### SPECIAL COMMITTEE REPORTS

## Spec. Com. Rep. No. 1

Your Committee on Credentials begs leave to report that it has examined the Certificates of Election of the Senate of the Thirtieth Legislature of the State of Hawaii, Regular Session of 2019, and finds that the following persons have been legally elected and are fully qualified to sit as members of the Senate.

The newly elected Senator whose respective term of office will expire on November 3, 2020, is:

Nineteenth Senatorial District

Kurt Fevella

The newly elected Senators whose respective terms of office will expire on November 8, 2022, are:

First Senatorial District

Kaiali'i Kahele

Third Senatorial District

Dru Mamo Kanuha

Fourth Senatorial District

Lorraine R. Inouye

Sixth Senatorial District

Rosalyn H. Baker

Seventh Senatorial District

J. Kalani English

Twelfth Senatorial District

Sharon Y. Moriwaki

Sixteenth Senatorial District

Breene Harimoto

Seventeenth Senatorial District

Clarence K. Nishihara

Eighteenth Senatorial District

Michelle N. Kidani

Twenty-First Senatorial District

Maile S.L. Shimabukuro

Twenty-Third Senatorial District

Gil Riviere

Twenty-Fourth Senatorial District

Jarrett Keohokalole

Signed by Senators Chang, Dela Cruz, and Keith-Agaran, members of the Committee on Credentials

#### CONFERENCE COMMITTEE REPORTS

### Conf. Com. Rep. 1 on H.B. No. 2

Your Committee on Conference has approved a Conference Draft of the executive budget that appropriates \$15,356,469,263 in all funds, inclusive of \$7,925,622,466 in general funds, for fiscal year 2019-2020 and \$15,543,655,581 in all funds, inclusive of \$8,141,445,737 in general funds, for fiscal year 2020-2021.

	Fiscal Year 2019-2020		Fiscal Year 2020-2021	
	All Funds	General Funds	All Funds	General Funds
Executive Budget Act 53, SLH 2018	\$14,438,080,109	\$7,512,285,586	\$14,438,080,109	\$7,512,285,586
Net Change	\$918,389,154	\$413,336,880	\$1,105,575,472	\$629,160,151
Total Appropriation	\$15,356,469,263	\$7,925,622,466	\$15,543,655,581	\$8,141,445,737

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Keith-Agaran, English, Harimoto, Inouye, Kahele, Kanuha, Kidani, Moriwaki, Riviere, Shimabukuro, Taniguchi and Fevella.

Managers on the part of the Senate.

Ayes, 13. Noes, none. Excused, none.

Representatives Luke, Cullen, Eli, Gates, Hashimoto, Holt, Kitagawa, B. Kobayashi, Matayoshi, Nakamura, Nishimoto, Todd, Wildberger, Yamashita and McDermott.

Managers on the part of the House.

Ayes, 13. Noes, none. Excused, 2 (B. Kobayashi, Nakamura).

#### Conf. Com. Rep. 2 on H.B. No. 330

The purpose of this measure is to appropriate funds for the counties of Kauai, Hawaii, and Maui to support youth suicide early intervention, prevention, and education initiatives.

Your Committee on Conference has amended this measure by:

- (1) Removing specific references to the counties of Kauai, Hawaii, and Maui to allow for statewide youth suicide early intervention, prevention, and education initiatives;
- (2) Appropriating \$150,000 for the youth suicide early intervention, prevention, and education initiatives;
- (3) Changing the effective date to July 1, 2019; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

Your Committee on Conference notes that the intent of this measure is to support efforts to reduce the rates of youth suicide attempts on a statewide level.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 330, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 330, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs and Speaker of the House of Representatives on behalf of the Committee.

Senators Baker, Dela Cruz and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Nakamura, Eli, Gates, Morikawa, Todd and Ward.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, 1 (Ward).

## Conf. Com. Rep. 3 on H.B. No. 170

The purpose of this measure is to provide additional clarity and consistency in the administration and enforcement of the State's ethics laws and promote integrity in state government. Specifically, this measure:

- (1) Clarifies the application of the fair treatment and conflict of interest laws with respect to legislators and task force members;
- (2) Requires the State Ethics Commission to adopt rules regarding the fair treatment laws and the public disclosures required of task force members.

Your Committee on Conference has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 170, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 170, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Kim and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Lee, Morikawa and Thielen.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

#### Conf. Com. Rep. 4 on H.B. No. 1028

The purpose of this measure is to expand the types of revenues the Department of Land and Natural Resources may receive to create additional revenue for endangered species protection.

Your Committee on Conference has amended this measure by making a technical, nonsubstantive amendment for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1028, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1028, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kahele, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Lowen, Yamane, Wildberger, Har and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Yamane, Thielen).

## Conf. Com. Rep. 5 on S.B. No. 1037

The purpose of this measure is to amend the offense of abuse of a family or household member by amending the type of physical abuse that constitutes strangulation to include blocking the nose and mouth or applying pressure to the chest, as well as clarifying that bodily injury must result.

Your Committee on Conference finds that strangulation is highly dangerous and potentially deadly form of abuse. Your Committee on Conference further finds that including blockage of the nose and mouth or applying pressure to the chest as additional possible elements to establish the crime will enable more successful prosecution of strangulation cases in the context of domestic violence. Your Committee on Conference notes that, although this measure explicitly provides that bodily injury need not be visible to establish the offense, it is not the intention of your Committee on Conference that other offenses that include bodily injury as an element be construed to require visible bodily injury.

Your Committee on Conference has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1037, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1037, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Gabbard, Kim and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Gabbard).

Representatives Lee, Morikawa, San Buenaventura and Thielen.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

## Conf. Com. Rep. 6 on S.B. No. 413

The purpose of this measure is to specify that, for purposes of making a complaint for criminal trespass in the second degree on commercial premises, evidence of a prior "reasonable warning or request" to leave the premises may be evidenced by a copy of the previously issued written warning or request, whether or not the copy is posted at the premises or retained by the county police department.

Your Committee on Conference finds that police officers enforcing the law against a person who has previously been issued a reasonable warning or request to leave and who subsequently violates that warning or request have sometimes required the owner or lessee of the commercial premises to be present and in possession of the original copy of the prior written warning or request to leave, before allowing a complaint to be made. This measure will clarify that a copy of a reasonable warning or request is sufficient for the purposes of making a complaint for criminal trespass in the second degree on commercial premises.

Your Committee on Conference has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 413, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 413, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Gabbard, Kim and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Gabbard).

Representatives Lee, Brower, Morikawa, Say and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Brower, Say).

#### Conf. Com. Rep. 7 on S.B. No. 947

The purpose of this measure is to prohibit the disability of a parent or caregiver from being the sole factor in determining fitness as a foster parent, adoptive parent, guardian, parent seeking custody or visitation, or provider of a safe family home.

Your Committee on Conference finds that the court makes a decision regarding the custody, visitation, adoption, or guardianship of a child based on the welfare and best interests of the child. However, in making that determination, the disability of a parent or guardian should not be the basis for denial or restriction of custody, visitation, adoption, or guardianship of a child. This measure expressly prohibits the disability of a parent or guardian from being the sole factor in determining fitness.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 947, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 947, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ruderman, Rhoads, Riviere and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives San Buenaventura, Lee and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

### Conf. Com. Rep. 8 on S.B. No. 1525

The purpose of this measure is to make permanent the licensure requirements for home care agencies licensed by the Department of Health.

Your Committee on Conference finds that home care agencies provide home-based non-health care services that enable independent but elderly or disabled persons to remain in their homes. Under existing law, Department of Health licensure requirements for home care agencies include background checks on home care operators and workers and require caregivers to receive instructions and oversight from the home care agency supervisor. Your Committee on Conference further finds that making the Department of Health's licensure requirements for home care agencies permanent is necessary to safeguard the health, safety, and welfare of home care clientele.

Your Committee on Conference has amended this measure by changing its effective date to June 29, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1525, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1525, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Rhoads and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Takumi, Lee, Say and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Ward).

# Conf. Com. Rep. 9 on S.B. No. 494

The purpose of this measure is to dispose of excess general fund revenues pursuant to Article VII, section 6 of the State Constitution.

Specifically, this measure:

- (1) Provides for an income tax credit to every resident individual taxpayer of the State;
- (2) Makes a nominal deposit into the emergency and budget reserve fund established pursuant to section 328L-3, Hawaii Revised Statutes; and

(3) Makes a nominal deposit into the other post-employment benefits trust fund established pursuant to section 87A-42, Hawaii Revised Statutes.

Your Committee on Conference finds that the timely passage of this measure aligns with the Legislature's requirement to dispose of excess general fund revenues pursuant to Article VII, Section 6, of the State Constitution.

Your Committee has amended this measure by:

- (1) Making a deposit of \$5,000,000 into the emergency budget and reserve fund;
- (2) Deleting provisions for an individual income tax credit and a deposit into the other post-employment benefits trust fund;
- (3) Making the measure effective on July 1, 2019; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 494, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 494, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Keith-Agaran and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Luke, Cullen and McDermott. Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

# Conf. Com. Rep. 10 on H.B. No. 551

The purpose of this measure is to extend the lapse dates to June 30, 2020, for funds appropriated to:

- (1) The University of Hawaii to conduct a comprehensive statewide study of sewage contamination in nearshore marine areas; and
- (2) The Department of Health to conduct research or gather technical assistance on issues identified by the Cesspool Conversion Working Group in completing its comprehensive cesspool conversion plan.

Your Committee on Conference has amended this measure by:

- (1) Changing the lapse dates for funds appropriated to the University of Hawaii to conduct its study and the Department of Health to conduct research or gather technical assistance to June 30, 2021;
- (2) Extending the deadline for the Cesspool Conversion Working Group (Working Group) to submit its interim reports to the Legislature to no later than twenty days prior to the convening of the Regular Sessions of 2021 and 2022 and its final report to the Legislature to no later than sixty days prior to the Regular Session of 2023;
- (3) Extending the sunset date of the Working Group to January 14, 2023;
- (4) Extending the deadline for the University of Hawaii Water Resources Research Center and Department of Health to submit their report on sewage contamination in nearshore marine areas to the Working Group and the Legislature to no later than twenty days prior to the convening of the Regular Session of 2022;
- (5) Changing its effective date to June 29, 2019; and
- (6) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 551, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 551, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kim, English and Fevella. Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Lowen, Wildberger, Tarnas and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Thielen).

## Conf. Com. Rep. 11 on S.B. No. 566

The purpose of this measure is to prevent the attachment of objects to fences and other structures without permission, and to facilitate the removal of objects attached in this manner, by prohibiting unauthorized attachment of an object to a fence, gate, or wall.

Your Committee on Conference finds that objects, such as tents and other structures, that obstruct public sidewalks are increasingly being anchored or attached to adjacent personal property, such as fences belonging to private owners of the personal or real property the fence is situated on. Your Committee on Conference further finds that existing law does not appear to empower law enforcement officers to detach these objects from private property.

Your Committee on Conference has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 566, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 566, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Kim, Wakai and Fevella. Ayes, 3. Noes, none. Excused, 1 (Kim).

Managers on the part of the Senate.

Representatives Lee, Morikawa, San Buenaventura and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (San Buenaventura).

## Conf. Com. Rep. 12 on S.B. No. 1210

The purpose of this measure is to adopt the National Association of Insurance Commissioners' (NAIC) Corporate Governance Annual Disclosure Model Act and revisions to the Insurance Holding Company System Regulatory Act to meet accreditation requirements.

Your Committee on Conference finds that this measure updates and improves various areas of the State's insurance laws and is necessary to maintain accreditation with the NAIC. Specifically, this measure adopts the NAIC's Corporate Governance Annual Disclosure Model Act, which ensures that sufficient information on insurers' corporate governance standards is available to assess insurer solvency on an annual basis. This measure also adopts revisions to the NAIC's Insurance Holding Company System Regulatory Act, which provides clear legal authority to a designated state to act as the group-wide supervisor for an internationally active insurance group.

Your Committee on Conference has amended this measure by changing its effective date to January 1, 2020.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1210, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1210, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keohokalole and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Keohokalole).

Representatives Takumi, Nakamura, Cachola and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Matsumoto).

## Conf. Com. Rep. 13 on S.B. No. 772

The purpose of this measure is to:

- (1) Repeal the requirement that there be attached a clear and legible notice, placard, or marker of certain information upon the faucet, spigot, or outlet from which draft beer is drawn; and
- Require rules adopted by the counties related to stacking of beer to define stacking beer on a total volume basis not to exceed twenty-four ounces before a customer at any one time.

Your Committee on Conference finds that restricting the sale of beer unless it is dispensed from a spigot with an individual tap handle showing the manufacturer's name or brand that is visible within ten feet of the spigot is an antiquated requirement that is costly and burdensome for small, independent craft breweries. Modern technologies and other simpler display methods allow small craft breweries to provide significantly more information to consumers than what is on a tap handle. This measure therefore repeals the tap handle requirement and allows beer taps to be identified via other means and reduces the burden on owners of businesses serving craft

Your Committee on Conference further finds that stacking rules, or the amount of alcoholic beverages that can be in front of a single customer at any one time, are not uniform amongst the counties. This measure defines and standardizes stacking of beer based on total volume, rather than the number of drinks that can be served to a customer at one time.

Your Committee on Conference has amended this measure by:

- (1) Changing the maximum standard serving size of beer that may be before a customer at any one time from twenty-four ounces to thirty-two ounces;
- (2) Changing the effective date to July 1, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 772, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 772, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Nishihara and Fevella. Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Takumi, Lee and Matsumoto.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

#### Conf. Com. Rep. 14 on S.B. No. 1263

The purpose of this measure is to amend the Uniform Controlled Substances Act to make it consistent with the federal controlled substances law by:

- (1) Including in Schedule V a controlled substance used to treat certain childhood-onset epilepsy patients; and
- (2) Updating section 329-38(i), Hawaii Revised Statutes, to allow the use of either words or figures to indicate quantity on electronic prescriptions.

Your Committee on Conference finds that this measure conforms Hawaii's Uniform Controlled Substances Act to federal law and regulations, thereby expanding the number of drugs available to physicians to treat certain childhood-onset epilepsy patients and reducing barriers to electronic prescription use in the State.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to upon approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1263, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1263, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Lee, Belatti, Tokioka and Thielen.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, 1 (Belatti).

## Conf. Com. Rep. 15 on H.B. No. 1270

The purpose of this measure is to:

- Clarify that "private hospitals" means all currently operating hospitals, except hospitals operated by or affiliated with the Hawaii Health Systems Corporation and specified charitable hospitals;
- (2) Increase the cap of the hospital sustainability fee to four percent of a hospital's net patient service revenue, net inpatient hospital service revenue, and net outpatient hospital service revenue;
- (3) Remove the exemption from the hospital sustainability fee for outpatient care services for children's hospitals, rehabilitation and psychiatric hospitals, and other hospitals based on their annual net outpatient revenues;
- (4) Extend the Program through fiscal biennium 2019-2021; and
- (5) Appropriate funds out of the Hospital Sustainability Program Special Fund to the Department of Human Services to expend for authorized purposes under the Program.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$88,000,000 for fiscal year 2019-2020 and fiscal year 2020-2021 for the purposes of the Hospital Sustainability Program Special Fund; and
- (2) Changing the effective date to June 29, 2019; provided that sections 7 and 8 of this measure take effect on July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1270, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1270, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ruderman, Baker, Riviere and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives San Buenaventura, Mizuno, Nakamura, Eli and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Eli, Ward).

### Conf. Com. Rep. 16 on H.B. No. 1449

The purpose of this measure is to:

- (1) Extend the Nursing Facility Sustainability Program to 2021;
- (2) Allow the Nursing Facility Sustainability Fee to be used to enhance capitated rates for the purpose of paying quality incentives:
- (3) Increase the Nursing Facility Sustainability Fee limit from 4.0% to 5.5% of net patient service revenue;
- (4) Increase the per resident daily maximum fee from \$13.46 to \$20 for each facility, and increase the per resident reduced daily maximum fee from \$5.85 to \$9 for facilities that meet certain exceptions; and
- (5) Appropriate funds for the Nursing Facility Sustainability Program.

Your Committee on Conference has amended this measure by:

- (1) Changing the appropriation from the Nursing Facility Sustainability Program Special Fund to \$21,000,000; and
- (2) Changing its effective date to June 29, 2019; provided that sections 7 and 8 shall take effect on July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1449, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1449, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ruderman, Baker, Riviere and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives San Buenaventura, Mizuno, Nakamura and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ward).

### Conf. Com. Rep. 17 on S.B. No. 25

The purpose of this measure is to:

- Amend various portions of the Hawaii Insurance Code under title 24, Hawaii Revised Statutes, to update and improve existing Insurance Code provisions; and
- (2) Establish requirements for proposed name changes and use of a trade name or assumed name.

Your Committee on Conference finds that this measure is intended to update and improve various areas of the State's insurance laws. This measure modernizes provisions, removes antiquated systems, and benefits insurers and consumers by removing redundancy, time, and cost barriers.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2019; and
- (2) Changing the sunset date for the provisions that allow the Insurance Division to create stopgap measures to implement the National Association of Insurance Commissioners Health Benefit Plan Network Access and Adequacy Model Act to July 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 25, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 25, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keohokalole and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Keohokalole).

Representatives Takumi, Hashimoto, Cabanilla Arakawa and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Cabanilla Arakawa).

## Conf. Com. Rep. 18 on S.B. No. 1240

The purpose of this measure is to:

(1) Make permanent Act 21, Special Session Laws of Hawaii 2009, which requires the Department of Health to license home care agencies; and

(2) Add an exemption to the Department of Health home care agency licensing requirements for Medicaid waiver provider providing services exclusively to participants in the Medicaid Home and Community-Based Services Waiver for individuals with intellectual and developmental disabilities (HCBS I/DD waiver).

Your Committee on Conference finds that pursuant to federal requirements to safeguard the health, safety, and rights of HCBS I/DD waiver participants, the State has implemented numerous standards, policies, and procedures pertaining to HCBS I/DD waiver program staff training and supervision. One of the state-mandated safeguards requires all personal care services to be performed by people who have the training equivalent to the basic nurse aide course. However, your Committee on Conference notes that because the HCBS I/DD waiver program provides several types of non-medical personal care services, requiring nurse aide training for all providers of services is burdensome and may impact access to services for HCBS I/DD waiver participants. Your Committee on Conference further finds that, given the extensive oversight of HCBS I/DD provider agencies already in place to comply with federal requirements, providing a narrow exemption for agencies that have been approved by the Department of Human Services Med-QUEST Division ensures HCBS I/DD waiver participants receive services from qualified HCBS I/DD waiver provider agencies without unnecessary delay or increased costs.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have made Act 21, Special Session Laws of Hawaii 2009 permanent;
- (2) Changing the effective date to July 1, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1240, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1240, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Ruderman and Fevella. Managers on the part of the Senate. Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives San Buenaventura, Nakamura and Ward.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

#### Conf. Com. Rep. 19 on H.B. No. 990

The purpose of this measure is to clarify that the Department of Defense may continue its community involvement by lending out its facilities to certain entities without incurring a loss to its operating budget by specifying that net proceeds from facilities rentals shall be deposited into the general fund.

Your Committee on Conference has amended this measure by making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 990, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 990, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Kahele and Fevella. Managers on the part of the Senate. Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Takayama, Gates, Kong and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

## Conf. Com. Rep. 20 on H.B. No. 61

The purpose of this measure is to clarify the allocation of payments made by or on behalf of a condominium unit owner and which the owner has paid in excess of any common expenses owed.

Your Committee on Conference has amended this measure by specifying that after outstanding common expenses have been paid, excess payments may be applied to other miscellaneous charges owed to the association, including assessed charges to the unit such as ground lease rent, utility sub-metering, storage lockers, parking stalls, boat slips, insurance deductibles, and cable.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 61, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 61, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none. Representatives Takumi, Lee, Cabanilla Arakawa and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Cabanilla Arakawa).

#### Conf. Com. Rep. 21 on H.B. No. 988

The purpose of this measure is to implement section 106 of the federal Economic Growth, Regulatory Relief, and Consumer Protection Act, P.L. 115-174, and provide 120-day temporary authority to originate mortgage loans to:

- Certain mortgage loan originators, employed in the State by a state-licensed mortgage company who are moving from a
  depository institution to a non-depository institution; and
- (2) Mortgage loan originators licensed in another state moving interstate to Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Inserting a definition of "this State" to clearly indicate the State of Hawaii and be clearly distinguished from the definition of "state," which means any state of the United States, the District of Columbia, or any of the territories; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 988, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 988, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Rhoads and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Takumi, Hashimoto, Cachola and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Matsumoto).

#### Conf. Com. Rep. 22 on H.B. No. 1417

The purpose of this measure is to require the Department of Human Services to use an integrated and multigenerational service delivery approach to reduce the incidence of intergenerational poverty and dependence on public benefits, consistent with the nationally recognized best practices.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to July 1, 2019; and
- (2) Making a technical, nonsubstantive amendment for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1417, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1417, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ruderman, Riviere, Moriwaki, Thielen and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Thielen).

Representatives Nakamura, B. Kobayashi, Gates and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Gates).

## Conf. Com. Rep. 23 on S.B. No. 1173

The purpose of this measure is to bring Hawaii into compliance with federal regulations governing income withholding for child support enforcement by:

- (1) Imposing a fine against an employer who fails to withhold support payments from an employee's income or pay amounts to the Child Support Enforcement Agency;
- (2) Amending the penalty for an employer who discriminates against an employee because of the existence of a child support income withholding order by imposing a fine instead of a misdemeanor contempt of court charge; and
- (3) Increasing the threshold amount for an annual fee imposed by the Child Support Enforcement Agency for collection and distribution of child support payments.

Your Committee on Conference finds that compliance with federal requirements is necessary to maintain eligibility for federal funding of child support enforcement programs. In addition, your Committee on Conference finds that amending the income withholding requirements increases the effectiveness of the income withholding process and protects the obligor parent from employment discrimination if the obligor parent has an income withholding order issued against them.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1173, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1173, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Kim, Wakai and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, 1 (Kim).

Representatives San Buenaventura, Lee, Nakamura and Ward.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, 1 (Ward).

### Conf. Com. Rep. 24 on S.B. No. 980

The purpose of this measure is to define, for the purpose of compulsory education, a private school to be an education institution that teaches kindergarten through grade twelve and that is licensed or accredited by specified licensing or accrediting organizations.

Your Committee on Conference finds that the Hawaii Council of Private Schools is the licensing entity that ensures that all of Hawaii's private and parochial schools are healthy, safe, and sustainable institutions of learning for Hawaii's children. However, licensing requirements for private schools in the State are optional, rather than mandatory. This measure clarifies the definition of "private school" to assure parents who send their child to a private school that the school meets certain standards and criteria in providing a safe learning environment.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2020.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 980, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 980, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Rhoads, Kanuha and Fevella. Managers on the part of the Senate. Ayes, 4. Noes, none. Excused, none.

Representatives Woodson, Takumi and Okimoto. Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

## Conf. Com. Rep. 25 on S.B. No. 552

The purpose of this measure is to:

- (1) Extend the safe harbor provisions found in section 45 of Act 181, Session Laws of Hawaii 2017 (Act 181), until July 1, 2020, to provide sufficient time for condominium property regimes to update their developer's public reports; and
- (2) Clarify that the sale of time share plans is permitted regardless of compliance with Act 181.

Your Committee on Conference finds that Act 181 repealed chapter 514A, Hawaii Revised Statutes, relating to condominium property regimes. Act 181 authorized developers to continue sales using their timely reports filed under the now-repealed sections of chapter 514A, Hawaii Revised Statutes, without having to register under chapter 514B, Hawaii Revised Statutes, so long as the chapter 514A public reports were active, accurate, and not misleading. However, some, usually smaller, condominium projects were unable to meet Act 181's December 31, 2018, deadline for an automatic transfer of active and accurate projects to chapter 514B, Hawaii Revised Statutes, due to natural disasters and lack of time, resources, and necessary professionals. This measure revives pertinent sections of the repealed statutes for one year to provide these developers an opportunity to update their public reports without revising any of their governing documents, if certain criteria are met.

Your Committee on Conference has amended this measure by:

- Clarifying that a condominium property regime registered under chapter 514A, Hawaii Revised Statutes, shall not be required
  to revise its governing documents to comply with chapter 514B, Hawaii Revised Statutes, for sales of time share interests to be
  made in the condominium property regime;
- (2) Deleting the definition of "514A report";
- (3) Changing the effective date to July 1, 2019; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 552, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 552, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Nishihara and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none. Representatives Takumi, Lee and Matsumoto. Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

#### Conf. Com. Rep. 26 on S.B. No. 394

The purpose of this measure is to amend the way Hawaii taxes multistate businesses.

Specifically, this measure:

- (1) Requires multistate businesses to apportion income, for tax purposes, by using only the taxpayer's sales factor, rather than the average of the taxpayer's property, payroll, and sales factors; and
- (2) Adopts market-based sourcing for the sale of services and intangible property for purposes of apportioning income under the Uniform Division of Income for Tax Purposes Act.

Your Committee on Conference finds that multistate businesses are taxed in Hawaii under the Uniform Division of Income for Tax Purposes Act, which apportions a share of their total income to each state in which they do business using the average of the taxpayer's sales, property, and payroll factors. Your Committee on Conference further finds that apportioning a multistate business' income using only the sales factor, rather than the equally weighted three-factor formula currently in use, will not properly reflect a taxpayer's activity in the State.

Your Committee on Conference has amended this measure by deleting the provisions that would require multistate businesses to apportion income using only the taxpayer's sales factor, rather than the average of the taxpayer's property, payroll, and sales factors.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 394, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 394, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Keith-Agaran and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Luke, Cullen and McDermott. Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

#### Conf. Com. Rep. 27 on S.B. No. 536

The purpose of this measure is to clarify that existing law intended to curb over-access to and abuse of opioids, including the time frame for filling prescriptions, supply limitations, and requirements to check the state electronic prescription accountability system and execute an informed consent process, do not apply to qualifying patients who are prescribed or issued prescriptions pursuant to the State's Our Care, Our Choice Act.

Your Committee on Conference finds that existing law requires that certain controlled substances be picked up within seven days after being filled. For terminally ill patients, there is a convenience and diminished risk of accidental poisoning if medication is stored securely in a pharmacy as opposed to a private residence. This measure allows medication that is prescribed pursuant to the Our Care, Our Choice Act, otherwise known as medical aid in dying, to be filled and held by the pharmacy for not more than thirty days to provide this convenience and safeguard for terminally ill patients and diminishes the administrative burden on physicians attending to qualified patients pursuant to the Our Care, Our Choice Act.

Your Committee on Conference notes that this measure makes certain temporary amendments to sections 329-38(c), 329-38.2(b), and 329-38.5(c) of the Hawaii Revised Statutes that your Committee on Conference intends to last until June 30, 2023.

Thus, your Committee on Conference notes that this measure intentionally omits a repeal and reenactment provision as it relates to sections 329-38.5(c) and 329-38.2(b), Hawaii Revised Statutes, as the amendments made by this measure are essentially exclusions from applicability of those subsections and therefore cannot stand alone once Act 66 and Act 153 are repealed. However, should the Legislature choose to extend or make permanent the amendments made by Act 66 and Act 153 prior to the June 30, 2023 repeal date, the Legislature may decide at that time whether to also preserve the changes made to sections 329-38.5(c) and 329-38.2(b), Hawaii Revised Statutes, by this measure.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 536, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 536, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Rhoads, Ruderman and Fevella. Managers on the part of the Senate. Ayes, 4. Noes, none. Excused, none. Representatives Mizuno, Lee, B. Kobayashi and Ward. Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

#### Conf. Com. Rep. 28 on S.B. No. 535

The purpose of this measure is to specify the individuals to whom pharmacists, acting in good faith and exercising reasonable care, may prescribe and dispense opioid antagonists.

Your Committee on Conference finds that deaths caused by opioids are often preventable with timely administration of an opioid antagonist, such as naloxone. Hawaii is one of the last states where opioid antagonists are not made widely available in the community through pharmacies. This measure specifies the individuals to whom pharmacists, acting in good faith and exercising reasonable care, may prescribe and dispense opioid antagonists, which will help make opioid antagonists more widely available in the community and aid in the reduction of drug overdoses in the State.

Your Committee on Conference has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 535, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 535, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Ohno, Lee and Ward. Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

### Conf. Com. Rep. 29 on S.B. No. 225

The purpose of this measure is to clarify that a certified ocularist, who is certified by a nationally recognized ocularistry certifying board, may perform duties within the scope of that certification.

Your Committee on Conference finds that there is only one board certified ocularist in Hawaii. This measure gives more certified ocularists the opportunity to practice in Hawaii by expanding the existing law to include those ocularists certified by the American Board of Ocularistry, the National Examining Board of Ocularists, or any other nationally recognized ocularistry certifying board.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 225, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 225, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Ohno, Takumi, B. Kobayashi, Cabanilla Arakawa and Ward.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, 1 (Ohno).

### Conf. Com. Rep. 30 on S.B. No. 1188

The purpose of this measure is to make an emergency appropriation to address a shortfall in funding for payroll, fringe benefits, and administrative costs of the Hawaii Community Development Authority for fiscal year 2018-2019.

Your Committee on Conference finds that Act 49, section 3, Session Laws of Hawaii 2017, appropriated funds to the Department of Business, Economic Development, and Tourism for payroll and administrative costs for the Hawaii Community Development Authority. However, that appropriation did not include funds for fringe benefit costs. Your Committee on Conference further finds that this measure will appropriate necessary funds to compensate for the shortfall, thus ensuring that the Hawaii Community Development Authority has the funding necessary to operate through the end of fiscal year 2018-2019.

Your Committee on Conference has amended this measure by:

- (1) Changing the appropriation from an unspecified amount to \$600,000 from the Hawaii community development revolving fund to the Hawaii Community Development Authority for fiscal year 2018-2019 for payroll, fringe benefits, and administrative costs of the Hawaii Community Development Authority; and
- (2) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1188, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1188, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Kanuha and Fevella.

Managers on the part of the Senate. Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Yamane, Cullen and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

#### Conf. Com. Rep. 31 on S.B. No. 1232

The purpose of this measure is to authorize the Department of Human Services to disclose, upon receipt of consent, confirmed reports of child abuse or neglect to any parent or guardian of a child enrolled in an exempt or excluded child care facility.

Your Committee on Conference finds that Act 176, Session Laws of Hawaii 2018 (Act 176), specified the process for disclosure of a confirmed report of child abuse or neglect that occurred at a licensed or registered child care facility. This measure corrects an incorrect reference to licensed child care facilities in Act 176 and clarifies when the Department of Human Services may disclose that a confirmed report of child abuse or neglect has occurred at a child care facility operating in accordance with an exclusion or exemption permitted under law, which will cover reporting requirements for all child care situations.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2019; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1232, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1232, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ruderman, Rhoads, Ihara and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives San Buenaventura, Lee and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

## Conf. Com. Rep. 32 on S.B. No. 385

The purpose of this measure is to repeal defaults on student loans, student loan repayment contracts, and scholarship contracts as grounds for denying professional and vocational licenses and sanctioning professional and vocational licensees.

Your Committee on Conference finds that Hawaii is one of only several states that allow the denial, revocation, or suspension of a professional or vocational license based on student loan defaults. This means that a licensee who has incurred tens of thousands of dollars in student loans for purposes of earning or obtaining a professional degree and passed all subsequent licensing examinations could be barred from practicing, thus making any prospect of repayment even more difficult. This measure aligns Hawaii with the majority of states by repealing student loan defaults as grounds for a license denial, suspension, or revocation.

Your Committee on Conference has amended this measure by:

- (1) Repealing language that allows the right to a hearing and appeal from an order suspending, revoking, or refusing to extend any license by the Insurance Commissioner;
- (2) Reverting to the existing statutory language that requires the Insurance Commissioner, under certain conditions, to renew, reinstate, or grant an insurance producer's license only upon receipt of an authorization from the administering entity;
- (3) Changing the effective date to upon approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 385, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 385, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Ohno, Takumi, Nishimoto, Cabanilla Arakawa, D. Kobayashi and McDermott.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (McDermott).

## Conf. Com. Rep. 33 on S.B. No. 414

The purpose of this measure is to create procedural and administrative requirements for law enforcement agencies for eyewitness identifications of suspects in criminal investigations.

Your Committee on Conference finds that mistaken eyewitness identification contributes to a significant majority of wrongful convictions that are later overturned by DNA evidence. Your Committee on Conference additionally finds that more accurate eyewitness identifications increase the ability of police and prosecutors to solve crimes, convict the guilty, and protect the innocent. This measure implements systemic changes in administering eyewitness identification procedures to improve the accuracy of eyewitness identifications.

Your Committee on Conference has amended this measure by changing its effective date to June 1, 2020.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 414, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 414, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Gabbard, Wakai and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Gabbard).

Representatives Lee, Brower, Morikawa, Say and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Say).

## Conf. Com. Rep. 34 on S.B. No. 1176

The purpose of this measure is to meet federal financial incentive requirements by:

- (1) Increasing the penalty amounts for false claims to the State to a minimum of \$11,463 and a maximum of \$22,927; and
- (2) Requiring the state penalty amounts for the year 2020 and thereafter to be the same as, and for the same effective dates as, the federal penalty amounts adjusted and adopted by the United States Department of Justice.

Your Committee on Conference finds that section 1909 of the Social Security Act provides a ten-percentage-point increase in the State's share of any amount recovered in a state action under a false or fraudulent claim if the State has a false claims act that meets the requirements set forth in section 1909. Section 1909 further requires that the State's false or fraudulent claims law contain a civil penalty that is not less than the amount provided under federal law. This measure brings Hawaii's false claims act into compliance with section 1909 of the federal Social Security Act.

Your Committee on Conference has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1176, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1176, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Shimabukuro, Kim and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives San Buenaventura, Matayoshi and Thielen.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (Thielen).

## Conf. Com. Rep. 35 on S.B. No. 767

The purpose of this measure is to raise the threshold under the contractor licensing law's handyman exemption from \$1,000 to \$1,500 and make it applicable only to the cost of labor and materials.

Your Committee on Conference finds handymen provide a valuable service by doing maintenance, minor jobs, and projects that are too small for a licensed contractor to take on, especially in rural areas and neighbor islands where there is a smaller pool of contractors available. The costs of living, housing, materials, and inflation have increased since the handyman exemption was last raised in 1992. This measure provides a modest increase to the handyman exemption to help keep pace with current increases in these costs.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 767, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 767, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keohokalole, Nishihara, Ruderman and Fevella.

Managers on the part of the Senate.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Representatives Takumi, Ichiyama and Matsumoto. Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (Matsumoto).

#### Conf. Com. Rep. 36 on S.B. No. 852

The purpose of this measure is to clarify that restitution payments to crime victims may include reimbursements for mental health treatment, counseling, therapy, and lost earnings, which includes paid leave.

Your Committee on Conference finds that ambiguity exists as to what losses are eligible for reimbursement to victims of crimes. Your Committee on Conference further finds that losses suffered by victims of crimes can include things such as the cost of damaged or stolen property and hospitalization, as well as lost earnings and the cost of mental health treatment. This measure makes a broader range of losses eligible for reimbursement in order for the victims of crimes to be made as whole as possible.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 852, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 852, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keith-Agaran, Kim and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Lee, Gates and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

#### Conf. Com. Rep. 37 on H.B. No. 699

The purpose of this measure is to authorize the Hawaii Public Housing Authority to evict a tenant convicted of a felony committed during the term of the tenancy for an act related to the Hawaii Public Housing Authority's property or funds or its employees and their property.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 699, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 699, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Rhoads, Thielen and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Brower, Lee, Mizuno and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

### Conf. Com. Rep. 38 on H.B. No. 471

The purpose of this measure is to authorize the Policy Advisory Board for Elder Affairs to establish quorum requirements through its bylaws and post its bylaws on the Executive Office on Aging's website.

Your Committee on Conference has amended this measure by:

- (1) Specifying that quorum for the Policy Advisory Board for Elder Affairs be a majority of currently serving members, but not fewer than eight members, rather than establishing quorum through the Board's bylaws;
- (2) Removing the requirement that the bylaws be posted on the Executive Office on Aging's website; and
- (3) Changing its effective date to be upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 471, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 471, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Ruderman and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives San Buenaventura, Lee and Ward.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (Ward).

### Conf. Com. Rep. 39 on H.B. No. 257

The purpose of this measure is to:

- (1) Authorize the use of private lands for the Ohana Zones Pilot Program, subject to certain conditions;
- (2) Extend the sunset date for the Ohana Zones Pilot Program to June 30, 2023, or three years from the contract execution date, whichever is later; and
- (3) Extend the Emergency Department Homelessness Assessment Pilot Program and the Medical Respite Pilot Program to June 30, 2020.

Your Committee on Conference has amended this measure by:

- (1) Removing the requirement that:
  - (A) Private lands have existing infrastructure prior to being used as an ohana zone; and
  - (B) The written agreement between the private land owner and a state or county department include a statement that any structure built with public funds shall be used for the purpose for which it was built for within a time period of at least five years, or by the end of the Ohana Zones Pilot Program, whichever is sooner;
- (2) Authorizing, rather than requiring, the Ohana Zones Pilot Program to allow for off-the-grid technologies that can provide drinking water, electricity, and process sewage without existing infrastructure;
- (3) Reinstating the requirement that agencies designated for the Ohana Zones Pilot Program establish, no later than December 31, 2018, certain requirements of the Program;
- (4) Amending the deadlines for the Governor's Coordinator on Homelessness to report to the Legislature with compiled and consolidated information from the agencies designated by the Governor on the Ohana Zones Pilot Program to twenty days prior to the Regular Sessions of 2020, 2021, and 2022;
- (5) Removing the provision which allowed for the Ohana Zones Pilot Program to sunset three years from its contract execution date;
- (6) Inserting a general fund appropriation of \$2,000,000 for fiscal year 2019-2020 to be expended by the Office of the Governor and used solely for the construction of modular temporary units or facilities, the renovation of existing structures on public lands, or the creation of infrastructure to make land suitable for temporary housing under the Ohana Zones Pilot Program; provided that the Governor transfer the expenditure authority to designated executive branch departments or agencies within a reasonable time;
- (7) Changing its effective date to June 29, 2019; and
- (8) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 257, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 257, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ruderman, Chang, Riviere, Moriwaki and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

Representatives San Buenaventura, Brower, Nakamura, Cullen and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Cullen).

## Conf. Com. Rep. 40 on H.B. No. 999

The purpose of this measure is to:

- (1) Permanently exempt from provisions of the civil service law:
  - (A) The Governor's Coordinator on Homelessness;
  - (B) Five positions in the Med-QUEST Division; and
  - (C) Four positions in the Office of the Director of Human Services; and
- (2) Temporarily exempt from the civil service law:
  - (A) The research/health analytics manager in the Med-QUEST Division; and
  - (B) Certain positions in the Office of the Director of Human Services.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to June 29, 2019; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 999, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 999, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Thielen, Taniguchi, Kanuha and Fevella.

Managers on the part of the Senate. Ayes, 4. Noes, none. Excused, none.

Representatives San Buenaventura, Nakamura, Hashem and Ward.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

#### Conf. Com. Rep. 41 on H.B. No. 214

The purpose of this measure is to allow a cemetery authority to disinter and reinter human remains within the same cemetery without filing an application for a permit with the Department of Health, provided the cemetery authority has written authorization from the majority of the next-of-kin of the person whose remains are being disinterred and reinterred.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 214, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 214, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Takumi and Ward. Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

## Conf. Com. Rep. 42 on H.B. No. 252

The purpose of this measure is to establish a provisional license to be a speech pathologist for individuals who have met educational requirements and practice under the supervision of a licensed speech pathologist for the purpose of completing a clinical fellowship as required for full licensure.

Your Committee on Conference has amended this measure by changing its effective date to January 1, 2022.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 252, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 252, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Ohno, Takumi, Morikawa and Ward.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, none.

### Conf. Com. Rep. 43 on H.B. No. 665

The purpose of this measure is to exempt health care providers from the requirement to consult the electronic prescription accountability system when prescribing controlled substances when the patient is an inpatient, in post-operative care, or is receiving hospice or other palliative care for a terminal disease.

Your Committee on Conference has amended this measure by making technical, nonsubstantive amendments to the preamble of this measure for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 665, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 665, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Rhoads and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Lee, Takumi, Tokioka and Ward.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, none.

## Conf. Com. Rep. 44 on H.B. No. 913

The purpose of this measure is to allow the filing of documents with the Hawaii Labor Relations Board electronically or by the original paper document.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to upon its approval; and
- (2) Making a technical, nonsubstantive amendment for consistency and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 913, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 913, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Rhoads and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Eli, Kitagawa and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

### Conf. Com. Rep. 45 on H.B. No. 989

The purpose of this measure is to:

- Authorize the Commissioner of Financial Institutions to issue cease and desist orders against licensees and unlicensed persons
  and to enter into consent orders; and
- (2) Allow documents required to be filed in conjunction with mortgage servicing licensing to be filed electronically.

Your Committee on Conference has amended this measure by:

- Clarifying that documents required to be filed in conjunction with mortgage servicing licensing be filed through the NMLS, if NMLS is able to accept the document; and
- (2) Changing the effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 989, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 989, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Rhoads and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Takumi, Lee, Hashimoto, Cachola and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

## Conf. Com. Rep. 46 on H.B. No. 991

The purpose of this measure is to extend the civil relief available to state military forces to cover persons serving on full time National Guard duty.

Additionally, this measure amends the civil relief for state military forces law by extending the lease termination provisions to cover motor vehicle leases in conformity with the federal Servicemembers Civil Relief Act.

Your Committee on Conference has amended this measure by making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 991, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 991, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Rhoads, Riviere, Harimoto and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Takayama, San Buenaventura, Gates and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

## Conf. Com. Rep. 47 on H.B. No. 556

The purpose of this measure is to require the Department of Business, Economic Development, and Tourism (Department) to adopt minimum appliance efficiency standards for certain products sold or installed in the State that are substantially equivalent to existing appliance efficiency standards established in California.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that this measure establishes minimum appliance efficiency standards for certain products sold or installed in the State, and that the Department is authorized, rather than required, to adopt rules to enforce those minimum efficiency standards:
- (2) Defining specific terms;
- (3) Removing language authorizing the Department to adopt by rule a more recent version of an efficiency standard to maintain or improve consistency with the California appliance efficiency standards;
- (4) Establishing specific appliance energy standards for certain products, providing protection against repeal of federal regulations, and establishing testing, certification, and labeling requirements for products to determine compliance;
- (5) Clarifying the dates upon which products and appliances that are sold, leased, rented, or installed in the State must meet or exceed the efficiency standards;
- (6) Requiring the Public Benefits Fee Administrator to educate and train appliance manufacturers, distributors, and retailers of appliances covered under the efficiency standards;
- (7) Changing its effective date to upon its approval; and
- (8) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 556, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 556, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Baker, Taniguchi and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Lowen, McKelvey, Takumi and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

## Conf. Com. Rep. 48 on H.B. No. 407

The purpose of this measure is to modify the termination process for a Complex Area Superintendent (CAS) by requiring:

- (1) The Board of Education (BOE) to grant its approval prior to the termination of a CAS; and
- (2) That a CAS have adequate opportunity to present the CAS's case to the BOE prior to the BOE's decision on the termination.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 407, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 407, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Woodson, Nishimoto, Hashimoto, Ohno, Tarnas and Okimoto.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

## Conf. Com. Rep. 49 on H.B. No. 420

The purpose of this measure is to address the operations of the Hawaiian Center and Museum of Hawaiian Music and Dance (Center and Museum) by:

- (1) Transferring the site of the Center and Museum from the Hawaii Convention Center to the State of Hawaii Museum of Natural and Cultural History; and
- (2) Authorizing the State of Hawaii Museum of Natural and Cultural History to enter into contracts and partnerships as necessary for services related to the Center and Museum.

Your Committee on Conference has amended this measure by:

- (1) Leaving the location of the Center and Museum unspecified;
- (2) Deleting the authorization for the State of Hawaii Museum of Natural and Cultural History to enter into contracts and partnerships relating to necessary services for the Center and Museum;
- (3) Changing its effective date to upon its approval; and
- (4) Making technical, nonsubstantive amendments for consistency, clarity, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 420, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 420, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Wakai, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Onishi, Yamane, Holt, Cabanilla Arakawa and Okimoto.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, none.

### Conf. Com. Rep. 50 on S.B. No. 272

The purpose of this measure is to further facilitate the development of green condominium projects throughout Hawaii by clarifying the conditions under which condominium unit owners can install solar windows and skylights.

Your Committee on Conference finds that in order to keep up with the ever-evolving technology of renewable energy, Hawaii statutory law must likewise evolve. Your Committee on Conference also finds that it is not clear whether building-applied photovoltaics, such as roof-mounted photovoltaic solar panels, building-integrated photovoltaics, such as electricity-producing photovoltaic windows, and passive solar skylights and windows fall under the existing definition of "solar energy device." This measure specifies that owners of condominium units are allowed to install solar energy devices, including but not limited to build-applied and building-integrated photovoltaics and excluding passive solar skylights and windows, upon written consent of the board of the association of condominium unit owners.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 272, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 272, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Keohokalole, Baker and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Baker).

Representatives Lowen, Takumi, Wildberger, Cachola and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Cachola).

## Conf. Com. Rep. 51 on S.B. No. 660

The purpose of this measure is to establish a non-compliant state identification card for individuals that are unable to provide an updated photograph and documentation in person as required by the federal REAL ID Act of 2005.

Your Committee on Conference finds that the federal REAL ID Act of 2005 requires all applicants to appear in-person in order to obtain a compliant identification card. Currently, there is no option available for those who are severely disabled to obtain a non-REAL ID Act of 2005 compliant identification card that can be used for certain activities which do not require a REAL ID Act compliant identification card. Those who are severely disabled and homebound are unable to obtain a compliant identification card necessary for various purposes such as refilling medication or conducting banking transactions. This measure will establish procedures to allow those who are severely disabled and homebound obtain a non-REAL ID Act of 2005 compliant identification card and enable them to complete ongoing, everyday transactions that require a form of identification.

Your Committee on Conference has amended this measure by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 660, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 660, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Rhoads, Shimabukuro and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Shimabukuro).

Representatives Lee, Morikawa, San Buenaventura and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

## Conf. Com. Rep. 52 on S.B. No. 723

The purpose of this measure is to:

- (1) Require the Judiciary to post the titles of all court filings and the minutes of court proceedings in paternity cases on its website after redacting information in which an individual has a significant privacy interest and subject to certain circumstances; and
- (2) Establish the same confidentiality standards for paternity cases as other cases heard by the family court.

Your Committee on Conference finds that transparency and appropriate public access to information is vital to the just disposition of the family court in matters of paternity. Your Committee on Conference further finds that the standard confidentiality procedures of the family court are sufficient to protect the privacy interests of parties and individuals in most instances.

Your Committee on Conference has amended this measure by:

- (1) Requiring the Judiciary to redact from publicly posted court filings and minutes in paternity cases any information that has been made confidential by any statute, rule of court, or court order rather than any information in which an individual has a significant privacy interest under section 92F-14, Hawaii Revised Statutes;
- (2) Inserting a savings clause;
- (3) Changing the effective date to January 1, 2021; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 723, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 723, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Gabbard, Kim and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Lee, Gates and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

## Conf. Com. Rep. 53 on S.B. No. 1039

The purpose of this measure is to:

- (1) Decrease the period of time that a person is required to wait before expunging a deferred plea to a prostitution charge; and
- (2) Permit persons convicted of certain prostitution offenses to file a motion to vacate the conviction if the defendant is not convicted of another offense under the penal code within three years of the original prostitution conviction.

Your Committee on Conference finds that sex trafficking victims are often misidentified and criminalized by law enforcement and that, although the existing law allows sex trafficking victims to vacate prostitution convictions within six years from the time that victimization ceased, such persons may face significant challenges in disclosing and proving victimization. Furthermore, your Committee on Conference notes that persons who have been convicted under sections 712-1200(1)(a), 712-1206(2), 712-1207(1)(a), and 712-1207(1)(b), Hawaii Revised Statutes, regardless of whether or not they have been or can allege that they were victims of sex trafficking, should be able to vacate their convictions after a reasonable period of three years from the date of conviction; provided that these persons have maintained a clean record free of convictions under the Penal Code during that period of time.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1039, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1039, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Gabbard, Kim and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Gabbard).

Representatives Lee, Morikawa, San Buenaventura, Wildberger and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

## Conf. Com. Rep. 54 on H.B. No. 941

The purpose of this measure is to permit an employee's designation of beneficiary form to be kept in the department where the employee is employed, and to allow this information to be filed and maintained electronically.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to upon its approval; and
- (2) Making a technical, nonsubstantive amendment for clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 941, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 941, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Rhoads and Fevella.

Managers on the part of the Senate.

Ayes, 2; Ayes with Reservations (Rhoads). Noes, none. Excused, 1 (Fevella).

Representatives Johanson, Kitagawa and Matsumoto.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (Kitagawa).

### Conf. Com. Rep. 55 on H.B. No. 290

The purpose of this measure is to amend the Uniform Controlled Substances Act to:

- (1) Include a Schedule V controlled substance used to treat certain childhood-onset epilepsy patients;
- (2) Allow for the use of either words or figures to indicate quantity on electronic prescriptions for controlled substances; and
- (3) Authorize qualifying patients or qualifying out-of-state patients to transport medical cannabis between islands for their personal medical use.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that included in Schedule V a controlled substance used to treat certain childhood-onset epilepsy patients, and allowed for the use of either words or figures to indicate quantity on electronic prescriptions for controlled substances; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 290, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 290, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Rhoads and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Lee, Aquino, Takayama and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Aquino).

## Conf. Com. Rep. 56 on H.B. No. 323

The purpose of this measure is to classify certain former military vehicles as special interest vehicles and enable owners of former military vehicles to apply for registration of the motor vehicle.

Your Committee on Conference has amended this measure by:

- (1) Removing language amending the definition of street rod vehicles because the language may be construed as falling outside of the scope of the measure's title;
- (2) Changing the effective date to January 1, 2020; and
- (3) Making technical, non-substantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 323, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 323, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Nishihara, Shimabukuro and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Aquino, Takumi and McDermott.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (McDermott).

#### Conf. Com. Rep. 57 on H.B. No. 756

The purpose of this measure is to:

- (1) Require the Department of Transportation, after consultation with the counties, to adopt rules prescribing uniform standards and specifications for official traffic control devices installed under the Statewide Traffic Code; and
- (2) Specify the factors the Department of Transportation and the counties must consider when setting maximum speed limits on a road.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon approval; and
- (2) Making technical, nonsubstantive changes for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 756, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 756, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Rhoads, Harimoto, Wakai and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

Representatives Aquino, Lee, Hashimoto, Say and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McDermott).

#### Conf. Com. Rep. 58 on S.B. No. 1221

The purpose and intent of this measure is to:

- Clarify wording regarding the delegation of powers to the Executive Director of the Hawaii Teacher Standards Board to timely
  approve license and permit applications; and
- (2) Clarify the reporting of data from the Department of Education, State Public Charter School Commission, and charter schools to the Hawaii Teacher Standards Board, including the number of classrooms without a licensed teacher during the school year.

Your Committee on Conference finds that Hawaii continues to suffer from a shortage of qualified teachers. Additionally, the existing approval process for licensed teachers often delays individuals who meet all of the requirements for a teaching license or permit from obtaining their license. This measure ensures that individuals who meet all requirements and receive approval from the Executive Director of the Hawaii Teacher Standards Board are issued teaching licenses or permits in a timelier manner.

Your Committee on Conference further finds that the Department of Education and State Public Charter School Commission currently report the number of emergency hire teachers in public school classrooms. This measure adds an additional reporting requirement of the number of classrooms without a licensed teacher to assist the Legislature and schools in knowing the actual need for closing the teacher recruitment and retention gap.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1221, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1221, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Woodson, Matayoshi, Hashem, Tarnas and Okimoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

## Conf. Com. Rep. 59 on S.B. No. 981

The purpose and intent of this measure is to repeal the Hawaii Teacher Standards Board special fund and transfer the remaining balance to the general fund.

Your Committee on Conference finds that the Hawaii Teacher Standards Board special fund is used to pay for the expenses of the Hawaii Teacher Standards Board, including operational and personnel costs and reimbursements to Board members for travel expenses. Due to limited resources, the Board has been forced to reduce its staff, which limits the scope of services and support to Hawaii teachers, school counselors, and school librarians. Funding the Hawaii Teacher Standards Board through the general fund will allow the Board to continue to fully support teacher licensing, educator preparation programs, and professional development.

Your Committee on Conference has amended this measure by:

- (1) Changing the date when all unencumbered balances remaining in the Hawaii Teacher Standards Board special fund shall lapse to the general fund from June 30, 2021, to July 1, 2019; and
- (2) Changing the effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 981, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 981, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kanuha and Fevella. Managers on the part of the Senate. Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Woodson, Matayoshi, DeCoite, Hashem and Okimoto.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, none.

#### Conf. Com. Rep. 60 on S.B. No. 770

The purpose of this measure is to require a high school education or its equivalent as a condition for new applicants to obtain a license as a real estate broker or real estate salesperson.

Your Committee on Conference finds that requiring a high school diploma or its equivalent as a condition for obtaining a real estate broker or real estate salesperson license ensures an educated licensee population in order to protect consumers in their real estate transactions, which is one of the most important financial decisions in many people's lives. This measure supports efforts to raise the bar of professionalism in the real estate industry by establishing a minimum educational requirement for new applicants.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to July 1, 2020; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 770, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 770, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Fevella. Managers on the part of the Senate. Ayes, 2. Noes, none. Excused, 1 (Chang).

Representatives Ohno, Takumi and McDermott.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (McDermott).

#### Conf. Com. Rep. 61 on S.B. No. 1486

The purpose of this measure is to allow the Department of Public Safety Narcotics Enforcement Division Administrator (Administrator) to disclose confidential information from the Electronic Prescription Accountability System to the United States Department of Defense health agency prescription monitoring program and authorized employees of the state Department of Health Alcohol and Drug Abuse Division and Emergency Medical Services and Injury Prevention Systems Branch.

Your Committee on Conference finds that allowing the Administrator to disclose confidential information from the Electronic Prescription Accountability System to other agencies furthers the State's objectives of the Hawaii Opioid Action Plan, which was developed by the Hawaii Opioid Initiative. Your Committee on Conference further finds that sharing information between agencies would provide the Department of Health necessary information to better protect the community through opioid prescription and public health monitoring.

Your Committee on Conference has amended this measure by making it effective on July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1486, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1486, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Baker, Harimoto and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Mizuno, Lee, Belatti, Tokioka and Ward. Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

## Conf. Com. Rep. 62 on S.B. No. 98

The purpose of this measure is to clarify that a driver of a motor vehicle shall yield to or stop for a pedestrian when a pedestrian is considered to be within an intersection or adjacent crosswalk.

Your Committee on Conference finds that it is unclear when a vehicle is required to yield to the right-of-way to a pedestrian who plans to cross or is crossing a roadway, thereby putting pedestrians at risk of irreparable injury or death. The ambiguity in existing law has resulted in numerous accidents involving a motor vehicle and pedestrians attempting to cross the street. Your Committee on Conference further finds that in 2018, there were 43 pedestrian fatalities due to a vehicle accident, an increase of 28 fatalities from 2017. Your Committee on Conference believes that in order to improve pedestrian safety throughout the State, existing law needs to be clear that a pedestrian is legally within a crosswalk when any part or extension of the pedestrian is beyond the curb or edges of the traversable roadway.

Your Committee on Conference has amended the measure by making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 98, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 98, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Rhoads, Shimabukuro and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Aquino, Lee, Hashimoto and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

### Conf. Com. Rep. 63 on S.B. No. 1236

The purpose of this measure is to:

- (1) Limit the exemption from parking fees to drivers with a disability who are unable to operate a parking meter or pay station due to their disability and who display a distinguishing parking device, code, permit, or decal;
- (2) Clarify time limits applicable to the parking exemption for disabled persons;
- (3) Prohibit the unauthorized sale or purchase of disability parking placards and special license plates;
- (4) Clarify the authority of enforcement officers to confiscate placards and special license plates for violations of requirements for manufacture, sale, purchase, or use; and
- (5) Authorize an advanced practice registered nurse to make a determination regarding a person's mobility.

Your Committee on Conference finds that the statewide parking program for persons with disabilities provides individuals with mobility disabilities the opportunity to drive and park in accessible parking stalls. Your Committee on Conference further finds that the current exemption for disabled persons to park in metered spaces without paying a fee exceeds the original intent of the parking exemption for certain disabled individuals. The original intent was to exempt disabled persons who are licensed to drive and unable to reach or insert payment into a parking meter due to their disability. However, existing law exempts any vehicle displaying a valid disability parking permit from paying a parking fee.

Your Committee on Conference notes that the S.D. 2 version of this measure also sets certain limitations from parking fees for eligible drivers. More specifically, the S.D. 2 version of this measure:

- (1) Clarifies that the exemption from parking fees applies only to disabled persons who drive and are unable to reach or operate a parking meter or an unattended pay station due to a physical disability;
- (2) Updates relevant statutes to reflect current parking technology and terminology;
- (3) Makes the act of selling or buying a disability parking permit a misdemeanor;
- (4) Authorizes a law enforcement officer or a commissioned volunteer enforcement officer of a county law enforcement agency to confiscate a disability parking permit that is invalid or has been altered; and
- (5) Clarifies the types of disabilities that qualify for a disability parking permit and authorizes an advanced practice registered nurse to make a determination who qualifies as a "person with a disability".

Your Committee on Conference further notes that the S.D. 2 version of this measure better aligns with the original intent of the statewide parking program for persons with disabilities as it addresses the concerns of various stakeholders.

Accordingly, your Committee on Conference has amended this measure by reverting back to the S.D. 2 version of this measure and further amending it by:

- (1) Permitting, beginning July 1, 2021, drivers who display a disabled paid parking exemption permit to be allowed to park without payment for the first two-and-a-half hours or the maximum time a meter allows, whichever is longer;
- (2) Making it effective upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1236, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1236, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Rhoads, Kahele, Harimoto and Fevella.

Managers on the part of the Senate. Ayes, 5. Noes, none. Excused, none.

Representatives San Buenaventura, Lee, Nakamura and Ward.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

#### Conf. Com. Rep. 64 on S.B. No. 693

The purpose of this measure is to clarify what pedestrians are required to do in a crosswalk while a countdown timer is operating.

Your Committee on Conference finds that it is unclear what pedestrians are required to do in a crosswalk that operates a pedestrian-control signal with a countdown timer. Existing law regarding pedestrian-control signals was last substantively amended in 1981, and does not reflect signals currently being used throughout the State. Your Committee on Conference believes that existing law needs to be updated in order to provide consistency with the various types of pedestrian-control signals used throughout the State. This measure will improve pedestrian safety by clarifying the responsibilities of pedestrians when in a crosswalk with a pedestrian-control signal that operates a countdown timer.

Your Committee on Conference has amended this measure by making it effective on July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 693, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 693, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Rhoads, English and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Aquino, Lee, Hashimoto, Say and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Say, McDermott).

## Conf. Com. Rep. 65 on S.B. No. 551

The purpose of this measure is to:

- (1) Clarify that the explicit grant of power of sale to condominium associations is required for the purposes of enforcing association liens under the association alternate power of sale foreclosure process;
- (2) Clarify available damages for violations of the association alternate power of sale foreclosure process; and
- (3) Establish an association foreclosure task force.

Your Committee on Conference finds that this measure requires the explicit grant of power of sale within a condominium association's documents, for purposes of enforcing association liens under the association alternate power of sale foreclosure process. This requirement is similar to a recent decision of the Intermediate Court of Appeals in Sakal v. Association of Apartment Owners of Hawaiian Monarch, 143 Haw. 219, 426 P.3d 443 (2018), which held that the Legislature intended that associations can only conduct nonjudicial foreclosures if the associations have specific authority to conduct nonjudicial foreclosures in their declaration or bylaws or in an agreement with the owner being foreclosed upon.

However, your Committee on Conference notes that condominium associations have relied for years on the remedy of nonjudicial foreclosure as a way of collecting delinquent maintenance fees, which are necessary for the basic operations of associations. Your Committee on Conference further finds that under the <u>Sakal</u> case, many associations have lost the benefit of the nonjudicial foreclosure process. As a result, there are concerns that an association's ability to conduct a nonjudicial foreclosure will no longer depend on legislative intent, but whether specific language in the declaration or bylaws was included when the project was first created. Your Committee on Conference notes that the extensive legislative history indicates this was not the intent of the Legislature.

Accordingly, amendments to this measure are necessary to clarify that condominium associations should be able to use nonjudicial foreclosure to collect delinquencies regardless of the presence or absence of power of sale language in an association's governing documents.

Your Committee on Conference has therefore amended this measure by:

- (1) Deleting language that would have permitted associations to foreclose by power of sale; provided that the association documents authorized a power of sale or nonjudicial foreclosure remedy;
- (2) Deleting language that would have made a foreclosing association that acquired a unit through a foreclosure proceeding in violation of the association alternate power of sale foreclosure process liable for reasonable damages and attorney's fees;
- (3) Deleting language that would have established an association foreclosure task force;

- (4) Inserting a purpose section;
- (5) Requiring a foreclosing association to provide a supplemental nonjudicial foreclosure notice along with any notice of default and intention to foreclose, specifying that a unit owner may request mediation, and specifying the procedures when mediation is chosen by the unit owner;
- (6) Clarifying when an association's power of sale may not be exercised;
- (7) Inserting language that clarifies the lien of an association may be foreclosed by action or by nonjudicial power of sale foreclosure regardless of the presence or absence of power of sale language in an association's governing documents;
- (8) Amending the definition of "power of sale" or "power of sale foreclosure" in chapter 667, Hawaii Revised Statutes, to include enforcement of an association lien, regardless of whether the association documents provide for a power of sale, a power of sale foreclosure, a power of sale remedy, or a nonjudicial foreclosure;
- (9) Inserting a retroactivity clause for certain provisions of this measure applicable to certain cases, actions, proceeding, or claims arising out of a nonjudicial foreclosure that arose before the effective date of this measure;
- (10) Clarifying that this measure shall not be applied so as to impair any existing contracts in a manner that violates the Hawaii State Constitution or United States Constitution;
- (11) Inserting a severability clause;
- (12) Changing its effective date to upon approval; and
- (13) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 551, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 551, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Rhoads and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Takumi, Lee and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

### Conf. Com. Rep. 66 on S.B. No. 1342

The purpose of this measure is to establish restrictions on donative transfers to protect transferors from coercive, exploitative, or otherwise improper transfers benefitting persons involved with drafting the transfer instrument or persons who have a significant influence over the transferor.

Your Committee on Conference finds that donative transfers to others with whom the drafter of the transferring instrument is in a special relationship, due to blood, marriage, business, or a legal relationship, run the risk of the donative transfer being subject to undue influence. This measure enacts safeguards to ensure that a donative transfer represents the intention of the transferor and is not compromised by an act of the transferee.

Your Committee on Conference has amended this measure by:

- Requiring the Chief Justice of the Hawaii Supreme Court to study and analyze the national landscape of donative transfer statutes and suggest revisions to Hawaii's law;
- (2) Making the measure effective upon its approval; provided that the restriction on donative transfers shall take effect on July 1, 2020; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1342, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1342, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Kim, Wakai and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Lee, Morikawa, San Buenaventura and Thielen.

Managers on the part of the House.

Ayes, 3; Ayes with Reservations (Morikawa, Thielen). Noes, none. Excused, 1 (San Buenaventura).

## Conf. Com. Rep. 67 on S.B. No. 330

The purpose of this measure is to require the Department of Human Services to:

(1) Implement an earned income disregard program as an intermediate step to implementing a full Medicaid buy-in program; and

(2) Submit reports to the Legislature.

Your Committee on Conference finds that the Medicaid Buy-In Task Force recommended an earned income disregard as an interim step to a Medicaid buy-in program, to allow individuals with disabilities to earn income and not lose their Medicaid benefits, which they would be at risk of losing given the current Medicaid eligibility rules. While this interim program would not provide the full benefits of a Medicaid buy-in program, it would increase the amount of income an individual could earn while retaining Medicaid eligibility, encourage the employment of individuals with disabilities, and enable current Medicaid beneficiaries to become more self-sufficient.

Your Committee on Conference has amended this measure by:

- (1) Requiring the Department of Human Services to allow an earned income disregard of one hundred thirty-eight percent of the federal poverty level for people with disabilities who are between the ages of sixteen and sixty-four years;
- (2) Changing the effective date to upon approval; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 330, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 330, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ruderman, Riviere, Ihara, Thielen and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives San Buenaventura, Nakamura, Kitagawa and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ward).

### Conf. Com. Rep. 68 on S.B. No. 1226

The purpose of this measure is to:

- Require criminal history record checks of adult relatives who provide care for a child whose family receives a child care subsidy from the Department of Human Services;
- (2) Clarify the role and response of the Child Care Licensing Program when it receives a report of death or injury of a child in a child care setting;
- (3) Address the release of information pending an investigation; and
- (4) Increase penalties and clarify that the Department of Human Services may take administrative and judicial action to enforce child care licensing requirements.

Your Committee on Conference finds that existing law does not require criminal history record checks from adult relatives who provide care for a child whose family receives a child subsidy from the Department of Human Services. This measure makes criminal history record checks mandatory for potential child care providers and increases penalties for people who engage in illegal child care. This measure provides the Department of Human Services with more tools to quickly enforce violations, protect children from predators, provide children with safer care, and deter people from engaging in illegal child care.

Your Committee on Conference amends this measure by:

- (1) Clarifying that violators shall be fined up to \$1,000 for each day of violation;
- (2) Changing its effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1226, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1226, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ruderman, Baker, Rhoads and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Rhoads).

Representatives San Buenaventura, Lee, Nakamura and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

## Conf. Com. Rep. 69 on S.B. No. 1058

The purpose of this measure is to:

- (1) Require the Attorney General to prepare, after consultation with the Legislative Reference Bureau, a clear statement in English and Hawaiian for each constitutional amendment that indicates the purpose, limitations, and effects of the proposed amendment:
- (2) Require the Office of Elections and county clerks to make the statement available to the public at all polling places in the State and on a website operated by the Office of Elections; and
- (3) Appropriate funds for the translation, preparation, and distribution of statements for proposed constitutional amendments.

Your Committee on Conference finds that clear information about what a proposed constitutional amendment would do and how the voting process for a proposed constitutional amendment works are important to voters understanding their role in the process and making an informed decision. This measure will facilitate voter understanding of proposed amendments to the state constitution by requiring the Attorney General to prepare a clear statement in English and Hawaiian for each proposed amendment.

Your Committee on Conference has amended this measure by:

- (1) Removing the appropriation section;
- (2) Changing the effective date to January 1, 2020; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1058, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1058, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Kanuha, Gabbard and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, 1 (Gabbard).

Representatives Lee, Gates and Thielen. Managers on the part of the House. Ayes, 2. Noes, none. Excused, 1 (Thielen).

### Conf. Com. Rep. 70 on S.B. No. 335

The purpose of this measure is to ensure equal access to notice of public meetings.

Your Committee on Conference finds that the state sunshine law, which allows individuals to request mailed hard copies of meeting notices, does not provide the same access to notice of public meetings to individuals with disabilities who lack computer access or cannot use a computer due to a disability. This measure amends existing law related to public meetings and ensures equal access to open government meetings and forums.

Your Committee on Conference has amended this measure by:

- (1) Removing language requiring boards to post public meeting notices in an accessible format on an electronic calendar on a website maintained by the State or county;
- (2) Removing language specifying that electronic copies of all meeting notices posted by the Lieutenant Governor's office or county clerk's office must be accessible;
- (3) Updating the purpose section;
- (4) Changing its effective date to upon approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 335, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 335, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Thielen, Rhoads, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives San Buenaventura, Matayoshi, Holt and Thielen.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

## Conf. Com. Rep. 71 on S.B. No. 985

The purpose of this measure is to issue special purpose revenue bonds to assist Pearl Harbor Floating Drydock, LLC, in the construction of a purpose-built floating drydock to service submarines and surface ships at Pearl Harbor.

Your Committee on Conference finds that supporting this industrial enterprise project will enhance ship repair capacity within the State and stimulate long-term economic benefits by keeping a greater number of submarine and surface ship repair projects located in Hawaii.

Your Committee has amended this measure by:

- (1) Changing the maximum amount of special purpose revenue bonds authorized for issuance from an unspecified amount to \$60,000,000; and
- (2) Changing the effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 985, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 985, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Kidani and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives McKelvey, Kitagawa, Cullen and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

#### Conf. Com. Rep. 72 on H.B. No. 463

The purpose of this measure is to assist farmers in complying with new federal food safety requirements by:

- (1) Requiring the Department of Agriculture (DOA) to partner with Hawaii's agricultural community to establish a Food Safety Certification Program (Program) that assists small to medium sized farms in obtaining United States Department of Agriculture Good Agricultural Practices certification or its equivalent; and
- (2) Appropriating funds for each year of fiscal biennium 2019-2021 for DOA to implement the Program.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$150,000 for fiscal year 2019-2020 for DOA to implement the Program; and
- (2) Changing its effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 463, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 463, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Inouve and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives DeCoite, McKelvey, Kitagawa, Quinlan and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McKelvey).

### Conf. Com. Rep. 73 on H.B. No. 1375

The purpose of this measure is to support the State of Hawaii Museum of Natural and Cultural History (State Museum) by:

- Beginning with the 2021-2023 fiscal biennium, requiring the Governor to include in the Executive Budget no less than \$2,000,000 per fiscal year as a recurring cost for the State Museum; and
- (2) Appropriating funds for each year of fiscal biennium 2019-2021 to support the work of the State Museum, including collection care and student learning programs.

Your Committee on Conference has amended this measure by:

- (1) Deleting the requirement that funding for the State Museum be included in the Executive Budget;
- (2) Appropriating \$874,000 for each year of fiscal biennium 2019-2021 to support the State Museum, including the hiring of necessary staff; provided that funds appropriated shall be in addition to and shall not supplant any portion of the base budget of the Department of Budget and Finance (B&F) for the State Museum;
- (3) Changing the expending agency to B&F;
- (4) Changing its effective date to July 1, 2019; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1375, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1375, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Onishi, Yamane, Holt and Okimoto.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

## Conf. Com. Rep. 74 on H.B. No. 1157

The purpose of this measure is to exempt students in post-secondary education programs from immunization requirements if they attend classes exclusively online or through distance learning, under certain conditions.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that if a student needs to go on campus for any reason related to their online or distance learning class, the student shall be subject to the immunization requirements of title 11, chapter 157, Hawaii Administrative Rules, prior to entering the campus; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1157, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1157, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Baker, Kidani and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Mizuno, Woodson, B. Kobayashi and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

#### Conf. Com. Rep. 75 on H.B. No. 1032

The purpose of this measure is to authorize the Board of Land and Natural Resources to lease any existing state boating facility, including fast and submerged lands within the facility, in its entirety and without prior legislative approval for private development, management, and operation; provided that the lessee has fulfilled community engagement requirements and responded to community concerns regarding the lessee's proposed development plans. This measure also repeals an obsolete statutory provision regarding allowable leases of fast lands and submerged lands at Ala Wai Boat Harbor.

Your Committee on Conference has amended this measure by:

- (1) Converting the authorization for the Board of Land and Natural Resources to lease any state boating facility in its entirety to a five-year state boating facility lease pilot program that:
  - (A) Authorizes the Board to lease Manele Small Boat Harbor on the island of Lanai in its entirety by public auction, request for proposals, or direct negotiation without prior legislative authorization; and
  - (B) Preserves the community engagement and community response requirements;
- (2) Deleting the provision regarding lease of fast lands and submerged lands at Ala Wai Boat Harbor; and
- (3) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1032, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1032, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kahele, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Yamane, Lowen, Todd, Tarnas and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Lowen).

## Conf. Com. Rep. 76 on H.B. No. 1413

The purpose of this measure is to authorize the Director of Finance to issue Special Purpose Revenue Bonds to assist E Ola Mau Na Leo O Kekaha, a Hawaii nonprofit corporation, with obtaining, remediating, and developing the old Kekaha Sugar Mill to create a smart farming enterprise, tourist and cultural center, community sunshine market, community greenhouse, and community manufacturing and incubator facility.

Your Committee on Conference has amended this measure by:

(1) Specifying a bond authorization amount of \$10,000,000;

- (2) Specifying that E Ola Mau Na Leo O Kekaha will undertake its development activities through its subsidiary entity, Kekaha Community Development Corporation; and
- (3) Changing its effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1413, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1413, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Yamane, Todd, Morikawa, Nakamura and Thielen.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

## Conf. Com. Rep. 77 on H.B. No. 703

The purpose of this measure is to:

- (1) Prohibit any person convicted of Operating a Vehicle Under the Influence of an Intoxicant (OVUII) or Habitually Operating a Vehicle Under the Influence of an Intoxicant (HOVUII) from purchasing or publicly consuming alcohol for a probation period to be determined by the court, following sentencing or administrative license revocation;
- (2) Amend the sentencing requirements for OVUII and HOVUII offenses;
- (3) Amend the threshold for HOVUII offenses; and
- (4) Require the President of the Senate and the Speaker of the House of Representatives to convene a task force to review existing laws relating to driving under the influence of an intoxicant.

Your Committee on Conference has amended this measure by:

- (1) Deleting language prohibiting any person convicted of OVUII or HOVUII from purchasing or publicly consuming alcohol for a probation period to be determined by the court, following sentencing or administrative license revocation;
- (2) Preserving the statutory language that provides a time period for triggering HOVUII offenses;
- (3) Amending the scope of the task force by requiring it to examine and propose legislation that would allow the courts, under certain circumstances, to prohibit a person convicted of OVUII or HOVUII from purchasing or publicly consuming alcohol for a probation period;
- (4) Changing its effective date to July 1, 2019; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 703, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 703, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Nishihara, Rhoads, Kahele and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Lee, Eli and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

# Conf. Com. Rep. 78 on S.B. No. 375

The purpose of this measure is to require the Department of Agriculture, in cooperation with the Office of the Governor, to develop a strategic plan to achieve the Governor's goal of doubling local food production and increasing food exports by 2030.

Your Committee on Conference finds that in order to meet the Governor's goal of doubling local food production and increasing food exports, issues such as preserving agricultural land, identifying food crops for local production, and improving irrigation and agricultural infrastructure should be addressed. Your Committee on Conference further finds that requiring the Department of Agriculture and the Office of the Governor to collaborate to create a strategic plan that identifies strategies and measurable benchmarks for doubling local food production and increasing food exports can help ensure that this goal will be achieved by 2030.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$100,000 for development of the strategic plan and changing the means of financing from general revenues to the agricultural development and food security special fund; and
- (2) Making it effective on July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 375, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 375, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kanuha and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Creagan, Wildberger, Cachola, DeCoite and Okimoto.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, 1 (Cachola).

#### Conf. Com. Rep. 79 on S.B. No. 804

The purpose of this measure is to:

- (1) Establish the culturally competent palliative care pilot program to promote palliative care, gather health care utilization data, and conduct bidding for at least two pilot programs for home- or community-based palliative care;
- (2) Require reports to the Legislature on how funds were expended for the culturally competent palliative care pilot program;
- (3) Establish an advisory group to oversee implementation of the pilot program; and
- (4) Appropriate funds for the pilot program.

Your Committee on Conference finds that palliative care, which focuses on providing patients with symptom relief from serious illness, significantly improves the quality of life of patients and their families. However, palliative care usage rates in Hawaii are lower than on the mainland, in part because Asian and Pacific Islanders are less likely to enroll in palliative care options. Your Committee on Conference further finds that establishing the culturally competent palliative care pilot program is a promising step toward increasing patient, family, and provider engagement with palliative care options.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$250,000 for the palliative care pilot program;
- (2) Inserting an effective date of July 1, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 804, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 804, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, English, Nishihara and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Nishihara).

Representatives Mizuno, Takumi, B. Kobayashi and Ward.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

## Conf. Com. Rep. 80 on S.B. No. 1212

The purpose of this measure is to require third-party administrators to be licensed and regulated by the Insurance Commissioner.

Your Committee on Conference finds that third-party administrators collect charges or premiums from residents in the State in connection with insurance policies, or adjust or settle claims on those policies. Hawaii is one of eight states and jurisdictions that do not regulate third-party administrators. This measure is based on the National Association of Insurance Commissioner's Registration and Regulation of Third-Party Administrators Guideline, which offers flexible, bright line rules to help states tailor and adopt measures particular to their own needs. This measure regulates third-party administrators, ensures adequate consumer protection, and promotes transparency of third-party administrators by requiring licensure, encouraging disclosure of contracts between insurers and third-party administrators, and promoting the financial responsibilities of third-party administrators.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to January 1, 2020; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1212, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1212, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keohokalole and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Takumi, Nakamura, Cachola and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Cachola).

### Conf. Com. Rep. 81 on S.B. No. 471

The purpose of this measure is to:

- (1) Appropriate funds to homeless programs, including outreach, rapid re-housing, housing first, family assessment centers, and diversion programs and the coordinated statewide homelessness initiative; and
- (2) Establish a long-term rental assistance pilot program for individuals over sixty years old who are homeless or at risk of becoming homeless.

Your Committee on Conference recognizes that Hawaii must prioritize programs and services that are the most cost-effective and target the most vulnerable populations, such as rapid re-housing, housing first, family assessment centers, and homeless outreach and civil legal services stored property and debris removal services, and the State rental supplement program. These programs and services are critically necessary to address homelessness in Hawaii. Your Committee on Conference notes that funding for stored property and debris removal services and the State rent supplement program are also core homeless services and programs that should be funded.

Accordingly, your Committee on Conference has amended this measure by:

- Removing language that appropriated funds to the law-enforcement assisted diversion and coordinated statewide homelessness initiative.
- (2) Removing language that established and appropriated funds for a long-term assistance pilot program for elderly who are homeless:
- (3) Inserting specific appropriation amounts for the Department of Human Services for the housing first program, rapid re-housing program, family assessment centers, and homeless outreach and civil legal services and making a conforming amendment to clarify that the monies are to be expended by the Department of Human Services;
- (4) Inserting an appropriation of \$3,000,000 to fund stored property and debris removal services and authorizing the Department of Human Services to contract with another entity to perform any related services;
- (5) Inserting an appropriation of \$1,000,000 for the State rental supplement program, under the administration of the Hawaii Public Housing Agency;
- (6) Changing the effective date to July 1, 2019; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 471, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 471, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ruderman, Chang, Harimoto, Riviere and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

Representatives San Buenaventura, Brower, Nakamura, Wildberger and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Wildberger, Ward).

## Conf. Com. Rep. 82 on S.B. No. 192

The purpose of this measure is to implement certain recommendations of the criminal pretrial task force convened pursuant to House Concurrent Resolution No. 134, H.D. 1, Regular Session of 2017, to reform bail and other pretrial practices and procedures.

Your Committee on Conference finds that the cash-secured bail system unjustly disadvantages low-income individuals and their families. Your Committee on Conference further finds that individuals without the financial resources to pay the necessary amount of bail can be detained for weeks, months, or longer, and can additionally face the loss of employment, housing, or custody of children. Your Committee on Conference additionally finds that there should be a means for courts to release defendants on unsecured bail under certain circumstances.

Your Committee on Conference has amended this measure by:

- (1) Deleting substantive provisions of the bill and only retaining language that authorizes the court to release a defendant in custody on unsecured bail and specifying what a court may consider in granting or denying unsecured bail;
- (2) Making it effective upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 192, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 192, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keith-Agaran, Gabbard and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Takayama, Lee, Gates and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

### Conf. Com. Rep. 83 on H.B. No. 757

The purpose of this measure is to:

- (1) Require the Department of Transportation and the county transportation departments to adopt a vision zero policy to prevent and eliminate traffic fatalities through engineering, enforcement, education, and emergency response strategies; and
- (2) Require the State Highway Safety Council to collaborate with county traffic or highway safety councils to develop a vision zero action plan and submit reports to the Legislature.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon approval; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 757, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 757, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Nishihara, Moriwaki, Harimoto and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

Representatives Aquino, Lee, Hashimoto, Nakamura and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Nakamura, McDermott).

## Conf. Com. Rep. 84 on H.B. No. 333

The purpose of this measure is to:

- (1) Establish the State Highway Enforcement Program to enforce illegal parking violations and provide for parking management improvements; and
- (2) Impose a parking violation surcharge, in addition to other penalties and fines, for parking violations on state highways.

Your Committee on Conference as amended this measure by:

- (1) Making this measure effective on July 1, 2019; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 333, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 333, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Nishihara, Rhoads, Kahele and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

Representatives Aquino, Lee, Hashimoto, Nakamura and McDermott.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

## Conf. Com. Rep. 85 on H.B. No. 812

The purpose of this measure is to regulate the use of low-speed electric bicycles by:

- (1) Prohibiting persons under the age of fifteen from operating a low-speed electric bicycle; and
- (2) Expanding the statutory definition of "bicycle" to include low-speed electric bicycles for purposes of regulation under highway safety laws and the Statewide Traffic Code.

Your Committee on Conference has amended this measure by:

- (1) Inserting language establishing a permanent registration fee for low-speed electric bicycles;
- (2) Making this measure effective July 1, 2019; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 812, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 812, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Kahele, Harimoto, Shimabukuro and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Aquino, Lee, Hashimoto, Nakamura and McDermott.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

#### Conf. Com. Rep. 86 on H.B. No. 1033

The purpose of this measure is to require owners of vessels that are:

- At least twenty-six feet long and registered with the Department of Land and Natural Resources or operated with a valid United States Coast Guard documentation number; or
- (2) Grounded anywhere in the State or state ocean waters,

to maintain marine insurance coverage with a limit of at least \$100,000 per occurrence that includes coverage for removal and salvage of a grounded vessel. This measure also permits the Department of Land and Natural Resources to grant exceptions to the insurance requirement to transient vessels that are not moored in any facility under the Department's jurisdiction.

Your Committee on Conference has amended this measure by:

- (1) Requiring, rather than authorizing, the Department to adopt administrative rules to implement the insurance requirement; and
- (2) Changing its effective date to December 31, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1033, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1033, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kahele, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Yamane, Takumi, Todd and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

# Conf. Com. Rep. 87 on H.B. No. 444

The purpose of this measure is to require the Department of Health to evaluate and determine the best practical standards for alternative, onsite non-potable water reuse systems and to report its findings to the Legislature.

Your Committee on Conference has amended this measure by:

- (1) Directing the Department of Health to adopt a localized set of rules for onsite non-potable water reuse systems with guidance from the Water Environment and Reuse Foundation and Water Research Foundation's publication, "A Guidebook for Developing and Implementing Regulations for Onsite Non-Potable Water Systems" rather than directing the Department to evaluate standards; and
- (2) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 444, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 444, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Ruderman, Thielen and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Yamane, Cullen, Todd and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

### Conf. Com. Rep. 88 on H.B. No. 993

The purpose of this measure is to amend the management structure and functions of the Hawaii Emergency Management Agency and to increase the expenditure ceiling for funds allocated to the Agency. Specifically, this measure:

- (1) Transfers statutory authority for Agency staffing, inter-agency coordination, establishment and management of a reserve corps, and Agency expenditures from the Adjutant General, acting in the Adjutant General's capacity as Director of the Hawaii Emergency Management Agency, to the Agency Administrator;
- (2) Specifies the required contents and functions of the State Comprehensive Emergency Management Plan, which shall be integrated into and coordinated with emergency management plans of the federal and county governments and shall include participation by public, private, and individual interests, and the Agency's duties and functions in establishing and carrying out the plan;
- (3) Requires that the counties' emergency management plan be comprehensive, adhere to standards developed by the Agency, and be coordinated and consistent with the state plan and requires the counties to annually submit reports on the status of and updates to their plans to the Agency;
- (4) Renames the Emergency Reserve Corps as the Emergency Management Reserve Corps, includes day-to-day emergency management functions in the Corps' authorized functions, and amends Corps' members annual required paid duties; and
- (5) Increases the expenditure ceiling for the Major Disaster Fund for immediate relief during a declared state of emergency by an unspecified amount, increases the annual allotment ceiling from the Fund to support the Emergency Management Reserve Corps by an unspecified amount, and provides for the annual roll-over of unspent funds under \$2,500,000.

Your Committee on Conference has amended this measure by:

- (1) Increasing the expenditure ceiling for the Major Disaster Fund from \$5,000,000 to \$10,000,000;
- (2) Increasing the allotment from the Major Disaster Fund to support the Emergency Management Reserve Corps from \$100,000 to \$250,000;
- (3) Changing the effective date to July 1, 2019; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 993, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 993, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Kahele and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Takayama, San Buenaventura, Gates, Kong and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McDermott).

# Conf. Com. Rep. 89 on H.B. No. 89

The purpose of this measure is to address proper disposal and storage of confiscated fireworks and authorize the courts to impose additional fines for confiscated fireworks.

Your Committee on Conference has amended this measure by providing safeguards for the public from illegal fireworks by:

- (1) Establishing criminal liability for a person who is responsible for real property and intentionally, knowingly, or recklessly allows others, while on the real property, to possess, set off, ignite, or otherwise cause to explode any illegal aerial device;
- (2) Establishing criminal penalties, including a fine of at least \$500 and no more than \$2,000, for liable real property owners;
- (3) Clarifying that probable cause for arrest for fireworks offenses may be based on statements from witnesses and photographs, video, and other recordings, including any photograph or video made using an unmanned aerial vehicle;
- (4) Changing the effective date to upon its approval; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 89, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 89, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Rhoads, Kidani, Harimoto and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

Representatives Takayama, Lee, Gates, Kong and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McDermott).

#### Conf. Com. Rep. 90 on H.B. No. 1163

The purpose of this measure is to authorize a financial institution that is a depository institution to conduct savings promotion or prize-linked savings contests in which its account holders are contestants.

Your Committee on Conference has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1163, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1163, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Rhoads and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Ohno, Nakamura, Gates, D. Kobayashi and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McDermott).

#### Conf. Com. Rep. 91 on H.B. No. 66

The purpose of this measure is to repeal the existing Uniform Athlete Agents Act (Uniform Act) and replace it with the Revised Uniform Athlete Agents Act, which applies to certain financial advisers and makes other changes to the Uniform Act to increase effectiveness and enforceability.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2020.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 66, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 66, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Rhoads and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Ohno, Takumi, Todd, Gates, D. Kobayashi and McDermott.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (McDermott).

# Conf. Com. Rep. 92 on H.B. No. 1273

The purpose of this measure is to:

- (1) Establish the Medicaid Waiver Administrative Claiming Special Fund (Special Fund) to allow the Department of Health to collect all revenues from Medicaid administrative claiming allowed for the operation of the State's home and communitybased services waiver for persons with intellectual and developmental disabilities; and
- (2) Require the Department of Health, in conjunction with the Department of Human Services and other stakeholders, to develop and distribute educational materials informing individuals with intellectual or developmental disabilities on how to access Medicaid services and the types of Medicaid services available.

Your Committee on Conference has amended this measure by:

- (1) Removing language exempting the Special Fund from central service and administrative expenses assessments;
- $(2) \quad Inserting \ the \ appropriation \ amount \ of \$900,000 \ out \ of \ the \ Special \ Fund \ for \ Fiscal \ Year \ 2019-2020 \ only; \ and \ Special \ Fund \ for \ Fiscal \ Year \ 2019-2020 \ only; \ and \ Special \ Fund \ for \ Fiscal \ Year \ 2019-2020 \ only; \ and \ Special \ Fund \ for \ Fiscal \ Year \ 2019-2020 \ only; \ and \ Special \ Fund \ for \ Fiscal \ Year \ 2019-2020 \ only; \ and \ Special \ Fund \ for \ Fiscal \ Year \ 2019-2020 \ only; \ and \ Special \ Fund \ for \ Fiscal \ Year \ 2019-2020 \ only; \ and \ Special \ Fund \ for \ Fiscal \ Year \ 2019-2020 \ only; \ And \ Special \ Fund \ for \ Fiscal \ Year \ 2019-2020 \ only; \ And \ Special \ Fund \ Fund$
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1273, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1273, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Moriwaki, Chang, Thielen and Fevella.

Managers on the part of the Senate. Ayes, 5. Noes, none. Excused, none.

Representatives Mizuno, San Buenaventura, B. Kobayashi and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

#### Conf. Com. Rep. 93 on H.B. No. 1453

The purpose of this measure is to:

- (1) Authorize the Department of Health to establish reasonable fees to be collected from individuals who are transported by emergency ambulance services to a medical facility, or are treated as part of a community paramedicine program but not transported to a medical facility;
- (2) Require the State's Medicaid program to provide coverage for ambulance services and permit the State's Medicaid program to provide coverage for statewide community paramedicine services by emergency services personnel; and
- (3) Require private health insurance plans to cover ambulance services and statewide community paramedicine services rendered by emergency services personnel.

Your Committee on Conference has amended this measure by:

- (1) Inserting language clarifying that reasonable fees are to be established for transportation by ground ambulance only;
- (2) Broadening the scope of coverage for treatment for an individual who is not subsequently transported to a health care facility to include coverage provided by all emergency services personnel, not only emergency services personnel who are acting as part of a community paramedicine program;
- (3) Inserting language statutorily establishing a community paramedicine program;
- (4) Permitting, rather than requiring, the State's Medicaid program to cover ground ambulance transportation services;
- (5) Removing language requiring coverage of ambulance and community paramedicine services by private health insurance plans;
- (6) Requiring the Department of Health to submit a report to the Legislature prior to the regular sessions of 2020, 2021, 2022, and 2023;
- (7) Changing the effective date to July 1, 2019; and
- (8) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1453, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1453, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Moriwaki, Chang, Thielen and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Mizuno, Luke, Cullen and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

#### Conf. Com. Rep. 94 on H.B. No. 1558

The purpose of this measure is to:

- (1) Require the Office of Planning to update the Hawaii 2050 Sustainability Plan (Plan) and submit the updated Plan to the Legislature prior to the Regular Session of 2021 and every tenth session thereafter, using the goals and priority guidelines of the Hawaii State Planning Act and the Hawaii Climate Change Mitigation and Adaptation Initiative as guiding principles; and
- (2) Appropriate funds to update the Plan.

Your Committee on Conference has amended this measure by:

- (1) Inserting the appropriation amount of \$150,000 for fiscal year 2019-2020; and
- (2) Changing its effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1558, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1558, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Kahele, Riviere, Chang and Fevella.

Managers on the part of the Senate.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Representatives Lowen, Yamane, Wildberger, Har and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Yamane).

# Conf. Com. Rep. 95 on H.B. No. 1548

The purpose of this measure is to appropriate funds to the Department of Land and Natural Resources to study and combat rapid ohia death.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$750,000 for fiscal year 2019-2020;
- (2) Deleting language which would have appropriated funds for fiscal year 2020-2021; and
- (3) Changing its effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1548, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1548, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kahele, Gabbard, Inouye and Fevella.

Managers on the part of the Senate. Ayes, 4. Noes, none. Excused, none.

Representatives Lowen, Yamane, Todd, Tarnas and Thielen.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, none.

# Conf. Com. Rep. 96 on H.B. No. 1319

The purpose of this measure is to authorize the Department of Budget and Finance to issue special purpose revenue bonds for the purpose of assisting Hawaiian Electric Company, Inc., including its subsidiaries Maui Electric Company, Limited, and Hawaii Electric Light Company, Inc., for capital improvement projects.

Your Committee on Conference has amended this measure by:

- (1) Inserting a total special purpose revenue bond issuance amount of \$700,000,000, to be distributed as follows:
  - (A) Up to \$400,000,000 for Hawaiian Electric Company, Inc.;
  - (B) Up to \$150,000,000 for Maui Electric Company, Limited; and
  - (C) Up to \$150,000,000 for Hawaiian Electric Light Company, Inc.;
- Providing that any benefits or savings realized due to the issuance of special purpose revenue bonds shall be apportioned to ratepayers;
- (3) Changing its effective date to July 1, 2019; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1319, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1319, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keith-Agaran, Keohokalole, Ruderman and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Lowen, Cullen and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

## Conf. Com. Rep. 97 on S.B. No. 9

The purpose of this measure is to:

- (1) Require the Hawaii Public Housing Authority to adopt rules, without regard to chapter 91, Hawaii Revised Statutes, to reimburse section 8 landlords for repair costs of tenant-caused property damage under certain circumstances; and
- (2) Appropriate funds for the reimbursement program and to establish one full-time equivalent position to assist and administer the reimbursement program.

Your Committee on Conference finds that the section 8 program is one of the federal government's major programs for assisting very low income families, the elderly, and the disabled to afford decent, safe, and sanitary housing. Your Committee on Conference further finds that the section 8 program currently brings in approximately \$32,680,000 a year on the island of Oahu, which supports over 2,337 families and over 6,400 individuals. There is an overwhelming need in the State to assist low-income families and individuals obtain affordable housing. Your Committee on Conference believes that providing financial protection for property owners and landlords will incentivize more property owners and landlords to participate in the section 8 housing voucher program, thereby creating more housing opportunities for those who need it most.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$450,000 for fiscal year 2019-2020 to reimburse landlords participating in the section 8 housing choice voucher program for repair costs of certain tenant-caused property damage;
- (2) Deleting language that would have authorized the funds appropriated to be used to establish one full-time equivalent position to assist and administer the reimbursement program;
- (3) Changing the effective date to July 1, 2019; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 9, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 9, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Moriwaki and Fevella. Managers on the part of the Senate. Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Brower, Matayoshi, Hashem and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

## Conf. Com. Rep. 98 on S.B. No. 1241

The purpose of this measure is to add the Department of Health to the list of state departments that have access to the energy data collected pursuant to chapter 486J, Hawaii Revised Statutes, in order to increase the accuracy and reduce the levels of uncertainty in the Department of Health's annual greenhouse gas progress reports.

Your Committee on Conference finds that climate change poses a serious threat to the State. The Department of Health prepares annual greenhouse gas progress reports and is the primary agency with regulatory oversight of Hawaii's greenhouse gas emissions. Your Committee on Conference also finds that existing state law prohibits the Department of Business, Economic Development, and Tourism from sharing energy data in its original form with the Department of Health. This measure allows the Department of Business, Economic Development, and Tourism to share original energy data with the Department of Health, which will reduce uncertainty, result in more accurate statewide greenhouse gas emissions inventories, and provide a more reliable basis for future greenhouse gas reduction efforts.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1241, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1241, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Baker, Rhoads and Fevella. Managers on the part of the Senate. Ayes, 4. Noes, none. Excused, none.

Representatives Lowen, Wildberger, Tarnas and Thielen.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

## Conf. Com. Rep. 99 on S.B. No. 1223

The purpose of this measure is to extend the sunset date to July 1, 2024, for:

- (1) Act 141, Session Laws of Hawaii 2009, as amended (Act 141), which requires each county to issue affordable housing credits to the Department of Hawaiian Home Lands; and
- (2) Act 98, Session Laws of Hawaii 2012, as amended (Act 98), which requires the counties to issue affordable housing credits for each residential unit, or vacant lot if allowed under the county's affordable housing program, developed by the Department of Hawaiian Home Lands.

Your Committee on Conference finds that the State's need for more affordable housing is an immediate and ever-growing concern that must be addressed. Providing multiple avenues for project development, including by the counties and through departments, is an important step toward increasing the State's affordable housing inventory. Your Committee on Conference further finds that extending the sunset date of Act 141 and Act 98 ensures the Department of Hawaiian Home Lands can continue to utilize county affordable housing credits to gain resources to develop affordable housing options for its beneficiaries.

Your Committee on Conference has amended this measure by changing its effective date to June 30, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1223, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1223, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Chang, Riviere, Nishihara and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

Representatives Yamane, Todd and McDermott.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

#### Conf. Com. Rep. 100 on S.B. No. 817

The purpose of this measure is to:

- (1) Authorize the sale of stored property insurance by self-service storage facility owners under certain conditions; and
- (2) Require self-service storage facility owners to hold a limited lines license to sell, solicit, or offer coverage under a stored property insurance policy.

Your Committee on Conference finds that the storage tenant is responsible for insuring the property that is stored in a self-service storage unit. However, approximately fifty percent of storage tenants are in transition and do not have a homeowner's policy or renter's insurance policy covering their stored property, while tenants that do have homeowner's or renter's insurance are subject to a much larger deductible. Furthermore, stand-alone insurance coverage for stored property is not typically offered by insurance agents because the commission payments are low. This measure fills the existing gap in the State's insurance market and allows licensed self-service storage facility owners to provide stored property insurance.

Your Committee on Conference has amended this measure by:

- (1) Establishing provisions related to self-storage occupants' insurance as a new part in chapter 431, article 9A, Hawaii Revised Statutes, rather than as a new article in this chapter;
- (2) Inserting a definition for "commissioner";
- (3) Clarifying the definition of "owner";
- (4) Clarifying that a self-storage facility owner is not required to hold a license for purposes of displaying brochures and promotional materials on behalf of an authorized insurer, rather than an authorized insurer or surplus lines insurer;
- (5) Clarifying that the supervising entity shall maintain a registry of owner locations, employees, and representatives that are authorized to sell, solicit, or offer stored property insurance and clarifying the Insurance Commissioner's authority to inspect and examine the registry;
- (6) Deleting language that would have required each stored property insurance program to establish eligibility and underwriting standards for occupants electing to enroll in coverage;
- (7) Clarifying that an employee or authorized representative shall receive training prior to engaging in the activity of selling, soliciting, or offering stored property insurance;
- (8) Deleting language that would have permitted owners to receive compensation for billing and collection services;
- (9) Clarifying the length of time that initial and renewed licenses shall remain valid;
- (10) Clarifying the application and license fees that shall be paid by each licensed owner;
- (11) Inserting language that permits the Insurance Commissioner to issue a limited license to any owner of a self-service storage facility to sell stored property insurance;
- (12) Updating the purpose section;
- (13) Changing the effective date to January 1, 2020; and
- (14) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 817, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 817, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, English, Nishihara and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Ohno, Takumi, Nishimoto, D. Kobayashi and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McDermott).

# Conf. Com. Rep. 101 on S.B. No. 991

The purpose of this measure is to:

(1) Cap annual utility rate increases without Public Utilities Commission approval for counties with a population of less than 500,000;

- (2) Provide telecommunications service providers with flexibility from certain regulatory oversight requirements, including issuance of securities and other evidences of indebtedness and sales or disposition of property or equipment, if the utility is providing fully competitive retail services and specific conditions are met; and
- (3) Specify other requirements related to flexibility for telecommunications service providers.

Your Committee on Conference finds that in the past several decades, as the telecommunications industry has become more competitive, regulation of businesses offering telecommunications services in Hawaii has been significantly reduced through legislative action and Public Utilities Commission orders. Your Committee on Conference further finds that enabling robust competition in the market and supporting a level playing field for all competitors, while also ensuring high quality customer service from telecommunications service providers and non-discriminatory access to infrastructure in less-competitive rural markets and on neighbor islands, is in the public interest.

Your Committee on Conference has amended this measure by:

- Clarifying that a telecommunications carrier shall not be required to obtain approval or provide any cost support or other information to establish or otherwise modify in any manner its retail intrastate telecommunications service rates, fares, charges, and terms and conditions; and
- (2) Changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 991, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 991, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Fevella. Managers on the part of the Senate. Ayes, 2. Noes, none. Excused, 1 (Chang).

Representatives Ohno, Takumi, Nishimoto and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

# Conf. Com. Rep. 102 on S.B. No. 1231

The purpose of this measure is to:

- (1) Update the name of the spouse and child abuse special fund;
- (2) Exempt the spouse and child abuse special fund from the administrative expense assessment;
- (3) Allow the Department of Human Services to retain reimbursements of federal funds to provide funding for child abuse and neglect prevention and intervention services; and
- (4) Specify the maximum amount that may be retained in the spouse and child abuse special fund and require all amounts above the maximum to lapse to the credit of the general fund.

Your Committee on Conference finds that, beginning on October 1, 2019, the federal Family First Prevention Services Act will permit states the option of using Social Security Title IV-E (Title IV-E) funds for child abuse prevention services. However, under existing state law, the Department of Human Services is not allowed to retain federal reimbursement funds received in the following fiscal year from which they were expended. Your Committee on Conference finds that this measure allows the Department of Human Services to take advantage of the federal option by permitting the Department to retain Title IV-E federal reimbursements in the spouse and child abuse special fund, which will help to stabilize child welfare program funding.

Your Committee on Conference has amended this measure by:

- (1) Removing language exempting the spouse and child abuse special fund from the administrative expense assessment;
- (2) Setting the maximum amount that may be retained in the spouse and child abuse special fund at \$3,000,000;
- (3) Changing the effective date to upon approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1231, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1231, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Riviere, Rhoads and Fevella. Managers on the part of the Senate. Ayes, 4. Noes, none. Excused, none.

Representatives San Buenaventura, Nakamura, Belatti, Tokioka and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Belatti, Tokioka).

# Conf. Com. Rep. 103 on S.B. No. 383

The purpose and intent of this measure is to:

- (1) Require the Department of Education to establish a mandatory youth suicide awareness and prevention training program and model risk referral protocol, based on existing materials created by the Department of Health, for all public schools, including charter schools; and
- (2) Require charter schools to provide the training program and risk referral protocol to all school personnel who work directly with students in kindergarten through grade twelve.

Your Committee on Conference finds that Hawaii has very high rates of suicide, suicide attempts, and suicidal ideation amongst various age groups, especially among youth. Suicide-related behavior has a serious and profound impact on communities that can be reduced with education, awareness, and appropriate mental health treatment. Therefore, this measure requires the provision of proper training and system protocols to ensure safe learning environments that support the educational, emotional, and physical well-being of all students.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2019; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 383, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 383, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Ruderman, Baker, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Woodson, Mizuno, Kitagawa and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

# Conf. Com. Rep. 104 on S.B. No. 1440

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist Trevi Systems, Inc., or its related entity, Kona Coast Water LLC, in funding plans, designs, construction, equipment, land leases, and other assets for two or more plants to desalinate water using one hundred percent renewable solar energy. The water shall be supplied to Hawaii island and potentially other islands.

Your Committee on Conference finds that this measure is in the public interest and for the public health, safety, and general welfare.

Your Committee on Conference has amended this measure by:

- (1) Changing the appropriation from an unspecified amount to 100,000,000; and
- (2) Changing the effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1440, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1440, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kanuha, English and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Lowen, Wildberger and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

#### Conf. Com. Rep. 105 on S.B. No. 1348

The purpose of this measure is to clarify the intent of the Small Business Regulatory Review Board's powers when reviewing state and county administrative rules and ordinances that impact small businesses and appropriate funds for the operations and administration of the Board.

Your Committee on Conference finds that the Small Business Regulatory Review Board (Board) protects small businesses in Hawaii and ensures that state or county agency rules that could impact small businesses are consistent with state laws and county ordinances. Your Committee on Conference also finds that it is important that the Board's purview is clearly understood by the small business community, state and county agencies, Hawaii business chambers, and trade organizations. This measure will help to clarify the Board's powers.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the Board may consider requests from small business owners for review of any rule proposed, amended, or adopted by a state agency;
- (2) Clarifying that for requests regarding county rules, the Board may make recommendations to the county council or mayor;
- (3) Removing the appropriation for operations and administration of the Board;
- (4) Changing the effective date to upon approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1348, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1348, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Rhoads, Taniguchi and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Taniguchi).

Representatives McKelvey, Lee, Kitagawa and Matsumoto.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

# Conf. Com. Rep. 106 on S.B. No. 1002

The purpose of this measure is to extend the authorization to issue special purpose revenue bonds to assist Honolulu Seawater Air Conditioning, LLC, under Act 113, Session Laws of Hawaii 2009, as amended by Act 150, Session Laws of Hawaii 2014.

Your Committee on Conference finds that Act 113, Session Laws of Hawaii 2009, authorized the issuance of special purpose revenue bonds to assist Honolulu Seawater Air Conditioning, LLC, in constructing a district cooling project consisting of its chilled water distribution system and balance-of-system components and structures, to assist with the development of a seawater air conditioning system in downtown Honolulu. The authorization to issue special revenue bonds was set to lapse on June 30, 2014. Act 150, Session Laws of Hawaii 2014, extended the lapse date until June 28, 2019.

Your Committee on Conference has amended this measure by

- (1) Inserting certain lapse dates for the authorization to issue special purpose revenue bonds;
- (2) Changing the effective date to June 27, 2019; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1002, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1002, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Moriwaki and Fevella. Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Lowen, McKelvey, Cullen, Wildberger and McDermott.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, none.

# Conf. Com. Rep. 107 on S.B. No. 1459

The purpose of this measure is to establish the State Commission on Surfing to promote surfing and educate people throughout the State, as well as a broader international audience, about surfing's unique connection to Hawaii.

Your Committee on Conference finds that surfing, as the state sport of Hawaii, is of significant cultural, social, and economic value to the people and State of Hawaii. However, many people are unaware of the history and unique connection that Hawaii has with surfing. This measure will establish the State Commission on Surfing (Commission) to promote surfing and its unique connection to Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Removing a voting member designated by the World Surf League from the Commission;
- (2) Clarifying that the Commission shall be exempt from certain paragraphs of section 26-35(a), Hawaii Revised Statutes, rather than the entire section; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1459, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1459, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Taniguchi, Kidani and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Johanson, Cullen, Gates and Matsumoto.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

#### Conf. Com. Rep. 108 on S.B. No. 976

The purpose of this measure is to:

- (1) Establish a pilot program for the lease of public library lands to generate revenue to meet the mission of the public libraries;
- (2) Establish the library facilities fund; and
- (3) Require the Board of Education to a submit a report to the Legislature prior to the Regular Session of 2021 and each regular session thereafter until the completion of the pilot project on various timelines, summaries, and proposed legislation.

Your Committee on Conference finds that public libraries provide an invaluable service to the community. However, there is a need to examine new and innovative methods of generating funds to support the mission of the public libraries. This measure establishes a pilot program to generate revenue through the lease of public library lands to meet the mission of the public libraries to be facilitated by the State Librarian, Board of Education, and any other appropriate agencies.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$100,000 for fiscal years 2019-2020 and 2020-2021 for a comprehensive planning study to review all state public library land sites and facilities for the pilot program; and
- (2) Changing the effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 976, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 976, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kahele, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Woodson, Yamane, Todd and Okimoto.

Managers on the part of the House.

Ayes, 4; Ayes with Reservations (Okimoto). Noes, none. Excused, none.

# Conf. Com. Rep. 109 on H.B. No. 888

The purpose of this measure is to appropriate funds to support the operations of the Maui Health System.

Your Committee on Conference has amended this measure by:

- (1) Inserting the appropriation amount of \$22,500,000 for fiscal biennium 2019-2021; and
- (2) Changing its effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 888, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 888, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, English, Chang, Thielen and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Mizuno, Nishimoto, Hashimoto, Wildberger, Yamashita and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Yamashita).

# Conf. Com. Rep. 110 on H.B. No. 673

The purpose of this measure is to:

- (1) Provide a process for the voluntary or involuntary transfer or sale of an individual dispensary license;
- (2) Prohibit an employer from discriminating against an employee based on the employee's status as a qualifying patient;
- (3) Prohibit an employer from taking action against an employee solely based on the employee's status as a qualifying patient, or the employee's drug test testing positive for cannabis; and

(4) Specify permissible and impermissible actions by employers and employees.

Your Committee on Conference has amended this measure by:

- (1) Removing language relating to employee protections based on their status as a qualified patient or positive drug test, and the permissible and impermissible actions of employers and employees;
- (2) Removing the following restrictions related to dispensaries:
  - (A) The interisland transport of cannabis for the purpose of laboratory testing;
  - (B) The prohibition on dispensaries operating on state and federal holidays; and
  - (C) The prohibition on dispensaries from being located within 750 feet of public housing;
- (3) Making this measure effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 673, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 673, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Rhoads, English, Nishihara and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

Representatives Mizuno, Johanson, Lee, Cullen and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Lee).

# Conf. Com. Rep. 111 on S.B. No. 754

The purpose of this measure is to enact produce safety rules that authorize Department of Agriculture inspectors to inspect and regulate farms producing food in the State to increase food safety.

Your Committee on Conference finds that the Food and Drug Administration Standards for the Growing, Harvesting, Packing, and Holding of Produce for Human Consumption, title 21 Code of Federal Regulations part 112, establishes produce safety rules to allow for inspection and regulation of farms producing food for consumers. Your Committee on Conference further finds that authorizing Department of Agriculture inspectors to inspect and regulate farms can increase food safety in the State and promote public health.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 754, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 754, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Rhoads, Baker, Kahele and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Creagan, Cullen and Okimoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

### Conf. Com. Rep. 112 on S.B. No. 398

The purpose of this measure is to require the Department of Human Services, in partnership with the State Procurement Office, to establish and implement a training program on government procurement and other procedures for nonprofit organizations that offer homeless outreach services or manage homeless housing programs in rural areas of the State.

Your Committee on Conference finds that in order for nonprofit organizations to effectively work in concert with state and county governments, these organizations require a clear understanding of the state procurement system, including the proposal and bid processes, to most effectively offer homeless outreach services or manage homeless housing programs. Your Committee on Conference further finds that while these types of programs are robust in urban areas, homeless outreach services and homeless housing programs are lacking in rural areas of the State. This measure therefore establishes and implements a program to provide training on government procurement in rural areas of the State.

Your Committee on Conference has amended this measure by:

(1) Inserting an appropriation amount of \$120,000 for fiscal year 2019-2020 to establish and implement a government procurement training program; and

(2) Inserting an effective date of July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 398, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 398, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ruderman, Thielen, Keith-Agaran, Ihara and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Johanson, San Buenaventura, Cullen and Matsumoto.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

#### Conf. Com. Rep. 113 on S.B. No. 1238

The purpose of this measure is to establish the executive office on aging administrative claiming special fund to enhance the drawdown of anticipated federal funds and provide additional funding for support services for kupuna and individuals with disabilities who need long-term services and support.

Your Committee on Conference finds that establishing the executive office on aging administrative claiming special fund will enhance the drawdown of Medicaid-related federal funds, thereby optimizing revenue streams to support services for the especially vulnerable communities of kupuna and individuals with disabilities who require long-term services and support.

Your Committee has amended this measure by:

- Deleting a provision that would exempt the executive office on aging administrative claiming special fund from paying its pro
  rata share of the administrative expenses incurred by the department responsible for its operation pursuant to section 36-30,
  Hawaii Revised Statutes;
- (2) Changing the appropriation amount to \$1,443,000; and
- (3) Changing the effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1238, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1238, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Moriwaki and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives San Buenaventura, Nakamura and Ward.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

# Conf. Com. Rep. 114 on S.B. No. 1530

The purpose of this measure is to make the conversion of the means of financing for the Hawaii Community Development Authority staff from the Hawaii community development revolving fund to the general fund contingent upon the Hawaii Community Development Authority developing and submitting a plan to transfer its control of the Kakaako Community Development District to the City and County of Honolulu.

Your Committee on Conference finds that the conversion of means of financing for Hawaii Community Development Authority staff should take effect only after planning and proposed legislation regarding the transfer of control of the Kakaako Community Development District to the City and County of Honolulu.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the Hawaii Community Development Authority shall submit its transition plan by December 31, 2023;
- (2) Changing the effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1530, S.D. 3, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1530, S.D. 3, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Dela Cruz, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Johanson, Yamane, Luke and Matsumoto.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, 1 (Yamane).

#### Conf. Com. Rep. 115 on S.B. No. 242

The purpose of this measure is to establish a task force to study issues related to the accessibility and utilization of essential services by developmentally and intellectually disabled individuals in the State.

Your Committee on Conference finds that navigation, access, and coverage of Medicaid services under the State's present system of care can be complicated to navigate. This measure establishes a task force within the Behavioral Health Services Administration of the Department of Health to study issues relating to the accessibility and utilization of essential services. Your Committee on Conference notes that the accessibility and utilization of essential services can be particularly challenging for persons with autism or fetal alcohol spectrum disorder and it is important for Hawaii to make an effort to minimize these burdens. Amendments to this measure are therefore necessary to clarify the scope of the task force and make other amendments needed to ensure that Medicaid home and community-based services and other Medicaid services are more accessible to persons with autism or fetal alcohol spectrum disorder.

Your Committee on Conference has amended this measure by:

- (1) Inserting a purpose section and naming this measure "Ann and Kelii's Law";
- (2) Amending certain requirements for the task force, including:
  - (A) Clarifying that the task force is to be established jointly within the Behavioral Health Services Administration of the Department of Health and the Med-QUEST Division of the Department of Human Services;
  - (B) Clarifying that the purpose of the task force is to review policy issues and opportunities relating to the navigation, access, and coverage of Medicaid services by persons with autism or fetal alcohol spectrum disorder;
  - (C) Updating the composition of the task force;
  - (D) Clarifying the contents of the study to be submitted to the Legislature;
  - (E) Requiring the task force to analyze and make a recommendation on whether a waiver, a waiver amendment, or any other necessary policy approval from the Centers for Medicare and Medicaid Services may be necessary to ensure certain services are accessible to persons with autism or fetal alcohol spectrum disorder; and
  - (F) Specifying reimbursement, convening, and dissolution requirements for the task force;
- (3) Requiring the Department of Human Services to seek a waiver, waiver amendment, or other necessary policy approval from the Centers for Medicare and Medicaid Services, if recommended by the task force;
- (4) Specifying that the provision of home and community-based services and other Medicaid services for individuals diagnosed with autism or fetal alcohol spectrum disorder as required by this measure applies to all plans issued under Medicaid managed care and fee-for-service programs in the State only upon approval of any policy change by the Centers for Medicare and Medicaid Services;
- (5) Requiring the Legislature to appropriate any necessary state dollars sufficient to cover the state portion of increased Medicaid expenditures arising from any approved waiver, waiver amendment, or other necessary policy approval and specifying an appropriation is required prior to implementation of any approved waiver, waiver amendment, or policy change;
- (6) Inserting a savings clause and a severability clause;
- (7) Changing its effective date to July 1, 2019; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 242, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 242, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs and Speaker of the House of Representatives on behalf of the Committee.

Senators Ruderman, Baker, Riviere, Thielen and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Baker, Thielen).

Representatives Mizuno, Takumi, B. Kobayashi, Cachola and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Takumi).

# Conf. Com. Rep. 116 on S.B. No. 381

The purpose of this measure is to direct the Office of Planning, Land Use Commission, Real Estate Commission, and City and County of Honolulu Department of Planning and Permitting to study land subdivision and condominium property regime laws related to agricultural land, and report their findings and recommendations to the Legislature.

Your Committee on Conference finds that designating land for agricultural uses can increase the long-term sustainability of local agricultural production. Your Committee on Conference further finds that some agricultural lands are not being used for agricultural and enforcement of agricultural uses on agricultural lands could be improved. Your Committee on Conference therefore finds that a

study of land subdivision and condominium property regime laws would provide the necessary background and framework for improving enforcement of agricultural uses on agricultural lands.

Your Committee on Conference has amended this measure by:

- (1) Delaying the deadline for submitting the report of findings and recommendations from the study to the Legislature to no later than twenty days prior to the Regular Session of 2021;
- (2) Amending section 514B-6, Hawaii Revised Statutes, to require the counties to adopt supplemental rules governing condominium property regimes, including agricultural lands that are held in condominium property regimes, no later than July 1, 2022;
- (3) Inserting a severability clause;
- (4) Making it effective upon approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 381, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 381, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Gabbard, Baker and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Yamane, Creagan, Takumi, Cullen and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Okimoto).

# Conf. Com. Rep. 117 on S.B. No. 1417

The purpose of this measure is to appropriate funds for burial grants for qualifying Filipino-American World War II veterans for funeral and burial costs and costs of transporting their remains to the Philippines.

Your Committee on Conference finds that many Filipino veterans have been denied full veterans benefits, including burial benefits, by the United States. Your Committee on Conference further finds that appropriating funds for burial grants for qualifying Filipino-American World War II veterans would demonstrate the State's appreciation and proper respect for their service.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$50,000;
- (2) Removing language that would have prevented the funds from lapsing to the credit of the general fund;
- (3) Requiring the funds to be matched on a one-to-one basis with private funds;
- (4) Removing language that would have capped each burial grant at \$5,000 per person; and
- (4) Making it effective on July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1417, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1417, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Takayama, Cullen, Aquino and McDermott.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (McDermott).

# Conf. Com. Rep. 118 on H.B. No. 852

The purpose of this measure is to:

- (1) Establish the Hawaii State Energy Office;
- Establish the position of Chief Energy Officer of the Hawaii State Energy Office and powers and duties of the Chief Energy Officer;
- (3) Repeal statutes establishing the Energy Resources Coordinator position, the Coordinator's powers and duties, and the Renewable Energy Facilitator position;
- (4) Appropriate funds for the Hawaii State Energy Office and for expenses and positions for the Office; and

(5) Transfer the rights, powers, functions, and duties of the Energy Resources Coordinator and State Energy Office, including existing civil service employees, to the Hawaii State Energy Office and retaining the employees' civil service status until they leave employment with the Hawaii State Energy Office.

Your Committee on Conference has amended this measure by:

- Removing the authorization for the Hawaii State Energy Office to, through a memorandum of understanding, coordinate with and utilize the Hawaii Technology Development Corporation's expertise, personnel, and powers to acquire, use, and dispose of real property and infrastructure;
- (2) Amending the allowable uses of the Energy Security Special Fund to authorize funding, to the extent possible, to the climate change mitigation and adaptation commission and the greenhouse gas sequestration task force;
- (3) Amending the amount of general funds appropriated or authorized for the operating budget of the Hawaii State Energy Office to \$2,818,077 for each year of the 2019-2021 fiscal biennium;
- (4) Reducing the temporary position ceiling for the Hawaii State Energy Office by one temporary position;
- (5) Clarifying language regarding the transfer of civil service employees to the Hawaii State Energy Office;
- (6) Amending the portion of the environmental response, energy, and food security tax to be deposited into the Energy Security Special Fund from 15 cents per barrel to 5 cents per barrel;
- (7) Deleting language which would have appropriated funds to the Department of Business, Economic Development, and Tourism for the Hawaii State Energy Office;
- (8) Appropriating \$150,000 out of the Energy Security Special Fund for fiscal year 2019-2020 to be expended by the Hawaii State Energy Office for the purposes of conducting a study of carbon pricing, including whether and how a carbon pricing policy shall be implemented in Hawaii;
- (9) Changing its effective date to July 1, 2019; and
- (10) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 852, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 852, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Dela Cruz and Fevella.

Managers on the part of the Senate.

Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Representatives Lowen, Luke and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

# Conf. Com. Rep. 119 on H.B. No. 401

The purpose of this measure is to authorize state and county agencies to enter into energy performance contracts for the purpose of undertaking or implementing energy conservation or alternate energy measures for agency vehicles or vehicle fleets.

Your Committee on Conference has amended this measure by:

- Deleting language which would authorize state and county agencies to enter into energy performance contracts to undertake or implement energy conservation or alternate energy measures for agency vehicles or vehicle fleets;
- (2) Requiring all agencies to identify and evaluate vehicle fleet energy efficiency programs that the agency may implement using vehicle fleet performance contracts;
- (3) Authorizing agencies to contract for the provision of vehicles or associated capital investments in charging or fueling infrastructure and applying vehicle fleet operational and fuel cost savings toward the cost, and subjecting the contracts to certain provisions;
- (4) Clarifying the definition of "energy performance contract" to include the provision of electric vehicle charging infrastructure for a portion of avoided vehicle maintenance or fuel costs pursuant to a vehicle fleet energy efficiency program;
- (5) Amending the definition of "facility";
- (6) Inserting a preamble section;
- (7) Changing its effective date to upon its approval; and
- (8) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 401, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 401, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Thielen, Kanuha, Inouye and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Inouye).

Representatives Lowen, Nishimoto, Wildberger and Thielen.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

#### Conf. Com. Rep. 120 on H.B. No. 560

The purpose of this measure is to:

- (1) Create a University of Hawaii program to provide training to county officers and employees responsible for permitting, inspecting, licensing, and approving energy systems and related technology;
- (2) Establish an advisory committee to assist in the development of the training courses; and
- (3) Appropriate funds to the University of Hawaii for energy systems and technology training.

Your Committee on Conference has amended this measure by:

- (1) Deleting language which would have appropriated funds out of the general fund for energy systems and technology training;
- (2) Appropriating \$130,000 for fiscal year 2019-2020 out of the Energy Security Special Fund to be deposited into the Community Colleges Special Fund for energy systems and technology training; and
- (3) Changing its effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 560, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 560, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Kidani and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Lowen, Woodson, Wildberger and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

# Conf. Com. Rep. 121 on S.B. No. 1148

The purpose of this measure is to appropriate funds into and out of the agricultural loan revolving fund for the Department of Agriculture to provide loans to local ranchers and farmers who have experienced losses caused by disasters.

Your Committee on Conference finds that appropriating funds to support local farmers and ranchers helps these local food producers sustain their businesses in the wake of economic challenges and furthers the State's goal to double local food production.

Your Committee on Conference has amended this measure by:

- Deleting language that would have limited the Department of Agriculture to distributing agricultural loans only to farmers and ranchers that experienced losses caused by disasters;
- (2) Inserting an appropriation amount of \$2,500,000 into and out of the agricultural loan revolving fund to provide loans to support local ranchers and farmers; and
- (3) Changing the effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1148, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1148, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Inouye and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Creagan, Luke, Cabanilla Arakawa, DeCoite, Todd and Okimoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Cabanilla Arakawa).

# Conf. Com. Rep. 122 on S.B. No. 1303

The purpose and intent of this measure is to:

(1) Allow the Department of Education to lease public school lands for a term of not more than an unspecified number of years per lease;

- (2) Specify that title to the portions of Department of Education lands on which public libraries are located are held by the public library system;
- (3) Amend Act 206, Session Laws of Hawaii 2017, to allow the City and County of Honolulu to transfer lands under existing Department of Education facilities directly to the Department of Education, rather than through the Department of Land and Natural Resources;
- (4) Exclude lands set aside by the Governor to the Hawaii Public Housing Authority and lands to which Hawaii Public Housing Authority holds title from the definition of public lands in section 171-2, Hawaii Revised Statutes; and
- (5) Require prior legislative approval for the sale of lands to which the Hawaii Public Housing Authority holds title.

Your Committee on Conference finds that Act 155, Session Laws of Hawaii 2013, established a pilot program to generate revenue from uses of public school lands for public purposes to build and retrofit twenty-first century schools and create more school-centered communities. However, the existing fifty-five year lease term creates issues in financing redevelopment projects. Therefore, extending the lease terms for redevelopment would allow prospective developers flexibility in securing financing.

Your Committee on Conference further finds that Act 206, Session Laws of Hawaii 2017, attempted to consolidate ownership of the lands under existing public schools from the City and County of Honolulu to the Department of Land and Natural Resources. However, the lands should be transferred directly from the City and County of Honolulu to the Department of Education to allow the Department of Education more flexibility to redevelop or reposition its assets.

Your Committee on Conference has amended this measure by:

- Deleting language that specified that title to the portions of Department of Education lands on which public libraries are located shall be held by the public library system;
- (2) Inserting a time frame of ninety-nine years per lease term for which the Department of Education is allowed to lease public school lands:
- (3) Changing the effective date to July 1, 2019; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1303, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1303, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kahele, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Woodson, Yamane, Todd, Tarnas and Okimoto.

Managers on the part of the House.

Ayes, 5; Ayes with Reservations (Okimoto). Noes, none. Excused, none.

# Conf. Com. Rep. 123 on S.B. No. 592

The purpose and intent of this measure is to adjust the State Librarian's salary cap.

Your Committee on Conference finds that existing law authorizes the Board of Education to set the salary of the State Librarian as long as the salary does not exceed a specific amount. The State Librarian's current salary cap is \$120,000 per year, which was last increased in 2001. In order to attract and retain highly qualified candidates for the position, the salary of the State Librarian should be increased to a more competitive amount.

Your Committee on Conference has amended this measure by:

- (1) Inserting a salary cap amount of \$175,000 per year; and
- (2) Changing the effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 592, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 592, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Eli, Woodson, Cullen, Hashem and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

# Conf. Com. Rep. 124 on H.B. No. 510

The purpose of this measure is to appropriate funds for the operating and capital improvement costs of the Judiciary for the fiscal biennium beginning July 1, 2019, and ending June 30, 2021.

Your Committee on Conference has amended this measure by inserting appropriate amounts for fiscal biennium 2019-2021 operating budget of the Judiciary and changing the effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 510, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 510, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Dela Cruz and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Lee, Luke, Cullen, Yamashita and Thielen.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

# Conf. Com. Rep. 125 on H.B. No. 903

The purpose of this measure is to address the financial disparity imposed on low-income individuals who cannot afford to pay courtordered fines and fees by requiring the Judiciary to establish a financial hardship task force.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 903, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 903, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Shimabukuro and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Lee, Gates, San Buenaventura and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

# Conf. Com. Rep. 126 on H.B. No. 808

The purpose of this measure is to protect the marine ecosystem for ecological, recreational, and cultural purposes by:

- (1) Establishing a misdemeanor offense, fines, and administrative penalties for knowingly capturing, taking, possessing, abusing, entangling, or killing any shark in state marine waters; and
- (2) Expanding the existing misdemeanor offense for knowingly capturing or killing a manta ray in state marine waters to apply to all rays in state marine waters and to also include knowingly taking, possessing, abusing, or entangling any ray.

Your Committee on Conference has amended this measure by:

- (1) Deleting its purpose section;
- Deleting the new misdemeanor offense for knowingly capturing, taking, possessing, abusing, entangling, or killing any shark in state marine waters;
- (3) Directing, rather than authorizing, the Department of Land and Natural Resources to adopt rules pursuant to chapter 91, Hawaii Revised Statues, to define the take of ray and to determine when a take exceeds the potential biological removal level;
- (4) Changing its effective date to upon approval; and
- (5) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 808, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 808, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kahele, Rhoads, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Rhoads).

Representatives Yamane, Lee, Nishimoto, Tarnas and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Lee, Thielen).

#### Conf. Com. Rep. 127 on H.B. No. 1068

The purpose of this measure is to facilitate a long-range development process for the Heeia National Estuarine Research Reserve System that is inclusive of community stakeholders and ensures that the Heeia Estuarine Research Reserve System successfully fulfills its role as part of the National Estuarine Research Reserve System by:

- Requiring the Hawaii Community Development Authority and the managing entity of Heeia State Park to consult with key community stakeholders in development of a community-based long-range plan and an education center for Heeia Estuarine Research Reserve System; and
- (2) Appropriating funds for the community-based long-range plan and education center.

Your Committee on Conference has amended this measure by:

- (1) Deleting language regarding the establishment of an education center and appropriating funds for that purpose;
- (2) Inserting an appropriation amount of \$150,000 in Fiscal Year 2019-2020 for the long-range plan; and
- (3) Changing its effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1068, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1068, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kahele, Riviere and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Yamane, Todd, Kitagawa and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Thielen).

#### Conf. Com. Rep. 128 on H.B. No. 172

The purpose of this measure is to appropriate funds for the Fiscal Biennium 2019-2021 operating budget of the Office of Hawaiian Affairs.

Your Committee finds that the Office of Hawaiian Affairs is a semi-autonomous state agency established by the Hawaii State Constitution whose mandate is to better the conditions of Native Hawaiians. Your Committee further finds that the appropriations made by this measure will help the Office of Hawaiian Affairs to fulfill this mandate.

Your Committee on Conference has amended this measure by:

- (1) Inserting appropriate amounts for the Office of Hawaiian Affairs Fiscal Biennium 2019-2021 operating budget; and
- (2) Changing the effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 172, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 172, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Kahele, Kidani and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Yamane, Luke, Holt and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Thielen).

### Conf. Com. Rep. 129 on H.B. No. 116

The purpose of this measure is to appropriate additional funds for the operating costs of the Executive Branch for the fiscal biennium beginning July 1, 2019, and ending June 30, 2021.

Your Committee on Conference has amended this measure by appropriating \$10,757,811 in all funds, inclusive of \$9,118,826 in general funds, for fiscal year 2019-2020 and \$9,045,621 in all funds, inclusive of \$7,518,115 in general funds, for fiscal year 2020-2021 for the operating costs of the Executive Branch.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 116, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 116, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Keith-Agaran, English, Harimoto, Inouye, Kahele, Kanuha, Kidani, Moriwaki, Riviere, Shimabukuro, Taniguchi and Fevella.

Managers on the part of the Senate.

Ayes, 13. Noes, none. Excused, none.

Representatives Luke, Cullen, Eli, Gates, Hashimoto, Holt, Kitagawa, B. Kobayashi, Matayoshi, Nakamura, Nishimoto, Todd, Wildberger, Yamashita and McDermott.

Managers on the part of the House.

Ayes, 15. Noes, none. Excused, none.

# Conf. Com. Rep. 130 on H.B. No. 809

The purpose of this measure is to assist Hawaii's private organizations to provide essential and impactful services to residents and communities by appropriating funds for operating and capital improvement grants.

Your Committee on Conference recognizes the great need in the State for services provided by non-governmental groups and nonprofit agencies and has thus provided general obligation bond funds in fiscal biennium 2019-2021 to help aid these organizations in better serving the community.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 809, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 809, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Nishimoto, Cullen, Luke and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

# Conf. Com. Rep. 131 on H.B. No. 120

The purpose of this measure is to authorize the issuance of general obligation bonds and to make the constitutionally-required findings that the bond issuance will not cause the state debt limit to be exceeded.

Your Committee on Conference finds that in accordance with Article VII, section 13, of the State Constitution, the total amount of principal and interest, estimated for the general obligation bonds authorized under this measure and for all bonds authorized and unissued and calculated for all bonds issued and outstanding, will not cause the debt limit to be exceeded at the time of issuance.

Your Committee on Conference has amended this measure by:

- (1) Inserting the appropriate dollar amounts throughout the measure as provided by the Department of Budget and Finance;
- (2) Updating the dates and measure numbers cited in the measure;
- (3) Changing the effective date to upon its approval; and
- (4) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 120, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 120, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Luke, Cullen, Yamashita and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

# Conf. Com. Rep. 132 on S.B. No. 216

The purpose of this measure is to authorize the chief election officer or county clerk to conduct a recount of all votes in any election contest or ballot measure if the margin of victory is equal to or less than one hundred votes or one-half of one percent of the total number of votes cast for the contest, whichever is greater, without requiring a complaint to the court.

Your Committee on Conference finds that the results of recent elections highlight the need for an ability to authorize a recount when the results of an election are very close. Your Committee on Conference further finds that the ability for the chief election officer to authorize a recount would promote confidence in the electoral system and potentially save time and resources of the court system.

Your Committee on Conference has amended this measure by changing the margin of victory triggering a mandatory recount from one hundred votes or one-half of one percent, whichever is greater, to one hundred votes or one-quarter of one percent, whichever is greater.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 216, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 216, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Lee, Cullen and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

#### Conf. Com. Rep. 133 on S.B. No. 1314

The purpose of this measure is to amend the provisions of the high technology research income tax credit and extend its operation.

Specifically, this measure:

- Amends the tax credit for research activities so that references to the base amount in section 41 of the Internal Revenue Code shall not apply, and credit for all qualified research expenses may be taken without regard to the amount of expenses for previous years; and
- (2) Extends the tax credit for research activities through 2024.

Your Committee on Conference finds that this measure is intended to support the growth of Hawaii's technology industry.

Your Committee on Conference has amended this measure by:

- Transferring certification duties from the Department of Taxation to the Department of Business, Economic Development, and Tourism;
- (2) Establishing an annual aggregate cap amount of \$5,000,000 on the tax credit for research activities;
- (3) Expanding the Department of Business, Economic Development, and Tourism's reporting requirements to include identifying taxpayers who apply for the tax credit for research activities;
- (4) Repeals the tax credit for research activities on December 31, 2024;
- (5) Changing the effective date from July 1, 2030, to upon its approval; and
- (6) Making technical nonsubstantive amendments for purposes of consistency, clarity, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1314, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1314, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives McKelvey, Kitagawa, Cullen and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

# Conf. Com. Rep. 134 on S.B. No. 301

The purpose of this measure is to disallow the tax deduction for dividends paid by real estate investment trusts for state income tax purposes.

In addition, this measure requires ten percent of the revenue generated from the tax on real estate investment trusts to be used by the Department of Business, Economic Development, and Tourism to fund economic development in the State.

Your Committee on Conference finds that this measure subjects dividends paid by real estate investment trusts to the same tax treatment as dividends paid by other corporations.

Your Committee on Conference has amended this measure by:

- (1) Deleting the requirement that ten percent of the revenue generated from the tax on real estate investment trusts be used by the Department of Business, Economic Development, and Tourism to fund economic development in the State;
- (2) Changing the effective date from December 31, 2112, to upon its approval; and
- (3) Providing that the measure shall be repealed on December 31, 2023.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 301, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 301, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Moriwaki and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives McKelvey, Takumi, Kitagawa and Matsumoto.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

#### Conf. Com. Rep. 135 on S.B. No. 390

The purpose of this measure is to require the Department of Agriculture to create a dollar-for-dollar matching program for beneficiaries of the federal Supplemental Nutrition Assistance Program (SNAP) to purchase Hawaii-grown produce.

Your Committee on Conference finds that a double up food program would expand access to healthy foods for low-income residents who are eligible for SNAP benefits and would also provide a financial benefit to local growers by requiring the Department of Agriculture to develop a dollar-for-dollar matching program for SNAP beneficiaries who use their benefits to purchase Hawaii-grown produce. This measure provides a mechanism by which low-income residents can have greater access to locally grown fresh foods and at the same time support local farmers.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the name of the program as the Hawaii healthy food incentive program and making associated conforming amendments:
- (2) Changing the dollar-for-dollar match to up to \$10 per visit;
- (3) Inserting an appropriation amount of \$50,000 for the Hawaii healthy food incentive program; and
- (4) Changing the effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 390, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 390, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ruderman, Gabbard, Moriwaki, Riviere and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives DeCoite, Nakamura, Gates, Perruso and Okimoto.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, none.

# Conf. Com. Rep. 136 on H.B. No. 1307

The purpose of this measure is to require the Legislative Reference Bureau (LRB) to submit a report to the Legislature regarding the existing administrative hearings process in the State and the potential for a centralized office of administrative hearings. The report must include:

- (1) Statistical, non-confidential information from 2018 from all state departments and agencies that conduct or delegate contested case hearings, which must be provided to LRB by August 1, 2019; and
- (2) Research on centralized administrative hearings offices in other jurisdictions.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to July 1, 2019; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1307, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1307, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Thielen, Rhoads, Dela Cruz and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Lee, Matayoshi and Thielen.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

# Conf. Com. Rep. 137 on H.B. No. 1433

The purpose of this measure is to appropriate funds for two full-time equivalent positions, operating costs, and equipment to support the Hawaii Criminal Justice Data Center in administering the address confidentiality program.

Your Committee on Conference has amended this measure by:

- (1) Amending its preamble;
- (2) Changing the governmental entity responsible for the administration of the address confidentiality program from the Department of the Attorney General to the Office of the Lieutenant Governor;
- Deleting the appropriation for two full-time equivalent positions, operating costs, and equipment to support the Hawaii Criminal Justice Data Center in administering the address confidentiality program;
- (4) Changing its effective date to July 1, 2019; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1433, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1433, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Riviere and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Lee, Gates and Thielen. Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

# Conf. Com. Rep. 138 on S.B. No. 388

The purpose and intent of this measure is to:

- (1) Evaluate and assess certain vulnerable children and children exhibiting emergent or persistent behavioral issues;
- (2) Assess suspended students at the request of the student's parent or guardian to identify factors contributing to the student's suspension and provide services to the student for any social disorder, emotional disorder, or learning difference; and
- (3) Establish a task force to create a system for evaluating and assessing all children and those who are exhibiting emergent or persistent behaviors, academic challenges, or chronic absenteeism and are in need of appropriate supports and interventions accessible within the continuum of a multi-tiered system of supports.

Your Committee on Conference finds that vulnerable children often experience a range of traumatic and toxic stress, resulting in harm to the child's brain development and physical, social, mental, emotional, and behavioral health and well-being. Therefore, early intervention and evaluation of at-risk youth can diagnose a multitude of social and emotional disorders, which can then be used to help determine appropriate mental health and educational services.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have required the Department of Education to:
  - (A) Evaluate and assess certain vulnerable children and children exhibiting emergent or persistent behavioral issues; and
  - (B) Assess suspended students at the request of the student's parent or guardian to identify factors contributing to the student's suspension and provide services to the student for any social disorder, emotional disorder, or learning difference;
- (2) Amending the membership and composition of the task force;
- (3) Changing the effective date to July 1, 2019; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 388, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 388, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kanuha and Fevella. Managers on the part of the Senate. Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Woodson, Lee, Cullen and Okimoto.

Managers on the part of the House.

Ayes, 3; Ayes with Reservations (Okimoto). Noes, none. Excused, 1 (Lee).

# Conf. Com. Rep. 139 on S.B. No. 540

The purpose of this measure is to authorize the Board of Pharmacy to approve pilot and demonstration research projects for innovative applications in the practice of pharmacy under certain conditions.

Your Committee on Conference finds that enabling the Board of Pharmacy to conduct pilot and demonstration research projects can accelerate innovation and create opportunities for pharmacists to enhance patient care and safety, reduce barriers, and increase access to pharmaceutical services.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to upon approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 540, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 540, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs and Speaker of the House of Representatives on behalf of the Committee.

Senators Baker, Chang and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, Takumi, B. Kobayashi, Har and Ward.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, 1 (Har).

# Conf. Com. Rep. 140 on S.B. No. 1237

The purpose of this measure is to require health insurance providers that provide Medicare Advantage (Medicare Part C) health benefit plans to submit administrative data, including health care services claims and payment data, to the State Health Planning and Development Agency for inclusion in the all-payer claims database.

Your Committee on Conference finds that the all-payer claims database is a tool to address health care cost drivers in the State. However, under existing law, the all-payer claims database does not have access to Medicare Advantage plan data in Hawaii, despite Medicare Advantage participants comprising approximately forty-five percent of the Medicare population in the State. Your Committee on Conference further finds that this measure updates existing law to close gaps in the all-payer claims database caused by missing Medicare Advantage data so the database can be used more effectively to plan for Hawaii's aging population and the accompanying increase in medical expenditures by the state and federal governments.

Your Committee on Conference has amended this measure by:

- (1) Requiring health insurance providers to begin submitting administrative data to the State Health Planning and Development Agency on July 1, 2019;
- (2) Specifying the format for Medicare Advantage administrative data submissions to the State Health Planning and Development Agency:
- (3) Changing the effective date to July 1, 2019; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1237, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1237, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs and Speaker of the House of Representatives on behalf of the Committee.

Senators Baker, Rhoads and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, none.

Representatives Mizuno, San Buenaventura, B. Kobayashi and Ward.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

# Conf. Com. Rep. 141 on S.B. No. 1213

The purpose of this measure is to require a party initiating a bid challenge to pay the Department of Commerce and Consumer Affairs a non-refundable filing fee for contracts with an estimated value of \$500,000 or more to partially cover the costs of conducting the bid challenge proceeding.

Your Committee on Conference finds that the Office of Administrative Hearings in the Department of Commerce and Consumer Affairs (Department) conducts bid challenge hearings, which are expensive and labor intensive. However, the Department is entirely self-funded and receives no appropriation of funds to defray the cost of these proceedings. Therefore, the costs to conduct bid challenge proceedings are indirectly paid for by the license registration fees assessed by the Department from registrants who have no involvement in the procurement process. This measure requires any party initiating a bid challenge for contracts of at least \$500,000 to pay the Department a non-refundable fee, which will be used exclusively to help defray the costs of the administrative review of bid challenges.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1213, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1213, S.D. 1, H.D. 1, C.D. 1.

Signed by the Senate President and Chairs on behalf of the Committee.

Senators Baker, English, Thielen and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Johanson, Eli, Kitagawa and Matsumoto.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

#### Conf. Com. Rep. 142 on S.B. No. 1246

The purpose of this measure is to promote the adoption of telehealth across the State by:

- (1) Establishing a policy of the State to promote telehealth;
- (2) Establishing the State Strategic Telehealth Advisory Council to advise the Governor on a comprehensive plan to establish telehealth as a means of health care access;
- (3) Establishing and appropriating an unspecified amount of funds for the State Telehealth Coordinator position to support the Council: and
- (4) Requiring the Department of Health to establish and convene a Telehealth Administrative Simplification Working Group to research and make recommendations to reduce administrative barriers to telehealth.

Your Committee on Conference finds that there is a shortage of health care professionals in the State and this shortage is most severe in rural areas. Telehealth is a proven way to facilitate timely access to quality health care, improve health outcomes, reduce the incidence of avoidable urgent and emergency care, and ensure equitable distribution of health care providers to patients who would not otherwise have access to medical services. Your Committee on Conference further finds that this measure establishes permanent resources to increase the visibility of telehealth, enable the Department of Health to continue working with community stakeholders, and move the State closer to achieving its telehealth goals.

Your Committee on Conference has amended this measure by:

- (1) Removing language that would have exempted the working group from the requirements of chapter 92, Hawaii Revised Statutes;
- (2) Permitting less than a quorum of the working group's members to discuss official business outside of official working group meetings as long as no commitment to vote is made or sought;
- (3) Dissolving the State Strategic Telehealth Advisory Council on July 1, 2022;
- (4) Changing the name of the State Telehealth Coordinator to the State Telehealth and Health Care Access Coordinator and making associated conforming amendments;
- (5) Inserting an appropriation amount of \$110,000 for each year of the fiscal biennium;
- (6) Authorizing the establishment of one full-time equivalent (1.0 FTE) permanent State Telehealth and Health Care Access Coordinator position;
- (7) Changing the effective date to July 1, 2019, and removing the sunset provision; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1246, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1246, S.D. 2, H.D. 2, C.D. 1.

Signed by the Senate President, Speaker of the House of Representatives, and Chairs on behalf of the Committee.

Senators Baker, English, Keohokalole, Ruderman and Fevella.

Managers on the part of the Senate. Ayes, 5. Noes, none. Excused, none.

Representatives Mizuno, B. Kobayashi and Ward.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

# Conf. Com. Rep. 143 on S.B. No. 1404

The purpose of this measure is to appropriate funds to the Department of Health in coordination with the John A. Burns School of Medicine at the University of Hawaii at Manoa for the Hawaii rural health care provider loan repayment program to provide loan repayment for health care professionals who agree to work in underserved areas; provided that the funds are matched on a dollar-for-dollar basis by a private or another public source.

Your Committee on Conference finds that Hawaii is experiencing a shortage of health care professionals, which is most acute for those on neighbor islands and rural areas. High student loan payments together with a higher cost of living and other expenses in the State result in few health care professionals choosing to practice in underserved and rural communities in Hawaii. This measure provides funding for the loan repayment program administered through the John A. Burns School of Medicine, which offers loan repayment benefits for certain health care professionals in exchange for the commitment to work in medically underserved areas, to help reduce the health care provider shortages in those areas.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the name of the repayment program is the health care provider loan repayment program;
- (2) Inserting an appropriation amount of \$150,000 for fiscal year 2019-2020;
- (3) Inserting an effective date of July 1, 2019; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1404, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1404, S.D. 2, H.D. 1, C.D. 1.

Signed by the Senate President and Chairs on behalf of the Committee.

Senators Baker, Kim, English and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Woodson, Gates, D. Kobayashi, Tarnas and Okimoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

# Conf. Com. Rep. 144 on H.B. No. 543

The purpose of this measure is to ensure the continued availability of affordable rental housing, including the Front Street Apartments project and Leialii affordable housing project, on Maui by:

- (1) Requiring the Hawaii Housing Finance and Development Corporation (HHFDC) to initiate negotiations or exercise its power of eminent domain to acquire the leased fee or fee simple interest in the Front Street Apartments on Maui; and
- (2) Extending the deadline to complete the Leialii affordable housing project on Maui.

Your Committee on Conference has amended this measure by:

- Removing the requirement for HHFDC to initiate negotiations or exercise its power of eminent domain to acquire the fee
  interest in the Front Street Apartments;
- (2) Amending Act 150, Session Laws of Hawaii 2018, to not require the initiation of condemnation proceedings if HHFDC renegotiates the Front Street Apartments ground lease or a new ground lease for Front Street Apartments is issued on terms acceptable to HHFDC;
- (3) Deleting the authorization for HHFDC to partner with private for-profit or nonprofit developers for the acquisition of the Front Street Apartments project;
- (4) Deleting an unspecified general fund appropriation;
- (5) Appropriating \$37,000,000, with a budget proviso, for fiscal year 2019-2020 to expedite and complete the construction of Leialii affordable housing project, and deleting the appropriation made in Act 150 for the same purpose;
- (6) Changing its effective date to July 1, 2019; and
- (7) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 543, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 543, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Rhoads, English and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Brower, Lee, Cullen, Yamashita and McDermott.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, none.

# Conf. Com. Rep. 145 on H.B. No. 1312

The purpose of this measure is to:

(1) Authorize the issuance of general obligation bonds to be appropriated into and out of the Rental Housing Revolving Fund; and

(2) Allocate a portion of the funds appropriated to create permanent supportive housing units for people who are chronically homeless

Your Committee on Conference has amended this measure by:

- Authorizing the issuance of \$50,000,000 in bonds for each year of the 2019-2021 fiscal biennium, with proceeds to be deposited into the Rental Housing Revolving Fund;
- (2) Appropriating \$50,000,000 from the Rental Housing Revolving Fund for each year of the 2019-2021 fiscal biennium for the purposes for which the revolving fund is established;
- Deleting the requirement that a portion of the appropriation be expended to establish permanent supportive housing for chronically homeless individuals;
- (4) Changing its effective date to July 1, 2019; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1312, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1312, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Riviere, Moriwaki and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Brower, Cullen, Hashem, Matayoshi and McDermott.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

# Conf. Com. Rep. 146 on H.B. No. 820

The purpose of this measure is to:

- (1) Prohibit the imposition of inclusionary zoning requirements on certain housing;
- (2) Establish the ALOHA Homes Program to facilitate the creation of low-cost leasehold homes for sale to Hawaii residents on state-owned land near public transit stations;
- (3) Authorize the Hawaii Housing Finance and Development Corporation (HHFDC) to sell the leasehold interest in residential condominium units located on state lands for lease terms of ninety-nine years;
- (4) Exempt from the general excise tax the sale of a leasehold interest in an Aloha home pursuant to the ALOHA Homes Program;
- (5) Amend the definition of public lands to exempt certain lands;
- (6) Require prior approval from the Legislature for the sale or gift of any lands to which the Hawaii Public Housing Authority, in its corporate capacity, holds title;
- (7) Exempt any form of development by HHFDC pursuant to Chapter 201H, Hawaii Revised Statutes, from the requirement to fulfill the land component impact fee or fee in lieu requirement, and construction cost component impact fee requirement; and
- (8) Establish the ALOHA Homes Revolving Fund and make an unspecified appropriation from general funds into and out of the Aloha Homes Revolving Fund.

Your Committee on Conference has amended this measure by deleting its contents and replacing it with language to:

- (1) Require the HHFDC to study and formulate a plan to implement an "affordable, locally-owned homes for all" housing program that shall be known as the ALOHA Homes Program;
- (2) Require the HHFDC to submit interim and final reports to the Legislature;
- (3) Make an appropriation of \$150,000 to study and formulate a plan to implement an ALOHA Homes Program; and
- (4) Change its effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 820, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 820, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Riviere, Kanuha and Fevella.

Representatives Brower, Cullen, Matayoshi and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

# Conf. Com. Rep. 147 on H.B. No. 1133

The purpose of this measure is to protect fragile marine ecosystems and the marine life within them through managing access to marine life conservation districts that are inaccessible by land by:

- (1) Limiting the total number of commercial use permits that may be issued for each such conservation district to forty;
- (2) Capping the number of commercial use permittees that may access each conservation district at any one time to no more than fifty percent of the current number of permittees for that district; and
- (3) Requiring the Department of Land and Natural Resources to immediately begin the rule-making process to address overcrowding and fish disruption at Molokini Shoal Marine Life Conservation District and to report its progress to the Legislature.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the number of commercial permittees that may access a marine life conservation district that is inaccessible by land at any one time shall be fifty percent of all current permittees for that district; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1133, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1133, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kahele, Baker, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Yamane, Lee, Todd, Wildberger and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Thielen).

#### Conf. Com. Rep. 148 on H.B. No. 1585

The purpose of this measure is to:

- Create a rebate program (Rebate Program), to be administered by the Public Utilities Commission, that offers rebates for the
  installation of new electric vehicle charging systems or the upgrade of existing electric vehicle charging systems;
- (2) Create the Electric Vehicle Charging System Rebate Program Special Fund and appropriate moneys out of the Special Fund to make rebate program payments and to pay other administrative costs; and
- (3) Amend the uses for which funds from the energy security special fund may be used.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that an applicant who installs a new electric vehicle charging system where none previously existed to either:
  - (A) An alternating current Level 2 station with two or more ports that provide electricity to two or more electric vehicles; or
  - (B) A direct current fast charging system;

is eligible for the rebate program;

- (2) Specifying amounts for the distribution of rebates as follows:
  - (A) \$4,500 for the installation of an alternating current Level 2 station with two or more ports;
  - (B) \$35,000 for the installation of a direct current fast charging system;
  - (C) \$3,000 for the upgrade to an alternating current Level 2 station with two or more ports; and
  - (D) \$28,000 for the upgrade to a direct current fast charging system;
- (3) Reducing the total amount of rebates that the Public Utilities Commission may issue in each fiscal year from no more than \$1,000,000 to \$500,000;
- (4) Deleting language establishing the Electric Vehicle Charging System Rebate Program Special Fund;
- (5) Clarifying that the term, "alternating current Level 2 charging station", is commonly referred to as "Level 2 charging station", and amending its definition;
- (6) Amending the definitions for "direct current fast charging system" and "electric vehicle charging system";
- (7) Clarifying that all monies transferred to the third-party administrator contracted by the Public Utilities Commission for the Rebate Program shall have been appropriated by the Legislature or from funds provided by the federal government or private funding sources, and that the administrator shall not expend more than 10 percent of the amounts appropriated for the Rebate Program or other reasonable percentage determined by the Public Utilities Commission;
- (8) Deleting language which amends the uses for which funds from the Energy Security Special Fund may be used;

- (9) Removing the appropriation of general funds into the Electric Vehicle Charging System Rebate Program Special Fund for the Rebate Program;
- (10) Appropriating out of the Energy Security Special Fund \$150,000 for fiscal year 2019-2020 and \$250,000 for fiscal year 2020-2021 to be deposited into the Public Utilities Commission Special Fund;
- (11) Appropriating out of the Public Utilities Commission Special Fund \$150,000 for fiscal year 2019-2020 and \$250,000 for fiscal year 2020-2021 for the Rebate Program;
- (12) Changing its effective date to July 1, 2019; and
- (13) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1585, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1585, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Inouye, Riviere and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Lowen, Aquino, Takumi, Luke and Thielen.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

### Conf. Com. Rep. 149 on H.B. No. 1552

The purpose of this measure, as received by your Committee on Conference, is to:

- (1) Support best practices for an effective correctional system; and
- (2) Implement certain recommendations of the Criminal Pretrial Task Force (Task Force) convened pursuant to House Concurrent Resolution No. 134, House Draft 1, Regular Session of 2017.

Specifically, this measure:

- (1) Establishes and appropriates funds for the Hawaii Correctional System Oversight Commission within the Office of the Governor;
- (2) Abolishes the Reentry Commission and Corrections Population Management Commission and transfers all rights, powers, functions, and duties of the Reentry Commission and Corrections Population Management Commission to the Hawaii Correctional System Oversight Commission;
- (3) Requires intake service centers to complete pretrial risk assessments and bail reports and provide them to the court within five working days of an offender's admission to a community correctional center and to include information on the offender's financial circumstances, executed pretrial risk assessment, and detailed information about the risk assessment in the bail report;
- (4) Establishes that a defendant has a right to a hearing concerning pre-trial release or detention at the time of the defendant's arraignment and a right to counsel at the time of the hearing;
- (5) Requires that bail shall be set at a reasonable amount and under the least restrictive conditions possible based upon all available information and that monetary bail shall be payable on a twenty-four hours a day, seven days a week basis;
- (6) Requires community correctional centers to conduct periodic reviews of pretrial detainees to assess whether the detainees should remain in custody;
- (7) Establishes and appropriates funds for a Criminal Justice Research Institute under the Office of the Chief Justice of the Hawaii Supreme Court to monitor the success of changes implemented as a result of the Task Force recommendations, conduct ongoing research on national best practices in criminal justice policy and procedure, develop outcome measures and recommend further reforms, and create a centralized statewide criminal pretrial justice data reporting and collection system;
- (8) Authorizes any court, upon a defendant's pretrial release, to order the defendant to submit to the use of electronic monitoring and surveillance or to require confinement to the defendant's residence;
- (9) Requires the Judiciary, in consultation with the Department of Public Safety, to develop and adopt a policy for determining whether a defendant's risk of non-appearance or recidivism may be mitigated by home detention or electronic monitoring;
- (10) Appropriates funds for intake service centers to provide support services to pretrial defendants released from detention on a supervised basis;
- (11) Requires intake service centers to consider victims' concerns when making pretrial release recommendations;
- (12) Requires the Department of Public Safety to submit certain reports to the Legislature; and
- (13) Appropriates funds for intake service centers in relation to their pretrial duties.

Your Committee on Conference has amended this measure by:

- (1) Placing the Hawaii Correctional System Oversight Commission within the Department of the Attorney General rather than the Office of the Governor and making conforming amendments;
- (2) Deleting the public service exemption for prospective employees of the Hawaii Correctional System Oversight Commission;
- (3) Appropriating \$158,946 for fiscal year 2019-2020 and \$330,000 for fiscal year 2020-2021 for the operations of the Hawaii Correctional System Oversight Commission;
- (4) Requiring intake service centers to complete pretrial risk assessments and bail reports and provide them to the court within three working days of an offender's admission to a community correctional center;
- (5) Clarifying that a defendant has a right to a prompt hearing concerning release or detention that occurs at the time of the defendant's arraignment, or as soon as practicable;
- (6) Establishing a statewide program that permits the posting of monetary bail twenty-four hours a day, seven days a week for defendants for whom a monetary amount of bail has been set by the police, other law enforcement agency, or the court. For defendants in custody of the Department of Public Safety, requires the Judiciary to contract with a single vendor to post bail seven days a week;
- (7) Clarifying that community correctional centers shall transmit periodic reviews of pretrial detainees by correspondence or electronically to the appropriate court, prosecuting attorney, and defense counsel;
- (8) Clarifying the Criminal Justice Research Institute's duties and functions, clarifying the Institute's Board of Directors' leadership and membership, and specifying meeting and reporting requirements;
- (9) Appropriating \$181,388 for fiscal year 2019-2020 and \$314,376 for fiscal year 2020-2021 for the establishment and staffing of the Criminal Justice Research Institute and for any necessary facilities and equipment;
- (10) Removing appropriation language for intake service centers to provide support services to pretrial defendants released from detention on a supervised basis;
- (11) Appropriating \$305,138 for fiscal year 2019-2020 and \$502,476 for fiscal year 2020-2021 for intake service centers' activities in relation to their pretrial duties;
- (12) Changing its effective date to upon approval, provided that:
  - (A) The abolishment of the Reentry Commission and Corrections Population Management Commission shall be effective on January 1, 2020;
  - (B) The recommendations of the Task Force regarding pre-trial detention, bail, risk assessments, the Criminal Justice Research Institute, electronic monitoring and home detention, and victims' rights shall take effect on January 1, 2020; and
  - (C) The appropriations for the Hawaii Correctional System Oversight Commission, Criminal Justice Research Institute, and intake service centers shall take effect on July 1, 2019; and
- (13) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1552, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1552, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Thielen, Riviere, Rhoads and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Takayama, Lee, Gates, Kong and McDermott.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

# Conf. Com. Rep. 150 on H.B. No. 456

The purpose of this measure is to:

- (1) Make an emergency appropriation to the Department of Public Safety for the immediate needs of Maui Community Correctional Center;
- (2) Authorize the Director of Finance to issue general obligation bonds for the long-term rehabilitation needs of Maui Community Correctional Center; and
- (3) Exempt from the procurement code all procurements associated with the funds appropriated for the immediate needs of Maui Community Correctional Center.

Your Committee on Conference has amended this measure by:

(1) Amending the emergency appropriation to the Department of Public Safety for the immediate needs of Maui Community Correctional Center from \$5,300,000 to \$5,102,000 for FY2019;

- Deleting provisions authorizing the Director of Finance to issue general obligation bonds for the long-term rehabilitation needs of Maui Community Correctional Center; and
- (3) Making an emergency appropriation of \$2,000,000 for FY2019 to the Department of Public Safety for six months of housing costs for two hundred forty-eight inmates at Saguaro Correctional Center in Arizona and for costs to return the inmates to Hawaii.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 456, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 456, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Nishihara, Rhoads, Dela Cruz, Harimoto and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Takayama, Lee, Gates and McDermott.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

# Conf. Com. Rep. 151 on H.B. No. 546

The purpose of this measure is to:

- (1) Allow a class 18 small craft producer pub licensee to manufacture not more than 125,000 barrels of malt beverages on the licensee's premises during the license year;
- (2) Clarify that a class 14 brewpub licensee or class 18 small craft producer pub licensee may conduct certain activities at satellite locations other than the licensee's primary manufacturing premises under certain conditions;
- (3) Clarify the definition of "growler"; and
- (4) Allow direct shipment of all forms of liquor, rather than just wine, by certain licensees.

Your Committee on Conference has amended this measure by:

- (1) Allowing class 18 small craft producer pub licensees to manufacture not more than 70,000 barrels of malt beverages on the licensee's premises during the license year, rather than 125,000 barrels;
- (2) Deleting any provisions allowing direct shipment of liquor; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 546, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 546, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chang and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives McKelvey, Takumi, Nishimoto and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

# Conf. Com. Rep. 152 on H.B. No. 340

The purpose of this measure is to:

- (1) Appropriate funds to the Hawaii Technology Development Corporation (HTDC) for the Small Business Innovation Research Program and Manufacturing Assistance Program;
- (2) Remove the requirement that HTDC grants to businesses that were awarded a competitive contract from the Department of Defense be only for research in specific research fields; and
- (3) Appropriate funds to provide grants out of the Alternative Energy Research and Development Revolving Fund.

Your Committee on Conference has amended this measure by:

- Amending the appropriation for the Small Business Innovation Research Program to an amount of \$1,000,000 and only for fiscal year 2019-2020;
- (2) Amending the appropriation for the Manufacturing Assistance Program to an amount of \$500,000 for fiscal year 2019-2020;
- (3) Deleting language that removes the requirement that HTDC grants to businesses who were awarded a competitive contract from the Department of Defense be only for research in specific research fields;
- (4) Deleting the appropriation for the Alternative Energy Research and Development Fund to provide grants;

- (5) Making an appropriation of \$300,000 to HTDC for the Excelerator Program for fiscal year 2019-2020;
- (6) Changing its effective date to July 1, 2019; and
- (7) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 340, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 340, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Keohokalole, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives McKelvey, Kitagawa, Quinlan and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Quinlan).

#### Conf. Com. Rep. 153 on H.B. No. 452

The purpose of this measure is to promote the production of fruits and vegetables for local consumption by:

- (1) Authorizing the Public Utility Commission (PUC) to establish preferential electricity rates for agricultural activities that utilize protected agriculture to produce fruits or vegetables for distribution;
- Requiring that the protected agriculture include reasonable efforts to incorporate cost-effective renewable energy sources and energy efficiency measures;
- (3) Requiring the PUC, in its consideration of preferential rates, to ensure that any subsidization being paid by other customers is limited and reasonable and to periodically review and adjust the rate, if necessary; and
- (4) Establishing a process whereby a public utility can request preferential electricity rates from the PUC for qualifying protected agricultural activities.

Your Committee on Conference has amended this measure by changing its effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 452, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 452, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Gabbard, Keith-Agaran, Thielen and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Creagan, Lowen, Takumi, Cullen, Cabanilla Arakawa and Okimoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Cabanilla Arakawa).

#### Conf. Com. Rep. 154 on H.B. No. 1248

The purpose of this measure is to:

- (1) Establish elections by mail beginning with the 2022 primary election; and
- (2) Require the Chief Election Officer to publish online voters' pamphlets for each election and disseminate postcards to voters notifying them of the online pamphlet's website address.

Your Committee on Conference has amended this measure by:

- (1) Requiring all elections statewide to be conducted by mail beginning with the 2020 primary election;
- (2) Changing the time of closure for voting from 6:00 p.m. to 7:00 p.m.;
- (3) Deleting language authorizing the clerk to establish varying times and dates of operation for additional service centers as may be necessary;
- (4) Repealing Act 182, Session Laws of Hawaii 2018, which established a pilot program for the 2020 primary and general elections in any county with a population of less than 100,000 to be conducted by mail on June 30, 2019;
- (5) Changing the appropriation amount to the counties to cover the startup and transition costs for the voting by mail implementation from \$987,127 to \$830,731;
- (6) Deleting the requirement that the Chief Election Officer publish online voters' pamphlets for each election and disseminate postcards to voters notifying them of the online pamphlet's website address;
- (7) Changing its effective date to July 1, 2019; and
- (8) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1248, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1248, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keith-Agaran, Kim and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, 1 (Fevella). Excused, none.

Representatives Lee, Luke, Cullen and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

#### Conf. Com. Rep. 155 on H.B. No. 1259

Your Committee on Conference finds that capital improvement projects are essential to our economy and play a pivotal role in building social infrastructure and helping to strengthen communities.

Your Committee on Conference finds that this measure provides an opportunity to invest in the State's infrastructure while remaining fiscally prudent.

Your Committee on Conference has amended this measure by inserting provisions that amend the Administration's capital improvement program budget to provide capital improvement funds to focus on critical and significant capital projects.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1259, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1259, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Dela Cruz and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Yamashita, Cullen, Luke and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

#### Conf. Com. Rep. 156 on S.B. No. 1418

The purpose and intent of this measure is to appropriate funds to the University of Hawaii Pamantasan Council for four full-time equivalent positions to promote access, diversity, and workforce development, including programs and policies related to Philippine courses and Filipino students.

Your Committee on Conference finds that, despite their high representation in the general population and in schools within the Department of Education, students of Filipino ancestry are underrepresented at certain campuses within the University of Hawaii System, such as the University of Hawaii at Manoa. Your Committee on Conference further finds that the University of Hawaii Pamantasan Council was established, in part, to address issues of representation and ensure the success of Filipino students. This measure provides additional resources for the Pamantasan Council to ensure an increase in academic interest, student success, and graduation among Filipino students.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$195,000 for fiscal years 2019-2020 and 2020-2021;
- (2) Specifying that the appropriation shall be for two, rather than four, full-time equivalent (2.0 FTE) positions for the University of Hawaii system-wide Pamantasan Council; and
- (3) Changing the effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1418, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1418, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Johanson, Cullen, Aquino and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Aquino).

# Conf. Com. Rep. 157 on S.B. No. 661

The purpose of this measure is to:

(1) Grant procurement priority for fuel cell electric vehicles for state and county vehicle purchases; and

(2) Include fuel cell electric vehicles in the definition of "electric vehicles" for purposes of parking fee exemption, high occupancy vehicle lane use, registration, and required parking spaces in places of public accommodation.

Your Committee on Conference finds that fuel cell electric vehicles are a viable alternative to gasoline-powered vehicles. Your Committee on Conference also finds that increasing the use of more fuel cell electric vehicles will reduce carbon emissions and improve the quality of life in Hawaii. However, under existing law, certain priority considerations and incentives are currently available to battery electric vehicles but not fuel cell electric vehicles. This measure expands the definition of "electric vehicle" to include fuel cell electric vehicles, which will afford more incentives for fuel cell electric vehicles, drastically improve transportation efficiency, and reduce carbon emissions in Hawaii.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 661, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 661, S.D. 1, H.D. 1, C.D. 1.

Signed by the Senate President and Chairs on behalf of the Committee.

Senators Thielen, Inouye, English and Fevella.

Managers on the part of the Senate. Ayes, 4. Noes, none. Excused, none.

Representatives Lowen, Aquino, Johanson, Cullen and Thielen.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Thielen).

### Conf. Com. Rep. 158 on S.B. No. 1192

The purpose of this measure is to provide appropriations for collective bargaining cost items for the members of collective bargaining unit (2) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2019-2021.

Your Committee on Conference finds that on April 16, 2019, the Legislature received notification of a tentative agreement between the Hawaii Government Employees Association and the employer for collective bargaining units (2), (3), (4), (6), (8), (9), (13), and (14).

Accordingly, your Committee on Conference has amended this measure by:

- (1) Inserting specific amounts for collective bargaining cost items for Hawaii Employer-Union Health Benefits Trust Fund costs for public employees in collective bargaining units (2), (3), (4), (6), (8), (9), (13), and (14) and their excluded counterparts for fiscal biennium 2019-2021, pursuant to the agreement reached;
- (2) Deleting language that is not included in the agreement;
- (3) Changing the effective date to July 1, 2019; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1192, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1192, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Kanuha, Ihara and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Johanson, Luke and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

# Conf. Com. Rep. 159 on S.B. No. 1195

The purpose of this measure is to appropriate funds for fiscal biennium 2019-2021 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (5) and their excluded counterparts.

Your Committee on Conference finds that on April 10, 2019, the Legislature received notification of a tentative agreement between the Hawaii State Teachers Association (HSTA) and the employer for collective bargaining unit (5). In addition, an agreement with HSTA was reached regarding Hawaii Employer-Union Health Benefits Trust Fund employer contributions.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Inserting specific amounts for collective bargaining cost items for salary adjustments, other costs adjustments, and Hawaii Employer-Union Health Benefits Trust Fund costs for public employees in collective bargaining unit (5) and their excluded counterparts for fiscal biennium 2019-2021, pursuant to the agreement reached;
- (2) Changing the effective date to July 1, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1195, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1195, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Kanuha, Ihara and Fevella. Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Johanson, Luke and Matsumoto.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

### Conf. Com. Rep. 160 on S.B. No. 1204

The purpose of this measure is to amend statutory provisions governing the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) for purposes of conformity with federal law and consistency with other state statutes. Specifically, this measure:

- (1) Clarifies eligibility of the children of employee-beneficiaries, retiree-beneficiaries, and deceased beneficiaries for participation in EUTF benefit plans;
- (2) Conforms eligibility criteria for dependents of an employee-beneficiary to federal requirements; and
- (3) Conforms references to spousal relationships for purposes of eligibility criteria to current state law relating to marriage equality and the availability of civil unions.

Your Committee on Conference finds that the EUTF offers health benefits to dependents of state and county employees and retirees. Your Committee on Conference further finds that a child born or legally adopted after an employee's or retiree's death who is not the natural or adopted child of the deceased employee or retiree should not be eligible to participate in fund benefit plans because the child is not the child of the state or county employee or retiree. Your Committee on Conference also finds that there is inconsistency in the date of termination of coverage between surviving children of employees who are killed in the performance of their duties and surviving children of employees who are eligible for retirement. This measure will provide greater clarity on these issues and will also bring other definitions within the EUTF law into conformity with state and federal law.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1204, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1204, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Rhoads, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Johanson, Eli and Matsumoto.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

# Conf. Com. Rep. 161 on S.B. No. 1201

The purpose of this measure is to appropriate funds for fiscal biennium 2019-2021 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (11) and their excluded counterparts.

Your Committee on Conference finds that on April 15, 2019, the Legislature received notification of an arbitration award for the Hawaii Fire Fighters Association (HFFA), collective bargaining unit (11). In addition, an agreement with HFFA was reached regarding Hawaii Employer-Union Health Benefits Trust Fund employer contributions.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Inserting specific amounts for collective bargaining cost items for salary adjustments, other costs adjustments, and Hawaii Employer-Union Health Benefits Trust Fund costs for public employees in collective bargaining unit (11) and their excluded counterparts for fiscal biennium 2019-2021, pursuant to the agreement reached;
- (2) Changing the effective date to July 1, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1201, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1201, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Kanuha, Ihara and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Johanson, Luke and Matsumoto. Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

#### Conf. Com. Rep. 162 on S.B. No. 972

The purpose of this measure is to establish an income tax credit to incentivize construction of a new drydock at Pearl Harbor for use by the United States Navy.

Your Committee on Conference finds that, due to a lack of sufficient drydock capacity at Pearl Harbor, many surface ships are scheduled to be relocated to San Diego for deep maintenance, with some of these ships at risk of not returning to Hawaii. Your Committee on Conference also finds that the impact of losing surface vessel repair work would be far-reaching and would directly cause the loss of jobs associated with military surface ships. Your Committee on Conference further finds that the construction of a purpose-built floating drydock capable of accommodating any of the submarines and surface ships currently docked or planned to be docked at Pearl Harbor would mitigate losses that may otherwise stem from a lack of drydocking capacity.

Your Committee on Conference has amended this measure by:

- (1) Setting the amount of the tax credit at thirty percent of the ship repair industry costs paid or incurred by the taxpayer;
- (2) Establishing a cap amount of \$6,000,000;
- (3) Allowing a taxpayer to apply credit amounts in excess of the cap amount to subsequent taxable years until December 31, 2026;
- (4) Providing that the tax credit may not be claimed prior to January 1, 2022, or after December 31, 2026;
- (5) Changing the effective date to January 1, 2020, and applying the measure to taxable years beginning after December 31, 2021; and
- (6) Making technical nonsubstantive amendments for purposes of consistency, clarity, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 972, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 972, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keith-Agaran, Kidani and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives McKelvey, Kitagawa, Cullen and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

# Conf. Com. Rep. 163 on S.B. No. 753

The purpose of this measure is to appropriate funds for operational expenses to revitalize the aquaculture development program.

Your Committee on Conference finds that Hawaii had an innovative and lucrative aquaculture development program during the 1980s and 1990s, but since then the aquaculture development program has been reduced in staff and function. Your Committee on Conference further finds that it is in the best interests of the State to revitalize the aquaculture development program and capitalize on the opportunity to grow aquaculture in Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$300,000 and appropriating that amount for fiscal year 2019-2020 only;
- (2) Changing the effective date to July 1, 2019; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 753, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 753, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Kahele and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Creagan, Cullen and Okimoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

# Conf. Com. Rep. 164 on S.B. No. 763

The purpose of this measure is to require the Department of Business, Economic Development, and Tourism, in consultation with the Department of Agriculture, to conduct a study to assess the impact of companies selling products in the United States using place-based marketing without any material ties to the State and appropriate funds for the study.

Your Committee on Conference finds that a study is needed to assess the impacts of companies selling products in the United States using place-based marketing without any material ties to the State, so as to enable the State to protect itself from economic exploitation and protect consumers against dishonest or misleading marketing.

Your Committee on Conference has amended this measure by:

- (1) Specifying an appropriation amount of \$150,000;
- (2) Changing the effective date to July 1, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 763, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 763, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Gabbard, Riviere and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives McKelvey, Creagan, Kitagawa and Matsumoto.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

#### Conf. Com. Rep. 165 on S.B. No. 409

The purpose of this measure is to establish an annual vehicle registration surcharge fee for electric vehicles and alternative fuel vehicles to be deposited into the state highway fund.

Your Committee on Conference finds that electric vehicles and alternative fuel vehicles are environmentally friendly alternatives of transportation that utilize little to no fossil fuels. Your Committee on Conference further finds that more residents are becoming environmentally conscious and are switching to electric or alternative fuel vehicles. However, while many residents are switching to electric or alternative fuel vehicles, the State is experiencing a reduction in fees collected by fuel taxes as these vehicles do not require fuel. Fuel taxes are an important source of revenue for the State to fund the repair and maintenance of Hawaii's roads. Your Committee on Conference acknowledges the positive impact electric vehicles and alternative fuel vehicles have on the environment, but your Committee on Conference also acknowledges that these vehicles still inflict wear and tear on public roads. This measure reflects a balanced approach to promoting the public's use of electric vehicles and alternative fuel vehicles, while ensuring an adequate source of revenue for highway maintenance.

Your Committee on Conference has amended this measure by:

- (1) Inserting a vehicle registration surcharge fee of \$50 for electric vehicles and alternative fuel vehicles;
- (2) Specifying that the registration surcharge fee shall be assessed and collected beginning with the first registration renewal for every electric vehicle and alternative fuel vehicle; and
- (3) Making it effective on January 1, 2020.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 409, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 409, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, English, Harimoto, Shimabukuro and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Aquino, Cullen, Hashimoto, Hashem and Matsumoto.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, none.

# Conf. Com. Rep. 166 on S.B. No. 567

The purpose of this measure is to require:

- The administrator or attending physician of a psychiatric facility to assess whether an assisted community treatment plan is indicated, and if so, make certain arrangements;
- (2) The Department of the Attorney General to assist with the petition for assisted community treatment and related court proceedings and appropriate an unspecified amount of funds to be expended by the Department for that purpose; and
- (3) The Department of Health to convene a Mental Health Emergencies Task Force.

Your Committee on Conference finds that following emergency care or hospitalization, many mentally ill patients are released with no plan in place for follow-up care or treatment. Predictably, many of these individuals fall into a pattern of crisis and emergency intervention. Although the assisted community treatment program exists to provide care for such individuals in the community, many mentally ill individuals do not participate in community treatment plans. Furthermore, community agencies and families often lack the

resources to navigate the complex and congested court system associated with associated community treatment orders. Appropriating funds to provide legal assistance with petitions for assisted community treatment will encourage increased utilization of the assisted community treatment program.

Your Committee on Conference has amended this measure by:

- Deleting language that required the administrator or attending physician of a psychiatric facility to assess whether an assisted community treatment plan was indicated and make certain arrangements;
- Deleting language that required the Department of the Attorney General to assist with the petition for assisted community treatment and related court proceedings;
- (3) Inserting an appropriation amount of \$100,000 for the Department of Health to contract for legal assistance with petitions for assisted community treatment and related court proceedings, rather than appropriating funds for the Department of the Attorney General to assist with the petitions;
- (4) Changing its effective date to July 1, 2019; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 567, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 567, S.D. 2, H.D. 2, C.D. 1.

Signed by the Senate President, Speaker of the House of Representatives, and Chairs on behalf of the Committee.

Senators Baker, Rhoads, English, Nishihara and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

# Conf. Com. Rep. 167 on S.B. No. 1442

The purpose of this measure is to:

- (1) Require the Public Utilities Commission to consider the value of improving electric power systems data access and transparency in order to make informed decisions; and
- (2) Establish guiding principles for the Public Utilities Commission.

Your Committee on Conference finds that there is public interest in increasing transparency and improving access to all relevant energy-related data, whether services are provided by a regulated utility or a third-party services provider. By providing ratepayers with information concerning their energy consumption, they can make more informed decisions and manage their costs. This measure improves energy data access and transparency in order to empower ratepayers, improves decision-making related to reliability and operational efficiency of the electric system, maximizes the value of grid modernization technologies and investments, and promotes innovation and economic development opportunities.

Your Committee on Conference has amended this measure by:

- (1) Requiring the Public Utilities Commission to also consider how to increase non-utility data from third parties that provide generation or non-wire alternatives to individual customers or the grid; and
- (2) Changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1442, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1442, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs and Speaker of the House of Representatives on behalf of the Committee.

Senators Baker, Wakai and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Lowen, Takumi, Wildberger and Thielen.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

### Conf. Com. Rep. 168 on S.B. No. 1494

The purpose of this measure is to establish and fund a working group to evaluate current behavioral health care and related systems and identify steps to promote effective integration of services to improve response and coordination of care for individuals experiencing substance abuse, mental health conditions, and homelessness.

Your Committee on Conference finds that integrating the State's behavioral health care system will help individuals experiencing chronic substance abuse, mental health conditions, homelessness, and other chronic conditions access a comprehensive continuum of

care, which will promote community stabilization and increase health outcomes while decreasing overutilization of high-cost acute care services.

Your Committee on Conference has amended this measure by:

- (1) Removing language that would have exempted the working group from the notice requirements for open meetings;
- (2) Permitting less than a quorum of the working group's members to discuss official business outside of official working group meetings as long as no commitment to vote is made or sought;
- (3) Removing the appropriation;
- (4) Changing the effective date to July 1, 2019; and
- (5) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1494, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1494, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs and Speaker of the House of Representatives on behalf of the Committee.

Senators Baker, Ruderman, Riviere, Keohokalole, Thielen and Fevella.

Managers on the part of the Senate.

Ayes, 6. Noes, none. Excused, none.

Representatives Mizuno, San Buenaventura, B. Kobayashi and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

# Conf. Com. Rep. 169 on S.B. No. 1124

The purpose of this measure is to clarify requirements for petitions, procedures, and hearings for involuntary hospitalization and assisted community treatment to promote mental health treatment. Specifically, this measure:

- (1) Clarifies that the definition of "dangerous to self" includes the inability to satisfy the need for treating mental illness;
- (2) Specifies that the Attorney General may decline to present a case for involuntary hospitalization if the Attorney General determines that the case lacks merit;
- (3) Requires the administrator or attending physician of a psychiatric facility to assess whether an assisted community treatment plan is indicated upon a patient's discharge from involuntary hospitalization;
- (4) Requires a licensed psychiatrist or advanced practice registered nurse to prepare the certificate and notify the Department of the Attorney General if an assisted community treatment plan is indicated upon a patient's discharge from involuntary hospitalization;
- (5) Requires the Department of the Attorney General to assist with the petition for assisted community treatment and related court proceeding;
- (6) Amends the content of the petition, criteria for certificate of examination by a licensed mental health provider, and criteria for initiation of proceedings for assisted community treatment; and
- (7) Appropriates funds for the establishment and appointment of two Deputy Attorneys General and support staff to assist with petitions for assisted community treatment.

Your Committee on Conference finds that although the State's assisted community treatment law was enacted in 2013 to help individuals with serious mental illness obtain the treatment and medication they need, fewer than ten orders for court-mandated treatment plans have been issued in the past five years. This measure is intended to encourage the use of assisted community treatment by requiring facilities to assess whether an assisted community treatment plan is indicated for a mental health patient at the time of the patient's discharge, allowing more flexibility on the part of the family courts, and clarifying provisions of mental health treatment law.

Your Committee on Conference has amended this measure by:

- (1) Requiring a licensed psychiatrist or advanced practice registered nurse with prescriptive authority and who holds an accredited national certification in an advanced practice registered nurse psychiatric specialization, rather than the administrator or attending physician of the psychiatric facility, to assess whether an assisted community treatment plan is indicated at the time of a patient's discharge from a psychiatric facility;
- (2) Expanding the scope of this measure to apply to individuals delivered for emergency examination or emergency hospitalization or voluntarily admitted to inpatient treatment;
- (3) Removing language that would have amended the notice requirement for petitions for involuntary hospitalization;
- (4) Removing the requirement that the Department of the Attorney General assist with petitions for involuntary hospitalization and assisted community treatment and related court proceedings;
- (5) Reverting to existing statutory language that permits a petition for assisted community treatment to be accompanied by a certificate from a psychiatrist or advanced practice registered nurse who has examined the subject of an assisted community treatment petition within twenty calendar days prior to filing the petition;

- (6) Removing the appropriation;
- (7) Changing the effective date to July 1, 2019; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1124, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1124, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs and Speaker of the House of Representatives on behalf of the Committee.

Senators Baker, Rhoads and Fevella. Managers on the part of the Senate. Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Mizuno, Lee, B. Kobayashi and Ward.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

# Conf. Com. Rep. 170 on S.B. No. 281

The purpose of this measure is to:

- (1) Appropriate funds to maintain the current level of pre-hospital emergency medical services;
- (2) Require the Department of Health, through a contract with the National Highway Traffic Safety Administration (NHTSA), to conduct a study of the state medical emergency system to identify issues and problems and propose initiatives to improve the system; and
- (3) Appropriate funds for the Department of Health to contract with the NHTSA to conduct a study of the state medical emergency system.

Your Committee on Conference finds that the state comprehensive emergency medical system, also known as the state emergency medical system, is an integral piece of health care access throughout the State. Funds appropriated in this measure for collective bargaining requirements, recurring personnel costs, and other current expenditures are necessary to maintain the current level of pre-hospital emergency medical services. Your Committee on Conference further finds that by partnering with the NHTSA to conduct a study to identify any issues with or areas of improvement for the state emergency medical system, the Department of Health will ensure continuous quality improvement for the state emergency medical system.

Your Committee on Conference has amended this measure by:

- (1) Correcting references to the state emergency medical system;
- Requiring the Department of Health to establish a steering committee to develop guidelines for an evaluation of the state emergency medical system;
- (3) Clarifying the requirements for the study of the state emergency medical system, including:
  - (A) Requiring the Department of Health to contract with the NHTSA no later than September 30, 2019;
  - (B) Clarifying the purpose of the study; and
  - (C) Requiring the Department of Health to invite a NHTSA representative to brief members of the Legislature on the study findings;
- (4) Permitting the Department of Health to establish a task force to develop a plan to implement findings and recommendations from the NHTSA study and report its findings and recommendations to the Legislature;
- (5) Removing the appropriation for the Department of Health to contract with the NHTSA;
- (6) Amending the scope and inserting specific appropriation amounts for collective bargaining requirements, recurring personnel costs, and other current expenses of the state emergency medical system;
- (7) Removing a reference to Keo's Law;
- (8) Updating the purpose section;
- (9) Making this measure effective upon approval; provided that the appropriation sections shall take effect on July 1, 2019; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 281, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 281, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Keith-Agaran, Keohokalole, Ruderman and Fevella. Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Mizuno, Luke and Ward. Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

#### Conf. Com. Rep. 171 on S.B. No. 759

The purpose of this measure is to establish a two-year agricultural theft and vandalism pilot project to examine the effectiveness of prosecuting agricultural theft and vandalism cases in the counties of Hawaii and Maui, including theft and vandalism affecting individuals who are not full-time farmers or ranchers.

Your Committee on Conference finds that agricultural theft and vandalism are recurring problems for farmers and ranchers in the counties of Hawaii and Maui, and agricultural theft and vandalism increase the cost of production and can make it more difficult for farmers and ranchers to be successful. Your Committee on Conference further finds that an existing contract between the Department of Agriculture and the County of Hawaii Office of the Prosecuting Attorney for one agricultural theft and vandalism investigator has been successful thus far, and building upon this project by establishing a two-year agricultural theft and vandalism pilot project for the counties of Hawaii and Maui will continue this successful start and further the State's goal of promoting local food production.

Your Committee on Conference has amended this measure by:

- (1) Directing the Department of Agriculture to examine and assess the effectiveness of prosecuting agricultural vandalism and the theft of agricultural products produced for commercial use of any scale, rather than only small scale;
- (2) Inserting an appropriation amount of \$200,000 and appropriating that amount for fiscal year 2019-2020 only;
- (3) Changing the effective date to July 1, 2019; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 759, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 759, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Rhoads, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Creagan, Lee, Cullen and Okimoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

# Conf. Com. Rep. 172 on S.B. No. 33

The purpose of this measure is to amend the annual cap on the motion picture, digital media, and film production income tax credit and extend its repeal date; provided that the University of Hawaii, West Oahu campus and the Hawaii technology development corporation execute a memorandum of understanding that commits the parties to a no-cost lease agreement that includes a provision for the potential transfer of title to certain parcels of University of Hawaii, West Oahu campus lands to the Hawaii technology development corporation.

Your Committee on Conference finds that the film industry in Hawaii is an important component of a diversified economy. Your Committee on Conference also finds that the motion picture, digital media, and film production income tax credit has been effective in stimulating the economy and creating quality jobs while promoting Hawaii as a visitor destination.

Your Committee on Conference has amended this measure by:

- (1) Increasing the annual rolling cap for the motion picture, digital media, and film production income tax credit to \$50,000,000;
- (2) Reverting to the existing sunset date of January 1, 2026, for certain amendments to the tax credit, including the annual rolling cap, and deleting the amendments to Act 88, Session Laws of Hawaii, as amended, as a conforming amendment;
- (3) Requiring the memorandum of understanding to be executed no later than December 31, 2020;
- (4) Amending the contents of the memorandum to include a commitment to enter into a no-cost lease agreement by December 31, 2021, for no less than sixty years, and which includes a provision for the transfer of title to the University of Hawaii, West Oahu campus lands to the Hawaii Technology Development Corporation within six years;
- (5) Making the provisions of this Act non-severable, rather than severable;
- (6) Changing the effective date to upon approval; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 33, S.D. 3, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 33, S.D. 3, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Kidani, Dela Cruz, Kim and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives McKelvey, Woodson, Cullen and Matsumoto.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

#### Conf. Com. Rep. 173 on S.B. No. 522

The purpose of this measure is to:

- (1) Create and appropriate funds for the activities of the plastic source reduction working group, including making recommendations for eliminating single-use plastic packaging; and
- (2) Establish and appropriate funds for the Solid Waste Prevention Coordinator position in the Department of Health.

Your Committee on Conference finds that Hawaii's forests, streams, and beaches are strewn with plastic debris, including micro plastic debris smaller than grains of sand, which are consumed by the smallest of endangered birds to the humpback whale. Among other hazards, plastic debris attracts and concentrates ambient pollutants in seawater and freshwater, which can transfer to fish, other seafood, and salt that are eventually sold for human consumption. Your Committee on Conference further finds that cleaning up plastic is a significant cost to Hawaii taxpayers. Your Committee on Conference therefore finds that creating the plastic source reduction working group is a step in the right direction toward preventing plastic debris from entering the waste stream and protecting human health and natural resources.

Your Committee on Conference has amended this measure by:

- (1) Amending the duties of the working group;
- (2) Amending the membership of the working group;
- (3) Removing the appropriation of funds for the working group;
- (4) Eliminating the creation of the Solid Waste Prevention Coordinator position and the appropriation of funds for the position;
- (5) Amending section 1 to reflect its amended purpose;
- (6) Making it effective on July 1, 2019; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 522, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 522, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Baker, Rhoads, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Lowen, McKelvey, Takumi, Lee, Cullen, Cabanilla Arakawa, Wildberger and Thielen.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 3 (Cabanilla Arakawa, Wildberger, Thielen).

## Conf. Com. Rep. 174 on S.B. No. 663

The purpose of this measure is to establish a red light running committee to develop policies for pilot programs in the City and County of Honolulu, and counties of Maui, Kauai, and Hawaii.

Your Committee on Conference finds that there is an increasing number of drivers who run red lights, endangering the lives of pedestrians and other motorists. The prevalence of drivers violating traffic laws, particularly those who run red lights, has resulted in numerous injuries and fatalities. Your Committee on Conference further finds that traffic enforcement systems in other states and countries, such as Canada, use photo red light imaging detector technology, which has proven to be efficient and effective in identifying and deterring drivers from running a red light. Your Committee on Conference believes that a photo red light imaging detector system in the State has potential to improve overall traffic safety and deter drivers from creating hazardous situations by violating traffic laws. This measure will create the foundation of a photo red light imaging detector system by convening a red light running committee to review potential systems to implement throughout the State.

Your Committee on Conference has amended this measure by:

- (1) Including the Chair of the State Highway Safety Council or the Chair's designee as a member of the red light running committee;
- (2) Making it effective upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 663, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 663, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Rhoads, Kanuha, Harimoto and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Aquino, Lee, Cullen, Hashimoto and McDermott.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, none.

#### Conf. Com. Rep. 175 on S.B. No. 162

The purpose of this measure is to:

- (1) Amend the amount of the rental motor vehicle surcharge tax;
- (2) Repeal the additional surcharge tax fee of \$2 for lessees who do not possess a valid Hawaii driver's license;
- (3) Deposit the surcharge tax revenues into the state highway fund, for statewide use, and the county subaccounts in the state highway fund for highway road capacity projects in the respective county; and
- (4) Appropriate money out of the state highway fund.

Your Committee on Conference finds that rental vehicle lessees make up a large proportion of public highway users, causing wear and tear on the State's roads. Your Committee on Conference further finds that as more individuals are converting to electric or alternative fuel vehicles, the State experiences a reduction in revenue received from the fuel tax. This measure will address the reduction in revenue received from the fuel tax by increasing the rental motor vehicle surcharge tax, regardless of an individual's residency.

Your Committee on Conference has amended this measure by:

- (1) Increasing the rental motor vehicle surcharge from \$3 to \$5;
- (2) Repealing the requirement that the additional \$2 surcharge fee collected from lessees without a valid Hawaii driver's license be deposited to the credit of the respective county subaccount of the state highway fund that corresponds to the county in which the rental motor vehicle was driver under rental or lease and instead depositing all amounts collected into the state highway fund;
- (3) Removing the appropriation out of the state highway funds; and
- (4) Making it effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 162, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 162, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Aquino, Takumi, Cullen, Hashimoto, Yamashita and McDermott.

Managers on the part of the House. Ayes, 6. Noes, none. Excused, none.

### Conf. Com. Rep. 176 on H.B. No. 32

The purpose of this measure is to extend the deadline from September 1, 2019, to November 13, 2019, for the Legislative Reference Bureau to submit a report to the Legislature as required by Act 109, Session Laws of Hawaii 2018, regarding a sunrise analysis for the establishment of paid family leave in the State.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to upon its approval; and
- (2) Making a technical, nonsubstantive amendment for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 32, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 32, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Moriwaki and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Johanson, Eli, Quinlan and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

# Conf. Com. Rep. 177 on H.B. No. 157

The purpose of this measure is to:

- Expand the types of employee information government agencies are required to disclose, upon written request, to employees'
  exclusive representatives; and
- (2) Require that information regarding new hire employees under collective bargaining disclosure requirements be provided to the appropriate exclusive representatives within an unspecified number of payroll periods.

Your Committee on Conference has amended this measure by:

- (1) Requiring that information regarding new hire employees under collective bargaining disclosure requirements be provided to the appropriate exclusive representatives within two payroll periods;
- (2) Changing the effective date to October 1, 2019; and
- (3) Making a technical, nonsubstantive amendment for consistency and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 157, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 157, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Keith-Agaran, Chang and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Johanson, Eli and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

### Conf. Com. Rep. 178 on H.B. No. 845

The purpose of this measure is to:

- (1) Establish the State Employees Training Program, governed by a board, to provide training to state employees; and
- (2) Require that all new employees be provided with a general orientation on their benefits and rights within twenty days of being hired.

Your Committee on Conference has amended this measure by:

- (1) Removing the provisions that established the State Employees Training Program;
- (2) Changing its effective date to upon its approval; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 845, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 845, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Moriwaki, Chang and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Johanson, Nishimoto, Nakashima, Quinlan and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Nakashima, Quinlan).

## Conf. Com. Rep. 179 on H.B. No. 914

The purpose of this measure is to clarify that the party seeking review of a decision and order of the Hawaii Labor Relations Board is to bear the costs of preparing the transcript, except as provided by law, in which case the Hawaii Labor Relations Board is to bear the cost of preparing the transcript.

Your Committee on Conference has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 914, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 914, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Moriwaki and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Eli and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

#### Conf. Com. Rep. 180 on H.B. No. 981

The purpose of this measure is to establish a clear statutory basis for the recovery of overpayments of Employees' Retirement System (ERS) benefits by:

- (1) Specifying that overpayments of refunds and retirement benefits constitute a debt due and owing to the ERS by recipients of the overpayments;
- (2) Requiring the ERS to adopt and enforce rules as necessary for the recovery of retirement benefit overpayments; and
- (3) Enabling the ERS Board of Trustees or the ERS Executive Director to waive the recovery of retirement benefit overpayments in cases of bona fide hardship or where the costs of recovery would exceed the amount expected to be recovered.

Your Committee on Conference has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 981, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 981, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Johanson, Eli and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

### Conf. Com. Rep. 181 on H.B. No. 710

The purpose of this measure is to add reproductive health decisions to the list of categories that are protected against discriminatory employment practices.

Your Committee on Conference has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 710, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 710, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Rhoads, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Johanson, Lee, Eli and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

## Conf. Com. Rep. 182 on H.B. No. 34

The purpose of this measure is to:

- Require that the foreperson classification be recognized for purposes of determining wage and hour requirements for mechanics and laborers on public works projects pursuant to statute and collective bargaining agreements; and
- (2) Amend the "public work" definition under Chapter 104, Hawaii Revised Statutes, Wages and Hours of Employees on Public Works Law, to include projects for which funds or resources used are to any extent derived from State or county public revenues, or from the sale of securities or bonds whose interest or dividends are exempt from state or federal taxes.

Your Committee on Conference has amended this measure by:

- Deleting provisions requiring that the foreperson classification be recognized for purposes of determining wage and hour
  requirements for mechanics and laborers on public works projects pursuant to statute and to collective bargaining agreements;
- (2) Deleting the savings clause, conflict with federal requirements clause, and contract impairment provisions; and
- (3) Changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 34, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 34, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Keith-Agaran and Ihara.

Managers on the part of the Senate. Ayes, 2. Noes, none. Excused, 1 (Ihara).

Representatives Johanson, Eli, Quinlan and Matsumoto.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

#### Conf. Com. Rep. 183 on H.B. No. 1586

The purpose of this measure is to revitalize certain lands under the jurisdiction of the Stadium Authority by:

- (1) Establishing a stadium development district under the authority of the Stadium Authority;
- Providing the Hawaii Community Development Authority with the authority to develop the lands contained in the stadium development district;
- (3) Establishing lease restrictions applicable to all leases within the stadium development district;
- (4) Requiring the Department of Land and Natural Resources to transfer the fee simple interest of lands under the control or jurisdiction of the Stadium Authority to the Stadium Authority as grantee;
- (5) Authorizing the lapse of a prior appropriation for a capital improvement project under Act 49, Session Laws of Hawaii 2017, as renumbered by Act 53, Session Laws of Hawaii 2018, and transferring and appropriating the lapsed amount to the Hawaii Community Development Authority to establish and develop the stadium development district for public use;
- (6) Appropriating general funds of \$50,000,000 to the Hawaii Community Development Authority for the establishment and development of the stadium development district for public use;
- (7) Authorizing the Director of Finance to issue reimbursable general obligation bonds of \$150,000,000 and appropriating that sum for the Hawaii Community Development Authority to establish the stadium development district and build a new stadium; and
- (8) Authorizing the Director of Finance to issue general obligation bonds of \$150,000,000 and appropriating that sum to the Hawaii Community Development Authority to build a new stadium.

Your Committee on Conference finds that the redevelopment of lands under the jurisdiction of the Stadium Authority and the Department of Accounting and General Services could benefit from the Hawaii Community Development Authority administering the project.

Your Committee on Conference amended this measure by deleting the majority of its contents and replacing it with the contents of H.B. No. 1497, H.D. 3, which:

- (1) Also establishes a stadium development district under the jurisdiction of the Stadium Authority;
- (2) Also appropriates general funds of \$50,000,000 to the Hawaii Community Development Authority for the establishment and development of the stadium development district for public use;
- (3) Authorizes the Hawaii Community Development Authority to issue revenue bonds of up to \$150,000,000 to implement the stadium development district and build a new stadium;
- (4) Also authorizes the Director of Finance to issue general obligation bonds of \$150,000,000 and appropriates that sum to the Hawaii Community Development Authority to build a new stadium;
- (5) Also authorizes the lapse of a prior appropriation for a capital improvement project under Act 49, Session Laws of Hawaii 2017, as amended by Act 53, Session Laws of Hawaii 2018; and
- (6) Authorizes the Director of Finance to issue general obligation bonds of \$9,405,252 and appropriates that sum to the Hawaii Community Development Authority to build a new stadium.

In addition, your Committee on Conference has further amended the contents of H.B. No. 1497, H.D. 3, by:

- (1) Retaining language from H.B. No. 1586, S.D. 2, which requires the Department of Land and Natural Resources to transfer the fee simple interest of lands under the control or jurisdiction of the Stadium Authority to the Stadium Authority as grantee; but without the provisions relating to either the extinguishment of claims and liabilities against the Department of Land and Natural Resources or the transfer initiation date;
- (2) Requiring the Hawaii Community Development Authority, the Comptroller, and the Stadium Authority to execute a memorandum of agreement with appropriate state agencies for matters affecting the stadium development district;
- (3) Requiring the Hawaii Community Development Authority to submit annual comprehensive reports to the Legislature on the progress of the development within the stadium development district;
- (4) Providing the Hawaii Community Development Authority with an exception to the lease term limit of sixty-five years for real or personal property in a redevelopment project, by specifying that leases in the stadium development district shall not exceed ninety-nine years;
- (5) Decreasing the general fund appropriation to the Hawaii Community Development Authority from \$50,000,000 to \$20,000,000;
- (6) Increasing the revenue bond authorization from \$150,000,000 to \$180,000,000 and deleting the building of a new stadium as a specified purpose for both the revenue bond authorization and the general obligation bond authorization;

- (7) Deleting the provisions relating to the lapse of the prior appropriation for a capital improvement project under Act 49, Session Laws of Hawaii 2017, as amended by Act 53, Session Laws of Hawaii 2018;
- (8) Deleting the provisions relating to the issuance of general bond obligations of \$9,405,252 for the Hawaii Community Development Authority to build a new stadium;
- (9) Changing the effective date from January 1, 2050, to July 1, 2019; and
- (10) Making technical nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1586, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1586, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Thielen, Dela Cruz, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Johanson, Yamane, Luke, Cullen and Thielen.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

## Conf. Com. Rep. 184 on H.B. No. 867

The purpose of this measure is to support critical government functions by facilitating and expediting the recruiting and hiring of the most talented and qualified staff to support these functions.

Specifically, this measure:

- Establishes an experimental modernization administrative officer position within the Department of Human Resources
  Development (DHRD) to facilitate and expedite the recruitment and hiring for civil service positions under DHRD's
  jurisdiction, and to direct experimental modernization projects as required by law;
- (2) Establishes an experimental modernization project within DHRD to address recruitment problems faced by the State's executive departments and requires DHRD to submit a report on the project to the Legislature prior to the 2020 Regular Session; and
- (3) Appropriates funds to establish the experimental modernization project, including the hiring of staff to implement the project.

After careful consideration in advancing a measure to support critical government functions and services with optimal staffing and a high-performing workforce, your Committee on Conference has amended this measure by:

- (1) Deleting provisions that establish an experimental modernization project within DHRD and the corresponding appropriation to establish the project;
- (2) Deleting provisions that establish an experimental modernization administrative officer position and the corresponding appropriation for full-time positions to implement the project;
- (3) Establishing an administrative assistant position within DHRD to, among other things, facilitate and expedite the hiring and recruitment for civil service positions under DHRD's jurisdiction, and to reclassify and abolish state department and agency positions, subject to certain conditions;
- (4) Appropriating funds for each year of Fiscal Biennium 2019-2021 to DHRD for the following expenditures of HRD102: workforce attraction, selection, classification, and effectiveness, including a permanent full-time position for the administrative assistant and two full-time senior recruiter positions, and to support DHRD's learning management system upgrade;
- (5) Changing its effective date to July 1, 2019; and
- (6) Making technical, nonsubstantive amendments for clarity, consistency, and style.

While your Committee on Conference has amended this measure by removing funding for a recruitment modernization program proposed by the Senate, your Committee on Conference agrees that the pilot project should continue. It also agrees that DHRD is responsible for providing leadership and assistance to state departments to recruit and retain the best and brightest employees necessary to fill critical vacancies and that DHRD is strongly urged to continue a recruitment modernization program to the extent that resources allow. The recruitment modernization program facilitates a collaboration between DHRD and other state departments to identify solutions to problems in recruitment, which include streamlining the recruitment process; simplifying class specifications, including minimum qualifications; and developing competitive salary programs. Your Committee on Conference finds that such efforts may be further enhanced through collaboration with the Legislature during the interim and that funding for this project may be reconsidered during the 2020 Regular Session.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 867, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 867, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Moriwaki, Chang and Fevella. Managers on the part of the Senate. Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Johanson, Luke and Matsumoto.

Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

#### Conf. Com. Rep. 185 on S.B. No. 989

The purpose of this measure is to:

- (1) Rename the Creative Industries Division as the Office of Creative Film and Media Industries Hawaii and establish the Office in statute:
- (2) Provide that the Hawaii Film Office and the Arts and Culture Development Branch shall be agencies of the Office of Creative Film and Media Industries Hawaii;
- (3) Specify that the Office of Creative Film and Media Industries Hawaii shall include certain positions to operate the Office;
- (4) Transfer Hawaii Film Office employees to the Office of Creative Film and Media Industries Hawaii without any consequence to their employment benefits or status;
- (5) Define "creative industries" and "creative media";
- (6) Rename the Hawaii television and film development special fund as the creative film and media development special fund, and amend the uses of the fund to support creative intellectual property and related infrastructure development within the Department of Business, Economic Development, and Tourism;
- (7) Provide appropriations for positions within the Office of Creative Film and Media Industries Hawaii;
- (8) Provide additional appropriations for activities related to the development of creative film and media industries in Hawaii; and
- (9) Establish and appropriate funds for a State of Hawaii Office of the Business Development and Support Division in Guangzhou, China.

Your Committee on Conference finds that there are significant economic and tourism benefits for the State from the Hawaii film and creative industries. Your Committee on Conference also finds that the Creative Industries Division of the Department of Business, Economic Development, and Tourism, Hawaii Film Office, and Arts and Culture Development Branch need to be restructured to better provide growth within the State's creative sectors. Your Committee on Conference further finds that to adequately strengthen Hawaii's creative economy, the Office of Creative Film and Media Industries Hawaii must be provided with adequate staffing.

Your Committee on Conference has amended this measure by:

- (1) Removing the purpose section;
- (2) Deleting language that would have renamed the Creative Industries Division as the Office of Creative Film and Media Industries Hawaii, established the Office in statute, and appropriated funds for various positions within the Office and making conforming amendments:
- (3) Deleting language that would have made the Hawaii Film Office and the Arts and Culture Development Branch agencies of the Office of Creative Film and Media Industries Hawaii;
- (4) Changing references throughout this measure from "creative film" and "media" to "creative media" and "film", respectively, and making similar amendments to defined terms;
- (5) Renaming the Hawaii television and film development special fund from the "creative film and media development special fund" to the "Hawaii film and creative industries development special fund", and amending the sources and allowable uses of monies in the special fund;
- (6) Repealing section 201-112, Hawaii Revised Statutes, which established the Hawaii Television and Film Development Board;
- (7) Deleting appropriations for activities related to the development of creative film and media industries in Hawaii;
- (8) Deleting language that would have established and appropriated funds for a State of Hawaii Office of the Business Development and Support Division in Guangzhou, China;
- (9) Inserting an appropriation of \$1,200,000 for fiscal year 2019-2020 for the University of Hawaii creative media program to strengthen the pipeline of students to the creative media industry;
- (10) Changing the effective date to July 1, 2019; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 989, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 989, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Keohokalole, Kidani and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives McKelvey, Luke and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

#### Conf. Com. Rep. 186 on S.B. No. 1353

The purpose of this measure is to facilitate the regulation and production of industrial hemp in the State by:

- (1) Requiring the Department of Agriculture (Department) to establish a permanent industrial hemp program to license individuals to cultivate industrial hemp in the State;
- (2) Authorizing licensees to utilize hemp genetics that meet federal definitions of hemp and other requirements;
- (3) Imposing a monetary penalty on any person who produces hemp without authorization from a state or federal program;
- (4) Establishing an affirmative defense to certain criminal drug promotion offenses;
- (5) Authorizing the Department to use temporary inspectors to perform industrial hemp inspections;
- (6) Exempting the transportation of certain hemp plant materials from penalties relating to the possession of those material outside of a field of lawful cultivation;
- (7) Reducing or repealing certain regulatory requirements under the existing industrial hemp pilot program;
- (8) Amending definitions of "marijuana" in state law to clarify that hemp is not marijuana and amending references to tetrahydrocannabinols in the state law to exclude tetrahydrocannabinols in hemp;
- (9) Requiring the Chairperson of the Board of Agriculture to:
  - (A) Prepare and submit a proposed state plan to monitor and regulate hemp production to the federal Secretary of Agriculture pursuant to section 297B of the Agricultural Marketing Act of 1946, as amended; and
  - (B) Report to the Governor, Speaker of the House of Representatives, and President of the Senate on the status of the federal Secretary of Agriculture's pending approval of the state plan and, if approved, the subsequent implementation of the plan; and
- (10) Establishing an industrial hemp special fund for the purposes of the permanent industrial hemp program, appropriating monies into that fund, and appropriating monies from that fund for the establishment of positions relating to the regulation of industrial hemp.

Your Committee on Conference finds that Act 228, Session Laws of Hawaii 2016, established an industrial hemp pilot program to allow the cultivation of industrial hemp under certain conditions. Your Committee on Conference further finds that the 2018 Farm Bill removed industrial hemp from the federal schedule I controlled substances list, thus, prompting this measure to further facilitate the regulation and production of industrial hemp in the State.

Your Committee on Conference has amended this measure by:

- (1) Removing the definition of "retail" from section 141-A, Hawaii Revised Statutes;
- (2) Requiring applicants for a license to grow industrial hemp in the State to be either an individual or an entity and requiring applicants to include certain documentation;
- (3) Requiring licensees to comply with county zoning ordinances, rules, or regulations;
- (4) Limiting random sampling inspections to one inspection per calendar year;
- (5) Allowing industrial hemp licenses to be transferred upon approval by the Board of Agriculture;
- (6) Removing the term "seed" in reference to agricultural cultivars to allow non-seed, approved cultivars to be grown for the permanent and pilot program;
- (7) Adding that the Chairperson or Board of Agriculture may add or remove any cultivar from the list of approved industrial hemp cultivars notwithstanding chapter 91, Hawaii Revised Statutes;
- (8) Adding to the list of approved cultivars hemp genetics that utilize testing and sampling protocols similar to those used in Hawaii's program or a nationally standardized sampling and testing protocol;
- (9) Clarifying that a licensee shall permit the annual inspection and sampling of the licensee's hemp plant material, seeds, growing area, equipment, and facilities incident to the cultivation of hemp, in addition to the annual inspection and sampling of the licensee's hemp plants;
- (10) Requiring notice for and authorizing inspections of any property utilized for industrial hemp cultivation, between sunrise and sunset;
- (11) Allowing licensees to transport the resin, flowering tops, and leaves of the licensee's crop that passed Department-ordered compliance testing, to another site for processing and in a Department of Agriculture-approved manner;
- (12) Clarifying that failure to provide reasonably required or requested information and failure to pay reasonable fees are violations:
- (13) Increasing the cap on the amount of civil penalties that the Department may impose for any violation of this part from \$100 to \$500;

- (14) Specifying disciplinary sanctions for violations of this part, to include complying with a corrective action plan among other sanctions:
- (15) Preventing the Department from adopting rules to revoke a license when an annual inspection of a random sample results in tetrahydrocannabinol levels of greater than 0.3 percent, so long as the crop from which the sample was taken is disposed of in a manner provided by rule;
- (16) Allowing the Department to adopt supplemental rules to require movement, but not pre-planting, reporting;
- (17) Deleting exemptions from chapters 91 and 201M, Hawaii Revised Statutes, for the adoption of interim rules;
- (18) Authorizing the Board of Agriculture to modify, instead of cease, operations of the industrial hemp program to effectuate any other federal or state industrial hemp law or regulations;
- (19) Defining the unauthorized cultivation of hemp as planting, cultivating, growing, or harvesting hemp without a license issued by the Department, with the intent to process, sell, or otherwise transfer the hemp;
- (20) Authorizing a fine of not less than \$100 and not more than \$500 for a violation of the unauthorized cultivation of hemp;
- (21) Clarifying that the affirmative defense to prosecution for the cultivation of industrial hemp applies to cultivation and possession of marijuana within a licensed land area;
- (22) Amending section 141-33, Hawaii Revised Statutes, to specify what information is required in and procedures for the application for an industrial hemp pilot program license;
- (23) Amending sampling requirements for the pilot program and adding that the Board may require appropriate remedial action when a sample test result indicates that at least one cannabis plant or part of a plant in the growing area contains a delta-9 tetrahydrocannabinol concentration over the limit allowed for industrial hemp;
- (24) Clarifying that failure or refusal of pilot program licensees to reasonably cooperate with the inspection process and provide relevant information reasonably required by the Board is a violation;
- (25) Deleting the amendment to section 141-39, Hawaii Revised Statutes, that would have required the Board of Agriculture to forego income or profits lawfully obtained by pilot program licensees if they report to the Board movement of the licensee's industrial hemp plants, plant materials, or seeds;
- (26) Requiring the Department to establish fees pursuant to chapter 91, Hawaii Revised Statutes, for temporary inspection services under section 141-37, Hawaii Revised Statutes;
- (27) Requiring the Chairperson of the Board of Agriculture to submit reports on a quarterly basis to the Governor regarding the approval status of the state plan by the federal Secretary of Agriculture until the plan is approved;
- (28) Inserting an appropriation amount of \$225,000 for each fiscal year of the 2019-2021 biennium into and out of the permanent industrial hemp special fund for:
  - (A) One full-time equivalent (1.0 FTE) program coordinator position;
  - $\begin{tabular}{ll} (B) & Two full-time equivalent (2.0 FTE) specialist positions; and \end{tabular}$
  - (C) Administrative costs of the industrial hemp program;
- (29) Amending section 1 to reflect its amended purpose;
- (30) Changing the effective date to July 1, 2019; and
- (31) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1353, S.D. 3, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1353, S.D. 3, H.D. 3, C.D. 1.

Signed by the Senate President and Chairs on behalf of the Committee.

Senators Gabbard, Rhoads, English and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Creagan, Lee, Luke, Wildberger and Thielen.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

# Conf. Com. Rep. 187 on S.B. No. 1405

The purpose and intent of this measure is to deter the sale and use of electronic smoking products.

Specifically, this measure:

- (1) Establishes the offense of unlawful shipment of e-liquid products;
- (2) Increases tobacco wholesaler or dealer license fees and retail permit fees; and

(3) Increases administrative fines and criminal penalties for electronic smoking devices by persons under the age of twenty-one years.

Your Committee finds that the State should take appropriate measures to prevent persons under the age of twenty-one years from engaging in the possession of electronic smoking products.

Your Committee has amended this measure by deleting its substantive provisions and inserting language to:

- (1) Require public school teachers and educators to confiscate electronic cigarettes from students under twenty-one years of age;
- (2) Require the Department of Health to establish a Safe Harbor Program by which persons under the age of twenty-one may dispose of electronic cigarettes in their possession;
- (3) Increase the administrative fine to \$100 for persons under the age of twenty-one for certain electronic smoking device infractions;
- (4) Change the effective date to July 1, 2019; and
- (5) Make technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1405, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1405, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Rhoads, Riviere, Nishihara and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Mizuno, Takumi, Lee, Nishimoto and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

#### Conf. Com. Rep. 188 on S.B. No. 1498

The purpose of this measure is to:

- (1) Broaden the powers and functions of the Hawaii Labor Relations Board (Board) to include:
  - (A) Determining qualifications and establishing lists of qualified persons to be available to serve as grievance arbitrators; and
  - (B) Resolving disputes over the qualifications and criteria for potential arbitrators selected under certain circumstances to resolve collective bargaining impasses; and
- (2) Clarify that in the case that public employers and public employees are not able to agree to a neutral arbitrator to chair the panel that arbitrates an impasse, the neutral arbitrator shall be selected from a list of experienced interest arbitrators.

Your Committee on Conference finds that there is a clear delineation between grievance arbitrators and interest arbitrators. Due to the fundamental difference between resolving contractual disputes and determining the provisions of the contract, it is appropriate to segregate the functions of a grievance arbitrator and an interest arbitrator, as well as to allow the Board to resolve disputes over the qualifications and criteria of the list of qualified arbitrators.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1498, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1498, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Kanuha, Chang and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Johanson, Eli and Matsumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

# Conf. Com. Rep. 189 on S.B. No. 292

The purpose of this measure is to ensure that service employees of state or county contractors are paid at wages that are certified to be accurate and in accordance with applicable labor laws. Specifically, this measure:

- (1) Specifies wage obligations of a contractor that performs services in excess of \$25,000 for any governmental agency;
- (2) Authorizes a governmental agency to withhold portions of payments from the contractor as the governmental agency considers necessary to cover the difference between the required wages and the wages received by the employed laborers and mechanics:
- (3) Requires a contractor to submit a certified copy of all payrolls on a weekly basis to the governmental contracting agency; and

(4) Specifies the contractor's obligations in connection with payroll records and the penalties for failure to comply.

Your Committee on Conference finds that service employees of contractors under state or county contracts require greater wage protection than is currently afforded. Your Committee on Conference further finds that in contrast to government-sponsored public works projects, where construction wages can be clearly verified through submission of certified payrolls, there is currently no mechanism to ensure that other types of workers on government service contracts are also being paid correctly. This measure requires contractors to maintain and submit certified payrolls which will help ensure that service employees are paid the correct wages and receive adequate compensation for what can be hazardous and difficult work.

Your Committee on Conference has amended this measure by:

- (1) Removing the findings;
- (2) Removing language that required a contractor or subcontractor to pay laborers and mechanics providing services, their full amount owed unconditionally and no less than once a week;
- (3) Clarifying that section 103-55, Hawaii Revised Statutes, applies to contracts for services performed by laborers and mechanics:
- (4) Removing language that provided for penalties for a contractor's failure to comply with obligations in connection with payroll records:
- (5) Inserting language to require a governmental contracting agency to pay, cause to be paid, or order to pay any wages or overtime compensation due to laborers or mechanics under certain conditions;
- (6) Inserting language that makes exceptions for contracts for furniture and equipment type work and existing contracts that were executed prior to this measure;
- (7) Changing the effective date to September 1, 2019; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 292, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 292, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Gabbard and Fevella. Managers on the part of the Senate. Ayes, 2. Noes, none. Excused, 1 (Gabbard).

Representatives Johanson, Eli and Matsumoto. Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

# Conf. Com. Rep. 190 on S.B. No. 1394

The purpose of this measure is to:

- (1) Establish a historic preservation income tax credit; and
- (2) Appropriate funds for one temporary position to assist with the establishment and administration of the Hawaii historic preservation income tax credit program.

Your Committee on Conference finds that tax incentives for rehabilitation of historic structures have been proven to be enormously effective in preserving important buildings; ensuring their continued economic viability; revitalizing communities, especially historic downtowns; preserving community character; and promoting heritage tourism. Tax credits for rehabilitation of historic structures also provide an incentive to promote rehabilitation of income producing historic properties and provide affordable housing. This measure will establish a historic rehabilitation tax credit, which will benefit affordable housing, tourism, neighborhood revitalization, and the economy.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the historic preservation income tax credit is for substantial rehabilitation of a certified historic structure;
- (2) Inserting a \$1,000,000 cap on the tax credits claimed for taxable years 2020, 2021, 2022, 2023, and 2024;
- (3) Removing language that established a temporary position to assist with the establishment and administration of the historic preservations tax credit and appropriated funds for that position;
- (4) Changing the effective date to July 1, 2019; provided that this measure shall be repealed on December 31, 2024;
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1394, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1394, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Moriwaki and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Brower, Matayoshi, Hashem and McDermott.

Managers on the part of the House. Ayes, 4. Noes, none. Excused, none.

#### Conf. Com. Rep. 192 on H.B. No. 654

The purpose of this measure is to improve the health of Hawaii's people by appropriating an unspecified sum to the University of Hawaii Cancer Center to determine the etiologies of the high incidence of liver and bile duct cancer in the State.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Appropriating \$350,000 for fiscal year 2019-2020 for the University of Hawaii Cancer Center to determine the etiologies of the high incidence of liver and bile duct cancer in Hawaii;
- (2) Requiring the University of Hawaii to submit a single report of its findings, including how the appropriated funds were spent, to the Legislature no later than 20 days prior to the convening of the Regular Session of 2020; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 654, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 654, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Baker, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Woodson, Mizuno, Cullen, D. Kobayashi and Okimoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (D. Kobayashi, Okimoto).

## Conf. Com. Rep. 193 on H.B. No. 843

The purpose of this measure is to support and enhance vocational education and workforce development in the County of Hawaii by making an appropriation in an unspecified sum to the University of Hawaii for three non-tenure track, full-time, temporary positions for the Applied Technical Education Program at Hawaii Community College for the 2019-2021 fiscal biennium.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$60,000 for each year of the 2019-2021 fiscal biennium for three non-tenure track, full-time, temporary positions for the Applied Technical Education Program at Hawaii Community College; and
- (2) Changing its effective date to July 1, 2019.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 843, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 843, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Kahele and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Woodson, Todd, D. Kobayashi, Nakashima, Tarnas and Okimoto.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

## Conf. Com. Rep. 194 on H.B. No. 622

The purpose of this measure is to strengthen fiscal accountability for charter schools by:

- (1) Requiring that if federal criminal charges are filed against an employee of a charter school for actions taken in the course of employment, control of public funds that have been disbursed to the school must be transferred to the State Public Charter School Commission;
- (2) Requiring that funds appropriated to a charter school must remain in the state treasury until disbursed pursuant to statutory requirements or approved for expenditure by the authorizer or by court order;
- (3) Requiring authorizers to develop and maintain a system of banking accounts that charter schools must exclusively use to receive and expend federal and state funds;
- (4) Making authorizers responsible for the selection of independent auditors to complete each charter school's annual financial audit and repealing an authorizer's discretionary authority to permit a financial review in lieu of an audit; and

(5) Prohibiting individuals from serving on the Board of Education or the State Public Charter School Commission if they were affiliated with any charter schools within the four years preceding appointment to the Board or Commission.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Deleting the provision pertaining to federal criminal charges;
- (2) Deleting the provision requiring that funds appropriated to a charter school must remain in the state treasury until certain requirements are met;
- (3) Including financial reviews within the scope of an authorizer's continual monitoring of the performance and legal compliance of charter schools that it oversees:
- (4) Deleting the provision requiring authorizers to develop and maintain a system of banking accounts that charter schools must exclusively use to receive and expend federal and state funds;
- (5) Specifying that upon the request of its authorizer, each charter school must provide to the authorizer full access to its fiscal and accounting books, documents, and files;
- (6) Requiring authorizers to select three independent auditors, from which the charter school will select one independent auditor to comply with auditing requirements;
- (7) Removing the prohibition against individuals from serving on the Board of Education if they were affiliated with any charter schools within the four years preceding appointment to the Board;
- (8) Amending the prohibition against individuals serving on the State Public Charter School Commission to prohibit service within one year of affiliation with any charter school;
- (9) Changing its effective date to July 1, 2019; and
- (10) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 622, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 622, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Woodson, Luke, Cullen, Hashem, Matayoshi, Tarnas and Okimoto.

Managers on the part of the House.

Ayes, 7; Ayes with Reservations (Okimoto). Noes, none. Excused, none.

# Conf. Com. Rep. 195 on H.B. No. 1070

The purpose of this measure is to improve public education in Hawaii by:

- (1) Prohibiting the Department of Education from requiring that a public school expend school funds to maintain geographically disadvantageous land on or adjacent to the public school's property; and
- (2) Making appropriations in unspecified amounts for six permanent full-time equivalent positions for and other expenses of the Hawaii Teacher Standards Board.

Your Committee on Conference has amended this measure by:

- Inserting appropriation amounts for the six permanent full-time equivalent positions for and other expenses of the Hawaii Teacher Standards Board;
- (2) Appropriating moneys for teacher stipends for the Grow Our Own Teachers Initiative;
- (3) Changing its effective date to June 28, 2019; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1070, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1070, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Woodson, Kitagawa, Gates, Holt and Okimoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

# Conf. Com. Rep. 196 on H.B. No. 1276

The purpose of this measure is to improve public education in Hawaii by establishing a working group within the Department of Education to consider and develop best practices for collaborative planning and expanded learning time in Hawaii's public schools.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Broadening the scope of matters to be considered by the working group, such as the structure of public school classroom operations; the rotation of principals among the public elementary, middle or intermediate, and high schools in a designated complex area; the rotation time for principals and vice principals in each public school classroom to observe educational practices; and effective methods to implement project-based learning into the curriculum;
- Clarifying that the Superintendent of Education will select the Department of Education principal and teacher who are members of the working group;
- (3) Exempting the working group from part I of chapter 92, Hawaii Revised Statutes; provided that the Department of Education makes available to the public the minutes of all meetings of the working group on the Department's website;
- (4) Requiring the working group to submit a report of its findings to the Legislature, the Superintendent of Education, and all complex area superintendents no later than 20 days prior to the convening of the Regular Session of 2021;
- (5) Changing its effective date to July 1, 2019; and
- (6) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1276, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1276, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kanuha and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Woodson, Kitagawa, Gates, Holt and Okimoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

### Conf. Com. Rep. 197 on H.B. No. 1455

The purpose of this measure is to support the efforts of the University of Hawaii Maui College's International Office in connecting Maui county and the world by making appropriations in unspecified sums for additional office staff and for study abroad opportunities for students.

Your Committee on Conference has amended this measure by:

- (1) Deleting the appropriations for a part-time position for an international/regional partnership specialist and for study abroad opportunities for University of Hawaii Maui college students;
- (2) Appropriating \$37,560 for each year of fiscal biennium 2019-2021 for a full-time position for an international educational management specialist;
- (3) Changing its effective date to July 1, 2019; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1455, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1455, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Woodson, Nishimoto, Hashimoto, D. Kobayashi and Okimoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (D. Kobayashi, Okimoto).

#### Conf. Com. Rep. 198 on H.B. No. 398

The purpose of this measure is to:

- (1) Address the shortage of qualified public school teachers in the State by requiring the University of Hawaii to temporarily establish additional distance-learning classes in teaching for students who are pursuing undergraduate or graduate degrees in education; and
- (2) Amend the composition and responsibilities of the Board of Regents of the University of Hawaii, including by:

- (A) Reducing the number of board members from 15 to 11;
- (B) Requiring that of the five board members representing the City and County of Honolulu, three members must represent and reside in the First Congressional District of Hawaii and two members must represent and reside in the Second Congressional District of Hawaii;
- (C) Requiring the Board of Regents to hold the president and administration of the University of Hawaii accountable for decisions, actions, and leases that incur additional costs to the University; and
- (D) Establishing holdover provisions for the members of the Board of Regents.

After careful consideration, your Committee on Conference has amended this measure by:

- Deleting the requirement that the University of Hawaii temporarily establish additional distance-learning classes in teaching for students who are pursuing undergraduate or graduate degrees in education;
- (2) Deleting the requirement that the members of the Board of Regents of the University of Hawaii who represent the City and County of Honolulu must represent and reside in certain geographical regions;
- (3) Deleting the requirement that the University of Hawaii Board of Regents hold the president and administration of the University of Hawaii accountable for decisions, actions, and leases that incur additional costs to the University;
- (4) Changing its effective date to June 30, 2019; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

Your Committee on Conference notes that this measure provides for a smooth transition so that current members of the University of Hawaii Board of Regents can complete their current terms of office.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 398, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 398, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Keith-Agaran, Kidani and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Woodson, Cullen, Hashimoto, D. Kobayashi and Okimoto.

Managers on the part of the House.

Ayes, 5; Ayes with Reservations (Okimoto). Noes, none. Excused, none.

# Conf. Com. Rep. 199 on H.B. No. 1547

The purpose of this measure is to appropriate \$4,000,000 to the University of Hawaii to provide all student-athletes with incidental benefits as permitted by National Collegiate Athletics Association bylaws.

Your Committee has amended this measure by changing its effective date to July 1, 2019.

Your Committee on Conference notes that of the \$4,000,000 appropriated, \$1,000,000 should be allocated for meals for student-athletes

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1547, H.D. 2, S.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1547, H.D. 2, S.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Kidani and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Todd, D. Kobayashi, Quinlan and Okimoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

#### Conf. Com. Rep. 200 on H.B. No. 250

The purpose of this measure is to formally establish the Hawaii Keiki: Healthy and Ready to Learn Program and establish the Hawaii Keiki: Healthy and Ready to Learn Special Fund, provide increased flexibility for the administration of necessary medication to students, provide funding to expand and sustain the program, appropriate funds for an evidence-based vision-screening and eye-assessment tool appropriate for children in kindergarten through grade twelve as part of the Hawaii Keiki: Healthy and Ready to Learn Program, and appropriate funds to establish school health services coordinators in the departments of Health and Human Services to increase coordination and facilitate departmental and interdepartmental activities related to comprehensive school-based health services.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Removing the provisions that formally established the Hawaii Keiki: Healthy and Ready to Learn program within the Department of Education;
- (2) Deleting the Hawaii Keiki: Healthy and Ready to Learn Special Fund;
- (3) Appropriating \$752,066 for each year of fiscal biennium 2019-2021 to implement, expand, and sustain the Hawaii Keiki: Healthy and Ready to Learn Program;
- (4) Appropriating \$256,000 for each year of fiscal biennium 2019-2021 to license electronic school records;
- (5) Changing its effective date to July 1, 2019; and
- (6) Making technical, nonsubstantive amendments for clarity, consistency, and style.

Your Committee requests that if there are any remaining funds, they should be expended by the Department of Education, Department of Health, and Department of Human Services for an evidence-based vision-screening and eye-assessment tool appropriate for children in kindergarten through grade twelve as part of the Hawaii Keiki: Healthy and Ready to Learn Program.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 250, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 250, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kanuha and Fevella. Managers on the part of the Senate. Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Woodson, Mizuno, Kitagawa, DeCoite and Okimoto.

Managers on the part of the House. Ayes, 5. Noes, none. Excused, none.

## Conf. Com. Rep. 201 on H.B. No. 942

The purpose of this measure is to satisfy several claims against the State, its officers, or its employees.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$12,283.57 in general funds for a claim by BG Kauai Holdings LLC;
- (2) Appropriating \$2,332.00 in general funds for a claim by Michael Bradley;
- (3) Appropriating \$76.62 in general funds for a claim by Raquel B. Nakahara;
- (4) Appropriating \$12,110.24 in general funds for a claim by Joseph Novotny;
- (5) Amending the appropriation amount for the settlement in the case of O'Grady, et al. v. State of Hawaii, et al., Civil No. 07-1-0371, Third Circuit from \$3,000,000.00 to \$2,891,721.86;
- (6) Appropriating \$125,000.00 for the settlement in the case of Smith v. Chong, et al., Civil No. 16-00519, USDC;
- (7) Specifying that certain claims be paid from funds appropriated to the respective department or agency in section 3 of Act 49, Session Laws of Hawaii 2017, as amended by section 3 of Act 53, Session Laws of Hawaii 2018;
- (8) Changing its effective date to upon its approval; and
- (9) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 942, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 942, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Keith-Agaran and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Lee, Luke, Cullen and Thielen.

Managers on the part of the House.

Ayes, 4; Ayes with Reservations (Thielen). Noes, none. Excused, none.

# Conf. Com. Rep. 202 on H.B. No. 1383

The purpose of this measure is to:

- (1) Provide for the expungement of criminal records pertaining solely to the possession of three grams or less of marijuana;
- (2) Decriminalize the possession of three grams or less of marijuana and establish that possession of that amount is a violation punishable by a monetary fine of \$30; and

(3) Establish a marijuana evaluation task force to make recommendations on changing marijuana use penalties and outcomes in

Your Committee on Conference has amended this measure by:

- (1) Increasing the monetary fine from \$30 to \$130;
- (2) Changing its effective date to January 11, 2020; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1383, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1383, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Nishihara, English and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, 1 (Fevella). Excused, 1 (Nishihara).

Representatives Lee, Luke, Morikawa, Takayama and Thielen.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

## Conf. Com. Rep. 203 on H.B. No. 624

The purpose of this measure is to combine the resources, duties, and responsibilities of the Hawaii Technology Development Corporation, Hawaii Strategic Development Corporation, and a newly-established Hawaii Broadband Office to establish a new entity to be known as the Hawaii Innovation Technology and Research Corporation for the purposes of promoting, developing, and expanding Hawaii's innovation and technology industry to diversify the State's economy by supporting start-ups and existing enterprises and making the State attractive to enterprises.

Your Committee on Conference has amended this measure by:

- (1) Restoring the \$300,000 ceiling of the Technology Special Fund;
- (2) Amending appropriations and position counts for the Hawaii Technology Development Corporation for the 2019-2021 Fiscal Biennium and deleting unspecified appropriation to Hawaii Strategic Development Corporation;
- (3) Adding new appropriations for the Hawaii Technology Development Corporation for Fiscal Year 2019-2020 of:
  - (A) \$90,000 for one permanent full-time technology park coordinator position; and
  - (B) \$630,000 for a first responders technology park proof of concept;
- (4) Making the repeal of the Hawaii Strategic Development Corporation and transfer of its authority, duties, and assets effective on July 1, 2019;
- (5) Making the appropriations effective on June 28, 2019; and
- (6) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 624, H.D. 1, S.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 624, H.D. 1, S.D. 3, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee.

Senators Wakai, Kim, Dela Cruz and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Woodson, McKelvey, Luke, Cullen and McDermott.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (McDermott).

## Conf. Com. Rep. 204 on S.B. No. 1197

The purpose of this measure is to appropriate funds for fiscal biennium 2019-2021 for collective bargaining cost items, salary adjustments, and other cost items for public employees in collective bargaining unit (7) and their excluded counterparts.

Your Committee on Conference finds that on April 24, 2019, the Legislature received notification regarding a tentative agreement between the University of Hawaii Professional Assembly (UHPA) and the employer for collective bargaining unit (7) regarding Hawaii Employer-Union Benefits Trust Fund employer contributions. Your Committee on Conference also finds that on April 25, 2019, the Legislature received notification that ratification is expected by April 27, 2019, regarding a tentative agreement between the United Public Workers (UPW) and the employer for collective bargaining units (1) and (10). In addition, an agreement with UPW was reached regarding Hawaii Employer-Union Health Benefits Trust Fund employer contributions.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Inserting specific amounts for collective bargaining cost items for salary adjustments, other costs adjustments, and Hawaii Employer-Union Health Benefits Trust Fund costs for public employees in collective bargaining units (1), (7), and (10) and their excluded counterparts for fiscal biennium 2019-2021, pursuant to the agreements reached;
- (2) Changing the effective date to July 1, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1197, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1197, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Kanuha, Ihara and Fevella. Managers on the part of the Senate. Ayes, 4. Noes, none. Excused, none.

Representatives Johanson, Luke and Matsumoto. Managers on the part of the House. Ayes, 3. Noes, none. Excused, none.

#### STANDING COMMITTEE REPORTS

### SCRep. 1 Human Services on S.B. No. 231

The purpose and intent of this measure is to establish that the youth commission administrator shall administer the youth commission and appropriate funds for one full-time equivalent permanent youth commission administrator position.

Your Committee received testimony in support of this measure from the Department of Human Services, Office of Youth Services, Hawaii Youth Services Network, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Community Alliance on Prisons, Young Progressives Demanding Action – Hawaii, and one individual.

Your Committee finds that Act 106, Session Laws of Hawaii 2018 (Act 106), established a youth commission to advise the governor and legislature on the effects of legislative policies, needs, assessments, priorities, programs, and budgets concerning the youth of the State. Although Act 106 also appropriated funds for a staff position to administer the youth commission, the funds appropriated were only authorized for one state fiscal year. This measure establishes and funds a youth commission administrator position to administer the youth commission, thereby establishing the staffing support necessary for the successful operation of the youth commission.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 231 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 2 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 276

The purpose and intent of this measure is to appropriate funds for the Department of Public Safety.

Your Committee received testimony in support of this measure from the Department of Public Safety and United Public Workers.

Your Committee finds that this measure provides a legislative vehicle should funding become available for the purposes of this measure prior to the end of the 2019-2021 fiscal biennium.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 276 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Baker, Fevella).

# SCRep. 3 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 284

The purpose and intent of this measure is to appropriate funds for the Department of Defense.

Your Committee did not receive any testimony on this measure.

Your Committee finds that this measure provides a legislative vehicle should funding become available for the purposes of this measure prior to the end of the 2019-2021 fiscal biennium.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 284 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Baker, Fevella).

#### SCRep. 4 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 595

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Public Safety.

Your Committee received testimony in support of this measure from the Department of Public Safety and United Public Workers.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Public Safety in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee

requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 595, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 595, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Baker, Fevella).

# SCRep. 5 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 596

The purpose and intent of this measure is to appropriate or authorize funds or amend means of financing for various capital improvement projects of the Department of Public Safety.

Your Committee received testimony in support of this measure from the Department of Public Safety and United Public Workers.

Your Committee finds that this measure expresses adjustments to the projects funded, maximum sums appropriated or authorized, or means of financing indicated for the Department of Public Safety in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

Your Committee has amended this measure by:

- (1) Changing the expending agency for the appropriation to the Department of Public Safety; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 596, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 596, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Baker, Fevella).

# SCRep. 6 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 597

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Defense.

Your Committee received testimony in support of this measure from the Department of Defense.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Defense in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 597, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 597, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Baker, Fevella).

## SCRep. 7 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 598

The purpose and intent of this measure is to appropriate or authorize funds or amend means of financing for various capital improvement projects of the Department of Defense.

Your Committee received testimony in support of this measure from the Department of Defense and Hawaii Emergency Management Agency.

Your Committee finds that this measure expresses adjustments to the projects funded, maximum sums appropriated or authorized, or means of financing indicated for the Department of Defense in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 598, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 598, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Baker, Fevella).

# SCRep. 8 Agriculture and Environment on S.B. No. 233

The purpose and intent of this measure is to appropriate or authorize funds or amend means of financing for various capital improvement projects of the Department of Agriculture The purpose and intent of this measure is to appropriate funds for the Department of Agriculture.

Your Committee received testimony in support of this measure from the Department of Agriculture, University of Hawai'i, one member of the Hawai'i County Council, and one individual.

Your Committee finds that this measure expresses adjustments to the projects funded, maximum sums appropriated or authorized, or means of financing indicated for the Department of Agriculture in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 233 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 9 (Majority) Judiciary on S.B. No. 216

The purpose and intent of this measure is to require a mandatory recount of election votes when the margin of victory is equal to or less than one-half of one percent of the total number of votes cast.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii, Common Cause Hawaii, and ten individuals. Your Committee received comments on this measure from the Office of Elections.

Your Committee finds that the results of recent elections highlight the need for a mandatory recount when the results of an election are very close. Your Committee further finds that a mandatory recount would promote confidence in the electoral system and potentially save time and resources of the court system. Your Committee additionally finds that mandatory recounts should be applied to all elections in which they can be of benefit.

Accordingly, your Committee has amended this measure by:

- (1) Requiring, in addition to elections for state and county offices, a mandatory recount for ballot questions that meet the threshold;
- (2) Requiring a mandatory recount of election and ballot votes when the margin of victory is equal to or less than one hundred votes or one-half of one percent of the total number of votes cast, whichever is greater;
- (3) Requiring recounts to be completed within forty-eight hours after the closing of poles on election day; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 216, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 216, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Fevella). Excused, none.

# SCRep. 10 (Majority) Judiciary on S.B. No. 427

The purpose and intent of this measure is to establish ranked choice voting for special federal elections and special elections of vacant county seats.

Your Committee received testimony in support of this measure from the Libertarian Party of Hawaii, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, FairVote Action, Common Cause Hawaii, and seven individuals. Your Committee received testimony in opposition to this measure from the Honolulu County Republican Party and eight individuals.

Your Committee finds that special elections for federal and county council offices often involve numerous candidates and can result in situations in which a candidate wins with a plurality of votes that falls well short of a majority. Your Committee further finds that ranked choice voting ensures that elections in which a large number of candidates appear on the ballot can be won with clear majorities without the need for costly and inefficient runoff elections.

Your Committee has amended this measure by making a technical, nonsubstantive amendment to clarify that the Office of Elections may modify a ranked-choice voting ballot and tabulation.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 427, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 427, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Fevella). Excused, none.

## SCRep. 11 (Joint) Education and Housing on S.B. No. 12

The purpose and intent of this measure is to authorize the Hawaii Housing Finance and Development Corporation to develop and implement a housing voucher program for full-time teachers employed by the Department of Education or at a public charter school.

Your Committees received testimony in support of this measure from the Department of Education, State Public Charter School Commission, Hawai'i Teacher Standards Board, Special Education Advisory Council, Democratic Party of Hawai'i Education Caucus, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Rainbow Family 808, and four individuals. Your Committees received testimony in opposition to this measure from the Hawaii Housing Finance and Development Corporation and one individual. Your Committees received comments on this measure from one individual.

Your Committees find that Hawaii continues to suffer from a shortage of qualified teachers and financial incentives are a key strategy for the recruitment and retention of teachers, especially since the salaries of teachers in Hawaii continue to trail the nation when adjusted for cost of living. Housing in Hawaii is expensive and contributes to the financial burden on teachers. By establishing a housing voucher program to provide housing vouchers to full-time teachers, this measure provides a financial incentive to assist teachers in attaining sustainable and stable residency and lessen the financial burden of housing.

Your Committees note that the Hawaii Housing Finance and Development Corporation may need additional support to implement the housing voucher program as specified by this measure. Additionally, your Committees believe that making the Department of Education responsible for implementing the program merits further discussion and that the Department should work and collaborate with other housing agencies that are familiar with housing voucher programs, such as the Hawaii Public Housing Authority.

As affirmed by the records of votes of the members of your Committees on Education and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 12 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Education: Ayes, 5. Noes, none. Excused, none. Housing: Ayes, 5; Ayes with Reservations (Thielen). Noes, none. Excused, none.

### SCRep. 12 (Joint) Education and Housing on S.B. No. 586

The purpose and intent of this measure is to repeal the school impact fee exemptions for nonresidential development and housing subject to the transient accommodations tax when seeking development in a designated school impact district requiring county subdivision approval, a county building permit, or condominium property regime approval of the project.

Your Committees received testimony in support of this measure from the one member of the Maui County Council, Hawaii State Teachers Association, Democratic Party of Hawai'i Education Caucus, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Americans for Democratic Action Hawai'i, and two individuals. Your Committees received testimony in opposition to this measure from the Building Industry Association of Hawaii; JW, Inc.; Chamber of Commerce Hawaii; and NAIOP Hawaii. Your Committees received comments on this measure from the Department of Education and Tax Foundation of Hawaii.

Your Committees find that the collection of school impact fees are necessary in areas of high growth to accommodate the increase in new families and school enrollments. Traditionally, certain types of development were exempt from school impact fees. However, nonresidential development and housing subject to transient accommodations tax within these emerging communities are found to impact the pace and scale of residential development, increasing the need for more public schools. This measure ensures that as communities grow through residential and other types of development, the need for schools to be built and operate will be met.

As affirmed by the records of votes of the members of your Committees on Education and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 586 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Education: Ayes, 5. Noes, none. Excused, none. Housing: Ayes, 5. Noes, none. Excused, none.

# SCRep. 13 Agriculture and Environment on S.B. No. 491

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Agriculture.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, one member of the Hawai'i County Council, Hawai'i Farm Bureau, Hawai'i Center for Food Safety, and one individual.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Agriculture in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

Your Committee has amended this measure by adding four budget items requested by the Department of Agriculture for purposes such as implementing the biosecurity program, supplementing the agricultural loan revolving fund, and funding food safety grants.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 491, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 491, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 14 Agriculture and Environment on S.B. No. 455

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds to the Department of Health for a study, design, engineering, and land acquisition for a wastewater treatment plant in Pahoa, Hawaii.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Hawaii, one member of the Hawai'i County Council, Mainstreet Pahoa Association, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Malama O Puna, and four individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that the oldest buildings in Pahoa were built in the mid-1800s and have cesspools. The proximity of the buildings to each other leaves limited space for upgrades, conversions, or connections of cesspools. The Department of Health has identified 220 cesspools in the Kapoho area, near Pahoa on the island of Hawaii, among the cesspools in the top fourteen priority areas for upgrade or closure.

Additionally, recent volcanic activity impacted the Pahoa community in many ways. Pahoa's economy has suffered, and many businesses have closed. As the new gateway to the volcano, Pahoa expects more tourism and needs proper infrastructure to support the town and tourists.

Based on testimony, your Committee finds that in order to improve infrastructure and water quality, Pahoa needs a study, design, engineering, and land acquisition for a wastewater treatment.

Your Committee notes testimony submitted by the Department of Health indicating that while the department regulates wastewater systems, it is not the appropriate agency to fund a study, design, engineering, and land acquisition for a wastewater treatment plant for Pahoa. State law authorizes each county to construct, manage, and maintain sewers. Therefore, your Committee finds that the County of Hawai'i would be a more appropriate agency to implement this measure.

Accordingly, your Committee has amended this measure by designating the County of Hawai'i as the project lead and expending agency in lieu of the Department of Health.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 455, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 455, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

#### SCRep. 15 Agriculture and Environment on S.B. No. 485

The purpose and intent of this measure is to increase the portion of the barrel tax deposited into the agricultural development and food security special fund, which may be used to support local agricultural development statewide, including the reduction of imports that impact biosecurity.

Your Committee received testimony in support of this measure from the Department of Agriculture, one member of the Hawai'i County Council, Hawai'i Farm Bureau, Ulupono Initiative, Organizing for Action, and two individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the agricultural development and food security special fund was created to support critical investments in clean energy, local agricultural production, and environmental response to reduce the State's dependence on imported fossil fuels and food products. Additionally, the fund was intended to fulfill the State's vision for increased self-sufficiency and sustainability.

The agricultural development and food security special fund is an important resource that the Department of Agriculture utilizes for various activities intended to increase local agricultural production or processing; however, funding for this purpose was reallocated during the economic downturn for purposes other than increasing local food production. Considering today's economy and the State's goal to double its local food production in the near future, your Committee finds that increasing funding for the special fund is timely and critical. Your Committee recognizes that any additional monies deposited into this fund will support all local agricultural development statewide, one aspect of which would be to replace the importation of agriculture which correlates with improved biosecurity.

Your Committee notes the Department of Land and Natural Resources' concerns that the Hawaii Climate Change Mitigation and Adaptation Commission issued support for a carbon fee in the Commission's November 28, 2018, news release entitled *State Climate Commission Encourages Urgent Actions to Combat Emissions*, which references a separate report that supports an increase in the barrel tax to support clean energy and the inclusion of aviation fuel in the barrel tax. Your Committee will consider the Commission's carbon fee recommendations as this measure may also affect barrel tax allocation.

Overall, your Committee finds that supporting this measure will help implement the State's biosecurity plan, increase local food production, and increase opportunities for agricultural groups statewide.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 485 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 16 Water and Land on S.B. No. 898

The purpose and intent of this measure is to clarify the data requirements for land recordation by the Bureau of Conveyances, on land other than fee simple time share interests deregistered by the Land Court, to include a plan of the parcel and a map and description prepared by a licensed professional surveyor.

Your Committee received testimony in support of this measure from the Hawaii Land Surveyors Association and eight individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that there are no clear requirements or standards for the mapping and describing of deregistered lands; therefore, land owners who voluntarily deregister their property from the Land Court registration system may not be in possession of a proper map and legal description of their land. This measure seeks to amend existing land deregistration laws to ensure that deregistered lands have the proper documentation describing their original land titles, encumbrances, and rights that is expected of every other piece of land not registered in the Land Court.

Your Committee has amended this measure by:

- Inserting language to require the Assistant Registrar to refer the map and description of parcels sought to be deregistered to the State Land Surveyor for approval prior to recording the written request for deregistration, cancelling the certificate of title, and recording the plan;
- (2) Requiring the Assistant Registrar to also include the land court consolidation number in the notation of the recordation and cancellation of the certificate of title;
- (3) Requiring the Assistant Registrar to transmit notation of the recordation and cancellation to the Registrar of the Land Court in addition to the State Land Surveyor;
- (4) Deleting the requirement that every plan of deregistered land filed by the Registrar contain an order of deregistration;
- (5) Inserting a savings clause; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 898, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 898, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 17 Water and Land on S.B. No. 921

The purpose and intent of this measure is to establish in the Department of the Attorney General a division dedicated exclusively to providing legal advice regarding Hawaiian shoreline public access rights to the Governor, executive departments, boards and commissions, and the Legislature and its members.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and three individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that an understanding of the scope of public access shoreline Hawaii (PASH) rights and their relation to native Hawaiian traditional and customary rights protected under Article XII, section 7, of the Hawaii State Constitution, is critical to the fair and even-handed application of relevant law by the legal staff of the Department of the Attorney General and other government entities that are obligated to apply the law relating to PASH rights. Therefore, your Committee finds that it is proper to establish a division of deputy attorneys general with the appropriate educational background and training in the Hawaiian language and Hawaiian culture.

Your Committee has heard the concerns of the Department of the Attorney General regarding a separation of powers issue in requiring the Department of the Attorney General to request a separate line item in the budget for the division contemplated by this measure. Accordingly, your Committee has amended this measure by:

(1) Deleting the language requiring the budget line item request and instead making a direct appropriation from general revenues for fiscal year 2020-2021 for the establishment of the division;

- (2) Making the appropriation effective on July 1, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 921, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 921, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 18 Water and Land on S.B. No. 489

The purpose and intent of this measure is to protect sharks and rays by:

- (1) Establishing fines and penalties for knowingly capturing, taking, possessing, abusing, or entangling a shark, whether alive or dead, or killing a shark, within state marine waters;
- (2) Expanding the existing prohibition on knowingly capturing or killing a manta ray to apply to all rays; and
- (3) Expanding the prohibition regarding rays to include knowingly taking, possessing, abusing, or entangling a ray, whether alive or dead, or killing a ray, within state marine waters.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Animal Rights Hawaiii, Keiko Conservation, For the Fishes, West Hawaii Humane Society, The Humane Society of the United States, Hawaii Marine Animal Response, Keiko Conservation International, One Ocean Diving, Friends of Hanauma Bay, Wipeout Crew, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiii, and two hundred fourteen individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that sharks and rays are extremely important to ocean ecosystems because they keep the ecosystem balanced, regulate populations of other marine life, and ensure healthy fish stock and reefs. Your Committee further finds that sharks and rays play a vital historical and cultural role in Hawaii, including Native Hawaiian customary and traditional rights protected by the Hawaii State Constitution. In 2010, Hawaii became the first state in the nation to enact a prohibition on the sale of shark fins and fin products; however, the law does not prohibit the taking of whole live sharks in state waters. Your Committee finds that this loophole must be closed to protect Hawaii's valuable sharks, and manta ray protections must be expanded to include all rays.

Your Committee has amended this measure by:

- (1) Inserting language to exempt any person from the prohibitions regarding sharks if the capture, taking, possession, abuse, entanglement, or killing is the result of defense of the person's self or of another against death or bodily harm;
- (2) Inserting the Hawaiian words, hāhālua and hailepo, associated with rays; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 489, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 489, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 19 Commerce, Consumer Protection, and Health on S.B. No. 810

The purpose and intent of this measure is to:

- (1) Establish biennial requirements for forty credit hours in specified continuing medical education programs for renewal of physician assistant licenses, beginning with the renewal for the licensing biennium on February 1, 2020;
- (2) Authorize the Hawaii Medical Board to conduct random document audits to enforce compliance; and
- (3) Specify conditions for forfeiture and reinstatement of a physician assistant license.

Your Committee received testimony in support of this measure from the Hawaii Medical Board, Hawaii Medical Association, Hawaii Academy of Physician Assistants, and thirteen individuals.

Your Committee finds that the Hawaii Medical Board currently requires that physician assistants maintain certification by the National Commission on Certification of Physician Assistants for license renewal. This is overly burdensome and has contributed to the shortage of quality health care workers in the State. Your Committee further finds that the trend amongst regulatory boards is to require physician assistants to obtain only continuing medical education for license renewal. This measure brings parity between the license renewal requirements for physician assistants and physicians and requires physician assistants to submit proof of forty hours of specified continuing medical education which will ensure that compliance and quality are maintained amongst licensees.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 810 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

#### SCRep. 20 (Joint) Housing and Education on S.B. No. 303

The purpose and intent of this measure is to authorize the Department of Education and Hawaii Community Development Authority to develop programs that provide incentives to establish gardens on school campuses and within housing projects and communities.

Your Committees received testimony in support of this measure from the Department of Education, University of Hawai'i System, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, American Heart Association, and four individuals. Your Committees received comments on this measure from the Department of Health and Hawai'i Farm to School Hui.

Your Committees find that garden programs have the potential to strengthen partnerships between state agencies, improve access to healthy food options, and increase consumption of locally grown fruits and vegetables by Hawaii's youth and community members. Your Committees further find that garden programs develop healthy food systems and reinforce positive nutrition behaviors that will reduce the risk for chronic diseases such as obesity, heart disease, diabetes, high blood pressure, and some cancers. Currently, eighty percent of grade six through twelve schools in Hawaii have gardens, which promotes integrated learning across educational disciplines. Therefore, your Committees believe that supporting garden programs in schools and housing projects and communities will encourage proper eating habits, support local agriculture, and foster interest in gardening among students and adults alike.

As affirmed by the records of votes of the members of your Committees on Housing and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 303 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Housing: Ayes, 5. Noes, none. Excused, none. Education: Ayes, 5. Noes, none. Excused, none.

#### SCRep. 21 (Joint) Housing and Education on S.B. No. 114

The purpose and intent of this measure is to improve teacher recruitment and retention by establishing a teacher home assistance program to provide housing vouchers to full-time teachers at hard-to-fill schools and whose household income does not exceed eighty percent of the area median income.

Your Committees received testimony in support of this measure from the Department of Education, State Public Charter School Commission, Special Education Advisory Council, Hawaii State Teachers Association, Democratic Party of Hawaii Education Caucus, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and five individuals. Your Committees received testimony in opposition to this measure from the Hawaii Housing Finance and Development Corporation.

Your Committees find that Hawaii continues to suffer from a shortage of qualified teachers. For the 2018-2019 school year, the State saw 1,029 vacancies, up from 1,011 in the 2017-2018 school year, and 920 in the 2016-2017 school year. Your Committees further find that teacher resignations have increased from 850 in the 2016-2017 school year to 1,114 in the 2018-2019 school year, with only 294 due to retirement. Teacher attrition is worse in high-poverty areas of the State. Your Committees additionally find that 18 out of 19 special education teachers hired in the Nanakuli-Waianae Complex Area did not have a special education license.

Your Committees find that financial incentives are a key strategy for the recruitment and retention of teachers, particularly due to teacher salaries in Hawaii trailing behind teacher salaries across the nation when adjusted for cost of living. In addition to a teacher shortage, Hawaii is facing a severe housing shortage, further exacerbating the teacher shortage. Your Committees further find that housing subsidy vouchers can be a tool to increase the Department of Education's teacher retention, especially in hard-to-fill geographic areas by taking some of the financial burden off of teachers and allowing qualified teachers to remain in Hawaii.

Your Committees acknowledge that neither the Department of Education nor the Hawaii Housing Finance and Development Corporation has experience in administering a voucher program. As such, your Committees request that the Department of Education and Hawaii Housing Finance and Development Corporation work with the Hawaii Public Housing Authority in establishing and administering a housing voucher program to provide vouchers to eligible teachers.

As affirmed by the records of votes of the members of your Committees on Housing and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 114 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Housing: Ayes, 5; Ayes with Reservations (Thielen). Noes, none. Excused, none. Education: Ayes, 5. Noes, none. Excused, none.

## SCRep. 22 (Joint) Housing and Education on S.B. No. 387

The purpose and intent of this measure is to:

- (1) Authorize the Hawaii Housing Finance and Development Corporation to assist the Department of Education in developing teacher housing projects;
- Authorize the Hawaii Housing Finance and Development Corporation to, in addition, contract or sponsor with any state department or agency;
- (3) Require the Department of Education to lease land and contract with private entities for the development, management, maintenance, or revitalization of teacher housing;
- (4) Permit the Department of Education to lease teacher housing to other eligible tenants if occupancy of teacher housing falls below ninety-five percent; and
- (5) Authorize the issuance of general obligation bonds and appropriate funds into and out of the dwelling unit revolving fund.

Your Committees received testimony in support of this measure from the Department of Education, Hawaii Housing Finance and Development Corporation, Special Education Advisory Council, Democratic Party of Hawai'i Education Caucus, and seven individuals

Your Committees find that Hawaii is facing two major issues: a shortage of qualified teachers and a lack of affordable housing. These two issues are not dissimilar in that the lack of affordable housing exacerbates the shortage of qualified teachers as many are leaving the State or the teaching profession in search of better pay. Your Committees further find that financial incentives are a key strategy for the recruitment and retention of teachers and that the Hawaii Housing Finance and Development Corporation currently has the necessary development tools and expertise to collaborate with other state agencies to develop affordable housing. Your Committees believe that providing assistance in the form of housing will not only make the teaching profession more attractive, but also help to lessen the financial burden of teachers currently living in Hawaii.

Your Committees have amended this measure by:

- (1) Authorizing the Hawaii Housing Finance and Development Corporation to assist in planning facilities and rental housing projects for teachers employed by public charter schools, in addition to teachers employed by the Department of Education; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 387, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 387, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Housing: Ayes, 5; Ayes with Reservations (Thielen). Noes, none. Excused, none. Education: Ayes, 5. Noes, none. Excused, none.

#### SCRep. 23 (Joint) Housing and Education on S.B. No. 891

The purpose and intent of this measure is to exempt Hawaii Housing Finance and Development Corporation housing projects approved for a general excise tax exemption, additions to existing dwelling units, accessory dwelling units, ohana dwelling units, and affordable housing projects developed by the Hawaii Public Housing Authority from school impact fee requirements.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority, Hawaiian Community Assets, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hawaiian Community Development, Hawaii Habitat for Humanity Association, and one individual. Your Committees received testimony in opposition to this measure from the Chamber of Commerce Hawaii, Building Industry Association of Hawaii, and two individuals. Your Committees received comments on this measure from the Department of Education and Tax Foundation of Hawaii.

Your Committees find that there is a severe lack of affordable housing in the State, especially for those most vulnerable to the high costs of living. The Hawaii Public Housing Authority has identified fourteen redevelopment projects along the rail line for development through public-private partnerships and is in the midst of executing those projects, some of which would be subject to school impact fees. According to testimony received by your Committees, for two out of the three redevelopment projects currently being undertaken by the Hawaii Public Housing Authority, the school impact fees would be approximately \$26,300,000. The school impact fees would increase the total cost of the redevelopment and ultimately the developer fee for affordable housing. Therefore, your Committees find that lowering the cost of construction for new affordable housing units, accessory and ohana dwelling units, and alteration or expansion of existing dwelling units by exempting those units from school impact fees is a vital component in addressing the shortage of housing in Hawaii.

As affirmed by the records of votes of the members of your Committees on Housing and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 891 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Housing: Ayes, 5; Ayes with Reservations (Moriwaki). Noes, none. Excused, none. Education: Ayes, 5. Noes, none. Excused, none.

## SCRep. 24 Housing on S.B. No. 16

The purpose and intent of this measure is to appropriate or authorize funds or amend means of financing for various capital improvement projects of the Hawaii Public Housing Authority.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority and United Public Workers

Your Committee finds that this measure expresses adjustments to the projects funded, maximum sums appropriated or authorized, or means of financing indicated for the Hawaii Public Housing Authority in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

Your Committee has amended this measure as suggested by the Hawaii Public Housing Authority by inserting a description of the capital improvement project.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 16, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 16, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 25 Housing on S.B. No. 17

The purpose and intent of this measure is to appropriate funds for the Hawaii Public Housing Authority.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority.

Your Committee finds that this measure provides a legislative vehicle should funding become available for the purposes of this measure prior to the end of the 2019-2021 fiscal biennium.

Your Committee has amended this measure by:

- (1) Inserting language to appropriate or authorize funds from various sources for specific programs, positions, and fringe benefits, as recommended by the Hawaii Public Housing Authority; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee's intent in recommending this measure for passage is for the items expressed in this measure to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 17, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 17, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 26 Housing on S.B. No. 14

The purpose and intent of this measure is to appropriate or authorize funds or amend means of financing for various capital improvement projects of the Hawaii Housing Finance and Development Corporation.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that this measure expresses adjustments to the projects funded, maximum sums appropriated or authorized, or means of financing indicated for the Hawaii Housing Finance and Development Corporation in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

Your Committee has amended this measure as suggested by the Hawaii Housing Finance and Development Corporation by changing the appropriation amounts for the cash infusion for the rental housing revolving fund and dwelling unit revolving fund infusion.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 14, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 14, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 27 Housing on S.B. No. 15

The purpose and intent of this measure is to appropriate funds for the Hawaii Housing Finance and Development Corporation.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that this measure provides a legislative vehicle should funding become available for the purposes of this measure prior to the end of the 2019-2021 fiscal biennium.

Your Committee has amended this measure by:

- (1) Inserting language to appropriate, authorize, or transfer funds from various sources for specific programs, positions, and ceiling increases, as recommended by the Hawaii Housing Finance and Development Corporation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee finds that this measure expresses programs or positions, maximum sums appropriated or authorized, or means of financing indicated for the Hawaii Housing Finance and Development Corporation to be incorporated into the General Appropriations Act of 2019, or other appropriate legislative vehicle, or to be adopted separately. As such, your Committee requests your Committee

on Ways and Means to incorporate the items in this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 15, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 15, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 28 Housing on S.B. No. 516

The purpose and intent of this measure is to:

- (1) Amend the definition of "eligible project loan" to allow loans to be made for certain rent-to-own housing projects;
- Require the Hawaii Housing Finance and Development Corporation to implement the homebuyers' club and rent-to-own housing programs;
- (3) Require the Hawaii Housing Finance and Development Corporation to offer housing projects exclusively to those who are Hawaii residents and owner occupants and own no other real property; and
- (4) Authorize the issuance of revenue bonds to finance housing loan programs of the Hawaii Housing Finance and Development Corporation.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the Hawaii Housing Finance and Development Corporation's homebuyers' club program and rent-to-own program are inactive and have been since their inception because they have not been funded and other available programs serve similar purposes. Your Committee notes that while these programs fulfill similar roles as the homebuyers' club program and rent-to-own program, some rely largely on federal approval or funding. Your Committee believes that the State needs to play a bigger role in assisting residents of Hawaii by offering more programs dedicated to purchasing a home.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 516 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 29 Commerce, Consumer Protection, and Health on S.B. No. 331

The purpose and intent of this measure is to permanently require motion picture theaters to offer open movie captioning showings at least two times per week, with at least one screening on a Saturday or Sunday, and eliminate the ability for theaters to offer personal closed captioning lightweight eyewear as a substitute for open captioning.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board; Hawai'i Civil Rights Commission; Hawai'i State Commission on the Status of Women; AMVETS Hawaii Service Foundation Corp; Aloha State Association of the Deaf; Special Education Advisory Council; Hawaii Disability Rights Center; Isle Interpret, LLC; and over seventy individuals.

Your Committee finds that the open captioning requirement in Act 39, Session Laws of Hawaii 2015 (Act 39), which required movie theaters to provide closed captioning and a minimum of two open captioned showing per week, was considered landmark legislation for the deaf and hard of hearing community. It was the first of its kind in the nation and exceeded federal Americans with Disabilities Act requirements. Your Committee finds, however, that Act 211, Session Laws of Hawaii 2017, reduced the required number of open captioned showings and effectively eliminated the open captioned showing requirement that had made the law so effective for ensuring equal access for the deaf and hard of hearing community.

Your Committee notes that this measure addresses the discriminatory effects of communication barriers at movie theaters and seeks to restore and make permanent the requirements originally contemplated by Act 39, which will enable deaf and hard of hearing consumers an equal opportunity to attend and enjoy movies in a similar manner as those who do not require open movie captioning.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 331 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Chang). Noes, none. Excused, none.

### SCRep. 30 Human Services on S.B. No. 733

The purpose and intent of this measure is to establish the felony offense of persistent nonsupport in the first degree when a person knowingly and persistently fails to provide support to a child, spouse, or other dependent to whom the person has a legal obligation of support for five years or longer, or is \$30,000 or more in arrears.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that under existing law, the offense of persistent nonsupport is a misdemeanor and only covers circumstances in which a person knowingly and persistently fails to provide legally-obligated support to a spouse, child, or other dependent. This measure therefore establishes the felony offense of persistent nonsupport in the first degree to cover more egregious situations in which a person knowingly and persistently fails to provide legally-obligated support for five years or longer, or is \$30,000 or more in arrears.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 733, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 733, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 31 Human Services on S.B. No. 214

The purpose and intent of this measure is to require the court to appoint counsel to indigent parents in foster care cases and make every effort to do so at the first hearing attended by the parent.

Your Committee received testimony in support of this measure from Hawai'i Access to Justice Commission, Lawyers for Equal Justice, National Coalition for a Civil Right to Counsel, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the Hawaii Supreme Court held in *In the Interest of T.M.*, 131 Haw. 419 (2014), that under the due process clause of the Hawaii State Constitution, indigent parents are guaranteed the right to a court-appointed counsel in termination of parental rights proceedings. Your Committee further finds that as currently written, the Hawaii Revised Statutes does not require the court to appoint counsel to indigent parents in termination of parental rights proceedings. Instead, as currently written, the appointment of counsel to indigent parents is discretionary. This measure therefore requires that the court appoint counsel to indigent parents in termination of parental rights proceedings, which will ensure that indigent parents have the right to counsel when their parental rights are in jeopardy.

Your Committee has amended this measure by:

- Removing language that would have limited the appointment of an attorney to indigent parents in parental rights proceedings to solely foster care cases; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 214, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 214, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 32 Human Services on S.B. No. 479

The purpose and intent of this measure is to:

- (1) Require a finding that denial of reasonable grandparent visitation rights would cause significant harm to the child as a condition of awarding grandparent visitation rights;
- (2) Clarify procedures for an order awarding reasonable grandparent visitation rights; and
- (3) Specify that a violation of the terms and conditions of the order is punishable as contempt of court.

Your Committee received testimony in support of this measure from seven individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that grandparents are taking on increasing responsibilities in helping to raise their grandchildren, especially when the children's parents are unable or unwilling to do so as a result of a lack of financial self-sufficiency, mental disorder, substance abuse, or incarceration. Grandparents may foster a child's healthy emotional and psychological development, and positively influence a child's well-being.

Your Committee further finds that the current version of section 571-46.3, Hawaii Revised Statutes, was held unconstitutional by the Hawaii Supreme Court in *Doe v. Doe*, 116 Haw. 323 (2007). The Supreme Court in *Doe* ruled that section 571-46.3, Hawaii Revised Statutes, was unconstitutional because it did not require the grandparent who was petitioning for visitation to show that the denial of visitation would cause significant harm to the child. This measure therefore cures the constitutional concerns of section 571-46.3, Hawaii Revised Statutes, and clarifies the Legislature's intent to recognize the special role grandparents play in the lives of children by allowing the court to award visitation to a grandparent if the court finds that denial of reasonable visitation rights would cause significant harm to the child.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 479 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 33 Agriculture and Environment on S.B. No. 759

The purpose and intent of this measure is to establish and appropriate funds for a two-year agricultural theft and vandalism pilot project to examine the effectiveness of prosecuting agricultural theft and agricultural vandalism in the County of Hawaii.

Your Committee received testimony in support of this measure from the Department of Agriculture; one member of the Hawai'i County Council; County of Hawai'i Office of the Prosecuting Attorney; Maui County Farm Bureau; Young Brothers, LLC; Hawai'i Farm Bureau; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Neighborhood Watch Hawaii Island; and four individuals. Your Committee received testimony in opposition to this measure from We Are One, Inc.

Your Committee finds that agricultural theft and vandalism in the County of Hawaii is not only an impediment to running a successful and profitable farming operation but can also prove harmful to consumers. It is hard to ensure product safety if stolen produce makes its way back to the consumer market. Agricultural vandalism and theft in the County of Hawaii includes theft of seasonal fruit, including coffee, avocados, lychee, rambutan, noni, and more. This vandalism and theft has resulted in economic hardships for farmers and their families.

Your Committee notes that the Department of Agriculture has entered into a two-year contract with the County of Hawai'i Office of the Prosecuting Attorney for one investigator to conduct agricultural theft and agricultural vandalism investigations. This has been a very valuable and productive project with the limited staff performing investigations and outreach with farmers, law enforcement, and at farmers' markets.

Your Committee finds that this pilot project will provide enforcement officers with the ability to concentrate on agricultural issues as the police department does not have the capacity to devote a police officer exclusively to investigate agricultural crimes. Approving this project will help protect Hawaii's agricultural industry, ensure the food safety of local products, support local farmers and growers, and allow farmers to focus on safe farming techniques and producing high quality products instead of focusing on the security of their crops.

Your Committee further finds that the County of Maui experiences similar theft and vandalism and should be included in the pilot project in partnership with the County of Hawaii to share the limited resources proposed in this measure.

Your Committee has amended this measure by:

- (1) Adding the County of Maui to the two-year agricultural theft and vandalism pilot project to partner with the Department of Agriculture and County of Hawaii to share the resources appropriated; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 759, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 759, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 34 Agriculture and Environment on S.B. No. 753

The purpose and intent of this measure is to appropriate funds for operational expenses to revitalize the aquaculture development program.

Your Committee received testimony in support of this measure from Department of Agriculture, Land Use Research Foundation of Hawai'i, Maui County Farm Bureau, Hawaii Aquaculture & Aquaponics Association, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawai'i Farm Bureau, and nine individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that the aquaculture development program played a large part in creating an industry that, starting from almost zero in the 1970s, now generates more than \$70,000,000 annually and was an innovative program that assisted prospective farmers, investors, and technology companies in many ways, including providing technical assistance, help with site selection and permitting, and product and services marketing. However, despite its success, the aquaculture development program has been reduced in staff and function and was folded into the Animal Industries Division of the Department of Agriculture. The aquaculture development program continues to be downsized due to a lack of funding.

Your Committee further finds that aquaculture is poised to make a significant contribution to the Governor's goal of doubling local food production. Dedicated funds will allow for investment in foundational infrastructure and research, including helping farmers use research-based knowledge, achieving greater benefits for the Hawaii economy, providing healthy seafood for local markets and export, generating jobs, complementing tourism, and maintaining rural communities.

Your Committee finds that appropriating \$500,000 to the Department of Agriculture for the purpose of revitalizing the aquaculture development program through, for example, increased staffing, information dissemination to the aquaculture industry, assistance with siting and permitting, and aquatic disease prevention services, is consistent with the purpose and intent of this measure.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$500,000 for fiscal year 2019-2020 and the same sum for fiscal year 2020-2021; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 753, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 753, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 35 Agriculture and Environment on S.B. No. 519

The purpose and intent of this measure is to require and appropriate funds for the Department of Agriculture to establish a food safety certification training program to help small and medium sized farms obtain Good Agricultural Practices certification.

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council, University of Hawai'i at Mānoa College of Tropical Agriculture and Human Resources, Hawaii Food Industry Association, Bayer, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, North Shore Economic Vitality Partnership, Hawaii Farm Bureau, Organizing for Action, Hawaii Agriculture Research Center, and five individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that small farms in Hawaii face many challenges, including the financial and administrative burden of meeting state and federal regulations. The establishment of a food safety certification training program will provide direct implementation assistance to small and medium sized farms to obtain a U.S. Department of Agriculture (USDA) Good Agricultural Practices (GAP) certification, which will help get more safe, local Hawaii produce in the hands of Hawaii consumers. USDA GAP certification confirms that a farm is committed to the highest standard of produce safety and freshness and is an important first step toward full compliance with the federal Food Safety and Modernization Act.

Your Committee recognizes that currently the cost of federal GAP certification is too high for many farmers, which is partly due to the fact that many farmers need to pay someone from the mainland to certify Hawaii farmers. This measure provides resources to train local certifiers and will help ensure that local businesses continue to modernize and follow national standards.

Your Committee additionally finds that the Department of Agriculture currently works in partnership with the University of Hawai'i College of Tropical Agriculture and Human Resources, which coaches and trains farmers to comply with federal regulations. Your Committee notes that the Department of Agriculture requests that the College of Tropical Agriculture and Human Resources implement this project and be the expending agency since the college currently performs similar work on a smaller scale.

Your Committee has amended this measure by:

- (1) Making the University of Hawai'i College of Tropical Agriculture and Human Resources the expending agency for the appropriation to implement a food safety certification training program; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 519, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 519, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 36 Agriculture and Environment on S.B. No. 223

The purpose and intent of this measure is to add positions to the Department of Agriculture's Agricultural Resource Management Division, direct funding to the East Kauai Water Users' Cooperative for the East Kauai irrigation system, and add funding to increase state irrigation system capacity statewide.

Your Committee received testimony in support of this measure from the Department of Agriculture; Larry Jefts Farms, LLC; Saiva Siddhanta Church; Kalepa Koalition; East Kauai Water Users' Cooperative; Hawai'i Farm Bureau; and one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the irrigation system in East Kauai has been operated by volunteer farmers for many years. The East Kauai Water Users' Cooperative (Cooperative) has managed the state-owned reservoir and ditch system in the Kapaa/Kalepa area for the past seventeen years under a year-to-year revocable permit from the Department of Land and Natural Resources (DLNR). In September 2016, the Cooperative was informed by DLNR that the Cooperative must obtain a long-term water lease within three years, which includes a costly Environmental Impact Statement that exceeds the Cooperative's monetary resources. Once the three-year ultimatum expires in early 2020, DLNR will no longer renew the irrigation system's revocable permit, the Cooperative will have to cease operations, and the irrigation system, including the recently renovated Wailua and Upper Kapahi reservoirs, will revert to DLNR control and possibly face abandonment.

Your Committee recognizes that there is a need for continued irrigation access, which also supports the State's goal of doubling local food production. Thus, your Committee finds that appropriating funds to the Department of Agriculture to add positions, support the East Kauai irrigation system, and increase irrigation system capacity statewide fulfills the need for continued irrigation access and related support.

Pursuant to testimony submitted by the Department of the Attorney General, your Committee has amended this measure by changing the funding lapse date from June 30, 2024, to June 30, 2022, to ensure that issued government obligation bonds lapse in three years in accord with the state constitution.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 223, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 223, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 37 Higher Education on S.B. No. 319

The purpose and intent of this measure is to appropriate or authorize funds or amend means of financing for various capital improvement projects of the University of Hawaii.

Your Committee received testimony in support of this measure from the University of Hawai'i System and one individual.

Your Committee finds that this measure expresses adjustments to the projects funded, maximum sums appropriated or authorized, or means of financing indicated for the University of Hawaii in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 319 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 38 Higher Education on S.B. No. 457

The purpose and intent of this measure is to:

- (1) Appropriate funds for a post-secondary distance learning center in the Puna district within Hawaii Community College; and
- (2) Require the University of Hawaii to submit a report on the Puna distance learning center to the Legislature.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Hawai'i.

Your Committee finds that a critical need exists to strengthen rural outreach, education, and economic development in Puna, one of the most underserved areas in the State and the fastest growing district on the island of Hawaii. Your Committee further finds that distance learning opportunities through the University of Hawaii System are currently providing valuable benefits to students throughout Hawaii, and distance learning has the potential to provide immeasurable benefits to residents in Puna.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 457 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 39 Higher Education on S.B. No. 907

The purpose and intent of this measure is to require the University of Hawaii to establish a free application day for prospective students who qualify for Hawaii resident tuition.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the University of Hawai'i System.

Your Committee finds that to remain competitive in the global economy, Hawaii students should be encouraged to pursue a post-secondary certificate or degree. However, many are discouraged from applying to post-secondary institutions because of the costs associated with application fees. This measure encourages students to submit at least one post-secondary application and file a Free Application for Federal Student Aid.

Your Committee has amended this measure by:

- Specifying that the free application day established by the University of Hawaii shall be a two-year pilot project, rather than an annual offering; and
- (2) Specifying that the University of Hawaii shall be responsible for selecting the day to offer the free application day.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 907, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 907, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 40 Hawaiian Affairs on S.B. No. 282

The purpose and intent of this measure is to appropriate funds for the Department of Hawaiian Home Lands.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, O'ahu Council of the Association of Hawaiian Civic Clubs, Kalamaula Homesteaders Association, Hawaii Homes Connection Corp., and six individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee finds that this measure provides a legislative vehicle should funding become available for the purposes of this measure prior to the end of the 2019-2021 fiscal biennium.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 282 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Keohokalole).

# SCRep. 41 Higher Education on S.B. No. 928

The purpose and intent of this measure is to propose an amendment to article X, section 6, of the Hawaii State Constitution to modify the appointment process for the Board of Regents of the University of Hawaii.

Your Committee did not receive any testimony on this measure.

Your Committee finds that it is appropriate to reassess and seriously consider making significant changes to the appointment process for the Board of Regents of the University of Hawaii to increase the Governor's ability to appoint qualified individuals to serve as Regents and effectively lead the University of Hawaii System. This measure will allow voters to consider whether the Candidate Advisory Council should no longer be constitutionally mandated and authorize the Governor to make appointments as provided by law.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 928 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 42 Higher Education on S.B. No. 671

The purpose and intent of this measure is to exempt students in post-secondary education programs from immunization requirements if they attend classes exclusively online or through distance learning.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Department of Health, Chaminade University of Honolulu, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from Hawaii For Informed Consent and one individual.

Your Committee finds that colleges and universities are increasing the number of courses and programs offered online. Because methods of educational delivery are changing, certain requirements that have been traditionally imposed on students, such as immunizations, may not always apply in the same manner as they do for traditional classroom instruction. Your Committee further finds that the Department of Health is currently proposing a rule change to exempt post-secondary students in online or distance-learning programs who do not attend classes in person from the current immunization requirements. However, the proposed rule change may not be adopted in time for the fall 2019 classes. This measure provides an exemption for those students immediately and without the proposed rule change by the Department of Health.

Your Committee has amended this measure by:

- (1) Making the exemption regarding immunization requirements permanent by deleting language that would have repealed this measure upon the adoption of amendments to the administrative rules by the Department of Health; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 671, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 671, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 43 Higher Education on S.B. No. 919

The purpose and intent of this measure is to amend the composition of the Board of Regents of the University of Hawaii by reducing the number of board members from fifteen members to seven members and shortening term lengths from five years to three years.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs.

Your Committee finds that the affairs of the University of Hawaii fall under the general management and control of the Board of Regents. The Board formulates policy and exercises control over the university through its executive officer, the President of the university, and has exclusive jurisdiction over the internal structure, management, and operation of the university. However, your Committee also finds that certain matters of the University of Hawaii are matters of statewide concern as contemplated under Article X, Section 6, of the Hawaii State Constitution.

Your Committee further finds that the University of Hawaii and the State are best served by reassessing and seriously considering making significant changes to the composition and responsibilities of the Board of Regents to ensure accountability and transparency for the university, its students, and the public.

Your Committee has amended this measure by:

- (1) Amending the composition of the Board of Regents of the University of Hawaii by:
  - (A) Increasing the number of board members from seven members to nine members;
  - (B) Removing the at-large member from the Board;
  - (C) Restoring the number of board members from the County of Hawaii to two members and specifying that, of the two members, one member shall be from east Hawaii and one member shall be from west Hawaii;
  - (D) Increasing the number of board members from the City and County of Honolulu from two members to four members, of which two members shall represent and reside in the first congressional district and the other two members shall represent and reside in the second congressional district; and
  - (E) Requiring that at least one member of the Board shall have demonstrated expertise in native Hawaiian traditional and customary practices;
- Requiring the Board of Regents to hold the President of the University of Hawaii and university administration accountable for decisions, actions, and leases that incur additional costs to the university;
- (3) Increasing the term length of board members from three years to four years;
- (4) Specifying that a member of the Board of Regents whose term has expired and continues to serve on the Board as a holdover member shall not serve as a member of the Board beyond the end of the first regular legislative session following the expiration of the member's term;
- (5) Specifying that no law or rule shall prohibit discussions between one or more members of the Board of Regents and members of the Legislature; and
- (6) Specifying that no member of the Board of Regents shall be required to seek permission prior to engaging in any discussions with members of the Legislature.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 919, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 919, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 44 (Majority) Agriculture and Environment on S.B. No. 451

The purpose and intent of this measure is to allow consumers to obtain unpasteurized milk through herdshare agreements, which are private contractual agreements.

Your Committee received testimony in support of this measure from Cloudwater Farm, LLC; and eight individuals. Your Committee received testimony in opposition to this measure from the Department of Health. Your Committee received comments on this measure from the Department of Agriculture and South Mountain Ranch LLC.

Your Committee finds that at least thirty-five states permit some form of sale or distribution of unpasteurized cow, sheep, or goat milk for human consumption, twelve of which permit the sale of unpasteurized milk in retail stores. Recently, demand for local products has increased, including the demand for locally-produced dairy products. Many small local farms have the capability and desire to offer unpasteurized dairy products to consumers that seek locally-produced, unpasteurized dairy products.

This measure prohibits consumers from selling unpasteurized milk or milk products obtained through a herdshare agreement and producers from publishing any statement pertaining to an endorsement by the Department of Health.

Your Committee heard testimony from the Department of Health on its adamant opposition to this measure from a public health standpoint. Your Committee further acknowledges that there is controversy surrounding the potential sale of raw milk as a business matter and its potential negative health effects. Nonetheless, your Committee finds that this measure should move forward for further discussion at this time.

Your Committee has amended this measure by adding the term "water buffalo" to the definition of a dairy animal to include unpasteurized water buffalo milk products in the subject of this measure.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 451, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 451, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Rhoads). Excused, none.

## SCRep. 45 Agriculture and Environment on S.B. No. 235

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Health.

Your Committee received testimony in support of this measure from the Department of Health, one member of the Hawai'i County Council, and Friends of Hanauma Bay.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Health in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 235 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 46 Agriculture and Environment on S.B. No. 375

The purpose and intent of this measure is to require the Department of Agriculture, in cooperation with the Office of the Governor, to develop a strategic plan to achieve the Governor's goal of doubling food production and increasing food exports by 2020.

Your Committee received testimony in support of this measure from the Department of Agriculture; University of Hawai'i at Mānoa College of Tropical Agriculture and Human Resources; North Shore Economic Vitality Partnership; Bee Kind Apiary, LLC; We Are One, Inc.; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Hawaii Organic Farming Association; Hawai'i Farm Bureau; Organizing for Action; and fourteen individuals. Your Committee received testimony in opposition to this measure from one member of the Hawai'i County Council.

Your Committee finds that Hawaii imports upwards of eighty-five percent of the food it consumes. Your Committee also finds that replacing just ten percent of the food Hawaii currently imports would retain approximately \$313,000,000 in the State and generate more than two thousand three hundred jobs.

Your Committee further finds that the Governor's deadline of doubling local food production by 2020 is quickly approaching. However, details on how to achieve this objective have yet to be identified. Issues such as preserving agricultural land, identifying food crops for local production, improving irrigation and agricultural infrastructure, and complying with the federal Food Safety and Modernization Act, need to be addressed in order to double local food production.

Your Committee heard testimony in opposition to this measure that highlights 2020 as too soon a deadline by which to double local food production. Your Committee agrees and, hence, finds that a deadline of 2030 for the purposes of this measure is more achievable.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$500,000 for fiscal year 2019-2020;
- (2) Changing the deadline for the goal of doubling local food production from 2020 to 2030;
- (3) Updating the purpose Section accordingly; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 375, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 375, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 47 Agriculture and Environment on S.B. No. 760

The purpose and intent of this measure is to amend the important agricultural land qualified agricultural cost tax credit to include as "qualified agricultural costs" measures to improve, enhance, and restore former plantation lands for agricultural use.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i Farm Bureau, Hawaii Agriculture Research Center, and three individuals. Your Committee received comments on this measure from the Department of Taxation, Department of Agriculture, and Office of Planning.

Your Committee finds that Act 183, Session Laws of Hawaii 2005, provided for the designation of important agricultural lands and directed the Department of Agriculture to develop a program of incentives to promote agricultural viability. The incentives program developed for important agricultural lands included a tax credit for "qualified agricultural costs" such as costs incurred for feasibility studies, plans, and design of facilities and infrastructure, equipment for agricultural purposes, and regulatory processing and consulting services. However, this incentive program did not include any incentive for the conservation and protection of agricultural lands. This measure would expand the eligible costs for the important agricultural land qualified agricultural cost tax credit to include expenditures to improve, enhance, and restore former plantation lands used primarily for agricultural purposes.

Your Committee has amended this measure by specifying that the important agricultural land qualified agricultural cost tax credit shall apply only to former plantation lands that were used solely for agricultural uses and activities.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 760, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 760, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 48 Government Operations on S.B. No. 141

The purpose and intent of this measure is to:

- Specify that disclosure of communications by an agency to the Ombudsman does not waive any existing attorney-client or attorney work-product privilege pertaining to those communications; and
- (2) Prohibit the Ombudsman from disclosing privileged communications to others.

Your Committee received testimony in support of this measure from the Office of the Ombudsman.

Your Committee finds that under existing law, the Ombudsman is authorized to receive information relating to an investigation and is required to maintain secrecy of all matters obtained in an investigation. However, agencies have declined to provide information to the Ombudsman for fear of waiving the agencies' attorney-client privilege or attorney work-product privilege. Without the ability to obtain all relevant information from the agencies, the Ombudsman is unable to conduct a thorough investigation. This measure allows agencies to freely disclose information to the ombudsman without waiving the agencies' attorney-client privilege and attorney work-product privilege, which will enable the Office of the Ombudsman to obtain information necessary to conduct thorough and complex investigations and give agencies the peace of mind that the Ombudsman will not disclose any privileged communications.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 141 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 49 Energy, Economic Development, and Tourism on S.B. No. 33

The purpose and intent of this measure is to amend the law relating to economic development.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to repeal the annual \$35,000,000 rolling cap for the motion picture, digital media, and film production income tax credit.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 33, as amended herein, and recommends that it be recommitted to your Committee on Energy, Economic Development, and Tourism, in the form attached hereto as S.B. No. 33, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 50 Technology on S.B. No. 219

The purpose and intent of this measure is to require the Chief Information Officer, in conjunction with the Information Technology Steering Committee, to review, refresh, and submit the State Information Technology Strategic Plan every four years.

Your Committee received testimony in support of this measure from the Department of Education, Office of Enterprise Technology Services, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and Transform Hawai'i Government.

Your Committee finds that periodic updates to the State Information Technology Strategic Plan are vital to keeping abreast with ever-evolving technology and to fully maximizing available modern resources to increase effectiveness, efficiency, and transparency in state government. This measure requires such an update to occur every four years.

As affirmed by the record of votes of the members of your Committee on Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 219 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

# SCRep. 51 Agriculture and Environment on S.B. No. 1151

The purpose and intent of this measure is to increase the amount of state funds that the Chairperson of the Board of Agriculture may approve for any agricultural and aquacultural loan applicant.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Farm Bureau, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and Hawaii Cattlemen's Council.

Your Committee finds that the current agricultural and aquacultural loan cap of \$25,000 has not been updated since the 1980s. Your Committee recognizes that business costs have increased since then.

Your Committee further finds that this measure would provide greater assistance to farmers through the availability of state loans of up to \$100,000. Your Committee also notes that the Department of Agriculture has indicated this measure will enable the Department to respond more quickly to assist applicants during times of emergency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1151 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

#### SCRep. 52 Agriculture and Environment on S.B. No. 1242

The purpose and intent of this measure is to update the Department of Health's solid waste management goals to align with the Aloha+ Challenge goal to reduce total solid waste prior to disposal by seventy percent by 2030.

Your Committee received testimony in support of this measure from the Department of Health, City and County of Honolulu Department of Environmental Services, Sierra Club of Hawai'i, and the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that updating the State's total solid waste goals to comport with the Aloha+ Challenge goals supports best management practices for sustainability and protecting the environment. Your Committee further finds that reducing total solid waste prior to disposal helps restore, preserve, and protect Hawaii's native ecosystems today and for many generations to come.

Your Committee has amended this measure by:

- (1) Adding 2030 as the date by which the State should reduce its total solid waste prior to disposal by seventy percent; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1242, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1242, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

## SCRep. 53 Agriculture and Environment on S.B. No. 234

The purpose and intent of this measure is to appropriate or authorize funds or amend means of financing for various capital improvement projects of the Department of Health.

Your Committee received testimony in support of this measure from the Department of Health, one member of the Hawai'i County Council, and the City and County of Honolulu Board of Water Supply.

Your Committee finds that this measure expresses adjustments to the projects funded, maximum sums appropriated or authorized, or means of financing indicated for the Department of Health in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

Your Committee has amended this measure by changing references to the "safe drinking water revolving fund" to the "drinking water treatment revolving loan fund" in sections 3 and 4.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 234, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 234, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

## SCRep. 54 Agriculture and Environment on S.B. No. 651

The purpose and intent of this measure is to expand opportunities for certain entities, including farmers, to obtain investment capital for their operations and be eligible for a non-agricultural park lease by:

- (1) Inserting a definition of "bona fide farmer" that applies to the non-agricultural park lands program; and
- (2) Exempting individual members, trustees, officers, and stockholders of certain entities from the required individual qualifications of a "bona fide farmer".

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council, Hawai'i Farm Bureau, Hawaii Aquaculture & Aquaponics Association, Ponoholo Ranch Limited, and three individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that the Department of Agriculture's non-agricultural park lands program supports new and bona fide farmers, among others, who are generally farmers engaged in diversified agriculture on smaller parcels, in gaining a foothold in the agricultural industry. However, these technologies often require high investments of capital that farmers are often unable to access alone. By partnering with investors or establishing partnerships with others who have access to capital, farmers may be able to invest in these technologies and other capital necessary to establish and grow their businesses.

Your Committee further finds that this measure allows for some investors, such as members of agricultural cooperatives, to invest in local food production and technology by expanding the definition of a "bona fide farmer". However, your Committee expressed concerns that this measure, as written, could create loopholes to allow corporations, some of which have no members who meet certain qualifications regarding farming, to qualify for non-agricultural park leases.

In order to ensure that this measure does not have unintended consequences, your Committee has amended this measure by:

- (1) Deleting language that proposed a new definition of "bona fide farmer" to apply to the non-agricultural park lands program;
- (2) Deleting language that would have exempted individual members, trustees, officers, and stockholders of certain entities from the required individual qualifications of a "bona fide farmer";
- (3) Inserting language to allow the Board of Agriculture to decide on a case-by-case basis the eligibility of an entity seeking a non-agricultural park lease to construct and operate an agricultural or aquacultural facility requiring more than \$500,000 in acquisition costs;
- (4) Establishing certain conditions and qualifications that must be met in order for the Board of Agriculture to deem the entity eligible for a lease; and
- (5) Adding a sunset date of June 30, 2024; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 651, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 651, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

#### SCRep. 55 Agriculture and Environment on S.B. No. 1149

The purpose and intent of this measure is to appropriate funds to establish a pilot program to identify efficient foreign agriculture small equipment and retrofit engines to comply with Environmental Protection Agency standard regulations.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Crop Improvement Association, Land Use Research Foundation of Hawaii, Maui County Farm Bureau, Hawaii Farm Bureau, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiii, Ulupono Initiative, Hawaii Floriculture and Nursery Association, and seven individuals.

Your Committee finds that as the demand for unskilled labor increases, farmers and ranchers continue to search for alternative ways to operate their farms through technology, such as small equipment tractors from Japan. According to the United States Environmental Protection Agency, small equipment engines from foreign countries like Japan do not comply with standard regulations.

Your Committee further finds that appropriating funds to establish a pilot program to identify efficient foreign agricultural small equipment and retrofit engines to comply with Environmental Protection Agency standard regulations can aid local farmers and ranchers identify and import advantageous small equipment.

Your Committee has amended this measure by inserting an appropriation amount of \$500,000 for the pilot program.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1149, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1149, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

# SCRep. 56 Agriculture and Environment on S.B. No. 837

The purpose and intent of this measure is to encourage and support the growth of new, small, and diversified farming businesses by creating an exclusion from income tax for the lesser of fifty-one percent or \$50,000 of gross annual income earned for such businesses.

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council; Hawaii Coffee Association; We Are One, Inc.; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Hawai'i Farm Bureau; and six individuals. Your Committee received comments on this measure from Department of Taxation, Department of Agriculture, and the Tax Foundation of Hawaii.

Your Committee finds that Hawaii imports far more goods and services than it exports. Your Committee additionally notes that the growth of small, diversified farming businesses will add to and diversify Hawaii's economy and encourage more local food production. A partial tax exclusion for such businesses will not significantly affect existing tax revenue collected by the State but will strengthen the State's economy and improve the long-term economic well-being of the State as a whole.

Your Committee further finds that by creating an exclusion from income tax for the lesser of fifty-one percent or \$50,000 of gross annual income earned for such businesses, this measure will help Hawaii address the imbalance in agricultural trade and significantly expand food production in the State.

Your Committee has amended this measure by:

- (1) Improving and tightening the definition of a "farmer" and adding a definition of "farm products", as recommended by the Department of Agriculture;
- (2) Postponing its application to taxable years after December 31, 2019, as recommended by the Department of Taxation; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 837, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 837, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 57 Agriculture and Environment on S.B. No. 1150

The purpose and intent of this measure is to appropriate funds to the Department of Agriculture in its efforts to reduce the population of feral pigs.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, Agribusiness Development Corporation, Hawaii Crop Improvement Association, Land Use Research Foundation of Hawaii, Hawaii Cattlemen's Council, Maui County Farm Bureau, Hawaii Farm Bureau, and nine individuals.

Your Committee finds that the feral pig population has been particularly damaging on farms and ranches statewide, where their numbers have been growing exponentially. Your Committee also notes that feral pigs pose a significant threat to local economies by destroying agricultural crops and livestock, damaging Hawaii's ecology by invasive seed dispersal and competition with native wildlife, and posing a threat to human health and safety.

Your Committee further finds that appropriating funds to the Department of Agriculture to provide grants for fencing and corral traps, and to introduce a program to reduce feral pig populations, will help protect the land and agricultural communities.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$1,000,000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1150, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1150, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 58 Human Services on S.B. No. 574

The purpose and intent of this measure is to establish that every judgment for child support is enforceable until paid in full.

Your Committee did not receive any testimony on this measure.

Your Committee finds that existing law allows people who owe child support to be absolved of their obligation once the child turns thirty-three or ten years after a judgment for the child support was rendered, whatever date is later. As such, existing law allows the judgment for child support to be presumed paid or discharged after a certain period of time. This measure therefore establishes that every judgment for child support is enforceable until paid in full, which will ensure that people are not able to evade their child support obligations merely by the passage of time.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 574 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

## SCRep. 59 (Majority) Education on S.B. No. 340

The purpose and intent of this measure is to amend the Board of Education's membership by inviting the exclusive representative for bargaining unit (5) to appoint a nonvoting public school teacher representative to the Board.

Your Committee received testimony in support of this measure from Hawai'i Teacher Standards Board, Hawaii State Teachers Association, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual. Your Committee received testimony in opposition to this measure from the League of Women Voters of Hawaii.

Your Committee finds that the Board of Education, consisting of nine members and none of whom are required to be public school teachers, is given the power to formulate statewide educational policy. As such, the appointment of a current public school teacher, as a nonvoting member, to the Board will provide first-hand experience and expertise on the educational climate in Hawaii's public schools and explain the resources teachers need to help Hawaii's students. Additionally, this measure provides the Board with insight into current and proposed educational practices and policies and the effects of those practices and policies on teachers, students, and the community.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 340 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, 1 (Kim). Excused, none.

#### SCRep. 60 Education on S.B. No. 37

The purpose and intent of this measure is to amend the law relating to public libraries.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language that appropriates funds for operating expenses of the Hawaii State Public Library System.

Your Committee received testimony in support of the proposed S.D. 1 from the Hawaii State Public Library System.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 37, as amended herein, and recommends that it be recommitted to your Committee on Education, in the form attached hereto as S.B. No. 37, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

# SCRep. 61 Education on S.B. No. 338

The purpose and intent of this measure is to appropriate funds for capital improvement projects for Mililani Middle School.

Your Committee received testimony in support of this measure from the Department of Education and one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that many of the public school facilities in the State are in need of repair or renovation. This measure appropriates funds for capital improvement projects at Mililani Middle School for plans, design, construction, and equipment for various projects, including the widening of campus-wide sidewalks, waterproofing a covered play court wall, making building F drainage improvements, replacing flooring in portable classrooms one to four, and resurfacing a bus lane and campus access road.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 338 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 62 Education on S.B. No. 1128

The purpose and intent of this measure is to appropriate funds for a capital improvement project for Leilehua High School.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that many of the public school facilities in the State are in need of repair or renovation. This measure appropriates funds for a capital improvement project at Leilehua High School for the stadium and football field, including the stadium field turf and synthetic track surface, restrooms, concession stands, and announcer booth; ground and site improvements; and equipment and appurtenances.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1128 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 63 Education on S.B. No. 339

The purpose and intent of this measure is to appropriate funds for capital improvement projects for Waipahu High School.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that many of the public school facilities in the State are in need of repair or renovation. This measure appropriates funds for capital improvement projects at Waipahu High School for the construction of a new integrated academic classroom building, a campus-wide re-keying project, and phase two of Waipahu High School campus painting.

Your Committee has amended this measure by:

- (1) Increasing the appropriation amount for fiscal year 2019-2020 from \$4,500,000 to \$5,500,000 for phase one of the new integrated academic classroom building project;
- (2) Decreasing the appropriation amount for fiscal year 2019-2020 from \$15,500,000 to \$14,500,000 for phase two of the new integrated academic classroom building project; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 339, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 339, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 64 Education on S.B. No. 592

The purpose and intent of this measure is to limit the State Librarian's salary to ninety percent of the Superintendent of Education's salary.

Your Committee received testimony in support of this measure from the Board of Education.

Your Committee finds that existing law authorizes the Board of Education to set the salary of the State Librarian as long as the salary does not exceed a specific amount. The State Librarian's current salary cap is \$120,000 per year, which was last updated in 2001. Your Committee further finds that in order to promote greater equity, the salary of the State Librarian should be capped based on a percentage of the salary of the Superintendent of Education, who, like the State Librarian, falls under the purview of the Board of Education

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 592 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 65 Education on S.B. No. 78

The purpose and intent of this measure is to require and appropriate funds for the Department of Education to contract with a firm that specializes in school finance to study the adequacy of education funding in Hawaii.

Your Committee received testimony in support of this measure from the Department of Education and Hawaii State Teachers Association.

Your Committee finds that adequate funding is crucial to providing each of Hawaii's children with a high-quality educational opportunity. Yet, some studies found that education funding in Hawaii may be lagging in comparison to districts of similar size and cost of living. Insufficient education funding results in higher class sizes, a lack of adequate classroom supplies, elimination of arts and career and technical education courses, budget cuts for special education and English language learner programs, and an increasing number of vacant teacher positions. This measure will help provide a better understanding of the amount of funding necessary to support student learning in order to prepare children to meet the social and economic demands of the twenty-first century.

Your Committee has amended this measure by:

- Providing the Department of Education additional time to submit a copy of the study, as well as a report of its findings and recommendations, to the Legislature by extending the due date to twenty days prior to the convening of the Regular Session of 2021; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 78, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 78, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 66 Education on S.B. No. 283

The purpose and intent of this measure is to appropriate funds for the Department of Education.

Your Committee received comments on this measure from the Department of Education and one individual.

Your Committee finds that this measure provides a legislative vehicle should funding become available for the purposes of this measure prior to the end of the 2019-2021 fiscal biennium.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 283 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 67 Education on S.B. No. 376

The purpose and intent of this measure is to allow students to enroll in career and technical education programs in schools outside the Department of Education service area in which the student resides.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that educational programs specializing in career readiness and technical skills can be effective in preparing students in Hawaii to enter the State's job market. Educational initiatives at schools within the State have been established to develop students' technical skills and prepare them to enter the workforce. However, not all schools offer the same career and technical skills education and there is currently no easy mechanism to allow a student access to these educational opportunities outside of the service area in which they reside. This measure increases access to these programs to ensure that students may gain the necessary skills and experiences that employers in the State are seeking.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 376 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 68 Education on S.B. No. 84

The purpose and intent of this measure is to appropriate funds for a Board of Education Analyst II.

Your Committee received testimony in support of this measure from the Board of Education.

Your Committee finds that the Board of Education's current support office consists of three permanent positions and one temporary position. Over the past few years, the duties of the Board's support office have increased along with the Board's initiatives, including evening meetings, processes to improve transparency and accessibility, a more comprehensive evaluation of the Superintendent of Education, and initiatives to implement a system for multiple charter school authorizers. As a result, there is a need for a position requiring data and evaluation expertise. This measure provides the Board's support office with the capacity and expertise to adequately support the Board in its current and planned endeavors.

Your Committee has amended this measure by specifying an appropriation amount of \$90,398 for fiscal year 2020-2021 for the one full-time equivalent position (1.0 FTE) for a Board of Education Analyst II.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 84, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 84, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 69 Higher Education on S.B. No. 44

The purpose and intent of this measure is to amend the law relating to higher education.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language that:

- Specifies that the Attorney General shall represent the University of Hawaii in any litigation, render legal counsel to the university, and draft legal documents for the university;
- (2) Repeals the authority of the Board of Regents of the University of Hawaii to appoint or retain general counsel independent of the Attorney General to provide legal services for the university;
- (3) Repeals the general counsel of the University of Hawaii; and

(4) Appropriates funds to the Department of the Attorney General.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 44, as amended herein, and recommends that it be recommitted to your Committee on Higher Education, in the form attached hereto as S.B. No. 44, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 70 Agriculture and Environment on S.B. No. 1306

The purpose and intent of this measure is to appropriate funds to the Agribusiness Development Corporation for the purpose of purchasing a Kunia Dow DuPont Pioneer Land parcel.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation, Hawai'i Farm Bureau, and Hawaii Agriculture Research Center.

Your Committee finds that Kunia Dow DuPont Pioneer Land: tax map key number (1)9-2-001:por11 encompasses 282 acres on Oahu and has existing facilities that can be repurposed, a baseyard, and greenhouse infrastructure. Your Committee further finds that this parcel, if acquired by the Agribusiness Development Corporation, will have multiple purposes, which may include Department of Agriculture animal and plant industry activities, research and development projects, and commercial agriculture.

Your Committee also notes that land availability and long-term leases at affordable and predictable lease rental rates are critical to the economic viability of Hawaii's agriculture industry. Accordingly, your Committee finds that this acquisition of prime agricultural land in Kunia will increase the agricultural land available for the State to provide farmers with long-term leases at affordable and predictable rates that will enhance Hawaii's agricultural industry.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1306 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 71 (Majority) Agriculture and Environment on S.B. No. 869

The purpose and intent of this measure is to require the Department of Agriculture to inspect and certify all Hawaii-grown green coffee beans in shipments of 100 pounds or less for grade and origin to ensure the quality and source of the coffee beans and help prevent fraud.

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council; Hawaii Coffee Association; Greenwell Farms, Inc.; Hawai'i Farm Bureau; Hawaii Coffee Growers Association; and two individuals. Your Committee received testimony in opposition to this measure from one member of the Hawai'i County Council; Sugai Kona Coffee; Paradise Meadows Orchard & Bee Farm; Kona Coffee Council; Darden Young Farm, LLC; Carta Coffee Merchants; Mokulele Farms; Cornwell Coffee; Kona Premium Coffee Company; Buddha's Sanctuary, LLC; Hala Tree Coffee; Maika'i Kona Coffee Co. Ltd., dba Holualoa Coffee; Bea's Knees Farm; Kona Coffee Farmers Association; Mauna Mama Kona Coffee; Kona Lisa Coffee; Lava Rock Farm; Rusty's Hawaiian Coffee; HKCC, LLC; Konaloha Farms; Donkey Mill Art Center; Keei Mauka Coffee; Absolute Palate, LLC; Sunshower Farms; and forty-two individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that some companies falsely claim that one-hundred percent of their coffee beans are grown in Hawaii. This measure helps to ensure the grade and origin of green coffee beans by requiring the Department of Agriculture to inspect and certify green coffee beans grown in Hawaii. However, your Committee notes that this inspection and certification requirement is cost-prohibitive for many small farmers and coffee businesses and could potentially lead to bankruptcy for some small farmers and businesses.

Your Committee notes the Department of Agriculture's testimony that this measure is unclear whether Hawaii-grown green coffee beans weighing 100 pounds or less that are not shipped are required to be certified and that it will be difficult for the Department to determine, during the certification process, which coffee beans will be shipped out of the district of origin. The Department testified further the increased volume of inspections will require additional staffing and office space to assist the Department's two employees in its small Kona office, where coffee needs to be roasted and tested.

Your Committee further finds that there currently is controversy between many bigger and smaller coffee growers in the State regarding this measure. Most smaller farmers expressed opposition to this matter, while bigger businesses supported this measure. Your Committee requests the Hawaii Coffee Association to reach out to smaller farmers to attempt to unify the voice of farmers regarding this measure going forward.

Your Committee has amended this measure by:

- (1) Making the inspection fees on a per pound basis;
- (2) Limiting the requirement for inspection and certification to Hawaii-grown green coffee beans that are shipped out of the district of origin and deleting language allowing exceptions specified by rules of the Department of Agriculture; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 869, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 869, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, 2 (Ruderman, Fevella). Excused, none.

#### SCRep. 72 Agriculture and Environment on S.B. No. 1148

The purpose and intent of this measure is to appropriate funds to financially support the local farmers and ranchers who have experienced losses caused by disasters through grants and loans.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency, County of Hawai'i Department of Research and Development, University of Hawai'i at Mānoa College of Tropical Agriculture and Human Resources, Hawaii Crop Improvement Association, Hawaii Coffee Association, Maui Farmers Union United, Hawaii Floriculture and Nursery Association, Hawaii Cattlemen's Council, Land Use Research Foundation of Hawaii, Maui County Farm Bureau, Hawaii'i Farm Bureau, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii'i, Local Food Coalition, Synergistic Hawaii Agriculture Council, Hawaii Farmers Union, Kapoho Land Partnership, and thirty-six individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that farmers and ranchers are vulnerable to natural disasters, and farmers and ranchers throughout the State directly suffered millions in damages due to extreme weather in 2018. Your Committee further finds that dedicated funding for agricultural disasters will help local farmers and ranchers recover from natural disaster emergencies. Your Committee recommends that farmers and ranchers who were directly impacted by a disaster and remain in the immediate vicinity of where the disaster occurred, should receive a preference on their loan application under this program.

Your Committee agrees with the Department of Agriculture that this disaster funding should be routed to its existing agricultural loan program instead of creating a new disaster program, as staffing and rules for providing loans to farmers and ranchers during emergencies already exists in the agricultural loan program.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$5,000,000;
- (2) Directing the appropriation into and out of the agricultural loan revolving fund to provide loans pursuant to the agricultural loan program; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1148, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1148, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

# SCRep. 73 Agriculture and Environment on S.B. No. 1324

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for a capital improvement project of the Agribusiness Development Corporation at the Christian Crossing Bridge.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation, East Kauai Water Users Cooperative, and Kalepa Koalition.

Your Committee finds that the Christian Crossing Bridge is located in Kalepa, Kauai, and is a critical part of the emergency route connecting Lihue with the north shore of Kauai. The area is prone to flooding, and the bridge was inundated with water several times in the past year, causing erosion and structural damage. Your Committee finds that this measure will provide the financing necessary to repair and strengthen the bridge and supporting structures to mitigate any future flooding effects.

Your Committee recommends that the engineers working on the Christian Crossing Bridge pursuant to this measure also study and make recommendations regarding reinforcing the North Fork crossing.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1324 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 74 Higher Education on S.B. No. 314

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the University of Hawaii.

Your Committee received testimony in support of this measure from the University of Hawai'i System and ILWU Local 142.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the University of Hawaii in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 314 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 75 Higher Education on S.B. No. 273

The purpose and intent of this measure is to appropriate funds for the University of Hawaii.

Your Committee did not receive any testimony on this measure.

Your Committee finds that this measure provides a legislative vehicle should funding become available for the purposes of this measure prior to the end of the 2019-2021 fiscal biennium.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 273 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 76 Higher Education on S.B. No. 316

The purpose and intent of this measure is to appropriate funds to the University of Hawaii for additional funding for the Hawaii promise program for four-year institutions.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Department of Education, Kamehameha Schools, and one individual.

Your Committee finds that the Hawaii promise program provides financial assistance to students with financial need, as determined by the student's Free Application for Federal Student Aid, to meet the cost of tuition, fees, books, and transportation. However, the Hawaii promise program is only available to students at the University of Hawaii community colleges. This measure expands the Hawaii promise program to qualified students at four-year institutions, which will significantly enhance the number of economically disadvantaged students who can attend and graduate from the University of Hawaii.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount for additional funds for the Hawaii promise program for four-year institutions; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 316, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 316, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 77 Labor, Culture and the Arts on S.B. No. 1194

The purpose and intent of this measure is to provide appropriations for collective bargaining cost items for the members of collective bargaining unit (4) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2019-2021.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Hawaii Government Employees Association, and Hawaii Health Systems Corporation.

Your Committee finds that negotiations for collective bargaining unit (4) agreements are currently in progress. This measure provides a legislative vehicle to appropriate funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1194, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1194, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

# SCRep. 78 Labor, Culture and the Arts on S.B. No. 1195

The purpose and intent of this measure is to provide appropriations for collective bargaining cost items for the members of collective bargaining unit (5) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2019-2021.

Your Committee did not receive any testimony on this measure.

Your Committee finds that negotiations for collective bargaining unit (5) agreements are currently in progress. This measure provides a legislative vehicle to appropriate funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1195, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1195, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

#### SCRep. 79 Labor, Culture and the Arts on S.B. No. 1196

The purpose and intent of this measure is to provide appropriations for collective bargaining cost items for the members of collective bargaining unit (6) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2019-2021.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association.

Your Committee finds that negotiations for collective bargaining unit (6) agreements are currently in progress. This measure provides a legislative vehicle to appropriate funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1196, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1196, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

#### SCRep. 80 Labor, Culture and the Arts on S.B. No. 1197

The purpose and intent of this measure is to provide appropriations for collective bargaining cost items for the members of collective bargaining unit (7) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2019-2021.

Your Committee received testimony in support of this measure from the University of Hawai'i System and University of Hawaii Professional Assembly.

Your Committee finds that negotiations for collective bargaining unit (7) agreements are currently in progress. This measure provides a legislative vehicle to appropriate funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1197, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1197, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

# SCRep. 81 Labor, Culture and the Arts on S.B. No. 1198

The purpose and intent of this measure is to provide appropriations for collective bargaining cost items for the members of collective bargaining unit (8) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2019-2021.

Your Committee received testimony in support of this measure from the University of Hawai'i System and Hawaii Government Employees Association.

Your Committee finds that negotiations for collective bargaining unit (8) agreements are currently in progress. This measure provides a legislative vehicle to appropriate funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1198, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1198, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

#### SCRep. 82 Labor, Culture and the Arts on S.B. No. 1191

The purpose and intent of this measure is to provide appropriations for collective bargaining cost items for the members of collective bargaining unit (1) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2019-2021.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, University of Hawai'i System, and Hawaii Health Systems Corporation.

Your Committee finds that negotiations for collective bargaining unit (1) agreements are currently in progress. This measure provides a legislative vehicle to appropriate funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1191, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1191, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

#### SCRep. 83 Labor, Culture and the Arts on S.B. No. 1192

The purpose and intent of this measure is to provide appropriations for collective bargaining cost items for the members of collective bargaining unit (2) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2019-2021.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Hawaii Government Employees Association, and Hawaii Health Systems Corporation.

Your Committee finds that negotiations for collective bargaining unit (2) agreements are currently in progress. This measure provides a legislative vehicle to appropriate funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1192, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1192, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

# SCRep. 84 Labor, Culture and the Arts on S.B. No. 1193

The purpose and intent of this measure is to provide appropriations for collective bargaining cost items for the members of collective bargaining unit (3) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2019-2021.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Hawaii Government Employees Association, and Hawaii Health Systems Corporation.

Your Committee finds that negotiations for collective bargaining unit (3) agreements are currently in progress. This measure provides a legislative vehicle to appropriate funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1193, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1193, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

#### SCRep. 85 Labor, Culture and the Arts on S.B. No. 1199

The purpose and intent of this measure is to provide appropriations for collective bargaining cost items for the members of collective bargaining unit (9) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2019-2021.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Hawaii Government Employees Association, and Hawaii Health Systems Corporation.

Your Committee finds that negotiations for collective bargaining unit (9) agreements are currently in progress. This measure provides a legislative vehicle to appropriate funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1199, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1199, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

#### SCRep. 86 Labor, Culture and the Arts on S.B. No. 1200

The purpose and intent of this measure is to provide appropriations for collective bargaining cost items for the members of collective bargaining unit (10) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2019-2021.

Your Committee received testimony in support of this measure from the University of Hawai'i System and Hawaii Health Systems Corporation.

Your Committee finds that negotiations for collective bargaining unit (10) agreements are currently in progress. This measure provides a legislative vehicle to appropriate funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1200, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1200, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

#### SCRep. 87 Labor, Culture and the Arts on S.B. No. 1201

The purpose and intent of this measure is to provide appropriations for collective bargaining cost items for the members of collective bargaining unit (11) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2019-2021.

Your Committee did not receive any testimony on this measure.

Your Committee finds that negotiations for collective bargaining unit (11) agreements are currently in progress. This measure provides a legislative vehicle to appropriate funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1201, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1201, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

## SCRep. 88 Labor, Culture and the Arts on S.B. No. 1202

The purpose and intent of this measure is to provide appropriations for collective bargaining cost items for the members of collective bargaining unit (13) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2019-2021.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association and Hawaii Health Systems Corporation.

Your Committee finds that negotiations for collective bargaining unit (13) agreements are currently in progress. This measure provides a legislative vehicle to appropriate funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1202, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1202, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

#### SCRep. 89 Labor, Culture and the Arts on S.B. No. 1203

The purpose and intent of this measure is to provide appropriations for collective bargaining cost items for the members of collective bargaining unit (14) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2019-2021.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association.

Your Committee finds that negotiations for collective bargaining unit (14) agreements are currently in progress. This measure provides a legislative vehicle to appropriate funds if an agreement is reached or an arbitration award is issued prior to the end of the 2019 Regular Session.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1203, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1203, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

#### SCRep. 90 Judiciary on S.B. No. 130

The purpose and intent of this measure is to appropriate funds for the Judiciary to purchase civil legal services for low and moderate income persons.

Your Committee received testimony in support of this measure from the Judiciary, Department of Human Services, Volunteer Legal Services Hawaii, Domestic Violence Action Center, Legal Aid Society of Hawaii, and seven individuals.

Your Committee finds that legal services are often prohibitively expensive for low and moderate income persons. Your Committee further finds that a number of non-profit and volunteer organizations exist to provide quality legal services to persons who require services but lack the resources to pay for them. Your Committee additionally finds that, although these organizations generally function on a volunteer basis, they still require funding for operating costs and other expenses. This measure will support these organizations by providing legal services to those in need.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 130 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Gabbard).

# SCRep. 91 Hawaiian Affairs on S.B. No. 874

The purpose and intent of this measure is to:

- (1) Authorize the construction and use of micro housing units on Hawaiian homelands, notwithstanding county zoning laws, to be leased to native Hawaiians;
- (2) Authorize the use of the Hawaiian Home Loan Fund and Hawaiian Home General Loan Fund to assist native Hawaiians in purchasing or leasing micro housing units on Hawaiian homelands; and
- (3) Appropriate funds for the Department of Hawaiian Home Lands to construct micro housing units, subject to certain conditions, and build general organizational capacity of Native Hawaiian-controlled nonprofit housing developers.

Your Committee received testimony in support of this measure from the Council for Native Hawaiian Advancement, Kalamaula Homesteaders Association, Hawaiian Community Assets, Hawaiian Community Development Board, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and four individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies and one individual. Your Committee received comments on this measure from the Department of the Attorney General and Department of Hawaiian Home Lands.

Your Committee finds that the current waitlist for Hawaiian homelands leases has over twenty thousand applicants and applicants often wait years before receiving a lease offer. However, your Committee further finds since many of the lots offered to applicants do not include dwelling units, waitlist applicants, faced with the obstacles of financing and building new construction, often decline lease offers. Micro housing units allow the Department of Hawaiian Home Lands to respond to the needs of waitlist applicants and offer more lease lots with pre-existing dwellings.

Your Committee has amended this measure by:

- (1) Removing language granting the Department of Hawaiian Home Lands the authority to build micro housing units on Hawaiian homelands in recognition that the Hawaiian Homes Commission Act already establishes this authority;
- (2) Removing Hawaiian blood quantum requirements for purposes of clarity, as beneficiaries of the Hawaiian Homes Commission Act must already meet applicable blood quantum requirements to hold a homestead lease;
- (3) Utilizing the Department of Hawaiian Home Lands' vacancy savings, rather than the general fund, to fund the appropriations;
- (4) Expanding the pool of Native Hawaiian-controlled nonprofit housing developers eligible to receive funds to build general organization capacity by removing eligibility limitations based on past experience and the makeup of the nonprofit's board of directors to focus instead on developers' demonstrated commitment to developing housing units on Hawaiian homelands; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes concerns raised by the Attorney General that changing the appropriation funding source from the general fund to department vacancy savings may present a separation of powers concern. Your Committee respectfully requests your Committee on Ways and Means to consider funding from the Department of Hawaiian Home Lands' base budget since the Department has indicated its plans to explore supplemental dwelling units and appears to be supportive of some of the concepts in this measure. In the alternative, your Committee on Ways and Means could also consider deleting the appropriation language from this measure.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 874, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 874, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

#### SCRep. 92 Hawaiian Affairs on S.B. No. 695

The purpose and intent of this measure is to require the Department of Hawaiian Home Lands to digitize its applicant, beneficiary, and lessee records and appropriate funds for that purpose.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, Kalamaula Homesteaders Association, and seven individuals.

Your Committee finds that the current waitlist for Hawaiian homelands leases has over twenty thousand applicants and applicants often wait years before receiving a lease offer. Your Committee further finds that digitizing the Department of Hawaiian Home Lands' applicant, beneficiary, and lessee records will increase the efficiency and transparency of this process.

Your Committee has amended this measure by:

- Changing the source of the appropriation from the general fund to the Department of Hawaiian Home Lands' vacancy savings;
   and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes concerns raised by the Attorney General that changing the appropriation funding source from the general fund to department vacancy savings may present a separation of powers concern. Your Committee respectfully requests your Committee on Ways and Means to consider funding from the Department of Hawaiian Home Lands' base budget or deleting the appropriation language, since the Department has indicated that it is currently digitizing its records.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 695, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 695, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

# SCRep. 93 Hawaiian Affairs on S.B. No. 642

The purpose and intent of this measure is to:

- (1) Support the cultural inheritance of Hawaiians by codifying parts of the United Nations Declaration on the Rights of Indigenous Peoples into the Hawaii Revised Statutes and ensuring that Hawaiian language can be used in political, legal, and administrative proceedings in Hawaii; and
- (2) Require that Hawaiian be used for public acts and transactions, that the Hawaiian version of a law be held binding if the law in question was originally drafted in Hawaiian and then translated into English, and that 'okina and kahakō shall be used, when appropriate, in documents prepared by state or county agencies or officials.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Council for Native Hawaiian Advancement; Kamehameha Schools; Ke Kula 'O Nāwahīokalani'ōpu'u Iki Lab Public Charter School; 'Aha Pūnana Leo, Inc.;

Pūnana Leo o Hāna; Pūnana Leo o Hilo; Pūnana Leo o Honolulu; Pūnana Leo o Kaua'i; Pūnana Leo o Kona; Pūnana Leo o Ko'olau Poko; Pūnana Leo o Lahaina; Pūnana Leo o Mānoa; Pūnana Leo o Maui; Pūnana Leo o Moloka'i; Pūnana Leo o Wai'anae; Pūnana Leo o Waimea; Ke One O Kākuhihewa-O'ahu Council; and over thirty-five individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from four individuals.

Your Committee finds that the State of Hawaii has long aspired to preserve the rich cultural heritage of Native Hawaiians. Hawaii is part of a growing international movement to preserve the world's indigenous heritage, as demonstrated by the almost universal acceptance of the United Nations Declaration on the Rights of Indigenous Peoples. However, your Committee finds that while Hawaiian was established as an official language of the State of Hawaii in the State's constitution as early as 1978, English continues to predominate in documents prepared by state or county agencies. Furthermore, Hawaiian language access to government functions remains limited.

This measure, therefore, reinforces the parity of Hawaiian language with the English language by requiring Hawaiian for public acts and transactions, by ensuring that laws drafted in Hawaiian shall be binding over English translations, and by requiring, if appropriate, the use of Hawaiian diacritical marks in documents prepared by or for state or county agencies. Your Committee notes testimony clarifying that diacritical marks such as 'okina and kahakō are not utilized by Hawaiian language native speakers but were developed as a tool to teach Hawaiian to second language learners. Your Committee seeks to ensure that any text by Hawaiian language native speakers shall not be required to use diacritical marks.

Your Committee has amended this measure by:

- (1) Clarifying that not only Native Hawaiians but all others shall be provided interpretation or other necessary services to ensure they are able to use the Hawaiian language in political, legal, and administrative proceedings;
- (2) Clarifying that 'okina and kahakō are required to be used in the spelling of words or terms in the Hawaiian language, when appropriate, in documents prepared by or for state or county agencies or officials, except when the Hawaiian text is by and for the benefit of native speakers of Hawaiian;
- (3) Clarifying that any rule, order, policy, or other act, official or otherwise, that prohibits or discourages the use of 'okina and kahakō, except those specifically designed for the benefit of Native Hawaiian speakers, shall be void;
- (4) Expanding the role of the Office of Language Access to include providing Hawaiian language speakers with access to services, programs, and activities offered by the executive, legislative, and judicial branches of state government and covered entities; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 642, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 642, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 94 Commerce, Consumer Protection, and Health on S.B. No. 530

The purpose and intent of this measure is to provide a general excise tax exemption for amounts received from the sale of mobility enhancing equipment, prescription drugs sold pursuant to a doctor's prescription, and prosthetic devices, and expand the definition of "prosthetic devices" to include devices that are worn on the body.

Your Committee received testimony in support of this measure from the Policy Advisory Board for Elder Affairs, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals. Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that mobility enhancing equipment, hearing aids, prescription drugs, and prosthetic devices are often necessities for daily living among individuals with disabilities and kupuna. Sellers often pass on the general excise tax to the consumer, which increases the cost of an item. Exempting amounts received from the sales of necessary medical devices can therefore benefit individuals with disabilities and the elderly who are on a fixed income by reducing expenses associated with these items.

Your Committee has amended this measure by:

- (1) Adding hearing aids to the list of products exempted from the general excise tax; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 530, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 530, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

#### SCRep. 95 Commerce, Consumer Protection, and Health on S.B. No. 813

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Health.

Your Committee received testimony in support of this measure from the Department of Health, Executive Office on Aging, and Maui County Office on Aging.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Health in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

Your Committee notes that funding for the emergency medical services base budget for Puna, Lanai, and Kauai was inadvertently left out of the Governor's Executive Budget request.

Accordingly, your Committee has amended this measure by:

- Inserting a general fund appropriation of \$11,872,596 for fiscal year 2020 and \$15,040,191 for fiscal year 2021 to add funds to
  meet collective bargaining requirements and recurring personnel costs for service providers contracted to provide pre-hospital
  emergency medical service (HTH730/MQ); and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 813, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 813, S.D. 1, and be referred to your Committee on Ways and Means

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Thielen).

#### SCRep. 96 Commerce, Consumer Protection, and Health on S.B. No. 1213

The purpose and intent of this measure is to provide a funding mechanism to partially cover the costs to conduct procurement bid challenge hearings by authorizing the Department of Commerce and Consumer Affairs to assess a non-refundable filing fee upon the party initiating the bid challenge for contracts with an estimated value of \$500,000 or more.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and State Procurement Office.

Your Committee finds that bid challenge proceedings often result in project delays, funding lapses, and project cost increases. The Office of Administrative Hearings has strict deadlines to hear and issue written decisions on procurement bid challenges, meaning they are assigned highest priority in terms of time and resources. Typically, it can take approximately one hundred hours or more for the hearings officer to complete the hearing process and issue a thoughtful and thorough decision. Despite the Department of Commerce and Consumer Affairs being tasked with this critical responsibility, no funds have been appropriated to defray the cost of these proceedings.

Your Committee further finds that the Department of Commerce and Consumer Affairs is entirely self-funded. As a result, the costs to conduct challenge hearings are paid for indirectly by the license registration fees assessed by the Department of Commerce and Consumer Affairs from registrants who have no involvement in the procurement process. The costs are, in essence, absorbed with no respective revenues to break even. This measure will require any party initiating a bid challenge for contracts of at least \$500,000 to pay the Department of Commerce and Consumer Affairs a non-refundable fee, which will be used exclusively to help defray the costs of the administrative review of bid challenges.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1213 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

## SCRep. 97 Commerce, Consumer Protection, and Health on S.B. No. 825

The purpose and intent of this measure is to limit medical malpractice liability for residents and fellows in accredited residency and fellowship programs acting under the supervision of a licensed physician.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii Health Systems Corporation Board of Directors, University of Hawaii System, Hawaii Medical Association, Hawaii State Rural Health Association, Hilo Medical Center Foundation, and three individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice and one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the State is experiencing a critical physician shortage, which can be attributed to many factors. Your Committee further finds that in recent years, the number of instances in which medical residents and fellows have been named in medical malpractice lawsuits has increased significantly. This has negatively impacted the recruitment and retention of physicians and discouraged hospital partners from increasing the funding needed to expand the number of resident and fellow positions necessary to address the State's physician shortage.

Your Committee notes that post-medical school training programs are nationally accredited and are necessary for physicians to obtain full licensure and specialty board certification. Medical residents and fellows are closely monitored by faculty and receive continual review and evaluation. Furthermore, data has shown that patient safety is generally enhanced where there is participation in medical education programs.

This measure limits medical malpractice liability for residents and fellows in an accredited residency or fellowship program in certain circumstances, which will help create an environment that is more conducive to recruiting and retaining medical residents and fellows. Your Committee notes that the limited liability established by this measure does not shield medical residents, fellows, or supervising physicians from liability associated with any gross negligence or wanton acts or omissions.

Your Committee has amended this measure by:

- (1) Clarifying that limited liability applies to any resident or fellow participating in a graduate medical education program and practicing while under supervision of a duly licensed physician;
- (2) Removing language that would have specified that a resident or fellow shall not owe an independent duty of care to a patient;
- (3) Clarifying that the supervising physician shall not be liable for any damages that may result from the resident's or fellow's gross negligence or wanton acts or omissions;
- (4) Inserting a definition for "under supervision";
- (5) Changing its effective date to July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 825, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 825, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

## SCRep. 98 Commerce, Consumer Protection, and Health on S.B. No. 551

The purpose and intent of this measure is to clarify that condominium associations may exercise the remedy of nonjudicial foreclosure regardless of the presence or absence of power of sale language within their governing documents.

Your Committee received testimony in support of this measure from the Real Estate Commission; Hawaii Council of Association of Apartment Owners; Community Associations Institute, Hawaii Chapter; Hawaiian Properties, Ltd.; Associa; Palehua Townhouse Association; Sailors Realty; Aina Nalu; Kai Makani Condominium Board; Board of Directors of Kaioo Terrace; Board of Directors of Coolidge Villa; Board of Directors of Coronet; Board of Directors of Wiliwili Vista; Board of Directors of 1134 Kinau; Board of Directors of Kapiolani Banyan; Board of Directors of Palolo Garden; Law Offices of Mark K. McKellar, LLLC; Motooka Rosenberg Lau and Oyama, LLLC; and thirty individuals. Your Committee received testimony in opposition to this measure from the Kokua Council; Hui 'Oia'i'o; and nine individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that condominium associations have relied on the remedy of nonjudicial foreclosure for years as a way of collecting delinquent maintenance fees, which are necessary for the basic operations of associations. Judicial foreclosures alternatively can take far longer to resolve, create judicial backlog, and cost three to four times more than nonjudicial foreclosure actions, the fees for which are ultimately passed on to non-defaulting owners.

Your Committee further finds that a recent Intermediate Court of Appeals case, <u>Sakal v. Ass'n of Apartment Owners of Hawaiian Monarch</u>, 426 P.3d 443 (Haw. Ct. App. 2018), held that power of sale language must exist in a condominium association's bylaws or another enforceable agreement with its unit owners in order for the association to avail itself of the nonjudicial power of sale foreclosure procedures set forth in chapter 667, Hawaii Revised Statutes. According to testimony received by your Committee, the <u>Sakal</u> ruling is contrary to clear prior legislative intent and came as a surprise to condominium associations who have, for years, relied in good faith upon the law and its intended meaning.

Your Committee also finds that under the <u>Sakal</u> decision, many associations have lost the benefit of the nonjudicial foreclosure process. Concerns have been raised that, as a result, an association's ability to conduct a nonjudicial foreclosure will no longer depend on legislative intent, but whether specific language in the declaration or bylaws was included when the project was first created. This measure therefore clarifies that the governing documents of every association are deemed to include a power of sale provision, sufficient to enable the exercise of nonjudicial foreclosure remedy, regardless of the presence or absence of power of sale language in an association's documents.

Your Committee has heard the concerns raised by the Department of the Attorney General that this measure, as written, may raise an impairment of contracts challenge. Your Committee understands these concerns and concludes that amendments to this measure are necessary. However, your Committee has also heard additional concerns that if this measure is not expressly applied retroactively, it may impact or set aside years of prior nonjudicial foreclosure proceedings, potentially resulting in untold numbers of lawsuits for wrongful foreclosure, due to the presumption that the <u>Sakal</u> decision applies retroactively unless there is substantial prejudice. Your Committee finds that these issues and concerns merit further consideration and requests that your Committee on Judiciary further examine those issues and concerns raised by the testifiers on this measure.

Your Committee has amended this measure by:

(1) Incorporating language suggested by the Attorney General that:

- (A) Removes language that would have specified that the governing documents of every association were deemed to include a power of sale provision sufficient to enable the exercise of a nonjudicial foreclosure remedy; and
- (B) Clarifies that associations are permitted to pursue foreclosure by action or nonjudicial or power of sale foreclosure remedies, regardless of the presence or absence of power of sale language in the governing documents;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 551, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 551, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

## SCRep. 99 Commerce, Consumer Protection, and Health on S.B. No. 768

The purpose and intent of this measure is to:

- (1) Prohibit health plans and providers from disclosing any payment or billing information for a minor's mental health services to a policyholder or other covered person if the minor received the services without the consent or participation of the minor's parent or legal guardian; and
- (2) Specify that the minor and the minor's parent or legal guardian are not responsible for out-of-pocket payments for minor-initiated mental health treatment or counseling services.

Your Committee received testimony in support of this measure from the Department of Health, Mental Health America of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, the LGBT Caucus of the Democratic Party of Hawai'i, the Hawai'i Psychological Association, and seven individuals. Your Committee received comments on this measure from Kaiser Permanente Hawai'i and Hawaii Medical Service Association.

Your Committee finds that minors may need mental health services but do not feel safe or comfortable obtaining their parent or guardian's consent for treatment. Existing law permits minors fourteen years or older to consent to mental health treatment with the option of keeping that treatment confidential from their parent or guardian. However, existing law does not explicitly prevent health plans from disclosing billing information related to minor-initiated mental health services. Your Committee notes that the suppression of explanation of benefits is a standard practice where minor consent laws exist. This measure therefore reduces barriers for minors seeking mental health treatment by ensuring a minor's privacy is maintained when the minor seeks treatment.

Your Committee has amended this measure by:

- (1) Specifying that a mental health professional has a standard of care duty to:
  - (A) Ask a minor if the minor would like the provision of mental health treatment or counseling kept confidential from the minor's parent or guardian; and
  - (B) Explain to the minor what confidentiality means with regard to mental health services;
- (2) Clarifying that a minor is not responsible for any payment, including out-of-pocket payments, due for minor-initiated mental health treatment or counseling services, regardless of parent or guardian participation;
- (3) Clarifying that a minor's parent or guardian is not liable for out-of-pocket payments for minor-initiated mental health treatment or counseling services, except in certain circumstances; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 768, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 768, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Fevella). Noes, none. Excused, none.

## SCRep. 100 Commerce, Consumer Protection, and Health on S.B. No. 538

The purpose and intent of this measure is to authorize mental health professionals acting under the supervision of a licensed mental health professional to provide mental health treatment or counseling services to minors initiating mental health treatment without the consent of the minor's parent or legal guardian.

Your Committee received testimony in support of this measure from the Department of Health, Mental Health America of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, LGBT Caucus of the Democratic Party of Hawai'i, Hawai'i Psychological Association, Rainbow Family 808, and eleven individuals.

Your Committee finds that minors may initiate mental health services without having to obtain the permission of their parent or guardian. However, under existing law, these services may only be provided by licensed mental health professionals. Your Committee further finds that most readily available low- or no-cost mental health treatment or counseling services are provided by unlicensed professionals in the process of completing post-degree experience required for state licensure and who are practicing under the supervision of licensed mental health professionals. This measure reduces barriers for minors seeking mental health treatment by

expanding authorized providers of minor-initiated mental health services to include mental health professionals who are in the process of completing state licensure and working under the supervision of a licensed mental health professional.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "mental health professional" to ensure all relevant professions are included; and
- (2) Making technical, nonsubstance amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 538, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 538, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

## SCRep. 101 Commerce, Consumer Protection, and Health on S.B. No. 676

The purpose and intent of this measure is to appropriate funds to establish one full-time equivalent Alzheimer's disease and related dementia services coordinator position in the Chronic Disease Prevention and Health Promotion Division of the Department of Health.

Your Committee received testimony in support of this measure from the Alzheimer's Association, Aloha Chapter; International Longshore and Warehouse Union, Local 142; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and fourteen individuals. Your Committee received comments on this measure from the Department of Health and Executive Office on Aging

Your Committee finds that approximately 27,000 Hawaii residents were diagnosed with Alzheimer's disease in 2010 and as Hawaii's population over the age of 65 continues to grow, the prevalence of Alzheimer's disease is expected to rise. Alzheimer's disease and dementia patients, as well as their caretakers, require strong community support and education to assist them as they live with and combat the disease. The *Hawaii 2025: State Plan on Alzheimer's Disease and Related Dementia* identified strategies required to address the multifaceted issues associated with this disease; however, the services and activities needed require leadership and coordination at a systematic level. This measure establishes a dedicated position to help implement and update the Alzheimer's Disease and Related Dementia state plan.

Your Committee notes that the Chronic Disease Prevention and Health Promotion Division does not have an Alzheimer's disease and related dementia services-specific program, as the Executive Office on Aging is the designated lead agency in the coordination of a statewide system of aging and caregiver support services in the State.

Accordingly, your Committee has amended this measure by:

- (1) Changing the name of the full-time equivalent position from "Alzheimer's disease and related dementia services coordinator position" to "program specialist IV";
- (2) Placing the full-time equivalent position within the Executive Office on Aging, rather than the Chronic Disease Prevention and Health Promotion Division of the Department of Health;
- (3) Updating its purpose section; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 676, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 676, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

#### SCRep. 102 Transportation on S.B. No. 666

The purpose and intent of this measure is to establish the Hawaii Airports Corporation to assume the authority, powers, functions, duties, and responsibilities for managing and operating all of the State's airports and aeronautical facilities.

Your Committee received testimony in support of this measure from the Office of the Governor, Department of Public Safety, Department of Land and Natural Resources, Department of Transportation, Department of Human Resources Development, Hawaii Tourism Authority, University of Hawaii System, American Council of Engineering Companies of Hawaii, Hawaii Lodging and Tourism Association, Chamber of Commerce Hawaii, Enterprise Holdings, Bank of Hawaii, Airport Concessionaries Committee, Hawaiian Airlines, Maui Hotel and Lodging Association, Electrical Contractors Association of Hawaii, Airlines Committee of Hawaii Business Roundtable Incorporated, Kona-Kohala Chamber of Commerce, Activities and Attractions Association of Hawaii, Maui Chamber of Commerce, Kohala Coast Resort Association, and one member of the Hawaii County Council. Your Committee received testimony in opposition to this measure from the Painting Industry of Hawaii Labor Management Cooperation Trust Fund. Your Committee received comments on this measure from the Department of the Attorney General, State Procurement Office, Subcontractors Association of Hawaii, UNITE HERE Local 5 Hawaii, United Public Workers, and Sheet Metal and Air Conditioning Contractors' National Association Hawaii Chapter.

Your Committee finds that the responsibility for the development, management, and operation of the State's airports system is distributed among several state departments, resulting in delayed decision-making and inefficiency, which restricts the airport systems from keeping up with the standards of other leading global airports. Your Committee also finds that the involvement of multiple agencies has further resulted in a progressive deterioration of the quality of important airport facilities. The quality and appearance of

the State's airports serve as the first impression of Hawaii for visitors and the airports need to be better managed to reflect the true beauty of Hawaii.

Your Committee additionally finds that an independent airports corporation would allow for quicker decision-making and a streamlined process for budgeting and procurement, which would improve efficiency and implement best practices in all aspects of operation of state airports. Your Committee believes that an independent airports corporation would maximize contributions from state airports to the state economy, promote an enhanced experience for visitors, and improve global access and inter-island mobility.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that there shall be no more than two members who are non-residents of the State on the board of directors at any time:
- (2) Upon recommendation of the Department of the Attorney General, clarifying that the Board of Directors of the Hawaii Airports Corporation shall appoint a Chief Executive Officer;
- (3) Upon recommendation of the State Procurement Office:
  - (A) Further clarifying the exemption of the Hawaii Airports Corporation from chapter 103D, Hawaii Revised Statutes; and
  - (B) Requiring, prior to exemption from chapter 103D, Hawaii Revised Statutes, the Hawaii Airports Corporation to, in consultation with the State Procurement Office, adopt procurement rules pursuant to chapter 91, Hawaii Revised Statutes, and further clarifying the minimum requirements for the procurement rules;
- (4) Exempting the Hawaii Airports Corporation and its designated funds from chapter 37D, Hawaii Revised Statutes;
- (5) Deleting language that would have required the Hawaii Airports Corporation to submit a copy of its annual Single Audit Report to the Auditor and instead requiring the Auditor to conduct management and financial audits of the Hawaii Airports Corporation for fiscal year 2023 and every second year thereafter;
- (6) Inserting the definitions of "chief executive officer" and "corporation" into chapters 261 and 262, Hawaii Revised Statutes; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 666, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 666, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

# SCRep. 103 Human Services on S.B. No. 330

The purpose and intent of this measure is to require the Department of Human Services to:

- (1) Implement an earned income disregard program as an intermediate step to implementing a full Medicaid buy-in program; and
- (2) Submit reports to the Legislature.

Your Committee received testimony in support of this measure from the Hawaii Disability Rights Center and one individual. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that Act 200, Session Laws of Hawaii 2012, established a joint legislative Medicaid Buy-In Task Force (Task Force) to explore the possibility of implementing a Medicaid buy-in program for individuals with disabilities who are either not working or currently working but would like to earn more income. The Task Force has been working to implement the Medicaid buy-in program, but lack of funding has prevented its implementation.

Your Committee further finds that the Task Force recommended an interim step to a Medicaid buy-in program, to allow individuals with disabilities to earn income and not lose their Medicaid benefits, which they would be at risk of given the current Medicaid eligibility rules. While this interim program would not provide the full benefits of a Medicaid buy-in program, it would increase the amount of income an individual could earn while retaining Medicaid eligibility, encourage the employment of individuals with disabilities, and enable current Medicaid beneficiaries to become more self-sufficient.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 330 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 104 Human Services on S.B. No. 470

The purpose and intent of this measure is to:

- (1) Extend the expiration of and the reporting deadline for the emergency homelessness assessment pilot program; and
- (2) Extend the expiration of and the reporting deadline for the medical respite pilot program.

Your Committee received testimony in support of this measure from the Department of Human Services, The Queen's Health Systems, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual.

Your Committee finds that the Department of Human Services Homeless Programs Office is in the process of executing contracts for the emergency homelessness assessment pilot program and the medical respite pilot with the identified medical providers. However, the homelessness assessment pilot program and the medical respite pilot program need additional time to become fully operational. This measure extends the sunset dates for the pilot programs and the due dates for reports to the Legislature, which will enable the programs to become fully operational and ensure that the Department of Human Services is able to sufficiently evaluate the programs' effectiveness and provide more accurate data to the Legislature.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 470 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 105 Commerce, Consumer Protection, and Health on S.B. No. 281

The purpose and intent of this measure is to appropriate funds for the Department of Health.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that this measure provides a legislative vehicle should funding become available for the purposes of this measure prior to the end of the 2019-2021 fiscal biennium.

Your Committee's intent in recommending this measure for passage is for the items expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the items expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 281 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Thielen).

## SCRep. 106 Commerce, Consumer Protection, and Health on S.B. No. 804

The purpose and intent of this measure is to:

- (1) Establish the culturally competent palliative care pilot program to promote palliative care, gather health care utilization data, and conduct bidding for at least two pilot programs for home or community based palliative care;
- (2) Establish an advisory group to oversee implementation of the pilot program;
- (3) Require reports to the legislature; and
- (4) Appropriate funds for the pilot program.

Your Committee received testimony in support of this measure from the Department of Health, The Queen's Health Systems, Hawaii Pacific Health, St. Francis Healthcare System of Hawaii, American Nurses Association in Hawaii, American Cancer Society Cancer Action Network, Hawaii Family Forum, Hawai'i Care Choices, Kōkua Mau; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and thirteen individuals.

Your Committee finds that palliative care, which focuses on providing patients with symptom relief from serious illness, can increase patients' quality of life as they go through recovery or face an end-of-life situation. Palliative care also decreases the emotional burden on patients and their families and reduces direct health care costs. However, your Committee notes that palliative care usage rates in Hawaii are lower than on the mainland, in part because Asian and Pacific Islanders are less likely to enroll in palliative care options. Your Committee further finds that culturally competent palliative care and hospice training is a promising practice to increase patient, family, and provider engagement with palliative care options.

Accordingly, this measure establishes the culturally competent palliative care pilot program, which is an important first step toward increasing palliative care awareness and usage in Hawaii.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 804 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, none.

## SCRep. 107 Commerce, Consumer Protection, and Health on S.B. No. 812

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Commerce and Consumer Affairs.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, the Public Utilities Commission, and one individual.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Commerce and Consumer Affairs in the General Appropriations

Act of 2017, as amended by the Supplemental Appropriations Act of 2018. Your Committee notes that this measure includes sixteen budget requests from the Department of Commerce and Consumer Affairs. The Department indicated in testimony before your Committee that each division has sufficient reserves to cover the costs associated with the budget increases proposed by this measure. Your Committee notes that this measure also includes five budget requests from the Public Utilities Commission.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 812 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Thielen, Fevella).

# SCRep. 108 Commerce, Consumer Protection, and Health on S.B. No. 814

The purpose and intent of this measure is to appropriate or authorize funds or amend means of financing for various capital improvement projects of the Department of Health.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that this measure expresses adjustments to the projects funded for the Department of Health in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 814 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Thielen).

## SCRep. 109 Commerce, Consumer Protection, and Health on S.B. No. 1023

The purpose and intent of this measure is to appropriate funds to the Department of Health to provide funding for the kupuna care

Your Committee received testimony in support of this measure from the Hawai'i State Commission on the Status of Women; Policy Advisory Board for Elder Affairs; Maui County Office on Aging; AARP; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Alzheimer's Association, Aloha Chapter; International Longshore and Warehouse Union, Local 142; Chinatown Gateway Plaza Tenant Association; Hawaii Chapter of the American Physical Therapy Association; Catholic Charities Hawai'i; and twenty-three individuals. Your Committee received comments on this measure from the Executive Office on Aging.

Your Committee finds that the kupuna care program assists frail adults age sixty and older with leading independent, meaningful, and dignified lives by providing a continuum of home and community based services and supports. Kupuna care aims to allow Hawaii's kupuna to age in place, thus preventing or delaying the need for more expensive and restrictive levels of care. According to testimony from the Executive Office on Aging, in fiscal year 2018, kupuna care services were provided to 5,643 individuals. The Governor's base budget request would enable the State to serve an additional two hundred sixty-two individuals.

Your Committee notes that consistent funding for the kupuna care program is critical, as keeping seniors healthy and at home is the most cost-effective way to address the rapidly increasing population of adults age sixty and older in the State. Accordingly, your Committee respectfully requests that your Committee on Ways and Means include the appropriation for the kupuna care program in the budget as a recurring cost item.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1023 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Thielen).

# SCRep. 110 Commerce, Consumer Protection, and Health on S.B. No. 1025

The purpose and intent of this measure is to:

- (1) Change the kupuna caregivers program allocation cap from \$70 per day to \$350 per week; and
- (2) Appropriate funds for the continued implementation of the kupuna caregivers program.

Your Committee received testimony in support of this measure from the Hawai'i State Commission on the Status of Women; Policy Advisory Board for Elder Affairs; Maui County Office on Aging; Hawaii County Advisory Committee on Aging; Alzheimer's Association, Aloha Chapter; Hawaii Family Caregiver Coalition; Hawaii Women's Coalition; Faith Action for Community Equity;

AARP; Hawaii Chapter of the American Physical Therapy Association; Kokua Council; Midwives Alliance of Hawaii; Mental Health America of Hawaii; Hawaii Island Adult Care, Inc.; Manoa Cottage; Sakura House Adult Day Care; Hale Hau'oli Hawaii; Chinatown Gateway Plaza Tenant Association; Church of the Crossroads; Live Well at Iwilei; Caring Across Generations; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; International Longshore and Warehouse Union, Local 142; Hawaii Appleseed Center for Law & Economic Justice; and forty-eight individuals. Your Committee received comments on this measure from the Executive Office on Aging.

Your Committee finds that the cost of professional caregiving continues to rise, with family members often struggling to care for a loved one, while remaining fully employed. In response to this issue, in 2017 the Legislature established the groundbreaking kupuna caregivers program, which aims to provide working caregivers with additional resources to cover a variety of support services such as adult day care, assisted transportation, and homemaker services. The kupuna caregivers program is a prevention program, designed to assist families before a crisis. This measure continues the funding for the kupuna caregivers program to address the financial needs of family members who must miss work and income to take care of their elders. Family caregivers are performing both a family service and a social service, by relieving the State of the burden and cost of elder care. Your Committee finds that the efforts of these caregivers should not be made at the expense of their own loss of financial stability, which puts caregivers at risk of financial insecurity in the future.

Your Committee notes that consistent funding for the kupuna caregivers program is critical, as the program is a crucial way to provide a safety net for Hawaii's caregivers and invest in the State's paid care workforce. Accordingly, your Committee respectfully requests that your Committee on Ways and Means include the appropriation for the kupuna caregivers program in the budget as a recurring cost item.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1025 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Thielen).

# SCRep. 111 Commerce, Consumer Protection, and Health on S.B. No. 1352

The purpose and intent of this measure is to clarify that financial institutions in the State are authorized to conduct business with persons and entities that lawfully grow, produce, sell, market, advocate for, or otherwise deal with industrial hemp.

Your Committee received testimony in support of this measure from the Hawaii Department of Agriculture, Hawaii Farm Bureau, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Bankers Association. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that financial institutions are already allowed to maintain a banking relationship with entities engaged in the business of industrial hemp. This measure clarifies this authorization and makes certain that all members of the banking industry know they are authorized to act in this area, which will be helpful for the State's industrial hemp licensees.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1352 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

# SCRep. 112 Commerce, Consumer Protection, and Health on S.B. No. 815

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Health.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation Board of Directors, Maui Health System, Kahuku Medical Center, and East Hawaii Region of the Hawaii Health Systems Corporation.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Health in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent. Your Committee also requests your Committee on Ways and Means to consider increasing the funding for the Hawaii Health Systems Corporation Regions, as indicated in testimony. Your Committee further notes for your Committee on Ways and Means that this measure is the vehicle for Maui Health Systems subsidies.

Your Committee has amended this measure by increasing the appropriation amounts allocated to the Hawaii Health Systems Corporation (HTH212) and Maui Health System (HTH214) for fiscal years 2019-2020 and 2020-2021.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 815, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 815, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Thielen).

#### SCRep. 113 Commerce, Consumer Protection, and Health on S.B. No. 816

The purpose and intent of this measure is to appropriate funds for various capital improvement projects of the Department of Health.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation and Maui Health System. Your Committee received comments on this measure from Kahuku Medical Center.

Your Committee finds that this measure expresses adjustments to the projects funded, maximum sums appropriated or authorized, or means of financing indicated for the Department of Health in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

Your Committee has amended this measure by:

- Increasing the appropriation amounts to the Hawaii Health Systems Corporation regions for fiscal year 2019-2020 and fiscal year 2020-2021; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 816, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 816, S.D. 1, and be referred to your Committee on Ways and Means

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Thielen).

#### SCRep. 114 Transportation on S.B. No. 565

The purpose and intent of this measure is to:

- (1) Require the Department of Transportation to implement a vision zero program in Hawaii by July 1, 2020; and
- (2) Establish a goal of no traffic fatalities or serious injuries by 2030.

Your Committee received testimony in support of this measure from the Department of Transportation; City and County of Honolulu Department of Transportation Services; Kauai Path, Inc.; Hawaii Bicycling League; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Blue Zones Project; two members of the Hawaii County Council; and seven individuals.

Your Committee finds that vision zero is a multi-national road traffic safety project that aims to achieve a traffic system with no fatalities or serious injuries involving traffic. In 2018 alone, 117 people were killed in Hawaii due to a traffic related incident and there have already been 13 fatalities in 2019. Your Committee further finds that vision zero is a step forward toward decreasing these numbers and providing a safe environment for all Hawaii residents. Your Committee acknowledges that the Department of Transportation is working toward goals similar to those of vision zero through its strategic highway safety plan and encourages the Department to expand its efforts through the adoption of a vision zero program.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 565 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Harimoto, Shimabukuro).

# SCRep. 115 Transportation on S.B. No. 410

The purpose and intent of this measure is to increase the penalties for those who violate the pedestrians' right-of-way in crosswalks.

Your Committee received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, Maui Police Department, one member of the City Council of the City and County of Honolulu, and one individual.

Your Committee finds that in 2018, forty-three pedestrians were killed in traffic accidents. This is a record number of people that were tragically taken away from their families and friends. Your Committee further finds that increasing penalties can help reduce the amount of pedestrian fatalities by making drivers more aware of the presence of pedestrians on and near the roadways, especially in crosswalks.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 410 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Harimoto, Shimabukuro).

#### SCRep. 116 Transportation on S.B. No. 641

The purpose and intent of this measure is to add the definition of "substance" and amend the definitions of "drug" and "substance" for purposes of violations due to operating a vehicle under the influence of an intoxicant.

Your Committee received testimony in support of this measure from the Department of Transportation, County of Hawai'i Police Department, County of Hawaii Office of the Prosecuting Attorney, County of Maui Department of the Prosecuting Attorney, Honolulu Police Department, Highway Strategic Highway Safety Plan, and Mothers Against Drunk Driving Hawaii. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the existing definition of a drug under the Uniform Controlled Substance Act limits law enforcement and prosecutors from keeping roads safe from impaired drivers as it does not encompass many substances that are being abused by individuals. Because those substances do fall under the definition of a drug in existing law, those abusing the substances are free to drive while impaired on Hawaii's roads. It is difficult for laws to catch up with the constant changing chemicals and newly developed drugs, thereby causing problems for law enforcement to keep Hawaii's roads safe. This measure would provide clarity with respect to how substance abuse and drugs are defined in law, ensuring safety for residents and visitors of Hawaii.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 641 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Shimabukuro).

#### SCRep. 117 Transportation on S.B. No. 274

The purpose and intent of this measure is to appropriate funds for the Department of Transportation.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that this measure provides a legislative vehicle should funding become available for the purposes of this measure prior to the end of the 2019-2021 fiscal biennium.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 274 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Shimabukuro).

# SCRep. 118 Transportation on S.B. No. 309

The purpose and intent of this measure is to:

- Repeal several exemptions from the prohibition on operating a pickup truck with a passenger seated in the bed or loadcarrying area;
- (2) Remove the requirement that a passenger be twelve years of age or younger; and
- (3) Reduce the fine for violating the prohibition.

Your Committee received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, Hawaii Strategic Highway Safety Plan, and Keiki Injury Prevention Coalition. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that from 2014 to 2018, eight truck bed occupants died in Hawaii due to being ejected from the bed of a pickup truck as a result of a motor vehicle crash. According to the National Highway Traffic Safety Administration, people riding in the bed or cargo areas of a pickup truck are nine times more likely to be killed than those involved in other vehicle collisions. This measure would prohibit all persons, regardless of age, from sitting in the bed of a pickup truck, ensuring the safety of all passengers and reducing motor vehicular fatalities.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 309 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (English, Fevella). Noes, none. Excused, 2 (Harimoto, Shimabukuro).

# SCRep. 119 Transportation on S.B. No. 510

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Transportation, Administration Division.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Transportation, Administration Division in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- (1) Upon recommendation by the Department of Transportation, inserting a recurring federal fund appropriation ceiling increase;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 510, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 510, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Shimabukuro).

#### SCRep. 120 Transportation on S.B. No. 693

The purpose and intent of this measure is to clarify what pedestrians are required to do when in a crosswalk while a countdown timer is operating.

Your Committee received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual.

Your Committee finds that existing law regarding pedestrian-control signals has not been updated to match the signals currently being used in Hawaii. Your Committee further finds that there is confusion regarding when it is safe for a pedestrian to cross the street due to the multiple types of signals that are being utilized in Hawaii. Some signals don't have any indication how long a pedestrian has to safely cross the street, such as a "Don't Walk" message, a raised palm, or a flashing countdown timer. Your Committee also finds that in some cases, a signal will have an upraised palm and a countdown timer. Your Committee believes that this measure will provide consistency with the meaning of the flashing palm or "Don't Walk" indications, thereby improving pedestrian safety.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 693, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 693, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Shimabukuro).

# SCRep. 121 Government Operations on S.B. No. 955

The purpose and intent of this measure is to require financial disclosure statements of state agency executive directors to be public records available for inspection and duplication.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission, League of Women Voters of Hawaii, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual.

Your Committee finds that under existing law, directors of state departments are required to publicly disclose their financial disclosure statements although departmental executive directors are not. This measure will require executive directors of every state agency and department to also publicly disclose their financial disclosure statements, which will increase government transparency and openness and foster public trust in state officials.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 955 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Baker).

# SCRep. 122 Government Operations on S.B. No. 533

The purpose and intent of this measure is to clarify that any member of a state board or commission, whose nomination for appointment or reappointment is withdrawn by the Governor for cause prior to the Senate's action to advise and consent or not advise and consent, shall be considered disqualified for membership, and in the case of a reappointment, ineligible to continue to serve as a holdover member beyond the member's most recent term of appointment.

Your Committee did not receive any testimony on this measure.

Your Committee finds that existing law permits a member of a state board or commission to continue as a holdover member until a successor is nominated and appointed. However, clarification is needed to address situations where a board or commission member's

nomination for appointment or reappointment is withdrawn by the Governor before the Senate has an opportunity to complete the advise and consent process. Your Committee further finds that if a member's nomination for reappointment has been withdrawn by the Governor for cause, that nominee should not then be able to continue serving as a holdover member. This measure therefore clarifies that the Governor's withdrawal for cause of a nominee for a state board or commission renders that nominee disqualified for membership or ineligible to serve as a holdover member.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 533, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 533, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Baker).

## SCRep. 123 Government Operations on S.B. No. 678

The purpose and intent of this measure is to require the Legislature to follow certain fundamental principles of the sunshine law in conducting its business, including:

- (1) Requiring a majority vote to suspend a legislative rule;
- (2) Requiring proposed amendments to a bill to be germane to the subject of the bill proposition, section, or paragraph to be amended;
- (3) Requiring correspondence received by the Legislature or any of its single or joint committees on a measure to be considered testimony on the measure; and
- (4) Requiring all floor votes, except on first reading, to be printed on the order of the day before consideration.

Your Committee received testimony in support of this measure from The Civil Beat Law Center for the Public Interest, Society of Professional Journalists Hawaii Chapter, League of Women Voters of Hawaii, Life of the Land, Common Cause Hawaii, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, and three individuals. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that members of the public have expressed frustrations about the lack of accessibility within the legislative process. This measure requires the Legislature to follow certain fundamental principles of the Sunshine Law, which will make the operations of the Legislature more transparent and promote accountability and democracy in legislative procedures.

Your Committee has amended this measure by:

- Clarifying that all correspondence received on a measure by the Legislature or a legislative committee is considered testimony
  and therefore subject to disclosure as a public record under the Uniform Information Practices Act; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 678, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 678, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Baker).

## SCRep. 124 Government Operations on S.B. No. 757

The purpose and intent of this measure is to require all agencies to:

- Maintain a website with a list of open contested cases and provide access to all documents filed in each case via the website;
- (2) Establish a subscription-based electronic mail notification system so that all interested parties may receive notice of all filings made in a contested case proceeding.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and Life of the Land. Your Committee received comments on this measure from the Department of Land and Natural Resources, Department of Human Services, Department of the Attorney General, Land Use Commission, Hawaii Labor Relations Board, and Hawai'i Civil Rights Commission.

Your Committee finds that many state agencies are moving toward electronic documentation and notification, although not all agencies are following suit. Your Committee further finds that providing similar access to information will increase transparency and accountability for all state agencies.

However, your Committee has heard the concerns raised in testimony that this measure requires agencies to list all contested cases and requires public access to all agency filings, without regard to whether the contested cases are confidential pursuant to state or federal laws and must be closed to the public. Concerns were also raised that the notification requirements proposed by this measure could be administratively burdensome. Your Committee understands these concerns and finds that amendments to this measure are necessary.

Your Committee has amended this measure by:

- (1) Specifying that each agency is only required to maintain a website that lists the agency's open non-confidential contested
- (2) Removing the requirement that each website provide access to all documents filed in each contested case;
- (3) Removing the requirement for each agency to establish a subscription-based email notification system for all filings made in a contested case proceeding;
- (4) Delaying the effective date until July 1, 2025, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 757, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 757, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Baker).

#### SCRep. 125 Education on S.B. No. 90

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Education.

Your Committee received testimony in support of this measure from the Department of Education, Executive Office on Early Learning, Early Learning Board, and Kamehameha Schools. Your Committee received comments on this measure from one individual.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Education in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- (1) Deleting language that would have established three full-time equivalent (3.00 FTE) permanent positions for the Office of Hawaiian Education;
- Deleting language that would have established one full-time equivalent (1.00 FTE) permanent Education Specialist for Early College;
- (3) Inserting language that appropriates \$2,000,000 in general funds for fiscal years 2019-2020 and 2020-2021 for additional workers' compensation funds (EDN100/CN);
- (4) Inserting language that appropriates \$3,000,000 in general funds for fiscal years 2019-2020 and 2020-2021 for school innovation funds for weighted student formula (EDN100/AA);
- (5) Inserting language that appropriates \$1,500,000 in general funds for fiscal years 2019-2020 and 2020-2021 for early college funding for high schools (EDN100/BX);
- (6) Repurposing the fifteen full-time equivalent (15.00 FTE) permanent positions under EDN200/GN as Complex Area Personnel Specialists for Investigations;
- (7) Deleting language that would have established one full-time equivalent (1.00 FTE) permanent English Language Learners Program Specialist for compliance and program implementation;
- (8) Deleting language that would have established one full-time equivalent (1.00 FTE) permanent Administrative Assistant position for the Office of Curriculum and Instructional Design;
- (9) Deleting language that would have established one full-time equivalent (1.00 FTE) permanent Administrative Services Assistant position for the Office of Student Support Services;
- (10) Inserting language that establishes three full-time equivalent (3.00 FTE) permanent positions and appropriates \$350,896 and \$444,832 in general funds for fiscal years 2019-2020 and 2020-2021, respectively, for leadership and development support (EDN200/GJ);
- (11) Decreasing the appropriation amount from \$5,000,000 to \$2,000,000 for fiscal years 2019-2020 and 2020-2021 for electric utilities energy cost adjustment charges (EDN400/OE);
- (12) Decreasing the appropriation amount from \$6,000,000 to \$3,468,193 for fiscal years 2019-2020 and 2020-2021 for support for school facility service and maintenance contracts (EDN400/OC);
- (13) Inserting blank appropriation amounts for fiscal years 2019-2020 and 2020-2021 for air conditioning repair (EDN400/OC);
- (14) Inserting a blank number of positions for fiscal year 2020-2021 and blank appropriation amounts for fiscal years 2019-2020 and 2020-2021 for the early learning induction program and additional prekindergarten classrooms (EDN700/PK); and
- (15) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 90, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 90, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

#### SCRep. 126 Education on S.B. No. 341

The purpose and intent of this measure is to make exemptions from the behavior analyst licensing requirements permanent for certain teachers working in collaboration with, and direct support workers working under the supervision of, a licensed behavior analyst or licensed psychologist.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, Hawaii Association for Behavior Analysis, Hawaii Psychological Association, Autism Behavior Consulting Group Hawaii, Together For Our Keiki, and six individuals. Your Committee received testimony in opposition to this measure from the Hawaii Disability Rights Center and two individuals. Your Committee received comments on this measure from the University of Hawaiii System.

Your Committee finds that many students enrolled in public schools would benefit from the expansion of behavior analysis services throughout Hawaii's public school system. Specifically, students benefit when a teacher is allowed to implement applied behavior analysis services in collaboration with a licensed behavior analyst or licensed psychologist. However, under existing law, there is a deadline after which teachers will no longer be allowed to implement these services. This measure ensures that teachers will be able to continue to implement these services in collaboration with, or under the direct supervision of, a licensed behavior analyst or licensed psychologist.

Your Committee has heard the testimony of the Hawai'i Association for Behavior Analysis expressing concerns relating to the use of the phrase "direct supervision" and other provisions relating to the direct supervision of licensed behavior analysts. Your Committee finds that these issues raise concerns that merit further consideration and request that your Committee on Commerce, Consumer Protection, and Health further examine the issues and concerns raised by the testifiers on this measure.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 341, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 341, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 127 Education on S.B. No. 371

The purpose and intent of this measure is to:

- (1) Establish a workforce readiness program within the Department of Education to allow students to graduate from an extended high school enrollment with an industry-recognized associate's degree to complement the student's high school diploma; and
- (2) Appropriate funds for the development and implementation of the program, including the hiring of full-time positions.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Department of Education, University of Hawai'i System, Executive Office on Early Learning, Workforce Development Council, McKinley Community School for Adults, Hawaii Youth Services Network, Hawaii Farm Bureau, Hawaii State Teachers Association, and one individual.

Your Committee finds that high school students in Hawaii would benefit from aligning educational curriculum to workforce readiness. This alignment depends upon close collaboration between the public school system, a community college, and one or more industry employers near a school complex. By establishing a workforce readiness program, this measure would ensure that students receive the industry-based skills and certification required for employment after graduation.

Your Committee has amended this measure by:

- (1) Specifying that workforce readiness program schools shall provide opportunities for students to earn pre-apprenticeship certificates and other industry-recognized certificates that assess and document student readiness for a wide range of jobs in addition to an associate's degree; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 371, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 371, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 128 Education on S.B. No. 373

The purpose and intent of this measure is to require and appropriate funds for the Department of Education to develop and implement a K-12 curriculum-to-career-pipeline initiative to ensure that the State's public school students are adequately trained and prepared to enter the workforce upon graduation from high school.

Your Committee received testimony in support of this measure from the Department of Education, Department of Labor and Industrial Relations, University of Hawai'i System, Hawaii Youth Services Network, Hawaii Farm Bureau, and Kamehameha Schools. Your Committee received comments on this measure from one individual.

Your Committee finds that there is a disconnect between the needs and expectations of today's employers and the current skills of the State's local workforce. Many industries in the State require employees with skills in coding, computer science, engineering, foreign language, and other technology-based jobs, yet the skills gap continues to widen. This measure will enable students to enter the State's workforce upon graduation from high school by improving job training and more closely aligning education to employment.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 373 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 129 Education on S.B. No. 388

The purpose and intent of this measure is to require the Department of Education to:

- (1) Upon request by a parent or guardian of a vulnerable student or a student who has exhibited behavioral issues, provide a clinical or psychoeducational evaluation; and
- (2) Provide an assessment for suspended students to identify and provide services for any social disorder, emotional disorder, or learning difference.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from the Department of Education.

Your Committee finds that children living in poverty who have one or more parents incarcerated, are the victims of abuse or neglect, or are homeless often experience a range of traumatic and toxic stress. This stress can harm the child's brain development and physical, social, mental, emotional, and behavioral health and well-being. Therefore, it is imperative that the Department of Education identify vulnerable students who are likely to drop out, assess their needs, and provide them with the services they need to succeed.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 388, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 388, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

### SCRep. 130 Education on S.B. No. 391

The purpose and intent of this measure is to appropriate funds to the Department of Education for behavior analysis services performed by licensed behavior analysts for public school students.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii Disability Rights Center, Democratic Party of Hawai'i Education Caucus, Together For Our Keiki, Hawai'i Association for Behavior Analysis, Hawaii State Teachers Association, Hawai'i Psychological Association, and six individuals.

Your Committee finds that behavior analysis means the design, implementation, and evaluation of instructional and environmental modifications to produce socially significant improvements in human behavior. Your Committee further finds that many students enrolled in Department of Education schools would benefit from the expansion of behavior analysis services throughout the State's public school system, including students with autism spectrum disorders. This measure ensures that all students requiring behavioral support receive the care they need and provides teachers with the necessary support they may need from other professionals with expertise in behavior analysis.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount for the Department of Education to provide behavior analysis services performed by licensed behavior analysts for public school students; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Your Committee notes that although the appropriation is blank, an appropriation of \$20,000,000 is necessary to provide behavior analysis services performed by licensed behavior analysts for public school students.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 391, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 391, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

### SCRep. 131 Education on S.B. No. 392

The purpose and intent of this measure is to appropriate funds to the Department of Education to provide up to \$1,690 to each special education classroom teacher for instructional materials and equipment.

Your Committee received testimony in support of this measure from the Department of Education, Democratic Party of Hawai'i Education Caucus, Hawaii State Teachers Association, and two individuals.

Your Committee finds that, based on statewide assessments, most special education students in the State's public school system are performing below their current grade levels in reading and math. Closing the achievement gap between special needs students and their general education peers requires investing in additional resources for special education teachers and classrooms. This measure assists special education classroom teachers in purchasing the supplies and instructional materials they need to adequately differentiate their instruction for their students.

Your Committee has amended this measure by inserting a blank appropriation amount for the Department of Education to provide up to \$1,690 to each special education classroom teacher for instructional materials and equipment.

Your Committee notes that although the appropriation is blank, the Department of Education's testimony requests an appropriation of \$4,000,000 to provide adequate assistance to each special education classroom teacher for instructional materials and equipment.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 392, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 392, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 132 Education on S.B. No. 967

The purpose and intent of this measure is to authorize and appropriate funds for the State Public Charter School Commission to establish and fund charter school prekindergarten classrooms.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, State Public Charter School Commission, Executive Office on Early Learning, Early Learning Board, Kamehameha Schools, Hawaii Children's Action Network, and Early Childhood Action Strategy. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that quality learning experiences in prekindergarten, especially for low-income or at-risk children and their families, have a significant impact on a child's future. These early learning experiences provide a strong foundation for children, facilitating positive growth in developmental and educational areas. This measure increases access to quality early education for more children in the State in supporting their academic success.

Your Committee notes that although the appropriation is blank, an appropriation of \$4,000,000 is necessary to allow the State Public Charter School Commission to establish and fund charter school prekindergarten classrooms in the State.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 967 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 133 Education on S.B. No. 978

The purpose and intent of this measure is to:

- (1) Amend the threshold value of an unclaimed fund claim and the timeline for when that claim becomes void after ten years;
- (2) Specify that unclaimed funds of \$10 or less in the unclaimed property trust fund, upon the expiration of a ten-year time limitation, shall escheat to the State and be transferred to the libraries special fund; and
- (3) Specify that unclaimed funds of more than \$10 but less than \$250 in the unclaimed property trust fund, upon expiration of the ten-year time limitation, shall escheat to the State and be transferred to the general fund.

Your Committee received testimony in support of this measure from the Hawaii State Public Library System and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Hawaii's public libraries offer many public benefits, including acting as community gathering places where learning happens and knowledge is shared. Many members of the public, including children and kupuna, rely on the public library system. This measure provides an opportunity to increase support to the Hawaii State Public Library System for the increasing demands of library patrons for library books and materials.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 978 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 134 Education on S.B. No. 980

The purpose and intent of this measure is to define the term "private school", for the purpose of compulsory education, to mean an education institution that teaches kindergarten through grade twelve and that is licensed or accredited by the Hawaii Association of Independent Schools or the Western Association of Schools.

Your Committee received testimony in support of this measure from the Hawai'i Association of Independent Schools; and Hawaii Council of Private Schools, LLC.

Your Committee finds that the Hawaii Council of Private Schools is charged with licensing Hawaii private schools to ensure that all of Hawaii's private and parochial schools are healthy, safe, and sustainable institutions providing a sound education program for Hawaii's children. However, licensing requirements for private schools are optional, rather than mandatory. This measure clarifies the definition of "private school" to provide assurances for parents who choose to send their child to a private school that the school meets certain standards in providing a safe learning environment.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 980 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 135 Energy, Economic Development, and Tourism on S.B. No. 803

The purpose and intent of this measure is to remove a provision designating the Hawaii Convention Center as the location for operation of a Hawaiian Center and the Museum of Hawaiian Music and Dance.

Your Committee received testimony in support of this measure from the Hawai'i Tourism Authority. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that under existing law, \$79,000,000 of transient accommodations tax revenue is allocated per year to the tourism special fund and of that amount, \$1,000,000 is allocated for the operation of a Hawaiian Center and Museum of Hawaiian Music and Dance at the Hawaii Convention Center. However, your Committee further finds that the Hawaii Convention Center roof must be fixed before the Center can accommodate the operation of a Hawaiian Center and the Museum. This measure will eliminate the requirement for the Hawaiian Center and the Museum to be located at the Hawaii Convention Center, which will allow the roof to be fixed and the Hawaiian Center and the Museum to be moved to a more appropriate location in the interim.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 803 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Inouye).

### SCRep. 136 Energy, Economic Development, and Tourism on S.B. No. 286

The purpose and intent of this measure is to appropriate funds for the Department of Business, Economic Development, and Tourism.

Your Committee did not receive any testimony on this measure.

Your Committee finds that this measure provides a legislative vehicle should funding become available for the purposes of this measure prior to the end of the 2019-2021 fiscal biennium.

Your Committee's intent in recommending this measure for passage is for the items expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the items expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 286 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Inouye, Fevella).

### SCRep. 137 Education on S.B. No. 983

The purpose and intent of this measure is to:

- (1) Rename the teacher national board certification incentive program to the national certification incentive program;
- (2) Expand the national certification incentive program eligibility to include school psychologists;
- (3) Clarify the requirements and incentives of the national certification incentive program;
- (4) Specify that teacher incentives, bonuses, and compensation beyond regular wages are excluded from the per-pupil request and shall be included as separate line item in the budget for public charter schools; and

(5) Appropriate funds to pay for collectively bargained placement bonuses in hard-to-fill schools and national certification incentive program bonuses for public school teachers, public charter school teachers, and school psychologists.

Your Committee received testimony in support of this measure from the Department of Education, State Public Charter School Commission, Office of Hawaiian Affairs, Hawaii Association of School Psychologists, Hawaii State Teachers Association, Kamehameha Schools, and four individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Hawaii continues to suffer from a shortage of qualified teachers and that financial incentives are a key strategy for the recruitment and retention of teachers. National certified education professionals, including school psychologists, are critical to increasing learning growth for students, especially in hard-to-fill schools. Due to resource shortages and low pay experienced by educators working in high-need and economically impaired areas, it is critical to incentivize the pursuit of professional excellence and reward quality educators.

Your Committee has amended this measure by:

- (1) Clarifying the conditions related to employment by the Department of Education in which a school psychologist shall be eligible for the additional \$5,000 incentive; and
- (2) Specifying that the sums appropriated are separate line items to be expended by the Department of Education and State Public Charter School Commission, as appropriate.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 983, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 983, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 138 Human Services on S.B. No. 50

The purpose and intent of this measure is to amend the law relating to human services.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language appropriating funds to the University of Hawaii for the Hawaii Nutrition Employment and Training program.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 50, as amended herein, and recommends that it be recommitted to your Committee on Human Services, in the form attached hereto as S.B. No. 50, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Riviere).

## SCRep. 139 Transportation on S.B. No. 509

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Transportation, Highways Division.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Transportation, Highways Division in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- (1) Upon recommendation by the Department of Transportation, inserting funding for the program ID TRN597, to reflect an increase for fringe benefits and additional funding for the FAST Act 405D Impaired Driving MID project; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 509, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 509, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Shimabukuro).

## SCRep. 140 Human Services on S.B. No. 227

The purpose and intent of this measure is to make an appropriation to the Department of Human Services to contract with non-profit providers to provide access to legal counsel to immigrants in immigration proceedings.

Your Committee received testimony in support of this measure from Americans for Democratic Action Hawai'i, Aloha State Association of the Deaf, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and six individuals. Your Committee received testimony in opposition to this measure from the Honolulu County Republican Party. Your Committee received comments on this measure from the Department of Human Services and Department of the Attorney General.

Your Committee finds that there are many immigrants who seek to continue or obtain legal status in the country. However, the immigration court process is highly complex, which may be intimidating or overwhelming for immigrants who may struggle with navigating a different culture and language. Many immigrants may lack the resources to obtain legal representation, which may have a profound impact on the immigrants' ability to receive a fair hearing.

Your Committee further finds that Hawaii has always embraced a welcoming attitude for people of all backgrounds, nationalities, and ethnicities. According to the 2017 American Immigration Council Fact Sheet, nearly eighteen percent of Hawaii residents are immigrants, while more than one in seven residents is a native-born United States citizen with at least one immigrant parent. Immigrants are an integral part of Hawaii's diverse, multicultural community and make extensive contributions to the State.

Your Committee notes that, given the current political climate and the number of immigrants being detained and faced with deportation, immigrants in Hawaii are in dire need of legal help. For these reasons, your Committee recognizes the vital public policy reasons behind providing legal assistance and legal counsel to immigrants in immigration proceedings, which this measure ensures.

Your Committee has amended this measure by:

- (1) Inserting a purpose section;
- (2) Changing the appropriation from an unspecified amount to \$100,000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 227, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 227, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 141 Agriculture and Environment on S.B. No. 1351

The purpose and intent of this measure is to streamline and expand the Department of Agriculture's industrial hemp program by authorizing the Department of Agriculture to:

- (1) Allow temporary inspectors to perform industrial hemp inspections;
- (2) Adopt an alternative method of sampling industrial hemp plants; and
- (3) Deposit fees from inspections by temporary inspectors into the certification services revolving fund.

Your Committee received testimony in support of this measure from the Department of Agriculture; We Are One, Inc.; Momilani Farm; and nine individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Department of Agriculture's industrial hemp program only has one employee and needs more staff and resources to expand the program. Your Committee further finds that existing Department seed certifiers are located on three islands and can also perform inspections for the industrial hemp program.

Your Committee finds that this measure gives the Department of Agriculture the needed authority to allow temporary seed inspectors to inspect hemp, deposit inspection fees in the certification services revolving fund, and expand the industrial hemp program in an efficient manner. Your Committee notes that this measure does not include a fee structure but recommends that inspection fees follow a similar fee structure to that of the Department of Agriculture's seed inspections.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1351 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 142 Agriculture and Environment on S.B. No. 1545

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for a biofuel and animal feed facility in Keaau, Hawaii.

Your Committee received testimony in support of this measure from the Department of Agriculture, Agribusiness Development Corporation, Pacific Biodiesel, and Hawai'i Farm Bureau. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that this measure proposes funding for a biofuel and animal feed facility that is the product of a partnership between the Daniel K. Inouye U.S. Pacific Basin Agriculture Research Center and the Agribusiness Development Corporation to research and commercialize zero-waste processes. The focus of the partnership is to identify and transform agricultural waste streams into commercially viable products by processing papaya culls and using the resultant material to ultimately grow algae for biofuel and animal feed. Your Committee finds that this capital improvement project will reduce the impact of the agricultural industry on the environment and create new commercial opportunities for the industry.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1545 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 143 Agriculture and Environment on S.B. No. 1544

The purpose and intent of this measure is to improve food security and self-sufficiency in the State by encouraging the development and implementation of a whole farm system approach to agriculture in Hawaii, which includes establishing a farmer apprentice mentoring program.

Your Committee received testimony in support of this measure from the University of Hawai'i at Mānoa College of Tropical Agriculture and Human Resources, Pacific Agricultural Land Management Systems, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Down to Earth, Hawai'i Farmers Union United, Hawai'i Center for Food Safety, A'a Li'i Farm, Kulahaven Farms LLC, Hawai'i Farm Bureau, and twelve individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that there is a need to train current and future local farmers to create a more sustainable State. Your Committee further finds that this measure would establish a farmer apprentice mentoring program to teach farmers about methods to improve soil health through recycling soil nutrients, among other sustainable farming methods and practices. Overall, your Committee finds that this measure will improve food security and self-sufficiency in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1544 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 144 Transportation on S.B. No. 511

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Transportation, Airports Division.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Transportation, Airports Division in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- (1) Upon recommendation of the Department of Transportation, inserting debt service revenue bond increases to pay for outstanding revenue bonds; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 511, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 511, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Shimabukuro).

### SCRep. 145 Higher Education on S.B. No. 315

The purpose and intent of this measure is to appropriate funds to increase the graduate assistant stipend at the University of Hawaii.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Graduate Student Organization of the University of Hawaii at Manoa, Academic Labor United, and numerous individuals.

Your Committee finds that graduate assistants at the University of Hawaii provide academic and program support to academic, administrative, and service units of the university through teaching, research, administrative, and other duties. Graduate assistantships serve as a mechanism to recruit top graduate students to the university, providing graduate students with stipends to cover basic costs. Therefore, increasing the minimum stipend levels for graduate students at the University of Hawaii will positively impact recruitment and retention of graduate students, resulting in greater support for the research mission of the university.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 315 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 146 Higher Education on S.B. No. 317

The purpose and intent of this measure is to appropriate funds to support student mentors and tutors at the University of Hawaii community colleges.

Your Committee received testimony in support of this measure from the University of Hawai'i System and one individual.

Your Committee finds that the student mentor and tutor programs at the University of Hawaii community colleges provide a number of direct benefits that lead to higher levels of student retention and graduation. Peer mentors help students adjust to college life by offering a unique perspective on academic expectations, social opportunities, and available campus resources. Additionally, peer tutors offer a highly effective means of providing supplemental instruction, especially for some of the basic mathematics and English courses. This measure provides essential resources to ensure higher academic achievement and improved personal and social development for students at the community colleges.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 317 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 147 Higher Education on S.B. No. 318

The purpose and intent of this measure is to appropriate funds for three full-time equivalent (3.00 FTE) positions for the custodial and maintenance staff at the University of Hawaii at Hilo.

Your Committee received testimony in support of this measure from the University of Hawai'i System and one individual.

Your Committee finds that over the last five years, the University of Hawaii at Hilo campus has grown with the addition of two new buildings and a third building, the Daniel K. Inouye College of Pharmacy, scheduled to open in the summer of 2019. These additional facilities require upkeep and maintenance to interior and exterior spaces. This measure assists the University of Hawaii at Hilo with maintaining facilities and grounds to attract and retain students and employees who want to learn and work in a twenty-first century environment.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 318 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 148 Commerce, Consumer Protection, and Health on S.B. No. 19

The purpose and intent of this measure is to amend the calculation of surplus lines insurance premium tax to tax the entirety of the premium using the rate established by state law regardless of the location of risk.

Your Committee received testimony in support of this measure from the Wholesale and Specialty Insurance Association and American Property Casualty Insurance Association. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that surplus lines insurance premium tax is collected differently than standard insurance premium tax for admitted lines. In 2010, Congress passed the Nonadmitted and Reinsurance Reform Act as part of the Dodd-Frank Act, which establishes the insured consumer's "home state" as the one and only jurisdiction to regulate and tax surplus lines transactions, even if parts of the risk are located in other states. Since the Nonadmitted and Reinsurance Reform Act was passed, forty-six states have amended their laws to streamline the taxation of surplus lines premiums on multi-state policies, eliminating time-consuming computation, reporting, allocation, and reconciliation of state-by-state tax monies that ultimately are all retained by the home state.

Your Committee further finds that under existing law, risks that are located outside of Hawaii are taxed on the rate based on where the risk is located, rather than exclusively at the Hawaii tax rate of 4.68 percent. This results in unnecessary regulatory burdens for brokers, requires a different allocation of risk when a consumer resides or operates a business in multiple states, and adds costs of compliance, which ultimately impact the consumer. This measure adopts the provisions of the Nonadmitted and Reinsurance Reform Act, which will reduce regulatory burdens on local surplus lines brokers, simplify compliance procedures, increase nationwide uniformity in surplus lines taxation, and increase premium tax revenue for the State.

Your Committee has amended this measure by changing its effective date to October 1, 2019.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 19, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 19, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Fevella).

### SCRep. 149 Commerce, Consumer Protection, and Health on S.B. No. 911

The purpose and intent of this measure is to appropriate funds to the Hawaii Health Systems Corporation to improve health care services related to cardiac care at Hilo Medical Center.

Your Committee received testimony in support of this measure from the County of Hawai'i Office of the Mayor, Hawaii Health Systems Corporation, East Hawaii Region of Hawaii Health Systems Corporation, West Hawaii Region of Hawaii Health Systems Corporation, Hawaii Island Chamber of Commerce, Hawai'i State Rural Health Association, and over ninety individuals.

Your Committee finds Hawaii County residents suffering from heart problems or strokes are often airlifted to Oahu or Maui to receive critical medical care, yet outcomes for individuals experiencing a cardiac emergency are often determined by how quickly they can reach treatment. An evaluation and airlift to Oahu or Maui can take over two hours, decreasing patients' chances for a full recovery. According to testimony from the Hawaii Health Systems Corporation, Hawaii County has the population size and Hilo Medical Center has the intensive hospital support services and basic infrastructure to successfully deliver emergency cardiac interventions safely and cost-effectively. This measure will enable Hilo Medical Center to expand its offering of interventional cardiology, which will improve health outcomes for Hawaii County residents and ensure that Hilo Medical Center is able to provide these services to the Hilo community in a sustainable fashion.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 911 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Nishihara).

#### SCRep. 150 Commerce, Consumer Protection, and Health on S.B. No. 1214

The purpose and intent of this measure is to implement Section 106 of the U.S. Economic Growth, Regulatory Relief, and Consumer Protection Act (Section 106), which provides a one hundred twenty-day temporary transitional authority to originate loans in this State for loan originators moving from a depository institution to a non-depository institution and state-licensed loan originators moving interstate.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that when loan originators change jobs within the profession, they encounter employment barriers due to state licensing requirements. Nationally, approximately seventy-five percent of the mortgage loan originators who apply for a license would qualify for transitional authority because they are either employed by a depository institution or are licensed in another state. This measure integrates Section 106 into existing law relating to mortgage loan originators by temporarily authorizing qualified mortgage loan originators to originate mortgage loans in the State for one hundred twenty days. During this time, a mortgage loan originator will have the opportunity to complete state requirements for licensure, including pre-education or continuing education, financial responsibility review, and criminal background review, which will ease the employment process for employers without the impact of delays associated with the state licensing process. A mortgage loan originator company also remains responsible for any origination errors caused by a mortgage loan originator with transitional authority, which ensures consumer protection during this transitional period.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1214, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1214, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

## SCRep. 151 Ways and Means on S.B. No. 76

The purpose and intent of this short form bill is to amend the law relating to taxation.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with provisions that allow certain taxpayers to claim a nonrefundable income tax credit for the purchase of a personal emergency response system.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 76, as amended herein, and recommends that it be recommitted to your Committee on Ways and Means, in the form attached hereto as S.B. No. 76, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 6 (Harimoto, Kanuha, Kidani, Moriwaki, Shimabukuro, Fevella).

### SCRep. 152 Ways and Means on S.B. No. 1188

The purpose and intent of this measure is to make an emergency appropriation to fund payroll and administrative costs for the Hawaii Community Development Authority.

Your Committee received testimony in support of this measure from the Department of Transportation; Department of Business, Economic Development, and Tourism; and Hawaii Community Development Authority.

Your Committee finds that Hawaii Community Development Authority staff salaries for fiscal year 2018-2019 were funded by an appropriation from the Hawaii community development revolving fund. However, that appropriation did not include funds for fringe

benefit costs. Accordingly, this measure makes an additional appropriation to fully fund those salaries, fringe benefits, and administrative costs through the end of the current fiscal year.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1188, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1188, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 6 (English, Kahele, Kidani, Riviere, Shimabukuro, Fevella).

#### SCRep. 153 Ways and Means on S.B. No. 1238

The purpose and intent of this measure is to establish the Executive Office on Aging Administrative Claiming Special Fund to enhance the drawdown of Medicaid-related federal funds to be used to support services for kupuna and individuals with disabilities who need long-term services and support.

This measure also appropriates an unspecified amount out of the Executive Office on Aging Administrative Claiming Special Fund to be expended by the Department of Health.

Your Committee received testimony in support of this measure from the State Health Planning and Development Agency, the Executive Office on Aging, the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and the Maui County Office on Aging.

Your Committee finds that establishing the Executive Office on Aging Administrative Claiming Special Fund will enhance the drawdown of Medicaid-related federal funds, thereby optimizing revenue streams to support services for the especially vulnerable communities of kupuna and individuals with disabilities needing long-term services and support.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1238, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1238, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 6 (English, Kahele, Kidani, Riviere, Shimabukuro, Fevella).

### SCRep. 154 Ways and Means on H.B. No. 1

The purpose and intent of this measure is to appropriate funds for the expenses of the Legislature, Office of the Auditor, Legislative Reference Bureau, Office of the Ombudsman, and Hawaii State Ethics Commission.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission, Office of the Ombudsman, Legislative Reference Bureau, Office of the Auditor, and one individual.

Your Committee finds that this measure appropriates sufficient funds to defray the necessary expenses of the Senate and House of Representatives up to June 30, 2020, including session and nonsession expenses, the legislative information system cost items, the cost of the legislative broadcasting program, and certain employee vacation payments. This measure also appropriates sufficient funds to defray the necessary expenses of Office of the Auditor, Legislative Reference Bureau, Office of the Ombudsman, and Hawaii State Ethics Commission for fiscal year 2019-2020.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (English, Harimoto, Kidani, Taniguchi).

### SCRep. 155 Hawaiian Affairs on S.B. No. 1451

The purpose and intent of this measure is to establish  $L\bar{a}$   $K\bar{u}$  'oko'a, Hawaiian Recognition Day, and to remove Presidents' Day from the list of state holidays.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; INPEACE; Bishop Museum; Papa Ola Lōkahi; Kamehameha Schools; Hawaiian Civic Club of Hilo; We Are One, Inc.; Ku-A-Kanaka; Ka Lāhui Hawaii Political Action Committee; Prince Kūhiō Hawaiian Civic Club; The Association of Hawaiian Civic Clubs; Ke One O Kākuhihewa, Oʻahu Council – Association of Hawaiian Civic Clubs; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Democratic Party of Hawaii, Hawaiian Affairs Caucus; Democratic Party of Hawaii, Hawaiian Affairs Caucus Executive

Committee; and fourteen individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee finds that reestablishing Lā Kū'oko'a as an official state holiday is a way to restore important connections to Hawaii's rich cultural and political history. Establishing Lā Kū'oko'a is a means to honor the cultural foundations our modern state is built on and bring lessons from Hawaii's socially progressive history into the present.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1451 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 156 Hawaiian Affairs on S.B. No. 729

The purpose and intent of this measure is to require the display of candidates for the Board of Trustees of the Office of Hawaiian Affairs, on the ballot by residency and non-residency requirements and to randomize the order of candidate names within those groupings and among precincts.

Your Committee received testimony in support of this measure from the Council for Native Hawaiian Advancement, Pono Leadership Now, eight individuals, and a petition signed by twenty individuals. Your Committee received comments on this measure from the Office of Elections.

Your Committee finds that ballot order has been shown to affect election outcomes and the first name on the ballot generally has an advantage over names listed further down the ballot. Your Committee finds that under existing law, candidate names are placed on the ballot in alphabetical order, which results in candidates' ballot positions remaining relatively unchanged from election to election. Randomizing the names of candidates for the Board of Trustees of the Office of Hawaiian Affairs, so that the order of names changes each election and, furthermore, so that in each election the order of names varies in each precinct, will distribute more randomly any advantage that may arise from the order of candidates' names on the ballot.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 729 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 157 Hawaiian Affairs on S.B. No. 728

The purpose and intent of this measure is to align the partial public funding expenditure limit and maximum amount of public funds available for candidates running for the Board of Trustees of the Office of Hawaiian Affairs with the maximum limit and amount imposed on candidates running for the office of lieutenant governor.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Democratic Party of Hawaii – Hawaiian Affairs Caucus, Democratic Party of Hawaiii, Council for Native Hawaiian Advancement, and eight individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Campaign Spending Commission.

Your Committee finds that candidates running for the Board of Trustees of the Office of Hawaiian Affairs who voluntarily agree to participate in the partial public funding program run statewide campaigns but are provided substantially less partial public funding than other statewide candidates. This measure seeks to increase the partial public funding expenditure limit and maximum amount of public funds available for candidates for these Board of Trustees candidates. However, your Committee received testimony indicating that this measure, if enacted, would increase the expenditure limit for Board of Trustees candidates by seven hundred percent. Rather than proceed with such a significant increase, your Committee finds that a more reasonable approach to addressing the funding imbalance for Board of Trustees candidates is to increase only the \$1,500 cap on the maximum amount of public funds available to Board of Trustees candidates, leaving the partial public funding expenditure limit unamended.

Accordingly, your Committee has amended this measure by:

- Removing language to align the partial public funding expenditure limit for candidates for the Board of Trustees of the Office
  of Hawaiian Affairs with the limit imposed on candidates running for the office of lieutenant governor;
- (2) Increasing the maximum amount of public funds available in each election to each Board of Trustees of the Office of Hawaiian Affairs candidate from ten percent to fifteen percent of the expenditure limit established in section 11-423(d), Hawaii Revised Statutes, which the Campaign Spending Commission has indicated in testimony will increase the maximum amount from \$1,500 to \$21,383 per candidate, per election; and
- (3) Increasing the amount a candidate for the Board of Trustees of the Office of Hawaiian Affairs must raise to qualify for public funds from \$1,500 to \$5,000; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 728, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 728, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 158 Energy, Economic Development, and Tourism on S.B. No. 988

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to Mele Associates, Inc. for the provision of electric energy and installation of renewable energy projects in Hawaii.

Your Committee received testimony in support of this measure from Mele Associates, Inc. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Hawaii is well-suited to harness strong trade winds and abundant sunlight as renewable energy to combat climate change and that Mele Associates, Inc., has experience installing renewable energy projects through financing by special purpose revenue bonds. This measure authorizes special purpose revenue bonds to be issued for renewable energy projects, which are in the public interest and for the public health, safety, and general welfare.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 988 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Inouye).

## SCRep. 159 Energy, Economic Development, and Tourism on S.B. No. 1002

The purpose and intent of this measure is to extend the authorization to issue special purpose revenue bonds to assist Honolulu Seawater Air Conditioning, LLC, under Act 113, Session Laws of Hawaii 2009, as amended by Act 150, Session Laws of Hawaii 2014, until June 30, 2024.

Your Committee received testimony in support of this measure from 350Hawaii; Honolulu Seawater Air Conditioning, LLC; and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that under existing law, the authorization to issue special purpose revenue bonds for Honolulu Seawater Air Conditioning, LLC will expire on June 28, 2019. Due to delays in permitting and regulatory reviews and closings of key customer agreements, Honolulu Seawater Air conditioning, LLC, postponed its earlier sale of special purpose revenue bonds. With construction slated to begin in early 2020, Honolulu Seawater Air conditioning, LLC, expects to use all of its authorized bonds within the next two years. The extended authorization to issue bonds, proposed by this measure, is an important element in securing economically feasible project financing.

Your Committee further finds that upon completion Honolulu Seawater Air conditioning, LLC's, downtown Honolulu project is anticipated to service approximately 14 million square feet of building space, create numerous construction-related jobs, establish the State as a leading authority on the development of seawater air conditioning systems, and have positive environmental benefits.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1002 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Inouye).

### SCRep. 160 Education on S.B. No. 818

The purpose and intent of this measure is to:

- (1) Establish licensure requirements for school psychologists to be administered by the Hawaii Teacher Standards Board; and
- (2) Specify that school psychologists who are employed by an educational institution and practice only within a school setting shall be exempt from licensure under chapter 465, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Hawai'i Teacher Standards Board, Hawai'i Association of School Psychologists, and one individual. Your Committee received testimony in opposition to this measure from the Hawai'i Psychological Association. Your Committee received comments on this measure from the Department of Education, Department of the Attorney General, University of Hawai'i System, and Board of Psychology.

Your Committee finds that school psychologists provide effective services to help children and youth succeed academically, socially, behaviorally, and emotionally by providing direct educational and mental health services for children and youth, as well as working with parents, educators, and other professionals to create supportive learning and social environments for all children. Your Committee further finds that Hawaii is the only state without certification of licensure for school psychologists, resulting in the State being unable to seek warranted reimbursements from the federal medicaid program for the use of school psychologists in an educational setting. This measure establishes a licensure program to ensure the employment of qualified school psychologists and to allow schools utilizing school psychologists to properly seek available federal medicaid funds.

Your Committee has amended this measure by:

- Specifying that the Hawaii Teacher Standards Board shall determine the manner in which an individual may obtain a license to practice school psychology;
- (2) Deleting language that specified the duties of a licensed school psychologist;

- (3) Deleting language that would have established initial school psychologist licenses and continuing school psychologist licenses; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 818, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 818, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

### SCRep. 161 Education on S.B. No. 1158

The purpose and intent of this measure is to establish a general excise tax holiday for consumers and businesses for school supplies sold during the weekend prior to the start of the school year on condition that businesses pass the savings on to consumers.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association and one individual. Your Committee received comments on this measure from the Department of Taxation, Department of Education, Department of the Attorney General, and Tax Foundation of Hawaii.

Your Committee finds that Hawaii taxpayers are some of the most overburdened taxpayers in the nation. This burden is most severe when consumers are taxed on critical items needed for school. Additionally, several states have temporary state sales tax holidays. A school supply tax holiday would have the effect of stimulating retail sales and help consumers and retailers alike. This measure allows for residents of this State to retain more of their money to spend in more beneficial ways.

Your Committee has amended this measure by:

- (1) Specifying that the school supply tax holiday shall take place on the weekend two weeks, rather than one week, prior to the first day of public school;
- (2) Deleting language that would have prohibited the exemption of the general excise tax for mail, telephone, electronic mail, or internet orders with businesses operating outside the State;
- (3) Specifying that the general excise tax holiday shall apply to businesses operating with a general excise tax license from the Department of Taxation;
- (4) Expanding the definition of "school supply" to include textbooks; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1158, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1158, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 162 Commerce, Consumer Protection, and Health on S.B. No. 25

The purpose and intent of this measure is to amend the law relating to insurance.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language that amends various portions of the insurance code.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 25, as amended herein, and recommends that it be recommitted to your Committee on Commerce, Consumer Protection, and Health, in the form attached hereto as S.B. No. 25, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Nishihara, Fevella).

### SCRep. 163 Transportation on S.B. No. 512

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Transportation, Harbors Division.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Transportation, Harbors Division in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

 Upon recommendation by the Department of Transportation, reducing the funding for the special maintenance program for program ID TRN395/CB; and (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 512, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 512, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Shimabukuro).

### SCRep. 164 Hawaiian Affairs on S.B. No. 1295

The purpose and intent of this measure is to amend the election process for the Office of Hawaiian Affairs Board of Trustees so that:

- (1) Of the four at-large seat candidates without an island residency requirement, two must reside in an urban district and two must reside in the rural district; and
- (2) One urban district candidate and one rural district candidate shall be elected in any election cycle.

Your Committee received testimony in support of this measure from Ho'omana Pono, LLC; Democratic Party of Hawaii – Hawaiian Affairs Caucus Executive Committee; and two individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Office of Elections.

Your Committee finds the population disparity between urban and rural residents generally results in the election of Office of Hawaiian Affairs Board of Trustees candidates who prioritize urban concerns over the concerns of rural residents. Your Committee further finds that because all Board of Trustees candidates participate in statewide elections, urban voters distort elections even for island-specific seats. Therefore, your Committee finds that removing the statewide element of Board of Trustees elections will ensure more accurate representation of and accountability to Office of Hawaiian Affairs constituents.

Your Committee has amended this measure by:

- (1) Limiting voting for Board of Trustees seats with an island or district residency requirement to voters who are residents of the same island or district, respectively;
- (2) Making the new election procedures applicable beginning on January 1, 2024, with the term reduction provision to apply to one trustee elected at the General Election of 2022;
- (3) Changing the effective date to January 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee finds that the amendments to this measure may raise constitutional concerns that merit further consideration and requests that your Committee on Judiciary further examine those issues and concerns should your Committee on Judiciary choose to hear this measure.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1295, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1295, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 165 Ways and Means on S.B. No. 494

The purpose and intent of this measure is to dispose of excess general revenues pursuant to article VII, section 6, of the Hawaii State Constitution.

More specifically, this measure:

- (1) Provides a one-time income tax credit;
- (2) Reappropriates general revenues into the emergency and budget reserve fund; and
- (3) Reappropriates general revenues into the other post-employment benefits trust fund.

Your Committee received comments on this measure from the Department of Budget and Finance and the Tax Foundation of Hawaii.

Your Committee finds that when the balance of the general fund at the close of each of two successive fiscal years has exceeded five per cent of the general fund revenues for both fiscal years, article VII, section 6, of the Hawaii State Constitution requires the Legislature to:

- (1) Provide a tax refund or tax credit to state taxpayers;
- (2) Make a deposit into the emergency and budget reserve fund; or
- (3) Appropriate general funds for:

- (A) Debt service of general obligation bonds issued by the State; or
- (B) Deposit into the other post-employment benefits trust fund.

Your Committee further finds that the aforementioned economic conditions have been met, and that this measure allows the Legislature to decide which of the three constitutionally mandated options is preferable.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 494, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 494, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Kidani, Taniguchi).

#### SCRep. 166 Agriculture and Environment on S.B. No. 1359

The purpose and intent of this measure is to require and appropriate funds for the Department of Agriculture to conduct a management and financial audit of the Agribusiness Development Corporation.

Your Committee received testimony in support of this measure from eleven individuals. Your Committee received comments on this measure from the Agribusiness Development Corporation; Office of the Auditor; Department of Agriculture; We Are One, Inc.; Hawai'i Alliance for Progressive Action; Momilani Farm; and seventeen individuals.

Your Committee finds that auditing the Agribusiness Development Corporation would provide greater transparency to the public and help ensure that monies appropriated by the Legislature to the Agribusiness Development Corporation align with the regulations and parameters attached to those funds.

Your Committee notes that there is controversy over whether the Department of Agriculture or the State Auditor should conduct the management and financial audit of the Agribusiness Development Corporation. Your Committee respectfully requests your Committee on Ways and Means to consider the recommendations in the State Auditor's testimony.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$100,000 for the Department of Agriculture to conduct a management and financial audit of the Agribusiness Development Corporation; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1359, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1359, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 167 Judiciary on S.B. No. 97

The purpose and intent of this measure is to require:

- (1) The Office of Elections to join the Electronic Registration Information Center; and
- (2) The State and each county to use the Electronic Registration Information Center to verify voter rolls.

Your Committee received testimony in support of this measure from the Office of Elections, League of Women Voters of Hawaii, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaiii. Your Committee received comments on this measure from the County Clerk of the County of Kauaii.

Your Committee finds that the participation of eligible voters is important to a healthy democracy. Your Committee further finds that voter registration systems are frequently inefficient and prone to error. This measure will require the Office of Elections and the counties to work with the Electronic Registration Information Center to maintain the accuracy of voter registration rolls in Hawaii. Your Committee additionally finds that election officials and the voter registration system require authorization to access driver's license and civil identification card databases in order to successfully work with the Electronic Registration Information Center.

Accordingly, your Committee has amended this measure by:

- (1) Authorizing election officials and the voter registration system to electronically access driver's license and civil identification card databases; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 97, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 97, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

### SCRep. 168 Judiciary on S.B. No. 105

The purpose and intent of this measure is to clarify that jurors are entitled to reimbursement for reasonable transportation costs to and from the court, including rail fare, bicycle rental, or taxi costs or other hired car services up to a specified amount.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that most citizens of Hawaii who are at least eighteen years old are eligible to be summoned to serve on a jury. Your Committee further finds that the costs associated with service on a jury, including the cost of traveling to and from the courthouse, can be a burden to some jurors. This measure clarifies that the juror travel expenses eligible for reimbursement are not limited to a flat rate per mile travelled or bus fare.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 105 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Gabbard).

#### SCRep. 169 Judiciary on S.B. No. 206

The purpose and intent of this measure is to increase the amount of fines that may be assessed:

- (1) Against a noncandidate committee for violations of organizational report requirements; and
- (2) For violations of advertisement requirements.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and one individual.

Your Committee finds that campaign spending and disclosure requirements are important to the health of the electoral process. Your Committee further finds that fines and other penalties should ideally be flexible enough to be an effective deterrent to candidate and noncandidate committees of various levels of financial resources. Your Committee additionally finds that linking the maximum fine amount to the level of expenditure made by the violating committee is an effective way to accomplish that flexibility. Your Committee also finds that it would be impracticable for the Campaign Spending Commission to determine the total amount of contributions and expenditures of a committee at the time of a violation, and that basing the maximum amount of the fine for a violation off a percentage of the total expenditure for a violating advertisement is more efficient.

Your Committee has amended this measure by:

- (1) Increasing the minimum fine for campaign advertising disclaimer violations to \$150; and
- (2) Changing the maximum fine for campaign advertising disclaimer violations to twenty-five percent of the total expenditure for the advertisement lacking the proper disclaimer.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 206, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 206, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Gabbard).

### SCRep. 170 Judiciary on S.B. No. 288

The purpose and intent of this measure is to appropriate funds for the Department of the Attorney General.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that this measure provides a legislative vehicle should funding become available for the purposes of this measure prior to the end of the 2019-2021 fiscal biennium. Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

Your Committee notes the testimony of the Department of the Attorney General requesting \$83,197,833 in funding for fiscal year 2019-2020 for programs ATG100 and ATG231, comprising 470.33 permanent positions and 66.72 temporary positions, and \$82,939,033 in funding for fiscal year 2020-2021 for programs ATG100 and ATF231, comprising 469.78 permanent positions and 66.72 temporary positions.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 288 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Gabbard).

### SCRep. 171 Judiciary on S.B. No. 852

The purpose and intent of this measure is to clarify that reimbursement to crime victims includes lost earnings, mental health treatment, counseling, and therapy.

Your Committee received testimony in support of this measure from the Hawai'i Psychological Association, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual.

Your Committee finds that ambiguity exists as to what losses are eligible for reimbursement to victims of crimes. Your Committee further finds that losses suffered by victims of crimes can include things such as the cost of damaged or stolen property and hospitalization, as well as lost earnings and the cost of mental health treatment. Your Committee additionally finds that in order for the victim of a crime to be made as whole as possible, a broader range of losses should be explicitly made eligible for reimbursement, which is what this measure aims to do.

Your Committee has amended this measure by:

- (1) Removing redundant statutory language;
- (2) Changing the effective date to July 1, 2019; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 852, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 852, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Gabbard).

### SCRep. 172 Education on S.B. No. 912

The purpose and intent of this measure is to:

- (1) Allow charter schools to use appropriated funds for facilities improvement, rental, and construction, as well as other infrastructure improvements; and
- (2) Appropriate funds for the State Public Charter School Commission to allocate to charter schools for facilities and infrastructure improvements.

Your Committee received testimony in support of this measure from the State Public Charter School Commission, Office of Hawaiian Affairs, Hawaii State Teachers Association, Kamehameha Schools, and Democratic Party of Hawaii Education Caucus.

Your Committee finds that facilities funding is the greatest financial burden upon public charter schools. As a result, many charter schools improvise by using temporary structures for instruction. By providing resources for facilities and infrastructure improvements, these public charter schools can continue to provide quality education in facilities that help to ensure the financial, academic, and organizational health of public charter schools.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 912, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 912, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

## SCRep. 173 Education on S.B. No. 937

The purpose and intent of this measure is to appropriate funds for the State Public Charter School Commission to allocate to charter schools for meal service costs.

Your Committee received testimony in support of this measure from the Department of Education, State Public Charter School Commission, Kualapu'u Public Conversion Charter School, Waimea Middle School, Hawaii State Teachers Association, Hawaii Appleseed Center for Law and Economic Justice, Hoʻokākoʻo Corporation, and three individuals.

Your Committee finds that there are thirty-seven charter schools serving approximately twelve thousand students, all of whom should have equal access to appropriate food services, but this is currently not the case. A majority of public charter school students meet the poverty threshold for free or reduced lunch; however, many charter schools report that they are unable to access National School Lunch Program subsidies for a number of reasons. As a result, these schools must either ask students to bring their own lunch or purchase lunch from a vendor or provide lunch to students at the free or reduced rate and waive the subsidy, neither of which is satisfactory or fair to the schools and their students. Providing equal access to food services for charter school students ensures that all public school students are provided quality education and school meals.

Your Committee notes that the Department of Education should find ways to collaborate with public charter schools so that all students have access to appropriate food services.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 937, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 937, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

#### SCRep. 174 Education on S.B. No. 970

The purpose and intent of this measure is to require and appropriate funds for the Department of Education to establish a program with eligible entities to develop and implement teacher professional development for computer science courses and content.

Your Committee received testimony in support of this measure from the Department of Education and Hawaii State Teachers Association.

Your Committee finds that there is a disparity between the demand for computer science education and its availability as only forty percent of schools offer such courses. The integration and prioritization of computer science curriculum in public schools begins with teachers receiving relevant training. This measure ensures that teachers will receive high-quality professional development in computer science to prepare students for fields related to computer science that have the potential to drive job growth and innovation throughout the economy.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 970 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

### SCRep. 175 Education on S.B. No. 971

The purpose and intent of this measure is to appropriate funds for a scholarship program to be directed and administered by the Department of Education to make awards to students pursuing a degree in teaching at a state accredited institution of higher education for successful completion of one course in computer science.

Your Committee received comments on this measure from the Department of Education.

Your Committee finds that there is a disparity between the demand for computer science education and its availability as only forty percent of schools offer such courses. In order to compete nationally and globally, Hawaii students need access to comprehensive, grade appropriate computer science courses taught by teachers who are educated in computer science. This measure encourages students who are pursuing a degree in teaching to complete at least one computer science course and heightens the importance of computer science skills, knowledge, and disposition.

Your Committee notes that although the appropriation is blank, an appropriation amount of \$100,000 is necessary to establish and administer the scholarship program for students pursing a degree in teaching and who successfully complete one course in computer science.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 971 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

## SCRep. 176 Education on S.B. No. 1515

The purpose and intent of this measure is to:

- (1) Establish the Hawaii three to six out-of-school program;
- (2) Create the Hawaii three to six out-of-school program special fund;
- (3) Provide a single funding source to fund after-school programs included in the Hawaii three to six out-of-school program; and
- (4) Appropriate funds for the Hawaii three to six out-of-school program.

Your Committee received testimony in support of this measure from the Department of Education, Kamehameha Schools, Hawaii Youth Services Network, Hawaii Afterschool Alliance, Pacific American Foundation, Kū-A-Kanaka LLC, Kama'aina Kids, and three individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that out-of-school programs can complement learning and expose students to the arts, culture, literacy, fitness, math, science, character development, and community service. However, many out-of-school programs offered by community organizations are expensive and often inaccessible due to the high demand for services driven by lack of out-of-school programming throughout the State. This measure provides support for out-of-school programs in the State to provide youth with a variety of educational out-of-school activities that build character and self-esteem.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1515 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

### SCRep. 177 Human Services on S.B. No. 230

The purpose and intent of this measure is to specify that a minor may consent to emergency shelter if a provider of no cost emergency shelter and services is coordinating with child welfare service.

Your Committee received testimony in support of this measure from the LGBT Caucus of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Human Services and Hawaii Youth Services Network.

Your Committee finds that additional shelter and transitional living beds are currently needed for minors. Homeless minors would benefit from shelter and services programs designed for young adults aged twenty-four or younger who have similar developmental, educational, and workforce preparation needs. This measure is intended to expand the number of shelter beds available to unaccompanied minors by providing a minor with the ability to consent to emergency shelter services if a provider of a no-cost emergency shelter and services is coordinating with Child Welfare Services.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 230 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 178 Human Services on S.B. No. 1022

The purpose and intent of this measure is to establish a Child Welfare Services Task Force to review the Child Welfare Services Branch and examine best practices that will help to improve child care safety through the Child Welfare Services Branch.

Your Committee received testimony in support of this measure from East Hawaii Friends of Foster Families, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and four individuals. Your Committee received comments on this measure from the Department of Human Services, Hawaii Family Advocacy Team, and one individual.

Your Committee finds that in a 2017 review conducted by the Federal Department of Health and Human Services Administration for Children and Families, the Child Welfare Services Branch was found to have made no improvements from the previous evaluation conducted in 2009. The review further stated that the Child Welfare Services Branch only met five of the seven systematic factor categories, which were identical to the results in the 2009 evaluation. Your Committee further finds that there are other concerns about the Child Welfare Services Branch, including vacant positions within the agency, insufficient quality and frequency of caseworker visits, children remaining in foster care beyond fifteen months with no viable goal, and maltreatment allegations in pending cases not being formally investigated. This measure establishes a task force to directly address these concerns and make legislative recommendations to improve the Child Welfare Services Branch and provide the necessary protections for the State's children.

Your Committee has amended this measure by:

- Amending the composition of the task force to include a current or former foster youth, resource caregiver, biological parent of
  a current or former foster youth, and frontline Child Welfare Services social worker, to be appointed by the Department of
  Human Services;
- (2) Clarifying that the Department of Human Services may appoint additional members to the task force; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1022, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1022, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 179 Human Services on S.B. No. 569

The purpose and intent of this measure is to:

- (1) Include programs and activities that receive federal financial assistance, other than Department of Education and charter schools, within the meaning of programs and activities receiving state financial assistance;
- (2) Reiterate the Legislature's intent of ensuring non-discriminatory access to state financially assisted programs, as it relates to the Hawaii Civil Rights Commission's jurisdiction; and
- (3) Exclude public and charter schools from the Hawaii Civil Rights Commission's disability discrimination jurisdiction.

