7 of their physical, emotional, mental, social, and educational  
8 well-being, the missing link in behalf of preserving our Na

10  
11 WHEREAS, the "Senate of the Twenty-second Legislature of  
12 the State of Hawaii, Regular Session of 2004, the House of  
13 Representatives concurring," passed the Senate Concurrent  
14 Resolution (SCR) 189, "that the Legislature encourages the  
15 support of Malama O Kamali`i Makamae in its efforts to develop  
16 state of the art care home facilities for needy children of  
17 Hawaiian ancestry who are thirteen years old or younger;"; and

18  
19 WHEREAS, the State's Foster Care system, Human and Social  
20 Services, Child Protective and Welfare agencies are still  
21 suffering from a case-overload syndrome; and

22  
23 WHEREAS, we still experience tragic scenarios despoiling  
24 our children, and we must now add other innocent children to our  
25 statistics of having been lost in the State's protective,  
26 welfare, education, community and faith-based systems, as a  
27 total societal failure to 10-year old Alexis of Puna, Hawaii, 5-  
28 year old Talia Williams of Oahu and the latest two infant  
29 tragedies and the 11-year old several maltreatment cases; and  
30

1 WHEREAS, such traumas to survivors are categorical  
2 indicators to physical, emotional and mental scarring, which  
3 adversely affect their growth & development, behavioral and  
4 learning abilities; and  
5

6 WHEREAS, Malama O Kamali`i Makamae's care facilities will  
7 provide a wellness refuge for them to begin to feel safe,  
8 promote health and nutrition and being an overall healing  
9 journey in their short and/or long-term care needs in the  
10 Hawaiian cultural Hanai `Ohana style project; and  
11

12 WHEREAS, due to the shortage of qualified state child care  
13 workers, too many children are neglected and fall through the  
14 cracks of the Child Protective & Welfare systems, and still  
15 there are insufficient emergency care facilities to meet the  
16 growing need of very young children in imminent danger in their  
17 present living environment; and  
18

19 WHEREAS, Hawai`i's children of Hawaiian ancestry are at  
20 high risk of falling into the behavioral, lifestyle, and  
21 substance abuse patterns of their adult family members or other  
22 care givers, and are also at imminent risk for their health,  
23 safety, well being, and economic status in their present  
24 environment, which would affect their ability to grow, develop,  
25 and learn; and  
26

27 WHEREAS, the Kamehameha Schools' Ka Huaka`i Native Hawaiian  
28 Educational Assessment (2005) stated that academic disparities  
29 are pronounced in rural regions with high concentrations of  
30 Native Hawaiians, and with a more rapid escalating rate of  
31 special education referrals than that of their peers (18.5% or 1  
32 of every 5 Native Hawaiian students); and  
33

34 WHEREAS, Native Hawaiian youth have a higher rate of  
35 depression (34.5%) and are more likely to attempt suicide  
36 (22.6%) than their peers; and  
37

38 WHEREAS, a study conducted by the National Center on  
39 Addiction and Substance Abuse at Columbia University (CASA)  
40 found that "the child welfare agencies devoted most of their  
41 resources to investigation, foster care and permanent custody  
42 decisions while provisions of services to prevent the recurrence  
43 of child abuse/neglect was a lower budget priority"; and  
44

1  
2 WHEREAS, the CASA study "found six critical weaknesses that  
3 gobble child welfare officials' efforts to protect the child"  
4 and also "noted that the child's development needs should take  
5 precedence over the timing of parental recovery"; now,  
6 therefore,  
7
