agencies to enter property to investigate agricultural buildings to an explicit right.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 940, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 940, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

## SCRep. 801 Judiciary on S.B. No. 536

The purpose and intent of this measure is to clarify that existing law intended to curb over-access to and abuse of opioids, including the time frame for filling prescriptions, supply limitations, and requirements to check the state electronic prescription accountability system and execute an informed consent process, do not apply to qualifying patients who are prescribed or issued prescriptions pursuant to the State's Our Care, Our Choice Act.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that allowing medications prescribed to terminally ill patients pursuant to the Our Care, Our Choice Act to be filled and held by the pharmacy for up to thirty days will increase convenience and diminish the risk of accidental poisoning for those patients. Your Committee further finds that, as currently written, section 329-38, Hawaii Revised Statutes, was amended by Act 66, Session Laws of Hawaii 2017, and is subject to repeal and reenactment on June 30, 2023. Your Committee recommends keeping the amendments made in this measure permanently. Therefore, your Committee additionally finds that an amendment is necessary to preserve the provisions of this measure from the effects of the repeal and reenactment of Act 66, Session Laws of Hawaii 2017.

Accordingly, your Committee has amended this measure by providing that the amendments made to section 329-38, Hawaii Revised Statutes, by this measure shall not be repealed when that section is repealed and reenacted pursuant to Act 66, Session Laws of Hawaii 2017.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 536, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 536, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

## SCRep. 802 Judiciary on S.B. No. 1466

The purpose and intent of this measure is to establish a process by which a law enforcement officer or family or household member may obtain a court order to prevent a person from accessing firearms and ammunition when the person poses a danger of causing bodily injury to oneself or another.

Your Committee received testimony in support of this measure from the Mayor of the County of Hawai'i; Moms Demand Action for Gun Sense in Hawaii; Eye Productions, Inc.; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; National Organization of Parents of Murdered Children; and thirty-one individuals. Your Committee received testimony in opposition to this measure from the Institute for Rational and Evidence-based Legislation, Hawaii Firearms Coalition, National Rifle Association of America, Hawaii Rifle Association, and three hundred eighty-two individuals. Your Committee received comments on this measure from the Judiciary and Department of the Attorney General.

Your Committee finds that nationwide, active shooters have inflicted great harm by killing and injuring innocent persons, sometimes in highly publicized mass-shootings. Your Committee further finds that in some cases, law enforcement or a member of the shooter's family or household may have observed warning signs before the shooting, but depending on the jurisdiction, they may not have had the ability to petition a court to confiscate the shooter's firearms and ammunition. This measure will allow the courts and law enforcement to promptly respond to persons who have demonstrated a risk of causing bodily injury to themselves or others. However, your Committee additionally finds that certain provisions of this measure are inconsistent with current procedural practices of the courts and law enforcement agencies.

Accordingly, your Committee has amended this measure by:

- (1) Requiring police officers to file proof of service of a protective order with the court within one business day of service;
- (2) Requiring the court to notify the Hawaii Criminal Justice Data Center of the service of protective orders;
- (3) Requiring the Hawaii Criminal Justice Data Center to make information relating to protective orders available to the National Instant Criminal Background Check System within one business day;
- (4) Inserting an effective date of February 1, 2020; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1466, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1466, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Gabbard, Wakai, Fevella). Noes, none. Excused, none.

## SCRep. 803 Judiciary on S.B. No. 1539

The purpose and intent of this measure is to:

- (1) Allow defendants the right, upon formal charge and detention, to a prompt bail hearing concerning release or detention and whether any condition will reasonably assure the defendant's appearance;
- (2) Allow defendants to be represented by counsel at the hearing, or have one appointed if they are financially unable to obtain representation; and
- (3) Allow defendants to present evidence and witnesses and to cross-examine witnesses who appear at the hearing.

Your Committee received testimony in support of this measure from the Judiciary, Office of Hawaiian Affairs, Community Alliance on Prisons, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received testimony in opposition to this measure from the Sex Abuse Treatment Center.

Your Committee finds that recent investigations by the Criminal Pretrial Task Force indicated that the current system of criminal pretrial detention is inconsistent as to whether and when a pretrial defendant is accorded a bail hearing. Your Committee further finds that opportunities to hold prompt hearings early on are often missed and result in defendants being unnecessarily detained until a meaningful bail hearing is held days or weeks later. Your Committee additionally finds that many of these individuals are believed to be low-risk defendants who could be safely and appropriately released. This measure will increase consistency in criminal pretrial procedure by entitling defendants to a prompt bail hearing.

Your Committee has amended this measure by:

- (1) Clarifying that the defendant's right to a prompt bail hearing is upon motion by either party;
- (2) Requiring the judge to consider during a bail hearing:
  - (A) Whether the defendant poses a serious flight risk;
  - (B) If there is a risk that the defendant will obstruct or attempt to obstruct justice;
  - (C) If there is a serious risk that the defendant poses a danger to any person or to the community; or
  - (D) If there is a serious risk that the defendant will engage in illegal activity;
- (3) Inserting an effective date of March 15, 2094, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1539, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1539, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 804 Ways and Means on S.B. No. 376

The purpose and intent of this measure is to allow students to enroll in career and technical education programs in schools outside the Department of Education service areas in which the students reside.

Your Committee received written comments in support of this measure from Hawaii State Teachers Association and one individual.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Education.

Your Committee finds that this measure would expand the number of students in Hawaii who receive career and technical skills education, thereby growing the pool of local individuals who possess skills specifically sought by employers in the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 376 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 4 (English, Kahele, Kidani, Riviere).

## SCRep. 805 Judiciary on S.B. No. 641

The purpose and intent of this measure is to add the definition of "substance abuse" and amend the definitions of "drug" and "substance" for purposes of violations due to operating a vehicle under the influence of an intoxicant.

Your Committee received testimony in support of this measure from the Department of Transportation, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, Mothers against Drunk Driving Hawaii, Hawaii Strategic Highway Safety Plan, AAA Hawaiʻi, and two individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender and Drug Policy Forum of Hawaiʻi.

Your Committee finds that the existing definition of a drug under the use of intoxicants while operating a vehicle statute does not encompass many substances that are being abused by individuals, thereby limiting law enforcement and prosecutors from keeping roads safe from impaired drivers. Your Committee further finds that there are many substances that can impair a driver but are not listed as a controlled substance under the Uniformed Controlled Substance Act, allowing those abusing those substances to drive on the State's roads while impaired. This measure would provide clarity with respect to how substance abuse and drugs are defined in law, ensuring the safety of residents and visitors of the State.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 641 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

# SCRep. 806 Judiciary on S.B. No. 98

The purpose and intent of this measure is to clarify the requirement that a driver of a motor vehicle yield to a pedestrian by specifying when a pedestrian is considered to be within an intersection or adjacent crosswalk.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual.

Your Committee finds that there is confusion as to when a vehicle must yield the right-of-way to a pedestrian who plans to cross or is crossing a roadway, particularly with regard to when a pedestrian is considered to be within an intersection or adjacent crosswalk. Your Committee further finds that pedestrians have the right of way over vehicles because the consequences of a collision between a vehicle and a pedestrian is highly likely to result in catastrophic injury for the pedestrian. Your Committee additionally finds that as the number of pedestrian injuries and deaths have greatly increased in the past year, clarifying that a pedestrian is legally within a crosswalk when any part or extension of the pedestrian is beyond the curb or edges of the traversable roadway will allow law enforcement to discourage the operators of motor vehicles from attempting to race pedestrians to the crosswalk or otherwise drive in a dangerous manner.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 98 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

### SCRep. 807 Judiciary on S.B. No. 955

The purpose and intent of this measure is to require financial disclosure statements of state agency executive directors to be public records available for inspection and duplication.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that under existing law, directors of state departments are required to publicly disclose their financial disclosure statements although departmental executive directors are not. Your Committee further finds that including executive directors in public disclosure requirements increases transparency in state government. Your Committee additionally finds that the requirements of this measure apply to all persons who function as executive directors of agencies regardless of whether or not the title of the person's position actually is "executive director".

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 955 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 808 Judiciary on S.B. No. 647

The purpose and intent of this measure is to:

- (1) Increase the membership of the State Capitol Management Committee by including the Lieutenant Governor and the Lieutenant Governor's Chief of Staff;
- (2) Prohibit the Lieutenant Governor from being represented on the State Capitol Management Committee by a designee; and
- (3) Require the Lieutenant Governor to submit an annual report to the Legislature regarding the State Capitol Management Committee's work, recommendations, and expenditures.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that the State Capitol Management Committee was established to ensure that the facilities and grounds of the Hawaii State Capitol are secure, properly maintained, and operated in a manner that meets the needs and expectations of the general public. This measure will promote more inclusion of occupants of the Capitol by adding the Lieutenant Governor as Chairperson of the Committee, while ensuring greater transparency of the Committee's work by requiring an annual report on its work, recommendations, and expenditures.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 647, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

## SCRep. 809 (Majority) Judiciary on S.B. No. 980

The purpose and intent of this measure is to define the term "private school", for the purpose of compulsory education, to mean an education institution that teaches kindergarten through grade twelve and that is licensed or accredited by the Hawaii Association of Independent Schools or the Western Association of Schools.

Your Committee received testimony in support of this measure from the Hawaii Association of Independent Schools and Hawaii Council of Private Schools, LLC. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that the Hawaii Council of Private Schools is charged with licensing Hawaii private schools to ensure that all of Hawaii's private and parochial schools are healthy, safe, and sustainable institutions providing a sound education program for Hawaii's children. However, licensing requirements for private schools are optional, rather than mandatory. This measure provides assurances for parents who choose to send their child to a private school that the school meets certain standards in providing a safe learning environment.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 980 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 2. Noes, 1 (Gabbard). Excused, 2 (Kim, Fevella).

### SCRep. 810 Judiciary on S.B. No. 574

The purpose and intent of this measure is to establish that every judgment for child support is enforceable until paid in full.

Your Committee received testimony in support of this measure from O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that currently, people who owe child support are no longer required to meet the obligations of child support orders once the child turns thirty-three of age or ten years after a judgment for the child support was rendered, whatever date is later. This allows the judgment for child support to be presumed paid or discharged after a certain period of time regardless of whether the obligor actually met their obligation. This measure ensures that people are not able to evade their child support obligations merely by the passage of time by allowing enforcement until the obligation is paid in full.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 574 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 811 Judiciary on S.B. No. 638

The purpose and intent of this measure is to:

- (1) Add unlicensed sale of liquor and unlicensed manufacture of liquor as offenses for which property is subject to forfeiture and increases the grade of the offense of unlicensed sale of liquor to a class C felony; and
- (2) Amend definitions of "organized crime" and "racketeering activity" to include the unlicensed sale of liquor.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that an ongoing problem in several communities across the State is the sale of liquor by unlicensed operators or entities that are not under the jurisdiction of the liquor control agencies. Liquor control agencies are restricted from executing compliance checks on establishments without liquor licenses. The reportedly widespread unlicensed sale of liquor on private properties within the State, if true, undermines the mission of liquor control agencies to control the sale of liquor.

Your Committee further finds that under existing law, the penalty for the misdemeanor offense of unlicensed manufacture or sale of liquor is a fine of not more than \$2,000, imprisonment for not more than one year, or both. This measure attempts to deter future illegal liquor sales not occurring under the oversight of liquor control agencies by increasing the consequences of subsequent conviction and allowing greater latitude to judges in their sentencing options.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 638, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 812 Judiciary on S.B. No. 551

The purpose and intent of this measure is to clarify that a condominium association may exercise nonjudicial or power of sale foreclosure remedies regardless of the presence or absence of power of sale language in an association's governing documents.

Your Committee received testimony in support of this measure from the Palehua Townhouse Association; Law Offices of Mark K. McKellar, LLLC; Kulana Knolls Association; Association of Apartment Owners of Kihei Bay Surf; The Maui Lani Community Association; Anderson Lahne and Fujisaki LLP; and nine individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that condominium associations have relied on the remedy of nonjudicial foreclosure for years as a way of collecting delinquent maintenance fees, which are necessary for the basic operations of associations. Judicial foreclosures alternatively can take far longer to resolve, create judicial backlog, and cost three to four times more than nonjudicial foreclosure actions, the fees for which are ultimately passed on to non-defaulting owners.

Your Committee further finds that under the decision of the recent Intermediate Court of Appeals case, <u>Sakal v. Ass'n of Apartment Owners of Hawaiian Monarch</u>, 426 P.3d 443 (Haw. Ct. App. 2018), many associations have lost the benefit of the nonjudicial foreclosure process. Concerns have been raised that, as a result, an association's ability to conduct a nonjudicial foreclosure will no longer depend on legislative intent, but whether specific language in the declaration or bylaws was included when the project was first created. This measure therefore clarifies that the governing documents of every association are deemed to include a power of sale provision, sufficient to enable the exercise of nonjudicial foreclosure remedy, regardless of the presence or absence of power of sale language in an association's documents.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 551, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 813 Judiciary on S.B. No. 768

The purpose and intent of this measure is to:

- (1) Establish that licensed mental health professionals providing mental health treatment to a minor have a standard of care duty to explain to the minor the meaning of confidential mental health care services and to ask the minor if the minor wants the provision of mental health care services to be kept confidential from the minor's parent or guardian;
- (2) Prohibit health plans and providers from disclosing any payment or billing information for a minor's mental health services to a policyholder or other covered person if the minor received the services without the consent or participation of the minor's parent or legal guardian;
- (3) Specify that the minor's parent or legal guardian is not responsible for out-of-pocket payments for minor-initiated mental health treatment or counseling services, except in certain circumstances; and
- (4) Clarify that a minor is not responsible for out-of-pocket payments, regardless of parent or guardian participation in treatment or services received.

Your Committee received testimony in support of this measure from the Department of Health, LGBT Caucus of the Democratic Party of Hawai'i, Mental Health America of Hawai'i, Hawaii Youth Services Network, Hawai'i Psychological Association, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals. Your Committee received comments on this measure from Hawaii Medical Service Association and Hawaii Association of Health Plans.

Your Committee finds that often times minors may be hesitant to seek mental health services because they do not feel safe or comfortable asking for consent from a parent or guardian for treatment. While the suppression of explanation of benefits is a standard practice where minor consent laws exist to preserve minors' privacy, the existing law does not explicitly prevent health plans from disclosing bill information related to minor-initiated mental health services. This measure ensures a minor's privacy is maintained when the minor seeks mental health treatment.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 768, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

### SCRep. 814 Judiciary on S.B. No. 693

The purpose and intent of this measure is to update existing law relating to pedestrian-control signals to include countdown timers and clarify what pedestrians are required to do when a countdown timer is operating.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that existing law relating to pedestrian-control signals was last substantively amended in 1981, and therefore does not include pedestrian-control signals that operate a countdown timer. This measure updates the law to recognize the capability of current technology and will provide consistency with the different types of pedestrian-control signals used throughout the State, thereby improving pedestrian safety.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 693, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 815 Judiciary on S.B. No. 660

The purpose and intent of this measure is to establish a non-compliant identification card for individuals that are not able to provide an updated photograph and documentation in-person, as required by the REAL ID Act of 2005.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the federal REAL ID Act of 2005 requires all applicants to appear in-person in order to obtain a compliant identification card. The application requirement for an in-person appearance creates extreme difficulties for those with severe disabilities who cannot be physically present when applying for identification in conducting transactions requiring confirmation of identification. This measure will offer those who are severely disabled and homebound to obtain a form of identification, that while not compliant with federal law, will still allow them the opportunity to complete many of their ongoing, everyday transactions with financial institutions, health providers, hospitals, and other entities that require proof of identification.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 660 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 816 Judiciary on S.B. No. 895

The purpose and intent of this measure is to extend the offense of false labeling of Hawaii-grown coffee to include roasted coffee.

Your Committee received testimony in support of this measure from the Department of Agriculture; one member of the Hawai'i County Council; Hawaii Coffee Association; Kona Coffee Farmers Association; Ka'u Mountain Farm; Kona Hills, LLC; Hawaii Coffee Growers Association; Kau Coffee Growers Cooperative; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and two individuals.

Your Committee finds that Act 328, Session Laws of Hawaii 2012, established criminal penalties for false labeling of Hawaii-grown coffee. However, the enforcement on fraudulent Hawaii-grown roasted coffee was overlooked, which provides counterfeiters a competitive advantage that artificially creates downward price pressure for local growers. Because it is critical to continue maintaining the integrity of the State's coffee industry, this measure extends the offense of false labeling of Hawaii-grown coffee to roasted coffee, allowing legitimate producers of Hawaii-grown coffee a fair chance to compete in the market by offering high quality products grown in Hawaii.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 895 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 817 (Majority) Judiciary on S.B. No. 600

The purpose and intent of this measure is to require an individual to be at least twenty-one years old to bring a firearm into the State.

Your Committee received testimony in support of this measure from the County of Hawai'i Mayor's Office, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committee received testimony in opposition to this measure from the Institute for Rational and Evidence-based Legislation, Hawaii Rifle Association, Rook Customs/RookWorx, Hawaii Firearms Coalition, National Rifle Association of America, Hawaii Cattlemen's Council, and 383 individuals.

Your Committee finds that state law restricts gun ownership to twenty-one years old for those obtaining a firearm in the State. However, this law has a loophole that allows Hawaii residents and non-residents to bring a firearm to Hawaii from outside the State and register that firearm without the requirement of being at least twenty-one years old. Your Committee further finds that setting a uniform minimum age for gun ownership in the State, regardless of where the firearm originated from, is in the best public safety interests of the State.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 600 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Gabbard). Excused, 1 (Fevella).

### SCRep. 818 Judiciary on S.B. No. 429

The purpose and intent of this measure is to:

- (1) Require a license to include a person's full name, date of birth, gender category, residence address, and license number; and
- (2) Expand gender options when applying for a driver's license and state identification card by including non-binary as an option.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawai'i Civil Rights Commission, Hawai'i State Commission on the Status of Women, LGBT Caucus of the Democratic Party of Hawai'i, Hawaii Women's Coalition, GLSEN Hawai'i, Planned Parenthood Votes Northwest and Hawaii, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, American Civil Liberties Union of Hawai'i, and sixteen individuals. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that Hawaii has one of the largest transgender and gender non-conforming populations in the United States. Binary gender and sex markers on any form of identification can cause difficult and invasive questions and increases the likelihood of discrimination for transgender and gender non-conforming individuals when seeking employment, interacting with law enforcement, renting an apartment, and many other public situations. This measure will help to avoid discrimination against transgender and gender non-conforming individuals by expanding gender categories on government identification.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 429 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 819 Labor, Culture and the Arts on Gov. Msg. Nos. 551 and 552

Recommending that the Senate advise and consent to the nominations of the following:

## KING KAMEHAMEHA CELEBRATION COMMISSION

G.M. No. 551 ANELA EVANS, for a term to expire 06-30-2020; and

G.M. No. 552 IAN-JAMES CUSTINO, for a term to expire 06-30-2022

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees and finds Anela Evans and Ian-James Custino to possess the requisite qualifications to be nominated to the King Kamehameha Celebration Commission.

# ANELA EVANS

Your Committee received testimony in support of the nomination for the appointment of Ms. Evans from the Department of Accounting and General Services and three individuals.

Your Committee finds that Ms. Evans is currently an assistant manager for Pūlama Lāna'i — Culture and Historic Preservation Division where she works to maintain cultural and historic sites and assists with coordinating and providing interpretive services for visitors to inform them of the natural and cultural resources on the island of Lanai. Prior to service at Pūlama Lāna'i, Ms. Evans was a volunteer coordinator for the Department of Land and Natural Resources. Ms. Evans was also a lecturer at the University of Hawai'i at Mānoa, where she taught a summer course for the Department of Ethnic Studies. Ms. Evans has been involved in a number of community and extra-curricular activities. If confirmed, Ms. Evans will represent the island of Lanai on the Commission. According to her testimony, Ms. Evans is committed to upholding the duties and responsibilities of the position. Ms. Evans' experience, value and knowledge of the Hawaiian culture, and dedication to public service will benefit the important work of the King Kamehameha Celebration Commission.

## **IAN-JAMES CUSTINO**

Your Committee received testimony in support of the nomination for the appointment of Mr. Custino from the Department of Accounting and General Services and two individuals.

Your Committee finds that Mr. Custino is a project manager at Kamehameha Schools where he manages projects and utilizes project management strategies to plan and implement projects to achieve Kamehameha School's strategic goals. Mr. Custino is also the president and CEO of his own business that provides project management services and he oversees all aspects of its operation including human resource management, financial planning and fiscal management, and sales and marketing efforts. Mr. Custino has been managing construction, landscaping, fire systems, and emergency preparedness and recovery projects since 2012. Mr. Custino has a Master's degree in Psychology and has numerous distinctions. If confirmed, Mr. Custino will represent Hale O Na Alii O Hawai'i Ahahui Poo on the Commission. According to his testimony, Mr. Custino is familiar with the works of the King Kamehameha Celebration Commission as he has been working with the Commission for years, assisting it in planning and staffing. Mr. Custino's leadership, experience, knowledge, and commitment to the Hawaiian community will greatly contribute to the King Kamehameha Celebration Commission.

As affirmed by the records of votes of the members of your Committee on Labor, Culture and the Arts that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

#### SCRep. 820 Labor, Culture and the Arts on Gov. Msg. No. 553

Recommending that the Senate advise and consent to the nomination of the following:

## BOARD OF TRUSTEES OF THE DEFERRED COMPENSATION PLAN

G.M. No. 553 KALBERT YOUNG, for a term to expire 06-30-2022

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee and finds Kalbert Young to possess the requisite qualifications to be nominated to the Board of Trustees of the Deferred Compensation Plan.

Your Committee received testimony in support of the nomination of Kalbert Young from the Department of Human Resources Development, Board of Trustees of the Deferred Compensation Plan, and one individual.

Upon review of the testimony, your Committee finds that Mr. Young's experience as a finance executive in the public and private sectors, commitment to public service, and proven leadership qualify him for appointment to the Board of Trustees of the Deferred Compensation Plan. Your Committee notes that Mr. Young is currently serving as the Vice President for Budget and Finance and Chief Financial Officer for University of Hawaii System. Previous to that, Mr. Young was the state Director of Budget and Finance. Mr. Young has an extensive professional background in budget and finance and has a deep understanding of investments and financial matters. According to testimony, Mr. Young expressed an interest in serving on the Board and has been serving on an interim basis since July 1, 2018. While on the Board, Mr. Young has shown he is dedicated to serving in the best interests of the State's deferred compensation plan participants. Your Committee believes Mr. Young's wealth of experience and expertise will contribute greatly to the Board of Trustees of the Deferred Compensation Plan.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

## SCRep. 821 Transportation on Gov. Msg. No. 569

Recommending that the Senate advise and consent to the nomination of the following:

## MEDICAL ADVISORY BOARD

G.M. No. 569 SUZIE NEMMERS, for a term to expire 06-30-2022

Your Committee reviewed the personal history, resume, and statement submitted by Suzie Nemmers, M.D., for service on the Medical Advisory Board.

Your Committee received testimony in support of the nomination for the appointment of Suzie Nemmers, M.D., from the Department of Transportation.

Upon review of the testimony, your Committee finds that Dr. Nemmers is a physician and surgeon in the Department of Ophthalmology at Tripler Army Medical Center. She is a member of the American Medical Association, Hawaii Ophthalmology Society, American Academy of Ophthalmology and American Society of Cataract and Refractive Surgery. Your Committee believes that Dr. Nemmers' experience and knowledge in eye and vision care will be extremely beneficial to the Medical Advisory Board, particularly when reviewing and evaluating cases that involve medical conditions relating to eyes and vision. Your Committee further finds that with her extensive background and knowledge in ophthalmology and her dedication to helping keep people safe qualify her for appointment to the Medical Advisory Board.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

### SCRep. 822 Commerce, Consumer Protection, and Health on Gov. Msg. No. 540

Recommending that the Senate advise and consent to the nomination of the following:

#### DIRECTOR OF THE DEPARTMENT OF COMMERCE AND CONSUMER AFFAIRS

G.M. No. 540 CATHERINE P. AWAKUNI COLON, for a term to expire at noon on 12-05-2022

Your Committee reviewed the personal history, resume, and statement submitted by Catherine Awakuni Colón for service as the Director of Commerce and Consumer Affairs.

Your Committee received testimony in support of the nomination for the reappointment of Catherine Awakuni Colón from the Governor; Department of Transportation; Department of Agriculture; Department of Public Safety; Department of Human Resources Development; Department of Labor and Industrial Relations; Department of Budget and Finance; Department of Health; Department of Taxation; Department of Hawaiian Home Lands; Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources; Public Utilities Commission; Office of Enterprise Technology Services; Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs; Hawaii Pest Control Association; Hawaii Medical Service Association; Hawaiian Electric Company, Inc.; and over twenty individuals.

Upon review of the testimony, your Committee finds that Ms. Awakuni Colón's background, experience, and commitment to public service qualify her for reappointment as the Director of Commerce and Consumer Affairs. Ms. Awakuni Colón has a Bachelor of Business Administration from the University of Hawaii and her Juris Doctorate from the William S. Richardson School of Law. Ms. Awakuni Colón has been the Director of Commerce and Consumer Affairs since January 2015 and has spent the last seventeen years serving the people of Hawaii in various government roles affecting commerce and consumer affairs. Her dedicated service has enabled her to gain an intimate understanding of the operations of the Department of Commerce and Consumer Affairs, the mission it serves, and the needs and concerns of the many hardworking team members in the offices and divisions that carry out the Department's functions.

Your Committee further finds that prior to Ms. Awakuni Colón's appointment as Director of Commerce and Consumer Affairs, she served as the Administrator of the Cable Television Division within the Department of Commerce and Consumer Affairs. Her extensive understanding of the complex regulatory relationships that govern the field of telecommunications and broadband communications continue to be an asset to the Department. Ms. Awakuni Colón also previously served as the Executive Director for the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, and later, as chief counsel for the Public Utilities Commission. This role provided her with unique insight into the needs of the Commission and an opportunity to understand the direct and significant effect the Commission has on the everyday lives of ratepayers and customers in the State.

During Ms. Awakuni Colón's service as Director of Commerce and Consumer Affairs, she has delivered many accomplishments for the Department. Under her leadership, the Department has formed extremely strong, collaborative relationships with other state departments and has been a valued partner in policy conversations about health insurance, the cost of care, and health care workforce shortage solutions, which are essential to a healthy Hawaii. Furthermore, during her time as Director, she has spearheaded several internal initiatives to ensure that the Department's employees provide the best possible service to the Department's constituents. She has sought to make services available online, upgraded internal and outward facing systems to increase efficiency and customer satisfaction, and improved employee's health by introducing Blue Zones practices to help reduce health care costs to the State. She has continued to demonstrate good leadership and oversight of business registration, consumer protection, and consumer advocacy in regulated utility and transportation services.

Your Committee finds that Ms. Awakuni Colón's leadership abilities, professional experience, and accomplishments will continue to be an invaluable asset to the Department of Commerce and Consumer Affairs, the State of Hawaii, and its consumers and businesses. Your Committee therefore recommends that Ms. Awakuni Colón be reappointed as the Director of Commerce and Consumer Affairs based on her extensive knowledge, background, and dedication to serving the public.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Chang, Ruderman).

### SCRep. 823 Commerce, Consumer Protection, and Health on S.B. No. 773

The purpose and intent of this measure is to:

- (1) Allow a class 18 small craft producer pub licensee to manufacture not more than 125,000 barrels of malt beverages on the licensee's premises during the license year;
- (2) Clarify that a class 14 brewpub licensee or class 18 small craft producer pub licensee may conduct certain activities at satellite locations other than the licensee's primary manufacturing premises under certain conditions;
- (3) Clarify the definition of growler; and
- (4) Allow direct shipment of all forms of liquor, rather than just wine, by certain licensees.

Your Committee received testimony in support of this measure from the Hawaiian Craft Brewers Guild, Maui Brewing Company, REAL Gastropub/Bent Tail Brewing Company, Waikiki Brewing Company, Honolulu BeerWorks, Kauai Beer Company, and Big Island Brewhaus. Your Committee received testimony in opposition to this measure from the Hawai'i Alcohol Policy Alliance, Hawaii Partnership to Prevent Underage Drinking, Hawaii Liquor Wholesalers Association, and six individuals. Your Committee received comments on this measure from the City and County of Honolulu Liquor Commission and Hawaii Food Industry Association.

Your Committee finds that small craft breweries typically start with investing in a manufacturing location to begin production of their craft beer with a smaller, retail satellite location to follow, usually in a different county. A single manufacturing site can produce enough beer to support more than one location. Requiring a retail site to hold a manufacturing license when no craft beer production occurs there is an extremely costly and complicated process. This measure addresses inconsistencies in existing law to ensure that a business manufacturing on one island can sell its products on another island under the proper license.

Your Committee further finds that the popularity of growlers, a type of container used to transport beer, continues to increase. Although growlers were originally made from glass, they are now made from a wider range of environmentally friendly reusable or recyclable materials. This measure simplifies and standardizes this term by defining growler to mean a recyclable or reusable container not to exceed one gallon.

Your Committee additionally finds that existing law already allows direct shipment of wine into and out of the State, but not beer or liquor. Restricting local manufacturers from delivering authentic Hawaiian products to out-of-state supporters and potential customers gives rise to a host of "faux-Hawaiian" products, and can further limit local manufacturing and tax revenues for the State. This measure achieves parity across all categories of beverage alcohol and increases the viability of local, small craft breweries.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 773, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 773, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Chang, Keohokalole, Nishihara).

## SCRep. 824 Commerce, Consumer Protection, and Health on S.B. No. 1534

The purpose and intent of this measure is to:

- (1) Require an event operator to disclose the number of tickets available for sale to the general public for an event;
- (2) Prohibit a place of entertainment that is funded by donations, public funds, or is tax exempt from entering into exclusive ticketing contracts; and
- (3) Prohibit ticket sellers from disclosing ticket purchasers' personally identifiable information.

Your Committee received testimony in support of this measure from TicketNetwork. Your Committee received testimony in opposition to this measure from the City and County of Honolulu Department of Enterprise Services and Aloha Group International. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Department of the Attorney General.

Your Committee finds that, in 2018, the United States Government Accountability Office published a report that found ten to thirty percent of tickets for major concerts typically are offered through presales, although for major artists performing at large venues, this figure may be as high as sixty-five percent. In addition to presales, additional tickets were reserved by parties such as the venue, artist, or promoter as "holds", meaning that at the time of the official initial sale of tickets, consumers do not really have a reasonable opportunity to obtain a general on-sale ticket. Your Committee further finds that ticket sellers often exploit or share customer and business partner information with the venue, artist, team, or league without permission from the customer. This measure is intended to protect consumers by requiring greater transparency in the ticket industry.

Your Committee, however, has considered the testimony expressing concerns regarding the prohibition on exclusive ticketing contracts, as certain venues require ticket companies that are willing to take on diverse sizes and types of events. Non-exclusivity would require box office staff to navigate multiple ticket platform hardware and software, creating an untenable workload and potentially comprising customer service. Further, there are a number of practical reasons why it may be difficult for promoters to determine the number of tickets to be sold for an event at the time of original sale.

Your Committee notes that this measure is intended to be limited to those places of entertainment and venues in excess of one thousand seats and believes further clarification and consideration are warranted as this measure moves through the legislative process.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have required disclosure of the number of tickets to be sold;
- (2) Deleting language that would have prohibited exclusive ticketing contracts;
- (3) Clarifying that this measure applies only to places of entertainment that exceed an unspecified number of seats;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1534, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1534, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Ruderman).

#### SCRep. 825 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 1240

The purpose and intent of this measure is to make permanent Act 21, Special Session Laws of Hawaii 2009, which requires the Department of Health to license home care agencies, and add a licensure exemption for Medicaid waiver provider agencies providing services to Medicaid waiver participants.

Your Committees received testimony in support of this measure from the Department of Health, Easterseals Hawaii, and The Arc in Hawaii.

Your Committees find that the Department of Health Developmental Disabilities Division operates the Medicaid Intellectual and Developmental Disabilities Home and Community-Based Services Waiver (HCBS I/DD waiver) on behalf of the Department of Human Services Med-QUEST Division. Pursuant to federal requirements to safeguard the health, safety, and rights of HCBS I/DD waiver participants, the State has implemented numerous standards, policies, and procedures pertaining to HCBS I/DD waiver program staff training and supervision.

However, your Committees find one of these state-mandated safeguards, which requires all personal care services to be performed by people who have training equivalent to the basic nurse aide course, is overly burdensome. Your Committees note that there are several types of personal care services provided under the HCBS I/DD waiver program, such as skills training, homemaking assistance, and meal planning and preparation, which are non-medical positions. Because of the nurse aide training requirement, filling these types of non-medical positions is costly and time consuming, which may impact access to services for HCBS I/DD waiver participants requirements, providing a narrow exemption for agencies that have been approved by the Department of Human Services Med-QUEST Division will ensure HCBS I/DD waiver participants receive services from qualified HCBS I/DD waiver provider agencies without unnecessary delay or increased costs.

Your Committees have amended this measure by:

- (1) Clarifying that the exclusion from licensure requirements only applies to a service provider agency providing services exclusively to HCBS I/DD waiver program participants; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1240, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1240, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Keohokalole, Nishihara). Human Services: Ayes, 4. Noes, none. Excused, 1 (Ihara).

## SCRep. 826 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 1029

The purpose and intent of this measure is to require the Policy Advisory Board for Elder Affairs to establish quorum requirements through its bylaws and post its bylaws on the Executive Office on Aging's website.

Your Committees received testimony in support of this measure from the Policy Advisory Board for Elder Affairs and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received comments on this measure from the Executive Office on Aging.

Your Committees find that the Policy Advisory Board for Elder Affairs (Board) advises the Executive Office on Aging in several important ways, including identifying age-related issues and alternative approaches to solutions, producing position statements and papers, advocating legislative actions, and providing input on program development and operations. Your Committees further find that the majority of the Board's members are elders or live on neighbor islands and the Board's diverse membership is instrumental in its ability to address wide ranging issues and remain a strong advocate for the State's kupuna.

However, your Committees acknowledge that having a large number of elderly and neighbor island members has made it difficult for the Board to meet the default quorum requirement of fifty percent of members plus one for every meeting. When the Board fails to meet quorum requirements, the state sunshine law mandates that the meeting cannot be held and minutes cannot be approved. Your

Committees find that by establishing lower quorum requirements in its by-laws, the Board will be able to conform with the sunshine law and continue intelligently and reliably performing its assigned duties.

Your Committees have amended this measure by requiring a majority of currently serving Board members, but no fewer than eight, to constitute quorum.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1029, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1029, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Keohokalole, Nishihara).

Human Services: Ayes, 4. Noes, none. Excused, 1 (Ihara).

## SCRep. 827 (Joint) Education and Human Services on S.B. No. 1220

The purpose and intent of this measure is to prohibit the suspension and expulsion of children participating in the Executive Office on Early Learning public prekindergarten program, except in limited circumstances.

Your Committees received testimony in support of this measure from the Department of Education, Executive Office on Early Learning, Early Learning Board, Hawaii State Teachers Association, Special Education Advisory Council, Hawaii Children's Action Network, Parents and Children Together, and five individuals.

Your Committees find that according to the National Association for the Education of Young Children, as many as 8,710 three- and four-year-olds may be expelled from their state-funded preschool or prekindergarten classroom every year, which is at a rate more than three times that of their peers in kindergarten through grade twelve. This is particularly troubling given such suspensions and expulsions occur during a critical period in a child's development. This measure ensures that the State's youngest children have access to appropriate educational opportunities that will set them up to reach their highest potential and prevents many of the adverse educational and life outcomes that result from suspension and expulsion early in a child's life.

Your Committees have amended this measure by:

- (1) Deleting the extensive amendments relating to suspension and expulsion in section 302L-7, Hawaii Revised Statutes, and inserting general provisions that:
  - (A) Prohibit the use of suspension in the early learning public prekindergarten program; provided that a temporary suspension may be used under certain conditions;
  - (B) Prohibit the permanent removal of a student from the early learning public prekindergarten program due to a child's behavior; provided that the administrator of the school shall consult with the Executive Office on Early Learning on how to address persistent and serious challenging behaviors; and
  - (C) Require the Executive Office on Early Learning to be subject to chapter 8-19, Hawaii Administrative Rules, relating to student misconduct and discipline, until subsequent administrative rules are developed and adopted to address suspension and expulsion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1220, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1220, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4; Ayes with Reservations (Kim, Fevella). Noes, none. Excused, 1 (Dela Cruz).

Human Services: Ayes, 5; Ayes with Reservations (Riviere, Fevella). Noes, none. Excused, none.

### SCRep. 828 Judiciary on S.B. No. 748

The purpose and intent of this measure is to permit two or more members of a board to attend State of the City, State of the County, State of the State, or State of the Judiciary addresses.

Your Committee received testimony in support of this measure from the Office of Information Practices. Your Committee received comments on this measure from the Civil Beat Law Center for the Public Interest.

Your Committee finds that public addresses by certain elected or appointed individuals such as the State of the City, State of the County, State of the State, and State of the Judiciary are important civic events where new policy initiatives are unveiled and the intentions of public offices are presented. Your Committee further finds that while the Sunshine Law may allow joint attendance at these types of events, clarity is needed on the scope of any discussions and activities. As currently written this measure does not address permissible and impermissible discussions of board members that may occur during and as part of the event. In addition, in keeping with the spirit of the Sunshine Law, clarity is needed to ensure that no commitment to vote is made or sought by board members at these events.

Accordingly, your Committee has amended this measure by:

- Restricting board members from discussing the business of the board while attending a State of the City, State of the County, State of the State, or State of the Judiciary address except during and as part of the event; and
- (2) Prohibiting a commitment to vote from being made or sought by any board member at these types of events.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 748, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 748, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

### SCRep. 829 Judiciary on S.B. No. 414

The purpose and intent of this measure is to:

- Create procedural and administrative requirements for law enforcement agencies for eyewitness identifications of suspects in criminal investigations; and
- (2) Grant defendants the right to challenge any eyewitness identification to be used at trial in a pretrial evidentiary hearing.

Your Committee received testimony in support of this measure from the Office of the Public Defender. Your Committee received testimony in opposition to this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, Office of the Prosecuting Attorney of the County of Kaua'i, Honolulu Police Department, Maui Police Department, and Hawai'i Police Department. Your Committee received comments on this measure from the Judiciary and Department of the Attorney General.

Your Committee finds that mistaken eyewitness identification contributes to a significant majority of wrongful convictions that are later overturned by DNA evidence. Your Committee further finds that during the last thirty years, a large body of peer-reviewed, scientific research and practice has emerged showing that simple systemic changes in administering eyewitness identification procedures can greatly improve the accuracy of eyewitness identifications. Your Committee additionally finds that more accurate eyewitness identifications increase the ability of police and prosecutors to solve crimes, convict the guilty, and protect the innocent.

Your Committee has amended this measure by:

- (1) Removing the requirement that eyewitnesses make a statement of how certain the eyewitness is in the event of an identification:
- (2) Clarifying that eyewitnesses are to be instructed that speaking with other witnesses or the media may hinder prosecution;
- (3) Removing the requirement that fillers in a lineup must share any unique or unusual feature with the eyewitness' description of the possible perpetrator;
- (4) Requiring the suspect to be randomly positioned in the live lineup or photo lineup for each eyewitness;
- (5) Requiring all showups to be conducted blind unless to do so would place an undue burden on law enforcement or the investigation;
- (6) Clarifying that either the prosecution or the defendant may request, upon motion, a pretrial evidentiary hearing as to the reliability of the eyewitness identification evidence offered;
- (7) Simplifying the procedural requirements for pretrial evidentiary hearings;
- (8) Changing the effective date to February 1, 2021; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 414, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 414, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

## SCRep. 830 Judiciary on S.B. No. 197

The purpose and intent of this measure is to establish an exemption from the prohibition against using election campaign funds to make charitable donations to or award scholarships during the period from the filing of nomination papers to the date of the general election for candidates who are already declared elected to office after running unopposed in an election or who would be unopposed in the general election.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that campaign finance law already allows candidates to use campaign funds to make charitable donations and award scholarships with the restriction that a candidate cannot make donations or award scholarships between the date that the candidate files nomination papers to the date of the general election. Your Committee additionally finds that this restriction is not necessary in the case of candidates who are already declared elected to office after running unopposed in an election or who would be unopposed in the general election. This measure will allow charitable donations and the award of scholarships in these specific circumstances.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 197 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 831 Judiciary on S.B. No. 1035

The purpose and intent of this measure is to extend the amount of time that a victim of child sexual abuse can bring a civil cause of action.

Your Committee received testimony in support of this measure from the Hawai'i State Commission on the Status of Women, LGBT Caucus of the Democratic Party of Hawaii, Rainbow Family 808, AAUW of Hawaii, Sex Abuse Treatment Center, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Save Medicaid Hawaii, and ten individuals. Your Committee received testimony in opposition to this measure from the National Association of Mutual Insurance Companies.

Your Committee finds that in the United States, one in five girls and one in twenty boys is a victim of child sexual abuse and studies show that between sixty and eighty percent of survivors withhold disclosure. Your Committee further finds that of those who delay disclosure until adulthood, the average delay has been found to be approximately twenty years, with some survivors delaying up to fifty years. Your Committee additionally finds that there are many reasons that child victims delay disclosing sexual abuse, including the particular stage of cognitive development, limited capacity to understand what happened, confusion about their feelings, limited ability to express complaints, and fear of retaliation or harmful impacts on their family or community. Your Committee also finds that the victims of child sexual abuse should be able to seek justice through the courts without being confined to a set window of opportunity.

Accordingly, your Committee has amended this measure by repealing the civil statute of limitations for child sexual abuse.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1035, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1035, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

### SCRep. 832 (Joint) Human Services and Judiciary on S.B. No. 1232

The purpose and intent of this measure is to clarify in Act 176, Session Laws of Hawaii 2018, the exemption from the disclosure requirements for child care facilities.

Your Committees received testimony in support of this measure from the Department of Human Services.

Your Committees find that Act 176, Session Laws of Hawaii 2018 (Act 176), specified the process for disclosure of a confirmed report of child abuse or neglect that occurred at a licensed or registered child care facility. This measure corrects an incorrect reference to licensed child care facilities in Act 176 and clarifies when the Department of Human Services may disclose that a confirmed report of child abuse or neglect has occurred at a child care facility operating in accordance with an exclusion or exemption permitted under law, which will cover reporting requirements for all child care situations.

Your Committees have amended this measure by:

- Clarifying that the Department of Human Services may disclose certain information upon receipt of consent, rather than proper consent; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1232, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1232, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 5. Noes, none. Excused, none. Judiciary: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Wakai).

### SCRep. 833 Ways and Means on S.B. No. 1428

The purpose and intent of this measure is to authorize any county with a population equal to or less than five hundred thousand that adopts a county surcharge on state tax ordinance to expend the surcharge revenues to address infrastructure and public safety needs.

Your Committee received testimony in support of this measure from the Office of the Mayor, County of Hawaii; Office of the Mayor, County of Kauai; and one individual.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this measure would provide counties with smaller populations flexibility in the use of revenues generated from their surcharges on the state general excise tax and use tax.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1428, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1428, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Moriwaki, Taniguchi). Noes, none. Excused, 2 (Harimoto, Inouye).

### SCRep. 834 Ways and Means on S.B. No. 1362

The purpose and intent of this measure is to raise the conveyance tax rates for residential investment properties having a value of at least \$2,000,000.

This measure also exempts the conveyance of real property that is subject to a government assistance program qualified by the Hawaii Housing Finance and Development Corporation from the conveyance tax.

Your Committee received testimony in support of this measure from the Americans for Democratic Action Hawaii, Church of the Crossroads, Hawaii Alliance for Community-Based Economic Development, League of Women Voters of Hawaii, Hawaiian Community Assets, and several individuals.

Your Committee received testimony in opposition to this measure from the Land Use Research Foundation of Hawaii, Chamber of Commerce Hawaii, and Hawaii Association of Realtors.

Your Committee received comments on this measure from the Department of Taxation, Hawaii Housing Finance and Development Corporation, Tax Foundation of Hawaii, and Faith Action for Community Equity.

Your Committee finds taxing the transfers of very high value property at much higher levels will serve to lessen the growing inequality in income and wealth between a small but wealthy segment of the population and the much larger but poorer segment of the population.

Your Committee has amended this measure to clarify the exemption for the conveyance of real property that is subject to a government assistance program by:

- Specifying that the real property shall be conveyed by an owner-occupant, the government assistance program shall be for
  affordable housing, and the owner-occupant shall receive certification from the Hawaii Housing Finance and Development
  Corporation in order to qualify for the exemption; and
- (2) Removing non-restrictive language relating to the purpose of the exemption.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1362, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1362, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Riviere). Noes, none. Excused, 3 (English, Moriwaki, Taniguchi).

### SCRep. 835 Ways and Means on S.B. No. 395

The purpose and intent of this measure is to repeal the existing statutory exemption from the imposition of the conveyance tax on realty leases of less than five years.

Your Committee received testimony in opposition to this measure from the Hawaii Association of Realtors.

Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that this measure will provide enhanced revenues to the beneficiaries of the conveyance tax.

Your Committee has amended this measure by:

- (1) Exempting leases of residential property of one year or less from the conveyance tax; and
- (2) Changing its effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 395, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 395, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13; Ayes with Reservations (Riviere). Noes, none. Excused, none.

## SCRep. 836 Ways and Means on S.B. No. 497

The purpose and intent of this measure is to require applicants for grants awarded by the Legislature pursuant to chapter 42F, Hawaii Revised Statutes, to provide certain documentation before they may qualify to receive those grants.

Your Committee received testimony in support of this measure from the Office of Community Services and Hawaii Alliance of Nonprofit Organizations.

Your Committee finds that the measure will help the Legislature and the state offices charged with administering grants ensure that potential grantees are in good standing to do business with the State, legally eligible for awards, well-established, and have the infrastructure necessary to successfully execute their proposed programs or projects.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 497, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 497, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

### SCRep. 837 Ways and Means on S.B. No. 795

The purpose and intent of this measure is to appropriate funds for various operating expenses of the Department of Budget and Finance.

Your Committee received testimony in support of this measure from the Employer-Union Health Benefits Trust Fund.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure includes additional funding requests from the Department of Budget and Finance for fiscal biennium beginning July 1, 2019, and ending June 30, 2021.

Your Committee has amended this measure by:

- (1) Deleting a provision to fund two deputy public defender II positions;
- Clarifying that an appropriation to the Employees' Retirement System for a new benefits administration system also authorizes three temporary positions;
- (3) Clarifying that an appropriation to establish one new position for the Employer-Union Health Benefits Trust Fund also includes funds for the program;
- (4) Providing that an appropriation for the Employees' Retirement System shall be used for an actuarial experience study and legal costs; and
- (5) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 795, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 795, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

### SCRep. 838 (Joint) Commerce, Consumer Protection, and Health and Hawaiian Affairs on S.B. No. 193

The purpose and intent of this measure is to require at least three members of the State Council on Mental Health to have demonstrated knowledge or experience with Native Hawaiian concepts of well-being, mental health, or healing practices.

Your Committees received testimony in support of this measure from the Department of Human Services, Department of Health, Office of Hawaiian Affairs, Council for Native Hawaiian Advancement, AlohaCare, Hawaiian Affairs Caucus of the Democratic Party of Hawaii, Hawaii Alliance for Community-Based Economic Development, Early Childhood Action Strategy, Hawaii Public Health Association, Papa Ola Lōkahi, Kokua Kalihi Valley, Alii Pauahi Hawaiian Civic Club, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, 'Aha Kāne Foundation for the Advancement of Native Hawaiian Males, Kuaianu Ulu 'Auamo, Kamehameha Schools, Hawaii Council of the Association of Hawaiian Civic Clubs, Hawaii Public Health Institute, Waimānalo Pono Research Hui, eighty-one individuals, and a form letter signed by eight individuals. Your Committees received comments on this measure from one individual.

Your Committees find that Native Hawaiians are disproportionately impacted by mental health concerns, the repercussions of which can have a deleterious effect on affected individuals, their families, and the community. Mental health disparities between Native Hawaiians and other ethnic groups in the State start early, with Native Hawaiian children over-represented as victims of abuse and neglect, over-represented in youth suicide attempts and deaths, and with Native Hawaiian youth maintaining some of the highest rates of drug use in the State.

Your Committees further find that Native Hawaiians tend to underutilize existing mental health services, seek therapy only after their illness has become severe, or leave treatment prematurely. Cultural incongruence with western mental health approaches may be a driving factor in Native Hawaiians' underutilization of mental health services, as experts note that clients are more likely to seek out and use mental health services when their values and beliefs align with the interventions provided. Your Committees also find that including individuals with expertise or experience in Native Hawaiian health and healing values on the State Council on Mental Health will help promote programs and services that can effectively target the Native Hawaiian community's mental-health associated disparities.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 193 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Keohokalole, Nishihara, Ruderman). Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Kahele).

### SCRep. 839 Commerce, Consumer Protection, and Health on S.B. No. 251

The purpose and intent of this measure is to provide a limited exemption from state licensure requirements to out-of-state physicians who accompany a sports team to a specific sporting event in Hawaii or are invited to provide services at a national sport training center, event, or competition in Hawaii, if certain conditions are met.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs and Hawaii Medical Board.

Your Committee finds that amateur, collegiate, and professional sports teams regularly have an affiliated physician who travels with the team to provide ongoing and emergency medical care. However, existing law does not provide a narrowly-tailored exemption from licensure requirements for physicians traveling with a sports team for a sporting event of limited duration. This measure therefore provides a licensed out-of-state physician a limited exemption from licensure requirements, which will enable the out-of-state physician to provide medical services to a sports team while traveling within the State for sports-related events.

Your Committee notes that the Hawaii Medical Board has not yet convened to discuss this measure but will do so on March 14, 2019. Accordingly, this measure is a vehicle for further consideration and discussion as it advances through the legislative process.

Your Committee has amended this measure by:

- Requiring an out-of-state physician who is traveling with a sports team to provide written notice to the Hawaii Medical Board
  describing the event, the dates, the teams, and the services to be provided, thirty days prior to the event;
- (2) Clarifying that the licensure exemption shall remain in force for two days prior to the sporting event, the duration of the sporting event, and two days after the sporting event; provided that the exemption shall be for no more than ten days per individual sporting event;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 251, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 251, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Ruderman).

## SCRep. 840 Commerce, Consumer Protection, and Health on S.B. No. 552

The purpose and intent of this measure is to revive for one year certain sections of the repealed chapter 514A, Hawaii Revised Statutes, to allow certain developers to continue sales using their chapter 514A, Hawaii Revised Statutes, public reports without revising their governing documents, under specific circumstances.

Your Committee received testimony in support of this measure from the Real Estate Commission, Associa, and American Resort Development Association Hawaii.

Your Committee finds that Act 181, Hawaii Revised Statutes (Act 181), repealed chapter 514A, Hawaii Revised Statutes, relating to condominium property regimes. Act 181 authorized developers to continue sales using their timely reports filed under the now-repealed sections of chapter 514A, Hawaii Revised Statutes, without having to register under chapter 514B, so long as the chapter 514A public reports were active, accurate, and not misleading. However, some, usually smaller, condominium projects were unable to meet Act 181's December 31, 2018, deadline for an automatic transfer of active and accurate projects to chapter 514B, Hawaii Revised Statutes, due to natural disasters and lack of time, resources, and necessary professionals. This measure revives pertinent sections of the repealed statutes for one year to provide these developers an opportunity to update their public reports without revising any of their governing documents, if certain criteria are met.

Your Committee notes the concerns raised in testimony that this measure may have certain unintended consequences on time share plans. Therefore, amendments to the measure are necessary.

Your Committee has amended this measure by:

- (1) Clarifying the citation for the specific statute that requires a developer's public report;
- (2) Clarifying that condominium property regimes are not required to revise governing documents for sales of time share interests in such condominium property regimes;
- (3) Exempting duly registered time share projects from providing developer's public reports to the Real Estate Commission under certain circumstances;
- (4) Inserting an effective date of July 1, 2019; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 552, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 552, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Chang, Nishihara).

## SCRep. 841 Commerce, Consumer Protection, and Health on S.B. No. 991

The purpose and intent of this measure is to:

- (1) Exempt public telecommunications utilities that provide basic exchange service to every county from certain utility rate regulation and ratemaking procedures and provisions; and
- (2) Clarify other requirements relating to basic exchange service for telecommunications carriers and public utilities.

Your Committee received testimony in support of this measure from Hawaiian Telcom and Verizon. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs, Aloha State Association of the Deaf, and Charter Communications. Your Committee received comments on this measure from the Public Utilities Commission.

Your Committee finds that, in the past several decades, as the telecommunications industry has become more competitive, regulation of businesses offering telecommunications services in Hawaii has been significantly reduced through legislative action and Public Utilities Commission (Commission) orders. Enabling robust competition in the market and supporting a level playing field for all competitors, while also ensuring high quality customer service from telecommunication service providers, is in the public interest. This measure would, in part, amend the existing regulatory framework and alleviate burdens from rules and regulations that limit certain providers' ability to compete in a competitive, growing market.

Your Committee, however, has considered the testimony expressing concerns that this measure creates a number of uncertainties that could result in unintended and undesirable consequences and removes a number of important consumer protections. This measure would essentially eliminate all of the Commission's oversight in retail and wholesale telecommunications markets, as well as potentially eliminate its ability to ensure non-discriminatory and full access to infrastructure, especially in less-competitive rural markets like neighbor islands.

Your Committee notes that the Division of Consumer Advocacy and a number of stakeholders have discussed mutually agreeable amendments to this measure to address these concerns.

Accordingly, your Committee has amended this measure by:

- Deleting language that would have exempted a public utility providing basic exchange service to every county from oversight by the Commission and Consumer Advocate and certain requirements governing the public utilities;
- (2) Deleting language that would have exempted a publicly traded public utility providing basic exchange service to every county from filing any financial reports with the Commission;
- (3) Clarifying that a telecommunications carrier shall not be required to obtain approval to establish or modify its terms and conditions;
- (4) Providing telecommunications carriers with certain exemptions related to rate making approval and cross subsidies; provided that, on an annual basis, the monthly rate increase for basic exchange service in any county with a population of less than 500,000 shall not exceed \$6.50 without the Commission's approval;
- (5) Reverting to the existing statutory language regarding all rates, fares, charges and bundled service offerings, and clarifying that this information and the service terms and conditions shall be posted on the local exchange carrier's website;
- (6) Specifying that telecommunications service providers may issue securities and other evidences of indebtedness without approval from the Commission, as long as notification of the transaction is provided to the Commission and Consumer Advocate;
- (7) Specifying that a telecommunications service provider providing fully competitive retail services may sell or dispose of property or equipment without approval from the Commission, but requiring authorization from the Commission in the event of any merger or consolidation, with another public utility;
- (8) Specifying that a telecommunications service provider providing fully competitive retail services is exempt from filing accident reports connected with its operations and service with the Commission;
- (9) Deleting language that would have allowed a public utility to issue securities and other evidences of indebtedness payable at periods of more than twelve months after the date of the issuance, for any purpose, without first obtaining approval from the Commission;
- (10) Clarifying that Commission approval is only necessary for a transaction involving a public utility that consists of fifty percent or more of the voting stock of a corporation organized under the laws of the State and twenty-five percent or more of the voting stock of the corporation is to be held by a single foreign corporation or nonresident alien;
- (11) Deleting language that would have allowed a public utility providing basic exchange service to every county in the State to sell, lease, assign, dispose of, or encumber its property by any means without approval of the Commission as long as notice was provided to the Commission within thirty days;
- (12) Clarifying that the Commission may allow telecommunications carriers to have pricing flexibility for services that the Commission finds are effectively competitive; provided that universal service is preserved and advanced;
- (13) Clarifying the Commission's responsibility to ensure customers have access to advanced services; and
- (14) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 991, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 991, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

## SCRep. 842 Commerce, Consumer Protection, and Health on S.B. No. 25

The purpose and intent of this measure is to update and improve insurance laws under title 24, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Board of Nursing; Board of Pharmacy; University of Hawaii System; Hawaii Insurers Council; Hawaii Medical Service Association; Hawaii Captive Insurance Council; Zephyr Insurance Company, Inc.; American Council of Life Insurers; and one individual.

Your Committee finds that this measure is intended to update and improve various areas of the State's insurance laws. This measure modernizes provisions, removes antiquated systems, and benefits insurers and consumers by removing redundancy, time, and cost barriers.

Your Committee has amended this measure by:

- (1) Clarifying that the short-term health insurance preexisting disclosure requirement does not apply to accident-only health insurance:
- (2) Clarifying that a health care provider who performs a service is eligible for reimbursement to the extent that the health care provider is eligible for reimbursement under a policy, contract, plan, or agreement, and is acting within the scope of the provider's license or certification under state law;
- (3) Inserting an effective date of October 1, 2019, relating to proposed name changes and use of a trade name or assumed name; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 25, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 25, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Chang, Nishihara).

## SCRep. 843 Commerce, Consumer Protection, and Health on S.B. No. 535

The purpose and intent of this measure is to clarify the scope of practice of pharmacists to authorize pharmacists to prescribe and dispense an opioid antagonist to individuals at risk for an opioid overdose or the family members or caregiver of the individual at risk for an opioid overdose.

Your Committee received testimony in support of this measure from the Department of Health, Board of Pharmacy, University of Hawai'i at Hilo, Kaiser Permanente Hawai'i, Drug Policy Forum of Hawaii, Walgreen Co., Hawaii Substance Abuse Coalition, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and nine individuals. Your Committee received comments on this measure from the Hawaii Medical Service Association.

Your Committee finds that Hawaii is one of the last states where opioid antagonists are not made widely available in the community through pharmacies. Deaths caused by opioids are often preventable with timely administration of an opioid antagonist, such as naloxone. Opioid antagonists remain underutilized in many overdose situations because many overdoses occur in places where immediate access to opioid antagonists is unavailable and first responders cannot reach a patient in time. Your Committee further finds that the Board of Pharmacy's Pharmacy Working Group has determined that, in addition to family members, caregivers, or the individuals at risk for an opioid antagonist, further clarification is needed with respect to the name on the prescription written by the pharmacist and to whom the opioid antagonist can be dispensed. Allowing an opioid antagonist to be prescribed and dispensed in the name of the individual requesting it would make opioid antagonists more widely available in the community and aid in the reduction of drug overdoses in the State.

Your Committee notes that the Department of Health and interested stakeholders have had an opportunity to discuss potential amendments to this measure, to ensure that all pharmacies will be able to prescribe and dispense opioid antagonists for individuals at risk for an opioid overdose and make certain that opioid antagonists are widely available to anyone who requests them. Amendments to this measure are therefore necessary to incorporate this consensus language.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that a pharmacist acting in good faith and exercising reasonable care may prescribe and dispense an opioid antagonist:
- (2) Inserting a definition for "at risk for an opioid overdose";
- (3) Inserting a sunset date of June 30, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 535, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 535, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Chang, Ruderman, Fevella).

### SCRep. 844 Commerce, Consumer Protection, and Health on S.B. No. 826

The purpose and intent of this measure is to provide insurers with an exemption from the requirement of providing all of its customers with annual privacy notices, under certain circumstances.

Your Committee received testimony in support of this measure from the American Council of Life Insurers, American Property Casualty Insurance Association, Kaiser Permanente Hawaii, and Hawaii Medical Service Association. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and State Farm Mutual Automobile Insurance Company.

Your Committee finds that existing law requires an insurer to send annual privacy notice updates to all of its customers in accordance with the federal Gramm-Leach-Bliley Act (GLBA). In 2015, President Obama signed the Fixing America's Surface Transportation Act (FAST Act), which included amendments to the privacy provisions of the GLBA and eliminated the costly and time consuming requirement of redundant annual privacy notices under certain conditions. So far, at least thirty-two states have adopted provisions of the FAST Act to allow insurers relief from the annual privacy notice requirement. This measure would enact provisions of the FAST Act to remove the annual requirement if an insurer meets certain conditions. However, your Committee does acknowledge the testimony received from the Department of Commerce and Consumer Affairs, indicating that there may be certain situations where an insurer, after an initial notice, may never have to send its customers a subsequent privacy notice.

Your Committee has amended this measure by:

- (1) Specifying that insurers are allowed to provide a privacy statement to customers at least once every three years rather than annually, under certain circumstances;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 826, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 826, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

## SCRep. 845 Judiciary on S.B. No. 489

The purpose and intent of this measure is to:

- (1) Establish an offense of knowingly capturing, taking, possessing, abusing, entangling, or killing a shark in state marine waters, along with penalties and fines;
- (2) Expand the existing prohibition on knowingly capturing or killing a manta ray in state marine waters to apply to all rays and also include knowingly taking, possessing, abusing, or entangling a ray; and
- (3) Provide certain exemptions.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Department of Land and Natural Resources, The Nature Conservancy, One Ocean Conservation, Keiko Conservation, One Ocean Diving, O'ahu County Commission on Legislative Priorities of the Democratic Party of Hawai'i, Divers for Sharks, Humane Society of the United States, Titi Conservation Alliance, and twenty-four individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies; Hunting, Farming and Fishing Association; Hawai'i Fishermen's Alliance for Conservation and Tradition, Inc.; and three individuals.

Your Committee finds that sharks and rays are extremely important to ocean ecosystems because they keep the ecosystem balanced, regulate populations of other marine life, and ensure healthy fish stock and reefs. Your Committee further finds that article XI, section 1, of the Hawaii State Constitution provides that the State "shall conserve and protect Hawaii's natural beauty and all natural resources". This measure will provide protection for sharks and rays by establishing and expanding prohibitions against knowingly capturing or killing them.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 489, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 489, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 846 Judiciary on S.B. No. 1041

The purpose and intent of this measure is to:

- (1) Prohibit written nondisclosure agreements involving sexual assault and sexual harassment as part of an employee's conditions of employment; and
- (2) Prohibit employers from retaliating against an employee for disclosing or discussing sexual harassment or sexual assault.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, AAUW of Hawaii, Planned Parenthood Votes Northwest and Hawaii, SAG-AFTRA Hawaii Local, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawai'i Women Lawyers, and two individuals.

Your Committee finds that it is common for victims of sexual harassment and assault not to report abuse for fear of retaliation. Your Committee further finds that nondisclosure agreements that prevent the disclosure of sexual harassment as a condition of employment have the impact and effect of further silencing victims and allowing serial perpetrators to continue harassing others. This measure will prohibit employers from requiring employees to sign sexual harassment or sexual assault nondisclosure agreements as a condition of employment and further prohibit retaliation by an employer if an employee does disclose sexual harassment or sexual assault.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1041, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1041, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 847 Judiciary on S.B. No. 122

The purpose and intent of this measure is to prohibit discrimination, including in advertisements for available real property, based on participation in a housing assistance program, or requirements related to participation in housing assistance programs, in real estate transactions and requirements.

Your Committee received testimony in support of this measure from the Office of the Governor, Hawaii Public Housing Authority, Hawai'i Civil Rights Commission, LGBT Caucus of the Democratic Party of Hawaii, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and Aloha Independent Living Hawaii. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS and one individual.

Your Committee finds that low-income individuals, who are the most likely participants in housing assistance programs, experience extreme difficulty in finding affordable rentals in Hawaii and are often faced with discrimination based on their source of income. Your Committee further finds that discrimination against recipients of housing assistance programs is prohibited in twelve states and the District of Columbia, as well as numerous cities and counties throughout the United States. Your Committee additionally finds that a prohibition against discrimination based on participation in a housing assistance program or requirements related to participation in a housing assistance program does not alter or restrict the standard industry practices to vet prospective renters.

Upon recommendation of the Hawaii Civil Rights Commission, your Committee has amended this measure by:

- (1) Removing from chapter 515, Hawaii Revised Statutes, the fair housing chapter, the prohibition against discrimination based on participation in a housing assistance program or requirements related to participation in housing assistance programs and instead placing the prohibition into a new chapter of the Hawaii Revised Statutes, outside of the jurisdiction of the Hawaii Civil Rights Commission;
- (2) Limiting the scope of the prohibition to discrimination based on participation in a government assistance program by amending the definition of "housing assistance program"; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 122, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 122, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 848 Commerce, Consumer Protection, and Health on S.B. No. 671

The purpose and intent of this measure is to exempt students in post-secondary education programs from immunization requirements if they attend classes exclusively online or through distance learning.

Your Committee received testimony in support of this measure from the University of Hawai'i System, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and Chaminade University of Honolulu. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that post-secondary online education and distance learning programs expand access to higher education and workforce development opportunities. For example, the University of Hawaii offers a multitude of online and distance learning courses, with 1,428 online classes offered in the fall of 2018. These courses provide more flexibility in location and schedule for students who are working, have family responsibilities, or have other challenges participating in on-campus classes.

Your Committee further finds that existing Hawaii Administrative Rules require post-secondary students, including students in online or distance learning programs who do not attend classes in person, to provide immunization records with evidence of certain vaccinations. The Department of Health is currently proposing a rule change to exempt students who participate in fully online programs from the immunization requirements. However, that rule change is still in the process of being adopted. Therefore, this measure provides an exemption from the immunization requirements for these students in a timely and expedient manner.

Your Committee has amended this measure by:

(1) Inserting an effective date of July 1, 2020; and

(2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 671, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 671, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Ruderman).

## SCRep. 849 Judiciary on S.B. No. 334

The purpose and intent of this measure is to:

- (1) Codify the administrative rule definition of "assistance animal";
- Clarify the type of verification an individual may provide to substantiate a reasonable accommodation request for an assistance animal; and
- (3) Specify that possession of a vest or other distinguishing garment, tag, or registration document commonly purchased online and purporting to identify an animal as a service animal or assistance animal does not constitute a valid verification of a disability-related need for an assistance animal.

Your Committee received testimony in support of this measure from the Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi and one individual. Your Committee received testimony in opposition to this measure from Hawaiian Properties, Ltd.; and one individual. Your Committee received comments on this measure from the Disability and Communication Access Board and Hawaiʻi Civil Rights Commission.

Your Committee finds that Act 217, Session Laws of Hawaii 2018, narrowed the definition of "service animal" to mean "any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability" and requires that the work or tasks performed by the service animal relate directly to the individual's disability. Your Committee further finds that the Americans with Disabilities Act includes a broader term "assistance animal", which is used under the federal and state fair housing laws, and includes a wider category of animals who provide support, including emotional support animals and service animals. Your Committee additionally finds that "assistance animal" is defined under the State's administrative rules, but not in statute. This measure will codify the definition of "assistance animal" and bring state law into closer conformity with the federal Americans with Disabilities Act.

Your Committee has amended this measure by:

- (1) Clarifying that a housing provider may request verification to be provided by a person with a disability to establish the disability-related need for a specific assistance animal rather than an assistance animal in general; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 334, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 334, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 850 Judiciary on S.B. No. 1371

The purpose and intent of this measure is to:

- (1) Prohibit the use of lay nets to take aquatic life, except under a permit obtained by the Department of Land and Natural Resources or as otherwise permitted pursuant to article XII, section 7, of the Hawaii State Constitution; and
- (2) Establish the use of lay nets to take aquatic life as a misdemeanor offense with a mandatory minimum period of imprisonment of one day or, for a first offense, a fine of no less than \$1,000.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committee received testimony in opposition to this measure from the Big Island Fisheries Alliance; Hunting, Farming, and Fishing Association; Hawai'i Goes Fishing; and nine individuals. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that the Department of Land and Natural Resources regulates lay net fishing through detailed restrictions on net dimensions, mesh size, soak time, time of day, frequency between sets, location, water depth, and inspection requirements. Your Committee further finds that all lay nets are required to be registered with the Department and marked with identification tags and surface buoys. However, your Committee additionally finds that despite these detailed regulations, which are intended to ensure responsible use of lay nets, the irresponsible use of lay nets continues with adverse impacts to fishery resources and protected species. This measure will establish strong penalties for the unlawful use of lay nets while allowing permit holders to continue using lay nets as regulated by the Department.

Your Committee has amended this measure by removing the mandatory sentence of imprisonment for a term of one day or a fine of not less than \$1,000 and instead making the penalties for use of lay nets for fishing the standard penalties for a misdemeanor offense.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1371, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1371, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

### SCRep. 851 Judiciary on S.B. No. 701

The purpose and intent of this measure is to:

- (1) Require any Hawaiian words or names included in public acts and transactions to be accurate, appropriate, and authentic;
- (2) Require all newly created, replaced, or reprinted state and county documents, letterheads, symbols, and emblems to contain accurate, appropriate, and authentic Hawaiian names and words; and
- (3) Clarify that the full text of bills and other official documents are not required to be written in Hawaiian and that misspelled or incorrectly punctuated Hawaiian words and names shall not invalidate the documents or render them unenforceable and no cause of action shall arise accordingly.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Center for Hawaiian Sovereignty Studies, Hawaiian Affairs Caucus of the Democratic Party of Hawai'i, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that the State has reaffirmed Hawaiian as one of its official languages since 1978, and the Legislature has supported efforts to incorporate the Hawaiian language into official state writings, emblems, and signs. Your Committee further finds that despite statutory recognition of the Hawaiian language as an official language of the State, the Governor vetoed House Bill No. 1984, S.D. 1, C.D. 1, Regular Session of 2012, relating to Hawaiian language, which would have strengthened the recognition and furthered the usage of Hawaiian in official documents. Your Committee additionally finds that the veto message indicated concerns about possible misspellings and misinterpretation of Hawaiian words and their effect on official documents. This measure will enhance the use of the Hawaiian language in official state documents while ensuring that Hawaiian words and names are as accurate, appropriate, and authentic as possible.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 701, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 701, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

## SCRep. 852 Ways and Means on S.B. No. 144

The purpose and intent of this measure is to clarify and strengthen the State's lobbyist law.

Specifically, this measure:

- (1) Repeals the restriction on access to transcripts from public contested hearings;
- (2) Changes the requisite level of intent to violate the lobbyist law from wilfully to negligently; and
- (3) Authorizes the state ethics commission to assess an administrative fine pursuant to a settlement agreement.

Your Committee believes that a lower level of proof with respect to the actor's intent to violate the lobbyist law is appropriate, given that the penalty involves only a civil administrative fine.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 144, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 144, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

### SCRep. 853 Ways and Means on S.B. No. 242

The purpose and intent of this measure is to prohibit the State's Medicaid managed care and fee for service programs from denying coverage for home and community-based services to individuals who have been diagnosed with autism or fetal alcohol spectrum disorder.

Your Committee received written comments in support of this measure from Hawaii Fetal Alcohol Spectrum Disorders Action Group, Kelii Foundation, Hawaii Substance Abuse Coalition, Hawaii Disability Rights Center, Hawaii Psychological Association, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and several individuals.

Your Committee received written comments on this measure from the Department of Health, Department of Human Services, and Autism Society of Hawaii.

Your Committee finds that this measure will help to ensure that individuals diagnosed with autism or fetal alcohol spectrum disorder have access to services that will allow them to more fully participate in their communities.

Your Committee has amended this measure by:

- (1) Correcting the definition of "therapeutic care" to refer to licensed, rather than registered, occupational therapists;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making a technical nonsubstantive change for purposes of consistency and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 242, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 242, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

#### SCRep. 854 Ways and Means on S.B. No. 327

The purpose and intent of this measure is to require the Department of the Attorney General to condemn three roads on the island of Oahu.

Your Committee received written comments on this measure from the Department of Health.

Your Committee finds that roads located throughout the State that have no clear ownership and do not receive any maintenance or repairs are a hazard to the environment and the public's health and safety and should be condemned.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 327, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 327, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

#### SCRep. 855 Ways and Means on S.B. No. 411

The purpose and intent of this measure is to provide that certain exemptions from requirements to obtain certain certificates of inspection, registration, and licensing extend to marine terminal equipment used near neighbor island harbors.

Your Committee received written comments in support of this measure from Matson Navigation.

Your Committee finds that extending the current marine terminal equipment exemptions to the neighbor islands will allow shipping companies on neighbor islands to move marine terminal equipment without having to first secure permits or waivers from the Department of Transportation.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 411, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 411, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Taniguchi).

## SCRep. 856 Ways and Means on S.B. No. 472

The purpose and intent of this measure is to appropriate funds for a feasibility and cost study relating to the construction of a new boat ramp and pier in the Puna district on the island of Hawaii.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; Luana Jones, representing fishermen, tour boats, families, and the Puna community; Moku Nui Lava Tours, LLC; and numerous individuals.

Your Committee finds that recent lava flows have left the Puna district without a usable boat ramp and pier. Your Committee recognizes that the old boat ramp at Pohoiki was a major economic driver for the Puna district and Hawaii island as a whole.

Your Committee further notes that the issuance of general obligation bonds may be a more appropriate means of addressing this issue.

Your Committee has amended this measure by changing the appropriation to an unspecified amount to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 472, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 472, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Taniguchi).

## SCRep. 857 Ways and Means on S.B. No. 657

The purpose and intent of this measure is to clarify and extend certain electric vehicle parking benefits authorized by the State.

Specifically, this measure amends Act 168, Session Laws of Hawaii 2012, to:

- (1) Clarify that electric vehicles are not exempt from paying for non-metered fee parking when parked for any period longer than an initial four hours; and
- (2) Extend the repeal date of Act 168 from June 30, 2020, to June 30, 2030.

Your Committee received written comments in support of this measure from the Strategic Industries Division of the Department of Business, Economic Development, and Tourism; the Department of Accounting and General Services; the Department of Transportation Services of the City and County of Honolulu; Big Island EV Association; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Hawaiian Electric Company, Inc.; Tesla; and numerous individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from Alliance of Automobile Manufacturers, Blue Planet Foundation, and Ulupono Initiative.

Your Committee finds that extending certain electric vehicle incentives will help to reduce the State's dependence on fossil fuels.

Your Committee has amended this measure by:

- (1) Shortening the extension of the repeal date of Act 168, Session Laws of Hawaii 2012, from the originally proposed repeal date extension of June 30, 2030, to June 30, 2023;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 657, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 657, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

# SCRep. 858 Ways and Means on S.B. No. 663

The purpose and intent of this measure is to facilitate the enforcement of traffic control signal laws.

Specifically, this measure:

- (1) Establishes a Red Light Running Committee to review this measure and make recommendations on how to improve it before it is implemented;
- (2) Establishes a photo red light imaging detector systems program to improve enforcement of traffic control signal laws; and
- (3) Requires fines collected pursuant to the foregoing program to be deposited into a photo red light imaging detector systems program special fund.

Your Committee received written comments in support of this measure from the Department of Transportation; Office of the Mayor, City and County of Honolulu; Honolulu Police Department; Department of Transportation Services, City and County of Honolulu; Hawaii Bicycling League; Peoples Advocacy for Trails Hawaii; Blue Zones Project; and numerous individuals.

Your Committee received written comments in opposition to this measure from two individuals.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that an increased number of drivers, especially those who run red lights, have been violating traffic laws. Your Committee also finds that traffic enforcement systems in other states and countries such as Canada that use photo red light imaging detector technology have deterred red light runners. Accordingly, your Committee believes that the establishment of a photo red light imaging detector system within the State may improve safety and prevent hazardous traffic situations from occurring.

Your Committee has amended this measure by:

- Correcting a reference to the month of implementation of the photo speed imaging detector system created by Act 234, Session Laws of Hawaii 1998;
- (2) Clarifying that the Department of Transportation shall expend money from fines collected from violators of certain traffic laws regarding red lights in the county in which the fines were collected;
- (3) Changing the effective date:
  - (A) Except for the establishment of the Red Light Running Committee, to July 1, 2050; and
  - (B) Of the establishment of the Red Light Running Committee to July 1, 2049;

to facilitate further discussion on the measure; and

(4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 663, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 663, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

#### SCRep. 859 Ways and Means on S.B. No. 712

The purpose and intent of this measure is to exclude foreign partnerships, foreign limited liability partnerships, foreign limited partnerships, and foreign limited liability companies from the definition of "resident person" under the Hawaii Real Property Tax Act.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the Hawaii Real Property Tax Act, also known as HARPTA, requires every buyer of real property to withhold and pay to the Department of Taxation seven and one-quarter per cent of the amount realized on the disposition of Hawaii real property. However, section 235-68, Hawaii Revised Statutes, provides an exemption from this requirement when the seller of the real property is a "resident person". Removing foreign partnerships, foreign limited liability companies, and foreign limited liability partnerships from the definition of "resident person" would make them ineligible for the exemption from the withholding of tax on the disposition of Hawaii real property.

Your Committee has amended this measure by changing the effective date to January 1, 2020.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 712, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 712, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

## SCRep. 860 Ways and Means on S.B. No. 763

The purpose and intent of this measure is to require that the Department of Business, Economic Development, and Tourism, in consultation with the Department of Agriculture, conduct a study assessing the economic impacts of and recommending solutions to the sale of products in the United States using misleading place-based marketing, or the sale of products held out to be of or from Hawaii but that actually have no material connection to the State.

Your Committee received written comments in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaii Coffee Association, Shaka Tea, Onomea Tea Company, Kamiloiki Brand Mamaki, and seven individuals.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that this measure will help protect the integrity of Hawaii's brands and economy by establishing the scope of and offering solutions to the issue of companies selling products in the United States using place-based marketing having no material connection to the State, a practice that disadvantages local companies and producers.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 763, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 763, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Harimoto, Kahele, Shimabukuro, Taniguchi).

# SCRep. 861 Ways and Means on S.B. No. 837

The purpose and intent of this measure is to encourage and support the growth of new, small, and diversified farming businesses.

More specifically, this measure excludes from the income tax the lesser of fifty-one percent or \$50,000 of gross annual income earned by a farmer.

Your Committee received written comments in support of this measure from the Department of Agriculture, Hawaii Farm Bureau, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and Ulupono Initiative.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that Hawaii imports far more goods and services than it exports, resulting in a significant negative trade flow. Your Committee also finds that the two largest trade imbalances are in the areas of energy and agriculture. Your Committee further finds that more efforts are needed to address the imbalance in agricultural trade and significantly expand food production in the State.

Your Committee has amended this measure by:

- (1) Clarifying the entities to which the income tax exclusion applies;
- (2) Replacing the term "farming activities" with "agricultural activities";
- (3) Defining the term "value-added";
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 837, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 837, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Kahele, Shimabukuro).

#### SCRep. 862 Ways and Means on S.B. No. 838

The purpose and intent of this measure is to facilitate land conservation.

Specifically, this measure:

- Increases the proportion of moneys in the land conservation fund that may be used to protect, maintain, restore, or provide greater public access to lands acquired by the fund;
- (2) Increases the maximum dollar amount of conveyance tax revenues that shall be paid into the land conservation fund; and
- (3) Appropriates moneys from the land conservation fund for resource land acquisition.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, The Nature Conservancy, The Trust for Public Land, Hawaiian Islands Land Trust, and one individual.

Your Committee received written comments on this measure from the Office of the Auditor and Tax Foundation of Hawaii.

Your Committee finds that this measure will increase the funding available for purchasing and protecting land that shelters exceptional, unique, and threatened resources.

Your Committee notes that an appropriation of \$7,482,115 for the land conservation fund has been recommended for both fiscal years 2019-2020 and 2020-2021.

Your Committee has amended this measure by changing the appropriation from the land conservation fund to an unspecified amount to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 838, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 838, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Taniguchi).

# SCRep. 863 Ways and Means on S.B. No. 875

The purpose and intent of this measure is to appropriate funds for lifeguards at Kua Bay, Kekaha Kai State Park, on the island of Hawaii.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Mayor of the County of Hawaii, two members of the Hawaii County Council, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Kohala Coast Resort Association, Aha Moku Advisory Committee, Hawaii Tourism Authority, and one individual

Your Committee finds that lifeguards are the primary responders for emergencies on shorelines and within nearshore waters, addressing injuries and performing ocean rescue services. Your Committee recognizes that, currently, there is no lifeguard protection for visitors to Kua Bay.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 875, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 875, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

## SCRep. 864 Ways and Means on S.B. No. 887

The purpose and intent of this measure is to amend statutory provisions relating to taxes on tobacco products.

Specifically, this measure increases the:

- (1) Tax on each cigarette or little cigar that is sold, used, or possessed by a wholesaler or dealer;
- (2) Amount from the foregoing tax on each cigarette or little cigar that is deposited to the credit of the:
  - (A) Hawaii cancer research special fund; and
  - (B) Community health centers special fund.

Your Committee received written comments in support of this measure from the Hawaii Health Systems Corporation, East Hawaii Region of Hawaii Health Systems Corporation, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, American Cancer Society Cancer Action Network, American Heart Association, Hawaii Public Health Institute, and Blue Zones Project.

Your Committee received written comments in opposition to this measure from Irie Hawaii Stores; Hi Lyfe Vaporz, LLC; Retail Merchants of Hawaii; and twenty-five individuals.

Your Committee received written comments on this measure from the Department of Taxation, Department of Health, and Tax Foundation of Hawaii.

Your Committee finds that tobacco use is linked to cancer, heart disease, stroke, emphysema, asthma, and other diseases, and is still the leading cause of preventable disease and death in the State and in the nation. Your Committee believes that raising the tax on cigarettes and little cigars sold in the State will reduce the sale of these products and ultimately help protect residents from tobacco dependency, illnesses, and premature death. Further, revenues generated by this measure will help provide money for health-related funds.

Your Committee has amended this measure by changing the effective date of the:

- Provisions that increase the tax on cigarettes and little cigars and reallocate cigarette and tobacco tax revenues to July 1, 2051;
- (2) Remaining provisions of the measure to July 1, 2050,

to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 887, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 887, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

### SCRep. 865 (Joint) Public Safety, Intergovernmental, and Military Affairs and Ways and Means on S.B. No. 365

The purpose and intent of this measure is to:

- (1) Require the Department of Business, Economic Development, and Tourism to develop annual regional economic plans for each county to identify regional economic priorities and industry clusters and jobs within those priorities and clusters;
- (2) Require the Workforce Development Council to develop, based on the findings of the regional economic plans, K-16 pathways and programs in each public school, including each public charter school, that prepare students to fill the priority jobs identified in the regional economic plans; and
- (3) Require participating schools to communicate opportunities to enroll in K-16 pathways and qualified internship programs to prepare students for jobs identified by regional economic plans as priorities in each geographical area.

Your Committees received testimony in support of this measure from HawaiiKidsCAN, W.A.V.E. (HawaiiKidsCAN), O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and four individuals. Your Committees received comments on this measure from the Department of Education; Department of Business, Economic Development, and Tourism; State Procurement Office; and one individual.

Your Committees find that the State can expand opportunities to better prepare students for college and their careers. The Department of Business, Economic Development, and Tourism should be required to develop annual regional economic plans for each county based on the boundaries of development or community plans in each county. Additionally, the Workforce Development Council, in partnership with the Department of Education and the University of Hawaii, can use this data to provide K-16 pathways and internship programs in each public school and public charter school to match the State's specific industry needs. These pathways, industry certifications, and qualified internship programs will serve as the foundation for developing work-based learning opportunities that reflect high-growth, high-need industries, which are often concentrated in health care, technical roles, business and finance, information technology, and management.

Your Committees have amended this measure by:

Authorizing the payment of bonus incentives to participating public schools for each student who receives an industry
certification, in addition to each student who completes a qualified internship program, and making conforming amendments;

- (2) Exempting, from the Hawaii Public Procurement Code procurements for the placement of students in qualified internship programs, rather than the entire qualified internship program; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 365, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 365, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Wakai).

Ways and Means: Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

## SCRep. 866 (Joint) Public Safety, Intergovernmental, and Military Affairs and Ways and Means on S.B. No. 1223

The purpose and intent of this measure is to extend the sunset date by five years to July 1, 2024, to continue to:

- (1) Require each county to issue affordable housing credits to the Department of Hawaiian Home Lands; and
- (2) Require the counties to issue affordable housing credits for each residential unit, or if allowed under the county's affordable housing program, vacant lot, developed by the Department of Hawaiian Home Lands.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committees received comments on this measure from the City and County of Honolulu Department of Planning and Permitting.

Your Committees find that affordable housing credits have provided the Department of Hawaiian Home Lands greater opportunities to gain resources to develop homesteads and, thus, meet its mission to return native Hawaiians to trust lands. Since Act 141, Session Laws of Hawaii 2009, as amended, was passed by the Legislature, this program has been successful at obtaining more affordable housing units in accord with the Department of Hawaiian Home Lands' mission. This program is scheduled to repeal on July 1, 2019.

Your Committees further find that by extending the sunset date, the Department of Hawaiian Home Lands can continue to utilize this innovative program to provide affordable housing opportunities for its beneficiaries at no cost to the State. For example, this program allowed for a reduction in the price of housing units offered by homebuilders on Hawaiian home lands and is currently under consideration for the purchase of additional land in a location that beneficiaries are interested in but where the Department has no available land in the area.

Your Committees have amended this measure by inserting an effective date of July 1, 2019.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1223, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1223, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

Ways and Means: Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

## SCRep. 867 (Joint) Commerce, Consumer Protection, and Health and Ways and Means on S.B. No. 1000

The purpose and intent of this measure is to prohibit, on or after January 1, 2020, the issuance of building permits for all new residential multi-family buildings that have ten or more parking stalls and new commercial buildings that have twenty or more parking stalls unless at least twenty percent of the parking stalls are electric vehicle charger ready.

Your Committees received testimony in support of this measure from the Hawaiian Electric Company, Inc.; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'; Young Democrats of Hawaii; Blue Planet Foundation; Ulupono Initiative; Tesla; Elemental Excelerator; and five individuals. Your Committees received testimony in opposition to this measure from the Retail Merchants of Hawaii, Building Owners and Managers Association of Hawaii, and one individual. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committees find that Hawaii is second to California in the number of electric vehicles per capita and electric vehicles are the fastest growing segment of new cars in the State. High population density areas are ideal for electric vehicles because residents typically have shorter driving distances. According to testimony received by your Committees, Hawaiian Electric's *Electrification of Transportation Roadmap* projects that at least fifty-five percent of cars on the road in 2045 will be electric. However, one of the barriers to owning an electric vehicle is the lack of charging infrastructure. More than eighty percent of electric vehicle drivers charge their cars at home or at work. Your Committees further find that installing electric vehicle infrastructure at the time of construction can be ninety-one percent less expensive than post-construction retrofits. This measure allows for the expansion of electric vehicle charging options in new residential and commercial buildings and is a fiscally prudent way for the private sector to "future-proof" new construction projects for the expected increase in electric vehicles.

Your Committees also find that, by using stored energy, electric vehicles can take advantage of intermittent solar, wind, and other clean energy resources. Most vehicles sit idle for over twenty-two hours per day, so they become de facto energy storage devices if their batteries are plugged into the grid when they are not in use. With smart grid infrastructure in place, electric vehicles are an essential component to electricity load and clean energy resource balancing. This measure therefore supports the State in its goal toward one hundred percent clean energy by 2045.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1000, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1000, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ruderman).

Ways and Means: Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

### SCRep. 868 (Joint) Commerce, Consumer Protection, and Health and Ways and Means on S.B. No. 383

The purpose and intent of this measure is to:

- (1) Require the Board of Education to establish a youth suicide awareness and prevention training program and model risk referral protocol; and
- (2) Require complex areas and charter schools to provide the training program and risk referral protocol to all school personnel who work directly with students in department schools and charter schools, respectively.

Your Committees received testimony in support of this measure from the Hawaii State Teachers Association, Hawaii Youth Services Network, LGBT Caucus of the Democratic Party of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Parents and Children Together, Mental Health America of Hawai'i, Hawai'i Psychological Association, Honolulu County Republican Party, and seven individuals. Your Committees received comments on this measure from the Board of Education and County of Hawai'i Office of the Mayor.

Your Committees find that the State has very high rates of suicide, suicide attempts, and suicidal ideation amongst various age groups. Suicide-related behavior has a serious and profound impact on communities that can be reduced with education, awareness, and appropriate mental health treatment. Your Committees note that outside of the home, schools are often the main social institution where children have consistent contact with adults. Therefore, your Committees find that it is important to increase the number of school personnel, such as teachers, principals, janitors, and school counselors, who are trained to identify students at risk of suicide and refer those students to appropriate intervention services.

Your Committees have amended this measure by:

- (1) Requiring the Board of Education to collaborate with the Department of Health and use the Department of Health's existing suicide awareness and prevention curriculum and materials to develop the training program and model risk referral protocol;
- (2) Making the training program and risk referral protocol mandatory for all school personnel who work directly with students;
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 383, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 383, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ruderman).

Ways and Means: Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

# SCRep. 869 Ways and Means on S.B. No. 971

The purpose and intent of this measure is to appropriate funds for a scholarship program to make awards to students pursuing teaching degrees at state accredited institutions of higher learning who successfully complete one course in computer science.

Your Committee received a written comment in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee received a written comment on this measure from the Hawaii State Department of Education.

Your Committee finds that, to compete nationally and globally, Hawaii students need access to comprehensive, grade-appropriate computer science classes. This measures encourages the State's future teachers to complete at least one computer science course.

Your Committee has amended this measure by:

- (1) Changing the appropriation from an unspecified amount to \$100,000 for each fiscal year in the 2019-2021 fiscal biennium;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 971, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 971, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

### SCRep. 870 Ways and Means on S.B. No. 981

The purpose and intent of this measure is to repeal the Hawaii Teacher Standards Board Special Fund established in section 302A-806, Hawaii Revised Statutes, and to specify that all unencumbered balances shall lapse to the general fund on June 30, 2021.

Your Committee received written comments in support of this measure from the Hawaii Teacher Standards Board.

Your Committee received written comments on this measure from the Department of Education and Tax Foundation of Hawaii.

Your Committee finds that the operations and expenses of the Hawaii Teacher Standards Board are more appropriately funded through annual appropriations from the State's general fund.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 981, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 981, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

## SCRep. 871 Ways and Means on S.B. No. 990

The purpose and intent of this measure is to require the Department of Business, Economic Development, and Tourism to engage a consulting firm to evaluate the policies and organizational changes needed for the State to execute a technology-based economic development strategy.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Natural Energy Laboratory of Hawaii Authority; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; and Hawaii Strategic Development Corporation.

Your Committee finds that the State needs a strong technology-based economic development strategy to remain competitive in the global market.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$70,000 to an unspecified sum; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 990, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 990, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

### SCRep. 872 Ways and Means on S.B. No. 1006

The purpose and intent of this measure is to amend the liquor tax law.

Specifically, the measure:

- (1) Applies the liquor tax rate for cooler beverages to certain spirit beverage coolers; and
- (2) Removes the increased tax rate on beer that is not dispensed from containers of seven gallons or more.

Your Committee received written comments in support of this measure from the Kauai Beer Company, Hawaiian Craft Brewers Guild, Honolulu BeerWorks, REAL Gastropub, Lanikai Brewing Company, Maui Brewing Company, Kona Brewing Company, and Big Island Brewhaus.

Your Committee received written comments in opposition to this measure from the Hawaii Partnership to Prevent Underage Drinking, SparksInitiatives, Hawaii Alcohol Policy Alliance, and four individuals.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that cooler beverages that combine wine or beer with other blending ingredients qualify for a lower Hawaii liquor tax rate that reflects the amount of wine or beer in the beverage. However, for a distilled spirit cooler beverage, the tax rate is based on the total volume of the beverage rather than only the amount of distilled spirit in the beverage, which subjects producers of these beverages to the higher tax rate for distilled spirits. Your Committee finds that a lower tax rate should be applied to distilled spirit cooler beverages in the same manner as for wine-based or beer-based cooler beverages.

Your Committee further finds that draft beer is taxed in Hawaii at a lower rate than all other beers. Although many people associate draft beer with any beer poured from a tap, Hawaii law limits the lower tax rate to draft beer dispensed from individual containers of seven gallons or more. Your Committee believes that a single, lower tax rate for all types of beer aligns with the current industry practice of breweries who manufacture beer dispensed from containers of less than seven gallons.

Your Committee has amended this measure by changing its effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1006, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1006, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

### SCRep. 873 Ways and Means on S.B. No. 1031

The purpose and intent of this measure is to address homelessness among senior citizens.

Specifically, this measure:

- (1) Establishes a long-term rental assistance pilot program to be administered by the Department of Health; and
- (2) Appropriates funds for the pilot program.

Your Committee received written comments in support of this measure from the Catholic Charities Hawaii, Hawaii Kai Homeless Task Force, Oahu County Democrats, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Partners in Care, and four individuals.

Your Committee received written comments in opposition to this measure from the Department of Health.

Your Committee received written comments on this measure from the Governor's Coordinator on Homelessness.

Your Committee finds that the State needs a long-term solution to the State's homelessness crisis. Your Committee further finds that this measure attempts to address homelessness among Hawaii's seniors by establishing a long-term rental assistance pilot program.

Your Committee notes that the proposed pilot program will require appropriations of \$1,500,000 for each of fiscal years 2019-2020 and 2020-2021.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1031, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1031, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Inouye).

## SCRep. 874 Ways and Means on S.B. No. 1036

The purpose and intent of this measure is to require health insurers and like entities, including the Hawaii Employer-Union Health Benefits Trust Fund, to include clinical victim support services as part of their mental illness, alcohol, and drug dependence benefits.

Your Committee received written comments in support of this measure from the LGBT Caucus of the Democratic Party of Hawaii, AAUW of Hawaii, and one individual.

Your Committee received written comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs.

Your Committee finds that requiring certain coverage for clinical victim support services will prevent additional trauma to the victims and more costly interventions over the short and long term.

Your Committee has amended this measure by:

- Making a technical correction to the listing of cross-referenced sections in the measure regarding health benefit plans of the Hawaii Employer-Union Health Benefits Trust Fund;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1036, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1036, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

## SCRep. 875 Ways and Means on S.B. No. 1213

The purpose and intent of this measure is to require the party initiating a bid challenge involving a contract with an estimated value of \$500,000 or more to pay the Department of Commerce and Consumer Affairs a nonrefundable filing fee to help defray the costs of addressing the bid challenge.

Your Committee received written comments in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee received written comments on this measure from the State Procurement Office.

Your Committee finds that this measure will help relieve the economic burden on the Department of Commerce and Consumer Affairs for the costs and expenses of conducting bid challenge proceedings.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1213, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1213, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Kahele, Riviere, Taniguchi).

### SCRep. 876 Ways and Means on S.B. No. 1236

The purpose and intent of this measure is to clarify and update state laws relating to parking for disabled persons.

Specifically, this measure:

- Clarifies that the exemption from parking fees applies only to those disabled persons who drive and are unable to reach or
  operate a parking meter due to a physical disability;
- (2) Updates relevant statutes to reflect current parking technology and terminology;
- (3) Makes the act of selling or buying a disability parking permit a misdemeanor;
- (4) Authorizes a law enforcement officer to confiscate a disability parking permit that is invalid or has been altered; and
- (5) Clarifies the types of disabilities that qualify for a disability parking permit.

Your Committee received written comments in support of this measure from the Disability and Communication Access Board and two individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that this measure will more closely align the parking meter payment exemption for disabled persons with its original intent by allowing only disabled persons who are unable to reach or feed a parking meter because of their disability to park vehicles in metered parking spaces without payment of parking meter fees.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1236, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1236, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

## SCRep. 877 Ways and Means on S.B. No. 1246

The purpose and intent of this measure is to promote the adoption of telehealth across the State.

Specifically, this measure:

- (1) Establishes a policy of the State to promote telehealth;
- (2) Establishes the state strategic telehealth advisory council to advise the Governor on a plan to establish telehealth as a means of health care access;
- (3) Establishes the state telehealth coordinator to support the state strategic telehealth advisory council; and
- (4) Requires the Department of Health to establish and convene a telehealth administrative simplification working group to research and make recommendations to reduce administrative barriers to telehealth.

Your Committee received written comments in support of this measure from the Department of Health, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaii Psychological Association, Hawaii Chapter of American Physical Therapy Association, Hawaii Medical Service Association, Healthcare Association of Hawaii, The Queen's Health Systems, Hawaii Primary Care Association, Early Childhood Action Strategy, and two individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs.

Your Committee finds that the current shortage of health care professionals in the State has disproportionately impacted its rural areas. Telehealth can help to provide access to health care, especially highly specialized and technical services, to patients who would not otherwise have access to those medical services.

Your Committee has amended this measure by:

- (1) Clarifying that the state strategic telehealth advisory council shall select a chairperson from among its members;
- (2) Recasting the provisions of section 2 in session law;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1246, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1246, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

### SCRep. 878 Ways and Means on S.B. No. 1255

The purpose and intent of this measure is to improve the management and protection of privately managed forests.

Specifically, this measure:

- (1) Clarifies that the forest stewardship program may assist landowners of privately managed forests;
- (2) Clarifies the requirements for participation in the forest stewardship program; and
- (3) Specifies that seventy-five percent of the cost of developing a forest stewardship management plan may be funded by payments from the forest stewardship fund.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources and Hawaii Agriculture Resource Center.

Your Committee finds that the majority of Hawaii's forested areas are privately owned or managed. This measure will help to ensure that those forests are properly managed by reducing the financial barriers faced by landowners in obtaining technical expertise to develop forest stewardship management plans.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1255, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1255, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (English, Taniguchi).

## SCRep. 879 Ways and Means on S.B. No. 1370

The purpose and intent of this measure is to reduce the number of cesspools on Hawaiian home lands.

More specifically, this measure:

- Establishes a grant program and special fund to assist lessees on Hawaiian home lands with cesspool upgrade, conversion, or connection costs;
- (2) Establishes that a recipient of a cesspool upgrade grant shall not be eligible for the cesspool upgrade, conversion, or connection income tax credit; and
- (3) Appropriates moneys for the grant program.

Your Committee received written comments in support of this measure from the Department of Hawaiian Home Lands, Department of Health, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, One World One Water, and two individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that section 342D-72, Hawaii Revised Statutes, requires that every cesspool in the State, other than those exempted by the Director of Health, be either upgraded or converted to a septic system or aerobic treatment unit system or connected to a sewerage system prior to January 1, 2050. This measure is intended to provide financial assistance to lessees on Hawaiian home lands who might not otherwise be able to afford expensive cesspool upgrade, conversion, or connection costs.

Your Committee has amended this measure by:

- (1) Deleting the provisions that establish and appropriate moneys to and from the special fund;
- (2) Making a general fund appropriation to implement the grant program;

- (3) Changing the appropriation to an unspecified amount; and
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1370, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1370, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

#### SCRep. 880 Judiciary on S.B. No. 1241

The purpose and intent of this measure is to permit the Department of Business, Economic Development, and Tourism to share energy data with the Department of Health for purposes of regulating greenhouse gas emissions.

Your Committee received testimony in support of this measure from the Department of Health; Department of Business, Economic Development, and Tourism; Young Democrats of Hawaii; and Elemental Excelerator.

Your Committee finds that climate change poses a serious environmental, economic, and public health threat and the State has taken strides to reduce its greenhouse gas emissions. Your Committee also finds that the Department of Health is the primary agency with regulatory oversight of Hawaii's greenhouse gas emissions because it prepares annual greenhouse gas progress reports that contain a statewide greenhouse gas emission inventory, assessment of the State's progress to achieve the 2020 greenhouse gas emissions limit, and estimate of uncertainties.

Existing state law prohibits the Department of Business, Economic Development, and Tourism from sharing energy data in its original form with the Department of Health. Before sharing, this data must be aggregated by the Department of Business, Economic Development, and Tourism to protect proprietary information. Your Committee further finds that greenhouse gas emissions calculations from the aggregated data have a higher degree of uncertainty than calculations using the original data. This measure allows the Department of Business, Economic Development, and Tourism to share original energy data with the Department of Health, which will reduce uncertainty, result in more accurate statewide greenhouse gas emissions inventories, and provide a more reliable basis for future greenhouse gas reduction efforts.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1241, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1241, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 881 Judiciary on S.B. No. 1135

The purpose and intent of this measure is to:

- (1) Provide the Land Use Commission with the power to amend, revise, or modify a decision and order granting a district boundary amendment, or fine a petitioner, when there has been a finding by the Land Use Commission that a petitioner or its successors or assigns have not adhered to a representation made by the petitioner or a condition imposed by the Commission, regardless of whether there has been substantial commencement of use of the land; and
- (2) Define substantial commencement.

Your Committee received testimony in support of this measure from the Office of Planning and Land Use Commission. Your Committee received testimony in opposition to this measure from the Department of Planning and Permitting of the City and County of Honolulu, Building Industry Association of Hawaii, Land Use Research Foundation of Hawaii, and Chamber of Commerce of Hawaii.

Your Committee finds that the Land Use Commission has insufficient enforcement power to address noncompliance with district boundary amendments. Your Committee also finds that only in limited circumstances, can the Land Use Commission enforce its decisions before there has been substantial commencement of the use of the land. Furthermore, the Land Use Commission can only assess one type of penalty, which is reversion to the former land use classification, and is unable to change or modify conditions that could be more appropriate. This measure gives the Land Use Commission the authority and flexibility to amend, revise, or modify a decision after an evidentiary hearing and a finding of noncompliance regardless of whether there has been substantial commencement of use of the land. Furthermore, the Land Use Commission can remedy noncompliance violations without having to revoke permits and stop a project, which supports the State's economic and social interests of promoting project completion.

Your Committee has amended this measure by making it effective on January 1, 2020.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1135, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1135, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 882 (Majority) Judiciary on S.B. No. 674

The purpose and intent of this measure is to prohibit any person licensed to provide professional counseling from engaging and advertising sexual orientation or gender identity change efforts.

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i Civil Rights Commission, LGBT Caucus of the Democratic Party of Hawai'i, Aloha State Association of the Deaf, Hawai'i Psychological Association, Mental Health America of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Planned Parenthood Votes Northwest and Hawaii, and eight individuals.

Your Committee finds that the original intent of Act 13, Session Laws of Hawaii 2018 (Act 13), was to protect the physical and psychological well-being of minors, including lesbian, gay, bisexual, and transgender youth, against exposure to serious harms caused by sexual orientation change efforts. However, Act 13 unintentionally left out individuals who have experienced attempts at gender identity change efforts. This measure will broaden the applicability of Act 13 by clarifying that the ban on efforts to change the sexual orientation of youth equally applies to efforts to change the gender identify of youth.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 674, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 674, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 1 (Gabbard). Excused, 1 (Fevella).

### SCRep. 883 Judiciary on S.B. No. 1261

The purpose and intent of this measure is to authorize the Department of Land and Natural Resources to enter into the Interstate Wildlife Violator Compact or similar agreement for mutual assistance in the enforcement of wildlife laws.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaiian Humane Society, The Humane Society of the United States, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual.

Your Committee finds that the Interstate Wildlife Violator Compact is a multistate agreement that promotes enforcement of hunting, fishing, trapping, and other wildlife related regulation across state lines. If an individual loses their hunting privileges in a member state, that individual could not obtain a hunting license in another member state. Currently, Hawaii is not a member of the Interstate Wildlife Violator Compact. This measure would authorize the Department of Land and Natural Resources to join the Interstate Wildlife Violator Compact or similar agreement, which will enhance Hawaii's ability to protect and manage wildlife resources for the benefit of all residents and visitors.

Your Committee has amended this measure by:

- (1) Changing the effective date to make it effective upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1261, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1261, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 884 (Joint) Judiciary and Ways and Means on S.B. No. 522

The purpose and intent of this measure is to:

- (1) Prohibit the purchase, use, sale, or distribution of plastic beverage bottles, utensils, stirring sticks, polystyrene foam containers, and straws by state and county agencies after July 1, 2021, and by businesses selling food and beverages after July 1, 2022;
- (2) Ban the distribution or sale of plastic bags after July 1, 2023; and
- (3) Create the plastic source reduction working group to make recommendations for eliminating single-use plastic packaging.

Your Committees received testimony in support of this measure from one member of the Hawai'i County Council, Animal Rights Hawai'i, Organizing for Action, Friends of Hanauma Bay, Sustainable Coastlines Hawai'i, Hawai'i Reef and Ocean Coalition, No Single Use Hawaii, Zero Waste O'ahu, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Kahili Adventist School, Surfrider Foundation, Wipeout Crew, Sierra Club of Hawai'i, and eighty-one individuals. Your Committees received testimony in opposition to this measure from Pho Tri Restaurant; Cooke Street Diner; LoCo MoCo Drive Inn—Ewa Beach; Island Plastic Bags Inc.; Hawaii Restaurant Association; Hawaii Food Industry Association; Papa's Cafe; Nabeya Maido; Shiro's Saimin Haven; American Beverage Association; American Chemistry Council; Hibachi; Queen Street Cafe & Grill; HNA FOOD SERVICES LLC; Jets Fast Food; Tatsuos; Stadium Pho; Retail Merchants of Hawaii; Pancakes & Waffles BLD Hawaii; Hale Inu Sports Bar; Chamber of Commerce Hawaii; KYD, Inc. dba: K. Yamada Distributors; and six individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources and Department of Health.

Your Committees find that the local impact of the world's increasing waste stream is unsustainable and detrimental to the future of Hawaii's economy and people. There has been an exponential rise in single-use disposable food ware and packaging, including plastic

bottles, caps, lids, straws, cups, and polystyrene and plastic containers, which are major contributors to street and beach litter, ocean pollution, wildlife harm, and greenhouse gas emissions.

Your Committees further find that cleaning up plastic is a significant cost to Hawaii taxpayers. The cost of cleanups by government agencies, businesses, and the general public is rising to account for expensive best management practices and mitigation, as well as the tremendous increase in plastic litter. The Department of Transportation produced a trash management plan that shows that polystyrene foam and plastic bags are the top two contributors to the local waste stream and must be regularly removed from storm drains at a cost to the Department and taxpayers.

Your Committees also find that prohibiting the purchase, use, sale, or distribution of plastic beverage bottles, utensils, stirring sticks, polystyrene foam containers, and straws by state and county agencies, and gradually extending this ban to other entities, is in the environmental, financial, and public welfare interests of the State.

Your Committees have amended this measure by inserting an effective date of March 15, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 522, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 522, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5; Ayes with Reservations (Kim, Fevella). Noes, none. Excused, none.

Ways and Means: Ayes, 9; Ayes with Reservations (Taniguchi, Fevella). Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

#### SCRep. 885 (Joint) Judiciary and Ways and Means on S.B. No. 921

The purpose and intent of this measure is to establish a division within the Department of the Attorney General to provide legal advice regarding Hawaiian shoreline public access rights and make an appropriation.

Your Committees received testimony in support of this measure from one individual. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that government agencies are obligated to properly apply law relating to Hawaiian shoreline public access rights on matters relevant to the agency's executive and administrative decision-making authority. Your Committees further find that in order to properly apply such law, government agencies must have an understanding of the scope of public access shoreline rights. This measure will provide the Department of the Attorney General with the necessary resources relating to native Hawaiian traditional and cultural rights to ensure proper application of laws relating to Hawaiian shoreline public access rights.

Your Committees have amended this measure by:

- (1) Inserting an effective date of March 15, 2094, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 921, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 921, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 9; Ayes with Reservations (Harimoto, Moriwaki). Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

## SCRep. 886 Housing on S.B. No. 1187

The purpose and intent of this measure is to require eligible affordable housing projects developed pursuant to section 201H-38, Hawaii Revised Statutes, and within a community development district to consult with the Hawaii Community Development Authority.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Hawaii Housing Finance and Development Corporation.

Your Committee finds that there is no formal entitlement process for affordable housing projects that are developed pursuant to section 201H-38, Hawaii Revised Statutes, and are therefore exempt from certain state and county laws, and located within a community development district. Your Committee further finds that the construction, renovation, and improvement of county or state agency projects within a community development district are subject to formal consultation with the Hawaii Community Development Authority to ensure the transparency of these projects. This measure will expedite the delivery of, and clarify the entitlement process for, eligible affordable housing units being developed within a community development district.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1187 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 887 (Joint) Commerce, Consumer Protection, and Health and Judiciary on S.B. No. 1406

The purpose and intent of this measure is to:

- (1) Clarify the scope and practice of physician assistants in the State;
- (2) Amend the composition of the Hawaii Medical Board to include two physician assistants; and
- (3) Expand the grounds for revocation or suspension of a physician or surgeon's license.

Your Committees received testimony in support of this measure from Hawai'i Pacific Health, American Academy of PAs, Society of Physician Assistants in Rheumatology, Minit Medical, and twenty-three individuals. Your Committees received testimony in opposition to this measure from the Hawaii Medical Association. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs, Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, Hawaii Medical Board, and Kaiser Permanente Hawaii.

Your Committees find that Hawaii is facing a critical physician shortage, especially in rural areas, which is expected to worsen with the increased demand for health care from an aging population. The latest physician workforce survey by the University of Hawaii shows that nearly eight hundred doctors are needed across all specialties in the State. Physician assistants are skilled health care providers trained to take medical histories, perform physical examinations, order and interpret laboratory tests, diagnose illnesses, develop and manage treatment plans, prescribe medications, and assist in surgery. Further, since the federal Affordable Care Act was passed in 2010, physician assistants have been one of the three health care professionals (along with physicians and nurse practitioners) who are authorized to provide primary care. Existing state law, however, requires physicians to review one hundred percent of physician assistants' charts, one of the most restrictive standards in the country, which creates a significant administrative burden on physicians.

Your Committees further find that a number of stakeholders, including the Hawaii Academy of Physician Assistants, Hawaii Medical Board, and Kaiser Permanente, have collaborated to suggest certain amendments and provisions that modernize the scope of practice for physician assistants. The consensus language is narrower in scope than this measure, but still provides physician assistants greater latitude to meet the urgent need for reform.

Accordingly, your Committees have amended this measure by deleting its contents and adopting consensus language agreed upon by stakeholders that:

- (1) Clarifies that the existing supervisory requirements for licensure as a physician assistant, including the degree of supervision required, also include supervision by a group of physicians;
- (2) Specifies requirements for the supervisory review of physician assistant medical records, including a percentage of supervision based on duration of licensure;
- (3) Establishes biennial requirements of forty credit hours of continuing medical education for physician assistant license renewal;
- (4) Authorizes the Hawaii Medical Board to conduct random audits to enforce compliance; and
- (5) Specifies conditions for forfeiture and reinstatement of a physician assistant license.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1406, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1406, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman). Judiciary: Ayes, 5. Noes, none. Excused, none.

# SCRep. 888 (Joint) Commerce, Consumer Protection, and Health and Judiciary on S.B. No. 1525

The purpose and intent of this measure is to make permanent the licensure requirements for home care agencies licensed by the Department of Health.

Your Committees received testimony in support of this measure from the Department of Health and one individual.

Your Committees find that home care agencies provide an important service to independent but elderly or disabled persons by providing home-based non-health care services that enable those persons to remain in their homes. Existing licensure requirements for home care agencies include background checks on home care operators and workers and require caregivers to receive instructions and oversight from the home care agency supervisor. Your Committees note that the current statutory requirement for licensure for home care agencies is set to be repealed on June 30, 2019. Your Committees further find that in order to safeguard the health, safety, and welfare of home care clientele, the Department of Health's current licensure requirements for home care agencies should be retained and made permanent.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1525, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1525, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees. Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman). Judiciary: Ayes, 5. Noes, none. Excused, none.

### SCRep. 889 (Joint/Majority) Commerce, Consumer Protection, and Health and Judiciary on S.B. No. 415

The purpose and intent of this measure is to authorize advanced practice registered nurses to perform aspiration abortions.

Your Committees received testimony in support of this measure from the Hawai'i State Commission on the Status of Women, American Association of University Women of Hawaii, Hawai'i Section of the American College of Obstetricians and Gynecologists, Planned Parenthood Votes Northwest and Hawaii, Save Medicaid Hawaii, Healthy Mothers Healthy Babies, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, LGBT Caucus of the Democratic Party of Hawaii, ACLU Hawai'i, over twenty individuals, and a form letter signed by ninety-eight individuals. Your Committees received testimony in opposition to this measure from the Honolulu County Republican Party, Hawaii Family Forum, One Love Ministries, and over eighty individuals. Your Committees received comments on this measure from the Board of Nursing and Hawai'i State Center for Nursing.

Your Committees find that Hawaii is experiencing a critical physician shortage, especially in rural areas. Existing law prohibits anyone other than a physician or surgeon or an osteopathic physician and surgeon from providing aspiration abortions, a common procedure for surgically terminating an abortion in the first trimester. For those in rural or underserved communities, traveling to another island or county due to existing restrictions creates excessive barriers that may mean they are not able to access legal abortion at all.

According to testimony received by your Committees, a 2018 review by the National Academies of Sciences, Engineering, and Medicine examined and compared the outcomes of abortions provided by physicians with those provided by nurse practitioners and other advanced practice clinicians. This review concluded that advanced practice registered nurses are just as capable of providing safe and effective abortion care as physicians and surgeons when the advanced practice registered nurses have received proper training.

Your Committees additionally note that many women routinely receive well-women care from advanced practice registered nurses who are considered primary care providers in Hawaii and are qualified to safely perform the procedures contemplated by this measure. Abortion is already permitted in the State, and this measure significantly improves access to comprehensive reproductive health care.

Your Committees have amended this measure by:

- (1) Specifying in the nurse practice act that advanced practice registered nurses with prescriptive authority, and who meet other specific qualifications, may perform abortions by medication or aspiration;
- (2) Clarifying that advanced practice registered nurses shall only perform abortions by medication or aspiration;
- (3) Specifying that no abortion shall be performed in the State unless the abortion is performed by specific licensed health care providers acting within the licensed health care providers' lawful scopes of practice;
- (4) Removing excessive criminal penalties;
- (5) Specifying that individual health care providers, but not hospitals, are permitted to opt out of providing abortions, as permitting entire hospitals to opt out creates a significant barrier to women seeking abortions;
- (6) Preserving an individual's ability for refusal to participate in an abortion or be liable for such refusal, as long as the person provides prior written notice and the refusal does not cause a serious risk to another person's health or life; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 415, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 415, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, 1 (Fevella). Excused, 2 (Nishihara, Ruderman).

Judiciary: Ayes, 3. Noes, 2 (Gabbard, Fevella). Excused, none.

## SCRep. 890 Commerce, Consumer Protection, and Health on S.B. No. 1210

The purpose and intent of this measure is to update and improve existing provisions of the State's insurance laws under title 24, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Board of Nursing, Board of Pharmacy, University of Hawai'i System, Hawaii Medical Service Association, Hawaii Captive Insurance Council, and seven individuals. Your Committee received comments on this measure from the American Council of Life Insurers, American Family Life Assurance Company of Columbus, and one individual.

Your Committee finds that this measure is intended to update and improve various areas of the State's insurance laws. Furthermore, this measure is, in part, necessary for the State's continued accreditation with the National Association of Insurance Commissioners. This measure modernizes provisions, removes antiquated systems, and benefits insurers and consumers by removing redundancy, time, and cost barriers.

Your Committee has amended this measure by:

- Clarifying that the corporate governance annual disclosure shall be prepared consistent with rules adopted by the Insurance Commissioner, rather than the National Association of Insurance Commissioners' Corporate Governance Annual Disclosure Model Regulation;
- (2) Clarifying that the short-term health insurance preexisting disclosure requirement does not apply to accident-only health insurance:

- (3) Clarifying that a health care provider who performs a service is eligible for reimbursement to the extent that the health care provider is eligible for reimbursement under a policy, contract, plan, or agreement, and is acting within the scope of the provider's license or certification under state law;
- (4) Inserting an effective date of October 1, 2019; relating to proposed name changes and use of a trade name or assumed name; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1210, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1210, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Chang, Nishihara).

#### SCRep. 891 (Joint) Water and Land and Ways and Means on S.B. No. 1251

The purpose and intent of this measure is to authorize the Board of Land and Natural Resources (Board) to extend commercial, industrial, or resort leases that have not been transferred or assigned within the last twenty years, for lessees who commit to making substantial improvements to the existing improvements.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hilo Fish Company, Kanoelehua Industrial Area Association, and five individuals. Your Committees received testimony in opposition to this measure from the Office of Hawaiian Affairs, Kailapa Community Association, Laulima Pahoa, Na Ao Koa, Ka Ohana O Na Pua, Ohana Hoʻopakele, and over two hundred fifty individuals. Your Committees received comments on this measure from one individual.

Your Committees find that many of the leases for commercial, industrial, and resort properties on public land statewide may be nearing the end of their lease terms. Faced with the uncertainty of continued tenancy, lessees have little incentive to make major investments in infrastructural improvements and therefore the infrastructure on these properties has been deteriorating. Your Committees further find that Act 149, Session Laws of Hawaii 2018 (Act 149), established a ten year pilot program that, among other things, authorizes the Board to extend or modify the terms of certain public land leases within the Hilo Community Economic District upon approval by the Board of a lessee's development agreement to make substantial improvements to or construct new improvements on the land as long as the length of any extension granted does not extend the original lease term by more than forty years. Your Committees find that the provisions of Act 149 are a proper model by which to allow extensions of industrial and commercial leases approaching their expiration date.

Accordingly, your Committees have amended this measure by:

- (1) Limiting the provisions to industrial and commercial leases that are subject to the management, administration, or control of the Board and will expire within an unspecified number of years of receipt of an application for a lease extension;
- (2) Deleting references to resort leases;
- (3) Amending the Board's authority regarding extension of leases;
- (4) Specifying that the length of any extension granted, in the aggregate, shall not extend the original lease term by more than forty years;
- (5) Inserting language to require an extension of the rental period or lease term to be based on the economic life of the substantial improvements as determined by the Board or an independent appraiser and subject to other specified requirements;
- (6) Deleting language that would have prohibited assignments and transfers of leases during the extension period;
- (7) Inserting language that establishes causes of economic hardship for which the Board may modify or eliminate any of the existing statutory restrictions, extend or modify the rental period, or extend the term of industrial and commercial public land leases, and amends the conditions for the Board's approval of any such modification, elimination, or extension;
- (8) Specifying that substantial improvements are certain improvements, the cost of which equals or exceeds thirty percent, rather than fifty percent, of the market value of the existing improvements;
- (9) Inserting an effective date of December 31, 2050, to encourage further discussion;
- (10) Inserting a blank repeal date; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1251, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1251, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Water and Land: Ayes, 3; Ayes with Reservations (Riviere). Noes, none. Excused, 2 (Nishihara, Fevella).
Ways and Means: Ayes, 12; Ayes with Reservations (Riviere). Noes, none. Excused, 1 (Fevella).

# SCRep. 892 (Joint) Water and Land and Ways and Means on S.B. No. 1258

The purpose and intent of this measure is to:

- (1) Allow the Board of Land and Natural Resources (Board) to lease any existing state boating facility in its entirety, and fast lands and submerged lands within any existing state boating facility, by public auction, request for proposals, or direct negotiation for private development, management, and operation if the Board finds that the lessee has considered the risk of sea level rise on the area to be leased and the effect of sea level rise will be minimal during the term of the lease;
- (2) Clarify that legislative authorization is not required to award a lease, except that the Board may request authorization from the Legislature in extraordinary circumstances, by concurrent resolution, where the Board has not made findings regarding sea level rise factors; and
- (3) Repeal fast lands and submerged lands lease requirements specific to the Ala Wai Boat Harbor.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources. Your Committees received testimony in opposition to this measure from the Ocean Tourism Coalition and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that community input and involvement are critical to effective and sustainable development within the State. While sea level rise is a critical factor to consider in long-term planning, your Committees believe it is just as critical to foster effective relationships between developers and the community.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language that would have required the Board of Land and Natural Resources to consider sea level rise factors prior to approving the lease of any existing state boating facility and making a conforming amendment;
- (2) Inserting language to require the Board of Land and Natural Resources, prior to approving the lease of any existing state boating facility, to find that the lessee has:
  - (A) Given public notice of any proposed development plans;
  - (B) Engaged with the community to be affected in regard to the development plans;
  - (C) Considered community concerns; and
  - (D) Developed a plan to address adverse impacts; and
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water and Land and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1258, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1258, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

Ways and Means: Ayes, 12; Ayes with Reservations (English). Noes, none. Excused, 1 (Fevella).

# SCRep. 893 (Joint) Water and Land and Ways and Means on S.B. No. 1259

The purpose and intent of this measure is to require vessel owners operating a vessel in or on state ocean waters that is required to be registered with the State or required to be documented by the United States Coast Guard to obtain marine insurance coverage.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and Ocean Tourism Coalition. Your Committees received testimony in opposition to this measure from three individuals.

Your Committees find that, in addition to environmental damage from grounded vessels, uninsured vessels that run aground, are derelict, or are abandoned in waters of the State cause the State to sometimes incur all costs involved in removing the vessel. The Division of Boating and Ocean Recreation has required insurance for vessels moored in state small boat harbors as a condition of obtaining a mooring permit since 2009 but has no existing mechanism for addressing insurance concerns for the numerous other vessels located in the State but not stored on state facilities. This measure establishes marine insurance requirements to address these vessels.

Your Committees have amended this measure by:

- Applying the mandatory marine insurance requirement only to vessels originally manufactured at a length of twenty-six feet or more, or under twenty-six feet if the vessel is grounded in the State;
- (2) Setting the mandatory vessel insurance minimum at \$100,000;
- (3) Allowing a vessel owner to obtain an alternative insurance acceptable to the Department of Land and Natural Resources;
- (4) Amending the Board of Land and Natural Resources' authority to grant exemptions from the marine insurance coverage requirement for certain transient vessels under certain circumstances;
- (5) Inserting a definition for "grounded vessel";
- (6) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1259, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1259, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

#### SCRep. 894 Ways and Means on S.B. No. 76

The purpose and intent of this measure is to establish a non-refundable income tax credit for the purchase of a personal emergency response system.

Your Committee received testimony in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that this measure establishes an income tax credit to assist Hawaii residents in the purchase of a personal emergency response system, which is an alarm system designed to permit the user to signal the occurrence of a medical or personal emergency to alert a provider.

Your Committee has amended this measure by:

- (1) Clarifying that a taxpayer's federal adjusted gross income shall be used to determine eligibility for the tax credit;
- (2) Clarifying income requirements for eligibility to claim the tax credit, based on taxpayers' filing status;
- (3) Requiring the Department of Health to certify tax credit amounts;
- (4) Making the tax credit applicable to taxable years beginning after December 31, 2019;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive amendments for purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 76, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 76, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (English, Kahele, Taniguchi).

### SCRep. 895 (Majority) Ways and Means on S.B. No. 77

The purpose and intent of this measure is to make an appropriation of funds to the Department of Budget and Finance for the Ala Wai flood risk management project.

