
SENATE CONCURRENT RESOLUTION

REQUESTING THE HAWAII TOURISM AUTHORITY, IN COOPERATION AND CONJUNCTION WITH THE DEPARTMENT OF HEALTH, UNIVERSITY OF HAWAII SCHOOL OF OCEAN AND EARTH SCIENCE AND TECHNOLOGY, HONOLULU EMERGENCY SERVICES DEPARTMENT, AND APPROPRIATE WATER SAFETY ORGANIZATIONS TO FURNISH, AS PART OF A MULTI-LINGUAL INFORMATION AND EDUCATION PROGRAM, INFORMATION FOR VISITORS ON WATER SAFETY AND RECREATIONAL HAZARDS.

1 WHEREAS, according to the Department of Health in a May 23,
2 2007 article in the *Honolulu Star Bulletin*, statistics show that
3 Hawaii has the second-highest resident drowning rate in the
4 United States, and if drowning included visitors, Hawaii may
5 lead the nation; and

6
7 WHEREAS, according to the Department of Health, in a
8 June 18, 2006 article in *The Honolulu Advertiser*, seventy-seven
9 drownings occurred statewide in 2006, up from seventy-one in
10 2004, which previously was a fifteen-year high; the article
11 quoted a Department of Health official as saying that the
12 statistics definitely point to a lack of awareness, and most
13 people would agree we need to do more education; and

14
15 WHEREAS, an August 26, 2006 article in *The New York Times*,
16 stated that drowning claims far more lives in Hawaii than
17 headline grabbing shark attacks, especially with Hawaii's
18 coastlines of sand, coral reef, and lava rock creating
19 shorebreaks and currents that cause many swimmers, even
20 competent ones, to encounter entirely unexpected peril; and

21
22 WHEREAS, *The Garden Island News* in an article of January 1,
23 2008, reported that on August 5 and 6, 2007, there were a total
24 of sixteen rescues in Kauai waters, ten visitors and six local
25 people who were rescued from deadly rip currents during strong
26 tradewind conditions; two Kapa'a surfers had recently responded
27 to someone on shore at Donkey Beach waiving frantically for help
28 to rescue a Tennessee family of six all in severe distress in
29 the water, with all six saved by the surfers but four landed up

1 in the emergency room for aspirating seawater; the father stated
2 that they had just arrived on Kauai to stay at a private
3 residence and thus had no chance to be warned by hotel
4 concierges or activities desk personnel; and
5

6 WHEREAS, it was further reported in *The Honolulu Advertiser*
7 on January 30, 2007, that a key feature of a water safety
8 warning program to protect visitors is information, and for
9 years, lifeguards have been fighting a difficult battle to
10 educate people about ocean hazards; many of them have launched
11 their own individual efforts (often at their own expense) to
12 warn visitors; and
13

14 WHEREAS, visitors to Hawaii often learn about an area from
15 a guidebook; of particular concern to some is the issue of
16 internet and travel guides that direct visitors, who are often
17 inexperienced swimmers, to remote beaches, cliffs, and dive
18 spots that may not have lifeguards; for example, on Oahu along
19 the cliffs of Maunalua Bay in Hawaii Kai, drownings and rescues
20 are a regular occurrence, despite warning signs, at two popular
21 cliff-diving places, Spitting Caves and China Walls; and
22

23 WHEREAS, many interventions to prevent drowning have been
24 undertaken to get information to visitors via airline water
25 safety videos, hotel concierges, car rental companies, visitor
26 information websites, and baggage claim videos; and
27

28 WHEREAS, the Hawaii Tourism Authority has the
29 responsibility, among other things, under section 201B-3(a)(21),
30 Hawaii Revised Statutes, to establish a public information and
31 educational program to inform the public of tourism and
32 tourism-related problems, which by reasonable interpretation
33 includes the prevention of drowning; and
34

35 WHEREAS, section 201B-3(c), Hawaii Revised Statutes,
36 further provides that the Hawaii Tourism Authority shall do any
37 and all things necessary to carry out its purposes and to
38 exercise its powers and responsibilities under law; now,
39 therefore,
40

41 BE IT RESOLVED by the Senate of the Twenty-fourth
42 Legislature of the State of Hawaii, Regular Session of 2008, the
43 House of Representatives concurring, that the Hawaii Tourism
44 Authority is requested in cooperation and conjunction with the

1 Department of Health, Honolulu Emergency Services Department,
2 University of Hawaii School of Ocean and Earth Science and
3 Technology, and appropriate water safety organizations to
4 furnish, as part of a multi-lingual information and education
5 program, information for visitors on water safety and
6 recreational hazards; and

7

8 BE IT FURTHER RESOLVED that the information for visitors on
9 water safety and recreational hazards be disseminated by the
10 best means available to inform incoming visitors to Hawaii,
11 whether by brochure or on-board video or other means such as
12 website; and

13

14 BE IT FURTHER RESOLVED that the point of dissemination
15 include the incoming airline flights, hotel rooms, and Hawaii
16 Superferry; and

17

18 BE IT FURTHER RESOLVED that the Department of Health,
19 Honolulu Emergency Services Department, and the University of
20 Hawaii School of Ocean and Earth Science and Technology are
21 requested to cooperate with and assist the Hawaii Tourism
22 Authority in producing in composing the content of information
23 for visitors on water safety and recreational hazards and multi-
24 lingual dissemination thereto; and

25

26 BE IT FURTHER RESOLVED that the State Department of
27 Transportation is requested to work with the airlines on the
28 dissemination of the information for visitors on water safety
29 and recreational hazards, on all incoming flights to Hawaii; and

30

31 BE IT FURTHER RESOLVED that Hawaii Superferry is requested
32 to disseminate to its passengers information for visitors on
33 water safety and recreational hazards; and

34

35 BE IT FURTHER RESOLVED that the Hawaii Tourism Authority
36 disseminate this Senate Concurrent Resolution to every hotel in
37 the State and every cruise ship company operating in Hawaii; and

38

39 BE IT FURTHER RESOLVED that the cruise industry inform its
40 passengers of the information for visitors on water safety and
41 recreational hazards; and

42

43 BE IT FURTHER RESOLVED that certified copies of this
44 Concurrent Resolution be transmitted to the Director of Health;

1 Dean of the University of Hawaii School of Ocean and Earth
2 Science and Technology, Director of Transportation; Executive
3 Director of the Hawaii Tourism Authority and each member of the
4 Hawaii Tourism Authority; the Mayor and every councilmember of
5 each county; Director of the Honolulu Emergency Services
6 Department of the City and County of Honolulu; the President and
7 Chief Executive Officer of the Hawaii Superferry; and the
8 manager of Hawaii operations for Hawaiian Airlines, American
9 Airlines, Continental Airlines, Delta Airlines, Northwest
10 Airlines, US Air, United Airlines, Continental Micronesia, TWA,
11 Air Canada, Air New Zealand, Alaska Airlines, Japan Airlines,
12 Jalways, All Nippon Airways, Air Japan, Jetstar, Korean Air,
13 Philippines Airlines, Quantas Airways, WestJet, China Airlines,
14 Omni Air International, US Airways, and America West.
