# HOUSE RESOLUTION

REQUESTING THE DEPARTMENT OF ACCOUNTING AND GENERAL SERVICES TO  
CONDUCT A FEASIBILITY STUDY ON REQUIRING RENOVATIONS TO  
STATE BUILDINGS TO MEET LEADERSHIP IN ENERGY AND  
ENVIRONMENTAL DESIGN STANDARDS.

1           WHEREAS, Act 96, Session Laws of Hawaii 2006, introduced  
2 the requirement that new state buildings and facilities be  
3 constructed to meet the Leadership in Energy and Environmental  
4 Design (LEED) silver or two green globes rating system or  
5 another comparable, state-approved, nationally recognized,  
6 consensus based guideline, standard, or system, which is  
7 codified in section 196-9, Hawaii Revised Statutes; and  
8

9           WHEREAS, the new Student Life Center and the new Science  
10 and Technology Building at the University of Hawaii at Hilo were  
11 both constructed to meet LEED standards; and  
12

13           WHEREAS, because the State is not required by law to  
14 incorporate LEED standards into the renovation of existing state  
15 buildings and facilities, renovations to the Edwin H. Mookini  
16 Library or the Performing Arts Center at the University of  
17 Hawaii at Hilo do not meet LEED standards; and  
18

19           WHEREAS, the LEED program of the United States Green  
20 Building Council is recognized as the nationally accepted  
21 benchmark for the design, construction, and operation of high  
22 performance green buildings; and  
23

24           WHEREAS, requiring state buildings to meet standards for  
25 energy efficiency, in the long term, would reduce the State's  
26 energy usage, greenhouse gas emissions, and energy costs borne  
27 by taxpayers; now, therefore,  
28

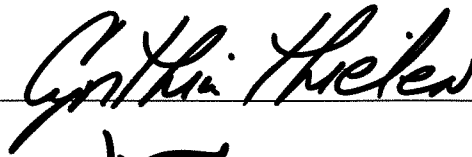

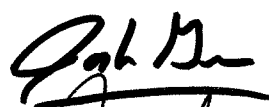

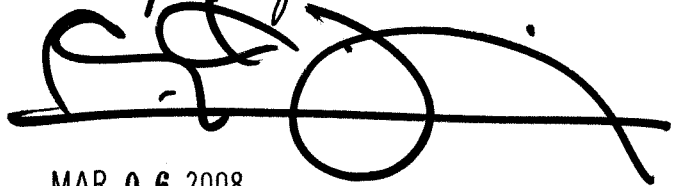

29           BE IT RESOLVED by the House of Representatives of the  
30 Twenty-fourth Legislature of the State of Hawaii, Regular  
31 Session of 2008, that the Department of Accounting and General  
32 Services is requested to conduct a feasibility study on  
33 requiring renovations to existing state buildings and facilities

1 to meet LEED standards or similar standards for energy  
2 efficiency and green building design; and  
3

4 BE IT FURTHER RESOLVED that the Department of Accounting  
5 and General Services is requested to submit to the Legislature a  
6 report of its findings and recommendations, including any  
7 necessary proposed legislation, no later than twenty days prior  
8 to the convening of the Regular Session of 2009; and  
9

10 BE IT FURTHER RESOLVED that a certified copy of this  
11 Resolution be transmitted to the Comptroller.
