
A BILL FOR AN ACT

RELATING TO THE HAWAII HEALTH SYSTEMS CORPORATION.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the State's
2 community hospital system, Hawaii health systems corporation, is
3 the fourth largest public hospital system in the nation. The
4 Hawaii health system corporation's public health facilities
5 provide essential safety-net hospital and long-term care
6 services throughout the state and are often the only hospitals
7 in many rural communities. Due to rapid changes taking place in
8 the health care industry, the legislature acknowledges that the
9 governing structure of our public hospital system must provide
10 the appropriate flexibility and autonomy needed to compete and
11 remain viable and respond to the needs of the specific
12 communities served by furthering the development of centers of
13 excellence in health care.

14 The current administrative arrangement places the public
15 hospital system in a single statewide quasi-public agency, the
16 Hawaii health systems corporation. This arrangement is the
17 result of landmark legislation, Act 262, Session Laws of Hawaii

1 1996 (Act 262), after years of study. Act 262 was largely the
2 result of the work of a task force established pursuant to Act
3 266, Session Laws of Hawaii 1994, charged with studying the
4 establishment of an agency for community hospitals, then a
5 division of the department of health. On December 20, 1994, the
6 task force issued its report to the governor and the legislature
7 entitled "The Preliminary Report of the Governor's Task Force on
8 the Establishment of an Agency for Community Hospitals." Many
9 of the recommendations of the task force were adopted by the
10 legislature, resulting in passage of Act 262, and the creation
11 of the Hawaii health systems corporation in 1996.

12 One significant recommendation of the task force included
13 the establishment of regional boards of directors, along with
14 the system-wide board. The task force stated that:

15 "The Hawaii Health Systems Corporation should
16 administer the state facilities in a decentralized
17 fashion, with the facilities to be grouped into five
18 regions. Three regions should be formed for the
19 facilities of Kauai, Oahu and Maui Counties
20 respectively, and the Big Island should be divided
21 into Eastern and Western regions.

1 Each region should have an operating Board of Directors
2 consisting of nine members. Regional Boards should be
3 initially appointed by the Governor with the advice and
4 consent of the Senate, and should subsequently be self
5 perpetuating (i.e., with future Board appointments made
6 by the current Board)."

7 During the 1996 conference committee hearings on S.B.
8 No. 2522, which ultimately became Act 262, the regional board
9 concept was replaced with regional management advisory
10 committees. The management advisory committees represent the
11 communities in which the hospitals are located and meet with the
12 management of the facilities and the executives of the Hawaii
13 health systems corporation to give the communities a voice in
14 the provision of these vital safety-net hospital services.

15 However, the legislature finds that the Hawaii health
16 systems corporation has developed strong administrative and
17 clinical leadership in all five regions and is now ready for the
18 implementation of a pilot program in the Maui region to
19 investigate the effects of implementation of the regional board
20 recommendation and whether the regional board concept would
21 enhance the ability of local communities and stakeholders to
22 participate in the decision-making and operation of their own

1 community hospitals. While the management advisory committees
2 have been diligent in representing the communities, their role
3 has been solely advisory. This pilot program will provide
4 insight into the benefits of local operation of community
5 hospitals through an independent regional board.

6 The Maui region hospitals, through the Hawaii health
7 systems corporation, should still engage in state-wide
8 activities where a system-wide approach may provide economies of
9 scale, efficiencies, and inter-regional collaboration and
10 cooperation.

11 The purpose of this Act is to advance the State's
12 commitment to provide quality health care for the people of the
13 Hawaii, by moving forward on the original task force
14 recommendation of community-based governance and establishing a
15 Maui regional affiliate corporation pilot program for the Maui
16 region, to be governed by a community-based regional board of
17 directors, and to provide the necessary authority for the Maui
18 regional affiliate corporation pilot program to accomplish the
19 goal of community-based governance.

20 SECTION 2. Chapter 323F, Hawaii Revised Statutes, is
21 amended by adding four new sections to be appropriately
22 designated and to read as follows:
