THE SENATE TWENTY-FOURTH LEGISLATURE, 2007 STATE OF HAWAII

S.B. NO. ¹⁹³³ S.D. 1

A BILL FOR AN ACT

PART I. FINANCIAL AND ACADEMIC ACCOUNTABILITY

RELATING TO EDUCATION.

1

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

2 SECTION 1. The legislature finds that individual public 3 schools often need assistance to meet state accountability 4 requirements for both fiscal and academic performance. In the 5 past, the department of education district offices provided significant assistance to schools. However, with the emphasis 6 7 on compliance with new federal and state requirements, the services available for schools at the complex area or district 8 9 level have not kept pace with the needs of the schools.

10 The legislature further finds that the implementation of 11 the weighted student formula as described in Act 51, Session 12 Laws of Hawaii 2004, has often made it more difficult for 13 schools to pool their resources to create complex area services 14 and make complex area purchases of learning materials.

15 Complex areas were established to allow each administrator 16 to better focus on supporting the needs of their schools, while 17 providing more meaningful supervision and accountability

1 expectations of the principals and schools. Thus, business and 2 management services should be addressed and provided in a 3 comprehensive manner within each complex area. This may include 4 the reallocation of position, services, duties, and powers from 5 different levels within the department of education to provide 6 maximum efficiency and effectiveness in our schools.

7 The legislature finds that with the emphasis on student testing results for reading and math, difficult choices at the 8 9 school level have made it challenging for schools to retain 10 important programs in the arts, physical education, and virtual 11 education. Specifically, it is well known that participation in 12 the performing and visual arts not only enriches student life, but also contributes to greater student achievement. For many 13 14 students, hands-on learning opportunities for self expression 15 are keys to a healthier self esteem and improved classroom behavior. A complete education is one in which a young person 16 17 is given continuous opportunities for expression through the 18 arts.

19 The ability of school communities to purchase high quality
20 learning materials is crucial for a dynamic and effective
21 education system. These materials may include traditional text
22 books, virtual or computer-based text books, or novels.

2007-1719 SB1933 SD1 SMA.doc

Page 3

The purpose of this part is to achieve the following: 1 Create greater emphasis and funding within the 2 (1)department of education at the complex area level for 3 services and procurement of learning materials aligned 4 throughout the complex; 5 Create in each complex area, a business service (2)6 center, and an education service center to provide 7 8 greater support to schools within each complex; (3)Provide funds at the complex area level for training 9 10 and the professional development of school community 11 councils; 12 (4) Provide additional funds to allow schools to purchase business services to ensure that the schools are using 13 their best accounting and record keeping practices and 14 are prepared for a financial audit; and 15 16 (5) Encourage schools to pool their resources to achieve 17 the purposes of these funds. 18 SECTION 2. There is appropriated out of the general 19 revenues of the State of Hawaii the sum of \$, or so much thereof as may be necessary for fiscal year 2007-2008, and 20 21 , or so much thereof as may be necessary for fiscal \$ year 2008-2009, for each complex area and the charter school 22 2007-1719 SB1933 SD1 SMA.doc

administrative office to provide funds to complex area
 department schools and to charter schools to purchase business
 services either from the department of education or other
 sources to assist the school in adopting best practices for
 accounting and recordkeeping.

6 The sums appropriated shall be expended by the department 7 of education to assist the school community councils or local 8 school boards with the goal of ensuring that each school is 9 prepared for a financial audit. The department of education 10 shall transfer the appropriate amount for each student to the 11 charter school administrative office no later than July 15 of 12 each year for distribution to the charter schools.

13 SECTION 3. There is appropriated out of the general 14 revenues of the State of Hawaii the sum of \$, or so 15 much thereof as may be necessary for fiscal year 2007-2008, and 16 \$, or so much thereof as may be necessary for fiscal 17 year 2008-2009, to assist each complex area and school community 18 councils to purchase training and professional development.

19 The sums appropriated shall be expended by the department20 of education for purposes of this part.

21 SECTION 4. There is appropriated out of the general
22 revenues of the State of Hawaii the sum of \$, or so

1 much thereof as may be necessary for fiscal year 2007-2008, and 2 Ś , or so much thereof as may be necessary for fiscal 3 year 2008-2009, for the department of education complex areas 4 and the charter school administrative office to provide funds to 5 schools for arts education, physical education, mathematics and science learning materials, including virtual learning materials 6 7 and programs; provided that mathematics and science learning 8 materials purchased by the schools shall be aligned with 9 curricula throughout the complex. The department of education 10 shall transfer the appropriate pro rated amounts of this 11 appropriation for charter schools to the charter school 12 administrative office no later than July 15 of each year for 13 distribution to the charter schools.

14 The sums appropriated shall be expended by the department 15 of education for the purposes of this part.

16

PART II. EDUCATION AND WORKFORCE DEVELOPMENT

SECTION 5. The legislature finds that smaller learning communities within the department of education have met with great success and have proven to be highly conducive to learning. The legislature further finds that the State can benefit from the establishment of applied learning high school academies-department of education high schools, including

1 schools within schools, with approved five-year plans to deliver 2 applied learning curriculum, including project EAST 3 (environmental and spatial technology) programs and STEM (science, technology, engineering, and mathematics) programs, 4 linked to the missions of state agencies or University of Hawaii 5 campuses, colleges, programs, or departments, which includes 6 significant contributions of land, facilities, personnel, or 7 8 other resources by the agencies or university units. 9 SECTION 6. There is appropriated out of the general revenues of the State of Hawaii the sum of \$ 10 , or so 11 much thereof as may be necessary for fiscal year 2007-2008, for 12 the establishment of an applied learning high school academy 13 program as provided under this part. 14 The sum appropriated shall be expended by the department of 15 education for the purposes of this part. 16 TEACHER PREPARATION, PROFESSIONAL DEVELOPMENT, PART III. 17 AND RESEARCH PROGRAMS The legislature finds that recruitment and 18 SECTION 7. 19 retention of qualified teachers for Hawaii's public schools 20 continues to be a challenge for Hawaii's department of education 21 and charter schools, as well as the teacher education community. 22 The University of Hawaii's college of education plays a major 2007-1719 SB1933 SD1 SMA.doc

role in the education of future teachers, continued professional
 development of educators, and programs that lead to licensing,
 certificate programs, mentoring of teachers, educational
 research, and policy studies.

5 The legislature further finds that the strategic plan of
6 the University of Hawaii at Manoa calls for an ongoing
7 commitment to public education in Hawaii.

8 The legislature further finds that teachers have expressed great frustration with the implementation of and compliance with 9 the No Child Left Behind Act. Since its enactment, there has 10 been a significant amount of experience and analysis of the 11 12 effectiveness of the No Child Left Behind Act approach to 13 assessments and standards. At the same time, many school 14 systems, including the Hawaii state department of education, have sought to utilize nationally produced assessment 15 16 instruments that have not always met the needs of our 17 communities. In fact, the State, like many others, has not 18 taken full advantage of the flexibilities that are offered by federal law. It is also apparent that referencing our standards 19 requirements to a law that may be modified or repealed may limit 20 21 the State's options.

2007-1719 SB1933 SD1 SMA.doc

S.B. NO. ¹⁹³³ S.D. 1

9

1	The	legislature further finds that greater collaboration
2	between t	he University of Hawaii's many educational resources,
3	including	the Hawaii educational policy center and the
4	departmen	t of education, will benefit all of Hawaii's students.
5	Spec	ifically, this part includes appropriations for the
6	following	programs:
7	(1)	Teacher education capacity (fiscal year 2007-2008:
8		\$65,000; fiscal year 2008-2009: \$130,000). To
9		continue efforts to fill the State's need for
10	·	qualified teachers for Hawaii's keiki, this
11		appropriation for additional permanent positions in
12		fiscal year 2007 and another in fiscal year 2008 for
13		the college of education allows the school to accept
14		more qualified students into teacher education
15		programs, thus increasing the number and quality of
16		locally produced teachers in shortage areas such as
17		mathematics, science, and, in keeping the P-20
18		initiative, early childhood education;
19	(2)	Supporting the center on disability studies (fiscal
20		year 2007-2008: \$120,000; fiscal year 2008-2009:
21		\$120,000). To meet federal grant requirements for
22		institutional support, the center on disability

S.B. NO. ¹⁹³³ S.D. 1

studies requests two additional permanent faculty 1 positions. The center on disability studies operates 2 with only one general-funded position. The additional 3 4 positions will enable the center on disability studies to further expand its ability to obtain additional 5 grant funds and, therefore, its outreach to serve the 6 7 increasing numbers of persons with disabilities. The center on disability studies works through training, 8 research, and service to improve quality of life for 9 people with disabilities throughout the State, and 10 currently manages more than eighty-eight faculty and 11 staff members and fifty projects with a budget of over 12 \$15,000,000; 13 (3) Funding for mentor teachers (fiscal year 2007-2008: 14 \$125,000; fiscal year 2008-2009: \$125,000). 15 16 Cooperating teachers/counselors and observation/participating teachers in grades 17 kindergarten through twelve classrooms throughout the 18 State provide an essential service to the college of 19 20 education by supervising and mentoring full-time student teachers and other education practicum 21

S.B. NO. ¹⁹³³ S.D. 1

students in the field required for licensure. Funding 1 2 for this item is requested to: 3 (A) More appropriately compensate mentor teachers for the additional work they provide in developing 4 Hawaii's teacher workforce; and 5 Put mentor compensation on par with other 6 (B) 7 institutions of higher learning in the State; Funding for schools to apply to become professional (4)8 development schools (fiscal year 2007-2008: \$250,000; 9 fiscal year 2008-2009: \$250,000). Schools in 10 reconstruction status under the federal No Child Left 11 Behind law may compete for grants that address 12 standards-based learning, teacher preparation, and 13 professional development by the placement of faculty 14 within the school to work with future and current 15 teachers; 16 Permanent special education faculty (fiscal year 17 (5) 18 2008-2009: \$500,000). The State of Hawaii's need for 19 more qualified special is allocated teachers is 20 increasing. In order to fulfill this need, the college of education requests funds to hire seven 21 22 permanent faculty and one full-time staff person in

S.B. NO. ¹⁹³³ S.D. 1

11

1 the special education department. These positions have been funded by the Hawaii department of education 2 3 under a memorandum of agreement with the college of education, which, if discontinued, would severally 4 impact the college of education's ability to produce 5 qualified special education teachers; 6 (6) Funding responsibility for the master of education in 7 8 teaching program (fiscal year 2007-2008: \$700,000; fiscal year 2008-2009: \$700,000). Transfer funding 9 10 for the master of education in teaching program from the department of education to the college of 11 12 education and expand stipends to include native Hawaiian cohort teachers. The master of education in 13 14 teaching program is a two-year program, including two semesters of field experience in grades kindergarten 15 16 through twelve classroom settings. During the fourth 17 semester, teacher candidates work as teacher interns, 18 whereby they fill a vacated department of education 19 teacher position and are the teacher of record from January to the end of the department of education 20 calendar year. The funds are used to pay mentor 21 teachers in the program and stipends to the student 22

S.B. NO. ¹⁹³³ S.D. 1

22

1		interns in both the on-going master of education in
2		teaching program cohort and to expand funding to
3		include the native Hawaiian master of education in
4		teacher program cohort;
5	(7)	Provide funding for the office of school redesign at
6		the University of Hawaii at Manoa (fiscal year
7		2007-2008: \$300,000; fiscal year 2008-2009:
8		\$300,000). The office of school redesign will provide
9		technical support to public secondary schools and help
10		in the development and implementation of small
11		learning communities within large secondary schools
12		throughout the State. With the appropriated moneys,
13		the office will:
14		(A) Maintain a research database on the creation and
15		effectiveness of small redesigned secondary
16		schools;
17		(B) Lead state advocacy efforts for the creation of
18		small redesigned secondary schools;
19		(C) Provide technical assistance to schools engaging
20		in redesign through professional development
21		institutes, facilitating/arranging visitations to
22		exemplary or merging sites in Hawaii and

13

1			elsewhere, and preparing/supporting a cadre of
2			on-site coaches;
3		(D)	Develop and promote connections and professional
4			development opportunities for learning and
5			sharing among local change agents;
6		(E)	Participate with national networks of
7			practitioners and researchers involved in
8	· ·		launching or redesigning schools and school
9			systems;
10		(F)	Promote the concept of a research cadre that will
11			be involved in developing, documenting, and
12			disseminating understandings about school
13			redesign, and contributing to a research
14	. ·		database. Promote and facilitate dialogue among
15			various school stakeholders with respect to the
16			most current research and understandings about
17			school redesign;
18		(G)	Foster communication among educators, decision-
19			makers, and the greater community to advance
20			secondary school redesign; and
21		(H)	Assist schools in preparing grant applications to
22			advance redesign activities;

Page 14

1 (8) Continue to support the collaboration of the college 2 of education in filling the gap in producing highly 3 qualified teachers. The Teach for America program in Hawaii is a partnership of the Hawaii department of 4 education, the University of Hawaii college of 5 education, and the national Teach for America program 6 7 with support from the state legislature, the governor's office, and private 8 foundations/corporations. The intent is to provide 9 highly qualified teachers in traditionally hard to 10 fill areas such as mathematics, science, and special 11 education, to serve in high poverty, high need 12 communities. These are areas that the institutions of 13 higher education in Hawaii collectively have been 14 consistently unable to address. Teach for America is 15 16 currently recruiting teachers to fill Hawaii 17 vacancies. The funds are to provide a masters of education in teaching degree for newly hired Teach for 18 19 America teachers (4 positions for fiscal year 2007-2008: \$250,000; 4 positions for fiscal year 20 21 2008-2009 \$250,000); and

S.B. NO. ¹⁹³³ S.D. 1

15

Create a seamless career pathway from high school to (9) 1 2 community college to baccalaureate completion preparing educational assistants and teachers to fill 3 high need areas through Leeward community college and 4 the University of Hawaii at Manoa college of 5 education. Leeward community college and the college 6 of education will work together to recruit, train, and 7 8 retain prospective educational assistants, 9 paraprofessionals, and elementary and secondary 10 teachers by combining resources to reach out to 11 community members interested in pursuing a career in 12 education. Leeward community college will provide education training resulting in an associate of arts 13 14 in teaching degree. The college of education will accept Leeward community college associate of arts in 15 teaching degree holders into an upper division cohort 16 17 specially designed for associate of arts in teaching 18 graduates that will lead to state teacher licensure. Courses will be delivered in Leeward communities 19 20 through face-to-face, distance learning, and/or hybrid 21 instruction. Leeward community college requests 2.5 22 positions (fiscal year 2007-2008: \$158,000; fiscal

S.B. NO. ¹⁹³³ S.D. 1

1	year 2008-2009: \$158,000). College of education
2	requests 3.5 positions (fiscal year 2007-2008:
3	\$255,000; fiscal year 2008-2009: \$255,000).
4	The legislature further finds that currently the public
5	school system in Hawaii is not graduating adequate numbers of
6	students with basic science, technology, engineering, and
7	mathematics (STEM) skills to meet the workforce demands of the
8	State. An emphasis must be placed on programs to develop skills
9	in these areas to prepare our students for challenging careers
10	in this global society where STEM disciplines have become much
11	more prominent. In order to properly educate and prepare
12	students in the STEM disciplines, the State must invest in the
13	training of an educated teaching workforce to help to ensure
14	that our students will succeed in the workforce. The
15	legislature finds that the quality of STEM teaching in Hawaii's
16	schools will be improved by providing enhanced professional
17	development opportunities for practicing teachers.
18	The purpose of this part is to provide funding for key
19	programs that will increase the capacity of the college of
20	education to educate qualified teachers, meet federal
21	requirements for institutional support of disability studies,
22	expand teacher professional development and mentoring programs,
	2007-1719 SB1933 SD1 SMA.doc

Page 17

1?

and transfer the office of school redesign from the department
 of education to the University of Hawaii. In addition, this
 part will:

- 4 (1) Establish the research experience for teachers program
 5 to support the development of middle school teacher
 6 STEM skills and knowledge and develop middle school
 7 curriculum for STEM subjects and provide funding
 8 therefor;
- 9 (2) Establish a professional development program for
 10 grades kindergarten through twelve teachers and
 11 provide funding therefore;
- 12 (3) Clarify the dual purposes of the Hawaii educator loan13 program;
- 14 (4) Amend the amounts of loan forgiveness for the Hawaii15 educator loan program;
- 16 (5) Appropriate funds for the Hawaii teacher cadet17 program; and
- 18 (6) Appropriate funds for induction teacher mentoring for
 19 new teachers and teachers who are new to Hawaii at a
 20 fifteen-to-one teacher to mentor ratio.
- 21 SECTION 8. (a) There is established the research
- 22 experiences for teachers program, which shall be administered by

S.B. NO. ¹⁹³³ S.D. 1

the University of Hawaii college of engineering. The purpose of 1 2 the research experiences for teachers program shall be to support the development of middle school teacher skills and 3 4 knowledge and the development of middle school curriculum materials in science, technology, engineering, and mathematics 5 (STEM) subject areas, with a particular focus on wireless 6 communications. 7 8 (b) The research experiences for teachers program shall: (1) Educate teachers in the advances in technology in 9 10 wireless communications and engineering; 11 (2)Enhance teacher research skills through the use of 12 software and innovative uses of equipment; 13 (3)Provide teacher participants with hands on research 14 experiences; 15 Support teachers in developing classroom lessons and (4)16 program activities that meet their course objectives 17 and student performance standards; and Provide opportunities to share and collaborate with 18 (5) 19 other teacher participants to ensure successful implementation of curricula and programs. 20 21 The research experiences for teachers program shall (C) include but not be limited to the following activities: 22

S.B. NO. ¹⁹³³ S.D. 1

1	(1)	Providing on-site lectures, demonstrations, and
2		laboratory tours at the University of Hawaii and
3		middle schools;
4	(2)	Reviewing wireless communication concepts, methods,
5		history, and applications;
6	(3)	Reviewing engineering and relevant science concepts,
7		research methodology, and real-world applications;
8	(4)	Reviewing key components of inquire-based teaching
9		materials;
10	(5)	Providing teachers with technical content support;
11	(6)	Assisting teachers in adapting state-of-the-art
12		engineering research into a meaningful classroom
13		experience for students;
14	(7)	Providing semiannual video conference/seminar to
15		transfer relevant information and experiences among
16		teacher participants and sponsors;
17	(8)	Providing summer engineering workshops for teachers;
18		and
19	(9)	Maintaining a website for content and program
20		dissemination.
21	SECT	ION 9. There is established within the University of
22	Hawaii a j	professional development program to provide practicing

S.B. NO. ¹⁹³³ S.D. 1

20

elementary, middle, and high school teachers of science and 1 . 2 mathematics with opportunities to increase their knowledge and understanding of recent developments in science, technology, 3 engineering, and mathematics. The professional development 4 program shall be open to both certificated and non-certificated 5 teachers. Design of the professional development program shall 6 7 include evaluation of best practices in other school 8 jurisdictions. In recognition that the year-round public school 9 calendar has shortened the summer period, that not all schools are on the same academic calendar, and that programs throughout 10 the year, offered in a variety of formats, would facilitate 11 immediate implementation in the classroom, the program shall 12 13 have the following attributes: 14 Flexibility-the program shall provide a variety of (1)options designed to meet the specific needs of 15 Hawaii's teachers, which may include summer 16 17 institutes, a combination of summer, after school, or weekend institutes, distance learning through video 18

conferencing or other mechanisms, neighbor islandlocations, or other options; and

S.B. NO. 5.D. 1

1	(2) Accountability-the program shall provide a method to
2	track the student outcomes derived from participation
3	in the program.
4	The goal of the professional development program for
5	practicing teachers shall be to provide training for two
6	thousand six hundred teachers during the 2007-2009 biennium.
7	SECTION 10. Section 304A-701, Hawaii Revised Statutes, is
8	amended to read as follows:
9	"[[]§304A-701[]] Hawaii educator loans; eligibility;
10	amounts[-]; forgiveness. (a) There is created the Hawaii
11	educator loan program to be administered by the University of
12	Hawaii, [to provide financial support to students who complete]
13	the purpose of which is to:
14	(1) Provide recruitment incentives for students to enroll
15	in state-approved teacher education programs; and
16	(2) Provide a retention incentive for teachers who have
17	graduated from a state-approved teacher education
18	program and who agree to teach in the Hawaii public
19	school system.
20	Eligibility shall be awarded by the university to students on a
21	competitive basis.

2007-1719 SB1933 SD1 SMA.doc

22

1 The amount to be loaned to a student under the (b) recruitment incentive loan portion shall be determined by the 2 3 board of regents based on need for financial aid and proof of 4 acceptance into a state-approved teacher education program at 5 the university. The maximum amount of loans that a student may 6 receive under this program shall be an aggregate amount 7 equivalent to tuition payments and costs of textbooks and other 8 instructional materials necessary to complete a state-approved 9 teacher education program. 10 (c) Any loan provided under this section shall be eligible loan forgiveness as provided under section 304A-702." 11 12 SECTION 11. Section 304A-702, Hawaii Revised Statutes, is 13 amended as follows: 1. By amending subsection (b) to read: 14 15 "(b) Upon a showing of proof that the loan recipient has 16 completed a state-approved teacher education program and is 17 employed as a full-time teacher in the Hawaii public school system, [one-tenth] per cent of the total amount of the loan 18 19 and interest shall be waived for every year of the first [five] 20 three years, and the remaining balance shall be waived after the 21 sixth year that a loan recipient teaches in a Hawaii public 22 school in a hard-to-fill position as determined by the

superintendent of education, including special education, 1 regular education shortage categories, or Title 1 schools, and 2 in one of the following capacities: 3 As an elementary school teacher teaching in the field 4 (1)5 of elementary education who has met standards as set forth by the Hawaii teacher standards board; or 6 (2) As a secondary school teacher teaching in the subject 7 area that is relevant to the loan recipient's academic 8 9 major as certified by the department of education who has met standards as set forth by the Hawaii teacher 10 standards board." 11 2. By amending subsection (d) to read: 12 13 "(d) If a loan recipient subject to this section fails to 14 teach in the Hawaii public school system for a minimum of [ten] six consecutive years from the loan recipient's original date of 15 employment with the department of education $[\tau]$ or a charter 16 school, excluding sabbatical and other forms of temporary leaves 17 of absence, then the loan recipient shall repay any remaining 18 loan balance at the rate of ten per cent simple interest." 19 20 SECTION 12. There is appropriated out of the general 21 revenues of the State of Hawaii the sum of \$, or so much thereof as may be necessary for fiscal year 2007-2008, and 22 2007-1719 SB1933 SD1 SMA.doc 23

S.B. NO. ¹⁹³³ S.D. 1

24

1 the same sum, or so much thereof as may be necessary for fiscal 2 year 2008-2009, for the University of Hawaii to carry out the 3 purposes of this part, including the hiring of necessary staff; provided that: 4 (1) For fiscal year 2007-2008, the sums appropriated shall 5 be allocated as follows: 6 \$65,000 for an additional position for the 7 (A) college of education to increase teacher 8 education capacity; 9 \$120,000 for 2.0 (FTE) positions for the center 10 (B) on disability studies; 11 12 (C) \$125,000 for funding mentor teachers; 13 \$250,000 to enable schools to apply to become (D) professional development schools; 14 15 (E) \$700,000 for the master of education in teaching 16 program; \$300,000 for the office of school redesign; 17 (F) \$250,000 for the college of education to fund 18 (G) 19 masters of education in teaching degrees for 20 teachers; \$158,000 for 2.5 (FTE) positions for Leeward 21 (H) community college for educational training; 22

S.B. NO. ¹⁹³³ S.D. 1

25

1		(I)	\$255,000 for 3.5 (FTE) positions for the college
2			of education for educational training; and
3		(J)	\$ for the Hawaii educator loan program.
4	(2)	For	fiscal year 2008-2009, the sums appropriated shall
5		be a	llocated as follows:
6		(A)	\$130,000 shall be for 2.0 (FTE) positions for the
7			college of education to increase teacher
8			education capacity;
9		(B)	\$120,000 for 2.0 (FTE) positions for the center
10			on disability studies;
11		(C)	\$125,000 for funding mentor teachers;
12		(D)	\$250,000 to enable schools to apply to become
13			professional development schools;
14		(E)	\$500,000 for permanent special education faculty;
15		(F)	\$700,000 for the master of education in teaching
16			program;
17		(G)	\$300,000 for the office of school redesign;
18		(H)	\$250,000 for the college of education to fund
19			masters of education in teaching degrees for
20			teachers;
21		(I)	\$158,000 for 2.5 (FTE) positions for Leeward
22			community college for educational training;

S.B. NO. ¹⁹³³ S.D. 1

(J) \$255,000 for 3.0 (FTE) positions for the college
 of education for educational training; and
 (K) \$ for the Hawaii educator loan program.
 The sums appropriated shall be expended by the University
 of Hawaii.

6 SECTION 13. There is appropriated out of the general 7 revenues of the State of Hawaii the sum of \$187,905, or so much 8 thereof as may be necessary for fiscal year 2007-2008, and the 9 sum of \$250,540, or so much thereof as may be necessary for 10 fiscal year 2008-2009, for the research experiences for teachers 11 program.

12 The sums appropriated shall be expended by the University13 of Hawaii for the purposes of this part.

SECTION 14. There is appropriated out of general revenues of the State of Hawaii the sum of \$350,000, or so much thereof as may be necessary for fiscal year 2007-2008, and the amount of \$700,000, or so much thereof as may be necessary for fiscal year 2008-2009, for developing programs for professional development in science, technology, engineering, and math (STEM) subjects for practicing teachers.

21 The sums appropriated shall be expended by the University22 of Hawaii for the purposes of this part.

1 SECTION 15. There is appropriated out of the general revenues of the State of Hawaii the sum of \$ 2 , or so much thereof as may be necessary for fiscal year 2007-2008, and 3 4 the same sum, or so much thereof as may be necessary for fiscal year 2008-2009, to the Hawaii teacher cadet program fund. 5 SECTION 16. There is appropriated out of the Hawaii 6 teacher cadet program fund of the State of Hawaii the sum of 7 , or so much thereof as may be necessary for fiscal 8 Ś 9 year 2007-2008, and the same sum, or so much thereof as may be 10 necessary for fiscal year 2008-2009, for the operations of the teacher cadet program, including recruitment, retention, 11 12 training, and teacher support. 13 The sums appropriated shall be expended by the department 14 of education for the purposes of this part; provided that the Hawaii alliance for future teachers matches the amounts 15 appropriated, as provided in section 302A-401.5, Hawaii Revised 16 17 Statutes. SECTION 17. There is appropriated out of the general 18 revenues of the State of Hawaii the sum of \$ 19 , or so much thereof as may be necessary for fiscal year 2007-2008, and 20 21 the same sum, or so much thereof as may be necessary for fiscal year 2008-2009, for induction teacher mentoring for new teachers 22

S.B. NO. ¹⁹³³ S.D. 1

and teachers who are new to Hawaii based upon a fifteen-to-one 1 teacher to mentor ratio. Induction mentors, not new teachers, 2 3 should be recognized as educators who have demonstrated exemplary performance and these educators shall have the 4 opportunity to be induction teachers and their participation 5 shall be flexible. These teachers shall have full return rights 6 7 to their previous teaching positions. The sums appropriated shall be expended by the department 8 9 of education for the purposes of this part. PART IV. EARLY EDUCATION 10 11 SECTION 18. The early learning education task force, established by Act 259, Session Laws of Hawaii 2006, was 12 assigned the following task: 13 The task force shall develop a five-year plan with 14 annual increments for a coherent, comprehensive, and 15 sustainable early learning system that shall ensure a 16 continuum of quality early learning opportunities for 17 young children in the State from birth up to age five, 18 19 and which maximizes public and private resources. Among the guiding principles for the design of an early 20 education system is the fact that skilled and knowledgeable 21 22 early care and education practitioners are an essential key to 2007-1719 SB1933 SD1 SMA.doc 28

1	quality a	nd they must have access to education and training
2	opportuni	ties as well as receive equitable compensation and
3	opportuni	ties in order to succeed.
4	The	task force found there are five key elements to
5	proactive	ly increasing early educator capacity, namely to:
6	(1)	Expand the availability and reach of scholarships,
7		with state-funded financial aid, to support early
8		educators in completing college degrees and early
9		childhood education-related coursework;
10	(2)	Expand distance learning options for all early
11		educators;
12	(3)	Expand offerings of early childhood education-related
13		college courses and community-based training to meet
14		the needs of early educators and junior kindergarten
15		teachers who are currently in the workforce;
16	(4)	Establish a mentoring and coaching program to improve
17		the quality of early childhood programs statewide,
18		starting with a focus on programs for four-year-olds;
19		and
20	(5)	Establish a recruitment and retention initiative to
21		attract new entrants to the early childhood field,
22		encourage practitioners to improve their

29

S.B. NO. ¹⁹³³ S.D. 1

qualifications, and entice highly-qualified early 1 2 educators to remain in Hawaii's early learning 3 community. The legislature further finds that an effective incentive 4 program can be designed based on national models currently used 5 in states with successful programs. 6 7 The legislature also finds that additional funding is needed for teachers for junior kindergarten programs to ensure 8 9 an appropriate adult-to-student ratio of one adult for every ten 10 students. In addition, more can be done to identify unused public 11 school land or facilities for use by state early childhood 12 13 education programs. The purpose of this part is to: 14 15 (1)Establish an early educator incentive program that will provide funding for professional development, as 16 well as subsidies for employees of early education 17 schools who agree to continue their employment for a 18 19 minimum of one year in an early education school 20 affiliated with a public school;

2007-1719 SB1933 SD1 SMA.doc

S.B. NO. ¹⁹³³ S.D. 1

31

1	(2)	Encourage collaboration between state funded early
2		childhood education special education programs and
3		private early childhood education providers;
4	(3)	Develop early childhood education inclusion programs
5		in special education early childhood education
6		classrooms subsidized by the department of education
7		and the parents of the participating children;
8	(4)	Require the department of education to identify unused
9		public school land or facilities for use by state
10		early childhood education programs; and
11	(5)	Appropriate funds.
12	SECT	ION 19. Chapter 302A, Hawaii Revised Statutes, is
13	amended b	y adding a new section to be appropriately designated
14	and to re	ad as follows:
15	" <u>§30</u>	2A- Early educator incentive program. (a) There is
16	establish	ed an early educator incentive program within the
17	departmen	t for administrative purposes.
18	<u>(b)</u>	The program shall be administered by a nonprofit
19	organizat	ion, the contract for which shall be awarded through a
20	competiti	ve bid process.

32

1	<u>(c)</u>	The administrator of the program shall create a	
2	<u>competiti</u>	ve bid system for early education schools that are	
3	willing t	o participate in the program.	
4	(d)	Scholarships shall be awarded to residents of the	
5	State who	are currently caring for or employed to care for three	
6	or more u	nrelated children in private, public, or not-for-profit	
7	settings	that are either licensed or licensed-exempt while	
8	pursuing	an associate's degree or bachelor's degree in early	
- 9	childhood	education or certification as an early childhood	
10	education teacher, including certification as a special		
11	education teacher, at a college or university within the		
12	Universit	y of Hawaii system.	
13	<u>(e)</u>	Eligibility for scholarships shall be limited to	
14	persons w	ho:	
15	(1)	Provide direct early care and education to three or	
16		more unrelated children, including but not limited to	
17		persons employed as teachers, aides, assistant	
18		teachers, or family child care providers;	
19	(2)	Have been employed in their positions as early care	
20		and education professionals for a minimum of one year	
21		prior to applying for the scholarships;	

Page 33

33

1	(3)	Are enrolled in and pursuing courses of study that
2		will lead to an associate's or bachelor's degree as an
3		early childhood care and education professional or
4		certification as a teacher, including certification in
5		special education; and
6	(4)	Commit to teach in an early childhood care and
7		education setting for at least one year following the
8		course completion date; provided that if scholarships
9		are provided for two or more courses during the same
10		school term, the commitment to teach shall remain one
11		year.
12	<u>(f)</u>	The nonprofit organization shall establish guidelines
13	approved	by the department governing the implementation of the
14	scholarsh	ip program. The guidelines shall include but not be
15	limited t	o the following:
16	(1)	The level of academic achievement scholarship
17		recipients shall be required to maintain while
18		participating in the scholarship program;
19	(2)	The maximum scholarship a person may be awarded in a
20		designated period of time;
21	(3)	The allowable expenses, including tuition, fees,
22		books, and travel stipends;

S.B. NO. ¹⁹³³ S.D. 1

34

1	(4)	The financial responsibilities of scholarship
2		recipients should they fail to complete their course
3		requirements; and
4	(5)	The duties and obligations of scholarship recipients
5		upon graduation, including the minimum number of years
6		that they shall be required to work in early childhood
7		care and education in the State.
8	(g)	The nonprofit organization shall also provide wage
9	supplemen	ts to staff in licensed and licensed-exempt settings
10	that serve	e a minimum of three unrelated children; provided that
11	all teach	ing staff and administrative staff who supervise
12	teachers'	work with children in center-based programs, including
13	for-profi	t, faith-based, private, nonprofit, and subsidized
14	programs,	shall be eligible for wage supplements, regardless of
15	job or pro	ogram title.
16	Subj	ect to the availability of sufficient funds, the wage
17	supplement	ts shall be paid to early childhood practitioners in
18	the form o	of bonuses at six-month intervals. Six months of
19	<u>continuou</u>	s service with a single employer shall be required to
20	be eligib	le to receive a wage supplement bonus.
21	Wage	supplements shall be paid directly to program
22	organizat	ions, who in turn shall be responsible for paying these

1	supplements to their eligible employees. Organizations shall be		
2	responsible for providing the nonprofit organization with the		
3	required qualifying documents, including transcripts, to		
4	demonstrate their qualifications for a particular wage		
5	supplement level. Individuals receiving the wage supplements		
6	shall be currently working in a licensed or licensed-exempt		
7	setting that serves three or more unrelated children or they		
8	shall not be eligible to receive wage supplements. Wage		
9	supplements plus an individual's wages shall not exceed an		
10	amount equal to the wages of a public school teacher with		
11	commensurate education and experience."		
12	SECTION 20. Section 302A-401, Hawaii Revised Statutes, is		
13	amended by amending subsection (b) to read as follows:		
14	"(b) For the purposes of this section:		
15	"Eligible student" means a high school student in the		
16	eleventh or twelfth grade who:		
17	(1) Has passed a standardized test administered by the		
18	college that demonstrates the student's ability to		
19	succeed at the college level;		
20	(2) Is under the age of twenty-one as of September 1 of		
21	the school year in which the college course is taken;		
22	and

36

1 Has other qualifications deemed appropriate by the (3) 2 department of education or the University of Hawaii; 3 provided that subsequent qualifications do not restrict any student from taking the standardized 4 5 test. "Qualified course" means any vocational or academic course 6 7 offered by the University of Hawaii system that also applies to the department's graduation requirements or is otherwise 8 9 permitted by department rule or policy[-]; provided that 10 "qualified course" shall include any professional and career 11 education for early childhood course offered by the University of Hawaii system at the one-hundred level and above." 12 SECTION 21. Section 302A-1506.5, Hawaii Revised Statutes, 13 is amended to read as follows: 14 "[+]§302A-1506.5[+] Early childhood education facilities; 15 identifying sites[-]; inspections. (a) The department [of 16 education] shall identify unused public school facilities for 17 use by early childhood education programs. Suitable empty 18 19 classrooms, as determined by the department, shall be 20 [inventoried for potential use in] prepared and utilized for early childhood education programs [-]; provided that the 21 22 classrooms shall meet the licensing standards determined by the 2007-1719 SB1933 SD1 SMA.doc

