**Report Title:**

Medical Liability

**Description:**

Addresses medical malpractice insurance costs by capping non-economic damages at \$250,000, establishing limits for attorney contingent fees, and requiring that economic damages be allocated based upon proportionate percentage of negligence.

JUSTIFICATION SHEET

DEPARTMENT: Commerce and Consumer Affairs

TITLE: A BILL FOR AN ACT RELATING TO MEDICAL LIABILITY.

PURPOSE: To lower medical malpractice insurance premiums by adopting legislation that directly affects elements impacting medical malpractice insurance rates.

MEANS: Add six new sections to chapter 671 and amend sections 663-11 and 671-1, Hawaii Revised Statutes.

JUSTIFICATION: The current healthcare liability system is a costly and ineffective mechanism for resolving healthcare liability claims and compensating injured patients. There are no for-profit insurers licensed in Hawaii offering medical malpractice insurance, and premium rates from nonprofit insurers have increased significantly, especially for medical specialties. The rise in medical malpractice insurance premiums has economically inhibited the ability of doctors to provide necessary services in rural areas and on the neighbor islands. Reform is required to address the adverse impact of the high cost of medical malpractice insurance on patient access to healthcare services, patient care, and cost-efficient healthcare in rural areas and the neighbor islands.

This bill:

1. Limits noneconomic damages in medical tort actions to a maximum award of \$250,000;
2. Establishes limits for contingent fees that may be contracted by attorneys for medical tort actions, as follows:
  - A. 40 percent of the first \$50,000

- recovered;
  - B. 33-1/3 percent of the next \$50,000 recovered;
  - C. 25 percent of the next \$500,000 recovered; and
  - D. 15 percent of any amount of recovery exceeding \$600,000;
3. Defines "recovered" or "recovery" as the net sum recovered after deducting any disbursements or costs incurred in connection with prosecution or settlement of the claim;
  4. In assessing any percentage of negligence or other fault, requires the trier of fact to consider the negligence or fault of all alleged parties, including those who have entered into a settlement, upon request of any nonsettling defendant healthcare provider;
  5. Defines "economic damages" as including past and future medical expenses, loss of past and future earnings, loss of use of property, cost of repair or replacement, cost of obtaining domestic services, loss of employment, and loss of business and employment opportunities.
  6. Requires economic damages to be allocated to a healthcare provider based upon the healthcare provider's proportionate percentage of negligence or other fault;
  7. Requires the trier of fact, where a verdict is rendered for the plaintiff, to enter judgment of liability against each defendant healthcare provider in accordance with the percentage of negligence or other fault for

compensatory damages attributed to the provider by the trier of fact; provided that judgment shall not be entered against a healthcare provider who is not a party or who has been released, dismissed, or discharged as a party;

- 8. Includes in the definition of "healthcare provider", dentists, optometrists, pharmacists, psychologists, and their employees and legal representatives; and
- 9. Redefines "medical tort" to mean a negligent act or omission to act by a healthcare provider in the rendering of professional services, or the rendering of professional service by a healthcare provider without informed consent, which act or omission or rendering of service without informed consent is the proximate cause of a personal injury or wrongful death, provided that such services are within the scope of services for which the provider is licensed and which are not within any restriction imposed by the licensing agency or licensed hospital.

Impact on the public: The public interest will be served because this bill will improve the availability of healthcare services and the fairness and cost-effectiveness of the medical liability system.

Impact on the department and other agencies: None.

GENERAL FUND: None.

OTHER FUNDS: None.

PPBS PROGRAM DESIGNATION: CCA-106.

OTHER AFFECTED AGENCIES: None.
