
HOUSE RESOLUTION

REQUESTING THE UNIVERSITY OF HAWAII JOHN A. BURNS SCHOOL OF
MEDICINE'S TELEHEALTH RESEARCH INSTITUTE TO FORM A TASK
FORCE TO REVIEW THE POTENTIAL EXPANSION OF THE CURRENT
PRACTICES AND EQUIPMENT OF HAWAII'S TELEMEDICINE SYSTEM.

1 WHEREAS, access to knowledgeable and qualified medical
2 doctors is arguably the single most important factor for people
3 to live long and healthy lives; and
4

5 WHEREAS, Hawaii's unique geography as an island chain poses
6 difficulties for patients seeking to access medical doctors
7 without incurring significant travel costs; and
8

9 WHEREAS, other states with access-to-care issues in
10 isolated communities are exploring ways to ease difficulties for
11 both patients and medical doctors, by using methods that allow
12 both parties to travel no further than their own neighborhoods
13 to interact; and
14

15 WHEREAS, one approach to the access problem in Hawaii would
16 be to expand the state's relatively new telemedicine system to
17 include the facilitation of cost effective health care services,
18 coordination of these services, and management of chronic
19 diseases; and
20

21 WHEREAS, greater access to health care through telemedicine
22 would extend medical information and physicians' care throughout
23 the state, without requiring patients to leave their home
24 island; and
25

26 WHEREAS, after telemedicine was first implemented in 1998
27 by former Governor Benjamin Cayetano as a pilot project, it
28 became clear, even in its earliest stage, that there are endless
29 possibilities for telemedicine and associated health care
30 delivery to change lives for the better; and

1 WHEREAS, it would be in the best interest for the residents
2 of Hawaii to continue to explore the possibilities of expanding
3 the current telemedicine and associated health care delivery
4 system to encompass the State's twelve hospitals; now,
5 therefore,

6