Your Committee received testimony in support of this measure from the Office of the Governor, Department of Budget and Finance, City and County of Honolulu Department of Design and Construction, and two individuals,

Your Committee received testimony in opposition to this measure from Diamond Head/Kapahulu/St. Louis Heights Neighborhood Board No. 5; Halau Ku Mana New Century Public Charter School; The Outdoor Circle; www.stopalawaiproject.com; Hui Makaainana a Kalawahine; Mana Maoli, LLC; and numerous individuals.

You Committee received comments on this measure from one individual.

Your Committee recommends that if the Council on Revenues' March 2019 forecast of revenues is lower than the January 2019 forecast of revenues, provisions should be added to this measure amending section 237D-6.5, Hawaii Revised Statutes, to reduce the City and County of Honolulu's share of the transient accommodations tax revenues and reallocate those moneys to satisfy the federal requirement that thirty-five percent of Ala Wai flood risk management project costs be funded by a local entity.

Your Committee finds that during the hearing, representatives from the State, City and County of Honolulu, and United States Army Corps of Engineers committed to work together to develop and execute a communication plan to engage the community in the project design and to provide continuing status updates to the public. The parties also committed to consider the preservation of schools and other public institutions that have cultural or historical significance and to address the concerns of private property owners to minimize the adverse impacts of the project.

Your Committee encourages the parties to work together with community groups to identify opportunities to investigate and implement appropriate traditional land management practices for ecosystem preservation and restoration projects in the Ala Wai watershed.

Your Committee has amended this measure by:

- Authorizing the State to use a financing agreement and issue certificates of participation as an alternative to expending general revenues to satisfy the federal requirement that thirty-five percent of Ala Wai flood risk management project costs be funded by a local entity;
- (2) Requiring that any financing agreement entered into:
  - (A) Shall be subject to chapter 37D, Hawaii Revised Statutes;

- (B) Shall not require the State to expend funds in excess of the amounts appropriated by the Legislature;
- (C) Shall not obligate the Legislature to appropriate or make moneys available for any payments;
- (D) Shall not require the obligation to make any payments to be secured by the full faith and credit of the State; and
- (E) Shall not constitute bonds, count towards the total amount of outstanding state general obligation bonds, or require the issuance by the State of future general obligation bonds authorized under the Hawaii State Constitution; and
- (3) Amending the appropriation section by adding a proviso that prohibits the Department of Budget and Finance from expending any moneys appropriated in the measure if the Ala Wai flood risk management project is funded by a financing agreement.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 77, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 77, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Moriwaki, Shimabukuro, Fevella). Noes, 1 (Taniguchi). Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

# SCRep. 896 Ways and Means on S.B. No. 126

The purpose and intent of this measure is to appropriate funds for the operating and capital improvement budgets of the Executive Branch for the 2019-2021 fiscal biennium.

Your Committee received testimony in support of this measure from the Office of the Governor; Department of Land and Natural Resources: Department of Business, Economic Development, and Tourism: Department of Commerce and Consumer Affairs: Department of Human Resources Development; Department of Human Services; Department of the Attorney General; Department of Labor and Industrial Relations; Department of Hawaiian Home Lands; Department of Agriculture; Department of Taxation; Department of Defense; Department of Accounting and General Services; Department of Budget and Finance; Department of Public Safety; Department of Education; Department of Transportation; Department of Health; University of Hawaii; Office of Enterprise Technology Services; Hawaii Public Housing Authority; Hawaii Green Infrastructure Authority; Land Use Commission; Office of Elections; Campaign Spending Commission; Hawaii State Public Library System; Hawaii Housing Finance and Development Corporation; Hawaii Community Development Authority; Executive Office on Early Learning; Hawaii Strategic Development Corporation; Pacific International Space Center for Exploration; Hawaii State Commission on the Status of Women; Public Utilities Commission; Office of Information Practices; Hawaii Technology Development Corporation; Hawaii Tourism Authority; State Public Charter School Commission; Pacific International Space Center for Exploration Systems (PISCES); Special Education Advisory Council; Alexander and Baldwin; Maui Health System; Ben Dyre Family Limited Partnership; The Nature Conservancy; The Kauai Watershed Alliance; Kahuku Medical Center; Mauna Kahalawai Watershed Partnership; Hawaii Association of Watershed Partnerships; Catholic Charities Hawaii; Shark Wheel, Inc.; Partners in Care; Kamehameha Schools; Coordinating Group on Alien Pest Species; RedWorks Construction Technologies Inc; and eight individuals.

Your Committee received testimony in opposition to this measure from four individuals.

Your Committee received comments on this measure from Hawaii Health Systems Corporation, State Procurement Office, and Hawaii Primary Care Association.

Your Committee finds that replacing the contents of this measure with provisions for an unspecified appropriation will provide a vehicle to fulfill requests made through Governor's Messages to the Legislature during the remainder of the 2019 Regular Session for any additional funding not currently under consideration in another measure.

Your Committee has amended this measure by deleting its contents and inserting provisions for an unspecified appropriation of general funds to be expended by the Office of the Governor.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 126, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 126, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

## SCRep. 897 Ways and Means on S.B. No. 859

The purpose and intent of this measure is to appropriate funds for the capital improvement project costs of the State for the fiscal biennium 2019-2021.

Your Committee received testimony in support of this measure from the Department of Human Services, Office of Enterprise Technology Services, Executive Office on Early Learning, Hawaii Housing Finance and Development Corporation, Kamehameha Schools, East Diamond Head Association, and three individuals.

Your Committee received comments on this measure from the Department of Accounting and General Services, Department of Hawaiian Home Lands, Department of Land and Natural Resources, Department of Defense, Hawaii Public Housing Authority, Hawaii Educational Policy Center, and Hawaii Health Systems Corporation.

Your Committee finds that this measure provides an opportunity to invest in the State's infrastructure while remaining fiscally

The Administration's proposed capital improvement program budget totaled:

	FY 2020	FY 2021
General Obligation Bonds	\$978,181,000	\$731,543,000
All Means of Financing	\$2,020,809,000	\$1,483,192,000

Your Committee has amended this measure by inserting provisions that amend the Administration's capital improvement program budget to provide the following in capital improvement funds to focus on critical and significant capital projects:

	FY 2020	FY 2021
General Obligation Bonds	\$920,237,000	\$538,468,000
All Means of Financing	\$1,862,814,000	\$1,241,716,000

Your Committee has also amended the effective date of the measure to January 7, 2059, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 859, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 859, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

### SCRep. 898 Ways and Means on S.B. No. 972

The purpose and intent of this measure is to establish an income tax credit to incentivize construction of a new drydock at Pearl Harbor for use by the United States Navy.

Your Committee received testimony in support of this measure from Pacific Marine and Supply, Co.; Ship Repair Association of Hawaii; and two individuals.

Your Committee received testimony in opposition to this measure from A & B Electric Co., Inc.; and one individual.

Your Committee received comments on this measure from the Department of Taxation; Tax Foundation of Hawaii; and one individual.

Your Committee finds that, due to a lack of sufficient drydock capacity at Pearl Harbor, many surface ships are scheduled to be relocated to San Diego for deep maintenance, with some of these ships at risk of not returning. Your Committee also finds that the impact of losing surface vessel repair work would be far-reaching and would directly cause the loss of jobs associated with military surface ships. Your Committee further finds that the construction of a purpose-built floating drydock capable of accommodating any of the submarines and surface ships currently docked or planned to be docked at Pearl Harbor would mitigate losses that stem from a lack of capacity.

Your Committee has amended this measure by:

- (1) Establishing the ship repair industry tax credit in a new section of the Hawaii Revised Statutes;
- (2) Removing an incorrect reference to section 1012 of the Internal Revenue Code;
- (3) Specifying that the tax credit may be claimed only after the floating drydock is placed into service;
- (4) Clarifying the maximum amount that a qualified entity may claim for the tax credit;
- (5) Repealing section 235-17.5, Hawaii Revised Statutes;
- (6) Applying the tax credit to taxable years beginning after December 31, 2019;
- (7) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (8) Making technical nonsubstantive amendments for purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 972, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 972, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13; Ayes with Reservations (Taniguchi). Noes, none. Excused, none.

## SCRep. 899 Ways and Means on S.B. No. 1167

The purpose and intent of this measure is to promote and support the State's agriculture industry by authorizing agricultural enterprises on lands under the authority of the Department of Agriculture.

More specifically, this measure:

- (1) Authorizes the Department of Agriculture to plan, design, construct, operate, manage, maintain, repair, demolish, and remove facilities on any lands within its jurisdiction, and permit its lessee to do the same;
- (2) Authorizes the department, upon mutual agreement and approval by the Board of Agriculture, to accept the transfer of and manage certain agricultural enterprise lands and agricultural enterprises from the Department of Land and Natural Resources;
- (3) Establishes the Agricultural Enterprise Program within the Department of Agriculture to manage agricultural enterprise lands and agricultural enterprises transferred to the Department of Agriculture;

- (4) Establishes the agricultural enterprise special fund; and
- (5) Appropriates moneys into and out of the agricultural enterprise special fund:
  - (A) For the planning, design, construction, operation, management, maintenance, repair, demolition, and removal of infrastructure on certain lands under the Department of Agriculture's jurisdiction; and
  - (B) To establish three full-time equivalent (3.0 FTE) positions within the Department of Agriculture.

Your Committee received testimony in support of this measure from the Department of Agriculture, the Department of Taxation, Hawaii County Council, Hawaii Farm Bureau, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and Pacific Agricultural Land Management Systems.

Your Committee received comments on this measure from the Agribusiness Development Corporation.

Your Committee finds that authorizing the use of lands under the authority of the Department of Agriculture for agricultural enterprises will encourage the implementation of optimized methods of agricultural production.

Your Committee has amended this measure by:

- Requiring the Department of Agriculture to provide prior notice to the Agribusiness Development Corporation of any actions taken in relation to agricultural enterprises;
- Authorizing the Agribusiness Development Corporation to disallow any actions that the Department of Agriculture intends to take in relation to agricultural enterprises;
- (3) Removing provisions establishing or appropriating moneys for Agricultural Resource Management Division positions;
- (4) Changing the appropriations to unspecified amounts; and
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1167, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1167, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Riviere). Noes, none. Excused, 2 (Harimoto, Inouye).

#### SCRep. 900 Ways and Means on S.B. No. 1314

The purpose and intent of this measure is to amend the provisions of the high technology research income tax credit and extend its operation.

Specifically, this measure:

- Amends the tax credit for research activities so that references to the base amount in section 41 of the Internal Revenue Code shall not apply, and credit for all qualified research expenses may be taken without regard to the amount of expenses for previous years; and
- (2) Extends the tax credit for research activities through 2024.

Your Committee received testimony in support of this measure from Gabriel Health, Inc.; Hawaii Aerospace Corporation; Makai Ocean Engineering, Inc.; Nalu Scientific, LLC; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Oceanit; Smart Yields; Tapiki; and eight individuals.

Your Committee received comments on this measure from the Department of Taxation, Hawaii Technology Development Corporation, and Tax Foundation of Hawaii.

Your Committee finds that this measure is intended to support the growth of Hawaii's technology industry.

Your Committee has amended this measure by:

- (1) Applying the measure to taxable years beginning after December 31, 2019;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1314, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1314, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

### SCRep. 901 Ways and Means on S.B. No. 1516

The purpose and intent of this measure is to reduce taxpayer penalties for nonpayments and underpayments.

More specifically, this measure:

(1) Sets lower penalty amounts and interest rates for earlier, rather than later, payments; and

(2) Allows a taxpayer to post a bond to avoid penalties and interest.

Your Committee received testimony in opposition to this measure from the Department of Taxation.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that, under current tax law, Hawaii imposes many different penalties on different types of infractions. These penalties are also cumulative, so that a taxpayer who fails to file a required return is often subject to much higher penalties under state law than they would be under federal law.

Your Committee has amended this measure by:

- (1) Deleting the provisions setting lower penalty amounts and interest rates for earlier rather than later payments;
- (2) Establishing reduced taxpayer penalties for nonpayments and underpayments that are due to reasonable cause, and not due to negligence, intentional disregard of administrative rules, or fraud;
- (3) Increasing the penalty for underpayment due to fraud;
- (4) Adjusting the penalty amounts for failure to file a tax return;
- (5) Providing that a bond posted by a taxpayer to avoid penalties and interest shall be refundable and may be posted confidentially by an agent of the taxpayer;
- (6) Assessing interest on a deficiency in state income taxes paid by a taxpayer that is caused by a change in the taxable income reported on the taxpayer's federal tax return; and
- (7) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1516, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1516, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (English).

# SCRep. 902 Human Services on S.C.R. No. 6

The purpose and intent of this measure is to urge the Department of Human Services to adjust the under the Child Care Connection Hawaii program to a maximum of ten percent of family income spending on child care and create a three-level sliding scale for copayments based on the amount of the families' income.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that many families in Hawaii are forced to choose between a paycheck and child care. Your Committee further finds that the Department of Human Services allows for child care cost reimbursement under the Child Care Connection Hawaii program. However, Hawaii has among the highest average costs of child care and the current child care copayment ratio in Hawaii is the worst in the nation, at up to nineteen percent of the family income spending on child care. Your Committee finds that increasing the eligibility criteria for receiving child care subsidies would allow parents to secure stable employment and improve their families' financial wellbeing.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 6 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Ihara).

# SCRep. 903 Human Services on S.R. No. 6

The purpose and intent of this measure is to urge the Department of Human Services to adjust the copayment under the Child Care Connection Hawaii program to a maximum of ten percent of family income spending on child care and create a three-level sliding scale for copayments based on the amount of the families' income.

Your Committee received testimony in support of this measure from the Hawaii Children's Action Network and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that many families in Hawaii are forced to choose between a paycheck and child care. Your Committee further finds that the Department of Human Services allows for child care cost reimbursement under the Child Care Connection Hawaii program. However, Hawaii has among the highest average costs of child care and the current child care copayment ratio in Hawaii is the worst in the nation, at up to nineteen percent of the family income spending on child care. Your Committee finds that increasing the eligibility criteria for receiving child care subsidies would allow parents to secure stable employment and improve their families' financial wellbeing.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 6 and recommends that it be referred to your Committee on Ways and Manne

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Ihara).

## SCRep. 904 (Joint) Human Services and Judiciary on S.C.R. No. 8

The purpose and intent of this measure is to urge the Hawaii State Department of the Attorney General to conduct a statewide investigation of sexual abuse of minors in the State of Hawaii by clergy of the Roman Catholic Church.

Your Committees received testimony in support of this measure from The Sex Abuse Treatment Center, Hawaii Women's Coalition, LGBT Caucus of the Democratic Party of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and four individuals. Your Committees received testimony in opposition to this measure from the Roman Catholic Church in the State of Hawaii Diocese of Honolulu.

Your Committees find that court cases and reports across the United States, including in Hawaii, indicate that the Roman Catholic Church engaged in a decades-long pattern of moving clergy who sexually abused children within and between jurisdictions and of hiding, withholding, or otherwise failing to disclose documentation and other evidence of child sexual abuse. A recent Pennsylvania grand jury report detailed the abuse of more than one thousand children by approximately three hundred priests over decades. Sixteen Attorneys General across the United States are investigating sexual abuse by Roman Catholic clergy based on the findings of the Pennsylvania grand jury report. A 2018 report by Jeff Anderson and Associates PA and the Law Office of Mark Gallagher identified at least fifty-eight Catholic clergy members who allegedly committed child sexual abuse in Hawaii.

Your Committees further find that child sexual abuse has severe and devastating physical, emotional, social, and financial consequences for victims, their families, and their communities, which can last throughout a victim's lifetime. As such, your Committees find that the Department of the Attorney General should conduct a statewide investigation of sexual abuse of minors in the State by clergy of the Roman Catholic Church to flush out the offenders and protect Hawaii's children.

As affirmed by the records of votes of the members of your Committees on Human Services and Judiciary that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 8 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 5. Noes, none. Excused, none. Judiciary: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Wakai).

#### SCRep. 905 (Joint) Human Services and Judiciary on S.R. No. 4

The purpose and intent of this measure is to urge the Hawaii State Department of the Attorney General to conduct a statewide investigation of sexual abuse of minors in the State of Hawaii by clergy of the Roman Catholic Church.

Your Committees received testimony in support of this measure from The Sex Abuse Treatment Center, Hawaii Women's Coalition, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals. Your Committees received testimony in opposition to this measure from the Roman Catholic Church in the State of Hawaii Diocese of Honolulu.

Your Committees find that court cases and reports across the United States, including in Hawaii, indicate that the Roman Catholic Church engaged in a decades-long pattern of moving clergy who sexually abused children within and between jurisdictions and of hiding, withholding, or otherwise failing to disclose documentation and other evidence of child sexual abuse. A recent Pennsylvania grand jury report detailed the abuse of more than one thousand children by approximately three hundred priests over decades. Sixteen Attorneys General across the United States are investigating sexual abuse by Roman Catholic clergy based on the findings of the Pennsylvania grand jury report. A 2018 report by Jeff Anderson and Associates PA and the Law Office of Mark Gallagher identified at least fifty-eight Catholic clergy members who allegedly committed child sexual abuse in Hawaii.

Your Committees further find that child sexual abuse has severe and devastating physical, emotional, social, and financial consequences for victims, their families, and their communities, which can last throughout a victim's lifetime. As such, your Committees find that the Department of the Attorney General should conduct a statewide investigation of sexual abuse of minors in the State by clergy of the Roman Catholic Church to flush out the offenders and protect Hawaii's children.

As affirmed by the records of votes of the members of your Committees on Human Services and Judiciary that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 4 and recommend that it be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 5. Noes, none. Excused, none. Judiciary: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Wakai).

### SCRep. 906 Ways and Means on S.B. No. 191

The purpose and intent of this measure is to require the Department of Budget and Finance to report annually on the disposition of receipts from lands within the public land trust.

This measure also establishes a full-time equivalent position of public land trust reporting and accountability officer within the Department of Budget and Finance to ensure compliance with the reporting and accounting of the disposition of public land trust receipts.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Ke One O Kakuhihewa, Prince Kuhio Hawaiian Civic Club, Association of Hawaiian Civic Clubs, and four individuals.

Your Committee received written comments in opposition to this measure from the University of Hawaii and Center for Hawaiian Sovereignty Studies.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure would help mitigate incomplete and inaccurate reporting by state agencies of public land trust receipts, which hinders efforts to determine the actual amount of receipts generated by lands within the public land trust and thus the mandated pro rata share of receipts for the betterment of conditions of Native Hawaiians.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 191, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Taniguchi).

## SCRep. 907 Commerce, Consumer Protection, and Health on S.B. No. 148

The purpose and intent of this measure is to specify the allowable fire protection systems certifications that an individual may obtain.

Your Committee received testimony in support of this measure from the Hawaii State Fire Council, Honolulu Fire Department, Maui Fire Department, Hawaii Fire Department, and Building Industry Association of Hawaii.

Your Committee finds that the State Fire Council is authorized to establish statewide qualifications for testing, certifying, and credentialing those individuals who perform maintenance and testing of portable fire extinguishers, fire protection systems, and fire alarm systems. Your Committee further finds that fire safety systems require routine maintenance to ensure reliable operability when used by fire fighters and protect building occupants and fire fighters during emergency situations. This measure specifies additional distinct fire protection system licenses that individuals are required to obtain for performing maintenance and testing of fire safety systems, which will more closely align the state fire code with nationally recognized standards.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 148 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ruderman).

#### SCRep. 908 Commerce, Consumer Protection, and Health on S.B. No. 152

The purpose and intent of this measure is to clarify labeling dimensions for display fireworks, articles pyrotechnic, and aerial devices.

Your Committee received testimony in support of this measure from the Hawaii State Fire Council, Honolulu Fire Department, Maui Fire Department, Hawaii Fire Department, and one individual.

Your Committee finds that existing fireworks labeling requirements for display fireworks, articles pyrotechnic, and aerial devices need clarification. Your Committee further finds that this measure therefore amends the labeling dimensions requirement for conformity with industry standards.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 152 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ruderman).

## SCRep. 909 Commerce, Consumer Protection, and Health on S.B. No. 272

The purpose and intent of this measure is to amend the definition of "solar energy device" to include building-applied photovoltaics and building-integrated photovoltaics and exclude passive solar skylights or windows, thereby specifically allowing installation of these devices on condominium common elements.

Your Committee received testimony in support of this measure from a councilmember from the Hawai'i County Council, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, 350 Hawaii, Board of Directors of the Honolulu Tower Association of Apartment Owners, and two individuals.

Your Committee finds that the renewable energy field is ever-changing due to its technological nature. Accordingly, statutory law must be updated to reflect advances in technology related to renewable energy. Your Committee also finds that under existing law, it is unclear whether certain building-integrated photovoltaics, such as electricity-producing photovoltaic windows, fall under the definition of "solar energy device", and whether condominium boards are therefore restricted from installing these devices. This measure amends the definition of "solar energy device" to include building-applied photovoltaics and building-integrated photovoltaics, which will encourage the use of renewable energy and further the renewable energy initiative in Hawaii.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 272 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ruderman).

# SCRep. 910 Commerce, Consumer Protection, and Health on S.B. No. 1486

The purpose and intent of this measure is to allow the Department of Public Safety Narcotics Enforcement Division Administrator to disclose, at the Administrator's discretion, confidential information from the electronic prescription accountability system, more commonly known as the Prescription Drug Monitoring Program or PDMP, to authorized employees of the Department of Health Alcohol and Drug Abuse Division and the Emergency Medical Services and Injury Prevention Systems Branch.

Your Committee received testimony in support of this measure from the Department of Health, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and Drug Policy Forum of Hawaii.

Your Committee finds that the PDMP is a unique resource that shows opioid prescribing and pharmacy dispensing practices and patterns in Hawaii. Increased access to the PDMP will inform the Department of Health's strategic plan for preventing opioid addiction and overdose.

Your Committee further finds that the Hawaii Opioid Initiative brought together a wide range of legislators, state and county officials, law enforcement and first responders, health care professionals, and other citizens to work together to develop and implement a plan to reduce prescription opioid abuse and deaths from overdose. This measure is the culmination of the cooperative efforts of the Narcotics Enforcement Division and Department of Health and is intended to fulfill one of the objectives of the Hawaii Opioid Action Plan developed by the Hawaii Opioid Initiative.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1486, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Ruderman).

#### SCRep. 911 Judiciary on S.B. No. 928

The purpose and intent of this measure is to propose an amendment to article X, section 6, of the Hawaii State Constitution to modify the appointment process for the Board of Regents of the University of Hawaii.

Your Committee did not receive any testimony on this measure.

Your Committee finds that the Board of Regents of the University of Hawaii are responsible for effectively leading the University of Hawaii System. Your Committee further finds that having the most effective members possible on the Board is most important and thus find it is appropriate to consider making significant changes to the appointment process for membership. This measure provides voters the opportunity to consider whether the Candidate Advisory Council should no longer be constitutionally mandated and whether the Governor should be the appointing authority as provided by law.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 928 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

## SCRep. 912 Judiciary on S.B. No. 141

The purpose and intent of this measure is to:

- Specify that disclosure of communications by an agency to the Ombudsman does not waive any existing attorney-client or attorney work-product privilege; and
- (2) Prohibit the Ombudsman from disclosing privileged communications to others.

Your Committee did not receive any testimony on this measure.

Your Committee finds that agencies are reluctant to fully disclose information to the Ombudsman during an investigation because agencies are afraid that communicating with the Ombudsman will result in a waiver of their attorney-client and attorney work-product privileges. To alleviate this concern, this measure specifically states that communicating with the Ombudsman does not waive any attorney-client or attorney work-product privilege and that the Ombudsman shall not disclose privileged communication to any other person, which thereby encourages communication and improves investigative accuracy.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 141 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 913 (Joint) Commerce, Consumer Protection, and Health and Ways and Means on S.B. No. 821

The purpose and intent of this measure is to require:

- All places of public accommodation constructed or substantially modified after June 30, 2019, to provide baby diaperchanging accommodations that are equally accessible to men and women; and
- (2) All existing places of public accommodation that have not been substantially modified to provide baby diaper-changing accommodations that are equally accessible to men and women by July 1, 2022.

Your Committees received testimony in support of this measure from the Hawai'i State Commission on the Status of Women, Hawaii Youth Services Network, LGBT Caucus of the Democratic Party of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Midwives Alliance of Hawaii, Hawaii Women's Coalition, and five individuals. Your Committees received testimony in opposition to this measure from the Retail Merchants of Hawaii.

Your Committees find that American fathers are much more involved in child care today than they were fifty years ago and attitudes among men toward gender and family norms are increasingly egalitarian. Despite this, diaper-changing accommodations are relatively common in women's restrooms but are still often omitted from men's restrooms. Your Committees further find that caregivers of both genders need adequate, safe, and sanitary facilities to change diapers. Public accommodations need to meet the requirements of equality under the law for men and women and should reflect the reality of changing gender roles and enable men to embrace caregiving.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 821, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6; Ayes with Reservations (Keohokalole). Noes, none. Excused, 1 (Ruderman).

Ways and Means: Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

## SCRep. 914 (Joint) Commerce, Consumer Protection, and Health and Ways and Means on S.B. No. 754

The purpose and intent of this measure is to enact produce safety rules in accordance with the federal Food and Drug Administration Standards for the Growing, Harvesting, Packing, and Holding of Produce for Human Consumption.

Your Committees received testimony in support of this measure from the Department of Agriculture.

Your Committees find that the federal Food and Drug Administration Standards for the Growing, Harvesting, Packing, and Holding of Produce for Human Consumption establishes produce safety rules to allow for inspection and regulation of farms producing food for consumers. These produce safety rules include inspecting food on farms, which are also known as on-farm audits.

Your Committees further find that the Department of Agriculture has been engaging in discussions with the Department of Health to transfer the on-farm audit responsibilities to the Department of Agriculture. According to testimony from the Department of Agriculture, the Department of Health has no objections to the Department of Agriculture conducting the audits. The Department of Agriculture is currently waiting for the United States Food and Drug Administration to offer an agreement or contract and the funding to conduct the audits.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 754, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ruderman).

Ways and Means: Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

## SCRep. 915 (Joint) Judiciary and Ways and Means on S.B. No. 477

The purpose and intent of this measure is to:

- (1) Allow the Department of Education to provide sexual abuse and sex trafficking prevention training to certain staff; and
- (2) Require the Department of Education to make available to certain staff explanatory information about protocols that the Department has approved for providing services to victims of sexual abuse and sex trafficking.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Hawaii Youth Services Network, Hawaii State Teachers Association, IMUAlliance, UNITE, Parents and Children Together, The Sex Abuse Treatment Center, Hawai'i Psychological Association, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and seven individuals. Your Committees received comments on this measure from the Department of Education.

Your Committees find that sexual violence is a serious and ongoing threat to the safety, health, and well-being of children and young people in Hawaii. Recognizing and identifying indicators, such as social isolation, removal from the home, and cultivation of dependency, are key in providing greater protection for children who are being exploited or who may be at risk for future sexual exploitation. Because of the amount of time students spend at school, sexual abuse and sex trafficking prevention training for educators and other school staff can facilitate interventions with students who may be at risk of sex trafficking or exploitation or experiencing sexual abuse. This measure will assist teachers and educational officers with resources to better protect Hawaii's children and young people from sexual abuse and sex trafficking throughout the State.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 477, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 9. Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

## SCRep. 916 Judiciary on S.B. No. 807

The purpose and intent of this measure is to:

- (1) Specify that a health care provider shall not be required to consult the electronic prescription accountability system when a patient is in an inpatient setting, in post-operative care, or has a terminal disease and is receiving hospice or other palliative care; and
- (2) Clarify that an informed consent agreement is not required for patients whose prescription will be directly administered under the supervision of a health care provider.

Your Committee received testimony in support of this measure from the Department of Health; Hawaii Health Systems Corporation; The Queen's Health Systems; Healthcare Association of Hawaii; Ohana Pacific Management Company, Inc.; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Hawaii Medical Association; and Kaiser Permanente Hawaii. Your Committee received comments on this measure from the Hawaii Association for Justice and Drug Policy Forum of Hawaii.

Your Committee finds that this measure aligns with the prescriber education and pain management practice objectives of the Hawaii Opioid Action Plan of January 2019. Your Committee further finds that the proposed exemptions in this measure promote balance and faster relief for patients who are hospitalized or in hospice. Your Committee also finds that these proposed exemptions are not expected to impact the prescription drug monitoring program, which collects data on prescriptions dispensed in outpatient settings, such as doctor's offices and local pharmacies.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 807, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 917 Judiciary on S.B. No. 1237

The purpose and intent of this measure is to require health insurance providers that provide Medicare Advantage (Medicare Part C) health benefit plans to submit administrative data, including health care service claims and payment data, to the State Health Planning and Development Agency, or its designee.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Hawaii Employer-Union Health Benefits Trust Fund, Executive Office on Aging, Office of Enterprise Technology Services, State Health Planning and Development Agency, University of Hawai'i System, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that the all-payer claims database is a tool to address rising health care costs in the State. However, under existing law, the all-payer claims database does not have access to Medicare Advantage, or Medicare Part C, plans in Hawaii. This creates a significant gap in its dataset as Medicare Advantage participants comprise approximately 45 percent of the Medicare population in the State. Your Committee further finds that without this information, it will be difficult to determine the impact that Medicare Advantage has on the health and utilization patterns of its members in comparison to traditional Medicare plans. This measure updates existing law to cover any gaps in necessary datasets, thereby improving transparency in the health care sector and providing better insight on drivers of health insurance premiums in the State.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1237, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 918 Judiciary on S.B. No. 1344

The purpose and intent of this measure is to prohibit the imposition of restrictions on a person's ability to obtain or renew a driver's license or to register, renew the registration of, or transfer or receive title to a motor vehicle, as a consequence of unpaid monetary obligations.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that existing law allows for the imposition of restrictions on an individual's ability to obtain or renew a driver's license or motor vehicle registration as a penalty for various unpaid monetary obligations that are civil and not criminal in nature. Your Committee further finds that a Washington Post investigation revealed that Hawaii has a high percentage – nine percent – of adults who have had their licenses suspended for unpaid debt. Your Committee additionally finds that the inability to obtain or renew a driver's license prevents people who have not committed a crime from getting to work, picking up their children, keeping medical appointments, and ultimately from escaping debt.

Your Committee also finds that recently adopted guidelines by the American Bar Association on preventing fines and fees that penalize poverty recommend against driver's license suspension and the imposition of fines that result in substantial and undue hardship. Additionally, at least four states do not allow driver's licenses to be suspended or restricted for unpaid court debt. This measure will prohibit the imposition of restrictions on a person's ability to obtain a driver's license and conduct other types of business due to unpaid civil monetary obligations in Hawaii.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1344, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 919 (Joint) Judiciary and Ways and Means on S.B. No. 728

The purpose and intent of this measure is to:

- (1) Increase the maximum amount of public funds available to each candidate running for the Board of Trustees of the Office of Hawaiian Affairs; and
- (2) Increase the amount each Board of Trustee candidate must raise in order to qualify for public funds.

Your Committees received testimony in support of this measure from the Council for Native Hawaiian Advancement, Democratic Party of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committees received comments on this measure from the Office of Hawaiian Affairs.

Your Committees find that candidates for the Board of Trustees of the Office of Hawaiian Affairs are elected statewide by qualified voters in the State. Despite at-large Board of Trustee candidates having to run a statewide campaign, similar to other statewide offices, Board of Trustee candidates only receive partial public funding at a lower rate than other statewide offices. This measure will provide more equality in the allocation of public funding to candidates running statewide campaigns and encourage more individuals to enter as a candidate for the Board of Trustees of the Office of Hawaiian Affairs.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 728, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 9. Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

## SCRep. 920 (Joint) Judiciary and Ways and Means on S.B. No. 1051

The purpose and intent of this measure is to require the Department of Human Services to establish a task force to determine specific implementation requirements necessary to establish a pilot program to provide shelter and mental health treatment for homeless individuals with severe mental illness or severe co-occurring mental illness and substance use disorders who are subject to court-ordered guardianship.

Your Committees received testimony in support of this measure from the Department of Health, Department of Human Services, Catholic Charities Hawai'i, Partners in Care, Honolulu County Republican Party, Hawaii Kai Homeless Task Force, The Salvation Army, and three individuals. Your Committees received comments on this measure from Mental Health America of Hawai'i.

Your Committees find that homelessness is one of the State's most significant and challenging social concerns. Many of the individuals experiencing homelessness are severely mentally ill and suffer from psychosis, hallucinations, and other serious mental illnesses. Because of their physical and mental health challenges, these individuals often burden the health care system through frequent use of emergency services. This measure establishes a task force to examine best practices necessary to establish a pilot program to provide assistance and stability to homeless individuals with severe mental illness as they receive treatment while living in a safe and supportive setting.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1051, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 9. Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

# SCRep. 921 (Joint) Judiciary and Ways and Means on S.B. No. 1143

The purpose and intent of this measure is to:

- Expand the types of employee information government agencies are required to disclose, upon written request, to employees' exclusive representatives; and
- (2) Require that information regarding new hire employees under the collective bargaining disclosure requirements of section 89-16.6, Hawaii Revised Statutes, be provided to the appropriate exclusive representatives within one payroll period.

Your Committees received testimony in support of this measure from the University of Hawaii Professional Assembly and Hawaii Government Employees Association. Your Committee received comments on this measure from the Department of Education.

Your Committees find that exclusive representatives represent each and every employee in a bargaining unit and as such, need to have pertinent employment information within a certain period of time to be able to best serve their members. However, under existing law, the information to be provided to exclusive representatives is limited and often times, may not be provided in a timely manner. This measure will ensure that exclusive representatives have the necessary information to contact employees to provide them with information regarding available protections and benefits.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1143, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Ways and Means: Ayes, 9; Ayes with Reservations (Fevella). Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

### SCRep. 922 Human Services on Gov. Msg. No. 547

Recommending that the Senate advise and consent to the nomination of the following:

# STATE REHABILITATION COUNCIL

G.M. No. 547 DUSTIN PARK, for a term to expire 06-30-2021

Your Committee reviewed the personal history, resume, and statement submitted by Dustin Park for service on the State Rehabilitation Council.

Your Committee received testimony in support of the nomination for the appointment of Dustin Park from the Department of Human Services.

Your Committee finds that Mr. Park is a student at Honolulu Community College and is presently an intern with Leadership in Disabilities and Achievement of Hawaii. Mr. Park has been dedicated to learning the skills needed to become an independent, self-sufficient worker. Mr. Park brings to the State Rehabilitation Council his personal experience as an individual with a disability. He can also contribute personal insight as a current Division of Vocational Rehabilitation consumer to the Council, which will enable him to provide additional assistance to the disability community.

Your Committee therefore finds that Mr. Park's personal background and experience, and commitment to making a difference in the lives of other individuals with disabilities will make him a valuable asset to the State Rehabilitation Council.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Ihara).

#### SCRep. 923 (Joint) Human Services and Judiciary on S.C.R. No. 9

The purpose and intent of this measure is to request the Department of Human Services to examine the implementation of Act 217, Session Laws of Hawaii 2018 (Act 217), regarding the misrepresentation of service animals.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received comments on this measure from the Department of Human Services and Hawai'i Civil Rights Commission.

Your Committees find that fraudulent misrepresentation of pets and untrained animals as service animals is harmful to persons who legitimately rely on service animals. Act 217 established a civil penalty for knowingly misrepresenting an animal as a service animal. Your Committees further find that there are questions about the practical enforcement of that civil penalty. As such, your Committees find that the Department of Human Services, in consultation with the Hawai'i Civil Rights Commission and the Disability and Communication Access Board, should examine the implementation of the prohibition so that places of accommodations and the public may understand how Act 217 applies to them.

Your Committees note that according to the testimony from the Department of Human Services, a public outreach campaign may be the best way to educate places of accommodations as well as the public as to the important work that legitimate service animals do and why it is important for service animals to assist their owners.

Accordingly, your Committees have amended this measure by requesting the Department of Human Services to develop a public outreach campaign.

As affirmed by the records of votes of the members of your Committees on Human Services and Judiciary that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 9, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 9, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 5. Noes, none. Excused, none.

Judiciary: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Wakai).

## SCRep. 924 (Joint) Human Services and Judiciary on S.R. No. 8

The purpose and intent of this measure is to request the Department of Human Services to examine the implementation of Act 217, Session Laws of Hawaii 2018 (Act 217), regarding the misrepresentation of service animals.

Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Human Services and Hawai'i Civil Rights Commission.

Your Committees find that fraudulent misrepresentation of pets and untrained animals as service animals is harmful to persons who legitimately rely on service animals. Act 217 established a civil penalty for knowingly misrepresenting an animal as a service animal. Your Committees further find that there are questions about the practical enforcement of that civil penalty. As such, your Committees find that the Department of Human Services, in consultation with the Hawai'i Civil Rights Commission and the Disability and Communication Access Board, should examine the implementation of the prohibition so that places of accommodations and the public may understand how Act 217 applies to them.

Your Committees note that according to the testimony from the Department of Human Services, a public outreach campaign may be the best way to educate places of accommodations as well as the public as to the important work that legitimate service animals do and why it is important for service animals to assist their owners.

Accordingly, your Committees have amended this measure by requesting the Department of Human Services to develop a public outreach campaign.

As affirmed by the records of votes of the members of your Committees on Human Services and Judiciary that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 8, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 8, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 5. Noes, none. Excused, none.

Judiciary: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Wakai).

## SCRep. 925 Ways and Means on S.B. No. 1148

The purpose and intent of this measure is to appropriate funds for the Department of Agriculture's agricultural loan program to assist local farmers and ranchers who have experienced losses due to natural disasters.

Your Committee received written comments in support of this measure from the Hawaii Department of Agriculture, the University of Hawaii, the Department of Research and Development of the County of Hawaii, the Maui Chamber of Commerce, the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, the Land Use Research Foundation of Hawaii, the Volcano Isle Fruit Company, the Hawaii Farm Bureau, the Local Food Coalition, Hoomanapono Political Action Committee, Birds With Arms Farms, Maui Farmers Union United, Beyond Organic Consulting, Hawaii Cattlemen's Council, and six individuals.

Your Committee finds that the State's support of agriculture following natural disasters will contribute significantly to the overall resiliency and continued growth of this industry.

Your Committee notes that an appropriation of \$5,000,000 for fiscal year 2019-2020 is necessary to achieve the intent of this measure

Your Committee has amended this measure by:

- (1) Changing the appropriation amounts to unspecified sums;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1148, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1148, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Kahele, Shimabukuro).

## SCRep. 926 Ways and Means on S.B. No. 1150

The purpose and intent of this measure is to appropriate funds to allow the Department of Agriculture to develop an effective control plan for reducing the State's population of feral pigs.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, Maui Chamber of Commerce, Land Use Research Foundation of Hawaii, Agribusiness Development Corporation, Hawaii Farm Bureau, Hawaii Crop Improvement Association, Hawaii Cattlemen's Council, and three individuals.

Your Committee finds that feral pigs can have a devastating impact on farmers statewide, causing crop loss, damaging irrigation systems, and creating niche spaces for other non-native species. The allotted funds will allow the Department of Agriculture to work with the community to develop effective measures to control feral pig populations and mitigate their impact.

Your Committee notes that an appropriation of \$1,000,000 for each year of the fiscal biennium is necessary to achieve the intent of this measure.

Your Committee has amended this measure by:

- (1) Changing the amounts appropriated to unspecified amounts;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style;

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1150, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1150, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Kahele, Shimabukuro).

## SCRep. 927 Ways and Means on S.B. No. 1158

The purpose and intent of this measure is to establish an annual general excise tax holiday on the sale of school supplies in the State prior to the start of an upcoming school year.

Your Committee received written comments in support of this measure from the Hawaii State Teachers Association.

Your Committee received written comments on this measure from the Department of Education and Department of Taxation.

Your Committee finds that the cost of school supplies for families, especially when multiplied for more than one child, can be very expensive. Your Committee believes that this measure would provide relief to parents and teachers as they buy school supplies needed to be ready for the school year.

Your Committee has amended this measure by:

- (1) Specifying that the tax holiday shall occur on the weekend of the last Friday in July;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1158, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1158, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Taniguchi). Noes, none. Excused, 2 (Kahele, Riviere).

## SCRep. 928 Ways and Means on S.B. No. 1254

The purpose and intent of this measure is to expand the sources of revenue that can be deposited into the Endangered Species Trust Fund.

Specifically, this measure repeals the provision of law that states that only revenue derived from fees and assessments charged for commercial use of public lands and waters and designated for deposit into the endangered species trust fund are to be deposited into the trust fund. By repealing the limitation, the amendment allows revenues from fees and assessments for noncommercial uses of the same public lands and waters to be paid to the benefit of the trust fund.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee finds that this measure will provide access to additional revenue for endangered species protection and multiple opportunities for the Department of Land and Natural Resources to utilize innovative funding mechanisms.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making a technical nonsubstantive amendment for the purpose of style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1254, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1254, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

## SCRep. 929 Ways and Means on S.B. No. 1287

The purpose and intent of this measure is to include the Lei of Green in the Hawaii State Planning Act by codifying related objectives, policies, and implementation guidelines for certain greenspaces in chapter 226, Hawaii Revised Statutes.

Your Committee received written comments in support of this measure from the Oahu Island Parks Conservancy, Trees for Honolulu's Future, Hawaii Advocates for Consumer Rights, The Outdoor Circle, and one individual.

Your Committee received written comments on this measure from the Office of Planning.

Your Committee finds that this measure will bring the State closer to realizing an enduring vision of Honolulu's urban shoreline lined with parks, greenways, open spaces, and recreation areas, in furtherance of the goals of the Hawaii State Plan.

Your Committee notes that the Office of Planning has requested an appropriation of \$250,000 for fiscal biennium 2019-2021 to fund costs associated with researching, compiling, and submitting the status report on the Lei of Green policy required by this measure, including the hiring of one full-time equivalent (1.0 FTE) temporary planner position within the Office of Planning.

Your Committee has amended this measure by:

- Appropriating an unspecified amount for costs associated with researching, compiling, and submitting the status report on the Lei of Green policy required by this measure, including one temporary full-time equivalent (1.0 FTE) planner position within the Office of Planning; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1287, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1287, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Inouye).

#### SCRep. 930 Ways and Means on S.B. No. 1307

The purpose and intent of this measure is to appropriate funds for the Department of Education to study the feasibility of combining the resources and organization of the Department of Accounting and General Services with the Department of Education on the islands of Kauai, Maui, Molokai, Lanai, and Hawaii.

Your Committee received written comments in support of this measure from the Department of Education and one individual.

Your Committee finds that currently, the Department of Accounting and General Services is tasked with facilities maintenance and support services for neighbor island schools. This measure seeks to determine the feasibility of the Department of Education assuming responsibility for the maintenance and support of these schools.

Your Committee has amended this measure by changing the appropriation from an unspecified amount to \$100,000.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1307, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1307, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

#### SCRep. 931 Ways and Means on S.B. No. 1333

The purpose and intent of this measure is to increase efficiency and accountability in state procurement.

Specifically, this measure:

- Requires that past performance be considered in sole source procurements and procurement by competitive sealed bids or competitive sealed proposals that meet or exceed the small purchase threshold;
- (2) Requires that contracting officers consider past performance when making a determination of offeror responsibility;
- (3) Requires procurement officers to conduct written past performance evaluations at least annually and at the time the work under a contract or order is completed, and maintain the evaluations in the department's procurement files and in a statewide past performance database;
- (4) Establishes an initial procurement working group; and
- (5) Appropriates funds to develop and create a statewide past performance database and outsource two full-time equivalent positions.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services, State Procurement Office, and Subcontractors Association of Hawaii.

Your Committee finds that the past performance database created by this measure will reward contractors who have historically performed well by allowing them to cite their prior work when bidding on future contracts with the State.

Your Committee has amended this measure by:

- (1) Clarifying that the initial procurement working group shall identify issues relating to existing procurement methods;
- (2) Requiring the initial procurement working group to recommend specific objective criteria to be used when evaluating the past performance of bidders in a competitive sealed bid procurement;
- (3) Clarifying that the state procurement administrator shall serve as chair of the initial procurement working group;
- (4) Providing that the Director of Transportation or the Director's designee shall serve on the initial procurement working group;
- (5) Providing that the initial procurement working group shall submit a report of its findings and recommendations to the Legislature no later than November 1, 2020;
- (6) Changing the effective date to July 1, 2050, and providing that provisions requiring the consideration of past performance in certain procurements shall be effective January 1, 2050, to facilitate further discussion on the measure; and
- (7) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1333, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1333, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

# SCRep. 932 Ways and Means on S.B. No. 1385

The purpose and intent of this measure is to facilitate the efficient administration of the Kaneohe Bay Regional Council.

Specifically, this measure requires:

- (1) The Department of Land and Natural Resources to provide administrative support to the Kaneohe Bay Regional Council;
- (2) The members of the Kaneohe Bay Regional Council to select a chairperson on an annual and rotating basis; and

(3) The Council to conduct quarterly meetings.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs, Aha Moku Advisory Committee, Koolau Foundation, Koolaupoko Hawaiian Civic Club, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual.

Your Committee received written comments in opposition to this measure from the Department of Land and Natural Resources.

Your Committee finds that the Kaneohe Bay Regional Council continues to serve the Kaneohe Bay community by protecting the health and well-being of the community and the bay. Accordingly, your Committee believes that providing administrative support to the Council will allow the Council to more efficiently serve the Kaneohe Bay community.

Your Committee has amended this measure by:

- (1) Conditioning the Department of Land and Natural Resources' responsibility to provide administrative support to the Kaneohe Bay Regional Council on the Department having adequate funding and staff;
- (2) Including an appropriation to the Department of Land and Natural Resources for a 0.5 FTE staff position; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1385, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1385, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

## SCRep. 933 Ways and Means on S.B. No. 1395

The purpose and intent of this measure is to appropriate funds for the state rent supplement program.

Your Committee received written comments in support of this measure from the Governor's Coordinator on Homelessness, Hawaii Public Housing Authority, Hawaii Kai Homeless Task Force, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual.

Your Committee finds that providing a rent subsidy to working individuals, senior or disabled individuals, and families who are homeless will increase housing stability for these vulnerable populations, which, in turn, will result in positive outcomes such as sustained employment, educational success, and improved health.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount to \$2,500,000 for fiscal year 2019-2020 and \$2,500,000 for fiscal year 2020-2021; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1395, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1395, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

## SCRep. 934 Ways and Means on S.B. No. 1418

The purpose and intent of this measure is to appropriate funds for four full-time equivalent positions for the University of Hawaii Pamantasan Council, including instructional faculty, student personnel, and graduate assistantships.

Your Committee received written comments in support of this measure from the University of Hawaii, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Filipina Advocacy Network, Filipinos for Affirmative Action, and one individual.

Your Committee finds that students of Filipino ancestry are underrepresented at certain campuses within the University of Hawaii System, including the University of Hawaii at Manoa, where they comprise only ten per cent of undergraduate students and four per cent of graduate students. Your Committee recognizes that the Pamantasan Council was established, in part, to address issues of representation and to ensure the success of Filipino students.

Your Committee has amended this measure by changing the appropriation from an unspecified amount to \$390,000 for each fiscal year in the 2019-2021 fiscal biennium.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1418, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1418, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

# SCRep. 935 Ways and Means on S.B. No. 1501

The purpose and intent of this measure is to appropriate moneys to the Department of Hawaiian Home Lands for various capital improvement projects and other operating expenses.

More specifically, this measure:

- (1) Appropriates moneys into and out of a cesspool compliance grant program special fund;
- (2) Authorizes the Director of Finance to issue general obligation bonds for capital improvement projects; and
- (3) Appropriates moneys to the Department of Hawaiian Home Lands for building homes, infrastructure, capital improvement projects, operating and administrative costs, fringe, and other needs and priorities.

Your Committee received written comments in support of this measure from the Department of Hawaiian Home Lands, Association of Hawaiian Civic Clubs, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Prince Kuhio Hawaiian Civic Club, and one individual.

Your Committee notes that this measure, as introduced, authorized the Director of Finance to issue general obligation bonds in the sum of \$214,918,100 for fiscal year 2019-2020 and \$224,169,100 for fiscal year 2020-2021 for capital improvement projects, including lot development, loans, and rehabilitation projects.

Your Committee has amended this measure by:

- (1) Replacing its contents with a general fund appropriation of \$243,984 for each year of fiscal biennium 2019-2021 to the Department of Hawaiian Home Lands for the implementation of the cesspool compliance grant program; and
- (2) Inserting an effective date of July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1501, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1501, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

### SCRep. 936 Ways and Means on S.B. No. 1522

The purpose and intent of this measure is to appropriate funds to the Department of Education for the Hawaii Keiki: Healthy and Ready to Learn Program.

Your Committee received written comments in support of this measure from the Department of Education, Hawaii State Teachers Association, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and two individuals.

Your Committee received written comments on this measure from the Hawaii Primary Care Association.

Your Committee finds that the Hawaii Keiki Healthy and Ready to Learn Program improves access to and increases the quality of the health services available to the State's public school students.

It is the intent of your Committee that the program established pursuant to this measure not be in any way construed to preclude or limit the receipt of federal funds to establish school-based clinics pursuant to grants or any other financial arrangements with federally qualified health centers or rural health clinics.

Your Committee recommends that the Department of Education partner with the Public Health Nursing Branch of the Department of Health to ensure that services are not duplicative of those performed by school-based clinics or other service providers.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1522, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1522, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

# SCRep. 937 Ways and Means on S.B. No. 813

The purpose and intent of this measure is to appropriate or authorize funds for various operating expenses of the Department of Health.

Your Committee received written comments in support of this measure from the Department of Health and Executive Office on Aging

Your Committee finds that this measure adjusts the amounts appropriated or authorized for the Department of Health from baseline amounts in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- (1) Amending the amounts appropriated or authorized and maximum number of positions authorized for various programs within or attached to the Department of Health;
- (2) Indicating the program title associated with each program ID in the appropriations table;
- (3) Adding a severability clause;
- (4) Adding a provision authorizing the Governor to correct manifest clerical, typographical, or other mechanical errors;

- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 813, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 813, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

#### SCRep. 938 Ways and Means on S.B. No. 815

The purpose and intent of this measure is to appropriate or authorize funds for various operating expenses of the Department of Health.

Your Committee received written comments in support of this measure from the Hawaii Health Systems Corporation.

Your Committee finds that this measure adjusts the amounts appropriated or authorized for the Department of Health from baseline amounts in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- (1) Amending the amount of additional subsidy appropriated to the Hawaii Health Systems Corporation;
- (2) Indicating the program title associated with each program ID in the appropriations table;
- (3) Removing provisions relating to the authorization of positions, as no positions are being authorized by this measure;
- (4) Adding a severability clause;
- (5) Adding a provision authorizing the Governor to correct manifest clerical, typographical, or other mechanical errors;
- (6) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (7) Making technical nonsubstantive amendments for purposes of consistency and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 815, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 815, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

### SCRep. 939 Ways and Means on S.B. No. 907

The purpose and intent of this measure is to make the process of applying to the University of Hawaii more affordable for prospective students who qualify for resident tuition.

Specifically, this measure requires the University of Hawaii to establish a two-year pilot project to offer a free admission day on which application fees for admission to any University of Hawaii System campus are waived for qualifying applicants.

Your Committee finds that many potential college students are discouraged from applying to post-secondary education institutions because of the costs of paying application fees. Your Committee finds that by offering these potential students a date on which the application fee will be waived, more students will be encouraged to pursue higher education.

Your Committee has amended this measure by:

- Clarifying that the two-year pilot project will apply to students seeking admission for the 2020-2021 and 2021-2022 academic
  years;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 907, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 907, S.D. 2.

Signed by the Chair on behalf of the Committee

Ayes, 12. Noes, none. Excused, 1 (English).

# SCRep. 940 Ways and Means on S.B. No. 909

The purpose and intent of this measure is to appropriate funds to the University of Hawaii at Hilo for aeronautical sciences program positions and program operating costs.

Your Committee received written comments in support of this measure from the Office of Aerospace Development of the Department of Business, Economic Development, and Tourism; University of Hawaii; Japanese Chamber of Commerce and Industry of Hawaii; David S. De Luz, Sr. Enterprises, Inc.; and five individuals.

Your Committee finds that this measure will enable the University of Hawaii at Hilo to continue to develop its Bachelor of Science in aeronautical sciences program, thus increasing opportunities for students in Hawaii to pursue careers in aeronautics and bolstering the State's commitment to developing economic opportunities and partnerships within this industry.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 909, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 909, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

## SCRep. 941 Ways and Means on S.B. No. 919

The purpose and intent of this measure is to revise the composition and duties of the University of Hawaii Board of Regents.

Specifically, this measure makes the following amendments regarding the Board of Regents:

- (1) Reduces the number of board members;
- (2) Adjusts their composition;
- (3) Shortens term lengths;
- (4) Clarifies powers of control over the university administration; and
- (5) Preserves board members' authority to engage in discussion with the Legislature.

Your Committee received no written comments on this measure.

Your Committee finds that this measure will enable the Board of Regents to better fulfill its constitutional mandate to formulate policy and exercise control over the university.

Your Committee has amended this measure by making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 919, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 919, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12; Ayes with Reservations (Taniguchi). Noes, none. Excused, 1 (English).

## SCRep. 942 Ways and Means on S.B. No. 938

The purpose and intent of this measure is to appropriate moneys for four full-time equivalent positions for services and programs for Native Hawaiian Student Services at the University of Hawaii at Manoa.

Your Committee received written comments in support of this measure from the University of Hawaii, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual.

Your Committee finds that this measure will allow the University of Hawaii at Manoa to continue to provide Native Hawaiian students a diverse array of programs and services related to higher education, economic opportunities, health, and general well-being.

Your Committee notes that the University of Hawaii requests \$1,002,000 to fund Native Hawaiian Student Services.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified amounts;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 938, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 938, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

## SCRep. 943 Ways and Means on S.B. No. 966

The purpose and intent of this measure is to require the Board of Land and Natural Resources to enter into negotiations to purchase a parcel of land within the Mililani Technology Park and to appropriate funds for that negotiation and the purchase of that parcel.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee finds that a second parcel of undeveloped land with Tax Map Key (1) 9-5-046:041 is adjacent to many other lots of the Mililani Technology Park, including the parcel addressed by this measure, and may also be available for purchase. However, your Committee recognizes the concern that because the second parcel may not lay within the official boundaries of the Mililani Technology Park, the purchase of that second parcel may exceed the scope of this measure's title in violation of Article III, section 14, of the Hawaii State Constitution.

Your Committee has amended this measure by:

- Deleting the general fund appropriation for the Board of Land and Natural resources to engage in negotiations to purchase and conduct due diligence of the property;
- (2) Changing the purchasing entity to the Hawaii Technology Development Corporation;
- (3) Adding provisions that the negotiations and purchase include the parcel with Tax Map Key (1) 9-5-046:041; and
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 966, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 966, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

#### SCRep. 944 Ways and Means on S.B. No. 970

The purpose and intent of this measure is to appropriate funds to the Department of Education to establish a program with eligible entities to develop and implement teacher professional development for computer science courses and content.

Your Committee received written comments in support of this measure from the Hawaii State Teachers Association and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Hawaii State Department of Education.

Your Committee recognizes the importance of increasing equity and access to computer science programs for students statewide. Your Committee finds that, to achieve this, teachers must be offered high quality computer science professional development.

Your Committee has amended this measure by:

- (1) Changing the appropriation from an unspecified amount to \$50,000 for each fiscal year of fiscal biennium 2019-2021;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 970, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 970, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

## SCRep. 945 Ways and Means on S.B. No. 978

The purpose and intent of this measure is to transfer unclaimed funds totaling \$10 or less in the unclaimed property trust fund to the libraries special fund upon expiration of the ten-year time limitation to claim the funds.

This measure also increases the threshold for which funds escheat to the State from less than \$100 to less than \$250.

Your Committee received written comments in support of this measure from the Hawaii State Public Library System and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that transferring additional funds to the libraries special fund will help to support the more than fifty-one branch libraries statewide. Your Committee further finds that reducing from ten years to five years the period by which funds must be claimed will help to improve administration of the unclaimed property trust fund.

Your Committee has amended this measure by:

- (1) Reducing from ten years to five years the time period by which newly deposited funds in the unclaimed property trust fund must be claimed, while retaining the existing ten-year claim period applicable to funds totaling less than \$100 that are currently deposited in the fund;
- (2) Specifying that the five-year limitation applicable to funds totaling more than \$99.99 and less than \$250 that are currently deposited in the fund shall commence on July 1, 2019; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 978, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 978, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Kahele, Riviere).

### SCRep. 946 Ways and Means on S.B. No. 995

The purpose and intent of this measure is to promote technology research and development in the State.

More specifically, this measure:

- (1) Requires the Hawaii Technology Development Corporation to adopt rules requiring a technology research and development grant recipient to reimburse the State for the grant if, within five years, it relocates its principal place of business out of State;
- (2) Appropriates moneys into and out of the research and development special fund for the Corporation's research and development program.

Your Committee received written comments in support of this measure from the Hawaii Technology Development Corporation; Hawaii Farm Bureau; Oceanit Laboratories, Inc.; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Makai Ocean Engineering, Inc.; and one individual.

Your Committee finds that encouraging grant recipients to maintain principal places of business in the State will ensure that the State benefits from awarding these grants.

Your Committee has amended this measure by:

- (1) Changing the appropriations from \$1,000,000 to unspecified amounts;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 995, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 995, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Harimoto, Kahele, Shimabukuro, Taniguchi).

#### SCRep. 947 Ways and Means on S.B. No. 1002

The purpose and intent of this measure is to extend the authorization to issue special purpose revenue bonds for the benefit of Honolulu Seawater Air Conditioning, LLC until June 30, 2024.

Your Committee received written comments in support of this measure from Ulupono Initiative, the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Honolulu Seawater Air Conditioning, and one individual.

Your Committee finds that seawater air conditioning is known to provide substantial savings of energy and fresh water, both of which are critical to the State's economy and sustainability.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1002, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1002, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

## SCRep. 948 Ways and Means on S.B. No. 1019

The purpose and intent of this measure is to strengthen services available to vulnerable youth in the State who struggle with homelessness or commit status offenses.

Specifically, this measure:

- (1) Establishes a safe places for youth pilot program;
- (2) Requires the Office of Youth Services to reduce the use of status offense laws and implement a status offense diversion program; and
- (3) Appropriates funds for the safe places for youth pilot program and the status offense diversion program.

Your Committee received written comments in support of this measure from the Sex Abuse Treatment Center of the Kapiolani Medical Center for Women and Children, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, IMUAlliance, LGBT Caucus of the Democratic Party of Hawaii, Hawaii Youth Services Network, and Hawaii Children's Action Network.

Your Committee finds that this measure establishes programs that will support the youth of Hawaii by providing safe places for homeless youth, diverting homeless and other youth from becoming involved in status offense-type conduct, and by reducing the incidence of status offenders from going into detention that may ultimately be detrimental to those youth.

Your Committee has amended this measure by:

- (1) Changing the appropriation amounts to:
  - (A) \$70,000 for fiscal year 2019-2020 and the same sum for fiscal year 2020-2021 for a safe places for youth pilot program coordinator and residential options for the pilot program; and
  - (B) \$130,000 for fiscal year 2019-2020 and the same sum for fiscal year 2020-2021 for the Office of Youth Services to implement a status offense diversion program;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1019, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1019, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

## SCRep. 949 Ways and Means on S.B. No. 1022

The purpose and intent of this measure is to improve the effectiveness of the Child Welfare Services Branch of the Department of Human Services.

Specifically, this measure establishes a child welfare services task force to review the Child Welfare Services Branch and examine best practices that will help to improve child care safety through the branch.

Your Committee received written comments in support of this measure from the East Hawaii Friends of Foster Families, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and four individuals.

Your Committee received written comments on this measure from the Department of Human Services.

Your Committee finds that the task force established by this measure will address ongoing concerns about the Child Welfare Services Branch and make recommendations to improve the branch and provide necessary protection for the State's children.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Human Services shall invite a representative of the United States Department of Defense Family Advocacy program to serve on the task force;
- Clarifying that the task force shall propose improvements to allow for the timely completion of future investigations of child abuse by the child welfare services branch;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1022, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1022, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, 1 (Kahele).

## SCRep. 950 Ways and Means on S.B. No. 1023

The purpose and intent of this measure is to appropriate moneys to support the Department of Health's Kupuna Care program.

Your Committee received written comments in support of this measure from the Executive Office on Aging of the Department of Health, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Catholic Charities Hawaii, Healthcare Association of Hawaii, Lanakila Pacific, Chinatown Gateway Plaza Tenant Association, AARP Hawaii, ILWU Local 142, Hawaii Women's Coalition, and six individuals.

Your Committee finds that fully funding the Kupuna Care program is critical to keeping seniors healthy and residing at home, which is the most cost-effective way to address the needs of the State's rapidly increasing population of adults age sixty and older.

Your Committee further notes that an appropriation of \$9,000,000, in each year of fiscal biennium 2019-2021 will be needed to fully fund and support the Kupuna Care program.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1023, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1023, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

### SCRep. 951 Ways and Means on S.B. No. 1024

The purpose and intent of this measure is to appropriate funds for the Aging and Disability Resource Center.

Your Committee received written comments in support of this measure from the Department of Health Executive Office on Aging, Policy Advisory Board for Elder Affairs, AARP, and one individual.

Your Committee finds that the Aging and Disability Resource Center assists individuals and their families in locating and accessing support services and in developing and implementing comprehensive care plans.

Your Committee notes that an appropriation of \$3,100,000 is needed for each fiscal year of the 2019-2021 fiscal biennium to sustain the program.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$3,100,000 to an unspecified sum; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1024, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1024, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

## SCRep. 952 Ways and Means on S.B. No. 1027

The purpose and intent of this measure is to require health insurers and like entities to provide coverage for hearing aids.

Your Committee received written comments in support of this measure from the Disability and Communication Access Board, Maui County Office on Aging, AARP, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and two individuals.

Your Committee received written comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs, Department of the Attorney General, Hawaii Employer-Union Health Benefits Trust Fund, Kaiser Permanente, and Hawaii Medical Service Association.

Your Committee finds that some private health insurance plans provide partial coverage for hearing aids and that increased insurance coverage will provide a wider variety of hearing aids to individuals with hearing difficulties.

Your Committee has amended this measure by:

- (1) Deleting references to an employer option with regard to the required coverages under this measure;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical, nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1027, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1027, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

## SCRep. 953 Ways and Means on S.B. No. 967

The purpose and intent of this measure is to authorize the State Public Charter School Commission to establish and fund charter school prekindergarten classrooms.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs, State Public Charter School Commission, Hawaii State Teachers Association, Kamehameha Schools, and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance and the Executive Office on Early Learning.

Your Committee finds that this measure is necessary to ensure the continuation of a program that benefits young learners, supports their overall development, and increases their likelihood of future academic success.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 967, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 967, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (English, Taniguchi).

### SCRep. 954 Ways and Means on S.B. No. 1078

The purpose and intent of this measure is to require that operators of low-speed electric bicycles be at least fifteen years of age and to subject the use of low-speed electric bicycles to various bicycle laws.

Your Committee received written comments in support of this measure from the Department of Transportation, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaii Bicycling League, and one individual.

Your Committee finds that the law is currently unclear with regard to the regulation of low-speed electric bicycles. This measure will clarify that low-speed electric bicycles are subject to the same laws as bicycles, and establish the minimum age of a low-speed electric bicycle operator.

Your Committee has amended this measure by:

- Specifying that the amendments made by the measure do not affect rights and duties that matured, penalties that were incurred, and proceedings that were begun before the effective date; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1078, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1078, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Inouye).

## SCRep. 955 Ways and Means on S.B. No. 1079

The purpose and intent of this measure is to establish and fund an Asset Management Task Force within the Office of the Lieutenant Governor to create a standardized schedule for repairing and maintaining state-owned facilities.

Your Committee received written comments in support of this measure from the Judiciary and Department of Education.

Your Committee finds that the State would benefit from a centralized system to identify and manage maintenance and repair projects.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1079, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1079, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Harimoto, Kahele, Shimabukuro, Taniguchi).

# SCRep. 956 Ways and Means on S.B. No. 1121

The purpose and intent of this measure is to require that the Department of Health establish a working group to evaluate and update its mission and purpose.

More specifically, this measure:

- Requires the Department of Health to establish a working group to examine and make recommendations to update the
  department's statutorily defined powers, duties, functions, and responsibilities, including incorporating certain populationbased approaches to public health and prevention;
- (2) Authorizes the working group to evaluate the department's health impact assessment tool;
- (3) Requires the working group to submit a report to the Legislature; and
- (4) Appropriates moneys to the Department of Health to support the activities of the working group.

Your Committee received written comments in support of this measure from the Department of Health.

Your Committee finds that evaluating and updating the Department of Health's powers and duties to include population-based approaches to public health and prevention that acknowledge the numerous factors that affect health will increase health equity in the State

Your Committee has amended this measure by:

- (1) Designating the individuals with the responsibility to appoint or invite certain representatives to be members of the working group;
- (2) Deleting the appropriation for fiscal year 2020-2021;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1121, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1121, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

## SCRep. 957 Ways and Means on S.B. No. 1131

The purpose and intent of this measure is to expand the State's ongoing efforts to reduce homelessness.

Specifically, this measure:

- (1) Increases the number of ohana zone sites on Oahu from three to six;
- Requires at least two additional ohana zones on each of the islands of Hawaii, Maui, and Kauai, if capacity within the ohana zones pilot program permits;
- (3) Requires evaluation of ultra-low cost modular housing and off-the-grid infrastructure technologies in the ohana zones pilot program reports to the legislature;
- (4) Extends both the deadline for implementation and the sunset date of the ohana zones pilot program; and
- (5) Appropriates funds to the Department of Human Services for the ohana zones pilot program.

Your Committee received written comments in support of this measure from the County of Hawaii Office of the Mayor, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Wahiawa Center for Community Health, LGBT Caucus of the Democratic Party of Hawaii, ALEA Bridge, Mililani Presbyterian Church, Hawaii Kai Homeless Task Force, and numerous individuals.

Your Committee received written comments on this measure from the Governor's Coordinator on Homelessness and Maui County Council.

Your Committee finds that increasing the number of ohana zones included in the ohana zones pilot program and requiring evaluation of innovative housing solutions will improve the overall well-being of homeless individuals and families in the State.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount from an unspecified sum to \$500,000 for fiscal year 2019-2020 and the same sum for fiscal year 2020-2021;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making a technical nonsubstantive amendment for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1131, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1131, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

## SCRep. 958 Ways and Means on S.B. No. 392

The purpose and intent of this measure is to appropriate moneys to the Department of Education to provide special education classrooms throughout the State with instructional materials and equipment.

Your Committee received written comments in support of this measure from the Democratic Party of Hawaii Education Caucus, Hawaii State Teachers Association, and one individual.

Your Committee received written comments on this measure from the Department of Education.

Your Committee finds that providing instructional materials and equipment to special education classrooms will help to narrow the achievement gap between special education students and general education students.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 392, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 392, S.D. 2.

Signed by the Chair on behalf of the Committee Ayes, 12. Noes, none. Excused, 1 (Kahele).

#### SCRep. 959 Ways and Means on S.B. No. 417

The purpose and intent of this measure is to require health insurers and like entities to provide coverage for ambulance services and for statewide community paramedicine services rendered by emergency medical technicians or paramedics.

This measure also requires and appropriates funds for the state Medicaid program to provide ambulance services and authorizes the program to provide coverage for statewide community paramedicine services rendered by emergency medical technicians or paramedics.

Your Committee received written comments in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, American Medical Response, and Kaiser Permanente.

Your Committee received written comments on this measure from the Attorney General and Department of Commerce and Consumer Affairs, Insurance Division.

Your Committee finds that coverage of services provided by emergency medical technicians or paramedics will ensure patient access to quality health care.

Your Committee has amended this measure by:

- Adding a new section to the measure to require group accident and health or sickness insurance policies to also provide coverage for ambulance services and statewide services rendered by emergency medical technicians or paramedics;
- (2) Changing the appropriation to an unspecified amount; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

Your Committee notes that the state Medicaid program needs an appropriation of \$1,000,000 for each year of fiscal biennium 2019-2021 in order to provide the coverage for ambulance services required under this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 417, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 417, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

# SCRep. 960 Ways and Means on S.B. No. 438

The purpose and intent of this measure is to establish an income tax credit for taxpayers who install or upgrade an electric vehicle charging system that is available for use by the public.

Your Committee received written comments in support of this measure from the Alliance of Automobile Manufacturers; Blue Planet Foundation; Hawaiian Electric Company, Inc.; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Tesla; Ulupono Initiative; and five individuals.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that this measure is intended to incentivize the development of electric vehicle charging infrastructure in the State.

Your Committee has amended this measure by:

- (1) Clarifying that a taxpayer may claim the tax credit for costs incurred in upgrading, rather than operating, an electric vehicle charging system;
- (2) Deleting a redundant provision regarding the effective date of the measure;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure;
- (4) Clarifying the aggregate cap amount of the tax credit; and
- (5) Making technical nonsubstantive amendments for purposes of consistency, clarity, and style.

Your Committee notes the following concerns regarding the measure:

- (1) The measure uses the term "credit period." However, the measure does not define this term or explain how the tax credit is intended to be allocated during each year of the credit period;
- (2) The measure uses the terms "level two charging system" and "level three charging system." However, the measure does not define these terms, nor does it provide guidance as to which entity or entities are responsible for establishing standards and criteria for these systems; and
- (3) The measure allows a taxpayer to claim a tax credit for the "upgrade of an electric vehicle charging system[.]" However, the measure does not define "upgrade." As a result, it is unclear what would constitute an upgrade to the "level two charging

system" and "level three charging system" referred to in subparagraphs (b)(2)(A) and (b)(2)(B) of the statute established by the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 438, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 438, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

### SCRep. 961 Ways and Means on S.B. No. 457

The purpose and intent of this measure is to provide increased access to post-secondary education to the residents of the Puna district.

More specifically, this measure:

- (1) Appropriates moneys to the University of Hawaii for staff positions, a feasibility study, and the operating expenses of the Hawaii Community College's distance learning center in the Puna district; and
- (2) Requires the University of Hawaii to submit a report to the Legislature.

Your Committee received written comments in support of this measure from the University of Hawaii, Office of the Mayor of the County of Hawaii, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee finds that due to the Puna district's remote location, its residents and economy would benefit from greater access to post-secondary education through a distance learning center.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 457, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 457, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

# SCRep. 962 Ways and Means on S.B. No. 491

The purpose and intent of this measure is to appropriate funds for various operating expenses of the Department of Agriculture.

Your Committee received written comments in support of this measure from the Department of Agriculture, a member of the Hawaii County Council, and Hawaii Farm Bureau.

Your Committee finds that the appropriations made by this measure will assist the Department of Agriculture in its efforts to support and grow Hawaii's agriculture industry.

Your Committee has amended this measure by:

- (1) Amending the number of positions authorized and amounts appropriated for the AGR132 program;
- (2) Amending the amounts appropriated and method of funding used to hire additional environmental health specialist positions in the pesticides branch, and providing that the positions shall be temporary rather than permanent;
- (3) Removing multiple other budget items from the measure;
- (4) Adding a severability clause;
- (5) Adding a provision authorizing the Governor to correct manifest clerical, typographical, or other mechanical errors;
- (6) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (7) Making technical nonsubstantive amendments for the purposes of consistency and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 491, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 491, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

## SCRep. 963 Ways and Means on S.B. No. 492

The purpose and intent of this measure is to require the Auditor to conduct a performance audit of the Department of Human Services Disability Determination Branch.

Your Committee received written comments on this measure from the Department of Human Services.

Your Committee finds that the Department of Human Services Disability Determination Branch handles more than six thousand initial claims annually. A performance audit of the branch will help to determine whether the criteria used for eligibility determinations is proper, as well as reveal any factors that may unnecessarily contribute to extending processing times of applications.

Your Committee further finds that the audit requested by this measure will require an appropriation of \$400,000 in each fiscal year of the 2019-2021 fiscal biennium.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 492, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 492, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

## SCRep. 964 Ways and Means on S.B. No. 500

The purpose and intent of this measure is to expand the duties and responsibilities of the Office of the Lieutenant Governor to include management and oversight of public tours of the state capitol and maintenance and publication of a list of state board and commission vacancies.

Your Committee received written comments in support of this measure from one individual.

Your Committee received written comments on this measure from the Office of the Governor and Department of Land and Natural Resources' Aha Moku Advisory Commission.

Your Committee finds that the Office of the Lieutenant Governor would be an appropriate entity to manage state capitol tours and to maintain a list of vacancies on state boards and commissions.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 500, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 500, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Taniguchi).

# SCRep. 965 Ways and Means on S.B. No. 509

The purpose and intent of this measure is to appropriate funds for various operating expenses of the Highways Division of the Department of Transportation.

Your Committee did not receive any written comments on this measure.

Your Committee finds that this measure includes additional funds for the Department of Transportation, Highways Division, for the fiscal biennium beginning July 1, 2019, and ending June 30, 2021.

Your Committee has amended this measure by:

- (1) Changing the amount of special funds appropriated for a highways financial management system for fiscal year 2019-2020 from \$10,703,000 to \$10,703,600; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 509, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 509, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Taniguchi).

### SCRep. 966 Ways and Means on S.B. No. 529

The purpose and intent of this measure is to temporarily establish dedicated positions for the purpose of improving the ability of certain departments to secure grants and other funding opportunities.

Specifically, this measure appropriates funds for a pilot project within the departments of Human Services and Health to hire capture managers and support positions responsible for writing and applying for grants, along with managing grants successfully secured.

Your Committee received written comments in support of this measure from the Department of Human Services, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and Hawaii Primary Care Association.

Your Committee received written comments on this measure from the Department of the Attorney General.

Your Committee finds that while the departments of Human Services and Health currently pursue grants and technical assistance opportunities, having dedicated individuals to design, submit, and coordinate the grant applications would improve the ability of the

departments to pursue additional funding sources and expend any additional funds for the betterment of the individuals who receive benefits or services from the departments.

Your Committee acknowledges the concerns expressed by the Department of the Attorney General regarding an arguable violation of Article III, section 14, of the Hawaii State Constitution by the inclusion in the measure of appropriations for the Department of Health.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 529, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 529, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

## SCRep. 967 Ways and Means on S.B. No. 572

The purpose and intent of this measure is to require the Auditor to perform a comprehensive performance audit of the Department of Public Safety.

Your Committee received written comments in support of this measure from the Department of Public Safety, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Community Alliance on Prisons, and two individuals.

Your Committee received written comments on this measure from the Office of the Auditor.

Your Committee finds that recent suicides and other deaths among inmates highlight the need to review whether the Department of Public Safety provides necessary mental health services to inmates and pre-trial detainees. Your Committee further finds the estimated cost of the proposed audit of the department to be \$200,000.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 572, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 572, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

# SCRep. 968 Ways and Means on S.B. No. 586

The purpose and intent of this measure is to require certain developments of nonresidential projects and transient accommodations to contribute to the funding of public education.

Specifically, this measure repeals the school impact fee exemptions for nonresidential development and housing subject to the transient accommodations tax when seeking development in a designated school impact district requiring county subdivision approval, a county building permit, or condominium property regime approval of the project.

Your Committee received written comments in support of this measure from the Democratic Party of Hawaii Education Caucus and Hawaii State Teachers Association.

Your Committee received written comments on this measure from the Department of Education and Tax Foundation of Hawaii.

Your Committee finds that nonresidential development and housing subject to transient accommodations tax generates jobs that make nearby neighborhoods more attractive to workers and their families. The resulting increase in residential development, in turn, increases the need for additional public schools to serve these areas. Accordingly, your Committee finds that this measure will contribute to offsetting the cost of providing a public education within rapidly developing areas of the State.

Your Committee has amended this measure by changing its effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 586, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 586, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12; Ayes with Reservations (Harimoto). Noes, none. Excused, 1 (English).

# SCRep. 969 Ways and Means on S.B. No. 662

The purpose and intent of this measure is to improve highway safety by removing potentially unsafe vehicles from the road.

Specifically, this measure:

- (1) Prohibits motor vehicle lessors from renting, leasing, or offering for rent or lease vehicles that are subject to a vehicle manufacturer's recall until appropriate repairs are made; and
- (2) Requires a person engaging in the peer-to-peer vehicle sharing organization business to register with the Director of Taxation.

Your Committee received written comments in support of this measure from the Department of Commerce and Consumer Affairs and Enterprise Rental Car.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this measure provides protections for consumers by removing potentially unsafe vehicles from the road, including vehicles that are subject to a manufacturer's recall. However, your Committee notes that, because peer-to-peer vehicle sharing businesses do not own the vehicles that they lease, these businesses have expressed concerns regarding their ability to implement the recall protocols described in this measure.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 662, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 662, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

## SCRep. 970 Ways and Means on S.B. No. 705

The purpose and intent of this measure is to appropriate or authorize funds for various operating expenses of the Department of Accounting and General Services.

No written comments were received on this measure.

Your Committee finds that this measure adjusts the amounts appropriated or authorized for the Department of Accounting and General Services from baseline amounts in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- Amending the appropriation of special funds to the AGS130 program to clarify that the ceiling of the shared services technology special fund is being increased by \$150,000; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 705, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 705, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

## SCRep. 971 Ways and Means on S.B. No. 757

The purpose and intent of this measure is to increase government transparency.

Specifically, this measure requires each agency to maintain a website that contains a list of the agency's open contested cases that are not confidential by law.

Your Committee received written comments in support of this measure from the Hawaii Civil Rights Commission, Hawaii Labor Relations Board, Department of Land and Natural Resources, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that requiring each agency to post a list of all active contested cases online will provide notice to the public of the agency's ongoing proceedings and increase transparency and accountability in the contested case process.

Should this measure be enacted into law, your Committee notes that the Department of Labor and Industrial Relations may require additional staff and operating funds to implement the requirements of the measure.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 757, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 757, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, 1 (Kahele).

### SCRep. 972 Ways and Means on S.B. No. 762

The purpose and intent of this measure is to establish a preschool through post-secondary, or P-20, agriculture education coordinator position within the University of Hawaii at Manoa College of Tropical Agriculture and Human Resources.

More specifically, this measure:

- (1) Establishes the P-20 agriculture education coordinator position within the University of Hawaii at Manoa College of Tropical Agriculture and Human Resources;
- (2) Requires the P-20 agriculture education coordinator and the P-20 agriculture education working group to carry out an implementation plan for preschool through post-secondary agriculture education in the State; and
- (3) Appropriates moneys to the University of Hawaii for the P-20 agriculture education coordinator position.

Your Committee received written comments in support of this measure from the University of Hawaii; Waipahu High School; BEES>me; Blue Zones Project; Hawaii Cattlemen's Council; Hawaii Farm Bureau; Hawaii Farm to School Hui; Hawaii FFA; Ka Ohana O Na Pua; Kokua Hawaii Foundation; Local Food Coalition; McKinley High School FFA Alumni Association; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Oahu Farm to School Network; 7th Grade Students of My Life, My Island, My World course at Iolani School; and numerous individuals.

Your Committee received written comments on this measure from the Department of Education.

Your Committee finds that agriculture education at all levels will help to create a larger future generation of farmers in the State, helping to ensure increased food security and self-sufficiency.

Your Committee has amended this measure by:

- Clarifying that the P-20 agriculture education coordinator and the p-20 agriculture education working group shall submit an annual report to the Legislature; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 762, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 762, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

# SCRep. 973 Ways and Means on S.B. No. 1

The purpose and intent of this measure is to establish the ALOHA homes program in the Hawaii Housing Finance and Development Corporation to provide low-cost, high density leasehold homes for sale to Hawaii residents on state-owned lands within a one-half mile radius of a public transit station.

This measure also appropriates general funds for deposit into the ALOHA homes revolving fund, and appropriates funds from the revolving fund for the housing program.

Your Committee received written comments in support of this measure from the Chamber of Commerce Hawaii, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaiian Community Assets, BIA-Hawaii, LGBT Caucus of the Democratic Party of Hawaii, Hawaii Kai Homeless Task Force, Ulupono Initiative, and five individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Land and Natural Resources, Department of Budget and Finance, Department of the Attorney General, Hawaii Housing Finance and Development Corporation, Office of Hawaiian Affairs, Office of Planning, State Procurement Office, and Department of Planning and Permitting of the City and County of Honolulu.

Your Committee finds that the consolidation of ideas and initiatives embodied in this measure is required to lift the State out of its housing crisis.

Your Committee has amended this measure by:

- (1) Making technical corrections relating to cross-references and the placement of definitions for "ALOHA" and "public transit station";
- Deleting provisions relating to special fund administrative and central services fee exemptions for the ALOHA homes revolving fund;
- (3) Changing the appropriations to unspecified amounts;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical, nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

#### SCRep. 974 Ways and Means on S.B. No. 17

The purpose and intent of this measure is to appropriate or authorize funds for various operating expenses of the Hawaii Public Housing Authority.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority.

Your Committee finds that this measure adjusts the amounts appropriated or authorized for the Hawaii Public Housing Authority from baseline amounts in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- (1) Amending the amounts appropriated or authorized and maximum number of positions authorized for various Hawaii Public Housing Authority programs;
- (2) Indicating the program title associated with each program ID in the appropriations table;
- (3) Adding a severability clause;
- (4) Adding a provision authorizing the Governor to correct manifest clerical, typographical, or other mechanical errors;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 17, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 17, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

#### SCRep. 975 Ways and Means on S.B. No. 149

The purpose and intent of this measure is to provide the State Fire Council with greater control over hiring personnel and purchasing office equipment and supplies.

More specifically, this measure:

- (1) Removes the requirement that the State Fire Council hire its administrator and administrative assistant on a full-time basis;
- (2) Authorizes the State Fire Council to employ additional staff and contract with any county fire department to employ the Council's staff; and
- (3) Requires that the Department of Labor and Industrial Relations' budget include the State Fire Council's office equipment and supplies.

Your Committee received written comments in support of this measure from the State Fire Council and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee received written comments in opposition to this measure from the Hawaii Government Employees Association.

Your Committee finds that giving the State Fire Council greater flexibility in hiring personnel and providing funding for different types of personnel and office equipment will enable the Council to fulfill its duties and responsibilities more efficiently.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 149, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 149, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

## SCRep. 976 Ways and Means on S.B. No. 187

The purpose and intent of this measure is to increase the number of district court judges in the State.

Specifically, the measure:

- (1) Adds a fifteenth district court judge to the First Circuit;
- (2) Adds a fourth district court judge to the Second Circuit; and

(3) Appropriates \$170,000 for fiscal year 2019-2020 and \$330,000 for fiscal year 2020-2021 for each of the aforementioned additional judgeships.

Your Committee received written comments in support of this measure from the Judiciary; Department of the Prosecuting Attorney, County of Maui; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; and Maui County Bar Association.

Your Committee finds that due to congestion of court cases in the District Courts of the First and Second Circuits, there have been significant delays in the resolution of cases, as well as a reduction in the amount of time available to judges to consider matters before them. Your Committee believes that this measure will help reduce this congestion.

Your Committee has amended this measure by:

- (1) Changing the appropriations to \$96,636 for fiscal year 2019-2020 and \$193,272 for fiscal year 2020-2021 for each of the additional judgeships;
- (2) Clarifying that each appropriation is for one full-time equivalent (1.00 FTE) judgeship; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 187, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 187, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

## SCRep. 977 Ways and Means on S.B. No. 235

The purpose and intent of this measure is to appropriate funds for various operating expenses of the Department of Health.

Specifically, this measure:

- (1) Appropriates general funds to add permanent positions and funds for the enforcement of non-point source water pollution; and
- (2) Appropriates moneys from the sanitation and environmental health special fund to add permanent sanitarian positions and funds for improved food safety.

Your Committee received written comments in support of this measure from the Department of Health.

Your Committee finds that the funds appropriated by this measure will assist the Department of Health to address pollution issues caused by runoff and other activities that may lead to beach closures and brown water advisories. Your Committee further finds that the additional sanitarian positions authorized by this measure will help to reduce the occurrence of food borne illness from food service establishments.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 235, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 235, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 6 (English, Harimoto, Kahele, Riviere, Shimabukuro, Taniguchi).

## SCRep. 978 Ways and Means on S.B. No. 316

The purpose and intent of this measure is to appropriate funds to expand the Hawaii Community College Promise Program to fouryear institutions within the University of Hawaii system.

Your Committee received written comments in support of this measure from the University of Hawaii, University of Hawaii Alumni Association, Democratic Party of Hawaii Education Caucus, Americans for Democratic Action Hawaii, and Hawaii Educational Policy Center

Your Committee received written comments on this measure from the Department of Education.

Your Committee finds that this measure provides financial assistance to students with demonstrated financial need, increasing the number of economically disadvantaged students who can attend and graduate with a degree from the University of Hawaii system.

Your Committee further finds that the University of Hawaii Community College Promise Program, established pursuant to Act 14, Session Laws of Hawaii 2018, has a base budget of \$3,200,000. Your Committee finds that this measure, as amended, will provide an additional \$800,000 to the program, increasing the total budget to \$4,000,000. Your Committee finds that this will allow the program to provide up to ninety per cent of the funding gap for qualifying students.

Your Committee has amended this measure by:

- (1) Requiring that the University of Hawaii:
  - (A) Annually collect data on the Hawaii Community College Promise Program and its scholarship recipients; and

- (B) Submit an annual report to the Legislature no later than thirty days prior to the Regular Session of 2021 and each legislative session thereafter;
- (2) Removing a provision appropriating moneys to fund the Hawaii promise program for four-year institutions;
- (3) Specifying an appropriation amount of \$800,000 for fiscal year 2019-2020, and the same sum for fiscal year 2020-2021, for the Hawaii Community College Promise Program;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 316, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 316, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

#### SCRep. 979 Ways and Means on S.B. No. 375

The purpose and intent of this measure is to require the Department of Agriculture, in cooperation with the Office of the Governor, to develop and submit to the Legislature a strategic plan to double local food production and increase food exports by 2030.

The measure also appropriates \$500,000 for fiscal year 2019-2020 for this purpose.

Your Committee received written comments in support of this measure from the Office of the Governor; Department of Agriculture; University of Hawaii; Hawaii Farm Bureau; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; 350 Hawaii; We Are One, Inc.; Hawaii Cattlemen's Council; and numerous individuals.

Your Committee finds that this measure will establish relevant benchmarks and metrics to move the State closer toward achieving its food production and export goals, including the goal of doubling local food production and increasing food exports by 2030. Your Committee also finds that an appropriation of \$500,000 for fiscal year 2019-2020 is necessary to achieve the intent of this measure.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 375, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 375, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 2 (Kahele, Shimabukuro).

### SCRep. 980 Ways and Means on S.B. No. 388

The purpose and intent of this measure is to require clinical assessments of certain students.

Specifically, this measure requires the Department of Education to:

- (1) Upon request by a parent or guardian, provide various evaluations of certain children who exhibit emergent or persistent behavioral issues; and
- (2) Evaluate certain suspended students for mental health and learning differences.

Your Committee received written comments in support of this measure from the Kinai Eha; Mililani Psychology Group; Alakai Na Keiki, Inc.; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; and eleven individuals.

Your Committee received written comments in opposition to this measure from the Department of Education.

Your Committee finds that early intervention and evaluation of at-risk youth can diagnose a multitude of social and emotional disorders, which can then be used to help determine appropriate mental health and educational services.

Your Committee has amended this measure by:

- (1) Requiring that the Department of Education provide the parents or guardians of suspended students with the option to request an assessment to determine or uncover any contributing factors that may have led to the offense and provide services to the student that may mitigate any future disciplinary issues or concerns;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making a technical nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 388, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 388, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 3 (English, Kahele, Taniguchi).

### SCRep. 981 Ways and Means on S.B. No. 1325

The purpose and intent of this measure is to clarify that condominium associations may invest in government money market funds.

Your Committee received written comments in support of this measure from the Hawaii Bankers Association.

Your Committee finds that this measure will align state law regarding allowable investments by condominium associations with current federal Security and Exchange Commission regulations. Your Committee notes that this measure will allow condominium associations to prudently invest money collected from unit owners in government money market funds, an investment that is often advantageous for both the associations and the government.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1325 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

### SCRep. 982 Commerce, Consumer Protection, and Health on S.B. No. 381

The purpose and intent of this measure is to require the counties to adopt supplemental ordinances and rules on condominium property regimes, including agricultural lands held in condominium property regimes.

Your Committee received testimony in support of this measure from the Office of Planning, City and County of Honolulu Department of Planning and Permitting, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received testimony in opposition to this measure from the Hawaii Cattlemen's Council, Inc. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that better enforcement of agricultural uses on agricultural lands should be implemented. This measure clarifies the relationship between county ordinances and condominium property regimes, including agricultural lands held in condominium property regimes, which will ensure conformance of condominium property regimes with the underlying county zoning and state land use district and applicable development permits. By allowing county participation in the condominium property regime process, the counties will be able to develop specific measures to address the particular enforcement issues each county faces with respect to regulating uses and development on lands under condominium property regimes.

Your Committee has amended this measure by:

- (1) Specifying that the declaration required to be executed and recorded when creating a condominium property regime in the agricultural district shall include an additional statement declaring that the condominium property regime complies with applicable county subdivision ordinances and rules; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 381, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 381, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Ruderman).

### SCRep. 983 Commerce, Consumer Protection, and Health on S.B. No. 1242

The purpose and intent of this measure is to update the State's waste disposal goal to reduce total solid waste prior to landfill disposal by seventy percent by 2030.

Your Committee received testimony in support of this measure from the Department of Health, Office of Hawaiian Affairs, Department of Environmental Services of the City and County of Honolulu, Ulupono Initiative, and two individuals. Your Committee received testimony in opposition to this measure from Kokua Hawaii Foundation, Zero Waste Oʻahu, Sustainable Coastlines Hawaii, and thirty-seven individuals. Your Committee received comments on this measure from the Sierra Club of Hawaii.

Your Committee finds this measure, which is in response to recommendations made in the Office of the Auditor's Report Number 14-16, updates solid waste management goals set in place twenty-eight years ago. The solid waste reduction goals in this measure are intended to support and align with the Aloha+ Challenge target of reducing Hawaii's total solid waste prior to disposal by 2030. This measure reflects a statewide commitment to update sustainability goals that will improve resiliency and sustainability of natural and cultural resources in Hawaii. Your Committee notes concerns raised in testimony from Zero Waste O'ahu that this measure emphasizes landfill diversion rather than solid waste reduction.

Accordingly, your Committee has amended this measure by clarifying that the goal of seventy percent reduction in solid waste by 2030 applies to total solid waste prior to disposal by any means, rather than only a reduction of waste prior to landfill disposal.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1242, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1242, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Ruderman).

#### SCRep. 984 Water and Land on S.B. No. 1303

The purpose and intent of this measure is to:

- (1) Allow the Department of Education to lease public school lands for a term of not more than ninety-nine years per lease; and
- (2) Amend Act 206, Session Laws of Hawaii 2017, to allow the City and County of Honolulu to transfer lands under existing Department of Education facilities directly to the Department of Education, rather than through the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Education, Building Industry Association of Hawaii, Chamber of Commerce Hawaii, and one individual. Your Committee received testimony in opposition to this measure from the Office of Hawaiian Affairs, Hawaii's Thousand Friends, and four individuals.

Your Committee finds that Act 155, Session Laws of Hawaii 2013, established a pilot program to generate revenue from uses of public school lands for public purposes, such as workforce housing, to build and retrofit twenty-first century schools and create more school-centered communities. The pilot program laid important groundwork for a statewide approach and plan to optimize public school lands and modernize public school facilities. Your Committee further finds that looking at ways to responsibly utilize the State's existing lands and facilities to generate alternative sources of revenue to repair, maintain, and build twenty-first century schools is not a new concept in other states and jurisdictions, but one that must be explored cautiously here in Hawaii.

Your Committee has amended this measure by:

- (1) Inserting a blank number of years per lease term for which the Department of Education is allowed to lease public school
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1303, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1303, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Riviere, Fevella). Noes, none. Excused, none.

### SCRep. 985 (Joint) Commerce, Consumer Protection, and Health and Judiciary on S.B. No. 824

The purpose and intent of this measure is to:

- (1) Prohibit the operation of a moped or motor scooter leased from a rental company unless the operator is wearing a helmet; provided that the prohibition does not apply if the operator has a valid license to operate a motorcycle from any state; and
- (2) Prohibit the renting out of any moped or motor scooter with an aftermarket modification to its motor.

Your Committees received testimony in support of this measure from the Department of Transportation, Keiki Injury Prevention Coalition, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Meal Prep Las Vegas, Icon Tile, Lexislaw808, and fifty-six individuals.

Your Committees find that wearing a helmet when operating a moped or motor scooter can increase the chance of survival in the event of an accident. According to the Hawaii Injury Prevention Plan for 2012-2017, published by the Emergency Medical Services and Injury Prevention System Branch of the Department of Health, helmets can reduce the risk of death by forty-two percent and reduce the risk of a head injury by sixty-nine percent. Your Committees further find that in the State, there were twenty-three motor scooter and moped operator fatalities from 2016 to 2018. Of the twenty-three fatalities reported, twenty-two operators were not wearing a helmet. This measure will ensure the safety of residents and visitors of the State and reduce the number of fatalities by requiring certain moped and motor scooter operators to wear helmets.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 824, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4; Ayes with Reservations (Thielen). Noes, none. Excused, 3 (Chang, Nishihara, Ruderman).

Judiciary: Ayes, 5. Noes, none. Excused, none.

## SCRep. 986 Commerce, Consumer Protection, and Health on S.B. No. 11

The purpose and intent of this measure is to prohibit the sale of polystyrene foam containers and the use of polystyrene foam containers for serving prepared foods beginning July 1, 2020, and to authorize the Department of Health to adopt rules to implement the prohibition.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; one council member of the Maui County Council; one council member of the Hawaii County Council; Sierra Club of Hawaii; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Hawaii Reef and Ocean Coalition; Americans for Democratic Action Hawaii; Hawaii SEED; Sustainable Coastlines Hawaii; Friends of Hanauma Bay; No Single Use – Hawaii; Beach Environmental Awareness Campaign Hawaii; Zero Waste Oʻahu; We Are One, Inc.; Surfrider Foundation; Wipeout Crew of Henry J. Kaiser High School; Kona Brewing Company; Big Island Divers; Kahili Adventist School; and one hundred nineteen individuals. Your Committee

received testimony in opposition to this measure from the Hawaii Food Industry Association; Chamber of Commerce Hawaii; American Chemistry Council; Retail Merchants of Hawaii; Hawaii Restaurant Association; Pancakes & Waffles B.L.D. Hawaii; Tatsuos; HNA Food Services LLC; Queen Street Cafe & Grill; Jets Fast Food; Nabeya Maido; Hibachi Kailua; Pho Tri Restaurant; Loco Moco Drive Inn-Ewa Beach; Cooke Street Diner; Papa's Café; Shiro's Saimin Haven; Stadium Pho; and four individuals. Your Committee received comments on this measure from the Department of Health and Department of Land and Natural Resources.

Your Committee finds that polystyrene foam containers may present a health hazard if styrene, a known carcinogen, leaches into food held in the containers or enters the food chain when consumed by wildlife. Many of the polystyrene containers in the waste stream are used one time and then discarded. As a result, polystyrene foam containers constitute a significant amount of plastic litter found in the environment as they linger indefinitely in land and marine environments, causing deleterious effects to wildlife and habitats.

Your Committee finds that while reducing the use of polystyrene containers is a small but important step toward reducing plastic pollution in the State's natural environment, it is important for state and county agencies to take proactive steps to encourage appropriate disposal of all types of litter and waste.

Your Committee has amended this measure by:

- Clarifying the definition of "prepared food" to ensure pre-packaged non-prepared foods, such as raw eggs and butchered meat, are exempt;
- (2) Narrowing the polystyrene foam container prohibition to restaurants only, rather than also applying the prohibition to vendors operating in the State, and making associated conforming amendments;
- (3) Clarifying that this measure does not preempt a county from enacting more stringent ordinances;
- (4) Delaying the effective date to December 31, 2020, to provide businesses additional time to source alternatives to polystyrene foam containers; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 11, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 11, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Ruderman).

#### SCRep. 987 Commerce, Consumer Protection, and Health on S.B. No. 822

The purpose and intent of this measure is to include flood damage and material damage to a motor vehicle's electronics in the definition of "rebuilt vehicle" under existing law.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual. Your Committee received comments on this measure from State Farm Mutual Automobile Insurance Company.

Your Committee finds that under existing law, a vehicle that is declared a total loss can only be subject to a branded "rebuilt vehicle" title if there is material damage to its frame, unitized structure, or suspension system, and the cost to repair is greater than the vehicle's market value. When an automobile insurer makes this determination, and the car is subsequently rebuilt, it must be branded with a "rebuilt title", which warns future purchasers that the car has been declared a total loss and might have hidden defects that could affect its safe operation. However, existing law does not require a car that has sustained significant flood damage and likewise been declared a total loss to be similarly branded since the existing definition of "rebuilt vehicle" does not include flood damage or damage to a car's electronics. Since modern cars are equipped with electronics and advanced technology compared to cars of the early 1990s, when the existing definition of "rebuilt vehicle" was last amended, this measure corrects this oversight by adding flood damage and damage to a vehicle's electronics to the determination of total loss for titling purposes. This is a consumer protection and safety issue, and is particularly relevant in Hawaii where severe storms and salt water can and do cause flood damage to the vehicle and its electronics.

Your Committee has amended this measure by updating the purpose section.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 822, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 822, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ruderman).

## SCRep. 988 Commerce, Consumer Protection, and Health on S.B. No. 1126

The purpose and intent of this measure is to:

- Beginning on November 1, 2019, require all vulnerable coastal property sales or transfers to include a sea level rise hazard
  exposure statement to ensure that new property owners and transferees understand the special hazards, requirements, and
  limitations that may affect the property; and
- (2) Require sellers to include whether property is within a sea level rise exposure area in the disclosure statement provided to the buyer

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, one council member from the Maui County Council, Environmental Caucus of the Democratic Party of Hawai'i, Hawaiian Community Assets, Sierra Club of Hawai'i, Hawai'i Reef and Ocean Coalition, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Surfrider Foundation Hawaii Chapters, and thirty individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS.

Your Committee finds that coastal properties in the State are often vulnerable to hazards, such as coastal erosion, flooding, tsunamis, storms, high surf, sea level rise, and human-caused loss of natural sand supply. If landward retreat happens, property owners or transferees may be negatively affected in the form of building setbacks, declining property values, insurance unavailability, and strict permit requirements for shoreline protection. Your Committee further finds that it is critical for buyers to understand the hazards and risks they are assuming when purchasing ocean front property. This measure therefore requires buyers and transferees to acknowledge, through the execution of a sea level rise hazard exposure statement, that they are aware of certain potential risks associated with the vulnerable coastal property and also requires sellers to include in their mandatory disclosure statement to buyers that the residential real property lies within a sea level rise exposure area, if applicable. Your Committee finds that requiring acknowledgment and disclosure from both buyers and sellers in these real property transactions will promote transparency and support informed decision making by buyers.

Your Committee has amended this measure by:

- () Revising the definition of "vulnerable coastal property" by removing the two-foot sea level rise specification and generally defining it as real property that is within the officially designated sea level rise exposure area; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1126, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1126, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Ruderman).

## SCRep. 989 Commerce, Consumer Protection, and Health on S.B. No. 1161

The purpose and intent of this measure is to:

- (1) Establish rules, regulations, and permitting procedures for transportation network companies operating in the State; and
- (2) Make permanent insurance requirements for transportation network companies and transportation network company drivers.

Your Committee received testimony in support of this measure from the Department of Transportation; Lyft; and Uber Technologies, Inc. Your Committee received testimony in opposition to this measure from Charley's Taxi and Hawaii Passenger and Property Carriers Association. Your Committee received comments on this measure from the City and County of Honolulu Department of Transportation Services.

Your Committee finds that transportation network companies enhance access to transportation options for residents and visitors of the State by providing a convenient means of transportation. Your Committee further finds that given the rise in popularity of transportation network companies in recent years, statewide regulation is needed to ensure the safety, reliability, and cost-effectiveness of rides provided by transportation network companies. This measure will establish necessary procedures to regulate a widely used service, thereby ensuring the safety of consumers.

Your Committee has amended this measure by:

- (1) Adopting amendments suggested by Lyft that:
  - (A) Remove the prohibition against owning a transportation network company vehicle in the definition of a "transportation network company";
  - (B) Clarify that the definition of "transportation network company vehicle" includes a vehicle that is not operating as a taxicab, limousine, or other for-hire vehicle;
  - (C) Clarify that a picture of the transportation network company driver and the vehicle's license plate number shall be displayed to a rider during a prearranged ride;
  - (D) Clarify that existing insurance requirements apply to transportation network companies and transportation network company drivers, rather than entities and individuals;
  - (E) Specify that certain requirements for transportation network company drivers must be met prior to accepting trip requests;
  - (F) Update references from the national sex offender registry to the United States Department of Justice national sex offender public website or publicly accessible State sex offender registry;
  - (G) Clarify that failure to possess valid registration and automobile liability insurance disqualifies an individual from acting as a transportation network company driver; and
- (2) Specifying that transportation network company drivers must comply with all applicable laws to accommodate assistance animals, rather than just service animals, and inserting a definition of "assistance animal"; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1161, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1161, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Ruderman).

### SCRep. 990 Commerce, Consumer Protection, and Health on S.B. No. 1064

The purpose and intent of this measure is to prevent the loss of large-scale agricultural parcels and ensure that future use of land in the state agricultural district is for bona fide agricultural operations in any county where one-third or less of the county's land is classified in the state agricultural district.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Cattlemen's Council, Inc. and Land Use Research Foundation of Hawaii. Your Committee received comments on this measure from the Department of Agriculture and Office of Planning.

Your Committee finds that creation of a condominium property regime is an alternative to the subdivision of a parcel of land. When applied to land in the state agricultural land use district, the creation of a condominium property regime can result in a larger contiguous area available for farming than under a subdivision.

Your Committee further finds that this measure is intended to curtail the fragmentation of intact agricultural lands and stem the encroachment of low-density, higher-valued residential uses on land in the state agricultural district.

Your Committee has amended this measure clarifying that the prohibition proposed by this measure applies to parcels of land classified in the state agricultural land use district.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1064, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1064, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

### SCRep. 991 Commerce, Consumer Protection, and Health on S.B. No. 1378

The purpose and intent of this measure is to authorize an owner of a shipping container chassis to keep a duplicate copy of the certificate of registration within the shipping container chassis; provided that the original certificate of registration is available for inspection at the principal place of business.

Your Committee received testimony in support of this measure from Matson.

Your Committee finds that a shipping container chassis is a wheeled frame that is designed to carry a shipping container over the road. Your Committee further finds that, under existing law, owners of shipping container chassis must keep the original copy of the certificate of registration within the chassis. However, due to their design, shipping container chassis do not have the necessary compartments to properly and securely store the original certification of registration.

Although this measure allows owners of a shipping container chassis to keep a duplicate copy of a certificate of registration within the chassis, rather than the original certificate of registration, your Committee notes that this does not take into account the lack of necessary compartments in a chassis to secure and store any such document, whether a duplicate or the original. Furthermore, according to testimony received by your Committee, it is unfeasible to keep a copy of a chassis registration in a truck, as specific shipping container chassis are not assigned to specific trucks, as this would prohibit these containers from moving in the most efficient manner.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that owners of chassis used for transporting shipping containers are exempt from the requirement to keep a certificate of registration within a chassis, and permitting these businesses to keep the original certificate of registration, motor vehicle identification card, certificate of insurance, and certificate of inspection at their principal place of business within the State; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1378, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1378, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Ruderman).

### SCRep. 992 Commerce, Consumer Protection, and Health on S.B. No. 253

The purpose and intent of this measure is to:

 Codify the substantive provisions of Executive Order No. 18-02, which requires all state agencies to contract internet-related services only with internet service providers that demonstrate and contractually agree to support and practice net neutrality principles;

- (2) Add contract language and provisions regarding net neutrality principles to state procurement requirements that suppliers of telecommunications, internet, broadband, and data communication services must abide by; and
- (3) Define "net neutrality principles".

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and one individual. Your Committee received testimony in opposition to this measure from the State Procurement Office and CTIA. Your Committee received comments on this measure from Charter Communications.

Your Committee finds that Governor Ige's Executive Order No. 18-02 requires state government agencies to contract internetrelated services only with internet service providers who demonstrate and contractually agree to support and practice net neutrality principles. Net neutrality creates an equal playing field for access to information, promotes a free and open Internet, and preserves the First Amendment right to free speech.

The Federal Communications Commission recently decided to end net neutrality protections and has indicated that violations of net neutrality principles are best viewed through federal and state trade and business practices laws, which can be enforced by state governments. This measure promotes the basic principles of the free and open exchange of information and a free and open Internet without interference by internet service providers. Your Committee additionally finds that it is important for the Legislature adopt and codify net neutrality principles to maintain equal internet access for all in the event a successor governor repeals Executive Order No. 18-02.

Your Committee has amended this measure by:

- (1) Requiring the Director of Commerce and Consumer Affairs to monitor net neutrality, including broadband and its products and services and internet access services of general application throughout the State;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 253, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 253, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Ruderman).

#### SCRep. 993 Judiciary on S.B. No. 1048

The purpose and intent of this measure is to:

- (1) Make unenforceable confidentiality clauses in employment contracts when an act of sexual harassment is claimed by an employee, except as otherwise provided by federal law;
- (2) Ban mandatory arbitration in agreements as to sexual harassment claims beginning July 1, 2019, except as otherwise provided by federal law; and
- (3) Make mandatory confidentiality claims in an arbitration agreement unenforceable as to sexual harassment claims, except as otherwise provided by federal law.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, LGBT Caucus of the Democratic Party of Hawaii, AAUW of Hawaii, Planned Parenthood Votes Northwest and Hawaii, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaii Women Lawyers, Hawaii Women's Coalition, and one individual.

Your Committee finds that confidentiality clauses in employment contracts that apply to sexual harassment claims and mandatory arbitration agreements requiring arbitration of sexual harassment claims allow sexual harassment to be kept a secret and off the record. Your Committee further finds that these clauses in agreements shield harassers from liability for their actions and limit the ability of the victims of sexual harassment to effectively pursue legal remedies. This measure will make mandatory arbitration agreements and confidentiality agreements unenforceable as to sexual harassment claims.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1048, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 994 (Joint) Judiciary and Ways and Means on S.B. No. 367

The purpose and intent of this measure is to prohibit food service businesses and stores from the sale, use, or distribution of polystyrene foam containers, expanded polystyrene food service products, plastic straws, and plastic bags.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, one member of the Hawaii County Council, Animal Rights Hawaii, Organizing for Action, Friends of Hanauma Bay, Hawaii Reef and Ocean Coalition, Zero Waste Oʻahu, No Single Use Hawaii, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Beach Environmental Awareness Campaign Hawaii, Kona Brewing Company, Surfrider Foundation, Sustainable Coastlines Hawaii, Kokua Hawaii Foundation, Sierra Club of Hawaii, and fifty-five individuals. Your Committees received testimony in opposition to this measure from Island Plastic Bags Inc.; Cooke Street Diner; LoCo MoCo Drive Inn—Ewa Beach; Pho Tri Restaurant; Hawaii Food Industry Association; Nabeya Maido; Shiro's Saimin Haven; Papa's Cafe; American Chemistry Council; Hibachi; Queen Street Cafe & Grill; HNA FOOD SERVICES LLC; Jets Fast Food; Tatsuos; Hawaii Restaurant Association; Stadium Pho; Retail Merchants of

Hawaii; Hawaii Restaurant Association; Chamber of Commerce Hawaii; KYD, Inc. dba: K. Yamada Distributors; and three individuals. Your Committees received comments on this measure from the Department of Health.

Your Committees find that single-use plastics, such as polystyrene foam containers and plastic bags, have a negative impact on native species of cultural significance, including endangered and subsistence resource species. In Hawaiian waters, the ingestion of discarded plastic debris, such as polystyrene and plastic bags by native seabirds and endangered turtles, is a well-documented phenomenon that has highly injurious or fatal consequences.

Your Committees further find that the littering of polystyrene foam, plastic straws, and plastic bags are the most common types of litter that pollute Hawaii. Your Committees find that prohibiting the distribution of these materials can help protect Hawaii's land, native species, and waters.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 367, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5; Ayes with Reservations (Kim, Fevella). Noes, none. Excused, none.

Ways and Means: Ayes, 9; Ayes with Reservations (Taniguchi, Fevella). Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

## SCRep. 995 (Joint) Judiciary and Ways and Means on S.B. No. 759

The purpose and intent of this measure is to establish a two-year agricultural theft and vandalism pilot project to examine the effectiveness of prosecuting agricultural theft and vandalism cases in the Counties of Hawai'i and Maui, including theft and vandalism affecting individuals who are not full-time farmers or ranchers.

Your Committees received testimony in support of this measure from the Department of Agriculture, County of Hawai'i Office of the Mayor, one member of the Maui County Council, Ulupono Initiative, Hawai'i Center for Food Safety, Maui County Farm Bureau, and Hawai'i Farm Bureau.

Your Committees find that agricultural theft and vandalism are a constant worry for farmers and ranchers in the State. Given the sparse population and broad acreage that many farming and ranching operations in the State encompass, it is often difficult for farmers and ranchers to police their entire operations at all times. Such theft and vandalism has resulted in an increased cost of production and made it more difficult for farming and ranching operations to be successful.

Your Committees further find that the Department of Agriculture entered into a two-year contract with the County of Hawai'i Prosecutor's Office for an investigator to conduct agricultural theft and vandalism investigations. This has been a productive project that includes performing investigations and outreach with farmers, law enforcement, and farmers' markets. Your Committees believe that this program should be expanded on Hawai'i island and initiated in Maui.

Your Committees have amended this measure by:

- (1) Inserting an effective date of March 15, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 759, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 759, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 9. Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

# SCRep. 996 (Joint) Judiciary and Ways and Means on S.B. No. 819

The purpose and intent of this measure is to authorize and establish procedures and criteria for prescriptive authority for clinical psychologists who meet specific education, training, and registration requirements.

Your Committees received testimony in support of this measure from the Hawai'i Psychological Association, Board of Psychology, American Psychological Association, Mental Health America of Hawaii, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and fifty-two individuals. Your Committees received testimony in opposition to this measure from the American Psychiatric Association, Hawaii Medical Association, and twelve individuals.

Your Committees find that a critical need exists in Hawaii for improved access to safe, effective, and comprehensive mental health care service due to a shortage of psychiatrists, particularly on the neighbor islands. Your Committees further find that some individuals who are in need of medication to treat mental health disorders choose to forego treatment because of the difficulty or expense involved in seeing a psychiatrist. This measure is intended to provide the necessary safeguards to ensure that only those psychologists with appropriate education, clinical training, and registration will be authorized to prescribe from a limited formulary of psychiatric medications to meet the needs of patients who otherwise might fall into a gap in service. Your Committees note that it would be better if there were enough psychiatrists to meet the need for services, but in the absence of sufficient numbers of psychiatrists, especially on neighbor islands, a temporary measure like this one is justified to help Hawai'i residents get the care that they need.

Your Committees have amended this measure by:

- (1) Replacing specifically enumerated penalties for violating procedures and criteria for prescriptive authority with a reference to an existing section of the Hawaii Revised Statutes that provides identical penalties; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 819, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 819, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 9. Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

#### SCRep. 997 (Joint) Judiciary and Ways and Means on S.B. No. 941

The purpose and intent of this measure is to:

- (1) Require an owner or occupier of agricultural land to notify the Land Use Commission of the agricultural uses for which the land was subdivided;
- (2) Give the Land Use Commission enforcement authority over conditions, restrictions, uses, and subdivision of agricultural land, including the right to enter and inspect lands, issue orders, and impose fines or liens for violations; and
- (3) Appropriate funds.

Your Committees received testimony in support of this measure from the Office of Planning, Land Use Commission, Department of Agriculture, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and three individuals.

Your Committees find that subdivisions of agricultural land and exempted agricultural structures that do not conform to the State's statutory requirements and the counties' zoning ordinances and rules can result in the loss of potentially productive agricultural land for agricultural production to a degree equal to that of urbanization. Your Committees further find that urbanization of agricultural lands requires the compilation and consideration of much more information and follows a very deliberative and discretionary permitting process that is in sharp contrast to the ministerial processes used to review subdivisions of agricultural land. This measure will provide the Land Use Commission with information resources and enforcement powers necessary to ensure that subdivided agricultural land is being used for the purposes for which the subdivision was approved.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 941, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 941, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 9. Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

### SCRep. 998 (Joint) Judiciary and Ways and Means on S.B. No. 1419

The purpose and intent of this measure is to require the University of Hawaii to include all long-term leases the University enters into with the intent to purchase as part of its capital improvement projects budget request.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received comments on this measure from the University of Hawai'i System.

Your Committees find that while the University of Hawaii is autonomous in matters related to entering into long-term leases with the intent to purchase, the funds expended by the University and the accompanying contractual obligations associated with these leases are matters of statewide concern. This measure provides greater transparency and oversight for these long-term leases by ensuring that the public and Legislature are more aware of how public funds are being spent.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1419, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 9. Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

## SCRep. 999 (Joint) Judiciary and Ways and Means on S.B. No. 1292

The purpose and intent of this measure is to:

- (1) Amend the definition of "transient accommodations" to include other forms of transient accommodations and other terms that the counties may have defined;
- (2) Make it unlawful for a hosting platform to provide, and collect a fee for, booking services regarding transient accommodations that are not lawfully certified, registered, or permitted under applicable county ordinance;
- (3) Require anonymous, periodic reports by operators and plan managers of transient accommodations listings to the Department of Taxation:
- (4) Enable a transient accommodations broker to register as a tax collection agent with respect to transient accommodations taxes and general excise taxes for its operators and plan managers; and
- (5) Require a transient accommodations broker, platform host, and booking service to remove a transient accommodation advertisement upon notice that the property is not in compliance with state law or county ordinance.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Hawai'i Tourism Authority, Department of Planning and Permitting of the City and County of Honolulu, Kohala Coast Resort Association, Hawai'i Lodging & Tourism Association, Maui Chamber of Commerce, Outrigger Hospitality Group, Napili Kai Beach Resort, Maui Hotel & Lodging Association, OLS Hotels & Resorts, and four individuals. Your Committees received testimony in opposition to this measure from Airbnb; Kobayashi Sugita & Goda, LLP; and nine individuals. Your Committees received comments on this measure from the Department of Taxation; Department of the Attorney General; Office of Information Practices; Office of the Mayor of the County of Kaua'i; Department of Planning of the County of Kaua'i; Tax Foundation of Hawaii; Aqua-Aston Hospitality, LLC; Hawai'i Association of Realtors; Rental by Owner Awareness Association; Expedia Group; and one individual.

Your Committees find that the transient accommodations tax generates a substantial amount of revenue for the State, but due to the recent proliferation of short-term vacation rentals, increased enforcement efforts are needed to regulate transient accommodations that include traditional accommodations and short-term vacation rentals. This measure improves enforcement of land use regulations relating to transient vacation rentals, while facilitating the collection of tax revenue from transient vacation rentals, which will ensure transparency, enforcement, and accountability among online transient vacation rentals while preserving the quality of life for Hawaii residents and visitors.

Your Committees have amended this measure by:

- (1) Inserting an effective date of March 15, 2094, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1292, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1292, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 9. Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

#### SCRep. 1000 (Joint) Judiciary and Ways and Means on S.B. No. 1405

The purpose and intent of this measure is to:

- (1) Establish the offense of unlawful shipment of e-liquid products;
- (2) Include e-liquid and electronic smoking devices containing e-liquid within the definition of "tobacco products", for purposes of the eigarette tax and tobacco tax law;
- (3) Increase the license fee for persons engaged as a wholesaler or dealer of cigarettes and tobacco products;
- (4) Increase the retail tobacco permit fee for retailers;
- (5) Fund health education and prevention programs regarding the risks and dangers of electronic smoking devices; and
- (6) Repeal various statutory provisions relating to electronic smoking.

Your Committees received testimony in support of this measure from the Department of the Attorney General, Department of Taxation, Department of Health, Hawaii Primary Care Association, Bridge Club Hawaii, Hawaii Public Health Association, Blue Zones Project, Hawaii COPD Coalition, Hawaiii Public Health Institute, American Cancer Society Cancer Action Network, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaiii, Breathe Aloha Club, American Heart Association, Student Health Advisory Council, and seventy-seven individuals. Your Committees received testimony in opposition to this measure from Irie Hawaii; Black Lava Vape; Hi Lyfe Vaporz, LLC; VapeWithAloha; Tobacco LLC; VOLCANO Fine Electronic Cigarettes; Retail Merchants of Hawaii; Hawaii Smokers Alliance; and forty-eight individuals. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that electronic smoking devices and "e-liquids" have been gaining popularity amongst smokers due to the availability of varying strengths of nicotine and a wide variety of flavors. Electronic smoking devices and e-liquids are particularly popular with the youth and due to this, the United States Surgeon General has declared that electronic smoking device use among youth is an epidemic in the United States. Your Committees further find that the rate of electronic smoking device usage among the youth in Hawaii is exceptionally high, with 25 percent of high school students being regular users and 42 percent having tried an electronic smoking device. Your Committees believe that this measure will address the high rates of electronic smoking devices being used by the youth in the State, encourage a healthy lifestyle for all, and support tobacco and cancer prevention research in the State.

Your Committees have amended this measure by:

- (1) Inserting an effective date of March 15, 2030, to encourage further discussions; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1405, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1405, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 9. Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

### SCRep. 1001 (Joint) Judiciary and Ways and Means on S.B. No. 1204

The purpose and intent of this measure is to:

- Clarify the eligibility of surviving children to receive benefits under the Employer-Union Health Benefits Trust Fund by amending the definitions of "dependent-beneficiary" and "employee-beneficiary" in chapter 87A, Hawaii Revised Statutes; and
- (2) Update references related to marriage to account for civil unions in interpreting who is a "dependent-beneficiary" and "employee-beneficiary".

Your Committees received testimony in support of this measure from the Employer-Union Health Benefits Trust Fund.

Your Committees find that the Hawaii Employer-Union Health Benefits Trust Fund offers health benefits to dependents of state and county employees and retirees. Your Committees further find that while, under existing law, when an employee or retiree passes away under certain qualifying circumstances, the employee's or retiree's surviving spouse's children that are born after the employee's or retiree's death are eligible to participate in benefit plans offered under the fund. However, children born or legally adopted after the employee's or retiree's death who are not the employee's or retiree's natural or adopted children should not be eligible to participate in fund benefit plans because the child is not the child of the employee or retiree.

Your Committees additionally find that there is inconsistency in the date of termination of coverage between surviving children of employees who are killed in the performance of their duties and surviving children of employees who are eligible for retirement. This measure will clarify these provisions of the Employer-Union Health Benefits Trust Fund chapter of the Hawaii Revised Statutes.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1204, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1204, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 9. Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

## SCRep. 1002 Ways and Means on S.B. No. 510

The purpose and intent of this measure is to appropriate or authorize funds for various operating expenses of the Department of Transportation Administration Division.

Your Committee received no written comments on this measure.

Your Committee finds that this measure adjusts the amounts appropriated or authorized for the Department of Transportation Administration Division from baseline amounts in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 510, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Taniguchi).

### SCRep. 1003 Ways and Means on S.B. No. 797

The purpose and intent of this measure is to appropriate or authorize funds for various operating expenses of the Department of Labor and Industrial Relations.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations.

Your Committee finds that this measure adjusts the amounts appropriated or authorized for the Department of Labor and Industrial Relations from baseline amounts in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018

Your Committee has amended this measure by:

- Specifying that an appropriation for neighbor island staffing and IT support for the Unemployment Insurance Division shall be expended by the Department of Labor and Industrial Relations;
- (2) Changing the program ID associated with an appropriation to be deposited into the labor law enforcement special fund;
- (3) Removing an appropriation out of the boiler and elevator revolving fund;
- (4) Changing the effective date to July 1, 2050; and
- (5) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 797, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 797, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

### SCRep. 1004 Ways and Means on S.B. No. 914

The purpose and intent of this measure is to require the Department of Land and Natural Resources to allocate ten percent of the revenues collected from commercial property in the Banyan Drive redevelopment area to the Banyan Drive Hawaii Redevelopment Agency.

This measure also appropriates moneys to the Department of Land and Natural Resources for the Banyan Drive Hawaii Redevelopment Agency to conduct studies for the agency's redevelopment plan for the Banyan Drive redevelopment area.

Your Committee received written comments in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, ILWU Local 142, and one individual.

Your Committee received written comments in opposition to this measure from the Department of Land and Natural Resources.

Your Committee finds that this measure will assist in redeveloping and revitalizing the Banyan Drive peninsula, areas of which are underutilized and in disrepair.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 914, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 914, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Taniguchi).

### SCRep. 1005 Ways and Means on S.B. No. 923

The purpose and intent of this measure is to appropriate or authorize funds for various operating expenses of the Department of Land and Natural Resources.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that this measure adjusts the amounts appropriated or authorized for the Department of Land and Natural Resources from baseline amounts in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018

Your Committee has amended this measure by:

- (1) Amending the amounts appropriated or authorized and maximum number of positions authorized for various programs within the Department of Land and Natural Resources;
- (2) Indicating the program title associated with each program ID in the appropriations table;
- (3) Adding a severability clause;
- (4) Adding a provision authorizing the Governor to correct manifest clerical, typographical, or other mechanical errors; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 923, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 923, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

## SCRep. 1006 (Joint) Ways and Means and Judiciary on S.B. No. 1463

The purpose and intent of this measure is to replace the environmental response, energy, and food security tax on barrels of petroleum products with a carbon emissions tax on all fossil fuels and to repeal the state fuel tax.

Your Committees received written comments in support of this measure from the Hawaii Reef and Ocean Coalition and Blue Planet Foundation.

Your Committees received written comments in opposition to this measure from the Honolulu County Republican Party, Chamber of Commerce Hawaii, and six individuals.

Your Committees received written comments on this measure from the Department of Taxation; Department of Land and Natural Resources; Department of Business, Economic Development, and Tourism; Department of Transportation; University of Hawaii; Tax Foundation of Hawaii; The Nature Conservancy; Environmental Caucus Democratic Party of Hawaii; Sierra Club of Hawaii; Hawaiian Electric Company, Inc.; and Elemental Excelerator.

Your Committees find that establishing a carbon tax on all fossil fuels is consistent with the State's commitment to a decisive transition away from fossil fuels and a timely shift to a clean energy economy powered by one hundred percent renewable energy.

Your Committees, however, note concerns with repealing the so-called "barrel tax," because both the Department of Transportation and Department of Business, Economic Development, and Tourism require a stable source of funding. Further, the repeal of the barrel

tax may negatively affect transportation emissions. Your Committees recognize that eliminating carbon emissions from the transportation sector of the State may prove more difficult than eliminating carbon emissions from electricity production in the State.

Your Committees also note that a carbon tax, as currently drafted in the measure, may produce regressive effects and disproportionately affect low- to moderate-income persons. Accordingly, if a carbon tax is passed, an equity mechanism would be necessary to offset the anticipated price increases that may be incurred by low- to moderate-income households.

Your Committees further note that the Department of Business, Economic Development, and Tourism; Nature Conservancy; Sierra Club; and Hawaiian Electric Company, Inc., have all indicated their preference for a study to determine the most effective means of implementing a carbon tax in Hawaii.

Your Committees have amended this measure by:

- (1) Amending the definition of "unit" to refer to the specific fossil fuels listed in the carbon emission tax provisions;
- (2) Requiring the Department of Business, Economic Development, and Tourism to include in its annual report to the Legislature an analysis of the annual price increase per carbon dioxide equivalent that is necessary for the State to meet its goal of net zero emissions:
- (3) Clarifying that the repeal of the fuel tax credit for commercial fishers shall take effect on January 1, 2051; and
- (4) Changing the effective date of the measure to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1463, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1463, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 10; Ayes with Reservations (Moriwaki). Noes, none. Excused, 3 (Inouye, Keith-Agaran, Riviere). Judiciary: Ayes, 5; Ayes with Reservations (Kim, Wakai). Noes, none. Excused, none.

#### SCRep. 1007 Ways and Means on S.B. No. 1515

The purpose and intent of this measure is to expand out-of-school programs for students in kindergarten through twelfth grade.

Specifically, this measure establishes the Hawaii three to six out-of-school program and corresponding special fund to support out-of-school programs, including programs offered by private providers after school hours, during weekends, and during school intersessions

Your Committee received written comments in support of this measure from the Department of Education, Hawaii Youth Services Network, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance and Department of Human Services.

Your Committee finds that funding the Hawaii three to six out-of-school program for all middle schools would cost an estimated \$9,800,000. Funding the program for middle schools where Native Hawaiian students make up more than fifty percent of the student population would cost an estimated \$1,400,000, and funding the program for middle schools where Native Hawaiian students make up more than twenty-five percent of the student population would cost an estimated \$4,400,000.

Your Committee has amended this measure by:

- Clarifying that the establishment of the Hawaii three to six out-of-school program shall not impose liability on the State, its
  employees, or its agents;
- (2) Clarifying the sources from which the Department of Education may seek funding;
- (3) Changing the amounts appropriated from unspecified amounts to \$4,400,000 for each fiscal year of the 2019-2021 fiscal biennium; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1515, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1515, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (English, Kahele).

### SCRep. 1008 Ways and Means on S.B. No. 1526

The purpose and intent of this measure is to enhance the DOCARE DLNRTip app by appropriating funds for a DOCARE DLNRTip app administrator position, software upgrades, and app enhancements.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee received comments on this measure from one individual.

Your Committee finds that the DOCARE DLNRTip app is a free, smartphone-based application that members of the public may use to submit anonymous reports to the to the Department of Land and Natural Resources regarding violations on public lands. Your Committee finds that additional funds are necessary to address the application's existing weaknesses so that it may more effectively aid the department's enforcement efforts.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1526, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

### SCRep. 1009 (Joint) Commerce, Consumer Protection, and Health and Judiciary on S.B. No. 1226

The purpose and intent of this measure is to:

- (1) Require criminal history record checks of adult relatives who provide care for a child whose family receives a child care subsidy from the Department of Human Services;
- (2) Clarify the role and response of the child care licensing program when it receives a report of death or injury of a child in a child care setting;
- (3) Address the release of information pending an investigation; and
- (4) Increase penalties and clarify that the Department of Human Services may take administrative and judicial action to enforce child care licensing requirements.

Your Committees received testimony in support of this measure from the Department of Human Services and two individuals. Your Committees received comments on this measure from the Civil Beat Law Center for the Public Interest.

Your Committees find that it is imperative that children in child care are in a safe setting. Your Committees further find that existing law does not require criminal history record checks from adult relatives who provide care for a child whose family receives a child subsidy from the Department of Human Services. This measure makes criminal history record checks mandatory for potential child care providers and increases penalties for people who engage in illegal child care. This measure will provide the Department of Human Services with more tools to quickly enforce violations, protect children from predators, provide children with safer care, and deter people from engaging in illegal child care.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1226, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1226, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Nishihara, Ruderman).

Judiciary: Ayes, 5. Noes, none. Excused, none.

### SCRep. 1010 Commerce, Consumer Protection, and Health on S.B. No. 341

The purpose and intent of this measure is to make exemptions from the behavior analyst licensing requirements permanent for certain teachers working in direct collaboration with, and direct support workers working under the supervision of, a licensed behavior analyst or licensed psychologist.

Your Committee received testimony in support of this measure from the Department of Education, Hawai'i Psychological Association, Hawaii State Teachers Association, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Alaka'i Na Keiki, and two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Disability Rights Center. Your Committee received comments on this measure from the University of Hawai'i System and Hawai'i Association for Behavior Analysis.

Your Committee finds that many students enrolled in public schools would benefit from the expansion of behavior analysis services throughout Hawaii's public school system. However, under existing law, there is a deadline after which teachers will no longer be allowed to implement these services. This measure ensures that teachers will be able to continue to implement these services in direct collaboration with a licensed behavioral analyst or licensed psychologist.

Your Committee has heard the concerns raised by the Hawai'i Association for Behavior Analysis that this measure may enable a further implementation delay of required licensure for direct support workers. Amendments are therefore necessary to ensure the Department of Education moves forward in implementing licensure for direct support workers who directly implement applied behavior analysis services. Your Committee has additionally heard the testimony from the University of Hawai'i System expressing concern that this measure restricts the practice of certain licensed special education teachers and students seeking licensure that are enrolled in an accredited special education teacher preparation program and may prevent the University of Hawai'i's College of Education from fully implementing its special education teacher preparation program.

Accordingly, your Committee has amended this measure by:

(1) Clarifying that the licensure exemption for credentialed registered behavior technicians applies to those under the direction of a licensed behavior analyst or licensed psychologist;

- (2) Deleting language that exempted from licensure a direct support worker who directly implements an applied behavior analysis program under the supervision of a licensed behavior analyst or licensed psychologist;
- (3) Inserting a licensure exemption for licensed special education teachers with specific training and practice and individuals working toward licensure as special education teachers who are enrolled in a state-approved and nationally-accredited special education teacher preparation program that includes training in behavior analysis assessment and interventions;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 341, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 341, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Ruderman).

## SCRep. 1011 (Joint) Judiciary and Commerce, Consumer Protection, and Health on S.B. No. 1340

The purpose and intent of this measure is to require that mandatory seller disclosures in real estate transactions include identification of residential real properties lying within a two-foot sea level rise exposure area, subject to the availability of county maps designating the areas by tax map key.

Your Committees received testimony in support of this measure from the Office of Planning, Environmental Caucus of the Democratic Party of Hawai'i, Hawai'i Reef and Ocean Coalition, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Sierra Club of Hawai'i, and three individuals. Your Committees received testimony in opposition to this measure from the Hawai'i Association of REALTORS. Your Committees received comments on this measure from the Department of Land and Natural Resources and Building Industry Association of Hawaii.

Your Committees find that Act 32, Session Laws of Hawaii 2017, established the Hawaii Climate Change Mitigation and Adaptation Commission and directed the Commission to, as a first step, focus on and develop sea level rise vulnerability and adaptation reports. Your Committees further find that the Commission's report has identified areas that are susceptible to sea level rise impacts based on a 3.2-foot increase in sea level projected to occur by mid-century or earlier. Your Committees additionally find that chapter 508D, Hawaii Revised Statutes, requires a written disclosure statement prepared by the seller, or at the seller's discretion, that purports to fully and accurately disclose all material facts relating to residential real property being offered for sale. Your Committees also find that the value of property lying within the boundaries of a sea level rise exposure area is likely to be affected over time, which is a material fact that should be included in mandatory seller disclosure statements in real property transactions.

Your Committees have amended this measure by requiring disclosure when property lies within the sea level rise exposure area as officially designated by the Hawaii Climate Change Mitigation and Adaptation Commission even if the property is outside of the two-foot sea level rise exposure area.

As affirmed by the records of votes of the members of your Committees on Judiciary and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1340, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1340, S.D. 2.

Signed by the Chairs on behalf of the Committees. Judiciary: Ayes, 5. Noes, none. Excused, none.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Nishihara, Ruderman).

## SCRep. 1012 Judiciary on S.B. No. 1521

The purpose and intent of this measure is to:

- Establish requirements for pharmacy benefit managers and maximum allowable cost, including the ability of pharmacies to receive comprehensive maximum allowable cost lists and bring complaints within the purview of the department of commerce and consumer affairs, rather than the department of health;
- (2) Require pharmacy benefit managers to disclose where an equivalent drug can be obtained at or below the maximum allowable cost when a maximum allowable cost is upheld on appeal and allow contracting pharmacies to reverse and rebill claims if the pharmacy benefit manager establishes a maximum allowable cost that is denied on appeal and pay the difference to the contracting pharmacies; and
- (3) Clarify the available penalties for violations of maximum allowable cost requirements.

Your Committee received testimony in support of this measure from The Queen's Health Systems and Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi. Your Committee received testimony in opposition to this measure from Hawaii Medical Service Association, CVS Health, and Cigna. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Department of the Attorney General.

Your Committee finds that although Hawaii has an existing pharmacy benefit manager transparency law, the law lacks an appropriate enforcement mechanism or incentive for pharmacy benefit managers to comply with disclosure of maximum allowable cost lists. Your Committee further finds that strengthening the ability of pharmacies to receive timely maximum allowable cost lists, establishing a complaints process for violations, and clarifying penalties will encourage transparency amongst pharmacy benefit managers while protecting the State's independent pharmacies and consumers.

Your Committee notes the concerns raised by testifiers on this measure, including the potential for dramatic increases in the number of annual prescription drug claims as well as conflict between the requirements under this measure with previously negotiated industry standard methods of determining the fair prices of generic drugs. Your Committee finds that these concerns have merit and deserve substantive discussion to resolve the issues as this measure continues through the legislative process.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1521, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

#### SCRep. 1013 Judiciary on S.B. No. 1495

The purpose and intent of this measure is to:

- (1) Provide that where a quiet title action involves kuleana land, at the request of any defendant at the time the action was brought, the court shall order mandatory mediation with a goal of resolving the dispute and consolidating separate actions commenced by the same plaintiff or multiple plaintiffs for the same real property in interests; and
- (2) Require the plaintiff in a quiet title action involving kuleana land to bear the costs of required mediation and only recover certain costs, expenses, or attorney's fees as the court may deem equitable.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; We Are One, Inc.; Ka Lāhui Hawai'i Political Action Committee; Hawaiian Affairs Caucus of the Democratic Party of Hawaii; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and nine individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that although quiet title actions have historically been a beneficial legal tool for native Hawaiian kuleana awardees to resist adverse possession claims made by large agricultural landowners, the current framework of quiet title action leaves kuleana land owners vulnerable to dispossession through complex and cost-prohibitive legal processes. However, your Committee further finds that mandatory mediation at the request of any defendant may not be the best solution. Your Committee additionally finds that authorizing the Office of Hawaiian Affairs to intervene in actions to quiet title at the discretion of and upon official action by the Board of Trustees will mitigate the financial and legal hardships sometimes faced by kuleana land owners in actions to quiet title brought by large single plaintiffs. Your Committee notes that this measure is a work in progress, and encourages further discussion and refinement as it continues through the legislative process.

Accordingly, your Committee has amended this measure by:

- (1) Removing the requirement that the court order mandatory mediation at the request of any defendant in a quiet title action involving kuleana lands and the requirement that the plaintiff bear the costs of required mediation;
- (2) Authorizing the Office of Hawaiian Affairs to intervene upon official action of the Board of Trustees in any action to quiet title in which any portion of the land claimed by the plaintiff is kuleana land;
- (3) Inserting an effective date of March 15, 2094, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1495, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1495, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1014 Judiciary on S.B. No. 331

The purpose and intent of this measure is to:

- (1) Permanently require certain motion picture theater owners and operators to provide open movie captioning for at least two showings per week, with at least one screening on a Saturday or Sunday; and
- (2) Repeal the requirement to provide an option of personal closed captioning screenings by means of lightweight eyewear.

Your Committee received testimony in support of this measure from the Office of Language Access, Disability and Communication Access Board, Hawai'i Civil Rights Commission, Aloha State Association of the Deaf, Special Education Advisory Council, Hawaii Coalition for Children with Disabilities, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and eight individuals.

Your Committee finds that Hawaii has been a pioneer in public policy regarding access of movie entertainment for the deaf and/or hard-of-hearing community. Act 39, Session Laws of Hawaii 2015, required movie theater operators to provide closed captioning showings at least twice a week. The closed captioning requirement supplemented the federal Americans with Disabilities Act requirement to provide an assistive technology option. However, the State's closed captioning requirement was lessened in 2017 by allowing movie theaters the option of offering a personal closed captioning system in lieu of offering showings with open movie captioning, depriving the deaf and/or hard-of-hearing community as well as other movie goers who may benefit from closed captioning of a tremendous benefit.

Your Committee further finds that although some movie theaters provide open movie captioning screenings, those screenings often occur during weekdays when many members of the deaf and/or hard-of-hearing community are working or attending school.

Additionally, the personal closed captioning systems are unreliable and uncomfortable to wear, especially with eyeglasses. This measure ensures that Hawaii continues to support full access for persons with disabilities through meaningful accessibility requirements for movie theaters.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 331 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1015 Judiciary on S.B. No. 1348

The purpose and intent of this measure is to clarify the intent of the Small Business Regulatory Review Board's powers when reviewing state and county administrative rules that impact small business.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Small Business Regulatory Review Board; Chamber of Commerce Hawaii; Maui Chamber of Commerce; and Building Industry Association of Hawaii. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Hawaii Farm Bureau.

Your Committee finds that the Small Business Regulatory Review Board plays an important role in protecting small businesses in Hawaii and ensuring that state agency rules that could impact small businesses are consistent with state law and county ordinances. Your Committee further finds that it is important that the Board's purview is clearly understood by the small business community, state and county agencies, Hawaii business chambers, and trade organizations. This measure will clarify the Board's powers to avoid any potential misinterpretation.

Your Committee has amended this measure by:

- (1) Clarifying that the Small Business Regulatory Review Board may consider requests from small business owners to review any proposal for a new rule, proposal to amend a rule, or existing rule by a state agency; and
- (2) Authorizing the Board to make recommendations to a county council or the mayor for requests regarding county ordinances or rules.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1348, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1348, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1016 Judiciary on S.B. No. 1046

The purpose and intent of this measure is to:

- (1) Allow an employee to take family leave in addition to victim leave when the leave is related to domestic or sexual violence against the employee or the employee's minor child;
- Require an employee to submit certification related to domestic or sexual violence of the employee or the employee's minor child; and
- (3) Require employer confidentiality of information related to domestic or sexual violence against the employee or the employee's minor child.

Your Committee received testimony in support of this measure from the Hawai'i State Commission on the Status of Women, Office of Hawaiian Affairs, Parents and Children Together, Hawaii Children's Action Network, and four individuals. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that victims of domestic or sexual violence often need to take extensive leave from their employment to attend to various health or legal matters. Your Committee further finds that addressing such matters should not pose a risk to the employee's personal health and well-being, financial security, or safety due to a fear of adverse consequences from an employer. Your Committee additionally finds that the existing state law requires that employees who are victims of domestic or sexual violence exhaust all other paid and unpaid leave accrued for the calendar year before victim leave may be applied, leaving little to no sick leave available for the rest of the calendar year. This measure will allow employees to take family leave in addition to victim leave to seek safety, treatment, or recovery in cases of domestic or sexual violence.

Your Committee has amended this measure by:

- (1) Clarifying the certification requirements for family leave taken for the purpose of seeking safety, medical attention, or victim services related to domestic or sexual violence; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1046, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1046, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

### SCRep. 1017 Judiciary on S.B. No. 1244

The purpose and intent of this measure is to clarify that liability for illegally selling tobacco products and electronic smoking devices to persons under twenty-one years of age is borne by the retail entity, entity that holds a retail tobacco permit, or entity registered to sell electronic smoking devices, as opposed to an employee.

Your Committee received testimony in support of this measure from the Department of Health, Blue Zones Project-Hawaii, Hawaii COPD Coalition, Coalition for a Tobacco-Free Hawai'i, and three individuals. Your Committee received testimony in opposition to this measure from Retail Merchants of Hawai'i, Hawaii Smokers Alliance, and eleven individuals.

Your Committee finds that under existing law, any person who sells tobacco products or electronic smoking devices to persons under twenty-one years of age in violation of section 712-1258, Hawaii Revised Statutes, shall be fined. Currently, it is unclear whether the retailer, tobacco product permittee, electronic smoking device registration holder, or the employee who unlawfully sold the tobacco products and electronic smoking devices is responsible for the fine. Your Committee further finds that making retailers, tobacco product permittees, and electronic smoking device registration holders liable for the actions of their employees in conducting unlawful sales to minors provides an incentive for retailers, tobacco product permittees, and electronic smoking device registration holders to comply with tobacco sales laws. This measure clarifies that penalties shall not be imposed on employees but on retailers, tobacco product permittees, and electronic smoking device registration holders as they are best placed to ensure that Hawaii's tobacco sales are being upheld at the point of sale.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1244, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1244, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1018 Judiciary on S.B. No. 464

The purpose and intent of this measure is to:

- (1) Authorize a property owner or agent to enter adjacent vacant property with albizia trees under certain conditions, including consulting with a tree arborist and providing written notice, to control albizia trees before they become hazardous; and
- (2) Provide a defense to criminal prosecution for trespass.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, County of Hawai'i Office of the Mayor, Hoalike Farm, Hawaiian Electric Companies, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual.

Your Committee finds that albizia trees are an invasive species and a hazard to public safety and critical infrastructure. Albizia trees can grow up to two hundred fifty feet tall and grow on many public and private properties. In 2014, Tropical Storm Iselle brought down many albizia trees, blocked roadways, and caused millions of dollars in damage to homes and electric utility lines.

Your Committee further finds that there are many landowners that either refuse or fail to respond to repeated notices to control invasive species on their property. This measure provides a way for neighbors to control adjacent albizia trees to prevent or address hazardous conditions.

Your Committee has amended this measure, upon the recommendation of the Department of Land and Natural Resources, by replacing the term "eradicate" with "control" throughout the measure to clarify that the measure relates to the removal of albizia trees within certain property boundaries rather than to a statewide, total removal of the trees.

Your Committee notes that it is your Committee's intent that common law negligence liability apply to the removal of albizia trees pursuant to this measure.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 464, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 464, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 1019 Judiciary on S.B. No. 947

The purpose and intent of this measure is to prohibit the disability of a parent or caregiver from being the sole factor in determining fitness as a foster parent, adoptive parent, guardian, parent seeking custody or visitation, or provider of a safe family home.

Your Committee received testimony in support of this measure from Disability and Communication Access Board, Americans for Democratic Action, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the court makes a decision regarding the custody, visitation, adoption, or guardianship of children based on the welfare and best interests of the child. However, in making that determination, the disability of a parent or guardian should not be the basis for denial or restriction of custody, visitation, adoption, or guardianship of children. This measure expressly prohibits the disability of a parent or guardian from being the sole factor in determining fitness.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 947, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1020 Judiciary on S.B. No. 621

The purpose and intent of this measure is to require the reporting of lost, stolen, or destroyed firearms to county police and establish penalties for failure to report.

Your Committee received testimony in support of this measure from the County of Hawai'i Mayor's Office and three individuals. Your Committee received testimony in opposition to this measure from the Institute for Rational and Evidence-based Legislation, Rook Customs, Hawaii Firearms Coalition, Hawaii Rifle Association, National Rifle Association of America, and 377 individuals. Your Committee received comments on this measure from two individuals.

Your Committee finds that Hawaii's penal code does not adequately address the reporting of lost, stolen, or destroyed firearms. Permits to acquire and registration of firearms are required in the State to ensure that firearms do not become available to those who have been disqualified from owning a firearm, such as felons, the seriously mentally ill, and children.

Your Committee further finds that keeping firearms in the hands of authorized owners is vital to Hawaii's public safety. Your Committee believes that if lost, stolen, and destroyed firearms are properly reported, law enforcement officers can enter this information into the appropriate national and local databases to assist in firearm ownership and possession cases and, ultimately, to enhance public and police officer safety.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 621, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Wakai). Noes, none. Excused, 1 (Fevella).

### SCRep. 1021 Judiciary on S.B. No. 335

The purpose and intent of this measure is to ensure equal access for persons with disabilities to notices of public meetings.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Affirmative Action Committee of the Oahu County Committee, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Office of Information Practices and Hawai'i Civil Rights Commission.

Your Committee finds that all community members, including persons with disabilities, should have equal access to open government meetings and forums. Your Committee also finds that under Hawaii's existing sunshine law, individuals can request mailed hard copies of meeting notices, but this method does not provide the same access and rights as that of individuals who can access meeting notices electronically. This measure takes steps to ensure persons with disabilities have equal access to hard copies of public meeting notices, either by request through the mail or through postings at the Office of the Lieutenant Governor or the office of the appropriate board or commission. By refining the sunshine law and mandating more stringent requirements for public meeting notices, all community members, including persons with disabilities, should have equal access to public meetings and the ability for equal participation in the governmental process that influences decisions shaping the quality of life for all residents in Hawaii.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 335, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 335, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1022 Commerce, Consumer Protection, and Health on S.B. No. 739

The purpose and intent of this measure is to require employers of fifty persons or more who provide a parking subsidy to employees to offer a parking cash-out program.

Your Committee received testimony in support of this measure from the Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, Ulupono Initiative, and three individuals. Your Committee received testimony in opposition to this measure from the Department of Health and The Queen's Health Systems. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that ground transportation alone uses approximately one-third of the State's imported fossil fuels. To reduce imported fossil fuel usage, employees should be encouraged to drive less and use alternative forms of transportation, such as walking, bicycling, bus, rail, or carpooling. A parking cash-out program may help provide incentives for other forms of transportation. Your Committee further finds that parking cash-out is a requirement in California for certain employers, and studies have shown a ten to twelve percent decrease in drive-alone commute trips and related vehicle-miles traveled. Other results from California include curtailing air pollution and greenhouse gas emissions, fewer crashes, and livability enhancements.

Your Committee notes the concerns raised in testimony that this measure may be more appropriately placed in a different chapter of the Hawaii Revised Statutes, does not provide funding or personnel to carry out the requirements, and does not provide a department

under which the program will be implemented. Your Committee therefore finds that, due to concerns associated with the immediate implementation of a parking cash-out program, a working group is a more appropriate option at this time.

Accordingly, your Committee has amended this measure by deleting its contents and replacing them with language establishing a parking cash-out working group that shall:

- (1) Research and explore the idea of a parking cash-out program that would enable businesses and employers to offer cash allowances instead of parking subsidies to provide incentives for other forms of transportation that are less dependent on fossil fuels:
- (2) Address and make recommendations on the program's benefits, approximate cost and other impacts, and the most appropriate department to administer, implement, and enforce the program;
- (3) Consider other programs, such as carbon pricing mechanisms that minimize regressivity, equity-based tax credits or carbon fee and dividends, and whether a pilot program or other method would be better suited to accomplish the goals and implementation of the parking cash-out or similar program;
- (4) Report its findings to the Legislature no later than twenty days prior to the convening of the Regular Session of 2020; and
- (5) Dissolve on June 30, 2020.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 739, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 739, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Ruderman).

### SCRep. 1023 Judiciary on S.B. No. 642

The purpose and intent of this measure is to:

- (1) Insert article thirteen of the United Nations Declaration on the Rights of Indigenous Peoples into the Hawaii Revised Statutes;
- (2) Require that Hawaiian be used for public acts and transactions;
- (3) Direct the Office of Language Access to provide services to Hawaiian language speakers;
- (4) Require the Hawaiian version of a law be held binding if the law in question was originally drafted in Hawaiian and then translated into English;
- (5) Require that 'okina and kahakō be used, when appropriate, in documents prepared by or for state or county agencies or officials, with certain exceptions; and
- (6) Amend existing law so that any rule, order, policy, or other act, official or otherwise, that prohibits or discourages the use of 'okina and kahakō, except those specifically designed for the benefit of native speakers of Hawaiian, shall be void.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Hawaiian Affairs Caucus of the Democratic Party of Hawaii, Maunakea Observatories, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, Kamehameha Schools, and two individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies, petitions containing over two hundred signatures, and one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that article XV, section 4, of the Constitution of the State of Hawai'i establishes Hawaiian as an official language of the State. Your Committee further finds that, at the Hawai'i State Constitutional Convention in 1978, the Committee on Hawaiian Affairs proposed that amendment in the state constitution "in order to give full recognition and honor to the rich cultural inheritance that Hawaiians have given to all ethnic groups of this State."

Your Committee additionally finds that in 2007, the United Nations adopted the United Nations Declaration on the Rights of Indigenous Peoples and that in 2011, the United States became a signatory on the Declaration. This measure will promote the use of the Hawaiian language and encourage the State of Hawaiii to put Hawaiian language on the same level as English, as well as codify article thirteen of the United Nation's Declaration on the Rights of Indigenous Peoples.

Your Committee has amended this measure by:

- (1) Clarifying that the Legislature acknowledges rather than asserts the rights of Native Hawaiians; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 642, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 642, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

# SCRep. 1024 Ways and Means on S.B. No. 84

The purpose and intent of this measure is to appropriate funds for a Board of Education Analyst II position.

Your Committee received written comments in support of this measure from the Board of Education and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee finds that appropriating funds for a Board of Education Analyst II position to perform evaluative work and data analysis will help to support the Board of Education in meeting its current and planned duties and initiatives, which have expanded over the past several years.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 84, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 84, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

## SCRep. 1025 Ways and Means on S.B. No. 281

The purpose and intent of this measure is to appropriate funds to the Department of Health.

No written comments were received on this measure.

Your Committee notes that Governor's Message No. 6 requests a total of \$14,254,411 for fiscal year 2019-2020 and \$18,682,998 for fiscal year 2020-2021 to cover various costs to maintain the current level of pre-hospital emergency medical services.

Your Committee has amended this measure by replacing its contents with appropriations for each year of the fiscal biennium 2019-2021 to maintain the current level of pre-hospital emergency medical services.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 281, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 281, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

### SCRep. 1026 Ways and Means on S.B. No. 371

The purpose and intent of this measure is to provide parameters and funding to the Department of Education for the establishment and implementation of a workforce development program within the Department of Education.

Your Committee received written comments in support of this measure from the Department of Education McKinley Community School for Adults, Department of Labor and Industrial Relations, Hawaii State Teachers Association, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Department of Education, Workforce Development Council, and Executive Office on Early Learning.

Your Committee finds that this measure will align educational curriculum with workforce readiness by allowing students in the State to earn a high school diploma concurrently with an industry-recognized associate degree and pre-apprenticeship certificates or other industry-recognized certificates.

Your Committee notes that the estimated costs related to this measure include:

- (1) \$194,404 for two full-time equivalent (2.0 FTE) Educational Specialist II positions in fiscal years 2019-2020 and 2020-2021;
- $(2) \quad \$332,\!094 \ for \ seven \ full-time \ equivalent \ (7.0 \ FTE) \ District \ Office \ Teacher \ positions \ in \ fiscal \ year \ 2020-2021;$
- (3) \$250,000 for initial startup costs in fiscal year 2019-2020; and
- (4) \$500,000 for operational costs in fiscal year 2020-2021.

Your Committee has amended this measure by:

- Clarifying that the schools designated by the Department of Education to participate in the program shall include community schools for adults;
- (2) Specifying that the sum appropriated shall be expended, in part, to fund two full-time equivalent (2.0 FTE) educational specialist II positions and seven full-time equivalent (7.0 FTE) district office teacher positions; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 371, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 371, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Kahele, Riviere).

### SCRep. 1027 Ways and Means on S.B. No. 467

The purpose and intent of this measure is to appropriate funds to restore diagnostic, preventative, and restorative dental benefits to adult Medicaid enrollees.

Your Committee received written comments in support of this measure from the State Council on Developmental Disabilities; Disability and Communication Access Board; Healthcare Association of Hawaii; Catholic Charities Hawaii; Lanai Community Health Center; Oral Health for All Hawaii; We Are One, Inc.; Hawaii State Rural Health Association; Hawaii Self Advocates Advisory Council; Hawaii Dental Hygienists Association; Save Medicaid Hawaii; Hoola Lahui Hawaii; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; The Queen's Health Systems; Ohana Health Plan; AlohaCare; Kokua Kalihi Valley Community Health Center; Hawaii Dental Association; Hawaii Public Health Institute; and numerous individuals.

Your Committee received written comments on this measure from the Department of Human Services and Hawaii Primary Care Association.

Your Committee finds that poor oral health is linked to many serious and chronic conditions, including heart disease, diabetes, strokes, depression, low birth weight, and premature birth. Your Committee notes that, without coverage for routine dental care, many Medicaid recipients seek emergency care for preventable oral health problems. Your Committee finds that restoring adult dental benefits would allow approximately one hundred eighty thousand Medicaid recipients in the State to maintain their health through early detection and treatment of dental conditions and oral diseases.

Your Committee has amended this measure by:

- (1) Changing the appropriation from an unspecified amount to \$100,000 for each fiscal year in the 2019-2021 fiscal biennium;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 467, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 467, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

### SCRep. 1028 Ways and Means on S.B. No. 474

The purpose and intent of this measure is to appropriate or authorize funds for various operating expenses of the Department of Human Services.

Your Committee received written comments in support of this measure from the Department of Human Services, Department of Transportation, and Hawaii Kai Homeless Task Force.

Your Committee received written comments on this measure from Hawaii Primary Care Association.

Your Committee finds that this measure adjusts the amounts appropriated or authorized for the Department of Human Services from baseline amounts in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- (1) Changing all appropriation amounts to unspecified sums;
- (2) Adding a severability clause;
- (3) Adding a provision authorizing the Governor to correct manifest clerical, typographical, or other mechanical errors;
- (4) Removing a duplicative provision providing that the Department of Human Services is the responsible expending agency for the appropriations made in the measure;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 474, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 474, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

## SCRep. 1029 Ways and Means on S.B. No. 526

The purpose and intent of this measure is to appropriate funds to the Department of Human Services to purchase, staff, and operate two mobile clinics to serve homeless people.

The measure also requires the Department of Human Services to obtain matching funds and allocates one mobile clinic to the County of Hawaii.

Your Committee received written comments in support of this measure from the Mayor of the County of Hawaii, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaii Psychological Association, and three individuals.

Your Committee received written comments on this measure from the Department of Human Services and Governor's Coordinator on Homelessness.

Your Committee finds that, without access to routine health care, many homeless individuals seek treatment at hospital emergency rooms for a variety of physical and mental conditions. These visits cost the State's hospitals millions of dollars annually in uncompensated billing. Your Committee recognizes that other states that use mobile clinics have seen significant cost savings when compared to emergency room visits. One estimate found that every dollar spent on mobile clinics saved twelve dollars in other health care costs.

Your Committee has amended this measure by:

- (1) Changing the appropriation from an unspecified amount to \$400,000 for each fiscal year in the 2019-2021 fiscal biennium;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 526, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 526, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

### SCRep. 1030 Ways and Means on S.B. No. 798

The purpose and intent of this measure is to appropriate moneys to the Department of Land and Natural Resources to digitize the State Historic Preservation Division's records, files, and other materials.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and Land Use Research Foundation of Hawaii.

Your Committee finds that appropriating moneys for the State Historic Preservation Division's digitization efforts will help the division improve its status as a recipient of federal funds so that it is no longer considered "high risk."

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 798, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 798, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

## SCRep. 1031 Ways and Means on S.B. No. 812

The purpose and intent of this measure is to appropriate or authorize funds for various operating expenses of the Department of Commerce and Consumer Affairs.

Your Committee received written comments in support of this measure from the Department of Commerce and Consumer Affairs and Public Utilities Commission.

Your Committee finds that this measure adjusts the amounts appropriated or authorized for the Department of Commerce and Consumer Affairs from baseline amounts in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- (1) Changing all appropriation amounts to unspecified sums;
- (2) Indicating the program title associated with each program ID in the appropriations table;
- (3) Adding a severability clause;
- (4) Adding a provision authorizing the Governor to correct manifest clerical, typographical, or other mechanical errors;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive amendments for purposes of consistency and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 812, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 812, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

### SCRep. 1032 Ways and Means on S.B. No. 924

The purpose and intent of this measure is to appropriate or authorize funds for various operating expenses of the Department of Land and Natural Resources.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Kahoolawe Island Reserve Commission, Big Island Invasive Species Committee, and The Nature Conservancy.

Your Committee finds that this measure adjusts the amounts appropriated or authorized for the Department of Land and Natural Resources from baseline amounts in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- (1) Changing all appropriation amounts to unspecified sums;
- (2) Indicating the program title associated with each program ID in the appropriations table;
- (3) Adding a severability clause;
- (4) Adding a provision authorizing the Governor to correct manifest clerical, typographical, or other mechanical errors; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 924, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 924, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

### SCRep. 1033 Ways and Means on S.B. No. 983

The purpose and intent of this measure is to update and expand the Department of Education's existing professional certification incentive program.

Specifically, this measure:

- (1) Renames the Department of Education's Teacher National Board Certification Incentive Program as the National Certification Incentive Program;
- Expands and clarifies the requirements of the teacher national board certification incentive program to include school psychologists;
- (3) Specifies that teacher incentives, bonuses, and compensation beyond regular wages are excluded from public charter schools' per-pupil base requests; and
- (4) Appropriates funds for certain bonuses for public school teachers, public charter school teachers, and school psychologists.

Your Committee received written comments in support of this measure from the Hawaii State Teachers Association, Hawaii Association of School Psychologists, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and seven individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure, by expanding certification incentives to include school psychologists and supporting certain bonuses to certain deserving education professionals, incentivizes professional excellence, rewards quality educators, and will positively influence school psychologist recruitment efforts in the State.

Your Committee has amended this measure by:

- (1) Inserting \$1,666,434 as the amount to be appropriated for fiscal year 2019-2020 and the same sum for fiscal year 2020-2021;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 983, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 983, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

## SCRep. 1034 Judiciary on S.B. No. 898

The purpose and intent of this measure is to specify the data requirements in order for the Bureau of Conveyances to record deregistered lands, including a requirement that the registered owner of the lands sought to be deregistered shall provide a plan of the parcel or parcels that includes a map and description prepared by a licensed professional surveyor.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Land Surveyors Association, and five individuals. Your Committee received testimony in opposition to this measure from the American Resort Development Association Hawaii.

Your Committee finds that existing Land Court deregistration laws do not ensure that land owners who voluntarily deregister their property from the Land Court registration system are in possession of a proper map and legal description of their land to replace those

that become inaccurate and inapplicable after deregistration. This measure amends the existing laws to ensure that the original status of deregistered lands is clearly identified and the proper description of the land is recorded with the Bureau of Conveyances.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 898, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 1035 (Joint) Judiciary and Ways and Means on S.B. No. 1033

The purpose and intent of this measure is to:

- (1) Establish licensure of midwives;
- (2) Exempt Native Hawaiian healers from licensure requirements;
- (3) Require registration for current practicing midwives by January 1, 2024;
- (4) Provide provisional licensure until full licensure can be obtained; and
- (5) Appropriate funds from the compliance resolution fund.

Your Committees received testimony in support of this measure from Breastfeeding Hawaii, Midwives Alliance of Hawaii, Committee of Midwife Advocates for Certified Midwives of the American College of Nurse-Midwives, AAUW of Hawaii, Hawaii Maternal and Infant Health Collaborative, Hawaii Chapter of American Academy of Pediatrics, and twenty-five individuals. Your Committees received testimony in opposition to this measure from Wearing and Caring, LLC; Kona Coast La Leche League; UpCountry Doctor; Gentle Beginnings Midwifery; Hoʻopae Pono Peace Project; Hale Hoʻolana; Aoki Birthing Care; Hawaii Home Birth Collective; Sacred Healing Arts, LLC; Hawaii Holistic Midwifery; Hawaii Midwifery Council; Bia Don Dia Postpartum Services; and two hundred five individuals. Your Committees received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, Department of Commerce and Consumer Affairs, Kapiolani Medical Center, Hawaii Section of the American College of Obstetricians and Gynecologists, Hawaii Affiliate of the American College of Nurse Midwives, Hawaii Pacific Health, Papa Ola Lokahi, and five individuals.

Your Committees find that midwives were regulated in Hawaii from the 1930's until 1998. Your Committees further find that there is growing public concern over non-credentialed and uncertified individuals who promote themselves as midwives and who have been allowed to market and provide midwifery services as a business. Your Committees additionally find that the Auditor has already conducted a sunrise analysis for the licensure of midwives, and noted in Report No. 17-01 that "given our determination that the nature of the services provided by midwives may endanger the public's health and safety, we conclude that the Hawaii Regulatory Licensing Act mandates that the profession of midwifery be regulated."

Your Committees have amended this measure by:

- (1) Prohibiting traditional midwives from advertising;
- (2) Providing penalties for violation of registration and licensure requirements; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1033, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1033, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5; Ayes with Reservations (Gabbard). Noes, none. Excused, none.

Ways and Means: Ayes, 9; Ayes with Reservations (Harimoto, Moriwaki, Shimabukuro). Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

## SCRep. 1036 (Joint) Judiciary and Ways and Means on S.B. No. 227

The purpose and intent of this measure is to make an appropriation to the Department of Human Services to contract with non-profit providers to provide access to legal counsel to immigrants in immigration proceedings.

Your Committees received testimony in support of this measure from the Filipina Advocacy Network, Hawai'i J-20+, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and six individuals. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that there are many immigrants who seek to continue legal residence or obtain legal status in the country. However, immigrants are not provided with court-appointed counsel, including those detained and facing deportation. Many immigrants lack the resources to obtain legal representation. Therefore, immigrants who have limited English proficiency and limited understanding of the complex immigration court system, including children, are forced to argue their cases in court without legal representation. The lack of counsel may have a profound impact on immigrants' ability to receive a fair hearing.

Your Committees further find that Hawaii has a tradition of welcoming immigrants. The State's economics are driven by immigrants and immigrants make major contributions to Hawaii. Immigrants are an integral part of Hawaii's diverse, multicultural community.

Your Committees note that given the current political climate and the number of immigrants being detained and faced with deportation, immigrants are in dire need of legal help. Therefore, there are vital public policy reasons behind providing legal representation to immigrants in immigration proceedings.

Your Committees have amended this measure by:

- (1) Making technical, nonsubstantive amendments for the purposes of clarity and consistency; and
- (2) Inserting an effective date of March 15, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 227, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 227, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 9. Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

### SCRep. 1037 (Joint) Judiciary and Ways and Means on S.B. No. 554

The purpose and intent of this measure is to:

- Add a minimum penalty of \$50 per violation to the state water code and make each day that a violation exists or continues a separate offense; and
- (2) Require the Commission on Water Resource Management to determine the amount of the penalty based on the circumstances of the violation.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and Oʻahu County Committees on Legislative Priorities of the Democratic Party of Hawaiʻi. Your Committees received testimony in opposition to this measure from the Department of Agriculture.

Your Committees find that the Legislature adopted the state water code in 1987 to protect the water resources of the State of Hawai'i. Your Committees further find that the water code's penalties and fines must be strengthened to deter violators because current fines and penalties appear to be too low to act as an effective deterrent. Your Committees additionally find that current language of the state water code may limit the Commission on Water Resource Management's ability to impose daily fines for unpermitted activities, and that this issue has recently come up before the Commission. This measure will clarify and strengthen the state water code and facilitate enforcement activities by the Commission.

Your Committees have amended this measure by:

- (1) Reinserting language that requires the Commission on Water Resource Management to assess a fine for a continuing violation from the earliest known date of the violation and to determine the earliest known date of continuing violation by a preponderance of the evidence; and
- (2) Making technical, substantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 554, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 554, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 9. Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

### SCRep. 1038 (Joint) Judiciary and Commerce, Consumer Protection, and Health on S.B. No. 1339

The purpose and intent of this measure is to require a vulnerable coastal property purchaser statement with the sale or transfer of vulnerable coastal real property.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Office of Planning, Environmental Caucus of the Democratic Party of Hawai'i, Hawai'i Reef and Ocean Coalition, Sierra Club of Hawai'i, and two individuals. Your Committees received testimony in opposition to this measure from the Hawai'i Association of REALTORS. Your Committees received comments on this measure from the Building Industry Association of Hawaii.

Your Committees find that when the shoreline migrates landward, or mauka, due to erosion or sea level rise, the dividing line between public and private ownership also migrates mauka, with a reduction in the area under private ownership. Your Committees further find that obtaining a permit to repair or install shoreline protection structures such as seawalls, revetments, geotextile sandbags, or groins may be difficult due to federal and state coastal management policies, which protect coastal natural resources and shoreline public access, and discourage coastal hardening. This measure will ensure that new property owners understand the risks posed by sea level rise and other special hazards, permitting requirements, and limitations that may affect vulnerable coastal property by requiring a vulnerable coastal property purchaser statement with the sale or transfer of vulnerable coastal real property.

Your Committees have amended this measure by linking the definition of "vulnerable coastal property" directly to the sea level rise exposure area as officially designated by the Hawaii Climate Change Mitigation and Adaptation Commission rather than limit it to real property within a two-foot sea level rise exposure area.

As affirmed by the records of votes of the members of your Committees on Judiciary and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1339, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1339, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Nishihara, Ruderman).

#### SCRep. 1039 Judiciary on S.B. No. 1451

The purpose and intent of this measure is to repeal President's Day as a state holiday and establish Lā Kū'oko'a, Hawaiian Recognition Day, as an official state holiday.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Association of Hawaiian Civic Clubs, Prince Kūhiō Hawaiian Civic Club, Hawaiian Affairs Caucus of the Democratic Party of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, INPEACE, Bishop Museum, Papa Ola Lōkahi, Kamehameha Schools, and two individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Office of the Mayor of the County of Hawai'i and one individual.

Your Committee finds that the first official celebration of Hawaiian Recognition Day, Lā Kū'oko'a, was in 1847 to recognize and celebrate the anniversary of Hawai'i's welcome into the family of nations. Lā Kū'oko'a was celebrated for decades and was among the codified list of national holidays enacted by the Republic of Hawai'i in 1896. Your Committee further finds that establishing Lā Kū'oko'a as an official holiday restores important connections to Hawai'i's rich cultural and political heritage and is a means to honor and learn from Hawai'i's socially progressive history.

Your Committee has amended this measure by:

- (1) Repealing Good Friday, instead of President's Day, as a state holiday; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1451, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1451, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

#### SCRep. 1040 Judiciary on S.B. No. 1082

The purpose and intent of this measure is to make general contractors entering into or under contracts in Hawaii for work on buildings or structures liable for debt incurred by subcontractors for wages due to claimants for performance of labor in the contract between the general contractor and owner.

Your Committee received testimony in support of this measure from Pacific Resource Partnership, Hawaii Regional Council of Carpenters, and Hawaii Construction Alliance. Your Committee received testimony in opposition to this measure from the Subcontractors Association of Hawaii. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that under existing law, general contractors are not held liable for the unfair labor practices of their subcontractors, including the nonpayment of wages. As a result, employees of subcontractors are, in certain instances, not being adequately compensated for work they provide. This measure will allow general contractors to require their subcontractors to furnish payroll records and other relevant documents upon request so that general contractors can ensure that the subcontractors' employees are being properly paid, allow general contractors to withhold any future payments to their subcontractors unless the requested information is provided, and hold general contractors liable if their subcontractors do fail to properly pay their employees. This will ensure that general contractors take precautions in hiring and monitoring their subcontractors if they want to avoid being liable for their subcontractors' debts and will help protect the workers from unfair labor practices.

Your Committee has amended this measure by inserting an effective date of March 15, 2094, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1082, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1082, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 1041 Ways and Means on S.B. No. 696

The purpose and intent of this measure is to address the deleterious impact of cesspools in the State.

Specifically, this measure:

- (1) Extends certain deadlines applicable to the cesspool conversion working group; and
- (2) Appropriates moneys for fiscal year 2020-2021 for:
  - (A) A comprehensive statewide study of sewage contamination in nearshore marine areas; and

(B) The Department of Health to conduct research on issues identified by the cesspool conversion working group in completing its comprehensive cesspool conversion plan.

Your Committee received written comments in support of this measure from the Department of Health, University of Hawaii, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual.

Your Committee finds that although the Cesspool Conversion Working Group was established in 2018 and has been making attempts to reach its objectives, the group needs additional time and resources to reach its goals.

Your Committee also finds that for fiscal year 2020-2021, appropriations of \$500,000 for a statewide study of sewage contamination in nearshore marine areas and \$1,000,000 for completing the comprehensive cesspool conversion plan would be necessary for the purposes of this measure.

Your Committee has amended this measure by changing:

- (1) Both of its appropriations to unspecified amounts and changing their effective dates to July 1, 2051; and
- (2) The effective date of the remaining provisions of the measure to July 1, 2050,

to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 696, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 696, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

### SCRep. 1042 Ways and Means on S.B. No. 752

The purpose and intent of this measure is to appropriate funds for research on and prevention of pathogens affecting ornamental ginger growth and production in the State.

Your Committee received written comments in support of this measure from the Department of Agriculture, University of Hawaii, Maui County Farm Bureau, Hawaii Floriculture and Nursery Association, Land Use Research Foundation of Hawaii, Hawaii Crop Improvement Association, and four individuals.

Your Committee finds that this measure will fund diagnostic testing and a statewide survey to identify the primary cause of the decline of ornamental ginger in Hawaii. Your Committee further finds that these efforts offer a targeted and effective approach to addressing this agricultural, economic, and biosecurity issue.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 752, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 752, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

## SCRep. 1043 Ways and Means on S.B. No. 753

The purpose and intent of this measure is to appropriate funds for the Department of Agriculture to revitalize and expand the aquaculture development program.

Your Committee received written comments in support of this measure from the Department of Agriculture, the Hawaii Farm Bureau, the Hawaii Crop Improvement Association, the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, the Land Use Research Foundation of Hawaii, Kulahaven Farms, the Hawaii Aquaculture and Aquaponics Association, and two individuals.

Your Committee finds that the aquaculture development program will help to sustain farms, promote local food production, and achieve the State's food sustainability goals.

Your Committee notes that an appropriation of \$500,000 for each year of the fiscal biennium 2019-2021 is necessary to achieve the intent of this measure.

Your Committee has amended this measure by:

- (1) Changing the appropriation of \$500,000 in fiscal years 2019-2020 and 2020-2021 to unspecified amounts; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 753, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 753, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Kahele, Shimabukuro).

### SCRep. 1044 Ways and Means on S.B. No. 760

The purpose and intent of this measure is to include certain expenditures for the clearing and removal of trees and debris and soil restoration among the qualifying agricultural costs for which a taxpayer may receive the important agricultural land qualified agricultural cost tax credit.

Your Committee received written comments in support of this measure from the Department of Agriculture; Hawaii Farm Bureau; Hawaii Cattlemen's Council; Kahuku Farmers, Inc.; and one individual.

Your Committee received written comments on this measure from the Department of Taxation and the Office of Planning.

Your Committee finds that this measure expands the costs that are eligible for the important agricultural land qualified agricultural cost tax credit to include expenditures for the improvement and restoration of former plantation lands that are primarily used for agricultural purposes.

Your Committee also notes that the Legislature has long recognized that land speculation and development pressures threaten the preservation of Hawaii's agricultural lands. Chapter 205, part III, Hawaii Revised Statutes, which establishes provisions relating to important agricultural lands, declares that there is "a compelling state interest in conserving the State's agricultural land resource base and assuring the long-term availability of agricultural lands for agricultural use . . . ."

Your Committee finds that there is support for the continuation of important agricultural lands incentives to protect large contiguous tracts of quality agricultural lands. These incentives should not be used to carve up designated important agricultural lands into gentleman estates, small subdivisions, or condominium property regimes.

Your Committee therefore believes that consideration should be given to clarifying the provision in section 235-110.93, Hawaii Revised Statutes, that includes certain expenditures for roads and utilities among the "qualified agricultural costs" for which a taxpayer may qualify for the important agricultural land qualified agricultural cost tax credit. Land identified and designated as important agricultural land should not be eligible for a tax credit that rewards a subdivision of that land.

Your Committee also believes that it may be appropriate to require a minimum lot size of twenty-five acres for the important agricultural land qualified agricultural cost tax credit to apply, or to amend statutory language to prevent the credit from applying to any subdivision or any creation of an agricultural condominium property regime.

Your Committee has amended this measure by:

- (1) Clarifying that remediated soils are to be used solely for agricultural uses and activities;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 760, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 760, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Taniguchi).

### SCRep. 1045 Ways and Means on S.B. No. 988

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Mele Associates, Inc., in serving the public by providing renewable electric energy and installing renewable energy projects in the State.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure promotes the increased use of renewable energy in Hawaii, thereby supporting the State's goal of generating one hundred percent clean energy by 2045.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 988, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 988, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

### SCRep. 1046 Ways and Means on S.B. No. 989

The purpose and intent of this measure is to appropriate or authorize funds for various operating expenses of the Department of Business, Economic Development, and Tourism.

Your Committee received written comments in support of this measure from the Hawaii Green Infrastructure Authority, Hawaii Strategic Development Corporation, Hawaii Technology Development Corporation, Hawaii Tourism Authority, Blue Startups, and one individual.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism; and Office of Planning.

Your Committee finds that this measure adjusts the amounts appropriated or authorized for the Department of Business, Economic Development, and Tourism from baseline amounts in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- (1) Amending:
  - (A) The amounts appropriated or authorized;
  - (B) Provisions directing how the amounts appropriated shall be spent; and
  - (C) Means of financing,

for various programs within or attached to the Department of Business, Economic Development, and Tourism;

- (2) Indicating the program title associated with each program ID in the appropriations table;
- (3) Adding a severability clause;
- (4) Adding a provision authorizing the Governor to correct manifest clerical, typographical, or other mechanical errors;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 989, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 989, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

#### SCRep. 1047 Ways and Means on S.B. No. 1016

The purpose and intent of this measure is to regulate the sale of tobacco products.

Specifically, this measure:

- (1) Prohibits the issuance and renewal of a retail tobacco permit for, and the sale of a tobacco product or an electronic smoking device at, a place of business within seven hundred fifty feet of a preschool, school, or public playground; and
- (2) Codifies the Department of Taxation's administrative rules that establish good cause for which the department may suspend, revoke, or decline to renew a retail tobacco permit.

Your Committee received written comments in support of this measure from Blue Zones Project, Hawaii COPD Coalition, Hawaii Public Health Institute, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and six individuals.

Your Committee received written comments in opposition to this measure from ABC Stores; Hawaii Cigar Association; Hawaii Food Industry Association; Hawaii Petroleum, LLC; Hawaii Smokers Alliance; Hi Lyfe Vaporz, LLC; Irie Hawaii Stores; Island Energy; Kauai Cigar Company; Retail Merchants of Hawaii; Volcano Fine Electronic Cigarettes; and numerous individuals.

Your Committee received written comments on this measure from the Department of Education, Department of Health, and Department of Taxation.

Your Committee finds that experimental smoking among high school-aged minors increases when tobacco retailers are located in close proximity to schools. Your Committee also finds that the establishment of tobacco retail buffer zones around schools and other locations where children gather will reduce tobacco-related health disparities and reduce youth tobacco use, particularly the use of electronic smoking devices.

Your Committee notes that the Department of Taxation has requested that the measure take effect on December 1, 2020, to coincide with the annual December 1 renewal date of retail tobacco permits and to allow the department sufficient time to make the necessary changes to its permit forms and computer system.

Your Committee has amended this measure by:

- (1) Clarifying that the age restriction on the sale of tobacco products applies to sales to persons under twenty-one years of age;
- (2) Clarifying that a fine of \$500 applies to the first offense of selling a tobacco product or electronic smoking device within a prohibited location;
- (3) Clarifying that an existing retail tobacco permit issued for a business located within a tobacco retail buffer zone shall not be renewed, rather than shall be void;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1016, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1016, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

### SCRep. 1048 Ways and Means on S.B. No. 1020

The purpose and intent of this measure is to provide housing assistance for qualifying families.

Specifically, this measure:

- (1) Requires the Department of Human Services to develop and establish a housing homeless children rental assistance pilot program to assist families with minor children experiencing, or at imminent risk of, homelessness due to domestic violence, so that those families may obtain and maintain permanent housing; and
- (2) Appropriates funds for the program.

Your Committee received written comments in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaii Youth Services Network, Hawaii Kai Homeless Task Force, Hawaiian Community Assets, United Church of Christ Transition House, and PHOCUSED.

Your Committee received written comments on this measure from the Department of Human Services, State Procurement Office, and the Governor's Coordinator on Homelessness.

Your Committee finds that the State and its residents are faced with the problems of homelessness and a limited supply of affordable housing. Your Committee recognizes that solutions are needed to address these problems, especially with respect to families with children who are homeless or at risk of becoming homeless.

Your Committee has amended this measure by:

- Providing that rental assistance includes financial assistance for the payment of expenses related to relocating to, and rent due to a landlord of, residential property;
- (2) Changing the appropriation for the pilot program from \$800,000 to an unspecified amount;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1020, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1020, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

# SCRep. 1049 Ways and Means on S.B. No. 1026

The purpose and intent of this measure is to appropriate funds for the Healthy Aging Partnership program.

Your Committee received written comments in support of this measure from the Executive Office on Aging of the Department of Health, Policy Advisory Board for Elder Affairs, Hawaii Chapter of the American Physical Therapy Association, AARP, and two individuals.

Your Committee finds that the Healthy Aging Partnership program improves the health of older adults through evidence-based nterventions.

Your Committee notes that an appropriation of \$605,000 is needed for each fiscal year of the 2019-2021 fiscal biennium in order to sustain the program.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified sum; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1026, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1026, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

# SCRep. 1050 Ways and Means on S.B. No. 1058

The purpose and intent of this measure is to facilitate voter understanding of proposed amendments to the state constitution.

Specifically, this measure:

- (1) Requires the Attorney General to prepare a statement in English and Hawaiian for each proposed constitutional amendment, in language that is clear and neither misleading nor deceptive, that indicates the purpose, limitations, and effects of the proposed amendment:
- (2) Requires the Office of Elections and county clerks to make each statement available to the public at all physical locations or online sites where those agencies make proposed constitutional amendment questions available to the public; and
- (3) Appropriates \$10,000 for the translation, preparation, and distribution of statements for proposed constitutional amendments.

Your Committee finds that this measure will help voters understand their role in the constitutional amendment process and make informed decision by providing voters with clear information about what proposed constitutional amendments would do.

Your Committee has amended this measure by:

- (1) Removing unnecessary language that requires that the Attorney General's statement be neither misleading nor deceptive;
- (2) Clarifying that the statement shall be available to the public at all polling places in the State and on a website operated by the Office of Elections;
- (3) Changing the appropriation to an unspecified amount;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making a technical nonsubstantive change for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1058, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1058, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Inouye).

#### SCRep. 1051 Ways and Means on S.B. No. 1297

The purpose and intent of this measure is to reduce the number of abandoned vehicles in the State.

More specifically this measure:

- (1) Requires applications for motor vehicle registration to include the applicant's address, driver's license number, telephone number, and emergency contact;
- (2) Authorizes the counties to assess fines to the registered owners of vehicles deemed abandoned; and
- (3) Requires persons claiming abandoned vehicles to show proof of valid motor vehicle registration and motor vehicle insurance prior to repossession.

Your Committee received written comments in support of this measure from the Honolulu Police Department.

Your Committee received written comments on this measure from the Division of Motor Vehicle, Licensing, and Permits of the City and County of Honolulu; Enterprise Holdings; and one individual.

Your Committee finds that the measure would help relieve the growing problem of abandoned vehicles.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1297, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1297, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

# SCRep. 1052 Ways and Means on S.B. No. 1329

The purpose and intent of this measure is to set the salary of the Chairperson of the Public Utilities Commission on par with the highest pay tier of the First Deputy Attorney General and set the salary of each of the other Commissioners to be equal with the lowest pay tier of the First Deputy Attorney General.

Your Committee received written comments in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that the complex scope of work of the Public Utilities Commission justifies salary levels for its Chairperson and other Commissioners that will attract and retain the most qualified candidates.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1329, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1329, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, 1 (Fevella).

### SCRep. 1053 Ways and Means on S.B. No. 1353

The purpose and intent of this measure is to facilitate the production of industrial hemp in the State.

Specifically, this measure:

- (1) Requires the Department of Agriculture to establish a permanent industrial hemp program to authorize licensed individuals to cultivate industrial hemp in the State;
- (2) Authorizes the Chairperson of the State Board of Agriculture to prepare and submit to the United States Secretary of Agriculture a proposed state plan to monitor and regulate hemp production in the State, pursuant to Section 297B of the Agricultural Marketing Act of 1946, as amended; and
- (3) Appropriates moneys for the permanent industrial hemp program.

Your Committee received written comments in support of this measure from the Department of Agriculture, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaii Farm Bureau, Hawaii Island Hemp Collective, ILWU Local 142, Hawaii Center for Food Safety, Aina Hookupu o Kilauea, the Mary N. Lucas Trust Estate, Hawaii Alliance for Progressive Action, and numerous individuals.

Your Committee received written comments on this measure from Akamai Cannabis Clinic.

Your Committee recognizes that Act 228, Session Laws of Hawaii 2016, established an industrial hemp pilot program to authorize the cultivation of industrial hemp and distribution of its seed in Hawaii for purposes of agricultural or academic research. At the time Act 228 was enacted, hemp was classified as a controlled substance under federal law, which limited activities under the program. Your Committee also recognizes, however, that on December 20, 2018, the Agriculture Improvement Act of 2018 was signed into law, and included the removal of industrial hemp from the schedule I controlled substance list, thus paving the way for a successful hemp industry in Hawaii through this measure.

Your Committee has amended this measure by:

- (1) Inserting the official title of the Agriculture Improvement Act of 2018 within the findings and purpose section;
- (2) Clarifying that an applicant may be a "person" that is not necessarily an individual;
- (3) Clarifying that if an applicant or a partner, director, or member of the applicant has been convicted of a relevant offense within ten years prior to the submission of an application for a license, the applicant shall be ineligible for a license;
- (4) Clarifying that a licensee shall reimburse the Department of Agriculture for costs related to the testing of samples collected from the licensee;
- (5) Deleting the measure's repeal of statutory language that currently exempts from certain drug-related criminal offenses the possession, cultivation, sale, receipt, or transfer of industrial hemp as authorized under the existing industrial hemp pilot program because the exemption is necessary until the pilot program is repealed in 2021 pursuant to Act 228, Session Laws of Hawaii 2016;
- (6) Providing that the possession, cultivation, sale, receipt, or transfer of industrial hemp as authorized under the proposed permanent industrial hemp program shall be exempt from certain drug-related criminal offenses;
- (7) Changing:
  - (A) All the appropriations to unspecified amounts;
  - (B) The effective date of all provisions of the bill except sections 7 and 8 to July 1, 2050; and
  - (C) The effective date of sections 7 and 8 to July 1, 2052,

to facilitate further discussion on the measure; and

(8) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1353, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1353, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

## SCRep. 1054 Ways and Means on S.B. No. 1427

The purpose and intent of this measure is to appropriate funds to increase the hours of operation of the Kuhio Highway contraflow on Kauai.

Your Committee received written comments in support of this measure from the Department of Transportation.

Your Committee finds that this measure will enable the Department of Transportation to continue the operation of contraflow in the County of Kauai, thereby mitigating traffic congestion and improving the quality of life of the island's residents and visitors.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the number of staff positions to an unspecified number; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1427, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1427, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12; Ayes with Reservations (Harimoto). Noes, none. Excused, 1 (Fevella).

#### SCRep. 1055 Ways and Means on S.B. No. 1436

The purpose and intent of this measure is to require a feasibility study of using new techniques in state agriculture.

Specifically, this measure:

- (1) Requires the Department of Agriculture to conduct a study on the feasibility of establishing and designating agricultural technology zones within the City and County of Honolulu; and
- (2) Appropriates funds for the feasibility study.

Your Committee received written comments in support of this measure from the Hawaii State Teachers Association and MetroGrow Hawaii.

Your Committee received written comments on this measure from the Department of Agriculture.

Your Committee finds that agricultural technology describes the application of various techniques to control the growth and harvesting of vegetable products, including the use of robotics, indoor farming, and vertical farming. Your Committee further finds that these techniques reduce the need for space, pesticides, and water to grow food.

Your Committee notes that an appropriation of \$50,000 for each year of fiscal biennium 2019-2020 is necessary to conduct the feasibility study.

Your Committee has amended this measure by:

- (1) Changing the amounts appropriated to conduct the feasibility study to unspecified sums;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1436, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1436, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

## SCRep. 1056 Ways and Means on S.B. No. 1462

The purpose and intent of this measure is to support and protect survivors of domestic abuse, sexual offenses, or stalking through the Address Confidentiality Program.

Specifically, this measure appropriates moneys to the Department of the Attorney General for the administration of the program, including funds for two full-time equivalent positions, operating costs, and equipment.

Your Committee received written comments in support of this measure from the Department of the Attorney General, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, American Association of University Women of Hawaii, The Sex Abuse Treatment Center, and Planned Parenthood Votes Northwest and Hawaii.

Your Committee finds that this measure will provide survivors of domestic violence, sexual offenses, or stalking with a substitute address to be used by state and local government agencies instead of their physical address, thus keeping their physical address from inclusion in public records and helping to protect these individuals from their abusers.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making a technical nonsubstantive amendment for the purpose of consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1462, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1462, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1057 Ways and Means on S.B. No. 171

The purpose and intent of this measure is to examine ways to improve public education in the State.

Specifically, this measure:

- (1) Creates a county education task force to establish a process for the transfer of jurisdiction of all public schools from the State to the county in which the public school is located; and
- (2) Requires the task force to submit a report to the Legislature prior to the convening of the Regular Session of 2021.

Your Committee received written comments in opposition to this measure from the Board of Education, Department of Education, Hawaii State Teachers Association, and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance and Legislative Reference Bureau.

Your Committee finds that the task force established by this measure will help the State gain a better understanding of the potential ways to govern, fund, and potentially improve public education in the State.

Your Committee has amended this measure by:

- Clarifying that the task force membership shall include four representatives with backgrounds in education or finance; provided that each representative shall be appointed by the Governor from a list of three nominees that the mayor of each county shall submit;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 171, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 171, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

## SCRep. 1058 Ways and Means on S.B. No. 192

The purpose and intent of this measure is to authorize courts to order the release of certain qualifying criminal defendants upon the execution of unsecured financial bonds.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs; Office of the Public Defender; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Young Progressives Demanding Action; LGBT Caucus of the Democratic Party of Hawaii; Community Alliance on Prisons; IMUAlliance; We Are One, Inc.; Drug Policy Forum of Hawaii; Ohana Hoopakele; Prince Kuhio Hawaiian Civic Club; and numerous individuals.

Your Committee received written comments on this measure from the Hawaii Disability Rights Center.

Your Committee recognizes that a defendant in custody who lacks sufficient cash resources to pay the necessary amount of bail can be detained for weeks, months, or even longer before a trial is conducted. Your Committee further finds that, in the meantime, the defendant faces the potential loss of employment, housing, or child custody. Your Committee recognizes that this measure is intended to provide certain defendants a process by which they may petition the courts for unsecured bail, and when appropriate, a means for the courts to grant those petitions.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 192, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

## SCRep. 1059 Ways and Means on S.B. No. 223

The purpose and intent of this measure is to ensure the continued efficient operation of irrigation systems in the State.

Specifically, this measure:

- (1) Transfers operational authority of certain portions of the East Kauai irrigation system to the Department of Agriculture;
- (2) Funds operations and maintenance of the East Kauai irrigation system, including staffing positions for the Department of Agriculture's Agricultural Resource Management Division; and
- (3) Authorizes the issuance of general obligations bonds to increase state irrigation system capacity statewide.

Your Committee received written comments in support of this measure from the Department of Agriculture; East Kauai Water Users' Cooperative; Kalepa Koalition; Saiva Siddhanta Church; Hawaii Farm Bureau; Larry Jefts Farms, LLC; and Hawaii Cattlemens Council.

Your Committee finds that this measure allows for continued irrigation access while addressing significant operations and maintenance permitting issues. Your Committee further finds that this measure will increase state-controlled irrigation system capacity statewide in support of the State's goal of increasing local food production.

Additionally, your Committee finds that the issuance of general obligation bonds in the sum of \$2,000,000 for fiscal year 2019-2020 to increase state-controlled irrigation system capacity statewide and an appropriation of \$500,000 for fiscal year 2020-2021 for the operation and maintenance of the East Kauai irrigation system are necessary to achieve the intent of this measure.

Your Committee has amended this measure by:

- (1) Clarifying that the three-year water licensing deadline referenced in section 1, subsection (e) of the measure is for a stream diversion works permit that may be extended until July 1, 2021;
- (2) Clarifying that the "significant progress" the applicant must demonstrate to be granted an extension of the three-year deadline shall include, at minimum, the submission of a completed stream diversion works permit application;
- (3) Changing the amounts authorized for general obligation bond issuance and the amount of general funds appropriated for the operation and maintenance of the East Kauai irrigation system to unspecified amounts;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 223, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 223, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Kahele, Shimabukuro).

#### SCRep. 1060 (Majority) Ways and Means on S.B. No. 380

The purpose and intent of this measure is to subject mandatory resort fees to the transient accommodations tax by clarifying that mandatory resort fees are included in gross rental proceeds.

Your Committee received written comments in support of this measure from the Department of Taxation.

Your Committee received written comments in opposition to this measure from Kohala Coast Resort Association and Aqua-Aston Hospitality.

Your Committee received written comments on this measure from Tax Foundation of Hawaii.

Your Committee finds that specifying that mandatory resort fees are subject to the transient accommodations tax will prevent uncertainties in further implementation of the transient accommodations tax.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 380, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Inouye, Kanuha). Noes, 1 (Fevella). Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

#### SCRep. 1061 Ways and Means on S.B. No. 390

The purpose and intent of this measure is to promote the purchase and consumption of locally-produced, healthy food products by Supplemental Nutrition Assistance Program participants.

Specifically, the measure:

- (1) Establishes within the State a dollar-for-dollar matching program, to be called the local healthy food incentive program, for beneficiaries of the federal Supplemental Nutrition Assistance Program to purchase Hawaii-grown produce; and
- (2) Appropriates funds for the administration of the program.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Health; Office of the Mayor of the County of Hawaii; Hawaii County Council; Ulupono Initiative; Hawaii Food Industry Association; Blue Zones Project; Hawaii Primary Care Association; The Food Basket, Inc.; Hawaii Island's Food Bank; Hawaii Foodbank; Hawaii Alliance for Community-Based Economic Development; American Diabetes Association; Hawaii Appleseed Center for Law and Economic Justice; Get Fit Kauai; Pioneering Healthier Communities of Honolulu; Hawaii Farm Bureau; Kahoomiki; GreenWheel Food Hub; Mao Organic Farms; Local Food Coalition; Hawaii Public Health Institute; Hawaii Community Foundation; Hawaii Center for Food Safety; We Are One, Inc.; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Waianae Coast Comprehensive Health Center; American Heart Association; Aa Lii Farm; Lokoea Farms; AlohaCare; Maui Farmers Union United; and numerous individuals.

Your Committee finds that this measure will utilize federal matching funds to increase access to healthy, locally grown dietary options for beneficiaries of the federal Supplemental Nutrition Assistance Program while also invigorating local economies and addressing food insecurity.

Your Committee has amended this measure by:

- (1) Adopting the Department of Agriculture's recommended amendment authorizing the Department to develop rules for the program in consultation and cooperation with private organizations;
- (2) Changing the appropriation to an unspecified amount;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 390, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 390, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, 1 (Kahele).

## SCRep. 1062 Ways and Means on S.B. No. 391

The purpose and intent of this measure is to appropriate moneys to the Department of Education to provide public school students with behavior analysis services.

Your Committee received written comments in support of this measure from the Democratic Party of Hawaii Education Caucus, Hawaii Association for Behavior Analysis, Hawaii Psychological Association, Hawaii State Teachers Association, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and three individuals.

Your Committee received written comments on this measure from the Department of Education.

Your Committee finds that providing behavior analysis services to public school students will benefit these students during an important developmental stage. However, your Committee notes that licensed behavior analysts, of which there is a shortage in the State, are not the only professionals capable of providing behavior analysis services.

Accordingly, your Committee has amended this measure by:

- Expanding the types of behavior analysis service providers to include numerous other professionals licensed to provide behavior analysis services or permitted to implement behavior analysis programs;
- (2) Requiring the Department of Education to seek any necessary approvals from the Centers for Medicare and Medicaid Services to amend the state Medicaid plan to include applied behavior analysis services for eligible students who have been diagnosed with an autism spectrum disorder;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 391, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 391, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 2 (Kahele, Riviere).

## SCRep. 1063 Ways and Means on S.B. No. 398

The purpose and intent of this measure is to require the Department of Human Services, in partnership with the State Procurement Office, to provide government procurement training to nonprofit organizations that offer certain services and programs to address homelessness.

Your Committee received written comments in support of this measure from the Department of Human Services, Governor's Coordinator on Homelessness, State Procurement Office, ALEA Bridge, Hawaii Youth Services Network, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and two individuals.

Your Committee finds that providing government procurement training to certain nonprofit organizations will assist those organizations' efforts to apply for government funding, comply with contract requirements, and ensure that funds are properly utilized and accounted for.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 398, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

#### SCRep. 1064 Ways and Means on S.B. No. 427

The purpose and intent of this measure is to establish ranked choice voting as the method of voting in certain elections.

Specifically, this measure requires that the following elections be determined by ranked choice voting:

- (1) Any federal election not held on the date of a regularly scheduled primary or general election; and
- (2) Any special election for a vacant seat on a county council.

Your Committee received written comments in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, FairVote Action, and two individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that special elections for vacant federal office and county council seats often involve many candidates and result in situations in which a candidate wins by a mere plurality of votes. Accordingly, your Committee finds that this measure is intended to ensure that these elections are conducted so that the winning candidate wins by a majority of the votes.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 427, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 427, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12; Ayes with Reservations (Harimoto, Moriwaki, Taniguchi). Noes, none. Excused, 1 (Fevella).

## SCRep. 1065 Ways and Means on S.B. No. 462

The purpose and intent of this measure is to extend the nursing facility sustainability fee program to 2021.

In addition, this measure:

- Broadens the uses of expenditures from the nursing facility sustainability program special fund to include the matching of federal Medicaid funds in order to enhance capitated rates for paying quality incentives;
- (2) Increases program fees;
- (3) Allows Medicaid managed care health plans thirty days to make payments once monthly capitation rates have been received from the Department of Human Services; and
- (4) Appropriates funds from the nursing facility sustainability program special fund.

Your Committee received written comments in support of this measure from the Department of Human Services, the Healthcare Association of Hawaii, and The Queen's Health Systems.

Your Committee finds that the nursing facility sustainability program continues to play a critical role in providing a safety net for Medicaid recipients.

Your Committee notes that a special fund appropriation of \$21,000,000 is needed in each year of fiscal biennium 2019-2021.

Your Committee has amended this measure by:

- (1) Changing the special fund appropriation to an unspecified amount; and
- (2) Changing the effective date of the appropriation to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 462, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 462, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Inouye).

# SCRep. 1066 Ways and Means on S.B. No. 470

The purpose and intent of this measure is to address the issue of homelessness in the State.

Specifically, this measure extends the sunset date and the reporting deadline for:

- (1) The Emergency Homelessness Assessment Pilot Program; and
- (2) The Medical Respite Pilot Program.

Your Committee received written comments in support of this measure from the Governor's Coordinator on Homelessness and The Queen's Health Systems.

Your Committee finds that although the Department of Human Services is actively engaged in contract negotiations to implement the Emergency Homelessness Assessment Pilot Program and Medical Respite Pilot Program, both programs require additional time to be fully implemented. The extensions provided by this measure will ensure that the Department of Human Services can properly implement the programs and evaluate their outcomes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 470 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Kahele).

#### SCRep. 1067 Ways and Means on S.B. No. 530

The purpose and intent of this measure is to provide certain exemptions to the general excise tax.

Specifically, this measure:

- Exempts from the general excise tax the sale of mobility enhancing equipment, prescription drugs sold pursuant to a doctor's prescription, and prosthetic devices; and
- (2) Expands the scope of devices included in the existing definition of prosthetic device for purposes of the general excise tax exemption.

Your Committee received written comments in support of this measure from the Policy Advisory Board for Elder Affairs.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that mobility enhancing equipment, hearing aids, prescription drugs, and prosthetic devices are necessary for many disabled individuals. Your Committee believes that the exemptions provided in this measure will provide relief to these customers.

Your Committee has amended this measure by:

- (1) Applying the Act to taxable years beginning after December 31, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 530, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 530, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Kahele, Kidani, Riviere).

## SCRep. 1068 Ways and Means on S.B. No. 537

The purpose and intent of this measure is to repeal and replace requirements applicable to deferred deposit transactions with requirements applicable to small dollar loan transactions, and to require licensing for small dollar lenders.

This measure also appropriates funds out of the compliance resolution fund for two full-time equivalent examiners for the small dollar installment loan program.

Your Committee received written comments in support of this measure from the Department of Commerce and Consumer Affairs, Division of Financial Institutions; Hawaiian Community Assets; Catholic Charities Hawaii; Hawaii Appleseed Center for Law and Fconomic Justice; and three individuals.

Your Committee received written comments in opposition to this measure from the Money Service Centers of Hawaii, Inc., and Maui Loan Inc.

Your Committee received written comments on this measure from the Office of Information Practices.

Your Committee finds that this measure will encourage transparency and increase consumer protection in the payday lending industry.

Your Committee has amended this measure by:

- (1) Changing the appropriation out of the compliance resolution fund to an unspecified amount;
- (2) Making numerous technical corrections, including:
  - (A) Adjusting cross-references to other provisions in the measure and to existing laws;
  - (B) Completing the definition of "NMLS";
  - (C) Providing consistency between the preamble and the operative provisions of the measure with regard to the use of terms such as "nonrefundable initial application fee", "monthly maintenance fee", and "renewing the loan"; and
  - (D) Deleting language in the preamble relating to two-week time periods with regard to loan renewals and early repayments, since these time periods are not reflected in the operative provisions of the measure;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 537, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 537, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

#### SCRep. 1069 Ways and Means on S.B. No. 550

The purpose and intent of this measure is to provide an allowance to neighbor island Public Utilities Commission Commissioners for certain travel-related expenses.

No written comments were received on this measure.

Your Committee finds that neighbor island Public Utilities Commission Commissioners often incur travel expenses for which they are not reimbursed, including board and lodging, in order to travel to Oahu to carry out their duties. This measure will provide those commissioners with an allowance of \$225 per day to cover those expenses, in addition to the reimbursements they receive for air travel costs.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 550, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 550, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

## SCRep. 1070 Ways and Means on S.B. No. 557

The purpose and intent of this measure is to prohibit state and local law enforcement agencies from collaborating with the federal government to enforce federal immigration laws, except when required by law.

Your Committee received written comments in support of this measure from the Church of the Crossroads, LGBT Caucus of the Democratic Party of Hawaii, J-20+, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaii Women's Coalition, Aloha State Association of the Deaf, Filipina Advocacy Network, and numerous individuals.

Your Committee received written comments in opposition to this measure from the Hawaii Police Department, Honolulu Police Department, and twelve individuals.

Your Committee received written comments on this measure from the Department of the Attorney General.

Your Committee finds that enforcement of federal immigration laws is a federal law enforcement function and that requiring state and local law enforcement agencies to perform duties traditionally delegated to federal law enforcement agencies would divert state and local law enforcement agencies from their principal functions, potentially risking the stability and security of many communities.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 557, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 557, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Riviere). Noes, none. Excused, 2 (Harimoto, Inouye).

## SCRep. 1071 Ways and Means on S.B. No. 652

The purpose and intent of this measure is to authorize the issuance of up to a maximum of \$50,000,000 in special purpose revenue bonds to assist Keahole FBO I LLC to fund the plans, design, construction, equipping, and operating of facilities for aviation and aviation-related services at Ellison Onizuka Kona International Airport at Keahole, Hawaii.

Your Committee received written comments in support of this measure from Kohala Coast Resort Association, Airport Business Solutions, Keahole FBO I LLC, Hotsa Consulting Ltd, and one individual.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure supports the development of various aviation and aviation-related services at Ellison Onizuka Kona International Airport at Keahole, including the development of hangars, a fuel farm, and other aviation infrastructure, that will generate revenue for and create jobs in the State.

Your Committee has amended this measure by:

- (1) Changing the amount of special purpose revenue bonds authorized to be issued to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 652, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 652, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Taniguchi).

### SCRep. 1072 Ways and Means on S.B. No. 653

The purpose and intent of this measure is to increase the number of parking stalls in state and county buildings where future electric vehicle charging stations can easily be installed.

Specifically, this measure requires that new state and county buildings and those undergoing significant reconstruction make at least twenty percent of the parking stalls, but no less than two parking stalls, electric vehicle charger ready.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Hawaiian Electric Company, Inc.; Elemental Excelerator; Blue Planet Foundation; Big Island EV Association; Strategic Highway Safety Plan; Ulupono Initiative; and nine individuals.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism; City and County of Honolulu Department of Design and Construction; and Tesla.

Your Committee finds that delaying by approximately three years the implementation of the building code requirements established by this measure will provide the State and counties with time to incorporate the new standards into preliminary designs while avoiding costly redesigns of current construction that could result in delays and cost overruns.

Your Committee has amended this measure by:

- (1) Providing that implementation of the building code requirements shall begin after June 30, 2022;
- (2) Clarifying that the amendments made by the measure, including the two-parking stall minimum, shall apply to the reconstruction of state and county buildings, rather than the reconstruction of all buildings;
- (3) Amending the definition of "electric vehicle charger ready" to include sufficient capacity of the electrical service and distribution systems;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 653, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 653, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

# SCRep. 1073 Ways and Means on S.B. No. 666

The purpose and intent of this measure is to improve the development, management, operation, and maintenance of the State's airports and aeronautical facilities.

More specifically, this measure:

- (1) Establishes the Hawaii Airports Corporation, which shall assume all of the authority, powers, functions, duties, and responsibilities of the Department of Transportation related to airports and aeronautics;
- (2) Exempts the Hawaii Airports Corporation from the Hawaii public procurement code (Chapter 103D, Hawaii Revised Statutes), provided that the Corporation shall adopt rules regarding certain aspects of procurement; and
- (3) Requires the Auditor to conduct management and financial audits of the Hawaii Airports Corporation every two years, beginning in 2023.

Your Committee received written comments in support of this measure from the Office of the Governor, Department of Public Safety, Department of Transportation, University of Hawaii, Airlines Committee of Hawaii, Airport Concessionaires Committee, American Council of Engineering Companies – Hawaii, Building Industry Association of Hawaii, Canada-France-Hawaii Telescope Corporation, Chamber of Commerce Hawaii, Enterprise Holdings, Hawaii Island Chamber of Commerce, Hawaii Lodging and Tourism Association, Hawaiian Airlines, Kohala Coast Resort Association, Maui Chamber of Commerce, Maui Hotel & Lodging Association, and eight individuals.

Your Committee received written comments in opposition to this measure from the Electrical Contractors Association, Ironworkers Stabilization Fund, and Subcontractors Association of Hawaii.

Your Committee received comments on this measure from the Department of Land and Natural Resources; Office of the Auditor; Office of Hawaiian Affairs; State Procurement Office; Carpet, Linoleum and Soft Tile Local Union 1926 Market Recovery Trust Fund; Glaziers Stabilization Fund; Hawaii Building and Construction Trades Council – AFL-CIO; Hawaii Glaziers, Architectural Metal Glassworkers Local Union 1889 AFL-CIO Stabilization Trust Fund; Hawaii Tapers Market Recovery Trust Fund; International Union of Painters and Allied Trades District Council 50; Painting Industry of Hawaii Labor Management Cooperation Trust Fund; and Plumbing and Mechanical Contractors Association on Hawaii.

Your Committee finds that transferring responsibilities related to aeronautics and the State's airports from the Department of Transportation to a newly established Hawaii Airports Corporation may facilitate streamlined decision-making and improve airport development, management, operation, and facilities maintenance.

Your Committee notes that various concerns have been raised about this measure, including but not limited to concerns that:

- (1) The measure would exempt the Hawaii Airports Corporation from the Hawaii public procurement code, generally, and that the measure does not require bids on construction contracts offered by the Hawaii Airports Corporation to include the name of each person or firm to be engaged by the bidder as a joint contractor or subcontractor and the nature and scope of work to be performed by each; and
- (2) There has been no opportunity for adequate discussion of the transfer of police powers to the Hawaii Airports Corporation.

Additionally, your Committee notes that stakeholders previously submitted written comments to the Senate Committee on Transportation expressing concerns that this measure should incorporate language regarding labor peace, a living wage, worker retention, and free speech.

Your Committee has amended this measure by:

- (1) Making a technical change to comport with recommended drafting conventions; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 666, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 666, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Harimoto). Noes, none. Excused, 2 (English, Taniguchi).

#### SCRep. 1074 Ways and Means on S.B. No. 785

The purpose and intent of this measure is to require the scope of collective bargaining negotiations to include benefits related to the Hawaii Employer-Union Health Benefits Trust Fund.

The measure also allows employers and exclusive representatives to resolve disputes over health benefits and contribution amounts through binding arbitration.

Your Committee received written comments in support of this measure from the Hawaii Government Employees Association and Hawaii Fire Fighters Association, Local 1463.

Your Committee received written comments in opposition to this measure from the Department of Budget and Finance.

Your Committee finds that this measure is part of a larger effort to reform the Employer-Union Health Benefits Trust Fund to make health benefits more affordable and flexible for employees.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 785, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Taniguchi).

#### SCRep. 1075 Ways and Means on S.B. No. 867

The purpose and intent of this measure is to provide additional incentives to increase rental housing development in the State, particularly development of affordable rental housing units, to meet housing demand.

Specifically, this measure:

- (1) Removes certain limits on costs eligible for a general excise tax exemption for newly constructed or renovated affordable rental housing projects; and
- (2) Make permanent provisions relating to the types of rental housing projects that are exempt from the general excise tax and prevailing wages for the construction of certain rental housing projects.

Your Committee received written comments on this measure from the Department of Taxation, Hawaii Housing Finance and Development Corporation, and Tax Foundation of Hawaii.

Your Committee finds this measure will allow more projects to be certified for general excise tax exemption, thereby promoting the development of more affordable housing in Hawaii.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 867, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

## SCRep. 1076 Ways and Means on S.B. No. 878

The purpose and intent of this measure is to establish a revolving fund for the Hawaii Housing Finance and Development Corporation to provide loans to qualified nonprofit housing trusts and nonprofit community development financial institutions for the development of affordable housing units.

This measure also appropriates and deposits general funds to the revolving fund to implement the loan program.

Your Committee received written comments in support of this measure from the Hawaii Housing Finance and Development Corporation, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaiian Community Assets, Hawaii Habitat for Humanity Association, Inc., and two individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the loan program created in this measure could provide our community's low-income families with a chance to reap the benefits of homeownership.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 878, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

#### SCRep. 1077 Ways and Means on S.B. No. 984

The purpose and intent of this measure is to facilitate the administration of prescribed medications by school health aides to students who require them while attending a public school.

Specifically, this measure authorizes the administration of medication that is:

- (1) Prescribed by an advanced practice registered nurse with prescriptive authority; and
- (2) With the approval of an on-campus, school-based health care provider pursuant to a written agreement with the Department of Education.

Your Committee received written comments in support of this measure from the University of Hawaii, Hawaii State Center for Nursing, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, American Nurses Association of Hawaii, and seven individuals.

Your Committee received written comments on this measure from the Department of Education.

Your Committee recognizes that the assistance provided by school-based licensed health care professionals, including advanced practice registered nurses and registered nurses, increases parents' and caregivers' time at work, and principals' and teachers' instructional time. Your Committee finds that this measure enables advanced practice registered nurses to provide care to school-aged children, which helps reduce the impact of health issues that are otherwise barriers to learning.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 984, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

# SCRep. 1078 Ways and Means on S.B. No. 1034

The purpose and intent of this measure is to clarify that the existing mandatory health insurance coverage for low-dose mammography includes digital mammography and breast tomosynthesis.

Your Committee received written comments in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii and Hawaii Radiological Society.

Your Committee received written comments in opposition to this measure from the Hawaii Association of Health Plans.

Your Committee received written comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs and Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that three dimensional mammography enables detection of at least two to three additional cancers per one thousand women screened and lowers, from thirty to fifty percent, the number of women who are recalled for additional screening.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1034, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

#### SCRep. 1079 Ways and Means on S.B. No. 1224

The purpose and intent of this measure is to exempt lands assigned to the Hawaii Public Housing Authority from the definition of "public lands" under section 171-2, Hawaii Revised Statutes.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority.

Your Committee finds that the lands now held by the Hawaii Public Housing Authority were exempted from the definition of "public lands" when held by predecessor agencies: the Housing and Community Development Corporation of Hawaii and the Hawaii Housing Authority. When the Housing and Community Development Corporation of Hawaii bifurcated into two separate agencies, the exemption for land assigned to the Hawaii Public Housing Authority was inadvertently omitted from section 171-2, Hawaii Revised Statutes. Your Committee finds that this measure is primarily a housekeeping measure that seeks to rectify this omission.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1224, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

#### SCRep. 1080 Ways and Means on S.B. No. 1252

The purpose and intent of this measure is to temporarily authorize the Board of Land and Natural Resources to approve rental reductions or waivers of up to twenty years of lease rental for public land leases that require substantial demolition or infrastructure costs in order for lessees to utilize the premises.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that there are unimproved public lands in the State's inventory that require millions of dollars in infrastructure investments, including drainage, sewer, water, electricity, and other utilities. Your Committee finds that, by incentivizing lessees through rental reductions or waivers, the State can defer the costs of these improvements while supporting projects that benefit the State as a whole.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1252, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (English, Taniguchi).

## SCRep. 1081 Ways and Means on S.B. No. 1368

The purpose and intent of this measure is to authorize the graduate students employed by the University of Hawaii to organize for the purpose of collective bargaining.

Your Committee received written comments in support of this measure from the LGBT Caucus of the Democratic Party of Hawaii, ILWU Local 142, Hawaii State Teachers Association, University of Hawaii Professional Assembly, Democratic Party of Hawaii Labor Caucus, Academic Labor United, Democratic Party of Hawaii Education Caucus, Hawaii Government Employees Association, and ten individuals.

Your Committee received written comments in opposition to this measure from the University of Hawaii.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that establishment of a new collective bargaining unit (15) comprising graduate students employed by the University of Hawaii will assist those individuals in improving their pay and employment benefits.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1368, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Moriwaki, Riviere). Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

# SCRep. 1082 Ways and Means on S.B. No. 1460

The purpose and intent of this measure is to require carriers and other persons that transport liquor into the State to file monthly reports on those deliveries to the county liquor commissions or liquor control adjudication boards.

Your Committee received written comments in support of this measure from the Liquor Commission, City and County of Honolulu; and Hawaii Liquor Wholesalers Association.

Your Committee finds that a number of out-of-state manufacturers and retailers ship wine to residents but do not hold direct wine shipper permits. These shippers evade payment of the general excise tax required by businesses that hold direct wine shipper permits. Your Committee further finds that this measure's reporting requirements will enable county liquor commissions and liquor control adjudication boards to monitor the amount of liquor shipped into the State and determine whether the shipper has complied with permitting requirements, including the payment of taxes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1460, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

# SCRep. 1083 Ways and Means on S.B. No. 1461

The purpose and intent of this measure is to direct the Governor to enter into negotiations with the United States Department of Energy to establish a national laboratory in Hawaii.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development and Tourism; Hawaiian Electric Company, Inc.; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; and one individual.

Your Committee finds that establishing a national laboratory in Hawaii would attract and retain skilled professionals in science, technology, engineering, and math and would further encourage innovation and collaboration in the public and private sectors.

Your Committee notes that a resolution will be introduced in the Legislature urging the United States Congress to increase the current cap on national laboratories.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1461 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Harimoto, Kahele, Shimabukuro, Taniguchi).

## SCRep. 1084 Ways and Means on S.B. No. 1500

The purpose and intent of this measure is to require the Department of Health to collaborate with various agencies in researching, developing, and reporting to the Legislature on a plan to increase water circulation in Pokai Bay on Oahu in order to mitigate environmental and health risks caused by pollution and contaminants.

Your Committee received written comments in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii and two individuals.

Your Committee received written comments in opposition to this measure from the Department of Health.

Your Committee finds that since Pokai Bay is one of the most visited ocean areas on Oahu's Leeward Coast, eliminating its sources of pollution and contamination is a matter of public health and safety.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1500, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Taniguchi).

# SCRep. 1085 Ways and Means on S.B. No. 1507

The purpose and intent of this measure is to appropriate funds to plan and hold a 2020 Hawaii-Philippines sister city trade show and economic outlook symposium.

Your Committee received written comments in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that the trade show and symposium would provide the State's individuals and businesses the opportunity to meet business owners and officials from the Philippines, gain new perspectives on Filipino cultural and business practices, and develop new business relationships and trade opportunities.

Your Committee notes that the appropriation amount requested is \$50,000.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1507, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Taniguchi).

## SCRep. 1086 Ways and Means on S.B. No. 891

The purpose and intent of this measure is to exempt affordable housing projects, alterations or expansions to existing dwelling units, accessory dwelling units, ohana dwelling units, and housing projects or property developed by the Hawaii Public Housing Authority from the land component impact fee applicable to new residential developments within a designated school impact district.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Department of Education and Tax Foundation of Hawaii.

Your Committee finds that imposition of the impact fee on certain types of dwellings may frustrate the purposes for which those dwellings were constructed.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 891, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 891, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Kahele, Shimabukuro).

# SCRep. 1087 Ways and Means on S.B. No. 911

The purpose and intent of this measure is to appropriate funds to the Hawaii Health Systems Corporation to improve health care services related to cardiac care at Hilo Medical Center.

Your Committee received testimony in support of this measure from the East Hawaii Region of Hawaii Health Systems Corporation, American Heart Association, Hilo Medical Center, Community First, Kau Hospital, Hawaii State Rural Health Association, Hilo

Medical Center Foundation, Blue Zones Project, East Hawaii Independent Physicians Association, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and numerous individuals.

Your Committee finds that this measure will enable the Hilo Medical Center to expand its offering of interventional cardiology which, in turn, will improve health outcomes for residents of Hawaii County who experience cardiac events.

Your Committee notes that an appropriation of \$1,500,000 for fiscal year 2019-2020, and an appropriation of \$1,000,000 for fiscal year 2020-2021, are needed to effectuate the purposes of this measure.

Your Committee has amended this measure by:

- (1) Changing the appropriation amounts to unspecified amounts;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 911, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 911, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

## SCRep. 1088 Ways and Means on S.B. No. 944

The purpose and intent of this measure is to mitigate the effects of climate change by requiring the Hawaii Climate Change Mitigation and Adaptation Commission to prioritize the use of nature-based solutions.

More specifically, this measure:

- Requires the Commission to prioritize the identification of and recommendations for utilizing nature-based solutions in its climate change mitigation and adaptation efforts;
- (2) Requires the Commission to assess and make recommendations regarding insurance, reinsurance, and other risk transfer products or market mechanisms to incentivize investment in nature-based solutions; and
- (3) Appropriates moneys to the Department of Land and Natural Resources to include nature-based solutions in the Commission's mitigation and adaptation efforts.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Environmental Caucus of the Democratic Party of Hawaii, Hawaii Reef and Ocean Coalition, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and The Nature Conservancy.

Your Committee notes that the Department of Land and Natural Resources requires \$50,000 for each year of fiscal biennium 2019-2021 for the Hawaii Climate Change Mitigation and Adaptation Commission. Further, your Committee notes that, although research and analysis of insurance, reinsurance, and other risk transfer products or market mechanisms that incentivize nature-based solutions are necessary, the Department of Land and Natural Resources has expressed concerns that the additional functions of the Commission under this Act will require additional resources.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$50,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 944, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 944, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

## SCRep. 1089 (Joint) Ways and Means and Commerce, Consumer Protection, and Health on S.B. No. 975

The purpose and intent of this measure is to make certain amendments relating to land use.

Specifically, this measure:

- (1) Requires that if any parcel of land of a planned community association is subdivided as a condominium property regime in agricultural or preservation lands within a county with a population of seven hundred fifty thousand or more, the owner of the parcel shall provide public notification of the sale no later than ninety days after the sale of the parcel;
- Specifies that residential use of storage sheds or similar structures shall not be permitted, and any violation shall be subject to county enforcement authority;
- (3) Prohibits residential development on lands currently in preservation zoning districts within a county with a population of seven hundred fifty thousand or more;

- (4) Authorizes any county with a population of seven hundred fifty thousand or more to adopt ordinances governing condominium property regimes; and
- (5) Provides that an application for a registration of a condominium project within a county with a population of seven hundred fifty thousand or more may also include comments on the availability of supportive infrastructure, the potential impact on environmental resources, and other requirements of county ordinances and rules.

Your Committees received written comments in opposition to this measure from the Department of Planning and Permitting of the City and County of Honolulu and the Land Use Research Foundation of Hawaii.

Your Committees received written comments on this measure from the Department of Agriculture, Land Use Commission, Office of Planning, and one individual.

Your Committees recognize the challenges within the State regarding the regulation of residential uses of lands under condominium property regimes in the state agricultural and preservation districts. Your Committees find that this measure attempts to address those challenges and help protect the State's agricultural and preservation lands from being developed for other purposes.

Your Committees have amended this measure by:

- (1) Inserting language that requires the declaration in a condominium project developer's public report to specify that the project is in compliance with section 205-4.5(f), Hawaii Revised Statutes; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 975, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 975, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ruderman).

# SCRep. 1090 Ways and Means on S.B. No. 992

The purpose and intent of this measure is to authorize the Hawaii Tourism Authority to separately contract for the management of the Hawaii Convention Center.

Your Committee received written comments in support of this measure from the Hawaii Tourism Authority and the Hawaii Lodging and Tourism Association.

Your Committee finds that under current law, management contracts for the Hawaii Convention Center must also include the marketing of all uses of the facility. By separating the management of the convention center from the marketing component, this measure will allow the Hawaii Tourism Authority to centralize sales efforts to a single point of contact.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 992, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 992, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Taniguchi).

#### SCRep. 1091 Ways and Means on S.B. No. 1025

The purpose and intent of this measure is to change the allocation award ceiling for the kupuna caregivers program.

More specifically, this measure:

- (1) Changes the kupuna caregivers program allocation award ceiling from \$70 per day to \$350 per week; and
- (2) Appropriates moneys to the Executive Office on Aging for implementation of the kupuna caregivers program.

Your Committee received written comments in support of this measure from the Executive Office on Aging, Hawaii State Commission on the Status of Women, AARP, Caring Across Generations, Chinatown Gateway Plaza Tenant Association, Faith Action for Community Equity, Hawaii Appleseed Center for Law and Economic Justice, Hawaii Psychological Association, ILWU Local 142, Lanakila Pacific, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and nine individuals.

Your Committee notes that the Executive Office on Aging requires appropriations of \$2,000,000 per fiscal year for fiscal years 2019-2020 and 2020-2021.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$2,000,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1025, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1025, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

#### SCRep. 1092 Ways and Means on S.B. No. 1111

The purpose and intent of this measure is to appropriate or authorize funds for various operating expenses of the Department of Accounting and General Services.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services.

Your Committee received written comments on this measure from the Office of Information Practices.

Your Committee finds that this measure adjusts the amounts appropriated or authorized for the Department of Accounting and General Services from baseline amounts in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- (1) Changing all appropriation amounts to unspecified sums;
- (2) Adding a severability clause;
- (3) Adding a provision authorizing the Governor to correct manifest clerical, typographical, or other mechanical errors;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for purposes of consistency and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1111, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1111, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1093 Ways and Means on S.B. No. 1359

The purpose and intent of this measure is to ensure accountability with respect to the finances and management of the Agribusiness Development Corporation.

Specifically, this measure requires that a financial and management audit of the Agribusiness Development Corporation be conducted by the Department of Agriculture.

Your Committee received written comments in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaii County Council, Animal Rights Hawaii, and Hawaii Center for Food Safety.

Your Committee received written comments on this measure from the Department of Agriculture, Agribusiness Development Corporation, and Office of the Auditor.

Your Committee finds that this measure will bring clarity and accountability regarding the finances and management of the Agribusiness Development Corporation. However, your Committee notes that the cost of conducting the management audit is not clear, and your Committee respectfully requests that this concern be considered as this measure moves forward in the legislative process.

Your Committee has amended this measure by:

- (1) Requiring that the Auditor conduct the financial audit of the Agribusiness Development Corporation, to include the financial statements of fiscal years ending June 30, 2019, June 30, 2020, and June 30, 2021, and submit a report to the Legislature prior to the Regular Session of 2022;
- (2) Clarifying that the Department of Agriculture conduct the management audit of the Agribusiness Development Corporation and submit a report to the Legislature prior to the Regular Session of 2022;
- (3) Adding an appropriation of an unspecified amount for two fiscal years for the Auditor's financial audit;
- (4) Changing the existing appropriation for two fiscal years to an unspecified amount;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1359, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1359, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Kahele, Kidani, Riviere, Taniguchi).

#### SCRep. 1094 Ways and Means on S.B. No. 1389

The purpose and intent of this measure is to establish a transit-oriented development infrastructure improvement zone program.

More specifically, this measure:

- (1) Authorizes the Hawaii Housing Finance and Development Corporation to establish and operate a transit-oriented development infrastructure improvement zone subaccount within the dwelling unit revolving fund;
- Requires the Hawaii Community Development Authority to develop the transit-oriented development infrastructure improvement zone program; and
- (3) Appropriates moneys to the Hawaii Community Development Authority for 1.0 FTE position to develop and manage the transit-oriented development infrastructure improvement zone program.

Your Committee received written comments in support of this measure from the Office of Planning, Chamber of Commerce Hawaii, Building Industry Association of Hawaii, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that establishing a transit-oriented development infrastructure improvement zone program will ensure that current transit-oriented development planning efforts will benefit the affected communities.

Your Committee has amended this measure by:

- (1) Clarifying the language with respect to the Hawaii Community Development Authority's responsibility to:
  - (A) Determine whether a parcel of land is a transit-oriented development infrastructure improvement zone based on specific conditions; and
  - (B) Adopt rules regarding any preliminary procedures required for the Authority to establish an assessment area;
- (2) Amending the definition of "transit-oriented development infrastructure improvement zone" to include a requirement that a parcel of land be located in a county's transit-oriented development zone within a one-half mile radius around a transit station; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1389, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1389, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

## SCRep. 1095 Ways and Means on S.B. No. 1401

The purpose and intent of this measure is to strengthen the laws regulating pharmacy benefit managers.

Specifically, the measure:

- (1) Prohibits pharmacy benefit managers from encouraging covered persons to use pharmacies in which the managers have ownership interests or the pharmacies have ownership interests in the pharmacy benefit managers;
- (2) Requires pharmacy benefit managers to be licensed rather than registered;
- (3) Requires pharmacy benefit managers to submit transparency reports to the Insurance Commissioner;
- (4) Increases fees for licensing and renewals; and
- (5) Increases fines for violations.

Your Committee received written comments in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee received written comments in opposition to this measure from the Hawaii Employer-Union Health Benefits Trust Fund and Express Scripts/Cigna.

Your Committee received written comments on this measure from the Department of Commerce and Consumer Affairs, Insurance Division; Department of the Attorney General; and Office of Information Practices.

Your Committee finds that increased transparency and heightened regulation under this measure will promote, preserve, and protect public health, safety, and welfare.

Your Committee has amended this measure by:

- Adopting the proposal of the Office of Information Practices to require the Insurance Commissioner to annually report aggregated information about pharmacy benefit managers;
- Clarifying references to the types of pharmacies and pharmacy providers that a pharmacy benefit manager shall not encourage covered persons to use;
- (3) Adding a savings clause; and

(4) Making technical, nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1401, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1401, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

## SCRep. 1096 Ways and Means on S.B. No. 1410

The purpose and intent of this measure is to appropriate funds to support the expansion of Kau Rural Health Clinic in the County of Hawaii

Your Committee received written comments in support of this measure from the East Hawaii Region of Hawaii Health Systems Corporation and one individual.

Your Committee finds that expanding urgent care and behavioral health services at the Kau Rural Health Clinic will help to meet the demand for medical services by the growing population of Ocean View while reducing the need for costly emergency services consumed by individuals who lack reliable access to medical care.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1410, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1410, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

#### SCRep. 1097 Ways and Means on S.B. No. 1459

The purpose and intent of this measure is to establish the state commission on surfing.

Your Committee received written comments in support of this measure from Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee finds that surfing plays a significant role in the history, culture, and economy of the State. Your Committee further finds that a state commission on surfing will benefit the State's economy through promotion of the sport.

Your Committee has amended this measure by:

- (1) Clarifying its purpose by noting that surfing is a native Hawaiian cultural practice; and
- (2) Replacing the voting member of the commission who is designated by the World Surfing League with a voting member who is designated by the Hawaii Lifeguard Association.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1459, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1459, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

## SCRep. 1098 Ways and Means on S.B. No. 1465

The purpose and intent of this measure is to require health insurance policies and plan contracts to cover assisted community treatment benefits.

Your Committee received written comments in support of this measure from Partners in Care, Hawaii Kai Homeless Task Force, and Hawaii Health and Harm Reduction Center.

Your Committee received written comments on this measure from the Department of the Attorney General and Insurance Division of the Department of Commerce and Consumer Affairs.

Your Committee finds that the health insurance benefit required by this measure will provide community agencies and family members with the financial resources necessary to retain a psychiatric professional to file petitions to obtain assisted community treatment orders for chronically homeless, mentally ill individuals.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1465, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1465, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

## SCRep. 1099 Ways and Means on S.B. No. 114

The purpose and intent of this measure is to increase the recruitment and retention of qualified teachers in the State.

Specifically, this measure establishes a teacher home assistance program to provide housing vouchers to full-time teachers employed by the Department of Education who teach at a hard-to-fill school and whose household income does not exceed eighty percent of the area median income.

Your Committee received written comments in support of this measure from the Department of Education, Democratic Party of Hawaii Education Caucus, Hawaii State Teachers Association, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual.

Your Committee received written comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that housing subsidy vouchers have the potential to increase the number of teachers retained by the Department of Education, especially in hard-to-fill geographic areas, by assisting with teachers' financial burdens and encouraging qualified teachers to remain in Hawaii.

Your Committee notes that the Hawaii Housing Finance and Development Corporation has requested 22.5 full-time equivalent positions, at a cost of \$1,004,464.13, to administer the program proposed in this measure. However, because the Hawaii Public Housing Authority, which already administers a housing voucher program, has offered its assistance to the Hawaii Housing Finance and Development Corporation, the full 22.5 positions may not be necessary.

In addition, your Committee notes that the Hawaii Housing Finance and Development Corporation based its staffing estimate on the number of vouchers currently administered by the Hawaii Public Housing Authority rather than the number of vouchers that would be administered under a teacher home assistance program. Consequently, the cost to administer the program may be lower than the figure estimated by the Hawaii Housing Finance and Development Corporation.

Your Committee has amended this measure by:

- (1) Providing that a person requesting renewal of a housing voucher for an additional year shall submit proof of continued employment as a teacher;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 114, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 114, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Harimoto, Fevella). Noes, none. Excused, 2 (Kahele, Shimabukuro).

# SCRep. 1100 Ways and Means on S.B. No. 161

The purpose and intent of this measure is to provide to a taxpayer who hires an individual with a disability a nonrefundable income tax credit for the twelve-month period after the individual is initially hired by the taxpayer.

Your Committee received written comments in support of this measure from the Hawaii State Association of Counties and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that providing an incentive to hire individuals with disabilities facilitates the economic self-sufficiency of disabled individuals, allowing them to contribute to their communities as taxpaying citizens, establish relationships, and engage in social networking.

Your Committee has amended this measure by:

- (1) Amending the definition of "qualified wages" to prevent a taxpayer from claiming multiple tax benefits for the wages paid to the same employee;
- (2) Providing that the tax credit shall be recaptured if the taxpayer terminates the employment of the individual with a disability during a twelve-month period following the close of the taxable year for which the tax credit was claimed;
- (3) Applying the tax credit to taxable years beginning after December 31, 2019;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for purposes of consistency, clarity, and style.

Your Committee notes the following concerns regarding the measure:

 As currently drafted, it is unclear whether a taxpayer may claim a tax credit for hiring only one disabled individual or for each disabled individual hired; and (2) If the tax credit is intended to apply to each individual with a disability that a taxpayer hires, it is unclear whether the cap amount is intended to apply to the amount of tax credit claimed by a taxpayer for hiring a single disabled individual, or to the amount of tax credits claimed by a taxpayer for all the disabled individuals whom the taxpayer hires.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 161, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 161, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

## SCRep. 1101 Ways and Means on S.B. No. 219

The purpose and intent of this measure is to require the Chief Information Officer, in conjunction with the Information Technology Steering Committee, to review, refresh, and submit the state information technology strategic plan every four years.

Your Committee received written comments in support of this measure from the Department of Education and Transform Hawaii

Your Committee finds that ever-evolving technology necessitates periodic updates to the state information technology strategic plan to ensure that the State is fully maximizing available modern resources. Your Committee further finds that this measure expands the duties of the Chief Information Officer to require that the plan be periodically reviewed and updated.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 219, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 219, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (English).

#### SCRep. 1102 Ways and Means on S.B. No. 231

The purpose and intent of this measure is to establish and fund a youth commission administrator position in the Office of Youth Services

Your Committee received written comments in support of this measure from the Department of Human Services and two individuals.

Your Committee finds that the Youth Commission was established by Act 106, Session Laws of Hawaii 2018, and funded through June 30, 2019. Ongoing funding will allow the commission to continue advising the Governor on policies and programs that affect the State's youth.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 231, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 231, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (English).

# SCRep. 1103 Ways and Means on S.B. No. 307

The purpose and intent of this measure is to establish a provisional speech pathologist license for individuals engaging in clinical or academic practice under the supervision of a licensed speech pathologist.

Your Committee received written comments in support of this measure from the Board of Speech Pathology and Audiology, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and Healthcare Association of Hawaii.

Your Committee finds that providing provisional speech pathology licenses will increase speech pathology training opportunities in the State.

Your Committee has amended this measure by:

- (1) Clarifying that a licensed speech pathologist must be in good standing with the Board of Speech Pathology and Audiology as a requirement to supervise a provisional licensee;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 307, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 307, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

## SCRep. 1104 Ways and Means on S.B. No. 433

The purpose and intent of this measure is to appropriate funds to the Department of Health for a social marketing campaign to increase physical activity and reduce child and teen screen time.

Your Committee received written comments in support of this measure from the Department of Health.

Your Committee finds that this measure would promote leisure-time physical activity as an alternative to electronic screen time for children and teens, aligning with national recommendations and evidence-based social marketing strategies that support positive messaging to motivate healthy lifestyle changes.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 433, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 433, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

# SCRep. 1105 Ways and Means on S.B. No. 463

The purpose and intent of this measure is to extend the hospital sustainability program for two years until 2021.

This measure also raises the ceiling for the hospital sustainability fee and appropriates funds from the hospital sustainability program special fund for the purposes of the special fund.

Your Committee received written comments in support of this measure from the Department of Human Services, Healthcare Association of Hawaii, and The Queen's Health Systems.

Your Committee finds that the loss of sustainability funds would have a dramatic negative impact on hospitals.

Your Committee notes that a special fund appropriation of \$75,000,000 is needed in each year of fiscal biennium 2019-2021 to continue this program.

Your Committee has amended this measure by:

- (1) Changing the hospital sustainability program special fund appropriation to an unspecified amount; and
- (2) Changing the effective date of the appropriation to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 463, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 463, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Inouye).

# SCRep. 1106 Ways and Means on S.B. No. 485

The purpose and intent of this measure is to enhance the development of agriculture and food security in the State.

Specifically, this measure increases the portion of the barrel tax on petroleum products that is deposited into the agricultural development and food security special fund from fifteen cents per barrel to thirty cents per barrel.

Your Committee received written comments in support of this measure from the Department of Agriculture, The Nature Conservancy, Ulupono Initiative, Hawaii Farm Bureau, and one individual.

Your Committee finds that the additional moneys deposited into the agricultural development and food security special fund will support agricultural development statewide. Your Committee also finds that this funding will be available to improve biosecurity by increasing local food production, which in turn will decrease the chance that harmful biological agents will be introduced into the State through agricultural imports.

Your Committee has amended this measure by changing its effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 485, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 485, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Kahele, Shimabukuro).

## SCRep. 1107 Ways and Means on S.B. No. 533

The purpose and intent of this measure is to clarify the procedure for nominees to a state board or commission whose nomination for appointment or reappointment is withdrawn for cause by the Governor prior to an advice and consent action by the Senate.

Your Committee finds that this measure would provide a necessary clarification that the Governor's withdrawal for cause of a nominee to a state board or commission renders that nominee disqualified for membership or ineligible to serve as a holdover member.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 533, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 533, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, 1 (Kahele).

### SCRep. 1108 Ways and Means on S.B. No. 792

The purpose and intent of this measure is to enhance the productivity and efficiency of state employees.

Specifically, this measure:

- (1) Establishes the public employees training program and the board of the public employees training program;
- Requires the board of the public employees training program to develop a plan for the creation and development of various employee training programs;
- (3) Establishes the public employees training fund; and
- (4) Requires that each newly hired state employee be provided with a general orientation on their benefits and rights.

Your Committee received written comments in support of this measure from the Hawaii Government Employees Association.

Your Committee finds that a public employees training program would increase employee-retention in and provide general benefits to the public workforce.

Your Committee has amended this measure by making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 792, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 792, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, none. Excused, 2 (Harimoto, Taniguchi).

### SCRep. 1109 Ways and Means on S.B. No. 804

The purpose and intent of this measure is to increase the utilization of palliative care in the State.

Specifically, this measure:

- (1) Establishes within the Department of Health a culturally competent palliative care program to promote palliative care, gather health care utilization data, and conduct bidding for at least two pilot programs for home or community based palliative care;
- (2) Establishes an advisory group to oversee the implementation of the pilot programs; and
- (3) Appropriates funds for the palliative care pilot programs.

Your Committee received written comments in support of this measure from the Department of Health, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Kauai Hospice, Healthcare Association of Hawaii, Kokua Mau, Community First, Hawaii Care Choices, St. Francis Healthcare System, Hawaii Family Forum, Oahu County Democrats, and numerous individuals.

Your Committee received written comments on this measure from the League of Women Voters of Hawaii.

Your Committee finds that numerous studies have shown that palliative care significantly improves the quality of life of patients and their families. Your Committee also finds that palliative care can be offered concurrently with both curative treatments or hospice and end-of-life care.

Your Committee has amended this measure by:

- Clarifying that the chief executive of the hospital in the Hawaii Health Systems Corporation region in which the palliative care
  pilot program is implemented, or the chief executive's designee, shall be invited to serve on the advisory group;
- (2) Providing that the Director of Health shall invite the chief executive of the Maui Health System to serve on the advisory group if the pilot program is implemented in the County of Maui;

- (3) Clarifying that the Director of Health shall invite to serve on the advisory group representatives from the John A. Burns School of Medicine, American Cancer Society, Kokua Mau, and a person who is a patient or family member of a patient who previously received palliative care;
- (4) Changing the amount appropriated for palliative care pilot programs to an unspecified amount;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive changes for purposes of clarity and style.

Should this measure pass into law, your Committee notes that the Department of Health will require an appropriation of \$350,000 for each fiscal year of the biennium to implement the palliative care pilot program.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 804, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 804, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

# SCRep. 1110 Ways and Means on S.B. No. 817

The purpose and intent of this measure is to establish provisions for the sale of stored property insurance by self-service storage facility owners.

Your Committee received written comments in support of this measure from the Self Storage Association and StorQuest Self Storage.

Your Committee received written comments in opposition to this measure from the Department of Commerce and Consumer Affairs.

Your Committee believes that through this measure, more individuals who rent units at self-service storage facilities will be afforded the opportunity to purchase insurance at the point of rental and thus have a more accessible means to obtain optional affordable coverage for their stored property.

Your Committee has amended this measure by:

- (1) Changing its effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 817, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 817, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Taniguchi).

#### SCRep. 1111 Ways and Means on S.B. No. 871

The purpose and intent of this measure is to appropriate moneys to the Department of Land and Natural Resources for invasive species technician positions in the Department's Division of Forestry and Wildlife on the island of Hawaii.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Hawaii Farm Bureau; Hawaiian Electric Company, Inc.; The Nature Conservancy; and one individual.

Your Committee finds that establishing invasive species technician positions will mitigate the impact of invasive species on the island of Hawaii and will help protect the island's environment and overall health, culture, and economy.

Your Committee notes that an appropriation of \$500,000 in each year of fiscal biennium 2019-2021 will be necessary to fund the additional invasive species technician positions.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 871, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 871, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

#### SCRep. 1112 Commerce, Consumer Protection, and Health on S.B. No. 818

The purpose and intent of this measure is to:

- (1) Establish licensure requirements for school psychologists to be administered by the Hawaii Teacher Standards Board; and
- (2) Specify that school psychologists who are employed by an educational institution and practice only within a school setting shall be exempt from licensure under chapter 465, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Hawaii Teacher Standards Board, Hawai'i Association of School Psychologists, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and eight individuals. Your Committee received comments on this measure from the Department of the Attorney General, Department of Education, and Hawai'i Psychological Association.

Your Committee finds that, under existing law, school psychologists are exempt from licensure when practicing in a school setting and have no credentialing requirements. Hawaii is the only state in the country that allows this, meaning individuals who do not have graduate training in school psychology, and who do not meet nationally accepted certification standards, are allowed to practice psychology within an educational setting. Your Committee finds that the integrity of the profession is comprised and the public is not protected when these unlicensed and uncertified persons are employed in a school setting under the current licensing exemption. Furthermore, only certified or licensed professionals are billable under Medicaid, so the existing exemption does not allow for the Department of Education to bill for any services or evaluations conducted by school psychologists at this time. This measure brings Hawaii law into alignment with the rest of the country by requiring licensure for school psychologists and promotes efforts to protect children by adopting nationally accepted standards for licensure.

Your Committee has amended this measure by:

- (1) Clarifying that licensure requirements for school psychologists shall be prescribed in a manner consistent with the National Association of School Psychologists standards, or successor organization, in a school setting;
- Specifying that a person licensed as a school psychologist shall practice only within a school setting and shall not engage in private practice;
- (3) Renaming the "Hawaii Teacher Standards Board" to the "Hawaii Teacher Standards and School Psychologists Board";
- (4) Amending the composition of the Hawaii Teacher Standards and School Psychologists Board to include two school psychologists;
- (5) Requiring the Hawaii Teacher Standards and School Psychologists Board to report to the Legislature prior to the convening of the Regular Session of 2022;
- (6) Updating the purpose section;
- (7) Inserting a sunset date of July 1, 2026;
- (8) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 818, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 818, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Thielen). Noes, none. Excused, 2 (Nishihara, Ruderman).

## SCRep. 1113 (Joint) Labor, Culture and the Arts and Judiciary on S.B. No. 569

The purpose and intent of this measure is to:

- (1) Include programs and activities that also receive federal financial assistance within the meaning of programs and activities receiving state financial assistance; and
- (2) Ensure that claims of disability discrimination in state financially assisted programs fall under the jurisdiction of the Hawaii Civil Rights Commission.

Your Committees received testimony in support of this measure from the Hawai'i Civil Rights Commission, Disability and Communications Access Board, Hawaii Disability Rights Center, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals. Your Committees received comments on this measure from the Department of Education.

Your Committees find that when enacted, section 368-1.5, Hawaii Revised Statutes, was intended to provide a state remedy for disability discrimination in addition to the federal remedies available under section 504 of the Rehabilitation Act, thereby providing an alternative state remedy in situations where federal remedies were also available. The intent was to provide those with disabilities non-discriminatory access to state financially assisted programs and activities, regardless of whether that program or activity also received federal financial assistance.

The Hawaii Civil Rights Commission has enforcement jurisdiction over Hawaii laws prohibiting discrimination in employment, housing, public accommodations, and access to state financially assisted programs and activities on the basis of disability. However, the Hawaii Supreme Court in *Hawaii Technology Academy and the Department of Education v. L.E. and Hawaii Civil Rights Commission*, 141 Hawaii 147, 407 P.3d 103 (2017), held that the Legislature did not intend the Hawaii Civil Rights Commission to have jurisdiction over disability discrimination claims under section 368-1.5, Hawaii Revised Statutes, if protections under section 504 of the Rehabilitation Act were also applicable.

This decision rendered section 368-1.5, Hawaii Revised Statutes, superfluous as nearly all state departments receive federal funds, and eliminated an avenue of redress for Hawaii residents who believed they had been discriminated against on the basis of disability.

Your Committees further find that this measure clarifies the original intent of the Legislature to give the Hawaii Civil Rights Commission jurisdiction over state funded program-related disability discrimination claims so that Hawaii residents may have a state remedy regardless of whether they may also be entitled to remedies under federal law.

Your Committees note the concerns raised in the Department of Education's testimony that this measure as drafted would give the Hawaii Civil Rights Commission jurisdiction over public school students' disability discrimination cases. According to the Department of Education, this measure as it applies to public school students with disabilities is duplicative of and would circumvent the remedies and procedures already established by applicable rules and policies required by federal law. Further, the Department of Education testified that this measure as currently drafted could lead to the duplication of efforts by different government agencies. Amendments to this measure are therefore necessary to address some of the Department of Education's concerns.

Accordingly, your Committees have amended this measure by:

- Inserting language in section 368-11, Hawaii Revised Statutes, to clarify that the Hawaii Civil Rights Commission shall not have jurisdiction over claims that would be cognizable under the Individuals with Disabilities Education Act, P.L. 101-476, as amended (IDEA), and its appeals process;
- (2) Updating the purpose section as appropriate; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor, Culture and the Arts and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 569, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 569, S.D. 2.

Signed by the Chairs on behalf of the Committees. Labor, Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Ihara). Judiciary: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Wakai).

#### SCRep. 1114 Ways and Means on S.B. No. 1417

The purpose and intent of this measure is to establish a sustained funding source within the Office of Veterans' Services for the repatriation and burial costs for Filipino-American World War II veterans.

Your Committee received written comments in support of this measure from the Office of Veterans' Services and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure will provide funding for funeral and burial service support to any qualifying Filipino veteran and, if desired, transportation of the veteran's remains to the Philippines.

Your Committee further notes that an appropriation of \$100,000 for fiscal year 2019-2020 and the same sum for fiscal year 2020-2021 are needed to effectuate the purposes of this measure.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1417, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1417, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

# SCRep. 1115 Ways and Means on S.B. No. 78

The purpose and intent of this measure is to require the Department of Education to contract with a third-party consultant to study the adequacy of education funding in the State.

Your Committee received written comments in support of this measure from the Department of Education, Hawaii State Teachers Association, and Democratic Party of Hawaii Education Caucus.

Your Committee finds that the study required by this measure will improve the understanding of the funding necessary to support student learning and prepare Hawaii's public school students for the social and economic demands of the twenty-first century.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 78, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 78, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

#### SCRep. 1116 Ways and Means on S.B. No. 90

The purpose and intent of this measure is to appropriate or authorize funds for various operating expenses of the Department of Education.

Your Committee received written comments in support of this measure from the Department of Education, Executive Office on Early Learning, Early Learning Board, and Hui for Excellence in Education.

Your Committee finds that this measure adjusts the amounts appropriated or authorized for the Department of Education from baseline amounts in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- (1) Removing appropriations for:
  - (A) Air conditioning repair (EDN400/OC School Support); and
  - (B) Early learning induction program and additional prekindergarten classrooms (EDN700/PK);
- (2) Indicating the program title associated with each program ID in the appropriations table;
- (3) Adding the means of financing for line items that did not have a means of financing indicated;
- (4) Providing that the Department of Education is the expending agency for line items in the appropriations table that did not have an expending agency indicated;
- (5) Clarifying that the appropriations made in the measure are for operating costs, rather than capital investment project costs;
- (6) Adding a severability clause;
- (7) Adding a provision authorizing the Governor to correct manifest clerical, typographical, or other mechanical errors;
- (8) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (9) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 90, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 90, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

## SCRep. 1117 Ways and Means on S.B. No. 198

The purpose and intent of this measure is to authorize the counties to establish a surcharge on the state transient accommodations

Your Committee received written comments in support of this measure from the Office of the Mayor of the City and County of Honolulu and the Office of the Mayor of the County of Hawaii.

Your Committee received written comments on this measure from the Department of Taxation, Rental by Owner Awareness Association, and Tax Foundation of Hawaii.

Your Committee finds that the transient accommodations tax is imposed on hotels and other forms of short-term lodgings. A portion of transient accommodations revenues is allocated to the counties to offset the cost of tourism-related expenditures. Your Committee also finds that the surcharge authorized by this measure will provide the counties with additional resources to pay for rising expenditures.

Your Committee has amended this measure by:

- (1) Deleting a provision giving the Director of Taxation the power to determine the county in which a person is engaged in the business of furnishing transient accommodations;
- (2) Inserting provisions regarding the disposition of county surcharge on transient accommodations tax revenues; and
- (3) Making technical nonsubstantive amendments for purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 198, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 198, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

## SCRep. 1118 Ways and Means on S.B. No. 277

The purpose and intent of this measure is to appropriate an unspecified amount of funds to the Department of Land and Natural Resources.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources and two hundred thirty-eight individuals.

Your Committee finds that the Governor has requested funding for various priority projects of the Department of Land and Natural Resources. Your Committee recognizes that the Department of Land and Natural Resources anticipates receiving \$5,000,000 per year in additional revenue in the special land and development fund starting in fiscal year 2019-2020.

