## HOUSE RESOLUTION

---

URGING THE HAWAII CONGRESSIONAL DELEGATION TO SEEK AMENDMENTS TO  
THE MEDICARE PAYMENT SYSTEM TO INCREASE REIMBURSEMENTS TO  
HAWAII'S HOSPITALS.

1 WHEREAS, although Hawaii has a proud history of providing  
2 essential health services in an innovative and cost-effective  
3 manner, a harsh reality is that the high cost of living in  
4 Hawaii has had a detrimental impact on our health care industry;  
5 and  
6

7 WHEREAS, one of the biggest problems is that Medicaid and  
8 Medicare reimbursements are too low to cover costs; and  
9

10 WHEREAS, Medicare has altered provider payments in various  
11 ways as a method to address concerns about access, especially in  
12 rural areas; and  
13

14 WHEREAS, one of those methods alters the adjustments made  
15 to Medicare physician fees that account for geographic  
16 differences in practice costs known as the geographic practice  
17 cost indices (GPCIs); and  
18

19 WHEREAS, GPCIs are geographically based price indexes for  
20 89 Medicare payment localities that include; "physician work"  
21 that accounts for the professional earnings in the area;  
22 "practice expense" that accounts for resource costs such as rent  
23 and staff salaries; and "professional liability" costs; and  
24

25 WHEREAS, Medicare also bases its physician payment system  
26 on a set of relative value units (RVUs) representing physician  
27 work, practice expense, and professional liability insurance for  
28 the specific physician services provided; and  
29

30 WHEREAS, to determine payment for physician services, the  
31 RVU for physician work is multiplied by the GPCI for physician  
32 work, and the same is done for practice expense and professional  
33 liability insurance, the products are summed, and the sum is

1 multiplied by a dollar amount "conversion factor" to determine a  
2 physician payment; and

3  
4 WHEREAS, in 2003 the RVUs for physician work, practice  
5 expense, and professional liability insurance were 17 percent  
6 higher in the State of Alaska than in Hawaii; and

7  
8 WHEREAS, although the cost of living in Hawaii is greater,  
9 Alaska has been afforded an increased amount for health care  
10 service reimbursements based on its "frontier" status; and

11  
12 WHEREAS, the Hawaiian Islands are the Earth's most isolated  
13 parcels of land lying in the middle of the North Pacific Ocean,  
14 2400 miles from both the nearest continental land mass, North  
15 America, and the rest of the Polynesian islands in the South  
16 Pacific Ocean; and

17  
18 WHEREAS, because of Hawaii's geographic location and other  
19 factors, the cost of living in Hawaii greatly exceeds the cost  
20 of living in most other states; and

21  
22 WHEREAS, the federal government pays nonforeign area cost-  
23 of-living allowances (COLAs) based on differences in living  
24 costs between the allowance areas and the Washington, DC area;  
25 and

26  
27 WHEREAS, Section 5941 of Title 5, United States Code,  
28 limits COLAs to a maximum of 25 percent of basic pay; and

29  
30 WHEREAS, in recognition of Hawaii's higher cost of living  
31 federal employees in the state are provided COLA payments of 25  
32 percent of basic pay while Alaska federal employees are afforded  
33 24 percent in consideration of that state's lower cost of  
34 living; and

35  
36 WHEREAS, a joint study conducted by the Taubman Center for  
37 State and Local Government at Harvard University's John F.  
38 Kennedy School of Government and the office of United States  
39 Senator Daniel Patrick Moynihan revealed that if per capita  
40 income is measured in real terms, Hawaii ranks 47th at \$19,755  
41 compared to the national average of \$24,231; and

H.R. NO. 222

1 WHEREAS, federal reimbursements must be increased to Hawaii  
2 to provide fairer reimbursements and more revenue for Hawaii's  
3 ailing health care system; now, therefore,  
4

5 BE IT RESOLVED by the House of Representatives of the  
6 Twenty-fourth Legislature of the State of Hawaii, Regular  
7 Session of 2007, that the Hawaii Congressional Delegation  
8 (Delegation) is urged to seek amendments to the Medicare payment  
9 system to change reimbursement formulas that negatively affect  
10 small states like Hawaii with efficient use statistics and  
11 comparatively low reimbursements; and  
12

13 BE IT FURTHER RESOLVED that the Delegation is also  
14 requested to seek changes in Medicare payment policies to  
15 provide fairer, more equitable reimbursements to Hawaii's  
16 physicians; and  
17

18 BE IT FURTHER RESOLVED that certified copies of this  
19 Resolution be transmitted to Hawaii's Congressional Delegation,  
20 the Governor, and Director of Human Services.  
21  
22
