
HOUSE RESOLUTION

REQUESTING THE HAWAII STATE CENTER FOR NURSING AT THE UNIVERSITY OF HAWAII TO INVESTIGATE AND RECOMMEND WAYS TO ASSIST THE PUBLIC AND PRIVATE SECTORS TO RELIEVE THE NURSING SHORTAGE AND ENSURE A CONTINUOUS, ADEQUATE SUPPLY OF NURSES TO STAFF HOSPITALS AND OTHER MEDICAL FACILITIES IN THE STATE.

1 WHEREAS, recent studies have shown a direct correlation,
2 particularly with elderly patients, between the amount of time a
3 nurse spends with each patient each day and the patient's
4 outcome; and

5
6 WHEREAS, the availability of nurses is essential to public
7 health; and

8
9 WHEREAS, however, there are thirty-three states, including
10 Hawaii, that are experiencing nursing shortages. By 2020, that
11 number is expected to grow to forty-four states; and

12
13 WHEREAS, twenty-eight per cent of the nurses in the
14 workforce are over fifty years of age, and forty-eight per cent
15 are between thirty-five and forty-nine years of age; and

16
17 WHEREAS, history shows that most nurses retire between the
18 ages of fifty-three and fifty-six. The impending retirement of
19 the most highly trained and experienced nurses will exacerbate
20 the crisis in nursing shortage; and

21
22 WHEREAS, as the nursing population moves toward retirement,
23 hospitals will find it increasingly difficult to attain
24 sufficient staffing levels; and

25
26 WHEREAS, the Hawaii State Center for Nursing at the
27 University of Hawaii is part of a consortium between providers
28 and nursing educators that works to ensure that Hawaii has a
29 sufficient supply of nurses with the skills and competencies to
30 meet Hawaii's health care needs; and

31

1 WHEREAS, the Hawaii State Center for Nursing is the hub of
 2 statewide nursing workforce data collection and supports
 3 proactive workforce planning, fosters recruitment initiatives,
 4 and implements, evaluates, and disseminates strategies that lead
 5 to higher levels of job satisfaction and improved retention
 6 among nurses; and

7
 8 WHEREAS, the health and well-being of Hawaii residents will
 9 suffer great harm if the State does not move to ensure an
 10 adequate supply of qualified nurses to staff its hospitals and
 11 other medical facilities; now, therefore,

12
 13 BE IT RESOLVED by the House of Representatives of the
 14 Twenty-third Legislature of the State of Hawaii, Regular Session
 15 of 2006, that the Hawaii State Center for Nursing at the
 16 University of Hawaii is requested to investigate and recommend
 17 ways to assist the public and private sectors to relieve the
 18 nursing shortage and ensure a continuous, adequate supply of
 19 nurses to staff hospitals and other medical facilities in the
 20 State; and

21
 22 BE IT FURTHER RESOLVED that the Hawaii State Center for

 39