Your Committee received testimony in support of this measure from the Hawaii Civil Rights Commission, Disability and Communication Access Board, and LGBT Caucus of the Democratic Party of Hawai'i. Your Committee received testimony in opposition to this measure from the University of Hawai'i System. Your Committee received comments on this measure from Hawaii Disability Rights Center.

Your Committee finds that since its enactment, section 368-1.5, Hawaii Revised Statutes (HRS), has been the state counterpart to Section 504 of the federal Rehabilitation Act, which prohibits disability discrimination in federally-funded programs and services. However, in a 2017 Hawaii Supreme Court case, *Hawaii Technology Academy and the Department of Education v. L.E. and Hawaii Civil Rights Commission*, the court held that section 368-1.5, HRS, did not apply if protections under Section 504 were applicable.

Unfortunately, this decision rendered section 368-1.5, HRS, nearly superfluous, as nearly all state departments receive federal funds and are subject to Section 504, and eliminated an avenue of redress for Hawaii residents who believe they have been aggrieved. Your Committee further finds that this measure returns section 368-1.5, HRS, to its original legislative intent and again provides an avenue for state jurisdiction in the investigation of complaints of discrimination on the basis of disability in programs receiving state financial assistance.

Your Committee has amended this measure by:

- Deleting language that would have excluded Department of Education and charter schools from the Hawaii Civil Rights Commission's jurisdiction over disability discrimination claims; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 569, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 569, S.D. 1, and be referred to your Committees on Labor, Culture and the Arts and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

SCRep. 180 (Joint) Human Services and Agriculture and Environment on S.B. No. 390

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to create a dollar-for-dollar matching program for beneficiaries of the federal Supplemental Nutrition Assistance Program (SNAP) to purchase Hawaii-grown produce; and
- (2) Appropriate funds for administration of the program and to provide matching funds to SNAP beneficiaries.

Your Committees received testimony in support of this measure from the Department of Health; American Heart Association; Obesity Prevention Task Force; K & R Enterprises; Hawai'i Primary Care Association; Hawai'i Alliance for Community-Based Economic Development; AlohaCare; Hawaii Food Industry Association; Kaho'omiki, the Hawai'i Council of Physical Activity and Nutrition; Hawaii Foodbank; Hawaii Appleseed Center for Law and Economic Justice; O'ahu County Committee of Legislative Priorities of the Democratic Party of Hawai'i; We Are One, Inc.; Humanity's Team; American Diabetes Association; Sierra Club of Hawai'i; Local Food Coalition; Blue Zone Projects; Hawai'i Farm Bureau; Ka Ohana O Na Pua; Maui Farmers Union United; A'a Li'i Farm; Hawai'i Public Health Institute; Maui Mobile Marine; Hawaii Farmers Union; Green Wheel Food Hub; Lokoea Farms; Hawai'i Center for Food Safety; Hawai'i Community Foundation; and over forty individuals. Your Committees received comments on this measure from the Department of Human Services and Department of Agriculture.

Your Committees find that consumption of fresh fruits and vegetables are in integral part of a healthy diet and central to the prevention of obesity and chronic disease. Your Committees also find that every community should have access to fresh and healthy dietary options, but the high cost of fresh produce often makes this difficult. This challenge is felt acutely by participants in the federal SNAP, a low-income population that struggles to afford healthy food. Your Committees further find that a double up food program would expand the access to healthy foods for low-income residents who are eligible for SNAP benefits and would also provide a financial benefit to local growers by requiring the Department of Agriculture to develop a dollar-for-dollar matching program for SNAP beneficiaries who use their benefits to purchase Hawaii-grown produce. Your Committees find that this measure provides a mechanism by which low-income residents can have greater access to locally grown fresh foods and at the same time support local farmers.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 390, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 390, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella). Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 181 Government Operations on S.B. No. 698

The purpose and intent of this measure is to codify the seventeen United Nations' Sustainable Development Goals and incorporate existing State sustainability goals, such as the Aloha+ Challenge, Sustainable Hawai'i Initiative, and World Conservation Congress Hawaii Commitments.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Transportation, Department of Agriculture, Department of Human Services, Office of Hawaiian Affairs, Office of Planning, The Nature Conservancy, Kamehameha Schools, Hawaii Green Growth Local 2030 Hub, Planned Parenthood Votes Northwest and Hawaii, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Surfrider Foundation Hawaii Chapter, Sierra Club of Hawaii, and five individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that environmental conservation and sustainability are of utmost importance to combat the impacts of climate change in Hawaii. However, existing state law lacks measurable goals and enforcement mechanisms and needs to be refined. Your Committee further finds that the United Nations' Sustainable Development Goals are a set of seventeen guidelines that represent a

commitment to conservation, sustainability, and economic development. Codifying these goals will supplement the State's existing sustainability goals, empower collective government and private conservation efforts in Hawaii to preserve and improve the State's communities and environment, and contribute to global efforts designed to build a more sustainable future for the world.

Your Committee supports the adoption of the Sustainable Development Goals, but notes that further discussion is needed regarding certain aspects of this measure. Specifically, your Committee encourages the reexamination of all benchmark deadlines in this measure, due to their immediacy, including but not limited to the 2020 deadline for managed and diversified seed and plant banks, as stated in Goal 2; the 2020 deadline to double local food production, as stated in Goal 2; and the 2020 deadline to regulate fisheries, as stated in Goal 14.

Your Committee also requests the reexamination of benchmark accomplishment percentages throughout this measure, including but not limited to protecting thirty percent of priority watersheds, as stated in Goal 6, and conserving thirty percent of coastal and marine areas, as stated in Goal 14. Your Committee notes that further clarification of these percentages is also needed, including the potential to add completion dates for these percentages and whether there is a need to increase the percentages beyond any accompanying completion date.

Your Committee understands the concerns about renewable energy and believes that further discussion is needed regarding whether to amend or define certain definitions. Specifically, your Committee has heard the testimony that Goal 7, relating to affordable and clean energy, may need to be clarified. Although Goal 7 currently references "cleaner fossil-fuel technology", your Committee is concerned that any mention of fossil fuels in Goal 7 would be misaligned with the underlying intent of the sustainable clean energy goal.

Your Committee also encourages clarification of specifics for any request for support, including increased capacity and funding, as indicated in the testimony from the Departments of Land and Natural Resources, Transportation, Agriculture, and Human Services and the Office of Planning.

Finally, your Committee would like to emphasize that, pursuant to the State Constitution and statutory mandates, it is important to identify Important Agricultural Lands (IAL) to ensure long term dedication of land for agricultural production and preservation from non-agricultural development. Your Committee recommends incorporating this metric as a measure of success for the goals relating to sustainable food production and health.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 698, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 698, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 182 Government Operations on S.B. No. 647

The purpose and intent of this measure is to increase the membership of the State Capitol Management Committee by including the Lieutenant Governor and the Lieutenant Governor's Chief of Staff and prohibit the Lieutenant Governor from being represented on the committee by a designee.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor. Your Committee received comments on this measure from one individual.

Your Committee finds that currently, the Lieutenant Governor is not part of the State Capitol Management Committee. Your Committee further finds that adding the Lieutenant Governor to the State Capitol Management Committee as its chairperson and requiring an annual report regarding the Committee's work, recommendations, and expenditures will promote transparency.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the Lieutenant Governor to submit an annual report to the Legislature regarding the State Capitol Management Committee detailing the number of meetings; outcomes or actions; and number, dollar amount, and purpose of each Committee expenditure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 647, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 647, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 183 Government Operations on S.B. No. 500

The purpose and intent of this measure is to expand the duties and responsibilities of the Lieutenant Governor to include managing and overseeing public tours of the state capitol, managing vacancies on state boards and commissions, processing applications to serve on boards and commissions, and any other applicable administrative duties.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Office of the Governor and Office of the Lieutenant Governor.

Your Committee finds that currently, the duties of the Lieutenant Governor are not specifically defined. This measure expands the duties and responsibilities of the Lieutenant Governor to include managing and overseeing public tours of the state capitol and certain aspects of the state board and commission process.

Your Committee further finds that boards and commissions have traditionally been a gubernatorial function. Amendments are therefore needed to ensure that much of the oversight of state boards and commissions remains with the Governor.

According to testimony from the Office of the Governor, the Governor and Lieutenant Governor are currently working together on a strategy to collaborate more effectively. Collaboration between the Offices of the Governor and Lieutenant Governor is important, however, so is a more specific definition of the administrative role of the Lieutenant Governor. Your Committee respectfully requests that the Offices of the Governor and Lieutenant Governor bring forward any further clarifications about the role of the Lieutenant Governor as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Clarifying that the duties and functions of the Lieutenant Governor include only the maintenance and publication of a list of vacancies on state boards and commissions;
- (2) Deleting other proposed administrative duties and functions of the Lieutenant Governor relating to state boards and commissions, including management of vacancies and processing of applications; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 500, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 500, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 184 Commerce, Consumer Protection, and Health on S.B. No. 712

The purpose and intent of this measure is to amend the Hawaii Real Property Tax Act by removing foreign partnerships, foreign limited liability companies, and foreign limited liability partnerships from the definition of "resident person".

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Taxation, Department of the Attorney General, and Tax Foundation of Hawaii.

Your Committee finds that the Hawaii Real Property Tax Act (HARPTA) is a method of collecting taxes that may be due on a real estate transaction. Your Committee notes that as HARPTA is not a tax on real estate transactions and Hawaii's state income tax requirements apply equally to residents and nonresidents, this measure does not impose a burden on interstate commerce. Furthermore, residents and nonresidents must both pay Hawaii income tax on capital gains recognized on the sale of real property located in Hawaii, unless the gain can be excluded under Hawaii income tax law. Many nonresidents never realized they were subject to Hawaii taxation and did not file a Hawaii income tax return or pay taxes when they sold a Hawaii property. HARPTA therefore requires a purchaser to withhold a percentage of the sales price when acquiring Hawaii real property from a nonresident seller and remit the amount withheld directly to the State. However, sellers and transferors who are Hawaii resident persons are exempt from this requirement. This measure removes foreign partnerships, foreign limited liability companies, and foreign limited liability partnerships from the definition of "resident person", making these entities ineligible for the HARPTA withholding exemption.

Your Committee has amended this measure by:

- (1) Clarifying the foreign entities that are expressly excluded from the definition of "resident person" under HARPTA;
- (2) Specifying that the measure applies to taxable years beginning after December 31, 2019; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 712, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 712, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Nishihara).

# SCRep. 185 Commerce, Consumer Protection, and Health on S.B. No. 1027

The purpose and intent of this measure is to require health insurance policies and contracts issued after December 31, 2019, to provide coverage for the cost of hearing aids, up to \$1,500 per hearing aid for each hearing-impaired ear, with replacement coverage provided every thirty-six months.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board; Oʻahu County Committee on Legislative Priorities of Democratic Party of Hawaiʻi; Isle Interpret, LLC; AARP of Hawaii; and three individuals. Your Committee received comments on this measure from the Department of the Attorney General, Department of Commerce and Consumer Affairs, and Hawaii Medical Service Association.

Your Committee finds that hearing aids are expensive and current insurance is limited and requires a large co-payment. This prevents many individuals and families from obtaining hearing aids that would improve their access to information, quality of education, communication abilities, quality of life, and employment opportunities. Your Committee further finds that approximately

eighty-five percent of individuals with hearing loss go untreated, which ultimately results in higher health care costs and longer hospitalization, readmissions, and more visits to an emergency room. Your Committee further finds that in 2014, the Auditor submitted a sunrise study on the advisability of mandating insurance coverage for hearing aids, as proposed in S.B. No. 309, S.D. 1, Regular Session of 2013. The 2014 Auditor's report found that most insurance plans in Hawaii already covered or planned to cover the cost of hearing aids by 2015 but expressed concerns that S.B. No. 309, S.D. 1, had no limits on coverage, such as minimum or maximum costs covered by insurers or frequency of replacement. This measure addresses the concerns raised in the 2014 Auditor's report and includes a minimum coverage benefit of \$1,500 per hearing aid for each hearing-impaired ear every thirty-six months. Accordingly, a second impact assessment report is unnecessary.

Your Committee has heard the testimony from the Departments of the Attorney General and Commerce and Consumer Affairs, regarding the possibility that the mandated benefit under this measure may be considered an additional mandate for qualified health plans, which could potentially require state funds to defray the cost. Your Committee acknowledges these concerns and requests further consideration of these financing concerns by your Committee on Ways and Means.

Your Committee has amended this measure by:

- Clarifying that this measure shall be exempt from the Auditor's impact assessment report requirement under section 23-51, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1027, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1027, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

### SCRep. 186 Commerce, Consumer Protection, and Health on S.B. No. 1246

The purpose and intent of this measure is to establish permanent resources, including a telehealth advisory council, state telehealth coordinator, and telehealth administrative simplification working group, to help achieve Hawaii's goal of establishing telehealth as a community standard for health care access.

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i Psychological Association, Healthcare Association of Hawaii, Hawai'i Primary Care Association, Hawaii Chapter of the American Physical Therapy Association, The Queen's Health Systems, and Hawaii Medical Service Association. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that telehealth is a proven way to facilitate timely access to quality health care, improve health outcomes, reduce the incidence of avoidable urgent and emergency care, and ensure equitable distribution of health care providers. Telehealth allows health care providers to treat patients in settings that are more convenient and comfortable for the patient, which facilitates a patient-centered approach for delivery of health care services.

Despite the removal of several long-standing barriers to telehealth adoption, telehealth utilization remains low. Your Committee finds this measure increases the visibility of telehealth, provides the Department of Health and its partners resources needed to continue working with community stakeholders, and moves the State closer to achieving its telehealth goals.

Your Committee has amended this measure by:

- (1) Amending the definition of "telehealth" for conformity with existing definitions under the State's insurance laws;
- Clarifying certain requirements for the Strategic Telehealth Advisory Council, including the maximum number of members and selection of a chairperson;
- $(3) \quad \text{Establishing quorum requirements for the Strategic Telehealth Advisory Council}; \\$
- (4) Clarifying the role and responsibilities of the telehealth administrative simplification working group and clarifying that the working group is exempt from the sunshine law, rather than the entirety of chapter 92, Hawaii Revised Statutes;
- (5) Making the appropriation for the state telehealth coordinator position effective on July 1, 2019; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1246, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1246, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Nishihara).

### SCRep. 187 Commerce, Consumer Protection, and Health on S.B. No. 1410

The purpose and intent of this measure is to appropriate funds to increase the bed count at the Ka'u Hospital emergency room by four beds.

Your Committee received testimony in support of this measure from the County of Hawai'i Office of the Mayor and Ka'u Hospital and Rural Health Clinic.

Your Committee finds that the Ka'u Hospital emergency department serves approximately three thousand patients per year. Almost one-third of the hospital's emergency department patients have medical issues that are non-emergent or could be handled more cost effectively in an urgent care setting. However, due to limited access to primary care providers and the restricted hours of the Rural Health Clinic, located within Ka'u Hospital, patients turn to expensive emergency care as a last resort. Your Committee further finds that expanding the Rural Health Clinic's space and hours of operation to include urgent care and behavioral health services would be a highly effective way to reduce costs and the need for emergency services, while increasing access to care.

Your Committee has amended this measure by changing the purpose of the appropriation from increasing the bed count at the Ka'u Hospital emergency room to supporting the expansion of the Ka'u Rural Health Clinic, thereby reducing the need for emergency services.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1410, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1410, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Nishihara).

### SCRep. 188 Commerce, Consumer Protection, and Health on S.B. No. 1465

The purpose and intent of this measure is to require mental health insurers to cover certain expenses related to petitions and hearings for persons obtaining assisted community treatment.

Your Committee received testimony in support of this measure from the Hawai'i Psychological Association; Mental Health America of Hawai'i; Partners in Care; Institute for Human Services, Inc.; Hawaii Kai Homeless Task Force; and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of the Attorney General, Department of Commerce and Consumer Affairs, and Hawaii Medical Service Association.

Your Committee finds that Assisted Community Treatment (ACT) was passed by the Legislature in 2013 and was intended to help people who are so impacted by mental illness that they are unable to recognize the need for their own treatment and are unresponsive to repeated homeless outreach efforts. Your Committee further finds that these individuals have a right to treatment in light of these circumstances. ACT enables a court to order individuals like these, who meet very specific criteria, to receive treatment in the community. Your Committee also finds that severely mentally ill and substance addicted, unsheltered homeless impose the greatest financial burden on communities. The aggregate cost for emergency medical services, law enforcement, repair and cleanup of property, and homeless sweeps amounts to hundreds of millions of dollars per year.

Your Committee additionally finds that filing an ACT petition is a complex process that requires the services of a psychiatrist or advanced practice registered nurse with prescriptive authority and psychiatric specialization. Neither the community nor most family members have the financial resources to pay for such services.

This measure requires ACT petition services to be a covered benefit under health insurance policies and plan contracts. The covered benefits under this measure will improve the ACT process, make successful ACT petitions more feasible, and bring more people with untreated mental illness out of homelessness and into recovery. Your Committee notes that this measure also ensures continued parity between mental health covered benefits and physical health covered benefits issued under health insurance policies and plan contracts in the State.

Your Committee has amended this measure by:

- Clarifying that this measure shall be exempt from the impact assessment report requirements under section 23-51, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1465, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1465, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

### SCRep. 189 Commerce, Consumer Protection, and Health on S.B. No. 226

The purpose and intent of this measure is to appropriate funds for youth suicide early intervention, prevention, and education initiatives in Kauai and Hawaii counties.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii Island Prevent Suicide Task Force, Hawaii' Pacific Health, Mental Health America of Hawaii', Injury Prevention Advisory Committee, Hawaii Youth Services Network, LGBT Caucus of the Democratic Party of Hawaii', Democratic Party of Hawaii Family Forum, Sutter Health Kāhi Mōhala, and seven individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that suicide is the leading cause of injury-related deaths for fifteen to twenty-four year olds in Hawaii, yet youth suicide may be preventable when communities have sufficient resources in place to support early intervention, prevention, and education initiatives. Your Committee further finds that youth suicide rates are significantly higher for all neighbor island counties

compared to the City and County of Honolulu. Therefore, your Committee believes it is appropriate to provide funding for youth suicide early intervention, prevention, and education programs for all three neighbor island counties.

Your Committee has amended this measure by:

- (1) Adding an appropriation of an unspecified amount to support youth suicide early intervention, prevention, and education initiatives in Maui County; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 226, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 226, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Nishihara).

### SCRep. 190 Commerce, Consumer Protection, and Health on S.B. No. 817

The purpose and intent of this measure is to:

- (1) Authorize the sale of stored property insurance by self-service storage facility owners under certain conditions; and
- (2) Require self-service storage owners to hold a limited lines license to sell, solicit, or offer coverage under a stored property insurance policy.

Your Committee received testimony in support of this measure from the Self Storage Association and StorQuest Self Storage. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that property stored in a self-service storage unit is in the care, custody, and control of the storage tenant. Therefore, the storage tenant is responsible for insuring the property. Approximately fifty percent of storage tenants are in transition and do not have a homeowner's policy or renter's insurance policy covering their stored property, while tenants that do have homeowner's or renter's insurance are subject to a much larger deductible. Your Committee further finds that stand-alone insurance coverage for stored property is not typically offered by insurance agents because the commission payments are low. Thirty-one states have solved this gap in coverage by allowing self-service storage facilities to offer their tenants storage insurance, which generally has low monthly premiums and low deductibles. This measure fills the existing gap in the State's insurance market and allows licensed self-service storage facility owners to provide stored property insurance.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 817, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 817, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

### SCRep. 191 Commerce, Consumer Protection, and Health on S.B. No. 1215

The purpose and intent of this measure is to authorize the Commissioner of Financial Institutions to:

- Modify requirements and make new requirements to implement changes and improvements to the Nationwide Multistate Licensing System and Registry (NMLS);
- (2) Issue cease and desist orders against licensees and unlicensed persons; and
- (3) Enter into consent orders.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that NMLS is a web-based nationwide licensing system that streamlines workflows and communications for applicants, licensees, and the Division of Financial Institutions. Currently, the Division of Financial Institutions cannot accept electronic bonds uploaded by an insurance carrier through NMLS due to the requirements in existing law that bond riders or endorsements must be provided directly to the Commissioner of Financial Institutions (Commissioner), or surety bonds filed with the Commissioner. This measure gives the Commissioner authority to expand its uses of NMLS in accordance with the current practice of other states and better manage the licensure of mortgage servicers.

Your Committee further finds that, currently, the Commissioner may only issue proposed cease and desist orders, which have no immediate effect in the event that a licensee's violation is likely to cause immediate and irreparable harm to a consumer. Moreover, because the Commissioner also has no authority to enter into consent orders, administrative proceedings can last a number of years, wasting time and resources. This measure authorizes the Commissioner to enter into consent orders and issue cease and desist orders for violations for licensees and unlicensed persons, which will enable the Commissioner to quickly minimize consumer harm, expedite decisions, and save resources.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1215 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

#### SCRep. 192 (Joint) Energy, Economic Development, and Tourism and Hawaiian Affairs on S.B. No. 1007

The purpose and intent of this measure is to redirect the \$1,000,000 of transient accommodation tax revenues for the operation of a Hawaiian Center and Museum of Hawaiian Music and Dance from the Hawaii Convention Center to the State of Hawaii Museum of Natural and Cultural History.

Your Committees received testimony in support of this measure from the Hawai'i Tourism Authority and Bishop Museum. Your Committees received comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committees find that the perpetuation of Hawaiian culture and dance is an important initiative and the Bishop Museum, officially designated in state law as the State of Hawaii Museum of Natural and Cultural History, is well equipped to house and maintain a Hawaiian Center and Museum of Hawaiian Music and Dance. This measure amends the allocation of transient accommodations tax revenues for a Hawaiian Center and the Museum to assign the Bishop Museum the duty of planning, designing, and constructing the Center and Museum on the Bishop Museum's property.

Your Committees suggest using a combination of cash and general obligation bonds to fund the operation of a Hawaiian Center and Museum of Hawaiian Music and Dance at the Bishop Museum.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1007 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Fevella).

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

### SCRep. 193 (Joint) Energy, Economic Development, and Tourism and Government Operations on S.B. No. 992

The purpose and intent of this measure is to require that the management contract for the Hawaii Convention Center be separate from the contract for marketing for all uses of the facility.

Your Committees received testimony in support of this measure from the Hawai'i Tourism Authority.

Your Committees find that under existing law, the management contract for the Hawaii Convention Center must also include the marketing of the facility. This measure separates the management contract from the marketing contract, the Hawaii Tourism Authority to centralize sales effort for all business relating to meetings, conventions, and incentives. In addition, centralizing the sales effort will improve efficiencies in staffing, marketing, travel and sales technology, and leverage existing destination branding and messaging for the meetings, conventions, and incentives market.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 992 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Fevella).

Government Operations: Ayes, 5. Noes, none. Excused, none.

# SCRep. 194 Energy, Economic Development, and Tourism on S.B. No. 1291

The purpose and intent of this measure is to appropriate funds into and out of the alternative energy research and development revolving fund for the Hawaii Technology Development Corporation to provide grants.

Your Committee received testimony in support of this measure from the Hawaii Technology Development Corporation, Oceanit, Makai Ocean Engineering, and one individual.

Your Committee finds that Hawaii's alternative energy and research development program, a two-year program established pursuant to Act 67, Session Laws of Hawaii 2018, is an integral part in making the entire State energy sustainable. Hawaii is fortunate that it has diverse resources, such as solar, wind, hydro, bioenergy, and geothermal, that are ideal for the development of clean energy. This measure appropriates funds that will allow for the continuation of this program, which will keep high-paying, high-skilled jobs in Hawaii and enable Hawaii's technology industry to compete and win more federal monies for technology development.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1291 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 195 Agriculture and Environment on S.B. No. 1527

The purpose and intent of this measure is to ban the sale of beverage containers connected to each other by plastic six-pack rings, in order to decrease the number of plastic pollutants in water and in natural habitats of wild species.

Your Committee received testimony in support of this measure from the Mid-Pacific Institute, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, and thirteen individuals. Your Committee received testimony in opposition to this measure from the Hawaii Food Industry Association, Retail Merchants of Hawaii, Maui Brewing Co., and American Chemistry Council. Your Committee received comments on this measure from the Department of Health and Department of Land and Natural Resources.

Your Committee finds that plastic ring bindings have been harming marine environment and wildlife for decades. In 2014, the National Oceanic and Atmospheric Administration removed fifty-seven tons of marine debris from the Hawaiian islands. Almost forty percent of the Hawaiian humpback whales migrating to Hawaii each winter have been entangled at least once.

Your Committee also finds that while there have been advances made in the past to reduce the plastic ring problem, the lack of visible improvement demonstrates the need for a new solution.

Your Committee finds that banning the sale of products that are likely to introduce six-pack rings into the waste stream will make the ocean a safer place for wildlife to live, given that these rings cause entanglement and deformation in marine life.

Your Committee has amended this measure by:

- (1) Creating the plastic reduction special fund and directing fines to this fund;
- (2) Changing up the effective date from January 1, 2023, to January 1, 2021; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1527, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1527, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 196 Hawaiian Affairs on S.B. No. 190

The purpose and intent of this measure is to appropriate funds for the 2019-2021 fiscal biennium for operations of the Office of Hawaiian Affairs.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Office of Hawaiian Affairs; Ho'omanapono Political Action Committee; Ka Lāhui Hawai'i Political Action Committee; Association of Hawaiian Civic Clubs, Moku o Keawe - Hawai'i Council; Aina Ho'okupu o Kilauea; Prince Kūhiō Hawaiian Civic Club; Association of Hawaiian Civic Clubs; We Are One, Inc.; Ke Kula 'o Samuel M. Kamakau Laboratory Public Charter School; The Queen's Health Systems; Kamehameha Schools; Council for Native Hawaiian Advancement; Kua'āina Ulu 'Auamo; Kanu o Ka 'Āina Learning 'Ohana; and fifteen individuals.

Your Committee finds that the Office of Hawaiian Affairs is a semi-autonomous state agency, established by the state constitution and state laws, that is responsible for improving the well-being of native Hawaiians and Hawaiians. The Office of Hawaiian Affairs' operating budget, as proposed in this measure, supports plans for the upcoming biennium and is vital to fulfilling its mandates.

Your Committee has amended this measure by inserting blank appropriation amounts and position counts for the Office of Hawaiian Affairs' operating budget amounts.

- (1) OHA150: \$89,045 in general funds and \$275,687 in trust funds;
- (2) OHA160: \$1,559,749 in general funds and \$2,861,727 in trust funds; and
- (3) OHA175: \$2,331,785 in general funds and \$3,172,863 in trust funds.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 190, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 190, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

### SCRep. 197 Hawaiian Affairs on S.B. No. 1495

The purpose and intent of this measure is to establish quiet title action procedures for kuleana land by:

- (1) Allowing court-ordered mandatory mediation at the request of the defendant and with costs allocated to the plaintiff; and
- (2) At the request of defendants in separate actions, consolidating separate quiet title actions located within the same court circuit and commenced by the same plaintiff.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; We Are One, Inc.; Ka Lāhui Hawai'i Political Action Committee; Na Kupuna Moku O Keawe; Ho'omanapono Political Action Committee; Democratic Party of Hawai'i, Hawaiian Affairs Caucus; and eighty-eight individuals.

Your Committee finds kuleana land parcels, many of which have been passed down from original awardees through multiple generations of heirs, represent a vital legal recognition of native Hawaiian families' traditional tenure of ancestral lands. Although quiet title actions under the Kingdom of Hawaii government were a beneficial legal tool for native Hawaiian kuleana awardees to resist adverse possession claims made by large agricultural landowners, the current framework of quiet title action leaves kuleana owners vulnerable to dispossession, including through the use of complex and cost-prohibitive legal processes that effectively foreclose quiet title defendants from challenging quiet title actions and adverse possession claims. Your Committee finds this measure will create a more equitable and timely process to resolve disputes and hardships stemming from quiet title actions filed against owners of kuleana lands

Your Committee notes concerns raised by the Democratic Party of Hawai'i, Hawaiian Affairs Caucus and Ka Lāhui Hawai'i Political Action Committee that this measure could be strengthened further by reinforcing kuleana land owners' special status under Kingdom of Hawaii law and the state constitution, preserving defendants' access to or through the land for native Hawaiian cultural and traditional practices in cases where the plaintiff prevails, and limiting actions to quiet title to kuleana land to plaintiffs who own at least a fifty percent interest in the land.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1495 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

### SCRep. 198 Hawaiian Affairs on S.B. No. 41

The purpose and intent of this measure is to amend the law relating to Hawaiian affairs.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language:

- (1) Requiring the Governor to include in the executive budget a minimum amount per fiscal year to be allocated to the State of Hawaii Museum of Natural and Cultural History, beginning with the 2021-2023 fiscal biennium; and
- (2) Appropriating funds to support the work of the State of Hawaii Museum of Natural and Cultural History.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 41, as amended herein, and recommends that it be recommitted to your Committee on Hawaiian Affairs, in the form attached hereto as S.B. No. 41, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 199 Water and Land on S.B. No. 923

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and The Nature Conservancy.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Land and Natural Resources in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be added to the Department's base budget and incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 923, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 923, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

### SCRep. 200 Water and Land on S.B. No. 924

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Kahoʻolawe Island Reserve Commission, The Nature Conservancy, and The Trust for Public Land.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Land and Natural Resources in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be added to the Department's base budget and incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 924, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 924, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

### SCRep. 201 Water and Land on S.B. No. 934

The purpose and intent of this measure is to prohibit any waste or disposal facility from being located in a conservation district.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, Department of Environmental Services of the City and County of Honolulu, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that state conservation districts are intended to conserve, protect, and preserve naturally and culturally significant lands and resources, with land uses accordingly subject to high standards of review and regulation. Additionally, cultural sites and resources essential to the perpetuation of constitutionally protected Native Hawaiian traditional and customary rights are located in conservation districts. Waste and disposal facilities can significantly compromise the environmental and cultural integrity of conservation district lands and resources; therefore, your Committee finds that use of such facilities is inappropriate for lands subject to the highest standards of protection and preservation.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 934 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 202 Water and Land on S.B. No. 1068

The purpose and intent of this measure is to provide funds for improvements to Na Ala Hele, the Hawaii statewide trail program, and hiker safety and etiquette education and outreach.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Aha Moku Advisory Committee, Sierra Club of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Ka Makani O Kohala Ohana, Maunawili Estates Community Association, PATH, Tulipa Hawaiian Civic Club Association of Cultural Practitioners, Solemates Hawaii, Hawaiian Trail & Mountain Club, and thirty-six individuals.

Your Committee finds that Na Ala Hele, the Hawaii statewide trail program maintained by the Division of Forestry and Wildlife of the Department of Land and Natural Resources, includes one hundred twenty-eight trail and road features spanning approximately eight hundred fifty-five miles. Trails include parking areas, comfort stations, pavilions, picnic areas, and other facilities that are regularly used by the public. Hiking continues to increase in popularity among visitors and residents, leading to greater wear on trails and facilities. Additionally, your Committee finds that many hikers lack proper education as to hiking safety and etiquette, which has resulted in litter, loud noises, and illegal parking in neighborhoods where trail heads are located, as well as increases in mountain rescues. Therefore, your Committee finds it necessary to appropriate funds to improve access to and maintain state controlled recreational trails statewide and promote hiker safety and hiker etiquette education and outreach.

Your Committee has amended this measure by:

- Inserting language to require the public awareness campaign to include education and outreach regarding accurate Native Hawaiian culture, history, and traditional and customary practices connected to Hawaii's trails;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1068, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1068, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

### SCRep. 203 Water and Land on S.B. No. 1134

The purpose and intent of this measure is to make an appropriation for a Heeia State Park community-based long-range plan and education center for the Heeia National Estuarine Research Reserve System.

Your Committee received testimony in support of this measure from the Hawai'i Institute of Marine Biology, The Nature Conservancy, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, He'eia National Estuarine Research Reserve, Ko'olau Foundation, Ko'olaupoko Hawaiian Civic Club, and three individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the Heeia National Estuarine Research Reserve System (HeNERR) is one of twenty-nine protected areas within the National Estuarine Research Reserve System. The HeNERR, which includes Heeia State Park, Heeia fishpond, and the Heeia community development district, as well as marine waters with patch and fringing reefs and Moku o Loe (Coconut Island), requires development of a community-based long-range plan for Heeia State Park to bring the activities in Heeia State Park into alignment with the community's interests, and to plan an education center that will help fulfill the mission of the state-federal partnership.

Your Committee has amended this measure by:

- (1) Inserting blank appropriation amounts;
- (2) Clarifying that the appropriation is for the planning and design of an education center;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1134, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1134, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 204 Water and Land on S.B. No. 259

The purpose and intent of this measure is to:

- (1) Prohibit offshore drilling for oil or natural gas in state marine waters; and
- (2) Prohibit issuance of permits for or in connection with the development or operation of any facility or infrastructure associated with offshore drilling for oil or natural gas in any waters.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Hawaii Advocates For Consumer Rights; We Are One, Inc.; 350Hawaii.org; and seventeen individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources and National Caucus of Environmental Legislators.

Your Committee finds that although Hawaii has no proven petroleum or natural gas reserves or production, the State does produce petroleum products and crude oil is refined within the State. Your Committee further finds that the State is committed to the promotion and development of renewable and sustainable energy. This measure affirms the State's dedication to the reduction of fossil fuel use by prohibiting offshore drilling and the issuance of permits in connection with facilities associated with offshore drilling.

Your Committee has amended this measure by:

- Limiting the prohibition against issuing a permit for or in connection with the development or operation of any facility or infrastructure associated with offshore drilling for oil or natural gas to within state waters;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 259, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 259, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 205 Water and Land on S.B. No. 277

The purpose and intent of this measure is to appropriate funds for the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and The Nature Conservancy. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that this measure provides a legislative vehicle should funding become available for the purposes of this measure prior to the end of the 2019-2021 fiscal biennium.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 277 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

### SCRep. 206 Water and Land on S.B. No. 324

The purpose and intent of this measure is to require the Department of Land and Natural Resources to manage and administer the wildlife and wildlife resources of the State through cooperative resource management strategies that include traditional, recreational, and culturally dependent resource users and stakeholders.

Your Committee received testimony in support of this measure from the Hawaii Hunting Association, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiiʻi, Waianae Hunting Association, Hawaii Sportsman Association, Hawaii Sportsmen's Alliance, and seventeen individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the stakeholders who are most affected by decisions made by the Department of Land and Natural Resources and its partners regarding wildlife and wildlife resources should have opportunities to express their concerns over practices that modify access, utilization, or management of these resources.

Your Committee has amended this measure by inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 324, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 324, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 207 Water and Land on S.B. No. 472

The purpose and intent of this measure is to appropriate funds for a feasibility and cost study relating to the construction of a new boat ramp and pier in Puna.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Malama O Puna, Aha Moku Advisory Committee, Office of the Mayor of the County of Hawai'i, and six individuals.

Your Committee finds that recent lava flows have left the Puna district on the island of Hawaii without an accessible or usable boat ramp and pier. The old boat ramp at Pohoiki was a major economic driver for the Puna district and Hawaii island as a whole. Your Committee finds that steps must be taken to determine the best location for a new boat ramp and pier in Puna to serve the residents of the area and boost an economy and community recovering from the impacts of the lava flows. Therefore, your Committee finds it proper for the Legislature to appropriate funds for a feasibility and cost study relating to construction of a boat ramp and pier in Puna.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 472, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 472, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

## SCRep. 208 Water and Land on S.B. No. 615

The purpose and intent of this measure is to appropriate funds for the purchase of heavy equipment to maintain public lands on Kauai.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii State Fire Council, Hawaii Fire Department of the County of Hawaii, Kauaii Fire Department, Hanalei Watershed Hui, and one individual.

Your Committee finds that maintenance of public lands on Kauai requires the use of heavy equipment, including dump trucks, excavators, water tenders, and bull dozers. Proper maintenance of such lands is necessary to ensure access by the public, as well as emergency response. A lack of functioning heavy equipment inhibits ongoing maintenance of public lands and response to emergency needs. Therefore, your Committee finds it proper for the Legislature to appropriate funds for heavy equipment to maintain public lands on Kauai.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 615, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 615, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

#### SCRep. 209 Judiciary on S.B. No. 560

The purpose and intent of this measure is to:

- (1) Enact voting by mail uniformly across all counties for all elections commencing in 2022;
- (2) Establish a limited number of voter service centers that would remain open from the tenth business day preceding an election to receive personal delivery of mail-in ballots, accommodate voters with special needs, offer same day registration and voting, and provide other election services;
- (3) Allow for additional places of deposit for personal delivery of mail-in ballots;
- (4) Appropriate funds for the implementation and administration of the election by mail program; and
- (5) Require the Office of Elections to submit a report to the Legislature prior to the convening of each regular session from 2020 through 2025 regarding the implementation of a vote by mail system.

Your Committee received testimony in support of this measure from the Office of Elections, County Clerk of the County of Maui, Planned Parenthood Votes Northwest and Hawaii, League of Women Voters of Hawaii, Community Alliance on Prisons, Hawaii Appleseed Center for Law and Economic Justice, Common Cause Hawaii, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, Midwives Alliance of Hawaii, and ten individuals. Your Committee received testimony in opposition to this measure from the Honolulu County Republican Party and seven individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that increasing numbers of Hawaii voters are submitting votes by mail and are choosing to vote early. Your Committee further finds that a single, unified vote-by-mail system will reduce the logistical costs of conducting elections while at the same time increasing the accuracy and efficiency of vote tabulation. Your Committee additionally finds that a vote-by-mail system will allow voters with disabilities or voters with special needs to more easily participate in the democratic process.

Your Committee has amended this measure by:

- (1) Clarifying that voters with special needs may request electronic transmission of ballots at any time;
- (2) Changing the closing time of places of deposit to 6:00 p.m. on election day and clarifying that any voters who are standing in line at a place of deposit at closing time may submit their ballot;
- (3) Requiring that initial tabulation of ballots be completed no later than 6:00 a.m. on the day following an election day;
- (4) Requiring the clerk not to commingle ballots when the validity of certain ballots cannot be verified upon receipt and to take reasonable steps to confirm the validity of such ballots within seven days following an election day;
- (5) Clarifying that only ballots that have been verified by the clerk by the time the initial tabulation is complete may be included in any initial recount, and that all other recounts shall be as provided by law;
- (6) Prohibiting any election result from being certified unless all ballots verified by the clerk within seven days following an election day have been added to the final tabulation;
- (7) Making clarifying and conforming amendments to sections of the absentee voting law to account for all mail-in voting; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 560, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 560, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

### SCRep. 210 Judiciary on S.B. No. 643

The purpose and intent of this measure is to:

- (1) Require that any over-limit contributions made to a candidate by resident and nonresident contributors be returned within thirty days of receipt of the contributions; and
- (2) Provide that excess contributions shall escheat to the Hawaii election campaign fund if not returned to the contributor within thirty days.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and one individual.

Your Committee finds that procedures for dealing with over-limit contributions to candidates, candidate committees, and noncandidate committees in general are provided for within the State's campaign finance law. Your Committee further finds that contributions made by nonresident contributors are not included within these procedures. This measure will add over-limit contributions by nonresident contributors to the existing procedures for dealing with over-limit contributions in general.

Your Committee has amended this measure by:

- Deleting existing statutory amendments and replacing them with an amendment that more efficiently regulates excess contributions; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 643, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 643, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 211 Judiciary on S.B. No. 858

The purpose and intent of this measure is to propose amendments to the Constitution of the State of Hawaii to expressly provide that the Legislature may authorize the counties to issue tax increment bonds and to exclude tax increment bonds in determining the funding debt of the counties.

Your Committee received testimony in opposition to this measure from the Land Use Research Foundation of Hawaii. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that bonds are one method that counties use to finance infrastructure and to support other county functions. Your Committee further finds that tax increment bonds are bonds, the principal of and interest on which are payable from and secured solely by all real property taxes levied by a political subdivision such as a county. This measure enables the counties to issue tax increment bonds to raise revenues. Your Committee additionally finds that it may be unwise to treat debt from the issuance of tax increment bonds differently than any other debt of the counties.

Accordingly, your Committee has amended this measure by:

- (1) Removing the exclusion of tax increment bonds from determinations of the funded debt of the counties; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 858, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 858, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 212 Judiciary on S.B. No. 1018

The purpose and intent of this measure is to appropriate funds to support the Hawai'i Zero to Three Court.

Your Committee received testimony in support of this measure from the Judiciary, Department of Health, Department of Human Services, Hawaii Family Support Institute, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, and one individual.

Your Committee finds that the period between one and three years of age is critical to the healthy development of a child. Your Committee further finds that instability and trauma in the life of a child during the early formative period can interrupt healthy patterns of growth and development, resulting in increased risk for numerous behavioral and developmental problems that can sabotage the child's future. Your Committee additionally finds that the Zero to Three Court has been established by the Judiciary to meet the needs of very young children and ensure that they can be placed in safe, permanent homes as quickly as possible. This measure provides funds to allow the Judiciary to continue and also enhance services provided by the Zero to Three Court.

Your Committee has amended this measure by:

- (1) Changing the amount of appropriation for a program manager position to \$59,616;
- (2) Changing the amount of appropriation for a case manager position to \$52,956;
- (3) Making the program manager position permanent; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1018, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1018, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 213 Judiciary on S.B. No. 1058

The purpose and intent of this measure is to require:

(1) The Attorney General to prepare a statement for each proposed constitutional amendment in plain English that indicates the purpose, limitations, and effects of the proposed amendment; and

(2) The Office of Elections and county clerks to make the statement available to the public.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and two individuals.

Your Committee finds that clear information about what a proposed constitutional amendment would do and how the voting process for a proposed constitutional amendment works are important to voters understanding their role in the process and making an informed decision. Your Committee further finds that statement language should be as clear as possible, and that it should also be provided in Hawaiian, which is an official language of the State. Your Committee additionally notes that the Department of the Attorney General will likely require additional resources to meet the costs of translation, preparation, and distribution of statements.

Your Committee has amended this measure by:

- (1) Clarifying that statements for proposed constitutional amendments are to be prepared in language that is clear and neither misleading nor deceptive;
- (2) Requiring that the Attorney General also prepare the statement in Hawaiian;
- (3) Making an appropriation to the Attorney General for the translation, preparation, and distribution of statements for proposed constitutional amendments; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1058, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1058, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 214 Judiciary on S.B. No. 1174

The purpose and intent of this measure is to provide authority for the Hawaii Criminal Justice Data Center to set and collect fees for services provided.

Your Committee received testimony in support of this measure from the Department of the Attorney General and Department of Public Safety.

Your Committee finds that the services provided by the Hawaii Criminal Justice Data Center are valuable to law enforcement and correctional officers. Your Committee further finds that the enumerated services for which the Hawaii Criminal Justice Data Center can currently assess fees do not include all services offered by the Center. This measure gives the Hawaii Criminal Justice Data Center greater flexibility in matching its fee structure to the services that it offers.

Your Committee has amended this measure by:

- (1) Clarifying that fees assessed by the Hawaii Criminal Justice Data Center must be reasonable and necessary; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1174, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1174, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 215 Judiciary on S.B. No. 1286

The purpose and intent of this measure is to raise the district courts' jurisdictional limit for civil actions involving specific performance.

Your Committee received testimony in support of this measure from the Judiciary, Collection Law Section of the Hawaii State Bar Association, and one individual.

Your Committee finds that the jurisdictional limits for the district courts in general have gradually increased over time. Your Committee further finds that the jurisdictional limits for specific performance have not risen with the overall increases in jurisdictional limits. This measure corrects that inconsistency in the jurisdictional limits for the district courts.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1286 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 216 Judiciary on S.B. No. 1464

The purpose and intent of this measure is to:

- Establish certain positions within the Department of the Attorney General, Judiciary, and Department of Health dedicated to
  the preparation, filing, defense, and adjudication of assisted community treatment petitions, related guardianship petitions, and
  other legal filings; and
- (2) Appropriate funds for the positions established for the Department of the Attorney General, Judiciary, and Department of Health.

Your Committee received testimony in support of this measure from Mental Health America of Hawaii; Hawaii Psychological Association; Partners in Care; Catholic Charities Hawaii; Institute for Human Services, Inc.; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Hawaii Kai Homeless Task Force; Hawaii Health and Harm Reduction Center; and two individuals. Your Committee received comments on this measure from the Judiciary, Department of the Attorney General, and Hawaii Disability Rights Center.

Your Committee finds that the process of filing a petition and obtaining an order for assisted community treatment is very complex. Your Committee further finds that the complexities involved with petitions for orders for assisted community treatment often require private service providers, community organizations, and family members of persons needing care to seek assistance in obtaining these much-needed orders for mental health treatment. This measure establishes positions and allocates resources for the purpose of adequately managing the need for efficient and correct processing of petitions for assisted community treatment.

Your Committee additionally finds that the intended effect of this measure is to increase staff at various levels to support judicial proceedings concerning individuals with severe mental illness. Your Committee also finds that the positions established by this measure are intended to be responsible for petitions for assisted community treatment, although not exclusively dedicated to handling the petitions to the exclusion of all other matters. Your Committee further finds that judicial assignments are within the discretion of the Chief Justice of the Supreme Court of Hawaii and the chief judges and deputy chief judges of the various courts, and that it is not the intent of this measure to limit the purview of the judge position established by this measure to hear only petitions for assisted community treatment.

Accordingly, your Committee has amended this measure by:

- (1) Increasing the number of new Deputy Attorneys General to two;
- (2) Increasing the amount of appropriations to the Department of the Attorney General;
- (3) Clarifying that the deputy Attorneys General are responsible for assisted community treatment petitions instead of being exclusively dedicated to those matters;
- (4) Clarifying that the judge position is responsible for hearing matters related to assisted community treatment petitions instead of exclusively dedicated to hearing those matters, and may work on other cases as permitted by the calendar;
- (5) Clarifying that the social worker position within the Office of the Public Guardian is dedicated to working with individuals with severe mental illness who are under a guardianship where the Office of Public Guardian is the named guardian;
- (6) Removing language amending the allocation of Circuit Court Judges; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1464, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1464, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 217 Judiciary on S.B. No. 1467

The purpose and intent of this measure is to:

- (1) Restrict asset forfeiture to cases involving the commission of a covered criminal misdemeanor or felony offense;
- (2) Require seized property to be forfeited only when the property owner has been convicted of an underlying covered criminal misdemeanor or felony offense;
- (3) Change the standard of proof that the State must meet in order for property to be forfeited from "preponderance of the evidence" to "beyond a reasonable doubt";
- (4) Require the State to prove that owners consented to or possessed knowledge of the crime that led to the seizure of their property;
- (5) Require that the agency seizing the property pay for safe and secure storage of the seized property until the completion of the forfeiture proceeding or final disposition of the property;
- (6) Direct any proceeds from a civil forfeiture to the general revenue fund for public education purposes; and
- (7) Repeal administrative forfeiture proceedings.

Your Committee received testimony in support of this measure from the Libertarian Party of Hawaii, Drug Policy Forum of Hawaii, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, American Civil Liberties Union of Hawaiii, Drug Policy Action Group, and four individuals. Your Committee received testimony in opposition to this measure from the Office of the Prosecuting Attorney of the County of Kauaii, Office of the Prosecuting Attorney of the County of Hawaiii, Department

of the Prosecuting Attorney of the County of Maui, Department of the Prosecuting Attorney of the City and County of Honolulu, and one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that property forfeiture laws are controversial and have been evolving throughout the country in the twenty years since the Omnibus Criminal Forfeiture Act was passed in Hawaii. Your Committee further finds that a 2018 State Auditor's report found a lack of accountability by the Department of the Attorney General over the storage, preservation, and disposal of forfeited property. Your Committee additionally finds that the Institute for Justice, a nonprofit civil liberties law firm, has recommended numerous reforms that have been adopted by other states. This measure will adopt some of the Institute for Justice's recommended reforms in Hawaii.

Your Committee has amended this measure by:

- Removing language requiring the Department of the Attorney General to allocate monies for the purposes of criminal
  forfeiture within one year of the effective date of this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1467, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1467, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 218 Water and Land on S.B. No. 654

The purpose and intent of this measure is to appropriate funds for the establishment of four full-time equivalent (4.0 FTE) permanent ocean safety officers and equipment for use by ocean safety officers at Manini'ōwali Beach at Kua Bay in the Kekaha Kai State Park on the island of Hawaii.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Tourism Authority, Aha Moku Advisory Committee, Office of the Mayor of the County of Hawai'i, two members of the Hawai'i County Council, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Kohala Coast Resort Association, Hawaii Drowning and Aquatics Injury Prevention Advisory Committee, Hawai'i State Association of Counties, and one individual.

Your Committee finds that Kua Bay, at Kekaha Kai State Park, between Kona and the resorts of Kohala Coast on the island of Hawaii, has recently seen an increase in visits by locals and tourists, making Kua Bay one of the most popular beaches in the State. The increase in visitation has been accompanied by an increase in dangerous incidents, injuries, and deaths, which could be mitigated by placement of lifeguards at Kua Bay. Although Kua Bay is under the jurisdiction of the Department of Land and Natural Resources, the State currently does not employ its own lifeguards at Kua Bay. Your Committee finds that the employment of lifeguards and purchase of necessary equipment at Kua Bay will help to save lives and prevent injury to residents and visitors.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 654, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 654, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

### SCRep. 219 Water and Land on S.B. No. 832

The purpose and intent of this measure is to provide funds to the counties for the identification and mapping of important agricultural lands, to fully implement the intent of Act 183, Session Laws of Hawaii 2005, and Act 233, Session Laws of Hawaii 2008.

Your Committee received testimony in support of this measure from the Department of Agriculture, Land Use Commission, Office of Planning, one member of the Maui County Council, Department of Planning of the County of Maui, Ulupono Initiative, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, Hawaiʻi Farm Bureau, and Land Use Research Foundation of Hawaii.

Your Committee finds that this measure will aid the completion of the county mapping process in preparation for the subsequent designation of important agricultural lands by the Land Use Commission, and allow the owners and farmers of these lands to have access to important agricultural land incentives in support of agricultural production. Your Committee recognizes that significant public involvement and coordination with various stakeholders and groups are necessary to complete the process, and supports providing adequate funding for a quality end product.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 832, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 832, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

### SCRep. 220 Water and Land on S.B. No. 838

The purpose and intent of this measure is to:

- (1) Increase the percentage of the land conservation fund that may be used for costs related to the operation, maintenance, and management of lands acquired by the fund; and
- (2) Increase the maximum dollar amount of the conveyance tax distribution to the land conservation fund.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, The Nature Conservancy, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, The Trust for Public Land, and two individuals. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the State dedicates a portion of its annual revenue from real estate conveyance taxes to the land conservation fund. Each year, the Legislature provides the legacy land conservation program with some of the money held in the fund, which then distributes this money through a competitive grants process for purchasing land and conservation easements and for paying the debt service on state financial instruments for the protection of agricultural, coastal, cultural, and historical resources; habitats, natural areas, and open, scenic spaces; and parks, recreation, and watershed resources.

Your Committee has amended this measure by:

- (1) Inserting an appropriation from the land conservation fund for the 2019-2021 fiscal biennium to the Department of Land and Natural Resources for resource land acquisition;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 838, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 838, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 221 Water and Land on S.B. No. 906

The purpose and intent of this measure is to provide funds for improvements to the Wailoa small boat harbor.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Aha Moku Advisory Committee, Office of the Mayor of the County of Hawaii, and Activities & Attractions Association of Hawaii.

Your Committee finds that the Wailoa small boat harbor in Hilo, Hawaii, a popular harbor for residents and visitors to engage in recreational and commercial activities, is in need of improvements. Therefore, your Committee finds it proper to appropriate funds for the Division of Boating and Ocean Recreation to make improvements to the Wailoa small boat harbor.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 906, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 906, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

## SCRep. 222 Water and Land on S.B. No. 922

The purpose and intent of this measure is to appropriate or authorize funds or amend means of financing for various capital improvement projects of the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Waikīkī Beach Special Improvement District Association and The Nature Conservancy. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that this measure expresses adjustments to the projects funded, maximum sums appropriated or authorized, or means of financing indicated for the Department of Land and Natural Resources to be included in the General Appropriations Act of 2019.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be added to the Department's base budget and incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 922, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 922, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

### SCRep. 223 Ways and Means on S.B. No. 711

The purpose and intent of this measure is to make amendments to the General Appropriation Acts of 2015 and 2017, as amended, regarding certain appropriations for the purchase of agricultural lands.

Specifically, this measure:

- (1) Extends the lapse date of the non-general fund appropriation in item A-8.03 of Act 119, Session Laws of Hawaii 2015, as amended and renumbered by Act 124, Session Laws of Hawaii 2016 (item A-8.03); and
- (2) Amends the appropriation amount and description made by item A-17.01 of Act 49, Session Laws of Hawaii 2017, as amended and renumbered by Act 53, Session Laws of Hawaii 2018.

Your Committee received testimony in support of this measure from the Hawaii Farm Bureau.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Department of Accounting and General Services has the authority to extend the lapse date for the appropriation in item A-8.03 to June 30, 2020, without legislative action.

Your Committee has amended this measure by:

- Deleting the provisions of part I, which extend the lapse date of the general fund obligation bond fund appropriation to purchase certain agricultural lands; and
- (2) Changing the remaining amounts appropriated to unspecified amounts.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 711, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 711, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Kidani, Taniguchi).

## SCRep. 224 Water and Land on S.B. No. 1135

The purpose and intent of this measure is to provide the Land Use Commission with the power to amend, revise, or modify a decision and order granting a land use district boundary amendment when there has been a finding by the Land Use Commission that a petitioner or its successors or assigns has not adhered to a representation made by the petitioner or its successor or assigns or conditions previously imposed by the Commission, regardless of whether there has been substantial commencement of use of the land.

Your Committee received testimony in support of this measure from the Office of Planning, Land Use Commission, Hawaii Advocates for Consumer Rights, Ho'omanapono Political Action Committee, and four individuals. Your Committee received testimony in opposition to this measure from the Chamber of Commerce Hawaii and Building Industry Association of Hawaii.

Your Committee finds that the only enforcement mechanism currently available to the Land Use Commission for noncompliance with the requirements or conditions of a district boundary amendment is issuing an order to show cause, which may result in a reversion to the former land use classification. However, even that mechanism is available only prior to substantial commencement of use of the land. Furthermore, reversion is not always an appropriate or economically desirable solution. The Land Use Commission is restricted by limited statutory authority and therefore cannot change or modify conditions where less severe actions than reversion may be more appropriate. This measure would give the Land Use Commission the authority and flexibility to address deficiencies and non-compliance with conditions and representations that are raised by the parties and interested persons.

Your Committee has amended this measure by:

- (1) Clarifying that "substantial commencement" means completion of all public improvements and infrastructure required by conditions imposed pursuant to chapter 205, Hawaii Revised Statutes, within and outside the project area, and completed construction of twenty percent of any affordable housing requirement such that they are usable or habitable;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1135, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1135, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 225 Water and Land on S.B. No. 1139

The purpose and intent of this measure is to provide funds for flooding remediation by the Engineering Division of the Department of Land and Natural Resources on Tax Map Key (3) 2-3-023:008.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the parcel identified by this measure is privately owned. Therefore, this measure should identify an adjacent parcel, Tax Map Key (3) 2-3-023:006, which is also privately owned but has a state owned ditch running through it, which is in need of improvements for proper flooding remediation.

Accordingly, your Committee has amended this measure by:

- (1) Changing the appropriation amount to \$1,000,000 for flooding remediation and changing the subject parcel to Tax Map Key (3) 2-3-023:006;
- (2) Inserting a lapse date of June 30, 2022, to allow adequate time for the project;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1139, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1139, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

## SCRep. 226 Water and Land on S.B. No. 1140

The purpose and intent of this measure is to provide funds for:

- (1) Positions in the Division of Forestry and Wildlife to respond to invasive species;
- (2) The Hawaii Invasive Species Council to support research and interagency projects;
- (3) Rapid Ohia Death response; and
- (4) Capital improvement projects for Maliko Gulch, Maui, to construct a coqui frog barrier fence and various requests for fencing to exclude invasive animals from protected areas.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, University of Hawai'i at Mānoa College of Tropical Agriculture and Human Resources, The Nature Conservancy, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and Coordinating Group on Alien Pest Species.

Your Committee finds that the invasion of Hawaii by insects, disease-bearing organisms, snakes, weeds, and other pests is a substantial threat to Hawaii's economy and natural environment and to the health and lifestyle of Hawaii's people. Invasive species and pests can swiftly and permanently alter the ecosystem of the State if not effectively eradicated. To ensure the State's invasive species prevention, early detection, rapid response, control, enforcement, and outreach programs will help protect the environment, human health, culture, and economy, it is essential to properly fund such efforts by the Department of Land and Natural Resources.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1140, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1140, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

## SCRep. 227 Water and Land on S.B. No. 1141

The purpose and intent of this measure is to provide funds for refurbishing and retrofitting the Kūlani water tanks to serve as water reservoirs for firefighting in the Puu Makaala Natural Area Reserve and surrounding areas.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii State Fire Council, Hawaii Fire Department of the County of Hawaii, Kauai Fire Department, Office of the Mayor of the County of Hawaii, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and two individuals.

Your Committee finds that Puu Makaala Natural Area Reserve, located in the Puna and South Hilo districts of the island of Hawaii, was established to protect the wet koa and ohia forest and unique geologic features. This area on the northeast flank of Mauna Loa is an important habitat for some of Hawaii's rarest birds and several rare plants. Three 400,000-gallon water tanks are located in the area and have served as water reservoirs for firefighting in the past; however, the earthquake of May 2018 severely damaged one of the tanks, and the other two are in need of refurbishment. These tanks serve as the only available source of water in this high elevation region, which encompasses over 200,000 acres of state and federal lands, and are a first line of defense against wildland fires. Your

Committee finds it proper that the Legislature appropriate funds to ensure water is accessible for firefighting in this environmentally and culturally significant region.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1141, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1141, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

## SCRep. 228 Water and Land on S.B. No. 1142

The purpose and intent of this measure is to provide funds for the demolition and removal of structures at Uncle Billy's in Hilo,

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of the Mayor of the County of Hawai'i, and one individual.

Your Committee finds that Uncle Billy's operated as a 145-room hotel on Banyan Drive in Hilo, Hawaii, beginning in the 1960s and abruptly closed in June of 2017 after county inspectors advised that the building must be vacated due to safety concerns. The hotel closed, and the site is planned for redevelopment as a new hotel. The derelict structures present a public health and safety issue, are a blight on Banyan Drive, and must be removed before any improvements can be made to the land. Therefore, your Committee supports funding the removal of these structures.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1142, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1142, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

## SCRep. 229 Human Services on S.B. No. 210

The purpose and intent of this measure is to:

- (1) Require the family court to terminate parental rights if the court determines, by clear and convincing evidence, that a natural parent committed sexual assault of the other natural parent; the child was conceived as a result of the sexual assault by the parent; and termination of parental rights is in the best interests of the child, under certain conditions; and
- (2) Require the family court to suspend custody and visitation, after proper filing of a petition and a hearing, to any child whose parent or legal guardian is charged for a sexual assault or other offense, under certain conditions.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, The Sex Abuse Treatment Center, and three individuals. Your Committee received comments on this measure from The Judiciary, Department of the Attorney General, and Hawaii Women's Coalition.

Your Committee finds that the impact of sexual violence is significant. Victims face not only emotional trauma, but also significant physical consequences, including pregnancy.

Your Committee further finds that in cases where a victim is co-parenting a child with the parent charged for sexually assaulting the victim, the no contact orders of the criminal court and the temporary restraining order issued by civil courts may still allow that parent continued custody or visitation with the victim's child. This enables the parent charged for sexually assaulting the victim to continue exercising influence and control on the victim through their child, which places the child in a potentially dangerous and traumatic situation.

This measure requires the family court to terminate parental rights on a finding by clear and convincing evidence that the natural parent committed sexual assault of the other natural parent and the child was conceived as a result of the sexual assault and allows a victim to petition in family court for an order suspending custody and visitation for a parent charged for sexually assaulting the victim, with a rebuttable presumption that such suspension is in the best interest of the child. Your Committee further finds that this measure preserves the integrity of criminal justice proceedings and protects the safety and well-being of victims of sexual assault and their children.

Your Committee has amended this measure by:

- (1) Adopting language suggested by the Department of the Attorney General that:
  - (A) Requires the court to consider the best interests of the child when issuing stay away orders for a defendant out on release; and
  - (B) Permits the termination of parental rights under certain circumstances, even when the termination does not facilitate the child's adoption; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 210, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 210, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Ihara). Noes, none. Excused, none.

### SCRep. 230 Human Services on S.B. No. 279

The purpose and intent of this measure is to appropriate funds for the Department of Human Services.

Your Committee received testimony in support of this measure from the Department of Human Services.

Your Committee finds that this measure provides a legislative vehicle should funding become available for the purposes of this measure prior to the end of the 2019-2021 fiscal biennium.

Your Committee has amended this measure by:

- (1) Incorporating an unspecified increase in the appropriate federal funds ceiling; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee finds that this measure expresses adjustments to the projects funded, maximum sums appropriated or authorized, or means of financing indicated for the Department of Human Services in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 279, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 279, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 231 Human Services on S.B. No. 474

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Human Services.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Transportation, Catholic Charities Hawai'i, and Hawaii Kai Homeless Task Force. Your Committee received comments on this measure from the Governor's Coordinator on Homelessness and Department of Human Services.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Human Services in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- (1) Incorporating proposed changes to add requested budget additions from the Department of Human Services; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 474, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 474, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 232 Human Services on S.B. No. 475

The purpose and intent of this measure is to appropriate or authorize funds or amend means of financing for various capital improvement projects of the Department of Human Services.

Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that this measure expresses adjustments to the projects funded, maximum sums appropriated or authorized, or means of financing indicated for the Department of Human Services in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by incorporating proposed changes for additional capital improvement funding from the Department of Human Services.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 475, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 475, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 233 Human Services on S.B. No. 720

The purpose and intent of this measure is to allow individuals who require home care services more than twice weekly, do not have ready access to reliable transportation, and live thirty miles or more from the nearest hospital to be eligible for Medicaid home and community-based services administered by the Department of Human Services.

Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that under existing law, the Department of Health is able to administer Medicaid home and community-based services waiver programs for individuals who are aged, chronically ill, disabled, developmentally disabled, or intellectually disabled. This measure increases access to care by expanding eligibility for Medicaid home and community-based services to include individuals who require home care services more than twice weekly, lack reliable transportation, and live in rural areas without easy access to a hospital.

Your Committee has amended this measure by clarifying that the new criteria proposed by this measure expands, rather than narrows, eligibility for Medicaid home and community-based waiver services.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 720, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 720, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 234 Human Services on S.B. No. 947

The purpose and intent of this measure is to prohibit the disability of a parent or caregiver from being the sole factor in determining fitness as a foster parent, adoptive parent, guardian, person seeking custody or visitation, or provider of a safe family home.

Your Committee received testimony in support of this measure from the Disability and Communications Access Board and LGBT Caucus of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that in family court cases, the court will make a determination based on the welfare of a child. However, there is no express prohibition against considering the disability of a parent or caregiver as the sole factor in determining fitness as a foster parent, adoptive parent, guardian, person seeking custody or visitation, or provider of a safe family home. This measure protects the right to parent for all individuals with disabilities and enables the court to make a determination based on the best interests of the child, as well as the family unit as a whole.

Your Committee has amended this measure by specifying that the party attempting to demonstrate that a disability impairs another person's ability to parent in foster parent, adoptive parent, guardian, custody or visitation, or safe family home cases must prove that the person's disability is a factor and demonstrate a clear nexus between the person's disability and the alleged parental deficiency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 947, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 947, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 235 Education on S.B. No. 583

The purpose and intent of this measure is to:

- (1) Beginning with the 2019-2021 fiscal year, reduce the percentage from 6.5 percent to 5.0 percent of the total Department of Education's operating budget that can be expended for the Department's administrative expenditures; and
- (2) Increase the percent of appropriations for the total budget of the Department of Education that principals can expend from seventy percent to seventy-five percent.

Your Committee received testimony in support of this measure from the Americans for Democratic Action Hawai'i and one individual. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that funding a quality education system in the State is challenging and requires fiscal responsibility. The Department of Education, through administrative personnel, is tasked with maximizing the use of limited resources to advance student achievement at Hawaii's public schools. This measure empowers schools in a more direct manner by providing additional resources to schools to support student success, staff success, and successful systems of support.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 583 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 236 Education on S.B. No. 591

The purpose and intent of this measure is to increase the amount of damages allowed for public school restitution agreements from \$3,500 to \$10,000.

Your Committee received testimony in support of this measure from the Department of Education and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that vandalism at public schools occurs at the expense of students and the general public. When school facilities and equipment are damaged or destroyed, there is a negative impact on the quality of education that affects teachers, students, and parents. Raising the amount for restitution agreements will act as a strong deterrent against vandalism and increase the financial responsibility on a student's family who chooses to vandalize school property and facilities.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 591 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 237 Education on S.B. No. 594

The purpose and intent of this measure is to establish and appropriate funds for a school meal subsidy program within the Department of Education to provide school lunch subsidies to children whose families do not otherwise qualify under the federal free and reduced price lunch program.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals.

Your Committee finds that the National School Lunch Program is a federally assisted meal program for schools that provides daily low-cost or free meals to children from households making a certain income. However, the Department of Education estimates that up to fifteen thousand children each year from gap groups do not qualify for the National School Lunch Program. Providing equal access to food services for students ensures that all public school students are provided quality education and school meals.

Your Committee has amended this measure by:

- (1) Specifying that the school meal subsidy program shall target children whose families are not otherwise eligible for free lunch under the free and reduced price lunch program and who meet program income eligibility requirements; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 594, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 594, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 238 Education on S.B. No. 1071

The purpose and intent of this measure is to appropriate funds for a capital improvement project to state facilities on state land at Kaʻōhao Public Conversion Charter School.

Your Committee received testimony in support of this measure from the Department of Education, State Public Charter School Commission, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Ka'ōhao Public Conversion Charter School, and sixty-one individuals.

Your Committee finds that facilities funding is the greatest financial burden upon public charter schools. At Ka'ōhao Public Conversion Charter School, there is no facility on campus that can accommodate its three hundred fifty students, resulting in all school-wide assemblies being held outside and subject to weather. Additionally, the capacity issue in the current cafeteria presents challenges in providing students with proper covering during the students' lunch period. By providing resources for facilities, public charter schools, like Ka'ōhao Public Conversion Charter School, can continue to provide quality education to the children of Hawaii.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1071 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

#### SCRep. 239 Education on S.B. No. 585

The purpose and intent of this measure is to clarify that the school-level minor repairs and maintenance special fund shall be used only to fund repairs and maintenance.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that many of the public school facilities in the State are in need of repair or renovation. A source of funding to assist the Department of Education with the upkeep and maintenance of school facilities is the school-level minor repairs and maintenance special fund. This measure ensures that the monies in the school-level minor repairs and maintenance special fund are used exclusively for the special fund's intended purpose.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 585 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 240 Education on S.B. No. 969

The purpose and intent of this measure is to:

- (1) Beginning in the 2022-2023 school year, require each public elementary school or public charter elementary school to offer instruction in the basics of computer science and computational thinking;
- Beginning in the 2023-2024 school year, require each public middle or intermediate school or public charter middle or intermediate school to offer instruction in exploratory computer science; and
- Require each public school and public charter school to submit an annual report to the Department of Education that lists the computer science courses that are offered that include a minimum amount of programming.

Your Committee received testimony in support of this measure from HawaiiKidsCAN. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that computing-based occupations make up more than two-thirds of all projected new jobs in the science, technology, engineering, and mathematics fields, commonly known as STEM fields. This means that college graduates with computer science degrees are in high demand among employers across the nation. Your Committee further finds that there is a disparity between the demand for computer science education and its availability as only forty percent of schools offer such courses.

Therefore, the intent of this measure is to integrate and prioritize computer science curriculum in public schools as a way of introducing the basics of computer science and computational thinking to students, which may prepare them for employment in fields related to computer science that have the potential to drive job growth and innovation throughout the economy.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 969 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

#### SCRep. 241 Education on S.B. No. 1447

The purpose and intent of this measure is to appropriate funds to the State Public Charter School Commission for charter schools.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which deletes the contents of this measure and inserts language to appropriate funds for operating expenses of charter schools and the State Public Charter School Commission.

Your Committee received testimony in support of the proposed S.D. 1 from the State Public Charter School Commission and Kamehameha Schools.

Your Committee finds that the proposed S.D. 1 provides a legislative vehicle should funding become available for the purposes of this measure prior to the end of the 2019-2021 fiscal biennium.

Your Committee's intent in recommending the proposed S.D. 1 for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by the proposed S.D. 1 into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1447, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1447, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

## SCRep. 242 Education on S.B. No. 1304

The purpose and intent of this measure is to establish minimum starting salaries for certified teachers who, with or without a master's degree, have completed an accredited teacher education program.

Your Committee received testimony in support of this measure from the Democratic Party of Hawai'i Education Caucus. Your Committee received comments on this measure from the Department of Education and Department of Budget and Finance.

Your Committee finds that average salaries for teachers in Hawaii generally fall in the middle of national rankings of teachers' pay. However, once the salaries of teachers in the State are adjusted for the cost of living, they are the lowest-paid in the nation. Your Committee further finds that close to half of teachers in Hawaii are leaving the profession or the State altogether within five years of starting, posing a significant problem for students. As the State continues to address matters of teacher recruitment and retention, it is crucial to support current teachers now.

While this measure does not remove salary negotiations from collective bargaining under chapter 89, Hawaii Revised Statutes, and merely provides a floor for where negotiations may begin, your Committee has heard testimony expressing concerns relating to the potential impact this measure may have on article XIII, section 2, of the Hawaii State Constitution and the collective bargaining process. As such, your Committee is requesting a legal opinion on the matter from the Department of the Attorney General. Your Committee finds that this issue raises concerns that merit further consideration and requests that your Committee on Ways and Means further examines this issue.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1304, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1304, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Kim). Noes, none. Excused, 1 (Dela Cruz).

#### SCRep. 243 Education on S.B. No. 588

The purpose and intent of this measure is to require the Department of Education to report the creation of any temporary positions to the Legislature at least twenty days prior to the convening of each regular session.

Your Committee received comments on this measure from the Department of Education and one individual.

Your Committee finds that the Department of Education is authorized to create temporary positions as it deems necessary, under certain conditions. This measure provides additional transparency and accountability for the creation of these positions by the Department of Education to ensure that resources are being used effectively and efficiently.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 588 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 244 Education on S.B. No. 584

The purpose and intent of this measure is to require the Department of Education to include source of project funding and amount of legislative appropriations used for some other purpose and the justification for such use in the information posted on the Department's website relating to school repair and maintenance projects.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that there is a need for greater transparency and fiscal discipline with the Department of Education's funding sources. While the Department of Education has taken initial steps to improve in these areas with the creation of the capital improvement program project tracker system, this measure adds further accountability for project funding to ensure that resources are used effectively and efficiently.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 584 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 245 Transportation on S.B. No. 103

The purpose and intent of this measure is to authorize the Director of Transportation to adopt rules that regulate and limit noise from vessels at harbors, ports, roadsteads, docks, wharves, piers, quays, bulkheads, and landings of the State.

Your Committee received testimony in support of this measure from the Chinatown Gateway Plaza Tenant Association. Your Committee received testimony in opposition to this measure from the Department of Transportation. Your Committee received comments on this measure from Matson.

Your Committee finds that as working harbors, many of Hawaii's harbors produce large amounts of noise. While the Department of Transportation has the authority to adopt rules regulating the manner in which vessels may enter and moor, anchor, or dock in the commercial harbors, ports, and roadsteads, this authority does not allow the Department to adopt rules to regulate excessive and harmful noises emanating from these vessels. Your Committee finds that granting the Department this authority will help alleviate the concerns of individuals affected by the noise from Hawaii's harbors.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 103 and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

## SCRep. 246 Transportation on S.B. No. 568

The purpose and intent of this measure is to exclude gender or sex markers from limited purpose driver's licenses and limited purpose provisional driver's licenses.

Your Committee received testimony in support of this measure from the Hawai'i State Commission on the Status of Women; LGBT Caucus of the Democratic Party of Hawai'i; Planned Parenthood Votes Northwest and Hawaii; Aloha State Association of the Deaf; Hawai'i Health and Harm Reduction Center; We Are One, Inc.; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and twenty individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Hawaii has one of the largest percentage of transgender individuals in the United States. Your Committee further finds that gender and sex markers on a form of identification can cause difficulty and invasive questions from unknowing individuals, creating uncomfortable situations for transgender and non-gender conforming individuals. Your Committee also finds that sex and gender markers can increase the chances of discrimination for transgender and gender non-conforming individuals in many public situations. This measure would remove gender and sex markers from a limited purpose driver's license and a limited purpose provisional license, thereby allowing the transgender and gender non-conforming community to avoid discriminatory or other unwarranted treatment.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 568 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

## SCRep. 247 Transportation on S.B. No. 652

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Keahole FBO I LLC with planning, designing, constructing, equipping, and operating facilities for aviation services and aviation-related services at Ellison Onizuka Kona International Airport at Keahole.

Your Committee received testimony in support of this measure from the Department of Transportation; Keahole FBO I LLC; Isemoto Contracting Co., Ltd.; Kohala Coast Resort Association; Sinclair Range Inc.; Ho'omanapono Political Action Committee; and two individuals.

Your Committee finds that Keahole FBO I LLC currently has a lease with the Department of Transportation for 15.15 acres at Ellison Onizuka Kona International Airport. Your Committee further finds that there are plans to develop hangars, a fuel farm, and aviation infrastructure for aviation and aviation-related services. This project will contract services from various local Hawaii contractors and consultants. Your Committee believes that this project will benefit the State by generating revenue through taxes, fees, and leases, and will also create jobs in various sectors for residents of Hawaii.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 652 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5; Ayes with Reservations (Harimoto). Noes, none. Excused, none.

## SCRep. 248 Human Services on S.B. No. 492

The purpose and intent of this measure is to:

- (1) Require the Office of the Auditor to conduct a performance, financial, and procurement audit of the Department of Human Services Disability Determination Branch; and
- (2) Appropriate funds for the audit.

Your Committee received comments on this measure from the Department of Human Services and Office of the Auditor.

Your Committee finds that the Disability Determination Branch (DDB) is responsible for making timely, accurate, and cost effective disability determinations in accordance with Social Security Administration rules and regulations. Your Committee finds that periodic audits of the DDB are in the public interest. Your Committee anticipates that the information and recommendations gained from the audit will help the legislature address any concerns raised about the DDB's management and operations.

Your Committee has amended this measure by:

- (1) Clarifying that the Office of the Auditor shall conduct a performance audit of the DDB, rather than a performance, financial, and management audit;
- Removing language that would have required the audit to include an examination of funds expended by the DDB and whether
  those expenditures were in compliance with laws;
- (3) Specifying that the audit shall include an analysis of the rate of denials for initial applications and the rates of denials and approvals for those appealed applications; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 492, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 492, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 249 Water and Land on S.B. No. 1252

The purpose and intent of this measure is to temporarily authorize the Board of Land and Natural Resources to approve rental reductions or waivers of up to twenty years of lease rental for public land leases that require substantial demolition costs or infrastructure improvement costs in order for the lessee to utilize the premises.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual

Your Committee finds that there are a number of long-term leases of public lands that have expired in recent years with significant improvements constructed on the premises during the lease term. In some cases, the leasehold improvements require costly demolition; however, the lease forms used for these leases did not require the lessee to remove the improvements at the expiration of the lease term. As a result, the demolition cost falls on the State unless the State can pass the cost on to a future lessee who undertakes redevelopment of the land. Your Committee further finds that there are unimproved public lands in the State's inventory that the State desires to develop for various uses; however, substantial investments in infrastructure will be required to facilitate development of the lands with costs in the tens of millions of dollars. To incentivize redevelopment and improvement of these lands, this measure proposes to temporarily increase the amount of rent reduction or waiver that a lessee of public lands can receive for redeveloping or improving public lands.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1252, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1252, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 250 Water and Land on S.B. No. 1255

The purpose and intent of this measure is to:

- (1) Clarify the purpose of and inclusion of privately managed forests in the forest stewardship program;
- (2) Clarify the conditions that must be met by applicants to receive funds under the program; and
- (3) Increase maximum payments from the forest stewardship fund available to landowners for assistance in developing and implementing an approved management plan.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawaii Agriculture Research Center; Hi'ipaka, LLC; Hawaii'i Forest Industry Association; and two individuals.

Your Committee finds that Hawaii's forest stewardship program, administered by the Department of Land and Natural Resources, Division of Forestry and Wildlife, provides technical and financial assistance to owners or long-term leaseholders of nonindustrial private forest land that are interested in conservation, restoration, or timber production. Forest stewardship management plans benefit the public by restoring native species, controlling invasive species, protecting forest watersheds, and increasing green jobs and education, while sustaining resources for future generations. The program reduces the financial barrier for landowners to access natural resource experts that help program participants responsibly and sustainably manage forest resources. Sixty-six percent of Hawaii's forested areas are privately managed. Your Committee finds that the program should be clarified and updated to reflect current land management practices and the needs of the participants in the program.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1255, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1255, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 251 Water and Land on S.B. No. 1257

The purpose and intent of this measure is to:

- (1) Establish that liveaboard fees for state small boat harbors shall be established by appraisal by a state-licensed appraiser approved by the Department of Land and Natural Resources and shall be set at fair market value; and
- (2) Clarify fees charged for vessels used for commercial purposes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Ocean Tourism Coalition. Your Committee received comments on this measure from one individual.

Your Committee finds that liveaboard tenants are the direct beneficiaries of small boat harbor amenities. Currently, all mooring and commercial maritime fees, with the exception of a liveaboard fee, are established by appraisal. Your Committee finds that revising the manner in which a liveaboard fee is determined within a state small boat harbor is necessary to conform to the appraised value method used for other fees. Additionally, an increase in small boat harbor fees would offset the cost of providing additional services such as increased use of utilities, showers and restrooms, security, and other administrative costs.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1257, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1257, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 252 Water and Land on S.B. No. 1260

The purpose and intent of this measure is to establish a warrantless administrative search scheme to enforce natural resources regulations. Specifically, this measure:

- (1) Authorizes police officers or agents of the Department of Land and Natural Resources upon whom the Board of Land and Natural Resources has conferred police powers to, in the performance of their primary duties and without a warrant, inspect certain items for compliance with title 12, chapters 6D, 6E, and 6K, Hawaii Revised Statutes, and any rule adopted thereunder, relating to the protection and conservation of natural resources; and
- (2) Requires a person to exhibit certain items upon demand by any such person authorized by the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, For the Fishes, The Nature Conservancy, and two individuals. Your Committee received comments on this measure from the Office of Hawaiian Affairs and two individuals.

Your Committee finds that clear legislative wording outlining a limited inspection authority coupled with the need to exhibit upon a lawful demand, is necessary to allow any police officer or agent of the Department of Land and Natural Resources upon whom the Board of Land and Natural Resources has conferred police powers to have valid authority for a limited inspection while in the field and fulfill the need to adequately protect the natural and cultural resources of Hawaii.

Your Committee has heard the concerns regarding the protection of traditional and customary Native Hawaiian rights and believes this merits further discussion by your Committee on Judiciary.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1260, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1260, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 253 Water and Land on S.B. No. 1261

The purpose and intent of this measure is to authorize the Department of Land and Natural Resources to enter into the Interstate Wildlife Violator Compact or similar agreement for mutual assistance in the enforcement of wildlife laws.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaiian Humane Society, For the Fishes, and two individuals. Your Committee received comments on this measure from the Hawaii Association for Justice.

Your Committee finds that the Interstate Wildlife Violator Compact is a multistate agreement that promotes enforcement of hunting, fishing, trapping, and other wildlife related regulations across jurisdictions and could prevent wildlife violators who have lost their hunting, fishing, trapping, or other wildlife related privileges in other member states from obtaining a hunting license in Hawaii. Your Committee further finds that the Interstate Wildlife Violator Compact is a common sense way for states to share information on violators who have lost their hunting, fishing, trapping, or other wildlife related privileges and that Hawaii should be participating in this agreement.

Your Committee has amended this measure by:

- Deleting language that would have provided civil liability immunity to employees of the Department of Land and Natural Resources administering or enforcing the Interstate Wildlife Violator Compact;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1261, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1261, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 254 Water and Land on S.B. No. 1262

The purpose and intent of this measure is to provide increased funding for land conservation by removing the annual dollar amount cap of the annual proceeds from the conveyance tax to the land conservation fund.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, The Trust for Public Land, Ka Makanai O Kohala Ohana, Sustainable Kohala, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, The Nature Conservancy, Sierra Club of Hawaii, and three individuals. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that Hawaii's natural resources are invaluable to its economy, culture, and quality of life, but an alarmingly small amount of money is invested each year to protect the State's natural capital base. Your Committee also finds that there is a clear nexus between the source of the conveyance tax and providing funding for land conservation since the development, sale, and improvement of real estate in Hawaii creates additional pressure on natural areas, coastal access, agricultural production, and water resources and watershed recharge areas.

Your Committee has amended this measure by:

- (1) Inserting an appropriation from the land conservation fund for the 2019-2021 fiscal biennium to the Department of Land and Natural Resources for resource land acquisition;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1262, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1262, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 255 Judiciary on S.B. No. 137

The purpose and intent of this measure is to:

- Increase the amount of the fine that may be assessed against a noncandidate committee for campaign spending law violations in certain circumstances; and
- (2) Allow the Campaign Spending Commission to order that payment of a fine assessed against a noncandidate committee be paid from the personal funds of an officer of the noncandidate committee.

Your Committee received testimony in support of this measure from the Campaign Spending Commission.

Your Committee finds that the campaign spending laws are often extremely difficult to enforce against large political action committees. Your Committee further finds that the structure and considerable financial resources of these organizations insulates them from effective enforcement in many situations. This measure increases the ability of the Campaign Spending Commission to assess effective penalties against large political action committees for violations of campaign spending laws.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 137 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

## SCRep. 256 Judiciary on S.B. No. 144

The purpose and intent of this measure is to:

- (1) Remove the premeditated intent element when filing any statement or report under the lobbyist law; and
- (2) Allow the State Ethics Commission to assess an administrative fine or restitution, or both, when violations of the lobbyist law

Your Committee received testimony in support of this measure from the Hawai'i State Ethics Commission.

Your Committee finds that a requirement to prove that a wrongful action was taken willfully is a required element of some criminal offenses, but is out of place in administrative violations. Your Committee further finds that, without a *mens rea* element of some kind, persons could be penalized for violations that occur without their knowledge, or are the result of unavoidable human error. Your Committee additionally finds that a requirement to prove that a violation was the result of negligence is an appropriate standard for violations of the lobbyist law.

Accordingly, your Committee has amended this measure by:

- (1) Removing restrictions on access to transcripts from public contested hearings;
- (2) Changing the standard to be subject to penalty for failing to file a statement or filing a statement containing false or misleading information or omission of facts from willfulness to negligence; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 144, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 144, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 257 Judiciary on S.B. No. 187

The purpose and intent of this measure is to establish one additional district court judgeship in the First Circuit and in the Second Circuit

Your Committee received testimony in support of this measure from the Judiciary, Department of the Prosecuting Attorney of the County of Maui, Maui County Bar Association, and two individuals.

Your Committee finds that there is significant congestion in the District Courts of the First and Second Circuits. Your Committee further finds that it has been thirty-seven years since a Second Circuit District Court judgeship has been established and that, in that time, the number of people living within the area served by the Second Circuit has more than doubled. Your Committee additionally finds that congestion in a court causes significant delays in cases and reduces the attention that a judge can give to the matters before the court. This measure will reduce the congestion by establishing additional district court judgeships in the First Circuit and the Second Circuit.

Your Committee has amended this measure by:

- (1) Making an appropriation of \$170,000 in fiscal year 2019-2020, and \$330,000 in fiscal year 2020-2021, for each of the new district court judgeships; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 187, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 187, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 258 Judiciary on S.B. No. 416

The purpose and intent of this measure is to make permanent the requirement that decisions in contested case hearings of the Commission on Water Resource Management, Land Use Commission, Public Utilities Commission, Hawaii Community Development Authority, and those involving conservation districts be appealed directly to the Supreme Court of the State of Hawaii.

Your Committee received testimony in support of this measure from the Building Industry Association of Hawaii; Chamber of Commerce Hawaii; Maunakea Observatories; Kona-Kohala Chamber of Commerce; Hawaii Island Chamber of Commerce; Oʻahu County Committee on Legislative Priorities for the Democratic Party of Hawaiʻi; David S. DeLuz, Sr. Enterprises, Inc.; and seven individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that the process for land use authorization in Hawaii is extensive, thorough, and frequently takes a considerable amount of time. Your Committee further finds that administrative proceedings in contested case hearings of the Commission on Water Resource Management, Land Use Commission, Public Utilities Commission, Hawaii Community Development

Authority, and those involving conservation districts are extremely detailed and create a significant record to serve as a foundation for appeal. This measure will make permanent a means by which these types of cases can be expeditiously resolved.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 416 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 259 Judiciary on S.B. No. 192

The purpose and intent of this measure is to authorize a defendant in custody to petition a court for unsecured bail.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Office of the Public Defender, Hawaii Disability Rights Center, League of Women Voters of Hawaii, IMUAlliance, Community Alliance on Prisons, Hawaii Friends of Civil Rights, Americans for Democratic Action, Young Progressives Demanding Action, Hawai'i Alliance for Progressive Action, Ho'omanapono Political Action Committee, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Democratic Socialists of Honolulu, Hawai'i Innocence Project, Drug Policy Forum of Hawaii, and thirty-one individuals. Your Committee received testimony in opposition to this measure from the Judiciary.

Your Committee finds that the cash-secured bail system unjustly disadvantages low-income individuals and their families. Your Committee further finds that individuals without the financial resources to pay the necessary amount of bail can be detained for weeks, months, or longer, and can additionally face the loss of employment, housing, or custody of children. This measure allows the court to release a defendant from detention upon execution of an unsecured financial bond in situations in which the court determines that such a release is appropriate.

Your Committee has amended this measure by:

- (1) Requiring that the court to take appropriate steps to collect the amount of an unsecured financial bond in the event that a defendant fails to appear in court or breaches any other condition of release; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 192, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 192, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 260 Judiciary on S.B. No. 495

The purpose and intent of this measure is to create a nexus standard for taxing out-of-state businesses on their business income in Hawaii.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME, Local 152, AFL-CIO. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that Hawaii's resident population and strong tourist presence make the State a profitable market for companies outside the State. Your Committee further finds that the establishment of an economic nexus standard for out-of-state businesses on their business income in Hawaii will allow the State to gain tax revenue from businesses that have no physical presence in Hawaii but nonetheless conduct transactions with persons in Hawaii. Your Committee additionally finds that some provisions of this measure conflict with existing standards within the general excise tax law and applicable federal laws.

Accordingly, upon the recommendation of the Department of Taxation, your Committee has amended this measure by:

- (1) Removing language that allowed solicitation of business transactions to establish an economic nexus in the State;
- (2) Clarifying that a person is systematically and regularly engaging in business in Hawaii if the person engages in the requisite number of transactions or if the sum of the person's income from business conducted in Hawaii rises to a certain amount; and
- (3) Establishing that a person is systematically and regularly engaging in business in Hawaii if the person's sales factor in Hawaii rises to a certain amount.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 495, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 495, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 261 Judiciary on S.B. No. 1170

The purpose and intent of this measure is to:

Clarify that the State is exclusively liable for claims for injury or loss of property, or personal injury or death, resulting from
the negligent or wrongful act or omission of any professionally licensed or certified employee of the State while the employee
is acting within the scope of the employee's office or employment;

- (2) Preclude civil actions or proceedings for money damages against the employee, except for claims based on liability other than an employee's scope of employment with the State or other employer; and
- (3) Clarify liability when the State agrees to assume full or partial responsibility in a civil action against a professional licensed or certified employee.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of Taxation; Department of Public Safety; and Hawaii Government Employees Association, AFSCME, Local 152, AFL-CIO. Your Committee received comments on this measure from the Hawaii Association for Justice.

Your Committee finds that state employees are generally afforded qualified immunity for tort claims arising as a result of actions taken by the employee while in the course of the employee's state employment. Your Committee further finds that in the case of Slingluff v. State of Hawaii, 131 Hawaii'i 239, 317 P.3d 683 (App. 2013), the Intermediate Court of Appeals held that prison physicians are not entitled to qualified immunity for the exercise of their professional medical judgment. Your Committee additionally finds that the court concluded that medical diagnosis and treatment decisions "[do] not involve policy making or any other type of governmental discretion", and thus "are not entitled to qualified immunity". This measure clarifies that all decisions made by employees of the State in the course of their duties and employment are exercises of discretion that the State has hired the employee to make, and thus fall within the qualified immunity of the State.

Your Committee has amended this measure by:

- (1) Clarifying that in situations in which the State has agreed to partial responsibility for the injuries, losses, and damages caused by the employee, state employees remain partially liable for those claims for which the State has not claimed responsibility; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1170, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1170, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

## SCRep. 262 Judiciary on S.B. No. 1176

The purpose and intent of this measure is to continue to meet federal financial incentive requirements by:

- (1) Increasing penalty amounts for false claims to the State to be the same as the penalty amounts for 2019 under the Federal False Claims Act: and
- (2) Providing that the penalty amounts in Hawaii's false claims act for the year 2020 and thereafter shall be the same amounts and for the same effective dates as the penalty amounts adjusted and adopted by the United Sates Department of Justice for the Federal False Claims Act.

Your Committee received testimony in support of this measure from the Department of the Attorney General and one individual

Your Committee finds that section 1909 of the Social Security Act provides a ten percentage point increase in the State's share of any amount recovered in a state action under a false or fraudulent claim if the State has a false claims act that meets the requirements set forth in section 1909. Section 1909 further requires that the State's false or fraudulent claims law contain a civil penalty that is not less than the amount provided under federal law. This measure brings Hawaii's false claims act into compliance with section 1909 of the federal Social Security Act.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1176, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1176, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

## SCRep. 263 Water and Land on S.B. No. 1296

The purpose and intent of this measure is to provide funds to the Department of Land and Natural Resources for the Kahoolawe Island Reserve Commission to effectively meet the unique challenges of restoring, preserving, and determining the appropriate uses of the Kahoolawe island reserve for the people of Hawaii and for two positions for the Commission.

Your Committee received testimony in support of this measure from the Kahoʻolawe Island Reserve Commission, Protect Kahoʻolawe ʻOhana, Ocean Tourism Coalition, Hawaiian Affairs Caucus of the Democratic Party of Hawaiʻi, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, Maui Nui Seabird Recovery Project, and twenty-seven individuals. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee finds that extensive erosion and other ecological problems and the presence of unexploded ordnance, archaeological and other cultural and historic sites, and native and endangered flora and fauna necessitated a new management regime to effectively meet the unique challenges of restoring, preserving, and determining the appropriate use of Kahoolawe. As a result, the Kahoolawe Island Reserve Commission was established in 2004 and funded through federal and state sources; however, funding has run low in recent years. Your Committee further finds that the Kahoolawe Island Reserve Commission is not only restoring the

ecological damage on Kahoolawe and protecting its endangered and rare flora and fauna, it is also ensuring that the people of Hawaii who access the Kahoolawe island reserve can do so meaningfully and safely. Therefore, your Committee finds it necessary to provide adequate funding for the Kahoolawe Island Reserve Commission.

Your Committee has amended this measure by:

- (1) Inserting blank appropriation amounts;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1296, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1296, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 264 Water and Land on S.B. No. 1385

The purpose and intent of this measure is to update statutes regarding the Kaneohe Bay Regional Council. Specifically, this measure:

- Requires the Department of Land and Natural Resources to provide administrative support to the Kaneohe Bay Regional Council:
- (2) Requires that the chairperson be selected by the members on an annual and rotating basis; and
- (3) Requires the Kaneohe Bay Regional Council to meet quarterly.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, Koʻolau Foundation, and two individuals. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committee finds that the Kaneohe Bay Regional Council (Council) was established in 1993 and is administered by the Department of Land and Natural Resources, although the Department does not provide administrative support to the Council. The Council is charged with a variety of functions, including facilitating the implementation of the Kaneohe Bay Master Plan, as it relates to ocean use activities, and productive interaction between users of the Bay and the general public in order to develop a common vision and make recommendations for public policy related to Kaneohe Bay.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1385, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1385, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 265 Water and Land on S.B. No. 1490

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and The Nature Conservancy.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Land and Natural Resources in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be added to the Department's base budget and incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1490, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1490, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

## SCRep. 266 Water and Land on S.B. No. 1500

The purpose and intent of this measure is to require the Department of Land and Natural Resources to collaborate with various agencies to research and develop a plan for a mechanism for increased water circulation in Pokai Bay on Oahu's leeward coast to mitigate environmental and health risks caused by pollution and contaminants in the water.

Your Committee received testimony in support of this measure from the Aha Moku Advisory Committee, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, Na Kama Kai, Hoʻomanapono Political Action Committee, and six individuals. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committee finds that Pokai Bay is one of the most visited ocean areas on Oahu's leeward coast because of its wide sandy beach and relatively calm waters; however, despite its pristine appearance of crystal blue waters and white sand, it is sadly the site of pollution from multiple sources. Your Committee further finds that various methods of artificial water circulation, including jet aeration and pumping systems, to increase oxygenation, improve water quality, and mitigate environmental damage caused by shoreline destruction and water contamination have worked across the world and believes such methods can be employed in Pokai Bay to reduce pollution and restore its beauty.

Your Committee has amended this measure by:

- (1) Replacing the Department of Land and Natural Resources with the Department of Health as the lead agency;
- (2) Directing the Department of Health to collaborate with the Department of Land and Natural Resources and the Aha Moku Advisory Committee, rather than a representative from a list provided by native Hawaiian organizations, in addition to other entities specified;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1500, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1500, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 267 Water and Land on S.B. No. 1526

The purpose and intent of this measure is to provide funding for a DOCARE DLNRTip app administrator position and software upgrades and app enhancements.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and twelve individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that the DOCARE DLNRTip app is a free, smartphone-based application that allows community members to anonymously report violations on public lands to the Department of Land and Natural Resources. When submitting a tip, a user includes the subject, location, and any helpful photos or videos of the violation. The DOCARE DLNRTip app's strengths include the ability to quickly report illegal acts, anonymity, and accessibility to anyone. However, the DOCARE DLNRTip app suffers from the absence of backend database management and analytics processing. Your Committee finds that additional funding is needed to enable database management and analytics processing to address the DOCARE DLNRTip app's existing weaknesses and enhance DLNR's ability to efficiently enforce violations.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1526, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1526, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

## SCRep. 268 Transportation on S.B. No. 660

The purpose and intent of this measure is to create a non-compliant identification card for individuals that are not able to provide an updated photograph and documentation in-person, as required by the federal REAL ID Act of 2005.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the federal REAL ID Act of 2005 requires all applicants to appear in-person in order to obtain a compliant identification card. This requirement prevents those who are severely disabled to the point of being homebound from obtaining a compliant identification card. Your Committee finds that homebound individuals require an identification card when conducting various transactions with entities like financial institutions, health providers, hospitals, and government agencies. Your Committee believes that the requirement to appear in-person for a compliant identification card creates extreme difficulties for those

who cannot appear in-person. This measure would create procedures to allow those who are severely disabled and homebound to obtain a non-REAL ID Act 2005 compliant identification card so that those individuals can have some form of identification.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 660 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 269 Transportation on S.B. No. 1378

The purpose and intent of this measure is to authorize owners of a shipping container chassis to keep a duplicate copy of the certificate of registration within the shipping container chassis and the original certificate of registration at their principal place of business

Your Committee received testimony in support of this measure from the Hawaii Transportation Association and Matson.

Your Committee finds that a shipping container chassis is a wheeled frame that is designed to carry a shipping container over the road. Currently, owners of shipping container chassis must keep the original copy of the registration within the chassis. Your Committee further finds that a shipping container chassis may endure harsh conditions and does not have the necessary compartments to properly and safely store an original registration certificate. This measure would allow owners of a shipping container chassis to safely keep the original registration in their place of business for inspection, if needed.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1378 and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 270 Transportation on S.B. No. 1427

The purpose and intent of this measure is to appropriate funds to the Department of Transportation for operations and 7 staff positions to increase hours of operation of the Kuhio highway contraflow on Kauai.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that traffic congestion in the Wailua-Kapaa corridor in the County of Kauai continues to worsen, creating significant delays for residents and visitors and ultimately degrading the quality of life for those who live on Kauai. Your Committee further finds that the existing contraflow operation serves an effective mitigation measure to reduce traffic congestion Monday through Saturday. However, there is no contraflow operations on Sunday or holidays, during a time when the roads see a lot of traffic. This measure would provide funding to the Department of Transportation to continue the operation of the contraflow in Kauai, thereby mitigating traffic congestion and improving the quality of life for residents and visitors of Kauai.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1427 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Harimoto). Noes, none. Excused, none.

## SCRep. 271 Transportation on S.B. No. 1298

The purpose and intent of this measure is to appropriate funds to the Department of Transportation to reopen Highway 132, also known as Kapoho Road.

Your Committee received testimony in support of this measure from the Kapoho Land Partnership, Sunny Kapoho Citrus, Kalapana Seaview Estates Community Association, Laumana Farms, one member of the Hawai'i County Council, and seventy-four individuals. Your Committee received testimony in opposition to this measure from the Department of Transportation. Your Committee received comments on this measure from the Office of the Mayor of the County of Hawai'i.

Your Committee finds that the eruption of Kilauea displaced many families and caused significant damage on the island of Hawaii. Your Committee further finds that Highway 132, also known as Kapoho Road, has been lava-locked, preventing neighbors and agricultural tenants from accessing their homes or lands. Your Committee also finds that Kapoho Road is in a critical area for farms, with an abundance of land that grow papaya, oranges, and other types of produce. Currently, the residents of the island of Hawaii are recovering from the devastating effects of the eruption, but are still unable to return to their homes and farms. Your Committee believes that supporting efforts to assist families and farmers to return to their livelihood is in the best interest of the State as a whole.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1298 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Harimoto). Noes, none. Excused, none.

## SCRep. 272 Transportation on S.B. No. 411

The purpose and intent of this measure is to exempt marine terminal equipment temporarily moving in or between marine terminals at Hilo Harbor, Kawaihae Harbor, Kahului Harbor, and Nawiliwili Harbor from inspection, registration, and licensing requirements.

Your Committee received testimony in support of this measure from the Department of Transportation and Matson.

Your Committee finds that currently the movement of marine terminal equipment is only permitted in certain terminals, ultimately restricting movement between other terminals and commercial harbors. This measure would promote operational efficiencies at the harbors by streamlining the existing process to allow the movement of marine equipment between terminals, further allowing harbor users to reallocate resources as needed.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 411, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 411, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 273 Transportation on S.B. No. 438

The purpose and intent of this measure is to provide an income tax credit to taxpayers who install or operate an electric vehicle charging system that is available for use by the public.

Your Committee received testimony in support of this measure from the Big Island Electric Vehicle Association, Hawaiian Electric Company Inc., Hawaii Automobile Dealers' Association, Alliance of Automobile Manufacturers, Ulupono Initiative, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and four individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that ground transportation in Hawaii utilizes more than a quarter of the State's imported petroleum. Transitioning to electric vehicles will significantly reduce the State's dependence on imported fossil fuels, keeping millions of dollars in the State. Your Committee further finds that converting from petroleum-based vehicles to electric vehicles immediately reduces greenhouse gas emission, helping to combat climate change and its impact on Hawaii. Your Committee also finds that electric vehicles are a key factor in addressing Hawaii's pressing climate issues and can help accelerate the State's goal of one hundred percent renewable energy, while also contributing to the Paris Agreement commitments and carbon neutral goal. This measure would incentivize the installation of electric vehicle charging stations around the State, thereby attracting more residents to purchase electric vehicles.

Your Committee has amended this measure by:

- (1) Establishing a tiered income tax credit for the installation or upgrade of an electric vehicle charging system;
- (2) Establishing caps for the allowable tax credit per taxpayer; and
- (3) Establishing a cap of \$3,000,000 for the total amount of tax credit allowed in any taxable year.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 438, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 438, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 274 Transportation on S.B. No. 824

The purpose and intent of this measure is to:

- (1) Prohibit operating a moped or motor scooter from any rental company unless a person wears a safety helmet; provided that the prohibition does not apply if a person has a valid license from any state to operate a motorcycle; and
- (2) Prohibit the rental of any moped or motor scooter with an aftermarket modification to its motor.

Your Committee received testimony in support of this measure from the Department of Transportation and seventy-two individuals. Your Committee received testimony in opposition to this measure from the Street Bikers United Hawaii.

Your Committee finds that from 2016 to 2018, there were 23 motor scooter and moped operator fatalities, and of the 23 fatalities, 22 operators were not wearing helmets. Wearing a helmet while operating a moped, powered scooter, or other motorized cycle decreases fatalities and serious injuries. Your Committee notes that according to the Hawaii Injury Prevention Plan for 2012-2017, published by the Department of Health and the Emergency Services and Injury Prevention System Branch, properly worn helmets can reduce the risk of death by 42 percent and the risk of a head injury by 69 percent. This measure would require anyone who rents or leases a motor scooter or moped to wear a helmet and will help to reduce the amount of motor scooter and moped related fatalities.

Your Committee has amended this measure by:

Specifying that rental companies are required to provide helmets to any person renting a motor scooter or moped unless that
person provides their own safety helmet; and

(2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 824, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 824, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 275 Transportation on S.B. No. 656

The purpose and intent of this measure is to:

- (1) Include helicopters in the definition of "aircraft" for purposes of the aircraft service and maintenance facility general excise tax exemption;
- (2) Expand the types of aircraft eligible for the aircraft service and maintenance facility general excise tax exemption by removing the qualification of an aircraft having two or more jet engines; and
- (3) Eliminate the space requirements for the aircraft service and maintenance facility general excise tax exemption and add a requirement that seventy-five percent of helicopters serviced within any aircraft service and maintenance facility be equipped with quiet technology.

Your Committee received testimony in support of this measure from the Blue Hawaiian Helicopters. Your Committee received testimony in opposition to this measure from the Office of the Mayor of the County of Hawaii, Life of the Land, and three individuals. Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, Safari Aviation Inc., Activities and Attractions Association of Hawaii, and one individual.

Your Committee finds that the State relies on a well-functioning aircraft industry in order to have a strong and robust economy. In order to ensure the health of the aircraft industry, the State offers an exemption to the general excise tax for the servicing and maintenance of aircrafts. In existing law, helicopters are not considered an aircraft and therefore do not receive the advantages of a general excise tax exemption. Your Committee further finds that due to Hawaii's vast and natural beauty, helicopters have grown increasingly popular for tours. This measure would encourage the expansion of the helicopter industry in Hawaii, resulting in an increase in revenue for the State.

Your Committee has amended this measure by:

- (1) Specifying the tax period that the taxpayer must meet the seventy-five percent threshold requirement;
- (2) Reinstating the space requirement for an aircraft service and maintenance facility; and
- (3) Inserting a definition for "quiet technology".

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 656, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 656, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 276 (Joint) Higher Education and Energy, Economic Development, and Tourism on S.B. No. 200

The purpose and intent of this measure is to:

- (1) Appropriate funds for the University of Hawaii to fund one or more programs sponsored or organized by a University of Hawaii community college or a four-year campus to expand opportunities for international college experiences for students; and
- (2) Require the University of Hawaii to work in collaboration with the Department of Business, Economic Development, and Tourism and submit a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2020.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and two individuals. Your Committees received comments on this measure from the University of Hawai'i System and Department of Business, Economic Development, and Tourism.

Your Committees find that there have been initiatives within the University of Hawaii System to provide students with educational and cultural experiences to visit the Asia-Pacific region. With a local population largely made of descendants of plantation workers and immigrants from China, Japan, Korea, the Philippines, and other parts of the Asia-Pacific region, Hawaii's residents should take advantage of these cultural and historic ties for the potential economic benefit of the State. This measure allows students to become more familiar with these nations and this region and further exposes Hawaii students to enhanced economic and cultural opportunities.

As affirmed by the records of votes of the members of your Committees on Higher Education and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 200 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kahele).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Taniguchi).

## SCRep. 277 Higher Education on S.B. No. 452

The purpose and intent of this measure is to appropriate funds to continue and expand health care apprenticeship programs at the University of Hawaii community colleges.

Your Committee received testimony in support of this measure from the University of Hawai'i System, The Queen's Health Systems, Hawai'i Primary Care Association, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and three individuals.

Your Committee finds that apprenticeship programs approved by University of Hawaii community colleges are composed of two major components: work process and related instruction. The work process component consists of on-the-job training, while the related instruction component is the structured class and laboratory or shop curricula. Therefore, apprenticeship programs develop job skills through theoretical and practical experiences.

Your Committee further finds that, in 2016, the United States Department of Labor, Employment and Training Administration awarded the Hawaii State Department of Labor and Industrial Relations a substantial grant to expand apprenticeship opportunities in information technology and health care. This grant helped to alleviate the shortage of physicians, pharmacy technicians, nursing assistants, paraoptometric technicians, medical laboratory workers, and community health workers. This measure further supports the development, education, and training for individuals looking to enter the health care field.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 452 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Kahele).

## SCRep. 278 Higher Education on S.B. No. 762

The purpose and intent of this measure is to:

- Establish and appropriate funds for the P-20 agriculture education coordinator position within the University of Hawaii at Manoa College of Tropical Agriculture and Human Resources; and
- (2) Specify the duties of the P-20 agriculture education coordinator and P-20 agriculture education working group.

Your Committee received testimony in support of this measure from the Department of Agriculture, Department of Education, University of Hawai'i System, Kōkua Hawai'i Foundation, Ka Ohana O Na Pua, Hawai'i Farm to School Hui, Hawai'i Farm Bureau, Hawaii FFA – Kalani High School, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Down to Earth Organic and Natural, and ten individuals.

Your Committee finds that Hawaii does not have an adequate-sized farming workforce for expansion of cultivated agricultural lands and food production. In order to meet the State's aspirations for increased food security and self-sufficiency, the number of local farms and farmers and the amount of food produced for local markets will need to increase significantly through agriculture and natural resource management education.

Your Committee further finds that the University of Hawaii at Manoa College of Tropical Agriculture and Human Resources convened the P-20 agriculture education working group to develop a coordinated framework of support for agriculture education for preschool through post-secondary. This measure asserts the implementation of that framework through the establishment of a P-20 agriculture education coordinator to lead the implementation plan for a coordinated framework of support for P-20 agriculture education in the State.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 762 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Kahele).

## SCRep. 279 Higher Education on S.B. No. 1418

The purpose and intent of this measure is to appropriate funds for four full-time equivalent (4.00 FTE) positions for the University of Hawaii system-wide Pamantasan Council, including instructional faculty, student personnel, and graduate assistantships.

Your Committee received testimony in support of this measure from the University of Hawai'i System; University of Hawai'i Pamantasan Council; Pamantasan 2019 Conference Committee in Hawai'i Island; The Filipino Community Center, Inc.; Filipina Advocacy Network; Filipino-American Historical Society of Hawai; Filipinos for Affirmative Action; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'; and twelve individuals.

Your Committee finds that, despite their high representation in the general population and in schools within the Department of Education, students of Filipino ancestry are underrepresented at certain campuses within the University of Hawaii System. While students of Filipino ancestry are well-represented at the University of Hawaii West Oahu and University of Hawaii community colleges, students of Filipino ancestry are severely underrepresented at the University of Hawaii at Manoa, comprising only ten percent of undergraduate students and four percent of graduate students.

Your Committee further finds that support for the Filipino community in higher education will increase the representation of Filipino students and professionals in the education, health, legal, business, science, technology, engineering, and mathematics fields.

This measure provides additional resources for students of Filipino ancestry that may increase academic interest, student success, and graduation among Filipino students.

Your Committee notes that although the appropriation is blank, an appropriation of \$390,000 is necessary for the four full-time equivalent (4.00 FTE) positions for the University of Hawaii system-wide Pamantasan Council, including instructional faculty, student personnel, and graduate assistantships.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1418 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kahele).

#### SCRep. 280 Higher Education on S.B. No. 1419

The purpose and intent of this measure is to require the University of Hawaii to include all long-term leases the university enters into with the intent to purchase as part of its capital improvement projects budget request.

Your Committee received comments on this measure from the University of Hawai'i System.

Your Committee finds that the funds expended by the University of Hawaii and the accompanying contractual obligations it must adhere to when entering into long-term leases are matters of statewide concern. This measure provides additional transparency for the potential purchasing of property by the University of Hawaii to ensure that university resources are used effectively and efficiently.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1419, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1419, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kahele).

#### SCRep. 281 Higher Education on S.B. No. 1512

The purpose and intent of this measure is to require the University of Hawaii, West Oahu campus, to offer a Bachelor's degree in creative media

Your Committee received testimony in support of this measure from the University of Hawai'i System; Department of Business, Economic Development, and Tourism; Washington Place; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and thirteen individuals.

Your Committee finds that the film, television, and digital media industry in Hawaii can and should be strengthened. Currently, the University of Hawaii, West Oahu campus, offers a Bachelor's of Applied Science degree with a concentration in creative media and a Bachelor's of Humanities degree with a concentration in creative media. However, prospective employers may not see these degrees on the same level as a Bachelor's of Arts degree from the University of Hawaii at Manoa or other universities. This measure would provide a much needed degree for students pursuing creative media and develop and expand a locally trained creative media industry workforce.

Your Committee has amended this measure by:

- (1) Specifying that the University of Hawaii, West Oahu campus, shall offer a Bachelor's of Arts degree in creative media;
- (2) Inserting language that specifies that the University of Hawaii System and Board of Regents of the University of Hawaii shall pass, finalize, and approve, including seeking approval from the Western Association of Schools and Colleges for, the Bachelor's of Arts degree in creative media by May 1, 2019; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1512, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1512, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kahele).

# SCRep. 282 Government Operations on S.B. No. 502

The purpose and intent of this measure is to require:

- (1) Notification to the Legislative Reference Bureau of any report required for submission to the Legislature;
- (2) The Legislative Reference Bureau to develop a spreadsheet on the status and subject of all required reports;
- (3) The Legislative Reference Bureau to inform the Legislature of all reports that were not timely submitted; and
- (4) Governmental agencies that submit reports to include certain information to facilitate the Legislative Reference Bureau's timely reporting of the submission of those reports.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that it is necessary to establish a streamlined system that accurately informs the Legislature of departments, agencies, and offices that are not meeting reporting requirements. The Legislative Reference Bureau already has an approximate compilation of required reports, so it is the appropriate entity to create a spreadsheet outlining more detailed information about the reports. This measure requires the Legislative Reference Bureau to create a spreadsheet of all reports required for submission, so the Legislature can accurately track and oversee that reports are properly and timely submitted.

Your Committee has amended this measure by:

- (1) Clarifying that the Legislative Reference Bureau shall make the spreadsheet available to the Legislature after the forty-five day veto override period has elapsed and again by the first day of each regular session, rather than twenty days prior to the convening of each regular session; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 502, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 502, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Baker).

#### SCRep. 283 Government Operations on S.B. No. 1057

The purpose and intent of this measure is to require the Office of Information Practices to resolve all public complaints regarding access to public records or open meetings within six months of the date the complaint was received.

Your Committee received testimony in support of this measure from The Civil Beat Law Center for the Public Interest, Society of Professional Journalists Hawaii Chapter, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committee received testimony in opposition to this measure from the Office of Information Practices.

Your Committee finds that the Office of Information Practices was created to provide the public with a forum for the speedy resolution of disputes regarding access to public records, with an expeditious, informal, and free review process. However, the Office has not been resolving complaints in an expeditious manner. Your Committee notes that many states with an agency similar to the Office of Information Practices impose a six-month deadline on the agency to resolve public disputes.

Your Committee also finds that timely access to public records is critical and unnecessary delays in accessing government information increase public mistrust of, and disillusionment with, its representative government. This measure is intended to ensure that the Office of Information Practices responds to public complaints in a timely manner that best serves the public and provides transparency in government operations.

Your Committee has heard testimony from the Office of Information Practices, expressing concerns that the Office will not be able to meet the statutory deadline proposed by this measure without additional long-term, dedicated funding and training time for additional personnel. Your Committee notes, however, that the Office acknowledged that other jurisdictions issue decisions in a shorter timeframe and utilize shorter memoranda. Passage of this measure can serve as a policy call by the Legislature to prioritize the pace of decisions, which guidance can promote the restructuring of work flow and efficiencies within the Office.

Your Committee does acknowledge that the deadline proposed by this measure will be more manageable for the Office if the Office is allocated additional resources for salary parity, allowing the Office to more easily retain experienced staff. Your Committee on Ways and Means may wish to consider the Office's request for additional funding.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1057, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1057, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Baker).

## SCRep. 284 Government Operations on S.B. No. 503

The purpose and intent of this measure is to:

- (1) Require each department to deduct the department's total salary overpayment from the department's budget request for the following fiscal biennium;
- (2) Require employees who exhaust their sick leave to be placed on a manual accounting system; and
- (3) Remove the two-year statute of limitations on the determination and notice of salary or wage overpayment.

Your Committee received testimony in support of this measure from the Department of Transportation and University of Hawai'i System. Your Committee received comments on this measure from the Department of Education, Department of Accounting and General Services, and State of Hawaii Employees' Retirement System.

Your Committee finds that salary overpayments have been an ongoing issue throughout many departments and agencies of the State with approximately half of all salary overpayments the result of employees calling in sick without having sufficient sick leave

accumulated. This measure requires each department to deduct salary overpayments from the department's budget request; requires employees who use their sick leave to be placed on a manual accounting system; and removes the two-year statute of limitations on the determination and notice of salary overpayment. Holding state departments and agencies accountable for salary overpayments will decrease overpayment waste and increase state efficiency.

Your Committee has amended this measure by:

- (1) Specifying that employees who exhaust their vacation leave must be placed on a manual accounting system;
- (2) Inserting an effective date of July 1, 2025, to encourage further discussion;
- (3) Making a technical, nonsubstantive amendment to correct an incorrect reference in the purpose section to conform to the substantive language of this measure; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 503, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 503, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Baker).

## SCRep. 285 Government Operations on S.B. No. 1055

The purpose and intent of this measure is to require the Governor, Lieutenant Governor, members of the Legislature, Governor-appointed Executive of each principal department, President of the University of Hawaii, Superintendent of Education, Administrative Director of the State, Administrative Director of the Courts, and the Administrator of the Office of Hawaiian Affairs to disclose additional information regarding income received from certain businesses or services.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission and Life of the Land.

Your Committee finds that under existing law, various state officials are required to file annual financial disclosure statements with the State Ethics Commission. However, the Governor, Lieutenant Governor, members of the Legislature, principle department executives, President of the University of Hawaii, Superintendent of Education, Administrative Director of the State, Administrative Director of the Courts, and the Administrator of the Office of Hawaiian Affairs are not required to disclose individual items of compensation that constitute a portion of their income or any specific information regarding clients.

This measure requires these high-level state officials to provide more specificity and detail in their financial disclosure statements, which will promote public trust and aid the State Ethics Commission in identifying and addressing, if needed, any potential conflicts of interest to ensure the highest levels of integrity in state government.

Your Committee has amended this measure by making a technical, nonsubstantive amendment to correctly reflect the most current language in the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1055, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1055, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Baker).

## SCRep. 286 Government Operations on S.B. No. 142

The purpose and intent of this measure is to clarify State Ethics Code provisions regarding gift disclosure statements, retention of financial disclosure statements, and ethics training.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission.

Your Committee finds that under existing law, the gift disclosure statement reporting period is from June 1 of the preceding calendar year through June 1 of the year of the report, which means that a gift received on June 1 must be reported twice.

Your Committee further finds that the State Ethics Commission is currently required to keep financial disclosure statements for the duration of the term of office of the legislator, employee, or delegate, plus an additional six years after filers leave office, which causes an unnecessary amount of administrative recordkeeping, especially in the case of Legislators who stay in office for many years.

Your Committee also finds that existing law states that an ethics training session must be held in January and last a minimum of two hours, which is outdated and does not reflect the actual training being provided that is offered multiple times a year and often lasts between an hour to an hour and a half.

Accordingly, this measure addresses these issues and improves administration of the State Ethics Code by eliminating the double filing requirement of gift disclosure statements, reducing the unnecessary administrative burden on commission staff by only requiring records to be kept six years after the filing date of each financial disclosure statement, and providing flexibility for participants in mandatory ethics training sessions.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 142, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 142, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 287 Government Operations on S.B. No. 290

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Accounting and General Services.

Your Committee received comments on this measure from the Department of Accounting and General Services and Office of Information Practices.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Accounting and General Services in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 290 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

## SCRep. 288 Government Operations on S.B. No. 1110

The purpose and intent of this measure is to appropriate or authorize funds or amend means of financing for various capital improvement projects of the Department of Accounting and General Services.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services, Hawai'i State Foundation on Culture and the Arts, and Stadium Authority of Aloha Stadium. Your Committee received comments on this measure from the Department of Accounting and General Services.

Your Committee finds that this measure expresses adjustments to the projects funded, maximum sums appropriated or authorized, or means of financing indicated for the Department of Accounting and General Services in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- (1) Removing capital improvement project budget items that are under the purviews of the Committees on Technology; Energy, Economic Development, and Tourism; Labor, Culture and the Arts; and Judiciary; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1110, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1110, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Baker, Fevella).

## SCRep. 289 (Joint) Agriculture and Environment and Commerce, Consumer Protection, and Health on S.B. No. 258

The purpose and intent of this measure is to reduce risks to public health and welfare by banning the use of lead-based paints on outdoor structures and to provide for an abatement plan for lead hazards that already exist on outdoor structures.

Your Committees received testimony in support of this measure from the Department of Education and Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi. Your Committees received comments on this measure from the Department of Health.

Your Committees find that lead-based paint has serious health risks. Lead has been shown to cause neurological damage, behavioral and learning disabilities in children, kidney damage, miscarriages, and more. There is no safe level of exposure to lead and no way to reverse the damage caused by lead exposure.

Your Committees also find that while restrictions on lead-based paints have been in place for residential structures for decades, only Delaware has restrictions on lead-based paints on outdoor structures. Lead-based paints have historically been used and continue to be allowed on outdoor structures such as bridges, water towers, playground equipment, highways, parking lots, and utility towers and

poles. The use, maintenance, and removal of paints containing lead on outdoor structures create lead exposure pathways that are hazardous to workers, contaminate the environment, and expose children and adults who live, work, and play in proximity to these structures

Your Committees note that the Department of Health does not currently have the resources and expertise it needs to implement rules to ban lead-based paint on outdoor structures and create an abatement plan for existing structures with lead-based paint. Your Committees also note that this measure does not appropriate funds for such purposes.

Accordingly, your Committees have amended this measure by:

- (1) Deleting the requirement for administrative rulemaking regarding development of the lead-based paint abatement plan; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 258, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 258, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Fevella).

## SCRep. 290 (Joint) Agriculture and Environment and Commerce, Consumer Protection, and Health on S.B. No. 367

The purpose and intent of this measure is to prohibit food service businesses and stores from the sale, use, or distribution of polystyrene foam containers, expanded polystyrene food service products, plastic straws, and plastic bags.

Your Committees received testimony in support of this measure from the Department of Education, Office of Hawaiian Affairs, one member of the Hawaii County Council, County of Maui Department of Environmental Management, Ocean Tourism Coalition, Beach Environmental Awareness Campaign Hawaii, Dolphin Quest, Surfrider Foundation Oʻahu, Animal Rights Hawaii, Hawaii Reef and Ocean Coalition, Keiko Conservation, League of Women Voters of Hawaii, Sierra Club of Hawaii, Americans for Democratic Action, Zero Waste Oʻahu, Kokua Hawaii Foundation, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Kaiser High School Wipeout Crew, Delphi Cinema, Sustainable Coastlines Hawaii, and over seventy individuals. Your Committees received testimony in opposition to this measure from Papa's Cafe; Wiki Wiki Drive Inn; Loco Moco Drive Inn; Plastics Industry Association; Hibachi Kailua; Hawaii Restaurant Association; Hawaii Food Industry Association; Queen Street Cafe & Grill; Jets Fast Food; Shiro's Saimin Haven; HNA Food Services LLC dba Tsukenjo's; Nabeya Maida; Chamber of Commerce Hawaii; Retail Merchants of Hawaii; KYD, Inc. dba K. Yamada Distributors; and two individuals. Your Committees received comments on this measure from the Department of Health and Department of Environmental Services of the City and County of Honolulu.

Your Committees find that plastic straws, polystyrene foam, and plastic bags are seemingly everywhere, often ending up as marine trash, littering beaches, or unknowingly consumed by sea life. Other jurisdictions have taken steps to prohibit the sale and distribution of such products. Hawaii, as a leader in advancing protections of marine life and the marine environment, should ban these unnecessary, single-use objects that are contributing to the world's plastic problem.

Your Committees have amended this measure by:

- (1) Removing language that would have provided an undue hardship exemption for stores and food service businesses;
- (2) Delaying its effective date to July 1, 2021; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 367, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 367, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Fevella).

## SCRep. 291 (Joint) Agriculture and Environment and Commerce, Consumer Protection, and Health on S.B. No. 239

The purpose and intent of this measure is to:

- Prohibit manufacturers and contract testing facilities in Hawaii from using animal test methods for the purpose of testing
  cosmetics or household products for which an alternative test method is available; and
- (2) Impose a civil fine and authorize the Attorney General to seek injunctive relief for violations of the prohibition.

Your Committees received testimony in support of this measure from the Department of Education, West Hawaii Humane Society, Cruelty Free International, National Anti-Vivisection Society, Animal Rights Hawai'i, Humane Society of the United States, Down to Earth Organic and Natural, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Wipeout Crew, and twenty-two individuals.

Your Committees find that there are no federal laws in the United States that prohibit the use of animals for cosmetic or household products testing or require companies to first look for alternative testing methods. Your Committees further find that several other states require alternative testing methods, if available, to be used for cosmetic and household product testing. Your Committees

additionally find that by setting forth a clear regulatory mandate to utilize non-animal testing methods whenever available, Hawaii can prevent animal suffering and ensure that the best available scientific tests are used for products developed and manufactured in the State.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 239 and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Fevella).

## SCRep. 292 (Joint) Agriculture and Environment and Commerce, Consumer Protection, and Health on S.B. No. 522

The purpose and intent of this measure is to:

- Prohibit the purchase, use, sale, or distribution of single-use plastic bottles, utensils, stirring sticks, polystyrene foam containers, and straws by state and county agencies after July 1, 2021, and by businesses selling food and beverages after July 1, 2022;
- (2) Ban the distribution or sale of plastic bags after July 1, 2023;
- (3) Ban the sale or distribution of single-use plastic beverage containers after July 1, 2025; and
- (4) Establish and appropriate funds for the plastic source reduction working group to make recommendations for eliminating single-use plastic packaging.

Your Committees received testimony in support of this measure from the County of Maui Department of Environmental Management; one member of the Hawai'i County Council; Keiko Conservation; Pacific Agricultural Land Management Systems; Hawai'i Reef and Ocean Coalition; League of Women Voters Hawaii; Sierra Club of Hawai'i; Friends of Hanauma Bay; Surfrider Foundation, O'ahu Chapter; Animal Rights Hawai'i; Pacific Whale Foundation; Zero Waste O'ahu; Kailua Beach Adventures; Kokua Hawaii Foundation; Dolphin Quest; Kaiser High School Wipeout Crew; Delphi Cinema; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Sustainable Coastlines Hawaii; and numerous individuals. Your Committees received testimony in opposition to this measure from the Hawaii Food Industry Association; International Bottled Water Association; Plastics Industry Association; Maui Soda & Ice Works, Ltd.; Hawai'i Restaurant Association; American Beverage Association; KYD, Inc. dba: K. Yamada Distributors; Retail Merchants of Hawaii; Chamber of Commerce Hawaii; and nine individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources and Department of Health.

Your Committees find that the local and global impact of the world's increasing waste stream is unsustainable and detrimental to the future of Hawaii's economy and people. There has been an exponential rise in single-use foodware items, including plastic bottles, caps, lids, straws, cups, and polystyrene and plastic containers, which are major contributors to street and beach litter, ocean pollution, marine and other wildlife harm, and greenhouse gas emissions. This measure minimizes packaging and promotes alternatives derived from compostable materials, which are now widely available, to benefit the State's economy as it shifts toward a system of responsible reuse.

Your Committees have amended this measure by:

- (1) Deleting language that would have prohibited individuals or businesses from distributing, selling, or providing any form of single-use plastic beverage container after July 1, 2025;
- (2) Requiring the plastic source reduction working group to study and develop a systematic plan to phase out the use of single-use plastic beverage containers; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 522, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 522, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Fevella).

## SCRep. 293 Judiciary on S.B. No. 120

The purpose and intent of this measure is to create a statutory right of victims and witnesses of sexual offenses to a speedy trial in criminal cases involving adult defendants that is subordinate only to the defendant's right to a speedy trial.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, and one individual. Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that victims and witnesses of sexual offenses are especially vulnerable, and that repeated postponement of trial in such cases causes further harm by delaying the justice owed to crime victims. This measure minimizes the risk of unnecessary postponements and delays by establishing a right to a speedy trial for victims and witnesses of sexual offenses. However, your Committee further finds that the due process rights of defendants in criminal cases are central to the integrity of the criminal justice system. Your Committee additionally finds that the due process rights of defendants in criminal cases are constitutionally established.

This measure attempts to balance defendants' constitutional rights and the need for victims of sexual offenses to receive a speedy resolution of their case.

Your Committee has amended this measure by:

- (1) Clarifying that the right of victims and witnesses to a speedy trial is subordinate only to the defendant's state and federal constitutional rights; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 120, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 120, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 294 Judiciary on S.B. No. 840

The purpose and intent of this measure is to:

- Allow the Campaign Spending Commission to refer a complaint to the Attorney General or county prosecutor in addition to
  any administrative determination and without the requirement that the Commission believes the respondent has recklessly,
  knowingly, or intentionally committed a violation;
- (2) Disqualify a person convicted of violating elections criminal prosecution laws from holding elective public office for ten years instead of four years; and
- (3) Repeal language stipulating that elections criminal prosecution law does not apply to any person who has paid or has agreed to pay fines related to report filing violations and advertisement violations prior to the commencement of the proceedings.

Your Committee received testimony in support of this measure from the Campaign Spending Commission.

Your Committee finds that campaign finance violations are a matter of serious concern. Your Committee further finds that, under existing law, the Campaign Spending Commission is unable to apply a civil remedy to a campaign finance violation that the Commission has referred for prosecution unless the prosecuting authority declines prosecution and refers the case back to the Commission. Your Committee additionally finds that this process can take years in some cases. This measure gives the Commission flexibility in dealing with serious campaign finance violations.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 840 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

## SCRep. 295 Judiciary on S.B. No. 686

The purpose and intent of this measure is to:

- (1) Decriminalize and regulate small amounts of marijuana for personal use;
- (2) Establish a licensing scheme for the cultivation, sale, and use of small amounts of marijuana for personal use;
- (3) Tax marijuana in the same manner as state excise taxes; and
- (4) Subject income derived from marijuana sales to state income taxes.

Your Committee received testimony in support of this measure from the Democratic Party of Hawai'i; VivaGrow Systems, Inc.; We Are One, Inc.; Kama'aina Kingdom; Mana Artisian Botanics; Global Loading Zone, Inc.; Patients Without Time; HCC Legislative Committee; Drug Policy Forum of Hawaii; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Kine Bottles; Community Alliance on Prisons; Young Progressives Demanding Action; American Civil Liberties Union of Hawai'i; IMUAlliance; Life of the Land; Drug Policy Action Group; and four hundred thirty-one individuals. Your Committee received testimony in opposition to this measure from the Department of Transportation, Department of the Attorney General, Honolulu Police Department, Honolulu County Republican Party, Hawaii Family Forum, Hawaii Chapter of the American Academy of Pediatrics, Coalition for a Drug-Free Hawaii, Bobby Benson Center, Hawaii Future Project, and forty-three individuals. Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, Hawaii Chapter of Mothers Against Drunk Driving, Hawai'i Educational Association for Licensed Therapeutic Healthcare, and three individuals.

Your Committee finds that ten states and the District of Columbia have legalized the recreational use of cannabis by adults, and that others are in the process of considering legalization. Your Committee further finds that legalization in these states has avoided the criminalization of thousands of people, reduced opioid overdose deaths and untreated opioid use disorders, and lowered the number of arrests for driving under the influence of alcohol and other drugs. Your Committee additionally finds that recent polling indicates broad public support in Hawaii for the legalization of cannabis.

Your Committee also finds that medical cannabis dispensaries have been authorized to begin operating since July, 2016. Your Committee further finds that these dispensaries are highly regulated and monitored. Your Committee additionally finds that there is no need to set up an entirely new system of licensed cannabis retail establishments at this time when an established cannabis production and dispensary system already exists.

Accordingly, your Committee has amended this measure by:

- (1) Removing language allowing marijuana retail establishments;
- (2) Allowing medial cannabis dispensaries to begin selling recreational cannabis after February 1, 2021;
- (3) Allowing persons twenty-one years of age and older to possess up to 0.5 ounces of cannabis or cannabis products for personal use;
- (4) Imposing an additional fifteen percent excise tax on the sale of non-medical cannabis and non-medical cannabis products;
- (5) Specifying that thirty percent of the additional excise tax on the sale of non-medical cannabis and non-medical cannabis products shall be used to provide substance abuse prevention and education;
- (6) Clarifying that bans on smoking and the use of tobacco products also apply to smoking non-medical cannabis and non-medical cannabis products;
- (7) Making numerous conforming amendments, including changing "marijuana" to "cannabis" throughout; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 686, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 686, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 296 Judiciary on S.B. No. 1269

The purpose and intent of this measure is to:

- (1) Replace the tax boards of review with a single tax appeal review panel comprised of members serving on a full-time basis; and
- (2) Amend the grounds on which an appeal to the administrative appeals and dispute resolution program may be made by disallowing appeals of proposed assessments.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee finds that the system of tax boards of review is impractical due to the difficulty of recruiting a sufficient pool of qualified members. Your Committee further finds that a significant number of tax appeals have been unable to be heard or have been substantially delayed due to the boards' inability to constitute quorum. This measure will replace the tax boards of review system with a single tax appeal review panel comprised of members serving on a full-time basis who are empowered to hear and decide cases individually.

Your Committee has amended this measure by:

- (1) Allowing any person who has already filed an appeal with a board of review to choose to either continue their appeal with the board of review or withdraw and re-file their appeal with the tax appeal review panel until January 1, 2021, at which point all remaining appeals before a board of review automatically transfer to the tax appeal review panel; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1269, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1269, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

# SCRep. 297 (Joint) Education and Transportation on S.B. No. 876

The purpose and intent of this measure is to:

- (1) Require all public schools in the County of Hawaii to participate in the safe routes to school program; and
- (2) Appropriate funds to support the safe routes to school program for schools in the County of Hawaii.

Your Committees received testimony in support of this measure from the Department of Education, Department of Transportation, one member from the Hawai'i County Council, Peoples Advocacy for Trails Hawaii, Keiki Injury Prevention Coalition, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and Hawaii Bicycling League.

Your Committees find that the purpose of the safe routes to school program in Hawaii is to promote walking and bicycling to and from school, encourage elementary and middle school aged children to be physically active, and prevent childhood obesity. Additionally, the program provides for community infrastructure improvements strategically designed to reduce vehicular traffic and congestion around schools. This measure will facilitate the growth of safer communities and ensure the safety of students by substantially improving the ability of primary and middle school students to bike and walk to and from school safely.

Your Committees have amended this measure by:

- (1) Specifying that all public elementary, intermediate, and middle schools in the County of Hawaii shall participate in the safe routes to school program; and
- (2) Specifying the expending agency of the appropriation to the County of Hawaii.

As affirmed by the records of votes of the members of your Committees on Education and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 876, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 876, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

Transportation: Ayes, 4; Ayes with Reservations (Harimoto). Noes, none. Excused, 1 (English).

# SCRep. 298 (Joint) Human Services and Commerce, Consumer Protection, and Health on S.B. No. 242

The purpose and intent of this measure is to:

- Require the State's Medicaid managed care and fee-for service programs to provide coverage for home and community-based services for individuals diagnosed as having autism, beginning January 1, 2020; and
- (2) Require the Department of Human Services to seek a section 1115 waiver to amend the state Medicaid plan to include this coverage.

Your Committees received testimony in support of this measure from the Hawai'i Psychological Association, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and fifteen individuals. Your Committees received comments on this measure from the Department of Human Services, Department of Health, Hawaii Disability Rights Center, Autism Society of Hawaii, and Hawaii Medical Service Association.

Your Committees find that beneficiaries of home and community-based services must meet level of care assessment independent of their autism diagnosis. To meet the level of care criteria, an individual must be assessed to have some functional limitations that reflect the need for home and community-based services. Your Committees further find that many Medicaid beneficiaries with autism may function at a high level and therefore do not qualify for home and community-based services. This measure ensures that home and community services are provided to all individuals diagnosed with autism, regardless of the level of care needed.

Your Committees have amended this measure by:

- (1) Removing references to the early and periodic screening, diagnosis, and treatment services benefit, as this is already covered through the QUEST Integration program;
- (2) Amending the definition of "therapeutic care" for consistency with the existing definition in the Insurance Code;
- (3) Specifying that the coverage provided also includes individuals diagnosed with fetal alcohol spectrum disorder; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 242, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 242, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 1 (Riviere).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Nishihara, Thielen).

## SCRep. 299 (Joint) Human Services and Commerce, Consumer Protection, and Health on S.B. No. 462

The purpose and intent of this measure is to:

- (1) Extend the nursing facility sustainability fee program to 2021;
- (2) Allow the nursing facility sustainability fee to be used to enhance capitated rates for the purpose of paying quality incentives;
- (3) Increase the nursing facility sustainability fee limit from 4.0 percent to 5.5 percent of net patient service revenue;
- (4) Increase the per resident daily maximum fee from \$13.46 to \$20 for each facility, and increases the per resident reduced daily maximum fee from \$5.85 to \$9 for facilities that meet certain exceptions; and
- (5) Appropriate funds.

Your Committees received testimony in support of this measure from the Department of Human Services, The Queen's Health Systems; Ohana Pacific Management Company, Healthcare Association of Hawaii, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committees find that nursing facilities in the State face major financial challenges in providing quality long-term care for Hawaii residents. As a result, the Legislature created the nursing facility sustainability program to increase Medicaid payments to nursing facilities in recognition that Medicaid payments to nursing facilities are below the actual costs of care. The additional federal funds obtained via the fee program authorized by the nursing facility sustainability program have helped to reduce the amount of losses incurred by long-term care facilities and maintain access to care for Medicaid recipients. This measure extends the nursing facility sustainability program, which will preserve access to quality health care for Medicaid recipients.

Your Committees have amended this measure by:

- Clarifying that all facilities owned, operated by, or affiliated with the Hawaii Health Systems Corporation are exempted from
  the nursing facility sustainability fee, as these facilities participate in a different program to cover uncompensated care costs;
  and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 462, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 462, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 1 (Riviere).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Nishihara, Thielen).

