

JAN 19 2007

A BILL FOR AN ACT

RELATING TO HEALTH.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that in July 2001, the
2 *Surgeon General's Call to Action to Promote Sexual Health and*
3 *Responsible Sexual Behavior* was released. Citing research
4 findings on the effectiveness of various program interventions,
5 the Surgeon General's report stresses the importance of sex
6 education that balances the encouragement of abstinence with an
7 awareness of optimal protection from sexually transmitted
8 diseases and unintended pregnancy for those who are sexually
9 active. In its set of national goals for improved public
10 health, known as *Healthy People 2010*, the United States
11 Department of Health and Human Services also emphasizes the need
12 to reduce teenage pregnancy and sexually transmitted disease
13 rates in part using comprehensive sex education programs.

14 In order to help students make decisions that promote
15 healthy behaviors, the department of education instructs
16 students that abstention from sexual intercourse is the surest
17 and most responsible way to prevent unintended pregnancies,

1 sexually transmitted diseases, and the consequent emotional
2 distress.

3 The purpose of this Act is to require any recipient of
4 state funding that provides sexual health education to provide
5 medically accurate, factual information that is age-appropriate
6 and includes education on both abstinence and contraception.

7 SECTION 2. Chapter 321, Hawaii Revised Statutes, is
8 amended by adding a new section to be appropriately designated
9 and to read as follows:

10 "§321- Sexual health education; requirements. (a) Any
11 recipient of state funding that provides sexual health education
12 shall provide medically accurate, factual information that is
13 age-appropriate and that includes education on both abstinence
14 and contraception for the prevention of pregnancy and sexually
15 transmitted diseases, including HIV.

16 (b) For purposes of this section:

17 "Age-appropriate" means suitable to a particular age or age
18 group based on the developing cognitive, emotional, and
19 behavioral capacity typical for that age or age group.

20 "Factual information" means medical, psychiatric,
21 psychological, empirical, or statistical information or
22 statement that is supported by peer-reviewed research by leading

1 medical, psychiatric, psychological, and public health
2 organizations and agencies.

3 "Medically accurate" means verified or supported by
4 research conducted in compliance with scientific methods and
5 published in peer-reviewed journals, where appropriate, and
6 recognized as accurate and objective by professional
7 organizations and agencies with expertise in the relevant field,
8 such as the federal Centers for Disease Control and Prevention,
9 the American Public Health Association, the American Academy of
10 Pediatrics, and the American College of Obstetricians and
11 Gynecologists.

12 "Sexual health education" means education in any medium
13 regarding human development and sexuality, including education
14 on pregnancy, family planning, and sexually transmitted
15 diseases."

16 SECTION 3. New statutory material is underscored.

17 SECTION 4. This Act shall take effect upon its approval.
