Grants-in-Aid Application
To The Legislature, State of Hawaii
January 31, 2008

By Waikoloa Community Development Corporation—
Waikoloa Village CERT Team 1

I. Background and Summary

The Waikoloa Village CERT Team 1 is sponsored by Waikoloa Community Development Corporation (WCDC). The WCDC was formed in the fall of 2003 as a 501(c)(3) non-profit organization whose purpose is to promote community development, facilities and related programs, benefiting all the residents of the greater Waikoloa region including Waikoloa Village, Paniolo Estates, Puako, and the resort areas of the south Kohala area. CERT Team 1 currently consists of nine residents of the community who completed training in October and November, 2007 at a series of workshops offered by the Hawaii Fire Department and Civil Defense. Following training it is the responsibility of team members to organize and prepare to meet emergencies as first responders until professional help arrives.

1. Goals and Objectives

The purpose of this proposal is to purchase the necessary equipment and supplies needed for the CERT Team to respond effectively to save lives harmed by earthquakes, fires, hurricanes, flooding (tsunamis) and terrorism. We regard this primarily as a one-time request (no annual renewal); although minor expenses might be incurred in the future to renew supplies or replace damaged or worn equipment. Like insurance, we all tend to ignore preparation like this until it is needed.

2. Public Purpose and Need to be Served

It takes time for emergency response agencies to set up and prepare for an organized response. Damaged roads and disrupted communication systems also may restrict their access to critically affected areas. Waikoloa has only one access road into the community and is at risk of being cut off from support.

perhaps for a day or more following a disaster. With their first-response capabilities CERT team members can move through the community to extinguish small fires, turn off damaged natural gas inlets, perform light search and rescue, and render basic medical treatment.

3. Target Population to be Served

The CERT Team will provide its services primarily to 10,000+ residents of Waikoloa Village. It will also serve the many visitors and workers who are in the community when a disaster strikes and the Kohala Resorts' evacuated guests at Waikoloa School emergency shelter, especially in the event of a tsunami.

4. Geographic Coverage

The geographic area is circumscribed by the boundaries of Waikoloa Village. CERT Teams are expected to confine their activities to their own communities, unless individually called upon to assist when they are outside the community.

II. Service and Summary Outcomes

1. Scope of Work, Tasks and Responsibilities

CERT Teams are capable of contributing the following knowledge and skills to local emergency response: disaster preparedness including hazard identification and mitigation in the home, workplace and community; fire safety by understanding fire chemistry, size-up, fire fighting resources and small fire suppression; disaster medical operations with respect to treating life-threatening conditions, triage, assessments and treatments of various injuries and hypothermia; light search and rescue operations including size-up, cribbing, and victim transport; CERT organization, task assignments, and decision-making along with documentation of response activities; disaster psychology both of team well-being and survivor trauma.

2. Annual Timeline for Results and Outcomes

The Waikoloa CERT Team meets monthly to maintain organizational integrity and preparedness. Between meetings, members of the team use email to share information about training opportunities, equipment and supplies, and other

emergency preparedness issues. The team can become active in response to emergencies as soon as it acquires the necessary equipment. The team will maintain preparedness at all times as one outcome of having equipment on hand. Since disasters have no timeline, the results and outcomes of emergency response will be episodic.

3. Quality Assurance and Evaluation Plans

Waikoloa Community Development Corporation, our sponsor, managed \$84,910 for Firewise which was federal funds, \$10,000 in the Skate Park funds came from a County of Hawai'i grant, and \$37,700 for Ho'oko Street Park, also a County grant. They are about to receive \$10,000 from the County of Hawai'i for the Waikoloa Community Development Corporation's Logistics Team.

As far as emergency response, the CERT Team integrates ongoing assessment of effectiveness, as part of its activity. Evaluation done by all team members will occur immediately following the event in a safe staging area, and at subsequent monthly meetings. The CERT team already is accountable and reports monthly on its activities to the community newsletter, the Waikoloa Breeze. The team will also seek feedback from professional responders following each response episode and participate in refresher training exercises each year.

4. Measures of Effectiveness to Report to State Funding Agency

The CERT Team plans to acquire the equipment and supplies detailed in the attached budget. We will provide a report detailing how the funds have been spent. In addition, the CERT Team will measure effectiveness in reports using the following criteria: regular meetings and content, active membership, skills maintained and upgraded, and in the case of emergency response, the number of survivors rescued, treated, and recovered along with the various procedures and treatments undertaken with the use of equipment and supplies.

III. Financial Budget

1. Budget Detailing Cost of Request (attached)

2. Quarterly Funding Requirements 2008-2009.

Quarter 1	Quarter 2	Quarter 3	Quarter 4	Total Grant
\$19,914	0	0	0	\$19,914

The CERT requests funding be provided as soon as the application is approved. Disaster happens without warning. It is important to be properly equipped as soon as possible.

IV. Experience and Capability

A. Necessary Skills and Experience

The President of Waikoloa Community Development Corporation is a Certified Public Accountant and has operated a non-profit corporation for many years. The financial reporting will be overseen by her to assure it is accurate and efficient. In regards to the CERT training, continuing advancement in CPR, first aid via lecture/demonstration, as well as training and **hands-on** exercises to simulate actual disaster response by professionals will be ongoing. Some members of the CERT team have additional training and experience, for example through the Red Cross, Civil Air Patrol, and experience on a CERT Team in other communities. All team members have completed the CERT training course taught by veterans of the Hawaii Fire Department and funded by FEMA. The types of training are listed in IIA above. Team members will continue to update their skills on-the-job, in annual training exercises and monthly meetings, discussions, 'ride-alongs' with EMTs and participating in the training of future CERT team members.

B. Facilities

The team holds meetings at the Waikoloa Community Center. Team members have no equipment or supplies except for what contributes to their preparedness in their own homes. The request for funds includes a storage shed for equipment and supplies to be located at the Community Center or on the land the Waikoloa Fire Station is on. Members will have easy access using their own vehicles, bicycles or even walking to either of these locations as the initial staging area.

V. Personnel: Project Organization and Staffing

A. Proposed Staffing, Staff Qualifications, Supervision and Training

Currently, the Waikoloa Village CERT Team 1 has nine members, all having completed the training mentioned above. More community residents are preparing to join the team after they complete training courses being offered several times per year, while others may move out of the community, or otherwise

not continue to participate. This funding proposal is based on the current level of membership, which is likely to remain stable. The team we are organizing will total 15± members. We affirm other CERTS will form here, as well.

B. Organizational Chart

The Waikoloa CERT Team operates as a sub-unit of the Waikoloa Community Development Corporation. The team has a POC, Point of Contact/chairperson who constructs agendas, conducts meetings, and communicates with members who participate in training, set up 'ride-alongs' with professionals and exercises to test CERTs in role playing situations. The structure of the team during a response is flexible, as training allows members to construct an on-site organization to deal effectively with any disaster.

VI. Other

A. Litigation: None

B. Licensure or Accreditation

All members of the Waikoloa CERT Team have completed training required to receive an accreditation certificate and have formed an active organization. Licensure is the CERT card that authorizes participation.

**DECLARATION STATEMENT
APPLICANTS FOR GRANTS AND SUBSIDIES
CHAPTER 42F, HAWAII REVISED STATUTES**

The undersigned authorized representative of the applicant acknowledges that said applicant meets and will comply with all of the following standards for the award of grants and subsidies pursuant to section 42F-103, Hawaii Revised Statutes:

- (1) Is licensed or accredited, in accordance with federal, state, or county statutes, rules, or ordinances, to conduct the activities or provide the services for which a grant or subsidy is awarded;
- (2) Comply with all applicable federal and state laws prohibiting discrimination against any person on the basis of race, color, national origin, religion, creed, sex, age, sexual orientation, or disability;
- (3) Agree not to use state funds for entertainment or lobbying activities; and
- (4) Allow the state agency to which funds for the grant or subsidy were appropriated for expenditure, legislative committees and their staff, and the auditor full access to their records, reports, files, and other related documents and information for purposes of monitoring, measuring the effectiveness, and assuring the proper expenditure of the grant or subsidy.

In addition, a grant or subsidy may be made to an organization only if the organization:

- (1) Is incorporated under the laws of the State; and
- (2) Has bylaws or policies that describe the manner in which the activities or services for which a grant or subsidy is awarded shall be conducted or provided.

Further, a grant or subsidy may be awarded to a non-profit organization only if the organization:

- (1) Has been determined and designated to be a non-profit organization by the Internal Revenue Service; and
- (2) Has a governing board whose members have no material conflict of interest and serve without compensation.

Further, the undersigned authorized representative certifies that this statement is true and correct to the best of the applicant's knowledge.

January 25, 2008

Aloha!

At our annual public meeting on January 15, 2008, the members of Waikoloa Community Development Corporation voted unanimously to include Waikoloa Village CERT (Community Emergency Response Team) under our non-profit umbrella and to initiate a relationship with the purposes under which they have formed. WCDC is first and foremost an organization that strives for the betterment of the Waikoloa Village community. We support the efforts of CERT to assist our residents in the event of a disaster.

We urge you to seriously consider funding the supplies and equipment they need to do their job. The members, homeowners in the area, are volunteers who should be given your respect and support for the time and training they have contributed to assist the governmental agencies, such as the Hawaii Fire Department, when called upon to do so.

If you have any questions about WCDC's role in supporting CERT, please contact me at the numbers above.

Mahalo,

Sharon Davis
President

Dear Applicant:

We are pleased to inform you that upon review of your application for tax exempt status we have determined that you are exempt from Federal income tax under section 501(c)(3) of the Internal Revenue Code. Contributions to you are deductible under section 170 of the Code. You are also qualified to receive tax deductible bequests, devises, transfers or gifts under section 2055, 2106 or 2522 of the Code. Because this letter could help resolve any questions regarding your exempt status, you should keep it in your permanent records.

Organizations exempt under section 501(c)(3) of the Code are classified as either public charities or private foundations. During your advance ruling period, you will be treated as a public charity. Your advance ruling period begins with the effective date of your exemption and ends with advance ruling ending date shown in the heading of the letter.

Shortly before the end of your advance ruling period, we will send you Form 8734, Support Schedule for Advance Ruling Period. You will have 90 days after the end of your advance ruling period to return the completed form. We will then notify you, in writing, about your public charity status.

Please see enclosed Information for Exempt Organizations Under Section 501(c)(3) for some helpful information about your responsibilities as an exempt organization.

**WAIKOLOA COMMUNITY DEVELOPMENT CORPORATION
RESOLUTION TO SPONSOR
WAIKOLOA VILLAGE (CERT)
COMMUNITY EMERGENCY RESPONSE TEAMS**

WCDC RESOLVES TO BE THE SPONSORING ORGANIZATION FOR WAIKOLOA VILLAGE COMMUNITY EMERGENCY RESPONSE TEAMS WITH THE FOLLOWING CONDITIONS AND RESTRICTIONS:

1. The CERT team project manager, Cindy Kester, will act as agent for WCDC on all legal documents pertaining to the project.
2. The CERT team will be responsible for all financial reporting pertaining to the project, and will provide WCDC with an accounting quarterly. WCDC will assist the CERT team when such assistance is needed.
3. The CERT team will obtain additional insurance coverage if needed for the project and will be covered by the WCDC Directors Insurance during the life of the project.
4. The CERT team will be represented at all WCDC Board Meetings to report on the project when asked.
5. The CERT team will obtain approval from WCDC on all advertising, public announcements, etc. when the WCDC name is used. WCDC will not withhold approval without good cause.

Resolved and accepted this 15th day of January, 2008.

Present: Sharon Davis – President, Treasurer
Shirley Rodrigues – Secretary
Michael Godd – Vice-President

Re: Grant in Aid Request - Waikoloa CERT

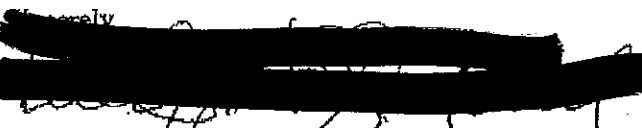

Dear Aaron,

I write in strong support of the request by the Community Emergency Response Team (CERT) of Waikoloa Village on the Island of Hawai'i for Grant in Aid funding. Waikoloa Village, as you know, is a rural community of more than 7,000 residents some twenty miles distant from the nearest large town (Waimea). With current zoning approvals and on-going construction, Waikoloa population could double in the next ten years.

Therefore, emergency preparedness is not simply a useful amenity but essential to the health and safety of all residents. To add to community concerns, Waikoloa has only one road access in and out of the community, making it the largest cul-de-sac in the State. There are no currently approved plans by the County nor the State to rectify this critical infrastructure shortfall. In these circumstances, the training and resourcing for a CERT is vital.

Recently, the Waikoloa CERT received initial training to provide the needed emergency services in a crisis situation. However, in order to properly employ this training, the CERT requires the necessary supplies and equipment. The Grant in Aid request, if approved, would permit the team to be equipped to meet this urgent community need. Properly equipped the CERT would be able to assess damage, perform light search and rescue, assist in disaster medical operations, extinguish small fires, and save lives.

As the Council Representative for Waikoloa, I urge approval of the Grant in Aid request. With this approval, the CERT would be better able to enhance the community's emergency services and make a critical difference in Waikoloa's quality of life.

Re: Grant in Aid request for Waikoloa Village CERT Team 1

Dear Aaron Nyuha and Eric Nouchi,

I am a training instructor for the CERT (Community Emergency Response Team) program for the Island of Hawai'i. I have helped train all the individuals working on Waikoloa Village CERT Team 1. I admire their groups' effort in getting organized and involved.

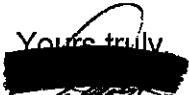

CERT teams need emergency equipment and supplies to respond effectively to damage caused by earthquakes, fires, hurricanes, flooding and terrorism. Waikoloa Village has only one access road and is at risk of being cut off from outside support. Emergency services may not arrive for a day or more following a disaster. The Waikoloa CERT is trained and now they need equipment and supplies to do the greatest good for the greatest number of victims. Properly equipped, they will be able to assess damage, perform light search and rescue, provide disaster medical operations, extinguish small fires and **save lives**.

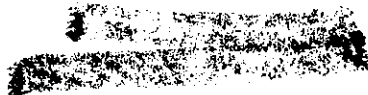

With a State of Hawai'i '**Grant in Aid**', the Waikoloa CERT can be an asset to the Waikoloa Village community and to us, the professional emergency workers who they support.

Over the past several years, CERT organizations have saved lives in other states. It is our goal to have the help of community members like these when disaster strikes. They have demonstrated their abilities in role-playing situations that test their leadership, their ability to think in emergencies and to know how to save victims injured in a disaster. They will help us do our jobs in a greater capacity when the time comes and we are not able to be there immediately.

You can contact me at 808-324-0013 if you have any questions. I would be happy to answer them for you if I can.

Yours truly,

Captain Dennis Iyo
Hawai'i County Fire Department/CERT Trainer

Re: Grant in Aid request for Waikoloa Village CERT Team 1

Dear Aaron Nyuha and Eric Nouchi,

As General Manager of the Waikoloa Village Association (WVA), I am writing in support of nine residents of the village who participated in CERT training offered by the Hawai'i County Civil Defense Department last fall. These residents are forming a CERT team, and I share their concerns about emergency preparedness in the village.

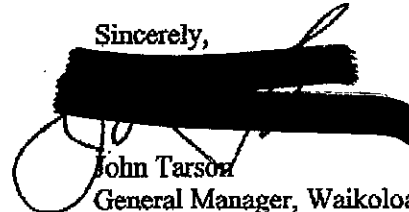

Waikoloa Village, located in South Kohala, has just one access road, and is isolated from the rest of the island. We risk being cut off from outside support if there is damage to Waikoloa Road. Emergency services may not arrive for a day or more following a disaster, and the community will be on its own for that time. The residents of the community need to be ready.

The Waikoloa CERT members have received training. Now they need equipment such as fire extinguishers, spotlights, cribbing, and pry bars. They need basic medical supplies such as bandages, splints and spine boards. They also need helmets, helmet lights, work gloves, and other protective equipment.

With a State of Hawai'i Grant in Aid, the Waikoloa CERT will purchase the equipment and supplies they need to help the residents of Waikoloa Village and assist the professional emergency workers.

I strongly support the Waikoloa Village CERT Team 1 Grant in Aid application to help us be prepared for the next emergency.

Sincerely,

John Tarson

To Whom it May Concern in the Hawaii State Legislature

I am writing to express support of Waikoloa Village CERT Team 1 Grant in Aid request.

This Team has had a focus and vision ever since we formed the Community Development Planning meetings under the umbrella of the Waikoloa Community Development Corporation, The CDP Logistics Team members and volunteers. I am the liaison for Hawaii County's CDP process, and as an extension agent for the University of Hawai'i, I help implementation of the procedures that promote community involvement in deciding what issues are important to them. We have heard in many town meetings from our homeowners and renters, that having an emergency plan in the event of a disaster is a high priority.

Please fund their supplies and equipment, so that this emergency plan can actually work. I know April Lee as one of the organizers of the Waikoloa Village CERT Team 1 and she has been active in the Community Development Plan (CDP) process. This group has organized and has demonstrated their commitment to serving the Waikoloa area.

Sincerely,

Sara Peck, UH Sea Grant College Program Coastal Resources Extension Agent

Re: Waikoloa Village CERT Team 1 Grant in Aid

Dear Aaron Nyuha;

As Vice Principal of the Waikoloa Elementary & Middle School, I am of course concerned with the wellbeing of the children and families in our remote village. The emergency shelter in Waikoloa Village is located at our school and was upgraded to qualify to be a Red Cross Shelter two years ago when construction was completed on its alteration. We've had recent experiences with fires and earthquakes that have alerted us to the challenges we have in our isolated spot and to our needs. I'm asking for the help from you and your committee to better prepare us for future emergencies. We need help with funds for the medical supplies, equipment, storage facility and protective gear and cribbing materials that are in the Waikoloa Village CERT Team 1's list.