## SCRep. 300 (Joint) Human Services and Commerce, Consumer Protection, and Health on S.B. No. 463

The purpose and intent of this measure is to:

- (1) Extend the hospital sustainability program for two years;
- (2) Clarify exemptions from the hospital sustainability fee; and
- (3) Appropriate \$75,000,000 out of the hospital sustainability special fund for fiscal years 2019-2020 and 2020-2021.

Your Committees received testimony in support of this measure from the Department of Human Services, The Queen's Health Systems, Healthcare Association of Hawaii, Kaiser Permanente Hawaii, Hawaii Pacific Health, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and Chamber of Commerce Hawaii.

Your Committees find that the hospital sustainability program was established in 2012 to increase Medicaid payments to hospitals in recognition that Medicaid payments to hospitals were below the actual costs of care. Because of the hospital sustainability program, Medicaid payments to many hospitals in the State are closer to the actual costs of care, which helps ensure that Medicaid patients have access to the hospital care they need. This measure extends the hospital sustainability program, which will allow hospitals in the State to continue to serve underinsured and uninsured patients in a timely, effective manner, and ensure the overall sustainability of the health care system in Hawaii.

Your Committees have amended this measure by:

- (1) Clarifying the definition of "private hospital" to ensure that all Hawaii Health Systems Corporation hospitals are excluded, as these hospitals use a different system to make up for uncompensated care costs;
- (2) Increasing the allowable hospital sustainability fee rate from 3.5 percent to 4.0 percent for inpatient and outpatient care services;
- (3) Including children's hospitals in the hospital sustainability fee for outpatient care services;
- (4) Specifying that the effective date for the appropriation is July 1, 2019; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 463, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 463, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 4. Noes, none. Excused, 1 (Riviere).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Nishihara, Thielen).

## SCRep. 301 Human Services on S.B. No. 467

The purpose and intent of this measure is to:

- Make an appropriation to the Department of Human Services to restore full adult dental health benefits to Medicaid enrollees;
   and
- (2) Require federal matching funds.

Your Committee received testimony in support of this measure from the University of Hawai'i System; State Council on Developmental Disabilities; Healthcare Association of Hawaii; Ho'ola Lahui Hawai'; Hawai'i State Rural Health Association; Lanai Community Health Center; Hawaii Disability Rights Center; Hilo Medical Center Foundation; Bay Clinic, Inc.; AlohaCare; Catholic Charities Hawaii'i; Hawaii Dental Hygienists' Association; Hawaii Children's Action Network; Oral Health For All Hawaii; We Are One, Inc.; The Queen's Health Systems; Hawaii' Public Health Institute; Hawaii Dental Association; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; and thirteen individuals. Your Committee received comments on this measure from the Department of Human Services, Department of Health, and Hawaii'i Primary Care Association.

Your Committee finds that oral disease is a significant health problem among many Hawaii residents, affecting their overall health and well-being. Having oral health benefit for adults in the Medicaid program can save money in emergency care, address chronic

disease and the dangerous spread of disease, help people preserve their teeth into old age, and improve adults' job prospects. Further, adults with access to dental care may be more likely to recognize the value of the benefit, gain information related to improving their own and their family's oral hygiene practices, and take their children to the dentist. Your Committee therefore finds that it is in the best interest of the State and its residents to expand access to care by restoring dental benefits to adult Medicaid enrollees, which will create a clear pathway for improved oral health care for adult Medicaid enrollees and their families in the State.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 467 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Riviere, Fevella).

#### SCRep. 302 Human Services on S.B. No. 526

The purpose and intent of this measure is to:

- (1) Appropriate funds for the Department of Human Services to purchase, staff, and operate two mobile clinics to serve the homeless persons residing in ohana zones; and
- (2) Require matching funds.

Your Committee received testimony in support of this measure from the County of Hawaii, Mayor's Office; Hawaii Disability Rights Center; Hawai'i Psychological Association; Project Vision Hawai'i; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and one individual. Your Committee received comments on this measure from the Governor's Coordinator on Homelessness, Department of Human Services, and Department of the Attorney General.

Your Committee finds that homeless persons face a wide range of issues, including general health issues, mental illness, and substance abuse. These issues also impact the general population through the costs of social and health care services.

Your Committee further finds that mobile clinics are increasing in popularity across the nation as governments try to find ways to address the health care needs of the homeless population. In places such as Dallas, Texas; Denver, Colorado; San Jose, California; and Seattle, Washington; mobile clinics offer a variety of free health care services for local homeless populations, resulting in significant cost savings when compared to emergency room visits.

Your Committee also finds that mobile clinics can be an effective method to reach some of the State's population with the most challenging access to care issues. This measure appropriates funds to the operation of two mobile clinics to service people in ohana zones, which will provide homeless people with access to treatment, improve the overall health of these individuals, and reduce the costs of health care.

Your Committee has amended this measure by:

- (1) Removing language that would have restricted the mobile clinics to serving only individuals in ohana zones;
- (2) Earmarking one mobile clinic to the county of Hawaii;
- (3) Removing the specified recipients that would have received an appropriation;
- (4) Requiring matching funds before funds appropriated shall be made available;
- (5) Clarifying that the acquisition of the medical clinic services be subject to the requirements of the state Procurement Code; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 526, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 526, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Riviere, Fevella).

## SCRep. 303 Human Services on S.B. No. 1226

The purpose and intent of this measure is to:

- (1) Expand the application of required criminal history record checks to adult relatives who provide care for a child whose family receives a child care subsidy from the Department of Human Services;
- (2) Clarify the role and response of the child care licensing program when it receives a report of death or injury of a child in a child care setting;
- (3) Address the release of information pending an investigation; and
- (4) Increase penalties and clarify that the Department of Human Services may take both administrative and judicial action to enforce child care licensing requirements.

Your Committee received testimony in support of this measure from the Department of Human Services and two individuals. Your Committee received comments on this measure from the Civil Beat Law Center for the Public Interest.

Your Committee finds that access to safe, affordable, and nurturing child care is critical for Hawaii's children and working parents. Your Committee further finds that existing law does not require adult relatives of a child whose family receives a child subsidy from

the Department of Human Services to complete a criminal history record check. This measure makes criminal history record checks a requirement for potential child care providers and increases the penalties for people who engage in illegal child care. This measure will prevent the injury or neglect of children, provide children with safer care, and deter people from engaging in illegal child care.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1226, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1226, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Riviere, Fevella).

## SCRep. 304 Human Services on S.B. No. 1230

The purpose and intent of this measure is to permit individual non-justice vocation programs within the purview of the Office of Youth Services to engage in commercial enterprises, including the sales of goods and services, for self-sustainability purposes.

Your Committee received testimony in support of this measure from the Department of Human Services, Office of Youth Services, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that Act 201, Session Laws of Hawaii 2014 (Act 201), initiated juvenile justice reforms in Hawaii to improve and enhance Hawaii's juvenile justice system. Working collaboratively cross-sector, there has been a twenty-six percent reduction in admissions to the Hawaii Youth Correctional Facility since Act 201 became law. Your Committee further finds that Act 208, Session Laws of Hawaii 2018, established the Kawailoa Youth and Family Wellness Center (Wellness Center) at the campus of the Hawaii Youth Correctional Facility, to provide much needed services for at-risk youth and young adults, including victims of commercial exploitation of children. Innovative programs have come out of the Wellness Center but currently the programs cannot engage in commercial enterprises, including the sales of goods and services. This measure allows the Office of Youth Services to create and expand career and vocation programs through the establishment of a revolving fund that would receive proceeds from sales of products and services generated by young adults participating in these programs. These programs will provide skills building, vocational training, and economic programing to better prepare young adults for entry into the workforce.

Your Committee has amended this measure by:

- Specifying criteria for the individuals able to participate in the vocational training programs offered by the Office of Youth Services;
- (2) Inserting definitions for "youth" and "commercial enterprise";
- (3) Specifying that the effective date for the appropriations in this measure is July 1, 2019; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1230, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1230, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 305 Transportation on S.B. No. 513

The purpose and intent of this measure is to appropriate or authorize funds or amend means of financing for various capital improvement projects of the Department of Transportation, Harbors Division.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that this measure expresses adjustments to the projects funded, maximum sums appropriated or authorized, or means of financing indicated for the Department of Transportation, Harbors Division in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- Upon recommendation by the Department of Transportation, clarifying certain harbor projects and administrative initiatives
  and adding additional capital improvement projects specifically requested by the Department; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 513, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 513, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Harimoto, Shimabukuro).

## SCRep. 306 Transportation on S.B. No. 514

The purpose and intent of this measure is to appropriate or authorize funds or amend means of financing for various capital improvement projects of the Department of Transportation, Airports Division.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that this measure expresses adjustments to the projects funded, maximum sums appropriated or authorized, or means of financing indicated for the Department of Transportation, Airports Division in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- (1) Upon recommendation by the Department of Transportation, clarifying certain airport improvement projects around the State and for additional capital improvement projects specifically requested by the Department; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 514, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 514, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Harimoto, Shimabukuro).

## SCRep. 307 (Joint) Higher Education and Energy, Economic Development, and Tourism on S.B. No. 313

The purpose and intent of this measure is to appropriate funds for two full-time equivalent (2.00 FTE) positions for the wayfinding education program at the 'Imiloa Astronomy Center.

Your Committees received testimony in support of this measure from the University of Hawai'i System, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaii Island Chamber of Commerce, and one individual.

Your Committees find that the University of Hawaii aspires to be the world's foremost indigenous serving university and embraces its responsibilities to the indigenous people of Hawaii and the Hawaiian language and culture. The 'Imiloa Astronomy Center of the University of Hawaii at Hilo was explicitly designed to integrate Hawaiian perspectives and modern science for local and global communities. This measure further supports the efforts of the wayfinding education program to ensure active support for participation of Native Hawaiians, as well as general population engagement at the local and global levels, in the study of the Hawaiian language, history, and culture.

As affirmed by the records of votes of the members of your Committees on Higher Education and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 313 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kahele).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Taniguchi).

## SCRep. 308 (Joint) Higher Education and Energy, Economic Development, and Tourism on S.B. No. 909

The purpose and intent of this measure is to appropriate funds to the University of Hawaii at Hilo aeronautical sciences program for positions and program and operating costs.

Your Committees received testimony in support of this measure from the University of Hawai'i System, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaii Island Chamber of Commerce, and two individuals.

Your Committees find that the University of Hawaii at Hilo is committed to developing a Bachelor of Science in aeronautical sciences program to provide training for commercial aviation pilots and commercial pilots for unmanned aviation technology. The growth of aeronautical science studies at the university will create opportunities to develop new partnerships with private industry, educational institutions, and government agencies in flight training and aerial data and information technology. Furthermore, this measure increases access for the students of Hawaii to pursue careers in aeronautics and assists in creating a highly educated workforce for industry sectors that create jobs in the State.

Your Committees have amended this measure by making a technical, nonsubstantive amendment to conform for purposes of consistency the amounts appropriated in each fiscal year to correspond to the positions established and to be funded in each fiscal year.

As affirmed by the records of votes of the members of your Committees on Higher Education and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 909, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 909, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kahele).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Taniguchi).

## SCRep. 309 Government Operations on S.B. No. 1079

The purpose and intent of this measure is to establish a deferred maintenance task force within the Office of the Governor to create a standardized and uniform approach to address deferred maintenance projects in the State and make an appropriation for the task force.

Prior to decision making on this measure, your Committee made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1 retained the contents of this measure and also inserted provisions that:

- (1) Rename the task force the Asset Management Task Force;
- (2) Place the task force under the Office of the Lieutenant Governor, rather than the Office of the Governor;
- (3) Amend the duties of the task force to include creating a schedule of repairs and replacement of state-owned facilities; deciding on the use of a single asset management system for consistency between departments; and deciding on a priority order for data collection of state-owned facilities in need of repair and replacement;
- (4) Require the task force to submit a preliminary report to the Legislature by October 31, 2020, and amend the date for submission of the final report to October 31, 2021; and
- (5) Change the appropriation for the task force from \$350,000 to an unspecified amount, to be expended by the Office of the Lieutenant Governor.

Your Committee received testimony in support of the proposed S.D. 1 from the Hawai'i State Judiciary and one individual. Your Committee received comments on the proposed S.D. 1 from the Department of Accounting and General Services.

Your Committee finds that under existing law, there is no standardized procedure to determine maintenance needs across state departments. This often results in dilapidated aging infrastructure that often fails, and requires emergency response that is ultimately more expensive to fix in terms of staff time and dollars. The proposed S.D. 1 establishes an Asset Management Task Force in charge of addressing and alleviating the deferred maintenance backlog, which will ultimately result in the improved maintenance and condition of state facilities

Your Committee also finds that clarification is needed regarding the asset management system. According to the testimony received by your Committee, concerns were raised about using a single asset management system, because some departments may already be investing state resources into that department's own asset management system. It may therefore be more efficient for the task force to focus on developing common standards, assumptions, and plan presentations.

Your Committee notes the additional testimony from the Judiciary suggesting certain other relevant changes to the composition and duties of the task force. Your Committee agrees with these recommendations and concludes that amendments to this measure are necessary.

Your Committee has amended this measure by adopting the proposed S.D. 1 and by making further amendments that:

- (1) Amend the duties of the task force to include developing common standards, assumptions, and plan presentations; considering whether a class of bond funds should be issued with a term shorter than twenty years; and evaluating and encouraging the use of computerized management systems;
- (2) Amend membership on the task force to include the Administrator of the Courts;
- (3) Clarify that the date of dissolution of the task force shall be January 14, 2022;
- (4) Insert an appropriation of \$250,000 for fiscal year 2019-2020; and
- (5) Make technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1079, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1079, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Baker, Fevella).

# SCRep. 310 (Joint) Government Operations and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1038

The purpose and intent of this measure is to require the State Commission on the Status of Women to establish a statewide training program for criminal justice personnel on the state human trafficking laws.

Your Committees received testimony in support of this measure from the Hawai'i State Commission on the Status of Women, Office of the Prosecuting Attorney of the County of Kaua'i, Department of the Prosecuting Attorney of the City and County of Honolulu, Domestic Violence Action Center, Hoʻōla Nā Pua, Pacific Survivor Center, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Susannah Wesley Community Center, Hawaii Women's Coalition, The Sex Abuse Treatment Center, IMUAlliance, Aloha State Association of the Deaf, and five individuals. Your Committees received testimony in opposition to this measure from Harm Reduction Hawaii, Sex Workers Outreach Project Hawaii, and three individuals. Your Committees received comments on this measure from the Community Alliance on Prisons and one individual.

Your Committees find that statewide training is necessary for criminal justice personnel to appropriately respond to human trafficking, as they play a pivotal role in the identification of victims and gathering of evidence to build cases for successful

prosecution. Training would teach criminal justice personnel to identify and understand the risk, danger, trauma, and cycles of violence associated with the nuanced complexities of human trafficking. Hawaii is one of only twelve states that have yet to enact laws to require certain public agencies or private businesses to receive human trafficking training. This measure allows the State Commission on the Status of Women to coordinate statewide training, which will bring together various agencies and ensure expeditious coordination in identifying, investigating, and adjudicating human trafficking cases.

Your Committees respectfully request that the State Commission on the Status of Women provide definitions for human trafficking and sex trafficking by referring to the federal definitions as a baseline. Your Committees request the State Commission on the Status of Women bring forward these definitions for consideration as this measure moves through the legislative process. When developing the training, your Committees request the State Commission on the Status of Women to work in collaboration with all advocates including Harm Reduction Hawaii, to ensure any training developed or considered does not conflate prostitution with human trafficking.

As affirmed by the records of votes of the members of your Committees on Government Operations and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1038 and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

#### SCRep. 311 (Joint) Housing and Water and Land and Government Operations on S.B. No. 1

The purpose and intent of this measure is to establish the ALOHA homes program under the Hawaii Housing Finance and Development Corporation (HHFDC) to facilitate the development of low-cost homes for sale to Hawaii residents on state-owned and county-owned land near rail stations and to establish all the necessary guidelines and provisions relating to the ALOHA homes program.

Your Committees received testimony in support of this measure from the LGBT Caucus of the Democratic Party of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaiian Community Assets, Ulupono Initiative, and eight individuals.

Prior to the hearing on this measure, your Committees posted and made available for public review a proposed S.D. 1, which amends this measure by:

- (1) Deleting high density from the definition of "ALOHA homes";
- (2) Defining the acronym ALOHA;
- (3) Inserting additional principles generally governing HHFDC's action in the urban redevelopment district and changing references from "residential development" to "development" throughout the principles;
- (4) Requiring that any development be designed to minimize parking;
- (5) Authorizing HHFDC to transfer ALOHA homes units to the Office of Hawaiian Affairs and Department of Hawaiian Home Lands for use by their respective beneficiaries;
- (6) Allowing rules adopted by HHFDC to authorize the use of retina scanning to verify the presence of owner-occupants and prevent access of all unauthorized persons as a potential owner-occupancy enforcement mechanism;
- (7) Amending the priorities for waitlists to be established by HHFDC for residential development for eligible buyers;
- (8) Requiring HHFDC to publish a notice of a public hearing to consider conveyance of real property from a county to HHFDC at least six days, instead of ten days, before the date set for the hearing in the publication;
- (9) Clarifying penalties for violating statutes or rules regarding ALOHA homes;
- (10) Authorizing HHFDC to sell leasehold units in condominiums on state land for a term of ninety-nine years;
- (11) Exempting amounts received from the sale of leasehold interest in ALOHA homes units from the general excise tax;
- (12) Exempting the ALOHA homes revolving fund from the central services deduction and special fund administrative expenses payment under sections 36-27 and 36-30, Hawaii Revised Statutes; and
- (13) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees received testimony in support of the proposed S.D. 1 from the Hawaii Housing Finance and Development Corporation; Maui County Department of Housing and Human Concerns; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Building Industry Association of Hawaii; and three individuals. Your Committees received testimony in opposition to the proposed S.D. 1 from the Office of Hawaiian Affairs. Your Committees received comments on the proposed S.D. 1 from the Department of Budget and Finance, Department of Land and Natural Resources, Department of the Attorney General, Office of Planning, University of Hawaii'i System, and City and County of Honolulu Department of Planning and Permitting.

Your Committees find that Hawaii has a severe lack of affordable housing, resulting in residents leaving Hawaii in hopes of better living conditions. Although Hawaii has the tenth highest median wage nationally, living expenses are two-thirds higher than the rest of the nation, with the cost of housing being a major contributing factor. Your Committees further find that there are significant barriers to the development of affordable housing in Hawaii, such as geographic limitations, lack of major infrastructure, and government regulation. Your Committees additionally find that the State has been putting more emphasis on creating more affordable housing. Despite these efforts, the amount of new and affordable housing, especially for low- to middle-income families, continues to be inadequate, and the supply of housing remains constrained while demand increases.

Your Committees find that Singapore, a country with even less land than Oahu, faced a housing crisis in the 1940s through 1960s, but was able to provide nearly one million residential units for its citizens. Through government loans, subsidies, and grants, Singapore was able to provide a surplus of affordable housing. Your Committees believe that Singapore could be a model for Hawaii in abating the housing crisis in Hawaii.

Your Committees heard the testimony of the Attorney General expressing concerns regarding the transfer of ALOHA home units to the Department of Hawaiian Home Lands, the possibility of having to amend the Hawaiian Homes Commission Act, 1920, as amended, to allow the Department of Hawaiian Home Lands to lease out non-Hawaiian homelands, and ALOHA homes units receiving the status of Hawaiian homelands, which will then require the Department of Hawaiian Home Lands to govern those units. Your Committees acknowledge those concerns and will continue to work with the appropriate agencies to address them.

Your Committees have amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Inserting definitions for "high density" and "small and medium vendor";
- (2) Clarifying that a mailed notice of an application for a development project valued at \$250,000 or more shall include notice of any requests by the applicant for exemptions from statutes, ordinances, charter provisions, and rules;
- (3) Clarifying that the urban redevelopment district includes state- and county-owned land in counties with a population greater than 500,000;
- (4) Prohibiting ALOHA homes units from being advertised for rent;
- (5) Clarifying that voting in the most recent primary or general election is just one indication of residency in the State;
- (6) Specifying that ownership of any residential and non-residential property, beneficial ownership of trusts, and co-ownership or fractional ownership by a person or the person's spouse shall make the person ineligible as a buyer or owner of an ALOHA home under HHFDC's rules;
- (7) Deleting the requirement for the \$300,000 cap on the price of an ALOHA home to apply to a three-bedroom unit;
- (8) Exempting any ALOHA homes unit developed or sold from restrictions on the transfer, use, sale, repurchase, or renting of real property developed and sold by HHFDC;
- (9) Deleting duplicative language regarding jurisdiction and the filing of legal actions or proceedings regarding the validity of the ALOHA homes program;
- (10) Requiring that state lands no longer needed for affordable residential leasehold units be returned to the previous owner of the lands;
- (11) Requiring that lands to which HHFDC holds title and lands set aside by the Governor or leased to HHFDC are considered "public lands" only for the purpose of accounting for all receipts from ceded lands and allowing payment for those receipts to be made in a form of remuneration or consideration other than cash;
- (12) Amending the preamble; and
- (13) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees emphasize that the intent of this measure is to ensure community involvement at all levels of every project in the establishment and development of the ALOHA homes program. Your Committees believe that given the importance and significant impact this measure will have on the community, the ALOHA homes program will strive for inclusion and input from key community stakeholders, including experts on Native Hawaiian, environmental, and cultural issues.

Your Committees note the concern individuals may have regarding the procurement rules of the ALOHA homes program. Your Committees encourage further discussion with appropriate agencies and stakeholders in establishing a transparent procurement process for the ALOHA homes program. Your Committees further note that procurement language found in the establishment of the Hawaii Airports Corporation measure (SB666, Regular Session of 2019) can act as a potential model for the ALOHA homes program in establishing its procurement rules.

As affirmed by the records of votes of the members of your Committees on Housing, Water and Land, and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Housing: Ayes, 5. Noes, none. Excused, none. Water and Land: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran). Government Operations: Ayes, 3. Noes, none. Excused, 2 (Baker, Inouye).

## SCRep. 312 (Joint) Housing and Labor, Culture and the Arts on S.B. No. 1050

The purpose and intent of this measure is to:

- (1) Establish a task force in the Hawaii Housing Finance and Development Corporation on the feasibility of the State establishing and operating a housing loan program for state employees similar to the United States Department of Veterans Affairs VA home loan program; and
- (2) Appropriate funds for the study.

Your Committees received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, ALF-CIO. Your Committees received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committees find that there is a severe lack of affordable housing targeted for lower- and moderate-income residents, who bear the biggest brunt of the State's housing shortage due to the high cost of living and housing. Your Committees further find that there are numerous vacancies at state agencies, in large part due to the high cost of living and the State's inability to compete with the private sector. Your Committees find that there is a way to address these two dissimilar problems by adopting a loan program similar to the United States Department of Veterans Affairs VA home loan program, which provides loans or guarantees to cover the cost of a downpayment to eligible veterans. This measure would take the first step toward addressing the lack of affordable housing and the difficulty of the State attracting employees by establishing a task force to examine and report on the feasibility of creating a similar program to the VA home loan program.

Your Committees have amended this measure by:

- (1) Including a representative from the Hawaii Government Employees Association on the task force; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Labor, Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1050, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1050, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Housing: Ayes, 4. Noes, none. Excused, 1 (Thielen). Labor, Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 313 Housing on S.B. No. 9

The purpose and intent of this measure is to appropriate funds to the Hawaii Public Housing Authority to reimburse landlords who participate in the section 8 housing choice voucher program for repair costs of tenant-caused property damage when the repairs exceed the tenant's security deposit.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual.

Your Committee finds that the section 8 program is one of the federal government's major programs for assisting very low-income families, the elderly, and the disabled to afford decent, safe, and sanitary housing. Currently, the program brings in approximately \$32,680,000 a year on the island of Oahu, which supports over 2,337 families and over 6,400 individuals. Your Committee further finds that there is a negative perception of section 8 housing tenants amongst many landlords, making the section 8 housing voucher program a less attractive option. This measure would incentivize landlords to participate in the section 8 housing program by ensuring greater financial protection, thereby making more housing available for those who need it most.

Your Committee has amended this measure by:

- (1) Inserting language to require the Hawaii Public Housing Authority to adopt rules, without regard to chapter 91, Hawaii Revised Statutes, to effectuate its purpose;
- (2) Authorizing the appropriation to also be used to establish one full-time equivalent (1.0 FTE) position to assist and administer the reimbursement program;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that although the appropriation amount is blank, the Hawaii Public Housing Authority requested through oral testimony an appropriation amount of \$1,000,000 to administer the reimbursement program.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 9, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 9, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 314 Housing on S.B. No. 878

The purpose and intent of this measure is to establish the home ownership housing revolving fund to provide loans or grants for affordable housing projects or units in projects that are allocated low-income housing credits or that are funded by certain federal programs or agencies.

Your Committee received testimony in support of this measure from the Hawaii Habitat for Humanity Association, Habitat for Humanity Hawai'i Island, Habitat for Humanity Maui, Hawaiian Community Assets, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance and Hawaii Housing Finance and Development Corporation.

Your Committee finds that Hawaii has one of the lowest home ownership rates in the nation. The lack of construction and development of affordable for-sale housing contributes to the State's low affordable housing inventory. Your Committee further finds

that loans provided by the State will assist in addressing Hawaii's current critical shortage of affordable housing and the need for 66,000 additional housing units by the year 2025.

Your Committee additionally finds that qualified nonprofit housing trusts can help families by reducing housing costs significantly for income-qualified families. These nonprofit housing entities often utilize grants and other low-cost courses of financing that require matching funds to acquire or develop housing units. Your Committee notes that Senate Bill No. 1186, Regular Session of 2019, establishes a qualified nonprofit housing trust revolving fund to provide loans to qualified nonprofit housing trusts to develop affordable housing projects under a self-help housing model.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of part II of Senate Bill No. 1186, Regular Session of 2019, which:
  - (A) Establishes a qualified nonprofit housing trust revolving fund and a qualified nonprofit housing trust program for affordable for-sale housing development; and
  - (B) Appropriates funds into and out of the qualified nonprofit housing trust revolving fund;
- (2) Authorizing the Hawaii Housing Finance and Development Corporation to provide loans to nonprofit community development financial institutions, as well as qualified nonprofit housing trusts;
- (3) Inserting a new preamble as suggested by the Hawaii Habitat for Humanity Association;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that although the appropriation amount is blank, the Hawaii Habitat for Humanity Association requests an appropriation of \$25,000,000 for the qualified nonprofit housing trust program.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 878, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 878, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 315 Housing on S.B. No. 867

The purpose and intent of this measure is to:

- (1) Remove certain limits on costs eligible for a general excise tax exemption for newly constructed or renovated affordable rental housing projects; and
- (2) Make permanent provisions relating to the types of rental housing projects that are exempt from the general excise tax and prevailing wages for the construction of certain rental housing projects.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Taxation and Hawaii Housing Finance and Development Corporation.

Your Committee finds that additional incentives are needed to increase rental housing development to meet housing demand, particularly for affordable housing units. Under existing law, the Hawaii Housing Finance and Development Corporation is authorized to certify general excise tax exemptions for affordable rental housing projects that meet certain criteria. This measure proposes the repeal of some of those criteria, thereby allowing more projects to be certified for the tax exemption and inducing the development of more affordable housing in Hawaii.

Your Committee has heard the testimony of the Hawaii Housing Finance and Development Corporation in regard to the lack of participation in this general excise tax exemption. Your Committee believes that this exemption is advantageous for developers and requests further information as to why this exemption has had no applicants since its inception pursuant to Act 54, Session Laws of Hawaii 2017.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 867, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 867, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 316 Housing on S.B. No. 351

The purpose and intent of this measure is to prohibit the advertising of the rental of a public housing unit under the Hawaii Public Housing Authority or housing subject to an owner or renter occupancy requirement, under the Hawaii Housing Finance and Development Corporation or Hawaii Community Development Authority.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority. Your Committee received testimony in opposition to this measure from the Hawaii Housing Finance and Development Corporation. Your Committee received comments on this measure from the Hawaii Community Development Authority.

Your Committee finds that there are cases of individuals renting or subletting units that are public housing or housing that is under a rental agreement or a renter occupancy requirement. This practice allows individuals to financially gain from rental income derived from these units and also removes available housing stock from those who most need it, particularly one of the over 8,800 families who are on a waitlist for public housing. This measure promotes fairness in housing opportunities by deterring those who are inclined to violate the occupancy limitations of these housing units.

Your Committee has amended this measure by:

- (1) Clarifying that a private project owner and its managing agents are not prohibited from advertising or publicizing a housing program under the Hawaii Housing Finance and Development Corporation;
- (2) Clarifying that a managing contractor or agent of the Hawaii Community Development Authority is not prohibited from advertising or publicizing a housing program under the Hawaii Community Development Authority;
- (3) As suggested by the Hawaii Public Housing Authority:
  - (A) Prohibiting the subletting of a public housing unit;
  - (B) Clarifying that the prohibition applies to federal and state public housing projects; and
  - (C) Clarifying that an authorized private management company is not prohibited from advertising, publicizing, or renting a public housing unit; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 351, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 351, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 317 Judiciary on S.B. No. 640

The purpose and intent of this measure is to increase the following under the partial public funding program, for candidates seeking office in an election with no incumbent:

- (1) The expenditure limit to one hundred forty percent of the median expenditures received by non-publicly financed candidates in the respective voting district in the last preceding general election;
- (2) The maximum amount of public funds available to a participating candidate;
- (3) The maximum amount of qualifying contributions; and
- (4) The matching contribution amount from the State for qualifying contributions.

Your Committee received testimony in support of this measure from the Democratic Party of Hawai'i and League of Women Voters. Your Committee received comments on this measure from the Campaign Spending Commission.

Your Committee finds that public campaign funding in elections facilitates competitive elections and allows for first-time candidates to become a part of the political discussion. Your Committee further finds that inflation of campaigning costs in addition to economic inflation makes it harder for publicly funded candidates to successfully compete in elections. Your Committee additionally finds that this measure addresses that issue by increasing the amounts that publicly funded candidates can receive and expend.

Your Committee has amended this measure by:

- (1) Defining "incumbent" as "a person who holds an elected office that represents any part of a district at any level except membership on a neighborhood board";
- (2) Doubling the expenditure limit in election races in which there is no incumbent; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 640, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 640, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Kim). Noes, none. Excused, none.

# SCRep. 318 Housing on S.B. No. 100

The purpose and intent of this measure is to:

- (1) Eliminate the home mortgage interest deduction for second homes under Hawaii income tax law; and
- (2) Require the Department of Taxation to annually calculate the amount of state revenue gained by eliminating the deduction and transfer an equivalent amount of income tax revenue to the rental housing revolving fund.

Your Committee received testimony in support of this measure from the League of Women Voters. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS. Your Committee received comments on this measure from the Department of Taxation, Hawaii Housing Finance and Development Corporation, and Tax Foundation of Hawaii.

Your Committee finds that Hawaii has one of the lowest homeownership rates in the United States. This issue is further exacerbated by the high cost of living in Hawaii, and specifically the high cost of housing in Hawaii. Your Committee further finds that the home mortgage income tax deduction was established to encourage homeownership for Hawaii residents. However, under existing law, individuals are able to purchase a second home for the same tax deduction, taking away potential housing for those hoping to purchase their first home. Your Committee finds that more incentives should be put toward helping residents purchase their first home, rather than encouraging ownership of a second home. This measure would result in increased tax revenue for the State and direct that additional revenue to the rental housing revolving fund, which will be used to assist those most in need of a primary housing residence.

Your Committee has amended this measure by:

- (1) Deleting the provision requiring the Department of Taxation to annually calculate the amount of tax revenue gained due to the elimination of the home mortgage interest deduction for second homes and instead only requiring the revenue gained to be deposited into the rental housing revolving fund; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 100, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 100, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Thielen).

#### SCRep. 319 Housing on S.B. No. 1120

The purpose and intent of this measure is to:

- (1) Increase the conveyance tax rate for properties with a value of at least \$2,000,000;
- (2) Amend the calculation for the amount of conveyance taxes to be deposited into the rental housing revolving fund;
- (3) Exempt from the conveyance tax documents or instruments conveying real property subject to a government assistance program and used for the provision of affordable housing for qualified persons in the State.

Your Committee received testimony in support of this measure from the League of Women Voters, Church of the Crossroads, Faith Action for Community Equity, and thirteen individuals. Your Committee received testimony in opposition to this measure from the Land Use Research Foundation of Hawaii, NAIOP Commercial Real Estate Development Association Hawaii Chapter, and Hawaii Association of REALTORS. Your Committee received comments on this measure from the Department of Taxation, Hawaii Housing Finance and Development Corporation, and Tax Foundation of Hawaii.

Your Committee finds that existing law dedicates the lesser of a certain percentage or monetary amount of the conveyance taxes collected for deposit into the rental housing revolving fund. Monies in the rental housing revolving fund are used to provide loans or grants for the development, pre-development, construction, acquisition, preservation, and substantial rehabilitation of rental housing units. This measure is intended to increase conveyance tax revenue derived from high-value properties, and facilitate the availability of additional monies for affordable rental housing finance and development in the State.

Your Committee has amended this measure by:

- (1) Removing the conveyance tax increases for the transfer or conveyance of property that is not a condominium or single family residence for which the purchaser is ineligible for a county homeowner's exemption;
- (2) Clarifying that any document or instrument conveying real property is exempt from the conveyance tax if the real property being conveyed is for the development or acquisition of affordable housing for qualified persons and subject to a government assistance program approved and certified by the Hawaii Housing Finance and Development Corporation;
- (3) Defining "affordable housing" and "qualified person"; and
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion.

Your Committee notes that the Department of Taxation requested in testimony, an effective date of January 1, 2020.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1120, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1120, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Thielen).

## SCRep. 320 Housing on S.B. No. 636

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds into and out of the rental housing revolving fund.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Catholic Charities Hawai'i, Faith Action for Community Equity, Partners In Care, Hawaii Kai Homeless Task Force, and six individuals.

Your Committee finds that the State is in a housing crisis, primarily affecting households making eighty percent or less of the area median income. This crisis is coupled with the high population of chronically homeless individuals in the State. Your Committee further finds that there is a need for more home ownership, not just rentals, at reasonable prices for Hawaii residents. The State would require roughly 44,000 new housing units in order to solve the shortage. Your Committee believes that more funding is required to address the severe lack of affordable housing and to get the homeless off the streets and into permanent housing.

Accordingly, your Committee has amended this measure by:

- (1) Inserting a blank general obligation bond authorization amount and blank amount to be appropriated into and out of the rental housing revolving fund;
- (2) Requiring that a specific amount of funds appropriated out of the rental housing revolving fund be expended to create permanent supportive housing for chronically homeless individuals;
- (3) Authorizing the issuance of general obligation bonds and appropriating funds into and out of the dwelling unit revolving fund and, contingent upon the enactment of S.B. No. 878 in any form, the home ownership housing revolving fund; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee recommends that your Committee on Ways and Means consider a general obligation issuance amount of \$400,000,000 to be divided among the rental housing revolving fund, dwelling unit revolving fund, and home ownership housing revolving fund. Your Committee notes that Catholic Charities Hawai'i requests \$75,000,000 to be allocated to the creation of permanent supportive housing units for chronically homeless individuals.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 636, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 636, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Thielen).

## SCRep. 321 Housing on S.B. No. 1310

The purpose and intent of this measure is to:

- (1) Establish the individual housing accounts savings program and the individual housing accounts savings program administrative fund;
- (2) Require the Board of Directors of the individual accounts savings program to submit an annual report to the Governor and Legislature; and
- (3) Make an appropriation for the program.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and one individual. Your Committee received comments on this measure from the Department of Budget and Finance

Your Committee finds that the high cost of housing in Hawaii prevents residents from being able to become homeowners. Your Committee further finds that individual housing accounts are savings vehicles that assist individuals to purchase their first principal residence. While distributions are taxed, contributions to individual housing accounts are tax deductible, helping the taxpayer to save up to purchase a first principal residence. This measure allows for better management of individual housing accounts and help many residents of the State to become first-time homeowners.

Your Committee notes the success of the Oregon Retirement Savings Act and the Central Provident Fund of Singapore in helping their respective residents save for retirement and purchase their first residence.

Your Committee has amended this measure by:

- (1) Allowing a taxpayer to open an individual housing account for a dependent upon providing a birth certificate and social security number of the dependent to the Director of Taxation and requiring the Director of Taxation to prepare any forms necessary to establish an individual housing account in the name of the dependent;
- Authorizing the use of an individual housing account to provide assistance during economic hardships, for capital improvements for homeownership, cemetery and mortuary services, and senior housing;
- (3) Requiring a taxpayer to pay a penalty of 10 percent of any amounts distributed less than 365 days from the date on which the amounts were made as a contribution to the individual housing account;
- (4) Allowing the use of an individual housing account to provide funding for the first month's rent or a rental deposit on a dwelling place that is the principal residence, and to provide funding for downpayment assistance or closing costs on a principal residence;
- (5) Authorizing community development financial institutions to serve as trustees of an individual housing account; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1310, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1310, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Thielen).

### SCRep. 322 Agriculture and Environment on S.B. No. 11

The purpose and intent of this measure is to prohibit the sale of polystyrene foam containers and serving of prepared food using polystyrene foam containers statewide.

Your Committee received testimony in support of this measure from the Department of Education; Office of Hawaiian Affairs; one member of the Hawaii County Council; Department of Environmental Services of the City and County of Honolulu; County of Maui Department of Environmental Management; Ocean Tourism Coalition; Surfrider Foundation Oʻahu; Keiko Conservation; League of Women Voters of Hawaii; Sierra Club of Hawaii; Zero Waste Oʻahu; Hawaii Reef and Ocean Coalition; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Beach Environmental Awareness Campaign Hawaii; Fisherwood, LLC; Dolphin Quest; Kaiser High School Wipeout Crew; Animal Rights Hawaii; and over sixty individuals. Your Committee received Inn, Hibachi Kailua, and two individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources and Department of Health.

Your Committee finds that many food service businesses in Hawaii use polystyrene foam containers for food that is taken out by customers. Polystyrene foam is made from thermoplastic petrochemical materials containing styrene and may leach styrene into food that comes into contact with the containers, posing potential health hazards for people eating food carried in these containers. Your Committee also finds that polystyrene foam containers do not biodegrade and, because of their expanded size, take up significant space in landfills. Your Committee finds that this measure is another way to create state policy to lessen the negative impacts of plastics on the environment

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 11 and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Thielen, Fevella).

## SCRep. 323 (Joint) Hawaiian Affairs and Labor, Culture and the Arts on S.B. No. 727

The purpose and intent of this measure is to:

- (1) Apply civil service and public employee collective bargaining systems to Office of Hawaiian Affairs employees;
- (2) Limit members of the Board of Trustees of the Office of Hawaiian Affairs (Board of Trustees) to a maximum of three terms or twelve years, whichever is lesser, in office;
- (3) Align the partial public funding expenditure limit and maximum amount of public funds available for candidates running for the Board of Trustees with the maximum limit and amount imposed on candidates running for the office of lieutenant governor; and
- (4) Require the display of candidates for the Board of Trustees on the ballot by residency and non-residency requirements and to randomize the order of candidate names within those groupings and among precincts.

Your Committees received testimony in support of this measure from the Hawaii Government Employees Association; Ho'omana Pono, LLC; and one individual. Your Committees received testimony in opposition to this measure from the Office of Hawaiian Affairs. Your Committees received comments on this measure from the Campaign Spending Commission, Office of Elections, and one individual.

Your Committees find that ballot order has been shown to affect election outcomes and the first name on the ballot generally has an advantage over names listed further down the ballot. Your Committees find that under existing law, candidate names are placed on the ballot in alphabetical order, which results in candidates' ballot positions remaining relatively unchanged from election to election. Randomizing the names of candidates for the Board of Trustees will distribute more randomly any advantage that may arise from the order of candidates' names on the ballot.

Your Committees further find that candidates running for the Board of Trustees who voluntarily agree to participate in the partial public funding program run statewide campaigns but are provided substantially less partial public funding than other statewide candidates. This measure seeks to increase the partial public funding expenditure limit and maximum amount of public funds available for candidates for these Board of Trustees candidates. However, your Committees received testimony indicating that this measure, if enacted, would increase the expenditure limit for Board of Trustees candidates by seven hundred percent. Rather than proceed with such a significant increase, your Committees find that a more reasonable approach to addressing the funding imbalance for Board of Trustees candidates is to increase only the \$1,500 cap on the maximum amount of public funds available to Board of Trustees candidates, leaving the partial public funding expenditure limit unamended.

Your Committees additionally find that employees of the Office of Hawaiian Affairs provide invaluable services to Native Hawaiians across the State and their service is critical to the continued success of the Office of Hawaiian Affairs. Despite the value of their work, Office of Hawaiian Affairs employees are barred from engaging in collective bargaining as a means to improve their wages and standard of living. Your Committees find that providing the option of collective bargaining unit (15) for employees of the Office of Hawaiian Affairs provides them the option of establishing a collective bargaining unit if they vote to do so, while maintaining the autonomy of the Office of Hawaiian Affairs.

Your Committees have amended this measure by:

- (1) Removing term limits for members of the Board of Trustees;
- (2) Removing language to align the partial public funding expenditure limit for candidates for the Board of Trustees with the limit imposed on candidates running for the office of lieutenant governor;
- (3) Increasing the maximum amount of public funds available in each election to each Board of Trustees candidate from ten percent to fifteen percent of the expenditure limit established in section 11-423(d), Hawaii Revised Statutes, which the Campaign Spending Commission has indicated in testimony will increase the maximum amount from \$1,500 to \$21,383 per candidate, per election;
- (4) Increasing the amount a candidate for the Board of Trustees must raise to qualify for public funds from \$1,500 to \$5,000;
- (5) Creating a new bargaining unit for use by employees of the Office of Hawaiian Affairs in the event the employees vote to establish a collective bargaining unit;
- (6) Authorizing the Office of Hawaiian Affairs to have one vote on behalf of the public employer for purposes of negotiating a collective bargaining agreement; and
- (7) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Labor, Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 727, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 727, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Labor, Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Chang, Gabbard).

#### SCRep. 324 Transportation on S.B. No. 98

The purpose and intent of this measure is to clarify the requirement that a driver of a motor vehicle has to yield to or stop for a pedestrian by specifying when a pedestrian is considered to be within an intersection or adjacent crosswalk, or crossing the road within a crosswalk

Your Committee received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, and three individuals.

Your Committee finds that there is confusion as to when a vehicle must yield the right-of-way to a pedestrian who plans to cross or is crossing a roadway, particularly with regard to when a pedestrian is considered to be within an intersection or adjacent crosswalk. This confusion has resulted in numerous accidents involving a motor vehicle and pedestrians trying to cross the street. Your Committee further finds that in 2018, 43 pedestrians were killed, which is 28 more pedestrians than in 2017. Your Committee finds that these numbers are too high and more effort needs to be done to ensure the safety of all pedestrians and drivers in the State.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 98 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (English).

# SCRep. 325 (Joint) Technology and Energy, Economic Development, and Tourism on S.B. No. 553

The purpose and intent of this measure is to establish the broadband service infrastructure grant program to award grants to applicants to extend deployment of infrastructure used to provide broadband service to unserved and underserved areas of the State.

Your Committees received testimony in support of this measure from Hawaiian Electric Company, Inc., and Charter Communications. Your Committees received comments on this measure from the Cable Television Division of the Department of Commerce and Consumer Affairs and Hawaiian Telcom.

Your Committees support efforts to improve access to broadband services for residents, consumers, and businesses across the State. Although broadband coverage in the State is widespread, additional investment can be made to keep up with needs in rural communities to bridge the digital divide. The broadband service infrastructure grant program proposed by this measure would facilitate deployment of infrastructure necessary to bring broadband service to unserved and underserved areas of the State.

Your Committees have amended this measure by:

- Amending the definition of "broadband service" to be the same as the definition for "broadband access or broadband service" under section 440J-1, Hawaii Revised Statutes;
- (2) Replacing the term and definition of "broadband service infrastructure" with the term "broadband infrastructure", to have the same meaning as under section 440J-1, Hawaii Revised Statutes;
- (3) Deleting language that would have prohibited an applicant from using grant funds to upgrade existing broadband infrastructure;
- (4) Deleting language that would have made any applicant who receives funds under another federal or state grant or loan program ineligible for the grant program;
- (5) Requiring an applicant to commit to paying a minimum of fifty percent, rather than twenty percent, of the project costs;

- (6) Including any non-governmental entity with demonstrated experience in providing broadband infrastructure as an eligible applicant;
- Authorizing a non-governmental broadband infrastructure provider to be an eligible applicant or to partner with another eligible applicant;
- (8) Deleting the length of time the applicant has been providing broadband service in the State from the scoring criteria for awarding funding under the grant program;
- (9) Deleting language that would have required the Department of Business, Economic Development, and Tourism (Department) to not include consideration of new or additional regulatory obligations;
- (10) Deleting language that would have required the Department to adopt rules that do not include certain financial commitments to secure performance;
- (11) Making it effective on January 1, 2020, to allow time for implementation; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Technology and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 553, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 553, S.D. 1, and be referred to your Committees on Ways and Means and Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Technology: Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Fevella).

## SCRep. 326 (Joint) Technology and Energy, Economic Development, and Tourism on S.B. No. 1366

The purpose and intent of this measure is to appropriate funds for the Hawaii Technology Development Corporation to support the continuation of business accelerator programs.

Your Committees received testimony in support of this measure from the Hawaii Technology Development Corporation, Hawaii Farm Bureau, Maui Chamber of Commerce, Sultan Ventures, GVS Accelerator, Hawaii Venture Capital Association, Mana Up, Elemental Excelerator, XLR8UH, and three individuals.

Your Committees find that business accelerators have been successful in increasing the number of innovative companies in Hawaii. The accelerator programs vet, mentor, and provide seed capital to some of Hawaii's most promising innovative startup businesses. Your Committees find that the continuation of accelerator programs is important to support business innovation in the State.

As affirmed by the records of votes of the members of your Committees on Technology and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1366 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Technology: Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Fevella).

## SCRep. 327 (Joint) Technology and Energy, Economic Development, and Tourism on S.B. No. 1444

The purpose and intent of this measure is to:

- (1) Require the Hawaii Technology Development Corporation to adopt rules to require awardees of Hawaii Small Business Innovation Research (HSBIR) program grants who relocate their principal place of business outside the State within five years of receiving the award to reimburse funds awarded; and
- (2) Appropriate funds for the continuance of the HSBIR program operated by the Hawaii Technology Development Corporation.

Your Committees received testimony in support of this measure from the Hawaii Technology Development Corporation; Neurobehavioral Research, Inc.; Akabotics LLC; Hawaii Farm Bureau; Makai Ocean Engineering, Inc.; Hawaii Biotech, Inc.; Experiad Solutions; Maui Chamber of Commerce; Marine Genetics; and one individual.

Your Committees find that the Hawaii Technology Development Corporation has a vision to create 80,000 new innovation jobs in Hawaii earning \$80,000 or more by 2030. Aiding in that goal is the HSBIR program, which provides matching grants to help companies further the development of new products to solve critical issues. Applicants must have received federal Small Business Innovation Research Program grants or contracts to qualify for the matching HSBIR program, which provides up to a fifty per cent match in funds. Initially, the HSBIR program only funded companies that received Phase I grants, but in 2016, the program was expanded to help companies who are moving their advanced technology products from research into the market. Your Committees further find that HSBIR's Phase II and Phase III awardees should be supported so that their technologies can contribute to Hawaii's economy, but the State should ensure that Hawaii benefits from its investment in these companies by requiring grant funds to be returned if the recipient moves its principal place of business outside the State within five years.

Your Committees have amended this measure by:

- (1) Inserting a blank appropriation amount; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Technology and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1444, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1444, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Technology: Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Fevella).

#### SCRep. 328 Judiciary on S.B. No. 194

The purpose and intent of this measure is to require the randomization of names of candidates listed on individual ballots and on ballots across precincts, thereby making the advantage of being the first candidate listed on the ballot a random event.

Your Committee received testimony in support of this measure from Ho'omanapono Political Action Committee. Your Committee received comments on this measure from the Office of Elections.

Your Committee finds that numerous studies have shown that the election candidate who is listed first on a ballot has an advantage. See, Daniel E. Ho & Kosuke Imai, Estimating Causal Effects of Ballot Order From a Randomized Natural Experiment, The California Alphabet Lottery, 1978 – 2002, 72 Pub. Op. Q. 216 (Summer 2008), Laura Miller, Note, Election by Lottery: Ballot Order, Equal Protection, and the Irrational Voter, 13 N.Y.U. J. Legis. & Pub. Pol'y 373 (2010). Your Committee further finds that currently, candidates are listed on the ballot in alphabetical order starting with the letter "A". This measure would create a process to make the apparent advantage of being the first candidate listed on a ballot a random event.

Your Committee has amended this measure by:

- Requiring that any new contract entered into by the Office of Elections for equipment or services relating to preparing ballots
  or counting votes include the capability to randomize the names of candidates appearing on the ballot if technologically
  possible;
- (2) Requiring the Office of Elections to inform voters and candidates, by a method suited for the voting system, that the names of candidates may not be in alphabetical order; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 194, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 194, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 329 Judiciary on S.B. No. 821

The purpose and intent of this measure is to require equitable provision of baby diaper-changing accommodations in certain public establishments and facilities.

Your Committee received testimony in support of this measure from the Hawai'i State Commission on the Status of Women, LGBT Caucus of the Democratic Party of Hawaii, Hawaii Youth Services Network, Domestic Violence Action Center, Planned Parenthood Votes Northwest and Hawaii, Healthy Mothers Healthy Babies Coalition of Hawaii, Midwives Alliance of Hawaii, Save Medicaid Hawaii, Hawaii Women's Coalition, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaii'i Chapter of the National Association of Social Workers, and seven individuals. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii.

Your Committee finds that full equality under the law for men and women is provided for in article I, section 3, of the Constitution of the State of Hawai'i. Your Committee further finds that equality under the law does not always guarantee equity in daily life. Your Committee additionally finds that while diaper-changing accommodations in women's restrooms are relatively common, diaper-changing accommodations in men's restrooms are significantly less so. Your Committee also finds that this disparity contributes to the calcification of gender roles and limits the full participation of women and men in civil society and family life. Your Committee further finds that the federal BABIES Act, public law 114-235, requires restrooms in new or newly renovated federally controlled buildings to be equipped with baby changing facilities. In addition, at the beginning of 2019, New York enacted a law that requires any new or renovated buildings that contain places of public accommodations include diaper changing tables that are accessible to persons regardless of their gender. This measure will establish similar requirements in Hawaii.

Your Committee has amended this measure by:

- (1) Requiring existing establishments for public use that have not been substantially modified to provide baby diaper-changing accommodations by July 1, 2022; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 821, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 821, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 330 Judiciary on S.B. No. 635

The purpose and intent of this measure is to propose an amendment to article IX, section 5, of the Constitution of the State of Hawaii, to require the State to assure that each resident of the State has access to housing, subject to standards and criteria to be provided by the Legislature.

Your Committee received testimony in support of this measure from Hawaiian Community Assets, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, and three individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the price of housing and the lack of affordable housing have been persistent and ongoing problems in Hawaii. Your Committee further finds that there are many ways in which the State can contribute to the development of affordable and accessible housing. However, your Committee notes that establishing a constitutional right to the assurance of access to housing could have significant unintended consequences.

Accordingly, your Committee has amended this measure by:

- (1) Reviving the purpose section to reflect the recent challenges faced by the State in providing affordable housing to Hawaii residents;
- (2) Removing constitutional language establishing a right to assurance of access to housing for each resident of the State;
- (3) Adding constitutional language requiring the Legislature to consider the effect of its actions on the price of housing in the State; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 635, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 635, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 331 Labor, Culture and the Arts on S.B. No. 1143

The purpose and intent of this measure is to:

- Expand the types of employee information government agencies are required to disclose, upon written request, to employees' exclusive representatives; and
- (2) Require that information regarding new hire employees under the collective bargaining disclosure requirements of section 89-16.6, Hawaii Revised Statutes, be provided to the appropriate exclusive representatives within one payroll period.

Your Committee received testimony in support of this measure from the University of Hawaii Professional Assembly; Hawaii Government Employees Association; and United Public Workers, AFSCME, Local 646, AFL-CIO. Your Committee received comments on this measure from the Department of Education and City and County of Honolulu Department of Human Resources.

Your Committee finds that exclusive representatives must represent every public employee in a bargaining unit regardless of the employee's membership status. Your Committee further finds that in order to provide timely and responsive service, it is appropriate for exclusive representatives to have pertinent employment information, the ability to physically locate and access employees, and timely transmittals about new employees that they represent. However, under existing law, types of employee information government agencies are required to disclose to exclusive representatives are limited and there is no timeframe by which information regarding new hires needs to be provided. This measure will expand the types of information to be disclosed and provide a timeframe for which this information must be provided about new employees. This will ensure that exclusive representatives have the contact information necessary to provide public employees with important information in a timely manner.

Your Committee has amended this measure by inserting an effective date of January 1, 2051, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1143, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1143, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

## SCRep. 332 Labor, Culture and the Arts on S.B. No. 1146

The purpose and intent of this measure is to authorize the Hawaii Labor Relations Board to accept paper and electronic filing of documents.

Your Committee received testimony in support of this measure from the Hawaii Labor Relations Board and one individual.

Your Committee finds that under existing law, electronic filing of documents with the Hawaii Labor Relations Board is not expressly allowed. Codifying the option to allow for electronic filing of documents would provide a faster and less expensive method of delivery. This measure will reduce costs and provide a more efficient process to accommodate all parties.

Your Committee has amended this measure by including language to clarify that the electronic version of the filing shall be filed by electronic service through a company designated by the Hawaii Labor Relations Board.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1146, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1146, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

## SCRep. 333 Labor, Culture and the Arts on S.B. No. 1234

The purpose and intent of this measure is to:

- (1) Transfer the Office of Collective Bargaining from the Office of the Governor to the Department of Human Resources Development; and
- (2) Eliminate references to managed competition in chapter 89A, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Office of the Governor and Department of Human Resources Development.

Your Committee finds that because no position is authorized or appropriated for the chief negotiator position within the Office of Collective Bargaining, the Director of Human Resources Development has assumed the duties and responsibilities of the chief negotiator, which includes assisting the Governor in formulating statewide philosophy for public collective bargaining. With no staff currently allocated to the Office of Collective Bargaining, the Department of Human Resources Development Labor Relations Division provides the necessary support to the Director of Human Resources Development in the Director's role as chief negotiator. By transferring the Office of Collective Bargaining to the Department of Human Resources Development, this measure helps to maintain the institutional knowledge of the statewide philosophy for collective bargaining within one department that will span across future executive administrations

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1234, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1234, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

#### SCRep. 334 Labor, Culture and the Arts on S.B. No. 1374

The purpose and intent of this measure is to:

- (1) Establish a Hawaii retirement savings program for private sector employees;
- (2) Establish the Hawaii retirement savings program administrative fund;
- (3) Require the Department of Budget and Finance to prepare an annual report detailing the Department's activities for the previous fiscal year to the Governor and Legislature; and
- (4) Appropriate funds.

Your Committee received testimony in support of this measure from Policy Advisory Board for Elder Affairs, Chinatown Gateway Plaza Tenant Association, Art Nelson Sailmaker/Ullman Sails Hawaii, Gochi Grill, Hawaii Retirement Savings Program, AARP Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and seven individuals. Your Committee received testimony in opposition to this measure from NAIFA Hawaii, Hawaii Bankers Association, and American Council of Life Insurers. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that there is an imminent retirement security crisis in the State, as many individuals do not have access to an employer-sponsored retirement plan. Your Committee further finds that individuals need a lifelong savings system that provides them with the opportunity to build their assets and attain future financial stability. Employees who are offered the opportunity to save through the employee's place of employment are significantly more likely to participate and make steady contributions to build retirement savings. Your Committee also finds that providing private sector employees with access to employer-sponsored retirement plans is a reliable way to promote savings needed for a secure retirement, improve economic mobility, and reduce wealth disparity. This measure establishes a Hawaii retirement savings program, which will ensure that in the future private sector employees will have the opportunity to contribute to a retirement plan, take charge of their financial futures, and live independently as they age. Your Committee notes that while the program will eventually require larger start-up and implementation costs, the appropriation in this measure will be used to hire staff to set up the program.

Your Committee has amended this measure by:

- (1) Prohibiting employer cancellation of existing retirement plans for five years after the effective date; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1374, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1374, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

### SCRep. 335 Labor, Culture and the Arts on S.B. No. 1498

The purpose and intent of this measure is to require the Hawaii Labor Relations Board to:

- (1) Determine qualifications for grievance arbitrators and interest arbitrators; and
- (2) Review and determine the qualifications and criteria for potential arbitrators selected under certain circumstances to resolve collective bargaining impasses.

Your Committee received testimony in support of this measure from the University of Hawaii Professional Assembly; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and Hawaii Fire Fighters Association. Your Committee received comments on this measure from the Hawaii Labor Relations Board.

Your Committee finds that there is a clear delineation between grievance arbitrators and interest arbitrators. Due to the fundamental difference between resolving contractual disputes and determining the provisions of the contract, it is appropriate to segregate the functions of a grievance arbitrator and an interest arbitrator, as well as to allow the Hawaii Labor Relations Board to determine qualifications for each.

Your Committee has amended this measure by inserting an effective date of January 1, 2051, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1498, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1498, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

## SCRep. 336 (Joint) Labor, Culture and the Arts and Commerce, Consumer Protection, and Health on S.B. No. 1524

The purpose and intent of this measure is to:

- (1) Prohibit an employer from discriminating against an employee based on the employee's status as a qualifying patient;
- (2) Prohibit an employer from taking action against an employee based solely on the employee's status as a qualifying patient or if the results of the employee's drug test are positive for cannabis; and
- (3) Specify permissible and impermissible actions by employers and employees.

Your Committees received testimony in support of this measure from the Hawaii Government Employees Association, The Drug Policy Forum of Hawaii, Community Alliance on Prisons, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and two individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Public Safety, Hawaii Civil Rights Commission, Department of Labor and Industrial Relations, Department of the Attorney General, and City and County of Honolulu Department of Human Resources.

Your Committees find that thirty-one states allow for the medical use of cannabis by qualifying patients, with a growing number of states establishing employment protections for qualifying medical cannabis patients. Your Committees further find that the medical use of cannabis by a qualifying patient to alleviate the symptoms or effects of the qualifying patient's debilitating medical condition is permitted under existing state law. However, there are no corresponding employment protections for qualifying patients. A qualifying patient can be discriminated against in the hiring process, merely because of the patient's status as a qualifying patient, or fired at an employer's discretion for failing a drug test, even if the qualifying patient is not exhibiting any symptoms of being impaired. This measure therefore prohibits employers from discriminating against an employee based on the employee's status as a qualifying patient. This will allow qualifying patients to use their medication without fear of being disciplined.

Your Committees have amended this measure by:

- Incorporating amendments suggested by the Department of Public Safety to exempt law enforcement officers and correctional facility employees; and
- (2) Inserting an effective date of January 1, 2051, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Labor, Culture and the Arts and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1524, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1524, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Labor, Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

Commerce, Consumer Protection, and Health: Ayes, 6; Ayes with Reservations (Thielen). Noes, none. Excused, 1 (Nishihara).

## SCRep. 337 Labor, Culture and the Arts on S.B. No. 308

The purpose and intent of this measure is to extend the deadline for the Legislative Reference Bureau to submit the sunrise analysis required by Act 109, Session Laws of Hawaii 2018, from September 1, 2019, to December 13, 2019.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, Hawaii Women's Coalition, Retail Merchants of Hawaii, AAUW of Hawaii, Hawaii Appleseed Center for Law & Economic Justice, Midwives Alliance

of Hawaii, Hawaii State Commission on the Status of Women, PHOCUSED, and four individuals. Your Committee received testimony in opposition to this measure from the Hawaii State Commission on the Status of Women. Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that Act 109, Session Laws of Hawaii 2018, (Act 109) directed the Legislative Reference Bureau to conduct a sunrise analysis to determine the impacts of the establishment of a paid family leave program on industry, consumers, employees, employers, and caregivers. The intent of Act 109 was to lay the groundwork for the establishment of a paid family leave framework that will enable all employees to access leave benefits during times when they need to provide care for a family member. Your Committee further finds that the Legislative Reference Bureau issued a request for proposals to conduct the analysis, then found that it was in the best interest of the State to cancel the request. Your Committee also finds that due to the cancelation of the original request for proposals, it would be difficult, given the current timeframe, for the Legislative Reference Bureau to sufficiently conduct and provide a thorough and concise analysis by the September 1, 2019, submission deadline. This measure would allow the Legislative Reference Bureau additional time to submit its analysis.

Your Committee has amended this measure by:

- (1) Changing the deadline for the Legislative Reference Bureau to submit the sunrise analysis report required by Act 109, Session Laws of Hawaii 2018, from December 13, 2019, to December 2, 2019; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 308, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 308, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

## SCRep. 338 Labor, Culture and the Arts on S.B. No. 423

The purpose and intent of this measure is to:

- (1) Clarify that a specialty contractor, acting as a subcontractor, is not prohibited from taking and executing a construction contract involving two or more crafts of trades if the performance of the work is incidental and supplemental;
- (2) Prohibit incidental and supplemental work on any project requiring the seal or stamp of a professional engineer licensed to perform structural engineering;
- (3) Define "professional engineer" and "structural engineering"; and
- (4) Specify certain specialty contractor subclassifications that shall not be considered incidental and supplemental work.

Your Committee received testimony in support of this measure from the Ironworkers Stabilization Fund. Your Committee received testimony in opposition to this measure from the Hawaii Laborers Union Local 368. Your Committee received comments on this measure from the Department of Accounting and General Services and the Contractors License Board.

Your Committee finds that under existing law, a specialty contractor may take or execute a contract involving the use of two or more crafts or trades for work other than that in which the contractor is licensed, if that work is incidental and supplemental work to the performance of work in the craft that the specialty contractor is licensed. However, there should be a limitation on incidental and supplement work that a specialty contractor may perform since that work is outside of their licensed specialty area. This measure seeks to address those concerns.

Your Committee has amended this measure by deleting its contents and inserting language specifically prohibiting incidental or supplemental work outside of a specialty contractor's licensure on any work that requires the seal or stamp of a professional engineer licensed to perform structural engineering pursuant to section 464-2, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 423, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 423, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

## SCRep. 339 Labor, Culture and the Arts on S.B. No. 785

The purpose and intent of this measure is to allow the scope of collective bargaining negotiations to include benefits of the Hawaii Employer-Union Health Benefits Trust Fund and allow parties to collective bargaining resolve impasses related to contribution disputes through binding arbitration.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and Hawaii Fire Fighters Association, Local 1463, IAFF, AFL-CIO. Your Committee received testimony in opposition to this measure from the Department of Budget and Finance. Your Committee received comments on this measure from the Hawaii Employer-Union Health Benefits Trust Fund and University of Hawaii Professional Assembly.

Your Committee finds that health care benefits are an integral part of an employee's compensation package. Your Committee further finds that this measure will allow the scope of collective bargaining negotiations to include health benefits and allow employers and exclusive representatives to resolve disputes over the health benefits and the amounts of contributions each party pays through

binding arbitration in an effort to reform the Employer-Union Health Benefits Trust Fund to make health care more affordable and flexible for employees.

Your Committee has amended this measure by inserting an effective date of January 1, 2051, to encourage further discussion

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 785, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 785, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

## SCRep. 340 Labor, Culture and the Arts on S.B. No. 792

The purpose and intent of this measure is to:

- (1) Establish the public employees training program to provide training to state employees;
- (2) Allocate either 0.01 percent of each employee's gross salary, or an amount negotiated pursuant to collective bargaining, to the public employees training program; and
- (3) Require all new employees to be provided with a general orientation on their benefits and rights.

Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Human Resources Development, City and County of Honolulu Department of Human Resources, and Hawaii Government Employees Association.

Your Committee finds that there is a rising number of eligible retirees within the various departments of state government, which creates a pressing need to prepare the next generation of workers to occupy positions vacated by retirees, especially at the supervisory level. Your Committee believes that a public employees training program could help to stabilize the workforce and ensure the transfer of essential skills and institutional knowledge. However, your Committee also wants to ensure that new employees are informed about their benefits and rights as soon as possible. This measure will establish a board to provide training programs for public employees and require that new employees are provided with an orientation where they will be informed about their benefits and rights.

Your Committee has amended this measure by:

- (1) Removing language that would have required public employees to contribute to the public employees training fund;
- (2) Inserting an effective date of January 1, 2051, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 792, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 792, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

## SCRep. 341 Labor, Culture and the Arts on S.B. No. 796

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Human Resources Development.

Your Committee received testimony in support of this measure from the Department of Human Resources Development. Your Committee received comments on this measure from the Deferred Compensation Plan.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Human Resources Development in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 796 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

## SCRep. 342 Labor, Culture and the Arts on S.B. No. 797

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Labor and Industrial Relations.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Labor and Industrial Relations in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount for the unemployment insurance modernization project by decreasing it from \$2,000,000 to \$1,000,000 in the second year of the fiscal biennium;
- (2) Changing the appropriation amount for neighbor island staffing and IT support for the unemployment insurance division by decreasing it from \$4,000,000 to \$3,000,000; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 797, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 797, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 343 Labor, Culture and the Arts on S.B. No. 1046

The purpose and intent of this measure is to:

- (1) Allow an employee to take family leave in addition to victim leave when the leave is related to domestic or sexual violence against the employee or the employee's minor child;
- (2) Require an employee to submit certification related to domestic or sexual violence of the employee or the employee's minor child: and
- (3) Require employer confidentiality of information related to domestic or sexual violence against the employee or the employee's minor child.

Your Committee received testimony in support of this measure from Hawaii State Coalition Against Domestic Violence, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that victims of domestic violence often need to take leave from their employment to attend to various health or legal matters. Although state law currently requires that employers allow victim leave for victims of domestic or sexual violence, employees are required to exhaust all other paid and unpaid leave accrued for the calendar year before victim leave may be applied. Thus, an employee may exhaust all sick leave in order to seek safety or medical attention for themselves or their minor child or to take legal action against an abuser, leaving little to no sick leave available for the rest of the calendar year. This measure allows family leave to be used separately from victim leave, which will allow employees to maintain their employment, quality of life, and safety.

Your Committee has amended this measure by:

- (1) Specifying that a certification requirement may be met if the employee provides both a certification issued by a health care provider or other professional from whom the employee or the employee's minor child has sought assistance related to the domestic or sexual violence against the employee or employee's child and a signed written statement from an employee, agent, or volunteer of a victim services organization from the employee's attorney or advocate or from a minor child's attorney or advocate to the employer;
- (2) Inserting an effective date of January 1, 2023; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1046, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1046, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

### SCRep. 344 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1417

The purpose and intent of this measure is to appropriate funds for burial grants for qualifying Filipino-American World War II veterans to provide funeral and burial services and transportation of their remains to the Philippines.

Your Committee received testimony in support of this measure from the State Office of Veterans Services; Filipino Community Center, Inc.; Filipino Veterans Recognition and Education Project; University of Hawai'i Pamantasan Council; Filipina Advocacy Network; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that assisting Filipino-American veterans of World War II still living in the State with prospective funeral and burial costs, including the cost of returning their remains to the Philippines if they so desire, would demonstrate the State's appreciation and proper respect for their service.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1417, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1417, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 345 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 92

The purpose and intent of this measure is to allow surviving immediate family members of murder or manslaughter victims to access a copy of the closing report prepared by the investigating police department, upon conclusion of all criminal and civil proceedings that arise from the offense.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that the surviving immediate family members of murder or manslaughter victims often experience profound grief, sense of loss, and guilt. Your Committee further finds that establishing closure can help these surviving family members to process their loss and begin the healing process. This measure will help those family members gain that closure by allowing them to access a copy of the closing report upon the conclusion of criminal and civil proceedings.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 92 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 346 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1219

The purpose and intent of this measure is to:

- (1) Transfer personnel employment responsibility, coordination duties, and Emergency Management Reserve Corps responsibility from the Adjutant General to the Administrator of the Hawaii Emergency Management Agency (Administrator);
- (2) Amend county emergency operation management plan requirements;
- (3) Increase the maximum amount the Governor may expend from the major disaster fund during a single emergency or disaster; and
- (4) Authorize the Administrator to expend monies from the major disaster fund to pay for Emergency Management Reserve Corps activities in addition to training.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of Public Safety, Hawaii Emergency Management Agency, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received testimony in opposition to this measure from K&R Enterprises.

Your Committee finds that, in 2018, the State experienced challenges in sustaining or executing the state emergency management program and thus, opportunities have developed to improve the program. Such challenges included the false missile alert notification in January, flooding on Kauai and Oahu in April, unprecedented Kilauea eruptions on Hawaii island in May, and statewide impacts from Tropical Storms Lane and Olivia in August and September, respectively.

Your Committee further finds that this measure improves the State's emergency management capacity by increasing the amount of funding that the Governor may expend for emergency management response during a major disaster and by supporting additional Emergency Management Reserve Corps activities. Your Committee also finds that this measure provides greater accountability for the Hawaii Emergency Management Agency.

Your Committee has amended this measure by:

- (1) Requiring the Hawaii Emergency Management Agency to prepare a comprehensive emergency plan; adopt standards for county emergency management plans; recommend emergency prevention and mitigation measures related to building codes, zoning, and land use controls to the Legislature, among other requirements; and conduct various emergency management activities to improve the current emergency management program;
- (2) Transferring the responsibility of requesting legislative appropriations for emergency or disaster relief from the Adjutant General to the Administrator;
- (3) Transferring control of the trust account holding federal reimbursement monies for disaster relief from the Department of Defense to the Hawaii Emergency Management Agency;

- (4) Authorizing up to \$2,500,000 of unexpended and unencumbered monies remaining in the major disaster fund at the close of each fiscal year to be carried over to the following fiscal year, in order to build a reserve to respond to future emergencies and disasters: and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1219, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1219, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 347 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 577

The purpose and intent of this measure is to ensure that military personnel, when called to active duty, are paid without delay at the same rate as their active duty counterparts, are entitled to basic allowance for housing, and receive service credit toward public pension and retirement

Your Committee received testimony in support of this measure from the LGBT Caucus of the Democratic Party of Hawaii and two individuals. Your Committee received comments on this measure from the Department of Defense, Department of Budget and Finance, and Employees' Retirement System.

Your Committee finds that military personnel are ordered to active duty in the State during times of disaster such as helping communities recover from tropical storms and flooding. Your Committee also finds that not all of these men and women who are called to active duty are paid in a timely manner or entitled to basic allowance for housing.

Your Committee further finds that military personnel, when ordered to active duty in the State, should be entitled to service credit, retirement if also a state or county employee, basic allowance for housing, and pay without delay so that serving the State during times of disaster is not to their detriment.

Your Committee has amended this measure by:

- Clarifying that when ordered to active duty in the State, military personnel may count this time toward retirement, if also a current state or county employee;
- (2) Providing officers and warrant officers of the Army or Air National Guard who are ordered to active duty in the State with the benefit of basic allowance for housing and pay without delay;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 577, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 577, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

### SCRep. 348 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1216

The purpose and intent of this measure is to allow the Department of Defense to recoup operating costs when the Adjutant General permits temporary facility use of department facilities to the public.

Your Committee received testimony in support of this measure from the Department of Defense and one individual. Your Committee received testimony in opposition to this measure from K&R Enterprises.

Your Committee finds that the Department of Defense serves as an integral part of the community, as it has established facilities and a presence within various communities throughout the State. Consistent with that role is the policy of lending out Department of Defense facilities on a non-interference basis for temporary public use by various organizations within the community. While rental monies are collected to cover the costs associated with renting the facilities, these monies are deposited into the general fund of the State, which requires the Department of Defense to utilize its operating funds to cover the costs of utilities, supplies, and personnel for the temporary public use of its facilities by the community. This measure ensures that the Department of Defense may continue its community involvement by lending out its facilities without incurring a loss to its operating budget.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1216, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1216, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

### SCRep. 349 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1264

The purpose and intent of this measure is to provide emergency funding for temporary housing for 248 inmates at Halawa Correctional Facility.

Your Committee received testimony in support of this measure from the Department of Public Safety.

Your Committee finds that funding for the temporary housing of the 248 inmates terminated in December 2018. Your Committee additionally finds that funding to cover the costs of housing 248 inmates at an out-of-state facility for the remaining six months of fiscal year 2019 is necessary while security electronics and hardware repairs and improvements at Halawa Correctional Facility are being completed.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1264 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 350 (Joint) Public Safety, Intergovernmental, and Military Affairs and Government Operations on S.B. No. 1424

The purpose and intent of this measure is to support best practices for an effective correctional system by:

- (1) Establishing the Hawaii correctional system oversight commission; and
- (2) Consolidating the reentry commission and corrections population management commission into the Hawaii correctional system oversight commission and transferring the rights, powers, functions, and duties of the consolidated commissions to the Hawaii correctional system oversight commission.

Your Committees received testimony in support of this measure from the Department of Public Safety, Office of Hawaiian Affairs, and four individuals. Your Committees received comments on this measure from the Civil Beat Law Center for the Public Interest.

Your Committees find that an increasing number of states are calling for independent oversight of their correctional systems, with at least eight states already having established independent oversight mechanisms to monitor and improve their correctional systems. Your Committees believe that independent oversight of the State's correctional system ensures personnel and fiscal accountability, supports safe conditions for employees, inmates, and detainees, and provides positive reform to a rehabilitative and therapeutic correctional system.

Your Committees further find that the reentry commission and the correctional population management commission have overlapping responsibilities and therefore consolidating the commissions into a single, independent oversight commission led by an oversight coordinator and guided by an experienced group of commission members will promote efficiency and provide greater opportunities for member participation.

Your Committees have amended this measure by:

- Deleting language that would have authorized the commission to hold public meetings and executive meetings closed to the
  public for certain purposes;
- (2) Deleting language would have authorized the oversight coordinator to conduct background checks of prospective employees and consider in all employment decisions the sensitive nature of the commission's operation;
- (3) Deleting language that would have allowed civil service positions of the reentry commission to retain their civil service status upon transfer to the Hawaii correctional system oversight commission;
- (4) Deleting language that would have transferred personal property of the corrections population management commission to the Hawaii correctional system oversight commission; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1424, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1424, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Inouye, Fevella).

## SCRep. 351 Hawaiian Affairs on S.B. No. 1501

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for the Department of Hawaiian Home Lands.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, Hoʻomanapono Political Action Committee, Prince Kūhiō Hawaiian Civic Club, Association of Hawaiian Civic Clubs, and one individual. Your Committee received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee finds that this measure provides a legislative vehicle should funding become available for the purposes of this measure prior to the end of the 2019-2020 fiscal biennium.

Your Committee has amended this measure by:

- Appropriating funds for deposit into and out of the cesspool compliance grant program special fund to implement the cesspool
  compliance grant program;
- (2) Reducing the amount of the general obligation fund issuance authorizations and appropriations to \$25,000,000 for each year of the fiscal biennium;
- (3) Inserting an appropriation of an unspecified amount to assist the Department of Hawaiian Home Lands with building homes, infrastructure, capital improvement projects, operating and administrative costs, fringe, and other needs and priorities; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee's intent in recommending this measure for passage is for the items expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the items expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent. In addition, your Committee requests that your Committee on Ways and Means favor funding the cesspool compliance grant program special fund with general obligation bonds, rather than general fund revenues, unless in the discretion of your Committee on Ways and Means a better means of funding exists.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1501, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1501, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

## SCRep. 352 (Joint) Judiciary and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1347

The purpose and intent of this measure is to appropriate funds to the Department of the Attorney General to maintain the weed and seed strategy, a collaborative effort to prevent crime and rebuild communities in targeted areas.

Your Committees received testimony in support of this measure from the Department of the Attorney General; Hawaii Paroling Authority; Honolulu Police Department; Haseko Development, Inc.; Gentry Homes, Ltd.; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi; First Hawaiian Bank's Ward Branch; Honolulu County Republican Party; and ten individuals.

Your Committees find that the weed and seed strategy as implemented in Hawaii provides community policing strategies; prevention, intervention, and treatment activities; and neighborhood restoration through collaborations between federal, state, and county law enforcement agencies; social service agencies; and private businesses. Your Committees additionally find that over the years, the implementation of the weed and seed strategy in Hawaii has played a significant role in reducing crime in historically troubled neighborhoods.

As affirmed by the records of votes of the members of your Committees on Judiciary and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1347 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 353 Human Services on S.B. No. 162

The purpose and intent of this measure is to provide to a taxpayer who hires an elderly individual a nonrefundable tax credit for the six-month period after the individual is initially hired by the taxpayer.

Your Committee received testimony in support of this measure from a member of the Kaua'i County Council, Hawai'i State Association of Counties, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that elderly individuals often have a wealth of work and life experiences that allow them to make significant contributions to employers. Providing tax incentives to employers to hire elderly individuals will help increase employment of Hawaii's aging population and enable these individuals to continue supporting their families.

Your Committee has amended this measure by:

- (1) Adopting language suggested by the Department of Taxation that:
  - (A) Changes the tax credit from fifty percent of the qualified wages for the first six months after the elderly individual is initially hired to twenty-five percent of the qualified wages for the first twelve months after the elderly individual is initially hired;
  - (B) Clarifies that the definition of "wages" is based solely on cash wages;
  - (C) Clarifies that the definition of "qualified wages" excludes amounts for which another credit is claimed or a deduction is taken; and
  - (D) Clarifies that the credit is applicable to taxable years beginning after December 31, 2019, to allow the Department of Taxation sufficient time to make necessary form, instruction, and computer changes; and

(2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 162, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 162, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 354 Human Services on S.B. No. 161

The purpose and intent of this measure is to provide to a taxpayer who hires an individual with a disability a nonrefundable tax credit for the six-month period after the individual is initially hired by the taxpayer.

Your Committee received testimony in support of this measure from a member of the Kaua'i County Council, a member of the Maui County Council, Hawaii State Association of Counties, Hawaii Disability Rights Center, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that providing an incentive to hire individuals with disabilities encourages employers to hire those individuals. Your Committee further finds that hiring individuals with disabilities facilitates the economic self-sufficiency of those individuals, creates awareness and opportunities surrounding workplace accessibility and productivity of workers with disabilities, and adds motivated people to the work force. This measure provides a tax credit to employers who hire individuals with disabilities, which allows employers to capitalize on the value and talent that individuals with disabilities offer in the workplace, while receiving an added benefit of a tax credit.

Your Committee has amended this measure by:

- (1) Adopting language suggested by the Department of Taxation that:
  - (A) Changes the tax credit from fifty percent of the qualified wages for the first six months after the individual with a disability is initially hired to twenty-five percent of the qualified wages for the first twelve months after the individual with a disability is initially hired;
  - (B) Clarifies the definition of "individual with a disability"; and
  - (C) Clarifies that the definition of "wages" is based solely on cash wages; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 161, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 161, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 355 Water and Land on S.B. No. 1340

The purpose and intent of this measure is to require that mandatory seller disclosures in real estate transactions include identification of residential real properties lying within a sea level rise exposure area, subject to the availability of county maps designating the areas by tax map key.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Sierra Club of Hawai'i, and thirteen individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS. Your Committee received comments on this measure from the Office of Planning and Chamber of Commerce Hawaii.

Your Committee finds that oceanfront property is often vulnerable to hazards, such as coastal erosion and flooding from tsunamis, storms, and high waves. These hazards can be exacerbated by sea level rise. Your Committee also finds that in December 2017, the Hawaii Climate Change Mitigation and Adaptation Commission accepted the Hawaii Sea Level Rise Vulnerability and Adaptation Report (SLR Report). The first recommendation of the SLR Report is to recognize the SLR-XA (Sea Level Rise Vulnerability Area) as a statewide vulnerability zone. The SLR-XA demonstrates the extent of the potential exposure of land and structures to flooding and erosion with an increase of 0.5, 1.1, 2.0, and 3.2 feet of sea level rise throughout the State. Your Committee believes that sea level rise is a concern for all real property owners, not only oceanfront property owners. This measure requires seller disclosures in real estate transactions in such areas to enable property purchasers and transferees to better understand the special hazards, permitting requirements, and limitations that may affect the property.

Your Committee has amended this measure by:

- Clarifying that the mandatory seller disclosures are required for real estate within a two-foot sea level rise exposure area as
  officially designated by the Hawaii Climate Change Mitigation and Adaptation Commission;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1340, as amended herein, and recommends that it pass Second Reading

in the form attached hereto as S.B. No. 1340, S.D. 1, and be referred to your Committees on Judiciary and Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

## SCRep. 356 Water and Land on S.B. No. 1339

The purpose and intent of this measure is to require a vulnerable coastal property purchaser statement with the sale or transfer of vulnerable coastal real property.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Sierra Club of Hawai'i, and thirteen individuals. Your Committee received comments on this measure from the Office of Planning and Chamber of Commerce Hawaii.

Your Committee finds that coastal property is often vulnerable to hazards, such as coastal erosion and flooding from tsunamis, storms, and high waves. These hazards can be exacerbated by sea level rise and human-caused interruptions to natural sand supply. Owners of coastal property are at risk of losing land when shorelines undergo landward retreat, which negatively impacts building setbacks, property values, and insurance availability. Furthermore, coastal property owners face stringent permit requirements imposed by the counties and State for shoreline protection. This measure enables coastal property purchasers and transferees to better understand the special hazards, permitting requirements, and limitations that may affect the coastal property by requiring a vulnerable coastal property purchaser statement with the sale or transfer of any vulnerable coastal real property.

Your Committee has amended this measure by:

- Clarifying that "vulnerable coastal property" means real property within a two-foot sea level rise exposure area as officially designated by the Hawaii Climate Change Mitigation and Adaptation Commission; and
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1339, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1339, S.D. 1, and be referred to your Committees on Judiciary and Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

## SCRep. 357 Transportation on S.B. No. 409

The purpose and intent of this measure is to establish an annual electric vehicle registration surcharge fee to be deposited into the state highway fund.

Your Committee received testimony in support of this measure from the Department of Transportation and Hawaii Transportation Association. Your Committee received testimony in opposition to this measure from Alliance of Automobile Manufacturers, Global Automakers, Ulupono Initiative, Blue Planet Foundation, Hawaii Automobile Dealers' Association, and five individuals. Your Committee received comments on this measure from the Hawaiian Electric Company Inc. and Tesla.

Your Committee finds that electric vehicles, hybrid vehicles, and other alternative fuel vehicles provide many benefits for the environment. Your Committee believes that more residents will switch to an electric, hybrid, or alternative fuel vehicle in the near future. However, because electric vehicles, hybrid vehicles, and other alternative fuel vehicles use either less or no fuel, they are not subject to, or pay less in, fuel taxes. Fuel taxes are an important source of revenue for the Department of Transportation to fund the repair and maintenance of Hawaii's roads. As these types of vehicles still inflict wear and tear on public roads, this measure ensures that all vehicle owners share responsibility and contribute to the upkeep of Hawaii's highway infrastructure.

Your Committee has amended this measure by:

- (1) Including plug-in electric hybrid vehicles, alternative fuel vehicles, and hybrid vehicles in the types of vehicles subject to the annual vehicle registration surcharge;
- Clarifying that the annual vehicle registration surcharge shall only apply to electric vehicles, plug-in hybrid vehicles, alternative fuel vehicles, and hybrid vehicles manufactured after 2018;
- (3) Inserting a surcharge fee of \$15; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 409, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 409, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 358 Transportation on S.B. No. 822

The purpose and intent of this measure is to include flood damage and material damage to a motor vehicle's electronics in the definition of "rebuilt vehicles".

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received comments on this measure from the State Farm Mutual Automobile Insurance Company.

Your Committee finds that under existing law, a vehicle that is declared a total loss can only be subject to a branded "rebuilt vehicle" title if there is material damage to its frame, unitized structure, or suspension system, and the cost to repair is greater than the vehicle's market value. When a vehicle is branded with a rebuilt title, it warns future purchasers that the car has been declared a total loss and might have hidden defects that could affect its operation. However, existing law does not require a car that has sustained significant flood damage to be considered a rebuilt vehicle.

Your Committee further finds that due to the technological advancement made in cars and the constant and heavy rain in Hawaii, an amendment to existing law covering rebuilt vehicles is necessary to account for damage to a motor vehicle's electronics, which is often caused by flooding. This measure would add flood damage and damage to electronics to the definition of a rebuilt vehicle, which will offer consumer protection and ensure the safety of all.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 822 and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (English).

## SCRep. 359 Transportation on S.B. No. 429

The purpose and intent of this measure is to:

- (1) Require a driver's license to include a person's full legal name, date of birth, gender category, residence address, and license or identification card number; and
- (2) Include a third option of gender identification for a driver's license and state identification card.

Your Committee received testimony in support of this measure from the Department of Transportation; Hawai'i State Commission on the Status of Women; LGBT Caucus of the Democratic Party of Hawaii; Gay, Lesbian, and Straight Education Network; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Hawaii Women's Coalition; and twenty-four individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that Hawaii has one of the largest percentages of transgender individuals in the United States. Your Committee further finds that gender and sex markers on a form of identification can cause discrimination and invasive questions from individuals, creating uncomfortable situations for transgender and non-gender conforming individuals. Your Committee also finds that mandatory binary classification does not accommodate the wide range of natural biological variations or gender expressions. This measure will offer the transgender and gender non-conforming community the opportunity to put a gender marker that more aligns to their identity by including another option for a gender marker.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 429 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (English).

## SCRep. 360 Transportation on S.B. No. 739

The purpose and intent of this measure is to require employers of fifty persons or more who provide a parking subsidy to employees to offer a parking cash-out program.

Your Committee received testimony in support of this measure from the Ulupono Initiative, Bikeshare Hawaii, and one individual. Your Committee received testimony in opposition to this measure from the Department of Health.

Your Committee finds that ground transportation in Hawaii uses roughly a third of the State's imported fossil fuels partly because many employers provide employees with parking subsidies which can encourage employees to drive to work. In order for the State to reduce its dependence on fossil fuels, the State needs to encourage people to drive less and incentivize using alternative forms of transportation. A parking cash-out program similar to the program adopted in California may be a good example for businesses in Hawaii to offer a cash allowance instead of parking subsidies to provide incentives for other, less toxic forms of transportation.

Your Committee notes the concern of mandating private business to offer a cash allowance in place of a parking subsidy and its potential impact on certain businesses. Your Committee encourages further discussion between the State and appropriate stakeholders regarding the potential impact of this measure.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 739 and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Harimoto). Noes, none. Excused, 1 (English).

### SCRep. 361 Transportation on S.B. No. 1078

The purpose and intent of this measure is to amend the definition of "bicycle" for the purposes of county vehicular taxes, highway safety laws, and the statewide traffic code by adding and defining low-speed electric bicycles.

Your Committee received testimony in support of this measure from the Department of Transportation and Hawaii Bicycling League.

Your Committee finds that electric bicycles are becoming an increasingly important and popular form of transportation, and a more significant component of the bicycle industry. This measure is intended to statutorily recognize that low-speed electric bicycles are a type of bicycle and subject to the same laws as other bicycles. Your Committee notes that the federal definition of a low-speed electric bicycle is a bicycle whose "maximum speed on a paved level surface, when powered solely by such a motor while ridden by an operator who weighs 170 pounds, is less than 20 mph." Based on testimony provided by the Department of Transportation, because low-speed electric vehicles can go 20 miles per hour without much human effort, for safety purposes, an age limit should be established for operating such vehicles.

Accordingly, your Committee has amended this measure by requiring the operator of a low-speed electric bicycle to be at least 15 years of age.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1078, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1078, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (English).

## SCRep. 362 (Joint) Transportation and Judiciary on S.B. No. 327

The purpose and intent of this measure is to require the Attorney General to condemn certain private roads on the island of Oahu.

Your Committees received testimony in support of this measure from three individuals. Your Committees received testimony in opposition to this measure from the Ho'omanapono Political Action Committee and one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources, Department of the Attorney General, Department of Health, and Hawaiian Electric Company.

Your Committees find that there are many roads throughout Hawaii that are not owned by either the State or any county, and whose private ownership is unknown. Although these roads are used by the public, because of the unknown ownership, these roads are not maintained properly and some have fallen into significant disrepair. Your Committees note that currently, no one is paying real property taxes on most or all of the lanes in this measure and they are currently being valued at de minimis amounts. Your Committees also note that a title guarantee report dated April 30, 2014, was not able to determine the current owners of Rawlins Lane.

Your Committees have amended this measure by:

- (1) Deleting all of the lanes required to be condemned by the Attorney General except for Rawlins Lane and Kalani Street;
- (2) Including Factory Street as one of the roads to be condemned;
- (3) Requiring the Attorney General to make a good faith effort to determine whether any kuleana lands are involved prior to condemnation;
- (4) Requiring the Department of Transportation to operate and maintain the roads after condemnation;
- (5) Inserting a blank appropriation; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 327, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 327, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 4; Ayes with Reservations (English, Harimoto, Shimabukuro). Noes, none. Excused, 1 (Fevella). Judiciary: Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

## SCRep. 363 (Joint) Agriculture and Environment and Higher Education on S.B. No. 261

The purpose and intent of this measure is to:

- (1) Appropriate funds for the GoFarm Hawaii program; and
- (2) Require the GoFarm Hawaii program to provide the Chairperson of the Board of Agriculture with the program's annual goals and a semi-annual report outlining program outputs and outcomes.

Your Committees received testimony in support of this measure from the Department of Agriculture; University of Hawai'i System; Hawai'i Center for Food Safety; Ulupono Initiative; North Shore Economic Vitality Partnership; Down to Earth Organic and Natural; Hawai'i 'Ulu Producers Cooperative; Americans for Democratic Action Hawai'i; Counter Culture Organic Farm; Farm Link Hawaii; Hoalahou Farm LLC; The Kohala Center; Hilo Sun Farms; Hawaii Cattlemen's Council; Regenerations Botanical Garden; Sweetbreads, LLC; Lokoea Farms; Rainbow Farms; Kaiona Farms Waialua; Tiny Aina Farm; 'Aina Ho'okupu O Kilauea; East Kauai Soil and Water Conservation District; Hawaii Agriculture Research Center; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Our Revolution Hawaii; Nui Na Lima Farm LLC; and twenty-two individuals.

Your Committees find that about eighty-five to ninety percent of Hawaii's food is imported, which makes Hawaii particularly vulnerable to natural disasters and global events that disrupt shipping and other modes of transporting food. Additionally, because a high percentage of the food consumed in the State is imported, billions of dollars of food expenditures leave the State each year. To

ensure continued interest in farming as a profession, support is needed to develop financially viable agricultural operations through programs like the GoFarm Hawaii program, which improves food security and self-sufficiency. This measure supports the GoFarm program to encourage more people to develop financially viable farming operations that will increase local food production and provide sustainable agriculture in Hawaii.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 261 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Thielen). Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kahele).

#### SCRep. 364 (Joint) Agriculture and Environment and Housing on S.B. No. 755

The purpose and intent of this measure is to establish an agricultural housing task force to analyze and provide recommendations that would streamline existing laws, rules, and processes to authorize the construction of safe and sanitary on-farm housing units for residential use within agricultural districts, on farms that are engaged in agricultural production.

Your Committees received testimony in support of this measure from one member of the Hawai'i County Council; Hawaii Farm Bureau; Hawaii Cattlemen's Council; Hawaii Coffee Association; Our Revolution Hawaii; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; GMO Free Kaua'i; Kokuakats Farm; Hawaii Farmer's Union; Ulupono Initiative; We Are One, Inc.; Hawai'i Center for Food Safety; Momilani Farm; Ka Ohana O Na Pua; Greenleaf Farm; Land Use Research Foundation of Hawaii; A'a Li'i Farm; and over one hundred individuals. Your Committees received comments on this measure from the Office of Planning, Department of Agriculture, Department of Health, and Land Use Commission.

Your Committees find that existing laws governing construction of on-farm housing units are complicated, confusing, and vary across the State. On-farm housing units must comply with different layers of regulations at the federal level and laws and rules at the state and county levels.

Your Committees further find that many of the laws and rules governing construction of traditional residential housing units are ill-suited to the demands and economic realities of working farms. These existing laws, rules, and processes preclude farms from providing safe, sanitary, and affordable on-farm housing units to attract and retain farm workers, and stand as an obstacle to the State's agricultural self-sufficiency.

Your Committees additionally find that affordable, safe, and sanitary on-farm housing units are critical for working farms to attract and retain long-term and short-term farm workers in Hawaii.

Your Committees have amended this measure by:

- (1) Directing the task force to give special consideration to modular housing as a solution;
- (2) Establishing an additional objective of the task force to create a separate legal designation, as it relates to zoning, for homes with a permanent foundation and modular homes without a permanent foundation;
- (3) Replacing the phrase "housing units for residential use on farms" with "employee housing" throughout the measure, for the purpose of clarity; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 755, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 755, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella). Housing: Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 365 (Joint) Higher Education and Agriculture and Environment on S.B. No. 801

The purpose and intent of this measure is to appropriate funds for the renovation, expansion, and modernization of the Waikiki Aquarium structure.

Your Committees received testimony in support of this measure from the University of Hawai'i System and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committees find that the Waikiki Aquarium is the second oldest aquarium in the United States, having hosted an average of three hundred thousand annual visitors over the past decade. However, the aquarium is showing signs of aging and disrepair as it has not been able to expand and modernize at the same pace as more modern and larger domestic and international aquariums. This measure helps the Waikiki Aquarium redefine itself and remain relevant by elevating its facilities to make itself a favored destination for locals and visitors of Hawaii.

As affirmed by the records of votes of the members of your Committees on Higher Education and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 801 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kahele). Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Thielen).

## SCRep. 366 (Joint) Higher Education and Agriculture and Environment on S.B. No. 484

The purpose and intent of this measure is to appropriate funds for the University of Hawaii West Oahu to expand its existing programs and develop new means to increase food security and self-sufficiency.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Department of Agriculture, Life of the Land, Aina Ho'okupu O Kilauea, Waipa Foundation, Hawai'i Alliance for Community-Based Economic Development, HFUU Haleakala, Lokoea Farms, and twenty-five individuals.

Your Committees find that Hawaii does not have an adequate-sized farming workforce for expansion of cultivated agricultural lands and food production. In order to meet the State's aspirations for increased food security and self-sufficiency, the number of local farms and farmers and the amount of food produced for local markets will need to increase significantly. This can be achieved through the development of higher education systems in Hawaii to promote understanding of sustainable food production and train a new generation of students for jobs in the sustainable food and agriculture sector.

As affirmed by the records of votes of the members of your Committees on Higher Education and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 484 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4; Ayes with Reservations (Kidani). Noes, none. Excused, 1 (Kahele).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Thielen).

## SCRep. 367 Human Services on S.B. No. 449

The purpose and intent of this measure is to:

- (1) Establish in the Department of the Attorney General a child abuse investigation unit;
- (2) Allow the Department of the Attorney General to intervene in adjudications in family court;
- (3) Enact the Uniform Child Witness Testimony by Alternative Methods Act, which authorizes courts to allow for children to testify in a place other than an open forum or away from the finder of fact, court, or parties; and
- (4) Require the court and the prosecution to take appropriate action to ensure a prompt trial in order to minimize the length of time a child abuse victim or minor witness must endure the stress of the child's involvement in the proceedings.

Your Committee received testimony in support of this measure from the Commission to Promote Uniform Legislation, Malama O Puna, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, Kapiʻolani Medical Center for Women and Children, and two individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender, State of Hawaiʻi and Hawaiʻi Supreme Court Standing Committee on the Hawaiʻi Rules of Evidence. Your Committee received comments on this measure from the Department of the Attorney General and Department of Human Services.

Your Committee finds that child abuse victims have as much a right to a speedy trial as do defendants and adult perpetrators of child abuse. Your Committee further finds that the failure to provide a speedy trial to child abuse victims further traumatizes the child, who may develop childhood memories of a haunting assault, particularly sexual assault. Additionally, over time and as a coping mechanism, a child may suppress details of the abuse, which are critical in the child's testimony. Your Committee also finds that requiring children to testify in person may cause child abuse victims emotional distress. This measure will require an expedited disposition of cases in all criminal proceedings involving abuse of minors, so they are not forced to continue to relive their trauma.

Your Committee further finds that this measure authorizes child abuse victims to testify via alternative methods, as an attempt to shield a child abuse victim from further emotional distress that may be caused by in-person testimony before a defendant. However, your Committee has heard testimony that this measure, as written, raises potential constitutional concerns. Amendments to this measure are therefore needed to address these concerns, and other concerns raised in testimony.

Your Committee has amended this measure by:

- Removing language that would have established a child abuse investigation unit within the Department of the Attorney General; adopted the Uniform Child Witness Testimony by Alternative Methods Act; and authorized the Attorney General to intervene in any adjudication under the Child Protective Act;
- (2) Clarifying that the expedited proceedings requirements proposed are for criminal proceedings of criminal offenses perpetuated against a minor or any other criminal proceedings involving minor victims or witnesses, rather than civil proceedings;
- (3) Permitting judicial discretion when good cause is shown for purposes of granting continuances, commencing trial, and imposing sanctions;
- (4) Updating the purpose section; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 449, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 449, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Riviere, Fevella).

## SCRep. 368 (Joint) Human Services and Commerce, Consumer Protection, and Health on S.B. No. 1051

The purpose and intent of this measure is to:

- (1) Require the Department of Human Services, in consultation with the Department of Health, to establish a pilot project to provide shelter and mental health treatment for homeless individuals with severe mental illness or severe co-occurring mental illness and substance use disorders who are subject to court-ordered assisted community treatment or court-ordered guardianship;
- (2) Establish requirements for the pilot project, including requirements for placement in the pilot project;
- (3) Require reports to the legislature; and
- (4) Appropriate funds for the pilot project.

Your Committees received testimony in support of this measure from the Hawaii Kai Homeless Task Force, Hawaii Substance Abuse Coalition, Mental Health America of Hawai'i, Catholic Charities Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Partners In Care, and three individuals. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness, Department of Human Services, Department of Health, and Office of the Public Guardian.

Your Committees find that the State has a gap in services for homeless individuals with severe mental illness or severe co-occurring mental illness and substance use disorders, as these individuals often cycle between homelessness, emergency room treatment, incarceration, and hospitalization. Individuals with severe mental illness or severe co-occurring mental illness and substance use disorders typically become chronically homeless and further burden the health care system through excessive use of expensive emergency department, inpatient treatment, and crisis services. Due to their mental illness, these individuals routinely reject offered services and remain on the street, putting themselves at risk of further injury and creating a significant burden on the communities where they reside. This measure therefore establishes a pilot program that will operate a facility to provide shelter and mental health treatment to homeless individuals with severe mental illness or severe co-occurring mental illness and substance use disorders.

Your Committees note that various state agencies have expressed in testimony the importance and need for programs that will allow homeless individuals with severe mental illness or severe co-occurring mental illness and substance use disorders to receive treatment while living in a safe and supportive environment. The agencies that will likely be impacted by this measure have expressed willingness to work toward a solution to address this need. However, the agencies have concerns regarding its implementation and suggest that more time and planning is needed at this time. Your Committees agree with these concerns and conclude that it is appropriate to establish a task force as a necessary first step, prior to the implementation of the task force proposed by this measure.

Accordingly, your Committees have amended this measure by:

- (1) Establishing a task force to determine specific implementation requirements necessary to establish a pilot program intended to provide shelter and mental health treatment for homeless individuals with severe mental illness or severe co-occurring mental illness and substance use disorders who are subject to court-ordered guardianship;
- (2) Requiring the task force to consider specific implementation concerns and any requirements necessary for a pilot program;
- (3) Specifying the membership on the task force, deadline for any recommendations and proposed legislation by the task force, and date of dissolution;
- (4) Removing language that would have required the Departments of Human Services and Health to establish a three-year pilot project to provide shelter and mental health treatment for homeless individuals with severe mental illness or severe cooccurring mental illness and substance use disorders who are subject to court-ordered assisted community treatment or courtordered guardianship;
- (5) Changing the appropriation from \$600,000 for fiscal years 2019-2020 and 2020-2021 to an unspecified amount; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1051, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1051, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 4. Noes, none. Excused, 1 (Riviere). Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Nishihara, Thielen).

## SCRep. 369 (Joint) Human Services and Housing on S.B. No. 1395

The purpose and intent of this measure is to make an appropriation for the state rent supplement program.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness, Department of Human Services, Hawaii Kai Task Force, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Our Revolution Hawaii, Hawaii Island HIV/AIDS Foundation, and one individual. Your Committees received comments on this measure from the Hawaii Public Housing Authority.

Your Committees find that the state rent supplement program has proven to be effective in securing and maintaining housing for working individuals, senior or disabled individuals, and families who are homeless. The state rent supplement program provides a relatively shallow, but sustained, rental subsidy to enable vulnerable households or those at imminent risk of homelessness to close the

rental affordability gap, maintain housing, and achieve self-sufficiency. The rental assistance provided by this measure will support working families achieve housing stability, which promotes employment and educational success and supports good health outcomes.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1395 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Human Services: Ayes, 3. Noes, none. Excused, 2 (Riviere, Fevella).

Housing: Ayes, 3. Noes, none. Excused, 2 (Thielen, Fevella).

## SCRep. 370 Commerce, Consumer Protection, and Health on S.B. No. 819

The purpose and intent of this measure is to authorize and establish procedures and criteria for prescriptive authority for clinical psychologists who meet specific education, training, and registration requirements.

Your Committee received testimony in support of this measure from the Hawai'i Psychological Association, Mental Health America of Hawai'i, American Psychological Association, and over forty individuals. Your Committee received testimony in opposition to this measure from the Hawaii Psychiatric Medical Association, Hawaii Medical Association, American Osteopathic Association and Hawaii Association of Osteopathic Physicians and Surgeons, American Psychiatric Association, American Medical Association, and eleven individuals. Your Committee received comments on this measure from the Board of Psychology.

Your Committee finds that there is a critical need in Hawaii for improved access to safe, effective, and comprehensive mental health care services. Due to the shortage of psychiatrists, patients' mental health issues often fall to their primary care provider or family physician for diagnosis and treatment, or they forgo treatment altogether because they lack access to a psychiatrist. The vast majority of Americans who receive medications for treatment of mental disorders do not obtain them from psychiatrists. In fact, studies have shown that nearly sixty percent of psychotropic medications are prescribed by primary care providers for patients with no documented psychiatric diagnosis. Non-psychiatric physicians are not, however, generally trained to diagnose and treat mental health disorders, provide psychotherapy, or other psychological interventions. Furthermore, psychiatrists are the least likely to accept insurance or Medicaid compared to other medical specialties.

Your Committee additionally finds that psychologists with additional post-doctoral training in psychopharmacology are skilled in both the diagnosis and treatment of mental conditions and use of psychotropic medications. They can provide urgently needed psychological interventions and psychopharmacological treatment services to the underserved populations of the State. This measure increases access to care by allowing psychologists with appropriate advanced training in psychopharmacology to provide comprehensive mental health care. This measure further provides necessary safeguards to ensure that only those psychologists with appropriate education, clinical training, and registration will be authorized to prescribe from a limited formulary of psychotropic medications.

Your Committee has amended this measure by:

- Clarifying that the clinical experience requirement for eligibility as a prescribing psychologist shall include a minimum of
  eight hundred hours completed over a fifty-six-month period and an eight-week rotation through specified areas of medicine;
- (2) Inserting language delaying implementation to July 1, 2022 to give the Board of Psychology adequate time to prepare for the requirements proposed by this measure;
- (3) Clarifying that the repeal date for this measure is intended to be August 31, 2025;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 819, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 819, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Nishihara). Noes, none. Excused, 2 (Ruderman, Fevella).

## SCRep. 371 Commerce, Consumer Protection, and Health on S.B. No. 537

The purpose and intent of this measure is to:

- (1) Transition from lump sum deferred deposit transactions to installment-based small dollar loan transactions;
- (2) Specify various consumer protection requirements for small dollar loans;
- (3) Beginning January 1, 2020, require licensure for small dollar lenders that offer small dollar loans to consumers;
- (4) Specify licensing requirements for small dollar lenders; and
- (5) Appropriate funds out of the compliance resolution fund for the hiring of staff necessary to implement the program.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Hawaiian Community Assets, Mental Health America of Hawai'i, Catholic Charities Hawai'i, Hawaii Appleseed Center for Law and Economic Justice, and one individual. Your Committee received testimony in opposition to this measure from Money Service Centers of Hawaii, Inc. and Hawaii Bankers Association. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that deferred deposit agreements, commonly referred to as payday loans, are small, short term, unsecured loans that borrowers commit to repay from their next paycheck or a regular income payment. The majority of borrowers use deferred deposit agreements for recurring expenses, rather than unexpected expenses or emergencies, because they live paycheck to paycheck. The majority of short-term loans are borrowed by consumers who take out at least ten loans in a row, with the borrower paying far more in fees and predatory interest than they received in credit.

According to testimony received by your Committee, current laws allow payday lenders to prey on economically vulnerable workers in the State and trap them in cycles of unaffordable debt. Your Committee notes that without strong consumer protections in the payday loan industry, payday loan borrowers may find such debt overwhelming and may be unable to pay rent and basic living expenses, thus further contributing to the State's homelessness crisis. This measure therefore establishes a regulatory structure for small dollar loans to encourage transparency and increase consumer protection in the payday lending industry in the State.

Your Committee has amended this measure by:

- (1) Clarifying that any maintenance fees on each small dollar loan transaction and renewal shall be applied in arrears on a monthly basis:
- (2) Clarifying that a lender may renew up to \$1,000 of the remaining unpaid principal balance, rather than of the remaining unpaid balance;
- (3) Clarifying that all financial institutions and nondepository financial service loan companies, rather than only those authorized by the Division of Financial Institutions, are exempt from the small dollar loan regulatory requirements;
- (4) Clarifying that the confidentiality provisions established by this measure shall control in the event of a conflict with any other section of law;
- (5) Inserting an appropriation amount of \$220,941 from the compliance resolution fund for the two permanent examiner positions; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 537, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 537, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

## Rep. 372 Commerce, Consumer Protection, and Health on S.B. No. 722

The purpose and intent of this measure is to:

- (1) Require planned community associations to register with the Real Estate Commission;
- (2) Require the Real Estate Commission to administer and enforce planned community association laws; and
- (3) Establish the planned community association education trust fund.

Your Committee received testimony in support of this measure from the Hawaii Council of Associations of Apartment Owners and two individuals. Your Committee received testimony in opposition to this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs; Real Estate Commission; Community Associations Institute, Hawaii Chapter; and Associa. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure is intended to grant additional powers to, and provide additional means for the self-governance of, planned community associations. This measure also extends certain benefits granted to condominium residents to members of planned community associations, including extending certain powers of the Real Estate Commission to cover planned community associations and creating an education trust fund funded by fees paid by planned community associations.

However, your Committee has heard the concerns raised in testimony that planned community associations are vastly different from condominium associations, in terms of their needs and operations. As planned community associations have traditionally been regarded as created by contract, rather than created via statute like condominiums, it may not be appropriate for these entities to share the exact same rights and benefits.

Your Committee notes that planned community associations and condominiums have had similar ongoing issues regarding nonjudicial foreclosure and power of sale remedies. Clarification regarding whether planned community associations may exercise non-judicial or power of sale foreclosure remedies regardless of the presence or absence of the power of sale language in the association documents would give planned community associations another tool to address this particular area of governance. Your Committee therefore concludes that amendments to this measure are necessary.

Your Committee has amended this measure by:

- Inserting language clarifying that planned community associations may exercise nonjudicial or power of sale foreclosure remedies regardless of the presence or absence of the power of sale language in the association documents;
- (2) Removing language that would have required planned community associations to register with the Real Estate Commission, required the Real Estate Commission to administer and enforce planned community association laws, and established the planned community association education trust fund;

- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 722, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 722, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Keohokalole, Ruderman, Fevella).

## SCRep. 373 Commerce, Consumer Protection, and Health on S.B. No. 307

The purpose and intent of this measure is to establish a provisional license for speech pathologists.

Your Committee received testimony in support of this measure from the Board of Speech Pathology and Audiology, Healthcare Association of Hawaii, Hawaii Speech-Language-Hearing Association, Hale Hoʻola Hamakua Critical Access Hospital, Oahu Speech Language Pathology Consultants, and over forty individuals.

Your Committee finds that Hawaii is one of the few states that do not provide a provisional license to clinical fellows who are transitioning from a speech-language pathology student to a provider. When clinical fellows are not licensed, they are often not recognized as qualified clinicians for the purposes of reimbursement and are therefore unable to bill Medicare and most insurance companies. This results in a shortage of speech pathologists, delaying needed services, and a lack of job opportunities in the State for clinical fellows after graduating from accredited universities. Of particular concern is that Hawaii is losing talented graduates, who wish to stay in the State and provide service to the community, but who must relocate to the mainland to seek job opportunities not available in Hawaii. This measure establishes a provisional license for clinical fellows to practice under the guidance of an American Speech-Language-Hearing Association certified supervisor while they pursue their permanent licensure requirements, which will provide more employment opportunities for recent graduates and help to alleviate Hawaii's speech pathologist shortage.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 307 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ruderman, Fevella).

#### SCRep. 374 Commerce, Consumer Protection, and Health on S.B. No. 550

The purpose and intent of this measure is to allow Public Utilities Commission members who are residents of a county other than the City and County of Honolulu to receive an allowance of \$225 per day for expenses related to board, lodging, and incidental expenses, in addition to actual air travel expenses.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Public Utilities Commission, The Alliance for Solar Choice, and one individual.

Your Committee finds that the Public Utilities Commission serves a critical role in providing regulatory oversight for various regulated utility and transportation industries, ensuring that consumers of the regulated services receive reliable services at affordable rates, and overseeing other important public interest matters. Given these responsibilities, it is important that the State attract the most qualified candidates to serve as Commissioners, regardless of the island on which they reside.

Your Committee further finds that neighbor island commissioners are not currently provided any reimbursement for their travel expenses, such as airfare, board, lodging, and incidental expenses. In addition to airfare, neighbor island commissioners incur expenses related to lodging, utilities, and transportation to Oahu, which can exceed \$30,000 per year, or more than twenty-five percent of a Commissioner's annual salary. Your Committee notes that there are other similarly situated boards and commissions that are allowed reimbursement for these expenses. Therefore, your Committee finds that it is appropriate for neighbor island commissioners to receive similar reimbursement as necessary to offset the additional costs they incur in furtherance of their duties.

Your Committee has amended this measure by clarifying that a neighbor island commissioner may be reimbursed for actual air travel expenses incurred in carrying out the commissioner's duties.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 550, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 550, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Fevella).

## SCRep. 375 (Joint) Housing and Human Services on S.B. No. 1020

The purpose and intent of this measure is to appropriate funds to the Hawaii Public Housing Authority for the state rent supplement program to provide assistance through the establishment of a housing homeless children rental assistance pilot program.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority, Hawaii Youth Services Network, Hawaii Children's Action Network, Hawaii State Coalition Against Domestic Violence, Our Revolution Hawaii, Hawaiian Community Assets, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaii Kai Homeless Task

Force, and four individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness and State Procurement Office.

Your Committees find that homelessness and affordable housing are two of the most pressing problems in Hawaii. According to the 2018 Oahu Homeless Point-In-Time Count, there were 407 sheltered and unsheltered homeless families on the island of Oahu, including 899 homeless minor children on Oahu. Your Committees note that while the number of homeless individuals has decreased in recent years, a robust and comprehensive solution is needed to address the number of homeless families, particularly homeless children. Your Committees further find that one major contributing factor to the number of homeless families is the high cost of housing in Hawaii. By increasing the State's investment in long-term, shallow rent subsidies, the State can help vulnerable families out of homelessness and ensure greater housing stability.

This measure continues to address the State's homeless crisis by expanding help to homeless children through a housing homeless children rental assistance pilot program to provide ongoing, shallow rental subsidies to move homeless families with children into stable housing.

Your Committees have amended this measure by:

- (1) Changing the agency responsible to provide assistance through the establishment of a housing homeless children rental assistance pilot program from the state rent supplement program under the Hawaii Public Housing Authority to the Department of Human Services;
- (2) Inserting language to clarify that the period of performance of contracts procured for financial management and budget counseling services do not exceed the three-year term of the pilot program;
- (3) Requiring the Department of Human Services to participate in the Continuum of Care's Coordinated Entry System and requiring the Department of Human Services and housing counseling agencies that provide services under the pilot program to input data into the United States Department of Housing and Urban Development's Homeless Management Information System; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that all families, not only families with children who are experiencing domestic violence, stand to benefit from the pilot program proposed by this measure and that this program should therefore be expanded to encompass all families. Your Committees further note that it is important to provide job training, proper placement of families, and extensive children assistance for families receiving a short term subsidy, to ensure sustainability of their housing.

As affirmed by the records of votes of the members of your Committees on Housing and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1020, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1020, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Housing: Ayes, 3. Noes, none. Excused, 2 (Thielen, Fevella). Human Services: Ayes, 3. Noes, none. Excused, 2 (Rhoads, Fevella).

### SCRep. 376 (Joint) Housing and Transportation on S.B. No. 1389

The purpose and intent of this measure is to:

- (1) Require the Hawaii Community Development Authority (HCDA) to develop a transit-oriented development infrastructure improvement zone program to foster infrastructure development by strategically investing in public facilities;
- (2) Authorize the Hawaii Housing Finance and Development Corporation (HHFDC), at the request of HCDA, to establish and operate transit-oriented development infrastructure improvement zone subaccounts within the dwelling unit revolving fund for the benefit of infrastructure improvement projects within a transit-oriented development infrastructure improvement zone;
- (3) Require the Executive Director of HHFDC, in collaboration with the Executive Director of HCDA and the Hawaii Interagency Council for Transit-Oriented Development, to conduct a study examining the current infrastructure of a transit-oriented development infrastructure improvement zone and the requirements necessary to upgrade the infrastructure to facilitate future transit-oriented development; and
- (4) Appropriate funds to HCDA for staff necessary to develop and manage the transit-oriented development infrastructure improvement zone program.

Your Committees received testimony in support of this measure from the Hawaii Community Development Authority, Office of Planning, Building Industry Association Hawaii, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, Chamber of Commerce Hawaii, and one member of the City Council of the City and County of Honolulu. Your Committees received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committees find that the lack of coordination and financing of infrastructure improvements, including public facilities, in planned growth areas is a major impediment to realizing the potential of transit-oriented development in meeting housing demands and creating vibrant and sustainable mixed-use communities. Your Committees believe that the State must take a proactive role in investing in critical infrastructure necessary to overcome barriers to transit-oriented development. This measure is a strategic investment of state funds to construct and deliver necessary infrastructure improvements in support of transit-oriented development projects in the State.

Your Committees note that this measure is not intended to limit the use of transit-oriented development infrastructure improvement zones by government users, nor will this project be limited to the City and County of Honolulu.

Your Committees have amended this measure by:

- (1) Deleting the provision that statutorily established the transit-oriented development infrastructure improvement zone program with HCDA's district-wide improvement program and instead inserting the language into a new section in chapter 206E, Hawaii Revised Statutes:
- Requiring HCDA to determine, in consultation with the appropriate county, appropriate mechanisms to be used to pay for the cost of the state infrastructure investment;
- (3) Deleting the requirement of a transit-oriented development infrastructure improvement zone being located within a one-half mile radius around a proposed or existing fixed transit station;
- (4) Deleting the provision that would have required HCDA to establish a transit-oriented development infrastructure zone that includes the Aloha Stadium transit station and also deleting the provisions that would have required the infrastructure study and all of the requirements of the study, including the reporting requirement;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that although the appropriation amount is blank, the Hawaii Community Development Authority requests one full-time equivalent position at \$60,000 for the second half of fiscal year 2019-2020, and \$120,000 for fiscal year 2020-2021 to manage the transit-oriented development infrastructure improvement zone program, plus an additional \$50,000 for annual operating costs.

As affirmed by the records of votes of the members of your Committees on Housing and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1389, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1389, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 3. Noes, none. Excused, 2 (Thielen, Fevella).

Transportation: Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

### SCRep. 377 (Joint) Housing and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 362

The purpose and intent of this measure is to prohibit any law, ordinance, or rule from imposing an inclusionary zoning requirement on housing offered exclusively for sale in perpetuity to buyers who are residents of the State, are owner-occupants, and do not own any other real property.

Your Committees received testimony in support of this measure from the Building Industry Association Hawaii. Your Committees received testimony in opposition to this measure from Hawaiian Community Assets.

Your Committees find that the State is experiencing a severe shortage of affordable housing. Reports have shown that the State would need at least 44,000 new housing units to solve the shortage. However, there has been a lack of measureable progress at the county level to enact policies that will stimulate housing production to meet this project demand. Your Committees believe that this measure incentivizes the production of housing units at all price points and encourages more developers to build affordable housing in the State for residents.

Your Committees note the concerns raised regarding the enforcement of this measure and will continue to work with the counties to address these concerns.

As affirmed by the records of votes of the members of your Committees on Housing and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 362 and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 3; Ayes with Reservations (Moriwaki). Noes, none. Excused, 2 (Thielen, Fevella).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Wakai).

## SCRep. 378 Commerce, Consumer Protection, and Health on S.B. No. 334

The purpose and intent of this measure is to codify the administrative definition of "assistance animal" and clarify what constitutes acceptable verification when establishing the need for an assistance animal.

Your Committee received testimony in support of this measure from the Aloha State Association of the Deaf, Hawaii Dog Psychology Center, and two individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Civil Rights Commission; Community Associations Institute, Legislative Action Committee; Associa; and three individuals. Your Committee received comments on this measure from the Disability and Communication Access Board and one individual.

Your Committee finds that service animals and assistance animals serve distinct disability-related needs. Despite the separation between service animals and assistance animals, your Committee finds that the 2017 state law prohibiting misrepresentation of service animals has resulted in confusion over acceptable verification of a disability-related need for an assistance animal.

Your Committee further finds that under the federal Fair Housing Act, the United States Department of Housing and Urban Development (HUD) funds state and local agencies that administer fair housing laws that HUD has determined to be substantially equivalent to the Fair Housing Act. According to testimony from the Hawaii Civil Rights Commission, Hawaii's fair housing law has been certified by HUD to be substantially equivalent. However, statutory changes that affect rights, such as the in-person evaluation verification requirement proposed by this measure, could jeopardize HUD certification of Hawaii's fair housing law and HUD's

cooperative agreement with the Hawaii Civil Rights Commission. Your Committee understands these concerns and concludes that amendments to address these concerns, as well as other concerns raised in testimony, are needed.

Your Committee has amended this measure by:

- (1) Amending the definition of "assistance animal" to remove the term "therapy animal";
- (2) Clarifying the verification that may be requested by a housing provider by:
  - (A) Removing the requirement that the verification be provided in person, for consistency with federal guidelines; and
  - (B) Specifying that possession of a vest or other distinguishing animal garment, tag, or registration document commonly purchased online and purporting to identify an animal as a service animal or assistance animal does not constitute valid verification; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 334, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 334, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 7; Ayes with Reservations (Ruderman). Noes, none. Excused, none.

## SCRep. 379 Commerce, Consumer Protection, and Health on S.B. No. 527

The purpose and intent of this measure is to authorize and regulate the manufacturing and sale of edible cannabis products, including:

- (1) Establishing standards, including regulations and education protocols, for edible cannabis products;
- Requiring cannabis and manufactured cannabis products to include a universal symbol developed by the Department of Health; and
- (3) Requiring the Department of Health to implement a cannabis product recall system.

Your Committee received testimony in support of this measure from the Community Alliance on Prisons, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, and Hawaiʻi Educational Association for Licensed Therapeutic Healthcare. Your Committee received testimony in opposition to this measure from the Department of Transportation, Department of Health, and Honolulu County Republican Party. Your Committee received comments on this measure from the Hawaii Family Forum and one individual.

Your Committee finds that studies have shown the benefits of using medical cannabis to alleviate certain serious illnesses. Edible cannabis products can be an important alternative for medical cannabis patients who cannot tolerate other forms of cannabis ingestion. Your Committee further finds that several states currently permit the sale of edible cannabis products for medical use, although these states generally place restrictions on edible cannabis products.

Your Committee notes that in 2018, the Department of Health convened the Medical Cannabis Outstanding Issues Working Group, pursuant to Act 116, Session Laws of Hawaii 2018. The working group was tasked with making recommendations regarding the authorization and regulation of the manufacture and dispensing of edible cannabis products by licensed medical cannabis dispensaries. This measure incorporates all of the recommendations of the working group intended to enhance product safety, including setting standards for the manufacturing of edible cannabis products, requiring the use of a universal symbol, and implementation of a product recall system.

However, your Committee has heard the concerns raised in testimony regarding the legalization of manufactured cannabis products proposed by this measure. According to testimony from the Department of Health, edible cannabis products are responsible for the majority of cannabis intoxications, with children most likely to be affected. Edible cannabis products may be indistinguishable from cannabis-free counterparts and are meant to be palatable, which increases the risk of overdosing. Users may not realize the delayed effects of ingested cannabis, which may lead to overconsumption of edibles.

Your Committee appreciates these concerns and concludes that further discussions are needed regarding edible cannabis products. Convening a working group will be an effective way to continue discussions about the concerns raised in testimony.

Accordingly, your Committee has amended this measure by:

- Requiring the Department of Health to convene a working group to propose standards, regulations, protocols, and recommendations for legislation regarding edible medical cannabis products, including the development of a universal symbol and quality control procedures that emphasize a recall system for retail products;
- (2) Specifying the composition of the working group;
- (3) Requiring the working group to submit a report to the Legislature prior to the convening of the Regular Session of 2020;
- (4) Removing language that would have authorized the manufacturing and sale of medical cannabis products; required the Department of Health to develop a universal symbol to be displayed on all cannabis and manufactured cannabis products; and required the Department of Health to implement a cannabis product recall system;
- (5) Updating its purpose section; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 527, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 527, S.D. 1, and be referred to your Committee on Ways and Means

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Nishihara).

#### SCRep. 380 Commerce, Consumer Protection, and Health on S.B. No. 638

The purpose and intent of this measure is to:

- (1) Add the unlicensed sale of liquor as an offense for which property is subject to forfeiture and increase the grade of the offense to a class C felony;
- (2) Provide an affirmative defense; and
- (3) Amend definitions of "organized crime" and "racketeering activity" to include the unlicensed sale of liquor.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney, City and County of Honolulu; Honolulu Police Department; Department of Liquor Control, County of Kaua'i; Liquor Commission, City and County of Honolulu; and one member of the City Council, City and County of Honolulu.

Your Committee finds that unlicensed liquor sales encourage under-aged consumption of liquor and provide an attractive venue for the distribution of other illegal substances and engagement in other illegal activity. Further negative impacts to communities include the accompanying noise, disruptive behavior, nuisance complaints, and other acts of violence and destruction resulting from unlicensed liquor sales. Considering the many dangers associated with liquor consumption, all liquor sales and manufacturing should be licensed and carefully monitored.

Your Committee additionally finds that the current classification of unlicensed manufacture or sale of liquor as a misdemeanor does little to deter this activity and provides little in the way of investigative tools available to police to combat this activity. This measure raises the offense of unlicensed sale of liquor from a misdemeanor to a class C felony to better reflect the seriousness of the offense and significantly strengthen the manner in which these offenses are addressed by law enforcement and in the courts.

Your Committee has amended this measure by:

- (1) Removing as unnecessary the affirmative defense for the unlicensed sale of liquor;
- (2) Adding the unlicensed manufacture of liquor to the list of offenses eligible for civil asset forfeiture; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 638, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 638, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Fevella).

# SCRep. 381 Commerce, Consumer Protection, and Health on S.B. No. 807

The purpose and intent of this measure is to:

- (1) Exempt health care providers from the requirement to consult the electronic prescription accountability system, commonly known as the prescription drug monitoring program or PDMP, when a patient is in an inpatient or hospital setting or in hospice care; and
- (2) Clarify that an informed consent agreement is not required for patients who lack capacity and are administered controlled substances under the supervision of a licensed health care provider.

Your Committee received testimony in support of this measure from the Department of Health, Department of Public Safety, Hawaii Health Systems Corporation, Healthcare Association of Hawaii, Hawaii Medical Association, Kaiser Permanente Hawaii, Hawaii Pacific Health, The Queen's Health Systems, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii.

Your Committee finds that the PDMP and informed consent for opioid therapy patients are useful tools to reduce the risk of abuse of or addiction to a controlled substance and prevent unintended drug interactions. However, as prescribers have begun implementing this law, some concerns have been raised about the applicability of the law to certain patient populations. Your Committee notes that in certain settings, such as in an in-patient or hospice setting when a patient is under direct supervision, the need to consult the PDMP is lessened, as compared to situations where a patient is prescribed a controlled substance in an unsupervised or outpatient setting. The need for an informed consent agreement is also reduced when a prescription is directly administered under supervision.

Your Committee further finds that clarifying PDMP and opioid informed consent requirements for inpatient, post-operative, incapacitated, hospice, and palliative care patients will create consistency for providers without compromising the effectiveness of the PDMP and opioid informed consent laws.

Your Committee has amended this measure by:

(1) Clarifying that the PDMP does not need to be consulted:

- (A) For a patient who is directly administered a drug under the supervision of a licensed health care provider; provided that the PDMP is consulted when the patient is initially admitted for inpatient care at a hospital;
- (B) When a patient is in post-operative care; provided that the prescription is limited to a three-day supply;
- (C) When a patient has a terminal disease and is receiving hospice or other palliative care; and
- (D) When a prescription is prescribed while the PDMP is nonfunctional; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 807, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 807, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 7. Noes, none. Excused, none.

#### SCRep. 382 Commerce, Consumer Protection, and Health on S.B. No. 1006

The purpose and intent of this measure is to:

- (1) Include certain spirits-based beverages in the definition of "cooler beverage"; and
- (2) Repeal the definition of "draft beer" to apply the same tax rate to all beer.

Your Committee received testimony in support of this measure from the Hawaiian Craft Brewers Guild; Maui Brewing Co.; Honolulu BeerWorks; Lanikai Brewing Company; Beer Lab Hawaii; Kaua'i Island Brewing Company, LLC; Kauai Beer Company; Waikiki Brewing Company; and REAL a gastropub/Bent Tail Brewing Company. Your Committee received testimony in opposition to this measure from the Hawai'i Alcohol Policy Alliance and eight individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that a cooler beverage is a mixed beverage containing primarily juice, water, or soda, with only a portion of liquor. There are several companies from the mainland exporting small volumes of cocktails and cooler beverages in cans or bottles to Hawaii. More individuals are showing an interest in developing distillery businesses if the economics were favorable, but Hawaii's existing tax laws create a significant disadvantage. This measure creates the category of "cooler beverage" for spirits, resulting in a tax on only the amount of the distilled spirit in the beverage. This measure also encourages local production and manufacturing and creates a new category of products for consumers, resulting in increased tax revenue.

Your Committee further finds that Hawaii's existing liquor tax law has two separate rates for beer, which is the only beverage with this disparity. The current definition of "draft beer" means beer in an individual container of seven gallons or more, referring to the size of the container from which the beer is dispensed. "Draft beer" is currently taxed at fifty-four cents per gallon, while "beer" is taxed at ninety-three cents per gallon. Some breweries, especially smaller craft breweries and those just starting their businesses, typically serve draft beer from two- to five-gallon kegs, meaning they are taxed at the higher rate. Hawaii is ranked in the top five in the United States for beer tax rates. Because of Hawaii's higher costs for shipping, raw materials, and equipment acquisition, local businesses are disadvantaged and struggle to compete with mainland companies. This measure repeals the definition of "draft beer" and creates a uniform tax rate for all beer at fifty-four cents per gallon.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2020; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1006, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1006, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Fevella).

## SCRep. 383 Transportation on S.B. No. 1344

The purpose and intent of this measure is to prohibit the imposition of restrictions on a person's ability to obtain or renew a driver's license or to register, renew the registration of, or transfer or receive title to a motor vehicle, as a consequence of unpaid monetary obligations. This measure does not affect driver's license suspensions related to excessive speeding or lack of motor vehicle insurance.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that existing law allows for the imposition of restrictions on an individual's ability to obtain or renew a driver's license or motor vehicle registration as a penalty for various unpaid monetary obligations that are civil and not criminal in nature. The most concerning reason for these punitive restrictions is the failure of an individual to pay the fines and fees assessed in connection with non-parking related traffic tickets within thirty days. Your Committee finds that the American Bar Association recently adopted guidelines on preventing fines and fees that penalize poverty. These guidelines instruct against driver's license suspensions and the imposition of fines. This measure will address the issue of currently penalizing poverty by prohibiting the imposition of restriction on a person's ability to obtain a driver's license due to unpaid monetary obligations.

Your Committee notes the concern of the Attorney General in regard to a potential conflict with federal law by repealing the Child Support Enforcement Agency's statutory authority to restrict the use of driver's license for enforcement purposes.

Accordingly, your Committee has amended this measure by:

- (1) Reinstating the provisions allowing the Child Support Enforcement Agency to certify that an individual is not in compliance with an order of support or has failed to comply with a subpoena or warrant relating to paternity or child support proceedings, thereby restricting the use of a driver's license and making conforming amendments throughout;
- (2) Deleting language that would have required the Attorney General to work with the counties to identify persons affected by the restrictions imposed by the Child Support Enforcement chapter of the Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1344, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1344, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

#### SCRep. 384 Transportation on S.B. No. 1517

The purpose and intent of this measure is to appropriate funds to the Department of Transportation to widen Kuakini Highway, between Lako Street and Kamehameha III Road on the island of Hawaii.

Your Committee received testimony in support of this measure from the Department of Transportation, Office of the Mayor of the County of Hawai'i, and one member of the Hawai'i County Council.

Your Committee finds that the island of Hawaii is experiencing a growth in population and as an effect, an increase in difficulties generated by a significant growth in traffic. One major area of traffic congestion is Kuakini Highway. Your Committee finds that the widening of Kuakini Highway is needed not only to provide additional safety measures, but also to update the road to provide greater efficiency and to ease the amount of traffic.

Your Committee has amended this measure by inserting an appropriation amount of \$30,000,000.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1517, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1517, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

## SCRep. 385 Transportation on S.B. No. 1279

The purpose and intent of this measure is to amend the mandatory inscription on civil identification cards.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the inscription on the Hawaii state identification card was erroneously produced to include "Hawaii Identification Card", rather than "State of Hawaii Identification Card", as required by statute. Your Committee further finds that there are numerous residents who are already carrying the cards made in error, and requiring the residents to go to the issuing county office for a corrected card would cause a great deal of inconvenience. This measure would address the error in printing by amending the existing law to say "Hawaii Identification Card".

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1279, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1279, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

# SCRep. 386 Transportation on S.B. No. 1122

The purpose and intent of this measure is to appropriate funds for traffic signal capital improvement projects at four specific intersections with no traffic signals in the Nuuanu area of the Pali Highway.

Your Committee received testimony in support of this measure from the Department of Transportation, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals.

Your Committee finds that pedestrian safety is a growing concern in Hawaii. In 2018, 43 pedestrians were killed in automobile accidents statewide, an increase from 28 pedestrians killed in 2017. According to the Insurance Institute of Highway Safety Loss Data Institute, 40 percent of all accidents involving pedestrians occur at a crosswalk with no traffic signal. Your Committee further finds that installing traffic signals that give pedestrians exclusive access to intersections reduces pedestrian accidents at intersections by half. This measure will ensure the safety of pedestrians in the Nuuanu area of the Pali Highway, by installing pedestrian-activated signalized crosswalks at four potentially dangerous crosswalks.

Your Committee has amended this measure by amending the authorized use of the sum appropriated to allow the funds to also be used for other related pedestrian improvements in the Nuuanu area.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1122, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1122, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (English).

#### SCRep. 387 Transportation on S.B. No. 1277

The purpose and intent of this measure is to amend the law relating to registration renewals and initial registrations of motor carrier vehicles of any motor carrier who has an outstanding federal out-of-service order.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the Department of Transportation's Motor Carrier Safety Assistance Program (MCSAP) is funded through a federal grant from the Federal Motor Carrier Safety Administration. Eligible activities of the MCSAP include commercial motor vehicle inspections and compliance reviews. The Performance Registration Information Systems Management (PRISM) is a federal program that identifies motor carriers that are under a federal out-of-service order because those motor carriers have not corrected safety deficiencies found in compliance review inspections. The Fixing America's Surface Transportation Act was passed in December of 2015, and made PRISM mandatory for all states as a condition of receiving MCSAP grant funding. This measure will allow the State to qualify under PRISM, and thus continue to receive MCSAP funding.

Your Committee has amended this measure by:

- (1) Inserting a definition for "out-of-service order" as provided by the Department of Transportation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1277, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1277, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (English).

### SCRep. 388 Transportation on S.B. No. 665

The purpose and intent of this measure is to define electric foot scooter and clarify that laws relating to bicycles in general also apply to electric foot scooters.

Your Committee received testimony in support of this measure from the Department of Transportation, Lime, and one individual.

Your Committee finds that the types of motorized vehicles that are being introduced in the market are very forward thinking and constantly being changed based on technology and ease of widespread adoption. Your Committee further finds that electric foot scooters are gaining popularity in the State, due to their convenience and positive impact on the environment. Your Committee believes that as new electric motorized vehicles, such as electric foot scooters, are introduced into the State, there should exist fair and just regulation of the vehicles to ensure the safety and viability for all.

Your Committee notes the concern of the Department of Transportation in regard to the potential negative impact on the safety for scooter riders, bicyclists, and pedestrians.

Accordingly, your Committee has amended this measure by requiring an operator of an electric foot scooter to be at least fourteen years of age.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 665, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 665, S.D. 1, and be referred to your Committees on Judiciary and Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

# SCRep. 389 Transportation on S.B. No. 1161

The purpose and intent of this measure is to:

- (1) Establish rules, regulations, and permitting procedures for transportation network companies operating in the State; and
- (2) Make permanent insurance requirements for transportation network companies and transportation network drivers.

Your Committee received testimony in support of this measure from the Department of Transportation; Uber Technologies, Inc.; and Lyft. Your Committee received comments on this measure from the Office of Information Practices, City and County of Honolulu Department of Customer Services, and Hawaii Insurers Council.

Your Committee finds that transportation network companies are entities that use a digital network or software application service to connect passengers with transportation network company drivers. Transportation network companies have gained an immense amount of popularity due to their convenience for the residents of the State. This service is being utilized by numerous individuals, both as

customers and as drivers. Your Committee further finds that statewide regulation of transportation network companies is needed to ensure the safety, reliability, and cost-effectiveness of rides provided by transportation network company drivers, as well as to preserve and enhance access to important transportation options for residents and visitors of the State.

Your Committee has amended this measure by:

- (1) Inserting a blank annual permit fee that the Director of Transportation is required to collect from an eligible transportation network company prior to the issuance of a permit;
- (2) Deleting language requiring transportation network companies to maintain certain records for three years and rather allow the current requirement of retention for five years to apply;
- (3) Clarifying language requiring the Department of Transportation to inspect and keep confidential certain records solely for the purpose of verifying that a transportation network company is in full compliance; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1161, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1161, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee. Ayes, 4; Ayes with Reservations (Harimoto). Noes, none. Excused, 1 (English).

