
A BILL FOR AN ACT

RELATING TO AGRICULTURE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. During the last decade of the twentieth
2 century, the state was faced with the accelerated closure of a
3 number of sugar cane and pineapple plantations. It was
4 estimated that, by the end of the century, seventy-five thousand
5 acres of cultivated agricultural lands and fifty million gallons
6 per day of irrigation water would be released from plantation
7 operations.

8 The legislature viewed this situation with a degree of
9 optimism, providing an opportunity for dynamic growth in
10 diversified agriculture and helping to revitalize Hawaii's
11 agricultural industry. To ensure the success of the conversion
12 from large plantation operations to smaller multiple diversified
13 agricultural enterprises, the legislature created the
14 agribusiness development corporation as a public body corporate
15 to "administer an aggressive and dynamic agribusiness
16 development program".

17 In addition to its primary role of taking control of the
18 infrastructure of former plantations and to service agricultural

1 lands dependent on that infrastructure, in particular irrigation
2 systems, the agribusiness development corporation was
3 authorized, or required, to carry out other duties and
4 responsibilities, including but not limited to:

- 5 (1) Preparing the Hawaii agribusiness plan;
- 6 (2) Conducting detailed market analysis for existing and
7 new crops;
- 8 (3) Developing marketing and promotional strategies to
9 better exploit local, national, and international
10 markets;
- 11 (4) Gathering data and identifying market demands and
12 trends that can be used to plan future harvests and
13 production;
- 14 (5) Providing loans, allowances, and grants for the
15 development, expansion, or altering of new and
16 existing agricultural enterprises;
- 17 (6) Ensuring the adequacy of surface and air
18 transportation services and supporting facilities,
19 allowing local agricultural enterprises to reach
20 local, national, and international markets;

- 1 (7) Providing consultative, training, and educational
2 services to persons engaged in agricultural
3 activities;
- 4 (8) Preparing an inventory of agricultural lands with
5 adequate water resources that are or will be available
6 due to the closing of plantation operations;
- 7 (9) Preparing an inventory of agricultural infrastructure
8 that will be abandoned by the closing plantations; and
- 9 (10) Purchasing securities of or otherwise investing in
10 qualified enterprises for the purpose of providing
11 seed money.

12 In spite of all these tasks and responsibilities, along
13 with the tools and powers to undertake them, the agribusiness
14 development corporation has limited its activities to its
15 primary responsibility--to take over the infrastructure of
16 closing plantation operations, particularly irrigation systems;
17 repair and restore this infrastructure; and operate the
18 infrastructure for the benefit of surrounding agricultural lands
19 dependent on the infrastructure. Many of the other tasks and
20 responsibilities set forth in chapter 163D, Hawaii Revised
21 Statutes, have not been undertaken by the agribusiness
22 development corporation, but have been undertaken by other

1 government agencies and quasi-public and private agricultural
2 industry stakeholders.

3 From its inception, the agribusiness development
4 corporation was envisioned as a "dynamic and aggressive" entity
5 that could respond to the "constantly evolving economies" in the
6 private sector. This vision required the ability of the
7 agribusiness development corporation to immediately react to
8 changes and events in the private sector; however, any
9 agricultural projects, development plans, or project facility
10 programs developed by the agribusiness development corporation
11 required the approval of the board of agriculture.

12 As a further manifestation of this need to move in a
13 dynamic and aggressive manner, at its inception, the
14 agribusiness development corporation was granted an exemption
15 from the Hawaii procurement code. This exemption allowed it to
16 immediately respond to needs in the private sector. It also
17 allowed the corporation to respond immediately to natural
18 disasters and to protect and repair facilities that may have
19 incurred any damage and that needed immediate attention.

20 The purpose of this Act is to:

21 (1) Refocus and redefine the role and mission of the
22 agricultural development corporation to its primary

1 responsibility of coordinating and administering
2 programs to assist agricultural enterprises to
3 facilitate the transition of agricultural
4 infrastructure from plantation operations into
5 diversified agriculture;

6 (2) Remove the oversight of the board of agriculture over
7 the agribusiness development corporation's projects,
8 plans, and programs; and

9 (3) Restore the agribusiness development corporation's
10 exemption from the Hawaii procurement code.

11 SECTION 2. Chapter 163D, Hawaii Revised Statutes, is
12 amended as follows:

13 1. By adding a new section to be appropriately designated
14 and to read:

15 **§163D- Exemption of agribusiness development**
16 **corporation from administrative supervision of boards and**
17 **commissions.** Notwithstanding any law to the contrary, the
18 corporation shall be exempt from section 26-35, with the
19 exception of subsection (a)(2), (3), and (8) and subsection
20 (b)."