Your Committee has amended this measure by deleting its contents and inserting provisions that appropriate \$3,000,000 from the special land and development fund for each year of the 2019-2021 fiscal biennium for priority projects of the Department of Land and Natural Resources, as requested by the Governor.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 277, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 277, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, 1 (Fevella).

## SCRep. 1119 Ways and Means on S.B. No. 313

The purpose and intent of this measure is to appropriate funds to the University of Hawaii to establish two full-time equivalent positions for the wayfinding education program – Imiloa Astronomy Center at the University of Hawaii at Hilo.

Your Committee received written comments in support of this measure from the University of Hawaii; Maunakea Observatories of the Institute for Astronomy of the University of Hawaii; Office of Aerospace Development of the Department of Business, Economic Development, and Tourism; Pacific International Space Center for Exploration Systems of the Department of Business, Economic Development, and Tourism; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; and four individuals.

Your Committee finds that the positions funded by this measure are necessary to establish a permanent program at the Imiloa Astronomy Center that provides both formal academic training and community education in celestial navigation and wayfinding.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified amounts; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 313, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 313, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, 1 (Fevella).

# SCRep. 1120 Ways and Means on S.B. No. 397

The purpose and intent of this measure is to ensure that certain contractors and subcontractors comply with applicable state and federal tax laws.

Specifically, this measure:

- (1) Requires, for a private development exceeding a certain value, the submittal of tax clearances, or a bulk sales certificate, if applicable, for any contractors or subcontractors involved in the private development prior to:
  - (A) The granting of a building permit;
  - (B) Assignment of the development contract; or
  - (C) Final inspection by a state or county contracting officer; and
- (2) Establishes penalties for intentional or knowing violations by government officers or employees.

Your Committee received written comments in opposition to this measure from the Department of Planning and Permitting of the City and County of Honolulu.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the requirement to obtain a valid tax clearance prior to the issuance of certain permits will verify that certain contractors and subcontractors have no liability for unpaid state or federal taxes.

Your Committee has amended this measure by:

- (1) Providing that the requirements to provide a tax clearance shall apply to private developments valued at \$195,000 or greater;
- (2) Requiring the tax clearances submitted prior to the final inspection of a private development to be dated no earlier than forty-five days before the date of the request for a final inspection;
- (3) Changing the unspecified sum for grants-in-aid to the counties for enforcement of the measure to \$3,000 for each year of the biennium and specifying the allocation;
- (4) Inserting a savings clause; and

(5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 397, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 397, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (English, Kahele).

## SCRep. 1121 (Majority) Ways and Means on S.B. No. 714

The purpose and intent of this measure is to make necessary updates to the transient accommodations tax law.

Specifically, this measure:

- Includes resort fees and other fees among the gross rental and gross rental proceeds upon which the tax is calculated for transient accommodations;
- (2) Increases the fair market rental value base upon which a time share unit is taxed to an amount equal to one hundred percent of the gross daily maintenance fees paid by the unit owner and attributable to the unit; and
- (3) Specifies that transient accommodations intermediaries who arrange transient accommodations at noncommissioned negotiated contract rates shall pay the tax.

Your Committee received written comments in opposition to this measure from American Resort Development Association-Hawaii, Aqua-Aston Hospitality, and Kohala Coast Resort Association

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that, as the transient accommodations industry is increasingly evolving, it is necessary for the transient accommodations tax law to adapt accordingly to ensure compliance with the law and timely collection of the tax.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 714, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 714, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Inouye, Kanuha). Noes, 1 (Fevella). Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

# SCRep. 1122 Ways and Means on S.B. No. 789

The purpose and intent of this measure is to provide for increases in the minimum wage.

More specifically, this measure:

- (1) Increases the minimum wage to \$12.00 per hour beginning January 1, 2020;
- (2) Increases the minimum wage to \$15.00 per hour beginning January 1, 2023; and
- (3) Establishes a nonrefundable income tax credit for qualifying small businesses to offset the increase in the minimum hourly wage that employers must pay their employees.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations, Aloha State Association of the Deaf, American Association of University Women of Hawaii, Catholic Charities Hawaii, Democratic Party of Hawaii Education Caucus, Democratic Party of Hawaii, Democratic Party of Hawaii Labor Caucus, Drug Policy Forum of Hawaii, Hawaii Alliance for Community-Based Economic Development, Hawaii Appleseed Center for Law and Economic Justice, Hawaii Government Employees Association, Hawaii State Teachers Association, Hawaii Women's Coalition, ILWU Local 142, IMUAlliance, League of Women Voters of Hawaii, LGBT Caucus of the Democratic Party of Hawaii, Living Wage Hawaii, Midwives Alliance of Hawaii, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, PHOCUSED, and numerous individuals.

Your Committee received written comments in opposition to this measure from The Chamber of Commerce Hawaii, Hawaii Food Industry Association, Hawaiian Chip Company, Honolulu County Republican Party, Maui Chamber of Commerce, National Federation of Independent Business, PCG Enterprises LLC, Retail Merchants of Hawaii, and four individuals.

Your Committee received written comments on this measure from the Department of Taxation and one individual.

Your Committee finds that this measure is intended to strike a balance between the interests of employees and employers by increasing the minimum wage in two increments over three years, while providing a tax credit to help qualified small businesses adjust to the increased labor cost.

Your Committee has amended this measure by:

- (1) Amending the definition of "qualified small business" by changing the gross income requirement to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and

(3) Making technical nonsubstantive amendments for purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 789, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 789, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Moriwaki, Riviere, Fevella). Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

## SCRep. 1123 Ways and Means on S.B. No. 796

The purpose and intent of this measure is to appropriate or authorize funds for various operating expenses of the Department of Human Resources Development.

Your Committee received written comments in support of this measure from the Department of Human Resources Development and Board of Trustees of the Deferred Compensation Plan.

Your Committee finds that this measure adjusts the amounts appropriated or authorized for the Department of Human Resources Development from baseline amounts in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 796, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 796, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1124 Ways and Means on S.B. No. 856

The purpose and intent of this measure is to require the Auditor to conduct routine financial and management audits of the Department of Education, Superintendent of Education, Board of Education, and complex areas.

More specifically, this measure requires the Auditor to:

- Conduct a financial and management audit of the Department of Education, Superintendent of Education, Board of Education, and complex areas every three years; and
- (2) Submit a report of its findings and recommendations to the Legislature following each audit.

Your Committee received written comments in support of this measure from Chamber of Commerce Hawaii, Maui Chamber of Commerce, and one individual.

Your Committee received written comments in opposition to this measure from the Hawaii State Teachers Association.

Your Committee received written comments on this measure from the Department of Education and Office of the Auditor.

Your Committee finds that routine audits will help to identify the financial and management needs of Department of Education schools

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making a technical nonsubstantive change for the purpose of style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 856, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 856, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

### SCRep. 1125 Ways and Means on S.B. No. 976

The purpose and intent of this measure is to facilitate the lease of public library land.

Specifically, this measure:

- (1) Establishes a pilot program and corresponding library facilities fund for the lease of public library land and facilities; and
- (2) Requires the Board of Education to submit reports to the Legislature on the progress of the pilot program.

Your Committee received written comments in support of this measure from the Hawaii State Public Library System, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance, Department of the Attorney General, and Department of Land and Natural Resources.

Your Committee finds that although state public libraries provide an important service to the community, the State should consider new approaches to the generation of funds to support those libraries, including the lease of public library lands, as proposed by this measure.

Your Committee has amended this measure by:

- (1) Replacing a reference to section 171-13, Hawaii Revised Statutes, with a reference to section 171-11, Hawaii Revised Statutes;
- (2) Requiring the Board of Education to consult with the State Librarian in the identification and selection of public library land sites for participation in the pilot program;
- (3) Clarifying that the Board of Education may lease public library land without review by or approval of the Board of Land and Natural Resources;
- (4) Inserting appropriations of unspecified sums for fiscal years 2019-2020 and 2020-2021 for a comprehensive planning study to review all state public library land sites and facilities to assist the State Librarian and the Board of Education in identifying public library land sites for the pilot program established by this measure;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 976, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 976, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11; Ayes with Reservations (Taniguchi). Noes, none. Excused, 2 (Harimoto, Riviere).

#### SCRep. 1126 Ways and Means on S.B. No. 1343

The purpose and intent of this measure is to require that individuals between the ages of eighteen and twenty-six comply with the Military Selective Service Act to be eligible to enroll in a state-supported post-secondary educational institution, qualify for state financial assistance for post-secondary education, or be eligible for state or county employment or service.

Your Committee received written comments in support of this measure from the United States Selective Service System.

Your Committee received written comments on this measure from the University of Hawaii.

Your Committee notes that the University of Hawaii has requested additional administrative resources to implement this measure.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1343, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1343, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Inouye).

# SCRep. 1127 Ways and Means on S.B. No. 1347

The purpose and intent of this measure is to appropriate moneys to the Department of the Attorney General to make a grant to Weed and Seed Hawaii, Inc., to continue the Weed and Seed program.

Your Committee received written comments in support of this measure from the Department of the Attorney General; Hawaii Paroling Authority; Honolulu Police Department; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Gentry Homes, Ltd.; Haseko Development, Inc.; Roy's Ko Olina, and numerous individuals.

Your Committee finds that the Weed and Seed program has been effective in reducing crime rates in areas in which it has been implemented.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making a technical nonsubstantive change for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1347, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1347, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1128 Ways and Means on S.B. No. 1374

The purpose and intent of this measure is to require the Department of Budget and Finance to administer a retirement savings program for private sector employees.

Your Committee received written comments in support of this measure from AARP, Policy Advisory Board for Elder Affairs, Chinatown Gateway Plaza Tenant Association, Young Progressives Demanding Action, Art Nelson Sailmaker/Ullman Sails Hawaii, and numerous individuals.

Your Committee received written comments in opposition to this measure from the Hawaii Bankers Association.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that a significant portion of Hawaii's private sector workers lack a pension plan or have no access to a tax-deferred savings plan through their employer. Enabling more private sector workers to save for retirement will improve their opportunities for financial independence and lessen the likelihood that they rely on public assistance programs later in life.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified amounts;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1374, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1374, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Inouye).

#### SCRep. 1129 Ways and Means on S.B. No. 1394

The purpose and intent of this measure is to facilitate the rehabilitation of historic structures.

More specifically, this measure:

- (1) Establishes a historic preservation income tax credit; and
- (2) Appropriates funds for one temporary position within the State Historic Preservation Division to assist with the establishment and administration of the historic preservation income tax credit program.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Land Use Research Foundation of Hawaii, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that thirty-eight states provide tax credits for the rehabilitation of historic structures. Your Committee also finds that establishing a similar tax credit in Hawaii would promote the comprehensive state historic preservation program established by chapter 6E, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Changing the tax credit from refundable to nonrefundable;
- (2) Disallowing the tax credit if a deduction is claimed for the same expenses;
- (3) Inserting provisions to reduce the basis of depreciable property by the amount of the tax credit;
- (4) Clarifying that recapture of the tax credit shall occur when the Department of Taxation is informed by the Department of Land and Natural Resources that the taxpayer has failed to comply with the requirements of the tax credit;
- (5) Requiring the taxpayer to file the certificate issued by the State Historic Preservation Division along with the taxpayer's tax return to the Department of Taxation;
- (6) Authorizing in statute, rather than session law, the Department of Land and Natural Resources to collect fees to offset the costs of certifying tax credit claims; and
- (7) Making technical nonsubstantive amendments for purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1394, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1394, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Taniguchi).

## SCRep. 1130 Ways and Means on S.B. No. 1464

The purpose and intent of this measure is to support the public in preparing, filing, defending, and adjudicating assisted community treatment petitions, related guardianship petitions, and other legal filings.

Specifically, this measure appropriates funds for:

- (1) Two Deputy Attorney General positions;
- (2) A family court judge in the First Circuit; and
- (3) A social worker in the Office of the Public Guardian.

Your Committee received written comments in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Partners in Care, Hawaii Health and Harm Reduction Center, Hawaii Kai Homeless Task Force, and two individuals.

Your Committee received written comments on this measure from the Hawaii State Judiciary.

Your Committee finds that this measure will ease the burden on concerned parties navigating the assisted community treatment process so that certain individuals suffering from severe mental illness or substance abuse can get appropriate and timely care.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making a technical nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1464, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1464, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1131 Ways and Means on S.B. No. 1490

The purpose and intent of this measure is to appropriate or authorize funds for various operating expenses of the Department of Land and Natural Resources.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources and The Nature Conservancy.

Your Committee finds that this measure adjusts the amounts appropriated or authorized for the Department of Land and Natural Resources from baseline amounts in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- (1) Changing all appropriation amounts to unspecified sums;
- (2) Designating the Department of Land and Natural Resources as the expending agency for line items in the appropriations table that did not have an expending agency indicated;
- (3) Clarifying that the appropriations made in the measure are for operating costs, as opposed to capital improvement project costs:
- (4) Adding a severability clause;
- (5) Adding a provision authorizing the Governor to correct manifest clerical, typographical, or other mechanical errors; and
- (6) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1490, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1490, S.D. 2.

Signed by the Chair on behalf of the Committee Ayes, 12. Noes, none. Excused, 1 (Fevella).

## SCRep. 1132 Ways and Means on S.B. No. 317

The purpose and intent of this measure is to appropriate funds to the University of Hawaii to support student mentors and tutors at community colleges.

Your Committee received written comments in support of this measure from the University of Hawaii and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee finds that peer mentoring and tutoring improves students' academic achievement and social development and provides student hires with important employment opportunities.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 317 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

#### SCRep. 1133 Ways and Means on S.B. No. 318

The purpose and intent of this measure is to appropriate funds for three full-time equivalent positions for custodial and maintenance staff at the University of Hawaii at Hilo.

Your Committee received written comments in support of this measure from the University of Hawaii System, Japanese Chamber of Commerce and Industry of Hawaii, and three individuals.

Your Committee finds that providing for additional custodial and maintenance staff will allow the University of Hawaii at Hilo to maintain and improve its campus facilities and grounds.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 318 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

#### SCRep. 1134 Ways and Means on S.B. No. 346

The purpose and intent of this measure is to restrict the planting and authorize the removal of large trees that threaten to obstruct evacuation routes in the State.

Specifically, this measure:

- (1) Requires that the Hawaii Emergency Management Agency identify key evacuation routes in the State;
- (2) Prohibits the planting of large trees along identified evacuation routes;
- (3) Requires that the Hawaii Emergency Management Agency identify existing large trees along evacuation routes and trim, spray, or remove any tree that potentially could obstruct the evacuation route; and
- (4) Appropriates funds to the Hawaii Emergency Management Agency to effectuate the purposes of this measure.

Your Committee received written comments in support of this measure from the Hawaii Emergency Management Agency and one individual.

Your Committee received written comments in opposition to this measure from Trees for Honolulu's Future.

Your Committee finds that this measure will ensure that evacuation routes will be free and clear of obstruction by large trees, enabling swift evacuation and emergency response in the event of a natural disaster.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 346, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Inouye).

## SCRep. 1135 Ways and Means on S.B. No. 379

The purpose and intent of this measure is to authorize the Governor to negotiate the exchange of state lands that are suitable for housing development for private lands that are suitable for long-term diversified agricultural production, and to report negotiated or potential land exchanges to the Legislature.

Your Committee received written comments in support of this measure from the Department of Agriculture, Agribusiness Development Corporation, and Hawaii Farm Bureau.

Your Committee received written comments in opposition to this measure from the Department of Land and Natural Resources.

Your Committee received written comments on this measure from the Office of Planning.

Your Committee finds that this measure provides opportunities to work with private land owners to negotiate mutually beneficial land exchanges and help the State reach its goals of food security and sustainability.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 379, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Taniguchi).

# SCRep. 1136 Ways and Means on S.B. No. 1296

The purpose and intent of this measure is to appropriate funds to restore and preserve the Kahoolawe Island Reserve and for two full-time equivalent positions on the Kahoolawe Island Reserve Commission.

Your Committee received written comments in support of this measure from the County of Maui, Kahoolawe Island Reserve Commission, Ocean Tourism Coalition, and numerous individuals.

Your Committee received written comments in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee finds that the funding and positions provided for in this measure are needed to effectively restore, preserve, and determine the appropriate uses for the Kahoolawe Island Reserve.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1296, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Inouye).

#### SCRep. 1137 Ways and Means on S.B. No. 1475

The purpose and intent of this measure is to require that the foreperson classification be recognized in Hawaii's version of the Davis-Bacon Act and requirements in a collective bargaining agreement be followed when a basic hourly rate is established by the agreement.

Your Committee received no written comments on this measure.

Your Committee finds that forepersons deserve wage protection and a level playing field when working on a public works project.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1475, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Taniguchi).

#### SCRep. 1138 Ways and Means on S.B. No. 502

The purpose and intent of this measure is to require the Legislative Reference Bureau to inform the Legislature on the status and subject matter of all reports required by law or requested by concurrent resolutions.

More specifically, this measure requires:

- (1) Certain legislative officers to notify the Legislative Reference Bureau of the officer's receipt of a required or requested report;
- (2) The Legislative Reference Bureau to create and distribute to the Legislature a spreadsheet containing information on the status and subject of all required or requested reports, and notify the Legislature of any required or requested reports that have not been timely submitted; and
- (3) Reporting agencies to include certain information in their respective reports.

No written comments were received on this measure.

Your Committee finds that due to the number of reports and studies that are required by law or requested by legislative concurrent resolution to be submitted to the Legislature each year, such a system would facilitate a better accounting of when the requested reports have been filed with the Legislature.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 502, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Taniguchi).

## SCRep. 1139 Ways and Means on S.B. No. 9

The purpose and intent of this measure is to allow landowners who participate in the section 8 housing voucher program to be reimbursed for tenant-caused property damage.

More specifically, this measure:

- (1) Requires the Hawaii Public Housing Authority to adopt rules to establish a program to reimburse landowners participating in the section 8 housing voucher program to be reimbursed for repair costs associated with tenant-caused damages in certain situations; and
- (2) Appropriates moneys to the Authority for the reimbursement program and to establish one full-time equivalent (1.0 FTE) position to assist and administer the reimbursement program.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority, Hawaii Association of REALTORS, and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee finds that providing incentives to property owners that participate in the section 8 housing voucher program will provide low-income families in the State with more opportunities to receive housing through the program.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 9, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

# SCRep. 1140 Ways and Means on S.B. No. 498

The purpose and intent of this measure is to require the inclusion of affordable housing in certain development or redevelopment plans for state transit-oriented development along the rail transit corridor in Honolulu.

Your Committee received written comments in support of this measure from the Office of Planning and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Land Use Research Foundation of Hawaii and one individual.

Your Committee finds that there is a pressing need for affordable housing units in the State. Your Committee believes that establishing an affordable housing component as part of development and redevelopment plans of state properties along Honolulu's upcoming rail transit line will increase the availability of affordable housing and also encourage the use of the new transit system.

Your Committee notes that the Office of Planning has requested an amendment to the measure that authorizes the Office to exempt state development or redevelopment plans from the measure's affordable housing requirements when the Office determines, in consultation with the Hawaii Housing Finance and Development Corporation, that housing at the required affordability level is not feasible or desirable on a particular property.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 498, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Inouye).

### SCRep. 1141 Ways and Means on S.B. No. 511

The purpose and intent of this measure is to appropriate or authorize funds for various operating expenses of the Department of Transportation Airports Division.

Your Committee received no written comments on this measure.

Your Committee finds that this measure adjusts the amounts appropriated or authorized for the Department of Transportation Airports Division from baseline amounts in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 511, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Taniguchi).

#### SCRep. 1142 Ways and Means on S.B. No. 512

The purpose and intent of this measure is to appropriate funds for the Harbors Division of the Department of Transportation.

Specifically, this measure:

- (1) Appropriates funds for the special maintenance program for the Hawaii harbors system (TRN301/CB); and
- (2) Reduces funding for the special maintenance program for harbors administration (TRN395/CB).

Your Committee received no written comments on this measure.

Your Committee finds that this measure will allow the Department of Transportation Harbors Division to increase the scope of work and the number of piers and wharves that can be maintained, repaired, replaced, or improved.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 512, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Taniguchi).

## SCRep. 1143 Ways and Means on S.B. No. 513

The purpose and intent of this measure is to appropriate funds for capital improvement projects for the harbors division of the Department of Transportation.

Your Committee received written comments on this measure from the Oahu Island Parks Conservancy.

Your Committee finds that the capital improvement projects included in this measure will help to make the operations of the State's vital seaports safer and more efficient.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 513, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Taniguchi).

# SCRep. 1144 (Joint) Judiciary and Ways and Means on S.B. No. 412

The purpose and intent of this measure is to:

- (1) Require that any person who is eligible to vote and applies for a new or renewal motor vehicle driver's license, provisional license, or instruction permit, or a new, renewal, or duplicate identification card be automatically registered to vote unless the applicant affirmatively declines to be registered to vote; and
- (2) Authorize access and electronic transmission of databases maintained or operated by the counties or the Department of Transportation containing driver's license or identification card information to election officials and the statewide voter registration system.

Your Committees received testimony in support of this measure from the Office of Elections; Department of Transportation; Hawai'i State Commission on the Status of Women; County Clerk of the County of Hawai'i; Hawaiian Community Assets; Americans for Democratic Action; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; YPDA Hawai'i; League of Women Voters of Hawaii; Hawaii Appleseed Center for Law and Economic Justice; Sierra Club of Hawai'i; Aloha State Association for the Deaf; American Civil Liberties Union of Hawai'i; Transform Hawai'i Government; AVR Hawaii; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Common Cause Hawaii; Young Progressives Demanding Action; and twenty-five individuals. Your Committees received testimony in opposition to this measure from the Honolulu County Republican Party and six individuals.

Your Committees find that voter registration is a prerequisite to voter participation. Your Committees further find that automatic voter registration eliminates unnecessary barriers to voting caused by the time and effort needed for other registration methods. Your Committees additionally find that Hawaii has had the lowest voter turnout in the United States for the last twenty years. This measure will automatically register to vote any qualifying person who applies for a driver license or state identification card and ensure the accuracy of the voter registration rolls by electronically transmitting voter registration data between the driver license and identification card database and the statewide voter registration system.

Your Committees have amended this measure by:

- Clarifying that databases maintained or operated by the counties or Department of Transportation that are directly accessible
  and provided electronically to election officials and the statewide voter registration system may also be used for voter
  registration and election purposes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 412, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 412, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 9. Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

## SCRep. 1145 Judiciary on S.B. No. 1124

The purpose and intent of this measure is to facilitate the treatment of individuals with mental health issues by:

- (1) Providing that any interested party may file a petition for involuntary hospitalization or assisted community treatment alleging that another person has a mental illness and qualifies for assistance;
- (2) Requiring the court to assess whether a person meets the criteria for assisted community treatment before discharging a person who has been involuntarily hospitalized;
- (3) Authorizing the court to order a person to obtain assisted community treatment as an alternative to involuntary hospitalization; and
- (4) Clarifying the criteria for assisted community treatment.

Your Committee received testimony in support of this measure from Catholic Charities Hawai'i, Partners in Care, Mental Health America of Hawaii, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Institute for Human Services, and two individuals. Your Committee received comments on this measure from the Department of Health, Department of the Attorney General, and Hawaii Disability Rights Center.

Your Committee finds that although the State's assisted community treatment law was enacted in 2013 to help individuals with serious mental illnesses obtain the treatment and medication they need, assisted community treatment plans are rarely used. Your Committee further finds that increased use of outpatient assisted community treatment will help persons with mental illnesses get much needed treatment and reduce the burden that the existing cycle of emergency care and hospitalization places on the State's courts and public mental health infrastructure.

Your Committee has amended this measure by:

- (1) Clarifying that facilities and caregivers who take responsibility for coordination, management, and supervision of a person's treatment must do so voluntarily;
- (2) Requiring all criteria for an assisted community treatment order to be established based on the professional opinion of a psychiatrist or advanced practice registered nurse with prescriptive authority and who holds an accredited national certification in an advanced practice registered nurse psychiatric specialization;
- (3) Specifying that a person's refusal or history of a lack of adherence to treatment which resulted in the person being dangerous to self or others is sufficient for the court to find dangerousness without a finding that the person is imminently dangerous;
- (4) Removing the requirement that the refusal or lack of adherence must have occurred on more than one occasion;
- (5) Changing the effective date to March 15, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1124, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1124, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1146 Judiciary on S.B. No. 645

The purpose and intent of this measure is to:

- (1) Require that the revocation of license period for operating a vehicle under the influence of an intoxicant be tolled for any period in which the person does not have an ignition interlock device installed on a vehicle owned or operated by the person;
- (2) Establish requirements for removal of a required ignition interlock device; and
- (3) Allow a defendant to enroll/participate in an alcohol or substance abuse education or treatment program, or a sobriety program prior to conviction, which may count toward satisfying any mandatory enrollment/participation later ordered by the court.

Your Committee received testimony in support of this measure from the Department of Transportation; Casanova Powell Consulting; National 24/7 Advisory Council; Foundation for Advancing Alcohol Responsibility; Traffic Injury Research Foundation; Smart Start, LLC; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Hawaii Strategic Highway Safety Plan; and one individual. Your Committee received testimony in opposition to this measure from SCRAM Systems.

Your Committee finds that ignition interlock systems are an effective way of preventing previous driving under the influence offenders from driving while drunk if the ignition interlock program is diligently adhered to. Your Committee further finds that allowing offenders to simply wait out the license revocation period is not consistent with the goals of the ignition interlock program. Your Committee additionally finds that a compliance-based removal system whereby offenders must prove compliance with ignition interlock program rules before their devices are removed is already the law in twenty-eight states. This measure will enhance the ignition interlock program by implementing best practices in the promotion of sober driving.

Your Committee has amended this measure by:

- Expanding the ignition interlock system to include other monitoring systems or technology that monitors a driver's alcohol
  concentration;
- (2) Authorizing the court to order that a person install an alternative monitoring system or technology that fulfills an equivalent function to an ignition interlock; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 645, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 645, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

# SCRep. 1147 (Joint) Judiciary and Ways and Means on S.B. No. 567

The purpose and intent of this measure is to:

- (1) Require an individual to be examined upon commitment to a psychiatric facility for involuntary hospitalization to determine whether an assisted community plan is indicated and, if so, requires the Department of the Attorney General to assist with the petition for assisted community treatment and related court proceeding; and
- (2) Require the Department of Health to convene a mental health emergencies task force.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii Disability Rights Center, Catholic Charities Hawaii, Partners in Care, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that following emergency care or hospitalization, many mentally ill patients are released with no plan in place for follow-up care or treatment. Your Committees further find that the assisted community treatment program exists to provide care for such individuals in the community, but that many mentally ill individuals do not participate in community treatment plans. Your Committees additionally find that many private sector providers, community organizers, and families do not have the resources to negotiate the complex proceedings necessary to petition the court for an assisted community plan order. This measure will require individuals to be examined prior to discharge from psychiatric facilities to determine whether an assisted community plan is indicated and require the Department of the Attorney General to assist with assisted community plan petitions.

Your Committees have amended this measure by:

- (1) Expanding the examination requirement to include persons admitted to voluntary inpatient treatment at a psychiatric facility and persons delivered for emergency examination and hospitalization;
- (2) Clarifying that a psychiatric facility is not required to delay discharge after an examination is completed;
- (3) Changing the effective date to March 15, 2094, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 567, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 567, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 9. Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

#### SCRep. 1148 (Joint) Judiciary and Ways and Means on S.B. No. 931

The purpose and intent of this measure is to:

- (1) Prohibit any person from possessing a fine-mesh net or fine-mesh trap on their person or within a vessel within state marine waters or on or about the shore where fish can be taken and impose a \$5,000 fine for violations;
- (2) Place a two-year moratorium on the commercial capture of aquatic life for aquarium purposes or under a commercial marine license through the use of fine-mesh nets or fine-mesh traps;
- (3) Require the Research Corporation of the University of Hawaii to evaluate the impacts of the Department of Land and Natural Resources' issuance of commercial aquarium permits on the island of Oahu and West Hawaii;
- (4) Require a cultural impact assessment in coordination with the Office of Hawaiian Affairs and Native Hawaiian cultural organizations;
- (5) Require the Department of Land and Natural Resources to establish a marine aquarium fishing advisory group; and
- (6) Make an appropriation.

Your Committees received testimony in support of this measure from One Ocean Conservation, Water Inspired Conservation Group, O'ahu County Commission on Legislative Priorities of the Democratic Party of Hawai'i, and four individuals. Your Committees received testimony in opposition to this measure from Coral Fish Hawaii; Hawaii Tropical Fish Association; Wayne's Ocean World, Inc.; Exotic Sealife International, Inc.; Hawaii Fishermen's Alliance for Conservation and Tradition, Inc.; Tropical Marine Centre; and thirty-three individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, University of Hawai'i System, Research Corporation of the University of Hawaii, and one individual.

Your Committees find that prohibiting the commercial capture of Hawaii's reef wildlife will uphold constitutionally protected traditional and cultural practices. Removal of fish and other aquatic life for commercial purposes is contrary to these cherished principles.

Accordingly, your Committees have amended this measure by:

- Deleting its substantive provisions and establishing a prohibition on harvesting aquatic life for commercial aquarium purposes by any means effective March 1, 2024, other than activities conducted pursuant to a special activities permit or aquaculturist license;
- (2) Deleting the savings clause;
- (3) Changing the effective date to March 15, 2094, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 931, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 931, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 9. Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

#### SCRep. 1149 (Joint) Judiciary and Ways and Means on S.B. No. 1529

The purpose and intent of this measure is to:

- (1) Establish the Hawaii State Energy Office;
- (2) Establish the Deputy Director of Energy;
- (3) Repeal the energy security special fund and end funding for the Hawaii clean energy initiative from the energy security special fund; and
- (4) Appropriate funds from the general fund for the Hawaii State Energy Office.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and one individual. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committees find that the development of clean, resilient, and sustainable energy is a priority of the State. Your Committees further find that numerous entities within state government already exist to facilitate this goal, but that they lack a coherent legal framework for coordination. This measure will enable these entities to pool their resources and focus their efforts toward furthering the State's goals of energy resiliency and self-sufficiency.

Your Committees have amended this measure by:

(1) Removing language that repealed the energy security special fund;

- (2) Increasing the amount of tax on each barrel of petroleum product that is deposited into the energy systems development special fund from ten to fifteen cents;
- (3) Repealing the distribution of tax revenues from each one million British thermal units that are deposited into the energy security special fund;
- (4) Increasing the distribution of tax revenues from each one million British thermal units that are deposited into the energy systems development special fund from 9.5 to 14.3 percent; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1529, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1529, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 9. Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

## SCRep. 1150 (Joint) Ways and Means and Commerce, Consumer Protection, and Health on S.B. No. 553

The purpose and intent of this measure is to establish the broadband infrastructure grant program to provide grants for the purpose of subsidizing the costs of installing broadband infrastructure in locations that lack high speed internet access.

Your Committees received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Aloha Broadband; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Oahu County Democrats; and one individual.

Your Committees received written comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committees find that certain rural areas of the State lack broadband service due, in part, to the excessively high cost to install infrastructure to serve a small number of subscribers. This measure will help to reduce infrastructure installation costs for those communities so they may benefit from the opportunities afforded by high-speed internet access.

Your Committees note that the broadband infrastructure grant program will require an appropriation of \$5,000,000 for fiscal year 2019-2020.

Your Committees have amended this measure by:

- (1) Changing the definitions of "broadband service" and "broadband infrastructure" to reference section 440J-1, Hawaii Revised Statutes:
- (2) Changing the definition of "underserved area" to require minimum speeds in proportion to the minimum broadband service speeds established by the Federal Communications Commission;
- (3) Deleting a duplicative provision authorizing a non-government infrastructure provider to be considered an eligible applicant;
- (4) Including a requirement that applicants to the broadband infrastructure grant program commit to complying with net neutrality principles;
- (5) Clarifying, with respect to a written challenge to an application, that the federal or state funding refers to the funds that are available to the applicant;
- (6) Clarifying the criteria of the scoring system used by the Department of Business, Economic Development, and Tourism to award the grants;
- (7) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (8) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 553, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 553, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ruderman).

## SCRep. 1151 (Joint) Ways and Means and Commerce, Consumer Protection, and Health on S.B. No. 364

The purpose and intent of this measure is to establish the professional tour guide certification task force within the Office of the Lieutenant Governor.

Your Committees received written comments in support of this measure from the Department of Land and Natural Resources, Hawaii Tourism Authority, and three individuals.

Your Committees received written comments on this measure from the University of Hawaii.

Your Committees find that, because tour guide certification could help to increase tourism in the State, a professional tour guide certification task force is appropriate to examine the issue of tour guide certification. Your Committees further find that the Department of Business, Economic Development, and Tourism is the appropriate entity in which to place the task force.

Your Committees have amended this measure by:

- (1) Providing that the Department of Business, Economic Development, and Tourism, rather than the Office of the Lieutenant Governor, shall be the agency in which the professional tour guide certification task force is placed and the expending agency for the appropriation;
- (2) Changing the membership of the task force;
- (3) Changing the head of the task force from a chairperson to two co-chairs;
- (4) Changing the preliminary report deadline from October 31, 2020, to November 30, 2019;
- (5) Changing the final report deadline from twenty days prior to the Regular Session of 2021, to twenty days prior to the Regular Session of 2020;
- (6) Deleting the appropriation for fiscal year 2020-2021; and
- (7) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 364, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 364, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Chang, Ruderman).

#### SCRep. 1152 (Joint) Ways and Means and Judiciary on S.B. No. 1310

The purpose and intent of this measure is to establish the individual housing accounts savings board in the Department of Budget and Finance to administer the individual housing accounts savings program.

This measure also:

- (1) Authorizes any taxpayer to establish an individual housing account in the name of a dependent of the taxpayer upon the birth of the dependent;
- (2) Expands the qualifying purposes for which an individual housing accounts tax deduction may be claimed;
- (3) Appropriates general funds for deposit into the individual housing accounts savings program administrative fund; and
- (4) Appropriates funds from the individual housing accounts savings program administrative fund for administrative and operating expenses of the individual housing accounts savings board.

Your Committees received written comments in support of this measure from Hawaiian Community Assets and the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committees received written comments on this measure from the Department of Taxation, Department of Budget and Finance, and Tax Foundation of Hawaii.

Your Committees find that the combination of a publicly-created individual housing accounts savings program and expanded uses of the individual housing accounts tax deduction will promote home ownership in the State.

Your Committees note that the Department of Taxation has requested that the measure apply to taxable years beginning after December 31, 2020. Your Committees also note that the Department of Budget and Finance recommended that the Legislature have the Legislative Reference Bureau conduct a thorough analysis of the individual housing accounts savings program proposed under this measure so that the Legislature may fully understand the costs, benefits, and feasibility of implementing a savings program for which it may be difficult to enroll enough participants to achieve an economy of scale.

Your Committees have amended this measure by:

- (1) Consolidating the new provision authorizing a taxpayer to establish an individual housing account in the names of dependents into the existing statutory provisions relating to a tax deduction for contributions to an individual housing account;
- (2) Authorizing the Department of Taxation to adopt rules to implement the program, including defining certain terms;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1310, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1310, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 9; Ayes with Reservations (Harimoto). Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

Judiciary: Ayes, 5. Noes, none. Excused, none.

### SCRep. 1153 Ways and Means on S.B. No. 560

The purpose and intent of this measure is to make updates to the elections process.

Specifically, this measure:

- (1) Requires, beginning with the 2022 primary election, that all elections to be conducted by mail, with some accommodations;
- (2) Authorizes the electric transmission of ballots to and from voters in certain circumstances;
- (3) Requires the establishment of voter service centers to receive the personal delivery of election ballots and provide other voting services;
- (4) Establishes that when a tie occurs for a contested office, the result shall be determined by the drawing of lots;
- (5) Makes appropriations for costs relating to conducting elections by mail; and
- (6) Requires the Office of Elections to submit reports to the Legislature prior to the convening of each Regular Session from 2020 through 2025 regarding the Office's implementation of this measure.

Your Committee received written comments in support of this measure from the Office of Elections; Disability and Communication Access Board; Office of the County Clerk, County of Hawaii; Office of the County Clerk, County of Maui; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Hawaii Appleseed Center for Law & Economic Justice; League of Women Voters of Hawaii; Planned Parenthood Votes Northwest and Hawaii; and three individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that an increasing number of voters in the State are choosing to submit their votes by mail or vote early. Accordingly, your Committee believes that it is appropriate for the State to transition to a system that primarily utilizes voting by mail, which will reduce the cost of conducting elections while also increasing the efficiency and accuracy of vote tabulation.

Your Committee has amended this measure by:

- (1) Correcting a reference to Act 182, Session Laws of 2018;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 560, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 560, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, 1 (Fevella).

## SCRep. 1154 Ways and Means on S.B. No. 592

The purpose and intent of this measure is to tie the State Librarian's salary to an amount equal to ninety percent of the Superintendent of Education's salary.

Your Committee received written comments in support of this measure from the Board of Education.

Your Committee finds that the statutory limit on the State Librarian's salary has not been increased since 2001. Tying the State Librarian's salary to a percentage of the Superintendent of Education's salary will obviate the need to periodically amend the law due to changing economic circumstances.

Your Committee has amended this measure by:

- (1) Changing the text of section 312-2.1(b), Hawaii Revised Statutes, to correspond to the printed version of the Hawaii Revised Statutes;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 592, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 592, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 12. Noes, none. Excused, 1 (Kahele).

## SCRep. 1155 Ways and Means on S.B. No. 609

The purpose and intent of this measure is to enhance the security and resiliency of the State's critical infrastructure.

Specifically, this measure:

- (1) Creates a Homeland Security Resiliency Council to identify electric grid and other critical infrastructure needs;
- (2) Requires the Council to provide recommendations to enhance the grid and critical infrastructure resiliency of the State; and
- (3) Appropriates funds to support the Council.

Your Committee received written comments in support of this measure from the Board of Water Supply; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Land Use Research Foundation of Hawaii; and Hawaiian Electric Company, Inc.

Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Office of Planning; Office of Information Practices; and one individual.

Your Committee finds that the importance of infrastructure resilience continues to grow as the frequency and intensity of natural disasters facing the State rises due to the impacts of climate change.

Your Committee has amended this measure by:

- (1) Clarifying that the Homeland Security and Resiliency Council shall take appropriate measures to protect from public release any information that may be withheld from the public under the Uniform Information Practices Act, including information that, if released, could reasonably be expected to cause damage to public security;
- (2) Clarifying that the administrative head of each county's:
  - (A) Emergency management agency;
  - (B) Water supply department or board; and
  - (C) Agency with responsibility over environmental services or environmental management,

shall serve on the Council; and

(3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 609, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 609, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Inouye, Kidani).

#### SCRep. 1156 Ways and Means on S.B. No. 893

The purpose and intent of this measure is to require the counties to accept certain recyclable bottles that are accompanied by or adjoined to non-recyclable bottle caps.

More specifically, this measure:

- (1) Prohibits the counties from rejecting number 1 and 2 bottles presented for recycling solely because the bottles are accompanied by or adjoined to bottle caps made of materials that are not recycled by the respective county;
- (2) Requires the counties to separate the subject bottle caps from the recyclable bottles and dispose of the bottle caps;
- (3) Requires the counties to include polypropylene plastic and containers manufactured from polypropylene plastic in their respective feasibility assessments; and
- (4) Appropriates moneys to the respective counties to implement the measure.

Your Committee received written comments in opposition to this measure from Reynolds Recycling and one individual.

Your Committee notes that collectively, the counties will require \$200,000 for each fiscal year of fiscal biennium 2019-2021. However, your Committee also notes that the allocation amounts per county have not been determined.

Your Committee has amended this measure by:

- (1) Clarifying that each county shall receive an unspecified amount of the appropriation;
- (2) Changing the appropriation from \$200,000 to an unspecified amount;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 893, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 893, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Inouye).

### SCRep. 1157 Ways and Means on S.B. No. 908

The purpose and intent of this measure is to establish a statewide sustainability division within the Office of Planning to ensure long-term planning, coordination, and implementation of Hawaii's sustainability goals and policies.

This measure also appropriates funds for establishing the division and its staffing positions.

Your Committee received written comments in support of this measure from the State Land Use Commission, Office of Planning, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Organizing for Action, Hawaii Farm Bureau, Ulupono Initiative, and one individual.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that the State lacks a permanent governmental sustainability coordinating entity to assist with implementing the Hawaii 2050 Sustainability Plan and the State's numerous sustainability goals and policies. This measure establishes the requisite statutory framework to serve as the foundation for the State's sustainability policies, guidelines, and principles.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified amounts; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 908, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 908, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

## SCRep. 1158 Ways and Means on S.B. No. 934

The purpose and intent of this measure is to prohibit any waste or disposal facility from being located in a conservation district.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, Department of Environmental Services of the City and County of Honolulu, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual.

Your Committee finds that the State's conservation districts are intended to conserve, protect, and preserve naturally and culturally significant lands, and the uses of lands in those districts must be subject to careful scrutiny.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 934, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 934, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

## SCRep. 1159 Ways and Means on S.B. No. 1050

The purpose and intent of this measure is to establish and appropriate moneys for a task force to examine whether it is feasible for the State to establish and operate a housing loan program for state employees that is similar to the United States Department of Veterans Affairs' home loan program.

Your Committee received written comments in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that lower- and moderate-income residents are often unable to obtain affordable housing and thus are most affected by the State's housing shortage. Your Committee also finds that many available positions with state government agencies remain vacant, due to the State's high cost of living and competition for labor from the private sector. Accordingly, your Committee believes that it may be beneficial for a task force to explore the feasibility of addressing these issues through the State's establishment of a home loan program for state employees that is similar to the United States Department of Veterans Affairs' home loan program for veterans.

Your Committee has amended this measure by:

- (1) Correcting a reference to the name of the Hawaii Housing Finance and Development Corporation;
- (2) Specifying that the Executive Director of the Hawaii Housing Finance and Development Corporation, or the Executive Director's designee, shall serve as the Chair of the task force;
- (3) Clarifying that a representative of the Hawaii Government Employees Association shall be invited to participate in the task force;
- (4) Inserting language to specify that the members of the task force shall serve without compensation from the State for their participation in the task force, but shall be reimbursed for expenses necessary for the performance of their duties;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1050, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1050, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Inouye).

#### SCRep. 1160 Ways and Means on S.B. No. 1054

The purpose and intent of this measure is to encourage prudent pre-disaster planning in the State.

Specifically, this measure requires:

- The State and counties to incorporate predictions of sea level rise and other climate change hazards and mitigation opportunities into applicable plans, strategies, and mapping;
- (2) The Public Utilities Commission to consider the findings of the Hawaii Sea Level Rise Vulnerability and Adaptation Report by the Hawaii Climate Change Mitigation and Adaptation Commission and seek to avoid critical electrical infrastructure projects in areas of higher risk;
- (3) All floodplain mapping supported by state or county funding to include information from the Hawaii Sea Level Rise Vulnerability and Adaptation Report; and
- (4) Each county to participate in the National Flood Insurance Program's community rating system.

Your Committee received written comments in support of this measure from one individual.

Your Committee received written comments on this measure from the Department of Land and Natural Resources, Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, and Office of Planning.

Your Committee finds that incorporating predictions of sea level rise and other climate change hazards in the State's planning and decision-making processes will result in the State being better prepared for future weather-related events.

Your Committee has amended this measure by:

- (1) Requiring the Public Utilities Commission to seek to avoid all critical infrastructure projects in areas of higher risk, rather than just critical electrical infrastructure projects;
- (2) Requiring any public utility regulated by the Public Utilities Commission to incorporate the findings of the Hawaii Sea Level Rise Vulnerability and Adaptation Report into the utility's capital investment planning processes in any relevant applications and regular reports that may be filed with the Public Utilities Commission;
- (3) Removing a requirement that all floodplain mapping supported by state or county funding include information from the Hawaii Sea Level Rise Vulnerability and Adaptation Report;
- (4) Encouraging, rather than requiring, the counties to participate in the National Flood Insurance Program's community rating system;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making a technical nonsubstantive change for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1054, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1054, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Inouye).

# SCRep. 1161 Ways and Means on S.B. No. 1230

The purpose and intent of this measure is to authorize the Office of Youth Services to establish commercial enterprise vocational programs for young adults.

Your Committee received written comments in support of this measure from the Department of Human Services and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee finds that requiring young adults to possess a high school diploma or its equivalent as a prerequisite to participating in the commercial enterprise vocational programs of the Office of Youth Services may be too restrictive and create unnecessary barriers to promoting the self-sufficiency of the persons those programs are meant to assist.

Your Committee has amended this measure by:

- (1) Deleting the requirement that young adults participating in commercial enterprise vocational programs possess a high school diploma or equivalent;
- (2) Changing the appropriations from unspecified amounts to \$50,000;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1230, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1230, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

#### SCRep. 1162 Ways and Means on S.B. No. 1276

The purpose and intent of this measure is to increase the Department of Transportation's authority over the motor carrier vehicle safety inspection program.

Specifically, this measure requires the Director of Transportation to adopt administrative rules for the administration and enforcement of motor carrier vehicle safety inspections, including setting the fees charged for inspections.

Your Committee received written comments in support of this measure from the Department of Transportation.

Your Committee finds that the Department of Transportation recognizes a need to upgrade the motor carrier vehicle safety inspections program from the current paper-based system to an electronic system. Your Committee also finds that subjecting the administration and enforcement of the program to the administrative rulemaking process will assist the department in modernizing its operations.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1276, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1276, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

## SCRep. 1163 Ways and Means on S.B. No. 1286

The purpose and intent of this measure is to establish that the district courts shall have original jurisdiction in civil suits for specific performance when the fair market value of the specific performance does not exceed \$40,000.

Your Committee received written comments in support of this measure from the Judiciary and the Collection Section of the Hawaii State Bar Association

Your Committee finds that although the jurisdictional limits for many actions in the district courts have increased over time, the jurisdictional limits for cases involving specific performance have not. Your Committee therefore believes that it is appropriate to resolve this inconsistency and increase the limit for actions for specific performance.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1286, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1286, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

### SCRep. 1164 Ways and Means on S.B. No. 1293

The purpose and intent of this measure is to grant the Governor emergency powers to suspend laws that would interfere with the operation of a mutual assistance agreement between a public utility and an out-of-state utility during an emergency or natural disaster.

Your Committee received written comments in support of this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Hawaii Gas; and Hawaiian Electric Company, Inc.

Your Committee finds that lending mutual assistance during emergencies or natural disasters is a common practice among utilities across the United States and its territories.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1293, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1293, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

# SCRep. 1165 Ways and Means on S.B. No. 1380

The purpose and intent of this measure is to establish a stronger policy framework for the State's sustainability efforts.

More specifically, this measure:

- (1) Assigns responsibility for sustainability coordination and planning to the Office of Planning;
- (2) Repeals the requirement that the Auditor, with assistance from the Office of Planning, update the Hawaii 2050 Sustainability Plan every ten years; and
- (3) Requires the Office of Planning to update the Hawaii 2050 Sustainability Plan by 2021 and every ten years thereafter.

Your Committee received written comments in support of this measure from the Office of Planning, Office of the Auditor, Maui Chamber of Commerce, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Organizing for Action, Ulupono Initiative, and Hawaii Farm Bureau.

Your Committee finds that the Office of Planning is the appropriate office to manage the State's sustainability efforts, given that office's substantive knowledge of state policies, strategies, and priorities on sustainability and climate change.

Your Committee has amended this measure by:

- (1) Amending section 3 of the measure to comport with standard drafting conventions;
- (2) Deleting unnecessary provisions on page 4, lines 6-8; and page 5, lines 7-9;
- (3) Changing the appropriation of \$500,000 in fiscal years 2019-2020 and 2020-2021 to unspecified amounts; and
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1380, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1380, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

### SCRep. 1166 Ways and Means on S.B. No. 1403

The purpose and intent of this measure is to provide greater protection to the Maui Molokini shoal marine life conservation district.

Specifically, this measure provides that a total of:

- (1) Forty permits shall be issued for the district; and
- (2) Twenty permit holders shall be granted access into the crater in the district at any one time.

Your Committee received written comments in support of this measure from the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Ocean Tourism Coalition, Calypso Charters, Trilogy Corporation, and one individual.

Your Committee received written comments in opposition to this measure from the Department of Land and Natural Resources and The Nature Conservancy.

Your Committee received written comments on this measure from the Department of the Attorney General.

Your Committee finds that certain marine life conservation districts are worthy of special treatment due to their environmental and scenic importance and their ability to conserve and replenish marine reserves.

Your Committee has amended this measure by:

- (1) Applying the measure to any marine life conservation district not accessible by land instead of just the Maui Molokini shoal marine life conservation district alone;
- (2) Limiting the number of access permits to a relevant district to no more than forty;
- (3) Limiting access to a relevant district at any one time to no more than fifty percent of the current number of permit holders; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1403, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1403, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

### SCRep. 1167 Ways and Means on S.B. No. 1542

The purpose and intent of this measure is to authorize the Director of Finance to issue general obligation bonds and to appropriate the proceeds thereof to fund the design and construction of an exploratory well for the proposed Kunia Wells IV pump station.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Agribusiness Development Corporation, City and County of Honolulu Board of Water Supply, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Local Food Coalition, Land Use Research Foundation of Hawaii, Lokoea Farms, Maui Farmers Union United, Hawaii Farm Bureau, Hawaii Crop Improvement Association, Hawaii Farmers Union, Hawaii Cattlemen's Council, and eleven individuals.

Your Committee finds that this measure will assist the City and County of Honolulu Board of Water Supply in locating and developing new water sources to meet the irrigation needs of the agricultural industry in Kunia.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1542, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1542, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Shimabukuro, Fevella).

## SCRep. 1168 Ways and Means on S.B. No. 661

The purpose and intent of this measure is to promote the use of fuel cell electric vehicles within the State.

Specifically, the measure:

- (1) Establishes procurement priority for fuel cell electric vehicles for state and county vehicle purchases; and
- (2) Includes fuel cell electric vehicles among the electric vehicles:
  - (A) For which the Department of Transportation may adopt rules relating to vehicle registration and special license plates;
  - (B) That are exempt from high occupancy vehicle lane restrictions and certain parking fees.

Your Committee received written comments in support of this measure from the Ulupono Initiative; Alliance of Automobile Manufacturers; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Servco Pacific, Inc.; and one individual.

Your Committee believes that this measure will encourage the increased use of fuel cell electric vehicles and thus reduce carbon emissions, significantly improve transportation efficiency, and enhance the quality of life in the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 661, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Harimoto, Kahele, Shimabukuro, Taniguchi).

### SCRep. 1169 Ways and Means on S.B. No. 1134

The purpose and intent of this measure is to make an appropriation to create a community-based long-range plan for Heeia State Park and to plan and construct an education center for the Heeia National Estuarine Research Reserve System.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources Aha Moku Advisory Committee, Nature Conservancy, Heeia National Estuarine Research Reserve, Koolaupoko Hawaiian Civic Club, Koolau Foundation, and Kahuluu Neighborhood Board #29.

Your Committee received written comments on this measure from the Department of Land and Natural Resources, Kamaaina Kids, and one individual.

Your Committee finds that the proposed community-based long-range plan and education center would contribute to greater community engagement at Heeia State Park and increase local and national support for the region's research, education, and restoration efforts.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1134, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (English, Taniguchi).

## SCRep. 1170 Ways and Means on S.B. No. 303

The purpose and intent of this measure is to facilitate the establishment of gardens on certain property controlled by the State.

Specifically, the measure:

- Authorizes the Department of Education to develop programs that provide incentives for the development of gardens on school property; and
- (2) Authorizes the Hawaii Community Development Authority to develop programs that provide incentives for the development of gardens in housing projects, communities, and schools.

Your Committee received written comments in support of this measure from the University of Hawaii, Department of Health, Hawaii County Council, Hawaii State Teachers Association, and two individuals.

Your Committee received written comments on this measure from the Department of Education and Hawaii Farm to School Hui.

Your Committee finds that school and community gardens can strengthen partnerships between state agencies, improve access to healthy food options, increase consumption of healthy fruits and vegetables, and reinforce behaviors that reduce the risk of chronic diseases.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 303 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Kahele).

## SCRep. 1171 Ways and Means on S.B. No. 1498

The purpose and intent of this measure is to refine the process of selecting arbitrators for collective bargaining in the public sector.

Specifically, the measure requires the Hawaii Labor Relations Board to:

- Distinguish among mediators, grievance arbitrators, and interest arbitrators, or combinations thereof, when producing lists of qualified persons;
- (2) Request from the American Arbitration Association that its list of five arbitrators from which parties will choose the neutral member of an arbitration panel comprise experienced interest arbitrators; and
- (3) Review and determine the qualifications and criteria of the five persons whose names are on the list furnished by the American Arbitration Association.

Your Committee received written comments in support of this measure from the Hawaii Government Employees Association and Hawaii Fire Fighters Association, Local 1463.

Your Committee received written comments on this measure from the Hawaii Labor Relations Board.

Your Committee finds that due to the fundamental difference between resolving contractual disputes, which are handled by grievance arbitrators, and determining the provisions of contracts, which are handled by interest arbitrators, it is not only appropriate to statutorily segregate the two, but it is necessary to require the Hawaii Labor Relations Board to determine the qualifications of each.

Your Committee notes that the Hawaii Labor Relations Board requests that the measure be amended to either:

- (1) Provide an appropriation for one researcher position with a salary range of \$45,000 to \$60,000 for the review and determination of nominee qualifications as required under this measure; or
- (2) Amend the statutes to remove the American Arbitration Association from its role in the arbitration process and require the Hawaii Labor Relations Board to choose the neutral arbitrator on an arbitration panel from the list of qualified persons that the Board produces.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1498, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Taniguchi).

## SCRep. 1172 Ways and Means on S.B. No. 1512

The purpose and intent of this measure is to require the University of Hawaii, West Oahu, to offer a baccalaureate program in creative media.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Waianae High School; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; and four individuals.

Your Committee finds that the establishment of a baccalaureate program in creative media at the University of Hawaii, West Oahu, will enhance the position of the campus as the designated hub for creative media education in the University of Hawaii system and raise the job qualifications of the program's graduates.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1512, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

# SCRep. 1173 Ways and Means on S.B. No. 97

The purpose and intent of this measure is to facilitate the administration of elections.

Specifically, this measure:

(1) Establishes that databases containing driver's license and civil identification card information shall be electronically accessible by election officials and the statewide voter registration system for any election purpose;

- (2) Requires the Office of Elections to join the Electronic Registration Information Center; and
- (3) Requires the Office of Elections and the counties to verify their respective voter registration rolls.

Your Committee received written comments in support of this measure from the Office of Elections, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, League of Women Voters of Hawaii, and two individuals.

Your Committee finds that ensuring the accuracy and integrity of voter registration rolls is a vital component of the elections process.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 97, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 97, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

## SCRep. 1174 Ways and Means on S.B. No. 276

The purpose and intent of this measure is to appropriate an unspecified amount of funds to the Department of Public Safety.

No written comments were received on this measure.

Your Committee finds that the renovations of the Women's Community Correctional Center Hookipa Makai Cottage are expected to be completed in January 2021. Authorizing the staff positions for the cottage without funding for the 2019-2020 fiscal year will assist in the process to recruit individuals to fill those positions for the 2020-2021 fiscal year.

Your Committee further finds that delays in the repair of a housing module at Halawa Correctional Facility require that the two-hundred forty-eight inmates who were previously relocated to the Saguaro Correctional Center in Arizona so those repairs could be made must remain in Saguaro for six additional months because the project is taking more time than was anticipated. Accordingly, additional funds are required to finance those housing costs and to fund costs to return the inmates to Hawaii.

Your Committee has amended this measure by deleting its contents and inserting provisions that:

- (1) Authorize twenty-three full-time equivalent (23.00 FTE) permanent staff positions for the Women's Community Correctional Center Hookipa Makai Cottage;
- (2) Appropriate funds for fiscal year 2020-2021 for the twenty-three full time equivalent staff positions for the Women's Community Correctional Center Hookipa Makai Cottage; and
- (3) Appropriate funds for housing costs of two hundred forty-eight inmates at Saguaro Correctional Center in Arizona and for costs to return the inmates to Hawaii.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 276, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 276, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

## SCRep. 1175 Ways and Means on S.B. No. 315

The purpose and intent of this measure is to appropriate funds to the University of Hawaii in order to increase the graduate assistant stipend.

Your Committee received written comments in support of this measure from the University of Hawaii and one individual.

Your Committee finds that increased stipend levels will facilitate the recruitment and retention of top candidates for graduate assistant positions at the university.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified amounts; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 315, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 315, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

## SCRep. 1176 Ways and Means on S.B. No. 366

The purpose and intent of this measure is to plan for and mitigate the impacts of Alzheimer's disease.

Specifically, the measure appropriates moneys to the Executive Office on Aging to fund:

- (1) The position of Alzheimer's disease and related dementia services coordinator; and
- (2) An update to the Alzheimer's disease and related dementias state plan and strategies for service coordination.

Your Committee received written comments in support of this measure from the University of Hawaii, Maui County Office on Aging, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual.

Your Committee received written comments on this measure from the Executive Office on Aging and one individual.

Your Committee finds that this measure will provide sustained coordination and meet the long-term goals of the Alzheimer's and related dementias state plan by funding a dedicated staff position within the Executive Office on Aging and allowing the office to obtain third-party assistance to update the Alzheimer's and related dementias state plan.

Your Committee has amended this measure by:

- (1) Specifying that funds shall be appropriated to the Department of Health for one full-time equivalent (1.0 FTE) program specialist IV position in the Executive Office on Aging to coordinate Alzheimer's disease and related dementia services in the State, including updating the state plan on Alzheimer's disease and related dementias;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 366, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 366, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Riviere).

## SCRep. 1177 Ways and Means on S.B. No. 382

The purpose and intent of this measure is to adjust the formula for the transient accommodations tax imposed on time share units.

Specifically, the measure increases the fair market rental value base upon which a time share unit is taxed to an unspecified percentage of the gross daily maintenance fees paid by the unit owner and attributable to the unit.

Your Committee received written comments in opposition to this measure from American Resort Development Association--Hawaii and the Kohala Coast Resort Association.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the formula for imposing the transient accommodations tax on time share units has not been updated since 1998, when the State began imposing the tax on those units. Your Committee believes that it is reasonable to update the formula to better reflect changes in the economy and the industry that have occurred since then, as this measure proposes.

Your Committee has amended this measure by:

- (1) Establishing that the base upon which a time share unit is taxed shall be equal to the gross daily maintenance fees that are paid by the unit owner and are attributable to the unit; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 382, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 382, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 8; Ayes with Reservations (Inouye, Kanuha, Fevella). Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

## SCRep. 1178 Ways and Means on S.B. No. 393

The purpose and intent of this measure is to ensure that coastal zone management and planning acknowledge and mitigate the effects of sea level rise.

Specifically, the measure:

- (1) Amends coastal zone management laws to further protect against the impacts of sea level rise and coastal erosion;
- (2) Requires new developments to plan for the impacts of projected sea level rise; and
- (3) Prohibits development in areas significantly affected by projected sea level rise.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; Aha Moku Advisory Committee; IMUAlliance; Sierra Club of Hawaii; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; and one individual.

Your Committee received written comments in opposition to this measure from the Hawaiian Electric Company, Inc.

Your Committee received written comments on this measure from the Office of Planning and one individual.

Your Committee finds that this measure improves the State's coastal zone management laws in anticipation of sea level rise, a matter of significant public concern.

Your Committee has amended this measure by:

- (1) Deleting a provision that reduced the cost threshold for special management area use permits and special management area minor permits;
- (2) Deleting from the special management area use permit procedure a provision exempting any permits for uses within the state conservation district;
- (3) Deleting the word "temporary" from a reference to protected legal structures for which a public hearing regarding a variance application may be waived;
- (4) Including facilities owned by a public utility regulated pursuant to chapter 269, Hawaii Revised Statutes, as protected legal structures for which a public hearing regarding a variance may be waived;
- (5) Restoring county authority to grant discretionary variances for private facilities or improvements within the shoreline area, while also restricting new shoreline hardening structures;
- (6) Adding a definition for the term "coastal hazards" to chapter 205A, Hawaii Revised Statutes, and making conforming amendments to statutes using this term;
- (7) Changing the term "replacement" to "restoration" in reference to coastal resources;
- (8) Changing the term "civil defense" to "emergency management";
- (9) Prohibiting the construction of private, and minimizing the construction of public, shoreline hardening structures at sites with sand beaches and at sites where shoreline hardening structures interfere with existing recreational and waterline activities;
- (10) Specifying that the "beach protection" objective of the coastal zone management program includes avoiding grading of and damage to coastal dunes;
- (11) Restoring as part of the "beach protection" objectives of the coastal zone management program certain prohibitions against private property owners creating public nuisances involving vegetation;
- (12) Requiring that construction or reconstruction of a single-family residence must not be situated on a parcel impacted by waves, storm surges, high tide, or shoreline erosion, in order to be exempt from the definition of "development" in the State's coastal zone management plan;
- (13) Deleting a provision that amended section 205A-44(a), Hawaii Revised Statutes, which would have deleted the prohibition exception for the inadvertent taking of sand or other marine deposits from a shoreline area;
- (14) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (15) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 393, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 393, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (English, Harimoto, Kahele, Shimabukuro, Taniguchi).

## SCRep. 1179 Ways and Means on S.B. No. 471

The purpose and intent of this measure is to reduce homelessness in Hawaii.

Specifically, this measure:

- (1) Appropriates moneys to the Department of Human Services to fund outreach, housing, family assessment, and other homeless services and initiatives;
- (2) Appropriates moneys to the Department of Health for the Law Enforcement Assisted Diversion program; and
- (3) Requires the Department of Health to establish a long-term rental assistance pilot program and appropriates moneys to fund the program.

Your Committee received written comments in support of this measure from the Department of Human Services; Governor's Coordinator on Homelessness; County of Hawaii Mayor's Office; County of Hawaii Office of the Prosecuting Attorney; Hawaii County Council; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Hawaii Youth Services Network; Hawaii Island HIV/AIDS Foundation; Hawaii Health and Harm Reduction Center; Habitat for Humanity Hawaii Island, Inc.; Catholic Charities Hawaii; ALEA Bridge; Partners in Care; HOPE Services Hawaii; Hawaii Kai Homeless Task Force; Big Island Substance Abuse Council; and seven individuals.

Your Committee received written comments in opposition to this measure from the Department of Health.

Your Committee finds that this measure will provide necessary funding to continue various programs that have shown promising results in addressing the complex problem of homelessness in Hawaii. Your Committee further finds that establishing a long-term rental assistance pilot program will assist elders who are homeless or at imminent risk of becoming homeless, so that they may find and retain permanent housing.

Your Committee has amended this measure by:

- (1) Changing the appropriations to the Department of Human Services and the Department of Health, respectively, to unspecified
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 471, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 471, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1180 Ways and Means on S.B. No. 495

The purpose and intent of this measure is to establish a presumption relating to the liability for state income taxation of certain businesses located outside of the State.

Specifically, this measure establishes a statutory presumption that a person who lacks physical presence in the State systematically and regularly engages in business in the State and is therefore liable for state income tax if, during a calendar year:

- (1) The person engages in two hundred or more business transactions with persons within the State; or
- (2) The sum of the value of the person's gross income attributable to sources in the State equals or exceeds \$100,000, or for a person that does business within and without the State, the numerator of the person's sales factor for the State equals or exceeds \$100,000.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that this measure is intended to establish the State's authority to collect income taxes from out-of-state businesses when they conduct transactions with persons located in Hawaii.

Your Committee notes that, in its written comments, the Tax Foundation of Hawaii suggested that:

- (1) Chapter 231, Hawaii Revised Statutes, be amended to apply the nexus presumptions broadly so qualifying out-of-state businesses are subject to liability for more applicable state taxes; and
- (2) The provision that calculates a person's sales factor as a basis for determining tax liability be deleted.

Your Committee has amended this measure by changing its effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 495, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 495, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Harimoto, Riviere).

## SCRep. 1181 Ways and Means on S.B. No. 517

The purpose and intent of this measure is to require each county to prepare a housing supply plan regarding projected increases in the housing supply to meet housing demands in the State among persons of all income levels.

Your Committee received written comments in support of this measure from the Chamber of Commerce of Hawaii and Building Industry Association of Hawaii.

Your Committee received written comments in opposition to this measure from the Department of Planning and Permitting of the City and County of Honolulu.

Your Committee recognizes that there is a shortage of housing in Hawaii that is affordable to lower-income individuals and families. Your Committee therefore believes that it is appropriate for the counties to take proactive measures to plan to increase the housing supply.

Your Committee has amended this measure by:

- (1) Authorizing instead of requiring each county to include the county's housing supply plan in its general plan;
- (2) Inserting appropriations of unspecified amounts for fiscal years 2019-2020 and 2020-2021 to each county for the preparation and execution of its housing supply plan;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 517, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 517, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 13; Ayes with Reservations (Harimoto). Noes, none. Excused, none.

### SCRep. 1182 Ways and Means on S.B. No. 519

The purpose and intent of this measure is to assist small- to medium-sized farms to obtain federal Department of Agriculture Good Agricultural Practices certification, or an equivalent, by establishing a food safety certification training program in the State, and appropriating funds for this purpose.

Your Committee received written comments in support of this measure from the Department of Agriculture, University of Hawaii, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaii Food Industry Association, North Shore Economic Vitality Partnership, Oahu Resource Conservation and Development Council, Ulupono Initiative, Hawaii Farm Bureau, and one individual.

Your Committee finds that by requiring the University of Hawaii College of Tropical Agriculture and Human Resources to partner with the local agriculture community to develop and establish a food safety certification training program, this measure will help local farms meet the first requirement of the federal Food Safety Modernization Act and spur an increase in the supply of locally grown food. Your Committee also finds that an appropriation of \$150,000 in each year of fiscal biennium 2019-2021 is necessary to achieve the intent of this measure.

Your Committee has amended this measure by:

- (1) Changing the amounts appropriated to unspecified amounts;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 519, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 519, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Kahele, Shimabukuro).

## SCRep. 1183 Ways and Means on S.B. No. 523

The purpose and intent of this measure is to protect the State from invasive species.

Specifically, this measure:

- Establishes the invasive species rapid response special fund for purposes of mitigating or eradicating newly detected invasive species threats;
- (2) Makes various appropriations related to eradicating invasive species; and
- (3) Requires the Department of Agriculture to submit a report to the Legislature prior to the 2020 Regular Session on the feasibility and planning of the construction of a biological control research and containment facility.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; Office of the Mayor, County of Hawaii; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Hawaii Farm Bureau; The Nature Conservancy; Hawaii Cattlemens Council; Oahu County Democrats; and four individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee recognizes that invasive insects, disease-bearing organisms, snakes, weeds, and other pests threaten the State's economy, its natural environment, and the health and lifestyle of its people. Your Committee therefore believes that the State should improve its efforts to mitigate the threats and impacts of these invasive species.

Your Committee has amended this measure by:

- (1) Inserting an appropriation of an unspecified amount from the invasive species rapid response special fund for fiscal years 2019-2020 and 2020-2021 for purposes of the fund;
- (2) Changing the other appropriations in the measure to unspecified amounts;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 523, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 523, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

#### SCRep. 1184 Ways and Means on S.B. No. 1264

The purpose and intent of this measure is to make an emergency appropriation of general funds for the temporary housing of two hundred forty-eight Halawa Correctional Facility inmates who are currently housed at an out-of-state facility.

Your Committee received written comments in support of this measure from the Department of Public Safety.

Your Committee finds that this measure will provide necessary funds to house two hundred forty-eight inmates at an out-of-state facility during the remaining six months of fiscal year 2018-2019 while repairs and improvements to security electronics and hardware are being completed at Halawa Correctional Facility.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1264 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1185 Ways and Means on S.B. No. 1091

The purpose and intent of this measure is to appropriate funds to the Department of Transportation for capital improvement projects.

Your Committee received written comments in support of the version of the measure as received by the Committee from the Department of Transportation.

Prior to decision making on this measure, heavy rains triggered landslides on the slopes adjacent to the Pali Highway in the City and County of Honolulu, closing the highway and leading the Governor to declare the Pali Highway and affected adjacent lands to be disaster areas. Your Committee made available for public review a proposed Senate Draft No. 2 (Proposed Draft) of this measure, which amends the measure by replacing its entire contents with provisions that appropriate emergency funds for landslide relief efforts on the Pali Highway.

Your Committee received testimony in support of the Proposed Draft from the Department of Transportation, Oahu County Democrats, and one individual.

Prior to a public hearing on the Proposed Draft, a similar landslide damaged and closed the Honoapiilani Highway in the County of Maui. The Governor issued a supplementary proclamation, declaring a disaster near and between mile marker thirty-six and mile marker forty-two on the Honoapiilani Highway.

Your Committee finds that an emergency appropriation is necessary to mitigate landslide damages on the Pali Highway and Honoapiilani Highway and to fund efforts to remove debris, assess landslide and rockfall risks, scale slopes, remove additional materials that pose risks, and construct landslide rockfall protection for the public's safety.

Your Committee has amended this measure by adopting the Proposed Draft and further amending the Proposed Draft by:

- (1) Designating the Honoapiilani Highway as an additional beneficiary of the emergency appropriation;
- Authorizing the Department of Transportation to expend funds for the maintenance of limited access restrictions on the Honoapiilani Highway;
- (3) Noting that the relief projects may qualify for Federal Highway Administration emergency relief and that the Federal Highway Administration may reimburse up to eighty percent of the projects' cost upon their completion;
- (4) Requiring any amounts received from the Federal Highway Administration for qualified federal highway relief to be deposited into the general fund;
- (5) Specifying that any unencumbered appropriation shall lapse as of June 30, 2020; and
- (6) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1091, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1091, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Fevella).

### SCRep. 1186 Ways and Means on S.B. No. 1163

The purpose and intent of this measure is to adjust tax incentives offered for renewable energy systems.

Specifically, this measure replaces the current renewable energy technologies income tax credit with separate tax credits for solar energy systems, wind energy systems, and commercial seawater air conditioning systems.

Your Committee received written comments in support of this measure from Adon Renewables; Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Hawaiian Electric Company, Inc.; Honolulu Seawater Air Conditioning; and two individuals.

Your Committee received written comments in opposition to this measure from the Alliance for Solar Choice, Tesla, and Hawaii Solar Energy Association.

Your Committee received written comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and Ulupono Initiative.

Your Committee finds that the cost of installing solar energy systems has been rapidly declining. Accordingly, your Committee finds that this measure gradually decreases the amount of the allowable tax credits in recognition of the reduced need for these types of incentives.

Your Committee has amended this measure by:

- (1) Changing the applicable cap amounts for the tax credits;
- (2) Removing the separate cap amount for multi-family residential property classified as low-income housing, affordable housing, or senior housing;
- (3) Providing that a utility solar energy system is eligible for a credit only if it is owned or procured by an electric utility under a power purchase agreement with an unregulated and unaffiliated independent power producer; provided that the ownership or power purchase agreement has been approved by the Public Utilities Commission;
- (4) Amending the definition of "grid-connected" to:
  - (A) Require that the electric system be connected and normally operated in parallel with the electric grid; and
  - (B) Provide that the term applies to wind energy systems as well as solar energy systems;
- (5) Requiring a solar or wind energy system to meet a total output capacity requirement to qualify for a tax credit;
- (6) Correcting a cross-reference to a provision relating to utility rebates;
- (7) Correcting a cross-reference to a provision allowing a taxpayer to receive a refund of the taxpayer's excess credit amount under certain conditions:
- (8) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (9) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1163, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1163, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Harimoto, Kahele, Shimabukuro, Taniguchi).

#### SCRep. 1187 Ways and Means on S.B. No. 1277

The purpose and intent of this measure is to prohibit the initial registration of motor carrier vehicles by any motor carrier that is in violation of certain federal or North American motor carrier safety regulations and the laws compatible with those regulations.

Your Committee received written comments in support of this measure from the Department of Transportation.

Your Committee finds that the Department of Transportation has indicated that the amendments made by this measure will establish the State as "PRISM Equivalent" under the federal Performance Registration Information Systems Management program and related federal requirements and thus enable the State to continue receiving certain federal grant funding.

Your Committee has amended this measure by:

- (1) Correcting a reference to 49 Code of Federal Regulations section 392.5;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1277, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1277, S.D. 2.

Signed by the Chair on behalf of the Committee

Ayes, 13. Noes, none. Excused, none.

## SCRep. 1188 (Majority) Ways and Means on S.B. No. 1474

The purpose and intent of this measure is to increase the general excise tax and use tax by one-half of one percent to provide a dedicated funding source for the Department of Education and the University of Hawaii.

Your Committee received written comments in support of this measure from the Department of Education, University of Hawaii, King David Kalakaua Middle School, Lanai High and Elementary School, Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Democratic Party of Hawaii Labor Caucus, Democratic Party of Hawaii Education Caucus, Oahu County Democrats, Americans for Democratic Action Hawaii, Parents for Public Schools Hawaii, Democratic Party of Hawaii, and numerous individuals.

Your Committee received written comments in opposition to this measure from the Retail Merchants of Hawaii, Maui Chamber of Commerce, Hawaii Food Industry Association, Land Use Research Foundation of Hawaii, Hawaii Association of REALTORS, Chamber of Commerce Hawaii, and seven individuals.

Your Committee received written comments on this measure from the Department of Taxation, Department of Budget and Finance, Tax Foundation of Hawaii, Hawaii Appleseed Center for Law and Economic Justice, and Grassroot Institute of Hawaii.

Your Committee finds that public schools in the State are severely underfunded. Teacher compensation is far below the national average, resulting in a chronic shortage of available qualified teachers. Your Committee further finds that, on average, state public schools are more than sixty years old and that the Department of Education's repair and maintenance backlog currently stands at \$860,000,000.

Your Committee has amended this measure by:

- (1) Clarifying that all additional general excise tax revenues generated and collected pursuant to this measure shall be used as a funding source for the Department of Education and the University of Hawaii;
- (2) Inserting provisions to specify that all additional use tax revenues generated and collected pursuant to this measure shall be used as a funding source for the Department of Education and the University of Hawaii;
- (3) Making corrections to the quoted text of section 238-2, Hawaii Revised Statutes, in the measure to accurately reflect the printed version of the Hawaii Revised Statutes; and
- (4) Making technical nonsubstantive amendments for purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1474, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1474, S.D. 2.

Signed by the Chair on behalf of the Committee. Ayes, 11. Noes, 2 (Inouye, Riviere). Excused, none.

#### SCRep. 1189 Ways and Means on S.B. No. 1530

The purpose and intent of this measure is to revitalize Aloha Stadium and surrounding lands.

Specifically, this measure:

- (1) Establishes the stadium development district under the jurisdiction of the Hawaii Community Development Authority to expedite the redevelopment of Aloha Stadium and surrounding areas;
- (2) Authorizes the Department of Land and Natural Resources to provide written concurrence, based on a phased review, regarding any project in the stadium development district for historical preservation purposes; and
- (3) Authorizes the issuance of revenue bonds and general obligation bonds and appropriates funds to establish the stadium development district and build a new stadium.

Your Committee received written comments in support of this measure from the Stadium Authority.

Your Committee received written comments in opposition to this measure from the Department of Planning and Permitting of the City and County of Honolulu.

Your Committee received written comments on this measure from the Department of Land and Natural Resources and League of Women Voters of Hawaii.

Your Committee finds that it is in the best interests of the State and its people to redevelop, renovate, or improve the lands under the jurisdiction of the Stadium Authority in a thoughtful manner to provide suitable recreational, residential, educational, and commercial areas.

Your Committee has amended this measure by:

- (1) Authorizing the Stadium Authority to acquire and hold title to real property;
- (2) Transferring title of all lands comprising the stadium development district to the Stadium Authority;
- (3) Exempting lands owned by the Stadium Authority from the definition of public lands;
- (4) Removing provisions authorizing the issuance of revenue bonds;
- (5) Changing the amount of general funds appropriated from \$100,000,000 to \$50,000,000;
- (6) Authorizing the Director of Finance to issue \$150,000,000 in reimbursable general obligation bonds;
- (7) Increasing the general obligation bond appropriation from \$100,000,000 to \$150,000,000;
- (8) Lapsing any remaining amounts of the appropriation made by Act 49, Session Laws of Hawaii 2017, for a master plan and environmental impact study for the Aloha Stadium facilities and site, and re-appropriating the lapsed amount to the Hawaii Community Development Authority for the establishment and development of the stadium development district;
- (9) Providing that funds appropriated by the measure shall not lapse until June 30, 2022;
- (10) Providing that revenues from the stadium development district shall be deposited into a stadium development subaccount of the Hawaii community development revolving fund; and
- (11) Establishing authorized uses of moneys in the stadium development district subaccount, including a requirement that a portion of the funds be used for the reimbursement of the general fund for the costs associated with the reimbursable general obligation bonds.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1530, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1530, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

#### SCRep. 1190 Ways and Means on S.B. No. 162

The purpose and intent of this measure is to establish a refundable tax credit for taxpayers who hire an elderly individual.

Prior to a public hearing on the measure, a proposed Senate Draft No. 2 (Proposed Draft) was circulated for public review and comment.

The Proposed Draft deleted the contents of the measure as received by your Committee and inserted provisions that:

- (1) Increase the rental motor vehicle surcharge tax for lessees from \$3 to \$5 for each day, or portion of a day, that a rental motor vehicle is rented;
- (2) Repeal the additional surcharge tax of \$2 for each day, or portion of a day, for lessees who do not possess a valid Hawaii driver's license; and
- (3) Deposit revenue collected from the \$5 surcharge tax into the county subaccount of the state highway fund for the purposes of section 248-9(c), Hawaii Revised Statutes.

Your Committee received testimony in support of the Proposed Draft from the Department of the Attorney General, Department of Taxation, and Department of Transportation.

Your Committee received comments on the Proposed Draft from the Avis Budget Group, Enterprise Holdings, and Tax Foundation of Hawaii.

Your Committee finds that an increase in the rental motor vehicle surcharge tax is necessary to supplement the state highway fund, because revenues from the fuel tax are unstable as consumers switch to the use of alternative fuel vehicles, electric vehicles, and hybrid vehicles

Your Committee has amended this measure by adopting the Proposed Draft and amending the Proposed Draft further by providing that, of each \$5 collected pursuant to the surcharge tax:

- (1) \$2 shall be deposited into the respective county subaccount of the state highway fund for state highway road capacity projects in the county that generated the surcharge tax; and
- (2) \$3 shall be deposited into the state highway fund for statewide use.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 162, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 162, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Fevella).

### SCRep. 1191 Ways and Means on S.B. No. 166

The purpose and intent of this measure is to appropriate funds to meet the needs for response, relief, and recovery activities in the County of Hawaii in response to the 2018 Kilauea eruption.

Prior to decision making on this measure, your Committee made available for public review a proposed Senate Draft No. 1 (Proposed Draft) of this measure. The Proposed Draft amends the measure by replacing its entire contents with provisions that establish and appropriate an unspecified amount of funds for a state employee recruitment modernization program.

Your Committee received testimony in support of the original draft of this measure from the Hawaii Emergency Management Agency, Department of Defense.

Your Committee received testimony in support of the Proposed Draft from the Office of the Governor, Department of Human Resources Development, Department of Human Services, Department of Transportation, Department of Accounting and General Services, Office of Enterprise Technology Services, Department of Agriculture, and one individual.

Your Committee received testimony in opposition to the Proposed Draft from the League of Women Voters of Hawaii and one individual.

Your Committee recognizes that many positions within state executive departments are understaffed. Accordingly, your Committee believes that the State should take steps to find solutions for addressing employee recruitment shortages.

Your Committee notes that the Department of Human Resources Development has requested eight full-time equivalent (8.0 FTE) positions for fiscal years 2019-2020 and 2020-2021 to implement the recruitment modernization program.

Your Committee has amended this measure by adopting the Proposed Draft and further amending the Proposed Draft by:

(1) Clarifying the scope and goals of the recruitment modernization program;

- (2) Inserting a provision that requires the Department of Human Resources Development to submit to the Legislature, no later than twenty days prior to the convening of the Regular Session of 2020, a report of its findings and recommendations, including any proposed legislation, on the recruitment modernization program;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 166, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 166, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Fevella).

## SCRep. 1192 Ways and Means on S.B. No. 656

The purpose and intent of this measure is to create equity among the types of aircraft in the State eligible for the aircraft service and maintenance facility general excise tax exemption.

More specifically, this measure:

- (1) Amends the definition of "aircraft" to include helicopters, thereby expanding the types of aircraft eligible for the aircraft service and maintenance facility general excise tax exemption;
- (2) Amends the aircraft service and maintenance facility general excise tax exemption to eliminate space requirements and to add a requirement that seventy-five per cent of helicopters serviced within any aircraft service and maintenance facility are equipped with quiet technology; and
- (3) Defines the term "quiet technology."

For purposes of a public hearing, your Committee circulated a proposed Senate Draft No. 2 (Proposed Draft) of the measure and notified the public that your Committee would accept testimony on the Proposed Draft, which amends the measure by deleting its contents and adding provisions to:

- (1) Repeal the requirement that the State Auditor conduct an annual review of certain rapid transportation authorities in the State; and
- (2) Repeal the requirements that the Comptroller verify the capital costs of a locally preferred alternative for a mass transit project and submit a certification statement to the Department of Budget and Finance for the allocation of funds from the mass transit special fund.

Your Committee received comments on the Proposed Draft from the Department of Budget and Finance.

Your Committee finds that Act 1, First Special Session Laws of Hawaii 2017, among other things, established several state oversight requirements for certain rapid transportation authorities in the State. Your Committee further finds that some of these requirements are excessive and cumbersome and, accordingly, should be repealed.

Your Committee has amended this measure by replacing its contents with the contents of the Proposed Draft and further amending the Proposed Draft by:

- (1) Repealing the requirement that the Director of Finance only disburse amounts from the mass transit special fund that are certified in the certification statement issued by the Comptroller;
- (2) Repealing a provision that prohibits the Director of Finance from disbursing amounts from the mass transit special fund in excess of the total amount indicated in the certification statement issued by the Comptroller;
- (3) Repealing the requirement that the President of the Senate and Speaker of the House of Representatives each appoint two non-voting, ex-officio members to the board of directors of certain rapid transportation authorities; and
- (4) Making technical nonsubstantive amendments for purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 656, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 656, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kahele, Fevella).

## SCRep. 1193 Ways and Means on S.B. No. 33

The purpose and intent of this measure is to amend the motion picture, digital media, and film production income tax credit.

More specifically, this measure repeals the annual \$35,000,000 rolling cap for the motion picture, digital media, and film production income tax credit.

Your Committee received written comments in support of this measure from the University of Hawaii; Kauai Community College; Hawaii County Film Office; Kauai Film Commission; All In Stunts; Aloha Casting LLC; CBS Corporation; Grade A Rag Company; Hawaii Media Inc.; Hawaii Teamsters and Allied Workers Local 996; International Alliance of Theatrical Stage Employees Local 665;

Island Film Group; Motion Picture Association of America; NBC/Universal; Scott Rogers Studios; Screen Actors Guild – American Federation of Television and Radio Artists; The Walt Disney Company, Warner Bros.; and numerous individuals.

Your Committee received written comments in opposition to this measure from two individuals.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; International Alliance of Theatrical Stage Employees Local 665; and two individuals.

Your Committee finds that the current form of the motion picture, digital media, and film production income tax credit was established in 2006 to incentivize film and digital media production in the State. Your Committee also finds that the motion picture, digital media, and film production income tax credit is scheduled for repeal on January 1, 2026. Your Committee further finds that Act 143, Session Laws of Hawaii 2017, amended the motion picture, digital media, and film production income tax credit by establishing an aggregate cap amount of \$35,000,000 per year.

Your Committee has amended this measure by:

- (1) Extending the repeal date of the motion picture, digital media, and film production income tax credit from January 1, 2026, to January 1, 2033;
- (2) Conditioning the repeal of the aggregate cap amount and extension of the motion picture, digital media, and film production income tax credit on the Hawaii Technology Development Corporation acquiring title to a certain thirty-acre parcel of the University of Hawaii - West Oahu land;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of consistency, clarity, and style.

Your Committee notes that other agencies that could viably acquire title to the parcel of land include the Hawaii Community Development Authority or any administratively attached corporation of the Department of Business, Economic Development, and Tourism.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 33, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 33, S.D. 3.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

### SCRep. 1194 (Majority) Ways and Means on S.B. No. 740

The purpose and intent of this measure is to require each county to adopt ordinances that establish a minimum housing density requirement of two hundred fifty units per acre on certain state lands.

Your Committee received written comments in support of this measure from BIA Hawaii and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee received written comments in opposition to this measure from the Department of Planning and Permitting of the City and County of Honolulu.

Your Committee received written comments on this measure from the Chamber of Commerce of Hawaii.

Your Committee finds that establishing minimum housing density requirements will impede urban sprawl, preserve agricultural lands and open space, and facilitate the development and use of public transit. Further, your Committee finds that two hundred fifty units per acre is an appropriate minimum housing density requirement for state lands that are within an urban district and zoned for development or redevelopment.

Your Committee has amended this measure by:

- (1) Permitting, rather than requiring, each county to adopt ordinances establishing minimum housing density requirements;
- (2) Changing the minimum housing density requirement from two hundred fifty units per acre to an unspecified amount;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 740, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 740, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12; Ayes with Reservations (Moriwaki, Riviere, Fevella). Noes, 1 (Harimoto). Excused, none.

## SCRep. 1195 Ways and Means on S.B. No. 816

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for facilities improvements and renovations for the Hawaii Health Systems Corporation.

Prior to a hearing on the measure, a proposed Senate Draft No. 2 (Proposed Draft) was circulated for public review and comment.

The purpose of the Proposed Draft is to delete the contents of the S.D. 1 and replace it with a general fund appropriation of \$2,700,000 to the Hawaii Health Systems Corporation to resolve the compensation differential for union members who were affected by the transfer of the use and exclusive management and operations of the Maui Memorial Medical Center, Kula Hospital, and Lanai Community Hospital from the Hawaii Health Systems Corporation to Maui Health System, an affiliate of Kaiser Permanente.

Your Committee received testimony in support of the Proposed Draft from the United Public Workers.

Your Committee received testimony in opposition to the Proposed Draft from the League of Women Voters of Hawaii and one individual.

Your Committee finds that an appropriation for operating expenditures, rather than an authorization for the issuance of general obligation bonds, is better suited to the current needs of the Hawaii Health Systems Corporation with regard to the Maui Health System.

Your Committee has amended this measure by adopting the Proposed Draft and further amending the measure by changing the appropriated amount in the Proposed Draft to \$1,706,250.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 816, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 816, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1196 Ways and Means on S.B. No. 997

The purpose and intent of this measure is to expand the powers and duties of the Stadium Authority to include preparing a plan to develop the Aloha Stadium area, acquiring property, and developing property.

Your Committee received written comments in support of this measure from the Stadium Authority and one individual.

Your Committee received written comments on this measure from the League of Women Voters of Hawaii.

Your Committee finds that while the redevelopment of lands under the jurisdiction of the Stadium Authority and Department of Accounting and General Services would provide a benefit to the community, the administration of that development is better suited to the strengths of the Hawaii Community Development Authority than the Stadium Authority.

Your Committee has amended this measure by deleting its contents and inserting the contents of S.B. No. 1530, S.D. 1, which, among other things:

- (1) Establishes the stadium development district under the jurisdiction of the Hawaii Community Development Authority to expedite the redevelopment of Aloha Stadium and surrounding areas;
- (2) Authorizes the Department of Land and Natural Resources to provide written concurrence, based on a phased review, regarding any project in the stadium development district for historical preservation purposes; and
- (3) Authorizes the issuance of revenue bonds and general obligation bonds and appropriates funds to establish the stadium development district and build a new stadium,

and by further amending the contents of S.B. No. 1530, S.D. 1, by:

- (1) Authorizing the Stadium Authority to acquire and hold title to real property;
- (2) Transferring title of all lands comprising the stadium development district to the Stadium Authority;
- (3) Exempting lands owned by the Stadium Authority from the definition of public lands;
- (4) Removing provisions authorizing the issuance of revenue bonds;
- (5) Changing the amount of general funds appropriated from \$100,000,000 to \$50,000,000;
- $(6) \quad \text{Authorizing the Director of Finance to issue $150,000,000 in reimbursable general obligation bonds}; \\$
- (7) Increasing the general obligation bond appropriation from \$100,000,000 to \$150,000,000;
- (8) Lapsing any remaining amounts of the appropriation made by Act 49, Session Laws of Hawaii 2017, for a master plan and environmental impact study for the Aloha Stadium facilities and site, and re-appropriating the lapsed amount to the Hawaii Community Development Authority for the establishment and development of the stadium development district;
- (9) Providing that funds appropriated by the measure shall not lapse until June 30, 2022;
- (10) Providing that revenues from the stadium development district shall be deposited into a stadium development subaccount of the Hawaii community development revolving fund; and
- (11) Establishing authorized uses of moneys in the stadium development district subaccount, including a requirement that a portion of the funds be used for the reimbursement of the general fund for the costs associated with the reimbursable general obligation bonds.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 997, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 997, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 9. Noes, none. Excused, 4 (Inouye, Kahele, Keith-Agaran, Riviere).

## SCRep. 1197 Human Services on S.C.R. No. 5

The purpose and intent of this measure is to urge the Department of Human Services to increase the reimbursement rate to family child care homes to seventy-five percent of the current center child care rate and provide incentive bonuses to family child care homes for accreditation.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the Department of Human Services allows for child care cost reimbursement under the Child Care Connection Hawaii program. Center-based care and family child care homes are eligible to receive reimbursements for child care rendered to families receiving subsidies through the Child Care Connection Hawaii program. However, the child care rates for family child care homes are a mere forty-four percent of that of child care centers for the same population and same services. Your Committee finds that increasing the reimbursement rate to family child care homes and providing bonuses to family child care homes for accreditation will encourage the availability of licensed family child care homes to accommodate the chronic lack of available child care, enhance the quality of child care, and better support the child care workforce in Hawaii.

Your Committee has amended this measure by clarifying that the number of child care center seats for infant and toddler care are non-existent on the islands of Kauai, Molokai, and Lanai.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 5, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 5, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Ihara).

## SCRep. 1198 Human Services on S.R. No. 5

The purpose and intent of this measure is to urge the Department of Human Services to increase the reimbursement rate to family child care homes to seventy-five percent of the current center child care rate and provide incentive bonuses to family child care homes for accreditation.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the Department of Human Services allows for child care cost reimbursement under the Child Care Connection Hawaii program. Center-based care and family child care homes are eligible to receive reimbursements for child care rendered to families receiving subsidies through the Child Care Connection Hawaii program. However, the child care rates for family child care homes are a mere forty-four percent of that of child care centers for the same population and same services. Your Committee finds that increasing the reimbursement rate to family child care homes and providing bonuses to family child care homes for accreditation will encourage the availability of licensed family child care homes to accommodate the chronic lack of available child care, enhance the quality of child care, and better support the child care workforce in Hawaii.

Your Committee has amended this measure by clarifying that the number of child care center seats for infant and toddler care are non-existent on the islands of Kauai, Molokai, and Lanai.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 5, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 5, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Ihara).

### SCRep. 1199 (Joint) Human Services and Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 7

The purpose and intent of this measure is to request the Department of Human Services, in consultation with the Department of Public Safety, to work with the Family Unification Working Group and other community stakeholders to develop a plan to establish visitation center at all state correctional facilities and jails.

Your Committees received testimony in support of this measure from the Hawaii Youth Services Network, Hawaii Children's Action Network, Blueprint for Change, Community Alliance on Prisons, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and four individuals. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that children of incarcerated parents experience grief and loss, similar to the experience of divorce or the death of a parent. Studies show that children of incarcerated parents are at increased risk of abuse or neglect, and more likely to have mental health problems, difficulty in school, and be incarcerated themselves. Regular visitation provides opportunities to sustain the parent-child bond while a parent is incarcerated, which can alleviate many of these problems. Visitation also provides benefits to the parent, including increasing the chances of successful reintegration into the community upon the parent's release. Your Committees further find that prison is not a suitable environment for children to visit their incarcerated parents. Developing a plan to establish children-friendly visitations centers in all prisons and jails will ensure the wellbeing of children of incarcerated parents, encourage visitations, and provide an opportunity to begin breaking the cycle of generational incarceration.

Your Committees have amended this measure by:

- (1) Requesting the Department of Human Services to include in its reports to the Legislature an assessment of any child accommodations in current visitation areas in prisons and jails and recommendations to improve any specific issues; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 7, as amended herein, and recommend that it be referred to your Committee on Judiciary, in the form attached hereto as S.C.R. No. 7, S.D. 1.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 3. Noes, none. Excused, 2 (Ihara, Riviere). Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Wakai).

## SCRep. 1200 (Joint) Human Services and Public Safety, Intergovernmental, and Military Affairs on S.R. No. 7

The purpose and intent of this measure is to request the Department of Human Services, in consultation with the Department of Public Safety, to work with the Family Unification Working Group and other community stakeholders to develop a plan to establish visitation center at all state correctional facilities and jails.

Your Committees received testimony in support of this measure from the Hawaii Youth Services Network, Hawaii Children's Action Network, Blueprint for Change, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and three individuals. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that children of incarcerated parents experience grief and loss, similar to the experience of divorce or the death of a parent. Studies show that children of incarcerated parents are at increased risk of abuse or neglect, and more likely to have mental health problems, difficulty in school, and be incarcerated themselves. Regular visitation provides opportunities to sustain the parent-child bond while a parent is incarcerated, which can alleviate many of these problems. Visitation also provides benefits to the parent, including increasing the chances of successful reintegration into the community upon the parent's release. Your Committees further find that prison is not a suitable environment for children to visit their incarcerated parents. Developing a plan to establish children-friendly visitations centers in all prisons and jails will ensure the wellbeing of children of incarcerated parents, encourage visitations, and provide an opportunity to begin breaking the cycle of generational incarceration.

Your Committees have amended this measure by:

- (1) Requesting the Department of Human Services to include in its reports to the Legislature an assessment of any child accommodations in current visitation areas in prisons and jails and recommendations to improve any specific issues; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 7, as amended herein, and recommend that it be referred to your Committee on Judiciary, in the form attached hereto as S.R. No. 7, S.D. 1.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 3. Noes, none. Excused, 2 (Ihara, Riviere). Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Wakai).

## SCRep. 1201 Transportation on Gov. Msg. No. 577

Recommending that the Senate advise and consent to the nomination of the following:

## DIRECTOR OF THE DEPARTMENT OF TRANSPORTATION

G.M. No. 577 JADE BUTAY, for a term to expire at noon on 12-05-2022

Your Committee reviewed the personal history, resume, and statement submitted by Jade Butay for service as the Director of Transportation.

Your Committee received testimony in support of the nomination for the reappointment of Jade Butay from the Office of the Governor; Department of Labor and Industrial Relations; Department of Human Resources Development; Department of Budget and Finance; Department of Health; Department of Agriculture; Department of Commerce and Consumer Affairs; Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources; Department of Public Safety; Department of Hawaiian Home Lands; State Health Planning and Development Agency; Office of Enterprise Technology Services; Office of Environmental Quality Control; Board of Water Supply; City and County of Honolulu Department of Facility Maintenance; Hawaiian Airlines; L&L Hawaiian Barbeque; Pacific Marine and Supply, Co.; GA Morris, Inc.; Hawaii Laborers-Employers Cooperation and Education Trust; APR Consulting, LLC; Hawaii Carpenters Apprenticeship and Training Fund; Hawaii Harbors Users Group; Filipino Chamber of Commerce of Hawaii; Hawaii Transportation Association; United Public Workers; Imanaka Asato, LLLC; Young Brothers, LLC; Airport Concessionaries Committee; Airlines Committee of Hawaii; SanHi Government Strategies; Matson; Hawaii Bicycling League; Hawaii Lodging and Tourism Association; Max J. Swords and Associates, LLC; Hawaii Gas; Pacific Strategies, LLC; Filipina Advocacy Network; Filipinos for Affirmative Action; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii Farm Bureau Federation; Advantage Health Care Provider, Inc.; and forty-two individuals. Your Committee received comments on the nomination for the reappointment of Jade Butay from one individual.

Upon review of the testimony, your Committee finds that Mr. Jade Butay's background, experience, and commitment to public service qualify him for reappointment as the Director of Transportation. Your Committee notes that for the last eight years, Mr. Butay has served in various government positions and has gained extensive experience working in the private sector. Your Committee believes that these experiences have equipped him with the necessary skills and knowledge to continue to manage one of the most critically important state departments.

Mr. Butay first served as the Deputy Director for Administration at the Department of Transportation from 2011 to 2013, where he planned, directed, and coordinated various activities for the Airports, Harbors, and Highways Divisions. Mr. Butay then moved on to become the Deputy Director of Labor and Industrial Relations from 2013 to 2014, where he assisted the Director in managing and directing the operations and functions of the Department of Labor and Industrial Relations. Mr. Butay returned to the Department of Transportation in 2014 as the Deputy Director for Administration, where he functioned as the chief operation officer and oversaw the administrative functions of the Department. Through his work as a Deputy Director for two state departments, Mr. Butay has gained a thorough understanding of the administrative responsibilities and challenges faced by the State and is well prepared to carry out those responsibilities and address those challenges.

Most recently, Mr. Butay has been serving as the Director of Transportation since 2017. In his capacity as the Director, Mr. Butay provides leadership and strategic direction with full responsibility for the Airports, Harbors, and Highways Divisions, where he oversees fifteen commercial and general aviation airports, ten commercial harbors, and nearly 2,500 miles of state highways, tunnels, and bridges. Mr. Butay has proven his leadership skills by managing approximately 2,600 employees and has proven his ability to collaborate with major stakeholders, such as the Federal Aviation Administration, Transportation Security Administration, and other federal agencies. Mr. Butay's experience as the Deputy Director for Transportation and as the current Director of Transportation have enabled him to gain an intimate understanding of the operations of the Department of Transportation and the Department's mission.

Mr. Butay understands the important role transportation plays in the economic development of the State, as well as in the every day lives of Hawaii's citizens. His current goals as the Director of Transportation are to attend to climate change and its effect on state transportation systems, address the critical need to rebuild the State's infrastructure, and improve mobility of the State.

Your Committee believes that Mr. Butay's familiarity with the Department of Transportation, collaborative relationship with federal transportation agencies, and his dedication to improving the State's transportation infrastructure make him exceptionally qualified to continue serving as the Director of Transportation.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

## SCRep. 1202 Transportation on Gov. Msg. No. 578

Recommending that the Senate advise and consent to the nomination of the following:

## DEPUTY DIRECTOR OF THE DEPARTMENT OF TRANSPORTATION

G.M. No. 578 LYNN A.S. ARAKI-REGAN, for a term to expire at noon on 12-05-2022

Your Committee reviewed the personal history, resume, and statement submitted by Lynn A.S. Araki-Regan for service as the Deputy Director of Transportation.

Your Committee received testimony in support of the nomination for the appointment of Lynn A.S. Araki-Regan from the Office of the Governor; Department of Human Resources Development; Department of Labor and Industrial Resources; Department of Budget and Finance; Department of Agriculture; Department of Commerce and Consumer Affairs; Department of Public Safety; Department of Accounting and General Services; Department of Business, Economic Development, and Tourism; Department of Hawaiian Home Lands; Office of Enterprise Technology Services; Board of Water Supply; Maui Emergency Management Agency; Pacific Marine and Supply, Co.; Matson; L&L Franchise, Inc.; Hawai'i Gas; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and twenty individuals.

Upon Review of the testimony, your Committee finds that Ms. Lynn A.S. Araki-Regan's background, experience, and commitment to public service qualify her for appointment as the Deputy Director of Transportation. Your Committee notes that Ms. Araki-Regan has six years of experience working in public service in the County of Maui serving in various positions. Ms. Araki-Regan began her career in public service as an Economic Development Coordinator for the County of Maui from 2003 to 2006, where she directed economic development initiatives to achieve the goals and objectives of the County of Maui. Ms. Araki-Regan then left public service to practice law in private practice and currently has 22 years of experience in litigation, commercial transactions, creditor's rights, and landlord and tenant law.

Ms. Araki-Regan returned to public service in 2016, serving as the Budget Director of the County of Maui, where she administered, prepared, and maintained the entire County of Maui's budget of over \$700,000,000. She was then promoted to Chief of Staff to the Mayor of Maui where she oversaw communications, the budget, community development block grant program, and Office of Economic Development programs. Through her experience working in the government sector, as well as over two decades of working in the private sector, Ms. Araki-Regan has gained invaluable experiences in a variety of areas, such as overseeing and managing operations, budgeting, public relations, strategic planning, other skills necessary to be the Deputy Director of Transportation.

In her personal statement, Ms. Araki-Regan stated that if given the opportunity to continue her passion for public service as the Deputy Director of Transportation, one of her primary objectives is to utilize her extensive background to help the Department of Transportation become more productive, efficient, and responsive. She hopes to establish or amend position classifications, improve recruitment and retention efforts, and improve overall employee morale by implementing a range of staff recognition initiatives. Your Committee notes that Ms. Araki-Regan will also act as a representative of the neighbor islands and provide a new perspective to the pressing issues of the State.

Your Committee believes that Ms. Araki-Regan's dedication to public service, years of experience in public and private practice, and passion to improve the Department of Transportation qualify her to be appointed as the Deputy Director of Transportation.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

#### SCRep. 1203 Government Operations on Gov. Msg. No. 579

Recommending that the Senate advise and consent to the nomination of the following:

#### COMPTROLLER OF THE DEPARTMENT OF ACCOUNTING AND GENERAL SERVICES

G.M. No. 579 CURT T. OTAGURO, for a term to expire at noon on 12-05-2022

Your Committee reviewed the personal history, resume, and statement submitted by Curt T. Otaguro for service as the Comptroller.

Your Committee received testimony in support of the nomination for the appointment of Curt T. Otaguro from the Governor; Department of Accounting and General Services; Department of Labor and Industrial Relations; Department of Health; Department of Human Resources Development; Department of Business, Economic Development, and Tourism; Department of Hawaiian Home Lands; Department of Agriculture; Department of Public Safety; Department of Transportation; Department of Land and Natural Resources; Department of Finance; Office of Enterprise Technology Services; Office of Environmental Quality Control; State Office of Veterans' Services; Stadium Authority of Aloha Stadium; Hawaii Laborers-Employers Cooperation and Education Trust; United Public Workers, AFSCME, Local 646, AFL-CIO; Capitol Consultants of Hawaii, LLP; Building Industry Association-Hawaii; SanHi Government Strategies LLLP; American Council of Engineering Companies of Hawaii; General Contractors Association of Hawaii; Hawai'i Lodging & Tourism Association; Ralph S. Inouye Co., Ltd.; and sixty-two individuals.

Curt T. Otaguro is currently the acting State Comptroller of the Department of Accounting and General Services. Prior to his appointment by the Governor, Mr. Otaguro worked for First Hawaiian Bank for over thirty-seven years, where he spent most of his career in various positions of increasing responsibility. Most recently, he served as the Executive Vice President and Division Manager of the Digital Banking Division of First Hawaiian Bank from July 2015 to December 2018. Mr. Otaguro has also served, among other positions, as Executive Vice President and Division Manager for the Personal and e-Banking Division; Executive Vice President and Regional Manager of the Retail Banking Group; Executive Vice President and Group Manager of the Card Services Group; Senior Vice President and Division Manager of the Information Management Group and Operations Research and Development Division; and Vice President and Department Manager of the Research and Development Department. Your Committee notes that Mr. Otaguro is a graduate of Iolani School and earned his Bachelor of Science in Business Management from the University of Redlands in California.

Your Committee believes that Mr. Otaguro, with over thirty-seven years of diverse business background and managerial experience, possesses the qualifications to serve as the Comptroller and lead the Department of Accounting and General Services. More particularly, his invaluable business acumen and management experience from the private sector will serve him well as Comptroller. During Mr. Otaguro's professional career, he has dealt with personnel issues, product development initiatives, communication challenges, and large-scale collaboration projects covering multiple areas. These experiences have enabled him to understand large global issues and encourage the teamwork necessary come up with a viable solution to satisfy financial institutions, and given him a valuable working knowledge and experience in strategic planning, problem solving, and execution and delivery. Your Committee finds that Mr. Otaguro will be able to apply this knowledge and experience as he fulfills his role as Comptroller. Testifiers commented on Mr. Otaguro's nearly forty years of private sector banking experience that will benefit the Department as it tries to improve efficiency and fill employment vacancies. Furthermore, his private sector management experience will be especially helpful when directing and coordinating the various activities of the Department of Accounting and General Services. Mr. Otaguro's knowledge of the banking and financial services industry will also ensure that the State has the highest standard of financial reporting and accounting operations.

Your Committee notes from Mr. Otaguro's personal statement that his vision for the Department of Accounting and General Services includes emphasizing a culture of collaboration, prioritizing the repair and maintenance of existing facilities, improving management of existing facilities through tracking and reporting, and developing a better working relationship with the Department of Education to support the Governor's early education initiatives.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

## SCRep. 1204 Government Operations on Gov. Msg. No. 580

Recommending that the Senate advise and consent to the nomination of the following:

## DEPUTY COMPTROLLER OF THE DEPARTMENT OF ACCOUNTING AND GENERAL SERVICES

G.M. No. 580 AUDREY HIDANO, for a term to expire at noon on 12-05-2022

Your Committee reviewed the personal history, resume, and statement submitted by Audrey Hidano for service as the Deputy Comptroller.

Your Committee received testimony in support of the nomination for the Deputy Comptroller of Audrey Hidano from the Governor; Department of Human Resources Development; Department of Labor and Industrial Relations; Department of Business, Economic Development, and Tourism; Department of Hawaiian Home Lands; Department of Agriculture; Department of Budget and Finance; Department of Transportation; Department of Public Safety; Department of State Office of Veterans' Services; Office of Enterprise

Technology Services; Stadium Authority of Aloha Stadium; Office of Environmental Quality Control; United Public Workers, AFSCME, Local 646, AFL-CIO; Hawaii Laborers-Employers Cooperation and Education Trust; Building Industry Association of Hawaii; Electrical Contractors Association of Hawaii; SanHi Government Strategies, LLLP; Hawaii Carpenters Apprenticeship and Traning Fund; General Contractors Association of Hawaii; Homeworks Construction Inc.; and forty-five individuals.

Audrey Hidano is currently the Deputy Comptroller of the Department of Accounting and General Services, a position she has held since April 2015. Previously she served as Deputy Director of the Department of Transportation and twice served as Deputy Director of the Department of Labor and Industrial Relations. Ms. Hidano also has an extensive career in the private sector. She co-founded Hidano Construction, Inc., with her husband in 1974, and helped run the company until its voluntary closure in 2016 and previously served as co-owner of Rim-Pac, Inc. She is currently Vice-President and Secretary of Grand Development, Inc. Ms. Hidano has acquired a range of expertise in the areas of personnel management, payroll, accounting, human resources management, and contract management over the course of her career in the construction and development industry. Ms. Hidano currently serves as an employer trustee with the Hawaii Employer-Union Benefits Trust Fund, and is a two-time past President of the Building Industry Association of Hawaii. Her extensive experience in the public and private sectors have enabled her to gain a clear understanding of procurement issues affecting state agencies and how those issues affect construction projects in Hawaii, and given her clear insight into the intricacies of running a business in the State. Ms. Hidano also has extensive community ties, having served as a board member of the City and County of Honolulu Neighborhood Board #12 since 1989 and serving as a current board member of the Nuuanu YMCA.

Your Committee believes that the nominee possesses the qualifications to serve as the Deputy Comptroller and help lead the Department of Accounting and General Services. Ms. Hidano's invaluable background in the private and public sectors arm her with a wealth of experience to craft innovative solutions for the Department. Her experience in construction gives her a deep understanding of the industry and a wealth of industry contacts, which will be invaluable to her as she contributes to the leadership of a department charged with overseeing numerous state construction contracts. Testifiers commented on Ms. Hidano's sound judgment, commitment, professionalism, and solid work ethic. She is also noted as being honest, straightforward, and independent all the qualities of a great leader. These qualities will serve Ms. Hidano well as she works with personnel to make positive change within the Department.

Your Committee notes from the nominee's personal statement that her vision for the Department of Accounting and General Services is to continue to file Comprehensive Annual Financial Reports before the end of the calendar year, complete construction projects on time and on budget, give resources to the maintenance program so that state facilities can be properly maintained, keep the State Capitol ponds clean and maintained, and facilitate the Department to become paperless.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 1205 Agriculture and Environment on Gov. Msg. No. 596

Recommending that the Senate advise and consent to the nomination of the following:

### BOARD CHAIRPERSON OF THE DEPARTMENT OF AGRICULTURE

G.M. No. 596 PHYLLIS SHIMABUKURO, for a term to expire 12-31-2022 (name amended to PHYLLIS SHIMABUKURO-GEISER by GM634)

Your Committee reviewed the personal history, resume, and statement submitted by Phyllis Shimabukuro-Geiser for service as the Chairperson of the Board of Agriculture.

Your Committee received testimony in support of the nomination for the appointment of Phyllis Shimabukuro-Geiser from Governor David Y. Ige; Department of Agriculture; Agribusiness Development Corporation; Department of Land and Natural Resources; Department of Transportation; Department of Health; Department of Hawaiian Home Lands; Department of Accounting and General Services; Department of Defense; Department of Human Resources Development; Department of Labor and Industrial Relations; Department of Labor and Industrial Relations; Department Division; Office of Enterprise Technology Services; one member of the Hawaii County Council; Hawaii Food Industry Association; Hawaii Agriculture Research Center; Hawaii Crop Improvement Association; Ulupono Initiative; Bayer; Larry Jefts Farms, LLC; Ponoholo Ranch Limited; Hawaii Coffee Association; Hawaii Farm Bureau; Hartung Brothers, Inc.; Maui County Farm Bureau; Hawaii Cattlemen's Council, Inc.; SK Natural Farms, LLC (aka 2 Lady Farmers); and eighty-six individuals. Your Committee received testimony in opposition to the nomination for the appointment of Phyllis Shimabukuro-Geiser from three individuals. Your Committee received comments on the nomination for the appointment of Phyllis Shimabukuro-Geiser from Rancho Aloha and Ka Ohana O Na Pua.

Your Committee finds that Ms. Shimabukuro-Geiser earned a Bachelor of Science in Animal Science from the University of Hawaii at Mānoa. She thereafter earned a Master of Science in Avian Sciences from the University of California, Davis. With over thirty years' experience, Ms. Shimabukuro-Geiser's background in fresh egg production, management, and poultry feed has provided her with a wealth of knowledge in the poultry industry in Hawaii. From 2009 to 2014, she served as the President of Mikilua Poultry Farm, Inc., in Waianae. Since 2015, Ms. Shimabukuro-Geiser has served as the Deputy Chairperson of the Board of Agriculture and, according to the Governor, has been instrumental in moving the Department of Agriculture forward in our efforts to increase local food production.

Ms. Shimabukuro-Geiser has also served on a number of boards and committees in the community, including the State Medical Marijuana Dispensary License Selection Panel, State Interagency Climate Adaptation Committee, State Agriculture Workforce Advisory Board, Hawai'i Farm Bureau, Hawaii Egg Producers Cooperative, United States Department of Agriculture Farm Service Agency Hawaii State Committee, University of Hawaii College of Tropical Agriculture and Human Resources Cooperative Extension Veterinary Specialist Search Committee, and Hawaii State Board of Agriculture. Ms. Shimabukuro-Geiser has also received

recognition from the agricultural community as the first female recipient of the Hawaii Farm Bureau Federation Outstanding Member award.

Ms. Shimabukuro-Geiser's mission is to assist all farmers and ranchers to grow more wholesome food, fiber, and energy through coexistence of conventional and organic practices with innovative tools to double local food production. Ms. Shimabukuro-Geiser's passion for and commitment to sustainability, food resiliency, and quality of life for the people of Hawaii make her well-suited to serve as the Chairperson of the Board of Agriculture.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Ruderman). Noes, none. Excused, none.

#### SCRep. 1206 Agriculture and Environment on Gov. Msg. No. 597

Recommending that the Senate advise and consent to the nomination of the following:

#### DEPUTY DIRECTOR OF THE DEPARTMENT OF AGRICULTURE

G.M. No. 597 GLENN K. MURANAKA, for a term to expire at noon on 12-05-2022

Your Committee reviewed the personal history, resume, and statement submitted by Glenn K. Muranaka for service as the Deputy Director of the Department of Agriculture.

Your Committee received testimony in support of the nomination for the appointment of Glenn K. Muranaka from Governor David Y. Ige; Agribusiness Development Corporation; Department of Hawaiian Home Lands; Department of Transportation; Department of Health; Department of Accounting and General Services; Department of Labor and Industrial Relations; Department of Human Resources Development; Office of Enterprise Technology Services; Hawaii National Guard; City and County of Honolulu Office of the Mayor; Ponoholo Ranch Limited; Hawaii Food Industry Association; Bayer; Dave's Ice Cream; FCH Enterprises, Inc.; Joy Gold Unlimited, Inc.; Hawaii Farm Bureau; Larry Jefts Farms, LLC; Hawaii Crop Improvement Association; Hawaii Coffee Association; JB Brands, Inc.; Hawaii Critical Care Supply; Hawaii Cattlemen's Council, Inc.; Hawaii Children's Discovery Center; Creativity!, LLC; and seventy-seven individuals. Your Committee received comments on the nomination for the appointment of Glenn K. Muranaka from Rancho Aloha and Ka Ohana O Na Pua.

Your Committee finds that Mr. Muranaka is highly versatile and an accomplished agricultural business leader in management, strategy, product development, delivery, and operations of a complex manufacturing and logistic-focused industry. Mr. Muranaka received his Associate of Arts in Accounting from the University of Hawaii, Kapiolani Community College. Mr. Muranaka served as the President and General Manager of Meadow Gold Dairies in Honolulu from 1996 until his retirement in 2017. Prior to being the President and General Manager, Mr. Muranaka was the Executive Vice President and Assistant General Manager of Meadow Gold Dairies and served in other capacities for this company. Mr. Muranaka has shown strong leadership skills by leading Meadow Gold Dairies' personnel and managing the accounting, sales and marketing, and neighbor island divisions.

Mr. Muranaka has received many recognitions and awards. Mr. Muranaka was inducted into the Hawaii Food Industry Association's Hall of Fame and McKinley High School Hall of Honor. In 2018, Mr. Muranaka received the Ka Lei Hano Heritage Award. Additionally, Mr. Muranaka has received multiple proclamations and certificates of recognition from State and county agencies throughout the years.

As a high-profile executive, Mr. Muranaka has been successful at leveraging career experience to enhance organizational productivity and efficiency by effectively directing and supporting operations, services, and solutions. Mr. Muranaka has led diversity initiatives and created a climate for creativity and increased innovation at Meadow Gold Dairies. He has also been an active community partner and was one of the founders of the Hawaii Seal of Quality and "Grown in Hawaii/Buy Hawaii" marketing campaign. Mr. Muranaka's commitment to the agricultural industry and the State of Hawaii make him well-qualified to serve as the Deputy Director of the Department of Agriculture.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 1207 Agriculture and Environment on S.C.R. No. 20

The purpose and intent of this measure is to request the Department of Agriculture and the Hawaii Tourism Authority to report to the Legislature on the processing of the State of Hawaii plant and animal declaration forms, including the costs involved, and to convene a task force to review the efficacy of these declaration forms.

Your Committee received testimony in support of this measure from the Hawaii Tourism Authority, Department of Land and Natural Resources, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and Hawai'i Farm Bureau. Your Committee received comments on this measure from the Department of Agriculture and Department of Business, Economic Development, and Tourism.

Your Committee finds that all passengers, upon arrival to Hawaii, must complete a state plant and animal declaration form that requests information regarding the passengers' visitor or resident status and requires information regarding their importation of any

plants, including seeds, and animals. Your Committee further finds that the cost-effectiveness of processing and gleaning information from the plant and animal declaration forms at the Department of Agriculture and the Hawaii Tourism Authority can be improved.

Your Committee also finds that adding or revising questions on, or gaining additional insight from, the existing declaration forms can lead to enhanced enforcement of plant and animal imports to further protect Hawaii from invasive species.

Your Committee has amended this measure by:

- (1) Clarifying and correcting several findings related to the information required to be reported on the declaration forms, when inspections of passengers' bags are conducted, and other means used to regulate the importation of plants and animals into Hawaii:
- (2) Adding that the Department of Agriculture Plant Quarantine Branch inspects regulated commodities at all major ports of entry;
- (3) Adding one representative of the Department of Business, Economic Development, and Tourism to the task force; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 20, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 20, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 1208 Agriculture and Environment on S.R. No. 15

The purpose and intent of this measure is to request the Department of Agriculture and the Hawaii Tourism Authority to report to the Legislature on the processing of the State of Hawaii plant and animal declaration forms, including the costs involved, and to convene a task force to review the efficacy of these declaration forms.

Your Committee received testimony in support of this measure from the Hawaii Tourism Authority, Department of Land and Natural Resources, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and Hawai'i Farm Bureau. Your Committee received comments on this measure from the Department of Agriculture and Department of Business, Economic Development, and Tourism.

Your Committee finds that all passengers, upon arrival to Hawaii, must complete a state plant and animal declaration form that requests information regarding the passengers' visitor or resident status and requires information regarding their importation of any plants, including seeds, and animals. Your Committee further finds that the cost-effectiveness of processing and gleaning information from the plant and animal declaration forms at the Department of Agriculture and the Hawaii Tourism Authority can be improved.

Your Committee also finds that adding or revising questions on, or gaining additional insight from, the existing declaration forms can lead to enhanced enforcement of plant and animal imports to further protect Hawaii from invasive species.

Your Committee has amended this measure by:

- (1) Clarifying and correcting several findings related to the information required to be reported on the declaration forms, when inspections of passengers' bags are conducted, and other means used to regulate the importation of plants and animals into Hawaii:
- (2) Adding that the Department of Agriculture Plant Quarantine Branch inspects regulated commodities at all major ports of entry;
- (3) Adding one representative of the Department of Business, Economic Development, and Tourism to the task force; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 15, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 15, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 1209 Labor, Culture and the Arts on Gov. Msg. Nos. 561, 562, and 563

Recommending that the Senate advise and consent to the nominations of the following:

### HAWAI'I WORKFORCE DEVELOPMENT COUNCIL

G.M. No. 561 BRIAN LEE, for a term to expire 06-30-2020;

G.M. No. 562 KAREN WONG, for a term to expire 06-30-2022; and

G.M. No. 563 MIRIAM WHITMAN, for a term to expire 06-30-2022

Your Committee reviewed the personal histories, resumes, and statements submitted by Brian Lee, Karen Wong, and Miriam Whitman for service on the Hawai'i Workforce Development Council.

### **BRIAN LEE**

Your Committee received testimony in support of the nomination for the appointment of Mr. Lee from the Hawai'i Workforce Development Council; Hawaii Regional Council of Carpenters; Hawai'i Construction Alliance; Chamber of Commerce Hawaii; Pacific

Resource Partnership; International Union of Painters and Allied Trades, District Council 50; Ralph S. Inouye Co., Ltd.; and four individuals.

Your Committee finds that Mr. Lee is presently the Director at the Hawaii Laborers' and Employers Cooperation Education Trust, which is a partnership of five thousand statewide members of the Hawaii Laborers Union Local 368. Mr. Lee has served in key leadership roles for several labor organizations including the International Brotherhood of Electrical Workers, Hawaii Operating Engineers, and Hawaii Construction Industry Association. Mr. Lee also has a strong understanding of the public workforce having served on the Oahu Workforce Board. The Committee notes that Mr. Lee is currently an intern appointee to the Hawai'i Workforce Development Council and has been serving in that capacity since last summer. Mr. Lee also currently serves on the Council's Performance Measures and Accountability Committee as Vice Chair. Numerous testifiers attested to Mr. Lee's integrity, diligence, and ability to bring parties together to find practical solutions. Mr. Lee's experience, knowledge, ability to foster relationships, and commitment to improving Hawaii's workforce will be assets to the Hawai'i Workforce Development Council.

## KAREN WONG

Your Committee received testimony in support of the nomination for the appointment of Ms. Wong from the Hawai'i Workforce Development Council, Lanakila Pacific, and five individuals.

Your Committee finds that Ms. Wong is currently the Vice President of Administration for Lanakila Pacific, an organization that provides valuable employment and job training for people with disabilities. As the Vice President of Administration for Lanakila Pacific, Ms. Wong advocates for opportunities for people with disabilities to be included in competitive employment, and oversees the operations of Lanakila Pacific's finance, human resources, information technology, and facilities departments. Ms. Wong has over twenty-five years of experience in accounting, finance, and management of profit and non-profit organizations. Additionally, Ms. Wong has volunteered for numerous organizations including the Ronald McDonald House Charities of Hawaii, Big Brothers/Big Sisters of Hawaii, The Immigration Center, and Saint Francis Hospice. Numerous testifiers attested to Ms. Wong's high level of integrity and work ethic. Ms. Wong's leadership skills, strong administrative experience, and dedication to the community will greatly contribute to the Hawaii'i Workforce Development Council.

## MIRIAM WHITMAN

Your Committee received testimony in support of the nomination for the appointment of Ms. Whitman from the Hawai'i Workforce Development Council; United States Department of Labor, Kinai 'Eha; California Indian Manpower Consortium, Inc.; and two individuals.

Your Committee finds that Ms. Whitman has been serving for the Hawai'i Workforce Development Council as Vice Chair of the Youth Services Committee since 2017. Ms. Whitman has nearly forty years of non-profit experience. Since 1979, Ms. Whitman has worked at Alu Like, Inc., as the Director of the Department of Employment and Training and is responsible for the oversight of the employment and training program, including objectives and performance goals. Ms. Whitman is also a member of various organizations including the national Advisory Council of the National Indian and Native American Employment and Training Conference, Ko'olaupoko Hawaiian Civic Club, and Prince Kuhio Hawaiian Civic Club. Testimony submitted by the Workforce Development Council notes that Ms. Miriam Whitman has extensive knowledge of the Indian and Native American Programs Workforce Innovation and Opportunity Act of 2014, Section 166. Ms. Whitman's experience, leadership skills, commitment to Hawaii's workforce, and knowledge of Native Hawaiian and youth matters will continue to be assets to the Hawai'i Workforce Development Council.

As affirmed by the records of votes of the members of your Committee on Labor, Culture and the Arts that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

### SCRep. 1210 Labor, Culture and the Arts on Gov. Msg. No. 564

Recommending that the Senate advise and consent to the nomination of the following:

## HOISTING MACHINE OPERATORS ADVISORY BOARD

G.M. No. 564 ANGELA CHINEN, for a term to expire 06-30-2022

Your Committee reviewed the personal history, resume, and statement submitted by Angela Chinen for service on the Hoisting Machine Operators Advisory Board.

Your Committee did not receive any testimony on this nomination.

Your Committee finds that Ms. Chinen received her Associate in Science degree in Applied Trades from Honolulu Community College. Ms. Chinen worked as a carpenter in various capacities with the Carpenters Union while also serving as an Instructor of Math and Blueprint Reading for the apprentice program at Honolulu Community College for ten years. In 2004, she joined the Operating Engineers Local Union No. 3 as a Surveyor and began operating tower cranes. In 2013, she became a Crane Instructor for the Joint Apprenticeship Committee of the Operating Engineers Local Union No. 3.

Ms. Chinen holds numerous certifications, including certifications to act as a Certified Crane Operator in tower cranes, fixed and swing cab hydraulic cranes, and truck and crawler lattice cranes. Ms. Chinen is extremely well-qualified for reappointment to the Board. Ms. Chinen possesses extensive experience and a depth of knowledge in the construction industry. She is familiar with the issues facing the Hoisting Machine Operators Advisory Board and the State. Ms. Chinen will continue to provide valuable insights based on experience and offer specific suggestions to address and resolve various hoisting machine operator issues facing the State and Board, which makes her an extraordinary asset to the Hoisting Machine Operators Advisory Board.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

#### SCRep. 1211 Commerce, Consumer Protection, and Health on Gov. Msg. No. 541

Recommending that the Senate advise and consent to the nomination of the following:

#### DIRECTOR OF THE DEPARTMENT OF HEALTH

G.M. No. 541 BRUCE S. ANDERSON, for a term to expire at noon on 12-05-2022

Your Committee reviewed the personal history, resume, and statement submitted by Bruce S. Anderson for service as the Director of Health.

Your Committee received testimony in support of the nomination for the reappointment of Bruce S. Anderson from Governor David Y. Ige, Department of Human Resources Development, Department of Labor and Industrial Relations, Department of Land and Natural Resources, Department of Public Safety, Department of Transportation, Department of Agriculture, Department of Hawaiian Home Lands, Department of Taxation, Department of Accounting and General Services, Department of Budget and Finance, Executive Office on Aging, State Health Planning and Development Agency, Environmental Health Services Division of the Department of Health, Office of Enterprise Technology Services, Health Resources Administration of the Department of Health, Office of Environmental Quality Control, Honolulu Board of Water Supply, Hawai'i Public Health Institute, Hawaii Medical Service Association, American Heart Association, Hawaii Substance Abuse Coalition, The Queen's Health Systems, Kaiser Permanente Hawai'i, Hawaii Business League, Hawai'i Farm Bureau, Healthcare Association of Hawaii, SanHi Government Strategies, and sixteen individuals. Your Committee received comments on the nomination for the reappointment of Bruce S. Anderson from Akamai Cannabis Clinic.

Your Committee finds that Bruce S. Anderson has been serving as the Director of Health since June 2018. This marks Dr. Anderson's return to the position of Director of Health following his original appointment in 1999. After leaving the Department of Health in 2002, Dr. Anderson continued a distinguished career in the public and private sectors, including previous service as the Director of the Environmental Health Program at the University of Hawaii, President of the Oceanic Institute, Director of Health and Science Programs at Hawaii Pacific University, President and Chief Executive Officer of the Hawaii Health Systems Corporation, and Administrator of the Division of Aquatic Resources in the Department of Land and Natural Resources.

Your Committee notes that Dr. Anderson has spent over thirty-five years managing health and environmental protection programs in Hawaii, an experience that has given him a deep familiarity with and commitment to addressing rapidly evolving health and environmental issues, and their impacts on the State.

The experience and knowledge Dr. Anderson has developed, combined with the relationships he has cultivated over the course of his career will be invaluable during his continued tenure at the Department of Health. The State is facing multiple serious health issues, such as climate change, drug abuse, and the mental health and homelessness crisis, all of which go beyond any one department or discipline. Dr. Anderson's diverse background makes him an ideal candidate to build inter-departmental alliances and strengthen cooperation between the public and private sector. Dr. Anderson noted in his personal statement that one of his personal strategies is to be a connector to create, facilitate, and support the partnerships necessary to leverage resources and accomplish his goals for the Department.

Your Committee notes that throughout his career, Dr. Anderson has repeatedly demonstrated commitment to innovation and efficiency, a commitment which is central to his vision for the Department of Health. Although still relatively new to the position, Dr. Anderson is already overseeing the development of a comprehensive case management system for children and adults served by both the Department's behavioral health and developmental disabilities programs, which will result in more effective and efficient delivery of services. Looking forward, Dr. Anderson listed e-cigarette use by youth, climate change and its impacts on public health, and the lack of mental health services in our communities as the three main areas of concern he plans to focus on during his tenure at the Department of Health as he works to promote a culture of health throughout Hawaii.

Your Committee therefore finds that Dr. Anderson's leadership abilities, professional experience, and extensive knowledge, particularly in the areas of environmental sustainability and health, will continue to be valuable assets to the Department of Health and, for these reasons, recommends that Dr. Anderson be reappointed as the Director of Health.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Ruderman).

## SCRep. 1212 Commerce, Consumer Protection, and Health on Gov. Msg. No. 542

Recommending that the Senate advise and consent to the nomination of the following:

# DEPUTY DIRECTOR OF THE DEPARTMENT OF HEALTH

G.M. No. 542 CATHY Y. ROSS, for a term to expire at noon on 12-05-2022

Your Committee reviewed the personal history, resume, and statement submitted by Cathy Y. Ross for service as the Deputy Director of Health.

Your Committee received testimony in support of the nomination for the appointment of Cathy Y. Ross from Governor David Y. Ige, Department of Health, Department of Agriculture, Department of Human Resources Development, Department of Budget and Finance, Department of Taxation, Department of Accounting and General Services, Department of Transportation, Department of Labor and Industrial Relations, Department of Human Services, Department of Defense, Department of Public Safety, Department of Hawaiian Home Lands, State Procurement Office, Office of Enterprise Technology Services, Office of Environmental Quality Control, Environmental Health Administration of the Department of Health, Health Resources Administration of the Department of Health, Hawaii Technology Development Corporation, Training and Staff Development Academy of the Department of Public Safety, Hawaii Health Systems Corporation, Hawaii Medical Service Association, Hawaii Primary Care Association, and forty-two individuals. Your Committee received testimony in opposition to the nomination for the appointment of Cathy Y. Ross from the Ho\*omanapono Political Action Committee and one individual.

Your Committee finds that Ms. Ross has spent over eighteen years serving the people of Hawaii in various government roles affecting public health and public safety. Ms. Ross has been with the Department of Public Safety since 2012, most recently serving as the Deputy Director for Administration of the Department of Public Safety, where she provided optimal administrative support, spearheaded strategic planning, and managed initiatives for that Department. Your Committee further finds that Ms. Ross's nomination as the Deputy Director of Health marks her return to the Department of Health, where she spent twelve years in various positions related to tobacco prevention, school health and wellness, and nutrition and physical activity promotion. Ms. Ross also served as the Department of Health's first Performance Improvement Manager, an experience that gave her a deep understanding of the impact primary prevention can have on large populations, small communities, and individuals, and which taught her the importance of addressing health issues within the context of systems.

Your Committee notes that Ms. Ross's professional experience and personal statement indicate a strong focus on systems improvement and strengthening administrative operations. As the population served by the Department of Health continues to expand, and with the growth of federally-funded programs and changing social service needs, program resources are being increasingly diverted to administrative functions, such as procurement, human resources, and reorganizations. This diversion multiplies staff workload and necessitates a creative approach to repurposing existing resources to the greatest extent possible. Ms. Ross's experience in systems management and proven track record with interdepartmental collaborations and innovative administrative approaches will therefore be an excellent resource for the Department of Health as it manages resources, increases efficiency, and improves responsiveness.

Your Committee believes that Ms. Ross's experience in two large and complex departments will be an asset to the Department of Health, as her perspective will allow her to build on the organizational strengths of the Department, while also recognizing and working to address the Department's weaknesses. As noted in her personal statement, Ms. Ross brings to the Department of Health a strong commitment to improving public health outcomes through strengthening administrative operations, growing interdepartmental collaborations, and exploring new ways to engage with service providers. This commitment is especially important to the Department of Health, as administrative operations and functions are vital to the Department's ability to maximize service delivery and efficiency.

Your Committee therefore finds that Ms. Ross's leadership abilities, professional experience, and commitment to public health will assist the Department of Health in its ongoing mission to protect and improve the health and environment for Hawaii's residents and, for these reasons, recommends that Ms. Ross be appointed as the Deputy Director of Health.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Nishihara). Noes, none. Excused, 1 (Thielen).

### SCRep. 1213 Ways and Means on H.B. No. 2

The purpose and intent of this measure is to appropriate funds for the operating costs of the Executive Branch for the fiscal biennium beginning July 1, 2019, and ending June 30, 2021.

Your Committee received testimony in support of this measure from the Department of Education, the Hawaii Green Infrastructure Authority, the Hawaii State Commission on the Status of Women, the Special Education Advisory Council, Alexander and Baldwin, Ben Dyre Family Limited Partnership, Catholic Charities Hawaii, Hawaii Association of Watershed Partnerships, Kamehameha Schools, Kauai Watershed Alliance, Mauna Kahalawai Watershed Partnership, Partners in Care, The Nature Conservancy of Hawaii, and one individual.

Your Committee received testimony in opposition to this measure from the University of Hawaii System, Kokua Council, and one individual.

Your Committee received comments on this measure from the Department of the Attorney General, Hawaii Primary Care Association, and Kahuku Medical Center.

This measure, as received, includes:

- (1) The base budget from Act 53, Session Laws of Hawaii (SLH) 2018;
- (2) The addition of previously appropriated collective bargaining amounts in numerous bills enacted in 2017 and 2018;
- (3) The addition of full-year funding for positions established in Act 53, SLH 2018;

- (4) The adjustment amounts necessary to fulfill the Employees' Retirement System, Employer-Union Health Benefits Trust Fund, debt service, and Medicaid requirements for this fiscal biennium; and
- (5) The reduction of non-recurring amounts identified in the 2017 and 2018 executive budget worksheets issued by the Legislature.

Your Committee has amended this measure to include:

- (1) The approved Executive Branch requests for trade-offs, transfers, changed means of financing, conversions of positions from temporary to permanent, ceiling increases or decreases, and reductions; and
- (2) Additional funding for priority budget requests.

	Fiscal Year 2019-2020		Fiscal Year 2020-2021	
	All Funds	General Funds	All Funds	General Funds
Executive Budget Act 53, SLH 2018	\$14,438,080,019	\$7,512,285,586	\$14,438,080,019	\$7,512,285,586
Executive Budget Request	\$1,257,198,147	\$488,288,519	\$1,484,605,717	\$740,581,670
Net Change in Senate Draft	\$1,098,174,733	\$456,587,032	\$1,298,901,258	\$556,937,257
Total Appropriation	\$15,537,177,230	\$7,968,872,618	\$15,737,903,755	\$8,200,221,914

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

#### SCRep. 1214 Ways and Means on H.B. No. 116

The purpose and intent of this measure is to appropriate additional funds for the operating costs of the Executive Branch for the fiscal biennium beginning July 1, 2019, and ending June 30, 2021.

No testimony was submitted on this measure.

## PART I. Department Highlights

## Accounting and General Services

Your Committee adjusts the Department of Accounting and General Services' appropriation by adding \$2,198,866 in general funds and \$200,000 in non-general funds in fiscal year 2019-2020, and adding \$2,801,968 in general funds in fiscal year 2020-2021.

Your Committee recognizes the Department's role in overseeing and managing cybersecurity for the State. Therefore, your Committee approves \$1,038,240 in fiscal year 2019-2020, and \$1,263,902 in fiscal year 2020-2021, for a multitude of cybersecurity enhancements. In addition, your Committee approves \$150,000 in each fiscal year for mobile device management software in order to secure sensitive state data on mobile devices used for state business.

Your Committee acknowledges and supports the preservation and digitization of historical documents. Therefore, your Committee approves \$200,000 for fiscal year 2019-2020 for a digital archived preservation system. In addition, your Committee approves \$76,500 in fiscal year 2019-2020, and \$107,940 in fiscal year 2020-2021 for one new permanent position and related office expenses for the State Archives.

## Agriculture

Your Committee adjusts the Department of Agriculture's appropriation by adding \$1,307,816 in general funds and adding \$851,936 in non-general funds in fiscal year 2019-2020, and \$207,816 in general funds and \$651,936 in non-general funds in fiscal year 2020-2021.

Your Committee has worked diligently to identify ways to support local farmers and increase Hawaii's food production.

Your Committee provides two temporary positions and \$851,936 for agribusiness development and research.

Your Committee also recognizes the Department's responsibility to care for the environment by protecting native lands and species. Your Committee provides four positions and \$207,816, in each fiscal year for Hawaii's Interagency Biosecurity Plan.

Your Committee also provides one permanent position and funding for the Animal Disease Control Branch's Airport Quarantine Holding Facility, to protect Hawaii from animal-borne dangers.

Your Committee recognizes the importance of clean water in regards to the health of the State. Your Committee provides \$600,000 in fiscal year 2020-2021 for a water quality monitoring program.

### Attorney General

Your Committee adjusts the Department of the Attorney General's appropriation by adding \$1,808,714 in general funds in fiscal year 2019-2020 and \$1,415,714 in general funds in fiscal year 2020-2021.

Your Committee recognizes the Department's role in overseeing and managing a range of services for the State, including community treatment. The Department's legal services program received an addition of four permanent positions in each fiscal year and \$332,000 in fiscal year 2019-2020 and \$308,000 in fiscal year 2020-2021 to expedite assisted community treatment petitions.

Your Committee acknowledges the Department's increasing responsibilities in regards to criminal justice information and identification. Your Committee approves the addition of two permanent positions and \$169,000 in fiscal year 2019-2020 and two permanent positions and \$153,000 in fiscal year 2020-2021 for the Hawaii Criminal Justice Data Center.

Your Committee also provides \$700,000 in each fiscal year for special events security operations to prepare for unforeseen or large events that require additional security personnel.

## **Budget and Finance**

Your Committee adjusts the Department of Budget and Finance's appropriation by adding \$174,610 in general funds and \$13,997,488 in non-general funds in fiscal year 2019-2020, and \$38,756 in general funds and \$2,541,247 in non-general funds in fiscal year 2020-2021.

Your Committee recognizes the Department's role in administering the retirement and survivor benefits program for state and county employees. To help manage the retirement system's resources, your Committee approves three permanent positions, two temporary positions, and \$3,705,665 for fiscal year 2019-2020, and \$1,957,257 for fiscal year 2020-2021 in other funds, for an actuarial experience study, telephone replacement system, and IT upgrades.

Your Committee recognizes that maintaining a secure, comprehensive and up-to-date database and IT system is crucial to the Department's success. As such, your Committee approves \$10,075,000 for fiscal year 2019-2020 and \$367,167 for fiscal year 2020-2021 for the Hawaii Employer-Union Trust Fund New Benefits Administration System. For the Office of the Public Defender, your Committee approves \$97,832 in fiscal year 2019-2020, and \$24,000 in fiscal year 2020-2021, for case management software.

#### Business, Economic Development, and Tourism

Your Committee adjusts the Department of Business, Economic Development, and Tourism's appropriation by adding \$3,996,348 in general funds and \$228,048 in non-general funds in fiscal year 2019-2020, and \$3,388,848 in general funds and \$285,048 in non-general funds in fiscal year 2020-2021.

Your Committee recognizes the Department's role in promoting the growth and diversification of Hawaii's aerospace industry. Therefore, your Committee provides \$61,000 to the Challenger Center.

Your Committee also provides \$100,000 to attract international students through website upgrades and printed collateral to be distributed to target students in key regions around the world.

Your Committee acknowledges the need to further the education of Hawaii's creative professionals. Therefore, your Committee provides four permanent positions and \$331,804 in each fiscal year for Creative Lab Hawaii and the Creative Industries Division.

### Commerce and Consumer Affairs

Your Committee adjusts the Department of Commerce and Consumer Affairs' appropriation by adding \$3,884,000 in non-general funds in fiscal year 2019-2020, and \$3,444,000 in non-general funds in fiscal year 2020-2021.

Your Committee recognizes the Department's role in maintaining consumer protection, health, safety, and welfare. In order to provide continued efficiency and operations for consumer benefit, your Committee approves \$2,500,000 in each fiscal year for insurance regulatory services.

Your Committee also provides five permanent positions and \$584,000 in each fiscal year for consumer advocacy for communication, utilities, and transportation services. These positions will better serve the State's needs by allowing the Division to develop in-house expertise.

Your Committee acknowledges the need for document management system modernization and enhancements. Therefore, your Committee approves \$500,000 in fiscal year 2019-2020, and \$260,000 in fiscal year 2020-2021 for the Public Utilities Commission.

## Defense

Your Committee adjusts the Department of Defense's appropriation by adding \$5,681,421 in general funds and \$988,612 in non-general funds in fiscal year 2019-2020, and \$5,360,771 in general funds and \$560,512 in non-general funds in fiscal year 2020-2021.

Your Committee recognizes the importance of honoring and supporting Hawaii's military veterans. Your Committee has provided \$125,000 in fiscal year 2019-2020 to the Hawaii State Veterans Cemetery for maintenance equipment.

Your Committee is also committed to disaster-preparedness and emergency management and approves \$620,664 for fiscal years 2019-2020 and the same sum in fiscal year 2020-2021 for twelve temporary positions to manage severe storms and the Kilauea Rift. Your Committee also provides \$145,650 in general funds for fiscal year 2019-2020 to the Hawaii Emergency Management Agency for communications infrastructure.

## Education

Your Committee adjusts the Department of Education's appropriation by adding \$16,490,770 in general funds and \$5,418,631 in non-general funds in fiscal year 2019-2020, and \$18,772,507 in general funds and \$5,772,499 in non-general funds in fiscal year 2020-2021.

# Regular Education

Your Committee acknowledges the success of investing in our keiki through programs such as the Early College High School Initiative and commits \$1,500,000 in each fiscal year for the continued funding of this initiative.

Your Committee recognizes the importance of the Sustainable Schools Initiative in achieving net-zero energy usage, by producing as much renewable energy as the Department consumes across all facilities, and appropriates \$2,000,000 for each fiscal year for electric utilities.

Your Committee understands that the safety and security of department facilities is of highest priority to the Department and allocates fifteen permanent positions for school complex resource services to provide immediate and on-the-spot safety, security, emergency preparedness, and risk management assistance and expertise.

#### Libraries

Your Committee recognizes the importance of having safe spaces in our communities to encourage learning and development. To help with this effort, your Committee approves \$522,942 for each fiscal year to increase security services.

Your Committee is also aware of a decline in libraries' revenue and an increase in prices for books and materials as a result of the rising demand for electronic books. Therefore, your Committee approves \$1,500,000 in each fiscal year for books and materials.

With the opening of the new Nanakuli Public Library and implementation of radio-frequency identification technology, your Committee approves an additional \$240,000 in each fiscal year to expand this technology to library branches with the highest circulation. The expansion of this technology will benefit the general public by enhancing electronic capabilities and increasing access and service.

#### Charter Schools

Your Committee is committed to supporting Hawaii's public charter schools and provides \$1,317,937 based on the per-pupil allocation for charter schools.

Your Committee recognizes the importance of attracting qualified teachers to, and retaining them in, our charter schools and provides \$667,050 in each fiscal year for the Hard-to-Staff incentive and \$142,000 in each fiscal year for the National Board Certified Teachers incentive. This will help charter schools provide a competitive salary for teachers.

#### Early Learning

Your Committee recognizes the efforts of the Executive Office on Early Learning and the Early Learning Board and supports the development of pre-kindergarten programs. Therefore, your Committee approves the addition of two permanent positions and \$133,415 and \$114,715, respectively, in each fiscal year, for prekindergarten program support.

#### Governor

Your Committee adjusts the Office of the Governor's appropriation by adding \$139,808 in general funds in fiscal year 2019-2020, and \$116,548 in general funds in fiscal year 2020-2021.

Your Committee recognizes the importance of the Governor's role in managing statewide disasters and adds \$100,000 for both fiscal years 2019-2020 and 2020-2021 for one temporary state disaster recovery coordinator.

Your Committee also recognizes the need for the Governor's office to work effectively and efficiently and approves \$39,808 for fiscal year 2019-2020 for computer updates.

### Health

Your Committee adjusts the Department of Health's appropriation by adding \$26,146,834 in general funds and \$2,409,532 in non-general funds in fiscal year 2019-2020, and adding \$32,397,652 in general funds and \$2,409,532 in non-general funds in fiscal year 2020-2021.

Your Committee recognizes the Department's role in overseeing and managing a range of services for the State, including food safety. In order to maintain adequate food inspection services, your Committee provides fourteen permanent positions and \$1,588,349 for the Sanitation Branch.

Your Committee also recognizes the need to address the regulation of the rapidly expanding medical marijuana industry. Your Committee provides four permanent positions and \$280,000 in each fiscal year to fund the Office of Medical Cannabis Control and Regulation.

Your Committee also provides \$200,000 in each fiscal year for a telehealth pilot project aimed at utilizing new communications technology to increase the efficiency of medical care in Hawaii.

## Hawaii Health Systems Corporation

Your Committee recognizes the Hawaii Health Systems Corporation's role in overseeing and managing many of Hawaii's hospitals and provides \$14,500,000 for an operating subsidy.

Further, your Committee provides Kahuku Medical Center with \$1,000,000 for labor cost increases.

### Human Resources Development

Your Committee adjusts the Department of Human Resources Development's appropriation by adding \$623,371 in general funds and \$95,386 in non-general funds in fiscal year 2019-2020, and \$606,031 in general funds and \$95,386 in non-general funds in fiscal year 2020-2021.

Your Committee recognizes the importance of providing training and development opportunities for state employees and provides one permanent position and \$147,464 in fiscal year 2019-2020, and \$139,464 in fiscal year 2020-2021 for the Learning Management System.

Your Committee adds one permanent position and \$160,635 for the State's Chief Negotiator.

#### Human Services

Your Committee adjusts the Department of Human Services appropriation by adding \$18,699,375 in general funds and \$2,518,552 in non-general funds in fiscal year 2019-2020, and \$20,195,901 in general funds and \$4,247,690 in non-general funds in fiscal year 2020-2021.

Your Committee recognizes that maintaining a secure, comprehensive and up-to-date database and IT system is crucial to the Department's success. As such, your Committee provides \$722,957 in general funds and \$641,112 in federal funds for fiscal year 2019-2020, and \$2,584,483 in general funds and \$2,291,900 in federal funds for fiscal year 2020-2021, for the benefit eligibility solution and enterprise platform.

#### Homeless Initiatives

Your Committee recognizes the Department's role in addressing homelessness statewide.

To provide services through the Housing First program, Rapid Re-Housing program, and Family Assessment Center, your Committee approves \$9,050,000. Additionally, your Committee approves \$1,750,000 in general funds for homeless outreach and civil legal services. Further, your Committee appropriates \$500,000 for fiscal year 2019-2020 and the same sum for fiscal year 2020-2021 for the continuation and expansion of the "Ohana Zones" project.

#### Hawaii Public Housing Authority

Your Committee finds the State Rent Supplement Program is in need of supplemental funding and therefore adds \$2,500,000 in each fiscal year for housing payments for low-income recipients.

## Labor and Industrial Relations

Your Committee adjusts the Department of Labor and Industrial Relations' appropriation by adding \$5,054,768 in general funds and \$50,000 in non-general funds in fiscal year 2019-2020, and \$6,255,547 in general funds and \$50,000 in non-general funds in fiscal year 2020-2021.

Your Committee recognizes the importance of the Department's Labor and Industrial Relations Appeals Board and adds one permanent position and \$85,000 in each fiscal year for necessary personnel and capacity to handle the growing caseload across the State.

Your Committee also acknowledges the increasing demands on the Disability Compensation Division and approves \$2,565,469 in fiscal year 2019-2020, and \$1,772,998 in fiscal year 2020-2021 for program improvement through the modernization of its processes and computer systems.

With the growth and success of the Hawaii Civil Rights Commission Mediation Program, your Committee approves the addition of one permanent position and \$52,956 for a program specialist to assist in the mediation process, in addition to the planning, development, and implementation of the Hawaii Civil Rights Commission's public education initiative.

## Land and Natural Resources

Your Committee adjusts the Department of Land and Natural Resources' appropriation by adding \$5,563,131 in general funds and \$400,000 in non-general funds in fiscal year 2019-2020, and adding \$4,779,631 in general funds and \$400,000 in non-general funds in fiscal year 2020-2021.

Your Committee recognizes the Department's role in protecting endangered species and approves \$1,000,000 in each fiscal year for critical invasive species reports.

Your Committee acknowledges the need for continued response against rapid ohia death and therefore approves \$500,000 in each fiscal year for the Native Resources and Fire Protection Program.

Finally, your Committee supports the Department of Land and Natural Resources' initiative in seeking the input and guidance of native Hawaiian people on the lands of Hawaii and therefore approves \$100,000 in each fiscal year for the Aha Moku Advisory Committee.

## Department of Public Safety

Your Committee adjusts the Department of Public Safety's appropriation by adding \$3,431,617 in general funds and \$2,046,174 in non-general funds in fiscal year 2019-2020 and adding \$2,052,709 in general funds and \$1,926,339 in non-general funds in fiscal year 2020-2021.

Ongoing facility upgrades and maintenance are necessary for the safety of both inmates and the general public. Consequently, your Committee provides \$503,634 for fiscal year 2019-2020, and \$232,634 for fiscal year 2020-2021, for Kauai Community Correctional Center and Maui Community Correctional Center. Both Kulani Correctional Facility and Hawaii Community Correctional Center will receive \$501,560 in fiscal year 2019-2020 for various phone system upgrades.

Your Committee recognizes liability issues relating to inmate health care and has approved one permanent position and \$709,184 for various health services.

With the new Ewa and Mauka concourse at the Daniel K. Inouye International Airport, the Department anticipates the need for additional resources for continued services. Your Committee approves twenty-one permanent positions and \$2,046,174 and \$1,926,339 in fiscal year 2019-2020 and in fiscal year 2020-2021, respectively.

#### Taxation

Your Committee adjusts the Department of Taxation's appropriation by adding \$3,745,912 in general funds in fiscal year 2019-2020, and \$4,905,912 in general funds in fiscal year 2020-2021.

Your Committee recognizes the Department's intent to restructure and reorganize internal divisions to streamline processes and staff resulting in potential cost savings and increased employee engagement and value, while maintaining effectiveness. As such, your Committee approves two permanent positions and \$105,912 in each fiscal year for tax services and processing.

Your Committee also acknowledges that the Tax System Modernization project has demonstrated the potential to help taxpayers and the Department by speeding up processing times, ensuring greater accuracy, and securing taxpayer information. Therefore, in continuing to support the project, your Committee approves \$3,640,000 in fiscal year 2019-2020, and \$4,800,000 in fiscal year 2020-2021, for additional equipment and services to assist the Department with post-implementation efforts.

#### Transportation

Your Committee adjusts the Department of Transportation's appropriation by adding \$155,659,910 in non-general funds in fiscal year 2019-2020, and \$162,679,495 in non-general funds in fiscal year 2020-2021.

### Airports

Your Committee acknowledges the need for staffing for the new Mauka concourse and approves necessary personnel for Daniel K. Inouye International Airport, including fifty-three permanent positions and \$3,068,477 for fiscal year 2019-2020, and \$3,789,034 for fiscal year 2020-2021 for staffing and operational needs.

Your Committee recognizes the importance of the state airports system and allocates \$30,000,000 in each fiscal year for special maintenance of the airports system.

#### Harbors

Your Committee recognizes the importance of the state harbors system and appropriates \$5,000,000 in each fiscal year for special maintenance of the harbors system.

#### Highways

Your Committee recognizes that pedestrian safety is a priority for the Department of Transportation Highways Division and thus appropriates \$2,000,000 in each fiscal year for traffic control.

Finally, your Committee recognizes the importance of the state highways system and appropriates \$44,000,000 in fiscal year 2019-2020, and \$58,000,000 in fiscal year 2020-2021, for special maintenance of the highways system.

### University of Hawaii

Your Committee adjusts the University of Hawaii's appropriation by adding \$5,186,864 in fiscal year 2019-2020, and \$5,435,831 in fiscal year 2020-2021.

Your Committee approves \$1,471,000 in each fiscal year for the Hawaii Promise program to provide scholarships for college students with financial needs and to encourage more students to attend college.

Your Committee also provides other necessary personnel and capacity needs for the University of Hawaii by supporting graduate students, student mentors, and tutors. Your Committee approves \$2,198,360,000 in fiscal year 2019-2020, and \$2,242,327 in general funds in fiscal year 2020-2021, to support graduate student base salaries. Additionally, your Committee provides \$500,000 in each fiscal year for student mentors and tutors at community colleges.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 116, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 116, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

## SCRep. 1215 Ways and Means on H.B. No. 1259

The purpose and intent of this measure is to appropriate funds for the capital improvement project costs of the State for the fiscal biennium 2019-2021.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of Defense, Department of Hawaiian Home Lands, Department of Agriculture, Department of Transportation, Department of Public Safety, Department of Accounting and General Services, Department of Health, Department of Education, Hawaii Public Housing Authority, Stadium Authority, Office of Enterprise Technology Services, Hawaii State Public Library System, and one individual.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Department of Budget and Finance, Department of Land and Natural Resources, University of Hawaii, Executive Office on Early Learning, Early Learning Board, Hawaii Housing Finance and Development Corporation, Hawaii Technology Development Corporation, and Hawaii Health Systems Corporation.

Your Committee finds that this measure provides an opportunity to invest in the State's infrastructure while remaining fiscally prudent.

The Administration's proposed capital improvement program budget totaled:

	<u>FY 2020</u>	<u>FY 2021</u>
General Obligation Bonds	\$978,181,000	\$731,543,000
All Means of Financing	\$2,020,809,000	\$1,483,192,000

Your Committee has amended this measure by inserting provisions that amend the Administration's capital improvement program budget to provide the following in capital improvement funds to focus on critical and significant capital projects:

	<u>FY 2020</u>	<u>FY 2021</u>
General Obligation Bonds	\$923,747,000	\$542,158,000
All Means of Financing	\$1,866,324,000	\$1,245,406,000

Your Committee has also amended the effective date of the measure to January 7, 2059, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1259, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1259, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

### SCRep. 1216 Human Services on H.B. No. 1355

The purpose and intent of this measure is to appropriate funds for operational expenses of the State Commission on the Status of Women.

Your Committee received testimony in support of this measure from the Department of Human Services, Hawai'i State Commission on the Status of Women, Planned Parenthood Votes Northwest and Hawaii, American Association of University Women of Hawaii, Hawaii Women's Coalition, and one individual. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that for over fifty years, the State Commission on the Status of Women has served as the main consultant to policymakers and as the central clearinghouse for women's resources. The Commission has also been instrumental in coordinating the three county commissions on women, producing statewide research, and supporting community programs on the most marginalized issues affecting women and girls. Your Committee further finds that the work of the State Commission on the Status of Women demonstrates the need for a continuing body to aid in the implementation of its recommendations, develop long-range goals, and coordinate research, planning, programming, and action on the opportunities, needs, problems, and contributions of women in Hawaii. This measure will provide the State Commission on the Status of Women the necessary funds to better fulfill the Commission's mandates and continue to be a voice and resource for Hawaii's women and girls.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1355, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

# SCRep. 1217 Human Services on H.B. No. 1417

The purpose and intent of this measure is to require the Department of Human Services to use an integrated and multigenerational approach to delivering human services to reduce the incidence of intergenerational poverty and dependence on public benefits.

Your Committee received testimony in support of this measure from the Department of Human Services, Office of Hawaiian Affairs, Hawai'i Primary Care Association, Parents and Children Together, and two individuals.

Your Committee finds that the Department of Human Services provides benefits and services to one in four Hawaii residents or nearly three hundred sixty thousand individuals, including benefits and services relating to homelessness, education, employment, health care, child care, food security, protective services, and vocational rehabilitation. Your Committee further finds that the Department of Human Services is part of a national movement to improve the delivery of human services and is adopting a service integration and multigenerational approach that is intended to improve the well-being of individuals, families, and the community; reduce dependence on public benefits; reduce the human and fiscal costs of poverty; and reduce intergenerational poverty. This measure requires the Department of Human Services to use an integrated multigenerational service delivery approach, which will refocus the Department of Human Services' efforts to provide available resources and support to reduce the time a child and family spends in poverty, stabilize the child's basic needs and environment to enhance the ability to learn, improve all recipients' economic security, and ultimately reduce intergenerational poverty in Hawaii.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1417, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

### SCRep. 1218 Human Services on H.B. No. 713

The purpose and intent of this measure is to establish a three-year homeless employment grant program within the Department of Human Services that provides homeless individuals with work opportunities and connects them with service providers.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness; Hawaii State Judiciary; The Institute for Human Services, Inc.; Hawaii Youth Services Network; Hawaii Kai Homeless Task Force; Honolulu County Republican Party; and seven individuals. Your Committee received comments on this measure for the Department of Human Services and State Procurement Office.

Your Committee finds that despite increased efforts and resources to reduce homelessness, homelessness still remains a significant issue in the State. Your Committee further finds that meaningful and sustainable employment is the key to creating and maintaining housing stability. Unemployment, underemployment, and low wages relative to rent are frequent causes of homelessness and burden millions of families with the risk of becoming homeless.

Your Committee recognizes that there is not enough housing subsidy to sustain housing for everyone who may need assistance. Alternatively, working with participants to gain meaningful and sustainable income through job training and apprenticeship programs is a way to assist homeless individuals in growing income and preventing returns to homelessness following housing placement. This measure establishes a homeless employment grant program, which will allow homeless individuals to gain valuable work experience, obtain longer-term, competitive employment, maintain housing stability, and progress to becoming self-sufficient and contributing to their community.

Your Committee has amended this measure by:

- (1) Clarifying that contracts between the Department of Human Services and a service provider or other qualified person or entity to administer the homeless employment grant program are exempt from section 103F, Hawaii Revised Statutes;
- Specifying that the period of performance for exempt contracts shall not exceed the three-year term of the homeless employment grant program;
- (3) Specifying additional requirements for the homeless employment grant program, including conducting an assessment; assisting homeless individuals with funding assistance; coordinating with homeless outreach, shelter, and case management services; and conducting training for financial literary skills;
- (4) Removing language that would have required the homeless employment grant program to connect homeless individuals with service providers at the appropriate time; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 713, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 713, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

### SCRep. 1219 Human Services on H.B. No. 218

The purpose and intent of this measure is to grant the Circuit Court when sentencing a minor for a criminal offense, the discretion to:

- Impose a sentence that includes a period of incarceration that is as much as fifty percent shorter than any mandatory minimum;
   and
- (2) In certain cases, decline to impose a mandatory enhanced sentence.

Your Committee received testimony in support of this measure from the State of Hawaii Office of the Public Defender, Hawaii Youth Services Network, Human Rights for Kids, Community Alliance on Prisons, and three individuals. Your Committee received testimony in opposition to this measure from the Honolulu Police Department and Department of the Prosecuting Attorney of the City and County of Honolulu. Your Committee received comments on this measure from The Sex Abuse Treatment Center.

Your Committee finds that minors differ from adults in the way they behave, solve problems, and make decisions. Minors are more likely to be influenced by their peers, act on impulse, misread or misinterpret social cues, and engage in dangerous and risky behavior. Research has shown that minors have brains that are still developing and that they are still learning and maturing as they transition into adulthood. Your Committee further finds that the recent trend in the United States has been to give greater discretion to courts when sentencing minors. This measure gives the Circuit Court the opportunity to consider mitigating factors when determining an appropriate sentence for a minor, which will allow certain minors to avoid harsh mandatory sentencing and provide a greater opportunity for rehabilitation.

Your Committee has heard the concerns raised in testimony regarding the judicial discretion proposed by this measure. According to the Department of the Prosecuting Attorney of the City and County of Honolulu and The Sex Abuse Treatment Center, there is already a process by which the Family Court considers mitigating factors in determining whether a minor is transferred to and sentenced in the adult court system. Testimony also indicated that the adult court system already makes accommodations for minors when determining sentencing. Concerns were also raised that this measure requires the Circuit Court to consider leniency for those who committed violent felony offenses, and whose crimes resulted in serious injury to others. Your Committee acknowledges these concerns and notes that lighter sentencing guidelines for minors may be more appropriately applied for non-violent offenses.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the judicial discretion proposed by this measure does not apply when a minor is being sentenced for a felony that is a violent crime or that resulted in serious bodily injury; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 218, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 218, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

### SCRep. 1220 Water and Land on H.B. No. 1068

The purpose and intent of this measure is to make an appropriation for a Heeia State Park community-based long-range plan and education center for the Heeia National Estuarine Research Reserve System.

Your Committee received testimony in support of this measure from the Hawai'i Institute of Marine Biology, Aha Moku Advisory Committee, He'eia National Estuarine Research Reserve, The Nature Conservancy Hawai'i, Ko'olaupoko Hawaiian Civic Club, and Ko'olau Foundation. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the Heeia National Estuarine Research Reserve (HeNERR) is one of twenty-nine protected areas within the National Estuarine Research Reserve System. The HeNERR, which includes Heeia State Park, Heeia fishpond, and the Heeia community development district, as well as marine waters with patch and fringing reefs and Moku o Loe (Coconut Island), requires development of a community-based long-range plan for Heeia State Park to bring the activities in Heeia State Park into alignment with the community's interests, and to plan an education center that will help fulfill the mission of the state-federal partnership.

Your Committee has amended this measure by:

- (1) Clarifying that the appropriation is for the planning and design of an education center; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1068, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1068, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

### SCRep. 1221 Water and Land on H.B. No. 1133

The purpose and intent of this measure is to limited access to the Maui Molokini Shoal Marine Life Conservation District (MLCD) to fifty percent of commercial permit holders at any time.

Your Committee received testimony in support of this measure from the Ocean Tourism Coalition, Trilogy Corporation dba Trilogy Excursions, Malolo Charters, Calypso Charters, Alii Nui Charters, Kai Kanani Sailing, Maui to Molokai Sea Cruises, Maui Classic Charters, PacWhale Eco Adventures, Blue Water Rafting, Animal Rights Hawai'i, Yuki Gatsu Seafoods Inc., and nine individuals. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources, God's Country Waimānalo, The Nature Conservancy Hawai'i, and twenty-three individuals.

Your Committee finds that the Maui Molokini Shoal MLCD is an area about three miles off of Maui's southwestern coast containing the crescent shaped islet of Molokini. Access is by boat only, and there is no sand beach on Molokini. The area includes the cove with sand patches, coral, and basaltic boulders on the bottom, and a shallow reef in less than thirty feet of water. The diversity of fish and other marine life within the MLCD is among the most impressive in the State; even humpback whales have been known to enter the cove, making it a popular attraction for visitors. As the popularity of the MLCD continues to increase, it is essential to set limits to ensure the sustainability and health of this precious resource for present and future generations.

Your Committee has amended this measure by:

- (1) Inserting language to prohibit the issuance of more than forty access permits for the MLCD;
- (2) Clarifying that access to the MLCD at any one time shall be limited to no more than fifty percent, rounded to the lesser of the nearest whole number, of the current number of permit holders; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1133, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1133, H.D. 2, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

### SCRep. 1222 Water and Land on H.B. No. 454

The purpose and intent of this measure is to appropriate funds to support native dryland forest restoration, management, and maintenance on Kaho'olawe Island Reserve.

Your Committee received testimony in support of this measure from the Kaho'olawe Island Reserve Commission, County of Maui, Aha Moku Advisory Committee, Ocean Tourism Coalition, EcoTipping Points Project, and twenty-two individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee finds that prior military use of Kahoʻolawe has greatly impacted the native dryland forest of the Kahoʻolawe Island Reserve. Ongoing restoration efforts include data collection on species currently living in the Reserve, monitoring of threats to the ecosystem and its species, reforestation and re-vegetation of portions of the island, erosion control systems, and replacement of alien plant species with native species. Your Committee finds it necessary to provide adequate funding to support native dryland forest restoration, management, and maintenance on Kahoʻolawe Island Reserve.

Your Committee has amended this measure by moving language that details the appropriation from the purpose section to the appropriation section.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 454, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 454, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Nishihara).

### SCRep. 1223 Water and Land on H.B. No. 558

The purpose and intent of this measure is to appropriate funds for the establishment of four full-time equivalent permanent ocean safety officers and equipment for use by ocean safety officers at Manini 'ōwali Beach at Kua Bay in the Kekaha Kai State Park on the island of Hawaii.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i Tourism Authority, Office of the Mayor of the County of Hawai'i, three members of the Hawai'i County Council, Hawai'i County Fire Commission, Hawai'i State Association of Counties, and Kohala Coast Resort Association.

Your Committee finds that Kua Bay, at Kekaha Kai State Park, between Kona and the resorts of the Kohala Coast on the island of Hawaii, has recently seen an increase in visits by locals and tourists, making Kua Bay one of the most popular beaches in the State. The increase in visitation has been accompanied by an increase in dangerous incidents, injuries, and deaths, which could be mitigated by placement of lifeguards at Kua Bay. Although Kua Bay is under the jurisdiction of the Department of Land and Natural Resources, the State currently does not employ its own lifeguards at Kua Bay. Your Committee finds that the employment of lifeguards and purchase of necessary equipment at Kua Bay will help to save lives and prevent injury to residents and visitors.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 558, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 1224 Water and Land on H.B. No. 455

The purpose and intent of this measure is to provide funds to the Department of Land and Natural Resources for the Kahoʻolawe Island Reserve Commission to effectively meet the unique challenges of restoring, preserving, and determining the appropriate uses of the Kahoʻolawe Island Reserve for the people of Hawaii and for two positions for the Commission.

Your Committee received testimony in support of this measure from the Kahoʻolawe Island Reserve Commission, Aha Moku Advisory Committee, County of Maui, Ocean Tourism Coalition, and fourteen individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee finds that extensive erosion and other ecological problems and the presence of unexploded ordnance, archaeological and other cultural and historic sites, and native and endangered flora and fauna necessitated a new management regime to effectively meet the unique challenges of restoring, preserving, and determining the appropriate use of Kahoʻolawe. As a result, management and control of Kahoʻolawe was transferred to the Kahoʻolawe Island Reserve Commission in 2004, with funding from federal and state sources; however, funding has run low in recent years. Your Committee further finds that the Kahoʻolawe Island Reserve Commission is not only restoring the ecological damage on Kahoʻolawe and protecting its endangered and rare flora and fauna, it is also ensuring that the people of Hawaii who access the Kahoʻolawe Island Reserve can do so meaningfully and safely. Therefore, your Committee finds it necessary to provide adequate funding for the Kahoʻolawe Island Reserve Commission.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 455, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Nishihara).

### SCRep. 1225 Labor, Culture and the Arts on Gov. Msg. No. 601

Recommending that the Senate advise and consent to the nomination of the following:

### DIRECTOR OF THE DEPARTMENT OF HUMAN RESOURCES DEVELOPMENT

G.M. No. 601 RYKER WADA, for a term to expire at noon on 12-05-2022

Your Committee reviewed the personal history, resume, and statement submitted by Ryker Wada for service as the Director of Human Resources Development.

Your Committee received testimony in support of the nomination for the appointment of Mr. Wada from the Governor; Department of Human Resources Development; Department of Accounting and General Services; Department of Human Services; Office of Enterprise Technology Services; Department of Budget and Finance; Department of Health; Department of Land and Natural Resources; Department of Labor and Industrial Relations; Department of Transportation; Department of Agriculture; Department of Business, Economic Development, and Tourism; Department of Public Safety; University of Hawaii Professional Assembly; United Public Workers, AFSCME, Local 646, AFL-CIO; YMCA of Honolulu; Hawaii State Teachers Association; SanHi Government Strategies LLP; and nine individuals.

Your Committee finds that Mr. Wada is currently the Director of Human Resources Development. Previously, he served as the Deputy Director of Human Resources Development and as the Personnel Regional Officer of the Department of Education from February 2015 to January 2017. Mr. Wada has served, among other positions, as a managing attorney for the Legal Aid Society of Hawaii; Legislative Specialist in the Business Registration Division of the Department of Commerce and Consumer Affairs; Law Clerk at Wong Oshima, Attorneys at Law; and a staff attorney for the House of Representatives Committee on Consumer Protection and Commerce during the Regular Session of 2001. Mr. Wada was admitted to practice law in the State in 2003. He received a Juris Doctorate from the University of California, Hastings College of Law and a Bachelor of Arts in Political Science from the University of Washington.

Your Committee believes that Mr. Wada, with approximately sixteen years of experience in human resources, possesses the qualifications to continue to serve as the Director of Human Resources Development. More particularly, his invaluable experience in public sector labor relations will continue to serve him well in numerous labor protocols overseen by the Department. Testifiers commented on Mr. Wada's intelligence, passion, commitment, leadership skills, ability to collaborate, approachability, supportive nature, strong commitment to Hawaii's public servants, and passion for public service – qualities that benefit the Department as it strives to fulfil its mandates.

Your Committee notes that testifiers also remarked that Mr. Wada has demonstrated the ability to modernize the state government's workforce, provide timely and responsive leadership, resources, and service to fully support the State in recruitment and retention, and lead the Department of Human Resources Development. As the Director of Human Resources Development, Mr. Wada oversees the planning, directing, and coordinating of the State's personnel programs and human resource management practices and also serves as the Chief Negotiator for all collective bargaining with the State's public sector union. In his own testimony, Mr. Wada emphasized his commitment to creating a more sustainable workforce in Hawaii and contributing to society at large. Mr. Wada strongly believes that he has the experience and tools to continue to help the Department move forward.

Your Committee finds that Mr. Wada's vast experience, leadership, and collaborative nature will continue to serve him well as the Director of Human Resources Development.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Chang).

### SCRep. 1226 Agriculture and Environment on H.B. No. 1483

The purpose and intent of this measure is to amend the Greenhouse Gas Sequestration Task Force nomination and appointment process.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Healthy Climate Communities, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Organizing for Action, and fourteen individuals. Your Committee received comments on this measure from the Office of Planning, Trees for Honolulu's Future, The Outdoor Circle, 350Hawaii.org, and two individuals.

Your Committee finds that the Greenhouse Gas Sequestration Task Force was permanently established in 2018. The Greenhouse Gas Sequestration Task Force's mission, in part, is to examine opportunities to increase carbon sequestration through added trees and vegetation to reduce urban temperatures and thereby protect public health.

Your Committee received testimony from the Office of Planning indicating that after the end of the current fiscal year, the Greenhouse Gas Sequestration Task Force will not have sufficient funds to continue reimbursing Task Force members for reasonable expenses necessary for the performance of their duties. The Office of Planning further testified that there are no operational funds to enable the Task Force to fulfill its statutory mandates and requested \$300,000 for this purpose.

Your Committee has amended this measure accordingly by:

- (1) Inserting an appropriation of \$300,000 for the Office of Planning to administer the Greenhouse Gas Sequestration Task Force;
- (2) Inserting an effective date of July 1, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1483, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1483, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Ruderman, Thielen, Fevella). Noes, none. Excused, none.

### SCRep. 1227 Agriculture and Environment on H.B. No. 1366

The purpose and intent of this measure is to appropriate or authorize funds for programs of the Department of Health.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs under the purview of the Department of Health to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by:

- Amending the position ceilings, appropriation amounts, and means of financing for HTH840, Environmental Management, as per the Department of Health's written testimony;
- (2) Inserting an effective date of July 1, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1366, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1366, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 1228 Agriculture and Environment on H.B. No. 1103

The purpose and intent of this measure is to make an appropriation into and out of the pesticide use revolving fund to the Department of Agriculture to assist in eradication of the coffee berry borer through the pesticide subsidy program.

Your Committee received testimony in support of this measure from the Department of Agriculture, one member of the Hawai'i County Council, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawai'i Farm Bureau, and Hawaii Cattlemen's Council.

Your Committee finds that invasive species are a primary threat to Hawaii's agriculture and economy. The coffee berry borer is a significant coffee pest in Hawaii and around the world. Your Committee further finds that this measure's funding will allow the Department of Agriculture to continue to support coffee farmers through the duration of the pesticide subsidy program.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$350,000 for the pesticide subsidy program;
- (2) Funding the pesticide subsidy program directly through general revenues, rather than through the pesticide use revolving fund;
- (3) Inserting an effective date of July 1, 2019; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1103, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1103, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1229 Agriculture and Environment on H.B. No. 1367

The purpose and intent of this measure is to appropriate or authorize funds for programs of the Department of Health.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs of the Department of Health to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by:

- Amending the position ceilings and appropriation amounts for HTH849, Environmental Health Administration, as per the Department of Health's written testimony;
- (2) Inserting an effective date of July 1, 2019; and

(3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that consideration be given to incorporate the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1367, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1367, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 1230 Agriculture and Environment on H.B. No. 860

The purpose and intent of this measure is to appropriate funds for the acquisition of the property identified as tax map key number (1)9-2-001:011-0000 to help fulfill the State's constitutional duty to conserve and protect land in the agricultural district and promote diversified agriculture.

Your Committee received testimony in support of this measure from the Department of Agriculture, Agribusiness Development Corporation, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawai'i Farm Bureau, and one individual.

Your Committee finds that it is in the best interest of the State to purchase land to make it available for farmers with a long-term lease at an affordable price. Your Committee further finds that tax map key number (1) 9-2-001:011-0000 is located at 94-488 Kunia Road on Oahu and encompasses two hundred eighty-two acres counting the existing baseyard and greenhouse infrastructure. The existing facilities and buildings are in good working order and can be repurposed with minimal changes. The Agribusiness Development Corporation plans to use this parcel for multiple purposes, such as Department of Agriculture animal and plant industry activities, research and development projects for outdoor and controlled environment growing systems, and commercial agriculture.

Your Committee further finds that the acquisition of the land and buildings in Kunia will significantly increase the available agricultural land under the State's control and can provide farmers with long-term leases that will enhance the economic viability of Hawaii's agricultural industry. Your Committee believes that this is an opportunity to further support and expand the State's ability to provide agricultural lands for farmers, which is consistent with the State's constitutional duty to conserve and protect land in the agricultural district and promote diversified agriculture.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$15,000,000; and
- (2) Inserting an effective date of July 1, 2019.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 860, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 860, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 1231 Agriculture and Environment on H.B. No. 1365

The purpose and intent of this measure is to appropriate or authorize funds for certain programs of the Department of Agriculture.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Farm Bureau, and Hawaii Cattlemen's Council.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for certain programs of the Department of Agriculture to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by:

- (1) Eliminating provisions related to revolving funds and the subtraction of \$750,000 in general funds for each fiscal year from AGR 846;
- (2) Changing the funding source for the two permanent positions from revolving funds to general funds and amending the appropriation amount to \$97,896 per fiscal year;
- (3) Changing the effective date to July 1, 2019; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means chooses to pass this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1365, H.D. 1, as amended herein, and recommends that it

pass Second Reading in the form attached hereto as H.B. No. 1365, H.D. 1, S.D. 1, and be referred to your Committee on Ways and

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 1232 Agriculture and Environment on H.B. No. 1561

The purpose and intent of this measure is to:

- (1) Appropriate or authorize funds for programs of the Department of Agriculture;
- (2) Require the Auditor to conduct a performance audit of the Agribusiness Development Corporation and authorize the Auditor to conduct a financial audit of the Corporation if sufficient funds are available; and
- (3) Require the Agribusiness Development Corporation to include certain information in its annual report to the Governor and Legislature and post the information on its website.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Center for Food Safety, Hawai'i Farm Bureau, Hawai'i Alliance for Progressive Action, and one individual. Your Committee received comments on this measure from the Agribusiness Development Corporation and the Office of the Auditor.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs of the Agribusiness Development Corporation to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately. As such, your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

Your Committee further finds that the Agribusiness Development Corporation coordinates and administers programs to assist agricultural enterprises with the transition from plantation operations to other agricultural enterprises. This task requires the Agribusiness Development Corporation to acquire agricultural lands, develop and restore critical infrastructure, including irrigation and water sourcing, and develop diversified agricultural facilities, among other responsibilities. As a public corporation, it is in the best interests of the State to audit and require the inclusion of certain information relating to the Corporation's lands and projects in its annual report for public transparency and oversight.

Your Committee has amended this measure by:

- (1) Inserting an appropriation of \$125,000 for fiscal year 2019-2020 for the Auditor to contract with an accounting firm to conduct an audit of the Agribusiness Development Corporation;
- (2) Reinserting the appropriation amounts from the original version of this measure;
- (3) Inserting an effective date of July 1, 2019; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that there is some ambiguity as to the scope of the audit and requests that your Committee on Ways and Means consider the Auditor's testimony requesting the Legislature to identify specific programs or activities that the Auditor should examine in the course of the audit of the Agribusiness Development Corporation.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1561, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1561, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1233 Agriculture and Environment on H.B. No. 1562

The purpose and intent of this measure is to appropriate or authorize funds for programs of the Department of Agriculture.

Your Committee received testimony in support of this measure from the Department of Agriculture and Hawai'i Farm Bureau.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs of the Department of Agriculture to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by:

- (1) Inserting the Department of Agriculture's operating budget requests, position counts, and appropriation amounts as per the Department's written testimony;
- (2) Inserting an effective date of July 1, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1562, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1562, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1234 Agriculture and Environment on H.B. No. 425

The purpose and intent of this measure is to appropriate funds to the Department of Health to establish one full-time equivalent position to conduct water quality assessments on all streams and coastal waters on the island of Hawaii, investigate complaints, and enforce surface water regulations.

Your Committee received testimony in support of this measure from the Mayor of Hawai'i County, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that the Clean Water Branch of the Department of Health has inadequate staff capacity to meet its obligations to perform timely monitoring that helps ensure the island of Hawaii's stream and coastal water safety for public swimming, fishing, and other recreation. The Department of Health has only one water quality resident inspector for the County of Hawaii. Your Committee further finds that contaminants from waste water treatment plant outfalls, injection wells, and cesspools need to be addressed by the Clean Water Branch because of the contaminants' role in harming coral reefs on the island of Hawaii.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$50,772;
- (2) Inserting an effective date of July 1, 2019; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 425, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 425, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

### SCRep. 1235 Agriculture and Environment on H.B. No. 530

The purpose and intent of this measure is to expand the availability of agricultural loans by committing certain monies available in the state treasury for the creation of linked investments through agreements with eligible lending institutions.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and one individual. Your Committee received comments on this measure from the Department of Agriculture and Department of Budget and Finance.

Your Committee finds that one method to support agriculture is the linked investment concept, which began in Iowa and has successfully helped diversify Iowa's agricultural-based economy, has been expanded to assist women- and minority-owned small businesses, and has helped increase employment opportunities for rural communities facing a business closure, traditional livestock producers, and others.

Your Committee further finds that under a linked investment program for agriculture proposed by this measure, a person or enterprise proposing to engage in an agricultural enterprise would apply to a lending institution that will evaluate the proposal and certify the applicant as an eligible borrower. The institution would then prepare a linked investment loan package and submit it to the Director of Finance. If the Director accepts the loan package, the Director will place a certificate of deposit for the loan amount with the lending institution.

Your Committee believes that expanding the availability of agricultural loans through a linked investment program will help local farmers increase and diversify agricultural production in furtherance of the sustainability and self-sufficiency goals of the State.

Your Committee has amended this measure by:

- Authorizing, rather than requiring, the Director of Finance to consider the availability of state funds when accepting or rejecting a linked investment loan package;
- (2) Requiring the Director of Finance to approve certificates of deposit renewals;
- (3) Limiting certificates of deposit renewals to five additional one-year periods, to conform to section 36-21, Hawaii Revised Statutes;
- (4) Clarifying that certificates of deposit are not to be considered security for the linked investment;
- (5) Prohibiting the Director of Finance from investing in linked investments more than \$5,000,000 of monies available in the state treasury for deposit under section 38-2, Hawaii Revised Statutes;
- (6) Appropriating funds to the Department of Budget and Finance to hire one full-time equivalent position to administer the new linked investment program;

- (7) Amending section 1 to reflect its amended purpose; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 530, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 530, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Ruderman, Thielen). Noes, none. Excused, 1 (Fevella).

### SCRep. 1236 Agriculture and Environment on H.B. No. 616

The purpose and intent of this measure is to exempt amounts received by a producer of locally grown produce and locally raised livestock food products from the general excise tax.

Your Committee received testimony in support of this measure from the Department of Agriculture, Ulupono Initiative, Hawaii Cattlemen's Council, Hawaii Food Industry Association, Honolulu County Republican Party, Hawaii Farm Bureau, Maui Chamber of Commerce, and three individuals. Your Committee received comments on this measure from the Department of Taxation, Department of the Attorney General, and Tax Foundation of Hawaii.

Your Committee finds that this measure offers a tax exemption for farmers and ranchers of local produce and livestock for consumption within the State. Your Committee further finds that this measure would support food producers by making local products more competitive and less costly to produce. Additionally, the cost savings for producers can have a trickle-down effect and reduce the cost of locally produced food products for consumers.

Your Committee also finds that this measure supports the State's goals of food security and self-sufficiency with direct benefits to farmers and ranchers who locally grow agricultural products. Your Committee believes that this measure will help produce more local food and support an economically-robust, homegrown agricultural industry that can benefit the community with fresh, healthy food.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 616, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1237 Agriculture and Environment on H.B. No. 123

The purpose and intent of this measure is to abolish the Hawaii Department of Agriculture biocontrol foreign exploration special fund pursuant to the recommendation by the Auditor in Auditor's Report No. 18-15, and transfer the unencumbered balances to the general fund.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Agriculture and Tax Foundation of Hawaii.

Your Committee finds that the Hawaii Department of Agriculture biocontrol foreign exploration special fund was administratively established in 2010 for the Department of Land and Natural Resources to transfer monies to the Department of Agriculture at the direction of the Hawaii Invasive Species Council to support foreign exploration and research of biocontrol agents. The remaining funds in the biocontrol foreign exploration special fund were returned to the Department of Land and Natural Resources, and, as of January 2019, the fund balance is zero dollars.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 123, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 1238 Labor, Culture and the Arts on H.B. No. 418

The purpose and intent of this measure is to appropriate or authorize funds for programs of the State Foundation on Culture and the Arts.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs of the Department of Accounting and General Services to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2019; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 418, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 418, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

### SCRep. 1239 Labor, Culture and the Arts on H.B. No. 1532

The purpose and intent of this measure is to allow hearsay evidence to be admitted and considered in unfair labor practices proceedings.

Your Committee received testimony in support of this measure from the Hawaii Labor Relations Board. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Hawaii Labor Relations Board hears cases involving unfair labor practices. Under the existing law, the Hawaii Labor Relations Board is not allowed to consider hearsay evidence in unfair labor practices proceedings. Your Committee also finds that although there are concerns that hearsay evidence, if allowed, could lead to less than reliable evidence being considered, the Hawaii Labor Relations Board is able to consider all the evidence presented in its deliberation and assign the evidence the proper weight. This measure will provide the Hawaii Labor Relations Board with the opportunity to evaluate in totality all facts and circumstances and allow it to consider all of the evidence in its decision-making process.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1532, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

### SCRep. 1240 Water and Land on H.B. No. 125

The purpose and intent of this measure is to repeal or abolish various non-general funds and accounts pursuant to the recommendations by the Auditor in Auditor's Report No. 18-19 and to transfer the unencumbered balances to the general fund.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that pursuant to section 23-12, Hawaii Revised Statutes, the Auditor produced Auditor's report No. 18-19, Review of Special Funds, Revolving Funds, Trust Funds, and Trust Accounts of the Department of Land and Natural Resources, in December 2018. The Auditor found that seventeen funds and accounts did not meet certain criteria and made recommendations to close a number of them. This measure abolishes specific non-general funds and accounts pursuant to the Auditor's recommendations.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 125, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 1241 Water and Land on H.B. No. 451

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources for the operational expenses and staffing costs of the Hawaii Association of Conservation Districts.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; Hawai'i Farm Bureau; Maui County Farm Bureau; Land Use Research Foundation of Hawaii; Hawaii Cattlemen's Council, Inc.; Hawaii Association of Conservation District; Ka'u Soil and Water Conservation; Maui Soil and Water Conservation District; Local Food Coalition; Ulupono Initiative; Larry Jefts Farms, LLC; Ponoholo Ranch, Ltd.; Hawaii Coffee Association; Hawai'i Center for Food Safety; A'a Li'i Farm; Birds With Arms Farms; East Kauai Soil and Water Conservation District; and fifty-seven individuals.

Your Committee finds that the Hawaii Association of Conservation Districts consist of sixteen soil and water conservation districts throughout the State who work together in a variety of ways to help protect and sustain Hawaii's natural environment. The Hawaii Association of Conservation Districts continues to work closely with a variety of federal and state agencies including the U.S. Environmental Protection Agency, United States Department of Agriculture's Natural Resources Conservation Service, University of Hawaii, and Hawaii State Department of Health. Your Committee further finds that due to funding shortages, the Hawaii Association of Conservation Districts has been limited in its ability to provide assistance to many farmers who can benefit from its services.

Your Committee has amended this measure by making it effective on July 1, 2019.

Your Committee recommends that your Committee on Ways and Means consider the request of the Hawaii Association of Conservation Districts to include its budget of \$500,000 in the Department of Land and Natural Resources' base operating budget.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 451, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 451, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1242 Government Operations on H.B. No. 169

The purpose and intent of this measure is to clarify provisions of the State Ethics Code regarding gift disclosure statements, retention of financial disclosure statements, transcripts from contested case hearings, and ethics training.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission.

Your Committee finds that under existing law, the gift disclosure statement reporting period is from June 1 of the preceding calendar year through June 1 of the year of the report, which means that a gift received on June 1 must be reported twice.

Your Committee further finds that the State Ethics Commission is currently required to keep financial disclosure statements for the duration of the term of office of the legislator, employee, or delegate, plus an additional six years after filers leave office, which causes an unnecessary amount of administrative recordkeeping, especially in the case of Legislators who stay in office for many years.

Your Committee additionally finds that under the Uniform Information Practices Act (UIPA), contested case hearings are public. However, language under the State Ethics Code restricts access to transcripts, which conflicts with the policies underlying UIPA.

Your Committee also finds that existing law states that an ethics training session must be held in January and last a minimum of two hours, which is outdated and does not reflect the actual training being provided. Currently, training is offered multiple times a year and often lasts between an hour to an hour and a half.

Accordingly, this measure addresses these issues and improves administration of the State Ethics Code by eliminating the double filing requirement of gift disclosure statements, reducing the unnecessary administrative burden on commission staff by only requiring records to be kept six years after the filing date of each financial disclosure statement, eliminating language that restricted access to transcripts, and providing flexibility for participants in mandatory ethics training sessions.

Your Committee has amended this measure by changing its effective date to July 1, 2019.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 169, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 169, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1243 Labor, Culture and the Arts on H.B. No. 32

The purpose and intent of this measure is to extend the deadline for the Legislative Reference Bureau to submit the sunrise analysis required by Act 109, Session Laws of Hawaii 2018, from September 1, 2019, to November 13, 2019.

Your Committee received testimony in support of this measure from the Department of Human Services, Hawaii State Commission on the Status of Women, Hawaii State Teachers Association, Hawaii Women's Coalition, American Association of University Women of Hawaii, Hawaii Appleseed Center for Law & Economic Justice, Hawaii Children's Action Network, PHOCUSED, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Maui Chamber of Commerce, Retail Merchants of Hawaii, and one individual. Your Committee received comments on this measure from the Legislative Reference Bureau, and Chamber of Commerce Hawaii.

Your Committee finds that Act 109, Session Laws of Hawaii 2018 (Act 109), directed the Legislative Reference Bureau to conduct a sunrise analysis to determine the impacts of the establishment of a paid family leave program on industry, consumers, employees, employers, and caregivers. The intent of Act 109 was to lay the groundwork for the establishment of a paid family leave framework that will enable all employees to access leave benefits during times when they need to provide care for a family member. Your Committee further finds that the Legislative Reference Bureau issued a request for proposals to conduct the analysis, then found that it was in the best interest of the State to cancel the request. Your Committee also finds that due to the cancelation of the original request for proposals, it would be difficult, given the current timeframe, for the Legislative Reference Bureau to sufficiently conduct and provide a thorough and concise analysis by the September 1, 2019, submission deadline. This measure would allow the Legislative Reference Bureau additional time to submit its analysis.

Your Committee has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 32, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 32, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

### SCRep. 1244 Labor, Culture and the Arts on H.B. No. 157

The purpose and intent of this measure is to:

- (1) Expand the types of employee information government agencies are required to disclose, upon written request, to employee exclusive representatives; and
- (2) Require that information regarding new hire employees under the collective bargaining disclosure requirements be provided to the appropriate exclusive representatives within an unspecified payroll period.

Your Committee received testimony in support of this measure from the University of Hawaii Professional Assembly; United Public Workers, AFSCME, Local 646, AFL-CIO; and Hawaii Government Employees Association, AFSCME, Local 152, AFL-CIO. Your Committee received comments on this measure from the Department of Human Resources Development and Department of Education.

Your Committee finds that exclusive representatives represent each and every employee in a bargaining unit and as such, need to have pertinent employment information within a certain period of time to be able to best serve their members. However, under existing law, the information to be provided to exclusive representatives is limited and often times, may not be provided in a timely manner. This measure will ensure that exclusive representatives have the necessary information to contact employees to provide them with information regarding available protections and benefits.

Your Committee notes the concerns of the Department of Education that because of the timing of when new hires begin employment and the fact that physical workplace addresses may frequently change, the Department may have difficulty meeting all of the requirements of this measure. As such, as this bill moves through the legislative process, your Committee will work with the Department to craft language that addresses the Department's concerns while ensuring that the exclusive representative receives the necessary information in a timely manner.

Your Committee has amended this measure by changing the effective date to October 1, 2019, to give the Department of Education additional time after the start of the school year to be able to meet the requirements of this measure.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 157, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 157, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

### SCRep. 1245 Labor, Culture and the Arts on H.B. No. 1008

The purpose and intent of this measure is to:

- (1) Transfer the Office of Collective Bargaining and Managed Competition from the Office of the Governor to the Department of Human Resources Development; and
- (2) Rename the Office of Collective Bargaining and Managed Competition to the Office of Collective Bargaining.

Your Committee received testimony in support of this measure from the Office of the Governor and Department of Human Resources Development.

Your Committee finds that because no position is authorized or appropriated for the chief negotiator position within the Office of Collective Bargaining, the Director of Human Resources Development has assumed the duties and responsibilities of the chief negotiator, which includes assisting the Governor in formulating statewide philosophy for public collective bargaining. With no staff currently allocated to the Office of Collective Bargaining, the Department of Human Resources Development Labor Relations Division provides the necessary support to the Director of Human Resources Development in the Director's role as chief negotiator. By transferring the Office of Collective Bargaining to the Department of Human Resources Development, this measure helps to maintain the institutional knowledge of the statewide philosophy for collective bargaining within one department that will span across future executive administrations.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2051, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1008, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1008, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

### SCRep. 1246 Labor, Culture and the Arts on H.B. No. 1187

The purpose and intent of this measure is to appropriate and authorize from other funds of the Employees' Retirement System Pension Trust for fiscal biennium 2019-2021, the additional sum of \$3,628,613 for fiscal year 2019-2020, and the additional sum of \$1,885,525 for fiscal year 2020-2021 for various Employees' Retirement System operating costs and services.

Your Committee received testimony in support of this measure from the Employees' Retirement System.

Your Committee finds that the Employees' Retirement System's (ERS) objectives are to provide retirement and survivor benefits to state and county employees, retirees, beneficiaries, and inactive vested members, as well as to prudently maximize the return on its

investment portfolio in an effort to guarantee availability of needed funds, lower long-term employer and employee contributions, and ultimately lower the cost to taxpayers. Your Committee also finds that this measure allows for the expenditure of other (non-general) funds of the ERS for services that will ultimately improve the ERS as a whole.

Your Committee has amended this measure by inserting an effective date of January 1, 2051, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1187, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1187, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

### SCRep. 1247 Hawaiian Affairs on H.B. No. 1116

The purpose and intent of this measure is to require the candidates for the Board of Trustees of the Office of Hawaiian Affairs to be displayed on the ballot by residency and non-residency requirements and to randomize the order of candidate names within those groupings and among precincts.

Your Committee received testimony in support of this measure from the Council for Native Hawaiian Advancement and three individuals. Your Committee received comments on this measure from the Office of Elections and one individual.

Your Committee finds that under existing law, names of candidates for the Board of Trustees of the Office of Hawaiian Affairs are placed on the ballot in alphabetical order. However, ballot order has been shown to affect election outcomes and the first name on the ballot generally has an advantage over names listed further down the ballot. To mitigate any advantage that may arise from the order of candidate names on the ballot, this measure requires that the names of candidates for the Board of Trustees of the Office of Hawaiian Affairs be randomized on individual ballots and also randomly rotated between precincts.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1116, H.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Keohokalole).

#### SCRep. 1248 Hawaiian Affairs on H.B. No. 1402

The purpose and intent of this measure is to establish the micro enterprise assistance program on Hawaiian home lands subaccount within the Hawaii community-based economic development revolving fund to provide grants and loans through the micro enterprise assistance program to qualified native Hawaiian entities.

Your Committee received testimony in support of this measure from the Council for Native Hawaiian Advancement, Sovereign Council of Hawaiian Homestead Associations, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance; Department of the Attorney General; Department of Business, Economic Development, and Tourism; and Department of Hawaiian Home Lands.

Your Committee finds that when Hawaii was admitted to the Union, the Hawaii Admission Act of 1959 transferred complete responsibility of the Hawaiian Homes Commission Act and Hawaiian home lands from the federal government to the State. One of the goals of the Hawaiian Homes Commission Act that the State agreed to undertake is to enable native Hawaiians to live self-sufficient lives on the Hawaiian home lands. This measure is intended to help achieve that goal by providing grants and loans to support commercial and community projects being initiated on Hawaiian homelands.

Your Committee understands the constitutional concerns raised by the Attorney General, however your Committee also notes the position of proponents of this measure that the State's obligation under the Hawaiian Homes Commission Act remains in effect today and, while the State has traditionally used the Department of Hawaiian Home Lands to fulfill this obligation, it is not the only agency at the State's disposal to meet its responsibilities. Your Committee further notes that the Department of Business, Economic Development, and Tourism has experience administering programs similar to the one contemplated in this measure and has authority to contract with outside sources for program administration as it deems necessary.

Your Committee has amended this measure by:

- (1) Establishing the micro enterprise assistance program on Hawaiian home lands revolving fund in lieu of creating a subaccount within the Hawaii community-based economic development revolving fund;
- (2) Clarifying that loans and grants under this measure may be provided to qualified native Hawaiians, native Hawaiian-controlled homestead associations, and Hawaiian homestead associations' designated community development corporations;
- (3) Removing references to the Hawaiian home lands development program as a source of monies for the micro enterprise assistance program on Hawaiian home lands revolving fund; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1402, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1402, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Keohokalole).

#### SCRep. 1249 Hawaiian Affairs on H.B. No. 172

The purpose and intent of this measure is to:

- (1) Appropriate funds for various operating expenses of the Office of Hawaiian Affairs;
- (2) Allocate an unspecified amount of trust funds appropriated to the Office of Hawaiian Affairs to reimburse the Auditor for expenses related to a financial and management audit of the Office of Hawaiian Affairs; and
- (3) Allocate unspecified amounts of funds appropriated for beneficiary advocacy to social services, educational improvement programs, legal services, and housing issues.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Ke One O Kakuhihewa – Oʻahu Council of the Association of Hawaiian Civic Clubs, Council for Native Hawaiian Advancement, ALEA Bridge, Aliʻi Pauahi Hawaiian Civic Club, The Queen's Health Systems, Kuaʻāina Ulu 'Auamo, Kamehameha Schools, Prince Kūhiō Hawaiian Civic Club, Association of Hawaiian Civic Clubs, and thirteen individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies and one individual. Your Committee received comments on this measure from the Office of the Auditor.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for the Office of Hawaiian Affairs to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee further finds the Auditor's 2018 Audit of the Office of Hawaiian Affairs did not include a review of the limited liability companies created and used by the Office of Hawaiian Affairs in the course of its business. A performance and management audit of the Office of Hawaiian Affairs' limited liability companies may address community concerns, increase government transparency, and ensure public funds are expended effectively.

Your Committee has amended this measure by:

- (1) Limiting the audit of the Office of Hawaiian Affairs to a financial and management audit of limited liability companies created and used by the Office of Hawaiian Affairs and clarifying that auditing functions may be contracted to outside parties;
- (2) Changing the means of financing for the financial and management audit to general funds;
- (3) Expanding the permissible uses of beneficiary funds allocated for legal services to include assisting with Department of Hawaiian Home Lands matters; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating items in this measure into the appropriate legislative vehicle as necessary or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 172, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 172, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Keohokalole).

### SCRep. 1250 (Joint) Human Services and Commerce, Consumer Protection, and Health on H.B. No. 1270

The purpose and intent of this measure is to:

- (1) Extend the hospital sustainability program for two years;
- (2) Clarify exemptions from the hospital sustainability fee;
- (3) Increase the allowable aggregate fees charged to a hospital from 3.5 percent to 4.0 percent; and
- (4) Appropriate funds out of the hospital sustainability special fund for fiscal years 2019-2020 and 2020-2021.

Your Committees received testimony in support of this measure from the Department of Human Services, Healthcare Association of Hawaii, Kaiser Permanente Hawai'i, Hawai'i Pacific Health, Hawaii Medical Service Association, The Queen's Health Systems, and Chamber of Commerce Hawaii.

Your Committees find that the hospital sustainability program was established in 2012 to increase Medicaid payments to hospitals in recognition that Medicaid payments to hospitals were below the actual costs of care. Because of the hospital sustainability program, Medicaid payments to many hospitals in the State are closer to the actual costs of care, which helps ensure that Medicaid patients have access to the hospital care they need. This measure extends the hospital sustainability program, which will allow hospitals in the State to continue to serve underinsured and uninsured patients in a timely, effective manner, and ensure the overall sustainability of the health care system in Hawaii.

Your Committees have amended this measure by:

- (1) Changing the effective date to June 29, 2019; provided that the appropriation shall take effect on July 1, 2019; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1270, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1270, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Riviere, Fevella).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Keohokalole, Nishihara, Fevella).

#### SCRep. 1251 (Joint) Human Services and Commerce, Consumer Protection, and Health on H.B. No. 1449

The purpose and intent of this measure is to:

- (1) Extend the nursing facility sustainability fee program to 2021;
- (2) Allow the nursing facility sustainability fee to be used to enhance capitated rates for the purpose of paying quality incentives;
- (3) Increase the nursing facility sustainability fee limit from 4.0 to 5.5 per cent of net patient service revenue;
- (4) Increase the per resident daily maximum fee from \$13.46 to \$20 for each facility, and increase the per resident reduced daily maximum fee from \$5.85 to \$9 for facilities that meet certain exceptions; and
- (5) Appropriate funds.

Your Committees received testimony in support of this measure from the Department of Human Services, The Queen's Health Systems; Healthcare Association of Hawaii, and Hawaii Medical Service Association.

Your Committees find that nursing facilities in the State face major financial challenges in providing quality long-term care for Hawaii residents. As a result, the Legislature created the nursing facility sustainability program to increase Medicaid payments to nursing facilities, in recognition that Medicaid payments to nursing facilities are below the actual costs of care. The additional federal funds obtained via the fee program authorized by the nursing facility sustainability program have helped to reduce the amount of losses incurred by long-term care facilities and maintain access to care for Medicaid recipients. This measure extends the nursing facility sustainability program, which will preserve access to quality health care for Medicaid recipients.

Your Committees have amended this measure by:

- (1) Changing the effective date to June 29, 2019; provided that the appropriation shall take effect on July 1, 2019; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1449, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1449, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Riviere, Fevella).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Keohokalole, Nishihara, Fevella).

### SCRep. 1252 Agriculture and Environment on H.B. No. 1170

The purpose and intent of this measure is to establish and fund a new waste management solution pilot project to demonstrate new toilet and sewage treatment technologies and to expedite demonstration projects.

Your Committee received testimony in support of this measure from the Department of Health, County of Hawai'i Department of Environmental Management, Surfrider Foundation Hawaii Chapter, Surfrider Foundation Kaua'i Chapter, Hawaii Reef and Ocean Coalition, and two individuals.

Your Committee finds that non-point source discharge from cesspools is a serious threat to the State's water quality. The State has about 88,000 cesspools, which makes it the state with the highest number of cesspools in the country. These substandard wastewater systems leach an estimated 53 million gallons per day of untreated human waste, harmful pathogens, and nutrient loads into nearby waters. Cesspools' effluent can contaminate drinking water, streams, and oceans with disease-causing pathogens, algae-causing nutrients, and other harmful substances.

Your Committee further finds that determining the appropriate replacements for the numerous cesspools currently in use in the State requires study and reliable local alternatives. Your Committee finds that this measure would support necessary real world testing of proposed solutions to the cesspool closure process, such as demonstrating new toilet and sewage treatment technologies.

Your Committee has amended this measure by:

- (1) Making it effective on July 1, 2019; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1170, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1170, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1253 Agriculture and Environment on H.B. No. 463

The purpose and intent of this measure is to require and appropriate funds to the Department of Agriculture to partner with the agricultural community to establish a food safety certification training program for small and medium sized farms to comply with federal requirements.

Your Committee received testimony in support of this measure from the Department of Agriculture, University of Hawai'i System, Ulupono Initiative, Hawaii Food Industry Association, North Shore Economic Vitality Partnership, and Hawai'i Farm Bureau.

Your Committee finds that the Department of Agriculture works in partnership with the University of Hawaii College of Tropical Agriculture and Human Resources, which trains farmers on how to comply with the federal Food Safety Modernization Act, United States Food and Drug Administration's Produce Safety Rule, and requirements of the United States Department of Agriculture's Good Agricultural Practices requirements. Your Committee also finds that compliance with the Food Safety Modernization Act and Good Agricultural Practices certification are important for helping to ensure food safety and marketing and farm success.

Your Committee further finds that by requiring the Department of Agriculture to partner with the local agricultural community to develop and establish a food safety certification training program, this measure will help local farms produce food that meets certain food safety standards and spur an increase in the supply of safe, locally grown food. Your Committee also finds that an appropriation of \$150,000 in each year of fiscal biennium 2019-2021 is necessary to achieve the intent of this measure.

Your Committee has amended this measure accordingly by:

- (1) Inserting an appropriation amount of \$150,000 for each fiscal year of the 2019-2021 biennium;
- (2) Making it effective on July 1, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 463, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 463, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1254 Agriculture and Environment on H.B. No. 1503

The purpose and intent of this measure is to establish a two-year agricultural theft and vandalism pilot project to examine the effectiveness of prosecuting agricultural theft and vandalism cases in the County of Hawaii, including theft and vandalism affecting individuals who are not full-time farmers or ranchers.

Your Committee received testimony in support of this measure from the Department of Agriculture, County of Hawai'i Office of the Mayor, County of Hawai'i Office of the Prosecuting Attorney, one member of Hawai'i County Council, Ulupono Initiative, Hawai'i Farm Bureau, Maui County Farm Bureau, Hawaii Coffee Association, and two individuals.

Your Committee finds that agricultural vandalism and theft have resulted in economic hardships for farmers and their families. Your Committee also finds that the Department of Agriculture entered into a two-year contract with the Hawaii County Office of the Prosecuting Attorney for one investigator to conduct agricultural theft and agricultural vandalism investigations. This project has been valuable and productive and has included outreach to farmers and law enforcement officers. Your Committee further finds that due to the large land area of Hawaii County, funding for at least two positions is needed to conduct an agricultural theft and vandalism pilot project.

Your Committee has therefore amended this measure by:

- (1) Inserting an appropriation amount of \$200,000 for each fiscal year of the 2019-2020 biennium and specifying the use of appropriated funds to hire two full-time equivalent enforcement officers for the pilot project;
- (2) Making it effective on July 1, 2019; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1503, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1503, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1255 Agriculture and Environment on H.B. No. 201

The purpose and intent of this measure is to clarify that authorized agents may enter private property to control and eradicate invasive species under certain circumstances.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Aha Moku Advisory Committee, County of Hawai'i Office of the Mayor, Coordinating Group on Alien Pest Species, Hawaiian Electric

Companies, Hawai'i Farm Bureau, Maui Chamber of Commerce, and four individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that it is critically important to address new invasive pest species as soon as they are detected. Recent invasive pest species projects have included control of the little fire ant and coqui frog on Kauai, Maui, and Oahu; mongoose on Kauai; myoporum thrips on Oahu; and banana bunchy top virus on Molokai.

Your Committee recognizes that it can be challenging to positively confirm the presence of an invasive species on private property prior to obtaining access to that property. This measure would ameliorate the issue of positive identification of invasive species by allowing state departments that are members of the Invasive Species Council, counties, and their employees and authorized agents to enter private property to confirm the presence of an invasive species, and perform a control action as necessary, upon a reasonable suspicion of the presence of an invasive species on the private property.

Your Committee has amended this measure by:

- (1) Amending the purpose section to reflect that this measure is not intended to enable entry onto private property to eradicate non-prohibited pet animals; and
- (2) Making it effective on July 1, 2019.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 201, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 201, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 1256 (Joint) Agriculture and Environment and Water and Land on H.B. No. 461

The purpose and intent of this measure is to:

- (1) Support and direct the Hawaii Climate Change Mitigation and Adaptation Commission to further progress in addressing the impacts of sea level rise, identify critical public infrastructure in impacted areas, and provide policy direction to the Legislature on concrete strategies for mitigation and adaptation to sea level rise; and
- (2) Appropriate funds for the Commission's activities and for the Climate Change Mitigation and Adaptation Coordinator position.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, University of Hawai's System, IMUAlliance, Sierra Club of Hawai's, League of Women Voters of Hawaii, Chamber of Commerce Hawaii, and twenty-one individuals. Your Committees received comments on this measure from the Office of Planning and Building Industry Association Hawaii.

Your Committees find that the State is already experiencing the impacts of climate change, including rising sea levels, extreme tides, accelerated coastal erosion, and stronger, more frequent storms. Your Committees further find that the Hawaii Climate Adaptation Initiative was established in 2014 with the purpose of protecting the State's economy, health, environment, and way of life by considering how to best adapt to and mitigate the impacts of climate change. In 2017, the Governor signed Act 32, Session Laws of Hawaii 2017, establishing the Hawaii Climate Change Mitigation and Adaptation Commission. Act 32 also appropriated funds through fiscal year 2019 for a Climate Change Mitigation and Adaptation Coordinator position.

Your Committees also find that appropriating funds for the Climate Change Mitigation and Adaptation Commission and its coordinator position will further the State's goals of monitoring, responding to, and adapting to climate change.

Your Committees have amended this measure by:

- (1) Inserting an appropriation amount of \$1,000,000 for the Climate Change Mitigation and Adaptation Commission to conduct its activities;
- (2) Inserting an appropriation amount of \$75,000 to fund the Climate Change Mitigation and Adaptation Coordinator position;
- (3) Making it effective on July 1, 2019; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 461, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 461, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella). Water and Land: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

### SCRep. 1257 (Joint) Agriculture and Environment and Water and Land on H.B. No. 1028

The purpose and intent of this measure is to expand the type of revenue that can be deposited into the endangered species trust fund to allow the Department of Land and Natural Resources to seek additional types of revenue for the implementation of chapter 195D, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and five individuals.

Your Committees find that Hawaii has the unfortunate distinction of being the endangered species capital of the nation. Hawaii's iconic native plants and animals are being threatened by invasive species, fire, and disease. Your Committees further find that funding is limited for the protection of plants and animals that are part of Hawaii's natural and cultural legacy.

Your Committees also find that by allowing fees and assessments charged for any use, rather than only commercial use, of public land and waters, this measure would expand the type of revenue that the Department of Land and Natural Resources could access for endangered species protection. Additionally, this measure enables the Department of Land and Natural Resources to find innovative funding mechanisms to help protect endangered species.

Your Committees have amended this measure by:

- (1) Making it effective upon approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1028, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1028, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

### SCRep. 1258 Government Operations on H.B. No. 1307

The purpose and intent of this measure is to require the Legislative Reference Bureau to:

- (1) Conduct a study on establishing a state central hearing agency, to be known as the Office of Administrative Hearings; and
- (2) Submit a report of its findings and recommendations to the Legislature.

Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that in many jurisdictions, administrative adjudications take place within a single agency that combines regulatory, enforcement, prosecutorial, and adjudicatory authority. Your Committee believes that this combination of functions creates a potential conflict of interest and may also compromise the integrity of administrative adjudications.

Your Committee also finds that in certain jurisdictions, the conflict of interest inherent in the same agency acting as both prosecutor and judge has led to the establishment of state central hearing agencies, in which an independent administrative law judge, who is completely independent of the agency prosecutorial functions, presides over the administrative litigation. Hawaii does not have a centralized office of administrative hearings and your Committee finds that further examination into the establishment of such an office is necessary.

Your Committee has heard the testimony by the Legislative Reference Bureau, raising concerns that this measure, as drafted, requires the Bureau to compile, review, and analyze a considerable amount of data already in the hands of the relevant state departments and agencies but does not require the potentially affected departments and agencies to provide this data to the Bureau. Your Committee understands these concerns and concludes that amendments to this measure are necessary.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying the contents of the report that must be completed by the Legislative Reference Bureau and submitted to the Legislature, including:
  - (A) Requiring all state departments and agencies that conduct or delegate contested case hearings to provide certain statistical, non-confidential data to the Bureau by August 1, 2019, rather than requiring the Bureau to independently compile and determine this information; and
  - (B) Requiring the Bureau to research whether other jurisdictions have centralized administrative hearings offices, and if so, how those offices are run by the respective jurisdictions; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

This amended measure will require state departments and agencies with contested case hearings to provide statistical information to the Legislative Reference Bureau to facilitate the Legislative Reference Bureau's research, in hopes of establishing a centralized office of administrative hearings that will improve the integrity of administrative adjudications in Hawaii.

Your Committee notes that this amended measure does not require state departments and agencies to provide confidential information on particular case hearings but instead is requesting statistical cumulative numbers so as to facilitate the Legislative Reference Bureau's research.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1307, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1307, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1259 Energy, Economic Development, and Tourism on H.B. No. 422

The purpose and intent of this measure is to authorize contracts entered into by the Hawaii Tourism Authority for the marketing of all uses of the Hawaii Convention Center to be issued separately from the management, use, operation, or maintenance of the facility.

Your Committee received testimony in support of this measure from the Hawai'i Tourism Authority and Hawai'i Lodging & Tourism Association.

Your Committee finds that under existing law, the management contract for the Hawaii Convention Center is required to include the marketing of the facility. By allowing the management contract to be separate from the marketing contract, this measure will provide the Hawaii Tourism Authority with the ability to centralize the sales effort for all business relating to meetings, conventions, and incentives, which primarily results from customer requests that are directed to a single point of contact. In addition, centralizing the sales effort will enable efficiencies in staffing, marketing, travel, and sales technology as well as leverage existing destination branding and messaging for the meetings, conventions, and incentives business market.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 422, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1260 Energy, Economic Development, and Tourism on H.B. No. 739

The purpose and intent of this measure is to appropriate or authorize funds for programs of the Hawaii Tourism Authority under the purview of the Department of Business, Economic Development, and Tourism.

Your Committee received testimony in support of this measure from the Hawai'i Tourism Authority.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs of the Hawaii Tourism Authority to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 739, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1261 Energy, Economic Development, and Tourism on H.B. No. 842

The purpose and intent of this measure is to:

- (1) Establish a Hawaii State Planning Act Review Commission to review and make recommendations to the Legislature to update the Hawaii State Planning Act;
- (2) Remove a reference to achieving the viability of Hawaii's sugar and pineapple industries from the Hawaii State Planning Act's agricultural objectives; and
- (3) Appropriate funds.

Your Committee received testimony in support of this measure from the Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi. Your Committee received comments on this measure from the Office of Planning.

Your Committee finds that the Hawaii State Planning Act was enacted in 1978 to improve the planning process and guide future development of the State by setting forth the Hawaii State Plan, which articulates goals and policies to guide the development of the State and establishes an integrated planning and implementation system regarding those goals and policies. Within the last few years, there have been significant changes in Hawaii's economic, physical, and social conditions; technology; and the global marketplace. The State also faces new constraints and opportunities as it plans for the future. Accordingly, your Committee finds that it is necessary to establish the Hawaii State Planning Act Review Commission to update the Hawaii State Planning Act by amending and refocusing the goals, objectives, and policies of the State to reflect current cultural, economic, and societal goals.

Your Committee has amended this measure by:

- (1) Changing the administrative attachment of the Hawaii State Planning Act Review Commission from the Department of Business, Economic Development, and Tourism to the Office of Planning;
- (2) Inserting an appropriation amount of \$250,000 to the Office of Planning; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 842, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 842, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1262 Energy, Economic Development, and Tourism on H.B. No. 855

The purpose and intent of this measure is to:

- (1) Transfer the administration of the building energy efficiency revolving loan fund to the Hawaii Green Infrastructure Authority;
- (2) Expand the purpose of the building energy efficiency revolving loan fund to include a broader range of clean energy technologies and rename it as the clean energy revolving loan fund; and
- (3) Make an appropriation out of the clean energy revolving loan fund to make clean energy investment loans or for other approved uses.

Your Committee received testimony in support of this measure from the Hawaii Green Infrastructure Authority, Blue Planet Foundation, Hawaii Reef and Ocean Coalition, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, Organizing for Action, 350Hawaii, and three individuals. Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that investing in Hawaii's evolving energy market and providing affordable energy options for Hawaii's ratepayers will be necessary to achieve the State's energy goals. However, a significant barrier to clean energy adoption has been the availability of flexible financing and low-cost capital. Building Hawaii's clean energy infrastructure at the lowest possible cost is vital to reach the State's goal of one hundred percent clean energy by 2045. Your Committee also finds that a variety of financing options must be available to support Hawaii's clean energy investment and serve all of Hawaii's ratepaying customers. This measure will repurpose the building energy efficiency revolving fund to accelerate the adoption of renewable energy and energy efficiency and help businesses and families who are currently underserved by existing market-based clean energy solutions.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 855, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1263 Energy, Economic Development, and Tourism on H.B. No. 895

The purpose and intent of this measure is to appropriate or authorize funds for programs of the Department of Business, Economic Development, and Tourism.

Your Committee received testimony in support of this measure from the Land Use Commission and Hawaii Community Development Authority. Your Committee received comments on this measure from the Office of Planning.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs of the Department of Business, Economic Development, and Tourism to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by:

- (1) Deleting all program appropriations;
- (2) Adding appropriations for BED144, statewide planning and coordination, from S.B. No. 989, S.D. 2 (Regular Session of 2019);
- (3) Adding an appropriation for five positions for BED144, statewide planning and coordination, from H.B. No. 1404, H.D. 2 (Regular Session of 2019); and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 895, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 895, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1264 (Joint) Agriculture and Environment and Water and Land on H.B. No. 1487

The purpose and intent of this measure is to establish a Honolulu shoreline climate protection pilot project to develop a plan to protect urban Honolulu from the impacts of climate change and be used as a model for the entire State.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Pacific Resource Partnership, IMUAlliance, Sierra Club of Hawai'i, The Trust for Public Land, Surfrider Foundation, Hawaii Bicycling League, and twenty-one individuals. Your Committees received comments on this measure from the Office of Planning; City and County of Honolulu Office of Climate Change, Sustainability and Resiliency; Hawaii Regional Council of Carpenters; and Lei of Parks.

Your Committees find that, due to climate change, Hawaii has seen over one-half foot of sea level rise in recent decades, and Honolulu is expected to begin seeing regular flooding of the urban core within fifteen years. Climate change and warming seas are also causing Hawaii to see more hurricanes of increasing intensity than before.

Your Committees further find that a comprehensive shoreline protection pilot project can create a shoreline buffer and reduce the risk of coastal disaster events as well as catalyze other projects to address inland inundation. Your Committees also find that a comprehensive shoreline climate protection pilot project can serve as a model for new ways to engage neighborhoods and allow residents opportunities to expand park space, redevelop the urban landscape, and add amenities to enrich their communities.

Your Committees have amended this measure by:

- Replacing the term "low-lying topography" with "sea level rise exposure area maps, as officially adopted by the Hawaii Climate Change Mitigation and Adaptation Commission" to further clarify landscape designations;
- (2) Requiring, instead of authorizing, the Hawaii Climate Change Mitigation and Adaptation Commission to partner with the City and County of Honolulu in designing a plan for the coastal protection of urban Honolulu;
- (3) Inserting an appropriation amount of \$2,000,000 to develop the Honolulu shoreline climate protection pilot project;
- (4) Making it effective on July 1, 2019; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1487, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1487, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

### SCRep. 1265 (Joint) Agriculture and Environment and Water and Land on H.B. No. 549

The purpose and intent of this measure is to amend chapter 205A, Hawaii Revised Statutes, to strengthen state policies to reduce residential exposure to coastal hazards, protect state beaches, and update statutory language for consistency.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; City and County of Honolulu Office of Climate Change, Sustainability and Resiliency; Environmental Caucus of the Democratic Party of Hawai'i; IMUAlliance; Sierra Club of Hawai'i; and twenty-three individuals. Your Committees received testimony in opposition to this measure from the Chamber of Commerce Hawaii and Building Industry Association of Hawaii. Your Committees received comments on this measure from the Office of Planning and County of Kaua'i Department of Planning.

Your Committees find that the existing coastal zone management policies and regulations, with respect to the protection of beaches, beach access, and beach ecosystems, are inadequate to address present-day concerns, including sea level rise and other natural and human impacts. Your Committees further find that existing policies and regulations need to be updated to reconcile development along dynamic beach systems while protecting the natural environment. Your Committees also find that state coastal zone management policies should be strengthened to conserve beaches for present and future generations while reducing hazard exposure to shorefront communities.

Your Committees have amended this measure by:

- (1) Defining the term "beach";
- (2) Defining the term "coastal hazards" to include sea level rise, and substituting that term where appropriate;
- (3) Updating objectives of the coastal zone management program relating to beach protection and policies of the coastal zone management program relating to recreational resources, economic uses, coastal hazards, and beach protection;
- (4) Specifying that "development", for purposes of special management areas, does not include construction or reconstruction of a single-family residence that is not situated on a parcel that is impacted by waves, storm surges, high hide, or shoreline erosion;
- (5) Deleting the provision that made section 205A-29, Hawaii Revised Statutes, inapplicable to permits for uses within the conservation district;
- (6) Amending the conditions that must be met in order for a county planning commission or county council to:
  - (A) Waive the public hearing requirement prior to action on a shoreline setback variance application for protection of a legal structure or public facility; and
  - (B) Grant a shoreline setback variance for certain private facilities or improvements;
- (7) Deleting language that would have excepted the inadvertent taking from the shoreline area of certain materials from the prohibition on mining or taking of certain items from the shoreline area;
- (8) Making it effective on July 1, 2019; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 549, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 549, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

#### SCRep. 1266 (Majority) Water and Land on H.B. No. 1025

The purpose and intent of this measure is to authorize the Board of Land and Natural Resources (Board) to extend commercial, industrial, resort, or governmental leases, other than those to which the University of Hawaii is a party, that have not been transferred or assigned within the last five years, for lessees who commit to making substantial improvements to the existing improvements.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, HPM Building Supply; McCully Works; David S. De Luz, Sr. Enterprises, Inc.; and Downtown Laundry Express. Your Committee received testimony in opposition to this measure from the Office of Hawaiian Affairs, Hawaiian Affairs Caucus of the Democratic Party of Hawaiii, and two individuals.

Your Committee finds that many of the leases for commercial, industrial, and resort properties on public land statewide may be nearing the end of their lease terms. Faced with the uncertainty of continued tenancy, lessees have little incentive to make major investments in infrastructural improvements and therefore the infrastructure on these properties has been deteriorating. Authorization of lease extensions, like those proposed by this measure, may resolve issues surrounding the future of improvements located on currently leased public lands.

Your Committee has amended this measure by:

- (1) Inserting a blank for all references to numbers of years and percentages;
- (2) Exempting leases of public lands owned by the Department of Hawaiian Home Lands;
- (3) Inserting a blank repeal date; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1025, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1025, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Riviere). Noes, 1 (Fevella). Excused, 1 (Keith-Agaran).

### SCRep. 1267 Water and Land on H.B. No. 1035

The purpose and intent of this measure is to authorize the Department of Land and Natural Resources to enter into the Interstate Wildlife Violator Compact or similar agreement for mutual assistance in the enforcement of wildlife laws.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaiian Humane Society, The Humane Society of the United States, and two individuals.

Your Committee finds that the Interstate Wildlife Violator Compact is a multistate agreement that promotes enforcement of hunting, fishing, trapping, and other wildlife related regulations across jurisdictions and could prevent wildlife violators who have lost their hunting, fishing, trapping, or other wildlife related privileges in other member states from obtaining a hunting license in Hawaii. Your Committee further finds that the Interstate Wildlife Violator Compact is a common sense way for states to share information on violators who have lost their hunting, fishing, trapping, or other wildlife related privileges and that Hawaii should be participating in this agreement or a similar agreement.

Your Committee has amended this measure by:

- (1) Making it effective on July 1, 2019; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1035, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1035, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1268 Water and Land on H.B. No. 1171

The purpose and intent of this measure is to appropriate or authorize funds for the native resources and fire protection program of the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Sierra Club of Hawai'i, The Nature Conservancy Hawai'i, Environmental Caucus of the Democratic Party of Hawai'i, Coordinating Group on Alien Pest Species, and twelve individuals.

Your Committee finds that funds appropriated for the native resources and fire protection program will allow the Department of Land and Natural Resources to implement the Governor's biosecurity plan, expand rapid ohia death response, monitoring, and research, and address critically endangered species. This measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for the Department of Land and Natural Resources' native resources and fire protection program to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by:

- (1) Making it effective upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1171, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1171, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

#### SCRep. 1269 Water and Land on H.B. No. 1325

The purpose and intent of this measure is to require the Department or Board of Land and Natural Resources to:

- Give prior notice to the Game Management Advisory Commission when establishing or amending watershed areas, projects, or management plans on state lands;
- (2) Provide watershed management plans to the Game Management Advisory Commission prior to the Board's issuance or renewal of a water rights lease; and
- (3) Suspend all aerial shooting activity if the Board has not adopted rules incorporating recommendations by the Commission.

Your Committee received testimony in support of this measure from the Hawaii Firearms Coalition and seven individuals. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources, The Nature Conservancy Hawaii'i, Hawaii Hunting Association, and one individual. Your Committee received comments on this measure from the Hawaii Sportsmen's Alliance.

Your Committee finds that the stakeholders who are most affected by decisions made by the Department of Land and Natural Resources and its partners regarding wildlife and wildlife resources should be given proper notice and opportunities to express their concerns over practices that modify access, utilization, or management of these resources.

Your Committee has amended this measure by:

- Deleting language that would have required the Department of Land and Natural Resources to give prior notice to the Game Management Advisory Commission before establishing a new watershed project or management plan on state lands or amending any existing watershed project or management plan for state lands;
- (2) Inserting language that requires the Department of Land and Natural Resources to work collaboratively with the Game Management Advisory Commission to develop and implement sustainable game management practices and plans in areas assigned and associated with watershed protection in accordance with the powers and duties of the Department under section 183D-2, Hawaii Revised Statutes;
- (3) Deleting language that would have suspended all aerial shooting activity if the Board of Land and Natural Resources has not adopted rules incorporating recommendations by the Commission; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1325, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1325, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1270 Water and Land on H.B. No. 1405

The purpose and intent of this measure is to adjust the operating budget of the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Kahoʻolawe Island Reserve Commission, East Kauai Water Users' Cooperative, Hawaiʻi Farm Bureau, and Sierra Club of Hawaiʻi.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs of the Department of Land and Natural Resources to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by:

- (1) Making it effective on July 1, 2019; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent and to consider the Sierra Club of Hawai'i's request to appropriate at least \$200,000 to LNR 101 for the climate change coordinator position.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1405, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1405, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1271 (Joint) Water and Land and Agriculture and Environment on H.B. No. 1548

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources to study and combat rapid ohia death.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, Office of the Mayor of the County of Hawai'i, one member of the Hawai'i County Council, University of Hawai'i at Mānoa College of Tropical Agriculture and Human Resources, Hawai'i Farm Bureau, The Nature Conservancy Hawai'i, Hawaiian Affairs Caucus of the Democratic Party of Hawai'i, and eight individuals. Your Committees received comments on this measure from the Hawaii Cattlemen's Council, Inc.

Your Committees find that ohia makes up approximately eighty percent of the State's native forests and is a keystone species in native watershed areas. Your Committees recognize that rapid ohia death is devastating thousands of acres of native forest and that it is vital to take appropriate steps now to prevent the further spread of the fungus throughout the islands.

Your Committees have amended this measure by:

- (1) Inserting an appropriation amount of \$2,003,000;
- (2) Making it effective on July 1, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1548, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1548, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella).

### SCRep. 1272 Water and Land on H.B. No. 589

The purpose and intent of this measure is to require the Department of Land and Natural Resources to implement certain recommendations made by the Office of the Auditor in Auditor's Report No. 19-01, *Audit of the Department of Land and Natural Resources' Land Conservation Fund*.

Your Committee received testimony in support of this measure from the Office of the Auditor and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources and The Trust for Public Land.

Your Committee finds that the land conservation fund was established for the express purpose of acquiring land having resource value to the State. The land conservation fund and the associated legacy land conservation program are administered by the Department of Land and Natural Resources, which delegated that responsibility to the Division of Forestry and Wildlife. The Auditor found that the program missed fiscal deadlines, causing funding to lapse; the Department mistakenly paid a total of nearly \$685,000 for state central service fees; and the land conservation fund was used to pay the salary of an employee who is doing work unrelated to the legacy land conservation program. In addition, the program has not tracked and fully reported required information to the Legislature on the balances of land conservation fund monies transferred to the trust account. This measure implements safeguards to ensure that the land conservation fund and legacy land conservation program are properly managed and administered.

Your Committee has amended this measure by:

- (1) Clarifying the legislative findings in section 1 to accurately reflect Auditor's Report No. 19-01;
- (2) Extending the deadline for the completion of the Resource Land Acquisition Plan from January 1, 2020, to June 30, 2021;
- (3) Extending the deadline for implementation of the Auditor's recommendations from January 1, 2020, to June 30, 2021;
- (4) Requiring the Department of Land and Natural Resources to report on its progress as part of the annual report to the Governor and Legislature required pursuant to chapter 173A, Hawaii revised Statutes, rather than reporting to the Auditor and Legislature; and

(5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 589, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 589, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1273 (Joint) Water and Land and Agriculture and Environment on H.B. No. 594

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for the design and construction of an exploratory well for the proposed Kunia wells IV pump station.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Agribusiness Development Corporation; City and County of Honolulu Board of Water Supply; Hawai'i Farm Bureau; Land Use Research Foundation of Hawaii; Hawaii Cattlemen's Council, Inc.; Hawaii Crop Improvement Association; Local Food Coalition; and form letter signed by thirty individuals.

Your Committees find that Oahu farmers require greater amounts of potable water for irrigation and compliance with federal Food Safety Modernization Act rules. Your Committees further find that an exploratory water well for the proposed Kunia wells IV pump station will provide additional water supply for growth, including diversified agriculture.

Your Committees have amended this measure by:

- Clarifying the purpose section to better reflect the Board of Water Supply proposals regarding the proposed Kunia wells IV pump station;
- (2) Making it effective on July 1, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 594, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 594, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella).

### SCRep. 1274 (Joint) Water and Land and Agriculture and Environment on H.B. No. 765

The purpose and intent of this measure is to require the incorporation of sea level rise projections in all new state plans and updates to existing state plans generated under the Hawaii State Planning Act pursuant to chapter 226, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Office of Planning, Sierra Club of Hawaii, League of Women Voters of Hawaii, Young Democrats of Hawaii, and twenty-two individuals.

Your Committees find that in December 2017, the Hawaii Climate Change Mitigation and Adaptation Commission accepted the Hawaii Sea Level Rise Vulnerability and Adaptation Report (SLR Report). The first recommendation of the SLR Report is to recognize the SLR-XA (Sea Level Rise Vulnerability Area) as a statewide vulnerability zone. The SLR-XA demonstrates the extent of the potential exposure of land and structures to flooding and erosion with an increase of 0.5, 1.1, 2.0, and 3.2 feet of sea level rise throughout the State. Your Committees find that planning for sea level rise is necessary to protect coastal structures, infrastructure, and environments and therefore must be considered for purposes of state planning.

Your Committees have amended this measure by:

- (1) Making it effective on July 1, 2019; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 765, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 765, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella).

### SCRep. 1275 Water and Land on H.B. No. 808

The purpose and intent of this measure is to protect sharks and rays by:

- (1) Establishing fines and penalties for knowingly capturing, taking, possessing, abusing, or entangling a shark, whether alive or dead, or killing a shark, within state marine waters;
- (2) Expanding the existing prohibition on knowingly capturing or killing a manta ray to apply to all rays; and

(3) Expanding the prohibition regarding rays to include knowingly taking, possessing, abusing, or entangling a ray, whether alive or dead, or killing a ray, within state marine waters.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, The Nature Conservancy Hawai'i, Sierra Club of Hawai'i, The Humane Society of the United States, Humane Society International, West Hawaii Humane Society, Snorkel Bob's Hawaii, For the Fishes, Friends of Hanauma Bay, and over one hundred fifty individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies and one individual.

Your Committee finds that sharks and rays are extremely important to ocean ecosystems because they keep the ecosystem balanced, regulate populations of other marine life, and ensure healthy fish stock and reefs. Your Committee further finds that sharks and rays play a vital historical and cultural role in Hawaii, including Native Hawaiian customary and traditional rights protected by the Hawaii State Constitution. In 2010, Hawaii became the first state in the nation to enact a prohibition on the sale of shark fins and fin products; however, the law does not prohibit the taking of whole live sharks in state waters. Your Committee finds that this loophole must be closed to protect Hawaii's valuable sharks, and manta ray protections must be expanded to include all rays.

Your Committee has amended this measure by:

- (1) Inserting the Hawaiian words hāhālua, hailepo, and lupe, associated with rays;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 808, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 808, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Keith-Agaran).

#### SCRep. 1276 Water and Land on H.B. No. 896

The purpose and intent of this measure is to appropriate or authorize funds for programs of the Department of Land and Natural Resources

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Society for Hawaiian Archaeology.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for the Department of Land and Natural Resources to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by deleting its contents and inserting language from S.B. No. 1490, S.D. 2, which adjusts the amounts appropriated or authorized for the Department of Land and Natural Resources from baseline amounts in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 896, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 896, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1277 Water and Land on H.B. No. 897

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources Division of Forestry and Wildlife (DOFAW).

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii State Fire Council, Honolulu Fire Department, Maui Fire Department, Kaua'i Fire Department, and The Nature Conservancy Hawai'i.

Your Committee finds that DOFAW is the primary responder for wildland fires occurring on nearly one million acres of forested watershed and co-responds with federal and county agencies on additional lands in the State. In addition to wildfire suppression, DOFAW serves as part of the State Emergency Response Team to address other emergencies and disasters, such as hurricanes and lava events. Specialized equipment in good working order is essential for DOFAW's success in safely responding to such emergencies throughout the State. DOFAW's other programs include forest restoration via tree planting, enhancement of recreational forest areas and trails, revenue opportunities through commercially valuable forest products, and management of invasive pests and diseases. This measure appropriates funding for fire and emergency response equipment and a number of DOFAW's forest management programs and positions.

Your Committee has amended this measure by making it effective on July 1, 2019.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 897, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 897, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1278 Judiciary on H.B. No. 903

The purpose and intent of this measure is to require the Judiciary to establish a financial hardship task force.

Your Committee received testimony in support of this measure from the Judiciary; Community Alliance on Prisons; Hawaii Island HIV/AIDS Foundation; Habitat for Humanity Hawaii Island, Inc.; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and four individuals.

Your Committee finds that under existing law, individuals who cannot afford to pay court-ordered fines or fees may have their driver's licenses suspended for failure to pay. Your Committee further finds that, especially for low-income persons or persons living in remote areas with minimal or no public transportation, driver's license suspension may deprive individuals of their only means of transportation to and from work, threatening their employment. Your Committee additionally finds that with limited or no income, individuals are even less likely to pay fines or fees, which may lead to greater penalties. This measure will require the Judiciary to establish a task force to examine the disparate impact of existing judiciary policies on low-income individuals in the court system.

Your Committee has amended this measure by:

- (1) Limiting the scope of the task force to:
  - (A) Examining the financial disparity imposed on low-income individuals in the court system;
  - (B) Analyzing other mechanisms regarding the nonpayment of fines rather than suspending drivers' licenses;
  - (C) Coordinating with applicable agencies; and
  - (D) Analyzing any other programs deemed necessary; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 903, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 903, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 1279 Judiciary on H.B. No. 1380

The purpose and intent of this measure is to:

- (1) Create a comprehensive public funding program for candidates for county elections beginning in 2022; and
- (2) Appropriate funds to the Campaign Spending Commission.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Democratic Party of Hawai'i, League of Women Voters of Hawaii, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Common Cause Hawaii, and one individual. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that candidate public financing programs are voluntary programs in which public funds are provided to candidates who agree to limit their campaign spending. Your Committee further finds that the primary purposes of these programs is to reduce the role of large amounts of private money raised in political campaigns and the obligations that are or can appear to be associated with these contributions. This measure will establish a comprehensive program for candidate public financing in county elections.

Your Committee has amended this measure by:

- (1) Removing language that allowed candidates who win their elections to retain surplus public funds for the purposes of constituent communications;
- (2) Removing the one percent surcharge on fines imposed on persons convicted of criminal offenses that was to be deposited into the Hawaii election campaign fund; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1380, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1380, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1280 Judiciary on H.B. No. 1268

The purpose and intent of this measure is to amend various provisions of the Hawaii Revised Statutes and the Session Laws of Hawaii for the purposes of correcting errors and references, clarifying language, and deleting obsolete or unnecessary provisions.

Your Committee received testimony in support of this measure from the Legislative Reference Bureau and Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee finds that this statutory revision measure is submitted by the Legislative Reference Bureau pursuant to chapter 23G, Hawaii Revised Statutes. All of the statutory amendments proposed by this measure are intended to be technical in nature to correct errors, omissions, or obsolete laws.

Your Committee has amended this measure by deleting amendments that:

- (1) Changed the term "youth" to "youths" in section 352D-4, Hawaii Revised Statutes; and
- (2) Repealed the term "your" in the notice required by section 480E-10(a), Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1268, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1268, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1281 Judiciary on H.B. No. 18

The purpose and intent of this measure is to repeal statutory limitations on the time periods in which a survivor of childhood sexual abuse may file a civil action.

Your Committee received testimony in support of this measure from the Hawai'i State Commission on the Status of Women, Planned Parenthood Votes Northwest and Hawaii, The Sex Abuse Treatment Center, Parents and Children Together, American Association of University Women of Hawaii, LGBT Caucus of the Democratic Party of Hawaii, Rainbow Family 808, Honolulu County Republican Party, and ten individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that survivors of childhood sexual abuse often do not divulge the truth about their experiences until they reach adulthood due to feelings of fear, disbelief, anger, helplessness, anxiety, and embarrassment. Your Committee further finds that although these feelings are not the survivor's fault, they can prevent survivors from considering legal action against their abusers until the statute of limitations for such claims has expired. Your Committee additionally finds that the direct consequences of childhood abuse should not block survivors of childhood sexual abuse from seeking civil redress in the courts.

Your Committee has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 18, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 18, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1282 Judiciary on H.B. No. 162

The purpose and intent of this measure is to:

- (1) Amend the allowable administrative fines for campaign finance violations committed by certain noncandidate committees making only independent expenditures; and
- (2) Prohibit the establishment of noncandidate committees that only make independent expenditures within fourteen days of an election.

Your Committee received testimony in support of this measure from the League of Women Voters Hawaii. Your Committee received comments on this measure from the Department of the Attorney General and Campaign Spending Commission.

Your Committee finds that campaign spending laws are often extremely difficult to enforce against large political action committees. Your Committee further finds that the structure and considerable financial resources of these organizations insulates them from effective enforcement in many situations. This measure increases the ability of the Campaign Spending Commission to assess effective penalties against large political action committees for violations of campaign spending laws. However, your Committee additionally finds that restricting the formation of noncandidate committees within fourteen days of an election may be subject to constitutional challenge as a violation of protected political speech under the First Amendment.

Accordingly, your Committee has amended this measure by:

- Removing the prohibition on the establishment of noncandidate committees that only make independent expenditures within fourteen days of an election;
- (2) Expanding language that allowed certain noncandidate committee expenditures to be deemed a violation against the individual directors, officers, or agents of a noncandidate committee that makes only independent expenditures to apply to all noncandidate committees regardless of whether they only make independent expenditures; and

(3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 162, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 162, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1283 Judiciary on H.B. No. 709

The purpose and intent of this measure is to propose an amendment to the Hawaii State Constitution to allow a recount of votes cast at an election to be conducted in a manner to be provided by law.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii, Honolulu County Republican Party. Common Cause Hawaii, and two individuals.

Your Committee finds that accurate counts of votes cast in elections are vital to the democratic process. Your Committee further finds that under existing law, the only way to initiate a recount in the State is via a complaint filed with the Hawaii Supreme Court. This measure proposes an amendment to the constitution that will explicitly grant the Legislature the authority to provide for recounts of votes cast in election by law.

Your Committee has amended this measure by clarifying that recounts of votes cast at an election may be conducted as provided by the Legislature.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 709, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 709, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1284 Judiciary on H.B. No. 766

The purpose and intent of this measure is to establish a task force within the Judiciary to review allowing service of notice and process by electronic mail in civil and administrative proceedings.

Your Committee received comments on this measure from the Hawai'i Civil Rights Commission.

Your Committee finds that as technology progresses and gains widespread adoption that the practice of law and its specific procedural requirements should also be open to change. Your Committee further finds that there may be many parties who would accept service by electronic mail if it were to be allowed. This measure will establish a task force to explore this potential change in court procedure for civil and administrative proceedings.

Your Committee has amended this measure by:

- (1) Making it effective upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 766, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 766, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1285 Judiciary on H.B. No. 748

The purpose and intent of this measure is to:

- (1) Prohibit civil asset forfeiture unless the covered offense is a felony for which the property owner has been convicted, excluding the forfeiture proceedings for an animal pending criminal charges; and
- (2) Require the Attorney General to distribute one half of all forfeited property and sale proceeds thereof to the Hawaii law enforcement assisted diversion program, with the remaining half to be distributed to the state general fund.

Your Committee received testimony in support of this measure from the LGBT Caucus of the Democratic Party of Hawaii, Community Alliance on Prisons, The Drug Policy Forum of Hawaii, and American Civil Liberties Union of Hawaii. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources, Department of the Prosecuting Attorney of the City and County of Honolulu, Office of the Prosecuting Attorney of the County of Hawaii, Honolulu Police Department, and Maui Police Department. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that asset forfeiture can be an effective tool for law enforcement to disrupt criminal activity and protect the community. However, your Committee further finds that allowing asset forfeiture to proceed before conviction is contrary to the presumption of innocence in criminal cases and has the potential to unjustly violate the property rights of some persons. Your Committee additionally finds that the prohibition of forfeiture until after conviction should not be construed to limit the ability of law enforcement to seize property prior to conviction as provided by law.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that property may be seized prior to felony conviction as provided by law;
- (2) Providing for the reimbursement of any costs incurred by the Department of the Attorney General related to the seizure or storage of seized property before forfeited property and the sale proceeds thereof are distributed to the Hawaii law enforcement assisted diversion program and state general fund; and
- (3) Changing the effective date to March 1, 2020.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 748, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 748, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1286 Judiciary on H.B. No. 1433

The purpose and intent of this measure is to appropriate funds for two full-time equivalent positions, operating costs, and equipment to support the Attorney General's Hawaii Criminal Justice Data Center in administering the address confidentiality program.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Hawai'i State Commission on the Status of Women, Department of the Prosecuting Attorney of the City and County of Honolulu, Domestic Violence Action Center, American Association of University Women of Hawaii, The Sex Abuse Treatment Center, Hawaii State Coalition Against Domestic Violence, Parents and Children Together, and Hawaii Women's Coalition.

Your Committee finds that the address confidentiality program provides survivors of domestic abuse, sexual offense, or stalking with a substitute address to be used by state and local government agencies instead of their physical address. Your Committee further finds that the substitute address may be used whenever an address is required for public records, and that mail received at the substitute address may be forwarded to the survivor's actual address. Your Committee additionally finds that, although the Hawaii Criminal Justice Center is preparing to implement the address confidentiality program, no monies have been allocated to support it. This measure will appropriate monies necessary to implement the address confidentiality program.

Your Committee notes that the amount requested by the Hawaii Criminal Justice Data Center for two full-time equivalent positions, operating costs, and equipment to administer the address confidentiality program is \$147,500.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1433, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1287 Judiciary on H.B. No. 1261

The purpose and intent of this measure is to extend for two years the requirement that decisions in contested case hearings of the Commission on Water Resource Management, Land Use Commission, Public Utilities Commission, Hawaii Community Development Authority, and those involving conservation districts be appealed directly to the Supreme Court, with certain exemptions.

Your Committee received testimony in support of this measure from Maunakea Observatories and two individuals. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that public-private contracts for land-use and development frequently involve significant expenditures of resources and operate on restrictive timelines. Your Committee further finds that when challenges to such projects arise, the legal questions at issue are generally much more complex and ambiguous than the questions of fact. Your Committee additionally finds that an expedited judicial review process will allow such challenges to be resolved quickly while still ensuring that the issues present in those challenges receive proper and complete consideration.

Your Committee has amended this measure by:

- (1) Making permanent the requirement that decisions in certain contested case hearings be appealed directly to the Supreme Court; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1261, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1261, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

### SCRep. 1288 Judiciary on H.B. No. 437

The purpose and intent of this measure is to authorize crime victim compensation for mental health services for survivors in cases involving a death and for children who witness domestic violence.

Your Committee received testimony in support of this measure from the Crime Victim Compensation Commission, Hawai'i State Commission on the Status of Women, Department of Health, Department of the Prosecuting Attorney of the City and County of

Honolulu, The Sex Abuse Treatment Center, Hawaii State Coalition Against Domestic Violence, Parents and Children Together, Mental Health America of Hawai'i, Hawaii Women's Coalition, and two individuals.

Your Committee finds that violent crimes often have profound negative effects on persons other than the direct victim. Surviving family members of deceased victims frequently incur significant expense for mental health treatment on top of the trauma of losing a loved one. Similarly, child witnesses of domestic violence often require counseling and other treatment to help them understand and heal from the trauma of what they witnessed. Your Committee further finds that the purpose of crime victim compensation is to mitigate the suffering and financial impact experienced by victims of violent crime by providing compensation to pay un-reimbursed crime-related expenses. This measure will expand crime victim compensation to cover certain individuals other than the direct victims of certain violent crimes.

Your Committee has amended this measure by:

- (1) Making conforming amendments to new statutory language to better match existing statutory language relating to the crime of abuse of family or household member; and
- (2) Making it effective upon approval.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 437, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 437, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Gabbard). Noes, none. Excused, 1 (Fevella).

### SCRep. 1289 Judiciary on H.B. No. 1490

The purpose and intent of this measure is to amend the prohibition of contributions by state and county contractors under Hawaii's campaign finance laws to include officers or board members of a contractor, including contractors who provide goods or utilities.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, League of Women Voters of Hawaii, Common Cause Hawaii, and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Bankers Association.

Your Committee finds that Hawaii's campaign finance law already prohibits contributions to election campaigns by contractors, suppliers, and other entities under contract to state or county governmental agencies. Your Committee further finds that owners and executives of these entities can continue making contributions which are attributable to their roles in the companies which receive government funds. Your Committee additionally finds that this has the potential to erode public trust by creating the appearance of a "pay to play" arrangement in state politics. This measure will eliminate that appearance in the case of officers and executives of contractors.

Your Committee has amended this measure by:

- (1) Removing board members of contractors from the prohibition; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1490, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1490, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

## SCRep. 1290 Judiciary on H.B. No. 1350

The purpose and intent of this measure is to appropriate or authorize funds for programs of the Campaign Spending Commission for the 2019-2021 fiscal biennium.

Your Committee received testimony in support of this measure from the Campaign Spending Commission.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs of the Campaign Spending Commission to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1350, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1350, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

### SCRep. 1291 Judiciary on H.B. No. 1353

The purpose and intent of this measure is to appropriate funds for the operating budget for the Office of the Public Defender for the fiscal biennium 2019-2021.

Your Committee received testimony in support of this measure from the Office of the Public Defender.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs of the Office of the Public Defender to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee notes that the budget request from the Office of the Public Defender includes \$97,832 for a dedicated case management software system, and encourages discussion regarding the feasibility and practicability of adopting a single unified case management software system for all state agencies as this measure proceeds through the legislative process.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1353, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1353, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

#### SCRep. 1292 Judiciary on H.B. No. 1279

The purpose and intent of this measure is to appropriate or authorize funds for programs of the Campaign Spending Commission and Office of Elections for the 2019-2021 fiscal biennium.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and Office of Elections.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs of the Campaign Spending Commission and Office of Elections to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately. As such, your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1279, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

# SCRep. 1293 Judiciary on H.B. No. 1352

The purpose and intent of this measure is to appropriate or authorize funds for programs of the Department of the Attorney General for the 2019-2021 fiscal biennium.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of the Prosecuting Attorney of the County of Maui, Honolulu Police Department, and The Sex Abuse Treatment Center.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs of the Department of the Attorney General to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately. As such, your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1352, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

### SCRep. 1294 (Joint) Education and Judiciary on H.B. No. 1346

The purpose and intent of this measure is to prohibit the suspension or expulsion of children participating in the Executive Office on Early Learning's Public Prekindergarten Program, except under limited circumstances.