#### SCRep. 390 Commerce, Consumer Protection, and Health on S.B. No. 104

The purpose and intent of this measure is to appropriate funds to support the Department of Health's lead poisoning prevention activities.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that lead exposure remains a widespread environmental hazard for children in Hawaii and can lead to increased risk of brain and nervous system damage, slowed growth and development, and learning, behavioral, hearing, and speech problems. While the Department of Health is working on childhood lead exposure reduction using federal funding, that funding ends in 2020 and can only be used for limited activities. This measure enables the Department of Health to continue its lead exposure abatement activities and helps ensure the health and development of children in Hawaii.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 104 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Nishihara).

# SCRep. 391 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 1036

The purpose and intent of this measure is to clarify that clinical victim support services for victims of sexual violence and abuse are a mental outpatient services benefit required to be covered under health insurance policies offered by health insurers, mutual benefit societies, fraternal benefit societies, and health maintenance organizations.

Your Committees received testimony in support of this measure from Hawai'i State Commission on the Status of Women, Hawai'i Psychological Association, Planned Parenthood Votes Northwest and Hawaii, LGBT Caucus of the Democratic Party of Hawai'i, American Association of University Women of Hawaii, Save Medicaid Hawaii, The Sex Abuse Treatment Center, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Midwives Alliance of Hawaii, Healthy Mothers Healthy Babies Coalition of Hawaii, Hawaii Women's Coalition, and eight individuals. Your Committees received testimony in opposition to this measure from the Hawaii Medical Services Association. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committees find that the federal Centers for Disease Control and Prevention estimate that 43.9 percent of women and 23.4 percent of men have experienced forms of sexual violence other than rape within their lifetime. Victims of sexual violence and abuse experience long lasting emotional and psychological effects; thirty-five to sixty-five percent of people experiencing sexual assault during adulthood are diagnosed with post-traumatic stress disorder. Furthermore, depressive orders, substance abuse disorders, and suicidal behaviors occur in this population at rates far exceeding the general population. Case management by mental health providers is recognized as a best practice that is medically necessary for some survivors to recover and heal.

However, health insurers have historically chosen not to provide coverage for appropriate clinical victim support services. Too often insurers piecemeal various treatments and services that a survivor needs following a traumatic assault, meaning survivors are required to explain their assault to strangers over and over again, becoming another source of trauma. This measure requires health insurers to cover clinical victim support services for sexual violence survivors when performed by their qualified mental health care provider, with whom they have an established patient relationship, in order to provide more comprehensive case management and to assist in recovery.

Finally, your Committees note that clinical victim support services are a medically necessary type of mental health outpatient services delivered in the normal course of planned treatment. As clinical victim support services fall within the existing definition of "mental health outpatient services", coverage for these types of services should already have been a covered benefit under existing law.

This measure protects this current best practice by clarifying that an existing covered benefits category -- mental health outpatient services -- includes clinical victim support services.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1036 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Fevella).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Ihara, Riviere).

# SCRep. 392 Technology on S.B. No. 253

The purpose and intent of this measure is to ensure that the Internet remains free and open in the State by:

- Requiring providers of broadband internet access services to be transparent with network management practices, performance, and commercial terms of their broadband internet access services; and
- (2) Prohibiting providers of broadband internet access services from:
  - (A) Blocking lawful websites;
  - (B) Impairing or degrading lawful internet traffic;
  - (C) Engaging in paid prioritization; or
  - (D) Unreasonably interfering with or unreasonably disadvantaging users of broadband internet access services.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received testimony in opposition to this measure from Charter Communications/Spectrum and CTIA. Your Committee received comments on this measure from the Department of the Attorney General and Hawaiian Telcom.

Your Committee finds that the recent Federal Communications Commission's ruling to repeal net neutrality deregulates the internet service industry, jeopardizing the future of access to websites and information, and creating an environment that could allow internet service providers the opportunity to limit or prioritize certain access to information at their discretion.

Your Committee has heard the concerns of the Department of the Attorney General and others that enactment of this measure may lead to litigation. In light of these and other concerns, your Committee has amended this measure by deleting its contents and inserting language to codify, within the Hawaii Public Procurement Code, the substantive provisions of Executive Order No. 18-02, which:

- (1) Directs all state agencies to contract internet-related services only with internet service providers who demonstrate and contractually agree to support and practice net neutrality principles where all internet traffic is treated equally;
- (2) Directs all state agencies, including the Department of Accounting and General Services and the State Procurement Office, as the lead procurement agency, to add contract language and provisions to state procurement requirements that suppliers of telecommunications, internet, broadband, and data communication services shall abide by net neutrality principles; and
- (3) Defines "net neutrality principles".

As affirmed by the record of votes of the members of your Committee on Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 253, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 253, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

# SCRep. 393 Technology on S.B. No. 1001

The purpose and intent of this measure is to establish within the Office of Enterprise Technology Services a Chief Data Officer and data task force to develop, implement, and manage statewide data policies, procedures, and standards.

Your Committee received testimony in support of this measure from the Department of Education, Office of Enterprise Technology Services, Office of Information Practices, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Transform Hawai'i Government, Civil Beat Law Center for the Public Interest, Ulupono Initiative, and two individuals.

Your Committee finds that data held by state agencies must be readily available to other state agencies, unless expressly prohibited by law or applicable regulatory requirement, with minimal administrative obstacles to enable effective, efficient, and transparent delivery of information resources and services. Your Committee further finds that it is equally vital that agencies make reasonable efforts to make data accessible to the public, because such data can inform public policy, stimulate innovation, encourage public engagement, and enhance transparency within the State.

Your Committee has amended this measure by:

- (1) Removing the member of the House of Representatives and member of the Senate from the membership of the task force;
- (2) Requiring the task force membership to include two members of the public representing stakeholders with experience in data, rather than two members representing non-profit stakeholders and two members representing for-profit stakeholders;

- (3) Designating the Director of the Office of Information Practices or the Director's designee as an ex officio, nonvoting member of the task force who is not counted toward quorum; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1001, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1001, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

# SCRep. 394 Water and Land on S.B. No. 1136

The purpose and intent of this measure is to prohibit scuba spearfishing at night, except through a permit.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i Reef and Ocean Coalition, Animal Rights Hawai'i, Friends of Hanauma Bay, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Center for Biological Diversity, and ten individuals. Your Committee received testimony in opposition to this measure from Coral Fish Hawaii and three individuals.

Your Committee finds that night scuba spearfishing could potentially deplete the ocean of aquatic life, which is necessary for the preservation of Hawaii's ocean environment and coral reefs. Many reef fish species, particularly herbivores such as parrotfish and surgeonfish, sleep in crevices in the reef at night. While enough of these fish can effectively evade spearfishers during the day, they are easy targets at night and are therefore susceptible to over-harvest, particularly with the use of scuba. This measure seeks to protect the State's environment, aquatic species, and fishing stocks for present and future generations.

Your Committee has amended this measure by:

- Statutorily placing the prohibition on nighttime scuba spearfishing, except through a permit, in a new section in chapter 188, Hawaii Revised Statutes, rather than in section 188-23, Hawaii Revised Statutes;
- (2) Authorizing the Department of Land and Natural Resources to issue and revoke permits for nighttime scuba spearfishing;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1136, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1136, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

# SCRep. 395 Water and Land on S.B. No. 1371

The purpose and intent of this measure is to prohibit the use of lay nets to take aquatic life, except under a permit obtained from the Department of Land and Natural Resources, and establish the use of lay nets to take aquatic life without a permit as a misdemeanor offense with a mandatory minimum period of imprisonment of one day.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Animal Rights Hawai'i, Center for Biological Diversity, Hawaii Marine Animal Response, Coral Fish Hawaii, and eleven individuals. Your Committee received testimony in opposition to this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and two individuals. Your Committee received comments on this measure from Office of Hawaiian Affairs and one individual.

Your Committee finds that although lay nets are not currently regulated under the Hawaii Revised Statutes, the Division of Aquatic Resources does enforce Hawaii Administrative Rules governing lay nets, including net registration and marking, limits on dimensions, and time and location restrictions. This measure would allow for permit holders to continue using lay nets as regulated by the Department of Land and Natural Resources, while establishing strong penalties for violators.

Your Committee has amended this measure by:

- (1) Inserting language to exempt native Hawaiian traditional and customary practices from the lay net prohibition and permit requirements;
- (2) Amending the penalty for the misdemeanor offense of using a lay net to take aquatic life without a permit a mandatory minimum period of imprisonment of one day or, for a first offense, a minimum fine of \$1,000;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1371, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1371, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

# SCRep. 396 (Joint) Public Safety, Intergovernmental, and Military Affairs and Labor, Culture and the Arts on S.B. No. 149

The purpose and intent of this measure is to:

- (1) Authorize the State Fire Council to employ additional staff, contract with any county fire department to fulfill staff positions, and purchase office equipment and supplies; and
- (2) Repeal the requirement that the State Fire Council Administrator and other staff be employed on a full-time basis.

Your Committees received testimony in support of this measure from the Hawaii State Fire Council, Hawaii Fire Department of the County of Hawaii, Honolulu Fire Department, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Kauaii Fire Department, and Maui Fire Department.

Your Committees find that the State Fire Council is composed of the four county fire chiefs and is responsible for a variety of tasks, including adopting the state fire code, applying for and administering federal grant assistance for fire-related projects, appointing advisory committees to coordinate statewide training, data collection, and contingency planning needs for firefighters; advising the Governor and Legislature with respect to fire protection and life safety; and establishing qualifications for the testing and certification of individuals who perform maintenance and testing of portable fire extinguishers, fire protection and fire alarm systems, and private fire hydrants. This measure provides the State Fire Council with greater flexibility in employing personnel and the authority to expend funds for the purchase of office equipment and supplies.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Labor, Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 149, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 149, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

Labor, Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

# SCRep. 397 (Joint) Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health on S.B. No. 607

The purpose and intent of this measure is to authorize crime victim compensation for mental health services for surviving relatives in cases involving a deceased victim and for children who witness domestic violence in cases involving abuse of a family or household member.

Your Committees received testimony in support of this measure from the Department of Public Safety, Department of Health, Crime Victim Compensation Commission, Hawai'i Psychological Association, Kapi'olani Sex Abuse Treatment Center, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Mental Health America of Hawai'i, Hawaii State Coalition Against Domestic Violence, AAUW of Hawaii, and two individuals.

Your Committees find that surviving family members are profoundly impacted by the sometimes violent circumstances under which their loved one died. Often, survivors recall only the painful and violent details of their loved one's death instead of recalling pleasant memories while the victim was alive. Furthermore, witnessing domestic violence has a negative impact on children.

Your Committees further find that mental health counseling will help survivors move past their trauma. Additionally, mental health counseling for children who witness domestic violence is necessary to help them understand and heal from the trauma of what they witnessed and is vital to ensure their normal development.

Your Committees have amended this measure by:

- Clarifying that crime victim compensation is authorized for mental health services for child witnesses of abuse of a family member or household member; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 607, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 607, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Commerce, Consumer Protection, and Health: Ayes, 7. Noes, none. Excused, none.

# SCRep. 398 (Joint) Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health on S.B. No. 1293

The purpose and intent of this measure is to ensure that in times of emergencies or natural disasters, the State and electrical utilities in the State are allowed to enter into a mutual assistance agreement with an out of state utility to assist in the restoration of electrical power.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Hawaiian Electric Companies, Land Use Research Foundation of Hawaii, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, and one individual. Your Committees received comments on this measure from Hawaiʻi Gas.

Your Committees find that natural disasters and powerful storms are increasing in frequency due to climate change. Your Committees further find that an emergency or natural disaster may cause overwhelming damage to the electrical grid, on which most of Hawaii depends for electricity. Mutual assistance agreements are agreements between public electric and gas utilities that allow utilities in one state to provide assistance to utilities in another state to help restore utilities following emergencies and disasters. Your Committees find that mutual assistance agreements are one important mechanism that the Legislature should adopt because these mutual assistance agreements will help speed up the restoration of utility service to customers across the State.

Your Committees note that all Hawaii-based public utility providers are members of the Western Region Mutual Assistance Agreement and that emergencies and natural disasters may affect the provision of all sources of energy and utility service, not just electrical and non-renewable energy sources. Therefore, your Committees find that amendments to this measure are necessary to authorize the State and all public utilities in the State to enter into mutual assistance agreements with out of state utilities to assist in the restoration of all energy and utility services.

Your Committees have amended this measure by:

- Expanding the permissible entities with which the State may enter into a mutual assistance agreement to include all energy
  providers and utilities and making conforming amendments; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1293, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1293, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Commerce, Consumer Protection, and Health: Ayes, 7. Noes, none. Excused, none.

# SCRep. 399 (Joint) Public Safety, Intergovernmental, and Military Affairs and Housing on S.B. No. 740

The purpose and intent of this measure is to require each county to adopt ordinances establishing a minimum housing density of two hundred fifty units per acre on state lands that are within the urban district and zoned for development or redevelopment.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received testimony in opposition to this measure from the City and County of Honolulu Department of Planning and Permitting. Your Committees received comments on this measure from the Building Industry Association of Hawaii.

Your Committees find that not only is there is a lack of available, affordable housing in Hawaii, but there is also a limited amount of space that housing can be developed on the islands. Your Committees further find that setting minimum housing density requirements on parcels in the urban district that are zoned for development or redevelopment is in the best interests of the State.

Your Committees additionally find that a minimum standard of two hundred fifty units per acre can help increase the amount of available, and potentially affordable, housing; provided that some exceptions should be allowed in cases where the developer cannot build that density due to the location or size of certain parcels, or if development at that density is cost-prohibitive.

Your Committees have amended this measure by exempting developers who cannot meet the minimum density requirement of two hundred fifty units per acre due to the location or size of the parcel, or if it is uneconomical to meet this minimum requirement.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 740, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 740, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Wakai).

Housing: Ayes, 3; Ayes with Reservations (Moriwaki). Noes, none. Excused, 2 (Thielen, Fevella).

# SCRep. 400 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary on S.B. No. 177

The purpose and intent of this measure is to appropriate funds to the Department of the Prosecuting Attorney of the City and County of Honolulu for the career criminal prosecution unit.

Your Committees received testimony in support of this measure from the Department of the Attorney General, Department of the Prosecuting Attorney of the City and County of Honolulu, and Office of the Prosecuting Attorney for Hawaii County.

Your Committees find that a disproportionate number of serious crimes against the public are committed by a relatively small number of multiple and repeat-felony offenders, commonly known as "career criminals". Your Committees further find that by their nature, career criminal prosecution cases are often labor intensive and require experienced and well-trained deputy prosecutors. This measure appropriates funds to staff the career criminal prosecution unit so that the prosecution of career criminals can be more effectively pursued.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 177 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Fevella). Judiciary: Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

#### SCRep. 401 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary on S.B. No. 407

The purpose and intent of this measure is to appropriate funds to the Office of the Prosecuting Attorney for Hawaii County for the career criminal prosecution unit.

Your Committees received testimony in support of this measure from the Department of the Attorney General, Office of the Prosecuting Attorney for Hawaii County, and Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committees find that a disproportionate number of serious crimes against the public are committed by a relatively small number of multiple and repeat-felony offenders, commonly known as "career criminals". Your Committees further find that by their nature, career criminal prosecution cases are often labor intensive and require experienced and well-trained deputy prosecutors. This measure appropriates funds to staff the career criminal prosecution unit so that the prosecution of career criminals can be more effectively pursued.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 407 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Judiciary: Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

# SCRep. 402 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 529

The purpose and intent of this measure is to establish within the Department of Human Services and Department of Health a two-year pilot project authorizing each department to contract the services of a dedicated capture manager responsible for securing grants and other funding opportunities.

Your Committees received testimony in support of this measure from the Hawai'i Primary Care Association. Your Committees received comments on this measure from the Department of Human Services and Department of Health.

Your Committees find that there are many opportunities for securing grants from both public and private sources that could be used to support the health and well-being of individuals, families, and communities in the State. However, your Committees acknowledge that applying for grants can be time-consuming and complex and that failure to accurately interpret the details of grant requirements may lead to problematic compliance issues, all of which can result in the diversion of valuable department resources. This measure authorizes the Department of Human Services and Department of Health to contract with a dedicated individual responsible for securing grant and other funding opportunities for each department, which will benefit the departments and the recipients they serve.

Your Committees have amended this measure by:

- Authorizing the Department of Health and Department of Human Services to establish one three-year full-time temporary
  exempt position each, who shall be responsible for supporting awarded grants, developing internal capacity, and developing a
  sustainability plan for a grant development program;
- (2) Inserting a blank appropriation to the Department of Health and Department of Human Services for purposes of establishing the full-time temporary exempt position;
- (3) Clarifying that the appropriations included in this measure shall not lapse at the fiscal biennium but that all unencumbered monies shall lapse as of June 30, 2022;
- (4) Extending the measure's repeal date from June 30, 2021, to June 30, 2022, to accommodate the three-year full time temporary exempt position; and
- (5) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 529, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 529, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Fevella).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Ihara, Riviere).

### SCRep. 403 (Joint) Education and Transportation on S.B. No. 939

The purpose and intent of this measure is to require student transportation costs for charter school students to be included in the Department of Budget and Finance's annual budget request rather than including it in the per-pupil funding amount.

Your Committees received testimony in support of this measure from the State Public Charter School Commission, Hawaii State Teachers Association, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that half of the approximately thirty-six operating charter schools provide student transportation services at various levels, including pick-up to and from school and transportation to outdoor learning experiences and laboratories. Although charter schools receive per-pupil funding to cover various educational costs, charter schools are additionally required to fund student transportation, which results in less funding available for school resources. This measure assists charter schools by providing much needed assistance to ensure that students have access to educational opportunities.

Your Committees have amended this measure by specifying that the State Public Charter School Commission shall determine the qualifications for school transportation and any fee or payment for students.

As affirmed by the records of votes of the members of your Committees on Education and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 939, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 939, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

Transportation: Ayes, 4; Ayes with Reservations (Harimoto). Noes, none. Excused, 1 (English).

# SCRep. 404 Water and Land on S.B. No. 554

The purpose and intent of this measure is to:

- Add a minimum penalty of \$50 per violation of the state water code and make each day that a violation exists or continues a separate offense; and
- (2) Require the Commission on Water Resource Management to determine the amount of the penalty based on the circumstances of the violation.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that the state water code's penalties and fines must be strengthened to deter violators. This measure ensures that all violators of the state water code are held accountable by creating a minimum penalty of \$50 for every violation.

Your Committee has amended this measure by:

- (1) Clarifying what actions qualify as state water code violations and subject a person to penalties;
- (2) Deleting provisions relating to determination of the earliest known date of a violation;
- (3) Deleting language that would have required the Commission on Water Resources Management to consider the violator's ability to pay when determining the penalty amount;
- (4) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 554, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 554, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

# SCRep. 405 (Joint) Agriculture and Environment and Judiciary on S.B. No. 754

The purpose and intent of this measure is to enact produce safety rules to authorize state Department of Agriculture inspectors to inspect and regulate farms producing food in the State to increase food safety.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that the federal Food and Drug Administration Standards for the Growing, Harvesting, Packing, and Holding of Produce for Human Consumption establishes produce safety rules to allow for inspection and regulation of farms producing food for consumers. These produce safety rules include inspecting food on farms, which are also known as on-farm audits.

Your Committees further find that the State needs to implement certain provisions of these federal safety standards and that the Department of Agriculture should be the state agency to implement these federal standards, including on-farm audits.

Your Committees have amended this measure by:

- Authorizing, rather than requiring, the Board of Agriculture to adopt rules pursuant to chapter 91, Hawaii Revised Statutes, to carry out this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 754, as amended herein, and recommend

that it pass Second Reading in the form attached hereto as S.B. No. 754, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Judiciary: Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

# SCRep. 406 (Joint) Agriculture and Environment and Technology on S.B. No. 1436

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to conduct a study on the feasibility of authorizing the Department to establish and designate ag-tech zones within the City and County of Honolulu, specifically the Kalihi-Palama, Kaka'ako, Moanalua, and Waianae coast areas; and
- (2) Appropriate funds for the feasibility study.

Your Committees received testimony in support of this measure from the University of Hawaii College of Tropical Agriculture and Human Resources, Hawai'i Center for Food Safety, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, MetroGrow Hawaii, Hawaii Farmers Union, and three individuals. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that agricultural technology, or ag-tech, is the application of techniques to control the growth and harvesting of vegetable products. Ag-tech includes but is not limited to the use of robotics, indoor farming techniques, and vertical farming. Your Committees further find that farming in a closed and controlled environment to grow produce in vertically stacked layers reduces the need for space, pesticides, and water to grow food.

Your Committees additionally find that the State must explore more effective and environmentally responsible ways to increase food production to feed its residents. Ag-tech should be at the forefront of the effort to revitalize the agricultural sector of the State and develop that industry's potential to be a major contributor to state revenue.

Your Committees have amended this measure by:

- (1) Inserting an appropriation amount of \$50,000 for each fiscal year; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1436, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1436, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Technology: Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

# SCRep. 407 Labor, Culture and the Arts on S.B. No. 791

The purpose and intent of this measure is to allow hearsay evidence to be admitted and considered in unfair labor practices proceedings.

Your Committee received testimony in support of this measure from the Hawaii Labor Relations Board.

Your Committee finds that the Hawaii Labor Relations Board hears cases involving unfair labor practices. Under the existing law, the Hawaii Labor Relations Board is not allowed to consider hearsay evidence in unfair labor practices proceedings. Your Committee also finds that although there are concerns that hearsay evidence, if allowed, could lead to less than reliable evidence being considered, the Hawaii Labor Relations Board is able to consider all the evidence presented in its deliberation and assign the evidence the proper weight. This measure will provide the Hawaii Labor Relations Board with that opportunity and allow it to consider all of the evidence in its decision-making process.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 791 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 408 Labor, Culture and the Arts on S.B. No. 1118

The purpose and intent of this measure is to:

- (1) Authorize the Employees' Retirement System to recover overpaid benefit payments;
- (2) Require the Employees' Retirement System to adopt rules to effectuate the maximum recovery of overpayments; and
- (3) Allow the Board of Trustees or the Executive Director of the Employees' Retirement System to waive the recovery of an overpayment in cases of bona fide hardship or where the costs of recovery would exceed the amount expected to be recovered.

Your Committee received comments on this measure from the Employees' Retirement System.

Your Committee finds that existing law is not clear regarding the Employees' Retirement System's ability to recover overpaid benefit payments. This measure will strengthen the Employees' Retirement System's ability to recover overpaid benefit payments by declaring overpayments to be debts due and owing to the Employees' Retirement System and clarifying that overpayments are legally collectable. This measure will facilitate rulemaking for maximum recovery, the filing of legal collection actions and liens against real property of overpaid recipients, and the filing of claims against the estate of deceased recipients.

Your Committee has amended this measure by:

- (1) Inserting language proposed by the Employees' Retirement System to clarify that in addition to the remedies prescribed elsewhere in chapter 88, Hawaii Revised Statutes, for the recovery of benefits, recovery of an overpayment shall be made in accordance with applicable state law as well as federal regulations;
- Inserting language proposed by the Employees' Retirement System to clarify that the Employees' Retirement System need only adopt rules pursuant to chapter 91, Hawaii Revised Statutes, as may be necessary to effectuate the maximum recovery of retirement benefit overpayments;
- (3) Inserting an effective date of January 1, 2051, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1118, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1118, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

# Labor, Culture and the Arts on S.B. No. 1233

The purpose and intent of this measure is to allow participants in the state deferred compensation plan to make pre-tax and post-tax contributions.

Your Committee received testimony in support of this measure from the Department of Human Resources Development.

Your Committee finds that on January 1, 2011, the federal Small Business Jobs Act of 2010 took effect, which expanded the availability of Roth contribution provisions to deferred government compensation plans under section 457(b) of the Internal Revenue Code. Your Committee further finds that while federal law permits Roth contributions to deferred compensation plans, such contributions are prohibited under state law in Hawaii. This measure allows participants in a deferred compensation plan under Hawaii law to choose whether their deferred compensation amounts are deferred as a traditional contribution under section 457(b) of the Internal Revenue Code, as a Roth contribution, or divided between the two.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1233, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1233, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

#### SCRep. 410 Labor, Culture and the Arts on S.B. No. 1475

The purpose and intent of this measure is to require that the foreman classification be recognized in Hawaii's Davis-Bacon Act and the requirements in the collective bargaining agreement be followed when the basic hourly rate is established by a collective bargaining agreement.

Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that under existing law, the foreman classification is not recognized under Hawaii's Davis-Bacon Act. Therefore, a foreman is not covered under a collective bargaining agreement when the agreement establishes the hourly rate. This measure therefore requires that the foreman classification is covered under a collective bargaining agreement, which will provide wage protections for the foreman classification and guarantee a level playing field for foremen when working on a public works project.

Your Committee has amended this measure by:

- (1) Adopting language suggested by the Department of Labor and Industrial Relations to add a gender-neutral definition of "foreperson" to section 104-2, Hawaii Revised Statutes;
- (2) Inserting an effective date of January 1, 2051, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1475, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1475, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 411 Transportation on S.B. No. 412

The purpose and intent of this measure is to:

- (1) Make voter registration automatic upon an application for a new or renewed driver's license, provisional license, instructional permit, or identification card, unless the applicant declines to be registered; and
- (2) Authorize access to and electronic transmission of databases maintained by the counties or Department of Transportation to election officials and the statewide voter registration system.

Your Committee received testimony in support of this measure from the Department of Transportation; Office of Elections; League of Women Voters; LGBT Caucus of the Democratic Party of Hawaii; Sierra Club of Hawaii; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaii Alliance of Nonprofit Organizations; Hawaii Appleseed Center for Law and Economic Justice; We Are One, Inc.; Young Progressives Demanding Action; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; 'Ai Pohaku; sixty-seven individuals; and a form letter from thirty-seven individuals.

Your Committee finds that voter registration and participation are important components of a healthy democracy and steps should be taken to maximize registration and participation. Your Committee further finds that Hawaii has one of the lowest voter turnout rates in the nation. The State has made efforts to simplify registration procedures by allowing residents to register on the same day as the election. However, despite these efforts, voter participation remains low. Your Committee believes that this measure will eliminate barriers to voting and improve voter turnout by increasing opportunities for residents of Hawaii to register to vote.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 412, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 412, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 412 Transportation on S.B. No. 1091

The purpose and intent of this measure is to appropriate or authorize funds or amend means of financing for various capital improvement projects of the Department of Transportation, Highways Division.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that this measure expresses adjustments to the projects funded, maximum sums appropriated or authorized, or means of financing indicated for the Department of Transportation, Highways Division in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- (1) Upon recommendation by the Department of Transportation, clarifying certain projects and providing additional capital improvement projects specifically requested by the Department; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Transportation that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1091, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1091, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Harimoto, Shimabukuro).

# SCRep. 413 (Joint) Transportation and Energy, Economic Development, and Tourism on S.B. No. 653

The purpose and intent of this measure is to require certain new state and county building construction projects to have at least twenty parking stalls that are electric vehicle charger ready.

Your Committees received testimony in support of this measure from the Department of Transportation; ChargePoint, Inc.; Tesla; Hawaiian Electric Company Inc.; Blue Planet Foundation; Ulupono Initiative; Our Revolution Hawaii; 350Hawaii.org; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi; and eleven individuals. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Accounting and General Services; and City and County of Honolulu Department of Design and Construction.

Your Committees find that electric vehicles are an important avenue to address Hawaii's pressing climate issues. Your Committees further find that Hawaii is committed to reducing its dependence on fossil fuels, and that encouraging the purchase and use of electric vehicles by providing incentives will achieve this goal. This measure expands charging options for residents who drive electric vehicles and incentivizes the purchase of electric vehicles by others.

Your Committees have amended this measure by:

- Requiring new state and county building construction to dedicate at least twenty percent of its total projected amount of
  parking stalls to be electric vehicle charger ready; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 653, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 653, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 414 (Joint) Transportation and Energy, Economic Development, and Tourism on S.B. No. 996

The purpose and intent of this measure is to:

- (1) Require rental motor vehicle lessors to incorporate zero-emission vehicles into their fleets; and
- (2) Establish a Hawaii zero-emissions vehicle infrastructure special fund and grant program.

Your Committees received testimony in support of this measure from ChargePoint, Inc.; Hawaiian Electric Company Inc.; Blue Planet Foundation; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi; Our Revolution Hawaii; 350Hawaii.org; and one individual. Your Committees received testimony in opposition to this measure from the Department of Transportation and Enterprise Holdings. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that climate change caused by greenhouse gas emissions from burning fossil fuels poses a serious threat to the economic well-being, public health, natural resources, and environment of Hawaii. Your Committees further find that the predominance of the rental car market in Hawaii makes it a key sector to target for emissions reductions in order for Hawaii to be carbon free by 2045. Your Committees also find that the volume and model types of battery electric vehicles coming into the market are expected to dramatically increase in the next five to seven years. This measure will move Hawaii toward being a carbon-free state by requiring lessors of motor vehicles to incorporate zero-emission vehicles into their fleet.

Your Committees have amended this measure by extending the dates of when lessors of rental motor vehicles shall be required to incorporate zero-emission vehicles into their fleets.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 996, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 996, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 4. Noes, none. Excused, 1 (English).

Energy, Economic Development, and Tourism: Ayes, 5; Ayes with Reservations (Taniguchi). Noes, none. Excused, none.

# SCRep. 415 (Joint) Transportation and Energy, Economic Development, and Tourism on S.B. No. 657

The purpose and intent of this measure is to extend the repeal date of Act 168, Regular Session of 2012, from June 30, 2020, to June 30, 2030.

Your Committees received testimony in support of this measure from the Department of Transportation; Ulupono Initiative; ChargePoint, Inc.; Alliance of Automobile Manufacturers; Hawaiian Electric Company Inc.; Blue Planet Foundation; Hawaii Automobile Dealers' Association; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and seventeen individuals. Your Committees received comments on this measure from Tesla.

Your Committees find that providing drivers of electric vehicles with the benefit of free parking at certain public spaces is an incentive to use electric vehicles, thereby reducing consumption of imported fossil fuel. Your Committees further find that electric vehicles are becoming more popular amongst drivers in Hawaii due to financial incentives and the positive impact on the environment. Your Committees also find that while providing incentives to electric vehicles, there needs to be a balance between providing incentives and maintaining equity with those taxpayers who do not drive electric vehicles. As such, your Committees note that Act 168, Session Laws of Hawaii 2012, should be further amended to apply nominal parking fees to electric vehicles in public parking facilities after a certain time period.

Accordingly, your Committees have amended this measure by requiring electric vehicles to pay for parking when parked at a non-metered stall for more than the initial four hours in a public parking facility.

As affirmed by the records of votes of the members of your Committees on Transportation and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 657, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 657, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 4; Ayes with Reservations (Shimabukuro). Noes, none. Excused, 1 (English).

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

### SCRep. 416 (Joint) Agriculture and Environment and Higher Education on S.B. No. 752

The purpose and intent of this measure is to appropriate funds to the University of Hawaii College of Tropical Agriculture and Human Resources for research and prevention of the spread of ornamental ginger pathogens.

Your Committees received testimony in support of this measure from the Department of Agriculture; University of Hawai'i System; Hawai'i Floriculture and Nursery Association; Maui County Farm Bureau; Land Use Research Foundation of Hawaii; Hawaii Crop Improvement Association; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Green Point Nurseries, Inc.; Hawaii Farm Bureau; Hawaii Tropical Flower Council; Hilo Sun Farms; Sweetbreads, LLC; O'ahu Resource Conservation and Development Council; Orchid Growers of Hawai'i; Ho'omana Plantations LLC; and seventy-nine individuals.

Your Committees find that ornamental ginger is a popular plant that is commonly used in tropical landscape designs. The plant's red and pink floral brackets are often used as an ornamental cut flower in floral arrangements seen everywhere from Waikiki hotel lobbies to cemeteries across the State. Because of emerging plant viruses, commercial production of ornamental ginger has been on the decline for the past ten years on Oahu.

Your Committees further find that in 2018, University of Hawaii College of Tropical Agriculture and Human Resources personnel met with Department of Agriculture officials and found that more diagnostic work and statewide survey information are needed to better understand the effects of the pathogens on crop decline and plant death. This measure provides support to the University of Hawaii College of Tropical Agriculture and Human Resources to further investigate these pathogens that could quickly spread statewide and affect the profitability and long-term sustainability of local ornamental and landscape production industries.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 752 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Thielen). Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kahele).

#### SCRep. 417 Judiciary on S.B. No. 958

The purpose and intent of this measure is to:

- (1) Require the Chief Election Officer, with assistance from the county clerks for elections involving county offices and countywide ballot issues, to publish and distribute a voters' pamphlet; and
- (2) Appropriate monies to allow the Chief Elections Officer to produce and distribute a voters' pamphlet for each election.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii, one member of the Maui County Council, and one individual. Your Committee received comments on this measure from the Office of Elections.

Your Committee finds that all states make an effort to inform the electorate about upcoming elections, where and when the elections will be held, and how to cast a vote. Your Committee further finds that some states publish and distribute voters' pamphlets to registered voters that contain valuable information such as candidate information, judicial performance reviews, descriptions of elected offices, or background information on constitutional amendments or ballot measures. Your Committee additionally finds that, although this information is useful to voters, the costs of producing and distributing physical pamphlets are prohibitive. Publishing the voters' pamphlet online and distributing postcards informing voters of the pamphlet's website address is an effective and efficient way to provide voters with this resource.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the Chief Election Officer to post the voters' pamphlet on the Office of Elections' public website instead of distributing physical copies of the pamphlet;
- (2) Requiring the Chief Election Officer to distribute postcards notifying voters of the website address of the online voters' pamphlet; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 958, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 958, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

# SCRep. 418 Judiciary on S.B. No. 1462

The purpose and intent of this measure is to appropriate funds for two full-time equivalent positions, operating costs, and equipment to support the Attorney General's Hawaii Criminal Justice Data Center in administering the address confidentiality program.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Hawaii State Commission on the Status of Women, Department of the Prosecuting Attorney of the City and County of Honolulu, Domestic Violence Action Center, Hawaii State Coalition Against Domestic Violence, AAUW of Hawaii, Hawaii Women's Coalition, Midwives Alliance of Hawaii, Parents and Children Together, The Sex Abuse Treatment Center, and three individuals.

Your Committee finds that the address confidentiality program provides survivors of domestic abuse, sexual offense, or stalking with a substitute address to be used by state and local government agencies instead of their physical address. Your Committee further

finds that the substitute address may be used whenever an address is required for public records, and that mail received at the substitute address may be forwarded to the survivor's actual address. Your Committee additionally finds that, although the Hawaii Criminal Justice Center is preparing to implement an address confidentiality program, no monies have been allocated to support it. This measure will appropriate monies necessary to implement the address confidentiality program.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1462, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1462, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 419 (Joint) Energy, Economic Development, and Tourism and Technology on S.B. No. 125

The purpose and intent of this measure is to appropriate or authorize funds or amend means of financing for various capital improvement projects of the Department of Business, Economic Development, and Tourism.

Your Committees received testimony in support of this measure from the Hawaii Technology Development Corporation. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committees find that this measure expresses adjustments to the projects funded, maximum sums appropriated or authorized, or means of financing indicated for the Department of Business, Economic Development, and Tourism in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committees' intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committees request your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 125 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Fevella).

Technology: Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

# SCRep. 420 Energy, Economic Development, and Tourism on S.B. No. 382

The purpose and intent of this measure is to update the formula for the transient accommodations tax collected from time shares by increasing the fair market rental value base on which a time share is taxed from fifty percent to an unspecified percent of the gross daily maintenance fees paid by the owner of the time share and attributable to the time share unit.

Your Committee received testimony in support of this measure from one member of the Maui County Council. Your Committee received testimony in opposition to this measure from the American Resort Development Association Hawai'i; Marriott Vacations Worldwide Corporation; Maui Hotel & Lodging Association; and Soleil Management Hawaii, LLC. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the tax formula for levying taxes on time share units has not been adjusted since the State began taxing time shares in 1998. The formula should be updated to better reflect economic and industry changes that have occurred since 1998. This measure updates the base of the transient accommodations tax by amending the definition of "fair market rental value" from fifty percent to an unspecified percentage of the gross daily maintenance fees, with the intent of ultimately establishing a more accurate tax assessment rate.

Your Committee has amended this measure by:

- (1) Changing the effective date to January 1, 2020; and
- (2) Making a technical, nonsubstantive amendment for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 382, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 382, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Inouye, Fevella).

# SCRep. 421 Energy, Economic Development, and Tourism on S.B. No. 1348

The purpose and intent of this measure is to clarify the intent of the Small Business Regulatory Review Board's powers when reviewing state and county administrative rules that impact small business.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Small Business Regulatory Review Board; and Maui Chamber of Commerce. Your Committee received comments on this measure from the Hawai'i Farm Bureau.

Your Committee finds that it is important that the Small Business Regulatory Review Board's purview is clearly understood by the small business community, state and county agencies, and Hawaii business chambers and trade organizations. This measure will clarify the Board's powers to avoid any misinterpretations, which have occasionally occurred in the past.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1348 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 422 Energy, Economic Development, and Tourism on S.B. No. 1459

The purpose and intent of this measure is to establish the State Commission on Surfing.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and three individuals. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that surfing has a strong cultural connection to Hawaii and not enough is being done to promote Hawaii's historic and cultural influence on surfing. This measure establishes a State Commission on Surfing to promote surfing and educate people worldwide about Hawaii's cultural connection to the sport.

Your Committee has amended this measure by:

- (1) Moving the administrative placement of the State Commission on Surfing from the Department of Commerce and Consumer Affairs to the Office of the Lieutenant Governor;
- (2) Amending the membership of the Commission by:
  - (A) Removing the Comptroller;
  - (B) Amending the selection of members from the Hawaiian community;
  - (C) Requiring the Governor to appoint members so as to ensure gender parity in the composition of the Commission as a whole; and
  - (D) Adding one voting member to be designated by the World Surfing League; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1459, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1459, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 423 (Joint) Education and Human Services on S.B. No. 383

The purpose and intent of this measure is to require the Board of Education to establish and implement youth suicide awareness and prevention training programs and risk referral protocols in public schools, including charter schools.

Your Committees received testimony in support of this measure from the Board of Education, County of Hawaii Office of the Mayor, one member from the Hawaii County Council, Mental Health America of Hawaiii, Hawaii Family Forum, Hawaii Youth Services Network, Hawaii State Teachers Association, Hawaiii Psychological Association, LGBT Caucus of the Democratic Party of Hawaiii, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiii, Keiki Injury Prevention Coalition, and thirteen individuals.

Your Committees find that Hawaii has very high rates of suicide, suicide attempts, and suicidal ideation amongst various age groups, particularly among youth. Youth suicide is often connected to bullying, harassment, and discrimination in schools. Therefore, it is critical for the State to provide the proper training and system protocols to ensure safe learning environments that support the educational, emotional, and physical well-being of all students.

Your Committees have amended this measure by:

- (1) Specifying that all Department of Education school personnel who work directly with students shall be offered, rather than required to complete, youth suicide awareness and prevention training on an annual basis;
- (2) Specifying that by September 15 of each year, each complex area and charter school shall report to the Department of Education on the prior school year training prevention activities completed, rather than on compliance with mandatory training requirements; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 383, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 383, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chairs on behalf of the Committees. Education: Ayes, 4. Noes, none. Excused, 1 (Fevella). Human Services: Ayes, 3. Noes, none. Excused, 2 (Riviere, Fevella).

### SCRep. 424 (Joint) Education and Government Operations on S.B. No. 856

The purpose and intent of this measure is to require the Auditor to perform a financial and management audit of the Department of Education, Superintendent of Education, Board of Education, and complex areas every three years.

Your Committees received testimony in support of this measure from the Chamber of Commerce Hawaii, Maui Chamber of Commerce, and one individual. Your Committees received testimony in opposition to this measure from the Hawaii State Teachers Association. Your Committees received comments on this measure from the Department of Education and Office of the Auditor.

Your Committees find that there is a greater need for fiscal transparency of the Department of Education. For example, with a reported backlog of over \$800,000,000 for repair and maintenance projects, an audit of the Department of Education every three years would allow the State and public to see what progress is being made and how monies are being used. While there are audits and reviews of certain processes in various Department of Education offices, this measure adds further accountability to ensure that resources are used effectively and efficiently.

As affirmed by the records of votes of the members of your Committees on Education and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 856 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz). Government Operations: Ayes, 5. Noes, none. Excused, none.

# SCRep. 425 (Joint) Education and Government Operations on S.B. No. 1307

The purpose and intent of this measure is to appropriate funds for the Department of Education to determine the feasibility of combining the resources and organization of the Department of Accounting and General Services with the Department of Education on the islands of Kauai, Maui, Molokai, Lanai, and Hawaii island.

Your Committees received testimony in support of this measure from the Department of Education. Your Committees received testimony in opposition to this measure from the Department of Accounting and General Services and two individuals.

Your Committees find that many of the public school facilities throughout the State are in need of repair and maintenance. Currently, the Department of Accounting and General Services is tasked with facility maintenance and support services for neighbor island state buildings, state libraries, and schools. This measure looks at the feasibility and potential benefits of consolidating resources for providing services and maintenance for neighbor island schools to ensure that public school facilities throughout the State are maintained in a timely and efficient manner.

Your Committees have amended this measure by:

- (1) Inserting a blank appropriation amount for the Department of Education Office of School Facilities and Support Services to determine the feasibility of combining the resources and organization of the Department of Accounting and General Services with the Department of Education on the neighbor islands; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Education and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1307, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1307, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz). Government Operations: Ayes, 5. Noes, none. Excused, none.

# SCRep. 426 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism on S.B. No. 488

The purpose and intent of this measure is to require the Department of Agriculture to conduct a study to determine what methods should be used to establish a Hawaii food security metric system that will accurately reflect how much food is produced locally and how much food is imported.

Your Committees received testimony in support of this measure from the Office of Planning, Department of Agriculture, Hawai'i Center for Food Safety, Ulupono Initiative, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Our Revolution Hawaii, and four individuals. Your Committees received comments on this measure from the Hawaii Cattlemen's Council, Inc.

Your Committees find that increased local food production and decreased food imports are a top priority of the State to achieve the state goal of sustainability. In order for the State to successfully increase local food production, the State must first have an understanding of how much food is currently produced locally and imported into the State, using appropriate metrics. Your Committees support all efforts to increase local food production in the State, and establishing a metric system to obtain baseline measurements and progress are foundational in this effort.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 488 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Taniguchi).

### SCRep. 427 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 241

The purpose and intent of this measure is to:

- (1) Prohibit the denial of emergency shelter by public establishments;
- (2) Provide compensation to owners of public establishments for repair damages caused by persons sheltered;
- (3) Protect public establishments and their agents and employees from liability when providing emergency shelter; and
- (4) Clarify that remuneration or expectation of remuneration paid to owners of private property for goods or services other than emergency access to land, shelter, or subsistence, including services or incidental commodities to the emergency access, does not void the exemption from civil liability afforded to these owners except where owners increase the sale price of the service or incidental commodities.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency, Hawaii Medical Service Association, Retail Merchants of Hawaii, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii. Your Committee received testimony in opposition to this measure from the Maui Chamber of Commerce and Hawaii Association for Justice.

Your Committee further finds that the false alert of an inbound ballistic missile on January 13, 2018, raised several issues related to a private property owner providing emergency access to land, shelter, or subsistence to the public. In many cases, private entities may have been reluctant to make facilities or property available to a person for use as a shelter because of liability concerns. Your Committee finds that as this is the Aloha State, a well-balanced mechanism is needed whereby public establishment owners must allow people to take shelter at their establishments during emergencies but will be compensated for any costs incurred to repair any damages caused by those people and protected against liability when providing shelter.

Your Committee further finds that existing state law provides civil liability protection to private property owners who provide emergency access to land, shelter, or subsistence during a disaster without remuneration or expectation of remuneration. The January 2018 false missile alert also raised the issue that this protection may not apply to certain businesses because those sheltering there were paying guests or tenants. This measure clarifies that if a private property owner who, while providing emergency access to land, shelter, or subsistence without remuneration or expectation of remuneration, receives remuneration for providing sheltered persons with services or incidental commodities without price markups, the liability protection is neither diminished nor void.

Your Committee has amended this measure by:

- (1) Specifying that, in the case of an emergency alert, public establishments are required, to the extent reasonably practicable and compliant with law, to shelter persons inside or in the immediate vicinity of the public establishment during the public establishment's normal business hours; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 241, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 241, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 428 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 346

The purpose and intent of this measure is to:

- (1) Require the Hawaii Emergency Management Agency to identify certain evacuation routes;
- (2) Prohibit the planting of large trees along evacuation routes;
- (3) Require the Hawaii Emergency Management Agency to identify existing large trees along evacuation routes and trim, spray, or remove the trees if the trees have the potential to obstruct the evacuation route; and
- (4) Appropriate funds to the Hawaii Emergency Management Agency.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that in preparation for a natural disaster, every second of potential evacuation time makes a difference in protecting the lives of the State's residents. Your Committee further finds that large trees along evacuation routes have the potential to obstruct these roads for residents during an evacuation and prevent emergency response vehicles and personnel from returning to an evacuation zone following a disaster. This measure ensures that evacuation routes are clear and free of obstruction to allow for quick evacuation and response in case of an emergency.

Your Committee has amended this measure by:

 Clarifying the definition of "evacuation route" to specify that only highways under the jurisdiction of the Department of Transportation may be identified as evacuation routes; and (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 346, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 346, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 429 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 572

The purpose and intent of this measure is to require a comprehensive performance audit of certain offices and programs within the Department of Public Safety.

Your Committee received testimony in support of this measure from the Department of Public Safety; Hawaii Government Employees Association AFSCME Local 152, AFL-CIO; Community Alliance on Prisons; Ho'omanapono Political Action Committee; and eight individuals. Your Committee received comments on this measure from the Office of the Auditor.

Your Committee finds that the most recent performance audit of the Department of Public Safety was in 2017, and its scope was limited. Your Committee further finds that no comprehensive audit of the Department of Public Safety's offices, policies, and programs has been performed in recent history. Accordingly, your Committee finds that for accountability and transparency purposes it is in the best interests of the State to appropriate funds to audit certain offices and programs within the Department of Public Safety.

Your Committee notes that the estimated cost of the audit proposed by this measure is \$200,000.

Your Committee has amended this measure by extending the reporting deadline by one year to twenty days prior to the convening of the Regular Session of 2021.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 572, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 572, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 430 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 600

The purpose and intent of this measure is to restrict any person less than twenty-one years of age from bringing any firearm into the

Your Committee received testimony in support of this measure from the Honolulu Police Department and Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi. Your Committee received testimony in opposition to this measure from the National Rifle Association of America, Hawaii Firearms Coalition, Hawaii Rifle Association, Hawaii Leaders Shooters Legion, Institute for Rational and Evidence-Based Legislation, Waianae Hunting Association, and two hundred thirty-one individuals.

Your Committee finds that persons already in the State and applying for a permit to acquire ownership of a firearm in Hawaii must be at least twenty-one years old. Your Committee further finds that, although state law requires that a person who arrives in the State and brings a firearm must register the firearm with the applicable police department, there is currently no minimum age to bring a firearm into the State. This measure establishes a minimum age requirement for persons bringing a firearm into the State consistent with the minimum age to apply for a firearm permit.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 600 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Harimoto). Noes, none. Excused, none.

# SCRep. 431 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 621

The purpose and intent of this measure is to:

- (1) Require a person to report the person's lost, stolen, or destroyed firearms to the appropriate county police department; and
- (2) Establish penalties for failure to report.

Your Committee received testimony in support of this measure from the Honolulu Police Department, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, and three individual. Your Committee received testimony in opposition to this measure from the National Rifle Association of America, Hawaii Leaders Shooters Legion, Waianae Hunting Association, and one hundred seventy-eight individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that firearms permitting and registration requirements are meant to ensure that firearms remain in the possession of individuals who are properly vetted and meet the stringent requirements to own or possess firearms. Your Committee further finds that keeping firearms in the hands of authorized owners is vital to the public safety. Your Committee additionally finds that prompt reporting of lost or stolen firearms allows police officers to promptly investigate reports in a timely fashion.

Your Committee has amended this measure by:

- (1) Requiring persons found guilty of failure to report lost, stolen, or destroyed firearms and required to surrender all firearms and ammunition to the chief of police to do so within seven days of disqualification; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 621, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 621, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

# SCRep. 432 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1040

The purpose and intent of this measure is to improve the State's efforts to stop sex trafficking by requiring the State Commission on the Status of Women (Commission) to maintain a database for information collection and retrieval processes necessary for policy guidance, training, legislative reporting, and response and prevention programs.

Your Committee received testimony in support of this measure from the Commission on the Status of Women, Kauai County Office of the Prosecuting Attorney, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, League of Women Voters, AAUW of Hawaii, Planned Parenthood Votes Northwest and Hawaii, Save Medicaid Hawaii, Kapiolani Sex Abuse Treatment Center, Hoʻola Na Pua, IMUAlliance, and ten individuals. Your Committee received testimony in opposition to this measure from the Honolulu Police Department, Harm Reduction Hawaii, K&R Enterprises, Community Alliance on Prisons, SWOP Hawaii, and four individuals. Your Committee received comments on this measure from the Department of the Attorney General, Department of Human Services, and Office of Information Practices.

Your Committee finds that sex trafficking is the commercial sexual exploitation of a minor or the coercive commercial sexual exploitation of any person and can have significant medical, psychological, and social consequences for victims. Currently, the State does not maintain a sex trafficking database.

Your Committee finds that this measure would allow the Commission to collaborate with government and community partners to maintain a database of statistical and demographic information of sex trafficking victims. Your Committee finds that this database can assist in discovering the extent of sex trafficking in Hawaii, developing intervention strategies, and providing victim services.

Your Committee has amended this measure by:

- (1) Adding a privacy provision to protect the names and identities of the victims;
- (2) Adding a privacy provision to maintain record confidentiality;
- (3) Requiring the database on sex trafficking be made available to the public under certain circumstances;
- (4) Requiring the Commission, in its report to the Legislature, to identify funding opportunities for sex trafficking programs;
- (5) Removing the requirement that the database must contain the total amount of federal and state funding available for sex trafficking programs;
- (6) Requiring certain entities to assist and share data with the Commission; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1040, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1040, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 433 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1117

The purpose and intent of this measure is to exempt active members of the Hawaii Emergency Management Agency and county emergency management agencies from jury duty.

Your Committee received testimony in support of this measure from the Hawaii Emergency Management Agency, Department of Emergency Management of the City and County of Honolulu, County of Kaua'i Emergency Management Agency, and four individuals. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that due to the critical roles that physicians, members of the armed forces, police officers, firefighters, and emergency medical service members play in ensuring the safety of the public welfare in emergency situations, these individuals are exempt from jury duty under state law. Your Committee also finds that the Hawaii Emergency Management Agency and county emergency management agencies serve essential, critical, and unique roles and functions in order to provide emergency management for the State. However, active members of emergency management agencies are not exempt from jury duty under state law. Therefore, this measure ensures that active members of those agencies face no hindrances in serving in their roles.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1117 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 434 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1421

The purpose and intent of this measure is to implement the recommendations of the Criminal Pretrial Task Force that convened pursuant to House Concurrent Resolution No. 134, House Draft 1, Regular Session of 2017 (Task Force).

Your Committee received testimony in support of this measure from the Department of Public Safety, Judiciary, Office of Hawaiian Affairs, Office of the Public Defender, Community Alliance on Prisons, IMUAlliance, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Ho'omanapono Political Action Committee, and seven individuals. Your Committee received testimony in opposition to this measure from the City and County of Honolulu Department of the Prosecuting Attorney. Your Committee received comments on this measure from the Department of the Attorney General, Hawaii Disability Rights Center, A-1 Bail Bonds.

Your Committee finds that the State's current criminal pretrial system can be improved based on the findings of the Criminal Pretrial Task Force. Some of these areas of improvement include improving the intake process, paying special attention to victim's rights, and ensuring prompt hearings.

Your Committee further finds that this measure accomplishes many of the Task Force's recommendations but that some aspects of this measure are ambiguous and could be made clearer with multiple amendments. Your Committee also notes that the Department of Public Safety raised budgetary concerns and requests your Committee on Ways and Means to consider or address those concerns.

Your Committee has amended this measure by:

- (1) Clarifying that a copy of the pretrial bail report shall be given only to research entities with which the Department has contracted, in order to maintain confidentiality;
- (2) Clarifying that the entities responsible for conducting periodic reviews of pretrial detainees are the relevant community correctional centers, rather than intake service centers, and specifying that the frequency of the reviews shall be at least once every three months;
- (3) Requiring the Department of Public Safety to submit the validation study of the Ohio Risk Assessment System's Pretrial Assessment Tool to the Legislature in lieu of its report on progress made in revising pretrial risk assessment processes;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1421, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1421, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 435 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1503

The purpose and intent of this measure is to allow incarcerated individuals who were Hawaii residents immediately prior to incarceration to vote in Hawaii elections via absentee ballot.

Your Committee received testimony in support of this measure from the Department of Public Safety, Community Alliance on Prisons, League of Women Voters of Hawaii, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, Hoʻomanapono Political Action Committee, and three individuals. Your Committee received testimony in opposition to this measure from the Honolulu County Republican Party and three individuals. Your Committee received comments on this measure from the Office of Elections and one individual.

Your Committee finds that eighteen countries grant voting rights to the incarcerated regardless of the offense, and that preventing incarcerated individuals from voting has a disproportionate effect on communities of color.

Your Committee further finds that the loss of the right to vote impedes the successful reentry of full human beings who are prepared as responsible and productive citizens before release to ensure successful reintegration into the community. Your Committee believes that voting can be an opportunity for incarcerated persons to learn about candidates and issues, engage in civic education, and prepare for reintegration into society.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests that your Committee on Ways and Means consider appropriating additional funds to the Office of Elections for the purpose of processing additional absentee ballots from incarcerated persons.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1503, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1503, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

# SCRep. 436 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1538

The purpose and intent of this measure is to require monetary bail to be set in reasonable amounts based upon all available information, including the defendant's ability to afford bail.

Your Committee received testimony in support of this measure from the Judiciary, Department of Public Safety, Office of the Public Defender, Community Alliance on Prisons, IMUAlliance, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Ho'omanapono Political Action Committee, and four individuals. Your Committee received testimony in opposition to this measure from the Honolulu Police Department. Your Committee received comments on this measure from the Hawaii Disability Rights Center.

Your Committee finds that state and county law enforcement officers have discretion to set the amount of bail, and the State does not require that the bail amount be set based on the person's ability to afford bail. Your Committee further finds that the Department of Public Safety's pretrial service officers do not have access to other states' data on the accused person's wages and tax information and, thus, it is difficult for pretrial officers to set bail based on the person's financial circumstances and ability to afford bail.

Your Committee finds that existing law should make clear that information regarding a defendant's financial circumstances and ability to afford bail should be considered when setting bail to help ensure a fair process that allows for consideration of a person's financial circumstances on a case-by-case basis.

Your Committee has amended this measure by:

- (1) Authorizing pretrial service officers to access other state agencies' wages and tax information of accused persons for the limited purpose of setting an appropriate bail amount; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1538, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1538, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 437 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1539

The purpose and intent of this measure is to grant defendants a right to a prompt bail hearing.

Your Committee received testimony in support of this measure from the Judiciary, Department of Public Safety, Office of the Public Defender, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Community Alliance on Prisons, Ho'omanapono Political Action Committee, and five individuals.

Your Committee finds that House Concurrent Resolution No. 134, H.D. 1 (2017), established a task force to examine and make recommendations regarding criminal pretrial practices and procedures to maximize public safety, maximize court appearances, and maximize pretrial release of the accused and presumed innocent.

Your Committee further finds that the task force's investigations revealed that the current system is inconsistent as to whether and when a pretrial defendant is accorded a bail hearing. Your Committee finds that this measure helps ensure a prompt hearing for pretrial defendants, many of whom are considered low-risk defendants for whom release pending trial would be appropriate.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1539 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 438 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1540

The purpose and intent of this measure is to require periodic reviews and public reporting of the pretrial intake screening process of defendants for potential pretrial release and to improve clarity and consistency in the intake process.

Your Committee received testimony in support of this measure from the Judiciary, Department of Public Safety, Office of the Public Defender, IMUAlliance, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Ho'omanapono Political Action Committee, and six individuals.

Your Committee finds that House Concurrent Resolution No. 134, H.D. 1 (2017), established a task force to examine and make recommendations regarding criminal pretrial practices and procedures. The task force made multiple recommendations to improving the pretrial process, which include conducting periodic reviews of each pretrial detainee's status and completing pretrial risk assessments and bail reports within two, instead of three, working days.

Your Committee further finds that generally, court determinations as to whether a defendant is detained or released are made at or about the time of the initial arraignment hearing. Thereafter, a defendant's bail or release is rarely addressed.

Your Committee finds that in order to afford the pretrial detainee greater and continuing opportunities to be released, intake service centers should conduct periodic reviews of each pretrial detainee's status and complete pretrial risk assessments and bail reports within two working days.

Your Committee has amended this measure by clarifying that research entities must have been approved by and contracted with the Department of Public Safety in order to receive a copy of the pretrial bail report.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1540, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1540, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 439 (Joint) Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on S.B. No. 893

The purpose and intent of this measure is to:

- (1) Prohibit the counties from rejecting number 1 and number 2 plastic bottles presented for recycling solely because the bottles are accompanied by or adjoined to nonrecyclable bottle caps;
- (2) Require and appropriate funds for the counties to separate and appropriately dispose of such nonrecyclable bottle caps;
- (3) Insert a definition of "PP", or polypropylene plastic material, into the integrated solid waste management law; and
- (4) Require the counties to include PP materials in its feasibility assessment for recycling.

Your Committees received testimony in support of this measure from the Sierra Club of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and five individuals.

Your Committees find that the local and global impact of the world's increasing waste stream is unsustainable and detrimental to the future of Hawaii's economy and people. There has been an exponential rise in single-use foodware and drinkware, including plastic bottles with caps, which are major contributors to street and beach litter, ocean pollution, marine and other wildlife harm, and greenhouse gas emissions.

Your Committees further find that because the counties do not accept number 1 and number 2 plastic bottles that are accompanied by or adjoined to nonrecyclable bottle caps made of polypropylene, some consumers may be discouraged by the inconvenience and ultimately choose not to recycle their plastic bottles. By having the counties accept those plastic bottles for recycling and separate caps from bottles, the State can increase recycling rates and reduce the overall volume of waste.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 893 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 440 (Joint) Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on S.B. No. 940

The purpose and intent of this measure is to grant county agencies the implicit right to enter property to investigate agricultural buildings and structures for violations of, and compliance with, building permit and code exemption qualifications.

Your Committees received testimony in support of this measure from the Department of Agriculture, Office of Planning, Mayor of the County of Hawai'i, and two individuals.

Your Committees find that certain qualified agricultural structures are exempt from building permit and building code requirements. Your Committees further find that exempted agricultural buildings and structures are sometimes illegally transformed for residential purposes. This measure will allow county agencies to exercise their enforcement powers and help to prevent the misuse of agricultural buildings and structures.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 940 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 441 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1486

The purpose and intent of this measure is to allow the Administrator of the Narcotics Enforcement Division of the Department of Public Safety to disclose confidential information from the electronic prescription accountability system, commonly known as the Prescription Drug Monitoring Program or PDMP, to authorized employees of the Department of Health Alcohol and Drug Abuse Division and the Emergency Medical Services and Injury Prevention Systems Branch.

Your Committee received testimony in support of this measure from the Department of Public Safety and Department of Health.

Your Committee finds that the Department of Public Safety has collaborated closely with the Department of Health and other government and private stakeholders to create Hawaii's Opioid Action Plan. The Opioid Action Plan calls for a balanced approach involving effective treatment, prevention, and law enforcement to combat opioid abuse in Hawaii. As part of this action plan, stakeholders agree that sharing information between the departments would provide the Department of Health with necessary information to better protect the community through opioid prescription and public health monitoring.

Your Committee further finds that this measure enables the sharing of data between law enforcement and public health officials necessary to effectively combat opioid abuse in the State.

Your Committee has amended this measure by clarifying that the authorization proposed by this measure is to disclose the confidential PDMP information to agencies of the State of Hawaii Department of Health.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1486, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1486, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 442 Education on S.B. No. 37

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Hawaii State Public Library System.

Your Committee received testimony in support of this measure from the Hawaii State Public Library System, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Hawaii State Public Library System in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 37, S.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 443 Education on S.B. No. 981

The purpose and intent of this measure is to repeal the Hawaii Teacher Standards Board special fund and transfer the remaining balance to the general fund.

Your Committee received testimony in support of this measure from the Hawai'i Teacher Standards Board. Your Committee received testimony in opposition to this measure from the Department of Education. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the Hawaii Teacher Standards Board special fund is used to pay for the expenses of the Hawaii Teacher Standards Board, including operational and personnel costs and reimbursements to Board members for travel expenses. Due to limited resources in the special fund, the Board has been forced to downsize its office space and reduce its staff, limiting the scope of services and support to Hawaii teachers, school counselors, and school librarians. Funding the Hawaii Teacher Standards Board through the general fund will allow the Board to continue to fully support teacher licensing, educator preparation programs, and professional development.

Your Committee has amended this measure by:

- (1) Changing the date when all unencumbered balances remaining in the Hawaii Teacher Standards Board special fund shall lapse to the general fund from June 30, 2019, to June 30, 2021; and
- (2) Inserting an effective date of July 1, 2021.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 981, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 981, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 444 Education on S.B. No. 1303

The purpose and intent of this measure is to:

- (1) Allow the Department of Education to lease public school lands for a term of not more than ninety-nine years per lease;
- (2) Amend Act 210, Session Laws of Hawaii 2018, by adding an additional parcel to the list of transferred lands from the City and County of Honolulu to the Department of Education; and
- (3) Amend Act 206, Session Laws of Hawaii 2017, to allow the City and County of Honolulu to transfer lands under existing Department of Education facilities directly to the Department of Education, rather than to the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Education and Building Industry Association of Hawaii. Your Committee received testimony in opposition to this measure from the Honolulu Fire Department.

Your Committee finds that Act 155, Session Laws of Hawaii 2013, established a pilot program to generate revenue from uses of public school lands for public purposes, such as workforce housing, to build and retrofit twenty-first century schools and create more school-centered communities. The pilot program laid important groundwork for a statewide approach and plan to optimize public school lands and modernize public school facilities. However, in subsequent discussions with government agencies and private developers, the existing fifty-five-year lease term creates issues in financing redevelopment projects. Extending the lease terms for redevelopment would allow prospective developers flexibility in securing financing as well as insuring a better long-term return to the State for the use of its lands.

Your Committee further finds that Act 206, Session Laws of Hawaii 2017, attempted to consolidate ownership of the lands under existing public schools from the City and County of Honolulu to the Department of Land and Natural Resources. However, rather than have the lands transferred from the City and County of Honolulu to the Department of Land and Natural Resources and then to the Department of Education, the lands should be transferred directly from the City and County of Honolulu to the Department of Education to allow the Department of Education more flexibility to redevelop or reposition its assets.

Additionally, your Committee finds that the Honolulu Fire Department has been looking for a possible location for a public safety facility to serve the growing Kaka'ako-Ala Moana area. The parcel on Young Street where the Student Transportation Service Office is located would be an ideal site for a new fire station that would optimize the delivery of emergency services to the growing nearby community.

Your Committee has amended this measure by:

- (1) Deleting part II which would have transferred the Student Transportation Service Office parcel on Young Street from the City and County of Honolulu to the Department of Education; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1303, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1303, S.D. 1, and be referred to your Committee on Water and Land.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 445 Education on S.B. No. 688

The purpose and intent of this measure is to require the Committee on Weights to submit a report to the Legislature detailing any changes to the funding formula within thirty days of the change.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that the Committee on Weights is responsible for, among other things, reviewing the issue and revising the formula to provide for the equitable distribution of funds to all of Hawaii public schools. Although there is major concern for insufficient funding for public schools, various Committees on Weights have recommended, and the Board of Education has approved changes, in the formula factor that has increased the weighted student formula base funding at schools. Because these changes affect the well-being of schools and students from all areas, it is important that the Legislature be made aware of such changes.

Your Committee has amended this measure by specifying that the Committee on Weights shall submit a report to the Legislature on any recommendations made by the Committee on Weights to the Board of Education that involves the weighted student formula.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 688, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 688, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 446 Education on S.B. No. 1522

The purpose and intent of this measure is to appropriate funds for the Hawaii keiki: healthy and ready to learn program.

Your Committee received testimony in support of this measure from the Department of Education, University of Hawai'i System, Hawaii State Teachers Association, and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that the Hawaii keiki: healthy and ready to learn program has expanded access to health services for many of the State's students. School-based services such as early eye screenings and oral hygiene services for vulnerable keiki in pre-

kindergarten through high school can improve academic outcomes and increase children's opportunities for economic achievement. This measure improves access to and increases the quality of health services available to Hawaii's public school students.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1522 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Fevella).

#### SCRep. 447 Education on S.B. No. 692

The purpose and intent of this measure is to:

- (1) Authorize remote schools to receive supplemental categorical funding, subject to legislative appropriations, to support instructional and support staff; and
- (2) Appropriate funds for remote schools categorical funding.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that small and geographically remote schools sometimes lack sufficient funds to cover programming above and beyond basic operations. In the case of Hana High and Elementary School, the budgetary shortfall has resulted in the loss of several well-qualified teachers and has threatened the school's ability to offer minimum course requirements for students. For students to take the requisite courses for graduation, those students will have to endure a nearly forty-mile, two-hour drive to the next closest public high school, King Kekaulike High School. This measure ensures that remote schools are funded to retain the minimal personnel and resources necessary to graduate students.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 692 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 448 Education on S.B. No. 477

The purpose and intent of this measure is to:

- (1) Allow the Department of Education to provide sex trafficking prevention training to certain staff; and
- (2) Require the Department of Education to make available to certain staff explanatory information about protocols that the Department has approved for providing services to victims of sex trafficking.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, Hawaii Youth Services Network, UNITE, The Sex Abuse Treatment Center, IMUAlliance, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, and one individual.

Your Committee finds that schools are one of the main social institutions outside of the family in which children have constant contact with adults and their peers. Your Committee further finds that regular, prolonged interaction with students in the classroom provides teachers with an excellent opportunity to identify the warning signs that a student might be at risk of sex trafficking or exploitation or experiencing sexual abuse. This measure will equip teachers and educational officers with resources to help prevent sex trafficking, identify signs of sexual abuse, and respond to the risk that sex trafficking and sexual abuse poses to Hawaii's students.

Your Committee has amended this measure by expanding the scope of the prevention training offered by the Department of Education for teachers, educational officers, and school-based behavioral health specialists to include sexual abuse prevention and response.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 477, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 477, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 449 Education on S.B. No. 91

The purpose and intent of this measure is to appropriate or authorize funds or amend means of financing for various capital improvement projects of the Department of Education.

Your Committee received testimony in support of this measure from the Department of Education, Executive Office on Early Learning, and Early Learning Board.

Your Committee finds that this measure expresses adjustments to the projects funded, maximum sums appropriated or authorized, or means of financing indicated for the Department of Education in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 91 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Fevella).

# SCRep. 450 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 1026

The purpose and intent of this measure is to appropriate funds for the healthy aging partnership program to further the program's role in improving the health and well-being of Hawaii's kupuna.

Your Committees received testimony in support of this measure from the Executive Office on Aging, Policy Advisory Board for Elder Affairs, Maui County Office on Aging, International Longshore and Warehouse Union Local 142, Hawaii Chapter – American Physical Therapy Association, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, and over one hundred thirty individuals.

Your Committees find that the Hawaii healthy aging partnership program improves the health of older adults by empowering residents to make healthy decisions and engage in healthier lifestyles. The healthy aging partnership program has successfully adapted evidence-based health promotion programs and disease prevention programs for the multicultural population in Hawaii and was nationally recognized for its achievements when it received the 2013 multicultural aging award from the American Society on Aging.

Your Committees further find that despite its track record of success, the healthy aging partnership program did not receive funding for fiscal year 2018-2019. Without adequate funding, the program will have to close. Funding the healthy aging partnership program is an important step toward meeting the first goal of the Hawaii State Plan on Aging and ensuring that the State will not lose a valuable program that maximizes opportunities for older adults to age well, remain active, and enjoy life in their communities.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1026 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Fevella).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Ihara, Riviere).

### SCRep. 451 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 1231

The purpose and intent of this measure is to:

- (1) Update the name of the spouse and child abuse special fund;
- (2) Exempt the spouse and child abuse special fund from the central services assessment and administrative expense assessment; and
- (3) Allow the Department of Human Services to retain reimbursements of federal funds to provide funding for child abuse and neglect prevention and intervention services.

Your Committees received testimony in support of this measure from the Department of Human Services and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committees find that funds from the spouse and child abuse special fund are used to support crucial activities that are not sufficiently funded from any other source, such as services for minors who are sexually trafficked, counseling and psychoeducation to parents who have abused or neglected their children, and domestic violence fatality reviews. Beginning on October 1, 2019, the federal Family First Prevention Services Act (FFPSA) will permit states the option of using Social Security Title IV-E funds for prevention services.

Your Committees further find that the Department of Human Services plans on taking advantage of this option and would like to be able to retain all FFPSA and Title IV-E reimbursements for needed services in the State. However, under existing state law, the Department is not allowed to retain federal reimbursement funds received in the following fiscal year from which they were expended. This measure allows the Department to retain Title IV-E federal reimbursements in the spouse and child abuse special fund, which will stabilize child welfare program funding.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1231 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Fevella).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Ihara, Riviere).

### SCRep. 452 (Joint) Commerce, Consumer Protection, and Health and Judiciary on S.B. No. 1016

The purpose and intent of this measure is to reduce use, access, and exposure to tobacco products by youth by prohibiting the issuance and renewal of retail tobacco permits for places of business and the sale of tobacco products or electronic smoking devices within seven hundred fifty feet of preschools, schools, or public parks.

Your Committees received testimony in support of this measure from the Department of Education, Hawai'i Public Health Institute, Keiki Injury Prevention Coalition, Blue Zones Project – Hawaii, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Ho'omanapono Political Action Committee, and seven individuals. Your Committees received testimony in opposition to this measure from Retail Merchants of Hawaii; Hawaii Food Industry Association; Hawaii Petroleum Marketers Association; Hawaii Smokers Alliance; HI Lyfe Vaporz, LLC; Irie Hawaii Stores; Island Energy Services, Retail LLC; and thirty individuals. Your Committees received comments on this measure from the Department of Taxation, Department of the Attorney General, and Department of Health.

Your Committees finds that that ninety-five percent of smokers start before the age of twenty-one and that density of tobacco retailers around schools has a significant impact on the prevalence of youth tobacco use. Tobacco and electronic smoking device manufacturers employ tactics such as child-friendly flavors, celebrity endorsements, and high-tech design, and youth and children are particularly susceptible to these cues.

California, New York, and numerous other localities have implemented tobacco retailer zones like the one proposed in this measure, where sales of tobacco products and permits for tobacco retailers are prohibited near schools, parks, and other areas frequented by youth. Researchers from the University of Buffalo and Roswell Park Cancer Institute found more tobacco outlets concentrated around elementary and secondary schools, and more densely concentrated in lower-income areas. This may contribute to disparities in tobacco use between socioeconomic groups.

Your Committees find that creating tobacco retail buffer zones encourages responsible tobacco retailing, reduces tobacco-related health issues, and, most importantly, reduces youth tobacco use, including through the use of electronic smoking devices.

Your Committees have heard the concerns raised in testimony that determining the distance between a retail location and a school or playground is labor-intensive and outside the realm of Department of Taxation's expertise. Therefore, your Committees intend to place the responsibility of determining the distance to a school or playground on the permit applicant, with the Department of Taxation retaining an oversight role through audits or inspection procedures.

Your Committees have amended this measure by:

- Clarifying that an applicant for a retail tobacco permit, rather than the Department of Taxation, is responsible for determining whether the retailer is within seven hundred fifty feet of a preschool, school, or playground;
- Removing the definitions of "electronic smoking device" and "tobacco product", as these terms are already defined in chapter 328J, Hawaii Revised Statutes;
- (3) Clarifying the Department of Taxation's authority to suspend, revoke, or decline to issue a retail tobacco permit;
- (4) Exempting vocational or licensing schools attended primarily by adults and public or private day care centers near commercial areas from the buffer zone requirements proposed by this measure;
- (5) Changing its effective date to upon approval but delaying implementation of the tobacco retail buffer zone prohibitions until January 1, 2020; and
- (6) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1016, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1016, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Thielen).

Judiciary: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Kim).

# SCRep. 453 Labor, Culture and the Arts on S.B. No. 504

The purpose and intent of this measure is to appropriate funds for the repair, restoration, and maintenance of Iolani Palace's coronation pavilion.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Historic Hawai'i Foundation, Iolani Palace, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual.

Your Committee finds that the Iolani Palace's coronation pavilion is one of Hawaii's most historic, iconic, and culturally important features. Recently, the coronation pavilion has been used for the inauguration of the Governor of the State and via permit, for community and cultural events throughout the year, which allows Iolani Palace to generate funds to support management and maintenance costs. However, the coronation pavilion is in need of structural repair. This measure would appropriate funds for the repair, restoration, and maintenance of Iolani Palace's coronation pavilion, which will allow the community to continue to utilize this culturally significant structure.

Your Committee has amended this measure by inserting an appropriation amount of \$500,000 to the Department of Accounting and General Services and adding the repair, restoration, and maintenance of two pergolas and the fountain to the authorized use of the funds.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 504, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 504, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 454 Labor, Culture and the Arts on S.B. No. 794

The purpose and intent of this measure is to appropriate or authorize funds or amend means of financing for various capital improvement projects of the Department of Accounting and General Services.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts.

Your Committee finds that this measure expresses adjustments to the projects funded, maximum sums appropriated or authorized, or means of financing indicated for the Department of Accounting and General Services in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by:

- Removing design of the capitol district building, site and accessibility improvements, so that the entire amount of \$1,200,000
  authorized shall be used for construction only; and
- (2) Making the appropriation for the capitol district building, site and accessibility improvements, for the second year of the fiscal biennial rather than the first fiscal year.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 794, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 794, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 455 Labor, Culture and the Arts on S.B. No. 1082

The purpose and intent of this measure is to make general contractors entering into or under contracts in Hawaii for work on buildings or structures liable for debt incurred by subcontractors for wages due to claimants for performance of labor in the contract between the general contractor and owner.

Your Committee received testimony in support of this measure from Pacific Resource Partnership and Hawaii Regional Council of Carpenters. Your Committee received testimony in opposition to this measure from the Subcontractors Association of Hawaii. Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that under existing law, general contractors are not liable for the unfair labor practices of their subcontractors, including but not limited to the nonpayment of wages. As a result, employees of subcontractors are, in certain instances, not getting adequately compensated for work they provide. This measure will hold general contractors liable for debt incurred by subcontractors for wages due to their employees, which will ensure that general contractors take precautions in hiring subcontractors if they want to avoid being responsible for the subcontractor's nonpayment to their employees.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2051, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1082, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1082, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Chang).

### SCRep. 456 (Joint) Water and Land and Agriculture and Environment on S.B. No. 379

The purpose and intent of this measure is to:

- (1) Allow the Governor to negotiate land exchanges consistent with and in furtherance of agricultural and housing needs and purposes; and
- (2) Require the Governor to submit a report to the Legislature of any potential or negotiated land exchanges for final approval.

Your Committees received testimony in support of this measure from the Department of Agriculture, Agribusiness Development Corporation, Hawaii Farm Bureau, and Land Use Research Foundation of Hawaii. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources. Your Committees received comments on this measure from the Office of Planning, Land Use Commission, and Office of Hawaiian Affairs.

Your Committees find that Hawaii's insufficient agricultural production, and the State's critical shortage of safe and sanitary housing inventory for Hawaii residents, including affordable housing and workforce housing, create critical health, safety, and security issues for Hawaii and its sustainable future. The lack of suitable entitled lands for development of appropriate housing is a major contributing factor to the housing crisis, and substantial obstacles and delays in entitling lands result in delayed development, low housing inventory, and increased housing prices. Your Committees further find that the exchange of state lands for privately owned lands can help address the challenges of increasing Hawaii's agricultural self-sufficiency while also ameliorating the State's housing crisis by providing for the mutually beneficial exchange of developable state lands for housing with privately owned agricultural lands for farming.

Your Committees note the concerns of the Land Use Commission regarding the constitutionality of this measure in that a requirement to process any boundary reclassification within 30 days would not allow sufficient due process in adhering to the environmental impact statement and historic preservation laws.

Your Committees have amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 379, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 379, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella). Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella).

# SCRep. 457 (Joint) Water and Land and Agriculture and Environment on S.B. No. 490

The purpose and intent of this measure is to establish a community food forest program in the Department of Land and Natural Resources to work collaboratively with local government and community organizations to provide sources of healthy food statewide.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, EcoTipping Points Project, and three individuals. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that the concept of community food forests is to identify lands, particularly those near community gathering places such as parks and community centers, that may be suitable for lease for edible landscaping or growing edible plants. Your Committees further find that the State should be exploring community food forests as a food source alternative given the State's need for greater sustainability. Community and urban gardens may provide additional sources of low- or no-cost food to residents, while also utilizing developed land for community sustainability purposes.

Your Committees have amended this measure by:

- Inserting an appropriation amount of \$125,000, allocating \$75,000 for a program administrator position and \$50,000 for operating expenses;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 490, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 490, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella). Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella).

# SCRep. 458 (Joint) Water and Land and Agriculture and Environment on S.B. No. 949

The purpose and intent of this measure is to appropriate funds for a position in the Department of Land and Natural Resources to:

- (1) Draft rules that implement and clarify the intent of chapter 195D, Hawaii Revised Statutes;
- (2) Work with applicants for incidental take licenses to develop their projects to minimize and mitigate incidental take of threatened and endangered species to the maximum extent practicable; and
- (3) Effectively track and monitor funds and expenditures related to habitat conservation plans, conduct follow-up monitoring for development projects, and implement and manage mitigation and other projects that benefit the recovery of threatened and endangered species.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Department of Business, Economic Development, and Tourism; and one individual.

Your Committees find that, as the endangered species capital of the world, Hawaii needs flexibility in its laws to ensure state and federal agencies and private landowners can work cooperatively to protect and conserve endangered species while allowing for responsible development activities and economic growth. Your Committees further find that incidental take licenses have proven to be an invaluable tool in the process of recovering the State's endangered species and that it is therefore imperative that this tool remains an available but effective and practical option.

Your Committees have amended this measure by inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 949, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 949, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella).

# SCRep. 459 (Joint) Water and Land and Agriculture and Environment on S.B. No. 1249

The purpose and intent of this measure is to:

- Authorize the Department of Land and Natural Resources to establish different types of commercial marine licenses (CMLs), including but not limited to commercial marine vessel licenses, fishery and gear-specific CMLs, and full-time and part-time CMLs; and
- (2) Require any person providing fishing charter or guide services, whether vessel-based or shore-based, to first obtain a CML.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Hawaii Seafood Council; United Fishing Agency; Hawaii Fishermen's Alliance for Conservation and Tradition, Inc.; Lokahi Fishing, LLC; and three individuals.

Your Committees find that the current CML laws are unnecessarily burdensome on boat-based fishers due to the requirement that each individual on a fishing vessel must have a CML to participate in a commercial fishing trip where the resulting catch may be sold. This places logistical and even financial burdens on vessel captains when part-time crew members are needed for a commercial fishing trip or when random or infrequent visitors are invited. It also leads to confusion regarding who is responsible for submitting commercial catch reports for fishing activities on board the vessel. Your Committees further find that the Department of Land Natural Resources lacks the statutory authority to establish different types of CMLs. Therefore, authorizing the Department of Land and Natural Resources to create and issue different types of CMLs, such as a commercial marine vessel license, would enable better management of the State's diverse commercial fishing activities.

Your Committees have amended this measure by:

- (1) Deleting references to fishery and gear-specific commercial licenses;
- (2) Deleting references to full-time and part-time commercial licenses;
- (3) Deleting references to guide services;
- (4) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1249, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1249, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Judiciary.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

Agriculture and Environment: Ayes, 3; Ayes with Reservations (Rhoads). Noes, none. Excused, 2 (Ruderman, Fevella).

# SCRep. 460 (Joint) Water and Land and Agriculture and Environment on S.B. No. 1542

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for the design and construction of an exploratory well for the proposed Kunia wells IV pump station.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Agribusiness Development Corporation; Land Use Research Foundation of Hawaii; Hawaii; Farm Bureau; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Local Food Coalition; Hawaii Crop Improvement Association; and Hawaii Cattlemen's Council, Inc.

Your Committees find that Oahu farmers require greater amounts of potable water for irrigation and compliance with federal Food Safety and Modernization Act rules. Your Committees further find that the four exploratory water wells for the proposed Kunia wells IV pump station will provide additional water supply for growth, including diversified agriculture.

Your Committees have amended this measure by:

- Clarifying the purpose section to better reflect the Board of Water Supply proposals regarding the proposed Kunia wells IV pump station;
- Clarifying that the purpose of the proposed Kunia wells IV pump station is to meet future potable water requirements for growth, including diversified agriculture;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1542, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1542, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella). Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella).

#### SCRep. 461 (Joint) Agriculture and Environment and Water and Land on S.B. No. 486

The purpose and intent of this measure is to require and appropriate funds for the Hawaii Climate Change Mitigation and Adaptation Commission (Commission) to review and report on environmental impact food labeling and possible methods of implementation in Hawaii

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Animal Rights Hawai'i, Good Food Movement, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Keiko Conservation, and four individuals. Your Committees received testimony in opposition to this measure from the Hawaii Cattlemen's Council. Your Committees received comments on this measure from the Hawaii Emergency Management Agency and Hawaii Food Industry Association.

Your Committees find that the prevalent, modern food system is a major driver of climate change, changes in land use, depletion of fresh water resources, and pollution of aquatic and terrestrial ecosystems through excessive nitrogen and phosphorus inputs. Your Committees further find that the food system emits about thirty percent of greenhouse gases and drives eighty percent of nitrogen and phosphorus pollution. In particular, transporting non-local food items to Hawaii contributes significantly to greenhouse gases, and imported foods have a higher environmental impact and contribute to climate change.

Your Committees also find that Hawaii residents would benefit from food labeling that shows the environmental impact of each food item to differentiate between products produced with a greater negative environmental impact and those with smaller carbon footprint. Mandatory labels support sustainable consumption and may mitigate climate change.

Your Committees have amended this measure by inserting an appropriation amount of \$100,000 for the Commission to conduct its review and report its findings and recommendations.

Your Committees suggests to the Commission that in reviewing and reporting on the concept of food labeling based on its environmental impact, the Commission should gather information from and interview food distributors and retailers regarding the feasibility of implementing this labeling.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 486, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 486, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella). Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

# SCRep. 462 (Joint) Agriculture and Environment and Water and Land on S.B. No. 523

The purpose and intent of this measure is to enhance protection of Hawaii's natural resources, agriculture, human health, and way of life by appropriating funds for execution of the Hawaii Interagency Biosecurity Plan.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Ka Ohana O Na Pua, The Nature Conservancy, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawai'i Farm Bureau, Coordinating Group on Alien Pest Species, Hawaii Cattlemen's Council, and five individuals. Your Committees received comments on this measure from the Department of Budget and Finance, State Procurement Office, and Department of Agriculture.

Your Committees find that the Hawaii Interagency Biosecurity Plan outlines the State's strategy for improving biosecurity from 2017 to 2027; that is, the actions and policies to be taken to mitigate the risk from invasive species introduction, establishment, and spread.

Your Committees further find that while many of the Hawaii Interagency Biosecurity Plan recommendations are no-cost actions that are being taken internally to improve efficiency and increase collaboration, the Hawaii Interagency Biosecurity Plan does identify key capacity and infrastructure gaps that need to be addressed in order for Hawaii to be effectively protected from the impacts of invasive species. These infrastructure and capacity gaps can be ameliorated with this measure's creation of the invasive species rapid response special fund and appropriations.

Your Committees have amended this measure by:

- (1) Increasing the appropriation amount for fiscal year 2020-2021 for the Department of Agriculture's four new Plant Quarantine Branch positions from \$103,908 to \$150,000;
- (2) Removing the exemption from the Hawaii Public Procurement Code for expenditures from the invasive species rapid response special fund upon declaration of an invasive species emergency, as the exemption authority is already allowed under section 127A-12, Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 523, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 523, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

# SCRep. 463 (Joint) Agriculture and Environment and Water and Land on S.B. No. 644

The purpose and intent of this measure is to require the Hawaii Climate Change Mitigation and Adaptation Commission (Commission) to determine which coastal areas to armor and which ones to select for managed retreat.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, IMUAlliance, Life of the Land, and two individuals. Your Committees received comments on this measure from the Office of Planning, Hawaii Emergency Management Agency, and Building Industry Association of Hawaii.

Your Committees find that Act 32, Session Laws of Hawaii 2017, established the Commission to address the urgent issue of sealevel rise in the State. In less than a year, the Commission, which consists of various state and county officials, provided the Legislature with a comprehensive sea-level rise report in which risk levels are clearly identified. Your Committees also find that it is imperative to start implementing the Commission's recommendations from the report and the State needs to start planning and funding the coastal adaptations to sea-level rise now to avoid crises in the next decade.

Your Committees further find that in planning for sea-level rise, identification and determination of shoreline armoring and retreat should be prioritized.

Your Committees have amended this measure by directing the Commission to consider sea levels of 1.0, 2.0, and 3.2 feet high instead of 3, 6, and 9 feet high.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 644, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 644, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

# SCRep. 464 (Joint) Agriculture and Environment and Water and Land on S.B. No. 941

The purpose and intent of this measure is to require an owner or occupier of agricultural land to notify the Land Use Commission of the agricultural uses for which the land was subdivided, sold, or leased and to grant the Commission enforcement authority over conditions, restrictions, uses, and subdivision of agricultural lands, including the right to enter and inspect lands, issue orders, and impose fines or liens for violations.

Your Committees received testimony in support of this measure from the Office of Planning, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and Farm Maui LLC. Your Committees received comments on this measure from the Land Use Commission and the Department of Agriculture.

Your Committees find that the abuse of agricultural lands is a significant problem in the State. Your Committees further find that this measure provides the Land Use Commission with the authority to monitor and cite violators of improper agricultural land uses and activities and requires owners and occupants of agricultural land to submit to the Land Use Commission the planned use for the specific parcel whenever the land parcel is subdivided, sold, or leased.

Your Committees additionally find that the Land Use Commission would require funding to fulfill its enforcement duties pursuant to this measure.

Your Committees have amended this measure accordingly by:

- (1) Inserting an appropriation of \$150,000 for fiscal years 2019-2020 and 2020-2021 for the Land Use Commission to perform enforcement duties; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 941, as amended herein, and

recommend that it pass Second Reading in the form attached hereto as S.B. No. 941, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

### SCRep. 465 (Joint) Agriculture and Environment and Water and Land on S.B. No. 1254

The purpose and intent of this measure is to expand the type of revenue that can be deposited into the endangered species trust fund, which would allow the Department of Land and Natural Resources to seek additional types of revenue for implementation of endangered species protections under chapter 195D, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, The Nature Conservancy, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals.

Your Committees find that, as the endangered species capital of the world, Hawaii needs flexibility in revenue sources to protect Hawaii's iconic species threatened by invasive species, fire, and disease. This measure would allow for additional avenues of revenue to assist the Department of Land and Natural Resources in its efforts to conserve and protect endangered plant and animal species.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1254 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

### SCRep. 466 Energy, Economic Development, and Tourism on S.B. No. 33

The purpose and intent of this measure is to repeal the annual \$35,000,000 rolling cap for the motion picture, digital media, and film production income tax credit.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; University of Hawai'i System; Academy for Creative Media at the University of Hawaii at Manoa; Maui County Film Office; Hawaii Film and Entertainment Board; 'Ohina LLC; CBS Corporation; Screen Actors Guild – American Federation of Television and Radio Artists; HiMotion Cinema; Island Film Group; Grafik Films; Youth Art of Hawaii; Motion Picture Association of America; International Alliance of Theatrical State Employees, Local 665; Limelight Productions; NBC Universal; Brad Starks Photo LLC; Hawaii Teamsters and Allied Workers, Local 996; Hawaii Filmmakers Collective; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'; GVS Accelerator; Viacom; The Walt Disney Company; Kauai Film Commission; Ho'omanapono Political Action Committee; and one hundred thirty individuals. Your Committee received testimony in opposition to this measure from three individuals. Your Committee received comments on this measure from the Department of Taxation and one individual.

Your Committee finds that from 2006 through 2018, the motion picture, digital media, and film production income tax credit delivered \$2.4 billion in estimated production spending, generated \$3.9 billion in estimated economic activity in the State since 2006, and created an average of nearly 3,000 industry jobs annually. The film industry is an important component of a diversified economy, and the income tax credit has been an instrumental incentive for motion picture, digital media, and film production in the State.

Your Committee further finds that the tax credit was originally established as the motion picture and film production income tax credit in 1997 and has been amended over the years. In 2006, the tax credit was expanded to, among other things, include digital media; however, a sunset date of January 1, 2016, was also established for the amendments made to the tax credit in 2006. In 2013, the tax credit was again amended, and the sunset date for amendments made in 2006, and since then, was extended to January 1, 2019. In 2017, the tax credit was again amended to extend the sunset date for amendments to January 1, 2026, and to establish a \$35 million cap on the total amount of tax credits allowed in any particular year. The cap, which applies to taxable years beginning after December 31, 2018, and is also subject to the January 1, 2026, sunset date, is a rolling cap that allows claims for a tax credit that exceed the amendments made to the tax credit in the subsequent year, under that year's cap, except in the final year of the tax credit. After the amendments made to the tax credit repeal, the tax credit will be reenacted in a previous form, without the cap, as the motion picture and film production tax credit.

Your Committee received testimony from the Department of Business, Economic Development, and Tourism indicating that the cap poses severe administrative challenges on the State Film Office due to insufficient staffing to handle the additional layers of accounting required to adequately administer the cap. This measure proposes to repeal the cap before the cap would have otherwise been repealed on January 1, 2026.

Your Committee has amended this measure by:

- (1) Making it apply to taxable years beginning after December 31, 2018; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 33, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 33, S.D. 2, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 467 (Joint) Energy, Economic Development, and Tourism and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 198

The purpose and intent of this measure is to authorize counties to levy a county surcharge on transient accommodations tax (TAT) in their respective counties pursuant to certain conditions.

Your Committees received testimony in support of this measure from the Office of the Mayor of the City and County of Honolulu. Your Committees received testimony in opposition to this measure from the Honolulu County Republican Party. Your Committees received comments on this measure from the Department of Taxation, Office of the Mayor of the County of Maui, Office of the Mayor of the County of Hawaii, and Tax Foundation of Hawaii.

Your Committees find that the TAT is collected from hotels and other short-term lodgings that host guests for fewer than one hundred eighty days. TAT revenues help to pay for tourism-related expenditures, and a portion is allocated to the counties for their share of tourism-related costs. Your Committees also find that the State has experienced a growth in tourism and likewise tourism-related expenditures and impacts. This measure authorizes the counties to establish a surcharge on the TAT, which will help generate additional revenue to pay for rising expenditures to ensure that Hawaii remains a premier vacation destination, while also maintaining a high quality of life and resources for residents.

Your Committees have amended this measure by:

- (1) Inserting a blank cap on each county's surcharge on the transient accommodations tax;
- (2) Amending the method of designating the taxation district to which the county surcharge on transient accommodations tax is assigned; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 198, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 198, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 4; Ayes with Reservations (Taniguchi). Noes, none. Excused, 1 (Inouve).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Harimoto).

# SCRep. 468 (Joint) Energy, Economic Development, and Tourism and Technology on S.B. No. 272

The purpose and intent of this measure is to amend a definition of "solar energy device" to include building-applied photovoltaics and building-integrated photovoltaics and exclude passive solar skylights or windows, thereby clarifying the types of devices that are allowed to be installed on single-family residential dwellings and townhouses.

Your Committees received testimony in support of this measure from one individual. Your Committees received comments on this measure from the Hawaii Solar Energy Association.

Your Committees find that the existing statutory definition of "solar energy device" as used in section 514B-140(c), Hawaii Revised Statutes, needs to be updated so as to take into account the latest advancements in renewable energy technologies, such as electricity-producing photovoltaic windows. This measure clarifies and adds building-applied photovoltaics and building-integrated photovoltaics to the definition of "solar energy device", thereby specifically allowing installation of the photovoltaic systems on or in single-family residential dwellings and townhouses, subject to certain conditions.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 272 and recommend that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Fevella).

Technology: Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

# SCRep. 469 (Joint) Energy, Economic Development, and Tourism and Technology on S.B. No. 995

The purpose and intent of this measure is to appropriate funds into and out of the research and development special fund for the research and development program of the Hawaii Technology Development Corporation.

Your Committees received testimony in support of this measure from the Hawaii Technology Development Corporation, Hawaii Farm Bureau, Makai Ocean Engineering, Oceanit, and one individual.

Your Committees find that the Hawaii Technology Development Corporation is a key state agency in the development and support of initiatives that promote technology and innovation jobs in the State. In 2018, the Legislature provided funding for and made changes to the small business innovation research program. The Legislature supports continuation of the small business innovation research program as an important initiative of the State to assist Hawaii small businesses in advancing technology and developing new products. This measure appropriates funds for the research and development program, which will support and sustain the small business innovation research program operated by the Hawaii Technology Development Corporation.

Your Committees have amended this measure by:

- (1) Inserting language to require the Hawaii Technology Development Corporation to adopt rules to require a business that has received a research and development award to reimburse the State if that business relocates outside of Hawaii within five years of receiving the award; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 995, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 995, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Fevella).

Technology: Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

#### SCRep. 470 (Joint) Energy, Economic Development, and Tourism and Technology on S.B. No. 989

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Business, Economic Development, and Tourism.

Your Committees received testimony in support of this measure from the Hawaii Technology Development Corporation, Hawaii Strategic Development Corporation, Hawaii Tourism Authority, Hawaii Green Infrastructure Authority, Chamber of Commerce Hawaii, and Maui Chamber of Commerce. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committees find that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Business, Economic Development, and Tourism in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committees have amended this measure by:

- Changing the means of financing for Item No. 3, Program ID BED105CI, Creative Lab coworking space and studio at the Entrepreneurs Sandbox and FTZ, to general funds;
- (2) Changing the funding amount for Item No. 17, Program ID BED138GI, funding for fringe benefits, to \$285,300 for fiscal years 2019-2020 and 2020-2021;
- (3) Revising Item No. 19 by adding the Program ID BED144, amending the program description to read, "funding for EDB to formulate a business plan", and indicating that the funding is to be provided as a grant-in-aid;
- (4) Removing Item No. 10, Program ID BED105CI, request reinstatement of Creative Lab funding, because it duplicates Item No. 4: and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees' intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committees request your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 989, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 989, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Fevella).

Technology: Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

# SCRep. 471 Energy, Economic Development, and Tourism on S.B. No. 1461

The purpose and intent of this measure is to require the Governor to enter into negotiations with the United States Department of Energy to establish a national laboratory in Hawaii.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development and Tourism; Hawaiian Electric Companies; and one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that the United States Department of Energy's national laboratories have served as the leading institutions for scientific innovation in the United States for more than seventy years. The national laboratories tackle the critical scientific challenges of our time, from combating climate change to discovering the origins of our universe, and possess unique instruments and facilities, many of which are found nowhere else in the world. Your Committee further finds that establishing a national laboratory in Hawaii would strengthen the State's economy by attracting and retaining professionals in the science, technology, engineering, and math sectors and may assist the State in reaching its renewable energy goals.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1461 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 472 (Joint) Hawaiian Affairs and Housing on S.B. No. 1223

The purpose and intent of this measure is to make permanent session laws that require counties to issue affordable housing credits to the Department of Hawaiian Home Lands and affordable housing credits for each residential unit or vacant lot, if allowed under county affordable housing programs, developed by the Department of Hawaiian Home Lands.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands and one individual. Your Committees received testimony in opposition to this measure from the Department of Planning and Permitting of the City and County of Honolulu.

Your Committees find that the State's need for more affordable housing is an immediate and ever-growing concern that must be addressed. Given the overwhelming need for affordable housing, your Committees find that providing multiple avenues for project development, including by the State, county, and through departments, is an important step toward increasing the State's affordable housing inventory. However, your Committees have heard concerns in testimony that this measure extends Department of Hawaiian Home Lands' affordable housing resources in a manner that is at odds with long term planning to develop affordable housing at the county level. Your Committees conclude that amendments to this measure are necessary to provide the Department of Hawaiian Home Lands and the counties with time to reconcile their affordable housing development plans, if possible.

Your Committees have amended this measure by:

- (1) Extending Act 141, Session Laws of Hawaii 2009, as amended, and Act 98, Session Laws of Hawaii 2012, as amended, until July 1, 2024, rather than making them permanent; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1223, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1223, S.D. 1, and be referred to your Committees on Public Safety, Intergovernmental, and Military Affairs and Ways and Means.

Signed by the Chairs on behalf of the Committees. Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella). Housing: Ayes, 5. Noes, none. Excused, none.

#### SCRep. 473 (Joint) Hawaiian Affairs and Housing and Water and Land on S.B. No. 1224

The purpose and intent of this measure is to exclude lands set aside by the Governor to the Hawaii Public Housing Authority, and lands to which the Hawaii Public Housing Authority holds title, from the definition of "public lands" under the jurisdiction of the Board of Land and Natural Resources.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority and one individual.

Your Committees find that the Hawaii Public Housing Authority titled lands were previously exempt from the definition of "public lands" under section 171-2, Hawaii Revised Statutes, when those lands were held by the Authority's predecessor agencies, the Housing and Community Development Corporation of Hawaii and the Hawaii Housing Authority. After the Housing and Community Development Corporation of Hawaii was bifurcated into two separate agencies, an exemption for Hawaii Public Housing Authority titled lands was inadvertently excluded from the list of lands exempt from the definition of "public lands" under section 171-2, HRS.

Your Committees further find that the Hawaii Public Housing Authority is authorized to acquire, own, and hold real property pursuant to section 356D-8, HRS, and its federal low-income public housing properties are under a federal annual contributions contract with the federal government. Thus, its titled lands do not fall under the jurisdiction of the State's public lands and should be exempt from the definition of "public lands" and the jurisdiction of the Board of Land and Natural Resources to avoid delays in redevelopment projects.

Your Committees have amended this measure by:

- (1) Clarifying that lands set aside by the Governor to the Hawaii Public Housing Authority and lands to which the Authority holds title are exempt from public lands under the oversight of the Board of Land and Natural Resources, provided that the Authority shall not sell those lands in fee simple; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that removing the Hawaii Public Housing Authority from oversight of the Board of Land and Natural Resources has raised some concerns about possible unintended consequences and stakeholders will continue to work with the Hawaii Public Housing Authority to clarify those issues in ongoing discussions as this measure moves forward.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs, Housing, and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1224, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1224, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella). Housing: Ayes, 5. Noes, none. Excused, none. Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 474 Commerce, Consumer Protection, and Health on S.B. No. 674

The purpose and intent of this measure is to prohibit persons licensed to provide professional counseling from advertising or engaging in gender identity change efforts.

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i Civil Rights Commission, Hawai'i Psychological Association, Hawai'i Health and Harm Reduction Center, Planned Parenthood Votes Northwest and Hawaii, LGBT Caucus of the Democratic Party of Hawai'i, Mental Health America of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and fifteen individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that conversion therapy is an odious practice that can result in substantial harm to transgender and LGBTQ+persons, and there is broad consensus among medical, psychiatric, and health professionals on the dangers of this form of intervention. The potential risks of "reparative therapy" include depression, anxiety, and self-destructive behavior. A therapist aligned with societal prejudices against homosexuality may reinforce self-hatred already experienced by the patient. Your Committee notes that this measure is a housekeeping measure that is the product of a task force led by the Adolescent Mental Health Division of the Department of Health and makes it clear that the ban on these destructive procedures applies equally to efforts to change the sexual orientation of lesbian, gay, or bisexual minors and efforts to change the gender identity of transgender minors.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 674 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ruderman, Thielen).

#### SCRep. 475 (Joint) Commerce, Consumer Protection, and Health and Higher Education on S.B. No. 1404

The purpose and intent of this measure is to appropriate funds to the Department of Health in coordination with the John A. Burns School of Medicine of the University of Hawaii at Manoa for the health care provider loan repayment program, provided that the funds are matched on a dollar-for-dollar basis by a private or another public source.

Your Committees received testimony in support of this measure from the Department of Health, University of Hawai'i System, Hawai'i State Center for Nursing, East Hawaii Region of Hawaii Health Systems Corporation, Hilo Medical Center Foundation, Lanai Community Health Center, Office of the Mayor for the County of Hawai'i, Hawaii Medical Association, Hawaii Medical Service Association, Healthcare Association of Hawaii, Hawaii Pacific Health, The Queen's Health Systems, Hawai'i Primary Care Association, Hawaii State Rural Health Association, Rural Health Interest Group at the John A. Burns School of Medicine, and twenty-seven individuals.

Your Committees find that Hawaii is experiencing a shortage of approximately eight hundred doctors, and almost all other types of primary care and behavioral health care workers. This shortage is most acute for those on neighbor islands and in rural areas. Your Committees further find that one of the fastest and least expensive methods for recruiting health care providers is through a loan repayment program. The Hawaii state loan repayment program administered through the John A. Burns School of Medicine, has helped forty-three health care providers since its inception in 2012. Of the program graduates, almost two-thirds are still practicing in underserved areas of the State.

Your Committees also find that the average student loan indebtedness for John A. Burns School of Medicine residents and fellows exceeds \$235,000. These residents and fellows begin repayment on their loans while in residency training and this, together with the high cost of living and other expenses in the State, results in few physicians choosing primary care specialties or practicing in underserved or rural communities in Hawaii. This measure continues the health care provider loan repayment program benefits in exchange for the commitment to serve in rural, neighbor island populations, which will help reduce the health care provider shortages in those areas.

Your Committees have amended this measure by:

- (1) Expanding the eligible health care professionals under the health care provider loan repayment program to include advanced practice registered nurses, registered nurses, and licensed social workers; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1404, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1404, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Nishihara). Higher Education: Ayes, 5. Noes, none. Excused, none.

# SCRep. 476 Commerce, Consumer Protection, and Health on S.B. No. 285

The purpose and intent of this measure is to appropriate funds for the Department of Commerce and Consumer Affairs.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Public Utilities Commission, and one individual.

Your Committee finds that this measure provides a legislative vehicle should funding become available for the purposes of this measure prior to the end of the 2019-2021 fiscal biennium. Your Committee notes that according to the testimony from the

Department of Commerce and Consumer Affairs, the Department's total base budget is \$83,856,490 for fiscal years 2019-2020 and 2020-2021.

Your Committee finds that this measure provides a legislative vehicle should funding become available for the purposes of this measure prior to the end of the 2019-2021 fiscal biennium.

Your Committee has amended this measure by clarifying that the source of funding for the Department of Commerce and Consumer Affairs is special, rather than general, funds.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 285, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 285, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Thielen, Fevella).

#### SCRep. 477 Commerce, Consumer Protection, and Health on S.B. No. 895

The purpose and intent of this measure is to extend the offense of false labeling of Hawaii-grown coffee to include roasted coffee.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Coffee Association; Greenwell Farms, Inc.; Rusty's Hawaiian, LLC; Ka'u Mountain Farm; MauiGrown Coffee, Inc.; Maui Coffee Association; Kona Coffee Farmers Association; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and one individual.

Your Committee finds that legitimate coffee producers who offer high quality products grown in Hawaii are at a competitive disadvantage when counterfeited, foreign-grown coffee is blatantly mislabeled as Hawaii-grown and offered at a lower price. This provides counterfeiters an imbalanced windfall, artificially creates downward price pressure for local growers, and shrinks their margins. Under existing law, counterfeiters can ship roasted coffee without the ability of the Department of Agriculture to challenge the authenticity of origin. However, new technologies and methodologies are now available to definitively prove where coffee is grown, both in roasted and green forms. This measure closes an important loophole to help protect the integrity of the Hawaii coffee industry by extending the offense of false labeling of Hawaii-grown coffee to roasted coffee.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 895 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

#### SCRep. 478 Commerce, Consumer Protection, and Health on S.B. No. 1325

The purpose and intent of this measure is to clarify that condominium associations may invest in government money market funds.

Your Committee received testimony in support of this measure from the Hawaii Bankers Association, Associa, and one individual.

Your Committee finds that existing law allows associations to invest only in certain securities, so that money collected from unit owners can be prudently invested. Government money market funds are mutual funds composed solely of government obligations. Mutual funds with government obligations often invest their excess cash in a sub-fund or funds. This enables the mutual fund to give associations a greater return than holding cash, while allowing the overlying fund to remain liquid enough to invest directly into government obligations when excess cash accumulates sufficiently or the market factors direct investment. This measure modernizes state law for consistency with the federal Securities and Exchange Commission regulations and allows condominium associations to invest in mutual funds.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1325 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

## SCRep. 479 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 531

The purpose and intent of this measure is to make financial exploitation of an elder by a caregiver a Class A felony.

Your Committees received testimony in support of this measure from the Office of the Prosecuting Attorney, County of Hawai'i; Department of the Prosecuting Attorney of the City and County of Honolulu; Honolulu Police Department; Hawaii Credit Union League; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and five individuals. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that there is a growing trend of financial exploitation of an elder by a caregiver. Caregivers gain extensive knowledge of their client's financial situation during the course of their work and in cases where an elderly person is dependent on a caregiver for physical and social support, the elderly person can be particularly vulnerable to financial exploitation. Financial exploitation of the elderly often causes permanent damage, as they are typically unable to rejoin the workforce to rebuild their finances. Furthermore, abuse by caregivers can leave victims isolated and vulnerable and unwilling to trust another caregiver, resulting in diminished quality of life.

Your Committees have heard the concerns raised in testimony that elders are only one segment of a larger population of vulnerable adults that rely on caregivers and are therefore prey to financial exploitation. All vulnerable adults reliant on caregivers share the exposure to and consequences of financial exploitation by caregivers.

Accordingly, your Committees have amended this measure by:

- Clarifying that the offense established by this measure is financial exploitation of a vulnerable person, rather than an elderly
  person, and making associated conforming amendments;
- (2) Amending the elements of the offense of financial exploitation and definition of "caregiver" for consistency with the existing definitions of "caregiver" and "financial exploitation" in chapter 346, Hawaii Revised Statutes;
- (3) Updating its purpose section; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 531, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 531, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees. Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Fevella). Human Services: Ayes, 3. Noes, none. Excused, 2 (Ihara, Riviere).

#### SCRep. 480 Housing on S.B. No. 122

The purpose and intent of this measure is to prohibit discrimination, including in advertisements for available real property, based on participation in a housing assistance program, or requirements related to participation in housing assistance programs, in real property transactions and requirements.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness, Hawaii Public Housing Authority, Hawaii Civil Rights Commission, LGBT Caucus of the Democratic Party of Hawaii, and two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association of REALTORS and one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that low-income individuals experience extreme difficulty in finding affordable rentals in Hawaii and are often faced with discrimination based on their source of income. Your Committee further finds that there have been numerous cases of housing vacancy advertisements proclaiming that they do not accept section 8 housing voucher recipients as potential tenants. Your Committee also finds that Hawaii currently does not prohibit housing discrimination based on lawful sources of income, including the use of housing vouchers, whereas ten states and the District of Columbia do. This measure will address a key barrier to housing for many low-income and homeless individuals and families by prohibiting discrimination against any individual based on their source of income.

Your Committee recognizes the concern expressed by the Department of Commerce and Consumer Affairs that it is not the appropriate agency to produce and publicize materials relating to housing discrimination based on income received from housing assistance programs. Your Committee therefore finds that an amendment is necessary to correct this requirement.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language, as suggested by the Hawai'i Civil Rights Commission, establishing remedies for discrimination based on participation, or requirements related to participation, in a housing assistance program and clarifying that these remedies only apply to discrimination based on participation, or requirements related to participation, in a housing assistance program;
- (2) Removing the Department of Commerce and Consumer Affairs' responsibility and requiring only the Hawai'i Civil Rights Commission to produce materials and publicize the prohibition against discrimination based on participation, or requirements related to participation, in housing assistance programs; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 122, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 122, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Kanuha).

# SCRep. 481 Housing on S.B. No. 1312

The purpose and intent of this measure is to increase the Hula Mae multifamily revenue bond authorization.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and Hawai'i Association of REALTORS.

Your Committee finds that the Housing Loan and Mortgage program, more commonly known as the Hula Mae multifamily bond program, promotes the development of new, or the acquisition and rehabilitation of existing, rental housing projects through the issuance of mortgage revenue bonds for interim and permanent financing at rates below conventional market interest rates. Your Committee notes that over the last few years, the Hula Mae multifamily bond program has become increasingly popular for nonprofit

and for-profit developers of affordable rental housing. This measure would provide more opportunities to develop affordable rental housing by increasing the Hula Mae multifamily revenue bond authorization.

Your Committee has amended this measure by:

- (1) Changing the revenue bond amount from \$2,500,000,000 to a blank amount;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee recommends that your Committee on Ways and Means consider a maximum revenue bond authorization amount of \$2,500,000,000 for the Hula Mae multifamily program.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1312, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1312, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Kanuha).

#### SCRep. 482 Housing on S.B. No. 1189

The purpose and intent of this measure is to:

- (1) Make technical and housekeeping amendments to Act 150, Session Laws of Hawaii 2018; and
- (2) Appropriate funds out of the dwelling unit revolving fund for the acquisition of the ground lease of Front Street Apartments in Lahaina, Maui.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and one individual. Your Committee received comments on this measure from the Front Street Affordable Housing Partners.

Your Committee finds that the tenants of the Front Street Apartments are facing an August 2019 deadline by the building owner, who plans to raise the rents to market-level prices, removing its status as affordable housing and effectively evicting the tenants. This measure authorizes the Hawaii Housing Finance and Development Corporation to expend an unspecified amount from the dwelling unit revolving fund for the acquisition of the ground lease of the Front Street Apartments, as part of its effort to develop and preserve affordable rental housing in the County of Maui.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1189, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1189, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Kanuha).

## SCRep. 483 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1466

The purpose and intent of this measure is to reduce gun deaths and injuries in the State by establishing a detailed process that allows a law enforcement officer or family or household member to obtain a court order to prevent a person from accessing firearms and ammunition if the person poses a danger of causing bodily injury to the person or another.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii State Coalition Against Domestic Violence, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Injury Prevention Advisory Committee, Everytown for Gun Safety, Moms Demand Action Oahu Chapter, Moms Demand Action for Gun Sense, and over thirty individuals. Your Committee received testimony in opposition to this measure from the National Rifle Association, Institute for Rational and Evidence-based Legislation, Hawaii Leaders Shooters Legion, Waianae Hunting Association, Hawaii Rifle Association, and over one hundred fifty individuals. Your Committee received comments on this measure from the Judiciary, American Civil Liberties Union, and one individual.

Your Committee finds that California, Oregon, Washington and numerous other states have already implemented gun violence protection laws allowing for a family or household member to file a petition for the temporary removal of guns from an individual who shows clear and convincing signs of planning to use these guns to commit violent acts.

Your Committee further finds that pursuant to section 134-7, Hawaii Revised Statutes, police already have authority to take custody of a person's firearms and ammunition upon issuance of a restraining order or order of protection by any court if the court finds that the person may use a firearm to threaten, injure, or abuse any person. However, the statute does not address preventive actions that may be taken by law enforcement or a family or household member of an individual who shows clear and convincing signs of planning to use firearms to commit violent acts. Your Committee believes that a more comprehensive law is needed.

Your Committee has amended this measure by:

- (1) Allowing the courts to order a surrender of firearms under either a domestic abuse or gun violence protective order;
- (2) Consolidating the filing of a petition for a gun violence protective order with the ex parte motion for a gun violence protective order:
- (3) Eliminating the requirement that a petitioner must notify all adult family or household members of the petition;
- (4) Requiring a police officer to confiscate the firearm when notice of the petition is served;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the Judiciary raised multiple issues in its testimony, including the need for increased funding to implement the additional court procedures created in this measure and the desire to conduct more research for your Committee on Judiciary.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1466, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1466, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 484 (Joint) Public Safety, Intergovernmental, and Military Affairs and Higher Education on S.B. No. 1343

The purpose and intent of this measure is to:

- Require compliance with the federal Military Selective Service Act to be eligible for enrollment in a state-supported postsecondary educational institution, qualify for state financial assistance for post-secondary education, or be eligible for state or county employment or service; and
- (2) Provide certain exceptions.

Your Committees received testimony in support of this measure from the Hawaii Headquarters of the Selective Service System and one individual. Your Committees received testimony in opposition to this measure from the Hawaii Civil Rights Commission, University of Hawaii System, Libertarian Party of Hawaii, and one individual.

Your Committees find that the United States Congress enacted the United States Military Selective Service Act in order to ensure that sufficient strength in armed forces exists in the nation to ensure national security, while simultaneously sharing the obligations and privileges of serving in the armed forces and the reserve components of the military through a system of selection that is just and fair. Your Committees further find that the United States Military Selective Service Act requires all male citizens and males residing in the United States, except for lawfully admitted non-immigrants, to register with the Selective Service System upon reaching the age of eighteen. This measure establishes compliance with the federal Military Selective Service Act as a prerequisite for participation in numerous state-supported programs, positions, and benefits.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1343 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

#### SCRep. 485 (Joint) Public Safety, Intergovernmental, and Military Affairs and Housing on S.B. No. 517

The purpose and intent of this measure is to require each county to prepare a housing supply plan to plan for projected increases in the State's housing supply to meet housing demands of the respective county, identify and analyze existing and projected housing needs for all income levels, and identify adequate sites for housing, including rental housing.

Your Committees received testimony in support of this measure from the Building Industry Association of Hawaii, Hawaiian Community Assets, and Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi. Your Committees received testimony in opposition to this measure from the City and County of Honolulu Department of Planning and Permitting.

Your Committees find that there is a severe shortage of affordable housing in Hawaii, and the shortage places an immense strain on lower-income households. As several government studies have concluded that the State does not have and is not producing enough new housing units to meet normal population growth projections to 2025, it is critical for the counties to also take initiative in increasing the production of housing to meet the anticipated housing demands in their respective counties. This measure requires the counties to be proactive in planning for new housing at all price points to meet anticipated demand.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 517 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Wakai, Harimoto).

Housing: Ayes, 3. Noes, none. Excused, 2 (Thielen, Fevella).

#### SCRep. 486 (Joint) Public Safety, Intergovernmental, and Military Affairs and Housing on S.B. No. 1302

The purpose and intent of this measure is to appropriate funds for disaster relief, recovery, mitigation, and remediation activities for the County of Hawai'i.

Your Committees received testimony in support of this measure from the Office of the Governor; Hawaii Emergency Management Agency; Department of Agriculture; three members of the Hawai'i County Council; County of Hawai'i Department of Research and Development; Hawaiian Electric Company, Inc.; Kapoho Land Partnership; Hawaiian Community Assets; Kohala Coast Resort Association; Hawaii Habitat for Humanity Association; Habitat for Humanity Hawai'i Island; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; HOPE Services Hawai'i; and ten individuals.

Your Committees find that state assistance is needed for relief, recovery, mitigation, and remediation from the presidentially-declared Kilauea eruption major disaster in the County of Hawai'i. The scale of the relief, recovery, mitigation, and remediation exceeds the County of Hawai'i's capacity. Even with federal disaster assistance, the County of Hawai'i will need assistance to provide the local match to federal funding and to address recovery, mitigation, and remediation needs beyond what federal programs cover.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1302 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Wakai, Harimoto).

Housing: Ayes, 3. Noes, none. Excused, 2 (Thielen, Fevella).

# SCRep. 487 (Joint) Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on S.B. No. 381

The purpose and intent of this measure is to require the counties to adopt supplemental rules governing condominium property regimes, including agricultural lands held in condominium property regimes.

Your Committees received testimony in support of this measure from the Office of Planning, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committees received testimony in opposition to this measure from the Hawaii Cattlemen's Council. Your Committees received comments on this measure from the Land Use Commission, Department of Agriculture, and Land Use Research Foundation of Hawaii.

Your Committees find that better enforcement of agricultural uses on agricultural lands needs to be implemented. Your Committees therefore find that by requiring counties to adopt supplemental rules governing agricultural lands, this measure will help protect Hawaii's agricultural lands against encroachment of non-agricultural uses such as residential development that has little or no connection to bona fide farming activities.

Your Committees have amended this measure by requiring the counties to adopt supplemental ordinances, in addition to rules, to ensure conformance with applicable zoning and state land use restrictions and any applicable development permit approvals.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 381, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 381, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Thielen, Fevella).

# SCRep. 488 (Joint) Public Safety, Intergovernmental, and Military Affairs and Energy, Economic Development, and Tourism on S.B. No. 154

The purpose and intent of this measure is to amend the existing state fireworks law by authorizing the use of fireworks by permit for film and theatrical productions and authorizing law enforcement to test, dispose of, or destroy illegal or unwanted fireworks.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, County of Hawai'i Fire Department, and the County of Maui Department of Fire and Public Safety. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism and Honolulu Police Department.

Your Committees find that the illegal use of fireworks is a significant public health threat and causes a host of problems including undue stress and discomfort due to noise pollution, numerous fires, and injuries ranging from minor to life-threatening. Your Committees further find that allowing law enforcement agencies to test, dispose, or destroy confiscated fireworks without a permit enhances public safety and property protection.

Your Committees further find that Hawaii is a popular filming location for various feature films and television series. The film industry often uses pyrotechnics as part of special effects and stunts, and permits are already available for the use of aerial devices, display fireworks, and articles pyrotechnic for display activities, which include movie and television productions. However, an exemption for film and theatrical productions with a valid fireworks permit from certain general prohibited uses of fireworks, found in section 132D-5, Hawaii Revised Statutes, such as throwing ignited fireworks at a vehicle and exploding fireworks from above the first floor of a building, would give film and theatrical productions greater creative freedom to use pyrotechnics in their craft.

Your Committees note that since the terms "movie" and "television production" are already defined in the state fireworks law, use of those terms instead of "film" may be more appropriate throughout this measure.

Your Committees have amended this measure accordingly by replacing references to "film" with "movie" and "television".

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 154, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 154, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Harimoto).

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Inouye).

# SCRep. 489 (Joint) Public Safety, Intergovernmental, and Military Affairs and Energy, Economic Development, and Tourism on S.B. No. 609

The purpose and intent of this measure is to create the Homeland Security and Resiliency Council to identify electric grid and other critical infrastructure needs and provide recommendations for enhancing grid and critical infrastructure resiliency throughout the State.

Your Committees received testimony in support of this measure from the Department of Transportation, Department of Defense, Hawaiian Electric Company and its subsidiaries, Hawaiiia Gas, Young Brothers, and Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiii. Your Committees received comments on this measure from the Office of Planning, Honolulu Board of Water Supply, and Life of the Land.

Your Committees find that Hawaii is susceptible to natural disasters like flooding, hurricanes, and storm surges. Your Committees also find that critical infrastructure resiliency is particularly important due to the State's remote location and a resilient electric grid is a critical component to the State's ability to overcome a natural disaster.

Your Committees further find that creating a Homeland Security and Resiliency Council to identify electric grid and other critical infrastructure needs and provide recommendations for enhancing grid and critical infrastructure resiliency throughout the State is imperative as the frequency and intensity of natural disasters are on the rise.

Your Committees have amended this measure by:

- (1) Adding representatives of each gas utility company that operates in the State to the individuals to be invited to join the Homeland Security and Resiliency Council;
- (2) Adding representatives of each water carrier that operates between points in the State to the individuals to be invited to join the Homeland Security and Resiliency Council;
- (3) Making the Administrator of the Hawaii State Energy Office the co-chair, in lieu of the Director of the Office of Planning, on the Homeland Security and Resiliency Council;
- (4) Amending the definition of "critical infrastructure sector" to include the sectors of gas energy and interisland transport of property by water; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 609, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 609, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Baker, Harimoto).

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Inouye).

# SCRep. 490 (Joint) Judiciary and Government Operations on S.B. No. 128

The purpose and intent of this measure is to:

- (1) Clarify that the Attorney General shall not represent the Legislature and individual legislators acting in their official capacity;
- (2) Require the respective house to provide legal representation for any member who is sued in the member's official capacity unless the member declines such representation.

Your Committees received testimony in support of this measure from one individual.

Your Committees find that the Attorney General is the chief legal officer and chief law enforcement officer of the State of Hawaii. Your Committees further find that the Department of the Attorney General defends and represents state officials and employees when they are sued for actions they have taken in connection with their state positions. This measure is intended to clarify the circumstances in which the Department of the Attorney General represents the Legislature, a house of the Legislature, or individual legislators, and provides for contingent legal representation if legislators decline representation by the Department of the Attorney General.

Accordingly, your Committees have amended this measure by:

- (1) Requiring the Attorney General to represent the Legislature, a house of the Legislature, or individual legislators unless the Legislature, house of the Legislature, or individual legislators decline representation;
- (2) Clarifying that, if individual legislators subject to a suit arising from acts or omissions made in the course and scope of employment decline representation by the Attorney General, the respective house of the Legislature is required at their own

cost to provide legal representation for those members unless the legislators decline representation by the respective house;

(3) Requiring each house of the Legislature to establish rules providing for legal representation.

As affirmed by the records of votes of the members of your Committees on Judiciary and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 128, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 128, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 4; Ayes with Reservations (Kim). Noes, none. Excused, 1 (Fevella).

Government Operations: Ayes, 3; Ayes with Reservations (Inouye, Kanuha). Noes, none. Excused, 2 (Baker, Fevella).

## SCRep. 491 Agriculture and Environment on S.B. No. 422

The purpose and intent of this measure is to:

- (1) Mandate the Department of Health to adopt and implement the recommendations made by the Office of the Auditor regarding the advance disposal fee program and deposit beverage container program;
- (2) Require the Department of Health to report on its implementation of the recommendations to the Legislature; and
- (3) Appropriate funds to the Department of Health to conduct a cost-benefit analysis of combining the advance disposal fee glass container and deposit beverage container glass processing streams.

Your Committee received testimony in support of this measure from the Sierra Club of Hawai'i and one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that glass recycling in the State is subsidized by two programs; non-deposit glass recycling is subsidized by the advanced disposal fee program, and deposit beverage container glass recycling is subsidized by the deposit beverage container program. Each program requires that its glass be processed and marketed separately.

Your Committee further finds that the Legislature adopted S.C.R. No. 74, S.D. 1, H.D. 1, Regular Session of 2014, which requested the Office of the Auditor to conduct an audit of the Department of Health's advance disposal fee program. The Office of the Auditor recommended that the Department of Health consider combining the processing streams of the two programs to increase efficiency and decrease costs, while also increasing the supply of glass available for down-cycling. Your Committee notes that it was also recommended that the Department of Health update and finalize the 2008 Department of Health draft policy on glass recycling. This measure will require the Department of Health to adopt the recommendations of the Auditor, thereby increasing efficiency and decreasing costs for the State's benefit.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 422 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 492 (Joint) Higher Education and Hawaiian Affairs on S.B. No. 938

The purpose and intent of this measure is to appropriate funds for four full-time positions (4.0 FTE) for services and programs for Native Hawaiian Student Services at the University of Hawaii at Manoa.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Native Hawaiian Student Services at the University of Hawai'i at Mānoa, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and ten individuals.

Your Committees find that Native Hawaiian Student Services at the University of Hawaii at Manoa prepares Native Hawaiian students to build upon a legacy of excellence, with creativity and confidence, in order to fulfill the kuleana of their time, thereby leading Hawaii into a thriving and life-affirming future. Additionally, Native Hawaiian Student Services programs are designed to improve institutional access, student-faculty engagement, research, leadership, and student success, by fostering Hawaiian identities and cultivating Hawaiian scholarship. Your Committees further find that Native Hawaiian Student Services is supported by a federal grant that expires in 2019. As the number of Native Hawaiian students attending the University of Hawaii at Manoa continues to rise, this measure ensures the furtherance of the work of Native Hawaiian Student Services in providing academic support for and improving access and persistence of Hawaiian students at the university.

As affirmed by the records of votes of the members of your Committees on Higher Education and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 938 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kahele).

Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Kahele).

# SCRep. 493 (Joint) Housing and Water and Land on S.B. No. 498

The purpose and intent of this measure is to require all development or redevelopment plans of state agencies to include affordable housing units with at least 20 percent reserved for residents with an income of less than or equal to 80 percent of the area median income, unless the Office of Planning determines that housing is not feasible or desirable on a particular property.

Your Committees received testimony in support of this measure from the Office of Planning, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual.

Your Committees find that the State is in critical need of the development and construction of affordable housing units. Your Committees further find that the transit-oriented development associated with the construction of a rail transit system on Oahu has the potential to fulfill a housing goal of developing at least 22,500 affordable rental housing units by 2026. Your Committees believe that requiring an affordable housing component as part of development and redevelopment of state properties along the rail transit line will increase the affordable housing stock and encourage use of the transit system. This measure will assist in focusing the State's efforts on affordable housing.

Your Committees have amended this measure by:

- (1) Inserting a blank percentage of affordable housing units that must be reserved for residents with an income less than or equal to eighty percent of the area median income; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 498, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 498, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Housing: Ayes, 5. Noes, none. Excused, none. Water and Land: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

# SCRep. 494 (Joint) Housing and Water and Land on S.B. No. 710

The purpose and intent of this measure is to clarify that lands set aside to the Hawaii Housing Finance and Development Corporation (HHFDC) by the Governor or leased to HHFDC by other state agencies are exempt from the definition of "public lands".

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation. Your Committees received comments on this measure from the Department of Land and Natural Resources and Office of Hawaiian Affairs.

Your Committees find that the State is going through a severe shortage of affordable housing. Your Committees further find that under existing law, only lands to which HHFDC holds title is exempt from the definition of "public lands"; therefore, the exemption does not take into consideration other forms of lands that HHFDC is developing. This measure would expand the exemption to include lands that the Governor has set aside to HHFDC or lands that were leased to HHFDC by another state agency, thereby expediting the development of housing on state public lands.

Your Committees have amended this measure by:

- (1) As suggested by the Office of Hawaiian Affairs, subjecting lands that are set aside to HHFDC by the Governor and lands that are leased to HHFDC by other state agencies to legislative approval prior to sale or gifts; and
- (2) Requiring any disposition of land by HHFDC to the public to be subject to chapter 171, Hawaii Revised Statutes.

As affirmed by the records of votes of the members of your Committees on Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 710, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 710, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Housing: Ayes, 5. Noes, none. Excused, none. Water and Land: Ayes, 4; Ayes with Reservations (Keith-Agaran). Noes, none. Excused, 1 (Nishihara).

#### SCRep. 495 (Joint) Housing and Water and Land on S.B. No. 1190

The purpose and intent of this measure is to authorize the Hawaii Housing Finance and Development Corporation (HHFDC) to enter into ninety-nine year leases of units in residential condominiums located on state lands.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Housing Finance and Development Corporation; and Building Industry Association of Hawaii. Your Committees received comments on this measure from the Office of Hawaiian Affairs.

Your Committees find that there is a severe shortage of affordable housing available in the State. Your Committees further find that developing state lands can be a potential solution to the housing shortage. Allowing HHFDC to sell leasehold units in condominiums on state land to qualified residents will provide homeownership opportunities to Hawaii residents without necessitating the sale of the state land in fee simple. Your Committees also find that most residential developments on leasehold lands require extended lease terms to make projects economically feasible.

Your Committees note the concern of the Office of Hawaiian Affairs regarding the length of the 99-year lease and the Office's request for a more reasonable lease term. Your Committees also note the Office of Hawaiian Affairs' concern regarding the complete exemption of lands set aside by the Governor or lands leased to HHFDC by other state agencies from all public land requirements.

Accordingly, your Committees have amended this measure by:

- (1) As suggested by the Office of Hawaiian Affairs:
  - (A) Reducing the lease term length from 99 years to 75 years; and

- (B) Subjecting state lands set aside by the Governor to the HHFDC and lands leased to HHFDC by any department or agency of the State to legislative approval requirements prior to the sale or gift of the lands; and
- (2) By making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1190, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1190, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 4; Ayes with Reservations (Keith-Agaran). Noes, none. Excused, 1 (Nishihara).

## SCRep. 496 (Joint) Housing and Water and Land on S.B. No. 1387

The purpose and intent of this measure is to appropriate funds to the Hawaii Housing Finance and Development Corporation for low-interest home construction and home improvement loans of Ahupua'a 'O Kahana State Park residential leases.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i. Your Committees received testimony in opposition to this measure from the Hawaii Housing Finance and Development Corporation. Your Committees received comments on this measure from the Department of Land and Natural Resources and one individual.

Your Committees find that Ahupua'a 'O Kahana State Park cannot realize its potential as a living park or a public resource until certain conflicts are resolved, which include the vision and management of the park, unfulfilled requirements for interpretive hours, defaulted mortgage payments, and the status of certain leases. Your Committees further find that the concept of a living park was established in 1971, and the Board of Land and Natural Resources issued leases with a term of sixty-five years to thirty-one families living in Kahana. A 1986 Attorney General opinion states that residents are allowed to live in Kahana only if they are part of the interpretive programs in the living park. Your Committees find that several families are current on their service hours, but many are in serious arrears. This measure would provide further financial assistance to those who need it to maintain their residency in the Ahupua'a 'O Kahana State Park.

Your Committees have amended this measure by:

- (1) Inserting a blank appropriation amount and blank maximum amount per loan available to any eligible holder of a Kahana Valley State Park residential lease;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1387, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1387, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Housing: Ayes, 4. Noes, none. Excused, 1 (Thielen). Water and Land: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

# SCRep. 497 (Joint) Water and Land and Hawaiian Affairs on S.B. No. 191

The purpose and intent of this measure is to:

- (1) Codify the accounting and reporting requirements set forth in section 5 of Act 178, Session Laws of Hawaii 2006, with modifications to:
  - (A) Emphasize that the University of Hawaii is subject to the requirements;
  - (B) Emphasize that all public land trust receipts must be accounted for, including those receipts that a department or agency believes may not be subject to the Office of Hawaiian Affairs' pro rata share; and
  - (C) Require the Department of Land and Natural Resources to consult with the Office of Hawaiian Affairs to ensure that the accounting is accurate and inclusive; and
- (2) Require certain explanations and determinations regarding the amount of receipts transferred to the Office of Hawaiian Affairs.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Hawaii Farmers Union, Connections Public Charter School, Hoʻomanapono Political Action Committee, Association of Hawaiian Civic Clubs, Prince Kūhiō Hawaiian Civic Club, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, Kuaʻāina Ulu ʻAuamo, Kamehameha Schools, Council for Native Hawaiian Advancement, and one individual. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources and Center for Hawaiian Sovereignty Studies.

Your Committees find that state law provides that twenty percent of all funds derived from the public land trust shall be expended by the Office of Hawaiian Affairs for the purposes of chapter 10, Hawaii Revised Statutes. Your Committees further find that Act 178, Session Laws of Hawaii 2006 (Act 178), was enacted with the intent to ensure that an adequate amount of income and proceeds is made available to the Office of Hawaiian Affairs as its pro rata portion of public land trust revenues; however, deficiencies in reporting and accountability have been identified by the Office of Hawaiian Affairs and its contractors over several recent years, including the State's failure to fully account for all gross receipts from the public land trust and the State's apparent reluctance to completely report the public land trust receipts of certain agencies, including the University of Hawaii. Your Committees therefore find that it is now in

the best interests of the Office of Hawaiian Affairs, its beneficiaries, the State, and all citizens of Hawaii to clarify, supplement, and codify the reporting and accountability procedures that have been used to implement Act 178.

Your Committees have amended this measure by:

- (1) Replacing the Department of Land and Natural Resources with the Department of Budget and Finance as the lead agency;
- (2) Moving the statutory placement of the new section to chapter 37, Hawaii Revised Statutes, relating to the budget, rather than chapter 171, Hawaii Revised Statutes, relating to public lands;
- (3) Establishing one full-time equivalent (1.0 FTE) public land trust reporting and accountability officer position in the Department of Budget and Finance to ensure compliance with the public land trust reporting and accounting requirements;
- (4) Requiring the Department of Budget and Finance to request funding in its operating budget every fiscal year for the public land trust reporting and accountability officer position;
- (5) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees request that your Committee on Ways and Means consider establishing a matching public land trust reporting and accountability officer position in the Office of Hawaiian Affairs to collaborate with the public land trust reporting and accountability officer in the Department of Budget and Finance. Additionally, your Committees request your Committee on Ways and Means to determine the proper appropriation amount and consider whether alternative sources of funding may be appropriate for the position.

As affirmed by the records of votes of the members of your Committees on Water and Land and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 191, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 191, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella). Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 498 (Joint) Water and Land and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1064

The purpose and intent of this measure is to, in any county where one-third or less of the county's land is classified in the state agricultural district, prohibit:

- (1) The creation of a condominium property regime on agricultural land twenty-five acres or greater;
- (2) An existing condominium property regime on agricultural land greater than twenty-five acres from being amended to allow a single-family dwelling; and
- (3) The subdivision of agricultural land twenty-five acres or greater for the purpose of creating a condominium property regime.

Your Committees received testimony in support of this measure from Hawaii's Thousand Friends, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and two individuals. Your Committees received testimony in opposition to this measure from the Land Use Research Foundation of Hawaii. Your Committees received comments on this measure from the Office of Planning and Department of Agriculture.

Your Committees find that agricultural lands are a limited resource within the State that should be used for agricultural purposes. Currently, the condominium property regime process may be used to subdivide large agricultural lots into parcels that are too small for agricultural purposes, thus leading to the development of "gentleman farms", which are low density, large subdivisions. Your Committees further find that this use of the condominium property regime process allows for significant abuse and costs to the State and counties, and limits the public's right to have impacts reviewed and mitigated; therefore, your Committees support limitations on the use of the condominium property regime process on certain agricultural lands.

Your Committees have amended this measure by:

- (1) Inserting language to exempt agricultural park and non-agricultural park lands projects under chapter 166 or 166E, Hawaii Revised Statutes, respectively, from the condominium property regime prohibitions proposed by this measure;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1064, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1064, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

# SCRep. 499 (Joint) Water and Land and Transportation on S.B. No. 1253

The purpose and intent of this measure is to decriminalize traffic infractions within natural area reserves, game management areas, wildlife sanctuaries, and public hunting areas.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources. Your Committees received testimony in opposition to this measure from Animal Rights Hawai'i.

Your Committees find that this measure will simplify the resolution of traffic violations occurring on certain state lands, reduce efforts and resources expended to resolve minor traffic violations, and ensure that police, prosecutorial, and judicial resources are focused on the most serious criminal offenses.

Your Committees have amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1253, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1253, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees. Water and Land: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran). Transportation: Ayes, 4. Noes, none. Excused, 1 (English).

## SCRep. 500 (Joint) Water and Land and Transportation on S.B. No. 1256

The purpose and intent of this measure is to:

- Amend the fines and clarify criminal penalties for destroying or harvesting trees or tree products, including koa, on state forest reserve lands and add criminal penalties for violating laws or rules relating to forest reserves;
- (2) Decriminalize traffic infractions within forest reserves and sets fine amounts; and
- (3) Repeal the general penalty provision in chapter 183, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committees find that the current fines for destroying or harvesting trees, including koa, on state forest reserve lands are inadequate compared to the current market value of the trees and the costs associated with restoration or replacement of the trees and damages caused by their destruction or harvest. An adjustment in fines is warranted to deter the illegal harvesting and destruction of natural resources within state forest reserves. Your Committees further find that establishing a criminal penalty for certain conservation and resource violations strengthens the Department of Land and Natural Resources' enforcement capabilities and offers additional protection of the State's natural resources.

