JUSTIFICATION SHEET

DEPARTMENT: Accounting and General Services

TITLE: A BILL FOR AN ACT RELATING TO THE ACCESS HAWAII COMMITTEE.

PURPOSE: To continue the State's oversight of the portal manager permanently. Continued oversight of the portal manager will help ensure that the State's efforts to expand access to information and government services over the Internet are continued.

MEANS: Create a new chapter in the Hawaii Revised Statutes codifying substantive sections of Act 292 Session Laws of Hawaii 2000.

JUSTIFICATION: The Legislature recognized in 2000 that the expansion of the Internet had fundamentally transformed society and the way it conducted business. In order to better serve Hawaii's citizens and businesses in the "new economy," the Legislature foresaw the need for the State to expand access to information and government services over the Internet.

In order to establish, develop, operate, maintain, and expand its Internet portal for the purpose of increasing electronic access and commerce, the State entered into a contract to manage the State's Internet portal. To ensure that the State's Internet resources and services are utilized efficiently and effectively, oversight of the portal manager was necessary.

In response, Act 292, Session Laws of Hawaii 2000, was enacted to, among other things, establish a mechanism for oversight of the State's portal manager. Act 292 established the Access Hawaii Committee (Committee) as the oversight mechanism. Act 292 originally contained a sunset date of June 30, 2003, for the Committee. Act 110, Session Laws of

Hawaii 2003, extended the sunset date to June 30, 2005. Unfortunately, the sunset date was not extended beyond 2005 and the Committee officially ceased to exist.

It is beneficial to continue the Committee and its oversight responsibilities. Although the Committee has been meeting informally since 2005, it is to the benefit of the citizens of Hawaii to reestablish and continue the Committee permanently.

Impact on the public: There should be a positive impact on the public as the Committee will officially and formally be able to continue its oversight of the State's portal manager to ensure that the State's Internet resources are utilized efficiently and effectively.

Impact on the department and other agencies: The impact on the Department of Accounting and General Services and other agencies that utilize the Internet will be positive as there will be continued oversight of the State's portal manager. This will help ensure the effective and efficient use of the State's Internet resources.

GENERAL FUND: None.

OTHER FUNDS: None.

PPBS PROGRAM DESIGNATION: AGS131.

OTHER AFFECTED AGENCIES: State Procurement Office, Office of Information Practices, the four counties, and other agencies that utilize the State's portal manager's services.

EFFECTIVE DATE: Upon approval.
