## JUSTIFICATION SHEET

DEPARTMENT: Commerce and Consumer Affairs

TITLE: A BILL FOR AN ACT RELATING TO EXPEDITED INSURANCE RATE REDUCTION.

PURPOSE: To allow any property and casualty rate filing that when filed constitutes a reduction of not more than 10 percent below the rate in effect and approved by the Insurance Commissioner ("Commissioner") to become effective without prior approval. If the insurer has made a reduction of the rate by not more than 10 percent, the insurer may increase the rate up to the amount of the previously approved rate without the approval of the Commissioner upon filing that increase with the Commissioner.

MEANS: Amend sections 431:14-104(k) and 431:14-120(b), Hawaii Revised Statutes (HRS).

JUSTIFICATION: Currently, insurers must request and obtain prior approval from the Commissioner of any rate change, including rate reductions.

The proposed "file and use" procedure will likely result in lower administrative costs for insurers, improved consumer benefits, and a more efficient marketplace.

Impact on the public: There should be a positive impact on the public as insurers are allowed to offer rate reductions upon filing of the rate reduction.

Impact on the department and other agencies: This will increase the efficiency of the Department.
