# SENATE CONCURRENT RESOLUTION

REQUESTING THE DEPARTMENT OF EDUCATION AND THE UNIVERSITY OF HAWAII, IN CONSULTATION WITH MEDICAL AND BRAIN INJURY EXPERTS, TO WORK WITH THE ATHLETIC COMMUNITY TO DEVELOP A STATEWIDE CONCUSSION PREVENTION AND AWARENESS PROGRAM FOR YOUNG ATHLETES.

1           WHEREAS, closed head injuries, also known as concussions,  
2 are a serious and growing public health issue for athletes  
3 involved in contact sports; and  
4

5           WHEREAS, mild concussions can be difficult to detect and,  
6 along with more serious head injuries, can have long-term  
7 effects such as memory loss, impairments in attention, and motor  
8 deficits; and  
9

10           WHEREAS, the culture of playing through pain or "toughing  
11 it out" can put athletes at risk, and allowing an athlete to  
12 return to play too early after a concussion increases the chance  
13 of more serious brain injury; and  
14

15           WHEREAS, concussions have a cumulative effect and each  
16 concussion makes a person more vulnerable to another concussion;  
17 and  
18

19           WHEREAS, when a second concussion follows shortly after an  
20 initial one, it can cause rapid brain swelling that can result  
21 in coma or even death in rare cases; and  
22

23           WHEREAS, recent research reveals that multiple concussions  
24 may also lead to clinical depression; and  
25

26           WHEREAS, five to eight per cent of athletes in state public  
27 high school suffer concussions each year; and  
28

1 WHEREAS, at the high school level, football is the riskiest  
2 sport when it comes to concussions, followed by girls soccer;  
3 and  
4

5 WHEREAS, awareness about the prevention, identification,  
6 and treatment of concussions is lacking; now, therefore,  
7

8 BE IT RESOLVED by the Senate of the Twenty-fourth  
9 Legislature of the State of Hawaii, Regular Session of 2008, the  
10 House of Representatives concurring, that the Department of  
11 Education and the University of Hawaii are requested to work  
12 with the State's athletic community, in consultation with  
13 medical and brain injury experts, to develop a statewide  
14 concussion prevention and awareness program directed at young  
15 athletes; and  
16

17 BE IT FURTHER RESOLVED that the goal of such a program  
18 would be to educate student athletes, parents, educators,  
19 athletic directors, and the general public about the symptoms  
20 and dangers of concussion and to encourage concussion  
21 prevention; and  
22

23 BE IT FURTHER RESOLVED that the architects of the program  
24 are requested to recommend strategies for program  
25 implementation; and  
26

27 BE IT FURTHER RESOLVED that certified copies of this  
28 Concurrent Resolution be transmitted to the Superintendent of  
29 Education, the Chairperson of the Board of Education, the  
30 President of the University of Hawaii, the President of the  
31 Hawaii Medical Association, the Executive Director of the Hawaii  
32 High School Athletic Association, and the President of the Brain  
33 Injury Association of Hawaii.  
34  
35  
36
