
HOUSE RESOLUTION

ENCOURAGING THE DEPARTMENT OF HEALTH TO DEVELOP A SKIN CANCER EDUCATION AND PREVENTION PROGRAM AND COLLECT DATA ON THE INCIDENCE OF ALL FORMS OF SKIN CANCER AMONG RESIDENTS AND TO WORK WITH THE DEPARTMENT OF EDUCATION TO IMPLEMENT A CANCER AWARENESS PROGRAM IN ALL PUBLIC SCHOOLS.

1 WHEREAS, skin cancer is the most common form of cancer in
2 the United States, with more than one million new cases
3 diagnosed annually; and
4

5 WHEREAS, one in five Americans will develop some form of
6 skin cancer during the course of their lifetime; and
7

8 WHEREAS, more than ninety per cent of all cases of skin
9 cancer develop from exposure to the sunlight; and
10

11 WHEREAS, a person's risk for developing skin cancer doubles
12 if the person has had five or more sunburns; therefore,
13 sunbathers and people that spend a great deal of time outdoors
14 are at particular risk of skin cancer; and
15

16 WHEREAS, skin cancer from sun exposure is largely
17 preventable through the use of barriers that protect the user
18 from the sun's harmful rays, such as sunscreen, hats, and
19 clothing; and
20

21 WHEREAS, residents and visitors to Hawaii are exposed to
22 high doses of ultraviolet radiation from the sun daily; and
23

24 WHEREAS, people with special skin conditions may be even
25 more susceptible to the skin damage from ultraviolet radiation
26 from sunlight; and
27

28 WHEREAS, residents and visitors to the State need to be
29 made aware of the risk of sun cancer due to prolonged repeated
30 exposure to high doses of ultraviolet radiation from the sun;
31 and
32

1 WHEREAS, Hawaii's young people need to be educated on the
2 dangers of sun exposure and the ways that they may protect
3 themselves against skin cancer; and
4

5 WHEREAS, under Act 51, Session Laws of Hawaii 2004, the
6 Department of Education is required to assume responsibility for
7 school health services; now therefore,
8

9 BE IT RESOLVED by the House of Representatives of the
10 Twenty-fourth Legislature of the State of Hawaii, Regular
11 Session of 2007, that the Department of Health is encouraged to
12 develop a program, that includes public service announcements,
13 to educate all residents and visitors on the dangers of skin
14 cancer and the importance of sun protection; and
15

16 BE IT FURTHER RESOLVED that the Department of Health is
17 strongly urged to work with the Department of Education to
18 develop and implement a program in all public schools to educate
19 Hawaii's students on the dangers of sun exposure and the ways
20 that they may protect themselves against skin cancer; and
21

22 BE IT FURTHER RESOLVED that the Department of Health is
23 urged to begin data collection on the incidence of all forms of
24 skin cancer among residents of Hawaii, including melanoma, basal
25 cell carcinoma, and squamous cell carcinoma; and
26

27 BE IT FURTHER RESOLVED that the Department of Health is
28 encouraged to develop a program to encourage residents to
29 receive regular skin cancer screenings from their health care
30 provider; and
31

32 BE IT FURTHER RESOLVED that the Department of Health is
33 encouraged to examine the benefits of dark automobile window
34 tinting for persons with skin conditions that make them more
35 sensitive to sunlight; and
