DEPARTMENT: University of Hawaii

TITLE: A BILL FOR AN ACT RELATING TO THE BOARD OF REGENTS OF THE UNIVERSITY OF HAWAII.

PURPOSE: To authorize the Board of Regents to develop internal policies and procedures for the procurement of goods, services, and construction not subject to chapter 103D, Hawaii Revised Statutes.

MEANS: Amend section 304A-105(b), Hawaii Revised Statutes.

JUSTIFICATION: This bill would reinstate the authority to develop procurement policies and procedures previously conferred upon the Board of Regents by Act 115, Session Laws of Hawaii 1998. Act 115 amended various statutes pertaining to the University of Hawaii for the purpose of delegating substantially increased authority to the Board of Regents over the management of the real and personal assets of the University. This legislation largely resulted from the evaluation and recommendations of an economic revitalization task force convened by the Governor, the President of the Senate, and the Speaker of the House that concluded that the University of Hawaii should be provided greater autonomy over its affairs through the delegation of increased decision-making authority and responsibility to the Board of Regents and the University administration.

Act 216, Session Laws of Hawaii 2004 (H.B. No. 2136), effective on January 1, 2005, repealed various statutory exemptions to the Hawaii Public Procurement Code, and specifically amended section 304-4, Hawaii Revised Statutes, to eliminate the authority of the Board of Regents to develop policies and procedures specific to the procurement of goods, services and construction on

behalf of the University, not subject to the requirements imposed by chapter 103D. The proposed bill would restore the statutory language in subsection (d) of section 304-4, Hawaii Revised Statutes, which was eliminated by Act 216, so that the Board of Regents would again be afforded the managerial flexibility to develop procurement procedures, not subject to chapter 103D, to meet the specific needs and operational requirements of the University. In this way, the University of Hawaii would have the same procurement authority as that enjoyed by the Research Corporation of the University of Hawaii, which remained exempt from the requirements of the Hawaii Public Procurement Code even with the enactment of Act 216.