Your Committees have amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1256, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1256, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees. Water and Land: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran). Transportation: Ayes, 4. Noes, none. Excused, 1 (English).

# SCRep. 501 (Joint) Water and Land and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1327

The purpose and intent of this measure is to require the Department of Land and Natural Resources, in collaboration with the county councilmember representing the south Maui residency area, Kihei Community Association, and 'Aha Moku O Kula Makai, to develop a master plan to expand public access to the shoreline in south Maui, particularly state-owned land.

Your Committees received testimony in support of this measure from one member of the Maui County Council, the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources and 'Aha Moku 'O Kula Kai.

Your Committees find that public access to the shoreline is an important common law right shared and enjoyed by Hawaii residents and visitors alike; however, there is a parcel of state-owned land in south Maui that lacks adequate shoreline access. This measure requires relevant stakeholders to engage in planning to ensure that this access concern is remedied.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1327 and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

## SCRep. 502 Commerce, Consumer Protection, and Health on S.B. No. 536

The purpose and intent of this measure is to clarify that the existing law intended to curb over-access to and abuse of opioids, including the time frame for filling prescriptions, supply limitations, and requirements to check the state electronic prescription accountability system and execute an informed consent process, does not apply to qualifying patients who are prescribed or issued prescriptions pursuant to the State's Our Care, Our Choice Act.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that for terminally ill patients, there is a convenience and diminished risk of accidental poisoning if medication is stored securely in a pharmacy as opposed to a private residence. Existing law requires that certain controlled substances be picked up after being filled within seven days. This measure allows medication that is prescribed pursuant to the Our Care, Our Choice Act, otherwise known as medical aid in dying, to be filled and held by the pharmacy for not more than thirty days to provide this convenience and safeguard for terminally ill patients.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 536, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 536, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Ruderman, Thielen).

# SCRep. 503 Commerce, Consumer Protection, and Health on S.B. No. 998

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Hawaiian Electric Company, Inc.; Maui Electric Company Limited; and Hawaii Electric Light Company, Inc., to fund multi-project capital improvement programs and assist utilities serving the general public in providing electric energy.

Your Committee received testimony in support of this measure from Ulupono Initiative, Land Use Research Foundation of Hawaii, and Hawaiian Electric Company, Inc. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Hawaii's energy issues are becoming increasing complex and challenging. The electric utility companies for the city and county of Honolulu and the counties of Maui and Hawaii are slowly transforming their business operations toward more renewable energy production, energy storage, and clean transportation. For this transition to occur, they will require access to low-cost financing. Special purpose revenue bonds can provide lower cost capital, and the renewable and clean investments can save ratepayers money over the long run. This measure will help finance multi-project capital improvement construction programs for the local furnishing of electric energy to the city and county of Honolulu and the counties of Maui and Hawaii.

Your Committee has amended this measure by:

- (1) Clarifying that the special purpose revenue bonds authorized by this measure are for multi-project capital improvement programs; and
- (2) Clarifying that the capital improvement projects and programs of Hawaiian Electric Company, Inc., Maui Electric Company, Limited, and Hawaii Electric Light Company, Inc. constitute a project as defined in existing law.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 998, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 998, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Fevella).

#### SCRep. 504 Commerce, Consumer Protection, and Health on S.B. No. 1009

The purpose and intent of this measure is to prohibit the sale or offering for sale of any flavored tobacco product, including menthol tobacco products, within the State beginning on January 1, 2020.

Your Committee received testimony in support of this measure from the Department of Health; Department of Education; Office of the Prosecuting Attorney of the County of Hawai'i; one member of the Hawai'i County Council, one member of the Maui County Council; Hawai'i Public Health Institute; Hawai'i Primary Care Association; Hawaii State Teachers Association; Hawai'i Pacific Health; Coalition for Tobacco Free Hawai'i's Youth Council; Hawaii Youth Services Network; Hawaii Dental Hygienists' Association; Lanai Community Health Center; Peer Education Program; American Cancer Society Cancer Action Network; University of Hawaii Student Health Advisory Council; The Root Cellar Studio Maui; Patients Without Time; American Heart Association; Keiki Injury Prevention Coalition; Bridge Club Hawaii; We Are One, Inc.; Blue Zones Project; Pediatric Therapies Hawaii; The Man Cave; Hawaii COPD Coalition; Ho'omanapono Political Action Committee; Pearl City Neighborhood Board No. 21; over eighty individuals; and a petition signed by two hundred ninety-two individuals. Your Committee received testimony in opposition to this measure from Retail Merchants of Hawaii, Vape Kings, Smokeless Hawaii, Black Lava Vape, Hawaii Smokers Alliance, Volcano Fine Electronic Cigarettes, HI Lyfe Vaporz, Hawaii Petroleum Marketers Association, and more than fifty-five individuals. Your Committee received comments on this measure from the Department of the Attorney General and Hawaii Food Industry Association.

Your Committee finds that tobacco use remains the leading cause of preventable disease and death in the United States and in Hawaii. An estimated twenty-one thousand children in Hawaii currently under the age of eighteen will ultimately die prematurely from

smoking. Public health experts have expressed concerns that flavored tobacco products promote youth initiation of tobacco use because flavors can mask the natural harshness and taste of tobacco, which makes flavored tobacco products easier to use and increases their appeal among new users. Your Committee further finds that flavored tobacco products, including menthol tobacco products, pose a substantial health risk to Hawaii's citizens, particularly to children and teenagers. The State has a substantial interest in protecting its residents from tobacco dependence and the illness and premature death associated with tobacco use.

Your Committee has amended this measure by:

- (1) Adopting amendments suggested by the Department of the Attorney General to:
  - (A) Amend language establishing a rebuttable presumption that a tobacco product is a flavored tobacco product for consistency with other presumptive language in the Penal Code;
  - (B) Clarify that only flavored tobacco products, rather than all tobacco products, are to be considered contraband and forfeited;
  - (C) Specify the specific penalties for violations of the criminal offense established by this measure and make an associated conforming amendment; and
  - (D) Remove language requiring this measure to be liberally construed, as this could lead to ambiguity when referring to criminal offenses; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1009, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1009, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

# SCRep. 505 Commerce, Consumer Protection, and Health on S.B. No. 1121

The purpose and intent of this measure is to:

- (1) Establish a working group to examine and advise on amendments that can be made to the statutory description of the Department of Health's powers, duties, functions, and responsibilities in the Hawaii Revised Statutes; and
- (2) Appropriate funds to support the activities of the working group.

Your Committee received testimony in support of this measure from the Department of Health and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that although the Department of Health routinely updates statutes through the Governor's administrative package, among other means, there has not been a holistic look at the span of the Department's statutory powers, duties, functions, and responsibilities for at least ten years. Further updating the statutory description of the Department of Health's powers and duties to describe population-based public health programs and employ multi-sectoral strategies to improve health outcomes would enhance the Department's goal of health equity. Therefore, this measure establishes a working group whose findings will ensure health equity across communities through collaboration between government and non-government sectors.

Your Committee has amended this measure by:

- (1) Inserting language that authorizes the working group to evaluate the health impact assessment tool, including the development of scenarios and criteria for which health impact assessments may be conducted for future policies and projects unrelated to the Department of Health;
- (2) Inserting a definition for "health impact assessment";
- (3) Specifying the composition of the working group, including the chairperson; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1121, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1121, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Nishihara).

## SCRep. 506 Commerce, Consumer Protection, and Health on S.B. No. 1171

The purpose and intent of this measure is to:

- (1) Clarify that a public benefit corporation may not purchase its memberships;
- (2) Clarify that a person who does not have authority to vote as a member of the board is not a director;
- (3) Clarify that a corporation with members may designate its directors;

- (4) Increase the length of time that the Attorney General has to review proposed sale of substantially all of the assets of public benefit corporations other than in the regular course of its activities; and
- (5) Makes other housekeeping amendments.

Your Committee received testimony in support of this measure from the Department of the Attorney General, University of Hawai'i Foundation, and Hawai'i Alliance of Nonprofit Organizations.

Your Committee finds that public benefit corporations are normally prohibited from making any distributions other than for charitable purposes under existing law. Unlike shareholders of a corporation or partners of a partnership, members of a public benefit corporation do not have an economic ownership interest in the public benefit corporation. Therefore, a public benefit corporation's use of its charitable assets to purchase its memberships would amount to a distribution to its members and would evade the rules against distributing charitable assets for non-charitable purposes. This measure explicitly prohibits public benefit corporations from purchasing its memberships, prevents charitable assets from being used for non-charitable purposes, and conforms the Hawaii Nonprofit Corporations Act to the Revised Model Nonprofit Corporation Act of 1987.

Your Committee additionally finds that existing law is unclear as to whether ex-officio directors, or individuals named as directors based on their position or status, who do not have any authority to vote as a member of the board, are in fact directors of a nonprofit corporation. Non-voting directors would be unable to perform their fiduciary duties as directors if they are unable to vote to take any action. This measure further clarifies that the term "directors" as used in the Hawaii Nonprofit Corporations Act only includes those who have authority to vote as a member of the board. This measure lastly makes additional housekeeping amendments, for consistency with existing model acts and state law.

Your Committee has amended this measure by:

- (1) Clarifying that an electronic or digital signature shall constitute a form of written consent by a board of directors; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1171, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1171, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

#### SCRep. 507 Commerce, Consumer Protection, and Health on S.B. No. 1329

The purpose and intent of this measure is to:

- (1) Align the salary of the Public Utilities Commission Chairperson with the highest pay tier of a supervising deputy attorney general; and
- (2) Align the salary of the other Public Utilities Commissioners with the lowest pay tier of the first deputy attorney general.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Public Utilities Commission, and one individual.

Your Committee finds that the Public Utilities Commission protects the public interest by overseeing and regulating public utilities to ensure they provide reliable service at reasonable and just rates. Furthermore, the Commission's workload has grown substantially, particularly in the electricity sector where complex issues relating to the State's one hundred percent renewable energy portfolio standard and other energy policies continue to be investigated. Given the Commission's complex scope of work, it is important that the State raise the salaries of the Public Utilities Commission Chairperson and other commissioners to attract and retain the most qualified candidates for these positions. A salary increase will also help mitigate the significant travel expenses of candidates who are residents of neighbor islands who must often travel to Honolulu to carry out their duties as commissioners.

Your Committee has amended this measure by:

- (1) Clarifying that the Chairperson of the Public Utilities Commission shall be paid a salary equal to the highest pay tier of the first deputy attorney general of the Department of the Attorney General; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1329, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1329, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

#### SCRep. 508 Commerce, Consumer Protection, and Health on S.B. No. 1470

The purpose and intent of this measure is to:

- (1) Specify who may be granted a temporary permit to practice public accountancy;
- Specify requirements that must be met prior to obtaining a temporary permit to practice or commencing public accountancy servicer in Hawaii;

- (3) Specify additional requirements for persons granted a temporary permit to practice; and
- (4) Make conforming amendments to the laws relating to public accountancy.

Your Committee received testimony in support of this measure from the Hawaii Association of Public Accountants and Niwao & Roberts, CPAs, A Professional Corporation. Your Committee received testimony in opposition to this measure from Business Resource Center, Inc.; Hawaii Society of CPAs; and twenty-six individuals. Your Committee received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs and Board of Public Accountancy.

Your Committee finds that a more streamlined and shortened process is needed for out-of-state certified public accountants (CPAs) to obtain a temporary permit to practice in this State. This measure will effectively create functional mobility for out-of-state CPAs, while still creating an audit trail for the protection of Hawaii's consumers and taxpayers.

Your Committee further notes that clarification is needed to avoid confusion to both the public and the CPA license holders who hold themselves out as a CPA, but do not possess a permit to practice. Hawaii is the only state to use the term CPA license for individuals with no practice privileges. This is confusing to the public and too tempting for individuals to cross the line into illegally holding themselves out to the public as a CPA with full practice privileges, despite not holding a permit. Your Committee notes the concerns raised in testimony regarding this issue, and therefore, amendments are necessary. Your Committee further finds that the latest Uniform Accountancy Act recommends carving out an exception to the continuing education requirement for "inactive" or "retired" CPAs.

Your Committee has amended this measure by:

- Removing language that would have allowed state-licensed CPAs and state licensed public accountants who also have a
  current permit to practice, to use the title and designation of "certified public accountant" or "CPA", or "public accountant" or
  "PA", respectively;
- (2) Allowing inactive or retired state-licensed CPAs, who do not have a current permit to practice, to use the title and designation of "certified public accountant" or "CPA", so long as they clearly indicate they are not practicing public accountancy and include "inactive" or "retired" after their CPA designation; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1470, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1470, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

#### SCRep. 509 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 433

The purpose and intent of this measure is to appropriate funds for the Department of Health to create and host a website and launch a public education campaign on the effects of screen time on children and teens.

Your Committees received testimony in support of this measure from the Department of Health, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and ten individuals.

Your Committees find a growing body of empirical data and anecdotal accounts suggest that time spent in front of screens has a negative impact on children's physical, emotional, and cognitive health. Evidence also suggests that excessive screen time may have an important impact on the high increase in anxiety, depression, and suicide among teens. The Centers for Disease Control and Prevention (CDC) and the American Academy of Pediatrics have nationally recommended strategies to reduce child and teen screen time, including increasing leisure-time physical activity as an alternative to screen time and having a family media plan in place.

According to testimony from the Department of Health, existing evidence-based interventions, such as an extensive social marketing campaign conducted by the CDC, have shown that using positive messaging to motivate participation in physical activity has been more effective than promoting the health costs of inactivity. Launching a similar campaign would align the Department's efforts with nationally-recognized, evidence based social marketing strategies.

Your Committees have amended this measure by:

- (1) Requiring the Department of Health to create and implement a social marketing campaign, targeting children and their families and based on proven interventions, to reduce child and teen screen time;
- (2) Removing language that would have required the Department of Health to create and host a website and launch a public education campaign on the effects of screen time for children and teens; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 433, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 433, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Fevella). Human Services: Ayes, 3. Noes, none. Excused, 2 (Ihara, Riviere).

#### SCRep. 510 (Joint) Commerce, Consumer Protection, and Health and Education on S.B. No. 984

The purpose and intent of this measure is to:

- (1) Include advanced practice registered nurses with prescriptive authority in the list of health care professionals authorized to administer medication to public school students; and
- (2) Repeal the requirement that administration of the medication be approved by the Department of Health.

Your Committees received testimony in support of this measure from the Department of Health, Department of Education, University of Hawai'i System, Hawai'i State Center for Nursing, American Nurses Association in Hawai'i, Wai'anae Intermediate School, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and six individuals. Your Committees received testimony in opposition to this measure from the Hawaii Government Employees Association.

Your Committees find that the Department of Education is partnering with licensed professionals to increase access to health services, which helps to decrease student absenteeism and facilitate better self-management of chronic health conditions, such as asthma, that might otherwise make it difficult for children to fully participate in class activities. The presence of school-based licensed health care professionals, including advanced practice registered nurses and registered nurses, increases parents' and caregivers' time at work, and principals' and teachers' instructional time. This measure enables advanced practice registered nurses who provide care to school-aged children to work with parents and caregivers to support children's short- and long-term health and reduced health-related barriers to learning.

Your Committees note the concerns raised by the Departments of Education and Health, that it is essential to maintain the approval process with the Department of Health, as some medications may not be appropriate within the school setting.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that the administration of the medication is with the approval of the Department of Health or other on-campus, school-based, health care provider pursuant to a written agreement with the Department of Education; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 984, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 984, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Ruderman, Thielen). Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

## SCRep. 511 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 1494

The purpose and intent of this measure is to establish and fund a working group within the Department of Health to evaluate current behavioral health care and related systems and promote effective integration of services to improve response and coordination of care for persons experiencing substance abuse, mental health conditions, and homelessness.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness, Department of Health, Department of Human Services, Department of Public Safety, Hawaii Medical Service Association, Mental Health America of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaii Substance Abuse Coalition, and one individual.

Your Committees find that there is an inarguable intersection between opioid and other substance abuse, mental health, and homelessness. Across the country, counties and states have implemented patient entry systems that coordinate access to behavioral health and substance abuse services, which have resulted in increased efficiency and patient access to care. Integrating the State's behavioral health care system will help ensure that individuals experiencing chronic substance abuse, mental health conditions, homelessness, and other chronic conditions can access a continuum of care that promotes community stabilization and health while decreasing overutilization of high-cost acute care services. Your Committees acknowledge the work that is already being done in the State to coordinate care between service providers and find that this measure will continue to support those efforts.

Your Committees have amended this measure by:

- (1) Amending the membership of the working group;
- (2) Specifying that the working group shall be exempt from the posting requirements for open meetings;
- (3) Dissolving the working group on June 30, 2021; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1494, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1494, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Fevella). Human Services: Ayes, 3. Noes, none. Excused, 2 (Ihara, Riviere).

#### SCRep. 512 (Joint) Transportation and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 164

The purpose and intent of this measure is to transfer certain fines and forfeitures collected for uncontested traffic infractions to the counties

Your Committees received testimony in support of this measure from the Office of the Mayor of the County of Hawai'i, Honolulu Police Department, Hawai'i State Association of Counties, and one member of the Kaua'i County Council. Your Committees received comments on this measure from the Judiciary and Department of Budget and Finance.

Your Committees find that the counties enforce the traffic law on behalf of the State and use their own resources to issue trafficrelated citations. Under existing law, all traffic violation fines are issued by the counties, however those fines are collected and kept by the State. Your Committees believe that the counties should receive a share of the revenues generated from traffic violation fines.

Your Committees have amended this measure by:

- (1) Upon the recommendation by the Judiciary, setting an unspecified amount of the fines and forfeitures collected to be transmitted to each county; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 164, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 164, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

#### SCRep. 513 Water and Land on S.B. No. 99

The purpose and intent of this measure is to appropriate funds to establish two permanent full-time equivalent fisheries technician IV positions and for operating expenses for the Nuuanu Reservoir recreational fishing program at Nuuanu reservoir number four.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that the Department of Land and Natural Resources operated a highly-successful recreational fishing program at the Nuuanu Reservoir for a number of years. Your Committee supports efforts to reestablish the fishing program.

Your Committee notes that the Nuuanu Reservoir is under the jurisdiction of the City and County of Honolulu's Board of Water Supply, and therefore encourages an agreement be made between the Board of Water Supply and the Department of Land and Natural Resources to allow the Department to stock and run a public fishing program at Nuuanu Reservoir.

Your Committee has amended this measure by:

- (1) Inserting blank appropriation and allocation amounts; and
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion.

Your Committee notes that although the appropriation amount is blank, your Committee requests that your Committee on Ways and Means consider an appropriation of \$98,280 for the fisheries technician IV positions and for operating expense.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 99, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 99, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

# SCRep. 514 Water and Land on S.B. No. 102

The purpose and intent of this measure is to authorize the Department of Land and Natural Resources to use in-lieu fee mitigation to restore, create, enhance, or preserve aquatic habitats or resources as compensatory mitigation.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, Ocean Tourism Coalition, and one individual.

Your Committee finds that aquatic in-lieu fee mitigation is an effective mechanism to restore, create, enhance, and preserve aquatic habitats or resources to recover the ecological functions, services, and values of aquatic resources that are lost or anticipated to be lost due to adverse impacts to other similar aquatic habitats. Aquatic in-lieu fee mitigation is widely used across the United States to achieve ecologically valuable conservation. This measure will provide the Department of Land and Natural Resources with an innovative mechanism to improve state stewardship of aquatic public trust resources and habitats, increase accountability for aquatic resource damage, and provide higher quality remediation to make damaged resources whole again.

Your Committee has amended this measure by:

 Inserting language to clarify that the Department may use in-lieu fee mitigation, in addition to banked mitigation, for prospectively mitigating planned impacts;

- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 102, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 102, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

# SCRep. 515 (Joint) Water and Land and Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment on S.B. No. 914

The purpose and intent of this measure is to:

- (1) Require the Department of Land and Natural Resources to allocate ten percent of revenues collected from commercial properties within the Banyan Drive redevelopment area to the Banyan Drive Hawaii Redevelopment Agency; and
- (2) Appropriate funds to the Banyan Drive Hawaii Redevelopment Agency for conducting environmental impact statements and other studies that are necessary to complete the Agency's redevelopment plan for the Banyan Drive redevelopment area.

Your Committees received testimony in support of this measure from the Office of the Mayor of the County of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committees find that in January 2016, the Hawaii County Planning Director and the Chairperson of the Board of Land and Natural Resources signed a statement of understanding to enter into a collaborative process for the redevelopment of the Banyan Drive peninsula because it consisted of real property that was underutilized or in disrepair. The County of Hawaii created the Banyan Drive Hawaii Redevelopment Agency to work toward improving the Banyan Drive redevelopment area via the adoption and implementation of a master urban redevelopment plan; however, in order for the redevelopment plan to be further developed, funding is needed to conduct the necessary environmental impact studies and other studies required pursuant to chapter 343, Hawaii Revised Statutes.

Your Committees have amended this measure by:

- (1) Inserting an appropriation amount of \$250,000;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land, Public Safety, Intergovernmental, and Military Affairs, and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 914, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 914, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Wakai).

Agriculture and Environment: Ayes, 5; Ayes with Reservations (Rhoads). Noes, none. Excused, none.

#### SCRep. 516 Water and Land on S.B. No. 1432

The purpose and intent of this measure is to provide increased funding for land conservation by removing the annual dollar amount cap on the annual collections from the conveyance tax to the land conservation fund.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, The Nature Conservancy, The Trust for Public Land, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committee received comments on this measure from the Office of the Auditor.

Your Committee finds that Hawaii's natural resources are invaluable to its economy, culture, and quality of life, but an alarmingly small amount of money is invested each year to protect the State's natural capital base. Your Committee also finds that there is a clear nexus between the source of the conveyance tax and providing funding for land conservation since the development, sale, and improvement of real estate in Hawaii creates additional pressure on natural areas, coastal access, agricultural production, and water resources and watershed recharge areas.

Your Committee has amended this measure by:

- Inserting an appropriation from the land conservation fund for the 2019-2021 fiscal biennium to the Department of Land and Natural Resources for resource land acquisition;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1432, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1432, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Nishihara).

#### SCRep. 517 Water and Land on S.B. No. 1484

The purpose and intent of this measure is to appropriate funds for the Department of Land and Natural Resources to devise an appropriate plan to create a hiking trail from Malaekahana State Park, along the coast, to Turtle Bay Resort passing makai of the James Campbell National Wildlife Refuge and continuing from Kawela Bay along the coast of Waialee to Sunset Beach.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that Na Ala Hele, the Hawaii statewide trail program maintained by the Division of Forestry and Wildlife of the Department of Land and Natural Resources, includes one hundred twenty-eight trail and road features spanning approximately eight hundred fifty-five miles. Trails include parking areas, comfort stations, pavilions, picnic areas, and other facilities that are regularly used by the public. Your Committee further finds that Na Ala Hele should maintain pristine coastlines and make them available to the public; in particular, the Kahuku shoreline is a perfect candidate for a new trail.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1484, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1484, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Nishihara).

#### SCRep. 518 (Joint) Education and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 587

The purpose and intent of this measure is to:

- (1) Require that the Board of Education hold at least two community meetings each year in each county to receive public input on public education and public library issues; and
- (2) Remove the restriction on community meetings to allow the meetings to be held for the purpose of formulating educational policy.

Your Committees received testimony in support of this measure from the Hawaii State Teachers Association, Democratic Party of Hawaii'i Education Caucus, League of Women Voters of Hawaii, and four individuals. Your Committees received comments on this measure from the Board of Education and Office of Information Practices.

Your Committees find that community meetings held by the Board of Education improve the public's access to the Board and allow the public to provide the Board with more information to help with decision-making and priority setting. However, the Board of Education typically holds meetings in Honolulu, which makes it difficult for community members from the neighbor islands to provide community concerns and input. This measure provides greater access to the Board of Education from communities in each county across the State and allows the Board to hear from more community stakeholders when developing educational policies.

To assist your Committee on Ways and Means with its deliberation on this measure, your Committees note that the Board of Education may need an appropriation of \$10,000 to cover the added travel costs associated with holding at least two community meetings in each county.

Your Committees have amended this measure by:

- (1) Clarifying that community meetings held by the Board of Education shall be exempt from requirements related to:
  - (A) Including an agenda when the Board provides public notice in accordance with state laws; and
  - (B) Keeping written or recorded minutes of all meetings; and
- (2) Requiring the Board of Education to video record community meetings and make the video recordings available at the next regular meeting.

As affirmed by the records of votes of the members of your Committees on Education and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 587, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 587, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz). Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 519 (Joint) Human Services and Government Operations on S.B. No. 398

The purpose and intent of this measure is to require the Department of Human Services to establish and implement a training program on government procurement and other relevant procedures for nonprofit organizations that offer homeless outreach services or manage homeless housing programs in rural areas of the State.

Your Committees received testimony in support of this measure from the Department of Human Services, State Procurement Office, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committees received comments on this measure from the Hawaii Youth Services Network.

Your Committees find that in order for nonprofit organizations to effectively work in concert with state and county governments, these organizations require a clear understanding of the state procurement system, including the proposal and bid processes, to most effectively offer homeless outreach services or manage homeless housing programs. Your Committees further find that while these types of programs are robust in urban areas, homeless outreach services and homeless housing programs are lacking in rural areas of the State. This measure therefore establishes a program to provide training on government procurement in rural areas of the State. This outreach and education is vital to effectively meeting the needs of rural areas of the State.

Your Committees also take seriously the recommendation from the Hawaii Youth, regarding the desire to broaden the range of organizations providing services to the homeless that are eligible to participate in the training established by this measure.

Your Committees have amended this measure by:

- Clarifying that the Department of Human Services shall work in partnership with the State Procurement Office to establish the training program;
- (2) Changing the appropriation from \$250,000 to \$270,000, to be expended by the State Procurement Office; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 398, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 398, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 3. Noes, none. Excused, 2 (Riviere, Fevella). Government Operations: Ayes, 3. Noes, none. Excused, 2 (Baker, Fevella).

#### SCRep. 520 (Joint) Human Services and Housing on S.B. No. 471

The purpose and intent of this measure is to:

- (1) Appropriate funds to the outreach program, rapid re-housing program, housing first program, family assessment centers, law enforcement assisted diversion program, and coordinated statewide homelessness initiative; and
- (2) Establish and appropriate funds for a short-term rental assistance pilot program and a long-term rental assistance pilot program.

Your Committees received testimony in support of this measure from the Department of Human Services; Mayor's Office of the County of Hawaii; Hawaii Youth Services Network; Mental Health America of Hawaii; Catholic Charities Hawaii; Hawaii Kai Homeless Task Force; Our Revolution Hawaii; HOPE Services Hawaii Inc.; Partners In Care; The Salvation Army; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and six individuals. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness, Department of Attorney General, and Department of Health.

Your Committees find that homelessness is one of the most pressing problems in Hawaii, which requires a robust, comprehensive, long-term solution to address Hawaii's affordable housing and homelessness crisis. High housing costs continue to drive Hawaii residents into homelessness. Your Committees further find that Hawaii has gradually begun to turn the tide in the homelessness crisis. In 2017, Hawaii's homelessness rate went down for the first time in years, a trend that continued in 2018.

Your Committees recognize that Hawaii must prioritize programs that are the most cost-effective and target the most vulnerable populations, such as outreach, rapid re-housing, housing first, family assessment centers, law-enforcement assisted diversion, and the coordinated statewide homelessness initiative. These programs are critically necessary to address homelessness in Hawaii. The State also needs to experiment in innovative approaches to addressing homelessness, such as providing long-term rent subsidies to the elderly on fixed incomes. This measure will fund core homelessness services and establish a new pilot program for long-term rental assistance care for the elderly to address the State's housing and homelessness crisis.

Your Committees note that this measure establishes a new pilot program for short-term rental assistance for families. However, your Committee Chair learned that the Homeless Programs Office and the Hawaii Public Housing Authority do not have the capacity to implement a new pilot program for short-term rental assistance for families at this time.

Your Committees also note that the funding from the established programs in this measure should go into the base budget of the State, as these programs are all proven to work and are ongoing. This would allow the programs to have stability to plan for the long-term.

Your Committees have amended this measure by:

- (1) Removing language that would have established a short-term rental assistance pilot program for families;
- Inserting an appropriation amount of \$16,300,000 to the Department of Human Services for the purposes of administering homelessness programs;
- (3) Inserting an appropriation amount of \$1,700,000 to the Department of Health for the purposes of administering homelessness programs;

- (4) Requiring the long-term assistance pilot program to participate in the Continuum of Care's Coordinated Entry System for homeless services:
- (5) Requiring the provider of the long-term assistance pilot program to input data into the United States Department of Housing and Urban Development's Homeless Management Information System;
- (6) Requiring an annual report to the Legislature from the Department of Health regarding the long-term rental assistance pilot program, no later than one month prior to the convening of the regular sessions of 2020, 2021, and 2022;
- (7) Specifying a June 30, 2022, sunset date for the long-term assistance pilot program; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 471, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 471, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 4. Noes, none. Excused, 1 (Fevella). Housing: Ayes, 5. Noes, none. Excused, none.

#### SCRep. 521 (Joint) Human Services and Housing and Government Operations on S.B. No. 483

The purpose and intent of this measure is to:

- (1) Authorize the use of private lands for the ohana zones pilot program;
- (2) Extend the sunset dates of the Emergency Department Homelessness Assessment and Medical Respite pilot programs of the Department of Human Services to June 30, 2020; and
- (3) Require reports to the Legislature.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Mayor's Office of the County of Hawaii, Our Revolution Hawaii, HOPE Services Hawai'i; and three individuals. Your Committees received comments on this measure from one individual.

Your Committees find that safe zones provide a housing alternative for homeless individuals and families. Your Committees further find that Act 209, Session Laws of Hawaii 2018 (Act 209), established an ohana zones pilot program to provide safe zones in the State. Ohana zones are designed to assist individuals and families experiencing homelessness find and transition into permanent housing and provide them with needed services. This measure broadens the scope of the ohana zones pilot program by allowing for public-private partnerships on private land, which will expedite the construction of appropriate housing for individuals and families experiencing homelessness.

Your Committees request that when the State enters into a partnership with the owner of private land, as authorized by this measure, that the State uses a form or template similar to the Memorandum of Agreement Regarding Guidelines for Temporary Emergency Housing on TMK No. (3) 1-5-006:017 between HOPE Services, Inc., and the County of Hawaii.

Your Committees have amended this measure by:

- Extending the deadline for the Department of Human Services to implement the ohana zones pilot project, including extending
  the sunset date of the project; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services, Housing, and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 483, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 483, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 3. Noes, none. Excused, 2 (Riviere, Fevella). Housing: Ayes, 3. Noes, none. Excused, 2 (Moriwaki, Fevella). Government Operations: Ayes, 3. Noes, none. Excused, 2 (Baker, Fevella).

# SCRep. 522 Human Services on S.B. No. 734

The purpose and intent of this measure is to require the agency or appropriate court that receives an income withholding request from an obligee to enter an order requiring the obligor's place of employment to classify the obligor as an employee for payroll or accounting purposes to become subject to withholding; provided that the obligor receives income on a periodic basis and becomes delinquent in making payments under a support order in an amount at least equal to the support payable for three months.

Your Committee received testimony in support of this measure from two individuals.

Your Committee finds that under existing law, employers are not expressly required to classify a child support obligor owing past due payments as an employee, even when the obligor is receiving income from the employer periodically. This places a burden on child support enforcement agencies attempting to collect past due child support payments through income withholding. This measure allows the child support enforcement agency or court to enter an order requiring the employer's classification of an obligor as an employee under certain conditions, which will facilitate child support collections.

Your Committee has amended this measure by specifying that family courts are also allowed to enter an order requiring the employer's classification of an obligor as an employee under certain conditions.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 734, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 734, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 523 (Joint) Human Services and Housing on S.B. No. 1031

The purpose and intent of this measure is to;

- (1) Establish a long-term rental assistance pilot program to be administered by the Department of Health; and
- (2) Appropriate funds for the administration of the pilot program.

Your Committees received testimony in support of this measure from Catholic Charities Hawaii; Hawaii Kai Homeless Task Force; Hawaii Island HIV/AIDS Foundation; Our Revolution Hawaii; HOPE Services Hawaii, Inc.; Partners In Care; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; and three individuals. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness.

Your Committees find that homelessness is one of the most pressing problems in Hawaii, which requires a robust, comprehensive, long-term solution to address Hawaii's affordable housing and homelessness crisis. High housing costs continues to drive more and more Hawaii residents into homelessness and now Hawaii has the highest homelessness rate in the nation.

Your Committees further find that one important component of the solution is ensuring that low-income elderly individuals are not forced into homelessness through a combination of fixed incomes and rapidly rising rents. Hawaii must prioritize programs that are the most cost-effective and target the most vulnerable populations, such as the State's elders. Many elderly individuals have a fixed income and may find themselves at imminent risk of homelessness if faced with unexpected hardship. This measure establishes a long-term rental assistance pilot program, which will provide a combination of rental assistance and case management to assist participants in obtaining and maintaining housing.

Your Committees have amended this measure by:

- (1) Requiring the Department of Health to enter into a memoranda of agreement with the counties to implement this measure;
- Requiring the long-term assistance pilot program to participate in the Continuum of Care's Coordinated Entry System for homeless services;
- (3) Requiring the provider of the long-term assistance pilot program to input data into the United States Department of Housing and Urban Development's Homeless Management Information System;
- (4) Requiring an annual report to the Legislature from the Department of Health regarding the long-term rental assistance pilot program, to no later than one month prior to the convening of the regular sessions of 2020, 2021, and 2022;
- (5) Specifying a June 30, 2022, sunset date for the long-term assistance pilot program; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1031, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1031, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 4. Noes, none. Excused, 1 (Fevella). Housing: Ayes, 5. Noes, none. Excused, none.

# SCRep. 524 (Joint) Human Services and Housing on S.B. No. 1131

The purpose and intent of this measure is to:

- (1) Increase the number of ohana zone sites on Oahu from three to six; and
- (2) Appropriate funds to the Department of Human Services for the ohana zones pilot program.

Your Committees received testimony in support of this measure from the Department of Human Services, Hawaii Kai Homeless Task Force, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, and three individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Governor's Coordinator on Homelessness.

Your Committees find that safe zones provide a housing alternative for homeless individuals and families. Your Committees further find that Act 209, Session Laws of Hawaii 2018 (Act 209), established an ohana zones pilot program to provide safe zones in the State. Ohana zones are designed to assist individuals and families experiencing homelessness find and transition into permanent housing and provide them with needed services. This measure increases the amount of ohana zones on Oahu, which will provide more safe zones for homeless individuals and families and improve their overall well-being.

Your Committees have amended this measure by:

- (1) Requiring designated agencies to designate at least two additional ohana zones on each neighbor island, if the ohana zones pilot program capacity permits;
- (2) Clarifying that the reports to the legislature on the ohana zones pilot program shall include evaluations on ultra-low cost modular housing that would be best suited for permanent supportive housing and whether there are off-the-grid infrastructure technologies that can provide drinking water, electricity, and process sewage, without existing infrastructure;
- (3) Extending the deadline for the Department of Human Services to implement the pilot project, including extending the sunset of the project; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1131, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1131, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 3. Noes, none. Excused, 2 (Riviere, Fevella). Housing: Ayes, 3. Noes, none. Excused, 2 (Thielen, Fevella).

# SCRep. 525 (Joint) Human Services and Judiciary on S.B. No. 1019

The purpose and intent of this measure is to:

- (1) Establish a safe places for youth pilot program;
- (2) Requires the Office of Youth Services to reduce the use of status offense laws and implement a status offense diversion program; and
- (3) Appropriate funds for the safe places for youth pilot program and status offense diversion program.

Your Committees received testimony in support of this measure from the Office of Youth Services, Office of the Prosecuting Attorney of the County of Kaua'i, Hawaii Youth Services Network, LGBT Caucus of the Democratic Party of Hawai'i, Harm Reduction Hawaii, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and four individuals.

Your Committees find that homeless youth are at a substantial risk of suffering from physical, emotional, and sexual abuse. Your Committees further find that a significant majority of homeless or runaway youth have dropped out or will drop out of school. Your Committees additionally find that "status offenses" are instances of conduct that would not be crimes except if committed by a minor. Your Committees also find that detention resulting from status offenses has been shown to have a severe negative impact on youth and do not resolve the issues that led to the offense. This measure establishes programs that will provide safe places for homeless youth and prevent them from going into detrimental detention for status offenses.

As affirmed by the records of votes of the members of your Committees on Human Services and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1019 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 3. Noes, none. Excused, 2 (Riviere, Fevella). Judiciary: Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 526 (Joint) Government Operations and Transportation on S.B. No. 661

The purpose and intent of this measure is to:

- (1) Grant procurement priority for fuel cell electric vehicles for state and county vehicle purchases; and
- (2) Include fuel cell electric vehicles in the definition of "electric vehicles" for purposes of parking fee exemption, high occupancy vehicle lane use, registration, and required parking spaces in places of public accommodation.

Your Committees received testimony in support of this measure from the Department of Transportation; Ulupono Initiative; Alliance of Automobile Manufacturers; Servco Pacific, Inc.; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Hawaii Automobile Dealers' Association; Blue Planet Foundation; and one individual.

Your Committees find that fuel cell electric vehicles are a viable alternative to gasoline-powered vehicles. Increasing the use of more fuel cell electric vehicles will reduce carbon emissions and improve the quality of life in Hawaii. However, under existing law, certain priority considerations and incentives are currently available to battery electric vehicles but not fuel cell electric vehicles. This measure expands the definition of "electric vehicle" to include fuel cell electric vehicles, which will afford more incentives for fuel cell electric vehicles, drastically improve transportation efficiency, and reduce carbon emissions in Hawaii.

Your Committees have amended this measure by amending the definition of "fuel cell electric vehicle" to ensure all fuel cell technology is appropriately included.

As affirmed by the records of votes of the members of your Committees on Government Operations and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 661, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 661, S.D. 1, and be referred to your Committee on Ways and Means

Signed by the Chairs on behalf of the Committees. Government Operations: Ayes, 4. Noes, none. Excused, 1 (Fevella). Transportation: Ayes, 3. Noes, none. Excused, 2 (English, Fevella).

#### SCRep. 527 Government Operations on S.B. No. 1111

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Accounting and General Services.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services, State Procurement Office, and Office of Information Practices. Your Committee received comments on this measure from the Department of Accounting and General Services, Office of Elections, and League of Women Voters.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Accounting and General Services in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

In regard to the Office of Public-Private Partnership, your Committee is reluctant to "silo" the procurement of P3 and similar contracts from the regular procurement in the Public Works Division. Instead, your Committee prefers to direct these resources to build the expertise within public works and foster a team relationship between the plans, design, and construction branches in that division to improve procurement of public works contracts. Accordingly, your Committee recommends redirecting these and other identified funds to S.B. No. 1079 (Regular Session of 2019) to improve state procurement practices and standardize catalogue deferred maintenance of state facilities and to support S.B. No. 1333 (Regular Session of 2019), which will provide technical assistance to the Department of Accounting and General Services and other agencies on innovative development strategies, including the Public-Private Partnership.

Your Committee has amended this measure by:

- (1) Removing operating expense budget items that are under the purviews of the Committees on Technology; Labor, Culture and the Arts; and Judiciary;
- Removing the appropriation for cemetery grounds positions, as the funding for these positions has been included in the Governor's base budget;
- (3) Removing the appropriation for an Office of Public-Private Partnership;
- (4) Removing the addition of a position of Office Assistant for fiscal year 2019-2020, and redirecting those funds for a staffing position and relating requirements;
- (5) Removing an appropriation for the small business assistance initiative; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1111, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1111, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Baker, Fevella).

#### SCRep. 528 Government Operations on S.B. No. 1333

The purpose and intent of this measure is to:

- (1) Require that past performance be considered in future bid selection of contractors for sole source contracts and any competitive sealed bid or proposal contracts that meets or exceeds the small purchase threshold;
- (2) Require procurement officers to consider specific factors, including past performance, when making a determination of offeror responsibility;
- (3) Require procurement officers to conduct past performance evaluations at least annually and at the time the work under a contract or order is completed, and maintained in the department's files; and
- (4) Develop and implement a statewide past performance database that collects past performance evaluations to be used as a resource when evaluating past performance in future procurements.

Your Committee received testimony in support of this measure from the State Procurement Office, Community Alliance on Prisons, and Subcontractors Association of Hawaii. Your Committee received testimony in opposition to this measure from the Department of Accounting and General Services, Department of Design and Construction of the City and County of Honolulu, and Department of Budget and Fiscal Services of the City and County of Honolulu.

Your Committee finds that some state contracts may be awarded to the lowest bidder, without regard to poor past performance. Such bidders may be considered qualified despite poor past performance on state, federal, or private contracts, which may result in repeated inefficiencies and substandard work. Your Committee also finds that legislative direction is needed to award state contracts to responsible bidders through the state procurement process; increase performance accountability on state contracts, and use taxpayer dollars more efficiently.

This measure requires procurement officers to complete periodic performance evaluations of certain contractors, past performance to be factored into future bid selections, the development of a past performance database, and the establishment of an initial procurement workgroup to evaluate and make recommendations about existing procurement methods. This measure provides more oversight and regulation of the State's procurement process, which will improve efficiency and the quality of work of state awarded procurement contracts.

Your Committee has amended this measure by:

- (1) Establishing an initial procurement working group;
- (2) Specifying composition of and requirements for the initial procurement working group;
- (3) Adjusting the appropriation amount from \$292,000 to \$250,000, and clarifying that the sums shall be allocated for the creation of the past performance data base and outsourcing of two full-time equivalent positions; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1333, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1333, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 529 Government Operations on S.B. No. 1042

The purpose and intent of this measure is to extend the deadline for the Legislative Reference Bureau to submit a report studying how other jurisdictions oversee Title IX of the Education Amendments of 1972 (Title IX) enforcement.

Your Committee received testimony in support of this measure from the Hawai'i State Commission on the Status of Women; Hawai'i Civil Rights Commission; LGBT Caucus of the Democratic Party of Hawai'i; Planned Parenthood Votes Northwest and Hawaii; American Association of University Women of Hawaii; National Association of Social Workers, Hawai'i Chapter; Midwives Alliance of Hawaii; and six individuals. Your Committee received testimony in opposition to this measure from the Hawaii Republican Party. Your Committee received comments on this measure from the Legislative Reference Bureau and one individual.

Your Committee finds that Title IX prohibits discrimination on the basis of sex by any education program or activity receiving federal funding. Your Committee also finds that in 2018 the Legislature passed a corollary to Title IX in State law, Act 110, Session Laws of Hawaii 2018 (Act 110), that prohibits such discrimination by programs or activities receiving state funding.

Act 110 requires the Legislative Reference Bureau to conduct a study and submit a report about the existing Federal Title IX and Title IX corollaries in other jurisdictions by January 24, 2019. However, due to the substantial complexity of the study's subject matter, the Legislative Reference Bureau needs additional time to complete its report. An amendment to this measure is needed to extend the due date for the Legislative Reference Bureau's report which will provide additional time for the report to be completed. The completed report will ultimately help reinforce Hawaii's Title IX corollary and address important civil rights laws.

Your Committee has amended this measure by:

- (1) Extending the due date for the Legislative Reference Bureau's Title IX report to March 1, 2019; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the United States Department of Education recently published a Notice of Proposed Rulemaking that seeks to amend Title IX's implementing regulations. The extent to which the final regulations will differ in substance from the Notice of Proposed Rulemaking is currently unknown. There is also a degree of uncertainty with respect to any impact the amended Title IX rules may have on the states' approaches to enforcing state law corollaries. With this uncertainty in mind, your Committee intends to keep this amended measure moving as a Title IX corollary vehicle, while the federal Department of Education finalizes its rulemaking process.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1042, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1042, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 530 Labor, Culture and the Arts on S.B. No. 228

The purpose and intent of this measure is to:

- (1) Require the Department of Land and Natural Resources to place historical markers in the State to indicate significant sites in the life of President Barack Obama; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that President Barack Obama, the forty-fourth President of the United States of America, was born in the State of Hawaii and spent a significant amount of his life in the State. Your Committee further finds that placing markers at sites

significant to President Barack Obama's life would be a point of pride for the State and would pay tribute to President Barack Obama's leadership.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 228 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 531 Labor, Culture and the Arts on S.B. No. 798

The purpose and intent of this measure is to appropriate funds for the digitization of records, files, and other materials of the State Historic Preservation Division (SHPD) of the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that the SHPD consists of three branches, Architecture, Archaeology, and History & Culture, that collectively strive to preserve and protect Hawaii's historic identity and ensure that Hawaii's treasured past is here for future generations. SHPD has approximately 3,700,000 pages of documents, including numerous documents necessary for compliance with the state historic preservation laws. These records are cumbersome to access and use, and materially slow the process of reviewing projects. The creation of an electronic data management system is the final requirement imposed on the State of Hawaii by the National Park Service's Corrective Action Plan. SHPD has digitized approximately 1,500,000 documents to date. Your Committee therefore finds that making continuing progress on the data management system is critical to completing the corrective action plan and lifting SHPD's status as a "high risk" recipient of federal funds. This measure will provide SHPD the funding to do so.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 798 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

## SCRep. 532 Labor, Culture and the Arts on S.B. No. 799

The purpose and intent of this measure is to appropriate funds out of the works of art special fund to the State Foundation on Culture and the Arts for the integration of works of art projects into several major capital improvement projects.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts and O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i.

Your Committee finds that state law requires that one percent of the appropriations for the construction or renovation of state buildings be transferred to the works of art special fund. Your Committee further finds that monies in the works of art special fund may be extended for integrated works of art projects as part of new construction which includes costs related to the acquisition of works of art and site modifications, display, and interpretive work necessary for the exhibition of works of art. This measure will make monies in the works of art special fund available for the integration of works of art projects into several planned major capital improvement projects throughout the State.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 799 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 533 Labor, Culture and the Arts on S.B. No. 1376

The purpose and intent of this measure is to appropriate funds as a grant to the Hawaii Labor Heritage Council to fund the production of a documentary film on the life of Ah Quon McElrath.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; University of Hawai'i West O'ahu Center for Labor Education and Research; Hawai'i Labor Heritage Council; International Union of Painters and Allied Trades District Council 50; ILWU Memorial Association; ILWU Local 142; Machinists Union Hawaii Federal and Amalgamated IAM; Filipina Advocacy Network; Labor Education Advisory Council; and nine individuals.

Your Committee finds that Ah Quon McElrath played a major role in the labor movement to end oppressive labor practices and bring economic and social justice to Hawaii. Born in Iwilei to Chinese immigrants, Ah Quon McElrath graduated from the University of Hawaii and spent her career advocating for workers by pushing for equal pay and treatment from the Big Five in Hawaii. She continued her advocacy after her retirement, fighting to end poverty for women's rights and welfare reform. Your Committee finds that production of a documentary film on the life of Ah Quon McElrath would be a tribute to her legacy.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1376 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 534 (Joint) Human Services and Higher Education on S.B. No. 50

The purpose and intent of this measure is to appropriate funds to the University of Hawaii for the Hawaii Nutrition Employment and Training Program.

Your Committees received testimony in support of this measure from the Department of Human Services, University of Hawai'i System, Hawaii Nutrition Employment and Training Program, and nineteen individuals.

Your Committees find that the Hawaii Nutrition Employment and Training program provides additional financial and one-to-one support to help college students attend to their basic needs, such as finding child care, and assists with job matching. Your Committees further find that although the Hawaii Nutrition Employment and Training program is only a few years in development, the program is demonstrating an overall fall-to-fall persistence rate that is twenty percent higher than the Community College System average. This measure provides resources to the Hawaii Nutrition Employment and Training program to allow the program to continue serving Hawaii's qualifying students.

As affirmed by the records of votes of the members of your Committees on Human Services and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 50, S.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Human Services: Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella). Higher Education: Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

#### SCRep. 535 Government Operations on S.B. No. 1514

The purpose and intent of this measure is to:

- Prohibit any state agency, including departments, offices, boards, agencies, authorities, instrumentalities, public corporations, other governmental organizations, and political subdivisions, from creating any corporate entity without the approval of the Legislature;
- Require any corporate entity created by a state agency to provide a detailed accounting to the Legislature, Attorney General, and Auditor upon request;
- (3) Allow appropriations to a state agency to be withheld if a corporate entity within a state agency fails to provide a timely accounting upon request; and
- (4) Establish that any employee, officer, agent, or contractor of a state agency who improperly creates a corporate entity and transfers to that entity any monies, property, or interest in property is guilty of theft.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association AFSCME Local 152, AFL-CIO. Your Committee received testimony in opposition to this measure from the Employees' Retirement System of the State of Hawaii. Your Committee received comments on this measure from the Department of the Attorney General and Office of Hawaiian Affairs.

Your Committee finds that the State and its subdivisions have an obligation in the management of trust revenues and properties to act prudently and ensure accountability and transparency. This measure prohibits state agencies from creating a corporate entity without the approval of the Legislature, requires a created corporate entity to provide an accounting upon request, and allows appropriations to be withheld for failure of a corporate entity to provide a timely accounting, which ensures transparency and accountability for the creation and oversight of corporate entities.

Your Committee understands the concerns raised by the Office of Hawaiian Affairs regarding its investments being similar to that of the Employees' Retirement System. However, your Committee notes that the Employees' Retirement System is governed by numerous fiduciary provisions that may not apply to other state agencies. Therefore, some additional oversight or transparency may be warranted. Your Committee concludes that additional discussion on this matter is needed.

Your Committee has amended this measure by:

- (1) Specifying that the prohibitions against state agencies creating corporate entities without legislative approval also applies to the Office of Hawaiian Affairs;
- (2) Removing language that would have found a person who created a corporate entity without legislative approval or transferred any monies, property, or interest to that corporate entity guilty of theft;
- (3) Clarifying that the State Employees' Retirement System is exempt from the prohibitions established by this measure, to ensure that the Employees' Retirement System is able to continue making investments as authorized by law;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1514, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1514, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Baker).

#### SCRep. 536 Commerce, Consumer Protection, and Health on S.B. No. 366

The purpose and intent of this measure is to appropriate funds for the Alzheimer's disease and related dementia services coordinator position within the Executive Office on Aging.

Your Committee received testimony in support of this measure from the Policy Advisory Board for Elder Affairs; Alzheimer's Association, Aloha Chapter; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Chinatown Gateway Plaza Tenant Association; and fifteen individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Executive Office on Aging.

Your Committee finds that approximately 27,000 Hawaii residents were diagnosed with Alzheimer's disease in 2010 and as Hawaii's population over the age of 65 continues to grow, the prevalence of Alzheimer's disease and related dementias is expected to rise. Alzheimer's disease and dementia patients, as well as their caretakers, require strong community support and education to assist them as they live with and combat the disease. The *Hawaii 2025: State Plan on Alzheimer's Disease and Related Dementias* identified strategies required to address the multifaceted issues associated with this disease; however, the services and activities needed require leadership and coordination at a systemic level. This measure authorizes funding for a dedicated position to help implement and update the Alzheimer's Disease and Related Dementias State Plan.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation for the Executive Office on Aging to hire a consultant or contract with the College of Tropical Agriculture and Human Resources at the University of Hawaii at Manoa to update the Alzheimer's and Related Dementias State Plan and devise strategies for service coordination; and
- (2) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 366, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 366, S.D. 1, and be referred to your Committee on Ways and Means

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

#### SCRep. 537 Commerce, Consumer Protection, and Health on S.B. No. 1034

The purpose and intent of this measure is to clarify that the existing health insurance mandate for coverage of low-dose mammography includes coverage for digital mammography and breast tomosynthesis.

Your Committee received testimony in support of this measure from the Hawai'i State Commission of the Status of Women, Planned Parenthood Votes Northwest and Hawaii, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Association of Health Plans. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that breast cancer is one of the most common kinds of cancer in women. Nearly one in eight women born today in the United States will get breast cancer sometime during her life. Digital mammography provides images of the breast in many different angles, providing greater accuracy in finding abnormalities and determining which abnormalities seem potentially worrisome. Women who undergo screening with a combination of three-dimensional and two-dimensional mammography are less likely to be called back for more testing due to suspicious findings that turn out not to be cancer. Digital mammography and breast tomosynthesis are technologies that have been shown to be more effective for patients with dense breast tissue and those that are at higher risk of breast cancer.

Your Committee notes that coverage for low-dose mammography is not a new benefit that would be subject to an impact assessment report. Breast tomosynthesis is simply an advancing technology within the existing mammography mandate that should also be covered under the same benefit. Your Committee believes it is inappropriate to require an impact assessment whenever a new technology comes out to modernize an existing covered benefit. Such attempts to delay action pose a risk to the health of patients who would benefit from advancing technologies or methodologies.

Your Committee has amended this measure by:

- (1) Inserting a repeal date of June 30, 2024; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1034, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1034, S.D. 1, and be referred to your Committee on Ways and Means

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ruderman, Thielen).

# SCRep. 538 Commerce, Consumer Protection, and Health on S.B. No. 1172

The purpose and intent of this measure is to clarify Hawaii's charitable solicitation laws by:

- (1) Replacing the term "gross revenue" with "total revenue";
- (2) Defining the term "total revenue" for purposes of calculating the annual filing fee;

- (3) Clarifying when professional solicitors must file financial reports;
- (4) Clarifying when commercial co-venturers must provide a charitable organization with an accounting and the date by which a benefit must be conferred; and
- (5) Making other housekeeping amendments.

Your Committee received testimony in support of this measure from the Department of the Attorney General, University of Hawai'i Foundation, and Hawai'i Alliance of Nonprofit Organizations.

Your Committee finds that this measure clarifies terms for consistency with Internal Revenue Service forms, provides oversight of charitable organizations and fundraising activities, clarifies regulatory procedures for the non-profit sector, and provides additional resources to the public. Furthermore, this measure provides greater clarity concerning the role of non-voting directors of non-profit corporations.

Your Committee notes that because professional audits can be very expensive, especially for organizations that just meet the existing requirement of having contributions in excess of \$500,000 per year, further amendments are needed to this measure.

Your Committee has amended this measure by:

- (1) Clarifying that charitable organizations are required to submit financial audits only when otherwise required to do so by other external entities; and
- (2)) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1172, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1172, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Fevella).

### SCRep. 539 Commerce, Consumer Protection, and Health on S.B. No. 1237

The purpose and intent of this measure is to authorize the State Health Planning and Development Agency to mandate the submission of Medicare Advantage (Medicare Part C) administrative data and health care service claims.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Department of Health, Executive Office on Aging, Office of Enterprise Technology Services, and State Health Planning and Development Agency. Your Committee received comments on this measure from the Hawaii Employer-Union Health Benefits Trust Fund Board of Trustees.

Your Committee finds there is a need for improved health care data analytics to address health care cost drivers in the State. Data from an all-payer claims database with Medicare Advantage data will provide a comprehensive Medicare data set, which can be used to effectively plan for Hawaii's aging population and the accompanying increase in medical expenditures by the state and federal governments. Your Committee further finds this measure will facilitate greater transparency in the health care sector and improve understanding of health care costs, health care system quality, population health conditions, and health care disparities.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1237, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1237, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Nishihara).

# SCRep. 540 Commerce, Consumer Protection, and Health on S.B. No. 1460

The purpose and intent of this measure is to require carriers to make monthly reports to county liquor commissions.

Your Committee received testimony in support of this measure from the City and County of Honolulu Liquor Commission and Hawaii Liquor Wholesalers Association. Your Committee received comments on this measure from the Office of Information Practices and Wine Institute.

Your Committee finds that out-of-state wineries that direct ship wine to Hawaii residents under properly issued direct wine shipper permits collect and pay general excise tax to the Department of Taxation on these transactions. However, there are untold numbers of out-of-state manufacturers and retailers who ship to residents but are not permitted, meaning they avoid paying the same general excise tax required by the direct wine shipper permit holders.

Your Committee further finds that other states that allow direct shipment have found through carrier reporting that large amounts of liquor have been shipped into their states without payment of liquor, excise, and income taxes, resulting in lost revenue. This measure's reporting requirements will enable the county liquor commissions and liquor control adjudication boards to evaluate and monitor the amount of liquor being shipped and shipper information to confirm whether the shipper has complied with the requirements to obtain a direct wine shipper permit, including payment of taxes. This will level the playing field for those liquor-licensed businesses and direct wine shipper permit holders that properly operate under liquor and tax laws.

Your Committee has amended this measure by:

- (1) Clarifying that carriers' reports will be on the statewide amount of liquor being shipped; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1460, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1460, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Fevella).

## SCRep. 541 Commerce, Consumer Protection, and Health on S.B. No. 493

The purpose and intent of this measure is to prohibit a health care insurer from requiring an insured diagnosed with stage two through stage five cancer to undergo step therapy prior to covering the insured for the drug prescribed by the insured's health care provider, under certain conditions.

Your Committee received testimony in support of this measure from the Hawaii Medical Association, Hawaii Society of Clinical Oncology and the American Society of Clinical Oncology, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Association of Health Plans and Hawaii Medical Service Association. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that step therapy, or "fail first" therapy, is a form of prior authorization that requires preferred drugs be prescribed first until proven ineffective before physicians can try other, potentially higher cost drugs or treatment. For cancer patients, selecting the proper personalized treatment as quickly as possible can be critical to survival. Delays in getting patients the right treatments at the right time often leads to unnecessary complications in the physician-patient decision-making process. According to testimony received by your Committee, step therapy policies are generally inappropriate in oncology because of the individualized nature of modern cancer treatment and the general lack of interchangeable clinical options.

Your Committee further finds that step therapy places significant administrative burdens on physician practices, as physicians do not currently have ready, electronic access to patient benefit and formulary information. This lack of transparency makes it exceedingly difficult to determine what treatments are preferred by a particular payor at the point of care and places the practices at financial risk for the cost of administered drugs if claims are later denied for unmet, yet unknown, step therapy requirements.

Your Committee notes the concerns raised in testimony that this measure's reference to "investigational new drug", or a drug not approved by the Food and Drug Administration (FDA), may be misplaced. Non-FDA approved drugs cannot be prescribed by physicians unless they are part of a Phase III clinical trial, which are part of the FDA's approval process. Drugs given to patients as part of Phase III clinical trials are not billed to the patient or their health insurance, but are supplied by the pharmaceutical company as part of their research and development. Your Committee additionally notes that cancer is commonly referred to in stages of zero through four, rather than one through five. Amendments to this measure are therefore necessary.

Your Committee has amended this measure by:

- (1) Clarifying the requirements for a prescription drug that must be covered for the treatment of stage two through stage four cancer, including requiring that the drug's use be consistent with best practices, listed in approved compendia, or recognized for off-label use for the treatment of cancer or its side effects;
- (2) Deleting the definition of "investigational new drug" and making associated conforming amendments; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 493, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 493, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

## SCRep. 542 (Joint) Commerce, Consumer Protection, and Health and Human Services on S.B. No. 417

The purpose and intent of this measure is to:

- (1) Require Medicaid and private insurance coverage of ambulance services;
- (2) Authorize Medicaid programs and require private insurers to pay for ambulance services if the patient was treated in a county with a population of two hundred thousand or more, even if the patient is not transported; and
- (3) Appropriate funds for Medicaid coverage of ambulance services.

Your Committees received testimony in support of this measure from the Department of Health, Department of Public Safety, Hawai'i Fire Department of the County of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, American Medical Response, and two individuals. Your Committees received comments on this measure from the Department of the Attorney General, Department of Commerce and Consumer Affairs, Department of Human Services, and Hawaii Medical Service Association.

Your Committees find that in 2018, emergency medical service providers treated and transported 89,770 patients. Emergency medical service providers also responded to 21,473 calls, representing over fourteen percent of all emergency medical service responses, where the patient was treated but not transported. Data shows there has been a consistent increase each year in the proportion of patients who are treated but not transported. Historically, however, the State has billed for patients transported to hospitals. This measure will help recoup operational costs by providing reimbursement for services when a patient is treated but not transported and will help break the cycle of dependence on the emergency care system.

Your Committees further find that as the cost of quality health care continues to increase, alternatives to the traditional provision of health care are required. Community paramedicine is an emerging and innovative model of care that uses emergency medical technicians and paramedics to provide care to underserved populations. Moreover, community paramedicine is an effective approach to serving patients with complex medical and social conditions and has the potential to decrease emergency department use and decrease hospitalizations. A unified statewide community paramedicine program will preserve and enhance emergency medical services, can help provide the right care by the right provider at the right time and place, and reduce wasted healthcare dollars. Your Committees note that this measure is not a new mandate, rather, it expands access to care.

Your Committees have amended this measure by:

- Clarifying that the State's Medicaid programs may pay for statewide community paramedicine services rendered by emergency medical technicians or paramedics;
- (2) Clarifying that each policy of accident and health or sickness insurance or hospital or medical service plan contract shall provide coverage for statewide community paramedicine services rendered by emergency medical technicians or paramedics;
- (3) Removing language that would have limited coverage to services provided within a county with a population of two hundred thousand or more; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 417, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 417, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 5. Noes, none. Excused, 2 (Nishihara, Fevella).

Human Services: Ayes, 3. Noes, none. Excused, 2 (Ihara, Riviere).

#### SCRep. 543 Commerce, Consumer Protection, and Health on S.B. No. 883

The purpose and intent of this measure is to appropriate funds to the Department of Health for Healthy Start home visiting child abuse prevention services.

Your Committee received testimony in support of this measure from the Department of Human Services, Parents and Children Together, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and Hawaii Family Support Institute. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that Healthy Start provides home visiting services as a prevention strategy to improve the health and well-being of vulnerable families of newborns who are at risk for adverse health, safety, and developmental outcomes. Home visiting services address the risk of child abuse by fostering family functioning, promoting child health and development, enhancing positive parenting skills, and linking parents to community resources including health and mental health services, early childhood education, childcare, family literacy, employment, and social services. Funding for these services, as provided for in this measure, is a good investment for the future of the State to reduce the impact of abuse and neglect on children, prevent future abuse and neglect, and reduce the associated social and financial costs.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 883 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Fevella).

## SCRep. 544 Commerce, Consumer Protection, and Health on S.B. No. 887

The purpose and intent of this measure is to increase the cigarette and tobacco tax and allocate portions of the resulting revenue to the Hawaii Health Systems Corporation and toward repaying medical school loans of qualifying graduates of the John A. Burns School of Medicine.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation, East Hawaii Region of Hawaii Health Systems Corporation, American Heart Association, Ho'omanapono Political Action Committee, Hawai'i Public Health Institute, American Cancer Society Cancer Action Network, Blue Zones Project, and five individuals. Your Committee received testimony in opposition to this measure from the University of Hawai'i System; Hawaii Smokers Alliance; Retail Merchants of Hawaii; JT International U.S.A., Inc.; Black Lava Vape; and over forty individuals. Your Committee received comments on this measure from the Department of Taxation, Department of Health, and Tax Foundation of Hawaii.

Your Committee finds that tobacco use remains the leading cause of preventable disease and death in the United States and in Hawaii. Smoking is associated with cancer, heart disease, stroke, emphysema, asthma and much more, yet tobacco use can be easily prevented by increasing its cost. It has been estimated that a ten percent increase in the price of cigarettes reduces adult smoking by

about two percent, reduces smoking in young adults by approximately three and a half percent, and reduces the number of children who smoke by six or seven percent. Raising the cigarette and tobacco tax on cigarettes and little cigars sold in the State will protect individuals of all ages, especially adolescents and children, from tobacco dependency and the illnesses and premature death associated with smoking. At the same time, the revenues raised by this measure will help finance the public health system, which so many smokers ultimately rely on.

Your Committee has amended this measure by:

- (1) Increasing the allocation of tax collections to the Hawaii cancer research special fund from 2 cents to 3 cents;
- (2) Clarifying that the increased tax rate and disposition of the resulting revenues proposed by this measure will go into effect on July 1, 2020; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 887, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 887, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

#### SCRep. 545 Commerce, Consumer Protection, and Health on S.B. No. 1024

The purpose and intent of this measure is to appropriate funds to the Department of Health for the Aging and Disability Resource Center.

Your Committee received testimony in support of this measure from the Executive Office on Aging, Policy Advisory Board for Elder Affairs, County of Hawai'i Office of Aging, International Longshore and Warehouse Union Local 142, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaii Women's Coalition, Zonta Club of Hilo, and four individuals.

Your Committee finds the State's Aging and Disability Resource Center is a navigational tool intended to streamline access to long-term supports and services for older adults, individuals with disabilities, and family caregivers. Funding for the Aging and Disability Resource Center also supports county area agencies, which provide aging and disability resource centers at the county level. Your Committee further finds that funding for the Aging and Disability Resource Center will help sustain the capacity for the Executive Office on Aging and the county Area Agencies on Aging to operate as a statewide, fully functional Aging and Disability Resource Center

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1024 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 3 (Nishihara, Ruderman, Fevella).

# SCRep. 546 Commerce, Consumer Protection, and Health on S.B. No. 1045

The purpose and intent of this measure is to require barber, beauty operator, and instructor licensees under the Board of Barbering and Cosmetology to complete a one-time, one-hour training program on intimate partner violence awareness and education.

Your Committee received testimony in support of this measure from the Hawaii'i State Commission on the Status of Women; Hawaii State Coalition Against Domestic Violence, LGBT Caucus of the Democratic Party of Hawaii, Planned Parenthood Votes Northwest and Hawaii, Hawaii Women's Coalition, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and one individual. Your Committee received comments on this measure from the Board of Barbering and Cosmetology.

Your Committee finds that national statistics show one in four women and one in seven men will be abused by an intimate partner in their lifetime. Professionals in the beauty industry have a unique opportunity to notice signs of abuse and often enjoy close and trusting relationships with their clients. These professionals have a unique opportunity to provide advice, resource information, and assistance. This measure will help equip beauty industry professionals with information concerning the general dynamics of domestic violence and where victims can find resources in their communities across the State.

Your Committee further notes that a one-time, one-hour training program is not overly extensive or burdensome. Moreover, the measure holds licensees harmless for acting in good faith or failing to act on information concerning potential intimate partner violence, providing appropriate safeguards for licensees.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1045 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ruderman, Fevella).

# SCRep. 547 (Joint) Energy, Economic Development, and Tourism and Agriculture and Environment on S.B. No. 763

The purpose and intent of this measure is to require the Department of Business, Economic Development, and Tourism, in consultation with the Department of Agriculture, to conduct a study assessing the economic impact of companies selling products in the United States using place-based marketing without any material ties to the State.

Your Committees received testimony in support of this measure from the Department of Agriculture, Hawai'i Farm Bureau, Hawaii Coffee Association, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committees find that many products manufactured in Hawaii use locally grown or produced agricultural products, despite the often higher costs of manufacturing those products within the State or using a particular quality of locally sourced ingredients. The State has policies and educational and marketing campaigns in place to increase local food production and decrease food imports, and many consumers have embraced the call to buy locally made and grown products. However, products without such material ties to the State have also been introduced into commerce and falsely use Hawaii place-based marketing, which has taken advantage of the Hawaii brand and misled many consumers. This measure will require the Department of Business, Economic Development, and Tourism, in collaboration with the Department of Agriculture, to conduct a study of impacts and recommendations to maintain and protect the integrity of Hawaii-branded products and support Hawaii's economy.

Your Committees have amended this measure by inserting an appropriation amount of \$250,000 for the study.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 763, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 763, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Taniguchi).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

## SCRep. 548 (Joint) Energy, Economic Development, and Tourism and Technology on S.B. No. 990

The purpose and intent of this measure is to:

- (1) Transfer all powers, duties, and obligations held by the Hawaii Strategic Development Corporation and the Broadband Division of the Department of Business, Economic Development, and Tourism to the Hawaii Technology Development Corporation; and
- (2) Repeal the Hawaii Strategic Development Corporation.

Your Committees received comments on this measure from the Department of Budget and Finance; Department of Business, Economic Development, and Tourism; Hawaii Strategic Development Corporation; and Hawaii Technology Development Corporation.

Your Committees find that most of the jobs in the State's economy are relatively low-paying, service-sector jobs. As technology advances, rapid transformation of various industries is taking place. Thus, the need to prepare the future workforce through an emphasis on science, technology, engineering, and math education and other technology-focused strategies to capture opportunities for higher paying jobs becomes necessary. This measure seeks to pool the resources and focus efforts of various state agencies by consolidating state technology-based economic development efforts into one agency.

However, your Committees recognize that the transition proposed by this measure may take more time and resources than are desired at this time to produce the intended effect. Your Committees find that a study may be a more prudent way to first assess and identify specific policy and procedural changes that are necessary to effectuate technology-based economic development.

Accordingly, your Committees have amended this measure by deleting its contents and inserting language to:

- (1) Require the Department of Business, Economic Development, and Tourism to engage a consulting firm to conduct a study to evaluate policies and organizational changes needed within the Department of Business, Economic Development, and Tourism that will enable the State to successfully execute a technology-based economic development strategy; and
- (2) Appropriate \$70,000 for fiscal year 2019-2020 for the Department of Business, Economic Development, and Tourism to engage the consulting firm to conduct the study.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 990, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 990, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Technology: Ayes, 3. Noes, none. Excused, 2 (English, Moriwaki).

## SCRep. 549 (Joint) Energy, Economic Development, and Tourism and Transportation on S.B. No. 1000

The purpose and intent of this measure is to prohibit the issuance of building permits for all new multi-family residential buildings that have twenty or more parking stalls and new commercial buildings that have forty or more parking stalls unless at least twenty-five percent of the parking stalls are electric vehicle charger ready.

Your Committees received testimony in support of this measure from Hawaiian Electric Company, Inc.; Tesla; Big Island EV Association; ChargePoint, Inc.; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi; Ulupono Initiative; Blue Planet Foundation; and fourteen individuals. Your Committees received testimony in opposition to this measure from the Building Owners and Managers Association, Hawaii Legislative Action Committee of the Community Associations Institute, Associa, and one individual. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; and Elemental Excelerator.

Your Committees find that electric vehicles are a viable alternative to gasoline-powered vehicles and align with the State's clean energy initiative. While public interest in electric vehicles is growing, the lack of vehicle charging stations is a barrier preventing many residents from purchasing electric vehicles. Your Committees also find that most electric vehicle owners charge their vehicles at home or work, but unfortunately the vast majority of parking facilities are not being built to accommodate electric vehicle chargers. Your Committees further find that requiring parking stalls to be electric vehicle charger ready results in significant long-term savings because it is cheaper to install the required infrastructure during the initial construction of the building rather than through retrofitting. This measure will require more new multi-family residential and commercial buildings to have electric vehicle charger ready parking stalls, thereby making electric vehicle ownership more convenient and furthering Hawaii's clean energy initiative.

Your Committees have amended this measure by:

- Amending the electric vehicle charger ready requirement for new multi-family residential buildings to apply to those buildings with ten or more parking stalls;
- Amending the electric vehicle charger ready requirement for new commercial buildings to apply to those buildings with twenty or more parking stalls;
- (3) Reducing the minimum percentage of parking stalls in new multi-family residential and new commercial buildings that must be electric vehicle charger ready from twenty-five percent to twenty percent; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1000, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1000, S.D. 1, and be referred to your Committees on Commerce, Consumer Protection, and Health and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Transportation: Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

#### SCRep. 550 (Joint) Energy, Economic Development, and Tourism and Government Operations on S.B. No. 1003

The purpose and intent of this measure is to:

- (1) Establish the temporary Innovative Project Delivery Guidelines Task Force within the Department of Accounting and General Services:
- (2) Require the Department of Accounting and General Services to adopt rules based on the Task Force's recommendations for the use of innovative project delivery approaches by state agencies; and
- (3) Appropriate funds for the procurement, hiring, or securing of experts and professional advisory services.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services, Department of Transportation, and Ulupono Initiative. Your Committees received comments on this measure from the State Procurement Office, Building Industry Association of Hawaii, and one individual.

Your Committees find that the existing public procurement code does not preclude innovative project delivery modes, but more guidance and specific procedures are needed. This measure establishes the Innovative Project Delivery Guidelines Task Force to develop guidelines and procedures that will enable state agencies to enter into innovative project delivery arrangements for qualified public infrastructure projects.

Your Committees have amended this measure by:

- (1) Adding the Administrator of the State Procurement Office or Administrator's designee to the Innovative Project Delivery Guidelines Task Force; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1003, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1003, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Fevella).

Government Operations: Ayes, 5. Noes, none. Excused, none.

# SCRep. 551 (Joint) Energy, Economic Development, and Tourism and Commerce, Consumer Protection, and Health on S.B. No. 1241

The purpose and intent of this measure is to allow the Department of Business, Economic Development, and Tourism to share energy data with the Department of Health in order to increase the accuracy of and reduce the levels of uncertainty in the Department of Health's annual greenhouse gas progress reports.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Department of Business, Economic Development, and Tourism; Department of Health; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi; and one individual.

Your Committees find that climate change poses an environmental, economic, and public health threat and Hawaii is particularly vulnerable to increases in sea levels, storm intensity, flooding, and beach erosion. To address Hawaii's contribution to climate change, a 2020 greenhouse gas emissions limit was established in 2007, mandating the State to reduce its statewide emissions to levels at or below 1990 levels by January 1, 2020.

Under existing state law, the Department of Health is responsible for preparing the annual greenhouse gas progress reports, which provide statewide greenhouse gas emission inventory estimates and updates and assess progress being made toward achieving the 2020 greenhouse gas emissions limit, estimate uncertainties, and support the determination of whether or not the 2020 limit has been met and will be sustained. However, access to energy data obtained pursuant to chapter 486J, Hawaii Revised Statutes, is restricted to certain departments, which do not include the Department of Health. This measure will allow the Department of Health access to energy data to aid in the completion of its annual greenhouse gas progress reports, thereby resulting in more accurate annual reports that allow the State to better regulate greenhouse gas emissions.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1241 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Commerce, Consumer Protection, and Health: Ayes, 4. Noes, none. Excused, 3 (Chang, Keohokalole, Thielen).

#### SCRep. 552 (Majority) Energy, Economic Development, and Tourism on S.B. No. 714

The purpose and intent of this measure is to:

- (1) Impose the transient accommodations tax on resort fees that are calculated separately from the advertised transient accommodation's rate;
- (2) Amend the formula for the amount of transient accommodations tax to be collected from time shares by increasing the base on which time share occupancy is taxed from fifty percent to one hundred percent of the gross daily maintenance fees paid by the owner and are attributable to the time share unit; and
- (3) Specify that the transient accommodations tax is to be collected from transient accommodations intermediaries who arrange transient accommodations at noncommissioned negotiated contract rates in the same manner as transient accommodations operators.

Your Committee received testimony in opposition to this measure from the Hawai'i Lodging and Tourism Association; Prince Resorts Hawaii; Kohala Coast Resort Association; OLS Hotels and Resorts; Waikoloa Beach Marriott Resort and Spa; Honolulu County Republican Party; Sheraton Kauai Resort; Aqua-Aston Hospitality; Hampton Inn & Suites Oahu/Kapolei; Soleil Management Hawaii, LLC; Marriott Vacations Worldwide Corporation; Maui Hotel & Lodging Association; Outrigger Waikiki Beach Resort and Outrigger Reef Waikiki Beach Resort, Marriott Ko Olina Beach Club, Outrigger Hospitality Group; Marriott's Maui Ocean Club; Hyatt Resorts Hawaii; ARDA Hawaii; Hyatt Regency Resort; Pualeilani Atrium Shops at Hyatt Regency Waikiki Beach Resort & Spa; Hyatt Regency Waikiki Beach Resort & Spa; Outrigger Enterprises Group; Trump International Hotel Waikiki; Kyo-ya Management Co., Ltd.; and two individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that in recent years, the transient accommodations industry has expanded rapidly, especially in tourist destinations such as Hawaii. Although technological advancements have improved the lifestyle for many consumers, they have also introduced issues with tax compliance. Your Committee believes that further refinement and specificity are needed to address the growth of the transient accommodations industry while protecting the interests of state residents.

Your Committee has amended this measure by:

- (1) Amending the definition of "resort fees" to mean only mandatory charges or surcharges;
- (2) Changing the statutory placement of language requiring transient accommodations intermediaries to register with the Director of Taxation before arranging to furnish transient accommodations at noncommissioned negotiated contract rates, along with associated requirements, from section 237D-4 to section 237D-4.5, Hawaii Revised Statutes;
- (3) Making conforming amendments in section 237D-4.5, Hawaii Revised Statutes, to reflect the consolidation of certain entities into the definition of "transient accommodations intermediaries"; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 714, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 714, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4; Ayes with Reservations (Inouye). Noes, 1 (Fevella). Excused, none.

# SCRep. 553 (Joint) Water and Land and Energy, Economic Development, and Tourism on S.B. No. 1386

The purpose and intent of this measure is to:

(1) Require the Department of Land and Natural Resources to develop, submit, and evaluate progress on a state 2030 natural resources conservation goal action plan; and

(2) Allocate one percent of the revenues of the transient accommodations tax to the Department of Land and Natural Resources in order to achieve the action plan.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Center for Biological Diversity, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, Sierra Club of Hawaiʻi, and eight individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that the protection and restoration of Hawaii's natural resources are essential to the quality of life of Hawaii's residents, culture, and economy. Your Committees find that the State is approaching a critical decade in which drastic steps must be taken to address the impacts of climate change. Your Committees therefore find it necessary to update and increase Hawaii's natural resources conservation programs to ensure maximum long-term benefit to Hawaii's environment, culture, and economy by increasing funding for the Department to reach those goals and by creating a state 2030 natural resources conservation goal action plan.

Your Committees have amended this measure by:

- (1) Designating that the one per cent allocation of revenues of the transient accommodations tax be deposited into the special land and development fund established pursuant to section 171-19, Hawaii Revised Statutes;
- (2) Authorizing funds in the special land and development fund to be used for the development, submission, and evaluation of progress of the state 2030 natural resources conservation goal action plan;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1386, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1386, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Fevella).

### SCRep. 554 Labor, Culture and the Arts on S.B. No. 802

The purpose and intent of this measure is to appropriate or authorize funds or amend means of financing for various capital improvement projects of the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that this measure expresses adjustments to the projects funded, maximum sums appropriated or authorized, or means of financing indicated for the Department of Land and Natural Resources in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 802 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

### SCRep. 555 (Joint) Hawaiian Affairs and Water and Land on S.B. No. 1363

The purpose and intent of this measure is to:

- (1) Establish \$35,000,000 as the Office of Hawaiian Affairs' pro rata share of the public land trust;
- (2) Appropriate \$139,000,000, less certain funds in the carry-forward trust holding account, to the Office of Hawaiian Affairs for amounts received from use of the public land trust that the Legislature has determined were underpaid to the Office of Hawaiian Affairs from July 1, 2012, through June 30, 2019;
- (3) Require the Director of Finance to:
  - (A) Determine the minimum amount of receipts to be transferred, and actual amount transferred, by any agency that collects public land trust receipts to the Office of Hawaiian Affairs; and
  - (B) Transfer any amount actually transferred that is short of the minimum amount into the carry-forward trust holding account:
- (4) Require the Department of Land and Natural Resources to provide an annual accounting of receipts from lands described in section 5(f) of the Admissions Act; and
- (5) Establish a committee to recommend the annual amount of the income and proceeds from the public land trust that the Office of Hawaiian Affairs shall receive annually.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs; Kamehameha Schools; Hawaii Farmers Union; Connections PCS; Hoʻomanapono Political Action Committee; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi; Association of Hawaiian Civic Clubs Moku O Keawe - Hawaiʻi Council; Association of Hawaiian Civic Clubs; Prince Kūhiō Hawaiian Civic Club; Democratic Party of Hawaiʻi, Hawaiian Affairs Caucus; Native Hawaiian Chamber of Commerce; Kalihi-Palama Hawaiian Civic Club; and sixteen individuals. Your Committees received testimony in opposition to this measure from the Center for Hawaiian Sovereignty Studies. Your Committees received comments on this measure from the Society of Professional Journalists, Hawaii Chapter; and League of Women Voters.

Your Committees find that the State has a constitutional obligation to provide an adequate amount of income and proceeds as the pro rata portion of the public land trust for the betterment of the conditions of native Hawaiians. In 2006, the Office of Hawaiian Affairs and the State agreed to an interim annual amount of \$15,100,000 pending further action by the Legislature to meet its constitutional obligation. In 2012, the State again acknowledged the obligation and conveyed certain lands in Kakaako Makai, valued at approximately \$200,000,000, to the Office of Hawaiian Affairs to satisfy the State's constitutional obligations to native Hawaiians for the period between November 7, 1978, up to and including June 30, 2012. However, since 2012, no further payments have been made to satisfy the State's constitutional obligation relating to the Office of Hawaiian Affairs' pro rata share of the public land trust. Your Committees find that it is in the best interests of the Office of Hawaiian Affairs, its beneficiaries, and the State to enact another interim legislative measure regarding the Office of Hawaiian Affairs' constitutional pro rata share of the public land trust.

Your Committees have amended this measure by:

- (1) Inserting a blank amount as the Office of Hawaiian Affairs' annual pro rata share of the income and proceeds of the public land trust:
- (2) Inserting blank amounts for the minimum amount of receipts to be transferred by any agency that collects public land trust receipts to the Office of Hawaiian Affairs;
- (3) Inserting a blank amount for the appropriation to pay the Office of Hawaiian Affairs amounts received from the use of the public land trust that the Legislature has determined were underpaid to the Office of Hawaiian Affairs; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees respectfully request your Committee on Ways and Means to weigh the merits of holding funds in the carry-forward trust holding account versus making annual payments to the Office of Hawaiian Affairs.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1363, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1363, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 4; Ayes with Reservations (Ihara). Noes, none. Excused, 1 (Fevella).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

### SCRep. 556 (Joint) Housing and Energy, Economic Development, and Tourism on S.B. No. 1081

The purpose and intent of this measure is to:

- Expand the qualified expenditures of individual development account funds to rental housing associated costs, transportation associated costs, costs related to the purchase or repair of a motor vehicle, and qualified business capitalization expenses for a small business;
- (2) Expand the eligibility for state-funded individual development accounts to individuals with income up to 100 percent of the area median income;
- (3) Clarify certain requirements for fiduciary organizations;
- (4) Require the Department of Business, Economic Development, and Tourism to certify the tax credits for contributions;
- (5) Establish requirements for fiduciary organizations to maintain state match funds for individual development accounts; and
- (6) Reactivate the individual development account tax credit for taxable years 2020 through 2024.

Your Committees received testimony in support of this measure from the Hawaiian Community Assets, Hawai'i Alliance for Community-Based Economic Development, Hawaii State Federal Credit Union, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawaii HomeOwnership Center, and one individual. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; and Tax Foundation of Hawaii.

Your Committees find that individual development accounts are matched savings accounts that enable low- and moderate-income individuals to save, build assets, obtain stable housing, and ensure a financially secure future. Your Committees further find that individual development accounts assist low- and moderate-income individuals who are participating in financial education and use the savings for targeted purposes, such as housing, post-secondary education, small business development, and transportation for work and school

Your Committees also find that the individual development account tax credit ended in 2004. Your Committees believe that although the fiscal impacts of reinstating the tax credit are unknown, there is merit in reinstating this tax credit to help low- and moderate-income individuals become more financially secure and stable in the future.

Your Committees have amended this measure by:

- (1) Changing the income cap of an individual development account holder from 100 percent of the area household median income to an unspecified percentage;
- (2) Changing references of the Business Development and Support Division of the Department of Business, Economic Development, and Tourism to the Department of Human Services, thereby reinstating the Department of Human Services as the manager of fiduciary organizations' responsibilities and certifier of individual development account tax credits;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that it is the intent of your Committees to integrate this measure with Senate Bill No. 1310, Regular Session of 2019, which is the individual housing accounts measure.

As affirmed by the records of votes of the members of your Committees on Housing and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1081, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1081, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

### SCRep. 557 (Joint/Majority) Education and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 171

The purpose and intent of this measure is to create a county education task force to establish a process for the transfer of jurisdiction over all public schools that are located in a county with a population greater than five hundred thousand, including all state public education functions and funding, from the State to the county.

Your Committees received testimony in support of this measure from the Office of the Mayor of the City and County of Honolulu and one individual. Your Committees received testimony in opposition to this measure from the Office of the Governor, Department of Education, Board of Education, and Hawaii State Teachers Association. Your Committees received comments on this measure from the Department of Budget and Finance, Legislative Reference Bureau, and Democratic Party of Hawai'i Education Caucus.

Your Committees find that funding for public education in Hawaii is primarily sourced from the general fund of the State. Because providing adequate funding for public education statewide has become a challenge, establishing a county education task force to look at the possibility of transferring jurisdiction over public schools from the State to the counties will allow the task force to gain a better understanding of school financing and jurisdiction. This measure allows for collaboration amongst all levels of the educational network to improve financing mechanisms for public education and school governance that will better improve the overall education system in Hawaii.

Your Committees have amended this measure by:

- (1) Expanding the scope of the process created by the county education task force for the transfer of jurisdiction over all public schools from the State to the county in which the public school is located to include all counties; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 171, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 171, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 3; Ayes with Reservations (Kanuha, Kim). Noes, none. Excused, 2 (Dela Cruz, Fevella).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, 1 (Harimoto). Excused, 1 (Fevella).

### SCRep. 558 (Joint) Education and Higher Education on S.B. No. 255

The purpose and intent of this measure is to:

- (1) Require by the end of the 2019-2020 school year, that all public schools; private schools; public charter schools; University of Hawaii and its divisions, campuses, and institutions; and private colleges and universities and their divisions, campuses, and institutions have automated external defibrillators (AEDs) situated in a permanent location on campus;
- (2) Require the public schools, private schools, public charter schools, University of Hawaii, and private colleges and universities that have an athletic trainer to have AEDs available at each sporting event;
- (3) Require AEDs to be maintained and tested regularly; and
- (4) Provide any person who uses, places, or provides for an AED with immunity from civil liability, except as may result from the person's gross negligence or wanton acts or omissions.

Your Committees received testimony in support of this measure from the Department of Education; State Public Charter School Commission; Hawaii State Teachers Association; Hawaii Primary Care Association; Kids 4 CPR, Inc.; AED Institute of America, Inc.; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; American Heart Association; The Future Healthcare Professionals of America Club at St. Andrew's Schools – The Priory; Heart Start Hawaii Foundation; Kalani High School Health Academy; and numerous individuals. Your Committees received testimony in opposition to this measure from the Hawaii Association for Justice. Your Committees received comments on this measure from the Hawaii Athletic Trainers Association.

Your Committees find that AEDs are an important tool in responding to emergency situations. In addition, your Committees find that AEDs have been used on several occasions over the past several years to save the lives of student athletes, teachers, athletic coaches, and spectators of sporting events. This measure ensures that AEDs are available on all public school, public charter school, and University of Hawaii campuses to improve schools' and the community's ability to respond to a medical emergency.

Your Committees have amended this measure by deleting its contents and inserting language that:

- (1) By the end of the 2020-2021 school year, requires all public schools, public charter schools, and University of Hawaii divisions, campuses, and institutions to have an AED on campus;
- (2) Requires the public schools; public charter schools; and University of Hawaii divisions, campuses, and institutions that have an athletic trainer to ensure that the athletic trainer is trained and certified in the use of an AED; and
- (3) Inserts an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 255, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 255, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees. Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Fevella). Higher Education: Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

#### SCRep. 559 (Joint) Education and Higher Education on S.B. No. 1474

The purpose and intent of this measure is to increase the general excise tax by 0.5 percent to provide a dedicated funding source for the Department of Education and University of Hawaii.

Your Committees received testimony in support of this measure from the Department of Education, University of Hawai'i System, Hawaii State Teachers Association, Americans for Democratic Action Hawai'i, Democratic Party of Hawai'i, Democratic Party of Hawai'i Education Caucus, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and six individuals. Your Committees received testimony in opposition to this measure from the Hawaii Food Industry Association, Retail Merchants of Hawaii, Honolulu County Republican Party, and five individuals. Your Committees received comments on this measure from the Department of Taxation, Department of Budget and Finance, Tax Foundation of Hawaii, and Life of the Land.

Your Committees find that Hawaii's public schools are critically underfunded. Many schools in the State require extensive upgrades or renovations, including the installation of air conditioning and other heat abatement measures. Teacher compensation and per-pupil spending are far below the national average. Expansions of prekindergarten, fine arts and humanities, and vocational education programs are required to better serve public school students. An increase in the general excise tax will provide the additional revenues necessary to meet these goals.

Your Committees have amended this measure by:

- (1) Including the following amendments suggested by the Department of Taxation:
  - (A) Amending sections 237-15, 237-16.5, and 237-18, Hawaii Revised Statutes, to insert the omitted increase; and
  - (B) Increasing the use tax to correspond with the increase in the general excise tax;
- (2) Inserting blank amounts for the minimum amount of revenues that shall be deposited into respective special accounts in the general fund for appropriation to and expenditure for operations of the Department of Education and University of Hawaii;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1474, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1474, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Education: Ayes, 3. Noes, none. Excused, 2 (Dela Cruz, Fevella). Higher Education: Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

# SCRep. 560 Commerce, Consumer Protection, and Health on S.B. No. 1043

The purpose and intent of this measure is to:

- (1) Require health insurers, mutual benefit societies, and health maintenance organizations to provide coverage for a comprehensive category of reproductive health care services, drugs, devices, products, and procedures; and
- (2) Prohibit discrimination in the provision of reproductive health care services.

Your Committee received testimony in support of this measure from Planned Parenthood Votes Northwest and Hawaii, Save Medicaid Hawaii, AAUW of Hawaii, Hawaii Women's Coalition, Hawai'i Section of the American College of Obstetricians and Gynecologists, LGBT Caucus of the Democratic Party of Hawai'i, Midwives Alliance of Hawaii, Healthy Mothers Healthy Babies, Hawaii State Coalition Against Domestic Violence, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, ACLU of Hawaii, and seventy-seven individuals. Your Committee received testimony in opposition to this measure from one

individual. Your Committee received comments on this measure from the Department of Health, Department of Commerce and Consumer Affairs, Department of the Attorney General, and Hawaii Medical Service Association.

Your Committee finds that the current Presidential Administration and congressional leaders have made it clear that enacting additional restrictions on health care access and undermining consumer protections are one of their top priorities. Most recently, the Administration has sought to enact rules that would allow employers to refuse to provide contraception coverage on the basis of moral and religious reasons. Given these attacks on basic rights and health care, it is more important than ever that access to health care is protected in the State. Numerous studies have shown that public investment in reproductive health and family planning services saves far more in long term health care costs. Data also shows the devastating health consequences that occur when a patient does not have access to these basic services.

This measure ensures that Hawaii residents do not lose access to no-copay preventive services such as birth control, well-women exams, and lifesaving cancer screenings. This measure also ensures that all people in Hawaii, regardless of gender, gender identity, or sexual orientation, receive equal access to comprehensive sexual and reproductive health care, without discrimination. Hawaii must continue its leadership in promoting all peoples' access to the health care they deserve, no matter what happens at the federal level.

Your Committee further notes that the covered health care services in this measure are not new mandates, but represent updates to current mandates to include best practice treatments and advancing technologies.

Your Committee has amended this measure by:

- (1) Clarifying that the required preventive care coverage proposed by this measure includes screening and appropriate counseling or interventions for:
  - (A) Substance abuse, including tobacco and electronic smoking devices, and alcohol; and
  - (B) Mental health screening and counseling, including depression;
- (2) Requiring a bill or statement for services from any health care provider or health insurer, mutual benefit society, or health maintenance organization to be sent directly to the person receiving the services; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1043, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1043, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

# SCRep. 561 Commerce, Consumer Protection, and Health on S.B. No. 639

The purpose and intent of this measure is to specify that:

- (1) Ten percent of the monies in the Hawaii tobacco settlement special fund shall be allocated to and expended by the Department of Health for purposes of the kupuna care program and the kupuna caregivers program; and
- (2) The deposit of tobacco settlement monies shall not supplant the base budget of the Executive Office on Aging.

Your Committee received testimony in support of this measure from the University of Hawai'i System; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Hawaii Family Caregiver Coalition; United Public Workers, AFSCME, Local 646, AFL-CIO; ILWU Local 142; Catholic Charities Hawai'i; and Caring Across Generations. Your Committee received testimony in opposition to this measure from five individuals. Your Committee received comments on this measure from the Department of the Attorney General and Executive Office on Aging.

Your Committee finds that Hawaii's aging population motivated the Legislature to pass the landmark kupuna caregivers program in 2017 to support qualified caregivers by providing up to \$70 per day to cover the cost of adult care, chore services, home-delivered meals, homemaker services, personal care, respite, or transportation. Furthermore, the kupuna caregivers program provides needed respite for caregivers who are caring for their loved ones while also holding down their own employment.

Your Committee further finds that as a result of its arbitration settlement with the tobacco industry, the State received monies from tobacco companies, which are deposited into the Hawaii tobacco settlement special fund. Many of today's kupuna were likely to have been smokers in the past and may be suffering from smoking-related diseases, resulting in the need for caregivers in the State. This measure provides additional resources for the kupuna caregivers program to allow caregivers who are juggling their own employment with their caregiving responsibilities to simultaneously take care of their kupuna and themselves. Your Committee further notes that the intent of this measure is to preserve the allocation percentage that is appropriated into the university revenue-undertakings fund for the University of Hawaii and instead reduce the allocation to the general fund.

Your Committee notes that according to testimony from the Executive Office on Aging, the Governor's biennium base budget request includes a total of \$9,000,000 for the kupuna care program and \$1,200,000 for kupuna caregivers. The Executive Office on Aging supports this request, as these funds are necessary to continue the valuable services provided by the kupuna care and kupuna caregivers programs.

Your Committee has amended this measure by:

- (1) Including the following amendments suggested by the Department of the Attorney General:
  - (A) Clarifying that ten percent of the monies in the Hawaii tobacco settlement special fund shall be appropriated to the Executive Office on Aging for the purposes of the kupuna care program and kupuna caregivers program; and

- (B) Deleting the provision to prohibit supplanting of the base budget of the Executive Office on Aging; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 639, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 639, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

# SCRep. 562 Commerce, Consumer Protection, and Health on S.B. No. 1244

The purpose and intent of this measure is to clarify that liability for illegally selling tobacco products including an electronic smoking device, to a person under the age of twenty-one is borne by the retail entity or individual who holds a valid permit to sell tobacco products, rather than an employee.

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i Public Health Institute, Black Lava Vape, Blue Zones Project, Ho'omanapono Political Action Committee, and six individuals. Your Committee received testimony in opposition to this measure from Retail Merchants of Hawaii, Hawaii Smokers Alliance, and twenty-four individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that ninety-five percent of smokers start smoking before they turn twenty-one; therefore, preventing the sale of tobacco products to minors below the age of twenty-one may reduce smoking initiation in children and teens. Under existing law, selling tobacco products and electronic smoking devices to minors is prohibited and results in a fine. However, there is confusion about whether the retailer, tobacco product permittee, electronic smoking device registration holder, or the employee who conducted the prohibited transaction receives the penalty for the violation. This measure clarifies that penalties shall be imposed not on employees but on the retailers and permittees who are best placed to impose effective best practices in their retail locations to ensure that sales to underage customers do not reoccur. Your Committee further finds that clearly placing penalties on the retailer or permittee aligns Hawaii with United States Food and Drug Administration policy, which addresses warning letters on inspection violations and corrective actions to the retailers, and not employees.

Your Committee has amended this measure by:

- (1) Clarifying that the entities that bear the liability for the illegal sale of tobacco products to persons under the age of twenty-one include registrants required to register with the electronic smoking device retailer registration unit; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1244, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1244, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

# SCRep. 563 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 146

The purpose and intent of this measure is to:

- (1) Authorize the State Fire Council to use monies in the reduced ignition propensity cigarette program special fund to support the duties and responsibilities of the State Fire Council;
- (2) Specify the testing procedures of the reduced ignition propensity cigarette program; and
- (3) Provide that manufacturers of cigarettes that fail reduced ignition propensity testing at a certain rate may be subject to civil fines

Your Committee received testimony in support of this measure from the State Fire Council, Honolulu Fire Department, Hawai'i County Fire Department, and Maui Fire Department.

Your Committee finds that the State Fire Council is responsible for reviewing and adopting the state fire code, providing administrative oversight of the reduced ignition propensity cigarette program, providing assistance with the application and administration of federal grants for fire-related projects, and assisting and coordinating with the statewide delivery of fire training programs, among other tasks. The reduced ignition propensity cigarette program was established in 2009 to require that only reduced ignition propensity cigarettes are sold in the State. Fees from cigarette manufacturers are paid to the State Fire Council and deposited into the reduced ignition propensity cigarette program special fund, and monies from that fund are used to fund compliance inspections, cigarette purchases, shipping costs to certified laboratories, and testing fees. Your Committee further finds that this measure would provide a steady source of funding to the State Fire Council to hire additional staff and effectively administer the reduced ignition propensity cigarette program, while also establishing a testing process to be followed by the State Fire Council for the program.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 146 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

### SCRep. 564 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 148

The purpose and intent of this measure is to specify the allowable fire protections systems certifications that an individual may obtain to more closely align the state fire code with nationally recognized standards.

Your Committee received testimony in support of this measure from the State Fire Council, Honolulu Fire Department, Kaua'i Fire Department, Hawai'i Fire Department, and Maui Fire Department.

Your Committee finds that fire extinguishers and fire protection and fire alarm systems require routine maintenance to ensure reliable operability when used by fire department personnel and to protect building occupants during emergency situations. Individuals that conduct maintenance testing for these fire safety systems must be licensed under the testing, certifying, and credentialing requirements established by the State Fire Council. This measure further specifies additional distinct fire protection system licenses that individuals are required to obtain for performing maintenance and testing of fire safety systems.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 148 and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

# SCRep. 565 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 152

The purpose and intent of this measure is to correct labeling dimensions for display fireworks, articles pyrotechnic, and aerial devices.

Your Committee received testimony in support of this measure from the State Fire Council; Honolulu Fire Department; Kaua'i Fire Department; Maui Fire Department; Hawaii Explosives & Pyrotechnics, Inc.; and one individual.

Your Committee finds that the labeling requirements for fireworks are essential to upholding public safety and property protection. However, the language in existing statute relating to labeling requirements for display fireworks, articles pyrotechnic, and aerial devices was not enacted as intended. This measure clarifies the labeling requirement dimensions to conform with industry standard code.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 152 and recommends that it pass Second Reading and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

# SCRep. 566 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 397

The purpose and intent of this measure is to require contractors and subcontractors to submit tax clearances as a condition of obtaining building permits for private developments exceeding a certain value and submit additional tax clearances before assignment of a contract for private developments exceeding a certain value.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that a tax clearance is verification that an entity has paid all of its tax liability on the matter in question. Your Committee additionally finds that, pursuant to section 103-53, Hawaii Revised Statutes, tax clearances are required for all state and county contracts unless an exception applies. Additionally, every two years, the Contractors State License Board requires contractors to renew their contractor's license, and one of the requirements to renew the license is to submit a tax clearance certificate.

Furthermore, your Committee finds that submitting applications electronically to the Department of Taxation for tax clearances is not currently required. Your Committee further finds that giving the Department of Taxation the authority to require that tax clearance applications be submitted electronically is in the best interests of the State.

Your Committee has amended this measure by authorizing the Department of Taxation to require that tax clearance applications be submitted electronically.

Your Committee notes that the term "most recent tax clearances" is not defined in this measure and request that your Committee on Ways and Means consider defining this term with a specific time period, similar to the way the specific period is specified in section 103-53, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 397, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 397, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

### SCRep. 567 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 604

The purpose and intent of this measure is to repeal the requirement that a disabled veteran be in receipt of disability retirement pay in order to be exempt from the payment of annual vehicle registration fees.

Your Committee received testimony in support of this measure from the Department of Defense, Department of Transportation, State Office of Veterans Services, and one individual. Your Committee received comments on this measure from the Tax Foundation of Hawaii

Your Committee finds that the State must properly appreciate and honor its disabled veterans. State law currently provides disabled veterans with an exemption from registration fees for certain vehicles, provided that the disabled veteran meets certain conditions. Removing the unnecessary condition that the disabled veteran be in receipt of disability retirement pay to qualify for the registration fee exemption would allow more disabled veterans to benefit from this exemption.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 604 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

# SCRep. 568 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 608

The purpose and intent of this measure is to define and create restrictions on the use of administrative segregation and disciplinary segregation in correctional facilities for the well-being of prisoners.

Your Committee received testimony in support of this measure from the Hawai'i State Commission on the Status of Women, Community Alliance of Prisons, Hawaii Friends of Restorative Justice, Ho'omanapono Political Action Committee, and four individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Public Safety and two individuals.

Your Committee finds that over the past four years, the Department of Public Safety has participated with the American Correctional Association in standardizing its policies on administrative and disciplinary segregation according to current national best practices. The Department of Public Safety not only follows the standards set by the American Correctional Association but it also has instituted more cautionary practices.

Your Committee further finds that while the Department of Public Safety has applicable standards in place, creating minimum standards in statute helps ensure appropriate oversight of important matters.

Your Committee has amended this measure by:

- (1) Adopting provisions listed in the American Bar Association's Standards for the Treatment of Prisoners for prisoners in administrative segregation;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 608, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 608, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

# SCRep. 569 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 645

The purpose and intent of this measure is to:

- Require that the revocation of license period for operating a vehicle under the influence of an intoxicant be tolled for any
  period in which the person does not have an ignition interlock device installed on a vehicle owned or operated by the person;
- (2) Establish requirements for the removal of the ignition interlock device; and
- (3) Allow a defendant to enroll or participate in an alcohol or substance abuse education or treatment program or a sobriety program prior to conviction, which may count toward satisfying any mandatory enrollment or participation later ordered by the court.

Your Committee received testimony in support of this measure from the Traffic Injury Research Foundation; Smart Start, LLC; Hawaii Chapter of Mothers Against Drunk Driving; Foundation for Advancing Alcohol Responsibility; and one member of the City Council of the City and County of Honolulu. Your Committee received testimony in opposition to this measure from SCRAM Systems.

Your Committee finds that operating a vehicle under the influence of an intoxicant is unlawful and extremely dangerous. Your Committee further finds that the State's ignition interlock program places ignition interlock systems on vehicles owned and operated by persons who have been convicted of operating a vehicle under the influence of an intoxicant. Your Committee additionally finds that it is sometimes possible for offenders to regain their driving privileges before an interlock device is actually installed on their vehicle. This measure will strengthen the interlock ignition program by requiring compliance with the program prior to removal of an interlock device and allowing courts the option of utilizing a sobriety program or education or treatment program.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 645 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

# SCRep. 570 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 684

The purpose and intent of this measure is to:

- (1) Exempt members of a county council from the limitation on the number of members that may attend an informational meeting or presentation on matters relating to official board business; and
- (2) Clarify that such meetings for which two or more members of a board, but less than a quorum, may attend shall be meetings that are open to the public.

Your Committee received testimony in support of this measure from the County of Hawai'i Office of the Mayor, one member of the Kaua'i County Council, and two individuals. Your Committee received testimony in opposition to this measure from the Office of Information Practices, Civil Beat Law Center for the Public Interest, League of Women Voters of Hawaii, Hawaii Chapter Society of Professional Journalists, and Common Cause Hawaii.

Your Committee finds that informational meetings and presentations open to the public provide the opportunity for individuals who have an interest to attend and learn more about the subject matter being discussed. However, there is currently limited flexibility under state law for a county council member to attend such meetings and presentations as an individual with a similar private interest. This measure allows council members to stay informed on developing policy issues throughout their respective counties to fulfill their duty and better serve the public.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 684, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 684, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Feyella).

### SCRep. 571 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1217

The purpose and intent of this measure is to:

- (1) Apply the protections of civil relief for state military forces to persons serving on full-time National Guard duty under title 32 of the United States Code (Title 32); and
- (2) Bring provisions in line with the Servicemembers Civil Relief Act, codified in title 50 United States Code chapter 50, section 3901 et seq.

Your Committee received testimony in support of this measure from the Department of Defense.

Your Committee finds that currently a coverage gap exists for service members serving on full-time National Guard duty in the State. The Servicemembers Civil Relief Act covers Title 32 service members mobilized to respond to a national emergency declared by the President but does not extend to service members on full-time National Guard duty pursuant to Title 32, nor are these members covered by the State of Hawaii equivalent, Civil Relief for State Military Forces under chapter 657D, Hawaii Revised Statutes. This measure cures this coverage gap.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1217 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

# SCRep. 572 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1305

The purpose and intent of this measure is to:

- (1) Allow law enforcement agencies to safely dispose of confiscated fireworks except for a sample that is to be retained for evidentiary purposes;
- (2) Authorize the court to establish a step-up fine based on the amount of fireworks confiscated and to impose a disposal fine to reimburse law enforcement agencies for the costs of safely disposing of confiscated fireworks;
- (3) Establish that each type of fireworks unlawfully imported, purchased, possessed, ignited, or discharged constitutes a separate offense; and
- (4) Appropriate funds to the Honolulu Police Department for a secure container in which to store confiscated fireworks.

Your Committee received testimony in support of this measure from the Hawaii State Fire Council, Honolulu Fire Department, Honolulu Police Department, Hawaii Fire Department of the County of Hawaii, Maui Fire Department, Kauaii Fire Department, Poi Dogs and Popoki, and five individuals.

Your Committee finds that the use of unlawful fireworks outside of appropriate times and contexts is a widespread public health and safety hazard. Your Committee further finds that existing restrictions on illegal fireworks are not sufficient to control the improper use

of these devices. Your Committee additionally finds that the storage of confiscated fireworks is extremely dangerous and must be done under strict protocols. This measure will strengthen the penalties for the unlawful use of fireworks and provide law enforcement with the resources to safely store and dispose of confiscated fireworks.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1305 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

# SCRep. 573 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1321

The purpose and intent of this measure is to:

- Clarify that failure to register a firearm within the required time period does not relieve the owner of the duty to register the firearm; and
- (2) Allow the owner of an unregistered firearm to register the firearm thereafter without penalty.

Your Committee received testimony in support of this measure from the Honolulu Police Department, Hawaii Firearms Coalition, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one hundred twenty-five individuals. Your Committee received testimony in opposition to this measure from twelve individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that firearm registration requirements play an important role in ensuring the safe and responsible possession and use of firearms in Hawaii. Your Committee further finds that imposing a penalty for late registration can have the unintended effect of discouraging otherwise lawful owners of firearms from registering their firearms if they miss the registration deadline. This measure will clarify that the duty to register a firearm continues past the registration deadline and allow owners of unregistered firearms to register their firearms without penalty.

Your Committee has amended this measure by:

- (1) Clarifying that the ongoing duty to register a firearm does not apply to devices exempt from firearm registration requirements;
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1321, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1321, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

# SCRep. 574 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 670

The purpose and intent of this measure is to increase the maximum fine that may be assessed per fireworks-related violation from \$2,000 to \$5,000 if the fireworks violation does not otherwise have a specific penalty enumerated in chapter 132D, Hawaii Revised Statutes

Your Committee received testimony in support of this measure from Poi Dogs and Popoki and six individuals.

Your Committee finds that the unlawful use of aerial fireworks during celebrations causes significant public disruption and concern. Your Committee further finds that the increasing unlawful use of fireworks demonstrates that existing penalties for unlawful use are not sufficient deterrents. This measure will create a stronger deterrent by increasing the maximum fines associated with illegal fireworks.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 670 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

# SCRep. 575 Labor, Culture and the Arts on S.B. No. 1204

The purpose and intent of this measure is to clarify the eligibility of surviving children to receive benefits under the Employer-Union Health Benefits Trust Fund by amending the definitions of "dependent-beneficiary" and "employee-beneficiary" as used in chapter 87A, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) offers health benefits to dependents of state and county employees and retirees. Your Committee further finds that under existing law, when an employee is killed in the performance of the employee's duty, the employee passes away when eligible for retirement, or the retiree passes away, the employee's or retiree's surviving spouse's children that are born after the employee's or retiree's death are eligible to participate in benefit plans offered by the fund. However, your Committee finds that a child born or legally adopted after an employee's or retiree's death who is

not the natural or adopted child of the deceased employee or retiree should not be eligible to participate in fund benefit plans because the child is not the child of the state or county employee or retiree.

Your Committee also finds that under existing law, the definition of "employee-beneficiary" limits coverage of surviving children of employees who pass away when eligible for retirement and retirees who pass away to age nineteen, which is lower than surviving children of employees who are killed in the performance of their duty. The date of coverage termination for surviving children of employees who pass away when eligible for retirement and retirees who pass away should be the same as surviving children of employees who are killed in the performance of their duty.

While this measure addresses those issues, your Committee notes that additional amendments related to dependent-beneficiaries are necessary to bring the EUTF into compliance with federal law and to update other references to conform with the State's civil union law.

Accordingly, your Committee has amended this measure by:

- (1) Updating the purpose section to reflect amendments made to this measure;
- (2) Bringing the definition of "dependent-beneficiary" into conformance with the federal Patient Protection and Affordable Care Act of 2010, which prohibits restricting health insurance coverage to only unmarried dependents and dependents who live with the employee-beneficiary and denying health insurance coverage to married dependents and dependents who do not live with the employee-beneficiary;
- (3) Upon recommendation of the EUTF, that for purposes of excluding a child born or legally adopted more than ten months after the date of the death of an employee killed in the performance of duty from the definition of dependent-beneficiary, clarifying that the employee is an "active" employee;
- (4) Updating references related to marriage to account for civil unions in sections 87A-32, 87A-33, 87A-34, 87A-35, and 87A-36, Hawaii Revised Statutes;
- (5) Inserting an effective date of January 1, 2051, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1204, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1204, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

### SCRep. 576 Hawaiian Affairs on S.B. No. 701

The purpose and intent of this measure is to:

- (1) Designate February as "Ōlelo Hawai'i Month" to celebrate and encourage the use of Hawaiian language;
- (2) Require any Hawaiian words or names included in public acts and transactions to be accurate, appropriate, and authentic; and
- (3) Require all newly created, replaced, or reprinted state and county documents, letterheads, symbols, and emblems to contain accurate, appropriate, and authentic Hawaiian names and words beginning on January 1, 2020.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, Center for Hawaiian Sovereignty Studies, five individuals, and a petition signed by eighty-six individuals. Your Committee received testimony in opposition to this measure from K&R Enterprises.

Your Committee finds that the State of Hawaii has long aspired to preserve the rich cultural heritage of Native Hawaiians. Article XV, section 4, of the Hawaii State Constitution establishes English and Hawaiian as the official languages of the State of Hawaii. By requiring the accurate, appropriate, and authentic use of Hawaiian names and words that utilize proper Hawaiian spelling and punctuation, this measure serves as an important step toward ensuring the renormalization and proliferation of the Hawaiian language as an official language of the State.

Your Committee notes concerns that diacritical marks, like 'okina and kahakō, were not traditionally used by Hawaiian speakers and that there are still communities today that eschew their use. However, like all living languages, Hawaiian is continuing to evolve and the majority of current Hawaiian speakers use 'okina and kahakō.

Your Committee has amended this measure by:

- Adding additional Hawaiian language works that may be referenced to determine the appropriateness, authenticity, and accuracy of Hawaiian names and words;
- (2) Removing part I as unnecessary, since the substance of that language has already been codified as section 8-24, Hawaii Revised Statutes; and
- (3) Making other technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 701, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 701, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

### SCRep. 577 Technology on S.B. No. 705

The purpose and intent of this measure is to appropriate or authorize funds, amend positions, or amend means of financing for various operating expenses of the Department of Accounting and General Services.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services.

Your Committee finds that this measure expresses adjustments to the programs or positions included, maximum sums appropriated or authorized, or means of financing indicated for the Department of Accounting and General Services in the General Appropriations Act of 2017, as amended by the Supplemental Appropriations Act of 2018.

Your Committee has amended this measure by inserting an increase in the ceiling of the shared services technology special fund.

Your Committee's intent in recommending this measure for passage is for the adjustments expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the adjustments expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 705, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 705, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (English).

# SCRep. 578 Technology on S.B. No. 1443

The purpose and intent of this measure is to prohibit a company from receiving a grant in consecutive years under the manufacturing development program.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii. Your Committee received comments on this measure from the Hawaii Technology Development Corporation.

Your Committee finds that the Hawaii Technology Development Corporation's manufacturing assistance program (MAP) grant offers Hawaii-based manufacturers up to a twenty percent reimbursement, capped at \$100,000, on qualified expenses to help Hawaii manufacturers become globally competitive. Qualifying expenses include equipment purchases, training, energy efficiency projects, and manufacturing feasibility studies. Your Committee further finds that such assistance should impact as many companies as possible, therefore limiting a company from receiving MAP grants in consecutive years will enable more companies to benefit from the MAP grant.

As affirmed by the record of votes of the members of your Committee on Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1443 and recommends that it pass Second Reading and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (English).

# SCRep. 579 Technology on S.B. No. 1382

The purpose and intent of this measure is to require the legislative broadcast program to make an audio or audiovisual recording of all public hearings and informational briefings held at the State Capitol and maintain an archive of the recordings, which shall be made available to the public.

Your Committee received testimony in support of this measure from the Community Alliance on Prisons and four individuals. Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that the public plays an important role in the legislative process by participating as testifiers and holding elected officials accountable for their decisions. Currently, the opportunity to view public hearings and informational briefings for many individuals is out of reach either because of financial constraints, physical limitations, or geographic barriers. A number of states provide livestreaming and archived videos of all public meetings held in their respective capitol buildings on public websites available to all. In this technological age, Hawaii should provide livestreaming of all such hearings so that the greatest number of Hawaii residents can view and thereby participate in the legislative process. Without access to these public hearings, especially when a legislative measure is being heard for the first time and during decision making, Hawaii constituents are less informed and deprived of full participation in the legislative process. Therefore, your Committee finds that investment in livestreaming, recording, and archiving audio or audiovisual recordings of all public hearings and informational briefings held at the State Capitol is necessary to allow full participation in the legislative process for all Hawaii residents.

Your Committee has amended this measure by:

- (1) Inserting the contents of S.B. No. 1313, Regular Session of 2019, which requires both chambers of the Legislature to enable livestreaming of all public hearings and informational briefings held at the State Capitol through the use of audiovisual technology, to be made available to the public; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee recommends that the Joint Legislative Access Committee, Disability and Communication Access Board, and Office of Enterprise Technology Services work together to expand the legislative broadcast program.

As affirmed by the record of votes of the members of your Committee on Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1382, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1382, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

### SCRep. 580 Technology on S.B. No. 291

The purpose and intent of this measure is to appropriate funds for the Office of Enterprise Technology Services.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services.

Your Committee finds that this measure provides a legislative vehicle should funding become available for the purposes of this measure prior to the end of the 2019-2021 fiscal biennium.

Your Committee's intent in recommending this measure for passage is for the items expressed to be incorporated into the General Appropriations Act of 2019 or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests your Committee on Ways and Means to incorporate the items expressed by this measure into the appropriate legislative vehicle or amend this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 291 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (English).

#### SCRep. 581 Agriculture and Environment on S.B. No. 436

The purpose and intent of this measure is to require the Department of Health, in collaboration with the Federal Aviation Administration and the state Department of Transportation, to conduct a study on the impacts of aviation noise on residents of the State and appropriate funds for the study.

Your Committee received testimony in support of this measure from the Department of Transportation, Office of the Mayor of the County of Hawaii, and seven individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that overhead helicopter noise from tour companies has continually disrupted residents who live along the helicopters' flight path. Your Committee further finds that it is the responsibility of the Department of Health to address excessive noise issues and the impacts of excessive noise in the State. Your Committee acknowledges that helicopter flight paths fall under the jurisdiction of the Federal Aviation Administration, but believes that the State must take steps to assess the situation and find a solution regarding helicopter noise and bring some relief to residents of the State.

Your Committee has amended this measure by inserting an appropriation amount of \$100,000 to the Department of Health to conduct the study.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 436, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 436, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 582 Agriculture and Environment on S.B. No. 897

The purpose and intent of this measure is to appropriate funds for an additional full-time Environmental Health Specialist IV position within the Department of Health to monitor water quality on the island of Hawaii.

Your Committee received testimony in support of this measure from the Department of Health, Mayor of the County of Hawaii, County of Hawaiii Department of Environmental Management, Coral Reef Alliance, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaiii, and eleven individuals.

Your Committee finds that the Clean Water Branch of the Department of Health has inadequate staff capacity to meet its obligations to perform the timely monitoring that ensures the island of Hawaii's stream and coastal water safety for public swimming, fishing, and other recreation. Your Committee further finds that monitoring and control of contamination from waste water treatment plants, injection wells, and cesspools are especially critical due to their role in harming coral reefs. This measure will provide additional funding for the Department of Health to hire an environmental health specialist to timely meet the Department's monitoring responsibilities on the island of Hawaii.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 897 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 583 Agriculture and Environment on S.B. No. 696

The purpose and intent of this measure is to:

- (1) Extend various reporting deadlines and the sunset date of the Cesspool Conversion Working Group; and
- (2) Appropriate additional funds for the conduct of the comprehensive statewide study of sewage contamination in nearshore marine areas and for research and technical assistance necessary for completion of the comprehensive cesspool conversion plan.

Your Committee received testimony in support of this measure from the Department of Health, County of Hawai'i Department of Environmental Management, University of Hawai'i Water Resources Research Center, One World One Water, Coral Reef Alliance, Maui Chamber of Commerce, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual.

Your Committee finds that the Cesspool Conversion Working Group was established in 2018 to develop a long-range, comprehensive plan for conversion of cesspools statewide by 2050. Your Committee further finds that a statewide study of sewage contamination in nearshore marine areas was commissioned the same year. Your Committee additionally finds that although the working group convened in 2018 and has been diligently working to meet its objectives, the group needs additional time and resources to complete its work. This measure will extend the reporting deadlines and sunset date of the Cesspool Conversion Working Group and appropriate funds to conduct the comprehensive statewide study of sewage contamination in nearshore marine areas.

Your Committee has amended this measure by changing the effective date of sections that do not appropriate funds to September 30, 2019, to allow those sections to take effect as intended.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 696, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 696, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

### SCRep. 584 (Joint) Agriculture and Environment and Hawaiian Affairs on S.B. No. 1370

The purpose and intent of this measure is to:

- (1) Establish a cesspool compliance grant program and special fund to assist beneficiaries on Hawaiian home lands with cesspool upgrade, conversion, or connection costs;
- Restrict taxpayers from receiving double benefits from the cesspool compliance grant program and claiming the cesspool
  upgrade, conversion, or connection income tax credit; and
- (3) Appropriate funds for the grant program.

Your Committees received testimony in support of this measure from the Department of Health, Department of Hawaiian Home Lands, Office of the Mayor of the County of Hawaii, one member of the Hawaii County Council, County of Hawaii Department of Environmental Management, One World One Water, Hawaiian Community Assets, and one individual. Your Committees received comments on this measure from the Department of Budget and Finance, Department of Taxation, and Tax Foundation of Hawaii.

Your Committees find that section 342D-72, Hawaii Revised Statutes, requires the upgrade, conversion, or connection of all cesspools by 2050. There are currently approximately eighty-eight thousand cesspools in the State, discharging roughly fifty-three million gallons of untreated sewage into the groundwater every day. Your Committees note that about ninety-five percent of the State's drinking water is sourced from underground, making cesspools a significant threat to public health. Your Committees believe that establishing a grant program to assist beneficiaries on Hawaiian homelands to comply with section 342D-72, Hawaii Revised Statutes, to ensure public and environmental health.

Your Committees have amended this measure by:

- (1) Inserting an appropriation amount of \$500,000;
- (2) Appropriating funds for fiscal year 2020-2021, rather than 2019-2020, to allow the Department of Hawaiian Home Lands time to adopt administrative rules for the program; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1370, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1370, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella). Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 585 (Joint) Commerce, Consumer Protection, and Health and Transportation on S.B. No. 662

The purpose and intent of this measure is to:

(1) Prohibit motor vehicle lessors from renting, leasing, or offering for rent or lease, vehicles subject to a manufacturer's recall, until appropriate repairs are made;

- (2) Define peer-to-peer vehicle sharing related terms; and
- (3) Require persons in the peer-to-peer vehicle sharing organization business to register with the Director of Taxation.

Your Committees received testimony in support of this measure from the Department of Taxation, Department of Commerce and Consumer Affairs, Department of Transportation, Enterprise Holdings, and one individual. Your Committees received testimony in opposition to this measure from Turo Inc. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that Hawaii's vibrant tourism industry brings many visitors to the islands who rent cars as part of their experience. This measure provides protections for vacationing renters and residents by removing potentially unsafe vehicles from the road, such as those subject to a manufacturer's recall, until the appropriate repairs have been made.

Your Committees further find that the rental car industry has created new and innovative ways to rent a car, including peer-to-peer vehicle sharing programs. Under existing law, there is little regulation of peer-to-peer vehicle sharing programs or organizations. This measure levels the playing field for companies and organizations participating in the rental car industry by subjecting peer-to-peer motor vehicle sharing organizations to the same regulations applied to rental car companies. This measure also ensures that peer-to-peer motor vehicle sharing organizations, and not the individual vehicle owners, bear the responsibility of collecting and remitting taxes from consumers, which will promote efficient tax collection by the Department of Taxation.

Your Committees note that, according to the Department of Commerce and Consumer Affairs, the business model of peer-to-peer motor vehicle sharing organizations differs from that of conventional rental car companies. As such, it may not be suitable to place these organizations within the existing motor vehicle industry chapter.

Your Committees have amended this measure by:

- (1) Establishing a new chapter relating to peer-to-peer motor vehicle sharing organizations, rather than placing these organizations within the existing chapter relating to the rental motor vehicle industry;
- (2) Clarifying that when a vehicle is rented through a peer-to-peer motor vehicle sharing agreement, only the peer-to-peer motor vehicle sharing organization, and not the registered owner of a vehicle involved in peer-to-peer motor vehicle sharing agreements, would be subject to the rental motor vehicle, tour vehicle, and car-sharing vehicle surcharge tax;
- (3) Changing its effective date to January 1, 2020, to provide the Department of Taxation sufficient time to make necessary changes to its forms and computer system; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Health and Transportation that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 662, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 662, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

Transportation: Ayes, 3. Noes, none. Excused, 2 (English, Shimabukuro).

# SCRep. 586 Technology on S.B. No. 337

The purpose and intent of this measure is to increase the available methods of public participation in the legislative process by:

- Establishing a remote legislative access program to enable Hawaii residents to participate remotely in legislative proceedings;
   and
- (2) Appropriating funds to establish the program.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services; Office of the Mayor of the County of Hawai'i; Democratic Party of Hawai'i; LGBT Caucus of the Democratic Party of Hawai'i; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Na Kupuna Moku O Keawe; Full Life; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaii Alliance for Progressive Action; HCC Legislative Committee; Disability and Communication Access Board; and eighteen individuals.

Your Committee finds that the public plays an important role in the legislative process through participating as in-person testifiers. Currently, the opportunity to provide in-person testimony for many individuals is out of reach either because of financial constraints, physical limitations, or geographic barriers. Therefore, your Committee finds that investment in a remote legislative access program is necessary to allow participation of all Hawaii residents in the legislative process.

As affirmed by the record of votes of the members of your Committee on Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 337 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (English).

### SCRep. 587 (Joint) Technology and Government Operations on S.B. No. 952

The purpose and intent of this measure is to require the Office of the Governor to provide information concerning approved applications for pardons to the Hawaii Criminal Justice Data Center for public access through public internet.

Your Committees received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that individuals who have been convicted of a crime in the State of Hawaii may apply for a gubernatorial pardon. It is important to note that a pardon is not a right, but an exceptional privilege, which only the Governor has the power to grant to people who have demonstrated exemplary behavior following their conviction. Your Committees further find that information regarding pardons should be available to the public.

Your Committees have amended this measure by:

- Deleting language that would have required the Hawaii Criminal Justice Data Center to make public, via internet access, all
  records pertaining to applications for pardons provided by the Governor;
- (2) Deleting language that would have required the Office of the Governor to provide information concerning all approved pardons to the Hawaii Criminal Justice Data Center for public dissemination;
- (3) Requiring the Governor to provide public notice when the Governor decides to not refer an application for pardon to the Director of Public Safety and the Hawaii Paroling Authority, and in such situations require the Governor to wait fourteen days before granting or refusing the pardon application;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Technology and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 952, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 952, S.D. 1, and be referred to your Committee on Public Safety, Intergovernmental, and Military Affairs.

Signed by the Chairs on behalf of the Committees.
Technology: Ayes, 3. Noes, none. Excused, 2 (English, Wakai).
Government Operations: Ayes, 4. Noes, none. Excused, 1 (Baker).

### SCRep. 588 (Joint) Technology and Water and Land on S.B. No. 966

The purpose and intent of this measure is to require the appropriate funds for the Board of Land and Natural Resources to enter into negotiations to acquire the property identified as Tax Map Key: (1) 9-5-046:042, a parcel within Mililani Technology Park.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committees find that Mililani Technology Park, dedicated in 1987, is a landscaped, campus-like facility with mixed-use zoning that allows for a variety of office and light industrial uses, including high-tech companies and other services. This measure provides funds for redevelopment due diligence costs, which include the expense of a Phase I environmental site assessment and Phase II environmental site assessment, if needed, including any necessary subsequent environmental site remediation, abatement, and disposal, and all other necessary transaction activities and fees, such as appraisal cost, title reports, and title insurance.

As affirmed by the records of votes of the members of your Committees on Technology and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 966 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Technology: Ayes, 4. Noes, none. Excused, 1 (English).
Water and Land: Ayes, 4; Ayes with Reservations (Riviere). Noes, none. Excused, 1 (Fevella).

# SCRep. 589 (Joint) Government Operations and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1062

The purpose and intent of this measure is to require state and county agency contractors that dispose of waste provide a receipt that the waste or inert fill was received and disposed of at a Department of Health permitted or approved facility before payment is rendered for those contractual services.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and two individuals. Your Committees received comments on this measure from the Department of Accounting and General Services; Department of Health; Department of Transportation; and Office of the Governor, State Procurement Office.

Your Committees find that construction projects funded by public monies produce extensive construction waste. Notwithstanding state law prohibiting the disposal of more than one cubic yard of solid waste anywhere other than a permitted solid waste management system, your Committees note that construction waste is sometimes disposed of in an unauthorized manner. The improper disposal of construction waste adversely affects the State's natural resources and overall quality of life. This measure regulates and mandates proper disposal and management of waste by Department of Health permitted and approved facilities, thereby preserving Hawaii's oceans, streams, and land for many generations to come.

Your Committees have amended this measure by:

- (1) Clarifying that, beginning July 1, 2020, contractors must provide a receipt that waste was received and disposed of properly, prior to receiving payment, rather than prior to receiving full payment, for services rendered;
- (2) Specifying a statement for services shall be accompanied by:

- (A) A receipt from a Department of Health permitted waste management facility, Department of Health approved wastewater treatment facility, or other facility approved by the Department of Health; or
- (B) In the case of disposal of inert fill, a farm lot with an approved conservation plan or permit to stockpile material onsite, with a verification that the waste or inert fill was properly received and managed by a Department of Health permitted or approved waste facility;
- (3) Specifying partial payment may be made in certain circumstances absent a receipt; provided that the payment does not include any compensation for the waste removal, disposal, or both; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1062, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1062, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Government Operations: Ayes, 4. Noes, none. Excused, 1 (Fevella). Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

# SCRep. 590 Commerce, Consumer Protection, and Health on S.B. No. 1405

The purpose and intent of this measure is to:

- (1) Establish the offense of unlawful shipment of e-liquid products;
- (2) Include e-liquid and electronic smoking devices containing e-liquid within the definition of "tobacco products", as used in the cigarette tax and tobacco tax law;
- (3) Increase the license fee for persons engaged as a wholesaler or dealer of cigarettes and tobacco products and the retail tobacco permit fee for retailers engaged in the retail sale of cigarettes and tobacco products;
- (4) Allocate a portion of funds collected from excise taxes on tobacco products to health education and prevention programs about the risks and dangers of the use of electronic smoking devices for youth; and
- (5) Repeal certain provisions of the Hawaii Revised Statutes relating to electronic smoking devices.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of Taxation; Department of Health; University of Hawai'i Cancer Center; Hawai'i Primary Care Association; Hawai'i Pacific Health; Ho'omanapono Political Action Committee; We Are One, Inc.; Student Health Advisory Council; Blue Zones Project Hawaii; Coalition for a Tobacco-Free Hawai'i; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; American Cancer Society Cancer Action Network; and ninety-five individuals. Your Committee received testimony in opposition to this measure from Black Lava Vape; Retail Merchants of Hawaii; Hawaii Smokers Alliance; VOLCANO Fine Electronic Cigarettes; Irie Hawaii Stores; Hi Lyfe Vaporz, LLC; VapeWithAloha; and twenty-nine individuals. Your Committee received comments on this measure from the Tax Foundation of Hawaii

Your Committee finds that tobacco use is the single most preventable cause of disease, disability, and death in the United States. Your Committee further finds that tobacco products are addictive and inherently dangerous, causing many different types of cancer, heart disease, and other serious illnesses. Your Committee additionally finds that electronic smoking devices are battery-operated products designed to deliver nicotine, flavor, and other chemicals in a compound known as an "e-liquid" into an aerosol that is inhaled by the user. Your Committee also finds that e-liquids are available in a range of strengths and a wide variety of flavors. Your Committee further finds that the use of electronic smoking devices and e-liquid is especially popular among younger smokers, and that the United States Surgeon General has made the unprecedented move of classifying the danger of youth usage of electronic cigarettes as an epidemic. This measure updates regulations on the shipment of electronic smoking devices and e-liquid, ensures that electronic smoking devices and e-liquid products are taxed at a rate similar to other tobacco products, and provides that a portion of the revenues raised from tobacco taxes will be used to mitigate the harmful effects of tobacco use on the public.

Your Committee has amended this measure by:

- (1) Clarifying that, for the purposes of the offense of unlawful shipment of e-liquid products, "value" means the fair market value at the time of the offense;
- (2) Requiring applicants for a retail tobacco permit to specify whether each place of business sells e-liquid;
- (3) Dividing the allocation of funds collected from excise taxes on tobacco products between the Hawaii tobacco prevention and control trust fund and the University of Hawaii Cancer Center, to support tobacco and cancer prevention research;
- (4) Changing the effective date to January 1, 2020; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1405, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1405, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

### SCRep. 591 Commerce, Consumer Protection, and Health on S.B. No. 567

The purpose and intent of this measure is to require:

- (1) Psychiatric facilities to determine whether an assisted community inpatient treatment plan is appropriate for an individual prior to that person's release from emergency examination, emergency hospitalization, or voluntary inpatient treatment;
- The Department of Health to convene a mental health emergency task force to examine barriers to assisted community treatment plans and options for creating a state-funded treatment team; and
- (3) The Department of the Attorney General to be responsible for filing assisted community treatment petitions.

Your Committee received testimony in support of this measure from the Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi; The Institute of Human Services, Inc.; Partners in Care; Hawaii Island HIV/AIDS Foundation; Hawaiʻi Psychological Association; Mental Health America of Hawaiʻi; Catholic Charites Hawaiʻi; Hawaii Kai Homeless Task Force; and one individual. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of Health, Department of the Attorney General, The Queen's Health Systems, and Hawaii Disability Rights Center.

Your Committee finds that following emergency care or hospitalization, many mentally ill patients are released with no plan in place for follow-up care or treatment. Predictably, many of these individuals fall into a pattern of crisis and emergency intervention. Assisted community treatment is an available but under-utilized option for people with serious mental illness to receive on-going treatment in the least restrictive setting and reduces the trend toward repeat emergency interventions as the primary course of treatment for the seriously mentally ill.

Your Committee further finds that judicial oversight of assisted community treatment initiation is important to preserve civil rights of mentally ill persons. However, private sector providers, community organizers, and families do not have the resources to navigate the complex and congested court system. Involving the Department of the Attorney General with the filing of assisted community treatment orders may reduce some of the barriers faced by individuals who wish to pursue this avenue of mental health care.

Your Committee recognizes that utilization rates of assisted community treatment have been low, despite a critical need for increased access to mental health treatment. This measure authorizes the Department of Health to convene a mental health emergencies task force to examine why medical facilities are not diverting more people with mental health emergencies into assisted community treatment and explore other options to expand access to emergency mental health treatment.

Your Committee has amended this measure by:

- Requiring psychiatric facilities to determine whether an assisted community treatment order is appropriate at the time an
  individual is committed to a psychiatric facility for involuntary hospitalization, rather than prior to release from emergency
  examination, emergency hospitalization, or voluntary inpatient treatment;
- (2) Clarifying that the Department of the Attorney General shall assist with, rather than be responsible for, petitions for assisted community treatment and related court proceedings; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 567, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 567, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

# SCRep. 592 (Joint) Education and Water and Land on S.B. No. 976

The purpose and intent of this measure is to:

- (1) Establish a pilot program for the lease of public library lands to generate revenue to meet the mission of the public libraries;
- (2) Establish the library facilities fund; and
- (3) Require the Board of Education to a submit a report to the Legislature prior to the Regular Session of 2021 and each regular session thereafter until the completion of the pilot project on various timelines, summaries, and proposed legislation.

Your Committees received testimony in support of this measure from the Hawaii State Public Library System, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committees received comments on this measure from the Department of Budget and Finance, Department of the Attorney General, and Department of Land and Natural Resources.

Your Committees find that public libraries provide an invaluable service to the community. However, there is a need to examine new and innovative methods of generating funds to support the mission of the public libraries. Consequently, your Committees find that generating funds through the lease of public library lands may provide a viable source of funding for the public libraries. This measure establishes a pilot program to generate revenue through the lease of public library lands to meet the mission of the public libraries to be facilitated by the State Librarian, Board of Education, and any other appropriate agencies.

Additionally, your Committees note that, for the purposes of this measure, public land trusts may need to be set aside and lands currently held by the State on which libraries reside should be transferred to the Department of Education to hold title via executive order.

Your Committees have amended this measure by:

- Deleting language that would have subjected the Board of Education to chapter 92, Hawaii Revised Statutes, and other public
  meeting and community participation requirements during the identification and selection process of public library land sites
  for participation in the pilot program;
- (2) Inserting language that specifies that library sites with outstanding general obligation bond debt shall be excluded from consideration as candidates for participation in the pilot program;
- (3) Extending the lease term of public library land sites from not more than fifty-five years per lease to not more than ninety-nine years per lease; and
- (4) Authorizing, rather than requiring, lessees of public library land sites to modify, construct, or utilize facilities to meet the mission of the public libraries.

As affirmed by the records of votes of the members of your Committees on Education and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 976, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 976, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 1 (Dela Cruz).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Riviere).

# SCRep. 593 (Joint) Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health on S.B. No. 182

The purpose and intent of this measure is to:

- (1) Specify that nothing in chapter 328J, Hawaii Revised Statutes, the state smoking law, shall be construed to supersede or affect a county's ability to adopt and enforce ordinances that regulate the sale or use of cigarettes, tobacco products, and electronic smoking devices; provided that the ordinances are no less protective of public health than the state smoking law; and
- (2) Repeal a provision in the state smoking law that preempts local smoking ordinances and regulations.

Your Committees received testimony in support of this measure from the Department of Health, County Council of the County of Maui, American Heart Association, American Lung Association, Hawai'i Primary Care Association, Lanai Community Health Center, Blue Zones Project, American Cancer Society Cancer Action Network, Hawaii Public Health Institute, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and six individuals. Your Committees received testimony in opposition to this measure from Black Lava Vape; VOLCANO Fine Electric Cigarettes; Hawaii Smokers Alliance; Hi Lyfe Vaporz, LLC; and twenty-four individuals.

