## HOUSE RESOLUTION

ENCOURAGING THE DEPARTMENT OF TRANSPORTATION AND COUNTY  
TRANSPORTATION AGENCIES TO ACTIVELY SEEK OPPORTUNITIES TO  
CONSTRUCT MORE ROUNDABOUTS INSTEAD OF SIGNALIZED, RIGHT-  
ANGLE INTERSECTIONS IN THE STATE.

1           WHEREAS, the Insurance Institute for Highway Safety reports  
2 that fatal crashes at intersections nationwide increased  
3 eighteen per cent during the period between 1992 and 1998; and  
4

5           WHEREAS, modern roundabouts are designed to control traffic  
6 flow at intersections without the use of stop signs or traffic  
7 signals; and  
8

9           WHEREAS, in recent years, there has been growing interest  
10 in the potential benefits of roundabouts and an increase in  
11 construction of roundabouts; and  
12

13           WHEREAS, although uncommon in Hawaii, other states and  
14 countries are constructing roundabouts as a safer alternative to  
15 intersections; and  
16

17           WHEREAS, California, Colorado, Florida, Maine, Maryland,  
18 Michigan, Nevada, South Carolina, Vermont, and Washington are  
19 among the states that are constructing modern roundabouts; and  
20

21           WHEREAS, the absence of right angles, combined with the  
22 necessary reduction in speed, makes roundabouts safer for  
23 pedestrians and bicyclists as well as for motorists; and  
24

25           WHEREAS, an eight-state study of twenty-four intersections  
26 before and after construction of roundabouts found a thirty-nine  
27 per cent decrease in crashes and a seventy-six per cent decrease  
28 in crashes that resulted in injury; and  
29

30           WHEREAS, the evidence is clear that constructing properly-  
31 designed roundabouts instead of right-angle intersections in  
32 Hawaii would likely reduce the number of crashes and the number  
33 of injuries suffered by Hawaii motorists; now, therefore,

1  
2  
3  
4  
5  
6  
7  
8  
9  
10  
11  
12  
13  
14  
15

BE IT RESOLVED by the House of Representatives of the Twenty-fourth Legislature of the State of Hawaii, Regular Session of 2008, that the Department of Transportation and county agencies having responsibility for transportation are encouraged to actively seek opportunities to construct more roundabouts instead of signalized, right-angle intersections in the State; and

BE IT FURTHER RESOLVED that certified copies of this Resolution be transmitted to the Director of Transportation and to the Mayor and the Chairperson of the Council of each county.
