9 conditional release. The person shall follow all prescribed
10 treatments and take all prescribed medications according to the
11 instructions of the person's treating mental health
12 professional. If any mental health professional treating any
13 conditionally released person believes either the person is not
14 complying with the requirements of this section or there is
15 other evidence that hospitalization is appropriate, the mental
16 health professional shall report the matter to the probation
17 officer of the conditionally released person. The probation
18 officer may order the conditionally released person to be

15 and may be discharged or the order may be modified, without
16 danger to the person or to others. The director shall make

1 (a) The person is still affected by a physical or mental
2 disease, disorder, or defect, and the conditions of
3 release have not been fulfilled; or

4 (b) For the safety of the person or others, the person's

Report Title:

Conditional Release

Description:

Grants the Director of the Department of Health (DOH) the authority to apply for discharge from conditional release (CR) or modification of the CR order for any patient in a mental health facility served by the DOH directly or through a contracted provider.

JUSTIFICATION SHEET

DEPARTMENT: Health

TITLE: A BILL FOR AN ACT RELATING TO CONDITIONAL RELEASE.

PURPOSE: Grants the Director of the Department of Health (DOH) the authority to apply for discharge from conditional release (CR) or modification of the CR order for any person served by the DOH directly or through contracted provider.

MEANS: Amend Section 704-413, Hawaii Revised Statutes (HRS).

JUSTIFICATION: This proposal is based on a recommendation by the task force organized as a result of Senate Concurrent Resolution No. 117, Regular Session of 2006. However, the task force did not draft, review, or approve the specific wording of this legislation.

This measure will enable the Director of Health to petition the court in appropriate cases, on behalf of any individual served by the DOH, for discharge from, or modification of, conditional release. Currently, there is no mechanism for the director to petition the courts when the clinical staff determines that an individual is clinically ready for discharge from conditional release.

Impact on the public: Any measure that will result in decreasing the utilization of bed space at Hawaii State Hospital by those mental health consumers that do not actually require such intense level of services means that more bed space is then available for individuals in the community that do.

Impact on the department and other agencies: The measure may positively impact the census at Hawaii State Hospital by allowing the

Director of Health to apply for discharge from conditional release for those who no longer require this level of supervision. This will free community resources for those who need continued supervision. When a person is on conditional release, it is possible for the person to be readmitted to inpatient care based on violations of conditional release orders which are no longer clinically necessary. In such instances, individuals do not need, nor do they meet clinical criteria for inpatient hospital care. The clinically unwarranted hospitalization of these individuals contributes to a higher inpatient census.

This measure may impact Judiciary court calendars with additional hearings as applications are submitted by the Director of Health for discharge from conditional release, as few if any such motions are now filed with the courts.
