
HOUSE CONCURRENT RESOLUTION

REQUESTING THE HAWAII STATE CENTER FOR NURSING TO ENCOURAGE
PARTIES TO WORK TOGETHER FOR THE COMMON GOAL OF INCREASING
THE SUPPLY OF WELL-EDUCATED AND DEDICATED NURSES.

1 WHEREAS, the mission of the Hawaii State Center for Nursing
2 is to ensure that the State of Hawaii has the nursing resources
3 necessary to meet the health care needs of its people; and
4

5 WHEREAS, in 2007, the Center focused on activities that
6 included a supply survey, an updated fact sheet on Hawaii's
7 nursing shortage, an annual educational capacity report on the
8 educational capacity of one hundred per cent of the schools of
9 nursing in Hawaii, the recruitment and retention of nurses in
10 the long term care setting, and a longitudinal study of
11 retention and turnover among newly graduated registered nurses;
12 and
13

14 WHEREAS, other activities of the Center in 2007 included a
15 nurse leadership training program, active participation as a
16 member of the Forum of State Nursing Workforce Centers, updating
17 the Center's strategic plan, development of a new graduate nurse
18 internship program, and a nursing workforce summit; and
19

20 WHEREAS, the Center projects that between 2006 and 2020,
21 the demand for registered nurses in Hawaii is expected to grow
22 by twenty-eight per cent, while the supply of registered nurses
23 is expected to grow by only nine per cent, resulting in a
24 relative shortfall in demand, which will increase from about
25 eleven per cent to twenty-four per cent; and
26

27 WHEREAS, the shortage is expected to be most acutely felt
28 in nursing specialty areas; and
29

30 WHEREAS, the Center points out that one of the prominent
31 factors in the widening gap between the supply and demand of

1 Hawaii's registered nurses over the next fifteen years will be
2 the increase in the retirement by nurses over fifty years of
3 age; and
4

5 WHEREAS, the nursing shortage can only be eliminated
6 through the collaborative and strategic efforts of providers,
7 educators, policy makers, consumers, and labor officials, who
8 must be able to recognize the complexity of bringing the
9 workforce back into equilibrium as against the risk of inaction;
10 and
11

12 WHEREAS, investments made today will not only benefit
13 Hawaii over the next twenty years, but will begin to nurture a
14 proactive culture that will sustain a robust, qualified nursing
15 workforce to meet Hawaii's health care needs into the future;
16 now, therefore,
17
