SENATE CONCURRENT RESOLUTION

ESTABLISHING A FORENSIC MENTAL HEALTH COMMISSION TO STUDY THE
INTERACTION BETWEEN THE MENTAL HEALTH AND PUBLIC SAFETY
SYSTEMS IN HAWAII WITH RESPECT TO INDIVIDUALS WITH MENTAL
ILLNESS.

1 WHEREAS, the Hawaii State Hospital is facing a severe
2 overcrowding problem because eighty percent of forensics
3 patients are sent there by court order; and
4

5 WHEREAS, the current structures of the community mental
6 health system and the criminal justice system in Hawaii do not
7 provide the level of supervision, monitoring, or treatment
8 necessary to ensure the safety of individuals with mental
9 illness or the community at large; and
10

11 WHEREAS, it is imperative that the quality of patient care
12 at the Hawaii State Hospital be improved by eliminating
13 overcrowding and by providing necessary community-based mental
14 health services that are evidence-based and user friendly; and
15

16 WHEREAS, in the State of Hawaii, nearly five hundred
17 individuals within the jurisdiction of the Adult Mental Health
18 Division currently are on conditional release from the Hawaii
19 State Hospital; and
20

21 WHEREAS, the number of Adult Mental Health Division clients
22 on conditional release significantly exceeds all national per
23 capita norms; and
24

25 WHEREAS, the placement and retention of individuals with
26 mental illness in many cases inappropriately criminalizes them
27 and results in unnecessary commitment and retention in inpatient
28 mental health care and correctional facilities; and
29

30 WHEREAS, the criminalization of people with mental illness
31 contributes to their inappropriate and excessive confinement in

1 the Hawaii State Hospital and inpatient care and correctional
2 facilities; and

3
4 WHEREAS, lengthy stays in correctional facilities and the
5 Hawaii State Hospital are a financial burden to the State, and
6 may be tantamount to the incarceration of mentally ill
7 individuals without providing treatment; and

8
9 WHEREAS, processing and following up with criminal
10 complaints for individuals with mental illness can have
11 significant fiscal and time management impacts on the
12 Judiciary's limited fiscal and personnel resources; now,
13 therefore,