In addition to my job, I have the responsibility to listen to this community and report to the South Kohala Steering Committee for the County of Hawai'i, as an appointed member. I know when The Waikoloa Village CERT Team 1 had their first visions as this came out of our CDP (Community Development Plan) meetings and processes of which I was a part. The residents in this team responded to the requests for a solution to the geographical limitations of our unique area. Few people understand how isolated Waikoloa really is: if you're not coming here, you don't pass through here on the way to anywhere. We are an island on an island and could wait a long time before the professionals could rescue us in a disaster.

Our children, families, elderly and infirmed thank you for your thoughtful review of the specific needs of our quickly expanding Waikoloa area. The projections from the CDP indicate a rather staggering rate of growth within the next decade. The County's Kamakoa Waikoloa Workforce housing project broke ground on December 29, 2007, and will add 1100 new units to the Village in the next 3-5 years. And those numbers pale by comparison with the developers' projections. We already have problems with our @3700 homes during an emergency, and things will only get more challenging as we grow.

Our community has many good and sincere people who can help each other in the event of a disaster. What we need is the means to assist those who are in immediate medical risk--- those who can't breathe, are in shock or are bleeding profusely. The CERTs are trained to deal with this if properly supplied.

Thank you for your positive consideration of this request.

Sincerely yours,

Ruth Smith

Re: Grant in Aid request for Waikoloa Village CERT Team 1

Dear Aaron Nyuha and Eric Nouchi,

I am one of the South Kohala Steering Committee members of the Community Development Plan for The County of Hawai'i. I see the need for the formation and establishment of The Waikoloa Village CERT Team 1, which this Grant in Aid request, supports. I have worked with some of the members of this Team, especially April Lee and Cindy Kester. These individuals are committed to completing the link between our residents and the agencies of government that protect them in disasters. We have experienced fires, earthquakes and threat of a major hurricane; all within the last one and one-half years. Of all the services that need to be in place, this is a priority. We may not be so lucky next time. April has attempted to identify those who cannot evacuate themselves. The motives for their work and request for these funds are completely selfless. The input from the small group meetings in our CDP Community Development Plan process emphasized the importance of the ability to deal with the population in the Waikoloa area. Only about 22% of our population of over 10,000, that can fit into the shelters. It may be these first responders that can keep the order in our community, because of this fact alone.

I am sure there are many worthy purposes you will have to select from, in awarding these grants. I hope you will vote to get them their supplies and equipment. Without them, there is little they can do for an area that is isolated from major towns like Kailua-Kona and Kamuela. The 1000's of people in the resorts may depend on them, as well.

Mahalo nui me ka pono,

Pohaj Kirkland

Re: Grant in Aid request for Waikoloa Village CERT Team 1

Aloha Aaron Nyuha,

Funding this project will help to establish the practical means to apply the training Homeland Security and FEMA are directing into this vital area for the protection of our communities. As with many well-intentioned plans, if there is no funding to provide the means to rescue victims with the supplies and equipment the first responders need, then what is the use in training? No matter what emergency medical know-how; without these supplies, means of communication and protection for the participants, our communities' families, elderly and infirmed, will not have the opportunity to survive long enough for the professionals to arrive and help.

The partnership of the Hawai'i Fire Department and the Hawai'i Civil Defense with the CERT shows the importance of community members in implementing the initial life-saving procedures that they are trained in. That we must pay attention to our isolated location and lack of medical facilities and staff has been made imperative since we have had the worst earthquake on our island in 20+ years and the 'reality check' Hurricane Flossie gave us. I grew up helping my dad/doctor in a town of about 1000 pop. in Alaska in the 60's. Our clinic in the basement of our home brought some of the most life-altering experiences to those of our community. They have told me how much better they live because someone cared and knew what to do.

In closing, I would like to say that I'm proud to be a part of this organization. We will, by our presence help, avoid panic during a crisis. The generous over-sight and umbrella of protection to The State of Hawai'i provided by Waikoloa Community Development Corporation invites your scrutiny with positive results. Please do what the Federal government intended; for the public to receive the benefits of this valuable training.

Me ka pono,

April K. Lee, BA/Member, Waikoloa Village CERT Team 1