Your Committees received testimony in support of this measure from the Department of Education, Executive Office on Early Learning, Early Learning Board, Hawaii State Teachers Association, Hawaii Children's Action Network, Rainbow Family 808, Early Childhood Action Strategy, and one individual.

Your Committees find that according to the National Association for the Education of Young Children, as many as 8,710 three- and four-year-olds may be expelled from their state-funded preschool or prekindergarten classroom every year, which is at a rate more than three times that of their peers in kindergarten through grade twelve. This is particularly troubling given such suspensions and expulsions occur during a critical period in a child's development. This measure ensures that the State's youngest children have access to appropriate educational opportunities that will set them up to reach their highest potential and prevents many of the adverse educational and life outcomes that result from suspension and expulsion early in a child's life.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1346, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1346, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4; Ayes with Reservations (Kim). Noes, none. Excused, 1 (Dela Cruz).

Judiciary: Ayes, 3; Ayes with Reservations (Kim). Noes, none. Excused, 2 (Gabbard, Wakai).

### SCRep. 1295 Education on H.B. No. 615

The purpose and intent of this measure is to amend the Board of Education membership by inviting the exclusive representative for Bargaining Unit (5) to appoint a nonvoting public school teacher representative to the Board, subject to certain conditions.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association and Democratic Party of Hawai'i Education Caucus. Your Committee received comments on this measure from the Hawaii State Ethics Commission.

Your Committee finds that the Board of Education (Board), consisting of nine members and none of whom are required to be public school teachers, is given the power to formulate statewide educational policy. As such, the appointment of a current public school teacher, as a nonvoting member, to the Board will provide first-hand experience and expertise on the educational climate in Hawaii's public schools and explain the resources teachers need to help Hawaii's students. Additionally, this measure provides the Board with insight into current and proposed educational practices and policies and the effects of those practices and policies on teachers, students, and the community.

Your Committee has amended this measure by reinstating the language that appears in H.B. No. 615, H.D. 2 (Regular Session 2019), which clarifies the applicability of the ethics code to the nonvoting public school teacher representative.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 615, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 615, H.D. 3, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

### SCRep. 1296 (Joint) Agriculture and Environment and Commerce, Consumer Protection, and Health on H.B. No. 762

The purpose and intent of this measure is to prohibit a full-service restaurant from providing a single-use plastic straw to a consumer unless requested by the consumer.

Your Committees received testimony in support of this measure from one member of the Hawai'i County Council; Animal Rights Hawai'i; Hawaii Food Industry Association; Retail Merchants of Hawaii; Hawaii Restaurant Association; ABC Stores; KYD, Inc. dba: K. Yamada Distributors; Dolphin Quest; 350Hawaii.org; Surfrider Foundation; Sierra Club of Hawai'i; and thirty-nine individuals. Your Committees received testimony in opposition to this measure from eight individuals. Your Committees received comments on this measure from the Department of Health and Office of Hawaiian Affairs.

Your Committees find that single-use plastics, such as plastic straws, have a well-established impact on native species of cultural significance, including endangered and subsistence resource species. In Hawaiian waters, the ingestion of discarded plastic debris by native seabirds and endangered honu is a well-documented phenomenon that may have highly injurious or even fatal consequences. Your Committees further find that this measure would reduce the use of single-use plastic straws in full-service restaurants, and thereby reduce the amount of plastic waste generated by restaurants and help protect Hawaiian waters.

Your Committees have amended this measure by:

- (1) Stating that any action taken to impose or collect fines pursuant to this measure is an administrative action pursuant to the Hawaii Administrative Procedure Act, rather than a civil action, to clarify that the fines procedure does not involve the judicial courts system; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 762, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 762, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Fevella).

### SCRep. 1297 (Joint) Agriculture and Environment and Commerce, Consumer Protection, and Health on H.B. No. 462

The purpose and intent of this measure is to exempt residence or occupancy in a structure or on property directly controlled, owned, or managed by the Department of Agriculture from the Residential Landlord-Tenant Code.

Your Committees received testimony in support of this measure from the Department of Agriculture.

Your Committees find that this measure clarifies that farm dwellings are not subject to eviction and related rules under the Landlord-Tenant Code. Your Committees further find that exempting residence or occupancy in a structure or on property directly controlled, owned, or managed by the Department of Agriculture from the Residential Landlord-Tenant Code provides greater consistency in the management of residential uses on public lands and for public purposes.

Your Committees have amended this measure by making it effective on July 1, 2019.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 462, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 462, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Fevella).

### SCRep. 1298 (Joint) Agriculture and Environment and Commerce, Consumer Protection, and Health on H.B. No. 297

The purpose and intent of this measure is to investigate potential innovative vector control programs by:

- (1) Directing the Department of Agriculture to review the *Aedes aegypti* mosquito with *Wolbachia* bacteria and render a determination for placement of the mosquito on the appropriate animal import list; and
- (2) Directing the Departments of Agriculture and Health to collaborate on a report to the Legislature that includes recommendations on the importation and release of the Aedes aegypti mosquito with Wolbachia bacteria or alternative vector control programs.

Your Committees received testimony in support of this measure from the Department of Health, Department of Land and Natural Resources, and four individuals. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that the *Aedes aegypti* mosquito is the primary mosquito species that is responsible for transmitting human viruses, including Zika and dengue. Your Committees also find that the release of *Wolbachia*-carrying *Aedes aegypti* mosquitoes, and subsequent interbreeding with wild mosquitoes, reduce the ability of cumulative mosquito populations to serve as disease vectors without suppressing mosquito populations and altering the ecosystem balance. Some research has also shown that *Wolbachia* is safe for humans, animals, and the environment.

Your Committees further find that protecting the residents of and visitors to Hawaii from mosquito-borne illnesses such as Zika and dengue viruses warrants further inquiry into the feasibility and safety of importing and releasing mosquitoes with *Wolbachia* bacteria, including *Aedes aegypti* mosquitoes originating from Hawaii stock that could be imported for landscape scale mosquito control.

Your Committees have amended this measure by:

- (1) Inserting language throughout to clarify that the review shall include a review of the importation of mosquitoes originating from Hawaii stock that could be imported for landscape scale mosquito control;
- Adding the Department of Land and Natural Resources as a participating agency to collaborate on the report to the Legislature; and
- (3) Making it effective upon approval.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 297, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 297, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Fevella).

### SCRep. 1299 (Joint) Technology and Energy, Economic Development, and Tourism on H.B. No. 821

The purpose and intent of this measure is to:

- (1) Authorize the Department of Business, Economic Development, and Tourism to enter into a partnership with a partner in the private sector to plan, build, and manage key strategic broadband infrastructure and attract cloud based companies to Hawaii; develop internal policies and procedures for the procurement of goods, services, and construction; and identify a suitable location for a cable landing station in Kakaako, on the island of Oahu;
- (2) Exempt construction of the cable landing station from certain state and county approval and permitting requirements for a period of five years to help expedite the process; and
- (3) Make an appropriation for the establishment of an open access, carrier-neutral cable landing station in support of the Hawaii Broadband Initiative.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs Cable Television Division; Department of Business, Economic Development, and Tourism; Department of Health; Hawaii Technology Development Corporation; University of Hawaii System; Hawaiian Electric Companies; Economic Development Alliance of Hawaii; Ocean Networks; RTI; Oahu Economic Development Board; and two individuals. Your Committees received testimony in opposition to this measure from the Office of Hawaiian Affairs. Your Committees received comments on this measure from the State Procurement Office.

Your Committees find that establishing an open access, carrier neutral cable landing station in Hawaii would expand Hawaii's connectivity around the world, establish Hawaii as a key player in the global broadband market, and address the need for better broadband connectivity. Your Committees further find that the timing for an open access, carrier neutral cable landing is critical due to various federal and private contracts that are available to Hawaii.

Your Committees have amended this measure by deleting its contents and inserting language from S.B. No. 218, S.D. 1 (Regular Session 2019), which:

- (1) Requires the Hawaii Technology Development Corporation to establish a public-private partnership with a private organization to plan, build, and manage key strategic broadband infrastructure and attract cloud based companies to Hawaii; and
- (2) Appropriates funds to the Hawaii Technology Development Corporation to establish an open access, carrier neutral cable landing station and for the Hawaii Broadband Initiative.

As affirmed by the records of votes of the members of your Committees on Technology and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 821, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 821, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Technology: Ayes, 4. Noes, none. Excused, 1 (English).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Taniguchi).

#### SCRep. 1300 Government Operations on H.B. No. 1188

The purpose and intent of this measure is to appropriate funds for fiscal year 2019-2020 to the State Procurement Office to advance the small business assistance initiative.

Your Committee received testimony in support of this measure from the State Procurement Office, Association of Hawaiian Civic Clubs, and Prince Kūhiō Hawaiian Civic Club.

Your Committee finds that small businesses are the lifeblood of the State's economy. Act 42, Session Laws of Hawaii 2017, established within the State Procurement Office a three-year small business initiative to facilitate the collection and development of relevant data and convene stakeholders for purposes of developing an effective small business program. The State Procurement Office was appropriated \$200,000 in 2018 for only the first year of the three-year program. Funding for year two of the program is critical to the success of the small business assistance program because the development of effective rules will set the groundwork for a small business set-aside program and basis for training, workshop campaigns, and an implementation program. This measure will appropriate funds for fiscal year 2019-2020, which will allow the State Procurement Office to continue working toward ensuring that small businesses are able to effectively participate in contracting opportunities, thereby promoting the growth and development of small businesses in the State.

Your Committee has amended this measure by changing the effective date to January 1, 2061, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1188, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1188, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 1301 Government Operations on H.B. No. 618

The purpose and intent of this measure is to:

- (1) Establish the repair and maintenance special fund for the repair and maintenance of state department facilities;
- Prohibit fund monies from funding employee salaries and costs or being considered as part of the employer's ability to pay those costs; and
- (3) Appropriate funds.

Your Committee received comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committee finds that various state department facilities are in need of repair and maintenance. This measure establishes and appropriates funds into a special fund for the repair and maintenance of state department facilities, which will ultimately result in the improved condition of state facilities.

Your Committee has amended this measure by inserting an effective date of July 1, 2061, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 618, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 618, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1302 Commerce, Consumer Protection, and Health on H.B. No. 290

The purpose and intent of this measure is to amend Hawaii's Uniform Controlled Substances Act to add a new cannabidiol drug to Schedule V in conformity with federal law and to create an exception for the drug under tetrahydrocannabinols in Schedule I.

Your Committee received testimony in support of this measure from the Department of Public Safety, Honolulu Police Department, Greenwich Biosciences, and Epilepsy Foundation Hawaii. Your Committee received comments on this measure from Akamai Cannabis Clinic and one individual.

Your Committee finds that the federal controlled substances law was updated to include a Schedule V controlled substance used to treat certain childhood-onset epilepsy patients who were not previously helped by other epilepsy medicines. This measure updates the Hawaii Uniform Controlled Substances Act to reflect those recent changes to federal law, which will improve the treatment options for certain epilepsy patients in Hawaii.

Your Committee has amended this measure by:

- Removing language that would have created a new exception for this drug under Schedule I, as this exception was inconsistent
  with federal law;
- (2) Authorizing qualifying patients or qualifying out-of-state patients to transport medical cannabis between islands for their personal medical use; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 290, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 290, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Keohokalole, Thielen, Fevella).

#### SCRep. 1303 Commerce, Consumer Protection, and Health on H.B. No. 330

The purpose and intent of this measure is to appropriate funds to support youth suicide early intervention, prevention, and education initiatives in Kauai and Hawaii counties.

Your Committee received testimony in support of this measure from the Department of Education, Department of Health, Office of the Mayor of the County of Hawai'i, Prevent Suicide Maui County Task Force, Hawaii State Teachers Association, Democratic Party of Hawai'i, Honolulu County Republican Party, Mental Health America of Hawai'i, Hawai'i Pacific Health, Hawaii Family Forum, Parents and Children Together, and six individuals. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that suicide is the leading cause of injury related deaths for 15 to 24 year olds in Hawaii. For every child who dies from suicide, an estimated 238 more are hospitalized for suicide related injuries. However, your Committee further finds that youth suicide may be preventable when communities have sufficient resources in place to support early intervention, prevention, and education initiatives. Youth suicide rates are significantly higher on neighbor islands compared to Oahu and therefore your Committee believes funding youth suicide early intervention, prevention, and education programs for all three neighbor island counties will target areas with the greatest need.

Your Committee has amended this measure by:

- Adding an appropriation of an unspecified amount to support youth suicide early intervention, prevention, and education initiatives in Maui County; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 330, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 330, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Nishihara).

# SCRep. 1304 Commerce, Consumer Protection, and Health on H.B. No. 465

The purpose and intent of this measure is to appropriate funds for the kupuna care program and to require the Executive Office on Aging to adopt rules to administer the kupuna care program by January 1, 2022.

Your Committee received testimony in support of this measure from the Executive Office on Aging; Policy Advisory Board for Elder Affairs; Maui County Office on Aging; Healthcare Association of Hawaii; United Public Workers, AFSCME, Local 646, AFL-CIO; International Longshore and Warehouse Union Local 142; Zonta Club of Hilo; Chinatown Gateway Plaza Tenant Association; Hawaii Chapter of the American Physical Therapy Association; Catholic Charities Hawaii; Lanakila Pacific; AARP Hawaii; Hawaii Women's Coalition; and five individuals.

Your Committee finds that as Hawaii's aging population continues to grow, the need for long term services and supports is also increasing. The kupuna care program assists vulnerable adults age 60 and older to age in place by providing a continuum of home and community-based services, such as homemakers, meal delivery, transportation, and personal care. By providing these services, the kupuna care program empowers elderly residents to continue leading independent, meaningful, and dignified lives within their communities.

Your Committee further finds that in fiscal year 2018, kupuna care served 5,643 older adults statewide at an average cost of \$1,524 per person, significantly less than more restrictive types of care. Securing consistent funding for the kupuna care program is critical, as keeping seniors healthy and at home is the most cost-effective way to address the rapidly increasing population of adults age 60 and older in the State.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$9,000,000;
- (2) Removing the requirement for the Executive Office on Aging to adopt rules to administer the kupuna care program by January 1, 2022;
- (3) Inserting an effective date of July 1, 2019; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 465, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 465, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Nishihara).

# SCRep. 1305 Commerce, Consumer Protection, and Health on H.B. No. 466

The purpose and intent of this measure is to appropriate funds for the Aging and Disability Resource Center.

Your Committee received testimony in support of this measure from the Executive Office on Aging, Policy Advisory Board for Elder Affairs, State Council on Developmental Disabilities, Maui County Office on Aging, Zonta Club of Hilo, International Longshore and Warehouse Union Local 142, AARP Hawaii, and three individuals.

Your Committee finds the Aging and Disability Resource Center streamlines access to long-term supports and services for older adults, individuals with disabilities, and family caregivers. In fiscal year 2017 alone, the Aging and Disability Resource Center assisted over 11,000 older adults navigate the service system to access federal and state publicly-funded supports and services. By appropriating sufficient funds for the effective and continued operation of the Aging and Disability Resource Center, this measure helps sustain the capacity for the Executive Office on Aging and the county Area Agencies on Aging to operate as a statewide, fully functional Aging and Disability Resource Center.

Your Committee has amended this measure by inserting an appropriation amount of \$3,100,000 for each year of the 2019-2021 fiscal biennium.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 466, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 466, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Nishihara).

# SCRep. 1306 Commerce, Consumer Protection, and Health on H.B. No. 702

The purpose and intent of this measure is to prohibit the sale or offering for sale of location data that is recorded or collected by a satellite navigation technology-equipped device without explicit consent of the individual who is the primary user of the device.

Your Committee received testimony in support of this measure from the American Civil Liberties Union of Hawai'i.

Your Committee finds that Hawaii has a strong history of protecting an individual's right to privacy. Tracking and recording location data reveals many things about a person's life and constitutes a significant invasion of privacy. A recent *New York Times* article reported that, for a single specific user, an application on a device gathered and recorded location information over 8,600 times over a four-month period, or on average, once every twenty-one minutes. User agreements are often part of a cell phone contract but are rarely read by consumers and are insufficient to secure the level of explicit consumer permission required to share or sell personal location data. This measure therefore prohibits the sale of location data without the explicit consent of the individual who is the primary user of the device in order to promote consumer protection.

Your Committee notes the number of questions that were raised before your Committee during the public hearing on this measure concerning general enforceability and the applicability of this measure to those companies that do not have a physical presence in Hawaii. Your Committee finds that these issues merit further consideration and examination by your Committee on Judiciary, should it choose to hear this measure.

Your Committee has amended this measure by:

(1) Inserting an effective date of July 1, 2019; and

(2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 702, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 702, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1307 Commerce, Consumer Protection, and Health on H.B. No. 887

The purpose and intent of this measure is to:

- (1) Include certain spirits-based beverages in the definition of "cooler beverage"; and
- (2) Repeal the definition of "draft beer" to apply the same tax rate to all beer.

Your Committee received testimony in support of this measure from the Hawaiian Craft Brewers Guild, REAL a gastropub/Bent Tail Brewing Company, Beer Lab Hawaii, Honolulu BeerWorks, Maui Brewing Co., Kona Brewing Co., Waikiki Brewing Company, and Lanikai Brewing Company. Your Committee received testimony in opposition to this measure from the Hawaii Alcohol Policy Alliance and five individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that a cooler beverage is a mixed beverage containing primarily juice, water, or soda, with only a portion of liquor. There are several companies from the mainland exporting small volumes of cocktails and cooler beverages in cans or bottles to Hawaii. More individuals are showing an interest in developing distillery businesses if the economics are favorable, but Hawaii's existing tax laws create a significant disadvantage. This measure creates the category of "cooler beverage" for spirits, resulting in a tax on only the amount of the distilled spirit in the beverage. This measure also encourages local production and manufacturing and creates a new category of products for consumers, resulting in increased tax revenue.

Your Committee further finds that Hawaii's existing liquor tax law has two separate rates for beer, which is the only beverage with this disparity. The current definition of "draft beer" means beer in an individual container of seven gallons or more, referring to the size of the container from which the beer is dispensed. Draft beer is currently taxed at fifty-four cents per gallon, while beer other than draft beer is taxed at ninety-three cents per gallon. Some breweries, especially smaller craft breweries and those just starting their businesses, typically serve draft beer from two- to five-gallon kegs, meaning they are taxed at the higher rate. Hawaii is ranked in the prive in the United States for beer tax rates. Because of Hawaii's higher costs for shipping, raw materials, and equipment acquisition, local businesses are disadvantaged and struggle to compete with mainland companies. This measure repeals the definition of "draft beer" and creates a uniform tax rate for all beer at fifty-four cents per gallon.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2020; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 887, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 887, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Nishihara).

### SCRep. 1308 Commerce, Consumer Protection, and Health on H.B. No. 888

The purpose and intent of this measure is to appropriate funds to support the operations of the Maui Health System.

Your Committee received testimony in support of this measure from the Maui Health System and three individuals.

Your Committee finds that the Maui Health System manages several key health care institutions in the County of Maui that are critical to the health and well-being of county residents, including Maui Memorial Medical Center, Kula Hospital, and Lanai Community Hospital. Each year, the Maui Health System averages 8,529 inpatient admissions and 53,647 emergency room visits, and provides skilled nursing and long-term care for up to 124 patients. In addition, the Maui Health System is the only health care provider on the neighbor islands that provides cardiac surgery, interventional cardiology, interventional neurosurgery, and neurosurgery.

Your Committee further finds that the Maui Health System, which is an affiliate of Kaiser Permanente, took over the Maui Regional System facilities from the Hawaii Health Systems Corporation following the passage of Act 103, Session Laws of Hawaii 2015. Whereas in 2014, the year before the public-private partnership went into effect, the operating costs of the Maui Regional System were \$38,000,000, the System's request for fiscal years 2020 and 2021 are \$26,000,000 and \$23,000,000, respectively. Your Committee notes that the Maui Health System is an example of a successful decoupling from the state system that has saved the State money while improving quality of care for Maui residents.

Your Committee has amended this measure by inserting appropriation amounts of \$26,000,000 for fiscal year 2019-2020 and \$23,000,000 for fiscal year 2020-2021.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 888, H.D. 1, as amended herein, and

recommends that it pass Second Reading in the form attached hereto as H.B. No. 888, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Keohokalole, Thielen, Fevella).

#### SCRep. 1309 Commerce, Consumer Protection, and Health on H.B. No. 931

The purpose and intent of this measure is to:

- Prohibit landlords from recovering possession of dwelling units from tenants if habitability of premises is significantly impaired;
- (2) Specify a tenant's liability for rent if habitability of premises is significantly impaired; and
- (3) Clarify remedies for retaliatory evictions.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Hawaii State Commission on the Status of Women, Hawaiian Community Assets, Lawyers for Equal Justice, Parents and Children Together, PHOCUSED, Chinatown Gateway Plaza Tenant Association, Hawaii Regional Council of Carpenters, Pacific Resource Partnership, and seven individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association of REALTORS and one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the warranty of habitability is a principle based on contract law, wherein the tenant is responsible for paying rent, while the landlord guarantees in return that the premises are habitable and in compliance with health, safety, and building codes. The warranty of habitability has been recognized by the Hawaii Supreme Court but has not been codified in statute, meaning it is largely unenforced.

Existing state law allows a tenant to deduct up to \$500 from the following month's rent for the cost of repairs if the landlord does not respond to the tenant's written repair request within twelve business days. However, the cost to repair conditions that materially affect health and safety can often exceed \$500. Your Committee further finds that Hawaii has one of the highest percentages of renter households in the nation, at forty-two percent. Renters in Hawaii already face one of the least affordable rental markets in the country and many do not have disposable funds to make necessary repairs when their landlords fail to do so, or to hire an attorney, thereby resulting in sub-standard living conditions. The end result is many tenants are served with retaliatory eviction notices from landlords who would rather not go through the trouble of repairing or bringing their rental units into compliance with health and safety regulations. Given the difficulty of finding adequate rental housing in the current market, many tenants who are subjected to eviction have few alternatives and may find themselves at risk of homelessness.

Your Committee notes that data from a recent Lawyers for Equal Justice report shows only four percent of tenants had legal representation during an eviction action, while seventy percent of landlords were represented. This discrepancy resulted in landlords being awarded possession in ninety-seven percent of cases.

Accordingly, this measure codifies the Hawaii Supreme Court's decision establishing a warranty of habitability and sets minimum damages for tenants who have suffered retaliatory evictions, which will incentivize landlords to keep their rental unit in a safe and sanitary condition.

Your Committee has amended this measure by:

- (1) Clarifying that the tenant must continue to pay rent equal to the fair rental value of the premises or the agreed upon rent, whichever is less, to avoid an action or proceeding to recover possession of the dwelling unit;
- (2) Removing language that would have entitled a tenant to a remedy of free occupancy for two months, in the case of a retaliatory eviction, as this provision raised certain constitutional concerns;
- (3) Inserting an effective date of July 1, 2019; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 931, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 931, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Keohokalole). Noes, none. Excused, 1 (Fevella).

# SCRep. 1310 Commerce, Consumer Protection, and Health on H.B. No. 944

The purpose and intent of this measure is to:

- (1) Clarify that a public benefit corporation may not purchase its memberships;
- (2) Clarify that a person who does not have authority to vote as a member of the board is not a director;
- (3) Clarify that a corporation with members may designate its directors;
- (4) Authorize a board of directors to take action without a board meeting through electronic means;
- (5) Increase the length of time that the Attorney General has to review proposed sale of substantially all of the assets of public benefit corporations other than in the regular course of its activities; and

(6) Make other housekeeping amendments.

Your Committee received testimony in support of this measure from the Department of the Attorney General, University of Hawai'i Foundation, and Hawai'i Alliance of Nonprofit Organizations.

Your Committee finds that public benefit corporations are normally prohibited from making any distributions other than for charitable purposes under existing law. Unlike shareholders of a corporation or partners of a partnership, members of a public benefit corporation do not have an economic ownership interest in the public benefit corporation. Therefore, a public benefit corporation's use of its charitable assets to purchase its memberships would amount to a distribution to its members and would evade the rules against distributing charitable assets for non-charitable purposes. This measure explicitly prohibits a public benefit corporation from purchasing its memberships, prevents charitable assets from being used for non-charitable purposes, and conforms the Hawaii Nonprofit Corporations Act to the Revised Model Nonprofit Corporation Act of 1987.

Your Committee additionally finds that existing law is unclear as to whether ex-officio directors, or individuals named as directors based on their position or status, who do not have any authority to vote as members of the board, are in fact directors of a nonprofit corporation. Non-voting directors would be unable to perform their fiduciary duties as directors if they are unable to vote to take any action. This measure further clarifies that the term "directors", as used in the Hawaii Nonprofit Corporations Act, only includes those who have authority to vote as a member of the board. Lastly, this measure enables directors of nonprofit corporations to use electronic or digital signatures as a form of written consent and makes additional housekeeping amendments for consistency with existing model acts and state law.

Your Committee has amended this measure by:

- (1) Changing its effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 944, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 944, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

### SCRep. 1311 Commerce, Consumer Protection, and Health on H.B. No. 988

The purpose and intent of this measure is to implement Section 106 of the federal Economic Growth, Regulatory Relief, and Consumer Protection Act (Section 106), which provides a one hundred twenty-day temporary transitional authority to originate loans in this State for loan originators moving from a depository institution to a non-depository institution and state-licensed loan originators moving interstate.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that when loan originators change jobs within the profession, they encounter employment barriers due to state licensing requirements. Nationally, approximately seventy-five percent of the mortgage loan originators who apply for a license would qualify for transitional authority because they are either employed by a depository institution or are licensed in another state. This measure integrates Section 106 into existing law relating to mortgage loan originators by temporarily authorizing qualified mortgage loan originators to originate mortgage loans in the State for one hundred twenty days. During this time, a mortgage loan originator will have the opportunity to complete state requirements for licensure, including pre-education or continuing education, financial responsibility review, and criminal background review, which will ease the employment process for employers without the impact of delays associated with the state licensing process. A mortgage loan originator company also remains responsible for any origination errors caused by a mortgage loan originator with transitional authority, which ensures consumer protection during this transitional period.

Your Committee has amended this measure by:

- (1) Inserting an effective date of November 24, 2019, to conform with the date on which Section 106 will take effect; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 988, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 988, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

## SCRep. 1312 Commerce, Consumer Protection, and Health on H.B. No. 945

The purpose and intent of this measure is to clarify Hawaii's charitable solicitation laws by:

- (1) Replacing the term "gross revenue" with "total revenue";
- (2) Defining the term "total revenue" for purposes of calculating the annual filing fee;
- (3) Clarifying when professional solicitors must file financial reports;

- (4) Clarifying when commercial co-venturers must provide a charitable organization with an accounting and the date by which a benefit must be conferred;
- (5) Clarifying that charitable organizations are required to submit financial audits only when otherwise required to do so by other external entities; and
- (6) Making other housekeeping amendments.

Your Committee received testimony in support of this measure from the Department of the Attorney General, University of Hawai'i Foundation, and Hawai'i Alliance of Nonprofit Organizations.

Your Committee finds that this measure clarifies terms for consistency with Internal Revenue Service forms, provides oversight of charitable organizations and fundraising activities, clarifies regulatory procedures for the non-profit sector, and provides additional resources to the public. Your Committee additionally finds that professional audits can be very expensive, especially for organizations that just meet the current requirement for having contributions in excess of \$500,000 in a year. This measure removes this burdensome requirement, unless the charity is already required to have an audit due to an externally imposed requirement.

Your Committee has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 945, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 945, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

### SCRep. 1313 Commerce, Consumer Protection, and Health on H.B. No. 989

The purpose and intent of this measure is to authorize the Commissioner of Financial Institutions to:

- Modify requirements and make new requirements to implement changes and improvements to the Nationwide Multistate Licensing System and Registry (NMLS);
- (2) Issue cease and desist orders against licensees and unlicensed persons; and
- (3) Enter into consent orders.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that NMLS is a web-based nationwide licensing system that streamlines workflows and communications for applicants, licensees, and the Division of Financial Institutions. Currently, the Division of Financial Institutions cannot accept electronic bonds uploaded by an insurance carrier through NMLS due to the requirements in existing law that bond riders or endorsements must be provided directly to the Commissioner of Financial Institutions (Commissioner) and surety bonds must be filed with the Commissioner. This measure gives the Commissioner authority to expand the Division's uses of NMLS in accordance with the current practice of other states and better manage the licensure of mortgage servicers.

Your Committee further finds that, currently, the Commissioner may only issue proposed cease and desist orders, which have no immediate effect in the event that a licensee's violation is likely to cause immediate and irreparable harm to a consumer. Moreover, because the Commissioner also has no authority to enter into consent orders, administrative proceedings can last a number of years, wasting time and resources. This measure authorizes the Commissioner to enter into consent orders and issue cease and desist orders for violations for licensees and unlicensed persons, which will enable the Commissioner to quickly minimize consumer harm, expedite decisions, and save resources.

Your Committee has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 989, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 989, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

# SCRep. 1314 Commerce, Consumer Protection, and Health on H.B. No. 1479

The purpose and intent of this measure is to restrict sales of residential condominiums developed with state investment within a transit-oriented development area or within a one-half-mile radius of a public transit station to only prospective owner-occupants for sixty days after the initial date of sale for the project.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that unified state investment in infrastructure is necessary to facilitate compact, mixed-use, and accessible development near transit stations and public transportation nodes. Strategic investment can facilitate the development of public and private lands, revitalize neighborhoods, and increase affordable housing inventory, among other public benefits. Your Committee further finds that promoting homeownership is in the public interest and it is appropriate to allow prospective owner-occupants the first opportunity to purchase condominium units in transit-oriented development areas. This measure therefore requires that initial sales of condominiums developed using state resources within a transit-oriented development area or within a one-half-mile radius of a public transit station be limited to owner-occupants for a sixty-day period.

Your Committee has amended this measure by:

- (1) Clarifying that for certain properties, one hundred percent of the residential units being marketed shall be offered only to prospective owner-occupants for at least a sixty-day period following the initial date of sale of the project;
- (2) Inserting an effective date of July 1, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1479, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1479, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1315 Human Services on H.B. No. 747

The purpose and intent of this measure is to:

- (1) Establish employment first as a state policy with respect to disabled persons;
- (2) Require state and county agencies to implement the employment first policy in hiring and all programs and services administered or funded by the State or counties; and
- (3) Apply employment first principles to Medicaid home- and community-based waiver programs.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities; State Rehabilitation Council; Hawaii Disability Rights Center; Democratic Party of Hawaii, Oahu County Committee, Affirmative Action Committee; Democratic Party of Hawaii Labor Caucus; and two individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that employment is one key to full civic engagement for individuals with disabilities. In addition to improving economic well-being, employment increases self-worth, builds relationships, and provides access to community resources. Employment establishes community connections that allow people to become contributing and valued members of their community. Your Committee further finds that employment first is a policy based upon the idea that working age persons with disabilities can work in jobs fully integrated in the community. Integrated employment includes typical workplace settings that offer regular opportunities for meaningful interaction with coworkers, customers, and the community.

Your Committee also finds that according to gubernatorial proclamations, Hawaii has long been an employment first state. Without implementing legislation, however, these proclamations are merely aspirational. This measure will establish employment first with respect to disabled persons in Hawaii, which will ensure that individuals with disabilities have an opportunity to pursue competitive, integrated employment, thereby adding to the diversity of the workforce and general enrichment of communities.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 747, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Riviere, Fevella).

### SCRep. 1316 Transportation on H.B. No. 304

The purpose and intent of this measure is to:

- (1) Require the Department of Transportation, or an appropriate county agency, to post depth gauge signs on any portion of a public highway within a special flood hazard zone; and
- (2) Appropriate funds to post depth gauge signs on public highways within a special flood hazard zone.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual.

Your Committee finds that depth gauge signs alert drivers that the area is a potential flood zone. Your Committee believes that given the recent events of severe flooding throughout the State, particularly in the County of Kauai, depth gauge signs will act as a supplemental device to notify the public to exert caution when driving in potentially dangerous flood hazard areas. This measure will increase public safety by explicitly showing where flood hazard areas are located.

Your Committee notes the testimony of the Department of Transportation that each intersection requiring depth gauge signs would require four depth gauge signs at a cost of \$1,000 for each sign, or \$4,000 for each intersection.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 304, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

#### SCRep. 1317 Transportation on H.B. No. 309

The purpose and intent of this measure is to appropriate funds to extend the zipper lane on the H-1 Freeway to Kapolei in the vicinity of the Kualakai Parkway on and off ramps.

Your Committee received testimony in support of this measure from the Department of Transportation, Honolulu County Republican Party, and three individuals.

Your Committee finds that traffic congestion in the State continues to be a growing concern for residents. Residents in the State are spending more time in their vehicles commuting than ever before, with the average driver spending about thirty-seven hours a year sitting in traffic. One area that experiences high traffic congestion is the H-1 freeway, in the eastbound direction for drivers traveling from the Kapolei region on Oahu. The State introduced the zipper lane in an attempt to alleviate traffic congestion on the West side of Oahu, however your Committee finds that the zipper lane needs to be extended to be effective in addressing the significant increase in traffic from the West side, specifically traffic coming from Kapolei.

Your Committee notes that the Department of Transportation requested an appropriation of \$65,000,000 for the design and construction of a zipper lane extension.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 309, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

# SCRep. 1318 Transportation on H.B. No. 327

The purpose and intent of this measure is to require the Department of Transportation to develop and implement a program that allows single occupant vehicles to use the zipper lane for a fee.

Your Committee received testimony in support of this measure from the Department of Transportation and Hawaii Transportation Association. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that traffic congestion is a pressing issue for the State as more residents are spending more time commuting than with their loved ones. To address traffic congestion, the State implemented a high occupancy vehicle lane, more commonly known as the zipper lane, which created an extra lane for residents on Oahu. Your Committee further finds that in August of 2016, the Department of Transportation expanded the zipper lane to accommodate two lanes. This increased capacity of the zipper lane by twenty percent, or an additional 1,700 vehicles per hour. Your Committee believes that opening up the zipper lane to single use occupants for a fee will alleviate traffic congestion and provide the state highway fund with much needed revenue.

Your Committee notes that according to testimony received by the Department of Transportation, because the zipper lane utilizes federal funding, the State is required to comply with the provisions in title 23 of the United States Code section 166, which only allows single occupant vehicles to use a high occupancy vehicle facility for a fee, subject to policies, procedures, and rules adopted by the Department of Transportation to carry out the program.

Your Committee has amended this measure by:

- Changing the reference to "a zipper lane on the island of Oahu" to "a zipper lane in a county with a population equal to or greater than 500,000"; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the Department of Transportation requested an appropriation of \$30,000,000 for the design, construction, operation, and maintenance of a program or system that allows single occupant vehicles to access a high occupancy vehicle lane.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 327, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 327, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

# SCRep. 1319 Transportation on H.B. No. 754

The purpose and intent of this measure is to establish a framework for the Department of Transportation and the counties to regulate electric foot scooters and prohibit the use of electric foot scooters to individuals under the age of 18.

Your Committee received testimony in support of this measure from the City and County of Honolulu Department of Transportation Services; City and County of Honolulu Office of Climate Change, Sustainability and Resiliency; Lime; Hawaii Bicycling League; and two individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the types of motorized vehicles that are being introduced in the market are very innovative and constantly being updated based on technology and ease of widespread adoption. In particular, electric foot scooters are experiencing an increase in popularity as an environmentally friendly alternative to driving. Your Committee believes that as new electric motorized vehicles, such as electric foot scooters, are introduced into the State, there should exist fair and just regulation of the vehicles to ensure the safety and viability for all.

Your Committee notes the concern regarding safe places of operation for electric foot scooters, such as roadways or in bike lanes, may cause safety issues for other users of the roadways and bike lanes. Your Committee encourages further discussion as to where electric foot scooters can safely be operated in the State to ensure the safety of all.

Your Committee has amended this measure by:

- (1) Changing the age prohibition to operate an electric foot scooter from eighteen years of age to fifteen years of age;
- (2) Requiring that in lieu of red rear reflectors, all electric foot scooters be equipped with a lighted lamp visible from the rear of the electric foot scooter; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 754, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 754, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

# SCRep. 1320 Transportation on H.B. No. 756

The purpose and intent of this measure is to:

- (1) Require the Department of Transportation, upon consulting with the counties, to adopt rules prescribing uniform standards and specifications for all official traffic control devices placed pursuant to the Statewide Traffic Code; and
- (2) Specify the factors the Department of Transportation and the counties must take into account when setting maximum speed limits on a road.

Your Committee received testimony in support of this measure from the Department of Transportation and Hawaii Strategic Highway Safety Plan.

Your Committee finds that uniform standards and specifications for official traffic control devices are important to provide consistency throughout the State and to ensure the safety of Hawaii's residents and visitors. Your Committee further finds that Hawaii is ranked the fourth worst state in the nation for speed-related driving fatalities and over the past 10 years, 46 percent of traffic fatalities in the State have been speed-related. Your Committee believes that more needs to be done to reduce speed-related fatalities in the State. This measure will improve traffic conditions throughout the State by providing clarity in traffic control devices and address the increasing number of speed-related fatalities in the State.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 756, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

# SCRep. 1321 Transportation on H.B. No. 812

The purpose and intent of this measure is to:

- (1) Include low-speed electric bicycles in the definition of bicycle;
- (2) Prohibit anyone under the age of eighteen from operating a low-speed electric bicycle; and
- (3) Require low-speed electric bicycles to be registered and pay a \$30 registration fee.

Your Committee received testimony in support of this measure from the Department of Transportation, County of Kaua'i Planning Department; and two individuals.

Your Committee finds that there is no existing law that regulates low-speed electric bicycles. Electric bicycles are becoming increasingly popular as an environmentally friendly alternative means of transportation in the State. Including low-speed electric bicycles in the definition of a "bicycle" will allow the State to better regulate this popular means of transportation and bring the State into conformance with the federal definition of a bicycle.

Your Committee further finds that although there is no existing law that enforces a minimum age requirement to ride a bicycle, the maximum speed of a low-speed electric bicycle can be potentially dangerous for the younger population. According to testimony submitted by the Department of Transportation, an age limit should be established when operating a low-speed electric vehicle for safety purposes. Your Committee notes that currently, an individual is allowed to drive a car with a permit at the age of 15.

Accordingly, your Committee has amended this measure by:

- (1) Reducing the age prohibition to operate a low-speed electric scooter from eighteen years to fifteen years;
- (2) Deleting the requirement to register a low-speed electric bicycle and pay a \$30 registration fee; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 812, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 812, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

#### SCRep. 1322 Transportation on H.B. No. 839

The purpose and intent of this measure is to appropriate funds to install signalized crosswalks and related pedestrian improvements at four unsignalized intersections in the Nuuanu area of the Pali Highway.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that pedestrian fatalities have increased significantly in the past year. According to the Governors Highway Safety Association, pedestrian fatalities in Hawaii have increased by 1,800 percent from the first six months of 2017 to the first six months of 2018. Your Committee further finds that as of February 2019, there have been nine pedestrian fatalities in the State, roughly 40 percent of the total fatalities that have occurred so far this year. Your Committee further finds that according to the Insurance Institute of Highway Safety Loss Data Institute, 40 percent of all accidents involving pedestrians occur at a crosswalk with no traffic signal. Installing traffic signals that give pedestrians exclusive access to intersections reduces pedestrian accidents at intersections by half. This measure will reduce the number of pedestrian fatalities in the State by installing pedestrian-activated signalized crosswalks at four potentially dangerous crosswalks in the Nuuanu area of the Pali Highway.

Your Committee has amended this measure by:

- (1) Inserting an appropriation of \$5,200,000 for the design and installation of signalized crosswalks and related pedestrian improvements in the Nuuanu area; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 839, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 839, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

# SCRep. 1323 Transportation on H.B. No. 1053

The purpose and intent of this measure is to amend the mandatory inscription for civil identification cards to conform with the currently used inscription.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the state civil identification card was erroneously produced with the inscription "Hawaii Identification Card", rather than "State of Hawaii Identification Card", as mandated by statute. Your Committee further finds that there are numerous residents who are already carrying the cards with the incorrect inscription. Your Committee believes that requiring the residents to receive a corrected identification card would cause a great deal of inconvenience and it would be more expedient and economical to amend the statutorily mandated inscription to conform to the identification cards currently in use.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1053, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

#### SCRep. 1324 Transportation on H.B. No. 1165

The purpose and intent of this measure is to:

- (1) Require a license or state identification card to include a person's full legal name, date of birth, gender designation, residence address, and license number; and
- (2) Specify gender designation options by including a third option.

Your Committee received testimony in support of this measure from the Department of Transportation, Office of Hawaiian Affairs, Hawai'i State Commission on the Status of Women, Hawai'i Civil Rights Commission, Planned Parenthood Votes Northwest and Hawaii, Rainbow Family 808, LGBT Caucus of the Democratic Party of Hawai'i, Pride at Work Hawaii, American Civil Liberties Union of Hawai'i, Hawaii Women's Coalition, and six individuals.

Your Committee finds that the transgender community is subject to much discrimination and is the target of invasive questions, creating uncomfortable and unwarranted situations for many. Gender and sex markers on identification cards, such as driver's licenses, can increase the likelihood of discrimination for transgender and gender non-conforming individuals in various situations. Your Committee believes that expanding gender options on government issued identification cards will aid in nondiscrimination against transgender and gender non-conforming individuals.

Your Committee notes that it is the responsibility of the county examiner of drivers to issue driver's licenses at various county issuing locations, rather than the Department of Transportation.

Accordingly, your Committee has amended this measure by clarifying that the examiner of drivers, rather than the Department of Transportation, is prohibited from requiring documentation for an applicant's selection of, or amendment to, a gender designation, unless such documentation is necessary to establish that the applicant is legally entitled to a license.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1165, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1165, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

#### SCRep. 1325 Transportation on H.B. No. 1217

The purpose and intent of this measure is to:

- Make the inclusion of an affidavit application for voter registration mandatory for all driver's license and identification card applications;
- (2) Automatically register applicants who elect to register to vote; and
- (3) Require the Department of Transportation, the counties, and election personnel to share pertinent information for voter registration purposes.

Your Committee received testimony in support of this measure from the Department of Transportation, Office of Elections, Hawaii Appleseed Center for Law and Economic Justice, Pono Hawai'i Initiative, Sierra Club of Hawai'i, Planned Parenthood Votes Northwest and Hawaii, League of Women Voters of Hawaii, Hawai'i Alliance of Nonprofit Organizations, Transform Hawai'i Government, AVR Hawaii, American Civil Liberties Union of Hawai'i, Common Cause Hawaii, Hawaii Women's Coalition, and seventeen individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that in Hawaii fewer than four out of ten eligible voters participated in the 2018 elections, the lowest voter turnout rate in the nation. Your Committee believes that improving access to voting is fundamental to the democratic process. Automatic voter registration eliminates unnecessary barriers to voting caused by the time and effort needed for antiquated methods. This measure will create a more efficient, convenient, and modernized registration system for residents of the State and encourage more residents to uphold their civic duty to vote.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1217, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

#### SCRep. 1326 Judiciary on H.B. No. 1354

The purpose and intent of this measure is to appropriate additional funds for the operations of the Office of Information Practices for the fiscal biennium beginning July 1, 2019, and ending June 30, 2021.

Your Committee received testimony in support of this measure from the Office of Information Practices.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs of the Office of Information Practices to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by:

- (1) Adding an appropriation in a blank amount for the establishment of three additional staff attorney positions within the Office of Information Practices; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1354, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1354, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

### SCRep. 1327 Judiciary on H.B. No. 1356

The purpose and intent of this measure is to appropriate funds to the Office of Elections' operating budget for the 2020 election voting contract, 2021 reapportionment, and four temporary positions to provide support for reapportionment.

Your Committee received testimony in support of this measure from the Office of Elections.

Your Committee finds that the Office of Elections is responsible for entering electronic voting systems contracts on behalf of the State, as well as participation in the 2021 reapportionment. This measure appropriates funds to the Office of Elections to meet these obligations.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1356, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

#### SCRep. 1328 (Joint) Transportation and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 333

The purpose and intent of this measure is to establish the state highway enforcement program and a parking violation surcharge in addition to other penalties and fines for parking violations on state highways.

Your Committees received testimony in support of this measure from the Department of Transportation, Department of Planning of the County of Kaua'i, and five individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committees find that a surge in tourism throughout the State has resulted in an increase in illegally parked vehicles along nearby state highways, creating unsafe and hazardous problems by blocking traffic lanes. Your Committees further find that the Department of Transportation and Department of Public Safety currently do not have sufficient resources to enforce parking violations and patrol remote portions where parking infractions occur on state highways. This measure will establish a framework for the Department of Transportation to properly enforce violations for illegally parked vehicles, provide necessary resources for the State to enforce parking violations, and improve safety along state highways.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2051, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 333, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 333, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

#### SCRep. 1329 (Joint) Transportation and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 394

The purpose and intent of this measure is to make the motor vehicle registration fee and county ordinances that increase a motor vehicle registration fee for U-drive motor vehicles consistent with the fee for all other motor vehicles.

Your Committees received testimony in support of this measure from the Department of Transportation, City and County of Honolulu Department of Customer Services, Office of the Mayor of the County of Maui, and two members of the Maui County Council. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that Act 274, Session Laws of Hawaii 1999, first established a lower motor vehicle registration fee and prevented the counties from imposing an increased registration fee for U-drive motor vehicles, or more commonly known as rental cars. Your Committees believe that rental cars share the road alongside all other vehicles in the State and thus should contribute equally to highway beautification. This measure will provide equal requirements for all motor vehicles for purposes of a registration fee. It will also help to defray additional costs for the disposition of abandoned or derelict vehicles in the State.

As affirmed by the records of votes of the members of your Committees on Transportation and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 394, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

### SCRep. 1330 (Joint) Transportation and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 788

The purpose and intent of this measure is to:

- (1) Prohibit any person from operating a vehicle that does not display a current, valid registration tag or emblem and a valid inspection sticker; and
- (2) Authorize a law enforcement officer to issue a citation to any person who operates a vehicle without a valid registration tag or emblem, or a valid inspection sticker.

Your Committees received testimony in support of this measure from the Department of Transportation, Maui Police Department, and Honolulu Police Department.

Your Committees find existing law unintentionally holds only registered owners of vehicles liable for not updating their vehicle registration and safety inspection. Your Committees further find that often times individuals purposely do not register their vehicles knowing that if they receive a citation, it will be dismissed in court as they are not the registered owner on file. This measure will increase highway safety by ensuring that vehicles on public roads have met the requirements of the State's safety inspection program and are properly registered.

As affirmed by the records of votes of the members of your Committees on Transportation and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 788, H.D. 2, and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

#### SCRep. 1331 Higher Education on H.B. No. 1546

The purpose and intent of this measure is to require and appropriate funds for the University of Hawaii to develop a plan for the statewide eradication of mosquitos.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Department of Land and Natural Resources, and three individuals.

Your Committee finds that mosquitos are considered vectors of diseases that negatively affect humans and wildlife. Without sufficient eradication efforts, mosquito-borne disease such as dengue fever and Zika virus are likely to become established in Hawaii.

Your Committee further finds that mosquito eradication techniques have been developed and tested in multiple mosquito-affected regions of the world. Locally, the University of Hawaii, in partnership with the Department of Land and Natural Resources Division of Forestry and Wildlife and the United States Fish and Wildlife Service, have researched mosquito control technologies that could potentially benefit native wildlife and human health in Hawaii. This measure would provide additional resources for the University of Hawaii to continue its work to eradicate mosquitoes from Hawaii to protect public health and native species in the State.

Your Committee has amended this measure by:

- (1) Specifying that the appropriated funds are prohibited from being used for travel expenses; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1546, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1546, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

#### SCRep. 1332 Higher Education on H.B. No. 1455

The purpose and intent of this measure is to appropriate funds for the University of Hawaii Maui College's International Office for various positions and study abroad opportunities for University of Hawaii Maui College students.

Your Committee received testimony in support of this measure from the University of Hawai'i System, University of Hawai'i Maui College Student Government Council, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual.

Your Committee finds that the University of Hawaii Maui College's International Office works continuously to connect students from Maui and abroad to develop meaningful relationships in an increasingly globalized world. Through study abroad programs, students are able to experience cultures and educational opportunities in countries like Canada, China, the Czech Republic, Japan, Korea, and the Philippines. This measure empowers students by providing more opportunities for them to gain global experiences, expand their network, and build lasting relationships beyond Hawaii.

Your Committee notes that concerns have been raised regarding certain travel, like the Achieving the Dream Conference, and requests the University of Hawaii Maui College to submit a report to your Committee regarding how travel can be more reasonably limited to provide funds for the study abroad programs.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1455, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1455, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

# SCRep. 1333 Higher Education on H.B. No. 1157

The purpose and intent of this measure is to exempt students in post-secondary education programs from immunization requirements if they attend classes exclusively online or through distance learning.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Chaminade University of Honolulu, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that colleges and universities, including the University of Hawaii, are expanding access to higher education through courses and programs offered online. These courses provide more flexibility in location and schedule for students who are working, have family responsibilities, or have other challenges participating in on-campus classes.

Your Committee further finds that existing Hawaii Administrative Rules require post-secondary students, including students in online or distance learning programs who do not attend classes in person, to provide immunization records with evidence of certain vaccinations. The Department of Health is currently proposing a rule change to exempt post-secondary students in online or distance-learning programs who do not attend classes in person from the current immunization requirements. However, the proposed rule change may not be adopted in time for the fall 2019 classes. Therefore, this measure provides an exemption from the immunization requirements for these students in a timely manner.

Your Committee has amended this measure by:

- (1) Specifying that if a student enrolled in an online or distance learning program needs to go on campus for any reason, the student shall be subject to the immunization requirements of existing Hawaii Administrative Rules prior to entering the campus; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1157, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1157, H.D. 1, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

### SCRep. 1334 Higher Education on H.B. No. 1469

The purpose and intent of this measure is to establish a state income tax deduction for eligible contributions made to the Hawaii college savings program.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, State Council on Developmental Disabilities, and one individual. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that although the State established a college savings program to assist and encourage families to save and invest funds for future higher education expenses, the rate of increase in the program is much lower than in most other states' corresponding programs. A reason for this may be because most other states offer a state tax deduction or credit for contributions to their state college savings programs as an incentive for their residents to participate. Therefore, as the cost of higher education continues to rise, it is appropriate for the State to provide a similar incentive to Hawaii taxpayers to participate in Hawaii's college savings program. This measure creates an incentive that will increase the Hawaii college savings program's assets and help Hawaii families save for college instead of taking out educational loans.

Your Committee has amended this measure by:

- Clarifying that contributions to the Hawaii college savings program may be deducted from a taxpayer's Hawaii adjusted gross income:
- (2) Specifying the maximum amount a taxpayer may claim as a deduction as follows:
  - (A) \$4,000 for taxpayers filing a single return and for married couples filing separate returns; provided that each spouse may claim a deduction up to \$4,000; and
  - (B) \$8,000 for married couples filing joint returns, heads of household, or surviving spouses;
- (3) Specifying that nonqualified withdrawals from the Hawaii college savings program shall be subject to penalties pursuant to section 256-4, Hawaii Revised Statutes; and
- (4) Specifying that this measure shall apply to taxable years beginning after December 31, 2019, rather than December 31, 2018.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1469, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1469, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

# SCRep. 1335 Higher Education on H.B. No. 560

The purpose and intent of this measure is to require and appropriate funds for the University of Hawaii community colleges to:

- Establish energy systems and technology training courses for county officers and employees responsible for permitting, inspecting, licensing, and approving construction projects;
- (2) Establish an advisory committee of industry stakeholders for assistance with the training; and
- (3) Submit a report to the Legislature.

Your Committee received testimony in support of this measure from the University of Hawai'i System; Department of Business, Economic Development, and Tourism; State Fire Council; Kaua'i Fire Department; Maui Fire Department; Ulupono Initiative; Blue Planet Foundation; 350.org; 350Hawaii.org; Hawai'i Energy; and six individuals.

Your Committee finds that the State's ambitious clean energy goals, along with advances in energy technology, have created incentives for the adoption of new energy systems technologies and equipment. The increase in the adoption of new energy systems technologies and equipment has placed additional burdens on some county officers and employees who are responsible for permitting, inspecting, licensing, and approving projects, including officers and employees at county public works departments, planning and permitting departments, and fire departments. This measure ensures that these county officers and employees are properly trained and remain informed about new technology in the energy sector.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 560, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

#### SCRep. 1336 Higher Education on H.B. No. 843

The purpose and intent of this measure is to appropriate funds for three non-tenure track, full-time, temporary positions for the applied technical education program at Hawaii Community College.

Your Committee received testimony in support of this measure from the University of Hawai'i System and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that Hawaii Community College has helped to create a trained workforce that meets the needs of local employers. Additional support is needed to add additional cohorts to accommodate interest from students and working adults in programs related to agriculture; automotive mechanics technology; auto body repair and painting; diesel mechanics; and machine, welding, and industrial mechanics. This measure bridges secondary education, post-secondary education, and workforce training and experience to build strong industries and good jobs for Hawaii island residents.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 843, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

#### SCRep. 1337 Transportation on H.B. No. 696

The purpose and intent of this measure is to:

- (1) Limit the exemption from parking fees to eligible drivers with a disability who are unable to operate a parking meter or pay station due to their disability;
- (2) Clarify the time limits applicable to the parking fee exemption;
- (3) Make the act of selling or buying a fraudulently manufactured or altered disability parking permit and the act of buying or selling a disability permit when not authorized to have such permit a misdemeanor;
- (4) Clarify the authority of enforcement officers to confiscate placards and special license plates for violation of requirements for manufacture, sale, purchase, or use; and
- (5) Authorize advanced practice registered nurses to make a determination regarding a person's mobility.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, Honolulu Police Department, and three individuals.

Your Committee finds that the statewide parking program for persons with disabilities provides individuals with mobility disabilities the opportunity to drive and park in accessible parking stalls. However, your Committee finds that the current exemption for disabled persons to park in metered spaces without paying a fee exceeds the original intent of the parking exemption for certain disabled individuals.

Your Committee notes that Senate Bill No. 1236, S.D. 2 (Regular Session of 2019), which was previously passed by the Senate, is a substantially similar measure that, among other things, also sets certain limitations from parking fees to eligible drivers with a disability. Your Committee believes that the language in Senate Bill No. 1236, S.D. 2 is preferable because it aligns the statewide parking program for persons with disabilities with the original intent of the program. In addition, Senate Bill No. 1236, S.D. 2, addresses the concerns of various stakeholders who provided testimony to your Committee.

Accordingly, your Committee has amended this measure by deleting its contents and inserting the contents of Senate Bill No. 1236, S.D. 2, a substantially similar bill, which:

- Clarifies that the exemption from parking fees applies only to disabled persons who drive and are unable to reach or operate a
  parking meter or an unattended pay station due to a physical disability;
- (2) Makes the act of selling or buying a disability parking permit a misdemeanor;
- (3) Authorizes law enforcement officers to confiscate a disability parking permit that is invalid or has been altered; and
- (4) Clarifies the types of disabilities that qualify for a disability parking permit.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 696, H.D. 2, as amended herein, and recommends that it pass Second

Reading in the form attached hereto as H.B. No. 696, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

#### SCRep. 1338 (Joint/Majority) Water and Land and Energy, Economic Development, and Tourism on H.B. No. 593

The purpose and intent of this measure is to authorize the development of utility scale solar projects on class A agricultural lands, subject to certain restrictions.

Your Committees received testimony in support of this measure from the Hawaii Clean Power Alliance and five individuals. Your Committees received testimony in opposition to this measure from the Department of Agriculture; Office of Planning; Hawaii Farm Bureau; Sierra Club of Hawaii'; Hawaii Farmers Union United; Hawaii Cattlemen's Council, Inc.; Hawaii Crop Improvement Association; Maui School Garden Network; Hawaii Interfaith Power & Light; 350.org; 350Hawaii.org; Hawaii's Thousand Friends; Organizing for Action; and fourteen individuals. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism and Ulupono Initiative.

Your Committees find that energy costs can be a limiting factor that reduces the profitability of many of the State's farmers and ranchers, especially considering the high costs of energy in Hawaii as compared to the rest of the country. Your Committees find that permitting utility scale solar projects in state agricultural districts on class A lands could support Hawaii's agricultural industry by providing clean energy at a fixed cost for on-site agricultural operations, provided that the projects further agricultural activities. Your Committees find that utility scale solar projects contribute to the public welfare and that the ideal location for these projects is near high voltage electric lines because this location minimizes the costs of interconnection and transmission, thereby providing savings for ratepayers. Your Committees also find that clean energy at reduced costs is necessary for the sustainability of the State and future generations. This measure would allow for utility scale solar projects in prime locations in furtherance of the State's renewable energy goals.

Your Committees have amended this measure by:

- (1) Making it effective upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees request that the Department of Agriculture provide your Committees with details of the inventory of class A agricultural lands specifying how many acres are currently in production and how many acres are currently fallow.

As affirmed by the records of votes of the members of your Committees on Water and Land and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 593, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 593, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3; Ayes with Reservations (Keith-Agaran, Nishihara). Noes, 1 (Riviere). Excused, 1 (Fevella). Energy, Economic Development, and Tourism: Ayes, 2; Ayes with Reservations (Fevella). Noes, 1 (Keohokalole). Excused, 2 (Inouye, Taniguchi).

# SCRep. 1339 Labor, Culture and the Arts on H.B. No. 1218

The purpose and intent of this measure is to appropriate or authorize funds for programs of the State Foundation on Culture and the Arts.

Your Committee received testimony in support of this measure from State Foundation on Culture and the Arts and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs under the purview of the House Standing Committee on Tourism and International Affairs.

Your Committee notes that S.B. No. 799 (Regular Session of 2019), which was previously passed by your Committee, also appropriates funds to the State Foundation on Culture and the Arts but specifically for use for the integration of works of art projects into several major capital improvement projects, including costs related to the acquisition of works of art and site modifications, display, and interpretive work necessary for the exhibition of works of art. Your Committee concludes that the language in S.B. No. 799 is preferable because it more appropriately defines the purpose of the appropriation as it relates to increasing the ceiling for the works of art special fund.

Accordingly, your Committee has amended this measure by:

- Deleting its contents and inserting the contents of S.B. 799, which appropriates funds out of the works of art special fund to
  the State Foundation on Culture and the Arts for the integration of works of art projects into several major capital improvement
  projects; and
- (2) Inserting an effective date of July 1, 2019.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1218, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1218, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

# SCRep. 1340 Labor, Culture and the Arts on H.B. No. 1343

The purpose and intent of this measure is to extend Hawaii family leave to include care for grandchildren.

Your Committee received testimony in support of this measure from the Department of Human Services; Hawai'i State Commission on the Status of Women; American Association of University Women of Hawaii; Hawaii Children's Action Network; PHOCUSED; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; ILWU Local 142; and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii'i. Your Committee received testimony in opposition to this measure from the Chamber of Commerce Hawaii, Retail Merchants of Hawaii, and one individual. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee recognizes that Hawaii ranks first in the nation for multigenerational families and that there is a growing trend of grandparents acting as primary caregivers for their grandchildren. There are approximately forty-seven thousand children under eighteen years of age that live in homes with grandparents in Hawaii. Approximately twelve thousand five hundred grandparents are responsible for their grandchildren, with sixty percent of them currently in the workforce. Your Committee finds that under existing family leave law, grandparents are not allowed to take leave to care for their grandchildren. This measure will provide grandparents with family leave, which will allow grandparents acting as primary caregivers to tend to the needs and betterment of their family members.

Your Committee notes the concerns of testifiers that this measure will add a costly mandate to business owners and stifle business growth, job creation, and economic stability in Hawaii.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that grandparents are entitled to a total of one week of family leave during any calendar year;
- (2) Changing the effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1343, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1343, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

#### CRep. 1341 Labor, Culture and the Arts on H.B. No. 1344

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Human Resources Development.

Your Committee received testimony in support of this measure from the Department of Human Resources Development and the Board of Trustees of the Deferred Compensation Plan.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for the Department of Human Resources Development to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee notes that S.B. No. 796, S.D. 1 (Regular Session of 2019), which was passed by the Senate, also appropriates funds to the Department of Human Resources Development for certain positions and programs. Your Committee concludes that the language in S.B. No. 796, S.D. 1, is preferable because it more accurately reflects the needs of the Department of Human Resources Development.

Accordingly, your Committee has amended this measure by removing its contents and replacing it with the contents of S.B. No. 796, S.D. 1, which appropriates funds to the Department of Human Resources Development to finance programs and positions including positions and funding for the employee staffing program, a position for a human resources technician, and funding for the labor relations program.

Your Committee requests that if your Committee on Ways and Means passes this measure that is consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose or intent.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1344, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1344, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

# SCRep. 1342 Labor, Culture and the Arts on H.B. No. 1345

The purpose and intent of this measure is to appropriate funds for the operating budget of the Hawaii Employer-Union Health Benefits Trust Fund for the 2019-2021 fiscal year.

Your Committee received testimony in support of this measure from the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) provides health insurance to nearly two hundred thousand state and county employees, retirees, and their dependents and collects and pays approximately \$1,000,000,000 in

premiums annually. Your Committee also finds that the funds appropriated in this measure are in addition to the budget base amounts necessary to support the essential functions and operations of the EUTF.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1345, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

#### SCRep. 1343 Labor, Culture and the Arts on H.B. No. 1375

The purpose and intent of this measure is to appropriate funds to support the State of Hawaii Museum of Natural and Cultural History.

Your Committee received testimony in support of this measure from the Hawai'i Tourism Authority, Bishop Museum Association Council, Historic Hawai'i Foundation, Society of Hawaiian Archaeology, Bishop Museum, Council for Native Hawaiian Advancement, Institute for Native Pacific Education and Culture, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and four individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the Bernice Pauahi Bishop Museum, designated as the State of Hawaii Museum of Natural and Cultural History, is significant for its cultural, architectural, educational, scientific, and historical contributions to Hawaii. It is listed on the National Register of Historic Places and is one of Hawaii's most significant and iconic buildings. Your Committee further finds that Bernice Pauahi Bishop Museum researchers have discovered over seventeen thousand species of plants, animals, and insects throughout the Pacific region and have made countless discoveries related to the migration, settlement, and daily life of Pacific people. Not only does the Bernice Pauahi Bishop Museum conduct research, but it also provides vital education to the public, including thousands of Hawaii's schoolchildren.

Your Committee also finds that the annual appropriation to the Bernice Pauahi Bishop Museum has decreased significantly over the preceding decade. This measure will appropriate funds to the Department of Budget and Finance, which will enable the Bernice Pauahi Bishop Museum to continue its work.

Your Committee notes that S.B. No. 699, S.D. 2 (Regular Session of 2019), which was previously passed by the Senate, also appropriates funds to support the work of the Bernice Pauahi Bishop Museum. Your Committee concludes that the language in section 2 of S.B. No. 699, S.D. 2, is preferable because it requires the Governor to include in the executive budget a minimum amount per fiscal year as a recurring cost to be allocated to the State of Hawaii Museum of Natural and Cultural History.

Your Committee has amended this measure by:

- (1) Removing section 2 and replacing it with the contents of section 2 of S.B. No. 699, S.D. 2, which beginning with the 2021-2023 fiscal biennium and each fiscal biennium thereafter, requires the Governor to include in the executive budget a minimum amount per fiscal year as a recurring cost to be allocated to the State of Hawaii Museum of Natural and Cultural History;
- (2) Inserting an appropriation amount of \$2,000,000 to the State of Hawaii Museum of Natural and Cultural History to support the work of the Bernice Pauahi Bishop Museum, including but not limited to collections care and student learning programs; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1375, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1375, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

#### SCRep. 1344 Labor, Culture and the Arts on H.B. No. 1533

The purpose and intent of this measure is to establish a historic preservation tax credit for qualified construction expenses incurred in the rehabilitation of income producing historic structures, with an enhanced tax credit for income-producing historic structures that provide affordable housing units.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Historic Hawai'i Foundation, and Minatoishi Architects. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that tax incentives for rehabilitation of historic structures have been proven to be enormously effective in preserving important buildings; ensuring their continued economic viability; revitalizing communities, especially historic downtowns; preserving community character; and promoting heritage tourism. Tax credits for rehabilitation of historic structures also provides an incentive to promote rehabilitation of income producing historic properties and provide affordable housing.

Your Committee further finds that many states already provide tax credits for the rehabilitation of historic structures. National studies have found that historic rehabilitation tax credits spur economic development and increase direct revenues that offset the tax credit expense. This measure will establish a historic rehabilitation tax credit, which will benefit affordable housing, tourism, neighborhood revitalization, and the economy as a whole.

Your Committee notes the testimony of the Department of Land and Natural Resources that clarifying language may be necessary to refine and strengthen this measure. Your Committee further notes that S.B. 1394, S.D. 2 (Regular Session of 2019), which was

previously passed by the Senate, is a substantially similar measure that also establishes a historic rehabilitation tax credit. Your Committee concludes that the language in S.B. 1394, S.D. 2, is preferable because it already incorporates the suggested clarifying amendments provided in testimony.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. 1394, S.D. 2, a substantially similar measure, which:
  - (A) Establishes a historic preservation income tax credit; and
  - (B) Appropriates funds for one temporary position to assist with the establishment and administration of the historic preservation income tax credit program;
- (2) Inserting an effective date of January 1, 2020; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1533, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1533, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

# SCRep. 1345 Labor, Culture and the Arts on H.B. No. 393

The purpose and intent of this measure is to:

- (1) Create a fiduciary duty on Hawaii Employer-Union Health Benefits Trust Fund trustees;
- (2) Prohibit transactions where the trustee has a conflict of interest; and
- (3) Establish liabilities for breach of fiduciary duty.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committee received comments on this measure from the Hawaii Employer-Union Health Benefits Trust Fund and Department of Budget and Finance.

Your Committee finds that under existing law, Employer-Union Health Benefits Trust Fund (EUTF) trustees owe no fiduciary duty to the participants or beneficiaries of the EUTF when acting on their behalf. Currently, EUTF trustees may represent participants or beneficiaries where there is a conflict of interest. This measure creates a fiduciary duty on EUTF trustees which will increase the accountability of the EUTF trustees to the participants or beneficiaries and better protect their interests.

Your Committee has amended this measure by:

- (1) Removing references to "participants and beneficiaries" and replacing those references with "employee-beneficiaries";
- (2) Removing language establishing personal liability of EUTF trustees for reimbursement to the EUTF for any losses to the EUTF resulting from a trustee's breach of their fiduciary duty; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 393, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 393, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

## SCRep. 1346 Labor, Culture and the Arts on H.B. No. 488

The purpose and intent of this measure is to:

- (1) Prohibit written nondisclosure agreements involving sexual assault and sexual harassment as part of an employee's condition of employment under certain circumstances; and
- (2) Prohibit employees from retaliating against an employee for disclosing or discussing sexual harassment or sexual assault.

Your Committee received testimony in support of this measure from the Department of Human Services; Hawai'i State Commission on the Status of Women; Hawai'i Civil Rights Commission; SAG-AFTRA Hawaii Local; American Association of University Women of Hawaii; Planned Parenthood Votes Northwest and Hawaii; Fujiwara & Rosenbaum, LLLC; Hawai'i Women Lawyers; Aloha State Association of the Deaf; Hawaii Women's Coalition; and one individual. Your Committee received comments on this measure from the Department of Human Resources Development.

Your Committee finds that nondisclosure agreements that prevent disclosure of sexual assault and sexual harassment as a condition of employment silence victims of sexual harassment, sometimes allowing harassers to continue sexual harassment of other employees. There is also a concern that nondisclosure agreements enable repeat offenders who engage in a pattern of sexual harassment. Your Committee also finds that many victims of sexual assault and harassment do not report it because of fear of being retaliated against. This measure will help end the silencing of victims by banning nondisclosure agreements that prevent disclosure of sexual assault and harassment and prohibiting employers from retaliating against an employee for disclosing sexual harassment and assault.

Your Committee has amended this measure by:

- (1) Clarifying that this measure does not apply to any employees expected to maintain the confidentiality of an investigation as part of their official duties, not just human resources employees; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 488, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 488, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Gabbard).

#### SCRep. 1347 Labor, Culture and the Arts on H.B. No. 845

The purpose and intent of this measure is to:

- (1) Establish the public employees training program to provide training state employees;
- (2) Allocate either 0.01 percent of each employee's gross salary, or an amount negotiated pursuant to collective bargaining, to the public employees training program; and
- (3) Require all new employees to be provided with a general orientation on their benefits and rights.

Your Committee received comments on this measure from the Department of Budget and Finance; City and County of Honolulu Department of Human Resources; United Public Workers, AFSCME, Local 646, AFL-CIO; and Hawaii Government Employees Association, AFSCME Local 142, AFL-CIO.

Your Committee finds that there is a rising number of eligible retirees within the various departments of state government, which creates a pressing need to prepare the next generation of workers to occupy positions vacated by retirees, especially at the supervisory level. Your Committee believes that a public employees training program could help to stabilize the workforce and ensure the transfer of essential skills and institutional knowledge. However, your Committee also wants to ensure that new employees are informed about their benefits and rights as soon as possible. This measure will establish a board to provide training programs for public employees and require that new employees are provided with an orientation where they will be informed about their benefits and rights.

Your Committee notes that S.B. No. 792, S.D. 1 (Regular Session of 2019), which was previously passed by your Committee, also established the public employee training program. Your Committee concludes that S.B. No. 792, S.D. 1 is preferable because it contains amendments already made by this Committee based on previous testimony regarding removing language that would require public employees to contribute to the public employees training fund. Your Committee also notes the request of the City and County of Honolulu Department of Human Resources that clarification is needed to expressly exclude county employees since such employees are not covered by chapters 78 and 89, Hawaii Revised Statutes.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B., 792, S.D. 1, which also establishes the public employee training program but does not require employees to contribute to the training fund;
- (2) Replacing the word "public" with the word "state" where appropriate to clarify that counties are excluded from the requirements of this measure; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 845, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 845, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

# SCRep. 1348 Labor, Culture and the Arts on H.B. No. 867

The purpose and intent of this measure is to establish the chief recruitment officer position, exempt from chapter 76, Hawaii Revised Statutes, within the Department of Human Resources Development.

Your Committee received testimony in support of this measure from the Office of the Governor, Department of Taxation, Department of Human Resources Development, and Department of Transportation. Your Committee received comments on this measure from the Department of Agriculture, Department of Budget and Finance, and Department of Human Services.

Your Committee finds that it is in the State's best interest to support critical government functions with the most talented and qualified staff. Your Committee further finds that the State has a large number of vacancies in a variety of positions across all of its departments and many departments are losing key employees to retirement or the private sector. Your Committee also finds that the Department of Human Resources Development lacks a key type of employee position to serve as a liaison between the Department of Human Resources Development and state departments and agencies to facilitate and expedite the hiring and recruitment for civil service positions. This measure will establish a chief recruitment officer position which will help facilitate the recruitment process for civil service positions to guarantee the continued support of critical government functions.

Your Committee notes the testimony of the Department of Human Resources Development that given the position's responsibilities and that the Chief Recruitment Officer will be reporting directly to the Director of Human Resources Development, the chief

recruitment officer position's title should be changed to Administrative Assistant to the Director of Human Resources Development, to be consistent with chapter 76-16, Hawaii Revised Statutes.

Accordingly, your Committee has amended this measure by:

- (1) Changing the title of the Chief Recruitment Officer to Administrative Assistant to the Director of Human Resources Development; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 867, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 867, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

#### SCRep. 1349 Labor, Culture and the Arts on H.B. No. 913

The purpose and intent of this measure is to allow the filing of documents with the Hawaii Labor Relations Board by the original paper document or electronically.

Your Committee received testimony in support of this measure from the Hawaii Labor Relations Board.

Your Committee finds that under existing law, electronic filing of documents with the Hawaii Labor Relations Board is not expressly allowed. Codifying the option to allow for electronic filing of documents would provide a faster and less expensive method of delivery. This measure will reduce costs and provide a more efficient process to accommodate all parties.

Your Committee has amended this measure by inserting an effective date of January 1, 2051, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 913, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 913, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

#### SCRep. 1350 Higher Education on H.B. No. 1277

The purpose and intent of this measure is to:

- (1) Provide scholarships under the Hawaii promise program for the unmet direct cost needs of qualified students at any four-year University of Hawaii campus who meet certain eligibility criteria; and
- (2) Appropriate funds for the establishment and implementation of the Hawaii promise program.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Department of Education, Kamehameha Schools, Engineering Alumni Association of the University of Hawaii, University of Hawai'i Alumni Association, and three individuals.

Your Committee finds that the Hawaii promise program provides financial assistance to students with financial need, as determined by the student's Free Application for Federal Student Aid, to meet the cost of tuition, fees, books, and transportation. However, the Hawaii promise program is only available to students at the University of Hawaii community colleges. This measure expands the Hawaii promise program to qualified students at four-year institutions, which will significantly enhance the number of economically disadvantaged students who can attend and graduate from the University of Hawaii.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1277, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

# SCRep. 1351 Higher Education on H.B. No. 813

The purpose and intent of this measure is to:

- (1) Establish the University of Hawaii promise program plus to provide scholarships for the unmet direct cost needs of qualified students who are graduates of a University of Hawaii community college who received a Hawaii community college promise program scholarship and are currently enrolled at any University of Hawaii campus; and
- (2) Appropriate funds to establish and implement the program.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Department of Education, University of Hawai'i Alumni Association, and one individual.

Your Committee finds that the first cohort of students from community colleges who received scholarships from the Hawaii community college promise program are scheduled to graduate in 2019 with Associate's degrees. Some students will be poised to enter the University of Hawaii System to obtain a Bachelor's degree, yet lack the financial resources to do so. Additionally, students and graduates of the Hawaii community college promise program who do not yet have a definite career goal but are pursuing further

education should be strongly encouraged to pursue careers where personnel shortages currently exist or are projected to exist in the near future. This measure extends the promise program for this cohort of students, leading to stronger educational outcomes and improved quality of life for participating students, and encourages students to pursue careers in fields that strengthen Hawaii's current and future economy.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 813, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 813, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

### SCRep. 1352 Higher Education on H.B. No. 1521

The purpose and intent of this measure is to appropriate or authorize funds for programs of the University of Hawaii for the 2019-2021 fiscal biennium.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs of the University of Hawaii to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately. As such, your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1521, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

#### SCRep. 1353 Higher Education on H.B. No. 1522

The purpose and intent of this measure is to appropriate or authorize funds for programs of the University of Hawaii for the 2019-2021 fiscal biennium.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs of the University of Hawaii to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately. As such, your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1522, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

#### SCRep. 1354 Higher Education on H.B. No. 312

The purpose and intent of this measure is to require the University of Hawaii, West Oahu, to offer a Bachelor of Arts degree in creative media.

Your Committee received testimony in support of this measure from the Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi and two individuals. Your Committee received testimony in opposition to this measure from the University of Hawaiʻi System.

Your Committee finds that post-secondary education in creative media provides opportunities for students to pursue careers in graphic and web design, digital video production, and other digital media outlets. Currently, the University of Hawaii, West Oahu campus, offers a Bachelor's of Applied Science degree with a concentration in creative media and a Bachelor's of Humanities degree with a concentration in creative media. However, these degrees may not be seen by prospective employers on the same level as a Bachelor's of Arts degree from other universities. This measure would provide a specialty degree for students pursuing creative media and expand the locally trained creative media industry workforce.

Your Committee notes that, according to testimony, the Board of Regents of the University of Hawaii approved the establishment of a Bachelor of Arts degree in creative media at its February 28, 2019, meeting, but the matter is pending approval from the Western Senior College and University Commission. In light of this, your Committee requests your Committee on Ways and Means to consider this measure for further deliberation.

Your Committee has amended this measure by:

- (1) Inserting language that requires the University of Hawaii to finalize and approve, including seeking approval from the Western Senior College and University Commission, the Bachelor of Arts degree in creative media at the University of Hawaii, West Oahu, by the start of the 2020 spring semester;
- (2) Inserting language that appropriates funds for fiscal year 2020-2021 to the University of Hawaii creative media program for the purposes of strengthening the pipeline of students to the creative media industry; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 312, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 312, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

#### SCRep. 1355 Higher Education on H.B. No. 398

The purpose and intent of this measure is to require the University of Hawaii System to create additional distance-learning classes in teaching for students who are pursuing undergraduate degrees in education.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association and one individual. Your Committee received comments on this measure from the University of Hawai'i System and Department of Education.

Your Committee finds that Hawaii has long suffered from a shortage of qualified public school teachers, and this shortage continues to worsen as fewer graduates from Hawaii teacher education programs are entering the profession. According to the Hawaii State Teachers Association, the number of graduates joining the Department of Education fell by nearly thirty percent from the 2010-2011 school year to the 2016-2017 school year. Additionally, teachers leaving Hawaii has outpaced retirement as the top reason for attrition in the last three years.

As a matter of statewide concern, your Committee further finds that the University of Hawaii System does not offer undergraduate students who are pursuing degrees in the field of education a sufficient number of classes in their major, especially for those students who enroll in distance-learning classes. This measure ensures that the University of Hawaii increases educational opportunities to students who are pursuing undergraduate degrees in education in hopes to increase the number of qualified teachers entering the profession.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 398, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

### SCRep. 1356 Labor, Culture and the Arts on H.B. No. 981

The purpose and intent of this measure is to:

- Specify that overpayments and retirement benefits constitute a debt due and owing to the Employees' Retirement System by recipients of overpayments;
- (2) Authorize the Employees' Retirement System to adopt and enforce rules to recover retirement benefit overpayments; and
- (3) Authorize waiver of benefit overpayments in cases of hardship or where the costs of recovery exceed the amount to be recovered.

Your Committee received testimony in support of this measure from the Employees' Retirement System.

Your Committee finds that existing law is not clear regarding the Employees' Retirement System's ability to recover overpaid benefit payments. This measure will strengthen the Employees' Retirement System's ability to recover overpaid benefit payments by declaring overpayments to be debts due and owing to the Employees' Retirement System and clarifying that overpayments are legally collectable. This measure will facilitate rulemaking for maximum recovery, the filing of legal collection actions and liens against real property of overpaid recipients, and the filing of claims against the estate of deceased recipients.

Your Committee has amended this measure by:

- Clarifying that the recovery of retirement benefit overpayments shall be made in accordance with both applicable state law and federal regulations; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 981, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 981, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Gabbard).

#### SCRep. 1357 Labor, Culture and the Arts on H.B. No. 1007

The purpose and intent of this measure is to allow participants to make pre-tax contributions and post-tax contributions to the state deferred compensation plan.

Your Committee received testimony in support of this measure from the Department of Human Resources Development. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that on January 1, 2011, the federal Small Business Jobs Act of 2010 took effect, which expanded the availability of Roth contribution provisions to deferred government compensation plans under section 457(b) of the Internal Revenue Code. Your Committee further finds that while federal law permits Roth contributions to deferred compensation plans, such contributions are prohibited under state law in Hawaii. This measure allows participants in a deferred compensation plan under Hawaii law to choose whether all or part of their deferred compensation amounts are deferred as a traditional contribution or a Roth contribution, or both.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1007, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1007, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

#### SCRep. 1358 Labor, Culture and the Arts on H.B. No. 1186

The purpose and intent of this measure is to appropriate funds to the Department of Labor and Industrial Relations for the disability compensation division modernization project, unemployment insurance modernization project, administration of the Hawaii employment security law, and positions in the Disability Compensation Division, Labor and Industrial Relations Appeals Board, and Wage Standards Division.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Labor and Industrial Relations in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee notes that S.B. 797, S.D. 1 (Regular Session of 2019), which was previously passed by your Committee, also appropriates funds to the Department of Labor and Industrial Relations for programs or positions. Your Committee notes the testimony of the Department on Labor and Industrial Relations suggesting that certain sections of S.B. 797, S.D. 1 be included in this measure. Your Committee concludes that the language in S.B. 797, S.D. 1 is preferable because it contains the specific language requested by the Department of Labor and Industrial Relations and provides for the appropriation of funds for additional Department of Labor and Industrial Relations' programs and positions.

Your Committee has amended this measure by deleting its contents and replacing it with the contents of S.B. 797, S.D. 1, which appropriates funds for various operating expenses of the Department of Labor and Industrial Relations.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1186, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1186, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

## SCRep. 1359 Labor, Culture and the Arts on H.B. No. 1191

The purpose and intent of this measure is to:

- (1) Increase minimum wage rates annually from January 1, 2020, through January 1, 2024; and
- (2) Provide lower minimum wage rates for employees who receive employer-sponsored health benefits under the Hawaii Prepaid Health Care Act.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; Hawaii State Commission on the Status of Women; LGBT Caucus of the Democratic Party of Hawaii; Hawaii Children's Action Network; IP Xpert of Honolulu LLC; Democratic Party of Hawaii, Hawaiian Affairs Caucus; AAUW of Hawaii; Hawaiian Community Assets; ILWU Local 142; Americans for Democratic Action; PHOCUSED; Young Progressives Demanding Action; Faith Action for Community Equity; Pride at Work Hawaii; League of Women Voters of Hawaii; Rainbow Family 808; Hawaii Appleseed Center for Law and Economic Justice; IMUAlliance; Democratic Party of Hawaii Education Caucus; Associated Students of the University of Hawaii; Zonta Club of Hilo; Hawaii State Teachers Association; Democratic Party of Hawaii Labor Caucus; Roman Catholic Church in the State of Hawaii; Living Wage Hawaii; Democratic Party of Hawaii; Drug Policy Forum of Hawaii; Hawaii Alliance for Progressive Action; Hawaii Government Employees Association; Hawaii 'i Public Health Institute; Hawaii 'i Alliance for Community-Based Economic Development; Hawaii Women's Coalition; over forty individuals; and a form letter submitted by over twenty individuals. Your Committee received testimony in opposition to this measure from Makapueo Farms; Hawaii Restaurant Association; MOJO LLC; Kalaheo Cafe and Coffee Co.; Waikiki Brewing Company; Hawaii Petroleum, LLC; Kona Coffee and Tea Company; Boss Frog's Dive and Surf; Hawaii Food Industry Association; Island Plastic Bags, Inc.; Tanaka of Tokyo Restaurants; Retail Merchants of Hawaii; Chamber of Commerce Hawaii; Il Gelato Hawaii; Kauai Ice Distributors; Hawaiian Chip Company; Anna

Miller's Restaurant; Tiki's Grill and Bar; Envisions Entertainment and Productions, Inc.; Magic's Beach Grill; Jean's Warehouse Inc.; ABC Stores; RMA Sales; National Federation of Independent Businesses Hawaii; Hawaii Food Manufacturers Association; Hawai'i Lodging and Tourism Association; Hawai'i Farm Bureau; Hawaii Petroleum Marketers Association; Maui Chamber of Commerce; and eleven individuals. Your Committee received comments on this measure from the Moilili Community Center; Grassroot Institute of Hawaii; Society for Human Resources Management Hawaii; and one individual.

Your Committee finds that a vast majority of rigorous, credible studies conclude that higher minimum wages appreciably boost workers' earnings with little or no effect on employment. In fact, raising the minimum wage increases earnings growth of low-income workers, and increasingly does so over the long-term, all without declines in employment. A recent 2018 study by the U.S. Census Bureau found that raising the minimum wage benefits a large majority of low-income workers by putting them on the path to higher earnings in the long term and decreasing income inequality.

Your Committee further finds that currently, there is a significant difference between the minimum wage and what is needed to afford basic necessities in Hawaii. Indeed, Hawaii has the lowest average wage in the nation when adjusted for the cost of living. This measure will therefore increase the minimum wage which will raise the quality of life for Hawaii residents, reduce poverty, and increase economic activity.

Your Committee notes that S.B. No 789, S.D. 2 (Regular Session of 2019), which was previously passed by the Senate, is a similar measure that also increased the minimum wage in Hawaii. Your Committee concludes that the language in S.B. 789, S. D. 2 is preferable because it includes a minimum wage tax credit for qualified small businesses to offset the increase in the minimum hourly wage and increases the minimum wage on January 1, 2020, and January 1, 2023, rather than annually, allowing for the minimum wage to increase to \$12.00 and \$15.00 sooner than this measure as currently drafted.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. 789, S.D. 2, a similar measure, which:
  - (A) Provides an income tax credit for qualifying small businesses to offset the increase in the minimum hourly wage that employers must pay employees; and
  - (B) Increases the minimum wage to \$12.00 per hour beginning January 1, 2020, and \$15.00 per hour beginning January 1, 2023:
- (2) Removing the requirement that in order for a small business to qualify for the tax credit it make less than an unspecified amount in gross income; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1191, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1191, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Ihara, Fevella). Noes, none. Excused, 1 (Gabbard).

### SCRep. 1360 Labor, Culture and the Arts on H.B. No. 1192

The purpose and intent of this measure is to:

- (1) Conform statutory prohibitions against wage discrimination with other prohibitions on employment discrimination;
- (2) Clarify allowable justifications for compensation differentials and remedies for pay disparity;
- (3) Require employers to disclose wage ranges to employees and prospective employees; and
- (4) Exempt wage disclosure and discussion from the prohibitions on employer retaliation or discrimination if knowledge of the wages stems from human resources, payroll, or legal professional responsibilities in the workplace.

Your Committee received testimony in support of this measure from the Hawaii Appleseed Center for Law and Economic Justice; American Association of University Women of Hawaii; Fujiwara & Rosenbaum, LLLC; Pride at Work Hawaii; Aloha State Association of the Deaf; Planned Parenthood Votes Northwest and Hawaii; and five individuals. Your Committee received testimony in opposition to this measure from the Hawaii Petroleum Company, Island Plastic Bags Inc., and Society for Human Resources Management Hawaii. Your Committee received comments on this measure from the Hawaii Civil Rights Commission, Hawaii Food Industry Association, and Chamber of Commerce Hawaii.

Your Committee finds that pay disparity still persists between men and women in Hawaii who do similar work. Hawaii ranks twenty-third in income equality out of all states and the District of Columbia, according to the most recent census bureau. Your Committee further finds that the most extreme disparity in pay exists among Native Hawaiian and other Pacific Islander women who earn only sixty-two percent of white male earnings nationally. This measure clarifies the classes protected from pay discrimination, and provides for wage transparency, which will get Hawaii closer to ending pay disparity in the workplace.

Your Committee notes that S.B. No. 1375, S.D. 1 (Regular Session of 2019), which was previously passed by your Committee, is a similar measure. Your Committee concludes that the language in S.B. No. 1375, S.D. 1, is preferable because it does not contain language that exempts wage disclosure and discussion from the prohibition on employer retaliation or discrimination if knowledge of the wages stems from human resources, payroll, or legal professional responsibilities in the workplace. In addition, S.B. No. 1375, S.D. 1, contains amendments previously proposed by the Hawai'i Civil Rights Commission.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 1375, S.D. 1, a similar measure, which:
  - (A) Conforms statutory prohibitions against wage discrimination with other prohibitions on employment discrimination;
  - (B) Clarifies allowable justifications for compensation differentials and remedies for pay disparity;
  - (C) Requires employers to disclose wage ranges to employees and prospective employees; and
  - (D) Inserts an effective date of upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1192, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1192, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

# SCRep. 1361 Judiciary on H.B. No. 627

The purpose and intent of this measure is to:

- (1) Classify any independent expenditure as a contribution to a candidate or as a contribution to each opposing candidate; and
- (2) Require any advertisement by a noncandidate committee that makes only independent expenditures to disclose all contributors for the advertisement.

Your Committee received testimony in support of this measure from Common Cause Hawaii. Your Committee received testimony in opposition to this measure from the League of Women Voters of Hawaii. Your Committee received comments on this measure from the Campaign Spending Commission; Department of the Attorney General; and Hawaii Association of Broadcasters, Inc.

Your Committee finds that transparency in campaign advertising is important for ensuring fair and properly run elections. Your Committee further finds that independent expenditures advocating for the election of a candidate benefit that candidate as much as direct contributions to the candidate's committee do. However, your Committee additionally finds that classifying independent expenditures supporting or opposing a candidate as a contribution to that candidate or as a contribution to each opposing candidate would result in those candidates and their committees being responsible for election expenses over which they have no control.

Accordingly, your Committee has amended this measure by:

- (1) Requiring noncandidate committees and other persons making independent expenditures to indicate which candidates they are supporting or opposing on expenditure reports and electioneering communication statements instead of attributing independent expenditures to the candidates and candidate committees that benefit from the expenditures;
- Requiring the Campaign Spending Commission to post independent expenditure information for each candidate on the Commission's website;
- (3) Removing language requiring any advertisement by a noncandidate committee that makes only independent expenditures to disclose all contributors for the advertisement; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 627, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 627, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

# SCRep. 1362 Judiciary on H.B. No. 942

The purpose and intent of this measure is to make appropriations for claims against the State, its officers, and its employees.

Your Committee received testimony in support of this measure from the Department of the Attorney General and Department of Transportation. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that, based on the testimony submitted by the Department of the Attorney General, this measure requests a total of \$1,119,556.63 in appropriations from the general fund, to be paid from the respective department's fiscal year 2018-2019 budget, to satisfy thirteen claims against the State and a total of \$12,166.45 in an appropriation from the state highway fund to satisfy one claim against the State. The grand total for the fourteen claims settled in this measure as received by your Committee is \$1,131,723.08. Timely passage of this measure will minimize the State's obligation to pay interest on those amounts.

Your Committee notes the written testimony submitted by the Department of the Attorney General, which requests the addition of twelve new claims that have been resolved since this measure was introduced. The addition of these new claims result in a total of \$2,250,429.26 in appropriations needed from the state general fund and \$4,042,607.32 in appropriations needed from the state highway fund.

Your Committee has amended this measure by:

- (1) Adding general fund appropriations for eight new claims totaling \$1,130,872.63 and state highway fund appropriations for four claims totaling \$4,030,440.87, as requested by the Department of the Attorney General, which increases the grand total of appropriations to \$6,293,036.58 in order to satisfy a total of twenty-six claims against the State, its officers, or its employees;
- Specifying that the new general fund appropriations shall be paid out of the respective department's fiscal year 2018-2019 budget;
- (3) Correcting the disposition listed for *Umberger*, et al. v. Department of Land and Natural Resources, State of Hawaii, to "Judgment";
- (4) Authorizing the Department of Land and Natural Resources to pay claims out of either the Department's fiscal year 2018-2019 budget or 2019-2020 budget; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 942, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 942, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

### SCRep. 1363 Government Operations on H.B. No. 361

The purpose and intent of this measure is to prohibit the Governor or any county mayor, while holding those offices, to maintain any other employment or receive any emolument, beginning on the sixty-first calendar day after their election or appointment to office.

Your Committee received testimony in support of this measure from the Common Cause Hawaii, Honolulu County Republican Party, and three individuals. Your Committee received comments on this measure from the Hawaii State Ethics Commission.

Your Committee finds that the offices of the Governor and county Mayors are five of the most important public offices in the State. It is essential that the holders of those offices devote their full time, attention, and energy to serving the State and avoid even the appearance of a potential conflict of interest.

Part of this commitment involves not holding other employment or receiving emoluments while serving as the Governor or a county Mayor.

Your Committee notes that this measure is necessary because the proposed prohibition on emoluments is broader in scope than the existing statutory prohibition for the Governor. Therefore, this measure would address citizens' concerns of potential conflicts of interest when the Governor is receiving remunerations from being on a board. This measure prohibits the Governor and county Mayors from holding other employment and receiving emoluments while in office, which prevents any semblance of impropriety or a conflict of interest, maintains fiscal integrity, and promotes public trust in government officials.

Your Committee respectfully requests your Committee on Judiciary to assess the appropriate chapter within the Hawaii Revised Statutes to place restrictions on county officials, as it appears that there are no comparable state statutory standards as that which exist for the Governor in chapter 84, Hawaii Revised Statutes. Your Committee also respectfully requests your Senate Committee on Judiciary determine if the Attorney General should have concurrent enforcement authority over the Governor and county officials, and whether this measure should include language authorizing a blind trust or similar process used at the federal level for financial entities, such as ownership or partnership managing a private business.

Your Committee has amended this measure by:

- Moving the provision prohibiting the Governor, while in office, from maintaining other employment or receiving any emolument to Chapter 84, Hawaii Revised Statutes;
- Specifying that the Hawaii State Ethics Commission shall have enforcement authority over the prohibition against outside employment and emoluments for the Governor;
- (3) Specifying that the respective county boards and commissions shall have enforcement authority over the prohibition against outside employment and emoluments for each county Mayors; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 361, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 361, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1364 Government Operations on H.B. No. 1153

The purpose and intent of this measure is to require each house of the Legislature to establish procedures and necessary information infrastructure for the public to present oral testimony at legislative committee hearings through remote testimony.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Hawai'i, Disability and Communication Access Board, Common Cause Hawaii, Democratic Party of Hawai'i, Hawaiian Affairs Caucus of the Democratic Party of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Honolulu County Republican Party, and three individuals.

Your Committee finds that as an island state, Hawaii's geography and transportation challenges pose particular hardships for residents of the counties of Hawaii, Kauai, and Maui to actively participate in the legislative process via in-person testimony at committee hearings. Neighbor island residents who physically attend legislative committee hearings to testify on measures incur significant air travel, lodging, and other transportation costs, and often have to take time off from work. Your Committee recognizes that face-to-face public testimony can have a significant impact on legislators and the media and that enabling the public to provide live, real-time remote testimony will improve citizen participation in and public access to the legislative process. This measure will allow neighbor island residents and other residents who live far from the State Capitol to participate in committee hearings via remote testimony, which will promote equal access to the legislative process and encourage greater civic participation.

Your Committee has amended this measure by:

- (1) Establishing the remote legislative access program within the Legislature's public access program, to be supervised by the joint legislative access committee;
- (2) Specifying requirements that the joint legislative access committee must consider when developing the remote legislative access program and requiring the committee to recommend policies for the program; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1153, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1153, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1365 Government Operations on H.B. No. 356

The purpose and intent of this measure is to require the Comptroller to annually adjust for inflation the threshold amount for which settlements of claims against the State must be approved by the Legislature.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services.

Your Committee finds that any claim above the Risk Management Office's settlement and payment authority is handled by the Department of the Attorney General. This measure will reduce some of the cases assigned to the Attorney General by increasing the settlement authority of the Risk Management Office, thereby promoting settlement and more efficient use of state resources.

Your Committee has amended this measure by:

- (1) Increasing the Comptroller's settlement authority for automobile claims from \$15,000 to \$25,000;
- (2) Increasing the limit on the Comptroller's settlement authority for tort claims from \$10,000 to \$25,000;
- (3) Removing the requirement that the maximum amounts that may be paid from the state risk management revolving fund be linked to the United States Department of Labor Consumer Price Index for All Urban Consumers for Honolulu;
- (4) Changing its effective date to July 1, 2019; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 356, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 356, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1366 Government Operations on H.B. No. 351

The purpose and intent of this measure is to amend the membership of the State Capitol Management Committee and Hawaii Interagency Council for Transit-Oriented Development by replacing the Governor's Chief of Staff with the Administrative Director of the State.

Your Committee did not receive testimony on this measure.

Your Committee finds that the Administrative Director of the State coordinates essential business and discussions between the State and various industries and serves as the lead liaison between the Governor's office and various state agencies and is therefore the appropriate member of the Governor's staff to serve on the State Capitol Management Committee and Hawaii Interagency Council for Transit-Oriented Development. This measure therefore amends the membership of the State Capitol Management Committee and Hawaii Interagency Council for Transit-Oriented Development by replacing the Governor's Chief of Staff with the Administrative Director of the State.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 351, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1367 Government Operations on H.B. No. 901

The purpose and intent of this measure is to reduce the burden on state and county agencies to produce paper copies of reports and ensure that the state publications distribution center receives the report in an electronic format.

Your Committee received testimony in support of this measure from the Department of Transportation; Department of Accounting and General Services; Department of Taxation; Department of Education; Department of Business, Economic Development, and Tourism; Department of Commerce and Consumer Affairs; Department of Labor and Industrial Relations; Department of Land and Natural Resources; Office of Information Practices; Hawaii State Public Library System; University of Hawaii System; Office of Enterprise Technology Services; and Hawaii Health Systems Corporation.

Your Committee finds that due to changes in technology and how the public accesses information, demand for reports produced by state and county agencies in paper form has decreased. This measure will reduce the number of government publication paper copies deposited with the State Publications Distribution Center, which will make it easier for the State Publications Distribution Center to manage the inventory of reports and provide better access to the public.

Your Committee has amended this measure by clarifying the number of paper and electronic copies of reports that must be deposited with the State Publications Distribution Center and University of Hawaii.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 901, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 901, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1368 Human Services on S.C.R. No. 201

The purpose and intent of this measure is to urge the Department of Human Services to create a Compact of Free Association Advisory Board to make recommendations on different aspects of health care coverage for Compact of Free Association residents.

Your Committee received testimony in support of this measure from the Department of Human Services, Filipina Advocacy Network, Save Medicaid Hawaii, Hawaii Appleseed Center for Law and Economic Justice, Kokua Kalihi Valley, and six individuals.

Your Committee finds that individuals who have immigrated to Hawaii from the independent nations of the Republic of the Marshall Islands, Federated States of Micronesia, and Republic of Palau are referred to as the Compact of Free Association (COFA) residents, face the usual prejudices but additionally face special challenges due to their unique immigration status. COFA residents' immigration status excludes them from receiving essential benefits enjoyed by United States citizens and legal permanent residents, and there have also been public debates about the allocation of equitable resources for education, housing, employment, and health care for COFA residents. Such inequity is contrary to the values of care and aloha of the Native Hawaiian culture, which has historically embraced newcomers. Your Committee recognizes the unique circumstances COFA residents face while navigating their way through systems of care that can struggle to meet their needs, particularly in the areas of health insurance and health care. Therefore, establishing an advisory board to recommend the best approach for providing parity in state-funded health coverage for otherwise eligible COFA residents will ensure that equitable health care is available for all of Hawaii's residents.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 201 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Riviere, Fevella).

### SCRep. 1369 Human Services on S.R. No. 161

The purpose and intent of this measure is to urge the Department of Human Services to create a Compact of Free Association Advisory Board to make recommendations on different aspects of health care coverage for Compact of Free Association residents.

Your Committee received testimony in support of this measure from the Department of Human Services and three individuals.

Your Committee finds that individuals who have immigrated to Hawaii from the independent nations of the Republic of the Marshall Islands, Federated States of Micronesia, and Republic of Palau are referred to as the Compact of Free Association (COFA) residents, face the usual prejudices but additionally face special challenges due to their unique immigration status. COFA residents' immigration status excludes them from receiving essential benefits enjoyed by United States citizens and legal permanent residents, and there have also been public debates about the allocation of equitable resources for education, housing, employment, and health care for COFA residents. Such inequity is contrary to the values of care and aloha of the Native Hawaiian culture, which has historically embraced newcomers. Your Committee recognizes the unique circumstances COFA residents face while navigating their way through systems of care that can struggle to meet their needs, particularly in the areas of health insurance and health care. Therefore, establishing an advisory board to recommend the best approach for providing parity in state-funded health coverage for otherwise eligible COFA residents will ensure that equitable health care is available for all of Hawaii's residents.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 161 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Riviere, Fevella).

#### SCRep. 1370 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 159

The purpose and intent of this measure is to increase the penalties for certain drug- and gambling-related offenses in order to deter property owners from allowing those illegal activities on their properties.

Your Committee received testimony in support of this measure from the City and County of Honolulu Police Department and Maui Police Department.

Your Committee finds that a number of property owners, many of whom own multiple properties in the State, are allowing their tenants to conduct illegal activities on their properties, including drug- and gambling-related activity. Your Committee further finds that increasing penalties for landowners who allow tenants and others to conduct illegal activity on the landowners' property can help deter crime

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 159, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

## SCRep. 1371 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 213

The purpose and intent of this measure is to authorize a property owner or agent to enter vacant, adjacent, or private property to control albizia trees to prevent or address hazardous conditions, subject to certain conditions.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Mayor of the County of Hawai'i, Hawaiian Electric Companies, Big Island Invasive Species Committee, and two individuals. Your Committee received comments on this measure from the Department of the Attorney General and one individual.

Your Committee finds that due to albizia trees' height of up to two hundred fifty feet and brittle branches, these trees pose a threat not only to properties on which they are rooted but also to adjacent properties where branches and other debris may fall during high winds. This invasive species can be hazardous to residents, travelers, first responders, and anyone in the vicinity of its brittle limbs. Your Committee further finds that the ability of landowners to control albizia trees on adjacent properties may decrease health and safety risks associated with these trees.

Your Committee requests that your Committee on Judiciary consider the testimony of the Department of Land and Natural Resources that liability for injuries incurred from tree removal may need to be addressed and the testimony of the Mayor of the County of Hawaii that the term "control" should be clarified to indicate that controlling albizia trees means the felling and removal of albizia trees, not merely tree trimming.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 213, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 1372 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 329

The purpose and intent of this measure is to:

- (1) Amend the Kauai flooding disaster relief appropriation made in Act 12, Session Laws of Hawaii 2018, to include flood mitigation measures;
- (2) Extend the lapse date of the appropriation to June 30, 2020; and
- (3) Exempt the appropriation from certain restrictions on transfers of or changes to appropriations.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency; Department of Transportation; Department of Land and Natural Resources; City and County of Honolulu Department of Emergency Management; County of Kaua'i Office of the Mayor; United Public Workers, AFSCME, Local 646, AFL-CIO; and two individuals.

Your Committee finds that Kauai experienced torrential rains and flooding that resulted in significant damage to the island in April 2018. Additionally, the Department of Land and Natural Resources sustained substantial damage to its facilities on Kauai from these flooding events. Your Committee further finds that the devastation from the floods is ongoing and that there is a clear and present need for an extension to the appropriation. Your Committee also finds that this measure includes a provision for mitigation measures that is expected to enhance the effective use of the relief resources to achieve the appropriation's intent and help reduce harm from future flooding events.

Your Committee has amended this measure by adopting language offered by the City and County of Honolulu Department of Emergency Management to similarly amend another appropriation included in Act 12, Session Laws of Hawaii 2018, for flooding disaster relief in areas of the State other than the County of Kauai, to include flood mitigation measures, extend the lapse date to June 30, 2020, and exempt the appropriation from certain restrictions on transfers of or changes to appropriations.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 329, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 329, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1373 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 378

The purpose and intent of this measure is to establish a stable and dedicated funding source for repatriation and burial costs for Filipino-American World War II veterans by appropriating funds to the Office of Veterans Services for the provision of burial grants for Filipino-American World War II veterans; provided that:

- (1) Federal funds remain unavailable;
- (2) There remain eligible Filipino-American World War II veterans living in the State; and
- (3) Funds appropriated and unencumbered as of June 30, 2021, shall not lapse to the credit of the general fund but shall remain available for the purposes of this measure.

Your Committee received testimony in support of this measure from the Office of Veterans Services, Hawai'i Civil Rights Commission, Prince Kūhiō Hawaii Civic Club, University of Hawai'i Pamantasan Council, Filipina Advocacy Network, and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that over one-quarter million Filipino and Filipino-American soldiers fought under the command of the United States during World War II. Many of these Filipino-American World War II veterans were promised full veterans benefits, including burial benefits, by the United States government that were not always honored. Through this measure, the State can honor Filipino-American World War II veterans in Hawaii.

Your Committee further finds that assisting Filipino-American veterans of World War II still living in the State with prospective funeral and burial costs, including the cost of returning their remains to the Philippines if they so desire, would demonstrate the State's appreciation and proper respect for their service.

Your Committee has amended this measure by:

- (1) Establishing the Filipino-American World War II veterans burial assistance special fund to provide a stable source of funding that does not lapse annually;
- (2) Appropriating funds into and out of the Filipino-American World War II veterans burial assistance special fund for the purposes of this measure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 378, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 378, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 1374 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 601

The purpose and intent of this measure is to repeal the requirement that disabled veterans must receive disability retirement pay from the Armed Forces to be exempt from payment of annual motor vehicle registration fees.

Your Committee received testimony in support of this measure from the Office of Veterans Services, Department of Transportation, and three individuals.

Your Committee finds that almost four thousand veterans, who are rated by the United States Department of Veteran Affairs as one hundred percent disabled, reside in Hawaii. Your Committee further finds that disabled veterans have made sacrifices to serve the community and the country and should be appreciated for their service whether or not they receive disability retirement pay from the Armed Forces.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 601, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 1375 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 878

The purpose and intent of this measure is to exempt from jury duty any active member of the Hawaii Emergency Management Agency or any county emergency management agency.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency, City and County of Honolulu Department of Emergency Management, County of Kaua'i Emergency Management Agency, County of Maui Emergency Management Agency, and two individuals. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that due to the critical roles that physicians, members of the armed forces, police, firefighters, and emergency medical service members play in ensuring the safety of the public in emergency situations, those individuals are currently exempt from jury duty pursuant to section 612-6, Hawaii Revised Statutes. Your Committee also finds that, pursuant to chapter 127A, Hawaii Revised Statutes, the Hawaii Emergency Management Agency and the county emergency management agencies serve essential,

critical, and unique roles and functions in providing emergency management services in the State. Your Committee further finds that it is important to eliminate any hindrances, including jury duty, that active members of those agencies may face in serving in their essential roles.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 878, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1376 Judiciary on H.B. No. 1043

The purpose and intent of this measure is to:

- (1) Replace the tax boards of review with a single tax appeal review panel comprised of members who shall devote full time to their duties; and
- (2) Amend the grounds upon which an appeal to the administrative appeals and dispute resolution program may be made by disallowing appeals of proposed assessments.

Your Committee received testimony in support of this measure from the Department of Taxation and one individual. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the system of tax boards of review is impractical due to the difficulty of recruiting a sufficient pool of qualified members. Your Committee further finds that a significant number of tax appeals have been unable to be heard or have been substantially delayed due to the boards' inability to constitute quorum. This measure will replace the tax boards of review system with a single tax appeal review panel comprised of members serving on a full-time basis who are empowered to hear and decide cases individually.

Your Committee has amended this measure by:

- (1) Increasing the term of tax appeal review panel members from two years to five years;
- (2) Authorizing the tax appeal review panel to determine or declare an assessment illegal or void;
- (3) Restoring language requiring the assessor to prepare notices of appeal upon request of the taxpayer;
- (4) Allowing any person who has already filed an appeal with a board of review to choose to either continue their appeal with the board of review or withdraw and re-file their appeal with the tax appeal review panel until January 1, 2021, at which point all remaining appeals before a board of review automatically transfer to the tax appeal review panel; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1043, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1043, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1377 Judiciary on H.B. No. 1248

The purpose and intent of this measure is to:

- (1) Enact voting by mail uniformly across all counties for all elections commencing in 2020;
- (2) Appropriate funds for the implementation of the election by mail program; and
- (3) Require the Office of Elections to submit a report to the Legislature regarding the implementation of a vote by mail system.

Your Committee received testimony in support of this measure from the Office of Elections; Disability and Communication Access Board; Maui County Clerk; Hawai'i County Clerk; League of Women Voters of Hawaii; Planned Parenthood Votes Northwest and Hawaii, Common Cause Hawaii; We Are One, Inc.; Hawaii Advocates for Consumer Rights; Hawaii Women's Coalition; and six individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that increasing numbers of Hawaii voters are submitting votes by mail and are choosing to vote early. Your Committee further finds that a single, unified vote-by-mail system will reduce the logistical costs of conducting elections. This measure will allow the State to transition to a system that primarily utilizes voting by mail, which will increase the efficiency and accuracy of vote tabulation.

Your Committee has amended this measure by:

- (1) Requiring all elections statewide to be conducted by mail beginning with the 2022 primary election;
- (2) Clarifying that returned ballots may be enclosed in either a secrecy envelope or a secrecy sleeve;
- (3) Requiring that ballots be mailed to voters so that voters receive them approximately eighteen days before an election;
- (4) Specifying that the return identification envelope with a voter's ballot must be received at the office of the clerk by the closing time provided in section 11-131, Hawaii Revised Statutes, if a voter chooses to mail their ballot back;

- (5) Changing the time of closure of voting from 7:00 p.m. to 6:00 p.m. at voter service centers and places of deposit and clarifying that any voter who is in line at a voter service center or place of deposit by that time shall be allowed to vote;
- (6) Requiring that initial tabulation of ballots be completed no later than 6:00 a.m. on the day following an election day;
- (7) Requiring the clerk not to comingle ballots when the validity of certain ballots cannot be verified upon receipt and to take reasonable steps to confirm the validity of such ballots within seven days following an election day;
- (8) Clarifying that only ballots that have been verified by the clerk at the time the initial tabulation is complete may be included in any initial recount, and that all other recounts shall be as provided by law;
- (9) Prohibiting any election result from being certified unless all ballots verified by the clerk within seven days following an election have been added to the final tabulation;
- (10) Requiring places of deposit to open five business days before an election;
- (11) Specifying the amount of appropriations to be disbursed to the counties in the form of grants as \$987,127;
- (12) Making clarifying and conforming amendments to sections of the absentee voting law to account for all mail-in voting; and
- (13) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1248, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1248, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1378 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 990

The purpose and intent of this measure is to clarify that the Department of Defense may continue its community involvement by lending out its facilities to certain entities without incurring a loss to its operating budget and depositing all net proceeds collected to the general fund, with required amounts returned to the Office of Hawaiian Affairs.

Your Committee received testimony in support of this measure from the Department of Defense.

Your Committee finds that the rental monies collected from lending out the Department of Defense's facilities are intended to cover costs that directly relate to the use of those facilities. These costs include but are not limited to water, sewer, electricity, cleaning, supplies, repair and maintenance, and related staff positions to coordinate the use of and access to the rented facilities. Under existing law, all monies received from these rentals are required to be deposited into the general fund of the State and certain amounts returned to the Office of Hawaiian Affairs.

Your Committee further finds that the Department of Defense has been using its operating funds to cover the costs associated with the renting out of its facilities. This measure would allow the Department of Defense to retain and use a portion of the revenues collected from renting out its facilities, rather than use the Department's operating funds, to meet the associated costs of renting out the Department of Defense's facilities.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 990, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1379 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1180

The purpose and intent of this measure is to appropriate funds to the County of Hawaii for disaster relief, recovery, mitigation, and remediation activities related to the Kilauea eruption, and to require the county to report monthly expenditures to the Department of Budget and Finance.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency, Department of Agriculture, County of Hawaii Department of Research and Development, two members of the Hawaii County Council, Hawaiian Electric Companies, Orchids Paradise LLC, Hedonisia Hawaii Sustainable Community, IMUA Lower Puna, HOPE Services Hawaiii, Hawaii Farm Bureau, Maui County Farm Bureau, Kohala Coast Resort Association, Habitat for Humanity Hawaii Island, Hawaii Island HIV/AIDS Foundation, fourteen individuals, and a petition signed by a few thousand individuals. Your Committee received comments on this measure through a petition signed by numerous individuals.

Your Committee finds that unprecedented volcanic eruptions occurred on the island of Hawaii from May 3, 2018, to August 14, 2018, and destroyed hundreds of homes, communities, businesses, farms, schools, cultural sites, water systems, the electrical grid, and roadways. Your Committee further finds that the Kilauea eruptions necessitated the deployment of several state and local emergency personnel at the time of the eruptions and continued support is needed for long-term recovery and hazard mitigation efforts.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1180, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1380 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1305

The purpose and intent of this measure is to ensure that in times of emergencies or disasters where assistance may be necessary to restore critical electrical and natural gas infrastructure, the State and electrical and natural gas utilities would be lawfully allowed to enter into a mutual assistance agreement with an out-of-state utility to assist in the restoration of electrical and natural gas power.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Hawaiian Electric Companies, Hawaii Gas, and Land Use Research Foundation of Hawaii.

Your Committee finds that whenever an emergency or disaster causes overwhelming damage to the electrical grid or utility gas infrastructure on which Hawaii depends, there is an immediate need to restore the electric grid and utilities. Your Committee also finds that powerful storms are increasing in frequency due to the effects of global climate change. Your Committee further finds that mutual assistance agreements are an important mechanism that can improve the resilience of Hawaii's regulated energy infrastructure and expedite the restoration of utility service to customers in the event of a disaster that disrupts the State's energy infrastructure.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1305, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1381 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 460

The purpose and intent of this measure is to:

- Prohibit a county from accepting a discounted payment of a fine levied by the county planning and permitting department or agency; and
- (2) Require the State Auditor to conduct an annual audit of the fines assessed and collected by the counties.

Your Committee received testimony in opposition to this measure from the City and County of Honolulu Department of Planning and Permitting. Your Committee received comments on this measure from the Office of the Auditor and County of Maui Department of Planning.

Your Committee finds that it is in the interests of the State that the several counties collect the full amount of fines owed to the respective county's planning and permitting department or agency. Your Committee further finds that the several counties should be audited annually by the State Auditor to ensure that the full amount of fines assessed by a county are also collected by the respective county.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 460, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

# SCRep. 1382 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 993

The purpose and intent of this measure is to improve and enhance the effectiveness of the State's emergency management program through modifications and additions to chapter 127A, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Defense, Hawaii Emergency Management Agency, and Department of Transportation.

Your Committee finds that, in 2018, the State experienced challenges in sustaining or executing the state emergency management program. Such challenges included the false missile alert notification in January, flooding on Kauai and Oahu in April, unprecedented Kilauea eruptions on Hawaii island in May, and statewide impacts from Tropical Storms Lane and Olivia in August and September, respectively.

Your Committee further finds that as a result of the 2018 challenges, the Hawaii Emergency Management Agency has undergone a leadership change and has created a plan to rebuild morale within the organization, public confidence, and strengthen partnerships with public and private sector stakeholders. Multiple areas in chapter 127A, Hawaii Revised Statutes, have been identified for amendment through this measure to improve and strengthen the State's emergency management program.

Your Committee has amended this measure by:

- (1) Making technical amendments proposed by the Hawaii Emergency Management Agency; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 993, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 993, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

# SCRep. 1383 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 720

The purpose and intent of this measure is to strengthen the system of firearm reporting in the State by requiring firearm owners to report lost, stolen, or destroyed firearms.

Your Committee received testimony in support of this measure from the City and County of Honolulu Police Department, County of Hawai'i Office of the Mayor, and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Firearms Coalition, National Rifle Association of America, Ho'omanapono Political Action Committee, Institute for Rational and Evidence-based Legislation, and twenty-nine individuals.

Your Committee finds that the State requires the permitting and registration of firearms for public safety reasons. Your Committee further finds that existing law does not adequately address the reporting of lost, stolen, or destroyed firearms, and that law enforcement officers should have an accurate record of lost, stolen, or destroyed firearms to protect the public and themselves.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 720, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

### SCRep. 1384 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1195

The purpose and intent of this measure is to:

- (1) Authorize the Department of Budget and Finance to provide interest-free loans to federal workers who have been affected by the federal shutdown furlough to cover current mortgage or rent payments; and
- (2) Make an emergency appropriation to provide the funding for the loans.

Your Committee received testimony in support of this measure from Rainbow Family 808 and one individual. Your Committee received testimony in opposition to this measure from six individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the federal shutdown furlough adversely affected more than 2,500 Hawaii residents. These federal employees were either furloughed (not working) or excepted (working without pay). Due to the federal shutdown furlough, some of these affected federal employees have had to seek out other methods of financing to make ends meet, such as borrowing from friends or financial institutions or getting a second job. While some affected federal employees are eligible for unemployment compensation, others are not and benefits may not be enough to cover their current expenses such as mortgage or rent payments.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1195, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

# SCRep. 1385 Energy, Economic Development, and Tourism on H.B. No. 556

The purpose and intent of this measure is to require the Department of Business, Economic Development, and Tourism to adopt state appliance efficiency standards to protect consumers.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Honolulu Board of Water Supply; Office of Climate Change, Sustainability, and Resiliency of the City and County of Honolulu; Consumer Federation of America; Natural Resources Defense Council; California Energy Commission; Hawaii Reef and Ocean Coalition; Elemental Excelerator; 350Hawaii; Young Democrats of Hawaii; Sierra Club of Hawaii; Blue Planet Foundation; Ulupono Initiative; Organizing for Action; Hawaii Energy; and thirty-one individuals. Your Committee received testimony in opposition to this measure from the Association of Home Appliance Manufacturers; ITI; Plumbing Manufacturers International; Retail Merchants of Hawaii; and one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs; Public Utilities Commission; and Consumer Technology Association.

Your Committee finds that the high cost of living in Hawaii adds to the importance of adopting policies that promote and encourage energy efficiency, which can provide relief for families and businesses faced with high utility bills. Without state appliance efficiency standards to provide consumer protection, appliance manufacturers may unload less efficient appliances in Hawaii that they cannot sell in other states with heightened standards and as a result, Hawaii residents risk losing as much as \$1,000,000,000 in unnecessary energy waste due to inefficient appliances. This measure establishes much needed appliance efficiency standards to protect consumers against less efficient appliances, lower residents' electricity bills, reduce carbon emissions, and help the State reach its clean energy goals.

Your Committee has amended this measure by:

- (1) Amending the definitions of "computer" and "computer monitor" to match the definitions in the California Code of Regulations;
- (2) Establishing, instead of directing the Director of Business, Economic Development, and Tourism (Director) to adopt rules to establish, minimum appliance efficiency standards, and authorizing the Director to adopt rules to enforce the standards;
- (3) Amending the appliance efficiency standards to meet the same requirements set forth in the California Code of Regulations, as amended:

- (4) Removing the Director's authority to establish standards for products other than the products specifically listed in this measure:
- (5) Amending the new section regarding testing, certification, labeling, and enforcement by requiring manufacturers to test, certify, and label products meeting the standards set forth in this measure and allowing manufacturers to use programs in other states and federal agencies with similar standards to comply with this measure;
- (6) Adding to the Public Benefits Fee Administrator's duties and responsibilities the education and training of appliance manufacturers, distributors, and retailers about the appliance efficiency standards; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 556, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 556, H.D. 1, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Taniguchi).

#### SCRep. 1386 Energy, Economic Development, and Tourism on H.B. No. 1497

The purpose and intent of this measure is to:

- (1) Establish the Stadium Development District comprising all state land under the Stadium Authority's jurisdiction;
- Authorize the Hawaii Community Development Authority to facilitate the development of all state property within the district, including building a new stadium;
- (3) Authorize the issuance of revenue bonds and general obligation bonds; and
- (4) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, Stadium Authority, Hawaii Community Development Authority, University of Hawaii System, Department of Planning and Permitting of the City and County of Honolulu, General Contractors Association of Hawaii, Chamber of Commerce Hawaii, and Building Industry Association of Hawaii. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that Aloha Stadium and the surrounding area are in need of redevelopment and renovation. This measure establishes the Stadium Development District and authorizes the Hawaii Community Development Authority to facilitate the development of all state property within the district, which will result in suitable recreational, residential, educational, and commercial areas where the public can live, work, recreate, attend school, and shop as part of a thoughtfully integrated experience.

Your Committee has amended this measure by:

- (1) Revising the development guidance policy regarding endangered species to compel the preservation of endangered species as required by state and federal law; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1497, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1497, H.D. 3, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Fevella).

## SCRep. 1387 Energy, Economic Development, and Tourism on H.B. No. 1563

The purpose and intent of this measure is to appropriate or authorize funds for programs of the Department of Business, Economic Development, and Tourism.

Your Committee received testimony in support of this measure from the Hawaii Technology Development Corporation, Natural Energy Laboratory of Hawaii Authority, XLR8UH, and Blue Startups. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism and Hawaii Strategic Development Corporation.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs of the Department of Business, Economic Development, and Tourism to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by:

- (1) Deleting all program appropriations and associated provisos;
- (2) Adding appropriations from S.B. No. 989, S.D. 2 (Regular Session of 2019), for various programs of the Department of Business, Economic Development, and Tourism;
- (3) Adding a proviso for BED100, relating to establishment of an office in Guangzhou, China; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1563, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1563, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 1388 (Joint) Higher Education and Energy, Economic Development, and Tourism on H.B. No. 1584

The purpose and intent of this measure is to appropriate funds to the University of Hawaii to conduct a comprehensive study of a statewide carbon tax.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, University of Hawai'i System, Ulupono Initiative, Healthy Climate Communities, Elemental Excelerator, Environmental Caucus of the Democratic Party of Hawai'i, Pono Hawai'i Initiative, Young Progressives Demanding Action, Hawaii Appleseed Center for Law and Economic Justice, IMUAlliance, Sierra Club of Hawai'i, Blue Planet Foundation, Hawaii Petroleum Marketers Association, Young Democrats of Hawaii, Organizing for Action, and seventeen individuals. Your Committees received comments on this measure from the Office of Planning and Tax Foundation of Hawaii.

Your Committees find that pricing carbon emissions via a tax on fossil fuels has emerged as a broadly supported, economically efficient, and effective policy tool to reduce emissions. However, if not designed correctly, a carbon tax could disproportionately impact low- to moderate-income residents. Therefore, it is necessary to consider ways to implement a carbon tax that offsets its regressive nature. This measure would help policymakers better understand the opportunities, impacts, and options that a carbon price policy could bring to Hawaii in reaching the State's ambitious carbon reduction goals.

Your Committees have amended this measure by:

- (1) Requiring and appropriating funds for the Office of Planning, rather than the University of Hawaii, to conduct a study and submit reports to the Legislature regarding the implementation of a statewide carbon tax; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1584, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1584, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Kidani). Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Inouye).

## SCRep. 1389 (Joint) Agriculture and Environment and Higher Education on H.B. No. 551

The purpose and intent of this measure is to extend the lapse date for funds appropriated to the:

- (1) University of Hawaii to conduct a comprehensive statewide study of sewage contamination in nearshore marine areas; and
- (2) Department of Health to conduct research or gather technical assistance relating to the cesspool conversion working group's comprehensive cesspool conversion plan.

Your Committees received testimony in support of this measure from the Department of Health, University of Hawai'i System, County of Hawai'i Department of Environmental Management, one member of the Maui County Council, One World One Water, Coral Reef Alliance, Sierra Club of Hawai'i, and six individuals.

Your Committees find that cesspools pose significant threats to many areas throughout the islands by putting tens of millions of gallons of raw sewage into the environment each day, often contaminating groundwater and sometimes drinking water. Cesspools present health risks to residents and visitors who swim in contaminated waters and can cause significant harm to streams and nearshore ecosystems, including damage to fragile coral reefs.

