
A BILL FOR AN ACT

RELATING TO SUSTAINABILITY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. During the 2005 special session, the
2 legislature adopted Act 8, Special Session Laws of Hawaii 2005
3 (Act 8), to create the Hawaii 2050 task force to review the
4 Hawaii state plan and the State's planning process. The office
5 of the auditor was required to prepare and submit to the
6 legislature the Hawaii 2050 sustainability plan. In enacting
7 Act 8, the legislature expressed its belief that government is
8 responsible for resolving daily and immediate issues and public
9 needs, while providing guidance to assure a sustainable future
10 and outlook.

11 The creation of the Hawaii 2050 sustainability plan comes
12 as the State faces a growing number of pressing issues,
13 including the steady deterioration of public infrastructure;
14 lack of affordable housing; continued reliance on a service-
15 based economy; vulnerability of Hawaii in a volatile global
16 energy market; possible interruptions in travel and critical
17 food supplies; threats to fragile island ecosystems; and ever

1 increasing numbers of residents and visitors. These issues all
2 raise questions about the long-term limits of growth in the
3 State and motivate the need to begin planning and action to
4 assure Hawaii's future.

5 Addressing and solving issues critical to Hawaii's way of
6 life and natural resources requires coordinated community
7 efforts to produce comprehensive, long-range planning policies
8 and actions. Within that context, the mission of the Hawaii
9 2050 sustainability task force and the objectives of the Hawaii
10 2050 sustainability plan are intended to revitalize the State's
11 long-term planning process to better guide the future
12 development of Hawaii.

13 The purpose of this Act is to:

- 14 (1) Set forth and adopt the Hawaii 2050 sustainability
15 plan;
- 16 (2) Establish a sustainability council to coordinate,
17 implement, measure, and evaluate the progress of the
18 Hawaii 2050 sustainability plan and its related
19 activities; and
- 20 (3) Appropriate funds for the creation of the
21 sustainability council.

1 SECTION 2. The Hawaii Revised Statutes is amended by
2 adding a new chapter under title 13 to be appropriately
3 designated and to read as follows:

4 "CHAPTER

5 HAWAII 2050 SUSTAINABILITY PLAN

6 § -1 Findings and purpose. The legislature finds that
7 over the years, the Hawaii state plan under chapter 226 has
8 become outdated and there is a lack of awareness of the goals
9 embodied therein. In 2005, the legislature enacted Act 8,
10 Special Session Laws of Hawaii 2005, to create the Hawaii 2050
11 sustainability task force to review the Hawaii state plan and
12 develop a sustainability plan to address the vital needs of the
13 State through the year 2050. The office of the auditor was
14 required to prepare and submit to the legislature the Hawaii
15 2050 sustainability plan.

16 The task force developed a comprehensive sustainability
17 plan that provides a definition for sustainability; identifies
18 guiding principles and five major goals for Hawaii 2050;
19 identifies and proposes strategic actions to implement these
20 five major goals, indicators to measure the success or failure
21 in various sustainability actions, and priority actions and

1 intermediate steps for a target date of 2020; and establishes
2 recommendations.

3 The purpose of this chapter is to:

4 (1) Set forth the Hawaii 2050 sustainability plan, which
5 shall serve as a guide for the future long-range
6 development of the State;

7 (2) Provide a mechanism to implement strategic actions to
8 achieve objectives and utilize indicators to measure
9 progress in the State's efforts to achieve its
10 objectives; and

11 (3) Establish a coordinating body for plan implementation,
12 progress review, and program coordination to provide
13 for an integration of all major state and county
14 activities to achieve a sustainable future.