Your Committees find that tobacco use causes over one thousand deaths in Hawaii every year, in addition to substantial costs in direct health care expenditures and lost productivity. Your Committees further find that although the State has enacted numerous tobacco control policies, different communities within the State have individual situations that require different, specific regulatory solutions. This measure will allow the State to set minimum standards of tobacco control while giving the counties the freedom and flexibility to establish further regulatory measures that are individually tailored to their specific needs.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 182 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Commerce, Consumer Protection, and Health: Ayes, 7. Noes, none. Excused, none.

# SCRep. 594 (Joint) Public Safety, Intergovernmental, and Military Affairs and Higher Education on S.B. No. 1537

The purpose and intent of this measure is to appropriate funds to the Department of Public Safety to contract with the Social Science Research Institute of the University of Hawaii at Manoa for evidence-based research and to collect data on behalf of the Department.

Your Committees received testimony in support of this measure from the University of Hawai'i System and one individual. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Public Safety, Community Alliance on Prisons, and one individual.

Your Committees find that evidence-based research and data collection are vital to verifying and formulating best practices for state correctional institutions. Previously, and for many years, the Department of Public Safety utilized researchers from the Social Science Research Institute at the University of Hawaii at Manoa to collect and analyze data for the Department. Your Committees further find that this working relationship was recently terminated and believes it should be reinstated. This measure will revive the working relationship between the Department of Public Safety and Social Science Research Institute at the University of Hawaii for evidenced-based research and data collection.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1537, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1537, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair and Vice President on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella). Higher Education: Ayes, 3. Noes, none. Excused, 2 (Kahele, Fevella).

# SCRep. 595 (Joint) Public Safety, Intergovernmental, and Military Affairs and Water and Land on S.B. No. 248

The purpose and intent of this measure is to:

- Require government entities that engage in search and rescue operations to seek reimbursement when the rescued person required search and rescue efforts because that person acted in disregard of that person's safety, including intentionally disregarding a warning or notice;
- (2) Increase the penalties for violating laws, rules, or permits relating to state parks or recreation areas and the statewide trail and access system if the laws, rules, or permits restricted public access to a trail; and
- (3) Make unlawfully entering or remaining on a trail that has been closed to the public conduct that constitutes the offense of criminal trespass onto state lands.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Honolulu Police Department, and five individuals.

Your Committees find that unlawfully entering trails that have been closed to the public puts those entering the trails at significant danger of injury, risks damage to native habitats and other natural resources, and potentially requires difficult and expensive rescue operations to retrieve persons who are injured or become lost. Your Committees further find that the costs associated with the search and rescue of individuals who willfully disregard their own safety by ignoring posted warning signs are considerable. This measure will discourage individuals from illegally entering trails by increasing the penalties and enforcement options for illegal trail access and requiring government entities that engage in search and rescue of such individuals to seek reimbursement.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 248 and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 596 (Joint) Public Safety, Intergovernmental, and Military Affairs and Water and Land on S.B. No. 875

The purpose and intent of this measure is to appropriate funds for salaries, benefits, equipment, and other related expenses for state-funded lifeguards at Kua Bay, Kekaha Kai State Park, which is under the jurisdiction of the Department of Land and Natural Resources on the island of Hawai'i.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Aha Moku Advisory Committee; Hawai'i Tourism Authority; two members of the Hawai'i County Council; County of Hawaii, Office of the Mayor; Hawai'i State Association of Counties; Kohala Coast Resort Association; Hawaii State Drowning and Aquatics Injury Prevention Advisory Committee; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and three individuals.

Your Committees find that Kua Bay, located within Kekaha Kai State Park, has experienced increased popularity and growing numbers of visitors. The increase in visitors has been accompanied by an alarming increase in water safety incidents, with ten spinal cord injuries over the 2009 to 2017 period and a few fatal drownings in the past ten years. Your Committees find that in the interest of public health and safety, it is necessary to appropriate funds for lifeguards and life-saving equipment at Kua Bay.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 875 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 597 (Joint) Public Safety, Intergovernmental, and Military Affairs and Water and Land on S.B. No. 464

The purpose and intent of this measure is to authorize a property owner or agent to enter adjacent property under certain conditions to eradicate albizia trees before they become hazardous, and to provide a defense to criminal prosecution for trespassing.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, County of Hawai'i Mayor's Office, one member of the County of Hawai'i County Council, Hawaiian Electric Companies, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals. Your Committees received testimony in opposition to this measure from the Hawaii Cattlemen's Council, Inc. Your Committees received comments on this measure from the Big Island Invasive Species Committee.

Your Committees find that albizia trees are an invasive species that are prone to breaking and falling during high winds and tropical storms. Fallen albizia trees caused power outages and other structural damage on the island of Hawaii during tropical storm Iselle in 2014. Albizia trees fell over highways, roads, and driveways in such large numbers during that storm that many people were left trapped in their homes and rescue personnel were prevented from reaching them or, in some cases, returning to their base of operations.

Your Committees further find that albizia trees located on private properties often create hazardous conditions for adjacent properties and that the development of these hazardous conditions should be prevented wherever possible. Albizia trees have been

successfully eradicated on many properties, but some property owners have been unresponsive to inquiries from owners of adjacent properties.

Your Committees therefore find that property owners should have the authority to enter adjacent properties to eradicate albizia trees to prevent or address hazardous conditions, subject to certain conditions.

Your Committees have amended this measure by:

- (1) Requiring the entering party to consult with a tree risk assessment qualification certified arborist, rather than relying on the party's reasonable belief, to confirm the hazardous threat of the trees and potential removal or treatment of the trees according to safe methods, including methods that minimize risk to human health and safety; and
- Requiring written notice to the adjacent property owner with albizia trees prior to entry to ensure that the land is not mistakenly determined to be vacant when it is resting pasture land.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 464, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 464, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 598 (Joint) Public Safety, Intergovernmental, and Military Affairs and Water and Land on S.B. No. 649

The purpose and intent of this measure is to establish and appropriate funds for a financial assistance pilot program to provide county-owned public water systems with resources to implement conservation measures.

Your Committees received testimony in support of this measure from the Department of Health, County of Hawai'i Department of Water Supply, County of Kaua'i Department of Water, City and County of Honolulu Board of Water Supply, one member of the Maui County Council, One World One Water, Hawai'i Community Foundation, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and two individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources and County of Maui Department of Water Supply.

Your Committees find that as an island state, Hawaii has limited access to natural fresh water. County-owned public water systems supply approximately two hundred million gallons per day or eighty percent of drinking water in Hawaii.

Your Committees further find that the competition for fresh water, increasing population and development pressures, rising awareness of environmental and cultural water needs, and impacts of climate change require that Hawaii become as efficient as possible in its uses of limited fresh water supplies. Your Committees therefore find that financial assistance to county-owned public water systems and their customers to help implement water conservation measures and practices will reduce water use or waste.

Your Committees have amended this measure by:

- (1) Designating each of the four county water supply departments as the respective administrative authority of the water conservation financial assistance pilot program, in lieu of the Commission on Water Resource Management;
- (2) Removing the requirements that the county water supply departments solicit proposals from county-owned public water systems, prioritize proposals with non-state matching funds, and provide financial assistance to county-owned public water systems on a reimbursement basis;
- (3) Removing the reimbursement cap of fifty percent of the total cost of each county water conservation incentive program;
- (4) Adding that each of the four county water supply departments shall provide matching funds on a one-to-one cost share basis to match or leverage with non-state funds appropriated for the purposes of this water conservation financial assistance pilot program;
- (5) Allocating the appropriated funds equally to each of the four county water supply departments and designates the respective department as the expending agency, in lieu of the Commission of Water Resource Management; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 649, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 649, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Fevella).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 599 (Joint) Public Safety, Intergovernmental, and Military Affairs and Agriculture and Environment and Water and Land on S.B. No. 1054

The purpose and intent of this measure is to require:

- (1) The State and counties to incorporate predictions of sea level rise and other climate change hazards and mitigation opportunities into applicable plans, strategies, and mapping, in order to increase the State's resiliency and ability to properly respond to natural disasters; and
- (2) The Public Utilities Commission to consider in its actions the findings in the Hawaii Sea Level Rise Vulnerability and Adaptation Report (Report) by the Hawaii Climate Change Mitigation and Adaptation Commission and seek to avoid critical electrical infrastructure projects in areas of higher risk, in order to reduce risks to taxpayers and the general public.

Your Committees received testimony in support of this measure from one member of the Hawai'i County Council, one member of the Maui County Council, Sierra Club of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and six individuals. Your Committees received comments on this measure from the Hawaii Emergency Management Agency, Department of Land and Natural Resources, Public Utilities Commission, and Office of Planning.

Your Committees find that disaster recovery efforts need to be carried out quickly and efficiently to ensure that damaged infrastructure and interrupted services are restored as soon as possible. Pre-disaster planning and post-disaster responses that seek to make the State less vulnerable regarding future disasters, can expedite responses that anticipate future needs.

Your Committees further find that disasters that could interrupt vital services and damage critical infrastructure should be considered and incorporated into plans prior to an actual disaster. Your Committees believe that incorporating sea level rise and disaster predictions into emergency planning will benefit the State.

Your Committees have amended this measure by:

- (1) Requiring all floodplain mapping supported by state or county funding to include information from the Report that anticipates sea level rise and floodplains in terms of special flood hazard areas, as defined by the Federal Emergency Management Agency, rather than the United States Geological Survey's one-hundred-year floodplain designations; and
- (2) Clarifying that the Public Utilities Commission shall consider the findings of the Report but not necessarily in all of its actions.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs, Agriculture and Environment, and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1054, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1054, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Wakai).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

# SCRep. 600 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 153

The purpose and intent of this measure is to increase the fireworks display permit fee from \$110 to \$300 beginning on January 1, 2020

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; State Fire Council; Honolulu Fire Department; Maui Fire Department; and Kaua'i Fire Department.

Your Committee finds that the fireworks display permit fee, which authorizes licensed pyrotechnicians to conduct outdoor and close proximity fireworks for special public or private events and theatrical or movie purposes, has remained the same since it was established sixteen years ago. However, during that time, the cost to process, review, and approve display permits has increased. Therefore, your Committee finds that the fireworks display permit fee needs to be increased to keep pace with the rise in governmental administrative costs.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 153 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

# SCRep. 601 (Joint) Public Safety, Intergovernmental, and Military Affairs and Judiciary on S.B. No. 557

The purpose and intent of this measure is to prohibit state and county law enforcement agencies from complying with federal immigration detainers or honoring requests for non-public information unless specifically required to do so by a warrant signed by a judge or by provisions of federal, state, or local law.

Your Committees received testimony in support of this measure from the Hawai'i Civil Rights Commission, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Hawai'i Women's Coalition, Planned Parenthood Votes Northwest and Hawaii, Hawaii J-20+, Midwives Alliance of Hawaii, Church of the Crossroads, Filipina Advocacy Network, and forty individuals. Your Committees received testimony in opposition to this measure from the City and County of Honolulu Department of the Prosecuting Attorney, Honolulu Police Department, Honolulu County Republican Party, and four individuals. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that the Supreme Court of the United States has recognized that unlawful presence in the United States is not, by itself, a criminal offense. Your Committees further find that a person's undocumented status can result from a variety of possible causes and that, given the geography of the islands, the undocumented status of most undocumented immigrants in Hawaii results from overstaying the length of their visa, which is not a crime, in comparison to crossing a United States border without being processed which is a crime. Your Committees also find that policies prioritizing deportation actions may cause undocumented immigrants to be

fearful that contact with the police and other law enforcement personnel will lead to immigration-based actions, and may make them more reluctant to report crimes or come forth as witnesses as a result.

As affirmed by the records of votes of the members of your Committees on Public Safety, Intergovernmental, and Military Affairs and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 557 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Judiciary: Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

# SCRep. 602 (Joint) Government Operations and Water and Land on S.B. No. 917

The purpose and intent of this measure is to require the Land Court to:

- (1) Accept valid government issued identification as evidence to prove full name; and
- (2) Give full faith and credit to public acts, judgments, and orders of other states that recognize name changes by usage or other method.

Your Committees received testimony in support of this measure from the Judiciary and two individuals.

Your Committees find that the Land Court of the State of Hawaii has exclusive original jurisdiction over all applications for the registration of title to land easements or rights in land held and possessed in fee simple within the State, with power to hear and determine all questions arising upon the applications. In order to transfer property subject to Land Court jurisdiction, existing law requires that every deed or other voluntary instrument presented for recording contains the full name of the grantee and a statement that the grantee is married or unmarried, and if married, the statement must include the full name of the spouse. Issues have arisen within the Land Court in determining a married individual's name when the individual's marriage certificate is from out-of-state, and unlike Hawaii marriage licenses, does not list the intended married names of both spouses. This measure clarifies what shall be accepted as valid identification by the Land Court.

Your Committees have amended this measure by:

- (1) Specifying that a valid government-issued photographic identification issued by the United States, this State, or another state shall be adequate proof of identify for the purposes of the land court of the State of Hawaii; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 917, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 917, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Baker).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Riviere).

# SCRep. 603 (Joint) Water and Land and Energy, Economic Development, and Tourism and Agriculture and Environment on S.B. No. 435

The purpose and intent of this measure is to require the Hawaii Climate Change Mitigation and Adaptation Commission to assess the effects of tourism on climate change and publish a report of its findings.

Your Committees received testimony in support of this measure from the Hawaii Farmers Union, League of Women Voters of Hawaii, and two individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that climate change is a major threat to Hawaii. Your Committees further find that about one-third of greenhouse gas emissions in Hawaii come from aviation and marine transportation, much of which is driven by visitors. The relationship between the tourism industry and climate change is poorly understood; therefore, your Committees find it prudent to call upon the Hawaii Climate Change Mitigation and Adaptation Commission to assess the role the tourism industry plays regarding climate change.

Your Committees have amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land, Energy, Economic Development, and Tourism, and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 435, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 435, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Keith-Agaran, Nishihara).

Energy, Economic Development, and Tourism: Ayes, 5; Ayes with Reservations (Inouye, Fevella). Noes, none. Excused, none

Agriculture and Environment: Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Rhoads, Ruderman).

### SCRep. 604 (Joint) Transportation and Public Safety, Intergovernmental, and Military Affairs on S.B. No. 1276

The purpose and intent of this measure is to allow the Director of Transportation to update the motor carrier vehicle safety inspection program by authorizing changes made to the program be done through administrative rules.

Your Committees received testimony in support of this measure from the Department of Transportation. Your Committees received comments on this measure from the City and County of Honolulu Department of Customer Services.

Your Committees find that there is a need to update and improve the methods and procedures of the motor carrier vehicle safety inspection program. Your Committees believe that rather than having to enact legislation every year to address any issues with the motor carrier vehicle inspection program, it is more efficient to authorize the Director of Transportation to adopt rules to administer and enforce the program. This will provide for a more efficient means of making any necessary changes, while still allowing input from the public regarding any changes to the program.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Public Safety, Intergovernmental, and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1276, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1276, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

# SCRep. 605 Labor, Culture and the Arts on S.B. No. 789

The purpose and intent of this measure is to increase the minimum wage to \$12.00 per hour beginning January 1, 2022.

Your Committee received testimony in support of this measure from the Office of the Governor; Department of Labor and Industrial Relations; City Council of the City and County of Honolulu; Americans for Democratic Action Hawaii; Midwives Alliance of Hawaii; Democratic Party of Hawaii; Education Caucus; Democratic Party of Hawaii LGBT Caucus; IMUAlliance; American Association of University Women of Hawaii; Hawaii Government Employees Association; Democratic Party of Hawaii; Hawaii Alliance of Progressive Action; Hawaii Appleseed Center for Law & Economic Justice; Democratic Party of Hawaii Labor Caucus; We Are One, Inc.; Living Wage Hawaii; ILWU Local 142; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiii'i; Democratic Party of Hawaii Hawaiian Affairs Caucus; Hawaii'i State Commission on the Status of Women; Hawaii Children's Action Network; Trilogy Corporation; over thirty individuals; and two petitions signed by over two hundred individuals. Your Committee received testimony in opposition to this measure from the Chamber of Commerce Hawaii, Hawaii Business League, Malolo Charters, Calypso Charters, Boss Frog's Dive & Surf, Maui Dive Shop, Honolulu County Republican Party, National Federation of Independent Business, Tiki's Grill & Bar, Retail Merchants of Hawaii, Maui Chamber of Commerce, IL Gelato Hawaii, and six individuals. Your Committee received comments on this measure from the Hawaii Restaurant Association, Hawaii Food Industry Association, The Hawaii Business League, Grassroot Institute of Hawaii, and seven individuals.

Your Committee finds that a vast majority of rigorous, credible studies conclude that higher minimum wages appreciably boost workers' earnings with little or no effect on employment. In fact, raising the minimum wage increases earnings growth of low-income workers, and increasingly does so over the long-term, all without declines in employment. A recent 2018 study by the U.S. Census Bureau found that raising the minimum wage benefits a large majority of low-income workers by putting them on the path to higher earnings in the long term and decreasing income inequality.

Your Committee further finds that currently, there is a significant difference between the minimum wage and what is needed to afford basic needs in Hawaii. Indeed, Hawaii has the lowest average wage in the nation when adjusted for the cost of living. This measure will therefore increase the minimum wage which will raise the quality of life for Hawaii residents, reduce poverty, and increase economic activity.

Your Committee has amended this measure by:

- (1) Making the increase in the minimum wage to \$12.00 per hour effective January 1, 2020, rather than January 1, 2022;
- (2) Adding language to increase the minimum wage to \$15.00 per hour beginning January 1, 2023;
- (3) Providing a tax credit for qualified small businesses that is based on the increased total hourly wages paid each taxable year, in the amount of twenty percent of the increase of total hourly wages paid to all employees;
- (4) Providing that the tax credit shall not exceed \$50,000 each taxable year;
- (5) Providing that the tax credit is non-refundable and subject to carry over;
- (6) Providing that the tax credit shall end five years after December 31, 2019;
- (7) Providing that in order to qualify for the tax credit, the business must have fifty employees or less and make \$4,000,000 or less in gross income for the taxable year;
- (8) Changing the effective date to January 1, 2020; provided that the tax credit shall apply to taxable years beginning after December 31, 2019; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 789, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 789, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Ihara, Fevella). Noes, none. Excused, none.

### SCRep. 606 Labor, Culture and the Arts on S.B. No. 1041

The purpose and intent of this measure is to:

- (1) Prohibit written nondisclosure agreements involving sexual assault and sexual harassment as part of an employee's condition of employment; and
- (2) Prohibit employers from retaliating against an employee for disclosing or discussing sexual harassment or sexual assault.

Your Committee received testimony in support of this measure from the Hawai'i State Commission on the Status of Women, Planned Parenthood Votes Northwest and Hawaii, Screen Actors Guild – American Federation of Television and Radio Artists, Midwives Alliance of Hawaii, League of Women Voters, AAUW of Hawaii, and two individuals. Your Committee received comments on this measure from the Hawai'i Civil Rights Commission and Department of Human Services.

Your Committee finds that nondisclosure agreements that prevent disclosure of sexual assault and sexual harassment as a condition of employment silence victims of sexual harassment, sometimes allowing harassers to continue sexual harassment of other employees. There is also a concern that nondisclosure agreements enable repeat offenders who engage in a pattern of sexual harassment. Your Committee also finds that many victims of sexual assault and harassment do not report it because of fear of being retaliated against. This measure will help end the silencing of victims by banning nondisclosure agreements that prevent disclosure of sexual assault and harassment and prohibiting employers from retaliating against an employee for disclosing sexual harassment and assault.

Your Committee notes that this measure expressly allows the use of nondisclosure agreements that are part of settlements between an employer and an employee alleging sexual harassment. In addition, this measure does not apply to human resources employees and other types of employees when the maintenance of confidentiality is necessary as part of an ongoing investigation.

Your Committee has amended this measure by inserting an effective date of January 1, 2051, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1041, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1041, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 607 Labor, Culture and the Arts on S.B. No. 1048

The purpose and intent of this measure is to:

- Make unenforceable confidentiality clauses in employment contracts when an act of sexual harassment is claimed by an employee;
- (2) Ban mandatory arbitration agreements as to sexual harassment claims beginning July 1, 2019; and
- (3) Make mandatory confidentiality clauses in an arbitration agreement unenforceable as to sexual harassment claims.

Your Committee received testimony in support of this measure from Hawai'i State Commission on the Status of Women, Planned Parenthood Votes Northwest and Hawaii, Midwives Alliance of Hawaii, AAUW of Hawaii, and three individuals. Your Committee received comments on this measure from the Hawai'i Civil Rights Commission.

Your Committee finds that confidentiality clauses in employment contracts that apply to sexual harassment claims and mandatory arbitration agreements requiring arbitration of sexual harassment claims allow sexual harassment to be kept a secret and off the record. The use of confidentiality agreements and mandating private arbitrations also allows serial harassers to escape scrutiny and liability, and enables them to continue to harass others. This measure will ban confidentiality agreements that apply to sexual harassment claims and mandatory arbitration of sexual harassment claims, which will allow victims to take their case through the court system and to speak publicly about sexual harassment if they so choose.

Your Committee notes that this measure allows for confidentiality agreements when entered into by the parties as part of a legal settlement to a specific claim of sexual harassment, and does not prohibit use of a voluntary confidentiality provision where specific claims of sexual harassment are alleged.

Your Committee has amended this measure by inserting an effective date of January 1, 2051, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1048, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1048, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 608 Labor, Culture and the Arts on S.B. No. 1168

The purpose and intent of this measure is to:

- (1) Allow a state department employee's designation of beneficiary form to be kept in the department where the employee is employed; and
- (2) Eliminate the requirement that the designation be a verified written statement.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services.

Your Committee finds that existing law requires an employee of a state department's designation of beneficiary form to be a written statement that is notarized and filed with the comptroller. This requirement has resulted in thousands of designation of beneficiary forms being maintained in a central location at the Department of Accounting and General Services. Your Committee additionally finds that the recent modernization of the HawaiiPay payroll system has caused several departments and agencies to request an electronic means of storing and updating an employee's designation of beneficiary. This measure removes the requirement for a notarized statement, allows electronic filing and maintenance of designation of beneficiary records, and makes the designation process more accessible to employees of state departments.

Your Committee has amended this measure by inserting an effective date of January 1, 2051, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1168, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1168, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Gabbard, Fevella).

#### SCRep. 609 Labor, Culture and the Arts on S.B. No. 1375

The purpose and intent of this measure is to:

- (1) Conform statutory prohibitions against wage discrimination with other prohibitions on employment discrimination;
- (2) Clarify allowable justifications for compensation differentials and remedies for pay disparity; and
- (3) Require employers to disclose wage ranges to employees and prospective employees.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, Hawaii State Commission on the Status of Women, Hawaii Women's Coalition, Planned Parenthood Votes Northwest and Hawaii, Hawaii Appleseed Center for Law & Economic Justice, American Association of University Women of Hawaii, and seven individuals.

Your Committee finds that pay disparity still persists between men and women in Hawaii who do similar work. Hawaii ranks twenty-third in income equality out of all states and the District of Columbia, according to the most recent census bureau. Your Committee further finds that the most extreme disparity in pay exists among Native Hawaiian and other Pacific Islander women who earn only sixty-two percent of white male earnings nationally. This measure clarifies the classes protected from pay discrimination, and provides for wage transparency, which will get Hawaii closer to ending pay disparity in the workplace.

Your Committee has amended this measure by:

- $(1) \quad Adopting \ language \ suggested \ by \ the \ Hawai `i \ Civil \ Rights \ Commission \ that:$ 
  - (A) Clarifies that an employer shall provide the pay scale for a position to an applicant regardless of whether it was requested;
  - (B) Clarifies that an employer shall disclose an hourly rate or salary range in all job listings, but does not need to select a salary within the posted range or republish each job listing with an adjusted range;
  - (C) Specifies that if an employer commits certain acts in violation of section 378-2.4(g), Hawaii Revised Statutes, then the employer is also in violation of section 378-2.3, Hawaii Revised Statutes;
  - (D) Specifies that the definition of "compensation" in section 378-2.4, Hawaii Revised Statutes, also applies to section 378-2.3, Hawaii Revised Statutes, and includes housing; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1375, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1375, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

# SCRep. 610 (Joint) Labor, Culture and the Arts and Energy, Economic Development, and Tourism on S.B. No. 1507

The purpose and intent of this measure is to appropriate funds to plan for and hold a 2020 Hawaii – Philippines sister city trade show and economic outlook symposium ("symposium").

Your Committees received testimony in support of this measure from the Filipino Chamber of Commerce of Hawaii; Filipina Advocacy Network; Commercial and Business Lending; East West Marketing, Inc.; and four individuals. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committees find that having the symposium would expand the economic partnership between the State and the Philippines sister states and cities. The State's communities, individuals, and businesses would have the opportunity to meet business owners and

city officials from the Philippines to gain a new perspective on Filipino culture and business and trade practices, as well as allow participants to develop relationships and business opportunities which may lead to increased trade and cultural diversity. This measure will appropriate funds for the symposium to increase trade with the Philippines and its sister cities and states and create an economic benefit for the State.

Your Committees note that the appropriation amount requested is \$50,000. Your Committees also note that a grant in aid application has been submitted for the symposium and that a grant in aid may be the preferable way of financing this event.

Your Committees have amended this measure by:

- (1) Removing the \$50,000 appropriation amount and inserting a blank appropriation amount;
- (2) Requiring matching private funds before any funds are made available; and
- (3) Inserting an effective date of January 1, 2051, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Labor, Culture and the Arts and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1507, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1507, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor, Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Fevella).

#### SCRep. 611 Water and Land on S.B. No. 751

The purpose and intent of this measure is to make an appropriation from the special land and development fund to the Department of Land and Natural Resources for the operational expenses and staffing costs of the Hawaii Association of Conservation Districts.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Land Use Research Foundation of Hawaii; Ulupono Initiative, Hawaii Association of Conservation Districts; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Oahu Resource Conservation & Development Council; Local Food Coalition; A'a Li'i Farm; Maui Farmers Union United; Maui Soil & Water Conservation Districts; Birds With Arms Farms; Auwahi Forest Restoration Project; Hawaii Coffee Association; Hawaii Crop Improvement Association; Larry Jefts Farms, LLC; Maui County Farm Bureau; Hawai'i Forest Industry Association; and seventy-five individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the Hawaii Association of Conservation Districts consist of sixteen soil and water conservation districts throughout the State who work together in a variety of ways to help protect and sustain Hawaii's natural environment. The Hawaii Association of Conservation Districts continues to work closely with a variety of federal and State agencies including the U.S. Environmental Protection Agency, United States Department of Agriculture's Natural Resources Conservation Service, University of Hawaii, and Hawaii State Department of Health. Your Committee further finds that due to funding shortages, the Hawaii Association of Conservation Districts has been limited in its ability to provide assistance to many farmers who can benefit from its services.

Your Committee has amended this measure by:

- (1) Replacing the appropriation out of the special land and development fund with a line item in the budget of the Department of Land and Natural Resources under LNR 141 for the operational expenses and staffing costs of the Hawaii Association of Conservation Districts;
- (2) Inserting a blank appropriation amount;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that although the appropriation amount is blank, your Committee requests that your Committee on Ways and Means consider an appropriation of \$500,000 for the operational expenses and staffing costs of the Hawaii Association of Conservation Districts.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 751, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 751, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

### SCRep. 612 Water and Land on S.B. No. 835

The purpose and intent of this measure is to:

- (1) Add a community liaison to the membership of the State Board on Geographic Names; and
- (2) Require the Department of Land and Natural Resources to publish and send a listing of its decisions, along with other information, to state and other agencies, and provide the same publication, along with pertinent information, to the United States Board on Geographic Names.

Your Committee received comments on this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, and Office of Planning.

Your Committee finds that the State Board on Geographic Names was created to assure uniformity in the use and spelling of the names of geographic features within the State. The Board is responsible for designating the official names and spellings of geographic features in Hawaii. In its deliberations, the Board solicits and considers the advice and recommendations of appropriate government officials and, as appropriate, other knowledgeable persons. The State Board on Geographic Names has been engaged in a multi-year project to review each of the over 10,000 names that appear on the quadrangle maps and/or in the U.S. Geographic Names Information System and to add the 'okina and kahakō, or diacritical marks, as appropriate.

Your Committee has amended this measure by:

- (1) Reinserting the provision allowing for alternate names; and
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 835, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 835, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

# SCRep. 613 Water and Land on S.B. No. 1126

The purpose and intent of this measure is to, beginning on November 1, 2019, require all real property sales or transfers to include a sea level rise hazard exposure statement to ensure that new property owners and transferees understand the special hazards, requirements, and limitations that may affect the property.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Sierra Club of Hawai'i; Coastal Planners, LLC; and four individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS.

Your Committee finds that coastal property is often vulnerable to hazards, such as coastal erosion and flooding from tsunamis, storms, and high waves. These hazards can be exacerbated by sea level rise and human-caused interruptions to natural sand supply. Owners of coastal property are at risk of losing land when shorelines undergo landward retreat, which negatively impacts building setbacks, property values, and insurance availability. Furthermore, coastal property owners face stringent permit requirements imposed by the counties and State for shoreline protection. This measure enables coastal property purchasers and transferees to better understand the special hazards, permitting requirements, and limitations that may affect the coastal property by requiring a sea level rise hazard exposure statement with the sale or transfer of any real property at risk of climate-related exposure.

Your Committee has amended this measure by:

- (1) Requiring a sea level rise hazard exposure statement be included with every sale or transfer of vulnerable coastal property, rather than any real property;
- (2) Replacing the acknowledgments in and requirements of the sea level rise hazard exposure statement with substantively similar acknowledgments in and requirements of the vulnerable coastal property purchaser statements proposed in S.B. No. 1339, Regular Session of 2019;
- (3) Defining "vulnerable coastal property" as real property within a two-foot sea level rise exposure area as officially designated by the Hawaii Climate Change Mitigation and Adaptation Commission;
- (4) Applying the material fact information disclosure requirement to residential real property within a sea level rise exposure area as officially designated by the Hawaii Climate Change Mitigation and Adaptation Commission, rather than within a sea level rise hazard zone based on the National Oceanic and Atmospheric Administration sea level rise hazard exposure map or the Hawaii Sea Level Rise Viewer;
- (5) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1126, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1126, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Nishihara).

# SCRep. 614 Water and Land on S.B. No. 1287

The purpose and intent of this measure is to include objectives and policies and implementation guidelines for planning for the lei of green in the Hawaii State Planning Act.

Your Committee received testimony in support of this measure from The Trust for Public Land, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiiʻi, Hawaii's Thousand Friends, Hawaii Audubon Society, Lei of Parks Coalition, Hawaii Bicycling League, Kakaʻako Makai Community Planning Advisory Council, Oʻahu Island Parks Conservancy, Trees for Honolulu's Future, and four individuals. Your Committee received comments on this measure from the Office of Planning.

Your Committee finds that the lei of green was first brought forth by the renowned national planner Lewis Mumford to benefit the Territory of Hawaii, as a plan to link Honolulu's green parks, open space, recreation areas, and greenways mauka to makai along the

shoreline, interconnected with tree-lined pedestrian paths for shade and climate control. While your Committee understands the importance of focusing the lei of green in the urban area of Honolulu from Diamond Head to Aloha Tower, your Committee believes that a lei of green plan should be considered at a statewide level.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that although this measure does not contain an appropriation, the Office of Planning's testimony requests an appropriation of \$250,000 to plan the lei of green from Diamond Head to Aloha Tower.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1287, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1287, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

# SCRep. 615 Water and Land on S.B. No. 1403

The purpose and intent of this measure is to:

- (1) Require a total of forty-one permits to be issued for the Maui Molokini Shoal Marine Life Conservation District (MLCD); and
- (2) Prohibit no more than twenty permitted vessels from being granted entry to the crater at any one time.

Your Committee received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Ocean Tourism Coalition; Seabird Cruises, Inc.; Blue Water Rafting; Calypso Charters; PacWhale Eco-Adventures; Trilogy Corporation dba Trilogy Excursions; Kai Kanani Sailing; Maui-Molokai Sea Cruises; Maui Classic Charters, Inc.; and eleven individuals. Your Committee received testimony in opposition to this measure from The Nature Conservancy and three individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources and Department of the Attorney General.

Your Committee finds that the Maui Molokini Shoal MLCD is an area about three miles off of Maui's southwestern coast containing the crescent shaped islet of Molokini. Access is by boat only and there is no sand beach on Molokini. The area includes the cove with sand patches, coral, and basaltic boulders on the bottom, and a shallow reef in less than thirty feet of water. The diversity of fish and other marine life within the MLCD is among the most impressive in the State; even humpback whales have been known to enter the cove, making it a popular attraction for visitors. As the popularity of the MLCD continues to increase, it is essential to set limits to ensure the sustainability and health of this precious resource for present and future generations.

Your Committee has amended this measure by:

- (1) Limiting the number of permits that shall be issued for the Maui Molokini Shoal Marine Life Conservation District to forty permits;
- (2) Stipulating that twenty permitted vessels shall be granted entry to the crater at any one time;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1403, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1403, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

# SCRep. 616 Water and Land on S.B. No. 1414

The purpose and intent of this measure is to require the State Parks Division of the Department of Land and Natural Resources to conduct a feasibility study on the employment of residential caretakers at high-use hiking trails to assist hikers and reduce the need for rescues of hikers.

Your Committee received testimony in support of this measure from the Hawaiian Affairs Caucus of the Democratic Party of Hawaii and one individual. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that hiking continues to increase in popularity among visitors and residents, leading to greater wear on trails and facilities. Additionally, your Committee finds that many hikers lack proper education as to hiking safety and etiquette, which has resulted in litter, loud noises, illegal parking in neighborhoods where trail heads are located, and other illegal activities, as well as increases in mountain rescues. This measure requires a feasibility study on the employment of residential caretakers at high-use hiking trails as a means of mitigating the negative impacts of high traffic on state trails to ensure that Hawaii's hiking trails continue to be safely enjoyed by residents and visitors.

Your Committee has amended this measure by inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1414, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1414, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Nishihara).

### SCRep. 617 (Joint) Agriculture and Environment and Water and Land on S.B. No. 393

The purpose and intent of this measure is to:

- (1) Amend coastal zone management laws to further protect against impacts of sea level rise and coastal erosion;
- (2) Require new developments to plan for the impacts of projected sea level rise; and
- (3) Prohibit development in areas significantly affected by projected sea level rise.

Your Committees received testimony in support of this measure from the Department of Transportation, Department of Land and Natural Resources, IMUAlliance, Hawai'i Reef and Ocean Coalition, Life of the Land, Environmental Caucus of the Democratic Party of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Sierra Club of Hawai'i, and three individuals. Your Committees received comments on this measure from the Office of Planning and Building Industry Association of Hawaii.

Your Committees find that as an island state, land use and development in Hawaii are concentrated on low-lying coastal plains. In many communities, the most dense developments are situated right up against the shoreline. This pattern of coastal development results in major impacts to public beaches and marine resources and increases community exposure to hazards of beach erosion and coastal flooding. The science is clear that rates of sea-level rise will increase in the coming decades. This will result in increasing severity and frequency of coastal erosion and flooding events. Therefore, improving coastal zone management laws and planning for sea-level rise are vital.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 393 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman).

Water and Land: Ayes, 4; Ayes with Reservations (Riviere). Noes, none. Excused, 1 (Fevella).

# SCRep. 618 (Joint) Agriculture and Environment and Water and Land and Government Operations on S.B. No. 690

The purpose and intent of this measure is to implement the recommendations of the Hawai'i Sea Level Rise Vulnerability and Adaptation Report issued by the Hawai'i Climate Change Mitigation and Adaptation Commission.

Your Committees received testimony in support of this measure from the Department of Transportation, Hawaii Emergency Management Agency, Land Use Commission, Hawaii Farmers Union, Environmental Caucus of the Democratic Party of Hawai'i, Sierra Club of Hawai'i, Association of Hawaiian Civic Clubs, IMUAlliance, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaiii, Surfrider Foundation, Prince Kūhiō Hawaiian Civic Club, Society for Hawaiian Archaeology, and eleven individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources, Office of Environmental Quality Control, Office of Planning, and American Institute of Architects.

Your Committees find that in December 2017, the Hawaii Climate Change Mitigation and Adaptation Commission accepted the Hawaii Sea Level Rise Vulnerability and Adaptation Report (SLR Report). The first recommendation of the SLR Report is to recognize the SLR-XA (Sea Level Rise Vulnerability Area) as a statewide vulnerability zone. The SLR-XA demonstrates the extent of the potential exposure of land and structures to flooding and erosion with an increase of 0.5, 1.1, 2.0, and 3.2 feet of sea level rise throughout the State. Thus, your Committees believe that sea level rise is a concern for all who live, work, or play within coastal areas of the State and action must be taken to mitigate the impacts.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees find that proper appropriation amounts may be more appropriately addressed by your Committee on Ways and Means and requests your Committee on Ways and Means to determine those amounts.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment, Water and Land, and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 690, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 690, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 619 (Joint) Agriculture and Environment and Water and Land on S.B. No. 828

The purpose and intent of this measure is to:

- (1) Establish a coastal erosion proactive adaptation plan task force, with the assistance of an advisory group and a consultation team, to develop a coastal erosion proactive adaptation plan to better mitigate impacts to the State's coastal zone caused by sea level rise and erosion; and
- (2) Appropriate funds to support the task force.

Your Committees received testimony in support of this measure from the City and County of Honolulu Department of Design and Construction; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Coastal Planners, LLC; and one individual. Your Committees received comments on this measure from the Office of Planning.

Your Committees find that the current reactive shoreline regulatory process has become a substantial time and cost burden. Observations over the past decade show that Hawaii's current reactive shoreline permit system can be an obstacle to protecting, preserving, and restoring the State's shorelines and coastal ecosystems.

Your Committees further find that this reactive permit system often exacerbates shoreline erosion and coastal ecosystem degradation. The permit process includes the environmental assessment planning process, which typically needs to be completed prior to completing federal, state, and county permit applications.

Your Committees believe that a coastal erosion proactive adaptation plan can overcome the negative impacts from Hawaii's reactive shoreline planning process and reactive shoreline permit system.

Your Committees have amended this measure by:

- (1) Expanding the authorized use of the appropriated funds to include establishment of one full-time equivalent (1.0 FTE), civil-service-exempt position in the Office of Planning to administer the coastal erosion proactive adaptation plan task force; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 828, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 828, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

# SCRep. 620 Agriculture and Environment on S.B. No. 975

The purpose and intent of this measure is to clarify certain requirements for condominium property regimes on agricultural lands in a county with a population of seven hundred fifty thousand or more, including:

- (1) For purposes of planned community associations, requiring the owner of any parcel of land subdivided as a condominium property regime in agricultural or preservation lands to provide public notice of the sale no later than ninety days after the sale of the parcel; and
- (2) Providing an option for county participation in the approval of certain major agricultural condominium property regimes.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the City and County of Honolulu Department of Planning and Permitting and two individuals. Your Committee received comments on this measure from the Department of Agriculture and Office of Planning.

Your Committee finds that there are challenges statewide with the regulation of residential uses on lands under condominium property regimes in the state agricultural and preservation districts. Your Committee further finds that this measure is a step in the right direction to better protect Hawaii's agricultural and preservation lands from encroachment by non-agricultural or non-preservation uses, including residential development with little connection to bona fide farming activities.

Your Committee has amended this measure by:

- (1) Applying the prohibition on residential use of sheds and structures on agricultural lands statewide, rather than to certain counties:
- Removing language that would have allowed residential use of sheds and structures on agricultural lands if permitted under county ordinances and rules;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Your Committee notes that the City and County of Honolulu Department of Planning and Permitting raised concerns related to this measure. Your Committee respectfully requests that your Committees on Ways and Means and Commerce and Consumer Protection review the Department of Planning and Permitting's recommendations in its testimony, which include improving the measure's language for greater clarity, deleting a provision that prohibits a reasonable use that should be allowed, and allowing counties to have a decision-making role in requests for agricultural condominium property regimes.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 975, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 975, S.D. 1, and be referred to your Committees on Ways and Means and Commerce, Consumer Protection, and Health.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 621 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 160

The purpose and intent of this measure is to establish an exemption from tort liability for the State and counties arising from lifeguard services provided by a county lifeguard on the beach or in the ocean, except for gross negligence or wanton acts or omissions.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Kauai; Maui County Council; Kaua'i County Council; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaii State Association of Counties; County of Kauai Ocean Safety Bureau; Maui Hotel and Lodging Association; Ocean Safety and Lifeguard Services; Drowning and Aquatics Injury Prevention Advisory Committee; Honolulu County Republican Party; one member of the Hawaii County Council; and eight individuals. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice.

Your Committee finds that after years of extensions granted by the Legislature, the protections for lifeguards from liability established by Act 170, Session Laws of Hawaii 2002, sunset on June 30, 2017. Your Committee further finds that this limited liability protection allowed counties to provide lifeguard services at various sites, including state beaches, without the threat of costly litigation. Your Committee additionally finds that continued placement of lifeguards at state-owned beaches and in the ocean will help reduce the number of deaths and injuries at these locations.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 160 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

### SCRep. 622 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 166

The purpose and intent of this measure is to appropriate funds to the Office of the Governor, Department of Agriculture, and Department of Health for disaster relief and recovery for the County of Hawai'i.

Your Committee received testimony in support of this measure from the Department of Health; Department of Agriculture; Hawaii Emergency Management Agency; University of Hawai'i System; Hawaiian Electric Company, Inc.; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and Hawaii Farm Bureau. Your Committee received comments on this measure from the County of Hawai'i Department of Research and Development.

Your Committee finds that the Kilauea eruption in 2018 permanently altered significant portions of the landscape, communities, and economy of the Island of Hawaii, with financial losses tallying in the hundreds of millions for the county. Your Committee further finds that although the eruption has paused, the Hawaii Volcano Observatory's alert level is "advisory" rather than "normal", reflecting uncertainty that the eruption is over. Your Committee additionally finds that the scale of recovery compounded by the potential risk of further eruptive activity necessitates further resources for disaster relief and recovery.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 166 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

# SCRep. 623 Public Safety, Intergovernmental, and Military Affairs on S.B. No. 610

The purpose and intent of this measure is to:

- (1) Amend the Kauai flooding disaster relief appropriation made in Act 12, Session Laws of Hawaii 2018, to include flood mitigation measures;
- (2) Extend the lapse date of the appropriation to June 30, 2020; and
- (3) Exempt the appropriation from certain restrictions on transfers of or changes to appropriations.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Emergency Management Agency; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, and one member of the Kauaʻi County Council.

Your Committee finds that the Island of Kauai experienced historic flooding during 2018, and the recovery efforts are extensive and long term. Your Committee further finds that the Legislature appropriated monies for flooding disaster relief in Act 12, Session Laws of Hawaii 2018. Your Committee additionally finds that some flood recovery projects are still ongoing and scheduled for completion in June of this year. This measure will extend the emergency funding window for addressing Kauai's flood recovery and ensure that recovery projects that are currently in progress will be completed.

As affirmed by the record of votes of the members of your Committee on Public Safety, Intergovernmental, and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 610 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

### SCRep. 624 (Joint) Labor, Culture and the Arts and Higher Education on S.B. No. 1368

The purpose and intent of this measure is to establish a collective bargaining unit for graduate student assistants employed by the University of Hawaii.

Your Committees received testimony in support of this measure from the University of Hawaii Professional Assembly; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaii State Teachers Association; Democratic Party of Hawaii Labor Caucus; ILWU Local 142; Democratic Party of Hawaii Education Caucus; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Kamehameha Schools Faculty Association; Young Progressives Demanding Action; and five individuals. Your Committees received testimony in opposition to this measure from the University of Hawaiii System and one individual. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that graduate student assistants perform a variety of teaching and research functions that are necessary and vital to the overall strength and accomplishments of a successful university. At research universities, such as the University of Hawai'i at Manoa, graduate student assistants are in the trenches, collaborating on research with faculty members that often leads to innovative ideas.

Your Committees further find that graduate student assistants receive tuition waivers and stipends as compensation, but budget shortfalls have increased class size and workload, which has increased the burden on the University of Hawaii's graduate student assistants. Graduate student assistants at the University of Hawaii are not currently authorized to organize to advocate for their own employment rights. This measure will allow graduate student assistants to organize for the purpose of collective bargaining so that they may negotiate for fair salaries, benefits, and rights.

Your Committees have amended this measure by inserting an effective date of January 1, 2051, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Labor, Culture and the Arts and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1368, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1368, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair and Vice President on behalf of the Committees. Labor, Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Fevella). Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kahele).

#### SCRep. 625 Labor, Culture and the Arts on S.B. No. 1349

The purpose and intent of this measure is to authorize staggered work weeks for public employees.

Your Committee received testimony in opposition to this measure from the Honolulu Police Department and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO. Your Committee received comments on this measure from the Department of Human Resources Development.

Your Committee finds that offering public employees the option of a flexible work schedule through staggered work hours will benefit families, communities, the environment, and the economy. Some of the benefits include less traffic on the roads during peak commute times, shorter commute times, less pollution, more time at home with family, and more opportunities to enjoy the island lifestyle. This measure will allow public employees to choose a work schedule with staggered work hours, which will help alleviate traffic congestion and facilitate an overall better quality of life.

Your Committee has amended this measure by inserting an effective date of January 1, 2051, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1349, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1349, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Chang).

# SCRep. 626 (Joint) Agriculture and Environment and Water and Land on S.B. No. 944

The purpose and intent of this measure is to add to the authority of the Hawaii Climate Change Mitigation and Adaptation Commission (Commission) by directing it to:

- (1) Identify and prioritize nature-based solutions to climate change; and
- (2) Assess opportunities for insurance and other risk transfer mechanisms that incentivize investment in nature-based solutions to climate change.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, The Nature Conservancy, EcoTipping Points Project, Hawaii Reef and Ocean Coalition, Environmental Caucus of the Democratic Party of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Sierra Club of Hawai'i, and three individuals.

Your Committees find that greenhouse gas emissions are a leading cause of global warming and climate change. The Legislature has passed numerous measures over the last decade to address climate change. Among them, Act 32, Session Laws of Hawaii 2017, commits Hawaii to systematically reduce greenhouse gas emissions and improve resiliency to climate change in alignment with the principles and goals of the Paris Climate Agreement.

Your Committees further find that Hawaii has increasing exposure to climate-change-related risks and events. The islands also have environmental resources such as forests, wetlands, coral reefs, and other natural infrastructure that, if healthy, well-managed, and functioning, can help reduce emissions as well as mitigate the risks and related loss and damages from climate change.

Your Committees therefore find that it is important to invest in nature-based solutions to climate change.

Your Committees have amended this measure by:

- (1) Inserting an appropriation amount of \$50,000 for fiscal year 2019-2020 and adding an appropriation of \$50,000 for fiscal year 2020-2021 for the Commission to identify and prioritize nature-based solutions to mitigate climate change impacts; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 944, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 944, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella). Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

# SCRep. 627 (Joint) Agriculture and Environment and Water and Land on S.B. No. 930

The purpose and intent of this measure is to require the Hawaii Climate Change Mitigation and Adaptation Commission and Coordinator to assist state and county agencies with developing and implementing various sea level rise adaptation plans and climate change mitigation efforts.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Emergency Management Agency, one member of the Hawai'i County Council, Ulupono Initiative, IMUAlliance, Hawaii Reef and Ocean Coalition, Environmental Caucus of the Democratic Party of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Sierra Club of Hawai'i, and two individuals. Your Committees received comments on this measure from one individual.

Your Committees find that climate change is a major threat to the economy, environment, and overall well-being of the State. Your Committees further find that this measure continues implementation of the Legislature's commitments to combat the impacts of climate change, specifically those commitments made in the 2014 Hawaii Climate Adaptation Initiative Act to establish the Interagency Climate Adaptation Committee, task the Committee with developing a sea level rise vulnerability and adaptation report, and task the Office of Planning with preparing a statewide adaptation plan, and Act 32, Session Laws of Hawaii 2017, which established the Hawaii Climate Change Mitigation and Adaptation Coordinator.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 930 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella). Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

# SCRep. 628 (Joint) Agriculture and Environment and Water and Land on S.B. No. 871

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources for invasive species technician positions in its Division of Forestry and Wildlife on the island of Hawai'i to address invasive plants and animals.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; University of Hawai'i College of Tropical Agriculture and Human Resources; Office of the Mayor of the County of Hawai'i; two members of the Hawai'i County Council; Hawaiian Electric Company, Inc.; The Nature Conservancy; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Hawai'i Farm Bureau; and three individuals. Your Committees received testimony in opposition to this measure from Animal Rights Hawai'i and one individual.

Your Committees find that the invasion of Hawaii by insects, disease-bearing organisms, snakes, weeds, and other pests is the single greatest threat to Hawaii's economy and natural environment and to the health and lifestyle of Hawaii's people. Your Committees further find that despite many successes, mitigation of invasive species threats and impacts is an ongoing process that requires resources. Provision of additional positions on the island of Hawai'i will help protect the environment, human health, culture, and economy.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 871 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella). Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

### SCRep. 629 (Joint) Agriculture and Environment and Water and Land on S.B. No. 685

The purpose and intent of this measure is to provide funds to establish invasive species technician positions for the Department of Land and Natural Resources' Division of Forestry and Wildlife in east Maui to control invasive species from negatively impacting the environment and economy.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; County of Maui Office of the Mayor; one member of the Maui County Council; The Nature Conservancy Hawai'i; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Hawaii Cattlemen's Council, Inc.; Hawai'i Farm Bureau; Coastal Planners, LLC; and four individuals. Your Committees received testimony in opposition to this measure from Animal Rights Hawai'i.

Your Committees find that the invasion of Hawaii by insects, disease-bearing organisms, snakes, weeds, and other pests is a serious threat to the State's economy and natural environment and to the health and lifestyle of the people of Hawaii. Pests already cause millions of dollars in crop losses, the extinction of native species, the destruction of native forests, and the spread of disease. It is estimated that approximately 37,000 acres throughout east Maui could contain miconia, which poses a threat to the local environment, cultural practices, and economy.

Your Committees further find that stopping the influx of new pests and containing their spread are essential to the State's current and future well-being.

Your Committees have amended this measure by:

- (1) Inserting an appropriation amount of \$2,000,000 for each fiscal year for five technician positions to address invasive species in Maui;
- (2) Inserting a blank appropriation from Senate Bill 697, Regular Session of 2019, which relates to invasive species, for the Department of Land and Natural Resources to reduce and eradicate invasive species in Maui;
- (3) Updating the purpose section; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 685, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 685, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

# SCRep. 630 (Joint) Agriculture and Environment and Public Safety, Intergovernmental, and Military Affairs and Water and Land on S.B. No. 521

The purpose and intent of this measure is to enhance Hawaii's environment and economy by ensuring that in the future, the counties employ best practices to protect their beaches and shorelines from the unsanitary conditions and public nuisances caused by plastic marine debris.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Dolphin Quest, Hawai'i Reef and Ocean Coalition, Sierra Club of Hawai'i, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Surfrider Foundation, and ten individuals. Your Committees received comments on this measure from the Honolulu Emergency Services Department and one member of the Maui County Council.

Your Committees find that plastic marine debris is fouling Hawaii's iconic beaches and the ocean, harming recreation and the State's largest industry, tourism. Larger and smaller pieces of plastic marine debris have significant negative impacts on the environment and contribute to the potential death of marine animals and bird populations through ingestion.

Your Committees further find that the removal of plastic marine debris from beaches is critical to Hawaii's economy and environment. However, your Committees find that removal has been hampered by disagreement over which agencies have responsibility and jurisdiction and which practices are best practices for removing plastic marine debris. Therefore, your Committees find that establishing a working group to create a unified state and county approach to, and research best practices for, plastic marine debris removal is the most appropriate action at this time.

Your Committees have amended this measure by:

- (1) Removing the requirement that the counties shall determine best practices for plastic marine debris removal, remove plastic marine debris from their shores and beaches, and report to the Legislature each regular session;
- (2) Establishing the Plastic Marine Debris Working Group and designating the membership of the working group;
- (3) Directing the Chairperson of the Board of Land and Natural Resources to appoint a representative of the Board of Land and Natural Resources to act as the chair of the Plastic Marine Debris Working Group;
- (4) Directing each county to cooperate with and participate in the Plastic Marine Debris Working Group;
- (5) Directing Plastic Marine Debris Working Group to consult and coordinate with experts from the National Oceanic and Atmospheric Administration (NOAA) Marine Debris Program, other coastal states, and non-profit organizations regarding the most efficient and effective practices, equipment, and technologies;

- (6) Requiring the Plastic Marine Debris Working Group to report to the Legislature prior to the 2021 legislative session on its findings and include each county's plan for how to collect and transport plastic debris from its beaches and shorelines to solid waste management systems, among other requirements;
- (7) Inserting an appropriation amount of \$100,000 for each fiscal year to the Department of Land and Natural Resources to administer the working group and, if necessary, retain a facilitator to coordinate with others regarding best practices on removing plastic marine debris from beaches and shorelines; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment, Public Safety, Intergovernmental, and Military Affairs, and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 521, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 521, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Public Safety, Intergovernmental, and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Harimoto, Wakai).

Water and Land: Ayes, 5. Noes, none. Excused, none.

### SCRep. 631 (Joint) Agriculture and Environment and Water and Land on S.B. No. 964

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for the construction of:

- (1) An invertebrate and plant propagation facility and baseyard improvements on Oahu;
- (2) A predator proof fence on Oahu; and
- (3) A predator proof fence on Maui.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, The Nature Conservancy, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and three individuals.

Your Committees find that Hawaiian tree snails, *Kahuli*, are treasured for their importance to native Hawaiian culture, their beauty, and their ecological role in sustaining healthy forest ecosystems. On January 1, 2019, another irreplaceable native Hawaiian species was lost when the last known *Achatinella apexfulva*, named "Lonesome George", perished. However, there are effective tools, including invertebrate captive rearing facilities and predator-proof fencing, to protect these species that are part of Hawaii's natural and cultural legacy. Your Committees further find that there is a crucial need to relocate the existing invertebrate captive rearing facilities from Kawainui, where the facilities are extremely vulnerable to flooding, high wind events, and vandalism, to the Waimano baseyard on Oahu. This measure provides resources to assist in protecting Hawaii's valuable snails.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 964 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Ruderman, Fevella).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

# SCRep. 632 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism on S.B. No. 1463

The purpose and intent of this measure is to create a revenue-neutral measure with the existing fuel taxes and to:

- (1) Replace the environmental response, energy, and food security tax with a carbon emissions tax on the sale of all fuels with carbon content; and
- (2) Repeal the state fuel tax.

Your Committees received testimony in support of this measure from the University of Hawai'i, The Nature Conservancy Hawai'i, Blue Planet Foundation, and two individuals. Your Committees received testimony in opposition to this measure from three individuals. Your Committees received comments on this measure from the Department of Taxation; Department of Agriculture; Department of Health; Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources, Department of Transportation; We Are One, Inc.; Life of the Land; Tax Foundation of Hawaii; Elemental Excelerator; and Sierra Club of Hawai'i.

Your Committees find that transportation-generated greenhouse gas emissions are a significant contributor to climate change, and an effective way to reduce greenhouse gas emissions is to put a price on carbon.

Your Committees further find that the best means of carbon pricing for the State is a use-based tax on all carbon dioxide-emitting fuels, such as oil, gas, and coal. The Department of Taxation already implements various fuel-based taxes.

Your Committees also find that a state carbon emissions tax can be implemented by amending the environmental response, energy, and food security tax and repealing the state fuel tax, which changes would likely sustain current levels of state revenue and thereby make this measure revenue-neutral.

Your Committees have amended this measure by:

- (1) Directing the Department of Business, Economic Development, and Tourism, rather than the Department of Taxation, to annually submit proposed legislation suggesting amendments to carbon emissions tax rates based on the United States Energy Information Administration's determination of carbon dioxide emissions per energy source;
- (2) Making the measure effective on January 1, 2021, and making the repeal of the fuel tax credit for commercial fishers applicable to taxable years beginning after December 31, 2019, to provide the Department of Taxation with sufficient time to update forms and give notice and educate the public about the new carbon emissions tax and the repealed state fuel tax; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1463, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1463, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Energy, Economic Development, and Tourism: Ayes, 3; Ayes with Reservations (Taniguchi, Wakai). Noes, none. Excused, 2 (Inouye, Fevella).

## SCRep. 633 (Joint) Agriculture and Environment and Government Operations on S.B. No. 1543

The purpose and intent of this measure is to prohibit the expenditure of state funds by state agencies for the purchase of beverages in plastic bottles or rigid plastic containers, except under certain circumstances.

Your Committees received testimony in support of this measure from the O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i and four individuals. Your Committees received testimony in opposition to this measure from the Plastics Industry Association and three individuals. Your Committees received comments on this measure from the Department of Human Services and Department of Land and Natural Resources.

Your Committees find that plastic waste has an adverse and long-lasting impact on wildlife and on the environment as a whole. Plastic waste is especially damaging when it enters the ocean, where it poses a significant hazard to marine life. Your Committees additionally find that plastic beverage bottles and rigid containers constitute a significant portion of this plastic waste. However, your Committees also find that there are some uses of plastic beverage containers in which the benefits of the use outweigh the comparatively small amount of plastic waste that those uses generate.

Accordingly, your Committees have amended this measure by:

- (1) Including purchases made in relation to the licensed blind vendor program and purchases of water by the Department of Land and Natural Resources for wildland firefighters of the Division of Forestry and Wildlife, as exceptions to the prohibition on using state funds for the purchase of beverages in plastic bottles or rigid plastic containers; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1543, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1543, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 634 (Joint) Agriculture and Environment and Water and Land on S.B. No. 1113

The purpose and intent of this measure is to strengthen the policies of the State to reduce residential exposure to coastal hazards and to protect state beaches and update language for consistency with other statutes.

Your Committees received testimony in support of this measure from IMUAlliance, Hawai'i Reef and Ocean Coalition, Life of the Land, Environmental Caucus of the Democratic Party of Hawai'i, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, Sierra Club of Hawai'i, and three individuals. Your Committees received comments on this measure from the Office of Planning, Department of Land and Natural Resources, Building Industry Association of Hawaii, and one individual.

Your Committees find that the coastal zone management program was established as part of the coastal zone management law under Act 188, Session Laws of Hawaii 1977. Your Committees further find that increased development along shorelines, increased landward migration of shorelines due to sea-level rise, and beach loss fronting shoreline armoring necessitate updates to existing policies and regulations to address critical shortcomings in protecting beaches and other coastal environments.

Your Committees find that state coastal zone management policies must be strengthened to conserve beaches for present and future generations while also reducing hazard exposure to shorefront communities.

- (1) Defining the term "coastal hazard" as any tsunami, hurricane, wind, wave, storm surges, high tide, flooding, stream flooding, erosion, sea-level rise, subsidence, and point and nonpoint source pollution, and substituting that term where appropriate;
- (2) Updating objectives of the coastal zone management program relating to beach protection and policies of the coastal zone management program relating to recreational resources, economic uses, coastal hazards, and beach protection;

- (3) Amending the conditions that must be met in order for a county planning commission or county council to:
  - (A) Waive the public hearing requirement prior to action on a shoreline setback variance application for protection of a legal structure or public facility; and
  - (B) Grant a shoreline setback variance for certain private facilities or improvements;
- (4) Reinstating the authority of the county planning commission or county council to consider, when determining whether to grant a shoreline setback variance, hardship that will result to the applicant if the facilities or improvements are not allowed within the shoreline area; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1113, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1113, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Ruderman). Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 635 (Joint) Agriculture and Environment and Water and Land and Hawaiian Affairs on S.B. No. 1066

The purpose and intent of this measure is to:

- (1) Establish and appropriate funds for a three-year pilot program to determine if state incentives tied to agricultural land leases can increase local food production; and
- (2) Require the Departments of Agriculture, Land and Natural Resources, Hawaiian Home Lands, and Agribusiness Development Corporation to each report to the Legislature annually regarding the results of the pilot program.

Your Committees received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; We Are One, Inc.; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi; Hawaiʻi Center for Food Safety; Hawaii Farmers Union; Hoʻomanapono Political Action Committee; Hawaii Farm Bureau; Farm Maui LLC; Hawaii Cattlemen's Council; Our Revolution Hawaii; and sixteen individuals. Your Committees received comments on this measure from the Department of Hawaiian Home Lands and two individuals.

Your Committees find that Hawaii does not have an adequate-sized farming workforce for expansion of cultivated agricultural lands and food production. In order to meet the State's aspirations for increased food security and self-sufficiency, the number of local farms and farmers and the amount of food produced for local markets will need to increase significantly. This increase can be achieved through incentives tied to state agricultural land leases to encourage a growth in local food production in the State.

Your Committees have amended this measure by:

- (1) Requiring the Department of Agriculture to consult with the Department of Business, Economic Development, and Tourism in its reporting on the results of the state land lease incentives pilot program;
- (2) Inserting an appropriation amount of \$25,000 for fiscal years 2019-2020 and 2020-2021 to the Department Agriculture for administration of the pilot program;
- (3) Inserting language that appropriates \$25,000 to the Department of Hawaiian Home Lands and \$25,000 to the Agribusiness Development Corporation for fiscal years 2019-2020 and 2020-2021 for the implementation of this measure; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment, Water and Land, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1066, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1066, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella). Water and Land: Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella). Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 636 (Joint) Transportation and Judiciary on S.B. No. 1236

The purpose and intent of this measure is to:

- Clarify that the exemption for disabled persons from the payment of parking fees is an exception for drivers who are unable to reach or operate a parking meter or unattended pay station due to a physical disability, display a distinguishing parking device, code, or placard;
- (2) Make the act of selling or buying a disability parking permit a misdemeanor;
- (3) Authorizes law enforcement to confiscate a disability parking permit that has been altered or invalid; and
- (4) Clarify the types of disabilities that qualify for a disability parking permit.

Your Committees received testimony in support of this measure from the Disability and Communication Access Board, Honolulu Police Department, and three individuals. Your Committees received testimony in opposition to this measure from the Ho'omanapono Political Action Committee and one individual. Your Committees received comments on this measure from the Department of Accounting and General Services.

Your Committees find that the current exemption for disabled persons to park vehicles in metered parking spaces without paying parking meter fees for an initial period exceeds the original intent of section 291-55, Hawaii Revised Statutes. The original intent was to exempt disabled persons who are licensed to drive and unable to reach or feed a parking meter due to their disability. However, as currently written, the section exempts any vehicle displaying a valid disability parking permit from paying the parking fee.

Your Committees further find that this measure will narrow the exemption from payment of parking meter fees to align to the original intent of section 291-55, Hawaii Revised Statutes, by allowing only disabled person who are unable to reach or feed a parking meter because of their disability.

Your Committees have amended this measure by:

- (1) Changing reference of "distinguishing parking device, code, or placard" to "disabled paid parking exemption permit";
- (2) Inserting a definition for "commissioned volunteer enforcement officer";
- (3) Specifying that disabled paid parking exemption permit holders will be exempt from parking meter fees for the first two-and-a-half hours or the maximum amount of time the meter allows, whichever is longer; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1236, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1236, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Transportation: Ayes, 5. Noes, none. Excused, none.

Judiciary: Ayes, 5. Noes, none. Excused, none.

### SCRep. 637 Hawaiian Affairs on S.B. No. 1446

The purpose and intent of this measure is to require the Office of Hawaiian Affairs Board of Trustees to approve or disapprove the Administrator's appointment of, and have a direct supervisory role over, the chief financial officer, director of human resources, and attorney.

Your Committee received testimony in support of this measure from Ho'omanapono Political Action Committee, Ka Lāhui Hawai'i Political Action Committee, and one individual. Your Committee received testimony in opposition to this measure from the Office of Hawaiian Affairs Beneficiary Advocacy and Empowerment Committee.

Your Committee finds that every government agency must foster a culture of accountability at all levels of the organization in order to successfully achieve its mission and serve its constituents. This measure provides additional oversight options to the Office of Hawaiian Affairs Board of Trustees to create a robust system of checks and balances within the Office of Hawaiian Affairs.

Your Committee has amended this measure by:

- Adding language to allow the Board of Trustees to delegate direct oversight authority over the chief financial officer, director
  of human resources, and attorney, to mitigate any potential constitutional conflict; and
- (2) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1446, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1446, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Vice President on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Ihara).

# SCRep. 638 (Joint) Government Operations and Housing on S.B. No. 10

The purpose and intent of this measure is to establish the office of the affordable housing ombudsman to monitor and comment on the State's production of affordable housing units; the development and implementation of laws, regulations, and policies relating to affordable housing; and investigate and resolve complaints from tenants or homeowners in publicly-subsidized affordable or public housing.

Your Committees received testimony in support of this measure from O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaii and Hawaiian Community Assets. Your Committees received comments on this measure from the Office of the Ombudsman and Building Industry Association of Hawaii.

Your Committees find that there is a great need to increase the supply of affordable housing in Hawaii. Your Committees further find that under existing law, there is no office established to monitor and comment on the State's production of affordable housing. This measure will establish an office of the affordable housing ombudsman, to be headed by an affordable housing ombudsman, who will advocate for affordable housing within the State.

- Establishing an Office of the Affordable Housing Advocate, rather than the Office of the Affordable Housing Ombudsman, and
  making associated conforming amendments;
- (2) Placing the Office of the Affordable Housing Advocate within the Office of the Governor;
- (3) Clarifying the duties of the Affordable Housing Advocate, including working with all state agencies that manage land to solve the affordable housing shortage and monitoring, commenting, and reporting on the State's production of affordable housing units; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that the Affordable Housing Advocate established by this amended measure is intended to function more as an advocate for affordable housing in the State, rather than an independent impartial investigator. Your Committees also note for your Committee on Ways and Means that this position will need to be established and funded in the budget.

As affirmed by the records of votes of the members of your Committees on Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 10, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 10, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Baker, Fevella).

Housing: Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 639 Government Operations on S.B. No. 335

The purpose and intent of this measure is to ensure equal access to notice of public meetings.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Office of Information Practices, Disability and Communication Access Board, and Hawai'i Civil Rights Commission.

Your Committee finds that under existing law, state governments are required to provide qualified individuals with disabilities equal access to programs, services, and activities. Your Committee further finds that Hawaii's sunshine law, which allows individuals to request that an agency mail them notices of meetings, does not provide the same access and rights to individuals with disabilities. This measure makes certain changes to the existing law relating to posting of public notices, thereby ensuring equal access by all members of the community to open government meetings and forums.

Your Committee has amended this measure by:

- (1) Removing the requirement that a board post a notice that shows "confirmed receipt";
- (2) Removing references to "accessible format" and "accessible", due to ambiguity;
- (3) Reinstating statutory language that states that failure to post meeting notices shall not require cancellation of a meeting and permits a copy of the notice to be provided electronically; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 335, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 335, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Baker).

#### SCRep. 640 (Joint) Government Operations and Judiciary on S.B. No. 124

The purpose and intent of this measure is to:

- (1) Increase the settlement and payment authority of the Risk Management Office;
- (2) Require the Risk Management Office to publish and notify the legislature and attorney general of the adjusted maximum amounts; and
- (3) Require the Risk Management Office to prepare annually a report of all claims arbitrated, compromised, or settled based on the adjusted amount determined by the Comptroller.

Your Committees received comments on this measure from the Department of Accounting and General Services.

Your Committees find that any claims above the Risk Management Office's settlement and payment authority is handled by the Department of the Attorney General. This measure will reduce some of the cases assigned to the Attorney General by increasing the settlement authority of the Risk Management Office, thereby promoting settlement and more efficient use of state resources.

- (1) Increasing the Comptroller's settlement authority for automobile claims from \$15,000 to \$25,000;
- (2) Increasing the limit on the Comptroller's settlement authority for tort claims from \$10,000 to \$25,000;
- (3) Removing the requirement that the maximum amounts that may be paid from the state risk management revolving fund be linked to the United States Department of Labor Consumer Price Index for All Urban Consumers for Honolulu; and

(4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 124, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 124, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Baker, Fevella).

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Fevella).

#### SCRep. 641 Commerce, Consumer Protection, and Health on S.B. No. 1124

The purpose and intent of this measure is to:

- (1) Provide that any interested party may file a petition for a mental health order alleging that another person has a mental illness and qualifies for assistance;
- (2) Require the court to assess whether a person meets the criteria for assisted community treatment before discharging a person who has been involuntarily hospitalized;
- (3) Authorize the court to order a person to obtain assisted community treatment as an alternative to involuntary hospitalization; and
- (4) Clarify the criteria for assisted community treatment.

Your Committee received testimony in support of this measure from the Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, Partners in Care, Mental Health America of Hawaiʻi, The Institute for Human Services, Hawaii Island HIV/AIDS Foundation, and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of the Attorney General, Department of Health, Hawaii Disability Rights Center, and one individual.

Your Committee finds that the State's assisted community treatment law was enacted in 2013, to help individuals with serious mental illnesses obtain the treatment and medication they needed. However, your Committee further finds that assisted community treatment is only rarely used, with fewer than ten orders for court-mandated treatment plans being issued in the past five years. This measure is intended to encourage the use of assisted community treatment by allowing more flexibility on the part of the family courts and clarifying provisions of mental health treatment law.

Your Committee notes that the Department of the Attorney General has submitted testimony on this measure addressing several concerns, including that the court may need additional guidance regarding the placement of patients in assisted community treatment as opposed to involuntary commitment to a hospital, and that such consideration may merit further discussion as this measure proceeds in the legislative process. Your Committee further notes that the Department of the Attorney General has requested additional funding for expenses relating to the provisions of this measure, but your Committee believes that it is necessary to see whether this measure increases the Department's work load before providing additional funding.

Your Committee has amended this measure by:

- (1) Clarifying that a court may evaluate a petition for a mental health order and determine whether a person meets the criteria for either involuntary hospitalization or assisted community treatment, then issue an order based on that determination;
- (2) Clarifying that petitions for mental health orders are in addition to existing petitions for involuntary hospitalization and assisted community treatment;
- (3) Clarifying that a person may be considered "dangerous to self" if the person behaves in such a manner as to indicate that the person is unable to satisfy the need for treatment for a mental illness;
- (4) Specifying that the determination of whether or not a mental illness has caused a person to refuse needed mental health services, and which would result in the individual becoming imminently dangerous to self or others, must be determined by a psychiatrist or properly qualified advanced practice registered nurse; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1124, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1124, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

# SCRep. 642 Commerce, Consumer Protection, and Health on S.B. No. 1401

The purpose and intent of this measure is to:

- (1) Prohibit pharmacy benefit managers from engaging in self-serving business practices;
- (2) Replace the registration requirement for pharmacy benefit managers with a license requirement; and
- (3) Increase pharmacy benefit manager reporting requirements to the Insurance Commissioner.

Your Committee received testimony in support of this measure from KTA Super Stores; Pahoa Pharmacy; North Shore Pharmacy; Shiigi Drug Co., Inc.; Good Health Pharmacy; Times Supermarket Pharmacy; Hawaii Community Pharmacists; Medical Center

Northshore Pharmacy; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Hawaii Pharmacist Association; and seventeen individuals. Your Committee received comments on this measure from the Department of the Attorney General, Department of Commerce and Consumer Affairs, Office of Information Practices, and Pharmaceutical Care Management Association.

Your Committee finds that there is little to no oversight for pharmacy benefit managers and their business practices. The lack of transparency coupled with the lack of oversight has been a detriment to locally-owned, independent pharmacies. This measure establishes protections to ensure fair drug pricing for patients and health care providers.

Your Committee notes that it has requested the Department of Commerce and Consumer Affairs to produce information concerning other states that have provided oversight and licensure of pharmacy benefit managers to be further considered by your Committee on Ways and Means. Additionally, your Committee recommends that your Committee on Ways and Means consider a budget ceiling increase that may be required for the year this measure may ultimately become effective.

Your Committee has amended this measure by:

- Clarifying that information provided under the transparency report to the Insurance Commissioner, and identifiable to a
  pharmacy benefit manager, is not disclosable as a public record, but permitting the Commissioner to report nonidentifiable
  aggregated information of multiple pharmacy benefit managers;
- Increasing pharmacy benefit manager application and renewal fees and the penalty for failure to renew a license from \$140 to \$500;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1401, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1401, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Fevella).

# SCRep. 643 Commerce, Consumer Protection, and Health on S.B. No. 1521

The purpose and intent of this measure is to:

- (1) Establish requirements for pharmacy benefit managers and maximum allowable cost, including the ability of pharmacies to receive comprehensive maximum allowable cost limits;
- (2) Bring complaints regarding maximum allowable cost within the purview of the Department of Commerce and Consumer Affairs, rather than the Department of Health:
- (3) Require pharmacy benefit managers to disclose where an equivalent drug can be obtained at or below the maximum allowable cost, when a maximum allowable cost is upheld on appeal, and allow contracting pharmacies to reverse and rebill claims in certain circumstances; and
- (4) Clarify the available penalties for violations of maximum allowable cost requirements.

Your Committee received testimony in support of this measure from The Queen's Health Systems; Medical Center Northshore Pharmacy; Times Supermarket Pharmacy; North Shore Pharmacy; Pahoa Pharmacy; Shiigi Drug Co., Inc.; Good Health Pharmacy; KTA Super Stores; Hawaii Community Pharmacists; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiiʻi; Hawaii Pharmacist Association; and twenty individuals. Your Committee received comments on this measure from the Department of the Attorney General, Department of Commerce and Consumer Affairs, Office of Information Practices, Hawaii Medical Service Association, CVS Health, and Pharmaceutical Care Management Association.

Your Committee finds that pharmacy benefit managers (PBMs) are third party administrators that contract with health plans, employers, unions, and government entities to manager prescription drug programs on behalf of health plan beneficiaries. Because PBMs control formularies for prices through instruments such as maximum allowable cost lists, they have the ability to create arbitrary pricing uncertainty for pharmacies. In addition to price uncertainty, pharmacies go through undue burdens when accessing maximum allowable cost prices for any given drug and currently do not receive data in standard and comprehensive list formats, meaning pharmacies must obtain maximum allowable cost prices on an individual prescription basis. With no guideline or standard approach when it comes to the disclosure of the maximum allowable cost list, each PBM is able to develop its own burdensome process, which puts many pharmacies at a disadvantage.

This measure is intended to increase oversight and transparency of PBMs' business practices in establishing maximum allowable costs for prescription drugs by requiring PBMs to disclose where an equivalent drug may be obtained, at or below the cost used to establish the maximum allowable cost

However, your Committee has heard the concern raised by the Department of the Attorney General that certain provisions of this measure, as written, may be subject to an Employee Retirement Income Security Act preemption challenge. Your Committee notes a severability clause should therefore be added to address this concern.

Your Committee has amended this measure by:

(1) Clarifying that pharmacy benefit managers must disclose where an equivalent drug may be obtained at or below the maximum allowable cost, when a maximum allowable cost is upheld on appeal, and allowing contracting pharmacies to reverse and rebill all claims for an appealed drug if the pharmacy benefit manager establishes a maximum allowable cost that is denied on appeal and pay the maximum allowable cost approved after resolution of the appeal by the contracting pharmacies;

- (2) Clarifying the format and information to be included in the comprehensive report for all drugs on a maximum allowable cost list:
- (3) Clarifying that if the maximum allowable cost is upheld on appeal, the pharmacy benefit manager shall provide the national drug code of an equivalent drug from a source where it may be purchased from a licensed wholesaler by a retail pharmacy at a price that is equal to or less than the maximum allowable cost of the drug that is the subject of the appeal;
- (4) Clarifying the process for the contracting pharmacy to reverse and rebill claims for the appealed drug;
- (5) Clarifying that the maximum allowable cost list and related information disclosed to the Insurance Commissioner or an elected representative shall be considered proprietary and confidential and not subject to disclosure as a public record;
- (6) Clarifying that the Commissioner may, rather than shall, adopt administrative rules and removing language requiring the Department of Commerce and Consumer Affairs to resolve all disputed claims;
- (7) Inserting a severability clause;
- (8) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1521, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1521, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, 2 (Ruderman, Fevella).

#### SCRep. 644 Labor, Culture and the Arts on S.B. No. 699

The purpose and intent of this measure is to:

- (1) Beginning with the 2021-2023 fiscal biennium, require the Governor to include in the executive budget request a minimum amount per fiscal year to be allocated to the State of Hawaii Museum of Natural and Cultural History; and
- (2) Appropriate funds to support the work of the State of Hawaii Museum of Natural and Cultural History.

Your Committee received testimony in support of this measure from the Historic Hawai'i Foundation; Bishop Museum; Kamehameha Schools; Charles Reed Bishop Trust; Native Hawaiian Hospitality Association; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; Society of Hawaiian Archaeology; International Archaeological Research Institute, Inc.; and four individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources, Department of Budget and Finance, and Department of the Attorney General.

Your Committee finds that the Bernice Pauahi Bishop Museum, designated as the State of Hawaii Museum of Natural and Cultural History, is significant for its cultural, architectural, educational, scientific, and historical contributions to Hawaii. It is listed on the National Register of Historic Places and is one of Hawaii's most significant and iconic buildings. Your Committee further finds that Bernice Pauahi Bishop Museum researchers have discovered over seventeen thousand species of plants, animals, and insects throughout the Pacific region and have made countless discoveries related to the migration, settlement, and daily life of Pacific people. Not only does the Bernice Pauahi Bishop Museum conduct research, but it also provides vital education to the public, including thousands of Hawaii's schoolchildren.

Your Committee also finds that the annual appropriation to the Bernice Pauahi Bishop Museum has decreased significantly over the preceding decade. This measure will appropriate funds to the State of Hawaii Museum of Natural and Cultural History, which will enable the Bernice Pauahi Bishop Museum to continue its work.

Your Committee notes the testimony of the Department of the Attorney General that "one Legislature cannot obligate a future Legislature to make an appropriation," and that therefore this measure does not provide mandatory funding. Your Committee finds that this measure does not purport to provide a mandatory level of funding but merely requires that the Governor's executive budget request to the Legislature for funding for each fiscal biennium include a minimum amount for the State of Hawaii Museum of Natural and Cultural History. Your Committee acknowledges that it cannot predict what future Legislatures will do, but by requiring the Governor to include a request for funding, it highlights the importance of the museum in the State and gives future Legislatures the option of providing the recurring funding the museum needs.

- (1) Clarifying that the Governor's inclusion of a minimum amount in the executive budget request continues for each fiscal biennium as a recurring cost after the 2021-2023 fiscal biennium;
- (2) Inserting the amount of \$2,000,000 as the minimum amount that shall be included in the Governor's executive budget request; and
- (3) Decreasing the appropriation to support the work of the Bernice Pauahi Bishop Museum, including but not limited to collections care and student learning programs, for fiscal years 2019-2020 and 2020-2021 from \$3,700,000 to \$2,000,000.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 699, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 699, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

#### SCRep. 645 Labor, Culture and the Arts on S.B. No. 1394

The purpose and intent of this measure is to:

- (1) Establish a historic preservation income tax credit; and
- (2) Appropriate funds for one temporary position to assist with the establishment and administration of the Hawaii historic preservation income tax credit program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Historic Hawai'i Foundation, Minatoishi Architects, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that tax incentives for rehabilitation of historic structures have been proven to be enormously effective in preserving important buildings; ensuring their continued economic viability; revitalizing communities, especially historic downtowns; preserving community character; and promoting heritage tourism. Tax credits for rehabilitation of historic structures also provides an incentive to promote rehabilitation of income producing historic properties and provide affordable housing. Many states already provide tax credits for the rehabilitation of historic structures. National studies have found that historic rehabilitation tax credits spurred economic development and increased direct revenues that offset the tax credit expense. This measure will establish a historic rehabilitation tax credit, which will benefit affordable housing, tourism, neighborhood revitalization, and the economy as a whole.

Your Committee notes that due to the complexity of the proposed historic preservation income tax credit and the amendments proposed by several testifiers at the hearing, your Committee will continue to work with the interested parties and your Committee on Ways and Means in order to craft substantive amendments to better effectuate the intent of this measure.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor, Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1394, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1394, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

## SCRep. 646 (Joint) Transportation and Judiciary on S.B. No. 1297

The purpose and intent of this measure is to:

- (1) Require an application for motor vehicle registration to include the applicant's name, occupation, address of residence, social security number, date of birth, driver's license number, phone number, electronic mail address, and emergency contacts;
- (2) Authorize the counties to assess a fine to the legal or registered owner of a vehicle deemed abandoned; and
- (3) Require the legal or registered owner to have up-to-date motor vehicle registration and motor vehicle insurance prior to repossession of the abandoned vehicle.

Your Committees received testimony in support of this measure from the Honolulu Police Department and one individual. Your Committees received comments on this measure from Enterprise Holdings.

Your Committees find that abandoned vehicles on public roads are a widespread environmental hazard that creates unsafe and unhealthy conditions for Hawaii's residents and adversely impacts the availability of legal parking in many areas of the State. Your Committees believe that in order to address the rampant issue of individuals abandoning their cars in Hawaii, the State will require more information on the legal or registered owner of vehicles, thereby holding owners more accountable if they abandon their vehicles.

Your Committees recognize the concern regarding the amount of personal information that is being required by this measure and believe that while more information is necessary in order to keep vehicle owners accountable, many residents are uncomfortable with providing highly sensitive information.

Accordingly, your Committees have amended this measure by:

- (1) Removing the requirement of providing an individual's social security number, date of birth, and electronic mail address from the list of personal information needed for registration; and
- (2) Clarifying that the legal or registered owner shall not be fined if the abandoned vehicle has been stolen or taken from the legal or registered owner without permission or authorization, as suggested by Enterprise Holdings.

As affirmed by the records of votes of the members of your Committees on Transportation and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1297, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1297, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Judiciary: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

# SCRep. 647 (Joint/Majority) Transportation and Judiciary on S.B. No. 663

The purpose and intent of this measure is to:

- (1) Establish a Red Light Running Committee to review the photo red light imaging detector systems program;
- (2) Establish the photo red light imaging detector systems program and related procedures;
- (3) Authorize the counties to administer the photo red light imaging detector systems program and require proceeds of fines to be expended in the county from which the fines were collected; and
- (4) Appropriate funds to implement the program.

Your Committees received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, Office of the Prosecuting Attorney of the County of Hawaii, Mothers Against Drunk Driving Hawaii, Hawaii Strategic Highway Safety Plan, Bikeshare Hawaii, Blue Zones Project Hawaii, Hawaii Bicycling League, and eleven individuals. Your Committees received testimony in opposition to this measure from the Office of the Public Defender and one individual. Your Committees received comments on this measure from the Department of Budget and Finance and AAA Hawaii.

Your Committees find that drivers who run a red light endanger the lives of pedestrians, motorists, and the drivers themselves. The prevalence of drivers violating traffic laws in Hawaii has become rampant, especially those who run red lights. Your Committees further find that photo red light imaging detector systems have proven to be efficient and effective in identifying and deterring red light runners in other jurisdictions in Canada, Europe, the United States, and other countries throughout the world. Your Committees believe that a photo red light imaging detector system will improve the safety of all and deter drivers from creating hazardous situations by violating traffic laws.

Your Committees have amended this measure by:

- Requiring that any photographs, microphotographs, videotape, or other recorded images taken and stored by a photo red light
  imaging detector system shall be used only for evidentiary purposes and shall be disposed of or destroyed upon completion of
  final proceedings;
- (2) Reinstating the current monetary penalties for violating the traffic code;
- (3) Removing the appropriation to establish the photo red light imaging detector systems program; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 663, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 663, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation: Ayes, 3. Noes, 2 (English, Fevella). Excused, none.

Judiciary: Ayes, 4; Ayes with Reservations (Kim). Noes, 1 (Fevella). Excused, none.

# SCRep. 648 Housing on S.B. No. 771

The purpose and intent of this measure is to establish an income tax credit for taxpayers who lease housing to certain low-income tenants.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i, and one individual. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the affordable housing crisis in Hawaii extends to the lack of affordable rentals, particularly in high visitor traffic areas. This lack of affordable rentals hurts the quality of service, diminishes Hawaii's appeal in the visitor industry, and stresses the State's infrastructure, due to increased traffic. Your Committee further finds that the lack of affordable rental homes in these areas is also due to the high costs of property ownership, which encourages many landlords to enter into interval or short-term rentals rather than workforce-eligible rentals. This measure provides an economic incentive to make available more immediate affordable housing rentals for workforce-eligible people who are in the most need.

Your Committee notes that the approximately two hundred section 8 recipients are currently searching for housing to rent. Your Committee further notes that this measure may require further discussion about the best mechanism to cap the affordable rental housing income tax credit, whether per eligible unit or per taxpayer. Your Committee also recognizes the concerns regarding the verification process of income and concerns expressed by the Department of Taxation regarding tenants and landlords who are related.

Your Committee has amended this measure by:

- (1) Inserting a blank amount for the maximum amount of tax credits that may be claimed by a taxpayer per taxable year;
- (2) Clarifying the definition of "eligible tenant" to mean a family or an individual whose income is less than thirty percent of the area median income; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 771, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 771, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 5. Noes, none. Excused, none.

# SCRep. 649 (Joint) Energy, Economic Development, and Tourism and Housing on S.B. No. 1289

The purpose and intent of this measure is to prohibit the issuance of building permits for new single-family dwellings beginning on January 1, 2022, that do not include a rooftop solar energy generation system, unless the Energy Resources Coordinator has approved a variance.

Your Committees received testimony in support of this measure from 350 Hawaii; We Are One, Inc.; Our Revolution Hawaii; Organizing for Action; Green Power Projects LLC; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi; the Alliance for Solar Choice; Ulupono Initiative; Blue Planet Foundation; Hawaii Solar Energy Association; Energy Toolbase; and thirty-nine individuals. Your Committees received testimony in opposition to this measure from the Building Industry Association of Hawaii and Hawaiʻi Association of REALTORS. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Hawaiian Electric Companies; and two individuals.

Your Committees find that rooftop solar photovoltaics are an important part of Hawaii's one hundred percent renewable energy target. Adding a rooftop solar energy generation system requirement for new, single-family homes will help Hawaii achieve its renewable energy goals. Your Committees also find that adding a solar energy generation system during the construction phase significantly reduces the system installation cost for homeowners, compared to adding solar photovoltaics post-construction. Additionally, solar installation during construction allows home buyers to finance systems at traditional, low mortgage rates. This measure effectively requires new single-family homes to install rooftop solar energy generation systems, thereby helping Hawaii reduce its dependence on nonrenewable energy sources.

Your Committees have amended this measure by:

- (1) Amending one of the conditions for which a variance application may be accepted; more specifically, the amendment increases the maximum life cycle of a new rooftop solar energy generation system, the cost of which must be incorporated into a life cycle cost-benefit analysis that is determined to make installation of the system cost-prohibitive; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1289, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1289, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5; Ayes with Reservations (Inouye, Keohokalole). Noes, none. Excused, none.

Housing: Ayes, 5. Noes, none. Excused, none.

#### SCRep. 650 (Joint) Energy, Economic Development, and Tourism and Government Operations on S.B. No. 664

The purpose and intent of this measure is to:

- (1) Allow state and county agencies to enter into performance contracts to undertake or implement energy conservation or alternate energy measures for vehicles;
- (2) Amend the definition of "energy performance contract" to include vehicles; and
- (3) Define "vehicle".

Your Committees received testimony in support of this measure from the Department of Transportation; Department of Research and Development, Hawaii County; Ulupono Initiative; and three individuals. Your Committees received comments on this measure from the Department of Budget and Finance and League of Women Voters of Hawaii.

Your Committees find that electric and fuel-efficient vehicles require an upfront investment but will prove to be long-term cost savings. This measure allows state and county agencies to enter into energy-performance contracts for electric vehicles, which will allow for the increased use of more efficient, cleaner forms of ground transportation in state and county fleets, ultimately reducing Hawaii's dependence on imported fossil fuels.

Your Committees have amended this measure by:

- (1) Adding a "vehicle fleet" definition;
- (2) Authorizing state and county agencies to enter into performance contracts to undertake or implement energy conservation or alternative energy measures for vehicle fleets, in addition to a single vehicle, and making conforming amendments; and
- (3) Amending the definition of "energy performance contract" to:
  - (A) List vehicle fueling or charging infrastructure as types of energy services and equipment that may be provided under an energy performance contract; and
  - (B) Include avoided operations and avoided fuel as additional types of savings realized by an agency for which a portion of payments may be made to a private sector person under an energy performance contract.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 664, as

amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 664, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Fevella).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Baker, Fevella).

#### SCRep. 651 (Majority) Energy, Economic Development, and Tourism on S.B. No. 380

The purpose and intent of this measure is to impose the transient accommodations tax on resort fees and requires that those fees be included in gross rental or gross rental proceeds.

Your Committee received testimony in opposition to this measure from the Hawai'i Lodging and Tourism Association; Prince Resorts Hawaii; Kohala Coast Resort Association; OLS Hotels and Resorts; Waikoloa Beach Marriott Resort and Spa; Sheraton Kauai Resort; Aqua-Aston Hospitality; Castle Resorts & Hotels; Hampton Inn & Suites Oahu/Kapolei; Maui Hotel & Lodging Association; Hilton Grand Vacations; Outrigger Hospitality Group; Marriott's Maui Ocean Club; Hyatt Resorts Hawaii; Pualeilani Atrium Shops at Hyatt Regency Waikiki Beach Resort & Spa; Hyatt Regency Waikiki Beach Resort & Spa; Moana Surfrider, A Westin Resort & Spa; Outrigger Enterprises Group; Trump International Hotel Waikiki; Marriott Vacations Worldwide; Waikiki Resort Hotel; and Kyo-ya Management Co., Ltd. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii

Your Committee finds that in recent years, the transient accommodations industry has expanded rapidly, especially in tourist destinations such as Hawaii. Although technological advancements have improved the lifestyle for many consumers, they have also introduced issues with tax compliance. Your Committee believes that further refinement and specificity are needed to address the growth of the transient accommodations industry while protecting the interests of state residents.

Your Committee has amended this measure by:

- (1) Amending the definition of "resort fees" to mean only mandatory charges or surcharges; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 380, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 380, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Inouye). Noes, 1 (Fevella). Excused, none.

# SCRep. 652 (Joint) Energy, Economic Development, and Tourism and Water and Land and Government Operations on S.B. No. 908

The purpose and intent of this measure is to establish a statewide sustainability division within the Office of Planning to ensure long-term planning, coordination, and implementation of Hawaii's sustainability goals and policies.

Your Committees received testimony in support of this measure from the Office of Planning, Land Use Commission, Ulupono Initiative, Hawaii Farm Bureau, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, and one individual.

Your Committees find that under existing law, the Office of Planning is mandated to work with various state agencies to guide the development of the State through comprehensive, long-range, strategic planning efforts, such as coordinating and implementing statewide sustainability goals and policies. As the Office of Planning is tasked with evaluating, analyzing, and developing responses for issues that cross over agency lines, it is uniquely positioned to ascertain primary responses and actions and coordinate divergent groups and resources to effectuate goals and initiatives. Most importantly, as the Office of Planning is tasked with statewide planning, it has the capability to view problems and response needs at a comprehensive level. This measure establishes the sustainability division within the Office of Planning so that Hawaii's sustainability goals and policies can be achieved.

Your Committees have concerns about the number of bills being passed relating to climate change and sustainability that are mandating several agencies to take action, without any accompanying appropriation or staff, and that your Committees need to consider the entire picture as the discussion moves forward this session.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism, Water and Land, and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 908, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 908, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

Water and Land: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Baker).

# SCRep. 653 (Joint) Energy, Economic Development, and Tourism and Higher Education and Water and Land on S.B. No. 364

The purpose and intent of this measure is to:

- (1) Beginning July 1, 2022, require persons who use the Na Ala Hele trail system for commercial purposes and applicants for new or renewal commercial use permits in state parks, small boat harbors, and ocean recreation management areas; instructor/operator permits; and common carrier certificates and contract carrier permits covering the transportation of passengers to hold and annually maintain a sustainable tourism certificate from the Hawaii Ecotourism Association, achieve and maintain green business recognition by the Hawaii green business program, and ensure that at least one-third of staff members employed by the applicant who have direct contact with visitors are certified as professional tour guides by the University of Hawaii;
- (2) Require the University of Hawaii to update the certification for professional tour guides curriculum and examination, subject to approval by the Aha Moku Advisory Committee, by June 30, 2020, and every ten years thereafter; and
- (3) Require recertification and renewal of certification for professional tour guides every two years.

Your Committee received testimony in support of this measure from the Aha Moku Advisory Committee, Hawai'i Tourism Authority, and one individual. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources; Public Utilities Commission; University of Hawai'i System; and Hawaii Transportation Association.

Your Committees find that this measure is intended to promote tourism while protecting Hawaii's natural resources, perpetuating Hawaii's history, and preserving a high quality of life for Hawaii's residents. Your Committees have heard concerns raised in testimony about the unintentional impact on tourism that the proposed requirements for permits for commercial purposes in the state park system and in the Na Ala Hele trail system may have. Your Committees understand these concerns and note that establishing a task force to examine all factors surrounding professional tour guide certification is necessary before any statutory and regulatory changes are implemented.

Accordingly, your Committees have amended this measure by deleting its contents and inserting contents that:

- (1) Establish a professional tour guide certification task force within the Office of the Lieutenant Governor;
- (2) Require the task force to examine various issues related to professional tour guide certification;
- (3) Require the task force to submit a preliminary report and final report to the Legislature;
- (4) Appropriate funds for the task force's work; and
- (5) Make the measure effective on July 1, 2019.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism, Higher Education, and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 364, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 364, S.D. 1, and be referred to your Committee on Commerce, Consumer Protection, and Health.

Signed by the Chairs and Vice President on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kidani).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Nishihara).

# SCRep. 654 (Joint) Energy, Economic Development, and Tourism and Education on S.B. No. 365

The purpose and intent of this measure is to:

- (1) Require the Department of Business, Economic Development, and Tourism to develop annual regional economic plans for each county to identify regional economic priorities and industry clusters and jobs within those priorities and clusters;
- (2) Require the Workforce Development Council to develop, based on the findings of the regional economic plans, K-16 pathways and programs in each public school, including each public charter school, that prepare students to fill the priority jobs identified in the regional economic plans; and
- (3) Require participating schools to communicate opportunities to enroll in K-16 pathways and qualified internship programs to prepare students for jobs identified by regional economic plans as priorities in each geographical area.

Your Committees received testimony in support of this measure from the Workforce Development Council, State Public Charter School Commission, Chamber of Commerce Hawaii, HawaiiKidsCAN, W.A.V.E. Hawaii'i Kids Can, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii'i, and eight individuals. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; State Procurement Office; Department of Education, Executive Office on Early Learning; and University of Hawaii'i System.

Your Committees find that technological advancements in automation and artificial intelligence will reshape the State and global economy and future generations must possess adaptability and skills to be successful in this new future economy. Your Committees also find that the State must develop a strategic, forward-looking approach toward work-based learning. This measure requires the Department of Business, Economic Development, and Tourism to develop annual regional economic plans for each county that will be used by the Workforce Development Council, Department of Education, and the University of Hawaii to provide K-16 pathways and internship programs in each public school, including each public charter school, thereby encouraging and fostering the education and future professional success of Hawaii's children in an ever-changing technology-influenced economy.

Your Committees have amended this measure by:

- (1) Exempting internship placements made within a qualified internship program, rather than all aspects of a qualified internship program, from the Hawaii procurement code; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 365, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 365, S.D. 1, and be referred to your Committees on Public Safety, Intergovernmental, and Military Affairs and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Education: Ayes, 5. Noes, none. Excused, none.

## SCRep. 655 (Joint) Energy, Economic Development, and Tourism and Government Operations on S.B. No. 997

The purpose and intent of this measure is to expand the powers and duties of the Stadium Authority to develop the stadium property and establish a stadium complex area development plan.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services and Stadium Authority Board.

Your Committees find that the age of the existing Aloha Stadium makes it expensive and labor-intensive to maintain. Your Committees further find that preliminary plans have been proposed to demolish the existing stadium and construct a new stadium facility in its place, which will include mixed use development of the entire Aloha Stadium site. This measure provides flexibility to the Stadium Authority to enable it to undertake redevelopment of the stadium area more efficiently.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 997 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Baker).

## SCRep. 656 (Joint) Energy, Economic Development, and Tourism and Water and Land on S.B. No. 1380

The purpose and intent of this measure is to:

- (1) Require the Hawaii 2050 Sustainability Plan to serve as the State's climate and sustainability action plan;
- (2) Require and appropriate funds for the Office of Planning to update and submit the Hawaii 2050 Sustainability Plan to the Legislature prior to the Regular Session of 2021; and
- (3) Transfer the responsibility of updating the Hawaii 2050 Sustainability Plan every ten years from the Office of the Auditor to the Office of Planning.

Your Committees received testimony in support of this measure from the Office of Planning, Hawaii Farm Bureau, Ulupono Initiative, Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaiʻi, Maui Chamber of Commerce, Design Thinking Hawaii, and two individuals.

Your Committees find that climate change poses an immediate and long-term threat to Hawaii's economy, sustainability, security, and quality of life. The Hawaii 2050 Sustainability Task Force was established in 2005, convening a diverse group of leaders throughout the State and incorporating community input that resulted in the Hawaii 2050 Sustainability Plan and enacted in 2008, which sought to coordinate the actions needed to sustain a growing and vibrant economy while maintaining a high quality of life for all residents and visitors.

Your Committees further finds that much has changed since 2008 and an updated Hawaii 2050 sustainability plan is needed. This measure requires the Office of Planning to conduct a ten-year update of the Hawaii 2050 sustainability plan, thereby allowing the State to further the Hawaii Climate Change Mitigation and Adaptation Initiative and maintain the quality of life in Hawaii despite the adverse effects of climate change.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1380 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Inouye, Fevella).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

#### SCRep. 657 Water and Land on S.B. No. 931

The purpose and intent of this measure is to prohibit all commercial capture of aquatic life for aquarium purposes, regardless of the method of collection, and allow the following practices to continue:

(1) Issuance of special activity permits pursuant to section 187A-6, Hawaii Revised Statutes;

- (2) Issuance of recreational permits for non-commercial capture of aquatic life for aquarium purposes, in accordance with existing laws and rulings regarding compliance with environmental assessments;
- (3) Captive-breeding and aquaculture efforts, as regulated by section 187A-3.5, Hawaii Revised Statutes; and
- (4) The exercise of traditional and customary practices, the lawful taking of fish for consumption or bait, and the lawful management or taking of aquatic life from fishponds.

Your Committee received testimony in support of this measure from Friends of Hanauma Bay, Moana Ohana, The Humane Society of the United States, West Hawaii Humane Society, Hawaii Reef and Ocean Coalition, Young Progressives Demanding Action, Free Access Coalition, Live Freyly Sanctuary, For the Fishes, Animal Rights Hawaii, Ho'omanapono Political Action Committee, Maui Land & Water Planning LLC., Kihei Community Association, O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawaiii, Center for Biological Diversity, Sierra Club Moku Loa Group, Surfrider Foundation, Keiko Conservation, and over two hundred fifty individuals. Your Committee received testimony in opposition to this measure from the Hunting, Farming, and Fishing Association; Marine Conservation Science Institute; Tropical Fish Emporium LLC; Association of Zoos and Aquariums; Hawaii Fishermen's Alliance for Conservation and Tradition, Inc.; Hawaii Tropical Fish Association; Hawaiian Reefdwellers; The Shark Reef; Pet Industry Joint Advisory Council; and over fifty-six individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that it is important for the State to have an unbiased environmental impact statement and comprehensive cultural assessment on the impacts of aquarium fishing on the natural resources and culture of Hawaii before lawmakers can make any long-term decisions regarding the aquarium fishing industry. Your Committee finds that to allow the commercial trade to continue in a manner that adversely impacts marine resources would be contrary to effective marine resource management and traditional Hawaiian practices.

Your Committee has amended this measure by:

- (1) Limiting the prohibition on harvesting aquatic life for commercial aquarium purposes to only harvesting that is done by using a fine-mesh net or fine-mesh trap in any state marine waters, with certain exceptions, and extending this prohibition to persons operating under a commercial marine license;
- (2) Inserting language to prohibit any person from possessing a fine-mesh net or fine-mesh trap on their person or within a vessel within state marine waters or on or about the shore where fish can be taken, and impose a \$5,000 fine for a violation;
- (3) Defining "fine-mesh" as the rhombic (diamond-shaped) opening enclosed by four bars of twines or equal length at the four corners where the opening is less than three centimeters measured between corners when the mesh is stretched;
- (4) Inserting language to require the Research Corporation of the University of Hawaii (RCUH) to prepare an environmental impact statement to evaluate the impacts of the Department of Land and Natural Resources' issuance of commercial aquarium permits on Oahu and West Hawaii;
- (5) Inserting language to require the RCUH to complete a comprehensive cultural impact assessment in coordination with the Office of Hawaiian Affairs and Native Hawaiian organizations, including but not limited to the Aha Moku Advisory Committee and Hunting, Farming, and Fishing Association;
- (6) Requiring the RCUH to submit a progress report to the Legislature no later than twenty days prior to the Regular Session of 2020.
- (7) Requiring the Governor to be the accepting authority and to accept the environmental impact statement no later than twenty days prior to the Regular Session of 2021; and
- (8) Inserting language to require the Department of Land and Natural Resources to establish a marine aquarium fishing advisory group to guide the RCUH and Office of Hawaiian Affairs toward completion of the environmental impact statement and cultural impact assessment;
- (9) Amending section 1 to reflect its amended purpose;
- (10) Inserting an appropriation of \$500,000;
- (11) Changing the effective date to July 1, 2019;
- (12) Inserting a repeal date of June 30, 2021; and
- (13) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 931, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 931, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee. Ayes, 3. Noes, none. Excused, 2 (Nishihara, Fevella).

## SCRep. 658 (Joint) Water and Land and Government Operations on S.B. No. 1138

The purpose and intent of this measure is to transfer jurisdiction and management of the parking lot surrounding Iolani Palace from the Department of Accounting and General Services to the Department of Land and Natural Resources.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources. Your Committees received comments on this measure from the Department of Accounting and General Services and one individual.

Your Committees find that Iolani Palace is a state monument administered by the Division of State Parks of the Department of Land and Natural Resources, who regulates and manages the various special use activities and events of the adjacent four quadrants that comprise the grounds surrounding the buildings. The Friends of Iolani Palace manage and operate Iolani Palace, Iolani Palace Barracks, and the Coronation Pavilion under a lease executed by the Department of Land and Natural Resources. The Department of Accounting and General Services performs all of the grounds and tree maintenance functions and manages the parking areas surrounding the Palace. Your Committees further find that there have been ongoing discussions between the agencies to remove the current parking infrastructure and resurface the asphalt into a condition that is more aesthetically and historically appropriate for the ambiance of the grounds to add sanctity to the Iolani Palace experience.

Your Committees have amended this measure by clarifying that the Department of Land and Natural Resources shall assume jurisdiction and management over lands on which the parking lot surrounding Iolani Palace is situated.

Your Committees request that the Department of Land and Natural Resources and Department of Accounting and General Services continue operating under the existing memorandum of understanding until the Department of Land and Natural Resources completes the rulemaking process regarding rules for long-term parking options on or adjacent to the Iolani Palace grounds, with a deadline goal of December 31, 2020.

As affirmed by the records of votes of the members of your Committees on Water and Land and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1138, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1138, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees. Water and Land: Ayes, 4. Noes, none. Excused, 1 (Riviere). Government Operations: Ayes, 4. Noes, none. Excused, 1 (Baker).

## SCRep. 659 Commerce, Consumer Protection, and Health on S.B. No. 1033

The purpose and intent of this measure is to:

- (1) Establish licensure of midwives, including scope of practice, professional code of conduct, continuing education requirements, and prescriptive drug authority;
- (2) Appropriate funds from the compliance resolution fund; and
- (3) Exempt traditional birth attendants and Native Hawaiian healers from licensure requirements.

Your Committee received testimony in support of this measure from the Hawai'i State Commission on the Status of Women; Hawai'i Pacific Health; Hawaii Women's Coalition; AAUW of Hawaii; Hawaii Section of the American College of Obstetricians and Gynecologists; Hawai'i Children's Action Network; Midwives Alliance of Hawaii; Breastfeeding Hawaii; Hawai'i Affiliate of the American College Nurse-Midwives; Hawaii Maternal and Infant Health Collaborative; Committee on Midwife Advocates for the Certified Midwife of the American College of Nurse-Midwives; Early Childhood Action Strategy; American Academy of Pediatrics, Hawaii Chapter; and over forty individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Midwifery Council; Hawai'i Homebirth Collective; Hawaii Home Birth Committee; Sacred Healing Arts; Aoki Birthing Care, LLC; Informed Choice Birth Services; Little Hands of Hawaii; and over one hundred individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Health, Kapi'olani Medical Center for Women and Children, Healthy Mothers Healthy Babies, Young Progressives Demanding Action, Kaiser Permanente Hawai'i, and one individual.

Your Committee finds that there is growing public concern over non-credentialed and uncertified individuals calling themselves "midwives" who have been allowed to market themselves and provide midwifery services as a business. The State Auditor conducted a sunrise analysis for the licensure of midwives in 2017, which concluded that regulation of this field is needed to provide for standardized qualification requirements as well as regulatory oversight. Even low-risk pregnancies can quickly, within a few minutes or even seconds, become high-risk pregnancies. Hawaii is one of seventeen states that does not license or regulate midwives, leaving women in Hawaii with no way of telling who is certified to do a community birth and who is not.

This measure protects the health and safety of women and unborn infants and is not a prohibition on a woman's ability to choose the birth attendant of her choice; it is about licensure of a profession. Licensure will provide consumers with increased access to midwifery care from providers who are skilled professional midwives. Through licensure, midwives will be able to work to their fullest scope and within a collaborative health care system. It is vital that all women have access to safe, qualified, highly skilled providers in all aspects of the birthing process.

- (1) Establishing a single licensure scheme for the licensure of midwives and removing language that would have established a dual licensure pathway;
- (2) Updating definitions;
- (3) Clarifying that the powers and duties of the Director of Commerce and Consumer Affairs (Director) include the authority to grant title protection to certified professional midwives;
- (4) Clarifying the composition of the advisory committee that may be appointed by the Director to assist with the implementation of the licensed midwife program;
- (5) Clarifying certain time frames regarding licensure, including:
  - (A) Specifying that the Director may accept applications for licensure beginning on July 1, 2019;

- (B) Permitting the Director to grant provisional licenses to persons who have satisfied licensing requirements but have not yet acquired a license and specifying that a provisional license shall expire on January 1, 2024, or upon a person receiving full licensure, whichever is sooner; and
- (C) Specifying that all persons engaged in the practice of midwifery as required by this measure shall be licensed by January 1, 2024;
- (6) Clarifying exemptions from licensure;
- (7) Authorizing the Director to establish fees by rule for purposes of the licensed midwife program;
- (8) Clarifying requirements for application for licensure as a certified professional midwife;
- (9) Specifying that the first triennial renewal date for licensure shall be June 30, 2027;
- (10) Clarifying the grounds for refusal to renew, reinstate, or restore a license and for revocation, suspension, denial, or condition of a license;
- (11) Requiring current midwives to register with the Director, specifying the information that must be provided to the director; and setting the date for full licensure of all current midwives as January 1, 2024;
- (12) Removing language that would have established scope of practice for midwives, certified midwives, and certified professional midwives; requirements for care provided by licensed midwives; continuing education requirements; unprofessional conduct standards; global signature authority; penalties; and prescriptive authority and associated limitations;
- (13) Deleting language that would have repealed the licensed midwife program established by this measure on June 30, 2025;
- (14) Updating the purpose section;
- (15) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (16) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1033, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1033, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 6. Noes, none. Excused, 1 (Keohokalole).

## SCRep. 660 Energy, Economic Development, and Tourism on S.B. No. 1530

The purpose and intent of this measure is to:

- (1) Establish the stadium development district for development purposes;
- (2) Require that any state development in the district obtain a permit from the Hawaii Community Development Authority (HCDA);
- (3) Appropriate funds to establish and development the stadium development district for public use; and
- (4) Authorize the issuance of various bonds to establish the stadium development district and build a new stadium.

Your Committee received testimony in support of this measure from the City and County of Honolulu Department of Planning and Permitting and Aloha Stadium. Your Committee received comments on this measure from the Department of the Attorney General, Executive Director of the Hawaii Community Development Authority (HCDA), and League of Women Voters of Hawaii.

Your Committee finds that there exists vast, unmet community development needs that HCDA may address through its community development districts. Significant planning and public outreach has occurred on specific projects to revitalize many areas of the State, including the land under the jurisdiction of the Stadium Authority and Department of Accounting and General Services. Your Committee further finds that the redevelopment of lands under the jurisdiction of the Stadium Authority and Department of Accounting and General Services could benefit from HCDA administering such a project. This measure establishes the stadium development district under the jurisdiction of HCDA to expedite the redevelopment of Aloha Stadium and the surrounding properties to bring economic development to an area that is in need of renewal, renovation, and improvement.

- (1) Inserting findings and specifying that the purpose of this measure is to establish the stadium development district under the jurisdiction of HCDA to expedite the redevelopment of Aloha Stadium and the property around it;
- (2) Inserting additional findings relating to the need to expeditiously redevelop the stadium development district;
- (3) Clarifying the definition of "executive director";
- (4) Specifying that the Executive Director of HCDA, rather than the Stadium Authority, shall facilitate the development of all property belonging to the State within the stadium development district;
- (5) Specifying that the development within the stadium development district shall be consistent with the Aloha Stadium Conceptual Redevelopment Report dated February 23, 2017, in addition to any county transit-oriented development plans;

- (6) Inserting language that allows the boundary of the stadium development district to be expanded to contiguous land, upon written request of the Executive Director of HCDA and proclamation of the Governor; provided that the Legislature may reject the expansion of the district by adoption of a concurrent resolution;
- (7) Specifying that, with approval of the Governor, the Executive Director of HCDA may modify and make changes to a transitoriented development plan and the Aloha Stadium Conceptual Redevelopment Report with respect to the stadium development district to respond to changing conditions or needs, under certain conditions;
- (8) Inserting language that requires the Executive Director of HCDA to issue a solicitation and select a vendor for the stadium development district;
- (9) Specifying that the Executive Director of HCDA may engage in planning, design, and construction activities within and outside the stadium development district, under certain conditions;
- (10) Inserting language that allocates revenues generated by the stadium development district in excess of the amount needed to maintain the stadium into the Hawaii community development revolving fund and stadium special fund;
- (11) Adding and removing certain development guidelines for the development of the stadium property;
- (12) Inserting language that allows the Executive Director of HCDA, under written request to and proclamation by the Governor, to adopt rules to be followed during the development within the district;
- (13) Inserting language that authorizes the Department of Land and Natural Resources to give written concurrence on any project in the stadium development district based on a phased review;
- (14) Inserting language that exempts the Executive Director of HCDA and others from the prohibition of HCDA to assign certain powers and duties as it relates to the stadium development district;
- (15) Inserting language that exempts the stadium development district from designation and community development plan requirements under section 206E-5, Hawaii Revised Statutes; and
- (16) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1530, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1530, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

# SCRep. 661 (Joint) Agriculture and Environment and Judiciary on S.B. No. 1353

The purpose and intent of this measure is to authorize the Department of Agriculture to permanently establish the industrial hemp program to license individuals to cultivate industrial hemp in the State.

Your Committees received testimony in support of this measure from the Department of Agriculture; We Are One, Inc.; Mana Artisan Botanics Inc.; Vespucci Collective Inc.; Aina Hoʻokupu o Kilauea; The Libertarian Party of Hawaii; Hawaii Center for Food Safety; Hawaii Alliance for Progressive Action; Hawaii Farm Bureau; Hawaii Hemp Farmers Association; Oʻahu County Committee on Legislative Priorities of the Democratic Party of Hawaii; Beyond Pesticides; Our Revolution Hawaii; Aloha Hemp Company; and twelve individuals. Your Committees received testimony in opposition from Hoʻomanapono Political Action Committee. Your Committees received comments on this measure from the Department of Budget and Finance and Drug Policy Forum of Hawaii.

Your Committees find that Act 228, Session Laws of Hawaii 2016, established an industrial hemp pilot program to allow the cultivation of industrial hemp and distribution of its seed in Hawaii through limited activities by licensee-agents of the board of agriculture for purposes of agricultural or academic research. On December 20, 2018, the 2018 Farm Bill was signed into law, which included removal of industrial hemp from the schedule I controlled substance list.

Your Committees therefore find that this legalization of industrial hemp has paved the way for Hawaii to further develop its industrial hemp program.

- Inserting contents from the related hemp bill, SB 1335, to require that the Department of Agriculture prepare and submit a
  proposed State plan to the United States Department of Agriculture to monitor and regulate hemp production in the State;
- (2) Allowing the industrial hemp pilot program to repeal on its intended date of June 30, 2021, instead of repealing the program on July 1, 2019;
- (3) Giving the Department of Agriculture interim rule-making authority that will allow the Department of Agriculture to make necessary changes as the United States Department of Agriculture guidelines are yet to be promulgated;
- (4) Authorizing the Department of Agriculture to set acreage limits and limit the number of licenses issued annually for the industrial hemp program and pilot program;
- (5) Creating certain exemptions to the prohibition on transportation of the resin, flowering tops, and leaves removed from a hemp plant:
- (6) Removing the lifetime felon ban to allow those who have not had a felony in the previous ten years to participate in the industrial hemp program;

- (7) Establishing a separate industrial hemp special fund for the permanent industrial hemp program; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1353, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1353, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Judiciary: Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

# SCRep. 662 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism and Water and Land on S.B. No. 1529

The purpose and intent of this measure is to:

- (1) Establish the Hawaii Energy and Climate Change Office;
- (2) Make the Hawaii Climate Change Mitigation and Adaptation Commission permanent and transferring it from the Department of Land and Natural Resources to the Department of Business, Economic Development, and Tourism;
- (3) Establish a new position, the Deputy Director of Energy and Climate Change, who shall serve as the Energy Resources Coordinator:
- (4) Repeal the energy security special fund and ends funding for the Hawaii Clean Energy Initiative from the energy security special fund; and
- (5) Appropriate funds from the general fund for the Hawaii Energy and Climate Change Office.

Your Committees received testimony in support of this measure from the Hawaii Farmers Union, Sierra Club of Hawaii, and one individual. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Land and Natural Resources and Department of Business, Economic Development, and Tourism.

Your Committees find that climate change is a major threat to the economy, environment, and overall well-being of the State. Your Committees further find that this measure consolidates various state entities involved in furthering the State's goals of resiliency and self-sufficiency in an effort to pool their resources and focus their efforts.

Your Committees have amended this measure by:

- (1) Changing the name "Hawaii Energy and Climate Change Office" to the "Hawaii State Energy Office";
- (2) Changing the position title "Deputy Director of Energy and Climate Change" to the "Deputy Director of Energy";
- (3) Deleting language that would have transferred the energy feedstock program from the Department of Agriculture to the Department of Business, Economic Development, and Tourism;
- (4) Requiring the Energy Resources Coordinator to formulate, analyze, and recommend evaluation metrics;
- (5) Requiring the Energy Resources Coordinator to assess incentive programs and report to the Governor and the Legislature on their effectiveness and necessity annually;
- (6) Reinstating the administrative placement and membership of the Hawaii Climate Change Mitigation and Adaptation Commission in existing law but replacing the Director of Business, Economic Development, and Tourism with the Deputy Director of Energy as a member of the Commission;
- (7) Removing language that would have transferred all rights, powers, functions, duties, documents, personal property, and policies and procedures of the Hawaii Climate Change Mitigation and Adaptation Commission from the Department of Land and Natural Resources to the Department of Business, Economic Development, and Tourism, and preserved the civil service status of any employees transferred;
- (8) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment, Energy, Economic Development, and Tourism, and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1529, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1529, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Rhoads, Ruderman). Energy, Economic Development, and Tourism: Ayes, 5; Ayes with Reservations (Inouye, Fevella). Noes, none. Excused, none.

Water and Land: Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Keith-Agaran, Nishihara).

## SCRep. 663 Energy, Economic Development, and Tourism on S.B. No. 1163

The purpose and intent of this measure is to replace the current renewable energy technologies income tax credit with tax credits for solar energy systems, wind energy systems, and energy storage systems.

Your Committee received testimony in support of this measure from Honolulu Seawater Air Conditioning, LLC; Clearway Energy Group; Tesla; Adon Construction Inc.; O'ahu County Committee on Legislative Priorities of the Democratic Party of Hawai'i; and one individual. Your Committee received testimony in opposition to this measure from The Alliance for Solar Choice. Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and Hawaiian Electric Companies.

Your Committee finds that Hawaii has some of the highest living costs in the country. Families with lower incomes or on fixed incomes can be especially burdened by high energy costs, so initiatives to make renewable energy generation more financially feasible have the potential to help families who are in greater need of assistance. In addition, Hawaii's efforts to reduce its reliance on fossil fuels are well served by incentives such as the renewable energy technologies income tax credit.

This measure replaces the renewable energy technologies income tax credit with separate tax credits for solar energy systems, wind energy systems, and energy storage systems and further subdivides solar energy systems into systems used exclusively to heat water and systems used primarily to generate electricity. This measure also gradually ramps down the tax incentives for the systems allowed tax credits, in recognition of the reduced need for these types of incentives as the State nears accomplishment of its energy efficiency goals.

Your Committee finds that certain amendments to this measure are necessary to ensure that the tax incentives are only applicable to solar energy systems connected to the electric grid, ramp down the credit more quickly and frequently, and remove incentives for energy storage systems, in order to balance the incentives against the financial interests of the State and taxpayers and to ensure that the enhanced incentives provide the greatest benefit to families at lower incomes or on a fixed income.

Your Committee has amended this measure by:

- (1) Specifying that the tax credit only applies to solar energy systems and wind energy systems that are grid-connected;
- (2) Adding a credit cap for multi-family residential property classified as low-income, affordable housing, or senior housing at \$700 per unit per grid-connected solar energy system;
- (3) Reducing the solar energy systems single-family residential credit from \$5,000 to \$2,500;
- (4) Reducing the solar energy systems commercial property credit from \$500,000 to \$250,000 per system;
- (5) Adding a credit of \$750,000 per utility scale solar energy system providing electricity to an electric utility under a power purchase agreement and approved by the public utilities commission;
- (6) Allowing the credit to also be claimed for commercial seawater air conditioning systems and making related conforming amendments:
- (7) Making the credit no longer available in taxable years ending after December 31, 2026;
- (8) Increasing the rate of the ramp down of credits for solar energy systems;
- (9) Removing the credit for energy storage systems;
- (10) Specifying that a credit for certain solar energy systems for commercial properties shall take effect upon the measure taking effect; and
- (11) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1163, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1163, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee. Ayes, 4. Noes, none. Excused, 1 (Fevella).

# SCRep. 664 (Joint) Energy, Economic Development, and Tourism and Commerce, Consumer Protection, and Health on S.B. No. 1292

The purpose and intent of this measure is to:

- (1) Amend the definition of "transient accommodations" to include other forms of transient accommodations and other terms that the counties may have defined;
- (2) Make it unlawful for transient accommodations brokers to engage in business with operators or plan managers or property managers or activity providers that are not in compliance with all state laws and county ordinances;
- (3) Make it unlawful for a hosting platform to provide, and collect a fee for, booking services regarding transient accommodations that are not lawfully certified, registered, or permitted under applicable county ordinance;
- (4) Require anonymous, periodic reports by operators and plan managers to the Department of Taxation of transient accommodations listings;

- (5) Require hosting platforms to maintain identifying information on all transient accommodations and to make the information available to enforcement officials upon request;
- (6) Enable a transient accommodations broker to register as a tax collection agent with respect to transient accommodations taxes and general excise taxes for its operators and plan managers; and
- (7) Require an operator or plan manager to remove a transient accommodation advertisement upon notice that the property is not in compliance with state law or county ordinance.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs; Hawai'i Tourism Authority; City and County of Honolulu Department of Planning and Permitting; one member of the Maui County Council; Maui Chamber of Commerce; Hawai'i Lodging & Tourism Association; Prince Resorts Hawaii; Kohala Coast Resort Association; OLS Hotels & Resorts; Waikoloa Beach Marriott Resort and Ocean Club; Hyatt Regency Waikiki Beach Resort & Spa; Moana Surfrider, A Westin Resort & Spa; Outrigger Hospitality Group; Outrigger Enterprises Group; Trump International Hotel Waikiki; Marriott Ko Olina Beach Club; Waikiki Resort Hotel; Kyo-ya Management Co., Ltd.; Sheraton Kauai Resort; Castle Resorts & Hotels; Hampton Inn & Suites Oahu/Kapolei; Maui Hotel & Lodging Association; Marriott's Maui Ocean Club; Hyatt Resorts Hawaii; and four individuals. Your Committees received testimony in opposition to this measure from Airbnb. Your Committees received comments on this measure from the Department of the Attorney General; Department of Taxation; Office of Information Practices; Office of the Mayor of the County of Kauai; Rental By Owner Awareness Association; Tax Foundation of Hawaii; and Expedia Group.

Your Committees find that under certain circumstances, allowing a private person to act as a tax collection agent is likely to ease the burden of collecting taxes. Section 237-9(e), Hawaii Revised Statutes, allows a person engaged in network marketing, multi-level marketing, or other similar business to enter into an agreement with the department of taxation to act as a tax collection agent on behalf of its direct sellers. Your Committees find that similarly allowing a transient accommodations broker to act as a tax collection agent on behalf of providers of transient accommodations that utilize the services of the transient accommodations broker may facilitate the collection of transient accommodations taxes and general excise taxes.

Your Committees also find that hosting platforms, such as Airbnb, should be subject to fines if the hosting platform collects a booking service fee for posting online a transient accommodations unit rental that is not registered with its respective county and the transient accommodations broker does not post the transient accommodations' registration identification number in the rental listing.

Your Committees additionally find that transient accommodations operators or plan managers should periodically report transient accommodations listings in Hawaii to the Department of Taxation, and maintain records that should be made available upon lawful request to enforcement authorities, for greater transparency and data sharing purposes.

Your Committees have amended this measure by:

- Removing language that would have made it unlawful for transient accommodations brokers to engage in business with
  operators or plan managers who are not in compliance with all state laws and county ordinances;
- (2) Deleting part III and replacing it with language to make it unlawful for a hosting platform to provide booking services and collect a fee for those services provided in connection with transient accommodations located in the State if the operator is not registered with the Department of Taxation;
- (3) Inserting language to establish additional options, such as judicial review, for counties to obtain relief for violations of county ordinances or rules, and to specify that where a county seeks injunctive relief for violations related to single-family transient vacation rental units, the county need not show irreparable injury;
- (4) Amending the items that must be conspicuously shown on any advertisement for a transient accommodation or resort time share vacation interest, plan, or unit, and authorizing the Department of Taxation to issue citations to platform hosts and booking services who violate the advertisement requirements;
- (5) Repealing the criminal penalties for failing to register as an operator or plan manager when required to do so under the transient accommodations tax law:
- (6) Requiring transient accommodations brokers, platform hosts, and booking services, rather than operators and plan managers, to provide an anonymous, monthly report of transient accommodations listings to the Department of Taxation, specifying the form in which the data must be submitted and which data must be included, and establishing a penalty of \$100 per day for non-compliance;
- (7) Removing language that would have required hosting platforms to maintain identifying information on all transient accommodations;
- (8) Amending the confidentiality provisions relating to general excise tax and transient accommodations tax returns and other information provided by registered tax collection agents;
- (9) Amending the information required to be provided by operators and plan managers regarding compliance with state and county laws and imposing the requirements on platform hosts and booking services, in addition to transient accommodations brokers;
- (10) Amending the definition of "booking service" to include advertising services; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Commerce, Consumer Protection, and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1292, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1292, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Commerce, Consumer Protection, and Health: Ayes, 6. Noes, none. Excused, 1 (Ruderman).

#### SCRep. 665 (Joint) Technology and Government Operations on S.B. No. 218

The purpose and intent of this measure is to:

- (1) Require the Hawaii Technology Development Corporation to establish a public-private partnership, exempt from the state procurement code and other certain state and county requirements, with a private organization to plan, build, and manage key strategic broadband infrastructure and attract cloud based companies to Hawaii; and
- (2) Appropriate funds to the Hawaii Technology Development Corporation to establish an open access, carrier neutral cable landing station to support the Hawaii broadband initiative.

Your Committees received testimony in support of this measure from the Cable Television Division of the Department of Commerce and Consumer Affairs; Department of Education; Department of Business, Economic Development, and Tourism; Hawaii Technology Development Corporation; Oahu Economic Development Board; Hawaiian Electric Companies; Oceanit Laboratories, Inc.; American Council of Engineering Companies of Hawaii; and Ocean Networks. Your Committees received testimony in opposition to this measure from the State Procurement Office. Your Committees received comments on this measure from Hawaiki Submarine Cable USA LLC.

Your Committees find that Hawaii needs to better address critical broadband infrastructure in the State by establishing an open access, carrier neutral cable landing station to attract installers of transpacific fiber optic cables and expand Hawaii's connectivity around the world, which will establish Hawaii as a key player in the global broadband market and address the need for better broadband connection. Your Committees further find that the timing for an open access, carrier neutral cable landing is critical due to various federal and private contracts that are available to Hawaii.

Your Committees have amended this measure by:

- (1) Deleting language that would have exempted the public-private partnership from the public procurement code and certain other state and county requirements;
- (2) Inserting a blank appropriation amount;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion;
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Technology and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 218, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 218, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Technology: Ayes, 3. Noes, none. Excused, 2 (English, Wakai).

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Baker).

# SCRep. 666 Ways and Means on S.B. No. 1471

The purpose and intent of this measure is to authorize the issuance of \$500,000 in general obligation bonds for the County of Maui to plan and develop transportation improvements for the corridor connecting Wailuku and Kahului.

Your Committee received testimony in support of this measure from the Office of Planning, the County of Maui Department of Transportation, and two individuals.

Your Committee finds that improved transportation will create greater access to jobs and services throughout the county of Maui.

Your Committee has amended this measure by:

- Changing the amounts authorized and appropriated for the capital improvement project from \$500,000 to unspecified amounts;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1471, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1471, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Kidani, Taniguchi).

## SCRep. 667 Ways and Means on S.B. No. 935

The purpose and intent of this measure is to authorize the issuance of general obligation bonds for water reuse systems in the State.

Specifically, this measure authorizes the issuance of general obligation bonds and makes appropriations of \$235,000 for installation of a greywater reuse project at Launiupoko Beach Park and \$750,000 for a dual piping irrigation system at Kealakehe Wastewater Treatment Facility, with a total appropriation of \$985,000.

Your Committee received testimony in support of this measure from the Department of Health, County of Hawaii Department of Environmental Management, The Nature Conservancy of Hawaii, Hawaii Community Foundation, and One World One Water, L.L.C.

Your Committee finds that water reuse projects help to ensure the State's long-term water security.

Your Committee has amended this measure by:

- (1) Substituting Kanaha Beach Park for Launiupoko Beach Park as the subject for the expenditure of appropriated funds;
- (2) Changing all appropriations to unspecified amounts; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 935, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 935, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Harimoto, Kidani, Taniguchi).

# SCRep. 668 Ways and Means on S.B. No. 77

The purpose and intent of this measure is to amend the law relating to capital improvement projects.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with an appropriation of funds to the Department of Budget and Finance for the Ala Wai flood risk management project.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 77, as amended herein, and recommends that it be recommitted to your Committee on Ways and Means, in the form attached hereto as S.B. No. 77, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 6 (English, Harimoto, Kahele, Riviere, Shimabukuro, Taniguchi).

#### SCRep. 669 Ways and Means on S.B. No. 301

The purpose and intent of this measure is to disallow the deduction for dividends paid by real estate investment trusts.

Your Committee received testimony in support of this measure from Americans for Democratic Action; Church of the Crossroads; Faith Action for Community Equity; Hawaii Advocates For Consumer Rights; Hawaii Alliance for Progressive Action; Hawaii Appleseed Center for Law and Economic Justice; Hawaii Foodservice Alliance LLC; Housing Now Coalition; IMUAlliance; Kairos Energy Capital; League of Women Voters of Hawaii; Sierra Club of Hawaii; UNITE HERE, Local 5; We Are One, Inc.; and numerous individuals.

Your Committee received testimony in opposition to this measure from Alexander & Baldwin; American Assets Trust; BlackSand Capital; Brookfield Properties; Douglas Emmett, Inc.; Hawaii Association of REALTORS; Host Hotels & Resorts, Inc.; Kobayashi Group; Land Use Research Foundation of Hawaii; The MacNaughton Group; NAIOP Hawaii; Nareit; Park Hotels & Resorts Inc.; Public Storage; Taubman Centers; and numerous individuals.

Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and one individual.

Your Committee finds that section 857(b)(2)(B) of the Internal Revenue Code allows real estate investment trusts to deduct from their taxable income the amount of dividends paid to their shareholders. As a result, this income is only taxed in the state where a shareholder resides, rather than the state where the income-generating property is located. Your Committee further finds that this measure disallows the dividends paid deduction and subjects dividends paid by real estate investment trusts to the same tax treatment as dividends paid by other corporations.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of consistency, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 301, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 301, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

# SCRep. 670 Ways and Means on S.B. No. 396

The purpose and intent of this measure is to facilitate the collection of general excise and use taxes.

More specifically, this measure requires that marketplace facilitators be considered the sellers of tangible personal property and that other sellers who provide a forum for listing tangible personal property for sale report certain information about the purchasers to the Department of Taxation.

Your Committee received testimony in support of this measure from the Department of Taxation and Retail Merchants of Hawaii.

Your Committee received comments on this measure from the Tax Foundation of Hawaii and Amazon.

Your Committee finds that it would be in the State's best interest to ensure a smooth transition for the tax collections required by this measure and to eliminate the need for unnecessary disputes by requiring that marketplace facilitators guarantee certain collection thresholds during the implementation period. Therefore, your Committee recommends that the Department of Taxation create an implementation plan for the provisions of this measure, but defers to the expertise of the department with regard to the details of that plan.

Your Committee has amended this measure by:

- (1) Expanding the scope of the measure to include sales of intangible property and services;
- Clarifying the definition of marketplace facilitator to include persons who collect payment from a purchaser either directly or indirectly through an agreement with a third party; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 396, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 396, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

#### SCRep. 671 Ways and Means on S.B. No. 855

The purpose and intent of this measure is to specify that certain provisions of the Internal Revenue Code related to at-risk rules and deductions and to passive activity loss do not apply with respect to claims for the state low-income housing tax credit.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, the Oahu County Committee on Legislative Priorities of the Democratic Party of Hawaii, and two individuals. Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that because the low-income housing tax credit law incorporates the Internal Revenue Code provisions that relate to at-risk rules and passive activity loss rules, it attracts only a small pool of investors. By amending the law to specify that the tax credit shall not be subject to those Internal Revenue provisions, the universe of potential investors is expected to increase, thereby creating a positive cycle of reinvestment into the local economy.

Your Committee has amended this measure by:

- (1) Adopting specific clarifying language proposed by the Department of Taxation regarding the maximum amount of the state tax credits that may be allocated for a qualified low-income building; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 855, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 855, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

## SCRep. 672 Ways and Means on S.B. No. 1268

The purpose and intent of this measure is to revise the reporting requirements for persons who collect rent or gross rental proceeds on behalf of real property owners and transient accommodation operators and to require that the full amount of the funds collected be reported to the Department of Taxation.

Further, this measure establishes fines for persons who fail to comply with the reporting requirements.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received testimony in opposition to this measure from Expedia.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that state law does not currently penalize persons who do not comply with the reporting requirements of sections 237-30.5 and 237D-8.5, Hawaii Revised Statutes. Your Committee believes that establishing a monetary penalty for failing to file the appropriate information with the Department of Taxation and increasing the information required to be reported will increase compliance and tax collections while reducing administrative costs.

- (1) Inserting a savings clause section;
- (2) Changing the effective date from upon approval to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1268, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1268, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (English, Moriwaki, Taniguchi).

#### SCRep. 673 Ways and Means on S.B. No. 1360

The purpose and intent of this measure is to require partnerships, estates, and trusts to withhold taxes on the income of nonresident partners and beneficiaries.

Your Committee received comments on this measure from the Department of Taxation, Master Limited Partnership Association, and Tax Foundation of Hawaii.

Your Committee finds that, under current state law, partnerships, estates, and trusts who do business in Hawaii are not required to pay income tax to the State, on the premise that their partners or beneficiaries will pay the state income tax on their distributive shares of the underlying entity's income. Your Committee further finds that the State currently has no means of compelling payment from nonresident partners or beneficiaries who choose not to pay the state income tax on their distributive shares of income.

Your Committee has amended this measure by clarifying how the amount withheld by partnerships, estates, and trust is to be calculated

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1360, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1360, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (English, Moriwaki, Taniguchi).

#### SCRep. 674 Ways and Means on S.B. No. 1433

The purpose and intent of this measure is to extend the period in which a county may adopt an ordinance to establish a surcharge on state tax

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Hawaii and the Hawaii County Council.

Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that section 46-16.8(c), Hawaii Revised Statutes, authorizes counties to establish a surcharge on the state general excise and use taxes by adopting an ordinance prior to March 31, 2019. Your Committee further finds that this measure extends the period in which a county may adopt such an ordinance by an additional two years.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1433 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Riviere). Noes, none. Excused, 3 (English, Moriwaki, Taniguchi).

#### SCRep. 675 Human Services on S.B. No. 1227

The purpose and intent of this measure is to require the Department of Human Services to use an integrated and multigenerational approach to delivering human services to reduce the incidence of intergenerational poverty and dependence on public benefits.

Your Committee received testimony in support of this measure from the Department of Human Services; Habitat for Humanity Hawaii Island, Inc.; Hawaii Island HIV/AIDS Foundation; Parents and Children Together; and two individuals.

Your Committee finds that the Department of Human Services provides benefits and services to one in four Hawaii residents or nearly 360,000 individuals, including benefits and services relating to homelessness, education, employment, health care, child care, food security, protective services, and vocational rehabilitation. Your Committee further finds that the Department of Human Services is part of a national movement to improve the delivery of human services and is adopting a service integration and multigenerational approach with the intent on reducing intergenerational poverty in the State. This measure requires the Department of Human Services to use an integrated multigenerational service delivery approach, which will refocus the Department of Human Services' efforts to provide available resources and support to reduce the time a child and family spends in poverty, stabilize the child's basic needs and environment to enhance their ability to learn, improve all recipients' economic security, and ultimately reduce intergenerational poverty in Hawaii

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1227 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Riviere, Fevella).

#### SCRep. 676 Ways and Means on S.B. No. 1274

The purpose and intent of this measure is to authorize the Department of Taxation to establish by administrative rule the fee amounts for certain permits and licenses issued pursuant to the fuel tax, liquor tax, and cigarette tax and tobacco tax chapters of the Hawaii Revised Statutes

Your Committee received testimony in support of this measure from the Department of Taxation and one individual.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that changing the established fees for certain permits and licenses issued pursuant to the fuel tax, liquor tax, and cigarette tax and tobacco tax chapters of the Hawaii Revised Statutes to reasonable fees adopted by rule by the Department of Taxation will allow greater flexibility to adjust the fee amounts, when necessary, based on inflation or other economic or public interest reasons.

Your Committee has amended this measure by:

- (1) Mandating, rather than authorizing, the Department of Taxation to establish certain fee amounts by administrative rule;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.