37

1	departments of education and human services. Priority shall be			
2	given to <u>land or</u> facilities on sites with sufficient space for			
3	three or more classrooms to be renovated or constructed.			
4	(b) The department shall assist in the identification of			
5	possible construction sites for private providers to build early			
6	childhood education facilities.			
7	(c) The department shall inspect each early childhood			
8	education facility as frequently as it deems necessary for the			
9	proper operation, sanitation, and safety of the facility. The			
10	inspections shall be made at least once each year. All early			
11	childhood education facilities shall be open at all times to			
12	visitation and inspection by representatives of the departments			
13	of education, human services, and health, and by the designated			
14	representatives of the respective county fire departments.			
15	(d) The department may adopt rules pursuant to chapter 91			
16	to effectuate this section."			
17	SECTION 22. There is appropriated out of the general			
18	revenues of the State of Hawaii the sum of \$, or so			
19	much thereof as may be necessary for fiscal year 2007-2008, and			
20	the same amount, or so much thereof as may be necessary for			
21	fiscal year 2008-2009, for the early educator incentive program.			

S.B. NO. ¹⁹³³ S.D. 1

38

The sums appropriated shall be expended by the department
 of education for the purposes of this part.

SECTION 23. There is appropriated out of the general 3 revenues of the State of Hawaii the sum of \$ 4 , or so much thereof as may be necessary for fiscal year 2007-2008, and 5 the same amount, or so much thereof as may be necessary for 6 7 fiscal year 2008-2009, for junior kindergarten teachers, to 8 ensure that the student-to-teacher ratio in junior kindergarten 9 programs shall not exceed ten students for every one adult. 10 The sums appropriated shall be expended by the department of education for the purposes of this part. 11

SECTION 24. There is appropriated out of the general 12 revenues of the State of Hawaii the sum of \$ 13 , or so 14 much thereof as may be necessary for fiscal year 2007-2008, and 15 the same sum, or so much thereof as may be necessary for fiscal year 2008-2009, for the department of education to provide 16 17 subsidies to private early childhood education providers to 18 accept early childhood education special education students and 19 to hire early childhood education intervention specialists to 20 provide direct services to special education early childhood 21 education students in private programs.

39

1	The	sums appropriated shall be expended by the department
2	of educat	ion for the purposes of this part.
3		PART V. ACADEMIC ACHIEVEMENT
4	SECT	ION 25. Act 160, Session Laws of Hawaii 2006,
5	appropria	ted \$2,000,000, for purchasing science textbooks and
6	teaching	resources.
7	The	purpose of this part is to improve the academic
8	achieveme	ent of students in mathematics by providing funds for
9	the follo	wing purposes:
10	(1)	To purchase mathematics textbooks and other learning
11		materials, including virtual learning resources, for
12		articulated K-12 mathematics instruction within a
13		complex;
14	(2)	To provide funds for professional development in
15		mathematics, coaching, and the use of assessments to
16		provide appropriate mathematics interventions for
17		individual students; and
18	(3)	To provide funds for mathematics coaches and their
19 ·		training.
20	SECT	ION 26. There is appropriated out of the general
21	revenues	of the State of Hawaii the sum of \$, or so

S.B. NO. ¹⁹³³ S.D. 1

1 much thereof as may be necessary for fiscal year 2007-2008, for 2 the purposes of: 3 (1) Purchasing mathematics textbooks and other mathematics 4 learning materials; 5 (2) Funding professional development for teachers of 6 mathematics, mathematics coaching; Conducting assessments to provide appropriate 7 (3) mathematics interventions for individual students; and 8 Funding for mathematics coaches and their training. 9 (4)The sum appropriated shall be expended by the department of 10 11 education for the purposes of this part. 12 PART VI. MISCELLANEOUS 13 SECTION 27. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored. 14 15 SECTION 28. This Act shall take effect on July 1, 2007; provided that sections 10, 11, 19, 20, and 21 shall be effective 16 upon approval. 17

Report Title:

Education; Omnibus Accountability Act

2007-1719 SB1933 SD1 SMA.doc

Description:

Provides for academic and fiscal accountability in education by addressing: (1) funding for fiscal and academic accountability and the creation of district level business and educational services centers; (2) appropriates funds for specialized high schools linked to Hawaii's workforce development needs; (3) enhancing the role of the college of education and the University of Hawaii in Hawaii's educational research and policy development; and (4) creating an early education initiative designed to attract and retain more early education teachers and to provide public land and facilities for early education programs. Appropriates funds for mathematics textbooks and other mathematics learning materials, professional development for teachers of mathematics, mathematics coaching, and the use of assessments to provide appropriate mathematics interventions for individual students. (SD1)
