

MAR 13 2008

SENATE RESOLUTION

REQUESTING HAWAII'S CONGRESSIONAL DELEGATION TO INTRODUCE AND
SUPPORT FEDERAL LEGISLATION TO IMPROVE THE VIABILITY OF
HAWAII'S GEOGRAPHICALLY DISADVANTAGED FARMERS AND RANCHERS.

1 WHEREAS, in Hawaii, there is an exceptional dependence on
2 sea and air transportation as a means of distributing
3 agricultural products to destination markets; and
4

5 WHEREAS, there is inadequate port, harbor, and airport
6 infrastructure for Hawaii's farmers and ranchers to compete in
7 local, domestic, and international markets and to meet food
8 safety guidelines; and
9

10 WHEREAS, Hawaii suffers from unfavorable maritime freight
11 rates compared to more active trade lanes, especially for
12 westbound cargo in Pacific trade lanes, making it difficult to
13 supply Asian markets and to acquire imports from United States
14 mainland sources; and
15

16 WHEREAS, the United States Department of Agriculture
17 submitted a report to Congress in November 2003 entitled, *Report*
18 *on Geographically Disadvantaged Farmers and Ranchers*, ("Report")
19 which examined the transportation disadvantages experienced by
20 farmers and ranchers in noncontiguous states of the United
21 States ("noncontiguous states") and United States territories
22 ("territories") as they relate to the movement of farm products;
23 and
24

25 WHEREAS, the Report recognized that agricultural shippers
26 in the noncontiguous states and territories do not have access
27 to adequate transportation infrastructure and equipment
28 necessary to be competitive; and
29

30 WHEREAS, the Report also recognized that the strong
31 reliance on imports from the United States mainland drives up
32 input costs in the noncontiguous states and territories, and
33 leaves them vulnerable to transportation disruptions; and
34

1 WHEREAS, as a result of the geographical disadvantage faced
2 by Hawaii's farmers and ranchers, Hawaii has only two dairies
3 and four egg farms left in the State and has lost numerous other
4 agricultural producers; now, therefore,
5

6 BE IT RESOLVED by the Senate of the Twenty-fourth
7 Legislature of the State of Hawaii, Regular Session of 2008,
8 that Hawaii's congressional delegation is requested to introduce
9 and support federal legislation that will:
10

11 (1) Improve the competitiveness of Hawaii's farmers and
12 ranchers with regard to transportation in the domestic
13 and international marketplace with the long-term goal
14 of seeking parity between Hawaii's farmers and
15 ranchers and their mainland counterparts;
16

17 (2) Address transportation barriers, including inadequate
18 port, harbor, and airport infrastructure, that inhibit
19 the ability of neighbor island farmers and ranchers to
20 transport to Oahu markets, and on a statewide level of
21 farmers and ranchers to transport to foreign and
22 domestic markets; and
23

24 (3) Address the costs to transport an agricultural
25 commodity, or inputs used to produce an agricultural
26 commodity in a geographically disadvantaged state such
27 as Hawaii; and
28

29 BE IT FURTHER RESOLVED that the State Department of
30 Agriculture is requested to work with its federal counterparts
31 to effectuate the purposes of this Resolution; and
32

33 BE IT FURTHER RESOLVED that certified copies of this
34 Resolution be transmitted to members of Hawaii's
35 congressional delegation, the Secretary of the United States
36 Department of Agriculture, and the Chairperson of the State
37 Board of Agriculture.