21 2. By amending section 163D-1, Hawaii Revised Statutes, to
22 read:

1 " ~~[f]~~ §163D-1 ~~[+]~~ **Findings and purpose.** The legislature
2 finds that the downsizing of the sugar and pineapple industries
3 is presenting an unprecedented opportunity for the conversion of
4 agriculture into a dynamic growth industry. Within the next
5 decade, seventy-five thousand acres of agricultural lands and
6 fifty million gallons per day of irrigation water are expected
7 to be released by plantations. The downsizing of the sugar and
8 pineapple industries will idle a valuable inventory of
9 supporting infrastructure, including irrigation systems, roads,
10 drainage systems, processing facilities, workshops, and
11 warehouses. The challenge to government and business is to
12 conserve and convert the arable lands and their associated
13 production infrastructure in a timely manner into new productive
14 uses ~~[that are based upon strategies developed from detailed~~
15 ~~marketing analysis and monitoring of local, national, and~~
16 ~~international opportunities. Constantly evolving economies~~
17 ~~require an aggressive and dynamic leadership for the promotion~~
18 ~~and development of agricultural enterprises, and centralized~~
19 ~~leadership to coordinate industry development, provide industry-~~
20 ~~wide services, provide marketing assistance, and facilitate~~
21 ~~investments and coventures in viable enterprises].~~

1 The purpose of this chapter is to create a vehicle and
2 process to make optimal use of agricultural assets for the
3 economic, environmental, and social benefit of the people of
4 Hawaii. This chapter establishes a public corporation to
5 administer an aggressive and dynamic agribusiness development
6 program. The corporation shall coordinate and administer
7 programs to assist agricultural enterprises to facilitate the
8 transition of agricultural infrastructure from plantation
9 operations into other agricultural enterprises[~~, to carry on the~~
10 ~~marketing analysis to direct agricultural industry evolution,~~
11 ~~and to provide the leadership for the development, financing,~~
12 ~~improvement, or enhancement of agricultural enterprises]."~~

13 3. By amending section 163D-3, Hawaii Revised Statutes, to
14 read:

15 "**§163D-3 Agribusiness development corporation; board of**
16 **directors; established.** (a) There is established the
17 agribusiness development corporation, which shall be a public
18 body corporate and politic and an instrumentality and agency of
19 the State. The corporation shall be headed by a board of
20 directors. The corporation shall be placed within the
21 department of agriculture for administrative purposes, but the
22 corporation may later incorporate as a nonprofit corporation if

1 this proves desirable to further its objectives; provided that
2 such reorganization as a nonprofit corporation shall not
3 adversely affect the federal tax status of the interest on any
4 bonds issued to finance any project or project facility.

5 (b) The board of directors of the corporation shall
6 consist of eleven voting members, of whom eight shall be
7 appointed by the governor. The terms of these eight members
8 shall be four years; provided that, commencing on July 1, 2005,
9 the governor shall reduce the terms of those initially appointed
10 so as to provide, as nearly as can be, for the expiration of an
11 equal number of terms at intervals of one year. The eight
12 members shall be selected on the basis of their knowledge,
13 experience, and proven expertise in small and large businesses
14 within the agricultural industry, agricultural economics,
15 banking, real estate, finance, promotion, marketing, and
16 management. Of these eight members, one shall be from the city
17 and county of Honolulu, one shall be from the county of Hawaii,
18 one shall be from the county of Maui, one shall be from the
19 county of Kauai, and four shall be appointed at-large. The
20 director of business, economic development, and tourism; the
21 chairperson of the board of agriculture; and the chairperson of
22 the board of land and natural resources, or their designated

1 representatives, shall be ex-officio, voting members of the
2 board. All members shall continue in office until their
3 respective successors have been appointed and qualified. The
4 board shall annually elect its chairperson from among its
5 members; provided that the chairperson shall not be an ex-
6 officio member.

7 (c) The members of the board shall serve without
8 compensation, but shall be reimbursed for actual expenses
9 incurred in the performance of their duties.

10 (d) The board shall appoint an executive director, who
11 shall serve at the pleasure of the board and shall be exempt
12 from chapter 76. The salary of the executive director shall be
13 set by the board.

14 ~~[(e) The board, through its executive director, may~~
15 ~~appoint officers, agents, and employees; prescribe their duties~~
16 ~~and qualifications; and fix their salaries, without regard to~~
17 ~~chapter 76.] "~~

18 4. By amending section 163D-4, Hawaii Revised Statutes, to
19 read:

20 "**§163D-4 Powers; generally.** ~~[(a)]~~ Except as otherwise
21 limited by this chapter, the corporation may:
