
A BILL FOR AN ACT

RELATING TO ENVIRONMENTAL IMPACT STATEMENTS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that recent court
2 decisions have expanded the situations where an environmental
3 assessment is required beyond those originally intended by the
4 legislature. The courts have found that any use of state or
5 county lands or funds requires an environmental assessment to
6 make a determination whether an environmental impact statement
7 is necessary. The courts have stated that the agency making a
8 determination regarding whether an environmental impact
9 statement is necessary must consider every phase and every
10 expected consequence of the proposed action.

11 Based upon these decisions, an agency, such as the
12 department of transportation or a county transportation service,
13 must consider both primary and secondary phases or consequences
14 of a project on the environment whenever any part of the project
15 involves a public highway.

16 The legislature is concerned about the unintended
17 consequences of the recent court decisions. The impact of the
18 interpretation is that any project that involves the use of a

1 state or county road right-of-way could "trigger" an
2 environmental assessment and an environmental impact statement.
3 Thus, for instance, whenever an access improvement, easement,
4 drainage, or waterline project touches a state or county
5 right-of-way, the action is viewed as a use of state or county
6 lands, and therefore, the entire project is required to comply
7 with the environmental impact statement law as it relates to
8 cumulative impacts.

9 The legislature finds that this interpretation causes
10 problems for small and large landowners and businesses, as they
11 may be required to comply with chapter 343, Hawaii Revised
12 Statutes, for what has historically been a relatively minor
13 utility or access concern.

14 The purpose of this Act is to exempt an existing public
15 street, road, highway, trail, or bikeway from the applicability
16 of the environmental impact statements law.

17 SECTION 2. Section 343-5, Hawaii Revised Statutes, is
18 amended by amending subsection (a) to read as follows:
