JUSTIFICATION SHEET

DEPARTMENT: Transportation

TITLE: A BILL FOR AN ACT MAKING AN EMERGENCY APPROPRIATION TO THE DEPARTMENT OF TRANSPORTATION FOR THE STATE HIGHWAY SYSTEM.

PURPOSE: To appropriate out of the state highway fund, the sum of \$21,253,032 for fiscal year 2007-2008 to be expended by the department of transportation.

MEANS: Authorize additional appropriation of \$21,253,032 from the state highway fund for fiscal year 2007-2008 to be expended by the department of transportation.

JUSTIFICATION: The appropriation will provide the additional funding necessary that will allow the department of transportation to continue to operate and maintain the state highway system. The additional funding is necessary to enable the department to cover rising costs necessary to operate and maintain the state highway system in fiscal year 2007-2008.

The projected operational requirements exceed the current appropriations for fiscal year 2007-2008.

During the 2007 regular legislative session, the legislature increased the revenues that go into the state highway fund, by approximately \$21,200,000 for fiscal year 2007-2008, by extending the \$3 per day rental vehicle surcharge tax, and increasing the fuel tax on gasoline and diesel oil by \$.01 per gallon. However, while the legislature increased the revenues going into the state highway fund, the Legislature did not effect a corresponding amount appropriated to the department of transportation for the operation and maintenance of the state highway system for fiscal year 2007-2008.

Additional appropriations for fiscal year 2007-2008 are required for the following highway programs:

Program I.D.	Special Fund Increase
TRN 501	\$16,354,092
TRN 511	\$ 514,656
TRN 531	\$ 524,420
TRN 541	\$ 89,099
TRN 551	\$ 25,522
TRN 561	\$ 563,896
TRN 595	\$ 3,181,347

Impact on the public: The supplemental appropriation is essential to the proper maintenance of the highway infrastructure, and is necessary to ensure that state highways are safe and secure. The additional funds will improve the operational efficiency of the Highways Division and provide better service for the public.

Impact on the department and other agencies: This supplemental appropriation from the state highway fund will provide the additional funding necessary to allow the department of transportation to continue to properly operate and maintain the state highway system for fiscal year 2007-2008.

The projected operational and maintenance requirements for the fiscal year 2007-2008 period will exceed the current, authorized legislative appropriation for fiscal year 2007-2008. This additional appropriation from the state highway fund will ensure that adequate funding required to properly operate and maintain the state highway system to ensure the safety of the public is available for the fiscal year 2007-2008 period.

GENERAL FUND: No impact.

OTHER FUNDS: \$21,253,032 from the State highway fund.