Your Committees further find that extending the lapse date of appropriated funds gives the University of Hawaii Water Resources Research Center and the cesspool conversion working group, within the Department of Health, the additional time they need to conduct a comprehensive state study of sewage contamination in nearshore marine areas, and fund research and technical support contracts, respectively.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 551, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman). Higher Education: Ayes, 3. Noes, none. Excused, 2 (Kahele, Keith-Agaran).

## SCRep. 1390 (Joint) Commerce, Consumer Protection, and Health and Human Services on H.B. No. 468

The purpose and intent of this measure is to appropriate funds for the healthy aging partnership program to ensure the program's continued role in improving the health and well-being of Hawaii's kupuna.

Your Committees received testimony in support of this measure from the Executive Office on Aging, Policy Advisory Board for Elder Affairs, Maui County Office on Aging, International Longshore and Warehouse Union Local 142, Hawaii Chapter of the American Physical Therapy Association, Zonta Club of Hilo, Hawaii Family Caregiver Coalition, and over one hundred sixty individuals.

Your Committees find that the healthy aging partnership program has adapted evidence-based health promotion and disease prevention programs to empower participants to make healthy decisions and engage in healthier lifestyles. Your Committees further find that funding the healthy aging partnership program is an important step toward meeting the first goal of the Hawaii State Plan on Aging and ensuring that the State will not lose a valuable program that maximizes opportunities for older adults to age well, remain active, and enjoy life in their communities.

Your Committees have amended this measure by:

- (1) Inserting an appropriation amount of \$605,000; and
- (2) Amending the effective date to July 1, 2019.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 468, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 468, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Keohokalole, Nishihara, Fevella).

Human Services: Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 1391 Technology on H.B. No. 531

The purpose and intent of this measure is to require the Chief Information Officer of the Office of Enterprise Technology Services to update the State Information Technology Strategic Plan every four years and submit the updated plan to the Governor and Legislature.

Your Committee received testimony in support of this measure from the Department of Education, Office of Enterprise Technology Services, Transform Hawai'i Government, and one individual.

Your Committee finds that periodic updates to the State Information Technology Strategic Plan are vital to keeping abreast with ever-evolving technology and to fully maximizing available modern resources to increase effectiveness, efficiency, and transparency in state government. This measure requires such an update to occur every four years.

As affirmed by the record of votes of the members of your Committee on Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 531, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

## SCRep. 1392 (Joint) Water and Land and Housing on H.B. No. 439

The purpose and intent of this measure is to exempt from the definition of "public lands", lands set aside by the Governor to the Hawaii Housing Finance and Development Corporation (HHFDC) for the primary purpose of developing affordable housing.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Chamber of Commerce Hawaii, Land Use Research Foundation of Hawaii, and Building Industry Association of Hawaii. Your Committees received testimony in opposition to this measure from the Office of Hawaiian Affairs and one individual. Your Committees received comments on this measure from the Hawaiian Affairs Caucus of the Democratic Party of Hawaiii.

Your Committees find that the State is experiencing a severe shortage of affordable housing. Your Committees further find that under existing law, only lands to which the HHFDC holds title are exempted from the definition of "public lands", which does not take into consideration other forms of lands that the HHFDC is developing. This measure would expand the exemption to include lands that the Governor has set aside to the HHFDC for the primary purpose of developing affordable housing, thereby expediting the development of housing on public lands.

Your Committees have amended this measure by:

- (1) Inserting language to require lands that are set aside to the HHFDC by the Governor for the primary purpose of developing affordable housing to be subject to legislative approval prior to any sale or transfer by gift; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 439, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 439, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella). Housing: Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 1393 Commerce, Consumer Protection, and Health on H.B. No. 467

The purpose and intent of this measure is to:

- (1) Require the Executive Office on Aging to take certain actions regarding the kupuna caregivers program, including reporting on detailed outcomes, developing a plan to maximize program participation, and adopting rules;
- (2) Change the kupuna caregivers program allocation cap from \$70 per day to an unspecified amount and limit the daily benefit to one day a week;
- (3) Include additional services to be provided by the kupuna caregivers program; and
- (4) Appropriate funds for the continued implementation of the kupuna caregivers program.

Your Committee received testimony in support of this measure from the Executive Office on Aging; Maui County Office on Aging; one councilmember of the Hawai'i County Council; Hawaii Women's Coalition; Hawaii Section of the American College of Obstetricians and Gynecologists; Hawaii Psychological Association; United Public Workers, AFSCME, Local 646, AFL-CIO; International Longshore and Warehouse Union Local 142; Zonta Club of Hilo; Hawaii Family Caregiver Coalition; Church of the Crossroads; Lanakila Meals on Wheels; and three individuals. Your Committee received comments on this measure from the Hawaii's State Commission on the Status of Women, Policy Advisory Board for Elder Affairs, Faith Action for Community Equity, Caring Across Generations, Catholic Charities Hawai'i, Hawaii'i Public Health Association, Chinatown Gateway Plaza Tenant Association, Mental Health America of Hawai'i, Hawaii Appleseed Center for Law and Economic Justice, AARP Hawaii, and twenty-one individuals.

Your Committee finds that when an elderly family member needs daytime care, family caregivers often find it difficult to meet those needs and remain fully employed. Family caregivers perform not only a family service but also a social service, by relieving the State of the burden and cost of elder care. Your Committee further finds that the efforts of these caregivers should not be made at the expense of their own loss of financial stability, which puts caregivers at risk of financial insecurity in the future. In recognition of the high costs caregivers face in terms of lost income and career advancement, the Legislature established the kupuna caregivers program in 2017, which provides caregivers with additional resources to cover care and support services for elderly family members, so that caregivers can stay in the workforce. This measure appropriates funds to ensure that the kupuna caregivers program can continue to provide support to Hawaii's caregivers.

Your Committee has amended this measure by:

- Removing language that would have required the Executive Office on Aging to take certain actions regarding the kupuna caregivers program, including reporting on detailed outcomes, developing a plan to maximize program participation, and adopting rules;
- (2) Changing the program allocation cap from an unspecified amount to \$350 a week and deleting language that would have limited the daily benefit to one day a week;
- (3) Removing the addition of "activities of daily living" from the kupuna caregivers provided services, as this is a term used to refer to people's self-care activities, and not a service that can be provided;
- (4) Inserting an appropriation amount of \$2,000,000 for each year of the 2019-2021 fiscal biennium;
- (5) Inserting an effective date of July 1, 2019; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 467, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 467, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Nishihara).

## SCRep. 1394 Commerce, Consumer Protection, and Health on H.B. No. 678

The purpose and intent of this measure is to update terminology related to the state newborn hearing screening program and improve follow-up rates for infants identified as deaf or hard of hearing by mandating that newborn diagnostic audiologic evaluation results be reported to the Department of Health.

Your Committee received testimony in support of this measure from the Department of Health, Disability and Communication Access Board, Executive Office on Early Learning, and one individual.

Your Committee finds that the incidence of infants who are born deaf or hard of hearing in Hawaii is about twice the incidence in other states. While most newborns in the State receive newborn hearing screening evaluations, the Department of Health is routinely unable to access infant hearing screening diagnostic audiologic evaluation results and therefore cannot conduct timely follow up with families of deaf or hard of hearing infants. This can result in delayed entry into much-needed early intervention services, which are critical for deaf or hard of hearing children to develop language and social skills and increase school readiness. By requiring that diagnostic audiologic evaluations be reported to the Department of Health, this measure ensures the Department of Health has the information it needs to conduct timely follow-ups with families of deaf or hard of hearing newborns.

Your Committee has amended this measure by:

- (1) Clarifying that the definition of "audiologist" means a professional licensed pursuant to chapter 468E, Hawaii Revised Statutes:
- (2) Inserting an effective date of July 1, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 678, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 678, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1395 Commerce, Consumer Protection, and Health on H.B. No. 704

The purpose and intent of this measure is to prohibit manufacturers from importing or selling any cosmetic product tested on animals, on or after January 1, 2021, with certain exceptions.

Your Committee received testimony in support of this measure from the Humane Society of the United States, Cruelty Free International, Animal Rights Hawai'i, West Hawaii Humane Society, Down to Earth Organic and Natural, and eight individuals. Your Committee received testimony in opposition to this measure from the Personal Care Products Council. Your Committee received comments on this measure from Retail Merchants of Hawaii.

Your Committee finds that testing cosmetics on animals is cruel and increasingly unnecessary, as there are now thousands of cosmetic ingredients whose effects have already been tested and compiled. Your Committee further finds that alternatives to animal testing are available, some of which provide better predictors of adverse human reactions to new chemical compounds than animal testing. Your Committee notes that the prohibition on the sale of cosmetics tested on animals included in this measure is not unique, as similar prohibitions have already been adopted by California and the European Union.

Your Committee has amended this measure by:

- (1) Clarifying that manufacturers may continue to use non-cosmetic animal testing data; provided that the test data was compiled prior to the effective date of this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 704, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 704, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Fevella).

# SCRep. 1396 (Majority) Commerce, Consumer Protection, and Health on H.B. No. 838

The purpose and intent of this measure is to exempt an eleemosynary organization that meets certain conditions from licensure and other requirements of a contractor.

Your Committee received testimony in support of this measure from the Malama Kai Foundation, Ocean Tourism Coalition, Trilogy Excursions, Calypso Charters, Malolo Charters, Alii Nui Charters, PacWhale Eco Adventures, The Blue Aina Campaign, and four individuals. Your Committee received testimony in opposition to this measure from the Contractors License Board; Chamber of Commerce Hawaii; Building Industry Association of Hawaii; and Plumbers and Fitters United Association, Local 675. Your Committee received comments on this measure from Captain Andy's Sailing, Inc.

Your Committee finds that, currently, a Hawaii-based non-profit organization is responsible for the installation and maintenance of the State's day use mooring buoy systems for over two hundred public buoys, and has had this responsibility since 1991. Financial resources to install and maintain the mooring systems have been raised primarily through grants and donations, with relatively small funding from the State. Day use mooring buoys are the most effective means to prevent anchor damage to coral reefs. However, more buoys are needed in high-use areas where boats continue to drop anchor and a single non-profit organization does not have the resources, capacity, or responsibility to do this alone.

According to testimony received by your Committee, the definition of "contractor" is not appropriate for the type of work required for day use mooring buoy installation and maintenance. This measure will enable the Department of Land and Natural Resources to contract with a non-profit entity to install and maintain the State's day use mooring systems without going through the very expensive and time-consuming procurement process. This type of private-public partnership ensures the State will receive high-quality, specialized services to protect coral reefs and provides public access to ocean resources.

Your Committee has considered the testimony expressing concerns that this measure may apply more broadly than intended. It is your Committee's understanding that this measure is intended to narrowly apply only to mooring systems.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that an eleemosynary organization that intends to engage in a public works project or operation involving the installation or maintenance of a mooring system for vessels under one hundred gross tons is exempt from contractor licensure, under certain conditions; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 838, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 838, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Fevella). Excused, 2 (Keohokalole, Thielen).

#### SCRep. 1397 Commerce, Consumer Protection, and Health on H.B. No. 1319

The purpose and intent of this measure is to authorize special purpose revenue bonds for Hawaiian Electric Company, Inc. and its subsidiaries, Maui Electric Company and Hawaii Electric Light Company, for multi-project capital improvement programs.

Your Committee received testimony in support of this measure from Hawaiian Electric Company, Inc. and Ulupono Initiative. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Hawaii's energy issues are becoming increasingly complex and challenging. The electric utility companies for the City and County of Honolulu and the Counties of Maui and Hawaii are slowly transforming their business operations toward more renewable energy production, energy storage, and clean transportation. For this transition to occur, they will require access to low-cost financing. Special purpose revenue bonds can provide lower cost capital, and the renewable and clean investments can save ratepayers money in the long term. This measure will help finance multi-project capital improvement programs for the local furnishing of electric energy to the City and County of Honolulu and the Counties of Maui and Hawaii.

Your Committee has amended this measure by:

- (1) Inserting a total special purpose revenue bond issuance amount of \$700,000,000, including:
  - (A) Up to \$400,000,000 for Hawaiian Electric Company, Inc.;
  - (B) Up to \$150,000,000 for Maui Electric Company, Limited; and
  - (C) Up to \$150,000,000 for Hawaiian Electric Light Company, Inc.; and
- (2) Inserting an effective date of July 1, 2019.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1319, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1319, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Keohokalole, Fevella).

# SCRep. 1398 Commerce, Consumer Protection, and Health on H.B. No. 1468

The purpose and intent of this measure is to appropriate funds for operating expenses relating to the school-based health center at Nanakuli High and Intermediate School, including the hiring of an advanced practice registered nurse and for various infrastructure improvements.

Your Committee received testimony in support of this measure from the Department of Education Complex Area Superintendent of Nanakuli-Waianae, Waianae Coast Comprehensive Health Center, Wai'anae High School, Nanakuli High and Intermediate School, Hawai'i Primary Care Association, Honolulu County Republican Party, and seven individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that school-based health centers are of particular importance and can improve access to comprehensive adolescent health care services, especially for those who would otherwise not seek care, or have their health conditions contribute to high absenteeism rates. Your Committee further finds that the Waianae Coast Comprehensive Health Center has operated two school-based health centers since 2016 and has already served 2,795 students over the course of 6,620 visits. Your Committee notes the behavioral health assessments conducted by Waianae Coast Comprehensive Health Center demonstrate significant behavioral health needs: thirteen percent of students seen at the health center have attempted suicide, substance abuse rates are high, and depression and anxiety are common. Your Committee finds that this measure will continue to support the Waianae Coast Comprehensive Health Center by providing much needed access to comprehensive health care, including behavioral health services for adolescents who might not otherwise receive timely access to care.

Your Committee acknowledges the concerns of the Attorney General and recommends passage of this measure for further consideration by your Committee on Ways and Means but anticipates that your Committee on Ways and Means will subsume this measure into the budget, as a more appropriate vehicle for grant-in-aid requests.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1468, H.D. 2, as amended herein, and

recommends that it pass Second Reading in the form attached hereto as H.B. No. 1468, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Nishihara).

#### SCRep. 1399 (Joint) Energy, Economic Development, and Tourism and Government Operations on H.B. No. 401

The purpose and intent of this measure is to allow agencies to enter performance contracts to undertake or implement energy conservation or alternate energy measures for vehicles.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Transportation; Office of the Mayor of the County of Maui; Office of Climate Change, Sustainability, and Resiliency of the City and County of Honolulu; Ulupono Initiative; Hawaii Energy Policy Forum; Organizing for Action; and one individual. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that utilizing cleaner alternative energy forms and reducing carbon emissions are in the best interest of the State. This measure allows agencies to enter energy performance contracts for vehicles, which will allow for increased use of more efficient, cleaner forms of ground transportation in public fleets, ultimately reducing Hawaii's dependence on imported fossil fuels.

Your Committees have amended this measure by:

- (1) Clarifying certain provisions that referenced "vehicles" to mean a "vehicle fleet" and defining "vehicle fleet";
- (2) Adding vehicle fueling or charging infrastructure to the definition of "energy performance contract";
- (3) Adding avoided operations and avoided fuel costs as additional contingencies for the level of payments made pursuant to energy performance contracts; and
- (4) Changing the effective date to upon approval.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 401, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 401, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Fevella). Government Operations: Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1400 Energy, Economic Development, and Tourism on H.B. No. 550

The purpose and intent of this measure is to:

- (1) Require the Public Utilities Commission to study the feasibility of implementing renewable portfolio standards to encourage the use of renewable energy by gas utility companies; and
- (2) Amend the renewable portfolio standard interim goals for 2030 and 2040 to accelerate the adoption of renewable energy.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Life of the Land; Ulupono Initiative; Elemental Excelerator; Healthy Climate Communities; Blue Planet Foundation; and twelve individuals. Your Committee received testimony in opposition to this measure from the Hawaii Teamsters and Allied Workers, Local 996; Hawai'i Gas; Building Industry Association of Hawaii; Chamber of Commerce Hawaii; and twenty individuals. Your Committee received comments on this measure from the Department of Transportation; Department of Commerce and Consumer Affairs; Public Utilities Commission; University of Hawai'i System; Organizing for Action; and Hawaiian Electric Company, Inc.

Your Committee finds that the need to reduce carbon emissions globally has become increasingly urgent and the timely transition toward renewable energy in Hawaii is imperative. Your Committee also finds that under the existing definition of renewable portfolio standard, the double counting of renewable distributed energy resources by using sales (renewable electrical energy sales divided by total electrical sales) instead of generation (renewable electrical energy generation divided by total electrical energy generation) overestimates the amount of renewable energy serving Hawaii's electric utility customers.

Your Committee is concerned that requiring electric utilities but not gas utilities to generate energy through renewable sources creates an unfair playing field that may unintentionally harm consumers and the environment by promoting investments in fossil fuels through gas-fired distributed electrical generation.

This measure amends the metric for renewable portfolio standard to be a percentage of electrical energy generation, which will provide a more accurate measurement of the State's actual renewable energy production and intent to eliminate reliance on fossil fuels, thereby facilitating the State's clean energy initiative and renewable energy goals.

Your Committee has amended this measure by:

- (1) Removing provisions requiring the Public Utilities Commission to conduct a renewable gas portfolio standards study;
- (2) Removing the appropriation for the Public Utilities Commission to conduct a renewable gas portfolio standards study;
- (3) Amending the definition of "renewable portfolio standard" to be the percentage of electrical energy generation, rather than sales, that is represented by renewable electrical energy;
- (4) Reinstating the forty percent renewable portfolio standards percentage goal for December 31, 2030;

- (5) Reinstating the seventy percent renewable portfolio standards percentage goal for December 31, 2040;
- (6) Removing the provision that required all electric grid-connected energy systems to be one hundred percent renewable energy systems by December 31, 2045; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 550, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 550, H.D. 1, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1401 (Joint) Energy, Economic Development, and Tourism and Higher Education on H.B. No. 624

The purpose and intent of this measure is to repeal and transfer the rights, powers, functions, and duties of the Hawaii Technology Development Corporation and Hawaii Strategic Development Corporation to the University of Hawaii.

Your Committees received testimony in opposition to this measure from the Hawaii Technology Development Corporation. Your Committees received comments on this measure from the University of Hawai'i System and Hawaii Strategic Development Corporation.

Your Committees find that in order to be competitive in a global economy, the State must have a strong, technology-based economic development strategy. Your Committees also find that the Department of Business, Economic Development, and Tourism currently houses many technology-focused programs, such as the Hawaii Technology Development Corporation and Hawaii Strategic Development Corporation, but these programs are not strategically aligned. In order to improve technology-based economic development in the State, these technology-focused programs need to be defined and aligned on common strategic objectives and an efficient and effective organizational structure.

Your Committees have heard concerns raised in testimony regarding the drawbacks of transferring the Hawaii Technology Development Corporation and Hawaii Strategic Development Corporation from the Department of Business, Economic Development, and Tourism to the University of Hawaii, as proposed by this measure, and finds that these actions may be premature.

Your Committees note that S.B. No. 990, S.D. 2 (Regular Session of 2019), also relates to technology-based economic development strategies and find that the language in S.B. No. 990, S.D. 2, is preferable because it does not transfer state technology agencies but instead orders a study to be conducted in order to assess how best to structure and align state departments and technology agencies.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 990, S.D. 2, a measure that:
  - (A) Requires the Department of Business, Economic Development, and Tourism to engage a consulting firm to conduct a study to evaluate policies and organizational changes needed within the Department that will enable the State to successfully execute a technology-based economic development strategy;
  - (B) Appropriates an unspecified amount of funds for the Department of Business, Economic Development, and Tourism to engage the consulting firm to conduct the study; and
  - (C) Inserts an effective date of upon approval with the appropriation to take effect on July 1, 2050;
- (2) Inserting an appropriation amount of \$70,000 for the study; and
- (3) Changing the effective date for the appropriation to July 1, 2019.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 624, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 624, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Kidani).

# SCRep. 1402 Energy, Economic Development, and Tourism on H.B. No. 773

The purpose and intent of this measure is to:

- (1) Rename and codify the Creative Industries Division as the Office of Creative Film and Media Industries Hawaii (Office);
- (2) Provide that the Hawaii Film Office and Arts and Culture Development Branch are agencies of the Office;
- (3) Specify that the Office shall include certain employees;
- (4) Require Hawaii Film Office employees to be transferred to the Office without any consequence to their employment benefits or status;

- (5) Rename the Hawaii television and film development special fund as the creative film and media development special fund, and expand the uses of the fund to support creative intellectual property and related infrastructure development within the Department of Business, Economic Development, and Tourism; and
- (6) Provide appropriations for positions within the Office and for other creative media related expenses.

Your Committee received testimony in support of this measure from the SAG-AFTRA Hawaii Local and one individual. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism and University of Hawai'i System.

Your Committee recognizes the economic and tourism benefits of Hawaii's film and creative industries, which represent fifty-four thousand entrepreneurs and businesses in the film, media, arts, culture, music, design, interactive, literary, broadcasting, and publishing industries. These industries, anchored by the film industry, are the foundation of Hawaii's creative economy.

Your Committee finds that the growth of entrepreneurial creative sector jobs in film and media are accelerating and the Creative Industries Division of the Department of Business, Economic Development, and Tourism has grown beyond the startup phase in 2003. To meet this growth of creative entrepreneurship, this measure will rename the Creative Industries Division as the Office of Creative Film and Media Industries Hawaii, and transfer the employees and resources of the Hawaii Film Office to the Office of Creative Film and Media Industries Hawaii, thereby strengthening Hawaii's creative economy.

Your Committee has amended this measure by:

- (1) Specifying that the Department of Business, Economic Development, and Tourism shall rename the Creative Industries Division as the Office of Creative, Film, and Media Industries Hawaii;
- (2) Removing the establishment of positions and funding for these positions within the Office of Creative, Film, and Media Industries Hawaii;
- (3) Changing the effective date to upon approval with the appropriations to take effect on July 1, 2019; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 773, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 773, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Inouye, Taniguchi).

#### SCRep. 1403 (Joint) Energy, Economic Development, and Tourism and Commerce, Consumer Protection, and Health on H.B. No. 1229

The purpose and intent of this measure is to ensure the continued viability of the State's sea salt manufacturing industry by appropriating funds for providing education and support to local businesses regarding the Food and Drug Administration's (FDA) industry guidance on colored sea salt.

Your Committees received testimony in support of this measure from the Chamber of Commerce Hawaii; H.K. Enterprise Group, Inc.; Hawaii Food Manufacturers Association; Salty Wahine Gourmet Hawaiian Sea Salts LLC; Hawaiian Chip Company; Psalty Acres; and one individual. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committees find that the popularity of Hawaii-made sea salt products is on the rise. Sea salt products colored with Hawaiian charcoal, volcanic clay, and other natural ingredients help to promote the State's brand.

Your Committees also find that the FDA's industry guidance on the use of color additives in sea salt products indicates that sea salt manufacturers who intend to use color additives that are not currently approved for food use should first obtain approval through the FDA's color additive petition process. Based on the testimony of the Department of Business, Economic Development, and Tourism, your Committees further find that to obtain FDA approval of the color additives used by Hawaii sea salt companies, lengthy, costly, and detailed research, studies, and analysis by science and industry experts must be conducted and submitted to the FDA for review.

With the intent to facilitate the continued success of these Hawaii sea salt businesses and maintain the strength and integrity of the Hawaii brand, this measure appropriates funds to the Department of Business, Economic Development, and Tourism to provide education and support to local businesses regarding the industry guidance on colored sea salt. However, since the appropriation of public funds proposed by this measure would largely benefit a private industry, your Committees find it fair and reasonable to require that sea salt industry companies collectively pay for half of the cost to conduct any necessary research and studies to be submitted to the FDA.

Accordingly, your Committees have amended this measure by:

- (1) Adding a condition that the appropriation shall not be made unless the Hawaii sea salt industry collectively contributes one-half of the cost to conduct a study to be submitted to the FDA for approval of the color additives used by Hawaii sea salt companies; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and

purpose of H.B. No. 1229, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1229, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 3; Ayes with Reservations (Taniguchi). Noes, none. Excused, 2 (Inouye, Fevella).

Commerce, Consumer Protection, and Health: Ayes, 6; Ayes with Reservations (Ruderman). Noes, none. Excused, 1 (Fevella).

## SCRep. 1404 (Joint) Energy, Economic Development, and Tourism and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1457

The purpose and intent of this measure is to promote transit-oriented development by appropriating funds to the Office of Planning to assist the County of Maui in the planning and development of the Wailuku-Kahului Transit Corridor Master Plan.

Your Committees received testimony in support of this measure from the Office of Planning, Office of the Mayor of the County of Maui, three members of the County Council of the County of Maui, Department of Transportation of the County of Maui, Department of Planning of the County of Maui, Maui Chamber of Commerce, and one individual.

Your Committees find that the County of Maui is undertaking initiatives to promote mixed-use development and revitalize its existing civic center of Wailuku and its commercial and retail center of Kahului, with improved bus transit service and other multimodal transportation options being an integral part of improving access to jobs and services throughout Maui. The County of Maui Department of Planning intends to identify redevelopment opportunities in Wailuku and Kahului, including transportation improvements for the transit corridor connecting the two centers, to capitalize on the potential for co-locating affordable housing, jobs, public services, and other amenities to create walkable communities. This measure appropriates funds for the planning and development of the Wailuku-Kahului Transit Corridor Master Plan, which will provide long-term benefits to Maui by creating more vibrant, livable, and sustainable communities that are connected through a multitude of transportation options.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 2100, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1457, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1457, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Fevella).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

## SCRep. 1405 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 89

The purpose and intent of this measure is to:

- (1) Establish liability for a person that owns or occupies real property that allows an individual to possess or set off illegal aerial devices on the real property; and
- (2) Clarify that probable cause for arrest for fireworks offenses may be based on statements from witnesses and photographs, video, and other recordings.

Your Committee received testimony in support of this measure from the Hawai'i State Fire Council; County of Hawai'i Fire Department; County of Kaua'i Fire Department; County of Maui Fire Department; City and County of Honolulu Police Department; City and County of Honolulu Fire Department; American Promotional Events, Inc.; Poi Dogs & Popoki; and three individuals. Your Committee received testimony in opposition to this measure from the Ho'omanapono Political Action Committee.

Your Committee finds that illegal fireworks pose a serious risk of injury and can be a noise nuisance to the community. Your Committee therefore finds that greater deterrents to illegal fireworks are necessary, as is consideration for the safe disposal of illegal fireworks once confiscated. Your Committee heard S.B. No. 1305 (Regular Session of 2019), a bill with similar goals that was previously passed by your Committee, and prefers the language in S.B. No. 1305, as it addresses your Committee's concerns about penalties for and the safe disposal of illegal fireworks.

Your Committee has amended this measure by deleting its contents and inserting the contents of S.B. No. 1305, which:

- (1) Allows law enforcement agencies to safely dispose of confiscated fireworks, except for a sample that is to be retained for evidentiary purposes;
- (2) Authorizes the court to establish a step-up fine structure based on the amount of fireworks confiscated and to impose a disposal fine to reimburse the counties for the costs of safely disposing of confiscated fireworks;
- (3) Establishes that each type of fireworks unlawfully imported, purchased, possessed, ignited, or discharged constitutes a separate offense;
- (4) Appropriates funds as a grant to the Honolulu Police Department for a secure container in which to store confiscated fireworks; and
- (5) Takes effect on July 1, 2019.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 89, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 89, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

#### SCRep. 1406 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary on H.B. No. 456

The purpose and intent of this measure is to:

- (1) Require the Department of Public Safety to develop policies and procedures to govern the use of force and to require training for its deputy sheriffs in less than lethal use of force; and
- (2) Appropriate funds for training, equipment, and related records management.

Your Committees received testimony in support of this measure from the Community Alliance on Prisons, Ho'omanapono Political Action Committee, and three individuals. Your Committees received comments on this measure from the Department of Public Safety.

Your Committees find that public safety officers are frequently in harm's way and must quickly make difficult decisions while under intense stress. Your Committees further find that because of the gravity of these decisions, the people of the State and public safety officers rely on and expect thorough training and accountability, including training on less than lethal use of force.

Your Committees have amended this measure by:

- (1) Requiring the Department of Public Safety to revise, rather than develop, policies, and procedures governing the use of force and including policies and procedures governing the use of weapons and equipment;
- (2) Requiring the Department of Public Safety's use of force training to be reviewed by the Law Enforcement Standards Board;
- (3) Requiring the Deputy Director of the Law Enforcement Division to be included and certified in all weapons training;
- (4) Deleting language that would have established core curriculum to be included in the Department's less than lethal use of force training;
- (5) Requiring the Department of Public Safety to report its progress regarding the revision of policies and procedures governing the use of force, weapons, and equipment to the Legislature by January 1, 2020; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 456, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 456, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

Judiciary: Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

# SCRep. 1407 (Joint) Public Safety, Intergovernmental, and Military Affairs and Energy, Economic Development, and Tourism on H.B. No. 501

The purpose and intent of this measure is to clarify that the use of fireworks by permit for movie, television, and theatrical productions and the removal of pyrotechnic material from or ignition, setting off, discharge, or explosion of fireworks by law enforcement to test, dispose of, or destroy illegal fireworks do not violate state prohibitions.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii State Fire Council; City and County of Honolulu Fire Department; City and County of Honolulu Police Department; County of Maui Fire Department; County of Maui Fire Department; County of Maui Fire Department; County of Honolulu City Council; Honolulu Film Office; and American Promotional Events, Inc.

Your Committees find that it is reasonable to allow the use of fireworks for movie, television, and theatrical productions and to authorize law enforcement agencies to take necessary steps to test, dispose of, or destroy seized or impounded illegal fireworks.

Your Committees further find that some pyrotechnic activities and filming occur on non-state-owned jurisdictions, such as on private and federal lands. Your Committees therefore find that authorizing the authority having jurisdiction, instead of only the Department of Business, Economic Development, and Tourism, to approve permits for the purchase and use of consumer fireworks, aerial devices, display fireworks, or articles pyrotechnic in movie and television productions, would make the permitting process more efficient and support the intent to create a consistent method for permitting these types of fireworks, regardless of jurisdiction over permit approval.

Your Committees have amended this measure by:

- (1) Allowing the authority having jurisdiction over permit approvals to approve the purchase and use of consumer fireworks, aerial devices, display fireworks, or articles pyrotechnic for use in a movie or television production; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 501, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 501, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Fevella).

## SCRep. 1408 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 285

The purpose and intent of this measure is to:

- (1) Require the chief of each county police department to disclose to the Legislature the identity of a police officer upon the suspension or discharge of the officer; and
- (2) Amend the Uniform Information Practices Act to allow for the disclosure of employment misconduct information that results in the suspension of a county police officer.

Your Committee received testimony in support of this measure from the Office of Information Practices, American Civil Liberties Union of Hawai'i, Society of Professional Journalists, Domestic Violence Action Center, Civil Beat Law Center for the Public Interest, League of Women Voters, Common Cause Hawaii, and two individuals. Your Committee received testimony in opposition to this measure from the State of Hawaii Organization of Police Officers and one individual.

Your Committee finds that this measure would provide public access to records of suspended police officers, similar to the information required regarding the suspension of other government employees. Your Committee further finds that promoting transparency and greater accountability of public servants is in the best interests of the State.

Your Committee has amended this measure by simplifying the amendment to section 92F-14, Hawaii Revised Statutes, and retaining the substantive effect of allowing disclosure of a county police department officer's personal information if the officer was suspended for employment misconduct.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 285, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 285, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

## SCRep. 1409 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 287

The purpose and intent of this measure is to reduce the potential hazards associated with vacant and abandoned residential properties by:

- (1) Requiring each county to establish an expedited procedure for approvals of demolition permits for vacant residential properties; and
- (2) Allowing the Department of Taxation to seek the nonjudicial foreclosure sale of vacant and abandoned residential property with an outstanding recorded state tax lien.

Your Committee received testimony in opposition to this measure from the City and County of Honolulu Department of Planning and Permitting. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that abandoned residential properties can impose significant costs on the community and become public safety hazards and magnets for criminal activity. Your Committee further finds that it is in the public interest to encourage the use of residential properties and reduce the number of vacant and abandoned homes in the State.

Your Committee has amended this measure by:

- (1) Replacing the term "state tax collector" with references to the Department of Taxation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 287, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 287, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

## SCRep. 1410 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 497

The purpose and intent of this measure is to establish a task force to examine the illegal import of fireworks and contraband into Hawaii.

Your Committee received testimony in support of this measure from the Department of Public Safety; Hawai'i State Fire Council; County of Hawai'i Fire Department; County of Maui Fire Department; City and County of Honolulu Police Department; City and County of Honolulu Fire Department; American Promotional Events, Inc.; and one individual.

Your Committee received testimony in opposition to this measure from the Ho'omanapono Political Action Committee. Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that the use of consumer fireworks causes fires and burn injuries, including to children. Fireworks produce excessive smoke that makes breathing difficult. Loud fireworks noises traumatize many residents, including war veterans, and pets. Your Committee further finds that with the increase in fireworks-related calls, public safety agencies can be strained to maintain adequate response levels for other critical emergencies.

Your Committee has amended this measure by:

- (1) Clarifying that the Legislative Reference Bureau will only assist with finalizing the task force's report and drafting legislation;
- (2) Requiring the task force to submit its draft report to the Legislative Reference Bureau no later than September 1, 2019.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 497, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 497, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

#### SCRep. 1411 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 499

The purpose and intent of this measure is to correct labeling dimensions for display fireworks, articles pyrotechnic, and aerial devices.

Your Committee received testimony in support of this measure from the State Fire Council, County of Hawai'i Fire Department, County of Maui Fire Department, and County of Kaua'i Fire Department.

Your Committee finds that labeling dimensions for display fireworks, articles pyrotechnic, and aerial devices originally codified into existing law were incorrect and need clarification. Your Committee further finds that this measure corrects the labeling requirement dimensions to conform with industry standard code.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 499, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

## SCRep. 1412 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 629

The purpose and intent of this measure is to create a medical or compassionate release program for certain ill, disabled, and impaired inmates who pose a low risk to public safety.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Community Alliance on Prisons, Hawai'i Health Harm & Reduction Center, Hawai'i Justice Coalition, Hawai'i Friends of Restorative Justice, and six individuals. Your Committee received testimony in opposition to this measure from the City and County of Honolulu Department of the Prosecuting Attorney. Your Committee received comments on this measure from the Hawaii Paroling Authority and Department of Public Safety.

Your Committee finds that an increasing number of men and women are entering prison with serious medical illnesses and many face the risk of developing a serious illness or disability in prison. Concern over how society should deal with the aging and seriously ill prison population has led policy makers in many states to endorse early release for older and seriously ill prisoners who pose a low risk to public safety.

Your Committee further finds that compassionate release provides physicians and other medical professionals an opportunity to use their unique expertise and knowledge of prognosis, geriatrics, cognitive and functional decline, and palliative medicine to ensure that medical criteria for compassionate release are appropriately evidence-based. Your Committee believes that compassion is an integral part of the aloha spirit.

Your Committee has amended this measure by:

- Requiring that all requests for medical release be made to the Department of Public Safety instead of the Hawaii Paroling Authority; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Judiciary chooses to hear this measure that it consider the following concerns raised by testifiers:

- (1) The Community Alliance on Prisons requests that language allowing an inmate to be considered for medical release if the inmate has a "seriously debilitating and irreversible mental or physical condition" be changed to "debilitating disease or illness"; and
- (2) The Hawaii Paroling Authority has concerns that this measure conflicts with section 706-670, Hawaii Revised Statutes, as it relates to scheduling initial parole release consideration hearings.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 629, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 629, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

#### SCRep. 1413 (Joint) Public Safety, Intergovernmental, and Military Affairs and Technology on H.B. No. 1553

The purpose and intent of this measure is to establish the Hawaii State Fusion Center as a program under the Office of Homeland Security and the position of the Hawaii State Fusion Center Director.

Your Committees received testimony in support of this measure from the Department of Defense; Department of Public Safety; Department of Transportation, Department of Business, Economic Development, and Tourism; Department of Human Services; Department of Education; Office of Homeland Security; Office of Enterprise Technology Services; Hawaii State Fire Council; City and County of Honolulu Board of Water Supply; City and County of Honolulu Department of Emergency Management; County of Maui Fire Department; County of Hawai'i Police Department; County of Kaua'i Police Department; City and County of Honolulu Fire Department; Hawaiian Electric Companies; Chaminade University of Honolulu; Hawai'i Gas; CyberHawaii; Retail Merchants of Hawaii; Star Protection Agency; InfraGard Hawaii Members Alliance; and two individuals.

Your Committees find that chapter 128A, Hawaii Revised Statutes, relating to homeland security, was enacted to provide for all homeland security functions of the State and counties, such as ensuring that the State will be adequately prepared to deal with terrorist attacks, preserving the lives and property of the people of the State, and protecting the public's peace, health, and safety. Your Committees further find that the Hawaii State Fusion Center supports these objectives by being the focal point for sharing local, national, and international information with the intelligence community.

Your Committees also find that the Fusion Center will be a significant resource to the State and will serve as an important hub for federal, state, and county agencies and private entities to share current information on security and other issues that impact Hawaii residents. The Fusion Center monitors issues that relate to homelessness, cybersecurity, the REAL ID Act, improving system response to workplace violence, and coordinated responses to sex trafficking, among other issues.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1553, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1553, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Fevella). Technology: Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

## SCRep. 1414 (Joint) Commerce, Consumer Protection, and Health and Agriculture and Environment on H.B. No. 562

The purpose and intent of this measure is to require the Department of Health to convene a construction waste reuse and recycling working group to develop recommendations for implementing requirements for the reuse, recycling, or donation of construction waste.

Your Committees received testimony in support of this measure from the Department of Health, Department of Accounting and General Services, Chamber of Commerce Hawaii, Oahu County Democrats, Ulupono Initiative, Roofing Contractors Association of Hawaii, EcoTipping Points Project, Sierra Club of Hawaiii, Building Industry Association of Hawaii, International Code Council, and one individual. Your Committees received testimony in opposition to this measure from the Department of Design and Construction of the City and County of Honolulu.

Your Committees find that Hawaii has made significant strides in reducing the amount of solid waste deposited in landfills in recent years, with recycling and H-Power accounting for an almost seventy-five percent reduction in municipal waste on Oahu alone. However, the waste issues that remain are becoming increasingly complex and challenging to mitigate. Construction and demolition waste, which constitutes a significant portion of the State's total waste stream, is of particular concern because the State has limited sites equipped to efficiently handle this type of waste. Your Committees further find that the working group established by this measure brings together construction industry and recycling experts with the goal of providing the Legislature with workable recommendations on how to reduce, reuse, and recycle construction and demolition waste in Hawaii.

Your Committees have amended this measure by:

- (1) Amending the membership of the working group to include representative from Re-use Hawai'i and Hawaii Materials Recycling, LLC;
- (2) Inserting an effective date of July 1, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 562, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 562, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Fevella). Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 1415 Agriculture and Environment on H.B. No. 144

The purpose and intent of this measure is to support Hawaii's coffee growers by:

- (1) Requiring disclosure on the label of coffee blends of the respective geographic origins of Hawaii-grown coffees and regional origins of coffees not grown in Hawaii and the percentage of origin by weight of the blended coffees; and
- (2) Making it a violation of the coffee labeling law to use a geographic or regional origin in labeling or advertising for roasted or instant coffee blends that contain less than fifty-one percent coffee by weight from that geographic origin.

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council; Kona Coffee Farmers Association; Bea's Knees Farm; Smithfarms.com; Kau Coffee Growers Cooperative; Pohaku Farm; Konaloha Farms; Monk's Delight Kona Coffee; A'a Li'i Farm; Food Security Hawaii; Buddha's Cup Coffee; Hawaii Chocolate and Cacao Association; Kanalani Ohana Farm; Sugaikonacoffee; Lavarock Farm; Cassandra Farms; Hale Kai Lana, Inc.; Hawaii Advocates For Consumer Rights; Maui Farmers Union United; Hawaii Farmers Union United; and sixty-nine individuals. Your Committee received testimony in opposition to this measure from the Kona Coffee Council, Hawaii Restaurant Association, Hawaii Food Industry Association, IL Gelato Hawaii, Hawaiian Queen Coffee, Hawaii Coffee Company, 7 Eleven Hawaii, Cornwell Coffee, Hawaii Coffee Association, RKCC, Aloha Hills Kona Coffee LLC, Royal Kona Coffee Visitor Center Mill & Museum, and fifty-one individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that the original roasted coffee label law was enacted by Act 289, Session Laws of Hawaii 1991, which established a ten percent minimum amount of Kona coffee, by weight, for Kona blended coffee. Your Committee also finds that for many years, Hawaii has been one of the only regions in the world that authorizes by law the use of its geographic origin name in the labeling of agricultural products with as little as ten percent of the content actually grown in Hawaii.

Your Committee further finds that the local coffee industry is divided on whether to amend the minimum percentage of the coffee blend required to be of the named origin, and the economic effects of such a change. Therefore, your Committee finds that requiring an economic impact study and further deliberation by a task force would be a more prudent way forward at this point in time.

Your Committee has amended this measure by:

- (1) Deleting language that would have amended section 486-120.6(b) and (c), Hawaii Revised Statutes, to prohibit the use of geographic origins in labeling for coffee containing less than fifty-one percent of coffee sourced from that region;
- (2) Requiring the University of Hawaii Economic Research Organization to conduct an economic impact study to assess the impact of possible changes to labeling laws on the local coffee industry and requiring the University of Hawaii Economic Research Organization to report its findings and recommendations to the Legislature and the coffee labeling task force by the Regular Session of 2021;
- (3) Establishing on July 1, 2020, a coffee labeling task force to review and assess the findings and recommendations of the economic impact study, develop proposed legislation, and identify related issues not addressed by state law;
- (4) Specifying the membership of the task force;
- (5) Requiring the task force to submit a report of findings and recommendations to the Legislature prior to the Regular Session of 2022;
- (6) Inserting an appropriation of \$250,000 for the economic impact study;
- $(7) \quad Inserting \ an \ appropriation \ of \$100,\!000 \ for \ the \ task \ force;$
- (8) Amending section 1 to reflect its amended purpose;
- (9) Making it effective on July 1, 2019; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the economic impact study should include a comparative, in-depth analysis of how origin labeling of product content can affect the pricing of and market for high-value, quality products.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 144, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 144, H.D. 1, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Ruderman, Rhoads, Thielen, Fevella). Noes, none. Excused, none.

#### SCRep. 1416 Commerce, Consumer Protection, and Health on H.B. No. 1453

The purpose and intent of this measure is to allow the Department of Health to:

- (1) Establish fees to be collected from individuals who are transported by ambulance to a medical facility or who receive emergency medical services by emergency medical services personnel without being transported to a medical facility; and
- (2) Adopt rules permitting transportation by ambulance to medical facilities other than hospital emergency departments.

Your Committee received testimony in support of this measure from the Department of Health, City and County of Honolulu Emergency Medical Services Department, Hawaii Medical Service Association, American Medical Response, and five individuals.

Your Committee finds that currently, 911 emergency medical patients are only transported to facilities designated as hospitals, with one exception. However, not all patients who receive emergency medical services need to go to the hospital. Your Committee further finds that emergency medical services have only been reimbursable if the patient is ultimately transported to a medical facility. Data shows that there has been a consistent increase each year in the proportion of patients treated but not transported. These patients essentially receive care free of charge at a time when the cost of quality health care continues to increase.

Your Committee further finds that the paradigm of emergency medical services charging fees only when the end product is transport to an emergency room incentivizes inappropriate use of transport assets and emergency departments. Many patients that utilize emergency medical services do not require hospitalization, and allowing emergency medical services to work with patients and community partners to develop and employ more customized care plans will provide more appropriate patient care while reducing the burden on emergency medical services and hospital resources.

Your Committee has amended this measure by:

- Requiring private insurance coverage of ambulance services and statewide community paramedicine services rendered by emergency medical technicians or paramedics;
- (2) Requiring the State's Medicaid program to provide coverage for ambulance services and the option of providing coverage for statewide community paramedicine services rendered by emergency medical technicians or paramedics;
- (3) Clarifying that individuals receiving treatment from emergency medical services personnel can be charged fees when the services are provided as part of a community paramedicine program;
- (4) Specifying that the emergency medical services fees collected pursuant to this measure be deposited to the credit of the emergency medical services special fund; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1453, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1453, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Keohokalole, Thielen, Fevella).

## SCRep. 1417 Commerce, Consumer Protection, and Health on H.B. No. 1013

The purpose and intent of this measure is to establish an involuntary hospitalization task force to:

- (1) Examine certain sections of chapter 334, Hawaii Revised Statutes;
- (2) Make recommendations to the Legislature to reduce unnecessary emergency department admissions; and
- (3) Improve access for involuntarily hospitalized (MH-1) patients to the most appropriate level of care.

Your Committee received testimony in support of this measure from the Department of Health. Your Committee received comments on this measure from the Office of the Public Defender, Kaiser Permanente Hawai'i, Healthcare Association of Hawaii, The Queen's Health Systems, and Hawai'i Pacific Health.

Your Committee finds that the overlapping issues of mental illness, substance abuse, and homelessness present complex problems for the State. One such complex problem is associated with the current process for MH-1 patients – those individuals transported by law enforcement officers to a health care facility for mental health evaluation. Current practice has been to transport patients experiencing a mental health emergency to a hospital's emergency department. Often, these patients require involuntary hospitalization. However, there is a significant burden on licensed psychiatric facilities that have emergency services given that these facilities receive the bulk of MH-1 patients.

According to testimony received by your Committee, an emergency room does not have the appropriate setting for meeting the long-term needs of these patients, who could also potentially be harmful to the hospital staff and other patients. Moreover, emergency facilities have concurrently seen a significant rise in psychiatric emergency transfers, resulting in overcrowding and creating an unsafe environment. A local hospital testified before your Committee that it has experienced disproportionate increases in the number of MH-1 patients brought into its facility, despite the expansion of designated receiving facilities; in 2018, about sixty percent of the MH-1 patients transported to the facility's emergency department did not require a psychiatric evaluation and could have been transported to another emergency department. This measure establishes a task force to examine existing laws and practices and make recommendations to the Legislature to reduce unnecessary emergency department admissions and improve standardized access for MH-1 patients.

Your Committee has amended this measure by:

- (1) Clarifying the objectives and focus areas of the involuntary hospitalization task force;
- (2) Amending the membership of the task force;
- (3) Clarifying that the task force shall submit a report to the Legislature no later than twenty days, rather than thirty days, prior to the convening of the Regular Session of 2020;

- (4) Inserting an effective date of July 1, 2019; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1013, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1013, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

## SCRep. 1418 Commerce, Consumer Protection, and Health on H.B. No. 66

The purpose and intent of this measure is to repeal the existing Uniform Athlete Agents Act and replace it with the Revised Uniform Athlete Agents Act, which applies to financial advisers under certain circumstances and makes other changes to the Uniform Act to increase effectiveness and enforceability.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Department of Education, University of Hawai'i System, and State Commission to Promote Uniform Legislation. Your Committee received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs.

Your Committee finds that the improper recruitment of a student athlete who is still enrolled in an educational institution can cause substantial eligibility problems for both the student athlete and the educational institution, which in turn can lead to severe economic sanctions and loss of scholarships for the institution. According to testimony received by your Committee, the Uniform Athlete Agents Act, adopted by the Legislature in 2007, has helped to reduce improper contact between agents and student athletes. However, a variation of the athlete agent problem has been developing in the form of financial advisers who are not subject to the Uniform Athlete Agents Act.

This measure repeals the current Uniform Athlete Agents Act and replaces it with the Revised Uniform Athlete Agents Act, which expands applicability of the Uniform Act to financial advisers under certain circumstances and requires these individuals to register as athlete agents. This measure further recognizes the importance of protecting young student athletes and expands protections for athletes against illegal and unscrupulous acts by athlete agents and financial advisers.

Your Committee has amended this measure by:

- (1) Clarifying that a certified athlete agent is an athlete agent that is certified by a bona fide national association that promotes or regulates intercollegiate athletics and establishes eligibility standards for participation by student athletes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 66, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 66, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Keohokalole, Thielen).

## SCRep. 1419 Commerce, Consumer Protection, and Health on H.B. No. 582

The purpose and intent of this measure is to:

- (1) Expand the Department of Health's authority to conduct unannounced visits to adult day care centers;
- (2) Remove the notice requirement for annual relicensing inspections of adult residential care homes;
- (3) Require adult day care centers to be licensed or certified by the Department of Health;
- (4) Specify that anyone who operates a community-based foster family home, adult foster home, or adult day care center without a license is guilty of a misdemeanor;
- (5) Repeal amendments made in Act 184, Session Laws of Hawaii 2016, regarding unannounced visits and inspections of adult residential care homes and expanded adult residential care homes, that have yet to take effect;
- (6) Authorize a website forum where all state-licensed care facilities may post vacancy information in order to facilitate placement of individuals;
- (7) Establish a schedule of fees to be charged by the Department of Health to issue or renew licenses or certifications for elderly and disabled adult care facilities;
- (8) Require the Department of Health to submit a report to the Legislature on various aspects of licensure and certification fees;
- (9) Establish a caregiver and case manager compensation task force to develop recommendations for caregiver and facility compensation rates and examine existing legislation for compatibility with insurance reimbursement time frames; and
- (10) Require the Department of Health to adopt various rules related to standards for regulated facilities and fees.

Your Committee received testimony in support of this measure from United Group of Home Operators, Adult Foster Homecare Association of Hawaii, Big Island Adult Residential Care Home Operators, Big Island Adult Foster Home Operators, and five individuals. Your Committee received testimony in opposition to this measure from Hale Nohea. Your Committee received comments on this measure from the Department of Health, Department of Human Services, and one individual.

Your Committee finds that Hawaii's population aged sixty and over is projected to almost double by 2030, compared to what it was in 2000. As the aging population grows, it is becoming increasingly urgent for the State to ensure protections are in place to provide and maintain high quality care for Hawaii's elderly and disabled populations.

Your Committee has amended this measure by:

- (1) Clarifying language requiring the Department of Health to post annual reports of all inspections it performs of certain statelicensed adult care facilities:
- (2) Removing language that would have established a statutory fee schedule for licensing, certification, and renewals fees for certain facilities licensed or certified by the Department of Health and would have required the Department to submit a report regarding the newly-established fees;
- (3) Amending the composition of the caregiver and case manager task force;
- (4) Clarifying the purpose of the task force by removing references to developing a minimum compensation rate for caregivers since compensation rates are established by the United States Centers for Medicare and Medicaid Services and are not controlled by the state agencies represented on the task force;
- (5) Removing language that would have expanded caregiver criteria to all other facilities licensed or certified by the Department of Health;
- (6) Inserting an effective date of July 1, 2019, and clarifying that the amendments made to sections 321-15.6(a) and 321-15.62(a), Hawaii Revised Statutes, by this measure shall supersede the amendments made to those sections by Act 184, Session Laws of Hawaii 2016; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 582, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 582, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

## SCRep. 1420 Commerce, Consumer Protection, and Health on H.B. No. 1273

The purpose and intent of this measure is to:

- (1) Establish the intellectual and developmental disabilities medicaid waiver administrative claiming special fund; and
- (2) Convene a task force to examine and evaluate the application process of the Hawaii Medicaid Section 1915(c) Home and Community-Based Services Waiver for Persons with Intellectual and Developmental Disabilities.

Your Committee received testimony in support of this measure from the Department of Health, Department of Human Services, State Council on Developmental Disabilities, Hawai'i Psychological Association, Hawaii Substance Abuse Coalition, and two individuals. Your Committee received comments on this measure from the Hawaii Disability Rights Center and Responsive Caregivers of Hawaii.

Your Committee finds that the Department of Health, Developmental Disabilities Division is the operating agency for Hawaii's Medicaid Home and Community-Based Services Waiver for Persons with Intellectual and Developmental Disabilities (HCBS I/DD Waiver), pursuant to section 1915(c) of the Social Security Act. The federal government permits Medicaid administrative claiming, which provides funds to states to help states defray the cost of operating the HCBS I/DD Waiver. However, your Committee notes that the Department of Health has only conducted minimal administrative claiming because it lacks the infrastructure required to meet federal requirements for implementation of the HCBS I/DD Waiver. Establishing the intellectual and developmental disabilities medicaid waiver administrative claiming special fund ensures that monies from administrative claiming can be expeditiously used by the Department of Health to bring the waiver program up to federal standards and modernize Hawaii's administration of the program so that it can continue to meet federal guidelines going forward.

Your Committee further finds that developing educational and training materials is necessary to address concerns about the waiver program raised by parents and various stakeholders. However, in place of establishing a task force, your Committee believes that it will be more efficient for the Departments of Health and Human Services to develop the materials in consultation with interested stakeholders, to enhance communication and education about the Developmental Disabilities Division's admission, assessment, and service delivery process.

Accordingly, your Committee has amended this measure by:

- Replacing the task force with a requirement for the Departments of Health and Human Services to work with stakeholders to
  develop and distribute information about accessing Medicaid services for individuals with intellectual and developmental
  disabilities;
- (2) Requiring the Department of Health to submit a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2020;

- (3) Removing language that would have required the Department of Health to discontinue its current assessment system for evaluation of clients, as this could have jeopardized federal funding of Hawaii's HCBS I/DD Waiver; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1273, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1273, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Nishihara).

## SCRep. 1421 (Joint) Government Operations and Judiciary on H.B. No. 1263

The purpose and intent of this measure is to amend the order of succession to the office of the Lieutenant Governor.

Your Committees received testimony in support of this measure from one individual. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that having an effective line of succession to the Office of the Lieutenant Governor in the event of unavailability or incapacity of the current Lieutenant Governor is important to maintain efficient execution of government services and ensure that policies and initiatives are not compromised upon the change in the Office of the Lieutenant Governor. This measure therefore makes certain changes to the order of succession to the Office of the Lieutenant Governor.

Your Committees note the concerns raised in testimony by the Department of Budget and Finance, that this measure may leave a potential gap in the provision for succession in the event the Governor and Lieutenant Governor are not of the same political party as the President of the Senate and Speaker of the House or the Governor and Lieutenant Governor are simultaneously unable to hold their respective offices. Although the chances of this occurring is rare, it is possible. Your Committees further find that the purpose of the order of succession is to avoid confusion and disruption of the normal state government, even in the most unlikely of circumstances. Amendments to address the concerns raised in testimony are therefore necessary.

Your Committees have amended this measure by clarifying the order of succession to the Office of the Lieutenant Governor by:

- (1) Reinstating statutory language that specifies the four state department directors who are in the line of succession; and
- (2) Moving the individual appointed by the Governor ahead of the department directors in the line of succession

As affirmed by the records of votes of the members of your Committees on Government Operations and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1263, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1263, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Government Operations: Ayes, 4. Noes, none. Excused, 1 (Fevella). Judiciary: Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

# SCRep. 1422 Commerce, Consumer Protection, and Health on H.B. No. 481

The purpose and intent of this measure is to:

- Amend the existing health insurance mandate to specify that coverage for low-dose mammography includes coverage for digital mammography and breast tomosynthesis; and
- (2) Require the State Auditor to perform an impact assessment report and report any findings to the Legislature prior to the Regular Session of 2020.

Your Committee received testimony in support of this measure from the Hawaii State Commission on the Status of Women, Hawaii Medical Association, Hawaii Women's Coalition, Hawaii Women's Healthcare, Hawaii Radiological Society, Planned Parenthood Votes Northwest and Hawaii, and eight individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Hawaii Employer-Union Health Benefits Trust Fund, Office of the Auditor, Hawaii Medical Service Association, and Hawaii Association of Health Plans.

Your Committee finds that breast cancer is one of the most common kinds of cancer in women. Nearly one in eight women born today in the United States will get breast cancer sometime during her life. Digital mammography provides images of the breast in many different angles, providing greater accuracy in finding abnormalities and determining which abnormalities seem potentially worrisome. Women who undergo screening with a combination of three-dimensional and two-dimensional mammography are less likely to be called back for more testing due to suspicious findings that turn out not to be cancer. Digital mammography and breast tomosynthesis are technologies that have been shown to be more effective for patients with dense breast tissue and can help in the early detection and treatment of breast cancer. This measure will enable women from all socio-economic sectors to take advantage of this evidence-based technology that, according to testimony received by your Committee, all other states except Hawaii have incorporated as a benefit covered by insurance companies.

Your Committee notes that coverage for low-dose mammography is not a new benefit that would be subject to an impact assessment report. Breast tomosynthesis is simply an advancing technology within the existing mammography mandate that should also be covered under the same benefit. Your Committee believes it is inappropriate to require an impact assessment whenever a new technology comes out to modernize an existing covered benefit. Such attempts to delay action pose a risk to the health of patients who would benefit from advancing technologies or methodologies.

Accordingly, your Committee has amended this measure by:

- (1) Removing language that would have required the State Auditor to conduct an impact assessment report;
- (2) Inserting an effective date of July 1, 2019;
- (3) Inserting a repeal date of June 30, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 481, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 481, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Keohokalole, Thielen).

#### SCRep. 1423 Commerce, Consumer Protection, and Health on H.B. No. 854

The purpose and intent of this measure is to:

- (1) Include education about food donation liability in the health inspection process for food establishments; and
- (2) Exempt from liability the donation of perishable or nonperishable food from institutions that comply with commercial food safety requirements, if a good faith donor or distributor believes the food is fit for human consumption.

Your Committee received testimony in support of this measure from the Hawaii Food Industry Association, Down to Earth, and Aloha Harvest. Your Committee received comments on this measure from Kōkua Hawai'i Foundation.

Your Committee finds that more than ten percent of Hawaii residents are food insecure and receive food assistance through nonprofit organizations and government programs. Your Committee further finds more than twenty-five percent of food grown in or transported to Hawaii is thrown away, which amounts to approximately \$1 billion in annual food waste. Nationwide, one hundred thirty-three billion pounds of food are wasted per year. Food is also the single largest source of municipal waste, while food production is a direct contributor to local and global climate change. Your Committee finds these two problems are linked and that providing security and encouragement to food establishments may help ensure that food is not wasted while Hawaii residents go hungry.

Your Committee understands that food establishments have raised concerns about liability stemming from donated food. This measure is intended to clarify that institutions that meet commercial food safety requirements are not liable for civil damages and criminal penalties for food donations made in good faith. Your Committee believes this measure will result in increased food security for Hawaii families, while helping to lower greenhouse gas emissions and reduce strain on Hawaii's waste disposal system.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2019; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 854, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 854, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Nishihara).

## SCRep. 1424 Commerce, Consumer Protection, and Health on H.B. No. 1009

The purpose and intent of this measure is to permanently require motion picture theaters to offer open movie captioning showings at least two times per week for each motion picture that is produced with open captioning and eliminate theaters' ability to substitute lightweight eyewear personal closed captioning systems for open captioning.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, Hawai'i Civil Rights Commission, State Council on Developmental Disabilities, Office of Language Access of the Department of Health, Special Education Advisory Council, Aloha State Association of the Deaf, Aloha Independent Living Hawai'i, Hawaii Disability Rights Center, Hawaii Interpreting Services, and over one hundred individuals. Your Committee received testimony in opposition to this measure from the National Association of Theatre Owners.

Your Committee finds that the open captioning requirement in Act 39, Session Laws of Hawaii 2015 (Act 39), which required movie theaters to provide open movie captioning and a minimum of two open captioned showings per week, was considered landmark legislation for the deaf and hard of hearing community. Act 211, Session Laws of Hawaii 2017, effectively eliminated the open captioned showing requirement by requiring only one open captioned showing per week and permitting a theater to forego any open captioned showings if the theater provided lightweight eyewear as an alternative.

However, your Committee notes from the testimony on this measure that the lightweight eyewear captioning systems have not been well received by the deaf and hard of hearing community and may not be appropriate for all deaf and hard of hearing individuals, therefore leaving a segment of the population without adequate accommodation. Your Committee further finds that this measure addresses the discriminatory effects of communication barriers at movie theaters and restores and makes permanent the requirements originally contemplated by Act 39, which will enable deaf and hard of hearing consumers an equal opportunity to attend and enjoy movies in a similar manner as those who do not require open movie captioning.

Your Committee has amended this measure by inserting an effective date of July 1, 2019.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1009, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1009, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Chang). Noes, none. Excused, 3 (Keohokalole, Thielen, Fevella).

#### SCRep. 1425 Judiciary on H.B. No. 626

The purpose and intent of this measure is to require vacancies in the offices of United States Senator, Representative in the United States House of Representatives, State Senator, and State Representative to be filled by special election.

Your Committee received testimony in support of this measure from the Honolulu County Republican Party and three individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that transparency in filling mid-term vacancies in legislative elected office contributes to public confidence in the legislative process. Your Committee further finds that while the existing procedure for filling vacancies in most offices is complex and comprehensive, special elections conducted by ranked choice voting could be beneficial for filling vacancies in offices with a broad range of candidates. Your Committee additionally finds that authorizing the Governor to make temporary appointments to fill vacancies in the office of United States Representative pending a special election will help to maintain seniority for members of the State's congressional delegation.

Accordingly, your Committee has amended this measure by:

- (1) Removing language requiring vacancies in the offices of Unites States Senator, State Senator, and State Representative to be filled by special election;
- (2) Requiring vacancies in the representation of the State in the United States House of Representatives to be filled by a special election utilizing ranked choice voting;
- (3) Requiring the Governor to make a temporary appointment to the office of United States Representative pending the special election in the event of a vacancy; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 626, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 626, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 1426 Judiciary on H.B. No. 510

The purpose and intent of this measure is to appropriate funds for operating and capital improvement costs of the Judiciary for the fiscal biennium beginning July 1, 2019, and ending June 30, 2021.

Your Committee received testimony in support of this measure from the Judiciary, Kauai Bar, Hawaii State Bar Association, Maui County Bar Association, Hawaii State Bar Association's Appellate Section, West Hawaii Bar Association, and two individuals.

Your Committee finds that the appropriations made by this measure will assist the Judiciary in its efforts to fulfill its constitutional and statutory duties for the 2019-2021 fiscal biennium.

Your Committee specifically notes that it has retained Part IV of the measure, appropriating \$445,768 for the purpose of operating the community outreach court project.

Your Committee has amended this measure by:

- Adding \$800,000 in each fiscal year to JUD601 Administration for general civil legal services for low- and moderate-income residents;
- (2) Adding one new full-time social worker position to JUD601 Administration, to focus on matters that arise from the Office of the Public Guardian relating to persons with severe mental illnesses;
- (3) Restoring the six positions and courthouse operating expenses in both fiscal years for the new Kona courthouse that were deleted from this measure by the House of Representatives;
- (4) Eliminating thirty-three currently vacant positions, including thirty-one positions in JUD310 and two positions in JUD601, resulting in a reduction of the Judiciary's base budget of over \$1,300,000 in each fiscal year; and
- (5) Restoring capital improvement projects that were deleted by the House of Representatives, comprising:
  - (A) \$1,800,000 for air conditioning improvements for Aliiolani Hale on Oahu;
  - (B) \$850,000 for structural improvements and \$5,510,000 for security updates for Hoapili Hale on Maui; and
  - (C) \$4,240,000 for roof repairs to the Kauai judiciary complex.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 510, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 510, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

#### SCRep. 1427 (Joint) Commerce, Consumer Protection, and Health and Transportation on H.B. No. 241

The purpose and intent of this measure is to establish a task force within the Department of Commerce and Consumer Affairs to develop proposed legislation for the regulation of peer-to-peer motor vehicle sharing companies.

Your Committees received testimony in support of this measure from Turo and Getaround. Your Committees received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs. Your Committees received comments on this measure from the Department of Transportation, Tax Foundation of Hawaii, Enterprise Holdings, and Allstate Insurance Company.

Your Committees find that car peer-to-peer sharing provides convenient and affordable on-demand access to vehicles for the growing number of Americans who do not own cars, or for whom car ownership is cost prohibitive. Your Committees further find that this measure establishes a task force within the Department of Commerce and Consumer Affairs to develop proposed legislation for the regulation of peer-to-peer motor vehicle sharing companies and identify potential issues currently unaddressed by Hawaii law.

Your Committees have heard the concerns raised in testimony that the task force established by this measure does not address regulation of peer-to-peer companies in Hawaii, which are currently operating in the State without any oversight or consumer protection. Your Committees find that convening a task force is not the most prudent course of action at this time, as there is an immediate need to address concerns regarding safety, loss of revenue, and consumer protection.

Your Committees note that the companion to this measure, S.B. No. 662, S.D. 2 (Regular Session of 2019), which was previously passed by the Senate, prohibits vehicle lessors from renting, leasing, or offering for rent or lease, vehicles subject to a manufacturer's recall until appropriate repairs are made, defines peer-to-peer vehicle sharing related terms, and requires persons engaging in peer-to-peer vehicle sharing organization business to register with the Director of Taxation. Your Committees conclude that the language in S.B. No. 662, S.D. 2, is preferable because it contains language to immediately effectuate the regulation of peer-to-peer vehicle sharing, which will protect the health, safety, and welfare of the public.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 662, S.D. 2, a measure which:
  - (A) Prohibits vehicle lessors from renting, leasing, or offering for rent or lease, vehicles subject to a manufacturer's recall until appropriate repairs are made;
  - (B) Defines peer-to-peer vehicle sharing related terms; and
  - (C) Requires persons engaging in peer-to-peer vehicle sharing organization business to register with the Director of Taxation; and
- (2) Requiring all vehicles rented or leased by a peer-to-peer vehicle sharing organization to be covered by a motor vehicle insurance policy that meets minimum liability coverage requirements.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 241, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 241, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Nishihara).

Transportation: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

#### SCRep. 1428 (Joint) Commerce, Consumer Protection, and Health and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1416

The purpose and intent of this measure is to establish a suicide prevention commission to develop a strategic plan to reduce suicides within Hawaii's correctional facilities.

Your Committees received testimony in support of this measure from the Department of Health, Department of Public Safety, Hawai'i Health and Harm Reduction Center, Community Alliance on Prisons, Hawaii Family Forum, Hawai'i Justice Coalition, Ho'omanapono Political Action Committee, and nine individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that according to the federal Bureau of Justice Statistics, in the period between 2001 and 2014, Hawaii was seventh in the nation for suicides among incarcerated individuals. According to testimony received by your Committees, a study found that the risk of suicide increased at least three-fold for male prisoners compared to the general male population with female prisoners being at least nine times more likely to die from suicide compared to the general female population. The State has an obligation to ensure the life, health, and well-being of those in correctional custody. This measure therefore establishes a suicide prevention commission to examine, evaluate, and determine methods to improve education, awareness, support services, and inmate outreach to best prevent suicides in Hawaii's correctional facilities.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and

purpose of H.B. No. 1416, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Chang, Fevella).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

## SCRep. 1429 (Joint) Judiciary and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 1383

The purpose and intent of this measure is to:

- (1) Decriminalize the possession of three grams or less of marijuana and establish that the possession is an infraction punishable by a monetary fine of \$200;
- (2) Provide for the dismissal of criminal charges, and expungement of criminal records, pertaining solely to the possession of three grams or less of marijuana; and
- (3) Establish a marijuana evaluation task force to make recommendations on changing marijuana use penalties and outcomes in the State.

Your Committees received testimony in support of this measure from Americans for Democratic Action, Community Alliance on Prisons, IMUAlliance, Drug Policy Forum of Hawai'i, Pono Hawai'i Initiative, American Civil Liberties Union of Hawai'i, Marijuana Policy Project, Hawai'i Health and Harm Reduction Center, and forty-five individuals. Your Committees received testimony in opposition to this measure from the Department of the Attorney General, Department of Transportation, Department of the Prosecuting Attorney of the City and County of Honolulu, Maui Police Department, Kaua'i Police Department, Hawai'i County Police Department, Honolulu Police Department, Hawaii Family Forum, and sixteen individuals. Your Committees received comments on this measure from the Judiciary, Akamai Cannabis Clinic, National Organization for the Reform of Marijuana Laws, and Maui Chamber of Commerce.

Your Committees find that ten states and the District of Columbia have legalized the recreational use of marijuana by adults, and that others are in the process of considering legalization. Your Committees further find that legalization in these states has avoided the criminalization of thousands of people, reduced opioid overdose deaths and untreated opioid use disorders, and lowered the number of arrests for driving under the influence of alcohol and other drugs. Your Committees additionally find that recent polling indicates broad public support in Hawaii for the legalization of marijuana. This measure decriminalizes the possession of small amounts of marijuana and establishes a task force to make recommendations on marijuana policy for consideration in future sessions of the Legislature.

Your Committees have amended this measure by:

- (1) Making possession of three grams or less of marijuana a violation punishable by a monetary fine of \$30;
- (2) Removing language establishing an adjudication process for the dismissal of criminal charges for marijuana infractions;
- (3) Changing the effective date to February 1, 2020; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1383, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1383, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

#### SCRep. 1430 (Joint) Housing and Agriculture and Environment on H.B. No. 1403

The purpose and intent of this measure is to:

- (1) Require the automatic approval of a permit application submitted for a housing development project that uses monies from the rental housing revolving fund if a county does not issue a decision within sixty days; and
- (2) Exempt projects that are automatically approved from environmental assessment and impact statement requirements.

Your Committees received testimony in support of this measure from the Catholic Charities Hawaii, Hawaii Kai Homeless Task Force, Faith Action for Community Equity, Building Industry Association of Hawaii, Faith Action, and Chamber of Commerce Hawaii. Your Committees received testimony in opposition to this measure from the Office of Environmental Quality Control, City and County of Honolulu Department of Planning and Permitting, and three individuals. Your Committees received comments on this measure from the Hawaii Housing Finance and Development Corporation and State Environmental Council.

Your Committees find that there is an insufficient amount of affordable housing available in the State, leading to a number of residents leaving Hawaii in search of more affordable living situations. Your Committees further find that one of the largest obstacles to the development of affordable housing is the permitting delays for developers to begin their affordable housing projects. Streamlining the development of affordable housing by instituting an automatic approval under certain circumstances will expedite the construction and development of affordable housing for residents of the State.

Your Committees note the concerns of the Office of Environmental Quality Control regarding the need for a balance between encouraging the development of affordable housing and maintaining the environmental quality of the State and the uncertainty about what actions would fall under state law or rules adopted by the Department of Health, as required under this measure.

Accordingly, your Committees have amended this measure by:

- Clarifying that certain housing project applications shall be approved or disapproved within sixty days of filing a building permit application, rather than within sixty days of submitting a completed application;
- (2) Deleting language that would have exempted certain housing projects from the environmental assessment and impact statement requirements;
- (3) Deleting language that would have repealed the statutory exemption of certain housing projects from the environmental impact statement requirements upon the adoption of Department of Health administrative rules regarding exemptions from the environmental assessment and impact statement requirements; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1403, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1403, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Housing: Ayes, 4. Noes, none. Excused, 1 (Fevella). Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 1431 Transportation on H.B. No. 270

The purpose and intent of this measure is to expand the definition of "rebuilt vehicle" to include vehicles that have been rebuilt after sustaining flood damage or material damage to the vehicle's electronics.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received comments on this measure from State Farm Mutual Automobile Insurance Company and Hawaii Automobile Dealers' Association.

Your Committee finds that existing laws inhibit an insurer's ability to use a rebuilt or salvage title when a total loss is retained by the insured for a flooded vehicle or when damage is done to a vehicle's electronics. In order to be considered a "rebuilt vehicle", there must be material damage to its frame, unitized structure, or suspension system, and the cost to repair the vehicle has to be greater than the vehicle's market value. Your Committee finds that although the State experiences frequent storms and is surrounded by salt water, the aforementioned requirements do not take into consideration any flood damage or any damage done to a vehicle's electronics. This measure will protect consumers in the State by updating existing law to reflect the design of modern vehicles and address any damage to certain vehicle components that is caused by flooding.

Your Committee has amended this measure by:

- (1) Inserting a definition of "flood damage" to mean damage caused to any electrical, computerized, or mechanical component of a vehicle that has been submerged in water to the point that rising water has reached over the doorsill and has entered the passenger compartment; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 270, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 270, H.D. 1, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

## SCRep. 1432 Transportation on H.B. No. 529

The purpose and intent of this measure is to prohibit any vehicle, except for a low-range, four-wheel drive vehicle, from being driven through or in Waipio Valley, except under certain circumstances.

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council.

Your Committee finds that Waipio Valley road is one of the steepest roads in the world. A two-wheel car can burn its brakes out on the way down, or stall its engines on the way up due to the numerous twists and turns coupled with a 25 percent grade incline. Your Committee further finds that parts of the slope on Waipio Valley road can reach up to 37 percent gradient, equal to the steepest street in the world. Your Committee also finds that Waipio Valley has gained popularity via social media due to its natural beauty and therefore has attracted individuals unfamiliar with the road, causing potential safety issues. Although there are signs to inform individuals of the dangers of driving on Waipio Valley road, many are ignoring these warnings. This measure will establish stricter penalties regarding the types of vehicles permitted on Waipio Valley road, thereby improving the safety for residents and visitors of the State.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 529, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

#### SCRep. 1433 (Joint) Transportation and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 703

The purpose and intent of this measure is to:

- (1) Prohibit any person convicted of operating a vehicle under the influence of an intoxicant or habitually operating a vehicle under the influence of an intoxicant from purchasing or publicly consuming alcohol during a probationary period; and
- (2) Amend the threshold for habitually operating a vehicle under the influence of an intoxicant.

Your Committees received testimony in support of this measure from the Honolulu Police Department. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from Mothers Against Drunk Driving Hawaii.

Your Committees find that impaired driving continues to be one of the biggest contributing factors to traffic fatalities in the State. Your Committees further find that according to the 2017 Highway Safety Annual Report, in 2016 of the 120 traffic fatalities that occurred in the State, 59.2 percent were caused by someone driving under the influence of alcohol or drugs, which is an increase from 54.8 percent in 2015. Most recently, three individuals lost their lives due to a driver under the influence of an intoxicant. Your Committees believe that more effort needs to be made in order to ensure the safety of all residents and visitors of the State.

Your Committees have amended this measure by:

- (1) Clarifying that the examiner of drivers is required to adopt rules restricting the use of a driver's license issued to a person prohibited from purchasing or publicly consuming alcohol during the probation period invoked pursuant to section 291E-61 or 291E-61.5, Hawaii Revised Statutes;
- (2) Clarifying that the court shall determine when the probation period shall expire;
- (3) Allowing an individual to operate or assume physical control of any vehicle with only an ignition interlock permit in their immediate possession, rather than requiring an ignition interlock permit and a valid state identification card, as suggested by the Honolulu Police Department; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 703, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 703, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

# SCRep. 1434 (Joint) Transportation and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 757

The purpose and intent of this measure is to:

- (1) Require the Department of Transportation and appropriate county agencies to adopt vision zero polices to prevent and eliminate traffic fatalities; and
- (2) Establish and appropriate funds for a temporary working group to develop an action plan and make recommendations to prevent traffic fatalities.

Your Committees received testimony in support of this measure from the Department of Transportation; Department of Health; Office of the Mayor of the County of Hawai'i; City and County of Honolulu Department of Transportation Services; Blue Zones Project; Kauai Path, Inc.; Hawaii Strategic Safety Plan; Hawaii Bicycling League; Hawai'i Public Health Institute; Mothers Against Drunk Driving Hawaii; one member of the City Council of Honolulu; two members of the Maui County Council; and twenty individuals.

Your Committees find that traffic-related fatalities are on the rise around the nation. In 2018, there were 117 traffic related fatalities and as of February 2019, there were already 19 fatalities. Your Committees further find that vision zero is a multi-national road traffic safety project that aims to achieve a traffic system with no traffic related fatalities or serious injuries. This measure is a step toward decreasing the high number of traffic related fatalities and providing a safe environment for all residents and visitors in Hawaii.

Your Committees have amended this measure by:

- Replacing the temporary vision zero working group with the State Highway Safety Council and requiring the State Highway
  Safety Council to work with each of the county traffic or highway safety councils in developing an action plan;
- (2) Requiring the State Highway Safety Council to report to the Legislature;
- (3) Deleting the membership of the temporary vision zero working group;
- (4) Deleting language that would have disbanded the working group on June 30, 2021;
- (5) Deleting the appropriation; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 757, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 757, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

#### SCRep. 1435 (Joint) Transportation and Government Operations on H.B. No. 857

The purpose and intent of this measure is to:

- (1) Prohibit the operation of a motor scooter within the pedestrian mall that abuts the grounds of the State Capitol and Iolani Palace;
- (2) Appropriate funds for the expansion and development of the makai paved walkway of the pedestrian mall to include a designated bicycle lane; and
- (3) Require the Department of Accounting and General Services, Department of Transportation, and Department of Land and Natural Resources to create a long-term development plan to improve the pedestrian mall to create an attractive and visually impressive pedestrian and bicycle mall.

Your Committees received testimony in support of this measure from the Department of Transportation, Department of Land and Natural Resources, Department of Accounting and General Services, Hawaii Bicycling League, Hawaii Pacific Health, Blue Zones Project, Hawaii Public Health Institute, and twenty-one individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that the central location of the State Capitol offers a convenient means of commuting for certain motorists and pedestrians. However, your Committees further find that this convenience has also caused safety and comfort issues for pedestrians due to the use of motor scooters in the pedestrian mall. Your Committees believe that in order to ensure the safety of pedestrians and bicyclists, a bicycle lane should be developed near the State Capitol, Iolani Palace, and the main branch of the Hawaii State Library. This measure will address the needs and safety issues of pedestrians, provide bicyclists with a safer route through the pedestrian mall, and preserve the historic and iconic architecture of the capitol district.

Your Committees have amended this measure by:

- (1) Clarifying that the expansion and development of the makai paved walkway shall include widening the path or creating multiple paths sufficient to separate pedestrians and wheeled vehicles, rather than requiring the path be widened no less than an additional eight feet;
- (2) Requiring the Department of Transportation to consult with the Department of Land and Natural Resources in accordance with section 6E-8, Hawaii Revised Statutes, to ensure that the upgrades visually reflect the historic nature and iconic architecture of the capitol district; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note the concern regarding the potential inclusion of motorized chairs that are being used due to a disability in the definition of a "motor scooter" and request that the Department of Transportation look into this concern to ensure that those with mobility disabilities are not adversely affected by this measure.

Your Committees further note the concern that the Oahu transportation management area metropolitan planning organization revolving fund may not be the proper source of funding for this project and encourages the stakeholders to find an appropriate source of funding as this measure moves on to your Committee on Ways and Means.

As affirmed by the records of votes of the members of your Committees on Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 857, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 857, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Baker).

## SCRep. 1436 (Joint) Transportation and Commerce, Consumer Protection, and Health on H.B. No. 1093

The purpose and intent of this measure is to:

- (1) Establish rules, regulations, and permitting procedures for transportation network companies;
- (2) Specify that transportation network companies and their drivers are excluded from the Motor Carrier Law;
- (3) Make permanent insurance requirements for transportation network companies and their drivers; and
- (4) Make an appropriation to the Department of Transportation to administer the new rules, regulations, and permitting procedures.

Your Committees received testimony in support of this measure from the Department of Transportation, Lyft, and Uber. Your Committees received testimony in opposition to this measure from Charley's Taxi; Hawaii Transportation Association; Roberts Hawaii,

Inc; Hawaii Passenger and Property Carriers Association; Matsumoto and Clapperton; and a form letter in opposition signed by 174 individuals. Your Committees received comments on this measure from the City and County of Honolulu Department of Transportation Services.

Your Committees find that transportation network companies enhance access to transportation options for residents and visitors of the State by providing a convenient and alternative means of transportation. Your Committees further find that there has been a rise in popularity of transportation network companies in recent years and their services are being utilized by numerous individuals, both as customers and as drivers. Your Committees believe statewide regulation of transportation network companies is necessary to ensure the safety, reliability, and cost-effectiveness of rides provided by transportation network companies.

Your Committees note that Senate Bill No. 1161, S.D. 2 (Regular Session of 2019), which was previously passed by the Senate, is a substantially similar measure that, among other things, also establishes rules, regulations, and permitting procedures for transportation network companies operating in the State. Your Committees believe that the language in Senate Bill No. 1161, S.D. 2, is preferable as it addresses concerns provided by Lyft in their testimony, including clarifying the definition of "transportation network company", clarifying transportation network company driver requirements, and distinguishing between service animals and assistance animals.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and replacing it with the contents from Senate Bill No. 1161, S.D. 2, which:
  - (A) Establishes rules, regulations, and permitting procedures for transportation network companies;
  - (B) Makes permanent insurance requirements for transportation network companies and their drivers; and
  - (C) Makes it effective upon approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1093, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1093, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (English, Harimoto).

Commerce, Consumer Protection, and Health: Ayes, 6; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Nishihara).

#### SCRep. 1437 Transportation on H.B. No. 1176

The purpose and intent of this measure is to authorize Department of Transportation law enforcement officers to use electric guns while performing their duties and require them to be accredited in the use of such guns by June 30, 2024.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of the Attorney General, Honolulu County Republican Party, and one individual.

Your Committee finds that electric guns provide law enforcement officers a viable and safer alternative to other potentially deadly firearms when dealing with non-compliant, combative suspects. Existing laws authorize certain law enforcement officers, members of the army, and air national guard to use electric guns. However, existing law does not allow law enforcement officers at state commercial harbors, or harbor police, under the Department of Transportation to carry electric guns. Your Committee further finds that while harbor police are not currently authorized to use electric guns, they are authorized to carry firearms and therefore should also have access to electric guns.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1176, H.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

## SCRep. 1438 Hawaiian Affairs on H.B. No. 893

The purpose and intent of this measure is to appropriate or authorize funds for programs of the Department of Hawaiian Home Lands under the purview of the House Standing Committee on Water, Land, and Hawaiian Affairs.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, Hoʻomanapono Political Action Committee, and five individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from one individual.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for items related to the Department of Hawaiian Home Lands' budget to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by:

- (1) Transferring two capital improvement project appropriations allocated to the Department of Hawaiian Home Lands for the 2017-2019 fiscal biennium to the Department of Transportation by deleting and lapsing those appropriations, appropriating the same sum to the Department of Transportation for the 2019-2021 fiscal biennium, and making conforming amendments;
- (2) Amending section 1 to reflect its amended purpose;

- (3) Inserting a provision to allow the delegation of implementation of capital improvement projects in this measure to other state or county agencies, under certain conditions; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 893, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 893, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

#### SCRep. 1439 Housing on H.B. No. 334

The purpose and intent of this measure is to:

- (1) Expand eligibility for state-funded individual development accounts to households with income up to 100 percent of the area median income;
- (2) Expand authorized uses of account funds to costs associated with rental housing, public transportation, and purchasing or repairing a motor vehicle;
- (3) Clarify certain requirements for fiduciary organizations;
- (4) Require the Department of Business, Economic Development, and Tourism to certify contributions for purposes of the tax credit;
- (5) Establish requirements for fiduciary organizations to maintain state match funds for individual development accounts; and
- (6) Reactivate the individual development account tax credit for taxable years 2020 through 2024.

Your Committee received testimony in support of this measure from the Department of Taxation, Office of Hawaiian Affairs, Hawaiian Community Assets, Hawaii Credit Union League, Hawaii State Federal Credit Union, Council for Native Hawaiian Advancement, and Hawaii Alliance for Community-Based Economic Development. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism and Tax Foundation of Hawaii.

Your Committee finds that the high costs of living in the State inhibit individuals from obtaining necessary financial security to maintain a sustainable lifestyle in Hawaii. Your Committee further finds that individual development accounts are matched savings accounts that enable low- and moderate-income individuals to save, build assets, obtain stable housing, and ensure a financially secure future. Individual development accounts assist eligible individuals who require financial assistance in building toward an asset, such as buying a home, paying for college, or starting a small business. Your Committee believes that an individual development account would be better utilized if the authorized uses are expanded to include costs associated with rental housing, public transportation, and purchasing or repairing a motor vehicle, as proposed by this measure.

Your Committee has amended this measure by:

- (1) Changing references from the Business Development and Support Division of the Department of Business, Economic Development, and Tourism to the Department of Human Services, thereby reinstating the Department of Human Services as the manager of fiduciary organizations' responsibilities and certifier of individual development account tax credits;
- (2) Clarifying that the State shall match an amount of up to \$100,000 per calendar year for individual development accounts per qualified fiduciary organization in a given year;
- (3) Inserting an effective date of July 1, 2075, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 334, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 334, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1440 Housing on H.B. No. 365

The purpose and intent of this measure is to repeal the exemption of the Hawaii Public Housing Authority (HPHA) from certain administrative supervision by its board of directors regarding personnel matters.

Your Committee received testimony in opposition to this measure from the Hawaii Public Housing Authority and Department of Human Services.

Your Committee finds that existing law exempts HPHA from section 26-35(a)(4), Hawaii Revised Statutes (HRS), which allows for an independent Board of Directors, where each members' vote is of equal weight. The exemption allows HPHA to bypass the Director of Human Services' approval for personnel related issues. Repealing the exemption will hold HPHA accountable to the Director of

Human Services in regard to the employment, appointment, promotion, transfer, demotion, discharge, and job descriptions of all officers and employees under HPHA.

Your Committee notes the concern of HPHA of the potential damaging and unintended consequences of repealing the exemption from section 26-35(a)(4), HRS. Your Committee further notes that HPHA stated in its testimony that the exemption ensures that HPHA is compliant with all United States Department of Housing and Urban Development laws, rules, regulations, and guidance relating to public housing authorities across the nation.

Your Committee also notes the concerns from the Department of Human Services that repealing the exemption from section 26-35(a)(4), HRS, would in essence make the Director of Human Services the Chairperson of the Board of Directors of HPHA, in potential conflict with section 356D-3, HRS, which provides that the Director of Human Services, or a designated representative, shall be an ex officio voting member of the Board of Directors and that the Director of Human Services shall be ineligible to serve as Chairperson of the Board.

Your Committee has amended this measure by inserting an effective date of July 1, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 365, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 365, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Moriwaki, Thielen). Noes, none. Excused, 1 (Fevella).

#### SCRep. 1441 Housing on H.B. No. 543

The purpose and intent of this measure is to:

- (1) Require the Hawaii Housing Finance and Development Corporation to initiate negotiations or exercise its power of eminent domain to acquire the Front Street Apartments affordable housing project on Maui; and
- (2) Extend the deadline to complete the Leialii affordable housing project on Maui.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Office of the Mayor of the County of Maui, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, ILWU Local 142, Maui Chamber of Commerce, two members of the Maui County Council, and twenty-one individuals. Your Committee received comments on this measure from the LahainaTown Action Committee, Front Street Affordable Housing Partners, and one member of the Maui County Council.

Your Committee finds that recent analyses on Maui's housing situation reveal that approximately 12,448 units are needed to address housing needs by 2025. Of those units, over 75 percent are required for low-income housing purposes. Your Committee further finds that the owners of the Front Street Apartments are opting to remove the project from the affordability requirements, allowing the owners to rent available units at market rates and raise rents for existing tenants by October 2019. Your Committee believes that losing the affordability of the Front Street Apartments will not only reduce the amount of affordable housing in Maui, but also displace many long-time residents.

Your Committee also finds that Act 150, Session Laws of Hawaii 2018 (Act 150), appropriated funds for the construction of another affordable housing project on Maui, the Leialii affordable housing project; however, while development activities and expenditures have commenced, the construction may not be completed by the time provided by Act 150. This measure will preserve necessary affordable housing units on Maui by requiring the State to acquire the Front Street Apartments and extending the deadline to complete the Leialii affordable housing project.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2075, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 543, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 543, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 1442 Housing on H.B. No. 1349

The purpose and intent of this measure is to prohibit the Hawaii Community Development Authority from allowing satisfaction of a development project's affordable housing requirement through a cash payment in lieu of providing reserved housing.

Your Committee received comments on this measure from the Hawaii Community Development Authority.

Your Committee finds that there is a severe lack of affordable housing, particularly for low- and moderate-income individuals in the State. Your Committee further finds that existing law authorizes the Hawaii Community Development Authority to accept cash payment from developers in lieu of providing reserved housing. This removes potential affordable housing opportunities for low- and moderate-income individuals. Your Committee believes that prohibiting the Hawaii Community Development Authority from accepting cash payments in lieu of reserved housing for low- and moderate-income individuals will help the State meet its high demand for affordable housing.

Your Committee has amended this measure by inserting an effective date of July 1, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1349, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1349, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1443 Housing on H.B. No. 476

The purpose and intent of this measure is to:

- (1) Authorize the issuance of general obligation bonds for the construction of housing units; and
- (2) Require, and appropriate funds for, the Hawaii Housing Finance and Development Corporation to provide loans or grants for the development of permanent supportive housing units.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness, Hawaii Housing Finance and Development Corporation, Hawaii Kai Homeless Task Force, Partners in Care, Hawaiian Community Assets, Faith Action for Community Equity, HOPE Services Hawaii, Catholic Charities Hawai'i, Hawai'i Health and Harm Reduction Center, ALEA Bridge, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Share Your Mana, and three individuals.

Prior to decision making on this measure, your Committee made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and inserting the contents of Senate Bill No. 351, S.D. 1 (Regular Session of 2019), which:

- (1) Prohibits advertising or subletting a public housing unit and housing subject to an owner or renter occupancy requirement under chapters 201H, 206E, and 356D, Hawaii Revised Statutes, for rental purposes; and
- (2) Requires county police departments to enforce the prohibition.

Your Committee received testimony in support of the proposed S.D. 1 from the Hawaii Public Housing Authority and Hawaii Housing Finance and Development Corporation. Your Committee received testimony in opposition to the proposed S.D. 1 from the Hawai'i Association of REALTORS.

Your Committee finds that the lack of affordable housing units for residents exacerbates the continuous problem of homelessness in the State. Your Committee further finds that regardless of the severe lack of affordable housing units for the low-income population, there have been cases of individuals renting or subletting public housing units or housing units that are subject to a rental agreement or renter occupancy requirement that is specifically targeted for low-income or affordable housing individuals and families. This practice allows individuals to financially gain from rental income derived from these units and also removes available housing stock from those who most need it, particularly one of the over 8,800 families who are on the waitlist for public housing. The proposed S.D. 1 promotes fairness in housing opportunities by deterring those who are inclined to violate the occupancy limitations of certain housing units.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Including county agencies, in addition to state agencies and private project owners and their managing agents, as an authorized entity to advertise or publicize a housing program of the Hawaii Housing Finance and Development Corporation; and
- (2) Inserting an effective date of upon approval.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 476, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 476, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 1444 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 336

The purpose and intent of this measure is to:

- (1) Require the Director of Public Safety, in the event of the death of an inmate who is incarcerated in a state or contracted correctional facility, or the death of a correctional facility or community correctional center employee, to report within 48 hours to the Governor and Legislature certain information regarding the death, subject to state and federal laws; and
- (2) Require the collection and preservation of any human biological specimens for a criminal investigation and potential prosecution if there is any indication of sexual assault leading to the death.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, one councilmember of the Kaua'i County Council, Community Alliance on Prisons, Planned Parenthood Votes Northwest and Hawaii, Hawai'i Friends of Restorative Justice, and eight individuals. Your Committee received comments on this measure from the Department of Public Safety and Hawaii Disability Rights Center.

Your Committee finds that inmate deaths have become a common occurrence in the State's criminal justice system and that information about these deaths is not informative or transparent. In recent years, many suicides have occurred while the inmate was in confinement, many of which were young Native Hawaiians. Your Committee further finds that, in part, this measure is a result of a Kauai prison death in which the Department of Public Safety did not provide full disclosure to the family of the deceased, nor did any elected officials seem to be aware of the death, which occurred in solitary confinement.

Your Committee believes that this measure will improve transparency and urgency in the procedures surrounding the deaths and sexual assaults of inmates and correctional employees by requiring the Director or Department of Public Safety to expediently report inmate and employee deaths to the Governor and Legislature, provide an annual report of inmate and employee sexual assaults, and preserve forensic evidence if there is any indication of sexual assault leading to the person's death.

Your Committee has amended this measure by clarifying that the Department of Public Safety is required to preserve forensic evidence consisting of human biological specimens for collection by the relevant criminal investigation entity or coroner if there is any indication of sexual assault leading to the death of an inmate or correctional employee.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 336, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 336, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 1445 Public Safety, Intergovernmental, and Military Affairs on H.B. No. 950

The purpose and intent of this measure is to authorize the Attorney General to issue credentials to allow qualified law enforcement officers to carry concealed firearms in the State, as is permitted by the federal Law Enforcement Officers Safety Act.

Your Committee received testimony in support of this measure from the Department of Public Safety, Department of the Attorney General, and six individuals. Your Committee received testimony in opposition to this measure from the Hawaii Firearms Coalition, Ho'omanapono Political Action Committee, and two individuals.

Your Committee finds that under the Law Enforcement Officers Safety Act certification program, retired officers may be certified to carry concealed firearms only if they pass standardized firearms qualification testing, a medical exam every two years, and a mental health clearance every year. Your Committee further finds that this measure would give the Department of the Attorney General the statutory authority and ability to adopt rules to ensure qualified law enforcement officers are properly certified to carry concealed firearms, and clarify that the Department of the Attorney General is the agency responsible for issuing credentials pursuant to the Law Enforcement Officers Safety Act.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 950, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

#### SCRep. 1446 (Joint) Public Safety, Intergovernmental, and Military Affairs and Government Operations on H.B. No. 1552

The purpose and intent of this measure is to support best practices for an effective correctional system by:

- (1) Establishing the Hawaii Correctional System Oversight Commission; and
- (2) Consolidating the Reentry Commission and Corrections Population Management Commission into the Hawaii Correctional System Oversight Commission and transferring the rights, powers, functions, and duties of the consolidated commissions to the Hawaii Correctional System Oversight Commission.

Your Committees received testimony in support of this measure from the Department of Public Safety, Office of Hawaiian Affairs, Hawai'i State Commission on the Status of Women, County of Hawai'i Office of the Prosecuting Attorney, Community Alliance on Prisons, Common Cause Hawaii, Ho'omanapono Political Action Committee, American Civil Liberties Union of Hawai'i, and five individuals. Your Committees received testimony in opposition to this measure from the Crime Victim Compensation Commission. Your Committees received comments on this measure from the Hawaii Paroling Authority, Sex Abuse Treatment Center, Civil Beat Law Center for the Public Interest, and Mothers Against Drunk Driving Hawaii.

Your Committees find that an increasing number of states are calling for independent oversight of their correctional systems with at least eight states already having established independent oversight mechanisms to monitor and improve their correctional systems. Your Committees further find that independent oversight of the State's correctional system helps ensure personnel and fiscal accountability, supports safe conditions for employees, inmates, and detainees, and provides positive reform to a rehabilitative and therapeutic correctional system.

Your Committees therefore find that the Reentry Commission and Corrections Population Management Commission have overlapping responsibilities and consolidating the commissions into a single, independent oversight commission led by an oversight coordinator and guided by an experienced group of commission members will promote efficiency and provide greater opportunities for member participation.

Your Committees have amended this measure by:

- Adding knowledge of crime victim specialization as one of the preferred qualifications for a member of the Hawaii Correctional System Oversight Commission;
- (2) Deleting language that would have authorized the Hawaii Correctional System Oversight Commission to hold public meetings it deems necessary and to hold executive meetings closed to the public, for certain purposes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1552, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1552, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1447 (Joint) Hawaiian Affairs and Energy, Economic Development, and Tourism on H.B. No. 420

The purpose and intent of this measure is to repeal a provision designating the Hawaii Convention Center as the location for operation of a Hawaiian Center and the Museum of Hawaiian Music and Dance.

Your Committees received testimony in support of this measure from the Hawaii Tourism Authority. Your Committees received comments on this measure from the Hawaiian Affairs Caucus of the Democratic Party of Hawaii.

Your Committees find that under existing law, \$79,000,000 of transient accommodations tax revenue is allocated per year to the tourism special fund and of that amount, \$1,000,000 is allocated for the operation of a Hawaiian Center and Museum of Hawaiian Music and Dance at the Hawaii Convention Center. However, your Committees further find that the Hawaii Convention Center is currently an unsuitable location for the Hawaiian Center and the Museum due to a need for renovation and repairs to the roof. Your Committees additionally find that the Bishop Museum, officially designated in statute as the State of Hawaii Museum of Natural and Cultural History, is a more appropriate location for the Hawaiian Center and Museum of Hawaiian Music and Dance.

Accordingly, your Committees have amended this measure by:

- (1) Designating the State of Hawaii Museum of Natural and Cultural History as the location for operation of a Hawaiian Center and the Museum of Hawaiian Music and Dance;
- (2) Authorizing the State of Hawaii Museum of Natural and Cultural History to enter into contracts and partnerships for services related to the Hawaiian Center and the Museum of Hawaiian Music and Dance; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 420, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 420, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Fevella).

## SCRep. 1448 Commerce, Consumer Protection, and Health on H.B. No. 665

The purpose and intent of this measure is to:

- (1) Exempt health care providers from requirements to consult the electronic prescription accountability system when prescribing controlled substances to a patient in an inpatient setting, for post-operative pain, or when prescribed for a patient in hospice care; and
- (2) Clarify that an informed consent agreement is not required for patients who lack capacity and are receiving treatment in a hospital under the supervision of a licensed health care provider.

Your Committee received testimony in support of this measure from the Department of Public Safety; Hawaii Health Systems Corporation; Healthcare Association of Hawaii; The Queen's Health Systems; Kaiser Permanente Hawai'i; Ohana Pacific Management Company, Inc.; and Hawai'i Pacific Health. Your Committee received comments on this measure from the Hawaii Association for Justice and Drug Policy Forum of Hawaii.

Your Committee finds that the electronic prescription accountability system, commonly known as the prescription drug monitoring system or PDMP, and opioid therapy informed consent process are useful tools to reduce the risk of abuse of or addiction to controlled substances and prevent unintended drug interactions. As medical facilities have begun putting the PDMP and opioid informed consent laws into practice, however, concerns have been raised about how to better address the needs of certain patient populations. Your Committee further finds that patients who are terminally ill and receiving palliative care or who are in an inpatient setting where opioids are administered under direct supervision of a health care provider face a lower risk of opioid abuse compared to opioid users in out-patient settings.

Your Committee has heard the testimony regarding the provision in this measure that removes the need for the opioid therapy informed consent process for certain high-risk opioid patients who are incapacitated and receiving care at a hospital. Your Committee notes that a group of interested stakeholders met and have reached an agreement to remove this language. An amendment to this measure is therefore necessary to reflect this consensus agreement.

Your Committee has amended this measure by:

(1) Clarifying that the PDMP does not need to be consulted for a patient who is directly administered a drug under the supervision of a licensed health care provider; provided that the PDMP is consulted when the patient is initially admitted for inpatient care at a hospital;

- (2) Clarifying that the PDMP does not need to be consulted when a patient has a terminal disease and is receiving hospice or other palliative care;
- (3) Removing language that would have exempted individuals lacking capacity and receiving treatment at a hospital under the supervision of a licensed health care provider from the opioid therapy informed consent process;
- (4) Inserting an effective date of July 1, 2019; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 665, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 665, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

# SCRep. 1449 Commerce, Consumer Protection, and Health on H.B. No. 1163

The purpose and intent of this measure is to authorize a financial institution that is a depository institution to conduct savings promotion contests in which its account holders are contestants.

Your Committee received testimony in support of this measure from the Hawaii Credit Union League. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that asset savings are a financial barrier for many people. Financial institutions across many states have implemented savings promotion contest programs that provide incentives in the form of prizes that can be won in exchange for customers depositing funds for the purpose of saving. However, due to the State's stringent laws prohibiting gambling, these types of programs are not available in Hawaii. This measure enables financial institutions to offer programs that encourage asset savings, which could help people achieve their financial goals.

Your Committee has heard the concerns raised in testimony by the Department of Commerce and Consumer Affairs that this measure may have certain unintended consequences. Therefore, amendments to this measure are necessary.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that this measure also includes prize-linked savings contests conducted by financial institutions;
- (2) Deleting language that would have required a savings promotion contest to ensure that each entry had an equal chance of winning a designated prize, as other states allow contestants to receive an entry for various types of transactions, not just deposits;
- (3) Clarifying the definition of "financial institutions";
- (4) Specifying that deposits made by a consumer into a savings account or other savings program shall remain under the ownership of the consumer;
- (5) Clarifying that a financial institution that offers savings promotions or prize-linked savings contests shall comply with federal requirements applicable to such contests;
- (6) Clarifying that a savings promotion or prize-linked savings contest shall not constitute gambling unless the chance to win a prize requires consideration and clarifying that consideration shall not include:
  - (A) The deposit of a specified minimum amount of money into a savings promotion or prize-linked savings account that results in an entry in a savings promotion or prize-linked savings contest;
  - (B) The interest earned, if any, on the consumer's savings promotion or prize-linked savings contest account; provided that the interest rate for that account is lower than that of a comparable account; and
  - (C) Any fee or amount to administer or maintain the savings promotion or prize-linked savings account; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1163, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1163, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

## SCRep. 1450 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary on H.B. No. 991

The purpose and intent of this measure is to:

- (1) Apply the protections of the state Civil Relief for State Military Forces law to persons serving on full-time National Guard duty under title 32 United States Code section 101, et seq.; and
- (2) Align the Hawaii Revised Statutes with the federal Servicemembers Civil Relief Act, title 50 United States Code chapter 50 sections 3901 through 4043.

Your Committees received testimony in support of this measure from the Department of Defense and two individuals.

Your Committees find that the federal Servicemembers Civil Relief Act (SCRA) provides a wide range of legal protections for members of the armed services who are called to military duty. For example, the SCRA has provisions to prevent landlords from evicting a deployed tenant.

Your Committees further find that a coverage gap exists for servicemembers serving on full-time National Guard duty in the State. The SCRA covers Title 32 service members mobilized to respond to a national emergency declared by the President, but this provision does not extend to service members on full-time National Guard duty pursuant to Title 32, nor are these members covered by the State's Civil Relief for State Military Forces law under chapter 657D, Hawaii Revised Statutes. This measure cures this coverage gap by amending chapter 657D, Hawaii Revised Statutes, to provide servicemembers similar protections as afforded by the SCRA.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 991, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 991, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

Judiciary: Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

#### SCRep. 1451 Higher Education on H.B. No. 1541

The purpose and intent of this measure is to establish and appropriate funds for the Hawaii gun violence prevention center and staff within the University of Hawaii to research strategies to prevent gun violence.

Your Committee received testimony in support of this measure from the University of Hawai'i System. Your Committee received testimony in opposition to this measure from the Hawaii Rifle Association, Hawaii Firearms Coalition, Hawaii Hunting Association, and fifty-eight individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that gun violence is a significant public health and public safety problem. Across the nation, rates of fatal gun violence have remained essentially unchanged for more than a decade, as declines in homicide have been offset by increases in suicide. Your Committee further finds that there is a lack of research about gun violence and its prevention. Therefore, this measure would allow the University of Hawaii to conduct the necessary research to analyze and develop strategies to prevent gun violence in the State.

Your Committee has amended this measure by:

- Specifying that proceeds from criminal asset forfeitures may be deposited into the Hawaii gun violence prevention center special fund and making a conforming amendment to section 712A-16, Hawaii Revised Statutes;
- (2) Deleting language that would have allowed the Hawaii gun violence prevention center special fund to provide grants to counties for gun violence prevention; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1541, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1541, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

#### SCRep. 1452 Higher Education on H.B. No. 1547

The purpose and intent of this measure is to appropriate funds for:

- (1) The University of Hawaii to provide all student-athletes enrolled at the university with two additional meals per day; and
- (2) The University of Hawaii athletics program.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee finds that educational institutions that are Division I members of the National Collegiate Athletic Association, such as the University of Hawaii, are allowed to provide meals to student-athletes as a benefit incidental to participation in intercollegiate athletics. Additionally, these institutions are also allowed to provide a student-athlete with financial aid, including a board allowance consisting of the value of the maximum meal plan that is available to students. Although the National Collegiate Athletic Association allows for incidental meals and snacks for student-athletes out of season, the University of Hawaii only provides its student-athletes with one meal per day incidental to participation while the student-athletes are in season. This measure would provide support to ensure the health and wellness of student-athletes at the University of Hawaii.

Your Committee has amended this measure by:

 Clarifying findings related to the bylaws of the National Collegiate Athletic Association that allow Division I members to provide incidental meals to student-athletes;

- (2) Specifying that the appropriated funds shall be used to provide all student-athletes at the University of Hawaii with a meal incidental to competition and snacks as permitted by National Collegiate Athletics Association bylaws;
- (3) Specifying that if the appropriated funds are used to provide meals for student-athletes incidental to participation to competition during the off-season, the incidental meal shall be in conjunction with a team workout;
- (4) Specifying that the appropriated funds shall cover up to seventy-five percent of the costs associated with providing meals incidental to competition and snacks for student-athletes;
- (5) Specifying that an athletic fundraising entity associated with the University of Hawaii, such as Ahahui Koa Ānuenue, the University of Hawaii athletics department, or extramural funding shall cover twenty-five percent of the costs associated with providing meals incidental to competition and snacks for student-athletes;
- (6) Deleting language that would have appropriated funds for the University of Hawaii athletics program; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1547, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1547, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

## SCRep. 1453 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary on H.B. No. 288

The purpose and intent of this measure is to require:

- (1) Lot owners in a subdivision to pay for the management, maintenance, and repair of subdivision roads where the applicable deeds do not specify a requirement or are otherwise subject to chapter 421J, Hawaii Revised Statutes, and require the counties to provide support for applicable assessments; and
- (2) The counties to provide oversight of assessments for management, maintenance, and repair of subdivision roads and other infrastructure in housing subdivisions where no oversight authority has already been established.

Your Committees received testimony in support of this measure from four individuals.

Your Committees find that some housing subdivisions in the State have been approved without a requirement that the lot owners fund the maintenance of private roads and other infrastructure within the subdivision. Unlike condominium property regimes, many housing subdivisions are not subject to a statutory framework, nor do they have an oversight agency for the creation, monitoring, training, and auditing of the various associations responsible for subdivision maintenance. Your Committees also find that existing oversight consists of a patchwork system of judgments from various lawsuits that does not provide adequate oversight.

Your Committees further find that subdivision road maintenance in areas affected by a natural disaster, such as Puna, on Hawaii island, could use additional subdivision road maintenance support and oversight.

Your Committees have amended this measure by:

- (1) Making it applicable only to counties with a population between 175,000 and 250,000 people; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 288, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 288, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

Judiciary: Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

# SCRep. 1454 Education on H.B. No. 245

The purpose and intent of this measure is to expand the powers of the Hawaii Teacher Standards Board to include approving professional development courses and programs necessary for teacher reclassification.

Your Committee received testimony in support of this measure from the Hawaii Teacher Standards Board and Hawaii State Teachers Association. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that professional development for teachers is essential to building capacity in response to the ever-changing demands of the teaching workforce. Because the Hawaii Teacher Standards Board is the entity that certifies teachers, the Board is aware of the current standards for teachers. This measure ensures that there is a wide variety of relevant professional development courses available for Hawaii public school teachers to expand their expertise and better equip them to teach Hawaii's children.

To assist the Committee on Ways and Means with its deliberation on this measure, your Committee notes that an appropriation amount of \$100,000 and one full-time equivalent (1.0 FTE) position for the Hawaii Teacher Standards Board may be necessary for the added responsibility of approving professional development courses and programs necessary for teacher reclassification.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 245, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

#### SCRep. 1455 Education on H.B. No. 318

The purpose and intent of this measure is to:

- Require and appropriate funds for the Department of Education to establish a staggered school start times task force to study
  and evaluate the issues and implications of instituting a staggered school start times program in Hawaii's public school system;
- (2) Require the staggered school start times task force to submit a report to the Legislature no later than twenty days prior to the Regular Session of 2020.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association and one individual. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that the Centers for Disease Control and Prevention has urged a later start time of 8:30 a.m. for middle and high school students. However, federal data for the 2015-2016 school year indicates that over eighty-five percent of public high schools start before 8:30 a.m. Therefore, staggered start times for Hawaii's schools should be studied to determine the impact of this component in the overall establishment of an educational system that produces the best learning environment for Hawaii's elementary, middle and intermediate, and high school students.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 318, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Fevella).

#### SCRep. 1456 Education on H.B. No. 1070

The purpose and intent of this measure is to prohibit public schools from being required by the Department of Education to expend their own school funds to maintain any geographically disadvantageous land on or adjacent to its property.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that certain public schools have geographical features, such as streams or rough terrain, on or adjacent to their property and have been required to expend their own school funds to maintain these features. Since all public schools do not have streams or rough terrain on or adjacent to their property, schools that do should not be unfairly disadvantaged. This measure ensures fairness in schools' financial resources, allowing for more resources to be better spent on actual education-related needs.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1070, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

## SCRep. 1457 Education on H.B. No. 250

The purpose and intent of this measure is to:

- (1) Establish and appropriate funds for the Hawaii keiki: healthy and ready to learn program within the Department of Education;
- (2) Appropriate funds to establish school health service coordinators in the Department of Health and Department of Human Services and a vision screening and eye assessment tool appropriate for children in kindergarten through grade twelve.

Your Committee received testimony in support of this measure from the Department of Education, University of Hawai'i System, State Public Charter School Commission, Hawai'i State Center for Nursing, Hawaii State Teachers Association, Project Vision Hawai'i, HE'E Coalition, Hawai'i Primary Care Association, and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance; Department of Human Services; Department of Health; and American Academy of Pediatrics, Hawaii Chapter.

Your Committee finds that the Hawaii keiki: healthy and ready to learn program has expanded access to health services for many of the State's students. School-based services such as early eye screenings and oral hygiene services for vulnerable keiki in pre-kindergarten through high school can improve academic outcomes and increase children's opportunities for economic achievement.

Your Committee further finds that in 2015, the Legislature appropriated general funds to improve access to, and increase the quality of, health services available to Hawaii's public school students. This appropriation led to the expansion of the Hawaii keiki program: healthy and ready to learn program, with five advanced practice registered nurses and five registered nurses serving seven complex areas across three islands. During this time, the Hawaii keiki program: healthy and ready to learn program also established five school-based health centers. This measure continues to improve access to and increase the quality of health services available to

Hawaii's public school students by formally establishing the Hawaii keiki program: healthy and ready to learn program and providing it with funding to expand and sustain the program.

Your Committee notes that the University of Hawaii School of Nursing recommends an additional \$256,000 appropriation for electronic school health records.

Your Committee has amended this measure by:

- (1) Exempting the Hawaii keiki: healthy and ready to learn special fund from section 36-30, Hawaii Revised Statutes, regarding reimbursements for departmental administrative expenses;
- (2) Specifying that the administration of medication by a school health aide shall be approved by the Department of Health or other on-campus, school-based, health care provider pursuant to a written agreement with the Department of Education; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 250, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 250, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

#### SCRep. 1458 Education on H.B. No. 1530

The purpose and intent of this measure is to establish and appropriate funds for the teacher mentor incentive program within the Department of Education.

Your Committee received testimony in support of this measure from the University of Hawaii'i System, Hawaii State Teachers Association, HawaiiKidsCAN, and ten individuals. Your Committee received comments on this measure from the Department of Education

Your Committee finds that it is critical for new teachers to receive mentoring and guidance as they enter the profession. The current teacher mentoring program within the Department of Education lacks adequate, ongoing compensation for classroom mentors who contribute additional time, duties, and expertise to support pre-service and school-level mentees. This situation results in stressed relationships with mentees and a lack of willingness to voluntarily engage in mentoring since mentors must dedicate a significant amount of their time during the school year. This measure provides a monetary bonus for mentors to increase satisfaction for mentors and mentees, encourage mentors to commit to investing in their mentees, and attract and retain teacher mentors to participate in the teacher mentoring program.

Your Committee has amended this measure by:

- (1) Specifying that the amount of the incentive offered as part of the teacher mentor incentive program shall be subject to collective bargaining, rather than \$1,500; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1530, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1530, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

#### SCRep. 1459 Education on H.B. No. 1274

The purpose and intent of this measure is to require and appropriate funds for the Department of Education to enter into a contract or agreement with one or more entities to develop and implement computer science professional development programs directly accessible to teachers.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, HawaiiKidsCAN, and Code.org. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that there is a disparity between the demand for computer science education and its availability as only forty percent of schools offer such courses. The integration and prioritization of computer science curriculum in public schools begins with teachers receiving relevant training. This measure ensures that teachers will receive high-quality professional development in computer science to prepare students for fields related to computer science that have the potential to drive job growth and innovation throughout the State's economy.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1274, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

#### SCRep. 1460 (Joint) Higher Education and Commerce, Consumer Protection, and Health on H.B. No. 654

The purpose and intent of this measure is to appropriate funds to the University of Hawaii Cancer Center to determine whether Hawaii has the highest incidence in the country of liver and bile duct cancer due to liver fluke infection, aflatoxin ingestion, or intrahepatic bile duct dilation.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Department of Health, American Cancer Society Cancer Action Network, Adon Renewables, and seven individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that liver cancer in Hawaii occurs at extremely high rates. According to the United States Centers for Disease Control and Prevention and the Hawaii Tumor Registry, Hawaii has had the highest or second highest rate of liver cancer among all of the states in recent years. However, because the common causes of liver cancer in Hawaii are near the national average, other factors may be contributing to the high occurrence of liver cancer in the State. While this measure provides support for the University of Hawaii Cancer Center to study the high incidence of liver and bile duct cancer, your Committees believe that it is important that the Center use these funds to better understand the etiologies of liver and bile duct cancer, with specific attention to disparities across different racial and ethnic groups, in order to inform public health and medical interventions to reduce the burden of this disease.

Accordingly, your Committees have amended this measure by:

- (1) Specifying that the appropriated funds shall be used for the University of Hawaii Cancer Center to determine the etiologies of the high incidence of liver and bile duct cancer in Hawaii and clarifying the findings to better delineate the purpose of the funding;
- (2) Specifying that the University of Hawaii Cancer Center shall be required to submit a progress report and final report on its findings and how funds were spent to the Legislature prior to the Regular Sessions of 2020 and 2021; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 654, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 654, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Higher Education: Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella). Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ruderman, Fevella).

## SCRep. 1461 Commerce, Consumer Protection, and Health on H.B. No. 673

The purpose and intent of this measure is to:

- (1) Provide a process for the voluntary or involuntary sale or transfer of a dispensary license;
- (2) Allow physician assistants to provide written certification for medical cannabis for qualifying patients;
- (3) Allow licensed dispensaries to have up to two manufacturing or processing centers separate from their production facilities;
- (4) Allow dispensaries to operate on state and federal holidays;
- (5) Require all dispensary and related facilities to conform with all county zoning and building code requirements;
- (6) Allow licensed dispensaries to purchase medical cannabis or manufactured cannabis products from another licensed dispensary with approval from the Department of Health in the event crop failure could affect patient access; and
- (7) Allow licensed dispensaries to manufacture and distribute edible cannabis and cannabidiol products.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which deletes the contents of the measure except the section that provides a process for the voluntary or involuntary sale or transfer of a dispensary license.

Your Committee received testimony in support of this measure or the proposed S.D. 1 from the Department of Health, Noa Botanicals, Hawai'i Educational Association for Licensed Therapeutic Healthcare, Drug Policy Action Group, and over fifty individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure or the proposed S.D. 1 from the Drug Policy Forum of Hawai'i, Akamai Cannabis Clinic, Community Alliance on Prisons, and two individuals.

Your Committee finds that medical cannabis dispensaries are vital to ensuring medical cannabis patients have adequate access to medical cannabis. Your Committee further finds that the law as written does not allow for the sale or transfer of a dispensary license under any circumstance, even in the event of the death or incapacity of the individual licensee. Instead, when an individual licensee is unable or unwilling to perform the licensee's functions, the Department of Health must revoke the dispensary's license and close the dispensary. Your Committee finds that the number of medical cannabis dispensaries is already limited and further reducing this number could impede patient access to medical cannabis. The proposed S.D. 1 helps ensure that qualifying patients have uninterrupted access to medical cannabis dispensaries going forward.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

Prohibiting an employer from discriminating against a person in hiring, termination, or conditions of employment based on the
person's status as a qualifying patient, with certain exceptions;

- (2) Prohibiting an employer from taking action against an employee based the employee's status as a qualifying patient or if that employee's drug test is positive for cannabis or its components, with certain exceptions;
- (3) Updating its purpose section;
- (4) Inserting an effective date of July 1, 2019; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 673, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 673, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Ruderman, Thielen). Noes, none. Excused, 1 (Keohokalole).

#### SCRep. 1462 (Joint) Government Operations and Labor, Culture and the Arts on H.B. No. 158

The purpose and intent of this measure is to require that contractors for government service contracts submit certified payrolls to demonstrate compliance with wage and hour requirements.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services; Hawaii Regional Council of Carpenters; Hawaii Laborers-Employers Cooperation and Education Trust; Hawai'i Construction Alliance; and Hawaii Laborers Union, Local 368. Your Committees received comments on this measure from the Department of Labor and Industrial Relations.

Your Committees find that in contrast to government-sponsored public works projects, where construction wages can be clearly verified through submission of certified payrolls, there is currently no mechanism to ensure that workers on government service contracts are also being paid correctly. This measure requires contractors to maintain and submit certified payrolls, which will help ensure that workers are paid the correct wages and receive adequate compensation for what can be hazardous and difficult work.

However, your Committees have heard and acknowledge the testimony of the Department of Labor and Industrial Relations, Department of Accounting and General Services, and Hawaii Laborers-Employers Cooperation and Education Trust expressing concerns regarding the implementation and enforcement of this measure and whether the overly broad language in this measure may have unintended consequences on certain other contracts. Amendments to this measure are therefore necessary.

Your Committees respectfully encourage the Department of Labor and Industrial Relations, Department of Accounting and General Services, Hawaii Laborers-Employers Cooperation and Education Trust to continue working together to further refine the language amending section 103-55, Hawaii Revised Statutes, and specifically address whether a weekly requirement to pay mechanics and laborers is an appropriate standard industry practice.

Your Committees have amended this measure by:

- Requiring a contractor or subcontractor to pay all mechanics and laborers employed on a job site the full amount of their wages and not less often than once a week;
- (2) Permitting the governmental contracting agency to withhold from the contractor so much accrued payments that are necessary to pay the difference between required wages and wages received to the mechanics and laborers;
- (3) Requiring the contractor to maintain payroll records for all laborers and mechanics and submit certified copies of payroll records every week to the governmental contracting agency for review;
- (4) Specifying penalties for contractors who fail to properly keep, provide information regarding, or submit payroll records; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Labor, Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 158, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 158, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Government Operations: Ayes, 4. Noes, none. Excused, 1 (Fevella). Labor, Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

# SCRep. 1463 Government Operations on H.B. No. 1381

The purpose and intent of this measure is to prohibit former legislators and executive branch employees subject to Senate confirmation from engaging in lobbying for twenty-four months after termination of employment as a legislator or executive branch employee.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commissions, League of Women Voters, and one individual.

Your Committee finds that it is in the public interest to minimize any influence by lobbyists over the State's elected officials and certain other government employees. Creating an element of durational separation between private employers and their hired lobbyists prior to any formal engagement with certain government employees would promote good governing. Accordingly, this measure promotes good government by prohibiting elected officials and executive branch employees subject to Senate confirmation from

representing other interests before the State and colleagues with whom they have served, for twenty-four months after termination of their respective positions.

Your Committee notes the concerns raised in testimony that this measure may impact the State's ability to recruit and maintain talented public servants. Your Committee believes strong post-employment restrictions maintain and improve the public's trust in state government but understands that these restrictions must also be balanced so as to not have an overly adverse effect on recruitment of public servants.

Your Committee has amended this measure by:

- (1) Reinstating the existing statutory twelve month period of restriction following the termination of a former legislator's employment;
- (2) Restricting former executive branch employees, who were employed in a position requiring Senate confirmation, from engaging in lobbying for twelve, rather than twenty-four, months after termination of employment;
- (3) Inserting an effective date of July 1, 2020; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1381, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1381, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 1464 Government Operations on H.B. No. 483

The purpose and intent of this measure is to extend the deadline for the Legislative Reference Bureau to complete its study of existing Title IX enforcement practices and procedures at the federal level and in other jurisdictions.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commissions, Hawai'i State Commission on the Status of Women, The Sex Abuse Treatment Center, American Association of University Women of Hawaii, Pride at Work Hawaii, Hawaii Women's Coalition, Planned Parenthood Votes Northwest and Hawaii, and four individuals. Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that Title IX of the Education Amendments of 1972 (Title IX), renamed the Patsy Mink Equal Opportunity in Education Act, prohibits discrimination on the basis of sex by any educational program or activity receiving federal funds. Your Committee also finds that Title IX has given millions of girls and women educational opportunities in the classroom and on playing fields; in research, teaching, and graduate schools; and in employment, medicine, law, and other professions.

However, your Committee recognizes that the efficacy of Title IX federal protections against sex discrimination in education has been diminished and eroded. For these reasons, in 2018 the legislature passed a corollary to Title IX in state law. Act 110, Session Laws of Hawaii 2018 (Act 110), prohibits discrimination on the basis of sex, including sexual orientation, gender identity, or gender expression, in any state educational program or activity, or in any educational program or activity that receives state financial assistance, without regard to whether the educational program or activity also receives federal funds. Act 110 also directs the Legislative Reference Bureau to conduct a study of existing federal Title IX procedures and enforcement, in addition to examining Title IX corollaries in other jurisdictions. The Legislative Reference Bureau was to submit its report in advance of the convening of the regular session of 2019. However, the study is still in progress.

Your Committee notes that Act 110 takes effect on January 1, 2020. However, given the recent dramatic changes to the federal Department of Education's Title IX guidance and potential changes to the Title IX regulation, your Committee finds that it is important to ensure that Act 110 is aligned with the same narrow gender-segregated activities as permitted in federal law that were in effect on January 1, 2019, specifically, the narrow exceptions applicable to same-sex dormitories and limited same-gender social clubs. Your Committee notes that the caveat regarding the effective date is necessary to ensure the existing minimum limitations in federal law are incorporated into Hawaii's corollary law, in the event the current federal administration changes the law to permit broader exceptions.

