
A BILL FOR AN ACT

RELATING TO HOUSEHOLD ENERGY DEMAND.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that electric clothes
2 dryers can consume over ten per cent of a household's energy
3 demand. Reducing the use of clothes dryers could substantially
4 decrease the amount of fossil fuel electricity that Hawaii's
5 households require.

6 Simple clotheslines make efficient use of the sun and wind,
7 two resources Hawaii is naturally blessed with, to dry clothes.
8 For aesthetic reasons, however, many homeowner associations use
9 bylaws, covenants, or contracts to prohibit or render
10 ineffective the use of clotheslines to dry clothes. While such
11 an aesthetic condition might have been acceptable twenty years
12 ago, it makes no sense today to restrict smart energy-saving
13 behavior given what we now know about global climate change.

14 The purpose of this Act is to allow for the use of
15 clotheslines on any privately owned single-family residential
16 dwelling, with limited restrictions.

1 SECTION 2. Chapter 196, Hawaii Revised Statutes, is amended
2 by adding a new section to be appropriately designated and to
3 read as follows:

4 "§196- Use of clotheslines for energy efficiency;
5 placement. No person shall be prevented by any covenant,
6 declaration, bylaws, restriction, deed, lease, term, provision,
7 condition, codicil, contract, or similar binding agreement,
8 however worded, from installing and using a clothesline for the
9 purpose of drying clothes on the premises of any single-family
10 residential dwelling that the person owns; provided that the
11 reasonable regulation of the location of clotheslines is allowed
12 for the purpose of:

- 13 (1) Enabling access to buildings;
14 (2) Providing for the evacuation of buildings in case of
15 fire or other emergency; and
16 (3) Screening drying clothes and clotheslines from view
17 from neighboring streets."

18 SECTION 3. New statutory material is underscored.

19 SECTION 4. This Act shall take effect upon its approval.

Report Title:

Clotheslines; Residential Dwellings; Household Energy Demand

Description:

Allows for the use of clotheslines on any privately owned single-family residential dwelling regardless of a contrary provision in any instrument or contract. Allows for restrictions. (SD1)
