WHEREAS, despite the public need for and benefit of adult residential care homes, some communities become concerned when homes are perceived to be excessively concentrated in their neighborhoods; and

WHEREAS, these community concerns and fears can be addressed and mitigated by the presentation to the public of accurate information on the proposed locations and planned operations of adult care homes before their licensure; and

WHEREAS, on Oahu, the neighborhood board system is available for the making of such presentations; now, therefore,

BE IT RESOLVED by the House of Representatives of the Twenty-fourth Legislature of the State of Hawaii, Regular Session of 2008, the Senate concurring, that the Department of Health is requested to encourage each adult care home license applicant to offer to make an informational and educational presentation to the relevant neighborhood board in whose district the applicant's proposed home and planned operation is to be located; and

BE IT FURTHER RESOLVED that the Department of Health is requested to encourage each adult care home license applicant to submit the offer to the relevant neighborhood board as early as possible before a decision on licensure; and

BE IT FURTHER RESOLVED that the Department of Health is requested to submit to the Legislature at least twenty days prior to the convening of the Regular Session of 2009 a report on the Department's action taken; and

BE IT FURTHER RESOLVED that certified copies of this Concurrent Resolution be transmitted to the Director of Health and the Executive Secretary of the Honolulu Neighborhood Commission, who in turn is requested to distribute copies to all neighborhood board chairs.