Accordingly, your Committee has amended this measure by:

- Amending Act 110, Session Laws of Hawaii 2018, to incorporate federal law regarding Title IX, which permits a narrow
  exception from Title IX for same-sex living facilities and membership practices of social fraternities, social sororities, and
  certain youth service organizations;
- (2) Changing its effective date to upon approval; provided that the amendments made to section 2 of Act 110, Session Laws of Hawaii 2018 shall take effect on January 1, 2020, to correspond with the effective date of Act 110; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 483, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 483, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 1465 Government Operations on H.B. No. 1146

The purpose and intent of this measure is to:

- (1) Require that past performance be considered in future bid selection of contractors for sole source contracts and any competitive sealed bid or proposal contracts that exceed the small purchase threshold; and
- (2) Require procurement officers to consider specific factors, including past performance, when making a determination of offeror responsibility.

Your Committee received testimony in support of this measure from the State Procurement Office and one individual. Your Committee received testimony in opposition to this measure from the Department of Accounting and General Services and Department of Design and Construction of the City and County of Honolulu. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that the procurement process is in need of clear legislative direction to award state contracts to responsible bidders or offerors through the state procurement process, increase accountability with performance on state contracts, and more efficiently utilize taxpayer dollars. Some state contracts may currently be awarded to the lowest bidder through the invitation for bid process without regard to poor past performance. Such bidders may be considered qualified despite poor performance on state, federal, or private contracts in the past, which may result in repeated inefficiencies and substandard work.

Your Committee has amended this measure by:

- (1) Establishing an initial procurement working group;
- (2) Inserting an appropriation of \$250,000, including \$50,000 for the development and implementation of a statewide past performance database and \$200,000 to outsource two full-time equivalent positions to assist with the implementation of this measure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that as this amended measure moves through the legislative process, it is your Committee's intent for part II to be effective upon approval, the appropriation in part III to take effect July 1, 2019, and part I to have a sunrise date, which will take effect only after the completion of work by the initial procurement working group established under part II.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1146, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1146, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1466 (Joint) Human Services and Housing on H.B. No. 257

The purpose and intent of this measure is to:

- (1) Authorize the use of private lands for the Ohana Zones pilot program;
- (2) Extend the ohana zones pilot program to June 30, 2022; and
- (3) Extend the emergency department homelessness assessment pilot program and the medical respite pilot program to June 30, 2020.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness, Department of Human Services, Department of Land and Natural Resources, Office of the Mayor of the County of Hawai'i, Hawaii Island HIV/AIDS Foundation, Hawaii Kai Homeless Task Force, The Queen's Health Systems, HOPE Services Hawai'i, Kona Alano Club, and four individuals. Your Committees received testimony in opposition to this measure from eight individuals. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that safe zones provide a housing alternative for homeless individuals and families. Your Committees further find that Act 209, Session Laws of Hawaii 2018 (Act 209), established an ohana zones pilot program to provide safe zones for the homeless population in the State. Ohana zones are designed to assist individuals and families experiencing homelessness find and transition into permanent housing and provide them with necessary services. This measure broadens the scope of the ohana zones pilot program by allowing for public-private partnerships on private land, thereby expediting the construction of appropriate housing for individuals and families experiencing homelessness.

Your Committees have amended this measure by:

- Requiring a written agreement between a state or county agency and private land owner rather than requiring a memorandum
  of understanding between a private land owner and a state or county agency to use private land as an ohana zone, and
  specifying the requirements of the written agreement;
- (2) Requiring that private lands have basic existing infrastructure prior to being used as an ohana zone;
- (3) Specifying that if the private land ceases to be used for an ohana zone or low-income housing before the end of the time specified in the written agreement, the state agency may move the structure off the private land to another location of its choosing;
- (4) Requiring the ohana zone pilot program to allow for off-the-grid infrastructure technologies that can provide drinking water, electricity, and process sewage without existing infrastructure;

- (5) Extending the deadline for the Department of Human Services to implement the ohana zones pilot project, including extending the sunset date of the project; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 257, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 257, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 4. Noes, none. Excused, 1 (Fevella). Housing: Ayes, 5. Noes, none. Excused, none.

#### SCRep. 1467 Human Services on H.B. No. 1554

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Human Services.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness, Department of Human Services, Department of Transportation, Department of Land and Natural Resources, Catholic Charities Hawai'i, Roman Catholic Church in the State of Hawaii, HOPE Services Hawai'i, Hawaii Kai Homeless Task Force, Partners in Care, and one individual. Your Committee received comments on this measure from the Hawai'i Primary Care Association.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Human Services in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee notes that S.B. No. 474, S.D. 2 (Regular Session of 2019), which was previously passed by the Senate, and S.B. No. 474, S.D. 1 (Regular Session of 2019), which was previously passed by your Committee, are similar measures appropriating and authorizing funds for various operating expenses of the Department of Human Services. Your Committee concludes that the line items in S.B. No. 474, S.D. 2, and the appropriation amounts in S.B. No. 474, S.D. 1, are preferable because they best reflect the current needs of the Department of Human Services.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its line items and replacing them with the line items contained in S.B. No. 474, S.D. 2;
- (2) Inserting the appropriation amounts from S.B. No. 474, S.D. 1 for the line items contained in S.B. No. 474, S.D. 2;
- (3) Including an appropriation in the amount of \$5,000,000 in general funds for stored property and debris removal services for state lands (HMS224);
- (4) Including an appropriation for the Hawaii Public Housing Authority's operating budget (HMS222);
- (5) Consolidating the appropriations for the in-community youth programs (HMS501);
- (6) Including an appropriation to fund five existing permanent social worker positions, which is a trade-off from the elimination of three permanent youth correction officer positions and transferring personal services funds (HMS503);
- (7) Restoring the vocational rehabilitation fringe benefits;
- (8) Removing the appropriation to fund the Commission on the Status of Women (HMS888);
- (9) Including a capital improvement project appropriation for the Hawaii youth correctional facility (HMS503);
- (10) Including an appropriation for Ho'opono flood zone remediation (HMS802);
- (11) Converting the public information officer position from a temporary position to a permanent position; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee's intent in recommending this amended measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1554, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1554, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 1468 Government Operations on H.B. No. 889

The purpose and intent of this measure is to establish the Office of Public-Private Partnership to help the State and the counties undertake certain capital improvement projects in a more efficient and cost-effective manner by allowing more innovative project delivery methods.

Your Committee received testimony in support of this measure from the Department of Transportation; State Procurement Office; Office of Planning; Hawaii State Public Library System; and Building Industry Association of Hawaii. Your Committee received testimony in opposition to this measure from the United Public Workers, AFSCME, Local 646, AFL-CIO and two individuals. Your Committee received comments on this measure from the Chamber of Commerce Hawaii; Hawaii Government Employees Association, AFSCME, Local 152, AFL-CIO; and American Institute of Architects.

Your Committee finds that Hawaii is faced with limited, if not declining, government funding. This trend is expected to continue, increasing the importance of leveraging limited governmental resources and partnering with the private sector.

Your Committee also finds that in a public-private partnership project, the public agency retains ownership and substantial control of the project, but transfers certain responsibilities to the private partner. The aim of a public-private partnership is to provide the best value and performance in the delivery of assets and services for the benefit of the general public. This measure establishes the Office of Public-Private Partnership and the position of the Public-Private Partnership Coordinator, thereby encouraging more cost effective undertakings of capital improvement projects.

Your Committee has amended this measure by:

- (1) Establishing an internal public-private partnership working group within the Department of Accounting and General Services, instead of an Office of Public-Private Partnership;
- (2) Requiring the working group to submit an annual report to the Legislature, prior to the convenings of the Regular Sessions of 2020, 2021, 2022, 2023, 2024, and 2025;
- (3) Clarifying that the appropriation in this measure includes converting a vacant position in the Public Works Division to be the Public-Private Partnerships Coordinator;
- (4) Inserting a sunset date of January 1, 2025, for the public-private partnership working group; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 889, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 889, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1469 (Joint) Government Operations and Labor, Culture and the Arts on H.B. No. 999

The purpose and intent of this measure is to:

- (1) Permanently exempt from the State's civil service laws certain government positions;
- (2) Temporarily exempt from civil service certain positions in the Med-QUEST Division and the Director's office of the Department of Human Services.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness, Department of Human Services, Hawai'i Health & Harm Reduction Center, Early Childhood Action Strategy, Catholic Charities Hawai'i, and Partners in Care. Your Committees received testimony in opposition to this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committees find that the Department of Human Services has one of the largest operating budgets of any state department and an equally large staff. Your Committees also find that the complexity and magnitude of benefits and services that the Department of Human Services is responsible for delivering to state residents requires the ability to attract and retain qualified, experienced, and innovative individuals with the requisite subject matter expertise to transform the Department into an efficient and performance based entity. The positions exempted by this measure are required to effectively lead and manage the Department of Human Services' programs, improve access to services and quality of services, improve the working conditions at the Department, establish and maintain clear communication, and establish collaborative relationships with numerous departments, agencies, and interested stakeholders.

Your Committees further find that the Governor's Coordinator on Homelessness is a temporary position that was first established in 2011 in the Director of Human Services' Office. The Coordinator serves as the Chair of the Hawaii Interagency Council on Homelessness and has worked alongside the Governor, his cabinet, and the Council to adopt a comprehensive framework and strategic plan to address homelessness. This measure recognizes the necessity of a statewide homeless coordinator who can address the complex issues of homelessness by codifying the position of the Governor's Coordinator on Homelessness in statute.

Your Committees note that, with the exception of the Executive Director of the State Commission on Fatherhood, the positions in this measure are either already established and filled or in the process of being filled. As this measure moves through the legislative process, your Committees note that the effective date of this measure should be upon approval, so as not to jeopardize the employees in these positions.

Your Committees have amended this measure by:

- (1) Removing language that would have permitted the State Commission on Fatherhood to appoint an Executive Director; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Labor, Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 999, H.D. 1, as amended herein,

and recommend that it pass Second Reading in the form attached hereto as H.B. No. 999, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 4; Ayes with Reservations (Inouye). Noes, none. Excused, 1 (Fevella).

Labor, Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

#### SCRep. 1470 (Joint) Hawaiian Affairs and Higher Education on H.B. No. 402

The purpose and intent of this measure is to serve as an interim measure to:

- Establish the Office of Hawaiian Affairs' annual pro rata share of the public land trust beginning with the 2019-2020 fiscal year;
- (2) Determine the amounts received from the use of the public land trust that were underpaid to the Office of Hawaiian Affairs between July 1, 2012, and June 30, 2019, and appropriate that amount, less the funds in the carry-forward trust holding account, to the Office of Hawaiian Affairs;
- (3) Require the Director of Finance to:
  - (A) Determine the amount of receipts transferred by any agency that collects public land trust receipts to the Office of Hawaiian Affairs; and
  - (B) Determine whether the amount transferred to the Office of Hawaiian Affairs is less than or more than a certain amount and address deficiencies with transfers from the carry-forward trust holding account and address overpayments by directing the Office of Hawaiian Affairs to transfer excess amounts to the carry-forward trust holding account; and
- (4) Require the Department of Land and Natural Resources to conduct an annual accounting of all funds derived from receipts from lands described in section 5(f) of the Admission Act.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs; one member of the Maui County Council; Ka Lāhui Hawaii Political Action Committee; Kanaeokana, the Kula Hawai'i Network; Hawai'i Alliance for Progressive Action; Ka Lei Pāpahi 'o Kākuhihewa; Republican Party of Hawaii; Hawaiian Community Assets; Sierra Club of Hawai'i; Kamehameha Schools; Waimea Hawaiian Civil Club; Democratic Party of Hawai'; Ke One O Kākuhihewa, O'ahu Council of the Association of Hawaiian Civic Clubs; Lahaina Hawaiian Civic Club; Pueo Consulting, LLC; Native Hawaiian Chamber of Commerce; We Are One, Inc.; Council for Native Hawaiian Advancement; Association of Hawaiian Civic Clubs; La'i Ōpua 2020; Hawai'i Alliance for Community-Based Economic Development; Pride at Work Hawaii; Ali'i Pauahi Hawaiian Civic Club; Hanalei Hawaiian Civic Club; LGBT Caucus of the Democratic Party of Hawaii; Prince Kūhio Hawaiian Civic Club; Trilogy Corporation; the Governing Board of Ke Kula 'O Nāwahīokalaniōpu'u Iki Laboratory Public Charter School; Hawaii Investment Ready; 'Aha Pūnana Leo; Kua'āina Ulu 'Auamo; and thirty-six individuals. Your Committees received testimony in opposition to this measure from the University of Hawai'i System and Center for Hawaiian Sovereignty Studies. Your Committees received comments on this measure from the Department of Budget and Finance, Department of the Attorney General, Department of Transportation, Department of Agriculture, Department of Land and Natural Resources, and Hawaii Health Systems Corporation.

Your Committees find that there is a constitutional obligation for the State to provide a sufficient sum of income and proceeds as the pro rata share of the public land trust for the betterment of the conditions of native Hawaiians. In 2006, Act 178, Session Laws of Hawaii 2006 (Act 178), put in place annual payments of \$15,100,000 from the pro rata portion of the public land trust to the Office of Hawaiian Affairs in acknowledgment of the State's constitutional obligation. However, Act 178 was passed with the intention that it would be an interim measure until the Legislature could further assess the complexities of the issue, including in part gathering information on revenue-generating public trust lands and amounts derived from those lands. Your Committees find that since Act 178 was passed, the Legislature has received additional information from the departments and the Office of Hawaiian Affairs on the annual amounts derived from the public land trust and it is in the interests of the Office of Hawaiian Affairs, its beneficiaries, and the State to use that information to enact an updated interim legislative measure regarding the Office of Hawaiian Affairs' constitutional pro rata share of the public lands trust.

Your Committees have heard the testimony of the Department of the Attorney General expressing concerns that the total gross receipts amount in this measure may be over inclusive. Your Committees also heard Office of Hawaiian Affairs' testimony responding to concerns about the gross receipts as well as on the State's reliance on Act 304, Session Laws of Hawaii 1990 (Act 304). According to the Office of Hawaiian Affairs' testimony, agency calculations have always been made on the gross amount received by the agency and was included in Act 304, and Act 304 included a pro rata share of airport revenues. Your Committees also note that the Office of Hawaiian Affairs stated that the only receipts used to calculate the amount in previous versions of this measure were undisputed revenue streams and were calculated using the definition of revenue in Act 304.

Your Committees request that your Committee on Ways and Means further examine the composition of the total gross receipts amount. Your Committees further request your Committee on Ways and Means consider the viability of making annual payments to the Office of Hawaiian Affairs of all amounts in the carry-forward trust holding account at the end of each fiscal year.

Your Committees have amended this measure by:

- Reducing the University of Hawaii's portion of receipts from the use, sale, lease, or other disposition of lands within the public land trust to be collected during each fiscal year by the amount equal to the University's receipts derived from tuition and special funds utilized for native Hawaiian programs;
- (2) Requiring that the annual accounting of all receipts from lands described in section 5(f) of the Admission Act for the prior fiscal year to be completed by the Department of Budget and Finance, rather than the Department of Land and Natural Resources:

- (3) Establishing the public land trust revenues committee within the Department of Budget and Finance to study and make recommendations regarding the annual amount of the income and proceeds from the public land trust to be allocated to the Office of Hawaiian Affairs;
- (4) Prohibiting any additional funds from being provided to the Office of Hawaiian Affairs until the fiscal and performance audit approved by the Board of Trustees of the Office of Hawaiian Affairs in 2017 is completed and provided to the Legislature;
- (5) Effectuating the intent of this measure to supersede Act 178, Session Laws of Hawaii 2006, by repealing Act 178; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 402, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 402, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair and Vice President on behalf of the Committees. Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella). Higher Education: Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

# SCRep. 1471 Housing on H.B. No. 699

The purpose and intent of this measure is to authorize the Hawaii Public Housing Authority to evict a tenant convicted of a misdemeanor or felony committed during the term of the tenancy for an act relating to the Hawaii Public Housing Authority's property, administrative offices, employees, employees' property or vehicles, or funds.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority. Your Committee received testimony in opposition to this measure from the Hawaii Kai Homeless Task Force, Drug Policy Forum of Hawai'i, Americans for Democratic Action Hawai'i, Hawai'i Health and Harm Reduction Center, and one individual.

Your Committee finds that the Hawaii Public Housing Authority's administrative offices, employees, and their vehicles are sometimes threatened, assaulted, or vandalized by public housing tenants. When a tenant commits a misdemeanor or felony related to the Hawaii Public Housing Authority's property or funds, they abuse their privilege as a tenant, undermine the safety of law-abiding public housing tenants, and take away housing opportunities from other law-abiding families of the State's most disadvantaged populations. This measure will maintain the safety of law-abiding tenants of public housing and protect the employees and properties of the Hawaii Housing Public Authority.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2075, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes the concerns of individuals that evicting a tenant for a misdemeanor offense is a severe punishment and may have unintended consequences, such as making tenants homeless, and encourages further discussion regarding these concerns.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 699, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 699, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Fevella).

#### SCRep. 1472 Housing on H.B. No. 1312

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds into and out of the rental housing revolving fund.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Hawai'i Association of REALTORS, Hawaii Kai Homeless Task Force, Partners in Care Oahu's Continuum of Care, Faith Action for Community Equity, Hawai'i Health and Harm Reduction Center, Catholic Charities Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, HOPE Services Hawaii, ALEA Bridge, and seven individuals.

Your Committee finds that the State does not have a sufficient supply of affordable housing and rental units to accommodate the residents of the State. According to the Department of Business, Economic Development, and Tourism, the State requires roughly 66,000 housing units by 2025 to meet long-term demand. Your Committee notes that of the 66,000, at least 44,000 units are required by residents making 80 percent or less of the area median income, which is roughly \$96,000 for a family of four. Your Committee further finds that the State requires a consistent and ongoing infusion of funds into the rental housing revolving fund to help those most in need of housing assistance in the State. This measure will create the steady stream of funding necessary to develop affordable rental units, thereby addressing the lack of affordable rental units for residents of the State.

Your Committee has amended this measure by:

- (1) Requiring that a blank amount of the funds appropriated out of the rental housing revolving fund be expended to establish permanent supportive housing for chronically homeless individuals; and
- (2) Updating the purpose section to reflect its amended contents.

Your Committee recommends that your Committee on Ways and Means consider a general obligation bond issuance and appropriation amount of \$400,000,000 to be deposited into the rental housing revolving fund. Your Committee notes that Catholic Charities Hawai'i requests \$75,000,000 of the sums appropriated to be allocated to the establishment of permanent supportive housing units for chronically homeless individuals.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1312, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1312, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1473 Housing on H.B. No. 477

The purpose and intent of this measure is to establish the homeownership housing revolving fund to provide loans to nonprofit community development financial institutions and nonprofit housing development organizations to develop affordable homeownership housing projects under a self-help housing program in the State.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Hawaii Habitat for Humanity Association; Habitat for Humanity Hawaii Island, Inc.; Kauai Habitat for Humanity, Inc.; Hawaii Island HIV/AIDS Foundation; Hawaiian Community Assets; Building Industry Association Hawaii; Partners in Housing; Chamber of Commerce Hawaii; and five individuals. Your Committee received comments on this measure from the Hawaii HomeOwnership Center Housing and Land Trust.

Your Committee finds that the high cost of living coupled with the high cost of housing in the State have resulted in Hawaii having one of the lowest homeownership rates in the nation. The low rate of homeownership in the State is partially due to the lack of construction and development of affordable for-sale housing units. Your Committee further finds that the self-help housing model is a cost-effective means of assisting low-income families to become homeowners. Self-help housing organizations utilize federal funding, supplemented by the recipient's own labor, to build an affordable housing unit for a family who would otherwise not be able to afford to purchase a home.

Your Committee additionally finds that qualified nonprofit housing trusts are another tool to help families by reducing housing costs significantly for income-qualified families. These nonprofit housing entities often utilize grants and other low-cost means of financing that require matching funds to acquire or development housing units. Your Committee notes that Senate Bill No. 878, S.D. 1 (Regular Session of 2019), which was previously heard and passed by your Committee, creates the foundation to assist residents of Hawaii to become homeowners by establishing a qualified nonprofit housing trust program.

Accordingly, your Committee has amended this measure by:

- (1) Inserting certain provisions from Senate Bill No. 878, S.D. 1, that:
  - (A) Establish a qualified nonprofit housing trust revolving fund and a qualified housing trust program for affordable for-sale housing development; and
  - (B) Appropriate funds into and out of the qualified nonprofit housing trust revolving fund; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that although the appropriation amounts for loans to nonprofit community development financial institutions or nonprofit organizations operating a self-help housing program are blank, the Hawaii Habitat for Humanity Association requests an appropriation of \$25,000,000 to establish the homeownership housing revolving fund to provide these loans.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 477, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 477, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1474 Housing on H.B. No. 1142

The purpose and intent of this measure is to amend the Hula Mae Multifamily revenue bond authorization amount.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and Hawaii Association of REALTORS.

Your Committee finds that the housing loan and mortgage program, more commonly known as the Hula Mae multifamily bond program or Hula Mae program, promotes the development of new rental housing projects or the acquisition and rehabilitation of existing rental housing projects through the issuance of mortgage revenue bonds for interim and permanent financing at rates below conventional market interest rates. The Hula Mae program has become a popular financing tool for nonprofit and for-profit developers of affordable rental housing and is intended to make home buying more affordable for qualified families by offering eligible first-time homebuyers mortgage loans at very competitive interest rates. The program also assists eligible first-time homebuyers with downpayment assistance, the largest obstacle for many residents hoping to purchase a home. This measure increases the opportunities for residents of the State to become homeowners by increasing the Hula Mae multifamily revenue bond authorization amount.

Your Committee has amended this measure by:

(1) Inserting an effective date of July 1, 2075, to encourage further discussion; and

(2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that during the hearing, the Hawaii Housing Finance and Development Corporation stated that an increased bond authorization amount of \$2.5 billion would be sufficient for future projects.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1142, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1142, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1475 Housing on H.B. No. 1373

The purpose and intent of this measure is to appropriate or authorize funds for programs and positions of the Hawaii Public Housing Authority.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness and Hawaii Public Housing Authority.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs of the Hawaii Public Housing Authority to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by:

- (1) Inserting language to appropriate or authorize funds from various sources for specific programs, positions, and fringe benefits, as recommended by the Hawaii Public Housing Authority; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1373, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1373, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 1476 Housing on H.B. No. 1408

The purpose and intent of this measure is to appropriate or authorize funds for programs of the Hawaii Housing Finance and Development Corporation.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that this measure expresses adjustments to the programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs of the Hawaii Housing Finance and Development Corporation to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee further finds that there is a great need to increase the supply of affordable housing in Hawaii and that under existing law, there is no office to monitor, comment on, and advocate for the State's production of affordable housing. Your Committee believes that the dwelling unit revolving fund, under the administration of the Hawaii Housing Finance and Development Corporation, is an appropriate means of financing an office to advocate for solutions to the State's housing crisis.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language suggested by the Hawaii Housing Finance and Development Corporation, which:
  - (A) Changes the number of permanent full-time equivalent and temporary full-time equivalent positions to be transferred from housing administration to housing development;
  - (B) Transfers one full-time equivalent permanent and one full-time equivalent temporary position from housing development to housing administration; and
  - (C) Transfers one full-time equivalent permanent position from housing finance to housing administration;
- (2) Establishing the Office of the Housing Advocate within the Office of the Governor, to be funded by the dwelling unit revolving fund, to advocate for solutions to the State's housing shortage; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating all of the Corporation's budget items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1408, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1408, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1477 Housing on H.B. No. 818

The purpose and intent of this measure is to require all developers of affordable housing projects developed in a community development district pursuant to section 201H-38, Hawaii Revised Statutes, to consult with the Hawaii Community Development Authority.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that there is no formal entitlement process for affordable housing projects developed pursuant to section 201H-38, Hawaii Revised Statutes, and located in a community development district. Your Committee further finds that the construction, renovation, and improvement of county or state agency projects within a community development district are subject to formal consultation with the Hawaii Community Development Authority. This measure will allow the Hawaii Housing Finance and Development Corporation and Hawaii Community Development Authority to work collaboratively toward a consistent community plan within a community development district, thereby improving affordable housing projects.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 818, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 818, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1478 Education on H.B. No. 1525

The purpose and intent of this measure is to appropriate or authorize funds for programs of the Hawaii State Public Library System for the 2019-2021 fiscal biennium.

Your Committee received testimony in support of this measure from the Hawaii State Public Library System, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs of the Hawaii State Public Library System to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by:

- (1) Deleting the program appropriations and inserting the program appropriations related to the Hawaii State Public Library System (EDN407) from S.B. No. 37, S.D. 1 (Regular Session 2019); and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1525, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1525, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

# SCRep. 1479 Education on H.B. No. 1526

The purpose and intent of this measure is to appropriate or authorize funds for programs of the State Public Charter School Commission for the 2019-2021 fiscal biennium.

Your Committee received testimony in support of this measure from the State Public Charter School Commission, Office of Hawaiian Affairs, Kamehameha Schools, Hawaii Technology Academy, and Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs of the State Public Charter School Commission to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by:

- (1) Deleting the program appropriations and inserting the program appropriations related to the State Public Charter School Commission (EDN600 and EDN612) from S.B. No. 1447, S.D. 1 (Regular Session 2019); and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1526, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1526, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

#### SCRep. 1480 Education on H.B. No. 1527

The purpose and intent of this measure is to appropriate or authorize funds for programs of the Executive Office on Early Learning for the 2019-2021 fiscal biennium.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning, Early Learning Board, Kamehameha Schools, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs of the Executive Office on Early Learning to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by:

- Deleting the program appropriations and inserting the program appropriations related to Early Learning (EDN700) from S.B. No. 90, S.D. 2 (Regular Session 2019); and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1527, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1527, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

# SCRep. 1481 Education on H.B. No. 1524

The purpose and intent of this measure is to appropriate or authorize funds for programs of the Department of Education for the 2019-2021 fiscal biennium.

Your Committee received testimony in support of this measure from the Department of Education, HE'E Coalition, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs of the Department of Education to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by:

- Deleting the program appropriations and inserting the program appropriations related to the Department of Education (EDN100, EDN150, EDN200, EDN300, EDN400, EDN500, and EDN700) from S.B. No. 90, S.D. 2 (Regular Session 2019);
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1524, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1524, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

# SCRep. 1482 Energy, Economic Development, and Tourism on H.B. No. 911

The purpose and intent of this measure is to:

- Establish the convention center repair and maintenance special fund and convention center emergency special fund, allocate a
  portion of transient accommodations tax revenues to both funds for certain fiscal years, and require annual reports to the
  Legislature regarding expenditures from both funds;
- (2) Amend permissible uses of the convention center enterprise special fund; and
- (3) Delete repair and maintenance as permissible uses of the convention center enterprise special fund.

Your Committee received testimony in support of this measure from the Hawai'i Tourism Authority. Your Committee received comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committee finds that Hawaii is vulnerable to a wide variety of natural disasters, which was underscored this past year as the State experienced serious property damage from major flooding and the eruption of Kilauea on the island of Hawaii. Your Committee further finds that the State is responsible for ensuring the safety of residents and visitors of the State, a substantial responsibility as the State hosts up to 220,000 visitors a day, in addition to roughly one million residents.

Your Committee also finds that the Hawaii Convention Center serves as the emergency operations center for the Hawaii Tourism Authority to address and direct the tourism industry during statewide emergencies. The Hawaii Convention Center can serve as a valuable resource during a natural disaster or other emergencies for the State. Your Committee believes that to better utilize the Hawaii Convention Center for multiple purposes, additional funds must be made available to ensure that the convention center is properly maintained and can be used to its full potential.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2100, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 911, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 911, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

# SCRep. 1483 Energy, Economic Development, and Tourism on H.B. No. 908

The purpose and intent of this measure is to:

- (1) Allocate funds from transient accommodations tax revenues to the Hawaii Tourism Authority to implement initiatives, in conjunction with the Hawaii Lodging and Tourism Association, to address homelessness in tourist and resort areas; and
- (2) Require the Hawaii Tourism Authority to report to the Legislature on the status of initiatives to address homelessness in tourist and resort areas.

Your Committee received testimony in support of this measure from the Hawai'i Tourism Authority, Hawai'i Lodging and Tourism Association, Kohala Coast Resort Association, Maui Hotel and Lodging Association, and one individual. Your Committee received testimony in opposition to this measure from seven individuals. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that homelessness remains one of the most pressing issues of the State. Homelessness is particularly acute in Waikiki and other tourist and resort areas and is prevalent throughout popular public parks, beaches, and facilities frequently used by residents and visitors of the State. This has a direct impact on visitors' experience in the State and is a source of frustration for residents. Your Committee believes that addressing tourist and resort areas that are affected by homelessness will not only assist the homeless community by providing them with improved living situations, but will simultaneously improve areas that are frequently visited by tourists and residents, thereby improving the overall quality of life for everyone in Hawaii.

Your Committee notes that the Hawaii Lodging and Tourism Association stated in its testimony that the hospitality industry, through its association and member hotels and businesses, has contributed over \$2,500,000 during the last five years to social service agencies for homelessness outreach and services. Your Committee requests as this measure moves forward that the Hawaii Lodging and Tourism Association provide to your Committee on Energy, Economic Development, and Tourism and your Committee on Ways and Means a copy of a list of providers that are rendering services targeted toward addressing homelessness, the services being provided, and the cost of those services.

Your Committee has amended this measure by:

- (1) Requiring that the Hawaii Tourism Authority work in conjunction with the Governor's Coordinator on Homelessness, in addition to the Hawaii Lodging and Tourism Association, to address homelessness in tourist and resort areas; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 908, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 908, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

#### SCRep. 1484 (Joint) Energy, Economic Development, and Tourism and Public Safety, Intergovernmental, and Military Affairs on H.B. No. 419

The purpose and intent of this measure is to:

- (1) Provide that a county shall be eligible to receive an allocation of transient accommodations tax revenues from the State for the purpose of enforcing all applicable laws and ordinances relating to transient accommodations, provided that no funds shall be released to a county until it has satisfactorily complied with certain specified conditions; and
- (2) Require reports from counties receiving funds for enforcement of transient accommodations and short-term vacation rentals ordinances.

Your Committees received testimony in support of this measure from the Department of Planning of the County of Kaua'i, Kohala Coast Resort Association, and Maui Hotel & Lodging Association. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Prior to decision making on this measure, your Committees made available for public review a proposed S.D. 1, which retains the contents of this measure and inserts additional provisions that:

- (1) Amend the definition of "transient accommodations" to include additional forms of transient accommodations;
- (2) Make it unlawful for a hosting platform to provide, and collect a fee for, booking services regarding transient accommodations if the operator or plan manager is not registered with the Director of Taxation;
- (3) Amend requirements relating to transient accommodations tax certificates of registration to ensure greater transparency; and
- (4) Allow a transient accommodations broker to register as a general excise and transient accommodations tax collection agent for its operators and plan managers.

Your Committees received testimony in support of the proposed S.D. 1 from the Department of Planning and Permitting of the City and County of Honolulu, American Hotel & Lodging Association, Hawai'i Lodging & Tourism Association, and Marriott International. Your Committees received testimony in opposition to this measure from Airbnb. Your Committees received comments on this measure from the Department of the Attorney General, Department of Taxation, Department of Budget and Finance, and Expedia Group.

Your Committees find that the proposed S.D. 1 improves enforcement of land use regulations relating to transient accommodations, while facilitating the collection of tax revenue from transient accommodations, which will improve transparency, enforcement, and accountability in the transient accommodations industry while preserving the quality of life for Hawaii's residents and visitors.

Your Committees have amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Changing references to "special use permits" in section 1 to refer instead to zoning permits issued pursuant to the respective county zoning ordinances;
- 2) Amending the quarterly data reporting requirement for transient accommodations brokers, hosting platforms, and booking services in section 237D-4, Hawaii Revised Statutes, as follows:
  - (A) Changing its statutory placement to chapter 201, Hawaii Revised Statutes, to reflect the submission of the reports to the Department of Business, Economic Development, and Tourism;
  - (B) Specifying that the data reported shall include the number of nights stayed per booking; and
  - (C) Removing the provision that would have subjected an entity in non-compliance with the reporting requirement to a citation process;
- (3) Changing the defective date to January 1, 2020; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 419, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 419, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Harimoto).

#### SCRep. 1485 Education on H.B. No. 407

The purpose and intent of this measure is to grant the Board of Education the authority to appoint and approve termination of complex area superintendents for schools.

Your Committee received testimony in opposition to this measure from the Board of Education.

Your Committee finds that increased community input is valuable and necessary in helping to reshape public education in Hawaii. This measure grants the Board of Education, rather than the Superintendent of Education, the authority to appoint and approve termination of complex area superintendents for schools. Your Committee, however, notes the testimony from the Board of Education expressing concern that the Superintendent of Education relies on an expansive tri-level group of Department leaders, which includes complex area superintendents. Without the flexibility to hire or terminate the crucial members of the Superintendent's leadership team,

the Superintendent's responsibilities to meet annual priorities and advance public education in Hawaii becomes increasingly challenging. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Reinstating language that grants the Superintendent of Education the authority to appoint complex area superintendents for schools;
- (2) Updating the purpose section; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 407, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 407, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Fevella).

#### SCRep. 1486 Education on H.B. No. 413

The purpose and intent of this measure is to:

- (1) Establish the education innovation grants program within the Department of Education to support school-level innovation;
- (2) Establish the education innovation grants special fund;
- (3) Authorize the Board of Education to administer the education innovation grants program and special fund; and
- (4) Appropriate funds for the education innovation grants program.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, and Democratic Party of Hawai'i Education Caucus. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that there is a public benefit from school-level innovation, beginning with the development of exemplary leadership and elevation of the teaching profession. This exemplary leadership will reflect school-level and community-based input and recognize visionary educational practices. Teachers will be empowered to adopt educational practices that support global learner outcomes based upon individual assessments rather than standardized testing. This measure encourages innovation in Department of Education schools that support global learner outcomes and recognize cultural context.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 413, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 413, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Fevella).

# SCRep. 1487 Education on H.B. No. 1276

The purpose and intent of this measure is to:

- (1) Beginning with school year 2019-2020, require the Department of Education to establish and implement a four-year pilot program within one complex area to address teacher preparation, classroom operations, and the rotation of principals amongst various school levels within the complex area;
- (2) Authorize best practices for the pilot program; and
- (3) Appropriate funds for the pilot program.

Your Committee received comments on this measure from the Department of Education, Hawaii State Teachers Association, and Democratic Party of Hawai'i Education Caucus.

Your Committee finds that improving Hawaii's schools begins by setting a goal and having a vision. Some initiatives, such as the Massachusetts Expanded Learning Time, have improved academic outcomes for schools by providing increased opportunities for teachers to have time for collaborative planning and professional development. This measure provides educational stakeholders the opportunity to come together to explore the best practices for a collaborative planning and expanded learning time initiative in the State.

Your Committee has amended this measure by:

- (1) Establishing a working group to consider and develop best practices for collaborative planning and expanded learning time in public schools, rather than requiring the Department of Education to establish a pilot program;
- (2) Specifying that the administrative responsibilities of the working group shall be under the Department of Education;
- (3) Deleting language that would have appropriated funds to establish and implement a pilot program within one Department of Education complex area; and

(4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1276, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1276, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Fevella).

### SCRep. 1488 (Joint) Energy, Economic Development, and Tourism and Water and Land on H.B. No. 548

The purpose and intent of this measure is to allocate funds from transient accommodations tax revenues directly to the Hawaii Tourism Authority, rather than through the special land and development fund, in order to improve certain state facilities in accordance with the Authority's strategic plan.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and Hawai'i Tourism Authority. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that Hawaii continues to be one of the top destinations for vacationers. In 2017, the State received 9,404,346 visitors. That number is projected to increase to approximately 10,130,000 in 2019. As the number of visitors continues to grow, more strain is put on the State's facilities and natural resources, such as state parks, trails, small boat harbor facilities, and other natural areas that are operated and maintained by state agencies. Your Committees believe that given the continued growth of visitors, more investment is needed in Hawaii's natural resources and environment.

Your Committees received testimony from the Department of Land and Natural Resources indicating that the Department has been increasing its collaboration and communication with the Hawaii Tourism Authority regarding the Authority's promotion of state parks, hiking trails, and beaches and the various impacts associated with tourism and that the agencies mutually concur that emphasis should be directed to quality of experience in a manner that reduces impacts.

The Department of Land and Natural Resources also indicated in its testimony that it does not support the provision in this measure that places the transient accommodations tax revenues under the purview of the Hawaii Tourism Authority and prefers instead a direct allocation of funds to its divisions and programs as a component of their base operating budget. Your Committees agree that a direct allocation would be more efficient and find that amendments to this measure are necessary to effectuate that intent.

Your Committees have amended this measure by:

- (1) Deleting the direct allocation of transient accommodations tax revenues to the Hawaii Tourism Authority; inserting a blank amount to be allocated as follows: fifty-five percent to the state parks special fund, thirty percent to the Na Ala Hele statewide trail and access program, and fifteen percent to the beach restoration special fund, and making conforming amendments; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 548, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 548, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

# SCRep. 1489 (Joint) Energy, Economic Development, and Tourism and Water and Land on H.B. No. 588

The purpose and intent of this measure is to require and appropriate funds for the State Sustainability Coordinator to complete a holistic and comprehensive study and plan for green infrastructure opportunities in the State.

Your Committees received testimony in support of this measure from the Office of Planning, Healthy Climate Communities, U.S. Green Building Council, Hawaii Advocates for Consumer Rights, and one individual.

Your Committees find that green infrastructure is an approach to managing weather impacts that also delivers environmental, social, climate, and economic benefits. Green infrastructure planning aims to create a strategic network of natural and semi-natural areas that protect and maintain ecosystems in urban and rural areas. Importantly, green infrastructure can also be the basis of a smart growth approach to development that cost effectively protects natural areas while creating more sustainable communities. Currently, there is no defined system to determine the most effective use of green infrastructure in Hawaii.

Your Committees also find that a holistic and comprehensive green infrastructure study and plan will be of great benefit to the State and its environment. This measure will have the State Sustainability Coordinator of the Office of Planning undertake and coordinate activities relating to green infrastructure planning and development and work with various stakeholders and the public to further the State's sustainability goals.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 588, H.D. 1, and recommend that it pass Second Reading and be referred to your Committees on Housing and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Taniguchi).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 1490 (Joint) Energy, Economic Development, and Tourism and Water and Land on H.B. No. 1558

The purpose and intent of this measure is to require the Office of Planning to update the Hawaii 2050 Sustainability Plan and submit the updated plan to the Legislature prior to the Regular Session of 2021 and every tenth session thereafter, using the goals and priority guidelines of the Hawaii State Plan and the Hawaii Climate Change Mitigation and Adaptation Initiative as guiding principles.

Your Committees received testimony in support of this measure from the Office of the Auditor, Office of Planning, U.S. Green Building Council, Hawaii Farm Bureau, Hawai'i Public Health Association, Hawaii Advocates for Consumer Rights, Ulupono Initiative, and four individuals.

Your Committees find that climate change is the overriding challenge of the twenty-first century and one of the priority issues of the Legislature. Climate change poses immediate and long-term threats to the State's economy, sustainability, security, and way of life.

Your Committees find that the Hawaii 2050 Sustainability Task Force and Hawaii 2050 Sustainability Plan were created to coordinate the actions needed to sustain a growing and vibrant economy, while maintaining a high quality of life for all residents and visitors

A ten-year measurement update of the Hawaii 2050 Sustainability Plan (2008-2017) was published in March 2018 by the Office of Planning for the Office of the Auditor, which evaluated the metrics and indicators established in the Hawaii 2050 Sustainability Plan. This measure requires the Office of Planning to formally update the Hawaii 2050 Sustainability Plan every ten years, thereby furthering the State's sustainability goals and ensuring the quality of life in Hawaii.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1558, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1558, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Taniguchi).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1491 (Joint) Energy, Economic Development, and Tourism and Transportation on H.B. No. 1585

The purpose and intent of this measure is to:

- (1) Create a program within the Department of Business, Economic Development, and Tourism that offers rebates for the installation of new electric vehicle charging systems or the upgrade of existing electric vehicle charging systems;
- (2) Create the electric vehicle charging system rebate program special fund; and
- (3) Amend the uses for which funds from the energy security special fund may be used.

Your Committees received testimony in support of this measure from the Blue Planet Foundation; Hawaiian Electric Companies; Alliance of Automobile Manufacturers; Retail Merchants of Hawaii; Tesla; ABC Stores; Organizing for Action; Building Industry Association of Hawaii; 350 Hawaii; Ulupono Initiative; Hawaii Automobile Dealers' Association; We Are One, Inc.; and ten individuals. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Budget and Finance; Tax Foundation of Hawaii; and Chamber of Commerce Hawaii.

Your Committees find that more than two-thirds of the fossil fuel imported into the State is used for transportation. Therefore, your Committees find that the State must accelerate the transition to cleaner transportation to reach its carbon emissions reduction goals. The lack of electric vehicle charging systems remains a barrier to the more widespread adoption of electric vehicles. Creating incentives to build out a more robust electric vehicle infrastructure will make electric vehicles a viable option for more consumers, especially those who may not have a rooftop solar system that allows them to charge their electric vehicles at home at a lower cost. This measure creates an electric vehicle charging system rebate program to provide incentives for individuals, businesses, and agencies to implement electric vehicle charging system infrastructure, thereby promoting the growth of electric vehicle use in Hawaii, which will lessen the State's reliance on fossil fuels.

Your Committees have amended this measure by:

- (1) Specifying that the Public Utilities Commission, instead of the Department of Business, Economic Development, and Tourism will administer the electric vehicle charging system rebate program, in consultation with stakeholders and the Hawaii State Energy Office;
- (2) Specifying that, in addition to individuals, non-profit and for-profit corporations, public agencies, homeowner associations, and other entities are also eligible to secure rebates and amending the rebate eligibility requirements;
- (3) Replacing the term "level three station" with "direct current fast charging system";
- (4) Removing language that would have authorized the Department of Business, Economic Development, and Tourism to adopt rules to effectuate the rebate program;
- (5) Inserting language to require the Public Utilities Commission, in administering the rebate program, to consider specified guidelines; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1585, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1585, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair and President on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

Transportation: Ayes, 3. Noes, none. Excused, 2 (English, Harimoto).

#### SCRep. 1492 Water and Land on H.B. No. 910

The purpose and intent of this measure is to require the Office of Planning to conduct a study on the infrastructure of the Banyan Drive area on the Waiakea Peninsula on the island of Hawaii.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Hawai'i and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources and Office of Planning.

Your Committee finds that the Department of Land and Natural Resources and Banyan Drive Hawaii Redevelopment Agency have been working on plans for the redevelopment of the Banyan Drive area in Hilo for many years. This measure would require the Office of Planning to conduct a study of the infrastructure in the area to better assess the area's redevelopment needs.

Your Committee has amended this measure by inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 910, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 910, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

#### SCRep. 1493 Water and Land on H.B. No. 1032

The purpose and intent of this measure is to:

- (1) Allow the Board of Land and Natural Resources (Board) to lease any existing state boating facility in its entirety, and fast lands and submerged lands within any existing state boating facility, by public auction, request for proposals, or direct negotiation for private development, management, and operation subject to prior authorization by the Legislature; and
- (2) Repeal fast lands and submerged lands lease requirements specific to the Ala Wai Boat Harbor.

Your Committee received testimony in support of this measure from Pūlama Lāna'i. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources, Ocean Tourism Coalition, and two individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that community input and involvement are critical to effective and sustainable development within the State. While sea level rise is a critical factor to consider in long-term planning, your Committee believes it is just as critical to foster effective relationships between developers and the community.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have required prior authorization from the Legislature for a lease of any state boating facility;
- (2) Inserting language to require the Board of Land and Natural Resources, prior to approving the lease of any existing state boating facility, to find that the lessee has:
  - (A) Given public notice of any proposed development plans;
  - (B) Engaged with the community to be affected in regard to the development plans;
  - (C) Considered community concerns; and
  - (D) Developed a plan to address adverse impacts; and
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1032, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1032, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

# SCRep. 1494 Water and Land on H.B. No. 1033

The purpose and intent of this measure is to require owners of vessels operating in or on ocean waters of the State that are required to be registered with the State or required to be documented by the United States Coast Guard to obtain marine insurance coverage.

Your Committee received testimony in support of this measure from the Ocean Tourism Coalition. Your Committee received comments on this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that, in addition to environmental damage from grounded vessels, uninsured vessels that run aground, are derelict, or are abandoned in waters of the State cause the State to sometimes incur all costs involved in removing the vessel. The Division of Boating and Ocean Recreation has required insurance for vessels moored in state small boat harbors as a condition of obtaining a mooring permit since 2009 but has no existing mechanism for addressing insurance concerns for the numerous other vessels located in the State but not stored on state facilities. This measure establishes marine insurance requirements to address these vessels.

Your Committee has amended this measure by:

- Applying the mandatory marine insurance requirement only to vessels originally manufactured at a length of twenty-six feet or more, or under twenty-six feet if the vessel is grounded in the State;
- (2) Setting the mandatory vessel insurance minimum at \$100,000;
- (3) Allowing a vessel owner to obtain alternative insurance acceptable to the Department of Land and Natural Resources;
- (4) Amending the Board of Land and Natural Resources' authority to grant exemptions from the marine insurance coverage requirement for certain transient vessels under certain circumstances;
- (5) Inserting a definition for "grounded vessel";
- (6) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1033, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1033, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

#### SCRep. 1495 Water and Land on H.B. No. 1121

The purpose and intent of this measure is to require the Commission on Water Resource Management to conduct an update of the statewide framework for updating the Hawaii Water Plan to provide additional guidance for updating the Hawaii Water Plan.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, Department of Health, City and County of Honolulu Board of Water Supply, One World One Water, Hawai'i Farm Bureau, Maui County Farm Bureau, O'ahu County Democrats, and two individuals.

Your Committee finds that the Hawaii Water Plan serves as a continuing long-range guide for water resource protection and management, and consists of five major components. Your Committee further finds that many of the components of the Hawaii Water Plan have not been updated since its initial adoption in 1990. It is timely to conduct a comprehensive review and update of the Hawaii Water Plan to provide the basis for more holistic water planning, thereby increasing future water security, especially as climate change persists and droughts become more common.

Your Committee has amended this measure by:

- (1) Making the appropriation for fiscal year 2019-2020, rather than for the entire fiscal biennium;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that although the appropriation amount is blank, your Committee requests that your Committee on Ways and Means consider an appropriation of \$300,000 for an update of the statewide framework for updating the Hawaii Water Plan.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1121, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1121, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

#### SCRep. 1496 Water and Land on H.B. No. 1178

The purpose and intent of this measure is to appropriate or authorize funds for the prevention of natural disasters program of the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that funds appropriated for the prevention of natural disasters program will allow the Department of Land and Natural Resources to perform coordination activities to minimize the risks for loss of lives and property damage through the oversight of the National Flood Insurance Program, the dam and reservoir safety program, and general flood control plan. This measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for the Department of Land and Natural Resources' prevention of natural disasters program to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by:

- (1) Making it effective upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1178, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1178, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

### SCRep. 1497 Water and Land on H.B. No. 1219

The purpose and intent of this measure is to authorize the designation of areas or regions of public lands classified as commercial and industrial use or hotel, apartment, and motel use and the establishment and implementation of guidelines for the redevelopment of the areas or regions that will:

- (1) Modernize the policies for the management of public lands in the designated area;
- (2) Establish a plan for the designated area, including district-wide improvements, that is coordinated with state and county land use and planning policies; and
- (3) Implement asset and property management concepts that can optimize income from the properties and evolve in response to changing principles of property administration.

Your Committee received testimony in support of this measure from HPM Building Supply and two individuals. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Prior to decision making on this measure, your Committee made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1 retained the contents of this measure and also inserted provisions that:

- (1) Provide that the law designating the redevelopment district shall, rather than may, be designated by the Legislature and shall transfer the management of the public lands within the district to the planning committee;
- (2) Establish the membership of the planning committee and change the committee from a policy-making committee to an executive committee:
- (3) Designate the public lands on the Waiakea Peninsula on the island of Hawaii as the Waiakea Peninsula Redevelopment District and establishes the Waiakea Peninsula Redevelopment District Planning Committee;
- (4) Authorize a local redevelopment agency to contract with a developer for construction of non-residential projects on public land within a redevelopment area;
- (5) Exempt the costs of construction of work or improvements of a redevelopment project from general excise and use taxes;
- (6) Require the County of Hawaii to repeal the Banyan Drive Hawaii Redevelopment Authority in order for the measure to become effective; and
- (7) Make technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee received testimony in support of the proposed S.D. 1 from McCully Works. Your Committee received testimony in opposition to the proposed S.D. 1 from the Department of Land and Natural Resources and League of Women Voters of Hawaii. Your Committee received comments on the proposed S.D. 1 from the Department of Budget and Finance, Office of the Mayor of the County of Hawaiii, and Kohala Coast Resort Association.

Your Committee finds that the State has a fiduciary duty to manage state lands in the best interests of the public by enhancing state revenues and promoting the social, environmental, and economic well-being of Hawaii's people. The Banyan Drive Hawaii Redevelopment Authority, while well intentioned, has been unable to accomplish its mandate to redevelop state lands on Banyan Drive. This measure would replace the Banyan Drive Hawaii Redevelopment Authority with a new authority to allow for state funding and control of public lands and help support crucial economic growth and development in the Hilo area and other areas of the State.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Inserting the language from the introduced version of this measure regarding the membership of the redevelopment district planning committee;
- (2) Authorizing the Board of Land and Natural Resources to approve a reduction or waiver of up to twenty years for a lease for resort, commercial, industrial, other business, or residential purposes that requires a lessee to demolish existing improvements or provide basic infrastructure including drainage, sewer, water, electricity, and other utilities before it can make productive use of the land, that shall not exceed the amount of the lessee's total expenditures for demolition or provision of such infrastructure;
- (3) Making it effective upon approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1219, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1219, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

#### SCRep. 1498 Water and Land on H.B. No. 1359

The purpose and intent of this measure is to appropriate or authorize funds for the Department of Land and Natural Resources' Bureau of Conveyances' conveyances and recordings program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that funds appropriated for the conveyances and recordings program will allow the Bureau of Conveyances to continue digitization, image enhancements, and preservation of recorded documents and restore and preserve reference books, map collection management systems, and technology improvements. This measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for the Department of Land and Natural Resources' Bureau of Conveyances' conveyances and recordings program to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by:

- (1) Making it effective upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1359, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1359, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

#### SCRep. 1499 Water and Land on H.B. No. 1364

The purpose and intent of this measure is to appropriate or authorize funds for the Department of Land and Natural Resources' conservation and resources enforcement program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that funds appropriated for the conservation and resources enforcement program will allow the Department of Land and Natural Resources to continue enforcement of laws created to manage, protect, and conserve Hawaii's unique and limited, natural, cultural, and historic resources. This measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for the Department of Land and Natural Resources' conservation and resources enforcement program to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by:

- (1) Making it effective upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1364, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1364, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

#### SCRep. 1500 Water and Land on H.B. No. 1368

The purpose and intent of this measure is to appropriate or authorize funds for the Department of Land and Natural Resources' natural area reserves and watershed management program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and The Nature Conservancy Hawai'i.

Your Committee finds that funds appropriated for the natural area reserves and watershed management program will allow the Department of Land and Natural Resources to remove the hooved animals remaining within recently constructed fence units in order to protect native forest species and allow the expenditure of funds gained by revenue generation from parking fees at the 'Āhihi Kina'u

Natural Area Reserve. This measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for the Department of Land and Natural Resources' natural area reserves and watershed management program to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by:

- (1) Making it effective upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1368, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1368, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

#### SCRep. 1501 Labor, Culture and the Arts on H.B. No. 613

The purpose and intent of this measure is to:

- Establish a state youthBuild program to provide employment, education, leadership development, and training opportunities to disadvantages and low-income youth between the ages of sixteen and twenty-four; and
- (2) Authorize the Department of Labor and Industrial Relations to award grants directly to eligible entities or to the counties.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Department of Education, Hawaii State Teachers Association, Society for Human Resource Management Hawaii, LGBT Caucus of the Democratic Party of Hawaii, La'i'Ōpua 2020, Hawaiian Community Assets, General Contractors Association of Hawaii, Hawaii Alliance for Community-Based Economic Development, Waimanalo YouthBuild, and four individuals.

Your Committee finds that YouthBuild is a federal workforce development program that provides employment, education, leadership development, and training opportunities to disadvantaged and low-income youth between the ages of sixteen and twenty-four. Your Committee further finds that the United States Department of Labor administers the YouthBuild program by awarding grants to about two-hundred youthBuild programs in over forty states. Program participants receive education services and occupational skills training.

Your Committee also finds that the federal YouthBuild program is designed to create a skilled workforce either in the construction industry, through the rehabilitation and construction of housing for homeless individuals and families and low-income families, as well as public facilities, or in other high wage, high-demand jobs. The program also benefits the larger community by providing more new and rehabilitated affordable housing. This measure establishes a state youthBuild program in Hawaii which will ensure that participants are given the opportunity to gain marketable skill sets so they can be productive and contributing members of society.

Your Committee has amended this measure by:

- (1) Clarifying that the state youthBuild program is established under the Department of Labor and Industrial Relations to assist non-profit and public entities in applying and qualifying for federal YouthBuild program grants rather than directly providing employment, education, leadership development, and training, as well as setting out basic parameters for grants;
- Appropriating unspecified funds for the Department of Labor and Industrial Relations to administer the state youthBuild program;
- (3) Deleting the appropriation to the counties and instead appropriating unspecified funds for matching-fund grants to eligible non-profit and public entities awarded federal YouthBuild program grants; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 613, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 613, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

# SCRep. 1502 (Joint) Labor, Culture and the Arts and Judiciary on H.B. No. 710

The purpose and intent of this measure is to add reproductive health decisions and utilization of family leave to the list of categories that are protected against discriminatory employment practices.

Your Committees received testimony in support of this measure from the Hawai'i Civil Rights Commission; Hawai'i State Commission on the Status of Women; LGBT Caucus of the Democratic Party of Hawaii; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Pride at Work Hawaii; Planned Parenthood Votes Northwest and Hawaii; American Association of University Women of Hawaii; American Civil Liberties Union of Hawaii; Hawaii Women's Coalition; Rainbow Family 808; and one individual. Your Committees received comments on this measure from the Department of Human Resources Development.

Your Committees find that while discrimination based on pregnancy, childbirth, and related medical conditions such as breastfeeding is prohibited, personal reproductive health decisions are not protected. Your Committees further find that no employee should face adverse employment action based on the employee's reproductive health decisions. Your Committees additionally find that the exercise of rights under state family leave law is already protected under existing law.

Accordingly, your Committees have amended this measure by removing language relating to utilization of family leave.

As affirmed by the records of votes of the members of your Committees on Labor, Culture and the Arts and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 710, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 710, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor, Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

Judiciary: Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

### SCRep. 1503 (Joint) Labor, Culture and the Arts and Commerce, Consumer Protection, and Health on H.B. No. 912

The purpose and intent of this measure is to:

- (1) Require an employer to pay for all medical services related to an employee's compensable injury and the employee's rehabilitation within sixty days of receipt of the bill for services; and
- (2) Establish a process for employers to dispute the payment of an employee's medical bill.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, ILWU Local 142, Hawaii Injured Workers Association, Work Injury Medical Association of Hawaii, and three individuals. Your Committees received testimony in opposition to this measure from the Hawaii Insurers Council. Your Committees received comments on this measure from the City and County of Honolulu Department of Human Resources, Hawaiian Electric Company Inc., and Automated HealthCare Solutions.

Your Committees find that ongoing investigations of pending workers' compensation claims and employers not responding to billings delay care and compensation to seriously injured employees. These employees may be forced to return to work with serious injuries, find less suitable employment, or apply for public assistance. This measure requires that employers pay all medical services within sixty days of receiving the bill, which will help to ensure that medical services are timely paid by employers and that employees receive the financial assistance that they need.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor, Culture and the Arts and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 912, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 912, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor, Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

# SCRep. 1504 Labor, Culture and the Arts on H.B. No. 914

The purpose and intent of this measure is to clarify that the party seeking review of a decision and order of the Hawaii Labor Relations Board is to bear the costs of preparing the transcript unless otherwise provided by law, in which case the Hawaii Labor Relations Board is to bear the cost of preparing the transcript.

Your Committee received testimony in support of this measure from the Hawaii Labor Relations Board.

Your Committee finds that in cases where a party is seeking review of a decision and order of the Hawaii Labor Relations Board (Board) and requests a written transcript, that party must bear the costs, unless otherwise prohibited by law, then it is the Board's burden. Your Committee finds that the existing language in section 396-12, Hawaii Revised Statutes, is not necessarily clear as to when the party seeking review or the Board must bear the costs. Your Committee believes that this measure will prevent confusion.

Your Committee has amended this measure by:

- (1) Clarifying that the party seeking review of a decision of the Hawaii Labor Relations Board is to bear the costs of preparing the transcript, except as provided by law, in which case the Hawaii Labor Relations Board is to bear the costs of preparing the transcript; and
- (2) Making it effective upon approval.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 914, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 914, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

#### SCRep. 1505 Labor, Culture and the Arts on H.B. No. 941

The purpose and intent of this measure is to:

- (1) Allow an employee's designation of beneficiary form to be kept in the department where the employee is employed; and
- (2) Remove the requirement that the designation of beneficiary information be submitted in a verified written statement.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services.

Your Committee finds that existing law requires an employee of a state department's designation of beneficiary form to be a written statement that is notarized and filed with the comptroller. This requirement has resulted in thousands of designation of beneficiary forms being maintained in a central location at the Department of Accounting and General Services. Your Committee additionally finds that the recent modernization of the HawaiiPay payroll system has caused several departments and agencies to request an electronic means of storing and updating an employee's designation of beneficiary. This measure removes the requirement that the designation of beneficiary only be in a verified written statement, and allows the filing of an employee's designation of beneficiary by electronic means in order to facilitate accessibility to the designation of beneficiary process and provide administrative efficiencies.

Your Committee has amended this measure by:

- (1) Clarifying that a public employee is allowed to file a verified written or electronic statement designating a beneficiary with the comptroller or other disbursing officer or department in which the employee is employed; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 941, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 941, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Gabbard).

### SCRep. 1506 (Joint) Labor, Culture and the Arts and Government Operations on H.B. No. 1424

The purpose and intent of this measure is to:

- (1) Establish a visitor information center in the State Capitol; and
- (2) Establish a visitor information center program to support the operation of the visitor information center.

Your Committees received testimony in support of this measure from O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and one individual.

Your Committees find that tourism is the State's leading industry. Your Committees recognize that the Capitol district located in Honolulu is a historical, cultural, educational, and recreational hub for visitors and residents. Each year, the Capitol district draws many visitors who come to see and experience the historical sites and attractions in the area, including the State Capitol, Iolani Palace, Washington Place, Honolulu Hale, Kawaiaha'o church, Hawaii State Art Museum, Queen Lili'uokalani statue, and Father Damien statue, among others.

Your Committees find that a visitor information center located in the State Capitol would serve as a reliable and informative resource for informing and educating visitors about local areas and attractions, lodging, maps, transportation routes, and other services; promoting the State's tourist attractions, services, and products; and serving as an effective community information service to residents. This measure will provide visitors with information about the Capitol district and attract more visitors to the area.

Your Committees note that the visitor information center is intended to promote the historic and cultural aspects of the Capitol district, not to serve as a general tourism education center, or supplant other tourist resources or attractions, but rather to complement other visitor experiences.

Accordingly, your Committees have amended this measure by:

- Clarifying that the visitor information center is intended to educate visitors about the historic and cultural aspects of the State Capitol and its grounds and facilities;
- (2) Inserting the language establishing the visitor information center in section 6E-34.5(f), Hawaii Revised Statutes, thereby placing the visitor information center under the jurisdiction of the state capitol management committee;
- (3) Deleting language giving the joint legislative committee the authority to oversee the staff and operations of the visitor information center;
- (4) Deleting the appropriations to the Senate and House of Representatives and instead appropriating funds to the Department of Accounting and General Services; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor, Culture and the Arts and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1424, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1424, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor, Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella). Government Operations: Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1507 Labor, Culture and the Arts on H.B. No. 1582

The purpose and intent of this measure is to exempt from the bidding requirements of chapter 102, Hawaii Revised Statutes, concessions on public property whose operations provide historical and cultural information, goods, and services within the State Capitol district.

Your Committee received testimony in support of this measure from the Airport Concessionaires Committee and one individual.

Your Committee finds there is a need to provide more historical and cultural information to address the needs of visitors, and to enhance visitor experiences within the State Capitol district and to accommodate the increasing number of tourists and residents visiting this district each year. Currently, concession contracts for the operation of historical and cultural public information, goods, and services are awarded to the highest bidder without consideration of the quality or variety of services to be provided. Awarding concession contracts for the operation of historical and cultural public information, goods, and services through negotiation rather than simply to the highest bidder will result in higher quality services, which in turn will provide visitors with a superior experience in Hawaii. This measure will allow for negotiations for such concessions in the State Capitol district.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1582, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1508 (Joint) Labor, Culture and the Arts and Higher Education on H.B. No. 6

The purpose and intent of this measure is to establish the Uniform Employee and Student Online Privacy Protection Act that adopts uniform laws on protecting the online accounts of employees, prospective employees, unpaid interns, applicants, students, and prospective students from employers and educational institutions.

Your Committees received testimony in support of this measure from the Department of Education, Hawai'i Civil Rights Commission, Commission to Promote Uniform Legislature, and University of Hawai'i System. Your Committees received comments on this measure from the American Civil Liberties Union of Hawaii.

Your Committees find that privacy is a growing concern as social media use rises and employers increasingly ask current and prospective employees to grant the employer access to social media accounts. Likewise, many educational institutions seek to examine the social media presence of current and prospective students.

Your Committees further find that in recent years there have been a number of reported incidents in which employers and schools have demanded, and received, such access because of their higher bargaining power. Access to those who have leverage over education and livelihood inevitable leads to discrimination, self-censorship, and the chilling of free expression. This measure precludes employers and public and private educational institutes from demanding access to current and prospective employees and current and prospective students' online accounts with exceptions, which will protect students and employees from unwarranted invasions of privacy.

Your Committees note that some testifiers had differing opinions about language to be included in this measure. Your Committees request that those testifiers continue to discuss their differences and attempt to come to consensus as this measure continues through the legislative process.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor, Culture and the Arts and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 6, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 6, H.D. 3, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees. Labor, Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella). Higher Education: Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

# SCRep. 1509 Labor, Culture and the Arts on H.B. No. 34

The purpose and intent of this measure is to require that the foreperson classification be recognized in wage and hour requirements contained in statute and in collective bargaining agreements for laborers and mechanics on public works projects.

Your Committee received testimony in opposition to this measure from LiUNA. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that under existing law, the foreman classification is not recognized under Hawaii's Davis-Bacon Act. Therefore, a foreman is not covered under a collective bargaining agreement when the agreement establishes the hourly rate. This measure therefore requires that the foreperson classification be covered under a collective bargaining agreement, which will provide wage protections for the foreperson classification and guarantee a level playing field for forepersons when working on a public works project.

Your Committee notes the concerns of the Department of Labor and Industrial Relations and LiUNA regarding the need for a definition of "foreperson" and the requirement that all entities submit a wage classification for forepersons. Amendments to this measure are therefore necessary to address the Department of Labor and Industrial Relations and LiUNA's concerns.

Accordingly, your Committee has amended this measure by:

- (1) Amending the definition of "public work" upon the recommendation of the Department of Labor and Industrial Relations;
- (2) Adopting proposed language from LiUNA to clarify that the foreperson classification shall be recognized as a separate wage classification for public works project only if an organization with a collective bargaining agreement chooses to recognize the foreperson classification as a separate wage classification in the collective bargaining agreement and if so requested by the organization;
- (3) Adopting proposed language from the Department of Labor and Industrial Relations specifying that a foreperson is a laborer or mechanic who works on the project and directs the work of other laborers or mechanics; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 34, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 34, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

## SCRep. 1510 (Joint) Labor, Culture and the Arts and Government Operations on H.B. No. 352

The purpose and intent of this measure is to:

- (1) Provide the President of the Senate and the Speaker of the House of Representatives the authority to jointly allocate and assign for occupation of non-metered parking stalls and all office space at the state capitol except the fifth floor; and
- (2) Provide the Governor the authority to allocate office space on the fifth floor of the state capitol.

Your Committees received testimony in opposition to this measure from the Ho'omanapono Political Action Committee. Your Committees received comments on this measure from the Office of the Governor and Department of Accounting and General Services.

Your Committees find that the State Capitol is utilized and occupied by the Senate, House of Representatives, and executive branch offices. This measure allows these entities to allocate and utilize the space in the State Capitol in a manner that best fits each entity's revolving needs.

Your Committees note that this measure only affects non-metered parking stalls and therefore does not reduce the amount of public metered or handicapped parking stalls at the State Capitol.

Your Committees have amended this measure by:

- Clarifying that the President of the Senate and Speaker of the House of Representatives shall not have the authority to jointly
  allocate and assign for occupation of specific offices on the fourth floor;
- (2) Clarifying that the President of the Senate and Speaker of the House of Representatives shall not have the authority to jointly allocate and assign for occupation parking stalls reserved for the Office of the Governor and Office of the Lieutenant Governor:
- (3) Leaving the amount of parking stalls reserved for the Office of the Governor and Office of the Lieutenant Governor blank; and
- (4) Inserting an effective date of January 1, 2051, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Labor, Culture and the Arts and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 352, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 352, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Labor, Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella). Government Operations: Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 1511 (Joint) Labor, Culture and the Arts and Judiciary on H.B. No. 362

The purpose and intent of this measure is to:

- (1) Permit public inspection and duplication of salary ranges, for legislative employees in incremental amounts of \$15,000, rather than exact compensation amounts; and
- (2) Define "legislative employees".

Your Committees received testimony in support of this measure from the Chief Clerk of the Hawaii State House of Representatives; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committees received testimony in opposition to this measure from the League of Women Voters, Civil Beat Law Center for the Public Interest, and Hawaii Chapter of the Society of Professional Journalists. Your Committees received comments on this measure from the Office of Information Practices.

Your Committees find that section 92F-12(a)(14), Hawaii Revised Statutes, requires disclosure of the names and compensation of most state and county employees. Your Committees further find that while civil service employees and certain others are only subject to disclosure of their salaries to within a certain range, other employees including those of the Legislature, are subject to disclosure of exact salary amounts. Your Committees additionally find that this discrepancy in disclosure requirements requires release of more detailed information about one group of state employees over another. This measure eliminates that discrepancy and disparate treatment between public servants.

Your Committees have amended this measure by:

- (1) Changing the incremental amount of salary ranges to be available for public inspection and duplication from \$15,000 to \$10,000; and
- (2) Clarifying the definition of "legislative employees" to include staff of the legislative branch of the State and employees of legislative service agencies as defined by section 21E-1, Hawaii Revised Statutes, except individuals employed as attorneys or who receive a salary greater than \$100,000.

As affirmed by the records of votes of the members of your Committees on Labor, Culture and the Arts and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 362, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 362, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Labor, Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella). Judiciary: Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

### SCRep. 1512 (Joint) Labor, Culture and the Arts and Commerce, Consumer Protection, and Health on H.B. No. 390

The purpose and intent of this measure is to make permanent Act 172, Session Laws of Hawaii 2017, which grants employees the right to have a chaperone present during a medical examination relating to a workers' compensation work injury and, with the approval of the examining physician or surgeon, to record the examination. This measure also provides that if an employee or employee's chaperone obstructs the medical examination, the employee's right to worker's compensation shall be suspended until the refusal or obstruction ceases.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, Hawaii Injured Workers Association, ILWU Local 142, Work Injury Medical Association of Hawaii, and three individuals.

Your Committees find that the workers' compensation system is often adversarial in nature as employees and employers often choose physicians to perform independent medical examinations that are highly partisan to their respective sides. Delays in independent medical examinations can cause devastating financial consequences to employees. Independent medical examinations can be stressful and intimidating to injured employees. This measure makes permanent the law that allows employees the right to have a chaperone present and to record the independent medical examination, which will provide better assurance that an independent medical examination is conducted fairly, allow for greater transparency, and provide comfort and safety to employees.

Your Committees have amended this measure by making it effective upon approval.

As affirmed by the records of votes of the members of your Committees on Labor, Culture and the Arts and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 390, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 390, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees. Labor, Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella). Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

# SCRep. 1513 Labor, Culture and the Arts on H.B. No. 391

The purpose and intent of this measure is to:

- (1) Establish restrictions on the participation in political activities of certain state employees and officers; and
- (2) Impose penalties for violations.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission and Common Cause Hawaii

Your Committee finds that chapter 84, Hawaii Revised Statutes, the state ethics code, promotes standards of ethical conduct regarding conflicts of interest, fair treatment, confidential information, and the solicitation and receipt of gifts for nominated, appointed, and elected officers, employees, and candidates. Your Committee also finds that section 84-13, Hawaii Revised Statutes, under the fair treatment law, prohibits the use of state resources for campaign purposes, and section 11-354, Hawaii Revised Statutes, prohibits the collection of campaign donations in state facilities. However, currently, state law does not contain comprehensive restrictions on political activity for any state officers or employees. Applying restrictions on the participation in political activities of state government officers and employees who are employed or hold office in state positions with adjudicatory, regulatory, law enforcement, or investigative responsibilities as a regular part of their duties, ensures that political activity by these officers and employees does not compromise public confidence and trust in government.

While this measure attempts to provide comprehensive restrictions, your Committee notes that it is concerned primarily with the solicitation of campaign contributions by certain state officers or employees.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the purpose section and legislative findings relating to the federal Hatch Act and the state code of ethics;
- (2) Deleting language prohibiting covered employees from using their authority or influence for the purpose of interfering with or affecting the result of an election;
- (3) Deleting language prohibiting covered employees from taking an active part in political management or a political campaign;
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 391, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 391, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 1514 (Joint) Technology and Energy, Economic Development, and Tourism on H.B. No. 533

The purpose and intent of this measure is to:

- (1) Establish the Hawaii Broadband Office within the Department of Business, Economic Development, and Tourism;
- (2) Establish the position of State Broadband Strategy Officer;
- (3) Require the Director of Business, Economic Development, and Tourism to convene and chair the Broadband Advisory Council; and
- (4) Rename the Broadband Assistance Advisory Council as the Broadband Advisory Council and amend its purpose and membership.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Education; Department of Commerce and Consumer Affairs' Cable Television Division; Economic Development Alliance of Hawaii; and Oahu Economic Development Board.

Your Committees find that there is a strong relationship between broadband access and economic development, education, health, community building, and civic engagement throughout the State. Your Committees find that broadband is essential to maintain Hawaii's global competitiveness and a modern life style, as its use grows in all sectors, particularly in education, retail, and government services. Furthermore, Hawaii's youth will have a critical hardship to overcome if they are not taught vital digital skills or are deprived of educational opportunities that require broadband access. This measure establishes the Hawaii Broadband Office and restructures the Broadband Assistance Advisory Council to improve broadband services throughout the State.

Your Committees have amended this measure by:

- (1) Replacing the Department of Business, Economic Development, and Tourism with the Hawaii Technology Development Corporation as the lead agency; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Technology and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 533, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 533, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Technology: Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Fevella).

# SCRep. 1515 Technology on H.B. No. 532

The purpose and intent of this measure is to establish within the Office of Enterprise Technology Services a Chief Data Officer and data task force to develop, implement, and manage statewide data set policies, procedures, and standards.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Department of Education, Office of Enterprise Technology Services, Office of Information Practices, Ulupono Initiative, All Hawaii News, Big Island Press Club, Transform Hawai'i Government, Elemental Excelerator, and one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that data held by state agencies must be readily available to other state agencies, unless expressly prohibited by law or applicable regulatory requirement, with minimal administrative obstacles, to enable effective, efficient, and transparent delivery of information resources and services. Your Committee further finds that it is equally vital that agencies make reasonable efforts to make data accessible to the public, because such data can inform public policy, stimulate innovation, encourage public engagement, and enhance transparency within the State. By establishing a Chief Data Officer and data task force, this measure ensures that efforts are dedicated to facilitating data sharing across state agencies and determining data sets that are appropriate for public disclosure.

As affirmed by the record of votes of the members of your Committee on Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 532, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

#### SCRep. 1516 (Joint) Technology and Energy, Economic Development, and Tourism on H.B. No. 1062

The purpose and intent of this measure is to establish the broadband service infrastructure grant program for the Department of Business, Economic Development, and Tourism (Department) to award grants to applicants to extend deployment of infrastructure used to provide broadband service to unserved and underserved areas of the State.

Your Committees received testimony in support of this measure from the Hawaiian Electric Companies, Charter Communications, and one individual. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs' Cable Television Division; Department of Business, Economic Development, and Tourism; and Hawaiian Telcom.

Your Committees support efforts to improve access to broadband services for residents, consumers, and businesses across the State. Access to broadband services in unserved and underserved areas of Hawaii would enhance economic development, education, health care, and emergency services in those areas. The availability of grants for deployment to unserved and underserved areas, as proposed by this measure, would further those objectives by encouraging new investment in broadband infrastructure.

Your Committees have amended this measure by replacing its contents with a substantively similar measure, which previously passed the Senate, S.B. No. 553, S.D. 2, Regular Session of 2019, and making further amendments. Specifically, your Committees have amended this measure by:

- Amending the definition of "broadband service" to be the same as the definition for "broadband access or broadband service" under section 440J-1, Hawaii Revised Statutes;
- (2) Replacing the term and definition of "broadband service infrastructure" with the term "broadband infrastructure", to have the same meaning as under section 440J-1, Hawaii Revised Statutes;
- (3) Changing the definition of "underserved area" to require minimum speeds in proportion to the minimum broadband service speeds established by the Federal Communications Commission;
- (4) Deleting language that would have prohibited an applicant from using grant funds to upgrade existing broadband infrastructure;
- (5) Deleting language that would have made any applicant who receives funds under another federal or state grant or loan program ineligible for the grant program;
- (6) Deleting language that would have provided that the matching funds shall not be derived from funds received by the applicant through any other federal or state government grant, loan, or subsidy program;
- (7) Requiring an applicant to commit to paying a minimum of fifty percent, rather than twenty percent, of the project costs;
- (8) Requiring applicants to the broadband infrastructure grant program to commit to complying with net neutrality principles;
- (9) Deleting the length of time the applicant has been providing broadband service in the State from the scoring criteria for awarding funding under the grant program;
- (10) Clarifying and reorganizing the scoring criteria for awarding funding under the grant program;
- (11) Deleting language that would have required the Department to not consider certain new or additional regulatory obligations in awarding grants;
- (12) Deleting language that would have required the Department to adopt certain rules;
- (13) Inserting a blank appropriation for the establishment and administration of the broadband infrastructure grant program; and
- (14) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Technology and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1062, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1062, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Technology: Ayes, 4. Noes, none. Excused, 1 (English).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Taniguchi).

### SCRep. 1517 (Joint) Technology and Government Operations on H.B. No. 1593

The purpose and intent of this measure is to require and appropriate funds for the Department of Budget and Finance, in consultation with the Department of Accounting and General Services and the Office of Enterprise Technology Services, to develop and procure a uniform financial database for use by all state agencies.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services, Department of Education, and Office of Enterprise Technology Services. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that developing a uniform financial database for use by all state agencies would leverage existing information technology systems, consolidate data from multiple existing systems into a single system of record, and normalize disparate account coding practices used by different state agencies, thereby improving government accountability and transparency. Your Committees further find that such a system should be compatible with the software system currently being implemented by the Office of Enterprise Technology Services.

Accordingly, your Committees have amended this measure by:

- (1) Amending the requirement for the uniform financial database to instead require the Department of Education, in consultation with the Office of Enterprise Technology Services, to develop and procure a uniform financial database, with parameters, benefits, and features that are compatible to the software system being implemented by the Office of Enterprise Technology Services for use by all state agencies;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Technology and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1593, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1593, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Technology: Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Baker, Fevella).

### SCRep. 1518 (Joint) Energy, Economic Development, and Tourism and Technology on H.B. No. 340

The purpose and intent of this measure is to:

- (1) Appropriate funds to the Hawaii Technology Development Corporation for the small business innovation research program and manufacturing assistance program;
- (2) Disallow Hawaii Technology Development Corporation grants to businesses that were awarded a competitive contract from the Department of Defense to research hydrodynamics and demand response; and
- (3) Make an appropriation into, and out of, the alternative energy research and development revolving fund for the purpose of providing grants.

Your Committees received testimony in support of this measure from the Hawaii Technology Development Corporation; Chamber of Commerce Hawaii; Makai Ocean Engineering; Maui Brewing Company; Oceanit; IL Gelato Hawaii; Premier Solutions HI, LLC; Adnoviv LLC; Tridentis Advanced Marine Vehicles, LLC; Maui Kuʻia Estate Chocolate Inc.; Aloha Shoyu Company; HNu Photonics, LLC; Forever Oceans; Experiad; Hawaiian Chip Company; Diagenetix Inc.; Maui Innovation Group, Inc.; Referentia Systems Incorporated; Spectrum Photonics; Nalu Scientific, LLC; Hawaii Fish Company; Kauai Beer Company; and one individual.

Your Committees find that the Hawaii Technology Development Corporation is a key state agency in the development and support of the State's manufacturing industry. Furthermore, continued support for the manufacturing industry is essential to Hawaii's economy. Your Committees further find that the Hawaii Technology Development Corporation's small business innovation research program and manufacturing assistance program play important roles in providing support to more manufacturing companies. This measure appropriates funds to the Hawaii Technology Development Corporation for the small business innovation research program and manufacturing assistance program, which provides grants to small businesses and promotes small businesses and manufacturing in the State

Your Committees have amended this measure by removing the requirement that a business awarded a contract from the Department of Defense shall be eligible for a grant from the Hawaii Technology Development Corporation only if the contract was related to research in the fields of geothermal, solar, wind, ocean power, hydrodynamics, bioenergy, biomass, solid waste, smart grids, transportation, or demand response.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 340, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 340, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Taniguchi). Technology: Ayes, 4. Noes, none. Excused, 1 (English).

## SCRep. 1519 Education on H.B. No. 921

The purpose and intent of this measure is to:

- (1) Establish the Executive Office on Early Learning as the administrative authority for State-funded prekindergarten programs, except for special education and Title I-funded prekindergarten programs;
- (2) Require the Department of Education in its implementation of Title I-funded prekindergarten classrooms to adhere to certain quality standards and work with the Executive Office on Early Learning;
- (3) Define the roles and responsibilities of the Executive Office on Early Learning and Department of Education as they relate to the Executive Office on Early Learning Public Prekindergarten Program; and

(4) Establish reporting requirements for the Department of Education, authorizers of public charter schools, and the Executive Office on Early Learning.

Your Committee received testimony in support of this measure from the Department of Human Services, Executive Office on Early Learning, Institute for Native Pacific Education and Culture, Hawaii Chapter of the American Academy of Pediatrics, Parents and Children Together, Early Childhood Action Strategy, and fifty-one individuals. Your Committee received testimony in opposition to this measure from the Department of Education, Kamehameha Schools, and four individuals. Your Committee received comments on this measure from the Office of the Governor, Department of the Attorney General, Board of Education, and one individual.

Your Committee finds that there is a public benefit from substantial investment in high-quality, developmentally appropriate early learning programs. These investments have been driven by significant and continuing research affirming the positive effects of high-quality early learning programs on the physical, cognitive, linguistic, social, emotional, and economic outcomes of young children. Provided with such opportunities, children are more likely to succeed in kindergarten and beyond as well as grow into healthy, capable, and contributing adults. Well-executed and well-targeted early learning programs have immediate and long-term benefits not only for the children participating in the programs but also for the societies in which they live.

Your Committee further finds that although the Department of Education administers programs of education and public instruction throughout the State, the Executive Office on Early Learning should have administrative authority over all state-funded prekindergarten programs and be a resource of support for and with the Department's special education, Title I, and private partnership funded prekindergarten programs to ensure high quality early education programs throughout the State. This measure further defines the roles and responsibilities of the Executive Office on Early Learning and Department of Education as they relate to the implementation of the public prekindergarten program.

Your Committee has amended this measure by:

- (1) Clarifying the purpose section to better align with its contents;
- Specifying that the Department of Education has the authority over and may establish special education, Title I funded, and private partnership funded prekindergarten classrooms;
- (3) Specifying that the memorandum of understanding between the Executive Office on Early Learning and Department of Education shall establish the Executive Office on Early Learning as the entity responsible for certain administrative decisions related to prekindergarten classrooms;
- (4) Specifying that the Executive Office on Early Learning may extend resources and support to other state funded prekindergarten classroom teachers and administrators;
- (5) Specifying that school principals shall be able to include prekindergarten classroom teachers in school-wide professional development;
- (6) Specifying that the Executive Office on Early Learning shall have the administrative authority for services related to curriculum, instruction, assessment, and professional learning support, while the Department of Education shall have oversight for the general services of the facilities, daily operations of the classrooms, and support for the inclusion of teachers and educational assistants in school-wide initiatives and other opportunities as it relates to the prekindergarten program;
- (7) Specifying that the Director of the Executive Office on Early Learning shall be the signatory for all budget documents, appointments of staffing, and official acts of the Executive Office on Early Learning;
- (8) Specifying that the Executive Office on Early Learning shall be solely responsible for decisions and outcomes for any fiscal decisions, personnel issues, audits, and legal consequences for decisions made without the approval of the Superintendent of Education;
- (9) Specifying that any prekindergarten classroom funded by the weighted student formula shall be included in the Executive Office on Early Learning prekindergarten program;
- (10) Specifying that procedures for approval for the establishment of a prekindergarten classroom shall be in the memorandum of understanding between the Executive Office on Early Learning and Department of Education;
- (11) Specifying that the Department of Education shall work with the Executive Office on Early Learning to develop a structure to provide supports for Title I-funded prekindergarten classrooms on various issues;
- (12) Specifying that the Executive Office on Early Learning shall include the Title I-funded prekindergarten classroom data as part of its early learning monitoring report;
- (13) Deleting language that would have required the Executive Office on Early Learning public prekindergarten program to include students with disabilities based on individualized education plan placement and collaborate with the Department of Education to coordinate services for students with disabilities who are in the program;
- (14) Clarifying provisions relating to the high-quality standards of the Executive Office on Early Learning public prekindergarten program;
- (15) Deleting language that would have required teaching staff and principals participating in the Executive Office on Early Learning public prekindergarten program to participate in all relevant professional learning opportunities offered by the Executive Office on Early Learning;
- (16) Deleting provisions relating to the requirements and responsibilities of the teacher and educational assistant teaching in the classroom through the Executive Office on Early Learning public prekindergarten program;

- (17) Deleting language that would have required each school participating in the Executive Office on Early Learning public prekindergarten program to develop and update a two- to three-year plan to promote alignment of and transitions between high-quality learning experiences;
- (18) Specifying that the Executive Office on Early Learning shall collect data with the assistance of the Department of Education for various purposes;
- (19) Deleting language that would have required the Department of Education and every authorizer of a public charter school to submit an annual report to the Legislature regarding public prekindergarten classrooms;
- (20) Clarifying the reporting requirements, with assistance from the Department of Education and every authorizer of a public charter school, of the Executive Office on Early Learning regarding the performance and progress of the public prekindergarten program;
- (21) Specifying procedures for dispute resolution in the event of a dispute between the Department of Education and Executive Office on Early Learning; and
- (22) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 921, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 921, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Fevella).

#### SCRep. 1520 Education on H.B. No. 1523

The purpose and intent of this measure is to appropriate or authorize funds for programs of the Department of Education for the 2019-2021 fiscal biennium.

Your Committee received testimony in support of this measure from the Department of Education, Department of Accounting and General Services, Executive Office on Early Learning, State Public Charter School Commission, Hawaii State Public Library System, Early Learning Board, HE'E Coalition, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for programs of the Department of Education to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately.

Your Committee has amended this measure by:

- (1) Deleting the program appropriations and inserting the program appropriations related to the Department of Education from H.B. No. 2, H.D. 1, S.D. 2 (Regular Session 2019); and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that if your Committee on Ways and Means passes this measure that it consider incorporating the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1523, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1523, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

# SCRep. 1521 Education on H.B. No. 622

The purpose and intent of this measure is to:

- (1) Establish reporting requirements for an employee of a charter school under federal investigation regarding the existence of a criminal investigation of, or criminal charges against the employee for, actions taken in the course of employment at the charter school:
- (2) Establish requirements related to the disbursement of funds to charter schools by the Legislature;
- (3) Require authorizers to establish a purchase order system to pay charter school expenses;
- (4) Require authorizers to be responsible for the selection of independent auditors for its annual audit; and
- (5) Prohibit affiliations between Board of Education or State Public Charter School Commission members and charter schools.

Your Committee received testimony in opposition to this measure from the Office of Hawaiian Affairs; Kualapu'u Public Conversion Charter School; The Volcano School of Arts and Sciences, PCS; University Laboratory School; Hoʻokākoo Corporation; Kanu o ka 'Āina Learning 'Ohana; Hawaii Technology Academy; Kua O Ka La NCPCS; Kula Aupuni Niihau A Kahelelani Aloha PCS; Kanu O Ka 'Āina; Connections Public Charter School; Kapolei Charter School; Ke Kula O Samuel M Kamakau, LPCS; Hālau Kū Māna; Innovations Public Charter School; Waimea Middle School; and numerous individuals. Your Committee received comments on this measure from the Board of Education, State Public Charter School Commission, and one individual.

Your Committee finds that oversight and accountability are vital to the operation of the public charter school system in Hawaii. However, your Committee further finds that a degree of oversight which undermines the autonomy of individual charter schools runs counter to the policy goals of the charter school system.

Accordingly, your Committee has amended this measure by:

- (1) Removing language establishing reporting requirements for an employee of a charter school under federal investigation;
- (2) Requiring control of public funds disbursed to a charter school to be transferred to the Public Charter School Commission upon filing of federal criminal charges against an employee of the charter school for actions taken in the course of employment at the charter school:
- (3) Requiring authorizers to establish a banking account system to pay charter school expenses instead of a purchase order system;
- (4) Prohibiting individuals from serving as Board of Education or Public Charter School Commission members if the individual was affiliated with a charter school within four years preceding the appointment; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 622, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 622, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

# SCRep. 1522 (Joint) Education and Energy, Economic Development, and Tourism on H.B. No. 1583

The purpose and intent of this measure is to:

- (1) Require the Department of Education to establish a pilot program in at least four schools to install renewable energy systems capable of providing backup power in the event of a natural disaster or other similar emergency; and
- (2) Require the Public Utilities Commission to consider in its current and ongoing proceedings ways to incentivize the implementation of renewable energy systems in public schools.

Your Committees received testimony in support of this measure from one individual. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Education, and Public Utilities Commission.

Your Committees find that Hawaii's residents and businesses are vulnerable to disruptions in the State's energy systems caused by extreme weather events or other disasters. In many areas of the State, Hawaii residents and visitors rely on public school structures that serve as designated shelters during disaster events.

Your Committees further find that many public schools have begun to install renewable energy systems in order to meet the State's goal for public schools to become net-zero in regard to energy use by the year 2035. This measure provides incentives for the Department of Education to invest in such systems and encourages the Public Utilities Commission to consider ways to incentivize the implementation of renewable energy systems in public schools.

Your Committees have amended this measure by:

- (1) Removing the requirement that the renewable energy system established by the Department of Education be capable of continuously providing backup power;
- (2) Removing the mandate that the Department of Education conduct a pilot program in at least four schools;
- (3) Authorizing the Department of Education to evaluate the feasibility and cost-benefit of renewable powered backup system at one facility;
- (4) Authorizing the Natural Energy Laboratory of Hawaii to establish a microgrid demonstration project;
- (5) Authorizing the Department of Transportation to perform a microgrid feasibility and cost-benefit analysis at an appropriate facility with an existing or proposed renewable energy system that is capable of providing backup electrical power;
- (6) Expanding the consideration of the Public Utilities Commission to include feasibility, cost-benefit, and possible ways to incentivize installation of renewable energy backup systems in public facilities by incorporating findings and data reported from the public facility microgrid evaluations and pilot programs authorized in this measure;
- (7) Updating the purpose section to reflect the amendments made to this measure; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1583, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1583, H.D. 2, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Kim).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Taniguchi).

#### SCRep. 1523 Housing on H.B. No. 820

The purpose and intent of this measure is to appropriate or authorize funds for programs of the Hawaii Housing Finance and Development Corporation (HHFDC) and Hawaii Public Housing Authority.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority and Hawaii Housing Finance and Development Corporation.

Prior to decision making on this measure, your Committee made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and:

- Inserting the contents of Senate Bill No. 362 (Regular Session of 2019), which prohibits any county law, ordinance, or rule
  from imposing an inclusionary zoning requirement on housing offered exclusively for sale in perpetuity to buyers who are
  residents of the State, are owner-occupants, and do not own any other real property; and
- (2) Inserting language that:
  - (A) Establishes the ALOHA homes program and all of its rules and requirements, including the ALOHA homes revolving fund, to facilitate the development of low-cost homes for sale to Hawaii residents on state-owned and county-owned land in urban redevelopment sites to be sold in leasehold by the HHFDC to qualified residents;
  - (B) Exempts lands that are set aside by the Governor to HHFDC and lands leased to HHFDC by any department or agency of the State from the definition of "public lands" in chapter 171, Hawaii Revised Statutes, except for purposes of accounting for public land trust receipts;
  - (C) Authorizes the HHFDC to sell the leasehold interest in residential condominium units located on state lands for lease terms of 99 years; and
  - (D) Appropriates funds into and out of the ALOHA homes revolving fund.

Your Committee received testimony in support of the proposed S.D. 1 from the Hawaii Housing Finance and Development Corporation, Disability and Communication Access Board, Ulupono Initiative, Chamber of Commerce Hawaii, Iron Workers Stabilization Fund, Building Industry Association of Hawaii, LGBT Caucus of the Democratic Party of Hawaii, and one individual. Your Committee received testimony in opposition to the proposed S.D. 1 from the City and County of Honolulu Department of Planning and Permitting, Friends of Makakilo, IATSE Local 665, and five individuals. Your Committee received comments on the proposed S.D. 1 from the Department of the Attorney General, Department of Budget and Finance, and Department of Hawaiian Home Lands.

Your Committee finds that there is a severe lack of affordable housing, resulting in residents leaving Hawaii in hopes of better living conditions. Reports have shown that the State would need at least 65,000 new housing units to solve the shortage. However, there has been a lack of measureable progress at the state and county level to enact policies that will stimulate housing production to meet this projected demand.

Your Committee further finds that there are significant barriers to the development of affordable housing in Hawaii, such as geographic limitations, lack of major infrastructure, and government regulation. Your Committee acknowledges that the State has been putting more emphasis on creating more affordable housing but despite these efforts, the amount of new and affordable housing, especially for low- to middle-income families, continues to be inadequate. The proposed S.D. 1 dramatically expands the production of housing units and provides an innovative means of providing more affordable housing to residents of the State.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- Deleting the requirement that urban redevelopment sites shall include all county-owned lands within a transit-oriented development area;
- (2) Amending the principles generally governing HHFDC's action in the urban redevelopment site;
- (3) Requiring, rather than authorizing, HHFDC to transfer ALOHA homes units to the Department of Hawaiian Home Lands and Office of Hawaiian Affairs; provided that HHFDC adopts rules to determine the number of units or percentage of units to be transferred:
- (4) Excluding lands set aside by the Governor to the Hawaii Public Housing Authority or lands to which the Hawaii Public Housing Authority in its corporate capacity holds title from the definition of "public lands" in chapter 171, Hawaii Revised Statutes;
- (5) Requiring prior legislative approval for the sale of lands to which the Hawaii Public Housing Authority holds title; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes the concerns expressed by several testifiers that this measure would include bus stops as a public transit station, essentially allowing transit-oriented development to occur throughout the State. Your Committee finds that as currently drafted, this measure does not include bus stops in the definition of a "public transit station" as it is defined as a "station of the Honolulu rail transit system" and therefore your Committee believes that those concerns have been addressed.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 820, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 820, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 1524 (Joint) Energy, Economic Development, and Tourism and Government Operations on H.B. No. 1586

The purpose and intent of this measure is to:

- (1) Establish a new Department of Environment as a principal state department; and
- (2) Transfer certain agencies and programs administered by the Department of Health and Department of Business, Economic Development, and Tourism to the Department of Environment.

Your Committees received testimony in support of this measure from the O'ahu Island Parks Conservancy and Blue Planet Foundation. Your Committees received comments on this measure from Ulupono Initiative.

Prior to decision making on this measure, your Committees made available for public review a proposed S.D. 1, which deletes the contents of this measure and inserts language that:

- (1) Establishes a new Hawaii State Energy Office;
- (2) Establishes a new position of Deputy Director of Energy, who shall also serve as the Energy Resources Coordinator, and the Deputy Director's duties;
- (3) Repeals the distribution of barrel tax revenue and fossil fuel tax on distributors revenue to the energy security special fund and increases distributions from both to the energy systems development special fund;
- (4) Appropriates funds for the Hawaii State Energy Office; and
- (5) Inserts an effective date of July 1, 2050.

Your Committees received comments on the proposed S.D. 1 from the Department of Business, Economic Development, and Tourism and Ulupono Initiative.

Your Committees find that the management and direction of the state energy sector is becoming increasingly complex and critical. Your Committees also find that statewide coordination and the establishment of a state agency specifically tasked with reducing and managing the State's energy use is necessary. This measure establishes the Hawaii State Energy Office and defines the duties of the Deputy Director of Energy, which will help further Hawaii's clean energy initiative.

Your Committees have amended this measure by:

- (1) Inserting a purpose section;
- (2) Establishing the Hawaii State Energy Office within the Department of Business, Economic Development, and Tourism;
- (3) Establishing duties, roles, and reporting requirements for the Hawaii State Energy Office;
- (4) Repealing the establishment of the Energy Resources Coordinator position, the Coordinator's powers and duties, and the establishment of the Renewable Energy Facilitator position, and transferring some of the powers and duties of the Energy Resources Coordinator to the Deputy Director of Energy;
- (5) Establishing powers and duties of the Deputy Director of Energy and making the appointment of the Deputy Director of Energy subject to the advice and consent of the Senate;
- (6) Amending the allowable uses of the energy security special fund to disallow the use of funds for staffing costs;
- (7) Reinstating the existing statutory allocations of barrel tax revenue and fossil fuel tax on distributors revenue; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1586, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1586, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair and President on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Fevella).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Kanuha, Fevella).

## SCRep. 1525 (Majority) Commerce, Consumer Protection, and Health on H.B. No. 1539

The purpose and intent of this measure is to dissolve the Oahu Regional Health Care System and transfer its duties, functions, and personnel to the Hawaii Health Systems Corporation Board of Directors.

Your Committee received testimony in support of this measure from the Board of Directors of the Hawaii Health Systems Corporation, West Hawaii Region of the Hawaii Health Systems Corporation, and nine individuals. Your Committee received testimony in opposition to this measure from the Oahu Regional Hawaii Health System Board of Directors; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and twenty-seven individuals. Your Committee received comments on this measure from the East Hawaii Regional Board of the Hawaii Health Systems Corporation.

Your Committee finds that the regional autonomy of having five semi-independent regions, one each for Kauai, Maui, East Hawaii, West Hawaii, and Oahu, has been more successful on the neighbor islands than for Oahu. Oahu is unique in the regional system because of the logistical complexities of the Oahu Region's facilities and the limited but crucial nature of the services these facilities provide. The two Oahu region facilities, Leahi Hospital and Maluhia Hospital, are long-term care facilities that play an important role

in their communities where long-term care needs are high. Furthermore, your Committee notes that the Oahu region facilities fill a gap in services by providing care to Medicaid and other low income populations traditionally underserved by private facilities.

It is the intent of your Committee to continue the regional autonomy of the Oahu Region under its board and not repeal the Oahu Regional Board at this time. Your Committee finds there are concerns about the long-term viability of the Oahu Region but that the Oahu Regional Board is working to address those concerns and needs additional time for its plans to come to fruition. While this measure is the beginning of a transition plan for the Oahu Region to exit the Hawaii Health Systems Corporation in five years, it is the intention of your Committee that it be implemented only if, after receiving a final report on long-term financial viability from the Oahu Regional Board, the Legislature continues to have concerns about the viability of the Oahu Region.

Your Committee has amended this measure by:

- (1) Amending the composition of the Hawaii Health Systems Corporation Board to include five, rather than two, members who reside on the Island of Oahu and two, rather than three, members who reside in the County of Maui;
- (2) Creating a right of first refusal for the Department of Health, Governor's Coordinator on Homelessness, and Mayor of the City and County of Honolulu to purchase the property or rights to the lease if the Hawaii Health Systems Corporation Board fully or partially privatizes Leahi or Maluhia Hospital;
- (3) Clarifying that an exempt employee transferred as a consequence of this measure shall be entitled to remain employed in the employee's current position for a period of no less than one year after being transferred;
- (4) Requiring the Oahu Regional Board to create a five-year sustainability plan in consultation with the Behavioral Health Services Administration of the Department of Health, Governor's Coordinator on Homelessness, and City and County of Honolulu and submit interim and final reports regarding the plan to the Legislature;
- (5) Specifying the contents of the sustainability plan, including maximizing unmet health and treatment needs for Oahu's vulnerable populations and requiring the Oahu Regional Board to approve any steps taken toward full or partial privatization and continue managing its facilities;
- (6) Changing its effecting date to July 1, 2019, and inserting a sunset date of July 1, 2024, for the Oahu Regional Health Care System, and transferring its duties, functions, and personnel to the Hawaii Health Systems Corporation Board of Directors at that time, unless the Legislature adopts a Concurrent Resolution prior to June 30, 2024, finding that retention of the Oahu Regional Board is in the best interest of the State; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1539, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1539, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5; Ayes with Reservations (Fevella). Noes, 1 (Chang). Excused, 1 (Nishihara).

## SCRep. 1526 Technology on Gov. Msg. Nos. 548, 549, and 550

Recommending that the Senate advise and consent to the nominations of the following:

# ENHANCED 911 BOARD

G.M. No. 548 ALLISON BLAKE, for a term to expire 06-30-2020;

G.M. No. 549 ELLIOTT KE, for a term to expire 06-30-2020; and

G.M. No. 550 FRANCIS ALUETA, for a term to expire 06-30-2020

Your Committee reviewed the personal histories, resumes, and statements submitted by Allison Blake, Elliott Ke, and Francis Alueta for service on the Enhanced 911 Board.

# ALLISON BLAKE

Your Committee received testimony in support of the nomination for the appointment of Allison Blake from the Department of Accounting and General Services, Enhanced 911 Board, Maui Police Department, Verizon Wireless, and one individual.

Upon review of the testimony, your Committee finds that Ms. Blake's experience in wireless communications, commitment to public service, and proven leadership qualify her for appointment to the Enhanced 911 Board. Your Committee notes that Ms. Blake has been the District Manager of Sprint for over a decade. Ms. Blake has a Bachelor of Arts degree in Business Management and a Master of Business Administration degree in International Management. Your Committee finds that Ms. Blake's appointment fulfills the statutory requirement of representation on the Enhanced 911 Board from a wireless communications service provider.

## ELLIOTT KE

Your Committee received testimony in support of the nomination for the appointment of Elliott Ke from the Department of Accounting and General Services, Enhanced 911 Board, Maui Police Department, Verizon Wireless, and two individuals.

Upon review of the testimony, your Committee finds that Mr. Ke's experience in law enforcement, commitment to public service, and proven leadership qualify him for appointment to the Enhanced 911 Board. Your Committee notes that Mr. Ke currently serves as the Kauai Police Department Captain of the Office of the Chief of Police. Mr. Ke's law enforcement experience ranges from the Investigative Services Bureau to Patrol Services Bureau to the Office of Professional Standards and Criminal Intelligence Unit. Your

Committee finds that Mr. Ke's appointment fulfills the statutory requirement of representation on the Enhanced 911 Board from the Kauai Public Safety Answering Point.

### FRANCIS ALUETA

Your Committee received testimony in support of the nomination for the appointment of Francis Alueta from the Department of Accounting and General Services, Enhanced 911 Board, Maui Police Department, Hawaiian Telcom, Verizon Wireless, and fifteen individuals.

Upon review of the testimony, your Committee finds that Mr. Alueta's experience in network engineering and telecommunications management, commitment to public service, and proven leadership qualify him for appointment to the Enhanced 911 Board. Your Committee notes that Mr. Alueta currently works as the Director of Network Reliability for Hawaiian Telcom and has worked in network engineering and operations for over two decades. Mr. Alueta has a Bachelor of Science degree in Electrical Engineering and a Master of Science degree in Telecommunication Management. Your Committee finds that Mr. Alueta's appointment fulfills the statutory requirement of representation on the Enhanced 911 Board from a public utility providing telecommunications services and land line enhanced 911 services.

As affirmed by the records of votes of the members of your Committee on Technology that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 1527 Technology on Gov. Msg. No. 581

Recommending that the Senate advise and consent to the nomination of the following:

### CHIEF INFORMATION OFFICER OF THE DEPARTMENT OF ACCOUNTING AND GENERAL SERVICES

G.M. No. 581 DOUGLAS G. MURDOCK, for a term to expire at noon on 12-05-2022

Your Committee reviewed the personal history, resume, and statement submitted by Douglas G. Murdock for service as the Chief Information Officer.

Your Committee received testimony in support of the nomination for the appointment of Douglas G. Murdock from the Governor, Department of Accounting and General Services, Department of Agriculture, Department of Health, Department of Human Resources Development, Department of Labor and Industrial Relations, Department of Transportation, Department of Hawaiian Home Lands, Office of Enterprise Technology Services, Transform Hawaii Government, and fourteen individuals.

Upon review of the testimony, your Committee finds that Mr. Murdock's legal, business, and government experience, desire to contribute to the community, and previous leadership experience qualify him for appointment as the Chief Information Officer. Mr. Murdock currently serves as the Chief Technology Officer of the Department of Human Services. Your Committee notes that Mr. Murdock has previously served, among other positions, as the Comptroller, System Analyst Lead of the Payroll Modernization Project under the Department of Accounting and General Services, member of the Hawaii Procurement Policy Board, and Vice President of Administrative and Fiscal Affairs of the Hawaii Tourism Authority. Additionally, Mr. Murdock served over twenty-five years in the United States Air Force. Mr. Murdock has provided advice to high-ranking government officials and business leaders on procurement, ethics, regulatory compliance, strategic planning, information technology, and business operations.

Testifiers commented that Mr. Murdock is collaborative, knowledgeable, dedicated, well-qualified, and well-credentialed. Your Committee finds that Mr. Murdock brings to the Department extensive leadership experience with state and federal government and the private sector that will assist the State in reaching its goals of enterprise-wide information technology advancements and modernization.

As affirmed by the record of votes of the members of your Committee on Technology that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 1528 Ways and Means on Gov. Msg. No. 602

Recommending that the Senate advise and consent to the nomination of the following:

# **DIRECTOR, DEPARTMENT OF TAXATION**

G.M. No. 602 Linda Chu Takayama, for a term to expire 12-05-2022

Your Committee reviewed the personal statement and resume submitted by Linda Chu Takayama for service as Director of Taxation.

Your Committee received testimony in support of the nomination of Linda Chu Takayama from the Office of the Governor; Department of Defense; Department of Human Resources and Development; Department of Health; Department of Business, Economic Development, and Tourism; Department of Labor and Industrial Relations, Workforce Development Division; Department of Accounting and General Services; Department of Transportation; Department of Human Services; Department of Agriculture; Department of Public Safety; Department of Hawaiian Home Lands; Department of Labor and Industrial Relations; Office of Enterprise Technology Services; Hawaii Pacific Health; Oahu County Democrats; Hawaii Carpenters Apprenticeship and Training Fund; Hawaii Medical Service Association; and numerous individuals.

Upon review of the testimony and the nominee's qualifications, your Committee finds that in addition to the nominee's leadership as Director of Taxation and, prior to that, Director of Labor and Industrial Relations, the nominee's knowledge of business, accounting, and taxation qualify her to continue to serve as Director of Taxation. Your Committee notes that Ms. Takayama's professional experience also includes assignments as lead for economic development at the City and County of Honolulu, Deputy Director of Commerce and Consumer Affairs, Insurance Commissioner for the State of Hawaii, and Chief of Staff for the United States Senate Sergeant-at-Arms.

Your Committee finds that Linda Chu Takayama's extensive executive experience will benefit the Department of Taxation as it enters the final phase of the Tax System Modernization project, a multi-year effort that is projected to be completed on schedule.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Harimoto, Kahele, Shimabukuro, Taniguchi).

### SCRep. 1529 Ways and Means on Gov. Msg. No. 603

Recommending that the Senate advise and consent to the nomination of the following:

## DEPUTY DIRECTOR OF THE DEPARTMENT OF TAXATION

G.M. No. 603 DAMIEN A. ELEFANTE, for a term to expire at noon on 12-05-2022

Your Committee reviewed the personal statement and resume submitted by Damien Elefante for service as the Deputy Director of the Department of Taxation.

Your Committee received testimony in support of the nomination from the Office of the Governor; Department of Defense; Department of Human Resources and Development; Department of Business, Economic Development, and Tourism; Department of Human Services; Department of Accounting and General Services; Department of Transportation; Department of Accounting and General Services; Department of Public Safety; Department of Agriculture; Department of Hawaiian Home Lands; Office of Enterprise Technology Services; and numerous individuals.

Upon review of the testimony and the nominee's qualifications, your Committee finds that the nominee has served as the Deputy Director of Taxation since August 2016. Your Committee notes that the nominee previously served as Compliance Coordinator for the Department of Taxation; Deputy Attorney General, focusing on tax-related cases; Associate Attorney at Hiska Stone Goto Yoshida Cosgrove and Ching; and law clerk for Chief Judge James S. Burns at the Intermediate Court of Appeals. Your Committee also notes that the nominee earned a Bachelor of Arts degree in political science from the University of Hawaii at Manoa and a law degree from Syracuse University College of Law.

Your Committee finds that Damien Elefante's education and extensive experience in law, taxation, and public service will make him an effective Deputy Director of Taxation.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 9; Ayes with Reservations (Riviere). Noes, none. Excused, 4 (Harimoto, Kahele, Shimabukuro, Taniguchi).

# SCRep. 1530 Commerce, Consumer Protection, and Health on S.C.R. No. 200

The purpose and intent of this measure is to request the Public Utilities Commission to approve a subsidy through utility rates for reasonable ratemaking treatment to lessen the burden of energy costs on low- and limited-income and special medical needs customers.

Your Committee received testimony in support of this measure from the Department of Human Services; Hawaiian Electric Company, Inc.; Maui Economic Opportunity, Inc.; Parents and Children Together; Aloha United Way; Honolulu Community Action Program, Inc.; Helping Hands Hawai'i; and Hospice Hawai'i. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Public Utilities Commission.

Your Committee finds that Hawaii's high cost of living greatly affects the low-income population and utility customers with special medical needs. Although the rates for rent and mortgages in Hawaii are the highest in the nation, the median earnings are only slightly higher than the United States median at \$46,978 per year. Utility costs associated with special medical needs, such as life support equipment or increased cooling due to a medical condition, can be unrelenting and can easily cause an individual or family to lose their financial stability. This measure lays the framework for electric utility companies to pursue programs to help low-income and special medical needs customers and allows the Public Utilities Commission to approve a subsidy through ratemaking to help lessen the burden of energy costs for underserved customers.

Your Committee notes the testimony from the Department of Commerce and Consumer Affairs expressing concern that there are already a number of existing programs that provide assistance for low-income customers and requiring the Commission to approve one specific subsidy model may not be sustainable and could result in unintended consequences. The Department of Commerce and Consumer Affairs testified that providing the Commission with more flexibility will help ensure that all customers benefit and that, where necessary, innovative and cost-effective solutions that do not result in unintended consequences are explored and developed. Therefore, amendments to this measure are necessary to address these concerns.

Your Committee has amended this measure by:

- (1) Clarifying that the Public Utilities Commission is requested to consider, rather than approve, reasonable ratemaking treatment and cost-effective solutions to lessen the burden of energy costs on low- and limited-income and special medical needs customers:
- (2) Requesting that the Public Utilities Commission and interested stakeholders to explore cost-effective solutions;
- (3) Amending its title in accordance with its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 200, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 200, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

#### SCRep. 1531 Commerce, Consumer Protection, and Health on H.B. No. 68

The purpose and intent of this measure is to prohibit a merchant in the State from adopting a warranty policy that requires a purchaser to pay an additional fee to obtain a repair, replacement, or refund for goods returned pursuant to the warranty.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Protection. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii.

Your Committee finds that some merchants charge consumers a "warranty processing fee" even when a warranted product is being returned because of a manufacturer's defect. Your Committee further finds that shifting the cost to process a return, replacement, or refund for a defective product onto a consumer is inappropriate, as these fees should be borne by the merchant. Accordingly, this measure prohibits a merchant in the State from collecting fees or making a consumer pay to obtain a repair, replacement, or refund for goods returned pursuant to a manufacturer's warranty.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2019; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 68, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 68, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Fevella).

# SCRep. 1532 Commerce, Consumer Protection, and Health on H.B. No. 314

The purpose and intent of this measure is to require a gift certificate issuer to redeem the remaining value of a gift certificate for cash if the gift certificate has a balance of less than \$5.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committee received testimony in opposition to this measure from the Hawai'i Restaurant Association, Retail Merchants of Hawaii, and Hawaii Food Industry Association.

Your Committee finds that after a consumer uses a gift card, there may be a small balance remaining that often goes unused or forgotten or is lost upon loss of the gift card. In addition, many consumers may purposefully discard a gift card with a negligible balance because they would not find any value in keeping a gift card with such small purchasing power. This is supported by statistics issued by Consumer Reports, which reported that billions of dollars are left unspent and unredeemed on gift certificates in the United States each year. Your Committee notes that existing law states that balances left on unredeemed gift certificates do not belong to the merchant. Rather, the balances remaining after the expiration date are turned over to the State as unclaimed property. Consequently, requiring merchants to provide the balance as cash to customers does not deprive merchants of anything to which they are entitled and in fact facilitates the disposition of funds that might otherwise have to be turned over to the State as unclaimed property. This measure requires a gift certificate issuer to redeem the remaining value of a gift certificate for cash if the gift certificate has a balance of less than \$5, thereby helping to ensure that consumers receive the full benefit of a gift certificate.

Your Committee has amended this measure by inserting an effective date of January 1, 2020.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 314, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 314, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6; Ayes with Reservations (Ruderman). Noes, none. Excused, 1 (Fevella).

## SCRep. 1533 Judiciary on H.B. No. 165

The purpose and intent of this measure is to require a candidate committee or noncandidate committee to inform the Campaign Spending Commission if the candidate committee or noncandidate committee does not intend to receive or spend more than \$1,000 in an election period.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and League of Women Voters of Hawaii.

Your Committee finds that requiring candidate and noncandidate committees to file preliminary and final preliminary reports when they do not intend to make substantial expenditures or contributions during an election period is not necessary. Your Committee further finds that without knowledge of that intent, the Campaign Spending Commission is required to track such candidate and noncandidate committees, generate notices of late reports, and assess fines for failure to submit those reports. This measure will require candidate and noncandidate committees who intend to make expenditures or contributions of less than \$1,000 during an election period to notify the Campaign Spending Commission of that intent.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 165, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 1534 Higher Education on S.C.R. No. 77

The purpose and intent of this measure is to encourage the Legislature to fund the Hawaii rural health care provider loan repayment program.

Your Committee received testimony in support of this measure from the University of Hawai'i System and Office of the Mayor of the County of Hawai'i.

Your Committee finds that many residents of Hawaii are increasingly unable to obtain timely and appropriate health care due to a shortage of primary health care providers in the State. This may be the result of the increasingly high cost of health care professional education, which often requires individuals to seek out the higher incomes that allow them to repay their student loans in specialty care in urban areas and not in the areas of greatest need in Hawaii. Your Committee further finds that since September 1, 2012, at least twenty-five health care providers have received loan repayment to work in health professional shortage areas in Hawaii and are still serving these communities through the Hawaii rural health care provider loan repayment program. Therefore, further funding is needed to continue the Hawaii rural health care provider loan repayment program to provide loan repayment for physicians, physician assistants, and nurse practitioners who agree to work in a federally designated health professional shortage area or an area of Hawaii found to be underserved.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 77, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 77, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Kahele).

# SCRep. 1535 Higher Education on S.R. No. 54

The purpose and intent of this measure is to encourage the Legislature to fund the Hawaii rural health care provider loan repayment program.

Your Committee received testimony in support of this measure from the University of Hawai'i System and Office of the Mayor of the County of Hawai'i.

Your Committee finds that many residents of Hawaii are increasingly unable to obtain timely and appropriate health care due to a shortage of primary health care providers in the State. This may be the result of the increasingly high cost of health care professional education, which often requires individuals to seek out the higher incomes that allow them to repay their student loans in specialty care in urban areas and not in the areas of greatest need in Hawaii. Your Committee further finds that since September 1, 2012, at least twenty-five health care providers have received loan repayment to work in health professional shortage areas in Hawaii and are still serving these communities through the Hawaii rural health care provider loan repayment program. Therefore, further funding is needed to continue the Hawaii rural health care provider loan repayment program to provide loan repayment for physicians, physician assistants, and nurse practitioners who agree to work in a federally designated health professional shortage area or an area of Hawaii found to be underserved.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 54, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 54, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Kahele).

## SCRep. 1536 Higher Education on S.C.R. No. 82

The purpose and intent of this measure is to encourage the University of Hawaii John A. Burns School of Medicine to study the impact and feasibility of creating a teaching hospital in West Hawaii.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Hawai'i. Your Committee received comments on this measure from the University of Hawai'i System.

Your Committee finds that Hawaii faces a growing shortage of physicians who can provide direct care to patients. Additionally, the County of Hawaii has a large and medically underserved rural community. Your Committee further finds that a teaching hospital on Hawaii island may help to attract and retain a high-quality, diverse physician workforce to the State and provide a broader and more complete network of care for individuals in the community. Therefore, because of the potential benefits of a teaching hospital on Hawaii island, it is important to investigate the feasibility and impact that establishing a teaching hospital may have on the Hawaii island community and the State.

Your Committee has amended this measure by:

- Inserting language that requests the University of Hawaii John A. Burns School of Medicine to collaborate with the Hawaii
  Health Systems Corporation to conduct the study on the impact and feasibility of creating a teaching hospital in West Hawaii;
- (2) Amending its title accordingly; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 82, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 82, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Kahele).

### SCRep. 1537 Higher Education on S.R. No. 59

The purpose and intent of this measure is to encourage the University of Hawaii John A. Burns School of Medicine to study the impact and feasibility of creating a teaching hospital in West Hawaii.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Hawai'i. Your Committee received comments on this measure from the University of Hawai'i System.

Your Committee finds that Hawaii faces a growing shortage of physicians who can provide direct care to patients. Additionally, the County of Hawaii has a large and medically underserved rural community. Your Committee further finds that a teaching hospital on Hawaii island may help to attract and retain a high-quality, diverse physician workforce to the State and provide a broader and more complete network of care for individuals in the community. Therefore, because of the potential benefits of a teaching hospital on Hawaii island, it is important to investigate the feasibility and impact that establishing a teaching hospital may have on the Hawaii island community and the State.

Your Committee has amended this measure by:

- (1) Inserting language that requests the University of Hawaii John A. Burns School of Medicine to collaborate with the Hawaii Health Systems Corporation to conduct the study on the impact and feasibility of creating a teaching hospital in West Hawaii;
- (2) Amending its title accordingly; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 59, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 59, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Kahele).

# SCRep. 1538 Higher Education on S.C.R. No. 125

The purpose and intent of this measure is to urge the University of Hawaii, in consultation with its facilities offices, the Department of Accounting and General Services, and industry representatives, to develop an integrated plan to provide certificates, degrees, and associated pathways in the areas of facilities maintenance and construction management.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee finds that the State currently has a deferred maintenance backlog valued at approximately \$4,000,000,000 and faces a shortage of qualified candidates for numerous vacant building facility manager and maintenance worker positions. This shortage may be the result of a lack of a formal training pipeline for building facilities maintenance and construction management positions. Increasing the number of qualified individuals in the area of facilities maintenance and construction management through academic pathways and professional development can help address the high vacancy rates across public and private industries and ensure employee retention in these critical jobs.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 125 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Kahele).

## SCRep. 1539 Higher Education on S.R. No. 95

The purpose and intent of this measure is to urge the University of Hawaii, in consultation with its facilities offices, the Department of Accounting and General Services, and industry representatives, to develop an integrated plan to provide certificates, degrees, and associated pathways in the areas of facilities maintenance and construction management.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee finds that the State currently has a deferred maintenance backlog valued at approximately \$4,000,000,000 and faces a shortage of qualified candidates for numerous vacant building facility manager and maintenance worker positions. This shortage may be the result of a lack of a formal training pipeline for building facilities maintenance and construction management positions. Increasing the number of qualified individuals in the area of facilities maintenance and construction management through academic pathways and professional development can help address the high vacancy rates across public and private industries and ensure employee retention in these critical jobs.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 95 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Kahele).

## SCRep. 1540 (Joint) Human Services and Public Safety, Intergovernmental, and Military Affairs on S.C.R. No. 62

The purpose and intent of this measure is to request the Coordinator on Homelessness and the City and County of Honolulu to come together and prioritize the homeless efforts in the area surrounding the Hawaii Children's Discovery Center by convening a task force.

Your Committees received testimony in support of this measure from the Hawaii Children's Discovery Center and nine individuals. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness and Hawaii Community Development Authority.

Your Committees find that children's museums play a significant role in promoting lifelong learning and serve as important cultural resources within the community. The Hawaii Children's Discovery Center (Center) is the first and only children's museum in the State. The Center's mission is to bring information and experiences about the world to the children of Hawaii and instill in Hawaii's children pride in themselves and their ethnic and cultural heritage. The Center is a popular visitor attraction for families with children of all ages and a place where they can experience, explore, investigate, and discover things about themselves and the world around them in a creative and fun environment that includes hands-on, interactive exhibits.

Your Committees further find that the Center has experienced extreme hardships due to the homeless population that surrounds the perimeter of the building. The Center's financial resources are allocated for maintenance and repair issues as a result of trespassing, vandalism, and theft on the property. The safety of the children that enter and leave the Center is a concern since the areas around the Center are often unsanitary and there are reports of violence, drug dealing, crime, and other illicit behavior that goes on in the surrounding homeless encampments. Coordinated efforts by the City and State, together with social service agencies and health care providers, have not provided any long-term solution to this problem. The homeless encampments have become so detrimental to the Center and its patrons that the Center may be forced to close. This measure requests the Coordinator on Homelessness and the City and County of Honolulu to establish a task force to come up with strategies to assist individuals and families facing homelessness around the Center and protect the Center from the effects of homelessness, which would allow the Center to be the safe haven it was intended to be for children who come to the Center to learn through play.

Your Committees have amended this measure by:

- Amending the composition of the task force to include one representative each from the Family Assessment Center, Next Step Shelter, and Kalihi Palama Health Center, if willing to serve;
- (2) Making a technical amendment to its title; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 62, as amended herein, and recommend that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 62, S.D. 1.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 3. Noes, none. Excused, 2 (Riviere, Fevella). Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Harimoto).

# SCRep. 1541 Agriculture and Environment on S.C.R. No. 31

The purpose and intent of this measure is to urge the Legislature to designate the Hawaii State Capitol building and its grounds as a single-use plastic free zone.

Your Committee received testimony in support of this measure from the Sierra Club of Hawai'i, Animal Rights Hawai'i, Pele Lani Farm LLC, Keiko Conservation, Zero Waste O'ahu, and three individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that a growing body of scientific literature has identified potential human health hazards from plastics, including the release of carcinogenic chemicals from plastic. Your Committee further finds that micro-plastics are ingested by marine animals and can thereby bring toxic chemicals into food sources and harm marine animals. This measure urges the designation of the State Capitol grounds as a single-use plastic free zone so that the State may lead by example in eliminating single-use plastics.

Your Committee has amended this measure by:

- (1) Replacing references to the Legislature with the State Capitol Management Committee to clarify who will lead the designation of the Hawaii State Capitol as a single-use plastic free zone;
- Removing the reference to creating a working group, to allow the State Capitol Management Committee to decide how to implement the single-use plastic free zone;
- (3) Amending the title to "Senate Concurrent Resolution Urging the State Capitol Management Committee to Designate the Hawaii State Capitol Building and its Grounds as a Single-Use Plastic Free Zone"; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 31, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 31, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella).

# ep. 1542 Agriculture and Environment on S.R. No. 23

The purpose and intent of this measure is to urge the Legislature to designate the Hawaii State Capitol building and its grounds as a single-use plastic free zone.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that a growing body of scientific literature has identified potential human health hazards from plastics, including the release of carcinogenic chemicals from plastic. Your Committee further finds that micro-plastics are ingested by marine animals and can thereby bring toxic chemicals into food sources and harm marine animals. This measure urges the designation of the State Capitol grounds as a single-use plastic free zone so that the State may lead by example in eliminating single-use plastics.

Your Committee has amended this measure by:

- (1) Replacing references to the Legislature with the State Capitol Management Committee to clarify who will lead the designation of the Hawaii State Capitol as a single-use plastic free zone;
- (2) Removing the reference to creating a working group, to allow the State Capitol Management Committee to decide how to implement the single-use plastic free zone;
- (3) Amending the title to "Senate Concurrent Resolution Urging the State Capitol Management Committee to Designate the Hawaii State Capitol Building and its Grounds as a Single-Use Plastic Free Zone"; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 23, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 23, S.D. 1.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella).

# SCRep. 1543 Agriculture and Environment on S.C.R. No. 53

The purpose and intent of this measure is to request the County of Maui to approve the installation and use of composting toilets throughout Maui, especially in remote areas where county sewer line access and cesspool conversion can be cost-prohibitive.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that composting toilets use no water and produce compost that can be used to enrich the soil. Your Committee further finds that in certain areas of Maui, geological features, such as hard volcanic rock and a shallow water table, or the limits of existing infrastructure, have made the use of conventional flush and septic systems impracticable. Your Committee notes that this measure aligns with state law, which already requires the counties to approve the installation and use of composting toilets in areas inaccessible to municipal wastewater systems.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 53 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ruderman, Thielen).

## SCRep. 1544 Agriculture and Environment on S.R. No. 37

The purpose and intent of this measure is to request the County of Maui to approve the installation and use of composting toilets throughout Maui, especially in remote areas where county sewer line access and cesspool conversion can be cost-prohibitive.

Your Committee received testimony in support of this measure from one individual.
