# A BILL FOR AN ACT

RELATING TO CRIMINAL PROPERTY DAMAGE TO AGRICULTURAL AND  
AQUACULTURAL PROPERTY.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. Results from a 2005 statewide survey of farmers  
2 and ranchers conducted by the Hawaii department of agriculture,  
3 the U.S. Department of Agriculture, and the Hawaii Farm Bureau  
4 Federation provide a detailed accounting of the economic impact  
5 of agricultural theft and vandalism on the agriculture industry.  
6 Losses attributed to an estimated 1,153 acts of vandalism  
7 amounted to \$2.02 million, with an average loss of \$1,751 per  
8 incident. Ranchers were particularly affected, suffering \$4,902  
9 in loss or injury to livestock per incident while crop farmers  
10 lost \$3,901 per incident. Farmers and ranchers that suffered  
11 vandalism to their machinery and equipment lost \$2,751 per  
12 incident. Almost sixty percent of the economic loss was  
13 suffered by Maui farmers and ranchers (57.5%), followed by Oahu  
14 (28.1%), Hawaii (9.6%), and Kauai (4.9%).

15           Total theft of farm commodities, materials, equipment, and  
16 other property was found to be \$1.95 million. Agriculture theft  
17 is often committed using tools such as chain saws, axes,

1 machetes, and large pruning shears that provide a means of  
2 quickly "harvesting" agricultural products in order to leave the  
3 scene as fast as possible. This frequently results in the death  
4 of the tree, bush, or other plant. The thief has effectively  
5 deprived the farmer of not only the produce on the plant at the  
6 time of the theft, but also subsequent produce for that season  
7 and succeeding years over the expected life of the plant. The  
8 farmer also has been robbed of the investment made to get the  
9 plant to the point of production.

10 During the survey period there were one hundred sixty-nine  
11 incidents when agricultural machinery and equipment were damaged  
12 to the extent that they were rendered inoperable or vehicles  
13 were used for "joy rides" in the fields causing damage to  
14 planted crops as well as the soil and the vehicle.

15 The purpose of this Act is to strengthen the laws of the  
16 State to recognize the actual loss of agricultural and  
17 aquacultural property suffered by farmers and ranchers from such  
18 criminal actions and to impose appropriate penalties.

19 SECTION 2. Section 708-800, Hawaii Revised Statutes, is  
20 amended as follows:

21 1. By adding a new definition to be appropriately inserted  
22 and to read:

1        "Aquacultural equipment, supplies, or products" mean any  
2 equipment, supplies, products, or commodities used, raised,  
3 grown, or maintained for the production of fish, shellfish,  
4 mollusk, crustacean, algae, or other aquatic plant or animal by  
5 an aquaculture enterprise or research agency while owned by the  
6 enterprise or agency."

7        2. By deleting the definition of "aquaculture product":  
8        [~~"Aquaculture product" means any fish, shellfish, mollusk,~~
